“Record total revenue, net income, loan production and net loan growth led the way to a 19% increase in diluted earnings per share and solid returns on average assets and equity of 1.90% and 17.09%.”

A TRUSTED PARTNER since 1904

Ja Hillebrand
Chief Executive Officer

To Our Stockholders

I am pleased to report that 2019 was an excellent year for Stock Yards Bancorp and our strongest to date. Record total revenue, net income, loan production and net loan growth led the way to a 19% increase in diluted earnings per share and solid returns on average assets and equity of 1.90% and 17.09%. In addition to completing our first bank acquisition since 2013, this past year was highlighted by significant organic growth across our Louisville, Cincinnati and Indianapolis markets along with exceptional credit quality metrics.

While Wealth Management & Trust continues to lead our non-interest revenue growth, I'm especially proud of our continued diversification

in regard to our non-interest revenue sources. We had record contributions from debit and credit card income along with treasury management fees and mortgage services. This diversity will help us weather the ups and downs of business cycles.

I am truly grateful for our outstanding senior management team and all of our employees throughout our company. I attribute our success to the team we've built and their ability to execute our proven business model. Our amazing growth in 2019 underscores the talent of all our dedicated employees.

STOCKHOLDER RETURNS

We continue to pursue strategies to enhance stockholder value, including a substantial and sustained dividend payout ratio. As was the case in each of the previous five years, our Board of Directors increased the Company's quarterly cash dividend twice during 2019. The Company has now raised its quarterly dividend rate a total of 12 times since the beginning of 2013, resulting in a cumulative increase of 93% over this period.

“For the 10-year period ended with 2019, Stock Yard Bancorp total return was 282% compared to a 197% increase for the commonly used NASDAQ Bank Index.”

While there are many factors that drive investment decisions, I believe our stockholders are attracted to our pursuit of attractive growth opportunities, our conservative lending culture, our diversified markets and revenue streams and the consistency of our returns.

Phil Poindexter
President

Our amazing growth in 2019 underscores the talent of all our dedicated employees.

In our opinion, it is best to measure a company's performance over a meaningful timeframe which takes into account both up and down market cycles. For the 10-year period ended with 2019, Stock Yard Bancorp total return was 282% compared to a 197% increase for the commonly used NASDAQ Bank Index. This outstanding performance demonstrates why Stock Yards Bancorp remains among the nation's highest-performing community banks, and I am pleased to note that we were named to the Bank and Thrift "SM-ALL STARS" by Sandler O'Neill & Partners in 2019. We were one of only 30 institutions to receive this designation based on our continued growth, profitability, credit quality and capital strength. We are honored to be recognized for our performance and we are confident in our ability to continue to deliver value to our shareholders.

KING SOUTHERN BANK ACQUISITION

In May, we completed the acquisition of King Bancorp, Inc. the holding company for King Southern Bank (KSB), expanding our presence in both Louisville and nearby Nelson County. With

\$192 million in assets, \$164 million in loans and \$126 million in deposits, this acquisition served to complement our organic growth as well as our capital allocation strategies. It has been an honor to welcome the KSB customers to the Stock Yards family and by every measure, the transaction has exceeded our expectations.

FINANCIAL OVERVIEW

As previously mentioned, 2019 was another record year for Stock Yards Bancorp. Despite elevated levels of payoffs, the combination of record organic loan production and the KSB acquisition boosted our loan portfolio by \$297 million, or 12%, with strong contributions from all markets and divisions. While our net interest margin ended the year at 3.81%, down just slightly compared to the 3.83% seen in 2018, prudent balance sheet management steadied margin compression as the Federal Reserve cut interest rates three times during the year.

Non-interest income sources, which contributed 28% of net revenues, grew 10% year-over-year, signifying the success of our diversification strategies. Wealth Management & Trust income increased 5%, as assets under management grew to a record \$3.3 billion, driven by both record net new business, strong market returns and growth in corporate retirement accounts. Card income and treasury management fees, bolstered by increased volume and usage, also continued to stand out, representing a combined 26% of total non-interest income.

We continue to hire experienced relationship managers in all of our markets, and as demonstrated below, the benefits of these investments have been seen across the Company.

Paula Moan
Market President
Indianapolis

INDIANAPOLIS MARKET

Our Indianapolis market generated its third consecutive year of record loan production, contributing 33% of the Bank's loan growth and ending the year representing approximately 17%

of the Company's total loan portfolio – up from 15% at the end of 2018. These results reflect a superb year for commercial real estate lending as well as continued success in our Private Banking area. Similarly, deposits increased 9% to support this growth.

Our Wealth Management & Trust group had another strong year of performance in Indianapolis, achieving record production – up 14% from 2018. Our wealth advisors continue to grow and strengthen relationships with our existing customers while also acquiring new customers who value our personalized approach.

Now with five banking centers, Indianapolis continues to present new opportunities for us. We recently completed our first full year of operation at our Plainfield location, which greatly exceeded our expectations, and we continue to explore expansion options in this vibrant market.

“The Company has now raised its quarterly dividend rate a total of 12 times since the beginning of 2013, resulting in a cumulative increase of 93% over this period.”

Stephen Brown
Market President
Cincinnati / NKY

CINCINNATI MARKET

The Cincinnati market also generated record loan production in 2019 and ended the year representing 14% of the Company's total loan portfolio. Our Cincinnati based Retail, Commercial,

Business Banking, and Private Banking groups all produced double digit deposit growth in 2019, leading to a record deposit increase of 28% and supporting our strong loan growth. These accomplishments, coupled with record new treasury management revenue in 2019, reflect the attractive prospects of this market.

As with our Indianapolis market, we continue to explore opportunities for expansion to complement the five branches we currently operate. We plan to open a sixth location in Evendale during the third quarter of 2020.

COMMERCIAL BANKING DIVISION

While our customer base is broad, ranging from consumers to commercial customers, our focus continues to be significantly directed towards business lending. Loan growth was strong in 2019 as all three markets contributed to record loan production, leading to a 9% increase in net interest income for the year. Commercial & industrial loans combined with owner-occupied commercial real estate loans, which we consider our core lending areas, constitute nearly one half of our \$2.8 billion loan portfolio.

Commercial & industrial lending was steady throughout the year and commercial real estate loan demand was strong despite an increasingly competitive environment. The commercial pipelines are strong heading into 2020 and asset quality continues to be excellent.

Opportunities in other areas continue to provide additional avenues for growth. Our business credit card product, initially launched in 2016, is generating substantial non-interest income. Total accounts grew 20% while International Banking saw record revenue in 2019 and is poised for a great 2020. In addition, a new emphasis on Corporate Banking, which focuses on larger middle-market clients, aims to supplement growth further.

“Commercial & industrial loans combined with owner-occupied commercial real estate loans, which we consider our core lending areas, constitute nearly one half of our \$2.8 billion loan portfolio.”

BUSINESS BANKING

Our business banking division focuses on small and middle-market companies that have different financial needs than larger businesses that are serviced by the commercial lending area. By tailoring solutions and products to their specific needs through credit, savings and checking solutions, we help small businesses achieve fiscal efficiencies and improve profitability. This division generated record loan production for 2019 in all three markets.

Kathy Beach
Director of Operations

Our goal is to provide access and service to all customers through the delivery channels they prefer and we are committed to investing in the technology necessary to do so.

RETAIL BANKING

Retail Banking remains a critical part of what we do every day – meeting the banking needs for thousands of customers through our many delivery channels. The success of a retail banking program can be gauged by its deposit trends, which were very positive in 2019 with total deposits growing 12% to \$3.1 billion, reflecting gains in the number of depositors as well as average balances.

We continue to invest in our branch network. The KSB acquisition added locations in Jeffersontown, Bloomfield and Chaplin while our Mount Washington location opened in July of 2019. As previously mentioned, we plan to open another branch in northern Cincinnati in the third quarter of 2020, along with a new branch in the Valley Station area of our Louisville market.

We also continue to develop our delivery channels, particularly digital offerings, to meet the needs of our customers. Our goal is to provide access and service to all customers through the delivery channels they prefer and we are committed to investing in the technology necessary to do so.

WEALTH MANAGEMENT & TRUST SERVICES

Our Wealth Management & Trust Group performed well in 2019, increasing revenues 5% over 2018, and comprising 45% of our non-interest income. As previously mentioned, assets under management reached a record \$3.3 billion in 2019. Despite volatility in the stock market, our conservative, risk-adjusted approach and diversified asset allocation helped our clients achieve strong investment performance in 2019. It was also an excellent year for new business as we continue the growth of our Indianapolis and Cincinnati markets.

This resource provides opportunities across our markets and the growth we have seen is a testament to the relationships we have fostered with our clients, many of which trace back three to four generations. Through an experienced staff of professional and support personnel, we focus on serving the investment, financial and trust needs of individuals, multi-generational families and institutions by providing holistic financial plans for every client.

PRIVATE BANKING DIVISION

Our private banking services meet the needs of affluent customers by providing all of our solutions and alternatives in a personalized, one-on-one experience with our private banking professionals. We saw solid performance in all markets with continued success in dental lending, medical office building projects and medical residence lending programs. Indianapolis delivered significant loan growth, while loan production in Cincinnati doubled that of 2018.

Kathy Thompson
Director of Wealth
Management & Trust

We focus on serving the investment, financial and trust needs of individuals, multi-generational families and institutions by providing holistic financial plans for every client.

TREASURY MANAGEMENT SERVICES

Treasury Management recorded a record year of production and revenue for 2019, up 9% over the prior year. These results came from all three of the Bank's markets. Treasury Management products utilize technology to increase income, mitigate risk and improve working capital. The treasury group's expertise includes payments and disbursement management, lockbox, remote deposit, Automated Clearing House (ACH), sweep accounts, liquidity management, online banking, and information reporting.

MORTGAGE SERVICES

Mortgage lending continues to help diversify our non-interest revenue streams and is an important dimension of the many services we offer. Mortgage banking revenue increased 20% over prior year and represents 6% of our total non-interest income. The strong performance we saw in 2019 was driven by lower rates, which was a catalyst for re-finance and purchase activity. We expect lower rates to provide similar motivation for such activity in 2020.

STOCK YARDS FINANCIAL SERVICES

Stock Yards Financial Services offers a range of investment options to help customers plan for their financial future and expand the diversification of their assets. These products include individual stocks and bonds, mutual funds, money market investments, annuities and other insurance products. These services are a valuable source of recurring revenue and help further diversify non-interest income.

“We are a premier community bank committed to our customers’ financial goals by establishing trusted relationships earned by knowledgeable and enthusiastic employees.”

IN MEMORIAM

We would like to pay our respects to the family of Leonard Kaufman, former Chairman of the Board and Chief Executive Officer, who passed away in 2019. Leonard joined the Bank in 1947 and his career spanned over 45 years. He served on the Board from 1984 until 2000 and was Chief Executive Officer and Chairman from December 1987 until his retirement in April 1993. We are deeply indebted to Leonard for his guidance, commitment and contributions to the Company.

CONCLUSION

Our mission statement summarizes the overall goals and objectives of Stock Yards Bancorp as follows: *“We are a premier community bank committed to our customers’ financial goals by establishing trusted relationships earned by knowledgeable and enthusiastic employees.”*

The exceptional performance of this past year affirms the strategies we pursue to grow our business, build our reputation and enhance shareholder value. We are excited about our success and look forward to carrying this momentum into 2020.

James A. (Ja) Hillebrand

Chief Executive Officer
