Chairman's Letter

RICHARD HYDE

Executive Chairman & CEO

Dear Fellow Shareholders,

I am proud to present the 2023 Annual Report for West African Resources Limited (ASX: WAF), as we reflect on another year in which WAF has delivered on its stated goals, and moved closer to achieving its target of becoming a mid-tier gold producer. Our strong performance and growth in 2023 builds on the foundations established since our inception, but more particularly our achievements in the past five years. These include:

- Securing US\$200M debt financing for the construction of our Sanbrado Gold Project in Burkina Faso and awarding the EPCM and mill supply packages for the project in 2018;
- Starting major works at Sanbrado with the first drawdown from our debt facility following an optimised Definitive Feasibility Study (DFS) in 2019;
- Completing Sanbrado construction six months ahead of schedule and US\$20M under budget, with first gold poured in March 2020 and delivering A\$99M inaugural profit;
- Acquiring the 1.1 million ounce Toega gold deposit in 2020;
- Achieving annual guidance and delivering A\$214M profit in 2021, allowing us to fully repay our debt financing;
- Acquiring the 6.8Moz Kiaka Gold Project in 2021;
- Achieving annual guidance and delivering A\$184M profit in 2022;
- Completing the Kiaka DFS and awarding EPCM and mill supply packages for the project in 2023, delivering Reserve statements for Kiaka and Toega; with Group Mineral Resources increased to 12.6Moz and Group Mineral Reserves increased to 6.4Moz in 2023.

Our strategic goals for 2023 included:

- Achieve annual guidance of 210,000 to 230,000 oz gold at an AISC of <US\$1,175 per oz;
- Maintain Kiaka construction on schedule and budget;
- Secure debt funding for Kiaka construction;
- Complete M5 South underground scoping study; and
- Advancing the Toega mining licence application.

I am very pleased to report that we successfully achieved all of these goals, and we are well on our way to becoming a +400,000 oz per year gold producer in 2025, when our second gold mine at Kiaka commences production.

WAF continued its solid financial performance in 2023, generating A\$661M revenue from 224,970oz gold sold unhedged at an average realised price of A\$2,923 (US\$1,944) per oz. We achieved A\$165M Group net earnings and operating cash flow of A\$209M. WAF's consistent profit performance over the past four years is reflected in our retained earnings balance of A\$494M at 31 December 2023.

WAF held A\$135M cash at the end of 2023 and US\$265M of undrawn debt from our syndicated facility. Our balance sheet is strong, with net assets of more than A\$905M.

Our Sanbrado operation maintained consistent high-margin gold production in 2023, delivering 226,823oz at a US\$1,136/oz all-in sustaining cost (AISC). This met our annual guidance targets and was in line with the 10-year production plan released in early 2023.

WAF's profitability and Sanbrado's strong performance are expected to continue in 2024, with unhedged production guidance of 190,000 to 210,000oz gold at an AISC less than US\$1,300/oz.

Looking further ahead, our Resource, Reserve and 10-year production update released on 28 February 2024 shows we expect Sanbrado gold production to average more than 210,000oz pa over the next decade increasing to more than 230,000oz pa as the Toega open pit and M5 South underground come online from 2026. Under the updated 10-year plan, when compared to the 2023 plan, Sanbrado yields an additional 440,000oz driven by the inclusion of the M5 South underground and increased mined tonnage and grade at M1 South.

Our 10-year outlook also highlighted our target of 338,000oz gold production in 2025 and more than 450,000oz pa from 2026 to 2031 once Kiaka is operational. The current mine plans for Sanbrado and Kiaka continue until 2034 and 2042, respectively, based on a US\$1,400/oz gold price and current drilling. In 2024, WAF expects to spend US\$230M to US\$270M at Kiaka, with the focus shifting to major concrete pours at crusher and mill locations and process plant construction. WAF is funding the construction of Kiaka from existing cash, internal cash flow, and a US\$265M syndicated debt facility finalised in December 2023. We had our first drawdown of US\$100M on 2 January 2024, drawing a further US\$50M on 3 March 2024. We aim to accelerate construction at Kiaka, which will help reduce our fixed costs. Kiaka construction remains on schedule and on budget with first gold expected in Q3 2025.

There were no significant health or safety incidents in 2023, with WAF's annual total recordable injury frequency rate (TRIFR) standing at 1.21 versus the Western Australian average reportable injuries frequency rate of 7.1. Tragically, post year-end on 28 January 2024, the Group reported the fatality of a contractor working at Kiaka. No other persons were injured in the accident. WAF and the Kiaka safety team have worked with the relevant authorities and the contracting companies involved to investigate the accident and address the causal factors. We express our deepest sympathies to the family and those close to our colleague.

Sustainability is fundamental to how WAF operates within Burkina Faso. I encourage interested parties to obtain a copy of our 2023 Sustainability Report, which is due for release in the coming weeks and will be available electronically from our website. As well as the numerous agricultural, educational and health improvement programs delivered to our regional communities, the Sustainability Report outlines our significant economic contributions to the Burkina Faso economy in 2023.

Our Board is comprised of four independent non-executive directors, three executive directors, and committees chaired by independent non-executive directors. We have well-qualified, engaged and high-performing directors and we are not planning any changes to our Board composition in 2024.

I also thank my fellow shareholders for your continued support, and my fellow directors for their guidance and contributions in assisting me and the management team navigate our Company's growth to becoming a +400,000 ounce per annum gold producer by 2025.

RICHARD HYDE

Executive Chairman & CEO

03

2023 in Brief

Q1

- Annual guidance set at 210,000 - 230,000 oz at AISC of <US\$1,175/oz
- Kiaka construction underway with EPCM appointed and long-lead SAG and Ball mills ordered
- M5 South underground scoping study starts

Q2

- Toega deposit receives environmental permit following approval of the ESIA and RAP
- Preferred lenders provide credit approval for US\$265 million loan facility

Q3

- Diamond drilling confirms potential of M5 South underground with 20.5 metres at 4.1g/t gold

Q4

- Maiden M5 South underground resource of 2.4 Mt at 3.8 g/t Au for 289koz gold
- US\$265 million loan facility finalised
- Annual guidance achieved with 226,823oz gold produced at AISC of US\$1,136/oz
- Kiaka construction on budget and schedule with 55% of project costs committed
- Gold Mineral Resources increased to 12.8Moz
- Gold Ore Reserves updated to 6.1Moz

Directors' Report

The Directors present their report together with the consolidated financial report of West African Resources Limited (the '**Company**') and its controlled subsidiaries (the '**Group**', '**West African**' or '**WAF**') for the year ended 31 December 2023.

About West African Resources Limited

West African Resources Limited is headquartered in Perth, Western Australia and listed on the Australian Securities Exchange (ASX:WAF). The Company and its controlled subsidiaries undertake gold mining, mineral processing, exploration, project development, community & social sustainability, and rehabilitation within the West African country of Burkina Faso.

BURKINA FASO			WESTERN AUSTRALIA
SANBRADO GOLD PROJECT	KIAKA GOLD PROJECT	EXPLORATION	PERTH OFFICE
Mineral Resources: 4.9Moz gold	Mineral Resources: 7.9Moz gold	Tenement portfolio comprising	WAF Group headquarters
Mineral Reserves: 1.6Moz gold	Mineral Reserves: 4.5Moz gold	1,385km ² over the prospective	Business support centre
Open pit mining	Long life, low strip ratio,	Markoyé fault region in central and	
Underground mining	conventional open pit	southern Burkina Faso	
Ore processing	Fully permitted	Gold exploration	
Gold smelting	Fully funded		
Exploration	Construction commenced and		
Resource to reserve conversion	targeting first gold in 2025		
Community & social programs			
Environmental programs			
Progressive rehabilitation			

The Sanbrado Gold Project ('Sanbrado') is in central Burkina Faso, 90km east-southeast of the capital city of Ouagadougou. The Kiaka Gold Project ('Kiaka') is 45km south of Sanbrado. WAF has 1,385km² exploration land package over the prospective Markoyé fault region where Sanbrado, Toega, and Kiaka are situated. Sanbrado and Kiaka are held under mining licences and are 90%-owned by WAF, with the government of Burkina Faso owning the remaining 10%. All exploration licences in WAF's portfolio are 100%-owned by WAF.

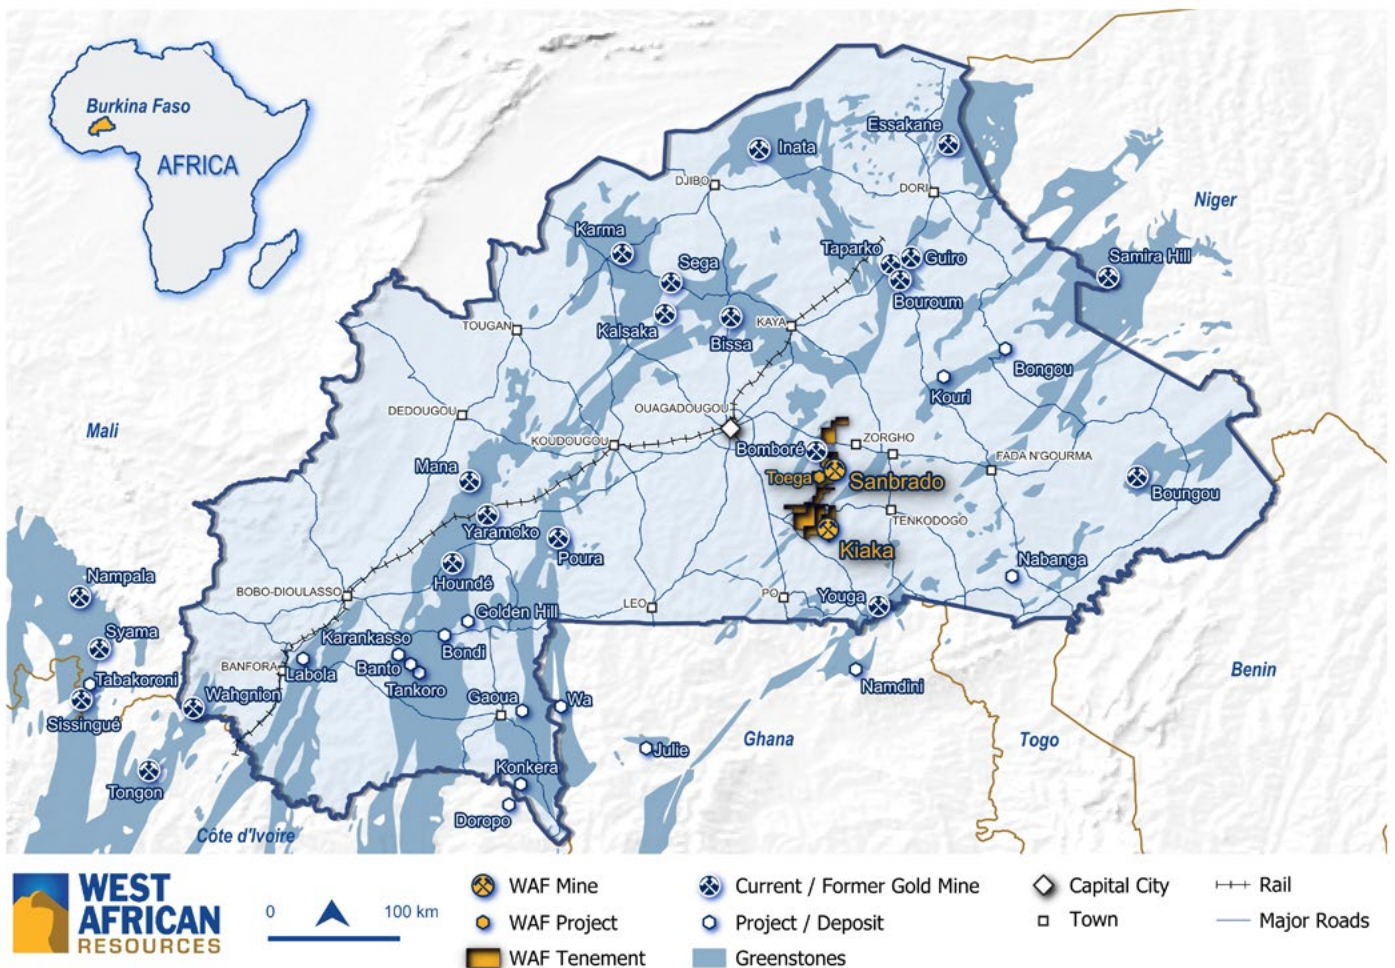

Figure 1 – WAF project location map

Operating Review

SAFETY

There were no significant health or safety incidents during the year, and WAF's 2023 annual TRIFR (Total Recordable Injury Frequency Rate) was 1.21 (2022: 1.73) versus Western Australian average reportable injuries frequency rate of 7.1¹. However, post year end on 28 January 2024, the Group reported the fatality of a contractor working at the Kiaka Gold Project in Burkina Faso. No other persons were injured in the accident. WAF and the Kiaka safety team worked with the relevant authorities and the contracting companies involved to investigate the accident.

REGIONAL GEOPOLITICAL ENVIRONMENT

There have been no changes to the leadership of the government of Burkina Faso since Captain Ibrahim Traore became the head of the military and was appointed Interim President in October 2022. Regionally, in July 2023, there was a military coup in the neighbouring country of Niger that had no impact on WAF's operations.

SANBRADO PRODUCTION STATISTICS

A year-on-year comparison of the key production statistics for Sanbrado is shown in the following table.

	UNIT	2023	2022
OP mining			
Total movement	BCM '000	7,504	8,620
Total movement	kt	19,413	21,706
Strip ratio	w:o	3.4	7.1
Ore mined	kt	4,394	2,685
Mined grade	g/t	1.2	1.4
Contained gold	oz	172,177	118,514
UG mining			
Ore mined	kt	470	424
Mined grade	g/t	6.9	8.1
Contained gold	oz	104,519	110,183
Processing			
Ore milled	kt	3,321	3,251
Head grade	g/t	2.3	2.4
Recovery	%	93.7	93.1
Gold produced	oz	226,823	229,224
Gold poured	oz	222,778	230,424
Gold sold	oz	224,970	233,930

¹ Department of Mines, Industry Regulation and Safety, 2021, Safety performance in the Western Australian mineral industry — accident and injury statistics 2020-21: Department of Mines, Industry Regulation and Safety, Western Australia.

<https://www.dmp.wa.gov.au/Documents/Safety%20performance%20in%20the%20Western%20Australian%20mineral%20industry%202020-21%20-%20report.pdf>

A site layout of the Sanbrado project is shown below in figure 2.

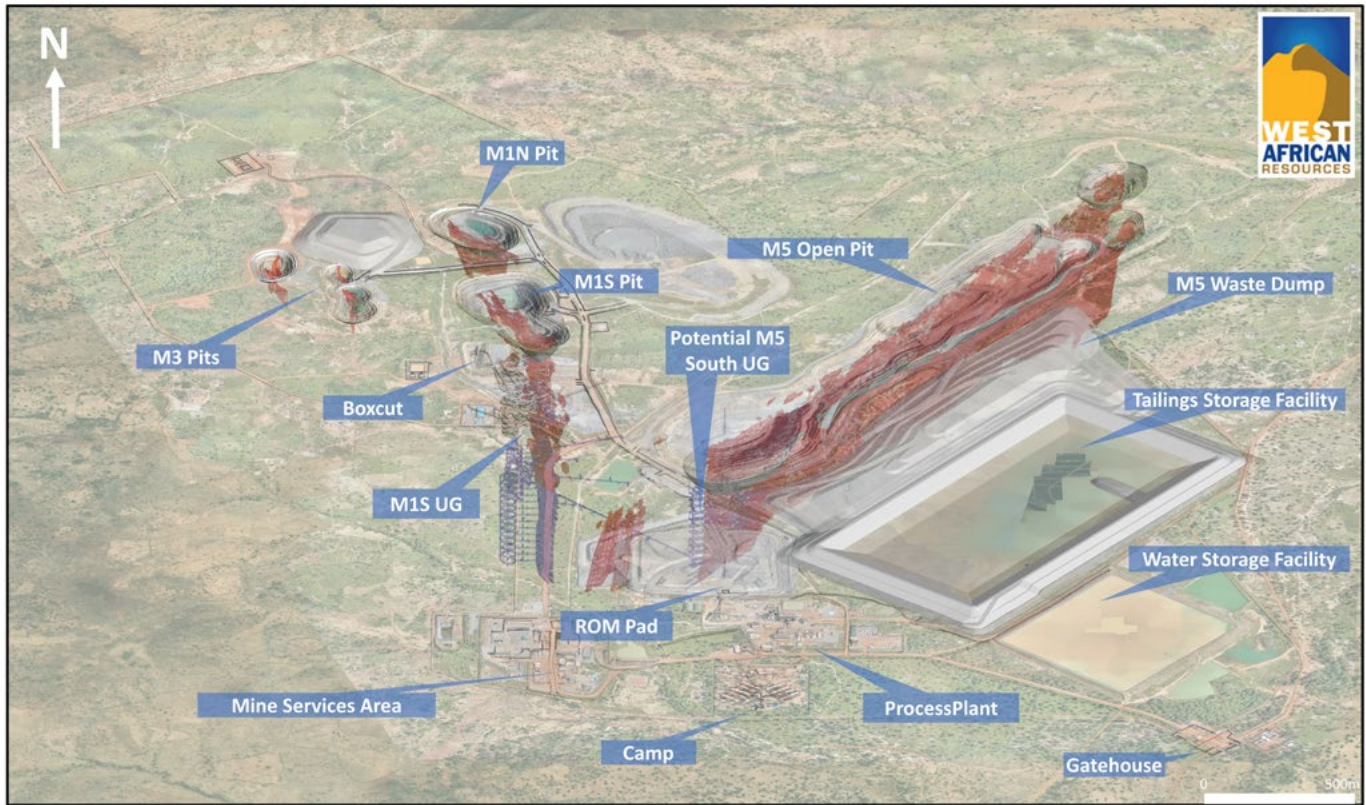

Figure 2 – Sanbrado gold operation layout

OPEN-PIT MINING

Contained gold mined from open pit mining in 2023 of 172,177 ounces was 45% higher than the prior year due to a 64% increase in ore tonnes mined partially offset by 11% lower grade. The higher ore tonnes reflect the completion of the M5 South cut back in Q4 2022, which provided improved access to the M5 South pit and significantly reduced the strip ratio in 2023.

A long section of the M5 pit is shown in figure 3.

Figure 3 – Long section of the M5 pit

UNDERGROUND MINING

Contained gold mined from the M1 South underground of 104,519 ounces was slightly below the prior year with 11% higher ore tonnes and 15% lower grade. Operational productivity improvements increased the ore tonnes mined and the grade of the mined stopes reconciled well with the reserve model. Lateral development of 3.1km was completed in 2023 (2022: 3.0km). At the end of 2023 the M1 South decline was 555 metres vertically below surface (2022: 461 metres).

A long section of the M1 South underground is shown in figure 4 showing planned future stoping panels and an underground post-blast inspection is shown in figure 5 (refer to ASX announcement “WAF Resource, Reserve and 10 year production update 2024” dated 28 February 2024 for further details on figure 4).

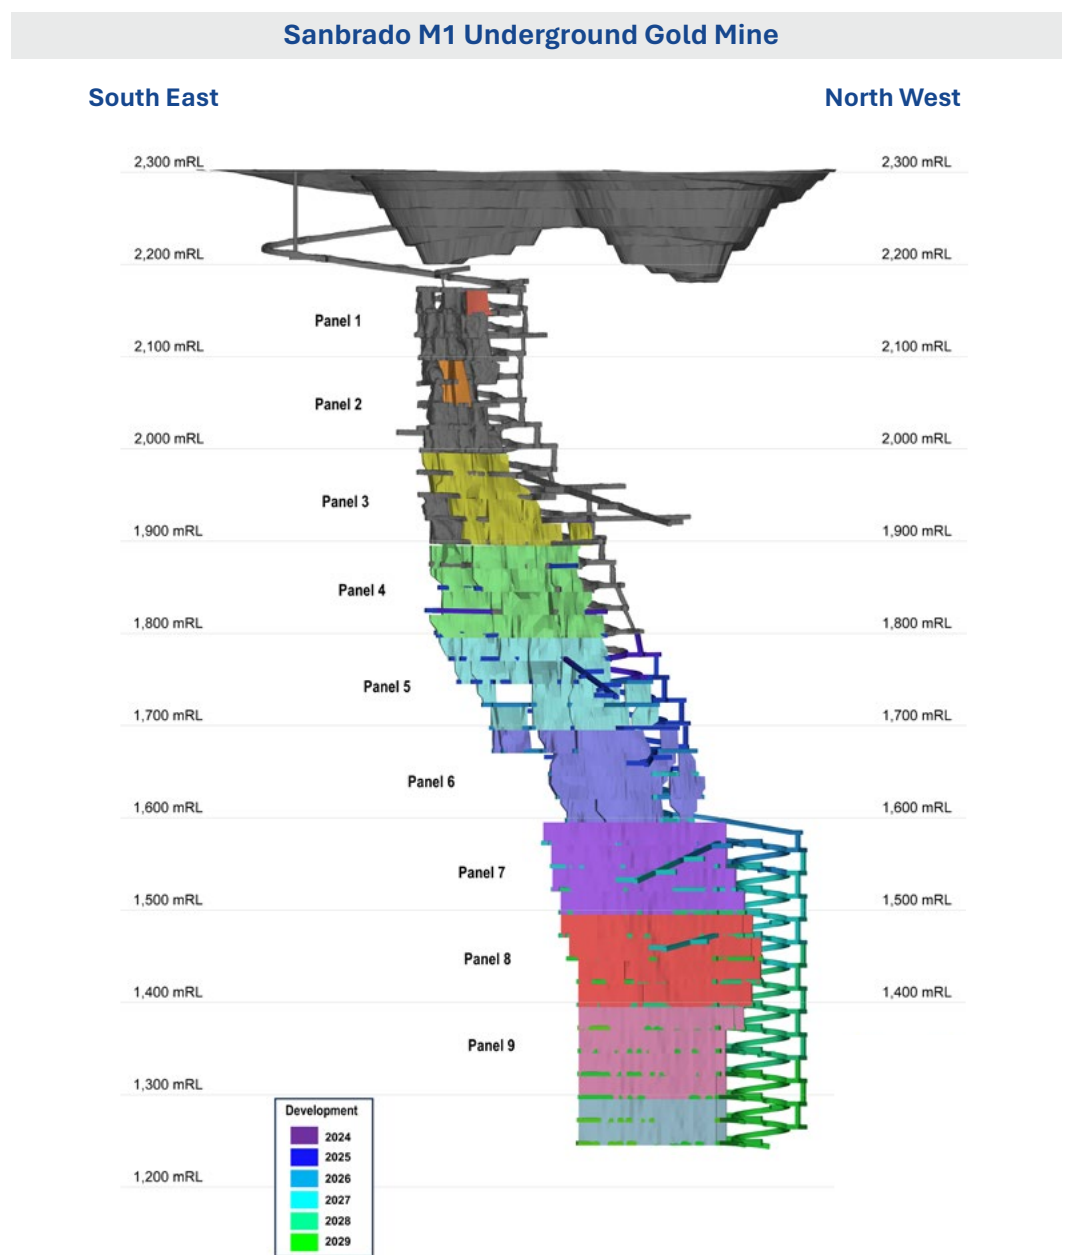

Figure 4 – M1 South underground long section

PROCESSING

The Sanbrado process plant continued its strong reliable performance in 2023. Gold production of 226,823 ounces was consistent with the prior year, with 3.3 million tonnes milled at a head grade of 2.3 grams/tonne and gold recovery of 93.7%.

Figure 6 provides a location map of Sanbrado, figure 7 shows the process plant and figure 8 shows the accommodation camp.

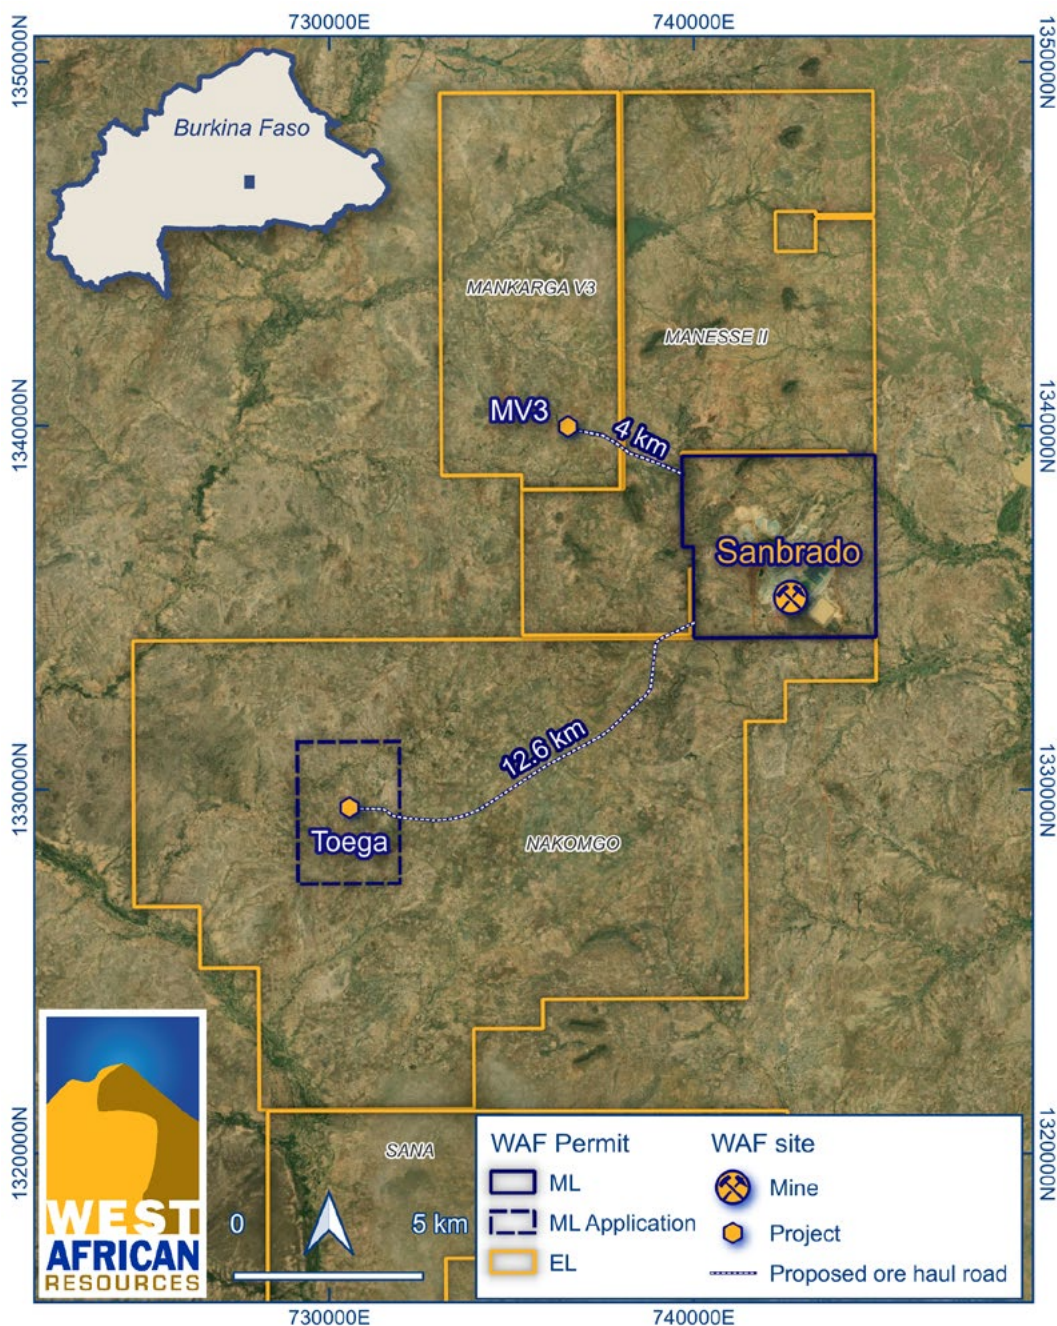

Figure 6 – Sanbrado project location map

Figure 8 – Sanbrado accommodation camp

Growth Review

OVERVIEW

Mineral Resources and Ore Reserves Growth

WAF's Mineral Resources and Ore Reserves growth history is shown below in figures 9 and 10 (for further details on these figures please refer to ASX announcement "WAF Resource, Reserve and 10 year production update 2024" dated 28 February 2024).

Mineral Resource Gold Ounces

Figure 9 – WAF Mineral Resources growth since 2014

Ore Reserves Gold Ounces

Figure 10 – WAF Ore Reserve growth since 2014

Production Growth Target

West African's updated 10-year production target is shown below in figure 11 (for further details on this figure and the 10-year production target, please refer to ASX announcement "WAF Resource, Reserve and 10 year production update 2024" dated 28 February 2024). Under the target, WAF's gold production is estimated to increase to approximately 330,000 oz in 2025 with part-year production from Kiaka, and then average more than 450,000 oz per annum for the next 6 years with full year contributions from Kiaka.

Recovered Gold Ounces

Figure 11 – WAF 10-year production target

KIAKA GOLD PROJECT

Background and feasibility study

WAF purchased Kiaka in 2021 from B2Gold Corp and its partner GAMS-Mining F&I Ltd. Kiaka is a fully permitted gold mining project located 110km southeast of the Burkina Faso capital, Ouagadougou, and 45km south of WAF's Sanbrado gold operations. It is accessed from Ouagadougou via 100km of sealed road, and then by 40km of all-weather dirt road to site.

WAF undertook a Definitive Feasibility Study ('DFS') of Kiaka and released the DFS results on ASX on 3 August 2022. The DFS delivered an Ore Reserve of 4.5 million ounces gold and demonstrated Kiaka would be a long-life low-cost conventional open-pit mining operation with conventional semi-autogenous ball mill crushing ('SABC') and carbon-in-leach ('CIL') processing. The DFS highlighted Kiaka would produce an average of 219,000 ounces of gold per year over an 18.5 year mine life.

Kiaka Feasibility Study announcement 3 August 2022² – Key Physical Metrics

Base case, stated on a 100% basis

Production Years 1 to 5	Average 233,000 oz/year
Production life of mine	Average 219,000 oz/year
Strip Ratio	1.8 : 1 (waste : ore)
Mineral Resource Estimate	279.2Mt at 0.9 g/t for 7.7Moz gold (5.8Moz Indicated, 1.7Moz Inferred, open pit constrained at US\$1,800/oz) ³
Probable Mineral Reserves	155Mt at 0.9 g/t for 4.5Moz gold (at US\$1,400/oz)
Life of mine gold recovery	90% average, recovering 4.1Moz gold
Mine Life	18.5 years

Kiaka development

In mid-2022 WAF commenced early works at Kiaka with road upgrades and expansion of the exploration camp to house the initial construction team. In Q4 2022 WAF awarded the EPCM (engineering, procurement, and construction-management) contract to Lycopodium and the supply of the 18MW semi-autogenous grinding ('SAG') mill and 9MW ball mill to Metso Outotec. Lycopodium is a leading international engineering and project management consultancy for West African mineral gold processing plants, having completed the construction of more than a dozen gold projects in West Africa since 2009, including West African's Sanbrado gold mine. Metso Outotec were selected due to their overall experience and reliability with supplying grinding mills of this size, and the positive outcome at Sanbrado where WAF's Metso Outotec SAG and ball mills have been performing very reliably above nameplate capacity.

During 2023, construction of the main camp was completed, the security buildings and main entrance gates were erected, earthworks for key areas of the primary crusher, reclaim, mills,

and CIL were handed over to the EPCM (Lycopodium), and the first concrete pour was completed. Fabrication of process plant components by suppliers was ongoing and proceeding to schedule, with mill component items commencing to arrive on site. By the end of 2023 approximately 55% of the project costs were committed and fixed, with no material cost inflation observed since the capex estimate reported in the DFS.

In respect of sustainability, the Resettlement Action Plan ('RAP') and Environmental and Social Impact Assessment ('ESIA') for Kiaka were updated in 2023 and the resettlement program for the project affected people ('PAPs') was well-progressed. By year end more than 97% of compensation agreements were signed and a visioning study was initiated, which entails a series of consultations with the PAPs by experienced local firms to develop the livelihood restoration program.

Figure 12 presents the layout of the Kiaka project, showing the relative positions of the mining areas and the principal infrastructure.

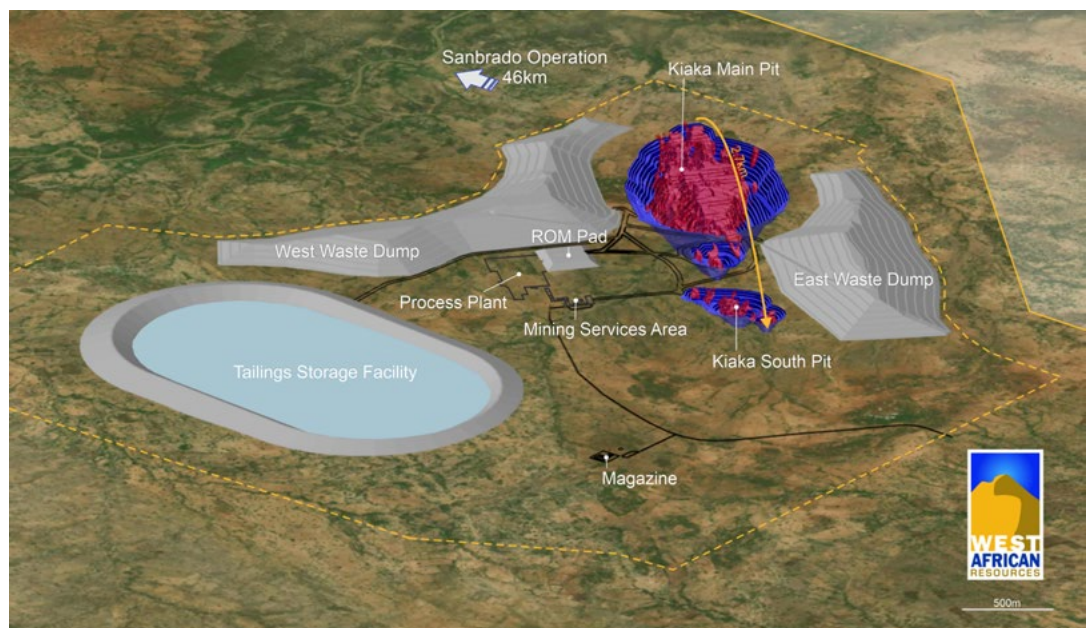

Figure 12 – Planned layout of Kiaka project

² Refer to ASX announcement released 3 August 2022 titled "Kiaka Feasibility Study Delivers 4.5Moz Gold Ore Reserve".

³ There is a low level of geological confidence associated with inferred mineral resources, and there is no certainty that further exploration work will result in the determination of indicated mineral resources or that the production target itself will be realised.

Figure 13 – Aerial view of Kiaka camp

Figure 14 – Concrete batch plant at Kiaka

SANBRADO GROWTH

WAF’s primary growth projects for Sanbrado include:

- M1 South underground extension;
- Toega gold deposit; and
- M5 underground.

M1 South Underground

Growth potential at the M1 South (‘M1S’) is shown below in figure 16 (refer to ASX announcement “WAF Resource, Reserve and 10 year production update 2024” dated 28 February 2024 for further details of figure 16 and the M1 South underground drilling programs). At M1S Main a total of 18,000m of resource definition drilling is planned for 2024 targeting the Inferred Mineral Resource between the 1600mRL to the 1350mRL. This drill program is aiming to convert up to 400koz Au from an Inferred Mineral Resource classification to Indicated Mineral Resource. At the M1 Northern Shoot, geological modelling and drilling results from the final benches of the M1 open pit confirm the potential for the northern shoot at depth.

Figure 16 – M1 South underground long section

Toega Gold Deposit

The Toega gold deposit is held under an exploration licence 100% owned by WAF. It is located within trucking distance (14km southwest) of the Sanbrado gold processing plant. Toega has an Ore Reserve of 9.7 million tonnes at a grade of 1.9 g/t gold for 580,000 contained ounces with a strip ratio (waste : ore) of 5.4 : 1.

Toega received its environmental permit following the approval of the ESIA and RAP and the mining licence is in the final stage of the approval process. Delivery of ore from the Toega open pit to the Sanbrado process plant is planned to commence in the second half of 2025.

Figure 17 shows a long section of the Toega deposit.

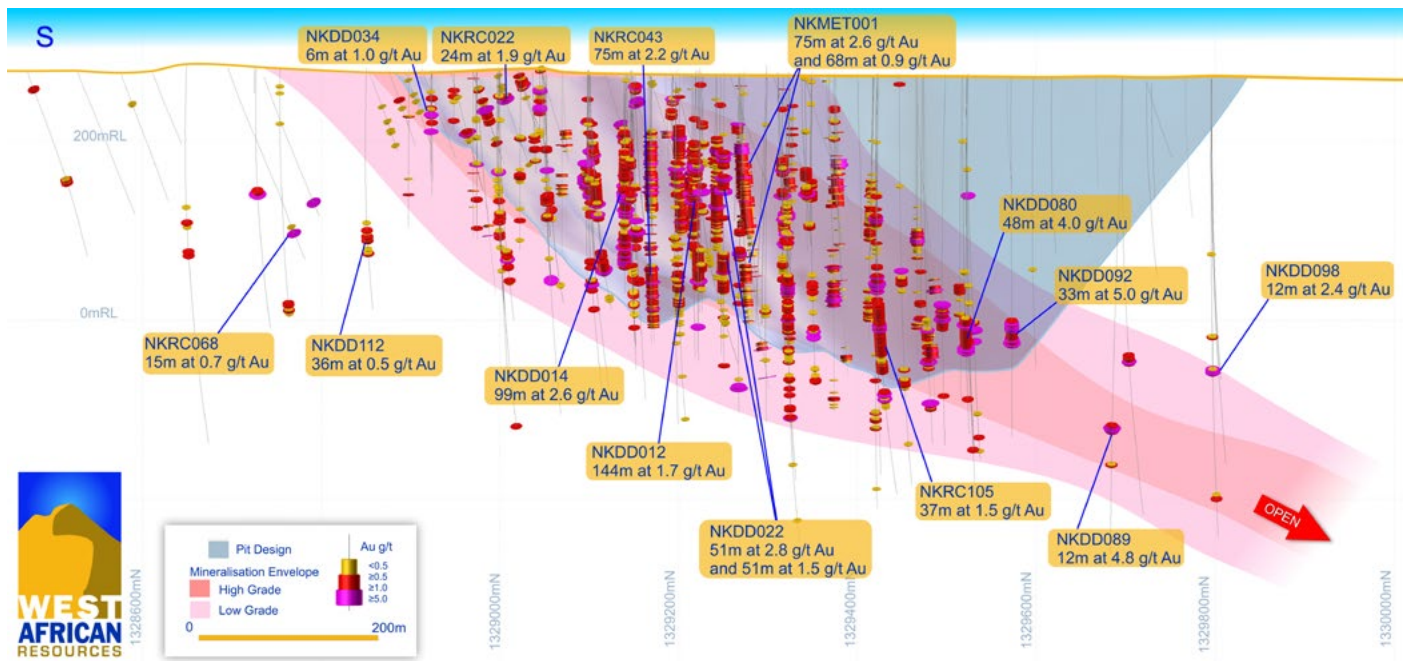

Figure 17 – Toega long section

M5 Underground Potential

On 13 December 2023 WAF released the results of the maiden mineral resource and scoping study for M5 South underground (refer to ASX announcement titled “WAF delivers M5 South UG Mineral Resource and Scoping Study”). A pre-feasibility study is in progress aiming to confirm the economic viability of the M5 South underground project and to allow for the Indicated Mineral Resources to be converted to Ore Reserves. Ventilation and paste fill studies in progress for M1 South have the potential to positively complement the underground development at M5 South.

Further work planned for 2024 includes:

- Completion of a geotechnical study to confirm ground conditions.
- Finalise portal location, mine design and pre-production capital expenditure requirements.
- Assessment of an exploration drive from M1 South to enable infill drilling of the M5 South underground resource and exploration target area at depth.
- Incorporation of the M5 South Underground into future M1 South infrastructure requirements.

An exploration drive between M1 South and M5 South is planned for H2 2024, provided the above work demonstrates an economically viable underground operation. The exploration drive will provide a drill position for a 15,000m resource extension program below the current M5 South resource aimed at conversion of the existing Inferred Mineral Resources to Indicated Mineral Resources and testing the Exploration Target beneath the resources (refer to figure 18).

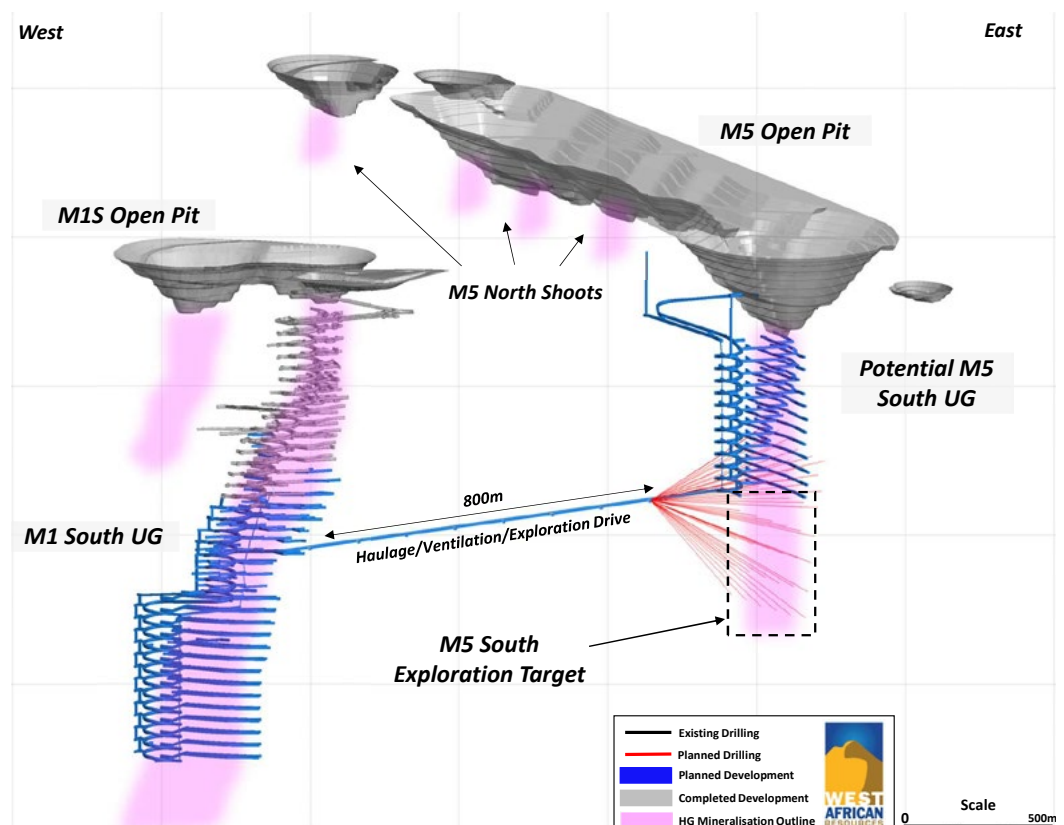

Figure 18 – Oblique view of M1 South/M5 underground mines showing the proposed exploration drive

Strategic exploration position

With the acquisition of Kiaka and Toega in 2021, WAF consolidated a strategic 1,385km² exploration land package over the prospective Markoyé fault region in central and southern Burkina Faso, however for 2024 the exploration and resource definition drilling budget will be largely focused on extending existing underground resources and reserves at Sanbrado.

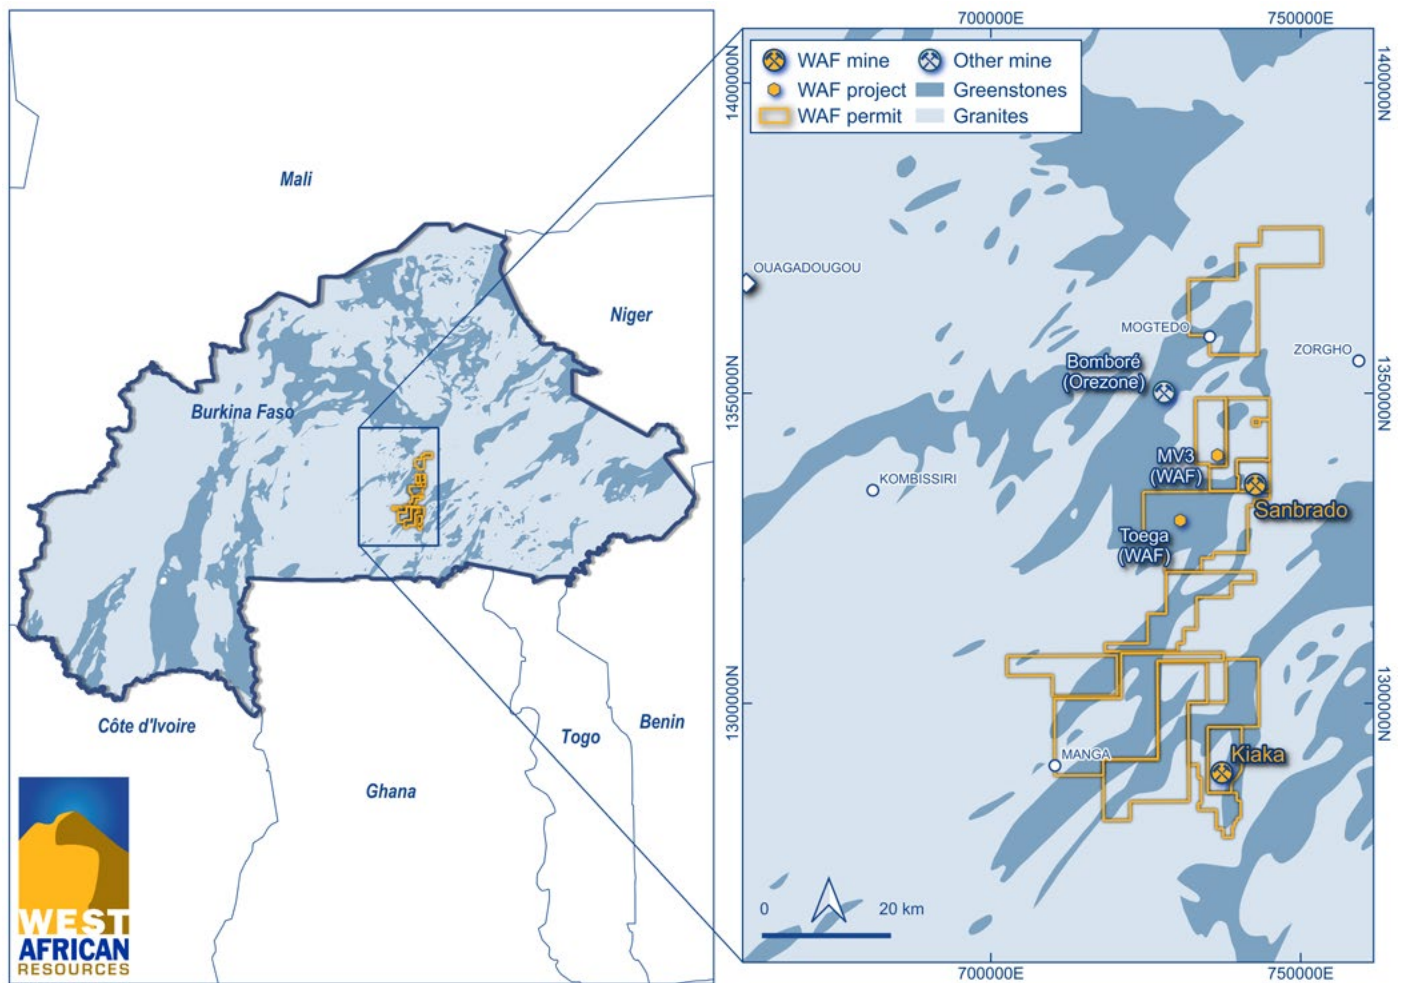

Figure 19 – Location of WAF's mineral interests in Burkina Faso

Sustainability Review

WAF will publish its 2023 Sustainability Report and 2023 Sustainability Databook in the coming weeks as separate documents to this Annual Report. The 2023 Sustainability Report will be prepared following the Global Reporting Initiative Sustainability Reporting Standards (GRI Standards) and interested parties are encouraged to obtain a copy of our full 2023 Annual Sustainability Report from the Company's website. Sustainability is fundamental to how West African operates and we take our commitments and responsibilities to the environment, the communities where we operate, and our workforce very seriously. Provided below are some of the key quotes from WAF's policies that deal with sustainability matters.

"The Company is committed to environmental stewardship through implementation of our Environmental Management System and impact assessment mitigation hierarchy. We strive to preserve the natural values of the areas we work in and acknowledge past and future land uses. We believe that prudent environmental management requires science-based identification, assessment and management of risks across the mining life cycle, from exploration through operations and closure."

"We hold ourselves to an ethical standard and are committed to conserving and enhancing biodiversity and ecosystem services, in line with global expectations of a leading corporate citizen working towards meeting the goals of the Kunming-Montreal Global Biodiversity Framework (GBF 2030). We recognise that a strong biodiversity strategy underpins this and is at the core of a successful business."

"The Company has made a commitment to establishing and making a lasting, positive contribution to the countries and communities in which we operate. We at all times engage respectfully with our stakeholders and participate in open, honest and transparent dialogue with our host communities. We will work with government, community organisations and non-governmental organisations to develop and support community

development projects and we work to enhance social values in the regions where we operate by providing education, training and community development opportunities."

"We aim to avoid resettlement of people surrounding our mining projects to the extent practicable while maintaining the health and safety of our personnel and host communities. In instances where physical resettlement or economic displacement is unavoidable as a direct result of our activities, we aim to restore livelihoods and standards of living to a level equal to or better than they enjoyed prior displacement."

"West African Resources Limited is committed to being an equal opportunity employer that embraces diversity. We are also committed to providing an inclusive workplace for all staff and contractors. We believe diversity promotes and values individual and cultural differences and is a core aspect for building and maintaining a positive workplace culture and environment, which will enhance the performance of Our People. In particular, the Company values the relationships which are being established with communities which are in the Sanbrado Gold Project and Kiaka Gold Project localities. The Company anticipates that the development of these relationships will provide benefits for all parties, including an understanding and insight into local customs and culture, and sharing of knowledge and expertise to facilitate employment and business opportunities."

"At West African Resources, we respect human dignity in all we do, and we value diversity in our workplaces. We do not discriminate against people based on their ethnicity, nationality, religion, gender, age, disability or any other bias. We do not and will not use child, forced or compulsory labour in our operations and will not tolerate it in our business relationships."

"The Company is committed to the health and safety of Our People. The Company will work to eliminate hazardous, practices and behaviour, which could cause accidents, injuries or illness to Our People, visitors to Company operations and the general public. The Company strives to have injury free workplaces."

Financial Review

SUMMARY

	UNIT	2023	2022
		\$'000	\$'000
Revenue		661,225	608,228
Profit after tax		164,797	183,706
Operating cash inflow		208,612	184,098
Free cash outflow		(38,540)	(10,281)
Net cash at end of year		130,312	159,287
Gold ounces sold	oz	224,970	233,930
Average sales price per ounce	US\$/oz	1,944	1,798
All in sustaining cost ('AISC') per ounce sold	US\$/oz	1,136	1,086

REVENUE, EARNINGS, AND UNIT COST PERFORMANCE

Group revenue in 2023 was 9% higher than the prior year due to a 13% increase in realised average sales price per ounce, partially offset by a 4% decrease in gold ounces sold.

	UNIT	2023	2022
		\$'000	\$'000
Gold sales revenue	A\$'000	657,605	605,030
Gold ounces sold	oz	224,970	233,930
Average sales price per ounce AUD	A\$/oz	2,923	2,586
Average sales price per ounce USD	US\$/oz	1,944	1,798
Average FX rate used for USD conversion	AUD/USD	0.6650	0.6953

Group profit after tax in 2023 decreased 10% from the prior year primarily due to a decrease in the operating margin reflected by the 20% increase in cost of sales, partially offset by a 9% increase in revenue versus the prior year. The increase in cost of sales over the prior year was driven by higher prices of significant operating inputs including fuel, reagents, royalties and personnel costs and a lower open pit strip ratio in 2023 resulting in a lower proportion of open pit mining costs capitalised to mine development.

Exploration and evaluation ('E&E') expenses of \$4,070,000 in 2023 relate to regional exploration activities. Corporate and technical services were \$2,003,000 higher than the prior year due to higher salaries, consultants, listed entity and international travel costs. Other expenses increased by \$7,784,000 over the prior year mainly reflecting withholding taxes on larger amount of dividends repatriated to Australia.

Income tax expense of \$76,296,000 in 2023 mainly reflects Burkina Faso corporate income taxes on SOMISA's taxable profit at a rate of 27.5% (SOMISA being WAF's Burkina Faso subsidiary that owns 100% of Sanbrado).

COST PER OUNCE PERFORMANCE

The 'Adjusted operating cost', 'all in sustaining cost' ('AISC'), and 'all in cost' are per-ounce cost performance metrics recommended by the World Gold Council for use in the gold mining industry, but they are not defined by Australian Accounting Standards Board rules (i.e. they are non-AASB measures). WAF follows the World Gold Council's guidelines in the calculation of these metrics.

The below table presents a year-on-year comparison of these non-AASB per ounce performance metrics for the Group including the underlying absolute costs from which they are calculated.

UNDERLYING MEASURE	UNIT	2023	2022
Gold sold	oz	224,970	233,930
Gold revenue	A\$'000	657,605	605,030
OP mining cost	A\$'000	103,528	74,443
UG mining cost	A\$'000	49,238	39,766
Processing cost	A\$'000	103,996	83,437
Site administration cost	A\$'000	37,053	30,731
Change in inventory	A\$'000	(20,178)	2,318
Royalties & production taxes	A\$'000	42,547	35,938
Refining and by product	A\$'000	(111)	(111)
Adjusted operating cost	A\$'000	316,073	266,523
Rehabilitation	A\$'000	1,882	1,413
Capital development	A\$'000	37,215	64,002
Sustaining capital	A\$'000	11,272	15,501
Sustaining leases	A\$'000	5,328	7,544
Corporate & share-based payments	A\$'000	12,386	10,241
All-in sustaining cost	A\$'000	384,156	365,224
Growth and development	A\$'000	-	-
Exploration non-sustaining	A\$'000	6,798	17,269
Capex non-sustaining	A\$'000	182,389	26,715
All-in cost	A\$'000	573,343	409,208
PERFORMANCE METRICS PER GOLD OUNCE SOLD			
Adjusted operating cost	A\$/oz	1,405	1,139
All in sustaining cost	A\$/oz	1,708	1,561
All in cost	A\$/oz	2,549	1,749
Average sales price	A\$/oz	2,923	2,586
Average FX rate used for USD unit costs	AUD/USD	0.6650	0.6953
Adjusted operating cost	US\$/oz	934	792
All in sustaining cost (AISC)	US\$/oz	1,136	1,086
All in cost	US\$/oz	1,695	1,216
Average sales price	US\$/oz	1,944	1,798

The AISC per ounce in AUD increased 9% from A\$1,561 in 2022 to A\$1,708 in 2023 (and 5% in USD from US\$1,086 in 2022 to US\$1,136 in 2023). This year-on-year increase in the AUD AISC per ounce was mainly driven by a 4% lower grade of ore processed at Sanbrado in 2023 compared to the prior year, which resulted in a 4% decrease in the quantity of gold ounces sold, combined with a 5% increase in the AISC in absolute terms from A\$365 million in 2022 to A\$384 million in 2023. The higher AUD absolute AISC in 2023 mainly reflects increased prices of significant operating costs including fuel, reagents, royalties and personnel costs.

RECONCILIATION OF NON-AASB MEASURES TO CONSOLIDATED FINANCIAL STATEMENTS

A reconciliation of the 'Adjusted operating cost' and AISC per ounce presented in the previous section of this report to the Group's Consolidated Financial Statements is outlined below:

DESCRIPTION	FINANCIAL STATEMENT REFERENCE*	2023	2022
		\$'000	\$'000
Cost of sales	P/L	390,874	324,677
(Less)/plus items:			
Depreciation	Note 4	(86,790)	(58,997)
Non-cash inventory movements	Note 4	13,199	1,947
By-product credits	N/A	(1,210)	(1,104)
Adjusted operating cost		316,073	266,523
(Less)/plus items:			
Reclamation & remediation (accretion & amortisation)	N/A	1,882	1,413
Corporate and technical services	P/L	9,789	7,785
Share-based payments	P/L	2,597	2,456
Capital development	Note 10	37,215	64,002
Sustaining capital	N/A	11,272	15,501
Sustaining leases	CF	5,328	7,544
Total All in sustaining cost (AISC)		384,156	365,224
Gold sold (ounces)		224,970	233,930
Adjusted operating cost per ounce (\$A/oz)		1,405	1,139
AISC per ounce (A\$/oz)		1,708	1,561

* The Financial Statement references in the above table are abbreviated as follows:

- P/L = Consolidated Statement of Profit or Loss and Other Comprehensive Income
- CF = Consolidated Statement of Cash Flows
- N/A = A direct cross reference to the Financial Statements is not available. Sustaining capital excludes growth-related capital.

FINANCIAL POSITION, CASH FLOW, AND CAPITAL COMMITMENTS

The Group's net assets increased by \$165,264,000 during the year, reflecting a \$342,134,000 increase in total assets offset by a \$176,870,000 increase in total liabilities.

Key asset movements

Trade and other receivables were \$188,550,000 higher than the comparative year due to \$142,412,000 of loan drawdowns under the syndicated loan facility that were not received until after year end, \$7,303,000 of prepaid transaction costs under the syndicated loan facility, and a \$37,371,000 increase in VAT receivable from the Burkina Faso government.

Inventories increased by \$35,892,000 mainly due to \$28,408,000 of ore stockpile and \$7,156,000 of gold in circuit increases.

Property, plant and equipment ('PP&E') increased by \$164,470,000 mainly due to \$230,876,000 of PP&E additions and \$16,704,000 of PP&E foreign exchange movements, partially offset by \$81,555,000 of depreciation and \$1,451,000 of rehabilitation asset decreases. The PP&E additions in 2023 were mainly comprised of \$175,667,000 of mines under construction for Kiaka, \$37,215,000 of capitalised open pit stripping and underground development costs and \$17,994,000 of capital-in-progress at Sanbrado.

E&E assets increased by \$4,314,000 due to capitalisation of exploration costs at Toega and MV3.

Key liabilities movements

Trade and other payables increased by \$30,200,000 mainly reflecting the increase in supplier transactions for work at Kiaka.

Loans and borrowings increased by \$133,074,000 (combined current and non-current) due to \$146,816,000 of borrowings under the syndicated loan facility, which represents the first US\$100 million drawdown under the facility, and recognition of the \$17,505,000 PPA liability upon execution of the production payment agreement, partially offset by \$31,243,000 of transaction costs directly related to the syndicated loan facility.

Lease liabilities decreased by \$6,104,000 (combined current and non-current) due to the underlying contracts containing the lease assets nearing their termination dates.

Current tax payable increased by \$15,526,000 mainly due to lower income tax instalments paid in 2023 versus the prior year.

NET CASH POSITION	31 December 2023	31 December 2022
	\$'000	\$'000
Cash and cash equivalents	135,080	173,393
Loans and borrowings	(147,180)	(14,106)
Loan facility drawdown receivable	142,412	-
Net cash	130,312	159,287

The Group's net cash position decreased by \$28,975,000 from the prior year, representing a \$38,313,000 decrease in cash and cash equivalents, a \$133,074,000 increase in loans and borrowings related to the syndicated loan facility and PPA liability, offset by \$142,412,000 of loan facility drawdown receivable related to the first US\$100 million drawdown under the facility that was not received until just after year end because the funds were in-transit.

CALCULATION OF FREE CASH FLOW	31 December 2023	31 December 2022
	\$'000	\$'000
Net decrease in cash held in the period	(42,906)	(12,401)
Add/(subtract):		
Proceeds from issue of shares	-	(120)
Proceeds from exercise of share options	(247)	(526)
Payments for share issue costs	20	345
Effect of foreign exchange on cash balances	4,593	2,421
Free cash flow	(38,540)	(10,281)

The Group's free cash flow was approximately in-line with the overall change in the Group's cash balance from 1 January to 31 December 2023.

Capital Commitments

The Group's capital expenditure commitments for property, plant and equipment were \$67,300,000 at 31 December 2023 (2022: \$61,200,000), with \$66,500,000 related to the Kiaka project and \$800,000 related to Sanbrado.

Resources And Reserves Statement

MINERAL RESOURCES

The following two tables provide the Mineral Resources for WAF at 31 December 2023 and 31 December 2022, respectively.

31 December 2023 Resources by Deposit

Deposit	Cut-off	Measured Resource			Indicated Resource			Inferred Resource			Total Resource*		
		Tonnes	Grade	Contained Au	Tonnes	Grade	Contained Au	Tonnes	Grade	Contained Au	Tonnes	Grade	Contained Au
	g/t		g/t	oz		g/t	oz		g/t	oz		g/t	oz

Total*	5,334,000	2.6	439,000	175,951,000	1.0	5,930,000	181,285,000	1.1	6,396,000

* Due to rounding the totals in the above two tables may not precisely add up to, and ounces may not precisely calculate to, the amounts provided.

WAF's 31 December 2023 Ore Reserves decreased by 275,000 oz gold (4%) over the prior year. Key changes were:

- Open-pit and underground mining depletion of 172,000 oz and 105,000 oz, respectively.
- ROM Stockpiles addition of 36,000 oz
- Updates to Mineral Resource and Ore Reserve models

COMPETENT PERSONS STATEMENT

The Company's estimates of Mineral Resources and Ore Reserves for the Sanbrado Project (including the Toega Deposit) are set out in the announcements titled "WAF Resource, Reserve and 10 year production update 2024" released on 28 February 2024 and in respect of M5 South titled "WAF delivers M5 South UG Mineral Resource and Scoping Study" released on 13 December 2023. The Company confirms it is not aware of any new information or data that materially affects the information included in those announcements and that all material assumptions and technical parameters underpinning the estimates of Mineral Resources and Ore Reserves for the Sanbrado Project in those announcements continue to apply and have not materially changed.

The Company's estimates of Mineral Resources for the Kiaka Project referred to in this report are set out in the announcement titled "West African Resources to Acquire 6.8Moz Kiaka Gold Project" released on 26 October 2021 with the Ore Reserves and additional Kiaka South Mineral Resources set out in the announcement titled "Kiaka Feasibility Delivers 4.5Moz Reserve, 18.5 year Mine Life" released on 3rd August 2022. The Company confirms it is not aware of any new information or data that materially affects the information included in those announcements and that all material assumptions and technical parameters underpinning the estimates of Mineral Resources and Ore Reserves for the Kiaka Project in the announcements continue to apply and have not materially changed.

Information in this report that relates to Mineral Resources and Ore Reserves is based on information compiled by Brian Wolfe (Kiaka, Toega and M5 Open Pit Mineral Resources), Niel Silvio (M5 Underground, M1 South Underground, MV3 Open Pit and M1 South Deeps Mineral Resources), Aleksandr Melanin (M1 South Underground Ore Reserves), Peter Wright (M5 open pit Ore Reserves) and Stuart Cruickshanks (Kiaka and Toega open pit Ore Reserves) who are Competent Persons. Mr Wolfe is

principal consultant of International Resources Solutions Pty Ltd who specialises in mineral resource estimation, evaluation, and exploration and a Member of the Australian Institute of Geoscientists who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves ('JORC Code 2012'). Mr Silvio is an employee of the Company and a Member of the Australian Institute of Mining and Metallurgy who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the JORC Code 2012. Mr Melanin is an employee of the company and a Member of the Australian Institute of Mining and Metallurgy who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the JORC Code 2012. Mr Cruickshanks was an employee of the Company and is now a consulting Mining Engineer. He is a Fellow of the Australian Institute of Mining and Metallurgy and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the JORC Code 2012. Mr Wright is an employee of the company and a Member of the Australian Institute of Mining and Metallurgy who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the JORC Code 2012. Each of the Competent Persons referred to above has reviewed the contents of this report and consents to the inclusion in this report of all technical statements based on their respective information in the form and context in which they appear.

Information on Directors and Company Secretary

Directors who held office during or since the end of the year and until the date of this report are as follows. Directors were in office for this entire period unless otherwise stated.

CURRENT DIRECTORS

RICHARD HYDE

BSc (Geology and Geophysics), MAusIMM, MAIG

Executive Chairman and Chief Executive Officer

Richard Hyde is a geologist with more than 25 years' experience in the mining industry and more than 20 years of experience in West Africa. He has managed large exploration and development projects for gold and base metals in Australia, Africa and Eastern Europe. He led the Company from incorporation in 2006, IPO in 2010, and through the discovery, development, and operation of the Sanbrado Gold Project.

Mr Hyde is a founding shareholder and commenced as a Director in 2006.

Committee memberships:

Technical, Risk, Nomination

Other ASX listed directorship:

Nil

Previous ASX listed directorship in the last 3 years:

Nil

LYNDON HOPKINS

BSc (Geology), MAusIMM, MAIG, MAICD

Executive Director and Chief Operating Officer

Lyndon Hopkins is a geologist with more than 30 years' experience in gold exploration, development and production in Australia and Africa. He was Chief Operating Officer of Equigold NL's Ivory Coast operations and managed the in-country aspects of the project development and feasibility study for the Bonikro Gold Mine. He was also Mine Manager for the construction of Regis Resources Ltd's Rosemont Gold Mine.

Mr Hopkins has been West African's Chief Operating Officer since 2015 and commenced as a Director on 6 September 2019.

Committee memberships:

Technical, Risk, Nomination

Other ASX listed directorship:

Nil

Previous ASX listed directorship in the last 3 years:

Nil

ELIZABETH (LIBBY) MOUNSEY

BBus (Human Resources and Industrial Relations), MAICD

Executive Director of Human Resources

Libby Mounsey has more than 30 years' experience in human resources and industrial relations across the mining, construction, health, fisheries, and aviation industries. Over the past 15 years, she has held senior positions with resource companies in various stages of development through feasibility, construction and operations. She holds a Bachelor of Business (Human Resources & Industrial Relations) from Edith Cowan University and is a Member of the Australian Institute of Company Directors. Ms Mounsey joined the Board on 29 May 2020.

Committee memberships:

Technical, Risk, Nomination

Other ASX listed directorship:

Nil

Previous ASX listed directorship in the last 3 years:

Nil

ROD LEONARD

BSc and MSc (Metallurgical Engineering), MAusIMM, GAICD

Lead Independent Director and Non-Executive Director

Rod Leonard is one of the founding Directors of Lycopodium (ASX: LYL) and served as an Executive Director of Lycopodium Limited from 2004 to 2019. He has more than 30 years' experience in the operation and project development of major projects in North and South America, Africa, Asia and Australia. He has been involved in many aspects of the mineral processing industry from process development, feasibility studies, and design assignments as well as commissioning of projects.

Mr Leonard joined the Board on 6 September 2019 and was appointed as Lead Independent Director on 2 February 2021.

Committee memberships:

Technical, Risk (Chair), Audit, Remuneration, Nomination

Other ASX listed directorship:

Lycopodium Limited

Previous ASX listed directorship in the last 3 years:

Nil

NIGEL SPICER

BSc (Mining), CEng, MAusIMM

Non-Executive Director

Nigel Spicer is a Mining Engineer with more than 40 years' experience in mining and has held operational and executive management positions with mining companies in Africa, UK, Australia, Indonesia, PNG, Brazil and Philippines. He has extensive open pit and underground (narrow vein and bulk tonnage) mining experience across a range of commodities, including gold and copper.

He has significant experience managing both owner and contract mining fleets and has been involved in the successful commissioning of a number of gold mines in Australia and Africa.

Mr Spicer joined the Board on 6 September 2019.

Committee memberships:

Technical (Chair), Risk, Audit, Nomination

Other ASX listed directorship:

Nil

Previous ASX listed directorship in the last 3 years:

Nil

ROBIN ROMERO

BCom (Accounting and Finance), LLB, CA ANZ, GAICD

Non-Executive Director

Robin Romero has more than 30 years of accounting, legal and commercial experience. She is a former General Counsel and Executive Director of mining contractor Barmenco Limited and is Legal Counsel at FMR Investments Pty Ltd. She is currently a NED of ASX-listed Euroz Hartleys Group Limited and a NED of not-for-profit group Greening Australia Limited.

Prior to these roles, Ms Romero spent more than 10 years working in large accounting and law firms including KPMG, EY, and King & Wood Mallesons.

She holds BComm and Bachelor of Laws degrees from the University of Western Australia, is a Chartered Accountant and an Australian Institute of Company Directors member.

Ms Romero joined the Board on 1 December 2022.

Committee memberships:

Risk, Audit (Chair), Remuneration, Nomination

Other ASX listed directorship:

Euroz Hartleys Group Limited

Previous ASX listed directorship in the last 3 years:

Nil

STEWART FINDLAY

BCom (Accounting and Finance), MAICD

Non-Executive Director

Stewart Findlay has more than 25 years' financial markets experience and has provided project finance (senior secured debt and corporate facilities), equity investments, commodity hedging arrangements and corporate advice to many resource companies.

He has held senior positions in the metals and mining divisions of Macquarie Bank and National Australia Bank. He holds a Bachelor of Commerce (Accounting & Finance) from the University of New South Wales and is a Member of the Australian Institute of Company Directors.

Mr Findlay joined the Board on 29 May 2020.

Committee memberships:

Risk, Audit, Remuneration (Chair), Nomination (Chair)

Other ASX listed directorship:

Nico Resources Limited

Previous ASX listed directorship in the last 3 years:

Nil

COMPANY SECRETARIES

PADRAIG O'DONOGHUE

Chief Financial Officer since June 2018 and Company Secretary since May 2020.

Mr O'Donoghue has extensive experience in the mining industry and has held CFO and Company Secretarial positions with several private and ASX-listed mining and contracting companies, including Consolidated Rutile, VDM, Navigator, Jabiru and Barmenco. His career has included roles with PWC in Vancouver, Canada where he qualified as a Chartered Accountant and with Placer Dome and Barrick in senior management and operational positions in Australia and internationally. Padraig holds a Bachelor of Commerce degree from the University of British Columbia, Canada.

ANNIE ATKINS

Legal Counsel and Joint Company Secretary, appointed on 13 November 2023.

Ms Atkins is an experienced lawyer and company secretary with a background of broad commercial experience gained in both in-house and private practice roles. She has over 20 years of legal practice experience including legal leadership roles and experience leading a wide range of corporate transactions including project financing, acquisitions, recapitalisations and major projects. Annie's most recent roles have included Chief Legal Officer at family office Lance East Office, Deputy General Counsel of both Tattarang, one of Australia's largest private investment groups, and the Munderoo Foundation and Senior Associate at national law firm Clayton Utz. She has also served as Legal Counsel and Company Secretary at Macquarie Bank (Sydney) in its Infrastructure and Specialised Funds division.

Principal Activities

During the year, the principal activities of the Group were comprised of:

- operation of the Sanbrado Gold Project ('Sanbrado');
- construction of the Kiaka Gold Project ('Kiaka');
- completion of the Toega gold deposit ('Toega') feasibility study and advancement of the Toega mining licence application; and
- mineral exploration on the Group's exploration tenements located in Burkina Faso.

Dividends

No dividends have been paid or declared since the start of the year and the Directors do not recommend the payment of a dividend in respect of the year.

Significant Changes in the State of Affairs

No significant changes in the state of affairs of the Group occurred in the year.

Significant Event after Balance Sheet Date

There has not arisen in the interval between the end of the reporting period and the date of this report, any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Likely Developments and Expected Results

In the opinion of the Directors, likely developments in and expected results of the operations of the Group have been disclosed in the "Operating Review", "Financial Review" and "Significant Events After Balance Sheet Date" sections of this Annual Report. Disclosure of any further information regarding likely developments in the operations of the Group in future years and the expected results of those operations is likely to result in unreasonable prejudice to the Company.

Share Options and Performance Rights

At the date of this report the unissued ordinary shares of the Company under option are:

	Issue date	Exercise price	Expiry date	Number issued
OPTIONS	11 Jun 20	\$0.6061	11 Jun 24	251,196
				251,196
PERFORMANCE RIGHTS*

	12 May 23	\$0.0000	12 May 27	568,008
	12 May 23	\$0.0000	12 May 25	30,906
				6,837,783
				Total options and performance rights on issue 7,088,979

* Performance rights are granted subject to various performance hurdles.

Non-Audit Services

No fees were paid or payable for non-audit services provided by the auditor of the parent entity during the year.

Directors' Meetings

The number of Board of Directors meetings and Board Committee meetings held during the year and the number of meetings attended by each director were as follows:

DIRECTOR	Board of Directors		Committees of the Board									
			Audit		Remuneration		Technical		Risk		Nomination	
	A	B	A	B	A	B	A	B	A	B	A	B
Richard Hyde	7	7	-	-	-	-	4	4	1	1	1	1
Lyndon Hopkins	7	7	-	-	-	-	4	4	1	1	1	1
Libby Mounsey	7	7	-	-	-	-	-	-	1	1	1	1
Rod Leonard	7	7	3	3	3	3	4	4	1	1	1	1
Nigel Spicer	7	7	3	3	-	-	4	4	1	1	1	1
Stewart Findlay	7	7	3	3	3	3	-	-	1	1	1	1
Robin Romero	7	7	3	3	3	3	-	-	1	1	1	1

A | The number of meetings held whilst a Director or a committee member

B | The number of meetings the Director or committee member attended

Rounding of Amounts

The Company is of a kind referred to in “ASIC Corporations (Rounding in Financial/Directors’ Report) Instrument 2016/191”, issued by the Australian Securities and Investments Commission, relating to the “rounding off” of amounts in the Directors’ Report and accompanying financial statements. Amounts in the Directors’ Report and accompanying financial statements have been rounded off in accordance with that Rounding Instrument to the nearest thousand dollars, or in certain noted cases, to the nearest dollar. All amounts are in Australian dollars, unless otherwise stated.

Remuneration Report (Audited)

The Directors of West African Resources Limited present the Remuneration Report for the Group for the year ended 31 December 2023. This Remuneration Report forms part of the Directors' Report and has been prepared in accordance with the Corporations Act 2001.

1. REMUNERATION REPORT OVERVIEW

This Remuneration Report details the remuneration arrangements for West African's Key Management Personnel ('KMP'), being:

- the Non-Executive Directors ('NEDs'); and
- the Executive Directors and the other senior executives with authority for planning, directing and controlling the major activities of the Group (together the 'Executives').

The KMP during the year are set out below. All of them served in their capacity for the entire year.

Name	Position	Appointed
NON-EXECUTIVE DIRECTORS		
Nigel Spicer	Non-Executive Director	September 2019
Rod Leonard	Non-Executive Director	September 2019
	Lead Independent Director	February 2021
Stewart Findlay	Non-Executive Director	May 2020
Robin Romero	Non-Executive Director	December 2022
EXECUTIVE DIRECTORS		
Richard Hyde	Executive Chairman and Chief Executive Officer	September 2006
Lyndon Hopkins	Executive Director and Chief Operating Officer	September 2019
Libby Mounsey	Executive Director of Human Resources	December 2022
SENIOR EXECUTIVE		
Padraig O'Donoghue	Chief Financial Officer and Company Secretary	June 2018 May 2020

2. GROUP PERFORMANCE AND ITS LINK TO SHAREHOLDER RETURNS

The following table provides the earnings per share, dividends per share, net profit/(loss) and share price of West African Resources Limited at 31 December 2023 compared to the 4 previous reporting periods.

Period ending	DEC 2023	DEC 2022	DEC 2021	DEC 2020	DEC 2019
Reporting period length	<i>12 months</i>	<i>12 months</i>	<i>12 months</i>	<i>12 months</i>	<i>12 months</i>
EPS (cents)	14.3	16.1	20.9	10.2	(0.5)
Dividends (cents per share)	Nil	Nil	Nil	Nil	Nil
Net profit/(loss) (\$'000)	164,797	183,706	214,438	98,900	(4,334)
Share price (\$)	0.945	1.175	1.320	1.050	0.430

3. REMUNERATION GOVERNANCE

A. REMUNERATION COMMITTEE RESPONSIBILITY

The Remuneration Committee is a subcommittee of the Board. It is primarily responsible for making recommendations to the Board on:

- Executive remuneration, including the executive incentive scheme framework and associated policies, targets, and awards;
- matters relating to Executive and Non-Executive Director recruitment, retention, performance measurement and termination; and
- NED remuneration.

The Remuneration Committee assesses the appropriateness of the nature and amount of remuneration of Executives and NEDs by reference to relevant employment market conditions in comparative peer companies both locally and internationally with the overall objective of maximising stakeholder benefit from the retention and incentivisation of a high performing Board and Executive team. Further information on the duties and responsibilities of the Remuneration Committee is contained in the Remuneration Committee Charter which is available on the Company's website.

B. USE OF REMUNERATION ADVISORS

External remuneration consultants may be engaged directly by the Board or the Remuneration Committee to provide information or advice. Where a remuneration recommendation is made relating to the Board, Executive and KMP, the advice will be provided directly to an Independent Non-Executive Director and shall be free of influence from management.

In 2022, the Remuneration Committee engaged The Reward Practice Pty Ltd (The Reward Practice) to review and provide benchmarking for Executive and Non-Executive Remuneration. The Reward Practice recommendations were provided to the Remuneration Committee as an input into decision making and were used to assist the Remuneration Committee and Board in reviewing executive remuneration packages (base salaries and quantum/mix of incentives), and NED fees, including Committee fees. The remuneration advice and analysis received in 2022 remained current in 2023 with the planned 2024 remuneration levels for the Executives and NEDs remaining consistent with 2023. Accordingly, external remuneration specialists were not engaged for advice relating to Board, Executive or KMP remuneration during 2023, and no fees were paid to external remuneration consultants during the year.

C. EXECUTIVE REMUNERATION POLICY

In determining executive remuneration, the Board aims to ensure that remuneration practices are:

- fair, competitive and reasonable, enabling the Company to attract and retain high calibre talent;
- aligned to the Company's performance, strategic and business objectives and the creation of shareholder value;

- transparent and easily understood; and
- aligned with shareholders, linking both short and long term shareholder value creation.

The Company's approach to remuneration ensures that remuneration is competitive, performance focused, clearly links appropriate reward with desired business performance, efficient to administer, and easy to understand by Executives and shareholders.

In line with the remuneration policy, remuneration levels are reviewed annually to ensure alignment to the market and the Company's stated objectives.

D. REMUNERATION FRAMEWORK

The following executive remuneration framework was adopted by the Board in 2018. Since this time, the framework has been reviewed by external remuneration consultants in 2018 and 2022 and confirmed as suitable for the Company by the Remuneration Committee in 2023.

Type	Category	Definition of category	Purpose summary
Fixed remuneration	Total fixed remuneration	Pay which is linked to the present value and market rate of the role.	Pay for fulfilling the requirements of the role.
At-risk remuneration	Short term incentive	Pay for delivering the plan and growth agenda for WAF, which must create value for shareholders. Incentive pay will be linked to the achievement of 'line-of-sight' performance goals. It reflects ' pay for performance '.	Incentive for the achievement of annual objectives and sustained business value.
At-risk remuneration	Long term incentive	Pay for creating value for shareholders. Reward pay is linked to shareholder returns. It reflects ' pay for results '.	Incentive for performance over the long term.

An important governance and legal component of the remuneration framework is the Company's Employee Awards Plan. Following shareholder approval at its May 2023 Annual General Meeting, the Company adopted an updated Employee Awards Plan ('Updated Plan'). The update was undertaken to align the Updated Plan with new provisions under Division 1A to Part 7.12 of the Corporations Act 2001 with respect to being eligible for relief from the Corporations Act's requirements for disclosure and on-sale, however in most operating respects the Updated Plan is consistent with the one it replaced, and the purpose of both plans are to:

- assist in the reward, retention and motivation of participants;
- link the reward of participants to performance and the creation of shareholder value;
- align the interests of participants more closely with the interests of shareholders; and
- provide greater incentive for participants to focus on the Company's longer-term goals.

All equity incentives issued to NEDs, Executives and other employees, including options and Performance Rights, have been issued by the Company under the terms and conditions of the Updated Plan or the previous employee award plan it replaced.

E. FIXED REMUNERATION

Total fixed remuneration ('TFR') consists of the base salary, superannuation, and other non-monetary benefits such as employee leave. TFR is intended to compensate the Executives for:

- competently and professionally fulfilling the scope of the Executive's roles and responsibilities; and
- the Executive's skills, experience, and qualifications.

F. AT-RISK REMUNERATION

In order to ensure that executive remuneration is aligned to Company performance, a portion of each Executive's remuneration is placed "at risk". The STI and LTI categories comprise this at-risk component.

Short-term incentive ('STI'):

- The primary purpose of the STI is to incentivise Executives to achieve the annual STI performance targets which are set by the Board at the beginning of the year. The STI performance targets clearly set out the annual performance targets the Board requires from management, and achievement of the targets is determined by the Board at the end of the year.
- The STI also enables the Executives to accumulate equity in the business which provides alignment with the shareholders for sustained strong business results.
- The STI also provides an employee-retention benefit to the Company due to the service vesting conditions of the STI equity award, which require a period of continuous service before the equity awards vest. This service condition is typically two years.

Long-term incentive ('LTI'):

- The LTI is designed to incentivise Executives to achieve strategic objectives, delivering long-term shareholder value as evidenced by market and non-market measures. The LTI is designed to reward the Executives for the achievement of long-term performance targets set by the Board at the beginning of the long-term performance period. The long-term targets are intended to provide clear and measurable direction as to what the Board and shareholders require over the long-term performance period, which is typically a minimum of 3 years.
- The LTI also enables the Executives to accumulate equity in the business which provides alignment with the shareholders for sustained strong business results.
- The LTI also provides an employee retention benefit due to the LTI equity awards including a condition that requires Executives to remain in continuous service to the Company in order for them to vest.

4. NON-EXECUTIVE DIRECTOR REMUNERATION

West African Resources Limited's NED fee policy is designed to attract and retain high calibre Directors who can discharge the roles and responsibilities required in terms of good governance, strong oversight, independence, and objectivity.

The Company's constitution and the ASX listing rules specify that the NED fee pool limit shall be approved periodically by shareholders. The last determination at an AGM was an aggregate fee pool of \$900,000 per year to ensure the Company can continue to attract and retain a high-performing Board of Directors with the appropriate overall skillset and composition.

The following table sets out the NED annual fee levels.

TITLE	2023	2022
Lead Independent Director base fee	\$150,000	\$112,500
NEDs base fee	\$120,000	\$90,000
Additional fee for being a committee chair*	\$15,000	Nil

* Excludes the Nomination Committee.

NED remuneration consists solely of director fees. There is no scheme to provide retirement benefits to NEDs other than statutory superannuation. Aside from being offered the option of receiving 30% of their base director fees in the form of Performance Rights, NEDs do not participate in any performance related incentive programs.

Whilst WAF has no minimum shareholding policy for NEDs, the Board is of the view that it is beneficial for NEDs to hold an equity interest because it is in alignment with the Company's shareholders. The NED fee structure in 2023 was either one of the following, at the election of each individual NED:

- i) 100% of NED fees paid in cash; or
- ii) 30% of NED base fees paid in Performance Rights (30% equity component) with the remainder paid in cash.

The 30% equity component of the structure has been approved, in respect of each participating Director, at a General Meeting of Shareholders of the Company. All of the Company's NEDs elected to participate in the 30% equity component in respect of their 2023 NED fees.

As noted in the above table setting out the NED fee levels, in 2023 the Company introduced an additional fee for NEDs undertaking the chairperson of a Board Committee (other than the Nomination Committee). No additional fees apply for being a committee member or chair of the Nomination Committee.

NEDs are entitled to be paid, as the Board determines, for additional services provided to the Group outside of their Directorship responsibilities. They may also be reimbursed for out-of-pocket expenses they incur as a result of their directorships.

5. EXECUTIVE REMUNERATION

A. EXECUTIVE REMUNERATION STRUCTURE

The remuneration framework provides for total remuneration for each Executive to be split between the fixed and at-risk components. The following table sets out the apportionment of fixed and at-risk remuneration that applied in 2023.

EXECUTIVE	Fixed remuneration	At-risk remuneration
		(STI and LTI)
Executive Chairman & CEO	42%	58%
Chief Operating Officer	45%	55%
CFO & Company Secretary	50%	50%
Director of Human Resources	50%	50%

The 'at-risk' apportionment for each Executive is comprised as follows, which shows a significant weighting towards the long-term (LTI) component. In the Board's view this provides a balance of Executive incentivisation that aligns with shareholders for both short-term results and long-term sustainable returns.

EXECUTIVE	STI cash incentive	STI equity incentive	LTI equity incentive
Executive Chairman & CEO	14%	25%	61%
Chief Operating Officer	17%	25%	58%
CFO & Company Secretary	20%	40%	40%
Director of Human Resources	20%	40%	40%

The proportions in the above tables are used as a guide by the Remuneration Committee to recommend to the Board the maximum of each component of at-risk remuneration that can be earned by the Executives each year. The equity incentives are awarded by the Board early in the year, with the number awarded calculated based on the 7-day VWAP of WAF shares at the beginning of the incentive performance period. The number of equity incentives that will ultimately vest and become exercisable by the Executives is determined by the Board based on their assessment of the achievement of the vesting conditions set out when the equity incentives were awarded. The vesting conditions of the equity awards represent the market and non-market performance targets established by the Board that the Executive must achieve to earn that portion of their at-risk remuneration.

The equity incentives also provide an employee-retention benefit to the Company, in addition to the performance target incentives. For example, the STI equity incentives include a 2-year continuous service vesting condition, and each LTI equity incentive includes a condition that it will lapse if the Executive's employment terminates before the LTI equity award has vested.

B. EXECUTIVE SERVICE AGREEMENTS

The terms and conditions of employment of Executives are set out in their Executive Service Agreements ('ESAs'). A summary of the ESAs is shown in the following table.

EXECUTIVE	Total Fixed Remuneration [^] (annual)	Contract term	Company notice-period	Employee notice-period	Termination benefit*
Richard Hyde	\$832,500	Until terminated by either party	6-months' notice	3-months' notice	Nil termination benefit
Lyndon Hopkins	\$666,000	Same as above	Same as above	Same as above	Same as above
Padraig O'Donoghue	\$555,000	Same as above	Same as above	Same as above	Same as above
Libby Mounsey	\$388,500	Same as above	Same as above	Same as above	Same as above

[^] Amount shown includes fixed base annual salary, plus superannuation. The Executives' total fixed remuneration was adjusted on 1 July 2023 in relation to the change in superannuation guarantee from 10.5% to 11.0%.

* Termination benefits shown assume that termination was not due to a change of control of the Company.

C. AT-RISK REMUNERATION

At the beginning of 2023 the Board set out STI and LTI performance targets for Executives to earn their at-risk remuneration. The following table summarises the Executives' 2023 STI targets and their level of achievement as determined by the Board at the end of the year. These targets were the same for all of the Executives and the same targets applied to both the cash incentive portion of the STI and the equity incentive portions (as set out in section 5A of this report).

STI Category	STI Target	Weighting	Level of achievement
Gateway hurdle	200,000 ounces of gold is produced in 2023.	Gateway hurdle which determines if any STI will be paid for 2023	Gateway achieved
Gold production	Ounces of gold produced in 2023. Threshold: 200,000 (80% achievement) Target: 220,000 (100% achievement)	30%	100%
Costs	2023 cost guidance is achieved, being AISC of US\$1,175 per ounce. Threshold: \$1,215 (80% achievement) Target: \$1,175 (100% achievement)	30%	100%
Growth	Kiaka Project Development milestones achieved by 31 December 2023: <ul style="list-style-type: none"> • Engineering and Drafting; and • Concrete Batch Plant operational 	10%	100%
Social	There are no significant ⁴ social incidents recorded.	10%	100%
Environment	There are no significant ⁴ environmental incidents recorded.	10%	100%
Safety	The 12-month rolling Total Recordable Injury Frequency Rate (TRIFR) is below the annual gold industry 'reportable injuries frequency rate' as published by DMIRS - Western Australia.	5%	100%
Safety	External OHS Audit reports greater than 80% compliance.	5%	100%
Overall level of achievement for 2023		100%	100%

For 2023 the Executives earned an additional 3% on the cash portion of their 2023 STI due to achievement of a stretch performance measure in relation to the 'all in sustaining costs' outcome for the year. The Executives' total 2023 cash STI, inclusive of this additional 3% stretch amount, is shown in the 'cash bonus' column of the 'Remuneration Outcomes' table in section 6A of this remuneration report.

The 2023 STI equity incentive portion was comprised of Performance Rights with an expiry period of 3 years and an additional vesting condition that the Executive must remain an employee of the Company for two years from the date the Performance Rights were issued. The Board has determined that 100% of each Executive's 2023 STI Performance Rights will vest, subject to them satisfying the remainder of their 2-year service period.

⁴"Significant" in this context means a Major Consequence as categorised under the Company's enterprise risk matrix.

The following table sets out the vesting conditions of the 2023 LTI equity instruments issued to Executives at the beginning of 2023 along with their proportion of each Executive's overall 2023 equity LTI and end-of-year vesting status.

LTI equity instrument	Proportion of 2023 equity LTI	Vesting conditions	Vesting status								
2023 Production LTI Performance Rights (expire 5 years from issue date)	50%	At least 600,000 ounces of gold is poured within the three-year period from 1 January 2023 to 31 December 2025. 600,000 (80% achievement) 700,000 (100% achievement)	Unvested								
2023 Growth LTI Performance Rights (expire 4 years from issue date)	25%	Kiaka reaches first gold pour by 31 December 2025.	Unvested								
2023 Reserve Replacement LTI Performance Rights (expire 4 years from issue date)	25%	The proportion of Performance Rights that vest will be determined by the Board based on replacement of Ore Reserves due to depletion over the three-year period from 1 January 2023 to 31 December 2025 using the following guidelines:	Unvested								
		<table border="1"> <thead> <tr> <th>Ore Reserve Change</th> <th>Vesting proportion</th> </tr> </thead> <tbody> <tr> <td>Ore reserve is depleted</td> <td>Nil</td> </tr> <tr> <td>Ore reserve is maintained</td> <td>0%</td> </tr> <tr> <td>Ore reserve is maintained or grown up to 20%</td> <td>50% to 100% (straight line basis)</td> </tr> </tbody> </table>	Ore Reserve Change	Vesting proportion	Ore reserve is depleted	Nil	Ore reserve is maintained	0%	Ore reserve is maintained or grown up to 20%	50% to 100% (straight line basis)	
Ore Reserve Change	Vesting proportion										
Ore reserve is depleted	Nil										
Ore reserve is maintained	0%										
Ore reserve is maintained or grown up to 20%	50% to 100% (straight line basis)										

The 2023 STI and LTI equity awards issued to the Executive Directors were approved by shareholders at the Company's 12 May 2023 Annual General Meeting and additional details of these awards are contained in the corresponding notice of meeting.

6. REMUNERATION OUTCOMES

A. SUMMARY OF REMUNERATION PAID TO EXECUTIVE KMP IN 2023

The remuneration disclosures of the executive KMP for the year ended 31 December 2023, prepared in accordance with the requirements of the Corporations Act 2001 and the relevant Australian Accounting Standards, are detailed in the following table.

	Fixed remuneration				Variable remuneration				Performance based % of remuneration			
	Cash salary and fees	Super	Annual and long service leave	Total	Cash bonus*	Options	Performance Rights	Total	Fixed remuneration %	Remuneration linked to performance %		
EXECUTIVE DIRECTORS												
Richard Hyde	31 Dec 23	\$803,125	\$27,500	\$78,951	\$909,576	\$171,495	-	\$1,090,593	\$1,262,088	\$2,171,664	42%	58%
	31 Dec 22	\$702,087	\$14,538	\$64,925	\$781,550	\$129,285	-	\$1,003,154	\$1,132,439	\$1,913,989	41%	59%
Lyndon Hopkins	31 Dec 23	\$602,419	\$27,500	\$92,776	\$722,695	\$137,196	-	\$711,056	\$848,252	\$1,570,947	46%	54%
	31 Dec 22	\$530,548	\$20,702	\$61,745	\$612,995	\$99,450	-	\$655,156	\$754,606	\$1,367,601	45%	55%
Libby Mounsey	31 Dec 23	\$355,926	\$31,699	\$32,874	\$420,499	\$80,031	-	\$73,886	\$153,917	\$574,416	73%	27%
	31 Dec 22	\$25,191	\$3,000	\$2,305	\$30,496	-	-	-	-	\$30,496	100%	0%
EXECUTIVE												
Padraig O'Donoghue	31 Dec 23	\$526,301	\$27,449	\$59,824	\$613,574	\$114,330	-	\$483,638	\$597,968	\$1,211,542	51%	49%
	31 Dec 22	\$419,664	\$21,336	\$44,578	\$485,578	\$79,560	-	\$358,110	\$437,670	\$923,248	53%	47%
Total	31 Dec 23	\$2,287,771	\$114,148	\$264,425	\$2,666,344	\$503,052	-	\$2,359,173	\$2,862,225	\$5,528,569	48%	52%
	31 Dec 22	\$1,677,490	\$59,576	\$173,553	\$1,910,620	\$308,295	-	\$2,016,420	\$2,324,715	\$4,235,334	45%	55%

* Current year and prior year are presented on the accrual basis.

B. SUMMARY OF REMUNERATION PAID TO NON-EXECUTIVE KMP IN 2023

The remuneration disclosures of the non-executive KMP for the year ended 31 December 2023, prepared in accordance with the requirements of the Corporations Act 2001 and the relevant Australian Accounting Standards, are detailed in the following table. All remuneration paid to non-executive KMP was on a fixed basis, with no variable component.

NON- EXECUTIVE DIRECTORS	Fixed remuneration				Variable remuneration				Total Remuneration	
	Cash salary and fees	Super	Annual and long service leave	Total	Cash bonus*	Options	Performance Rights	Total		
Rod Leonard	31 Dec 23	\$108,353	\$11,647	-	\$120,000	-	-	\$35,141	\$35,141	\$155,141
	31 Dec 22	\$71,429	\$7,321	-	\$78,750	-	-	\$28,316	\$28,316	\$107,066

There were no loans to KMP during the year.

END OF AUDITED REMUNERATION REPORT.

AUDITOR INDEPENDENCE

Section 307C of the Corporations Act 2001 requires our auditors, HLB Mann Judd, to provide the Directors of the Company with an Independence Declaration in relation to the audit of the financial report. This written Auditor's Independence Declaration is set out on page 92 and forms part of this Directors' Report.

Signed in accordance with a resolution of the Directors.

A handwritten signature in black ink, appearing to read 'RHyde', is positioned above the printed name of the signatory.

RICHARD HYDE

Executive Chairman & CEO

Cash at the end of the financial period	7	135,080	173,393

The above Consolidated Statement of Cash Flows should be read in conjunction with the accompanying notes.

11

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

1. Basis of preparation

A. BASIS OF ACCOUNTING

These consolidated financial statements are presented in Australian dollars and are general purpose financial statements which have been prepared in accordance with applicable accounting standards, the Corporations Act 2001 and mandatory professional reporting requirements in Australia (including the Australian equivalents of International Financial Reporting Standards). They have also been prepared on the historical cost basis and do not take into account changing money values. The accounting policies are consistent with those of the previous financial period, unless otherwise stated.

The financial information for the parent entity, West African Resources Limited, is disclosed in note 31 and has been prepared on the same basis as the Group.

B. ROUNDING OF AMOUNTS

The Company is of a kind referred to in Rounding Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to the “rounding off” of amounts in the financial statements. Amounts in the financial statements have been rounded off in accordance with that Rounding Instrument to the nearest thousand dollars (\$000’s), unless otherwise stated.

C. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Group. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

All intercompany balances and transactions, including unrealised profits arising from intra-group transactions, have been eliminated in full. Unrealised losses are eliminated unless costs cannot be recovered. Subsidiaries are consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group. Where there is loss of control of a subsidiary, the consolidated financial statements include the results for the part of the reporting period during which West African Resources Limited had control.

D. ADOPTION OF NEW AND REVISED STANDARDS

There have been no new or amended accounting standards or interpretations issued by the Australian Accounting Standard’s Board (AASB) that have been applied for the first time in the current reporting period.

There are no forthcoming standards and amendments that are expected to have a material impact on the Group in the current or future reporting periods, or on foreseeable future transactions.

E. SIGNIFICANT ACCOUNTING JUDGEMENTS AND KEY ESTIMATES

The preparation of this financial report requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Exploration and evaluation costs

On a case-by-case basis, assessing whether the acquisition costs and exploration and evaluation expenses of particular mineral properties will be expensed or whether it is appropriate to capitalise them as exploration and evaluation (E&E) assets.

Valuation of rehabilitation provision

- Estimating the future cash flows to settle mine restoration obligations.
- Setting the discount rate and inflation rate used in the calculation of the rehabilitation provision.

Property, plant and equipment

- Estimating future life of mine costs and gold mineralisation for amortisation of mine development assets.
- Setting the useful lives and depreciation rates for plant and equipment.
- Assessing assets for impairment of their carrying value.

Valuation of PPA liability

Estimating the future cash flows to settle the production payment agreement (‘PPA’) liability.

Group consolidation

Setting the functional currency used for each entity in the Group.

Income tax

- Interpreting tax legislation in a number of countries.
- Estimating future tax outcomes.

Share-based payments

- Estimating the fair value of share-based payments on the date at which they are granted.
- Estimating number of share-based payment awards to employees that will ultimately vest at each reporting date.

Value added tax ('VAT') receivable

Estimating the amount recoverable and timing of recovery of VAT receivable from the Burkina Faso government.

F. REVENUE

The Group primarily generates revenue from the sale of gold bullion. Such sales revenue is recognised when ownership of the metal is transferred to the buyer. This typically occurs when physical bullion, from a contracted sale, is transferred from the Group's metal account to the metal account of the buyer.

Where the Group receives provisional payments from buyers, in advance of transfer of ownership, the Group classifies the provisional payment as a deferred revenue liability until ownership is transferred and the associated revenue is recognised.

G. INCOME TAXES

The income tax expense or benefit for the period is based on the profit or loss for the period adjusted for any non-assessable or disallowed items. It is calculated using tax rates that have been enacted or are substantially enacted as at balance date.

Deferred tax is provided on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxation profit or loss.

Deferred income tax assets are recognised to the extent that it is probable that the future tax profits will be available against which deductible temporary differences will be utilised. The amount of the benefits brought to account, or which may be realised in the future, is based on the assumption that no adverse change will occur in the income taxation legislation and the anticipation that the economic unit will derive sufficient future assessable income to enable the benefits to be realised and comply with the conditions of deductibility imposed by law.

H. OTHER TAXES

Revenues, expenses and assets are recognised net of the amount of value added taxes ('VAT') except:

- when the VAT incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the VAT is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of VAT included.

Australian goods and services tax ('GST') is a type of VAT.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the VAT component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of VAT recoverable from, or payable to, the taxation authority.

I. CASH AND CASH EQUIVALENTS

Cash comprises cash at bank and in hand. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

J. INVENTORIES

Ore stockpiles, gold in circuit and finished goods (being gold doré and gold bullion) inventories are valued at the lower of weighted average cost and net realisable value. Costs include direct production costs and an appropriate allocation of attributable overheads. Depreciation and amortisation attributable to production of the inventory are also included in the cost of inventory.

Inventories of consumable supplies and spare parts are valued at the lower of weighted average cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less estimated cost of completion, and the estimated costs necessary to make the sale.

K. PROPERTY, PLANT AND EQUIPMENT

Each class of property, plant and equipment ('PP&E') is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses. The cost of an item of PP&E consists of the purchase price, applicable borrowing costs, any

costs directly attributable to bringing the asset to the location and condition necessary for its intended use, and an initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The carrying amount of the PP&E is reviewed at each balance date to assess whether there is any indication that the assets may be impaired. If any such indication exists, then the recoverable amount of the assets is estimated. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than the estimated recoverable amount.

Gains and losses on disposal of PP&E are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of profit or loss and other comprehensive income.

Mines under construction

Expenditure on the construction, installation, and completion of infrastructure facilities for mining properties is capitalised to mines under construction. The expenditure includes direct costs of construction, drilling costs and removal of overburden to gain access to the ore, borrowing costs capitalised during construction and an appropriate allocation of attributable overheads.

After reaching pre-determined levels of operating capacity intended by management, known as 'commencement of commercial production', the assets included in mines under construction are transferred out of mines under construction to their appropriate PP&E category and depreciation and amortisation commence.

Mine development assets

Mine development represents expenditure incurred in relation to overburden removal based on underlying mining activities and related mining data and construction costs and underground development previously accumulated and carried forward in relation to mineral properties in which mining has now commenced. Such expenditure comprises direct costs and an allocation of directly related overhead expenditure.

All expenditure incurred prior to the commencement of production from each development property is carried forward to the extent to which recoupment out of future revenue from the sale of production, or from the sale of the property, is reasonably assured. When further development expenditure is incurred in respect of a mine property after the commencement of commercial production, such expenditure is carried forward as part of the cost of the mine property only when future economic benefits are reasonably assured, otherwise the expenditure is classified as part of the cost of production and expensed as incurred. Such capitalised development expenditure is added to the total carrying value of the mine development being amortised.

Mine development costs (as transferred from exploration and evaluation and/or mines under construction) are amortised on a units-of-production basis over the life of mine to which they relate. In applying the units of production method, amortisation is calculated using the expected total contained ounces as determined by the life-of-mine plan specific to that mine property. For development expenditure undertaken during production, the amortisation rate is based on the ratio of total development expenditure (incurred and anticipated) over the expected total contained ounces as estimated by the relevant life-of-mine plan to achieve a consistent amortisation rate per ounce. The rate per ounce is typically updated annually as the life of mine plans are revised.

Depreciation

Depreciation of non-mine specific PP&E is calculated using the straight-line method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives determined as follows:

- Land and buildings - 3 to 10 years
- Office equipment - 3 to 10 years
- Plant and equipment - 3 to 10 years
- Light vehicles - 3 years

The assets' residual values and useful lives are reviewed and adjusted if appropriate, at each balance date.

L. EXPLORATION AND EVALUATION

Exploration and evaluation ('E&E') costs are captured separately for each area of interest. Such costs comprise direct costs and an appropriate portion of related overhead expenditure. E&E costs, including acquisition costs, are capitalised when incurred in areas limited to a size related to a known mineral resource capable of supporting a mining operation for which the Group has (or is acquiring) rights of tenure and where activities may not have reached a stage which permits a reasonable assessment of the existence of economically recoverable ore reserves, and active and significant operations in relation to the area are continuing. Each capitalised area of interest is regularly reviewed. If the project is abandoned or if it is considered unlikely that capitalised costs will be recouped through development or sale of the project then accumulated costs to that point are written off immediately.

Where a decision has been made to proceed with development in respect of a particular area of interest, the associated E&E assets are transferred to PP&E and all future E&E costs for the area of interest are classified as PP&E within either mines under construction or mine development assets, as appropriate.

M. RECOVERABLE AMOUNT OF NON-CURRENT ASSETS

The carrying amounts of non-current assets are reviewed annually to ensure they are not more than the recoverable amounts from those assets. The recoverable amount is assessed on the basis of the expected net cash flows, which will be received from the assets employed and subsequent disposal. The expected net cash flows have been or will be discounted to present values in determining recoverable amounts.

N. TRADE AND OTHER PAYABLES

Trade and other payables represent the principal amounts outstanding at balance date, plus, where applicable, any accrued interest.

O. BORROWINGS

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

P. LEASE LIABILITIES

Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated entity's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease

payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

Right-of-use assets

Right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The consolidated entity has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Q. PROVISION FOR REHABILITATION

Rehabilitation costs are recognised in full at present value as a liability when an obligation arises to decommission or restore a site to a certain condition. An equivalent amount is capitalised as part of the cost of the related asset.

The Group's assessment of the present value of the rehabilitation and mine closure provision requires the use of estimates and judgements, including the future cost of performing the work,

timing of the cash flows, discount rates, and final remediation strategy. Changes in the estimates or other assumptions are accounted for on a prospective basis. The provision can also be impacted prospectively by changes to legislation or regulations.

Adjustments to the provision are offset by a change in the carrying value of the related asset. Where the provisions are for assets no longer in use, such as mines and processing sites that have been closed, any adjustment is reflected directly in profit or loss.

R. ISSUED CAPITAL

Ordinary Shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options, or for the acquisition of a business, are included in the cost of the acquisition as part of the purchase consideration.

S. EMPLOYEE BENEFITS

Provision is made for employee benefits accumulated as a result of employees rendering services up to the reporting date. These benefits include wages and salaries, annual leave, and long service leave.

Liabilities arising in respect of wages and salaries, annual leave and any other employee benefits expected to be settled within 12 months of the reporting date are measured at their nominal amounts based on remuneration rates which are expected to be paid when the liability is settled. All other employee benefit liabilities are measured at the present value of the estimated future cash outflow to be made in respect of services provided by employees up to the reporting date. In determining the present value of future cash outflows, the market yield as at the reporting date on national government bonds, which have terms to maturity approximating the terms of the related liability, is used.

T. SHARE-BASED PAYMENTS

The Group provides benefits to employees (including Directors) of the Group in the form of share-based payment transactions, whereby employees render services in exchange for shares or rights over shares (“equity-settled transactions”). The cost of these equity-settled transactions with employees is measured by reference to the fair value at the date on which they are granted. The fair value is determined by a valuation using Black-Scholes or Binomial option pricing models.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the

award (“vesting date”). The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the estimated number of awards that will ultimately vest. This estimate is formed based on the best available information at balance date. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition. Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award.

U. FOREIGN CURRENCY TRANSLATION

Both the functional and presentation currency of West African Resources Limited and its Australian subsidiary are Australian dollars. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance date.

All exchange differences in the consolidated financial report are taken to profit or loss with the exception of differences on foreign currency borrowings that provide a hedge against a net investment in a foreign entity. These are taken directly to equity until the disposal of the net investment, at which time they are recognised in profit or loss.

Tax charges and credits attributable to exchange differences on those borrowings are also recognised in equity.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

The functional currency of the foreign subsidiaries, Wura Resources Pty Ltd SARL, West African Resources Development SARL, Tanlouka SARL, Société des Mines de Sanbrado SA, Volta Properties SARL, Kiaka Gold SARL and Kiaka SA, is the Communaute Financière Africaine Franc (‘CFA’). The functional

currency of the foreign subsidiary, Channel Resources Ltd is the Canadian Dollar ('CAD'). The functional currency of the foreign subsidiaries, Channel Resources (Cayman I) Ltd, Channel Resources (Cayman II) Ltd, Volta Resources (Cayman) Inc., and Volta II Ltd is the United States Dollar ('USD').

As at the reporting date the assets and liabilities of the subsidiaries are translated into the presentation currency of West African Resources Limited at the rate of exchange ruling at the balance date and their income and expenses are translated at the average exchange rate for the year.

The exchange differences arising on the translation are taken directly to a separate component of equity, being recognised in the foreign currency translation reserve.

On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in profit or loss.

V. FINANCIAL ASSETS

Financial assets are classified, at initial recognition, and subsequently measured at amortised cost, at fair value through other comprehensive income (OCI), or fair value through profit or loss (FVTPL).

The classification of financial assets at initial recognition that are debt instruments depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financial component or for which the Group has applied the practical expedient for contracts that have a maturity of one year or less, are measured at the transaction price determined under AASB 15.

In order for a financial asset to be classified and measured at amortised cost of fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For the purposes of subsequent measurement, financial assets are classified in four categories:

- i. Financial assets at amortised cost (debt instruments);
- ii. Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments);
- iii. Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments); or
- iv. Financial assets at fair value through profit or loss.

Financial assets at amortised cost (debt instruments)

This category is the most relevant to the Group. The Group measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objectives to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate method and are subject to impairment. Interest received is recognised as part of finance income in the statement of profit or loss and other comprehensive income. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at fair value through profit or loss

Financial assets that do not meet the criteria for amortised cost are measured at fair value through profit or loss.

2 SEGMENT REPORTING

A. DESCRIPTION OF SEGMENTS

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board and the executive management team in assessing performance and in determining the allocation of resources. The operating segments of the Group are:

Mining Operations: comprise the Sanbrado Gold Project operation located in Burkina Faso.

Construction and E&E: comprises mines under construction and exploration and evaluation (E&E) projects in locations other than Sanbrado.

B. SEGMENT INFORMATION

	Mining operations	Construction and E&E	Other	Total
	\$'000	\$'000	\$'000	\$'000
2022				
Total segment revenue	608,064	36	128	608,228
Total segment expenses	324,677	4,895	7,785	337,357
Total segment results	283,387	(4,859)	(7,657)	270,871
Segment assets at 31 December 2022	628,227	140,441	110,037	878,705
Segment liabilities at 31 December 2022	132,112	2,815	3,211	138,138
2023				
Total segment revenue	660,808	36	381	661,225
Total segment expenses	390,874	4,070	9,789	404,733
Total segment results	269,934	(4,034)	(9,408)	256,492
Segment assets at 31 December 2023	656,148	330,102	234,589	1,220,839
Segment liabilities at 31 December 2023	141,701	14,774	158,533	315,008

Segment result is reconciled to the profit before income tax as follows:

	2023	2022
	\$'000	\$'000
Total segment results	256,492	270,871
Share-based payments	(2,597)	(2,456)
Finance expenses	(1,770)	(2,110)
Other expenses	(17,478)	(9,695)
Net foreign exchange gain/(loss)	6,446	947
Profit before income tax	241,093	257,557

All metal sales in the year were made to MKS PAMP SA.

C. GEOGRAPHICAL INFORMATION

	Sales to external customers		Geographical non-current assets	
	2023	2022	2023	2022
	\$'000	\$'000	\$'000	\$'000
Africa	658,815	606,134	744,569	580,974
Australia	-	-	2,082	2,668
Total	658,815	606,134	746,651	583,642

3. REVENUE

	2023	2022
	\$'000	\$'000
Metal sales	658,815	606,134
Interest received	2,281	2,007
Other income	129	87
	661,225	608,228

4. EXPENSES

	2023	2022
	\$'000	\$'000
(a) Cost of sales		
Production expenses	293,815	228,378
Royalties and other selling costs	43,646	36,931
Depreciation and amortisation	86,790	58,997
Changes in inventory (cash)	(20,178)	2,318
Changes in inventory (non-cash)	(13,199)	(1,947)
	390,874	324,677
(b) Other expenses		
Accretion of rehabilitation provision	547	350
Depreciation and amortisation	154	359
Withholding tax expense	16,777	8,986
	17,478	9,695
(c) Other required disclosures		
Employee benefits (excluding share-based payments)	42,299	34,662

5. INCOME TAX

A. INCOME TAX RECOGNISED IN PROFIT OR LOSS

	2023	2022
	\$'000	\$'000
Current tax	79,271	56,423
Deferred tax	1,353	14,761
(Over)/Under provided in prior years	(4,328)	2,667
	76,296	73,851

B. NUMERICAL RECONCILIATION OF INCOME TAX EXPENSE TO PRIMA FACIE TAX PAYABLE

	2023	2022
	\$'000	\$'000
Accounting profit before tax	241,093	257,557
Income tax expense at 30%	72,327	77,267
Add/(Deduct):		
Non-deductible expenses	5,689	2,964
Effect of differences in foreign tax rates	(5,438)	(5,930)
Effect of differences in foreign exchange	960	631
Other permanent adjustment	3,105	5,747
Movement in unrecognised deferred tax assets	(347)	(6,828)
Income tax expense	76,296	73,851

C. UNRECOGNISED DEFERRED TAX BALANCES

	2023	2022
	\$'000	\$'000
(a) Unrecognised deferred tax assets		
Annual leave provision	144	92
Accrued expenses	213	145
Long service leave provision	59	33
Borrowings	14,270	14,132
Leases	11	41
Tax losses	20,447	20,447
(b) Unrecognised deferred tax liabilities		
Cash and short-term deposits	(3,471)	(2,844)
Prepayments	(6)	(5)
Right-of-use assets	(9)	(36)
Net unrecognised deferred tax asset	31,658	32,005

6. EARNINGS PER SHARE

	2023	2022
	\$	\$
Basic earnings per share (cents per share)	14.3	16.1
Diluted earnings per share (cents per share)	14.2	15.9
The profit and weighted average number of ordinary shares used in the calculation of basic earnings per share is as follows:		
Attributable profit for the year	146,871,956	164,442,151
Weighted average number of shares outstanding during the period used in calculations of basic earnings per share	1,024,736,383	1,021,110,697
Weighted average number of diluted shares outstanding during the period used in calculations of diluted earnings per share	1,031,147,540	1,031,263,524

7. CASH AND CASH EQUIVALENTS

	2023	2022
	\$'000	\$'000
Cash at bank and in hand	135,080	173,393
	135,080	173,393

8. TRADE AND OTHER RECEIVABLES

	2023	2022
	\$'000	\$'000
Current		
Interest receivable	4	-
Prepayments	10,266	2,856
Loan facility drawdown receivable	142,412	-
VAT receivable	77,474	40,103
Other receivables	1,761	408
	231,917	43,367

Prepayments include \$7,303,000 of prepaid transaction costs on borrowings (2022: nil). The value added tax (VAT) receivable is due from the Burkina Faso government and nil provision for doubtful debts has been applied (2022: nil provision applied). The loan facility drawdown receivable represents syndicated loan facility drawdown funds that were received at bank post 31 December 2023 (refer to note 15A for details of the syndicated loan facility).

9. INVENTORIES

	2023	2022
	\$'000	\$'000
Ore stockpiles – cost	62,638	34,230
Finished goods – cost	5,178	5,800
Gold in circuit – cost	10,666	3,510
Consumable supplies and spares – cost	25,441	24,491
	103,923	68,031

10. PROPERTY, PLANT AND EQUIPMENT

11. RIGHT-OF-USE ASSETS

	Property	Equipment	Total
	\$'000	\$'000	\$'000
Balance at 1 January 2022	209	12,504	12,713
Additions	-	-	-
Depreciation expensed for the period	(90)	(5,034)	(5,124)
Effects of movement in foreign exchange	-	(120)	(120)
Balance at 31 December 2022	119	7,350	7,469
Balance at 1 January 2023	119	7,350	7,469
Additions	-	-	-
Depreciation expensed for the period	(89)	(5,389)	(5,478)
Effects of movement in foreign exchange	-	235	235
Balance at 31 December 2023	30	2,196	2,226

The component of the 31 December 2023 balance will be depreciated over the remaining unexpired period of the respective lease agreements, which currently expire in 2024 unless extended.

12. EXPLORATION AND EVALUATION ASSETS

	2023	2022
	\$'000	\$'000
Balance at 1 January	57,581	175,455
Additions	2,729	13,455
Transfer to property, plant and equipment	-	(134,648)
Effects of movement in foreign exchange	1,585	3,319
Balance at 31 December	61,895	57,581

The recoupment of exploration and evaluation costs carried forward is dependent on the successful development and commercial exploitation or sale of the respective areas of interest.

13. OTHER NON-CURRENT ASSETS

	2023	2022
	\$'000	\$'000
Transaction costs	-	532
	-	532

At 31 December 2023, all capitalised transaction costs directly attributable to establishing the syndicated loan facility are classified to borrowings (refer to note 15), while at 31 December 2022, before the loan facility was established, they were classified to other non-current assets.

14 . TRADE AND OTHER PAYABLES

	2023	2022
	\$'000	\$'000
Current		
Trade payables	46,251	23,853
Accruals	35,192	27,528
Employee benefits payable	1,165	1,027
	82,608	52,408

15. LOANS AND BORROWINGS

A. LOAN FACILITY

	2023	2022
	\$'000	\$'000
Non-current		
Syndicated loan facility	146,816	-
PPA liability	17,505	-
Transaction costs	(31,243)	-
	133,078	-

(a) Syndicated loan facility

A USD denominated syndicated loan facility entered into on 29 December 2023, arranged by Sprott Resources Lending Corp. and Coris Bank International SA with a limit of US\$265 million. The utilised limit at 31 December 2023 of US\$100 million (2022: nil) carries interest at a rate of 5.5% plus the greater of (i) 3-month SOFR and (ii) 4%, payable quarterly, with loan repayments commencing in March 2026.

(b) PPA liability

A liability under a production payment agreement (PPA) to pay US\$9.82 per ounce on the first 1.5 million ounces of gold produced from the Kiaka Gold Project. The PPA liability balance was calculated by discounting the expected future cash outflows at a rate of 5%.

Amounts owing under the syndicated loan facility and PPA rank equally with respect to guarantees from substantially all companies in the Group and first ranking securities over substantially all assets of the Group.

B. SUPPLIER LOAN FACILITY

	2023	2022
	\$'000	\$'000
Current	14,102	14,106
	14,102	14,106

An unsecured USD denominated loan facility entered into in 2019 with Byrnegut Burkina Faso SARL as a component of the Sanbrado underground mining services contract, with a limit of US\$10 million. The utilised limit at 31 December 2023 of US\$9.6 million (2022: US\$9.6 million) carries an interest rate of 9.75% and is repayable in 2024 unless extended by agreement of the parties.

16. LEASES

	2023	2022
	\$'000	\$'000
Current	1,970	6,624
Non-current	-	1,450
	1,970	8,074
Amounts recognised in profit or loss		
Interest on lease liabilities	352	722
Expenses relating to short-term leases	30	55
	382	777
Amounts recognised in the statement of cash flows		
Total cash outflow for leases	5,328	7,544

17. PROVISIONS

	2023	2022
	\$'000	\$'000
Non-current		
Long service leave provision	196	110
Employee retirement provision	2,139	-
Rehabilitation provision	14,862	14,266
	17,197	14,376
Reconciliation of movements in rehabilitation provision:		
Balance at the start of the period	14,266	12,512
Increase in rehabilitation provision during the year	2,293	1,675
Effects of movement in foreign exchange	(1,697)	79
Balance at the end of the period	14,862	14,266

The Group's rehabilitation provision has been calculated by discounting the expected future rehabilitation cash outflows at a rate of 4.0% (2022: 2.75%) and assuming an average inflation rate of 3.0% (2022: 2.5%).

18. DEFERRED TAX LIABILITIES

	2023	2022
	\$'000	\$'000
Deferred tax liabilities		
Trade and other receivables	1,270	2,840
Property, plant and equipment	29,092	24,999
Trade and other payables	(935)	(549)
Borrowings	3,029	3,130
Borrowing costs	3,873	4,314
Revenue losses	(242)	-
Deferred tax liabilities	36,087	34,734
Movements:		
Opening balance	34,734	19,967
Charged to profit and loss	2,211	11,220
Under/(Over) provision in prior years	(858)	3,547
Closing balance	36,087	34,734

19. ISSUED CAPITAL

	2023	2022
	\$'000	\$'000
Fully paid ordinary shares	335,857	335,630
(a) Number of shares	No.	No.
At start of period	1,022,841,993	1,020,773,845
Issue of shares on exercise of options and performance rights	3,496,084	1,972,148
Issue of shares from capital raising	-	96,000
Balance at end of period	1,026,338,077	1,022,841,993
(b) Value of shares	\$'000	\$'000
At start of period	335,630	335,334
Issue of shares on exercise of options and performance rights	247	526
Issue of shares from capital raising	-	120
Share issue costs	(20)	(350)
Balance at end of period	335,857	335,630

20. RESERVES

	2023	2022
	\$'000	\$'000
Foreign currency translation reserve	12,838	689
Share-based payments reserve	17,835	15,096
	30,673	15,785

Nature and purpose of reserves

(a) Foreign currency translation reserve

The foreign currency translation reserve is used to record the Group's exchange differences arising from the translation of loans to foreign subsidiaries in the long term and the translation of the financial statements of foreign subsidiaries.

(b) Shared-based payments reserve

The shared-based payments reserve is used to recognise the fair value of options and performance rights issued by the Company under share-based payment arrangements that are not exercised or expired.

21. CASH FLOW INFORMATION

A. RECONCILIATION OF PROFIT AFTER INCOME TAX TO NET CASH INFLOW FROM OPERATING ACTIVITIES

	2023	2022
	\$'000	\$'000
Profit after income tax	164,797	183,706
Adjustment for:		
Depreciation and amortisation	86,945	59,355
Share-based payments	2,597	2,456
Other non-cash items	-	(1,727)
Accretion of rehabilitation provision	547	350
Financing costs	1,770	2,110
Net foreign exchange gain	(8,146)	(11,678)
	248,510	234,572
Changes in assets and liabilities		
(Increase)/Decrease in trade and other receivables	(37,525)	(3,097)
(Increase)/Decrease in inventories	(35,891)	(9,142)
(Decrease)/Increase in trade and other payables	13,564	21,682
(Decrease)/Increase in provisions	3,157	-
(Decrease)/Increase in current tax payable	15,444	(74,678)
(Decrease)/Increase in deferred tax liabilities	1,353	14,761
Net cash inflow from operating activities	208,612	184,098

B. RECONCILIATION OF LOANS AND BORROWINGS AND LEASES TO NET CASH FLOWS FROM FINANCING ACTIVITIES

	Loans and borrowings	Lease liabilities	Total
	\$'000	\$'000	\$'000
Balance at 1 January 2022	13,118	12,687	25,805
Cash outflow from financing activities	(524)	(7,544)	(8,068)
Effect of changes in foreign exchange rates	979	2,932	3,911
Balance at 31 December 2022	13,573	8,075	21,648
Balance at 1 January 2023	13,573	8,075	21,648
Cash outflow from financing activities	(2,012)	(5,328)	(7,340)
Drawn down yet to be received	133,078	-	133,078
Effect of changes in foreign exchange rates	2,541	(777)	1,764
Balance at 31 December 2023	147,180	1,970	149,150

22. DIVIDENDS

No dividends have been paid or declared payable during the year (2022: nil).

23. COMMITMENTS AND OTHER CONTINGENCIES

A. EXPLORATION AND MINING LEASE COMMITMENTS

In order to maintain current rights of tenure to exploration tenements, the Group is required to outlay rental fees and to meet the minimum expenditure requirements. These discretionary costs are not provided for in the financial statements and will be payable as follows:

	2023	2022
	\$'000	\$'000
Due within 1 year	1,051	2,429
Due after 1 year but not more than 5 years	2,101	2,661
Due after 5 years	-	-
	3,152	5,090

B. CAPITAL COMMITMENTS

The Group's capital expenditure commitments for property, plant and equipment were \$67,300,000 at 31 December 2023 (2022: \$61,240,000).

C. CONTINGENT LIABILITIES

(i) Royalty agreements

The Group entered into royalty agreements with third parties in respect of the 2021 acquisition of the Kiaka Gold Project ('Kiaka') and Toega Gold Deposit ('Toega') as follows:

- Royalties will be payable on refined gold produced from ore extracted from Kiaka as follows:
 - a 3% net smelter return ('NSR') royalty on the first 2.5 million ounces; and
 - a 0.5% NSR royalty on the next 1.5 million ounces.
- Royalties will be payable on the first 1.5 million refined gold ounces produced from ore extracted from Toega as follows:
 - a 3% NSR royalty to a value of US\$25 million; and
 - thereafter a 0.5% NSR royalty.

(ii) Other contingent liabilities

There were no other material contingent liabilities at 31 December 2023 (2022: nil).

24. INTEREST IN SUBSIDIARIES

The consolidated financial statements include the financial statements of West African Resources Limited and the subsidiaries listed in the following table:

	Country of incorporation	2023	2022
ENTITIES		%	%
Parent company			
West African Resources Limited	Australia		
Direct subsidiaries			
WAF Finance Pty Ltd	Australia	100	100

Lease liabilities (note 16)	(1,970)	(8,074)
	(231,758)	(74,588)

29. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk, and gold price risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group.

A. MARKET RISK

(i) Interest rate risk

The Group's main interest rate risk arises from its cash balances and borrowings under the syndicated loan facility. Cash held at variable rates and the syndicated loan facility, which carries a variable interest rate, expose the Group to cash flow interest rate risk. Cash deposits at fixed rates and the supplier loan facility, which carries a fixed interest rate, expose the Group to fair value interest rate risk. During the year, the Group's cash deposits at variable rates were denominated in Australian Dollars ('AUD'), United States Dollars ('USD'), Euros ('EUR'), and Communauté Financière Africaine Francs ('CFA'), being the currency of Burkina Faso, while the syndicated loan facility and supplier loan facility were denominated in USD.

The tables below analyse the Group's financial assets and financial liabilities into maturity groupings based on the remaining period at the reporting date to the contractual maturity date.

	Consolidated Fixed Interest Rate Maturing						Total \$'000
	Weighted Average Effective Interest Rate	Floating Interest Rate	Within Year	1 to 5 Years	Over 5 Years	Non-interest bearing	
	%	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
31 December 2022							
Financial assets							
Cash and cash equivalents	1.09	121,950	-	-	-	51,443	173,393
Trade and other receivables	0.00	-	-	-	-	43,367	43,367
Financial assets	0.00	-	-	-	-	-	-
Total financial assets		121,950	-	-	-	94,810	216,760
Financial liabilities							
Trade and other payables	0.00	-	-	-	-	52,408	52,408
Loans and borrowings	9.75	-	14,106	-	-	-	14,106
Lease liabilities	6.50	-	6,624	1,450	-	-	8,074
Total financial liabilities		-	20,730	1,450	-	52,408	74,588
31 December 2023							
Financial assets							
Cash and cash equivalents	1.42	108,494	-	-	-	26,586	135,080
Trade and other receivables	0.00	-	-	-	-	231,917	231,917
Financial assets	0.00	-	-	-	-	-	-
Total financial assets		108,494	-	-	-	258,503	366,997
Financial liabilities							
Trade and other payables	0.00	-	-	-	-	82,608	82,608
Syndicated loan facility	10.83	146,816	-	-	-	-	146,816
PPA liability	5.00	-	-	17,505	-	-	17,505
Supplier facility	9.75	-	14,102	-	-	-	14,102
Lease liabilities	6.50	-	1,970	-	-	-	1,970
Total financial liabilities		146,816	16,072	17,505	-	82,608	263,001

(ii) Interest rate sensitivity

At 31 December, if variable interest rates for the full year were +/- 0.5% from the year-end rate with all other variables held constant, pre-tax profit for the year would have moved as per the table below.

	2023	2022
	\$	\$
+0.5%	805	918
-0.5%	(805)	(918)

The sensitivity is calculated using the average cash position for the year ended 31 December 2023. The interest income in note 3 of \$2,281,034 (2022: \$2,006,698) reflects cash balances in the year that ranged between \$112,129,621 and \$167,457,963 (2022: \$88,040,733 and \$160,906,423).

(iii) Foreign currency risk

The Group operates internationally and is exposed to foreign exchange risk primarily arising from costs denominated in CFA and USD, and loans and borrowings denominated in USD. The Group also has transactional currency exposures. Such exposures arise from purchases by an operating entity in currencies other than the functional currency. The Group does not have a policy to enter into forward contracts or other hedge derivatives.

At 31 December, the Group had the following exposure to CFA, EUR, and USD foreign currencies expressed in AUD equivalents:

	2023	2022
	\$'000	\$'000
Financial assets		
Cash and cash equivalents	134,743	166,960
Trade and other receivables	78,227	40,152
	212,970	207,112
Financial liabilities		
Trade and other payables	124,877	105,590
Loans and borrowings	178,199	13,879
Lease liabilities	1,935	7,937
Tax liabilities	36,883	34,734
	341,894	162,140

(iv) Exchange rate sensitivity

A 10 per cent strengthening or weakening of the AUD against the following currencies at 31 December would have increased/(decreased) net assets by the amounts shown in the below table. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for the year ended 31 December 2022.

	+10%		-10%	
	2023	2022	2023	2022
	\$'000	\$'000	\$'000	\$'000
USD	(2,077)	(244)	2,539	298
CFA	(75,893)	(56,351)	92,759	68,873
EUR	(1,095)	(4,067)	1,338	4,971

(v) Price risk

The Group is exposed to commodity price risk on its finished goods and future gold production. This risk is estimated by management using forecasts of the quantity and cost of future gold production. While the Group's price risk could be partially managed using various hedging instruments, the Group did not have any open hedge instruments at 31 December 2023 (2022: nil).

B. CREDIT RISK

Credit risk arises mainly from

- the Group's cash and cash equivalents held with financial institutions (the banks the Group uses for cash deposits and transactions are limited to high credit quality financial institution);
- receivables related to gold sales (all gold sales have been carried out with MKS PAMP SA); and
- value added tax receivable from the government of Burkina Faso.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets as summarised at the beginning of this note.

C. LIQUIDITY RISK

Liquidity risk is the risk the Group will not be able to meet its financial obligations as they fall due. Liquidity risk management involves maintaining sufficient cash on hand, gold bullion, and undrawn credit facilities to meet the operating requirements of the business. This is currently managed through cash and cash equivalents (\$135,080,000 as at 31 December 2023) and syndicated loan facility drawdown receivable (\$142,412,000 as at 31 December 2023) and prudent cash flow and financial commitment management. The tables below analyse the Group's financial assets and liabilities into maturity groupings based on the remaining period at the reporting date to the contractual maturity date.

Maturity analysis of financial assets and liabilities based on management's expectation.

	Consolidated				
	<6 months	6-12 months	1-5 years	Over 5 years	Total
	\$'000	\$'000	\$'000	\$'000	\$'000

Net maturity	281,701	(14,567)	(164,322)	-	102,812

30. SHARE-BASED PAYMENTS

A. RECOGNISED SHARE-BASED PAYMENTS

The expenses recognised for services received during the year are shown in the table below:

	2023	2022
	\$'000	\$'000
Net share-based payments to Directors	1,852	1,662
Net share-based payments to employees	745	794
	2,597	2,456

The share-based payment plans are described below.

B. TRANSACTIONS SETTLED USING SHARES

No transactions were settled in the current year using shares.

C. EMPLOYEE SHARE AND OPTION PLAN

Following shareholder approval at its May 2023 Annual General Meeting, the Company adopted an updated Employee Awards Plan ('Plan') that aligns with new provisions under Division 1A to Part 7.12 of the Corporations Act. The Plan is designed to provide incentives to employees and Directors and to recognise their contribution to the Company's success. Under the Plan, grants of options and/or performance rights are made to senior executives and other staff members who make an impact on the Group's performance. Grants are delivered in the form of options or performance rights with performance and/or service vesting conditions determined by the Board of Directors.

D. PERFORMANCE RIGHTS

Performance rights are granted under the Plan for nil consideration and are subject to vesting conditions as determined by the Board of Directors. Any performance rights that do not vest by their expiry date, or otherwise become unexercisable, will lapse. Upon vesting, these performance rights will be settled in ordinary fully paid shares of the Company.

(a) Summary of performance rights granted under the Incentive Plan

	2023 Number	2023 WAEP*	2022 Number	2022 WAEP*
Outstanding at the beginning of the year	10,365,872	-	9,714,249	-
Granted during the year	3,053,028	-	1,751,894	-
Exercised during the year	(3,089,386)	-	(748,320)	-
Lapsed/cancelled during the year	(3,151,488)	-	(351,951)	-
Outstanding at the end of the year	7,178,026	-	10,365,872	-
Exercisable at the end of the year	2,566,556	-	1,793,022	-

*WAEP = weighted average exercise price

The performance rights outstanding at the end of the year had a weighted average remaining contractual life of 809 days (31 December 2022: 761 days).

(b) Fair value of performance rights granted

The fair value of the performance rights granted during the year was determined using the Black-Scholes, Monte Carlo Simulation and Binomial pricing methods.

* Notations refer to the following vesting conditions:

A = Performance Rights will vest upon service conditions being met.

B = Performance Rights will vest upon performance conditions being met, as outlined on page 48 in the Remuneration Report.

E. OPTIONS

Options are issued for nil consideration. The exercise price, vesting conditions and expiry date are determined by the Board of Directors. Any options that are not exercised by the expiry date, or otherwise become unexercisable, will lapse. Upon vesting and payment of the exercise price prior to the expiry date, options will be settled in ordinary fully paid shares of the Company.

(a) Summary of options granted by the Group

	2023 Number	2023 WAEP*	2022 Number	2022 WAEP*
Outstanding at the beginning of the year	789,472	\$0.6061	2,013,300	\$0.4991

31. PARENT ENTITY FINANCIAL INFORMATION

The individual financial statements for the parent entity show the following aggregate amounts:

	2023	2022
	\$'000	\$'000
STATEMENT OF FINANCIAL POSITION		
Current assets	12,979	49,976
Non-current assets	456,886	308,078
Total assets	469,865	358,054
Current liabilities	3,058	2,659
Non-current liabilities	196	145
Total liabilities	3,254	2,804
Net assets	466,611	355,250
Equity		
Issued capital	335,856	335,630
Reserves	17,836	15,097
Accumulated profit	112,919	4,523
Total equity	466,611	355,250
Profit before tax	108,396	58,382
Income tax expense	-	-
Profit after tax	108,396	58,382

Contingent liabilities of the parent entity

As at 31 December 2023, the parent entity had contingent liabilities as guarantor under the syndicated debt facility and PPA liability detailed in note 15A and under each of the royalty agreements detailed in note 23(c)(i).

Commitments of the parent entity for the acquisition of property, plant and equipment

As at December 2023, the parent entity had nil contractual commitments for the acquisition of property, plant and equipment.

12

Directors' Declaration

In the opinion of the Directors:

- a. The financial statements, notes and the additional disclosures included in the Directors' Report, designated as audited, of the Group are in accordance with the Corporations Act 2001 including:
 - (i) giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the year then ended; and
 - (ii) complying with Australian Accounting Standards and Corporations Regulations 2001.
- b. There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- c. The financial statements also comply with International Financial Reporting Standards as disclosed in note 1A.

This declaration has been made after receiving the declarations required to be made to the Directors in accordance with Section 295A of the Corporations Act 2001 for the year ended 31 December 2023.

This declaration is signed in accordance with a resolution of the Board of Directors.

Auditor's Independence Declaration

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the consolidated financial report of West African Resources Limited for the year ended 31 December 2023, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) any applicable code of professional conduct in relation to the audit.

Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

To the Members of West African Resources Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of West African Resources Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2023 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

hlb.com.au

Key Audit Matter	How our audit addressed the key audit matter
<p>Revenue recognition Note 3 to the financial report</p> <p>The Group generates revenue predominantly from metal sales. The Group recognised sales revenue of \$658.8 million for the year (2022: \$606.1 million).</p> <p>Revenue recognition is considered to be a key audit matter given the significance of revenue to the Group's results as well as the fraud risk around revenue recognition including:</p> <ul style="list-style-type: none"> - An overstatement of revenues through premature revenue recognition or recording of fictitious revenues. - Revenue not being recognised when control is transferred to the customer, resulting in it not being recognised in the correct accounting period. <p>Revenue is recognised when control is transferred to the buyer and the amount of revenue can be reliably determined. This occurs for the Group when the refining process is complete, and ownership is transferred from the Group's metal account.</p>	<p>Our audit procedures included but were not limited to the following:</p> <ul style="list-style-type: none"> - Understanding the Group's processes for revenue recognition and controls in place around gold sales; - Performing substantive tests of detail of all gold sales transactions during the year to supporting documentation and receipt of cash; - Assessing the Group's policies for recognition of revenue against the requirements of the accounting standards and ensuring these are applied correctly and adequately disclosed in the financial statements; - Sales cut-off procedures focusing on sales around balance date, testing a sample of transactions to underlying documentation and assessing the period in which they were recognised; and - Matching gold produced against gold sold for the year.
<p>Recoverability of mine development assets and mines under construction Note 10 to the financial report</p> <p>As at 31 December 2023 the Group had mine development assets with a carrying value of \$125.7 million and mines under construction of \$320.3 million in relation to the Sanbrado and Kiaka cash-generating units.</p> <p>Assessing the recoverability and carrying value of these balances was considered to be a key audit matter due to the judgements and estimations involved.</p> <p>These estimations and judgements relate to two main areas, being impairment indicators and, in the case of Sanbrado, the amortisation and depreciation associated with this asset.</p> <p>Impairment indicators involve assessing future forecasts and judgement around recoverability of the asset.</p>	<p>Our audit procedures included but were not limited to the following:</p> <ul style="list-style-type: none"> - We obtained an understanding of the processes and controls in place around management's assessment of the recoverability of mine development assets and mines under construction; - Testing impairment indicators to determine whether any such indicators exist at balance date; - Reviewing future plans for the cash-generating units and ensuring that such plans support the recoverability of the related assets; - Ensuring items capitalised during the year were appropriate to capitalise;

<p>Amortisation and depreciation involves using estimated reserves and resources in a units of production methodology.</p>	<ul style="list-style-type: none"> - Assessing the application of reserves and resources in the amortisation models by comparing them to the latest published statement and underlying mining records; - Testing the mathematical accuracy of the amortisation models; and - Assessing the adequacy of the Group's disclosures within the financial statements.
----------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Recoverability of exploration and evaluation assets

Note 12 to the financial statements

As at 31 December 2023 the Group had exploration and evaluation assets with a carrying value of \$61.9 million.

In accordance with its accounting policy, the Group capitalises costs for areas of interest related to a known mineral resource capable of supporting a mining operation for which the Group has rights to tenure and where activities have reached a stage which permits a reasonable assessment of the existence of economically recoverable ore reserves.

Our audit focussed on the Group's assessment of the carrying amount of the capitalised exploration and evaluation asset, because this is one of the most significant assets of the Group. There is a risk that the capitalised expenditure no longer meets the recognition criteria of AASB 6.

In addition, we considered it necessary to assess whether facts and circumstances existed to suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount.

Our audit procedures included but were not limited to the following:

- We obtained an understanding of the key processes and controls associated with management's review of the carrying values of each area of interest;
- We considered the Directors' assessment of potential indicators of impairment;
- We obtained evidence that the Group has current rights to tenure of its areas of interest;
- We examined the exploration budget for the year and discussed with management the nature of planned ongoing activities;
- We enquired with management, reviewed ASX announcements and reviewed minutes of Directors' meetings to ensure that the Group had not resolved to discontinue exploration and evaluation at any of its areas of interest; and
- We assessed the adequacy of disclosures made in the financial report.

Loans and borrowings

Note 15 to the financial statements

As at 31 December 2023 the Group had loans and borrowings of \$147.2 million consisting of a \$14.1 million supplier loan facility and a \$133.1 million (net of transaction costs) borrowing and production payment agreement liability.

The accounting for loans and borrowings was considered to be a key audit matter due to its materiality, the complexity of accounting in addition to the judgements involved in the timing of initial recognition.

Our audit procedures included but were not limited to the following:

- We obtained an understanding of the key processes and controls associated with management's accounting for loans and borrowings;
- We reviewed the facility documentation to obtain an understanding of the terms and conditions;
- We reviewed the timing of initial recognition of the first draw down under the facility and

-
- considered whether it was appropriate to recognise a liability at balance date given funds were in transit at that date;
- We obtained a lender confirmation as at 31 December 2023;
 - We obtained the advice of an independent expert to support our assessment of management's accounting for the facilities and assessed the capabilities and expertise of that expert;
 - We ensured that transaction costs had been correctly accounted for and offset against the liability;
 - We reviewed the treatment of the production payment agreement liability at initial establishment of the loan; and
 - We examined the disclosures made in the financial report.
-

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 31 December 2023, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit

matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the Directors' Report for the year ended 31 December 2023.

In our opinion, the Remuneration Report of West African Resources Limited for the year ended 31 December 2023 complies with Section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
