

**KATANA**  
CAPITAL LTD

20  
annual report  
09

Katana Capital will combine its listed investment company structure with the proven ability of its Manager (“Katana Asset Management Ltd”) to provide investors with access to comprehensive investment techniques aimed at providing strong capital and income returns.

The Company and the Manager share similar investment philosophies. The role of the Company is to assess and monitor the Manager and liaise with the Manager with respect to its Mandate as detailed in the Management Agreement. In addition, the Company will seek to identify appropriate investment opportunities for review by the Manager.

### Our investment philosophy

As an ‘All Opportunities’ fund, the underlying goal of the Manager is to assess the risk adjusted return of every potential opportunity identified by the Manager. The Manager’s intended approach includes selectively and modestly taking higher-risk positions, provided that the potential return exceeds the additional risk – preferably in terms of both value and time.

Whilst the Manager intends to combine the best principles of value investing, fundamental and technical analysis, it does not wish to be constrained by the constructs of any one approach. The key to the long-term success of the Company is seen as the capacity of the Manager to integrate the best principles of each discipline with the extensive and varied experiences of the Manager.

This is achieved by encouraging flexibility and adaptability, but within the confines of an overall framework that controls risk.

# Investment Report

## 30 June 2009

Katana Asset Management Ltd as manager ('Manager') for Katana Capital Limited ('Company') has attached a report on the performance of the Company's portfolio for the 12 months to June 30th 2009.

### Performance Summary

The 2008/09 financial year was characterised by a substantial capitulation of global equity markets as a result of the global financial crisis and was followed by a partial claw back of the significant losses. The Manager was disappointed that the fund posted a negative return despite outperforming the All Ordinaries Index once again. In percentage terms, the portfolio yielded a gross investment return of -23.57% before operating expenses and tax. The Fund's stated benchmark, the All Ordinaries index, returned -25.97% over the same period.

Katana Capital Ltd listed in December 2005 and throughout the period to 30 June 2009, the Manager has outperformed the All Ordinaries index in every financial year, producing an average investment return of 7.25% pa versus -2.30% pa for the All Ordinaries index. This equates to an average out performance of 51% per annum.

Year Ending	Return	Index	Relative Out Performance to Index
2006	9.95%	6.90%	44.20%
2007	49.03%	25.36%	93.34%
2008	-6.41%	-15.49%	58.62%
2009	-23.57%	-25.97%	9.24%
<b>Average</b>	<b>7.25%</b>	<b>-2.30%</b>	<b>51.35%</b>

### 2009 Financial Year Review

The All Ordinaries index declined by 25.97% in 2008/09 financial year (and by a total of 55.03% from its peak in November 2007) to its low-point in March 2009, producing the worst investment returns for over 70 years. In the midst of the down-turn and following the Lehman Brothers collapse, substantial and well-run companies were unable to externally fund their operations as banks severely curtailed lending and equity raisings evaporated. A massive deleveraging took place as investors scrambled to switch their investments to safe havens such as cash.

The Fund's outperformance over the financial year was largely attributable to it being overweight resources, underweight financials and its avoidance of property trusts (sectors which were particularly hard hit). Although commodity prices and therefore resource stocks were materially affected, prices subsequently rebounded as investors focused once again on growth in developing countries.

The Fund recorded operating earnings per share of -\$0.185, and a statutory accounting loss after tax of \$7,711,901 was incurred after the inclusion of net unrealised losses. The unrealised losses have no impact on the Fund's operations except they prevented the Fund from paying a final dividend. The Manager is optimistic that the Fund will be in a position to pay dividends in the foreseeable future.

As at the close of the 2009 financial year, the portfolio had cash reserves of approximately \$7.52m or 23.62% of the total value of the portfolio.

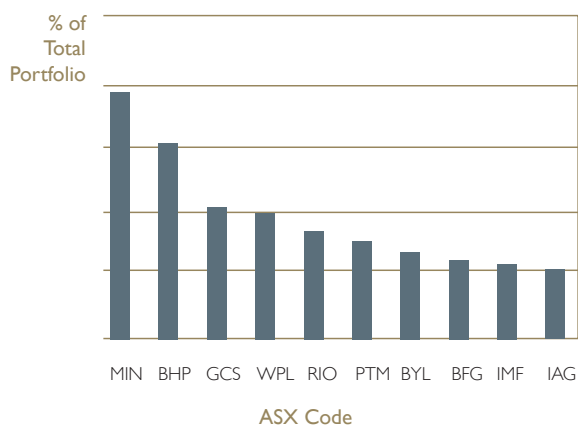

**% Portfolio Invested**

As at the end of the financial year there were 74 companies in the portfolio. This diversification continued to assist the Manager to reduce the overall risk to the portfolio.

#### Top 10 Current Holdings

#### Outlook

The global economy appears to have avoided another Great Depression due to the massive stimulus packages and highly expansionary monetary policies adopted by world governments and central banks. China is currently experiencing robust GDP growth and the U.S. economy appears to be bottoming out. Global equity markets have rallied strongly since the lows of March 9 2009 and credit markets are now functioning at the levels witnessed before the collapse of Lehman Brothers. The stabilisation of the global economy has helped put in place the first stepping stones towards the path of recovery, although the Manager believes this will be patchy as the substantial transfer of debt from the private sector to the public sector will eventually have to be repaid by taxpayers. There is also a risk that inflation could increase to elevated levels if governments over-stimulate economies in the medium-term and financial checks and balances are not put in place.

The Manager believes that interest rates have bottomed in Australia and although the unemployment rate is likely to continue to trend upwards, it should peak at around 7.5% as stimulus measures such as infrastructure spending and the increase in the first home owners grant, continue to revive key areas of the Australian economy. Although business expenditure has decreased, this could be boosted if large resource projects – such as the Gorgon LNG Project – receive timely approval. Overall, this is a remarkable turnaround, given the bleak outlook just six months ago.

Looking forward it is difficult to become too negative after global equity markets fell by over 50% from peak to trough and investor sentiment was abysmal by any measure. However, following the very sharp run-up in stock prices combined with large dilutionary equity raisings, the Manager believes it is likely that there will be a mild correction in the short-term.

The Manager is cautiously optimistic on the medium-term outlook for the Australian share market based on:

- A return to global growth, albeit at a much slower pace;
- An expectation that monetary policy will remain at expansionary levels for some time, providing sufficient liquidity;
- Generally well capitalised Australian banks (top four Australian banks now ranked in the top 8 in the world);
- A continuing belief that the commodity price cycle has longevity;
- The Australian share market is trading well below the level prior to the Lehman Brothers' collapse in September 2008;
- Improved corporate balance sheets, with many companies now focused on growth, rather than how to roll over debt;
- Vast cash holdings will eventually be reinvested in shares and other asset classes as investors seek out superior returns.

The Manager remains confident that emerging economies will not only recover quicker than the debt-laden developed economies, but will also provide substantial opportunities for investors in Australia. This is reflected in the Manager's bias towards companies which have exposure to the emerging economies.

The Manager's investment themes continue to include energy, (via thermal coal, oil, gas and uranium), funds management companies and industrial stocks that have strong cash flows, pricing power and robust business models.

### CORPORATE INFORMATION

The Company was incorporated on 19 September 2005. During the 30 June 2007 financial year it incorporated a wholly owned subsidiary Kapital Investments (WA) Pty Ltd.

Katana Capital Limited is incorporated and domiciled in Australia.

The registered office is located at 2 The Esplanade, Perth, WA 6000, Australia.

#### Principal activity

The principle activity of the Company is that of an Investment Company with an 'all opportunities' investment strategy.

#### Employees

As at 30 June 2009 the Company did not have any full time employees.

### OPERATING AND FINANCIAL REVIEW

#### Company overview

Katana Capital was incorporated in September 2005 with the aim of combining its listed investment structure with the proven ability of Katana Asset Management Limited (its "Fund Manager") to provide investors with access to comprehensive investment techniques aimed at providing strong capital and income returns.

The Fund Manager is disappointed with the performance of the portfolio, with an investment loss totalling approximately \$11.80m. The majority of these returns were generated from the downturn in equity holdings.

In percentage returns, the portfolio yielded a gross investment return of -23.57% before operating expenses and tax. This compared favourably to the Company's stated benchmark the - All Ordinaries index - which returned -25.97% over the same period.

#### Operating results for the year

The loss before tax for the year was \$11,481,608 (2008: \$4,438,000 loss) and loss after tax for the year was \$7,711,901 (2008: \$2,766,949 loss).

Operating costs for the year were kept to a minimum, with administration costs (exclusive of Fund Manager's fee) coming in at 2.05% of funds under management (2008: 1.28%).

### Investments for future performance

The Manager and Company is cautiously optimistic on the medium-term outlook for the Australian share market based on:

- A return to global growth, albeit at a much slower pace;
- An expectation that monetary policy will remain at expansionary levels for some time, providing sufficient liquidity;
- Generally well capitalised Australian banks (top four Australian banks now ranked in the top 8 in the world);
- The Australian share market is trading well below the level prior to the Lehman Brothers' collapse in September 2008;
- Improved corporate balance sheets, with many companies now focused on growth rather than how to roll over debt;
- Vast cash holdings will eventually be reinvested in shares and other asset classes as investors seek out superior returns.

The Manager and Company remains confident that emerging economies will not only recover quicker than the debt laden developed economies, but will also provide substantial opportunities for investors in Australia. This is reflected in the Manager's and Company's bias towards companies which have exposure to the emerging economies.

The Manager's and Company's investment themes continue to include energy, (via thermal coal, oil, gas and uranium), funds management companies and industrial stocks that have strong cash flows, pricing power and robust business models.

### Capital structure

There were no listed options converted into fully paid ordinary shares during the year.

### Cash from operations

Net cash flows from operations was \$1,719,047 during the year which reflects the Company's investment from the Australian equities market.

Net cash flows for the financial year ending 30 June 2010 are expected to increase subject to the Company continuing to take advantage of opportunities within the Australian equities market and the general performance of the market.

### Liquidity and funding

The Company foresees no need to raise additional equity and will use its remaining cash reserves to invest into the Australian equities market.

### Risk management

The Board is responsible for overseeing the establishment and implementation of an effective risk management system and reviewing and monitoring the Company's application of that system.

Implementation of the risk management system and day-to-day management of risk is the responsibility of the Fund Manager. The Fund Manager is primarily responsible for all matters associated with risk management associated with the Equity Markets and Investment of the Company's funds.

### SIGNIFICANT CHANGES IN STATE OF AFFAIRS

In the opinion of the directors, there were no significant changes in the state of affairs of the consolidated entity that occurred during the year.

### SIGNIFICANT CHANGES AFTER BALANCE DATE

A final dividend for the 30 June 2009 financial year has not been declared by the Company. The Directors note that there has been a significant correction in the markets in which the Company invests between the balance sheet date and the date of this report. Changes in the value of the Company's investments are reflected in the Company's Net Tangible Asset Backing per share which is reported to the Australian Securities Exchange (ASX) monthly and is available via the ASX website.

The Directors are not aware of any other matter or circumstance that has arisen since 30 June 2009 that has significantly affected, or may significantly affect:

- (a) the Company's operations in future financial years, or
- (b) the results of those operations in future financial years, or
- (c) the Company's state of affairs in future financial years.

## Directors' Report

### LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The global economy appears to have avoided another Great Depression due to the massive stimulus packages and highly expansionary monetary policies adopted by world governments and central banks. China is currently experiencing robust GDP growth and the U.S. economy appears to be bottoming out. Global equity markets have rallied strongly since the lows of March 9th 2009 and credit markets are now functioning at the levels witnessed before the collapse of Lehman Brothers. The stabilization of the global economy has helped put in place the first stepping stones towards the path of recovery, although the Investment Manager ("Manager" – Katana Asset Management Limited) and Company believes this will be patchy as the substantial transfer of debt from the private sector to the public sector will eventually have to be repaid by taxpayers. There is also a risk that inflation could increase to elevated levels if Governments over stimulate economies in the medium-term and financial checks and balances are not put in place.

The Manager and Company believes that interest rates have bottomed in Australia and although the unemployment rate is likely to continue to trend upwards, it should peak at around 7.5% as stimulus measures such as infrastructure spending and the increase in the first home owners grant, continue to revive key areas of the Australian economy. Although business expenditure has decreased, this could be boosted if large resource project – such as the Gorgon LNG. Overall, this is a remarkable turnaround, given the bleak outlook just six months ago.

Looking forward it is difficult to become too negative after global equity markets fell by over 50% from peak to trough and investor sentiment was abysmal by any measure. However, following the very sharp run up in stock prices combined with large dilutionary equity raisings, the Manager and Company believes it is likely that there will be a mild correction in the short-term.

### ENVIRONMENTAL REGULATION AND PERFORMANCE

The principal activities of the Company are not subject to any particular or significant environmental regulations.

### SHARE OPTIONS

#### Unissued shares

There were 1,000,000 unlisted options as at the date of this report expiring 19 December 2009 with an exercise price of \$1.10. These options were issued to the directors of the Company as approved by shareholders at the Annual General Meeting in November 2006.

Option holders do not have any right, by virtue of the option, to participate in any share issue of the Company.

#### Shares issued on the exercise of options

There were no options exercised during the financial year to acquire fully paid ordinary shares in the Company.

### REMUNERATION REPORT (AUDITED)

This remuneration report outlines the director and executive remuneration arrangements of the Company in accordance with the requirements of the Corporations Act 2001 and its Regulations. For the purposes of this report, key management personnel (KMP) of the Company are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company, directly or indirectly, including any director (whether executive or otherwise) and includes the five executives in the Company and group receiving the highest remuneration.

This report outlines the remuneration arrangements in place for directors of Katana Capital. Katana Capital at this early stage of its development does not employ executive directors and does not have a Managing Director or a Chief Executive Officer. The Company has outsourced the management of the investment portfolio to the Fund Manager, Katana Asset Management Ltd. Katana Asset Management Ltd reports directly to the Board and is invited to attend all Board meetings to present its investment strategy and to discuss and review the financial performance of the Company.

### (a) Details of Key Management Personnel

The following persons were directors of Katana Capital Limited during the financial year:

(i) *Chairman – Non-Executive*

Dalton Leslie Gooding

(ii) *Non-Executive directors*

Peter Wallace

Derek La Ferla (resigned 28 November 2008)

Giuliano Sala Tenna

### (b) Other key management personnel

In addition to the Directors noted above, Katana Asset Management Limited (previously named Classic Capital Pty Ltd), the Fund Manager for the Group, is considered to be Key Management Personnel with the authority for the strategic direction and management of the investments of the Group.

The directors of Katana Asset Management Limited are Brad Shallard and Romano Sala Tenna.

### Officer

The company secretary is not considered to be a key management person as he does not have the authority and responsibility for planning, directing or controlling the activities of the Company and is not involved in the decision making process, with his main duties being aligned to his compliance function.

### Remuneration philosophy

The performance of the Company depends upon the quality of its directors. To prosper, the Company must attract, motivate and retain skilled Non-Executive directors.

The remuneration policy is not linked to company performance.

The Company does not have a remuneration committee. The Board of Directors acts as the Remuneration Committee and is responsible for determining and reviewing compensation arrangements for the Company. The Board will assess the appropriateness of the nature and amount of emoluments of such officers on a periodic basis, by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality board.

### Remuneration structure

In accordance with best practice corporate governance, the structure of Non-Executive director and senior management remuneration is separate and distinct.

### (i) Non-Executive director remuneration

#### Objective

The Board seeks to set aggregate remuneration at a level which provides the Company with the ability to attract and retain directors of the highest calibre, whilst incurring a cost which is acceptable to shareholders.

#### Structure

The constitution and the ASX listing rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. An amount not exceeding the amount determined is then divided between the directors as agreed. At present the aggregate remuneration totals \$200,000 per year in respect of fees payable to non-executive directors. This amount was approved by shareholders at the annual general meeting held on the 10 November 2005.

The amount of aggregate remuneration, including the issue of options sought to be approved by shareholders and the manner in which it is apportioned amongst directors, is reviewed annually. The Board considers advice from external consultants as well as the fees paid to non-executive directors of comparable companies when undertaking the annual review process.

There are no performance conditions attached to the options issued as the options are considered to form part of the directors' remuneration package and have been issued to attract and retain quality board members. The Board considers that the majority of the Company's performance lies with the fund manager.

Each director receives a fee for being a director of the Company and includes attendance at Board and Committee meetings. Any additional services provided are charged at a daily rate agreed in advance by the Chairman.

The remuneration of non-executive directors for the year ended 30 June 2009 is detailed in Table 1 of this report.

## Directors' Report

### (ii) Officer remuneration

The company secretary is considered to be an officer of the Company, the Board seeks to set aggregate remuneration at a level which provides the Company with the ability to attract and retain the company secretary, whilst incurring a cost which is acceptable to shareholders. The fees paid to the company secretary for normal services is based on a fixed monthly remuneration. Fees remunerated outside of the company secretary's normal services are remunerated on an hourly basis and approved by the Board.

### (iii) Senior manager and executive director remuneration

As previously noted the Company at present does not employ any executive directors or senior management. If the Company chooses in the future to employ executive directors the Company will review the remuneration packages.

### Employment contracts

As noted above the Company does not currently employ any executive directors or senior management, it does however have an agreement in place with Katana Asset Management Ltd to provide the Company with investment management services.

### Compensation by other Key Management Personnel

No amount is paid by the Group directly to the Directors of Katana Asset Management Limited. Consequently, no compensation as defined in AASB 124 'Related Party Disclosures' is paid by the Group to the Directors of Katana Asset Management Limited as Key Management Personnel.

Compensation is paid to the Fund Manager in the form of fees and the significant of the agreement and the amount of compensation is disclosed below.

The Company has entered into the Management Agreement with the Fund Manager with respect to the management of the Portfolio. The main provisions of the Management Agreement are summarised below.

The Management Agreement is for an initial period of 10 years from its commencement date (Initial Term) unless earlier terminated in accordance with its terms. The commencement date (Commencement Date) is the date on which the company listed on the Australian Stock Exchange 23 December 2005.

The Management Agreement will renew for a further period of 10 years on expiry of the Initial Term if the following conditions are satisfied:

- (1) the Shareholders of the Company approve such renewal by ordinary resolution;
- (2) the Fund Manager is not in breach of the Management Agreement; and
- (3) the Fund Manager has not in the reasonable opinion of the Board materially breached the management Agreement during the Initial Term.

The Fund Manager may terminate the Management Agreement at any time by providing a written notice at least three months prior to termination, if:

- (1) at any time during the term:
  - (a) the Company fails to make payment of the remuneration in accordance with the Management Agreement and the failure continues for 21 days from the delivery of a written notice by the Fund Manager to the Company requesting payment;
  - (b) the Company enters into liquidation (except voluntary liquidation for the purpose of reconstruction);
  - (c) the Company is guilty of any gross default, breach, non observance or non performance of any of the terms of and conditions contained in the Management Agreement; or
  - (d) a receiver or receiver and manager is appointed to the whole or part of the undertakings of the Company; and
- (2) such notice is given not less than two years after the commencement of the Initial Term.

The Company may immediately terminate the Management Agreement if:

- (1) the Fund Manager or any of its directors or servants are found guilty of grave misconduct in relation to the affairs of the Company;
- (2) the Fund Manager's AFSL is suspended or cancelled at any time for any reason;

- (3) the Fund Manager commits a fundamental default or breach of its obligations under the Management Agreement or is in breach of any conditions of its AFSL and such default or breach is not remedied within 30 days after the Company has notified the Fund Manager in writing to remedy that default or breach;
- (4) the Fund Manager enters into liquidation (except voluntary liquidation for the purpose of reconstruction);
- (5) a receiver or receiver and manager is appointed to the whole or part of the undertaking of the Fund manager;
- (6) a change in control of the Fund manager occurs without the Fund Manager obtaining at least 30 days prior written consent from the Company;
- (7) the Fund Manager is guilty of any gross default, breach, non observance or non performance of any of the terms and conditions contained in the Management Agreement;
- (8) the Fund Manager fails to remedy a breach of the Management Agreement within the time period reasonably specified in a notice from the Company requiring it to do so;
- (9) the Fund Manager persistently fails to ensure that investments made on behalf of the Company are consistent with the investment strategy applicable to the Company at the time the relevant investment is made; or
- (10) the Fund Manager is not lawfully able to continue to provide services to the Company pursuant to the terms of the Management Agreement.

The Company may, by written notice to the Fund Manager at any time within six months after the end of any five year period during the term, terminate the Management Agreement if Shareholders pass an ordinary resolution to terminate and the average Portfolio return for the five 12 month periods comprising the relevant five year period is less than the average percentage increase in the ASX All Ordinaries Index for those five 12 month periods.

The Board on a regular basis reviews the Management Agreement and Mandate to ensure compliance with the terms of the agreement.

#### Management and performance fees

##### (1) Management fee

The Fund Manager receives a monthly management fee equal to 0.104167% of the Portfolio value calculated at the end of each month. The fee for 2009 was \$395,395 (2008: \$652,461). The Directors and shareholders of Katana Asset Management Ltd are also shareholders in Katana Capital Limited.

##### (2) Performance fee

Performance fee to be paid in respect of each performance calculation period of 18.5% of the amount by which the Fund Manager outperforms the ASX All Ordinaries during the calculation period (calculated annually for the 12 month period ending 30 June). The fee for 2009 was \$nil (2008: \$nil).

#### Company performance

The profit/(loss) after tax for the group from the date of incorporation (19 September 2005) is as follows:

	2009	2008	2007	19 Sept 05 to 30 June 06
<b>Profit/(loss) after tax expense</b>	<b>(\$7,711,901)</b>	(\$2,766,949)	\$7,510,531	\$1,060,378

### Options

There were 1,000,000 options issued to directors as part of their remuneration package as approved by shareholders at the Annual General Meeting held in November 2006.

As at the date of this report, the interest of the directors in the shares and options of the Company were:

Name			% remuneration consisting of options	
	Number of ordinary shares	Number of options over ordinary shares*	2009	2008
<b>Directors of Katana Capital Limited</b>				
Dalton Leslie Gooding	100,000	250,000	-	-
Peter Wallace	300,000	250,000	-	-
Derek La Ferla (resigned on 28 November 2008)	100,000	250,000	-	-
Giuliano Sala Tenna	100,000	250,000	-	-

\* Options were issued in December 2006 following approval at the shareholders Annual General Meeting held on 30 November 2006. The options are unlisted and have an exercise price of \$1.10 and expire on 19 December 2009. Options were fully vested when issued.

No options were exercised during the year.

The Company does not have a policy that prohibits Directors and Executives from entering into arrangements to protect the value of unvested options. This includes entering into contracts to hedge their exposure to options or shares granted as part of their remuneration package.

### End of Remuneration Report

## Directors' Report

### **INDEMNIFICATION OF DIRECTORS AND OFFICERS**

The total amount of insurance contract premiums paid was \$39,600 (2008: \$39,760). This amount has not been included in Directors and Executives remuneration.

### **AUDITOR INDEPENDENCE AND NON- AUDIT SERVICES**

The Directors have obtained an independence declaration from the Company's auditors Ernst & Young as presented on page 15 of this Annual Report.

### **NON-AUDIT SERVICES**

Ernst & Young did not receive any amounts for the provision of non audit services.

Signed for an on behalf of the Directors in accordance with a resolution of the Board.

# Notes to the Financial Statements

## 30 June 2009

### 1 Corporate Information

The financial report of Katana Capital Limited ("the Company") for the year ended 30 June 2009 was authorised for issue in accordance with a resolution of the directors on 22 September 2009.

The Company was incorporated on 19 September 2005. In July 2006 it incorporated a wholly owned subsidiary – Kapital Investments (WA) Pty Ltd.

Katana Capital Limited is a company limited by shares, incorporated and domiciled in Australia and whose shares are publicly traded on the Australian Stock Exchange.

The nature of the operations and principle activities are described in the Directors' Report.

### 2 Summary of Significant Accounting Policies

#### (a) Basis of preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board. The financial report has also been prepared on a historical cost basis except for the investments held for trading and derivative financial instruments, which have been measured at fair value.

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes separate financial statements for Katana Capital Limited as an individual entity and the consolidated entity consisting of Katana Capital Limited and its subsidiaries.

The financial report is presented in Australian dollars.

#### (b) Statement of compliance

The financial report complies with Australian Accounting Standards and International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

A number of Australian Accounting Standards and Interpretations have been issued or amended but are not yet effective. These have not been adopted by the Group for the annual reporting period ending 30 June 2009. The impact of these new or amended Accounting Standards whilst not expected to give rise to material changes in the Group's financial statements, are yet to be assessed.

#### (c) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of the subsidiary of Katana Capital Limited as at 30 June 2009 and the results of the subsidiary for the year then ended. Katana Capital Limited and its subsidiary together are referred to in this financial report as the "Company" or the consolidated entity.

The subsidiary is the entity (including a special purpose entity) over which the Company has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity.

The subsidiary is fully consolidated from the date on which control is transferred to the Company. It is de-consolidated from the date that control ceases.

The financial statements of the subsidiary are prepared for the same reporting period as the parent company using consistent accounting policies.

# Notes to the Financial Statements

## 30 June 2009

### 2 Summary of Significant Accounting Policies (continued)

#### (d) Investments and other financial assets

Financial assets are classified as either financial assets held for trading, loans and receivables, held to maturity investments or available for sale investments, as appropriate.

When financial assets are initially recognised they are recorded at fair value, plus in the case of investments not held for trading, directly attributable transaction costs. The Fund Manager determines the classification of its financial assets after initial recognition and when allowed and appropriate, re-evaluates this designation at each financial year end.

#### (i) Financial assets held for trading

After initial recognition investments which are classified as held for trading are measured at fair value, gains and losses on these investments are recognised in the profit and loss. For financial assets that are actively traded in organised financial markets, fair value is determined by reference to Stock Exchange quoted market bid prices at the close of business on the balance sheet date. For financial assets where there is no quoted market price, fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash flows of the underlying net asset base of the financial assets. The fair value of options is determined using an appropriate option pricing model.

Purchases and sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place are recognised on the trade date i.e. the date that the Company commits to purchase the asset.

#### (ii) Loans and receivables

Loans and receivables are non derivative financial assets with fixed and determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method.

Amortised cost is calculated by taking into account any discount or premium on acquisition. For financial assets carried at amortised cost, gains and losses are recognised in the income statement when the financial assets are derecognised or impaired, as well as through the amortisation process.

#### (iii) Derecognition of financial assets

A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired;
- the company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party lender under a "pass-through" arrangement; or
- the company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

#### (e) Revenue recognition

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below.

#### (i) Interest income

Interest income is recognised on an accruals basis using the effective interest method, which is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument to the net carrying amount of the financial instrument. Interest on cash on deposit is recognised in accordance with the terms and conditions that apply to the deposit.

**(ii) Dividends**

Dividends are recognised as revenue when the right to receive payment is established.

**(f) Income tax**

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

**(g) Cash and cash equivalents**

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

For the purposes of the Cash Flow Statement, cash and cash equivalents includes deposits held at call with banks or financial institutions.

**(h) Trade and other receivables**

Receivables may include amounts for dividends, interest and securities sold where settlement has not yet occurred. Receivables are recognised and carried at the original invoice amount and interest accrues (using the effective interest rate method, which is the rate that discounts estimated future cash receipts through the effective life of the financial instrument) to the net carrying amount of the financial asset. Amounts are generally received within 30 days of being recorded as receivables.

Collectability of trade receivables is reviewed on an ongoing basis at an operating unit level. Individual debts that are known to be uncollectible are written off when identified. An impairment provision is recognised when there is objective evidence that the Group will not be able to collect the receivable. Financial difficulties of the debtor, default payments or debts more than 60 days overdue are considered objective evidence of impairment. The amount of the impairment loss is the receivable carrying amount compared to the present value of estimated future cash flows, discounted at the original effective interest rate.

**(i) Trade and other payables**

Liabilities for creditors and other amounts are carried at amortised cost, which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Company.

Payables include outstanding settlements on the purchase of investments and distributions payable. The carrying period is dictated by market conditions and is generally less than 30 days.

# Notes to the Financial Statements

## 30 June 2009

### 2 Summary of Significant Accounting Policies (continued)

#### **(j) Interest bearing loans and borrowings**

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method.

Gains and losses are recognised in profit or loss when the liabilities are derecognised.

#### **(k) Goods and Services Tax (GST)**

Incomes, expenses and assets, with the exception of receivables and payables, are recognised net of the amount of GST, to the extent that GST is recoverable from the Australian Tax Office (ATO). Where GST is not recoverable it is recognised as part of the cost of the asset or as part of the expense item as applicable.

Reduced input tax credits (RITC) recoverable by the Company from the ATO are recognised as receivables in the Balance Sheet.

Cash flows are included in the cash flow statement on a gross basis and the GST component of the cash flows arising from investing and financing activities, which is recoverable from or payable to the taxation authority are classified as operating cash flows.

#### **(l) Earnings per share**

Basic earnings per share (EPS) is calculated as net profit attributable to shareholders divided by the weighted average number of units.

Diluted earnings per share is calculated as net profit attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares;
- divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

#### **(m) Significant accounting judgements, estimates and assumptions**

The determination of fair value of unlisted securities requires the application of a discounted cashflow valuation model. A discounted cashflow model requires that certain judgements and assumptions are made, including an estimate for the discount rate applied and an estimation of future uncertain cashflows.

The Company determines the fair value of unlisted options using the Black-Scholes formula, taking into account the terms and conditions upon which the instruments were granted. The Black-Scholes formula requires the estimation of certain assumptions including the volatility of the underlying shares and an estimation as to the anticipated date at which the option will be exercised.

## 2 Summary of Significant Accounting Policies (continued)

### (n) Derivative financial instruments

The Company uses derivative financial instruments such as exchanged traded options to manage its risks associated with share price fluctuations. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured to fair value. Derivatives are carried as assets when their fair value is positive and as liabilities when their fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to net profit or loss for the year:

#### *Exchange traded options*

The Company writes and then trades Exchange Traded Options ('ETO's'), the Company's policy for managing its risk for ETO's is to ensure it only writes ETO's against shares that it physically holds. ETO's are governed by the Australian Stock Exchange ("ASX") and are traded on the ASX.

ETO's are recognised as liabilities at fair value. Any gains or losses arising from changes in the fair value of ETO's, are taken directly to net profit or loss for the year:

### (o) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

### (p) Pension benefits

#### *Defined contribution plan*

Contributions to superannuation funds are charged to the income statement when due.

### (c) Tax consolidation legislation

Katana Capital Limited and its wholly owned Australian controlled entities implemented the tax consolidation legislation from 1 July 2007.

#### (i) Members of the tax consolidated Group and the tax sharing arrangement

Katana Capital Limited and its 100% owned Australian resident subsidiaries formed a tax consolidated Group from 1 July 2007. Katana Capital Limited is the head entity of the tax consolidated Group. Members of the Group have entered into a tax sharing agreement that provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. No amounts have been recognised in the financial statements in respect of this agreement on the basis that the possibility of default is remote.

#### (ii) Tax effect accounting by members of the tax consolidated Group

Tax expense/income, deferred tax liabilities and deferred tax assets arising from temporary differences are recognised in the separate financial statements of the members of the tax consolidated Group using the Group allocation method. Current tax liabilities and assets and deferred tax assets arising from unused tax losses and tax credits of the members of the tax consolidated Group are recognised by Katana Capital Limited, the head entity of the tax consolidated Group.

Members of the tax consolidated Group has entered into a tax funding agreement. Amounts are recognised as payable to or receivable by the Company and each member of the consolidated Group in relation to tax contribution amounts paid or payable between the parent entity and other members of the tax consolidated group in accordance with this agreement. Where the tax contribution amount recognised by each member of the tax consolidated Group for a particular period is different to the aggregate of the current tax liability or asset and any deferred tax asset arising from unused tax losses and tax credits in respect of that period, the distribution is recognised as a contribution from (or distribution to) equity participants.

## 20 Financial Risk Management

The Company's activities expose it to a variety of financial risks: market risk (including price risk and interest rate risk), credit risk and liquidity risk.

The Company's overall risk management programme focuses on ensuring compliance with the Company's Investment Mandate and seeks to maximise the returns derived for the level of risk to which the Company is exposed.

The Company uses derivative financial instruments to alter certain risk exposures. Financial risk management is carried out by the Investment Manager under policies approved by the Board of Directors (the Board).

The Company uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks and ratings analysis for credit risk.

### Mandate

The Fund Manager must manage the Portfolio in accordance with guidelines for management set out in the Mandate, which may be amended by written agreement between the Company and the Fund Manager from time to time. The Mandate provides that the Portfolio will be managed with the following investment objectives:

- to achieve a pre-tax and pre-expense return which outperforms the ASX All Ordinaries Index; and
- the preservation of capital invested. The Mandate permits the Fund Manager to undertake investments in:
  - (1) listed securities;
  - (2) rights to subscribe for or convert to listed securities (whether or not such rights are tradeable on a securities exchange);
  - (3) any securities which the Fund Manager reasonably expects will be quoted on the ASX within a 24 month period from the date of investment;
  - (4) listed securities for the purpose of short selling;
  - (5) warrants or options to purchase any investment and warrants or options to sell any investment;
  - (6) discount or purchase of bills of exchange, promissory notes or other negotiable instruments accepted, drawn or endorsed by any bank or by the Commonwealth of Australia, any State or Territory of Australia, or by any corporation of at least an investment grade credit rating granted by a recognised credit rating agency in Australia;
  - (7) deposits with any bank or corporation declared to be an authorised dealer in the short-term money market;
  - (8) debentures, unsecured notes, loan stock, bonds, promissory notes, certificates of deposit, interest bearing accounts, certificates of indebtedness issued by any bank or by the Commonwealth of Australia, any State or Territory of Australia, or any Australian government authority, or a corporation of at least an investment grade credit rating granted by a recognised credit rating agency in Australia;
  - (9) units or other interest in cash management trusts;
  - (10) underwriting or sub underwriting of securities as and where permitted by relevant laws and regulations and the Fund Manager's AFSL; and
  - (11) any other investment, or investment of a particular kind, approved by the Company in writing as and where permitted by the Fund manager's AFSL.

The Mandate specifies the following risk control features:

The Portfolio may comprise securities in up to 80 companies from time to time.

- no investment may represent more than 10.0% of the issued securities of a company at the time of investment.
- total cumulative gearing on the Portfolio may not exceed 50% of the total value of the net tangible assets of the Company after tax.
- the Fund Manager will adhere to the parameters on a per stock basis as set out in the table on page 38 unless the prior approval of the Board is received to do otherwise.

# Notes to the Financial Statements

## 30 June 2009

### Portfolio composition and management

The aim of the Fund Manager is to build for the Company a portfolio of 20 to 60 companies, with an emphasis towards holding a larger number of smaller positions. Under the current Mandate, the Company's Portfolio may vary from between 0 to 80 securities, depending upon investment opportunities and prevailing market conditions. The Fund Manager may construct a Portfolio comprising of any combination of cash, investment and debt, subject to the gearing limits in the Mandate. Under the Mandate, total cumulative gearing on the Portfolio may not exceed 50% of the total value of the net tangible assets of the Company after tax.

The capacity to short sell securities, as well as employ debt, is designed to ensure the Fund Manager has flexibility to implement an absolute return strategy. It should also be noted that, despite the focus on emerging and green chip companies, in periods of overly negative market or stock sentiment, the best investment opportunities on a risk return basis are often found in the ASX S&P Index Top 20 and ASX S&P Index Top 100 stocks by market capitalisation. Often the larger stocks rebound first, hence providing not just safer returns, but quicker returns.

Under the current Mandate, the following parameters will apply to individual investments unless the prior approval of the Directors is received to do otherwise:

Size of company	Minimum investment	Indicative investment	Maximum investment
	per security	per security	per security
As a percentage of total portfolio			
ASX S&P Top 20	1%	5%	12.5%
ASX S&P Top 100/Cash Hybrids	1%	3%	10%
ASX S&P Top 500	No minimum	2%	7.5%
Outside of ASX S&P Top 500/Other Instruments	No minimum	1%	5%

### Asset allocation

The Fund Manager's allocation of the Portfolio will be weighted in accordance with various macroeconomic factors. These factors will invariably impact the medium and long-term Performance of the Company. These factors include:

- global economy;
- Australian economy and positioning within the economic cycle;
- sectors within the Australian market;
- phase of the interest rate cycle; and
- state of the property market (eg comparative investment merit).

The Fund Manager may form views on the factors outlined above, and may re weight the Portfolio accordingly.

### (a) Market risk

#### (i) Price risk

The Company is exposed to equity securities and derivative securities price risk. This arises from investments held by the Company for which prices in the future are uncertain. Where non-monetary financial instruments are denominated in currencies other than the Australian dollar, the price in the future will also fluctuate because of changes in foreign exchange rates. Paragraph (ii) below sets out how this component of price risk is managed and measured. They are classified on the balance sheet as held for trading. All securities investments present a risk of loss of capital. Except for equities sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from equities sold short can be unlimited.

The Investment Manager mitigates this price risk through diversification and a careful selection of securities and other financial instruments within specified limits set by the Board. The mandate specifies that following risk control features:

The Portfolio may comprise securities in up to 80 companies from time to time:

- no investment may represent more than 10.0% of the issued securities of a company at the time of investment
- total cumulative gearing on the Portfolio may not exceed 50% of the total value of the net tangible assets of the Company after tax
- the Fund Manager will adhere to the parameters on a per stock basis as set out in the table below unless the prior approval of the Board is received to do otherwise.

The aim of the Fund Manager is to build for the Company a portfolio of 20 to 60 companies, with an emphasis towards holding a larger number of smaller positions. Under the current Mandate, the Company's Portfolio may vary from between 0 to 80 securities, depending upon investment opportunities and prevailing market conditions. The Fund Manager may construct a Portfolio comprising of any combination of cash, investment and debt, subject to the gearing limits in the Mandate. Under the Mandate, total cumulative gearing on the Portfolio may not exceed 50% of the total value of the net tangible assets of the Company after tax.

The capacity to short sell securities, as well as employ debt, is designed to ensure the Fund Manager has flexibility to implement an absolute return strategy. It should also be noted that, despite the focus on emerging and green chip companies, in periods of overly negative market or stock sentiment, the best investment opportunities on a risk return basis are often found in the ASX S&P Index Top 20 and ASX S&P Index Top 100 stocks by market capitalisation. Often the larger stocks rebound first, hence providing not just safer returns, but quicker returns.

The table on page 40 summarises the impact of an increase/decrease in the Australian Securities Exchange All Ordinaries Index on the Company's net assets attributable to shareholders at 30 June 2009. The analysis is based on the assumptions that the index increased/decreased by 10% (2008 – 10%) with all other variables held constant and that the fair value of the Company's portfolio of equity securities and derivatives moved according to the historical correlation with the index. The impact mainly arises from the possible change in the fair value of listed equities, unlisted unit trusts and equity derivatives.

*(ii) Foreign exchange risk*

The Company does not hold any monetary and non monetary assets denominated in currencies other than the Australian dollar.

*(iii) Interest rate risk*

The Company's interest bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis.

Compliance with the Company's policy is reported to the Board on a monthly basis. The Company may also enter into derivatives financial instruments to mitigate the risk of future interest rate changes.

## Notes to the Financial Statements 30 June 2009

The table below summarises the Company's exposure to financial assets/liabilities at the balance sheet date.

	<b>Weighted Average Interest Rate (% pa)</b>	<b>Year ended Consolidated 30 June 2009</b>	30 June 2008	<b>Year ended Parent 30 June 2009</b>	30 June 2008

Cash and short-term deposits – floating	3.62%	<b>7,073,484</b>	5,851,873	<b>7,073,484</b>	5,604,607
Current receivables	-%	<b>16,803</b>	94,600	<b>16,803</b>	94,600
Due from brokers – for securities sold	-%	<b>761,108</b>	187,982	<b>761,108</b>	187,982
Financial assets held for trading	-%	<b>24,051,056</b>	38,627,420	<b>24,051,056</b>	38,627,420
Non-current receivables	-%	-	-	-	251,259
		<b>31,902,451</b>	w44,761,875	<b>31,902,451</b>	44,765,868
<b>Financial Liabilities</b>					
Payables	-%	<b>164,718</b>	201,595	<b>164,718</b>	201,595
Due to brokers – payable for securities purchased	-%	<b>275,638</b>	1,202,648	<b>275,638</b>	1,202,648
Financial liabilities held for trading	-%	<b>54,200</b>	-	<b>54,200</b>	-
		<b>494,556</b>	1,404,243	<b>494,556</b>	1,404,243

### (b) Summarised sensitivity analysis

The table below summarises the impact of an increase/decrease of interest rates on the Company's operating profit and net assets attributable to shareholders through changes in fair value or changes in future cash flows. The analysis is based on the assumption that interest rates changed by +/- 50 basis points (2008: +/- 50 basis points) from the year end rates with all other variables held constant. The impact mainly arises from changes in the fair value of fixed interest securities.

The following table summarises the sensitivity of the Company's operating profit and equity to interest rate risk and price risk. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in interest rates and historical correlation of the Company's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Company invests. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables.

	<b>Price Risk</b>		<b>Interest Rate Risk</b>	
	<b>-10%</b>	<b>+10%</b>	<b>-50bps</b>	<b>+50bps</b>
	<b>Impact on Operating Profit/Equity</b>			
30 June 2009	(2,405,106)	2,405,106	(24,016)	24,016
30 June 2008	(3,862,742)	3,862,742	(36,955)	36,955

**(c) Credit risk**

Credit risk primarily arises from investments in debt securities and from trading derivative products. Other credit risk arises from cash and cash equivalents, deposits with banks and other financial institutions and amounts due from brokers. None of these assets are impaired nor past due but not impaired

As at 30 June 2009 the Company does not hold any debt securities.

The Company does trade in Exchange Traded Options. The Investment Manager has established limits such that, at any time, such that options are not traded without holding the physical security in the portfolio and contracts are with counterparties included in the Board's Approved Counterparties list. As at 30 June 2009 the Company held three Exchange Traded Options. Compliance with the Company's policy is reported to the Board on a monthly basis.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets.

The majority of cash assets are held with one bank.

**(d) Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments. Cash flow interest rate risk is the risk that future cash flows on a financial instrument will fluctuate because of changes in the market interest rates.

To control liquidity and cash flow interest rate risk, the Company invests in financial instruments which under normal market conditions are readily convertible to cash. In addition the Company invests within the Mandate guidelines to ensure that there is no concentration of risk.

The Company does not hold derivatives.

Financial liabilities of the Company comprise trade and other payables, distributions payable to shareholders. Trade and other payables have no contractual maturities but are typically settled within 30 days.

**(e) Fair value estimation**

The carrying amounts of financial instruments recorded in the financial statements represent their fair value determined in accordance with the accounting policies recorded in note 2.

- Fair value in an active market

The fair value of financial instruments traded in active markets is based on their quoted market prices at balance sheet date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices, while financial liabilities are priced at current asking prices.

**21 Segment Information****Business segments**

The Company operates solely in the financial investment industry.

**Geographical segments**

The Company operates from one geographic location, being Australia, from where its investing activities are managed.

# Notes to the Financial Statements

Adjustments for calculation of diluted earnings per share:		
Options	-	-
<i>Weighted average number of ordinary shares and potential ordinary shares used as the denominator in calculating diluted earnings per share</i>	<b>41,620,466</b>	41,684,440

Basic earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

The options outstanding at 30 June 2009, as disclosed in Note 15 are not dilutive for the year ended 30 June 2009.

The weighted average number of converted and lapsed potential ordinary shares included in diluted earnings per share calculation is nil for the year ended 30 June 2009 (2009: nil).

### 23 Commitments and Contingencies

There are no contingent liabilities or contingent assets as at 30 June 2009 (2008: nil).

Katana Capital Limited has entered into a 10 year Management Agreement with the Fund Manager, Katana Asset Management Ltd. Under the terms of the contract the Fund Manager the Manager is obliged to manage the investment portfolio on behalf of Katana Capital Limited. A management fee is payable to the manager as follows:

- the Fund Manager will receive a monthly management fee equal to 0.104167% of the portfolio value calculated at the end of the month
- performance fee to be paid in respect of each performance calculation period of 18.5% of the amount by which the Fund Manager outperforms the ASX All Ordinaries during the calculation period (calculated annually for the 12 month period ending 30 June).

### 24 Events Occurring After the Balance Sheet Date

A final dividend for the 30 June 2009 financial year has not been declared by the Company. The Directors note that there has been a significant correction in the markets in which the Company invests between the balance sheet date and the date of this report. Changes in the value of the Company's investments are reflected in the Company's Net Tangible Asset Backing per share which is reported to the Australian Securities Exchange (ASX) monthly and is variable via the ASX website.

### 26 Dividends

	<b>Year ended Parent</b>	
	<b>30 June</b>	30 June
	<b>2009</b>	2008
	<b>\$</b>	\$
Final dividend for the year ended 30 June 2008 of 1.0 cents (2007 – 2.5 cents) per fully paid share paid on 20 November 2008 (2007 – 8 November 2007) Fully franked (2007 – 37% franked) based on tax paid @ 30% – 1 cents (2007 – 2 cents interim & 2 cents special) per share	<b>416,848</b>	1,042,120
Interim dividend for the year ended 30 June 2009 of NIL cents (2008 – 2 cents) per fully paid share (2008 – paid 30 April 2008) NIL franked (2008– fully franked) based on tax paid @ 30% – NIL cents (2008 – 2 cents interim) per share	-	833,680
Total dividends provided for or paid	<b>416,848</b>	1,875,800
Dividends paid in cash or satisfied by the issue of shares under the dividend reinvestment plan during the years ended 30 June 2009 and 2008 were as follows:		
Paid in cash	<b>416,848</b>	1,875,800
	<b>416,848</b>	1,875,800

	<b>Year ended Consolidated</b>		<b>Year ended Parent</b>	
	<b>30 June</b>	30 June	<b>30 June</b>	30 June
	<b>2009</b>	2008	<b>2009</b>	2008
	<b>\$</b>	\$	<b>\$</b>	\$
Franking credits available for subsequent financial years based on a tax rate of 30% (2008: 30%)	<b>487,495</b>	249,124	<b>487,495</b>	249,124

The above amounts represent the balance of the franking account as at the end of the financial year; adjusted for:

- franking credits that will arise from the payment of the amount of the current tax liability;
- franking debits that will arise from the payment of dividends recognised as a liability at the reporting date;
- franking credits that will arise from the receipt of dividends recognised as receivables at the reporting date; and
- franking credits that may be prevented from being distributed in subsequent financial years.

## Directors' Declaration

In the Directors' opinion:

**(a) the financial statements and notes of the consolidated entity set out on pages 17 to 46 are in accordance with the Corporations Act 2001, including:**

- (i) complying with Accounting Standards, Corporations Regulations 2001 and other mandatory professional reporting requirements; and
- (ii) giving a true and fair view of the Company's and consolidated entity's financial position as at 30 June 2009 and of their performance for the financial year ended on that date; and

**(b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and**

**(c) The financial statements are in accordance with the provisions of the Company's Constitution.**

The directors have been given the declarations by the fund manager's required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the directors.

On behalf of the Board  
Katana Capital Limited

Dalton Gooding

## Independent auditor's report to the members of Katana Capital Limited

### Report on the Financial Report

We have audited the accompanying financial report of Katana Capital Limited, which comprises the balance sheet as at 30 June 2009, and the income statement, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

### *Directors' Responsibility for the Financial Report*

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with the Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 2, the directors also state that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards as issued by the International Accounting Standards Board.

### *Auditor's Responsibility*

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Independence*

In conducting our audit we have met the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the directors' report.

# Auditor's Report

## Auditor's Opinion

In our opinion:

1. the financial report of Katana Capital Limited is in accordance with the *Corporations Act 2001*, including:
  - i giving a true and fair view of the financial position of Katana Capital Limited and the consolidated entity at 30 June 2009 and of their performance for the year ended on that date; and
  - ii complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*.
2. the financial report also complies with International Financial Reporting Standards as issued by the International Accounting Standards Board.

## Report on the Remuneration Report

We have audited the Remuneration Report included in pages 6 to 12 of the directors' report for the year ended 30 June 2009. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

## Auditor's Opinion

In our opinion the Remuneration Report of Katana Capital Limited for the year ended 30 June 2009 complies with section 300A of the *Corporations Act 2001*.

## Corporate Governance Statement

The Board of Directors of Katana Capital Limited (Katana) is responsible for the corporate governance of the consolidated entity. The Board guides and monitors the business and affairs of Katana on behalf of the shareholders by whom they are elected and to whom they are accountable.

In accordance with the ASX Corporate Governance Council's corporate governance guidelines contained in Corporate Governance Principles and Recommendations (Second Edition Corporate Governance Guidelines), the Katana Corporate Governance Statement contains certain specific information and discloses the extent to which the Company has followed the guidelines during the period. Where a recommendation has not been followed it is disclosed together with reasons for the departure.

The Katana Corporate Governance Statement is structured with reference to the Second Edition Corporate Governance Guidelines, which are as follows:

Principle 1 Lay solid foundations for management and oversight

Principle 2 Structure the board to add value

Principle 3 Promote ethical and responsible decision making

Principle 4 Safeguard integrity in financial reporting

Principle 5 Make timely and balanced disclosure

Principle 6 Respect the rights of shareholders

Principle 7 Recognise and manage risk

Principle 8 Remunerate fairly and responsibly

For further information on corporate governance policies adopted by Katana, refer to our website [www.katanacapital.com.au](http://www.katanacapital.com.au)

In carrying out their responsibilities the Fund Manager must report to the Board in a timely manner and ensure all reports to the Board present a true and fair view of the Company's financial condition and operational results.</p> <p data-bbox="280 1825 948 1859">Matters which are not covered by the delegations require Board approval.</p> <p data-bbox="280 1865 1251 1971">The Corporate Governance Statement is available on the Company's website in the Corporate Governance section.</p>	<p data-bbox="1315 719 1441 752"></p> <p data-bbox="1315 759 1441 2076" style="text-align: center;">✓</p>

## Corporate Governance Statement

Principle	Corporate Governance best practice recommendation	Compliance	How we comply
1.2	Disclose the process for evaluating the performance of senior executives	✓	There are no senior executives in the Company, however the board reviews the performance of the Fund Manager in accordance with the Mandate. Refer to Annual Report for Katana's mandate with the Fund Manager.
1.3	Provide the following information in the annual report:		
1.3.1	An explanation of any departure from recommendations 1.1, 1.2 and 1.3		Not applicable.
1.3.2	Whether a performance evaluation for senior executives has taken place in the reporting period and whether it was in accordance with the process disclosed.	✓	Refer 1.2, performance of the Fund Manager is reviewed by the board in accordance with the Fund Manager's Mandate.
2.1	A majority of the Board should be independent directors	✓	The majority of the Board is independent where an independent director is a non-executive director who meets the criteria for independence included in the ASX Best Practice Recommendations. The company currently has two out three of its directors classified as independent directors.
2.2	The chairperson should be an independent director	✗	The Chairman, Mr Gooding as noted above in 2.1 does not meet the Governance Council's independence criteria, however the board believes that Mr Gooding will at all times act independently and discharge his duties for the benefit of all shareholders.  Mr Gooding is not strictly independent as noted above due to him being a Partner of Chartered Accounting firm Gooding Pervan, which from time to time provides professional tax advice as required on a commercial basis, for further information refer to the related party note in the accounts. This is not considered to be a material transaction for Mr Gooding.
2.3	The roles of chairperson and chief executive officer should not be exercised by the same individual	✓	As noted in 1.1 & 1.2 above Katana does not employ a Chief Executive Officer but instead has a Mandate with the Fund Manager which covers some of the functions a traditional Chief Executive Officer would ordinarily perform. The Chairman, Mr Dalton Gooding, facilitates the relationship between the Board and the Fund Manager.

Principle	Corporate Governance best practice recommendation	Compliance	How we comply
2.4	The Board should establish a nomination committee	✘	<p>The Board does not have a Nomination Committee. The duties of such committee have been considered and adopted by the full Board.</p> <p>The Company does not have a documented procedure for the selection and appointment of directors. The Board informally reviews the skill set of and market expectations for its directors on a regular basis and considers these factors when appointing/re-electing directors. The Board invites persons with relevant industry experience and financial experience to assist it in its appointment of directors.</p>
2.5	The process for evaluating the performance of the Board, its committees and individual directors should be disclosed.	✓	<p>The Company does not have a documented procedure for the evaluating the performance of the Board, its committees and directors.</p> <p>An evaluation of the performance of the Board and its directors is undertaken informally each year. The Chairman of the Board is the driver of this process. This year the Chairman conducted interviews with each director.</p> <p>The evaluation of the performance of the Board's various committees is undertaken on an exception basis. This is also an informal process which is driven by the Chairman of the Board.</p>
2.6	Provide the following information in the annual report:		
2.6.1	The skills, expertise and experience relevant to the position of director held by each director in office at the date of the annual report	✓	Provided in the Annual Report.
2.6.2	The names of the directors considered by the Board to be independent directors and the Company's materially thresholds	✓	Provided in the Annual Report.
2.6.3	A statement as to whether there is a procedure agreed by the Board of directors to take independent professional advice at the expense of the Company	✓	Individual directors have the right in connection with their duties and responsibilities as directors to seek independent professional advice at the Company's expense. The engagement of an outside adviser is subject to prior approval of the Chairman and this will not be withheld unnecessarily. If appropriate, any advice so received will be made available to all Board members.
2.6.4	The Board should state its reasons if it considers a director to be independent notwithstanding that the director does not meet the definition of independence contained in the ASX Guidelines	✓	Refer 2.2.

## Corporate Governance Statement

Principle	Corporate Governance best practice recommendation	Compliance	How we comply
2.6.5	The period of office held by each director in office at the date of the annual report	✓	Provided in the Annual Report.
2.6.6	The names of members of the nomination committee and their attendance at meetings of the committee	✓	Provided in the Annual Report.
2.6.7	Whether a performance evaluation for the Board, its committees and directors has taken place in the reporting period and whether it was in accordance with the process disclosed	✓	An evaluation of the Board, its committees and directors was undertaken and was in accordance with the process disclosed at 2.5.
2.6.8	<p>An explanation of any departure from recommendations 2.1, 2.2, 2.3, 2.4 and 2.5</p> <p>The following material should be made publicly available, ideally on the Company's website in a clearly marked corporate governance section:</p> <p>(a) a description of the procedure for the selection and appointment of new directors to the Board</p> <p>(b) the charter of the nomination committee or a summary of the role, rights, responsibilities and membership requirements for the committee</p> <p>(c) the nomination committee's policy for the appointment of directors</p>	<p>✗</p> <p>✗</p> <p>✗</p>	<p>Refer to comments at 2.1 and 2.2.</p> <p>Refer 2.4 – The Board informally reviews the skill set of and market expectations for its directors on a regular basis and considers these factors when appointing/re-electing directors. The Board invites persons with relevant industry experience and financial experience to assist it in its appointment of directors.</p> <p>Refer 2.4</p> <p>Refer 2.4</p>

Principle	Corporate Governance best practice recommendation	Compliance	How we comply
3.1	Establish a code of conduct and disclose the code or a summary of the code as to: <ul style="list-style-type: none"> <li>(a) the practices necessary to maintain confidence in the Company's integrity;</li> <li>(b) the practices necessary to take into account their legal obligations and the reasonable expectations of their stakeholders;</li> <li>(c) the responsibility and accountability of individuals for reporting and investigating reports of unethical practices;</li> </ul>	✓  ✓  ✓  ✓	The Company has implemented a suite of policies including a Code of Business <b>Conduct which provides guidelines aimed at maintaining high ethical standards</b> and corporate behaviour. The principals of the policies include: <ul style="list-style-type: none"> <li>• Respect the law and act in accordance with it;</li> <li>• Respect confidentiality and not misuse company information, assets or resources;</li> <li>• Avoid real or perceived conflicts of interest;</li> <li>• Act in the best interest of stakeholders; and</li> <li>• Perform their duties in ways that minimise environmental impacts and maximise workplace safety.</li> </ul> Directors and employees are expected to comply with all Company policies and to act professionally with integrity, honesty and responsibility at all times.
3.2	Establish a policy concerning trading in Company securities by directors, senior executives and employees and disclose the policy or a summary of the policy	✓	The Company's security trading policy imposes basic trading restrictions on all directors and officers (including the Fund Manager) of the Company with "inside information" and additional trading restrictions on the directors of the Company. "Inside information" is information that: <ul style="list-style-type: none"> <li>• Is not generally available; and</li> <li>• If it were generally available, it would, or would be likely to influence investors in deciding whether to buy or sell the Company's securities.</li> </ul> Directors and employees are prohibited from trading in the Company's securities where they possess information which is not generally available and that information, if readily available, may have a material effect on the share price of the Company. Further, directors, officers and employees involved in the preparation and release of financial statements may not trade in the company's securities for the period commencing four weeks prior to the announcement of the results.

## Corporate Governance Statement

Principle	Corporate Governance best practice recommendation	Compliance	How we comply
3.3	Provide the following information in the annual report:		
3.3.1	An explanation of any departure from recommendations 3.1, 3.2 and 3.3 The following material should be made publicly available, ideally on the Company's website in a clearly marked corporate governance section:	✓	Not applicable
	(a) any applicable code of conduct or a summary of its main provisions	✓	The Code of Conduct is available on the Company's website in the Shareholder Corporate Governance section.
	(b) the trading policy or summary of its main provisions	✓	The Share Trading Policy on Dealing Rules for Employees and Directors is available on the Company's website in the Corporate Governance section.
4.1	The Board should establish an audit committee	✓	The Audit, Compliance and Risk Committee assists the Board to meet its oversight responsibilities in relation to the Company's financial reporting, internal control structure, risk management procedures and the internal and external audit function. In doing so, it is the Audit and Risk Committee's responsibility to maintain free and open communications between the Committee, the external auditors, the internal auditors and the management of the Company.
4.2	Structure the audit committee so that it consists of: a) only non-executive directors b) majority of independent directors c) independent chairperson, who is not the chairperson of the Board d) at least three members	✓ ✓ ✓ ✓	The committee complies with the structure as required by the Best Practice Recommendation 4.2.
4.3	The audit committee should have a formal charter	✓	The Audit, Compliance and Risk Committee Charter is available on the Company's website in the Corporate Governance section.
4.4	Provide the following information in the annual report:		
	(a) Details of the names and qualifications of those appointed to the audit committee and their attendance at meetings of the committee	✓	Refer to Director's Report
	(b) The number of meetings of the audit committee	✓	Refer to Director's Report

Principle	Corporate Governance best practice recommendation	Compliance	How we comply
	<p>The following material should be made publicly available, ideally on the Company's website in a clearly marked corporate governance section:</p> <p>(a) the audit committee charter</p> <p>(b) information on procedures for the selection and appointment of the external auditor; and for the rotation of external audit engagement partners</p>	<p>✓</p> <p>✓</p>	<p>The charter of the Audit, Compliance and Risk Committee is available on the Company's website in the Corporate Governance section.</p> <p>The committee manages the relationship between the Company and external auditor on behalf of the Board. It recommends to the Board potential auditors for appointment, re-appointment or replacement, the terms of engagement and remuneration of the external auditor.</p>
5.1	<p>Establish written policies and procedures designed to ensure compliance with ASX Listing Rule disclosure requirements and to ensure accountability at a senior executive level for that compliance. These policies or a summary of the policies should be disclosed.</p>	✓	<p>The Company's continuous disclosure policy has been adopted to ensure compliance with obligations under the continuous disclosure regime of the Corporations Law and the Listing Rules of the Australian Stock Exchange Limited and to ensure that all Katana shareholders have access to material information about the Company and its prospects.</p> <p>The disclosure obligations include:</p> <p>All employees, Company officers and Directors must comply with the ASX Listing Rules and Corporations Law provisions relating to a timely disclosure of price sensitive information to the ASX. The Company does this by releasing written announcements to the ASX.</p> <p>The Fund Manager together with the board are accountable for the establishment, communication and maintenance of this policy and ensuring that material information is disclosed to the ASX.</p>
5.2	<p>Provide the following information in the annual report:</p>		
5.2.1	<p>An explanation of any departures from recommendations 5.1 and 5.2 and reasons for the departure</p>		Not applicable.
5.2.2	<p>The following material should be publicly available, ideally on the Company's website in a clearly marked corporate governance section:</p> <ul style="list-style-type: none"> <li>A summary of the policies and procedures designed to guide compliance with Listing Rule disclosure requirements</li> </ul>	✓	<p>The Company's Shareholder Communications Policy is available on the Company's website in the Corporate Governance section.</p>

## Corporate Governance Statement

Principle	Corporate Governance best practice recommendation	Compliance	How we comply
6.1	Design and disclose a communications strategy to promote effective communication with shareholders and encourage effective participation at general meetings	✓	<p>The Company places considerable importance on effective communications with shareholders and other stakeholders. Katana's communication strategy requires communication with shareholders and other stakeholders in an open, regular and timely manner so that the market has sufficient information to make informed investment decisions on the operations and results of the company. The strategy provides for the use of systems that ensure a regular and timely release of information about the company is provided to shareholders. Mechanisms employed include:</p> <ul style="list-style-type: none"> <li>• Announcements lodged with ASX;</li> <li>• Half Yearly Report</li> <li>• Monthly Net Tangible Asset Backing ASX disclosure;</li> <li>• Presentations at the Annual General Meeting;</li> <li>• Annual Report</li> <li>• Promote effective communication with shareholders; and</li> <li>• Encourage shareholder participation at AGMs.</li> </ul>
6.2	Provide the following information in the annual report:		
6.2.1	An explanation of any departures from recommendation and reasons for the departure		Not applicable.
6.2.2	The Company should describe how it will communicate with its shareholders publicly, ideally by posting this information on the company's website in a clearly marked corporate governance section.	✓	The Company's Shareholder Communications Policy is available on the Company's website in the Corporate Governance section.

Principle	Corporate Governance best practice recommendation	Compliance	How we comply
7.1	The Company should establish policies on risk oversight and management.	✓	<p>The Company is committed to the identification; monitoring and management of risks associated with its business activities and has embedded in its management and reporting systems a number of risk management controls. The Fund Manager is charged with implementing appropriate risk management systems within the Company and in particular with the investment process.</p> <p>The Board monitors and receives advice on areas of operational and financial risk, and considers strategies for appropriate risk management arrangements.</p> <p>Specific areas of risk identified initially and which will be regularly considered at Board meetings include financial performance, performance of portfolio, compliance within regulatory framework, markets, statutory compliance and continuous disclosure obligations. The Fund Manager has its own Investment Committee that regularly reviews the Company's portfolio and reviews the performance of individual stocks. The Investment Committee also makes recommendations on significant investments and conducts its own research to assist with this process.</p> <p>The annual report details material financial and investment risks which arose during the reporting period (see notes to financial statements).</p>
7.2	The Board should require management to design and implement the risk management and internal control system to manage the company's material risks and report to it on whether those risks are being managed effectively. The Board should disclose that management has reported to it as to the effectiveness of the company's management of its material business risks.	✓	As part of the reporting process the Fund Manager has provided the Board prior to the Board approving the annual and half-yearly accounts, a written statement that the integrity of the financial statements (as per ASX Recommendation 4.1) are founded on a system of risk management and internal compliance and control which implements the Board's policies and the Company's risk management and internal control system is operating efficiently and effectively in all material matters.

## Corporate Governance Statement

Principle	Corporate Governance best practice recommendation	Compliance	How we comply
7.3	The Board should disclose whether it has received assurance from the Chief Executive Officer and the Chief Financial Officer that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks	✓	The Board has received assurance from the Fund Manager that the s295A declaration is founded on a sound system of risk management and internal control and the system is operating effectively in all material respects in relation to financial risks.
7.4	Provide the following information in the annual report:		
7.4.1	An explanation of any departures from recommendations 7.1, 7.2, 7.3 and 7.4 and reasons for the departure		Not applicable.
7.4.2	Whether the Board has received the report from management under recommendation 7.2	✓	The Board has received the report from the Fund Manager pursuant to recommendation 7.2 and periodically receives and reviews a summary of significant risks.
7.4.3	Whether the Board has received assurance from the Chief Executive Officer and Chief Financial Officer under recommendation 7.3	✓	The Board has received the assurance in accordance with recommendation 7.3
	The following material should be made publicly available, ideally on the Company's website in a clearly marked corporate governance section: <ul style="list-style-type: none"> <li>a summary of the Company's policies on risk oversight and management of material business risks</li> </ul>	✓	The charter of the Audit and Risk Committee is available on the Company's website in the Corporate Governance section.
8.1	The Board should establish a remuneration committee	✗	As the company does not presently have any employees including employment of a Managing Director and Senior Executives there is no requirement for remuneration committee
8.2	Companies should clearly distinguish the structure of non-executive directors' remuneration from that of executive directors and senior executives	✓	Refer Director's Report

Principle	Corporate Governance best practice recommendation	Compliance	How we comply
8.3	Provide the following information in the annual report:		
8.3.1	the names of the members of the remuneration committee and their attendance at meetings of the committee, or where the Company does not have a remuneration committee, how the functions of a remunerations committee are carried out	✘	Refer 8.1
8.3.2	the existence and terms of any schemes for retirement benefits, other than superannuation, for non-executive directors	✓	Refer Director's Report
8.3.3	<p>An explanation of any departures from recommendation 8.1, 8.2 and 8.3 and reasons for the departure</p> <p>The following material should be made publicly available, ideally on the Company's website in a clearly marked corporate governance section:</p> <p>(a) the charter of the remuneration committee or a summary of the role, rights, responsibilities and membership requirements for that committee;</p> <p>(b) a summary of the company's policy on prohibiting entering into transactions in associated products which limit the economic risk of participating in unvested entitlements under any equity-based remuneration schemes.</p>	<p>✘</p> <p>✓</p>	<p>Not applicable</p> <p>Refer 8.1</p> <p>The Company does not enter into transactions in associated products which limit the economic risk of participating in unvested entitlements under any equity-based remuneration schemes.</p>
