

**WESTSHORE TERMINALS  
INVESTMENT CORPORATION**

**ANNUAL REPORT**

**2023**

Westshore Terminals Investment Corporation (the “Corporation”) owns all of the limited partnership units of Westshore Terminals Limited Partnership, a partnership established under the laws of British Columbia (“Westshore”). It derives its cash inflows from its investment in Westshore by way of distributions on its limited partnership units. Westshore operates the coal storage and loading terminal at Roberts Bank, British Columbia (the “Terminal”), which is the largest coal loading facility on the west coast of the Americas. The principal office of the entities is located at 1800 - 1067 West Cordova Street, Vancouver, British Columbia, V6C 1C7.

# Westshore Terminals Investment Corporation

## Directors' Letter and Report to Shareholders

---

Dear Shareholder:

Westshore had solid operational and financial performance in 2023. Total volumes for the year were 27.7 million tonnes compared to 23.3 million tonnes in 2022. Winter weather in 2023 was much less extreme compared to 2022, and 2022 volume was impacted by a labour disruption.

Total 2023 revenues of \$381.0 million compares to 2022 revenues of \$297.0 million reflecting the higher shipped volumes year over year. Profit before taxes of \$159.7 million was up 74% from \$91.7 million in 2022, and after-tax profit per share increased by 76.3%.

In 2023 we negotiated labour agreements with Local 517 and Local 514 of the International Longshore and Warehouse Union (ILWU). These two agreements, in addition to the Local 502 agreement settled in 2022, all have terms expiring January 31, 2028.

In addition to coal operations, our potash project was the primary focus in 2023. The project has progressed well, and most of the major contracts to complete the construction are now in place. Despite challenges from the recent higher than expected inflation economy, we still expect the project to complete close to the original budget. The project remains on schedule, and we expect to commence handling potash sometime in 2026.

The ongoing work at the Terminal relating to the potash project is causing expected physical and operational disruptions, including restricting stockpile space and limiting access to equipment. We are very pleased that, despite these challenges, Westshore was able to handle 27.7 million tonnes of coal, which was all the coal our customers made available.

The Corporation renewed its normal course issuer bid ("NCIB") effective April 13, 2023 for another year, allowing it to acquire up to 3,559,056 common shares until April 12, 2024. During 2023, 314,784 common shares were purchased for a total of \$7.6 million. In 2022, 428,376 common shares were purchased for a total of \$10.1 million.

The Corporation increased its regular quarterly dividends to shareholders in March 2023, from \$0.30/share to \$0.35/share.

The board of directors have determined to increase the regular quarterly dividend to \$0.375/share and pay a special dividend of \$0.35/share, payable to shareholders on record as of March 31, 2024.

Our annual ESG (Environmental, Social, and Governance) report for 2023 will be available on the Corporation's website in conjunction with this report.

Based on our current forecast, volumes for 2024 are expected to be approximately 25.5 million tonnes.

For the Board of Directors,

(Signed) "William Stinson"

William Stinson  
*Chairman of the Board of Directors*

## Management's Discussion & Analysis of Financial Condition and Results of Operations

---

The following discussion and analysis should be read in conjunction with information contained in the Consolidated Financial Statements of Westshore Terminals Investment Corporation ("the Corporation") and the notes thereto for the year ended December 31, 2023. This discussion and analysis has been based upon the consolidated financial statements prepared in accordance with IFRS Accounting Standards. This discussion and analysis is the responsibility of management of the Corporation. Additional information and disclosure can be found on SEDAR+ at <http://www.sedarplus.ca>. Unless otherwise indicated, the information presented in this Management's Discussion and Analysis ("MD&A") is stated as at March 8, 2024.

All amounts are presented in Canadian dollars unless otherwise noted.

### Caution Concerning Forward-Looking Statements

*This MD&A contains certain forward-looking statements, which reflect the current expectations of the Corporation and Westshore with respect to future events and performance. Forward-looking statements are based on information available at the time they are made, assumptions by management, and management's good faith belief with respect to future events. They speak only as of the date of this MD&A, and are subject to inherent risks and uncertainties, including those risk factors outlined in the Annual Information Form of the Corporation filed on <http://www.sedarplus.ca>, that could cause actual performance or results to differ materially from those reflected in the forward-looking statements, historical results or current expectations.*

*Forward-looking information included in this document includes: statements regarding Westshore's future revenues and the impacts thereon, including anticipated throughput volumes and loading rates, distribution of throughput by customer, the US/CDN dollar exchange rate, anticipated rail performance, and the impact of construction activity at Westshore; statements regarding Westshore's potash project, including that the project will complete close to the original budget, Westshore will commence handling potash in 2026, the anticipated receipt of formal notification from BHP to initiate Stage 2 construction requirements, BHP commencing additional production in 2029, and Berth 2 continuing to be available for loading coal; thermal coal representing a higher percentage of shipments at least until potash shipments reach higher levels expected in 2030 and beyond; Westshore continuing to meet annual capital requirements without any need for financing except for material capital improvements; anticipated impact of the amended lease on the Corporation's financial statements; the absence of liquidity concerns with respect to the ongoing operations of Westshore; assumptions in connection with critical accounting estimates; and share repurchases.*

*Forward-looking statements should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether, or the times at which, such performance or results will be achieved. There is significant risk that estimates, predictions, forecasts, conclusions and projections will not prove to be accurate, that assumptions may not be correct and that actual results may differ materially from such estimates, predictions, forecasts, conclusions or projections. Readers of this MD&A should not place undue reliance on forward-looking statements as a number of risk factors could cause actual results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed in the forward-looking statements. Specific risk factors include, among others: Westshore's dependence on coal shipments, which are in turn affected by global demand and competition in the supply of seaborne coal, the ability of customers to maintain or increase sales or deliver coal to the Terminal and fluctuations in exchange rates; Westshore's ability to renegotiate key customer contracts in the future on favourable terms or at all; global changes in climate change initiatives and environmental regulations and policies; and risks related to the construction and operation of the potash project. See the risk factors outlined in the Annual Information Form referred to above.*

### General

Westshore Terminals Investment Corporation (the "Corporation") was incorporated under the Business Corporations Act (British Columbia) on September 28, 2010 and is domiciled in Canada. The registered and head office of the Corporation is located at Suite 1800, 1067 West Cordova Street, Vancouver, British Columbia V6C 1C7. The Corporation owns all of the limited partnership units of Westshore Terminals Limited Partnership ("Westshore"), a limited partnership established under the laws of British Columbia.

The Corporation derives its cash inflows from its investment in Westshore by way of distributions on Westshore's limited partnership units. Westshore operates a coal storage and unloading/loading terminal at Roberts Bank, British Columbia (the "Terminal"). Westshore's operating revenues are derived from rates charged for loading coal onto seagoing vessels. Westshore is currently undertaking significant infrastructure additions to the Terminal to allow it to handle potash for BHP Canada Inc., a subsidiary of BHP Group Limited ("BHP").

Westshore's results are affected by various factors, including the volume of coal shipped by each customer, and their contracted rate per tonne, as well as Westshore's operating costs.

This MD&A has been prepared by the Corporation to accompany the financial statements of the Corporation for the financial year ended December 31, 2023.

### Structure

The following chart illustrates the Corporation's primary structural relationships. The Corporation holds all of the limited partnership units of Westshore and all of the common shares of Westshore Terminals Ltd. (the "General Partner"), the general partner of Westshore. Westar Management Ltd. (the "Manager") provides management services to Westshore and administrative services to the Corporation and appoints three of the eight directors of the General Partner. Details of these arrangements will be included in the Information Circular for the Corporation's 2024 Annual Meeting.

As of March 8, 2024, the Corporation had issued and outstanding 62,514,675 common shares.

### Summary Description of Business

#### *General*

Westshore operates a coal storage and loading facility at Roberts Bank, British Columbia that is the largest coal loading facility in North America. Westshore receives handling charges from its customers for throughput volume. Westshore does not take title to the coal it handles. Market conditions for both thermal and metallurgical coal affect the competitiveness of Westshore's customers and, therefore, may affect the volume of coal handled by Westshore. Westshore has contracts to ship coal from mines in British Columbia, Alberta and the United States.

Coal is delivered to the Terminal in unit trains operated by Canadian Pacific Kansas City, BNSF Railway, and Canadian National Railway. The product is unloaded and either directly loaded onto a ship or stockpiled for future ship loading. The loaded ships are destined around the globe to approximately 14 different countries, with the largest volumes being shipped to Japan and South Korea.

Westshore is currently undertaking significant infrastructure additions to the Terminal to allow it to handle potash for BHP. These additions include a new potash dumper, storage building and associated conveying systems. Additionally, certain existing infrastructure at the Terminal will be modified to support handling potash. Once completed, potash will be loaded only at the Terminal's Berth 2, which will continue to be available for loading coal. The construction is expected to continue into 2026, and the handling of potash is expected to commence in the same year. This is a very significant diversification for Westshore to handle another product for the long term.

The Terminal is located on land leased from the Vancouver Fraser Port Authority (the "VFPA"). Subsequent to year end, our lease with VFPA was amended. The term of the amended lease has been extended to December 31, 2051, with Westshore having further options to extend the term to December 31, 2070.

# Westshore Terminals Investment Corporation

## Management's Discussion & Analysis of Financial Condition and Results of Operations

### *Markets & Customers*

Shipments of coal through the Terminal by destination for the past three years were as follows:

### **Shipments by Destination**

*(Expressed in thousands of metric tonnes)*

	<b>2023</b>		<b>2022</b>		<b>2021</b>	
	<b>Tonnes</b>	<b>%</b>	<b>Tonnes</b>	<b>%</b>	<b>Tonnes</b>	<b>%</b>
Japan	13,360	48	11,572	50	10,640	37
South Korea	7,331	26	7,588	32	9,196	32
China and Hong Kong	3,650	13	1,045	4	3,767	13
S. America	1,030	4	923	4	1,041	3
Taiwan	865	3	344	1	1,110	4
Europe	770	3	613	3	1,299	4
India	477	2	696	3	1,637	6
Vietnam	222	1	130	1	-	-
Other	23	-	429	2	165	1
Total	27,728	100	23,340	100	28,855	100

During 2023, 64% of Westshore's volume was thermal coal (68% in 2022), 36% was metallurgical coal (31% in 2022) and less than 1% was petroleum coke (1% in 2022). Westshore expects that thermal coal will continue to represent a higher percentage of shipments at least until potash shipments reach higher levels expected in 2030 and beyond.

Westshore operates under term contracts with its customers. In 2023, Westshore shipped product for seven different customers. Current contracts with Westshore's four largest customers, which in 2023 accounted for 92% of Westshore's throughput, have remaining terms of between one and four years.

Westshore has an agreement with BHP (the "BHP Agreement") to provide port services to BHP's Jansen Potash Mine in Saskatchewan (the "Jansen Mine"). Pursuant to the BHP Agreement, Westshore is required to construct the necessary infrastructure at the Terminal to enable it to handle potash, with BHP substantially funding the construction. The BHP Agreement provides for a shipping term commencing in 2026 and running until 2051, which is subject to extension, minimum annual throughput and a fixed loading rate that is indexed annually to changes in the CPI.

### *Labour*

During 2022, Westshore renegotiated the collective agreement with Locals 502 of the International Longshore and Warehouse Union ("ILWU"). During 2023, the collective bargaining agreements for ILWU Locals 514 and 517 were also renegotiated. All agreements in place expire on January 31, 2028.

### Quarterly analysis

Tonnage shipped for Q4 2023 was 6.7 million tonnes compared to 4.4 million tonnes for the same period in 2022. Of the tonnes shipped in Q4 2023, 64% was thermal coal and 36% was metallurgical coal, compared to 71% and 29% respectively for the same period in the prior year. Volumes were up 54.6% for the quarter (year over year) primarily due to 2022 tonnage being lower than normal due to a labour disruption and extreme winter weather conditions in December 2022.

Coal loading revenue increased by 61.0% to \$85.5 million for Q4 2023 compared to \$53.1 million for the same period in 2022. The average loading rate in Q4 2023 was \$12.70 per tonne compared to \$12.19 per tonne through the same period in 2022. The increased average loading rate in Q4 2023 reflects escalation of loading rates as well as foreign exchange effects as some customers pay in U.S. dollars.

Operating and administrative expenses increased by 10.9% to \$57.9 million for Q4 2023 compared to \$52.2 million for the same period in 2022, due to inflation, higher wage costs, timing of maintenance activities and higher throughput.

# Westshore Terminals Investment Corporation

## Management's Discussion & Analysis of Financial Condition and Results of Operations

---

Net finance costs decreased to \$0.9 million in Q4 2023 from \$1.7 million during the same period of 2022. The decrease is due to more interest income earned on cash due to the higher interest rate environment. The net interest cost components of the employee benefit plan expense and the right-of-use capital lease interest costs are also recorded in net finance costs.

Income tax expense increased to \$8.3 million in Q4 2023 from \$0.5 million in Q4 2022 due to higher profits before taxes.

Profit in the quarter increased to \$22.3 million in Q4 2023 from \$1.2 million during the same period of 2022, primarily as a result of higher volumes.

Other comprehensive income or loss includes actuarial gains and losses on the defined benefit post-retirement obligations which are primarily impacted by the discount rate used, membership assumptions and the plan asset performance (relative to actuarial expectations).

After-tax other comprehensive income (loss) for the fourth quarter decreased to a loss of \$10.9 million in 2023 from an income of \$8.7 million in 2022. The change in the fourth quarter of 2023 was primarily caused by a 1.0% decrease in the discount rate which increased the post-retirement obligations, which was partially offset by plan assets performing better than actuarial expectations. The change in the fourth quarter of 2022 was caused by the incorporation of financial assumption changes from the latest valuation of the post retirement benefits and a 0.25% increase to the discount rate.

### ***Full year analysis***

Tonnage shipped in 2023 was 27.7 million tonnes compared to 23.3 million tonnes in 2022, up 18.8% year over year. Of the tonnes shipped in 2023, 64% was thermal coal, 36% was metallurgical coal and less than 1% was petroleum coke, compared to 68%, 31% and 1% respectively for 2022.

Coal loading revenue increased by 27.7% to \$360.4 million in 2023 from \$282.2 million in 2022. The average loading rate for 2023 was \$13.00 per tonne compared to \$12.09 per tonne for 2022. The increased average loading rate in 2023 reflects escalation of loading rates as well as foreign exchange effects as some customers pay in U.S. dollars.

Other revenue of \$20.6 million consisted of \$7.8 million on account of train and vessel operations, \$6.4 million for wharfage fees and the remainder primarily being customer shortfall payments. Other revenue for 2022 of \$14.8 million consisted of \$5.0 million on account of train and vessel operations, \$5.6 million for wharfage fees and the remainder primarily being customer shortfall payments.

Operating and administrative expenses increased by 11.8% to \$218.7 million compared to \$195.6 million for the same period in 2022, driven by higher labour and external costs and higher throughput. The ongoing work at the Terminal relating to the potash project is causing expected physical and operational disruptions which have resulted in higher operating costs, including increased labour costs in 2023 from working all of the statutory holidays, including Christmas Day.

Foreign exchange gain of \$1.7 million in 2023 increased from a loss of \$1.4 million in the same period of 2022. 2023 included a \$1.8 million unrealized gain on the mark to market of foreign exchange hedging contracts compared to a \$0.7 million unrealized loss in 2022.

# Westshore Terminals Investment Corporation

## Management's Discussion & Analysis of Financial Condition and Results of Operations

---

Net finance costs decreased to \$4.3 million in 2023 from \$8.7 million in 2022. The decrease is primarily due to more interest income earned on cash due to the higher interest rate environment. The net interest cost components of the employee benefit plan expense and the right-of-use capital lease interest costs are also recorded in net finance costs.

Income tax expense increased to \$43.2 million in 2023 from \$24.8 million in 2022 due to higher profits before taxes.

Profit increased to \$116.6 million in 2023 from \$66.8 million in 2022, primarily as a result of higher revenues, partially offset by higher operating and administrative costs, both as discussed above. On a per share basis this is an increase of 76.3% at \$1.86 in 2023 compared to \$1.06 in 2022.

Other comprehensive income or loss includes actuarial gains and losses on the defined benefit post-retirement obligations which are primarily impacted by the discount rate used, membership assumptions and the plan asset performance (relative to actuarial expectations).

After tax other comprehensive income (loss) decreased to a loss of \$4.6 million in 2023 from an income of \$38.2 million in 2022. The change in the year ended December 31, 2023, was primarily caused by a 0.5% decrease in the discount rate which increased the post-retirement obligations, which was partially offset by plan assets performing better than actuarial expectations. The change in the year ended December 31, 2022, was caused by a 2.25% increase in the discount rate which decreased the post-retirement obligations, which was partially offset by plan assets performing below actuarial expectations.

# Westshore Terminals Investment Corporation

## Management's Discussion & Analysis of Financial Condition and Results of Operations

### Cash Flows

Cash flows from operations are available to the Corporation to fund capital and other expenditures, establish reserves and pay dividends to and repurchase shares from shareholders.

*(In thousands of Canadian dollars)*

	Year Ended	
	December 31, 2023	December 31, 2022
	\$	\$
Operating cash flows before working capital changes, lease obligation interest and income tax payments	198,798	139,300
Working capital changes	(31,051)	2,592
Long term receivable	(2,634)	(2,695)
Lease obligation interest paid	(8,911)	(8,953)
Long term deferred revenue	52,670	53,905
Income tax paid	(19,281)	(40,001)
Cash flow provided by operations	189,591	144,148
Cash flows used in financing activities	(88,272)	(177,643)
Cash flows used in investing activities	(91,640)	(54,928)
Increase (decrease) in cash and cash equivalents	9,679	(88,423)

Operating cash flows before changes in working capital, long term receivable, lease obligation interest payments, long term deferred revenue and income tax payments increased by 43% to \$198.8 million in 2023 from \$139.3 million in 2022. Working capital changes resulted in a \$31.1 million outflow in 2023 compared to a \$2.6 million inflow in 2022, primarily due to changes in accounts receivables, accounts payable and deferred revenue which fluctuate depending on the timing of receipts and payments. \$50.0 million was received in the year from BHP for the potash project (2022 - \$51.2 million). Income tax payments decreased to \$19.3 million in 2023 from \$40.0 million in 2022 due to the timing of tax payments. As a result of these changes, cash flow from operations increased to \$189.6 million in 2023 from \$144.1 million in 2022.

Cash flows used in financing activities decreased to \$88.3 million in 2023 from \$177.6 million in 2022, primarily due to the \$94.9 million special dividend paid in 2022. Regular dividends paid to shareholders increased year over year by \$11.8 million. During 2023, the Corporation purchased under its NCIB 314,784 shares for approximately \$7.6 million. For the year ended December 31, 2022, 428,376 shares were purchased for approximately \$10.1 million.

Cash flows used in investing activities increased to \$91.6 million in 2023 from \$54.9 million in 2022 primarily because of an increase in capital expenditures. Of that \$91.6 million, \$83.6 million was related to the potash project. At the end of the year, \$49.9 million had been incurred in capital expenditures but was not yet paid for.

## Management's Discussion & Analysis of Financial Condition and Results of Operations

---

### Liquidity and Capital Resources

Meeting annual capital requirements, along with managing variations in working capital, are well within Westshore's financial capacity based solely on revenues less expenses, without any need for financing except for material capital improvements. Pursuant to the BHP Agreement, BHP is required to substantially fund the potash infrastructure additions Westshore is undertaking, subject to a 5% holdback on each periodic payment, which is reflected in the balance sheet as a "long term receivable" (\$5.3 million as at December 31, 2023). As a result, the Corporation does not anticipate any liquidity concerns with the ongoing operations of Westshore.

Westshore has a \$40 million operating facility that is used for a letter of credit related to pension funding and day to day operational liquidity. The facility matures on August 31, 2025 and is secured by a pledge of all the assets of Westshore. The operating facility bears interest at the 1-month BA rate plus a margin and no repayments will be required until maturity. There is an outstanding letter of credit of \$11.4 million (December 31, 2022 - \$17.9 million) under this facility which is the only amount drawn on the facility at year end.

Westshore has post-retirement benefit obligations under its pension plans and other post-retirement benefit plans which it is required to fund each year. Westshore's cash funding requirements were \$2.4 million in 2023 (2022 - \$5.4 million), which was comprised of nil (2022 - \$3.1 million) for contributions to the pension plans as these plans are currently in a surplus position and \$2.4 million (2022 - \$2.3 million) for payments for other post-retirement benefits.

The statement of financial position as of December 31, 2023, reflects a net defined benefit pension asset of \$28.3 million (December 31, 2022 - \$34.6 million) and \$69.7 million (December 31, 2022 - \$61.9 million) of other post-retirement benefit obligations. The change in 2023 was primarily caused by a decrease in the discount rate of 0.5% since December 31, 2022 partially offset by stronger plan asset performance. This net obligation amount will decline in the future if long term interest rates increase and will increase if such rates fall.

Future undiscounted minimum payments under Westshore's material lease obligations are as follows:

	December 31, 2023
<i>(In thousands of Canadian dollars)</i>	
Less than 1 year	\$ 11,914
Between 1 and 5 years	47,769
More than 5 years	452,709
	<u>\$ 512,392</u>

Subsequent to year end, our lease with VFPA was amended, with retroactive effect as of January 1, 2023. The Corporation's audited consolidated financial statements for the years ended December 31, 2023 and 2022 reflect the financial terms of the now prior lease, which was still in force on December 31, 2023. The financial effects of the amended lease will be reflected prospectively in the Corporation's consolidated financial statements for the three months ending March 31, 2024 and it is expected that there will be a largely off-setting increase in each of the right-of-use asset and the lease obligation. Under the amended lease, annual rent is comprised of two fixed amounts, basic rent and ancillary rent. The basic rent is fixed until December 31, 2026, and may be revised by VFPA at that time and every three years thereafter. If VFPA increases the basic rent at any such time, Westshore has the right to seek a review of the revised amount. The ancillary rent will escalate annually. Unlike the old lease, the amended lease does not provide for an annual participation rental fee based on the volume of coal shipped.

# Westshore Terminals Investment Corporation

## Management's Discussion & Analysis of Financial Condition and Results of Operations

Westshore is well advanced on the construction of the potash project, and contracts are in place with vendors for a significant portion of the overall construction. Pursuant to the BHP Agreement, BHP is required to substantially fund the project. As at December 31, 2023, Westshore has commitments related to this project of \$201.7 million that have not yet been accrued for.

Westshore does not have any material other long-term obligations.

### Distributions

Distributions by the Corporation over the last two years were as follows:

<i>(In thousands of Canadian dollars except per share amounts)</i>	2023		2022	
	\$	Per share	\$	Per share
Quarter 1	21,880	0.35	18,977	0.30
Special Dividend declared in Q1	-	-	94,887	1.50
Quarter 2	21,880	0.35	18,977	0.30
Quarter 3	21,880	0.35	18,978	0.30
Quarter 4	21,880	0.35	18,849	0.30
Total Dividends on Common Shares	87,520	1.40	170,668	2.70

The dividend is subject to periodic review based on factors including operating performance, current and anticipated market conditions, funds applied to repurchase shares, other opportunities that may come before Westshore, and other potential capital upgrade projects. In circumstances where the price of the Corporation's shares makes share repurchases advantageous to the Corporation, a portion of excess cash from operations may be used to repurchase common shares.

Following a review by the board of directors on March 8, 2024, the board determined to increase the quarterly dividend from \$0.35 per share to \$0.375 per share (\$1.50 annually) payable on or before April 15, 2024 to shareholders at the close of business on March 31, 2024.

Following a review by the board of directors on March 8, 2024, the board determined to declare a special dividend of \$0.35 per share payable on or before April 15, 2024 to shareholders at the close of business on March 31, 2024.

### Outlook

The cash inflows of the Corporation are entirely dependent on Westshore's operating results. They are affected by the volume and mix of coal shipped through the Terminal, the rates charged to customers for the handling of that coal, and Westshore's operating and administrative costs.

The variance in revenues from 2023 will ultimately be impacted by numerous factors, including total volumes shipped through the Terminal, the distribution of throughput by customer and the US/CDN dollar exchange rate.

Based on the most recent information provided by Westshore's customers, performance year to date, anticipated rail performance, and construction activity onsite, 2024 throughput volumes are anticipated to be approximately 25.5 million tonnes at an average loading charge of approximately \$13.40 per tonne, for the full year. The average loading rate for the period reflects the customer mix and US/CDN exchange rate.

# Westshore Terminals Investment Corporation

## Management's Discussion & Analysis of Financial Condition and Results of Operations

---

Westshore's potash project is progressing well, and most of the major contracts to complete the construction are now in place. Despite challenges from the recent higher than expected inflation economy, we still expect the project to complete close to the original budget. The project remains on schedule, construction is expected to continue into 2026, and the handling of potash is expected to commence in the same year.

In 2023, BHP announced that it approved Jansen Stage 2, an additional investment in the Jansen Mine to increase its production capacity to approximately 8.5 million tonnes per annum, with the first production of Jansen Stage 2 expected to commence in 2029. Westshore anticipates receiving formal notification from BHP to initiate Stage 2 construction requirements once certain milestones of the current project are met. The diversification to handling substantial volumes of a second commodity is transformational for our business and will provide an additional revenue stream once shipment of potash commences.

### **Related Party Transactions**

The Manager provides management services to Westshore pursuant to a management agreement between Westshore and the Manager (the "Management Agreement"). Westshore pays an annual management fee to the Manager and an incentive fee based on a percentage of annual profit above \$42 million, subject to a cap of \$7.5 million per annum. The annual base management fee for 2023 was \$1,845,000 (2022 - \$1,791,000) which will escalate at 3% annually. The incentive fee for the year ended December 31, 2023 was \$4,743,000 and was paid subsequent to December 31, 2023 (2022 - \$1,115,000 paid in 2023).

The Manager also provides administration services to the Corporation pursuant to an administration agreement and appoints three of the eight directors of the General Partner pursuant to a governance agreement. The Corporation pays an annual administration fee in monthly installments. The fee paid to the Manager for 2023 was \$615,000 (2022 - \$597,000), which will increase by 3% per annum.

Affiliates of the Manager also provides insurance and vehicle related services to Westshore.

Additional details on related party transactions are contained in note 21 to the Corporation's financial statements.

### **Changes in Accounting Policies**

The Corporation's accounting policies are found in note 3 of the Corporation's financial statements. There were no significant changes in accounting policies in 2023.

## Management's Discussion & Analysis of Financial Condition and Results of Operations

---

### Critical Accounting Estimates

The preparation of financial statements and related disclosures in accordance with IFRS Accounting Standards requires the Corporation to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and contingencies. These estimates are based on historical experience and on assumptions that are considered at the time to be reasonable under the circumstances. Under different assumptions or conditions, the actual results may differ, potentially materially, from those previously estimated.

The following is a discussion of the accounting estimates that are significant in determining the Corporation's financial results.

#### *Property, plant and equipment: Depreciation*

Property, plant and equipment are stated at cost less accumulated depreciation. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. Depreciation is calculated using the straight line method over the estimated useful production life of the assets. The estimated useful lives of property, plant and equipment range from 3 to 35 years and are reviewed annually. A change in the estimated useful lives of property, plant and equipment could result in either a higher or lower depreciation charge to profit for the period.

#### *Asset Retirement Obligations*

Westshore is required to recognize the fair value of an estimated asset retirement obligation when a legal or constructive obligation is present, a reliable estimate of the obligation can be made, and it is probable that Westshore will be required to settle the obligation. At the expiry of the Terminal's lease, the VFPA has the option to acquire the assets of the Terminal at fair value or require Westshore to return the site to its original condition. Westshore believes that the probability that the VFPA will elect to enforce site restoration is remote. Any change in the estimate of the probability of incurring such costs could have a material impact on the asset retirement obligation.

#### *Lease Obligation*

The lease obligation is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using Westshore's incremental borrowing rate. The lease liability is measured at amortized cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in Westshore's estimate of the amount expected to be payable under a residual value guarantee or if Westshore changes its assessment of whether it will exercise a purchase, extension or termination option. Any change in the incremental borrowing rate of Westshore could have a material impact on future lease obligations.

# Westshore Terminals Investment Corporation

## Management's Discussion & Analysis of Financial Condition and Results of Operations

---

### *Goodwill*

Goodwill is tested for impairment on an annual basis, or more frequently if events or changes in circumstances indicate that the asset might be impaired, by comparing the fair value of Westshore to its carrying value, including goodwill. If the fair value of Westshore is less than its carrying value, a goodwill impairment loss is recognized as the excess of the carrying value of the goodwill over the fair value of the goodwill. The determination of fair value requires management to make assumptions and estimates about future coal loading rates, customer shipments, operating costs, foreign exchange rates and discount rates. Changes in any of these assumptions, such as lower coal loading rates, a decline in customer shipments, an increase in operating costs or an increase in discount rates could result in an impairment of all or a portion of the goodwill carrying value in future periods.

### *Employee Future Benefits*

Westshore has post-retirement benefit obligations under its pension plans and other post-retirement benefit plans, the costs of which are based on estimates. Actuarial calculations of benefit costs and obligations depend on Westshore's assumptions about future events. Major estimates and assumptions relate to expected plan investment performance, salary escalation, retirement ages of employees and expected health care costs, as well as discount rates, withdrawal rates and mortality rates.

## **Internal Controls Over Financial Reporting**

The Corporation maintains a system of internal controls over financial reporting, as defined by National Instrument 52-109 – *Certification of Disclosure in Issuers' Annual and Interim Filings* ("National Instrument 52-109"), in order to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial information for external purposes in accordance with IFRS Accounting Standards.

The Chief Executive Officer and Chief Financial Officer of the Corporation have caused to be evaluated under their supervision, the effectiveness of the Corporation's internal controls over financial reporting as of December 31, 2023. Based on that assessment, it was determined that the internal controls over financial reporting were appropriately designed and were operating effectively. No material changes were identified in the Corporation's internal controls over financial reporting during the year ended December 31, 2023 that have materially affected the Corporation's internal controls over financial reporting or are reasonably likely to materially affect the Corporation's internal controls over financial reporting.

It should be noted that a control system, including the Corporation's internal controls and procedures, no matter how well conceived, can provide only reasonable, but not absolute, assurance that the objectives of the control system will be met, and it should not be expected that the disclosure and internal controls and procedures will prevent all errors or fraud.

The design of any system of controls is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

### Disclosure Controls and Procedures

"Disclosure controls and procedures" are defined as follows in National Instrument 52-109: "Disclosure controls and procedures" means controls and other procedures of an issuer that are designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted by it under provincial and territorial securities legislation is recorded, processed, summarized and reported within the time periods specified in the provincial and territorial securities legislation and include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in its annual filings, interim filings or other reports filed or submitted under provincial and territorial securities legislation is accumulated and communicated to the issuer's management, including its chief executive officer and chief financial officer (or persons who perform similar functions to a chief executive officer or a chief financial officer), as appropriate to allow timely decisions regarding required disclosure."

As required by National Instrument 52-109, the Chief Executive Officer and the Chief Financial Officer of the Corporation, in conjunction with management of the General Partner, have evaluated the effectiveness of the design and tested the operation of the disclosure controls and procedures of Westshore, the General Partner and the Corporation as of December 31, 2023 and have concluded that such disclosure controls and procedures provide reasonable assurance that information required to be disclosed in the annual filings, interim filings or other reports filed or submitted under provincial and territorial securities legislation is recorded, processed, summarized and reported within the time periods specified in such legislation.

Additional information relating to the Corporation and Westshore, including the Corporation's annual information form, is available at <http://www.sedarplus.ca>.

### Management's Report

The consolidated financial statements and other information in this annual report have been prepared by and are the responsibility of the management of the Corporation. The consolidated financial statements have been prepared in accordance with IFRS Accounting Standards and reflect where necessary management's best estimates and judgments.

Management is also responsible for maintaining systems of internal and administrative controls to provide reasonable assurance that the Corporation's assets are safeguarded, that transactions are properly executed in accordance with appropriate authorization and that the accounting systems provide timely, accurate and reliable financial information.

The Directors are responsible for assuring that management fulfills its responsibility for financial reporting and internal control. The Directors perform this responsibility at meetings where significant accounting, reporting and internal control matters are discussed and the consolidated financial statements and annual report are reviewed and approved.

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

---

## 1. Reporting entity:

Westshore Terminals Investment Corporation was incorporated under the *Business Corporation Act* (British Columbia) on September 28, 2010 and is domiciled in Canada. The registered and head office is located at Suite 1800, 1067 West Cordova Street, Vancouver, British Columbia, V6C 1C7. These consolidated financial statements as at and for the year ended December 31, 2023 comprises Westshore Terminals Investment Corporation and its subsidiaries (together referred to as the “Corporation”). The Corporation owns all of the limited partnership units of Westshore Terminals Limited Partnership (“Westshore”), a partnership established under the laws of British Columbia.

The Corporation derives its cash inflows from its investment in Westshore by way of distributions on Westshore’s limited partnership units. Westshore operates a coal storage and loading terminal at Roberts Bank, British Columbia (the “Terminal”). Substantially all of Westshore’s operating revenues are derived from rates charged for loading coal onto seagoing vessels.

## 2. Basis of preparation:

### (a) Statement of compliance:

The consolidated financial statements have been prepared in accordance with IFRS Accounting Standards.

The consolidated financial statements were authorized for issue by the Board of Directors on March 8, 2024.

### (b) Basis of measurement:

These consolidated financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

- derivative financial instruments are measured at fair value;
- the defined benefit obligation is recognized as the present value of the defined benefit obligation, less plan assets at fair value; and
- lease obligations are measured at amortized cost using the effective interest rate method.

### (c) Functional and presentation currency:

These consolidated financial statements are presented in Canadian dollars, which is the Corporation and its subsidiaries’ functional currency. All financial information presented in Canadian dollars have been rounded to the nearest thousand.

### (d) Use of estimates and judgments:

The preparation of the consolidated financial statements in conformity with IFRS Accounting Standards requires management to make judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

---

Assumptions, judgments and estimation uncertainties that have a significant risk of resulting in a material adjustment relate to the determination of the useful lives of plant and equipment, decommissioning liabilities, measurement of lease obligations, valuation of goodwill and the measurement of defined benefit obligations.

### 3. Material accounting policies:

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements.

(a) Basis of consolidation:

(i) Subsidiaries:

Subsidiaries are entities controlled by the Corporation. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date the control ceases.

(ii) Transactions eliminated on consolidation:

Intra-corporation balances and transactions, and any unrealized income and expenses arising from intra-corporation transactions, are eliminated in preparing the consolidated financial statements.

(b) Foreign currency:

The functional and reporting currency of the Corporation and its subsidiaries is the Canadian dollar. Transactions which are denominated in other currencies are translated into their Canadian dollar equivalents at exchange rates prevailing at the transaction date. The carrying values of monetary assets and liabilities denominated in foreign currencies are adjusted at each reporting date to reflect exchange rates prevailing at that date. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortized cost in the foreign currency translated at the exchange rate at the end of the period. Foreign exchange gains and losses are recognized under 'Foreign exchange gain (loss)' in profit or loss.

(c) Financial instruments:

Financial instruments comprise cash and cash equivalents, accounts receivable, derivative instruments and accounts payable and accrued liabilities. The Corporation uses derivative financial instruments in the normal course of its operations as a means to manage its foreign exchange risk. The Corporation's policy is not to utilize derivative financial instruments for trading or speculative purposes. The Corporation's derivative financial instruments are not designated as hedges for accounting purposes.

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

---

The Corporation's financial instruments are classified and measured as follows:

---

## Financial Assets

Cash and cash equivalents	Amortized cost
Accounts receivable, including long term receivable	Amortized cost
Derivative instruments	FVTPL

## Financial Liabilities

Accounts payable and accrued liabilities	Amortized cost
Derivative instruments	FVTPL

---

### *Classification and measurement of financial assets*

Financial assets are classified as: measured at amortized cost; fair value through other comprehensive income ("FVOCI"); or fair value through profit and loss ("FVTPL") based on the business model in which a financial asset is managed and its contractual cash flow characteristics and when certain conditions are met:

- Amortized cost – measured at amortized cost using the effective interest rate method. Where applicable, amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in net income.
- FVOCI – measured at FVOCI if not designated as FVTPL. Interest income, foreign exchange gains and losses and impairment are recognized in net income. Other net gains and losses are recognized in other comprehensive income ("OCI"). On derecognition, gains and losses accumulated in OCI are reclassified to net income.
- FVTPL – measured at FVTPL if not classified as amortized cost or FVOCI with net gains and losses, including any interest or dividend income, recognized in net income.

Equity investments are required to be classified as measured at fair value. However, on initial recognition of an equity investment that is not held-for-trading, the Corporation may irrevocably elect to present subsequent changes in the investments fair value in OCI. This election is made on an investment by investment basis. The Corporation does not have any equity investments.

### *Classification and measurement of financial liabilities*

Financial liabilities are classified as either measured at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is held-for-trading, a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value with net gains and losses, including interest expense, recognized in net income. Other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in net income. Any gains or losses on derecognition are also recognized in net income.

## (d) Property, plant and equipment:

### (i) Recognition and measurement:

Items of property, plant, and equipment are measured at historical cost less accumulated depreciation and accumulated impairment losses.

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and borrowing costs on qualifying assets.

Borrowing costs attributable to the construction of a qualifying asset are included in the cost of the asset. Other borrowing costs are recognized as an expense.

When parts of an item of property, plant, and equipment have different useful lives, they are accounted for as separate items of property, plant, and equipment.

The gain or loss on disposal of an item of property, plant, and equipment is determined by comparing the proceeds from disposal with the carrying amount of the property, plant, and equipment, and is recognized net within other income/expenses in profit or loss.

(ii) Depreciation:

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed, and if a component has a useful life that is different from the remainder of the asset, then that component is depreciated separately.

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant, and equipment. The estimated useful lives for the current and comparative periods are as follows:

Asset	Term
Automobiles	3 years
Conveyor belts	5 years
Mobile equipment	5 years to 25 years
Land improvements	15 years to 30 years
Buildings	8 years to 35 years
Fixed machinery	8 years to 35 years

Depreciation methods, useful lives, and residual values are reviewed at each financial year end and adjusted if appropriate.

(e) Impairment:

*Non-Financial assets*

The carrying values of the Corporation's non-financial assets are reviewed at each reporting date to assess whether there is any indication of impairment. If any such indication is present, then the recoverable amount of the assets is estimated.

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

---

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purposes of impairment testing, assets are grouped at the lowest levels that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the “cash-generating unit”).

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in profit and loss. Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment charge is reversed only to the extent that the asset’s carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

## *Financial assets*

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

The Corporation applies the simplified approach in determining expected credit losses (“ECLs”), which requires a probability-weighted estimate of expected lifetime credit losses to be recognized upon initial recognition of financial assets measured at amortized cost, contract assets and debt investments at FVOCI. Credit losses are measured as the present value of cash shortfalls from all possible default events, discounted at the effective interest rate of the financial asset. Loss allowances for financial assets at amortized cost are deducted from the gross carrying amount of the assets.

## (f) Goodwill and other intangible assets:

Goodwill is recognized on a business combination at the acquisition date and is initially measured at the fair value of the consideration transferred less the net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

Goodwill is subsequently measured at cost less accumulated impairment losses. Goodwill is tested for impairment on an annual basis, or more frequently if events or changes in circumstances indicate that the asset might be impaired. Any excess of the carrying value over fair value is charged to profit or loss in the period in which the impairment is determined.

Computer software are carried at cost less accumulated amortization. Amortization is calculated to write off the cost of computer software less their estimated residual values using straight-line method over their estimated useful lives, and is generally recognize in profit and loss. The estimated useful lives of computer software range from 3 to 5 years. Amortization methods, useful lives, and residual values are reviewed at each financial year end and adjusted if appropriate.

---

(g) Leases

At inception of a contract, the Corporation assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Corporation uses the definition of a lease in IFRS 16.

*As a lessee:*

At commencement or on modification of a contract that contains a lease component, the Corporation allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Corporation has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Corporation recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Corporation by the end of the lease term or the cost of the right-of-use asset reflects that the Corporation will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Corporation's incremental borrowing rate. Generally, the Corporation uses its incremental borrowing rate as the discount rate.

The Corporation determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Corporation is reasonably certain to exercise, lease payments in an optional renewal period if the Corporation is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Corporation is reasonably certain not to terminate early.

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

---

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Corporation's estimate of the amount expected to be payable under a residual value guarantee, if the Corporation changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Corporation presents right-of-use assets that do not meet the definition of investment property in 'right-of-use asset' and lease liabilities in 'lease obligation' in the statement of financial position.

## *Short-term leases and leases of low-value assets*

The Corporation has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment and vehicles. The Corporation recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

## (h) Inventories:

Inventories of spare parts and supplies are measured at the lower of cost and net realizable value. Cost is determined using the weighted average cost method and includes the invoiced cost and other directly attributable costs of acquiring the inventory.

## (i) Employee benefits:

### *Defined benefit plans*

A defined benefit plan is a post-retirement benefit plan other than a defined contribution plan. The Corporation's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value and the fair value of plan assets is deducted. The discount rate used to determine the present value of the obligation is the yield at the reporting date on high quality corporate bonds that have maturity dates approximating the term of the Corporation's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Corporation, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in the future contributions to the plan. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements that apply to any plan in the Corporation. An economic benefit is available to the Corporation if it is realizable during the life of the plan, or on settlement of the plan liabilities. When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on the date of improvement.

The Corporation recognizes all actuarial gains and losses arising from defined benefit plans immediately in other comprehensive income and expenses related to defined benefit plans in profit or loss.

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

---

## *Other long-term employee benefits*

The Corporation's net obligation in respect of long-term employee benefits other than pension plans is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is the yield at the reporting date on high quality corporate bonds that have maturity dates approximating the terms of the Corporation's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains and losses are recognized immediately in other comprehensive income in the period in which they arise.

## (j) Revenue:

Coal loading revenue is recognized when a customer's coal is loaded onto a ship. Coal loading revenue is recorded based on contract specific loading rates. Other revenue includes all revenue other than coal loading revenue and principally relates to payments made by customers on account of train and vessel operations and wharfage fees which are recovered from customers. Other revenues also includes fees earned under take or pay contracts where the coal has not been delivered.

## (k) Provisions:

### *Decommissioning liabilities*

The Corporation's terminal site is leased from the Vancouver Fraser Port Authority (the "VFPA"). The current lease agreement became effective as of January 1, 2015 and runs until December 31, 2026. Subsequent to year end, the lease with VFPA was amended which extended the term to December 31, 2051, with the Corporation having further options to extend the term to December 31, 2070 (note 16). At the expiry of the lease term, assuming the Corporation has not been successful in further extending the lease, the VFPA has the option to acquire the assets of the terminal at fair value or require the Corporation to return the site to its original condition. The Corporation believes that the probability that the VFPA will elect to enforce site restoration is remote.

## (l) Income tax:

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent they relate to items recognized directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the period, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary difference, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

(m) Comparative information

Certain of the information presented for comparative purposes have been reclassified to conform to the financial statement presentation adopted for the current year. These reclassifications had no effect on the reported results of operations or equity.

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

## **Profit and Loss:**

Profit and loss includes the following amounts in respect of post-retirement obligations:

<b>Pension obligations expense recognized in profit and loss</b>	<b>2023</b>	<b>2022</b>
Service costs:		
Current service costs	\$ 1,348	\$ 1,953
Past service costs	4,828	6,565
Non-investment expenses	220	220
	6,396	8,738
Net interest costs		
Interest cost	6,528	4,624
Expected return on plan assets	(7,987)	(5,012)
	(1,459)	(388)
	\$ 4,937	\$ 8,350

<b>Other post-retirement benefits expense recognized in profit and loss</b>	<b>2023</b>	<b>2022</b>
Current service costs	\$ 1,642	\$ 4,453
Past service costs	368	584
Interest costs	3,334	2,932
	\$ 5,344	\$ 7,969

The current and past service costs are recognized in operating expenses and net interest costs are included in net finance costs.

<b>Actuarial gains (losses) recognized in other comprehensive income</b>	<b>2023</b>	<b>2022</b>
Cumulative amount at beginning of year	\$ 84,318	\$ 32,057
Actuarial gain (loss) – plan experience	653	(3,642)
Actuarial gain (loss) – financial assumption changes	(11,240)	70,271
Return on plan assets greater (less) than expected return	4,279	(14,368)
Cumulative amount at December 31	\$ 78,010	\$ 84,318

## **Funding and Assumptions:**

The pension plans are entirely funded by the Corporation. The Corporation's contributions to the pension plans are based on independent actuarial valuations. The other benefit plans have no assets and an annual expense is recorded on an accrual basis based on independent actuarial determinations, considering among other factors, health care cost escalation.

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

During the year ended December 31, 2023, the Corporation made total contributions of \$2,422,000 (2022 - \$5,395,000) to all of its pension and other benefit plans.

The financial information with respect to the defined benefit pension plan obligations is based on the following funding valuation:

	Most recent valuation date	Date of next required valuation
Union Pension plan	January 1, 2023	January 1, 2024

The significant actuarial assumptions adopted in measuring the Corporation's accrued benefit obligations (and costs) are as follows (weighted average assumptions as of December 31):

	2023		2022	
	Pension benefits	Other benefits	Pension benefits	Other benefits
Benefit obligations:				
Discount rate at December 31	4.75%	4.75%	5.25%	5.25%
Benefit costs:				
Discount rate at January 1	5.25%	5.25%	3.00%	3.00%
Expected long-term rate of return on plan assets	5.25%	-	3.00%	-

For measurement purposes, a 7.0% per annum increase in the per capita cost of covered extended health care benefits was assumed for 2019, grading down by 0.25% per annum to 4.50% in 2029. The annual rate of increase in the per capita cost of dental benefits is 4.00%.

## **Sensitivity Analysis:**

Assumed discount rates and medical cost trend rates have a significant effect on the accrued benefit obligation. A one percentage point change in these assumptions would have the following effects on the accrued benefit obligation for 2023:

	1% decrease		1% increase	
Pension benefit plans				
Discount rate	\$	13,236	\$	(13,236)
Other post-retirement benefit plans				
Discount rate		12,035		(12,035)
Initial medical cost trend rate		(10,997)		10,997

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

## 13. Loans and borrowings:

The Corporation has a \$40 million operating facility that is used for a letter of credit relating to pension funding and day to day operations. The facility matures on August 31, 2025 and is secured by a pledge of all of the assets of the Corporation. The operating facility bears interest at the 1 month BA rate plus a margin and no repayments will be required until maturity. There is an outstanding letter of credit of \$11.4 million (2022 - \$17.9 million) which is the only amount drawn on this facility (see note 17).

Under its credit facility, the Corporation is required to comply with certain financial covenants. At December 31, 2023, the Corporation was in compliance with these financial covenants.

More information about the Corporation's exposure to interest rate, foreign currency and liquidity risk is included in note 19.

## 14. Financial instruments:

The carrying amounts of financial assets and liabilities reported in the condensed consolidated statement of financial position approximate their fair values.

IFRS 13, *Fair Value Measurement*, requires classification of financial instruments within a hierarchy that prioritizes the inputs to fair value measurement. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability, directly or indirectly;

Level 3 – Inputs that are not based on observable market data.

Financial instruments carried at fair value, by the levels in the fair value hierarchy, are as follows:

	Fair Value Hierarchy Level	December 31, 2023	December 31, 2022
<b>Financial assets:</b>			
Derivative instruments:			
Foreign exchange contracts	Level 2	\$ 1,083	\$ -
<b>Financial liabilities:</b>			
Derivative instruments:			
Foreign exchange contracts	Level 2	\$ -	\$ 673

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

As at December 31, 2023, Westshore has entered into option collars with notional amounts totaling US\$66.0 million to exchange U.S. dollars for Canadian dollars if the strike price drops below \$1.320 or increases above \$1.396. These foreign exchange contracts have not been designated as hedges.

The following table summarizes the gains (losses) on foreign exchange contracts for the years ended December 31, 2023 and 2022:

	2023	2022
Foreign exchange contracts	\$ 1,756	\$ (724)

The fair value asset and liability are recorded in other assets and other liabilities, respectively. The unrealized gain (loss) was recorded in foreign exchange gain (loss) in the condensed consolidated statements of comprehensive income.

The carrying amounts of these contracts are based on valuations obtained from the counterparties. The mark-to-market value is determined by the counterparty by multiplying the notional amount of the trade with the difference between the forward rate and the contract rate and discounting the resultant asset or liability by an applicable discount factor.

## 15. BHP Potash Project:

During the year ended December 31, 2023, the Corporation invoiced \$52,670,000 (2022 - \$53,905,000) to BHP Canada Inc., a subsidiary of BHP Group Limited (“BHP”) related to the construction of the necessary infrastructure to enable it to handle potash. These nonrefundable upfront fees received from BHP are recorded as deferred revenue and will be recognized when the corresponding future service is provided over the course of the export contract. The amount invoiced also includes a 5% holdback which is recorded as long term receivable, to be received upon the completion of the project. As at December 31, 2023, the holdback amount was \$5,329,000 (2022 - \$2,695,000).

## 16. Leases:

The Corporation is committed to low value, short term leases related to the rental of vehicles and equipment.

The Corporation has a land lease with the Vancouver Fraser Port Authority (“VFPA”) which has been identified as a material lease contract. The term of the lease is until December 31, 2026 with the Corporation having further options to extend the term to December 31, 2066. Subsequent to year end, our lease with VFPA was amended, with retroactive effect as of January 1, 2023. The term of the lease is January 1, 2023 to December 31, 2051, with Westshore having further options to extend the term to December 31, 2070 (the “Amended Lease”). The Corporation’s audited consolidated financial statements for the years ended December 31, 2023 and 2022 reflect the financial terms of the now prior lease, which was still in force on December 31, 2023. The financial effects of the Amended Lease will be reflected prospectively in the Corporation’s consolidated financial statements for the three months ending March 31, 2024 and it is expected that there will be a largely off-setting increase in each of the right-of-use asset and the lease obligation.

Charges payable by the Corporation under the prior lease comprised an annual base land and waterlot rental fee of \$5,259,000 (2022 - \$5,207,000) and an annual participation rental fee based on the volume of coal shipped. A minimum participation rental fee of \$6,494,000 (2022 - \$6,494,000) was charged based on a minimum annual

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

tonnage (MAT) of 17.6 million tonnes. A higher participation rental fee per tonne is charged on tonnage in excess of the MAT, which in 2023, was \$8,750,000 (2022 - \$5,132,000) in relation to the higher participation rental fee. Under the Amended Lease, annual rent is comprised of two fixed amounts, basic rent and ancillary rent. The basic rent is fixed until December 31, 2026, and may be revised by VFPA at that time and every three years thereafter. The ancillary rent will escalate annually. Unlike the old lease, the Amended Lease does not provide for an annual participation rental fee based on the volume of coal shipped.

Additional information about this lease is presented below. No other material lease contracts were identified.

<b>Right-of-use asset</b>	
<b>2022</b>	
Balance at January 1	\$ 268,123
Depreciation charge for the year	(5,958)
Balance at December 31	262,165
<b>2023</b>	
Balance at January 1	262,165
Other adjustments	158
Depreciation charge for the year	(5,986)
Balance at December 31	\$ 256,337

There were no additions to right-of-use assets during 2023 (2022 – nil).

<b>Lease obligation</b>	2023	2022
<b>Maturity analysis – contractual undiscounted cash flows</b>		
Less than one year	\$ 11,914	\$ 11,836
One to five years	47,769	47,604
More than five years	452,709	464,623
<b>Total undiscounted lease liabilities at year end</b>	<b>\$ 512,392</b>	<b>\$ 524,063</b>

<b>Amounts recognized in profit or loss</b>	2023	2022
Interest on lease liabilities	\$ 8,911	\$ 8,953
Variable lease payments not included in the measurement of lease liabilities	8,750	5,132
Expenses relating to short-term and low value asset leases	208	196

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

Amounts recognized in the statement of cash flows	2023	2022
Cash used in operations:		
Variable lease payments included in profit for the year	\$ 8,750	\$ 5,132
Short-term and low value asset leases included in profit for the year	208	196
Lease obligation interest paid	8,911	8,953
	17,869	14,281
Cash used in financing:		
Lease obligation	2,685	2,748
Total cash outflow for leases	\$ 20,554	\$ 17,029

## 17. Commitments and Contingencies:

The Corporation has provided a letter of credit of \$11,418,000 (December 31, 2022 - \$17,872,000) related to pension funding.

The Corporation continues to enter into contracts with various vendors for the construction of the potash infrastructure. Pursuant to the agreement, BHP is required to substantially fund the potash infrastructure. As at December 31, 2023, the Corporation has commitments related to this project of \$201,721,000 that has not been accrued for.

## 18. Major Customers:

The Corporation had certain customers whose throughput individually represented 10% or more of the Corporation's total throughput.

For the year ended December 31, 2023, three customers accounted for 79% (2022 - 80%) and four customers accounted for 92% (2022 - 92%) of throughput.

## 19. Financial risk management:

The Corporation is exposed to various risks associated with its financial instruments, which include credit risk, liquidity risk and market risk. Further quantitative disclosures are included throughout these consolidated financial statements.

### (a) Credit risk:

Credit risk is the risk of financial loss to the Corporation if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises primarily from accounts receivable and cash and cash equivalents. Credit risk can also arise on foreign currency contracts held by the Corporation.

The Corporation's exposure to credit risk is influenced by the profitability of coal mining companies, which is heavily impacted by the price of coal. The Corporation does not have any collateral or security for its receivables. The Corporation monitors the financial health of its customers and regularly reviews its accounts receivable for impairment. As at December 31, 2023 and 2022, there were no trade accounts receivable past due which were considered uncollectible and no reserve in respect of doubtful accounts was recorded.

The Corporation limits its exposure to credit risk arising from cash equivalents by only investing in money market funds with a major Canadian financial institution. The Corporation does not expect any credit losses in

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

the event of non-performance by counter parties to its foreign exchange forward contracts as the counter parties are major Canadian financial institutions.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk is:

		2023		2022
Cash and cash equivalents	\$	164,747	\$	155,068
Accounts receivable		41,821		8,786
Long term receivable		5,329		2,695
	\$	211,897	\$	166,549

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

---

(b) Liquidity risk:

Liquidity risk is the risk that the Corporation will not be able to meet its obligations as they become due. The Corporation continually monitors its financial position to ensure that it has sufficient liquidity to discharge its obligations when due.

The current financial liabilities of the Corporation, which include accounts payable and accrued liabilities, income tax payable and dividends payable to shareholders, have a contractual maturity of less than 1 year.

The Corporation also maintains a \$40 million operating facility that is primarily used for pension funding. The Corporation has an outstanding letter of credit for \$11,418,000 against this facility.

(c) Market risk:

The significant market risk exposures affecting the financial instruments held by the Corporation are those related to foreign currency exchange rates and interest rates.

(i) Foreign currency exchange rates:

The Corporation holds some cash denominated in foreign currencies and the Canadian dollar value of these cash balances fluctuates with changes in the exchange rate. As at December 31, 2023, the Corporation held US\$17.8 million (2022 – US\$6.3 million). A \$0.01 increase in the US/Canadian exchange rate would have increased the Canadian dollar value of this cash balance and increased foreign exchange gains by \$178,000 for the year.

The accounts receivable due from U.S. customers are denominated in U.S. dollars. The U.S. dollar denominated accounts receivable outstanding as at December 31, 2023 was \$9,115,000 (2022 - \$867,000).

The Corporation is exposed to foreign currency exchange rate risk on its foreign currency contracts. The value of these financial instruments fluctuates with changes in the US/CAD dollar exchange rate. See note 14 for more information.

(ii) Interest rates:

The Corporation has limited exposure to interest rate risk on the cash equivalents. Money market fund returns are correlated with Canadian T-bills and Bankers' Acceptances of major Canadian financial institutions.

The Corporation also has interest rate risk on the revolving credit facility. The revolving credit facility carries an interest rate that floats with market rates.

## 20. Capital management:

The capital of the Corporation consists solely of shareholders' equity which includes issued share capital and deficit.

The objective of the Corporation is to maintain a stable capital base and ensure that the capital structure does not interfere with the Corporation's ability to meet its distribution policy or fund future projects. The Corporation's quarterly dividend is subject to periodic review based on factors including funds applied to repurchase shares, other opportunities that may come before Westshore, other potential capital upgrade projects, operating performance and current market conditions.

# WESTSHORE TERMINALS INVESTMENT CORPORATION

Notes to the Consolidated Financial Statements

(Tabular amounts expressed in thousands of Canadian dollars, except share amounts)

Years ended December 31, 2023 and 2022

## 21. Related party transactions:

	2023	2022
Administration agreement Westar Management Ltd.	\$ 615	\$ 597
Management agreement: Westar Management Ltd. - base fee	1,845	1,791
Management agreement: Westar Management Ltd. - Incentive fee	4,743	1,115
Insurance premiums: Affiliate of Westar Management Ltd.	2,277	2,255
Vehicle leases: Affiliate of Westar Management Ltd.	208	196
Director fees: Director fees	823	728

Accounts receivable include nil (2022 - \$497,000) due from affiliated companies. Accounts payable and accrued liabilities include \$4,974,000 (2022 - \$2,005,000) due to affiliated companies.
