

Opportunity

TO GROW

2022 ANNUAL REPORT

FULTON FINANCIAL
CORPORATION

Vision:

To be the bank of choice because of who we are and how we operate.

Purpose:

We strive to go beyond expectations and help change lives for the better—every day.

This letter contains forward-looking statements with respect to Fulton Financial Corporation's ("FFC") financial condition, results of operations and business. Do not unduly rely on forward-looking statements. Forward-looking statements can be identified by the use of words such as "may," "should," "will," "could," "estimates," "predicts," "potential," "continue," "anticipates," "believes," "plans," "expects," "future," "intends," "projects," the negative of these terms and other comparable terminology. These forward-looking statements may include projections of, or guidance on, FFC's future financial performance, expected levels of future expenses, including future credit losses, anticipated growth strategies, descriptions of new business initiatives and anticipated trends in FFC's business or financial results.

Forward-looking statements are neither historical facts, nor assurance of future performance. Instead, the statements are based on current beliefs, expectations and assumptions regarding the future of FFC's business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions, and speak only as of the date when made. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of FFC's control, and actual results and financial condition may differ materially from those indicated in the forward-looking statements. A discussion of certain risks and uncertainties affecting FFC, and some of the factors that could cause FFC's actual results to differ materially from those described in the forward-looking statements, can be found in the sections entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in FFC's Annual Report on Form 10-K for the year ended December 31, 2022, which accompanies this letter. FFC undertakes no obligation, other than as required by law, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

FULTON FINANCIAL

CORPORATION

Dear Shareholder:

I'm proud to report that 2022 was a strong year for Fulton Financial Corporation. We delivered solid financial performance, expanded our engaged team and made great impact on our local communities.

Our Performance

We reported **record operating earnings** of \$1.76 per share and \$1.67 per share on a GAAP basis. We also delivered **record revenues** as interest rates climbed, and we continued to grow our fee-based revenue. Additionally, we exceeded **\$20 billion in total loans outstanding**, a significant milestone for us.

In July, we acquired Philadelphia-based Prudential Bancorp, Inc., and we now operate seven additional financial centers in the city. Uniting these two teams enhanced our presence in Philadelphia, a significant growth market for our company.

Strong performance allowed us to **increase our dividend** by 7.1 percent and return an additional **special cash dividend of six cents per common share** to shareholders in November.

Our Team

These results were made possible by our more than **3,300 employees** who supported our customer-first approach to community banking and our growth strategy.

We have a highly engaged team and they continued to grow customers across all divisions. In fact, we reached a milestone of **500,000 households** served this past year.

We continued to make great impact in the communities we serve due to strong company performance and a motivated team. This year, we enhanced our Government Services Banking and increased the Healthcare Banking team. We also expanded our Wealth Management team, opened two new Financial Centers and enlarged two corporate locations to accommodate new team members.

Our Impact

With strong company performance and a highly engaged team, we continued to make great impact in the communities we serve. We volunteered more than **13,500 hours** and supported **\$5.7 million** in charitable contributions. Additionally, we recently announced that in 2023, we'll surpass **\$1 billion in loans to low-and moderate-income homebuyers over the past six years**.

We continue to focus on our environmental, social and governance (ESG) efforts. We are mindful of our environmental impact, focused on our social contributions and dedicated to the prudent governance of this great company. We've highlighted our ESG efforts in our latest Corporate Social Responsibility report, which you can read at www.FultonBank.com.

In summary, thanks to a highly engaged team, we had solid performance in 2022. Together, we were able to make great impact on our communities. Thank you for your continued support, your investment in Fulton and your confidence in our team.

Curt Myers

2013-2022 IN REVIEW

Total Assets

Assets Growth Reached Record High

Driven by loan growth, total assets grew to an all-time high, despite declines in Paycheck Protection Program loans, cash and securities over the past few years. Asset growth trails loan growth as cash and investment securities remain a declining portion of the balance sheet.

Common Dividends Per Share

Dividends Increased and Special Dividend Declared

In 2022, our Board of Directors (Board) declared common dividends of \$0.60, an increase of 7% from the prior year. They also declared a special dividend of \$0.06 per share. The Board continues to evaluate shareholder interests and the return of shareholder capital on a consistent basis over time.

Deposits

Deposit Portfolio Remains Strong

At year end, total deposits remained over \$20 billion, significantly above pre-pandemic levels, as customer growth and account growth remain at the forefront of our banking proposition. By introducing our new Prudential Bank customers, we saw our greater Philadelphia deposit portfolio more than triple.

Earnings Per Share (Diluted)

Earnings Reached a Record High

Earnings per share of \$1.67 was a record for us in 2022. Strong organic loan growth, rising interest rates, an expanding net interest margin, and strong growth in key fee income business all contributed to a record year for our company and our shareholders.

Total Shareholder's Equity

Well Capitalized, Despite Slight Decline in Total Shareholder Equity

Total Shareholder's Equity declined slightly year over year driven by the impact of higher interest rates on our Accumulated Other Comprehensive Income. Excluding this impact, total equity would have grown by net income of \$287 million less common, special and preferred dividends paid of \$120 million. The company closely monitors our capitalization in light of our capital needs, and is well capitalized.

Loans

Loans Grew to Record High

2022 was a very strong year for loan growth. Combining strong organic loan growth with the acquisition of Prudential Bank, year over year loans grew 11%, and eclipsed the \$20 billion milestone for the first time in the company's history.

FULTON FINANCIAL CORPORATION

P.O. Box 4887
One Penn Square
Lancaster, Pennsylvania 17604

NOTICE OF ANNUAL MEETING OF SHAREHOLDERS TO BE HELD

TUESDAY, MAY 16, 2023 AT 10:00 A.M. EASTERN TIME

TO THE SHAREHOLDERS OF FULTON FINANCIAL CORPORATION:

NOTICE IS HEREBY GIVEN that, pursuant to the call of its Board of Directors, the 2023 Annual Meeting (the “**Annual Meeting**”) of the shareholders of FULTON FINANCIAL CORPORATION (“**Fulton**”) will be held on Tuesday, May 16, 2023, at 10:00 a.m. eastern time, at the Lancaster Marriott at Penn Square, 25 South Queen Street, Lancaster, Pennsylvania 17603, for the purpose of considering and voting upon the following matters:

- **ELECTION OF DIRECTORS.** The election of 11 director nominees to serve for a one-year term;
- **ADVISORY VOTE ON EXECUTIVE COMPENSATION.** A non-binding advisory proposal to approve the compensation of Fulton’s named executive officers (“**NEOs**”);
- **ADVISORY VOTE ON THE FREQUENCY OF SHAREHOLDER VOTING ON EXECUTIVE COMPENSATION.** A non-binding advisory proposal to approve whether the frequency of future advisory votes on the compensation of Fulton’s NEOs should be held every one, two or three years;
- **APPROVAL OF THE AMENDED AND RESTATED 2023 DIRECTOR EQUITY PLAN.** A proposal to approve Fulton’s Amended and Restated 2023 Director Equity Plan; and
- **RATIFICATION OF INDEPENDENT AUDITOR.** The ratification of the appointment of KPMG LLP as Fulton’s independent auditor for the fiscal year ending December 31, 2023.

OTHER BUSINESS. Such other business as may properly be brought before the Annual Meeting and any adjournments thereof.

Only those shareholders of record at the close of business on March 1, 2023 shall be entitled to be given notice of, to attend and to vote at, the Annual Meeting. Please take a moment to cast your vote over the Internet or by telephone in accordance with the instructions set forth on the enclosed proxy card or, alternatively, if you received paper copies of the proxy statement (the “**Proxy Statement**”) and proxy card, then complete, sign and date the proxy card and return it in the postage-paid envelope. If you attend the Annual Meeting, you may vote during the meeting in person or online by using the control number that appears on your proxy card even if you previously voted by proxy.

Your vote is important. Voting using the Internet or by telephone prior to the Annual Meeting is fast and convenient, and your vote is immediately tabulated and confirmed. Your proxy is revocable and may be withdrawn at any time before it is voted at the Annual Meeting. **You are cordially invited to attend the Annual Meeting on May 16, 2023 at 10:00 a.m. eastern time. If you plan on attending the Annual Meeting in person, then please see the instructions contained in this Proxy Statement.**

A copy of Fulton’s 2022 Annual Report on Form 10-K (the “**Annual Report**”) accompanies this Proxy Statement.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE 2023 ANNUAL MEETING OF SHAREHOLDERS TO BE HELD ON MAY 16, 2023. Our Proxy Statement and Annual Report are available online at www.proxyvote.com. We will mail to certain shareholders a notice of internet availability of proxy materials which contains instructions on how to access these materials and vote online. We expect to mail this notice and to begin mailing our proxy materials on or about April 3, 2023.

Sincerely,

Natasha R. Luddington
Senior Executive Vice President,
Chief Legal Officer and
Corporate Secretary

OVERVIEW OF VOTING MATTERS

PROPOSAL 1 – ELECTION OF DIRECTORS

The Nominating and Corporate Governance Committee (the “**NCG Committee**”) recommended, and the Fulton Board of Directors (the “**Board**”) approved, 11 director nominees for election to serve as directors of Fulton until the completion of the 2024 Annual Meeting of Shareholders (the “**2024 Annual Meeting**”) or until their successors are duly elected and qualified.

The Board unanimously recommends that shareholders vote “FOR” the election of each of the 11 director nominees.

The following table provides summary information regarding each director nominee as of the date of this Proxy Statement. Additional details about each of the director nominees can be found beginning on page 10.

Director Nominee	Age	Fulton Director Since	Independent Director	Gender ¹	Demographic Background ²	Committee Memberships
Jennifer Craighead Carey	54	2019		F	AA	Risk Committee**
Lisa Crutchfield	60	2014	✓	F	AA	NCG Committee*, Human Resources Committee** (the “ HR Committee ”) and Executive Committee
Denise L. Devine	67	2012	✓	F	C	Audit Committee*, Executive Committee** and HR Committee
Steven S. Etter	69	2019	✓	M	C	Audit Committee and HR Committee

² Demographic Background – African American (AA) or Caucasian (C)

Our Current Governance Best Practices

We are committed to maintaining strong corporate governance practices. The Board regularly reviews our governance policies and procedures to ensure compliance with laws, rules, and regulations and stays abreast of corporate governance best practices. We are also committed to operating with corporate social responsibility as a central tenet and continue to focus attention on environmental, social and governance (“ESG”) principles. Additional details about our corporate governance practices and our efforts to be a strong corporate citizen are set forth on page 18, and certain items are highlighted below.

Best Practices Include:			
Board Independence	Board Practices	Shareholders Rights	Shareholder Alignment
<ul style="list-style-type: none"> ✓ Board-designated independent lead director (the “Lead Director”) ✓ Regular executive sessions chaired by the Lead Director ✓ Board and committee ability to hire outside advisors independent of management ✓ A majority of independent directors ✓ The HR, Audit and NCG Committees are composed entirely of independent directors ✓ All committees are chaired by an independent chairperson 	<ul style="list-style-type: none"> ✓ Annual Board and committee self-evaluations ✓ Risk oversight and strategic planning by full Board and committees ✓ Independent directors evaluate the chief executive officer’s (the “CEO”) performance and approve CEO compensation ✓ Board has direct access to all of our senior executive officers ✓ Outside public board service limited to three additional public company boards 	<ul style="list-style-type: none"> ✓ Annual election of all directors ✓ Majority vote for uncontested elections ✓ Annual say-on-pay advisory vote 	<ul style="list-style-type: none"> ✓ Officer and director stock ownership guidelines ✓ Anti-hedging and anti-pledging policies ✓ Clawback policy

PROPOSAL 2 – ADVISORY VOTE ON EXECUTIVE COMPENSATION

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “**Dodd-Frank Act**”) and Section 14A of the Securities and Exchange Act of 1934, as amended (the “**Exchange Act**”), we are providing our shareholders with the opportunity to approve on a non-binding advisory basis, the compensation of Fulton’s NEOs, as discussed in this Proxy Statement, including the compensation, discussion and analysis (“**CD&A**”), compensation tables and narrative discussion. This proposal, commonly known as a “say-on-pay” proposal, gives shareholders the opportunity to endorse or not endorse Fulton’s executive compensation program.

As an advisory vote, this proposal is not binding upon the Board, the HR Committee or Fulton. The HR Committee, however, values the opinions expressed by shareholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for our executive officers. The Board believes that the compensation of our NEOs is appropriate and should be approved on an advisory basis by our stockholders. The CD&A beginning on page 31 gives a more detailed description of Fulton’s compensation policies, and certain items are highlighted below.

The Board unanimously recommends that shareholders vote “FOR” the approval of the compensation paid to Fulton’s NEOs as disclosed in this Proxy Statement, including the CD&A, compensation tables and narrative discussion.

Our Compensation Philosophy	
Alignment with Shareholder Interests	<ul style="list-style-type: none"> Executive officers’ interests are closely aligned with the interests of our shareholders. Stock ownership requirements. Executive compensation only earned if pre-determined financial results, risk management and business objectives are achieved.
Pay for Performance	<ul style="list-style-type: none"> Executive pay is linked to the achievement of our short- and long-term business goals as well as total shareholder return (“TSR”). Compensation is tied to financial metrics that further our business goals and our relative TSR performance. Majority of compensation paid to our executives is variable and performance-based.
Attract and Retain Key Executives	<ul style="list-style-type: none"> Annual peer group evaluation and benchmarking. Executives must remain with Fulton to earn certain incentive compensation.

PROPOSAL 3 – ADVISORY VOTE ON THE FREQUENCY OF SHAREHOLDER VOTING ON EXECUTIVE COMPENSATION

Pursuant to Section 14A of the Exchange Act, we are providing our shareholders with an opportunity to indicate how frequently Fulton should seek a non-binding advisory say-on-pay vote of shareholders. By voting on this proposal, shareholders may indicate whether they would prefer to be presented with a non-binding advisory say-on-pay vote every one, two, or three years, or abstain from voting on this matter.

An annual non-binding advisory say-on-pay vote will provide shareholders with the ability to evaluate Fulton’s compensation program each year. In formulating its recommendation, the Board determined that an annual, non-binding advisory vote on executive compensation allows shareholders to provide Fulton with regular and timely input on its compensation principles, policies and practices.

As an advisory vote, this proposal is not binding on the Board, the HR Committee or Fulton. However, Fulton’s HR Committee and the Board will take into account the outcome of the vote when considering the frequency option that receives the highest number of shareholder votes.

The Board unanimously recommends that shareholders vote “FOR” the approval of an ANNUAL shareholder vote on the compensation of Fulton’s NEOs.

PROPOSAL 4 – APPROVAL OF THE AMENDED AND RESTATED 2023 DIRECTOR EQUITY PLAN

We are asking our shareholders to approve the 2023 Director Equity Plan. The 2023 Director Equity Plan is an important compensation tool designed to: (i) align the interests of our directors with those of Fulton’s shareholders by encouraging and creating ownership of shares of common stock of Fulton; (ii) enable Fulton to be competitive among its peers and attract and retain qualified directors who contribute to Fulton’s success by their efforts, service, ability and ingenuity; and (iii) provide long-term equity awards to our directors who are responsible for the success of Fulton and who are in a position to make significant contributions toward our objectives.

Subject to shareholder approval, the Board has reserved 453,922 shares of Fulton common stock for issuance under the 2023 Director Equity Plan.

The Board unanimously recommends that shareholders vote “FOR” the approval of the 2023 Director Equity Plan.

PROPOSAL 5 – RATIFICATION OF INDEPENDENT AUDITOR

As a matter of good corporate practice, we are seeking your ratification of KPMG as our independent auditor for the fiscal year ending December 31, 2023. If our shareholders do not ratify the selection of KPMG, the Audit Committee may reconsider its selection.

For 2022, the total fees for services provided by KPMG, our current independent auditor, were \$2,713,000, all of which represented audit fees, except for \$60,000 in tax fees. Additional details about audit matters can be found beginning on page 61.

The Board unanimously recommends that shareholders vote “FOR” the ratification of the appointment of KPMG as Fulton’s independent auditor for the fiscal year ending December 31, 2023.

PROPOSAL 1 – ELECTION OF DIRECTORS

Director Nominees

The Board nominates the following 11 director nominees for election to the Board for a one-year term:

- Jennifer Craighead Carey
- Steven S. Etter
- Curtis J. Myers
- Ronald H. Spair
- Lisa Crutchfield
- George K. Martin
- Antoinette M. Pergolin
- E. Philip Wenger
- Denise L. Devine
- James R. Moxley III
- Scott A. Snyder

All the director nominees are current directors and all director nominees serve on the Fulton Bank, N.A. (“**Fulton Bank**”) Board of Directors (the “**Bank Board**”). The NCG Committee recommended, and the Board approved, the nomination of the above individuals. The Board has no reason to believe that any of its director nominees will be unable to accept nomination or to serve as a director if elected at the Annual Meeting.

The Board is currently comprised of 13 directors, all of whom were elected at the 2022 Annual Meeting of Shareholders (the “**2022 Annual Meeting**”). Messrs. Hodges and Strauss will not stand for re-election at the Annual Meeting as both directors reached Fulton’s mandatory retirement age. The Board would like to thank Messrs. Hodges and Strauss for their service and valuable contributions to the Board.

Effective at the Annual Meeting, the Board reduced the board size to 11 directors.

The Board unanimously recommends that shareholders vote “FOR” the election of each of the 11 director nominees.

Voting for Director Nominees

Vote Required

The 11 candidates receiving the highest number of votes cast at the Annual Meeting will be elected to the Board. Abstentions and broker non-votes will be counted as present at the Annual Meeting if such shares were voted on at least one non-procedural matter, but abstentions and broker non-votes will not be counted as votes cast in the election of directors.

Majority Vote Standard

Fulton’s NCG Committee recommended, and the Board adopted, a majority vote standard for uncontested director elections. In an uncontested election, any director nominee who receives a greater number of votes “withheld” from his or her election than votes “for” such election is required to promptly tender his or her resignation following certification of the shareholder vote. The NCG Committee will consider the tendered resignation and recommend to the Board whether to accept it. The Board will act on the NCG Committee’s recommendation within 90 days following certification of the shareholder vote. There is no cumulative voting for our directors.

Director Qualifications

Diverse Mix of Skills, Qualifications and Attributes

The NCG Committee and the Board believe that the 2023 director nominees provide Fulton with the right mix of skills and experience necessary for an effective Board. The NCG Committee reviews the composition of the Board on an annual basis to ensure that the Board reflects the appropriate balance of experience, skills, expertise and diversity. While the Board has not adopted a formal written policy regarding director diversity, the Board appreciates and embraces the value of Board diversity. The Board believes different points of view brought through diverse representation leads to better business performance, decision making and understanding of the needs of our diverse clients, employees, shareholders, business partners and other stakeholders.

In considering a director nominee, Fulton considers, among other things, the following factors: (i) whether the candidate is recommended by executive management, (ii) the individual’s professional and personal qualifications, including business experience, education and community and charitable activities, (iii) the individual’s familiarity with one or more of the communities in which Fulton is located or is seeking to locate and (iv) the diversity in race, national origin and gender that the individual may provide to the Board and its committees.

Based on our business, the primary areas of experience, qualification and skills typically sought by the NCG Committee in director candidates, include but are not limited to, the following:

- **Banking/Financial Services:** Experience with the banking or financial services industry to help support and grow our core business. As a bank holding company, banking and financial services experience is important to help support and grow our core business.
- **Leadership:** Experience holding significant leadership positions, particularly as a chief executive officer or head of a significant business line. It is important to have proven leaders on the Board who can oversee Fulton’s management and help us drive business strategy, growth and performance.
- **Public Company Governance:** Experience in public company governance, including corporate governance best practices and policies and managing relations with key stakeholders. It is important to have individuals on the Board who can consider and adopt applicable corporate governance practices, interact with stakeholders and understand the impacts of various policies on Fulton’s operations.
- **Finance/Accounting:** Experience in financial management and capital allocation. It is important to have individuals on the Board who can oversee our financial position and to assess our strategic objectives from a financial perspective.
- **Audit Committee Financial Expert Qualifications:** Experience in accounting, financial reporting or audit processes. As a bank holding company with multiple business lines, it is important to have directors who understand auditing and can oversee our financial position and reporting.
- **Risk Management:** Knowledge of or experience with key risk oversight or risk management functions, including data privacy and cybersecurity. Risk and risk management plays a significant role in our industry. As such, we need directors with experience in overseeing and understanding the dynamic risks we face.
- **Executive Compensation/Human Capital Resource Management:** Knowledge of or experience with executive compensation and human capital resource management strategies and oversight. It is important to have individuals on the Board who can oversee our efforts to attract, motivate and retain key talent and provide valuable insight in determining the compensation of the CEO and other executive officers.
- **Legal/Government and Regulatory Compliance:** Knowledge of or experience in regulated industries or governmental organizations. Having directors with these skills is important to the Board’s oversight of our highly regulated business that is affected by regulatory and governmental actions and is becoming more political in nature.
- **Complementary Expertise:** Skills, expertise and background in areas that add to and complement the range of skills, expertise and background of the existing directors, including in the areas of mergers and acquisitions, cybersecurity, technology, marketing and oversight of ESG programs.

Additionally, the NCG Committee may consider other areas relevant to our strategic growth and business needs and other important attributes, such as: (i) strong strategic, critical and innovative thinking, (ii) sound business judgment, (iii) high ethical standards, (iv) collegial spirit, (v) ability to debate and challenge constructively and (vi) availability and commitment to serve.

Refreshment and Retention

The Board is committed to board refreshment. Pursuant to Fulton’s Bylaws (the “**Bylaws**”), no person may be nominated for election if he or she will be 72 years old on or before the date of the annual meeting of shareholders at which he or she would stand for election. Messrs. Hodges and Strauss will not stand for re-election at the Annual Meeting as both directors reached Fulton’s mandatory retirement age.

The NCG Committee believes there is a balance between seasoned directors with knowledge of Fulton and new directors who contribute fresh ideas, perspectives and viewpoints to the Board’s deliberations. The average tenure of our director nominees as of the date of this Proxy Statement is 6.5 years ensuring fresh perspectives. Our director nomination process reflects our continued growth and our focus on having a board composed of directors who contribute to the evolving needs of Fulton while maintaining the invaluable knowledge brought by more tenured directors.

Selecting and Nominating Director Candidates

Fulton’s Corporate Governance Guidelines (the “**Guidelines**”) provide that our Board should be sufficient in size to achieve diversity in business experience, community service and other qualifications. The NCG Committee is responsible for carrying out the Board’s commitment to maintaining a balanced and diverse composition of well-qualified directors. The NCG Committee identifies candidates for membership on the Board and recommends such candidate’s nomination to the Board based on his or her ability to diversify and complement the Board’s existing strengths. The NCG Committee also considers director nominees who are recommended by non-management directors, Fulton’s CEO, other senior officers and third parties. Information on the experience, qualifications and attributes of Fulton’s director nominees is detailed under “Director Nominees” on page 10.

Our shareholders may propose director candidates for consideration by the NCG Committee by submitting the individual’s name and qualifications to the Chairman of the Board (the “**Chairman**”) or Corporate Secretary at One Penn Square, P.O. Box 4887, Lancaster, Pennsylvania 17604 in accordance with, and with such other information as may be required by, our Bylaws and Guidelines. Our NCG Committee will consider all director candidates properly submitted by our shareholders and will utilize the same criteria as director candidates not proposed by shareholders.

Nasdaq Board Diversity Matrix

The Board Diversity Matrix below presents the Board’s statistics and includes Messrs. Hodges and Strauss who are not standing for re-election at the Annual Meeting.

Board Diversity Matrix (As of December 31, 2022)

Dr. Taylor served as Executive Vice President of employee services, employment and director of human resources prior to her promotion in 2015 to Chief Human Resources Officer. Dr. Taylor joined Fulton in 1994 as the Corporate Training Director.

CORPORATE GOVERNANCE AND BOARD MATTERS

Information about Director Nominees, Directors and Independence Standards

Independence Standards

The Board determined that eight of Fulton's 11 director nominees are "independent" within the meaning of the director independence standards of the Nasdaq listing standards and U.S. Securities and Exchange Commission ("SEC") rules and regulations. Specifically, the Board determined that director nominees Messrs. Crutchfield, Devine and Pergolin and Messrs. Etter, Martin, Moxley, Snyder and Spair met the Nasdaq and SEC rules and regulations with respect to independent director requirements.

Each of the current members of the Audit, HR and NCG Committees meet the requirements for independence under the Nasdaq listing standards and SEC rules and regulations. In reviewing director independence, the Board considered the relationships and other arrangements, if any, of each director nominee. The relationships and transactions reviewed and considered are more fully described in the "Related Person Transactions" section on page 26.

Lead Director

The Guidelines provide that our Board must include a Lead Director, and the Board has determined a combined Chairman and CEO position is appropriate for Fulton. This structure permits the CEO to manage Fulton's daily operations and provides a single voice for Fulton. Fulton believes that the separation of these roles is not necessary because the Lead Director acts to counterbalance the combined Chairman and CEO position. The Board designates for a term of at least one year the independent, non-employee director who will lead the non-employee directors' executive sessions and preside at all Board meetings at which the Chairman is not present. The Lead Director will, as appropriate:

- serve as a liaison between the Chairman and the independent directors;
- approve information sent to the Board;
- approve meeting schedules to ensure that there is sufficient time for discussion of all agenda items; and
- have the authority to call meetings of the independent directors.

Mr. Moxley has served as the Lead Director and independent Executive Committee Chair since June 2018.

Executive Sessions

In 2022, the Fulton independent directors met four times in executive session without management present. Fulton's Lead Director presided over the executive sessions.

Board and Committee Evaluations

The Board and its committees, except the Executive Committee, conduct annual self-evaluations. The self-evaluations are designed to encourage open and candid feedback on both the effectiveness of the Board and its committees as a whole as well as the effectiveness of each of its members. The NCG Committee annually reports to the Board the results of these self-evaluations, and the Board and each committee discuss their respective self-evaluations.

In 2022, the NCG Committee engaged an independent third-party leadership advisory firm, experienced in corporate governance matters, to provide our Board with a board effectiveness review addressing various topics of focus that were determined in advance. Among other items, topics included board effectiveness, individual director effectiveness and contributions, committee functioning, as well as suggestions to enhance the efficiency and productivity of the Board in general. The third-party leadership advisory firm conducted extensive interviews with each member of the Board and certain members of senior management and synthesized the results and comments received during such interviews. These findings were then presented by the independent third-party leadership advisory firm to the full Board followed by review and discussion by the full Board. This third-party board effectiveness review highlighted the following key findings: (i) a strong board dynamic involving a high degree of collegiality and strong engagement and participation, (ii) an appreciation of the unique experiences and skillsets of Board members, (iii) the commitment and dedication of Board members and a desire to create value, (iv) a high degree of confidence and mutual trust in the CEO and the management team, (v) the Board's growth mindset, (vi) the strong Lead Director, Board and committee chairs and (vii) increasing focus with regard to Board meeting mechanics, Board discussions and Board composition.

Annual CEO Performance Evaluation

Each year, the non-employee directors, in conjunction with the HR Committee, review the CEO's performance over the past year in light of Fulton's performance and strategic goals and objectives.

CEO and Executive Succession Planning

Succession planning for the CEO and other key executive officers is one of the Board's key responsibilities. At least annually, the Board reviews and approves the CEO and other key executive officer succession plans. These plans include the identification of an interim successor if one should be needed. The CEO succession plan, in the event that the CEO is unwilling or unable to serve, is reviewed semi-annually with the HR Committee during an executive session of the Board. The Chief Human Resources Officer reviewed the succession planning process used by management to identify successors for each of the NEOs.

Outside Directorships

Fulton values the experience our directors bring from other boards on which they serve, but we encourage all directors to carefully consider the number of other company boards of directors on which they serve, taking into account the time required for board attendance, conflicts of interests, participation and effectiveness on these boards. Pursuant to our Guidelines, no director may serve on more than four total public company boards of directors, including the Board. Directors are asked to report all directorships, changed or new business activities, related-party relationships and public company board positions.

Contacting the Board

A Fulton shareholder can contact the Board by writing to: Board of Directors, Fulton Financial Corporation, Attention: Corporate Secretary, P.O. Box 4887, One Penn Square, Lancaster, Pennsylvania 17604. The Chairman will determine further distribution of written communications based on the nature of the communication.

Shareholder Engagement

The Board and management regularly engage with shareholders and will meet with shareholders that attend the Annual Meeting. In 2022, Fulton management engaged with institutional shareholders at various investor events.

Risk Oversight

Board's Role in Risk Oversight

Fulton's risk appetite is focused on enhancing shareholder value while managing risk at an acceptable level. Fulton's Board, and the committees that monitor risk, assess and oversee risk management, including the establishment, tracking and reporting of key risk indicators across our strategic, reputation, credit, market, liquidity, operational, legal, compliance and regulatory risk pillars. Fulton also engages in continuing risk assessments, capital management and stress testing to ensure that Fulton has adequate capital to absorb potential losses under various stress scenarios. The Board specifically delegates certain risk oversight functions to the Risk, HR, Audit and NCG Committees as follows:

- **Risk Committee:** Responsible for our enterprise risk oversight and regularly informing the Board about risks. The Board and the Risk Committee regularly review information regarding our exposure to strategic, reputation, credit, market, liquidity, operational, legal, compliance and regulatory risks as well as Fulton's strategies to monitor, control and mitigate its exposure to these risks.
- **HR Committee:** Responsible for risk oversight with respect to our compensation plans.
- **Audit Committee:** Responsible for risk management oversight with respect to financial reporting and the evaluation and assessment of the adequacy of our internal controls.
- **NCG Committee:** Responsible for risk oversight associated with the independence of the Board, potential conflicts of interest and governance matters.

Management's Role in Risk Oversight

Fulton's Chief Risk Officer and members of Fulton's Enterprise Risk Management Committee ("ERMC"), a management-level risk committee, oversee existing and organization-wide emerging risks and serve as the primary review function prior to escalation to the Risk Committee and the Board. This officer-level risk management committee provides management-level risk oversight, including oversight of Fulton's risk management and compliance programs.

Risk Appetite Statement

On an annual basis, the Board adopts a formal Risk Appetite Statement ("RAS") that details our risk management approach and the qualitative and quantitative parameters within which Fulton executes its business strategies. The RAS also outlines the general structure within which Fulton manages risk while balancing our customer and community needs and enhancing shareholder value.

Risk & Controls

Fulton's framework for enterprise risk management consists of three "lines of defense." Our first line of defense, our lines of business, bank operations, shared services operations and certain corporate functions have primary responsibility for risk management and compliance, including process deployment, risk identification, training and reporting. Our second line of defense, our independent risk management units, which include, but are not limited to, risk management, compliance, loan review, vendor risk management, fraud risk management, Bank Secrecy Act compliance and information security, is responsible for: (i) overseeing risk, (ii) defining governance requirements for risk management and compliance and (iii) monitoring front line unit risk and compliance activities in discrete areas. Our third line of defense, our internal audit function, independently validates the effectiveness of internal controls and risk management activities within the front-line independent risk management units and periodically reports its results to management and the Board.

Board's Role in Cybersecurity Risk

Cybersecurity risk is a key consideration in Fulton's operational risk management. Under the direction of our Chief Information Security Officer, Fulton maintains a formal information security management program that is subject to oversight by, and reports to, the Risk Committee. Given the nature of Fulton's operations and business, including Fulton's reliance on relationships with various third-party providers in the delivery of financial services, cybersecurity risk may manifest itself through various business activities and channels. As such, cybersecurity risk is considered an enterprise-wide risk subject to control and monitoring at various levels of management throughout the business. In accordance with its charter, the Risk Committee oversees and reviews reports on significant matters of actual, threatened or potential breaches of corporate security, including cybersecurity.

Board's Role in Consumer Financial Protection

Under the direction of Fulton's Chief Compliance Officer, Fulton maintains a consumer compliance program that is subject to oversight of, and reporting to, the Risk Committee. The consumer compliance program includes regular risk assessments, policy updates, compliance monitoring, involvement in new product and significant project initiatives, regulatory change management, independent audit testing and a compliance training program administered by Fulton's Center for Learning and Talent Development. Compliance courses are mandatory and are assigned based upon an employee's role. Fulton's compliance management system also includes customer feedback and complaint monitoring. Our compliance management system is subject to review and examination by various regulatory agencies, including the Office of the Comptroller of the Currency and the Consumer Financial Protection Bureau.

Meetings and Committees of the Board

Meeting Attendance

During 2022, the Board met 12 times. In 2022, each director attended at least 75% of the meetings of the Board and the committees on which he or she served.

Unless their absence is excused, Fulton expects directors to attend the Annual Meeting. Out of 13 of our then-incumbent directors, 11 attended the 2022 Annual Meeting.

Other Board Committees

We believe our Board has created a sound committee structure designed to help the Board carry out its responsibilities in an effective and efficient manner. While the Board may form, from time to time, ad hoc or other special purpose committees, the Board has five regular standing committees: Audit, Executive, HR, NCG and Risk.

Each of the Audit, HR, NCG and Risk Committees meets regularly and at least on a quarterly basis. The committees, typically through their committee chairpersons, routinely report their actions to, and discuss their recommendations with, the full Board.

The Board has determined that each of the current members of the Audit, HR and NCG Committees is “independent” within the meaning of the applicable SEC rules and Nasdaq listing standards.

The names of the members (chairpersons and vice chairpersons specifically noted) as of December 31, 2022 and highlights of some of the key oversight responsibilities of the Board committees are set forth below.

Audit Committee
<p>Members: Denise L. Devine (Chair), Ronald H. Spair (Vice Chair), Steven S. Etter, George W. Hodges, Antoinette M. Pergolin</p> <p>Meetings in 2022: 13</p> <p>Key Oversight Responsibilities:</p> <ul style="list-style-type: none"> • pre-approval of audit and non-audit services; • the appointment, evaluation, retention or termination of the independent auditor; • compensation and general oversight of the independent auditor; • meeting with the independent auditor to review the scope of audit services; • reviewing and discussing with management and the independent auditor annual and quarterly financial statements and related disclosures; • overseeing the internal audit function; • reviewing related person transactions; and • establishing procedures and handling complaints concerning accounting, internal accounting controls or auditing matters. <p>The Board has determined that each member of the Audit Committee satisfies the requirements established by the SEC for qualification as an “audit committee financial expert,” and each is independent under the Nasdaq listing standards and rules of the SEC.</p>
HR Committee
<p>Members: Mark F. Strauss (Chair), Lisa Crutchfield (Vice Chair), Denise L. Devine, Steven S. Etter, George W. Hodges, James R. Moxley III, Ronald H. Spair</p> <p>Meetings in 2022: 9</p> <p>Key Oversight Responsibilities:</p> <ul style="list-style-type: none"> • approving or recommending to the Board compensation for the CEO and other NEOs; • administration of Fulton’s cash and equity-based incentive compensation plans, including the Employee Stock Purchase Plan and the Fulton Financial Corporation 401(k) Retirement Plan (the “401(k) Plan”); • approving employment agreements for the NEOs and Fulton’s senior executive officers; and • fulfilling other broad-based compensation, benefits and human resources duties.

NCG Committee
<p>Members: Lisa Crutchfield (Chair), Scott A. Snyder (Vice Chair), James R. Moxley III, Mark F. Strauss</p> <p>Meetings in 2022: 8</p> <p>Key Oversight Responsibilities:</p> <ul style="list-style-type: none"> • recommending to the Board nominees for election to the Board; • assisting the Board with corporate governance matters, including the review and approval of Fulton’s Code of Conduct (the “Code of Conduct”) and the Guidelines; • creating and administering the procedures used by directors in conducting Board evaluations; • determining whether Fulton’s directors and the NEOs are in compliance with Fulton’s stock ownership guidelines; and • providing oversight of Fulton’s ESG strategy as well as Fulton’s corporate social responsibility reporting.
Risk Committee
<p>Members: Scott A. Snyder (Chair), Jennifer Craighead Carey (Vice Chair), George K. Martin, Curtis J. Myers (ex-officio member), Antoinette M. Pergolin, E. Philip Wenger (ex-officio member)</p> <p>Meetings in 2022: 9</p> <p>Key Oversight Responsibilities:</p> <ul style="list-style-type: none"> • overseeing risk management functions and practices; • overseeing established practices, processes and controls employed to manage Fulton’s enterprise-wide risk; • upon recommendation of the ERMC, reviewing and recommending to the Board Fulton’s risk management framework and enterprise risk management policy; and • upon the recommendation of the ERMC, reviewing and recommending to the Board for its approval, Fulton’s RAS. <p>The Chair of the Risk Committee is an independent director determined by Fulton’s Board to possess the requisite experience in identifying, assessing and managing risk exposures at large, complex financial institutions.</p>
Executive Committee
<p>Members: James R. Moxley III (Chair), Denise L. Devine (Vice Chair), Lisa Crutchfield, Scott A. Snyder, Mark F. Strauss, E. Philip Wenger</p> <p>Meetings in 2022: 0</p> <p>Key Oversight Responsibilities: authorized to exercise the powers of the Board between board meetings in a limited capacity.</p>

Committee Governance

The Board has adopted a written charter for each of the Audit, HR, NCG and Risk Committees that are available on Fulton’s website, www.fultonbank.com, under “Investor Relations — Overview — Governance Documents.” The Board reviews the committees’ charters, and each committee reviews its own charter, on at least an annual basis.

The charters provide that the committees have adequate resources and authority to discharge their responsibilities, including appropriate funding for the retention of external consultants or advisors as the committees deem necessary and appropriate.

HR Committee Interlocks and Insider Participation

For 2022, the HR Committee was comprised of Messes. Crutchfield and Devine and Messrs. Strauss, Etter, Hodges, Moxley and Spair, each of whom is an independent director. None of these individuals is or has been an officer or employee of Fulton during the last fiscal year or as of the date of this Proxy Statement, or is serving or has served as a member of the compensation committee (or other board committee performing equivalent functions) of another entity that has an executive officer serving on the compensation committee (or other board committee performing equivalent functions). No executive officer of Fulton served as a director of another entity that had an executive officer serving on the HR committee (or other board committee performing equivalent functions). Finally, no executive officer of Fulton served as a member of the compensation committee (or other board committee performing equivalent functions) of another entity that had an executive officer serving as a director of Fulton.

Corporate Governance Guidelines

The Board has developed and adopted a set of corporate governance principles to promote the functioning of the Board and its committees and to establish a common set of expectations as to how the Board should perform its functions. Fulton's Guidelines address, among other matters: (i) the size of the Board, (ii) director qualifications, (iii) the majority vote standard with respect to the election of directors, (iv) service on other boards and director change in status, (v) meeting attendance and review of meeting materials, (vi) director access to management and independent advisors, (vii) the position of Lead Director, (viii) executive sessions, (ix) CEO evaluation and succession planning, (x) Board and committee evaluations, (xi) stock ownership guidelines, (xii) communications by interested parties, (xiii) Board and committee minutes and (xiv) the Code of Conduct.

The current Guidelines can be obtained, without cost, by writing to the Corporate Secretary at One Penn Square, P.O. Box 4887, Lancaster, Pennsylvania 17604. The Guidelines are available on Fulton's website at www.fultonbank.com under "Investor Relations — Overview — Governance Documents."

Code of Conduct

The Board has adopted the Code of Conduct that governs the conduct of its directors, officers and employees. Our Code of Conduct sets forth specific standards of conduct that we expect all of our employees and directors to follow so that Fulton conducts its business in accordance with the highest ethical standards of the financial industry and complies with all laws regulating the conduct of Fulton and its employees. In addition, we maintain an ethics hotline for employees to use on an anonymous basis. A current copy of the Code of Conduct can be obtained, without cost, by writing to the Corporate Secretary at One Penn Square, P.O. Box 4887, Lancaster, Pennsylvania 17604. The current Code of Conduct is available on Fulton's website at www.fultonbank.com under "Investor Relations — Overview — Governance Documents."

ESG Overview

We are a community-focused, purpose-driven organization with a deep, long-standing commitment to promoting sound ESG practices. We recognize that good practices and effective oversight and management of such matters are essential in driving success for our shareholders, the communities in which we operate as well as other stakeholders, including customers, employees and third-party vendors. Our Board and committees provide oversight of ESG matters as we continue to make progress in further enhancing our ESG approach, including promoting the success and well-being of our employees.

ESG Oversight

The Board designated the NCG Committee to be the Board-level committee responsible for oversight of our ESG strategy and corporate social responsibility reporting. We have a cross-functional management Corporate Social Responsibility Leadership Committee to coordinate Fulton's ESG program that provides regular updates to the NCG Committee.

Employees

We recognize a crucial element of a successful organization is having a diverse, equitable and inclusive culture and workforce that encourages employees to share their opinions and different perspectives, and fosters a culture of respect. In recent years, we undertook many initiatives to increase our diversity, equity and inclusion practices, including, providing allyship training to leaders, conducting senior leader listening tours on diversity, equity and inclusion topics and supporting the launch of several employee resource groups.

We continually invest in our employees. We established the Center for Learning & Talent Development that delivers timely and relevant learning opportunities to help employees cultivate their strengths and enrich their careers. Our Employee Experience Council reviews data from employee engagement surveys that lead to action plans in response to this employee feedback. We measure progress based on these employee engagement surveys, and success toward meeting established performance goals is reflected in the compensation of certain executives with an employee engagement scorecard metric.

Community

As an active, integral member of local communities in which we operate, we recognize the importance of supporting communities, including through charitable giving as well as providing employees with volunteering opportunities in their communities. A key part of our mission is to serve low- and moderate-income individuals, minorities and small businesses operating in underbanked and underserved areas.

We established and fund our Fulton Forward Foundation (“**Fulton Forward**”) to make direct grants to groups in a manner aligned with our four Fulton Forward® pillars detailed below. Our investment in opportunities for people in our communities to improve their lives includes focusing people and financial resources on philanthropic and volunteer activities to advance the Fulton Forward pillars that promote:

- Affordable Housing and Home Ownership
- Job Training and Workforce Development
- Financial Education and Economic Empowerment
- Diversity, Equity and Inclusion

To ensure fair and equitable customer treatment, we established a fair lending compliance program consisting of policies, procedures, training, monitoring and testing controls to ensure compliance with Fair Lending laws. The Fair and Responsible Banking Strategy Committee, assisted by the Fair and Responsible Banking Director, oversees the development and execution of fair and responsible banking strategic programs and initiatives.

Environment

As responsible environmental stewards, we strive to reduce the environmental impact of our activities. We are mindful of our operational footprint and deploy efficient land and building practices to minimize the resources used in the communities in which we operate.

In 2022, we formed a working group of senior officers from different departments across our organization to further understand the climate-related opportunities and risks in our business. The working group is supporting us by:

- actively seeking ways to reduce our operational impact on the environment;
- incorporating climate-related risk management into our business practices;
- ensuring we have financial products and services that support our customers’ sustainability journeys; and
- engaging our vendors on sustainability.

We created a centralized Strategic Sourcing and Procurement department that seeks to reduce the costs of goods and services we purchase. These initiatives were created to reduce our overall environmental impact.

The Risk Committee has oversight responsibility for enterprise risks including climate risk factors. The Risk Committee evaluates Fulton’s established risk appetite and considers emerging risk factors such as ESG in its regular oversight and monitoring of management’s risk reporting and analysis. Climate risk factors in the credit and operational risk domains are considered in the risk appetite and monitoring processes. For more details on our Risk Committee’s activities, see “Board’s Role in Risk Oversight” on page 19.

ESG Reporting

In 2021, we published our Corporate Social Responsibility Report (the “**CSR**”) that highlights our approach to changing the lives of our customers, employees, members of our communities and other stakeholders for the better. The CSR can be found on Fulton’s website, www.fultonbank.com, under “About Fulton Bank 2021 Corporate Social Responsibility Report.” The content of the CSR and our website is not incorporated by reference into this Proxy Statement.

As part of our continued emphasis on engaging with stakeholders surrounding our ESG efforts, we plan to publish a 2022 CSR report that will include additional disclosures in alignment with the Sustainability Accounting Standards Board Standards and the United Nations Sustainable Development Goals.

Human Capital

Our workforce, excluding temporary employees and interns, as of December 31, 2022 consisted of approximately 3,300 employees, compared to approximately 3,200 employees as of December 31, 2021. In 2022, we experienced lower employee turnover than in 2021.

Employee Engagement and Retention. We place a premium on having a highly engaged workforce because we believe engaged employees tend to perform at a higher level, support our success and are more likely to remain with our organization. We conduct an annual survey of our workforce to measure employee engagement, assess employee morale and to help identify areas of the employee experience that could be improved. We then task our leaders with developing and implementing communication and action plans aimed at engaging with their respective teams to gain a better understanding of the results of the assessment and to foster enhanced future engagement.

Our leaders are held accountable for employee engagement scores for the teams they lead as each leader's engagement score is included in their annual performance review. Additionally, aggregated employee engagement assessment results are reported to, and discussed by, our Board as we believe such assessment results are a key indicator of the health and well-being of our workforce.

Culture, Diversity and Inclusion. We believe that building relationships matters. This belief includes relationships with clients and customers and relationships among employees. In recent years, we have placed significant emphasis on developing our corporate culture, and we now consider our culture to be one of the primary components of our continuing success. Our culture-shaping program, The Fulton Experience, is a highly engaging program that is intended to create new ways of thinking about employees' individual roles, how employees collaborate, and how we and our employees grow together. We believe that we succeed as a company because we value our employees' teamwork and foster a culture around that belief. More recently, we have been applying that same emphasis to the development of a diverse, equitable, and inclusive workforce.

Compensation and Rewards. We invest in our workforce by offering competitive salaries, incentives, and benefits that are part of Fulton's pay for performance culture. This is implemented through incentive programs that are tailored to drive performance in the business units as well as at the corporate level.

Workforce Recruitment and Development. We recruit our workforce, filling both vacant and new positions, largely by posting these positions on our website and on social media platforms, through employee referrals and through talent recruiting efforts by internal and third-party recruiters. We provide for professional development of new and existing employees largely through the efforts of our Center for Learning and Talent Development which develops and administers a wide variety of training programs for professional development. We also provide for a number of off-site, third-party offerings in which employees can further enhance their skills, knowledge and leadership potential. One such example, afforded to employees with future leadership potential, is through our participation in the Stonier School of Banking sponsored by the American Bankers Association.

Safety, Health and Wellness. The safety, health and wellness of our employees remains a top priority. In addition to traditional healthcare, paid time off, paid parental leave and retirement benefits, we provide emotional wellness and work-life services through our Employee Assistance Program. Through the COVID-19 pandemic, we implemented measures to maintain the safety of employees and customers at our financial centers and other facilities and, where appropriate, adopted remote and hybrid onsite-remote working arrangements. As the impacts of the COVID-19 pandemic have subsided, we continue to iterate our approach to remote and hybrid working arrangements to support new ways of working while strengthening employee engagement.

Related Person Transactions

In 2022, certain Fulton directors and executive officers, including certain NEOs, their family members and the companies with which they are associated, were customers of, and/or had banking transactions with, Fulton Bank. These transactions included deposit accounts, trust relationships, loans and other financial products and services provided in the ordinary course of business by Fulton Bank. All loans and commitments to lend made to these persons and to the companies with which they are associated: (i) are made in the ordinary course of business, (ii) are made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to Fulton Bank and (iii) did not involve more than a normal risk of collectability or present other unfavorable features. It is anticipated that similar transactions will be entered into in the future.

In 2022, Fulton had one related person transaction in excess of \$120,000 that included legal fees to Barley Snyder in the amount of \$2.1 million. Ms. Craighead Carey, a director nominee, is a partner at Barley Snyder with less than a 10% interest in Barley Snyder. In 2022, Ms. Craighead Carey was not directly engaged as counsel for any Fulton-related matter, and she did not bill any hours on Fulton engagements.

In 2022, there were no family relationships among Board members, director nominees and Fulton executive officers requiring disclosure.

Fulton does not have a separate related person transactions policy. Under the Code of Conduct, directors must provide prompt notice to Fulton of all new or changed business activities, related person relationships and board directorships. The Audit Committee is charged with the oversight of and responsibility to conduct, on an annual basis, a review of all transactions with related persons as defined in applicable SEC regulations.

In February 2023, the Audit Committee reviewed and approved a report of all 2022 related person transactions.

Director Compensation

Our compensation for our non-employee directors is designed to be competitive with other financial institutions that are similar in size, complexities or business models. Our Board reviews Fulton's non-employee director compensation on an annual basis with the assistance of the HR Committee.

Elements of Director Compensation

Non-employee directors receive a combination of a cash retainer and equity compensation for service on the Board and its committees. Fulton-employed directors do not receive individual meeting fees or other director-related compensation. In 2022, Fulton granted equity awards in the form of restricted stock units to its non-employee directors pursuant to the Amended and Restated Directors' Equity Participation Plan (the "**2019 Director Equity Plan**"). These restricted stock units vest one year after their grant date.

Fulton reimburses directors for Board-related expenses and provides non-employee directors with a \$50,000 term life insurance policy. Certain directors participate in Fulton's Deferred Compensation Plan (the "**DCP**") that allows a director to elect to defer a portion of his or her cash director fees. Annual cash retainers are paid in quarterly installments.

Below is the amount of compensation paid to non-employee directors in 2022:

2022 Fees	Payment Amounts
Annual director retainer	\$70,000 in cash
Annual retainer paid to the Lead Director	\$30,000 in cash
Annual retainer paid to committee chairpersons ¹	\$12,500 in cash
Annual equity retainer ²	\$70,000

¹ A cash retainer is not paid to the chairperson of the Executive Committee.

² The number of restricted stock units was based on the June 1, 2022 grant date, rounded up to the next whole share. The restricted stock units accrue dividend equivalents and vest one year after the grant date.

2022 Director Compensation

The following table details the compensation paid to each 2022 Fulton non-employee director:

2022 DIRECTOR COMPENSATION TABLE

Name	Fees Earned or Paid in Cash (\$)	Stock Awards ¹ (\$)	All Other Compensation ² (\$)	Total (\$)
Jennifer Craighead Carey	70,000	70,000	-	140,000
Lisa Crutchfield	82,500	70,000	-	152,500
Denise L. Devine	77,813	70,000	-	147,813
Steven S. Etter	70,000	70,000	-	140,000
Carlos E. Graupera ³	29,167	-	-	29,167
George W. Hodges ³	70,000	70,000	-	140,000
George K. Martin	70,000	70,000	-	140,000
James R. Moxley III	100,000	70,000	-	170,000
Antoinette M. Pergolin ⁴	44,667	70,000	16,667	131,334
Scott A. Snyder	82,500	70,000	-	152,500
Ronald H. Spair	74,688	70,000	-	144,688
Mark F. Strauss ³	82,500	70,000	-	152,500
Ernest J. Waters ³	29,167	-	-	29,167

¹ The amounts in this column consist of a \$70,000 stock award granted on June 1, 2022 consisting of 4,465 stock units having a grant date fair value of \$15.68 per share, the closing price of Fulton common stock on June 1, 2022. These stock awards vest on June 1, 2023.

² The amount excludes perquisites and other personal benefits with an aggregate value of less than \$10,000.

³ Messrs. Graupera and Waters retired at the 2022 Annual Meeting. Messrs. Hodges and Strauss will not stand for re-election at the Annual Meeting as both directors reached Fulton's mandatory retirement age.

⁴ This amount represents Ms. Pergolin's director fees for service on the Bank Board prior to her election to the Board at the 2022 Annual Meeting.

Stock Ownership Guidelines

At the December 31, 2022 Board meeting, the Board revised the Guidelines that previously required each director to own at least \$300,000 of Fulton common stock. Our Guidelines now require that each director own at least \$350,000 of Fulton common stock no later than: (i) five calendar years after becoming a director or (ii) five calendar years after the adoption of the revised Guidelines. As of December 31, 2022, Messes. Craighead Carey and Pergolin and Messrs. Martin and Snyder are on track to achieve the stock ownership guideline percentage within five years of becoming subject to the guidelines. The remaining directors have satisfied the stock ownership guidelines.

Security Ownership of Directors, Nominees, Management and Certain Beneficial Owners

The following table sets forth the beneficial ownership of Fulton common stock at the close of business on March 1, 2023 (the “**Record Date**”) by: (i) each director, (ii) each director nominee, (iii) each NEO and (iv) Fulton’s directors and executive officers as a group. The following information is based on information furnished by the respective directors and officers.

Directors and Director Nominees who are not NEOs	Total Shares Beneficially Owned ^{1,2}	% of Class
Jennifer Craighead Carey	4,583	*
Lisa Crutchfield	11,938	*
Denise L. Devine ³	22,158	*
Steven S. Etter	296,232	*
George W. Hodges ⁴	36,123	*
George K. Martin ⁵	11,980	*
James R. Moxley III ⁶	165,431	*
Antoinette M. Pergolin	3,085	*
Scott A. Snyder	6,540	*
Ronald H. Spair ⁷	19,072	*
Mark F. Strauss ⁸	26,509	*
NEOs		
E. Philip Wenger ⁹	461,755	*
Curtis J. Myers ¹⁰	165,196	*
Mark R. McCollom	36,674	*
Angela M. Snyder	33,948	*
Natasha R. Luddington	-	*
All Directors and Executive Officers as a group (22 persons)	1,633,655	0.98%

* Represents less than 1.0% of the outstanding shares of Fulton’s common stock calculated in accordance with Rule 13d-3 of the Exchange Act.

¹ For purposes of this table, “beneficial ownership” is determined in accordance with Rule 13d-3 under the Exchange Act, pursuant to which a person or group of persons is deemed to have “beneficial ownership” of any shares of common stock that such person has the right to acquire within 60 days of the Record Date, including restricted stock. Unless otherwise indicated, the nature of the beneficial ownership is sole voting and investment power but are not deemed to be outstanding for the purposes of computing the percentage ownership of any other person.

² Includes 22,431 shares issuable upon the exercise of vested stock options, which have been treated, in all cases, as outstanding shares for purposes of calculating the percentage of outstanding shares owned by each individual and as a group.

³ Ms. Devine’s ownership includes 1,000 shares held jointly with her spouse.

⁴ Mr. Hodges’ ownership includes: (i) 21,430 shares held in a 401(k) plan, (ii) 300 shares held in an irrevocable trust for his children and (iii) 14,393 shares held by The Hodges Family Foundation, Inc. (the “**Hodges Foundation**”). Mr. Hodges has disclaimed beneficial ownership of the shares held by the Hodges Foundation.

⁵ Mr. Martin’s ownership includes 4,155 shares held in an individual retirement account and 125 shares held jointly with his spouse.

⁶ Mr. Moxley’s ownership includes: (i) 39,115 shares held by The Moxley Family Trust, (ii) 1,279 shares held solely by his spouse, (iii) 19,182 shares held by Mr. Moxley as custodian for his children and (iv) 28,000 shares held in a 401(k) plan.

⁷ Mr. Spair’s ownership includes 10,000 shares held jointly with his spouse.

⁸ Mr. Strauss’ ownership includes 4,977 shares held jointly with his spouse and 6,426 shares held in an individual retirement account.

⁹ Mr. Wenger’s ownership includes: (i) 144,297 shares held jointly with his spouse, (ii) 96,627 shares held in the 401(k) Plan, (iii) 3,711 shares held in the 401(k) Plan by his spouse and (iv) 406 shares held by Mr. Wenger as custodian for his children.

¹⁰ Mr. Myers’ ownership includes: (i) 54,837 shares held in the 401(k) Plan, (ii) 10,877 shares that may be acquired pursuant to the exercise of vested stock options and (iii) 14,109 shares held jointly with his spouse.

Owners of More Than Five Percent

The following table sets forth information as to those persons or entities believed by the Company to be beneficial owners of more than 5% of Fulton’s outstanding shares of common stock on the Record Date or as represented by the owner or as disclosed in certain reports regarding such ownership filed by such persons with Fulton and with the SEC, in accordance with Sections 13(d) and 13(g) of the Exchange Act. Other than those persons listed below, Fulton is not aware of any person, as such term is defined in the Exchange Act, that beneficially owns more than 5% of Fulton’s common stock as of the Record Date.

Name and Address of Beneficial Owner	Shares Owned	% of Class ¹
BlackRock, Inc.² 55 East 52nd Street New York, NY 10055	22,591,402	13.5%
The Vanguard Group³ 100 Vanguard Blvd. Malvern, PA 19355	17,444,943	10.42%
Dimensional Fund Advisors LP⁴ Building One 6300 Bee Cave Road Austin, TX 78746	12,159,090	7.3%

¹ Based on 166,110,774 shares of Fulton common stock issued and outstanding as of the Record Date.

² Based on a Schedule 13G/A filed by BlackRock, Inc. with the SEC on January 26, 2023 that reported: (i) sole voting power as to 21,800,693 shares of Fulton common stock and (ii) sole dispositive power as to 22,591,402 shares of Fulton common stock.

³ Based on a Schedule 13G/A filed by The Vanguard Group with the SEC on February 9, 2023 that reported: (i) sole voting power as to zero shares of Fulton common stock, (ii) sole dispositive power as to 17,159,316 shares of Fulton common stock, (iii) shared voting power as to 125,132 shares of Fulton common stock and (iv) shared dispositive power as to 285,627 shares of Fulton common stock.

⁴ Based on a Schedule 13G/A filed by Dimensional Fund Advisors LP with the SEC on February 10, 2023 that reported: (i) sole voting power as to 11,962,838 shares of Fulton common stock and (ii) sole dispositive power as to 12,159,090 shares of Fulton common stock.

PROPOSAL 2 – ADVISORY VOTE ON EXECUTIVE COMPENSATION

Proposal

Pursuant to the Dodd-Frank Act and Section 14A of the Exchange Act, we are providing our shareholders with the opportunity to vote on a non-binding advisory proposal at the Annual Meeting to approve the compensation of Fulton's NEOs, as discussed in this Proxy Statement, including the CD&A, compensation tables and narrative discussion. This proposal, commonly known as a "say-on-pay" proposal, gives shareholders the opportunity to endorse or not endorse Fulton's executive compensation program. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our NEOs and the philosophy, policies and practices described in this Proxy Statement.

We ask our shareholders to indicate their support for our executive compensation program for our NEOs and vote "FOR" the following resolution at the Annual Meeting:

"RESOLVED, that the compensation paid to Fulton's Named Executive Officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby APPROVED."

As an advisory vote, this proposal is not binding on the Board, the HR Committee or Fulton. The HR Committee, however, values the opinions expressed by our shareholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for our NEOs. The Board believes that the compensation of our NEOs is appropriate and should be approved on an advisory basis by our shareholders.

The Board unanimously recommends that shareholders vote "FOR" the approval of the compensation paid to Fulton's NEOs as disclosed in this Proxy Statement, including the CD&A, compensation tables and narrative discussion.

Vote Required

The affirmative vote of a majority of the shares for which votes are cast on the proposal at the Annual Meeting is needed to approve this proposal. Abstentions and broker non-votes will not be counted as votes cast and, therefore, will not affect this proposal. Further, the failure to vote, either by proxy or in person, will not have an effect on this proposal. Unless instructions to the contrary are specified in a proxy properly voted and returned through available channels, the proxies will be voted "FOR" this proposal.

INFORMATION CONCERNING EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

In this CD&A we explain the design of our 2022 executive compensation program for our CEO, Chief Financial Officer (“CFO”) and our three other highest paid executive officers, who we collectively refer to as our “NEOs.” The HR Committee has designed our NEO compensation program to: (i) align NEOs’ interests with the interests of our shareholders, (ii) pay for performance and (iii) attract, motivate and retain executive officers.

Executive Summary

Our 2022 NEOs are listed below:

Named Executive Officers	
E. Philip Wenger:	Chairman and CEO ¹
Curtis J. Myers:	President and Chief Operating Officer ²
Mark R. McCollom:	Senior Executive Vice President and CFO
Angela M. Snyder:	Senior Executive Vice President and Chief Banking Officer
Natasha R. Luddington:	Senior Executive Vice President, Chief Legal Officer and Corporate Secretary

¹ Mr. Wenger retired as Chairman and CEO on December 31, 2022.

² Effective January 1, 2023, Mr. Myers became Chairman, CEO and President.

The following tables highlight the key factors and outcomes with respect to our 2022 financial performance and executive compensation program:

2022 Key Accomplishments and Financial Highlights
Earnings Per Share: Diluted earnings per share (“EPS”) on a both generally accepted accounting principles (“GAAP”) and operating basis of \$1.67 and \$1.76 per share, respectively.*
Return on Average Equity: Return on average equity of 11.69% and operating return on average equity (“ROE”) of 12.33%, respectively.*
Acquisition: Completed the acquisition of Prudential Bancorp, Inc. and its subsidiary, Prudential Bank.
Corporate Responsibility: Released our inaugural CSR.
Total Loans: Exceeded \$20 billion in total loans.
Dividends: Declared \$0.66 per share in dividends.

* For more information regarding the calculation of non-GAAP financial measures included in this section, please refer to the section titled “Non-GAAP Reconciliations” included in Annex A to this Proxy Statement.

2022 Executive Compensation Highlights
Performance Based Compensation: 73% of CEO total target compensation was performance-based.
Say-on-Pay Results: Approximate 96.95% approval of our executive compensation program.
Annual Incentive Results: Paid out at 141.5% of target.
Long-Term Incentives (“LTI”): Granted in the form of performance shares that vest based on relative total shareholder return (“TSR”) and pre-determined profit targets.
2019 Long-Term Performance-Based Awards Results: Vested in 2022 at 72.26% of target based on the following performance goals: (i) TSR (three year) and return on average assets (“ROA”) (one year) target and (ii) a profit target.

Executive Compensation Philosophy

Our executive compensation philosophy and program are intended to achieve the following three objectives:

Align NEOs interests with shareholder interests	The interests of the NEOs should be closely aligned with our shareholders using key financial measures that result in long-term shareholder value.
Link pay to performance	A close link should exist between the NEOs' pay and our overall performance on both a short-term and long-term basis. We seek to reward our NEOs for their contributions to our financial and non-financial achievements and to differentiate rewards to our NEOs based on their individual contributions.
Attract, motivate and retain executive officers	Our compensation program is designed to motivate and retain our highly talented executive officers.

Summary of Executive Compensation Practices

Our HR Committee regularly reviews our compensation practices and policies to ensure that they further our executive compensation philosophy. Below is a summary of certain of our corporate governance and compensation practices. The HR Committee believes our corporate governance and compensation practices closely align with the interests of our shareholders.

Corporate Governance and Compensation Practices

What We Do:	What We Do Not Do:
<ul style="list-style-type: none"> ✓ HR Committee comprised exclusively of independent directors ✓ Align our executive compensation policy with business goals and shareholder interests ✓ Annual say-on-pay vote ✓ Independent executive compensation consultant ✓ Pay for performance – a majority of executive compensation is variable or at risk ✓ Long-term incentive compensation aligned with shareholder interests and financial objectives ✓ NEO stock ownership requirements ✓ Comprehensive clawback policy ✓ Evaluate and update the composition of our peer group annually ✓ Maintain effective balance of short- and long-term incentives ✓ Double trigger change-in-control provisions ✓ Annual incentive compensation risk assessment ✓ Cap on NEO incentive compensation payments 	<ul style="list-style-type: none"> X Permit hedging and pledging by executives X Spring-loading with respect to equity awards X Provide excise tax gross-ups in any new NEO employment or change-in-control agreements X Reward executives for taking excessive, inappropriate or unnecessary risks X Allow the repricing or backdating of equity awards X Provide multi-year guaranteed salary increases or non-performance bonus arrangements X Rely exclusively on one metric in our executive compensation program X Award incentives for below-threshold performance

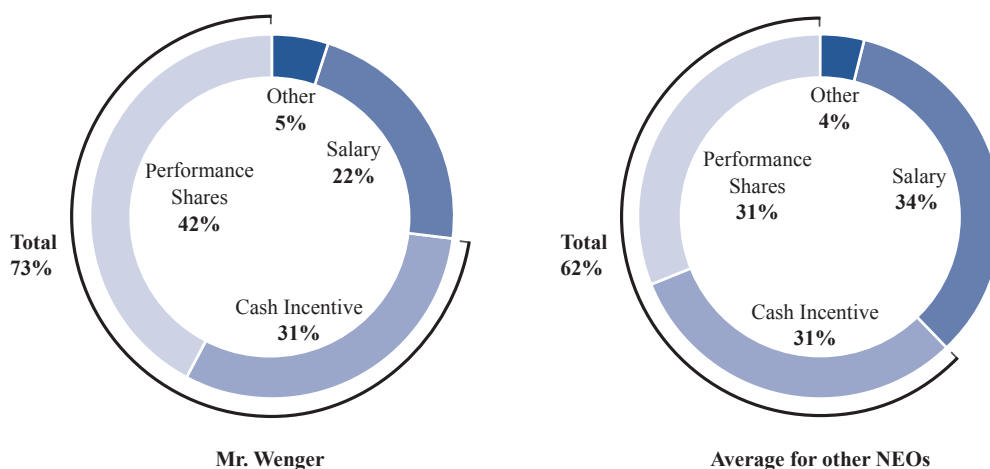

Pay for Performance

Our compensation philosophy is designed to align pay for performance on both a short- and long-term basis. We believe that the compensation of our NEOs should reflect Fulton’s overall performance as well as each individual NEO’s specific contributions to that performance.

We believe that a significant portion of our NEOs’ total compensation should be “performance-based” and “at risk,” meaning that its payment or vesting is based upon the achievement of predefined financial and performance metrics. We also believe that a significant portion should be variable, meaning that actual compensation paid to our NEOs will increase or decrease based on the achievement of pre-determined performance metrics.

A significant portion of pay “at-risk” motivates our executives to achieve performance goals and create value for our shareholders. The annual incentive bonus awards are earned by our executives for the achievement of short-term performance goals and how well we perform relative to the industry and our peers. The amount paid is tied to the level of achieved performance, with higher payout levels reflecting superior performance. Our long-term, performance-based, equity awards reward our executives for achieving long-term performance goals while increasing shareholder value. A portion of our long-term incentive awards are also tied to our performance relative to our peer group.

As reflected in the charts below, 73% of our CEO’s target total 2022 compensation was “variable” or “at-risk,” and an average of 62% of our other NEOs’ target total 2022 compensation was “variable” or “at-risk.”

Executive Compensation Decision-Making Process

HR Committee

The HR Committee is currently comprised of seven independent directors who are appointed on an annual basis.

The HR Committee is responsible for establishing and overseeing our executive compensation program in alignment with Fulton’s compensation philosophy. We do not have an exact formula or policy with regard to the allocation of compensation between cash and non-cash elements. The HR Committee determines the amount and type of our executive compensation considering: (i) publicly available peer executive compensation information, (ii) advice from outside advisors and experts, (iii) the complexity, scope and responsibilities of the individual’s position and (iv) the CEO’s recommendations with respect to the other NEOs. The CEO is not involved in discussions and determinations related to his or her own compensation.

The HR Committee reviews and makes recommendations to the Board with respect to the NEO base salaries and other compensation paid to the NEOs. The independent directors of the Board review and approve compensation decisions for the CEO and our other NEOs after review and upon recommendation of the HR Committee. The HR Committee also administers Fulton’s equity and other compensation plans.

Management

Our executive management team attends regular meetings at which Fulton’s performance and competitive compensation levels are discussed and evaluated.

As part of the performance evaluation process, each NEO meets individually with the CEO to discuss his or her respective performance. The CEO, with the HR Committee, reviews the performance of the other NEOs, and the CEO provides input regarding each of the other NEO’s performance. The NEOs are not present for the HR Committee’s discussions, deliberations and decisions with respect to their individual compensation. The HR Committee, without the CEO present, reviews the CEO’s overall performance and regularly has executive sessions without management present to discuss CEO performance. The HR Committee makes recommendations to the Board with respect to the compensation of the CEO and the other NEOs. Based on these recommendations, the Board, in executive session and with only independent directors present, makes all compensation decisions regarding the CEO and the other NEOs.

Compensation Consultant

In 2022, the HR Committee retained Frederic W. Cook & Co., Inc. (“**FW Cook**”) as its independent compensation consultant. FW Cook performed a variety of assignments during 2022, including: (i) conducting an NEO compensation market analysis, (ii) the design of our executive compensation program including our annual cash incentive compensation awards (“**VCP**”) and equity awards, (iii) a review of our director compensation program and (iv) general compensation advice regarding our NEOs. As part of FW Cook’s 2022 engagement, the HR Committee also instructed FW Cook to compare Fulton’s current compensation practices and executive compensation programs to our peers, evolving industry best practices and regulatory guidance.

In 2022, FW Cook and its affiliates did not provide additional services to Fulton or its affiliates. The HR Committee considered the independence of FW Cook for the 2022 engagement in light of SEC rules and Nasdaq listing standards related to compensation committee consultants. The HR Committee concluded that the work performed by FW Cook did not raise any conflict of interest, and it further concluded that FW Cook satisfied independence rules and standards with respect to compensation committee consultants.

2022 Peer Group

As part of its annual review of our executive compensation program, the HR Committee established a peer group (the “**2022 Peer Group**”), with the assistance of FW Cook, based on a number of factors, including asset size, revenue composition, number of employees, market capitalization, geographic location, business model and composition of shareholder base. The HR Committee considered the 2022 Peer Group, as well as other relevant data provided by FW Cook, in establishing 2022 base salaries, 2022 annual cash incentive compensation awards (“**VCP Awards**”) and granting long-term equity awards in the form of performance shares (“**Performance Shares**”).

Fulton removes peer group companies upon the announcement that a peer group company is being acquired or is involved in a significant merger and acquisition (“**M&A**”) transaction. In 2021, as a result of peer group M&A activity, FW Cook recommended that First Midwest Bancorp, Inc., Investors Bancorp, Inc. and Webster Financial Corporation be removed from the 2022 Peer Group. The 2022 Peer Group is set forth below:

2022 Peer Group		
Atlantic Union Bankshares Corporation	Old National Bancorp	United Bankshares, Inc.
Cadence Bank*	Prosperity Bancshares, Inc.	United Community Banks, Inc.
Commerce Bancshares, Inc.	Provident Financial Services, Inc.	Valley National Bancorp
F.N.B. Corporation	Simmons First National Corporation*	Wintrust Financial Corporation
Hancock Whitney Corporation	Trustmark Corporation	WSFS Financial Corporation*
Independent Bank Corp.*	UMB Financial Corporation	
Northwest Bancshares, Inc.	Umpqua Holdings Corporation*	

* A new peer for 2022.

Shareholder Say-on-Pay Proposal Historical Results

The Board and the HR Committee considers the non-binding advisory say-on-pay vote as a barometer of shareholder support for our executive compensation program. Below are our say-on-pay votes for the last five years:

Year	2022	2021	2020	2019	2018
% Voted “FOR”	96.95%	97.17%	97.45%	97.57%	97.73%

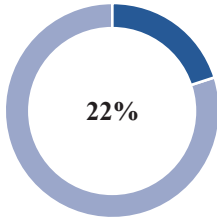

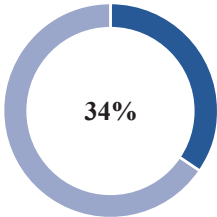

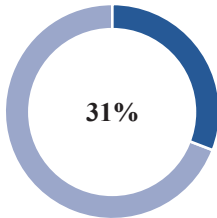

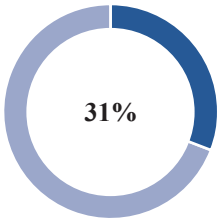

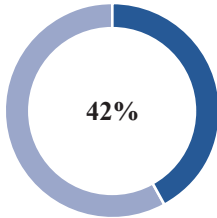

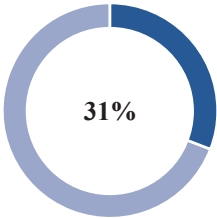

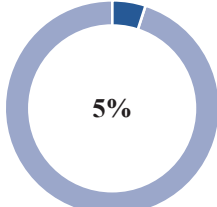

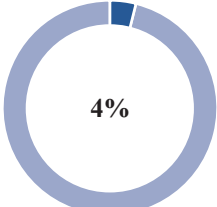

These prior say-on-pay votes confirm shareholder support of our compensation philosophy and objective of linking executive compensation to shareholder value creation.

Compensation Plan Risk Review

At its January 2023 meeting, the HR Committee conducted its annual incentive compensation plan risk assessment review. The HR Committee received an incentive compensation plan risk assessment report from management, and the HR Committee determined that our incentive compensation design and plans do not promote undue risk taking.

Elements of Our Executive Compensation Program

Our executive compensation program currently provides for a mix of base salary, short-term cash incentive and long-term equity-based incentive awards. The HR Committee reviews these components and effectiveness of our pay program annually. The HR Committee generally targets a range around the median of our peer group for positioning target total direct compensation. The purpose and key characteristics of each element of our executive compensation program are as follows:

2022 CEO Targeted Direct Compensation	Average Other NEOs Targeted Direct Compensation	Purpose and Key Features
Base Salary		
		<p>Purpose: Attract, motivate and retain NEOs.</p> <p>Key Feature: Base salary based on NEO's position, experience, responsibilities and performance.</p>
Annual Cash Incentive Awards – VCP Awards		
		<p>Purpose: Reward NEOs for the achievement of certain short-term financial, risk management and business goals.</p> <p>Key Feature: Reward NEOs for superior performance above the rigorous goals contained in our VCP scorecard detailed below.</p>
Equity Awards – LTI Awards		
		<p>Purpose: Focus NEOs' attention on delivering long-term performance results that increase shareholder value.</p> <p>Key Feature: Reward NEOs for our absolute and relative TSR performance while maintaining baseline profitability.</p>
All Other Compensation		
		<p>Purpose: Attract and retain NEOs.</p>

Base Salary

The HR Committee is responsible for setting executive officer base salaries. The HR Committee considers base salary levels as part of its process of ensuring that each executive officer's overall compensation package is competitive, including annual and long-term incentives, the target amounts of which are generally based on a percentage of base salary.

Our NEO base salaries are set in line with the Company's peer group median and based upon the NEOs' position, experience, responsibilities and performance. During 2022, the HR Committee examined the pay levels of our NEOs based on the market and peer evaluation analysis performed by FW Cook in order to appropriately compare the compensation of our NEOs to the compensation paid by other companies with which we compete for talent. The HR Committee increased the base salary of Mr. Myers based on the peer evaluation analysis performed by FW Cook regarding his position and as a result of our long-term succession planning efforts. The HR Committee increased Ms. Snyder's base salary in connection with her promotion to Fulton's Chief Banking Officer, effective January 1, 2022.

Below are the 2021 and 2022 base salaries for each of the NEOs effective April 1 of each year.

NEO	2021 Base Salary	2022 Base Salary	% Change
E. Philip Wenger	\$1,048,822	\$1,080,287	3.0%
Curtis J. Myers	\$ 575,025	\$ 661,279	15.0%
Mark R. McCollom	\$ 446,516	\$ 459,911	3.0%
Angela M. Snyder¹	\$ 404,491	\$ 463,500	14.6%
Natasha R. Luddington²	\$ 425,000	\$ 437,750	3.0%

¹ Effective January 1, 2022, Ms. Snyder's base salary was increased to \$450,000 in connection with her promotion to Chief Banking Officer.

² Ms. Luddington's 2021 base salary is as of her October 25, 2021 hire date.

Annual Cash Incentives – VCP Awards

Overview

Under our 2022 Amended and Restated Equity and Cash Incentive Compensation Plan (the "**2022 Plan**"), VCP Awards are "at risk" and calculated based on pre-determined performance goals, subject to financial performance thresholds and the HR Committee's assessment, in its discretion, of our NEOs' attainment of our 2022 goals. VCP Awards are designed to reward our NEOs for the achievement of certain short-term financial, risk management and business goals.

The HR Committee uses a scorecard approach to determine the VCP Award funding level, which we also refer to as the VCP payout. The HR Committee retains discretion to adjust any VCP Award up or down with a 200% of target award cap on individual awards.

2022 Scorecard Performance Metrics

In March 2022, the HR Committee approved the scorecard performance metrics for the 2022 VCP Awards (the "**2022 Scorecard**"), which included scores ranging from 0 to 5. The 2022 Scorecard included key objectives in the following three categories: "Financial Results," "Risk Management" and "Business Objectives." The HR Committee believes each of these objectives is a key driver of Fulton's performance and aligns Fulton and its NEOs' focus on continued long-term value creation.

Minimum ROE and Net Income Requirement

Annual VCP Awards are subject to financial performance thresholds. Regardless of the achievement of the performance goals, no VCP Award is paid unless Fulton achieves both a pre-determined ROE performance threshold and a pre-determined net income goal. In February 2023, the HR Committee evaluated the two criteria and determined:

- 2022 ROE performance of 12.33%* was above the 2022 ROE threshold of 8.71%; and
- 2022 net income was \$286.98 million, which satisfied the positive net income goal.

* For more information regarding the calculation of non-GAAP financial measures included in this section, please refer to the section titled "Non-GAAP Reconciliations" included in Annex A to this Proxy Statement.

Target VCP Opportunities

In March 2022, the HR Committee approved the target VCP opportunities for each NEO with a payout range of 0% to 200% of target based on performance achievement against pre-established goals. In addition to this payout range, the HR Committee has the ability to modify individual payouts based on its holistic evaluation of Company and individual performance. The application of any modifier for an NEO would be informed by tailored individual goals without any specific weighting. The following table shows each NEO's VCP opportunity range:

2022 VCP Award Matrix			
NEO	Payment as a % of Eligible 2022 Base Salary ¹		
	VCP Threshold (50% of Target) Scorecard Result	VCP Target (100% of Target) Scorecard Result	VCP Maximum (200% of Target) Scorecard Result
E. Philip Wenger	50.0%	100%	200%
Curtis J. Myers	42.5%	85%	170%
Mark R. McCollom	35.0%	70%	140%
Angela M. Snyder ²	30.0%	60%	120%
Natasha R. Luddington	25.0%	50%	100%

¹ For purposes of determining VCP Awards, eligible earnings is the actual 2022 base salary paid to the NEOs.

² The HR Committee increased the 2022 payout target opportunity for Ms. Snyder from 50% to 60% as a result of her promotion to Chief Banking Officer on January 1, 2022.

2022 Scorecard Results

The HR Committee reviewed the NEOs' 2022 Scorecard results and overall 2022 performance and determined that each of the NEOs qualified for a VCP Award.

The following table shows Fulton's actual 2022 results with respect to the 2022 Scorecard:

Final 2022 NEO Scorecard										
Performance Categories	Performance Sub-categories ¹									
Financial Results	Score Rating	0	1	2 (Threshold)	3 (Target)	4	5 (Max)	Weight	Actual Performance	Weighted Score
	EPS*	<= \$1.248	\$1.321	\$1.395	\$1.468	\$1.541	= > \$1.615	30%	\$1.76	1.50
	ROE*	<= 7.793%	8.251%	8.710%	9.168%	9.626%	= > 10.085%	20%	12.33%	1.00
	Operating Expense/ Average Assets	= > 2.424%	2.368%	2.311%	2.255%	2.199%	< = 2.142%	15%	2.38%	0.06
Risk Management								Weight	Weighted Score	
	Capital, Liquidity, Management, Market Risk and Consumer Compliance							10%	0.40	
	Asset Quality: Non-performing Assets to Total Assets							10%	0.39	
Business Objectives								Weight	Weighted Score	
	2022 Company-wide Employee Engagement Index							15%	0.47	
								Total Score	3.83	

* For more information regarding the calculation of non-GAAP financial measures included in this section, please refer to the section titled "Non-GAAP Reconciliations" included in Annex A to this Proxy Statement.

¹ Interpolated on a straight-line basis.

VCP Payout Potential

In March 2022, the HR Committee approved the following pay line:

VCP Performance Pay Line	VCP Payout Potential
Scorecard Threshold – 2 on scorecard	50%
Scorecard Target – 3 on scorecard	100%
Scorecard Maximum – 5 on scorecard	200%

The final NEO 2022 Scorecard result yielded a 141.5% VCP Award payout. Below are the NEOs' 2022 VCP Award target and 2022 VCP Award paid:

NEO	2022 VCP Award Target	2022 VCP Award Paid
E. Philip Wenger	\$1,071,816	\$1,516,619
Curtis J. Myers	\$542,348	\$767,423
Mark R. McCollom	\$319,413	\$451,970
Angela M. Snyder	\$275,919	\$390,426
Natasha R. Luddington	\$217,159	\$307,279

Equity Awards – LTI Awards

Overview

In 2022, LTI awards were granted to our NEOs in the form of performance shares (the “**Performance Shares**”). Under the 2022 Plan, long-term equity awards in the form of performance shares are calculated based on pre-determined performance goals and the HR Committee’s assessment, in its discretion, of our NEOs’ attainment of our 2022 goals. LTI awards are awarded to focus each of our NEO’s attention on delivering long-term performance results that increase shareholder value.

Performance Shares that vest, together with accrued dividend equivalents, are settled in shares of Fulton common stock on a one-for-one basis. Dividend equivalents will not be paid unless the Performance Shares vest.

The Performance Shares granted in 2022 vest based on two separate performance components that are summarized below:

2022 Equity Award Structure

TSR Component

Allocation: 65%

Grant Date: May 1, 2022

Performance Period: May 1, 2022 – March 31, 2025

Vesting: Relative TSR to 2022 Peer Group (defined below) determines the number of Performance Shares earned for the performance period

Profit Trigger Component

Allocation: 35%

Grant Date: May 1, 2022

Performance Period: January 1, 2024 – December 31, 2024

Vesting: 3-year, time-based cliff vesting conditioned on achievement of the Profit Trigger (defined below) for the performance period

Award Opportunities

The number of Performance Shares awarded to each of the NEOs is based on a target opportunity amount that may be varied by the HR Committee from 0% to 125% of target. For 2022, the target award opportunities (as a percentage of each NEO's base salary) were as follows:

NEO	2022 LTI Target Opportunity ¹		
	LTI Minimum (0% of Target)	LTI Target	LTI Maximum (125% of Target)
E. Philip Wenger ²	0%	200%	250.00%
Curtis J. Myers ³	0%	110%	137.50%
Mark R. McCollom	0%	100%	125.00%
Angela M. Snyder ⁴	0%	85%	106.25%
Natasha R. Luddington	0%	60%	75.00%

¹ 2022 LTI target opportunity is a percentage of the NEOs' base salary as of January 1, 2022. Changes for 2022 were based on the peer evaluation prepared by FW Cook relative to certain NEOs.

² Reflects an increase from Mr. Wenger's 2021 target of 125%.

³ Reflects an increase from Mr. Myers' 2021 target of 100%.

⁴ Reflects an increase from Ms. Snyder's 2021 target of 75%.

The actual pay out of the TSR portion of the Performance Shares is based on 2022 Peer Group performance from May 1, 2022 through March 31, 2025 using the following pay line:

TSR Performance Pay Line	LTI TSR Payout Potential
TSR Threshold – 25 th percentile	50%
TSR Target – 50 th percentile	100%
TSR Maximum – 75 th percentile	150%

The actual number of shares of Fulton common stock, if any, upon vesting may be higher or lower than the number of Performance Shares granted to the NEOs based on the attainment of the performance goals underlying the Performance Shares.

The Profit Trigger performance measure is Fulton's net income from January 1, 2024 to December 31, 2024. In order to achieve this performance measure, net income must be greater than all dividends declared by Fulton for the immediately preceding four full calendar quarters prior to the May 1, 2022 Performance Shares grant date. The Profit Trigger component of the Performance Shares represents a fixed number of shares and is not subject to interpolation.

The 2022 grant date fair value of the Performance Shares, the total number of Performance Shares awarded, and the allocation of the Performance Shares are set forth below:

NEO	2022 Grant Date Fair Value of Performance Shares ¹	Performance Shares Awarded	Shares Subject to TSR Component	Shares Subject to Profit Trigger Component
E. Philip Wenger	\$2,076,061	138,275	89,879	48,396
Curtis J. Myers	\$626,009	41,695	27,102	14,593
Mark R. McCollom	\$441,922	29,434	19,132	10,302
Angela M. Snyder	\$378,563	25,214	16,389	8,825
Natasha R. Luddington	\$252,370	16,809	10,926	5,883

¹ Based on the May 1, 2022 grant date fair value of the Performance Shares.

Payout of 2019 Performance-Based Equity Awards

Fulton granted to the NEOs on May 1, 2019 performance share awards (the “**2019 Performance Share Award**”) that vested on May 1, 2022 based on the achievement of the performance goals. The performance metric targets and results are as follows:

2019 Performance Share Award Metrics	Weighting	Performance Period Targets	Actual Results	% of Payment
3-year TSR	37.5%	TSR Relative to 2019 Peer Group from May 1, 2019 to March 31, 2022	42.86 Percentile	78.57%
1-year ROA	37.5%	ROA Goal of 1.199%	1.065%	58.12%
Profit Trigger	25.0%	Subject to profit requirement	100.00%	100.00%
Total Payout as a % of Target				76.26%

The amounts below include accrued dividend equivalent units. In connection with the 2019 Performance Share Award, the total number of Performance Shares awarded, the grant date fair value of Performance Shares awarded, the total number of Performance Shares upon vesting and the total value of Performance Shares upon vesting are as follows:

NEO	Total Number of Performance Shares Awarded	Grant Date Fair Value of Performance Shares Awarded	Total Number of Performance Shares upon Vesting	Total Value of Performance Shares upon Vesting ¹
E. Philip Wenger	75,327	\$1,274,798	64,930	\$984,994
Curtis J. Myers	30,035	\$508,305	25,889	\$392,743
Mark R. McCollom	25,029	\$423,585	21,574	\$327,272
Angela M. Snyder	17,005	\$287,788	14,658	\$222,359
Natasha R. Luddington ²	-	-	-	-

¹ Shares valued at \$15.17 per share on the May 1, 2022 vesting date.

² Ms. Luddington was hired on October 25, 2021 and as such did not receive a grant in connection with the 2019 Performance Share Awards.

Other Compensation Elements

Employee Stock Purchase Plan. The Employee Stock Purchase Plan (“**ESPP**”) is designed to advance the interests of Fulton and its shareholders by encouraging employees to acquire a stake in our future by purchasing shares of Fulton common stock. We limit payroll deduction and annual employee participation to \$15,000. The NEOs are eligible to purchase shares through the ESPP at a discount, currently 15%, on the same basis as other employees participating in the ESPP.

Defined Contribution Plan – 401(k) Plan. Fulton provides the 401(k) Plan to the NEOs and other employees that allows employees to defer a portion of their compensation and contribute such amount to the 401(k) Plan on a pre-tax basis. For 2022, Fulton matched 100% of employee contributions, up to 5% of eligible compensation, subject to contribution limits imposed by the Internal Revenue Code of 1986, as amended (the “**Tax Code**”).

Deferred Compensation Plan. Fulton’s nonqualified DCP permits non-employee directors and non-employee advisory board members to elect to defer receipt of cash director fees. The DCP also enables us to credit certain senior officers, including the NEOs, with full-employer matching contributions each year equal to the contributions they would have otherwise been eligible to receive under the 401(k) Plan notwithstanding the contribution limits imposed by the Tax Code. 2022 NEO deferred compensation contributions are set forth in footnote 6 of the “Summary Compensation Table.”

Death Benefits. In the event certain NEOs die while actively employed by Fulton, each of the NEOs is eligible for a payment from Fulton equal to two times base salary (plus an amount equal to applicable individual income taxes due on such amounts) pursuant to individual death benefit agreements between Fulton and that NEO. The post-retirement benefit payable is reduced to \$5,000 for each of Messrs. Wenger and Myers and Ms. Snyder. The other NEOs are not eligible for any post-retirement death benefit.

Health, Dental and Vision Benefits. We offer a comprehensive benefits package for health, dental and vision insurance coverage for all full-time employees, including the NEOs and their eligible spouses and dependents. We pay a portion of the premium for the coverage selected, and the amount paid varies with each health, dental and vision plan.

Other NEO Benefits. We provide our NEOs with a variety of other perquisites and personal benefits that the HR Committee believes are necessary to facilitate Fulton’s business operations, including a company-owned automobile or a car allowance, club memberships and other executive benefits. These benefits enable us to attract and retain talented senior officers for key positions. The 2022 amounts are included in the “All Other Compensation” column of the “Summary Compensation Table.”

EXECUTIVE COMPENSATION POLICIES

Stock Hedging and Pledging Policy and Stock Trading Procedures

We have an Insider Trading Policy that requires all directors, officers, and employees of Fulton to adhere to certain rules when trading in our securities. Among other requirements, directors, officers and employees of Fulton that know of material, non-public information regarding Fulton may not: (i) buy or sell Fulton securities while the information remains non-public or (ii) disclose the information to relatives, friends or any other person. In addition, we prohibit engaging in hedging and other speculative transactions involving our securities, including “short sales,” “puts,” and pledging our securities. Fulton’s NEOs are also prohibited from holding Fulton securities in a margin account or otherwise pledging Fulton securities as collateral for a loan and must provide advance notice of any sale, purchase, stock option exercise, gift or other transfer of Fulton securities, including by members of the NEOs’ immediate family sharing the same household, or any corporation, partnership or trust in which any such person has an economic interest or investment control.

Stock Ownership Guidelines

Pursuant to our Guidelines, stock ownership for Fulton’s executive officers are calculated as a multiple of each of the NEO’s annual base salary as follows:

NEO Position	Minimum Ownership of Fulton Common Stock (Multiple of Base Salary)
CEO	3.0
President	1.5
CFO	1.5
Other NEOs	1.0

Compliance with our stock ownership guidelines is determined on an annual basis. Our Guidelines require that each executive officer comply with our stock ownership requirements within five years after the later of: (i) first being appointed to his or her position or (ii) being hired by Fulton to own the required minimum ownership amounts provided above. Stock ownership excludes stock options and other unvested restricted stock or Performance Share awards, but includes all other shares beneficially owned and reported on an individual’s Form 3, 4 or 5 filed with the SEC, including shares owned individually, deferred vested stock unit awards, shares held in retirement accounts, indirect ownership and jointly held shares of Fulton common stock. As of December 31, 2022, except for Mr. McCollom and Ms. Luddington, all of the NEOs satisfied the stock ownership guidelines.

Clawback Policy

Our Compensation Recovery Clawback Policy (the “Clawback Policy”) contains clawback provisions for all participants, including the NEOs, with respect to incentive compensation, including VCP Awards and Performance Shares. The Clawback Policy identifies the events that may give rise to a clawback, including: (i) a restatement of Fulton or any affiliate’s financial statements (other than a restatement caused by a change in applicable accounting rules or interpretations), (ii) the discovery that a performance metric or calculation used in determining performance-based compensation was materially inaccurate, (iii) a violation of our Code of Conduct, the result of which creates a significant financial or reputational impact for Fulton and (iv) a violation by a departing or departed employee of a non-competition or non-solicitation restriction set forth in our employment policies or an employee’s employment agreement. The Clawback Policy is under review due to the release of new Nasdaq listing standards and will be updated in accordance with these standards.

Tax Deductibility of Compensation Expense

Section 162(m) of the Tax Code generally places a \$1 million limit on the amount of compensation a company can deduct in any one year for certain executive officers. While the HR Committee considers the deductibility of awards as one factor in determining executive compensation, the HR Committee also looks at other factors in making its decisions, as detailed in the CD&A, and retains the flexibility to award compensation that it determines to be consistent with the goals of our executive compensation program even if the awards are not deductible by us for tax purposes.

CEO Pay Ratio Disclosure

We are providing the following information about the annual total compensation of our estimated median employee and the annual total compensation of our CEO:

Pay Ratio Summary
<ul style="list-style-type: none">• The 2022 annual total compensation of our median employee (other than our CEO) was \$54,479.• The 2022 annual total compensation of our CEO, as reported in the Summary Compensation Table, was \$4,923,557.• For 2022, the ratio of the annual total compensation of our CEO to our median employee was 90.4 to 1.

Our pay ratio estimate was calculated in a manner consistent with Item 402(u) of Regulation S-K using the data and assumptions summarized below.

As of December 31, 2022, we identified the 2022 median employee by comparing the total compensation in Box 5 on the 2022 W-2 tax statements for our employee population. We identified our median employee using this consistently applied compensation measure (excluding our CEO, temporary employees and employees that departed our workforce during 2022). In making this determination, we annualized the compensation of permanent full-time employees who were hired in 2022 and did not work for us for our entire fiscal year but were still employed as of December 31, 2022.

For the 2022 pay ratio, we combined all of the elements of such employee's compensation for 2022 consistent with the requirements of Item 402(c)(2)(x) of Regulation S-K. For our CEO, the same process and amount reported in the "Total" column of our 2022 Summary Compensation Table ("SCT") was used.

HR COMMITTEE REPORT

The HR Committee reviewed and discussed with management the foregoing Compensation Discussion and Analysis and, based on the review and discussions, the HR Committee recommended to the Board that the Compensation Discussion and Analysis be incorporated in this Proxy Statement.

	2020	394,625	-	295,703	-	139,599	-	35,183	865,110
Natasha R. Luddington <i>Senior Executive Vice President, Chief Legal Officer and Corporate Secretary</i>	2022	434,317	150,000	402,357	-	307,279	-	17,400	1,311,353
	2021	-	-	-	-	-	-	-	-
	2020	-	-	-	-	-	-	-	-

¹ Titles and positions listed are as of December 31, 2022.

² Mr. Wenger retired as Chairman and CEO on December 31, 2022.

³ Mr. Myers became Chairman, CEO and President effective January 1, 2023.

⁴ Amounts represent the grant date fair values of Performance Shares. The grant date fair value of the Performance Shares in 2022, 2021 and 2020 was determined in accordance with ASC Topic 718. Assumptions used in the calculation of these amounts are discussed in Note 6 to our Consolidated Audited Financial Statements for the fiscal year ended December 31, 2022, included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022. Fair value is based on a Monte Carlo simulation used to account for market conditions. The number of awards granted in 2022 is reflected in the “Grants of Plan-Based Awards” table below. The fair value of awards granted in 2022, 2021 and 2020 are shown in this table assuming the target level of awards will be earned. The fair value of the awards granted in 2022, if earned at the maximum performance level, would equal \$2,747,008 for Mr. Wenger; \$828,325 for Mr. Myers; \$584,742 for Mr. McCollom; \$500,907 for Ms. Snyder and \$333,933 for Ms. Luddington.

⁵ The amounts reported in this column are VCP Awards detailed under “Annual Cash Incentives – VCP Awards” beginning on page 36.

⁶ All other compensation includes: (i) Fulton contributions to the 401(k) Plan, (ii) Fulton contributions to the DCP, (iii) Fulton-paid club memberships, (iv) automobile perquisites and (v) other benefits that individually are less than the greater of \$25,000 or 10% of all perquisites.

⁷ Breakdown of “Total All Other Compensation” below. The amount of “Other Compensation and Perquisites” includes personal travel, reimbursements for mobile device expenses and other small items. For Mr. Myers and Ms. Snyder personal travel included a tax gross up. For Mr. Wenger, this amount includes a \$50,000 payment by Fulton Bank to Penn State University to establish a scholarship in his name and that is consistent with our corporate philanthropy efforts and \$37,134 for personal travel that was grossed up.

	5/1/2022	-	-	-	5,463	10,926	16,389	-	163,125
	-	108,579	217,159	434,317	-	-	-	-	-

¹ The amounts reflect incentive cash bonuses with respect to the VCP. The actual amount paid for 2022 with respect to the VCP is set forth in the “Non-Equity Incentive Plan Compensation” column of the SCT.

² Represents the number of Performance Shares granted to the NEOs. Performance Shares are earned and vested based on the actual performance level achieved with respect to the following performance measures: (i) TSR component and (ii) Profit Trigger component. The actual number of 2022 Performance Shares earned and vested with respect to the TSR component is interpolated on a straight-line basis.

³ See footnote 4 to the SCT on page 43 for additional information regarding the grant date fair value of the Performance Shares. The grant date fair value of each equity award is computed in accordance with FASB ASC Topic 718. The closing price of Fulton common stock on the January 3, 2022 and May 1, 2022 grant dates were \$17.23 and \$17.05, respectively.

	-	-	-	-	-	8,989 ⁶	\$151,282

¹ Represents the number of Performance Shares and accrued dividend equivalents on December 31, 2022 with certain assumptions on the performance of each award as detailed in footnote 2 below.

² Market value of Performance Shares shown is based on the Fulton closing price of \$16.83 on December 31, 2022. The number of Performance Shares includes dividend equivalents accrued through December 31, 2022. As of December 31, 2022, the relative TSR performance that determined the number of Performance Shares allocated to the TSR component of the 2020 Performance Share award was below the target performance levels, and, as such, amounts are shown based upon targeted vesting. As of December 31, 2022, the relative TSR performance that determined the number of Performance Shares allocated to the TSR component of the 2021 and 2022 Performance Shares awards were at target performance levels, and, as such, amounts are shown based upon maximum vesting.

³ Performance Shares granted on May 1, 2020. If the performance criteria is achieved, then these Performance Shares will vest on May 1, 2023.

⁴ Performance Shares granted on May 1, 2021. If the performance criteria is achieved, then these Performance Shares will vest on May 1, 2024.

⁵ Performance Shares granted on May 1, 2022. If the performance criteria is achieved, then these Performance Shares will vest on May 1, 2025.

⁶ New hire restricted stock unit award granted on January 3, 2022.

Angela M. Snyder	122,389	24,827	(205,083)	925,648
Natasha R. Luddington	-	-	-	-

¹ Amounts listed as NEO Contributions in Last Fiscal Year are included in the SCT for 2022 as Base Salary and/or Non-Equity Incentive Plan Compensation.

² Amounts listed as Registrant Contributions to the DCP are also included as part of the NEOs' "Total All Other Compensation" in the SCT.

³ The aggregate balances as of December 31, 2022 include the following amounts previously reported in the SCT for prior years for Messrs. Wenger, Myers and McCollom, and Messes. Snyder and Luddington of \$843,514, \$143,697, \$36,745, \$49,189 and \$0, respectively.

EMPLOYMENT AGREEMENTS, SEVERANCE AND CHANGE IN CONTROL PAYMENTS

We are parties to employment agreements with certain of our employees, including each of our NEOs. Mr. Wenger entered into an employment agreement with Fulton on June 1, 2006, as amended on November 12, 2008. Fulton entered into separate employment agreements and change in control agreements with the other NEOs, all effective as of January 1, 2018, except for Ms. Luddington, whose agreement was effective October 25, 2021. The employment agreements (individually, an “**Employment Agreement**,” and collectively, the “**Employment Agreements**”) and key employee change in control agreements (individually, a “**CIC Agreement**,” and collectively, the “**CIC Agreements**”) with the other NEOs continue until terminated. The Employment Agreements and the CIC Agreements provide for: (i) the receipt of base salary, (ii) the participation in Fulton’s incentive bonus programs and (iii) the participation in Fulton’s retirement plans, welfare benefit plans and other benefit programs.

In the event of a reduction in force or position elimination, our NEOs are eligible for severance benefits. These benefits are discussed in the “2022 NEO Change in Control and Termination Table” on page 51 under “Termination Without Cause or for Good Reason – Upon or After a Change in Control.”

The Employment Agreements contain confidentiality restrictions and include non-competition and non-solicitation covenants that continue for one year following termination of employment. The non-competition and non-solicitation covenants in the Employment Agreements will not apply if the NEO terminates employment for good reason or if the NEO’s employment is terminated Without Cause (defined below), but a separate one year non-solicitation covenant in the CIC Agreement will apply if the termination occurs 90 days prior to or two years following a change in control. The Employment Agreements and the CIC Agreements do not include excise tax gross-up provisions, except for the Employment Agreement with Mr. Wenger. Mr. Wenger’s Employment Agreement terminated on December 31, 2022 upon his retirement.

POTENTIAL PAYMENTS ON TERMINATION AND CHANGE IN CONTROL

Set forth below is a summary of the material terms regarding the potential compensation of Fulton’s NEOs in connection with a termination event or change in control of Fulton.

Voluntary Termination for Good Reason or Without Cause. In the event an NEO’s employment is voluntarily terminated by the NEO other than for Good Reason (defined below), Fulton’s obligations are limited to the payment of the NEO’s base salary, together with any applicable expense reimbursements and all accrued and unpaid benefits and vested benefits. No other payments are required, and any unexercised stock options and Performance Shares are immediately forfeited by the NEO.

Voluntary Termination. If an NEO terminates his or her employment for Good Reason or the NEO’s employment is terminated by Fulton Without Cause (defined below), other than in connection with a Change in Control (defined below), the NEO is entitled to receive the NEO’s base salary for a period of one year and a cash bonus for the fiscal year in which the termination date occurs at the target payout level, pro-rated to the date of termination, except that for Mr. Wenger, both the payment and the amount of the cash bonus shall be at the discretion of the HR Committee and the Board. The NEO and his or her spouse and eligible dependents are permitted to participate in employee health and other benefit plans for which the NEO is eligible during this one-year period. If Fulton is unable to continue the NEO’s participation in any employee benefit plan, the NEO will be compensated in an amount equal to the cost Fulton would have incurred had the NEO been eligible to participate in the plan plus any permitted tax gross-up. Unexercised stock options and Performance Shares are forfeited.

Termination for Cause. If an NEO's employment is terminated for Cause, Fulton is not obligated to make any further payments to the NEO, other than accrued amounts. Unexercised stock options and Performance Shares are forfeited.

Retirement or Disability. In the event an NEO terminates his employment due to retirement, Fulton is obligated to pay the NEO's base salary through the effective date of the NEO's retirement, together with any applicable expense reimbursements and all accrued and unpaid benefits and vested benefits.

Following an NEO's Disability (defined below), the NEO's employment would terminate automatically, in which event Fulton is not thereafter obligated to make any further payments other than: (i) amounts accrued as of the date of such termination plus (ii) an amount equal to at least six months' base salary as in effect immediately prior to the date of the Disability. After this six-month salary continuation period, for as long as the NEO continues to be disabled, the NEO will continue to receive at least 60% of the NEO's base salary until the earlier of the NEO's death or December 31 of the calendar year in which the NEO is 65. The NEO will also receive those benefits customarily provided by Fulton to disabled former employees, including, but not limited to, life, medical, health, accident insurance and a survivor's income benefit.

Change in Control. If, during the period beginning 90 days before a Change in Control and ending two years after such Change in Control, an NEO is terminated by Fulton Without Cause or an NEO resigns for Good Reason, Fulton is required to pay the NEO two times the sum of the NEO's: (i) annual base salary immediately before the Change in Control and (ii) the highest annual cash bonus or other incentive compensation awarded to the NEO over the prior three years. The NEO is also entitled to receive: (i) an amount equal to that portion of the 401(k) Plan or DCP contributions for the NEO which did not vest, plus the amount of any federal, state or local income taxes due on such amount, (ii) an amount equal to two years of Fulton retirement plan contributions to each tax qualified or nonqualified retirement plan in which the NEO was a participant immediately prior to the NEO's termination or resignation, (iii) payment of up to \$10,000 for outplacement services and (iv) continuation of other employee welfare benefits for a period of two years.

With respect to Mr. Wenger, if Fulton is unable to continue his participation in any employee welfare benefit plan, he would be compensated on an annual basis, in advance, for such plan in an amount equal to the cost Fulton would have incurred had he been eligible to participate in such plan plus any permitted tax gross-up. In addition, for a period of two years after the Change in Control, Mr. Wenger would be entitled to receive continuation of other executive perquisites such as club memberships and an employer-provided automobile.

The other NEOs are not entitled to receive continuation of other executive perquisites, but, the other NEOs have the ability to purchase, at book value, any employer-provided automobile used by the NEO at the time of his or her termination.

Definitions. The relevant definitions under the CIC Agreement are summarized as follows:

- **“Cause”** means (i) the NEO's commitment and act of dishonesty that constitutes a felony and results or intends to result in gain or personal enrichment at the expense of Fulton, (ii) the NEO's use of alcohol or other drugs which interferes with their performance, (iii) the NEO's continuing deliberate and intentional refusal or failure to perform the NEO's duties to Fulton, (iv) the NEO's participation in conduct that brings public discredit on or injures the reputation of Fulton or (v) the NEO's legal preclusion of employment, with the exception of Mr. Wenger to whom (v) does not apply.
- **“Change in Control”** means (i) during any period of not more than 36 months, the individuals that constituted the Board at the beginning of such period, with certain exceptions, cease to constitute at least a majority of Fulton's Board, (ii) beneficial ownership of more than 30% of the outstanding voting power of Fulton common stock is acquired by any person, with certain exceptions, (iii) a merger or consolidation involving Fulton is consummated, unless at least 50% of the voting power of the resulting entity is represented by Fulton voting securities outstanding prior to such merger or consolidation, no person beneficially has the power to vote 30% or more of the voting power of the resulting entity, and at least a majority of the members of the board of directors of the resulting entity were members of the Board prior to the execution of the agreement which effectuated such merger or consolidation, (iv) the sale of all or substantially all of the assets of Fulton is consummated, or (v) Fulton's shareholders approve a plan of liquidation or dissolution.

- o With respect to Mr. Wenger, “Change in Control” means (i) the acquisition of the beneficial ownership of more than 50% of the total fair market value or voting power of Fulton common stock by any one person or group of persons acting in concert, (ii) a change in the composition of the Board during any period of 12 consecutive months such that a majority of the Board is replaced by directors whose appointment or election was not endorsed by a majority of the Board before such appointment or election or (iii) the acquisition by any person or group of persons acting in concert during any 12 month period of 30% or more of the total voting power of Fulton common stock, or of 40% or more of the total assets (on a gross fair market value basis) of Fulton.
- “**Disability**” means a medically determinable physical or medical impairment that is expected to result in death or to last for at least 12 months and that either renders the NEO unable to engage in any substantial gainful activity or qualifies the NEO for benefits under a Fulton disability plan.
- “**Good Reason**” means (i) a breach by Fulton of its material obligations without remedy, (ii) a significant change in the NEO’s authority, duties, compensation or benefits or (iii) a relocation of the NEO outside a specified distance from where the NEO previously was based.
- “**Without Cause**” means any reason other than for Cause.

In the event of a Change in Control, the HR Committee will: (i) determine the extent to which performance goals with respect to each such performance period for any Performance Shares have been met based upon such audited or unaudited financial information and (ii) cause such portion or all of the Performance Shares to vest with respect to performance goals for each such performance period based upon the HR Committee’s determination of the degree of attainment of performance goals or, if not determinable, the values assume the applicable target levels of performance have been attained.

2022 NEO CHANGE IN CONTROL AND TERMINATION TABLE

Potential Payments as of December 31, 2022						
NEO	Voluntary Termination or Termination for Cause	Termination Without Cause or for Good Reason – Before a Change in Control ⁴	Termination Without Cause or for Good Reason – Upon or After a Change in Control ⁵	Termination Due to Retirement ⁶	Termination Due to Disability ⁷	Termination Due to Death ⁸

¹ All amounts listed under Equity in this table include: (i) Performance Shares and (ii) vested and “in the money” stock options valued based on the closing price of Fulton’s common stock on December 31, 2022, accelerated for certain events as appropriate.

² The amounts listed under Pension/NQDC represent the aggregate dollar value of Fulton’s contributions to the 401(k) Plan, the DCP and other retirement benefits.

³ Perquisites and Benefits include, as applicable: (i) \$10,000 for outplacement services, (ii) \$1,000 per month during the severance period for the estimated value of health and other benefit expenses and (iii) with respect to Mr. Wenger, during his severance period, an additional \$20,000 per year for club memberships, vehicle and other expenses.

⁴ The cash amount listed for each NEO includes a severance payment based on the NEO's 2022 base salary. The amounts listed under Cash assume no discretionary bonus paid to Mr. Wenger, and the payments to the other NEOs assume the payment of their VCP awards for the prior year. Equity amounts include the value of unexercised stock options. Perquisites/Benefits include a monthly estimate of \$1,000 for the value of health and other benefit expenses paid by Fulton for the one-year severance period.

⁵ The cash amounts listed are two times 2022 base salary as of December 31, 2022 and the highest VCP Awards paid for the last three years. The cash payment amounts to Messrs. Myers and McCollom, and Messes. Snyder and Luddington have been reduced in the table by \$485,494, \$433,706, \$452,161 and \$606,574, respectively, to limit a payment required to avoid a federal excise tax imposition under Section 280G of the Tax Code. Mr. Wenger's cash payment does not include a tax gross up and does not require the payment of a federal excise tax imposition under Section 280G of the Tax Code. Amounts for equity awards assumed accelerated vesting at target unless a performance metric is already known.

⁶ Performance Shares awarded in 2020 do not automatically vest upon retirement and continuous service is required, but, subject to review and approval by the HR Committee, performance continues to be measured and the shares may vest based on the original vesting schedule according to the performance level actually achieved. Performance shares awarded in 2021 and 2022 provide that the continuous service requirement is waived if an NEO is retirement eligible, performance continues to be measured and the shares may vest based on the original vesting schedule according to the performance level actually achieved. Assuming that all the NEOs achieved the earlier of: (i) age 60 with at least 10 years of service to Fulton or any affiliate or (ii) age 62 with at least five years of service to Fulton or any affiliate and retired as of December 31, 2022, the NEOs have one year from the date of retirement, but not beyond the original option expiration date, to exercise their stock options.

⁷ The cash amount represents six months at full salary and 60% of salary for a period of 12 months. In the event an NEO terminates employment due to Disability, unvested options, Performance Shares and time-based restricted stock units automatically vest.

⁸ In the event of a termination of employment as a result of an NEO's death, the NEO's dependents, beneficiaries or estate, as the case may be, receive such survivor's income and other benefits as they may be entitled to under the terms of Fulton's benefit programs, including the life insurance benefit of two times base salary amount plus a tax reimbursement due as a result of the payment under the "Death Benefits" described on page 40. In addition, unvested options, time-based restricted stock units and Performance Shares automatically vest.

2022 PAY VERSUS PERFORMANCE DISCLOSURE

Pay Versus Performance Disclosure

Pursuant to Section 953(a) of the Dodd-Frank Act and Item 402(v) of Regulation S-K, Fulton is providing the following information about the relationship between executive compensation actually paid (“CAP”) to Fulton’s principal executive officer (“PEO”) and non-PEO named executive officers (the “Non-PEO NEOs”) and certain aspects of the financial performance of Fulton. The HR Committee does not utilize CAP as the basis for making compensation decisions. Please see the CD&A with respect to our compensation philosophy and how we align executive compensation with our performance.

Pay Versus Performance Table								
Year ¹	Summary Compensation Table Total for PEO ²	Compensation Actually Paid to PEO ³	Average Summary Compensation Table Total for Non-PEO NEOs ²	Average Compensation Actually Paid to Non-PEO NEOs ³	Value of Initial Fixed \$100 Investment Based on: ⁴		Net Income (GAAP) ⁶	Company Selected Metric: EPS ⁷
					TSR	Peer Group TSR ⁵		
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)
2022	\$4,923,557	\$5,537,243	\$1,541,616	\$1,675,245	\$110.08	\$101.92	\$287	\$1.76
2021	\$4,207,894	\$5,365,077	\$1,395,455	\$1,745,204	\$106.76	\$124.84	\$275	\$1.62
2020	\$3,084,495	\$2,225,418	\$1,082,224	\$821,870	\$76.83	\$89.37	\$178	\$1.08

¹ Mr. Wenger has served as the PEO for the entirety of 2022, 2021 and 2020 and our Non-PEO NEOs for the applicable years were as follows:

- 2022: Mark R. McCollom, Curtis J. Myers, Natasha Luddington and Angela M. Snyder;
- 2021: Curtis J. Myers, Mark R. McCollom, Angela M. Snyder and Meg R. Mueller; and
- 2020: Mark R. McCollom, Curtis J. Myers, Angela M. Snyder and Beth Ann L. Chivinski.

² Amounts reported in these columns represent: (i) the total compensation reported in the SCT for the applicable year in the case of Mr. Wenger and (ii) the average of the total compensation reported in the SCT for the applicable year for our Non-PEO NEOs reported for the applicable year.

³ Amounts reported in these columns represent CAP. Adjustments were made to the amounts reported in the SCT for the applicable year. A reconciliation of the adjustments for Mr. Wenger and for the average of the Non-PEO NEOs is set forth in the following table.

	2022		2021		2020	
	PEO	Average Non-PEO NEOs	PEO	Average Non-PEO NEOs	PEO	Average Non-PEO NEOs
Summary Compensation Table Total	\$4,923,557	\$1,541,616	\$4,207,894	\$1,395,455	\$3,084,495	\$1,082,224
<i>Less</i> Stock Award Value & Option Award Value Reported in SCT for the Covered Year	\$2,076,061	\$462,213	\$1,305,528	\$395,464	\$1,292,385	\$393,958
<i>Plus</i> Year End Fair Value of Equity Awards Granted During the Covered Year that Remain Outstanding and Unvested as of Last Day of the Covered Year	\$2,517,933	\$552,934	\$1,335,263	\$404,470	\$1,423,841	\$434,250
<i>Plus</i> Year over Year Change in Fair Value as of the Last Day of the Covered Year of Outstanding and Unvested Equity Awards Granted in Prior Years	\$233,715	\$57,715	\$944,182	\$285,212	(\$901,359)	(\$267,705)
<i>Plus</i> Fair Value as of Vesting Date of Equity Awards Granted and Vested in the Covered Year	-	-	-	-	-	-
<i>Plus</i> Year over Year Change in Fair Value as of the Vesting Date of Equity Awards Granted in Prior Years that Vested During the Covered Year	(\$61,901)	(\$14,807)	\$183,267	\$55,530	(\$89,174)	(\$32,941)
<i>Minus</i> Fair Value at the End of the Prior Year of Equity Awards that Failed to Meet Vesting Conditions in the Covered Year	\$0	\$0	\$0	\$0	\$0	\$0
<i>Plus</i> Value of Dividends or other Earnings Paid on Stock or Option Awards Not Otherwise Reflected in Fair Value or Total Compensation for the Covered Year	\$0	\$0	\$0	\$0	\$0	\$0
Compensation Actually Paid	\$5,537,243	\$1,675,245	\$5,365,077	\$1,745,204	\$2,225,418	\$821,870

In the table above, the unvested equity values are computed in accordance with ASC Topic 718. For unvested awards subject to performance-based vesting conditions, the equity value is determined based on the probable outcome of such performance-based vesting conditions as of the last day of the covered year.

⁴ TSR is cumulative for the measurement periods beginning on December 31, 2019 and ending on December 31 of each of 2022, 2021 and 2020, respectively, calculated in accordance with Item 201(e) of Regulation S-K.

⁵ Peer Group TSR represents the Nasdaq Bank Index, which is used by Fulton for purposes of compliance with Item 201(e) of Regulation S-K.

⁶ Amounts in millions.

⁷ EPS is a Fulton selected measure. Values shown reflect EPS as calculated for purposes of our executive compensation program for the applicable reporting year as set forth in detail under “Non-GAAP Reconciliations” in Annex A to this Proxy Statement.

Performance Measures Used to Link Company Performance and CAP

The following is a list of performance measures which represent the most important performance measures used by Fulton to link 2022 CAP to the NEOs:

- EPS (non-GAAP);
- ROE; and
- Operating Expenses/Average Assets.

Each performance measure is reflected on Fulton’s 2022 VCP scorecard.

PAY VERSUS PERFORMANCE CHARTS

Relationship between CAP and TSR. The graph below illustrates the relationship between TSR and the Peer Group TSR as well as the relationship between CAP and TSR for the PEO and average Non-PEO NEOs.

Relationship between CAP and Net Income. The graph below reflects the relationship between the PEO and average Non-PEO NEOs and Net Income.

Relationship between CAP and EPS. The graph below reflects the relationship between the PEO and average Non-PEO NEOs' CAP and Fulton's EPS for the applicable reporting year.

PROPOSAL 3 – ADVISORY VOTE ON THE FREQUENCY OF SHAREHOLDER VOTING ON EXECUTIVE COMPENSATION

Proposal

Pursuant to Section 14A of the Exchange Act, we are providing our shareholders with an opportunity to indicate how frequently Fulton should seek a non-binding advisory say-on-pay vote of shareholders. This proposal, commonly known as a “say-when-on-pay” proposal, allows our shareholders to have the opportunity to indicate whether they would prefer to be presented with a non-binding advisory say-on-pay vote every one, two or three years, or abstain from voting on this matter.

We believe that an annual non-binding advisory say-on-pay vote supports our goal to create an executive compensation program that enhances shareholder value. As described in the section titled “Compensation Discussion and Analysis,” Fulton’s executive compensation program is designed to align our NEOs’ interests with the interests of our shareholders, pay for performance and attract, motivate and retain qualified officers and employees.

An annual non-binding advisory say-on-pay vote will provide our shareholders with the ability to evaluate Fulton’s executive compensation program each year. In formulating its recommendation, the Board determined that an annual, non-binding advisory vote on executive compensation allows shareholders to provide Fulton with regular and timely input on its compensation principles, policies and practices. Fulton currently conducts a non-binding say-on-pay vote on an annual basis.

As a non-binding advisory vote, this proposal is not binding on the Board, the HR Committee or Fulton. However, the HR Committee and the Board will take into account the outcome of the vote when considering the frequency option that receives the highest number of shareholder votes.

The Board unanimously recommends that shareholders vote “FOR” an ANNUAL shareholder vote on the compensation of Fulton’s NEOs.

Vote Required

The option of one, two or three years that receives the highest number of shareholder votes cast at the Annual Meeting will be the frequency of the advisory vote on executive compensation. Abstentions and broker non-votes will not be counted as votes cast and, therefore, will not affect this proposal. Further, the failure to vote, either by proxy or in person, will not have an effect on this proposal. Unless instructions to the contrary are specified in a proxy properly voted and returned through available channels, the proxies will be voted “FOR” this proposal.

PROPOSAL 4 – APPROVAL OF THE AMENDED AND RESTATED 2023 DIRECTOR EQUITY PLAN

Proposal

On March 21, 2023, the Board approved and adopted, subject to shareholder approval, the 2023 Director Equity Plan. We are asking our shareholders to approve the 2023 Director Equity Plan. The 2023 Director Equity Plan is an important compensation tool designed to: (i) align the interests of our directors with those of Fulton’s shareholders by encouraging and creating ownership of shares of common stock of Fulton; (ii) enable Fulton to be competitive among its peers and attract and retain qualified directors who contribute to Fulton’s success by their efforts, service, ability and ingenuity; and (iii) provide long-term equity awards to our directors who are responsible for the success of Fulton and who are in a position to make significant contributions toward our objectives.

If the 2023 Director Equity Plan is approved by our shareholders at the Annual Meeting, it will amend and restate the 2019 Amended and Restated Directors’ Equity Participation Plan (the “**2019 Director Plan**”).

The Board unanimously recommends that shareholders vote “FOR” the approval of the 2023 Director Equity Plan.

Vote Required

The affirmative vote of a majority of the shares for which votes are cast on the proposal at the Annual Meeting is needed to approve this proposal. Abstentions and broker non-votes will not be counted as votes cast and, therefore, will not affect this proposal. Further, the failure to vote, either by proxy or in person, will not have an effect on this proposal. Unless instructions to the contrary are specified in a proxy properly voted and returned through available channels, the proxies will be voted “**FOR**” this proposal.

Background

The 2023 Director Equity Plan is intended to amend and restate the existing 2019 Director Plan, that expires on April 29, 2023. If the 2023 Director Equity Plan is approved by shareholders at the Annual Meeting, Fulton will not make any additional awards under the 2019 Director Plan. In the event the 2023 Director Equity Plan is not approved by shareholders at the Annual Meeting, then the 2023 Director Equity Plan will terminate and Fulton will continue to make grants under the 2019 Director Plan until it expires.

The 2023 Director Equity Plan, among other things: (i) sets the total shares available for new awards after May 16, 2023 (the “**Effective Date**”) to 500,000, (ii) provides that dividends (or dividend equivalents) will (A) be withheld by Fulton, (B) will remain subject to vesting requirements to the same extent as the applicable award and (C) will only be paid at the time the vesting requirements are satisfied, (iii) allows for the recycling of shares of Fulton common stock in certain cases and (iv) expires on May 16, 2033.

As of December 31, 2022, there were 216,807 shares of Fulton common stock outstanding underlying outstanding stock options, stock unit and restricted stock awards under the 2019 Director Plan. In addition, as of such date, there were 46,078 shares of Fulton common stock available for future awards under the 2019 Director Plan. Upon approval of the 2023 Director Equity Plan, the shares of Fulton common stock available for awards will be 500,000. The 500,000 shares of Fulton common stock that will be available for award under the 2023 Director Equity Plan represent the shares remaining available under the 2019 Director Plan plus approximately 453,922 additional shares. However, any awards made by Fulton under the 2019 Director Plan after March 1, 2023 will reduce the shares to be awarded under the 2023 Director Equity Plan.

As of December 31, 2022, there were 167,599,093 shares of Fulton common stock outstanding.

Burn Rate

Fulton’s equity-based compensation model, including the broad-based participation of Fulton’s employees and directors, and the portion of equity compensation paid to the NEOs, results in an annual usage of plan shares, known as the “burn rate.” The burn rate is the calculation for measuring the annual usage of shares of Fulton common stock. For 2022, 2021 and 2020, Fulton’s burn rate was approximately 0.34%, 0.36% and 0.43%, respectively, resulting in a three-year average burn rate of approximately 0.38%.

Overhang

As commonly calculated, the total potential dilution or “overhang” resulting from the adoption of the 2023 Director Equity Plan would be 4.59%.

Key Terms of the 2023 Director Equity Plan

The 2023 Director Equity Plan is attached to this Proxy Statement as Exhibit A. A summary of the 2023 Director Equity Plan is set forth below. Do not rely solely on this summary for information about the 2023 Director Equity Plan.

Participants

The 2023 Director Equity Plan is available for future equity-based awards to the non-employee directors of Fulton and its affiliates. No awards have been made under the 2023 Director Equity Plan, and no awards have been granted that are contingent on Fulton shareholder approval of the 2023 Director Equity Plan. Currently, all of our non-employee directors participate in the 2019 Director Plan and are eligible to participate in the 2023 Director Equity Plan should our shareholders approve the 2023 Director Equity Plan. Future awards under the 2023 Director Equity Plan will be made at the discretion of the HR Committee. The awards or number of shares of Fulton common stock subject to awards that may be granted in the future to non-employee directors under the 2023 Director Equity Plan are not determinable at this time.

Administration

The 2023 Director Equity Plan is administered by the HR Committee. The HR Committee will determine the 2023 Director Equity Plan non-employee director participants, vesting schedules and the expiration of awards.

Shares Available for Grant

Subject to adjustment as described below, and excluding any awards granted prior to the Effective Date, the total number of shares of Fulton common stock available that may be granted under the 2023 Director Equity Plan shall not exceed 500,000. During the term of the 2023 Director Equity Plan, Fulton will keep reserved at all times the number of shares of Fulton common stock required to satisfy all such awards.

Types of Awards Available under the 2023 Director Equity Plan

Under the 2023 Director Equity Plan, the HR Committee can make restricted stock awards, restricted stock unit awards and stock awards.

Restricted Stock Awards. The 2023 Director Equity Plan authorizes the HR Committee to grant restricted stock awards to non-employee directors. Restricted stock awards are subject to forfeiture. Forfeiture restrictions can be time-based and restriction periods are not less than one year.

During the restriction period, the participant is the owner of the underlying shares of Fulton common stock and is entitled to vote the shares. The HR Committee has the discretion to award dividends associated with the restricted stock, but the dividends are credited to the non-employee director’s account and paid only upon the release of the restrictions. Upon the lapse of any forfeiture restrictions, the issued shares of Fulton common stock are then owned by the non-employee director.

Restricted Stock Units. The 2023 Director Equity Plan authorizes the HR Committee to grant restricted stock units to non-employee directors with such terms and conditions as the HR Committee deems appropriate. A restricted stock unit is the right to receive a share of Fulton common stock at some point in the future, and Fulton common stock is not issued and outstanding at the time of award. Restricted stock units are subject to forfeiture. A restriction period must be a minimum of one year and can: (i) be an established number of years and (ii) last until the end of continuous service of the non-employee director.

During the restriction period, the non-employee director is not the owner of the shares of Fulton common stock but may be entitled to receive “dividend equivalents.” Dividend equivalents are credited to the non-employee director’s account and paid only upon the release of the restrictions on such restricted stock unit award.

Upon the lapse of any forfeiture restrictions, the non-employee director will be issued shares of Fulton common stock.

Stock Awards. The HR Committee may grant stock awards to eligible non-employee directors.

Dividend Equivalents on Equity Awards. If authorized by the HR Committee, upon the granting of a time-based restricted stock award or a restricted stock unit award, a non-employee directors has the rights of a shareholder with respect to the voting of the Fulton common stock underlying such restricted stock award or restricted stock unit award, subject to the conditions contained in the applicable award agreement. The award agreement may require or permit the waiver, deferral or investment of dividends or dividend equivalents paid on the shares of Fulton common stock underlying a restricted stock award or a restricted stock unit award.

As a practice, dividends are not paid on unvested time-based restricted stock awards or restricted stock unit awards. Instead, dividends will be accrued and paid when unvested time-based restricted stock awards or restricted stock unit awards vest.

Vesting – Time-Based Awards

Subject to acceleration, restricted stock and restricted stock unit awards will vest and become exercisable, or forfeiture restrictions will lapse, on the first anniversary of the date of grant.

Acceleration of Vesting in Certain Events

Certain events accelerate the vesting schedule for outstanding awards under the 2023 Director Equity Plan. Such events include:

- A Change in Control of Fulton. Upon a termination of a non-employee director’s service within 12 months following a change in control, all stock options vest and are eligible for exercise by the non-employee director, and the forfeiture restrictions lapse on all time-based restricted stock and restricted stock units awards. A change in control generally means: (i) a consolidation or merger of Fulton into another company, (ii) a sale of all the assets of Fulton, (iii) one person, group or entity acquiring at least 50% of the voting securities of Fulton or (iv) a majority of Board changing within one year (without the approval of the then-existing directors);
- The Death or Disability of a Non-Employee Director. In the case of death or disability, all forfeiture restrictions lapse on all outstanding restricted stock and restricted stock unit awards; and
- The Retirement of a Non-Employee Director. In the case of retirement, all forfeiture restrictions lapse on all outstanding restricted stock and restrict stock unit awards.

Adjustments

In the event of a merger, consolidation, recapitalization, reincorporation, stock dividend or stock split, the HR Committee will make an appropriate adjustment to the maximum number of shares of Fulton common stock subject to the 2023 Director Equity Plan.

Maximum Annual Awards

The HR Committee has the authority to determine the type or types of awards made under the 2023 Director Equity Plan. Under the 2023 Director Equity Plan, the maximum number of shares of Fulton common stock relating to all types of awards granted to any one eligible non-employee director will not exceed the greater of: (i) 20,000 shares, or (ii) a number of shares with an aggregate fair market value on the date of grant of \$200,000.

Amendments to the 2023 Director Equity Plan

The Board or the HR Committee may at any time amend, modify, suspend or discontinue the 2023 Director Equity Plan, but the Board or the HR Committee may not, without the consent of Fulton shareholders, make any amendment or modification that: (i) increases the maximum number of shares of Fulton common stock to which awards may be granted under the 2023 Director Equity Plan, (ii) changes the class of eligible non-employee directors, (iii) effects a repricing transaction, (iv) materially increases the benefits to a non-employee director under the 2023 Director Equity Plan or (v) otherwise requires the approval of Fulton shareholders under applicable laws or listing requirements with respect to the shares.

Federal Income Tax Consequences

The following is a brief description of the U.S. federal income tax consequences generally arising with respect to the grant of restricted stock awards. This summary is not intended to (and does not) constitute tax advice and is not intended to be exhaustive and, among other things, does not describe state, local or foreign tax consequences. Non-employee directors are advised to consult with their own independent tax advisors with respect to the specific tax consequences that, in light of their particular circumstances, might arise in connection with their receipt of awards under the 2023 Director Equity Plan, including any state, local or foreign tax consequences and the effect, if any, of gift, estate and inheritance taxes.

Time-Based Restricted Stock Awards

Generally, the recipient of an award of restricted stock will not recognize ordinary income at grant. Instead, the participant generally will recognize ordinary income when the stock units or time-based restricted stock or units vest equal to the fair market value of the Fulton common stock on the vesting date. Fulton will generally receive a tax deduction equal to the amount of ordinary income recognized by the recipient.

Section 409A

Section 409A of the Tax Code governs the taxation of deferred compensation. Awards received under the 2023 Director Equity Plan are intended to be exempt from the requirements of Section 409A. However, there can be no assurance that awards designed to be exempt from Section 409A will, in fact, be exempt. An award that is subject to Section 409A and fails to satisfy its requirements will subject the holder of the award to immediate taxation, an interest penalty and an additional 20% tax on the amount underlying the award.

Share Recycling

Shares of Fulton common stock underlying awards will be available for reissuance under the 2023 Director Equity Plan in the event that an award expires or is canceled or otherwise terminated.

Transferability

Generally, awards may not be sold, pledged, assigned, hypothecated, transferred or disposed of in any manner other than by will, by the laws of descent and distribution or pursuant to a domestic relations order entered into by a court of competent jurisdiction and may be exercised, during the lifetime of the non-employee director only by the non-employee director.

Term of the 2023 Director Equity Plan

Unless previously terminated by the Board, the 2023 Director Equity Plan shall terminate on, and no award shall be granted after May 16, 2033.

PROPOSAL 5 – RATIFICATION OF INDEPENDENT AUDITOR

Proposal

Fulton’s Audit Committee selected KPMG to continue as Fulton’s independent auditor for the fiscal year ending December 31, 2023. Although shareholder approval of the selection of KPMG is not required by our organizational documents, the Board believes that it is advisable to give shareholders an opportunity to ratify this selection as it is consistent with sound corporate governance practices.

If Fulton’s shareholders do not approve this proposal at the Annual Meeting, then the Audit Committee may consider the appointment of another independent auditor, but it is not required to do so.

Representatives of KPMG will be present at the Annual Meeting and will have the opportunity to make a statement, if they desire to do so, and to respond to appropriate questions.

The Board unanimously recommends that shareholders vote “FOR” the ratification of the appointment of KPMG as Fulton’s independent auditor for the fiscal year ending December 31, 2023.

Vote Required

The affirmative vote of a majority of the shares for which votes are cast on the proposal at the Annual Meeting is needed to approve this proposal. Abstentions and broker non-votes will not be counted as votes cast and, therefore, will not affect this proposal. Further, the failure to vote, either by proxy or in person, will not have an effect on this proposal. Unless instructions to the contrary are specified in a proxy properly voted and returned through available channels, the proxies will be voted “**FOR**” this proposal.

RELATIONSHIP WITH INDEPENDENT PUBLIC ACCOUNTANTS

Independent Auditor

On February 21, 2023, Fulton's Audit Committee approved the appointment of KPMG for the fiscal year ended December 31, 2023. The Audit Committee carefully considered KPMG's qualifications and the services requiring independence discussed in the Audit Committee Report. The Audit Committee determined that such services did not impair the independence of KPMG.

Fees

For the years ended December 31, 2022 and December 31, 2021, Fulton engaged KPMG, independent registered public accountants, to audit Fulton's financial statements. KPMG has served as the independent auditor of Fulton since 2002. The fees incurred for services rendered by KPMG for the years ended December 31, 2022 and 2021 are summarized in the following table:

Services and Fees	2022	2021
Audit Fees – Annual Audit and Quarterly Reviews ¹	\$2,595,000	\$2,116,000
Audit Fees – Issuance of Comfort Letters and Consents	-	-
Audit Fees – Statutory Audit	58,000	54,000
Audit Fees Subtotal	2,653,000	2,170,000
Audit-Related Fees	-	-
Tax Fees	60,000	58,000
All Other Fees	-	-
TOTAL	\$2,713,000	\$2,228,000

¹ Amounts are based upon the audit engagement letter and additional fees paid. We do not anticipate final billings to differ significantly from the amounts presented above.

Audit Fees. Fees related to the integrated audit of Fulton's annual financial statements for the years ended December 31, 2021 and 2022, and for the reviews of the financial statements included in Fulton's quarterly reports on Form 10-Q and 10-K for those years.

Audit-Related Fees. There were no audit-related fees for 2022 or 2021.

Tax Fees. Tax fees were paid for tax services relating to federal and state tax matters.

All Other Fees. There were no other fees for 2022 or 2021.

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee pre-approved all fees paid to KPMG in 2022 and 2021. The Audit Committee pre-approves all auditing and permitted non-auditing services, including the fees and terms thereof, to be performed by KPMG, subject to de minimis exceptions for non-auditing services permitted by the Exchange Act. These services are approved prior to completion of the services. The Audit Committee recommended to the Board that the financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2022 for filing with the SEC.

The Audit Committee pre-approved all fees paid to KPMG in 2022 and 2021.

AUDIT COMMITTEE REPORT

The Audit Committee reviewed and discussed with management Fulton’s audited financial statements as of, and for the year ended, December 31, 2022.

The Audit Committee discussed with representatives of KPMG LLP, Fulton’s independent auditor, the matters required to be discussed by the applicable requirements of the Public Company Accounting Oversight Board (“PCAOB”) and the SEC.

The Audit Committee received, reviewed and discussed with KPMG the written disclosures and the letter from the independent auditor required by applicable PCAOB requirements regarding the independent auditor’s communications.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board that the audited consolidated financial statements of Fulton for 2022 be included in Fulton’s Annual Report on Form 10-K for the year ended December 31, 2022 for filing with the SEC.

MEETING AND OTHER INFORMATION

Date, Time and Place of the Annual Meeting

The Annual Meeting will be held Tuesday, May 16, 2023, at 10:00 a.m. eastern time at the Lancaster Marriott at Penn Square, 25 South Queen Street, Lancaster, Pennsylvania 17603. To vote at the Annual Meeting, please go to www.proxyvote.com.

Registered and beneficial shareholders may choose to attend the Annual Meeting in person. Each person attending the Annual Meeting must bring his or her proof of ownership and may be asked to produce it and a valid photo identification.

Notice of Internet Availability of Proxy Materials

In accordance with rules adopted by the SEC, except for shareholders who have requested otherwise, we have generally mailed to our shareholders a Notice of Internet Availability of Proxy Materials (the “**Notice of Internet Availability**”). The Notice of Internet Availability provides instructions either for accessing our proxy materials, including the Notice of Annual Meeting of Shareholders (the “**Notice**”) and Proxy Statement, the 2022 Annual Report to Shareholders, which includes our Annual Report on Form 10-K for the year ended December 31, 2022 (collectively, the “**Proxy Materials**”), at the website address referred to in the Notice of Internet Availability or for requesting printed copies of the Proxy Materials by mail or electronically by e-mail. If you would like to receive a paper or e-mail copy of our Proxy Materials either for this Annual Meeting or for future meetings, you should follow the instructions for requesting such materials included in the Notice of Internet Availability we mailed to you.

Our Board provided the Notice of Internet Availability and is making the Proxy Materials available to you in connection with the Annual Meeting. As a shareholder of record on the Record Date, you are invited to attend the Annual Meeting and are entitled to, and requested to, vote on the proposals described in this Proxy Statement.

Information Contained in Proxy Statement

The information relates to the proposals to be voted on at the Annual Meeting, the voting process, compensation of our directors and most highly paid executives, and certain other required information.

Access Fulton’s Proxy Materials Electronically

The Proxy Materials are available at www.proxyvote.com and from our corporate website at www.fultonbank.com in the “Investors Relations” section. To view this material, you must have available the 16-digit control number located on the proxy card or, if shares are held in the name of a broker, bank or other nominee, the voting instruction form.

Shareholders Eligible to Vote and Attend the Annual Meeting

Only those shareholders of record at the close of business on the Record Date shall be entitled to receive notice of, attend and vote at the Annual Meeting.

Attendance at the Annual Meeting will be limited to shareholders of record at the close of business on the Record Date.

Shares Eligible to be Voted

At the close of business on the Record Date, Fulton had 166,110,774 shares of common stock outstanding and entitled to vote.

401(k) Plan

As of the Record Date, 3,592,800 shares of Fulton common stock were held by Fulton Financial Advisors (“**FFA**”), a division of Fulton Bank, as the plan trustee, or in a fiduciary capacity for fiduciary accounts. The shares of Fulton common stock held in this manner, in the aggregate, represent approximately 2.24% of the total shares of Fulton common stock outstanding. Shares of Fulton common stock held by FFA are voted by the beneficiaries of the 401(k) Plan.

Shares of Fulton common stock for which FFA serves as a co-fiduciary will be voted by the co-fiduciary, unless the co-fiduciary declines to accept voting responsibility, in which case, FFA will vote to abstain on all proposals. Shares of Fulton common stock for which: (i) FFA serves as sole trustee of a revocable trust, (ii) FFA acts as agent for an investment management account and (iii) FFA acts as custodian for a custodial account, are voted by the settlor of the revocable trust or the principal of the agency or custodial account, respectively, unless the governing document provides for FFA to vote the shares of Fulton common stock, in which case FFA will vote to abstain on all proposals. Shares of Fulton common stock for which FFA is acting as sole trustee of an irrevocable trust or as guardian of the estate of a minor or an incompetent person are voted by FFA, and, in such cases, FFA will vote to abstain on all proposals.

Vote Required

The vote required for each proposal presented at the Annual Meeting and the effect of uninstructed shares and abstentions on each proposal is as follows:

	Proposal	Vote Requirement	Effect of Abstentions	Effect of Broker Non-Votes	You May Vote
1.	Election of Directors	Highest number of votes cast	No effect	No effect	For or Withheld
2.	Advisory vote on executive compensation	Majority of the votes cast	No effect	No effect	For, Against or Abstain
3.	Advisory vote on the frequency of shareholding voting on executive compensation	Highest number of votes cast	No effect	No effect	For a one, two or three year frequency or Abstain
4.	Approval of the 2023 Director Equity Plan	Majority of the votes cast	No effect	No effect	For, Against or Abstain
5.	Ratification of independent auditor	Majority of the votes cast	No effect	No effect	For, Against or Abstain

Quorum Requirement

The holders of a majority of Fulton’s outstanding shares of common stock must be present in person, or by proxy, at the Annual Meeting to constitute a quorum. Abstentions and broker non-votes (i.e., proxies from banks, brokers or other nominees) will also be counted as being present for purposes of determining a quorum if such shares of Fulton common stock have been voted on any matter other than a non-procedural matter. Proxies returned without voting instructions will not be counted for purposes of determining a quorum.

A majority of the votes cast at a meeting at which a quorum is present is required in order to approve any matter submitted to a vote of the shareholders. Except for (i) the election of directors, in which the 11 director nominees receiving the highest number of votes will be elected, (ii) the advisory vote on the frequency of shareholder voting on executive compensation, in which the option of one, two or three years that receives the highest number of shareholder votes cast will be the frequency of the advisory vote on executive compensation. or (iii) in cases where the vote of a greater number of shares is required by law or under Fulton’s Articles of Incorporation or Bylaws, each share is entitled to one vote on all matters submitted to a vote of the shareholders.

Broker Non-Votes

If a broker indicates on the proxy card that it does not have authority to vote certain shares held in “street name,” the shares not voted are referred to as “broker non-votes.” Broker non-votes occur when brokers do not have discretionary voting authority to vote certain shares held in “street name” on particular proposals, and the “beneficial owner” of those shares has not instructed the broker how to vote on those proposals. If you are a beneficial owner and you do not provide instructions to your broker, bank or other nominee, your broker, bank or other nominee is permitted to vote your shares for or against “routine” matters such as Proposal 5, the ratification of the appointment of our independent auditor. Brokers are not permitted to exercise discretionary voting authority to vote your shares for or against “non-routine” matters. All of the matters on which shareholders will be asked to vote on at the Annual Meeting, with the exception of Proposal 5, the ratification of the appointment of our independent auditor, are “non-routine” matters. Broker non-votes will not be counted as votes cast and will have no effect on the voting of non-routine matters.

How to Vote

There are several ways to vote your shares:

- By mail. If you received printed Proxy Materials, you may submit your proxy card by completing, signing and dating each proxy card received and returning it in the prepaid envelope. Proxy cards submitted by mail must be received no later than 11:59 p.m. Eastern Time on May 15, 2023 for registered shareholders or 11:59 p.m. Eastern Time on May 11, 2023 for 401(k) Plan participants to be voted at the Annual Meeting;
- By Mobile Device. Scan the QR code;
- By telephone. Instructions are shown on your proxy card or Notice of Internet Availability;
- Via the Internet. Instructions are shown on your proxy card or Notice of Internet Availability; and
- At the Annual Meeting. You may vote your shares at the Annual Meeting by casting a ballot or voting online by following the instructions on the Proxy Materials sent to you.

If you are a beneficial owner of Fulton common stock, you should receive the Notice of Internet Availability or voting instructions from your broker or other nominee holding your shares. In accordance with the rules of the SEC, unless a shareholder elected to receive a paper copy of Fulton's Proxy Materials, Fulton is furnishing Proxy Materials to Fulton's shareholders via the Internet at www.proxyvote.com. Electronic delivery expedites the receipt of proxy materials and significantly lowers costs to conserve natural resources. If you hold shares in "street name" or "nominee name" with a bank or broker, then you should instruct your bank or broker how to vote your shares and follow the voting procedures required by your bank or broker to vote your shares.

If you submit a proxy card properly voted and returned through available channels without giving specific voting instructions, the proxies will vote the shares as recommended by our Board.

Revoking or Changing Your Vote

The execution and return of the enclosed proxy card, or voting by another method, will not affect a shareholder's right to attend, and vote at, the Annual Meeting. A shareholder may revoke his or her proxy before it is counted at the Annual Meeting by: (i) delivering written notice to the Corporate Secretary, (ii) sending a new proxy card before his or her shares are voted at the Annual Meeting or (iii) voting by another method before the deadline set forth on the proxy card. Unless revoked, any proxy given pursuant to this solicitation will be voted at the Annual Meeting in accordance with the shareholder's written instructions.

The Cost of the Proxy Solicitation

This Proxy Statement is furnished in connection with the solicitation of proxies. Fulton is making this solicitation and will pay the cost of preparing, assembling, printing, mailing and distributing Proxy Materials and soliciting votes for the Annual Meeting. The solicitation of proxies or votes may be made in person, by mail, mobile device, telephone or by electronic communication by Fulton's directors, officers and employees who will not receive any compensation for such solicitation activities. Fulton will reimburse brokers and other nominees for costs incurred by them in mailing Proxy Materials in accordance with applicable laws. Fulton has engaged Alliance Advisors to assist in the solicitation of proxies at a cost of approximately \$7,500, plus reimbursement for reasonable out-of-pocket expenses.

How to Obtain Fulton's Corporate Governance Information

Our Corporate Governance information is available from our website at www.fultonbank.com under the "Investor Relations" section. Our shareholders may also obtain written copies at no cost by writing to the Corporate Secretary at One Penn Square, P.O. Box 4887, Lancaster, Pennsylvania 17604.

Sign Up for Electronic Delivery

If you would like to save paper and reduce the costs we incur in printing and mailing Proxy Materials, you can consent to receiving all future proxy statements, proxy cards and annual reports electronically via e-mail or the Internet. To sign up for electronic delivery, please go to www.proxyvote.com and follow the instructions.

COMPANY DOCUMENTS AND OTHER MATTERS

Shareholder Proposals

Shareholder proposals intended to be considered for inclusion in Fulton’s proxy statement for the 2024 Annual Meeting must be received by Fulton’s Corporate Secretary at One Penn Square, P.O. Box 4887, Lancaster, Pennsylvania 17604 no later than December 5, 2023, 120 calendar days before the date Fulton’s proxy statement is released to shareholders in connection with the Annual Meeting, and must satisfy the other requirements of Rule 14a-8 under the Exchange Act regarding the inclusion of shareholder proposals in company-sponsored proxy materials.

Shareholder proposals to be considered at the 2024 Annual Meeting but not included in our Proxy Materials must be received by our Corporate Secretary no later than February 20, 2024 to be considered timely.

Procedure for Shareholder Nominations

Our Bylaws permit shareholders to nominate directors for consideration at an annual meeting. To nominate a director for consideration at an annual meeting (but not for inclusion in our proxy statement), a nominating shareholder must provide the information required by our Bylaws and give timely notice of the nomination to Fulton’s Corporate Secretary in accordance with our Bylaws, and each nominee must meet the qualifications required by our Bylaws. To nominate a director for consideration at the 2024 Annual Meeting, the notice must be received by Fulton’s Corporate Secretary no later than December 5, 2023, 120 days prior to the date that Fulton’s proxy statement is released to shareholders in connection with the Annual Meeting, unless the date of the 2024 Annual Meeting is changed by more than 30 days from May 16, 2024, the one year anniversary of Fulton’s Annual Meeting, in which case the proposal must be received a reasonable time before Fulton begins to print and send its proxy materials.

In addition, SEC Rule 14a-19 requires inclusion on our proxy card of all nominees for director for whom we have received notice under the rule, which must be received no later than 60 calendar days prior to the first anniversary of the preceding year’s annual meeting. For the proxy card relating to the 2024 Annual Meeting, notice must be received by Fulton’s Corporate Secretary of a shareholder’s intent to solicit proxies and the names of their nominees no later than March 17, 2024 for the 2024 Annual Meeting. Such notice must comply with the requirements set forth in our Bylaws and the additional requirements of Rule 14a-19(b).

Annual Report

A copy of our Annual Report, including the financial statements and schedules, is available without charge to shareholders on our corporate website at www.fultonbank.com in the “Investor Relations” section, from the website www.proxyvote.com and upon written request addressed to the Corporate Secretary: Fulton Financial Corporation, Attention Corporate Secretary, P.O. Box 4887, One Penn Square, Lancaster, Pennsylvania 17604.

Householding of Proxy Materials

The SEC has adopted rules that permit companies and intermediaries, such as brokers, to satisfy delivery requirements for annual reports, proxy statements, and Notices of Internet Availability with respect to two or more shareholders sharing the same address by delivering a single annual report, proxy statement, and Notice of Internet Availability addressed to those shareholders. This process, which is commonly referred to as “householding,” potentially provides extra convenience for shareholders and cost savings for companies. Only one Proxy Statement is being delivered to multiple shareholders sharing an address unless we receive contrary instructions from one or more of the shareholders. If you are eligible for householding and wish to receive one copy for all eligible shareholders in your household, or if you are receiving multiple copies of the Proxy Statement and wish to receive only one, then you may make a written request to the Corporate Secretary: Fulton Financial Corporation, Attention Corporate Secretary, P.O. Box 4887, One Penn Square, Lancaster, Pennsylvania 17604.

Other Matters

The Board knows of no business that will be presented for consideration at the Annual Meeting other than as stated in the Notice. If, however, other matters are properly brought before the Annual Meeting, it is the intention of the persons named in the accompanying proxy to vote the shares represented thereby on such matters in accordance with his or her best judgment.

Annex A

NON-GAAP RECONCILIATIONS

Fulton uses certain financial measures in this Proxy Statement that have been derived from methods other than GAAP to provide meaningful supplemental information regarding its operational performance and to enhance overall understanding of such financial performance. The non-GAAP measures used herein include EPS and ROE.

Fulton has presented these non-GAAP financial measures because Fulton's management believes that these measures provide useful and comparative information to assess trends in Fulton's results of operations. Presentation of these non-GAAP financial measures is consistent with how Fulton evaluates its performance internally, and these non-GAAP financial measures are frequently used by securities analysts, investors and other interested parties in the evaluation of companies in the Fulton's industry. Management believes that these non-GAAP financial measures, in addition to GAAP measures, are also useful to investors to evaluate Fulton's results. Shareholders should recognize that Fulton's presentation of these non-GAAP financial measures might not be comparable to similarly-titled measures of other companies and that these non-GAAP financial measures should not be considered a substitute for GAAP basis measures. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measure are set forth below:

	2022	2021
Operating net income available to common shareholders		
Net income available to common shareholders	276,733,000	265,220,000
Plus: Core deposit intangible amortization	1,029,000	-
Plus: Merger-related expenses	10,328,000	-

FULTON FINANCIAL CORPORATION

AMENDED AND RESTATED 2023 DIRECTOR EQUITY PLAN

Article 1. Purpose of the Plan.

The purpose of the Amended and Restated 2023 Director Equity Plan (the “**Plan**”) of Fulton Financial Corporation (the “**Company**”) are to: (i) align the interests of our directors with those of the Company’s shareholders by encouraging and creating ownership of Shares of Common Stock of the Company; (ii) enable the Company to be competitive among its peers and attract and retain qualified individuals who contribute to the Company’s success by their efforts, service, ability and ingenuity; and (iii) provide long-term equity Awards to our directors who are responsible for the success of the Company and who are in a position to make significant contributions toward its objectives. The Plan amends and restates the Company’s Amended and Restated Directors’ Equity Participation Plan (the “**2019 Director Equity Plan**”). Upon its effectiveness, any awards made by the Company under the 2019 Director Equity Plan after March 1, 2023 will reduce the shares to be awarded under the Plan.

All outstanding Awards granted under the 2019 Director Equity Plan prior to its amendment and restatement will remain subject to the terms of the Plan; provided, that no Awards granted or awarded prior to the effectiveness of this amendment and restatement that are materially adversely affected by the changes in the Plan will be subject to such provisions without the prior consent of the applicable Non-Employee Director.

Article 2. Definitions.

For purposes of the Plan, the following words or phrases will have the meanings assigned to them below:

2.01 “Affiliate” means a parent or subsidiary corporation of the Company as defined in Sections 424(e) and (f) of the Code.

2.02 “Applicable Laws” means the requirements related to or implicated by the administration of the Plan under applicable state corporate law, United States federal and state securities laws, the Code, and any stock exchange or quotation system on which the Shares are listed or quoted.

2.03 “Award” means a Restricted Award or a Stock Award. Each Award will be subject to the terms and conditions of the Plan and to such other terms and conditions included by the Committee in the Award Agreement, to the extent not inconsistent with the Plan.

2.04 “Award Agreement” means a written agreement, contract, certificate or other instrument or document evidencing the terms and conditions of an individual Award granted under the Plan.

2.05 “Board” means the Board of Directors of the Company.

2.06 “Business Combination” has the meaning set forth in Section 2.07(c).

2.07 “Change in Control” of the Company will be deemed to have occurred when:

(a) during any period of not more than thirty-six (36) months, individuals who constitute the Board as of the beginning of the period (the “**Incumbent Directors**”) cease for any reason to constitute at least a majority of the Board, provided that (i) any person becoming a director subsequent to the beginning of the period, whose nomination for election or appointment was approved by a vote of at least two-thirds of the Incumbent Directors then on the Board (either by a specific vote or by approval of the Company’s proxy statement in which such person

is named as a nominee for director, without written objection to such nomination) will be an Incumbent Director, and (ii) no individual initially nominated or appointed as a result of an actual or publicly threatened election contest or pursuant to a negotiated agreement with respect to directors or as a result of any other actual or publicly threatened solicitation of proxies by or on behalf of any person other than the Board will be deemed to be an Incumbent Director;

(b) the acquisition by any person (as such term is defined in Section 3(a)(9) of the Securities Exchange Act of 1934, as amended from time to time, or any successor thereto, and the applicable rules and regulations thereunder (the “**Exchange Act**”) and as used in Sections 13(d)(3) and 14(d)(2) of the Exchange Act) of beneficial ownership (as such term is defined in Rule 13d-3 under the Exchange Act), of the Company’s capital stock entitled to thirty percent (30%) or more of the outstanding voting power of all capital stock of the Company eligible to vote for the election of the Board (“**Voting Securities**”); provided, however, that the event described in this paragraph (b) will not be deemed to be a Change in Control by virtue of the ownership, or acquisition, of Voting Securities: (i) by the Company or an Affiliate, including purchases pursuant to a stock repurchase plan, (ii) by any employee benefit plan (or related trust) sponsored or maintained by the Company or an Affiliate, (iii) by any underwriter temporarily holding securities pursuant to an offering of such securities or (iv) pursuant to a Non-Qualifying Transaction (as defined in paragraph (c) of this definition);

(c) the consummation of a merger, consolidation, division, statutory share exchange, or any other transaction or a series of transactions outside the ordinary course of business involving the Company (a “**Business Combination**”), unless immediately following such Business Combination: (i) more than fifty percent (50%) of the total voting power of (x) the entity resulting from such Business Combination, or (y) if applicable, the ultimate parent corporation that directly or indirectly has beneficial ownership of at least ninety-five percent (95%) of the voting power of such resulting entity (either, as applicable, the “**Surviving Entity**”), is represented by Voting Securities that were outstanding immediately prior to such Business Combination (or, if applicable, is represented by shares into which such Voting Securities were converted pursuant to such Business Combination), and such voting power among the holders thereof is in substantially the same proportion as the voting power of such Voting Securities among the holders thereof immediately prior to the Business Combination, (ii) no person (other than any employee benefit plan (or related trust) sponsored or maintained by the Surviving Entity), is or becomes the beneficial owner, directly or indirectly, of thirty percent (30%) or more of the total voting power of the outstanding voting securities eligible to elect directors of the Surviving Entity and (iii) at least a majority of the members of the board of directors of the Surviving Entity following the consummation of the Business Combination were Incumbent Directors at the time of the Board’s approval of the execution of the initial agreement providing for such Business Combination (any Business Combination which satisfies all of the criteria specified in (i), (ii) and (iii) of this paragraph (c) will be deemed to be a “**Non-Qualifying Transaction**”);

(d) the consummation of a sale of all or substantially all of the assets of the Company (other than to a wholly owned subsidiary of the Company); or

(e) the Company’s shareholders approve a plan of complete liquidation or dissolution of the Company.

Actions taken by the Company to merge, consolidate, liquidate or otherwise reorganize one or more of its subsidiaries or affiliates will not constitute a Change in Control for purposes of this Plan.

2.08 “**Code**” means the Internal Revenue Code of 1986, as amended from time to time.

2.09 “**Code of Conduct**” means the Company’s Code of Conduct, as amended from time to time.

2.10 “**Committee**” means the Human Resources Committee of the Board or such other committee of the Board appointed by the Board to administer the Plan.

2.11 “**Common Stock**” means the common stock of the Company, par value \$2.50 per share.

2.12 “Continuous Service” means the Non-Employee Director’s service with the Company or an Affiliate, whether as a Non-Employee Director or consultant, is not interrupted or terminated. The Non-Employee Director’s Continuous Service will not be deemed to have terminated merely because of a change in the capacity in which the Non-Employee Director renders service to the Company or an Affiliate or a change in the entity for which the Non-Employee Director renders such service, provided that if any Award is subject to Section 409A of the Code, this sentence will only be given effect to the extent consistent with Section 409A of the Code. For example, a change in status from a Non-Employee Director of the Company to a Director or a consultant of an Affiliate will not constitute an interruption of Continuous Service. The Committee or its delegate, in its sole discretion, may determine whether Continuous Service will be considered interrupted in the case of any leave of absence approved by that party, including sick leave, military leave or any other personal or family leave of absence.

2.13 “Date of Grant” means the date the Committee grants an Award to a Non-Employee Director or, if a later date is set forth in a resolution, the date as set forth in such resolution.

2.14 “Disability” means the Non-Employee Director is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than 12 months. If necessary, whether an individual has a Disability will be determined under procedures established by the Committee.

2.15 “Director” means a member of the Board.

2.16 “Effective Date” is described in Article 15.

2.17 “Exchange Act” has the meaning set forth in Section 2.07(b).

2.18 “Fair Market Value” means, as of any date, the following value of a share of Common Stock: (a) if the Common Stock is listed on any national stock exchange, the Fair Market Value will be the closing price on the trading day of the Date of Grant (or if no sales of shares were reported on any stock exchange on that day, the closing price on the immediately preceding trading day on which such price was reported), as reported by Nasdaq, in the Wall Street Journal or such other source as the Committee deems reliable and (b) in the absence of an established market for the Common Stock, the Fair Market Value will be determined in good faith by the Committee and such determination will be conclusive and binding on all persons.

2.19 “Independent” or “Independence” means, with respect to a Director, the independence requirements applicable to a Committee member under the rules and regulations of the U.S. Securities and Exchange Commission and the national securities exchange or national interdealer quotation system on which the Common Stock is then listed or quoted.

2.20 “Non-Employee Director” means a non-employee director of the Board or an Affiliate within the meaning of Rule 16b-3 promulgated under the Exchange Act.

2.21 “Restricted Award” means any Award granted pursuant to Article 7.

2.22 “Restricted Period” has the meaning set forth in Section 7.01.

2.23 “Restricted Stock” has the meaning set forth in Section 7.01.

2.24 “Restricted Stock Unit” has the meaning set forth in Section 7.01.

2.25 “Retirement” means termination from service as a Non-Employee Director (i) after the Non-Employee Director completed a minimum number of years of service (as established by the Committee from time to time) or (ii) the Non-Employee Director has reached the mandatory board retirement age. Notwithstanding anything in the Plan to the contrary, if the Committee has not established a minimum number of years for service, then the minimum service requirement will be one year from the Non-Employee Director’s appointment to the Board or Affiliate board.

2.26 “**Securities Act**” means the Securities Act of 1933.

2.27 “**Shares**” means shares of Common Stock subject to Awards or available for future Awards under the Plan.

2.28 “**Stock Award**” means an award of Common Stock granted to a Non-Employee Director pursuant to Article 6 that is not subject to a restriction.

Article 3. Administration of the Plan.

3.01 **Committee Composition.** The Plan will be administered by the Committee, or, in the Board’s sole discretion, by the Independent Directors of the Board.

3.02 **Delegation.** The Committee or, if no Committee has been appointed, the Board may delegate administration of the Plan to a committee or committees of one or more members of the Board. The Committee will have the power to delegate to a subcommittee any of the administrative powers the Committee is authorized to exercise (and reference in this Plan to the Board or the Committee will thereafter be to the committee or subcommittee) subject, however, to such resolutions, not inconsistent with the provisions of the Plan, as may be adopted from time to time by the Board.

3.03 **Authority of Committee.** Subject to the terms of the Plan, the Committee’s charter and Applicable Laws and in addition to other express powers and authorization conferred by the Plan, the Committee will be vested with full authority:

- (a) to adopt, amend and rescind such rules and regulations as it deems necessary or desirable to administer the Plan;
- (b) to construe, interpret and apply the provisions of the Plan;
- (c) to authorize any person to execute, on behalf of the Company, any instrument required to carry out the purposes of the Plan;
- (d) to determine when Awards are to be granted under the Plan and the applicable Date of Grant;
- (e) from time to time to select, subject to the limitations set forth in the Plan, those Non-Employee Directors to whom Awards will be granted;
- (f) to determine the number of Shares to be made subject to each Award;
- (g) to prescribe the terms and conditions of each Award including, without limitation, the medium of payment and vesting provisions and to specify the provisions of the Award Agreement relating to such grant;
- (h) to round awards that result in fractural shares up to the next whole share of Common Stock;
- (i) to amend any outstanding Awards, including for the purpose of modifying the time or manner of vesting or the term of any outstanding Award; provided, however, that if any such amendment impairs a Non-Employee Director’s rights increases a Non-Employee Director’s obligations under his or her Award or creates or increases a Non-Employee Director’s federal income tax liability with respect to an Award, such amendment will also be subject to the Non-Employee Director’s consent;
- (j) to make decisions with respect to outstanding Awards that may become necessary upon a Change in Control or an event that triggers anti-dilution adjustments;
- (k) to interpret, administer, reconcile any inconsistency in, correct any defect in and/or supply any omission in the Plan and any instrument or agreement relating to, or Award granted under, the Plan; and

(l) to exercise discretion to make any and all other determinations that it determines to be necessary or advisable for the administration of the Plan.

Any determination, decision or action of the Committee in connection with the construction, interpretation, administration or application of the Plan will be final, conclusive and binding upon the Company and all Non-Employee Directors and any person claiming under or through a Non-Employee Director.

3.04 Indemnification. In addition to such other rights of indemnification as they may have as Directors or members of the Committee and, to the extent allowed by Applicable Laws, no member of the Committee or the Board will be liable for any determination, decision or action made in good faith with respect to the Plan or any Award granted under the Plan.

Article 4. Shares Subject to the Plan.

4.01 Shares Subject to the Plan. Subject to adjustment as provided in Article 9 and excluding any Awards granted prior to the Effective Date, the total number of Shares available that may be granted under the Plan will not exceed 500,000 Shares as of the Effective Date, which shall consist of Shares available to be granted under the 2019 Director Equity Plan as of the Effective Date, plus an additional 453,922 Shares. During the term of each Award, the Company will keep reserved at all times the number of Shares of Common Stock required to satisfy all such Awards. As the Committee may determine from time to time, the Shares available for distribution under the Plan may consist either in whole or in part of authorized but unissued Common Stock or Common Stock held in treasury.

4.02 Recycling of Shares. Any Shares subject to an Award that are cancelled or forfeited, either in full or in part, will again become available for issuance under the Plan. Shares delivered to or withheld by the Company to satisfy any tax withholding obligation on a Restricted Award will again become available for issuance under the Plan. Any Shares that are issued upon the vesting of an Award will be deducted from the available Shares under the Plan as one Share for each Share issued under the Award.

4.03 Maximum Annual Awards. The maximum number of shares of Common Stock, in the aggregate, under all types of Awards granted to any one Non-Employee Director in any one calendar year will not exceed the greater of: (i) 20,000 shares, or (ii) a number of shares with an aggregate Fair Market value on the Date of Grant of \$200,000 or more.

Article 5. Eligibility.

5.01 General. All Non-Employee Directors of the Company or its Affiliates are eligible to participate in the Plan.

Article 6. Stock Awards.

6.01 General. Stock Awards will not be: (i) evidenced by an Award Agreement or (ii) subject to any conditions or restrictions under the Plan.

Article 7. Restricted Awards.

7.01 General. A Restricted Award is an Award of Shares (“**Restricted Stock**”) or Common Stock units (“**Restricted Stock Units**”) having a value equal to the Fair Market Value of an identical number of Shares. A Restricted Award may not be sold, assigned, transferred or otherwise disposed of, pledged or hypothecated as collateral for a loan or as security for the performance of any obligation (the “**Restricted Period**”). Each Restricted Award will be subject to the conditions set forth in this Article 7 and to such other conditions not inconsistent with the Plan, as may be reflected in the applicable Award Agreement.

7.02 Restricted Stock. If the Committee determines that the Restricted Stock will be held by the Company or in escrow rather than delivered to the Non-Employee Director pending the release of the applicable restrictions, the Committee may require the Non-Employee Director to execute and deliver to the Company: (i) an escrow agreement satisfactory to the Committee, if applicable and (ii) an appropriate blank stock power with respect to the Restricted Stock covered by such agreement. If a Non-Employee Director fails to execute an Award Agreement evidencing a Restricted Stock Award and, if applicable, an escrow agreement and stock power, or such other agreements and documents, the Award will be null and void. Subject to the restrictions set forth in the Award, the Non-Employee Director generally will have the rights and privileges of a shareholder with respect to his or her Restricted Stock, including the right to vote such Restricted Stock.

7.03 Dividend Equivalents on Restricted Stock. At the discretion of the Committee, a Non-Employee Director may be granted the right to receive dividends; provided that any cash dividends and stock dividends with respect to the Restricted Stock will be withheld by the Company for the Non-Employee Director's account, and interest may be credited on the amount of the cash dividends withheld at a rate and subject to such terms as determined by the Committee. The cash dividends or stock dividends withheld will be distributed to the Non-Employee Director in cash or, at the discretion of the Committee, in shares of Common Stock having a Fair Market Value equal to the amount of such dividends, if applicable, upon the release of restrictions on such Shares and, if such Shares are forfeited, the Non-Employee Director will have no right to such dividends.

7.04 Restricted Stock Units. The terms and conditions of a grant of Restricted Stock Units will be reflected in an Award Agreement. No Shares will be issued at the time a Restricted Stock Unit is granted, and the Company will not be required to set aside a fund for the payment of any such Award. A Non-Employee Director will have no voting rights with respect to any granted Restricted Stock Units.

7.05 Dividend Equivalents on Restricted Stock Units. At the discretion of the Committee, each Restricted Stock Unit (representing one Share) may be credited with cash, Shares or other property equivalent to all or a portion of the dividends paid with respect to the outstanding Common Stock paid by the Company in respect of one Share ("**Dividend Equivalents**"). Dividend Equivalents will be withheld by the Company for the Non-Employee Director's account, and interest may be credited on the amount of cash Dividend Equivalents withheld at a rate and subject to such terms as determined by the Committee. Dividend Equivalents credited to a Non-Employee Director's account and attributable to any particular Restricted Stock Unit (and earnings thereon, if applicable) will be distributed in cash or, at the discretion of the Committee, in Shares having a Fair Market Value equal to the amount of such Dividend Equivalents and earnings, if applicable, to the Non-Employee Director upon settlement of such Restricted Stock Unit and, if such Restricted Stock Unit is forfeited, the Non-Employee Director will have no right to any Dividend Equivalents.

7.06 Restrictions on Restricted Awards.

(a) Restricted Stock awarded to a Non-Employee Director will be subject to the following restrictions until the expiration of the Restricted Period: (i) if an escrow arrangement is used, the Non-Employee Director will not be entitled to delivery of the stock certificate, or exercise control over a book entry account, (ii) the Shares will be subject to the restrictions on transferability set forth in the Award Agreement, (iii) the Shares will be subject to forfeiture to the extent provided in the applicable Award Agreement and (iv) to the extent Shares are forfeited, the stock certificates will be returned to the Company or book entry positions cancelled, and all rights of the Non-Employee Director to such Shares with respect to such Shares will terminate without further obligation on the part of the Company.

(b) A Restricted Stock Unit Award will be subject to forfeiture until the expiration of the Restricted Period to the extent provided in the applicable Award Agreement. If the Restricted Stock Unit is forfeited, all rights of the Non-Employee Director will terminate without further obligation on the part of the Company.

(c) The Committee will have the authority to remove any or all of the restrictions on Restricted Stock and Restricted Stock Units whenever it may determine that, by reason of changes in Applicable Laws or other changes in circumstances arising after the Date of Grant, such action is appropriate.

7.07 Delivery of Shares for Restricted Stock and Settlement of Restricted Stock Units.

(a) Upon the expiration of the Restricted Period, the restrictions set forth in Section 7.04 and the applicable Award Agreement will be of no further force or effect. If an escrow arrangement exists, then upon such expiration, the Company will cause a book entry notation to be made with respect to the Non-Employee Director, or his or her beneficiary, without charge, the stock certificate or book entry notation evidencing the Shares of Restricted Stock plus any cash dividends or stock dividends credited to the Non-Employee Director's account with respect to such Restricted Stock and the interest thereon, if any.

(b) Upon the expiration of the Restricted Period, the Company will deliver to the Non-Employee Director, or his or her beneficiary, without charge, one Share for each such outstanding Restricted Stock Unit (“**Vested Unit**”) and cash equal to any Dividend Equivalents credited with respect to each Vested Unit in accordance with Section 7.03 and the interest thereon or, at the discretion of the Committee, in Shares having a Fair Market Value equal to such Dividend Equivalents and the interest thereon, if any; provided, however, that, if explicitly provided in the applicable Award Agreement, the Committee may, in its sole discretion, elect to pay part cash and part Shares in lieu of delivering only Shares for Vested Units. If a cash payment is made in lieu of delivering Shares, the amount of such payment will be equal to the Fair Market Value of the Shares as of the date on which the Restricted Period expired with respect to each Vested Unit.

(c) The delivery of Restricted Stock Units may be deferred to a time after the termination of Continuous Service in accordance with the Non-Employee Director's election.

7.08 Stock Certificate Restrictions. Each certificate or book entry account representing Restricted Stock awarded under the Plan will bear a legend in form, or be subject to transfer restrictions, as the Company deems appropriate.

7.09 Restricted Award Transferability. A Restricted Award will not be transferable except by will, by the laws of descent and distribution, or pursuant to a domestic relations order entered into by a court of competent jurisdiction.

7.10 Termination of Continuous Service. Unless otherwise provided in the terms of an Award Agreement, a time-vested Restricted Award may vest and be paid only: (i) while the person is a Non-Employee Director of the Company and (ii) if the Non-Employee Director has maintained Continuous Service since the Date of Grant, unless the Non-Employee Director's Continuous Service ceases by reason of his or her resignation death, Disability or Retirement.

Article 8. Vesting.

8.01 General. The Committee will specify the vesting schedule or conditions of each Award. It will be a condition to the vesting of any Award made under the Plan, whether or not set forth in an Award Agreement, that the Non-Employee Director render Continuous Service to the Company or an Affiliate through the applicable vesting date or dates.

Notwithstanding any other provision of the Plan, Awards granted under the Plan, other than Stock Awards, will vest no earlier than the first anniversary of the Date of Grant Date (the “**Minimum Vesting Requirement**”); provided, that the Minimum Vesting Requirement does not apply to the Committee's discretion to provide for accelerated exercisability or vesting of any Award in the case of Retirement, death, Disability or a Change in Control.

Article 9. Changes in Capital Structure.

9.01 Adjustment Upon Changes in the Common Stock. In the event of any change in the Common Stock through merger, consolidation, reorganization, recapitalization, reincorporation, stock split, stock dividend or other change in the corporate structure of the Company, the Committee will appropriately adjust the maximum number of

Shares subject to the Plan and all Awards then currently outstanding. Any adjustment will not result in the issuance of fractional shares, and the Committee will round down the number of Shares subject to any outstanding Award unless the transaction that resulted in the capital structure change expressly authorizes the rounding up of the shares.

9.02 Adjustment Binding. Any adjustment by the Committee pursuant to this Article 9 in the number of Shares subject to the Plan or to any outstanding Award, or to the benefits, rights and features relating to Restricted Awards, will be final, binding and conclusive. Notice of any adjustment will be given by the Company to each Non-Employee Director.

9.03 Adjustment to Grants. The grant of an Award will not affect in any way the right or power of the Company to make adjustments, reclassifications, reorganizations or changes in its capital or business structure or to merge, consolidate, dissolve, liquidate, sell or transfer all or any part of its business or assets.

Article 10. Effect of Change in Control.

10.01 General. Unless otherwise provided in an Award Agreement, notwithstanding any provision of the Plan to the contrary, in the event of a Non-Employee Director's termination of Continuous Service during the 12-month period following a Change in Control, the Restricted Period will immediately expire.

10.02 Committee Discretion. In the event of a Change in Control, the Committee may in its discretion and upon at least 10 days' advance notice, cancel any outstanding Awards and pay to the holders, in cash or stock or any combination thereof, the value of such Awards based upon the price per Share.

10.03 Successors. The obligations of the Company under the Plan will be binding upon any successor corporation or organization resulting from the merger, consolidation or other reorganization of the Company or upon any successor corporation or organization succeeding to all or substantially all of the assets and business of the Company.

Article 11. Registration of Stock.

11.01 General. No Restricted Stock will vest, in whole or in part, if at any time the Committee determines in its discretion that the listing, registration or qualification of Shares subject to such Restricted Stock on any securities exchange or under any applicable law, or the consent or approval of any governmental regulatory body, is necessary or desirable as a condition of, or in connection with the vesting of Restricted Stock, unless such listing, registration, qualification, consent or approval may be effected or obtained free of any conditions not acceptable to the Committee.

Article 12. Tax Withholding.

The Non-Employee Director will be responsible to satisfy any federal, state or local tax withholding obligation relating to the exercise or acquisition of Shares.

Article 13. Amendment or Termination of the Plan.

13.01 Amendment of the Plan. The Board or the Committee may, at any time, amend, modify or suspend the Plan or any provision thereof or the Board may terminate the Plan; provided that, except as provided in Article 9, the Board or Committee may not, without the consent of the shareholders of the Company, make any amendment or modification that: (i) increases the maximum number of Shares as to which Awards may be granted under the Plan, (ii) changes the class of eligible Non-Employee Directors, (iii) effects a repricing transaction, (iv) increases materially the benefits accruing to a Non-Employee Director under the Plan or (v) otherwise requires the approval of the shareholders of the Company under Applicable Laws (including the requirements of Section 422 of the Code) or listing requirements with respect to the Shares.

13.02 Term of the Plan. Unless previously terminated by the Board, the Plan will terminate on, and no Award will be granted after, the tenth anniversary of the Effective Date.

13.03 No Impairment of Rights. No amendment, modification or termination of the Plan (whether by action of the Board or by expiration of the Plan term) will in any manner negatively affect any Award granted under the Plan without the consent of the Non-Employee Director or any person claiming under or through the Non-Employee Director.

Article 14. General Provisions.

14.01 Non-Uniform Treatment. No Non-Employee Director or other person will have any claim to be granted an Award under the Plan, and there is no obligation for uniformity of treatment of Non-Employee Directors.

14.02 Shareholders. No Award will confer on any Non-Employee Director any rights as a shareholder of the Company unless and until Shares are duly issued or transferred to the Non-Employee Director in accordance with the terms of the Award.

14.03 Employment or Service. Nothing contained in the Plan or any applicable award agreement will confer upon any person any right to continue in the employ or service of the Company or any Affiliate or to interfere in any way with the right of the Company or any Affiliate to terminate his or her service at any time or increase or decrease his or her compensation or fees at the time of granting an Award.

14.04 Other Compensation Arrangements. Nothing contained in the Plan will prevent the Board from adopting other or additional compensation arrangements, subject to shareholder approval if such approval is required.

14.05 Section 409A. The Plan is intended to comply with Section 409A of the Code to the extent subject thereto, and, accordingly, to the maximum extent permitted, the Committee will make a good faith effort to interpret and administer the Plan in compliance therewith. Any payments described in the Plan that are due within the “short-term deferral period” as defined in Section 409A of the Code will not be treated as deferred compensation unless Applicable Laws require otherwise. Notwithstanding anything to the contrary in the Plan, to the extent required to avoid accelerated taxation and tax penalties under Section 409A of the Code, (a) amounts that would otherwise be payable and benefits that would otherwise be provided pursuant to the Plan during the six (6) month period immediately following the Non-Employee Director’s termination of Continuous Service will instead be paid on the first payroll date after the six-month anniversary of the Non-Employee Director’s separation from service (or the Non-Employee Director’s death, if earlier), and (b) amounts payable upon the termination of a Non-Employee Director’s Continuous Service will only be payable if such termination constitutes a “separation from service” within the meaning of Section 409A of the Code. Notwithstanding the foregoing, neither the Company nor the Committee will have any obligation to take any action to prevent the assessment of any excise tax or penalty on any Non-Employee Director under Section 409A of the Code and neither the Company nor the Committee will have any liability to any Non-Employee Director for such tax or penalty.

14.06 Section 16 Compliance. It is the intent of the Company that the Plan satisfy, and be interpreted in a manner that satisfies, the applicable requirements of Rule 16b-3 as promulgated under Section 16 of the Exchange Act so that Participants will be entitled to the benefit of Rule 16b-3, or any other rule promulgated under Section 16 of the Exchange Act, and will not be subject to short-swing liability under Section 16 of the Exchange Act. Accordingly, if the operation of any provision of the Plan would conflict with the intent expressed in this Section 14.06, such provision to the extent possible will be interpreted and/or deemed amended so as to avoid such conflict.

14.07 Beneficiary Designation. Each Non-Employee Director under the Plan may from time to time name any beneficiary or beneficiaries by whom any right under the Plan is to be exercised in case of such Non-Employee Director’s death. Each designation will revoke all prior designations by the same Non-Employee Director, will be in a form reasonably prescribed by the Committee and will be effective only when filed by the Non-Employee Director in writing with the Company during the Non-Employee Director’s lifetime.

14.08 Unfunded Plan. The Plan will be unfunded. The Company will not be required to establish any special or separate fund or to make any other segregation of assets to assure the issuance of Shares or the payment of cash upon Exercise or payment of any Award. Proceeds from the issuance of Shares pursuant to Awards granted under the Plan will constitute general funds of the Company. The expenses of the Plan will be borne by the Company.

14.09 Acceptance of Terms and Conditions. By accepting any benefit under the Plan, each recipient of an Award under the Plan and each person claiming under or through such recipient will be conclusively deemed to have indicated their acceptance and ratification of, and consent to, all of the terms and conditions of the Plan and any action taken under the Plan by the Committee, the Company or the Board, in any case in accordance with the terms and conditions of the Plan.

14.10 Liability. Any liability of the Company or any Affiliate to any recipient of an Award under the Plan with respect to any Award will be based solely upon contractual obligations created by the Plan and the Award Agreement. Neither the Company nor any Affiliate nor any member of the Committee or the Board, nor any other person participating in any determination of any question under the Plan, or in the interpretation, administration or application of the Plan, will have any liability, in the absence of bad faith, to any party for any action taken or not taken in connection with the Plan, except as may expressly be provided by statute.

14.11 Choice of Law. The Plan will be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania, without regard to such state's choice of law provisions, except as superseded by applicable federal law.

14.12 Severability. If any of the provisions of the Plan or any Award Agreement is held to be invalid, illegal or unenforceable, whether in whole or in part, such provision will be deemed modified to the extent, but only to the extent, of such invalidity, illegality or unenforceability and the remaining provisions will not be affected thereby.

14.13 Headings. The words "Article," "Section" and "paragraph" will refer to provisions of the Plan, unless expressly indicated otherwise. Wherever any words are used in the Plan or any Award agreement in the masculine gender they will be construed as though they were also used in the feminine gender in all cases where they would so apply, and wherever any words are used herein in the singular form they will be construed as though they were also used in the plural form in all cases where they would so apply.

14.14 Director Fees Paid in the Form of Stock Awards. A Non-Employee Director may elect to receive all or a portion of fees payable for service as a Non-Employee Director in the form of a Stock Award granted in accordance with a process approved by the Board or the Committee; provided, however, that the annual limitation set for in Section 4.03 will apply. The number of Shares issued will be determined using the Fair market Value of the date of issuance of the Stock Award.

Article 15. Effective Date.

The Plan was approved by the Board on March 21, 2023 and will be submitted to shareholders for approval at the Company's May 16, 2023 Annual Meeting of Shareholders. The "**Effective Date**" of the Plan will be the date on which shareholder approval is obtained.

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, DC 20549**

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2022, or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number: 001-39680

FULTON FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

Pennsylvania
(State or other jurisdiction of Incorporation or organization)

23-2195389
(I.R.S. Employer Identification No.)

One Penn Square P. O. Box 4887 Lancaster, Pennsylvania 17604
(Address of principal executive offices) (Zip Code)

(717) 291-2411

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol</u>	<u>Name of exchange on which registered</u>
Common Stock, \$2.50 par value	FULT	The Nasdaq Stock Market, LLC
Depository Shares, Each Representing 1/40th Interest in a Share of Fixed Rate Non-Cumulative Perpetual Preferred Stock, Series A	FULTP	The Nasdaq Stock Market, LLC

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark whether the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark whether the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically if any, every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check One):

Large accelerated filer Accelerated filer Emerging growth company
Non-accelerated filer Smaller reporting company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previous issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to § 240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting Common Stock held by non-affiliates of the registrant, based on the average bid and asked prices on June 30, 2022, the last business day of the registrant's most recently completed second fiscal quarter, was approximately \$2.2 billion. The number of shares of the registrant's Common Stock outstanding on February 17, 2023 was 166,962,326.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Definitive Proxy Statement of the Registrant for the Annual Meeting of Shareholders to be held on May 16, 2023 are incorporated by reference in Part III.

Volcker Rule Regulators	FDIC, Federal Reserve Board, OCC, Commodity Futures Trading Commission and SEC

FORWARD-LOOKING STATEMENTS

The Corporation has made, and may continue to make, certain forward-looking statements with respect to its financial condition, results of operations and business. Do not unduly rely on forward-looking statements. Forward-looking statements can be identified by the use of words such as "may," "should," "will," "could," "estimates," "predicts," "potential," "continue," "anticipates," "believes," "plans," "expects," "future," "intends," "projects," the negative of these terms and other comparable terminology. These forward-looking statements may include projections of, or guidance on, the Corporation's future financial performance, expected levels of future expenses, including future credit losses, anticipated growth strategies, descriptions of new business initiatives and anticipated trends in the Corporation's business or financial results.

Forward-looking statements are neither historical facts, nor assurance of future performance. Instead, the statements are based on current beliefs, expectations and assumptions regarding the future of the Corporation's business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of the Corporation's control, and actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not unduly rely on any of these forward-looking statements. Any forward-looking statement is based only on information currently available and speaks only as of the date when made. The Corporation undertakes no obligation, other than as required by law, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Many factors could affect future financial results including, without limitation:

- the impact of adverse conditions in the economy and financial markets on the performance of the Corporation's loan portfolio and demand for the Corporation's products and services;
- the effects of actions by the federal government, including those of the Federal Reserve Board and other government agencies, that impact the money supply and market interest rates;
- the effects of market interest rates, and the relative balances of interest rate-sensitive assets to interest rate-sensitive liabilities, on net interest margin and net interest income;
- the effects of changes in interest rates on demand for the Corporation's products and services;
- the replacement of LIBOR as a benchmark reference rate;
- investment securities gains and losses, including other-than-temporary declines in the value of securities which may result in charges to earnings;
- the effects of changes in interest rates or disruptions in liquidity markets on the Corporation's sources of funding;
- capital and liquidity strategies, including the Corporation's ability to comply with applicable capital and liquidity requirements, and the Corporation's ability to generate capital internally or raise capital on favorable terms;
- the effects of competition on deposit rates and growth, loan rates and growth and net interest margin;
- the impact of operational risks, including the risk of human error, inadequate or failed internal processes and systems, computer and telecommunications systems failures, faulty or incomplete data and an inadequate risk management framework;
- the loss of, or failure to safeguard, confidential or proprietary information;
- the Corporation's failure to identify and adequately and promptly address cybersecurity risks, including data breaches and cyberattacks;
- the impact of failures from third-party vendors upon which the Corporation relies to perform in accordance with contractual arrangements and the effects of concerns about other financial institutions on the Corporation;
- the potential to incur losses in connection with repurchase and indemnification payments related to sold loans;
- the potential effects of climate change on the Corporation's business and results of operations;
- increases in non-performing assets, which may require the Corporation to increase the allowance for credit losses, charge-off loans and incur elevated collection and carrying costs related to such non-performing assets;
- the determination of the ACL, which depends significantly upon assumptions and judgments with respect to a variety of factors, including the performance of the loan portfolio, the weighted-average remaining lives of different classifications of loans within the loan portfolio and current and forecasted economic conditions, among other factors;
- the effects of the extensive level of regulation and supervision to which the Corporation and Fulton Bank are subject;
- changes in regulation and government policy, which could result in significant changes in banking and financial services regulation;
- the continuing impact of the Dodd-Frank Act on the Corporation's business and results of operations;

- the potential for negative consequences resulting from regulatory violations, investigations and examinations, including potential supervisory actions, the assessment of fines and penalties, the imposition of sanctions, the need to undertake remedial actions and possible damage to the Corporation's reputation;
- the effects of adverse outcomes in litigation and governmental or administrative proceedings;
- the effects of changes in U.S. federal, state or local tax laws;
- the effects of the significant amounts of time and expense associated with regulatory compliance and risk management;
- completed and potential acquisitions may affect costs and the Corporation may not be able to successfully integrate the acquired business or realize the anticipated benefits from such acquisitions;
- the possibility that the anticipated benefits of the Merger, including anticipated cost savings and strategic gains, are not realized when expected or at all, including as a result of the impact of, or challenges arising from, the integration of Prudential Bancorp into the Corporation or as a result of the strength of the economy, competitive factors in the areas where the Corporation and Prudential Bancorp do business, or as a result of other unexpected factors or events;
- potential adverse reactions or changes to business or employee relationships, including those resulting from the Merger;
- geopolitical conditions, including acts or threats of terrorism, actions taken by the United States or other governments in response to acts or threats of terrorism and/or military conflicts, including the war between Russia and Ukraine, which could impact business and economic conditions in the United States and abroad;
- public health crises and pandemics, including COVID-19 and their effects on the economic and business environments in which we operate, including on our credit quality and business operations, as well as the impact on general economic and financial market conditions;
- the Corporation's ability to achieve its growth plans;
- the Corporation's ability to attract and retain talented personnel;
- the effects of competition from financial service companies and other companies offering bank services;
- the Corporation's ability to keep pace with technological changes;
- the Corporation's reliance on its subsidiaries for substantially all of its revenues and its ability to pay dividends or other distributions;
- the effects of negative publicity on the Corporation's reputation; and
- other factors that may affect future results of the Corporation.

PART I

Item 1. Business

General

The Corporation was incorporated under the laws of Pennsylvania on February 8, 1982 and became a bank holding company through the acquisition of all of the outstanding stock of Fulton Bank on June 30, 1982. In 2000, we became a financial holding company as defined in the GLBA, which gave us the ability to expand our financial services activities under our holding company structure. See "Item 1. Business - General - *Competition* and - *Supervision and Regulation*." We directly own 100% of the common stock of Fulton Bank and five non-bank entities.

On July 1, 2022, we completed our acquisition of 100% of the outstanding common stock of Prudential Bancorp. Prudential Bancorp's wholly owned subsidiary, Prudential Bank, became our wholly owned subsidiary. Prudential Bank merged with and into Fulton Bank on November 5, 2022.

Our Internet address is www.fultonbank.com. Electronic copies of our 2022 Annual Report on Form 10-K are available free of charge by visiting "Investor Relations - Documents" at www.fultonbank.com. Electronic copies of quarterly reports on Form 10-Q and current reports on Form 8-K are also available at this Internet address. These reports, as well as any amendments thereto, are posted on our website as soon as reasonably practicable after they are electronically filed with the SEC.

Banking and Financial Services

Through our banking subsidiary, Fulton Bank, we deliver financial services primarily within our five-state market area, comprised of Pennsylvania, Delaware, Maryland, New Jersey and Virginia, in a personalized, community-oriented style that emphasizes relationship banking.

We operate in areas that are home to a wide range of manufacturing, healthcare, agriculture and other service companies. We are not dependent upon one or a few customers or any one industry, and the loss of any single customer or a few customers would not have a material adverse impact on our business. However, a large portion of our loan portfolio is comprised of commercial loans, commercial mortgage loans and construction loans. See "Item 1A. Risk Factors - Interest Rate and Credit Risks - *Our loan portfolio composition and competition for loans subject us to credit risk.*"

We offer a wide range of consumer and commercial banking products and services, as well as wealth management products and services, to our customers and the communities we serve:

Consumer Banking – We offer a diversified suite of consumer banking products and services in our market area. Our consumer banking products and services include various checking account and savings deposit products and certificates of deposit. We offer home equity loans and lines of credit as well as a variety of fixed, variable and adjustable rate mortgage products, including construction loans and jumbo residential mortgage loans, all of which are underwritten based upon loan-to-value limits specified in our lending policy. Our consumer loan products include automobile loans, personal lines of credit and checking account overdraft protection. We offer residential mortgages through Fulton Mortgage Company, an operating division of Fulton Bank.

Commercial Banking – We provide commercial banking products and services primarily to small and medium sized businesses (generally with sales of less than \$150 million) in our market area. Commercial lending products include commercial real estate loans, commercial and industrial loans, construction loans and equipment lease financing loans. Variable, adjustable and fixed rate loans are provided, with variable and adjustable rate loans generally tied to an index, such as the Prime Rate or LIBOR, as well as interest rate derivatives. See "Item 1A. Risk Factors - Interest Rate and Credit Risks - *The replacement of LIBOR as a financial benchmark presents risks to the financial instruments we originated or hold.*" Our commercial lending policy encourages relationship banking and provides strict guidelines related to customer creditworthiness and collateral requirements for secured loans. In addition, we offer equipment lease financing, letters of credit, cash management services and traditional deposit products to commercial customers. As of December 31, 2022, our policies limit the maximum total lending commitment to a single borrower to \$100 million, an amount that is significantly below our regulatory lending limit. In addition, we have established lower total lending limits based on our internal risk rating of a borrower and for certain types of lending commitments.

Wealth Management – We offer wealth management services, which include investment management, trust, brokerage, insurance and investment advisory services, to consumer and commercial customers in our market area through Fulton Financial Advisors and Fulton Private Bank, both operating divisions of Fulton Bank.

We deliver these products and services through traditional financial center banking, with a network of financial center offices. Electronic delivery channels include a network of ATMs and telephone, mobile and online banking. The variety of available delivery channels allows customers to access their account information and perform certain transactions, such as depositing checks, transferring funds and paying bills, at any time of the day. As of December 31, 2022, we had 209 financial centers, not including remote service facilities (mainly stand-alone ATMs), and our main office located in Lancaster, Pennsylvania.

Human Capital

Our workforce, excluding temporary employees and interns, at December 31, 2022 consisted of approximately 3,300 employees, compared to approximately 3,200 employees at December 31, 2021. In 2022, we experienced lower employee turnover than in 2021.

Employee Engagement and Retention – We place a premium on having a highly engaged workforce because engaged employees tend to perform at a higher level, support our success, and are more likely to remain with our organization. We conduct an annual survey of our workforce to measure employee engagement, assess employee morale, and to help identify areas of the employee experience that could be improved. We then task our leaders with developing and implementing communication and action plans aimed at engaging with their respective teams to gain a better understanding of the results of the assessment and to foster enhanced future engagement.

Our leaders are held accountable for employee engagement scores for the teams they lead as each leader's engagement score is included in their annual performance review. Additionally, aggregated employee engagement assessment results are reported to our Board of Directors as a key indicator of the health and well-being of our workforce.

Culture, Diversity and Inclusion – We believe that building relationships matters. This belief includes relationships with clients and customers and relationships among employees. In recent years, we have placed significant emphasis on developing our corporate culture, and we now consider our culture to be one of the primary components of our continuing success. Our culture-shaping program, The Fulton Experience, is a highly engaging program that is intended to create new ways of thinking about employees' individual roles, how employees collaborate, and how we and our employees grow together. We believe that we succeed as a company because we value our employees' teamwork and foster a culture around that belief. More recently, we have been applying that same emphasis to the development of a diverse, equitable, and inclusive workforce. We recognize that having a diverse, equitable, and inclusive culture and workforce encourages employees to share their opinions and different perspectives, fosters a culture of respect, and are crucial elements of a successful organization. In 2022, we continued many initiatives to increase diversity, equity, and inclusion including, but not limited to, providing allyship training to all employees and supporting several employee resource groups.

Compensation and Rewards

The Corporation invests in its workforce by offering competitive salaries, incentives, and benefits that are part of the Corporation's pay for performance culture. This is implemented through incentive programs that are tailored to drive performance in the business units as well as at the corporate level.

Workforce Recruitment and Development – We recruit our workforce, filling both vacant and new positions, largely by posting these positions on our website and on social media platforms, through employee referrals and through talent recruiting efforts by internal and third-party recruiters. We provide for professional development of new and existing employees largely through the efforts of our Center for Learning and Talent Development that develops and administers a wide variety of training programs for professional development. We also provide for a number of off-site, third-party offerings in which employees can further enhance their skills, knowledge and leadership potential. One such example, afforded to employees with future leadership potential, is through our participation in the Stonier School of Banking sponsored by the American Bankers Association.

Safety, Health and Wellness – The safety, health and wellness of our employees remains a top priority. In addition to traditional healthcare, paid time off, paid parental leave and retirement benefits, we provide emotional wellness and work-life services through our Employee Assistance Program. Through COVID-19, we implemented measures to maintain the safety of employees and customers at our financial centers and other facilities and, where appropriate, adopted remote and hybrid onsite-

remote working arrangements. As the impacts of the COVID-19 pandemic diminish, we continue to iterate our approach to remote and hybrid working arrangements to support new ways of working while strengthening employee engagement.

Cybersecurity

Cybersecurity is a major component of our overall risk management approach. By the very nature of our business, handling sensitive data is a part of daily operations and is taken very seriously by all employees. The cybersecurity threat environment is volatile and dynamic requiring all levels of the organization to be cognizant and aware of these threats at all times. As such, we maintain a comprehensive cybersecurity strategy that includes, but is not limited to: regular employee cybersecurity training and communications; continuous monitoring, detection, alerting, and defense in-depth technologies; regular internal and third-party program oversight; policies and procedures regularly reviewed and designed with regulatory and industry guidance; and regular reviews of vendors who maintain sensitive data on behalf of Fulton Bank.

Given that cybersecurity threat actors are continuously adapting their techniques, it is important to note that no cybersecurity program is completely infallible. As we continue to offer new and innovative technologies for our customers, the risk of cybersecurity attacks and our oversight of this risk will remain at a high level.

Climate Risk Management

We recognize the potential impact climate change may have on us, our clients, employees, shareholders, and the communities we serve. We are cognizant of our responsibility to better understand the impact of our operations on global climate change and are taking steps to help ensure our organization operates in a manner consistent with responsible environmental stewardship. We are susceptible to losses and disruptions caused by fire, power shortages, telecommunications failures, water shortages, floods, and other extreme weather conditions. Climate change may contribute to or exacerbate these conditions. We are also susceptible to losses arising from the transition to a low carbon economy, including policy changes, energy costs, and shifts in market and customer sentiment that can impact us and our clients. At this time, we have not experienced material losses from climate change. However, we are aware that its impact may increase in the future. As the potential impact of climate change broadens, we will continue to assess and respond to climate risks as they evolve.

Non-Bank Subsidiaries

We own 100% of the outstanding equity of five non-bank subsidiaries, which are consolidated for financial reporting purposes: (i) Fulton Financial Realty Company, which holds title to or leases certain properties where our financial centers and other facilities are located; (ii) Central Pennsylvania Financial Corp., which owns limited partnership interests in partnerships invested primarily in low- and moderate-income housing projects; (iii) FFC Penn Square, Inc., which owns TruPS issued by a subsidiary of Fulton Bank; (iv) Fulton Insurance Services Group, Inc., which engages in the sale of various life insurance products; and (v) Fulton Community Partner, LLC, whose mission is to change lives for the better by supporting community and economic development projects in distressed and underserved communities through participation in the NMTC program.

Competition

The banking and financial services industries are highly competitive. Within our geographic region, we face direct competition from other commercial banks, varying in size from local community banks to regional and national banks, credit unions and non-bank entities. As a result of the wide availability of electronic delivery channels, we also face competition from financial institutions that do not have a physical presence in our geographic markets.

The industry is also highly competitive due to the various types of entities that now compete aggressively for customers that were traditionally served only by the banking industry. Under the current financial services regulatory framework, banks, insurance companies and securities firms may affiliate under a financial holding company structure, allowing their expansion into non-banking financial services activities that had previously been restricted. These activities include a full range of banking, securities and insurance activities, including securities and insurance underwriting, issuing and selling annuities and merchant banking activities. Moreover, we face increased competition from certain non-bank entities, such as Fintechs and marketplace lenders, that in many cases, are not subject to the same regulatory compliance requirements as us.

Stock Information

The Corporation's common stock is traded on the Nasdaq Global Select Market under the ticker symbol "FULT." There are 600 million authorized shares of the Corporation's common stock, with approximately 167.5 million shares outstanding as of December 31, 2022. The Corporation has an additional 10 million authorized shares of preferred stock, of which approximately 200,000 shares with a liquidation preference of \$1,000 per share were outstanding as of December 31, 2022.

Supervision and Regulation

We operate in an industry that is subject to laws and regulations that are enforced by a number of federal and state agencies. Changes in these laws and regulations, including interpretation and enforcement activities, could impact the cost of operating in the financial services industry, limit or expand permissible activities or affect competition among banks and other financial institutions.

The Corporation is a registered bank holding company that has elected to be treated as a financial holding company under the BHCA. The Corporation is regulated, supervised and examined by the Federal Reserve Board. Fulton Bank is a national banking association chartered under the laws of the United States and is primarily regulated by the OCC. In addition, the CFPB examines Fulton Bank for compliance with most federal consumer financial protection laws, including the laws relating to fair lending and prohibiting unfair, deceptive or abusive acts or practices in connection with the offer, sale or provision of consumer financial products or services and enforces such laws with respect to Fulton Bank and our affiliates.

Federal statutes that apply to us and our subsidiaries include the GLBA, the BHCA, the Dodd-Frank Act, the Federal Reserve Act, the National Bank Act and the Federal Deposit Insurance Act, among others. In general, these statutes, regulations promulgated thereunder, and related interpretations establish the eligible business activities we can engage in, certain acquisition and merger restrictions, limitations on intercompany transactions (such as loans and dividends), cash reserve requirements, lending limitations, compliance with unfair, deceptive and abusive acts and practices prohibitions, limitations on investments, and capital adequacy requirements, among other things. Such laws and regulations are intended primarily for the protection of depositors, customers and the DIF, as well as to minimize risk to the banking system as a whole, and, as a result, these laws and regulations are not for the protection of our shareholders or non-depository creditors.

The following discussion is general in nature and seeks to highlight some of the more significant regulatory requirements to which we are subject but does not purport to be complete or to describe all applicable laws and regulations.

BHCA – The Corporation is subject to regulation and examination by the Federal Reserve Board and is required to file periodic reports and to provide additional information that the Federal Reserve Board may require. The BHCA regulates activities of bank holding companies, including requirements and limitations relating to capital, transactions with officers, directors and affiliates, securities issuances, dividend payments and extensions of credit, among others. The BHCA permits the Federal Reserve Board, in certain circumstances, to issue cease and desist orders and other enforcement actions against bank holding companies (and their non-banking affiliates) to correct or curtail unsafe or unsound banking practices. In addition, the Federal Reserve Board must approve certain proposed changes in organizational structure or other business activities before they occur. The BHCA imposes certain restrictions upon the Corporation regarding the acquisition of substantially all of the assets of, or direct or indirect ownership or control of, any bank for which it is not already the majority owner.

Source of Strength – Federal banking law requires bank holding companies like us to act as a source of financial strength and to commit capital and other financial resources to each of their banking subsidiaries. This support may be required at times when we may not be able to provide such support without adversely affecting our ability to meet other obligations or when, absent such requirements, we might not otherwise choose to provide such support. If we are unable to provide such support, the Federal Reserve Board could instead require the divestiture of our subsidiaries and impose operating restrictions pending the divestiture. If a bank holding company commits to a federal bank regulator that it will maintain the capital of its bank subsidiary, whether in response to the Federal Reserve Board's invoking its source of strength authority or in response to other regulatory measures, that commitment will be assumed by the bankruptcy trustee, and the bank will be entitled to priority payment in respect of that commitment.

The Economic Growth Act – In May 2018, the Economic Growth Act became law. Among other things, the Economic Growth Act amended certain provisions of the Dodd-Frank Act to raise the total asset threshold for mandatory applicability of enhanced prudential standards for bank holding companies to \$250 billion and to allow the Federal Reserve Board to apply enhanced prudential standards to bank holding companies with between \$100 billion and \$250 billion in total assets to address financial stability risks or safety and soundness concerns. The Economic Growth Act's increased threshold took effect immediately for bank holding companies with total assets of less than \$100 billion, including the Corporation.

The Economic Growth Act also enacted other important changes, for which the banking agencies issued certain corresponding guidance documents and implementing regulations, including:

- Raising the total asset threshold for Dodd-Frank Act company-run stress tests from \$10 billion to \$250 billion;

- Prohibiting federal banking agencies from imposing higher capital requirements for high volatility commercial real estate exposures unless such exposures meet the statutory definition for high volatility acquisition, development or construction loans in the Economic Growth Act;
- Exempting from appraisal requirements certain transactions involving real property in rural areas and valued at less than \$400,000;
- Providing that reciprocal deposits are not treated as brokered deposits in the case of a "well capitalized" institution that received an "outstanding" or "good" rating on its most recent examination to the extent the amount of such deposits does not exceed the lesser of \$5 billion or 20% of the bank's total liabilities; and
- Directing the CFPB to provide guidance on the applicability of the TILA-RESPA Integrated Disclosure rule to mortgage assumption transactions and construction-to-permanent home loans, as well the extent to which lenders can rely on model disclosures that do not reflect recent regulatory changes.

Given Fulton Bank's size, a number of additional benefits afforded to community banks under applicable asset thresholds are not available to Fulton Bank.

Consumer Financial Protection Laws and Enforcement – The CFPB and the federal banking agencies continue to focus attention on consumer protection laws and regulations. The CFPB is responsible for promoting fairness and transparency for mortgages, credit cards, deposit accounts and other consumer financial products and services and for interpreting and enforcing the federal consumer financial laws that govern the provision of such products and services. Federal consumer financial laws enforced by the CFPB include, but are not limited to, the ECOA, the TILA, the Truth in Savings Act, the Home Mortgage Disclosure Act, the RESPA, the Fair Debt Collection Practices Act, and the Fair Credit Reporting Act. The CFPB is also authorized to prevent any institution under its authority from engaging in an unfair, deceptive, or abusive act or practice in connection with consumer financial products and services. As a residential mortgage lender, we are subject to multiple federal consumer protection statutes and regulations, including, but not limited to, those statutes and regulations referenced above.

In particular, fair lending laws prohibit discrimination in the provision of banking services. Fair lending laws include the ECOA and the Fair Housing Act, both of which outlaw discrimination in credit and residential real estate transactions on the basis of prohibited factors including, among others, race, color, national origin, gender, and religion. A lender may be liable for policies that result in a disparate treatment of, or have a disparate impact on, a protected class of applicants or borrowers. If a pattern or practice of lending discrimination is alleged by a regulator, then that agency may refer the matter to the DOJ for investigation. Failure to comply with these and similar statutes and regulations could subject us to formal or informal enforcement actions, the imposition of civil money penalties and consumer litigation.

The CFPB has exclusive examination and primary enforcement authority with respect to compliance with federal consumer financial protection laws and regulations by institutions under its supervision and is authorized, individually or jointly with the federal banking agencies, to conduct investigations to determine whether any person is, or has, engaged in conduct that violates such laws or regulations. The CFPB may bring an administrative enforcement proceeding or civil action in federal district court. In addition, in accordance with a memorandum of understanding entered into between the CFPB and the DOJ, the two agencies have agreed to coordinate efforts related to enforcing the fair lending laws, which includes information sharing and conducting joint investigations; however, the extent to which such coordination may actually occur is unpredictable and may change over time as the result of a number of factors, including changes in leadership at the DOJ and the CFPB, as well as changes in the enforcement policies and priorities of each agency. As an independent bureau funded by the Federal Reserve Board, the CFPB may impose requirements that are more stringent than those of the other bank regulatory agencies.

As an IDI with total assets of more than \$10 billion, Fulton Bank is subject to the CFPB's supervisory and enforcement authorities. The Dodd-Frank Act also permits states to adopt stricter consumer protection laws and authorizes state attorneys general to enforce consumer protection rules issued by the CFPB. As a result, Fulton Bank operates in a stringent consumer compliance environment.

Ability-to-pay rules and qualified mortgages – Under the CFPB rules that implement the TILA, mortgage lenders are required to make a reasonable and good faith determination, based on verified and documented information, that a consumer applying for a residential mortgage loan has a reasonable ability to repay the loan according to its terms. These rules prohibit creditors, such as Fulton Bank, from extending residential mortgage loans without regard for the consumer's ability to repay and add restrictions and requirements to residential mortgage origination and servicing practices. In addition, these rules restrict the imposition of prepayment penalties and compensation practices relating to residential mortgage loan origination. Mortgage lenders are required to determine consumers' ability to repay in one of two ways. The first alternative requires the mortgage lender to consider eight underwriting factors when making the credit decision. The mortgage lender may also originate "qualified mortgages" which are entitled to a presumption that the creditor making the loan satisfied the ability-to-repay requirements. In general, a QM is a residential mortgage loan that does not have certain high-risk features, such as negative

amortization, interest-only payments, balloon payments, or a term exceeding 30 years. In addition, to be a QM loan, the points and fees paid by a consumer cannot exceed 3% of the total loan amount, and the borrower's total DTI ratio must be no higher than 43% (subject to certain limited exceptions for loans eligible for purchase, guarantee or insurance by a government sponsored enterprise or a federal agency).

In December 2020, the CFPB issued two final rules related to QM loans. The first rule replaces the strict DTI threshold for QM loans and provides that, in addition to existing requirements, a loan receives a conclusive presumption that the consumer had the ability to repay if the APR does not exceed the average prime offer rate for a comparable transaction by 1.5 percentage points or more as of the date the interest rate is set. Further, a loan receives a rebuttable presumption that the consumer had the ability to repay if the APR exceeds the average prime offer rate for a comparable transaction by 1.5 percentage points or more but by less than 2.25 percentage points. The second rule creates a new category of "seasoned" QM loans for those that meet certain performance requirements. Specifically, that rule allows a non-QM loan or a "rebuttable presumption" QM loan to receive a safe harbor from APR liability at the end of a "seasoning" period of at least 36 months as a "seasoned QM" if it satisfies certain product restrictions, points-and-fees limits, and underwriting requirements, and the loan meets the designated performance and portfolio requirements during the "seasoning period." The mandatory compliance date under the first final rule was July 1, 2021, but was subsequently delayed by the CFPB to October 1, 2022. The second final rule will apply to covered transactions for which institutions receive an application after the compliance date for the first final rule.

Integrated disclosures under the RESPA and the TILA – Under the CFPB rules, mortgage lenders are required to provide a loan estimate, not later than the third business day after submission of a loan application, and a closing disclosure at least three days prior to the loan closing. The loan estimate must detail the terms of the loan, including, among other things, expenses, projected monthly mortgage payments and estimated closing costs. The closing disclosure must include, among other things, closing costs and a comparison of costs reported on the loan estimate to actual charges to be applied at closing.

Volcker Rule – Provisions of the Dodd-Frank Act, commonly known as the "Volcker Rule," prohibit banks and their affiliates from engaging in proprietary trading and investing in and sponsoring hedge funds and private equity funds and other private funds that are, among other things, offered within specified exemptions to the Investment Company Act, known as "covered funds," subject to certain exemptions. In October 2019, the Volcker Rule Regulators finalized amendments, effective on January 1, 2020, but with a required compliance date of January 1, 2021, to their regulations implementing the Volcker Rule, tailoring compliance requirements based on the size and scope of a banking entity's trading activities and clarifying and amending certain definitions, requirements and exemptions. In June 2020, the Volcker Rule Regulators issued a final rule that modified the Volcker Rule's prohibition on banking entities' investing in or sponsoring "covered funds." The final rule (1) streamlined the covered funds portion of the rule; (2) addressed the extraterritorial treatment of certain foreign funds; and (3) permitted banking entities to offer financial services and engage in other activities that do not raise concerns that the Volcker Rule was intended to address.

Our investing and trading activities have and will continue to depend on, among other things, further rulemaking and guidance that may be issued by the Volcker Rule Regulators and the development of market practices and standards.

Capital Requirements – The Corporation and Fulton Bank are subject to the Basel III Rules that are based upon the final framework of the Basel Committee for strengthening capital and liquidity regulation. Under the Basel III Rules, the Corporation and Fulton Bank apply the standardized approach in measuring RWA and regulatory capital.

Under the Basel III Rules, the Corporation and Fulton Bank are subject to the following minimum capital ratios:

- A minimum CET1 capital ratio of 4.50% of RWA;
- A minimum Tier 1 capital ratio of 6.00% of RWA;
- A minimum Total capital ratio of 8.00% of RWA; and
- A minimum Tier 1 leverage ratio (Tier 1 capital to a quarterly average of non-risk weighted total assets) of 4.00%.

The Basel III Rules also included a "capital conservation buffer" of 2.5%, composed entirely of CET1 capital, in addition to the minimum capital to RWA ratios outlined above, resulting in effective minimum CET1, Tier 1 and total capital ratios of 7.0%, 8.5% and 10.5%, respectively. The capital conservation buffer is designed to absorb losses during periods of economic stress. Banking institutions with a capital ratio above the minimum, but below the conservation buffer, will face restrictions on dividends, equity repurchases, and executive compensation based on the amount of the shortfall and the institution's "eligible retained income" (that is, four quarter trailing net income, net of distributions and tax effects not reflected in net income). As of December 31, 2022, the Corporation and Fulton Bank exceeded the minimum capital requirements, including the capital conservation buffer, as prescribed in the Basel III Rules.

The Basel III Rules also provide that the largest banking institutions must adhere to additional countercyclical buffer and supplementary leverage ratio requirements. The Corporation and Fulton Bank are not presently subject to these requirements.

The Basel III Rules provide for a number of required deductions from and adjustments to CET1. These deductions and adjustments include, for example, goodwill, other intangible assets, and DTAs that arise from net operating loss and tax credit carryforwards net of any related valuation allowance. MSRs, DTAs arising from temporary differences that could not be realized through net operating loss carrybacks and investments in non-consolidated financial institutions must also be deducted from CET1 to the extent that they exceed certain thresholds. Through subsequent rulemaking, the federal banking agencies provided certain forms of relief to banking organizations, such as the Corporation and Fulton Bank, that are not subject to the advanced approaches framework. The Corporation and Fulton Bank made a one-time, permanent election under the Basel III Rules to exclude the effects of certain components of AOCI included in shareholders' equity under GAAP in determining regulatory capital ratios.

Under the Basel III Rules, certain off-balance sheet commitments and obligations are converted into RWA, that together with on-balance sheet assets, are the base against which regulatory capital is measured. The Basel III Rules defined the risk-weighting categories for bank holding companies and banks that follow the standardized approach, such as the Corporation and Fulton Bank, based on a risk-sensitive analysis, depending on the nature of the exposure.

The Capital Simplifications Rules eliminated the standalone prior approval requirement in the Basel III Rules for any repurchase of common stock. In certain circumstances, repurchases of our common stock may be subject to a prior approval or notice requirement under other regulations or policies of the Federal Reserve Board. Any redemption or repurchase of preferred stock or subordinated debt remains subject to the prior approval of the Federal Reserve Board.

The Basel Committee published the last version of the Basel III accord in 2017, generally referred to as "Basel IV." Among other things, these standards revise the Basel Committee's standardized approach for credit risk (including by recalibrating risk weights and introducing new capital requirements for certain "unconditionally cancellable commitments," such as unused credit card and home equity lines of credit) and provides a new standardized approach for operational risk capital. Under the Basel framework, these standards became effective on January 1, 2022, with an aggregate output floor phasing in through January 1, 2027. Under the current U.S. capital rules, operational risk capital requirements and a capital floor apply only to advanced approaches institutions, and not the Corporation or Fulton Bank. The impact of Basel IV on the Corporation and Fulton Bank will depend on the manner in which it is implemented by the federal banking agencies. As of December 31, 2022, the Corporation and Fulton Bank exceeded all capital requirements necessary to be deemed "well-capitalized" for all regulatory purposes under the capital rules.

Stress Testing and Capital Planning – As a result of the Economic Growth Act and implementing regulations adopted by the Federal Reserve Board and OCC, the Corporation and Fulton Bank are no longer subject to company-run stress testing requirements under the Dodd-Frank Act. The Federal Reserve Board continues to supervise our capital planning and risk management practices through its regular supervisory process.

CECL Transitional Provisions – In June 2016, the FASB issued an ASU, "Financial Instruments-Credit Losses (Topic 326), Measurement of Credit Losses on Financial Instruments," which replaces the existing "incurred loss" model for recognizing credit losses with an "expected loss" model referred to as the CECL model. On August 26, 2020, the federal bank regulatory agencies issued a rule that allows institutions that adopted the CECL accounting standard in 2020 the option to mitigate the estimated capital effects of CECL for two years, followed by a three-year transition period. Taken together, these measures offer institutions a transition period of up to five years. We have elected to avail ourselves of the transition relief permitted under applicable regulations.

Prompt Corrective Action – The FDICIA established a system of prompt corrective action to attempt to resolve the problems of undercapitalized institutions. The FDICIA, among other things, establishes five capital categories for FDIC-insured banks: "well capitalized," "adequately capitalized," "undercapitalized," "significantly undercapitalized" and "critically undercapitalized." An IDI is treated as well capitalized if its total risk-based capital ratio is 10.00% or greater, its Tier 1 risk-based capital ratio is 8.00% or greater, its CET1 risk-based capital ratio is 6.50% or greater and its Tier 1 leverage capital ratio is 5.00% or greater, and it is not subject to any order or directive to meet a specific capital level. As of December 31, 2022, Fulton Bank's capital ratios were above the minimum levels required to be considered "well capitalized" by the OCC.

Under this system, the federal banking agencies are required to take certain, and authorized to take other, prompt corrective actions against undercapitalized institutions, the severity of which increase as the capital category of an institution declines, including restrictions on growth of assets and other forms of expansion. Generally, a capital restoration plan must be filed with the institution's primary federal regulator within 45 days of the date an institution receives notice that it is "undercapitalized,"

"significantly undercapitalized" or "critically undercapitalized." Although prompt corrective action regulations apply only to depository institutions and not to bank holding companies, bank holding companies must guarantee any such capital restoration plan in certain circumstances. The liability of a bank holding company under any such guarantee is limited to the lesser of 5.00% of the bank's relevant assets at the time it became "undercapitalized" or the amount needed to comply. A bank holding company might also be liable for civil money damages for failure to fulfill that guarantee. In the event of the bankruptcy of a bank holding company, such guarantee would take priority over the bank holding company's general unsecured creditors.

In addition, regulators consider both risk-based capital ratios and other factors that can affect a bank's financial condition, including (i) concentrations of credit risk, (ii) interest rate risk, and (iii) risks from non-traditional activities, along with an institution's ability to manage those risks, when determining capital adequacy. This evaluation is made during the institution's safety and soundness examination. An institution may be downgraded to, or deemed to be in, a capital category that is lower than is indicated by its capital ratios if it is determined to be in an unsafe or unsound condition or if it receives an unsatisfactory examination rating with respect to certain matters.

Brokered Deposits – The FDICIA and FDIC regulations limit the ability of an IDI, such as Fulton Bank, to accept, renew or roll over brokered deposits unless the institution is well-capitalized under the prompt corrective action framework described above, or unless it is adequately capitalized and obtains a waiver from the FDIC. In addition, less than well-capitalized banks are subject to restrictions on the interest rates they may pay on deposits. The characterization of deposits as "brokered" may result in the imposition of higher deposit assessments on such deposits. As mandated by the Economic Growth Act, the FDIC adopted a final rule in February 2019 to include a limited exception for reciprocal deposits for FDIC-IDIs that are well-rated and well-capitalized (or adequately capitalized and for which the FDIC-IDI has obtained a waiver from the FDIC as mentioned above). Under the limited exception, qualified FDIC-IDIs, like Fulton Bank, are able to except from treatment as "brokered" deposits the lesser of up to \$5 billion, or 20% of the institution's total liabilities, in reciprocal deposits.

In December 2020, the FDIC issued a final rule amending its brokered deposits regulation. The rule sought to clarify and modernize the FDIC's regulatory framework for brokered deposits. Notable aspects of the rule included (i) the establishment of bright-line standards for determining whether an entity meets the statutory definition of "deposit broker;" (ii) the identification of a number of business relationships in which the agent or nominee is automatically not deemed to be a "deposit broker" because their primary purpose is not the placement of funds with depository institutions (the "primary purpose exception"); (iii) the establishment of a "more transparent" application process for entities that seek to rely upon the "primary purpose exception", but do not qualify for one of the identified business relationships to which the exception is automatically applicable; and (iv) the clarification that third parties that have an exclusive deposit-placement arrangement with one IDI are not considered a "deposit broker." The final rule took effect on April 1, 2021, and full compliance was required by January 1, 2022.

Loans and Dividends from Bank Subsidiary – There are various restrictions on the extent to which Fulton Bank can make loans and other extensions of credit (including credit exposure arising from repurchase and reverse repurchase agreements, securities borrowing and derivative transactions) to, or enter into certain transactions with, its affiliates, which includes the Corporation and its non-bank subsidiaries. In general, these restrictions require that such transactions: (i) with the Corporation or any of its non-bank subsidiaries be limited to 10% of Fulton Bank's regulatory capital (20% in the aggregate to all such entities); (ii) satisfy certain qualitative limitations, including that any covered transaction be made on an arm's length basis; and (iii) in the case of extensions of credit, be secured by designated amounts of specified collateral.

For safety and soundness reasons, banking regulations also limit the amount of cash that can be transferred from Fulton Bank to the Corporation in the form of dividends. Generally, dividends are limited to the lesser of the amounts calculated under an earnings retention test and an undivided profits test. Under the earnings retention test, without the prior approval of the OCC, a dividend may not be paid if the total of all dividends declared by a bank in any calendar year is in excess of the current year's net income combined with the retained net income of the two preceding years. Under the undivided profits test, a dividend may not be paid in excess of a bank's undivided profits. In addition, banks are prohibited from paying dividends when doing so would cause them to fall below the regulatory minimum capital levels. See "Note 12 - Regulatory Matters," in the Notes to Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data" for additional information regarding regulatory capital and dividend and loan limitations.

Federal Deposit Insurance – The deposits of Fulton Bank are insured up to the applicable limits by the DIF, generally up to \$250,000 per insured depositor. Fulton Bank pays deposit insurance premiums based on assessment rates established by the FDIC. The FDIC has established a risk-based assessment system under which institutions are classified and pay premiums according to their perceived risk to the DIF. In addition, the FDIC possesses backup enforcement authority over a depository institution holding company, like us, if the conduct or threatened conduct of such bank holding company poses a risk to the DIF, although such authority may not be used if the bank holding company is generally in sound condition and does not pose a foreseeable and material risk to the DIF.

FDIC assessment rates for large institutions that have more than \$10 billion in assets, such as Fulton Bank, are calculated based on a "scorecard" methodology that seeks to capture both the probability that an individual large institution will fail and the magnitude of the impact on the DIF if such a failure occurs that is based primarily on the difference between the institution's average of total assets and average tangible equity. The FDIC has the ability to make discretionary adjustments to the total score, up or down, based upon significant risk factors that are not adequately captured in the scorecard. For large institutions, including Fulton Bank, after accounting for potential base-rate adjustments, the total assessment rate could range from 1.5 to 40 bps on an annualized basis. An institution's assessment is determined by multiplying its assessment rate by its assessment base, which is asset based.

The Tax Act disallows the deduction of FDIC deposit insurance premium payments for banking organizations with total consolidated assets of \$50 billion or more. For banks with less than \$50 billion in total consolidated assets, such as Fulton Bank, the premium deduction is phased out based on the proportion of the bank's assets exceeding \$10 billion.

AML Requirements and the Patriot Act – The Patriot Act amended the BSA and other AML laws and regulations and imposed affirmative obligations on a wide range of financial institutions to maintain appropriate policies, procedures and controls to detect, prevent and report money laundering and terrorist financing.

Among other requirements, the Patriot Act and related regulations impose the following requirements on financial institutions:

- establishment of AML programs;
- establishment of a program specifying procedures for obtaining identifying information from customers seeking to open new accounts, including verifying the identity of customers within a reasonable period of time;
- establishment of enhanced due diligence policies, procedures and controls designed to detect and report money laundering; and
- prohibition on correspondent accounts for foreign shell banks and compliance with recordkeeping obligations with respect to correspondent accounts of foreign banks.

Failure to comply with the requirements of the Patriot Act and other AML laws and regulations could have serious legal, financial, regulatory and reputational consequences. In addition, bank regulators will consider a bank holding company's effectiveness in combating money laundering when ruling on BHCA and Bank Merger Act applications. In addition, financial institutions are subject to customer due diligence requirements, issued by the FinCEN, to identify and verify the identity of natural persons, known as beneficial owners, who own, control, and profit from legal entity customers when those customers open accounts. We have adopted policies, procedures and controls to address compliance with the Patriot Act and other AML laws and regulations, and we will continue to revise and update our policies, procedures and controls to reflect required changes.

On January 1, 2021, the NDAA was signed into law, which enacted the most significant overhaul of the BSA and other AML-related laws since the Patriot Act. Notable aspects of the NDAA include: (i) significant changes to the collection of beneficial ownership and the establishment of a beneficial ownership registry that requires corporate entities (generally, any corporation, limited liability company, or other similar entity with 20 or fewer employees and annual gross income of \$5 million or less) to report beneficial ownership information to the FinCEN (which will be maintained by the FinCEN and made available upon request to financial institutions); (ii) enhanced whistleblower provisions that provide that one or more whistleblowers who voluntarily provide original information leading to the successful enforcement of violations of the BSA or other AML-related laws in any judicial or administrative action brought by the Secretary of the Treasury or the Attorney General resulting in monetary sanctions exceeding \$1 million (including disgorgement and interest but excluding forfeiture, restitution, or compensation to victims) will receive not more than 30 percent of the monetary sanctions collected and will receive increased protections; (iii) increased penalties for violations of the BSA; (iv) improvements to existing information sharing provisions that permit financial institutions to share information relating to suspicious activity reports with foreign branches, subsidiaries, and affiliates (except those located in China, Russia, or certain other jurisdictions) for the purpose of combating illicit finance risks; and (v) expanded duties and powers of the FinCEN. Many of the new provisions, including those with respect to beneficial ownership, require the Department of Treasury and the FinCEN to promulgate rules. On December 8, 2021, the FinCEN issued proposed regulations that would implement the amendments with respect to beneficial ownership. On September 29, 2022, the FinCEN issued a final rule establishing a beneficial ownership information reporting requirement, pursuant to the CTA. The rule will require most corporations, limited liability companies, and other entities created in or registered to do business in the United States to report information about their beneficial owners—the persons who ultimately own or control the company, to the FinCEN. On December 15, 2022, the FinCEN issued a notice of proposed rulemaking that would implement other provisions of the CTA that govern the access to, and protection of, beneficial ownership information. Until a final rule is issued, it is not certain to what extent this rulemaking will impact the BSA and AML compliance activities of Fulton Bank.

Commercial Real Estate Guidance — Under guidance issued by the federal banking agencies, the agencies have expressed concerns with institutions that ease commercial real estate underwriting standards and have directed financial institutions to maintain underwriting discipline and exercise risk management practices to identify, measure and monitor lending risks. The agencies have also issued guidance that requires a financial institution to employ enhanced risk management practices if the institution is exposed to significant concentration risk. Under that guidance, an institution is potentially exposed to significant concentration risk if: (i) total reported loans for construction, land development, and other land represent 100% or more of total capital or (ii) total reported loans secured by multi-family and non-farm residential properties, loans for construction, land development, and other land loans otherwise sensitive to the general commercial real estate market, including loans to commercial real estate related entities, represent 300% or more of total capital, and the outstanding balance of the institution's commercial real estate loan portfolio has increased by 50% or more during the prior 36 months.

Community Reinvestment — Under the CRA, Fulton Bank has a continuing and affirmative obligation, consistent with its safe and sound operation, to ascertain and meet the credit needs of its entire community, including low- and moderate-income areas. The CRA does not establish specific lending requirements or programs for financial institutions, nor does it limit an institution's discretion to develop the types of products and services that it believes are best suited to its particular community. The CRA requires an institution's primary federal regulator, in connection with its examination of the institution, to assess the institution's record of meeting the credit needs of its community and to take such record into account in its evaluation of certain applications by such institution. The assessment focuses on three tests: (i) a lending test, to evaluate the institution's record of making loans, including community development loans, in its designated assessment areas; (ii) an investment test, to evaluate the institution's record of investing in community development projects, affordable housing, and programs benefiting low- or moderate-income individuals and areas and small businesses; and (iii) a service test, to evaluate the institution's delivery of banking services throughout its CRA assessment area, including low- and moderate-income areas. The CRA also requires all institutions to make public disclosure of their CRA ratings. As of December 31, 2022, Fulton Bank was rated as "outstanding." Regulations require that Fulton Bank publicly disclose certain agreements that are in fulfillment of CRA. Fulton Bank is not a party to any such agreements at this time. The federal banking agencies have expressed interest in, and the OCC has taken certain steps toward, reform of the CRA's implementing regulations; however, the agencies have not yet agreed upon a common framework for reform. On May 5, 2022, the OCC, in conjunction with the other federal bank regulatory agencies, issued a joint notice of proposed rulemaking to strengthen and modernize the CRA regulatory framework. The agencies' stated goal of the joint proposal is to "update CRA regulations to strengthen the achievement of the statute's purpose; adapt to changes in the banking industry, including the expanded role of mobile and online banking; provide greater clarity and consistency in the application of the regulations; tailor performance standards to account for differences in bank size and business models and local conditions; tailor data collection and reporting requirements and use existing data whenever possible; promote transparency and public engagement; confirm that CRA and fair lending responsibilities are mutually reinforcing; and create a consistent regulatory approach that applies to banks regulated by all three agencies." Until the agencies announce a final rule, it is unclear to what extent the rulemaking will create an additional compliance burden on Fulton Bank, and otherwise affect its lending, investment, retail branching, and other activities.

Standards for Safety and Soundness – Pursuant to the requirements of FDICIA, as amended by the Riegle Community Development and Regulatory Improvement Act of 1994, the federal bank regulatory agencies adopted guidelines establishing general standards relating to internal controls, information systems, internal audit systems, loan documentation, credit underwriting, interest rate risk exposure, asset growth, asset quality, earnings, compensation, fees and benefits. In general, the guidelines require, among other things, appropriate systems and practices to identify and manage the risks and exposures specified in the guidelines. In addition, the agencies adopted regulations that authorize, but do not require, an agency to order an institution that has been given notice by an agency that it is not satisfying any of such safety and soundness standards to submit a compliance plan. If the institution fails to submit an acceptable compliance plan or fails in any material respect to implement an accepted compliance plan, the regulator must issue an order directing corrective actions and may issue an order directing other actions of the types to which a significantly undercapitalized institution is subject under the "prompt corrective action" provisions of FDICIA. If the institution fails to comply with such an order, the regulator may seek to enforce such order in judicial proceedings and to impose civil money penalties.

The guidelines prohibit excessive compensation to any executive officer, employee, director or principal shareholder as an unsafe and unsound practice. The guidelines provide that compensation will be considered excessive when the amounts paid are unreasonable or disproportionate to the services performed by an executive officer, employee, director or principal shareholder. The federal banking agencies have issued guidance that provides that, to be consistent with safety and soundness principles, a banking organization's incentive compensation arrangements should: (i) provide employees with incentives that appropriately balance risk and reward; (ii) be compatible with effective controls and risk management; and (iii) be supported by strong corporate governance, including active and effective oversight by the banking organization's board of directors. Monitoring methods and processes used by a banking organization should be commensurate with the size and complexity of the organization and its use of incentive compensation.

The Dodd-Frank Act requires federal banking agencies and the SEC to establish joint regulations or guidelines for specified entities, including the Corporation and Fulton Bank, that have at least \$1 billion in total assets, prohibiting incentive-based compensation arrangements that encourage inappropriate risk-taking by an executive officer, employee, director or principal shareholder that could lead to material financial loss to the entity. In addition, these regulations or guidelines must require enhanced disclosure with respect to incentive-based compensation arrangements. The agencies have not yet finalized these rules; however, on October 14, 2021, the SEC signaled a renewed interest in this rulemaking initiative by re-opening the comment period on a proposed rule issued originally in 2015 regarding clawbacks of incentive-based executive compensation. On January 27, 2022, the SEC extended this comment period until March 4, 2022. On October 15, 2022, the SEC adopted final rules implementing the incentive-based compensation recovery (clawback) provisions, which largely track the proposed rules originally announced in 2015. Notwithstanding the issuance of these final rules, the scope and content of the federal banking agencies' policies on executive compensation may continue to evolve in the near future. We have had a clawback policy in place since 2012 and will assess the policy against the new requirements.

Privacy Protection and Cybersecurity — Fulton Bank is subject to regulations implementing the privacy protection provisions of the GLBA. These regulations require Fulton Bank to disclose its privacy policy, including identifying with whom it shares "nonpublic personal information," to customers at the time of establishing the customer relationship and annually thereafter. The regulations also require Fulton Bank to provide its customers with initial and annual notices that accurately reflect its privacy policies and practices. In addition, to the extent its sharing of such information is not covered by an exception, Fulton Bank is required to provide its customers with the ability to "opt-out" of having Fulton Bank share a customer's nonpublic personal information with unaffiliated third parties.

Fulton Bank is also subject to regulatory guidelines establishing standards for safeguarding customer information. These regulations implement certain provisions of the GLBA. The guidelines describe the federal bank regulatory agencies' expectations for the creation, implementation and maintenance of an information security program, that includes administrative, technical and physical safeguards appropriate to the size and complexity of the institution and the nature and scope of its activities. The standards set forth in the guidelines are intended to ensure the security and confidentiality of customer records and information, protect against any anticipated threats or hazards to the security or integrity of such records and protect against unauthorized access to or use of such records or information that could result in substantial harm or inconvenience to any customer. These guidelines, along with related regulatory materials, increasingly focus on risk management and processes related to information security and the use of third parties in the provision of financial services.

Certain states have enacted laws establishing consumer privacy protections and data security requirements in their respective states. For example, the CCPA gives California residents new rights to receive certain disclosures regarding the collection, use, and sharing of "Personal Information," as well as rights to access, delete, and restrict the sale of certain personal information. The CCPA, which was amended in November 2020 by a ballot initiative titled the California Privacy Rights Act, went into effect on January 1, 2020, and Fulton Bank is required to comply with the CCPA in serving the small number of its customers that are residents of California. Privacy and data security legislation remained a priority issue in 2021. Attempts by state and local governments to regulate consumer privacy have the potential to create a patchwork of differing and/or conflicting state regulations. In addition, Congress and federal regulatory agencies are considering similar laws or regulations that could create new individual privacy rights and impose increased obligations on companies handling personal data. For example, on November 23, 2021, the federal financial regulatory agencies published a final rule that will impose on banking organizations and their service providers new notification requirements for significant cybersecurity incidents. Specifically, the final rule requires banking organizations to promptly notify their primary federal regulator as soon as possible and no later than 36 hours after the discovery of a "computer security incident" that rises to the level of a "notification incident" within the meaning attributed to those terms by the final rule. Banks' service providers are required under the final rule to notify any affected bank to or on behalf of which the service provider provides services "as soon as possible" after determining that it has experienced an incident that materially disrupts or degrades, or is reasonably likely to materially disrupt or degrade, covered services provided to such bank for four or more hours. The final rule took effect on April 1, 2022, and banks and their service providers were required to be in compliance with the requirements of the rule by May 1, 2022.

Federal Reserve System — Federal Reserve Board regulations require depository institutions to maintain cash reserves against specified deposit liabilities. The dollar amount of a depository institution's reserve requirement is determined by applying the reserve ratios specified in the Federal Reserve Board's Regulation D to an institution's reservable liabilities (primarily net transaction accounts such as negotiable order of withdrawal and demand deposit accounts). A reserve of 3% must be maintained against aggregate transaction account balances of between \$16.9 million and \$127.5 million (subject to adjustment by the Federal Reserve Board) plus a reserve of 10% (subject to adjustment by the Federal Reserve Board within a range of between 8% and 14%) against that portion of total transaction account balances in excess of \$127.5 million. The first \$16.9 million of otherwise reservable balances (subject to adjustment by the Federal Reserve Board) are exempt from the reserve requirements. Fulton Bank is in compliance with the foregoing requirements.

Required reserves must be maintained in the form of either vault cash, an account at a FRB or a pass-through account as defined by the Federal Reserve Board. Pursuant to the Emergency Economic Stabilization Act of 2008, the FRB pays interest on depository institutions' required and excess reserve balances. The interest rate paid on required reserve balances is currently the average target federal funds rate over the reserve maintenance period. The rate on excess balances will be set equal to the lowest target federal funds rate in effect during the reserve maintenance period.

On December 22, 2020, the Federal Reserve Board issued a final rule that amends Regulation D by lowering the reserve requirement ratios on transaction accounts maintained at depository institutions to 0%. It is currently unclear if the reduction of the reserve requirements on transaction accounts is permanent. Any potential impact of the rule on the Bank's lending activities is also unclear.

Acquisitions — The BHCA requires a bank holding company to obtain the prior approval of the Federal Reserve Board before:

- the company may acquire direct or indirect ownership or control of any voting shares of any bank or savings and loan association, if after such acquisition the bank holding company will directly or indirectly own or control more than five percent of any class of voting securities of the institution;
- any of the company's subsidiaries, other than a bank, may acquire all or substantially all of the assets of any bank or savings and loan association; or
- the company may merge or consolidate with any other bank or financial holding company.

Prior regulatory approval is also generally required for mergers, acquisitions and consolidations involving other IDIs. In reviewing acquisition and merger applications, the bank regulatory authorities will consider, among other things, the competitive effect of the transaction, financial and managerial issues, the capital position of the combined organization, convenience and needs factors, including the applicant's CRA record, the effectiveness of the subject organizations in combating money laundering activities, and the transaction's effect on the stability of the U.S. banking or financial system.

On July 9, 2021, President Biden issued an Executive Order on Promoting Competition in the U.S. Economy. Among other initiatives, the Executive Order encouraged the federal banking agencies to review their current merger oversight practices under the BHCA and the Bank Merger Act and adopt a plan for revitalization of such practices. There are many steps that must be taken by the agencies before any formal changes to the framework for evaluating bank mergers can be finalized, and the prospects for such action are uncertain at this time. The adoption of more expansive or prescriptive standards may have an impact on our acquisition activities.

The Change in Bank Control Act prohibits a person, entity or group of persons or entities acting in concert, from acquiring "control" of a bank holding company or bank unless the Federal Reserve Board has been given prior notice and has not objected to the transaction. Under Federal Reserve Board regulations, the acquisition of 10% or more (but less than 25%) of the voting stock of a corporation would, under the circumstances set forth in the regulations, create a rebuttable presumption of acquisition of control of the corporation.

Effective September 30, 2020, the Federal Reserve finalized a rule that simplifies and increases the transparency of its rules for determining when one company controls another company for purposes of the BHCA and, on March 31, 2021, the Federal Reserve Board published interpretive guidance regarding the final rule and related regulatory control matters. The amended control rule has had, and will likely continue to have, a meaningful impact on control determinations related to investments in banks and bank holding companies and investments by bank holding companies in nonbank companies.

Permissible Activities — As a bank holding company, the Corporation may engage in the business of banking, managing or controlling banks, performing servicing activities for subsidiaries, and engaging in activities that the Federal Reserve Board has determined, by order or regulation, are so closely related to banking as to be a proper incident thereto. As a financial holding company, the Corporation may also engage in or acquire and retain the shares of a company engaged in activities that are financial in nature or incidental or complementary to activities that are financial in nature as long as the Corporation continues to meet the eligibility requirements for financial holding companies, including that the Corporation and each of its U.S. depository institution subsidiaries remain "well-capitalized" and "well-managed."

A depository institution is considered "well-capitalized" if it satisfies the requirements of the Prompt Corrective Action framework described above. A depository institution is considered "well-managed" if it received a composite rating and management rating of at least "satisfactory" in its most recent examination. If a financial holding company ceases to be well-capitalized and well-managed, the financial holding company must enter into a non-public confidential agreement with the Federal Reserve Board to comply with all applicable capital and management requirements. Until the financial holding company returns to compliance, the Federal Reserve Board may impose limitations or conditions on the conduct of its

activities, and the company may not commence any new non-banking financial activities permissible for financial holding companies or acquire a company engaged in such financial activities without prior approval of the Federal Reserve Board. If the company does not timely return to compliance, the Federal Reserve Board may require divestiture of the financial holding company's banking subsidiaries. Bank holding companies and banks must also be well-capitalized and well-managed in order to acquire banks located outside their home state. A financial holding company will also be limited in its ability to commence non-banking financial activities or acquire a company engaged in such financial activities if any of its IDI subsidiaries fails to maintain a "satisfactory" rating under the CRA.

Activities that are "financial in nature" include securities underwriting, dealing and market making, advising mutual funds and investment companies, insurance underwriting and agency, merchant banking, and activities that the Federal Reserve Board, in consultation with the Secretary of the Treasury, determines to be financial in nature or incidental to such financial activity.

"Complementary activities" are activities that the Federal Reserve Board determines upon application to be complementary to a financial activity and that do not pose a safety and soundness issue.

Enforcement Powers of Federal Banking Regulators — The Federal Reserve Board and other U.S. banking agencies have broad enforcement powers with respect to an IDI and its holding company, including the power to (i) impose cease and desist orders, substantial fines and other civil penalties, (ii) terminate deposit insurance, and (iii) appoint a conservator or receiver. Failure to comply with applicable laws or regulations could subject the Corporation or Fulton Bank, as well as their officers and directors, to administrative sanctions and potentially substantial civil and criminal penalties.

In addition, under the BHCA, the Federal Reserve Board has the authority to require a bank holding company to terminate any activity or to relinquish control of a non-bank subsidiary upon the Federal Reserve Board's determination that such activity or control constitutes a serious risk to the financial soundness and stability of a depository institution subsidiary of the bank holding company.

Federal Securities Laws — The Corporation is subject to the periodic reporting, proxy solicitation, tender offer, insider trading, corporate governance and other requirements under the Exchange Act and the rules of the Nasdaq that apply to companies listed on the Nasdaq Global Select Market. Among other things, the federal securities laws require management to issue a report on the effectiveness of its internal controls over financial reporting. In addition, the Corporation's independent registered public accountants are required to issue an opinion on the effectiveness of its internal control over financial reporting. See "Item 8. Financial Statements and Supplementary Data - Report of Independent Registered Public Accounting Firm." Certifications of the Chief Executive Officer and the Chief Financial Officer as required by the Sarbanes-Oxley Act of 2002 and the resulting SEC rules can be found in the *Signatures* and *Exhibits* sections.

Climate-Related Regulation – In recent years the federal banking agencies have increased their focus on climate-related risks impacting the operations of banks, the communities they serve and the broader financial system. Accordingly, the agencies have begun to enhance their supervisory expectations regarding the climate risk management practices of larger banking organizations, including by encouraging such banks to: (i) ensure that management of climate-related risk exposures has been incorporated into existing governance structures; (ii) evaluate the potential impact of climate-related risks on the bank's financial condition, operations and business objectives as part of its strategic planning process; (iii) account for the effects of climate change in stress testing scenarios and systemic risk assessments; (iv) revise expectations for credit portfolio concentrations based on climate-related factors; (v) consider investments in climate-related initiatives and lending to communities disproportionately impacted by the effects of climate change; (vi) evaluate the impact of climate change on the bank's borrowers and consider possible changes to underwriting criteria to account for climate-related risks to mortgaged properties; (vii) incorporate climate-related financial risk into the bank's internal reporting, monitoring and escalation processes; and (viii) prepare for the transition risks associated with the adjustment to a low-carbon economy as well as related changes in laws, regulations, governmental policies, technology, and consumer behavior and expectations.

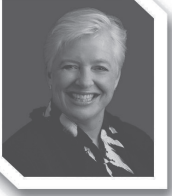

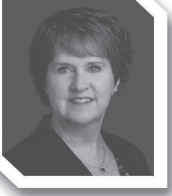

On October 21, 2021, the FSOC published a report identifying climate-related financial risks as an "emerging threat" to financial stability. On December 16, 2021, the OCC issued proposed principles for climate-related financial risk management for national banks with more than \$100 billion in total assets. Although these risk management principles, if adopted as proposed, would not apply to Fulton Bank based upon its current size, the OCC has indicated that all banks, regardless of their size, may have material exposures to climate-related financial and other risks that require prudent management. The federal banking agencies, either independently or on an interagency basis, are expected to adopt a more formal climate risk management framework for larger banking organizations in the coming months. As climate-related supervisory guidance is formalized, and relevant risk areas and corresponding control expectations are further refined, we may be required to expend significant capital and incur compliance, operating, maintenance and remediation costs in order to conform to such requirements.

In addition, states are considering taking similar actions on climate-related financial risks, including certain states in which we operate. For example, the Governor of Pennsylvania has announced the Pennsylvania Climate Action Plan of 2021 that will, in part, focus on the negative impact businesses have on greenhouse gas emissions. Further, Virginia's omnibus Virginia Clean Economy Act enacted provisions with the goal of the Commonwealth being carbon-free by 2045; and, after the Governor of Maryland reauthorized the Greenhouse Gas Emissions Reduction Act of 2016, the Maryland Department of Environment released the 2030 Greenhouse Gas Reduction Act Plan. Once fully implemented, these measures will, at least in part, focus on the greenhouse gases impact that businesses have in the respective states in which they operate.

Executive Officers

The executive officers of the Corporation as of December 31, 2022 are as follows:

Name	Age	Office Held and Term of Office
 <p>E. Philip Wenger</p>	65	Director of the Corporation since 2009 and Director of Fulton Bank since 2019. Chairman of the Board and Chief Executive Officer of the Corporation since January 2013. Mr. Wenger previously served as President of the Corporation from 2008 to 2017, Chief Operating Officer of the Corporation from 2008 to 2012, Director of Fulton Bank from 2003 to 2009, Chairman of Fulton Bank from 2006 to 2009 and employed by the Corporation in a number of positions since 1979. On December 31, 2022, Mr. Wenger retired as Chairman of the Board and Chief Executive Officer of the Corporation.
 <p>Curtis J. Myers</p>	54	Director of the Corporation since 2019 and Director of Fulton Bank since 2009. Chairman of the Board and Chief Executive Officer of the Corporation since January 1, 2023. Mr. Myers previously served as President and Chief Operating Officer of the Corporation from 2018 to 2022. Chairman and Chief Executive Officer of Fulton Bank since 2018. Mr. Myers served as Senior Executive Vice President of the Corporation from 2013 to 2017 and President and Chief Operating Officer of Fulton Bank since 2009. Mr. Myers has been employed by Fulton Bank in a number of positions since 1990.
 <p>Mark R. McCollom</p>	58	Senior Executive Vice President and Chief Financial Officer of the Corporation since 2018. Mr. McCollom joined the Corporation in 2017 as Senior Executive Vice President and Chief Financial Officer Designee. Before joining the Corporation Mr. McCollom was a Senior Managing Director, Chief Administrative Officer and Chief Operating Officer of Griffin Financial Group, LLC ("Griffin"). Prior to his role at Griffin, Mr. McCollom was the Chief Financial Officer of Sovereign Bancorp, Inc. He has over 30 years of experience in the financial services industry.
 <p>David M. Campbell</p>	61	Senior Executive Vice President and Director of Strategic Initiatives and Operations since 2014. Mr. Campbell joined the Corporation in 2009 as Chief Administrative Officer of Fulton Financial Advisors, a division of Fulton Bank and was promoted to President of Fulton Financial Advisors in 2010. He has more than 40 years of experience in the financial services industry.
 <p>Beth Ann L. Chivinski</p>	62	Senior Executive Vice President and Chief Risk Officer of the Corporation since 2016. Previously, Ms. Chivinski served as the Corporation's Chief Audit Executive from 2013 to 2016 and was promoted to Senior Executive Vice President of the Corporation in 2014. Ms. Chivinski served as the Corporation's Controller and Chief Accounting Officer from 1994 to 2013, having been promoted to Executive Vice President in 2004.
 <p>Andy B. Fiol</p>	51	Appointed Senior Executive Vice President and Head of Consumer Banking, and as an executive officer of the Corporation, effective January 1, 2023. Mr. Fiol previously served as Senior Executive Vice President and Head of the Consumer & Small Business Bank of the Corporation since 2022. Mr. Fiol joined the Corporation as Director of Consumer & Small Business Channel, Segment and Product in 2018. Prior to joining the Corporation, he served as an executive in various roles at both Capital One Bank from 2011 to 2018 and prior to that at Bank of America. He has more than 20 years of experience in the financial services industry.

Name	Age	Office Held and Term of Office
Natasha R. Luddington 	48	Senior Executive Vice President, Chief Legal Officer and Corporate Secretary since 2021. Ms. Luddington became the Senior Executive Vice President, Chief Legal Officer and Corporate Secretary Designee of the Corporation in October 2021. Prior to joining the Corporation, Ms. Luddington served in various positions, including Interim General Counsel and Senior Vice President, Associate General Counsel at Pacific Western Bank from 2014 to 2021. Ms. Luddington served in various roles in CapitalSource Bank's legal department from 2007 to 2014. Ms. Luddington has more than 20 years of legal experience.
Meg R. Mueller 	58	Senior Executive Vice President and Head of Commercial Business since 2018. Ms. Mueller served as Chief Credit Officer of the Corporation from 2010 to 2017. Ms. Mueller was promoted to Senior Executive Vice President of the Corporation in 2013 and has been employed by the Corporation in a number of positions since 1996.
Angela M. Sargent 	55	Senior Executive Vice President and Chief Information Officer of the Corporation since 2013. Ms. Sargent served as Executive Vice President and Chief Information Officer from 2002 to 2013 and has been employed by the Corporation in a number of positions since 1992.
Angela M. Snyder 	58	Chief Banking Officer and Senior Executive Vice President since 2022. Ms. Snyder was Head of Consumer Banking from 2018 to 2022. Ms. Snyder joined the Corporation in 2002 as President of Woodstown National Bank. Ms. Snyder served as Chairwoman, President, and Chief Executive Officer of Fulton Bank of New Jersey until 2019. Ms. Snyder has more than 30 years of experience in the financial services industry.
Bernadette M. Taylor 	61	Senior Executive Vice President and Chief Human Resource Officer since 2015. Dr. Taylor served as Executive Vice President of employee services, employment, and director of human resources prior to her promotion in 2015 to Chief Human Resources Officer. Dr. Taylor joined the Corporation in 1994 as the Corporate Training Director.

Item 1A. Risk Factors

An investment in our securities involves certain risks, including, among others, the risks described below. In addition to the other information contained in this Report, you should carefully consider the following risk factors. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks actually occurs, our business, financial condition and results of operations could be materially, adversely affected.

GENERAL ECONOMIC AND MARKET CONDITIONS RISKS

Difficult conditions in the economy and the financial markets may materially adversely affect our business, financial condition and results of operations.

Our financial condition and results of operations are affected by conditions in the economy and the financial markets generally. Our financial performance is highly dependent upon the business environment in the markets where we operate and in the United States as a whole. Unfavorable or uncertain economic and market conditions can be caused by: declines in economic growth, business activity or investor or business confidence; limitations on the availability, or increases in the cost, of credit and capital; changes in the rate of inflation or in interest rates; high unemployment; labor shortages; governmental fiscal and monetary policies; the level of, or changes in, prices of raw materials, goods or commodities; supply chain issues; global economic conditions; trade policies and tariffs affecting other countries as well as retaliatory policies and tariffs by such countries; geopolitical events, including the war between Russia and Ukraine; natural disasters; public health crises, such as epidemics and pandemics; acts of war or terrorism; or a combination of these or other factors.

Specifically, the business environment impacts the ability of borrowers to pay interest on and repay principal of outstanding loans and the value of collateral, if any, securing those loans, as well as demand for loans and other products and services we offer. There continues to be economic uncertainty, including the possibility of a recession, which could negatively impact the quality of our loan portfolio. As a result, we may have to increase our provision for credit losses, which would negatively impact our results of operations, and could result in charge-offs of a higher percentage of our loans. Unlike large, national institutions, we are not able to spread the risks of unfavorable local economic conditions across a large number of diversified economies and geographic locations. If the communities in which we operate do not grow, or if prevailing economic conditions locally or nationally are unfavorable, our business could be adversely affected. In addition, increased market competition in a lower demand environment could adversely affect our profit potential.

The continuing COVID-19 pandemic could adversely affect our business and our customers, counterparties, employees, and third-party service providers.

The spread of COVID-19 created a global public health crisis that has impacted household, business, economic, and market conditions, including in Pennsylvania and the eastern United States where we conduct most of our business. While economic activity improved significantly from 2020 lows, the pace of economic recovery remains uneven across some industries and geographies, and some industries have been impacted more severely than others by specific variants and by supply chain and/or labor supply disruptions caused by the pandemic. Additionally, our operations have been impacted by the need to close certain offices and limit how customers conduct business through our financial center network. Many of our employees continue to work under a hybrid model that includes working remotely, which exposes us to increased cybersecurity risks, such as phishing, malware, and other similar attacks, all of which could expose us to liability and could seriously disrupt our business operations.

The full extent of the impact of COVID-19 on our capital, liquidity, and other financial positions and on our business, results of operations, and prospects is still uncertain, and will depend on a number of evolving factors, including:

- *The duration, extent, and severity of the pandemic* – COVID-19 has not yet been contained; continuing spread and rise of new variants could affect significantly more households and businesses, or cause additional limitations on commercial activity, and/or general economic and financial instability. We also believe we will continue to see the economic effects of the pandemic even after the COVID-19 outbreak has fully subsided, and this is expected to continue to affect our business, financial position, results of operations, and prospects.
- *The ongoing effect on our customers, counterparties, employees, and third-party service providers* – COVID-19 and its associated consequences and uncertainties are affecting individuals, households, and businesses differently and unevenly. Negative impacts on our customers and/or these other parties could result in increased risk of delinquencies, defaults, foreclosures, and losses on our loans.
- *The effect on economies and markets* – Governmental actions could have lasting effects on taxes and other economic factors, which could adversely affect our financial condition and results of operations. For example, the unprecedented extent of economic stimulus during the pandemic appears to have caused and/or exacerbated inflationary pressures.

INTEREST RATE AND CREDIT RISKS

We are subject to interest rate risk.

We cannot predict or control changes in interest rates. We are affected by fiscal and monetary policies of the federal government, including those of the Federal Reserve Board, many of which affect interest rates charged on loans and paid on deposits.

In response to the economic conditions resulting from the COVID-19 pandemic, the Federal Reserve Board's target Fed Funds Rate was reduced to nearly 0% in March 2020. However, in a series of actions to combat rising inflation that began in March 2022, the Federal Reserve Board raised the Fed Funds Rate to 4.50% - 4.75% as of February 1, 2023.

Changes in monetary policy, including changes in interest rates, influence not only the interest we receive on loans and securities and the interest we pay on deposits and borrowings, but such changes could affect our ability to originate loans and obtain deposits, the fair value of financial assets and liabilities, and the average duration of our assets. Net interest income is the difference between interest earned on interest-earning assets and interest paid on interest-bearing liabilities. Net interest income is the most significant component of our net income, accounting for approximately 83% of total revenues in 2022. Changes in market interest rates, in the shape of the yield curve or in spreads between different market interest rates can have a material effect on our net interest margin. The rates on some interest-earning assets, such as loans and investments, and interest-bearing liabilities, such as deposits and borrowings, adjust concurrently with, or within a brief period after, changes in market interest rates, while others adjust only periodically or not at all during their terms. Thus, changes in market interest rates might, for example, result in an increase in the interest paid on interest-bearing liabilities that is not accompanied by a corresponding increase in the interest earned on interest-earning assets, or the increase in interest earned might be at a slower pace, or in a smaller amount, than the increase in interest paid, reducing our net interest income and/or net interest margin. In addition, we rely on lower-cost, core deposits as our primary source of funding and changes in interest rates could increase our cost of funding, reduce our net interest margin and/or create liquidity challenges.

We have policies and procedures designed to manage the risks associated with changes in interest rates and actively manage these risks through hedging and other risk mitigation strategies. However, if our assumptions are wrong or overall economic conditions are significantly different than anticipated, our hedging and other risk mitigation strategies may be ineffective and may adversely impact our financial condition and results of operations.

An increase in interest rates could also have a negative impact on our results of operations by reducing the ability of borrowers to repay current loan obligations. These circumstances could not only result in increased loan defaults, foreclosures and charge-offs, but also reduce collateral values and necessitate further increases in the allowance for loan losses.

Changes in interest rates may also affect the average life of loans and certain investment securities, including mortgage-backed securities. Increases in interest rates may extend the average life of fixed rate assets potentially restricting our ability to reinvest in higher yielding alternatives, reduce demand for loans and may result in customers withdrawing their certificates of deposit early. Conversely, decreases in interest rates can result in increased prepayments of loans and certain investment securities, as borrowers or issuers refinance to reduce their borrowing costs. Under those circumstances, we would be subject to reinvestment risk to the extent that we are not able to reinvest the money received from such prepayments at rates that are comparable to the rates on the loans and investment securities that are prepaid.

Changes in interest rates also affect the fair value of interest-earning investment securities. Generally, the value of interest-earning investment securities moves inversely with changes in interest rates. In the event that the fair value of an investment security declines below its amortized cost, we are required to determine whether the decline constitutes an OTTI. The determination of whether a decline in fair value is other-than-temporary depends on a number of factors, including whether we have the intent and ability to retain the investment security for a period of time sufficient to allow for any anticipated recovery in fair value. If a determination is made that a decline is other-than-temporary, an OTTI charge is recorded. In addition, changes in interest rates can affect the fair value of AFS investment securities, with any unrealized gain or loss reflected as a component of AOCI. During 2022, as a result of rising interest rates, the value of our AFS investment securities declined resulting in unrealized losses of approximately \$312 million reflected in AOCI as a reduction to total shareholders' equity. Further increases in interest rates could result in additional unrealized losses on AFS investment securities we hold.

We cannot predict the nature or timing of any future changes in fiscal and monetary policies or of changes in interest rates; however, policy or interest rate changes could have a material adverse effect on our business, financial condition and results of operations.

Changes in interest rates can affect demand for our products and services.

Movements in interest rates can cause demand for some of our products and services to be cyclical. For example, demand for residential mortgage loans has historically tended to increase during periods when interest rates were declining and to decrease during periods when interest rates were rising. As a result, we may need to periodically increase or decrease the size of certain of our product and service offerings, including our personnel, to match increases and decreases in demand and volume. The need to change the scale of our product and service offerings is challenging, and there is often a lag between changes in the interest rate environment and our reaction to these changes.

The replacement of LIBOR as a financial benchmark presents risks to the financial instruments we originated or hold.

LIBOR is the reference rate used for many of our transactions, including variable and adjustable rate loans, derivative contracts, borrowings and other financial instruments. A reduced volume of interbank unsecured term borrowing, coupled with legal and regulatory proceedings related to rate manipulation by certain financial institutions, led to international reconsideration of LIBOR as a financial benchmark. The FCA announced in July 2017 that the sustainability of LIBOR cannot be guaranteed. Although the FCA confirmed the extension of overnight and 1-, 3-, 6- and 12-month LIBOR through June 30, 2023 in order to provide financial institutions greater time to manage the transition from LIBOR, the FCA is no longer persuading, or compelling, banks to submit rates for the calculation of LIBOR. We are in the process of transitioning from LIBOR to other reference rates, including SOFR, for our borrowers with variable and adjustable rate loans that use LIBOR as a reference rate.

On March 15, 2022, President Biden signed the LIBOR Act into law. The LIBOR Act establishes a uniform replacement reference rate for LIBOR in agreements that either do not contain a fallback provision, or do not identify a specific benchmark replacement and a person with the authority, right or obligation to determine the benchmark replacement. The replacement rate will be the benchmark replacement identified by the Federal Reserve Board that is based on the SOFR, including a tenor spread adjustment that is consistent with the International Swaps and Derivatives Association's IBOR Fallbacks Protocol. In December 2022, the Federal Reserve Board published final regulations implementing the LIBOR Act and adopting SOFR-based benchmark rates that will replace overnight, 1-, 3-, 6- and 12-month U.S. dollar LIBOR for agreements specified in the LIBOR Act.

The use of the SOFR-based benchmark rates and changes to the methods and processes used to calculate rates, may have an adverse effect on the trading market for LIBOR-based securities, loan yields, and the amounts received and paid on derivative contracts and other financial instruments. In addition, the transition to other benchmark rates may be delayed due to operational issues, result in reduced loan balances if borrowers do not accept the substitute index or indices or result in disputes or litigation with customers over the appropriateness or compatibility of such indices to LIBOR. The implementation of replacements for LIBOR has and will continue to result in increased compliance and operational costs and could have an adverse effect on our financial condition and results of operations.

Price fluctuations in securities markets, as well as other market events, such as a disruption in credit and other markets and the abnormal functioning of markets for securities, could have an impact on our results of operations.

The market value of our securities investments, which include mortgage-backed securities, state and municipal securities and corporate debt securities, are particularly sensitive to price fluctuations and market events. Declines in the values of our securities holdings, combined with adverse changes in the expected cash flows from these investments, could result in OTTI charges.

Our investment management and trust services revenue, which is partially based on the value of the underlying investment portfolios, can also be impacted by fluctuations in the securities markets. If the values of those investment portfolios decrease, whether due to factors influencing U.S. or international securities markets, in general, or otherwise, our revenue could be negatively impacted. In addition, our ability to sell our securities brokerage services is dependent, in part, upon consumers' level of confidence in securities markets.

Our loan portfolio composition and competition for loans subject us to credit risk.

At December 31, 2022, approximately 66% of our loan portfolio was in commercial loans, commercial mortgage loans, and residential and commercial construction loans. Commercial loans, commercial mortgage loans and construction loans generally involve a greater degree of credit risk than residential mortgage loans and consumer loans because these loans are likely to be more sensitive to broader economic factors and conditions. Because payments on these loans often depend on the successful operation and management of borrowers' businesses and properties, repayment of such loans may be affected by factors outside the borrower's control, including adverse conditions in the real estate markets, adverse economic conditions or changes in

governmental regulation. In addition, these loans typically have relatively large balances and the deterioration of one or a few of these loans could cause a significant increase in the percentage of non-performing loans. An increase in non-performing loans could result in a loss of earnings from these loans, an increase in the provision for loan losses and an increase in charge-offs, all of which could have a material adverse effect on our financial condition and results of operations.

Furthermore, intense competition among both bank and non-bank lenders could increase pressure on us to relax our credit standards and/or underwriting criteria and drive us to consider loans and customer relationships outside our established risk appetite or target customer base in order to achieve our loan growth targets potentially resulting in greater challenges in the repayment or collection of loans if economic conditions, or individual borrower performance, deteriorate.

LIQUIDITY AND CAPITAL RISKS

Changes in interest rates or disruption in liquidity markets may adversely affect our sources of funding.

We must maintain sufficient sources of liquidity to meet the demands of our depositors and borrowers, support our operations and meet regulatory requirements. Our liquidity management policies and practices emphasize core deposits and repayments and maturities of loans and investments as our primary sources of liquidity. These primary sources of liquidity can be supplemented by FHLB advances, borrowings from the FRB, proceeds from the sales of loans and use of our liquidity resources, including capital markets funding. Lower-cost, core deposits may be adversely affected by changes in interest rates, and secondary sources of liquidity can be more costly to us than funding provided by deposit account balances having similar maturities. In addition, adverse changes in our financial condition or results of operations, downgrades in our credit ratings, regulatory actions involving us, or changes in regulatory, industry or market conditions could lead to increases in the cost of these secondary sources of liquidity, the inability to refinance or replace these secondary funding sources as they mature, or the withdrawal of unused borrowing capacity under these secondary funding sources.

We rely on customer deposits as our primary source of funding. A substantial majority of our deposits are in non-maturing accounts that customers can withdraw on demand or upon several days' notice. Factors, including competition with bank and non-bank competitors, changes in interest rates, the availability of alternative investment options, customer confidence in the industry and the liquidity needs of deposit customers, can cause fluctuations in both the level and cost of customer deposits. Further, deposits from state and municipal entities, primarily in non-maturing, interest-bearing accounts, are a significant source of deposit funding for us, representing approximately 11% of total deposits at December 31, 2022. State and municipal customers frequently maintain large deposit account balances substantially in excess of the FDIC insurance limit, and these depositors may be more sensitive than other depositors to changes in interest rates. Changes in any of these factors could increase our funding costs, reduce our net interest margin and/or create liquidity challenges.

If we are not able to continue to rely primarily on customer deposits to meet our liquidity and funding needs, access secondary, non-deposit funding sources on favorable terms or otherwise fail to manage our liquidity effectively, our ability to continue to grow may be constrained, and our liquidity, operating margins, financial condition and results of operations may be materially adversely affected.

We may need to raise additional capital in the future and such capital may not be available when needed or at all.

We are required by regulatory agencies to maintain adequate levels of capital. We may need to raise additional capital in the future to meet regulatory or other internal requirements. As a publicly traded company, a likely source of additional funds is the capital markets, accomplished generally through the issuance of equity, both common and preferred stock, and the issuance of debt. Our ability to raise additional capital, if needed, will depend on, among other things, conditions in the capital markets at that time, which are outside of our control, and our financial performance.

We cannot provide any assurance that access to such capital will be available to us on acceptable terms or at all. Any occurrence that may limit our access to the capital markets, such as a decline in the confidence of debt purchasers or counterparties participating in the capital markets, may materially and adversely affect our capital costs and our ability to raise capital and, in turn, our liquidity. Further, if we need to raise capital in the future, we may have to do so when many other financial institutions are also seeking to raise capital and would then have to compete with those institutions for investors. The inability to raise additional capital on acceptable terms when needed could have a materially adverse effect on our business, financial condition or results of operations.

We are subject to capital adequacy standards, and a failure to meet these standards could adversely affect our financial condition.

The Corporation and Fulton Bank are each subject to capital adequacy and liquidity rules and other regulatory requirements specifying minimum amounts and types of capital that must be maintained. From time to time, the regulators implement changes to these regulatory capital adequacy and liquidity guidelines. If we fail to meet these minimum capital and liquidity guidelines and other regulatory requirements, we may be restricted in the types of activities we may conduct and may be prohibited from taking certain capital actions, such as making payments on certain capital instruments, paying executive bonuses or dividends, and repurchasing or redeeming capital securities.

RISKS RELATED TO RISK MANAGEMENT

We are exposed to many types of operational and other risks, and our framework for managing risks may not be effective in mitigating risk.

We are exposed to many types of operational risks, including the risk of human error or fraud by employees and other third parties, intentional and inadvertent misrepresentation by loan applicants, borrowers or guarantors, unsatisfactory performance by employees and vendors, clerical and record-keeping errors, operational errors, computer and telecommunications systems malfunctions or failures and reliance on data that may be faulty or incomplete. In an environment characterized by continual, rapid technological change, when we introduce new products and services, or make changes to our information technology systems and processes as we do from time to time, these operational risks are increased. Any of these operational risks could result in the diminished ability to operate one or more of our businesses, financial loss, potential liability to customers, inability to secure insurance, reputational damage and/or regulatory intervention, any or all of which could materially adversely affect us.

Operational errors can include information system misconfiguration, clerical or record-keeping errors, or disruptions from faulty or disabled computer or telecommunications systems. Because the nature of the financial services business involves a high volume of transactions, certain errors may be repeated or compounded before they are discovered and successfully rectified. Because of our large transaction volume and necessary dependence upon automated systems to record and process these transactions, there is a risk that technical flaws, tampering, or manipulation of those automated systems, arising from events wholly or partially beyond our control, may give rise to disruption of service to customers and to financial loss or liability. We are also exposed to the risk that our business continuity and data security systems prove to be inadequate.

Furthermore, our risk management framework is subject to inherent limitations, and risks may exist, or develop in the future, that we have not anticipated or identified. If our risk management framework is ineffective, we could suffer unexpected losses and could be materially adversely affected. One critical component of our risk management framework is our system of internal controls. Management regularly reviews and updates our internal controls, disclosure controls and procedures, and corporate governance policies and procedures. Any system of controls, however well designed and operated, is based in part on certain assumptions and can provide reasonable, but not absolute, assurances that the objectives of the controls are met. Any failure or circumvention of our controls and procedures or failure to comply with regulations related to controls and procedures could have a material adverse effect on our business, financial condition, results of operations and reputation. See Item 9A. "Controls and Procedures."

Loss of, or failure to adequately safeguard, confidential or proprietary information may adversely affect our operations, net income or reputation.

Our business is highly dependent on information systems and technology and the ability to collect, process, transmit and store significant amounts of confidential information on a daily basis. While we perform some of the functions required to operate our business directly, we also rely on third parties for significant business functions, such as processing customer transactions, providing cloud-based infrastructure, software and data storage services, maintaining customer-facing websites, including our online and mobile banking functions, and developing software for new products and services. These relationships require us to allow third parties to access, store, process and transmit customer information. As a result, we may be subject to cybersecurity risks directly, as well as indirectly, through the vendors to whom we outsource business functions and the downstream service providers of those vendors. Cyber threats could result in unauthorized access, loss or destruction of confidential information or customer data; unavailability, degradation or denial of service; introduction of computer viruses or ransomware; and other adverse events causing us to incur additional costs repairing systems, restoring data or adding new personnel or protection technologies. Cyber threats may also subject us to regulatory investigations, litigation or enforcement actions, require the payment of fines, penalties or damages, or undertaking costly remediation efforts with respect to third parties affected by a

cybersecurity incident, all or any of which could adversely affect our business, financial condition or results of operations and/or damage our reputation.

Critical infrastructure sectors, including the financial services sector, increasingly have been the targets of cyberattacks. Cyberattacks involving large financial institutions, including denial of service attacks, nation-state cyberattacks, ransomware attacks designed to deny access to key internal resources or systems, and targeted social engineering and email attacks, are becoming more common and increasingly sophisticated. Further, threat actors are increasingly seeking to target vulnerabilities in software systems (and third-party vendors providing those systems) used by large numbers of banking organizations in order to conduct malicious cyber activities.

Like other financial institutions, we experience malicious cyber activity on an ongoing basis directed at our websites, computer systems, software, networks and our users. This malicious activity includes attempts at unauthorized access, implantation of computer viruses or malware, and denial of service attacks. We also experience large volumes of phishing and other forms of social engineering attempted for the purpose of perpetuating fraud against us, our employees or our customers. While, to date, malicious cyber activity, cyberattacks and other information security breaches have not had a material adverse impact on us, risk to our systems remains significant.

Cybersecurity risks for financial institutions also have evolved as a result of the use of cloud computing and new technologies, devices and delivery channels to transmit and store data and conduct financial transactions. The adoption of new products, services and delivery channels contribute to a more complex operating environment, which enhances operational risk and presents the potential for additional structural vulnerabilities.

We use monitoring and preventive controls to detect and respond to data breaches and cyber threats involving our systems before they become significant. We regularly evaluate our systems and controls and implement upgrades as necessary. We also attempt to reduce our exposure to our vendors' data privacy and cyber incidents by performing initial vendor due diligence that is updated periodically for critical vendors, negotiating service level standards with vendors, negotiating for indemnification from vendors for confidentiality and data breaches, and limiting third-party access to the least privileged level necessary to perform outsourced functions. The additional cost to us of data and cybersecurity monitoring and protection systems and controls includes the cost of hardware and software, third-party technology providers, consulting and forensic testing firms, insurance premium costs and legal fees and the incremental cost of personnel who focus a substantial portion of their responsibilities on data and cybersecurity.

There can be no assurance that the measures we employ to detect and combat direct or indirect cyber threats will be effective. In addition, because the methods of cyberattacks change frequently or, in some cases, are not recognized until launched, we may be unable to implement effective preventive control measures to proactively address these methods. Although one of our third-party vendors experienced a data breach in 2022 that had an immaterial impact on us, there can be no assurance that any future third-party vendor data breach would not be material, and if we or a third-party vendor were to experience a cyberattack or information security breach, we could suffer damage to our reputation, productivity losses, response costs associated with investigation and resumption of services, and incur substantial additional expenses, including remediation expenses costs associated with client notification and credit monitoring services, increased insurance premiums, regulatory penalties and fines, and costs associated civil litigation, any of which could have a materially adverse effect on our business, financial condition, results of operations and reputation. Although we maintain insurance coverage that may, subject to policy terms and conditions, cover certain aspects of cyber risks, our insurance coverage may be inapplicable or otherwise insufficient to cover any or all losses.

Additionally, account data compromise, malware and ransomware events affecting a broad spectrum of commercial businesses and governmental entities in recent years have resulted in heightened legislative and regulatory focus on privacy, data protection and information security. Changes in laws and regulations may significantly impact our current and planned privacy, data protection and information security-related practices, the collection, use, sharing, retention and safeguarding of consumer and employee information, and current or planned business activities. Compliance with current or future privacy, data protection and information security laws could result in higher compliance and technology costs and could restrict our ability to provide certain products and services that could materially and adversely affect our profitability.

We are subject to a variety of risks in connection with the origination and sale of loans.

We originate residential mortgage loans and other loans, such as loans guaranteed, in part, by the SBA, all or portions of which are later sold in the secondary market to government sponsored enterprises or agencies, such as the Federal National Mortgage Association (Fannie Mae) and other non-government sponsored investors. In connection with such sales, we make certain representations and warranties with respect to matters such as the underwriting, origination, documentation or other

characteristics of the loans sold. We may be required to repurchase a loan, or to reimburse the purchaser of a loan for any related losses, if it is determined that the loan sold was in violation of representations or warranties made at the time of the sale, and, in some cases, if there is evidence of borrower fraud, in the event of early payment default by the borrower on the loan, or for other reasons. We maintain reserves for potential losses on certain loans sold, however, it is possible that losses incurred in connection with loan repurchases and reimbursement payments may be in excess of any applicable reserves, and we may be required to increase reserves and may sustain additional losses associated with such loan repurchases and reimbursement payments in the future, all of which could have a material adverse effect on our financial condition and results of operations.

In addition, the sale of residential mortgage loans and other loans in the secondary market serves as a source of non-interest income and liquidity for us and can reduce our exposure to interest rate risk. Efforts to reform government sponsored enterprises and agencies, changes in the types of, or standards for, loans purchased by government sponsored enterprises or agencies and other investors, or our failure to maintain our status as an eligible seller of such loans may limit our ability to sell these loans. Our inability to continue to sell these loans could reduce our non-interest income, limit our ability to originate and fund these loans in the future, and make managing interest rate risk more challenging, any of which could have a material adverse effect on our financial condition and results of operations.

Our operational risks include risks associated with third-party vendors and other financial institutions.

We rely upon certain third-party vendors to provide products and services necessary to maintain our day-to-day operations, including, notably, responsibility for the core processing system that services Fulton Bank. Accordingly, our operations are exposed to the risk that these vendors might not perform in accordance with applicable contractual arrangements or service level agreements. The failure of an external vendor to perform in accordance with applicable contractual arrangements or service level agreements could be disruptive to our operations and could have a material adverse effect on our financial condition or results of operations and/or damage our reputation. Further, third-party vendor risk management continues to be a point of regulatory emphasis. A failure to follow applicable regulatory guidance in this area could expose us to regulatory sanctions.

The commercial soundness of many financial institutions may be closely interrelated as a result of credit, trading, execution of transactions or other relationships between the institutions. As a result, concerns about, or a default or threatened default by, one institution could lead to significant market-wide liquidity and credit problems, losses or defaults by other institutions. This risk is sometimes referred to as "systemic risk" and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms and exchanges with which we interact on a daily basis, and, therefore, could adversely affect us.

Any of these operational or other risks could result in our diminished ability to operate one or more of our businesses, financial loss, potential liability to customers, inability to secure insurance, reputational damage and regulatory intervention and could materially adversely affect our business, financial condition and results of operations.

Climate change may materially adversely affect our business and results of operations.

We operate in areas where our business and the activities of our customers could be impacted by the effects of climate change, including increased frequency or severity of storms, hurricanes, floods, droughts, and rising sea levels. These effects can disrupt business operations, damage property, devalue assets and change consumer and business preferences, which may adversely affect borrowers, increase credit risk and reduce demand for our products and services. At this time, we have not experienced material losses from climate change; however, we are aware that its impact may increase in the future. Climate change, its effects and the resulting, unknown impacts could have a material adverse effect on our financial condition and results of operations.

We are also susceptible to policy and regulatory changes with respect to banks' climate risk management practices. For instance, the leadership of the federal banking agencies, including the Comptroller of the Currency, have emphasized that climate-related risks are faced by banking organizations of all types and sizes and are in the process of enhancing supervisory expectations regarding banks' risk management practices. The OCC also has appointed its first ever Climate Change Risk Officer and established an internal climate risk implementation committee to assist with these initiatives and support the agency's efforts to enhance its supervision of climate change risk management. If new regulations or supervisory guidance applicable to us came into effect, our compliance costs and other compliance-related risks would be expected to increase and affect our financial position and results of operations.

RISKS FROM ACCOUNTING AND OTHER ESTIMATES

Our consolidated financial statements are based in part on assumptions and estimates which, if incorrect, could cause unexpected losses in the future.

We have made a number of estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period to prepare these consolidated financial statements in conformity with GAAP. Actual results could differ from these estimates. Material estimates subject to change in the near term include, among other items: the allowance for credit losses, particularly in light of the adoption of the new CECL standard on January 1, 2020; the carrying value of goodwill or other intangible assets; the fair value estimates of certain assets and liabilities; and the realization of deferred tax assets and liabilities. These estimates may be adjusted as more current information becomes available and any adjustment may be significant.

There are risks resulting from the extensive use of models in our business.

We rely on quantitative models to measure risks and to estimate certain financial values. We use models in such processes as determining the pricing of various products, measuring interest rate and other market risks, predicting or estimating losses, assessing capital adequacy and calculating regulatory capital levels, as well as to estimate the value of financial instruments and balance sheet items. Poorly designed or implemented models present the risk that our business decisions based on information incorporating model output could be adversely affected due to the inaccuracy of that information. Models are often based on historical experience to predict future outcomes, as a result new experiences or events which are not part of historical experience can significantly increase model imprecision and impact model reliability. Model inputs can also include information provided by third parties, such as economic forecasts or macroeconomic variables (unemployment rates, real GDP, etc.) upon which we rely. Some of the decisions that our regulators make, including those related to capital distributions, could be affected due to the perception that the quality of the models used to generate the relevant information is insufficient, which could have a negative impact on our ability to make capital distributions in the form of dividends or share repurchases. Our reliance on models continues to increase as rules, guidance, and expectations change. The most recent example of this is the additional models used in the determination of our ACL under CECL, which we adopted on January 1, 2020.

LEGAL AND REGULATORY COMPLIANCE RISKS

We are subject to extensive regulation and supervision and may be adversely affected by changes in, or any failure to comply with laws and regulations.

Virtually every aspect of our operations is subject to extensive regulation and supervision by federal and state regulatory agencies, including the Federal Reserve Board, OCC, FDIC, CFPB, DOJ, UST, SEC, HUD, DOL, state attorneys general and state banking, financial services, securities and insurance regulators. Under this framework, regulatory agencies have broad authority to carry out their supervisory, examination and enforcement responsibilities to address compliance with applicable laws and regulations, including laws and regulations relating to capital adequacy, asset quality, earnings, liquidity, risk management and financial accounting and reporting as well as laws and regulations governing consumer protection, fair lending, privacy, information security and cybersecurity risk management, third-party vendor risk management, AML and sanctions and anti-terrorism laws. Failure to comply with these regulatory requirements, including inadvertent or unintentional violations, may result in the assessment of fines and penalties, the commencement of informal or formal regulatory enforcement actions against us, or regulatory restrictions on our activities. Failure to comply may also affect our ability to grow through acquisitions, discourage institutional investment managers to invest in our securities, result in reputational damage, or increase our costs of doing business.

The U.S. Congress, state legislatures and federal and state regulatory agencies continually review banking and other laws, regulations and policies for possible changes. Changes in applicable federal or state laws, regulations or governmental policies may affect us and our business. For example, in 2022, federal banking regulators proposed new rules to modernize the CRA and enhance small business data collection required pursuant to the Dodd-Frank Act. These developments create uncertainty in planning our CRA activities and any revisions to existing regulations will likely result in increased compliance costs. The effects of such changes are difficult to predict and may produce unintended consequences, like limiting the types of financial services and products we may offer, altering demand for existing products and services, increasing the ability of non-banks to offer competing financial services and products, increasing compliance burdens, or otherwise adversely affecting our business, financial condition or results of operations.

The CFPB, established pursuant to the Dodd-Frank Act, has imposed enforcement actions against a variety of bank and non-bank market participants with respect to a number of consumer financial products and services. These enforcement actions have resulted in those participants expending significant time, money and resources to adjust to the initiatives being pursued by the CFPB. These enforcement actions may also serve as precedent for how the CFPB interprets and enforces consumer protection laws, including practices or acts that are deemed to be unfair, deceptive or abusive, with respect to supervised institutions and may result in the imposition of higher standards of compliance with such laws. Other federal financial regulatory agencies, including the OCC, as well as state attorneys general and state banking agencies and other state financial regulators have also been active in this area with respect to institutions over which they have jurisdiction.

Compliance with banking and financial services statutes and regulations also impacts our ability to engage in new activities or to expand existing activities. Federal and state banking agencies possess broad powers to take supervisory actions, as they deem appropriate. These supervisory actions may result in higher capital requirements, higher deposit insurance premiums and limitations on our operations and expansion activities that could have a material adverse effect on our business and profitability. We have dedicated significant time, effort, and expense over time to comply with regulatory and supervisory standards and requirements imposed by our regulators, and we expect that we will continue to do so. If we fail to develop the systems and processes necessary to comply with the standards and requirements imposed by these rules at a reasonable cost, it could have a material adverse effect on our business, financial condition or results of operations.

From time to time we may be the subject of litigation and governmental or administrative proceedings. Adverse outcomes of any such litigation or proceedings may have a material adverse impact on our business, financial condition and results of operations as well as our reputation.

Many aspects of our business involve a substantial risk of legal liability. From time to time, we have been named or threatened to be named as a defendant in various lawsuits arising from our business activities and, in some cases, from the activities of companies that we or our subsidiaries acquired. In addition, we are periodically the subject of governmental investigations and other forms of regulatory or governmental inquiry. These lawsuits, investigations, inquiries and other matters could lead to administrative, civil or criminal proceedings, result in adverse judgments, settlements, fines, penalties, restitution, injunctions or other types of sanctions, the need for us to undertake remedial actions, or otherwise alter our business, financial or accounting practices. Substantial legal liability or significant regulatory actions against us could materially adversely affect our business, financial condition and results of operations and cause significant reputational harm.

Changes in U.S. federal, state or local tax laws may negatively impact our financial performance.

We are subject to changes in tax laws that could increase our effective tax rate. These law changes may be retroactive to previous periods and, as a result, could negatively affect our current and future financial performance. In December 2017, the Tax Act was signed into law resulting in significant changes to the Tax Code. The Tax Act reduced our federal corporate income tax rate to 21% beginning in 2018. However, the Tax Act also imposed limitations on our ability to take certain deductions, such as the deduction for FDIC deposit insurance premiums, which partially offset the increase in net income from the lower tax rate. The Inflation Reduction Act of 2022 imposes a 1% excise tax on the value of our shares we repurchase on or after January 1, 2023 that exceeds \$1 million in the aggregate during any taxable year, subject to certain adjustments.

In addition, a number of the changes to the Tax Code are set to expire in future years. There is substantial uncertainty concerning whether those expiring provisions will be extended or whether future legislation will further revise the Tax Code. Changes to the Tax Code may affect our business, financial condition and results of operations.

Regulations relating to privacy, information security, and data protection could increase our costs, affect or limit how we collect and use personal information, and adversely affect our business opportunities.

We are subject to various privacy, information security, and data protection laws, such as the GLBA, that among other things require privacy disclosures and maintenance of a robust security program that are increasingly subject to change which could have a significant impact on our current and planned privacy, data protection, and information security-related practices; our collection, use, sharing, retention, and safeguarding of consumer or employee information; disclosures and notifications during a cyber or information security incident; and some of our current or planned business activities. Our regulators also hold us responsible for privacy and data protection obligations performed by our third-party service providers while providing services to us, as well as disclosures and notifications during a cyber or information security incident.

New or changes to existing laws increase our costs of compliance and business operations and could reduce income from certain business initiatives, including increased privacy-related enforcement activity and higher compliance and technology costs, and could restrict our ability to provide certain products and services. Our failure to comply with privacy, data protection,

and information security laws could result in potentially significant regulatory or governmental investigations or actions, litigation, fines, sanctions, and damage to our reputation, which could have a material adverse effect on our business, financial condition or results of operations.

RISKS RELATED TO STRATEGIC GROWTH

We face a variety of risks in connection with completed and potential acquisitions.

We may from time to time seek to supplement organic growth through acquisitions of banks, branches or other financial businesses or assets. Potential acquisitions are typically subject to regulatory or other approvals, and there can be no assurance that we would be able to obtain any such approvals in a timely manner, without restrictive conditions or at all. Even if required approvals are obtained, acquisitions involve numerous risks, including lower than expected performance, higher than expected costs, difficulties related to integration, diversion of management's attention from other business activities, the potential loss of key employees, changes in relationships with customers, disruption of the operations of the acquired business and our business, exposure to potential asset quality issues and unknown or contingent liabilities of the acquired business and changes in banking or tax laws or regulations that may affect the acquired business.

On July 1, 2022, we completed the acquisition of Prudential Bancorp, with approximately \$933.6 million in total assets. The success of the Prudential Bancorp acquisition or any future acquisitions we may consummate will depend on, among other things, our ability to realize the expected revenue increases, cost savings, strategic gains, increases in geographic or product presence, and/or other anticipated benefits. If we are not able to successfully achieve these objectives, the anticipated benefits of the subject acquisition may not be realized fully or at all or may take longer to realize than expected and the subject acquisition could have a material adverse effect on our business, financial condition and results of operations.

On July 9, 2021, President Biden issued an executive order on promoting competition in the U.S. economy. Among other initiatives, the executive order encouraged the federal banking agencies to review their current merger oversight practices under the BHCA and the Bank Merger Act and adopt a plan for revitalization of such practices. There are many steps that must be taken by the agencies before any formal changes to the framework for evaluating bank mergers can be finalized and the prospects for such action are uncertain at this time; however, the adoption of more expansive or prescriptive standards may have an impact on our acquisition activities.

Acquisitions may dilute shareholder value.

The acquisition of Prudential Bancorp on July 1, 2022 was a cash-and-stock transaction valued at approximately \$119.1 million as of the date of close. The consideration payable to Prudential Bancorp shareholders upon consummation of the acquisition consisted of whole shares of the Corporation's common stock and cash in lieu of fractional shares of the Corporation's common stock. We issued approximately 6.2 million shares of the Corporation's common stock to Prudential Bancorp shareholders in connection with the acquisition. Future mergers or acquisitions, if any, may involve cash, debt or equity securities as transaction consideration. Acquisitions typically involve the payment of a premium over book and market values, and, therefore, some dilution of our stock's tangible book value and net income per common share may occur in connection with any future transaction. We cannot say with any certainty that we will be able to consummate, or if consummated, successfully integrate any future acquisitions, or that we will not incur disruptions or unexpected expenses in integrating such acquisitions. Furthermore, failure to realize the expected revenue increases, cost savings, strategic gains, increases in geographic or product presence, and/or other anticipated benefits from pending or future acquisitions could have a material adverse effect on our financial condition and results of operations.

If the goodwill that we have recorded or will record in the future in connection with our acquisitions becomes impaired, it could have a negative impact on our results of operations.

We have supplemented our internal growth with strategic acquisitions of banks, branches and other financial services companies. In the future, we may seek to supplement organic growth through additional acquisitions. If the purchase price of an acquired company exceeds the fair value of the company's net assets, the excess is carried on the acquirer's balance sheet as goodwill. As of December 31, 2022, we had \$550.5 million of goodwill recorded on our balance sheet. We are required to evaluate goodwill for impairment at least annually. Write-downs of the amount of any impairment, if necessary, are to be charged to earnings in the period in which the impairment occurs. There can be no assurance that future evaluations of goodwill will not result in impairment charges.

We may not be able to achieve our growth plans.

Our business plan includes the pursuit of profitable growth. To achieve profitable growth, we may pursue new lines of business or offer new products or services, all of which can involve significant costs, uncertainties and risks. Any new activity we pursue may require a significant investment of time and resources and may not generate the anticipated return on that investment. In addition, we may not be able to effectively implement and manage any new activities. External factors, such as the need to comply with additional regulations, the availability, or introduction, of competitive alternatives in the market, and changes in customer preferences may also impact the successful implementation of any new activity. Any new activity could have a significant impact on the effectiveness of our system of internal controls. Sustainable growth requires that we manage risks by balancing loan and deposit growth at acceptable levels of risk, maintaining adequate liquidity and capital, hiring and retaining qualified employees, and successfully managing the costs and implementation risks with respect to strategic projects and initiatives. If we are not able to adequately identify and manage the risks associated with new activities, our business, financial condition and results of operations could be materially and adversely impacted.

RISKS RELATED TO COMPETITION

Our ability to attract and retain qualified employees is critical to our success.

Our employees are our most important resource. Competition for qualified personnel is intense in many areas of the financial services industry and has increased significantly since the onset of the COVID-19 pandemic. We endeavor to attract talented and diverse new employees and retain and motivate our existing employees to assist in executing our growth, acquisition and business strategies. We also seek to retain proven, experienced senior employees with superior talent, augmented from time to time by external hires, to provide continuity of succession of our executive management team. Losses of or changes in our current executive officers or other key personnel, or the inability to recruit and retain qualified personnel in the future, could materially and adversely affect our financial condition and results of operations.

We face strong competition from financial services companies and other companies that offer banking services, which could materially and adversely affect our business.

The financial services industry has become even more competitive as a result of legislative, regulatory, and technological changes and continued banking consolidation, which may increase in connection with current economic, market, and political conditions. We face substantial competition in all phases of our operations from a variety of competitors, including national banks, regional banks, community banks and, more recently, Fintech companies. Many of our competitors offer the same banking services that we offer and our success depends on our ability to adapt our products and services to evolving industry standards and customer preferences. In addition to product and service offerings, we compete based on a number of other factors, including financial and other terms, underwriting standards, technological capabilities, brand, and reputation. Increased competition in our market may result in reduced new loan production and/or decreased deposit balances or less favorable terms on loans and leases and/or deposit accounts. We also face competition from many other types of financial institutions, including without limitation, non-bank specialty lenders, insurance companies, private investment funds, investment banks and other financial intermediaries, and some of these competitors may not be subject to the same regulatory requirements that we are. Many of our competitors have significantly greater resources, established customer bases, more locations, and longer operating histories. Should competition in the financial services industry intensify, our ability to market our products and services may be adversely affected. If we are unable to attract and retain banking customers, we may be unable to grow or maintain the levels of our loans and deposits, and our financial condition and results of operations may be adversely affected as a result. Ultimately, we may not be able to compete successfully against current and future competitors.

Failure to keep pace with technological change could adversely affect our business.

The financial services industry experiences continuous technological change with frequent introductions of new technology-driven products and services. The effective use of technology increases efficiency and enables financial institutions to better serve customers and to reduce costs. Our future success depends, in part, upon our ability to address the needs of our customers by using technology to provide products and services that will satisfy customer demands, as well as to create additional efficiencies in our operations. The costs of implementing new technology, including personnel, can be high, in both absolute and relative terms, and we may not achieve intended benefits of new technology initiatives. Moreover, the implementation of new technology can expose us to new or increased operational risks. Many of our competitors have substantially greater resources to invest in technological improvements or are technology focused start-ups with internally developed cloud-native systems that offer improved user interfaces and experiences. In addition, new payment, credit and investment and wealth management services developed and offered by non-bank or non-traditional competitors pose an increasing threat to the products and services traditionally provided by financial institutions like us. We may not be able to effectively implement new

technology-driven products and services or be successful in marketing these products and services to our customers, or effectively deploy new technologies to improve efficiency. In addition, we depend on internal and outsourced technology to support all aspects of our business operations. Interruption or failure of these systems creates a risk of business loss as a result of adverse customer experiences and possible diminishing of our reputation, damage claims or civil fines. Failure to successfully keep pace with technological change affecting the financial services industry or to successfully implement core processing strategies could have a material adverse impact on our business and, in turn, our financial condition and results of operations.

RISKS RELATED TO AN INVESTMENT IN OUR SECURITIES

We are a bank holding company and rely on dividends and other payments from our subsidiaries for substantially all of our revenue and our ability to make dividend payments, distributions and other payments.

We are a bank holding company, a separate and distinct legal entity from our bank and non-bank subsidiaries, and we depend on the payment of dividends and other payments and distributions from our subsidiaries, principally Fulton Bank, for substantially all of our revenues. As a result, our ability to make dividend payments on our common and preferred stock depends primarily on compliance with applicable federal regulatory requirements and the receipt of dividends and other distributions from our subsidiaries. There are various regulatory and prudential supervisory restrictions, which may change from time to time, that impact the ability of Fulton Bank to pay dividends or make other payments to us. There can be no assurance that Fulton Bank will be able to pay dividends at past levels, or at all, in the future. If we do not receive sufficient cash dividends or are unable to borrow from Fulton Bank, then we may not have sufficient funds to pay dividends to our shareholders, repurchase our common stock or service our debt obligations.

We may reduce or discontinue the payment of dividends on, or repurchases of, our common stock.

We have pursued a strategy of capital management under which we have sought to deploy capital through stock repurchases and increased regular dividends and special dividends on our common stock, in a manner that is beneficial to our shareholders. Our shareholders are only entitled to receive such dividends as our Board may declare out of funds legally available for such payments. We are not required to pay dividends on, or effect repurchases of, our common stock and may reduce or eliminate our common stock dividend and/or share repurchases in the future. Our ability to pay dividends to our stockholders is subject to the restrictions set forth in Pennsylvania law, by the Federal Reserve, and by certain covenants contained in our subordinated debentures. Notification to the Federal Reserve is also required prior to our declaring and paying a cash dividend to our shareholders during any period in which our quarterly and/or cumulative twelve-month net earnings are insufficient to fund the dividend amount, among other requirements. We may not pay a dividend if the Federal Reserve objects or until such time as we receive approval from the Federal Reserve or we no longer need to provide notice under applicable regulations. In addition, we may be restricted by applicable law or regulation or actions taken by our regulators, now or in the future, from paying dividends to, or repurchasing shares of our common stock from, our shareholders. We cannot provide assurance that we will continue paying dividends on, or repurchase shares of, our common stock at current levels or at all. A reduction or discontinuance of dividends on our common stock or our share repurchases could have a material adverse effect on the market price of our common stock.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

The Corporation's financial center properties as of December 31, 2022 totaled 209 financial centers. Of those financial centers, 91 were owned and 118 were leased. Remote service facilities (mainly stand-alone ATMs) are excluded from these totals. The Corporation's headquarters is located in Lancaster, Pennsylvania. The Corporation owns two dedicated operations centers, located in East Petersburg, Pennsylvania and Mantua, New Jersey.

Item 3. Legal Proceedings

The information presented in the "Legal Proceedings" section of "Note 19 - Commitments and Contingencies" in the Notes to Consolidated Financial Statements is incorporated herein by reference.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Common Stock

As of December 31, 2022, the Corporation had 167.6 million shares of \$2.50 par value common stock outstanding held by approximately 44,075 holders of record. The closing price per share of the Corporation's common stock on February 17, 2023 was \$17.37. The common stock of the Corporation is traded on the Nasdaq Global Select Market under the symbol "FULT".

On July 1 2022, the Corporation reissued 6.2 million shares of treasury stock and paid \$29.3 million in cash as consideration for the Prudential Bancorp acquisition.

Restrictions on the Payments of Dividends

The Corporation is a separate and distinct legal entity from its banking and nonbanking subsidiaries and depends on the payment of dividends from its subsidiaries, principally Fulton Bank, for substantially all of its revenues. As a result, the Corporation's ability to make dividend payments on its common stock depends primarily on compliance with applicable federal regulatory requirements and the receipt of dividends and other distributions from its subsidiaries. There are various regulatory and prudential supervisory restrictions, which may change from time to time, that impact the ability of its banking subsidiary to pay dividends or make other payments to the Corporation. In addition, dividends on the Corporation's common stock may not be declared, paid or set aside for payment unless the full dividends for the immediately preceding dividend payment period for the Corporation's Fixed Rate Non-Cumulative Perpetual Preferred Stock, Series A have been declared and paid or declared and a sum sufficient for the payment thereof has been set aside. For additional information regarding the regulatory restrictions applicable to the Corporation and its subsidiaries, see "Supervision and Regulation," in "Item 1. Business"; "Item 1A. Risk Factors" - Risks Related to an Investment in Our Securities - *We are a bank holding company and rely on dividends and other payments from our subsidiaries for substantially all of our revenue and our ability to make dividend payments, distributions and other payments;*" and "Note 12 - Regulatory Matters," in the Notes to Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data."

Securities Authorized for Issuance under Equity Compensation Plans

The following table provides information about options outstanding under the Corporation's Employee Equity Plan and the number of securities remaining available for future issuance under the Employee Equity Plan, the Directors' Plan and the ESPP as of December 31, 2022:

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights ⁽¹⁾	Weighted-average exercise price of outstanding options, warrants and rights ⁽²⁾	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in first column) ⁽³⁾
Equity compensation plans approved by security holders	2,632,660	\$ 12.11	6,296,473
Equity compensation plans not approved by security holders ...	—	—	—
Total	2,632,660	\$ 12.11	6,296,473

(1) The number of securities to be issued upon exercise of outstanding options, warrants and rights includes 1,360,264 PSUs, which is the target number of PSUs that are payable under the Employee Equity Plan, though no shares will be issued until achievement of applicable performance goals, 108,464 stock option units, 947,125 time-vested RSUs granted under the Employee Equity Plan and 216,807 time-vested RSUs granted under the Directors' Plan.

(2) The weighted-average exercise price of outstanding options, warrants and rights does not take into account outstanding PSUs and RSUs granted under the Employee Equity and the Directors' Plan.

(3) Consists of 5,021,987 shares that may be awarded under the Employee Equity Plan, 46,078 shares that may be awarded under the Directors' Plan and 1,228,408 shares that may be purchased under the ESPP. Excludes accrued purchase rights under the ESPP as of December 31, 2022 as the number of shares to be purchased is indeterminable until the shares are issued.

Performance Graph

The following graph shows cumulative total shareholder return (i.e., price change, plus reinvestment of dividends) on the common stock of the Corporation during the five-year period ended December 31, 2022, compared with (1) the Nasdaq Bank Index and (2) the S&P 500. The graph is not indicative of future price performance.

The graph below is furnished under this Part II, Item 5 of this Form 10-K and shall not be deemed to be "soliciting material" or to be "filed" with the SEC or subject to Regulation 14A or 14C, or to the liabilities of Section 18 of the Exchange Act.

Index	Year Ending December 31					
	2017	2018	2019	2020	2021	2022
Fulton Financial Corporation	\$ 100.00	\$ 86.99	\$ 101.10	\$ 77.24	\$ 106.80	\$ 112.23
S&P 500	\$ 100.00	\$ 116.49	\$ 153.17	\$ 181.35	\$ 233.41	\$ 155.59
Nasdaq Bank Index	\$ 100.00	\$ 86.09	\$ 102.99	\$ 90.82	\$ 129.20	\$ 100.86

Issuer Purchases of Equity Securities

There were no repurchases of our common stock during the fourth quarter of 2022.

On December 20, 2022, the Corporation announced that its board of directors approved the 2023 Repurchase Program. The 2023 Repurchase Program will expire on December 31, 2023. Under the 2023 Repurchase Program, the Corporation is authorized to repurchase up to \$100.0 million of shares of its common stock, or approximately 3.6% of its outstanding shares, through December 31, 2023.

As permitted by securities laws and other legal requirements and subject to market conditions and other factors, purchases may be made from time to time under the 2023 Repurchase Program in open market or privately negotiated transactions, including

without limitation, through accelerated share repurchase transactions. The 2023 Repurchase Program may be discontinued at any time.

Item 6. [Reserved]

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations relates to the Corporation, a financial holding company registered under the BHCA and corporation incorporated under the laws of the Commonwealth of Pennsylvania, and its wholly owned subsidiaries. Management's Discussion should be read in conjunction with the consolidated financial statements and other financial information presented in this report.

OVERVIEW

The Corporation is a financial holding company, which, through its wholly owned banking subsidiary, provides a full range of retail and commercial financial services in Pennsylvania, Delaware, Maryland, New Jersey and Virginia.

The Corporation generates the majority of its revenue through net interest income, or the difference between interest earned on loans and investments and interest paid on deposits and borrowings. Growth in net interest income is dependent upon balance sheet growth and maintaining or increasing the net interest margin, which is FTE net interest income as a percentage of average interest-earning assets. The Corporation also generates revenue through fees earned on the various services and products offered to its customers and through gains on sales of assets, such as loans, investments and properties. Offsetting these revenue sources are provisions for credit losses on loans and OBS credit risks, non-interest expenses and income taxes.

The following table presents a summary of the Corporation's earnings and selected performance ratios:

	<u>2022</u>	<u>2021</u>	<u>2020</u>
	(dollars in thousands, except per share)		
Net income	\$ 286,981	\$ 275,497	\$ 178,040
Net income available to common shareholders	\$ 276,733	\$ 265,220	\$ 175,905
Diluted net income available to common shareholders per share.....	\$ 1.67	\$ 1.62	\$ 1.08
Diluted operating net income available to common shareholders per share ⁽¹⁾	\$ 1.76	\$ 1.62	\$ 1.08
Return on average assets	1.10 %	1.05 %	0.73 %
Operating return on average assets ⁽¹⁾	1.16 %	1.05 %	0.73 %
Return on average common equity	11.69 %	10.64 %	9.94 %

Non-performing assets to total assets.....	0.66 %	0.60 %	0.58 %
Net charge-offs (recoveries) to average loans.....	0.04 %	0.07 %	0.05 %

⁽¹⁾ Ratio represents a financial measure derived by methods other than GAAP. See reconciliation of this non-GAAP financial measure to the most directly comparable GAAP measure under the "Supplemental Reporting of Non-GAAP Based Financial Measures" section of Management's Discussion.

⁽²⁾ Presented on a FTE basis using a 21% Federal tax rate and statutory interest expense disallowances. See also the "Net Interest Income" section of Management's Discussion.

Federal Funds Rate

After maintaining the target range for the Fed Funds Rate at 0.00% to 0.25% from March 16, 2020, as COVID-19 weighed on global economic activity, through March 16, 2022, the FOMC increased the target range eight times to address elevated levels of inflation, placing the target range for the Fed Funds Rate at 4.50% - 4.75% as of February 1, 2023.

Business Combinations

On July 1, 2022, the Corporation completed the acquisition of Prudential Bancorp. Prudential Bancorp was merged with and into the Corporation, and Prudential Bancorp's wholly owned subsidiary, Prudential Bank, became a wholly owned subsidiary of the Corporation. The Corporation merged Prudential Bank with and into Fulton Bank on November 5, 2022. Results of the operations of the acquired entity are included in the Corporation's consolidated financial statements beginning on the acquisition date, July 1, 2022.

In accordance with the terms of the Merger Agreement, each share of Prudential Bancorp's common stock issued and outstanding immediately prior to the effective time of the Merger was converted into the right to receive the Merger

Consideration. In the aggregate, approximately 80% of the Merger Consideration consisted of the Corporation's common stock with the remaining approximately 20% payable in cash. The receipt of the Corporation's common stock in the Merger is expected to qualify as a tax-free exchange for Prudential Bancorp shareholders. The acquisition of Prudential Bancorp was accounted for as a business combination using the acquisition method of accounting, and accordingly, the assets acquired, the liabilities assumed, and consideration transferred were recorded at their estimated fair values as of the Merger. The \$16.3 million excess of the fair value of the Merger Consideration of \$119.1 million over the fair value of assets acquired of \$102.8 million was recorded as goodwill and is not amortizable or deductible for tax purposes.

COVID-19 Pandemic

The CARES Act was enacted in March 2020 and, among other provisions, authorized the SBA to guarantee loans under the PPP for small businesses that met eligibility requirements in order to keep their workers on the payroll and fund specified operating expenses. Subsequent legislation extended the authority of the SBA to guaranty loans under the PPP through August 8, 2020. In December 2020, the Economic Aid to Hard-Hit Small Businesses, Nonprofits, and Venues Act reauthorized the SBA to guarantee loans under the PPP through March 31, 2021, and the PPP Extension Act of 2021 extended that authorization through June 30, 2021 for applications received by the SBA prior to June 1, 2021. From the inception of the PPP through December 31, 2022, the Corporation funded a total of approximately \$2.7 billion of loans under the PPP.

Financial Highlights

Following is a summary of the financial highlights for the year ended December 31, 2022:

- Net Income Available to Common Shareholders and Net Income Per Share - Net income available to common shareholders was \$276.7 million for the year ended December 31, 2022, a \$11.5 million increase compared to \$265.2 million for the same period in 2021.

Diluted operating net income available to common shareholders, per share was \$1.76 for the year ended December 31, 2022, a \$0.14 increase compared to the same period in 2021.

- Net Interest Income - Net interest income was \$781.6 million for the year ended December 31, 2022, an increase of \$117.9 million, or 17.8%, compared to the same period in 2021. The increase was driven by higher interest rates and higher average loan balances.
 - Net Interest Margin - For the year ended December 31, 2022, net interest margin increased to 3.27%, or 49 bps compared to 2021, driven by a 54 bps increase in yield on net loans and a 8 bps increase in yield on investment securities, partially offset by a 10 bps increase on cost of funds.
 - Loan Growth - Average net loans grew by \$0.5 billion, or 2.8%, in comparison to 2021. Included in average net loans were PPP loans that had an average balance of \$0.1 billion, a decrease of \$1.0 billion from 2021. The increase in average net loans was largely driven by increases in average residential mortgage loans, average commercial mortgage loans, average commercial and industrial loans, excluding PPP loans, average consumer loans, and average real estate construction loans of \$760.5 million, \$374.1 million, \$194.6 million, \$112.9 million, and \$100.2 million, respectively, partially offset by a \$1.0 billion decline in PPP loans due to the repayment of these loans upon forgiveness by the SBA.
 - Deposit Decrease - Average deposits decreased \$269.4 million, or 1.2%, in comparison to 2021. The decrease was primarily due to decreases in average interest-bearing demand deposits and average time deposits of \$385.5 million and \$321.6 million, respectively, partially offset by increases in average noninterest-bearing demand deposits and average savings and money market deposits of \$311.2 million and \$151.2 million, respectively.
- Asset Quality - Non-performing assets increased \$23.8 million, or 15.4%, as of December 31, 2022 compared to 2021, and were 0.66% and 0.60% of total assets as of the end of those periods, respectively. For the years ended December 31, 2022 and 2021, net charge-offs to average loans outstanding were 0.04% and 0.07%, respectively. The provision for credit losses was \$28.0 million for the year ended December 31, 2022, compared to a negative provision of \$14.6 million for the same period of 2021. Included in the December 31, 2022 provision for credit losses was the CECL Day 1 Provision of \$8.0 million for the acquired Prudential Bancorp loan portfolio.

- *Non-Interest Income* - Non-interest income, excluding investment securities gains, for the year ended December 31, 2022 decreased \$13.1 million, or 5.4%, in comparison to 2021. The decrease in non-interest income, excluding investment securities gains, was primarily due to decreases of \$19.4 million in mortgage banking income and \$5.8 million in other income, primarily due to a decline in income from equity method investments, partially offset by increases of \$7.1 million in commercial banking income, \$4.0 million in consumer banking fees and \$1.0 million in wealth management revenues.
- *Non-Interest Expense* - Total non-interest expense, excluding merger-related expenses of \$10.3 million, increased \$5.6 million, or 0.9%, to \$623.4 million in 2022 compared to 2021. The increase was largely driven by increases in salaries and employee benefits expense of \$27.7 million, data processing and software expense of \$3.8 million, other outside services of \$3.0 million, net occupancy expense of \$2.4 million, and FDIC insurance expense of \$1.9 million, partially offset by a decrease in debt extinguishment expense of \$33.2 million.
- *Income Taxes* - Income tax expense for 2022 resulted in an ETR of 17.3%, in comparison to 17.6% for 2021. The ETR is generally lower than the federal statutory rate of 21% due to tax-exempt interest income earned on loans, investments in tax-free municipal securities and TCIs.

Supplemental Reporting of Non-GAAP Based Financial Measures

This Annual Report on Form 10-K contains supplemental financial information, as detailed below, which has been derived by methods other than GAAP. The Corporation has presented these non-GAAP financial measures because it believes that these measures provide useful and comparative information to assess trends in the Corporation's results of operations and financial condition. Presentation of these non-GAAP financial measures is consistent with how the Corporation evaluates its performance internally, and these non-GAAP financial measures are frequently used by securities analysts, investors and other interested parties in the evaluation of companies in the Corporation's industry. Management believes that these non-GAAP financial measures, in addition to GAAP measures, are also useful to investors to evaluate the Corporation's results. Investors should recognize that the Corporation's presentation of these non-GAAP financial measures might not be comparable to similarly-titled measures of other companies. These non-GAAP financial measures should not be considered a substitute for GAAP basis measures, and the Corporation strongly encourages a review of its consolidated financial statements in their entirety.

Following are reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measure as of and for the year ended December 31:

CRITICAL ACCOUNTING POLICIES

The following is a summary of those accounting policies that the Corporation considers to be most important to the presentation of its financial condition and results of operations, because they require management's most difficult judgments as a result of the need to make estimates about the effects of matters that are inherently uncertain. See additional information regarding these critical accounting policies in "Note 1 - Summary of Significant Accounting Policies," in the Notes to the Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data."

Allowance for Credit Losses - ACL is based on estimated losses over the remaining expected life of loans. Management's determination of the appropriateness of the reserve is based on periodic evaluations of the loan portfolio, lending-related commitments, current and forecasted economic factors and other relevant factors.

In determining the ACL, the Corporation uses three inputs in the model estimate. These inputs are PD, which estimates the likelihood that a borrower will be unable to meet its debt obligations; LGD, which estimates the share of an asset that is lost if a borrower defaults; and EAD, which estimates the gross exposure under a facility upon default. The PD models were developed based on historical default data. Both internal and external variables are evaluated in the process. The main internal variables are risk rating or delinquency history, and the external variables are economic variables obtained from third-party provided forecasts. Management applies risk-rating transition matrices to pools of loans and lending-related commitments with similar risk characteristics to determine default probabilities, utilizes economic forecasts, applies modeled LGD results to associated EAD and incorporates modeled overlays and qualitative adjustments to estimate ACL. As such, the calculation of the ACL is inherently subjective and requires management to exercise significant judgment.

The ACL is estimated over a reasonable and supportable forecast period based on the projected performance of specific economic variables that statistically correlate with PD rates. As economic variables revert to long-term averages through the forecast process, externally developed long-term economic forecasts are used to establish the impacts of the economic scenario, reversion, and long-term averages in the development of losses over the expected life of the assets being modeled. The ACL is highly sensitive to the economic forecasts used to develop the reserve. Due to the high level of uncertainty regarding significant assumptions, the Corporation has evaluated a range of economic scenarios, including more and less severe economic deteriorations.

The ACL includes qualitative adjustments, as appropriate, intended to capture the impact of uncertainties not reflected in the quantitative models. Qualitative adjustments include and consider changes in national, regional and local economic and business conditions, an assessment of the lending environment, including underwriting standards and other factors affecting credit quality.

The ACL for loans was \$269.4 million and \$249.0 million on December 31, 2022 and December 31, 2021, respectively. The increase of \$20.4 million was primarily a result of increased loan growth and changes to the macroeconomic outlook.

The Corporation performs loan loss sensitivity analysis on a quarterly basis to determine the impact of varying economic conditions based on Moody's model projections. Our sensitivity analysis does not represent management's view of expected credit losses at the balance sheet date. One scenario identified includes a slowdown in near-term economic growth. This scenario resulted in a hypothetical increase to the ACL of approximately \$18.7 million.

For further discussion of the methodology used in the determination of the ACL, refer to Note 1, "Summary of Significant Accounting Policies" in the Notes to the Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data."

Income Taxes – Income tax expense is based upon income before taxes, adjusted for the effect of certain tax-exempt income, non-deductible expenses and credits. In addition, certain items of income and expense are reported in different periods for financial reporting and tax return purposes. The tax effects of these temporary differences are recognized currently in the deferred income tax provision or benefit. DTAs or deferred tax liabilities are computed based on the difference between the financial statement and income tax bases of assets and liabilities using the applicable enacted marginal tax rate.

The Corporation must also evaluate the likelihood that DTAs will be recovered through future taxable income. If any such assets are determined to be more likely than not unrecoverable, then a valuation allowance must be recognized. The assessment of the carrying value of DTAs is based on certain assumptions, the changes of which could have a material impact on the Corporation's consolidated financial statements.

On a periodic basis, the Corporation evaluates its income tax expense based on tax laws, regulations and financial reporting considerations and records adjustments as appropriate. Recognition and measurement of tax positions is based upon management's evaluations of current taxing authorities' examinations of the Corporation's tax returns, recent positions taken by the taxing authorities on similar transactions and the overall tax environment.

Income tax expense was \$60.0 million and \$58.7 million for the years ended December 31, 2022 and December 31, 2021, respectively.

Recently Issued Accounting Standards

For a description of accounting standards recently issued, but not yet adopted by the Corporation, see "Recently Issued Accounting Standards," in "Note 1 - Summary of Significant Accounting Policies" in the Notes to Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data."

RESULTS OF OPERATIONS

Net Interest Income

Net interest income is the most significant component of the Corporation's net income. The Corporation manages the risk associated with changes in interest rates through the techniques described within Item 7A, "Quantitative and Qualitative Disclosures About Market Risk." The following table provides a comparative average balance sheet and net interest income analysis for 2022 compared to 2021 and 2020. Interest income and yields are presented on an FTE basis using a 21% federal tax rate as well as statutory interest expense disallowances. The discussion following this table is based on these tax-equivalent amounts.

	2022			2021			2020		
	Average Balance	Interest	Yield/Rate	Average Balance	Interest	Yield/Rate	Average Balance	Interest	Yield/Rate
(dollars in thousands)									
ASSETS									
Interest-earning assets:									
Net loans ⁽¹⁾	\$19,152,740	\$ 765,603	4.00 %	\$18,627,787	\$ 644,387	3.46 %	\$18,270,390	\$ 662,785	3.63 %

Net interest income/net interest margin (FTE)		796,629	3.27 %		676,026	2.78 %		641,509	2.86 %
Tax equivalent adjustment		(14,995)			(12,296)			(12,302)	
Net interest income		\$ 781,634			\$ 663,730			\$ 629,207	

⁽¹⁾ Average balances include non-performing loans.

⁽²⁾ Average balances include amortized historical cost for AFS securities; the related unrealized holding gains (losses) are included in other assets.

⁽³⁾ ACL - loans relates to the ACL specifically for net loans and does not include the reserve for OBS credit exposures, which is included in other liabilities.

Comparison of 2022 to 2021

The following table summarizes the changes in FTE interest income and interest expense resulting from changes in average balances (volumes) and changes in yields and rates:

	2022 vs. 2021		
	Increase (decrease) due to change in		
	Volume	Yield/Rate	Net
(dollars in thousands)			
Interest income on:			
Net loans ⁽¹⁾	\$ 18,540	\$ 102,676	\$ 121,216
Investment securities	16,759	3,031	19,790
Loans held for sale	(1,076)	640	(436)
Other interest-earning assets	(3,288)	6,843	3,555
<i>Total interest income</i>	<u>\$ 30,935</u>	<u>\$ 113,190</u>	<u>\$ 144,125</u>
Interest expense on:			
Demand deposits	\$ (256)	\$ 4,813	\$ 4,557
Savings and money market deposits	123	11,583	11,706
Brokered deposits	(101)	3,102	3,001
Time deposits	(3,115)	(2,325)	(5,440)
Borrowings	1,463	8,235	9,698
<i>Total interest expense</i>	<u>\$ (1,886)</u>	<u>\$ 25,408</u>	<u>\$ 23,522</u>

⁽¹⁾ Average balance includes non-performing loans.

Note: Changes which are partially attributable to both volume and rate are allocated to the volume and rate components presented above based on the percentage of the direct changes that are attributable to each component.

Compared to 2021, FTE total interest income for 2022 increased \$144.1 million, or 19.6%, primarily due to an increase of \$113.2 million attributable to changes in yield, of which \$102.7 million related to net loans. The yield on average interest-earning assets increased 59 bps in 2022 compared to 2021.

In 2022, interest expense increased \$23.5 million compared to 2021, primarily driven by increases in rate on interest-bearing liabilities resulting in a \$25.4 million increase in interest expense. The increase in interest expense attributable to rate was primarily driven by the increases in savings and money market deposits, borrowings, demand deposits and brokered deposits.

Average loans and average FTE yields, by type, are summarized in the following table:

	2022		2021		Increase (Decrease) in Balance	
	Balance	Yield	Balance	Yield	\$	%
	(dollars in thousands)					
Real estate – commercial mortgage	\$ 7,523,806	4.00 %	\$ 7,149,712	3.14 %	\$ 374,094	5.2 %
Commercial and industrial ⁽¹⁾	4,230,133	4.13	5,052,856	2.64	(822,723)	(16.3)
Real estate – residential mortgage	4,261,527	3.38	3,501,072	3.40	760,455	21.7
Real estate – home equity	1,101,142	4.60	1,141,042	3.85	(39,900)	(3.5)
Real estate – construction	1,178,550	4.14	1,078,350	3.08	100,200	9.3
Consumer	569,305	5.11	456,427	3.99	112,878	24.7
Equipment lease financing	249,595	3.99	252,104	3.89	(2,509)	(1.0)
Other ⁽²⁾	38,682	—	(3,776)	—	42,458	N/M
<i>Total loans</i>	<u>\$ 19,152,740</u>	<u>4.00 %</u>	<u>\$ 18,627,787</u>	<u>3.46 %</u>	<u>\$ 524,953</u>	<u>2.8 %</u>

⁽¹⁾ Includes average PPP loans of \$0.1 billion and \$1.1 billion for the years ended December 31, 2022 and 2021, respectively.

⁽²⁾ Consists of overdrafts and net origination fees and costs.

Average loans increased \$525.0 million, or 2.8%, compared to 2021. The increase was largely driven by increases in average residential mortgage loans, average commercial mortgage loans, average consumer loans and average construction loans of

\$760.5 million, \$374.1 million, \$112.9 million and \$100.2 million, respectively, partially offset by decreases in average commercial and industrial loans of \$822.7 million primarily due to the repayment of PPP loans upon forgiveness by the SBA.

Average investment securities increased \$691.4 million, or 18.8%, in comparison to 2021, which contributed a \$16.8 million increase in FTE interest income. The yield on investment securities increased 8 bps in comparison to 2021, resulting in a \$3.0 million increase in FTE interest income.

Yield on other interest-earning assets increased 71 bps in comparison to 2021, contributing \$6.8 million to FTE interest income, partially offset by a decrease in the average balance of other interest-earning assets of \$1.2 billion, contributing a \$3.3 million decrease to FTE interest income.

Average deposits and interest rates, by type, are summarized in the following table:

	2022		2021		Increase (Decrease) in Balance	
	Balance	Rate	Balance	Rate	\$	%
(dollars in thousands)						
Noninterest-bearing demand	\$ 7,522,304	— %	\$ 7,211,153	— %	\$ 311,151	4.3 %
Interest-bearing demand	5,593,942	0.15	5,979,479	0.06	(385,537)	(6.4)
Savings and money market deposits.....	6,458,165	0.26	6,306,967	0.08	151,198	2.4
<i>Total demand deposits and savings and money market deposits</i>	19,574,411	0.13	19,497,599	0.04	76,812	0.4
Brokered deposits	262,359	1.56	286,901	0.38	(24,542)	(8.6)
Time deposits.....	1,617,804	0.92	1,939,446	1.05	(321,642)	(16.6)
<i>Total deposits</i>	\$ 21,454,574	0.20 %	\$21,723,946	0.14 %	\$ (269,372)	(1.2)%

The cost of interest-bearing deposits increased 10 bps, to 0.31%, from 0.21% in 2021, due to an increase in rates. The rate on total demand deposits and savings and money market deposits increased to 0.13%, compared to 0.04% for 2021. Average interest-bearing demand deposits and average time deposits decreased \$385.5 million and \$321.6 million, respectively, during 2022. Average noninterest-bearing demand deposits and average savings and money market deposits increased \$311.2 million and \$151.2 million, respectively, during 2022 compared to 2021.

Average borrowings and interest rates, by type, are summarized in the following table:

	2022		2021		Increase (Decrease) in Balance	
	Balance	Rate	Balance	Rate	\$	%
(dollars in thousands)						
Borrowings:						
Federal funds purchased.....	\$ 91,125	3.21 %	\$ —	— %	\$ 91,125	N/M
Federal Home Loan Bank advances	194,295	3.77	126,677	1.80	67,618	53.4 %
Senior debt and subordinated debt	564,337	3.94	657,386	4.07	(93,049)	(14.2)
Other borrowings ⁽¹⁾	508,600	1.34	513,900	0.12	(5,300)	(1.0)
<i>Total borrowings.....</i>	\$ 1,358,357	2.89 %	\$ 1,297,963	2.29 %	\$ 60,394	4.7 %

⁽¹⁾ Includes repurchase agreements, short-term promissory notes and capital leases.

Total average borrowings increased \$60.4 million, or 4.7%, and the total borrowings rate increased 60 bps, to 2.89%, compared to 2021. Borrowings increased primarily as a result of the decrease in deposits. Short-term Federal funds purchased and Federal Home Loan Bank advances increased \$91.1 million and \$67.6 million, respectively. Senior debt and subordinated debt decreased \$93.0 million primarily due to the \$65.0 million repayment of senior notes on March 16, 2022 and the redemption of \$17.0 million of TruPS in September 2022. See Note 10 "Borrowings" of the Notes to Consolidated Financial Statements for additional details.

Non-Interest Income and Expense

Non-Interest Income

The following table presents the components of non-interest income:

	2022	2021	Increase (Decrease)	
			\$	%
(dollars in thousands)				
Commercial banking:				
Merchant and card.....	\$ 28,276	\$ 26,121	\$ 2,155	8.3 %
Cash management	23,729	20,865	2,864	13.7
Capital markets	12,256	9,381	2,875	30.6
Other commercial banking.....	11,518	12,322	(804)	(6.5)
<i>Total commercial banking</i>	75,779	68,689	7,090	10.3
Consumer banking:				
Card.....	24,472	23,505	967	4.1
Overdraft.....	15,480	12,844	2,636	20.5
Other consumer banking	9,544	9,195	349	3.8
<i>Total consumer banking</i>	49,496	45,544	3,952	8.7
Wealth management revenues.....	72,843	71,798	1,045	1.5
Mortgage banking:				
Gains on sales of mortgage loans.....	8,820	24,380	(15,560)	(63.8)
Mortgage servicing income.....	5,384	9,196	(3,812)	(41.5)
<i>Total mortgage banking</i>	14,204	33,576	(19,372)	(57.7)
Other	14,835	20,622	(5,787)	(28.1)
<i>Non-interest income before investment securities gains</i>	227,157	240,229	(13,072)	(5.4)
Investment securities gains (losses), net.....	(27)	33,516	(33,543)	(100.1)
<i>Total Non-Interest Income</i>	\$ 227,130	\$ 273,745	\$ (46,615)	(17.0)%

Excluding net investment securities gains, non-interest income decreased \$13.1 million, or 5.4%, in 2022, as compared to 2021. The primary contributors to this net decrease were as follows:

- Mortgage banking income decreased \$19.4 million, or 57.7%, compared to 2021, mainly due to reduced gains on sales of mortgage loans.
- Other non-interest income decreased \$5.8 million, or 28.1%, compared to 2021, primarily due to a decline in income from equity method investments.
- Total commercial banking income increased \$7.1 million, or 10.3%, compared to 2021, driven mainly by increases in commercial customer swap fees reflected in capital markets, cash management fees and merchant and card revenues.
- Total consumer banking income increased \$4.0 million, or 8.7%, compared to 2021, driven primarily by increases in overdraft fees and card income.
- Investment securities gains decreased \$33.5 million, primarily due to the sale of Visa Shares, as part of the balance sheet restructuring undertaken in 2021.

Non-Interest Expense

The following table presents the components of non-interest expense:

	2022	2021	Increase (Decrease)	
			\$	%
			(dollars in thousands)	
Salaries and employee benefits	\$ 356,884	\$ 329,138	\$ 27,746	8.4 %
Data processing and software.....	60,255	56,440	3,815	6.8
Net occupancy	56,195	53,799	2,396	4.5
Other outside services	37,152	34,194	2,958	8.7
State taxes.....	15,113	18,793	(3,680)	(19.6)
Equipment	14,033	13,807	226	1.6
FDIC insurance	12,547	10,665	1,882	17.6
Professional fees.....	9,123	9,647	(524)	(5.4)
Marketing	6,885	5,275	1,610	30.5
Intangible amortization	1,731	589	1,142	N/M
Debt extinguishment	—	33,249	(33,249)	N/M
Merger-related expenses	10,328	—	10,328	N/M
Other.....	53,482	52,234	1,248	2.4
<i>Total Non-Interest Expense.....</i>	\$ 633,728	\$ 617,830	\$ 15,898	2.6 %

Non-interest expense increased \$15.9 million, or 2.6% compared to 2021. Non-interest expense, excluding merger-related expenses of \$10.3 million, was \$623.4 million, an increase of \$5.6 million, or 0.9% compared to non-interest expenses of \$617.8 million in 2021. Excluding merger-related expenses, the increase in non-interest expense compared to 2021 was primarily due to increases in salaries and benefits of \$27.7 million, attributable to higher employee base salaries of \$20.2 million and deferred loan origination expense of \$14.3 million, partially offset by lower commissions expense of \$8.8 million. Increases in data processing and software expenses, other outside services and net occupancy expense in 2022 of \$3.8 million, \$3.0 million and \$2.4 million, respectively, also contributed to the increase in non-interest expenses compared to 2021. These increases were partially offset by a decrease of \$33.2 million in debt extinguishment expense in 2021.

Income Taxes

Income tax expense for 2022 was \$60.0 million, a \$1.3 million increase compared to 2021. The ETR was 17.3% in 2022 compared to 17.6% in 2021. The increase in income tax expense resulted primarily from higher income before income taxes. The ETR is generally lower than the federal statutory rate of 21% due to tax-exempt interest income earned on loans, investments in tax-free municipal securities and TCIs that generate tax credits under various federal programs.

Comparison of 2021 to 2020

The following table summarizes the changes in FTE interest income and interest expense resulting from changes in average balances (volumes) and changes in yields and rates:

	2021 vs. 2020		
	Increase (decrease) due to change in		
	Volume	Yield/ Rate	Net
	(dollars in thousands)		
Interest income on:			
Net loans ⁽¹⁾	\$ 12,882	\$ (31,280)	\$ (18,398)
Investment securities	19,055	(17,544)	1,511
Loans held for sale.....	(694)	(81)	(775)
Other interest-earning assets.....	2,866	(4,676)	(1,810)
<i>Total interest income</i>	<u>\$ 34,109</u>	<u>\$ (53,581)</u>	<u>\$ (19,472)</u>
Interest expense on:			
Demand deposits.....	\$ 1,414	\$ (9,142)	\$ (7,728)
Savings and money market deposits.....	1,689	(11,407)	(9,718)
Brokered deposits	(170)	(1,121)	(1,291)
Time deposits.....	(8,545)	(12,759)	(21,304)
Borrowings	(17,763)	3,815	(13,948)
<i>Total interest expense</i>	<u>\$ (23,375)</u>	<u>\$ (30,614)</u>	<u>\$ (53,989)</u>

⁽¹⁾ Average balance includes non-performing loans.

Note: Changes which are partially attributable to both volume and rate are allocated to the volume and rate components presented above based on the percentage of the direct changes that are attributable to each component.

FTE net interest income increased \$34.5 million, or 5.4%, to \$676.0 million in 2021. Net interest margin decreased 8 bps to 2.78% in 2021 from 2.86% in 2020. As summarized above, FTE interest income decreased \$53.6 million as the result of a 34 bps decrease in the yield on interest-earning assets, and increased \$34.1 million as the result of a \$1.9 billion, or 8.4%, increase in average interest-earning assets, primarily in investments and loans. The yield on the loan portfolio decreased 17 bps, to 3.46%, largely due to decreases in the Fed Funds Rate in 2020 and corresponding decreases to loan index rates. At that time all variable and certain adjustable rate loans repriced to lower rates as a result of these interest rate decreases, and yields on new loan originations were lower than the yield on the loan portfolio. Adjustable rate loans reprice on dates specified in the loan agreements, which may be later than the date the Fed Funds Rate and related loan index rates increase or decrease. Therefore, the benefit of increases or the reverse effect of decreases in index rates on adjustable rate loans may not be fully realized until future periods.

Interest expense decreased \$54.0 million, with a 34 bps decrease in the rate on average interest-bearing liabilities contributing \$30.6 million to this decrease. In addition, a shift into lower-cost demand deposits and savings and money market deposits, which increased \$1.5 billion collectively, combined with a decrease in higher-cost time deposits, short-term borrowings and long-term borrowings of \$1.4 billion, were the primary drivers for the \$23.4 million reduction in interest expense in 2021 compared to 2020.

Average loans and average FTE yields, by type, are summarized in the following table:

	2021		2020		Increase (Decrease) in Balance	
	Balance	Yield	Balance	Yield	\$	%
	(dollars in thousands)					
Real estate - commercial mortgage	\$ 7,149,712	3.14 %	\$ 6,928,269	3.53 %	\$ 221,443	3.2 %
Commercial and industrial ⁽¹⁾	5,052,856	2.64	5,501,317	3.10	(448,461)	(8.2)
Real estate - residential mortgage.....	3,501,072	3.40	2,876,538	3.80	624,534	21.7
Real estate - home equity.....	1,141,042	3.85	1,255,094	4.11	(114,052)	(9.1)
Real estate - construction.....	1,078,350	3.08	965,534	3.64	112,816	11.7
Consumer.....	456,427	3.99	466,419	4.16	(9,992)	(2.1)
Equipment lease financing.....	252,104	3.89	281,859	3.93	(29,755)	(10.6)
Other ⁽²⁾	(3,776)	—	(4,640)	—	864	(18.6)
<i>Total loans</i>	<u>\$18,627,787</u>	<u>3.46 %</u>	<u>\$18,270,390</u>	<u>3.63 %</u>	<u>\$ 357,397</u>	<u>2.0%</u>

⁽¹⁾ Includes average PPP loans of \$1.1 billion and \$1.3 billion for the years ended December 31, 2021 and 2020, respectively.

⁽²⁾ Consists of overdrafts and net origination fees and costs.

Average loans increased \$357.4 million, or 2.0%, which contributed \$12.9 million to the increase in FTE interest income. The increase was driven largely by growth in residential mortgage loans and commercial mortgage loans, partially offset by a decrease in commercial and industrial loans, primarily due to a decrease in PPP loans. The yield on average loans decreased 17 bps resulting in a decrease in FTE interest income of \$31.2 million.

Average investment securities increased \$665.8 million, or 22.1%, in comparison to 2020, which contributed a \$19.1 million increase in FTE interest income, offset by a decrease of 47 bps in yield on average investment securities, resulting in a \$17.5 million decrease in FTE interest income. Average other interest-earning assets increased \$894.2 million, contributing \$2.9 million to FTE interest income. The yield on other interest-earning assets decreased 31 bps in comparison to 2020, as a result of the Fed Funds Rate decrease during 2020, resulting in a \$4.7 million decrease in FTE interest income.

Average deposits and interest rates, by type, are summarized in the following table:

	2021		2020		Increase (Decrease) in Balance	
	Balance	Rate	Balance	Rate	\$	%
	(dollars in thousands)					
Noninterest-bearing demand.....	\$ 7,211,153	— %	\$ 5,714,803	— %	\$1,496,350	26.2 %
Interest-bearing demand	5,979,479	0.06	5,278,941	0.22	700,538	13.3
Savings and money market deposits.....	6,306,967	0.08	5,550,234	0.26	756,733	13.6
<i>Total demand and savings and money market deposits</i>	<u>19,497,599</u>	<u>0.04</u>	<u>16,543,978</u>	<u>0.16</u>	<u>2,953,621</u>	<u>17.9</u>
Brokered deposits	286,901	0.38	310,763	0.77	(23,862)	(7.7)
Time deposits	1,939,446	1.05	2,546,305	1.63	(606,859)	(23.8)
<i>Total deposits</i>	<u>\$21,723,946</u>	<u>0.14 %</u>	<u>\$19,401,046</u>	<u>0.36 %</u>	<u>\$2,322,900</u>	<u>12.0 %</u>

The cost of interest-bearing deposits decreased 30 bps to 0.21% from 0.51% in 2020, resulting in a \$34.4 million decrease in interest expense compared to 2020. These rates do not include the impact of non-interest bearing deposits, which lowered cost of total deposits to 0.14% and 0.36% in 2021 and 2020, respectively. The decrease in deposit cost was primarily the result of reductions in deposit rates resulting from decreases in the Fed Funds Rate. The majority of the deposit rates are discretionary, with the exception of indexed municipal deposit balances. The average balance of interest-bearing deposits increased \$826.6 million, or 6.0%, in comparison to 2020.

Average borrowings and interest rates, by type, are summarized in the following table:

	2021		2020		Increase (Decrease) in Balance	
	Balance	Rate	Balance	Rate	\$	%
	(dollars in thousands)					
Borrowings:						
Federal funds purchased.....	\$ —	— %	\$ 64,918	0.83 %	\$ (64,918)	N/M
Federal Home Loan Bank advances.....	126,677	1.80	557,596	1.83	(430,919)	(77.3)
Senior debt and subordinated debt	657,386	4.07	696,704	4.02	(39,318)	(5.6)
Other borrowings ⁽¹⁾	513,900	0.12	745,665	0.36	(231,765)	(31.1)
<i>Total borrowings</i>	<u>\$ 1,297,963</u>	<u>2.29 %</u>	<u>\$ 2,064,883</u>	<u>2.11 %</u>	<u>\$ (766,920)</u>	<u>(37.1)%</u>

⁽¹⁾ Includes repurchase agreements, short-term promissory notes and capital leases.

Total average borrowings in 2021 decreased \$766.9 million, or 37.1%, due to a balance sheet restructuring, while the total borrowings rate increased 18 bps to 2.29% compared to 2020. Average Federal Home Loan Bank advances decreased \$430.9 million, or 77.3%, and average other borrowings decreased \$231.8 million or 31.1% compared to 2020.

Non-Interest Income

The following table presents the components of non-interest income:

	2021		2020		Increase (Decrease)	
					\$	%
	(dollars in thousands)					
Commercial banking:						
Merchant and card.....	\$ 26,121	\$ 23,139	\$ 2,982	12.9 %		
Cash management.....	20,865	18,725	2,140	11.4		
Capital markets.....	9,381	18,288	(8,907)	(48.7)		
Other commercial banking.....	12,322	10,134	2,188	21.6		
<i>Total commercial banking</i>	<u>68,689</u>	<u>70,286</u>	<u>(1,597)</u>	<u>(2.3)</u>		
Consumer banking:						
Card.....	23,505	19,777	3,728	18.9		
Overdraft.....	12,844	12,556	288	2.3		
Other consumer banking.....	9,195	9,265	(70)	(0.8)		
<i>Total consumer banking</i>	<u>45,544</u>	<u>41,598</u>	<u>3,946</u>	<u>9.5</u>		
Wealth management revenues.....	71,798	59,058	12,740	21.6		
Mortgage banking:						
Gains on sales of mortgage loans.....	24,380	53,599	(29,219)	(54.5)		
Mortgage servicing income.....	9,196	(11,290)	20,486	N/M		
<i>Total mortgage banking</i>	<u>33,576</u>	<u>42,309</u>	<u>(8,733)</u>	<u>(20.6)</u>		
Other.....	20,622	13,084	7,538	57.6		
<i>Non-interest income before investment securities gains</i> ...	<u>240,229</u>	<u>226,335</u>	<u>13,894</u>	<u>6.1</u>		
Investment securities gains (losses), net.....	33,516	3,053	30,463	N/M		
<i>Total Non-Interest Income</i>	<u>\$ 273,745</u>	<u>\$ 229,388</u>	<u>\$ 44,357</u>	<u>19.3 %</u>		

Excluding net investment securities gains, non-interest income increased \$13.9 million, or 6.1%, in 2021 compared to 2020.

Total commercial banking income in 2021 decreased \$1.6 million, or 2.3%, compared to 2020, driven mainly by a decrease in commercial customer swap fees reflected in capital markets.

Total consumer banking increased \$3.9 million, or 9.5%, compared to 2020, driven primarily by higher card fee income.

Wealth management revenues increased \$12.7 million, or 21.6%, resulting primarily from an increase in client asset levels and improved overall market performance.

Mortgage banking income decreased \$8.7 million, or 20.6%, mainly due to reduced gains on sales of mortgage loans, partially offset by an increase in mortgage servicing income.

Investment securities gains increased \$30.5 million, primarily due to the sale of Visa Shares as part of the balance sheet restructuring undertaken in 2021.

Non-Interest Expense

The following table presents the components of non-interest expense:

	2021	2020	Increase (Decrease)	
			\$	%
			(dollars in thousands)	
Salaries and employee benefits.....	\$ 329,138	\$ 324,395	\$ 4,743	1.5 %
Data processing and software.....	56,440	48,073	8,367	17.4
Net occupancy.....	53,799	53,013	786	1.5
Other outside services.....	34,194	31,432	2,762	8.8
Debt extinguishment.....	33,249	2,878	30,371	N/M
State taxes.....	18,793	12,613	6,180	49.0
Equipment.....	13,807	13,885	(78)	(0.6)
FDIC insurance.....	10,665	8,865	1,800	20.3
Professional fees.....	9,647	12,835	(3,188)	(24.8)
Marketing.....	5,275	5,127	148	2.9
Intangible amortization.....	589	529	60	11.3
Other.....	52,234	65,795	(13,561)	(20.6)
<i>Total non-interest expense.....</i>	<u>\$ 617,830</u>	<u>\$ 579,440</u>	<u>\$ 38,390</u>	<u>6.6 %</u>

Non-interest expense increased \$38.4 million, or 6.6% in 2021. Non-interest expense, excluding debt extinguishment costs of \$33.2 million, was \$584.6 million, an increase of \$21.3 million, or 3.8%, compared to non-interest expenses of \$563.2 million in 2020, which excludes expenses associated with cost savings initiatives of \$16.2 million. Excluding the net decrease in severance costs of \$5.9 million, the increase in non-interest expense over 2020 was primarily due to increases in salaries and benefits of \$10.6 million, attributable to a \$12.7 million increase in incentive compensation and bonuses. Also contributing to the increase in non-interest expense in 2021 were \$8.4 million in data processing and software and \$2.8 million in other outside services expense, partially offset by a \$3.2 million decrease in professional fees.

Income Taxes

Income tax expense for 2021 was \$58.7 million, a \$34.6 million increase compared to 2020. The ETR was 17.6% in 2021, as compared to 12.0% in 2020. The increase in income tax expense and the ETR resulted primarily from higher income before income taxes. The ETR is generally lower than the federal statutory rate of 21% due to tax-exempt interest income earned on loans, investments in tax-free municipal securities and TCIs that generate tax credits under various federal programs.

FINANCIAL CONDITION

The table below presents condensed consolidated ending balance sheets.

	December 31		Increase (Decrease)	
	2022	2021	\$	%
(dollars in thousands)

<i>Total Liabilities</i>	24,351,945	23,083,718	1,268,227	5.5
<i>Total Shareholders' Equity</i>	2,579,757	2,712,680	(132,923)	(4.9)
<i>Total Liabilities and Shareholders' Equity</i>	\$ 26,931,702	\$ 25,796,398	\$ 1,135,304	4.4 %

Investment Securities

The following table presents the carrying amount of investment securities as of December 31:

	2022	2021
(dollars in thousands)		
Available for Sale		
U.S. Government securities	\$ 218,485	\$ 127,618
U.S. Government sponsored agency securities.....	1,008	—
State and municipal securities.....	1,105,712	1,188,670
Corporate debt securities.....	422,309	386,133
Collateralized mortgage obligations	134,033	209,359
Residential mortgage-backed securities.....	212,698	229,795
Commercial mortgage-backed securities	552,522	971,148
Auction rate securities.....	—	74,667
<i>Total available for sale securities</i>	2,646,767	3,187,390
Held to Maturity		
Residential mortgage-backed securities.....	457,325	404,958
Commercial mortgage-backed securities	863,931	575,426
<i>Total held to maturity securities</i>	1,321,256	980,384
<i>Total investment securities</i>	\$ 3,968,023	\$ 4,167,774

Total AFS securities decreased \$540.6 million, or 17.0%, to \$2,646.8 million at December 31, 2022, primarily due to decreases in commercial mortgage backed securities, state and municipal securities, collateralized mortgage obligations and auction rate

securities of \$418.6 million, \$83.0 million, \$75.3 million and \$74.7 million, respectively, partially offset by an increase in U.S. Government securities of \$90.9 million.

Total HTM securities increased \$340.9 million, or 34.8%, due to increases in commercial mortgage-backed securities and residential mortgage-backed securities of \$288.5 million and \$52.4 million, respectively.

Loans

The following table presents ending loans outstanding, by type, as of the dates shown, and the changes in balances for the most recent year:

	December 31		
	2022	2021	2020
	(dollars in thousands)		
Real estate – commercial mortgage.....	\$ 7,693,835	\$ 7,279,080	\$ 7,105,092
Commercial and industrial ⁽¹⁾	4,477,537	4,208,327	5,670,828
Real estate – residential mortgage.....	4,737,279	3,846,750	3,141,915
Real estate – home equity.....	1,102,838	1,118,248	1,202,913
Real estate – construction.....	1,269,925	1,139,779	1,047,218
Consumer.....	699,179	464,657	466,772
Equipment lease financing and other.....	324,928	283,557	284,377
Overdrafts.....	3,403	1,988	4,806
<i>Gross loans</i>	<u>20,308,924</u>	<u>18,342,386</u>	<u>18,923,921</u>
Unearned income.....	(29,377)	(17,036)	(23,101)
<i>Net loans</i>	<u>\$20,279,547</u>	<u>\$18,325,350</u>	<u>\$18,900,820</u>

⁽¹⁾ Includes PPP loans totaling \$20.4 million, \$301.3 million and \$1,581.7 million as of December 31, 2022, 2021 and 2020, respectively.

Net loans increased \$1,954.2 million, or 10.7%, as of December 31, 2022 compared to December 31, 2021, primarily due to increases in residential mortgage loans, commercial mortgage loans, commercial and industrial loans and consumer loans of \$890.5 million, \$414.8 million, \$269.2 million and \$234.5 million, respectively.

The Corporation does not have a significant concentration of credit risk with any single borrower, industry or geographic location within its footprint. As of December 31, 2022, approximately \$9.0 billion, or 44.1%, of the loan portfolio was comprised of commercial mortgage loans and construction loans. The Corporation's policies limit the maximum total lending commitment to an individual borrower to \$100.0 million as of December 31, 2022. In addition, the Corporation has established lower total lending limits for certain types of lending commitments and lower total lending limits based on the Corporation's internal risk rating of an individual borrower at the time the lending commitment is approved.

The following table summarizes the industry concentrations within the commercial mortgage and the commercial and industrial loan portfolios (excluding PPP loans) as of December 31:

	2022	2021
Real estate ⁽¹⁾	43.9 %	44.3 %
Manufacturing.....	6.8	5.1
Health care	6.5	6.7
Agriculture	5.4	6.1
Construction ⁽²⁾	4.7	3.9
Other services ⁽³⁾	4.7	5.0
Hospitality and food services.....	3.6	3.7
Retail.....	3.1	3.0
Wholesale trade.....	3.1	2.8
Educational services.....	2.8	2.7
Arts, entertainment and recreation.....	2.0	2.3

Transfers to accrual status.....	(980)	(5,538)	—	(9,620)	(1,416)	—	(17,554)
Balance of non-accrual loans at December 31, 2022.....	\$ 27,116	\$ 70,161	\$ 1,368	\$ 26,294	\$ 6,197	\$ 13,307	\$ 144,443

Non-accrual loans increased \$0.8 million, or 0.5%, in 2022. Non-accrual loans as a percentage of net loans decreased to 0.71% at December 31, 2022, compared to 0.78% at December 31, 2021.

The following table presents non-performing assets as of the dates shown:

	December 31,		
	2022	2021	2020
	(dollars in thousands)		
Non-accrual loans ⁽¹⁾⁽²⁾⁽³⁾	\$ 144,443	\$ 143,666	\$ 137,198
Loans 90 days or more past due and still accruing ⁽²⁾	27,463	8,453	9,929
Total non-performing loans and leases	171,906	152,119	147,127
OREO ⁽⁴⁾	5,790	1,817	4,178
Total non-performing assets.....	<u>\$ 177,696</u>	<u>\$ 153,936</u>	<u>\$ 151,305</u>

⁽¹⁾ The amount of interest income on non-accrual loans that was recognized in 2022 was approximately \$2.2 million.

⁽²⁾ Accrual of interest is generally discontinued when a loan becomes 90 days past due. In certain cases a loan may be placed on non-accrual status prior to being 90 days delinquent if there is an indication that the borrower is having difficulty making payments or the Corporation believes it is probable that all amounts will not be collected according to the contractual terms of the agreement. When interest accruals are discontinued, unpaid interest previously credited to income is reversed. Non-accrual loans may be restored to accrual status when all delinquent principal and interest has been paid currently for six consecutive months or the loan is considered to be adequately secured and in the process of collection. Certain loans, primarily adequately collateralized residential mortgage loans, may continue to accrue interest after reaching 90 days past due.

⁽³⁾ Excluded from non-performing assets as of December 31, 2022, were \$29.6 million of loans modified under TDRs. These loans continue to accrue interest and are, therefore, not included in non-accrual loans.

⁽⁴⁾ Excludes \$6.0 million of residential mortgage properties for which formal foreclosure proceedings were in process as of December 31, 2022.

The following table presents non-performing loans, by type, as of the dates shown:

	December 31,		
	2022	2021	2020
	(dollars in thousands)		
Real estate – commercial mortgage.....	\$ 72,634	\$ 54,044	\$ 52,647
Commercial and industrial	28,288	30,629	32,609
Real estate – residential mortgage.....	46,509	39,399	30,794
Real estate – home equity.....	8,809	10,924	1,550
Real estate – construction.....	1,368	901	12,341
Consumer.....	991	582	749
Equipment lease financing	13,307	15,640	16,437
Total non-performing loans.....	<u>\$ 171,906</u>	<u>\$ 152,119</u>	<u>\$ 147,127</u>
Non-performing loans to total loans.....	0.85 %	0.83 %	0.78 %

The following table presents TDRs as of the dates shown:

	December 31,		
	2022	2021	2020
	(dollars in thousands)		
Real estate – commercial mortgage.....	\$ 3,255	\$ 3,464	\$ 28,451
Commercial and industrial	1,809	1,857	6,982
Real estate – residential mortgage.....	13,804	11,948	18,602
Real estate – home equity.....	10,717	12,218	14,391
Consumer	—	5	—
Total accruing TDRs.....	29,585	29,492	68,426
Non-accrual TDRs ⁽¹⁾	31,853	55,945	35,755
Total TDRs.....	<u>\$ 61,438</u>	<u>\$ 85,437</u>	<u>\$ 104,181</u>

⁽¹⁾ Included within non-accrual loans in the preceding table.

The decrease in TDRs in 2022 compared to 2021 was primarily due to a decrease in non-accrual TDRs.

The decrease in TDRs in 2021 compared to 2020 was primarily due to a decrease in commercial mortgage loans, residential mortgage loans, and commercial and industrial loans, partially offset by an increase in non-accrual TDRs.

Total TDRs modified during 2022 and still outstanding as of December 31, 2022, were \$1.6 million. Of these loans, \$0.7 million, or 40.5%, had a payment default during 2022, which the Corporation defines as a single missed scheduled payment subsequent to modification. TDRs modified during 2021 and still outstanding as of December 31, 2021 totaled \$33.5 million. Of these loans, \$15.5 million, or 46.4%, had a payment default during 2021, which the Corporation defines as a single missed scheduled payment, subsequent to modification.

The following table summarizes OREO, by property type, as of December 31:

	2022	2021	2020
	(dollars in thousands)		
Commercial properties.....	\$ 3,881	\$ 943	\$ 1,730
Residential properties.....	482	669	1,496
Undeveloped land	1,427	205	952
Total OREO	<u>\$ 5,790</u>	<u>\$ 1,817</u>	<u>\$ 4,178</u>

As noted under the heading "Critical Accounting Policies" within Management's Discussion, the Corporation's ability to identify potential problem loans in a timely manner is key to maintaining an adequate ACL. For commercial loans, commercial mortgage loans and construction loans to commercial borrowers, an internal risk rating process is used to monitor credit quality. For a complete description of the Corporation's risk ratings, refer to the "Allowance for Credit Losses" section within "Note 1 - Summary of Significant Accounting Policies," in the Notes to Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data." The evaluation of credit risk for residential mortgages, home equity loans, construction loans to individuals, consumer loans and equipment lease financing is based on aggregate payment history through the monitoring of delinquency levels and trends.

Total internally risk rated loans were \$13.2 billion and \$12.4 billion as of December 31, 2022 and 2021, respectively. The following table presents criticized and classified loans, or those with internal risk ratings of special mention ⁽¹⁾ or substandard or lower ⁽²⁾ for commercial mortgage loans, commercial and industrial loans and construction loans to commercial borrowers, by class segment, as of December 31:

	Special Mention ⁽¹⁾		Increase (Decrease)		Substandard or Lower ⁽²⁾		Increase (Decrease)		Total Criticized and Classified Loans

⁽¹⁾ Considered "criticized" loans by banking regulators

⁽²⁾ Considered "classified" loans by banking regulators

⁽³⁾ Excludes construction - other

As of December 31, 2022, total loans with risk ratings of special mention decreased by \$126.6 million, or 21.5%, and total loans with a risk rating of substandard or lower decreased by \$199.5 million, or 40.7%, resulting in an overall decrease in total criticized loans of \$326.0 million, or 30.2%, compared to 2021.

The following table presents, by class segment, a summary of delinquency status and rates, as a percentage of total loans that do not have internal risk ratings as of December 31:

	Delinquent ⁽¹⁾				Non-performing ⁽²⁾				Total			
	2022		2021		2022		2021		2022		2021

⁽¹⁾ Includes all accruing loans 30 days to 89 days past due.

⁽²⁾ Includes all accruing loans 90 days or more past due and all non-accrual loans and leases.

Loans and Allowance for Credit Losses

The Corporation accounts for the credit risk associated with lending activities through the ACL and the provision for credit losses.

A summary of the Corporation's activity in ACL - loans is shown below:

	2022	2021	2020
	(dollars in thousands)		
Net loans.....	\$ 20,279,547	\$ 18,325,350	\$ 18,900,820
Average balance of net loans.....	\$ 19,152,740	\$ 18,627,787	\$ 18,270,390
Balance of ACL at beginning of period	\$ 249,001	\$ 277,567	\$ 163,620
CECL Day 1 provision expense	7,954	—	—
Initial purchased credit deteriorated loans	1,135	—	—
Impact of adopting CECL on January 1, 2020	—	—	45,724
Loans charged off:			
Commercial and industrial	(2,390)	(15,337)	(18,915)
Real estate – commercial mortgage.....	(12,473)	(8,726)	(4,225)
Consumer and real estate - home equity.....	(4,412)	(3,309)	(4,593)

<i>Total recoveries</i>	14,092	17,146	21,020
Net loans charged off.....	(7,380)	(13,806)	(9,537)
Provision for credit losses	18,656	(14,760)	77,760
Balance of ACL at end of period.....	\$ 269,366	\$ 249,001	\$ 277,567
Provision for OBS credit exposures	\$ 1,411	\$ 160	\$ (840)
Reserve for OBS credit exposures ⁽¹⁾	\$ 16,328	\$ 14,533	\$ 14,373
<i>Selected Asset Quality Ratios %:</i>			
Net charge-offs to average loans	0.04 %	0.07 %	0.05 %
ACL - loans to total net loans.....	1.33	1.36	1.47
Non-performing assets ⁽²⁾ to total assets	0.66	0.60	0.58
Non-accrual loans to total net loans	0.71	0.78	0.72
ACL - loans to non-performing loans	157	164	189
ACL - loans to non-accrual loans.....	186	173	202

⁽¹⁾ Reserve for OBS credit exposures is recorded within other liabilities on the consolidated balance sheets. See "Note 5 - Loans and Allowance for Credit Losses" in the Notes to Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data." additional information.

⁽²⁾ Includes accruing loans past due 90 days or more.

Excluding the CECL Day 1 Provision of \$8.0 million for the acquired Prudential Bancorp loan portfolio, the provision for credit losses increased \$33.4 million in comparison to 2021. The increase in the provision for credit losses was primarily driven by loan growth and changes to the macroeconomic outlook. See "Note 1 - Summary of Significant Accounting Policies" in the Notes to Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data" for additional information.

The following table summarizes the allocation of the ACL - loans:

	2022		2021		2020	
	ACL - loans	% In Each Loan Category ⁽¹⁾	ACL - loans	% In Each Loan Category ⁽¹⁾	ACL - loans	% In Each Loan Category ⁽¹⁾
	(dollars in thousands)					
Real estate - commercial mortgage....	\$ 69,456	37.9 %	\$ 87,970	39.7 %	\$ 103,425	37.6 %
Commercial and industrial	70,116	22.0	67,056	22.9	74,771	30.0
Real estate - residential mortgage	83,250	23.3	54,236	21.0	51,995	16.6
Consumer, home equity, equipment lease financing and overdrafts	35,801	10.5	26,798	10.2	31,770	10.3
Real estate - construction	10,743	6.3	12,941	6.2	15,608	5.5
<i>Total</i>	<u>\$ 269,366</u>	<u>100.0 %</u>	<u>\$ 249,001</u>	<u>100.0 %</u>	<u>\$ 277,569</u>	<u>100.0 %</u>

⁽¹⁾ Ending loan balances as a % of total loans for the years presented.

Management believes that the \$269.4 million ACL - loans as of December 31, 2022, was sufficient to cover expected losses in the loan portfolio. See additional disclosures in "Note 1 - Summary of Significant Accounting Policies," and "Note 5 - Loans and Allowance for Credit Losses," in the Notes to Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data;" and "Critical Accounting Policies" above.

Other Assets

Other assets increased \$252.2 million, or 25.1%, to \$1.3 billion as of December 31, 2022 compared to 2021, primarily due to increases in deferred Federal income taxes, cash surrender value of life insurance and equity method investments of \$117.8 million, \$92.2 million and \$15.2 million, respectively.

Deposits and Borrowings

The following table presents ending deposits, by type, as of December 31:

	2022	2021	Increase (Decrease)	
			\$	%
	(dollars in thousands)			
Noninterest-bearing demand	\$ 7,006,388	\$ 7,370,963	\$ (364,575)	(4.9)%
Interest-bearing demand.....	5,410,903	5,819,539	(408,636)	(7.0)
Savings and money market deposits	6,434,621	6,403,995	30,626	0.5
<i>Total demand and savings</i>	<u>18,851,912</u>	<u>19,594,497</u>	<u>(742,585)</u>	<u>(3.8)</u>
Brokered deposits.....	208,416	251,526	(43,110)	(17.1)
Time deposits	1,589,210	1,727,476	(138,266)	(8.0)
<i>Total deposits</i>	<u>\$20,649,538</u>	<u>\$ 21,573,499</u>	<u>\$ (923,961)</u>	<u>(4.3)%</u>

Compared to 2021, total deposits decreased by \$924.0 million, or 4.3%, primarily due to decreases in interest-bearing demand deposits, noninterest-bearing demand deposits and time deposits of \$408.6 million, \$364.6 million and \$138.3 million, respectively.

The following table presents ending borrowings, by type, as of December 31:

	2022	2021	Increase (Decrease)	
			\$	%
(dollars in thousands)				
Federal funds purchased.....	\$ 191,000	\$ —	\$ 191,000	N/M
Federal Home Loan Bank advances.....	1,250,000	—	1,250,000	N/M
Senior debt and subordinated debt.....	539,634	620,406	(80,772)	(13.0)
Other borrowings ⁽¹⁾	890,573	417,703	472,870	113.2
Total borrowings.....	\$ 2,871,207	\$ 1,038,109	\$ 1,833,098	N/M

⁽¹⁾ Includes short-term promissory notes.

Total borrowings increased \$1,833.1 million in 2022 compared to 2021, as a result of increases in FHLB advances of \$1,250.0 million, customer repurchases of \$472.9 million presented in other borrowings and Federal funds purchased of \$191.0 million. These increases were partially offset by a decrease in senior debt and subordinated debt of \$80.8 million.

The increase in total borrowings during 2022 is reflective of the decrease in total deposit funding and the increase in net loans.

Other Liabilities

Other liabilities increased \$355.9 million, or 76.5%, to \$821.0 million as of December 31, 2022, primarily as the result of a \$360.8 million increase in derivative related liabilities.

Shareholders' Equity

Total shareholders' equity decreased \$132.9 million, or 4.9%, to \$2,579.8 million, or 9.6% of total assets, as of December 31, 2022. The decrease was due primarily to an increase in accumulated comprehensive loss of \$412.9 million, partially offset by increases of \$168.4 million from retained earnings and \$87.9 million from treasury stock, primarily driven by the reissuance of treasury shares in connection with the Merger. See "Note 15 - Shareholders' Equity" in the Notes to the Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data" for details of accumulated comprehensive loss.

The Corporation and its wholly owned subsidiary bank, Fulton Bank, are subject to regulatory capital requirements administered by the FRB and OCC. Failure to meet minimum capital requirements can trigger certain actions by these regulators that could have a material effect on the Corporation's financial statements. The regulations require that banks and bank holding companies maintain minimum amounts and ratios of total, Tier I and Common Equity Tier I capital (as defined in the regulations) to risk-weighted assets (as defined in the regulations), and Tier I capital to average assets (as defined in the regulations).

The following table summarizes the Corporation's capital ratios in comparison to regulatory requirements at December 31:

	2022	2021	Regulatory Minimum for Capital Adequacy	Fully Phased-in, with Capital Conservation Buffers
Total Risk-Based Capital (to Risk-Weighted Assets).	13.6%	14.1%	8.0%	10.5%
Tier I Risk-Based Capital (to Risk-Weighted Assets)	10.9%	10.9%	6.0%	8.5%
Common Equity Tier I (to Risk-Weighted Assets).....	10.0%	9.9%	4.5%	7.0%
Tier I Leverage Capital (to Average Assets).....	9.5%	8.6%	4.0%	4.0%

In July 2013, the Federal Reserve Board approved the Basel III Rules establishing a new comprehensive capital framework for U.S. banking organizations and implementing the Basel Committee on Banking Supervision's December 2010 framework for strengthening international capital standards. The Basel III Rules substantially revised the risk-based capital requirements applicable to bank holding companies and depository institutions.

The Basel III Rules require the Corporation and Fulton Bank to:

- Meet a minimum Common Equity Tier 1 capital ratio of 4.50% of risk-weighted assets and a Tier 1 capital ratio of 6.00% of risk-weighted assets;
- Continue to require a minimum Total capital ratio of 8.00% of risk-weighted assets and a Tier 1 leverage capital ratio of 4.00% of average assets; and

- Comply with a revised definition of capital to improve the ability of regulatory capital instruments to absorb losses as a result of which certain non-qualifying capital instruments, including cumulative preferred stock and TruPS, will be excluded as a component of Tier 1 capital for institutions of the Corporation's size.

As of January 1, 2019, the Corporation and Fulton Bank were also required to maintain a "capital conservation buffer" of 2.50% above the minimum risk-based capital requirements, which must be maintained to avoid restrictions on capital distributions and certain discretionary bonus payments.

The Basel III Rules use a standardized approach for risk weightings that expand the risk-weightings for assets and off-balance sheet exposures from the previous 0%, 20%, 50% and 100% categories to a much larger and more risk-sensitive number of categories, depending on the nature of the assets and off-balance sheet exposures, resulting in higher risk weights for a variety of asset categories.

As of December 31, 2022, Fulton Bank was well capitalized under the regulatory framework for prompt corrective action based on its capital ratio calculations. To be categorized as well capitalized, Fulton Bank must maintain minimum total risk-based, Tier I risk-based, Common Equity Tier I risk-based and Tier I leverage ratios as set forth in the table above. There are no conditions or events since December 31, 2022 that management believes have changed Fulton Bank's categories. See "Note 12 - Regulatory Matters," in the Notes to Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data."

Contractual Obligations and Off-Balance Sheet Arrangements

The Corporation has various financial obligations that require future cash payments. These obligations include payments for liabilities recorded on the Corporation's consolidated balance sheets as well as contractual obligations for purchased services.

Contractual purchase obligations to third parties that were fixed and determinable of \$93 million and \$96 million at December 31, 2022 and 2021, respectively, include information technology, telecommunication and data processing outsourcing contracts.

The Corporation is a party to financial instruments with OBS risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby and commercial letters of credit, which involve, to varying degrees, elements of credit and interest rate risk that are not recognized on the consolidated balance sheets. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Standby letters of credit are conditional commitments issued to guarantee the financial or performance obligation of a customer to a third party. Commercial letters of credit are conditional commitments issued to facilitate foreign or domestic trade transactions for customers. Commitments and standby and commercial letters of credit do not necessarily represent future cash needs, as they may expire without being drawn.

The following table presents the Corporation's commitments to extend credit and letters of credit as of December 31, 2022 (dollars in thousands):

Commercial and industrial	\$	4,832,858
Real estate - commercial mortgage and real estate - construction		1,972,505
Real estate - home equity		1,890,258
<i>Total commitments to extend credit</i>	\$	<u>8,695,621</u>
Standby letters of credit.....	\$	260,829
Commercial letters of credit.....		49,288
<i>Total letters of credit</i>	\$	<u>310,117</u>

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the exposure to economic loss that arises from changes in the values of certain financial instruments. The types of market risk exposures generally faced by financial institutions include interest rate risk, equity market price risk, debt security market price risk, foreign currency price risk and commodity price risk. Due to the nature of its operations, foreign currency price risk and commodity price risk are not significant to the Corporation.

Interest Rate Risk, Asset/Liability Management and Liquidity

Interest rate risk creates exposure in two primary areas. First, changes in rates have an impact on the Corporation's liquidity position and could affect its ability to meet obligations and continue to grow. Second, movements in interest rates can create fluctuations in the Corporation's net interest income and changes in the economic value of its equity.

The Corporation employs various management techniques to minimize its exposure to interest rate risk. The Corporation's ALCO is responsible for reviewing the interest rate sensitivity and liquidity positions of the Corporation, approving asset and liability management policies, and overseeing the formulation and implementation of strategies regarding balance sheet positions.

The Corporation uses two complementary methods to measure and manage interest rate risk. They are simulation of net interest income and estimates of economic value of equity. Using these measurements in tandem provides a reasonably comprehensive summary of the magnitude of the Corporation's interest rate risk, level of risk as time evolves, and exposure to changes in interest rates.

Simulation of net interest income is performed for the next 12-month period. A variety of interest rate scenarios are used to measure the effects of sudden and gradual movements upward and downward in the yield curve. These results are compared to the results obtained in a flat or unchanged interest rate scenario. Simulation of net interest income is used primarily to measure the Corporation's short-term earnings exposure to rate movements. The Corporation's policy limits the potential exposure of net interest income, in a non-parallel instantaneous shock, to 10% of the base case net interest income for a 100 bps shock in interest rates, 15% for a 200 bps shock, 20% for a 300 bps shock and 25% for a 400 bps shock. A "shock" is an immediate upward or downward movement of interest rates. The shocks do not take into account changes in customer behavior that could result in changes to mix and/or volumes in the balance sheet, nor does it take into account the potential effects of competition on the pricing of deposits and loans over the forward 12-month period.

Contractual maturities and repricing opportunities of loans are incorporated in the simulation model as are prepayment assumptions, maturity data and call options within the investment portfolio. Assumptions based on past experience are incorporated into the model for non-maturity deposit accounts. The assumptions used are inherently uncertain and, as a result, the model cannot precisely measure future net interest income or precisely predict the impact of fluctuations in market interest rates on net interest income. Actual results will differ from the model's simulated results due to timing, amount and frequency of interest rate changes as well as changes in market conditions and the application and timing of various management strategies.

The following table summarizes the expected impact of abrupt interest rate changes, i.e. a non-parallel instantaneous shock, on net interest income as of December 31, 2022 (due to the current level of interest rates, the 300 basis point downward shock scenario is not shown):

<u>Rate Shock</u> ⁽¹⁾	<u>Annual change in net interest income</u>	<u>% Change in net interest income</u>
+400 bps.....	+ \$80.0 million	+ 8.2%
+300 bps.....	+ \$62.0 million	+ 6.3%
+200 bps.....	+ \$45.2 million	+ 4.6%
+100 bps.....	+ \$25.4 million	+ 2.6%
-100 bps.....	- \$37.3 million	- 3.8%
-200 bps.....	- \$84.5 million	- 8.6%

⁽¹⁾ These results include the effect of implicit and explicit interest rate floors that limit further reduction in interest rates.

Economic value of equity estimates the discounted present value of asset and liability cash flows. Discount rates are based upon market prices for like assets and liabilities. Abrupt changes or "shocks" in interest rates, both upward and downward, are used

to determine the comparative effect of such interest rate movements relative to the unchanged environment. This measurement tool is used primarily to evaluate the longer-term repricing risks and options in the Corporation's balance sheet. The Corporation's policy limits the economic value of equity that may be at risk, in a non-parallel instantaneous shock, to 10% of the base case economic value of equity for a 100 bps shock in interest rates, 20% for a 200 bps shock, 30% for a 300 bps shock and 40% for a 400 bps shock. As of December 31, 2022, the Corporation was within economic value of equity policy limits for every 100 bps shock.

Interest Rate Derivatives

The Corporation enters into interest rate derivatives with certain qualifying commercial loan customers to meet their interest rate risk management needs. The Corporation simultaneously enters into interest rate derivatives with dealer counterparties, with identical notional amounts and terms. The net result of these interest rate derivatives is that the customer pays a fixed rate of interest and the Corporation receives a floating rate. These interest rate derivatives are derivative financial instruments, and the gross fair values are recorded in other assets and liabilities on the consolidated balance sheets, with changes in fair value during the period recorded in other non-interest expense on the consolidated statements of income.

Cash Flow Hedges

The Corporation's objectives in using interest rate derivatives are to reduce volatility in net interest income and to manage its exposure to interest rate movements. To accomplish this objective, the Corporation primarily uses interest rate derivatives as part of its interest rate risk management strategy. The Corporation enters into interest rate derivatives designated as cash flow hedges to hedge the variable cash flows associated with existing floating rate loans. These hedge contracts involve the receipt of fixed-rate amounts from a counterparty in exchange for the Corporation making floating-rate payments over the life of the agreements without exchange of the underlying notional amount.

For derivatives designated and that qualify as cash flow hedges of interest rate risk, the unrealized gain or loss on the derivative is recorded in AOCI and subsequently reclassified into interest income in the same period during which the hedged transaction affects earnings. Amounts reported in AOCI related to derivatives will be reclassified to interest income as interest payments are made on the Corporation's variable-rate liabilities.

In January 2023, the Corporation terminated interest rate derivatives designated as cash flow hedges with a combined notional amount of \$1.0 billion. As the hedged transaction continues to be probable, the unrealized losses that have been recorded in AOCI will be recognized as reduction to interest income when the previously forecasted hedged item affects earnings in future periods.

Liquidity

The Corporation must maintain a sufficient level of liquid assets to meet the cash needs of its customers, who, as depositors, may want to withdraw funds or who, as borrowers, need credit availability. Liquidity is provided on a continuous basis through scheduled and unscheduled principal and interest payments on investments and outstanding loans and through the availability of deposits and borrowings. The Corporation also maintains secondary sources that provide liquidity on a secured and unsecured basis to meet short- and long-term needs.

The Corporation maintains liquidity sources in the form of interest-bearing deposits and customer funding (short-term promissory notes). The Corporation can access additional liquidity from these sources, if necessary, by increasing the rates of interest paid on those instruments. The positive impact to liquidity resulting from paying higher interest rates could have a detrimental impact on the net interest margin and net interest income if rates on interest-earning assets do not experience a proportionate increase. Borrowing availability with the FHLB and the FRB, along with federal funds lines at various correspondent banks, provides the Corporation with additional liquidity.

Fulton Bank is a member of the FHLB and has access to FHLB overnight and term credit facilities. As of December 31, 2022, the Bank had total borrowing capacity of approximately \$7.7 billion with \$3.1 billion of advances and letters of credit outstanding, for a remaining available borrowing capacity of approximately \$4.6 billion. Advances from the FHLB, when utilized, are secured by qualifying commercial real estate and residential mortgage loans, investments and other assets.

As of December 31, 2022, the Corporation had aggregate availability under federal funds lines of \$2.3 billion, with \$0.2 billion of outstanding borrowings against that amount. A combination of commercial real estate loans, commercial loans, consumer loans and securities are pledged to the FRB of Philadelphia to provide access to FRB discount window borrowings. As of

December 31, 2022, the Corporation had \$1.3 billion of collateralized borrowing availability at the discount window, and no outstanding borrowings.

The Corporation has commitments to extend credit and letters of credit. As of December 31, 2022, the balance of commitments to extend credit was \$8,695.6 million and total letters of credit were \$310.1 million.

Liquidity must also be managed at the Corporation's parent company level. For safety and soundness reasons, banking regulations limit the amount of cash that can be transferred from subsidiary banks to the parent company in the form of loans and dividends. Generally, these limitations are based on the subsidiary banks' regulatory capital levels and their net income. See "Note 12 - Regulatory Matters - Dividend and Loan Limitations" in the Notes to Consolidated Financial Statements in Item 8. "Financial Statements and Supplementary Data" for additional information concerning limitations on the dividends that may be paid to the Corporation, and loans that may be granted to the Corporation. Management continues to monitor the liquidity and capital needs of the parent company and will implement appropriate strategies, as necessary, to remain adequately capitalized and to meet its cash needs.

The Corporation's sources and uses of funds were discussed in general terms in the "Net Interest Income" section of Management's Discussion and Analysis. The consolidated statements of cash flows provide additional information. The Corporation's operating activities during 2022 generated \$598.3 million of cash, mainly due to net income of \$287.0 million and an increase in other liabilities presented in other changes, net. Cash used in investing activities was \$1,539.1 million, primarily due to \$1,407.3 million net increase in loans. Net cash used in financing activities was \$15.9 million, due primarily to the decreases in deposits and dividend payments, partially offset by an increase in borrowings.

The following table presents the expected maturities of government and corporate AFS investment securities, at estimated fair value, as of December 31, 2022 and the weighted average yields on such securities (calculated based on historical cost):

	Maturing							
	Within One Year		After One But Within Five Years		After Five But Within Ten Years		After Ten Years	
	Amount	Yield	Amount	Yield	Amount	Yield	Amount	Yield
<u>Available for sale</u>	(dollars in thousands)

⁽¹⁾ Weighted average yields on tax-exempt securities have been computed on a FTE basis assuming a federal tax rate of 21% and statutory interest expense disallowances.

The Corporation's investment portfolio consists mainly of state and municipal securities, mortgage-backed securities and collateralized mortgage obligations. Mortgage-backed securities and collateralized mortgage obligations have stated maturities that may differ from actual maturities due to borrowers' ability to prepay obligations. Cash flows from such investments are dependent upon the performance of the underlying mortgage loans and are generally influenced by the level of interest rates. As rates increase, cash flows generally decrease as prepayments on the underlying mortgage loans decrease. As rates decrease, cash flows generally increase as prepayments increase.

The following table presents AFS mortgage-backed investment securities, at estimated fair value, and HTM mortgage-backed investment securities, at amortized cost, as of December 31, 2022, without stated maturities, including the weighted average yields and estimated weighted average lives based on prepayment speeds on such securities:

	Amount	Yield	Weighted Average Life
	(dollars in thousands)	(in percentages)	(in years)
Available for sale			
Residential mortgage-backed securities	\$ 212,698	2.80 %	10.9

Total	<u>\$ 4,817,568</u>	<u>\$ 10,320,089</u>	<u>\$ 5,141,890</u>	<u>\$ 20,279,547</u>

⁽¹⁾ Includes commercial and residential mortgages and home equity loans.

Contractual maturities of time deposits as of December 31, 2022 were as follows (dollars in thousands):

Year	
2023	\$ 966,235
2024	234,681
2025	285,527
2026	19,704
2027	18,474
Thereafter.....	64,589
Total	<u>\$ 1,589,210</u>

Contractual maturities of outstanding uninsured time deposits included in the table above, as of December 31, 2022, were as follows (dollars in thousands):

Three months or less.....	\$ 54,013
Over three through six months	24,351
Over six through twelve months.....	61,441
Over twelve months.....	74,976
Total	\$ 214,781

Total uninsured deposits were estimated to be \$7.0 billion at December 31, 2022 compared with \$7.8 billion at December 31, 2021.

Debt Security Market Price Risk

Debt security market price risk is the risk that changes in the values of debt securities, unrelated to interest rate changes, could have a material impact on the financial position or results of operations of the Corporation. The Corporation's debt security investments consist primarily of U.S. government sponsored agency issued mortgage-backed securities and collateralized mortgage obligations, state and municipal securities and corporate debt securities. All of the Corporation's investments in mortgage-backed securities and collateralized mortgage obligations have principal payments that are guaranteed by U.S. government sponsored agencies.

State and Municipal Securities

As of December 31, 2022, the Corporation owned securities issued by various states and municipalities with a total fair value of \$1.1 billion. Uncertainty with respect to the financial strength of state and municipal bond insurers places emphasis on the underlying strength of issuers. Pressure on local tax revenues of issuers due to adverse economic conditions could have an adverse impact on the underlying credit quality of issuers. The Corporation evaluates existing and potential holdings primarily based on the underlying creditworthiness of the issuing state or municipality and then, to a lesser extent, on any credit enhancement. State and municipal securities can be supported by the general obligation of the issuing state or municipality, allowing the securities to be repaid by any means available to the issuing state or municipality. As of December 31, 2022, approximately 100% of state and municipal securities were supported by the general obligation of corresponding states or municipalities. Approximately 74% of these securities were school district issuances, which are also supported by the states of the issuing municipalities.

Auction Rate Securities

During 2022, the Corporation sold its investments in ARCs. The fair values of the ARCs in 2021 were derived using significant unobservable inputs based on an expected cash flows model. The expected cash flows model produced fair values which assumed a return to market liquidity sometime within the next five years. All of the loans underlying the ARCs had principal payments which were guaranteed by the federal government.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business: The Corporation is a financial holding company that provides a full range of banking and financial services to businesses and consumers through its wholly owned banking subsidiary, Fulton Bank. In addition, the Parent Company owns the following non-bank subsidiaries: Fulton Financial Realty Company, Central Pennsylvania Financial Corp., FFC Penn Square, Inc., Fulton Community Partner, LLC, and Fulton Insurance Services Group, Inc. Collectively, the Parent Company and its subsidiaries are referred to as the Corporation.

The Corporation's primary sources of revenue are interest income on loans, investment securities and other interest-earning assets and fee income earned on its products and services. Its expenses consist of interest expense on deposits and borrowed funds, provision for credit losses, other operating expenses and income taxes. The Corporation's primary competition is other financial services providers operating in its region. Competitors also include financial services providers located outside the Corporation's geographic market as a result of the growth in electronic delivery channels. The Corporation is subject to the regulations of certain federal and state agencies and undergoes periodic examinations by such regulatory agencies.

The Corporation offers, through its banking subsidiary, a full range of retail and commercial banking services in Pennsylvania, Delaware, Maryland, New Jersey and Virginia. Industry diversity is the key to the economic well-being of these markets, and the Corporation is not dependent upon any single customer or industry.

Basis of Financial Statement Presentation: The consolidated financial statements have been prepared in conformity with GAAP and include the accounts of the Parent Company and all wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosed amount of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. The Corporation evaluates subsequent events through the date of the filing of this report with the SEC.

Cash and Cash Equivalents and Restricted Cash: Cash and cash equivalents consists of cash and due from banks and interest bearing deposits with other banks, which includes restricted cash. Restricted cash comprises cash balances required to be maintained with the FRB, based on customer transaction deposit account levels, and cash balances provided as collateral on derivative contracts and other contracts. See Note 3, "Restrictions on Cash and Cash Equivalents" for additional information.

FRB and FHLB Stock: The Bank is a member of the FRB and FHLB and is required by federal law to hold stock in these institutions according to predetermined formulas. These restricted investments are carried at cost on the consolidated balance sheets and are periodically evaluated for impairment.

Investments: Debt securities are classified as HTM at the time of purchase when the Corporation has both the intent and ability to hold these investments until they mature. Such debt securities are carried at cost, adjusted for amortization of premiums and accretion of discounts using the effective yield method. The Corporation does not engage in trading activities; however, since the investment portfolio serves as a source of liquidity, most debt securities are classified as AFS. AFS securities are carried at estimated fair value with the related unrealized holding gains and losses reported in shareholders' equity as a component of OCI, net of tax. Realized securities gains and losses are computed using the specific identification method and are recorded on a trade date basis.

HTM Debt Securities: Expected credit losses on HTM debt securities would be recorded in the ACL on HTM debt securities. As of December 31, 2022, no HTM debt securities required an ACL as these investments consist solely of Agency guaranteed residential mortgage-backed and commercial mortgage-backed securities.

AFS Debt Securities: The Bank's AFS debt securities are investment grade. In evaluating credit losses on debt securities, management considers factors such as the credit quality of the investment counterparty, the credit rating of the security, and the delinquency history of the security. As of December 31, 2022, no AFS debt securities required an ACL.

Fair Value Option: The Corporation has elected to measure mortgage loans held for sale at fair value. Derivative financial instruments related to mortgage banking activities are also recorded at fair value, as detailed under the heading "Derivative Financial Instruments," below. The Corporation determines fair value for its mortgage loans held for sale based on the price that secondary market investors would pay for loans with similar characteristics, including interest rate and term, as of the date fair value is measured. Changes in fair values during the period are recorded as components of mortgage banking income on the

consolidated statements of income. Interest income earned on mortgage loans held for sale is classified in interest income on the consolidated statements of income.

Loans: Loans are stated at their principal amount outstanding, except for mortgage loans held for sale, which are carried at fair value. Interest income on loans is accrued as earned.

In general, loans are placed on non-accrual status once they become 90 days delinquent as to principal or interest. In certain cases a loan may be placed on non-accrual status prior to being 90 days delinquent if there is an indication that the borrower is having difficulty making payments, or the Corporation believes it is probable that all amounts will not be collected according to the contractual terms of the loan agreement. When interest accruals are discontinued, unpaid interest previously credited to income is reversed. Non-accrual loans may be restored to accrual status when all delinquent principal and interest has been paid currently for six consecutive months or the loan is considered secured and in the process of collection. The Corporation generally applies payments received on non-accruing loans to principal until such time as the principal is paid off, after which time any payments received are recognized as interest income. If the Corporation believes that all amounts outstanding on a non-accrual loan will ultimately be collected, payments received subsequent to its classification as a non-accrual loan are allocated between interest income and principal.

A loan that is 90 days delinquent may continue to accrue interest if the loan is both adequately secured and is in the process of collection. Past due status is determined based on contractual due dates for loan payments. An adequately secured loan is one that has collateral with a supported fair value that is sufficient to discharge the debt, and/or has an enforceable guarantee from a financially responsible party. A loan is considered to be in the process of collection if collection is proceeding through legal action or through other activities that are reasonably expected to result in repayment of the debt or restoration to current status in the near future.

Loans deemed to be a loss are written off through a charge against the ACL. Closed-end consumer loans are generally charged-off when they become 120 days past due (180 days for open-end consumer loans) if they are not adequately secured by real estate. All other loans are evaluated for possible charge-off when it is probable that the balance will not be collected, based on the ability of the borrower to pay and the value of the underlying collateral, if any. Principal recoveries of loans previously charged-off are recorded as increases to the ACL.

Loan Origination Fees and Costs: Loan origination fees and the related direct origination costs are deferred and amortized over the life of the loan as an adjustment to interest income using the effective yield method. For mortgage loans sold, net loan origination fees and costs are included in the gain or loss on sale of the related loan, as components of mortgage banking.

Troubled Debt Restructurings: Loans are accounted for and reported as TDRs when, for economic or legal reasons, the Corporation grants a concession to a borrower experiencing financial difficulty that it would not otherwise consider. Concessions, whether negotiated or imposed by bankruptcy, granted under a TDR typically involve a temporary deferral of scheduled loan payments, an extension of a loan's stated maturity date or a reduction in the interest rate. Non-accrual TDRs can be restored to accrual status if principal and interest payments, under the modified terms, are current for six consecutive months after modification.

On March 27, 2020 the CARES Act was signed into law. The CARES Act includes an option for financial institutions to suspend the requirements of GAAP for certain loan modifications that would otherwise be categorized as a TDR. Certain conditions were required to be met with respect to the loan modification including that the modification is related to COVID-19 and the modified loan was not more than 30 days past due on December 31, 2019. On December 27, 2020, the 2021 Consolidated Appropriations Act was signed into law and this Act extended the relief for TDR treatment until January 1, 2022, when it expired. The Corporation applied the option under the CARES act for all loan modifications that qualified.

Allowance for Credit Losses:

CECL

The Corporation follows ASU 2016-13, *Financial Instruments - Credit Losses (ASC Topic 326): Measurement of Credit Losses on Financial Instruments*. The measurement of expected credit losses under CECL is applicable to financial assets measured at amortized cost, including loans and HTM debt securities. It also applies to OBS credit exposures, such as loan commitments, standby letters of credit, financial guarantees, and other similar instruments, and net investments in leases recognized by a lessor in accordance with ASC Topic 842.

The Corporation has elected to exclude accrued interest receivable from the measurement of its ACL. When a loan is placed on non-accrual status, any outstanding accrued interest is reversed against interest income.

Loans: The ACL is an estimate of the expected losses to be realized over the life of the loans in the portfolio. The ACL is determined for two distinct categories of loans: 1) loans evaluated collectively for expected credit losses and 2) loans evaluated individually for expected credit losses.

Loans Evaluated Collectively: Loans evaluated collectively for expected credit losses include loans on accrual status and loans initially evaluated individually, but determined not to have enhanced credit risk characteristics. This category includes loans on non-accrual status where the total commitment amount is less than \$1 million. The ACL is estimated by applying a PD and LGD to the EAD at the loan level. In order to determine the PD, LGD, and EAD calculation inputs:

- Loans are aggregated into pools based on similar risk characteristics.
- The PD and LGD rates are determined by historical credit loss experience for each pool of loans.
- The loan segment PD rates are estimated using six econometric regression models that use the Corporation's historical credit loss experience and incorporate reasonable and supportable economic forecasts for various macroeconomic variables that are statistically correlated with expected loss behavior in the loan segment.
- The reasonable and supportable forecast for each macroeconomic variable is sourced from an external third party and is applied over the contractual term of the Corporation's loan portfolio. The Corporation's economic forecast considers the general health of the economy, the interest rate environment, real estate pricing and market risk.
- A single baseline forecast scenario is used for each macroeconomic variable.
- The loan segment lifetime LGD rates are estimated using a loss rate approach based on the Corporation's historical charge-off experience and the balance at the time of loan default.
- The LGD rates are adjusted for the Corporation's recovery experience.
- To calculate the EAD, the Corporation estimates contractual cash flows over the remaining life of each loan. Certain cash flow assumptions are established for each loan using maturity date, amortization schedule and interest rate. In addition, a prepayment rate is used in determining the EAD estimate.

Loans Evaluated Individually: Loans evaluated individually for expected credit losses include loans on non-accrual status where the commitment amount equals or exceeds \$1.0 million. The required ACL for such loans is determined using either the present value of expected future cash flows, observable market price or the fair value of collateral.

Loans evaluated individually may have specific allocations of the ACL assigned if the measured value of the loan using one of the noted techniques is less than its current carrying value. For loans measured using the fair value of collateral, if the analysis determines that sufficient collateral value would be available for repayment of the debt, then no allocations would be assigned to those loans. Collateral could be in the form of real estate or business assets, such as accounts receivable or inventory, in the case of commercial and industrial loans. Commercial and industrial loans may also be secured by real estate.

For loans secured by real estate, estimated fair values are determined primarily through appraisals performed by third-party appraisers, discounted to arrive at expected net sale proceeds. For collateral dependent loans, estimated real estate fair values are also net of estimated selling costs. When a real estate secured loan is impaired, a decision is made regarding whether an updated appraisal of the real estate is necessary. This decision is based on various considerations, including: the age of the most recent appraisal; the loan-to-value ratio based on the original appraisal; the condition of the property; the Corporation's experience and knowledge of the real estate market; the purpose of the loan; market factors; payment status; the strength of any guarantors; and the existence and age of other indications of value such as broker price opinions, among others. The Corporation generally obtains updated appraisals performed by third-party appraisers for impaired loans secured predominantly by real estate every 12 months.

When updated appraisals are not obtained for loans secured by real estate, fair values are estimated based on the original appraisal values, as long as the original appraisal indicated an acceptable loan-to-value position and there has not been a significant deterioration in the collateral value since the original appraisal was performed.

For loans with principal balances greater than or equal to \$1.0 million secured by non-real estate collateral, such as accounts receivable or inventory, estimated fair values are determined based on borrower financial statements, inventory listings, accounts receivable agings or borrowing base certificates. Indications of value from these sources are generally discounted based on the age of the financial information or the quality of the assets. Liquidation or collection discounts are applied to these assets based upon existing loan evaluation policies.

Management regularly reviews loans in the portfolio to assess credit quality indicators and to determine appropriate loan classification. For commercial loans, commercial mortgages and construction loans to commercial borrowers, an internal risk rating process is used. The Corporation believes that internal risk ratings are the most relevant credit quality indicator for these types of loans. The migration of loans through the various internal risk rating categories is a significant component of the ACL methodology for these loans, which bases the PD on this migration. Assigning risk ratings involves judgment. Risk ratings may be changed based on ongoing monitoring procedures, or if specific loan review assessments identify a deterioration or an improvement in the loan.

The following is a summary of the Corporation's internal risk rating categories:

- Pass: These loans do not currently pose undue credit risk and can range from the highest to average quality, depending on the degree of potential risk.
- Special Mention: These loans have a heightened credit risk, but not to the point of justifying a classification of Substandard. Loans in this category are currently acceptable but, are nevertheless potentially weak.
- Substandard or Lower: These loans are inadequately protected by current sound worth and paying capacity of the borrower. There exists a well-defined weakness or weaknesses that jeopardize the normal repayment of the debt.

The allocation of the ACL is reviewed to evaluate its appropriateness in relation to the overall risk profile of the loan portfolio. The Corporation considers risk factors such as: local and national economic conditions; trends in delinquencies and non-accrual loans; the diversity of borrower industry types; and the composition of the portfolio by loan type.

Qualitative and Other Adjustments to ACL: In addition to the quantitative credit loss estimates for loans evaluated collectively, qualitative factors that may not be fully captured in the quantitative results are also evaluated. These qualitative factors include changes in lending policy, the nature and volume of the portfolio, overall business conditions in the economy, credit concentrations, specific industry risks, model imprecision and legal and regulatory requirements. Qualitative adjustments are judgmental and are based on management's knowledge of the portfolio and the markets in which the Corporation operates. Qualitative adjustments are evaluated and approved on a quarterly basis. Additionally, the ACL includes other allowance categories that are not directly incorporated in the quantitative results. These categories include but are not limited to loans-in-process, trade acceptances and overdrafts.

OBS Credit Exposures: The reserve for OBS credit exposures is recorded in other liabilities on the consolidated balance sheets, and represents management's estimate of expected losses in its unfunded loan commitments and other OBS credit exposures. The reserve for OBS credit exposures specific to unfunded commitments is determined by estimating future draws and applying the expected loss rates on those draws. Future draws are based on historical averages of utilization rates (i.e., the likelihood of draws taken). The reserve for OBS credit exposures is increased or decreased by charges or reductions to expense, through the provision for credit losses.

Premises and Equipment: Premises and equipment are stated at cost, less accumulated depreciation and amortization. The provision for depreciation and amortization is generally computed using the straight-line method over the estimated useful lives of the related assets, which are a maximum of 50 years for buildings and improvements, 8 years for furniture and 5 years for equipment. Leasehold improvements are amortized over the shorter of the useful life or the non-cancelable lease term.

Premises and equipment acquired in a business combination are initially recorded at fair value and subsequently carried at cost less depreciation and amortization. See Note 6, "Premises and Equipment" for additional information.

OREO: Assets acquired in settlement of mortgage loan indebtedness are recorded as OREO and are included in other assets on the consolidated balance sheets, initially at the lower of the estimated fair value of the asset, less estimated selling costs, or the carrying amount of the loan. Costs to maintain the assets and subsequent gains and losses on sales are included in other non-interest expense on the consolidated statements of income.

MSRs: The estimated fair value of MSRs related to residential mortgage loans sold and serviced by the Corporation is recorded as an asset upon the sale of such loans. MSRs are amortized as a reduction to mortgage servicing income, included as a component of mortgage banking income on the consolidated statements of income, over the estimated lives of the underlying loans.

MSRs are stratified and evaluated for impairment by comparing each stratum's carrying amount to its estimated fair value. Fair values are determined through a discounted cash flows valuation completed by a third-party valuation expert. Significant inputs to the valuation include expected net servicing income, the discount rate and the expected lives of the underlying loans. Expected life is based on the contractual terms of the loans, as adjusted for prepayment projections. To the extent the amortized

cost of the MSR exceeds their estimated fair value, a valuation allowance is established through a charge against servicing income. If subsequent valuations indicate that impairment no longer exists, the valuation allowance is reduced through an increase to servicing income. See Note 8, "Mortgage Servicing Rights" for additional information.

Derivative Financial Instruments: The Corporation manages its exposure to certain interest rate and foreign currency risks through the use of derivatives. Certain of the Corporation's outstanding derivative contracts are designated as hedges, and none are entered into for speculative purposes. The Corporation enters into derivative contracts that are intended to economically hedge certain of its risks, even if hedge accounting does not apply or the Corporation elects not to apply hedge accounting.

The Corporation records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Corporation has elected to designate a derivative in a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. The Corporation does not have any derivative instruments designated as fair value hedges. Derivatives designated and qualifying as a hedge of the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. For derivatives designated as cash flow hedges where hedge accounting is applied, changes in fair value are recognized in other comprehensive income. For derivatives where hedge accounting does not apply, changes in fair value are recognized in earnings as components of non-interest income or non-interest expense on the consolidated statements of income.

Derivative contracts create counterparty credit risk with both the Corporation's customers and with institutional derivative counterparties. The Corporation manages counterparty credit risk through its credit approval processes, monitoring procedures and obtaining adequate collateral, when the Corporation determines it is appropriate to do so and in accordance with counterparty contracts.

For each of the derivatives, gross derivative assets and liabilities are recorded in other assets and other liabilities, respectively, on the consolidated balance sheets. Related gains and losses on these derivative instruments are recorded in other changes, net on the consolidated statement of cash flows.

Mortgage Banking Derivatives

In connection with its mortgage banking activities, the Corporation enters into commitments to originate certain fixed-rate residential mortgage loans for customers, also referred to as interest rate locks. In addition, the Corporation enters into forward commitments for the future sales or purchases of mortgage-backed securities to or from third-party counterparties to hedge the effect of changes in interest rates on the values of both the interest rate locks and mortgage loans held for sale. Forward sales commitments may also be in the form of commitments to sell individual mortgage loans at a fixed price at a future date. The amount necessary to settle each interest rate lock is based on the price that secondary market investors would pay for loans with similar characteristics, including interest rate and term, as of the date fair value is measured.

Interest Rate Derivatives - Non-Designated Hedges

The Corporation enters into interest rate derivatives with certain qualifying commercial loan customers to meet their interest rate risk management needs. The Corporation simultaneously enters into interest rate derivatives with dealer counterparties, with identical notional amounts and terms. The net result of these interest rate derivatives is that the customer pays a fixed rate of interest and the Corporation receives a floating rate. As the interest rate derivatives associated with this program do not meet hedge accounting requirements, changes in the fair value of both the customer derivatives and the offsetting derivatives are recognized directly in earnings.

The Corporation's existing credit derivatives result from participation in interest rate derivatives provided by external lenders as part of loan participation arrangements and, therefore, are not used to manage interest rate risk in the Corporation's assets or liabilities.

The Corporation is required to clear all eligible interest rate derivative contracts with a clearing agent and is subject to the regulations of the Commodity Futures Trading Commission.

Cash Flow Hedges of Interest Rate Risk

The Corporation's objectives in using interest rate derivatives are to reduce volatility in net interest income and to manage its exposure to interest rate movements. To accomplish this objective, the Corporation primarily uses interest rate derivatives as part of its interest rate risk management strategy. The Corporation enters into interest rate derivatives designated as cash flow hedges to hedge the variable cash flows associated with existing floating rate loans.

For derivatives designated and that qualify as cash flow hedges of interest rate risk, the unrealized gain or loss on the derivative is recorded in AOCI and subsequently reclassified into interest income in the same period during which the hedged transaction affects earnings. Amounts reported in AOCI related to derivatives will be reclassified to interest income as interest payments are made on the Corporation's variable-rate loans.

Foreign Exchange Contracts

The Corporation enters into foreign exchange contracts to accommodate the needs of its customers. Foreign exchange contracts are commitments to buy or sell foreign currency on a specific date at a contractual price. The Corporation limits its foreign exchange exposure with customers by entering into contracts with institutional counterparties to mitigate its foreign exchange risk. The Corporation also holds certain amounts of Foreign Currency Nostro Accounts. The Corporation limits the total overnight net foreign currency open positions, which is defined as an aggregate of all outstanding contracts, to \$500,000. See "Note 11 - Derivative Financial Instruments" for additional information.

Balance Sheet Offsetting: Certain financial assets and liabilities may be eligible for offset on the consolidated balance sheets because they are subject to master netting arrangements or similar agreements. The Corporation has elected to net its financial assets and liabilities designated as cash flow hedges when offsetting is permitted. The Corporation has elected not to offset the remaining assets and liabilities subject to such arrangements on the consolidated financial statements.

The Corporation is a party to interest rate derivatives with financial institution counterparties and customers. Under these agreements, the Corporation has the right to net-settle multiple contracts with the same counterparty in the event of default on, or termination of, any one contract. Cash collateral is posted by the party with a net liability position in accordance with contract thresholds and can be used to settle the fair value of the interest rate derivatives in the event of default. A daily settlement occurs through a clearing agent for changes in the fair value of centrally cleared derivatives. Not all of the derivatives are required to be cleared through a daily clearing agent. As a result, the total fair values of interest rate derivative assets and derivative liabilities recognized on the consolidated balance sheets are not equal and offsetting.

The Corporation is also a party to foreign exchange contracts with financial institution counterparties under which the Corporation has the right to net-settle multiple contracts with the same counterparty in the event of default on, or termination of, any one contract. As with interest rate derivatives, cash collateral is posted by the party with a net liability position in accordance with contract thresholds and can be used to settle the fair value of the foreign exchange contracts in the event of default.

For additional information on balance sheet offsetting, see "Note 11 - Derivative Financial Instruments."

Income Taxes: The Corporation utilizes the asset and liability method in accounting for income taxes. Under this method, DTAs and deferred tax liabilities are determined based upon the difference between the values of the assets and liabilities as reflected in the financial statements and their related tax basis using enacted tax rates in effect for the year in which the differences are expected to be recovered or settled. As changes in tax law or rates are enacted, DTAs and deferred tax liabilities are adjusted through income tax expense. In assessing the realizability of DTAs, management considers whether it is more likely than not that some portion or all of the DTAs will not be realized. The ultimate realization of DTAs is dependent upon the generation of future taxable income and tax planning strategies which will create taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, the amount of taxes paid in available carryback years, projected future taxable income, and, if necessary, tax planning strategies in making this assessment. A valuation allowance is provided against DTAs unless it is more likely than not that such DTAs will be realized.

ASC Topic 740, "Income Taxes" creates a single model to address uncertainty in tax positions, and clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in an enterprise's financial statements. It also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. The liability for unrecognized tax benefits is included in other liabilities within the consolidated balance sheets.

See Note 13, "Income Taxes" for additional information.

Stock-Based Compensation: The Corporation grants equity awards to employees, consisting of stock options, restricted stock, RSUs and PSUs under its Employee Equity Plan. In addition, employees may purchase stock under the Corporation's ESPP.

The Corporation also grants equity awards to non-employee members of its board of directors and subsidiary bank board of directors under the Directors' Plan. Under the Directors' Plan, the Corporation can grant equity awards to non-employee holding company and subsidiary bank directors in the form of stock options, restricted stock, RSUs or common stock. Recent grants of equity awards under the Directors' Plan have been limited to RSUs.

Equity awards issued under the Employee Equity Plan are generally granted annually and become fully vested over or after a three-year vesting period. The vesting period for non-performance-based awards represents the period during which employees are required to provide service in exchange for such awards. Equity awards under the Directors' Plan are generally granted annually and become fully vested after a one-year vesting period. Certain events, as defined in the Employee Equity Plan and the Directors' Plan, result in the acceleration of the vesting of equity awards. Restricted stock, RSUs and PSUs earn dividends during the vesting period, which are forfeitable if the awards do not vest.

The fair value of stock options, restricted stock and RSUs granted to employees or directors is recognized as compensation expense over the vesting period for such awards. Compensation expense for PSUs is also recognized over the vesting period, however, compensation expense for PSUs may vary based on the expectations for actual performance relative to defined performance measures.

The fair value of restricted stock, RSUs and a majority of PSUs are based on the trading price of the Corporation's stock on the date of grant. The fair value of certain PSUs are estimated through the use of the Monte Carlo valuation methodology as of the date of grant. See Note 16, "Stock-Based Compensation Plans" for additional information. The Corporation has not issued stock options since 2014 and accordingly, there is no compensation expense for this instrument.

Disclosures about Segments of an Enterprise and Related Information: The Corporation does not have any operating segments which require disclosure of additional information.

Financial Guarantees: Financial guarantees, which consist primarily of standby and commercial letters of credit, are accounted for by recognizing a liability equal to the fair value of the guarantees and crediting the liability to income over the term of the guarantee. Fair value is estimated based on the fees currently charged to enter into similar agreements with similar terms.

Goodwill and Intangible Assets: The Corporation accounts for its acquisitions using the purchase accounting method. Purchase accounting requires that all assets acquired and liabilities assumed, including certain intangible assets that must be recognized, be recorded at their estimated fair values as of the acquisition date. Any purchase price exceeding the fair value of net assets acquired is recorded as goodwill.

Goodwill is not amortized to expense, but is evaluated for impairment at least annually. Write-downs of the balance, if necessary as a result of the impairment test, are charged to expense in the period in which goodwill is determined to be impaired. The Corporation performs its annual assessment of goodwill impairment in the fourth quarter of each year. If certain events occur which indicate goodwill might be impaired between annual assessments, goodwill would be evaluated when such events occur.

Intangible assets are amortized over their estimated lives. Some intangible assets have indefinite lives and are, therefore, not amortized. All intangible assets must be evaluated for impairment if certain events occur. Any impairment write-downs are recognized as non-interest expense on the consolidated statements of income. See "Note 7 - Goodwill and Intangible Assets," for additional information.

VIEs: ASC Topic 810 provides guidance on when to consolidate certain VIEs in the financial statements of the Corporation. VIEs are entities in which equity investors do not have a controlling financial interest or do not have sufficient equity at risk for the entity to finance activities without additional financial support from other parties. VIEs are assessed for consolidation under ASC Topic 810 when the Corporation holds variable interests in these entities. The Corporation consolidates VIEs when it is deemed to be the primary beneficiary. The primary beneficiary of a VIE is determined to be the party that has the power to make decisions that most significantly affect the economic performance of the VIE and has the obligation to absorb losses or the right to receive benefits that in either case could potentially be significant to the VIE.

The Corporation makes investments in certain community development projects, the majority of which generate tax credits under various federal programs, including TCIs. These investments are made throughout the Corporation's market area as a

means of supporting the communities it serves. The Corporation typically acts as a limited partner or member of a limited liability company in its TCIs and does not exert control over the operating or financial policies of the partnership or limited liability company. Tax credits earned are subject to recapture by federal taxing authorities based upon compliance requirements to be met at the project level.

Because the Corporation owns 100% of the equity interests in its NMTC, these investments were consolidated based on ASC Topic 810 as of December 31, 2022 and 2021. Investments in affordable housing projects were not consolidated based on management's assessment of the provisions of ASC Topic 810.

TCIs are tested for impairment when events or changes in circumstances indicate that it is more likely than not that the carrying amount of the investment will not be realized. An impairment loss is measured as the amount by which the current carrying value exceeds its aggregated remaining value of the tax benefits of the investment. There were no impairment losses recognized for the Corporation's TCIs in 2022, 2021 or 2020. For additional information, see "Note 13 - Income Taxes."

Fair Value Measurements: Assets and liabilities are categorized in a fair value hierarchy for the inputs to valuation techniques used to measure assets and liabilities at fair value using the following three categories (from highest to lowest priority):

- Level 1 - Inputs that represent quoted prices for identical instruments in active markets.
- Level 2 - Inputs that represent quoted prices for similar instruments in active markets, or quoted prices for identical instruments in non-active markets. Also included are valuation techniques whose inputs are derived principally from observable market data other than quoted prices, such as interest rates or other market-corroborated means.
- Level 3 - Inputs that are largely unobservable, as little or no market data exists for the instrument being valued.

The Corporation has categorized all assets and liabilities required to be measured at fair value on both a recurring and nonrecurring basis into the above three levels. See "Note 20 - Fair Value Measurements" for additional information.

Revenue Recognition: The sources of revenue for the Corporation are interest income from loans, leases and investments and non-interest income. Non-interest income is earned from various banking and financial services that the Corporation offers through its subsidiaries. Revenue is recognized as earned based on contractual terms, as transactions occur, or as services are provided. Following is further detail of the various types of revenue the Corporation earns and when it is recognized:

Interest income: Interest income is recognized on an accrual basis according to loan and lease agreements, investment securities contracts or other written contracts.

Wealth management services: Consists of income from trust commissions, brokerage, money market and insurance commissions. Trust commissions consists of advisory fees that are based on market values of clients' managed portfolios and transaction fees for fiduciary services performed, both of which are recognized when earned. Brokerage income includes advisory fees which are recognized when earned on a monthly basis and transaction fees that are recognized when transactions occur. Money market income is based on the balances held in trust accounts and is recognized monthly. Insurance commissions are earned and recognized when policies are originated. Currently, no investment management and trust service income is based on performance or investment results.

Commercial and consumer banking income: Consists of cash management, overdraft, non-sufficient fund fees and other service charges on deposit accounts as well as branch fees, ATM fees, debit and credit card income and merchant services fees. Also included are letter of credit fees, foreign exchange income and interest rate derivative fees. Revenue is primarily transactional and recognized when earned at the time the transactions occur.

Mortgage banking income: Consists of gains or losses on the sale of residential mortgage loans and mortgage loan servicing income.

Other Income: Includes gains on sales of SBA loans, cash surrender value of life insurance, and other miscellaneous income.

Leases: All leases with an initial term greater than 12 months recognize: (1) a ROU asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term; and (2) a lease liability, which is a lessee's obligation to make lease payments arising from a lease, each measured on a discounted basis. The Corporation elected to not separate lease and non-lease components.

As a lessee, the majority of the operating lease portfolio consists of real estate leases for the Corporation's financial centers, land and office space. The operating leases have remaining lease terms of 1 year to 20 years, some of which include options to

extend the leases for 5 years or more. ROU assets and lease liabilities are not recognized for leases with an initial term of 12 months or less.

Certain real estate leases have lease payments that adjust based on annual changes in the CPI. The leases that are dependent upon CPI are initially measured using the CPI or rate at the commencement date and are included in the measurement of the lease liability.

Operating lease expense represents fixed lease payments for operating leases recognized on a straight-line basis over the applicable lease term. Variable lease expense represents expenses such as the payment of real estate taxes, insurance and common area maintenance based on the Corporation's pro-rata share.

Sublease income consists mostly of operating leases for space within the Corporation's offices and financial centers and is recorded as a reduction to net occupancy expense on the consolidated statements of income. See "Note 18 - Leases" for additional information.

Defined Benefit Plan: Net periodic pension costs are funded based on the requirements of federal laws and regulations. The determination of net periodic pension costs is based on assumptions about future events that will affect the amount and timing of required benefit payments under the plan. These assumptions include demographic assumptions such as retirement age and mortality, a discount rate used to determine the current benefit obligation, form of payment election and a long-term expected rate of return on plan assets. Net periodic pension expense includes interest cost, based on the assumed discount rate, an expected return on plan assets, amortization of prior service cost or credit and amortization of net actuarial gains or losses. The Corporation curtailed the Pension Plan in 2008, with no additional benefits accruing. In connection with the Merger, the Corporation assumed the obligations of Prudential Bancorp under a multiemployer defined benefit pension plan that had previously been closed to new Prudential Bancorp participants. Net periodic pension cost is recognized in salaries and employee benefits on the consolidated statements of income. For additional information, see "Note 17 - Employee Benefit Plans."

Business Combinations: Business combinations are accounted for using the acquisition method of accounting. Under the acquisition method, identifiable assets acquired and liabilities assumed are measured at fair value as of the acquisition date. The difference between the purchase price and the fair value of net assets acquired is recorded as goodwill. Results of the operations of the acquired entity are included in the consolidated statement of income from the acquisition date. Acquisition costs are expensed as incurred.

Other Recently Adopted Accounting Standards

On January 1, 2022, the Corporation adopted *ASC Update 2021-06 Presentation of Financial Statements (Topic 205), Financial Services—Depository and Lending (Topic 942), and Financial Services—Investment Companies (Topic 946): Amendments to SEC Paragraphs Pursuant to SEC Final Rule Releases No. 33-10786, Amendments to Financial Disclosures about Acquired and Disposed Businesses, and No. 33-10835, Update of Statistical Disclosures for Bank and Savings and Loan Registrants (SEC Update)*. The Corporation adopted this standards update effective with its March 31, 2022 quarterly report on Form 10-Q and it did not have a material impact on the consolidated financial statements.

Recently Issued Accounting Standards

In March 2022, FASB issued *ASU 2022-01 Derivatives and Hedging (Topic 815): Fair Value Hedging – Portfolio Layer Method ("ASU 2022-01")*. This update addresses questions regarding the last-of-layer method arising from the issuance of ASU 2017-12 and permits more flexibility in hedging interest rate risk for both variable-rate and fixed-rate financial instruments and introduces the ability to hedge risk components for non-financial hedges. The Corporation adopted ASU 2022-01 on January 1, 2023. The Corporation does not expect the adoption of ASU 2022-01 to have a material impact on its consolidated financial statements.

In March 2022, FASB issued *ASU 2022-02 Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures*. This update reduces the complexity of accounting for TDRs by eliminating certain accounting guidance, enhancing disclosures and improving the consistency of vintage disclosures. The Corporation adopted ASU 2022-02 on January 1, 2023. The Corporation does not expect the adoption of ASU 2022-02 to have a material impact on its consolidated financial statements.

In June 2022, FASB issued *ASU 2022-03 Fair Value Measurement (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions*. This update clarifies how the fair value of equity securities subject to contractual sale restrictions is determined and requires additional qualitative and quantitative disclosures for equity securities with contractual

sale restrictions. The Corporation will adopt ASU 2022-03 on January 1, 2024. The Corporation does not expect the adoption of ASU 2022-03 to have a material impact on its consolidated financial statements.

In September 2022, FASB issued *ASU 2022-04 Liabilities - Supplier Finance Programs (Subtopic 405-50): Disclosure of Supplier Finance Program Obligations ("ASU 2022-04")*. This update enhances transparency in the disclosure of supplier finance programs, which previously had no explicit requirements under GAAP. The Corporation adopted ASU 2022-04 on January 1, 2023. The Corporation does not expect the adoption of ASU 2022-04 to have a material impact on its consolidated financial statements.

In December 2022, FASB issued *ASU 2022-06 Reference Rate Reform (Topic 848) - Deferral of the Sunset Date of topic 848*. This update extends the sunset provision date of "ASU 2020-04" to December 31, 2024. ASU 2022-06 became effective for the Corporation upon issuance of ASU 2022-06. The Corporation does not expect ASU 2022-06 to have a material impact on its consolidated financial statements.

In January 2023, FASB ratified the EITF consensus on EITF Issue No. 21-A, *"Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method"* reached at the December 1, 2022 meeting, but has not yet issued the standard. The standard will allow any tax credit program that meets certain criteria to use the proportional amortization method. The Corporation expects to early adopt the standard using the modified retrospective method effective upon issuance. The Corporation does not expect the adoption of the upcoming ASU to have a material impact on its consolidated financial statements.

Reclassifications

Certain amounts in the 2021 consolidated financial statements and notes have been reclassified to conform to the 2022 presentation.

NOTE 2 - BUSINESS COMBINATIONS

On July 1, 2022, the Corporation completed its acquisition of Prudential Bancorp, a Pennsylvania chartered bank holding company headquartered in Philadelphia, Pennsylvania that primarily served the Greater Philadelphia region. On that date, the Corporation acquired 100% of the outstanding common stock of Prudential Bancorp, Prudential Bancorp was merged with and into the Corporation, and Prudential Bancorp's wholly owned subsidiary, Prudential Bank, became a wholly owned subsidiary of the Corporation. The Corporation merged Prudential Bank with and into Fulton Bank in the fourth quarter of 2022. Results of the operations of the acquired entity are included in the Corporation's consolidated financial statements beginning on the acquisition date, July 1, 2022. As a result of this acquisition, the Corporation enhanced its presence in Philadelphia, expanded its customer base and leveraged operating costs through economies of scale.

In accordance with the terms of the Merger Agreement, each share of Prudential Bancorp's common stock issued and outstanding immediately prior to the effective time of the Merger was converted into the right to receive the Merger Consideration. In the aggregate, approximately eighty percent (80%) of the Merger Consideration consisted of the Corporation's common stock with the remaining approximately twenty percent (20%) payable in cash. The receipt of the Corporation's common stock in the Merger is expected to qualify as a tax-free exchange for Prudential Bancorp shareholders.

The acquisition of Prudential Bancorp was accounted for as a business combination using the acquisition method of accounting, and accordingly, the assets acquired, the liabilities assumed, and consideration transferred were recorded at their estimated fair values as of the Merger. The \$16.3 million excess of the Merger Consideration over the fair value of assets acquired was recorded as goodwill and is not amortizable or deductible for tax purposes.

The following table summarizes the consideration transferred and the fair values of identifiable assets acquired and liabilities assumed on July 1, 2022:

	<u>Fair Value</u>
(in thousands, except per share data)	
Consideration transferred:	
Common stock shares issued (6,208,516).....	\$ 89,713
Cash paid to Prudential Bancorp shareholders	29,343
Value of consideration.....	119,056
Assets acquired:	
Cash and due from banks	7,532
Investment securities	287,126
Loans, net	554,288
Premises and equipment.....	13,738
Other assets.....	70,720
Total assets	933,404
Liabilities assumed:	
Deposits	532,180
Borrowings ⁽¹⁾	284,000
Other liabilities	14,441
Total liabilities.....	830,621
Net assets acquired:	102,783
Goodwill resulting from acquisition of Prudential Bancorp	\$ 16,273

⁽¹⁾ Includes a \$30.5 million intercompany borrowing between Prudential Bank and Fulton Bank.

While the valuation of the acquired assets and liabilities is completed, fair value estimates related to the assets and liabilities from Prudential Bancorp are subject to adjustment for up to one year after the closing date of the Merger if additional information becomes available. Included in the above table are adjustments of \$17 thousand that occurred during the fourth quarter of 2022, resulting in an increase to goodwill from the acquisition of Prudential Bancorp.

The amount of goodwill recorded reflects the increased market share and related synergies that are expected to result from the acquisition and represents the excess purchase price over the estimated fair value of the net assets acquired from Prudential Bancorp.

The following is a description of the valuation methodologies used to estimate the fair values of major categories of assets acquired and liabilities assumed.

Cash and due from banks: The estimated fair values of cash and due from banks approximate their stated value.

Investment securities: The acquired investment portfolio had a fair value of \$287.1 million, primarily consisting of mortgage-backed securities, U.S. Government securities and municipal securities. The fair value of the investment portfolio was based on quoted market prices, dealer quotes and pricing obtained from independent pricing services.

Loans: The Company recorded \$554.3 million of acquired loans, which were initially recorded at their fair values as of the Merger date. Fair value for the loans was based on a discounted cash flow methodology that considered credit loss and prepayment expectations, market interest rates and other market factors, such as liquidity, from the perspective of a market participant. Loan cash flows were generated on an individual loan basis. The PD, LGD, EAD and prepayment assumptions are the key factors driving credit losses that are embedded into the estimated cash flows.

The following table presents information with respect to the fair value and unpaid principal balance of acquired loans and leases at the Merger date:

	July 1, 2022	
	Unpaid Principal Balance	Fair Value
	(dollars in thousands)	
Real estate - commercial mortgage.....	\$ 224,904	\$ 216,613
Commercial and industrial.....	63,560	62,050
Real-estate - residential mortgage.....	177,327	169,098
Real-estate - home equity	6,034	5,812
Real-estate - construction.....	98,963	98,546
Consumer	2,306	2,286
Total acquired loans.....	\$ 573,094	\$ 554,405

The following table presents the carrying amount of loans for which, at the date of the Merger, there was evidence of more than insignificant deterioration of credit quality since origination:

	July 1, 2022	
	(dollars in thousands)	
Book balance of loans with deteriorated credit quality at acquisition	\$	27,057
Allowance for credit losses at acquisition.....		(1,135)
Non-credit related discount		(130)
Total initial purchased credit deteriorated loans	\$	25,792

The Merger resulted in the addition of \$9.1 million in allowance for credit losses, including the \$1.1 million identified in the table above for initial purchased credit deteriorated loans recorded through the provision for credit losses at the date of the Merger.

Premises and equipment: The fair value of land and buildings reflected in premises and equipment was determined by obtaining recent market sales for comparable properties. The difference between the fair market value and the net book value for these properties resulted in an increase of \$7.1 million to the premises and equipment acquired from Prudential Bancorp.

Intangible assets: The Corporation recorded \$8.2 million of CDI reflected in other assets that is being amortized over seven years using the sum-of-the-years digits method. The fair value of the CDI was determined using the cost savings approach. The cost savings approach is defined as the difference between the cost of funds of core deposits and an alternative cost of funds for those deposits. The CDI fair value was determined by projected discounted net cash flows, that included assumptions related to customer attrition rates, discount rates, deposit interest rates, deposit account maintenance costs and alternative cost of funding rates.

Time deposits: Time deposits were valued at the account level based on their remaining maturity dates and comparing the contractual cost of the portfolio to brokered deposit costs having a similar tenor. The valuation adjustment of \$1.9 million will be accreted to interest expense over the remaining maturities of the individual customer deposits.

Borrowings: The estimated fair values for borrowings approximated their stated value given these were short-term advances.

The following table presents the change in goodwill during the period:

	Twelve Months Ended December 31
	2022
	(dollars in thousands)
Goodwill at December 31, 2021	\$ 534,266
Goodwill from Prudential Bancorp acquisition	16,273
Goodwill at December 31, 2022	<u>\$ 550,539</u>

Merger-related expenses

The Company developed a comprehensive integration plan under which it has incurred direct costs, which are expensed as incurred. These direct costs include costs primarily related to terminated contracts, consolidated facilities (including lease termination expenses), severance, marketing and professional fees. Costs related to the acquisition and restructuring are included in Merger-related expenses on the unaudited Consolidated Statements of Income.

The following table details the costs identified and classified as Merger-related expenses:

	Twelve Months Ended December 31
	2022
	(dollars in thousands)
Salaries and employee benefits	\$ 938
Data processing and software	1,412
Net occupancy	1,658
Other outside services	225
Professional fees	3,053
Marketing	95
Charitable donation	2,000
Other	947
Total Merger-related expenses	<u>\$ 10,328</u>

As part of the Merger, the Corporation made a \$2.0 million contribution to the Fulton Forward Foundation in July 2022, designated to be used to provide impact gifts in support of nonprofit community organizations in Philadelphia that are focused on advancing economic empowerment, particularly in underserved communities.

Income Statement

During the fourth quarter of 2022, the Corporation merged Prudential Bank with and into Fulton Bank. Separate results from legacy Prudential Bancorp assets and liabilities can no longer be identified. The following table summarizes the results of operations contributed by Prudential Bancorp for the three-month period ended September 30, 2022, presented in the unaudited Consolidated Statements of Income:

	Three Months Ended September 30, 2022
	(Unaudited)
	(dollars in thousands)
Total interest income.....	\$ 10,871
Total interest expense.....	2,733
Net interest income.....	8,138
Provisions for credit losses.....	7,571
<i>Net Interest Income After Provision for Credit Losses</i>	567
Total noninterest income.....	197
Total noninterest expense.....	3,583
<i>Income Before Income Taxes</i>	(2,819)
Income taxes.....	(753)
<i>Net Loss</i>	<u>\$ (2,066)</u>

Pro Forma Income Statement (unaudited)

The below table presents the pro forma results of the operations of the combined institutions as if the Merger occurred on January 1, 2021. The pro forma income statement adjustments are limited to the effects of fair value mark amortization and accretion and intangible asset amortization and do not consider future cost savings the Corporation expects to achieve subsequent to the merger of Prudential Bank with and into the Bank.

	Year Ended December 31	
	2022	2021
	(dollars in thousands)	
Net interest income.....	\$ 801,907	\$ 687,216
Provision for credit losses	34,041	(14,400)
<i>Net Interest Income After Provision for Credit Losses</i>	767,866	701,616
Total noninterest income.....	232,054	277,217
Total noninterest expenses	663,133	635,568
<i>Income Before Income Taxes</i>	336,787	343,265
Income tax expense	57,249	59,985
<i>Net Income</i>	<u>\$ 279,538</u>	<u>\$ 283,280</u>

NOTE 3 – RESTRICTIONS ON CASH AND CASH EQUIVALENTS

Collateral is posted by the Corporation with counterparties to secure derivative and other contracts, which is included in "interest-bearing deposits with other banks." On the consolidated balance sheets, the amounts of such collateral as of December 31, 2022 and 2021 were \$13.9 million and \$202.8 million, respectively.

NOTE 4 – INVESTMENT SECURITIES

The following tables present the amortized cost and estimated fair values of investment securities, as of December 31:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
(dollars in thousands)				
2022				
Available for Sale				
U.S. Government securities	\$ 226,140	\$ —	\$ (7,655)	\$ 218,485

Commercial mortgage-backed securities.....	974,541	6,141	(9,534)	971,148
Auction rate securities	76,350	—	(1,683)	74,667
Total.....	<u>\$ 3,129,530</u>	<u>\$ 74,116</u>	<u>\$ (16,256)</u>	<u>\$ 3,187,390</u>
Held to Maturity				
Residential mortgage-backed securities	\$ 404,958	\$ 11,022	\$ (7,067)	\$ 408,913
Commercial mortgage-backed securities	575,426	—	(18,472)	556,954
Total	<u>\$ 980,384</u>	<u>\$ 11,022</u>	<u>\$ (25,539)</u>	<u>\$ 965,867</u>

During the first quarter of 2022, all ARC's were sold.

On May 1, 2022, the Corporation transferred certain residential mortgage-backed securities and commercial mortgage-backed securities from AFS to HTM classification as permitted by ASU 2019-04. The estimated fair value of the securities transferred was \$415.2 million, and the amortized cost of the securities was \$479.0 million.

Securities carried at \$1.1 billion at December 31, 2022 and \$2.5 billion at December 31, 2021, were pledged as collateral to secure public and trust deposits.

The amortized cost and estimated fair values of debt securities as of December 31, 2022, by contractual maturity, are shown in the following table. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	Available for Sale		Held to Maturity	
	Amortized Cost	Estimated Fair Value	Amortized Cost	Estimated Fair Value
	(dollars in thousands)			
Due in one year or less	\$ 148,382	\$ 143,463	\$ —	\$ —
Due from one year to five years	159,126	154,536	—	—
Due from five years to ten years	535,229	497,049	—	—
Due after ten years.....	1,128,490	952,466	—	—
	<u>1,971,227</u>	<u>1,747,514</u>	<u>—</u>	<u>—</u>
Residential mortgage-backed securities ⁽¹⁾	242,527	212,698	457,325	399,845
Commercial mortgage-backed securities ⁽¹⁾	631,604	552,522	863,931	725,204
Collateralized mortgage obligations ⁽¹⁾	147,155	134,033	—	—
Total	<u>\$ 2,992,513</u>	<u>\$ 2,646,767</u>	<u>\$ 1,321,256</u>	<u>\$ 1,125,049</u>

⁽¹⁾ Maturities for mortgage-backed securities and collateralized mortgage obligations are dependent upon the interest rate environment and prepayments on the underlying loans.

The following table presents information related to gross gains and losses on the sales of securities:

	Gross Realized Gains	Gross Realized Losses	Net Gains (Losses)
	(dollars in thousands)		
2022	\$ 1,587	\$ (1,614)	\$ (27)
2021	35,593	(2,077)	33,516
2020	6,545	(3,492)	3,053

During 2021, the Corporation completed a balance sheet restructuring that included a \$34.0 million gain on the sale of Visa Shares, offset by losses on other securities of \$0.4 million, primarily in connection with the sale of \$24.6 million of ARCs.

During 2020, the Corporation completed a balance sheet restructuring that included the sale of investment securities, with an amortized cost of \$79.0 million and an estimated fair value of \$82.0 million, resulting in net investment securities gains of \$3.0 million. Offsetting these gains were \$2.9 million of prepayment penalties recorded in non-interest expense for the redemption of FHLB advances.

The following tables present the gross unrealized losses and estimated fair values of investments, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, as of December 31:

	Less Than 12 months			12 Months or Longer			Total	
	Number of Securities	Estimated Fair Value	Unrealized Losses	Number of Securities	Estimated Fair Value	Unrealized Losses	Estimated Fair Value	Unrealized Losses

The Corporation's collateralized mortgage obligations and mortgage-backed securities have contractual terms that generally do not permit the issuer to settle the securities at a price less than the amortized cost of the investment. The change in fair value of these securities is attributable to changes in interest rates and not credit quality. The Corporation does not have the intent to sell, and does not believe it will more likely than not be required to sell, any of these securities prior to a recovery of their fair value to amortized cost. Therefore, the Corporation does not have an ACL for these investments as of December 31, 2022 and 2021.

As of December 31, 2022 and 2021, no ACL was required for state and municipal securities. The Corporation does not have the intent to sell and does not believe it will be more likely than not to be required to sell any of these securities prior to a recovery of their fair value to amortized cost, which may be at maturity.

As of December 31, 2022 and 2021, all corporate debt securities were rated above investment grade. Based on the payment status, rating and management's evaluation of these securities, no ACL was required for corporate debt securities as of December 31, 2022 and 2021.

NOTE 5 – LOANS AND ALLOWANCE FOR CREDIT LOSSES

Loans and leases, net of unearned income

Loans and leases, net of unearned income are summarized as follows as of December 31:

	2022	2021
	(dollars in thousands)	
Real estate - commercial mortgage.....	\$ 7,693,835	\$ 7,279,080
Commercial and industrial ⁽¹⁾	4,477,537	4,208,327
Real-estate - residential mortgage	4,737,279	3,846,750

Overdrafts	3,403	1,988
Gross loans	<u>20,308,924</u>	<u>18,342,386</u>
Unearned income	<u>(29,377)</u>	<u>(17,036)</u>
Net loans.....	<u>\$ 20,279,547</u>	<u>\$ 18,325,350</u>

⁽¹⁾ Includes PPP loans totaling \$20.4 million and \$301.3 million as of December 31, 2022 and 2021 respectively.

The Corporation has extended credit to officers and directors of the Corporation and to their associates. These related-party loans are made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unrelated persons and do not involve more than the normal risk of collection or present other unfavorable features. The aggregate dollar amount of these loans, including unadvanced commitments, was \$126.3 million and \$129.6 million as of December 31, 2022 and 2021, respectively. During 2022, additions totaled \$4.2 million and repayments totaled \$7.5 million for related-party loans.

Allowance for Credit Losses

The ACL consists of loans evaluated collectively and individually for expected credit losses. The ACL represents an estimate of expected credit losses over the expected life of the loans as of the balance sheet date and is recorded as a reduction to net loans. The ACL is increased by charges to expense, through the provision for credit losses, and decreased by charge-offs, net of recoveries. The reserve for OBS credit exposures includes estimated losses on unfunded loan commitments, letters of credit and other OBS credit exposures.

The following table summarizes the ACL - loans balance and the reserve for OBS credit exposures balance as of December 31, 2022 and 2021:

	2022	2021
	(dollars in thousands)	
ACL - loans	\$ 269,366	\$ 249,001
Reserve for OBS credit exposures ⁽¹⁾	<u>\$ 16,328</u>	<u>\$ 14,533</u>

⁽¹⁾ Included in other liabilities on the Consolidated Balance Sheets.

The following table presents the activity in the ACL - loans balances for the years ended December 31:

	2022	2021	2020
	(dollars in thousands)		
Balance at beginning of period	\$ 249,001	\$ 277,567	\$ 163,620
CECL Day 1 Provision expense	7,954	—	—
Purchased credit deteriorated loans	1,135	—	—
Impact of adopting CECL on January 1, 2020	—	—	45,724
Loans charged off	(21,472)	(30,952)	(30,557)

Provision for loan losses ⁽¹⁾	(15,059)	(443)	8,373	24,862	(2,772)	3,695	18,656
Balance at December 31, 2022	<u>\$ 69,456</u>	<u>\$ 70,116</u>	<u>\$ 26,429</u>	<u>\$ 83,250</u>	<u>\$ 10,743</u>	<u>\$ 9,372</u>	<u>\$ 269,366</u>

⁽¹⁾ Provision included in the table only includes the portion related to net loans

The ACL - loans includes qualitative adjustments, as appropriate, intended to capture the impact of uncertainties not reflected in the quantitative models. Qualitative adjustments include and consider changes in national, regional and local economic and business conditions, an assessment of the lending environment, including underwriting standards and other factors affecting credit quality. The increase in ACL - loans in 2022 was related to loan growth and changes to the macroeconomic outlook. The impact from qualitative adjustments related to COVID-19 on the ACL - loans decreased in 2021 with the improvement in economic conditions.

Non-accrual Loans

All loans individually evaluated for impairment are measured for losses on a quarterly basis. As of December 31, 2022 and 2021, substantially all of the Corporation's individually evaluated loans with total commitments greater than or equal to \$1.0 million were measured based on the estimated fair value of each loan's collateral, if any. Collateral could be in the form of real estate, in the case of commercial mortgages and construction loans, or business assets, such as accounts receivable or inventory, in the case of commercial and industrial loans. Commercial and industrial loans may also be secured by real estate.

As of December 31, 2022 and 2021, approximately 91% and 98%, respectively, of loans evaluated individually for impairment with principal balances greater than or equal to \$1.0 million, whose primary collateral is real estate, were measured at estimated fair value using appraisals performed by state certified third-party appraisers that had been updated in the preceding 12 months.

The following table presents total non-accrual loans, by class segment:

	2022			2021		
	With a Related Allowance	Without a Related Allowance	Total	With a Related Allowance	Without a Related Allowance	Total
(dollars in thousands)						
Real estate - commercial mortgage..	\$ 39,722	\$ 30,439	\$ 70,161	\$ 20,564	\$ 32,251	\$ 52,815
Commercial and industrial.....	14,804	12,312	27,116	12,571	17,570	30,141
Real estate - residential mortgage....	25,315	979	26,294	35,269	—	35,269
Real estate - home equity.....	5,975	130	6,105	8,671	—	8,671
Real estate - construction.....	866	502	1,368	173	728	901
Consumer.....	92	—	92	229	—	229
Equipment lease financing and other.....	4,052	9,255	13,307	6,247	9,393	15,640
Total.....	<u>\$ 90,826</u>	<u>\$ 53,617</u>	<u>\$ 144,443</u>	<u>\$ 83,724</u>	<u>\$ 59,942</u>	<u>\$ 143,666</u>

As of December 31, 2022, there were \$53.6 million of non-accrual loans that did not have a related allowance for credit losses. The estimated fair values of the collateral securing these loans exceeded their carrying amount, or the loans were previously charged down to realizable collateral values. Accordingly, no specific valuation allowance was considered to be necessary. The amount of interest income on non-accrual loans that was recognized was approximately \$2.2 million in 2022 and \$1.3 million in 2021.

Asset Quality

Maintaining an appropriate ACL is dependent on various factors, including the ability to identify potential problem loans in a timely manner. For commercial construction, residential construction, commercial and industrial, and commercial real estate, an internal risk rating process is used. The Corporation believes that internal risk ratings are the most relevant credit quality indicator for these types of loans. The migration of loans through the various internal risk categories is a significant component of the ACL methodology for these loans, under both the CECL and incurred loss models, which bases the probability of default on this migration. Assigning risk ratings involves judgment. The Corporation's loan review officers provide a separate assessment of risk rating accuracy. Risk ratings may be changed based on the ongoing monitoring procedures performed by loan officers or credit administration staff, or if specific loan review assessments identify a deterioration or an improvement in the loans.

The following table summarizes designated internal risk categories by portfolio segment and loan class, by origination year, in the current period:

December 31, 2022									
	Term Loans Amortized Cost Basis by Origination Year						Revolving Loans Amortized Cost Basis	Revolving Loans converted to Term Loans Amortized Cost Basis	Total

⁽¹⁾ Excludes real estate - construction - other.

⁽²⁾ Loans originated in 2021 and 2020 include \$301.3 million of PPP loans that were assigned a rating of Pass based on the existence of a federal government guaranty through the SBA.

The Corporation considers the performance of the loan portfolio and its impact on the ACL. The Corporation does not assign internal risk ratings to smaller balance, homogeneous loans, such as home equity, residential mortgage, construction loans to individuals secured by residential real estate, consumer and equipment lease financing. For these loans, the most relevant credit quality indicator is delinquency status, and the Corporation evaluates credit quality based on the aging status of the loan. The following table presents the amortized cost of these loans based on payment activity, by origination year, for the current period:

December 31, 2022									
	Term Loans Amortized Cost Basis by Origination Year						Revolving Loans Amortized Cost Basis	Revolving Loans converted to Term Loans Amortized Cost Basis	Total

Collateral-Dependent Loans

A financial asset is considered to be collateral-dependent when the debtor is experiencing financial difficulty and repayment is expected to be provided substantially through the sale or operation of the collateral. For all classes of financial assets deemed collateral-dependent, the Corporation elected the practical expedient to estimate expected credit losses based on the collateral's fair value less cost to sell. In most cases, the Corporation records a partial charge-off to reduce the loan's carrying value to the collateral's fair value less cost to sell. Substantially all of the collateral supporting collateral-dependent financial assets consists

of various types of real estate including: residential properties; commercial properties such as retail centers, office buildings, and lodging; agriculture land; and vacant land.

Troubled Debt Restructurings

The following table presents TDRs, by class segment for the years ended December 31:

	<u>2022</u>	<u>2021</u>
	(dollars in thousands)	
Real estate - commercial mortgage.....	\$ 3,255	\$ 3,464
Commercial and industrial.....	1,809	1,857
Real estate - residential mortgage.....	13,804	11,948
Real estate - home equity.....	10,717	12,218
Consumer.....	—	5
Total accruing TDRs	<u>29,585</u>	29,492
Non-accrual TDRs ⁽¹⁾	<u>31,853</u>	<u>55,945</u>
Total TDRs	<u>\$ 61,438</u>	<u>\$ 85,437</u>

⁽¹⁾ Included within non-accrual loans in the preceding table.

The following table presents TDRs, by class segment, for loans that were modified during the years ended December 31:

	<u>2022</u>		<u>2021</u>		<u>2020</u>	
	<u>Number of Loans</u>	<u>Post- Modification Recorded Investment</u>	Number of Loans	Post- Modification Recorded Investment	Number of Loans	Post- Modification Recorded Investment
	(dollars in thousands)					
Real estate - commercial mortgage.....	1	\$ 150	9	\$ 16,020	12	\$ 24,868
Commercial and industrial.....	1	82	10	2,823	20	5,218
Real estate - residential mortgage	5	293	46	13,256	48	10,493
Real estate - home equity	5	329	30	1,226	48	4,359
Real estate - construction	—	—	1	154	—	—
Consumer	13	792	—	—	14	345
Total	<u>25</u>	<u>\$ 1,646</u>	<u>96</u>	<u>\$ 33,479</u>	<u>142</u>	<u>\$ 45,283</u>

Restructured loan modifications may include payment schedule modifications, interest rate concessions, bankruptcies, principal reduction or some combination of these concessions. The restructured loan modifications primarily included maturity date extensions, rate modifications and payment schedule modifications.

In accordance with regulatory guidance, payment schedule modifications granted after March 13, 2020 to borrowers impacted by the effects of COVID-19 and who are not delinquent at the time of the payment schedule modifications have been excluded from TDRs. As of December 31, 2022, \$3.4 million in recorded investment remain in an active COVID-19 deferral program.

NOTE 6 – PREMISES AND EQUIPMENT

The following is a summary of premises and equipment as of December 31:

	<u>2022</u>	<u>2021</u>
	(dollars in thousands)	
Land.....	\$ 39,752	\$ 38,494
Buildings and improvements.....	357,698	346,098
Furniture and equipment.....	152,048	145,627
Construction in progress.....	8,711	8,644
Total premises and equipment.....	<u>558,209</u>	538,863
Less: Accumulated depreciation and amortization.....	<u>(333,068)</u>	(318,506)
Net premises and equipment.....	<u>\$ 225,141</u>	<u>\$ 220,357</u>

NOTE 7 – GOODWILL AND INTANGIBLE ASSETS

Goodwill totaled \$550.5 million and \$534.3 million as of December 31, 2022 and 2021, respectively. The increase was the result of the Prudential Bancorp acquisition. See "Note 2 - Business Combinations" in the Notes to Consolidated Financial Statements for additional information. There were no goodwill impairment charges in 2022 based on the annual assessment.

The estimated fair values of the Corporation's reporting units are subject to uncertainty, including future changes in fair values of banks in general and future operating results of reporting units, which could differ significantly from the assumptions used in the current valuation of reporting units.

The follow table summarizes intangible assets, which are included in goodwill and intangible assets on the consolidated balance sheets:

	<u>2022</u>	<u>2021</u>
	(dollars in thousands)	
<u>Intangible assets</u>		
Amortizing intangible assets.....	\$ 13,596	\$ 5,368
Accumulated amortization.....	<u>(3,311)</u>	<u>(1,580)</u>
Net intangibles.....	<u>\$ 10,285</u>	<u>\$ 3,788</u>

Net intangibles of \$10.3 million as of December 31, 2022, included \$7.2 million of CDI that was recorded as part of the Merger and is being amortized over seven years using the sum-of-the-years digits method.

NOTE 8 – MORTGAGE SERVICING RIGHTS

The following table summarizes the changes in MSRs, which are included in other assets on the consolidated balance sheets, with adjustments to the fair value included in mortgage banking income on the consolidated statements of income:

	2022	2021	2020
	(dollars in thousands)		
Amortized cost:			
Balance at beginning of period.....	\$ 35,993	\$ 38,745	\$ 39,267
Originations of MSRs.....	4,067	9,216	12,173
Amortization.....	(5,843)	(11,968)	(12,695)
Balance at end of period.....	<u>\$ 34,217</u>	<u>\$ 35,993</u>	<u>\$ 38,745</u>
Valuation allowance:			
Balance at beginning of period.....	\$ (600)	\$ (10,500)	\$ —
Reduction (addition) to valuation allowance.....	600	9,900	(10,500)
Balance at end of period.....	<u>\$ —</u>	<u>\$ (600)</u>	<u>\$ (10,500)</u>
Net MSRs at end of period.....	<u>\$ 34,217</u>	<u>\$ 35,393</u>	<u>\$ 28,245</u>
Estimated fair value of MSRs at end of period.....	<u>\$ 50,044</u>	<u>\$ 35,393</u>	<u>\$ 28,245</u>

MSRs represent the economic value of existing contractual rights to service mortgage loans that have been sold. The total portfolio of mortgage loans serviced by the Corporation for unrelated third parties was \$4.2 billion and \$4.3 billion as of December 31, 2022 and 2021, respectively. Actual and expected prepayments of the underlying mortgage loans can impact the value of MSRs. The Corporation accounts for MSRs at the lower of amortized cost or fair value.

The fair value of MSRs is estimated by discounting the estimated cash flows from servicing income, net of expense, over the expected life of the underlying loans at a discount rate commensurate with the risk associated with these assets. Expected life is based on the contractual terms of the loans, as adjusted for prepayment projections. The fair values of MSRs were \$50.0 million and \$35.4 million as of December 31, 2022 and 2021, respectively. Based on its fair value analysis as of December 31, 2022, the Corporation determined that no valuation allowance was required for the year ended December 31, 2022. The valuation allowance was \$0.6 million and \$10.5 million at December 31, 2021 and 2020, respectively.

Total servicing income, recognized as an increase to mortgage banking income in the consolidated statements of income, was \$10.6 million, \$11.2 million and \$11.9 million as of December 31, 2022, 2021 and 2020, respectively.

Total MSR amortization expense, recognized as a reduction to mortgage banking income in the consolidated statements of income, was \$5.8 million, \$12.0 million and \$12.7 million in 2022, 2021 and 2020, respectively. Estimated future MSR amortization expense, based on balances as of December 31, 2022, and the estimated remaining lives of the underlying loans, follows (dollars in thousands):

Year	
2023.....	\$ 4,391
2024.....	3,915
2025.....	3,474
2026.....	3,074
2027.....	2,713
Thereafter.....	16,650
Total estimated amortization expense.....	<u>\$ 34,217</u>

NOTE 9 – DEPOSITS

Deposits consisted of the following as of December 31:

	2022	2021
	(dollars in thousands)	
Noninterest-bearing demand.....	\$ 7,006,388	\$ 7,370,963
Interest-bearing demand.....	5,410,903	5,819,539
Savings and money market accounts	6,434,621	6,403,995
Total demand and savings	18,851,912	19,594,497
Brokered deposits.....	208,416	251,526
Time deposits	1,589,210	1,727,476
Total Deposits	<u>\$ 20,649,538</u>	<u>\$ 21,573,499</u>

The scheduled maturities of time deposits as of December 31, 2022 were as follows (dollars in thousands):

Year	
2023	\$ 966,235
2024	234,681
2025	285,527
2026	19,704
2027	18,474
Thereafter.....	64,589
	<u>\$ 1,589,210</u>

Included in time deposits were certificates of deposit equal to or greater than \$100,000 of \$691.4 million and \$745.5 million as of December 31, 2022 and 2021, respectively. Time deposits of \$250,000 or more were \$214.8 million and \$219.0 million as of December 31, 2022 and 2021, respectively.

NOTE 10 – BORROWINGS

Borrowings as of December 31, 2022 and 2021 and the related maximum amounts outstanding at the end of any month in each of the two years then ended are presented below.

	December 31		Maximum Outstanding	
	2022	2021	2022	2021
	(dollars in thousands)			
Federal funds purchased	\$ 191,000	\$ —	\$ 292,000	\$ —
Federal Home Loan Bank advances	1,250,000	—	1,250,000	535,969
Other borrowings:				
Customer repurchase agreements	574,394	416,764	574,394	552,547
Other repurchase agreements	315,000	—	315,000	—
Other borrowings	1,179	939	N/A	N/A
Total other borrowings	<u>\$ 890,573</u>	<u>\$ 417,703</u>		

In connection with the Merger, the Corporation assumed \$253.5 million of Prudential Bancorp FHLB advances.

As of December 31, 2022, the Corporation had aggregate availability under federal funds lines of \$2.3 billion, with \$0.2 billion of outstanding borrowings against that amount. A combination of commercial real estate loans, commercial loans, consumer loans and investment securities were pledged to the FRB to provide access to the FRB discount window borrowings. As of December 31, 2022 and 2021, the Corporation had \$1.3 billion and \$0.9 billion, respectively, of collateralized borrowing availability at the FRB discount window and no outstanding borrowings.

As of December 31, 2022, the Corporation had additional borrowing capacity of approximately \$4.6 billion with the FHLB. Advances from the FHLB, when utilized, are secured by qualifying commercial real estate and residential mortgage loans, investments and other assets.

The following is included in senior and subordinated debt as of December 31:

	<u>2022</u>	<u>2021</u>
	(dollars in thousands)	
Subordinated debt	\$ 543,601	\$ 608,519
Junior subordinated deferrable interest debentures.....	—	16,496
Unamortized discounts and issuance costs	<u>(3,967)</u>	<u>(4,609)</u>
Total senior debt and subordinated debt	<u>\$ 539,634</u>	<u>\$ 620,406</u>

The following table summarizes the scheduled maturities with an original maturity of one year or more as of December 31, 2022 (dollars in thousands):

Year	
2023.....	\$ —
2024.....	168,778
2025.....	—
2026.....	—
2027.....	—
Thereafter	375,000
Unamortized discounts and issuance costs	<u>(4,144)</u>
	<u>\$ 539,634</u>

On March 16, 2022, \$65.0 million of senior notes with a fixed rate of 3.60% were repaid upon their maturity.

On March 30, 2021, pursuant to a cash tender offer, the Corporation purchased \$75.0 million and \$60.0 million of its subordinated notes that are scheduled to mature on November 15, 2024 and its senior notes which matured on March 16, 2022, respectively. The Corporation incurred \$11.3 million in debt extinguishment costs and expensed \$0.8 million of unamortized discount costs. In addition, during the first quarter of 2021, the Corporation prepaid \$536.0 million of FHLB advances and incurred \$20.9 million in prepayment penalties.

In March 2020, the Corporation issued \$200.0 million and \$175.0 million of subordinated notes due in 2030 and 2035, respectively. The subordinated notes maturing in 2030 were issued with a fixed-to-floating rate of 3.25% and an effective rate of 3.35%, due to issuance costs, and the subordinated notes maturing in 2035 were issued with a fixed-to-floating rate of 3.75% and an effective rate of 3.85%, due to issuance costs.

In June 2015, the Corporation issued \$150.0 million of subordinated notes, which mature on November 15, 2024 and carry a fixed rate of 4.50% and an effective rate of 4.69% as a result of discounts and issuance costs. Interest is paid semi-annually in May and November.

In November 2014, the Corporation issued \$100.0 million of subordinated notes, which mature on November 15, 2024 and carry a fixed rate of 4.50% and an effective rate of 4.87% as a result of discounts and issuance costs. Interest is paid semi-annually in May and November.

The Corporation owned all of the common stock of the Columbia Bancorp Statutory Trust, Columbia Bancorp Statutory Trust II and Columbia Bancorp Statutory Trust III, each of which issued TruPS in conjunction with the Corporation issuing junior subordinated deferrable interest debentures to these trusts. In September 2022, the Corporation redeemed all of the outstanding junior subordinated deferrable interest debentures issued to these trusts, totaling approximately \$17.2 million, and these trusts redeemed all of the outstanding TruPS in a like amount, after which the subsidiary trusts were canceled.

NOTE 11 – DERIVATIVE FINANCIAL INSTRUMENTS

The following table presents the notional amounts and fair values of derivative financial instruments as of December 31:

	2022		2021	
	Notional Amount	Asset (Liability) Fair Value	Notional Amount	Asset (Liability) Fair Value
(dollars in thousands)				
Interest Rate Locks with Customers				
Positive fair values	\$ 70,836	\$ 182	\$ 261,428	\$ 2,326

Negative fair values	8,280	(499)	9,364	(240)

The following table presents the effect of fair value and cash flow hedge accounting on AOCI for the years ended December 31, 2022 and 2021:

	Amount of Gain (Loss) Recognized in OCI on Derivative	Amount of Gain (Loss) Recognized in OCI Included Component	Amount of Gain (Loss) Recognized in OCI Excluded Component	Location of Gain (Loss) Recognized from AOCI into Income	Amount of Gain (Loss) Reclassified from AOCI into Income	Amount of Gain (Loss) Reclassified from AOCI into Income Included Component	Amount of Gain (Loss) Reclassified from AOCI into Income Excluded Component
(in thousands)							

Derivatives in Cash Flow Hedging Relationships:

Year Ended December 31, 2022							
Interest Rate Products	\$ (81,400)	\$ (81,400)	\$ —	Interest Income	\$ (7,761)	\$ (7,761)	\$ —
Year Ended December 31, 2021							
Interest Rate Products	(3,452)	(3,452)	—	Interest Income	2,776	2,776	—

The following table presents the effect of fair value and cash flow hedge accounting on the income statement for the years ended December 31:

	Consolidated Statements of Income Classification			
	2022		2021	
	Interest Income	Interest Expense	Interest Income	Interest Expense
	(in thousands)			
Total amounts of income line items presented in the consolidated statements of income in which the effects of fair value or cash flow hedges are recorded.....	\$ (7,761)	\$ —	\$ 2,776	\$ —
Interest contracts:				
Amount of gain (loss) reclassified from AOCI into income.	(7,761)	—	2,776	—
Amount of gain or (loss) reclassified from AOCI into income as a result that a forecasted transaction is no longer probable of occurring.....	—	—	—	—
Amount of gain (loss) reclassified from AOCI into income - included component.....	(7,761)	—	2,776	—
Amount of gain (loss) reclassified from AOCI into income - excluded component.....	—	—	—	—

During the next twelve months, the Corporation estimates that an additional \$38.5 million will be reclassified as a decrease to interest income.

The following table presents the fair value gains (losses) on derivative financial instruments for the years ended December 31:

	Consolidated Statements of Income Classification	2022			2021			2020		
		(dollars in thousands)								
Mortgage banking derivatives ⁽¹⁾	Mortgage banking	\$ (2,360)	\$ (3,392)	\$ 4,974						
Interest rate derivatives.....	Other expense	—	1,050	70						
Foreign exchange contracts.....	Other income	81	(36)	12						
Net fair value gains (losses) on derivative financial instruments..		<u>\$ (2,279)</u>	<u>\$ (2,378)</u>	<u>\$ 5,056</u>						

⁽¹⁾ Includes interest rate locks with customers and forward commitments.

Fair Value Option

The Corporation has elected to measure mortgage loans held for sale at fair value. The following table presents a summary of mortgage loans held for sale and the impact of the fair value election on the consolidated financial statements as of December 31:

	2022		2021	
	(dollars in thousands)			
Amortized cost ⁽¹⁾	\$ 7,180	\$ 35,050		
Fair value.....	7,264	35,768		

⁽¹⁾ Cost basis of mortgage loans held for sale represents the unpaid principal balance.

Losses related to changes in fair values of mortgage loans held for sale were \$0.6 million for the year ended December 31, 2022. Losses related to changes in fair values of mortgage loans held for sale were \$2.5 million for the year ended December 31, 2021, and gains related to changes in fair values of mortgage loans held for sale were \$2.8 million for the year ended December 31, 2020. The gains and losses are recorded on the consolidated income statements as an adjustment to mortgage banking income.

Balance Sheet Offsetting

The fair values of interest rate derivative agreements and foreign exchange contracts the Corporation enters into with customers and dealer counterparties may be eligible for offset on the consolidated balance sheets if they are subject to master netting arrangements or similar agreements. The Corporation has elected to net its financial assets and liabilities designated as cash flow hedges when offsetting is permitted. The following table presents the financial instruments that are eligible for offset, and the effects of offsetting, on the consolidated balance sheets as of December 31:

	Gross Amounts Recognized on the Consolidated Balance Sheets	Gross Amounts Not Offset on the Consolidated Balance Sheets		Net Amount
		Financial Instruments ⁽¹⁾	Cash Collateral ⁽²⁾	
(in thousands)				
2022				
Interest rate derivative assets	\$ 166,614	\$ (8,071)	\$ —	\$ 158,543
Foreign exchange derivative assets with correspondent banks.....	101	(101)	—	—
Total	<u>\$ 166,715</u>	<u>\$ (8,172)</u>	<u>\$ —</u>	<u>\$ 158,543</u>
Interest rate derivative liabilities.....	\$ 296,267	\$ (2,771)	\$ (127,638)	\$ 165,858
Foreign exchange derivative liabilities with correspondent banks..	499	(101)	—	398
Total.....	<u>\$ 296,766</u>	<u>\$ (2,872)</u>	<u>\$ (127,638)</u>	<u>\$ 166,256</u>
2021				
Interest rate derivative assets	\$ 158,578	\$ (8,028)	\$ —	\$ 150,550
Foreign exchange derivative assets with correspondent banks.....	69	(69)	—	—
Total.....	<u>\$ 158,647</u>	<u>\$ (8,097)</u>	<u>\$ —</u>	<u>\$ 150,550</u>
Interest rate derivative liabilities.....	\$ 86,087	\$ (6,656)	\$ (74,359)	\$ 5,072
Foreign exchange derivative liabilities with correspondent banks..	240	(69)	—	171
Total.....	<u>\$ 86,327</u>	<u>\$ (6,725)</u>	<u>\$ (74,359)</u>	<u>\$ 5,243</u>

⁽¹⁾ For interest rate derivative assets, amounts represent any derivative liability fair values that could be offset in the event of counterparty or customer default. For interest rate derivative liabilities, amounts represent any derivative asset fair values that could be offset in the event of counterparty or customer default.

⁽²⁾ Amounts represent cash collateral (pledged by the Corporation) or received from the counterparty on interest rate derivative transactions and foreign exchange contracts with financial institution counterparties. Interest rate derivatives with customers are collateralized by the same collateral securing the underlying loans to those borrowers. Cash collateral amounts are included in the table only to the extent of the net derivative fair values.

Cash Flow Hedge Terminations

In January 2023, the Corporation terminated interest rate derivatives designated as cash flow hedges with a combined notional amount of \$1.0 billion. As the hedged transaction continues to be probable, the unrealized losses that have been recorded in AOCI will be recognized as reduction to interest income when the previously forecasted hedged item affects earnings in future periods.

NOTE 12 – REGULATORY MATTERS

Regulatory Capital Requirements

The Corporation and the Bank are subject to regulatory capital requirements administered by banking regulators. Failure to meet minimum capital requirements can trigger certain mandatory – and possibly additional discretionary – actions by regulators that, if undertaken, could have a direct material effect on the Corporation's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of its assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Basel III Rules

In July 2013, the FRB approved Basel III Rules establishing a new comprehensive capital framework for U.S. banking organizations and implementing the Basel Committee on Banking Supervision's December 2010 framework for strengthening international capital standards. The Basel III Rules substantially revised the risk-based capital requirements applicable to bank holding companies and depository institutions.

The minimum regulatory capital requirements established by the Basel III Rules became effective on January 1, 2015, and became fully phased in on January 1, 2019. The Basel III Rules require the Corporation and the Bank to:

- Meet a minimum Common Equity Tier 1 capital ratio of 4.50% of risk-weighted assets and a minimum Tier 1 capital of 6.00% of risk-weighted assets;
- Meet a minimum Total capital ratio of 8.00% of risk-weighted assets and a minimum Tier 1 leverage capital ratio of 4.00% of average assets;
- Maintain a "capital conservation buffer" of 2.50% above the minimum risk-based capital requirements, which must be maintained to avoid restrictions on capital distributions and certain discretionary bonus payments; and
- Comply with a revised definition of capital to improve the ability of regulatory capital instruments to absorb losses. Certain non-qualifying capital instruments, including cumulative preferred stock and TruPS, are excluded as a component of Tier 1 capital for institutions of the Corporation's size.

The Basel III Rules use a standardized approach for risk weightings that expand the risk-weightings for assets and off-balance sheet exposures from the previous 0%, 20%, 50% and 100% categories to a much larger and more risk-sensitive number of categories, depending on the nature of the assets and off-balance sheet exposures, resulting in higher risk weights for a variety of asset categories.

The Corporation and the Bank are required to maintain a "capital conservation buffer" of 2.50% above the minimum risk-based capital requirements. The rules provide that the failure to maintain the "capital conservation buffer" results in restrictions on capital distributions and discretionary cash bonus payments to executive officers. As a result, under the Basel III Rules, if the Bank fails to maintain the required minimum capital conservation buffer, the Corporation will be subject to limits, and possibly prohibitions, on its ability to obtain capital distributions from such subsidiaries. If the Corporation does not receive sufficient cash dividends from the Bank, it may not have sufficient funds to pay dividends on its common stock, service its debt obligations or repurchase its common stock.

As of December 31, 2022 and 2021, the Corporation's capital levels met the fully phased-in minimum capital requirements, including the new capital conservation buffers, as prescribed in the Basel III Rules.

As of December 31, 2022 and 2021, the Bank was well capitalized under the regulatory framework for prompt corrective action based on its capital ratio calculation. To be categorized as well capitalized, the bank was required to maintain minimum total risk-based, Tier I risk-based, Common Equity Tier I risk-based and Tier I leverage ratios as set forth in the table below.

There are no conditions or events since December 31, 2022, that management believes have changed the institution's categories.

The following tables present the Total risk-based, Tier I risk-based, Common Equity Tier I risk-based and Tier I leverage requirements under the Basel III Rules as of December 31:

	2022					
	Actual		For Capital Adequacy Purposes		Well Capitalized	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
(dollars in thousands)						
Total Capital (to Risk-Weighted Assets):						
Corporation	\$ 3,051,813	13.6 %	\$ 1,799,138	8.0 %	N/A	N/A

N/A – Not applicable as "well capitalized" applies to banks only.

Dividend and Loan Limitations

The dividends that may be paid by the Bank to the Parent Company are subject to certain legal and regulatory limitations. The total amount available for payment of dividends by the Bank to the Parent Company was approximately \$151.6 million as of December 31, 2022, based on the Bank maintaining enough capital to be considered well capitalized under the Basel III Rules.

Under current regulations, the Bank is limited in the amount it may loan to its affiliates, including the Parent Company. Loans to a single affiliate may not exceed 10%, and the aggregate of loans to all affiliates may not exceed 20% of the Bank's regulatory capital.

NOTE 13 – INCOME TAXES

The components of income taxes are as follows:

	2022	2021	2020
	(dollars in thousands)		
Current tax expense:			
Federal	\$ 44,478	\$ 35,692	\$ 38,397
State	6,906	10,646	7,389
Total current tax expense	51,384	46,338	45,786
Deferred tax (benefit) expense:			
Federal	8,974	11,081	(18,131)
State	(324)	1,329	(3,460)
Total deferred tax (benefit) expense	8,650	12,410	(21,591)
Total income tax expense	<u>\$ 60,034</u>	<u>\$ 58,748</u>	<u>\$ 24,195</u>

The differences between the effective income tax rate and the federal statutory income tax rate are as follows:

	2022	2021	2020
Statutory tax rate	21.0 %	21.0 %	21.0 %
Tax credit investments.....	(2.0)	(3.0)	(5.7)
Tax-exempt income	(3.5)	(3.0)	(4.9)
Bank owned life insurance	(0.7)	(0.5)	(0.7)
State income taxes, net of federal benefit.....	1.2	2.6	1.1
Executive compensation.....	0.3	0.1	—
FDIC Premium	0.3	0.3	0.3
Penalties.....	—	—	0.2
Other, net.....	0.7	0.1	0.7
Effective income tax rate.....	<u>17.3 %</u>	<u>17.6 %</u>	<u>12.0 %</u>

The net DTA recorded by the Corporation is included in other assets and consists of the following tax effects of temporary differences as of December 31:

	2022	2021
	(dollars in thousands)	
Deferred tax assets:		
Unrealized holding losses on securities.....	\$ 110,689	\$ —
Allowance for credit losses.....	65,481	62,465
State loss carryforwards.....	26,421	23,996
Lease Liability	21,264	21,034
Tax credit investments.....	11,186	11,203
Other accrued expenses	10,059	10,633
Deferred compensation.....	9,014	9,190
Tax credit carryforwards.....	5,146	27,192
Stock-based compensation.....	4,681	3,499
Other	8,158	7,348
Total gross deferred tax assets.....	<u>\$ 272,099</u>	<u>\$ 176,560</u>
Deferred tax liabilities:		
Equipment lease financing.....	\$ 26,560	\$ 41,049
Right-of-use-asset	19,276	18,671
MSRs	7,750	8,016
Premises and equipment	5,775	9,151
Acquisition premiums/discounts	5,492	5,466
Postretirement and defined benefit plans	1,755	1,243
Unrealized holding gains on AFS securities.....	—	10,432
Intangible assets.....	—	1,272
Other	14,507	13,492
Total gross deferred tax liabilities	<u>81,115</u>	<u>108,792</u>
Net deferred tax asset, before valuation allowance	190,984	67,768
Valuation allowance	(26,421)	(23,996)
Net deferred tax asset	<u>\$ 164,563</u>	<u>\$ 43,772</u>

In assessing the realizability of DTAs, management considers whether it is more likely than not that some or all of the DTAs will not be realized. The ultimate realization of DTAs is dependent upon the generation of future taxable income and/or capital gain income during periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies, such as those that may be implemented to generate capital gains, in making this assessment.

The valuation allowance relates to state net operating loss carryforwards for which realizability is uncertain. As of December 31, 2022 and 2021, the Corporation had state net operating loss carryforwards of approximately \$335.0 million and \$306.9 million, respectively, which are available to offset future state taxable income, and expire at various dates through 2042.

As of December 31, 2022, based on the level of historical taxable income and projections for future taxable income over the periods in which the DTAs are deductible, management believes it is more likely than not that the Corporation will realize the benefits of its DTAs, net of the valuation allowance.

As of December 31, 2022, the Corporation had tax credit carryforwards related to TCIs of approximately \$5.1 million. The Corporation recorded a DTA of \$5.1 million, reflecting the benefit of these tax credit carryforwards. Such DTA will begin to expire in 2042 if not yet utilized.

Uncertain Tax Positions

The following table summarizes the changes in unrecognized tax benefits for the years ended December 31:

	<u>2022</u>	<u>2021</u>	<u>2020</u>
	(dollars in thousands)		
Balance at beginning of year	\$ 1,673	\$ 2,151	\$ 2,517
Current period tax positions	112	120	95
Lapse of statute of limitations	(557)	(598)	(461)
Balance at end of year	<u>\$ 1,228</u>	<u>\$ 1,673</u>	<u>\$ 2,151</u>

Virtually all of the Corporation's unrecognized tax benefits are for positions that are taken on an annual basis on state tax returns. Increases to unrecognized tax benefits will occur as a result of accruing for the nonrecognition of the position for the current year.

Decreases will occur as a result of the lapsing of the statute of limitations for the oldest outstanding year which includes the position. These offsetting increases and decreases are likely to continue in the future, including over the next twelve months. While the net effect on total unrecognized tax benefits during this period cannot be reasonably estimated, approximately \$0.3 million is expected to reverse in 2023 due to lapsing of the statute of limitations. Decreases can also occur throughout the settlement of positions with taxing authorities.

As of December 31, 2022, if recognized, all of the Corporation's unrecognized tax benefits would impact the effective tax rate. Not included in the table above is \$0.2 million of federal income tax benefit on unrecognized state tax benefits which, if recognized, would also impact the effective tax rate. Interest accrued related to unrecognized tax benefits is recorded as a component of income tax expense. Penalties, if incurred, would also be recognized in income tax expense. The Corporation recognized approximately \$121.0 thousand and \$75.0 thousand of recoveries in 2022 and 2021, respectively, for interest and penalties in income tax expense related to unrecognized tax positions. As of December 31, 2022 and 2021, total accrued interest and penalties related to unrecognized tax positions were approximately \$0.5 million and \$0.6 million, respectively.

The Corporation files income tax returns in the federal and various state jurisdictions. In most cases, unrecognized tax benefits are related to tax years that remain subject to examination by the relevant taxing authorities. With few exceptions, the Corporation is no longer subject to federal, state and local examinations by tax authorities for years before 2019.

Tax Credit Investments

The TCIs are included in other assets, with any unfunded equity commitments recorded in other liabilities on the consolidated balance sheets. Certain TCIs qualify for the proportional amortization method and are amortized over the period the Corporation expects to receive the tax credits, with the expense included within income taxes on the consolidated statements of income. Other TCIs are accounted for under the equity method of accounting, with amortization included within non-interest expense on the consolidated statements of income. This amortization includes equity in partnership losses and the systematic write-down of investments over the period in which income tax credits are earned. All of the TCIs are evaluated for impairment at the end of each reporting period.

The following table presents the balances of the Corporation's TCIs and related unfunded commitments as of December 31:

	<u>2022</u>	<u>2021</u>
	(dollars in thousands)	
<u>Included in other assets:</u>		
Affordable housing tax credit investments, net.....	\$ 161,103	\$ 161,052
Other tax credit investments, net.....	61,077	42,987
Total TCIs, net.....	<u>\$ 222,180</u>	<u>\$ 204,039</u>
<u>Included in other liabilities:</u>		
Unfunded affordable housing tax credit commitments	\$ 53,108	\$ 49,364
Other tax credit liabilities.....	46,814	33,941
Total unfunded tax credit commitments and liabilities	<u>\$ 99,922</u>	<u>\$ 83,305</u>

The following table presents other information relating to the Corporation's TCIs for the years ended December 31:

	<u>2022</u>	<u>2021</u>	<u>2020</u>
	(dollars in thousands)		
<u>Components of income taxes:</u>			
Tax credits and benefits.....	\$ (27,154)	\$ (28,141)	\$ (32,940)

Deferred tax expense	766	639	921
Total reduction in income tax expense	<u>\$ (7,090)</u>	<u>\$ (10,124)</u>	<u>\$ (11,590)</u>
<u>Amortization of TCIs:</u>			
Total amortization of TCIs.....	<u>\$ 2,783</u>	<u>\$ 6,187</u>	<u>\$ 6,126</u>

NOTE 14 – NET INCOME PER COMMON SHARE

Basic net income per common share is calculated as net income available to common shareholders divided by the weighted average number of shares outstanding.

Diluted net income per common share is calculated as net income available to common shareholders divided by the weighted average number of shares outstanding plus the incremental number of shares added as a result of converting common stock equivalents, calculated using the treasury stock method. The Corporation's common stock equivalents consist of outstanding stock options, restricted stock, RSUs and PSUs. PSUs are required to be included in weighted average diluted shares outstanding if performance measures, as defined in each PSU award agreement, are met as of the end of the period.

A reconciliation of weighted average common shares outstanding used to calculate basic and diluted net income per share follows:

	<u>2022</u>	<u>2021</u>	<u>2020</u>
	(in thousands)		
Weighted average common shares outstanding (basic).....	164,119	162,233	162,372
Impact of common stock equivalents.....	1,353	1,074	718
Weighted average common shares outstanding (diluted).....	<u>165,472</u>	<u>163,307</u>	<u>163,090</u>

NOTE 15 – SHAREHOLDERS' EQUITY

Preferred Stock

On October 29, 2020, the Corporation issued 8.0 million depository shares ("Depository Shares"), each representing a 1/40th interest in a share of Fulton's 5.125% Fixed Rate Non-Cumulative Perpetual Preferred Stock, Series A, of which 200,000 are authorized and issued, with a liquidation preference of \$1,000 per share (equivalent to \$25.00 per Depository Share), for an aggregate offering amount of \$200 million. The preferred stock is redeemable, at the Corporation's option, in whole or in part, on and after January 15, 2026, and redeemable in whole, but not in part, prior to January 15, 2026 within 90 days following the occurrence of a regulatory capital treatment event. The Corporation received net proceeds from the offering of \$192.9 million, after deducting underwriting discounts and commissions and before deducting transaction expenses payable by the Corporation.

Stock Reissuance

On July 1, 2022, the Corporation reissued 6,208,516 shares of common stock that had been held as Treasury stock in connection with the Merger.

Accumulated Other Comprehensive Income (Loss)

The following table presents the components of other comprehensive income (loss) for the years ended December 31:

	Before-Tax Amount	Tax Effect	Net of Tax Amount
(dollars in thousands)			
2022			
Unrealized gain (loss) on securities	\$ (403,606)	\$ 91,437	\$ (312,169)
Reclassification adjustment for securities gains (losses) included in net income ⁽¹⁾	(27)	7	(20)
Amortization of net unrealized gains (losses) on AFS transferred to HTM ⁽²⁾	(57,509)	13,026	(44,483)
Net unrealized holding gains (loss) arising during the period on interest rate derivatives used in cash flow hedges	(81,400)	18,437	(62,963)
Reclassification adjustment for net loss (gain) realized in net income on interest rate derivatives used in cash flow hedges.....	7,761	(1,757)	6,004
Unrecognized pension and postretirement income (cost)	825	(181)	644
Amortization of net unrecognized pension and postretirement items ⁽³⁾	128	(28)	100

Common Stock Repurchase Plans

On December 20, 2022, the Corporation announced that its board of directors approved the 2023 Repurchase Program. Under the 2023 Repurchase Program, the Corporation is authorized to repurchase up to \$100.0 million of its common stock, or approximately 3.6% of its outstanding shares, through December 31, 2023. Under the 2023 Repurchase Program, repurchased shares are added to treasury stock at cost. As permitted by securities laws and other legal requirements, and subject to market conditions and other factors, purchases may be made from time to time in open market or privately negotiated transactions, including, without limitation, through accelerated share repurchase transactions. The 2023 Repurchase Program may be discontinued at any time.

On March 21, 2022, the Corporation announced that its board of directors approved the repurchase of up to \$75 million of shares of the Corporation's common stock, or approximately 2.7% of the Corporation's outstanding shares, based on the closing price of the Corporation's common stock and the number of shares outstanding on March 17, 2022. No shares of the Corporation's common stock were repurchased under this program during 2022.

In February 2021, the Corporation's board of directors approved a share repurchase program pursuant to which the Corporation is authorized to repurchase up to \$75.0 million of its outstanding shares of common stock, or approximately 3.2% of its outstanding shares, through December 31, 2021. In November 2021, the Corporation's board of directors approved the extension of this program through March 31, 2022. During 2021, 2.8 million shares were repurchased at a total cost of \$43.9 million, or \$15.65 per share, under this program.

In October 2019, the Corporation's board of directors approved a share repurchase program pursuant to which the Corporation was authorized to repurchase up to \$100.0 million of its outstanding shares of common stock, or approximately 3.9% of its outstanding shares, through December 31, 2020. During the first quarter of 2020, 2.9 million shares were repurchased at a total cost of \$39.7 million, or \$13.65 per share, under this program. The repurchase program was suspended in mid-March of 2020 in order to preserve liquidity in response to potential unknown economic impacts of the COVID-19 pandemic at that time.

Under these repurchase programs, repurchased shares are added to treasury stock, at cost. As permitted by securities laws and other legal requirements, and subject to market conditions and other factors, purchases may be made from time to time in open market or privately negotiated transactions, including, without limitation, through accelerated share repurchase transactions.

NOTE 16 – STOCK-BASED COMPENSATION PLANS

The following table presents compensation expense and related tax benefits for all equity awards recognized in the consolidated statements of income for the years ended December 31, 2022, 2021 and 2020:

	2022	2021	2020
	(dollars in thousands)		
Compensation expense.....	\$ 15,081	\$ 9,264	\$ 8,381
Tax benefit	(2,690)	(2,027)	(1,790)
Total stock-based compensation, net of tax	<u>\$ 12,391</u>	<u>\$ 7,237</u>	<u>\$ 6,591</u>

The tax benefits as a percentage of compensation expense, as shown in the preceding table, were 17.8%, 21.9% and 21.4% in 2022, 2021 and 2020, respectively. These percentages differ from the Corporation's federal statutory tax rate of 21%. Tax benefits are only recognized over the vesting period for awards that ordinarily will generate a tax deduction when exercised, in the case of non-qualified stock options, or upon vesting, in the case of restricted stock, RSUs, and PSUs. Tax benefits in excess of the tax rate resulted from incentive stock option exercises that triggered a tax deduction when they were exercised and excess tax benefits realized on vesting RSUs and PSUs during the period.

The following table provides information about stock option activity for the year ended December 31, 2022:

	Stock Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value (in millions)
Outstanding and exercisable as of December 31, 2021	239,591	\$ 11.57		
Exercised	(130,503)	11.12		
Forfeited	(624)	12.10		
Expired	—	—		
Outstanding and exercisable as of December 31, 2022.....	<u>108,464</u>	<u>\$ 12.11</u>	<u>1.0 year</u>	<u>\$ 0.5</u>

The following table presents information about stock options exercised for the years ended December 31, 2022, 2021 and 2020:

	2022	2021	2020
	(dollars in thousands)		
Number of options exercised	130,503	148,670	89,725
Total intrinsic value of options exercised	\$ 842	\$ 801	\$ 192
Cash received from options exercised.....	\$ 1,402	\$ 1,651	\$ 880
Tax benefit from options exercised.....	\$ 163	\$ 155	\$ 37

Upon exercise, the Corporation issues shares from its authorized, but unissued, common stock to satisfy the options.

The following table provides information about nonvested restricted stock, RSUs and PSUs granted under the Employee Equity Plan and Directors' Plan for the year ended December 31, 2022:

	Restricted Stock/RSUs/PSUs ⁽¹⁾	
	Shares	Weighted Average Grant Date Fair Value
Nonvested as of December 31, 2021.....	2,062,739	\$ 14.26
Granted.....	884,633	15.34
Vested	(343,527)	16.36
Forfeited.....	(79,649)	15.22
Nonvested as of December 31, 2022.....	<u>2,524,196</u>	<u>\$ 14.16</u>

⁽¹⁾ There were no nonvested stock options at December 31, 2022 or 2021.

As of December 31, 2022, there was \$10.8 million of total unrecognized compensation cost (pre-tax) related to restricted stock, RSUs and PSUs that will be recognized as compensation expense over a weighted average period of 1.8 years. As of December

31, 2022, the Employee Equity Plan had 5.0 million shares reserved for future grants through 2023, and the Directors' Plan had 46.1 thousand shares reserved for future grants through 2029.

The fair value of certain PSUs with market-based performance conditions granted under the Employee Equity Plan was estimated on the grant date using the Monte Carlo valuation methodology performed by a third-party valuation expert. This valuation is dependent upon certain assumptions, as summarized in the following table:

	2022	2021	2020
Risk-free interest rate	2.84 %	0.25 %	0.25 %
Volatility of Corporation's stock	43.46 %	42.55 %	33.10 %
Expected life of PSUs	3 years	3 years	3 years

The expected life of the PSUs with fair values measured using the Monte Carlo valuation methodology was based on the defined performance period of three years. Volatility of the Corporation's stock was based on historical volatility for the period commensurate with the expected life of the PSUs. The risk-free interest rate is the zero-coupon U.S. Treasury rate commensurate with the expected life of the PSUs on the date of the grant. Based on the assumptions above, the Corporation calculated an estimated fair value per PSU with market-based performance conditions granted in 2022, 2021 and 2020 of \$14.93, \$16.94 and \$10.16, respectively.

Under the ESPP, eligible employees can purchase stock of the Corporation at 85% of the fair market value of the stock on the date of purchase. The ESPP is considered to be a compensatory plan and, as such, compensation expense is recognized for the 15% discount on shares purchased. The following table summarizes activity under the ESPP:

	2022	2021	2020
ESPP shares purchased	134,645	134,156	194,485
Average purchase price per share (85% of market value)	\$ 14.06	\$ 13.92	\$ 10.02
Compensation expense recognized (in thousands)	\$ 334	\$ 329	\$ 344

NOTE 17 – EMPLOYEE BENEFIT PLANS

The following summarizes retirement plan expense for the years ended December 31:

	2022	2021	2020
	(dollars in thousands)		
401(k) Retirement Plan	\$ 10,988	\$ 10,338	\$ 9,853
Pension Plan	(1,347)	217	660
Total.....	\$ 9,641	\$ 10,555	\$ 10,513

The 401(k) Retirement Plan is a defined contribution plan under which eligible employees may defer a portion of their pre-tax covered compensation on an annual basis, with employer matches of up to 5% of employee compensation. Employee and employer contributions under these features are 100% vested.

Contributions to the Pension Plan are actuarially determined and funded annually, if necessary. The Corporation recognizes the funded status of its Pension Plan on the consolidated balance sheets and recognizes the changes in that funded status through OCI. The Pension Plan has been curtailed, with no additional benefits accruing to participants.

Pension Plan

The net periodic pension cost for the Pension Plan, as determined by consulting actuaries, consisted of the following components for the years ended December 31:

	2022	2021	2020
	(dollars in thousands)		
Interest cost.....	\$ 2,393	\$ 2,244	\$ 2,726
Expected return on assets	(4,393)	(4,044)	(3,925)
Net amortization and deferral.....	653	2,017	1,859
Net periodic pension cost.....	<u>\$ (1,347)</u>	<u>\$ 217</u>	<u>\$ 660</u>

The following table summarizes the changes in the projected benefit obligation and fair value of Pension Plan assets for the plan years ended December 31:

	2022	2021
	(dollars in thousands)	
Projected benefit obligation at beginning of year	\$ 87,530	\$ 92,292
Interest cost	2,393	2,244
Benefit payments	(4,502)	(4,272)
Change in assumptions	(17,131)	(2,613)
Experience gain.....	426	(121)
Projected benefit obligation at end of year.....	<u>\$ 68,716</u>	<u>\$ 87,530</u>
Fair value of plan assets at beginning of year.....	\$ 94,115	\$ 87,177
Actual return on plan assets	(11,476)	11,210
Benefit payments	(4,502)	(4,272)
Fair value of plan assets at end of year	<u>\$ 78,137</u>	<u>\$ 94,115</u>

The following table presents the funded status of the Pension Plan, included in other assets and other liabilities on the consolidated balance sheets, as of December 31:

	2022	2021
	(dollars in thousands)	
Projected benefit obligation	\$ (68,716)	\$ (87,530)
Fair value of plan assets.....	78,137	94,115
Funded status	<u>\$ 9,421</u>	<u>\$ 6,585</u>

The following table summarizes the changes in the unrecognized net loss included as a component of accumulated other comprehensive income (loss):

	Unrecognized Net Loss	
	Before tax	Net of tax
	(dollars in thousands)	
Balance as of December 31, 2020.....	\$ 25,474	\$ 19,843
Recognized as a component of 2021 periodic pension cost	(2,017)	(1,574)
Unrecognized losses arising in 2021.....	(9,899)	(7,724)
Balance as of December 31, 2021.....	<u>13,558</u>	<u>10,545</u>
Recognized as a component of 2022 periodic pension cost	(653)	(510)
Unrecognized losses arising in 2022.....	(835)	(651)
Balance as of December 31, 2022.....	<u>\$ 12,070</u>	<u>\$ 9,384</u>

The following rates were used to calculate the net periodic pension cost and the present value of benefit obligations as of December 31:

	2022	2021	2020
Discount rate-projected benefit obligation	4.93 %	2.80 %	2.50 %
Expected long-term rate of return on plan assets	5.00 %	5.00 %	5.00 %

The discount rates used were determined using the FTSE Pension Discount Curve (formerly, the Citigroup Average Life discount rate table), as adjusted based on the Pension Plan's expected benefit payments.

The 5.00% long-term rate of return on plan assets used to calculate the net periodic pension cost was based on historical returns, adjusted for expectations of long-term asset returns based on the December 31, 2022 weighted average asset allocations. The expected long-term return is considered to be appropriate based on the asset mix and the historical returns realized.

The following table presents a summary of the fair values of the Pension Plan's assets as of December 31:

	2022		2021	
	Estimated Fair Value	% of Total Assets	Estimated Fair Value	% of Total Assets
	(dollars in thousands)			
Equity mutual funds	\$ 23,338		\$ 35,752	
Equity common trust funds	16,919		19,824	
Equity securities	40,257	51.5 %	55,576	59.1 %
Cash and money market funds	9,102		8,447	
Fixed income mutual funds	15,252		15,566	
Corporate debt securities	2,324		2,733	
U.S. Government agency securities	7,041		9,524	
Fixed income securities and cash	33,719	43.2 %	36,270	38.5 %
Other alternative investment funds	4,161	5.3 %	2,269	2.4 %
Total	<u>\$ 78,137</u>	<u>100.0 %</u>	<u>\$ 94,115</u>	<u>100.0 %</u>

Investment allocation decisions are made by a retirement plan committee. The goal of the investment allocation strategy is to match certain benefit obligations with maturities of fixed income securities. Alternative investments may include managed futures, commodities, real estate investment trusts, master limited partnerships, and long-short strategies with traditional stocks and bonds. All alternative investments are in the form of mutual funds, not individual contracts, to enable daily liquidity.

The fair values for assets held by the Pension Plan are based on quoted prices for identical instruments and would be categorized as Level 1 assets under the fair value hierarchy.

Estimated future benefit payments are as follows (in thousands):

Year	
2023	\$ 4,676
2024	4,730
2025	4,791
2026	4,904
2027	4,959
Thereafter	24,632
Total	<u>\$ 48,692</u>

Multiemployer Defined Benefit Pension Plan

In connection with the Merger, the Corporation assumed the obligations of Prudential Bancorp under the Prudential Bancorp Pension Plan that had previously been closed to new Prudential Bancorp participants.

The Prudential Bancorp Pension Plan is structured as a multiple employer plan under Internal Revenue Code Section 413(c). It maintains a single trust and all assets are commingled and invested on a pooled basis. All amounts payable by the Prudential Bancorp Pension Plan are a general charge upon all its assets. This structure gives rise to the risk if a participating employer fails before funding up to cover the liabilities of its participants and orphans, contributions for all remaining employers will increase, as assets have to be re-allocated to cover such shortfall.

Information regarding the Prudential Bancorp Pension Plan as of December 31, 2022 is as follows:

Legal Name of Plan	Pentegra Defined Benefit Plan for Financial Institutions
	(dollars in thousands)
Plan Employer Identification Number	23-1928421
The Corporation's contribution for the year ended December 31, 2022 ⁽¹⁾	\$ 320
Are the Corporation's contributions more than 5% of total contributions?	No
Funded Status	84.33 %

⁽¹⁾ Includes 2023 prepayment of \$125 thousand.

Postretirement Benefits

The Corporation provides medical benefits and life insurance benefits under the Postretirement Plan to certain retired full-time employees who were employees of the Corporation prior to January 1, 1998. Prior to February 1, 2014, certain full-time employees became eligible for these discretionary benefits if they reached retirement age while working for the Corporation. The Corporation recognizes the funded status of the Postretirement Plan on the consolidated balance sheets and recognizes the changes in that funded status through OCI.

The components of the net benefit for Postretirement Plan other than pensions are as follows:

	2022	2021	2020
	(dollars in thousands)		
Interest cost	\$ 34	\$ 32	\$ 43
Net amortization and deferral	(525)	(536)	(548)
Net postretirement benefit	\$ (491)	\$ (504)	\$ (505)

This table summarizes the changes in the accumulated postretirement benefit obligation for the years ended December 31:

	2022	2021
	(dollars in thousands)	
Accumulated postretirement benefit obligation at beginning of year	\$ 1,244	\$ 1,322
Interest cost	34	32
Benefit payments	(155)	(167)
Change in experience	51	71
Change in assumptions	(202)	(14)
Accumulated postretirement benefit obligation at end of year	\$ 972	\$ 1,244

The fair values of the Postretirement Plan assets were \$0 as of both December 31, 2022 and 2021. The funded status of the Postretirement Plan, included in other liabilities on the consolidated balance sheets as of December 31, 2022 and 2021 was \$1.0 million and \$1.2 million, respectively.

The following table summarizes the changes in items recognized as a component of accumulated other comprehensive income (loss):

	Before tax			
	Unrecognized Prior Service Cost	Unrecognized Net Loss (Gain)	Total	Net of tax
	(dollars in thousands)			
Balance as of December 31, 2020.....	\$ (3,012)	\$ (858)	\$ (3,870)	\$ (3,018)
Recognized as a component of 2021 postretirement cost.....	464	72	536	418
Unrecognized gains arising in 2021.....	—	57	57	44
Balance as of December 31, 2021.....	(2,548)	(729)	(3,277)	(2,556)
Recognized as a component of 2022 postretirement cost.....	464	61	525	410
Unrecognized gains arising in 2022.....	—	(150)	(150)	(118)
Balance as of December 31, 2022.....	\$ (2,084)	\$ (818)	\$ (2,902)	\$ (2,264)

The following rates were used to calculate net periodic postretirement benefit cost and the present value of benefit obligations as of December 31:

	2022	2021	2020
Discount rate-projected benefit obligation.....	4.93 %	2.80 %	2.50 %
Expected long-term rate of return on plan assets.....	3.00 %	3.00 %	3.00 %

The discount rates used to calculate the accumulated postretirement benefit obligation were determined using the FTSE Pension Discount Curve (formerly, the Citigroup Average Life discount rate table), as adjusted based on the Postretirement Plan's expected benefit payments.

Estimated future benefit payments under the Postretirement Plan are as follows (dollars in thousands):

Year	
2023.....	\$ 150
2024.....	136
2025.....	124
2026.....	111
2027.....	100
Thereafter.....	297
Total.....	\$ 918

NOTE 18 – LEASES

The Corporation has operating leases for certain financial centers, corporate offices and land.

The following table presents the components of lease expense, which is included in net occupancy expense on the consolidated statements of income (dollars in thousands):

	2022	2021	2020
Operating lease expense.....	\$ 17,766	\$ 16,345	\$ 18,481
Variable lease expense.....	3,017	1,384	2,830
Sublease income.....	(964)	(860)	(749)
Total lease expense.....	\$ 19,819	\$ 16,869	\$ 20,562

Supplemental consolidated balance sheet information related to leases was as follows as of December 31 (dollars in thousands):

Operating Leases	Balance Sheet Classification	2022	2021
ROU assets.....	Other assets	\$ 85,103	\$ 82,431
Lease liabilities	Other liabilities	\$ 93,883	\$ 92,864
Weighted average remaining lease term		6.75 years	7.0 years
Weighted average discount rate		2.89 %	2.73 %

The discount rate used in determining the lease liability for each individual lease is the FHLB fixed advance rate which corresponds with the remaining lease term.

Supplemental cash flow information related to operating leases was as follows (dollars in thousands):

	2022	2021
Cash paid for amounts included in the measurement of lease liabilities	\$ 19,405	\$ 19,611
ROU assets obtained in exchange for lease obligations	18,715	12,588

Lease payment obligations for each of the next five years and thereafter, with a reconciliation to the Corporation's lease liability were as follows (dollars in thousands):

Year	Operating Leases
2023.....	\$ 19,222
2024.....	17,821
2025.....	15,310
2026.....	13,584
2027.....	11,112
Thereafter	26,681
Total lease payments	103,730
Less: imputed interest	(9,847)
Present value of lease liabilities.....	\$ 93,883

As of December 31, 2022, the Corporation had not entered into any significant leases that have not yet commenced.

NOTE 19 – COMMITMENTS AND CONTINGENCIES

Commitments

The Corporation is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee by the borrower or obligor. Since a portion of the commitments is expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Corporation evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral, if any, obtained upon extension of credit is based on management's credit evaluation of the customer. Collateral held varies but may include accounts receivable, inventory, property, equipment and income-producing commercial properties.

Standby letters of credit are conditional commitments issued to guarantee the financial or performance obligation of a customer to a third party. Commercial letters of credit are conditional commitments issued to facilitate foreign and domestic trade transactions for customers. The credit risk involved in issuing letters of credit is similar to that involved in extending loan facilities. These obligations are underwritten consistently with commercial lending standards. The maximum exposure to loss for standby and commercial letters of credit is equal to the contractual (or notional) amount of the instruments.

The Corporation has commitments to extend credit and letters of credit.

The following table presents the Corporation's commitments to extend credit and letters of credit:

	2022	2021
	(dollars in thousands)	
Commercial and industrial.....	\$ 4,832,858	\$ 5,072,008
Real estate - commercial mortgage and real estate - construction.....	1,972,505	1,914,238
Real estate - home equity.....	1,890,258	1,744,922
<i>Total commitments to extend credit</i>	\$ 8,695,621	\$ 8,731,168
Standby letters of credit.....	\$ 260,829	\$ 298,275
Commercial letters of credit.....	49,288	54,196
<i>Total letters of credit</i>	\$ 310,117	\$ 352,471

Residential Lending

The Corporation originates and sells residential mortgages to secondary market investors. The Corporation provides customary representations and warranties to secondary market investors that specify, among other things, that the loans have been underwritten to the standards of the secondary market investor. The Corporation may be required to repurchase specific loans, or reimburse the investor for a credit loss incurred on a sold loan if it is determined that the representations and warranties have not been met. Under some agreements with secondary market investors, the Corporation may have additional credit exposure beyond customary representations and warranties, based on the specific terms of those agreements.

The Corporation maintains a reserve for estimated credit losses related to loans sold to investors. As of December 31, 2022 and 2021, the total reserve for losses on residential mortgage loans sold was \$1.4 million and \$1.1 million, for each period, including reserves for both representation and warranty and credit loss exposures. With the adoption of CECL on January 1, 2020, the reserve for estimated losses on certain residential mortgage loans sold to investors was reclassified to the reserve for OBS credit exposures. In addition, a component of the reserve for OBS credit exposures of \$6.0 million and \$3.8 million as of December 31, 2022 and December 31, 2021, respectively, related to additional credit exposure for potential loan repurchases.

Legal Proceedings

The Corporation is involved in various pending and threatened claims and other legal proceedings in the ordinary course of its business activities. The Corporation evaluates the possible impact of these matters, taking into consideration the most recent information available. A loss reserve is established for those matters for which the Corporation believes a loss is both probable and reasonably estimable. Once established, the reserve is adjusted as appropriate to reflect any subsequent developments. Actual losses with respect to any such matter may be more or less than the amount estimated by the Corporation. For matters where a loss is not probable, or the amount of the loss cannot be reasonably estimated by the Corporation, no loss reserve is established.

In addition, from time to time, the Corporation is involved in investigations or other forms of regulatory or governmental inquiry covering a range of possible issues and, in some cases, these may be part of similar reviews of the specified activities of other companies. These inquiries or investigations could lead to administrative, civil or criminal proceedings involving the Corporation, and could result in fines, penalties, restitution, other types of sanctions, or the need for the Corporation to undertake remedial actions, or to alter its business, financial or accounting practices. The Corporation's practice is to cooperate fully with regulatory and governmental inquiries and investigations.

As of the date of this report, the Corporation believes that any liabilities, individually or in the aggregate, that may result from the final outcomes of pending legal proceedings, or regulatory or governmental inquiries or investigations, will not have a material adverse effect on the financial condition of the Corporation. However, legal proceedings, inquiries and investigations are often unpredictable, and it is possible that the ultimate resolution of any such matters, if unfavorable, may be material to the Corporation's results of operations in any future period, depending, in part, upon the size of the loss or liability imposed and the operating results for the period, and could have a material adverse effect on the Corporation's business. In addition, regardless of the ultimate outcome of any such legal proceeding, inquiry or investigation, any such matter could cause the Corporation to incur additional expenses, which could be significant, and possibly material, to the Corporation's results of operations in any future period.

Kress v. Fulton Bank, N.A.

On October 15, 2019, a former Fulton Bank teller supervisor, D. Kress, filed a putative collective and class action lawsuit on behalf of herself and other teller supervisors, tellers, and other similar non-exempt employees in the U.S. District Court for the District of New Jersey (the "Court"), D. Kress v. Fulton Bank, N.A., Case No. 1:19-cv-18985. The lawsuit alleged that Fulton Bank did not record or otherwise account for the amount of time D. Kress and putative collective and class members spent conducting branch opening security procedures. The lawsuit alleged that by doing so, Fulton Bank violated: (i) the federal Fair Labor Standards Act and sought back overtime wages for a period of three years, liquidated damages and attorney fees and costs; (ii) the New Jersey State Wage and Hour Law and sought back overtime wages for a period of six years, treble damages and attorney fees and costs; and (iii) the New Jersey Wage Payment Law and sought back wages for a period of six years, treble damages and attorney fees and costs. The lawsuit also asserted New Jersey common law claims seeking compensatory damages and interest. Fulton Bank and counsel representing plaintiffs ("Plaintiffs' Counsel") reached and executed a formal settlement agreement to resolve this lawsuit. On June 30, 2022, the Court granted Plaintiffs' Counsel's Motion for Preliminary Approval of Class and Collective Settlement and Provisional Certification of Settlement Class and Collective and scheduled a hearing for final approval of the settlement agreement and matters related thereto for November 2, 2022. On November 2, 2022, the Court granted final approval of the settlement agreement and matters related thereto and dismissed the lawsuit with prejudice. The financial terms of the settlement agreement are not material to the Corporation. The Corporation established an accrued liability during the third quarter of 2020 for the costs expected to be incurred in connection with the settlement agreement.

NOTE 20 – FAIR VALUE MEASUREMENTS

The following tables present assets and liabilities measured at fair value on a recurring basis and reported on the consolidated balance sheets:

	2022			
	Level 1	Level 2	Level 3	Total
	(dollars in thousands)			
Loans held for sale.....	\$ —	\$ 7,264	\$ —	\$ 7,264
Available for sale investment securities:				
U.S. Government securities	218,485	—	—	218,485

Derivative liabilities.....	291	86,110	—	86,401
Total liabilities	\$ 28,910	\$ 86,110	\$ —	\$ 115,020

The valuation techniques used to measure fair value for the items in the preceding tables are as follows:

Loans held for sale – This category includes mortgage loans held for sale that are measured at fair value. Fair values as of December 31, 2022 and 2021, were measured as the price that secondary market investors were offering for loans with similar characteristics. See "Note 1 - Summary of Significant Accounting Policies" for details related to the Corporation's election to measure assets and liabilities at fair value.

Available for sale investment securities – Included in this asset category are debt securities. Level 2 investment securities are valued by a third-party pricing service. The pricing service uses pricing models that vary based on asset class and incorporate available market information, including quoted prices of investment securities with similar characteristics. Because many fixed income securities do not trade on a daily basis, pricing models use available information, as applicable, through processes such as benchmark yield curves, benchmarking of like securities, sector groupings and matrix pricing.

Standard market inputs include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data, including market research publications. For certain security types, additional inputs may be used, or some of the standard market inputs may not be applicable.

- U.S. Government securities – These securities are classified as Level 1. Fair values are based on quoted prices with active markets.
- U.S. Government sponsored agency securities – These debt securities are classified as Level 2. Fair values are determined by a third-party pricing service, as detailed above.
- State and municipal securities/Collateralized mortgage obligations/Residential mortgage-backed securities/Commercial mortgage-backed securities – These debt securities are classified as Level 2. Fair values are determined by a third-party pricing service, as detailed above.
- Corporate debt securities – This category consists of subordinated and senior debt issued by financial institutions (\$415.4 million at December 31, 2022 and \$383.4 million at December 31, 2021), single-issuer trust preferred securities issued by financial institutions (none at December 31, 2022 and at 2021), and other corporate debt issued by non-financial institutions (\$6.9 million at December 31, 2022 and \$2.8 million at December 31, 2021). As noted in "Note 4 - Investment Securities," several corporate debt securities were sold during 2020. Refer to the specific note for further information.

Level 2 investments include subordinated debt and senior debt, and other corporate debt issued by non-financial institutions at December 31, 2022 and 2021. The fair values for these corporate debt securities are determined by a third-party pricing service, as detailed above.

Level 3 investments include ARCs. Due to their illiquidity, ARCs are classified as Level 3 investments and are valued through the use of an expected cash flows model prepared by a third-party valuation expert. The assumptions used in preparing the expected cash flows model include estimates for coupon rates, time to maturity and market rates of return. The most significant unobservable input to the expected cash flows model is an assumed return to market liquidity sometime within the next 5 years. Level 3 values are tested by management through the performance of a trend analysis of the market price and discount rate. Changes in the price and discount rates are compared to changes in market data, including bond ratings, parity ratios, balances and delinquency levels. In the first quarter of 2022, the Corporation sold all of its investment in ARCs.

Investments held in Rabbi Trust - This category consists of mutual funds that are held in trust for employee deferred compensation plans that the Corporation has elected to measure at fair value. Shares of mutual funds are valued based on net asset value, which represents quoted market prices for the underlying shares held in the mutual funds, and as such, are classified as Level 1.

Derivative assets - Fair value of foreign currency exchange contracts classified as Level 1 assets (\$0.7 million at December 31, 2022 and \$0.3 million at December 31, 2021). The mutual funds and foreign exchange prices used to measure these items at fair value are based on quoted prices for identical instruments in active markets.

Level 2 assets, representing the fair value of mortgage banking derivatives in the form of interest rate locks and forward commitments with secondary market investors (\$0.2 million at December 31, 2022 and \$2.4 million at December 31, 2021) and the fair value of interest rate derivatives (\$166.6 million at December 31, 2022 and \$158.6 million at December 31, 2021). The fair values of the interest rate locks, forward commitments and interest rate derivatives represent the amounts that would be required to settle the derivative financial instruments at the balance sheet date. See "Note 11 - Derivative Financial Instruments," for additional information.

Deferred compensation liabilities – Fair value of amounts due to employees under deferred compensation plans, classified as Level 1 liabilities and are included in other liabilities on the consolidated balance sheets. The fair values of these liabilities are determined in the same manner as the related assets, as described under the heading "Investments held in Rabbi Trust" above.

Derivative liabilities - Level 1 liabilities, representing the fair value of foreign currency exchange contracts (\$0.6 million and \$0.3 million at December 31, 2022 and 2021, respectively).

Level 2 liabilities, representing the fair value of mortgage banking derivatives in the form of interest rate locks and forward commitments with secondary market investors (\$0.2 million at December 31, 2022 and none at December 31, 2021) and the fair value of interest rate derivatives (\$296.3 million at December 31, 2022 and \$86.1 million at December 31, 2021).

The fair values of these liabilities are determined in the same manner as the related assets, which are described under the heading "Derivative assets" above.

The following table presents the changes in AFS investment securities measured at fair value on a recurring basis using unobservable inputs (Level 3) for the years ended December 31:

	ARCs (dollars in thousands)
Balance at December 31, 2020.....	\$ 98,206
Sales	(24,619)
Unrealized adjustment to fair value ⁽¹⁾	1,080
Balance at December 31, 2021.....	\$ 74,667
Sales	(74,823)
Unrealized adjustment to fair value ⁽¹⁾	156
Balance at December 31, 2022.....	\$ —

⁽¹⁾ ARCs are classified as AFS investment securities; as such, the unrealized adjustment to fair value was recorded as an unrealized holding gain (loss) and included as a component of "AFS at estimated fair value" on the consolidated balance sheets.

Certain financial instruments are not measured at fair value on an ongoing basis but are subject to fair value measurement in certain circumstances, such as upon their acquisition or when there is evidence of impairment. The following table presents Level 3 financial instruments measured at fair value on a nonrecurring basis:

	2022	2021
	(dollars in thousands)	
Loans, net	\$ 121,115	\$ 118,458
OREO	5,790	1,817
MSRs ⁽¹⁾	50,044	35,393
Total assets	\$ 176,949	\$ 155,668

⁽¹⁾ Amounts shown are estimated fair value. MSRs are recorded on the Corporation's consolidated balance sheets at lower of amortized cost or fair value. See "Note 8 - Mortgage Servicing Rights" for additional information.

The valuation techniques used to measure fair value for the items in the table above are as follows:

- Loans, net – This category consists of loans that were individually evaluated for impairment and have been classified as Level 3 assets. The amount shown is the balance of nonaccrual loans, net of the related ACL. See "Note 5 - Loans and Allowance for Credit Losses," for additional information.
- OREO – This category consists of OREO classified as Level 3 assets, for which the fair values were based on estimated selling prices less estimated selling costs for similar assets in active markets.
- MSRs - This category consists of MSRs, which were initially recorded at fair value upon the sale of residential mortgage loans to secondary market investors, and subsequently carried at the lower of amortized cost or fair value. MSRs are amortized as a reduction to servicing income over the estimated lives of the underlying loans. MSRs are stratified by product type and evaluated for impairment by comparing each stratum's carrying amount to its estimated

fair value. Fair values are determined at the end of each quarter through a discounted cash flows valuation performed by a third-party valuation expert. Significant inputs to the valuation included expected net servicing income, the discount rate and the expected life of the underlying loans. Expected life is based on the contractual terms of the loans, as adjusted for prepayment projections. The weighted average annual constant prepayment rate and the weighted average discount rate used in the December 31, 2022 valuation were 8.0% and 9.0%, respectively. Management reviews the reasonableness of the significant inputs to the third-party valuation in comparison to market data. See "Note 8 - Mortgage Servicing Rights," for additional information. Changes in any of those inputs, in isolation, could result in a significantly different fair value measurement, as depicted in the table below:

Significant Input	Scenario Shock	% Change in Valuation
Prepayment Rate	+ 15%	(5)%
Prepayment Rate	- 15%	5%
Discount Rate	- 200 bps	10%
Discount Rate	+ 200 bps	(8)%

The following table details the book values and the estimated fair values of the Corporation's financial instruments as of December 31, 2022 and 2021. A general description of the methods and assumptions used to estimate such fair values is also provided.

Fair values of financial instruments are significantly affected by the assumptions used, principally the timing of future cash flows and discount rates. Because assumptions are inherently subjective in nature, the estimated fair values cannot be substantiated by comparison to independent market quotes and, in many cases, the estimated fair values could not necessarily be realized in an immediate sale or settlement of the instrument. The aggregate fair value amounts presented do not necessarily represent management's estimate of the underlying value of the Corporation.

For short-term financial instruments, defined as those with remaining maturities of 90 days or less, and excluding those recorded at fair value on the Corporation's consolidated balance sheets, book value was considered to be a reasonable estimate of fair value.

The following instruments are predominantly short-term:

Assets	Liabilities
Cash and cash equivalents	Demand and savings deposits
Accrued interest receivable	Short-term borrowings
	Accrued interest payable

FRB and FHLB stock represent restricted investments and are carried at cost on the consolidated balance sheets, which is a reasonable estimate of fair value.

As of December 31, 2022, fair values for loans and time deposits were estimated by discounting future cash flows using the current rates, as adjusted for liquidity considerations, at which similar loans would be made to borrowers and similar deposits would be issued to customers for the same remaining maturities. Fair values of loans also include estimated credit losses that would be assumed in a market transaction, which represents estimated exit prices.

Brokered deposits consists of demand and saving deposits, which are classified as Level 1, and time deposits, which are classified as Level 2. The fair value of these deposits are determined in a manner consistent with the respective type of deposits discussed above.

Management Report on Internal Control Over Financial Reporting

The management of Fulton Financial Corporation is responsible for establishing and maintaining adequate internal control over financial reporting. Fulton Financial Corporation's internal control system is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Corporation's internal control over financial reporting as of December 31, 2022, using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control – Integrated Framework (2013). Based on this assessment, management concluded that, as of December 31, 2022, the Corporation's internal control over financial reporting is effective based on those criteria.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
Fulton Financial Corporation:

Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting

We have audited the accompanying consolidated balance sheets of Fulton Financial Corporation and subsidiaries (the Company) as of December 31, 2022 and 2021, the related consolidated statements of income, comprehensive income, shareholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2022, and the related notes (collectively, the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of December 31, 2022, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2022, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2022 based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Valuation of the allowance for credit losses related to loans evaluated collectively for expected credit losses

As discussed in Notes 1 and 5 to the consolidated financial statements, the Company's allowance for credit losses related to loans evaluated collectively for expected credit losses (collective ACL) was \$254.1 million, of a total allowance for credit losses of \$269.4 million as of December 31, 2022. The collective ACL includes the measure of expected credit losses on a collective (pooled) basis for those loans and leases that share similar risk characteristics and uses an undiscounted approach. The Company estimates the collective ACL by applying a probability of default (PD) and loss given default (LGD) to the exposure at default (EAD) at the loan level. The PD models are econometric regression models that utilize the Company's historical credit loss experience and incorporate a reasonable and supportable economic forecast through the use of externally developed macroeconomic scenarios. After a reasonable and supportable forecast period, the forecast of future economic conditions reverts to long-run historical economic trends. The LGD model calculates a lifetime LGD estimate for each loan pool utilizing a loss rate approach that is based on the Company's historical charge-off experience. The EAD calculation incorporates constant pre-payment rates (CPR) and inputs related to loan level cash flows, maturity dates, and interest rates. The constant pre-payment rates utilized in the EAD calculation are sourced from a prepayment calculation that utilizes the Company's historical loan prepayment history to develop prepayment speeds. The collective ACL also includes qualitative reserve adjustments for factors that are not fully captured in the quantitative models.

We identified the assessment of the valuation of the collective ACL as a critical audit matter. Such assessment involved significant measurement uncertainty requiring especially complex auditor judgment, and specialized skills and knowledge of the industry. In addition, auditor judgment was required to evaluate the sufficiency of audit evidence obtained. The assessment of the collective ACL encompassed the evaluation of the overall ACL methodology, which includes the methods and models used to estimate PD, LGD, and EAD and their key assumptions and inputs. Key assumptions and inputs used in the estimation of the PD rate include historical default observations, the historical observation period, loan pool segmentation including the use of credit risk ratings for commercial and industrial loans, commercial mortgages and construction loans, and a reasonable and supportable economic forecast which includes reversion to long run historical economic trends. Key assumptions and inputs used in the estimation of the LGD rate include the loan pool segmentation, historical loss observations, and the historical observation period. Key assumptions and inputs used in the estimation of the EAD include a constant prepayment rate and loan level cash flow adjustments. Key assumptions and inputs used in the estimation of the constant prepayment rate include historical prepayment observations, interest rates, the historical observation period, and loan pool segmentation. The assessment also included an evaluation of the qualitative adjustments, including an evaluation of the methods used by management in estimating this reserve. The ACL estimate is sensitive to changes in the assumptions discussed above, such that changes in these assumptions can cause significant changes to the estimate.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls related to the Company's measurement of the collective ACL estimate, including controls over the:

- development of the collective ACL methodology
- development of the PD and LGD models and of the methods used to calculate the CPR and EAD
- identification and determination of the key inputs and assumptions used in the PD and LGD models, and EAD calculation which included key inputs and assumptions within the pre-payment model

- performance monitoring of the PD and LGD models
- development of the qualitative adjustments
- measurement and on-going monitoring of the overall ACL estimate.

We evaluated the Company's process to develop the collective ACL estimate by testing certain sources of data, factors, and assumptions that the Company used, and considered the relevance and reliability of such data, factors, assumptions, and related methodologies. In addition, we involved credit risk professionals with specialized skills and knowledge who assisted in:

- evaluating the Company's collective ACL methodology for compliance with U.S. generally accepted accounting principles
- evaluating the assumptions and methodologies used in developing the PD rates, LGD rates, and EAD estimate and judgments made by the Company relative to performance monitoring by inspecting management's model and methodology documentation and through comparisons against Company specific metrics, the Company's business environment, and applicable industry and regulatory practices
- determining whether loans are pooled by similar risk characteristics by comparing to the Company's business environment and relevant industry practices
- testing individual credit ratings for a selection of borrowers by evaluating the financial performance of the borrower, sources of repayment, and any relevant guarantees and underlying collateral, evaluating the methodology used to develop the qualitative adjustments by inspecting management's methodology and development documentation and assessing the effects of these factors on the collective ACL estimate compared with relevant industry practices and Company specific metrics.

We also assessed the sufficiency of the audit evidence obtained related to the collective ACL estimate by evaluating the cumulative results of the audit procedures, qualitative aspects of the Company's accounting practices, and potential bias in the accounting estimates.

/s/ KPMG LLP

We have served as the Company's auditor since 2002.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not applicable.

Item 9A. Controls and Procedures

Disclosure Controls and Procedures

The Corporation carried out an evaluation, under the supervision and with the participation of the Corporation's management, including the Corporation's Chief Executive Officer and Chief Financial Officer, of the effectiveness of its disclosure controls and procedures, as defined in Exchange Act Rules 13a-15(e) and 15d-15(e). Based upon the evaluation, the Corporation's Chief Executive Officer and Chief Financial Officer concluded that, as of December 31, 2022, the Corporation's disclosure controls and procedures are effective. Disclosure controls and procedures are controls and procedures that are designed to ensure that information required to be disclosed in the Corporation's reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

The "Management Report on Internal Control over Financial Reporting" and the "Report of Independent Registered Public Accounting Firm" may be found in Item 8, "Financial Statements and Supplementary Data" of this document.

Changes in Internal Control over Financial Reporting

Prudential Bancorp was acquired on July 1, 2022. The Corporation has extended oversight and monitoring processes that support internal control over financial reporting to include the acquired operations.

On December 31, 2022, E. Philip Wenger retired from the position of Chief Executive Officer. Curtis J. Myers became Chief Executive Officer on January 1, 2023.

Other than these processes, there have been no changes in the Corporation's internal control over financial reporting during the Corporation's fiscal year ended December 31, 2022 that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting as of December 31, 2022.

Item 9B. Other Information

PART IV

Item 15. Exhibits and Financial Statement Schedules

(a) The following documents are filed as part of this report:

1. Financial Statements — The following consolidated financial statements of Fulton Financial Corporation and subsidiaries are incorporated herein by reference in response to Item 8 above:
 - (i) Consolidated Balance Sheets - December 31, 2022 and 2021.
 - (ii) Consolidated Statements of Income - Years ended December 31, 2022, 2021 and 2020.
 - (iii) Consolidated Statements of Comprehensive Income - Years ended December 31, 2022, 2021 and 2020.
 - (iii) Consolidated Statements of Shareholders' Equity - Years ended December 31, 2022, 2021 and 2020.
 - (iv) Consolidated Statements of Cash Flows - Years ended December 31, 2022, 2021 and 2020.
 - (v) Notes to Consolidated Financial Statements.
 - (vi) Report of Independent Registered Public Accounting Firm.
2. Financial Statement Schedules — All financial statement schedules for which provision is made in the applicable accounting regulations of the Securities and Exchange Commission are not required under the related instructions or are inapplicable and have therefore been omitted.

(b) The following exhibits are filed with or incorporated by reference in this Annual Report on Form 10-K, and this list includes the Exhibit Index.

- 2.1 Agreement and Plan of Merger with Prudential Bancorp, Inc. dated March 1, 2022 (Incorporated by reference to Exhibit 2.1 of the Fulton Financial Corporation Current Report on Form 8-K filed on March 1, 2022).
- 3.1 Articles of Incorporation, as amended and restated, of Fulton Financial Corporation as amended (Incorporated by reference to Exhibit 3.1 of the Fulton Financial Corporation Current Report Form 8-K filed June 24, 2011).
- 3.2 Statement with Respect to Shares of Fixed Rate Non-Cumulative Perpetual Preferred Stock, Series A of Fulton Financial Corporation, dated October 23, 2020, filed with the Pennsylvania Department of State (Incorporated by reference to Exhibit 3.1 of the Fulton Financial Corporation Current Report on Form 8-K filed on October 29, 2020).
- 3.3 Bylaws of Fulton Financial Corporation as amended (Incorporated by reference to Exhibit 3.1 of the Fulton Financial Corporation Current Report on a Form 8-K filed May 14, 2021).
- 4.1 An Indenture entered into on November 17, 2014 between Fulton Financial Corporation and Wilmington Trust, National Association as trustee, relating to the issuance by Fulton Financial Corporation of \$250 million aggregate principal amount of 4.50% subordinated notes due November 15, 2024 (Incorporated by reference to Exhibit 4.1 of the Fulton Financial Corporation Current Report on Form 8-K filed November 17, 2014).
- 4.2 First Supplemental Indenture entered into on November 17, 2014 between Fulton Financial Corporation and Wilmington Trust, National Association as trustee, relating to the issuance by Fulton Financial Corporation of \$250 million aggregate principal amount of 4.50% subordinated notes due November 15, 2024 (Incorporated by reference to Exhibit 4.2 of the Fulton Financial Corporation Current Report on Form 8-K filed November 17, 2014).
- 4.3 Form of 4.50% Subordinated Notes due 2024 (Included in Exhibit 4.2).
- 4.4 Second Supplemental Indenture entered into March 3, 2020, between Fulton Financial Corporation and Wilmington Trust, National Association, as trustee, relating to the issuance by Fulton Financial Corporation of \$200 million aggregate principal amount of 3.25% subordinated notes due March 15, 2030 (Incorporated by reference to Exhibit 4.2 of the Fulton Financial Corporation Current Report on Form 8-K filed March 3, 2020).
- 4.5 Form of 3.250% Fixed-to-Floating Rate Subordinated Notes due 2030 (Included in Exhibit 4.4).
- 4.6 Third Supplemental Indenture entered into March 3, 2020, between Fulton Financial Corporation and Wilmington Trust, National Association, as trustee, relating to the issuance by Fulton Financial Corporation of \$175 million aggregate principal amount of 3.75% subordinated notes due March 15, 2035 (Incorporated by reference to Exhibit 4.3 of the Fulton Financial Corporation Current Report on Form 8-K filed March 3, 2020).
- 4.7 Form of 3.750% Fixed-to-Floating Rate Subordinated Notes due 2035 (Included in Exhibit 4.6).
- 4.8 An Indenture entered into on March 16, 2017 between Fulton Financial Corporation and Wilmington Trust, National Association as trustee, relating to the issuance by Fulton Financial Corporation of \$125 million aggregate principal amount of 3.60% senior notes due March 16, 2022 (Incorporated by reference to Exhibit 4.1 of the Fulton Financial Corporation Current Report on Form 8-K filed March 16, 2017).

- 4.9 First Supplemental Indenture entered into on March 16, 2017 between Fulton Financial Corporation and Wilmington Trust Company as trustee, relating to the issuance by Fulton Financial Corporation of \$125 million aggregate principal amount of 3.60% senior notes due March 16, 2022 (Incorporated by reference to Exhibit 4.2 of the Fulton Financial Corporation Current Report on Form 8-K filed March 16, 2017).
- 4.10 Form of 3.60% Senior Notes due Form of 3.60% Senior Notes due 2022 (Included in Exhibit 4.9).
- 4.11 Statement with Respect to Shares of Fixed Rate Non-Cumulative Perpetual Preferred Stock, Series A of Fulton Financial Corporation, dated October 23, 2020, filed with the Pennsylvania Department of State (Incorporated by reference to Exhibit 3.1 of the Fulton Financial Corporation Current Report on Form 8-K filed on October 29, 2020).
- 4.12 Deposit Agreement, dated October 29, 2020, among Fulton Financial Corporation, Equiniti Trust Company, as depositary, and the holders from time to time of the depositary receipts described therein (Incorporated by reference to Exhibit 4.1 of the Fulton Financial Corporation Current Report on Form 8-K filed on October 29, 2020).
- 4.13 Form of depositary receipt representing the Depositary Shares (Included in Exhibit 4.12).
- 4.14 Description of Fulton Financial Corporation Securities (Incorporated by reference to Exhibit 4.7 of the Fulton Financial Corporation Annual Report on Form 10-K for the fiscal year ended December 31, 2019).
- 10.1 Amended Employment Agreement between Fulton Financial Corporation and E. Philip Wenger dated November 12, 2008 (Incorporated by reference to Exhibit 10.5 of the Fulton Financial Corporation Current Report on Form 8-K filed November 14, 2008). *
- 10.2 Form of Executive Employment Agreement between Fulton Financial Corporation and certain Executive Officers of Fulton Financial Corporation (Incorporated by reference to Exhibit 10.1 of the Fulton Financial Corporation Current Report on Form 8-K filed January 4, 2018). *
- 10.3 Form of Key Employee Change in Control Agreement between Fulton Financial Corporation and certain Executive Officers of Fulton Financial Corporation (Incorporated by reference to Exhibit 10.2 of the Fulton Financial Corporation Current Report on Form 8-K filed January 4, 2018). *
- 10.4 Form of Death Benefit Only Agreement to Senior Management (Incorporated by reference to Exhibit 10.9 of the Fulton Financial Corporation Annual Report on Form 10-K for the fiscal year ended December 31, 2006). *
- 10.5 Fulton Financial Corporation 2022 Amended and Restated Equity and Cash Incentive Compensation Plan (Incorporated by reference to Exhibit 10.1 of the Fulton Financial Corporation Current Report on Form 8-K filed May 19, 2022). *
- 10.6 Amended Executive Employment Agreement between Fulton Financial Corporation and Curtis J. Myers, dated January 1, 2023 (Incorporated by reference to exhibit 10.1 of the Fulton Financial Corporation Current Report on Form 8-K filed December 22, 2022). *
- 10.7 Amended Key Employee Change in Control Agreement between Fulton Financial Corporation and Curtis J. Myers, dated January 1, 2023 (Incorporated by reference to exhibit 10.2 of the Fulton Financial Corporation Current Report on Form 8-K filed December 22, 2022). *
- 10.8 Form of Option Award and Form of Restricted Stock Award between Fulton Financial Corporation and Officers of the Corporation (Incorporated by reference to Exhibits 10.1 and 10.2, respectively, of the Fulton Financial Corporation Current Report on Form 8-K filed June 19, 2013). *
- 10.9 Amended and Restated Fulton Financial Corporation Employee Stock Purchase Plan (Incorporated by reference to Exhibit A to Fulton Financial Corporation's definitive proxy statement, filed March 26, 2014). *
- 10.10 Amendment No. 1 to the Amended and Restated Fulton Financial Corporation Employee Stock Purchase Plan (Incorporated by reference to Exhibit 10.10 of the Fulton Financial Corporation Annual Report on Form 10-K for the fiscal year ended December 31, 2019). *
- 10.11 Fulton Financial Corporation Deferred Compensation Plan, as amended and restated effective December 1, 2015 (Incorporated by reference to Exhibit 10.12 of the Fulton Financial Corporation Annual Report on Form 10-K for the fiscal year ended December 31, 2015). *
- 10.12 First Amendment effective January 1, 2019 to the Fulton Financial Corporation Deferred Compensation Plan (Incorporated by reference to Exhibit 10.1 of the Fulton Financial Corporation Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2019). *
- 10.13 Second Amendment effective January 1, 2021 to the Fulton Financial Corporation Deferred Compensation Plan (Incorporated by reference to Exhibit 10.13 of the Fulton Financial Corporation Annual Report on Form 10-K for the fiscal year ended December 31, 2020). *
- 10.14 Third Amendment effective March 11, 2021 to the Fulton Financial Corporation Deferred Compensation Plan (Incorporated by reference to Exhibit 10.1 of the Fulton Financial Corporation Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2021). *

- 10.15 Fourth Amendment effective July 20, 2021 to the Fulton Financial Corporation Deferred Compensation Plan (Incorporated by reference to Exhibit 10.2 of the Fulton Financial Corporation Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2021). *
- 10.16 Fifth Amendment, effective January 1, 2022, to the Fulton Financial Corporation Deferred Compensation Plan (Incorporated by reference to Exhibit 10.1 of the Fulton Financial Corporation Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2021). *
- 10.17 Forms of Time-Vested Restricted Stock Unit Award Agreement and Performance Share Restricted Stock Unit Award Agreement between Fulton Financial Corporation and Certain Employees of the Corporation as of March 18, 2014 (Incorporated by reference to Exhibits 10.1 and 10.2, respectively, of the Fulton Financial Corporation Current Report on Form 8-K filed March 24, 2014). *
- 10.18 Form of Performance Share Restricted Stock Unit Award Agreement between Fulton Financial Corporation and Certain Employees of the Corporation as of May 1, 2021 (Incorporated by reference to Exhibit 10.1 of the Fulton Financial Corporation Current Report on Form 8-K filed May 3, 2021). *
- 10.19 Form of Director Stock Unit Award Agreement under the Directors' Equity Participation Plan, as amended (Incorporated by reference to Exhibit 10.15 of the Fulton Financial Corporation Annual Report on Form 10-K for the fiscal year ended December 31, 2018).
- 10.20 Fulton Financial Corporation Amended and Restated Directors' Equity Participation Plan (Incorporated by reference to Exhibit 10.1 of Fulton Financial Corporation's Current Report on Form 8-K filed May 23, 2019).
- 10.21 Form of Master Confirmation between Fulton Financial Corporation and Goldman, Sachs & Co. (Incorporated by reference to Exhibit 10.1 of the Fulton Financial Corporation Current Report on Form 8-K filed November 17, 2014).
- 10.22 Agreement between Fulton Financial Corporation and Fiserv Solutions, LLC dated July 11, 2016 (Incorporated by reference to Exhibit 10.1 of the Fulton Financial Corporation Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2016. Portions of this exhibit have been redacted and are subject to a confidential treatment request filed with the Securities and Exchange Commission pursuant to Rule 24b-2 under the Securities Exchange Act of 1934, as amended. The redacted material was filed separately with the Securities and Exchange Commission).
- 10.23 Amendment to Agreement between Fulton Financial Corporation and Fiserv Solutions, LLC dated December 20, 2021. (Portions of this exhibit have been omitted in accordance with Item 601(b)(10) of Regulation S-K. Incorporated by reference to Exhibit 10.23 of the Fulton Financial Corporation Annual Report 10-K for the year ended December 31, 2021).
- 21 Subsidiaries of the Registrant.
- 23 Consent of Independent Registered Public Accounting Firm.
- 24 Power of Attorney
- 31.1 Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Chief Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 101 Interactive data files pursuant to Rule 405 of Regulation S-T (i) Consolidated Balance Sheets, (ii) Consolidated Statements of Income, (iii) Consolidated Statements of Comprehensive Income, (iv) Consolidated Statements of Shareholders' Equity, (v) Consolidated Statements of Cash Flows, and (vi) Notes to Consolidated Financial Statements.
- 104 Cover page interactive data file (formatted as inline XBRL and contained in Exhibit 101)
- * Management contract or compensatory plan or arrangement.

We consent to the incorporation by reference in the registration statements (No. 333-05471, No. 333- 05481, No. 333-44788, No. 333-81377, No. 333-64744, No. 333-76594, No. 333-76600, No. 333-76596, No. 333-107625, No. 333-114206, No. 333-116625, No. 333-121896, No. 333-126281, No. 333-131706, No. 333-135839, No. 333-145542, No. 333-168237, No. 333-175065, No. 333-189457, No. 333-128894, No. 333-197728, No.333-175065 and No. 333-236579) on Form S-8 and in the registration statements (No. 333-37835, No. 333-61268, No. 333-123532, No. 333-130718, No. 333-156339, No. 333-189459, No. 333-189488, No. 333-156396, No. 333-197730, No. 333-221393 and No. 333-249588) on Form S-3 of Fulton Financial Corporation and subsidiaries of our report dated March 1, 2023, with respect to the consolidated financial statements of Fulton Financial Corporation and the effectiveness of internal control over financial reporting.

/s/ KPMG LLP

Philadelphia, Pennsylvania

March 1, 2023

Exhibit 31.1 – Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Curtis J. Myers, certify that:

1. I have reviewed this annual report on Form 10-K of Fulton Financial Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

INVESTOR INFORMATION

Investor Information Stock Listing

Common shares of Fulton Financial Corporation (FFC) are traded under the symbol "FUL" and are listed on the NASDAQ Global Select Market.

Cash Dividends

The FFC Board of Directors decides whether to declare a quarterly cash dividend in the third month of each quarter (i.e., March, June, September and December).

Dividend Reinvestment Plan and Direct Deposit of Cash Dividends

FFC offers its shareholders the convenience of a Dividend Reinvestment and Stock Purchase Plan (Dividend Plan) and direct deposit of cash dividends.

Holders of stock may have their quarterly dividends automatically reinvested in additional shares of FFC's common stock by utilizing the Dividend Reinvestment Plan.

Shareholders participating in the Dividend Plan may also make voluntary cash contributions not to exceed \$25,000 per month.

In addition, shareholders have the option of having their cash dividends sent directly to their financial institution for deposit into their checking or savings account.

Shareholders may receive information on the Dividend Plan, including a plan prospectus, or direct deposit of cash dividends by calling or writing to:

Stock Transfer Department
Fulton Financial Advisors
P.O. Box 3215
Lancaster, PA 17604-3215
or by calling: 717-291-2546 or
toll-free: 1-800-626-0255
