

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

Annual Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934  
For the fiscal year ended December 31, 2020

OR

Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934  
Commission File Number: 001-35580

**servicenow**<sup>®</sup>

**SERVICENOW, INC.**

(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction of  
incorporation or organization)

20-2056195  
(I.R.S. Employer  
Identification Number)

ServiceNow, Inc.  
2225 Lawson Lane  
Santa Clara, California 95054  
(408) 501-8550

(Address, including zip code, and telephone number, including area code, of registrant's principal executive offices)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common stock, par value \$0.001 per share	NOW	The New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

Not applicable

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of Act. Yes  No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days: Yes  No

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). Yes  No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer	<input checked="" type="checkbox"/>	Accelerated Filer	<input type="checkbox"/>
Non-Accelerated Filer	<input type="checkbox"/>	Smaller Reporting Company	<input type="checkbox"/>
		Emerging Growth Company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act by the registered public accounting firm that prepared or issued its audit report.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes  No

Based on the closing price of the Registrant's Common Stock on the last business day of the Registrant's most recently completed second fiscal quarter, which was June 30, 2020, the aggregate market value of its shares (based on a closing price of \$405.06 per share on June 30, 2020 as reported on the New York Stock Exchange) held by non-affiliates was approximately \$57.8 billion.

As of January 31, 2021, there were approximately 196.1 million shares of the Registrant's Common Stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's definitive proxy statement for its 2021 Annual Meeting of Stockholders (Proxy Statement) to be filed within 120 days of the Registrant's fiscal year ended December 31, 2020, are incorporated by reference in Part III of this Report on Form 10-K. Except with respect to information specifically incorporated by reference in this Form 10-K, the Proxy Statement is not deemed to be filed as part of this Form 10-K.

### FORWARD-LOOKING STATEMENTS

*This Annual Report on Form 10-K, including the “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” contains forward-looking statements regarding future events and our future results that are based on our current expectations, estimates, forecasts and projections about our business, our results of operations, the industry in which we operate and the beliefs and assumptions of our management. Words such as “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “would,” “could,” “should,” “intend” and “expect,” variations of these words, and similar expressions are intended to identify those forward-looking statements. These forward-looking statements are only predictions and are subject to risks, uncertainties, assumptions and other factors that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, impacts on our business, future financial performance and general economic conditions due to the current Coronavirus (“COVID-19”) pandemic, those discussed in this Report under the section entitled “Risk Factors” in Item 1A of Part I and elsewhere herein, and in other reports we file with the Securities and Exchange Commission (“SEC”). While forward-looking statements are based on the reasonable expectations of our management at the time that they are made, you should not rely on them. We undertake no obligation to revise or update publicly any forward-looking statements for any reason, whether as a result of new information, future events or otherwise, except as may be required by law.*

#### ITEM 1. BUSINESS

ServiceNow’s purpose is to make the world of work, work better for people. We believe that people want the technology they use in their work to be more efficient and easier to use. We build applications to meet that demand by automating existing processes and creating efficient, digitized workflows with a consumer grade user experience. Our products and services enable the steps of a job to flow naturally across disparate departments, systems and processes of a business. When work flows naturally, great experiences follow.

Getting a job done in an enterprise (what we call a “workflow”) usually requires different people in various functions of an organization to work together. Often, they rely on different technology systems and inefficient, manual processes to complete each step of the job before moving along to the next. We believe that this approach is undergoing a transformation. Enterprises have to operate in new and faster ways and need digital processes and systems that can quickly pivot and adapt to rapidly changing business needs. We believe that the most effective digital transformation initiatives utilize tools that can integrate workflows across siloed systems, departments, processes and people. We also believe that many business challenges, whether it be the need for a streaming service to quickly and efficiently initiate and support new customer accounts or the need for state governments to efficiently manage the distribution of unemployment insurance payments, can be broken down into discrete tasks and those tasks can be managed digitally until the job, or the workflow, is complete.

ServiceNow delivers digital workflows on a single enterprise cloud platform called the Now Platform®. Our product portfolio is currently focused on providing Information Technology (“IT”), Employee and Customer workflows in standardized product offerings. We also enable our customers to design and build their own custom workflow applications using our Creator workflows, formerly called the Now Platform App Engine, and to integrate those applications with third party systems through our Integration Hub.

The Now Platform is the foundation of our IT, Employee, Customer and Creator workflow offerings. We call it “the platform of platforms,” because it connects people, functions and systems to drive innovation, increase business agility and unlock productivity. Because the Now Platform is built on a single technology platform, our own developers, and developers working for our customers, can innovate quickly and deploy solutions rapidly. Our increasing use of artificial intelligence and machine learning also allows for the creation of many workflows to quickly become fully automated. Our native mobile applications greatly assist in delivering those automated workflows to our customers’ employees.

While the importance of digital transformation has been increasing in recent years, the COVID-19 pandemic accelerated that need and underscored the critical importance of digital and automated workflows. As the world economy underwent increasing disruption, companies further along in their digital transformation were better able to maintain business continuity and improve productivity. When employees could no longer access their physical workspaces because of public health safety concerns, enterprises needed processes and systems that could communicate with one another without manual steps or intervention. The Now Platform became a critical tool to help many of our customers meet that need. The agility of the platform and the speed with which developers could create and automate solutions accelerated their digital transformation, which better equipped our customers for the future of work.

Our standardized workflows helped our customers adapt and manage a remote workforce in a matter of weeks, not months, and our customers created their own solutions on the Now Platform in a matter of days and weeks, not months and years. Our own engineers were able to develop workforce management solutions in a matter of weeks, and update them on a regular cadence. When the pandemic first led to employers restricting their physical locations, we quickly developed applications to allow employers to communicate with employees and manage potential exposures to the virus, and over the course of the next months we developed applications to allow employers to manage their employees' return to the workplace and maximize their safety in physical facilities. As vaccines were developed and are being distributed, we developed applications to help governments allow their citizens to access critical vaccine information, schedule appointments, and receive appointment notifications from vaccine providers. Our customers, from national, state and local governments to large private enterprises, have built their own custom solutions utilizing the Creator workflow offering. These are just some examples of how our customers leverage the Now Platform to optimize their investments in digital transformation and create a better experience for their employees and customers.

We primarily deliver our software via the Internet as a service through a simple and easy-to-use interface so that we can rapidly deploy our packaged offerings, and customers can easily build their custom applications. In a minority of cases, customers choose to host our software by themselves or through a third-party service provider.

We market and sell our products and services to enterprises across industries, including government, financial services, healthcare, telecommunications, manufacturing, IT services, technology, oil and gas, education and consumer products. We sell our products through subscription services and primarily through direct sales. We also offer professional services, both directly and through partners, to help our customers deploy and utilize our products and platform.

We were incorporated as Glidesoft, Inc. in California in June 2004 and changed our name to Service-now.com in February 2006. In May 2012, we reincorporated in Delaware as ServiceNow, Inc.

## **Our Products**

Our portfolio includes the Now Platform, and standardized applications specifically designed for automating IT, Employee and Customer workflows. It also includes Creator workflows, which support custom workflow creation, application development, and integration with third party systems, and make these custom applications available on the ServiceNow Store. Each of our products and services helps in critical aspects of our customers' digital transformation process, and some of these products and services, as captured in the graphic and described below, are used in multiple workflows.

### ***The Now Platform***

The Now Platform is a single-cloud platform with one data model and one architecture, enabling speed, flexibility and innovation. The Now Platform delivers workflows across siloed organizations and systems by connecting them together in a seamless way to unlock productivity and improve experiences for both employees and customers. As the foundation for how we deliver our enterprise-wide digital workflows, the Now Platform integrates and interoperates with our customers' existing cloud platforms and legacy systems, allowing our customers to deliver workflows across their preferred systems of record and collaboration platforms. Our IT, Employee, and Customer workflows can be implemented by customers quickly. Our Creator workflows allow customers to design, build and integrate workflow applications on the Now Platform that are uniquely suited to their businesses. Among the many services that our platform supports are workflow automation, artificial intelligence, machine learning, performance analytics, electronic service catalogs and portals, configuration management systems, data benchmarking, encryption and collaboration and development tools. While every company has a different suite of user interfaces from web-based to mobile to conversation applications, the Now Platform creates a common user experience for customers to manage workflows across all of their interfaces.

The Now Platform also powers three native mobile experiences for everyday work across the enterprise: Virtual Agent, Now Mobile and Mobile Onboarding. Enterprises can take advantage of consumer-like, mobile experiences, such as getting help from human resources or ordering a computer, from our platform. Our goal is to make our customers' work lives as simple, easy and mobile-friendly as their personal lives.

## *IT Workflows*

Our roots are in IT workflows. Our founder initially saw a need for an integrated system in IT that identified issues, assigned those issues to the right people for resolution and remediated any systemic problems that created the issues. Our IT products have become increasingly sophisticated in assisting IT departments to serve their customers, manage their networks, identify and remediate security vulnerabilities and threats and reduce time spent on administrative tasks. With our IT workflows, on the Now Platform, we deliver one data model, and cross enterprise integration, which gives IT departments the ability to plan, build, operate and service across the entire IT lifecycle. Our artificial intelligence technology enables features like Virtual Agents to help employees using simple, human language, and predictive intelligence to power workflows with machine learning to automate routine tasks and get to resolution faster. Many of these capabilities are also used in our Employee and Customer workflows.

## *IT Service Management*

As our flagship product suite, IT Service Management (“ITSM”) defines, structures, consolidates, manages and automates the IT services an enterprise offers its employees, customers and partners. Among the ITSM product suite’s capabilities are recording incidents, remediating problems and automating routine tasks and requests. ITSM also offers artificial intelligence (AI), machine learning (ML), predictive intelligence, Virtual Agent, performance analytics and continual improvement management capabilities. These AI and ML capabilities help our customers identify and recommend steps to be taken by a customer in remediating issues, driving efficiency and end-user satisfaction. With ITSM our customers can elevate their IT service experience by improving IT productivity, achieving new insights and consolidating IT services. For example, we enable our customers to provide service portals where their employees can request IT services, order software and hardware and submit IT incidents all in one place.

## *IT Business Management*

Our IT Business Management (“ITBM”) product suite enables customers to manage their IT priorities, including the scope and cost of IT projects, the development of software related to those projects and the overall management of the customer’s IT project portfolio. With ITBM, we help our customers gain visibility, track progress, and continuously plan and optimize resources as priorities shift.

## *DevOps*

Our enterprise DevOps product provides visibility across a product development toolchain. It integrates with the leading DevOps toolchains to provide automated change management, information gathering and collecting and a single dashboard across planning, development, testing, deployment and operations. With DevOps, our customers can streamline their software development and deployment processes.

## *IT Operations Management*

Our IT Operations Management (“ITOM”) product suite connects a customer’s physical and cloud-based IT infrastructure with our applications and platform. It identifies a customer’s IT infrastructure components (e.g., servers) and associated business services (e.g., email) which are dependent upon that infrastructure. It also maintains a single data record for all IT configurable items, which allows our customers to exercise control over their on-premises or cloud-based infrastructures and orchestrate key processes and tasks. With ITOM, our customers can enhance visibility of IT resources, manage service health and optimize cloud delivery and spend.

## *IT Asset Management*

Our IT Asset Management (“ITAM”) product automates customers’ IT software, hardware and cloud asset lifecycles with workflows to track the financial, contractual and inventory details of these IT assets throughout their lifecycles. With ITAM, our customers gain visibility into the full IT asset lifecycles to help optimize costs and automate workflows.

### *Security Operations*

Our security operations product connects with internal and third-party security alerts from a customer's infrastructure to prioritize and respond to incidents and vulnerabilities according to their potential impact on a customer's business. Our security operations product includes security incident management, threat enrichment intelligence, vulnerability response management and security incident intelligence sharing. With our security operations product, we help simplify our customers' incident response by allowing them to replace manual tasks with automated security orchestration and to prioritize and remediate vulnerabilities and security incidents.

### *Governance, Risk and Compliance*

Our Governance, Risk and Compliance ("GRC") product suite helps customers manage risk and resilience in real time. Among the GRC's product suite's capabilities are policy and compliance management, risk management, including detection and assessment, business continuity management, vendor risk management and operational risk management. GRC provides a unified data environment, dashboards, automated workflows and artificial intelligence capabilities to help customers with risk-based decisions and align resilience initiatives across the enterprise. With GRC, customers can also assess risk and make strategic decisions with confidence by being able to continuously monitor and prioritize risks.

### *Employee Workflows*

Our Employee workflow products on the Now Platform can transform the employee experience and turn it into a competitive advantage. With our Employee workflows, our customers can simplify how their employees get the services they need, creating a familiar, consumer-like way to get work done from wherever an employee may be—at home, in the workplace or in the field. We enable Employee workflows through our HR Service Delivery, Safe Workplace suite of applications, Workplace Service Delivery, and Legal Service Delivery.

### *HR Service Delivery*

Our HR Service Delivery product defines, structures, consolidates, manages and automates HR services related to employee requests. HR Service Delivery capabilities include HR case management, employee self-service, knowledge management and management of employee lifecycle events across multiple departments, such as onboarding, transfers and off-boarding. For example, tasks that start in HR but require action from other departments, such as new hire equipment selection and fulfillment, can be easily automated and orchestrated. With HR Service Delivery, we make it easy for our customers' employees to get the services they need, allowing our customers to use fewer resources to serve more employees, streamline employee lifecycle events, and increase visibility, staffing efficiency and delivery of services.

### *Safe Workplace Suite*

In response to the COVID-19 pandemic, we rapidly innovated and created a Safe Workplace suite of applications and a dashboard, enabling business functions to work together across department systems, hiding the underlying complexity and making it easy to get work done. For example, the Employee Health Screening App for self-certification and self-screening helps companies determine who is eligible to re-enter the workplace and the Workplace Service Delivery application helps companies determine if there is adequate space for employees to return to work and maintain safe social distance. These products were developed to help companies keep employees safe, increase engagement, improve productivity and maintain business continuity, all while creating a great user experience for employees. These products, including their bi-weekly releases and updates, demonstrate the Now Platform's agile and flexible product development capabilities and our ability to continue to deliver business solutions in response to rapidly changing operating conditions.

### *Workplace Service Delivery*

Our Workplace Service Delivery product keeps our customers' workplaces running smoothly with a multi-channel, mobile-enabled solution. With Workplace Service Delivery, employees of our customers automate requests, reservations and repairs to help use space wisely, provide easy access to services, manage requests efficiently and get real-time visibility. For example, a remote employee can reserve a desk for a week and book a conference room for a team meeting, all from their mobile device.

### *Legal Service Delivery*

Our Legal Service Delivery product consolidates manual tools and modernizes internal legal operations processes to manage legal requests across the enterprise. With Legal Service Delivery, legal teams can gain efficiency, deliver support efficiently with automated responses and get insight into demand with real-time reporting and dashboards. Capabilities include practice-area request workflows, a workspace to route and manage requests, legal matter management for multi-step legal requests, and reporting and dashboards to view demand and service levels. For example, a sales representative can submit a request for a new customer contract, and the appropriate expert can manage the negotiation of the contract and obtain proper inputs from privacy, security, finance and other specialists to ultimately bring the contract to execution.

### *Customer Workflows*

Today's customer service departments are filled with reactive agents searching multiple systems to find a single answer to customer issues. Our Customer workflow products help organizations reimagine the customer experience and increase customer loyalty. Integrating front-end customer service capabilities with operations and field service resources, our Customer workflow products help to create a seamless customer experience from issue to resolution through connected digital workflows that deliver fast support on a customer's channel of choice. We enable Customer workflows through Customer Service Management, Field Service Management products, and Connected Operations.

### *Customer Service Management*

Our Customer Service Management product defines, structures, consolidates, manages and automates common customer service cases and requests, such as password resets, to be automated with out-of-the-box self-service, and for other cases it routes work from the customer service agent to field service, engineering, operations, finance or legal personnel to resolve the underlying issues. With Customer Service Management, we help our customers elevate their customer service by boosting resolution efficiency and improving service quality through workflows, automation and artificial intelligence.

### *Field Service Management*

Our Field Service Management product allows field service agents to be effectively assigned, deployed and managed on the same underlying customer service management platform that created and managed the customer incident. With Field Service Management, we help our customers efficiently manage location-based work tasks, including dynamic scheduling and visual dispatch.

### *Connected Operations*

Our Internet of Things ("IoT") product, Connected Operations, unifies siloed data onto the Now Platform to help operations teams manage critical assets and derive value from their IoT investments. Connected operations allows customers to monitor IoT devices remotely, detect issues in near real time, manage incidents and take action across multiple teams.

### *Creator Workflows*

As organizations digitally transform, they need to pivot faster with new processes and business models. This requires faster, more agile execution with more automation delivered through software applications. Our Creator workflow products enable our customers to quickly create, test, and deploy their own applications on the Now Platform. We enable Creator workflows through App Engine and IntegrationHub products.

### *App Engine*

Our App Engine product empowers enterprise-class low code application delivery with intuitive and intelligent experiences, at speed and scale. With App Engine, customers and third-party developers can create, test and deploy their own consumer-grade applications that can be scaled from a single department to the entire enterprise. Examples of applications our customers have developed include: an application developed by a company with a large network of seasonal retail stores and offices to track progress and identify issues in opening and closing their seasonal locations, which enabled significant cost savings; an application developed by the IT office of a university that allocated and billed costs associated with IT maintenance, allowing the university to retire multiple legacy software systems; and an application developed by a mortgage company to ensure that loan files were complete and accurate prior to packaging and selling the loans to investors. These types of applications, which extend the automation of our customers' workflows, have been developed and deployed by our customers and third-party developers using App Engine.

### *IntegrationHub*

Our IntegrationHub product enables anyone who creates an application on the Now Platform to extend workflows into third-party products, eliminating the need for other integration tools to connect a ServiceNow workflow with other software platforms. Integration hub provides a framework that allows developers to create and publish integrations for use by anyone. The Now Platform provides connectors to over one hundred products in the ServiceNow Store.

In addition, the ServiceNow Store has hundreds of certified, ready to use applications from a growing independent software vendor ecosystem. The ServiceNow Store enables departments across an enterprise to do more with the Now Platform with certified applications that complement and extend the Now Platform into new use cases.

### *Industry Solutions*

We have expanded existing partnerships to deliver our industry-specific product solutions and better address the unique needs of specific industries. We currently offer industry product solutions for financial services and telecommunications and intend to offer more industry specific solutions for other industries. With Financial Services Operations as part of our Customer workflows, our financial services customers can unite their front, middle and back offices to improve customer and employee experiences. It also facilitates agile security responses to enhance risk protection and provides artificial intelligence capabilities and a unified system on a single cloud platform. With Telecommunications Network Performance Management as part of our IT workflows and Telecommunications Service Management as part of our Customer workflows, our telecommunications customers can connect their entire operation—from the network to the customer—with one platform, proactively monitor the health of their networks and services, enhance customer care, automate service assurance and gain real-time data visibility.

### *Professional Services*

Our Professional Services are offered by ServiceNow alone and in a co-delivery model with our network of partners to help customers maximize the value of their ServiceNow investment. Our professional services include process design, implementation, configuration, architecture and optimization services. With our Now Value methodology as the foundation for customer success, our services bring together our experts and leading practices enabling our customers to create value and drive customer outcomes as they embark on enterprise digital transformations through the use of our platform. Our training services include programs for all of our products.

### *Customer Support*

Customers receive standard and enhanced support around the globe, from technical resources located in the United States and internationally. We also offer self-service technical support through our support portal, which provides access to documentation, knowledge base articles, online training, online support forums and online case creation.

## **Our Technology and Operations**

We operate a multi-instance architecture that provides each customer with its own dedicated application logic and database. This architecture is designed to deliver high-availability, scalability, performance, security and ease of upgrading. Our cloud infrastructure primarily consists of industry-standard servers, networks and storage components. We host our full software-as-a-service experience on our own private cloud and use public cloud service providers for certain highly regulated customers.

Our data centers operate in paired configurations to enable replication for high-availability and redundancy. We currently operate data centers in Australia, Brazil, Canada, Germany, Hong Kong, Ireland, Japan, South Korea, the Netherlands, Singapore, Switzerland, the United Kingdom, and the United States, and we continuously evaluate our data center operations and capacity in existing and new geographies.

We offer customers the option to deploy our services on dedicated hardware in our data centers. Our architecture also gives us the added flexibility to allow customers the option of deploying our services internally or under contract with a third party to host the software in order to support unique regulatory or security requirements. While there are some limitations on agility and flexibility as compared to our cloud offering, a minority of our customers have elected the third-party alternative. The standard and enhanced customer support we provide for self-hosted customers is similar to the support we provide to customers deployed in our managed data centers.

## **Sales and Marketing**

We sell our product offerings and services primarily through our global direct sales organization. We also sell services through managed services providers and resale partners.

Our marketing efforts and lead generation activities consist primarily of customer referrals, digital advertising (including via our website), trade shows, industry events, brand campaigns and press releases. We also host our annual Knowledge user conference, webinars and other user forums, including regional forums which we call Now at Work, where customers and partners both participate in and present on a variety of programs designed to educate them on industry best practices and help accelerate their success.

We continue to expand our sales capabilities in new geographies, including through investments in direct and indirect sales channels, professional services capabilities, customer support resources, post-sales customer support resources and strategic alliance and implementation partners. We also plan to increase our investment in our existing locations in order to achieve scale efficiencies in our sales and marketing efforts.

## **Partner Ecosystem**

In addition to our global direct sales organization, we also have a strong and growing ecosystem of partners that helps accelerate our customers' digital transformation initiatives and deliver customer value at scale. Our partners play a critical role in helping companies digitally transform their business. Our industry and workflow capabilities paired with our partners' industry and functional domain experience help customers of all sizes. Together with our partners, we offer industry and domain-focused solutions at scale and are accelerating digital transformation as we help companies drive new approaches in engaging their end users and employees. For example, we formed a "business group" with one of our partners to develop joint industry and workflow solutions to help customers transform at scale and achieve their digital transform initiatives faster.

## **Customers**

We primarily sell our services to large enterprise customers, and we host and support large, enterprise-wide deployments for our customers. As of December 31, 2020, we had approximately 6,900 enterprise customers. Our customers operate in a wide variety of industries, including government, financial services, healthcare, manufacturing, IT services, technology, oil and gas, telco, education and consumer products.

## **Research and Development**

Our research and development organization is responsible for the design, development, testing and validation of our solutions. We focus on innovating and developing new services and core technologies and further enhancing the functionality, reliability and performance of our existing solutions. Using emerging technologies, we can anticipate customer demands and then bring new services and new versions of existing services to market quickly in order to remain competitive in the marketplace. We have made, and will continue to make, significant investments in research and development to broaden our platform capabilities, strengthen our existing applications, expand the number of applications on our platform, enhance our user experience and develop additional mobile, automation and machine intelligence technologies.

## **Acquisitions and Investments**

In addition to continuing to invest in our own research and development efforts, we have made acquisitions and investments in the past and will continue to assess opportunities for strategic acquisitions and investments to complement our technology and skill sets and expand our product reach. Our focus is on building out our platform and products through both organic investments to support customer needs and acquisitions of talent and enhanced capabilities. For example, a number of our acquisitions in 2020 focused on bringing AI capabilities to the Now Platform and across our suite of products.

## **Competition**

We compete in markets that are rapidly evolving and highly competitive, with relatively low barriers to entry. As these markets continue to mature and new technologies and competitors enter such markets, we expect competition to intensify. Our current competitors include:

- large, well-established, enterprise application software vendors and large integrated systems vendors;
- new entrants to the market developing technologies to solve similar problems in different ways;
- solutions developed in-house by our potential customers or using integrations with other tools;
- vendors of infrastructure-as-a-service, platform-as-a-service providers and development operations; and
- established and emerging cloud vendors.

Many prospective customers have invested substantial personnel and financial resources to implement and integrate their current enterprise software into their businesses and therefore may be reluctant or unwilling to migrate away from their current solution to ours. Accordingly, we compete with both cloud-based and traditional, enterprise-application, software vendors. Our competitors vary in size and in the breadth and scope of the products and services they offer. As we continue to expand the breadth of our services to include offerings in new markets and verticals, we expect increasing competition from platform and application development vendors focused on these markets and verticals.

Various factors influence purchase decisions in our industry, including total cost of ownership, customer experience, level of customer satisfaction, breadth and depth of product functionality, security, adherence to industry standards, brand awareness, flexibility, performance, relevance and traction. We believe that we compete favorably with our competitors on each of these factors. However, many of our competitors have substantially greater financial, technical and other resources. They may be able to respond more quickly and effectively than we can to new or changing opportunities, technologies, standards, customer requirements and buying practices. An existing competitor or potential competitor could introduce new technology, or more effectively utilize existing technology, that reduces demand for our services. Acquisitions, integrations and consolidation by and among other companies in our industry may allow potential competitors to offer integrated or bundled products, enhanced functionality, or other advantages, which may impact our competitive position. In addition, some of our competitors offer their products or services at a lower price, which has resulted in pricing pressures. Larger competitors may also have the operating flexibility to bundle competing products and services with other offerings, which may enable them to offer their products and services at a lower price. As competition intensifies, we expect pricing competition to continue or increase.

## **Intellectual Property**

We rely upon a combination of U.S. and international copyright, trade secret, patent and trademark laws and confidentiality procedures and contractual restrictions, such as confidentiality and license agreements, to establish, protect and grow our intellectual property (“IP”) rights. In addition, we enter into confidentiality and proprietary rights agreements with our employees, partners, vendors, consultants and other third parties and control access to our IP and other proprietary information. We also purchase or license technology that we incorporate into our products or services. In certain of our partnership arrangements, our partners may develop technology on the Now Platform that may be subject to copyright or other intellectual property rights that we agree to with the partner.

We continue to grow our global patent portfolio and IP rights that relate to our platform, applications, services, research and development and other activities. Our success depends in part upon our ability to protect our core technology and IP. We have over 950 U.S. and foreign patents, including patents acquired from third parties, and over 750 pending patent applications. We do not believe that our proprietary technology is dependent on any single patent or other IP right or group of related patents or IP rights. We file patent applications to protect our IP and have and may continue to acquire additional patents, patent portfolios, or patent applications. However, we cannot be certain that any of our patent applications will result in the issuance of a patent or whether the examination process will result in patents of value or applicability. In addition, any patents that have been or may be issued or acquired may be contested, circumvented, found unenforceable or invalidated, and we may not be able to prevent third parties from infringing upon them.

Despite our efforts to protect our proprietary rights, unauthorized parties may attempt to copy or obtain and use our technology to develop products and services that provide features and functionality similar to ours. Policing unauthorized use of our technology is difficult. The laws of the countries in which we operate may offer little or no effective protection of our proprietary technology. Our competitors could also independently develop services equivalent to ours, and our IP rights may not be broad enough for us to prevent competitors from utilizing their developments to compete with us. Reverse engineering, unauthorized copying or other misappropriation of our proprietary technology could enable third parties to benefit from our technology without paying us for it, which would significantly harm our business.

Our industry is characterized by frequent claims and related litigation regarding patent and other IP rights. From time to time, third parties may assert patent, copyright, trademark and other IP rights against us, our channel partners or our customers. In addition, based on our greater visibility, expanding solutions footprint, and market exposure as a public company, we face a higher risk of being the subject of IP infringement claims. See “Risk Factors—Lawsuits against us by third parties that allege we infringe their intellectual property rights could harm our business and operating results” for additional information.

## **Human Capital Management**

We have over 13,000 employees worldwide and strive to ensure that our employees understand, embrace and deliver on our purpose to make the world of work, work better for people. We believe that our employees' commitment to our purpose contributes to higher employee satisfaction, productivity and results in the creation of more customer-focused products and services. This year, much of our human capital management efforts focused on Diversity, Inclusion and Belonging, and ensuring a proper and effective response to the COVID-19 pandemic for our employees.

As of December 31, 2020, we had 13,096 full-time employees worldwide. None of our U.S. employees are represented by a labor union. Employees in certain European countries are represented by workers' councils and have the benefits of collective bargaining arrangements at the national level. We have not experienced interruptions of operations or work stoppages due to labor disagreements.

### *Purpose, Culture and Employee Engagement*

As a company, we undertake numerous efforts to ensure that our employees understand, embrace and deliver on our purpose: to make the world of work, work better for people. From a recruiting process in which we evaluate candidates in part based on their commitment to our purpose, to an onboarding process that includes content on purpose and how our products impact our customers, to regular company-wide meetings in which our purpose is a central theme, to department and individual discussions of purpose, we seek to provide education in a variety of formats. We regularly measure our employees' engagement to determine whether they see their work contributing to the Company's larger purpose, including through an Employee Voice Survey.

Our culture is driven by our core company values:

- Win as a team
- Embrace diversity, create belonging
- Enjoy the journey
- Deliver customer success
- Innovate and execute
- Stay hungry and humble

We screen leadership hires and measure employee performance against these company values, and regularly measure employee engagement against these values through our Employee Voice Survey. We believe our values-driven culture of open and transparent communication has contributed to our recognition as a great place to work by our employees.

*Diversity, Inclusion and Belonging – Commitment to Equality of Opportunity, Pay Equity and Employee Well-Being*

Embracing diversity, inclusion and belonging is a business imperative that is core to how we operate, recruit talent, develop our people, create culture and innovate. Diverse, inclusive teams where everyone feels they belong are high performing teams that are more innovative, productive and engaged. We have believed in this principle and invested resources in this area for some time, but the need for investment in diversity was more widely recognized in the technology industry in 2020. In past years, we have evaluated pay equity practices for our workforce, and we plan to do so on an ongoing basis, to ensure employees at the same job title and level are paid consistently.

We have regularly measured our representation of women in the Company, including in leadership and technical positions. As of December 2019, in the US, where we have pay data by gender, race, and ethnicity, women and under-represented groups earn \$1.00 and \$1.01 for every \$1.00 earned by their male and white counterparts, respectively. As of December 2019, globally, where we have pay data by gender, women earn \$0.99 for every \$1.00 earned by their male counterparts. We have published our gender representation and pay equity data in an annual Diversity Report, which we have posted on our public-facing website.

We are committed to employee well-being and offer mental and behavioral health support to our employees, including therapy and educational resources.

*Human Capital Management in Response to COVID-19*

In responding to the COVID-19 pandemic in 2020, we prioritized ensuring the safety and health of our employees. Before health guidance suggested shelter in place initiatives, we began to limit business travel and encourage remote working. Then, in advance of shelter in place requirements, we adopted a company policy encouraging all employees to work from home and closed most of our offices (including our headquarters), except for certain critical positions. In April 2020, we committed to protect the jobs of our global workforce through 2020 with a “no layoff” pledge despite the economic uncertainty of the COVID-19 pandemic. We met that commitment and did not conduct any layoffs in 2020. In addition to meeting our commitment to the no layoff pledge, we had a net increase to our total headcount of approximately 26%. Since transitioning to a mostly work from home environment, we launched regular employee surveys to check in on employee well-being and sentiment on return to workplace readiness. Recognizing the impact of COVID-19 on our employees’ mental health, we also offered additional wellness and behavioral health education and resources to our employees. We also continued to invest in the future of our workforce by hosting our summer intern program globally with more than 360 interns participating digitally.

**Available Information**

You can obtain copies of our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and other filings with the SEC, and all amendments to these filings, free of charge from our website at [www.servicenow.com/company/investor-relations/sec-filings.html](http://www.servicenow.com/company/investor-relations/sec-filings.html) as soon as reasonably practicable following our filing of any of these reports with the SEC. The SEC maintains an Internet site that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC at [www.sec.gov](http://www.sec.gov). The contents of these websites are not incorporated into this filing and our references to the URLs for these websites are intended to be inactive textual references only.

Investors and others should note that we announce material financial information to our investors using our investor relations website (<https://www.servicenow.com/company/investor-relations.html>), SEC filings, press releases, public conference calls and webcasts. We use these channels, as well as social media, to communicate with our investors and the public about our company, our services and other issues. It is possible that the information we post on social media could be deemed to be material information. Therefore, we encourage investors, the media, and others interested in our company to review the information we post on the social media channels listed on our investor relations website.

## ITEM 1A. RISK FACTORS

*Investing in our securities involves a high degree of risk. You should consider carefully the risks and uncertainties described below, together with all of the other information in this Annual Report on Form 10-K, including our consolidated financial statements and related notes, before making an investment decision. We have identified the following risks and uncertainties that may have a material adverse effect on our business, financial condition, results of operations and future prospects. Our business could be harmed by any of these risks. Our stock price could decline due to any of these risks, and you may lose all or part of your investment.*

***The extent to which the ongoing COVID-19 pandemic, including the resulting global economic uncertainty, and measures taken in response will continue to impact our business and future results of operations and financial condition will depend on future developments, which are highly uncertain and difficult to predict.***

Beginning in early 2020, the COVID-19 pandemic began to have widespread impact on the health of the population and a broader impact on the markets. The COVID-19 pandemic disrupted the flow of the economy and put unprecedented strains on governments, health care systems, educational institutions, businesses and individuals around the world. The pandemic had a significant impact in 2020, and its ongoing impact into 2021 and beyond is difficult to assess or predict. It is even more difficult to predict the impact on the global economic market, which will be highly dependent upon the continuing actions of governments, businesses and other enterprises in response to the pandemic and the effectiveness of those actions. If the pandemic were to endure for the longer term, recession, depression or other sustained adverse market events may result.

Some customers or potential customers, particularly in industries most impacted by the COVID-19 pandemic including transportation, hospitality, retail and energy, reduced their IT spending or delayed their digital transformation initiatives in 2020 and these reductions and delays in spend by our customers and prospects could persist. We experienced some curtailed customer demand, reduced customer spend or contract duration, delayed collections, lengthened payment terms, and impact on our ability to land new customers. If we should see an increase in such effects or increased competitive pressures due to changes in terms and conditions and pricing of our competitors' products and services, our business, results of operations and overall financial performance in future periods could be materially and adversely impacted.

In response to the COVID-19 pandemic, we temporarily closed most of our offices (including our headquarters) around the world, encouraged our employees to work remotely, implemented travel restrictions for all non-essential business, and canceled or shifted certain of our customer, industry, analyst, investor, and employee events to virtual-only experiences. For the immediate future, we have deemed it advisable to continue to do so, though our approach may vary among geographies depending on appropriate health protocols. Additionally, our efforts to re-open our offices safely may not be successful, could expose our employees to health risks and could involve additional costs or liability. We expect that the COVID-19 pandemic will have a long-term effect on the nature of our office environment, remote working and how we innovate. While we believe that this will be a positive development over the longer term, there may be operational and workplace culture challenges that may adversely affect our business, including talent retention, in the shorter term.

As a result of the impact of COVID-19 on our business, in our Q1 2020 earnings we revised our external guidance to investors as to our expectations of our financial performance for the full year 2020 to account for impacts that have occurred and further expected impacts. Because we are a subscription business, the reduction in performance for 2020 will impact future years as well. If the COVID-19 pandemic continues or worsens, especially in regions in which we have material operations or sales, our business activities from impacted areas, including sales-related activities, could be adversely affected. Disruptive activities could include continued business closures in impacted areas, further or continued restrictions on our employees' and other service providers' ability to travel, impacts to productivity if our employees or their family members experience health issues, and potential delays in hiring and onboarding mainly in our general and administrative functions. The COVID-19 pandemic could also impact our data center operations, including potential disruptions to the supply chain of hardware needed to maintain these third-party systems, and primary vendors we rely on for products and services that allow our employees to work remotely. Further, we may experience increased cyberattacks and security challenges as our global employee base and vendors and other third parties work remotely on less secure systems.

The extent and continued impact of the COVID-19 pandemic on our business will depend on certain developments including the duration and spread of the outbreak; future infection spikes resulting in additional preventative measures; the availability and timing of the distribution of an effective vaccine; the severity of the economic decline attributable to the pandemic and timing and nature of a potential economic recovery; government responses, including the effectiveness, extent and duration of efforts to limit the spread and impact of the disease, such as "shelter in place" and similar government directives, all of which are highly uncertain and unpredictable. While our revenues, billings and earnings are relatively

predictable as a result of our subscription-based business model, the effect of the COVID-19 pandemic may not be fully reflected in our results of operations and overall financial performance until future periods and could cause our future results of operations to vary significantly from period to period.

The effects of the COVID-19 pandemic also may heighten other risks, including significant volatility in the global markets, trading prices of our common stock, interest rate and foreign currency described in this “Risk Factors” section. Risks caused or heightened by the COVID-19 pandemic may continue for the duration of and possibly beyond the COVID-19 pandemic for an indefinite period.

### **Risks Related to Our Ability to Grow Our Business**

***We participate in intensely competitive markets, and if we do not compete effectively, our business and operating results will be harmed.***

The markets for our enterprise cloud solutions are rapidly evolving and highly competitive, with relatively low barriers to entry. As the market for digital workflow products matures and new technologies and competitors enter the market, we expect competition to intensify. Our current competitors include:

- large, well-established, enterprise application software vendors and large integrated systems vendors;
- new entrants to the market developing technologies to solve similar problems in different ways;
- solutions developed in-house by our potential customers or using integrations with other tools;
- vendors of infrastructure-as-a-service, platform-as-a-service and development operations; and
- established and emerging cloud vendors.

Many prospective customers have invested substantial personnel and financial resources to implement and integrate their current enterprise software into their businesses and therefore may be reluctant or unwilling to migrate away from their current solution to ours. As our offerings have become more widely adopted and successful in the market, more competitors are developing competing offerings. Many of our existing competitors and potential competitors are larger and have greater name recognition, longer operating histories, more established customer relationships (including at the executive level of large enterprises), larger marketing budgets and greater resources than we do. While we believe that our platform and products can largely be complementary to large, established systems that traditionally operate as “systems of record,” competitors may try to enter our space. They may be able to respond more quickly and effectively to new or changing opportunities, technologies, standards, customer requirements and buying practices. They may utilize acquisitions, integrations or consolidations to offer integrated or bundled products, enhanced functionality or other advantages. They may reduce the price of competing products or subscriptions or may bundle them with other products and subscriptions, causing our products to appear relatively more expensive. They may also invest in industry-specific solutions that purport to provide a unique solution for that industry. Additional companies may expand their services to compete with our services, or we may shift our products and services to compete with current and future competitors in adjacent markets. We have expanded, and expect to continue to expand the breadth of our services to include offerings in new markets and the use of our platform by developers. As a result, we expect increasing competition from companies focused on these other markets. Smaller competitors and new entrants may accelerate pricing pressures, including in the IT market, which includes our more mature offerings and from which we derive a large portion of our revenues. For these reasons, we may not be able to compete successfully, and competition could result in reduced sales and margins, losses or failure of our products to achieve or maintain market acceptance, any of which could harm our business.

***If we do not accurately predict, prepare for, and respond promptly to rapidly evolving technological, market and customer developments, our competitive position and business prospects may be harmed.***

We compete in markets that continue to evolve rapidly. The pace of innovation will continue to accelerate as customers increasingly base their purchases on digital technologies and shift to modern cloud-based infrastructure and agile ways of working. As digital transformation accelerates across the enterprise, capabilities such as artificial intelligence, machine learning, robotic process automation, low-code application development, database scalability, consumer-grade user experiences, collaboration, Internet-connected devices, security, cryptography, internal software development operations, and application and service awareness become increasingly relevant to customers’ evolving needs. Our customers and prospective customers are either facing competing imperatives to adopt digital technologies, or have already been built on fully-digital, modern, dynamic IT technologies. Accordingly, to compete effectively, we must: identify and innovate in the right emerging technologies, knowing that we cannot make substantial investments in all of them; accurately predict our customers’ changing business needs, priorities and adoption practices, including their technology infrastructures and buying and budgetary practices; invest in and continually optimize our own technology platform so that it continues to meet the very high performance

expectations of our customers; successfully deliver new, scalable platform and database technologies and products to meet these needs and priorities; efficiently integrate with other technologies within our customers' digital environments; expand our offerings into industries and to buyers who are not familiar with our offerings; profitably market and sell products to companies and buyers in markets where our sales and marketing teams have less experience; and effectively deliver, directly or through our partner ecosystem, the business process planning, IT systems architecture planning, and product implementation services that our customers require to be successful. If we fail to meet any of these requirements, our competitive position, strategic relevance and business prospects may be harmed.

***If we are unsuccessful in increasing our penetration of international markets or managing the risks associated with foreign markets, our business and operating results will be adversely affected.***

Sales outside of North America represented 35% and 34% of our total revenues for the years ended December 31, 2020 and 2019, respectively. Our business and future prospects depend on increasing our international sales as a percentage of our total revenues, including sales to enterprises in the public sector outside the United States (the "US"). The failure to grow internationally will harm our business. Additionally, operating in international markets requires significant investment and management attention and subjects us to different regulatory, political and economic risks from those in the US. We have made, and will continue to make, substantial investments in data centers, cloud computing infrastructure, sales, marketing, partnership arrangements, personnel and facilities as we enter and expand in new geographic markets. When we make these investments, it is typically unclear whether, and when, sales in the new market will justify our investments. We may significantly underestimate the level of investment and time required to be successful, or whether we will be successful. Our rate of acquisition of new large enterprise customers, a factor affecting our growth, has generally been lower in Africa, Asia, Eastern Europe, South America and other markets in which we are less established and where there may be increased or changing regulations and operational and intellectual property risks, as compared to North America, Australia and Western Europe. An increasing proportion of the large enterprises that are not yet our customers are located in emerging markets where we are less established. We have experienced, and may continue to experience, difficulties in some of our investments in geographic expansion, including hiring qualified sales management personnel, penetrating the target market, anticipating and ensuring compliance with regulatory developments, and managing foreign operations in such locales.

Risks inherent with making our products and services available in international markets include without limitation:

- compliance with multiple, conflicting and changing governmental laws and regulations, including employment, tax, competition, requirements to have local partner(s), local entity ownership limitations, technology transfer or sharing requirements, data residency and transfer laws and regulations, privacy and data protection laws and regulations;
- compliance by us and our business partners with international bribery and anti-corruption laws, including the UK Bribery Act and the U.S. Foreign Corrupt Practices Act of 1977, as amended (the "FCPA");
- the risk that illegal or unethical activities of our local employees or business partners will be attributed to or result in liability to us or damage to our reputation;
- the risk that we will fail to meet the requirements of the rules and regulations relating to government or other public sector contracting;
- longer and potentially more complex sales and accounts receivable payment cycles and other collection difficulties;
- tax treatment of revenues from international sources and changes to tax codes, including being subject to foreign tax laws and being liable for paying withholding, income or other taxes in foreign jurisdictions;
- different pricing and distribution environments;
- foreign currency fluctuations, which may cause transactional and translational remeasurement losses;
- potential changes in international trade policies, tariffs, agreements and practices, including the adoption and expansion of formal or informal trade restrictions or regulatory frameworks favoring local competitors;
- potential threatening state-sponsored actions, including cybersecurity threats directed at local data centers, customers or end-users;
- local business practices and cultural norms that may favor local competitors;
- localization of our services, including translation into foreign languages and associated expenses; and
- natural disasters, acts of war, terrorism or pandemics.

If we are unable to manage these risks, if our required investments in these international markets are greater than anticipated, or if we are unsuccessful in increasing sales in emerging markets, our revenue growth rate, business and operating results will be adversely affected.

***Doing business with the public sector, including federal, state and local governments and agencies in the US, and heavily-regulated organizations and governments globally, subjects us to risks related to the government procurement process, budget decisions driven by statutory and regulatory determinations, termination of contracts, and compliance with government contracting requirements.***

We provide products and services to the U.S. federal, state and local governments and heavily-regulated organizations directly and through our partners. We have made, and may continue to make, significant investments to support future sales opportunities in the federal, state and local government sectors. This includes obtaining additional cloud security certification requirements for the ServiceNow Government Community Cloud, such as the U.S. Federal Risk and Authorization Management Program (“FedRAMP”) High Provisional Authority to Operate (“P-ATO”) from the Joint Authorization Board, and the U.S. Department of Defense Security Requirements Guide Impact Level 4 P-ATO for cloud computing by the Defense Information Systems Agency. However, government certification requirements may change, or we may be unable to achieve or sustain one or more government certifications, including those mentioned above. As a result, if such requirements change, our ability to sell into the government sector could be restricted until we demonstrate that we meet any revised certification requirements.

A substantial majority of our sales to date to government entities have been made indirectly through our distributor, resellers or service provider partners. Doing business with government entities presents a variety of risks. The procurement process for governments and their agencies is highly competitive, time-consuming and may, in certain circumstances, be subject to political influence. We incur significant up-front time and expense, which subjects us to additional compliance risks and costs, without any assurance that we (or a third-party distributor, reseller or service provider) will win a contract. Beyond this, demand for our products and services may be adversely impacted by public sector budgetary cycles and funding availability that in any given fiscal cycle may be reduced or delayed, including in connection with an extended federal government shutdown. Further, if we are or our partner is successful in receiving a contract award, that award could be challenged by one or more aggrieved bidders through the applicable bid protest process. Bid protests may result in an increase in expenses related to obtaining contract awards or an unfavorable modification or loss of an award. In the event a bid protest is unsuccessful, the resulting delay in the startup and funding of the work under these contracts may cause our actual results to differ materially and adversely from those anticipated.

In addition, public sector customers may have contractual, statutory or regulatory rights to terminate current contracts with us or our third-party distributors or resellers for convenience or due to a default, though such risk may be assumed by such third-party distributor or reseller. If a contract is terminated for convenience, we may only be able to collect fees for products or services delivered prior to termination and settlement expenses. If a contract is terminated due to a default, we may be liable for excess costs incurred by the customer for procuring alternative products or services or be precluded from doing further business with government entities. Further, entities providing services to governments are required to comply with a variety of complex laws, regulations, and contractual provisions relating to the formation, administration, or performance of government contracts that give public sector customers substantial rights and remedies, many of which are not typically found in commercial contracts. These may include rights with respect to price protection, the accuracy of information provided to the government, contractor compliance with supplier diversity policies, and other obligations that are particular to government contracts, such as termination rights. These obligations may apply to us and/or third-party resellers or distributors whose practices we may not control. Such parties’ non-compliance could impose repercussions with respect to contractual and customer satisfaction issues.

In addition, federal, state, and local governments routinely investigate and audit contractors for compliance with these requirements. If, as a result of an audit, it is determined that we have failed to comply with these requirements, we may be subject to civil and criminal penalties and administrative sanctions, including termination of contracts, forfeiture of profits, cost associated with the triggering of price reduction clauses, fines, and suspensions or debarment from future government business, all of which may cause us to suffer reputational harm.

Further, we are increasingly doing business in heavily regulated industries, such as the financial services and health care industries. Current and prospective customers, such as those in these industries, may be required to comply with more stringent regulations in connection with subscribing to and implementing our services or particular regulations regarding third-party vendors that may be interpreted differently by different customers. In addition, regulatory agencies may impose requirements toward third-party vendors generally, or us in particular, that we may not be able to, or may not choose to, meet. In addition, customers in these heavily-regulated areas often have a right to conduct audits of our systems, products and practices. If one or more customers determines that some aspect of our business does not meet regulatory requirements, we may be limited in our ability to continue or expand our business.

Our customers also include several non-U.S. governments, to which government procurement law risks similar to those present in U.S. government contracting also apply, particularly in certain emerging markets where our customer base is less

established. In addition, compliance with complex regulations and contracting provisions in a variety of jurisdictions can be expensive and consume significant management resources. In certain jurisdictions, our ability to win business may be constrained by political and other factors unrelated to our competitive position in the market. Each of these difficulties could materially adversely affect our business and results of operations.

***If we fail to comply with applicable anti-corruption and anti-bribery laws, including the FCPA and similar laws of other countries, and general trade regulations, we could be subject to penalties and civil and/or criminal sanctions and our business could be materially adversely affected.***

As we continue to expand our business internationally, we will inevitably do more business with large enterprises and the public sector in countries that are perceived to have heightened levels of public sector corruption. Increased business in countries perceived to have heightened levels of corruption could subject us and our officers and directors to increased scrutiny and increased liability from our business operations. We have implemented and continue to update our compliance program but there is a risk that our employees and agents, as well as those companies to which we outsource certain of our business operations, could take actions in violation of our policies and applicable law, for which we may be ultimately held responsible. In addition, we are subject to compliance with general trade regulations relating to doing business outside the US, including certain restrictions on conducting trade in certain restricted countries or with certain entities or individuals. Any violation of the FCPA, other applicable anti-corruption and anti-bribery laws or general trade regulations by our employees or our third-party intermediaries could subject us to significant risks and result in regulatory investigations, whistleblower complaints, adverse media coverage and/or severe criminal or civil sanctions, which could have a materially adverse effect on our reputation, business, operating results, and prospects.

***We rely on our network of partners for an increasing portion of our revenues, and if these partners fail to perform, our ability to sell and distribute our products may be limited, and our operating results and growth rate may be harmed.***

An increasing portion of our revenues is generated by sales through our network of partners, including managed service providers and resellers. Increasingly, we and our customers rely on our partners to provide professional services, including customer implementations, and there may not be enough qualified implementation partners available to meet customer demand. While we provide our partners with training and programs, including accreditations and certifications, these programs may not be effective or utilized consistently. In addition, new partners may require extensive training and may require significant time and resources to achieve productivity. Our partners may subject us to lawsuits, potential liability, and reputational harm if, for example, any of our partners misrepresent the functionality of our platform or products to customers, fail to perform services to our customers' expectations, or violate laws or our corporate policies. In addition, our partners may utilize our platform to develop products and services that could potentially compete with products and services that we offer currently or in the future. Concerns over competitive matters or intellectual property ownership could constrain these partnerships. If we fail to effectively manage and grow our network of partners, or properly monitor the quality and efficacy of their service delivery, our ability to sell our products and efficiently provide our services may be impacted, and our operating results and growth rate may be harmed.

***Privacy laws and concerns, evolving regulation of cloud computing, cross-border data transfer restrictions, other foreign and domestic regulations and standards related to data and the Internet may adversely affect our business.***

National and local governments or agencies have adopted, and may continue to adopt, laws and regulations affecting data privacy, the use of the Internet as a commercial medium, the use of data in contexts referred to as artificial intelligence and machine learning, and data sovereignty or residency requirements concerning the location of data centers and support services. As a cloud-based service provider, we optimize performance of our products and services by utilizing data centers located in, and support provided from, different jurisdictions. Changing laws, regulations and standards applying to the collection, use, sharing, transfer or other processing of data, including personal data, could affect our ability to develop our products and services to maximize their utility, as well as our customers' ability to use data or share data with service providers. Such changes may restrict our ability to use, store or otherwise process data of our customers in connection with providing and supporting our services. In some cases, this could impact our ability to offer our services in certain locations or our customers' ability to deploy our services globally.

The costs of compliance with, and other obligations imposed by, the General Data Protection Regulation (the "GDPR"), the ruling of the European Court of Justice in *Schrems v. Facebook Ireland, Limited* and interpretations of that ruling by regulators and customers, recommendations issued by the European Data Protection Board, new Standard Contractual Clauses issued by the European Commission, the California Consumer Privacy Act, as recently amended by a voter-approved proposition (the "CCPA") and other privacy, data residency, sovereignty and transfer laws, regulations and standards (including self-regulatory standards) may cause us to incur substantial operational costs or require us to modify our data handling practices

and/or policies, may limit the development, use and adoption of our services, including artificial intelligence and machine learning features, and could reduce overall demand for our services. In addition, non-compliance could result in proceedings or investigations against us by regulatory authorities or others, lead to significant fines, damages, orders or reputational harm and may otherwise adversely impact our business, financial condition and operating results. Changes in our developed or acquired products and how such products utilize data could also alter or increase our compliance requirements. As a result, our innovation and business drivers in developing or acquiring new and emerging technologies and the demand for our products could be impacted.

***Delays in the release of, or actual or perceived defects in, our products may slow the adoption of our latest technologies, reduce our ability to efficiently provide services, decrease customer satisfaction, and adversely impact sales of additional products.***

We must successfully continue to release new products and updates to existing products. The success of any release depends on a number of factors, including our ability to manage the risks associated with quality or other defects or deficiencies, delays in the timing of releases or the adoption of releases by customers, and other complications that may arise during the early stages of introduction. If releases are delayed or if customers perceive that our releases contain bugs or other defects or are difficult to implement, customer adoption of our new products or updates may be adversely impacted, customer satisfaction may decrease, our ability to efficiently provide our services may be reduced, and our growth prospects may be harmed.

***As we acquire or invest in companies and technologies, we may not realize the expected business or financial benefits and the acquisitions and investments may divert our management's attention and result in additional dilution to our stockholders.***

We have acquired or invested in companies and technologies in the past as part of our business strategy and may continue to evaluate and execute potential strategic transactions, including acquisitions of or investments in businesses, technologies, services, products and other assets in the future. We also may enter into relationships with other businesses to expand our service offerings, functionality or our ability to provide services in international locations, which could involve preferred or exclusive licenses, additional channels of distribution, discount pricing or investments in other companies. Although we conduct reasonably extensive due diligence with each of the entities we engage for a strategic transaction, our due diligence efforts may not reveal every material concern that may exist either with respect to the target entity or our assumptions surrounding the resulting combination. These strategic transactions involve numerous risks, including:

- assimilating or integrating the businesses, technologies, products, personnel or operations of the acquired companies;
- failing to achieve the expected benefits of the acquisition or investment;
- potential loss of key employees of the acquired company;
- inability to maintain relationships with customers and partners of the acquired business;
- potential adverse tax consequences;
- disruption to our business and diversion of management attention and other resources;
- potential financial and credit risks associated with acquired customers;
- dependence on acquired technologies or licenses for which alternatives may not be available to us without significant cost or complexity;
- in the case of foreign acquisitions, the challenges associated with integrating operations across different cultures and languages and any currency and regulatory risks associated with specific countries;
- introducing increased complexity and burden to maintain the technology platform or introducing vulnerabilities or threats by integrating acquired technologies;
- increased data privacy or security compliance requirements resulting from integrating the acquired technology or company with ours;
- impairment to our investments if our investees are unable to obtain future funding on favorable terms or at all; and
- potential unknown liabilities associated with the acquired businesses.

In addition, we may have to pay cash, incur debt, or issue equity or equity-linked securities to pay for any future acquisitions, each of which could adversely affect our financial condition or our stock price. Furthermore, if we finance acquisitions by issuing equity, convertible or other debt securities or loans, our existing stockholders may be diluted, or we could face constraints related to the terms of and repayment obligation related to the incurrence of indebtedness that could affect our stock price. The occurrence of any of these risks could harm our business, operating results and financial condition.

## Risks Related to the Operation of Our Business

***If we or our third-party service providers suffer a cyber-security event, we may lose customers and incur significant liabilities, any of which would harm our business and operating results.***

Our operations involve the storage, transmission and processing of our customers' confidential, proprietary and sensitive data, including personally identifiable information, protected health information, financial information and, in some cases, government information. While we have security measures in place designed to protect customer information and prevent data loss, these measures may be breached because of employee error or third-party actions, including unintentional events or deliberate attacks by cyber criminals, and result in someone obtaining unauthorized access to our customers' data or our data, including our intellectual property and other confidential business information. For example, third parties have attempted to fraudulently induce employees, contractors, or users to disclose information to gain access to our data or our customers' data, and we have been the target of email scams that attempt to acquire personal information or company assets. Computer malware, ransomware, viruses, hacking, phishing and denial of service attacks by third parties have become more prevalent in our industry, and they have occurred on our and our third-party service providers' systems in the past and may occur again on these systems in the future. Because techniques used to sabotage, obtain unauthorized access to systems or prohibit authorized access to systems change frequently and generally are not detected until successfully launched against a target, we have been and may continue to be unable to anticipate these techniques or to implement adequate preventative measures. This may also include underlying infiltration of pre-existing systems, including those of our third-party service providers or customers, perpetrated by more sophisticated attackers, such as the late 2020 foreign cybersecurity attack on a U.S. IT company. We devote significant financial and personnel resources to implement and maintain security measures; however, as cyber-security threats develop and grow more complex over time, it may be necessary to make significant further investments to protect data and infrastructure. A security breach suffered by us or our third-party service providers, an attack against our service availability or unauthorized access or loss of data could result in a disruption to our service, litigation, service level agreement claims, indemnification and other contractual obligations, regulatory investigations, government fines and penalties, reputational damage, loss of sales and customers, mitigation and remediation expenses and other significant costs and liabilities. In addition, we may incur significant costs and operational consequences of paying to access data, investigating, remediating, eliminating, complying with notice obligations and implementing additional measures designed to prevent actual or perceived security incidents. We also cannot be certain that our existing insurance coverage will continue to be available on acceptable terms or will be available in sufficient amounts to cover the potentially significant losses that may result from a security incident or breach or that the insurer will not deny coverage as to any future claim.

Further, in most instances, our customers administer access to the data held in their particular instance for their employees and service providers. While we offer tools and support, customers are not required to utilize them and, accordingly, or for other reasons, a customer may suffer a cyber-security event on its own systems, unrelated to our own, and allow a malicious actor to obtain access to the customer's information held on our platform. Even if such a breach is unrelated to our security programs or practices, such breach could result in our incurring significant economic and operational costs in investigating, remediating, eliminating and implementing additional measures to further protect our customers from their own vulnerabilities, and could result in reputational harm to us.

***If we lose key employees or are unable to attract and retain the employees we need, our business and operating results will be adversely affected.***

Our success depends largely upon the continued services of our management team and many key individual contributors. From time to time in the ordinary course of business, there may be changes in our management team resulting from the hiring or departure of executives. For example, our current President and Chief Executive Officer was appointed in November 2019 and our current Chief Financial Officer was appointed in January 2020. While we seek to manage these transitions carefully, including by establishing strong processes and procedures and succession planning, such changes may result in a loss of institutional knowledge and cause disruptions to our business.

In the technology industry, there is substantial and continuous competition for diverse, talented product and engineering, sales and operations employees. We may not be successful in attracting and retaining such personnel, and we may experience increased compensation and training costs that may not be offset by either improved productivity or higher sales. We have from time to time experienced, and we may continue to experience, difficulty in hiring and retaining highly-skilled employees with appropriate qualifications, and may not be able to fill positions in desired geographic areas or at all. In particular, competition for experienced software and cloud computing infrastructure engineers in the San Francisco Bay area, San Diego, Seattle, Hyderabad, Dublin, London, and Amsterdam, our primary operating locations, is intense. Many of our employees, including all of our executive officers, are employed "at-will" and may terminate their employment with us at any time. If we fail to attract

new personnel or fail to retain and motivate our current personnel, our business and future growth prospects could be adversely affected.

In addition, we believe our corporate culture of fostering innovation, teamwork and employee satisfaction has been a key contributor to our success to date. As we continue to grow and expand globally and navigate shifting workforce priorities, including an extended period of time in which our employees are working from their home locations or an increase in remote workers, we may find it difficult to maintain important aspects of our corporate culture, which could negatively affect our ability to retain and recruit personnel who are essential to our future success.

***Lawsuits against us by third parties that allege we infringe their intellectual property rights could harm our business and operating results.***

There is considerable patent and other intellectual property development activity in our industry. Our competitors, other third parties and non-practicing entities, own large numbers of patents, copyrights, trademarks and trade secrets, which they may use to assert claims of patent infringement, misappropriation or other violations of intellectual property rights against us. Moreover, the patent portfolios of many of our competitors are larger than ours. This disparity may increase the risk that our competitors may sue us for patent infringement and may limit our ability to counterclaim for patent infringement or settle through patent cross-licenses. For example, we have recorded material charges for legal settlements of such claims in the past.

In any intellectual property litigation, regardless of the scope or merit, we may incur substantial costs and attorney's fees and, if the claims are successfully asserted against us and we are found to be infringing upon the intellectual property rights of others, we could be required to: pay substantial damages and/or make substantial ongoing royalty payments; cease offering or modify our products and services; comply with other unfavorable terms, including settlement terms; and indemnify our customers and business partners, obtain costly licenses on their behalf, and/or refund fees or other payments previously paid to us. Further, upon expiration of the term of any agreements that allow us to use third-party intellectual property, we may be unable to renew such agreements on favorable terms, if at all, in which case we may face intellectual property litigation. The mere existence of any lawsuit, or any interim or final outcomes, and the public statements related to it (or absence of such statements) by the press, analysts and litigants could be unsettling to our customers and prospective customers. This could cause an adverse impact to our customer satisfaction and related renewal rates, cause us to lose potential sales, and could also be unsettling to investors or prospective investors and cause a substantial decline in our stock price. Any claim or litigation against us could be costly, time-consuming and divert the attention of management and key personnel from our business operations and harm our financial condition and operating results.

***Our intellectual property protections may not provide us with a competitive advantage, and defending our intellectual property may result in substantial expenses that harm our operating results.***

Our success depends to a significant degree on our ability to protect our proprietary technology and our brand under patent and other intellectual property protections of the US and other jurisdictions. Though we seek patent protection for our technology, we may not be successful in obtaining patent protection, and any patents acquired in the future may not provide us with competitive advantages, or may be successfully challenged by third parties. Furthermore, legal standards relating to the validity, enforceability and scope of protection of intellectual property rights are uncertain. Any of our intellectual property rights may be challenged by others or invalidated through administrative processes or litigation. Effective patent, trademark, copyright and trade secret protection may not be available in every country in which we offer services. The laws of some foreign countries may not be as protective of intellectual property rights as those in the US, and mechanisms for enforcement of intellectual property rights or available remedies may be inadequate. We may be required to spend significant resources to monitor and protect our intellectual property rights. We have initiated and, in the future, may initiate claims or litigation against third parties for infringement of our proprietary rights or to establish the validity of our proprietary rights. Any litigation, whether or not resolved in our favor, could result in significant expense to us, divert the efforts of our technical and management personnel and may result in counter-claims with respect to infringement of intellectual property rights by us. If we are unable to prevent third parties from infringing upon or misappropriating our intellectual property, or are required to incur substantial expenses defending our intellectual property rights, our business and operating results may be adversely affected.

***Our use of open source software could harm our ability to sell our products and services and subject us to possible litigation.***

Our products incorporate software licensed to us by third-party authors under open source licenses, and we expect to continue to incorporate open source software into other products and services in the future. We attempt to monitor our use of open source software in an effort to avoid subjecting our products and services to adverse licensing conditions. However, there can be no assurance that our efforts have been or will be successful. There is little or no legal precedent governing the interpretation of the terms of open source licenses, and therefore the potential impact of these terms on our business is uncertain and enforcement of these terms may result in unanticipated obligations regarding our products and services. For example, depending on which open source license governs open source software included within our products and services, we may be

subjected to conditions requiring us to offer our products and services to users at no cost; make available the source code for modifications and derivative works based upon, incorporating or using the open source software; and license such modifications or derivative works under the terms of the particular open source license. Moreover, if an author or other third party that distributes such open source software were to allege that we had not complied with the conditions of one or more of these licenses, we could be required to incur significant legal costs defending ourselves against such allegations, be subject to significant damages or be enjoined from distributing our products and services.

***Various factors, including our customers' business, integration, migration and security requirements, or errors by us, our partners, or our customers, may cause implementations of our products to be delayed, inefficient or otherwise unsuccessful.***

Our business depends upon the successful implementation of our products by our customers either through us or our partners. Further, our customers' business, integration, migration and security requirements, or errors by us, our partners, or our customers, or other factors may cause implementations to be delayed, inefficient or otherwise unsuccessful. For example, changes in the functional requirements of our customers, delays in timeline, or deviations from recommended best practices may occur during the course of an implementation project. As a result of these and other risks, we or our customers may incur significant implementation costs in connection with the purchase, implementation and enablement of our products. Some customer implementations may take longer than planned or fail to meet our customers' expectations, which may delay our ability to sell additional products or result in customers canceling or failing to renew their subscriptions before our products have been fully implemented. Some customers may lack the employee talent or organizational capacity to manage a digital transformation such as our offering and, as a consequence, may be unable to see the benefits of our products. Unsuccessful, lengthy, or costly customer implementation and integration projects could result in claims from customers, reputational harm, and opportunities for competitors to displace our products, each of which could have an adverse effect on our business and operating results.

***Disruptions or defects in our services could damage our customers' businesses, subject us to substantial liability and harm our reputation and financial results.***

From time to time, we experience defects in our services, and new defects may be detected in the future. For example, we provide regular updates to our services, which frequently contain undetected defects when first released. Defects may also be introduced by our use of third-party software, including open source software. Disruptions may result from errors we make in developing, delivering, configuring or hosting our services, or designing, installing, expanding or maintaining our cloud infrastructure. Disruptions in service can also result from incidents that are outside of our control, including denial of service or ransomware attacks. We currently serve our customers primarily using equipment managed by us and co-located in third-party data centers operated by several different providers located around the world, and serve certain of our customers using data center facilities operated by public cloud service providers. These data centers are vulnerable to damage or interruption from earthquakes, hurricanes, floods, fires, power loss and similar events. They may also be subject to break-ins, sabotage, intentional acts of vandalism and similar misconduct, equipment failure and adverse events caused by operator error or negligence. Despite precautions taken at these centers, problems at these centers have occurred, resulting in interruptions in our services. Such problems could occur again and result in similar or lengthier service interruptions and the loss of customer data. In addition, our customers may use our services in ways that cause disruptions in service for other customers. Our customers use our services to manage important aspects of their businesses, and our reputation and business will be adversely affected if our customers and potential customers believe our services are unreliable. Disruptions or defects in our services may reduce our revenues, cause us to issue credits or pay penalties, subject us to claims and litigation, cause our customers to delay payment or terminate or fail to renew their subscriptions, and adversely affect our ability to attract new customers. Similarly, customers may have unique requirements for system resiliency that we may not be able to, or may not choose to, meet. The occurrence of payment delays, service credit, warranty or termination for material breach or other claims against us could result in an increase in our bad debt expense, an increase in collection cycles for accounts receivable, an increase to our service level credit accruals, other increased expenses or risks of litigation. We may not have insurance sufficient to compensate us for the potentially significant losses that may result from claims arising from disruptions in our services.

#### **Risks Related to the Financial Performance or Financial Position of Our Business**

***Our operating results may vary significantly from period to period, and if we fail to meet the financial performance expectations of investors or securities analysts, the price of our common stock could decline substantially.***

Our operating results may vary significantly from period to period as a result of various factors, some of which are beyond our control. For any quarterly or annual period, there is a risk that our financial performance will not meet the financial guidance we have previously given for that period, or that we may otherwise fail to meet the financial performance expectations of the securities analysts who issue reports on our company and our common stock price, or of investors in our common stock. There is also a risk that we may issue forward-looking financial guidance for a quarterly or annual period that fails to meet the

expectations of such securities analysts or investors. If any of the foregoing occurs, for any reason, either within or outside of our control, the price of our common stock could decline substantially and investors in our common stock could incur substantial losses. Some of the important factors that may cause our financial performance to vary widely, or cause our forward-looking financial guidance to fall below the expectations of such securities analysts or investors, include:

- our ability to attract new customers, retain and increase sales to existing customers, and satisfy customers' requirements;
- changes in our mix of products and services, including changes in our mix of cloud and self-hosted offerings, market penetration of our products, or use of our products by our customers;
- our ability to increase sales of certain new products;
- volatility in foreign currency exchange rates and our ability to effectively hedge our foreign currency exposure;
- the rate of expansion, retention and productivity of our sales and engineering organizations;
- the number of new employees added;
- the cost, timing and management effort for our development of new products and services;
- general economic conditions that may adversely affect our customers' or prospective customers' purchasing decisions;
- the amount and timing of operating costs and capital expenditures related to business operation and expansion;
- seasonality in terms of when we enter into customer agreements;
- the length and complexity of the sales cycle and certification process for our services, especially for sales to larger enterprises, government and regulated organizations;
- changes in the size and complexity of our customer relationships;
- changes to our management, sales and account management teams as we scale and evolve business priorities;
- changes in our or our competitors' pricing policies;
- significant security breaches, technical difficulties or interruptions of our services;
- new solutions or products introduced by our competitors;
- changes in effective tax rates;
- changes in the average contract term of our customer agreements, timing of renewals, renewal rates, expansion within our existing customers and billings duration;
- the timing of customer payments and payment defaults by customers;
- extraordinary expenses such as litigation costs or damages, including settlement payments;
- the costs associated with acquiring new businesses and technologies and the follow-on costs of integration, including the tax effects of acquisitions;
- changes in laws or regulations impacting the delivery of our services;
- our ability to comply with privacy laws and regulations;
- significant litigation or regulatory actions relating to claims of intellectual property infringement, violation of privacy laws, employment matters or any other significant matter;
- the amount and timing of equity awards and the related financial statement expenses;
- the impact of new accounting pronouncements; and
- our ability to accurately estimate the total addressable market for our products and services.

***Because we generally recognize revenues from our subscription service over the subscription term, a decrease in new subscriptions or renewals during a reporting period may not be immediately reflected in our operating results for that period.***

We generally recognize revenues from customers ratably over the terms of their subscriptions. Net new annual contract value from new subscriptions and expansion contracts entered into during a period can generally be expected to generate revenues for the duration of the subscription term. As a result, a significant portion of the revenues we report in each period are derived from the recognition of deferred revenues relating to subscriptions entered into during previous periods. Consequently, a decrease in new or renewed subscriptions in any single reporting period will have a limited impact on our revenues for that period. In addition, our ability to adjust our cost structure in the event of a decrease in new or renewed subscriptions may be limited.

Further, a decline in new subscriptions, expansion contracts or renewals in a given period may not be fully reflected in our revenues for that period, but they will negatively affect our revenues in future periods. Accordingly, the effect of significant downturns in sales and market acceptance of our services, and changes in our rate of renewals, may not be fully reflected in our results of operations until future periods. Our subscription model also makes it difficult for us to rapidly increase our revenues through additional sales in any period, as revenues from new customers are generally recognized over the applicable subscription term. Additionally, due to the complexity of certain customer contracts, the actual revenue recognition treatment

required under Accounting Standard Codification Topic 606, “Revenue from Contracts with Customers (“Topic 606”)” depends on contract-specific terms and may result in greater variability in revenues from period to period.

In addition, a decrease in new subscriptions, expansion contracts or renewals in a reporting period may not have an immediate impact on billings for that period due to factors that may offset the decrease, such as an increase in billings duration, the dollar value of contracts with future start dates, or the dollar value of collections in the current period related to contracts with future start dates.

***As our business grows, we expect our revenue growth rate to continue to decline.***

We have experienced significant revenue growth in prior periods; however, our longer-term revenue growth rate is declining, and we expect that it will continue to decline into the foreseeable future due to a number of reasons, which may include maturation of our business, increasing competition, or decrease in the growth of our overall market. We also expect our costs to increase in future periods as we continue to invest in our strategic priorities, which may not result in increased revenues or growth in our business. You should not rely on our revenue for any prior periods as any indication of our future revenue growth. If we are unable to maintain consistent revenue or revenue growth, our stock price could be volatile.

***Changes in our effective tax rate or rejection of our tax positions may adversely affect our financial position and results.***

We are subject to income taxes in the US and various foreign jurisdictions. We believe that our provision for income taxes is reasonable, but the ultimate tax outcome may differ from the amounts recorded in our consolidated financial statements and may materially affect our financial results in the period or periods in which such outcome is determined. Our effective tax rate could be adversely affected by changes in the mix of earnings and losses in countries with differing statutory tax rates, certain non-deductible expenses, the valuation of deferred tax assets and liabilities and the effects of acquisitions. Increases in our effective tax rate would reduce our profitability or in some cases increase our losses.

Additionally, our future effective tax rate could be impacted by changes in accounting principles or changes in federal, state or international tax laws or tax rulings. The U.S. Department of Treasury has broad authority to issue regulations and interpretative guidance that may significantly impact how we will apply the law, which could affect our results of operations in the period issued. Many countries and organizations such as the Organization for Economic Cooperation and Development are actively considering changes to existing tax laws or have proposed or enacted new laws that could increase our tax obligations in countries where we do business or cause us to change the way we operate our business. Recent global tax developments applicable to multinational businesses and increased scrutiny under tax examinations could have a material impact on our business and negatively affect our financial results. Any changes in federal, state or international tax laws or tax rulings may increase our worldwide effective tax rate and harm our financial position and results of operations.

In addition, we may be subject to income tax audits by tax jurisdictions throughout the world, many of which have not established clear guidance on the tax treatment of cloud computing companies. Although we believe our income tax liabilities are reasonably estimated and accounted for in accordance with applicable laws and principles, an adverse resolution of one or more uncertain tax positions in any period could have a material impact on our results of operations for that period. Further, many of our most important intangible assets are held outside the US and are subject to inter-company agreements regarding the development and distribution of those assets to other jurisdictions with potential challenge under permanent establishment or transfer pricing principles. While we believe that our position is appropriate and well founded, in the event that our position was to be successfully challenged by taxing authorities in other jurisdictions, we may become subject to significant tax liabilities, which could harm our financial position and financial results.

***If we are unable to maintain effective internal control over financial reporting, the accuracy and timeliness of our financial reporting may be adversely affected.***

The Sarbanes-Oxley Act requires us, among other things, to assess and report on the effectiveness of our internal control over financial reporting annually and the reasonable assurance level of our disclosure controls and procedures quarterly. In addition, our independent registered public accounting firm is required to audit the effectiveness of our internal control over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act annually. Our independent registered public accounting firm may issue a report that is adverse if it is not satisfied with the level at which our controls are documented, designed or operating. Moreover, our testing, or the subsequent testing by our independent registered public accounting firm, may reveal material weaknesses or significant deficiencies. If material weaknesses are identified or we are not able to comply with the requirements of Section 404 in a timely manner, our reported financial results could be materially misstated or could subsequently require restatement, we could receive an adverse opinion regarding our internal control over financial reporting from our independent registered public accounting firm, we could be subject to investigations or sanctions by regulatory

authorities and we could incur substantial expenses. We may not be able to effectively implement system and process changes required for new standards on a timely basis. Any delays or failure to update our systems and processes could also lead to a material weakness or significant deficiency.

## **Risks Related to General Economic Conditions**

### ***Natural disasters and other events beyond our control could harm our business.***

Natural disasters or other catastrophic events may cause damage or disruption to our operations, international commerce and the global economy, and thus could have a negative effect on us. Our business operations are subject to interruption by natural disasters, flooding, fire, power shortages, pandemics such as COVID-19, terrorism, political unrest, telecommunications failure, vandalism, cyber-attacks, geopolitical instability, war, the effects of climate change (such as drought, wildfires, hurricanes, increased storm severity and sea level rise) and other events beyond our control. Although we maintain crisis management and disaster response plans, such events could make it difficult or impossible for us to deliver our services to our customers, could decrease demand for our services, and could cause us to incur substantial expense. Our insurance may not be sufficient to cover losses or additional expense that we may sustain. The majority of our research and development activities, offices, information technology systems, and other critical business operations are located near major seismic faults in California and Washington. Customer data could be lost, significant recovery time could be required to resume operations and our financial condition and operating results could be adversely affected in the event of a major natural disaster or catastrophic event. In addition, the impacts of climate change on the global economy and our industry are rapidly evolving. We may be subject to increased regulations, reporting requirements, standards or expectations regarding the environmental impacts of our business.

### ***Global economic conditions may harm our industry, business and results of operations.***

We operate globally and as a result our business and revenues are impacted by global macroeconomic conditions. Global financial developments seemingly unrelated to us or the software industry may harm us. From time to time, the US and other key international economies have been impacted by geopolitical and economic instability, high levels of credit defaults, international trade disputes, falling demand for various goods and services, high levels of persistent unemployment, wage and income stagnation, restricted credit, poor liquidity, reduced corporate profitability, volatility in credit, equity and foreign exchange markets, bankruptcies, international trade agreements, trade restrictions and overall economic uncertainty. These conditions can arise suddenly and affect the rate of information technology spending and could adversely affect our customers' or prospective customers' ability or willingness to purchase our services, delay purchasing decisions, reduce the value or duration of their subscriptions, or affect renewal rates, all of which could harm our operating results.

For example, the COVID-19 pandemic, global growth rates, tariffs or trade relations between the US and China or other countries, increased restrictions on international data transfers, economic, political and labor conditions, including the impact on trade or any other instability surrounding the United Kingdom's exit from the EU (Brexit), political uncertainty and other geopolitical events could directly or indirectly affect our business. In addition, the effects, if any, of global financial conditions on our business can be difficult to distinguish from the effects on our business from product, pricing, and other developments in the markets specific to our products and our relative competitive strength. If we make incorrect judgments or assumptions about our business for this reason, our business and results of operations could be adversely affected.

### ***Foreign currency exchange rate fluctuations could harm our financial results.***

We conduct significant transactions, including revenue transactions and intercompany transactions, in currencies other than the U.S. Dollar or the functional operating currency of the transactional entities. In addition, our international subsidiaries maintain significant net assets that are denominated in the functional operating currencies of these entities. Accordingly, changes in the value of currencies relative to the U.S. Dollar may impact our consolidated revenues and operating results due to transactional and translational remeasurement that is reflected in our earnings. It is particularly difficult to forecast any impact from exchange rate movements, so there is risk that unanticipated currency fluctuations could adversely affect our financial results or cause our results to differ from investor expectations or our own guidance in any future periods. Volatility in exchange rates and global financial markets is expected to continue due to political and economic uncertainty globally.

We use derivative instruments, such as foreign currency forwards, to hedge certain exposures to fluctuations in certain foreign currency exchange rates. These hedging contracts may reduce, but cannot entirely eliminate, the impact of adverse currency exchange rate movements. Further, unanticipated changes in currency exchange rates may result in poorer overall financial performance than if we had not engaged in any such hedging transactions. Moreover, for a number of reasons, including our limited experience with these hedging contracts, we may not seek or be able to establish a perfect correlation

between such hedging instruments and the exposures being hedged. Any such imperfect correlation may prevent us from achieving the intended hedge, and could expose us to a greater overall risk of loss than if we had not hedged.

### **Risks Related to Our 2030 Notes and 2022 Notes**

#### ***Our debt service obligations, including the 2030 Notes, may adversely affect our financial condition and cash flows from operations.***

As of December 31, 2020, we have \$1.5 billion aggregate principal amount of the 2030 Notes payable outstanding due on September 1, 2030, as described in Note 11 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K. Our ability to make payments on, repay or refinance the 2030 Notes in the future will depend on our future performance which is subject to a variety of risks and uncertainties, many of which are beyond our control. If we decide to refinance the 2030 Notes, we may be required to do so on different or less favorable terms or we may be unable to refinance the 2030 Notes at all, both of which may adversely affect our financial condition.

Maintenance of our indebtedness, contractual restrictions, and additional issuances of indebtedness could:

- cause us to dedicate a substantial portion of our cash flows from operations towards debt service obligations and principal repayments;
- increase our vulnerability to adverse changes in general economic, industry and competitive conditions;
- limit our flexibility in planning for, or reacting to, changes in our business and our industry;
- impair our ability to obtain future financing for working capital, capital expenditures, acquisitions, general corporate or other purposes; and
- due to limitations within the debt instruments, restrict our ability to grant liens on property, enter into certain mergers, dispose of all or substantially all of our or our subsidiaries' assets, taken as a whole, materially change our business or incur subsidiary indebtedness, subject to customary exceptions.

We are required to comply with the covenants set forth in the indentures governing the 2030 Notes. Our ability to comply with these covenants may be affected by events beyond our control. If we breach any of the covenants and do not obtain a waiver from the note holders or lenders, then, subject to applicable cure periods, any outstanding indebtedness may be declared immediately due and payable. In addition, changes by any rating agency to our credit rating may negatively impact the value and liquidity of our securities. Downgrades in our credit ratings could restrict our ability to obtain additional financing in the future and could affect the terms of any such financing.

#### ***The conditional conversion feature of the 2022 Notes may adversely affect our financial condition and operating results.***

Prior to the business day immediately preceding February 1, 2022, the holders of the 2022 Notes may elect to convert their notes during any calendar quarter (and only during such calendar quarter) if the last reported sale price of our common stock for at least 20 trading days during the period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to \$175.18 (the "Conversion Condition"). The Conversion Condition for the 2022 Notes was met for all the quarters ended June 30, 2018 through December 31, 2020, except for the quarter ended December 31, 2018. Therefore, our 2022 Notes became convertible at the holders' option beginning on July 1, 2018 and continue to be convertible through March 31, 2021, except for the quarter ended March 31, 2019. We have settled conversion requests and expect to settle additional conversion requests prior to the maturity of the 2022 Notes. Also, we intend to continue to settle all of our conversion obligations in cash, which could adversely affect our liquidity and result in a material adverse effect on our financial position, results of operations and cash flows. In addition, to the extent we receive conversion requests, we may also record a loss on early conversions of the 2022 Notes converted by note holders based on the difference between the fair market value allocated to the liability component on the settlement date and the net carrying amount of the liability component and unamortized debt discount and issuance cost on the settlement date.

#### ***The convertible note hedge and warrant transactions may affect the value of the 2022 Notes and our common stock.***

In connection with the sale of the 2022 Notes, we entered into convertible note hedge (the "2022 Note Hedge") transactions with certain financial institutions ("option counterparties"). We also entered into warrant transactions with the option counterparties pursuant to which we sold warrants for the purchase of our common stock (the "2022 Warrants"). The actual number of shares of our common stock issuable upon the automatic exercise of the remaining portion of the 2022 Warrants, if any, is unknown at this time. Refer to Note 11 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for additional information.

The option counterparties and/or their respective affiliates may modify their hedge positions by entering into or unwinding various derivatives with respect to our common stock and/or purchasing or selling our common stock in secondary

market transactions prior to the maturity of the 2022 Notes (and are likely to do so during any observation period related to a conversion of the 2022 Notes, or following any repurchase of the 2022 Notes by us on any fundamental change repurchase date (as defined in the Indenture) or otherwise). This activity could also cause or avoid an increase or a decrease in our stock price or the 2022 Notes price, which could affect note holders' ability to convert the 2022 Notes and, to the extent the activity occurs during any observation period related to a conversion of the 2022 Notes, it could affect the amount and value of the consideration that note holders will receive upon conversion of the 2022 Notes.

The potential effect, if any, of these transactions and activities on our stock price or the 2022 Notes price will depend in part on market conditions and cannot be ascertained at this time. Any of these activities could adversely affect the value of our common stock and the value of the 2022 Notes (and the resulting amount of cash and/or number of shares, if any, that note holders would receive upon the conversion) and, under certain circumstances, the ability of the note holders to convert the 2022 Notes.

***We are subject to counterparty risk with respect to the 2022 Note Hedge.***

The option counterparties are financial institutions, and we will be subject to the risk that any or all of them may default under the 2022 Note Hedge. Our exposure to the credit risk of the option counterparties will not be secured by any collateral. Recent global economic conditions have resulted in the actual or perceived failure or financial difficulties of many financial institutions. If an option counterparty becomes subject to insolvency proceedings, we will become an unsecured creditor in those proceedings, with a claim equal to our exposure at that time under our transactions with that option counterparty. Our exposure will depend on many factors but, generally, an increase in our exposure will be correlated to an increase in the stock price and in the volatility of our common stock. In addition, upon a default by an option counterparty, we may suffer adverse tax consequences and more dilution than we currently anticipate with respect to our common stock. We can provide no assurances as to the financial stability or viability of the option counterparties.

**Risks Related to Ownership of Our Common Stock**

***Our stock price has historically been and is likely to continue to be volatile and could subject us to litigation.***

Our stock price has been, and is likely to continue to be, volatile and could be subject to wide fluctuations in response to various factors, some of which are beyond our control. In addition, technology companies in general have highly volatile stock prices, and the volatility in stock price and trading volume of securities is often unrelated or disproportionate to the financial performance of the companies issuing the securities. Factors affecting our stock price, some of which are beyond our control, include:

- changes in the estimates of our operating results or changes in recommendations by securities analysts that elect to cover our common stock;
- announcements of new products, services or technologies, new applications or enhancements to services, strategic alliances, acquisitions, or other significant events by us or by our competitors;
- fluctuations in the valuation of companies, such as high-growth or cloud companies, investors perceive to be comparable to us;
- changes to our management team;
- trading activity by directors, executive officers and significant stockholders, or the market's perception that large stockholders intend to sell their shares;
- the inclusion, exclusion, or deletion of our stock from any trading indices, such as the S&P 500 Index;
- the size of our market float;
- the volume of trading in our common stock, including sales upon exercise of outstanding options or vesting of equity awards or sales and purchases of any common stock issued upon conversion of the remaining portion of the 2022 Notes or in connection with the 2022 Note Hedge and 2022 Warrant transactions;
- the economy as a whole, market conditions in our industry, and the industries of our customers; and
- overall performance of the equity markets.

Following periods of volatility in the market price of a company's securities, securities class action litigation has often been brought against that company. Securities litigation could result in substantial costs and divert our management's attention and resources from our business. This could have a material adverse effect on our business, operating results, and financial condition.

***We do not intend to pay dividends on our common stock, so any returns will be limited to changes in our stock price.***

We have never declared or paid any cash dividends on our common stock. We anticipate that we will retain future earnings for the development, operation and expansion of our business and do not anticipate declaring or paying any cash dividends for the foreseeable future. In addition, our ability to pay cash dividends on our common stock may be prohibited or limited by the terms of any future debt financing arrangements. Any return to stockholders will be limited to increased stock price, if any.

***Provisions in our charter documents, Delaware law, 2030 Notes or our 2022 Notes might discourage, delay or prevent a change of control or changes in our management and, therefore, depress our stock price.***

Our restated certificate of incorporation, as amended, and restated bylaws contain provisions that could depress our stock price by acting to discourage, delay or prevent a change in control of our company or changes in our management that the stockholders of our company may deem advantageous. These provisions among other things:

- established a classified board so not all directors are elected at one time, although our board will be fully declassified by our 2023 annual meeting of shareholders;
- permit the board to establish the number of directors;
- provide that directors may only be removed “for cause” and only with the approval of 66 2/3% of our shareholders;
- require super-majority voting to amend some provisions in our certificate of incorporation, as amended, and restated bylaws;
- authorize issuance of “blank check” preferred stock that our board could use to implement a shareholder rights plan;
- do not permit our shareholders to call special meetings of shareholders;
- prohibit shareholder action by written consent, which requires all shareholder actions to be taken at a meeting;
- provide that the board is expressly authorized to make, alter or repeal our restated bylaws; and
- establish advance notice requirements for nominations for election to our board or proposing matters that can be acted upon by shareholders at annual shareholder meetings (though our restated bylaws have shareholder proxy access).

In addition, Section 203 of the Delaware General Corporation Law may discourage, delay or prevent a change in control of our company. Section 203 imposes certain restrictions on merger, business combinations and other transactions between us and holders of 15% or more of our common stock.

Further, the fundamental change provisions of our 2022 Notes or change in control repurchase event provisions of our 2030 Notes may delay or prevent a change in control of our company, because those provisions allow note holders to require us to repurchase such notes upon the occurrence of a fundamental change or change in control repurchase event.

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

None.

**ITEM 2. PROPERTIES**

Our principal office is located in Santa Clara, California, where we lease approximately 608,000 square feet of space under three lease agreements for our business operations and product development. We also have approximately 510,000 square feet of expansion space that is currently under development by the landlord under two additional lease agreements. We also maintain offices globally. All of our properties are currently leased. We believe our existing facilities are adequate to meet our current requirements. See Note 18 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for more information about our lease commitments. We expect to expand our facilities capacity as our employee base grows. We believe we will be able to obtain such space on acceptable and commercially reasonable terms.

**ITEM 3. LEGAL PROCEEDINGS**

From time to time, we are party to litigation and other legal proceedings in the ordinary course of business. While the results of any litigation or other legal proceedings are uncertain, we are not presently a party to any legal proceedings that, if determined adversely to us, would individually or taken together have a material adverse effect on our business, financial position, results of operations or cash flows.

**ITEM 4. MINE SAFETY DISCLOSURES**

Not applicable.

## PART II

### ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

#### Market Information for Common Stock

Our common stock is listed on the New York Stock Exchange under the symbol "NOW."

#### Dividends

Our board of directors currently intends to retain any future earnings to support operations and to finance the growth and development of our business, and therefore does not intend to pay cash dividends on our common stock for the foreseeable future.

#### Stockholders

As of December 31, 2020, there were 9 registered stockholders of record (not including an indeterminate number of beneficial holders of stock held in street name through brokers and other intermediaries) of our common stock.

#### Securities Authorized for Issuance under Equity Compensation Plans

The information required by this item will be included in an amendment to this Annual Report on Form 10-K or incorporated by reference from our definitive proxy statement to be filed with the SEC pursuant to Regulation 14A.

#### Stock Performance Graph

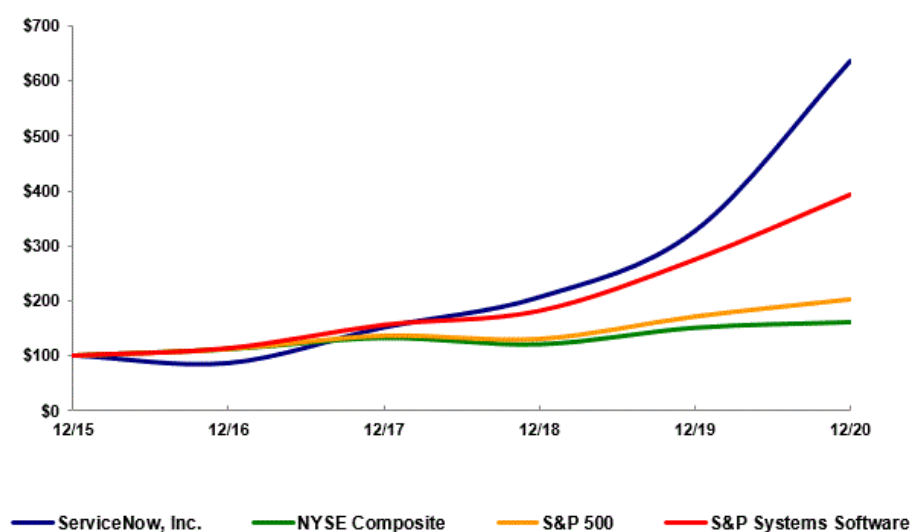

The following shall not be deemed incorporated by reference into any of our other filings under the Securities Exchange Act of 1934, as amended (the "Exchange Act") or the Securities Act except to the extent we specifically incorporate it by reference into such filing.

The graph below compares the cumulative total stockholder return on our common stock with the cumulative total return on the S&P 500 Index, NYSE Composite Index and the Standard & Poor Systems Software Index for each of the last five fiscal years ended December 31, 2016 through December 31, 2020, assuming an initial investment of \$100. Data for the S&P 500 Index, NYSE Composite Index and the Standard & Poor Systems Software Index assume reinvestment of dividends.

The comparisons in the graph below are based upon historical data and are not indicative of, nor intended to forecast, future performance of our common stock.

### COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN\*

Among ServiceNow, Inc., the NYSE Composite Index, the S&P 500 Index and the S&P Systems Software Index

\*\$100 invested on 12/31/15 in stock or index, including reinvestment of dividends. Fiscal year ending December 31.

	Base Period					
	Dec 31, 2015	Dec 31, 2016	Dec 31, 2017	Dec 31, 2018	Dec 31, 2019	Dec 31, 2020
ServiceNow, Inc.	100.00	85.88	150.64	205.70	326.16	635.89
NYSE Composite	100.00	111.94	132.90	121.01	151.87	162.49
S&P 500	100.00	111.96	136.40	130.42	171.49	203.04
S&P Systems Software	100.00	113.24	155.56	181.04	274.06	392.13

#### Unregistered Sales of Equity Securities

In connection with the acquisition of Sweagle NV (“Sweagle”) in July 2020, we issued 18,728 shares of our common stock to ServiceNow Belgium BVBA. The shares of common stock were issued in reliance on the exemption from registration pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended (the “Securities Act”).

In August 2020, concurrently with the offering of the 2030 Notes, we completed the 2022 Notes Repurchase. In connection with the 2022 Notes Repurchase, we entered into partial unwind agreements that reduced the aggregate number of warrants to 1,828,876. In connection with the partial unwind of the 2022 Warrants, we delivered, in an exchange pursuant to Section 3(a)(9) of the Securities Act, an aggregate of 2,284,930 shares of our common stock to the holders of the 2022 Warrants, which were Citibank, N.A., Goldman Sachs & Co LLC, JPMorgan Chase Bank, National Association, London Branch, and Morgan Stanley & Co. International plc. We did not receive any proceeds from the partial unwind agreements in connection with our 2022 Warrants, nor were they subject to underwriting discounts or commissions.

#### Issuer Purchases of Equity Securities

None.

**ITEM 6. SELECTED CONSOLIDATED FINANCIAL DATA**

The following selected consolidated financial data should be read together with our consolidated financial statements and accompanying notes and “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” which are included elsewhere in this Annual Report on Form 10-K.

The selected consolidated statements of comprehensive income (loss) data for each of the years ended December 31, 2020, 2019 and 2018 and the selected consolidated balance sheets data as of December 31, 2020 and 2019 set forth in the tables below are derived from our audited consolidated financial statements included elsewhere in this Annual Report on Form 10-K. The selected consolidated statements of comprehensive income (loss) data for the each of the years ended December 31, 2017 and 2016 and the selected consolidated balance sheets data as of December 31, 2018, 2017 and 2016 set forth in the tables below are derived from audited consolidated financial statements which are not included in this Annual Report on Form 10-K. The selected consolidated financial data in this section are not intended to replace our consolidated financial statements and the related notes. Our historical results are not necessarily indicative of our future results.

	Year Ended December 31,				
	2020	2019	2018	2017	2016
(in thousands, except per share data)					
<b>Consolidated Statements of Comprehensive Income (Loss) Data:</b>					
Total revenues <sup>(1)</sup>	\$ 4,519,484	\$ 3,460,437	\$ 2,608,816	\$ 1,918,494	\$ 1,390,985
Net income (loss) <sup>(1)(2)(3)</sup>	\$ 118,503	\$ 626,698	\$ (26,704)	\$ (116,846)	\$ (414,249)
Net income (loss) per share - basic <sup>(1)(2)(3)</sup>	\$ 0.61	\$ 3.36	\$ (0.15)	\$ (0.68)	\$ (2.52)
Net income (loss) per share - diluted <sup>(1)(2)(3)</sup>	\$ 0.59	\$ 3.18	\$ (0.15)	\$ (0.68)	\$ (2.52)
Weighted-average shares used to compute net income (loss) per share - basic	193,096	186,466	177,846	171,176	164,534
Weighted-average shares used to compute net income (loss) per share - diluted	202,478	197,223	177,846	171,176	164,534

(1) The amounts for the years ended December 31, 2017 and 2016 reflect the impact of the full retrospective adoption of Topic 606 as of January 31, 2018.

(2) The amount for the year ended December 31, 2016 includes legal settlement expenses of \$270 million.

(3) The amount for the year ended December 31, 2019 reflect the impact of an income tax benefit of \$574 million from the release of the valuation allowance on the Irish deferred tax assets. Refer to Note 17 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details.

	As of December 31,				
	2020	2019	2018	2017	2016
(in thousands)					
<b>Consolidated Balance Sheet Data:</b>					
Total assets <sup>(1)(2)</sup>	\$ 8,715,057	\$ 6,022,430	\$ 3,879,140	\$ 3,550,245	\$ 2,033,767
Deferred revenue, current and non-current portion <sup>(1)</sup>	\$ 3,007,925	\$ 2,225,792	\$ 1,690,191	\$ 1,246,815	\$ 895,101
Long-term debt	\$ 1,640,153	\$ 694,981	\$ 661,707	\$ 630,018	\$ 507,812

(1) The amount for the year ended December 31, 2017 reflects the impact of the full retrospective adoption of Topic 606 as of January 1, 2018.

(2) The amount as of December 31, 2019 reflects the impact of the adoption of Topic 842 as of January 1, 2019. Refer to Note 2 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details.

## ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

*The following discussion and analysis of our financial condition, results of operations and cash flows should be read in conjunction with the consolidated financial statements and the related notes appearing under "Consolidated Financial Statements and Supplementary Data" in Item 8 of this filing. Some of the information contained in this discussion and analysis or set forth elsewhere in this filing, including information with respect to our plans and strategy for our business, includes forward-looking statements that involve risks, uncertainties and other factors. You should carefully read the "Risk Factors" section of this filing for a discussion of important factors, including, but not limited to, impacts on our business, future financial performance and general economic conditions due to the current COVID-19 pandemic, that could cause actual results and the timing of certain events to differ materially from future results expressed or implied by the forward-looking statements contained in the following discussion and analysis.*

*Our free cash flow and billings measures included in the sections entitled "—Key Business Metrics—Free Cash Flow" and "—Key Business Metrics—Billings" are not in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"). These non-GAAP financial measures are not intended to be considered in isolation or as a substitute for, or superior to, financial information prepared and presented in accordance with GAAP. These measures may be different from non-GAAP financial measures used by other companies, limiting their usefulness for comparison purposes. We encourage investors to carefully consider our results under GAAP, as well as our supplemental non-GAAP results, to more fully understand our business.*

*This section of our Annual Report on Form 10-K discusses our financial condition and results of operations for the fiscal years ended December 31, 2020 and 2019, and year-to-year comparisons between fiscal 2020 and fiscal 2019. A discussion of our financial condition and results of operations for the fiscal year ended December 31, 2018 and year-to-year comparisons between fiscal 2019 and fiscal 2018 that is not included in this Annual Report on Form 10-K can be found in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II, Item 7 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2019, filed on February 20, 2020.*

### **COVID-19 Environment**

The COVID-19 pandemic has created significant global economic uncertainty, adversely impacted the business of our customers, partners and vendors, and impacted our business and results of operations. As of the filing date, the extent to which the COVID-19 pandemic may continue to impact our business and future financial condition or results of operations remains uncertain. We are continuing to monitor the actual and potential effects of the COVID-19 pandemic across our business. While our revenues, billings and earnings are relatively predictable as a result of our subscription-based business model, the effect of the COVID-19 pandemic, along with the seasonality we historically experience, may not be fully reflected in our results of operations and overall financial performance until future periods, if at all, and could cause our future results of operations to vary significantly from period to period. As the uncertainty continues, we may experience an increase in curtailed customer demand, reduced customer spend or contract duration, delayed collections, lengthened payment terms, lengthened sales cycles or competition due to changes in terms and conditions and pricing of our competitors' products and services, our business, results of operations and overall financial performance in future periods could be materially adversely affected. Additionally, it is unclear to what extent certain reduction in expenditures noted in the current year due to actions taken in response to COVID-19 will continue to be reduced below historical levels. The extent and continued impact of the COVID-19 pandemic on our operational and financial performance will depend on certain developments, including: the duration and spread of the outbreak; government responses, including the effectiveness, extent and duration of mitigation efforts such as "shelter in place" and similar directives; impact on our customers, sales cycles and ability to generate new business; impact on our customer, industry or employee events; extent of delays in hiring and onboarding new employees mainly in our general and administrative functions; and effect on our partners, vendors and supply chains; all of which are highly uncertain and difficult to predict.

In response to the COVID-19 pandemic, we focused on maintaining business continuity, helping our employees, customers and communities, and preparing for the future and the long-term success of our business. In 2020, we released four Emergency Response applications to help customers navigate the COVID-19 pandemic management and the Safe Workplace applications, a four-application suite and dashboard, designed to help companies manage the essential steps for returning employees to the workplace and to support their health and safety. Additionally, we canceled our in-person, annual Knowledge user conference (“Knowledge”) and replaced it with a digital event experience. In the first quarter of 2020, we also temporarily closed most of our offices and encouraged our employees to work remotely. These changes remain in effect in the first quarter of 2021 and could extend into future quarters. The impact, if any, of these and any additional operational changes we may implement is uncertain, but changes we have implemented have not affected and are not expected to affect our ability to maintain operations, including financial reporting systems, internal control over financial reporting and disclosure controls and procedures. See the section “Risk Factors” for further discussion of the possible impact of the COVID-19 pandemic on our business.

## Overview

ServiceNow’s purpose is to make the world of work, work better for people. We believe that people want the technology they use in their work to be more efficient and easier to use. We build applications to meet that demand by automating existing processes and creating efficient, digitized workflows with a consumer grade user experience. Our products and services enable the steps of a job to flow naturally across disparate departments, systems and processes of a business. When work flows naturally, great experiences follow. We primarily deliver our software via the Internet as a service through a simple and easy-to-use interface so that we can rapidly deploy our packaged offerings, and customers can easily build their custom applications. In a minority of cases, customers choose to host our software by themselves or through a third-party service provider.

We generally offer our services on an annual subscription fee basis, which includes access to the ordered subscription service and related standard and enhanced support, including updates to the subscription service during the subscription term. Pricing for our subscription services is based on a number of factors, including duration of subscription term, volume, mix of products purchased, and discounts. We generate sales through our direct sales team and, to a lesser extent, indirectly through resale partners and third-party referrals. We also generate revenues from professional services and for training of customer and partner personnel. Our professional services organization is focused on strategic advisory, implementation and consulting services to accelerate platform adoption and drive customer outcomes. We generally bill our customers annually in advance for subscription services and monthly in arrears for our professional services as the work is performed.

A majority of our revenues come from large global enterprise customers. We continue to invest in the development of our services, infrastructure and sales and marketing to drive long-term growth.

## Key Business Metrics

*Remaining performance obligations.* Transaction price allocated to remaining performance obligations (“RPO”) represents contracted revenue that has not yet been recognized, which includes deferred revenue and non-cancelable amounts that will be invoiced and recognized as revenue in future periods. RPO excludes contracts that are billed in arrears, such as certain time and materials contracts, as we apply the “right to invoice” practical expedient under relevant accounting guidance. Current remaining performance obligations (“cRPO”) represents RPO that will be recognized as revenue in the next 12 months.

As of December 31, 2020, our RPO was \$8.9 billion, of which 49% represented cRPO. Factors that may cause our RPO to vary from period to period include the following:

- *Foreign currency exchange rates.* While a majority of our contracts have historically been in U.S. Dollars, an increasing percentage of our contracts in recent periods has been in foreign currencies, particularly the Euro and British Pound Sterling. Fluctuations in foreign currency exchange rates as of the balance sheet date will cause variability in our RPO.
- *Mix of offerings.* In a minority of cases, we allow our customers to host our software by themselves or through a third-party service provider. In self-hosted offerings, we recognize a portion of the revenue upfront upon the delivery of the software and as a result, such revenue is excluded from RPO.
- *Subscription start date.* From time to time, we enter into contracts with a subscription start date in the future and these amounts are included in RPO if such contracts are signed by the balance sheet date.

- *Timing of contract renewals.* While customers typically renew their contracts at the end of the contract term, from time to time, customers may do so either before or after the scheduled expiration date. For example, in cases where we are successful in selling additional products or services to an existing customer, a customer may decide to renew its existing contract early to ensure that all its contracts expire on the same date. In other cases, prolonged negotiations or other factors may result in a contract not being renewed until after it has expired.
- *Contract duration.* While we typically enter into multi-year subscription services, the duration of our contracts varies. Further, we continue to see an increase in the number of 12-month agreements entered into with the U.S. Federal government throughout the year which has been the highest in the quarter ended September 30, driven primarily by timing of their annual budget expenditures. We sometimes also enter into contracts with durations that have a 12-month or shorter term to enable the contracts to co-terminate with the existing contract. The contract duration will cause variability in our RPO.

*Number of customers with ACV greater than \$1 million.* We count the total number of customers with annual contract value (“ACV”) greater than \$1 million as of the end of the period. We had 1,093, 891, and 682 customers with ACV greater than \$1 million as of December 31, 2020, 2019 and 2018, respectively. For purposes of customer count, a customer is defined as an entity that has a unique Dunn & Bradstreet Global Ultimate (“GULT”) Data Universal Numbering System (“DUNS”) number and an active subscription contract as of the measurement date. The DUNS number is a global standard for business identification and tracking. We make exceptions for holding companies, government entities and other organizations for which the GULT, in our judgment, does not accurately represent the ServiceNow customer. For example, while all U.S. government agencies roll up to “Government of the United States” under the GULT, we count each government agency that we contract with as a separate customer. Our customer count is subject to adjustments for acquisitions, spin-offs and other market activity; accordingly, we restate previously disclosed number of customers with ACV greater than \$1 million calculations to allow for comparability. ACV is calculated based on the foreign exchange rate in effect at the time the contract was signed. Foreign exchange rate fluctuations could cause some variability in the number of customers with ACV greater than \$1 million. We believe information regarding the total number of customers with ACV greater than \$1 million provides useful information to investors because it is an indicator of our growing customer base and demonstrates the value customers are receiving from the Now Platform.

*Free cash flow.* We define free cash flow, a non-GAAP financial measure, as GAAP net cash provided by operating activities reduced by purchases of property and equipment. Purchases of property and equipment are otherwise included in cash used in investing activities under GAAP. We believe information regarding free cash flow provides useful information to investors because it is an indicator of the strength and performance of our business operations. However, our calculation of free cash flow may not be comparable to similar measures used by other companies. A calculation of free cash flow is provided below:

	Year Ended December 31,		
	2020	2019	2018
	(in thousands)		
Free cash flow:			
Net cash provided by operating activities	\$ 1,786,599	\$ 1,235,972	\$ 811,089
Purchases of property and equipment	(419,327)	(264,892)	(224,462)
Free cash flow <sup>(1)</sup>	<u>\$ 1,367,272</u>	<u>\$ 971,080</u>	<u>\$ 586,627</u>

(1) Free cash flow for the years ended December 31, 2020 and 2018 include the effect of \$82 million and \$145 million, respectively relating to the repayments of convertible senior notes attributable to debt discount. Refer to Note 11 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details.

We have historically seen higher collections in the quarter ended March 31 due to seasonality in timing of entering into customer contracts which is significantly higher with new customers, as well as expansion with existing customers, in the quarter ended December 31. Additionally, we have historically seen higher disbursements in the quarters ended March 31 and September 30 due to payouts under our annual commission plans, purchases under our employee stock purchase plan and payouts under our bonus plans.

**Renewal rate.** We calculate our renewal rate by subtracting our attrition rate from 100%. Our attrition rate for a period is equal to the ACV from customers lost during the period, divided by the sum of (i) the total ACV from all customers that renewed during the period, excluding changes in price or users, and (ii) the total ACV from all customers lost during the period. Accordingly, our renewal rate is calculated based on ACV and is not based on the number of customers that have renewed. Further, our renewal rate does not reflect increased or decreased purchases from our customers to the extent such customers are not lost customers or lapsed renewal. A lost customer is a customer that did not renew an expiring contract and that, in our judgment, will not be renewed. Typically, a customer that reduces its subscription upon renewal is not considered a lost customer. However, in instances where the subscription decrease represents the majority of the customer's ACV, we may deem the renewal as a lost customer. For our renewal rate calculation, we define a customer as an entity with a separate production instance of our service and an active subscription contract as of the measurement date, instead of an entity with a unique GULT or DUNS number. We adjust our renewal rate for acquisitions, consolidations and other customer events that cause the merging of two or more accounts occurring at the time of renewal. Additionally, starting in 2020, we simplified our methodology related to contracts less than 12 months to derive ACV used to calculate renewal rate. Previously disclosed renewal rates may be restated to reflect such adjustments or methodology simplification to allow for comparability. While the previously disclosed renewal rates for the years ended December 31, 2019 and 2018 were restated due to the methodology simplification to allow for comparability, there were no material changes to such previously disclosed renewal rates. Our renewal rate was 98% for each of the years ended December 31, 2020, 2019 and 2018. As our renewal rate is impacted by the timing of renewals, which could occur in advance of, or subsequent to the original contract end date, period-to-period comparison of renewal rates may not be meaningful.

**Billings.** We define billings, a non-GAAP financial measure, as GAAP revenues recognized plus the change in total GAAP unbilled receivables, deferred revenue and customer deposits as presented on the consolidated statements of cash flows. The calculation of billings is provided below:

	Year Ended December 31,		
	2020	2019	2018
	(dollars in thousands)		
Billings:			
Total revenues	\$ 4,519,484	\$ 3,460,437	\$ 2,608,816
Change in deferred revenue, unbilled receivables and customer deposits <sup>(1)</sup>	709,522	541,776	480,019
<b>Total billings</b>	<b>\$ 5,229,006</b>	<b>\$ 4,002,213</b>	<b>\$ 3,088,835</b>
Year-over-year percentage change in total billings	31 %	30 %	34 %

(1) As presented on or derived from our consolidated statements of cash flows.

Billings consists of amounts invoiced for subscription contracts with existing customers, renewal contracts, expansion contracts, contracts with new customers, and contracts for professional services and training. Factors that may cause our billings results to vary from period to period include the following:

- **Billings duration.** While we typically bill customers annually in advance for our subscription services, customers sometimes request, and we accommodate, billings with durations less than or greater than the typical 12-month term.
- **Contract start date.** From time to time, we enter into contracts with a contract start date in the future, and we exclude these amounts from billings as these amounts are not included in our consolidated balance sheets, unless such amounts have been paid as of the balance sheet date.
- **Foreign currency exchange rates.** While a majority of our billings have historically been in U.S. Dollars, an increasing percentage of our billings in recent periods has been in foreign currencies, particularly the Euro and British Pound Sterling. Fluctuations in foreign currency exchange rates will cause variability in our billings. Foreign currency rate fluctuations had a favorable impact of \$21 million and \$68 million on billings for the years ended December 31, 2020 and 2019, respectively.
- **Timing of contract renewals.** While customers typically renew their contracts at the end of the contract term, from time to time customers may do so either before or after the scheduled expiration date. For example, in cases where we are successful in selling additional products or services to an existing customer, a customer may decide to renew its existing contract early to ensure that all its contracts expire on the same date. In other cases, prolonged negotiations or other factors may result in a contract not being renewed until after it has expired.

- *Seasonality.* We have historically experienced seasonality in terms of when we enter into customer agreements for our services. We sign a significantly higher percentage of agreements with new customers, as well as expansion with existing customers, in the fourth quarter of each year. The increase in customer agreements for the fourth quarter is primarily a result of both large enterprise account buying patterns typical in the software industry, which are driven primarily by the expiration of annual authorized budgeted expenditures, and the terms of our commission plans which incentivize our direct sales organization to meet their annual quotas by December 31. Furthermore, we usually sign a significant portion of these agreements during the last month, and often the last two weeks, of each quarter. This seasonality in the timing of entering into customer contracts is sometimes not immediately apparent in our billings, due to the fact that we typically exclude cloud-offering contracts with a future start date from our billings, unless such amounts have been paid as of the balance sheet date. Similarly, this seasonality is reflected to a much lesser extent, and sometimes is not immediately apparent in our revenues, due to the fact that we recognize subscription revenues from our cloud offering contracts over the term of the subscription agreement, which is generally 12 to 36 months. Although these seasonal factors are common in the technology industry, historical patterns should not be considered a reliable indicator of our future sales activity or performance. Further, the seasonal factors could be heightened due to the impact of the current gross domestic product contraction and other impacts unknown at this time on our customers and sales cycles caused by the COVID-19 pandemic.

While we believe billings is one indicator of the performance of our business, due to the factors described above, an increase or decrease in billings may not reflect the actual performance for that reporting period.

To facilitate greater year-over-year comparability in our billings results, we disclose the impact that foreign currency rate fluctuations and fluctuations in billings duration had on our billings. The impact of foreign currency rate fluctuations is calculated by translating the current period results for entities reporting in currencies other than U.S. Dollars into U.S. Dollars at the exchange rates in effect during the prior period presented, rather than the actual exchange rates in effect during the current period. The impact of fluctuations in billings duration is calculated by replacing the portion of multi-year billings in excess of 12 months during the current period with the portion of multi-year billings in excess of 12 months during the prior period presented. Notwithstanding the adjustments described above, the comparability of billings results from period to period remains subject to the impact of variations in the dollar value of contracts with future start dates and the timing of contract renewals, for which no adjustments have been presented.

### **Critical Accounting Policies and Significant Judgments and Estimates**

Our management's discussion and analysis of financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported revenues and expenses during the reporting periods. These items are monitored and analyzed by us for changes in facts and circumstances, and material changes in these estimates could occur in the future. We base our estimates on historical experience and on various other factors that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Changes in estimates are reflected in reported results for the period in which they become known. Actual results may differ from these estimates under different assumptions or conditions and such differences could be material.

While our significant accounting policies are more fully described in Note 2 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K, we believe that the following accounting policies are critical to the process of making significant judgments and estimates in the preparation of our audited consolidated financial statements.

#### ***Revenue Recognition***

We derive our revenues predominately from subscription revenues which are primarily comprised of subscription fees that give customers access to the ordered subscription service, related support and updates, if any, to the subscribed service during the subscription term. For our cloud services, we recognize subscription revenues ratably over the contract term beginning on the commencement date of each contract, the date we make our services available to our customers. Our contracts with customers typically include a fixed amount of consideration and are generally non-cancelable and without any refund-type provisions.

Subscription revenues also include revenues from self-hosted offerings in which customers deploy, or we grant customers the option to deploy without significant penalty, our subscription service internally or contract with a third party to host the software. For these contracts, we account for the software element separately from the related support and updates as they are distinct performance obligations. The transaction price is allocated to separate performance obligations on a relative standalone selling price (“SSP”) basis. The transaction price allocated to the software element is recognized when transfer of control of the software to the customer is complete. The transaction price allocated to the related support and updates are recognized ratably over the contract term.

We enter into contracts that can include various combinations of products and services, which are generally capable of being distinct and accounted for as separate performance obligations. For these contracts, the transaction price is allocated to the separate performance obligations on a relative SSP basis. Evaluating the terms and conditions included within our customer contracts for appropriate revenue recognition and determining whether products and services are considered distinct performance obligations that should be accounted for separately versus together may require significant judgment.

### ***Deferred Commissions***

Deferred commissions are the incremental selling costs that are associated with acquiring customer contracts and consist primarily of sales commissions paid to our sales organization and referral fees paid to independent third-parties. Commissions and referral fees earned upon the execution of initial and expansion contracts are primarily deferred and amortized over a period of benefit that we have determined to be five years. Commissions earned upon the renewal of customer contracts are deferred and amortized over the average renewal term. Additionally, for self-hosted offerings, consistent with the recognition of subscription revenues for self-hosted offerings, a portion of the commission cost is expensed upfront when the self-hosted offering is made available. Determining the period of benefit including average renewal term requires judgment for which we take into consideration our customer contracts, our technology life cycle and other factors.

### ***Business combinations***

The allocation of the purchase price in a business combination requires us to make significant estimates in determining the fair value of acquired assets and assumed liabilities, especially with respect to intangible assets. The excess of the purchase price in a business combination over the fair value of these tangible and intangible assets acquired and liabilities assumed is recorded as goodwill. Critical estimates in valuing certain intangible assets include, but are not limited to, future expected cash flows, discount rates, the time and expense to recreate the assets and profit margin a market participant would receive. These estimates are inherently uncertain and unpredictable and, as a result, actual results may differ from estimates.

### ***Income Taxes***

Our annual tax rate is based on our income, statutory tax rates and tax planning opportunities available to us in the various jurisdictions in which we operate. Tax laws are complex and subject to different interpretations by the taxpayer and respective government taxing authorities. Significant judgment is required in determining our tax expense (benefit) and in evaluating our tax positions, including evaluating uncertainties and the complexity of taxes on foreign earnings. We review our tax positions quarterly and adjust the balances as new information becomes available.

Deferred tax assets represent amounts available to reduce income taxes payable on taxable income in future years. Such assets arise because of temporary differences between the financial reporting and tax bases of assets and liabilities, as well as from net operating loss and tax credit carryforwards. We evaluate the recoverability of these future tax deductions and credits by assessing the adequacy of future expected taxable income from all sources, including future growth, forecasted earnings, future taxable income, the mix of earnings in the jurisdictions in which we operate, historical earnings, taxable income in prior years, if carryback is permitted under the law, carryforward periods and prudent and feasible tax planning strategies. A valuation allowance is established if it is more likely than not that all or a portion of the deferred tax asset will not be realized. To the extent sufficient positive evidence becomes available, we may release all or a portion of our valuation allowance in one or more future periods. A release of the valuation allowance, if any, would result in the recognition of certain deferred tax assets and a material income tax benefit for the period in which such release is recorded.

Due to cumulative losses over recent years and based on all available positive and negative evidence, we have determined that it is more likely than not that our U.S. deferred tax assets will not be realizable as of December 31, 2020. We recognized an income tax benefit of \$574 million due to the release of the valuation allowance on the Irish deferred tax assets for the year ended December 31, 2019. These Irish deferred tax assets were created primarily as a result of the difference between the tax basis in our Irish subsidiary and the cost reported in our consolidated financial statements resulting from the transfer of intangible assets to the Irish subsidiary as part of our foreign restructuring in 2018. Management applied significant judgment in assessing the positive and negative evidence available in the determination of the amount of deferred tax assets that were more likely than not to be realized in the future. In determining the need, or continued need, for a valuation allowance, we considered the weighting of the positive and negative evidence, which includes, among other things, emergence from a cumulative loss position over the previous three years during the fourth quarter of 2020, historical earnings, future growth, forecasted earnings, and future taxable income.

Our tax positions are subject to income tax audits by multiple tax jurisdictions throughout the world. We recognize the tax benefit of an uncertain tax position only if it is more likely than not the position is sustainable upon examination by the taxing authority based on the technical merits. We measure the tax benefit recognized as the largest amount of benefit which is more likely than not to be realized upon settlement with the taxing authority. We recognize interest accrued and penalties related to unrecognized tax benefits in our tax provision. Significant judgment is required to evaluate uncertain tax positions. Our evaluations are based upon a number of factors, including changes in facts or circumstances, changes in tax law or guidance, correspondence with tax authorities during the course of audits and effective settlement of audit issues. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in our income tax expense in the period in which we make the change, which could have a material impact on our effective tax rate and operating results.

We calculate the current and deferred income tax provision based on estimates and assumptions that could differ from the actual results reflected in income tax returns filed in subsequent years and record adjustments based on filed income tax returns when identified. The amount of income taxes paid is subject to examination by U.S. federal, state and foreign tax authorities. The estimate of the potential outcome of any uncertain tax issue is subject to management's assessment of relevant risks, facts and circumstances existing at that time. To the extent the assessment of such tax position changes, we record the change in estimate in the period in which we make the determination.

#### ***New Accounting Pronouncements Pending Adoption***

The impact of recently issued accounting standards is set forth in Note 2, Summary of Significant Accounting Policies, of the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

### **Components of Results of Operations**

#### ***Revenues***

*Subscription revenues.* Subscription revenues are primarily comprised of fees that give customers access to the ordered subscription service for both self-hosted offerings and cloud-based subscription offerings, and related standard and enhanced support and updates, if any, to the subscription service during the subscription term. For our cloud-based offerings, we recognize revenue ratably over the subscription term. For self-hosted offerings, a substantial portion of the sales price is recognized upon delivery of the software, which may cause greater variability in our subscription revenues and subscription gross margin. Pricing includes multiple instances, hosting and support services, data backup and disaster recovery services, as well as future updates, when and if available, offered during the subscription term. We typically invoice our customers for subscription fees in annual increments upon execution of the initial contract or subsequent renewal. Our contracts are generally non-cancelable during the subscription term, though a customer can terminate for breach if we materially fail to perform.

*Professional services and other revenues.* Our arrangements for professional services are primarily on a time-and-materials basis, and we generally invoice our customers monthly in arrears for the professional services based on actual hours and expenses incurred. Some of our professional services arrangements are on a fixed fee or subscription basis. Professional services revenues are recognized as services are delivered. Other revenues primarily consist of fees from customer training delivered on-site or through publicly available classes. Typical payment terms require our customers to pay us within 30 days of invoice.

We sell our subscription services primarily through our direct sales organization. We also sell services through managed service providers and resale partners. We also generate revenues from certain professional services and from training of customers and partner personnel, through both our direct team and indirect channel sales. Revenues from our direct sales organization represented 81%, 82% and 84% of our total revenues for the years ended December 31, 2020, 2019 and 2018, respectively. For purposes of calculating revenues from our direct sales organization, revenues from systems integrators and managed services providers are included as part of the direct sales organization.

### ***Cost of Revenues***

*Cost of subscription revenues.* Cost of subscription revenues consists primarily of expenses related to hosting our services and providing support to our customers. These expenses are comprised of data center capacity costs, which include colocation costs associated with our data centers as well as interconnectivity between data centers, depreciation related to our infrastructure hardware equipment dedicated for customer use, amortization of intangible assets, expenses associated with software, IT services and dedicated customer support, personnel-related costs directly associated with data center operations and customer support, including salaries, benefits, bonuses and stock-based compensation and allocated overhead.

*Cost of professional services and other revenues.* Cost of professional services and other revenues consists primarily of personnel-related costs directly associated with our professional services and training departments, including salaries, benefits, bonuses and stock-based compensation, the costs of contracted third-party partners, travel expenses and allocated overhead.

Professional services are performed directly by our services team, as well as by contracted third-party partners. Fees paid by us to third-party partners are primarily recognized as cost of revenues as the professional services are delivered. Cost of revenues associated with our professional services engagements contracted with third-party partners as a percentage of professional services and other revenues was 10%, 15% and 18% for the years ended December 31, 2020, 2019 and 2018, respectively.

### ***Sales and Marketing***

Sales and marketing expenses consist primarily of personnel-related expenses directly associated with our sales and marketing staff, including salaries, benefits, bonuses and stock-based compensation. Sales and marketing expenses also include the amortization of commissions paid to our sales employees, including related payroll taxes and fringe benefits. From time to time, third parties provide us referrals for which we pay a referral fee. We include revenues associated with these referrals as part of revenues from our direct sales organization. Referral fees paid to these third parties are generally 10% of the customer's net new ACV. We defer referral fees paid as they are considered incremental selling costs associated with acquiring customer contracts, and include the amortization of these referral fees in sales and marketing expense. In addition, sales and marketing expenses include branding expenses, expenses offset by proceeds related to Knowledge, other marketing program expenses, which include events other than Knowledge, and costs associated with purchasing advertising and marketing data, software and subscription services dedicated for sales and marketing use and allocated overhead.

### ***Research and Development***

Research and development expenses consist primarily of personnel-related expenses directly associated with our research and development staff, including salaries, benefits, bonuses and stock-based compensation and allocated overhead. Research and development expenses also include data center capacity costs, costs associated with outside services contracted for research and development purposes and depreciation of infrastructure hardware equipment that is used solely for research and development purposes.

### ***General and Administrative***

General and administrative expenses consist primarily of personnel-related expenses for our executive, finance, legal, human resources, facilities and administrative personnel, including salaries, benefits, bonuses and stock-based compensation, external legal, accounting and other professional services fees, other corporate expenses, amortization of intangible assets and allocated overhead.

### Provision for Income Taxes

Provision for income taxes consists of federal, state and foreign income taxes. Due to cumulative losses, we maintain a valuation allowance against our U.S. deferred tax assets as of December 31, 2020 and 2019. We consider all available evidence, both positive and negative, including but not limited to earnings history, projected future outcomes, industry and market trends and the nature of each of the deferred tax assets in assessing the extent to which a valuation allowance should be applied against our U.S. and foreign deferred tax assets.

### Comparison of the years ended December 31, 2020 and 2019

#### Revenues

	Year Ended December 31,		% Change
	2020	2019	
	(dollars in thousands)		
<b>Revenues:</b>			
Subscription	\$ 4,285,797	\$ 3,255,079	32 %
Professional services and other	233,687	205,358	14 %
Total revenues	<u>\$ 4,519,484</u>	<u>\$ 3,460,437</u>	31 %
<b>Percentage of revenues:</b>			
Subscription	95 %	94 %	
Professional services and other	5 %	6 %	
Total	<u>100 %</u>	<u>100 %</u>	

Subscription revenues increased by \$1.0 billion for the year ended December 31, 2020, compared to the prior year, driven by increased purchases by existing customers and an increase in customer count. Included in subscription revenues is \$205 million and \$164 million of revenues recognized upfront from the delivery of software associated with self-hosted offerings during the years ended December 31, 2020 and 2019, respectively.

We expect subscription revenues for the year ending December 31, 2021 to increase in absolute dollars as we continue to add new customers and existing customers increase their usage of our products, but remain relatively flat as a percentage of revenue compared to the year ended December 31, 2020. We continue to monitor the COVID-19 pandemic in 2021 and its impact on customer acquisition and renewal rates.

Our expectations for revenues, cost of revenues and operating expenses for the year ending December 31, 2021 are based on foreign exchange rates as of December 31, 2020.

Subscription revenues consist of the following:

	Year Ended December 31,		% Change
	2020	2019	
	(dollars in thousands)		
Digital workflow products	\$ 3,749,118	\$ 2,810,887	33 %
ITOM products	536,679	444,192	21 %
Total subscription revenues	<u>\$ 4,285,797</u>	<u>\$ 3,255,079</u>	32 %

Our digital workflow products include the Now Platform, IT Service Management, IT Business Management, DevOps, IT Asset Management, Security Operations, Governance, Risk and Compliance, HR Service Delivery, Safe Workplace Suite of applications, Workplace Service Delivery, Legal Service Delivery, Customer Service Management, Field Service Management, Connected Operations, App Engine and IntegrationHub, and are generally priced on a per user basis. Our ITOM products are generally priced on a per node (physical or virtual server) basis. In previously issued consolidated financial statements, we referred to digital workflow products as “service management products.”

Professional services and other revenues increased by \$28 million for the year ended December 31, 2020, compared to the prior year, due to an increase in services and trainings provided to new and existing customers. We expect professional services and other revenues for the year ending December 31, 2021 to increase in absolute dollars, but remain relatively flat as a percentage of revenue compared to the year ended December 31, 2020. We are increasingly focused on deploying our internal professional services organization as a strategic resource and relying on our partner ecosystem to contract directly with customers for implementation services delivery.

### *Cost of Revenues and Gross Profit Percentage*

	Year Ended December 31,		% Change
	2020	2019	
(dollars in thousands)			
<b>Cost of revenues:</b>			
Subscription	\$ 730,835	\$ 549,642	33 %
Professional services and other	256,278	247,003	4 %
Total cost of revenues	<u>\$ 987,113</u>	<u>\$ 796,645</u>	24 %
<b>Gross profit percentage:</b>			
Subscription	83 %	83 %	
Professional services and other	(10)%	(20)%	
Total gross profit percentage	78 %	77 %	
Gross profit:	\$ 3,532,371	\$ 2,663,792	33 %

Cost of subscription revenues increased by \$181 million for the year ended December 31, 2020, compared to the prior year, primarily due to increased headcount and increased costs to support the growth of our subscription offerings. Personnel-related costs including stock-based compensation and overhead expenses increased by \$80 million and depreciation expense related to data center hardware and software and maintenance costs to support the expansion of our data center capacity increased by \$88 million as compared to the prior year. In addition, amortization of intangibles increased by \$12 million as a result of acquisitions.

We expect our cost of subscription revenues for the year ending December 31, 2021 to increase in absolute dollars as we provide subscription services to more customers and increase usage within our customer instances.

Our subscription gross profit percentage was 83% for each of the years ended December 31, 2020 and 2019. We expect our subscription gross profit percentage to slightly decrease for the year ended December 31, 2021 compared to the year ended December 31, 2020. To the extent future acquisitions are consummated, our cost of subscription revenues may increase due to additional non-cash charges associated with the amortization of intangible assets acquired.

Cost of professional services and other revenues increased by \$9 million for the year ended December 31, 2020 as compared to the prior year, primarily due to increased headcount resulting in increase of personnel-related costs including stock-based compensation offset by a decrease in third-party implementation costs as we continue to invest and deploy our internal professional service organization to increase their utilization and a reduction in travel expenses resulting from travel restrictions due to the COVID-19 pandemic.

Our professional services and other gross loss percentage decreased to 10% for the year ended December 31, 2020, compared to 20% in the prior year, primarily driven by the increased utilization of our internal professional services organization and the reduction in certain travel expenses. We expect our professional services and other gross loss percentage to increase for the year ending December 31, 2021 as we expect utilization of our internal professional services organization to stabilize resulting in additional support cost for the business growth and increases in travel expenses compared to the year ended December 31, 2020.

**Sales and Marketing**

	<b>Year Ended December 31,</b>		<b>% Change</b>
	<b>2020</b>	<b>2019</b>	
	<b>(dollars in thousands)</b>		
Sales and marketing	\$ 1,855,016	\$ 1,534,284	21 %
Percentage of revenues	41 %	44 %	

Sales and marketing expenses increased by \$321 million for the year ended December 31, 2020, compared to the prior year. The increase was primarily due to increased headcount, resulting in an increase in personnel-related costs including stock-based compensation and overhead expenses of \$255 million, compared to the prior year. Amortization of deferred commissions and third-party referral fees increased by \$51 million, compared to the prior year, due to an increase in contracts with new customers, expansion and renewal contracts. Other sales and marketing program expenses, which include branding, purchase of advertising and market data and outside services, increased by \$73 million compared to the prior year.

Amid the ongoing regulatory restrictions imposed by governments worldwide in response to the COVID-19 pandemic, we temporarily closed most of our offices to ensure the well-being and safety of our global employees, office staff and communities, and encouraged our employees to work remotely and limit travel. Further, in response to the pandemic, we canceled Knowledge and other in-person events and either replaced them with digital events or postponed them to future periods and implemented travel restrictions which resulted in a decrease of \$66 million for the year ended December 31, 2020 compared to prior year.

Despite the uncertainty around the continued impact of COVID-19 and its duration, we expect sales and marketing expenses for the year ending December 31, 2021 to increase in absolute dollars, but remain relatively flat as a percentage of revenue compared to the year ended December 31, 2020, as we continue to expand our direct sales organization, increase our marketing activities, grow our international operations and build brand awareness.

**Research and Development**

	<b>Year Ended December 31,</b>		<b>% Change</b>
	<b>2020</b>	<b>2019</b>	
	<b>(dollars in thousands)</b>		
Research and development	\$ 1,024,327	\$ 748,369	37 %
Percentage of revenues	23 %	22 %	

Research and development expenses increased by \$276 million during the year ended December 31, 2020, compared to the prior year. The increase was primarily due to increased headcount, resulting in an increase in personnel-related costs including stock-based compensation and overhead expenses of \$251 million compared to prior year. The remaining increase was primarily due to increase in hosting costs and data center related depreciation costs to support research and development activities.

We expect research and development expenses for the year ending December 31, 2021 to increase in absolute dollars, but remain relatively flat as a percentage of revenue compared to the year ended December 31, 2020, as we continue to improve the existing functionality of our services, develop new applications to fill market needs and enhance our core platform.

**General and Administrative**

	Year Ended December 31,		% Change
	2020	2019	
	(dollars in thousands)		
General and administrative	\$ 454,165	\$ 339,016	34 %
Percentage of revenues	10 %	10 %	

General and administrative expenses increased by \$115 million during the year ended December 31, 2020, compared to the prior year. The increase was primarily due to increased headcount, resulting in an increase in personnel-related costs including stock-based compensation and overhead expenses of \$91 million and \$12 million increase in outside services, compared to the prior year, primarily from digital transformation projects across functions to improve processes.

We expect general and administrative expenses for the year ending December 31, 2021 to increase in absolute dollars, but remain relatively flat as a percentage of revenue compared to the year ended December 31, 2020, as we continue to hire new employees and focus on digital transformation.

**Stock-based Compensation**

	Year Ended December 31,		% Change
	2020	2019	
	(dollars in thousands)		
Cost of revenues:			
Subscription	\$ 98,258	\$ 72,728	35 %
Professional services and other	51,553	43,123	20 %
Sales and marketing	320,328	268,408	19 %
Research and development	282,244	194,821	45 %
General and administrative	118,070	83,115	42 %
Total stock-based compensation	\$ 870,453	\$ 662,195	31 %
Percentage of revenues	19 %	19 %	

Stock-based compensation increased by \$208 million during the year ended December 31, 2020, compared to the prior year, primarily due to additional grants to current and new employees and increased weighted-average grant date fair value of stock awards.

Stock-based compensation is inherently difficult to forecast due to fluctuations in our stock price. Based upon our stock price as of December 31, 2020, we expect stock-based compensation to continue to increase in absolute dollars for the year ending December 31, 2021 as we continue to issue stock-based awards to our employees, but remain relatively flat as a percentage of revenue compared to the year ended December 31, 2020 but we expect this to decline over time as we continue to grow.

**Foreign Currency Exchange**

Our international operations have provided and will continue to provide a significant portion of our total revenues. Revenues outside North America represented 35% and 34% of total revenues for the years ended December 31, 2020 and 2019, respectively. Because we primarily transact in foreign currencies for sales outside of the United States, the general weakening of the U.S. Dollar relative to other major foreign currencies (primarily the Euro and British Pound Sterling) during the year ended December 31, 2020 had a favorable impact on our revenues. For entities reporting in currencies other than the U.S. Dollar, if we had translated our results for the year ended December 31, 2020 at the exchange rates in effect for the year ended December 31, 2019 rather than the actual exchange rates in effect during the period, our reported subscription revenues would have been \$14 million lower. The impact from the foreign currency movements was not material for professional services and other revenues for the year ended December 31, 2020.

In addition, because we primarily transact in foreign currencies for cost of revenues and operating expenses outside of the United States, the general weakening of the U.S. Dollar relative to other major foreign currencies during the year ended December 31, 2020, for the most part, had an unfavorable impact but overall, did not have a material impact if we had translated our results for the year ended December 31, 2020 at the average exchange rates in effect for the year ended December 31, 2019 rather than the actual exchange rates in effect during the period.

### *Interest Expense*

	<b>Year Ended December 31,</b>		<b>% Change</b>
	<b>2020</b>	<b>2019</b>	
	<b>(dollars in thousands)</b>		
Interest expense	\$ (32,746)	\$ (33,283)	(2 %)
Percentage of revenues	(1 %)	(1 %)	

Interest expense slightly decreased during the year ended December 31, 2020, compared to the prior year, due to the decrease in amortization expense of debt discount and issuance costs as a result of the 2022 Notes Repurchase offset by increase in debt discount, issuance cost and interest related to 2030 Notes. For the year ending December 31, 2021, we expect to incur approximately \$30 million related to the 2030 Notes and 2022 Notes.

### *Other Income (Expense), net*

	<b>Year Ended December 31,</b>		<b>% Change</b>
	<b>2020</b>	<b>2019</b>	
	<b>(dollars in thousands)</b>		
Interest income	\$ 39,483	\$ 55,409	(29)%
Foreign currency exchange loss, net of derivative contracts	(14,076)	(594)	NM
Loss on extinguishment of 2022 Notes	(46,614)	—	NM
Other	4,275	3,530	21 %
Other income (expense), net	<u>\$ (16,932)</u>	<u>\$ 58,345</u>	(129)%

NM - Not meaningful.

Other income (expense), net decreased by \$75 million during the year ended December 31, 2020, compared to the prior year, primarily driven by loss on extinguishment resulting from the 2022 Notes Repurchase and the early conversions of \$47 million and increase in foreign currency exchange loss, net of derivative contracts of \$13 million compared to the prior year. Additionally, interest income decreased compared to the same period in the prior year despite an increase in investments primarily due to the decline in interest rates during the year and change in our investment strategy to higher quality bonds in response to the global market disruptions and uncertainties resulting from the COVID-19 pandemic.

To mitigate our risks associated with fluctuations in foreign currency exchange rates, we enter into foreign currency derivative contracts with maturities of 12 months or less to hedge a portion of our net outstanding monetary assets and liabilities. These hedging contracts may reduce, but cannot entirely eliminate, the impact of adverse currency exchange rate movements.

### Provision for (benefit from) Income Taxes

	Year Ended December 31,		% Change
	2020	2019	
	(dollars in thousands)		
Income before income taxes	\$ 149,185	\$ 67,185	122 %
Provision for (benefit from) income taxes	30,682	(559,513)	(105 %)
Effective tax rate	21 %	(833)%	(103) %

Our effective tax rate was 21% for the year ended December 31, 2020 compared to (833)% for the prior year ended December 31, 2019, primarily due to the release of the valuation allowance on the Irish deferred tax assets of \$574 million in the year ended December 31, 2019. The income tax provision for the year ended December 31, 2020 was primarily attributable to the mix of earnings and losses in countries with differing statutory tax rates, the valuation allowance in the U.S. and the intercompany sale of certain intellectual property rights. See Note 17 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for our reconciliation of income taxes at the statutory federal rate to the provision for income taxes.

We maintained a full valuation allowance on our U.S. federal and state deferred tax assets as of December 31, 2020 and 2019, respectively. The significant components of the tax expense recorded are current cash taxes payable in various jurisdictions. The cash tax expenses are impacted by each jurisdiction's individual tax rates, laws on timing of recognition of income and deductions, and availability of net operating losses and tax credits. Given the full valuation allowance on our U.S. federal and state deferred tax assets, sensitivity of current cash taxes to local rules and our foreign structuring, we expect that our effective tax rate could fluctuate significantly on a quarterly basis and could be adversely affected to the extent earnings are lower than anticipated in countries that have lower statutory rates and higher than anticipated in countries that have higher statutory rates. To the extent sufficient positive evidence becomes available, we may release all or a portion of our valuation allowance in one or more future periods. A release of the valuation allowance, if any, would result in the recognition of certain deferred tax assets and a material income tax benefit for the period in which such release is recorded.

### Quarterly Results of Operations

The following table sets forth our selected unaudited quarterly consolidated statements of comprehensive income (loss). We have prepared the quarterly data on a consistent basis with the audited consolidated financial statements included elsewhere in this Annual Report on Form 10-K. In the opinion of management, the financial information reflects all necessary adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of this data. This information should be read in conjunction with the audited consolidated financial statements and related notes thereto included elsewhere in this Annual Report on Form 10-K. The results of historical periods are not necessarily indicative of the results of operations for a full year or any future period.

	For the Three Months Ended							
	December 31, 2020	September 30, 2020	June 30, 2020	March 31, 2020	December 31, 2019	September 30, 2019	June 30, 2019	March 31, 2019
	(in thousands, except per share data)							
Total revenues	\$ 1,250,330	\$ 1,151,972	\$ 1,070,842	\$ 1,046,340	\$ 951,774	\$ 885,833	\$ 833,904	\$ 788,926
Gross profit	\$ 971,226	\$ 900,268	\$ 837,903	\$ 822,974	\$ 740,321	\$ 685,040	\$ 635,757	\$ 602,674
Net income (loss) <sup>(1)</sup>	\$ 16,648	\$ 12,858	\$ 40,766	\$ 48,231	\$ 598,724	\$ 40,598	\$ (11,079)	\$ (1,545)

Net income (loss) per share - diluted <sup>(1)</sup>	\$ 0.08	\$ 0.06	\$ 0.20	\$ 0.24	\$ 3.03	\$ 0.21	\$ (0.06)	\$ (0.01)
Weighted-average shares used to compute net income (loss) per share - basic	195,461	193,237	191,319	190,163	189,042	188,074	186,678	182,062
Weighted-average shares used to compute net income (loss) per share - diluted	202,455	201,861	201,453	199,938	197,843	197,878	186,678	182,062

- (1) The amounts for the three months ended December 31, 2019 reflect the impact of an income tax benefit of \$574 million from the release of the valuation allowance on the Irish deferred tax assets. Refer to Note 17 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details.

Our revenues have increased over the periods presented due to increased sales to new and existing customers. Our operating expenses have increased over the periods presented due to increases in headcount, data center operations and other related expenses to support our growth. We have historically seen an increase in marketing expenses in the quarter ended June 30, and a corresponding decrease in marketing expenses in the quarter ended September 30 due to the expenses incurred for our annual Knowledge user conference, partially offset by related proceeds. Marketing expenses in the quarter ended December 31 are also historically higher due to user forums we generally conduct in that quarter. However, during the year ended December 31, 2020, in response to the COVID-19 pandemic, we took several measures to ensure the well-being and safety of our employees including reduction of travel and cancellation of live events to be replaced with digital events. Accordingly, timing and amount of marketing expense might not be consistent with historical trends prior to COVID-19. Nonetheless, we still anticipate operating expenses will continue to increase in future periods as we continue to focus on investing in the long-term growth of our business.

### **Liquidity and Capital Resources**

Our principal sources of liquidity are our cash and cash equivalents, investments, and cash generated from operations. As of December 31, 2020, we had \$3 billion in cash and cash equivalents and short-term investments, of which \$450 million represented cash held by foreign subsidiaries and \$417 million is denominated in currencies other than the U.S. Dollar. In addition, we had \$1 billion in long-term investments that provide additional capital resources. We do not anticipate that we will need funds generated from foreign operations to fund our domestic operations.

In August 2020, we issued 1.40% fixed rate ten-year notes with an aggregate principal amount of \$1.5 billion due on September 1, 2030 (the “2030 Notes”). The 2030 Notes were issued at 99.63% of principal and we incurred approximately \$13 million for debt issuance costs. Interest is payable semi-annually in arrears on March 1 and September 1 of each year, beginning on March 1, 2021, and the entire outstanding principal amount is due at maturity on September 1, 2030. The 2030 Notes are unsecured obligations and the indentures governing the 2030 Notes contain customary events of default and customary covenants that, among others and subject to exceptions, restrict the Company’s ability to incur or guarantee debt secured by liens on specified assets or enter into sale and lease-back transactions with respect to specified properties.

In May and June 2017, we issued the 2022 Notes with an aggregate principal amount of \$782.5 million. In connection with the issuance of the 2022 Notes, we entered into the 2022 Note Hedge transactions and 2022 Warrants transactions with certain financial institutions. The price of our common stock was greater than or equal to 130% of the conversion price of the 2022 Notes for at least 20 trading days during the 30 consecutive trading days ending on the last trading day of the quarters ended June 30, 2018 through December 31, 2020, except for the quarter ended December 31, 2018. Therefore, our 2022 Notes became convertible at the holders’ option beginning on July 1, 2018 and continue to be convertible through March 31, 2021, except for the quarter ended March 31, 2019 because the Conversion Condition for the 2022 Notes was not met for the quarter ended December 31, 2018. The impact of the 2022 Notes on our liquidity will depend on the settlement method we elect. We currently intend to settle the principal amount of any converted 2022 Notes in cash. During the year ended December 31, 2020, we paid cash to settle \$116 million in principal of the 2022 Notes. Additionally, we repurchased \$497 million in aggregate principal amount of the 2022 Notes (the “2022 Notes Repurchase”) which was accounted for as a debt extinguishment. We used proceeds from the partial unwind of the 2022 Note Hedge of \$1.1 billion for the 2022 Notes Repurchase.

Based on conversion requests received through the filing date, we expect to settle in cash an aggregate of approximately \$34 million in principal amount of the 2022 Notes during the first quarter of 2021. We may receive additional conversion requests that require settlement after the first quarter of 2021.

During the year ended December 31, 2020, we issued 2.3 million shares of our common stock upon partial unwind of the 2022 Warrants. We expect to issue additional shares of our common stock in the second half of 2022 upon the automatic exercise of the remaining portion of the 2022 Warrants. As the remaining portion of the 2022 Warrants will be net share settled, there will be no impact on our liquidity. The total number of shares of our common stock we will issue depends on the daily volume-weighted average stock prices over a 60 trading day period beginning on the first expiration date of the remaining portion of the 2022 Warrants, which will be September 1, 2022. In addition, we issued 4.3 million shares of our common stock upon the automatic exercise of a portion of the 2018 Warrants during the year ended December 31, 2019. The 2018 Warrants were no longer outstanding as of June 30, 2019. Refer to Note 11 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for additional information.

Cash from operations could be affected by various risks and uncertainties, including, but not limited to, the effects of the COVID-19 pandemic and other risks detailed in Part I, Item 1A titled “Risk Factors”. However, we anticipate our current cash, cash equivalents and investments balance and anticipated cash flows generated from operations based on our current business plan and revenue prospects will be sufficient to meet our liquidity needs, including the repayment of any early conversions of our 2022 Notes, debt service costs, expansion of data centers, lease obligations, expenditures related to the growth of our headcount and the acquisition of property and equipment, intangibles, and investments in office facilities, to accommodate our operations for at least the next 12 months. Whether these resources are adequate to meet our liquidity needs beyond that period will depend on our growth, operating results, cash utilized for acquisitions and/or debt retirements if any are consummated, and the capital expenditures required to meet possible increased demand for our services. If we require additional capital resources to grow our business or repay our 2022 Notes at any time in the future, we may seek to finance our operations from the current funds available or seek additional equity or debt financing.

	Year Ended December 31,	
	December 31, 2020	December 31, 2019
	(in thousands)	
Net cash provided by operating activities	\$ 1,786,599	\$ 1,235,972
Net cash used in investing activities	(1,506,872)	(724,477)
Net cash provided by (used in) financing activities	596,647	(301,856)
Net increase in cash, cash equivalents and restricted cash	901,439	209,453

### *Operating Activities*

Net cash provided by operating activities was \$1.8 billion for the year ended December 31, 2020 compared to \$1.2 billion for the prior year. The net increase in operating cash flow was primarily due to an increase in adjustments for non-cash items to reconcile net income to net cash provided by operations, driven by stock-based compensation, depreciation and amortization from increased capital expenditures and deferred commissions and the overall favorable impact from changes in operating assets and liabilities offset by the repayment of 2022 Notes attributable to debt discount.

### *Investing Activities*

Net cash used in investing activities for the year ended December 31, 2020 was \$1.5 billion compared to \$724 million for the prior year. The increase in cash used in investing activities was primarily due to \$566 million increase in net purchases of investments, \$154 million increase in capital expenditures related to infrastructure hardware equipment as well as office related expenditures to support our headcount growth and \$40 million, net increase in business combinations, net of cash and restricted cash acquired, and purchases of intangibles.

### *Financing Activities*

Net cash provided by financing activities for the year ended December 31, 2020 was \$597 million compared to net cash used in financing activities of \$302 million for the prior year due to proceeds of \$1.5 billion from the issuance of the 2030 Notes, net of discount and issuance costs, offset by the 2022 Notes Repurchase of \$1.6 billion attributable to principal, funded in part by the proceeds received from the partial unwind of the 2022 Note Hedge of \$1.1 billion. In addition, an increase in proceeds from employee equity plans by \$38 million was offset by a \$99 million increase in taxes paid related to net share settlement of equity awards.

**Contractual Obligations and Commitments**

The following table represents our future non-cancelable contractual obligations as of December 31, 2020, aggregated by type:

	<b>Payments Due by Period</b>				
	<b>Total</b>	<b>Less Than 1 Year</b>	<b>1 – 3 Years</b>	<b>3 – 5 Years</b>	<b>More Than 5 Years</b>
	(in thousands)				
Operating leases, including imputed interest <sup>(1)</sup>	\$ 582,907	\$ 87,832	\$ 166,034	\$ 116,029	\$ 213,012
Purchase obligations <sup>(2)</sup>	283,230	119,990	122,301	36,938	4,001
Principal amount payable on our long-term debt <sup>(3)</sup>	1,669,224	—	\$ 169,224	—	1,500,000
<b>Total contractual obligations</b>	<b>\$ 2,535,361</b>	<b>\$ 207,822</b>	<b>\$ 457,559</b>	<b>\$ 152,967</b>	<b>\$ 1,717,013</b>

(1) Consists of future non-cancelable minimum rental payments under operating leases for offices and data centers.

(2) Consists of future minimum payments under non-cancelable purchase commitments related to our daily business operations. Not included in the table above are certain purchase commitments related to our future annual Knowledge user conferences and other customer or sales conferences to be held in 2021 and future years. If we were to cancel these contractual commitments as of December 31, 2020, we would have been obligated to pay cancellation penalties of approximately \$36 million in aggregate.

(3) For additional information regarding our long-term debt, refer to Note 11 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

In addition to the obligations in the table above, \$20 million of unrecognized tax benefits have been recorded as liabilities as of December 31, 2020. It is uncertain if or when such amounts may be settled.

**Off-Balance Sheet Arrangements**

During all periods presented, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for purposes of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As such, we are not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in those types of relationships.

**ITEM 7A. QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK****Foreign Currency Exchange Risk**

We have foreign currency risks related to our revenue and operating expenses denominated in currencies other than the U.S. Dollar, primarily the Euro and British Pound Sterling. We are a net receiver of Euro and British Pound Sterling, and therefore benefit from a weakening of the U.S. Dollar relative to these currencies and, conversely, are adversely affected by a strengthening of the U.S. Dollar relative to these currencies. Revenues denominated in U.S. Dollar as a percentage of total revenues was 71% during each of the years ended December 31, 2020, 2019 and 2018.

To mitigate our risks associated with fluctuations in foreign currency exchange rates, we enter into foreign currency derivative contracts to hedge a portion of our net outstanding monetary assets and liabilities. These derivative contracts are intended to offset gains or losses related to remeasuring monetary assets and liabilities that are denominated in currencies other than the functional currency of the entities in which they are recorded.

A hypothetical 10% increase in the U.S. Dollar against other currencies would have resulted in a decrease in operating income of \$47 million and \$31 million for the years ended December 31, 2020 and 2019, respectively, and an increase in operating loss of \$23 million for the year ended December 31, 2018. This analysis disregards the possibilities that rates can move in opposite directions and that losses from one geographic area may be offset by gains from another geographic area.

These derivative contracts expose us to credit risk to the extent that the counterparties may be unable to meet the terms of the arrangement. We mitigate this credit risk by transacting with major financial institutions with high credit ratings and entering into master netting arrangements, which permit net settlement of transactions with the same counterparty. While the contract or notional amount is often used to express the volume of foreign currency derivative contracts, the amounts potentially subject to credit risk are generally limited to the amounts, if any, by which the counterparties' obligations under the agreements exceed our obligations to the counterparties. We are not required to pledge, and are not entitled to receive, cash collateral related to these derivative instruments. We do not enter into derivative contracts for trading or speculative purposes. Refer to Note 8 in the notes to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for additional information.

### **Interest Rate Sensitivity**

We had an aggregate of \$4.6 billion in cash, cash equivalents, short-term investments and long-term investments as of December 31, 2020. This amount was invested primarily in money market funds, certificates of deposit, corporate notes and bonds, government and agency securities and other debt securities with a minimum rating of BBB by Standard & Poor's, Baa2 by Moody's, or BBB by Fitch. The primary objectives of our investment activities are the preservation of capital and support of our liquidity requirements. Our investments are exposed to market risk due to fluctuations in interest rates, which may affect our interest income and the fair market value of our investments.

A hypothetical 100 basis point increase in interest rates would have resulted in an approximate \$29 million decline of the fair value of our available-for-sale securities. This estimate is based on a sensitivity model that measures market value changes when changes in interest rates occur.

As of December 31, 2019, we had an aggregate of \$2.7 billion in cash, cash equivalents, short-term investments and long-term investments, and a hypothetical 100 basis point increase in interest rates would have resulted in an approximate \$14 million decline of the fair value of our available-for-sale securities.

### **Market Risk**

In August 2020, we issued 1.40% fixed rate ten-year notes with an aggregate principal amount of \$1.5 billion due on September 1, 2030 (the "2030 Notes"). The 2030 Notes were issued at 99.63% of principal and we incurred approximately \$13 million for debt issuance costs. Interest is payable semi-annually in arrears on March 1 and September 1 of each year, beginning on March 1, 2021, and the entire outstanding principal amount is due at maturity on September 1, 2030. The 2030 Notes are unsecured obligations and the indentures governing the 2030 Notes contain customary events of default and covenants that, among others and subject to exceptions, restrict the Company's ability to incur or guarantee debt secured by liens on specified assets or enter into sale and lease-back transactions with respect to specified properties.

In May and June 2017, we issued the 2022 Notes with an aggregate principal amount of \$782.5 million. We carry these instruments at face value less unamortized discount on our consolidated balance sheet. Because these instruments do not bear interest, we have no economic interest rate exposure on our 2022 Notes associated with changes in interest rates. However, the fair value of our 2022 Notes is exposed to interest rate risks. Generally, the fair market value of our 2022 Notes will increase as interest rates fall and decrease as interest rates rise. In addition, the fair value of the 2022 Notes is affected by our stock price due to the conversion feature, and will generally increase as the stock price increases.

We hold cash balances with multiple financial institutions in various countries and these balances routinely exceed deposit insurance limits.

As of December 31, 2020 and 2019, we had \$28 million and \$22 million, respectively, of equity investments in privately-held companies that are in the development stage. The fair value of these strategic investments may fluctuate depending on the financial condition and near-term prospects of these companies, and we may be required to record an impairment charge if the carrying value of these investments exceed their fair value. We are required to measure equity securities at fair value with changes in fair value recognized through our consolidated statements of comprehensive income (loss). As a result, we anticipate additional volatility to our consolidated statements of comprehensive income (loss) in future periods, due to the valuation and timing of observable price changes of our investments in privately held securities. These changes could be material based on market conditions and events.

## Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of ServiceNow, Inc.

### ***Opinions on the Financial Statements and Internal Control over Financial Reporting***

We have audited the accompanying consolidated balance sheets of ServiceNow, Inc. and its subsidiaries (the “Company”) as of December 31, 2020 and 2019, and the related consolidated statements of comprehensive income (loss), of stockholders’ equity and of cash flows for each of the three years in the period ended December 31, 2020, including the related notes (collectively referred to as the “consolidated financial statements”). We also have audited the Company's internal control over financial reporting as of December 31, 2020, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2020 and 2019, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2020 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2020, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

### ***Change in Accounting Principle***

As discussed in Note 2 to the consolidated financial statements, the Company changed the manner in which it accounts for leases in 2019.

### ***Basis for Opinions***

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management’s Report on Internal Control Over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company’s consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

### ***Definition and Limitations of Internal Control over Financial Reporting***

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### ***Critical Audit Matters***

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

#### ***Subscription revenue recognition - contracts with multiple performance obligations***

As described in Note 2 to the consolidated financial statements, the Company enters into contracts that can include various combinations of products and services, which are generally capable of being distinct and accounted for as separate performance obligations. Subscription revenues include self-hosted offerings in which customers deploy, or the Company grants customers the option to deploy without significant penalty, the Company's subscription services internally or contract with a third party to host the software. For these contracts, management accounts for the software element separately from the related support and updates as they are distinct performance obligations. The transaction price allocated to the software element is recognized when transfer of control of the software to the customer is complete. The transaction price allocated to the related support and updates are recognized ratably over the contract term. As disclosed by management, evaluating the terms and conditions included within the Company's customer contracts for appropriate revenue recognition and determining whether products and services are considered distinct performance obligations that should be accounted for separately versus together may require significant judgment. The Company recognized subscription revenues of \$4.3 billion for the year ended December 31, 2020.

The principal considerations for our determination that performing procedures relating to subscription revenue recognition - contracts with multiple performance obligations is a critical audit matter are the significant judgment by management in identifying distinct performance obligations and evaluating the terms and conditions that may impact revenue recognition. This in turn resulted in significant effort and subjectivity in performing our audit procedures and in evaluating audit evidence.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the revenue recognition process, including controls over the identification of performance obligations and evaluation of terms and conditions that may impact revenue recognition. These procedures also included, among others, testing management's process for identifying distinct performance obligations and evaluating the revenue recognition impact of contractual terms and conditions by examining contracts on a test basis.

**SERVICENOW, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

*Unless the context requires otherwise, references in this report to “ServiceNow,” the “Company,” “we,” “us,” and “our” refer to ServiceNow, Inc. and its consolidated subsidiaries.*

**(1) Description of the Business**

ServiceNow’s purpose is to make the world of work, work better for people. We believe that people want the technology they use in their work to be more efficient and easier to use. We build applications to meet that demand by automating existing processes and creating efficient, digitized workflows with a consumer grade user experience. Our products and services enable the steps of a job to flow naturally across disparate departments, systems and processes of a business. ServiceNow delivers digital workflows on a single enterprise cloud platform called the Now Platform®. Our product portfolio is currently focused on providing Information Technology (“IT”), Employee and Customer workflows in standardized product offerings. We also enable our customers to design and build their own custom workflow applications using our Creator workflows, formerly called the Now Platform App Engine, and to integrate those applications with third party systems through our Integration Hub.

**(2) Summary of Significant Accounting Policies**

***Principles of Consolidation***

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”), and include our accounts and the accounts of our wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated upon consolidation.

***Use of Estimates***

The preparation of consolidated financial statements in conformity with GAAP requires management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as reported amounts of revenues and expenses during the reporting period. Such management estimates and assumptions include, but are not limited to, standalone selling price (“SSP”) for each distinct performance obligation included in customer contracts with multiple performance obligations, the period of benefit for deferred commissions, valuation of intangible assets, the useful life of property and equipment and identifiable intangible assets, stock-based compensation expense and income taxes. Actual results could differ from those estimates. We assessed the impact of COVID-19 on the estimates and assumptions and determined there was no material impact.

***Segments***

Our chief operating decision maker allocates resources and assesses financial performance based upon discrete financial information at the consolidated level. There are no segment managers who are held accountable by the chief operating decision maker, or anyone else, for operations, operating results and planning for levels or components below the consolidated unit level. Accordingly, we have determined that we operate as a single operating and reportable segment.

***Foreign Currency Translation and Transactions***

The functional currencies for our foreign subsidiaries are primarily their local currencies. Assets and liabilities of the wholly-owned foreign subsidiaries are translated into U.S. Dollars at exchange rates in effect at each period end. Amounts classified in stockholders’ equity are translated at historical exchange rates. Revenues and expenses are translated at the average exchange rates during the period. The resulting translation adjustments are recorded in accumulated other comprehensive income (loss) as a component of stockholders’ equity. Foreign currency transaction gains and losses are included in other income (expense), net within the consolidated statements of comprehensive income (loss), and have not been material for all periods presented.

***Revenue Recognition***

Revenues are recognized when control of services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those services.

### *Subscription revenues*

Subscription revenues are primarily comprised of subscription fees that give customers access to the ordered subscription service, related support and updates, if any, to the subscribed service during the subscription term. We recognize subscription revenues ratably over the contract term beginning on the commencement date of each contract, which is the date we make our services available to our customers. Our contracts with customers typically include a fixed amount of consideration and are generally non-cancelable and without any refund-type provisions. We typically invoice our customers annually in advance for our subscription services upon execution of the initial contract or subsequent renewal, and our invoices are typically due within 30 days from the invoice date.

Subscription revenues also include revenues from self-hosted offerings in which customers deploy, or we grant customers the option to deploy without significant penalty, our subscription service internally or contract with a third party to host the software. For these contracts, we account for the software element separately from the related support and updates as they are distinct performance obligations. Refer to the discussion below related to contracts with multiple performance obligations for further details. The transaction price is allocated to separate performance obligations on a relative SSP basis. The transaction price allocated to the software element is recognized when transfer of control of the software to the customer is complete. The transaction price allocated to the related support and updates are recognized ratably over the contract term.

### *Professional services and other revenues*

Our professional services arrangements are primarily on a time-and-materials basis, and we generally invoice our customers monthly in arrears for these professional services based on actual hours and expenses incurred. Some of our professional services arrangements are on a fixed fee or subscription basis. Professional services revenues are recognized as services are delivered. Other revenues consist of fees from customer training delivered on-site or through publicly available classes. Typical payment terms require our customers to pay us within 30 days of invoice.

### *Contracts with multiple performance obligations*

We enter into contracts that can include various combinations of products and services, which are generally capable of being distinct and accounted for as separate performance obligations. We evaluate the terms and conditions included within our customer contracts to ensure appropriate revenue recognition, including whether products and services are considered distinct performance obligations that should be accounted for separately versus together. For contracts with multiple performance obligations, the transaction price is allocated to the separate performance obligations on a relative SSP basis. We determine SSP by considering the historical selling price of these performance obligations in similar transactions as well as other factors, including, but not limited to, competitive pricing of similar products, other software vendor pricing, industry publications and current pricing practices.

### *Contract balances*

Unbilled receivables represent subscription revenues that are recognized upon delivery of the software prior to being invoiced. Unbilled receivables are primarily presented under prepaid expenses and other current assets on our consolidated balance sheets.

Deferred revenue consists primarily of payments received related to unsatisfied performance obligations at the end of the period. Once our services are available to customers, we record amounts due in accounts receivable and in deferred revenue. To the extent we bill customers in advance of the billing period commencement date, the accounts receivable and corresponding deferred revenue amounts are netted to zero on our consolidated balance sheets, unless such amounts have been paid as of the balance sheet date.

Customer deposits primarily relate to payments received from customers which could be refundable pursuant to the terms of the contract and are presented under accrued expenses and other current liabilities on our consolidated balance sheets.

### ***Deferred Commissions***

Deferred commissions are the incremental selling costs that are associated with acquiring customer contracts and consist primarily of sales commissions paid to our sales organization and referral fees paid to independent third-parties. Deferred commissions also include the associated payroll taxes and fringe benefit costs associated with payments to our sales employees to the extent they are incremental. Commissions and referral fees earned upon the execution of initial and expansion contracts are primarily deferred and amortized over a period of benefit that we have determined to be five years. Commissions earned upon the renewal of customer contracts are deferred and amortized over the average renewal term. Additionally, for self-hosted offerings, consistent with the recognition of subscription revenue for self-hosted offerings, a portion of the commission cost is expensed upfront when the self-hosted offering is made available. We determine the period of benefit by taking into consideration our customer contracts, our technology life cycle and other factors. We include amortization of deferred commissions in sales and marketing expense in our consolidated statements of comprehensive income (loss). There was no impairment loss in relation to the incremental selling costs capitalized for all periods presented.

### ***Fair Value Measurements***

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. We use a fair value hierarchy that is based on three levels of inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy are as follows:

- Level 1—Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2—Other inputs that are directly or indirectly observable in the marketplace; and
- Level 3— Significant unobservable inputs that are supported by little or no market activity.

### ***Cash and Cash Equivalents***

Cash and cash equivalents consist of highly liquid investments with original or remaining maturities of three months or less at the date of purchase. Cash and cash equivalents are stated at fair value.

### ***Accounts Receivable, net***

We record trade accounts receivable at the net invoice value and such receivables are non-interest bearing. We consider receivables past due based on the contractual payment terms. We reserve for specific amounts if collectability is no longer reasonably assured based on assessment of various factors including historical loss rates and expectations of forward-looking loss estimates. Individual accounts receivable are written off when we become aware of a specific customer's inability to meet its financial obligation, and all collection efforts are exhausted.

### ***Investments***

Investments consist of commercial paper, corporate notes and bonds, certificates of deposit and U.S. government and agency securities. We classify investments as available-for-sale at the time of purchase. All investments are recorded at estimated fair value and investments with original maturities of less than one year at time of purchase is classified as short-term. Unrealized gains and losses are included in accumulated other comprehensive income (loss), net of tax, a component of stockholders' equity, except for credit-related impairment losses for available-for-sale debt securities.

We evaluate investments with unrealized loss positions for other than temporary impairment by assessing if they are related to deterioration in credit risk and whether we expect to recover the entire amortized cost basis of the security, our intent to sell and whether it is more likely than not that we will be required to sell the securities before the recovery of their cost basis. Credit-related impairment losses, not to exceed the amount that fair value is less than the amortized cost basis, are recognized through an allowance for credit losses with changes in the allowance for credit losses recorded in other income (expense), net in the consolidated statements of comprehensive income (loss). For purposes of identifying and measuring impairment, the policy election was made to exclude the applicable accrued interest from both the fair value and amortized cost basis. Applicable accrued interest, net of the allowance for credit losses (if any) of \$13 million and \$11 million, is recorded in prepaid expenses and other current assets on the consolidated balance sheets as of December 31, 2020 and 2019, respectively.

Realized gains and losses and declines in value judged to be other than temporary are determined based on the specific identification method and are reported in other income (expense), net in the consolidated statements of comprehensive income (loss).

### ***Strategic investments***

Strategic investments consist of debt and non-marketable equity investments in privately-held companies in which we do not have a controlling interest or significant influence. Debt investments in privately-held companies are classified as available-for-sale and are recorded at their estimated fair value with changes in fair value recorded through accumulated other comprehensive income (loss). We have elected to apply the measurement alternative for equity investments that do not have readily determinable fair values, measuring them at cost, less any impairment, plus or minus adjustments resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. An impairment loss is recorded when event or circumstance indicates a decline in value has occurred. We include these strategic investments in other assets on our consolidated balance sheets.

### ***Derivative Financial Instruments***

We use derivative financial instruments, mainly forward contracts with maturities of 12 months or less, to manage foreign currency risks. These derivative contracts are not designated as hedging instruments and changes in the fair value are recorded in other income (expense), net on the consolidated statements of comprehensive income (loss). Realized gains (losses) from settlement of the derivative assets and liabilities are classified as investing activities in the consolidated statements of cash flows.

### ***Property and Equipment, net***

Property and equipment are stated at cost net of accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets as follows:

Building	39 years
Computer equipment and software	3-5 years
Furniture and fixtures	3-7 years
Leasehold and other improvements	shorter of the lease term or estimated useful life

### ***Capitalized Software Development Costs***

Software development costs for software to be sold, leased, or otherwise marketed are expensed as incurred until the establishment of technological feasibility, at which time those costs are capitalized until the product is available for general release to customers and amortized over the estimated life of the product. Costs and time incurred between the establishment of technological feasibility and product release have not been material, and all software development costs have been charged to research and development expense in our consolidated statements of comprehensive income (loss).

Costs incurred to develop our internal administration, finance and accounting systems are capitalized during the application development stage and generally amortized over the software's estimated useful life of three to five years. Costs related to preliminary project activities and post implementation activities are expensed as incurred.

### ***Leases***

We determine if an arrangement is or contains a lease at inception. Operating lease right-of-use assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. Lease payments consist primarily of the fixed payments under the arrangement, less any lease incentives. We generally use an incremental borrowing rate estimated based on the information available at the lease commencement date to determine the present value of lease payments, unless the implicit rate is readily determinable. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

We account for lease and non-lease components as a single lease component for office leases. Lease and non-lease components for all other leases are generally accounted for separately. Additionally, we do not record leases on the balance sheet that, at the lease commencement date, have a lease term of 12 months or less.

Operating leases are included in operating lease right-of-use assets, current portion of operating lease liabilities, and operating lease liabilities, less current portion in our consolidated balance sheets. We did not have any material financing leases in any of the periods presented.

### ***Business Combinations***

We allocate the acquisition purchase price to the tangible and intangible assets acquired and liabilities assumed, based on their estimated fair values. The excess of the purchase price over the fair value of these assets acquired and liabilities assumed is recorded as goodwill. Allocation of the purchase price requires significant estimates in determining the fair value of acquired assets and assumed liabilities, especially with respect to intangible assets. Critical estimates include, but are not limited to, future expected cash flows, discount rates, the time and expense to recreate the assets and profit margin a market participant would receive. These estimates are inherently uncertain and unpredictable and, as a result, actual results may differ from estimates.

### ***Goodwill and Intangible Assets***

Goodwill is evaluated for impairment at least annually or more frequently if circumstances indicate that goodwill may not be recoverable. We changed the timing of our annual assessment from fourth quarter to third quarter and did not consider this change to be material. We believe the change in timing is preferable as it better aligns with the Company's closing processes. This change did not delay, accelerate or avoid any impairment charge. A qualitative assessment is performed to determine whether it is more likely than not that the fair value of its reporting unit is less than its carrying amount. If the reporting unit does not pass the qualitative assessment, the carrying amount of the reporting unit, including goodwill, is compared to fair value and goodwill is considered impaired if the carrying value of the reporting unit exceeds its fair value. Any excess is recognized as an impairment loss.

Intangible assets consist of developed technologies and other intangible assets, including patents and contractual agreements. Intangible assets are amortized over the period of estimated benefit using the straight-line method and estimated useful lives ranging from four to eleven years.

### ***Impairment of Long-Lived Assets***

We evaluate long-lived assets, including purchased intangible assets, for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Recoverability is measured by comparing the carrying amount to the future undiscounted cash flows we expect the asset to generate. Any excess of the carrying value of the asset above its fair value is recognized as an impairment loss.

### ***Advertising Costs***

Advertising costs, excluding costs related to our annual Knowledge user conference and other user forums, are expensed as incurred and are included in sales and marketing expense. These costs for the years ended December 31, 2020, 2019 and 2018 were \$172 million, \$115 million and \$65 million, respectively.

### ***Stock-based Compensation***

We recognize compensation expense related to stock options and restricted stock units ("RSUs") with only service conditions on a straight-line basis over the requisite service period. For stock options and RSUs with both service and performance or market conditions (performance-based RSUs ("PRSUs")), expenses are recognized on a graded vesting basis over the requisite service period and for awards with performance conditions, when it is probable that the performance condition will be achieved. We recognize compensation expense related to shares issued pursuant to the employee stock purchase plan ("ESPP") on a straight-line basis over the six-month offering period. We recognize compensation expense net of estimated forfeiture activity. Amounts withheld related to the minimum statutory tax withholding requirements paid by us on behalf of our employees are recorded as a liability and a reduction to additional paid-in capital when paid, and are included as a reduction of cash flows from financing activities.

We estimate the fair value of stock options with only service conditions and shares issued pursuant to the ESPP using the Black-Scholes options pricing model and the fair value of RSU awards (including PRSUs) using the fair value of our common stock on the date of grant. For stock options with both service and market conditions, we estimate the fair value of the options granted and the corresponding derived service periods using the Monte Carlo simulation, which requires the use of various assumptions, including the stock price volatility and risk-free interest rate as of the valuation date corresponding to the length of time remaining in the performance period and expected dividend yield.

### ***Concentration of Credit Risk and Significant Customers***

Financial instruments potentially exposing us to credit risk consist primarily of cash, cash equivalents, derivative contracts, investments and accounts receivable. We hold cash at financial institutions that management believes are high credit, quality financial institutions and invest in investment-grade debt securities. Our derivative contracts expose us to credit risk to the extent that the counterparties may be unable to meet the terms of the arrangement. We mitigate this credit risk by transacting with major financial institutions with high credit ratings and entering into master netting arrangements, which permit net settlement of transactions with the same counterparty. We are not required to pledge, and are not entitled to receive, cash collateral related to these derivative instruments. We are also exposed to credit risk under the convertible note hedge transactions that may result from counterparties' non-performance.

Credit risk arising from accounts receivable is mitigated to a certain extent due to our large number of customers and their dispersion across various industries and geographies. As of December 31, 2020 and 2019, there were no customers that represented more than 10% of our accounts receivable balance. There were no customers that individually exceeded 10% of our total revenues in any of the periods presented. For purposes of assessing concentration of credit risk and significant customers, a group of customers under common control or customers that are affiliates of each other are regarded as a single customer.

The following table presents the changes in the allowance for doubtful accounts (in thousands):

	<b>Balance at Beginning of Year</b>	<b>Additions: Charged to Operations</b>	<b>Additions: Charged to Deferred Revenue</b>	<b>Less: Write-offs</b>	<b>Balance at End of Year</b>
<b>Year ended December 31, 2020</b>					
Allowance for doubtful accounts	\$ 6,196	2,544	1,382	1,514	\$ 8,608
<b>Year ended December 31, 2019</b>					
Allowance for doubtful accounts	\$ 4,649	1,284	1,306	1,043	\$ 6,196
<b>Year ended December 31, 2018</b>					
Allowance for doubtful accounts	\$ 3,115	1,255	1,177	898	\$ 4,649

### ***Income Taxes***

We use the asset and liability method of accounting for income taxes, in which deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. We measure deferred tax assets and liabilities using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be reversed. We recognize the effect on deferred tax assets and liabilities of a change in tax rates within the provision for income taxes as income and expense in the period that includes the enactment date. A valuation allowance is established if it is more likely than not that all or a portion of the deferred tax asset will not be realized. In determining the need for a valuation allowance, we consider future growth, forecasted earnings, future taxable income, the mix of earnings in the jurisdictions in which we operate, historical earnings, taxable income in prior years, if carryback is permitted under the law, carryforward periods and prudent and feasible tax planning strategies.

Our tax positions are subject to income tax audits by multiple tax jurisdictions throughout the world. We recognize the tax benefit of an uncertain tax position only if it is more likely than not the position is sustainable upon examination by the taxing authority, based on the technical merits. We measure the tax benefit recognized as the largest amount of benefit which is more likely than not to be realized upon settlement with the taxing authority. We recognize interest accrued and penalties related to unrecognized tax benefits in our tax provision.

We calculate the current and deferred income tax provision based on estimates and assumptions that could differ from the actual results reflected in income tax returns filed in subsequent years and record adjustments based on filed income tax returns when identified. The amount of income taxes paid is subject to examination by U.S. federal, state and foreign tax authorities. The estimate of the potential outcome of any uncertain tax issue is subject to management's assessment of relevant risks, facts and circumstances existing at that time. To the extent the assessment of such tax position changes, we record the change in estimate in the period in which we make the determination.

### ***Prior Period Reclassifications***

Certain prior period amounts have been reclassified to conform to the current period presentation. These reclassifications did not result in a restatement of prior period financial statements.

### ***Recently Adopted Accounting Pronouncements***

#### ***Accounting Pronouncements Adopted in 2020***

##### *Cloud computing arrangements implementation costs*

In August 2018, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2018-15, “Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract,” which aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The new standard requires capitalized costs to be amortized on a straight-line basis generally over the term of the arrangement, and the financial statement presentation for these capitalized costs would be the same as that of the fees related to the hosting arrangements. We adopted this standard on a prospective basis as of January 1, 2020. The adoption of this standard did not have a material impact on our consolidated financial statements.

##### *Credit losses*

In June 2016, the FASB issued ASU 2016-13, “Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments,” which requires a financial asset measured at amortized cost basis to be presented at the net amount expected to be collected, with further clarifications made more recently regarding the treatment of accrued interest, transfers between classifications for loans and debt securities, recoveries and the option to irrevocably elect the fair value option (on an instrument-by-instrument basis) for eligible financial assets at amortized costs. For trade receivables, loans, and other financial assets, we will be required to use a forward-looking expected loss model rather than the incurred loss model for recognizing credit losses which reflects losses that are probable. Credit losses relating to available-for-sale debt securities are required to be recorded through an allowance for credit losses rather than as a reduction in the amortized cost basis of the securities. We adopted ASU 2016-13 on a modified retrospective basis as of January 1, 2020. The adoption of this standard did not result in any cumulative effect adjustment on our consolidated financial statements upon adoption as of January 1, 2020.

#### ***Accounting Pronouncement Adopted in 2019***

##### *Leases*

In February 2016, the FASB issued ASU 2016-02, “Leases (“Topic 842”),” which requires lessees to generally recognize on the balance sheet operating and financing lease liabilities and corresponding right-of-use assets, and to recognize on the income statement the expenses in a manner similar to prior practice. We adopted Topic 842 using the modified retrospective method as of January 1, 2019 with an immaterial amount of cumulative effect adjustment recorded to our accumulated deficit as of January 1, 2019 and elected not to restate the comparative periods in our financial statements in the year of adoption. We also elected the package of transition expedients available for expired or existing contracts, which allowed us to carryforward our historical assessment of (1) whether contracts are or contain leases, (2) lease classification and (3) initial direct costs. The adoption of this standard did not impact our previously reported consolidated financial statements for periods ended on or prior to December 31, 2018. Upon adoption, we recorded operating lease right-of-use assets of approximately \$335 million and corresponding operating lease liabilities of \$363 million on our consolidated balance sheets.

### Recently Issued Accounting Pronouncements Pending Adoption

#### Debt with Conversion Options

In August 2020, the FASB issued new guidance to simplify the accounting for certain financial instruments with characteristics of liabilities and equity, including convertible instruments and contracts on an entity's own equity. The standard eliminates beneficial conversion feature and cash conversion models resulting in more convertible instruments being accounted for as a single unit; and simplifies classification of debt on the balance sheet and earnings per share calculation. This new standard is effective for our interim and annual periods beginning January 1, 2022 and earlier adoption is permitted. Amendments within this standard are required to be applied on a retrospective or modified retrospective basis. We are currently evaluating the impact of the adoption of this standard on our consolidated financial statements.

#### Income taxes

In December 2019, the FASB issued ASU 2019-12, "Income Taxes ("Topic 740"): Simplifying the Accounting for Income Taxes," which simplifies the accounting for incomes taxes by removing certain exceptions to the general principles in Topic 740 and amending existing guidance to improve consistent application. This new standard is effective for our interim and annual periods beginning January 1, 2021 and earlier adoption is permitted. Most amendments within this standard are required to be applied on a prospective basis, while certain amendments must be applied on a retrospective or modified retrospective basis. We do not anticipate that the adoption of this standard will have a material impact on our consolidated financial statements.

### (3) Investments

#### Marketable Debt Securities

The following is a summary of our available-for-sale debt securities recorded within short-term and long-term investments on the consolidated balance sheets (in thousands):

	December 31, 2020			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Available-for-sale securities:				
Commercial paper	\$ 405,429	\$ 79	\$ (13)	\$ 405,495
Corporate notes and bonds	2,298,306	10,478	(298)	2,308,486
Certificates of deposit	23,081	8	—	23,089
U.S. government and agency securities	145,243	942	(7)	146,178
Total available-for-sale securities	<u>\$ 2,872,059</u>	<u>\$ 11,507</u>	<u>\$ (318)</u>	<u>\$ 2,883,248</u>
	December 31, 2019			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Available-for-sale securities:				
Commercial paper	\$ 101,416	\$ 83	\$ (9)	\$ 101,490
Corporate notes and bonds	1,654,166	7,360	(196)	1,661,330
Certificates of deposit	38,007	38	—	38,045
U.S. government and agency securities	127,544	254	(14)	127,784
Total available-for-sale securities	<u>\$ 1,921,133</u>	<u>\$ 7,735</u>	<u>\$ (219)</u>	<u>\$ 1,928,649</u>

As of December 31, 2020, the contractual maturities of our available-for-sale debt securities, excluding those securities classified within cash and cash equivalents on the consolidated balance sheet, did not exceed 36 months. The fair values of available-for-sale securities, by remaining contractual maturity, are as follows (in thousands):

	<b>December 31, 2020</b>
Due within 1 year	\$ 1,415,242
Due in 1 year through 5 years	1,468,006
Total	<u>\$ 2,883,248</u>

The following table shows the fair values and the gross unrealized losses of these available-for-sale debt securities, classified by the length of time that the securities have been in a continuous unrealized loss position, and aggregated by investment types, excluding those securities classified within cash and cash equivalents on the consolidated balance sheets (in thousands):

	<b>December 31, 2020</b>					
	<b>Less than 12 Months</b>		<b>12 Months or Greater</b>		<b>Total</b>	
	<b>Fair Value</b>	<b>Gross Unrealized Losses</b>	<b>Fair Value</b>	<b>Gross Unrealized Losses</b>	<b>Fair Value</b>	<b>Gross Unrealized Losses</b>
Commercial paper	\$ 94,980	\$ (13)	\$ —	\$ —	\$ 94,980	\$ (13)
Corporate notes and bonds	534,126	(298)	—	—	534,126	(298)
U.S. government and agency securities	7,985	(7)	—	—	7,985	(7)
Total	<u>\$ 637,091</u>	<u>\$ (318)</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 637,091</u>	<u>\$ (318)</u>

	<b>December 31, 2019</b>					
	<b>Less than 12 Months</b>		<b>12 Months or Greater</b>		<b>Total</b>	
	<b>Fair Value</b>	<b>Gross Unrealized Losses</b>	<b>Fair Value</b>	<b>Gross Unrealized Losses</b>	<b>Fair Value</b>	<b>Gross Unrealized Losses</b>
Commercial paper	\$ 20,752	\$ (9)	\$ —	\$ —	\$ 20,752	\$ (9)
Corporate notes and bonds	242,012	(181)	16,264	(15)	258,276	(196)
U.S. government and agency securities	17,806	(14)	—	—	17,806	(14)
Total	<u>\$ 280,570</u>	<u>\$ (204)</u>	<u>\$ 16,264</u>	<u>\$ (15)</u>	<u>\$ 296,834</u>	<u>\$ (219)</u>

The decline in fair value below amortized cost basis was not considered other than temporary as it is more likely than not we will hold the securities until maturity or a recovery of the cost basis, and credit-related impairment losses were not deemed material as of December 31, 2020.

### ***Strategic Investments***

As of December 31, 2020 and 2019, the total amount of equity investments in privately-held companies included in other assets on our consolidated balance sheets was \$28 million and \$22 million, respectively. We classify these assets as Level 3 within the fair value hierarchy as only an impairment or observable adjustment is recognized based on observable transaction price at the transaction date of identical or similar investment of the same issuer and other unobservable inputs such as volatility.

**(4) Fair Value Measurements**

The following table presents our fair value hierarchy for our assets measured at fair value on a recurring basis as of December 31, 2020 (in thousands):

	Level 1	Level 2	Total
<b>Cash equivalents:</b>			
Money market funds	\$ 1,305,372	\$ —	\$ 1,305,372
U.S. government and agency securities	—	2,000	2,000
<b>Marketable securities:</b>			
Commercial paper	—	405,495	405,495
Corporate notes and bonds	—	2,308,486	2,308,486
Certificates of deposit	—	23,089	23,089
U.S. government and agency securities	—	146,178	146,178
<b>Total</b>	<b>\$ 1,305,372</b>	<b>\$ 2,885,248</b>	<b>\$ 4,190,620</b>

The following table presents our fair value hierarchy for our assets measured at fair value on a recurring basis as of December 31, 2019 (in thousands):

	Level 1	Level 2	Total
<b>Cash equivalents:</b>			
Money market funds	\$ 486,982	\$ —	\$ 486,982
Commercial paper	—	86,388	86,388
<b>Marketable securities:</b>			
Commercial paper	—	101,490	101,490
Corporate notes and bonds	—	1,661,330	1,661,330
Certificates of deposit	—	38,045	38,045
U.S. government and agency securities	—	127,784	127,784
<b>Total</b>	<b>\$ 486,982</b>	<b>\$ 2,015,037</b>	<b>\$ 2,502,019</b>

We determine the fair value of our security holdings based on pricing from our service providers and market prices from industry-standard independent data providers. Such market prices may be quoted prices in active markets for identical assets (Level 1 inputs) or pricing determined using inputs other than quoted prices that are observable either directly or indirectly (Level 2 inputs), such as yield curve, volatility factors, credit spreads, default rates, loss severity, current market and contractual prices for the underlying instruments or debt, broker and dealer quotes, as well as other relevant economic measures.

Our equity investments in privately-held companies are not included in the table above and are discussed in Note 3. See Note 8 for the fair value measurement of our derivative contracts and Note 11 for the fair value measurement of our long-term debt, which are also not included in the table above.

**(5) Business Combinations****2020 Business Combinations**

On July 1, 2020, we acquired Sweagle NV for \$25 million in an all-cash transaction to extend our DevOps and IT operations management (“ITOM”) capabilities. The purchase price was allocated based on the estimated fair value to intangible assets of \$8 million comprised mainly of developed technology of \$7 million, deferred tax liabilities of \$2 million, and goodwill of \$19 million.

On February 7, 2020, we acquired Rupert Labs, Inc. d/b/a Passage AI for \$33 million in an all-cash transaction to advance our deep learning of conversational artificial intelligence (“AI”) capabilities. The purchase price was allocated based on the estimated fair value to developed technology intangible assets of \$22 million, deferred tax liabilities of \$5 million and \$15 million of goodwill.

On February 6, 2020, we acquired Loom Systems Ltd. for \$58 million in an all-cash transaction to extend our AI capabilities for ITOM by providing customers with analytics solutions. The purchase price was allocated based on the estimated fair value to developed technology intangible assets of \$17 million, deferred tax liabilities of \$4 million and goodwill of \$40 million.

Developed technology intangible assets acquired during the year are amortized over a five-year estimated useful life and goodwill is not tax deductible for income tax purposes.

**2019 Business Combination**

During the year ended December 31, 2019, we completed a business combination for \$8 million in cash in which we acquired certain intangible assets, including developed technology and customer arrangements.

**2018 Business Combinations**

During the year ended December 31, 2018, we completed four business combinations for an aggregate purchase price of \$38 million in cash. The aggregate purchase price was allocated based on the estimated fair value to \$14 million of developed technology intangible assets (to be amortized over a five-year estimated useful life) \$2 million of deferred tax liabilities and \$26 million of goodwill, of which \$8 million of the goodwill is deductible for income tax purposes.

We believe the goodwill associated with these business combinations represents the synergies expected from expanded market opportunities when integrating the acquired developed technologies with our offerings.

Aggregate acquisition-related costs associated with our business combinations are not material for each of the years presented and are included in general and administrative expenses in our consolidated statement of comprehensive income (loss). The results of operations of these business combinations have been included in our consolidated financial statements from their respective dates of purchase. These business combinations did not have a material impact on our consolidated financial statements, and therefore historical and pro forma disclosures have not been presented.

**(6) Goodwill and Intangible Assets**

Goodwill balances are presented below (in thousands):

	<b>Carrying Amount</b>
Balance as of December 31, 2018	\$ 148,845
Goodwill acquired	2,246
Foreign currency translation adjustments	5,665
Balance as of December 31, 2019	\$ 156,756
Goodwill acquired	74,172
Foreign currency translation adjustments	9,836
Balance as of December 31, 2020	\$ 240,764

Intangible assets consist of the following (in thousands):

	December 31, 2020	December 31, 2019
Developed technology	\$ 226,290	\$ 177,746
Patents	64,942	67,730
Other	3,616	3,594
Intangible assets, gross	294,848	249,070
Less: accumulated amortization	(141,481)	(105,220)
Intangible assets, net	\$ 153,367	\$ 143,850

Apart from the business combinations described in Note 5, we acquired \$7 million of developed technology and \$7 million of patents with weighted-average useful life of approximately five and nine years, respectively, for the year ended December 31, 2020 and \$73 million comprising primarily of \$61 million in developed technology and \$11 million in patents with weighted-average useful life of five and eight years, respectively, for the year ended December 31, 2019.

Amortization expense for intangible assets was approximately \$46 million, \$35 million and \$25 million for the years ended December 31, 2020, 2019 and 2018, respectively.

The following table presents the estimated future amortization expense related to intangible assets held at December 31, 2020 (in thousands):

Years Ending December 31,	
2021	\$ 42,466
2022	38,253
2023	32,962
2024	27,322
2025	5,228
Thereafter	7,136
Total future amortization expense	\$ 153,367

## (7) Property and Equipment

Property and equipment, net consists of the following (in thousands):

	December 31,	
	2020	2019
Computer equipment	\$ 974,319	\$ 680,160
Computer software	71,688	59,511
Leasehold and other improvements	167,697	125,299
Furniture and fixtures	68,678	53,651
Construction in progress	9,257	6,830
Property and equipment, gross	1,291,639	925,451
Less: Accumulated depreciation	(631,998)	(457,366)
Property and equipment, net	\$ 659,641	\$ 468,085

Construction in progress consists primarily of leasehold and other improvements and in-process software development costs. Depreciation expense was \$225 million, \$168 million and \$123 million for the years ended December 31, 2020, 2019 and 2018, respectively.

## (8) Derivative Contracts

As of December 31, 2020 and 2019, we had foreign currency forward contracts with total notional values of \$583 million and \$358 million, respectively, which are not designated as hedging instruments. Our foreign currency contracts are classified within Level 2 as the valuation inputs are based on quoted prices and market observable data of similar instruments in active markets, such as currency spot and forward rates. The fair value of these outstanding derivative contracts was as follows (in thousands):

	Consolidated Balance Sheet Location	December 31, 2020	December 31, 2019
<i>Derivative Assets:</i>			
Foreign currency derivative contracts	Prepaid expenses and other current assets	\$ 7,541	\$ 2,237
<i>Derivative Liabilities</i>			
Foreign currency derivative contracts	Accrued expenses and other current liabilities	\$ 9,879	\$ 1,362

## (9) Deferred Revenue and Performance Obligations

Revenues recognized during the year ended December 31, 2020 from amounts included in deferred revenue as of December 31, 2019 were \$2.1 billion. Revenues recognized during the year ended December 31, 2019 from amounts included in deferred revenue as of December 31, 2018 were \$1.6 billion.

### *Remaining Performance Obligations*

Transaction price allocated to remaining performance obligations (“RPO”) represents contracted revenue that has not yet been recognized, which includes deferred revenue and non-cancelable amounts that will be invoiced and recognized as revenues in future periods. RPO excludes contracts that are billed in arrears, such as certain time and materials contracts, as we apply the “right to invoice” practical expedient under relevant accounting guidance.

As of December 31, 2020, the total non-cancelable RPO under our contracts with customers was \$8.9 billion, and we expect to recognize revenues on approximately 49% of these RPO over the following 12 months, with the balance to be recognized thereafter.

## (10) Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consist of the following (in thousands):

	December 31,	
	2020	2019
Accrued payroll	\$ 371,861	\$ 230,682
Taxes payable	58,466	38,326
Other employee related liabilities	91,654	74,853
Other	146,112	117,542
Total accrued expenses and other current liabilities	\$ 668,093	\$ 461,403

## (11) Long-Term Debt

The following table summarizes the carrying value of our outstanding debt (in thousands, except percentages):

	December 31, 2020		December 31, 2019
	2030 Notes	2022 Notes	2022 Notes
Long-term debt			
Principal	\$ 1,500,000	\$ 169,224	\$ 782,491
Less: debt issuance cost and debt discount, net of amortization	(17,703)	(11,368)	(87,510)
Net carrying amount	<u>\$ 1,482,297</u>	<u>\$ 157,856</u>	<u>\$ 694,981</u>
Effective interest rate of the liability component - 2022 Notes		4.75%	
Effective interest rate - 2030 Notes		1.53%	

The effective interest rates for the 2030 Notes and 2022 Notes include interest payable, amortization of debt issuance cost and amortization of debt discount, as applicable.

We consider the fair value of the 2030 Notes and 2022 Notes at December 31, 2020 to be a Level 2 measurement. The estimated fair value of the 2030 Notes and 2022 Notes at December 31, 2020 and December 31, 2019 based on the closing trading price per \$100 of the 2030 Notes and 2022 Notes were as follows (in thousands):

	December 31, 2020	December 31, 2019
2022 Notes	\$ 687,049	\$ 1,645,970
2030 Notes	\$ 1,463,475	\$ —

### 2030 Notes

In August 2020, we issued 1.40% fixed rate ten-year notes with an aggregate principal amount of \$1.5 billion due on September 1, 2030 (the “2030 Notes”). The 2030 Notes were issued at 99.63% of principal and we incurred approximately \$13 million for debt issuance costs. Interest is payable semi-annually in arrears on March 1 and September 1 of each year, beginning on March 1, 2021, and the entire outstanding principal amount is due at maturity on September 1, 2030. The 2030 Notes are unsecured obligations and the indentures governing the 2030 Notes contain customary events of default and covenants that, among others and subject to exceptions, restrict the Company’s ability to incur or guarantee debt secured by liens on specified assets or enter into sale and lease-back transactions with respect to specified properties.

### 2022 Notes

In May and June 2017, we issued an aggregate of \$782.5 million of 0% convertible senior notes (the “2022 Notes”), which are due June 1, 2022 unless earlier converted or repurchased in accordance with their terms. The 2022 Notes do not bear interest, and we cannot redeem the 2022 Notes prior to maturity. The 2022 Notes are unsecured obligations and do not contain any financial covenants or restrictions on the payments of dividends, the incurrence of indebtedness or the issuance or repurchase of securities by us or any of our subsidiaries. In accounting for the issuance of the 2022 Notes and the related transaction costs, we valued and bifurcated the conversion option from the host debt instrument, referred to as debt discount, and recorded the conversion option of \$160 million in equity at issuance. The resulting debt discount and transactions costs allocated to the liability component are amortized to interest expense using the effective interest method over the term of the 2022 Notes.

Upon conversion of the 2022 Notes, we may choose to pay or deliver, as the case may be, cash, shares of our common stock or a combination of cash and shares of our common stock upon settlement. We currently intend to settle the principal amount of the 2022 Notes with cash.

	<u>Convertible Date</u>	<u>Initial Conversion Price per Share</u>	<u>Initial Conversion Rate per \$1,000 Par Value</u>	<u>Initial Number of Shares</u> (in thousands)
2022 Notes	February 1, 2022	\$ 134.75	7.42 shares	5,807

*Conversion of the 2022 Notes prior to the Convertible Date.* At any time prior to the close of business on the business day immediately preceding February 1, 2022 (“Convertible Date”), holders of the 2022 Notes may convert their Notes at their option, only if one of the following conditions are met:

- during any calendar quarter (and only during such calendar quarter) if the last reported sale price of our common stock for at least 20 trading days (whether or not consecutive) during the period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day (in each case, the “Conversion Condition”); or
- during the five-business day period after any five-consecutive trading day period, or the measurement period, in which the trading price per \$1,000 principal amount of the 2022 Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day; or
- upon the occurrence of specified corporate events.

For conversion requests received prior to maturity, the difference between the fair value and the amortized book value is recorded as a gain or loss on early note conversion.

*Conversion of the 2022 Notes on or after the Convertible Date.* On or after the Convertible Date, a holder may convert all or any portion of its 2022 Notes at any time prior to the close of business on the second scheduled trading day immediately preceding maturity regardless of the foregoing conditions, and such conversions will settle upon maturity. Upon settlement, we will pay or deliver, as the case may be, cash, shares of our common stock or a combination of cash and shares of our common stock, at our election.

The conversion price of the 2022 Notes will be subject to adjustment in some events. Holders of the 2022 Notes who convert their 2022 Notes in connection with certain corporate events that constitute a “make-whole fundamental change” are, under certain circumstances, entitled to an increase in the conversion rate. Additionally, in the event of a corporate event that constitutes a “fundamental change,” holders of the 2022 Notes may require us to purchase with cash all or a portion of the 2022 Notes upon the occurrence of a fundamental change, at a purchase price equal to 100% of the principal amount of the 2022 Notes plus any accrued and unpaid special interest, if any.

The Conversion Condition for the 2022 Notes was met for all the quarters ended June 30, 2018 through December 31, 2020, except for the quarter ended December 31, 2018. Therefore, our 2022 Notes became convertible at the holders’ option beginning on July 1, 2018 and continue to be convertible through March 31, 2021, except for the quarter ended March 31, 2019 because the Conversion Condition for the 2022 Notes was not met for the quarter ended December 31, 2018.

During the year ended December 31, 2020, we paid cash to settle \$116 million in principal of the 2022 Notes and the loss on the early note conversions was not material. As a result of the settlements, we also recorded a net reduction to additional paid-in capital, reflecting \$275 million fair value adjustments to the settled conversion option partially offset by \$273 million benefit from the 2022 Note Hedge (as defined below).

Based on conversion requests received through the filing date, we expect to settle in cash an aggregate of approximately \$34 million in principal amount of the 2022 Notes during the first quarter of 2021. We may receive additional conversion requests that require settlement after the first quarter of 2021.

## Repurchase of 2022 Notes

On August 11, 2020, we repurchased \$497 million in aggregate principal amount of the 2022 Notes (the “2022 Notes Repurchase”) funded in part by the \$1.1 billion proceeds received from the partial unwind of the 2022 Note Hedge (as defined below). The 2022 Notes Repurchase was accounted for as a debt extinguishment in which \$493 million and \$1.1 billion were allocated to the liability and equity components of the 2022 Notes, respectively. The cash consideration allocated to the liability component was based on the estimated fair value of the liability component utilizing a discount rate assuming a similar liability per the Company’s credit rating with the same maturity, but without the conversion option, as of the repurchase date. The cash consideration allocated to the equity component was based on the aggregate cash consideration less the estimated fair value of the liability component. The loss on extinguishment of \$39 million recorded as other income (expense), net, represents the difference between the allocated cash consideration and the carrying value of the liability component, which includes the proportionate amounts of unamortized debt discount and unamortized debt issuance costs in the amount of \$43 million.

## Note Hedge

To minimize the impact of potential economic dilution upon conversion of the 2022 Notes, we entered into convertible note hedge transactions (the “2022 Note Hedge”) with certain investment banks, with respect to our common stock concurrently with the issuance of the 2022 Notes.

	Purchase	Initial Shares	Shares as of December 31, 2020
		(in thousands)	
2022 Note Hedge	\$ 128,017	5,807	1,256

The 2022 Note Hedge covers shares of our common stock at a strike price per share that corresponds to the initial conversion price of the 2022 Notes, subject to adjustment, and are exercisable upon conversion of the 2022 Notes. If exercised, we may elect to receive cash, shares of our common stock, or a combination of cash and shares. The 2022 Note Hedge will expire upon the maturity of the 2022 Notes. The 2022 Note Hedge is intended to reduce the potential economic dilution upon conversion of the 2022 Notes in the event that the fair value per share of our common stock at the time of exercise is greater than the conversion price of the 2022 Notes. The 2022 Note Hedge is a separate transaction and is not part of the terms of the 2022 Notes. Holders of the 2022 Notes will not have any rights with respect to the 2022 Note Hedge. The 2022 Note Hedge does not impact earnings per share, as it was entered into to offset any dilution from the 2022 Notes.

On August 11, 2020, in connection with the 2022 Notes Repurchase, we entered into partial unwind agreements (the “Note Hedge Unwind”) to reduce the number of options corresponding to the principal amount of the 2022 Notes Repurchase. We received \$1.1 billion for the Note Hedge Unwind and the aggregate number of shares underlying the call options under the 2022 Note Hedge was reduced by 3.7 million shares. Consistent with early conversions of the 2022 Notes, proceeds received by the Company from the Note Hedge Unwind were used to settle a portion of the 2022 Notes Repurchase.

## Warrants

	Proceeds	Initial Shares	Strike Price	First Expiration Date	Shares as of December 31, 2020
	(in thousands)	(in thousands)			(in thousands)
2022 Warrants	\$ 54,071	5,807	\$ 203.40	September 1, 2022	1,829

Separately, we entered into warrant transactions with certain investment banks, whereby we sold warrants to acquire, subject to adjustment, the number of shares of our common stock shown in the table above (the “2022 Warrants”). If the average market value per share of our common stock for the reporting period, as measured under the 2022 Warrants, exceeds the strike price of the respective 2022 Warrants, such 2022 Warrants would have a dilutive effect on our earnings per share to the extent we report net income. The 2022 Warrants are separate transactions and are not remeasured through earnings each reporting period. The 2022 Warrants are not part of the 2022 Notes or 2022 Note Hedge.

In connection with the 2022 Notes Repurchase, we also entered into partial unwind agreements to reduce the number of warrants outstanding under the 2022 Warrants by delivering an aggregate of 2.3 million shares of our common stock to the holders of the 2022 Warrants.

According to the terms, the remaining portion of the 2022 Warrants will be net share settled and automatically exercised over a 60 trading day period beginning on the first expiration date as set forth above based on the daily volume-weighted average stock prices over the same 60 trading day period.

We expect to issue additional shares of our common stock in the second half of 2022 upon the automatic exercise of the remaining portion of the 2022 Warrants. The remaining portion of the 2022 Warrants could have a dilutive effect to the extent that the daily volume-weighted average stock prices over a 60 trading day period beginning on September 1, 2022 exceeds the strike price of the 2022 Warrants. Based on the volume-weighted average stock price on December 31, 2020, the total number of shares of our common stock to be issued upon the automatic exercise of the remaining portion of the 2022 Warrants would be approximately 1.1 million. The actual number of shares of our common stock issuable upon the automatic exercise of the remaining portion of the 2022 Warrants, if any, is unknown at this time.

In November 2013, we issued \$575 million of 0% convertible senior notes, which \$413 million principal amount was early converted prior to and the remaining principal amount of \$162 million was cash settled at maturity on November 1, 2018, in accordance with their terms. As a result of the settlements, we recorded an aggregate net reduction to additional paid-in capital, reflecting \$773 million of fair value adjustments to the conversion option settled, offset by a \$767 million benefit from the exercise of the convertible note hedge transactions (“2018 Note Hedge”). The related warrant transactions with certain investment banks (the “2018 Warrants”) were net share settled based on the daily volume-weighted average stock prices over a 60 trading day period beginning on the first expiration date, February 1, 2019. According to the terms of the 2018 Warrants, we issued 4.3 million and 1.3 million shares of our common stock upon the automatic exercise of the 2018 Warrants during the year ended December 31, 2019 and 2018, respectively. The 2018 Warrants were no longer outstanding as of June 30, 2019.

## (12) Accumulated Other Comprehensive Income

The components of accumulated other comprehensive income, net of tax, consist of the following (in thousands):

	December 31,	
	2020	2019
Foreign currency translation adjustment	\$ 87,127	\$ 20,884
Net unrealized gain on investments, net of tax	7,102	4,371
Accumulated other comprehensive income	\$ 94,229	\$ 25,255

Reclassification adjustments out of accumulated other comprehensive income into net income were not material for all periods presented.

**(13) Stockholders' Equity*****Common Stock***

We are authorized to issue a total of 600.0 million shares of common stock as of December 31, 2020. Holders of our common stock are not entitled to receive dividends unless declared by our board of directors. As of December 31, 2020, we had 195.8 million shares of common stock outstanding and had reserved shares of common stock for future issuance as follows (in thousands):

	<b>December 31, 2020</b>
Stock plans:	
Options outstanding	522
RSUs <sup>(1)</sup>	7,362
Shares of common stock available for future grants:	
2012 Equity Incentive Plan <sup>(2)</sup>	28,004
2012 Employee Stock Purchase Plan <sup>(2)</sup>	9,755
<b>Total shares of common stock reserved for future issuance</b>	<b>45,643</b>

(1) Represents the number of shares issuable upon settlement of outstanding RSUs and performance-based RSUs, as discussed under in Note 14.

(2) Refer to Note 14 for a description of these plans.

During the years ended December 31, 2020 and 2019, we issued a total of 4.1 million shares and 5.0 million shares, respectively, from stock option exercises, vesting of RSUs, net of employee payroll taxes and purchases from ESPP. In addition, as described in Note 11, we issued 2.3 million shares of our common stock upon unwind of the 2022 Warrants during the year ended December 31, 2020 and 4.3 million and 1.3 million shares of our common stock upon the automatic exercise of the 2018 Warrants during the year end December 31, 2019 and 2018, respectively.

***Preferred Stock***

Our board of directors has the authority, without further action by stockholders, to issue up to 10 million shares of preferred stock in one or more series. Our board of directors may designate the rights, preferences, privileges and restrictions of the preferred stock, including dividend rights, conversion rights, voting rights, terms of redemption, liquidation preference and number of shares constituting any series or the designation of any series. The issuance of preferred stock could have the effect of restricting dividends on our common stock, diluting the voting power of our common stock, impairing the liquidation rights of our common stock, or delaying or preventing a change in control. At December 31, 2020 and 2019, no shares of preferred stock were outstanding.

**(14) Equity Awards**

We currently have two equity incentive plans, our 2005 Stock Option Plan (the "2005 Plan") and our 2012 Equity Incentive Plan (the "2012 Plan"). Our 2005 Plan was terminated in connection with our initial public offering in 2012 but continues to govern the terms of outstanding stock options that were granted prior to the termination of the 2005 Plan. We no longer grant equity awards pursuant to our 2005 Plan.

Our 2012 Plan provides for the grant of incentive stock options, nonqualified stock options, stock appreciation rights, RSUs, performance-based stock awards and other forms of equity compensation (collectively, "equity awards"). In addition, the 2012 Plan provides for the grant of performance cash awards. Incentive stock options may be granted only to employees. All other equity awards may be granted to employees, including officers, as well as directors and consultants. The share reserve may increase to the extent outstanding stock options under the 2005 Plan expire or terminate unexercised. Prior to January 2019, the share reserve also automatically increased on January 1 of each year, by up to 5% of the total number of shares of common stock outstanding on December 31 of the preceding year as determined by our board of directors. In January 2019, our Board of Directors amended the 2012 Plan to remove the automatic increase provision. Therefore, for the remaining term of the 2012 Plan, the share reserve will not be increased without stockholder approval.

Our 2012 Employee Stock Purchase Plan (the “2012 ESPP”) authorizes the issuance of shares of common stock pursuant to purchase rights granted to our employees. The price at which common stock is purchased under the 2012 ESPP is equal to 85% of the fair market value of our common stock on the first or last day of the offering period, whichever is lower. Offering periods are six months long and begin on February 1 and August 1 of each year. The number of shares of common stock reserved for issuance automatically increases on January 1 of each year until January 1, 2022, by up to 1% of the total number of shares of common stock outstanding on December 31 of the preceding year as determined by our board of directors. Our board of directors elected not to increase the number of shares of common stock reserved for issuance under the 2012 ESPP pursuant to the provision described in the preceding sentence for the years ending December 31, 2021 and December 31, 2020.

### Stock Options

Stock options are exercisable at a price equal to the market value of the underlying shares of common stock on the date of the grant as determined by our board of directors or, for those stock options issued subsequent to our initial public offering, the closing price of our common stock as reported on the New York Stock Exchange on the date of grant. Stock options granted under our 2005 Plan and the 2012 Plan to new employees generally vest 25% one year from the date the requisite service period begins and continue to vest monthly for each month of continued employment over the remaining three years. Options granted generally are exercisable for a period of up to ten years contingent on each holder’s continuous status as a service provider.

A summary of stock option activity was as follows:

	Number of Shares	Weighted- Average Exercise Price Per Share	Weighted- Average Remaining Contractual Term	Aggregate Intrinsic Value
	(in thousands)		(in years)	(in thousands)
Outstanding at December 31, 2018	1,811	\$ 46.55		
Granted	161	\$ 266.31		
Exercised	(640)	\$ 34.61		\$ 138,389
Canceled	(178)	\$ 86.02		
Outstanding at December 31, 2019	1,154	\$ 77.70		
Exercised	(621)	\$ 52.98		\$ 199,094
Canceled	(11)	\$ 75.77		
Outstanding at December 31, 2020	522	\$ 107.14	4.5	\$ 231,456
Vested and expected to vest as of December 31, 2020	503	\$ 100.95	4.4	\$ 225,866
Vested and exercisable as of December 31, 2020	391	\$ 55.98	3.1	\$ 193,374

The total intrinsic value of the options exercised was \$204 million for the year ended December 31, 2018. No stock options were granted during the years ended December 31, 2020 and 2018. The weighted-average grant date fair value per share of options granted was \$266.31 for the year ended December 31, 2019. The total fair value of shares vested was \$7 million, \$8 million and \$12 million for the years ended December 31, 2020, 2019 and 2018, respectively.

The options granted during the year ended December 31, 2019 are options with both service and market-based vesting conditions granted to our Chief Executive Officer in connection with the commencement of his employment during the year. Included in the number of shares canceled during the year ended December 31, 2019 are 171,912 options with both service and market-based vesting conditions granted to our former Chief Executive Officer during the year ended December 31, 2017 in connection with the commencement of his employment which were canceled upon termination of his employment during the year ended December 31, 2019.

As of December 31, 2020, total unrecognized compensation cost, adjusted for estimated forfeitures, related to unvested stock options was approximately \$11 million. The weighted-average remaining vesting period of unvested stock options at December 31, 2020 was 3.9 years.

## RSUs

A summary of RSU activity was as follows:

	Number of Shares <u>(in thousands)</u>	Weighted-Average Grant-Date Fair Value Per Share	Aggregate Intrinsic Value <u>(in thousands)</u>
Outstanding at December 31, 2018	10,202	\$ 121.84	
Granted	5,338	\$ 240.32	
Vested	(5,487)	\$ 126.85	\$ 1,369,918
Forfeited	(1,320)	\$ 145.34	
Outstanding at December 31, 2019	8,733	\$ 185.39	
Granted	3,643	\$ 367.52	
Vested	(4,250)	\$ 181.85	\$ 1,759,996
Forfeited	(764)	\$ 221.84	
Outstanding at December 31, 2020	7,362	\$ 274.23	\$ 4,052,092
Expected to vest as of December 31, 2020	6,408		\$ 3,526,957

RSUs outstanding as of December 31, 2020 were comprised of 7.0 million RSUs with only service conditions and 0.4 million RSUs with both service conditions and performance conditions. RSUs granted with only service conditions under the 2012 Plan to employees generally vest over a four-year period. The total intrinsic value of the RSUs vested was \$932 million for the year ended December 31, 2018.

PRSUs with both service and performance conditions are considered as eligible to vest when approved by the compensation committee of our board of directors in January of the year following the grant. The ultimate number of shares eligible to vest for PRSUs range from 0% to 180% of the target number of shares depending on achievement relative to the performance metric over the applicable period. The PRSUs shares granted in the years ended December 31, 2020 and 2019 will vest 33% in February of the following year and continue to vest quarterly for the remaining two subsequent years, contingent on each holder's continuous status as a service provider on the applicable vesting dates. The number of PRSUs granted shown in the table above reflects the shares that could be eligible to vest at 100% of target for PRSUs and includes adjustments for over or under achievement for PRSUs granted in the prior year. In July 2020, our board of directors approved a modification to the fiscal year 2020 performance target. As a result, we will recognize an incremental expense of \$29 million over the remaining vesting period. We recognized \$70 million, \$68 million, and \$92 million of stock-based compensation expense, net of actual and estimated forfeitures, associated with PRSUs on a graded vesting basis during the year ended December 31, 2020, 2019, and 2018, respectively.

As of December 31, 2020, total unrecognized compensation cost, adjusted for estimated forfeitures, related to unvested RSUs was approximately \$1.8 billion and the weighted-average remaining vesting period was 2.7 years.

## (15) Stock-based Compensation

The following assumptions were used in the Black-Scholes options pricing model to calculate our stock-based compensation on the date of the grant:

	Year Ended December 31,		
	2020	2019	2018
ESPP:			
Expected volatility	30%- 60%	30%-49%	26%-31%
Expected term (in years)	0.5	0.5	0.5
Risk-free interest rate	0.11%-2.04%	2.04%-2.46%	1.15%-2.22%
Dividend yield	— %	— %	— %

*Expected volatility.* The expected volatility is based on the historical volatility of our common stock for a period similar to our expected term.

*Expected term.* We determine the expected term for stock options based on historical experience of similar awards, giving consideration to the contractual terms of the stock-based awards, vesting schedules and expectations of future employee behavior. We estimate the expected term for ESPP using the purchase period.

*Risk-free interest rate.* The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for the expected term of the stock-based award.

*Expected dividend yield.* Our expected dividend yield is zero, as we have not and do not currently intend to declare dividends in the foreseeable future.

## (16) Net Income (Loss) Per Share

Basic net income (loss) per share attributable to common stockholders is computed by dividing net income (loss) attributable to common stockholders by the weighted-average number of shares of common stock outstanding during the period. Diluted net income (loss) per share is computed by dividing net income (loss) attributable to common stockholders by the weighted-average number of shares of common stock outstanding during the period, adjusted for the effects of dilutive shares of common stock, which are comprised of outstanding stock options, RSUs, ESPP obligations, the 2022 Notes and the 2022 and 2018 Warrants. Stock awards with performance conditions are included in dilutive shares to the extent the performance condition is met. The dilutive potential shares of common stock are computed using the treasury stock method or the as-if converted method, as applicable. The effects of outstanding stock options, RSUs, ESPP obligations, 2022 Notes and 2022 and 2018 Warrants are excluded from the computation of diluted net income (loss) per share in periods in which the effect would be antidilutive.

The following tables present the calculation of basic and diluted net income (loss) per share attributable to common stockholders (in thousands, except per share data):

	Year Ended December 31,		
	2020	2019	2018
<b>Numerator:</b>			
Net income (loss)	\$ 118,503	\$ 626,698	\$ (26,704)
<b>Denominator:</b>			
Weighted-average shares outstanding - basic	193,096	186,466	177,846
<b>Weighted-average effect of potentially dilutive securities:</b>			
Common stock options	547	1,109	—
RSUs	4,421	4,897	—
2018 Warrants	—	842	—
2022 Notes	842	2,737	—
2022 Notes settlements	1,931	—	—
2022 Warrants	920	1,172	—
Partial settlement of 2022 Warrants	721	—	—
Weighted-average shares outstanding - diluted	<u>202,478</u>	<u>197,223</u>	<u>177,846</u>
Net income (loss) per share - basic	<u>\$ 0.61</u>	<u>\$ 3.36</u>	<u>\$ (0.15)</u>
Net income (loss) per share - diluted	<u>\$ 0.59</u>	<u>\$ 3.18</u>	<u>\$ (0.15)</u>

Potentially dilutive securities that are not included in the calculation of diluted net income (loss) per share because doing so would be antidilutive are as follows (in thousands):

	Year Ended December 31,		
	2020	2019	2018
Common stock options	—	161	1,811
Restricted stock units	347	413	10,202
ESPP obligations	224	273	318
2018 Warrants	—	—	7,783
2022 Notes	—	—	5,807
2022 Warrants	—	—	5,807
Total potentially dilutive securities	571	847	31,728

#### (17) Income Taxes

The components of income (loss) before income taxes by U.S. and foreign jurisdictions were as follows (in thousands):

	Year Ended December 31,		
	2020	2019	2018
United States	\$ 11,940	\$ (48,558)	\$ (153,290)
Foreign	137,245	115,743	114,266
Total	\$ 149,185	\$ 67,185	\$ (39,024)

The provision for (benefit from) income taxes consists of the following (in thousands):

	Year Ended December 31,		
	2020	2019	2018
<b>Current provision:</b>			
Federal	\$ —	\$ 391	\$ (336)
State	285	204	163
Foreign	53,055	15,657	22,204
	53,340	16,252	22,031
<b>Deferred provision:</b>			
Federal	(5,241)	(3,481)	(2,026)
State	(1,160)	(882)	(377)
Foreign	(16,257)	(571,402)	(31,948)
	(22,658)	(575,765)	(34,351)
Provision for (benefit from) income taxes	\$ 30,682	\$ (559,513)	\$ (12,320)

The effective income tax rate differs from the federal statutory income tax rate applied to the income (loss) before income taxes due to the following (in thousands):

	Year Ended December 31,		
	2020	2019	2018
Tax computed at U.S. federal statutory rate	\$ 31,329	\$ 14,109	\$ (8,195)
State taxes, net of federal benefit	210	122	98
Tax rate differential for international subsidiaries	1,342	(5,005)	(41,429)
Stock-based compensation	(157,237)	(108,023)	(93,073)
Tax credits	(63,716)	(51,237)	(44,695)
Foreign restructuring and amortization	7,319	—	(625,292)
Non-deductible expenses	3,601	3,112	1,757
Tax effects associated with Topic 606	—	—	(23,073)
Executive Compensation	24,503	19,289	8,308
Valuation allowance	183,331	(431,880)	813,274
Provision for (benefit from) income taxes	<u>\$ 30,682</u>	<u>\$ (559,513)</u>	<u>\$ (12,320)</u>

Significant components of our deferred tax assets are shown below (in thousands). A valuation allowance has been recognized to offset our deferred tax assets, as necessary, by the amount of any tax benefits that, based on evidence, are not expected to be realized.

	December 31,	
	2020	2019
Deferred tax assets:		
Net operating loss carryforwards	\$ 882,256	\$ 740,141
Credit carryforwards	235,572	171,856
Lease liability	114,639	108,224
Depreciation and amortization	635,904	577,599
Other	102,926	91,149
Total deferred tax assets	<u>1,971,297</u>	<u>1,688,969</u>
Less valuation allowance	<u>(1,128,936)</u>	<u>(918,596)</u>
	842,361	770,373
Deferred tax liabilities:		
Right of use asset	(105,641)	(101,091)
Other	(70,805)	(73,818)
Net deferred tax assets	<u>\$ 665,915</u>	<u>\$ 595,464</u>

The unremitted earnings of our foreign subsidiaries are not considered indefinitely reinvested, except in certain designated jurisdictions in which the resident entity is a service provider that is not expected to generate substantial amounts of cash in excess of what may be reinvested by the local entity. We have not provided for state income or withholding taxes on the undistributed earnings of foreign subsidiaries which are considered indefinitely invested outside of the U.S. The amount of unrecognized deferred tax liability on these undistributed earnings is not material as of December 31, 2020.

As of December 31, 2020, we had U.S. federal net operating loss and federal tax credit carryforwards of approximately \$3.4 billion and \$184 million, respectively. The federal tax credits and a portion of the federal net operating loss carryforwards will begin to expire in 2024 if not utilized. In addition, as of December 31, 2020, we had state net operating loss and state tax credit carryforwards of approximately \$2.0 billion and \$133 million, respectively. The state net operating loss will begin to expire in 2021 if not utilized, however the tax effected amount due to expire in 2021 is immaterial. State tax credits and a portion of the federal net operating loss carryforwards can be carried forward indefinitely. Utilization of our net operating loss and credit carryforwards may be subject to annual limitation due to the ownership change limitations provided by the Internal Revenue Code and similar state provisions. Such an annual limitation could result in the expiration of the net operating loss and tax credit carryforwards before utilization.

We maintain a full valuation allowance against our U.S. deferred tax assets as of December 31, 2020. We regularly assess the need for a valuation allowance against our deferred tax assets. In making that assessment, we consider both positive and negative evidence related to the likelihood of realization of the deferred tax assets to determine, based on the weight of available evidence, whether it is more likely than not that some or all of the deferred tax assets will not be realized. Due to cumulative losses over recent years and based on all available evidence, we have determined that it is more likely than not that our U.S. deferred tax assets will not be realized as of December 31, 2020.

We recognized an income tax benefit of \$574 million due to the release of the valuation allowance on the Irish deferred tax assets for the year ended December 31, 2019. These Irish deferred tax assets were created primarily as a result of the difference between the tax basis in our Irish subsidiary and the cost reported in our consolidated financial statements resulting from the transfer of intangible assets to the Irish subsidiary as part of our foreign restructuring in 2018. Management applied significant judgment in assessing the positive and negative evidence available in the determination of the amount of deferred tax assets that were more-likely-than-not to be realized in the future. The \$210 million increase in the 2020 valuation allowance was primarily attributable to an increase in deferred tax assets related to net operating losses. The \$424 million decrease in the 2019 valuation allowance was primarily attributable to the release of the valuation allowance on the Irish deferred tax assets. The \$760 million increase in the 2018 valuation allowance was primarily attributable to an increase of approximately \$590 million in deferred tax assets that are not realizable related to our foreign restructuring completed during 2018 giving rise to foreign amortizable assets. To the extent sufficient positive evidence becomes available, we may release a portion, or all, of our valuation allowance in one or more future periods. A release of the valuation allowance, if any, would result in the recognition of certain deferred tax assets and a material income tax benefit for the period in which such release is recorded.

A reconciliation of the beginning and ending balance of total unrecognized tax benefits is as follows (in thousands):

	Year Ended December 31,		
	2020	2019	2018
Balance, beginning period	\$ 36,789	\$ 27,591	\$ 27,648
Tax positions taken in prior period:			
Gross increases	5,775	1,516	3,721
Gross decreases	(1,051)	—	(2,896)
Tax positions taken in current period:			
Gross increases	38,812	7,682	5,796
Lapse of statute of limitations	—	—	(1,078)
Settlements	—	—	(5,600)
Balance, end of period	<u>\$ 80,325</u>	<u>\$ 36,789</u>	<u>\$ 27,591</u>

As of December 31, 2020, we had gross unrecognized tax benefits of approximately \$80 million, of which \$20 million would impact the effective tax rate, if recognized. We recognize accrued interest and penalties related to unrecognized tax benefits as income tax expense. Accrued interest and penalties included in our liability related to unrecognized tax benefits were \$2 million and \$1 million at December 31, 2020 and 2019, respectively. The amount of unrecognized tax benefits could be reduced upon expiration of the applicable statutes of limitations. The potential reduction in unrecognized tax benefits during the next 12 months is not expected to be material. Interest and penalties accrued on these uncertain tax positions are recognized as income tax expense and will be released upon the expiration of the statutes of limitations. These amounts are also not material for any periods presented.

We are subject to taxation in the United States and foreign jurisdictions. As of December 31, 2020, our tax years 2004 to 2019 remain subject to examination in most jurisdictions.

Governments in certain countries where we do business have enacted legislation in response to the COVID-19 pandemic, including the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”) enacted by the United States on March 27, 2020. We are continuing to analyze these legislative developments which are not material for the year ended December 31, 2020.

There are differing interpretations of tax laws and regulations, and as a result, disputes may arise with tax authorities involving issues of the timing and amount of deductions and allocations of income among various tax jurisdictions. We periodically evaluate our exposures associated with our tax filing positions. We believe that adequate amounts have been reserved for any adjustments that may ultimately result from these examinations, and we do not anticipate a significant impact to our gross unrecognized tax benefits within the next 12 months related to these years. Although the timing of the resolution, settlement, and closure of any audit is highly uncertain, it is reasonably possible that the balance of gross unrecognized tax benefits could significantly change in the next 12 months. However, given the number of years that remain subject to examination, we are unable to estimate the full range of possible adjustments to the balance of gross unrecognized tax benefits.

## (18) Commitments and Contingencies

### *Operating Leases*

For some of our offices and data centers, we have entered into non-cancelable operating lease agreements with various expiration dates through 2035. Certain lease agreements include options to renew or terminate the lease, which are not reasonably certain to be exercised and therefore are not factored into our determination of lease payments.

Total operating lease costs was \$83 million and \$64 million, excluding short-term lease costs, variable lease costs and sublease income each of which were immaterial, for each of the years ended December 31, 2020 and 2019, respectively.

Total cash paid for amounts included in the measurement of operating lease liabilities was \$59 million and \$44 million for the years ended December 31, 2020 and 2019, respectively. Operating lease liabilities arising from obtaining operating right-of-use assets was \$112 million and \$115 million for the years ended December 31, 2020 and 2019, respectively.

As of December 31, 2020, the weighted-average remaining lease term is 8.5 years, and the weighted-average discount rate is 3.5%.

Maturities of operating lease liabilities as of December 31, 2020 are presented in the table below (in thousands):

Years Ending December 31,		
2021	\$	87,832
2022		86,128
2023		79,906
2024		62,211
2025		53,818
Thereafter		213,012
Total operating lease payments		582,907
Less: imputed interest		(87,892)
Present value of operating lease liabilities	\$	495,015

In addition to the amounts above, as of December 31, 2020, we have operating leases, primarily for offices, that have not yet commenced with undiscounted cash flows of \$342 million. These operating leases will commence between 2021 and 2022 with lease terms of 4 to 14 years.

### ***Other Contractual Commitments***

Other contractual commitments consist of data center and IT operations and sales and marketing activities related to our daily business operations. Future minimum payments under our non-cancelable purchase commitments as of December 31, 2020 are presented in the table below (in thousands):

Years Ending December 31,	<b>Purchase Obligations <sup>(1)</sup></b>
2021	\$ 119,990
2022	91,156
2023	31,145
2024	23,444
2025	13,494
Thereafter	4,001
<b>Total</b>	<b>\$ 283,230</b>

(1) Not included in the table above are certain purchase commitments related to our future annual Knowledge user conferences and other customer or sales conferences to be held in 2022 and future years. If we had canceled these contractual commitments as of December 31, 2020 we would have been obligated to pay cancellation penalties of approximately \$36 million in aggregate.

In addition to the amounts above, the repayments of our 2022 Notes and 2030 Notes with an aggregate principal amount of \$169 million and \$1.5 billion are due on June 1, 2022 and September 1, 2030, respectively. Refer to Note 11 for further information regarding our Notes. Further, \$20 million of unrecognized tax benefits have been recorded as liabilities as of December 31, 2020.

### ***Letters of Credit***

As of December 31, 2020, we had letters of credit in the aggregate amount of \$21 million, primarily in connection with our customer contracts and operating leases.

### ***Legal Proceedings***

From time to time, we are party to litigation and other legal proceedings in the ordinary course of business. While the results of any litigation or other legal proceedings are uncertain, management does not believe the ultimate resolution of any pending legal matters is likely to have a material adverse effect on our financial position, results of operations or cash flows, except for those matters for which we have recorded a loss contingency. We accrue for loss contingencies when it is both probable that we will incur the loss and when we can reasonably estimate the amount of the loss or range of loss.

Generally, our subscription agreements require us to defend our customers for third-party intellectual property infringement and other claims. Any adverse determination related to intellectual property claims or other litigation could prevent us from offering our services and adversely affect our financial condition and results of operations.

### ***Indemnification Provisions***

Our agreements include provisions indemnifying customers against intellectual property and other third-party claims. In addition, we have entered into indemnification agreements with our directors, executive officers and certain other officers that will require us, among other things, to indemnify them against certain liabilities that may arise as a result of their affiliation with us. We have not incurred any costs as a result of such indemnification obligations and have not recorded any liabilities related to such obligations in the consolidated financial statements.

**(19) Information about Geographic Areas and Products**

Revenues by geographic area, based on the location of our users, were as follows for the periods presented (in thousands):

	Year Ended December 31,		
	2020	2019	2018
North America <sup>(1)</sup>	\$ 2,959,827	\$ 2,276,549	\$ 1,725,255
EMEA <sup>(2)</sup>	1,132,417	865,661	654,677
Asia Pacific and other	427,240	318,227	228,884
Total revenues	<u>\$ 4,519,484</u>	<u>\$ 3,460,437</u>	<u>\$ 2,608,816</u>

Property and equipment, net by geographic area were as follows (in thousands):

	December 31,	
	2020	2019
Property and equipment, net:		
North America <sup>(3)</sup>	\$ 394,215	\$ 269,754
EMEA <sup>(2)</sup>	172,136	118,399
Asia Pacific and other	93,290	79,932
Total property and equipment, net	<u>\$ 659,641</u>	<u>\$ 468,085</u>

(1) Revenues attributed to the United States were 94% of North America revenues for each of the years ended December 31, 2020, 2019 and 2018.

(2) Europe, the Middle East and Africa (“EMEA”)

(3) Property and equipment, net attributed to the United States were approximately 78% and 73% of property and equipment, net attributable to North America as of December 31, 2020 and 2019, respectively.

Subscription revenues consist of the following (in thousands):

	Year Ended December 31,		
	2020	2019	2018
Digital workflow products	\$ 3,749,118	\$ 2,810,887	\$ 2,111,702
ITOM products	536,679	444,192	309,611
Total subscription revenues	<u>\$ 4,285,797</u>	<u>\$ 3,255,079</u>	<u>\$ 2,421,313</u>

Our digital workflow products include the Now Platform, IT Service Management, IT Business Management, DevOps, IT Asset Management, Security Operations, Governance, Risk and Compliance, HR Service Delivery, Safe Workplace Suite of applications, Workplace Service Delivery, Legal Service Delivery, Customer Service Management, Field Service Management, Connected Operations, App Engine and IntegrationHub, and are generally priced on a per user basis. Our ITOM products are generally priced on a per node (physical or virtual server) basis. In previously issued consolidated financial statements, we referred to digital workflow products as “service management products.”

**(20) Subsequent Events**

On January 8, 2021, we completed the acquisition of Element AI Inc., a Canadian company, by acquiring all issued and outstanding shares for approximately \$230 million, subject to certain customary adjustments, in an all-cash transaction to accelerate artificial intelligence capabilities across our Now Platform. We are currently evaluating the purchase price allocation for this transaction.

**ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

None.

## **ITEM 9A. CONTROLS AND PROCEDURES**

### **(a) Evaluation of Disclosure Controls and Procedures**

Regulations under the Exchange Act require public companies, including our company, to maintain “disclosure controls and procedures,” which are defined in Rule 13a-15(e) and Rule 15d-15(e) to mean a company’s controls and other procedures that are designed to ensure that information required to be disclosed in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required or necessary disclosures. In designing and evaluating our disclosure controls and procedures, management recognizes that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. Our Chief Executive Officer and Chief Financial Officer have concluded, based on the evaluation of the effectiveness of the disclosure controls and procedures by our management as of December 31, 2020, that our disclosure controls and procedures were effective at the reasonable assurance level for this purpose.

### **(b) Management’s Report on Internal Control Over Financial Reporting**

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles.

Our management, under the supervision of our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control—Integrated Framework (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that our internal control over financial reporting was effective as of December 31, 2020.

The effectiveness of our internal control over financial reporting as of December 31, 2020 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report, which is included in Item 8 of this Annual Report on Form 10-K.

### **(c) Changes in Internal Control over Financial Reporting**

Regulations under the Exchange Act require public companies, including our company, to evaluate any change in our “internal control over financial reporting” as such term is defined in Rule 13a-15(f) and Rule 15d-15(f) of the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during our most recently completed fiscal quarter. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer did not identify any change in our internal control over financial reporting during the most recently completed fiscal quarter that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## **ITEM 9B. OTHER INFORMATION**

None.

### PART III

#### ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this item will be included in an amendment to this Annual Report on Form 10-K or incorporated by reference from our definitive proxy statement to be filed pursuant to Regulation 14A.

#### ITEM 11. EXECUTIVE COMPENSATION

The information required by this item will be included in an amendment to this Annual Report on Form 10-K or incorporated by reference from our definitive proxy statement to be filed pursuant to Regulation 14A.

#### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this item will be included in an amendment to this Annual Report on Form 10-K or incorporated by reference from our definitive proxy statement to be filed pursuant to Regulation 14A.

#### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

The information required by this item will be included in an amendment to this Annual Report on Form 10-K or incorporated by reference from our definitive proxy statement to be filed pursuant to Regulation 14A.

#### ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information required by this item will be included in an amendment to this Annual Report on Form 10-K or incorporated by reference from our definitive proxy statement to be filed pursuant to Regulation 14A.

### PART IV

#### ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

The following documents are filed as a part of this Annual Report on Form 10-K:

*(a) Financial Statements*

The information concerning our financial statements, and Report of Independent Registered Public Accounting Firm required by this Item is incorporated by reference herein to the section of this Annual Report on Form 10-K in Item 8, entitled "Consolidated Financial Statements and Supplementary Data."

*(b) Financial Statement Schedules*

All schedules have been omitted because the required information is not present or not present in amounts sufficient to require submission of the schedules, or because the information required is included in Item 8, entitled the "Consolidated Financial Statements and Supplementary Data."

*(c) Exhibits*

The list of exhibits filed with this report is set forth in the Exhibit Index following the signature pages and is incorporated herein by reference.

**UK Participants:**

**Note that by accepting this Enrollment/Change Form on the Fidelity Brokerage Services LLC enrollment page you hereby agree to accept all liability for secondary Class 1 NICs that may be payable by the Company and/or the Employer in connection with your participation in the ESPP and any event giving rise to Tax-Related Items. You further agree to the “Election To Transfer the Employer’s National Insurance Liability to the Employee” agreement with the Company in the form attached to this Enrollment /Change Form below (the “Joint Election Agreement”) as if you had manually signed and returned the Joint Election Agreement to the Company.**

**SERVICENOW, INC. (the “Company”)**

**Enrollment/Change Form**

**2012 Employee Stock Purchase Plan (“ESPP”)**

(Capitalized terms not defined in this form shall have the meaning set forth in the ESPP.)

<p>Section 1: <b>Actions</b></p>	<p><b>Check Desired Action: And Complete Sections</b>                  Enroll in the ESPP 2 + 3 + 4 + 1                  Change Contribution Percentage 2 + 4 + 1                  Discontinue Contributions 2 + 5 + 1</p>	
<p>Section 2: <b>Personal Data</b></p>	<p>Name: _____                  Home Address: _____                  Social Security / Identification No.: _____</p>	<p>Department: _____</p>
<p>Section 3: <b>Enroll</b></p>	<p>I hereby elect to participate in the ESPP, effective at the beginning of the next Offering Period. I elect to purchase shares of the Common Stock of the Company subject to the terms and conditions of the ESPP and this Enrollment/Change Form, including any applicable country-specific provisions in the Appendix attached hereto (together, the “Enrollment/Change Form”). I understand that shares of Common Stock purchased on my behalf will be issued in street name and deposited directly into my brokerage account with Fidelity Brokerage Services LLC or its affiliates. I hereby agree to take all steps, and sign all forms, required to establish an account with Fidelity Brokerage Services LLC or its affiliates for this purpose.</p> <p>My participation will continue as long as I remain eligible, unless I withdraw from the ESPP by filing a new Enrollment/Change Form with the Company. If I transfer from the Company to a Participating Corporation or visa-versa or between Participating Corporations, my contributions as of the date of transfer will be used to purchase shares on the next Purchase Date, unless I choose to have such funds refunded to me. I understand that I cannot resume participation following my transfer until the start of the next Offering Period and must timely file a new enrollment form to do so. I understand that if I am a U.S. taxpayer, I must notify the Company of any disposition of shares of Common Stock purchased under the ESPP.</p>	

<p>Section 4: <b>Elect Contribution Percentage</b></p>	<p>I hereby authorize the Company to withhold from each of my paychecks such amount as is necessary to equal at the end of the applicable Offering Period ___% of my Compensation (as defined in the ESPP) paid during such Offering Period as long as I continue to participate in the ESPP. That amount will be applied to the purchase of shares of the Company's Common Stock pursuant to the ESPP. If I am paid in a currency other than U.S. dollars, my contributions will be converted into U.S. dollars prior to the purchase of the Common Stock. <b>The percentage must be a whole number (from 1%, up to a maximum of 15%)</b></p> <p>Please -increase -decrease my contribution percentage.</p> <p><b>Note:</b> You may change your contribution percentage only once within a Purchase Period to be effective during such Purchase Period and such change can only be to decrease your contribution percentage. <u>An increase in your contribution percentage can only take effect with the next Offering Period.</u> Each change will become effective as soon as reasonably practicable after the form is received by the Company.</p>
<p>Section 5: <b>Discontinue Contributions</b></p>	<p>I hereby elect to <u>stop my contributions under the ESPP</u>, effective as soon as reasonably practicable after this form is received by the Company. Please refund all contributions to me in cash, without interest OR use my contributions to purchase shares on the next Purchase Date. <b>I understand that I cannot resume participation until the start of the next Offering Period and must timely file a new enrollment form to do so.</b></p>

**Section 6:  
Responsibility for Taxes**

I acknowledge that, regardless of any action the Company or, if different, my employer (the "Employer") takes with respect to any or all income tax, social insurance, payroll tax, fringe benefit, payment on account or other tax-related items related to my participation in the ESPP and legally applicable to me or deemed by the Company or the Employer to be an appropriate charge to me even if technically due by the Company or the Employer ("Tax-Related Items"), I hereby acknowledge and agree that the ultimate liability for all Tax-Related Items is, and remains, my responsibility and may exceed the amount actually withheld by the Company, the Employer and/or the trustee, if any. I further acknowledge and agree that the Company and/or the Employer (a) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of my participation in the ESPP, including, but not limited to, the grant or exercise of the options, the subsequent sale of shares of Common Stock acquired under the ESPP and the receipt of any dividends; and (b) do not commit to and are under no obligation to structure the terms of the grant or any aspect of the options to reduce or eliminate my liability for Tax-Related Items or achieve any particular tax result. Further, if I have become subject to tax in more than one jurisdiction, I acknowledge that the Company, the Employer (or former employer, as applicable) and/or any trustee may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

Prior to the relevant taxable or taxable withholding event, as applicable, I agree to pay or make adequate arrangements satisfactory to the Company and/or the Employer, as applicable, to satisfy all Tax-Related Items. In this regard, I authorize the Company and/or the Employer, or their respective agents, which are qualified to deduct tax at source, to withhold all applicable Tax-Related Items by one or a combination of the following: (i) withholding from my wages or other cash compensation paid to me by the Company and/or the Employer; (ii) withholding from the proceeds of the sale of shares of Common Stock purchased under the ESPP either through a voluntary sale or through a mandatory sale arranged by the Company (on my behalf pursuant to this authorization); (iii) withholding in shares of Common Stock to be issued upon purchase; and/or (iv) requiring that I pay the Tax-Related Items to the Company or my employer in the form of cash, check or wire transfer.

The Company may withhold or account for Tax-Related Items by considering applicable minimum statutory withholding amounts or other applicable withholding rates, including the maximum rate in my jurisdiction(s), in which case I may receive a refund of any over-withheld amount in cash and will have no entitlement to the equivalent in shares of Common Stock. If the obligation for Tax-Related Items is satisfied by withholding in shares of Common Stock, for tax purposes, I am deemed to have been issued the full number of shares of Common Stock subject to the options, notwithstanding that a number of the shares of Common Stock are held back solely for the purpose of paying the Tax-Related Items due as a result of any aspect of my participation in the ESPP.

Finally, I shall pay to the Company or the Employer any amount of any Tax-Related Items that the Company or the Employer may be required to withhold or account for as a result of my participation in the ESPP or my purchase of shares of Common Stock that cannot be satisfied by the means previously described. The Company may refuse to allow me to purchase shares of Common Stock and/or refuse to deliver shares of Common Stock or proceeds of the sale of shares of Common Stock if I fail to comply with my obligations in connection with the payment of Tax-Related Items.

<p>Section 7: <b>No Advice Regarding Grant</b></p>	<p>The Company is not providing any tax, legal or financial advice, nor is the Company making any recommendations regarding my participation in the ESPP, or my acquisition or sale of the underlying shares of Common Stock. I am hereby advised to consult with my own personal tax, legal and financial advisors regarding my participation in the ESPP before taking any action related to the ESPP</p>
<p>Section 8: <b>Electronic Delivery and Acceptance.</b></p>	<p>The Company may, in its sole discretion, decide to deliver any documents related to current or future participation in the ESPP by electronic means. I hereby consent to receive such documents by electronic delivery and agree to participate in the ESPP through an on-line or electronic system established and maintained by the Company or a third party designated by the Company</p>
<p>Section 9: <b>Severability</b></p>	<p>The provisions of this Enrollment/Change Form are severable and if any one or more provisions are determined to be illegal or otherwise unenforceable, in whole or in part, the remaining provisions shall nevertheless be binding and enforceable.</p>
<p>Section 10: <b>Appendix</b></p>	<p>Notwithstanding any provisions in this Enrollment/Change Form, the right to participate in the ESPP shall be subject to any special terms and conditions set forth in any Appendix to this Enrollment/Change Form for my country. Moreover, if I relocate to another country, the special terms and conditions for such country will apply to me, to the extent the Company determines that the application of such terms and conditions is necessary or advisable for legal or administrative reasons. The Appendix constitutes part of this Enrollment/Change Form.</p>
<p>Section 11: <b>Imposition of Other Requirements</b></p>	<p>The Company, at its option, may elect to terminate, suspend or modify the terms of the ESPP at any time, to the extent permitted by the ESPP. I agree to be bound by such termination, suspension or modification regardless of whether notice is given to me of such event, subject in any case to my right to timely withdraw from the ESPP in accordance with the ESPP withdrawal procedures then in effect. In addition, the Company reserves the right to impose other requirements on my participation in the ESPP, on any shares of Common Stock purchased under the ESPP, to the extent the Company determines it is necessary or advisable for legal or administrative reasons, and to require me to sign any additional agreements or undertakings that may be necessary to accomplish the foregoing.</p>
<p>Section 12: <b>Governing Law</b></p>	<p>The interpretation, performance and enforcement of this Enrollment/Change Form shall be governed by the laws of the State of Delaware without resort to that State's conflict-of-laws rules. For purposes of litigating any dispute that arises directly or indirectly from the relationship of the parties evidenced by this grant or the Enrollment/Change Form, the parties hereby submit to and consent to the exclusive jurisdiction of the State of California and agree that such litigation shall be conducted only in the courts of San Jose, California, or the federal courts for the United States for the Northern District of California, and no other courts, where this grant is made and/or to be performed.</p>
<p>Section 13: <b>Waiver</b></p>	<p>I acknowledge that a waiver by the Company of breach of any provision of this Enrollment/Change Form shall not operate or be construed as a waiver of any other provision of this Enrollment/Change Form or of any subsequent breach by me or any other Participant.</p>

**Section 14:  
Acknowledgment and  
Signature**

I acknowledge that I have received a copy of the ESPP and of the Prospectus (which summarizes the major features of the ESPP). I have read the Prospectus and my signature below (or my acceptance of this Enrollment/Change Form on the Fidelity Brokerage Services LLC enrollment page) indicates that I hereby agree to be bound by the terms of the ESPP and this Enrollment/Change Form

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

## APPENDIX

### SERVICENOW, INC. 2012 EMPLOYEE STOCK PURCHASE PLAN COUNTRY SPECIFIC PROVISIONS FOR NON-U.S. EMPLOYEES

I understand that this Appendix includes special terms and conditions applicable to me if I reside outside the United States or am otherwise subject to the laws of a country other than the United States. Unless otherwise stated, these terms and conditions are in addition to those set forth in the Enrollment/Change Form. Any capitalized term used in this Appendix without definition shall have the meaning ascribed to it in the Enrollment/Change Form or the ESPP, as applicable.

I further understand that this Appendix also includes information relating to exchange control, securities laws and other issues of which I should be aware with respect to my participation in the ESPP. The information is based on the laws in effect in the respective countries as of April 2020.<sup>[1]</sup> Such laws are often complex and change frequently. As a result, I understand that the Company strongly recommends that I not rely on the information herein as the only source of information relating to the consequences of my participation in the ESPP because the information may be out of date at the time that I purchase shares of Common Stock or sell shares of Common Stock purchased under the ESPP.

In addition, the information contained herein is general in nature and may not apply to my particular situation and the Company is not in a position to assure me of any particular result. Accordingly, I should seek appropriate professional advice as to how the relevant laws in my country may apply to my situation.

Finally, I understand that if I am a citizen or resident of a country other than the one in which I am currently working and/or residing, transfer employment and/or residency after enrolling in the ESPP, or am considered a resident of another country for local law purposes, the information contained herein may not apply to me, and the Company shall, in its discretion, determine to what extent the terms and conditions contained herein shall apply.

#### **All Participants Outside the U.S.**

1. Nature of Grant. By enrolling and participating in the ESPP, I acknowledge, understand and agree that:
  - a. the ESPP is established voluntarily by the Company and it is discretionary in nature;
  - b. the grant of the option is exceptional, voluntary and occasional and does not create any contractual or other right to receive future options to purchase shares of Common Stock, or benefits in lieu of options, even if options have been granted in the past;
  - c. all decisions with respect to future options or other grants, if any, will be at the sole discretion of the Company;
  - d. the grant of the option and my participation in the ESPP shall not create a right to employment or be interpreted as forming or amending an employment or service contract with the Company, the Employer or any Subsidiary and shall not interfere with the ability of the Company, the Employer or any Subsidiary to terminate my employment relationship (if any);
  - e. I am voluntarily participating in the ESPP;

- f. the ESPP and the shares of Common Stock purchased under the ESPP and the income and value of same, are extraordinary items that do not constitute compensation of any kind for services of any kind rendered to the Company or Employer, and which is outside the scope of my employment or service contract, if any;
- g. the ESPP and the shares of Common Stock subject to the ESPP and the income and value of same are not intended to replace any pension rights or compensation;
- h. the ESPP and the shares of Common Stock subject to the ESPP and the income and value of same, are not part of normal or expected compensation for purposes of calculating any severance, resignation, termination, redundancy, dismissal, end-of-service payments, bonuses, long-service awards, pension or retirement or welfare benefits or similar payments;
- i. the future value of the underlying shares of Common Stock is unknown, indeterminable and cannot be predicted with certainty;
- j. the value of the shares of Common Stock purchased under the ESPP may increase or decrease in the future, even below the purchase price;
- k. in the event of termination of my employment (for any reason whatsoever, whether or not later found to be invalid or in breach of employment laws in the jurisdiction where I am employed or the terms of my employment agreement, if any), except for certain leave of absences set forth in Section 12 of the ESPP, my right to participate in the ESPP will terminate effective as of the date I cease to actively provide services and will not be extended by any notice period (e.g., employment would not include any contractual notice or any period of “garden leave” or similar period mandated under employment laws in the jurisdiction where I am employed or the terms of my employment agreement, if any); the Committee shall have exclusive discretion to determine when I am no longer actively employed for purposes of my option;
- l. unless otherwise provided in the ESPP or by the Company in its discretion, the option to purchase shares of Common Stock and the benefits evidenced by this Enrollment/Change Form do not create any entitlement to have the ESPP or any such benefits granted thereunder, transferred to, or assumed by, another company nor to be exchanged, cashed out or substituted for, in connection with any corporate transaction affecting the shares of the Company;
- m. unless otherwise agreed with the Company, the ESPP and any shares of Common Stock acquired thereunder, and the income and value of same, are not granted as consideration for, or in connection with, the service I may provide as a director of a Subsidiary;
- n. I acknowledge and agree that neither the Company, the Employer nor any Subsidiary, shall be liable for any foreign exchange rate fluctuation between my local currency and the U.S. dollar that may affect the value of the shares of Common Stock or any amounts due pursuant to the purchase of the shares or the subsequent sale of any shares of Common Stock purchased under the ESPP; and
- o. no claim or entitlement to compensation or damages shall arise when I withdraw from the ESPP due to my termination of employment (for any reason whatsoever, whether or not later found to be invalid or in breach of employment laws in the jurisdiction where I am employed or the terms of my employment agreement, if any) and in consideration of the grant of the option and the issuance of shares of Common Stock under the ESPP, I agree not to institute any claim against the Company, its Subsidiaries or the Employer.

2. **Data Privacy Information and Consent.** *The Company is located at 2225 Lawson Lane, Santa Clara, California 95054 U.S.A. and grants options to employees of the Company and its Subsidiaries and affiliates, at its sole discretion. If I would like to participate in the ESPP, I should review the following information about the Company's data processing practices.*
- a. ***Data Collection and Usage.*** *The Company (as well as my Employer and the Company's other Subsidiaries) collects, processes and uses personal data of employees, including name, home address, email address and telephone number, date of birth, social insurance, passport or other identification number, salary, citizenship, job title, any shares of Common Stock or directorships held in the Company, and details of all options canceled, vested, or outstanding in my favor, which the Company receives from me or the Employer. If the Company offers me an option under the ESPP, then the Company will collect my personal data for purposes of allocating shares of Common Stock and implementing, administering and managing the ESPP. The Company relies on my explicit consent for the processing of my personal data in this manner and as otherwise set out below.*
  - b. ***Stock Plan Administration Service Providers.*** *The Company transfers employee data amongst its' Subsidiaries and affiliates and also to Fidelity Brokerage Services LLC or its affiliates ("Fidelity") an independent service provider based in the United States which assists the Company with the implementation, administration and management of the ESPP. In the future, the Company may select a different service provider and share my data with another company that serves in a similar manner. By participating in the ESPP, I give my consent to such transfer of data, or to such alternative third party service provider that the Company may select in the future. The Company's service provider will open an account for me to receive and trade shares of Common Stock. I will be asked to agree on separate terms and data processing practices with the service provider, which is a condition of my ability to participate in the ESPP.*
  - c. ***International Data Transfers.*** *The Company and its service providers are based in the United States. If I am outside the United States, I should note that my country has enacted data privacy laws that are different from the United States. By participating in the ESPP, I give my consent to the transfer of my data to the United States, or to such other jurisdiction as may be necessary for the delivery of the ESPP and administration thereof.*
  - d. ***Data Retention.*** *The Company will use my personal data only as long as is necessary to implement, administer and manage my participation in the ESPP or as required to comply with, or satisfy, any legal or regulatory obligations, including under tax and security laws. The Company may also keep data longer as part of my normal employee file and record, based on such retention policy as may be notified from time to time.*
  - e. ***Voluntariness and Consequences of Consent Denial or Withdrawal.*** *My participation in the ESPP and my grant of consent is purely voluntary. I may deny or withdraw my consent at any time. If I do not consent, or if I withdraw my consent, I cannot participate in the ESPP. This would not affect my salary as an employee or my career; I would merely forfeit the opportunities associated with the ESPP.*

*f. **Data Subject Rights.** I may have a number of rights under data privacy laws in my particular country. Depending on where I am based, my rights may include the right to (a) to request access or copies of personal data the Company's processes, (b) rectification of incorrect data, (c) deletion of data, (d) restrictions on processing, (e) portability of data, (f) lodge complaints with competent authorities in my country, and/or (g) a list with the names and addresses of any potential recipients of my personal data. To receive clarification regarding my rights or to exercise my rights please contact Stock Plan Administration.*

*If I agree with the data processing practices as described in this notice, I should declare my consent by accepting this Enrollment/Change Form on the Fidelity enrollment page.*

3. Language. I acknowledge that I am proficient in the English language, or have consulted with an advisor who is sufficiently proficient in English, so as to allow me to understand the terms and conditions of this Enrollment/Change Form. If I have received this Enrollment/Change Form or any other document related to the ESPP translated into a language other than English and if the meaning of the translated version is different than the English version, the English version will control.
4. Insider Trading Restrictions / Market Abuse Laws. I acknowledge I may be subject to insider trading restrictions and/or market abuse laws based on the exchange on which the shares of Common Stock are listed and in applicable jurisdictions, including my country and the designated broker's country, which may affect my ability to accept, acquire, sell or otherwise dispose of the shares of Common Stock, rights to the shares of Common Stock (i.e., options) or rights linked to the value of the shares of Common Stock under the ESPP during such times as I am considered to have "inside information" regarding the Company (as defined by the laws in the applicable jurisdictions). Local insider trading laws and regulations may prohibit the cancellation or amendment of orders I placed before I possessed inside information. Furthermore, I could be prohibited from (i) disclosing the inside information to any third party, which may include fellow employees and (ii) "tipping" third parties or causing them otherwise to buy or sell securities. Any restrictions under these laws or regulations are separate from and in addition to any restrictions that may be imposed under any applicable Company insider trading policy. I acknowledge that it is my responsibility to comply with any applicable restrictions and I am encouraged to speak to my personal legal advisor for further details regarding any applicable insider-trading and/or market-abuse laws in my country.
5. Foreign Asset/Account Reporting. I acknowledge that depending on my country of residence, I may be subject to certain foreign asset and/or account reporting requirements which may affect my ability to acquire or hold shares of Common Stock under the ESPP in a brokerage or bank account outside of my country of residence. Further, I may be required to report such amounts, assets or transactions to the tax or other authorities in my country. I also may be required to repatriate sale proceeds or other funds received as a result of my participation in the ESPP to my country through a designated bank or broker and/or within a certain time after receipt. In addition, I may be subject to tax payment and/or reporting obligations in connection with any income realized under the ESPP and/or from the sale of shares of Common Stock. I acknowledge I am responsible for ensuring compliance with such regulations and should speak with a personal legal and tax advisors, as applicable, regarding this matter.

## AUSTRALIA

### Securities Law Notification.

I acknowledge and agree that my rights to participate in the ESPP and purchase shares of Common Stock are subject to the terms and conditions stated in the Offer Document distributed to me with the Enrollment/Change

Form and other ESPP documents, and to the requirements of Class Order exemption 14/1000 of the Australian Securities and Investments Commission.

Exchange Control Notification.

I understand that if I am an Australian resident, exchange control reporting is required for cash transactions exceeding A\$10,000 and international fund transfers. If an Australian bank is assisting with the transaction, the bank will file the report on my behalf. If there is no Australian bank involved in the transfer, I will be required to file the report.

**AUSTRIA**

Interest Waiver.

By enrolling in the ESPP and accepting the terms of the Enrollment/Change Form, I unambiguously consent to waive my right to any interest with respect to payroll deductions accumulated for me during an Offering Period.

Exchange Control Notification.

If I hold shares of Common Stock acquired under the ESPP outside of Austria, I may be required to submit a report to the Austrian National Bank. An exemption applies if the value of the shares of Common Stock as of any given quarter does not meet or exceed €30,000,000 or as of December 31 does not meet or exceed €5,000,000. If the former threshold is exceeded, quarterly reporting obligations are imposed, whereas if the latter threshold is exceeded, annual reporting obligations are imposed. The deadline for filing the quarterly report is the 15th of the month following the respective quarter. The deadline for filing the annual report is January 31 of the following year.

I also understand that when I sell shares of Common Stock acquired under the ESPP, there may be exchange control obligations if the cash proceeds are held outside of Austria. If the transaction volume of all accounts abroad meets or exceeds €10,000,000, the movements and balances of all accounts must be reported monthly, as of the last day of the month, on or before the 15th day of the following month, on the prescribed form (*Meldungen SI-Forderungen und/oder SI-Verpflichtungen*).

**BELGIUM**

Foreign Asset/Account Reporting Notification.

If I am a Belgian resident, I am required to report any bank or securities accounts, including an account in which shares of Common Stock are held, opened outside Belgium in my annual tax return. The first time I report such accounts, in a separate report, certain details regarding such foreign accounts (including the account number, bank name and country in which such account was opened) must be provided to the Central Contact Point of the National Bank of Belgium. The forms to complete this report, as well as additional information on how to complete the forms are available on the website of the National Bank of Belgium, [www.nbb.be](http://www.nbb.be), under the *Kredietcentrales / Centrales des crédits caption*.

Stock Exchange Tax Notification.

A stock exchange tax applies to transactions executed by a Belgian resident through a non-Belgian financial intermediary, such as a U.S. broker. The stock exchange tax likely will apply when shares of Common Stock are purchased and when such shares are sold. I understand I should consult with my tax or financial advisor for additional details on my obligations with respect to the stock exchange tax.

## **BRAZIL**

### Authorization for ESPP Participation.

I hereby authorize the Employer to make payroll deductions from each of my paychecks in that percentage of my Compensation (up to 15%) that I have specified in the Enrollment/Change Form and I authorize the Employer to remit such accumulated payroll deductions, on my behalf, to the United States of America, to purchase the shares of Common Stock, as provided by Ruling No. 3,691/13 of the Central Bank, under the terms of the ESPP.

Upon request by the Company or the Employer, I agree to execute a letter of authorization and any other agreements or consents that may be required to enable the Employer, the Company, any Subsidiary or any third party designated by the Employer or the Company to remit my accumulated payroll deductions from Brazil for the purchase of shares of Common Stock. I understand that if I fail to execute a letter of authorization or any other form of agreement or consent that is required for the remittance of my payroll deductions, I will not be able to participate in the ESPP.

### Compliance with Law.

By participating in the ESPP, I agree to comply with applicable Brazilian laws and to report and pay any and all Tax-Related Items associated with participation in the ESPP, including the purchase and subsequent sale of shares of Common Stock acquired under the ESPP.

### Labor Law Acknowledgment.

By participating in the ESPP, I acknowledge that (i) I am making an investment decision, (ii) shares of Common Stock will be issued to me only if I continue to be an eligible employee through the Purchase Date, and (iii) the value of the underlying shares of Common Stock is not fixed and may increase or decrease without compensation to me.

### Foreign Asset/Account Reporting Notification.

If I am resident or domiciled in Brazil, I understand that I will be required to submit an annual declaration of assets and rights held outside Brazil to the Central Bank of Brazil if the aggregate value of such assets and rights equals or exceeds US\$100,000. Assets and rights that must be reported include any shares of Common Stock acquired under the ESPP. Foreign individuals holding Brazilian visas are considered Brazilian residents for purposes of this reporting requirement. It is my responsibility to comply with this reporting obligation and I should consult my personal advisor in this regard.

### Tax on Financial Transactions (IOF).

Cross-border financial transactions related to the ESPP may be subject to the IOF (tax on financial transactions). I understand I should consult with my personal tax advisor for additional details.

## **CANADA**

### Termination of Service.

This provision replaces Section 7(j) of the Enrollment/Change Form:

In the event of termination of my employment (for any reason whatsoever, whether or not later found to be invalid or in breach of employment laws in the jurisdiction where I am employed or the terms of my employment agreement, if any), except for certain leave of absences set forth in Section 12 of the ESPP, my right to participate in the ESPP, if any, will terminate effective as of the earlier of (i) the date of termination, (ii) the date upon which I receive notice of termination, or (iii) the date on which I am no longer actively providing services to the Employer, regardless of any notice period under Canadian provincial laws (including, but not limited to, statutory law, regulatory law and/or common law). In the event that the date I am no longer actively providing services cannot be reasonably determined under the terms of the Enrollment/Change Form and the ESPP, the Committee shall have exclusive discretion to determine when I am no longer actively providing services for purposes of my option.

Securities Law Notification.

I understand that I am permitted to sell shares of Common Stock purchased under the ESPP through the designated broker appointed under the ESPP, provided the resale of shares of Common Stock takes place outside Canada through the facilities of a stock exchange on which the shares are listed. The shares are currently listed on New York Stock Exchange.

Foreign Asset/Account Reporting Notification.

I am required to report any foreign specified property on form T1135 (Foreign Income Verification Statement) if the total cost of my foreign specified property exceeds C\$100,000 at any time in the year. Foreign specified property includes shares of Common Stock acquired under the ESPP and their cost generally is the adjusted cost base ("ACB") of the Common Stock acquired under the ESPP. The ACB would ordinarily equal the fair market value of the shares at the time of acquisition, but if I own other shares of Common Stock (e.g., acquired under other circumstances or at another time), this ACB may be averaged with the ACB of the other shares of Common Stock. The form T1135 must be filed by April 30 of the following year. I am advised to consult with a personal advisor to ensure that I comply with the applicable requirements.

THE FOLLOWING PROVISIONS WILL APPLY IF I AM A RESIDENT OF QUEBEC:

Language Consent.

The parties acknowledge that it is their express wish that the Enrollment/Change Form, as well as all documents, notices and legal proceedings entered into, given or instituted pursuant hereto or relating directly or indirectly hereto, be drawn up in English.

*Les parties reconnaissent avoir exigé la rédaction en anglais de la convention, ainsi que de tous documents exécutés, avis donnés et procédures judiciaires intentées, directement ou indirectement, relativement à ou suite à la convention.*

**DENMARK**

Danish Stock Option Act.

I acknowledge that I have received an Employer Statement translated into Danish, which is being provided to comply with the Danish Stock Option Act.

Foreign Asset/Account Reporting Notification.

I acknowledge and understand if I establish an account holding shares of Common Stock or cash outside of Denmark, I must report the account to the Danish Tax Administration. The form which should be used in this respect can be obtained from a local bank.

**FINLAND**

There are no country-specific provisions.

**France**

FRENCH TRANSLATIONS OF PROVISIONS CONCERNING AUTHORIZATION TO PARTICIPATE IN ESPP

Participation in the ESPP (Section 6 of the ESPP).

(a) Any employee who is an eligible employee determined in accordance with section 4 of the ESPP immediately prior to the initial Offering Period will be automatically enrolled in the initial Offering Period under the ESPP. With respect to subsequent Offering Periods, any eligible employee determined in accordance with Section 4 of the ESPP will be eligible to participate in the ESPP, subject to the requirement of Section (b) hereof and the other terms and provisions of the ESPP.

(b) Notwithstanding the foregoing, (i) an eligible employee may elect to decrease the number of shares of Common Stock that such employee would otherwise be permitted to purchase for the initial Offering Period under the ESPP and/or purchase shares of Common Stock for the initial Offering Period through payroll deductions by delivering a Enrollment/Change Form to the Company within thirty (30) days after the filing of an effective registration statement pursuant to Form S-8 and (ii) the Committee may set a later time for filing the Enrollment/Change Form authorizing payroll deductions for all eligible employees with respect to a given Offering Period. With respect to Offering Periods after the initial Offering Period, a Participant may elect to participate in the ESPP by submitting an Enrollment/Change Form prior to the commencement of the Offering Period (or such earlier date as the Committee may determine) to which such agreement relates.

(c) Once an employee becomes a Participant in an Offering Period, then such Participant will automatically participate in the Offering Period commencing immediately following the last day of such prior Offering Period unless the Participant withdraws or is deemed to withdraw from the ESPP or terminates further participation in the Offering Period as set forth in section 11 of the ESPP. Such Participant is not required to file any additional Enrollment / Change Form in order to continue participation in the ESPP.

Participation dans l'ESPP (Section 6 du ESPP).

*(a) Tout salarié qui est un salarié éligible conformément à la section 4 de l'ESPP immédiatement avant la Période initiale d'Offre participera automatiquement à la Période initiale d'Offre de l'ESPP. Concernant les Périodes d'Offres suivantes, tout salarié éligible conformément à la Section 4 de l'ESPP sera éligible pour participer à l'ESPP, à la condition de respecter les conditions énoncées Section (b) des présentes et tous les autres termes et conditions de l'ESPP.*

*(b) Nonobstant ce qui précède, (i) un salarié éligible peut choisir de diminuer le nombre d'Actions Ordinaires dont il aurait pu être autorisé à faire l'acquisition au titre de la Période initiale d'Offre de l'ESPP, et/ou d'acquérir des Actions Ordinaires au titre de la Période initiale d'Offre par prélèvement sur son salaire par la remise d'un Formulaire de Participation/Modification à la Société dans les trente (30) jours suivant le dépôt d'une déclaration d'enregistrement conformément au Formulaire S-8, et, (ii) le Comité peut décider, concernant une Période d'Offre donnée, que le dépôt du Formulaire de Participation/Modification, autorisant le prélèvement sur salaire de tout salarié éligible, peut être repoussé. Concernant les Périodes d'Offres qui suivent la Période initiale d'Offre, un Participant peut choisir de participer à l'ESPP par le dépôt d'un Formulaire de Participation/Modification avant le début de la Période d'Offre concernée (ou toute date antérieure décidée par le Comité).*

*(c) Dès lors qu'un salarié devient un Participant pour une Période d'Offre, alors ledit Participant participera automatiquement à la Période d'Offre commençant immédiatement après le dernier jour de la Période d'Offre antérieure à moins que le Participant se retire, ou soit considéré comme se retirant de l'ESPP, ou cesse sa participation à la Période d'Offre tel que cela est prévu à la Section 11 de l'ESPP. Ledit Participant n'a pas à déposer de Formulaire pour continuer à participer à l'ESPP.*

#### Payroll Deduction Authorization.

This provision replaces Section 4 of the Enrollment/Change Form:

I hereby authorize the Company to withhold from each of my paychecks such amount as is necessary to equal at the end of the applicable Offering Period \_\_\_% of my Compensation (as defined in the ESPP) paid during such Offering Period as long as I continue to participate in the ESPP. That amount will be applied to the purchase of shares of the Company's Common Stock pursuant to the ESPP. If I am paid in a currency other than U.S. dollars, my contributions will be converted into U.S. dollars prior to the purchase of the Common Stock. **The percentage must be a whole number (from 1%, up to a maximum of 5%).**

Please -increase -decrease my contribution percentage.

**Note:** You may change your contribution percentage only once within a Purchase Period to be effective during such Purchase Period and such change can only be to decrease your contribution percentage. An increase in your contribution percentage can only take effect with the next Offering Period. Each change will become effective as soon as reasonably practicable after the form is received by the Company.

#### Autorisation du Prélèvement sur Salaire.

Cette disposition remplace Section 4 du Formulaire de Participation/Modification:

*Par les présentes, j'autorise la Société à prélever sur chacun de mes salaires le montant nécessaire afin d'égaliser, à la fin de ladite Période d'Offre, \_\_\_% de ma Rémunération (telle que définie dans l'ESPP) payée pendant ladite Période d'Offre et ce, aussi longtemps que je continuerais à participer à l'ESPP. Ce montant servira à l'acquisition d'Actions Ordinaires de la Société conformément à l'ESPP. Si je suis payé dans une devise autre que le dollar U.S., mes contributions devront être converties en dollars U.S. avant l'acquisition des Actions Ordinaires. Le pourcentage doit être un chiffre entier (de 1% à un maximum de 5%).*

*Veillez -augmenter- diminuer mon pourcentage de contribution.*

*Remarque : Vous pouvez modifier le pourcentage de votre contribution seulement une fois lors d'une Période d'Acquisition pour que cette modification soit effective lors de cette même Période d'Acquisition, et cette modification ne peut que diminuer votre pourcentage de contribution. Une augmentation de votre pourcentage de contribution ne peut prendre effet que lors de la Période d'Offre suivante. Toute modification deviendra effective aussitôt que cela sera raisonnablement pratiquement possible après réception du formulaire par la Société.*

#### Limitations on Shares of Common Stock to be Purchased.

Notwithstanding anything in Section 10 of the ESPP to the contrary, I understand that I am subject to the following additional requirements: (i) I may not purchase more than two hundred (200) whole shares of Common Stock in any individual Purchase Period; and (ii) I will not be granted a right to purchase Common Stock under the ESPP at a rate which exceeds one thousand two hundred and fifty dollars (\$1,250) of the fair market value of such shares of Common Stock (determined at the time such right is granted) for each calendar year in which such right is outstanding at any time.

#### Language Consent.

By signing and returning or by otherwise accepting the Enrollment/Change Form, I confirm having read and understood the documents relating to the ESPP (the ESPP, the Enrollment/Change Form and this Appendix) which were provided to me in the English language, except for the payroll authorization set forth in French above. I accept the terms of those documents accordingly.

#### Consentement relatif à la Langue utilisée.

*En signant et en renvoyant le présent Formulaire de Participation/Modification ou en l'approuvant d'une quelconque manière, je confirme avoir lu et compris les documents relatifs à cette attribution de droits d'achat d'actions qui m'ont été remis en langue anglaise hormis l'autorisation du prélèvement sur salaire tel que stipulé en français ci-dessus (l'ESPP, le Formulaire de Participation/Modification ainsi que la présente Annexe). J'accepte les conditions afférentes à ces documents en connaissance de cause.*

#### Exchange Control Notification.

I acknowledge and understand I must declare to the customs and excise authorities any cash or securities I import or export without the use of a financial institution when the value of the cash or securities is equal to or exceeds €10,000. With respect to any foreign account balances exceeding €1,000,000, I must report any transactions carried out on those accounts to the Bank of France on a monthly basis.

#### Foreign Asset/Account Reporting Notification.

I acknowledge and understand that I may hold shares of Common Stock acquired under the ESPP outside France provided that I declare all foreign accounts, whether open, current, or closed in my income tax return. Failure to comply could trigger significant penalties.

## GERMANY

### Exchange Control Notification.

Cross-border payments in excess of €12,500 in connection with the sale of securities must be reported monthly to the German Central Bank (*Bundesbank*). In case of payments in connection with securities (including proceeds realized upon the sale of share of Common Stock), the report must be made electronically by the 5th day of the month following the month in which the payment was received. The form of the report (*Allgemeine Meldeportal Statistik*) can be accessed via the Bundesbank's website ([www.bundesbank.de](http://www.bundesbank.de)) and is available in both German and English. I am responsible for obtaining the appropriate form from the bank and complying with the applicable reporting obligations.

### Foreign Asset/Account Reporting Information.

German residents holding shares of Common Stock must notify their local tax office of the acquisition of shares of Common Stock when they file their tax returns for the relevant year if (i) the value of the shares of Common Stock acquired exceeds €150,000 and I own 1% or more of the total shares of Common Stock of the Company, or (ii) in the unlikely event that the resident holds Common Stock exceeding 10% of the Company's total Common Stock.

## HONG KONG

### Restriction on Sale of Shares of Common Stock.

I understand that shares of Common Stock received at purchase are acquired as a personal investment. To facilitate compliance with securities laws in Hong Kong, I agree that I will not dispose of any shares of Common Stock acquired under the ESPP within six (6) months of the beginning of the relevant Offering Period under which such shares of Common Stock were acquired.

### Securities Law Notification.

*WARNING: The contents of the ESPP, the Enrollment/Change Form and this Appendix have not been reviewed by any regulatory authority in Hong Kong. I am advised to exercise caution in relation to the offer. If there is any doubt about any of the contents of the ESPP, the Enrollment/Change Form, including this Appendix, or any other communication materials, I should obtain independent professional advice. The option to purchase shares of Common Stock and the shares of Common Stock to be issued under the ESPP do not constitute a public offer of securities and are available only for employees of the Company or any of its Participating Corporations. The ESPP, the Enrollment/Change Form, including this Appendix, and other incidental communication materials (i) have not been prepared in accordance with and are not intended to constitute a "prospectus" for a public offering of securities under the applicable securities legislation in Hong Kong and (ii) are intended only for the personal use of each Participant and may not be distributed to any other person.*

## **INDIA**

### **Exchange Control Notification.**

Due to exchange control restrictions in India, I understand that I am required to repatriate any cash dividends paid on shares of Common Stock acquired under the ESPP within such time as prescribed under applicable Indian exchange control laws, as may be amended from time to time. I understand I must obtain a foreign inward remittance certificate ("FIRC") from the bank where I deposit the funds and must maintain the FIRC as evidence of the repatriation of funds in the event the Reserve Bank of India or the Employer requests proof of repatriation. I understand that it is my responsibility to comply with exchange control laws in India.

### **Foreign Asset/Account Reporting Notification.**

I understand if I am an Indian resident I am required to declare any foreign bank accounts and any foreign financial assets (including shares of Common Stock acquired under the ESPP) in my annual tax returns. It is my responsibility to comply with this reporting obligation and I should consult my personal advisor in this regard.

## **IRELAND**

There are no country-specific provisions.

## **ISRAEL**

### **Immediate Sale Restriction.**

Notwithstanding anything to the contrary in the ESPP or Enrollment/Change Form, due to tax requirements in Israel, the Company reserves the right to immediately sell shares of Common Stock acquired upon exercise of my options. If the Company forces the sale of shares acquired upon exercise of my options, I agree that the Company is authorized to instruct its designated broker to assist with the mandatory sale of the shares of Common Stock (on my behalf pursuant to this authorization) and I expressly authorize such broker to complete the sale of such shares. I acknowledge that the Company's designated broker is under no obligation to arrange for the sale of the shares of Common Stock at any particular price. Upon the sale of the shares of Common Stock, the Company agrees to pay the cash proceeds from the sale, less any brokerage fees or commissions, to me provided any liability for Tax-Related Items resulting from the exercise of my options has been satisfied. Due to fluctuations in the share price and/or the U.S. dollar exchange rate between the purchase date and (if later) the date on which the shares are sold, the sale proceeds may be more or less than the market value of the shares on the purchase date (which is the amount relevant to determining my tax liability). I understand and agree that the Company is not responsible for the amount of any loss I may incur and that the Company assumes no liability for any fluctuations in the share price and/or U.S. dollar exchange rate.

### **Securities Law Information.**

The offer to participate in the ESPP is being made pursuant to an exemption from the requirement to file and publish a prospectus in Israel regarding the ESPP obtained from the Israeli Securities Authority. Copies of the ESPP and the Form S-8 registration statement for the ESPP filed with the U.S. Securities and Exchange Commission will be made available by request. Alternatively, copies of the ESPP and the Form S-8 registration statement for the Plan filed with the U.S. Securities and Exchange Commission will be available on the respective Fidelity online portal for employees.

## ITALY

### ESPP Document Acknowledgment.

By enrolling and participating in the ESPP, I acknowledge that I have received a copy of the ESPP and the Enrollment/Change Form and have reviewed the ESPP and the Enrollment/Change Form in their entirety and fully understand and accept all provisions of the ESPP and the Enrollment/Change Form. I further acknowledge that I have read and specifically and expressly approve the Sections of the Enrollment/Change Form addressing (i) Responsibility for Taxes (Section 6), (ii) Imposition of Other Requirements (Section 11), and (iii) Governing Law (Section 12) and the Nature of Grant (Section 1) and Data Privacy (Section 2) of this Appendix.

### Tax Notification.

I acknowledge I may be eligible to exempt up to EUR 2,065 per year of the discount from income tax and social insurance contributions, provided that I do not sell my shares of Common Stock purchased under the ESPP to the Company or to my Employer and I do not otherwise sell the shares of Common Stock within three (3) years of purchase. If I sell my shares of Common Stock purchased under the ESPP to the Company or my Employer or otherwise sell the shares of Common Stock within three (3) years of purchase, the previously exempted amount, if any, will be subject to income tax and social insurance contributions in the year of sale and I must notify my Employer of such sale. I should consult my personal tax advisor for additional information.

### Foreign Asset/Account Reporting Notification.

Italian residents who, during any fiscal year, hold investments or financial assets outside of Italy (*e.g.*, cash, shares of Common Stock) which may generate income taxable in Italy (or who are the beneficial owners of such an investment or asset even if not directly holding the investment or asset), are required to report such investments or assets on the annual tax return for such fiscal year (on UNICO Form, RW Schedule, or on a special form if not required to file a tax return).

### Foreign Financial Asset Tax Notification.

The value of any shares of Common Stock (and certain other foreign assets) an Italian resident holds outside Italy may be subject to a foreign financial assets tax. The taxable amount is equal to the fair market value of the shares of Common Stock on December 31 or on the last day the shares of Common Stock were held (the tax is levied in proportion to the number of days the shares of Common Stock were held over the calendar year). The value of financial assets held abroad must be reported in Form RM of the annual tax return. I should consult my personal tax advisor for additional information about the foreign financial assets tax.

## JAPAN

### Limitation on Offering.

If I reside and/or work in Japan, my participation in the ESPP may be limited as a result of applicable securities laws. Specifically, the aggregate value of shares of Common Stock to be offered for purchase by all ESPP participants residing and/or working in Japan will be limited to less than an aggregate amount of ¥100,000,000 on an annual basis. It is also possible that certain other equity awards in Japan will count against this ¥100,000,000 threshold. If ESPP participants in the Japan elect to contribute more than this amount during any year, contribution rates will be prorated to ensure that this threshold is not exceeded. If my participation is prorated, I understand that I will receive a notice from the Company explaining the proration.

#### Exchange Control Notification.

I understand if I am a Japanese resident and I pay more than ¥30,000,000 for the purchase of shares of Common Stock in any one transaction, I must file a Payment Report with the Ministry of Finance (through the Bank of Japan or the bank carrying out the transaction). The precise reporting requirements vary depending on whether the relevant payment is made through a bank in Japan. If I acquire shares of Common Stock whose value exceeds ¥100,000,000 in a single transaction, I must also file a Securities Acquisition Report with the Ministry of Finance through the Bank of Japan within 20 days of acquiring the shares of Common Stock. The forms to make these reports can be acquired at the Bank of Japan.

A Payment Report is required independently of a Securities Acquisition Report. Consequently, if the total amount that I pay on a one-time basis to purchase shares exceeds ¥100,000,000, I must file both a Payment Report and a Securities Acquisition Report.

#### Foreign Asset/Account Reporting Notification.

I am required to report details of any assets held outside Japan as of December 31 (including shares of Common Stock acquired under the ESPP), to the extent such assets have a total net fair market value exceeding ¥50,000,000. Such report will be due by March 15 each year. I am advised to consult with my personal tax advisor to determine if the reporting obligation applies to my personal situation.

## **MEXICO**

#### No Entitlement or Claims for Compensation.

The following provisions supplement Section 1 of this Appendix.

#### Modification.

By participating in the ESPP, I understand and agree that any modification of the ESPP or the Enrollment/Change Form or its termination shall not constitute a change or impairment of the terms and conditions of my employment.

#### Policy Statement.

I acknowledge that the option to purchase shares of Common Stock is making under the ESPP is unilateral and discretionary and, therefore, the Company reserves the absolute right to amend it and discontinue it at any time without any liability.

I acknowledge that the Company, with registered offices at 2225 Lawson Lane, Santa Clara, CA 95054, U.S.A., is solely responsible for the administration of the ESPP and participation in the ESPP and the acquisition of shares does not, in any way, establish an employment relationship between myself and the Company since I am participating in the ESPP on a wholly commercial basis, nor does it establish any rights between myself and the Employer.

#### Plan Document Acknowledgment.

By participating in the ESPP, I acknowledge that I have received copies of the ESPP, have reviewed the ESPP and the Enrollment/Change Form in their entirety and fully understand and accept all provisions of the ESPP and the Enrollment/Change Form.

In addition, by accepting the Enrollment/Change Form, I further acknowledge that I have read and specifically and expressly approved the terms and conditions in Section 1 of this Appendix, in which the following is clearly described and established: (i) participation in the ESPP does not constitute an acquired right; (ii) the ESPP and participation in the ESPP is offered by the Company on a wholly discretionary basis; (iii) participation in the ESPP is voluntary; and (iv) the Company and any Subsidiary are not responsible for any decrease in the value of the shares.

Finally, I hereby declare that I do not reserve any action or right to bring any claim against the Company for any compensation or damages as a result of my participation in the ESPP and therefore grant a full and broad release to the Employer, the Company and any Subsidiary with respect to any claim that may arise under the ESPP.

#### *Spanish Translation*

#### *Sin derecho a compensación o reclamaciones por compensación*

*Las siguientes disposiciones complementan la Sección 1 del Apéndice:*

#### *Modificación.*

*Al participar en el ESPP, entiendo y acuerdo que cualquier modificación el ESPP o al Contrato o su terminación no constituirá un cambio o perjuicio a los términos y condiciones de empleo.*

#### *Declaración de Política.*

*El Reconozco que el otorgamiento de la opción que la Compañía está haciendo de conformidad con el ESPP es unilateral y discrecional y, por lo tanto, la Compañía se reserva el derecho absoluto de modificar y discontinuar el mismo en cualquier momento, sin responsabilidad alguna.*

*Reconozco que la Compañía, con oficinas registradas ubicadas en 2225 Lawson Lane, Santa Clara, CA 95054, EE.UU. es únicamente responsable de la administración del ESPP y la participación en el ESPP y la adquisición de acciones no establece, de forma alguna, una relación de trabajo entre la Compañía y yo, ya que estoy participando en el ESPP de una forma totalmente comercial, y tampoco establece ningún derecho entre el Patrón y yo.*

*Reconocimiento del Documento del ESPP.* *Al participar en el ESPP, reconozco que he recibido copias del ESPP, he revisado el ESPP y el Contrato en su totalidad y entiendo y acepto completamente todas las disposiciones contenidas en el ESPP y en el Contrato.*

*Adicionalmente, al aceptar el Contrato, reconozco que he leído y específica y expresamente he aprobado los términos y condiciones de la Sección 1 del Apéndice, en la que lo siguiente está claramente descrito y establecido: (i) la participación en el ESPP no constituye un derecho adquirido; (ii) el ESPP y la participación en el ESPP es ofrecida por la Compañía de forma enteramente discrecional; (iii) la*

*participación en el ESPP es voluntaria; y (iv) la Compañía y cualquier empresa Subsidiaria no son responsables por cualquier disminución en el valor de las acciones.*

*Finalmente, declaro que no me reservo ninguna acción o derecho para interponer cualquier demanda o reclamación en contra de la Compañía por compensación, daño o perjuicio alguno como resultado de mi participación en el ESPP y, por lo tanto, otorgo el más amplio finiquito al Patrón, la Compañía y cualquier empresa Subsidiaria con respecto a cualquier demanda o reclamación que pudiera surgir en virtud del ESPP.*

## NETHERLANDS

### Labor Law Acknowledgment.

By enrolling in the ESPP, I acknowledge that the options and shares of Common Stock purchased under the ESPP are intended as an incentive for me to remain employed with the Company or Employer and are not intended as remuneration for labor performed.

## NEW ZEALAND

### Securities Law Notification.

**Warning:** This is an offer of options to purchase shares of Common Stock under the ESPP. Options to purchase shares of Common Stock under the ESPP give me the opportunity to acquire a stake in the ownership of the Company. I may receive a return if dividends are paid on the shares of Common Stock.

If the Company runs into financial difficulties and is wound up, I will be paid only after all creditors have been paid. I may lose some or all of my investment.

New Zealand law normally requires people who offer financial products to give information to investors before they invest. This information is designed to help investors to make an informed decision.

The usual rules do not apply to this offer because it is made under an employee share purchase scheme. As a result, I may not be given all the information usually required. I will also have fewer other legal protections for this investment.

I should ask questions, read all documents carefully, and seek independent financial advice before committing myself.

For information on risk factors impacting the Company's business that may affect the value of the shares of Common Stock, I should refer to the risk factors discussion in the Company's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q, which are filed with the U.S. Securities and Exchange Commission and are available online at [www.sec.gov](http://www.sec.gov), as well as on the Company's "Investor Relations" website at <http://www.servicenow.com/company/investor-relations.html>.

## NORWAY

There are no country-specific provisions.

## **SINGAPORE**

### Restriction on Sale of Shares of Common Stock.

I understand, to the extent I sell, offer to sell or otherwise dispose of shares of Common Stock purchased under the ESPP within six months of the beginning of the relevant Offering Period, I am permitted to dispose of such shares of Common Stock through the designated broker under the ESPP, if any, provided the resale of shares of Common Stock acquired under the ESPP takes place outside of Singapore through the facilities of a stock exchange on which the shares of Common Stock are listed. The shares are currently listed on New York Stock Exchange.

### Securities Law Notification.

I understand that the option is being granted to me pursuant to the “Qualifying Person” exemption under section 273(1)(f) of the Singapore Securities and Futures Act (Chapter 289, 2006 Ed.) (“SFA”). I further understand that the ESPP has not been lodged or registered as a prospectus with the Monetary Authority of Singapore. I understand and acknowledge that my option to purchase shares of Common Stock is subject to section 257 of the SFA and I am not permitted to sell, or offer to sell any shares of Common Stock in Singapore unless such sale or offer is made (i) within six months from the date of offering or (ii) pursuant to exemptions under Part XIII Division (1) Subdivision (4) (other than section 280) of the SFA.

### Director Notification Obligation.

I acknowledge that if I am a director, associate director or shadow director of a Singapore Subsidiary, I am subject to certain notification requirements under the Singapore Companies Act. Among these requirements is an obligation to notify the Singapore Subsidiary in writing when I receive an interest (e.g., an option or shares of Common Stock) in the Company or any Subsidiary within two business days of (i) its acquisition or disposal, (ii) any change in previously disclosed interest (e.g., when the shares of Common Stock are sold), or (iii) becoming a director, associate director or shadow director.

## **SOUTH KOREA**

### Power of Attorney.

I am an employee working for a Subsidiary or affiliate of the Company in Korea (“ServiceNow Korea”), a corporation duly organized and existing under the laws of the Republic of Korea, and, by my election to participate in the Plan, I hereby appoint attorney-in-fact, ServiceNow Korea (including any successor entity), through its duly appointed representative, as my true and lawful representative, with full power and authority to do the following:

1. To prepare, execute and file any report/application and all other documents required for implementation of the ServiceNow, Inc. 2012 Employee Stock Purchase Plan (the “ESPP”) in Korea;
2. To take any action that may be necessary or appropriate for implementation of the ESPP with the competent Korean authorities, including but not limited to the transfer of my payroll deductions through a foreign exchange bank; and
3. To constitute and appoint, in its place and stead, and as its substitute, one or more representatives, with power of revocation.

I hereby ratify and confirm as my own act and deed all that such representative may do or cause to be done by virtue of this instrument.

Foreign Asset/Account Reporting Information.

Korean residents must declare all foreign financial accounts (i.e., non-Korean bank accounts, brokerage accounts, etc.) to the Korean tax authority and file a report with respect to such accounts if the value of such accounts exceeds KRW 500 million (or an equivalent amount in foreign currency) on any month-end during the calendar year. I understand that I should consult with my personal tax advisor to determine how to value my foreign accounts for purposes of this reporting requirement and whether I am required to file a report with respect to such accounts.

**SPAIN**

Nature of Grant.

The following provision supplements Section 1 of this Appendix:

By completing the enrollment process and accepting the Enrollment/Change Form, I consent to participation in the ESPP and acknowledge that I have received a copy of the ESPP.

I understand that the Company has unilaterally, gratuitously and discretionally decided to offer participation in the ESPP to eligible employees of the Company or any Subsidiary. This decision is a limited decision that is entered into upon the express assumption and condition that any grant will not bind the Company or any Subsidiary other than as expressly set forth in the Enrollment/Change Form. Consequently, I understand that the ESPP is offered on the assumption and condition that the ESPP and any shares of Common Stock issued upon exercise of this purchase right are not a part of any employment or service contract (either with the Company or any Parent or any Subsidiary) and shall not be considered a mandatory benefit, salary for any purpose (including severance compensation) or any other right whatsoever.

Further, I understand and agree that, unless otherwise expressly provided for by the Company or set forth in the ESPP or the Enrollment/Change Form, I will cease to be a Participant in the ESPP upon the termination of my status as an eligible employee for any reason (including for the following reasons) and my contributions to the ESPP shall cease and the amounts returned to me, without interest, as soon as administratively possible. Such reasons for termination include, but are not limited to resignation, retirement, disciplinary dismissal adjudged to be with cause, disciplinary dismissal adjudged or recognized to be without cause, material modification of the terms of employment under Article 41 of the Workers' Statute, relocation under Article 40 of the Workers' Statute, Article 50 of the Workers' Statute, or under Article 10.3 of Royal Decree 1382/1985. The Company, in its sole discretion, shall determine the date when my status as an eligible employee has terminated for purposes of the right to purchase shares of Common Stock under the ESPP.

In addition, I understand that this grant would not be made to me but for the assumptions and conditions referred to above; thus, I acknowledge and freely accept that, should any or all of the assumptions be mistaken or should any of the conditions not be met for any reason, then any offer of the right to participate in the ESPP shall be null and void.

### Securities Law Notification.

The offer of the option to purchase shares of Common Stock described in the Enrollment/Change Form does not qualify under Spanish regulations as a security. No “offer of securities to the public,” as defined under Spanish law, has taken place or will take place in the Spanish territory in connection with the offer of the ESPP. The Enrollment/Change Form (including this Appendix) has not been, nor will it be, registered with the *Comisión Nacional del Mercado de Valores*, and does not constitute a public offering prospectus.

### Foreign Asset/Account Reporting Notification.

To the extent that I hold assets (*e.g.*, shares of Common Stock, cash, etc.) in a bank or brokerage account outside of Spain with a value in excess of €50,000 per type of asset as of December 31 each year, I am required to report information on such rights and assets on my tax return for such year. Shares of Common Stock acquired under the ESPP constitute securities for purposes of this requirement, but unvested awards (*e.g.*, the right to purchase shares of Common Stock under the ESPP) will not be considered an asset for purposes of this requirement. If applicable, I must report the assets on Form 720 by no later than March 31 following the end of the relevant year. After such assets are initially reported, the reporting obligation will only apply for subsequent years if the value of any previously-reported assets increases by more than €20,000. Failure to comply with this reporting requirement may result in penalties to me. Accordingly, Spanish residents should consult with personal tax and legal advisors to ensure proper compliance with their reporting obligations.

Spanish residents are required to electronically declare to the Bank of Spain any securities accounts (including brokerage accounts held abroad), as well as the securities held in such accounts (including shares of Common Stock), if the value of the transactions for all such accounts during the prior tax year or the balances in such accounts as of December 31 of the prior tax year exceeds €1,000,000. I understand I should consult with my personal tax or legal advisor for further information regarding my exchange control reporting obligations.

### Exchange Control Notification.

Spanish residents who acquire shares of Common Stock under the ESPP must declare such acquisition to the *Spanish Dirección General de Comercio e Inversiones* (the “DGCI”), the Bureau for Commerce and Investments, which is a department of the Ministry of Economy and Competitiveness. Residents also must declare ownership of any shares of Common Stock by filing a Form D-6 with the Directorate of Foreign Transactions each January while such shares of Common Stock are owned. In addition, the sale of shares of Common Stock must also be declared on Form D-6 filed with the DGCI in January, unless the sale proceeds exceed the applicable threshold (currently €1,502,530), in which case, the filing is due within one month after the sale.

## **SWEDEN**

### Responsibility for Taxes.

The following provisions supplement Section 6 of the Enrollment/Change Form:

Without limiting the Company’s and the Employer’s authority to satisfy their withholding obligations for Tax-Related Items as set forth in Section 6 of the Enrollment/Change Form, in enrolling in the ESPP I authorize the Company and/or the Employer to withhold shares of Common Stock or to sell shares of Common Stock otherwise deliverable to me upon purchase to satisfy Tax-Related Items, regardless of whether the Company and/or the Employer have an obligation to withhold such Tax-Related Items.

## **SWITZERLAND**

### Securities Law Notification.

The ESPP is not intended to be publicly offered in or from Switzerland. Because the offer of participation in the ESPP is considered a private offering, it is not subject to registration in Switzerland. Neither this document nor any other materials relating to the ESPP (i) constitute a prospectus according to articles 35 et seq. of the Swiss Federal Act on Financial Services ("FinSA"), (ii) may be publicly distributed nor otherwise made publicly available in Switzerland to any person other than an employee of the Company or Employer or (iii) has been or will be filed with, approved or supervised by any Swiss reviewing body according to article 51 FinSA or any Swiss regulatory authority, including the Swiss Financial Market Supervisory Authority (FINMA).

## **UNITED ARAB EMIRATES**

### Securities Law Notification.

Participation in the ESPP is being offered only to eligible employees and is in the nature of providing equity incentives to employees in the United Arab Emirates. The ESPP and the Enrollment/Change Form are intended for distribution only to such employees and must not be delivered to, or relied on by, any other person. Prospective purchasers of the securities offered should conduct their own due diligence on the securities. If I do not understand the contents of the ESPP or this Enrollment/Change Form, I should consult an authorized financial adviser.

The Emirates Securities and Commodities Authority has no responsibility for reviewing or verifying any documents in connection with the ESPP. Neither the Ministry of Economy nor the Dubai Department of Economic Development have approved the ESPP or the Enrollment/Change Form nor taken steps to verify the information set out therein, and have no responsibility for such documents.

## **United Kingdom**

### Responsibility for Taxes.

The following provisions supplement Section 6 of the Enrollment/Change Form:

Without limitation to Section 6 of the Enrollment/Change Form, I agree that I am liable for all Tax-Related Items and hereby covenant to pay all such Tax-Related Items, as and when requested by the Company or, if different, the Employer or by Her Majesty's Revenue & Customs ("HMRC") (or any other tax authority or any other relevant authority). I also agree to indemnify and keep indemnified the Company and, if different, the Employer against any Tax-Related Items that they are required to pay or withhold or have paid or will pay to HMRC (or any other tax authority or any other relevant authority) on my behalf.

Notwithstanding the foregoing, if I am a director or executive officer of the Company (within the meaning of Section 13(k) of the Exchange Act), I understand that I may not be able to indemnify the Company for the amount of any income tax not collected from or paid by me within ninety (90) days of the end of the U.K. tax year in which the event giving rise to the Tax-Related Items occurs as it may be considered to be a loan and therefore, it may constitute a benefit to me on which additional income tax and National Insurance contributions ("NICs") may be payable. I understand that I will be responsible for reporting and paying any income tax due on this additional benefit directly to HMRC under the self-assessment regime and for paying to the Company and/or the Employer (as appropriate) the amount of any NICs (including Employer NICs, as

defined below) due on this additional benefit, which may also be recovered from me by any of the means referred to in Section 6 of the Enrollment/Change Form.

If I fail to comply with my obligations in connection with the income tax as described in this section, the Company may refuse to deliver the shares of Common Stock subject to the ESPP.

#### National Insurance Contributions Acknowledgment.

As a condition of participation in the ESPP and the purchase of shares of Common Stock, I agree to accept any liability for secondary Class 1 NICs which may be payable by the Company and/or the Employer in connection with the option/purchase of shares and any event giving rise to Tax-Related Items (the "Employer NICs"). Without limitation to the foregoing, I agree to execute a joint election with the Company, the form of such joint election being formally approved by HMRC (the "Joint Election"), and any other required consent or election. I further agree to execute such other joint elections as may be required between me and any successor to the Company and/or the Employer. I further agree that the Company and/or the Employer may collect the Employer NICs from me by any of the means set forth in section 6 of the Enrollment/Change Form.

If I do not enter into a Joint Election prior to purchasing shares or if approval of the Joint Election has been withdrawn by HMRC, the option shall become null and void without any liability to the Company and/or the Employer and I may not purchase shares under the ESPP.

### **SPECIAL NOTICE FOR EMPLOYEES IN DENMARK EMPLOYER STATEMENT**

Pursuant to Section 3(1) of the Act on Stock Options in employment relations, as amended effective January 1, 2019 (the "Stock Option Act"), you are entitled to receive the following information regarding participation in the ServiceNow, Inc. 2012 Employee Stock Purchase Plan (the "ESPP") in a separate written statement.

This statement contains only the information mentioned in the Stock Option Act, while the other terms and conditions of your grant of stock options to purchase shares of the common stock of ServiceNow, Inc. (the "Company") are described in detail in the ESPP, the Enrollment/Change Form and the applicable country-specific supplement, which have been made available to you.

#### 1. Time of grant of right to purchase stock

Provided always that at the relevant time you are eligible to participate in the ESPP, at the beginning of successive six (6)-month offering periods, the Company will grant you a right to purchase shares of stock in the Company that may be exercised on the last day of each offering period.

#### 2. Terms or conditions for grant of a right to future purchase of stock

The ESPP is offered at the discretion of the Company's Board of Directors.

#### 3. Purchase Date

If you are employed by the Company or one of its participating subsidiaries or affiliates on the last day of an offering period, shares of common stock will automatically be purchased for you with your accumulated payroll deductions. If shares are purchased for you at the end of an offering period, the number of shares purchased will depend on the purchase price, the amount of your accumulated payroll deductions and the share purchase limits in the ESPP. You will be the immediate owner of the common stock purchased with your

accumulated payroll deductions and, subject to the limitations in the ESPP, you may sell your shares of common stock purchased under the ESPP at any time, subject to any Company insider trading restrictions.

#### 4. Purchase Price

The purchase price per share is the lower of 85% of the fair market value of the Company's common stock on the first market day of the offering period or on the date the stock purchase right is exercised, *i.e.*, the last market day of the offering period.

#### 5. Your rights upon termination of employment

Termination of your employment for any reason, including retirement, death, disability, or the failure to remain an eligible employee under the ESPP, immediately terminates your participation in the ESPP. In such event, accumulated payroll deductions credited to your account will be returned to you or, in the case of your death, to your legal representative, without interest (except to the extent required due to local legal requirements).

#### 6. Financial aspects of participating in the ESPP

Aside from the payroll deductions which will start after you enroll in the ESPP, the ESPP offering has no immediate financial consequences for you. The value of the purchase rights and the value of the shares purchased for you under the ESPP are not taken into account when calculating holiday allowances, pension contributions or other statutory consideration calculated on the basis of salary.

Shares of stock are financial instruments and investing in stocks will always have financial risk. The possibility of profit at the time you sell your shares will not only be dependent on the Company's financial development, but *inter alia* also on the general development on the stock market. In addition, after you purchase shares, the shares could decrease in value even below the purchase price.

## SÆRLIG MEDDELELSE TIL MEDARBEJDERE I DANMARK ARBEJDSGIVERERKLÆRING

I henhold til § 3, stk. 1, i lov om brug af køberet eller tegningsret m.v. i ansættelsesforhold som ændret pr. 1. januar 2019 ("Aktieoptionsloven") er du berettiget til i en særskilt skriftlig erklæring at modtage følgende oplysninger om deltagelse i ServiceNow, Inc.'s medarbejderaktieordning - 2012 *Employee Stock Purchase Plan* ("ESPP-planen").

Denne erklæring indeholder kun de oplysninger, der er nævnt i Aktieoptionsloven, mens de øvrige vilkår og betingelser for din tildeling af aktieoptioner til køb af ordinære aktier i ServiceNow, Inc. ("Selskabet") er nærmere beskrevet i ESPP-planen, Tilmeldings-/Ændringsblanketten (*Enrollment/Change Form*) og det gældende landespecifikke tillæg, som du har modtaget.

### 1. Tidspunkt for tildeling af retten til at købe aktier

Forudsat at du er berettiget til at deltage i ESPP-planen på det pågældende tidspunkt vil Selskabet ved påbegyndelsen af successive tilbudperioder på seks (6) måneder tildele dig retten til at købe aktier i Selskabet, som kan udøves på den sidste dag i hver tilbudperiode.

### 2. Kriterier og betingelser for tildeling af retten til senere at købe aktier

ESPP-planen tilbydes efter Selskabets bestyrelses eget skøn.

### 3. Købsdato

Hvis du er ansat i Selskabet eller i et af de deltagende datterselskaber eller en af de deltagende tilknyttede virksomheder på den sidste dag i en tilbudperiode, vil der automatisk blive købt ordinære aktier til dig for det akkumulerede beløb, der er fratrukket dine nettolønudbetalinger. Hvis der købes aktier til dig ved udløbet af en tilbudperiode, vil antallet af købte aktier afhænge af købskursen, størrelsen på det akkumulerede beløb, der er fratrukket dine nettolønudbetalinger, samt af de begrænsninger for aktiekøb, der er fastsat i ESPP-planen. Du vil blive indehaver af de ordinære aktier, der er købt for det akkumulerede beløb, der er fratrukket dine nettolønudbetalinger, og du kan, med de begrænsninger, der følger af ESPP-planen, til enhver tid sælge de ordinære aktier, som du har købt i henhold til ESPP-planen, med forbehold for eventuelle begrænsninger i Selskabets regler om insiderhandel.

### 4. Købskurs

Købskursen pr. aktie er den værdi, der er lavest af 85 % af kursværdien af Selskabets ordinære aktier på enten den første handelsdag i tilbudperioden eller på den dato, hvor retten til at købe aktier udøves, dvs. den sidste handelsdag i tilbudperioden.

### 5. Din retsstilling i forbindelse med fratræden

Opsigelse af din ansættelse, uanset årsagen hertil, herunder pensionering, død, invaliditet eller den manglende fortsatte opfyldelse af at forblive en berettiget medarbejder under ESPP'en, medfører øjeblikkeligt ophør af din deltagelse i ESPP. I et sådant tilfælde vil akkumulerede løntræks beløb krediteret til din konto blive returneret til dig, eller i tilfælde af din død, til din juridiske repræsentant, uden renter (bortset fra i det omfang, det er påkrævet af lokale juridiske krav).

## 6. Økonomiske aspekter ved at deltage i ESPP-planen

Bortset fra de fradrag i dine nettolønudbetalinger, som påbegynder, når du er blevet tilmeldt ESPP-planen, har deltagelsen i ESPP-planen ingen umiddelbare økonomiske konsekvenser for dig. Værdien af købsretten og af de aktier, der købes til dig i henhold til ESPP-planen, indgår ikke i beregningen af feriepenge, pensionsbidrag eller øvrige lovpligtige, vederlagsafhængige ydelser.

Aktier er finansielle instrumenter, og investering i aktier vil altid være forbundet med en økonomisk risiko. Muligheden for at opnå en gevinst, når du sælger dine aktier, afhænger ikke alene af Selskabets økonomiske udvikling, men også af den generelle udvikling på aktiemarkedet. Derudover kan aktierne efter købet falde til en værdi, der måske endda ligger under købskursen.

## SERVICENOW, INC. 2012 EMPLOYEE STOCK PURCHASE PLAN

### Election To Transfer the Employer's National Insurance Liability to the Employee

This Election is between:

- A. The individual who has obtained authorised access to this Election (the "**Employee**"), who is employed by one of the employing companies listed in the attached schedule (the "**Employer**") and who is eligible to participate in the Employee Stock Purchase Plan pursuant to the 2012 Employee Stock Purchase Plan (the "**ESPP**"), and
- B. ServiceNow, Inc., 2225 Lawson Lane, Santa Clara, CA 95054, U.S.A. (the "**Company**"), which may grant options under the ESPP and is entering into this Election on behalf of the Employer.

#### **1. Introduction**

1.1 This Election relates to the options granted to the Employee under the ESPP on or after June 19, 2012, up to the termination date of the ESPP.

1.2. In this Election the following words and phrases have the following meanings:

- a. "**Chargeable Event**" means, in relation to the ESPP:
  - i. the acquisition of securities pursuant to the options (within section 477(3)(a) of ITEPA);
  - ii. the assignment (if applicable) or release of the options in return for consideration (within section 477(3)(b) of ITEPA);
  - iii. the receipt of a benefit in connection with the options, other than a benefit within (i) or (ii) above (within section 477(3)(c) of ITEPA);
  - iv. post-acquisition charges relating to the shares acquired pursuant to the ESPP (within section 427 of ITEPA); and/or
  - v. post-acquisition charges relating to the shares acquired pursuant to the ESPP (within section 439 of ITEPA).
  - vi. "ITEPA" means the Income Tax (Earnings and Pensions) Act 2003.
  - vii. "SSCBA" means the Social Security Contributions and Benefits Act 1992.

1.3 This Election relates to the employer's secondary Class 1 National Insurance Contributions (the "**Employer's Liability**") which may arise on the occurrence of a Chargeable Event in respect of the ESPP pursuant to section 4(4)(a) and/or paragraph 3B(1A) of Schedule 1 of the SSCBA.

1.4 This Election does not apply in relation to any liability, or any part of any liability, arising as a result of regulations being given retrospective effect by virtue of section 4B(2) of either the SSCBA, or the Social Security Contributions and Benefits (Northern Ireland) Act 1992.

1.5 This Election does not apply to the extent that it relates to relevant employment income which is employment income of the earner by virtue of Chapter 3A of Part VII of ITEPA (employment income: securities with artificially depressed market value).

## **2. The Election**

The Employee and the Company jointly elect that the entire liability of the Employer to pay the Employer's Liability on the Chargeable Event is hereby transferred to the Employee. The Employee understands that, by signing or electronically accepting this Election, he or she will become personally liable for the Employer's Liability covered by this Election. This Election is made in accordance with paragraph 3B(1) of Schedule 1 of the SSCBA.

## **3. Payment of the Employer's Liability**

3.1 The Employee hereby authorises the Company and/or the Employer to collect the Employer's Liability from the Employee at any time after the Chargeable Event:

- a. by deduction from salary or any other payment payable to the Employee at any time on or after the date of the Chargeable Event; and/or
- b. directly from the Employee by payment in cash or cleared funds; and/or
- c. by arranging, on behalf of the Employee, for the sale of some of the securities which the Employee is entitled to receive pursuant to the options, the proceeds of which must be delivered to the Employer in sufficient time for payment to be made to HMRC by the due date; and/or
- d. where the proceeds of the gain are to be made through a third party, the Employee will authorize that party to withhold an amount from the payment or to sell some of the securities which the Employee is entitled to receive pursuant to the options, such amount to be paid in sufficient time to enable the Company to make payment to HMRC by the due date; and/or
- e. through any other method as set forth in the applicable Enrollment/Change Form entered into between the Employee and the Company.

3.2 The Company hereby reserves for itself and the Employer the right to withhold the transfer of any securities to the Employee in respect of the ESPP until full payment of the Employer's Liability is received.

3.3 The Company agrees to remit the Employer's Liability to HM Revenue & Customs on behalf of the Employee within 14 days after the end of the UK tax month during which the Chargeable Event occurs (or within 17 days if payments are made electronically).

## **4. Duration of Election**

4.1 The Employee and the Company agree to be bound by the terms of this Election regardless of whether the Employee is transferred abroad or is not employed by the Employer on the date on which the Employer's Liability becomes due.

4.2 This Election will continue in effect until the earliest of the following:

- i. the Employee and the Company agree in writing that it should cease to have effect;
- ii. on the date the Company serves written notice on the Employee terminating its effect;
- iii. on the date HMRC withdraws approval of this Election; or
- iv. after due payment of the Employer's Liability in respect of the ESPP to which this Election relates or could relate, such that the Election ceases to have effect in accordance with its terms.

**Acceptance by the Employee**

**The Employee acknowledges that by accepting enrolling in the ESPP where indicated on the Fidelity enrollment page, the Employee agrees to be bound by the terms of this Election as stated above.**

**Acceptance by the Company.**

**The Company acknowledges that, by signing this Election or arranging for the scanned signature of an authorised representative to appear on this Election, the Company agrees to be bound by the terms of this Election.**

[1] The information about the United Arab Emirates is as of October 2020.

October 21, 2020  
Gabrielle Toledano

Dear Gaby:

On behalf of ServiceNow, Inc. (the "**Company**"), this letter agreement (the "**Agreement**") sets forth the terms and conditions of your employment as Chief Talent Officer of the Company.

1. **Position.** Effective on your Start Date (as defined below), you will serve as the Company's Chief Talent Officer reporting to the Company's Chief Executive Officer (the "**CEO**"). You will have all of the duties, responsibilities and authority commensurate with the position. Your employment with the Company will commence as soon as practicable on a date to be determined by you and the CEO, which shall be no later than January 4, 2021 (such start date, your "**Start Date**"). Your office will be at the Company's headquarters, currently located in Santa Clara, CA. You will be expected to devote your full working time and attention to the business of the Company. Notwithstanding the foregoing, you may manage personal investments, participate in civic, charitable, professional and academic activities (including serving on boards and committees), and, subject to prior approval, serve on the board of directors (and any committees) of outside entities, provided that such activities do not at the time the activity or activities commence or thereafter (i) create an actual or potential business or fiduciary conflict of interest or (ii) individually or in the aggregate, interfere materially with the performance of your duties to the Company.
2. **Term.** Subject to the terms of this Agreement, this Agreement will remain in effect for a period commencing on the Start Date and continuing until termination of your employment as set forth herein (the "**Employment Term**").
3. **Cash Compensation.**
  - a. **Base Salary.** Your initial annual base salary (the "**Base Salary**") will be Four Hundred Seventy-Five thousand Dollars (\$475,000.00), less required deductions and withholdings, payable in accordance with the Company's normal payroll practices. Thereafter, your annual base salary will be determined by the Leadership Development and Compensation Committee of the Company's Board of Directors (the "**Compensation Committee**"). Your Base Salary will be pro-rated for any partial years of employment during your Employment Term.
  - b. **Sign-on Bonus Advance:** In the first payroll period following your Start Date, you will receive a one-time bonus advance payment of One Hundred Fifty Thousand dollars (\$150,000.00), subject to clawback or repayment pursuant to Section 6 of this Agreement.
  - c. **Target Bonus.** During the Employment Term, you will be eligible to participate in our executive corporate bonus program. Your initial annual bonus target will be Seventy-Five percent (75%) of your Base Salary which equals Three Hundred Fifty- Six Thousand, Two Hundred Fifty Dollars (\$356,250.00) for the applicable fiscal year (your "**Target Bonus**"). Whether you receive the Target Bonus, and the amount of actual bonus amount awarded (your "**Actual Bonus**") will be determined by the Compensation Committee in its sole discretion based in all cases upon the achievement of both Company and individual performance objectives as established by the Compensation Committee. To earn any Actual Bonus, you must be employed by the Company on the last day of the period to which such bonus relates and at the time bonuses are paid, except as otherwise provided herein. Your bonus participation will be subject to all the terms, conditions and restrictions of the applicable Company bonus plan, as amended from time to time. The Actual Bonus shall be subject to required deductions and withholdings.

4. Relocation. The Company will provide you with a relocation package that is commensurate with your position as a member of the Company's senior executive team. The Company's head of Global Mobility will reach out to you separately to address the details and terms of your relocation package.
5. Benefits, Vacation & Expenses.
  - a. You will be entitled to participate in all employee retirement, welfare, insurance, benefit and vacation programs of the Company as are in effect from time to time and in which other senior executives of the Company are eligible to participate, on the same terms as such other senior executives, pursuant to the governing plan documents.
  - b. The Company will, in accordance with applicable Company policies and guidelines, reimburse you for all reasonable and necessary expenses incurred by you in connection with your performance of services on behalf of the Company.
6. Clawback. Each of the Sign On Bonus and the Relocation Bonus shall be subject to clawback or repayment to the Company in full if you are terminated by the Company for Cause or you voluntarily resign without Good Reason, in either case before the second anniversary of the Start Date.
7. Equity Awards. Subject to this Section 7 and subject to the approval of the Company's Board of Directors (the "**Board**") or the Compensation Committee, we will recommend that you be granted equity awards as follows:
  - a. New-Hire RSU. On the first regularly scheduled new hire grant date following your Start Date (the "**New-Hire RSU Grant Date**") The Company will grant you a restricted stock unit award to acquire such number of shares of the Company's common stock equal to Six Million Dollars (\$6,000,000.00) divided by the average daily closing price of the Company's common stock on the New York Stock Exchange for the twenty (20) trading days ending on the third trading day immediately prior to the Grant Date, rounded up to the nearest whole share (the "**New-Hire RSU**") under the Company's 2012 Equity Incentive Plan (the "**Equity Plan**"). The New-Hire RSU will vest as follows: 25% of the shares subject to the New-Hire RSU shall vest and settle on the one year anniversary of the Start Date, and the remaining shares will vest and settle in equal quarterly installments thereafter over the next twelve (12) quarters; provided that, subject to Section 8 below, vesting will be contingent on your continued employment with the Company on the applicable time-based vesting dates, and will be subject to the terms and conditions of the Equity Plan and the Company's standard form of restricted stock unit award agreement as approved by the Compensation Committee for use under the Equity Plan (the "**Standard RSU Agreement**"), and this Agreement.
  - b. Fiscal Year 2021 LTIP Award. At the same time that it grants fiscal year 2021 equity awards to other senior executives of the Company (the "**Fiscal 2020 Equity Award Grant Date**") The Company will grant you a Fiscal Year 2020 LTIP Award to acquire such number of shares of the Company's common stock equal to Three Million Dollars (\$3,000,000) (the "Fiscal 2020 Equity Award"). Twenty (20%) percent of any Fiscal 2021 Equity Award shall be time-based restricted stock units (the "FY20 RSU") and will vest and become exercisable over sixteen (16) quarters following such grant; provided that, subject to Section 8 below, vesting will depend on your current employment with the Company on the applicable time-based vesting dates, and will be subject to the terms and conditions of the current form of RSU agreement, the Equity Plan and this Agreement, Eighty (80%) percent of any Fiscal Year 2021 Equity Award shall be subject to the same performance metrics and vesting schedule as the Fiscal Year 2021 performance restricted stock units granted to other senior executives of the Company (the "FY21 PRSU"). Subject to

Section 8 below, vesting will depend on your continued employment by the Company on the applicable time-based or performance-based vesting dates, and will be subject to the terms and conditions of the written agreement governing such grant, the Equity Plan and this Agreement.

c. Future Equity. You may be eligible for future equity grants as determined by and pursuant to the terms established by the Compensation Committee.

8. Definitions. As used in this Agreement, the following terms have the following meanings.

a. Cause. For purposes of this Agreement, “**Cause**” for the Company to terminate your employment hereunder shall mean the occurrence of any of the following events, as determined by the Company in its sole and absolute discretion:

- i. your conviction of, or plea of nolo contendere to, any felony or any crime involving fraud, dishonesty or moral turpitude;
- ii. your commission of or participation in a fraud or act of dishonesty against the Company that results in (or would reasonably be expected to result in) material harm to the business of the Company;
- iii. your intentional, material violation of any contract or agreement between you and the Company or any statutory duty you owe to the Company or the improper disclosure of confidential information (as defined in the Company’s standard confidentiality agreement);
- iv. your conduct that constitutes gross insubordination, incompetence or habitual neglect of duties and that results in (or would reasonably be expected to result in) material harm to the business of the Company;
- v. your material failure to perform the duties of your position as Chief Talent Officer;
- vi. your material failure to follow the Company’s material policies; or
- vii. your failure to cooperate with the Company in any investigation or formal proceeding;

*provided, however*, that the action or conduct described in clauses (iii), (iv), (v), (vi) and (vii) above will constitute “Cause” only if such action or conduct continues after the Company has provided you with written notice thereof and thirty (30) days to cure the same if such action or conduct is curable.

b. Change in Control. For purposes of this Agreement, “**Change in Control**” means the occurrence, in a single transaction or in a series of related transactions, of any one or more of the following events (excluding in any case transactions in which the Company or its successors issues securities to investors primarily for capital raising purposes):

- i. the acquisition by a third party of securities of the Company representing fifty percent (50%) or more of the combined voting power of the Company’s then outstanding securities other than by virtue of a merger, consolidation or similar transaction;
- ii. a merger, consolidation or similar transaction following which the stockholders of the Company immediately prior thereto do not own at least fifty percent (50%) of the combined outstanding voting power of the surviving entity (or that entity’s parent) in such merger, consolidation or similar transaction;

- iii. the dissolution or liquidation of the Company; or
- iv. the sale, lease, exclusive license or other disposition of all or substantially all of the assets of the Company.

Notwithstanding any of the foregoing, any transaction or transactions effected solely for purposes of changing the Company's domicile will not constitute a Change in Control pursuant to the foregoing definition.

- c. COBRA. For purposes of this Agreement, "**COBRA**" means the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended.
- d. Code. For purposes of this Agreement, "**Code**" means the Internal Revenue Code of 1986, as amended.
- e. Disability. For purposes of this Agreement, "**Disability**" shall have that meaning set forth in Section 22(e)(3) of the Code.
- f. Good Reason. For purposes of this Agreement, "**Good Reason**" for you to terminate your employment hereunder shall mean the occurrence of any of the following events without your consent:
  - i. any material diminution in your authority, duties or responsibilities as in effect immediately prior to such reduction or a material diminution in the authority, duties or responsibilities of the person or persons to whom you are required to report;
  - ii. a material reduction by the Company in your annual Base Salary or Target Bonus, as initially set forth herein or as increased thereafter; provided, however, that Good Reason shall not be deemed to have occurred in the event of a reduction in your annual Base Salary or Target Bonus that is pursuant to a salary or bonus reduction program affecting substantially all of the employees of the Company or substantially all similarly situated executive employees and that does not adversely affect you to a greater extent than other similarly situated employees;
  - iii. a relocation of your business office to a location that would increase your one-way commute distance by more than thirty-five (35) miles from the current location at which you performed your duties immediately prior to the relocation, except for required travel by you on the Company's business to an extent substantially consistent with your business travel obligations prior to the relocation; or
  - iv. failure of a successor entity to assume this Agreement;

*provided, however,* that, any such termination by you shall only be deemed for Good Reason pursuant to this definition if: (1) you give the Company written notice of your intent to resign for Good Reason within ninety (90) days following the first occurrence of the condition(s) that you believe constitute(s) Good Reason, which notice shall describe such condition(s); (2) the Company fails to remedy such condition(s) within thirty (30) days following receipt of the written notice (the "**Cure Period**"); and (3) you voluntarily resign your employment within one hundred twenty (120) days following the end of the Cure Period.

9. Effect of Termination of Employment.

- a. Termination by the Company for Cause, Death or Disability or Resignation without Good Reason. In the event your employment is terminated by the Company for Cause, your employment terminates due to your death or Disability (which termination may be implemented by written notice by the Company if you have a Disability), or you resign your employment other than for Good Reason, you will be paid only: (i) any earned but unpaid Base Salary; (ii) except in the case of termination for Cause or resignation without Good Reason, the amount of any Actual Bonus earned and payable from a prior bonus period which remains unpaid by the Company as of the date of the termination of employment determined in good faith in accordance with customary practice, to be paid at the same time as bonuses are paid for that period to other eligible executives; (iii) other unpaid and then-vested amounts, including any amount payable to you under the specific terms of any agreements, plans or awards, including insurance and health and benefit plans in which you participate, unless otherwise specifically provided in this Agreement; and (iv) reimbursement for all reasonable and necessary expenses incurred by you in connection with your performance of services on behalf of the Company in accordance with applicable Company policies and guidelines, in each case as of the effective date of such termination of employment (the “*Accrued Compensation*”).
- b. Termination without Cause or Resignation for Good Reason, Absent a Change in Control. During the time period from the Start Date through the third (3<sup>rd</sup>) anniversary of the Start Date, if the Company terminates your employment without Cause or you resign your employment for Good Reason, in either case not in connection with a Change in Control (which is dealt with in Section 8(c) below), provided that (except with respect to the Accrued Compensation) you deliver to the Company a signed general release of claims in favor of the Company on the Company’s standard form of release (the “*Release*”) and satisfy all conditions to make the Release effective within sixty (60) days following your termination of employment, then, you shall be entitled to:
- i. the Accrued Compensation; and
  - ii. a lump sum payment equal to six (6) months of your then-current Base Salary, less required deductions and withholdings;
  - iii. a lump sum payment equal to fifty percent (50%) of your Actual Bonus for the then-current fiscal year based on: (x) actual achievement of Company performance objectives and (y) deemed 100% achievement of personal performance objectives, if any, less any quarterly payment previously paid, if any, subject to required deductions and withholdings and paid when annual bonuses are otherwise paid to active employees, but no later than March 15 of the year following the year in which the termination of employment occurs; and
  - iv. a payment of the COBRA premiums (or reimbursement to you of such premiums) for continued health coverage for you and your dependents for a period of six (6) months.

- c. Termination without Cause or Resignation for Good Reason, in Connection with a Change in Control. During the time period from the Start Date through the third (3<sup>rd</sup>) anniversary of the Start Date, in the event a Change in Control occurs and if the Company terminates your employment without Cause or if you resign your employment for Good Reason, in either case within the period beginning three (3) months before, and ending twelve (12) months following, such Change in Control; and provided that (except with respect to the Accrued Compensation) you deliver to the Company the signed Release and satisfy all conditions to make the Release effective within sixty (60) days following your termination of employment, then, (in lieu of any benefits pursuant to Section 8(b)), you shall be entitled to:
- i. the Accrued Compensation;
  - ii. a lump sum payment equal to six (6) months of your then-current Base Salary, less required deductions and withholdings;
  - iii. a lump sum payment equal to one hundred percent (100%) of your Target Bonus for the then-current fiscal year less any quarterly payment previously paid, if any, subject to required deductions and withholdings;
  - iv. a payment of the COBRA premiums (or reimbursement to you of such premiums) for continued health coverage for you and your dependents for a period of six (6) months; and
  - v. immediate acceleration of one hundred percent (100%) of the number of then-unvested shares subject to equity grants, unless otherwise provided (and to the extent specified) by the terms of such grants.
- d. Miscellaneous. For the avoidance of doubt, the benefits payable pursuant to Sections 9(b) through (c) are mutually exclusive and not cumulative. All lump sum payments provided in this Section 9 shall be made no later than the 60<sup>th</sup> day following your termination of employment (unless explicitly provided otherwise above). In addition, Sections 9(b) and 9(c) and the benefits conferred therein shall expire and terminate on the third (3<sup>rd</sup>) anniversary of the Start Date. Notwithstanding anything to the contrary in this Agreement, (i) any reference herein to a termination of your employment is intended to constitute a “separation from service” within the meaning of Section 409A of the Code, and Section 1.409A-1(h) of the regulations promulgated thereunder, and shall be so construed, and (ii) no payment will be made or become due to you during any period that you continue in a role with the Company that does not constitute a separation from service, and will be paid once you experience a “separation from service” from the Company within the meaning of Section 409A of the Code. In addition, notwithstanding anything to the contrary in this Agreement, upon a termination of your employment, you agree to resign prior to the time you deliver the Release from all positions you may hold with the Company and any of its subsidiaries or affiliated entities at such time, and no payment will be made or become due to you until you resign from all such positions, unless requested otherwise by the Board.

10. Parachute Payments. In the event that the severance and other benefits provided for in this Agreement or otherwise payable to you (i) constitute “parachute payments” within the meaning of Section 280G of the Code and (ii) but for this Section, would be subject to the excise tax imposed by Section 4999 of the Code, then, at your discretion, your severance and other benefits under this Agreement shall be payable either (i) in full, or (ii) as to such lesser amount which would result in no portion of such severance and other benefits being subject to the excise tax under Section 4999 of the Code, whichever of the foregoing amounts, taking into account the applicable federal, state and local income taxes and the excise tax imposed by Section 4999, results in the receipt by you on an after-tax basis, of the greatest amount of severance benefits under this Agreement, notwithstanding that all or some portion of such severance benefits may be taxable under Section 4999 of the Code. Any reduction shall be made in the following manner: first a pro-rata reduction of (i) cash payments subject to Section 409A of the Code as deferred compensation and (ii) cash payments not subject to Section 409A of the Code, and second a pro rata cancellation of (i) equity-based compensation subject to Section 409A of the Code as deferred compensation and (ii) equity-based compensation not subject to Section 409A of the Code, with equity all being reduced in reverse order of vesting and equity not subject to treatment under Treasury regulation 1.280G- Q & A 24(c) being reduced before equity that is so subject. Unless the Company and you otherwise agree in writing, any determination required under this Section shall be made in writing by the Company’s independent public accountants (the “*Accountants*”), whose determination shall be conclusive and binding upon you and the Company for all purposes. For purposes of making the calculations required by this Section, the Accountants may make reasonable assumptions and approximations concerning applicable taxes and may rely on reasonable, good faith interpretations concerning the application of Sections 280G and 4999 of the Code. The Company and you shall furnish to the Accountants such information and documents as the Accountants may reasonably request in order to make a determination under this Section. The Accountants shall deliver to the Company and you sufficient documentation for you to rely on it for purpose of filing your tax returns. The Company shall bear all costs the Accountants may reasonably incur in connection with any calculations contemplated by this Section.
11. Section 409A. To the extent (i) any payments to which you become entitled under this Agreement, or any agreement or plan referenced herein, in connection with your termination of employment with the Company constitute deferred compensation subject to Section 409A of the Code and (ii) you are deemed at the time of such termination of employment to be a “specified” employee under Section 409A of the Code, then such payment or payments shall not be made or commence until the earlier of (i) the expiration of the six (6)-month period measured from the date of your “separation from service” (as such term is at the time defined in regulations under Section 409A of the Code) with the Company; or (ii) the date of your death following such separation from service; provided, however, that such deferral shall only be effected to the extent required to avoid adverse tax treatment to you, including (without limitation) the additional twenty percent (20%) tax for which you would otherwise be liable under Section 409A(a)(1)(B) of the Code in the absence of such deferral. Upon the expiration of the applicable deferral period, any payments which would have otherwise been made during that period (whether in a single sum or in installments) in the absence of this paragraph shall be paid to you or your beneficiary in one lump sum (without interest).

Except as otherwise expressly provided herein, to the extent any expense reimbursement or the provision of any in-kind benefit under this Agreement (or otherwise referenced herein) is determined to be subject to (and not exempt from) Section 409A of the Code, the amount of any such expenses eligible for reimbursement, or the provision of any in-kind benefit, in one calendar year shall not affect the expenses eligible for reimbursement or in kind benefits to be provided in any other calendar year, in no event shall any expenses be reimbursed after the last day of the calendar year following the calendar year in which you incurred such expenses, and in no event shall any right to reimbursement or the provision of any in-kind benefit be subject to liquidation or exchange for another benefit.

To the extent that any provision of this Agreement is ambiguous as to its exemption or compliance with Section 409A, the provision will be read in such a manner so that all payments hereunder are exempt from Section 409A to the maximum permissible extent, and for any payments where such construction is not tenable, that those payments comply with Section 409A to the maximum permissible extent. To the extent any payment under this Agreement may be classified as a “short-term deferral” within the meaning of Section 409A, such payment shall be deemed a short-term deferral, even if it may also qualify for an exemption from Section 409A under another provision of Section 409A. Payments pursuant to this Agreement (or referenced in this Agreement), and each installment thereof, are intended to constitute separate payments for purposes of Section 1.409A-2(b)(2) of the regulations under Section 409A.

12. At Will Employment. Employment with the Company is for no specific period of time. Your employment with the Company will be “at will,” meaning that either you or the Company may terminate your employment at any time, with or without cause, and with or without advance notice. Any contrary representations that may have been made to you are superseded by this Agreement. This is the full and complete agreement between you and the Company on this term. Although your compensation and benefits, as well as the Company’s personnel policies and procedures, may change from time to time, the “at will” nature of your employment may only be changed in an express written agreement signed by you and a duly authorized officer of the Company (other than you).
13. Confidential Information and Other Company Policies. You will be bound by and comply fully with the Company’s standard confidentiality agreement (a form of which was been provided to you), insider trading policy, code of conduct, and any other policies and programs adopted by the Company regulating the behavior of its employees, as such policies and programs may be amended from time to time to the extent the same are not inconsistent with this Agreement, unless you consent to the same at the time of such amendment.
14. Company Records and Confidential Information.
  - i. Records. All records, files, documents and the like, or abstracts, summaries or copies thereof, relating to the business of the Company or the business of any subsidiary or affiliated companies, which the Company or you prepare or use or come into contact with, will remain the sole property of the Company or the affiliated or subsidiary company, as the case may be, and will be promptly returned upon termination of employment.
  - ii. Confidentiality. You acknowledge that you have acquired and will acquire knowledge regarding confidential, proprietary and/or trade secret information in the course of performing your responsibilities for the Company, and you further acknowledge that such knowledge and information is the sole and exclusive property of the Company. You recognize that disclosure of such knowledge and information, or use of such knowledge and information, to or by a competitor could cause serious and irreparable harm to the Company.
15. Indemnification. You and the Company will enter into the form of indemnification agreement provided to other similarly situated officers of the Company.

16. Arbitration. You and the Company agree to submit to mandatory binding arbitration, in Santa Clara County, California, before a single neutral arbitrator, any and all claims arising out of or related to this Agreement and your employment with the Company and the termination thereof, except that each party may, at its or his option, seek injunctive relief in court prior to such arbitration proceeding pursuant to applicable law. YOU AND THE COMPANY HEREBY WAIVE ANY RIGHTS TO TRIAL BY JURY IN REGARD TO SUCH CLAIMS. This agreement to arbitrate does not restrict your right to file administrative claims you may bring before any government agency where, as a matter of law, the parties may not restrict your ability to file such claims (including, but not limited to, the National Labor Relations Board, the Equal Employment Opportunity Commission and the Department of Labor). However, you and the Company agree that, to the fullest extent permitted by law, arbitration shall be the exclusive remedy for the subject matter of such administrative claims. The arbitration shall be conducted through the American Arbitration Association (the “AAA”). The arbitrator shall issue a written decision that contains the essential findings and conclusions on which the decision is based. The arbitration will be conducted in accordance with the AAA employment arbitration rules then in effect. The AAA rules may be found and reviewed at <http://www.adr.org>. If you are unable to access these rules, please let me know and I will provide you with a hardcopy. The parties acknowledge that they are hereby waiving any rights to trial by jury in any action, proceeding or counterclaim brought by either of the parties against the other in connection with any matter whatsoever arising out of or in any way connected with this Agreement.
17. Compensation Recoupment. All amounts payable to you hereunder shall be subject to recoupment pursuant to the Company’s current compensation recoupment policy, and any additional compensation recoupment policy or amendments to the current policy adopted by the Board from time to time hereafter, as allowed by applicable law.
18. Miscellaneous.
  - a. Employment Eligibility Verification. For purposes of federal immigration law, you will be required to provide to the Company documentary evidence of your identity and eligibility for employment in the United States. Such documentation must be provided to us within three (3) business days of your Start Date, or our employment relationship with you may be terminated.
  - b. Background Check. This offer is contingent upon successful completion of a criminal background check and a standard pre-employment drug test, if applicable. The Company reserves the right to withdraw its job offer based on information discovered during the pre-employment screening process. Until you have been informed in writing by the Company that such checks have been completed and the results satisfactory, you should defer reliance on this offer.
  - c. At-Will Employment, Confidential Information and Invention Assignment Agreement and Arbitration Agreement. This offer is also contingent on you signing the Company’s At-Will Employment, Confidential Information and Invention Assignment Agreement and Arbitration Agreement.

- d. Absence of Conflicts; Competition with Prior Employer. You represent that your performance of your duties under this Agreement will not breach any other agreement as to which you are a party. You agree that you have disclosed to the Company all of your existing employment and/or business relationships, including, but not limited to, any consulting or advising relationships, outside directorships, investments in privately held companies, and any other relationships that may create a conflict of interest. You are not to bring with you to the Company, or use or disclose to any person associated with the Company, any confidential or proprietary information belonging to any former employer or other person or entity with respect to which you owe an obligation of confidentiality under any agreement or otherwise. The Company does not need and will not use such information and we will assist you in any way possible to preserve and protect the confidentiality of proprietary information belonging to third parties. Also, we expect you to abide by any obligations to refrain from soliciting any person employed by or otherwise associated with any former employer and suggest that you refrain from having any contact with such persons until such time as any non-solicitation obligation expires.
- e. Successors. This Agreement is binding on and may be enforced by the Company and its successors and permitted assigns and is binding on and may be enforced by you and your heirs and legal representatives. Any successor to the Company or substantially all of its business (whether by purchase, merger, consolidation or otherwise) will in advance assume in writing and be bound by all of the Company's obligations under this Agreement and shall be the only permitted assignee.
- f. Notices. Notices under this Agreement must be in writing and will be deemed to have been given when personally delivered or two days after mailed by U.S. registered or certified mail, return receipt requested and postage prepaid. Mailed notices to you will be addressed to you at the home address which you have most recently communicated to the Company in writing. Notices to the Company will be addressed to the CEO at the Company's corporate headquarters.
- g. Waiver. No provision of this Agreement will be modified or waived except in writing signed by you and an officer of the Company duly authorized by its Board. No waiver by either party of any breach of this Agreement by the other party will be considered a waiver of any other breach of this Agreement.
- h. Severability. In the event that any provision hereof becomes or is declared by a court of competent jurisdiction to be illegal, unenforceable or void, this Agreement shall continue in full force and effect without said provision.
- i. Withholding. All sums payable to you hereunder shall be reduced by all federal, state, local and other withholding and similar taxes and payments required by applicable law.
- j. Entire Agreement. This Agreement represents the entire agreement between the parties concerning the subject matter herein and supersedes all prior agreements and understandings between you and the Company. It may be amended, or any of its provisions waived, only by a written document executed by both parties in the case of an amendment, or by the party against whom the waiver is asserted.
- k. Governing Law. This Agreement will be governed by the laws of the State of California without reference to conflict of laws provisions.

1. Survival. The provisions of this Agreement shall survive the termination of your employment for any reason to the extent necessary to enable the parties to enforce their respective rights under this Agreement.

[SIGNATURE PAGE TO AGREEMENT FOLLOWS]

Please sign and date this Agreement, and return it to me if you wish to accept employment at the Company under the terms described above.

Best regards,

/s/ Bill McDermott

Bill McDermott

Chief Executive Officer  
ServiceNow, Inc.

I, the undersigned, hereby accept and agree to the terms and conditions of my employment with the Company as set forth in this Agreement.

Accepted and agreed to this 22nd day of October, 2020:

By: /s/ Gabrielle Toledano

**CERTIFICATION OF PERIODIC REPORT UNDER SECTION 302 OF  
THE SARBANES-OXLEY ACT OF 2002**

I, William R. McDermott, certify that:

1. I have reviewed this annual report on Form 10-K of ServiceNow, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION OF PERIODIC REPORT UNDER SECTION 302 OF  
THE SARBANES-OXLEY ACT OF 2002**

I, Gina Mastantuono, certify that:

1. I have reviewed this annual report on Form 10-K of ServiceNow, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
