## USA TECHNOLOGIES, INC.

### PART I

#### Item 1. Business.

##### OVERVIEW

USA Technologies, Inc. (the “Company”, “We”, “USAT”, or “Our”) was incorporated in the Commonwealth of Pennsylvania in January 1992. We are a provider of technology-enabled solutions and value-added services that facilitate electronic payment transactions primarily within the unattended Point of Sale (“POS”) market. We are a leading provider in the small ticket, beverage and food vending industry and are expanding our solutions and services to other unattended market segments, such as amusement, commercial laundry, kiosk, taxi and others. Since our founding, we have designed and marketed systems and solutions that facilitate electronic payment options, as well as telemetry and machine-to-machine (“M2M”) services, which include the ability to remotely monitor, control, and report on the results of distributed assets containing our electronic payment solutions. Historically, these distributed assets have relied on cash for payment in the form of coins or bills, whereas, our systems allow them to accept cashless payments such as through the use of credit or debit cards or other emerging contactless forms, such as mobile payment.

We derive the majority of our revenues from license and transaction fees resulting from connections to, as well as services provided by, our ePort Connect service. Connections to our service stem from the sale or lease of our POS electronic payment devices or certified payment software or the servicing of similar third-party installed POS terminals. The majority of ePort Connect customers pay a monthly fee plus a blended transaction rate on the transaction dollar volume processed by the Company. Connections to the ePort Connect service, therefore, are the most significant driver of the Company’s revenues, particularly revenues from license and transaction fees.

As of June 30, 2014, the Company had approximately 266,000 connections to its ePort Connect service, compared to approximately 214,000 connections as of June 30, 2013, representing a 24% increase. During the fiscal year ended June 30, 2014, the Company processed approximately 169 million cashless transactions totaling approximately \$294 million in transaction dollars, representing a 31% increase in transaction volume and a 34% increase in dollars processed from the 129 million cashless transactions totaling approximately \$219 million during the previous fiscal year ended June 30, 2013.

The above chart shows the increases over the last four fiscal years in the number of connections, revenues and the dollar value of transactions handled by us. The vertical bars depict total revenues, segmented by license and transaction fees and equipment revenues. The solid line depicts the number of connections to our ePort Connect service, as of the end of each of the last four fiscal years, as indicated by the dot at the mid-point on the revenue bar for each year. Similarly, the dollar value of transactions handled by us during each of the last four fiscal years is indicated by the dotted line and the dot at the mid-point on the revenue bar for each year.

Our solutions and services have been designed to simplify the transition to cashless for traditionally cash-only based businesses. As such, they are turnkey and include our comprehensive ePort Connect service and POS electronic payment devices or certified payment software, which are able to process traditional magnetic stripe credit and debit cards, contactless credit and debit cards and mobile payments. Standard services through ePort Connect are maintained on our proprietary operating systems and include merchant account setup on behalf of the customer, automatic processing and settlement, sales reporting and 24x7 customer support. Other value-added services that customers can choose from include things such as cashless deployment planning, cashless performance review and prepaid and loyalty products and services. Our solutions also provide flexibility to execute a variety of payment applications on a single system, transaction security, connectivity options, compliance

with certification standards, and centralized, accurate, real-time sales and inventory data to manage distributed assets (wireless telemetry and M2M).

Our customers range from global food service organizations to small businesses that operate primarily in the self-serve, small ticket retail markets including beverage and food vending, amusement and arcade machines, smartphones via our ePort Mobile™ solution, commercial laundry, tolls, and various other self-serve kiosk applications as well as equipment developers or manufacturers who incorporate our ePort Connect service into their product offerings.

The Company also manufactures and sells energy management products that reduce the electrical power consumption of equipment, such as refrigerated vending machines and glass front coolers, thus reducing the electrical energy costs associated with operating this equipment. We derive equipment revenues through the sale of our energy management products both in the United States and in approximately seven countries worldwide.

We believe that we have a history of being a market leader in cashless payments with a recognized brand name, a value-added proposition for our customers and a reputation of innovation in our product and services. We believe that these attributes position us to capitalize on industry trends.

## **THE INDUSTRY**

We operate primarily in the small ticket electronic payments industry and, more specifically, the unattended POS market. We also have the ability to accept cashless payment “on the go” through mobile-based payment services, which are generally higher ticket transactions. Our solutions and services facilitate electronic payments in industries that have traditionally relied on cash transactions. We believe the following industry trends are driving growth in demand for electronic payment systems in general and more specifically within the markets we serve:

- Ongoing shift toward electronic payment transactions and away from cash and checks;
- Increasing demand for electronic transaction functionality from both consumers and merchant/operators; and
- Improving POS technology and NFC equipped mobile phone payment technology.

### ***Shift toward electronic payment transactions and away from cash and checks***

There has been an ongoing shift away from paper-based methods of payment, including cash and checks, towards electronic-based methods of payment. According to The Nilson Report, December 2012, paper-based methods of payment continued to decline in 2010, representing 38.97% of transaction dollars measured compared to 50.45% in 2005. The four card-based systems—credit, debit, prepaid, and electronic benefits transfer—generated \$4.22 trillion in the United States in 2011, 50.6% of transaction dollars measured, compared to 42.3% in 2006. The Nilson Report projects that by 2016 spending at merchants in the U.S., from the four card-based system to grow to \$6.5 trillion, or 62.8% of total transaction dollars measured.

### ***Increase in Consumer and Merchant/Operator Demand for Electronic Payments***

***Increase in Consumer Demand*** . The unattended, vending and kiosk POS market has historically been dominated by cash purchases. However, oftentimes, cash purchases at unattended POS locations represent a cumbersome transaction for the consumer because they do not have the correct monetary value (paper or coin), or the consumer does not have the ability to convert their bills into coins. We believe electronic payment system providers such as USA Technologies that can meet consumers’ demand within the unattended market will be able to offer retailers, card associations, card issuers and payment processors and business owners an expanding value proposition at the POS.

***Increase in Merchant/Operator Demand*** . We believe that, increasingly, merchants and operators of unattended payment locations (e.g., vending machines, laundry , tabletop games, etc.) are utilizing electronic payment alternatives as a means to improve business results. The Company works with its customers to help them drive increased revenue of their distributed assets through this expanded market opportunity. In addition, electronic payment systems can provide merchants and operators real-time sales and inventory data utilized for back-office reporting and forecasting, like USA Technologies’ solutions and services, helping them to manage their business more efficiently.

***Increase in Demand for Networked Assets*** . M2M (machine-to-machine) technology includes capturing value from wireless modules and electronic devices to improve business productivity and customer service. The term M2M describes any kind of 2-way communication system between geographically distributed devices through a centrally managed software application without human intervention and as such, the Company’s integrated POS and ePort Connect remote data management capabilities fall into this category of solution. For example, the Company’s new ePortGO™ solution integrates cashless payment with software and hardware specific to the taxi and for-hire vehicle industry. In addition, networked assets can provide valuable information regarding consumers’ purchasing patterns and payment preferences, allowing operators to more effectively tailor their offerings to consumers. According to a Verizon Wireless 2011 whitepaper (When Machines Talk, Businesses Listen), within ten years, the number of machines that can be connected should exceed sixty billion units. The Company believes that its expertise in integrating cashless payments, its scalable network data capacity, its proven ability to handle high transaction volume , and its high quality and reliable data management capabilities make it well suited for the growing opportunities in the M2M market.

### ***POS Technology and NFC Equipped Mobile Phone Payment Improvements***

***Consumer Interest in Mobile Payment.*** NFC, or Near Field Communication, is a short range wireless connectivity technology that uses electromagnetic radio fields to enable communication between devices when there is a physical touch, or when they are within close proximity to one another. We believe that POS terminals contactless enabled to accept NFC payments and digital wallet applications, such as Softcard, Google Wallet, Apple Pay, and others, stand to benefit from these evolving trends in mobile payment. Digital wallet is essentially a digital service, accessed via the web or a mobile phone application that serves as a substitute for the traditional credit or debit card. Providers can also market directly to targeted consumers with coupons and loyalty programs.

With over 50% of the Company's connections contactless enabled to accept NFC payments (in addition to magnetic stripe cards) as of June 30, 2014, we believe that we are well-positioned to benefit from this emerging space.

## **OUR TECHNOLOGY-BASED SOLUTION**

Our solutions have been designed to be turnkey and includes ePort Connect service, POS electronic payment devices, certified payment software able to process traditional magnetic stripe credit and debit cards, contactless credit and debit cards, and NFC equipped mobile phones that allow consumers to make payments with their cell phones. We believe that our ability to bundle our products and services, as well as the ability to tailor and customize them to individual customer needs, makes it easy and efficient for our customers to adopt and deploy our technology, and results in a service unmatched in the small-ticket, unattended retail market today.

*The Product* . The Company offers its customers several different devices or software to connect their distributed assets. These range from our QuickConnect™ Web service, more fully described below under the section "OUR PRODUCTS", and encrypted magnetic stripe card readers to our ePort ® hardware that can be attached to the door of a stand-alone terminal.

*The Network* . Our network is designed to transmit payment information from our customers' terminals for processing and sales and diagnostic data for storage and reporting to our customers. Also, the network, through server-based software applications, provides remote management information, and enables control of the networked device's functionality. Through our network we have the ability to upload software and update devices remotely enabling us to manage the devices easily and efficiently (e.g., change protocol functionality, provide software upgrades, and change terminal display messages).

*The Connectivity Mediums*. The client devices (described above) are interconnected for the transfer of our customers' data through our ePort Connect network that provides multiple connectivity options such as phone line, ethernet, and wireless. Increased wireless connectivity options, coverage and reliability have allowed us to service a greater number of geographically dispersed customer locations. Additionally, we make it easy for our customers to deploy wireless solutions by acting as a single point of contact. We have contracted with Verizon Wireless and AT&T in the United States and Rogers Wireless in Canada in order to supply our customers with wireless network coverage.

*Data Security*. We are listed on the VISA Global Registry of Service Providers, meaning that VISA has reviewed and accepted our Report on Compliance (RoC) from an authorized Payment Card Industry ("PCI") assessor as a PCI Level 1 Service Provider. Our entry on this is renewed annually, and our current entry is valid through January 31, 2015. The VISA listing can be found online at <http://www.visa.com/splisting/searchGrsp.do>

## OUR SERVICES

For the fiscal year ended June 30, 2014, license and transaction fees generated by our ePort Connect service represented 84% of the Company's revenues. Our ePort Connect solution provides customers with all of the following services, under one cohesive service umbrella:

- Diverse POS options. Ability to connect to a broad product line of cashless acceptance devices or software.
- Card Processing Services. Through our existing relationships with card processors and card associations, we provide merchant account and terminal ID set up, pre-negotiated discounted fees on small ticket purchases, and direct electronic funds transfers (EFTs) to our customers' bank accounts for all settled card transactions as well as ensure compliance with current processing regulations.
- Wireless Connectivity. We manage the wireless account activation, distribution, and the relationship with wireless providers for our customers, if needed.
- Customer/Consumer Services. We support our installed base by providing 24-hour help desk support, repairs, and replacement of impaired system solutions. In addition, all inbound billing inquiries are handled through a 24-hour help desk, thereby eliminating the need for our customers to deal with consumer billing inquiries and potential chargebacks.
- Online Sales Reporting. Via the USALive online reporting system, we provide customers with a host of sales and operational data, including information regarding their credit and cash transactions, user configuration, reporting by machine and region, by date range and transaction type, data reports for operations and finance, graphical reporting of sales, and condition monitoring for equipment service, as well as activation of new devices and redeployments.
- M2M Telemetry and DEX data transfer. DEX, an acronym for digital exchange, is the Vending Industry's standard way to communicate information such as sales, cash in bill validators, coins in coin boxes, sales of units by selection, pricing, door openings, and much more. USA Technologies is able to remotely transfer and push DEX data to customers' route management systems through its DEX partner program. USA Technologies operates within the VDI (Vending Data Interchange) standards established by NAMA (National Automatic Merchandising Association) and sends DEX files compatible with most major remote management software systems.
- Over-the-Air Update Capabilities. Automatic over-the-air updates to software, settings, and security protocol from our network to our ePort card reader keep our customers' hardware up-to-date and enable customers to benefit from any advancement made after their hardware or software purchase.
- Value-added Services. Access to additional services such as **MORE** , our loyalty and prepaid program, two-tier pricing, special promotions such our nationwide Softcard mobile payment and loyalty promotion for vending customers, as well as a menu of hardware purchasing options including JumpStart, our terminal-included service option.
- Deployment Planning. Access to services to help operators successfully deploy cashless payment systems and integrated solutions that is based on our extensive market and customer experience data.

We enter into a processing and licensing agreement, or ePort Connect Services Agreement, with our customers pursuant to which we act as a provider of cashless financial services for the customer's distributed asset, and the customer agrees to pay us an activation fee, monthly service fees, and transaction processing fees. Our agreements are generally cancelable by the customer upon thirty to sixty days' notice to us. It typically takes thirty to sixty days for a new connection to begin contributing to the Company's license and transaction fee revenues.

The Company counts its ePort connections upon shipment of an active terminal to a customer under contract, at which time activation on its network is performed by the Company, and the terminal is capable of conducting business via the Company's network and related services. An ePort connection does not necessarily mean that the unit is actually installed by the customer on a machine, or that the unit has begun processing transactions, or that the Company has begun receiving monthly service fees in connection with the unit. Rather, at the time of shipment of the ePort, the customer becomes obligated to pay the one-time activation fee, and is obligated to pay monthly service fees in accordance with the terms of the customer's contract with the Company.

## **OUR PRODUCTS**

ePort is the Company's core device, which is currently being utilized in self-service, unattended markets such as vending, amusement and arcade, and various other kiosk applications. Our ePort product facilitates cashless payments by capturing payment information and transmitting it to our network for authorization with the payment system (e.g., credit card processors). Additional capabilities of our ePort consist of control/access management by authorized users, collection of audit information (e.g., date and time of sale and sales amount), diagnostic information of the host equipment, and transmission of this data back to our network for web-based reporting, or to a compatible remote management system. Our ePort products are available in several distinctive modular configurations, and as hardware, software or as an API Web service, offering our customers flexibility to install a POS solution that best fits their needs and customer demands.

- ePort Edge™ is a one-piece design and is intended for those customers who require a magnetic swipe-only cashless system with basic features at a lower price point.

- ePort G-8 is a PCI compliant two-piece design that supports traditional magnetic stripe credit/debit cards and contactless cards. The ePort G8 telemeter is also available as a stand-alone DEX telemetry solution.
- ePort G-9 was introduced in Fiscal 2013 and became available to the market in the latter part of our second quarter of Fiscal 2014. It has been designed to offer all the features of the G-8 plus additional new features that support expanded acceptance options, consumer engagement offerings and advanced diagnostics.
- QuickConnect is a Web service that allows a client application to securely interface with the Company's ePort Connect service. QuickConnect essentially replaces ePort SDK (software development kit), which captured our ePort technology in software form for PC-based devices such as kiosks.

Other forms of our ePort technology include:

- eSuds, our solution developed for the commercial laundry industry that enables laundry operators to provide customers cashless transactions via the use of their credit cards, debit cards and other payment mediums such as student IDs. Effective with the April 2013 mutually exclusive agreement with Setomatic Systems, we are no longer selling the entire eSuds solution to new customers, but we continue to provide processing services for laundry machines equipped with cashless hardware supplied by Setomatics Systems.
- ePort Mobile is a mobile acceptance solution for credit and debit cards that is supported by USAT's ePort Connect service. ePort Mobile is available as a download from the iTunes and Google Play Store and is also available as an All-In-One solution that includes the phone and data plan.
- ePortGO was introduced in August 2013. ePortGO integrates our ePort Mobile solution and ePort Connect service with software developed by eTaxi USA, LLC, to address the opportunities for streamlined business process and credit and debit card acceptance in the taxi and for-hire vehicle market.

*Energy Management Products* . Our Company offers energy conservation products ("Energy Misers®") that reduce the electrical power consumption of various types of existing equipment, such as vending machines, glass front coolers and other "always-on" appliances by allowing the equipment to selectively operate in a power saving mode when the full power mode is not necessary. Each of the Company's Energy Miser products utilizes occupancy sensing technology to determine when the surrounding area is vacant or occupied. The Energy Miser then utilizes occupancy data, product temperatures, and an energy saving algorithm to selectively control certain high-energy components (e.g., compressor and fan) to realize electrical power savings over the long-term use of the equipment. Customers of our Vending Miser® product benefit from reduced energy consumption costs, depending on regional energy costs, machine type, and utilization of the machine. Our Energy Misers also reduce the overall stress loads on the equipment, helping to reduce associated maintenance costs. Energy Miser products are not currently networked to our ePort Connect service.

## **SPECIFIC MARKETS WE SERVE**

Our current customers are primarily in the self-serve, small ticket retail markets including beverage and food vending and kiosk, commercial laundry, car wash, tolls, amusement and gaming, and office coffee. While these industry sectors represent only a small fraction of our total market potential, as described below, these are the areas where we have gained the most traction to date. In addition to being our current primary markets, we believe these sectors serve as a proof-of-concept for other unattended POS industry applications.

*Vending*. According to Vending Times' 2012 Census of the Industry, annual U.S. sales in the vending industry sector were estimated to be approximately \$43 billion in 2011 transacted by over 6 million machines. The Company believes these machines represent a significant market opportunity for electronic payment conversion when compared to the Company's existing ePort Connect service base and the overall low rate of industry adoption to date. For example, in another study conducted by Automatic Merchandiser (State of the Vending Industry, June 2013) that included a representative 5.4 million machines, cashless adoption was projected at only 7% in 2012, up from 4% in 2011. The increase was attributed to higher product price points, increased acceptance of debit and credit in retail for smaller purchases, Gen X and Y/millennials joining the workforce to become vending consumers and the growing research about how cashless payment systems can increase sales. With the continued shift to electronic payments and the advancement in mobile and POS technology, we believe that the traditional beverage and food vending industry will continue to look to cashless payments and telemetry systems to improve their business results.

*Kiosk* . According to IHL Consulting Group's August 2012 North American Self-Service Kiosks Market Study, which defines, for purposes of their study, a kiosk as a self-standing, technology-based, unmanned device deployed across six retail and hospitality environments, approximately \$926 billion will be transacted through self-service kiosks in 2013, with compound annual growth for the subsequent three years of seven percent (7%). We believe that kiosks are becoming increasingly popular as credit, debit or contactless payment options enable kiosks to sell an increased variety of items. In addition, the study points to the increasing trend toward self-sufficiency, where time is the most important commodity of the consumer. As merchants continue to seek new ways to reach their customers through kiosk applications, we believe the need for a reliable cashless payment provider experienced with machine integration, PCI compliance and cashless payment services designed specifically for the unattended market will be of increasing value in this market. Our existing kiosk customers integrate with our cashless payment services via our QuickConnect Web service using one of our encrypted readers or ePort POS technologies.

*Laundry* . Our primary targets in laundry consist of the coin-operated commercial laundry and multi-housing laundry markets. According to the Coin Laundry Association, the U.S. commercial laundry industry is comprised of 30,000-35,000 laundromats that our partner, Setomatic Systems, estimates translates to roughly 2.5 million commercial washers and dryers. Additionally, an industry participant indicates there are approximately 3.4 million machines in the multi-housing market. While no revenue figures are available for the multi-housing market, the Coin

Laundry Association estimates gross revenue in the laundromat market at nearly \$5 billion annually.

*Mobile Merchant.* New mobile-based payment acceptance technology has made a transformational impact on an entire base of merchants that previously had almost no access to electronic-based payments. Goldman Sachs (Equity Research Report, June 19, 2012) sees the arrival of mobile technology at the micro/small merchant level addressing an estimated 13 million U.S.-based micro merchants that are likely to benefit from the ability to accept electronic payment from mobile devices. The Company believes that its mobile-based acceptance product and existing turnkey service platform align well with the market's need for integrated, mobile payment solutions. For example, ePortGO™ demonstrates how we have utilized ePort Mobile to address the specific needs of customers in the taxi and for-hire vehicle industry. According to IBISWorld website, estimated revenues in the taxi and for-hire vehicle industry are \$11 billion in the U.S. According to the Taxicab, Limousine and Paratransit Association website, there are approximately 12,400 limousine companies operating 126,000 vehicles and approximately 6,300 companies operating 171,000 taxicabs throughout the United States. Municipalities such as New York City and Washington D.C. have recently been mandating the use of in-vehicle credit/debit card acceptance and navigation features in taxis.

## **OUR COMPETITIVE STRENGTHS**

We believe that we benefit from a number of advantages gained through our over twenty year history in our industry. They include:

1. *One-Stop Shop, End-to-End Solution.* We believe that our ability to offer our customers one point of contact through a bundled cashless payment solution makes it easy and efficient for our customers to adopt and deploy our electronic payment solutions and results in a service that is unmatched in the small ticket, self-service retail market today. To our knowledge, other cashless payment solutions available in the market today require the operator to set up their own accounts for cashless processing and manage multiple service providers (i.e., hardware terminal manufacturer, wireless network provider, and/or credit card processor). We interface directly with our card processor and wireless service provider, and with our hardware solutions are able to offer a bundled solution to our customers.

2. *Trusted Brand Name.* We believe that the ePort and Energy Miser brands have a strong national reputation for quality, reliability, and innovation. We believe that card associations, payment processors, and merchants/operators trust our system solutions and services to handle financial transactions in a secure operating environment. Our trusted brand name is best exemplified by our high level of customer retention, over two dozen exclusive three-year agreements with customers for use of our ePort Connect service. We have agreements with partners like Visa and Verizon Wireless as well as several one-way exclusive relationships which we have solidified with leading organizations within the unattended POS industry, including Setomatic Systems, AMI Entertainment Network, Inc., Innovative Foto, and Air-Serv.
3. *Market Leadership.* We believe we have the largest installed base of unattended POS electronic payment systems in the unattended small-ticket retail market for food and beverage vending and we are continuing to expand to other adjacent markets such as laundry, taxi, amusement and gaming and kiosks. As of June 30, 2014, we had approximately 266,000 connections to our network. Our installed base supports our sales and marketing initiatives by enhancing our ability to establish or expand our market position. Finally, we believe our installed base provides multiple opportunities for referrals for new business, either from the merchant or operator of the deployed asset or through one of our several strategic relationships.
4. *Attractive Value Proposition for Our Customers .* We believe that our solutions provide our customers an attractive value proposition. Our solutions and services make possible increased purchases by consumers who in the past were limited to the physical cash on hand while making a purchase at an unattended terminal, thereby increasing the universe of potential customers and the buying activity of those customers. In addition, value-added offerings and services such as Two-Tier Pricing, which allows the operator to charge different amounts for the same product depending upon how the consumer chooses to pay, and M2M telemetry provide operators with the ability to pursue additional opportunities to reduce costs and improve operating efficiencies. Lastly, new consumer engagement services further extend the potential for customers to build new revenue opportunities, customer loyalty and brand distinction.
5. *Increasing Scale and Financial Stability.* Due to the continued growth in connections to the Company's ePort Connect service, during the 2014 fiscal year, 84% of the Company's revenues were from licensing and processing fees which are recurring in nature. We believe that this growing scale provides us improved financial stability and the footprint to market and distribute our products and services more effectively and in more markets than most of our competitors.
6. *Customer-Focused Research and Development.* Our research and development initiatives focus primarily on adding features and functionality to our electronic payment solutions based on customer input and emerging market trends. Since we began operations in 1992 and through June 30, 2014 , we have been granted 87 patents (US and International) and currently have 10 patent applications pending. We have generated considerable intellectual property and know-how associated with creating a seamless, end-to-end experience for our customers.

## **OUR GROWTH OPPORTUNITY**

Our primary objective is to continue to enhance our position as a leading provider of technology that enables electronic payment transactions and value-added services primarily at small-ticket, self-service retail locations such as vending, kiosks, commercial laundry, and other similar markets. The Company believes its service-approach business model can create a high-margin stream of recurring revenues that could create a foundation for long-term value and continued growth. Key elements of our strategy are to:

### Drive Growth in Connections

*Leverage Existing Customers/Partners.* We have a solid base of key customers across multiple markets, particularly in vending, that have currently deployed our solutions and services to just a small portion of their deployed base. As a result, they are a key component of our plan to drive future sales. We have worked to build these relationships, drive future deployments, and develop customized network interfaces. Our customers have seen the benefits of our products and services first-hand and we believe they represent the largest opportunity to scale connections to our service.

*Expand Distribution and Sales Reach.* We are intently focused on driving profitable growth through efficient sales channels. Added sales resources and new distribution relationships have led to approximately 2,250 new ePort Connect customers as well as increased penetration in markets such as amusement and arcade, and commercial laundry in fiscal year 2014.

*Further Penetrate Attractive Adjacent Markets.* We plan to continue to introduce our turnkey solutions and services to various adjacent markets such as the broad-based kiosk market and other similar markets by leveraging our expertise in cashless payment integration combined with the capacity and uniqueness of our ePort Connect solution.

*Capitalize on Opportunities in International Markets .* We are currently focused on the U.S. and Canadian markets for our ePort devices and related ePort Connect service but may seek to establish a presence in electronic payment markets in Europe, Asia, and Latin America. In order to do so, however, we would have to invest in additional sales and marketing and research and development resources targeted towards these regions. At this time, the Company believes the most efficient route to these markets will be achieved by optimizing and coordinating opportunities with its global partners and customers. Our energy management devices have been shipped to customers located in North America, Europe, and Asia.

## Expanding the Value of our Service

*Capitalize on the emerging NFC and growing mobile payments trends.* With over 50% of our connected base contactless enabled to accept NFC payments (including mobile wallets), the Company believes that continued increases in consumer preferences towards contactless payments represents a significant opportunity for the Company to further drive adoption.

*Continuous Innovation.* We are continuously enhancing our solutions and services in order to satisfy our customers and the end-consumers relying on our products at the POS locations. Our product innovation team is always working to enhance the design, size, and speed of data transmission, as well as security and compatibility with other electronic payment solution providers' technologies. We believe our continued innovation will lead to further adoption of USAT's solutions and services in the unattended POS payments market.

*Leverage Intellectual Property .* Through June 30, 2014, we have been granted 87 patents which contain various claims, including claims relating to payment processing, networking and energy management devices. In addition, we own numerous trademarks, copyrights, and trade secrets. We will continue to explore ways to leverage this intellectual property in order to add value for our customers, attain an increased share of the market, and possibly generate licensing revenues.

## **SALES AND MARKETING**

The Company's sales strategy includes both direct sales and channel development, depending on the particular dynamics of each of our markets. Our marketing strategy is diversified and includes media relations, direct mail, conferences, and client referrals. As of August 31, 2014, the Company was marketing and selling its products through its full and part-time sales staff consisting of nineteen people.

### **Direct Sales**

Our direct sales efforts are currently primarily focused on the beverage and food vending industry, although we continue to further develop our presence in our ancillary market segments.

### **Indirect Sales/ Distribution**

As part of our strategy to expand our sales reach while optimizing resources, we also have agreements with select resellers in the car wash, amusement and arcade, and vending markets. We also have a strategic marketing relationship in the commercial laundry market that makes the Company the exclusive service provider to Setomatic Systems' POS offering, SpyderWash. We have also entered into agreements with resellers and distributors in connection with our energy management products.

### **Marketing**

Our marketing strategy includes advertising and outreach initiatives designed to build brand awareness, make clear USAT's competitive strengths, and prove the value of our services to our target markets-both for existing and prospective customers. Activities include creating company and product presence on the web including [www.usatech.com](http://www.usatech.com) and [www.energymisers.com](http://www.energymisers.com), digital advertising, SEO (Search Engine Optimization), and social media; the use of direct mail and email campaigns; educational and instructional online training sessions; advertising in vertically-oriented trade publications; participating in industry tradeshow and events; and working closely with customers and key strategic partners on co-marketing opportunities and new, innovative solutions that drive customer and consumer adoption of our services.

## **IMPORTANT RELATIONSHIPS**

### **Verizon Wireless**

In April 2011, we signed an agreement with Verizon for access to their digital wireless wide area network for the transport of data, including credit card transactions and inventory management data. The initial term of the agreement is three years, expiring April 2014. In August 2013, we signed an amendment to this agreement which extended the term until April 2016. At the end of the term, the agreement automatically renews for successive one month periods unless terminated by either party upon thirty days' notice.

On September 21, 2011, the Company and Verizon entered into a Joint Marketing Addendum (the "Verizon Agreement") which amended the agreement described above. Pursuant to the Verizon Agreement, the Company and Verizon would work together to help identify business opportunities for the Company's products and services. Verizon may introduce the Company to existing or potential Verizon customers that Verizon believes are potential purchasers of the Company's products or services, and may attend sales calls with the Company made to these customers. The Company and Verizon would collaborate on marketing and communications materials that would be used by each of them to educate and inform customers regarding their joint marketing work. Verizon has the right to list the Company's products and services in its Data Solutions Guide for use by its sales and marketing employees and in its external website. The Company has agreed to pay to Verizon a one-time referral fee for each customer introduced to the Company by Verizon that becomes a customer of the Company. The Verizon Marketing Agreement is terminable by either party upon 45 days' notice.

### **VISA**

As of October 12, 2011, following implementation of the Durbin Amendment, we entered into a one-year agreement with VISA to establish a new, fixed debit interchange rate. On October 8, 2012, we entered into a first amendment pursuant to which the original one-year term was extended until October 31, 2013, and further automatically renewed for an additional year, or until October 31, 2014.

### **Compass/Foodbuy**

As per its website, Compass is a \$12 billion organization with locations worldwide, is the leader in vending, food service management and support services, is the largest national vending operating company, has over 500,000 associations, and is one of the leading owners and operators of vending machines in the United States. Compass is a division of UK-based Compass Group PLC.

On June 30, 2009, we entered into a Master Purchase Agreement ("MPA") with Foodbuy, LLC ("Foodbuy"), the procurement company for Compass Group USA, Inc. ("Compass") and other customers. The MPA provides, among other things, that for a period of thirty-six months, Foodbuy on behalf of Compass shall utilize USAT as the sole credit or debit card vending system hardware and related software and connect services provider for not less than seventy-five percent of the vending machines of Compass utilizing cashless payments solutions. The MPA also provides that for a period of thirty-six months from the effective date of the agreement, USAT shall be a preferred supplier and provider to Foodbuy and its customers, including Compass, of USAT's products and services. The MPA automatically renews for successive one-year

periods unless terminated by either party upon sixty days' notice prior to the end of any such one year renewal period. On July 1, 2009, USAT and Compass, in conjunction with the MPA described above, entered into a Quick Start Master Lease Agreement pursuant to which Compass could purchase ePort devices utilizing USAT's Quick Start Program. The Quick Start Program enables Compass to acquire USAT's ePort devices through a 36 month non-cancellable lease. Under the Quick Start Program, Compass will pay USAT a monthly amount, per terminal, that includes the lease of the ePort hardware and activation fee. Compass would be able to utilize the Quick Start Program to acquire ePorts during the three year term of the Master Purchase Agreement referred to above. In addition, on July 1, 2009, USAT and Compass, in conjunction with the MPA described above, also entered into a three year ePort Connect Services Agreement pursuant to which USAT will provide Compass with all card processing, data, network, communications and financial services, and DEX telemetry data services required in connection with all Compass vending machines utilizing ePorts. The agreement automatically renews for successive one year periods unless terminated by either party upon sixty days' notice prior to the end of any such one year renewal period. During the fiscal year ended June 30, 2014, Foodbuy and its customers, including Compass, represented 23% of our total revenues.

### **AMI Entertainment**

On August 22, 2011, we entered into an exclusive three-year agreement with AMI Entertainment ("AMI") as their exclusive processor of credit and debit cards and other electronic payments in connection with equipment operated on AMI's network in the U.S. and Canada. The agreement is subject to renewal for one year periods thereafter, subject to notice of non-renewal by either party; the agreement renewed for one year in August 2014. AMI manufactures various types of amusement, entertainment and music equipment for sale to third party users.

## **Setomatic Systems**

In April 2013, we entered into an three-year exclusive agreement with Setomatic Systems (“Setomatic”), a privately owned and operated developer and manufacturer of both open and closed loop card payment systems, drop coin meters and electronic timers for the commercial laundry industry. Under the terms of the agreement, the Company, through our ePort Connect® service, will act as the exclusive service provider for all credit/debit card processing for all new customers of Setomatic’s SpyderWash, a credit/debit card acceptance product. Similarly, the Company will market its ePort Connect service in the United States laundry market exclusively through Setomatic.

## **Softcard**

During Fiscal 2013, the Company entered into a strategic marketing agreement with Softcard (formerly known as ISIS) , a mobile commerce joint venture comprised of the three major telecommunication companies; Verizon Wireless, AT&T Mobility and T-Mobile USA. As part of the agreement, the Company was a participant in the Softcard Mobile Wallet in their two launch markets, Austin and Salt Lake City, during Fiscal 2013 for which it received financial and marketing support from Softcard. In addition, in April 2013, the Company announced, with Softcard, what we believe is the largest nationwide loyalty program in vending. The promotion is designed to allow any of our vending customers nationwide the ability to participate in Softcard Mobile Wallet payment and loyalty rewards program, provided that their locations are enabled for Softcard SmartTap technology for loyalty tracking. Consumers using the Softcard Mobile Wallet at one of these terminals would be eligible to receive their fifth vend free. Under the terms of the agreement covering the promotion, Softcard, through the Company, would essentially reimburse our vending customers for that free vend.

## **JUMP START PROGRAM**

In order to accelerate adoption in the marketplace as well as increase the Company’s license and transaction fee revenues, the Company commenced a program for its customers referred to as the JumpStart Program (“JumpStart”) in December 2009. Pursuant to the JumpStart Program, customers acquire the ePort cashless device at no upfront cost by paying a higher monthly service fee, avoiding the need to make a major upfront capital investment. The Company would continue to own the ePort device utilized by its customer. At the time of the shipment of the ePort device, the customer is obligated to pay to the Company a one-time activation fee, and is later obligated to pay monthly ePort Connect service fees in accordance with the terms of the customer’s contract with the Company, in addition to transaction processing fees generated from the device.

In fiscal 2014, the Company added approximately 60% of its gross connections through JumpStart. The Company anticipates using the JumpStart Program for a similar approximately 60% to 65% of its anticipated new connections in Fiscal 2015.

## **MANUFACTURING**

The Company utilizes independent third party companies for the manufacturing of its products. Our internal manufacturing process mainly consists of quality assurance of materials and testing of finished goods received from our contract manufacturers. We have not entered into a long-term contract with our contract manufacturers, nor have we agreed to commit to purchase certain quantities of materials or finished goods from our manufacturers beyond those submitted under routine purchase orders, typically covering short-term forecasts.

## **COMPETITION**

We are a leading provider and believe we have the largest installed base of unattended POS electronic payment systems in the small ticket, beverage and food vending industry. Factors that we consider to be our competitive advantages are described above under “OUR COMPETITIVE STRENGTHS.” Our competitors are increasingly and actively marketing products and services that compete with our products and services in the vending space including manufacturers who may include in their new vending machines their own (or another third party’s) cashless payment systems and services. These major competitors include Crane Payment Innovations , Coin Acceptors Inc. (Coinco), Cantaloupe Systems, Inc. and Coca-Cola Refreshments USA, Inc. While we believe our products and services are superior to our competitors’, many of our competitors are much larger enterprises and have substantially greater revenues. In addition to these competitors, there are also numerous credit card processors that offer card processing services to traditional retail establishments that could decide to offer similar services to the industries that we serve.

In the cashless laundry market, our joint solution with Setomatic Systems competes with hardware manufacturers, who provide joint solutions to their customers in partnership with payment processors, and with at least one competitor who provides an integrated hardware and payment processing solution.

## **CUSTOMER CONCENTRATIONS**

Financial instruments that subject the Company to a concentration of credit risk consist principally of cash and cash equivalents and accounts and finance receivables. The Company maintains cash and cash equivalents with various financial institutions. Approximately 22% and 41% of the Company’s trade accounts and finance receivables at June 30, 2014 and 2013, respectively, were concentrated with one customer. Approximately 26%, 37%, and 43% of the Company’s license and transaction processing revenues for the years ended June 30, 2014, 2013, and 2012, respectively, were concentrated with one and two customer(s), respectively: 26%, 26%, and 25%, respectively for each year, with one; and 11%, and 18%, for the years ended June 30, 2013, and 2012, respectively, with another. There was no concentration of equipment

sales revenue for the years ended June 30, 2014, 2013, and 2012. The Company's customers are principally located in the United States.

The Company owns US federal registrations for the following trademarks and service marks: Blue Light Sequence®, Business Express®, CM2iQ®, Creating Value Through Innovation®, EnergyMiser®, ePort®, ePort Connect®, ePort Edge®, ePort GO®, ePort Mobile®, eSuds®, Intelligent Vending®, PC Express®, Public PC®, SnackMiser®, TransAct®, USA Technologies®, USALive®, VendingMiser®, and VM2iQ®. There can be no assurance that the Company will be successful in maintaining such trade secret protection, that they will be recognized as trade secrets by a court of law, or that others will not capitalize on certain aspects of the Company's technology.

Through June 30, 2014, 87 patents have been granted to the Company, including 74 United States patents and 13 foreign patents, and 7 United States and 3 foreign patent applications are pending. Of the 87 patents, 79 are still in force .

The Company filed for re-examination of U.S. Patent No. 7,131,575 (Reexamination Control No. 90/008,437) and for reexamination of U.S. Patent No. 6,505,095 (Reexamination Control No. 90/008,448). On January 6, 2009, the U.S. Patent Office issued an Ex Parte Reexamination Certificate in connection with U.S. Patent No. 7,131,575 confirming patentability without any amendment to the claims. On August 11, 2009, the U.S. Patent Office issued an Ex Parte Reexamination Certificate in connection with U.S. Patent No. 6,505,095 which, among other things, approved amendments to certain of the prior claims and approved twelve new claims, for a total of 43 claims.

## **RESEARCH AND DEVELOPMENT**

Research and development expenses, which are included in selling, general and administrative expense in the Consolidated Statements of Operations, were approximately \$1,018,000, \$901,000, and \$1,038,000, for the years ended June 30, 2014, 2013, and 2012, respectively.

## **EMPLOYEES**

On August 31, 2014, the Company had fifty-six full-time employees and five part-time employees.

## Item 1A. Risk Factors.

### Risks Relating to Our Business

#### **We have a history of losses since inception and if we continue to incur losses, the price of our shares can be expected to fall.**

We experienced losses from inception through June 30, 2012, with net income for the year ended June 30, 2013 and June 30, 2014. However, continued profitability is not assured. From our inception through June 30, 2014, our cumulative losses from operations are approximately \$171 million. For our fiscal year ended June 30, 2012, we incurred a net loss of \$5,211,238, due primarily to the fact that our revenues had not been sufficient to sustain our operations. Until the Company's products and services can generate sufficient annual revenues, the Company will be required to use its cash and cash equivalents on hand, its line of credit, and may raise capital to meet its cash flow requirements including the issuance of Common Stock or debt financing. For the year ended June 30, 2014 and 2013, we earned net income of \$27,530,652, which includes a benefit for income taxes of \$27,255,398 and \$854,123, respectively. If we incur losses in the future, the price of our common stock can be expected to fall.

#### **The occurrence of unusual or unanticipated non-operational expenses may require us to divert our cash resources from achieving our business plan, adversely affecting our financial performance and resulting in the decline of our stock price.**

Our fiscal year 2015 business plan assumes that no material unusual or unanticipated non-operational expenses would be incurred by us. In the event we would incur any such expenses, we would anticipate diverting our cash resources from our JumpStart program in order to fund any such expenses. During the fiscal year ending June 30, 2015, we anticipate utilizing substantial cash resources in connection with the JumpStart program. Any such reduction may cause our anticipated connections, revenues, gross profits, adjusted EBITDA, and other financial metrics for the 2015 fiscal year and beyond to be materially adversely affected. In such event, the price of our common stock could be expected to fall.

#### **We may require additional financing or find it necessary to raise capital to sustain our operations and without it we may not be able to achieve our business plan.**

At June 30, 2014, we had working capital deficit of \$611,010. We had operating cash flows of \$7,085,400, \$6,038,952, and \$78,236, for the fiscal years ended June 30, 2014, 2013, and 2012, respectively. The foregoing does not reflect, and is not sufficient to pay for, our investments in the JumpStart Program of \$10.9 million, \$9 million and \$5.8 million incurred during the fiscal years 2014, 2013 and 2012, respectively. Although we believe that we have adequate existing resources to provide for our funding requirements through at least July 1, 2015, there can be no assurances that we will be able to continue to generate sufficient funds thereafter. Unless we maintain or grow our current level of operations and maintain or reduce the number of JumpStart connections, we may need additional funds to continue these operations. We may also need additional capital to update our technology or respond to unusual or unanticipated non-operational events. Should the financing we require to sustain our working capital needs be unavailable or prohibitively expensive when we require it, the consequences could be a material adverse effect on our business, operating results, financial condition and prospects.

#### **Our future operating results may fluctuate.**

Our future operating results will depend significantly on our ability to continue to drive revenues from license and transaction fees and our ability to develop and commercialize new products and services. Our operating results may fluctuate based upon many factors, including:

- fluctuations in revenue generated by our business;
- fluctuations in operating expenses;
- our ability to establish or maintain effective relationships with significant partners and suppliers on acceptable terms;
- the amount of debit or credit card interchange rates that are charged by Visa and Mastercard;
- the fees that we charge our customers for processing services;
- the successful operation of our network;
- the commercial success of our customers, which could be affected by such factors as general economic conditions;
- the level of product and price competition;
- the timing and cost of, and our ability to develop and successfully commercialize, new or enhanced products and services;
- activities of, and acquisitions or announcements by, competitors;
- the impact from any impairment of inventory, goodwill, fixed assets or intangibles;
- the ability to increase the number of customer connections to our network;
- marketing programs which delay realization by us of monthly service fees on our new connections ;
- the material breach of security of any of the Company's systems or third party systems utilized by the Company; and
- the anticipation of and response to technological changes, including mobile commerce.

#### **Our products may fail to gain substantial increased market acceptance. As a result, we may not generate sufficient revenues or profit margins to achieve our financial objectives or growth plans.**

There can be no assurances that demand for our products will be sufficient to enable us to generate sufficient revenue or become profitable on a sustainable basis. Likewise, no assurance can be given that we will be able to have a sufficient number of ePorts ® connected to our network or sell equipment utilizing our network to enough locations to achieve significant revenues. Alternatively, the locations which utilize the network

may not be successful locations and our revenues would be adversely affected. We may lose locations utilizing our products to competitors, or may not be able to install our products at competitors' locations, or may not obtain future locations which would be obtained by our competitors. In addition, there can be no assurance that our products could evolve or be improved to meet the future needs of the marketplace. In any such event we may not be able to achieve our growth plans, including anticipated connections and revenue growth.

**We may be required to incur further debt to meet future capital requirements of our business, including funding our JumpStart program. Should we be required to incur additional debt, the restrictions imposed by the terms of such debt could adversely affect our financial condition and our ability to respond to changes in our business.**

If we incur additional debt, we may be subject to the following risks:

- our vulnerability to adverse economic conditions and competitive pressures may be heightened;
- our flexibility in planning for, or reacting to, changes in our business and industry may be limited;
- our debt covenants may affect our flexibility in planning for, and reacting to, changes in the economy and in our industry;

- a high level of debt may place us at a competitive disadvantage compared to our competitors that are less leveraged and therefore, may be able to take advantage of opportunities that our indebtedness would prevent us from pursuing;
- the covenants contained in the agreements governing our outstanding indebtedness may limit our ability to borrow additional funds, dispose of assets and make certain investments;
- a significant portion of our cash flows could be used to service our indebtedness;
- we may be sensitive to fluctuations in interest rates if any of our debt obligations are subject to variable interest rates; and
- our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions, general corporate purposes or other purposes may be impaired.

We cannot assure you that our leverage and such restrictions will not materially and adversely affect our ability to finance our future operations or capital needs or to engage in other business activities. In addition, we cannot assure you that additional financing will be available when required or, if available, will be on terms satisfactory to us.

**The loss of one or more of our key customers could significantly reduce our revenues, results of operations, and net income.**

We have derived, and believe we may continue to derive, a significant portion of our revenues from one large customer or a limited number of large customers. Approximately 22% and 41% of the Company's trade accounts and finance receivables at June 30, 2014 and 2013, respectively, were concentrated with one customer. Approximately 26%, 37%, and 43% of the Company's license and transaction processing revenues for the years ended June 30, 2014, 2013, and 2012, respectively, were concentrated with one and two customer(s), respectively: 26%, 26%, and 25%, respectively for each year, with one; and 11%, and 18%, for the years ended June 30, 2013, and 2012, respectively, with another. There was no concentration of equipment sales revenue for the years ended June 30, 2014, 2013, and 2012.

Our customers may buy less of our products or services depending on their own technological developments, end-user demand for our products and internal budget cycles. A major customer in one year may not purchase any of our products or services in another year, which may negatively affect our financial performance. If we are required to sell products to any of our large customers at reduced prices or unfavorable terms, our results of operations and revenue could be materially adversely affected. Further, there is no assurance that our customers will continue to utilize our transaction processing and related services as our customer agreements are generally cancelable by the customer on thirty to sixty days' notice.

**We depend on our key personnel and if they would leave us, our business could be adversely affected .**

We are dependent on key management personnel, particularly the Chairman and Chief Executive Officer, Stephen P. Herbert and our Chief Financial Officer, David DeMedio. The loss of services of Mr. Herbert or Mr. DeMedio or other officers could dramatically affect our business prospects. Our executive officers and certain of our officers and employees are particularly valuable to us because:

- they have specialized knowledge about our company and operations;
- they have specialized skills that are important to our operations; or
- they would be particularly difficult to replace.

We have entered into an employment agreement with Mr. Herbert that expires on January 1, 2015 and with Mr. DeMedio which expires on June 30, 2015, each of which contains confidentiality and non-compete agreements.

We also may be unable to retain other existing senior management, sales personnel, and development and engineering personnel critical to our ability to execute our business plan, which could result in harm to key customer relationships, loss of key information, expertise or know-how and unanticipated recruitment and training costs.

**Our dependence on proprietary technology and limited ability to protect our intellectual property may adversely affect our ability to compete.**

Challenge to our ownership of our intellectual property could materially damage our business prospects. Our technology may infringe upon the proprietary rights of others. Our ability to execute our business plan is dependent, in part, on our ability to obtain patent protection for our proprietary products, maintain trade secret protection and operate without infringing the proprietary rights of others.

Through June 30, 2014, we had 10 pending United States and foreign patent applications, and will consider filing applications for additional patents covering aspects of our future developments , although there can be no assurance that we will do so. In addition, there can be no assurance that we will maintain or prosecute these applications. The United States Government and other countries have granted us 87 patents as of June 30, 2014. There can be no assurance that:

- any of the remaining patent applications will be granted to us;
- we will develop additional products that are patentable or do not infringe the patents of others;
- any patents issued to us will provide us with any competitive advantages or adequate protection for our products;
- any patents issued to us will not be challenged, invalidated or circumvented by others; or
- any of our products would not infringe the patents of others.

If any of our products or services is found to have infringed any patent, there can be no assurance that we will be able to obtain licenses to continue to manufacture , use, sell, and license such product or service or that we will not have to pay damages and/or be enjoined as a result of such infringement. Even if a patent application is granted for any of our products, there can be no assurance that the patented technology will be a commercial success or result in any profits to us.

If we are unable to adequately protect our proprietary technology or fail to enforce or prosecute our patents against others, third parties may be able to compete more effectively against us, which could result in the loss of customers and our business being adversely affected. Patent and proprietary rights litigation entails substantial legal and other costs, and diverts Company resources as well as the attention of our management. There can be no assurance we will have the necessary financial resources to appropriately defend or prosecute our intellectual property rights in connection with any such litigation.

**Competition from others could prevent the Company from increasing revenue and achieving its growth plans.**

While we are a leading provider and believe we have the largest installed base of unattended POS electronic payment systems in the small ticket, beverage and food vending industry, our competitors are increasingly and actively marketing products and services that compete with our products and services in this vending space. The competition includes manufacturers who may include in their new vending machines their own (or another third party's) cashless payment systems and services other than our systems and services. While we believe our products and services are superior to our competitors, many of our competitors are much larger enterprises and have substantially greater revenues. In addition to these competitors, there are also numerous credit card processors that offer card processing services to traditional retail establishments that could decide to offer similar services to the industries that we serve. Competition from other companies, including those that are well established and have substantially greater resources, may reduce our profitability or reduce our business opportunities. Competition may result in lower profit margins on our products or may reduce potential profits or result in a loss of some or all of our customer base. To the extent that our competitors are able to offer more attractive technology, our ability to compete could be adversely affected.

**The termination of any of our relationships with third parties upon whom we rely for supplies and services that are critical to our products could adversely affect our business and delay achievement of our business plan.**

We depend on arrangements with third parties for a variety of component parts used in our products. We have contracted with various suppliers to assist us to develop and manufacture our ePort® products. For other components, we do not have supply contracts with any of our third-party suppliers and we purchase components as needed from time to time. We have contracted with Xand to host our network in a secure, 24/7 environment to ensure the reliability of our network services. We also have contracted with multiple land-based telecommunications providers to ensure the reliability of our land-based network. If these business relationships are terminated, the implementation of our business plan may be delayed until an alternative supplier or service provider can be retained. If we are unable to find another source or one that is comparable, the content and quality of our products could suffer and our business, operating results and financial condition could be harmed.

**A disruption in the manufacturing capabilities of our third-party manufacturers, suppliers or distributors would negatively impact our ability to meet customer requirements.**

We depend upon third-party manufacturers, suppliers and distributors to deliver components free from defects, competitive in functionality and cost, and in compliance with our specifications and delivery schedules. Since we generally do not maintain large inventories of our products or components, any termination of, or significant disruption in, our manufacturing capability or our relationship with our third-party manufacturers or suppliers may prevent us from filling customer orders in a timely manner.

We have occasionally experienced, and may in the future experience, delays in delivery of products and delivery of products of inferior quality from third-party manufacturers. Although alternate manufacturers and suppliers are generally available to produce our products and product components, the number of manufacturers or suppliers of some of our products and components is limited, and a qualified replacement manufacturer or supplier could take several months. In addition, our use of third-party manufacturers reduces our direct control over product quality, manufacturing timing, yields and costs. Disruption of the manufacture or supply of our products and components, or a third-party manufacturer's or supplier's failure to remain competitive in functionality, quality or price, could delay or interrupt our ability to manufacture or deliver our products to customers on a timely basis, which would have a material adverse effect on our business and financial performance.

**Substantially all of the network service contracts with our customers are terminable for any or no reason upon thirty to sixty days' advance notice.**

Substantially all of our customers may terminate their network service contracts with us for any or no reason upon providing us with thirty or sixty days' advance notice. Accordingly, consistent demand for and satisfaction with our products by our customers is critical to our financial condition and future success. Problems, defects, or dissatisfaction with our products or services or competition in the marketplace could cause us to lose a substantial number of our customers with minimal notice. If a substantial number of our customers were to exercise their termination rights, it would result in a material adverse effect to our business, operating results, and financial condition.

**Our reliance on our wireless telecommunication service provider exposes us to a number of risks over which we have no control, including risks with respect to increased prices and termination of essential services.**

The operation of our wireless networked devices depends upon the capacity, reliability and security of services provided to us by our wireless telecommunication services providers, AT&T Mobility and Verizon Wireless. We have no control over the operation, quality or maintenance of these services or whether the vendor will improve its services or continue to provide services that are essential to our business. In addition, subject to our existing contracts with them, our wireless telecommunication services providers may increase their prices, which would increase our costs. If our wireless telecommunication services providers were to cease to provide essential services or to significantly increase prices, we could be required to find alternative vendors for these services. With a limited number of vendors, we could experience significant delays in obtaining new or replacement services, which could lead to slowdowns or failures of our network. In addition, we may have to replace our existing ePort ® devices that are already installed in the marketplace and which are utilizing the existing vendor's services. This could significantly harm our reputation and could cause us to lose customers and revenues.

**We may accumulate excess or obsolete inventory that could result in unanticipated price reductions and write downs and adversely affect our financial results.**

Managing the proper inventory levels for components and finished products is challenging. In formulating our product offerings, we have focused our efforts on providing products with greater capability and functionality, which requires us to develop and incorporate the most current technologies in our products. This approach tends to increase the risk of obsolescence for products and components we hold in inventory and may compound the difficulties posed by other factors that affect our inventory levels, including the following:

- the need to maintain significant inventory of components that are in limited supply;
- buying components in bulk for the best pricing;
- responding to the unpredictable demand for products;
- responding to customer requests for short lead-time delivery schedules; and
- failure of customers to take delivery of ordered products.

If we accumulate excess or obsolete inventory, price reductions and inventory write-downs may result, which could adversely affect our results of operation and financial condition.

**We may not be able to adapt to changing technology and our customers' technology needs.**

We face rapidly changing technology and frequent new service offerings that can render existing services obsolete or unmarketable. Our future depends, in part, on our ability to enhance existing services and to develop, introduce and market, on a timely and cost effective basis, new services that keep pace with technological developments and customer requirements. Developing new products and technologies is a complex, uncertain process requiring innovation and accurate anticipation of technological and market trends. When changes to the product line are announced, we will be challenged to manage possible shortened life cycles for existing products and continue to sell existing products. Our inability to respond effectively to any of these challenges may have a material adverse effect on our business and financial success.

**Security is vital to our customers and therefore breaches in the security of transactions involving our products or services could adversely affect our reputation and results of operations.**

Protection against fraud is of key importance to purchasers and end-users of our products. We incorporate security features, such as encryption software and secure hardware, into our products to protect against fraud in electronic payment transactions and to ensure the privacy and integrity of consumer data. We design and test our products to industry security standards and our products and methodologies are under periodic review and improvement. We also maintain the highest level PCI validation standard as mandated by the card industry and engage third party auditors not only to ensure that we meet the highest industry standards, but also to advise us on improving our security methods. Nevertheless, our products and services and third party products and services that are utilized by us may be vulnerable to breaches in security due to defects in our security mechanisms, the operating system and applications in our hardware platform. Security vulnerabilities could jeopardize the security of information transmitted or stored using our products. The security of the information in our products is compromised, our reputation and marketplace acceptance of our products will be adversely affected, which would adversely affect our results of operations, and subject us to potential liability. If our security applications are breached and sensitive data is lost or stolen, we could incur significant costs to not only assess and repair any damage to our systems, but also to reimburse customers for losses that occur from the fraudulent use of the data. We may also be subject to fines and penalties from the credit card associations in the event of the loss of confidential card information.

**Our products and services may be vulnerable to security breach.**

Credit card issuers have promulgated credit card security guidelines as part of their ongoing efforts to battle identity theft and credit card fraud. We continue to work with credit card issuers to assure that our products and services comply with these rules. There can be no assurances, however, that our products and services or third party products and services utilized by us are invulnerable to unauthorized access or hacking. When there is unauthorized access to credit card data that results in financial loss, there is the potential that parties could seek damages from us, and our business reputation may be materially adversely affected.

**If we fail to adhere to the standards of the Visa and MasterCard credit card associations, our registrations with these associations could be terminated and we could be required to stop providing payment processing services for Visa and MasterCard.**

Substantially all of the transactions handled by our network involve Visa or MasterCard. If we fail to comply with the applicable requirements of the Visa and MasterCard credit card associations, Visa or MasterCard could suspend or terminate our registration with them. The termination of our registration with them or any changes in the Visa or MasterCard rules that would impair our registration with them could require us to stop providing payment processing services through our network. In such event, our business plan and/or competitive advantages in the market place could be materially adversely affected.

**We rely on other card payment processors; if they fail or no longer agree to provide their services, our customer relationships could be adversely affected and we could lose business.**

We rely on agreements with other large payment processing organizations, primarily Elavon, Inc. ("Elavon"), to enable us to provide card authorization, data capture, settlement and merchant accounting services and access to various reporting tools for the customers we serve. The termination by our card processing providers of their arrangements with us or their failure to perform their services efficiently and effectively may adversely affect our relationships with the customers whose accounts we serve and may cause those customers to terminate their processing agreements with us.

**We are subject to laws and regulations that affect the products, services and markets in which we operate. Failure by us to comply with these laws or regulations would have an adverse effect on our business, financial condition, or results of operations.**

We are, among other things, subject to banking regulations and credit card association regulations. Failure to comply with these regulations may result in the suspension of our business, the limitation, suspension or termination of service, and/or the imposition of fines that could have an adverse effect on our financial condition. Additionally, changes to legal rules and regulations, or interpretation or enforcement thereof, could have a negative financial effect on us or our product offerings. To the extent this occurs, we could be subject to additional technical, contractual or other requirements as a condition of our continuing to conduct our payment processing business. These requirements could cause us to incur additional costs, which could be significant, or to lose revenues to the extent we do not comply with these requirements.

New legislation could be enacted regulating the basis upon which interchange rates are charged for debit or credit card transactions, which could increase the debit or credit card interchange fees charged by bankcard networks. An example of such legislation is the so-called "Durbin

Amendment,” to the Dodd Frank Wall Street Reform and Consumer Protection Act of 2010. The Durbin Amendment regulates the basis upon which interchange rates for debit card transactions are made to ensure that interchange rates are “reasonable and proportionate to costs.” Pursuant to regulations that were promulgated by the Federal Reserve, Visa and MasterCard have significantly increased their interchange fees for small ticket debit card transactions.

On October 12, 2011, the Company and Visa entered into a one-year agreement (the “Visa Agreement”) pursuant to which Visa has agreed to make available to the Company reduced interchange fees for debit card transactions. The interchange reimbursement fees made available to the Company will allow the Company to continue to accept Visa’s debit products without adversely impacting the Company’s historical gross profit from license and transaction fee revenues. On October 9, 2012, the Company and Visa entered into a First Amendment to extend the terms of the original agreement to October 31, 2013, which automatically renewed for one year through October 31, 2014. If the Visa Agreement is not extended, our financial results would be materially adversely affected unless we are able to pass these significant additional charges to our customers.

**Increases in card association and debit network interchange fees could increase our operating costs or otherwise adversely affect our operations. If we do not pass along to our customers any future increases in credit or debit card interchange fees, assessments and transaction fees, our gross profits would be reduced.**

We are obligated to pay interchange fees and other network fees set by the bankcard networks to the card issuing bank and the bankcard networks for each transaction we process through our network. From time to time, card associations and debit networks increase the organization and/or processing fees, known as interchange fees that they charge. Under our processing agreements with our customers, we are permitted to pass along these fee increases to our customers through corresponding increases in our processing fees. Passing along such increases could result in some of our customers canceling their contracts with us. Consequently, it is possible that competitive pressures will result in our Company absorbing some or all of the increases in the future, which would increase our operating costs, reduce our gross profit and adversely affect our business.

During the term of the Visa Agreement, the Company does not anticipate accepting any debit cards with interchange fees that are higher than the rates provided under the Visa Agreement. The Company will continue to accept Visa- branded debit and pre-paid cards in addition to all major credit cards, including Visa, MasterCard, Discover and American Express at its current processing rates. If the Visa Agreement is not extended, our financial results would be materially adversely affected unless we are able to pass these significant additional charges to our customers.

***The ability to recruit, retain and develop qualified personnel is critical to the Company's success and growth.***

For the Company to successfully compete and grow, it must retain, recruit and develop the necessary personnel who can provide the needed expertise required in its business. In addition, the Company must develop its personnel to provide succession plans capable of maintaining continuity in the midst of the inevitable unpredictability of human capital. However, the market for qualified personnel is competitive and the Company may not succeed in recruiting additional personnel or may fail to effectively replace current personnel who depart with qualified or effective successors. The Company's effort to retain and develop personnel may also result in significant additional expenses. The Company cannot assure that key personnel, including executive officers, will continue to be employed or that it will be able to attract and retain qualified personnel in the future. Failure to retain or attract key personnel could have a material adverse effect on the Company.

### **Risks Related to Our Common Stock**

**We do not expect to pay cash dividends in the foreseeable future and therefore investors should not anticipate cash dividends on their investment.**

The holders of our common stock and series A convertible preferred stock are entitled to receive dividends when, and if, declared by our board of directors. Our board of directors does not intend to pay cash dividends in the foreseeable future, but instead intends to retain any and all earnings to finance the growth of the business. To date, we have not paid any cash dividends on our common stock or our series A convertible preferred stock and there can be no assurance that cash dividends will ever be paid on our common stock.

In addition, our articles of incorporation prohibit the declaration of any dividends on our common stock unless and until all unpaid and accumulated dividends on the series A convertible preferred stock have been declared and paid. Through September 15, 2014, the unpaid and cumulative dividends on the series A convertible preferred stock are \$12,593,002. As of June 30, 2014, each share of series A convertible preferred stock was convertible into 0.1940 of a share of common stock at the option of the holder and is subject to further adjustment as provided in our Articles of Incorporation. The unpaid and cumulative dividends on the series A convertible preferred stock are convertible into shares of our common stock at the rate of \$1,000 per share at the option of the holder. During the year ended June 30, 2014, none of our series A convertible preferred stock and no cumulative preferred dividends were converted into shares of common stock.

Our articles of incorporation also provide that the preferred stock has a liquidation preference over the common stock in the amount of \$10 per share plus accrued and unpaid dividends. As of June 30, 2014, the liquidation preference was \$16,690,456.

**Upon certain fundamental transactions involving the Company, such as a merger or sale of substantially all of our assets, we may be required to distribute the liquidation preference then due to the holders of our series A preferred stock as well as cash payments to certain of our warrant holders which would reduce the amount of the distributions otherwise to be made to the holders of our common stock in connection with such transactions.**

Our articles of incorporation provide that upon a merger or sale of substantially all of our assets or upon the disposition of more than 50% of our voting power, the holders of at least 60% of the preferred stock may elect to have such transaction treated as a liquidation and be entitled to receive their liquidation preference. Upon our liquidation, the holders of our preferred stock are entitled to receive a liquidation preference prior to any distribution to the holders of common stock which as of June 30, 2014 is equal to \$16,690,456.

The terms of the warrants that were issued in March 2011 to acquire up to 3,900,000 shares of common stock at \$2.6058 per share which expire in September 2016 provide that upon a Fundamental Transaction (as defined in the warrant) the holder shall have the right to have the warrant purchased by the Company for cash at its Black Scholes Value (as defined in the warrant). The term Fundamental Transaction includes a merger, sale of substantially all of our assets, or if any person shall acquire 50% or more of the voting power of our shares. The Black Scholes Value (as defined in the warrant) payable as of June 30, 2014 was approximately \$ 3.1 million.

**We may issue additional shares of our common stock, which could depress the market price of our common stock and dilute your ownership.**

As of September 15, 2014, we had issued and outstanding warrants to purchase 4,309,000 shares of our common stock. The shares underlying 4,264,000 of these warrants have been registered and may be freely sold. Market sales of large amounts of our common stock, or the potential for those sales even if they do not actually occur, may have the effect of depressing the market price of our common stock. In addition, if our future financing needs require us to issue additional shares of common stock or securities convertible into common stock, the supply of common stock available for resale could be increased which could stimulate trading activity and cause the market price of our common stock to drop, even if our business is doing well. Furthermore, the issuance of any additional shares of our common stock including those pursuant to the exercise of warrants by the holders thereof, or securities convertible into our common stock could be substantially dilutive to holders of our common stock.

**Our stock price may be volatile.**

The trading price of our common stock is expected to be subject to significant fluctuations in response to various factors including, but not limited to, the following:

- variations in operating results and achievement of key business metrics;
- changes in earnings estimates by securities analysts, if any;
- any differences between reported results and securities analysts' published or unpublished expectations;
- announcements of new contracts, service offerings or technological innovations by us or our competitors;
- market reaction to any acquisitions, joint ventures or strategic investments announced by us or our competitors;

- demand for our services and products;
- shares of common stock being sold pursuant to Rule 144 or upon exercise of warrants;
- regulatory matters;
- concerns about our financial position, operating results, litigation, government regulation, developments or disputes relating to agreements, patents or proprietary rights;
- potential dilutive effects of future sales of shares of common stock by shareholders and by the Company;
- the amount of average daily trading volume in our common stock;
- our ability to obtain working capital financing; and
- general economic or stock market conditions unrelated to our operating performance.

The securities market in recent years has from time to time experienced significant price and volume fluctuations that are unrelated to the operating performance of particular companies. These market fluctuations, as well as general economic conditions, may also materially and adversely affect the market price of our common stock.

**The substantial market overhang of our shares may tend to depress the market price of our shares.**

As of September 15, 2014, the Company has 4,264,000 of our shares underlying warrants exercisable at \$2.6058 per share at any time before September 18, 2016 which are required to be registered by us for resale under applicable securities laws . Sales in the public market of a substantial number of the shares underlying these warrants, or the perception that these sales may occur, could cause the market price of our common stock to decline. In addition, the sale of these shares could impair our ability to raise capital, should we wish to do so, through the sale of additional common stock. We are unable to estimate the number of shares that may be sold because this will depend on the market price for our common stock, the personal circumstances of the sellers and other factors.

**Director and officer liability is limited.**

As permitted by Pennsylvania law, our by-laws limit the liability of our directors for monetary damages for breach of a director's fiduciary duty except for liability in certain instances. As a result of our by-law provisions and Pennsylvania law, shareholders may have limited rights to recover against directors for breach of fiduciary duty. In addition, our by-laws and indemnification agreements entered into by the Company with each of the officers and directors provide that we shall indemnify our directors and officers to the fullest extent permitted by law.

**Our publicly-filed reports are reviewed by the SEC from time to time and any significant changes required as a result of any such review may result in material liability to us, and have a material adverse impact on the trading price of our common stock.**

The reports of publicly-traded companies are subject to review by the SEC from time to time for the purpose of assisting companies in complying with applicable disclosure requirements and to enhance the overall effectiveness of companies' public filings, and comprehensive reviews of such reports are now required at least every three years under the Sarbanes-Oxley Act of 2002. SEC reviews may be initiated at any time. While we believe that our previously filed SEC reports comply, and we intend that all future reports will comply in all material respects with the published SEC rules and regulations, we could be required to modify or reformulate information contained in prior filings as a result of an SEC review. Any modification or reformulation of information contained in such reports could be significant and result in material liability to us and have a material adverse impact on the trading price of our common stock.

**Item 2. Properties.**

The Company conducts its operations from various facilities under operating leases. The Company leases 17,249 square feet of space located in Malvern, Pennsylvania for its principal executive office and for general administrative functions, sales activities, product development, and customer support. The lease term expires on April 30, 2016. As of June 30, 2014, the Company's rent payment for this facility is approximately \$31,000 per month.

The Company also leases 11,250 square feet of space in Malvern, Pennsylvania for its product warehousing and shipping under a lease agreement, which expires on February 28, 2016. As of June 30, 2014, the Company's rent payment is approximately \$5,000 per month.

**Item 3. Legal Proceedings.**

From time to time, the Company is involved in various litigation proceedings arising during the normal course of business which, in the opinion of the management of the Company, will not have a material effect on the Company's financial position and results of operations or cash flows.

**Item 4. Mine Safety Disclosures.**

Not applicable.

## **Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**

USA Technologies, Inc. provides wireless networking, cashless transactions, asset monitoring and other value-added services principally to the small ticket, unattended retail markets. Our ePort ® technology can be installed and/or embedded into everyday devices such as vending machines, a variety of kiosks, amusement & arcade machines and smartphones via our ePort Mobile™ solution. Our associated service, ePort Connect ®, is a PCI-compliant, comprehensive service that includes simplified credit/debit card processing and support, consumer engagement services as well as telemetry and machine-to-machine (“M2M”) services, including the ability to remotely monitor, control and report on the results of distributed assets containing our electronic payment solutions. In addition, the Company provides energy management products, such as its VendingMiser ® and CoolerMiser™, which reduce energy consumption in vending machines and coolers.

The Company generates revenue in multiple ways. We derive the majority of our revenues from license and transaction fees related to our ePort Connect service. Connections to our service stem from the sale, or lease of our POS electronic payment devices or certified payment software or the servicing of similar third-party installed POS terminals. The majority of ePort Connect customers pay a monthly fee plus a blended transaction rate on the dollar volume processed by the Company. Customers with higher expected transaction rates might pay a lower or no ePort Connect monthly fee, but a higher blended transaction rate on dollar volume processed by the Company. Connections to the ePort Connect service, therefore, are the most significant driver of the Company’s revenues, particularly revenues from license and transaction fees.

The Company also generates equipment revenue through the direct sale or rental of ePort ® technology as well as our stand-alone, non-networked energy management products.

### **CRITICAL ACCOUNTING POLICIES**

#### **GENERAL**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and the accompanying notes. Actual results could differ from those estimates. We believe the policies and estimates related to revenue recognition, software development costs, impairment of long-lived assets, goodwill and intangible assets, and investments represent our critical accounting policies and estimates. Future results may differ from our estimates under different assumptions or conditions.

#### **REVENUE RECOGNITION**

Revenue from the sale of equipment is recognized on the terms of freight-on-board shipping point. Activation fee revenue is recognized when the Company’s cashless payment device is initially activated for use on the Company network. Transaction processing revenue is recognized upon the usage of the Company’s cashless payment and control network. License fees for access to the Company’s devices and network services are recognized on a monthly basis. In all cases, revenue is only recognized when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the price is fixed and determinable, and collection of the resulting receivable is reasonably assured. The Company estimates an allowance for product returns at the date of sale.

#### **LONG LIVED ASSETS**

In accordance with the Financial Accounting Standards Board Accounting Standards Codification® (“ASC”) Topic 360 “Impairment or Disposal of Long-lived Assets”, the Company reviews its definite lived long-lived assets whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. If the carrying amount of an asset or group of assets exceeds its net realizable value, the asset will be written down to its fair value. In the period when the plan of sale criteria of ASC 360 are met, definite lived long-lived assets are reported as held for sale, depreciation and amortization cease, and the assets are reported at the lower of carrying value or fair value less costs to sell.

#### **GOODWILL AND INTANGIBLE ASSETS**

Goodwill represents the excess of cost over fair value of the net assets purchased in acquisitions. The Company accounts for goodwill in accordance with ASC 350, “Intangibles – Goodwill and Other”. Under ASC 350, goodwill is not amortized to earnings, but instead is subject to periodic testing for impairment. In September 2011, the FASB issued ASU No. 2011-08, which amends current guidance to allow the Company to first assess qualitative factors to determine if it is necessary to perform the two-step quantitative impairment test. If after this assessment the Company determines that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then the two-step impairment test are unnecessary. If after this assessment the Company determines that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then the Company will perform the first step of the two-step impairment test. The first step screens for potential impairment, while the second step measures the amount of impairment. The Company uses a quantitative method, including a discounted cash flow analysis to complete the first step in this process. We also give consideration to our market capitalization. Testing for impairment is to be done at least annually and at other times if events or circumstances arise that indicate that impairment may have occurred. The Company has selected April 1 as its annual test date. The Company has concluded there has been no impairment of goodwill as a result of its testing on April 1, 2014, April 1, 2013, and April 1, 2012.

The Company trademarks with an indefinite economic life are not being amortized. The trademarks, not subject to amortization, are related to the miser asset group and consist of the following trademarks: 1) VendingMiser, 2) CoolerMiser, 3) PlugMiser and 4) SnackMiser. The

Company tests indefinite-lived intangible assets for impairment using a two-step process. The first step screens for potential impairment, while the second step measures the amount of impairment. The Company uses a relief from royalty analysis to complete the first step in this process. Testing for impairment is to be done at least annually and at other times if events or circumstances arise that indicate that impairment may have occurred. The Company has selected April 1 as its annual test date for its indefinite-lived intangible assets. There was no impairment expense recorded during the fiscal year ended June 30, 2014, 2013 and 2012.

Patents and trademarks, with an estimated economic life, are carried at cost less accumulated amortization, which is calculated on a straight-line basis over their estimated economic life. The Company reviews intangibles, subject to amortization, for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is considered to be impaired when the sum of the undiscounted future net cash flows resulting from the use of the asset and its eventual disposition is less than its carrying amount. The amount of the impairment loss, if any, is measured as the difference between the net book value of the asset and its estimated fair value. For the years ended June 30, 2014, 2013, and 2012, the Company has concluded there has been no impairment of its other patents or trademarks that are subject to amortization.

## RESULTS OF OPERATIONS

### FISCAL YEAR ENDED JUNE 30, 2014 COMPARED TO FISCAL YEAR ENDED JUNE 30, 2013

Results for the fiscal year ended June 30, 2014 continued to demonstrate growth and improvements in the Company's operations as compared to the fiscal year ended June 30, 2013. Highlights of year over year improvements include:

- \$27.3 million of deferred tax assets recognized;
- Total revenue up 18% to \$42.3 million;
- Recurring license and transaction fee revenue up 19% to \$35.6 million; and
- Total connections to its ePort Connect service base as of June 30, 2014 up 24% as compared to June 30, 2013.

Revenues for the fiscal year ended June 30, 2014 were \$42,344,964, consisting of \$35,638,121 of license and transactions fees and \$6,706,843 of equipment sales, compared to \$35,940,244 for the fiscal year ended June 30, 2013, consisting of \$30,044,429 of license and transaction fees and \$5,895,815 of equipment sales. The increase in total revenue of \$6,404,720, or 18%, was primarily due to an increase in license and transaction fees of \$5,593,692, or 19%, from the prior year, and an increase in equipment sales of \$811,028 or 14%, from the prior year.

Revenue from license and transaction fees, which represented 84% of total revenue for fiscal 2014, is primarily attributable to monthly ePort Connect® service fees and transaction processing fees. Highlights for fiscal 2014 include:

- Adding 52,000 net connections to our service, consisting of 76,000 new connections to our ePort Connect service in fiscal 2014, offset by 24,000 deactivations, compared to 50,000 net connections added in fiscal 2013;
- As of June 30, 2014, the Company had approximately 266,000 connections to the ePort Connect service compared to approximately 214,000 connections to the ePort Connect service as of June 30, 2013, an increase of 52,000 net connections or 24%;
- Increases in the number of small-ticket, credit/debit transactions and dollars handled for fiscal 2014 of 31% and 34%, respectively, compared to the same period a year ago; and
- ePort Connect customer base grew 24% from June 30, 2013.

The increase in license and transaction fees was due to the growth in ePort Connect service fees and transaction dollars that stems from the increased number of connections to our ePort Connect service. As of June 30, 2014, the Company had approximately 266,000 connections to the ePort Connect service compared to approximately 214,000 connections to the ePort Connect service as of June 30, 2013. During the year ended June 30, 2014, the Company added approximately 52,000 net connections to our network compared to approximately 50,000 net connections added during the year ended June 30, 2013.

Pursuant to its agreements with customers, in addition to ePort Connect service fees, the Company earns transaction processing fees equal to a percentage of the dollar volume processed by the Company. During the year ended June 30, 2014, the Company processed approximately 169 million transactions totaling approximately \$294 million compared to approximately 129 million transactions totaling approximately \$219 million during the year ended June 30, 2013, an increase of approximately 31% in the number of transactions and approximately 34% in the value of transactions processed.

New customers added to our ePort® Connect service during the fiscal year ended June 30, 2014 totaled 2,250, bringing the total number of customers to approximately 7,300 as of June 30, 2014. The Company added approximately 1,750 new customers in the year ended June 30, 2013. By comparison, the Company had approximately 5,050 customers as of June 30, 2013, representing a 45% increase during the past twelve months. The Company views the total installed base of machines managed by its customers that have yet to transition to cashless payment, as a key strategic opportunity for future growth in connections. We count a customer as a new customer upon the signing of their ePort Connect service agreement. When a reseller sells our ePort, we count a customer as a new customer upon the signing of the applicable services agreement with the customer.

The \$811,028 increase in equipment sales was a result of an increase of approximately \$1,058,000 related to ePort® products, offset by decreases of approximately \$174,000 in Energy Miser products and approximately \$73,000 in other products. The \$1,058,000 increase in ePort products is directly attributable to selling more units and an increase in activation fees during the current fiscal year. The \$174,000 decrease in Energy Miser products is directly attributable to selling fewer units during the current fiscal year.

Cost of sales consisted of cost of services for license and transaction fee related costs of \$23,018,001 and \$18,219,945 and equipment costs of \$4,254,127 and \$3,623,686, for the years ended June 30, 2014 and 2013, respectively. The increase in total cost of sales of \$5,428,497, or 25%, was due to an increase in cost of services of \$4,798,056 that stemmed from the greater number of connections to the Company's ePort Connect service and increases in transaction dollars processed by those connections. Also, there was an increase in cost of equipment sales of \$630,441 due to selling more units during the period.

Gross profit ("GP") for the year ended June 30, 2014 was \$15,072,836 compared to GP of \$14,096,613 for the previous fiscal year, an increase of \$976,223, or 7%, of which \$12,620,120 is attributable to license and transaction fees GP and \$2,452,716 of equipment sales GP. Overall gross profit margins decreased from 39% to 36% due to a decrease in license and transaction fees margins to 35%, from 39% in the prior fiscal year and by a decrease in equipment sales margins to 37%, from 39% in the prior fiscal year. Lower license and transaction fee margins are largely attributable to approximately 24,000 deactivations that occurred during the fiscal year primarily attributable to one customer as well as

the impact of certain new JumpStart connections associated with grace periods under sales incentives. For the new connections associated with the grace periods, the Company incurred costs without receiving the associated monthly service fees.

Selling, general and administrative (“SG&A”) expenses of \$14,036,016 for the fiscal year ended June 30, 2014, increased by \$1,967,450 or 16%, from the prior fiscal year. The overall increase is comprised of approximately a \$1,207,000 increase in employee and director compensation and benefit expenses; \$329,000 in professional services, \$224,000 increase in sales and marketing expenses; and, smaller, numerous, net increases in several other expenses totaling \$207,000. The increase in employee and director compensation and benefits expenses predominantly related to expanding our base of employees, sales commissions and bonuses for record connections added in fiscal 2014 as well as bonus accruals related to performance-based compensation arrangements.

Other income and expense for the year ended June 30, 2014, primarily consisted of a reduction of \$26.7 million of the valuation allowance we had on our deferred tax assets as the Company believes that it is more likely than not it will be able to utilize net operating loss carryforwards to offset future taxable earnings. Also included is \$65,429 of non-cash gain for the change in the fair value of the Company’s warrant liabilities. The primary factor affecting the change in fair value is the decrease in the Black-Scholes value of the warrants from June 30, 2013 to June 30, 2014, which factored in the increase in the Company’s stock price as well as a decrease in its volatility during that period.

The fiscal year ended June 30, 2014 resulted in net income of \$27,530,652 compared to net income of \$854,123 for the fiscal year ended June 30, 2013, an improvement of \$26,676,529 between fiscal years. Included in net income for the fiscal year ended June 30, 2014 is a benefit from reduction income tax valuation allowances of \$26,713,897. After preferred dividends of \$664,452 for each fiscal year, net income applicable to common shareholders was \$26,866,200 and \$189,671 for the fiscal years ended 2014 and 2013, respectively. For the fiscal year ended June 30, 2014, net earnings per common share (basic and diluted) were \$0.78, compared to net earnings per common share (basic and diluted) of \$0.01.

Non-GAAP net income was \$751,326 for the year ended June 30, 2014, compared to non-GAAP net income of \$914,195 for the year ended June 30, 2013. Management believes that non-GAAP net income, non-GAAP net income is an important measure of USAT's business. Management uses the aforementioned non-GAAP measures to monitor and evaluate ongoing operating results and trends and to gain an understanding of our comparative operating performance. We believe that non-GAAP financial measures serve as useful metrics for our management and investors because they enable a better understanding of the long-term performance of our core business and facilitate comparisons of our operating results over multiple periods, and when taken together with the corresponding GAAP (United States' Generally Accepted Accounting Principles) financial measures and our reconciliations, enhance investors' overall understanding of our current and future financial performance.

A reconciliation of net income to Non-GAAP net income for the years ended June 30, 2014 and 2013 is as follows:

For the fiscal year ended June 30, 2014, the Company had Adjusted EBITDA of \$6,451,311. Reconciliation of net income to Adjusted EBITDA for the years ended June 30, 2014 and 2013 is as follows:

As used herein, Adjusted EBITDA represents net income before interest income, interest expense, income taxes, depreciation, amortization, change in fair value of warrant liabilities and stock-based compensation expense. We have excluded the non-operating item, change in fair value of warrant liabilities, because it represents a non-cash charge that is not related to the Company's operations. We have excluded the non-cash expense, stock-based compensation, as it does not reflect the cash-based operations of the Company. Adjusted EBITDA is a non-GAAP financial measure which is not required by or defined under GAAP (Generally Accepted Accounting Principles). The presentation of this financial measure is not intended to be considered in isolation or as a substitute for the financial measures prepared and presented in accordance with GAAP, including the net income or net loss of the Company or net cash used in operating activities. Management recognizes that non-GAAP financial measures have limitations in that they do not reflect all of the items associated with the Company's net income or net loss as determined in accordance with GAAP, and are not a substitute for or a measure of the Company's profitability or net earnings. Adjusted EBITDA is presented because we believe it is useful to investors as a measure of comparative operating performance and liquidity, and because it is less susceptible to variances in actual performance resulting from depreciation and amortization and non-cash charges for changes in fair value of warrant liabilities and stock-based compensation expense.

Revenue from license and transaction fees, which represented 84% of total revenue for fiscal 2013, is fueled primarily by monthly ePort Connect® service fees and transaction processing fees. Highlights for fiscal 2013 include:

- 50,000 additional net connections to the Company's ePort Connect service in fiscal 2013 compared to 45,000 for fiscal 2012;

- 1,750 ePort Connect customers added in the current fiscal year, up 53% from the prior fiscal year, for 5,050 customers at June 30, 2013.

The increase in license and transaction fees was due to the growth in ePort Connect service fees and transaction dollars that stems from the increased number of connections to our ePort Connect service. As of June 30, 2013, the Company had approximately 214,000 connections to the ePort Connect service compared to approximately 164,000 connections to the ePort Connect service as of June 30, 2012. Connections added as part of our JumpStart program represented approximately 70% and 65% of net connections added during the 2013 and 2012 fiscal years, respectively.

Pursuant to its agreements with customers, in addition to ePort Connect service fees, the Company earns transaction processing fees equal to a percentage of the dollar volume processed by the Company. During the year ended June 30, 2013, the Company processed approximately 129 million transactions totaling approximately \$219 million compared to approximately 103 million transactions totaling approximately \$171 million during the year ended June 30, 2012, an increase of approximately 26% in the number of transactions and approximately 28% in the value of transactions processed.

New customers added to our ePort® Connect service during the fiscal year ended June 30, 2013 totaled 1,750, bringing the total number of such customers to approximately 5,050 as of June 30, 2013. The Company added approximately 1,350 new customers in the year ended June 30, 2012. By comparison, the Company had approximately 3,300 customers as of June 30, 2012, representing a 53% increase during the past twelve months. We count a customer as a new customer upon the signing of their ePort Connect service agreement. When a reseller sells our ePort, we count a customer as a new customer upon the signing of the applicable services agreement with the customer.

The \$249,326 increase in equipment sales was a result of an increase of approximately \$787,000 related to ePort® products, offset by a decrease of approximately \$529,000 in Energy Miser products and \$9,000 in other products. The \$787,000 increase in ePort products is directly attributable to selling more units and an increase in activation fees during the current fiscal year. The \$529,000 decrease in Energy Miser products is directly attributable to selling fewer units during the current fiscal year as a result of fewer Energy Miser product promotions.

Cost of sales consisted of cost of services for license and transaction fee related costs of \$18,219,945 and \$15,312,966 and equipment costs of \$3,623,686 and \$3,743,226, for the years ended June 30, 2013 and 2012, respectively. The increase in total cost of sales of \$2,787,439, or 15%, was due to an increase in cost of services of \$2,906,979 that stemmed from the greater number of connections to the Company's ePort Connect service and increases in transaction dollars processed by those connections, offset by improvements in pricing from major suppliers. This increase was partially offset by a decrease in cost of equipment sales of \$119,540.

Gross profit ("GP") for the year ended June 30, 2013 was \$14,096,613 compared to GP of \$9,961,051 for the previous fiscal year, an increase of \$4,135,562, or 42%, of which \$3,766,696 is attributable to license and transaction fees GP and \$368,866 of equipment sales GP. Overall gross profit margins increased from 34% to 39% due to an increase in license and transaction fees margins to 39%, from 34% in the prior fiscal year and by an increase in equipment sales margins to 39%, from 34% in the prior fiscal year. Improved license and transaction fee margins are due to increased efficiencies stemming from new/or renegotiated supplier agreements as well as a larger ePort Connect service base, including the VISA agreement described under the section titled "Important Relationships" that was entered into on October 12, 2011.

Selling, general and administrative (“SG&A”) expenses of \$12,068,566 for the fiscal year ended June 30, 2013, decreased by \$3,392,102 or 22%, from the prior fiscal year. Fiscal 2013 SG&A expenses include \$328,000 of expenses related to the fiscal 2012 proxy contest, related litigation and settlement. Included in the \$15,460,668 of SG&A expenses during the year ended June 30, 2012 were approximately \$975,000 of expenses for the separation of the former CEO from the Company and approximately \$2.2 million related to the proxy contest, related litigation and settlement.

Exclusive of the two matters described above, SG&A decreased approximately \$516,000, or 4%, in fiscal 2013 as compared to fiscal 2012. The overall decrease is comprised of approximately \$363,000 for the reversal of sales tax audit assessment accruals estimated in fiscal 2012 that were finalized at a lower amount in fiscal 2013; a \$222,000 reduction in employee and director compensation and benefit expenses; and, smaller decreases in several other areas totaling \$158,000. These reductions are offset, by a \$227,000 increase in sales and marketing expenses for the 2013 fiscal year.

Other income and expense for the year ended June 30, 2013, primarily consisted of a \$267,928 of non-cash gain for the change in the fair value (“FV”) of the Company’s warrant liabilities. The primary factor affecting the change in fair value is the decrease in the Black-Scholes value (“BSV”) of the warrants from June 30 2012 to June 30 2013. For the year ended June 30, 2012, the Company had a non-cash gain of \$1,813,687 for the same warrant liabilities.

The fiscal year ended June 30, 2013 resulted in net income of \$854,123 compared to a net loss of \$5,211,238 for the fiscal year ended June 30, 2012, an improvement of \$6,065,361 between fiscal years. After preferred dividends of \$664,452 for each fiscal year, net income (loss) applicable to common shareholders was \$189,671 and \$(5,875,690) for the fiscal years ended 2013 and 2012, respectively. For the fiscal year ended June 30, 2013, net earnings per common share, basic and diluted were \$0.01 and \$0.01, respectively, compared to the prior fiscal year net loss per common share (basic and diluted) of \$(0.18).

Non-GAAP net income was \$914,195 for fiscal 2013, compared to a non-GAAP net loss of \$3,820,925 for fiscal 2012. Management believes that non-GAAP net income (loss), non-GAAP net income (loss) applicable to common shares and non-GAAP diluted earnings (loss) per common share are important measures of USAT's business. Management uses the aforementioned non-GAAP measures to monitor and evaluate ongoing operating results and trends and to gain an understanding of our comparative operating performance. We believe that these non-GAAP financial measures serve as useful metrics for our management and investors because they enable a better understanding of the long-term performance of our core business and facilitate comparisons of our operating results over multiple periods, and when taken together with the corresponding GAAP (United States' Generally Accepted Accounting Principles) financial measures and our reconciliations, enhance investors' overall understanding of our current and future financial performance.

A reconciliation of net income (loss) to Non-GAAP net income (loss) for the years ended June 30, 2013 and 2012 is as follows:

As used herein, non-GAAP net income (loss) represents GAAP net income (loss) excluding costs relating to the proxy contest, the costs associated with the separation of the former CEO and any adjustment for fair value of warrant liabilities. As used herein, non-GAAP net earnings (loss) per common share is calculated by dividing non-GAAP net income (loss) applicable to common shares by the weighted average number of shares outstanding, and where diluted shares are required, adds back the preferred dividend since the conversion of preferred shares are accounted for in the diluted share count.

For the fiscal year ended June 30, 2013, the Company had Adjusted EBITDA of \$5,796,406. Reconciliation of net income (loss) to Adjusted EBITDA for the years ended June 30, 2013 and 2012 is as follows:

As used herein, Adjusted EBITDA represents net income (loss) before interest income, interest expense, income taxes, depreciation, amortization, change in fair value of warrant liabilities, stock-based compensation expense, and impairment expense on intangible assets. We have excluded the non-operating item, change in fair value of warrant liabilities, because it represents a non-cash charge that is not related to the Company's operations. We have excluded the non-cash expenses, stock-based compensation, and impairment expense, as they do not reflect the cash-based operations of the Company. Adjusted EBITDA is a non-GAAP financial measure which is not required by or defined under GAAP (Generally Accepted Accounting Principles). The presentation of this financial measure is not intended to be considered in isolation or as a substitute for the financial measures prepared and presented in accordance with GAAP, including the net income or net loss of the Company or net cash used in operating activities. Management recognizes that non-GAAP financial measures have limitations in that they do not reflect all of the items associated with the Company's net income or net loss as determined in accordance with GAAP, and are not a substitute for or a measure of the Company's profitability or net earnings. Adjusted EBITDA is presented because we believe it is useful to investors as a measure of comparative operating performance and liquidity, and because it is less susceptible to variances in actual performance resulting from depreciation and amortization and non-cash charges for changes in fair value of warrant liabilities and stock-based compensation expense.

## FISCAL QUARTER ENDED JUNE 30, 2014 COMPARED TO FISCAL QUARTER ENDED JUNE 30, 2013

Results for the fiscal quarter ended June 30, 2014 continued to demonstrate growth and improvements in the Company's operations as compared to the fiscal quarter ended June 30, 2013. Highlights of year over year improvements include:

- Recurring license and transaction fee revenue up 16% to \$9 million; and
- Total connections to its ePort Connect service as of June 30, 2014 up 24% as compared to June 30, 2013.

Revenues for the quarter ended June 30, 2014 were \$11,207,460, consisting of \$9,460,303 of license and transactions fees and \$1,747,157 of equipment sales, compared to \$9,684,842 for the quarter ended June 30, 2013, consisting of \$8,172,243 of license and transaction fees and \$1,512,599 of equipment sales. The increase in total revenue of \$1,522,618, or 16%, was primarily due to an increase in license and transaction fees of \$1,288,060, or 16%, from the prior year quarter, and an increase in equipment sales of \$234,558 or 16%, from the same period in the prior year.

Revenue from license and transaction fees, which represented 84% of total revenue for the quarter ended June 30, 2014, is primarily attributable to monthly ePort Connect® service fees and transaction processing fees. Highlights for the quarter ended June 30, 2014 include:

- Adding 22,000 net connections to our service compared to 18,000 net connections added in the same quarter of Fiscal 2013;
- Increases in the number of small-ticket, credit/debit transactions and dollars handled in the fourth quarter of 29% and 32%, respectively, compared to the same period a year ago; and
- ePort Connect customer base grew 45% from June 30, 2013.

The increase in license and transaction fees was due to the growth in ePort Connect service fees and transaction dollars handled from the increased number of connections to our ePort Connect service due to increased sales and/or rentals to our customers. As of June 30, 2014, the Company had approximately 266,000 connections to the ePort Connect service compared to approximately 214,000 connections to the ePort Connect service as of June 30, 2013. During the quarter ended June 30, 2014, the Company added approximately 22,000 net connections to our network as compared to approximately 18,000 net connections during the quarter ended June 30, 2013.

Pursuant to its agreements with customers, in addition to ePort Connect service fees, the Company earns transaction processing fees equal to a percentage of the dollar volume processed by the Company. During the quarter ended June 30, 2014, the Company processed approximately 47 million transactions totaling approximately \$83 million compared to approximately 36 million transactions totaling approximately \$63 million during the quarter ended June 30, 2013, an increase of approximately 29% and 32% in the number of transactions and the value of transactions processed, respectively.

New customers added to our ePort® Connect service during the quarter ended June 30, 2014 totaled 650, bringing the total number of customers to approximately 7,300 as of June 30, 2014. The Company added approximately 525 new customers in the quarter ended June 30, 2013. By comparison, the Company had approximately 5,050 customers as of June 30, 2013, representing a 45% increase during the past twelve months. The Company views the total installed base of machines managed by its customers that have yet to transition to cashless payment, as a key strategic opportunity for future growth in connections. We count a customer as a new customer upon the signing of their ePort Connect service agreement. When a reseller sells our ePort, we count a customer as a new customer upon the signing of the applicable services agreement with the customer.

The \$234,558 increase in equipment sales was a result of an increase of approximately \$326,000 in our ePort® products, offset by a decrease of approximately \$59,000 in our Energy Miser products and by a decrease of approximately \$32,000, net, in other products. The \$326,000 increase in ePort® products is directly attributable to selling more units during the quarter ended June 30, 2014 than during the quarter ended June 30, 2013.

Cost of sales consisted of cost of services for network and transaction fee related costs of \$6,327,432 and \$5,139,129 and equipment costs of \$1,217,884 and \$874,901, for the quarters ended June 30, 2014 and 2013, respectively. The increase in total cost of sales of \$1,531,286, or 25% was due to an increase in cost of services of \$1,188,303 and an increase in equipment costs of \$342,983. The increase in cost of services was predominantly related to increases in the number of connections to our ePort Connect service network and increases in transaction processing volume. The increase in equipment costs is attributable to selling more units during the quarter ended June 30, 2014 compared to the quarter end June 30, 2013.

Gross profit ("GP") for the quarter ended June 30, 2014 was \$3,662,144 compared to GP of \$3,670,812 for the previous corresponding quarter, a decrease of \$8,668, of which \$99,757 represents increased GP for license and transaction fees, offset by a decrease of \$108,425 of equipment sales GP. Overall gross profit margins decreased from 38% to 33% for the quarter ended June 30, 2014 due to a decline in license and transaction fees margins to 33% from 37% in the prior year and a decline in equipment sales margins to 30% from 42% in the prior year. License and transaction fee margins decreased due to the impact of certain new JumpStart connections associated with grace periods under sales incentives as well as deactivations primarily from one large customer during the 2014 fiscal year. For the new connections associated with the grace periods, the Company incurred costs without receiving the associated monthly service fees. The decrease in equipment sales margins was mainly due to certain sales incentives.

Selling, general and administrative (“SG&A”) expenses of \$4,067,804 for the quarter ended June 30, 2014 increased \$917,268, or 29%, from the same quarter in the prior fiscal year. Fiscal 2013 SG&A expenses included benefits of approximately \$250,000: \$150,000 for the reversal of sales tax audit assessment accruals recorded in fiscal 2012 that were finalized at a lower amount in fiscal 2013, and \$100,000 for third-party contractual reimbursement for previously expensed product development costs. Outside of these assessment accruals and expenses reversed in our fourth quarter a year ago, SG&A expenses increased approximately \$670,000 predominantly attributable to increases of approximately \$413,000 in employee and director compensation and benefits expenses; \$107,000 in professional services; and numerous, smaller net increases in other expenses totaling \$150,000. Approximately \$223,000 of the \$413,000 increase in employee and director compensation and benefits expenses predominantly related to expanding our base of employees; and, the remaining \$190,000 of the compensation increase mostly related to sales commissions and bonuses for connections added in our fourth fiscal quarter of 2014 as well as year-end bonus accruals related to performance-based compensation arrangements.

Other income and expense for the quarter ended June 30, 2014, primarily consisted of \$541,502 as our provision for deferred income taxes. Also included is \$53,125 of non-cash gain for the change in the fair value of the Company’s warrant liabilities. The primary factor affecting the change in fair value is the decrease in the Black-Scholes value of the warrants from March 31, 2014 to June 30, 2014, which factored in the increase in the Company’s stock price as well as a decrease in its volatility during that period.

The quarter ended June 30, 2014 resulted in a net loss of \$38,719 compared to net income of \$1,677,168 for the quarter ended June 30, 2013. For the quarter ended June 30, 2014, net loss per common share (basic and diluted), was \$0.00 compared to the quarter ended June 30, 2013 net earnings per common share (basic and diluted) of \$0.05.

Non-GAAP net loss was \$91,844, compared to non-GAAP net income of \$159,784 for the quarters ended June 30, 2014 and 2013, respectively. Management believes that non-GAAP net income (loss) is an important measures of USAT’s business. Management uses non-GAAP measures to monitor and evaluate ongoing operating results and trends and to gain an understanding of our comparative operating performance. We believe that these non-GAAP financial measures serve as useful metrics for our management and investors because they enable a better understanding of the long-term performance of our core business and facilitate comparisons of our operating results over multiple periods, and when taken together with the corresponding GAAP financial measures and our reconciliations, enhance investors’ overall understanding of our current and future financial performance.

Reconciliation of net income (loss) to Non-GAAP net income (loss) for the quarters ended June 30, 2014 and 2013 is as follows:

As used herein, non-GAAP net income (loss) represents GAAP net income (loss) excluding costs relating to any adjustment for fair value of warrant liabilities and changes in the Company's valuation allowances for taxes. As used herein, non-GAAP diluted earnings (loss) per common share is calculated by dividing non-GAAP net income (loss) applicable to common shares by the diluted weighted average number of shares outstanding.

For the quarter ended June 30, 2014, the Company had an Adjusted EBITDA of \$1,266,225. Reconciliation of net income (loss) to Adjusted EBITDA for the quarters ended June 30, 2014 and 2013 is as follows:

	<b>Three months ended June 30,</b>

As used herein, Adjusted EBITDA represents net income (loss) before interest income, interest expense, income taxes, depreciation, amortization, change in fair value of warrant liabilities and stock-based compensation expense. We have excluded the non-operating item, change in fair value of warrant liabilities, because it represents a non-cash gain (charge) that is not related to the Company's operations. We have excluded the non-cash expenses, stock-based compensation as it does not reflect the cash-based operations of the Company. Adjusted EBITDA is a non-GAAP financial measure which is not required by or defined under GAAP (Generally Accepted Accounting Principles). The presentation of this financial measure is not intended to be considered in isolation or as a substitute for the financial measures prepared and

presented in accordance with GAAP, including the net income or net loss of the Company or net cash used in operating activities. Management recognizes that non-GAAP financial measures have limitations in that they do not reflect all of the items associated with the Company's net income or net loss as determined in accordance with GAAP, and are not a substitute for or a measure of the Company's profitability or net earnings. Adjusted EBITDA is presented because we believe it is useful to investors as a measure of comparative operating performance and liquidity, and because it is less susceptible to variances in actual performance resulting from depreciation and amortization and non-cash charges for changes in fair value of warrant liabilities and stock-based compensation expense.

## LIQUIDITY AND CAPITAL RESOURCES

For the year ended June 30, 2014, net cash provided by operating activities was \$7,085,400 as a result of net income of \$27,530,652, non-cash net benefit of \$21,220,722 and net cash provided by the change in operating assets and liabilities of \$775,470. Of the \$21,220,722 of non-cash activities, the most significant during fiscal year 2014 was the benefit for income taxes of \$27,301,266. In addition to the benefit for income taxes, there was a small benefit related to the decrease in the fair value of warrant liabilities, offset by charges related to depreciation and amortization of assets, and the vesting and issuance of common stock for employee and director compensation. The cash used in the \$775,470 change in the Company's operating assets and liabilities was the result of decreases in inventory and finance receivables and increases in liabilities offset by increases in accounts receivable and prepaid expenses and other assets.

During the year ended June 30, 2014, the Company used \$7,917,452 in investing activities of which \$10,883,473 related to the purchase of equipment for the JumpStart Program, including approximately \$869,000 for the change in JumpStart equipment on hand in the fiscal year ended June 30, 2014 and \$2,995,095 related to the proceeds received under the sale-leaseback transactions. Approximately 60% of gross new connections added during the fiscal year ended June 30, 2014 were from our JumpStart program.

The Company obtained net cash of \$3,923,372 through financing activities, \$2,000,000 of which are from the Line of Credit, cash proceeds of \$2,361,956 from warrant exercises, and \$24,847 from excess tax benefits from share-based compensation, offset by \$374,411 related to repayment of debt and \$89,020 related to cancellation of common stock by our executive officers to satisfy income tax liability due in connection with common stock awards.

We experienced losses from inception through June 30, 2012, with net income for the year ended June 30, 2013 and net income continuing through the year ended June 30, 2014. Based upon earnings performance that the Company has achieved currently and in the recent past along with its belief that such performance will continue into future years, the Company, during the 2014 fiscal year, has determined that it is more likely than not that a substantial portion of its deferred tax assets will be realized and has reduced \$26,713,897 of its valuation allowances recorded in prior periods. Our accumulated deficit through June 30, 2014 is composed of cumulative losses amounting to approximately \$170,770,000, preferred dividends converted to common stock of approximately \$2,690,000, and charges incurred for the open-market purchases of preferred stock of approximately \$150,000.

As a result of the continued growth in connections to our ePort Connect service that has resulted in the strong growth in recurring revenue from license and transaction fees and the improvement in GP dollars, the operating activities of the business are now providing cash to fund operations of the Company.

Adjusted EBITDA for the year ended June 30, 2014 was \$6,451,311 compared to \$5,796,406 for the prior fiscal year. The Company reports Adjusted EBITDA to reflect the liquidity of operations and a measure of operational cash flow. Adjusted EBITDA excludes significant non-cash charges such as depreciation, amortization of intangibles, fair value warrant liability changes, stock-based compensation from net income and changes to the Company's valuation allowances for taxes. We believe that, provided there are no unusual or unanticipated material non-operational expenses, achieving positive Adjusted EBITDA is sustainable, and will continue to increase, as our connection base increases.

For the year ended June 30, 2014, net cash provided by operating activities was \$7,085,400. The Company believes it will continue to generate positive cash flow from operations during the 2015 fiscal year, as the Company adds connections to its existing base of connections, provided there are no material unanticipated or unusual non-operational events.

The largest use of cash by the Company was for ePorts purchased for use in the Company's JumpStart Program. The Company continues to anticipate using the JumpStart Program for approximately 60% to 65% of its anticipated gross connections as a result of the potential growth in connections from the kiosk market, where many customers only require our Quick Connect™ Web service and not ePort hardware devices. The Company has efforts under way in sales, marketing, development and partnering efforts that are focused on securing connections from sources other than JumpStart, such as QuickConnect Web service, ePort Mobile and direct sales of its ePort hardware device.

During June 2014, and as described in Note 16 to the consolidated financial statements, Varilease Finance, Inc. ("Varilease") purchased from the Company certain ePort equipment for an aggregate of \$2,995,095. During July 2014, and as described in note 17 to the consolidated financial statements, Varilease purchased from the Company additional ePort equipment for an aggregate of \$4,993,879. The Company intends to utilize the proceeds from the sale of the equipment for working capital purposes and may also explore and consider utilizing a portion of these proceeds for other purposes.

On June 17, 2014, the Company and Avidbank increased the aggregate amount of advances available under the line of credit from \$5,000,000 to \$7,000,000 and extended the maturity date to June 21, 2015.

The Company has four sources of cash available to fund and grow the business as of June 30, 2014: (1) cash and cash equivalents on hand of approximately \$9 million; (2) the anticipated cash generated from operations; (3) \$5 million from the Varilease Sale Leaseback Agreements obtained in July 2014; and (4) \$2 million available under the line of credit with Avidbank, provided we continue to satisfy the various covenants set forth in the loan agreement. Although the line of credit matures on June 21, 2015, we anticipate that we will be able to extend the maturity date of line of credit or be able to procure a new line of credit to replace the existing line of credit. In addition, the Company believes the capital markets, debt and equity, would be available to provide additional sources of cash, if required.

Therefore, the Company believes its existing cash and cash equivalents and available cash resources as of June 30, 2014, would provide sufficient funds through at least July 1, 2015 in order to meet its cash requirements, including payment of its accrued expenses and payables, any cash resources to be utilized for the JumpStart program, other anticipated capital expenditures, and the repayment of long-term debt.

**USA Technologies, Inc.**  
**Notes to Consolidated Financial Statements**

**1. BUSINESS**

USA Technologies, Inc. (the “Company”, “We”, “USAT”, or “Our”) was incorporated in the Commonwealth of Pennsylvania in January 1992. We are a provider of technology-enabled solutions and value-added services that facilitate electronic payment transactions primarily within the unattended Point of Sale (“POS”) market. We are a leading provider in the small ticket, beverage and food vending industry and are expanding our solutions and services to other unattended market segments, such as amusement, commercial laundry, kiosk, taxi and others. Since our founding, we have designed and marketed systems and solutions that facilitate electronic payment options, as well as telemetry and machine-to-machine (“M2M”) services, which include the ability to remotely monitor, control, and report on the results of distributed assets containing our electronic payment solutions. Historically, these distributed assets have relied on cash for payment in the form of coins or bills, whereas, our systems allow them to accept cashless payments such as through the use of credit or debit cards or other emerging contactless forms, such as mobile payment.

The Company had net income of \$27,530,652 for the year ended June 30, 2014. Included in net income is a benefit for income taxes of \$27,255,398 for the year ended June 30, 2014. The Company had net income of \$854,123 for the year ended June 30, 2013 and had incurred losses from its inception through June 30, 2012. Net income includes adjustments for changes to the fair value of our warrant liabilities, which are subject to secondary market conditions, and are not reasonably predictable. The Company’s ability to meet its future obligations is dependent upon the success of its products and services in the marketplace and the available capital resources. Until the Company’s products and services can generate sufficient annual revenues, the Company will be required to use its cash and cash equivalents on hand, and its line of credit (see Note 7), and may raise capital to meet its cash flow requirements including the issuance of Common Stock or debt financing.

**2. ACCOUNTING POLICIES**

*CONSOLIDATION*

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Stitch Networks Corporation (“Stitch”) and USAT Capital Corp LLC (“USAT Capital”). All significant intercompany accounts and transactions have been eliminated in consolidation.

*USE OF ESTIMATES*

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

*CASH EQUIVALENTS*

Cash equivalents represent all highly liquid investments with original maturities of three months or less. Cash equivalents are comprised of money market funds. The Company maintains its cash in bank deposit accounts, which may exceed federally insured limits at times.

At June 30, 2014 and 2013, none of the cash and cash equivalents of the Company was payable to our customers. Included in accounts receivable are amounts for transactions processed with our card processors for which cash has not been received by the Company and included in accounts payable are amounts for transactions processed with our card processors and due to our customers, which are recorded net of fees due to the Company. Generally, contractual terms require us to remit amounts owed to our customers on a weekly basis.

*ACCOUNTS RECEIVABLE*

Accounts receivable are reported at their outstanding unpaid principal balances reduced by an allowance for doubtful accounts. The Company estimates doubtful accounts for accounts receivable and finance receivables based on historical bad debts, factors related to specific customers’ ability to pay and current economic trends. The Company writes off accounts receivable against the allowance when management determines the balance is uncollectible and the Company ceases collection efforts. Management believes that the allowance accrued is adequate to provide for its estimated credit losses.

*FINANCE RECEIVABLES*

The Company offers extended payment terms to certain customers for equipment sales under its Quick Start Program. In accordance with the Financial Accounting Standards Board Accounting Standards Codification® (“ASC”) Topic 840, “Leases”, agreements under the Quick Start Program qualify for sales-type lease accounting. Accordingly, the future minimum lease payments are classified as finance receivables in the Company’s consolidated balance sheets. Notes receivable or Quick Start leases are generally for a sixty month term. Finance receivables are carried at their contractual amount and charged off against the allowance for credit losses when management determines that recovery is unlikely and the Company ceases collection efforts. The Company recognizes a portion of the note or lease payments as interest income in the accompanying consolidated financial statements based on the effective interest rate method.

## *INVENTORY*

Inventory consists of finished goods and packaging materials. The Company's inventory is stated at the lower of cost (average cost basis) or market.

## *PROPERTY AND EQUIPMENT*

Property and equipment are recorded at cost. Property and equipment are depreciated on the straight-line basis over the estimated useful lives of the related assets. Leasehold improvements are amortized on the straight-line basis over the lesser of the estimated useful life of the asset or the respective lease term.

**USA Technologies, Inc.**  
**Notes to Consolidated Financial Statements**

**2. ACCOUNTING POLICIES (CONTINUED)**

*GOODWILL AND INTANGIBLE ASSETS*

Goodwill represents the excess of cost over fair value of the net assets purchased in acquisitions. The Company accounts for goodwill in accordance with ASC 350, "Intangibles – Goodwill and Other". Under ASC 350, goodwill is not amortized to earnings, but instead is subject to periodic testing for impairment. In September 2011, the FASB issued ASU No. 2011-08 Intangibles – Goodwill and Other: Testing Goodwill for Impairment, which amended guidance to allow the Company to first assess qualitative factors to determine if it is necessary to perform the two-step quantitative impairment test. If after this assessment the Company determines that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then the two-step impairment test is unnecessary. If after this assessment the Company determines that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then the Company will perform the first step of the two-step impairment test. The first step screens for potential impairment, while the second step measures the amount of impairment. The Company uses a quantitative method, including a discounted cash flow analysis to complete the first step in this process. We also give consideration to our market capitalization. Testing for impairment is to be done at least annually and at other times if events or circumstances arise that indicate that impairment may have occurred. The Company has selected April 1 as its annual test date. The Company has concluded there has been no impairment of goodwill as a result of its testing on April 1, 2014, April 1, 2013, and April 1, 2012.

The Company trademarks with an indefinite economic life are not being amortized. The trademarks, not subject to amortization, are related to the miser asset group and consist of the following trademarks: 1) VendingMiser, 2) CoolerMiser, 3) PlugMiser and 4) SnackMiser. The Company tests indefinite-lived intangible assets for impairment using a two-step process. The first step screens for potential impairment, while the second step measures the amount of impairment. The Company uses a relief from royalty analysis to complete the first step in this process. Testing for impairment is to be done at least annually and at other times if events or circumstances arise that indicate that impairment may have occurred. The Company has selected April 1 as its annual test date for its indefinite-lived intangible assets. The Company has concluded there has been no impairment during the fiscal years ended June 30, 2014, 2013 and 2012.

Patents and trademarks, with an estimated economic life, are carried at cost less accumulated amortization, which is calculated on a straight-line basis over their estimated economic life. The Company reviews intangibles, subject to amortization, for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is considered to be impaired when the sum of the undiscounted future net cash flows resulting from the use of the asset and its eventual disposition is less than its carrying amount. The amount of the impairment loss, if any, is measured as the difference between the net book value of the asset and its estimated fair value. As of June 30, 2014 and June 30, 2013, the Company has concluded there has been no impairment of its patents or trademarks that is subject to amortization.

*LONG LIVED ASSETS*

In accordance with ASC 360, "Impairment or Disposal of Long-Lived Assets", the Company reviews its definite lived long-lived assets whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. If the carrying amount of an asset or group of assets exceeds its net realizable value, the asset will be written down to its fair value. In the period when the plan of sale criteria of ASC 360 are met, definite lived long-lived assets are reported as held for sale, depreciation and amortization cease, and the assets are reported at the lower of carrying value or fair value less costs to sell. The Company has concluded that the carrying amount of definite lived long-lived assets is recoverable as of June 30, 2014 and June 30, 2013.

*FAIR VALUE OF FINANCIAL INSTRUMENTS*

The Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, "Fair Value Measurements and Disclosures ("Topic 820"): Improving Disclosures about Fair Value Measurements." ASU 2010-06 amends certain disclosure requirements of Subtopic 820-10. This ASU provides additional disclosures for transfers in and out of Levels 1 and 2 and for activity in Level 3. This ASU also clarifies certain other existing disclosure requirements including level of desegregation and disclosures around inputs and valuation techniques.

The Company's financial assets and liabilities are measured using inputs from the three levels of the fair value hierarchy. The three levels are as follows:

Level 1- Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2- Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).

Level 3- Inputs are unobservable and reflect the Company's assumptions that market participants would use in pricing the asset or liability. The

Company develops these inputs based on the best information available.

The Company's financial instruments, principally cash equivalents, accounts receivable, finance receivables, prepaid expenses and other assets, accounts payable and accrued expenses, are carried at cost which approximates fair value due to the short-term maturity of these instruments. The fair value of the Company's obligations under its long-term debt and credit agreements approximates their carrying value as such instruments are at market rates currently available to the Company.

#### *CONCENTRATION OF CREDIT RISK*

Financial instruments that subject the Company to a concentration of credit risk consist principally of cash and cash equivalents and accounts and finance receivables. The Company maintains cash and cash equivalents with various financial institutions. Approximately 22% and 41% of the Company's trade accounts and finance receivables at June 30, 2014 and 2013, respectively, were concentrated with one customer. Approximately 26%, 37%, and 43% of the Company's license and transaction processing revenues for the years ended June 30, 2014, 2013, and 2012, respectively, were concentrated with one and two customer(s), respectively: 26%, 26%, and 25%, respectively for each year, with one; and 11%, and 18%, for the years ended June 30, 2013, and 2012, respectively, with another. There was no concentration of equipment sales revenue for the years ended June 30, 2014, 2013, and 2012. The Company's customers are principally located in the United States.

*INCOME TAXES*

The Company follows the provisions of FASB ASC 740, Accounting for Uncertainty in Income Taxes, which provides detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements. Tax positions must meet a "more-likely-than-not" recognition threshold at the effective date to be recognized upon the adoption of ASC 740 and in subsequent periods.

Income taxes are computed using the asset and liability method of accounting. Under the asset and liability method, a deferred tax asset or liability is recognized for estimated future tax effects attributable to temporary differences and carryforwards. The fair value was determined using proprietary valuation models using the quality of the underlying securities of the warrants, restrictions on the warrants and security underlying the warrants, time restrictions and precedent sale transactions completed in the secondary market or in other private transactions. There were no transfers of assets or liabilities between level 1, level 2, or level 3 during the years ended June 30, 2014 and 2013.

**10. INCOME TAXES**

The Company has significant deferred tax assets, a substantial amount of which result from operating loss carryforwards. The Company routinely evaluates its ability to realize the benefits of these assets to determine whether it is more likely than not that such benefit will be realized. In periods prior to the year ended June 30, 2014, the Company's evaluation of its ability to realize the benefit from its deferred tax assets resulted in a full valuation allowance against such assets. Based upon earnings performance that the Company has achieved currently and in the recent past along with the belief that such performance will continue into future years, the Company has determined that it is more likely than not that a substantial portion of its deferred tax assets will be realized and has reduced its valuation allowances recorded in prior years by \$27,255,398, which includes \$40,245 of deferred tax liabilities recorded as of June 30, 2013 (as described hereinafter) reversing in the current year.

In addition to recent periods' performance, the evaluation of the amount of deferred tax assets expected to be realized involves forecasting the amount of taxable income that will be generated in future years. The Company has forecasted future results using estimates that management believes to be conservative. The number of connections added in a service year are a key metric, which in the Company's recurring revenue service model become an important ingredient in driving future growth and earnings. The forecasts the Company used assumed that significantly fewer net connections would be added to its service year than what it has historically achieved during each of its previous five fiscal years. With respect to its forecasts, the Company also took into account several industry analysts who have projected that demand for technology and services similar to the Company's will continue to grow in the markets the Company serves. Using these forecasts, the Company estimated that it was more likely than not that approximately \$64 million of its operating loss carryforwards would be utilized to offset corresponding future taxable income.

If in future periods the Company demonstrates its ability to grow future taxable income in excess of the forecasts described above, it will re-evaluate the need to keep some, or all, of the remaining valuation allowances of \$22,833,685 on its deferred tax assets.

The reduction of the \$27,255,398 in valuation allowances is reflected as an income tax benefit in the provision for income taxes for the year ended June 30, 2014 and is net of amounts that otherwise would have been recorded for current federal income taxes of \$21,021, deferred federal income taxes of \$52,533, deferred state income taxes of \$21,343 and \$24,847 credited to common stock related to excess tax benefits from stock-based compensation.

The provision for income taxes for the years ended June 30, 2013 and 2012 were \$27,646 and \$12,599, respectively, comprised of deferred federal income taxes of \$20,842 and \$9,498, respectively, and deferred state income taxes of \$6,804 and \$3,101, respectively. These deferred income taxes were recorded for the future potential income tax effects for basis differences between financial reporting and income tax purposes for indefinite life intangible assets and goodwill that are being amortized for income tax purposes but not for financial reporting. Because there was a full valuation allowance reflected against deferred tax assets as of June 30, 2013 and June 30, 2012, the potential future income tax effects associated with such indefinite life assets were not subject to offset deferred tax assets with finite lives.

For the year ended June 30, 2014, an income tax provision of \$93,586 at the federal statutory rate of 34% is indicated based upon the income before provision for income taxes. In recording the benefit from income taxes, the reduction in valuation allowances of \$27,255,398 had the effect of negating the effects for state income taxes net of federal benefit of \$17,989 and permanent differences of \$8,168.

For the year ended June 30, 2013 an income tax provision of \$299,801 at the federal statutory rate of 34% is indicated based upon the income before provision for income taxes. In recording the provision for income taxes the indicated provision was reduced for the effects of decreases in the valuation allowances of \$205,266 for federal income taxes associated with deferred tax assets, decreased for the effects of permanent differences of \$71,379 and increased by state income taxes net of federal benefit of \$4,490.

For the year ended June 30, 2012 an income tax benefit of \$1,767,537 at the federal statutory rate of 34% is indicated based upon the income before provision for income taxes. In recording the provision for income taxes the indicated benefit was reduced for the effects of increases in the valuation allowances of \$2,372,354 for federal income taxes associated with deferred tax assets, increased for the effects of permanent differences of \$594,264 and reduced by state income taxes net of federal benefit of \$2,046.

At June 30, 2014 the Company had operating loss carryforwards of \$165,566,973 to offset future taxable income expiring through approximately 2034. The timing and extent to which the Company can utilize operating loss carryforwards in any year may be limited by provisions of the Internal Revenue Code regarding changes in ownership of corporations (i.e. IRS Code Section 382). The changes in ownership limitations under IRS Code Section 382 have had the effect of limiting the maximum amount of operating loss carryforwards as of June 30, 2014 available for use to offset future years' taxable income to \$127,362,276. Those operating loss carryforwards start to expire June 30, 2022.

**12. COMMON STOCK (CONTINUED)**

On June 21, 2013, the Company's shareholders approved the 2013 Stock Incentive Plan to allow up to 500,000 shares of Common Stock to be available for issuance to future or current employees, directors and consultants of the Company. During the years ended June 30, 2014 and 2013, the Company did not grant or issue any shares under the plan. As of June 30, 2014, 500,000 shares are available for future issuance.

On September 27, 2011 the Company and Mr. Jensen, the Company's former Chief Executive Officer, entered into an amended and restated employment agreement (the "Jensen Employment Agreement") and on October 14, 2011 a Separation Agreement and Release (the "Separation Agreement").

The Jensen Employment Agreement provided for the issuance of an aggregate of 150,000 shares of common stock to Mr. Jensen under its stock incentive plans which were to vest as follows: 50,000 on the date the agreement was signed (September 27, 2011) by Mr. Jensen and the Company; 50,000 on the first anniversary of the date of signing (September 27, 2012); and 50,000 on the second anniversary of the date of signing (September 27, 2013).

Pursuant to the Separation Agreement, Mr. Jensen resigned as Chairman, Chief Executive Officer and as a Director of the Company, effective October 14, 2011. Under the Separation Agreement, the Company issued to Mr. Jensen 41,667 shares of its common stock which were awarded in connection with the signing of an amendment to his employment agreement in April 2011, which would not have otherwise vested until April 2012; and 50,000 shares of the Company's common stock which were awarded to Mr. Jensen in connection with the signing Jensen Employment Agreement and which would not have otherwise vested until September 2012.

Pursuant to the Separation Agreement, 41,667 shares of common stock that would have vested in April 2013 in connection with the signing of an amendment to Mr. Jensen's employment agreement in April 2011 and 50,000 shares of common stock that would have vested in September 2013 in connection with the signing of his amended and restated employment agreement in September 2011 were forfeited.

On September 27, 2011, the Company and Mr. Herbert entered into a second amendment to his employment agreement. The Company issued an aggregate of 100,000 shares of common stock to Mr. Herbert under its stock incentive plans which vest as follows: 33,333 on the date the agreement was signed by Mr. Herbert and the Company (September 27, 2011); 33,333 on the first anniversary of the date of signing (September 27, 2012); and 33,334 on the second anniversary of the date of signing (September 27, 2013).

In September 2012, the Board of Directors accepted the recommendation of the Compensation Committee and granted 71,429 shares of Common Stock with a grant date fair value of \$100,000 to Mr. Herbert under the 2012 Stock Incentive Plan (the "2012 Plan") to vest over a period of up to three years based on performance of the Company's Common Stock. During the years ended June 30, 2014 and 2013, the Company issued 0 and 47,620 shares of Common Stock and recorded \$0 and \$66,668 of expense, respectively for this grant. As of June 30, 2014, 23,809 shares of Common Stock remain unvested for this grant.

On September 27, 2011, the Company and Mr. DeMedio entered into a fifth amendment to his employment agreement pursuant to which Mr. DeMedio was granted an aggregate of 25,000 shares of common stock which vest as follows: 8,333 on the date of signing the amendment (September 27, 2011); 8,333 on the first anniversary of such signing date (September 27, 2012); and 8,334 on the second anniversary of such signing date (September 27, 2013).

On September 15, 2011, at the recommendation of the Compensation Committee, the board of directors adopted the Fiscal Year 2012 Performance Share Plan (the "2012 Performance Plan") covering the Company's executive officers. Under the 2012 Performance Plan, each executive officer will be awarded common stock in the event the Company achieves target goals during the fiscal year ending June 30, 2012 relating to the total number of connections, total revenues, operating expenses, and operating earnings. Operating earnings is defined as earnings before interest and taxes (after bonus accruals and stock awards) and before non-operating gains or losses. The number of eligible shares to be awarded to the executives is based upon the following weightings: 30% by the total number of connections; 30% by total revenues; 10% by operating expenses; and 30% by operating earnings. No awards would be made under the 2012 Performance Plan if either (i) none of the minimum, threshold performance target goals have been achieved, or (ii) if operating earnings for the 2012 fiscal year are not equal or better than those during the 2011 fiscal year.

Notwithstanding the above description of the 2012 Performance Plan, the executives would receive shares from the Company pursuant to the 2012 Performance Plan only if and to the extent that shares would be available to be issued to the executives under the existing 2011 stock incentive plan or another stock plan that has been approved by the shareholders of the Company in accordance with NASDAQ Listing Rule 5635(c). If there would not be a sufficient number of shares available to be issued to the executives, the Company would pay to the executives an amount of cash equal to the value of those shares not available to be issued to the executives. In such event, the executives would be required to utilize the cash payment, net of any withholding, payroll or other taxes attributable to the cash payment, to purchase shares of common stock of the Company on the open market.

As of September 15, 2011 and through June 27, 2012, there were not sufficient shares available under the existing 2011 stock incentive plan or another stock plan that had been approved by the shareholders of the Company; consequently, the Company may have been required to deliver

to the executives an amount of cash equal to the value of shares earned but not available to be issued to the executives. Therefore, in accordance with ASC Topic 718, "Stock Compensation", this award was accounted for as a liability of the Company through June 27, 2012. On June 28, 2012, the Company's shareholders approved the 2012 Stock Incentive Plan, which includes sufficient shares for the 2012 Performance Plan. Accordingly, for the fiscal year ended June 30, 2012 the Company recorded stock compensation expense of \$197,613 for the vesting of 136,285 shares of Common Stock – 96,201 shares to Mr. Herbert and 40,084 shares to Mr. DeMedio. Final settlement of the award occurred in September 2012.

Pursuant to the Separation Agreement entered into by the Company and Mr. Jensen, Mr. Jensen is not entitled to earn shares under the 2012 Performance Plan, and therefore no award was estimated for Mr. Jensen for the fiscal 2012 year.

On September 5, 2012, at the recommendation of the Compensation Committee, the board of directors adopted the Fiscal Year 2013 Performance Share Plan (the "2013 Performance Plan") covering the Company's executive officers. Under the 2013 Performance Plan, each executive officer would be awarded common stock in the event the Company achieves certain performance goals during the fiscal year ended June 30, 2013. The metrics under the 2013 Performance Plan as well as the relative weightings of these metrics are identical to those originally set forth in the 2012 Performance Plan. No awards would be made under the 2013 Performance Plan if either (i) none of the minimum, threshold performance target goals has been achieved, or (ii) if operating earnings for the 2013 fiscal year are not equal or better than those during the 2012 fiscal year.

If all of the target goals are achieved under the 2013 Performance Plan, the executive officers would be awarded shares having the following value: Mr. Herbert – \$275,000; and Mr. DeMedio – \$100,000. If all of the minimum, threshold performance target goals are achieved, the executive officers would be awarded shares having the following value: Mr. Herbert – \$75,000; and Mr. DeMedio – \$25,000. If all of the maximum, distinguished performance target goals are achieved, the executive officers would be awarded shares having the following value: Mr. Herbert – \$550,000; and Mr. DeMedio – \$200,000. If the actual results for the fiscal year are less than the target goals (but greater than the minimum, threshold performance target goals), each executive would be awarded a lesser pro rata number of shares from the target goal, if actual results are between target and maximum, then a pro rata number of shares between target and maximum is earned, and if actual results are above maximum (distinguished) than pro rata shares above maximum is earned.

**12. COMMON STOCK (CONTINUED)**

As of September 5, 2012 and through June 20, 2013, there were not sufficient shares for the maximum awards available under the existing 2012 stock incentive plan or another stock plan that had been approved by the shareholders of the Company; consequently, the Company may have been required to deliver to the executives an amount of cash equal to the value of shares earned but not available to be issued to the executives. Therefore, in accordance with ASC Topic 718, "Stock Compensation", this award was accounted for as a liability of the Company through June 20, 2013. On June 21, 2013, the Company's shareholders approved the 2013 Stock Incentive Plan, which includes sufficient shares for the 2013 Performance Plan. Accordingly, for the fiscal year ended June 30, 2013, the Company recorded stock compensation expense of \$19,167 for the vesting of 11,016 shares of Common Stock – 8,142 shares to Mr. Herbert and 2,874 shares to Mr. DeMedio. Final settlement of the award occurred in September 2013.

On November 7, 2013, at the recommendation of the Compensation Committee, the Board of Directors approved a stock bonus to the Company's Chief Financial Officer ("CFO"). The CFO was awarded 21,000 vested shares of common stock of the Company as a bonus in recognition of his performance during the 2013 fiscal year. For the year ended June 30, 2014, \$38,220 was recorded as expense on account of the stock bonus under the 2012 Stock Incentive Plan.

On November 7, 2013, at the recommendation of the Compensation Committee, the Board of Directors approved the Fiscal Year 2014 Long-Term Stock Incentive Plan (the "2014 LTI Stock Plan"). The 2014 LTI Stock Plan provides that each executive officer would be awarded shares of common stock in the event that certain metrics relating to the Company's 2014 fiscal year would result in specified ranges of year-over-year percentage growth. At the time of the establishment of the 2014 LTI Stock Plan, the Compensation Committee believed that the attainment of the target goals under the plan would represent a significant achievement for management, and were designed to stretch the Company's and management's performance during the fiscal year.

If none of the minimum threshold year-over-year percentage target goals are achieved, the executive officers would not be awarded any shares. If all of the year-over-year percentage target goals are achieved, the executive officers would be awarded shares having the following value: Chief Executive Officer ("CEO") – \$341,277 (100% of base salary); and CFO – \$175,698 (75% of base salary). If all of the maximum distinguished year-over-year percentage target goals are achieved, the executive officers would be awarded shares having the following value: CEO – \$682,554 (200% of base salary); and CFO – \$351,396 (150% of base salary). Assuming the minimum threshold year-over-year percentage target goal would be achieved for a particular metric, the number of shares to be awarded for that metric would be determined on a pro rata basis, provided that the award would not exceed the maximum distinguished award for that metric. The shares awarded under the 2014 LTI Stock Plan would vest over a three year period following issuance as follows: one-third on the first anniversary; one-third on the second anniversary; and one-third on the third anniversary. For the fiscal year ended June 30, 2014, the Company recorded stock compensation expense of \$71,963 for the vesting of 55,810 shares of Common Stock – 36,649 shares to Mr. Herbert and 19,161 shares to Mr. DeMedio on account of the 2014 LTI Stock Plan under the 2012 Stock Incentive Plan.

During the years ended June 30, 2014, 2013 and 2012, and as permitted under their employment agreements, executive officers cancelled an aggregate of 49,311, 64,847, and 38,749 shares of Common Stock, respectively, in order to satisfy an aggregate of \$89,020, \$121,052, and \$51,381, respectively, of payroll tax withholding obligations related to shares of Common Stock which vested during the 2013 through 2014 fiscal years.

During June 2011, the Board of Directors accepted the recommendation of the Compensation Committee that each non-employee Director serving as of June 30, 2011 receive a stock award of 10,000 shares of Common Stock under the 2010 Stock Incentive Plan valued at \$2.22 per share. A total of 50,000 shares of Common Stock were awarded, and the shares vest as follows: 16,665 on June 30, 2011; 16,665 on June 30, 2012; and 16,670 on June 30, 2013. In February 2012, a non-employee member of the Board of Directors forfeited and returned to the Company 6,667 and 3,333 shares of Common Stock, respectively, awarded under this grant in June 2011. As of June 30, 2012, 29,998 shares, net, have vested and been issued. In addition, due to the February 2012 forfeiture and return and changes in the composition of the Board of Directors as approved by shareholders at the Company's annual meeting of shareholders on June 28, 2012, as of June 30, 2012, 10,002 shares of Common Stock remain reserved for future issuance and 10,000 shares will not vest under this June 2011 grant. As of June 30, 2013, 39,999 shares vested under this award and no shares remain unvested.

**STOCK OPTIONS**

The Company estimates the grant date fair value of the stock options it grants using a Black-Scholes valuation model. The Company's assumption for expected volatility is based on its historical volatility data related to market trading of its own common stock. The Company bases its assumptions for expected life of the new stock option grants on the life of the option granted, and if relevant, its analysis of the historical exercise patterns of its stock options. The dividend yield assumption is based on dividends expected to be paid over the expected life

of the stock option. The risk-free interest rate assumption is determined by using the U.S. Treasury rates of the same period as the expected option term of each stock option.

The weighted-average fair value of options granted during the fiscal year ended June 30, 2014 was \$1.49. There were no options granted during the fiscal years ended June 30, 2013 and 2012. The fair value of options granted during the fiscal year ended June 30, 2014 was estimated at the grant date using the following weighted average assumptions:

	<u>Year ended</u> <u>June 30, 2014</u>
Expected volatility	79%
Expected life	7 years
Expected dividends	0.00%
Risk-free interest rate	2.22%

**16. COMMITMENTS AND CONTINGENCIES**

*LEASE COMMITMENTS*

On June 26, 2014, the Company and Varilease Finance, Inc. (“Varilease”), entered into six Sale Leaseback Agreements (the “Sale Leaseback Agreements” or a “Sale Leaseback Agreement”) pursuant to which Varilease purchased ePort equipment owned by the Company and used by the Company in its JumpStart program. If all of the ePort equipment described in the Sale Leaseback Agreements is purchased by Varilease, the aggregate purchase price to be received by the Company would be approximately \$8,000,000.

Concurrently with entering into the Sale Leaseback Agreements, the Company and Varilease entered into six Schedules (the “Schedules” or a “Schedule”) each corresponding to a Sale Leaseback Agreement. The Company and Varilease also entered into a Master Lease Agreement (the “Master Lease Agreement”) which is incorporated by reference into each Schedule. Each Schedule (including the Master Lease Agreement) sets forth the terms and conditions pursuant to which Varilease would lease to the Company the ePort equipment to be purchased by Varilease from the Company pursuant to the corresponding Sale Leaseback Agreement. Each Schedule provides for a 36-month base lease term and specifies the base monthly rental for the equipment described in the Schedule. During the lease term, all of the costs, expenses and liabilities associated with the equipment are to be borne by the Company, and the Company is entitled to the unlimited use of the equipment.

At the completion of the base lease term provided in each Schedule, the Company will have, among other things, the option to either purchase the equipment described in the Schedule for a price to be agreed upon by the Company and Varilease, or extend the lease term of the Schedule for an additional twelve months at the base monthly rental, at the conclusion of which all of the right, title and interest of Varilease in the ePort equipment would pass to the Company.

The Master Lease Agreement includes customary events of default, including non-payment by the Company of the monthly rental or other charges due under any Schedule. The Master Lease Agreement provides that in the event of the declaration by Varilease of a default, the Company would pay to Varilease, among other things, any unpaid amount due on or before the declaration of default plus liquidated damages equal to the Stipulated Loss Value of the equipment. The Stipulated Loss Value of the equipment is an amount equal to 110% of the Company’s original cost for such equipment less 1.25% of such cost for each month elapsed during the lease term through the declaration of default.

On June 27, 2014, Varilease completed the purchase from the Company of the ePort equipment described in two of the Sale Leaseback Agreements for an aggregate of \$2,995,095, and pursuant to the corresponding Schedules, the Company is obligated to pay to Varilease a base monthly rental of \$82,365 for this equipment during the 36-month lease term. The Company is accounting for the Sale Leaseback as an operating lease. The remaining Sale Leaseback Agreements as described above were completed subsequent to June 30, 2014 (see Note 17).

Upon the completion of the sale under the first two agreements in June 2014, the Company computed a gain on the sale of its ePort equipment in the amount of \$1,152,207 as follows:

Rental equipment sold, cost	\$ 1,918,920
Rental equipment sold, accumulated depreciation upon sale	<u>(76,032)</u>
Rental equipment sold, net book value	1,842,888
Proceeds from Sale	<u>2,995,095</u>
Gain on sale of rental equipment	<u><u>\$ 1,152,207</u></u>

In accordance with the FASB topic ASC 840-40, “Sale Leaseback Transactions”, any gain shall be deferred and shall be amortized in proportion to the related gross rental charged to expense over the lease term. The computed gain on the sale will be recognized ratably over the 36 month term and charged as a reduction to the Company’s JumpStart rent expense included in costs of services in the Company’s consolidated statement of operations. For the year ended June 30, 2014 the Company recognized \$9,522 of the gain and the deferred gain amounted to \$1,142,685 as of June 30, 2014. The Company intends to utilize the proceeds from the sale of the equipment for working capital purposes.

Other lease commitments include leases for its operations from various facilities. The Company leases 17,249 square feet of space located in Malvern, Pennsylvania for its principal executive office and used for general administrative functions, sales activities, product development, and customer support. In November 2010, the Company entered into an amended lease of its principal executive office in Malvern, Pennsylvania, which extended the lease term from December 31, 2010 to April 2016. The amendment includes rental payments of approximately \$29,000 to \$32,000 as well as a four month period of no rent payments and leasehold improvements of approximately \$195,000. The straight-lined rent expense for this office is approximately \$25,000 per month for the duration of the lease.

The Company leases space in Malvern, Pennsylvania for its product warehousing and shipping support. In October 2011, the Company amended the lease of its operations site in Malvern, Pennsylvania, to extend the lease term from December 31, 2011 to December 31, 2012. The amendment includes monthly rental payments of approximately \$15,100 to \$16,200. Beginning in January 2012 the straight-lined rent

expense for this office is approximately \$15,600 per month for the duration of the amended lease period. In November 2012, the Company amended and extended this lease to January 31, 2013 with monthly rent of \$16,721 for January 2013.

In November 2012, the Company entered into a lease for a new operations site in Malvern, Pennsylvania to replace its existing site and lease. The lease term for the 11,250 square feet of space is January 1, 2013 through February 29, 2016. The lease includes monthly rental payments from \$4,406 to \$4,678 as well as a two month period of no rent payments. Beginning in January 2013 the straight-lined rent expense for this operations site is approximately \$4,300 per month for the duration of the lease period.

Rent expense under operating leases was approximately \$372,000, \$432,000, and \$502,000 during the years ended June 30, 2014, 2013, and 2012, respectively.

**EMPLOYMENT AGREEMENTS**

On November 30, 2011, the Company and Mr. Herbert entered into an Amended and Restated Employment and Non-Competition Agreement that replaced his prior employment agreement with the Company. The agreement provides for an initial term continuing through January 1, 2013, which is automatically renewed for consecutive one year periods unless terminated by either Mr. Herbert or the Company upon at least ninety days' notice prior to the end of the initial term or any one year extension thereof.

The agreement increased Mr. Herbert's base salary to \$341,227, which is equal to the base salary under his prior employment agreement plus an amount equal to the cost to the Company of the car allowance and supplemental disability insurance coverage provided to him under his prior employment agreement; and, the car allowance and supplemental disability insurance coverage that had been provided to him under his prior employment agreement, which have been discontinued. He is eligible for a cash bonus as described in the next sentence. The agreement provides for the payment to Mr. Herbert of a cash bonus of \$30,000 if the Company would achieve all of the minimum threshold performance target goals under the Fiscal Year 2012 Executive Performance Plan, of \$50,000 if the Company would achieve all of the target performance goals under the plan, and of \$75,000 if the Company would achieve all of the maximum distinguished performance target goals under the plan.

The Company has agreed to obtain and pay the premiums for a term life insurance policy in the amount of \$1,500,000 on the life of Mr. Herbert while he is employed by the Company. Mr. Herbert has the right to designate the beneficiary of the policy. On September 5, 2012, the Company discontinued this policy and Mr. Herbert's base salary was increased by the amount equal to the annual premiums being paid by the Company for the life insurance policy.

The agreement provides that if Mr. Herbert would terminate his employment with the Company for good reason (as defined in the agreement), or if the Company would terminate his employment without cause (as defined in the agreement), or if the Company would provide Mr. Herbert with a notice of non-renewal of his employment agreement, then the Company would pay to him a lump sum equal to two times his base salary on or before the termination of his employment. The term good reason as defined in the agreement, includes: (A) a material breach of the terms of the agreement by the Company; (B) the assignment by the Company to Mr. Herbert of duties in any way materially inconsistent with his authorities, duties, or responsibilities, or a material reduction or alteration in the nature or status of his authority, duties, or responsibilities as the Chief Executive Officer of the Company; (C) the Company reduces Mr. Herbert's annual base salary; or (D) a material reduction by the Company in the kind or level of employee benefits to which Mr. Herbert is entitled immediately prior to such reduction with the result that his overall benefit package is significantly reduced unless such failure to continue a plan, policy, practice or arrangement pertains to all plan participants generally. As a condition to Mr. Herbert receiving any payments or benefits upon the termination of his employment for good reason, Mr. Herbert shall have executed and delivered (and not revoked) a release of any and all claims, suits, or causes of action against the Company and its affiliates in form reasonably acceptable to the Company.

The agreement also provides that as a condition of the consummation of a USA Transaction (as defined in the agreement), the successor to the Company's business or assets would agree to assume and perform Mr. Herbert's employment agreement. If any such successor would not do so, Mr. Herbert's employment would terminate on the date of consummation of the USA Transaction, and the Company would pay to Mr. Herbert a lump sum equal to two times his base salary on or before the termination of his employment.

On April 12, 2005, Mr. DeMedio and the Company entered into an employment agreement pursuant to which he was employed as the Chief Financial Officer of the Company. In the event that a USA Transaction shall occur, then Mr. DeMedio has the right to terminate his agreement upon thirty days' notice to the Company.

On September 24, 2009, the Company agreed to obtain and pay the premiums for a term life insurance policy in the amount of \$750,000 on the life of Mr. DeMedio while he is employed by the Company. Mr. DeMedio has the right to designate the beneficiary of the policy. If Mr. DeMedio's employment with the Company would be terminated without cause, the Company has agreed, at its cost, to continue to provide Mr. DeMedio with health insurance benefits substantially similar to those which he is receiving immediately prior to the date of termination for a one year period following such termination.

On April 14, 2011, the Company and Mr. DeMedio entered into an additional amendment to the employment agreement. *SALE LEASEBACK*

In July, 2014, Varilease completed the purchase from the Company of the ePort equipment described in the last four of the Sale Leaseback Agreements for an aggregate of \$4,993,879, and pursuant to the corresponding Schedules, the Company is obligated to pay to Varilease a base monthly rental of \$137,731 for this equipment during the 36-month lease term. The Company is accounting for the Sale Leaseback as an operating lease.

Upon the completion of the sale under these agreements in July 2014, the Company computed a gain on the sale of its ePort equipment in the amount of approximately \$1,450,000. In accordance with the FASB topic ASC 840-40, "Sale Leaseback Transactions", any gain shall be deferred and shall be amortized in proportion to the related gross rental charged to expense over the lease term. The computed profit on the sale will be recognized ratably over the 36 month term and charged as a reduction to the Company's JumpStart rent expense included in costs of services in the Company's consolidated statement of operations. The Company intends to utilize the proceeds from the sale of the equipment for working capital purposes and may also explore and consider utilizing a portion of these proceeds for other purposes.

*2015 INCENTIVE PLANS*

On August 28, 2014, at the recommendation of the Compensation Committee of the Board of Directors of the Company, the Board of Directors approved the Fiscal Year 2015 Short-Term Incentive Plan (the "2015 STI Plan") and the Fiscal Year 2015 Long-Term Stock Incentive Plan (the "2015 LTI Stock Plan") covering Stephen P. Herbert, Chairman and Chief Executive Officer, and David M. DeMedio, Chief Financial Officer. Upon the recommendation of the Compensation Committee, the Board also approved an award of options to purchase common stock under the Company's 2014 Stock Option Incentive Plan to each of Messrs. Herbert and DeMedio.

The 2015 STI Plan provides that each executive officer would earn a cash bonus in the event that the Company achieved during the 2015 fiscal year certain annual financial goals (80% weighting) and certain annual specific performance goals relating to the executive officer which are to be established by the Compensation Committee (20% weighting). The annual financial goals are total revenues (30% weighting), cash generated from operations (30% weighting), and non-GAAP net income (40% weighting).

If none of the minimum threshold target goals are achieved, the executive officers would not earn a cash bonus. If all of the target goals are achieved, the executive officers would earn a cash bonus as follows: Mr. Herbert – \$136,500 (40% of base salary); and Mr. DeMedio – \$59,469 (25% of base salary). If all of the maximum distinguished target goals are achieved, the executive officers would earn a cash bonus as follows: Mr. Herbert – \$273,000 (80% of base salary); and Mr. DeMedio – \$118,938 (50% of base salary). Assuming the minimum threshold target goal would be achieved for a particular metric, the amount of the cash bonus to be earned would be determined on a pro rata basis, provided that the bonus would not exceed the maximum distinguished award for that metric.

The 2015 LTI Stock Plan provides that each executive officer would be awarded shares of common stock of the Company in the event that certain metrics relating to the Company's 2015 fiscal year would result in specified ranges of year-over-year percentage growth. The metrics are total number of connections as of June 30, 2015 as compared to total number of connections as of June 30, 2014 (50% weighting) and adjusted EBITDA earned during the 2015 fiscal year as compared to adjusted EBITDA earned during the 2014 fiscal year (50% weighting).

If none of the minimum threshold year-over-year percentage target goals are achieved, the executive officers would not be awarded any shares. If all of the year-over-year percentage target goals are achieved, the executive officers would be awarded shares having the following value: Stephen P. Herbert – \$341,227 (100% of base salary); and David M. DeMedio – \$178,406 (75% of base salary). If all of the maximum distinguished year-over-year percentage target goals are achieved, the executive officers would be awarded shares having the following value: Mr. Herbert – \$682,454 (200% of base salary); and Mr. DeMedio – \$356,812 (150% of base salary). Assuming the minimum threshold year-over-year percentage target goal would be achieved for a particular metric, the number of shares to be awarded for that metric would be determined on a pro rata basis, provided that the award would not exceed the maximum distinguished award for that metric. The shares awarded under the 2015 LTI Stock Plan would vest as follows: one-third at the time of issuance; one-third on the first anniversary of issuance; and one-third on the second anniversary of issuance.

### **Item 11. Executive Compensation.**

#### **COMPENSATION DISCUSSION AND ANALYSIS**

This Compensation Discussion and Analysis provides information about our compensation program for our named executive officers during the 2014 fiscal year (collectively, the "named executive officers"): Stephen P. Herbert- Chairman and Chief Executive Officer; David M. DeMedio- Chief Financial Officer; Michael Lawlor-Vice President of Sales and Business Development; and Cary Sagady- Senior Vice President of Product Management & Network Solutions.

The Compensation Committee is responsible for annually reviewing and recommending to the Board for approval the corporate goals and objectives relevant to the compensation of the executive officers of the Company, evaluating the executive officers' performance in light of those goals and objectives, and recommending for approval to the Board the executive officers' compensation levels based on this evaluation. The compensation of Messrs. Lawlor and Sagady is determined by our Chief Executive Officer in consultation with the Compensation Committee. The Chief Executive Officer assists the Committee in establishing the compensation of our other executive officer, David DeMedio. Our Chief Executive Officer regularly provides information to the Compensation Committee. The Chief Executive Officer is not present during voting or deliberations on his compensation. The Compensation Committee has, from time to time, retained an independent compensation consultant, Buck Consultants, LLC, as deemed necessary to assist the Committee in making appropriate recommendations regarding our executive officers' compensation.

#### **Fiscal Year 2014 Highlights**

The Compensation Committee has developed a compensation policy that is designed to attract and retain key executives responsible for the Company's success and motivate management to enhance long-term shareholder value.

Fiscal year 2014 financial highlights, compared to the prior year, included:

- 19% increase in license and transaction fee revenues to \$35.6 million, representing 84% of total revenues for the 2014 fiscal year;
- 18% increase in total revenues to \$42.3 million;
- Adjusted EBITDA of \$6.4 million compared to Adjusted EBITDA of \$5.8 million representing a 12% increase;
- GAAP net income of \$27.5 million (reflects recognition of \$27.3 million of deferred tax assets) compared to a GAAP net income of \$0.9 million;
- Total connections to the Company's cashless payment and telemetry service, ePort Connect®, grew by 24% during fiscal 2014;
- After accrual for preferred dividends, net earnings per common share, for fiscal 2014 was \$0.78 compared to a net earnings per common share of \$0.01 for Fiscal 2013; and
- Cash generated from operations was \$7.1 million for fiscal 2014 compared to \$6.0 million for fiscal 2013, an increase of approximately 18%.

Notwithstanding the substantial progress made by the Company during the 2014 fiscal year, and as discussed in greater detail below, the Company did not achieve all of the target goals established by the Compensation Committee for compensation of our executive officers under the Fiscal Year 2014 Short-Term Incentive Plan and Fiscal Year 2014 Long-Term Incentive Performance Share Plan. In this regard, when the target goals were established, the Committee believed that the attainment of the target goals would represent a significant achievement for management and were designed to stretch corporate performance. Each of our executive officers did, however, attain his specific individual performance target goals for the 2014 fiscal year which were established by the Compensation Committee.

#### **Compensation Goals and Objectives**

We have developed a compensation policy that is designed to attract and retain key executives responsible for our success and motivate management to enhance long-term shareholder value. The Compensation Committee believes that compensation of the Company's executive officers should encourage creation of shareholder value and achievement of strategic corporate objectives, and the Committee seeks to align the

interests of the Company's shareholders and management by integrating compensation with the Company's annual and long-term corporate and financial objectives. The Compensation Committee also ties a significant portion of each executive officer's compensation to key operational and financial goals and performance.

We have also designed and implemented our compensation package in order to be competitive with other companies in our peer group, as compiled by our compensation consultant, and to motivate and retain our executive officers. Our compensation package also takes into account individual responsibilities and performance.

Certain elements of compensation reflect different compensation objectives. For example, as base salaries are generally fixed in advance of the year in which the compensation will be earned, the Committee believes that it is appropriate to determine base salaries with a focus on similarly situated officers at comparable peer group companies while also having them reflect the officer's performance. On the other hand, annual bonuses and long-term incentives are better able to reflect the Company's performance as measured by financial measures such as total number of connections, total revenues, operating expenses, operating earnings, adjusted EBIDTA, and cash generated from operations. In addition, annual bonuses and long-term incentive awards, including the performance goals they are based on, help us achieve our goal of retaining executives, and motivating executive officers to increase shareholder value. The other elements of compensation reflect the Committee's and Board's philosophy that personal benefits, including retirement and health benefits, should be available to all employees on a non-discriminatory basis.

## Pay-for-Performance Review

### *Overview*

Pay-for-performance is an important component of our compensation philosophy and is evident in the structure of our compensation program. Our compensation approach is designed to motivate our executive officers to substantially contribute to the Company's long-term sustainable growth. Our pay-for-performance approach provides that our executive officers should have a large portion of variable compensation in the form of short-term and long-term incentive awards with performance hurdles designed to stretch individual and organizational performance.

During the 2014 fiscal year, a total of 53% of Mr. Herbert's and 47% of Mr. DeMedio's target total compensation was in the form of performance-based variable compensation designed to motivate them to deliver strong business performance and create shareholder value. These compensation elements were dependent upon the Company's achievement of pre-established financial and other business goals recommended by the Committee as well as individual goals established by the Committee. Based on actual results, the annual variable compensation amount and the ultimate value of the equity compensation awards could have been zero if the Company or management did not perform.

### Peer Group Analysis

In May 2011, Buck Consultants, LLC assembled a peer group of 12 companies that it deemed comparable to the Company on the basis of size, industry, and financial performance. The peer group included companies that offered networking, software or other technology solutions to businesses with revenues within the same range as the Company. The peer group consisted of:

- PAR Technology Corp.
- Kit Digital Inc.
- Local.com Corp.
- TransAct Technologies, Inc.
- Digimarc Corp.
- Immersion Corp.
- Onvia Inc.
- LML Payment Systems, Inc.
- Broadvision, Inc.
- Edgar Online, Inc.
- Interphase Corp.
- Innovaro, Inc.

For fiscal year 2014, the Committee recommended a compensation program for our executive officers consisting of target level compensation approximately equal to the 50th percentile for similarly situated officers at the peer group companies compiled by Buck Consultants in May 2011.

During July 2014, the Committee obtained an updated analysis from Buck Consultants, LLC, which contained a new peer group and updated the compensation analysis that had been previously performed. The Committee utilized this new analysis in connection with its compensation recommendations for the 2015 fiscal year.

### **Our Executive Compensation Practices**

Our compensation program for our executive officers features many commonly used "best practices" including:

- *Pay-for-performance* . For the 2014 fiscal year, our chief executive officer had approximately 53% of his total target compensation tied to our performance while our chief financial officer had approximately 47% of his total target compensation tied to our performance and individual performance goals.
- *Stretch performance goals* . Our performance target goals are designed to stretch individual and organizational performance.
- *Capped payouts under incentive plans* . Both our long-term and short-term bonus programs have maximum payout amounts in order to discourage excessive risk taking.
- *Stock ownership guidelines* . Our chief executive officer is required to hold common stock with a value equal to a multiple of three times his base salary and our chief financial officer is required to hold common stock with a value equal to one time his base salary.
- *Tax Gross-Up Provisions* . Effective September 27, 2011, the Company amended Mr. Herbert's employment agreement to eliminate all excise tax gross-up provisions with respect to payments contingent upon a change in control.
- *Limited perquisites for our executives* . Perquisites are not a significant portion of our executive officers' compensation, representing 1% of Mr. Herbert's and 0% of Mr. DeMedio's total target compensation.

- *Independent compensation consultant* . The Committee has from time to time retained an independent compensation consultant, Buck Consultants, LLC, to review the executive compensation programs and practices.
- *No payment on change in control without a “double trigger”* . Payments under our employment agreements require two events for vesting – both the change in control and a “good reason” for termination of employment.

## Elements of Compensation

This section describes the various elements of our compensation program for our named executive officers during the 2014 fiscal year. The components of compensation reflected in our named executive officers' compensation program are set forth in the following table:

<b>Long Term Incentives</b>	Variable compensation component payable in restricted stock.	Alignment of long term interests of management and shareholders. Retention of executive talent.	Peer group and individual performance, with actual payouts based on the extent to which goals are satisfied.
<b>Perquisites and Other Personal Benefits</b>	Fixed compensation component to provide basic competitive benefits.	Provide a base level of competitive compensation for executive talent.	Periodic review of benefits provided generally to all employees.

For fiscal year 2014, the targeted aggregate compensation of our named executive officers consisted of the following components expressed as a percentage of total compensation:

<b>Named Executive Officer</b>	<b>Base Salary</b>	<b>Annual Bonus</b>	<b>Long-Term Incentive Compensation</b>	<b>Perquisites &amp; Other Benefits</b>	<b>Total Compensation</b>
Stephen P. Herbert	46%	7%	46%	1%	100%

Michael Lawlor	49%	49%	0%	2%	100%
Cary Sagady	61%	37%	0%	2%	100%

For fiscal year 2014, the aggregate compensation actually paid or awarded to our named executive officers consisted of the following components expressed as a percentage of total compensation:

<b>Named Executive Officer</b>	<b>Base Salary</b>	<b>Annual Bonus</b>	<b>Long-Term Incentive Compensation</b>	<b>Perquisites &amp; Other Benefits</b>	<b>Total Compensation</b>
Stephen P. Herbert	76%	7%	15%	2%	100%
David M. DeMedio	82%	6%	12%	0%	100%
Michael Lawlor	88%	8%	0%	4%	100%
Cary Sagady	93%	3%	0%	4%	100%

### Base Salary

Base salary is the fixed component of our named executive officers' annual cash compensation and is set with the goal of attracting talented executives and adequately compensating and rewarding them for services rendered during the fiscal year. The Compensation Committee reviews our executive officers' base salary on an annual basis.

The base salaries of each of our executive officers reflect the individual's level of responsibility and performance. In recommending base salaries of our executive officers to the Board of Directors, the Compensation Committee also considers changes in duties and responsibilities, our business and financial results, and its knowledge of base salaries paid to executive officers of our peer group. The base salaries of each of Messrs. Sagady and Lawlor were established by our Chief Executive Officer after discussions with each employee.

None of our named executive officer's base salaries were increased during the 2014 fiscal year.

#### Annual Bonus

Performance-based annual bonuses are based on each named executive officer's overall performance and the achievement of performance goals. Annual bonuses are intended to provide officers with an opportunity to receive additional cash and equity compensation based on their individual performance and Company results, including the achievement of pre-determined Company and individual performance goals. Performance-based bonuses are included in the compensation package because they incentivize our named executive officers, in any particular year, to pursue particular objectives that are consistent with the overall goals and strategic direction that the Board has set for the Company for that year.

The Committee believes that the annual performance-based bonus reinforces the pay-for-performance nature of our compensation program.

#### *Fiscal Year 2014 Short-Term Incentive Plan*

At the recommendation of the Compensation Committee, the Board of Directors adopted the Fiscal Year 2014 Short-Term Incentive Plan (the "2014 STI Plan") covering Messrs. Herbert and DeMedio. Pursuant to the 2014 STI Plan, each executive officer would earn a cash bonus in the event that the Company achieved during the 2014 fiscal year certain annual financial goals (80% weighting) and certain annual specific performance goals relating to the executive officer which were established by the Compensation Committee (20% weighting). The annual financial goals are total revenues (30% weighting), cash generated from operations (30% weighting), and non-GAAP net income (40% weighting). Assuming the minimum threshold target goal would be achieved for a particular metric, the amount of the cash bonus to be earned would be determined on a pro rata basis, provided that the bonus would not exceed the maximum distinguished award for that metric.

Below were the threshold, target and distinguished cash bonus award opportunities for our executive officers:

	<u>Threshold Performance</u>	<u>Target Performance</u>	<u>Distinguished Performance</u>
Stephen P. Herbert	\$ -	\$ 51,184	\$ 102,368
David M. DeMedio	\$ -	\$ 29,283	\$ 58,566

Based on the performance of the Company and individual performance, Mr. Herbert earned a cash bonus of \$29,673 and Mr. DeMedio earned a cash bonus of \$17,238 under the 2014 STI Plan. Each executive achieved all of the individual performance target goals established by the Committee. Based on the actual performance of the Company during the 2014 fiscal year, the minimum threshold performance targets established under the 2014 STI Plan were not met for non-GAAP net income. Revenues for the fiscal year were in excess of the minimum threshold target goal but less than the target goal, and cash from operations was in excess of the maximum distinguished performance target goal.

#### *Other Named Executive Officers' Cash Bonus*

For the fiscal year ended June 30, 2014, the cash bonuses earned by Messrs. Lawlor and Sagady were based upon the attainment of financial target goals by the Company relating to connections (50% weighting for Mr. Sagady and 75% weighting for Mr. Lawlor), revenues (25% weighting for Mr. Sagady and 15% weighting for Mr. Lawlor), and adjusted EBITDA (25% weighting for Mr. Sagady and 10% weighting for Mr. Lawlor). Based on the actual performance of the Company during the 2014 fiscal year, the minimum threshold performance targets were not met for revenues and adjusted EBITDA. Connections for the fiscal year were in excess of the minimum threshold target goal but less than the target goal.

#### *DeMedio Stock Bonus*

During November 2013, and subsequent to the end of the 2013 fiscal year, upon recommendation of the Compensation Committee, the Board awarded to Mr. DeMedio 21,000 vested shares of common stock as a one-time bonus in recognition of his performance during the 2013 fiscal year. Although the Compensation Committee considered this bonus to be part of Mr. DeMedio's fiscal year 2013 compensation and is not considered to be part of Mr. DeMedio's compensation for the 2014 fiscal year under this Compensation Discussion and Analysis, this stock award is reflected as required by applicable disclosure regulations in the fiscal year 2014 compensation tables set forth below in this Form 10-K.

#### Long-Term Incentive Compensation

As described above, the Committee believes that a substantial portion of each executive officer's compensation should be in the form of long-term incentive compensation in order to further align the interests of our executive officers and shareholders.

#### *Fiscal Year 2014 Long-Term Incentive Performance Share Plan*

At the recommendation of the Compensation Committee, the Board of Directors adopted the Fiscal Year 2014 Long-Term Incentive Performance Share Plan (the "2014 LTI Stock Plan") covering Messrs. Herbert and DeMedio. Under the 2014 LTI Stock Plan, each executive officer would be awarded shares of common stock in the event that certain metrics relating to the Company's 2014 fiscal year would result in specified ranges of year-over-year percentage growth. The metrics are total number of connections as of June 30, 2014 as compared to total number of connections as of June 30, 2013 (50% weighting), total license and transaction fee revenues earned during the 2014 fiscal year as compared to those earned during the 2013 fiscal year (25% weighting), and adjusted EBITDA earned during the 2014 fiscal year as compared to adjusted EBITDA earned during the 2013 fiscal year (25% weighting). The shares awarded under the 2014 LTI Stock Plan would vest as follows: one-third on the date of issuance; one-third on the first anniversary of the date of issuance; and one-third on the second anniversary of the date of issuance.

At the time of the establishment of the 2014 LTI Stock Plan, the Compensation Committee believed that the attainment of the target goals under the 2014 LTI Stock Plan would represent a significant achievement for management, and were designed to stretch the Company's and management's performance during the fiscal year.

The table set forth below lists the value of the shares that would have been awarded to the executive officers under the 2014 LTI Stock Plan if all of the minimum threshold performance goals had been achieved, if all of the target performance goals had been achieved, and if all of the distinguished performance goals had been achieved. Assuming the minimum threshold target goal was achieved for a particular metric, the number of shares to be awarded for that metric was required to be determined on a pro-rata basis, provided that the award could not exceed the maximum distinguished award for that metric.

	<u>Threshold Performance</u>	<u>Target Performance</u>	<u>Distinguished Performance</u>
Stephen P. Herbert	\$ -	\$ 341,277	\$ 682,554

David M. DeMedio	\$	-	\$	175,699	\$	351,396
------------------	----	---	----	---------	----	---------

Based on the actual performance of the Company during the 2014 fiscal year, the minimum threshold performance targets established under the 2014 LTI Stock Plan were not met for revenues or adjusted EBITDA. Connections (50% weighting) for the fiscal year were in excess of the minimum threshold but less than the target goal. Consequently, the stock award to each executive officer under the 2014 LTI Stock Plan was as follows:

	<u>Number of Shares</u>	<u>Value of Shares as of June 30, 2014</u>
Stephen P. Herbert	36,649	\$ 76,776
David M. DeMedio	19,161	\$ 39,532

**Perquisites and Other Benefits**

On and after September 5, 2012, our named executive officers were entitled to the health care coverage, group insurance and other employee benefits provided to all of our other employees. In this regard, we recommended to the Board, and the Board approved, the discontinuance of all fringe benefits previously provided to our named executive officers which were in excess of those generally available to the Company's employees. The base salaries of the named executive officers were increased by an amount equal to the annual payments attributable to these discontinued fringe benefits.

### **Post-Termination Compensation**

Upon the recommendation of the Compensation Committee, in November 2013, the Board approved an amendment to Mr. DeMedio's employment agreement which provided that (i) if following a change in control of the Company, Mr. DeMedio would terminate his employment with the Company for good reason, or (ii) if the Company would terminate his employment at any time without cause, or (iii) if the Company would provide Mr. DeMedio with a notice of non-renewal of his employment agreement, then the Company would pay to him a lump sum equal to one times his base salary on or before the termination of his employment and all restricted stock awards or stock options would become vested as of the date of termination.

As set forth in his employment agreement, upon the termination of Mr. Herbert's employment under certain circumstances, including termination by the Company without cause or by a notice of non-renewal of the employment agreement, or under certain circumstances following a change of control of the Company, the Company has agreed to pay Mr. Herbert a lump sum amount equal to two times his annual base salary and all restricted stock awards or stock options would become vested as of the date of termination.

We believe that these provisions are an important component of each executive's employment arrangement and will help to secure the continued employment and dedication of our executive officers, notwithstanding any concern that they might have at such time regarding their own continued employment, prior to or following a change in control.

The Committee notes that there would be no payments to our executive officers upon a change of control without a "double trigger". Payments under our employment agreements require two events for vesting – both the change in control and a "good reason" for termination of employment.

Additional information regarding what would have been received by our executive officers had termination occurred on June 30, 2014 is found under the heading "Potential Payments upon Termination or Change of Control" on page 46 of this Form 10-K.

### **Stock Ownership Policy**

We believe that providing our executive officers who have responsibility for the Company's management and growth with an opportunity to increase their ownership of Company stock aligns the interests of the executive officers with those of the shareholders. In furtherance thereof, in April 2011, the Board approved Stock Ownership Guidelines that were recommended by the Compensation Committee. These guidelines provide that the Chief Executive Officer should own shares with a value of at least three times his annual base salary, and the Chief Financial Officer should own shares with a value of at least one times his annual base salary. Each executive officer has until April 2016 to comply with the policy. In November 2013, the Compensation Committee recommended and the Board approved an amendment to our guidelines to provide that non-vested restricted stock awards would count towards the stock ownership requirements thereunder for executive officers and non-employee directors.

During November 2013, the Board of Directors approved our recommendation that each non-employee director own shares of common stock with a value of at least five times his or her annual cash retainer as well as for serving on one (but not more than one) Committee of the Board for a total share value of at least \$150,000. Each director serving at the time of the amendment would have until June 30, 2016 to comply with the increased stock ownership requirements, and future directors would have five years to comply. Prior to the amendment, each non-employee director was required to own shares of common stock with a value of at least \$40,000.

### **Effect Of 2014 Say-On-Pay Vote**

At the 2014 annual meeting of shareholders, over 77% of the votes cast on the advisory vote on the compensation of our named executive officers were in favor of the Company's executive compensation disclosed in the proxy statement. The Compensation Committee considered the vote, and even though the results convey strong shareholder support for the Company's executive compensation programs and the Compensation Committee's decisions, the Committee determined that it was in the best interest of the Company and its shareholders to continue to evaluate our executive compensation programs and, if appropriate, to strengthen certain aspects of these programs.

### **Impact of Taxation and Accounting Considerations on Executive Compensation**

The Compensation Committee and the Board of Directors take into account tax and accounting consequences of the compensation program and weigh these factors when setting total compensation and determining the individual elements of any executive officer's compensation package.

The stock awards to our executive officers under our stock incentive plans as well as any option awards under our 2014 Stock Option Incentive Plan provide that the executive is responsible for any withholding or payroll tax obligations incurred by the Company in connection with the award, and that the executive may satisfy any such obligations by, among other things, either the delivery to the Company of a cash payment equal to the obligations, or the assignment or transfer to the Company of shares having a value equal to the obligations, or such other method that shall be satisfactory to the Company.

Mr. DeMedio's employment agreement provides that he is employed as the Chief Financial Officer of the Company. The agreement provided for an initial term from June 30, 2011 until June 30, 2014, and will automatically continue from year to year thereafter unless terminated as of the end of the original term or any such one year renewal period by the Company or Mr. DeMedio by at least 90-days' notice. During November 2013, the Company and Mr. DeMedio entered into an amendment to his employment agreement which contained certain provisions which are described below in this Form 10-K under the section titled "Potential Payments Upon Termination Or Change of Control".

### **Cary Sagady**

Mr. Sagady's employment agreement provided that he was employed as Senior Vice President, Product Development. During April 2013, Mr. Sagady provided notice of termination of his employment agreement, and his employment agreement expired on June 30, 2013. Subsequent to that date, Mr. Sagady has continued to serve as an employee of the Company with the same title and compensation as provided prior to the expiration.

Mr. Sagady is eligible to earn an annual discretionary bonus in the maximum amount of 60% of his annual base salary based upon the Company's and/or his performance. Mr. Sagady is also covered by all standard fringe and employee benefits made available to other employees of the Company, including medical and dental insurance, paid vacation and holidays, a 401(k) plan and a long-term disability plan.

### **Michael Lawlor**

Mr. Lawlor's employment agreement provides that he is employed as Senior Vice President, Sales and Business Development through June 30, 2013. Mr. Lawlor is also entitled to be covered by all standard fringe and employee benefits made available to other employees of the Company, including medical and dental insurance, paid vacation and holidays, a 401(k) plan and a long-term disability plan.

## **POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL**

The employment agreements of our executive officers include provisions for the payment to the executives upon termination of employment under certain conditions or if a successor to the Company's business or assets does not agree to assume and perform his employment agreement as a condition to the consummation of a USA Transaction.

The term "USA Transaction" means: (i) the acquisition of fifty-one percent or more of the then outstanding voting securities entitled to vote generally in the election of directors of the Company by any person, entity or group, or (ii) the approval by the shareholders of the Company of a reorganization, merger, consolidation, liquidation, or dissolution of the Company, or the sale, transfer, lease or other disposition of all or substantially all of the assets of the Company, or (iii) a change in the composition of the Board of Directors of the Company over a period of twelve (12) months or less such that the continuing directors fail to constitute a majority of the Board.

Mr. Herbert's employment agreement provides that if Mr. Herbert would terminate his employment with the Company for good reason, or if the Company would terminate his employment without cause, or if the Company would provide Mr. Herbert with a notice of non-renewal of his employment agreement, then the Company would pay to him a lump sum equal to two times his base salary on or before the termination of his employment and all restricted stock awards and stock options would become vested as of the date of termination.

The term "good reason," as defined in the agreement, includes: (A) a material breach of the terms of the agreement by the Company; (B) the assignment by the Company to Mr. Herbert of duties in any way materially inconsistent with his authorities, duties, or responsibilities, or a material reduction or alteration in the nature or status of his authority, duties, or responsibilities as the Chief Executive Officer of the Company;

(C) the Company reduces Mr. Herbert's annual base salary; or (D) a material reduction by the Company in the kind or level of employee benefits to which Mr. Herbert is entitled immediately prior to such reduction with the result that his overall benefit package is significantly reduced unless such failure to continue a plan, policy, practice or arrangement pertains to all plan participants generally. As a condition to Mr. Herbert receiving any payments or benefits upon the termination of his employment for good reason, Mr. Herbert shall have executed and delivered (and not revoked) a release of any and all claims, suits, or causes of action against the Company and its affiliates in form reasonably acceptable to the Company.

The agreement also provides that as a condition of the consummation of a USA Transaction, the successor to the Company's business or assets would agree to assume and perform Mr. Herbert's employment agreement. If any such successor would not do so, Mr. Herbert's employment would terminate on the date of consummation of the USA Transaction, and the Company would pay to Mr. Herbert a lump sum equal to two times his base salary on or before the termination of his employment and all restricted stock awards and stock options would become vested as of the date of termination.

If Mr. Herbert's employment had been terminated as of June 30, 2014 (when the closing price per share was \$2.11) (i) by him for good reason, or (ii) by the Company without cause, or (iii) if a successor to the Company's business or assets had not agreed to assume and perform his employment agreement as a condition to the consummation of a USA Transaction, then Mr. Herbert would have been entitled to receive: (a) an aggregate cash payment of twice his annual base salary or \$682,454; (b) an aggregate of 24,432 shares granted to him under the 2014 LTI Stock Plan, which would become automatically vested as of the date of termination, with a value of \$51,552; and (c) an aggregate of 23,809 shares previously granted to him during September 2012, which would automatically become vested as of the date of termination, with a value of \$50,237.

The November 2013 amendment to Mr. DeMedio's employment agreement provides that (i) if following a USA Transaction, Mr. DeMedio would terminate his employment with the Company for good reason, or (ii) if the Company would terminate his employment at any time without cause, or (iii) if the Company would provide Mr. DeMedio with a notice of non-renewal of his employment agreement, then the Company would pay to him a lump sum equal to one times his base salary on or before the termination of his employment and all restricted stock awards and stock options would become vested as of the date of termination.

The term "good reason" as defined in the amendment includes any of the following which have occurred within 12 months following a USA Transaction: (A) a material breach of the terms of the agreement by the Company; (B) the assignment by the Company to Mr. DeMedio of duties in any way materially inconsistent with his authorities, duties, or responsibilities and status as Chief Financial Officer, or a material reduction or alteration in the nature or status of his authority, duties, or responsibilities as Chief Financial Officer; (C) the Company reduces Mr. DeMedio's annual base salary; or (D) a reduction by the Company in the kind or level of employee benefits to which Mr. DeMedio is entitled immediately prior to such reduction with the result that his overall benefit package is significantly reduced unless such failure to continue a plan, policy, practice or arrangement pertains to all plan participants generally. As a condition to Mr. DeMedio receiving any payments or benefits upon the termination of his employment for good reason, Mr. DeMedio shall have executed and delivered (and not revoked) a release of any and all claims, suits, or causes of action against the Company and its affiliates in form reasonably acceptable to the Company.

The amendment also provides that as a condition of the consummation of a USA Transaction, the successor to the Company's business or assets would agree to assume and perform Mr. DeMedio's employment agreement. If any such successor would not do so, Mr. DeMedio's employment would terminate on the date of consummation of the change in control, and the Company would pay to Mr. DeMedio a lump sum equal to one times his base salary and all restricted stock awards and stock options would become vested.

If Mr. DeMedio's employment had been so terminated as of June 30, 2014 (when the closing price per share was \$2.11), then Mr. DeMedio would have been entitled to receive: (a) an aggregate cash payment of one times his annual base salary or \$234,265; and (b) an aggregate of 12,774 shares granted to him under the 2014 LTI Stock Plan, which would become automatically vested as of the date of termination, with a value of \$26,953.

This Sixth Amendment to Loan and Security Agreement is entered into as of May 15, 2014 (the "Amendment"), by and between AVIDBANK CORPORATE FINANCE, a division of AVIDBANK ("Bank"), and USA TECHNOLOGIES, INC. ("Borrower").

RECITALS

Borrower and Bank are parties to that certain Loan and Security Agreement dated as of June 21, 2012 and that certain First Amendment to Loan and Security Agreement dated as of January 1, 2013, that certain Second Amendment to Loan & Security Agreement dated as of April 2, 2013, that certain Third Amendment to Loan and Security Agreement dated as of April 11, 2013, that certain Fourth Amendment to Loan and Security Agreement dated as of April 29, 2013 and that certain Fifth Amendment to Loan and Security Agreement dated as of September 26, 2013 (collectively, the "Agreement"). Borrower desires to enter into one or more equipment financing arrangements in the aggregate principal amount of up to \$8,000,000, whereby Borrower shall sell certain point of sale equipment (the "Equipment") and subsequently leaseback such equipment (collectively, the "Sale/Leaseback Transactions"). Bank has agreed to consent to the Sale/Leaseback Transactions and amend the Agreement, in accordance with the terms of this Amendment.

NOW, THEREFORE, the parties agree as follows:

1. Notwithstanding the prohibition set forth in Section 7.1 of the Loan Agreement, Bank hereby consents to the sale and disposition of the Equipment in connection with the Sale/Leaseback Transactions; provided that Borrower provides Bank with the following, in form and substance satisfactory to Bank, in connection with the closing of each Sale/Leaseback Transaction: (i) evidence of Borrower's receipt of in up-front cash proceeds from the disposition of such Equipment (with a cumulative amount for all Sale/Leaseback Transactions of up to \$8,000,000), (ii) promptly (and in any event within two Business Days of entering into such documents), fully executed copies of the definitive documents entered into in connection with the Sale/Leaseback Transactions; and (iii) the drafts of any UCC financing statement that the buyer and lessor of the Equipment contemplates filing prior to such filing taking place (the "UCC-1").

2. Borrower's Indebtedness obligations under the lease agreements being entered into with the purchaser of the Equipment (the "Lessor") as part of the Sale/Leaseback Transactions, on the terms previously disclosed to Bank, are hereby deemed "Permitted Indebtedness" under the Agreement; and any Lien filed against the Equipment by the Lessor as set forth in the UCC-1 constitutes a "Permitted Lien" under the Agreement.

3. Unless otherwise defined, all initially capitalized terms in this Amendment shall be as defined in the Agreement. The Agreement, as amended hereby, shall be and remain in full force and effect in accordance with its respective terms and hereby is ratified and confirmed in all respects. Except as expressly set forth herein, the execution, delivery, and performance of this Amendment shall not operate as a waiver of, or as an amendment of, any right, power, or remedy of Bank under the Agreement, as in effect prior to the date hereof. Borrower ratifies and reaffirms the continuing effectiveness of all agreements entered into in connection with the Agreement.

4. Borrower represents and warrants that the representations and warranties contained in the Agreement are true and correct as of the date of this Amendment, and that no Event of Default has occurred and is continuing.

5. This Amendment may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof. Notwithstanding the foregoing, Borrower shall deliver all original signed documents no later than ten (10) Business Days following the date of execution.

6. As a condition to the effectiveness of this Amendment, Bank shall have received, in form and substance satisfactory to Bank, the following:

- (a) this Amendment, duly executed by Borrower;
- (b) final drafts of the definitive documents to be entered into in connection with the Sale/Leaseback Transaction; and

The Installation Term shall commence on the Installation Date, and terminate on the first day of the calendar quarter following the Installation Date (the “Base Term Commencement Date”). The Base Term of the Lease shall begin on the Base Term Commencement Date, and shall, subject to Section 19(b), end on the last day of the last month of the Base Term. The date of installation for any Item shall be the earlier of (i) the Installation Date, or (ii) if Lessee does not, for any reason, sign an Installation Certificate the date shall be the date Lessee received the Equipment.

(b) In the event Lessee requests, for its benefit, that Lessor advance payments to supplier(s) or manufacturer(s) of the Equipment (collectively “Supplier(s)”) during the period prior to Lessee’s delivery of the Installation Certificate and make progress payments to such Supplier(s) or otherwise reimburse Lessee for deposits, if any, made to such Supplier(s) (all such Lessor payments and reimbursements collectively referred to as “Progress Payments”), Lessor may, in its sole discretion, accommodate such requests by Lessee, and make such Progress Payments pursuant to the terms provided for in this Section 2(b). Lessee shall pay to Lessor a daily pro rata rental fee (“Rental Fee”) from the date of execution of the Authorization for each Item of Equipment through the Installation Date calculated by multiplying the Base Lease Rate Factor specified in the applicable Schedule times the amount of such Progress Payment divided by 30. This Rental Fee will be billed monthly to Lessee. If all of the Equipment to be included in the applicable Schedule is not accepted by Lessee within 90 days of the date of Lessor’s execution of the applicable Schedule (the “Funding Cut-Off Date”), Lessor may, at its sole option, pursue any one of the following options: (i) commence the term of any Schedule (using the Funding Cut-Off Date as the Installation Date) based on the portion of the Equipment that has been delivered to Lessee and paid for by Lessor as of the Funding Cut-Off Date; (ii) extend the Progress Funding Term and establish a new Funding Cut-Off Date; or (iii) demand that the Lessee pay to Lessor a total amount equal to all Progress Payments paid to Supplier(s) on behalf of Lessee, plus all pro rata rentals, taxes, late fees and other payments which are due and owing under this Master Agreement. Should such demand be made by Lessor, Lessee hereby unconditionally agrees to reimburse said amounts to Lessor in full within three (3) business days of said demand, and upon receipt of said payment in full, Lessor shall release Lessee from further payment obligations under the applicable Schedule. Lessor hereby reserves the right to terminate the Progress Funding Term at any time if Lessor determines, at Lessor’s sole discretion, that there has been a material adverse change in Lessee’s financial condition, at which time Lessor may elect either (i), (ii), or (iii) above. Notwithstanding anything to the contrary in the Lease, for purposes of this Section 2(b)(iii), in the event such demand for reimbursement is made by Lessor and Lessee fails to reimburse Lessor in accordance with the terms herein, such failure shall automatically constitute an Event of Default, Lessee shall waive any right to cure or remedy the default as otherwise provided in Section 16(a), and Lessor shall be entitled to pursue all of its available remedies under the Lease.

### 3. RENTAL

(a) The rental amount payable to Lessor by Lessee for the Equipment will be as set forth on the Schedule (“Base Monthly Rental”). As rent for Equipment, Lessee shall pay Lessor in immediately available funds and in advance on the Base Term Commencement Date and on the first day of each calendar month during the Base Term of the Lease the Base Monthly Rental, and upon receipt of an invoice, an amount equal to 1/30th of the Base Monthly Rental for each Item times the number of days which will elapse from the date such Item was installed to the Base Term Commencement Date of the Lease. Each remittance from Lessee to Lessor shall contain information as to the Lease for which payment is made. In the event of a partial installation of less than all the Equipment prior to the Base Term Commencement Date, Lessee shall pay pro rata rental for such Items of Equipment upon receipt of invoice for same.

(b) For any payment of rent or other amount due under a Lease which is past due, interest shall accrue at the rate of 2% per month, from the date such payment was due until payment is received by Lessor, or if such rate shall exceed the maximum rate of interest allowed by law, then at such maximum rate. **SUBJECT TO THE PROVISIONS OF SECTION 19(b), THIS IS A NON-CANCELABLE, NON-TERMINABLE LEASE OF EQUIPMENT FOR THE ENTIRE LEASE TERM AS PROVIDED IN EACH SCHEDULE HERETO.**

#### **4. TAXES**

Lessee shall immediately reimburse Lessor for (or pay directly, but only if instructed by Lessor) all taxes, fees, and assessments that may be imposed by any taxing authority on the Equipment, on its purchase, ownership, delivery, possession, operation, rental, return to Lessor or its purchase by Lessee (collectively, Taxes); provided, however, that Lessee shall not be liable for any such Taxes (whether imposed by the United States of America or by any other domestic or foreign taxing authority) imposed on or measured by Lessor's net income or tax preference items. Lessee's obligation includes, but is not limited to, the obligation to pay all license and registration fees, recycling fees, and all sales, use, personal property, recordation and other taxes and governmental charges, together with any penalties, fines and interest thereon, that may be imposed during the Base Term and any extension or renewal term of the applicable Schedule, including reasonable administrative costs incurred by Lessor in connection with the set-up, revisions, reporting, filing and payment of any taxes due hereunder or in connection with the Equipment. Lessor shall report and file any and all Taxes and shall invoice Lessee for same. Lessee shall promptly reimburse Lessor for all Taxes and hold Lessor harmless with respect to any non-payment thereof.

---

## **5. NET LEASE**

The Lease is a net lease, it being the intention of the parties that all costs, expenses and liabilities associated with the Equipment or its lease shall be borne by Lessee. Lessee's agreement to pay all obligations under the Lease, including but not limited to Base Monthly Rental, is absolute and unconditional and such agreement is for the benefit of Lessor and its Assignee(s). Lessee's obligations shall not be subject to any abatement, deferment, reduction, setoff, defense, counterclaim or recoupment for any reason whatsoever. Except as may be otherwise expressly provided in the Lease, it shall not terminate, nor shall the obligations of Lessee be affected by reason of any defect in or damage to, or any loss or destruction of, or obsolescence of, the Equipment or any Item from any cause whatsoever, or the interference with its use by any private person, corporation or governmental authority, or as a result of any war, riot, insurrection or an Act of God. It is the express intention of Lessor and Lessee that all rent and other sums payable by Lessee under the Lease shall be, and continue to be, payable in all events throughout the term of the Lease. The Lease shall be binding upon the Lessee, its successors and permitted assigns and shall inure to the benefit of Lessor and its Assignee(s).

## **6. INSTALLATION, RETURN AND USE OF EQUIPMENT**

(a) Upon delivery of the Equipment to Lessee, Lessee shall pay all transportation, installation, rigging, packing and insurance charges with respect to the Equipment. In the case of a sale and leaseback transaction, Lessee shall, upon the request of Lessor, certify the date the Equipment was first put into use. Lessee will provide the required electric current and a suitable place of installation for the Equipment with all appropriate facilities as specified by the manufacturer. No cards, tapes, disks, data cells or other input/output and storage media may be used by Lessee to operate any Item unless it meets the specifications of the manufacturer. Lessee agrees that it will not install, or permit the installation of, the Equipment without Lessor's consent.

(b) Provided that no Event of Default shall have occurred, Lessee shall, at all times during the term of the Lease, be entitled to unlimited use and enjoyment of the Equipment. Lessee will at all times keep the Equipment in its sole possession and control. The Equipment shall not be moved from the location stated in the Schedule without the prior written consent of Lessor and in no event shall the Equipment be moved outside the continental, contiguous United States. Lessee will comply with all laws, regulations, and ordinances, and all applicable requirements of the manufacturer of the Equipment that apply to the physical possession, use, operation, condition, and maintenance of the Equipment. Lessee agrees to obtain all permits and licenses necessary for the operation of the Equipment.

(c) Lessee shall not without the prior written consent of Lessor, affix or install any accessory, feature, equipment or device to the Equipment or make any improvement, upgrade, modification, alteration or addition to the Equipment (any such accessory, feature, equipment, device or improvement, upgrade, modification, alteration or addition affixed or installed is an "Improvement"). Title to all Improvements shall, without further act, upon the making, affixing or installation of such Improvement, vest solely in Lessor, except such Improvements as may be readily removed without causing material damage to the Equipment and without in any way affecting or impairing the originally intended function, value or use of the Equipment. Removal of the Improvement shall be performed by the manufacturer, at the sole expense of Lessee. Provided the Equipment is returned to Lessor in the condition required by the Lease, including, but not limited to coverage under the manufacturer's standard maintenance contract, title to the Improvement shall vest in the Lessee upon removal. Any Improvement not removed from the Equipment prior to return shall at Lessor's option remain the property of Lessor and shall be certified for maintenance by the manufacturer, at Lessee's expense.

Lessee shall notify Lessor in writing no less than sixty (60) days prior to the desired installation date of the type of Improvement Lessee desires to obtain. Lessor may, at any time within ten (10) days after receipt of the notice offer to provide the Improvement to Lessee upon terms and conditions to be mutually agreed upon. Lessee shall notify Lessor of any third party offers and shall lease the Improvement from Lessor if Lessor meets the terms of the third party offer.

If Lessee leases an Improvement from Lessor, such lease shall be under a separate Schedule, the Improvement shall not be placed in service by Lessee prior to acquisition by Lessor, and Lessee shall execute and deliver any document necessary to vest title to such Improvement in Lessor.

During the term of the Lease and any renewal term, Lessee shall cause all Improvements to be maintained, at Lessee's expense, in accordance with the requirements of Section 7. Unless otherwise agreed to by Lessor, upon the expiration or earlier termination of the term of the Lease, any Improvement shall be de-installed and removed from the Equipment by the manufacturer, at Lessee's expense. If the Improvement is removed, the Equipment shall be restored to its unmodified condition and shall be certified for maintenance by the manufacturer, at Lessee's expense.

In the event an Improvement is provided to Lessee by a party other than Lessor, Lessee shall cause such party to execute and deliver to Lessor such documents as shall be required by Lessor to protect the interests of Lessor and any Assignee in the Equipment, this Master Agreement and any Schedule.

(d) Subject to Section 19(b), Lessee shall, at the termination of the Lease, at its expense, cause the Equipment to be decontaminated and remove all proprietary data from any and all memory storage devices from the Equipment, by the manufacturer or other entity approved by Lessor, in accordance with manufacturer specifications and all applicable laws, rules and regulations, if any (and provide to Lessor documentation verifying such decontamination and proprietary data removal), de-install, pack and return the Equipment to Lessor at such location within the continental United States as shall be designated by Lessor in the same operating order, repair, condition and appearance as of the date the Equipment was installed, reasonable wear and tear excepted, with all current engineering changes prescribed by the manufacturer of the Equipment or a maintenance contractor approved by Lessor (the "Maintenance Organization") incorporated in the Equipment. Subject to Section 19(b), until the return of the Equipment to Lessor, Lessee shall be obligated to pay the Base Monthly Rental and

all other sums due under the Lease. Upon redelivery to Lessor, Lessee shall arrange and pay for such repairs (if any) as are necessary for the manufacturer of the Equipment to accept the Equipment under a maintenance contract at its then standard rates.

(e) Lessee shall comply with all material present and future federal, state, regional and municipal laws, statutes, ordinances, regulations, rules, judicial and similar requirements of all federal, state, regional and municipal governmental agencies, bodies or officials or other governmental entities with legal authority pertaining to the protection of human or wildlife health and safety or the environment, including, without limitation, any such laws, statutes, ordinances, regulations, rules, judicial and administrative orders and decrees, permits, licenses, approvals, authorizations and similar requirements regulating or relating to Hazardous Materials (defined below) or to the generation, use, storage, release, presence, disposal, transport, or handling of any other substance, oil, oil byproducts, gas element, or material which has the potential to pollute, contaminate or harm any land, subsurface area, water source or watercourse, air or other natural resource, hereinafter referred to as "Environmental Laws".

“Hazardous Materials” is defined as any hazardous or toxic substance, material or waste that is or becomes regulated under any applicable local, state or federal law, including, but not limited to, those substances, materials, and waste listed in the United States Department of Transportation Hazardous Materials Table (49 CFR 172.101) or defined by the Environmental Protection Agency (“EPA”) as “any material that poses a threat to human health and/or the environment. Typical Hazardous substances are toxic, corrosive, ignitable, explosive, or chemically reactive”.

#### **7. MAINTENANCE AND REPAIRS**

Lessee shall, during the term of the Lease, maintain in full force and effect a contract with the manufacturer of the Equipment or Maintenance Organization covering at least prime shift maintenance of the Equipment. Lessee upon request shall furnish Lessor with a copy of such maintenance contract as amended or supplemented. During the term of the Lease, Lessee shall, at its expense, keep the Equipment in good working order, repair, appearance and condition and make all necessary adjustments, repairs and replacements, all of which shall become the property of Lessor. Lessee shall not use or permit the use of the Equipment for any purpose for which, the Equipment is not designed or intended.

#### **8. OWNERSHIP, LIENS AND INSPECTIONS**

(a) Lessee shall keep the Equipment free from any marking or labeling which might be interpreted as a claim of ownership by Lessee or any party other than Lessor and its Assignee(s), and shall affix and maintain tags, decals or plates furnished by Lessor on the Equipment indicating ownership and title to the Equipment in Lessor or its Assignee(s). Upon reasonable notice to Lessee, Lessor or its agents shall have access to the Equipment and Lessee’s books and records with respect to the Lease and the Equipment at reasonable times for the purpose of inspection and for any other purposes contemplated by the Lease, subject to the reasonable security requirements of Lessee.

(b) Lessee shall execute and deliver such instruments, including Uniform Commercial Code financing statements, as are required to be filed to evidence the interest of Lessor and its Assignee(s) in the Equipment or the Lease. Lessee has no interest in the Equipment except as expressly set forth in the Lease, and that interest is a lease-hold interest. Lessor and Lessee agree, and Lessee represents for the benefit of Lessor and its Assignee(s) that the Lease is intended to be a “finance lease” and not a “lease intended as security ” as those terms are used in the Uniform Commercial Code; and that the Lease is intended to be a “true lease” as the term is commonly used under the Internal Revenue Code of 1986, as amended.

(c) LESSEE SHALL KEEP THE LEASE, THE EQUIPMENT AND ANY IMPROVEMENTS FREE AND CLEAR OF ALL LIENS AND ENCUMBRANCES OF WHATSOEVER KIND (EXCEPT THOSE CREATED BY LESSOR) AND LESSEE SHALL NOT ASSIGN THE LEASE OR ANY OF ITS RIGHTS UNDER THE LEASE OR SUBLEASE ANY OF THE EQUIPMENT OR GRANT ANY RIGHTS TO THE EQUIPMENT WITHOUT THE PRIOR WRITTEN CONSENT OF LESSOR. No permitted assignment or sublease shall relieve Lessee of any of its obligations under the Lease and Lessee agrees to pay all costs and expenses Lessor may incur in connection with such sublease or assignment. Lessee grants to Lessor the right of first refusal on any sublease or other grant of Lessee’s rights to the Equipment.

**9. DISCLAIMER OF WARRANTIES** (a) LESSOR LEASES THE EQUIPMENT “AS IS,” AND BEING NEITHER THE MANUFACTURER OF THE EQUIPMENT NOR THE AGENT OF EITHER THE MANUFACTURER OR SELLER, LESSOR DISCLAIMS ANY REPRESENTATION OR WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, WITH RESPECT TO THE CONDITION OR PERFORMANCE OF THE EQUIPMENT, ITS MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR WITH RESPECT TO PATENT INFRINGEMENTS OR THE LIKE. LESSOR SHALL HAVE NO LIABILITY TO LESSEE OR ANY OTHER PERSON FOR ANY CLAIM, LOSS OR DAMAGE OF ANY KIND OR NATURE WHATSOEVER, NOR SHALL THERE BE ANY ABATEMENT OF RENTAL FOR ANY REASON INCLUDING CLAIMS ARISING OUT OF OR IN CONNECTION WITH (i) THE DEFICIENCY OR INADEQUACY OF THE EQUIPMENT FOR ANY PURPOSE, WHETHER OR NOT KNOWN OR DISCLOSED TO LESSOR, (ii) ANY DEFICIENCY OR DEFECT IN THE EQUIPMENT, (iii) THE USE OR PERFORMANCE OF THE EQUIPMENT, OR (iv) ANY LOSS OF BUSINESS OR OTHER CONSEQUENTIAL LOSS OR DAMAGE, WHETHER OR NOT RESULTING FROM ANY OF THE FOREGOING.

(b) For the term of the Lease, Lessor assigns to Lessee (to the extent possible), and Lessee may have the benefit of, any and all manufacturer’s warranties, service agreements and patent indemnities, if any, with respect to the Equipment; provided, however, that Lessee’s sole remedy for the breach of any such warranty, indemnification or service agreement shall be against the manufacturer of the Equipment and not against Lessor, nor shall any such breach have any effect whatsoever on the rights and obligations of Lessor or Lessee with respect to the Lease.

(c) NO REPRESENTATIONS OR WARRANTIES OF THE MANUFACTURER OR DISTRIBUTOR OF THE EQUIPMENT, OR ANY OTHER THIRD PARTY, CAN BIND LESSOR, AND LESSEE ACKNOWLEDGES AND AGREES THAT LESSOR SHALL HAVE NO OBLIGATIONS WITH RESPECT TO THE EQUIPMENT EXCEPT AS SPECIFICALLY SET FORTH HEREIN OR OTHER DOCUMENT EXECUTED BY LESSOR.

#### **10. ASSIGNMENT**

(a) Lessee acknowledges and understands that Lessor may assign to a successor, financing lender and/or purchaser (the “Assignee”), all or any part of the Lessor’s right, title and interest in and to the Lease and the Equipment and Lessee hereby consents to such assignment(s). In the event Lessor transfers or assigns, or retransfers or reassigns, to an Assignee all or part of Lessor’s interest in the Lease, the Equipment or any sums payable under the Lease (including any extension rentals, purchase sums or new schedule rentals which may become due at the end of the Base Term), whether as collateral security for loans or advances made or to be made to Lessor by such Assignee or otherwise, Lessee covenants that, upon receipt of notice of any such transfer or assignment and instructions from Lessor,

(i) Lessee shall, if so instructed, pay and perform its obligations under the Lease to the Assignee (or to any other party designated by Assignee), and shall not assign the Lease or any of its rights under the Lease or permit the Lease to be amended, modified, or terminated without the prior written consent of Assignee; and

(ii) Lessee's obligations under the Lease with respect to Assignee shall be absolute and unconditional and not be subject to any abatement, reduction, recoupment, defense, offset or counterclaim for any reason, alleged or proven, including, but not limited to, defect in the Equipment, the condition, design, operation or fitness for use of the Equipment or any loss or destruction or obsolescence of the Equipment or any part, the prohibition of or other restrictions against Lessee's use of the Equipment, the interference with such use by any person or entity, any failure by Lessor to perform any of its obligations contained in the Lease, any insolvency or bankruptcy of Lessor, or for any other cause; and

(iii) Lessee shall, upon request of Lessor, submit documents and certificates as may be reasonably required by Assignee to secure and complete such transfer or assignment, including but not limited to the documents set forth in Section 15(c) of this Master Agreement.

(iv) Lessee shall deliver to Assignee copies of any notices which are required under the Lease to be sent to Lessor; and

(v) Lessee shall, if requested, restate to Assignee the representations, warranties and covenants contained in the Lease (upon which Lessee acknowledges Assignee may rely) and shall make such other representations, warranties and covenants to Assignee as may be reasonably required to give effect to the assignment.

(b) Lessor shall not make an assignment or transfer to any Assignee who shall not agree that, so long as Lessee is not in default under the Lease, such Assignee shall take no action to interfere with Lessee's quiet enjoyment and use of the Equipment in accordance with the terms of the Lease. No such assignment or conveyance shall relieve Lessor of its obligations under the Lease and Lessee agrees it shall not look to any Assignee to perform any of Lessor's obligations under the Lease. No such assignment shall increase Lessee's obligations nor decrease Lessee's rights hereunder.

#### **11. QUIET ENJOYMENT**

Lessor covenants that so long as Lessee is not in default under a Lease, Lessor shall take no action to interfere with Lessee's possession and use of the Equipment subject to and in accordance with the provisions of the Lease.

#### **12. INDEMNIFICATION**

Except for the gross negligence or willful misconduct of Lessor or Assignee, Lessee shall and does agree to indemnify, protect, defend, save and keep harmless Lessor and its Assignee(s) from and against any and all liabilities, obligations, losses, damages, penalties, claims, actions, suits, costs, or expenses of any kind and nature whatsoever, including but not limited to attorney's fees (including without limitation attorney's fees in connection with the enforcement of this indemnification) which may be imposed upon, incurred by or asserted against Lessor or its Assignee(s) in any way relating to or arising out of the manufacture, ownership, possession, use, condition, operation, accident in connection with the Equipment (including, without limitation, those claims based on latent and other defects, whether or not discoverable, or claims based on strict liability, or any claim for patent, trademark or copyright infringement, or claims for any damages to any person or property, any costs associated with, or any fines caused by violation of any Environmental Laws ) or Lessee's failure to protect or remove proprietary data from memory storage devices. Lessor's and its Assignee's rights arising from this Section shall survive the expiration or other termination of the Lease. Nothing in this Section shall limit or waive any right of Lessee to proceed against the manufacturer of the Equipment.

#### **13. RISK OF LOSS**

(a) Lessee assumes and shall bear the entire risk of loss and damage, whether or not insured against, of the Equipment from any and every cause whatsoever, and damage caused by the Equipment to the environment, any person or property, as of the date the Equipment is delivered to Lessee.

(b) In the event of loss or damage of any kind to any Item, Lessee shall use all reasonable efforts to place the Item in good repair, condition and working order to the reasonable satisfaction of Lessor within sixty (60) days of such loss or damage, unless the Lessor, in its sole discretion, determines in writing within twenty (20) days of receiving notice from the Lessee of such damage that such Item has been irreparably damaged, in which case Lessee shall, within ten (10) days of the Lessor's determination of irreparable loss, make its election to either pay Lessor the Stipulated Loss Value for the irreparably damaged Item or replace the irreparably damaged Item, all as provided in this Section. The Stipulated Loss Value will start at 110% of Lessor's original equipment cost and decline by 1.25% per month during the Base Term and will not decline any further after the expiration of the Base Term. To the extent that the Item is damaged but not irreparably damaged and if Lessee is entitled, pursuant to the insurance coverage, to obtain proceeds from such insurance for the repair of the Item, Lessee (provided no Event of Default has occurred under the Lease) may arrange for the disbursement of such proceeds to the manufacturer or other entity approved by Lessor to perform the repairs to pay the cost of repair. However, Lessee's obligation to timely repair the damaged Item is not contingent upon receipt of such insurance proceeds.

(c) In the event that Lessee elects to pay Lessor the Stipulated Loss Value for the irreparably damaged Item, Lessee shall (i) pay such amount (computed as of the first day of the month following the determination of the irreparable damage by the Lessor) to Lessor on the first day of the month following the election by Lessee as provided in (b) above, (ii) pay all Base Monthly Rental for the Item up to the date that the Stipulated Loss Value is paid to Lessor; and (iii) arrange with the applicable insurance company (with the consent of Lessor) for the disposition of the irreparably damaged Item. If not all the Equipment is irreparably damaged, the Value for Calculation of Stipulated Loss Value ("Value") as set forth on the Schedule for the irreparably damaged Item shall be multiplied by the applicable Stipulated Loss Value percentage to compute the Stipulated Loss Value for such irreparably damaged Item, and the Base Monthly Rental for the undamaged Equipment remaining due (after payment of the Stipulated Loss Value for the irreparably damaged Item) shall be that amount resulting from multiplying the original Base Monthly Rental by the ratio of the Value of the undamaged Equipment divided by the Value for all the Equipment prior to the damage.

(d) If Lessee elects to replace the irreparably damaged Item, Lessee shall continue all payments under the Lease without interruption, as if no such damage, loss or destruction had occurred, and shall replace such irreparably damaged Item, paying all such costs, associated with the replacement, and Lessee shall be entitled to insurance proceeds up to the amount expended by Lessee in effecting the replacement. Lessee shall within twenty (20) days following the date of determination of irreparable damage by the Lessor, effect the replacement by replacing the irreparably damaged Item with a "Replacement Item" so that Lessor has good, marketable and unencumbered title to such Replacement Item. The Replacement Item shall have a fair market value equal to or greater than the Item replaced, and anticipated to have a fair market value at the expiration of the Base Term equal to the fair market value that the replaced Item would have had at the end of the Base Term, and be the same manufacture, model and type and of at least equal capacity to the Item for which the replacement is being made. Upon delivery, such Replacement Item shall become subject to all of the terms and conditions of the Lease and, for the avoidance of doubt, ownership of such

Replacement Item shall immediately vest in Lessor free and clear of all claims, liens and encumbrances. Lessee shall execute all instruments or documents necessary to effect the foregoing.

(e) For purposes of this Section 13, the term "fair market value" shall mean the price of the Equipment delivered and installed at Lessee's location that would be obtained in an arm's-length transaction between an informed and willing buyer-lessee under no compulsion to buy or lease and an informed and willing seller-lessor under no compulsion to sell or lease. If Lessor and Lessee are unable to agree upon fair market value, such value shall be determined, at Lessee's expense, in accordance with the foregoing definition, by three independent appraisers, one to be appointed by Lessee, one to be appointed by Lessor and the third to be appointed by the first two.

#### **14. INSURANCE**

During the term of the Lease, Lessee, at its own expense, shall maintain in regard to the Equipment all risk insurance (in an amount not less than the Stipulated Loss Value) and comprehensive public liability insurance, in amounts and with carriers reasonably satisfactory to Lessor. Any such insurance shall name Lessor and the Assignee(s) as additional insured and, as for the all risk insurance, loss payees as their interests may appear. All such insurance shall provide that it may not be terminated, canceled or altered without at least thirty (30) days' prior written notice to Lessor and its Assignee(s). Coverage afforded to Lessor shall not be rescinded, impaired, or invalidated by any act or neglect of Lessee. Lessee agrees to supply to Lessor, upon request, evidence of such insurance.

## **15. REPRESENTATIONS AND WARRANTIES OF LESSEE; FINANCIAL STATEMENTS**

(a) Lessee represents and warrants to Lessor and its Assignee(s) (i) that the execution, delivery and performance of this Master Agreement and the Lease was duly authorized and that upon execution of this Master Agreement and the Lease by Lessee and Lessor, this Master Agreement and the Lease will be in full force and effect and constitute a valid legal and binding obligation of Lessee, and enforceable against Lessee in accordance with their respective terms; (ii) the Equipment is accurately described in the Lease and all documents of Lessee relating to the Lease; (iii) that Lessee is in good standing in the jurisdiction of its incorporation and/or organization and in any jurisdiction in which any of the Equipment is located; (iv) that no consent or approval of, giving of notice to, registration with, or taking of any other action in respect of, any state, federal or other government authority or agency is required with respect to the execution, delivery and performance by the Lessee of this Master Agreement or the Lease or, if any such approval, notice, registration or action is required, it has been obtained; (v) that the entering into and performance of this Master Agreement and the Lease will not violate any judgment, order, law or regulation applicable to Lessee or any provision of Lessee's Articles of Incorporation, Bylaws, Articles of Organization and/or Operating Agreements or result in any breach of, or constitute a default under, or result in the creation of any lien, charge, security interest or other encumbrance upon any assets of Lessee or upon the Equipment pursuant to any instrument to which Lessee is a party or by which it or its property may be bound; (vi) there are no actions, suits or proceedings pending, or to the knowledge of Lessee, threatened, before any court or administrative agency, arbitrator or governmental body which will, if determined adversely to Lessee, materially adversely affect its ability to perform its obligations under the Lease or any related agreement to which it is a party; (vii) that aside from this Master Agreement and the Lease there are no additional agreements between Lessee and Lessor relating to the Equipment, and (viii) that any and all financial statements and other information with respect to Lessee supplied to Lessor at the time of execution of the Lease and any amendment, are true and complete. The foregoing representations and warranties shall survive the execution and delivery of the Lease and any amendments hereto and shall upon the written request of Lessor, be made to Lessor's Assignee(s).

(b) Prior to and during the term of the Lease, Lessee will furnish Lessor with Lessee's annual audited financial statements no later than ninety (90) days after its fiscal year end, and a copy of its quarterly unaudited financial statements within forty-five (45) days after the end of each fiscal quarter. If Lessee is a subsidiary of another company, Lessee shall supply such company's financial statements and guarantees as are reasonably acceptable to Lessor. Lessor's obligations to perform under any Lease is subject to the condition that the financial statements furnished to Lessor by Lessee present the financial condition and results of operations of Lessee and its affiliated corporations and/or companies, if any, and any guarantor of Lessee's obligations under any Lease, as of the date of such financial statements, and that since the date of such statements there have been no material adverse changes in the assets or liabilities, the financial condition or other condition which in Lessor's or Assignee(s) sole discretion are deemed to be materially adverse. Lessee shall also provide Lessor with such other statements concerning the Lease and the condition of the Equipment as Lessor may from time to time request.

(c) Upon Lessor's request, Lessee shall, with respect to each Lease, deliver to Lessor (i) a certificate of a secretarial officer of Lessee certifying the bylaw, resolution (specific or general) or corporate action authorizing the transactions contemplated in the Lease; (ii) an incumbency certificate certifying that the person signing this Master Agreement and the Lease holds the office the person purports to hold and has authority to sign on behalf of Lessee; (iii) an opinion of Lessee's counsel with respect to the representations in Section 15(a); (iv) an agreement with Lessor's Assignee with regard to any assignment as referred to in Section 10; (v) the purchase documents if Lessee has sold or assigned its interest in the Equipment to Lessor; (vi) an insurance certificate evidencing the insurance provided by Lessee pursuant to Section 14; and (vii) an Installation Certificate duly executed by Lessee. Failure by Lessee to deliver any of these documents when due shall operate, at Lessor's option, to continue the Installation Term for the Lease thus delaying the Base Term Commencement Date, or to increase the Base Monthly Rental to recover costs incurred by Lessor consequent to the delay or the termination of the Lease as provided in Section 16.

## **16. DEFAULT, REMEDIES**

(a) The following shall be deemed "Events of Default" under the Lease:

(i) Lessee fails to pay any installment of rent or other charge or amount due under the Lease when the same becomes due and payable and such failure continues for ten (10) days after its due date; or

(ii) Except as expressly permitted in the Lease, Lessee attempts to remove, sell, encumber, assign or sublease or fails to insure any of the Equipment, or fails to deliver any documents required of Lessee under the Lease; or

(iii) Any representation or warranty made by Lessee or Lessee's guarantor in the Lease or any document supplied in connection with the Lease or any financial statement is misleading or materially inaccurate; or

(iv) Lessee fails to observe or perform any of the other obligations required to be observed by Lessee under the Lease and such failure continues uncured for ten (10) days after written notice thereof has been delivered to Lessee by Lessor ; or

(v) Lessee or Lessee's guarantor ceases doing business as a going concern; makes an assignment for the benefit of creditors; admits in writing its inability to pay its debts as they become due; files a voluntary petition in bankruptcy; is adjudicated a bankrupt or an insolvent; files a petition seeking for itself any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar arrangement under any present or future statute, law or regulation or files an answer admitting or fails to deny the material allegations of a petition filed against it in any such proceeding; consents to or acquiesces in the appointment of a trustee, receiver, or liquidator for it or of all or any substantial part of its assets or properties, or if it or its trustee, receiver, liquidator or shareholders shall take any action to effect its dissolution or liquidation;

(vi) If within thirty (30) days after the commencement of any proceedings against Lessee or Lessee's guarantor seeking reorganization,

arrangement, composition, readjustment, liquidation, dissolution or similar relief under any present or future statute, law or regulation, such proceedings shall not have been dismissed, or if within thirty (30) days after the appointment (with or without Lessee's or Lessee's guarantor's consent) of any trustee, receiver or liquidator of it or all of or any substantial part of its respective assets and properties, such appointment shall not be vacated;

(vii) Lessee or any guarantor of Lessee shall suffer an adverse change in its financial condition after the date hereof as determined by Lessor in its sole discretion, or there shall occur a substantial change in ownership of the outstanding stock of the Lessee, any subsidiary of Lessee or a substantial change in its board of directors, members or partners;

(viii) Lessee shall be in default of any other Schedule or agreement executed with Lessor or under any agreement with any other party that in Lessor's sole opinion is a material agreement; or shall fail to sign and deliver to Lessor any document reasonably requested by Lessor in connection with this Master Agreement or shall fail to do anything reasonably determined by Lessor to be necessary or desirable to effectuate the transaction contemplated by this Master Agreement or to protect Lessor's rights and interest in this Master Agreement and Equipment; or shall fail to provide financial statements to Lessor as provided for in Section 15 (b) hereof.

(ix) Lessee breaches any license or other agreement for software relating to the Equipment.

(x) Failure of Lessee to promptly execute and deliver to Lessor any document required under Section 10 of this Master Agreement.

(b) Lessee shall immediately notify Lessor of the occurrence of an Event of Default or any event that would become an Event of Default. Upon the happening of any Event of Default, Lessor may declare the Lessee to be in default. Upon a declaration of default, Lessor may immediately apply the Security Deposits (as defined and set forth in Section 18) to any one or more of the obligations of Lessee to Lessor, including unpaid rent, fees, costs, charges, expenses and/or the Stipulated Loss Value or as otherwise provided for in any Schedule to this Master Agreement. The application of the Security Deposits shall not be in lieu of, but shall be in addition to all other remedies available to Lessor under the Master Agreement and applicable law. Lessee authorizes Lessor at any time thereafter, with or without terminating the Lease, to enter any premises where the Equipment may be and take possession of the Equipment. Lessee shall, upon such declaration of default, without further demand, immediately pay Lessor an amount which is equal to (i) any unpaid amount due on or before Lessor declared the Lease to be in default, plus (ii) as liquidated damages for loss of a bargain and not as a penalty, an amount equal to the Stipulated Loss Value for the Equipment computed as of the date the last Base Monthly Rental payment was due prior to the date Lessor declared the Lease to be in default, together with interest, as provided herein, plus (iii) all attorney and court costs incurred by Lessor relating to the enforcement of its rights under the Lease. After an Event of Default, at the request of Lessor and to the extent requested by Lessor, Lessee shall immediately comply with the provisions of Section 6(d) and Lessor may sell the Equipment at private or public sale, in bulk or in parcels, with or without notice, without having the Equipment present at the place of sale; or Lessor may lease, otherwise dispose of or keep idle all or part of the Equipment, subject, however, to its obligation to mitigate damages. The proceeds of sale, lease or other disposition, if any, of the Equipment shall be applied: (1) to all Lessor's costs, charges and expenses incurred in taking, removing, holding, repairing and selling, leasing or otherwise disposing of the Equipment including actual attorney fees; then (2) to the extent not previously paid by Lessee, to pay Lessor the Stipulated Loss Value for the Equipment and all other sums owed by Lessee under the Lease, including any unpaid rent which accrued to the date Lessor declared the Lease to be in default and indemnities then remaining unpaid under the Lease; then (3) to reimburse to Lessee Stipulated Loss Value previously paid by Lessee as liquidated damages; and (4) any surplus shall be retained by Lessor. Lessee shall pay any deficiency in (1) and (2) immediately. If Lessee breaches Section 19(1) of this Master Agreement with regard to Software (as hereinafter defined), Lessee shall be liable to Lessor for additional damages in an amount equal to the original purchase price paid by Lessor for the Software, and in addition, at Lessor's option, Lessor shall be entitled to injunctive and other equitable relief. The exercise of any of the foregoing remedies by Lessor shall not constitute a termination of the Lease unless Lessor so notifies Lessee in writing. Lessor may also proceed by appropriate court action, either at law or in equity to enforce performance by Lessee of the applicable covenants of the Lease or to recover damages for the breach of the Lease.

Upon the happening of an Event of Default by Lessee with regard to Software under Section 19(1) of this Lease, Lessor may elect any of the following remedies: (i) by notice to Lessee, declare any License agreement with respect to Software terminated, in which event the right and License of Lessee to use the Software shall immediately terminate and Lessee shall thereupon cease all use of the Software and return all copies thereof to Lessor or original Licensor; (ii) have access to and disable the Software by any means deemed necessary by Lessor, for which purposes Lessee hereby expressly consents to such access and disablement, promises to take no action that would prevent or interfere with Lessor's ability to perform such access and disablement, and waives and releases any and all claims that it has or might otherwise have for any and all losses, damages, expenses, or other detriment that it might suffer as a result of such access and disablement. Lessee agrees that the detriment that Lessor will suffer as a result of a breach by Lessee of the obligations contained in this Master Agreement cannot be adequately compensated by monetary damages, and therefore Lessor shall be entitled to injunctive and other equitable relief to enforce the provisions of this paragraph. LESSEE AGREES THAT LESSOR SHALL HAVE NO DUTY TO MITIGATE LESSOR'S DAMAGES UNDER ANY SCHEDULE BY TAKING LEGAL ACTION TO RECOVER THE SOFTWARE FROM LESSEE OR ANY THIRD PARTY, OR TO DISPOSE OF THE SOFTWARE BY SALE, RE-LEASE OR OTHERWISE.

(c) The waiver by Lessor of any breach of any obligation of Lessee shall not be deemed a waiver of any future breach of the same or any other obligation. The subsequent acceptance of rental payments under the Lease by Lessor shall not be deemed a waiver of any such prior existing breach at the time of acceptance of such rental payments. The rights afforded Lessor under Section 16 shall be cumulative and concurrent and shall be in addition to every other right or remedy provided for the Lease or now or later existing in law (including as appropriate all the rights of a secured party or lessor under the Uniform Commercial Code) or in equity and Lessor's exercise or attempted exercise of such rights or remedies shall not preclude the simultaneous or later exercise of any or all other rights or remedies.

(d) In the event Lessee shall fail to perform any of its obligations under the Lease, then Lessor may perform the same, but shall not be obligated to do so, at the cost and expense of Lessee. In any such event, Lessee shall promptly reimburse Lessor for any such costs and expenses incurred by Lessor.

#### **17. LESSOR'S TAX BENEFITS**

Lessee acknowledges that Lessor shall be entitled to claim all tax benefits, credits and deductions related to the Equipment for federal income tax purposes including, without limitation: (i) deductions on Lessor's cost of the Equipment for each of its tax years during the term of the Lease under any method of depreciation or other cost recovery formula permitted by the Internal Revenue Code of 1986, as amended (hereinafter called the "Code"), and (ii) interest deductions as permitted by the Code on the aggregate interest paid to any Assignee (hereinafter collectively "Lessor's Tax Benefits"). Except as specifically required or permitted under the Lease or Master Agreement, Lessee agrees to take no intentional action inconsistent (including the voluntary substitution of Equipment) with the foregoing.

#### **18. SECURITY DEPOSIT**

Lessor acknowledges receipt of the security deposit(s) identified on each of the Schedules to this Master Agreement or otherwise provided to

Lessor (the "Security Deposits"). Lessee hereby grants to Lessor a security interest in each of the Security Deposits, to secure all obligations of Lessee under this Master Agreement and all Schedules hereto, including but not limited to, all payment obligations and all other obligations of Lessee to Lessor for which Lessee is now or may in the future become liable. Lessee authorizes Lessor to file all financing statements, amendments to financing statements and other documents as may be required, if any, with any public filing agency in any jurisdiction, to advise of Lessor's interest in the Security Deposits. Lessee agrees to execute such additional documents or instruments as may be deemed advisable or necessary by Lessor in order to maintain and continue such security interest.

## 19. GENERAL

(a) The Lease shall be deemed to have been made and delivered in the State of Michigan and shall be governed in all respects by the laws of such State. LESSEE AGREES TO SUBMIT TO THE JURISDICTION OF THE STATE AND/OR FEDERAL COURTS IN THE STATE OF MICHIGAN IN ALL MATTERS RELATING TO THE LEASE, THE EQUIPMENT, AND THE CONDUCT OF THE RELATIONSHIP BETWEEN LESSOR AND LESSEE. THE PARTIES HERETO AGREE THAT IN THE EVENT OF AN ALLEGED BREACH OF THIS MASTER AGREEMENT OR ANY DOCUMENTS RELATING THERETO BY EITHER PARTY, OR ANY CONTROVERSIES ARISE BETWEEN THE PARTIES RELATING TO THIS MASTER AGREEMENT OR ANY DOCUMENTS RELATING THERETO, SUCH CONTROVERSIES SHALL BE TRIED BY A JUDGE ALONE BEFORE THE FEDERAL OR STATE COURTS IN OAKLAND COUNTY, MICHIGAN. THE PARTIES, HAVING HAD THE OPPORTUNITY TO CONSULT WITH INDEPENDENT COUNSEL OF THEIR OWN CHOOSING, HEREBY KNOWINGLY AND VOLUNTARILY CONSENT TO MICHIGAN JURISDICTION AS SET FORTH HEREIN AND WAIVE THEIR RIGHTS TO A TRIAL BY JURY IN ANY MATTER RELATING TO THIS MASTER AGREEMENT OR ANY DOCUMENTS RELATED THERETO.

(b) Provided no Event of Default has occurred and is continuing, and provided no Event of Default or event which with the giving of notice or lapse of time, or both, would constitute an Event of Default has occurred and is continuing, upon the completion of the Base Term of any Schedule, Lessee shall, upon giving one hundred eighty (180) days prior written notice to Lessor by certified mail, elect one of the following options: (i) purchase all, but not less than all, of the Items of Equipment on the applicable Schedule for a price to be agreed upon by both Lessor and any applicable Assignee and Lessee, (ii) extend the Schedule for all, but not less than all, of the Items of Equipment on the applicable Schedule for an additional twelve (12) months at the Base Monthly Rental then in effect, or (iii) return all, but not less than all of the Items of Equipment on the applicable Schedule to Lessor at Lessee's expense to a destination within the Continental United States as directed by Lessor, provided that for option (iii) to apply, Lessee shall have paid all late charges, interest, taxes, penalties due under the Lease, Lessee agrees to pay to Lessor an additional per diem rent ("Hold Over Rent") in an amount equal to one hundred twenty five percent (125%) of the Base Monthly Rental then in effect divided by thirty (30) until all Items of Equipment are received by Lessor, Lessee shall have complied with Sections 6 (a), (b), (c) and Section 7 hereof, and Lessee shall immediately pay to Lessor a Terminal Rental Adjustment Cost ("TRAC") in an amount equal to subsection (ii) above. Provided that Lessee selects option (iii), Lessor shall use its best efforts to remarket the Equipment and remit to Lessee any amount collected by Lessor less its reasonable remarketing costs which shall include, without limitation, costs of repossession, reconfiguration, de-installation and installation, refurbishment, storage, and freight charges and legal fees, whether in house or to third parties. With respect to option (i) and option (iii), both Lessor and Lessee shall have absolute and sole discretion regarding the terms and conditions of the agreement to the purchase price of the Equipment. In the event that Lessor and Lessee have not agreed to either option (i) or option (iii) by the conclusion of the Base Term, or if Lessee fails to provide notice of its election via certified mail at least one hundred eighty (180) days prior to the termination of the Base Term, then option (ii) shall automatically apply at the end of the Base Term.

(c) This Master Agreement and the Lease constitute the entire and only agreement between Lessee and Lessor with respect to the lease of the Equipment, and the parties have only those rights and have incurred only those obligations as specifically set forth herein. The covenants, conditions, terms and provisions may not be waived or modified orally and shall supersede all previous proposals, both oral and written, negotiations, representations, commitments or agreements between the parties. The Lease may not be amended or discharged except by a subsequent written agreement entered into by duly authorized representatives of Lessor and Lessee. A photocopy or facsimile or scanned reproduction of an original signature of a party to this Agreement shall bind that party to the terms, conditions and covenants of the Agreement as if it were the original.

SPH  
**LESSEE INITIALS**

(d) All notices, consents or requests desired or required to be given under the Lease shall be in writing and shall be delivered in person or sent by certified mail, return, receipt requested, or by courier service to the address of the other party set forth in the introduction of this Master Agreement or to such other address as such party shall have designated by proper notice.

(e) Each Schedule shall be executed with one original. To the extent, if any, that a Schedule constitutes chattel paper (as such term is defined in the Uniform Commercial Code) a security interest in the Schedule may only be created through the transfer or possession of the Schedule marked "Original". This Master Agreement, in the form of a photocopy, is Exhibit A to the Schedule and is not chattel paper by itself.

(f) Section headings are for convenience only and shall not be construed as part of the Lease.

(g) It is expressly understood that all of the Equipment shall be and remain personal property, notwithstanding the manner in which the same may be attached or affixed to realty, and, upon Lessor's request, Lessee shall secure from its mortgagee, landlord or owner of the premises a waiver in form and substance reasonably satisfactory to Lessor.

(h) Lessor may upon written notice to Lessee advise Lessee that certain Items supplied to Lessee are leased to Lessor and supplied to Lessee under the Lease as a sublease. Lessee agrees to execute and deliver such acknowledgements and assignments in connection with such a Lease as are reasonably required. If, at any time during the term of the Lease, Lessor's right to lease such Equipment expires, Lessor may remove such Equipment from Lessee's premises and shall promptly provide identical substitute Equipment. All expenses of such substitution, including de-installation, installation and transportation expenses, shall be borne by Lessor.

(i) Prior to the delivery of any Item, the obligations of Lessor hereunder shall be suspended to the extent that it is hindered or prevented from

complying therewith because of: labor disturbances, including strikes and lockouts; acts of God; fires; storms; accidents; failure to deliver any Item; governmental regulations or interferences or any cause whatsoever not within the sole control of Lessor.

(j) Lessee hereby acknowledges and agrees that it has had a full and fair opportunity to read each of the terms and conditions of this Master Agreement, specifically Sections 2, 16 and 19, and that Lessee fully understands the terms and conditions herein, having had the opportunity to consult with an attorney of its own choosing prior to executing this Master Agreement and any related documents.

SPH  
**LESSEE INITIALS**

(k) Any provision of this Master Agreement or any Schedule prohibited by or unlawful or unenforceable under any applicable law of any jurisdiction shall be ineffective as to such jurisdiction without invalidating the remaining provisions of this Master Agreement and such Schedule.

(l) In the event the Equipment includes software (which Lessee agrees shall include all documentation, later versions, updates, upgrades, and modifications) (herein "Software"), the following shall apply: (i) Lessee shall possess and use the Software in accordance with the terms and conditions of any license agreement ("License") entered into with the owner/vendor of such Software and shall not breach the License (at Lessor's request, Lessee shall provide a complete copy of the License to Lessor); (ii) Lessee agrees that Lessor shall have an interest in the License and Software arising out of its payment of the price thereof and is an assignee or third party beneficiary of the License; (iii) as due consideration of Lessor's payment of the License and Software and for providing the Software to Lessee at a lease rate (as opposed to a debt rate), Lessee agrees that Lessor is leasing (and not financing) the Software to Lessee; (iv) except for the original price paid by Lessor, Lessee shall, at its own expense, pay promptly when due all servicing fees, maintenance fees update and upgrade costs, modification cost, and all other costs and expenses relating to the Software and maintain the License in effect during the term of the Lease; and (v) the Software shall be deemed Equipment for all purposes under the Lease. For all purposes of this Master Agreement or the Lease, the term Software shall not refer to or include any firmware of Lessee or any other intellectual property whatsoever of Lessee.

(m) The parties agree that this is a "Finance Lease" as defined by section 2A-103(g) of the Uniform Commercial Code ("UCC"). Lessee acknowledges either (a) that Lessee has reviewed and approved any written Supply Contract (as defined by UCC 2-A-103(y)) covering the Equipment purchased from the Supplier (as defined by UCC 2A-103(x))

thereof for lease to Lessee or (b) that Lessor has informed or advised Lessee, in writing, either previously or by this Lease of the following: (i) the identity of the Supplier, (ii) that the Lessee may have rights under the Supply Contract; and (iii) that the Lessee may contact the Supplier for a description of any such rights Lessee may have under the Supply Contract.

Lessee hereby waives any and all rights and remedies granted to Lessee by Sections 303 and 508 through 522 of Articles 2A of the Uniform Commercial Code (although no such waiver shall constitute a waiver of any of Lessee's rights or remedies against the manufacturer of the Equipment).

(n) The parties acknowledge that serial numbers and/or other identifiable information for one or more Items may be unavailable prior to execution of the applicable Schedule. In the event a Schedule fails to indicate serial numbers or other identifiable information or incorrectly identifies serial numbers or other identifiable information, for one or more Items after execution of the applicable Schedule, Lessee expressly consents to Lessor's unilateral amendment of the applicable Schedule to insert or correct serial numbers or other identifiable information therein.

(o) Lessee hereby authorizes and appoints Lessor and Lessor's agents and assigns as Lessee's attorney-in-fact to execute acknowledgement letters and other documents required to be executed by Lessee to effect any underwriting or perfect any security interest with regard to a Schedule.

The parties have executed this Master Lease Agreement as of the date first written above.

Lessee acknowledges and agrees that, notwithstanding anything to the contrary herein, this payment is non-refundable to Lessee under any circumstances, including, without limitation, any termination of this Lease for any reason prior to the end of its scheduled term. This payment shall be deemed earned by Lessor, and upon receipt by Lessor, shall immediately be applied to satisfy Lessee's obligation to make the last Base Monthly Rental.
