**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

Form 10-K

(Mark One)

ANNUAL REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended September 30, 2019

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

Commission File Number 333-139298

Bridgeline Digital, Inc.

(Exact name of registrant as specified in its charter)

Delaware
State or Other Jurisdiction of Incorporation

52-2263942
IRS Employer Identification No.

100 Summit Drive
Burlington, Massachusetts
(Address of Principal Executive Offices)

01803
(Zip Code)

(781) 376-5555
(Registrant's telephone number)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of exchange on which registered
Common Stock, \$0.001 par value per share	BLIN	The NASDAQ Stock Market, LLC

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes
No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes
No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934, as amended ("Exchange Act") during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant was approximately \$2,598,601 based on the closing price of \$8.00 of the issuer's common stock, par value \$0.001 per share, as reported by the NASDAQ Stock Market on March 31, 2019.

On December 10, 2019, there were 2,798,475 shares of the registrant's common stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE: NONE

Forward Looking Statement

Statements contained in this Annual Report on Form 10-K that are not based on historical facts are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by the use of forward-looking terminology such as “should,” “could,” “may,” “will,” “expect,” “believe,” “estimate,” “anticipate,” “intends,” “continue,” or similar terms or variations of those terms or the negative of those terms. These statements appear in a number of places in this Form 10-K and include statements regarding the intent, belief or current expectations of Bridgeline Digital, Inc. Forward-looking statements are merely our current predictions of future events. Investors are cautioned that any such forward-looking statements are inherently uncertain, are not guaranties of future performance and involve risks and uncertainties. Actual results may differ materially from our predictions. Important factors that could cause actual results to differ from our predictions include the impact of the weakness in the U.S. and international economies on our business, our inability to manage our future growth effectively or profitably, fluctuations in our revenue and quarterly results, our license renewal rate, the impact of competition and our ability to maintain margins or market share, the limited market for our common stock, the volatility of the market price of our common stock, the ability to maintain our listing on the NASDAQ Capital Market, the ability to raise capital, the performance of our products, our ability to respond to rapidly evolving technology and customer requirements, our ability to protect our proprietary technology, dependence on third parties, the security of our software and response to cyber security risks, our ability to meet our financial obligations and commitments, our dependence on our management team and key personnel, our ability to hire and retain future key personnel, our ability to maintain an effective system of internal controls, and our ability to respond to government regulations. Although we have sought to identify the most significant risks to our business, we cannot predict whether, or to what extent, any of such risks may be realized, nor is there any assurance that we have identified all possible issues which we might face. We assume no obligation to update our forward-looking statements to reflect new information or developments. We urge readers to review carefully the risk factors described herein and in the other documents that we file with the Securities and Exchange Commission. You can read these documents at www.sec.gov.

Where we say “we,” “us,” “our,” “Company” or “Bridgeline” or “Bridgeline Digital” we mean Bridgeline Digital, Inc.

PART I**Item 1. Business.****Overview**

Bridgeline Digital, The Digital Engagement Company™, helps customers maximize the performance of their full digital experience from websites and intranets to eCommerce experiences. Bridgeline’s Unbound platform is a Digital Experience Platform that deeply integrates Web Content Management, eCommerce, eMarketing, Social Media management, and Web Analytics (Insights) with the goal of assisting marketers to deliver exceptional digital experiences that attract, engage, nurture and convert their customers across all channels. Bridgeline offers a core accelerator framework for rapidly implementing digital experiences on the Bridgeline Unbound Platform which provides customers with cost-effective solutions in addition to velocity to market.

Bridgeline’s Unbound platform combined with its professional services assists customers in digital business transformation, driving lead generation, increasing revenue, improving customer service and loyalty, enhancing employee knowledge, and reducing operational costs. The Bridgeline Unbound platform bridges the gaps between web content management, eCommerce, eMarketing, social and web analytics by providing all of these components in one unified and deeply integrated platform.

Our Unbound Franchise product empowers large franchises, healthcare networks, associations/chapters and other multi-unit organizations to manage a large hierarchy of digital properties at scale. The platform provides an easy-to-use administrative console that enables corporate marketing to provide consistency in branding and messaging while providing flexible publishing capabilities at the local-market level. The platform empowers brand networks to unify, manage, scale and optimize a hierarchy of web properties and marketing campaigns on a global, national and local level.

The Unbound platform is delivered through a cloud-based software as a service (“SaaS”) model, whose flexible architecture provides customers with state-of-the-art deployment providing maintenance, daily technical operation and support; or via a traditional perpetual licensing business model, in which the software resides on a dedicated infrastructure in either the customer’s facility or manage-hosted by Bridgeline via a cloud-based hosted services model.

Bridgeline Digital was incorporated under the laws of the State of Delaware on August 28, 2000.

Locations

The Company's corporate office is located in Burlington, Massachusetts. The Company maintains regional field offices serving the following geographical locations: Boston, MA; Chicago, IL; New York, NY; and Ontario, Canada. The Company has three wholly-owned subsidiaries: Bridgeline Digital Pvt. Ltd. located in Bangalore, India, Bridgeline Digital Canada Inc. located in Ontario, Canada, and Stantive Technologies Pty Ltd. located in Australia.

Products and Services

Products

Bridgeline Unbound Platform

Subscription and Perpetual Licenses

Bridgeline Unbound is available as either a SaaS or perpetual license and is reported as subscription and perpetual licenses in the accompanying consolidated financial statements.

The Bridgeline Unbound platform provides a unified common set of shared software modules that are critical to today's mission critical websites, on-line stores, intranets, extranets, and portals. The Bridgeline Unbound platform empowers companies and developers to create websites, web applications and online stores with advanced business logic, state-of-the-art graphical user interfaces, and improved quality.

The Bridgeline Unbound platform is a Digital Experience Platform (DXP) platform that unifies Content Management, eCommerce, eMarketing, and Analytic capabilities deep within the websites, intranets or online stores in which they reside, enabling customers to enhance and optimize the value of their web properties and better engage their website users. The Bridgeline Unbound platform significantly enhances WEM and Customer Experience Management (CXM) capabilities.

The Bridgeline Unbound Franchise offering was built specifically to support the needs of multi-unit organizations and franchises. Bridgeline's cloud-based platform allows companies to execute local marketing campaigns, follow SEO best practices, drive eCommerce initiatives, and measure results with actionable analytics.

The Bridgeline Unbound suite of products includes:

- **Bridgeline Unbound Experience Manager** is a marketing automation engine and content management system in one – delivering the digital experiences consumers demand. Centered on robust audience segmentation and list management, the tool allows marketers to easily create personalized customer journeys. Each Bridgeline Unbound implementation incorporates a set of flexible templates and modules to get you started quickly in building your full digital experience with **Bridgeline Unbound Pro**. From there, you can opt to further customize these templates and incorporate any necessary custom application integrations with **Bridgeline Unbound Enterprise** to meet an organization's unique business need.
- **Bridgeline Unbound Content Manager** allows non-technical users to create, edit, and publish content via a browser-based interface. The advanced, easy-to-use interface allows businesses to keep content and promotions fresh - whether for a public commercial site or a company intranet. Bridgeline Unbound Content Manager handles the presentation of content based on a sophisticated indexing and security scheme that includes management of front-end access to online applications. The system provides a robust library functionality to manage permissions, versions and organization of different content types, including multimedia files and images. Administrators are able to easily configure a simple or advanced workflow. The system can accommodate the complexity of larger companies with strict regulatory policies. Bridgeline Unbound Content Manager is uniquely integrated and unified with Bridgeline Unbound Insights, Bridgeline Unbound Commerce, and Bridgeline Unbound Marketing; providing our customers with precise information, accurate results, expansion options, and stronger user adoption.

- **Bridgeline Unbound Commerce** is an online B2B and B2C Commerce solution that allows users to maximize and manage all aspects of their domestic and international Commerce initiatives. The customizable dashboard provides customers with a real-time overview of the performance of their online stores, including sales trends, demographics, profit margins, inventory levels, inventory alerts, fulfillment deficiencies, average check out times, potential production issues, and delivery times. Bridgeline Unbound Commerce also provides backend access to payment and shipping gateways. In combining Bridgeline Unbound Commerce with Bridgeline Unbound Insights and Bridgeline Unbound Marketing, our customers can take their Commerce initiatives to an advanced level by personalizing their product offerings, improving their marketing effectiveness, providing value-added services and cross selling additional products. Bridgeline Unbound Commerce is uniquely integrated and unified with Bridgeline Unbound Insights, Bridgeline Unbound Content Manager, and Bridgeline Unbound Marketing; providing our customers with precise information, more accurate results, expansion options, and stronger user adoption.
- **Bridgeline Unbound Marketing** is a powerful online marketing management solution that helps marketers drive more qualified traffic to their sites through personalized and highly targeted marketing automation flows. Marketing's powerful feature set includes end-to-end campaign administration - from drag-and-drop landing pages with our flexible form builder to behavior-based drip email campaigns, add-on dynamic contact and distribution list management, event-based response marketing, wizard-driven email campaign creation, as well as built-in goal tracking tools to measure campaign effectiveness and ROI.
- **Bridgeline Unbound Insights** provides the ability to manage, measure and optimize web properties by recording detailed events and subsequently mine data within a web application for statistical analysis. Our customers have access to information regarding where their visitors are coming from, what content and products their viewers are most interested in, and how they navigate through a particular web application. Through user-definable web reports, Bridgeline Unbound Insights provides deep insight into areas like visitor usage, content access, age of content, actions taken, event triggers, and reports on both client and server-side events. Bridgeline Unbound Insight's smart recommendation engine uses this data and identifies actionable solutions enabling our customers to optimize site content and reach their digital campaign goals.
- **Bridgeline Unbound Social** is a social media management solution that empowers customers to easily set up customized watch lists tailored by social network, topic, or author to monitor relevant conversations happening on social media, popular websites and blogs. Customers can also prioritize and engage in conversations across the web and leverage the power of publishing content to department, dealer, franchise or other social media accounts.
- **Bridgeline Unbound Franchises** is a web content management and eCommerce platform built specifically to support the needs of multi-unit organizations and franchises. Bridgeline Unbound Franchise deeply integrates content management, eCommerce, eMarketing, and web analytics and is a self-service web platform that is offered to each authorized franchise or multi-unit organization for a monthly subscription fee. Bridgeline Unbound Franchise acts as a control center for a large organization's distributed websites enabling local content publishing that is managed through a workflow approval process that gives corporate marketing control of the brand and message. Bridgeline Unbound Franchise also supports responsive design that adapts to specific device screen sizes access a website, driving more positive user experiences and engagement. Bridgeline Unbound Franchise is a cloud-based SaaS solution.

In addition, Bridgeline also provides an alternative Digital Experience Platform that is 100% native on Salesforce called OrchestraCMS. This software is available as a SaaS license and is reported as subscription licenses in the accompanying consolidated financial statements.

- **OrchestraCMS by Bridgeline** is the only content and digital experience platform built 100% native on Salesforce. OrchestraCMS helps Salesforce customers create compelling digital experiences for their customers, partners, and employees; uniquely combining content with business data, processes and applications across any channel or device including Salesforce Communities, social media, portals, intranets, websites, applications and services.

OrchestraCMS also has a rich set of APIs to enable development of custom solutions, third-party integrations and deliver digital transformation initiatives on the Salesforce platform helping customers drive deeper engagement and collaboration, increase efficiency and minimize risk.

Finally, Bridgeline supports an enterprise site search solution with its Celebros Search product. This software is available as a SaaS license and is reported as subscription licenses in the accompanying consolidated financial statements.

- **Celebros Search by Bridgeline** is a commerce oriented, site search product that provides for Natural Language

Processing and with artificial intelligence to present very relevant search results based on long-tail keyword searches. Celebros Search understands which word in the search query is a product, an attribute or an expression that is related to a price or product. With the use of natural language and intent algorithms, Celebros Search ensures that the customers receive the best results every time no matter the length or complexity of the search query. Celebros Search is a leading semantic search and conversion technology that is available in seven languages. Celebros Search has plug-ins into the Bridgeline Unbound Commerce offering in addition to many other third-party Commerce platforms such as Magento, Shopify, Hybris and more.

Celebros Search customers include many e-commerce retailers and merchants in eleven countries, including the United States, Europe and Asia. A number of these are among Internet Retailer's Top 100/500 companies and represent a broad range of industry segments, revenue and catalog sizes.

Services

Revenue from Digital Engagement Services

Revenue from all digital engagement services is reported as *digital engagement services* in the accompanying consolidated financial statements.

Digital Engagement Services

Digital engagement services address specific customer needs such as digital strategy, web design and web development, usability engineering, information architecture, and Search Engine Optimization (SEO) for their mission critical web site, intranet or online store. Application development engagements are often sold as part of a multiple element arrangement that includes our software products, hosting arrangements (i.e. Managed Service Hosting) that provide for the use of certain hardware and infrastructure through our partnership with Amazon Web Services, or retained professional services subsequent to completion of the application development.

Digital Strategy Services

Bridgeline helps customers maximize the effectiveness of their online marketing activities to ensure that their web applications can be exposed to the potential customers that use search engines to locate products and services. Bridgeline's SEO services include competitive analysis, website review, keyword generation, proprietary leading page technology, ongoing registration, monthly reports, and monitoring. Bridgeline's web analytics experts offer consulting and assistance in implementing Bridgeline Unbound Insights or any other type of web analytics package.

Usability Design

By integrating usability into traditional development life cycles, we believe our usability experts can significantly enhance a user's experience. Our usability professionals provide the following services: usability audits, information architecture, process analysis and optimization, interface design and user testing. Our systematic and user-centered approach to application development focuses on developing applications that are intuitive, accessible, engaging, and effective. Our goal is to produce a net effect of increased traffic, improved visitor retention, increased user productivity, reduced user error, lower support cost, and reduced long-term development cost.

Information Architecture

Information Architecture is a design methodology focused on structuring information to ensure that users can find the appropriate data and can complete their desired transactions within a website or application. Understanding users and the context in which users will be initiating with a web application is central to information architecture. Information architects try to put themselves in the position of a typical user of an application to better understand a user's characteristics, behaviors, intentions and motivations. At the same time, the information architect develops an understanding of a web application's functionality and data structures. The understanding of these components enables the architect to make customer centric decisions about the end user and then translate those decisions into site maps, wire frames and clickable prototypes.

Information architecture forms the foundation of a web application's usability. The extent to which a web application is user-friendly and is widely adopted by a user base is primarily dependent on the success of the information architecture. Information architecture defines how well users can navigate through a website or application and how easily they can find the desired information or function. As digital engagement becomes more standard and commoditized, information architecture will increase as a differentiator for application developers.

Managed Service Hosting

Revenue from Managed Service Hosting

Revenue from managed service hosting is reported as *managed service hosting* in the accompanying consolidated financial statements.

A large number of our customers engage Bridgeline to host and manage the mission critical web sites and web stores we develop. Through our partnership with Amazon Web Services, we provide 24/7 application monitoring, emergency response, version control of application control, load balancing, managed firewall security and virus protection services, and secure UDS environments. We provide shared hosting, dedicated hosting, and SaaS hosting for our customers.

Sales and Marketing

Overview

Bridgeline employs a direct sales force to sell enterprise Bridgeline Unbound engagements. Our direct sales force focuses its efforts selling to mid-sized and large companies. These companies are generally categorized in the following vertical markets: financial services, retail brand names, health services and life sciences, technology (software and hardware), credit unions and regional banks, as well as associations and foundations.

We also pursue strategic alliances that will enhance the sales and distribution opportunities of Bridgeline Unbound related intellectual property.

Engagement Methodology

We use an accountable, strategic engagement process developed specifically for target companies that require a technology based professional approach. We believe it is critical to qualify each opportunity and to assure our skill set and tools match up well with customer's needs. As an essential part of every engagement, we believe our engagement methodology streamlines our customer qualification process, strengthens our customer relationships, ensures our skill set and tools match the customer's needs, and results in the submission of targeted proposals.

Organic Growth from Existing Customer Base

Our business development professionals seek ongoing business opportunities within our existing customer base and within other operating divisions or subsidiaries of our existing customer base.

New Customer Acquisition

We identify customers within our vertical expertise (financial services, franchise/dealer networks, retail brand names, health services and life sciences, high technology, credit unions and regional banks, as well as associations and foundations). Our business development professionals create an annual territory plan identifying various strategies to engage our target customers.

Customer Retention Programs

We use digital marketing capabilities when marketing to our customer base. We make available via email and on our website Bridgeline authored Whitepapers, featured case studies, and/or Company related announcements to our customers on a bimonthly basis. We also host educational on-line webinars, face to face seminars and training.

New Lead Generation Programs

We generate targeted leads and new business opportunities by leveraging on-line marketing strategies. We receive leads by maximizing the SEO capabilities of our own website. Through our website, we provide various educational Whitepapers and promote upcoming on-line seminars. In addition, we utilize banner advertisements on various independent newsletters and paid search advertisements that are linked to our website. We also participate and exhibit at targeted events.

Social Media Programs

We market Bridgeline's upcoming events, Whitepapers, blogs, case studies, digital product tutorials, announcements, and related articles frequently on leading social media platforms such as Twitter, LinkedIn, YouTube and Facebook.

Acquisitions

On February 13, 2019, the Company entered into an Asset Purchase Agreement with Seevolution Inc., a Delaware corporation, Celebros, Inc., a Delaware corporation, and Elisha Gilboa, an individual and shareholder of Seevolution, (the "Seevolution Asset Purchase Agreement"). The Seevolution Asset Purchase Agreement sets forth the terms and conditions pursuant to which the Company acquired certain assets in exchange for consideration paid consisting of (i) \$418 in cash at the time of purchase, (ii) the payment of \$100 of additional cash to be paid out \$10 per month for ten months starting April 30, 2019 and (iii) 40,000 shares of Bridgeline Digital common stock. Costs to complete the transaction were approximately \$18 thousand.

On March 13, 2019, the Company entered into an Asset Purchase Agreement with Stantive Technologies Group Inc. ("Stantive"), a corporation organized under the laws of Ontario, Canada to purchase substantially all of the assets of Stantive and assume certain liabilities. The Company also acquired all of the outstanding stock of Stantive Technologies Group, Pty, a company incorporated in Australia, which was a subsidiary of Stantive. The total purchase price, including cure costs, for Stantive and its Australian subsidiary was approximately \$5.2 million in cash.

There were no acquisitions during the fiscal year ended September 30, 2018.

Research and Development

We have research and development activities focusing on creating new products and innovations, product enhancements, and funding future market opportunities. Research and development expenses were approximately \$2.2 million or 22% of revenues and \$1.6 million or 12% of revenues during fiscal 2019 and 2018, respectively.

Employees

We had 72 employees worldwide as of September 30, 2019. All of these employees were full time employees.

Customers

We primarily serve the following vertical markets that we believe have a history of investing in information technology enhancements and initiatives:

- Franchises/Multi-unit Organizations
- Health Services and Life Sciences
- Technology (software and hardware)
- Credit Unions and Regional Banks
- Associations and Foundations

For the year ended September 30, 2019, two customers each generated approximately 11 - 15% of our revenue. For the year ended September 30, 2018, three customers each generated approximately 10% - 14% of our revenue.

Competition

The markets for our products and services, including software for web content management, eCommerce platform software, eMarketing software, web analytics software and digital engagement services are highly competitive, fragmented, and rapidly changing. Barriers to entry in such markets remain relatively low. The markets are significantly affected by new product introductions and other market activities of industry participants. With the introduction of new technologies and market entrants, we expect competition to persist and intensify in the future.

We believe we compete adequately with others and we distinguish ourselves from our competitors in a number of ways, including:

- We believe our competitors generally offer their web application software typically as a single point of entry type product (such as content management only, or commerce only) as compared to the deeply integrated approach as provided by the Bridgeline Unbound platform.
- We believe our competitors can generally only deploy their solutions in either a Cloud/SaaS environment or in a dedicated server environment. The Bridgeline Unbound platform's architecture is flexible and is capable of being deployed in either a Cloud/SaaS or dedicated server environment.
- We believe the majority of our competitors do not provide interactive technology development services that complement their software products. Our ability to develop mission critical web sites and online stores on our own deeply integrated Bridgeline Unbound platform provides a quality end-to-end solution that distinguishes us from our competitors.
- We believe the interface of the Bridgeline Unbound platform has been designed for ease of use without substantial technical skills.
- Finally, we believe the Bridgeline Unbound platform offers a competitive price-to-functionality ratio when compared to our competitors.

Patents, Trademarks, and Trade Secrets

We own a number of trade secrets, licenses and trademarks related to Bridgeline products and services and their loss could have a material adverse effect on the Company. We do not own any patents. For additional information see Risk Factor – *If we are unable to protect our proprietary technology and other intellectual property rights, our ability to compete in the marketplace may be substantially reduced.*

Available Information

This Annual Report on Form 10-K, as well as our quarterly reports on Form 10-Q and current reports on Form 8-K, along with any amendments to those reports, are made available upon request, on our website www.bridgeline.com as soon as reasonably practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission (“SEC”). Copies of the following are also available through our website on the “About Us - Investor Information” page and are available in print to any shareholder who requests it:

- Code of Business Ethics
- Committee Charters for the following Board Committees:
 - Nominating and Corporate Governance Committee
 - Audit Committee
 - Compensation Committee

The public may read and copy any materials that we file with the SEC at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. Information regarding the SEC's Public Reference Room can be obtained by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports, proxy and information statements, and other information and can be found at <http://www.sec.gov>.

Item 1A. Risk Factors

This report contains forward-looking statements that involve risks and uncertainties, such as statements of our objectives, expectations and intentions. The cautionary statements made in this report are applicable to all forward-looking statements wherever they appear in this report. Our actual results could differ materially from those discussed herein. In addition to the risks discussed in "Management's Discussion and Analysis of Financial Condition and Results of Operations," our business is subject to the risks set forth below.

We operate in a rapidly changing environment that involves certain risks and uncertainties, some of which are beyond our control. The risks described below are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition and/or operating results.

If we are unable to manage our future growth efficiently, our business, liquidity, revenues and profitability may suffer.

We anticipate that continued expansion of our core business will require us to address potential market opportunities. For example, we may need to expand the size of our research and development, sales, corporate finance or operations staff. There can be no assurance that our infrastructure will be sufficiently flexible and adaptable to manage our projected growth or that we will have sufficient resources, human or otherwise, to sustain such growth. If we are unable to adequately address these additional demands on our resources, our profitability and growth might suffer. Also, if we continue to expand our operations, management might not be effective in expanding our physical facilities and our systems, and our procedures or controls might not be adequate to support such expansion. Our inability to manage our growth could harm our business and decrease our revenues.

We may require additional financing to execute our business plan and further expand our operations.

We may require additional funding to further expand our operations. We depend on financing sources, either debt or equity, or a combination thereof, which may not be available to us in a timely basis if at all, or on terms acceptable to us. Further, our ability to obtain financing may be limited by rules of the Nasdaq Capital Market. If we fail to obtain acceptable funding when needed, we may not have sufficient resources to fund our operations, and this would have a material adverse effect on our business.

Our operating lease commitments may adversely affect our financial condition and cash flows from operations.

We have contractual commitments in operating lease arrangements, which are not reflected on our consolidated balance sheets. Our ability to meet our expenses and contractual commitments will depend on our future performance, which will be affected by financial, business, economic, regulatory and other factors. We will not be able to control many of these factors, such as economic conditions and governmental regulations. Further, our operations may not generate sufficient cash to enable us to service our working capital needs or contractual obligations resulting from our leases. If we are at any time unable to generate sufficient cash flows from operations, we may be required to obtain additional sources of financing. There can be no assurance that we would be able to successfully renegotiate such terms, that additional financing could be obtained on terms that are favorable or acceptable to us.

We have incurred significant net losses since inception and expect to continue to incur operating losses for the foreseeable future. We may never achieve or sustain profitability, which would depress the market price of our common stock and could cause you to lose all or a part of your investment.

We have incurred net losses in each fiscal year since our inception in 2000, including net losses of \$9.5 million (inclusive of goodwill impairment charge of \$3.7 million) and \$7.2 million for the fiscal years ended September 30, 2019 and 2018, respectively. As of September 30, 2019, we had an accumulated deficit of approximately \$71.5 million. We do not know whether or when we will become profitable. Our prior losses, combined with expected future losses, have had and will continue to have an adverse effect on our stockholders' equity (deficit) and working capital. Because of the numerous risks and uncertainties associated with our business, we are unable to predict the extent of any future losses or when we will become profitable, if at all. Even if we do become profitable, we may not be able to sustain or increase our profitability on a quarterly or annual basis.

Our revenue and quarterly results may fluctuate, which could adversely affect our stock price.

We have experienced, and may in the future experience, significant fluctuations in our quarterly operating results that may be caused by many factors. These factors include, among others:

- changes in demand for our products;
- introduction, enhancement or announcement of products by us or our competitors;
- market acceptance of our new products;
- the growth rates of certain market segments in which we compete;
- size and timing of significant orders;
- budgeting cycles of customers;
- mix of products and services sold;
- changes in the level of operating expenses;
- completion or announcement of acquisitions; and
- general economic conditions in regions in which we conduct business.

The length of our sales cycle can fluctuate significantly, which could result in significant fluctuations in license revenues being recognized from quarter to quarter.

The decision by a customer to purchase our products often involves the development of a complex implementation plan across a customer's business. This process often requires a significant commitment of resources both by prospective customers and us. Given the significant investment and commitment of resources required in order to implement our software, it may take several months, or even several quarters, for marketing opportunities to materialize. If a customer's decision to purchase our products is delayed or if the installation of our products takes longer than originally anticipated, the date on which we may recognize revenue from these sales would be delayed. Such delays and fluctuations could cause our revenue to be lower than expected in a particular period and we may not be able to adjust our costs quickly enough to offset such lower revenue, potentially negatively impacting our results of operations.

A reduction in our license renewal rate could reduce our revenue.

Our customers have no obligation to renew their subscription licenses, and some customers have elected not to do so. Our license renewal rates may decline or fluctuate as a result of a number of factors, including customer dissatisfaction with our products and services, our failure to update our products to maintain their attractiveness in the market, or constraints or changes in budget priorities faced by our customers. A decline in license renewal rates could cause our revenue to decline which would have a material adverse effect on our operations.

We are dependent upon a small number of major customers, and a failure to renew our licenses with such customers could reduce our revenue.

During fiscal year 2019, two of our customers in aggregate accounted for approximately 26% of total sales. Our customers have no obligation to renew their subscription licenses, and some customers have elected not to do so, including a number of our large customers in the recent two fiscal years. Our license renewal rates may decline or fluctuate as a result of a number of factors, including customer dissatisfaction with our products and services, our failure to update our products to maintain their attractiveness in the market, or constraints or changes in budget priorities faced by our customers. A decline in license renewal rates could cause our revenue to decline which would have a material adverse effect on our operations.

We face intense and growing competition, which could result in price reductions, reduced operating margins and loss of market share.

We operate in a highly competitive marketplace and generally encounter intense competition to create and maintain demand for our services and to obtain service contracts. If we are unable to successfully compete for new business and license renewals, our revenue growth and operating margins may decline. The market for our Bridgeline Unbound platform (Content Manager, Insights, Commerce, Marketer, Social) and web development services are competitive and rapidly changing. Barriers to entry in such markets are relatively low. With the introduction of new technologies and market entrants, we expect competition to intensify in the future. Some of our principal competitors offer their products at a lower price, which may result in pricing pressures. Such pricing pressures and increased competition generally could result in reduced sales, reduced margins or the failure of our product and service offerings to achieve or maintain more widespread market acceptance.

The web development/services market is highly fragmented with a large number of competitors and potential competitors. Our prominent public company competitors are Big Commerce, Salesforce (Commerce Cloud), EPiServer, HubSpot, Sitecore, and Adobe (Experience Manager). We face competition from customers and potential customers who develop their own applications internally. We also face competition from potential competitors that are substantially larger than we are and who have significantly greater financial, technical and marketing resources, and established direct and indirect channels of distribution. As a result, they are able to devote greater resources to the development, promotion and sale of their products than we can.

There may be a limited market for our common stock, which may make it more difficult for you to sell your stock and which may reduce the market price of our common stock.

The average shares traded per day in fiscal 2019 was approximately 264,000 shares per day compared to approximately 406,000 shares for fiscal 2018, 26,000 for fiscal 2017 and 38,000 for fiscal 2016. Our average trading volume of our common stock can be very sporadic and may impair the ability of holders of our common stock to sell their shares at the time they wish to sell them or at a price that they consider reasonable. A low trading volume may also reduce the fair market value of the shares of our common stock. Accordingly, there can be no assurance that the price of our common stock will reflect our actual value. There can be no assurance that the daily trading volume of our common stock will increase or improve either now or in the future.

The market price of our common stock is volatile which could adversely affect your investment in our common stock.

The market price of our common stock is volatile and could fluctuate significantly for many reasons, including, without limitation: as a result of the risk factors listed in this annual report on Form 10-K; actual or anticipated fluctuations in our operating results; and general economic and industry conditions. During fiscal 2019, the closing price of our common stock as reported by NASDAQ fluctuated between \$1.76 and \$59. We are required to meet certain financial criteria in order to maintain our listing on the NASDAQ Capital Market. One such requirement is that we maintain a minimum closing bid price of at least \$1.00 per share for our common stock. If we fail this requirement then NASDAQ will issue a notice that we are not in compliance and we will need to take corrective actions in order to not be delisted. Such corrective actions could be a reverse stock split.

If our products fail to perform properly due to undetected errors or similar problems, our business could suffer, and we could face product liability exposure.

We develop and sell complex web engagement software which may contain undetected errors or bugs. Such errors can be detected at any point in a product's life cycle but are frequently found after introduction of new software or enhancements to existing software. We continually introduce new products and new versions of our products. Despite internal testing and testing by current and potential customers, our current and future products may contain serious defects. If we detect any errors before we ship a product, we might have to delay product shipment for an extended period of time while we address the problem. We might not discover software errors that affect our new or current products or enhancements until after they are deployed, and we may need to provide enhancements to correct such errors. Therefore, it is possible that, despite our testing, errors may occur in our software. These errors could result in the following:

- harm to our reputation;
- lost sales;

- delays in commercial release;
- product liability claims;
- contractual disputes;
- negative publicity;
- delays in or loss of market acceptance of our products;
- license terminations or renegotiations; or
- unexpected expenses and diversion of resources to remedy errors.

Furthermore, our customers may use our software together with products from other companies. As a result, when problems occur, it might be difficult to identify the source of the problem. Even when our software does not cause these problems, the existence of these errors might cause us to incur significant costs, divert the attention of our technical personnel from our product development efforts, impact our reputation, or cause significant customer relations problems.

Technology and customer requirements evolve rapidly in our industry, and if we do not continue to develop new products and enhance our existing products in response to these changes, our business could suffer.

We will need to continue to enhance our products in order to maintain our competitive position. We may not be successful in developing and marketing enhancements to our products on a timely basis, and any enhancements we develop may not adequately address the changing needs of the marketplace. Overlaying the risks associated with our existing products and enhancements are ongoing technological developments and rapid changes in customer requirements. Our future success will depend upon our ability to develop and introduce in a timely manner new product that take advantage of technological advances and respond to new customer requirements. The development of new products is increasingly complex and uncertain, which increases the risk of delays. We may not be successful in developing new products and incorporating new technology on a timely basis, and any new products may not adequately address the changing needs of the marketplace. Failure to develop new products and product enhancements that meet market needs in a timely manner could have a material adverse effect on our business, financial condition and operating results.

If we are unable to protect our proprietary technology and other intellectual property rights, our ability to compete in the marketplace may be substantially reduced.

If we are unable to protect our intellectual property, our competitors could use our intellectual property to market products similar to our products, which could decrease demand for such products, thus decreasing our revenue. We rely on a combination of copyright, trademark and trade secret laws, as well as licensing agreements, third-party non-disclosure agreements and other contractual measures to protect our intellectual property rights. These protections may not be adequate to prevent our competitors from copying or reverse-engineering our products. Our competitors may independently develop technologies that are substantially similar or superior to our technology. To protect our trade secrets and other proprietary information, we require employees, consultants, advisors and collaborators to enter into confidentiality agreements. These agreements may not provide meaningful protection for our trade secrets, know-how or other proprietary information in the event of any unauthorized use, misappropriation or disclosure of such trade secrets, know-how or other proprietary information. The protective mechanisms we include in our products may not be sufficient to prevent unauthorized copying. Existing copyright laws afford only limited protection for our intellectual property rights and may not protect such rights in the event competitors independently develop similar products. In addition, the laws of some countries in which our products are or may be licensed do not protect our products and intellectual property rights to the same extent as do the laws of the United States.

Policing unauthorized use of our products is difficult and litigation could become necessary in the future to enforce our intellectual property rights. Any litigation could be time consuming and expensive to prosecute or resolve, result in substantial diversion of management attention and resources, and materially harm our business or financial condition.

If a third party asserts that we infringe upon its proprietary rights, we could be required to redesign our products, pay significant royalties or enter into license agreements.

Claims of infringement are becoming increasingly common as the software industry develops and as related legal protections, including but not limited to patents, are applied to software products. Although we do not believe that our products infringe on the rights of third parties, a third party may assert that our technology or technologies of entities we acquire violates its intellectual property rights. As the number of software products in our markets increases and the functionality of these products further overlap, we believe that infringement claims will become more common. Any claims against us, regardless of their merit, could:

- be expensive and time consuming to defend;
- result in negative publicity;
- force us to stop licensing our products that incorporate the challenged intellectual property;
- require us to redesign our products;
- divert management's attention and our other resources; and/or
- require us to enter into royalty or licensing agreements in order to obtain the right to use necessary technologies, which may not be available on terms acceptable to us, if at all.

We believe that any successful challenge to our use of a trademark or domain name could substantially diminish our ability to conduct business in a particular market or jurisdiction and thus decrease our revenue and result in possible losses to our business.

We depend on a third-party cloud platform provider to host our Bridgeline Unbound SaaS environment and managed services business and if we were to experience a disruption in service, our business and reputation could suffer.

We host our SaaS and managed hosting customers via a third-party, Amazon Web Services. If upon renewal date our third-party provider does not provide commercially reasonable terms, we may be required to transfer our services to a new provider, such as data center facility, and we may incur significant equipment costs and possible service interruption in connection with doing so. Interruptions in our services might reduce our revenue, cause us to issue credits or refunds to customers, subject us to potential liability, or harm our renewal rates.

If our security measures or those of our third-party cloud computing platform provider are breached and unauthorized access is obtained to a customer's data, our services may be perceived as not being secure, and we may incur significant legal and financial exposure and liabilities.

Security breaches could expose us to a risk of loss of our customers' information, litigation and possible liability. While we have security measures in place, they may be breached as a result of third-party action, including intentional misconduct by computer hackers, employee error, malfeasance or otherwise and result in someone obtaining unauthorized access to our IT systems, our customers' data or our data, including our intellectual property and other confidential business information. Because the techniques used to obtain unauthorized access, or to sabotage systems, change frequently and generally are not recognized until launched against a target, we may be unable to implement adequate preventative measures. In addition, our customers may authorize third-party technology providers to access their customer data, and some of our customers may not have adequate security measures in place to protect their data that is stored on our services. Because we do not control our customers or third-party technology providers, or the processing of such data by third-party technology providers, we cannot ensure the integrity or security of such transmissions or processing. Malicious third parties may also conduct attacks designed to temporarily deny customers access to our services. Any security breach could result in a loss of confidence in the security of our services, damage our reputation, negatively impact our future sales, disrupt our business and lead to legal liability.

We rely on encryption and authentication technology from third parties to provide the security and authentication to effectively secure transmission of confidential information, including consumer payment card numbers. Such technology may not be sufficient to protect the transmission of such confidential information or these technologies may have material defects that may compromise the confidentiality or integrity of the transmitted data. Any imposition of liability, particularly liability that is not covered by insurance or is in excess of insurance coverage, could harm our reputation, business and operating results. We might be required to expend significant capital and other resources to protect further against security breaches or to rectify problems caused by any security breach, which, in turn could divert funds available for corporate growth and expansion or future acquisitions.

We are dependent upon our management team and the loss of any of these individuals could harm our business.

We are dependent on the efforts of our key management personnel. The loss of any of our key management personnel, or our inability to recruit and train additional key management and other personnel in a timely manner, could materially and adversely affect our business, operations and future prospects. We maintain a key man insurance policy covering our Chief Executive Officer.

Because competition for highly qualified personnel is intense, we might not be able to attract and retain the employees we need to support our planned growth.

We will need to increase the size and maintain the quality of our sales force, software development staff and professional services organization to execute our growth plans. To meet our objectives, we must attract and retain highly qualified personnel with specialized skill sets. Competition for qualified personnel can be intense, and we might not be successful in attracting and retaining them. Our ability to maintain and expand our sales, product development and professional services teams will depend on our ability to recruit, train and retain top quality people with advanced skills who understand sales to, and the specific needs of, our target customers. For these reasons, we have experienced, and we expect to again experience in the future, challenges in hiring and retaining highly skilled employees with appropriate qualifications for our business. In addition to hiring services personnel to meet our needs, we may also engage additional third-party consultants as contractors, which could have a negative impact on our financial results. If we are unable to hire or retain qualified personnel, or if newly hired personnel fail to develop the necessary skills or reach productivity slower than anticipated, it would be more difficult for us to sell our products and services, and we could experience a shortfall in revenue and not achieve our planned growth.

Future acquisitions may be difficult to integrate into our existing operations, may disrupt our business, dilute stockholder value, divert management's attention, or negatively affect our operating results.

We have acquired multiple businesses since our inception in 2000. Future acquisitions could involve substantial investment of funds or financings by issuance of debt or equity securities and could result in one-time charges and expenses and have the potential to either dilute the interests of existing shareholders or result in the issuance or assumption of debt. Any such acquisition may not be successful in generating revenues, income or other returns to us, and the resources committed to such activities will not be available to us for other purposes. Moreover, if we are unable to access capital markets on acceptable terms or at all, we may not be able to consummate acquisitions, or may have to do so based upon less than optimal capital structure. Our inability to take advantage of growth opportunities for our business or to address risks associated with acquisitions or investments in businesses may negatively affect our operating results. Additionally, any impairment of goodwill or other intangible assets acquired in an acquisition or in an investment, or charges to earnings associated with any acquisition or investment activity, may materially reduce our earnings which, in turn, may have an adverse material effect on the price of our common stock.

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities. Provisions in our amended and restated bylaws and Delaware law may have the effect of discouraging lawsuits against our directors and officers.

Our amended and restated bylaws require that derivative actions brought in our name, actions against our directors, officers, other employees or stockholders for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and consented to the forum provisions in our amended and restated bylaws.

This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, other employees or stockholders, which may discourage lawsuits with respect to such claims. Alternatively, if a court were to find the choice of forum provision contained in our amended and restated bylaws to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

Increasing government regulation could affect our business and may adversely affect our financial condition.

We are subject not only to regulations applicable to businesses generally, but also to laws and regulations directly applicable to electronic commerce. In addition, an inability to satisfy the standards of certain voluntary third-party certification bodies that our customers may expect, such as an attestation of compliance with the Payment Card Industry (“PCI”) Data Security Standards, may have an adverse impact on our business and results. Further, there are various statutes, regulations, and rulings relevant to the direct email marketing and text-messaging industries, including the Telephone Consumer Protection Act (“TCPA”), the CAN-SPAM Act and related Federal Communication Commission (“FCC”) orders. The interpretation of many of these statutes, regulations, and rulings is evolving in the courts and administrative agencies and an inability to comply may have an adverse impact on our business and results. If in the future we are unable to achieve or maintain industry-specific certifications or other requirements or standards relevant to our customers, it may harm our business and adversely affect our results.

We may also expand our business in countries that have more stringent data protection laws than those in the United States, and such laws may be inconsistent across jurisdictions and are subject to evolving and differing interpretations. In particular, the European Union has passed the General Data Protection Regulation (“GDPR”), which came into force on May 25, 2018. The GDPR includes more stringent operational requirements for entities that receive or process personal data (as compared to U.S. privacy laws and previous EU laws), along with significant penalties for non-compliance, more robust obligations on data processors and data controllers, greater rights for data subjects, and heavier documentation requirements for data protection compliance programs. Additionally, both laws regulating privacy and third-party products purporting to address privacy concerns could negatively affect the functionality of, and demand for, our products and services, thereby reducing our revenue.

We have issued preferred stock with rights senior to our common stock, and may issue additional preferred stock in the future, in order to consummate a merger or other transaction necessary to continue as a going concern.

Our Certificate of Incorporation authorizes the issuance of up to 1.0 million shares of preferred stock, par value \$0.001 per share, without shareholder approval and on terms established by our board of directors, of which 264,000 shares have been designated as Series A Preferred, 5,000 shares have been designated as Series B Preferred and 11,000 shares have been designated as Series C Preferred. We may issue additional shares of preferred stock in order to consummate a financing or other transaction, in lieu of the issuance of common stock. The rights and preferences of any such class or series of preferred stock would be established by our board of directors in its sole discretion and may have dividend, voting, liquidation and other rights and preferences that are senior to the rights of our common stock.

We have never paid dividends on our common stock and we do not anticipate paying dividends in the future.

We have never paid cash dividends and do not believe that we will pay any cash dividends on our common stock in the future. Since we have no plan to pay cash dividends, an investor would only realize income from his investment in our shares if there is a rise in the market price of our common stock, which is uncertain and unpredictable.

Item 1B. Unresolved Staff Comments

Not required.

Item 2. Properties.

The following table lists our offices, all of which are leased:

Geographic Location	Address	Size
Boston, Massachusetts	100 Summit Drive Burlington, Massachusetts 01803	6,360 square feet, professional office space
Chicago, Illinois	318 W Adams Street Chicago, IL 60606	875 square feet, professional office space
Woodbury, New York	150 Woodbury Road Woodbury, NY 11797	1,605 square feet, professional office space
Kingston, Ontario	61 Hyperion Court Kingston, ON, K7K 7K7	9,654 square feet, professional office space
Sydney, Australia	L20 201 Sussex St.	PO Box

	Sydney, NSW 2000	
Karnataka, India	No. 14 15th Cross NR Vidyappeta Circle Ashok Nagar, BLR South Karnataka 560050	PO Box

Item 3. Legal Proceedings.

From time to time, we are subject to ordinary routine litigation and claims incidental to our business. We are not currently involved in any legal proceedings that we believe are material.

Item 4. Mine Safety Disclosures

Not applicable.

PART II**Item 5. Market for Common Equity Related Stockholder Matters and Issuer Purchase of Equity Securities.**

The following table sets forth, for the periods indicated, the range of high and low sale prices for our common stock. Our common stock trades on the NASDAQ Capital Market under the symbol BLIN.

Year Ended September 30, 2019	High		Low	
Fourth Quarter	\$	3.11	\$	1.76
Third Quarter	\$	16.00	\$	2.25
Second Quarter	\$	15.50	\$	7.70
First Quarter	\$	59.00	\$	11.00

Year Ended September 30, 2018	High		Low	
Fourth Quarter	\$	3.75	\$	0.79
Third Quarter	\$	3.50	\$	1.03
Second Quarter	\$	2.89	\$	1.81
First Quarter	\$	4.45	\$	2.11

We have not declared or paid cash dividends on our common stock and do not plan to pay cash dividends to our common shareholders in the near future. During fiscal 2018, we did issue stock dividends to holders of our Series A preferred stock. As of December 10, 2019, our common stock was held of record by approximately 2,440 shareholders. Most of the Company's shares of common stock are held in street name through one or more nominees.

Recent Sales of Unregistered Securities; Use of Proceeds from Registered Securities

The following summarizes all sales of our unregistered securities during the year ended September 30, 2019 for which more information is disclosed on our Form 8-Ks. The securities in the below-referenced transactions were (i) issued without registration and (ii) were subject to restrictions under the Securities Act and the securities laws of certain states, in reliance on the private offering exemptions contained in Sections 4(a)(2), 4(a)(6) and/or 3(b) of the Securities Act and on Regulation D promulgated there under, and in reliance on similar exemptions under applicable state laws as transactions not involving a public offering. Unless stated otherwise, no placement or underwriting fees were paid in connection with these transactions.

- (1) On February 13, 2019, the Company entered into an Asset Purchase Agreement with Seevolution, Inc., a Delaware corporation, and Elisha Gilboa, an individual and shareholder of Seevolution (the "Asset Purchase"). The Company issued 40,000 shares of Bridgeline Digital common stock as partial consideration for the Asset Purchase.

Item 6. Selected Financial Data.

Not required.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This section contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of a variety of factors and risks including our inability to manage our future growth effectively or profitably, fluctuations in our revenue and quarterly results, our license renewal rate, the impact of competition and our ability to maintain margins or market share, the limited market for our common stock, the volatility of the market price of our common stock, the ability to maintain our listing on the NASDAQ Capital Market, the ability to raise capital, the performance of our products, our ability to respond to rapidly evolving technology and customer requirements, our ability to protect our proprietary technology, dependence on third parties, the security of our software and response to cyber security risks, our ability to meet our financial obligations and commitments, our dependence on our management team and key personnel, our ability to hire and retain future key personnel, our ability to maintain an effective system of internal controls, and our ability to respond to government regulations. These and other risks are more fully described herein and in our other filings with the Securities and Exchange Commission.

This section should be read in combination with the accompanying audited consolidated financial statements and related notes prepared in accordance with United States generally accepted accounting principles.

Overview

Bridgeline Digital, The Digital Engagement Company™, helps customers maximize the performance of their full digital experience from websites and intranets to eCommerce experiences. Bridgeline's Unbound platform integrates Web Content Management, eCommerce, eMarketing, Social Media management, and Web Analytics (Insights) with the goal of assisting marketers to deliver digital experiences that attract, engage, nurture, and convert their customers across all channels. Bridgeline offers a core accelerator framework for rapidly implementing digital experiences on the Bridgeline Unbound Platform which provides customers with cost-effective solutions in addition to velocity to market.

Bridgeline's Unbound platform combined with its professional services assists customers in digital business transformation, driving lead generation, increasing revenue, improving customer service and loyalty, enhancing employee knowledge, and reducing operational costs. The Bridgeline Unbound platform bridges the gaps between web content management, eCommerce, eMarketing, social and web analytics by providing all of these components in one unified and deeply integrated platform.

Our Unbound Franchise product empowers large franchises, healthcare networks, associations/chapters and other multi-unit organizations to manage a large hierarchy of digital properties at scale. The platform provides an easy-to-use administrative console that enables corporate marketing to provide consistency in branding and messaging while providing flexible publishing capabilities at the local-market level. The platform empowers brand networks to unify, manage, scale and optimize a hierarchy of web properties and marketing campaigns on a global, national and local level.

The Unbound platform is delivered through a cloud-based software as a service ("SaaS") multi-tenant business model, whose flexible architecture provides customers with state of the art deployment providing maintenance, daily technical operation and support; or via a traditional perpetual licensing business model, in which the software resides on a dedicated server in either the customer's facility or hosted by Bridgeline via a cloud-based hosted services model.

Bridgeline Digital was incorporated under the laws of the State of Delaware on August 28, 2000.

Locations

The Company's corporate office is located in Burlington, Massachusetts. The Company maintains regional field offices serving the following geographical locations: Boston, MA; Chicago, IL; and New York, NY. The Company has three wholly-owned subsidiaries: Bridgeline Digital Pvt. Ltd. located in Bangalore, India, Bridgeline Digital Canada, Inc. located in Ontario, Canada, and Stantive Technologies Pty, Ltd. located in Australia.

Increase in Authorized Shares and Reverse Stock Split

On April 26, 2019, the Company's Shareholders and the Board of Directors approved an amendment to the Company's Amended and Restated Certificate of Incorporation to increase the total number of shares of Common Stock, par value \$0.001 per share ("*Common Stock*"), authorized for issuance thereunder from 50 million shares to 2.5 billion shares (the "*Increase in Authorized*"). On the same date the Company's Shareholders and the Board of Directors also approved an amendment to the Company's Amended and Restated Certificate of Incorporation to effect a reverse stock split of both its issued and outstanding and authorized shares of Common Stock, par value \$0.001 per share, at a ratio of one (1) share of Common Stock for every fifty (50) shares of Common Stock at any time prior to December 31, 2019 (the "*Reverse Split*") pursuant to which all classes of the Company's issued and outstanding shares of Common Stock at the close of business on such date were combined and reconstituted into a smaller number of shares of Common Stock in a ratio of one (1) share of Common Stock for every fifty (50) shares of Common Stock ("*1-for-50 reverse stock split*"). The 1-for-50 reverse stock split was effective as of close of business on May 1, 2019 (the "*Effective Date*") and the Company's stock began trading on a split-adjusted basis on May 2, 2019.

The reverse stock split reduced the number of shares of the Company's Common Stock authorized from 2.5 billion shares to 50 million shares. Proportional adjustments have been made to the conversion and exercise prices of the Company's outstanding convertible preferred stock, warrants, restricted stock awards, and stock options, and to the number of shares issued and issuable under the Company's Stock Incentive Plans. The Company did not issue any fractional shares in connection with the reverse stock split. Instead, any stockholder who would otherwise be entitled to receive a fractional share of Common Stock as a result of the reverse stock split is entitled to receive a cash payment in lieu thereof based on the average of the closing sales prices of a share of the Company's Common Stock on the Nasdaq Capital Market during regular trading hours for the five consecutive trading days immediately preceding the Effective Date. The reverse stock split does not modify the rights or preferences of the Common Stock. The number of authorized shares of the Company's Common Stock is 50 million shares and the par value remain \$0.001.

Sales and Marketing

Bridgeline employs a direct sales force and each sale takes on average three to six months to complete. Each franchise/multi-unit organization sale takes on average one year to complete. Our direct sales force focuses its efforts selling to medium-sized and large companies. These companies are generally categorized in the following vertical markets: (i) financial services; (ii) franchises/multi-unit organizations; (iii) retail brand names; (iv) health services and life sciences; (v) technology (software and hardware); (vi) credit unions and regional banks and (vii) associations and foundations. We have five sales geographic locations in the United States.

Acquisitions

Bridgeline will continue to evaluate expanding its distribution of Bridgeline Unbound and its interactive development capabilities through acquisitions. We may make additional acquisitions in the foreseeable future. These potential acquisitions will be consistent with our growth strategy by providing Bridgeline with new geographical distribution opportunities, an expanded customer base, an expanded sales force and an expanded developer force. In addition, integrating acquired companies into our existing operations allows us to consolidate the finance, human resources, legal, marketing, research and development of the acquired businesses with our own internal resources, hence reducing the aggregate of these expenses for the combined businesses and resulting in improved operating results.

Customer Information

We currently have over 210 active customers. For the year ended September 30, 2019, two customers each represented approximately 11% - 15% of the Company's total revenue. For the year ended September 30, 2018, three customers each represented approximately 10% - 14% of the Company's total revenue.

Summary of Results of Operations

Total revenue for the fiscal year ended September 30, 2019 (“fiscal 2019”) decreased to \$10.0 million from \$13.6 million for the fiscal year ended September 30, 2018 (“fiscal 2018”). Loss from operations for fiscal 2019 was (\$11.1) million, which included a goodwill impairment charge of \$3.7 million, compared with loss from operations of (\$7.0) million, which included a goodwill impairment charge of \$4.9 million, for fiscal 2018. We had a net loss for fiscal 2019 of (\$9.5) million, including a goodwill impairment charge of \$3.7 million, compared with a net loss of (\$7.2) million, including a goodwill impairment charge of \$4.9 million, for fiscal 2018. Basic net loss per share calculation attributable to common shareholders for fiscal 2019 was (\$8.16) compared with the equivalent basic net loss per share attributable to common shareholders of (\$89.05) for fiscal 2018.

Revenue

Total revenue for the fiscal year ended September 30, 2019 decreased \$3.6 million, or 27%, to \$10.0 million from \$13.6 million in fiscal 2018. Our revenue is derived from three sources: (i) digital engagement services; (ii) subscription and perpetual licenses; and (iii) managed service hosting.

Digital Engagement Services

Digital engagement services revenue is comprised of Bridgeline Unbound implementation and retainer related services. Total revenue from digital engagement services decreased \$2.8 million, or 40%, to \$4.1 million in fiscal 2019 from \$6.9 million in fiscal 2018. Digital engagement services revenue as a percentage of total revenue decreased to 41% in fiscal 2019 from 51% in fiscal 2018. The decreases compared to the prior period is primarily due to a decrease in new service engagements. Digital engagement services revenues from acquisitions was \$747 thousand for fiscal 2019.

Subscription and Perpetual Licenses

Revenue from subscription (SaaS) and perpetual licenses decreased \$0.8 million, or 14%, to \$4.8 million in fiscal 2019 from \$5.6 million in fiscal 2018. The decrease compared to the prior period is primarily due to a decline in SaaS license revenue due to the loss of a large customer that we previously disclosed. Subscription and perpetual license revenue as a percentage of total revenue increased to 49% in fiscal 2019 from 41% in fiscal 2018. The increase as a percentage of total revenue is attributable to the overall decreases in digital engagement services revenue. Subscription and perpetual license revenue from acquisitions was \$657 thousand for fiscal 2019.

Managed Service Hosting

Revenue from managed service hosting remained constant at \$1.0 million for both fiscal 2019 and fiscal 2018. We were able to maintain renewals for hosting service contracts sold in previous periods.

Managed services revenue as a percentage of total revenue increased to 10% in fiscal 2019 from 8% in fiscal 2018. The increases as a percentage of revenue is attributable to the overall decreases in other revenue streams, primarily digital engagement services.

Cost of Revenue

Total cost of revenue for fiscal 2019 decreased \$1.4 million, or 21%, to \$5.4 million from \$6.7 million in fiscal 2018. The gross profit margin decreased to 46% for the fiscal 2019 compared to 50% for fiscal 2018. The decline in the gross profit margin for fiscal 2019 compared to fiscal 2018 is attributable to the decrease in digital engagement services revenue.

Cost of Digital Engagement Services

Cost of digital engagement services decreased \$1.9 million, or 42%, to \$2.6 million in fiscal 2019 from \$4.5 million in fiscal 2018. The cost of total digital engagement services as a percentage of total digital engagement services revenue decreased to 63% in fiscal 2019 from 65% in fiscal 2018. The decrease in cost of digital engagement services in fiscal 2019 compared to fiscal 2018 is primarily due to a decrease in headcount.

Cost of Subscription and Perpetual License

Cost of subscription and perpetual licenses increased \$475 thousand, or 24%, to \$2.5 million in fiscal 2019 compared to \$2.0 million in fiscal 2018. Costs to support SaaS licenses are primarily fixed costs.

The cost of subscription and perpetual licenses as a percentage of subscription and perpetual license revenue increased to 51% in fiscal 2019 from 36% in fiscal 2018. The increase is due to fixed costs to operate our cloud-based hosting model with Amazon Web Services without a commensurate increase in license revenue.

Cost of Managed Service Hosting

Cost of managed service hosting increased \$19 thousand, or 7%, in fiscal 2019 to \$283 thousand compared to \$264 thousand in fiscal 2018. The cost of managed services as a percentage of managed services revenue increased to 28% in fiscal 2019 from 25% in fiscal 2018. These increases are attributable to fixed costs to operate our cloud-based hosting model with Amazon Web Services and variable internal support costs.

Gross Profit

Gross profit decreased \$2.2 million, or 33%, in fiscal 2019 to \$4.6 million compared to \$6.8 million in fiscal 2018. The decrease in fiscal 2019 is primarily attributable to the decrease in revenues, as, overall costs decreased by 21%.

Operating Expenses

Sales and Marketing Expenses

Sales and marketing expenses increased \$873 thousand, or 22%, to \$4.7 million in fiscal 2019 from \$4.0 million in fiscal 2018. The decrease is primarily attributable to decreases in headcount and facility costs and travel related expenditures, partially offset by increases in marketing expenses. Sales and marketing expense as a percentage of total revenue increased to 48% in fiscal 2019 compared to 29% in fiscal 2018. The increases compared to the prior period are primarily attributable to the overall decrease in revenue and an increase in headcount from acquisitions.

General and Administrative Expenses

General and administrative expenses increased \$170 thousand, or 6%, to \$3.0 million in fiscal 2019 from \$2.9 million in fiscal 2018. The decrease is attributable to decreases in headcount and overall administration expenses. General and administrative expense as a percentage of revenue increased to 30% in fiscal 2019 compared to 21% in fiscal 2018. The increases compared to the prior period are primarily attributable to an increase in headcount from recent acquisitions.

Research and Development

Research and development expense increased \$581 thousand, or 36%, to \$2.2 million in fiscal 2019 from \$1.6 million in fiscal 2018. The increases compared to the prior period are primarily attributable to an increase in headcount from acquisitions. Research and development expense as a percentage of total revenue increased to 22% in fiscal 2019 compared to 12% for fiscal 2018. The increase as a percentage of total revenues in fiscal 2019 is a function of the decrease in total revenues in fiscal 2019.

Depreciation and Amortization

Depreciation and amortization expense increased by \$264 thousand, or 74%, to \$620 thousand in fiscal 2019 from \$356 thousand in fiscal 2018. Depreciation and amortization as a percentage of total revenue increased to 6% in fiscal 2019 from 3% in fiscal 2018. The increase is primarily due to amortization of intangible assets resulting from acquisitions.

Goodwill Impairment

The carrying value of goodwill is not amortized, but it typically tested for impairment annually as of September 30, as well as, on an interim basis whenever events or changes in circumstances indicate that the carrying amount of a reporting unit may not be recoverable. An impairment charge is recognized for the amount by which the carrying amount exceeds the reporting unit's fair value. Goodwill is assessed at the consolidated level as one reporting unit. During fiscal 2019 and 2018, the Company performed impairment tests and recognized an aggregated impairment charge, for all test dates during the respective periods, of \$3.7 million and \$4.9 million, respectively.

Restructuring and Acquisition Related Expenses

Commencing in fiscal 2015 and through fiscal 2018, the Company's management approved, committed to and initiated plans to restructure and further improve efficiencies by implementing cost reductions in line with expected decreases in revenue. The Company renegotiated several office leases and relocated to smaller space, while also negotiating sub-leases for the original space. In addition, the Company executed a general work-force reduction and recognized costs for severance and termination benefits. These restructuring charges and accruals require estimates and assumptions, including contractual rental commitments or lease buy-outs for vacated office space and related costs, and estimated sub-lease income. The Company's sub-lease assumptions include the rates to be charged to a sub-tenant and the timing of the sub-lease arrangement. All of the vacated lease space is currently contractually occupied by a new sub-tenant for the remaining life of the lease. In the second quarter of fiscal 2017, the Company initiated a plan to shut down its operations in India, which is expected to be completed in early fiscal 2020.

In total, restructuring expenses were \$625 thousand and \$187 thousand in fiscal 2019 and fiscal 2018, respectively. These charges consist of the total lease expenses less sub-lease rental income, other miscellaneous lease termination costs, loss on disposal of fixed assets.

Acquisition related expenses related to the acquisition of Stantive Technologies Group Inc. consummated in March 2019 were \$428 thousand.

Loss from Operations

The loss from operations was (\$11.1) million for fiscal 2019 compared to a loss from operations of (\$7.0) million for fiscal 2018, a decrease of (\$4.0) million or 58% for fiscal 2019. The loss from operations included a goodwill impairment charge of \$3.7 million and \$4.9 million in fiscal 2019 and 2018, respectively.

Other income (expense), net

During the year ended September 30, 2019, we recognized an expense of \$11.3 million related to the allocation of proceeds from the sale of Preferred Series C stock and Series C Preferred warrants. The expense was entirely offset by the aggregate other income recognized related to the change in fair value of the associated warrant liabilities of \$13.4 million during fiscal 2019. During fiscal 2018, there were no similar expense charges recognized upon issuance of warrants and the aggregate other income recognized related to the change in fair value of warrant liabilities was \$160 thousand.

Provision for Income Taxes

We recorded an income tax expense of \$4 thousand for fiscal 2019 compared to an income tax benefit of (\$3) thousand for fiscal 2018. The Company has net operating loss carryforwards and other deferred tax benefits, subject to the limitations discussed below, that are available to offset future taxable income. A valuation allowance is established if it is more likely than not that all or a portion of the deferred tax asset will not be realized. The Company established a valuation allowance against its net deferred tax assets, excluding the portion attributable to the alternative minimum tax of \$22 thousand at September 30, 2019 and 2018.

The Federal net operating loss (NOL) carryforward of approximately \$34 million as of September 30, 2019 expires on various dates through 2039. Internal Revenue Code Section 382 places certain limitations on the amount of taxable income that can be offset by NOL carryforwards after a change in control of a loss corporation. Generally, after a change in control, a loss corporation cannot deduct NOL carryforwards in excess of the Section 382 limitation. Due to these “change of ownership” provisions, utilization of NOL carryforwards may be subject to an annual limitation on utilization against taxable income in future periods. The Company has not performed a Section 382 analysis. However, if performed, Section 382 may be found to limit potential future utilization of our NOL carryforwards. The Company also has approximately \$30 million in state NOLs which expire on various dates through 2038.

Adjusted EBITDA

We also measure our performance based on a non-U.S. GAAP (“Generally Accepted Accounting Principles”) measurement of earnings before interest, taxes, depreciation, amortization, stock-based compensation expense, impairment of goodwill and intangible assets, non-cash warrant related expenses, change in fair value of derivative instruments, and restructuring and acquisition related charges (“Adjusted EBITDA”).

We believe this non-U.S. GAAP financial measure of Adjusted EBITDA is useful to management and investors in evaluating our operating performance for the periods presented and provides a tool for evaluating our ongoing operations.

Adjusted EBITDA, however, is not a measure of operating performance under U.S. GAAP and should not be considered as an alternative or substitute for U.S. GAAP profitability measures such as (i) income from operations and net income, or (ii) cash flows from operating, investing and financing activities, both as determined in accordance with U.S. GAAP. Adjusted EBITDA as an operating performance measure has material limitations because it excludes the financial statement impact of income taxes, net interest expense, amortization of intangibles, depreciation, goodwill impairment, restructuring charges, loss on disposal of assets, other amortization and stock-based compensation, and therefore does not represent an accurate measure of profitability. As a result, Adjusted EBITDA should be evaluated in conjunction with net income for a complete analysis of our profitability, as net income includes the financial statement impact of these items and is the most directly comparable U.S. GAAP operating performance measure to Adjusted EBITDA. Our definition of Adjusted EBITDA may also differ from and therefore may not be comparable with similarly titled measures used by other companies, thereby limiting its usefulness as a comparative measure. Because of the limitations that Adjusted EBITDA has as an analytical tool, investors should not consider it in isolation, or as a substitute for analysis of our operating results as reported under U.S. GAAP.

The following table reconciles net loss (which is the most directly comparable U.S. GAAP operating performance measure) to Adjusted EBITDA:

	Years Ended September 30,	
	2019	2018
Net loss	\$ (9,474)	\$ (7,219)
Provision for income tax	4	(3)
Interest expense, net	304	244
Change in fair value of warrants/warrant expense	(2,132)	(161)
Amortization of debt discount	231	129
Amortization of intangible assets	544	242
Depreciation	66	105
Goodwill impairment	3,732	4,859
Restructuring and acquisition related charges	1,277	187
Other amortization	39	66
Stock based compensation	249	492
Adjusted EBITDA	<u>\$ (5,160)</u>	<u>\$ (1,059)</u>

Adjusted EBITDA was (\$5.2) million for fiscal 2019 compared with (\$1.1) million for fiscal 2018. This was primarily due to the decline in revenues.

Liquidity and Capital Resources

Cash Flows

Operating Activities

Cash used in operating activities was \$4.2 million for fiscal 2019 compared to cash used in operating activities of \$1.1 million for fiscal 2018. This increase in use of cash was driven by decreases with our accounts receivables collections, fair market value of our warrant liabilities, goodwill impairment charge and increases with our accounts payable and accrued liabilities.

Investing Activities

Cash used in investing activities was \$5.7 million for fiscal 2019 compared with \$50 thousand for fiscal 2018. We primarily used cash to acquire the assets of Stantive and Seevolution.

Financing Activities

Cash provided by financing activities was \$9.5 million for fiscal 2019 compared with \$1.1 million for fiscal 2018. In fiscal 2019, cash provided by financing activities was attributable to the public offering in October 2018 and private offering in March 2019. In October 2018, we sold an aggregate of 28,480 Class A Units (the "Class A Units") at a price of \$25.00 per Class A Unit, consisting of (i) one share of the Company's common stock and one five-year warrant to purchase one share of the Company's common stock at an exercise price of \$25.00 and (ii) Preferred stock of 4,288 Class B Units, with each Class B Unit, convertible into 40 shares of the Company's common stock at a conversion price of \$25.00. The net proceeds to the Company after deducting the underwriter's fees and expenses was approximately \$5.0 million. The proceeds of the October public offering were used to paydown the Promissory Term Notes of \$941 thousand. In a private offering in March 2019, the Company sold Preferred stock of 10,227.50 Class C Units, with each Class C Unit convertible into 1,136,390 shares of the Company's common stock at a conversion price of \$9.00, for net proceeds of \$9.1 million. The proceeds of the March 2019 private offering were used to pay down the Heritage Bank of Commerce line of credit by \$2.2 million leaving a zero balance at March 31, 2019, as well as, the loan due to Montage Capital in the amount of \$922 thousand. The proceeds also funded the asset purchase of Stantive Technologies Group Inc. for \$5.2 million.

In fiscal 2018, we raised funds from a term note with Montage Capital II, L.P. and the promissory term notes, issued in September 2018. We made net payments on our bank line of credit of \$419 thousand.

Capital Resources, Liquidity Outlook and Going Concern

In the second quarter of fiscal 2019, the Company concluded a private offering that raised net cash proceeds of \$9.2 million. Proceeds were used to pay-off in full the outstanding amounts on our Heritage Bank of Commerce line of credit and Montage Capital II, L.P. loan. At September 30, 2019, the Company had no debt. Further, in the second quarter of fiscal 2019, the Company used cash to purchase the assets of Seevolution, Inc. and Stantive Technologies Group Inc., which assets included technology and customers. While the Company believes the future revenues and cash flows from these newly acquired customers will supplement its working capital and the Company believes it has an appropriate cost structure to support future revenue growth, based upon its current working capital and projected cash flows in the next twelve months, the Company will need additional sources of financing in place in order to ensure its operations are adequately funded. No definitive agreements for additional financing are in place as of the date of this annual report and there can be no assurances that that additional sources of financing could be obtained on terms that are favorable or acceptable to us and that revenue growth and improvement in cash flows can be achieved. Accordingly, management believes that there is substantial doubt about the Company's ability to continue as a going concern for at least twelve months following the issuance of this annual report.

Inflation

Inflationary increases can cause pressure on wages and the cost of benefits offered to employees. We believe that the relatively moderate rates of inflation in recent years have not had a significant impact on our operations.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, financings or other relationships with unconsolidated entities or other persons, other than our operating leases and contingent acquisition payments.

We currently do not have any variable interest entities. We do not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. Therefore, we are not materially exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

Contractual Obligations

We lease our facilities in the United States. We currently have no future commitments that extend past fiscal 2021.

The following summarizes our future contractual obligations:

(in thousands)

	<u>As of September 30, 2019</u>		
	<u>FY20</u>	<u>FY21</u>	<u>Total</u>
Payment obligations by year			
Operating Leases (a)	\$ 79	\$ 12	\$ 91

(a) Net of sublease income

Critical Accounting Policies

These critical accounting policies and estimates by our management should be read in conjunction with Note 2 *Summary of Significant Accounting Policies* to the Consolidated Financial Statements that were prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

The preparation of financial statements in accordance U.S. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses in the reporting period. We regularly make estimates and assumptions that affect the reported amounts of assets and liabilities. The most significant estimates included in our financial statements are the valuation of accounts receivable and long-term assets, including intangibles, goodwill and deferred tax assets, stock-based compensation, amounts of revenue to be recognized on service contracts in progress, unbilled receivables, and deferred revenue. We base our estimates and assumptions on current facts, historical experience and various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by us may differ materially and adversely from our estimates. To the extent there are material differences between our estimates and the actual results, our future results of operations will be affected.

We consider the following accounting policies to be both those most important to the portrayal of our financial condition and those that require the most subjective judgment:

- Revenue recognition;
- Allowance for doubtful accounts;
- Accounting for cost of computer software to be sold, leased or otherwise marketed;
- Accounting for goodwill and other intangible assets; and
- Accounting for stock-based compensation.

Revenue Recognition

Overview

The Company derives its revenue from three sources: (i) Software Licenses, which are comprised of subscription fees (“SaaS”), perpetual software licenses, and maintenance for post-customer support (“PCS”) on perpetual licenses, (ii) Digital Engagement Services, which are professional services to implement our products such as web development, digital strategy, information architecture and usability engineering and (iii) hosting perpetual licenses. Customers who license the software on a subscription basis, which can be described as “Software as a Service” or “SaaS”, do not take possession of the software.

Revenue is recognized when control of these services is transferred to the Company’s customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those services. If the consideration promised in a contract includes a variable amount, for example, overage fees, contingent fees or service level penalties, the Company includes an estimate of the amount it expects to receive for the total transaction price if it is probable that a significant reversal of cumulative revenue recognized will not occur. The Company’s subscription service arrangements are non-cancelable and do not contain refund-type provisions. Revenue is reported net of applicable sales and use tax.

The Company recognizes revenue from contracts with customers using a five-step model, which is described below:

- Identify the customer contract;
- Identify performance obligations that are distinct;
- Determine the transaction price;
- Allocate the transaction price to the distinct performance obligations; and
- Recognize revenue as the performance obligations are satisfied.

Identify the customer contract

A customer contract is generally identified when there is approval and commitment from both the Company and its customer, the rights have been identified, payment terms are identified, the contract has commercial substance and collectability and consideration is probable.

Identify performance obligations that are distinct

A performance obligation is a promise to provide a distinct good or service or a series of distinct goods or services. A good or service that is promised to a customer is distinct if the customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer, and a company's promise to transfer the good or service to the customer is separately identifiable from other promises in the contract.

Determine the transaction price

The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer, excluding sales taxes that are collected on behalf of government agencies.

Allocate the transaction price to distinct performance obligations

The transaction price is allocated to each performance obligation based on the relative standalone selling prices ("SSP") of the goods or services being provided to the customer. The Company determines the SSP of its goods and services based upon the historical average sales prices for each types of software license and professional services sold.

Recognize revenue as the performance obligations are satisfied

Revenues are recognized when or as control of the promised goods or services is transferred to customers. Revenue from SaaS licenses is recognized ratably over the subscription period beginning on the date the license is made available to customers. Most subscription contracts are three-year terms. Customers who license the software on a perpetual basis receive rights to use the software for an indefinite time period and an option to purchase post-customer support ("PCS"). PCS revenue is recognized ratably on a straight-line basis over the period of performance and the perpetual license is recognized upon delivery. The Company also offers hosting services for those customers who purchase a perpetual license and do not want to run the software in their environment. Revenue from hosting is recognized ratably over the service period, ranging from one to three-year terms. The Company recognizes revenue from professional services as the services are provided.

Customer Payment Terms

Payment terms with customers typically require payment 30 days from invoice date. Payment terms may vary by customer but generally do not exceed 45 days from invoice date. Invoicing for digital engagement services are either monthly or upon achievement of milestones and payment terms for such billings are within the standard terms described above. Invoicing for subscriptions and hosting are typically issued monthly and are generally due in the month of service. The Company's subscription and hosting agreements provide for refunds when service is interrupted for an extended period of time and are reserved for in the month in which they occur if necessary.

Our digital engagement services agreements with customers do not provide for any refunds for services or products and therefore no specific reserve for such is maintained. In the infrequent instances where customers raise a concern over delivered products or services, we have endeavored to remedy the concern and all costs related to such matters have been insignificant in all periods presented.

Warranty

Certain arrangements include a warranty period, which is generally 30 days from the completion of work. In hosting arrangements, we provide warranties of up-time reliability. We continue to monitor the conditions that are subject to the warranties to identify if a warranty claim may arise. If we determine that a warranty claim is probable, then any related cost to satisfy the warranty obligation is estimated and accrued. Warranty claims to date have been immaterial.

Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts which represents estimated losses resulting from the inability, failure or refusal of our clients to make required payments.

We analyze historical percentages of uncollectible accounts and changes in payment history when evaluating the adequacy of the allowance for doubtful accounts. We use an internal collection effort, which may include our sales and services groups as we deem appropriate. Although we believe that our allowances are adequate, if the financial condition of our clients deteriorates, resulting in an impairment of their ability to make payments, or if we underestimate the allowances required, additional allowances may be necessary, resulting in increased expense in the period in which such determination is made.

Accounting for Cost of Computer Software to be Sold, Leased or Otherwise Marketed

We charge research and development expenditures for technology development to operations as incurred. However, in accordance with Codification 985-20 *Costs of Software to be Sold Leased or Otherwise Marketed*, we capitalize certain software development costs subsequent to the establishment of technological feasibility. Based on our product development process, technological feasibility is established upon completion of a working model. Certain costs incurred between completion of a working model and the point at which the product is ready for general release is capitalized if significant. Once the product is available for general release, the capitalized costs are amortized in cost of sales.

Accounting for Goodwill and Intangible Assets

Goodwill is tested for impairment annually during the fourth quarter of every year and more frequently if events and circumstances indicate that the asset might be impaired. The purpose of an impairment test is to identify any potential impairment by comparing the carrying value of a reporting unit including goodwill to its fair value. An impairment charge is recognized for the amount by which the carrying amount exceeds the reporting unit's fair value, however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit.

Factors that could lead to a future impairment include material uncertainties such as operational, economic and competitive factors specific to the key assumptions underlying the fair value estimate we use in our impairment testing that have reasonable possibility of changing. This could include a significant reduction in projected revenues, a deterioration of projected financial performance, future acquisitions and/or mergers, and a decline in our market value as a result of a significant decline in our stock price.

Accounting for Stock-Based Compensation

At September 30, 2019, we maintained two stock-based compensation plans, one of which has expired but still contains vested and unvested stock options. The two plans are more fully described in Note 13 of these consolidated financial statements.

The Company accounts for stock-based compensation awards in accordance with ASC 718 *Compensation-Stock* Topic of the Codification. Share-based payments (to the extent they are compensatory) are recognized in our consolidated statements of operations based on their fair values.

We recognize stock-based compensation expense for share-based payments issued or assumed after October 1, 2006 that are expected to vest on a straight-line basis over the service period of the award, which is generally three years. We recognize the fair value of the unvested portion of share-based payments granted prior to October 1, 2006 over the remaining service period, net of estimated forfeitures. In determining whether an award is expected to vest, we use an estimated, forward-looking forfeiture rate based upon our historical forfeiture rate and reduce the expense over the recognition period. Estimated forfeiture rates are updated for actual forfeitures quarterly. We also consider, each quarter, whether there have been any significant changes in facts and circumstances that would affect our forfeiture rate. Although we estimate forfeitures based on historical experience, actual forfeitures in the future may differ. In addition, to the extent our actual forfeitures are different than our estimates, we record a true-up for the difference in the period that the awards vest, and such true-ups could materially affect our operating results.

We estimate the fair value of employee stock options using the Black-Scholes-Merton option valuation model. The fair value of an award is affected by our stock price on the date of grant as well as other assumptions including the estimated volatility of our stock price over the term of the awards and the estimated period of time that we expect employees to hold their stock options. The risk-free interest rate assumption we use is based upon United States treasury interest rates appropriate for the expected life of the awards. We use the historical volatility of our publicly traded options in order to estimate future stock price trends. In order to determine the estimated period of time that we expect employees to hold their stock options, we use historical trends of employee turnovers. Our expected dividend rate is zero since we do not currently pay cash dividends on our common stock and do not anticipate doing so in the foreseeable future. The aforementioned inputs entered into the option valuation model we use to fair value our stock awards are subjective estimates and changes to these estimates will cause the fair value of our stock awards and related stock-based compensation expense we record to vary.

We record current tax expense for incentive stock-based awards that result in deductions on our income tax returns, based on the amount of stock-based compensation recognized and the statutory tax rate in the jurisdiction in which we will receive a tax deduction.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Not required.

Item 8. Financial Statements and Supplementary Data.**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Shareholders and Board of Directors of
Bridgeline Digital, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Bridgeline Digital, Inc., and subsidiaries (the "Company") as of September 30, 2019 and 2018, the related consolidated statements of operations, comprehensive loss, stockholders' equity and cash flows for each of the two years in the period ended September 30, 2019, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of September 30, 2019 and 2018, and the results of its operations and its cash flows for each of the two years in the period ended September 30, 2019, in conformity with accounting principles generally accepted in the United States of America.

Explanatory Paragraph - Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As more fully described in Note 1, the Company has a significant working capital deficiency, has incurred significant losses and may need to raise additional funds to meet its obligations and sustain its operations. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

1. Description of Business

Overview

Bridgeline Digital, The Digital Engagement Company™ (the “Company” or “Bridgeline”), helps customers with their digital experience from websites and intranets to online stores and campaigns and integrates Web Content Management, eCommerce, Marketing Automation, Site Search, Authenticated Portals, Social Media Management, Translation and Web Analytics to help organizations deliver digital experiences. The Bridgeline Unbound platform is delivered through a cloud-based SaaS (“Software as a Service”) multi-tenant business model, providing maintenance, daily technical operation and support; or via a traditional perpetual licensing business model, in which the software resides on a dedicated server in either the customer’s facility or hosted by Bridgeline via a cloud-based hosted services model.

The Company was incorporated under the laws of the State of Delaware on August 28, 2000.

Locations

The Company’s corporate office is located in Burlington, Massachusetts. The Company maintains regional field offices serving the following geographical locations: Boston, Massachusetts; Chicago, Illinois; New York, New York; and Ontario, Canada. The Company has three wholly-owned subsidiaries: Bridgeline Digital Pvt. Ltd. located in Bangalore, India, Bridgeline Digital Canada, Inc. located in Ontario, Canada, and Stantive Technologies Pty. Ltd. located in Australia.

Increase in Authorized Shares and Reverse Stock Split

On April 26, 2019, the Company’s Shareholders and the Board of Directors approved an amendment to the Company’s Amended and Restated Certificate of Incorporation to increase the total number of shares of Common Stock, par value \$0.001 per share (“Common Stock”), authorized for issuance thereunder from 50 million shares to 2.5 billion shares (the “Increase in Authorized”). On the same date the Company’s Shareholders and the Board of Directors also approved an amendment to the Company’s Amended and Restated Certificate of Incorporation to effect a reverse stock split of both its issued and outstanding and authorized shares of Common Stock, par value \$0.001 per share, at a ratio of one (1) share of Common Stock for every fifty (50) shares of Common Stock at any time prior to December 31, 2018 (the “Reverse Split”) pursuant to which all classes of the Company’s issued and outstanding shares of Common Stock at the close of business on such date were combined and reconstituted into a smaller number of shares of Common Stock in a ratio of one (1) share of Common Stock for every fifty (50) shares of Common Stock (“1-for-50 reverse stock split”). The 1-for-50 reverse stock split was effective as of close of business on May 1, 2019 (the “Effective Date”) and the Company’s stock began trading on a split-adjusted basis on May 2, 2019.

The reverse stock split reduced the number of shares of the Company’s Common Stock authorized from 2.5 billion shares to 50 million shares. Proportional adjustments have been made to the conversion and exercise prices of the Company’s outstanding convertible preferred stock, warrants, restricted stock awards, and stock options, and to the number of shares issued and issuable under the Company’s Stock Incentive Plans. The Company did not issue any fractional shares in connection with the reverse stock split. Instead, any stockholder who would otherwise be entitled to receive a fractional share of Common Stock as a result of the reverse stock split is entitled to receive a cash payment in lieu thereof based on the average of the closing sales prices of a share of the Company’s Common Stock on the Nasdaq Capital Market during regular trading hours for the five consecutive trading days immediately preceding the Effective Date. The reverse stock split does not modify the rights or preferences of the Common Stock. The number of authorized shares of the Company’s Common Stock is 50 million shares and the par value remain \$0.001.

The accompanying consolidated financial statements and footnotes have been retroactively adjusted to reflect the effects of the 1-for-50 reverse stock split.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Going Concern

The Company has incurred operating losses and used cash in its operating activities for the past several years. Cash has been used to fund operations, develop new products, and build infrastructure. During the prior fiscal years and continuing into the current fiscal year, the Company has executed a restructuring plan that included a reduction of workforce and office space, which significantly reduced operating expenses. The Company is continuing to maintain tight control over discretionary spending in the current fiscal year.

In the second quarter of fiscal 2019, the Company concluded a private offering that raised net cash proceeds of \$9.2 million. Proceeds were used to pay-off in full the outstanding amounts on our Heritage Bank of Commerce line of credit and Montage Capital II, L.P. loan. At September 30, 2019, the Company had no debt. Further, in the second quarter of fiscal 2019, the Company used cash to purchase the assets of Seevolution, Inc. and Stantive Technologies Group Inc., which assets included technology and customers. While the Company believes the future revenues and cash flows from these newly acquired customers will supplement its working capital and the Company believes it has an appropriate cost structure to support future revenue growth, based upon its current working capital and projected cash flows in the next twelve months, the Company will need additional sources of financing in place in order to ensure its operations are adequately funded. No definitive agreements for additional financing are in place as of the date of this annual report and there can be no assurances that that additional sources of financing could be obtained on terms that are favorable or acceptable to us and that revenue growth and improvement in cash flows can be achieved. Accordingly, management believes that there is substantial doubt about the Company's ability to continue as a going concern for at least twelve months following the issuance of this annual report. No adjustments have been made to accompanying consolidated financial statements as a result of this uncertainty.

2. Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The Company's fiscal year end is September 30. The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. The most significant estimates included in these consolidated financial statements are the valuation of accounts receivable, including the adequacy of the allowance for doubtful accounts, and fair value measurements related to the valuation of warrants. The complexity of the estimation process and factors relating to assumptions, risks and uncertainties inherent with the use of the estimates affect the amount of revenue and related expenses reported in the Company's consolidated financial statements. Internal and external factors can affect the Company's estimates. Actual results could differ from these estimates under different assumptions or conditions.

Reclassifications

Certain amounts in the prior period financial statements have been reclassified to conform to the presentation in the current period financial statements. These reclassifications had no effect on the previously reported net loss.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Cash and Cash Equivalents

The Company considers all highly liquid instruments with original maturity of three months or less from the date of purchase to be cash equivalents.

The Company's cash is maintained with what management believes to be a high-credit quality financial institution. At times, deposits held at this bank may exceed the federally insured limits. Management believes that the financial institutions that hold the Company's deposits are financially sound and have minimal credit risk. Risks associated with cash and cash equivalents are mitigated by the Company's investment policy, which limits the Company's investing of excess cash into only money market mutual funds.

Concentration of Credit Risk, Significant Customers, and Off-Balance Sheet Risk

Financial instruments, which potentially expose the Company to concentrations of credit risk consist primarily of cash, cash equivalents, and accounts receivable.

The Company extends credit to customers on an unsecured basis in the normal course of business. Management performs ongoing credit evaluations of its customers' financial condition and limits the amount of credit when deemed necessary. Accounts receivable are carried at original invoice amount, less an estimate for doubtful accounts based on a review of all outstanding amounts.

The Company has no off-balance sheets risks such as foreign exchange contracts, interest rate swaps, option contracts or other foreign hedging agreements.

Allowance for Doubtful Accounts

The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. For all customers, the Company recognizes allowances for doubtful accounts based on the length of time that the receivables are past due, current business environment and its historical experience. If the financial condition of the Company's customers were to deteriorate, resulting in impairment of their ability to make payments, additional allowances may be required.

Revenue Recognition

Adoption of New Revenue Recognition Accounting Principles

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, *Revenue from Contracts with Customers: Topic 606* (ASU 2014-09 or ASC 606), to supersede nearly all existing revenue recognition guidance under U.S. GAAP, which became effective for the Company on October 1, 2018. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to be received for those goods or services. ASU 2014-09 defines a five-step process to achieve this core principle and, in doing so, it is possible more judgment and estimates may be required within the revenue recognition process than required under the previous revenue recognition accounting principles, including identifying performance obligation in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. Under ASC 606, revenue is recognized when a customer obtains control of a promised good or service and is recognized in an amount that reflects the consideration that the entity expects to receive in exchange for the good or service. In addition, ASC 606 also includes subtopic ASC 340-40, *Other Assets and Deferred Costs – Contracts with Customers*, referred to herein as ASC 340-40, which provides guidance on accounting for certain revenue related costs including costs associated with obtaining and fulfilling a contract, discussed further below.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

The Company adopted the new revenue guidance using the modified retrospective method applied to those contracts which were not completed as of October 1, 2018. Results for reporting periods beginning after September 30, 2018 are presented under the new guidance, while prior period amounts are not adjusted and continue to be reported in accordance with historic revenue guidance. The Company applied the new standard using certain allowable practical expedients where:

- the measurement of the transaction price excludes all taxes assessed by governmental authority that are both imposed on and concurrent with a specific revenue-producing transaction and collected by the Company from a customer;
- the new revenue guidance has been applied to portfolios of contracts with similar characteristics;
- the modified retrospective approach has been applied only to contracts that are not completed contracts at the date of initial adoption; and
- the value of unsatisfied performance obligations for contracts with an original expected length of one year or less has not been disclosed.

Revenue recognition from the Company's primary revenue streams remained substantially unchanged following adoption of ASC 606 and therefore did not have a material impact on its revenues. The impact of applying the new guidance in fiscal 2019 versus the prior guidance resulted in a change to the period over which sales commissions are amortized to incorporate an estimated customer life. This resulted in a longer amortization period for deferred commission expense, which reduces expense compared to the application of the prior guidance.

Upon adoption, Other current assets increased by \$59 due to the capitalization of the current portion of sales commissions and Other assets increased by \$27 due to the capitalization of the noncurrent portion of sales commissions. Accumulated deficit decreased by \$78 as a net result of these adjustments. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods.

The following tables summarize the impact of adopting ASC 606 on the Company's consolidated financial statements as of and for the year ended September 30, 2019:

Overview

The Company derives its revenue from three sources: (i) Software Licenses, which are comprised of subscription fees (“SaaS”), perpetual software licenses, and maintenance for post-customer support (“PCS”) on perpetual licenses, (ii) Digital Engagement Services, which are professional services to implement our products such as web development, digital strategy, information architecture and usability engineering and (iii) hosting perpetual licenses. Customers who license the software on a subscription basis, which can be described as “Software as a Service” or “SaaS,” do not take possession of the software.

Revenue is recognized when control of these services is transferred to the Company’s customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those services. If the consideration promised in a contract includes a variable amount, for example, overage fees, contingent fees or service level penalties, the Company includes an estimate of the amount it expects to receive for the total transaction price if it is probable that a significant reversal of cumulative revenue recognized will not occur. The Company’s subscription service arrangements are non-cancelable and do not contain refund-type provisions. Revenue is reported net of applicable sales and use tax.

The Company recognizes revenue from contracts with customers using a five-step model, which is described below:

- Identify the customer contract;
- Identify performance obligations that are distinct;
- Determine the transaction price;
- Allocate the transaction price to the distinct performance obligations; and
- Recognize revenue as the performance obligations are satisfied.

Identify the customer contract

A customer contract is generally identified when there is approval and commitment from both the Company and its customer, the rights have been identified, payment terms are identified, the contract has commercial substance and collectability and consideration is probable.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Identify performance obligations that are distinct

A performance obligation is a promise to provide a distinct good or service or a series of distinct goods or services. A good or service that is promised to a customer is distinct if the customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer, and a company's promise to transfer the good or service to the customer is separately identifiable from other promises in the contract.

Determine the transaction price

The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer, excluding sales taxes that are collected on behalf of government agencies.

Allocate the transaction price to distinct performance obligations

The transaction price is allocated to each performance obligation based on the relative standalone selling prices ("SSP") of the goods or services being provided to the customer. The Company determines the SSP of its goods and services based upon the historical average sales prices for each types of software license and professional services sold.

Recognize revenue as the performance obligations are satisfied

Revenues are recognized when or as control of the promised goods or services is transferred to customers. Revenue from SaaS licenses is recognized ratably over the subscription period beginning on the date the license is made available to customers. Most subscription contracts are three-year terms. Customers who license the software on a perpetual basis receive rights to use the software for an indefinite time period and an option to purchase post-customer support ("PCS"). PCS revenue is recognized ratably on a straight-line basis over the period of performance and the perpetual license is recognized upon delivery. The Company also offers hosting services for those customers who purchase a perpetual license and do not want to run the software in their environment. Revenue from hosting is recognized ratably over the service period, ranging from one to three-year terms. The Company recognizes revenue from professional services as the services are provided.

Disaggregation of Revenue

The Company provides disaggregation of revenue based on geography and product groupings (Note 14) as it believes this best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors.

Customer Payment Terms

Payment terms with customers typically require payment 30 days from invoice date. Payment terms may vary by customer but generally do not exceed 45 days from invoice date. Invoicing for digital engagement services are either monthly or upon achievement of milestones and payment terms for such billings are within the standard terms described above. Invoicing for subscriptions and hosting are typically issued monthly and are generally due in the month of service.

Warranty

Certain arrangements include a warranty period, which is generally 30 days from the completion of work. In hosting arrangements, the Company provides warranties of up-time reliability. The Company continues to monitor the conditions that are subject to the warranties to identify if a warranty claim may arise. If it is determined that a warranty claim is probable, then any related cost to satisfy the warranty obligation is estimated and accrued. Warranty claims to date have been immaterial.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Deferred Revenue

Amounts that have been invoiced are recognized in accounts receivable, deferred revenue or revenue, depending on whether the revenue recognition criteria have been met. Deferred revenue represents amounts billed for which revenue has not yet be recognized. Deferred revenue that will be recognized during the succeeding 12-month period is recognized as current deferred revenue and the remaining portion is recognized as noncurrent deferred included in Other long-term liabilities. As of September 30, 2019, approximately \$8 of revenue is expected be recognized from remaining performance obligations for contracts with original performance obligations that exceed one year. The Company expects to recognize revenue on approximately 99% of these remaining performance obligations over the next 12 months, with the balance recognized thereafter.

The following table summarizes the classification and net increase (decrease) in deferred revenue as of and for the years ended September 30, 2019 and 2018:

	Deferred Revenue	
	Current	Long Term
Balance as of October 1, 2017	\$ 1,466	\$ 28
Increase (decrease)	(872)	(8)
Balance as of September 30, 2018	<u>594</u>	<u>20</u>
Increase (decrease)	668	(12)
Balance as of September 30, 2019	<u>\$ 1,262</u>	<u>\$ 8</u>

Deferred Capitalized Commissions Costs

The incremental direct costs of obtaining a contract, which primarily consist of sales commissions paid for new subscription contracts are deferred and amortized on a straight-line basis over a period of approximately three years. The Company evaluated both qualitative and quantitative factors, including the estimated life cycles of its offerings, renewal rates, and its customer attrition to determine the amortization periods for the capitalized costs. The initial amortization period will general be the customer contract term, which is typically thirty-six (36) months, with some exceptions. Deferred capitalized commission expense that will be recognized as expense during the succeeding 12-month period is recognized as current deferred capitalized commission costs, and the remaining portion is recognized as long-term deferred capitalized commission costs. Total deferred capitalized commissions were \$70 and \$77 as of September 30, 2019 and 2018, respectively. Current deferred capitalized commission costs are included in Other current assets in the Consolidated Balance Sheets and noncurrent deferred capitalized commission costs are included in Other assets in the Consolidated Balance Sheets. Amortization expense was \$39 for the year ended September 30, 2019.

Property and Equipment

The components of property and equipment are stated at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets (three to five years). Leasehold improvements are amortized using the straight-line method over the lesser of the estimated useful life of the asset or the lease term. Repairs and maintenance costs are expensed as incurred.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Internal Use Software

Costs incurred in the preliminary stages of development are expensed as incurred. Once an application has reached the development stage, internal and external costs, if direct and incremental, are capitalized until the software is substantially complete and ready for its intended use. Capitalization ceases upon completion of all substantial testing. The Company also capitalizes costs related to specific upgrades and enhancements when it is probable that the expenditures will result in additional functionality. Capitalized costs are recorded as part of equipment and improvements. Training costs are expensed as incurred. Internal use software is amortized on a straight-line basis over its estimated useful life, generally three years.

Research and Development and Software Development Costs

Costs for research and development of a software product to sell, lease or otherwise market are charged to operations as incurred until technological feasibility has been established. Once technological feasibility has been established, certain software development costs incurred during the application development stage are eligible for capitalization. Based on the Company's software product development process, technological feasibility is established upon completion of a working model.

Software development costs that are capitalized and are amortized to cost of sales over the estimated useful life of the software, typically three years. Capitalization ceases when a product is available for general release to customers. Capitalization costs are included in other assets in the consolidated financial statements. The Company capitalized \$11 and \$15 of costs in fiscal 2019 and fiscal 2018, respectively.

Intangible Assets

All intangible assets have finite lives and are stated at cost, net of amortization. Amortization is computed over the estimated useful life of the related assets on a straight-line method as follows:

Description	Estimated Useful Life (in years)
Developed and core technology	3
Non-compete agreements	3 - 6
Customer relationships	5 - 6
Trademarks and trade names	1 - 10

Goodwill

The carrying value of goodwill is not amortized, but it tested for impairment annually as of September 30, as well as on an interim basis whenever events or changes in circumstances indicate that the carrying amount of a reporting unit may not be recoverable. An impairment charge is recognized for the amount by which the carrying amount exceeds the reporting unit's fair value. However, the impairment loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. Goodwill is assessed at the consolidated level as one reporting unit.

Valuation of Long-Lived Assets

The Company periodically reviews its long-lived assets, which consist primarily of property and equipment and intangible assets with finite lives, for impairment whenever events or changes in circumstances indicate the carrying amount of such assets may exceed their fair value. Recoverability of these assets is assessed using a number of factors including operating results, business plans, budgets, economic projections and undiscounted cash flows.

In addition, the Company's evaluation considers non-financial data such as market trends, product development cycles and changes in management's market emphasis. For the definite-lived intangible asset impairment review, the carrying value of the intangible assets is compared against the estimated undiscounted cash flows to be generated over the remaining life of the intangible assets. To the extent that the undiscounted future cash flows are less than the carrying value, the fair value of the asset is determined. If such fair value is less than the current carrying value, the asset is written down to the estimated fair value. There were no impairments of long-lived assets in fiscal 2019 or 2018.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Foreign Currency

The Company determines the appropriate method of measuring assets and liabilities as to whether the method should be based on the functional currency of the entity in the environment it operates or the reporting currency of the Company, the U.S. dollar. The Company has determined that the functional currency of its foreign subsidiaries are the local currencies of their respective jurisdictions. Assets and liabilities are translated into U.S. dollars at exchange rates in effect at the balance sheet date. Equity accounts are translated at historical rates, except for the change in retained earnings as a result of the income statement translation process. Revenue and expense items are translated into U.S. dollars at average exchange rates for the period. The adjustments are recorded as a separate component of stockholders' equity and are included in accumulated other comprehensive income (loss). The Company's foreign currency translation net gains and losses for fiscal 2019 and 2018 were \$13 and (\$1), respectively. Transaction gains and losses related to monetary assets and liabilities denominated in a currency different from a subsidiary's functional currency are included in the Consolidated Statements of Operations.

Segment Information

The Company has one reportable segment.

Stock-Based Compensation

The Company accounts for stock-based compensation in the Consolidated Statements of Operations based on their fair values of the awards on the date of grant on a straight-line basis over their vesting term. Compensation expense is recognized only for share-based payments expected to vest. The Company estimates forfeitures at the date of grant based on the Company's historical experience and future expectations.

Valuation of Stock Options and Warrants Issued to Non-Employees

The Company measures expense for non-employee stock-based compensation and the estimated fair value of options exchanged in business combinations and warrants issued for services using the fair value method for services received or the equity instruments issued, whichever is more readily measured. The Company estimates the fair value of stock options issued to non-employees using the Black-Scholes Merton option valuation model.

The Company estimated the fair value of common stock warrants issued to non-employees using the binomial options pricing model. The Company evaluates common stock warrants as they are issued to determine whether they should be classified as an equity instrument or a liability. Those warrants that are classified as a liability are carried at fair value at each reporting date, with changes in their fair value recorded in other income (expense) in the Consolidated Statements of Operations.

Advertising Costs

Advertising costs are expensed when incurred. Such costs were \$425 and \$465 for fiscal 2019 and 2018, respectively.

Employee Benefits

The Company sponsors a contributory 401(k) plan allowing all full-time employees who meet prescribed service requirements to participate. The Company is not required to make matching contributions, although the plan provides for discretionary contributions by the Company. The Company made no contributions in either fiscal 2019 or fiscal 2018.

BRIDGELINE DIGITAL, INC.

(Dollars in thousands, except share and per share data)

Income Taxes

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the "Tax Act"). The Tax Act made broad and complex changes to the U.S. tax code that affected the Company's fiscal year ended September 30, 2018, including, but not limited to, reducing the U.S. federal corporate tax rate. For taxable years beginning after December 31, 2017, the Tax Act reduces the federal corporate tax rate to 21 percent and as such impacted the Company's fiscal 2018 tax calculations. For the year ended September 30, 2018, the U.S. federal statutory rate is a blended rate based upon the number of days in fiscal 2018 that the Company was taxed at the former rate of 34 percent and the number of days that it was taxed at the new rate of 21 percent. The reduction of the corporate tax rate caused the Company to revalue its deferred tax assets to the lower federal rate and correspondingly adjust the valuation allowance against the deferred tax assets by the same amount. For the year ended September 30, 2018, the deferred tax asset and related valuation allowance were lowered by \$3,839 to account for the lowered rate. The Tax Act repealed the Corporate Alternative Minimum Tax. The Company has available an AMT credit carryforward in the amount of \$22 at September 30, 2019 and 2018. This has been recognized as a deferred tax asset not subject to a valuation allowance.

The Act required the Company to pay a one-time transition tax on earnings of the Company's foreign subsidiaries that were previously tax deferred for U.S. income taxes and created new taxes on the Company's foreign sourced earnings. The Company determined that the repatriation tax was zero as the foreign subsidiaries had no positive retained earnings and no current income.

The Company recognizes deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the Company's financial statements and tax returns. Deferred income taxes are recognized based on temporary differences between the financial statement and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the temporary differences are expected to reverse. Valuation allowances are provided if based upon the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

The Company provides for reserves for potential payments of taxes to various tax authorities related to uncertain tax positions. Reserves are based on a determination of whether and how much of a tax benefit taken by the Company in its tax filings or positions is "more likely than not" to be realized following resolution of any uncertainty related to the tax benefit, assuming that the matter in question will be raised by the tax authorities. Interest and penalties associated with uncertain tax positions are included in the provision for income taxes.

The Company does not provide for U.S. income taxes on the undistributed earnings of its foreign subsidiaries, which the Company considers to be permanent investments.

Net Loss Per Share

Basic net loss per share is computed by dividing net loss available to common shareholders by the weighted average number of common shares outstanding. Diluted net income per share applicable to common shareholders is computed using the weighted average number of common shares outstanding during the period plus the dilutive effect of outstanding stock options, and warrants using the "treasury stock" method and convertible preferred stock using the as-if-converted method. The computation of diluted earnings per share does not include the effect of outstanding stock options, warrants and convertible preferred stock that are considered anti-dilutive.

For the years ended September 30, 2019 and 2018, diluted net loss per share was the same as basic net loss per share as the effects of all the Company's potential common stock equivalents are anti-dilutive as the Company reported a net loss applicable to common shareholders for the periods and the impact of in-the-money warrants were also anti-dilutive. Potential common stock equivalents excluded include the Series A Convertible Preferred Stock, Series C Convertible Preferred Stock, stock options and warrants (See Note 13).

Recently Issued Accounting Pronouncements Not Yet Effective

Leases

In February 2016, the FASB issued ASU No. 2016-02, which is guidance on accounting for leases. ASU No. 2016-02 requires lessees to recognize most leases on their balance sheets for the rights and obligations created by those leases. The guidance requires enhanced disclosures regarding the amount, timing, and uncertainty of cash flows arising from leases and will be effective for annual periods beginning after December 15, 2018, including interim reporting periods within those annual reporting periods. Early adoption is permitted.

The new guidance will take effect at the beginning of the Company's first quarter (October 1) of our fiscal year ending September 30, 2020. The guidance requires either a modified retrospective transition approach with application in all comparative periods presented, or an alternative transition method, which permits the Company to use its effective date as the date of initial application without restating the comparative period financial statements and recognizing any cumulative effect adjustment to the opening balance sheet of accumulated deficit at October 1, 2019. The Company is finalizing the review of information for completeness of its lease portfolio, analyzing the financial statement impact of adopting the standards, and evaluating the impact of adoption on our existing accounting policies and disclosures. Upon adoption, we expect to recognize lease liabilities and right-to-use assets of the related lease arrangements, however, our contractual lease arrangements and commitments at September 30, 2019 are not material to the consolidated financial statements, as a whole.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Intangibles – Goodwill and Other – Internal-Use Software

In August 2018, the FASB issued ASU 2018-15, which addresses a customer’s accounting for implementation costs incurred in a cloud computing arrangement that is a service contract. Under the new guidance, customers will apply the same criteria for capitalizing implementation costs as they would for an arrangement that has a software license. ASC 2018-15 is effective for annual reporting periods beginning after December 15, 2019, including interim reporting periods within those annual reporting periods. Early adoption is permitted. The Company is currently evaluating the impact of the new guidance on its consolidated financial statements and related disclosures.

Fair Value

In August 2018, the FASB issued ASU 2018-13, which is guidance that changes the fair value measurement disclosure requirements of ASC 820. ASU 2018-13 is effective for annual reporting periods beginning after December 15, 2019, including interim reporting periods within those annual reporting periods. Early adoption is permitted for any eliminated or modified disclosures upon issuance of this ASU. The Company is currently evaluating the impact of the new guidance on its consolidated financial statements and related disclosures.

Financial Instruments – Credit Losses

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326)*, which requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. This replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost. ASC 2016-16 is effective for annual reporting periods beginning after December 15, 2019, including interim reporting periods within those annual reporting periods. Early adoption is permitted. The Company is currently evaluating the impact of the new guidance on its consolidated financial statements and related disclosures.

All other Accounting Standards Updates issued but not yet effective are not expected to have a material effect on the Company’s future consolidated financial statements.

3. Accounts Receivable and Unbilled Receivables

Accounts receivable and unbilled receivables consists of the following:

	As of September 30,	
	2019	2018
Accounts receivable	\$ 1,067	\$ 1,902
Allowance for doubtful accounts	(88)	(181)
Accounts receivable, net	<u>\$ 979</u>	<u>\$ 1,721</u>

As of and for the year ended September 30, 2019, three customers represented approximately 16%, 14% and 12% of accounts receivable and two customers represented approximately 11% and 15% of total revenues. As of and for the year ended September 30, 2018, two customers represented approximately 19% and 12% of accounts receivable and three customers represented approximately 11%, 12% and 14% of total revenues. Unbilled receivables represent amounts recognized as revenue for which invoices have not yet been sent.

4. Acquisitions

On February 13, 2019, the Company entered into an Asset Purchase Agreement with Seevolution Inc., a Delaware corporation, Celebros, Inc., a Delaware corporation, and Elisha Gilboa, an individual and shareholder of Seevolution (the “Seevolution Asset Purchase Agreement”). The Seevolution Asset Purchase Agreement sets forth the terms and conditions pursuant to which the

Company acquired certain assets in exchange for consideration paid consisting of (i) \$418 in cash at the time of purchase, (ii) the payment of \$100 of additional cash to be paid out \$10 per month for ten months starting April 30, 2019 and (iii) 40,000 shares of Bridgeline Digital common stock. Costs to complete the transaction were approximately \$18. The Company accounted for the Seevolution transaction as an asset acquisition as there were no substantive processes acquired. Goodwill is not recognized in an asset acquisition.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

On March 13, 2019, the Company entered into an Asset Purchase Agreement with Stantive Technologies Group Inc. (“Stantive”), a corporation organized under the laws of Ontario, Canada to purchase substantially all of the assets of Stantive and assume certain liabilities. The Company also acquired all of the outstanding stock of Stantive Technologies Group, Pty, a company incorporated in Australia, which was a subsidiary of Stantive. The total purchase price, including cure costs, for Stantive and its Australian subsidiary was approximately \$5.2 million in cash.

The Company accounted for the Stantive transaction as a business combination in accordance with ASC Topic 805, *Business Combinations*.

The Company assessed the fair market value of the acquired assets and liabilities as of the respective purchase dates, as follows:

Net assets acquired:	<u>Seevolution</u>	<u>Stantive</u>	<u>Total</u>
Cash	\$ -	\$ 8	\$ 8
Accounts receivable, net	47	844	891
Other assets	-	40	40
Fixed assets, net	-	272	272
Intangible assets	1,024	3,007	4,031
Goodwill	-	1,507	1,507
Total assets	<u>1,071</u>	<u>5,678</u>	<u>6,749</u>
Current liabilities	<u>76</u>	<u>488</u>	<u>564</u>
Net assets acquired:	<u>\$ 995</u>	<u>\$ 5,190</u>	<u>\$ 6,185</u>
 Purchase Price:			
Cash Paid (including acquisition costs)	\$ 418	\$ 5,190	\$ 5,608
Future deferred payments (present value)	97	-	97
Common stock (fair value)	480	-	480
Total consideration paid	<u>\$ 995</u>	<u>\$ 5,190</u>	<u>\$ 6,185</u>

As part of the Seevolution acquisition, of the \$1,024 allocated to intangible assets, \$602 was allocated to customer relationships, \$401 was allocated to technology with an average useful life of five years, and \$21 was allocated to trademarks with an average useful life of one year. Amortization expense of intangible assets was approximately \$138 for the year ended September 30, 2019.

As part of the Stantive acquisition, of the \$3,007 allocated to intangible assets, \$1.7 million was allocated to customer relationships, \$1.2 million was allocated to technology with an average useful life of five years, and \$75 was allocated to trademarks with an average useful life of one year. Amortization expense of intangible assets was approximately \$397 for the year ended September 30, 2019.

Total revenue from the Seevolution and Stantive acquisitions totaled approximately \$2,145. Total earnings from the two acquisitions is impracticable to disclose as the acquisitions were asset purchases and the operations were merged with existing operations and not accounted for separately.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Pro Forma Information (Unaudited)

The following is the unaudited pro forma information assuming the Stantive acquisition occurred on October 1, 2017:

(In thousands, except per share data)	Years Ended September 30,	
	2019	2018
Revenue	\$ 15,622	\$ 18,439
Net loss applicable to common shareholders	(9,127)	(7,783)
Net loss per share attributable to common shareholders:		
Basic	\$ (7.61)	\$ (92.06)
Diluted	\$ (7.61)	\$ (92.06)
Weighted average common shares outstanding - basic	1,199,322	84,549
Weighted average common shares outstanding - diluted	1,199,322	84,549

5. Property and equipment

Property and equipment consist of the following:

	As of September 30,	
	2019	2018
Furniture and fixtures	\$ 73	\$ 233
Purchased software	18	18
Property and equipment	93	56
Leasehold improvements	195	412
Total cost	379	719
Less accumulated depreciation	(80)	(639)
Property and equipment, net	\$ 299	\$ 80

Depreciation and amortization on the above assets were \$66 and \$105 in fiscal 2019 and 2018, respectively.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

6. Fair Value Measurement and Fair Value of Financial Instruments

The Company measures its financial assets and liabilities at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., exit price) in an orderly transaction between market participants at the measurement date. Additionally, companies are required to provide disclosure and categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e., inputs) used in the valuation. Level 1 provides the most reliable measure of fair value while Level 3 generally requires significant management judgment. Financial assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement. The fair value hierarchy is defined as follows:

Level 1—Valuations are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2—Valuations are based on quoted prices for similar assets or liabilities in active markets, or quoted prices in markets that are not active for which significant inputs are observable, either directly or indirectly.

Level 3—Valuations are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate of what market participants would use in valuing the asset or liability at the measurement date.

The Company believes the carrying values for accounts receivable and accounts payable and short-term debt approximate current fair values as of September 30, 2019 and 2018 because of their short-term nature and durations. The carrying value of long-term debt also approximates fair value as of September 30, 2019 and 2018 based upon the Company's ability to acquire similar debt at similar maturities and renew current debt instruments under similar terms as the original debt.

In October 2017, the Company recorded a liability associated with a warrant to purchase common stock issued to Montage Capital II, L.P ("Montage Capital"). The fair value of the warrant liability will utilize a Level 3 input. To determine the value of the warrant liability, the Company used a Monte Carlo option-pricing model, which takes into consideration the market values of comparable public companies, considering among other factors, the use of multiples of earnings, and adjusted to reflect the restrictions on the ability of our shares to trade in an active market. The Monte Carlo option-valuation model also uses certain assumptions to determine the fair value, including expected life and annual volatility. The initial valuation assumptions included an expected life of eight (8) years, annual volatility of 80%, and a risk-free interest rate of 2.24%. At September 30, 2019, annual volatility decreased to 71%, the risk-free rate was 1.59% and the Company's stock price declined to \$1.91 per share.

The fair value of the warrant liability was valued at the loan execution date in the amount of \$341 and is revalued at the end of each reporting period to fair value. Changes in fair value are included in Other income (expense), net in the Consolidated Statement of Operations in the period the change occurs. The Company recognized net gains as a result of the change in fair value of \$166 and \$161 during the years ended September 30, 2019 and 2018, respectively, and \$327 since the original valuation in October 2017. The fair value of the warrant was \$14 and \$180 at September 30, 2019 and 2018, respectively.

In connection with the private offering of Series C Convertible Preferred Stock issued on March 12, 2019, the Company issued Series A, Series B and Series C warrants (collectively, the "Series C Preferred Warrants") to accredited investors and the placement agents. These Series C Preferred Warrants have been classified as liabilities with the fair value determined using the Monte Carlo option-pricing model. The initial valuation assumptions included an average expected life of five and one-half (5.5) years, volatility of 76.8% and a risk-free interest rate of 2.4%. At September 30, 2019, annual volatility increased to 80.9%, the risk-free rate was 1.59% and the Company's stock price declined to \$1.91 per share. Changes in fair value are included in Other income (expense), net in the Consolidated Statement of Operations in the period the change occurs. The Company recognized net gains as a result of the change in fair value of \$13,404 during the year ended September 30, 2019. The resulting gain was primarily due to changes in inputs to the valuation model, including a decline in the stock price. The fair value of the warrants was \$3,500 at September 30, 2019. During the year ended September 30, 2019, there were Series C Preferred Warrant exercises which contributed to the decrease in the associated liability by approximately \$4.8 million.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Assets and liabilities of the Company measured at fair value on a recurring basis as of September 30, 2019 and 2018 are as follows:

	As of September 30, 2019			Total
	Level 1	Level 2	Level 3	
Liabilities:				
Warrant liability - Montage	\$ -	\$ -	\$ 14	\$ 14
Warrant liability - Series A, B and C	-	-	3,500	3,500
Total Liabilities	<u>\$ -</u>	<u>\$ -</u>	<u>3,514</u>	<u>3,514</u>
	As of September 30, 2018			Total
	Level 1	Level 2	Level 3	
Liabilities:				
Warrant liability - Montage	\$ -	\$ -	\$ 180	\$ 180
Total Liabilities	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 180</u>	<u>\$ 180</u>

The following table provides a rollforward of the fair value, as determined by Level 3 inputs, of the warrant liabilities:

Balance at beginning of period, October 1, 2017	\$ -
Additions	341
Adjustment to fair value	(161)
Balance at end of period, September 30, 2018	<u>180</u>
Additions	21,500
Exercises	(4,762)
Adjustment to fair value	(13,404)
Balance at end of period, September 30, 2019	<u>\$ 3,514</u>

7. Goodwill

The carrying value of goodwill is not amortized, but is tested for impairment annually as of September 30, as well as whenever events or changes in circumstances indicate that the carrying amount of a reporting unit may not be recoverable. The purpose of an impairment test is to identify any potential impairment by comparing the carrying value of a reporting unit including goodwill to its fair value. An impairment charge is recognized for the amount by which the carrying amount exceeds the reporting unit's fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit.

Interim tests were performed at June 30, 2018 and December 31, 2018, as a decline in the stock price and other negative qualitative factors led management to conclude that there was a potential impairment, and annual tests were performed at September 30, 2019 and 2018. The fair value was calculated using the Company's market price. In performing the interim impairment tests, Management concluded that goodwill was impaired and recorded a charge of \$3.7 million and \$4.6 million during the three-month periods ended December 31, 2018 and June 30, 2018, respectively. The annual impairment test at September 30, 2019 did not result in any further impairment. The annual impairment test at September 30, 2018 resulted in additional impairment of \$243. In total, goodwill impairment charges of \$3.7 million and \$4.9 million were recognized during the years ended September 30, 2019 and 2018, respectively. These amounts are reflected as a reduction in goodwill in the Company's Consolidated Balance Sheets and an expense in the Company's Consolidated Statements of Operations.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Changes in the carrying value of goodwill are as follows:

	As of September 30,	
	2019	2018
Balance at beginning of period	\$ 7,782	\$ 12,641
Acquisitions	1,507	-
Impairment	(3,732)	(4,859)
Balance at end of period	<u>\$ 5,557</u>	<u>\$ 7,782</u>

8. Intangible Assets

Intangible assets are comprised as follows:

	As of September 30,	
	2019	2018
Domain and trade names	\$ 52	\$ 10
Customer related	2,032	-
Technology	1,425	-
Non-compete agreements	-	10
Balance at end of period	<u>\$ 3,509</u>	<u>\$ 20</u>

Total amortization expense of \$544 and \$242 related to intangible assets for the years ended September 30, 2019 and 2018, respectively, is reflected in the Consolidated Statements of Operations in depreciation and amortization. The estimated amortization expense for fiscal years 2020, 2021, 2022, 2023, 2024 and thereafter is \$900, \$858, \$763, \$682, \$296 and \$10, respectively.

9. Accrued Liabilities

Accrued liabilities consist of the following:

	As of September 30,	
	2019	2018
Compensation and benefits	\$ 430	\$ 151
Professional fees	154	151
Restructuring expenses	75	53
Other	176	225
Total	<u>\$ 835</u>	<u>\$ 580</u>

10. Debt

The Company had a Line of Credit with Heritage Bank of Commerce (“Heritage Bank”). During the year ended September 30, 2019, the Company paid off all its debt and has no outstanding debt as of September 30, 2019. The Company’s debt as of September 30, 2018, consisted of the Line of Credit from Heritage Bank, a term loan with Montage Capital, and Promissory Term Notes.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Debt at September 30, 2018 consists of the following:

	As of September 30, 2018
Line of credit borrowings	\$ 2,081
Term loan - Montage Capital	922
Other promissory notes	941
Other (debt discount)	(353)
Total debt	3,591
Less current portion	1,017
Long term debt, net of current portion	\$ 2,574

Heritage Line of Credit

In June 2016, the Company entered into a new Loan and Security Agreement (“Heritage Agreement”), with Heritage Bank. The Heritage Agreement had an original term of 24 months but was further amended in December 2018 and February 2019 to extend the maturity date to January 1, 2020 and February 29, 2020, respectively. As of September 30, 2019, the Company no longer maintains nor are any future borrowings available under the line. The Company paid an annual commitment fee of 0.4% of the commitment amount in the first year and 0.2% in the following years. The facility fee was \$6 on each anniversary thereafter. Borrowings were secured by all of the Company’s assets and all of the Company’s intellectual property. The Company was required to comply with certain financial and reporting covenants including an Asset Coverage Ratio and an Adjusted EBITDA metric, as defined.

The Heritage Agreement provided for up to \$2.5 million of revolving credit advances which could have been used for acquisitions and working capital purposes. Borrowings were limited to the lesser of (i) \$2.5 million and (ii) 75% of eligible receivables as defined. The Company was able to borrow up to \$1.0 million in out of formula borrowings for specified periods of time. The borrowings or credit advances could not exceed the monthly borrowing base capacity, which would fluctuate based on monthly accounts receivable balances. The Company was able to request credit advances if the borrowing capacity was more than the current outstanding loan advance and had to pay down the outstanding loan advance if it exceeded the borrowing capacity. Borrowings accrued interest at Wall Street Journal Prime Rate plus 1.75%, (6.75% and 7% at September 30, 2019 and 2018, respectively).

Michael Taglich, a director and Shareholder of the Company, signed an unconditional guaranty (the “Guaranty”) and promised to pay Heritage Bank all indebtedness in an amount not to exceed \$1.5 million in connection with the out of formula borrowings. Under the terms of the Guaranty, the Guarantor authorizes Lender, without notice or demand and without affecting its liability hereunder, from time to time to: (a) renew, compromise, extend, accelerate, or otherwise change the time for payment, or otherwise change the terms, of the Indebtedness or any part thereof, including increase or decrease of the rate of interest thereon, or otherwise change the terms of the Indebtedness; (b) receive and hold security for the payment of this Guaranty or any Indebtedness and exchange, enforce, waive, release, fail to perfect, sell, or otherwise dispose of any such security; (c) apply such security and direct the order or manner of sale thereof as Lender in its discretion may determine; and (d) release or substitute any Guarantor or any one or more of any endorsers or other guarantors of any of the Indebtedness.

To secure all of Guarantor's obligations hereunder, Guarantor assigned and granted to Lender a security interest in all moneys, securities, and other property of Guarantor now or hereafter in the possession of Lender, all deposit accounts of Guarantor maintained with Lender, and all proceeds thereof. Upon default or breach of any of Guarantor's obligations to Lender, Lender could apply any deposit account to reduce the Indebtedness and could foreclose any collateral as provided in the Uniform Commercial Code and in any security agreements between Lender and Guarantor.

Amendments – Heritage Bank

The Company and Heritage had executed numerous amendments since the origination of the Heritage Agreement. Those amendments that are relevant as of September 30, 2019 are the following:

The first amendment, executed on August 15, 2016, included a decrease in the revolving line of credit from \$3.0 million to \$2.5 million. The second amendment, executed on December 14, 2016, included a minimum cash requirement of \$250 in the Company's accounts at Heritage. On October 6, 2017, a fourth amendment was executed, which included a consent to the Company's incurrence of additional indebtedness from Montage Capital and the grant of a second position lien to Montage Capital. In addition, Heritage and Montage Capital entered into an Intercreditor Agreement dated October 10, 2017 and acknowledged by the Company.

On September 21, 2018, the ninth amendment was executed and addressed the minimum unrestricted cash requirements for the Company's accounts at the Bank upon repayment of Subordinated Debt incurred by the Company pursuant to certain Promissory Term Notes issued by the Company on September 7, 2018 in the principal amount of \$941.

On December 27, 2018, the tenth amendment was executed, which extended the maturity date of the Loan Agreement to January 1, 2020, as well as, set new financial covenants for fiscal 2019.

On February 14, 2019, the eleventh amendment was executed, which extended the maturity date of the Loan Agreement to February 29, 2020, as well as, set new financial covenants for fiscal 2019. On May 15, 2019, the twelfth amendment was executed, which included a waiver for a failed covenant metric.

Montage Capital II, L.P. Loan Agreement

On October 10, 2017, the Company entered into a Loan and Security Agreement (the "Montage Agreement" or "Montage Loan") with Montage Capital. The Montage Agreement had a thirty-six (36) month term would have matured on October 10, 2020. The Montage Agreement provided for up to \$1.5 million of borrowing in the form of a non-revolving term loan which may be used by the Company for working capital purposes. \$1 million of borrowing was advanced on the date of closing and the option to borrow the remainder has lapsed. Borrowings bore interest at the rate of 12.75% per annum. The Company paid a fee of \$47 to Montage Capital at closing. Interest only payments were due and payable during the first nine months of the Loan. On July 1, 2018, the Company commenced payment of principal payments of \$26 per month plus accrued interest. All remaining principal and interest would have been due and payable at maturity. Borrowings were secured by a second position lien on all of the Company's assets including intellectual property and general intangibles and is subordinate to the Company's senior debt facility with Heritage Bank. Pursuant to the Montage Agreement, the Company was also required to comply with certain financial covenants.

On May 10, 2018, the first amendment to the Montage Agreement ("First Amendment") was executed. The First Amendment included the Adjusted EBITDA metrics for the third quarter of fiscal 2018 and a waiver for not achieving the Adjusted EBITDA metrics for the quarter ended March 31, 2018. A second Amendment to the Montage Agreement (the "Second Amendment") was executed on October 22, 2018. The Second Amendment included modifications to financial covenants and addressed the minimum unrestricted cash requirements for the Company's accounts at the Bank upon repayment of Subordinated Debt incurred by the Company pursuant to the Promissory Term Notes issued by the Company on September 7, 2018 in the principal amount of \$941. A third amendment to the Montage Agreement (the "Third Amendment") was executed on December 7, 2018 and included the new financial covenants for fiscal 2019. The Montage Loan was paid in full and discharged on March 13, 2019. A loss on early extinguishment of debt of \$221 was recognized, related to the remaining unamortized debt discount expense, during the year ended September 30, 2019.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Promissory Term Notes

On September 7, 2018, the Company sold and issued subordinate promissory notes (the “*Promissory Term Notes*”) to certain accredited investors (each, a “Purchaser”), pursuant to which it issued to the Purchasers (i) Promissory Term Notes, in the aggregate principal amount of approximately \$941. The Promissory Term Notes had an original issue discount of fifteen percent (15%), bore interest at a rate of twelve percent (12%) per annum, and had a maturity date of the earlier to occur of (a) six months from the date of execution of the Purchase Agreement, or (b) the consummation of a debt or equity financing resulting in the gross proceeds to the Company of at least \$3.0 million. After recording \$141 of original issue discount and debt issuance costs of \$40, the Company received net cash proceeds in the aggregate amount of \$760 for the Promissory Term Notes. The original issue discount and debt issuance costs were recognized as a contra liability and were being amortized over the life of the Promissory Term Notes. On October 19, 2018, the Company completed an equity financing resulting in gross proceeds of \$5.0 million and repaid the Promissory Term Notes including accrued interest of \$13 for a total of \$954 on October 23, 2018.

The Company’s lenders, Heritage Bank and Montage Capital, approved the issuance of the Promissory Term Notes and the repayment terms and each Purchaser also entered into a Subordination Agreement with the two lenders, pursuant to which the Purchasers agreed to subordinate (i) all of the Company’s indebtedness and obligations to the Purchasers, whether presently existing or arising in the future, to all of the Company’s indebtedness the Lenders and (ii) all of the Purchasers’ security interests, if any, to all of the Lenders’ security interests in property of the Company.

11. Restructuring and Acquisition Related Expenses

Restructuring Expenses

Commencing in fiscal 2015 and through fiscal 2019, the Company’s management approved, committed to and initiated plans to restructure and further improve efficiencies by implementing cost reductions in line with expected decreases in revenue. The Company renegotiated several office leases and relocated to smaller space, while also negotiating sub-leases for the original space. In addition, the Company executed a general work-force reduction and recognized costs for severance and termination benefits. These restructuring charges and accruals require estimates and assumptions, including contractual rental commitments or lease buy-outs for vacated office space and related costs, and estimated sub-lease income. The Company’s sub-lease assumptions include the rates to be charged to a sub-tenant and the timing of the sub-lease arrangement. All of the vacated lease spaces are currently contractually occupied by new sub-tenants for the remaining life of the lease. In the second quarter of fiscal 2017, the Company initiated a plan to shut down its operations in India, which is expected to be completed in early fiscal 2020.

All of these estimates and assumptions will be monitored on a quarterly basis for changes in circumstances with the corresponding adjustments reflected in the consolidated statement of operations.

In total, a charge of \$849 and \$187 was recorded to restructuring expenses for fiscal 2019 and fiscal 2018, respectively.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

The following table summarizes the restructuring charges reserve activity:

	Employee Severance and Benefits	Facility Closures and Other Costs	Total
Balance at beginning of period, October 1, 2017	\$ -	\$ 176	\$ 176
Charges to operations	-	142	142
Cash disbursements	-	(226)	(226)
Changes in estimates	-	(19)	(19)
Accretion expense	-	5	5
Balance at end of period, September 30, 2018	-	78	78
Charges to operations	224	-	224
Cash disbursements	(165)	(54)	(219)
Changes in estimates	-	(8)	(8)
Accretion expense	-	-	-
Balance at end of period, September 30, 2019	<u>\$ 59</u>	<u>\$ 16</u>	<u>\$ 75</u>

As of September 30, 2019, \$75 was included in Accrued Liabilities. As of September 30, 2018, \$53 and \$25 was included in Accrued Liabilities and Other long-term liabilities, respectively.

Acquisition Related Expenses

In connection with the acquisition of Stantive, the Company incurred legal, accounting and consulting fees of \$428 during the year ended September 30, 2019, which is included in Restructuring and acquisition related expenses in the Consolidated Statements of Operations.

12. Commitments and Contingencies

Operating Lease Commitments

The Company leases facilities in the United States. Future minimum rental commitments under non-cancelable operating leases with initial or remaining terms in excess of one year at September 30, 2019 were as follows:

<u>Years Ending September 30,</u>	<u>Gross Amount</u>	<u>Sublease Income Amount</u>	<u>Net</u>
2020	\$ 152	\$ 73	\$ 79
2021	12	-	12
Total	<u>\$ 164</u>	<u>\$ 73</u>	<u>\$ 91</u>

The Company has no lease commitments that extend past fiscal 2021. Rent expense for fiscal 2019 and 2018 was \$367 and \$368, respectively, inclusive of sublease income \$108 and \$119 for fiscal 2019 and 2018, respectively.

Other Commitments, Guarantees, and Indemnification Obligations

The Company frequently warrants that the technology solutions it develops for its clients will operate in accordance with the project specifications without defects for a specified warranty period, subject to certain limitations that the Company believes are standard in the industry. In the event that defects are discovered during the warranty period, and none of the limitations apply, the Company is obligated to remedy the defects until the solution that the Company provided operates within the project specifications. The Company is not typically obligated by contract to provide its clients with any refunds of the fees they have paid, although a small number of its contracts provide for the payment of liquidated damages upon default. The Company has purchased insurance policies

covering professional errors and omissions, property damage and general liability that reduce its monetary exposure for warranty-related claims and enable it to recover a portion of any future amounts paid.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

The Company's contracts typically provide for testing and client acceptance procedures that are designed to mitigate the likelihood of warranty-related claims, although there can be no assurance that such procedures will be effective for each project. The Company has not paid any material amounts related to warranties for its solutions. The Company sometimes commits unanticipated levels of effort to projects to remedy defects covered by its warranties. The Company's estimate of its exposure to warranties on contracts is immaterial as of September 30, 2019.

The Company's agreements with customers generally require the Company to indemnify the customer against claims in which the Company's products infringe third-party patents, copyrights, or trademarks and indemnify against product liability matters. As of September 30, 2019, and 2018, respectively, the Company has not experienced any losses related to the indemnification obligations and no significant claims with respect thereto were outstanding. The Company does not expect significant claims related to the indemnification obligations and, consequently, concluded that the fair value of these obligations is negligible, and no related reserves were established.

Litigation

The Company is subject to ordinary routine litigation and claims incidental to its business. As of September 30, 2019, the Company was not engaged in any material legal proceedings.

13. Stockholders' Equity

Series A Convertible Preferred Stock

In October 2014, the Company designated 264,000 shares of its Preferred stock (the "Preferred Stock") as Series A convertible preferred stock and sold 200,000 shares of Series A convertible preferred stock at a purchase price of \$10.00 per share for gross proceeds of \$2.0 million in a private placement. The shares of Preferred Stock may be converted, at the option of the holder at any time, into such number of shares of common stock ("Conversion Shares") equal (i) to the number of shares of Preferred Stock to be converted, multiplied by the stated value of \$10.00 (the "Stated Value") and (ii) divided by the conversion price in effect at the time of conversion. The current conversion price is \$812.50 and is subject to adjustment in the event of stock splits or stock dividends. As of September 30, 2019, a total of 1,636 preferred shares have been converted to 20 shares of common stock.

Any accrued but unpaid dividends on the shares of Preferred Stock to be converted shall also be converted in common stock at the conversion price. A mandatory provision also may provide that the Company will have the right to require the holders to convert shares of Preferred Stock into Conversion Shares if (i) the Company's common stock has closed at or above \$1,625 per share for ten consecutive trading days and (ii) the Conversion Shares are (A) registered for resale on an effective registration statement or (B) may be resold pursuant to Rule 144.

In the event of any liquidation, dissolution, or winding up of the Company, the holders of shares of Preferred Stock will be entitled to receive in preference to the holders of common stock, the amount equal to the stated value per share of Series A Preferred Stock plus declared and unpaid dividends, if any. After such payment has been made, the remaining assets of the Company will be distributed ratably to the holders of common stock. The Preferred Shares shall vote with the Common Stock on an as converted basis.

Effective January 1, 2017, cumulative dividends are payable at a rate of 12% per year. The Company has issued 64,000 shares of Preferred Stock as PIK dividends to the preferred shareholders, which is the maximum amount of cumulative PIK dividends authorized. Therefore, all future dividend payments will be cash dividends. Preferred shares representing the remaining available PIK dividend shares of 18,828 were issued in fiscal 2018. Total cash dividend payments were \$315 and \$195, during fiscal 2019 and 2018, respectively. At September 30, 2019 and 2018, cash dividend declares during the fiscal year and payable in October of the subsequent fiscal year were \$79.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Series B Convertible Preferred Stock

On October 16, 2018, in connection with a public offering, the Company issued 4,288 Series B Convertible Preferred Stock, par value \$0.001 per share, with each share of Series B convertible Preferred Stock convertible into 40 shares of the Company's common stock at a conversion price of \$25.00 per share. As of September 30, 2019, all of the shares of Series B Convertible Preferred Stock were converted into 171,250 shares of common stock.

Series C Convertible Preferred Stock

On March 12, 2019, the Company entered into Securities Purchase Agreements with certain accredited investors (each, a "Purchaser"), pursuant to which the Company offered and sold to the Purchasers an aggregate of 10,227.5 units ("Units") for \$1,000 per Unit, with such Units consisting of (i) an aggregate of 10,227.5 shares of the Company's newly designated Series C Convertible Preferred Stock, par value \$0.001 per share ("Series C Preferred Stock"); (ii) warrants to purchase an aggregate of 1,136,390 shares of the Company's common stock, par value \$0.001 per share ("Common Stock"), subject to adjustment (as set forth below), with a term of 5.5 years ("Series A Warrants"); (iii) warrants to purchase an aggregate of 1,136,390 shares of Common Stock, subject to adjustment (as set forth below), with a term of 24 months ("Series B Warrants"); and (iv) warrants to purchase an aggregate of 1,420,486 shares with a term of 5.5 years ("Series C Warrants," and together with the Series A Warrants and Series B Warrants, the "Series C Preferred Warrants"). The Company also issued warrants to purchase an aggregate of 127,848 shares of the Company's Common Stock to the placement agents that were also subject to the same resets as described below.

At the time of issuance, no shares of Series C Preferred Stock could be converted into Conversion Shares and no Series C Preferred Warrants could be exercised for shares of Common Stock, unless and until such time that the Company had obtained approval from its stockholders, at an annual or special meeting or via written consent, to (i) issue the Conversion Shares and warrants upon the conversion and exercise of the Series C Preferred Stock and associated warrants, respectively, which number of shares in the aggregate exceed 20% of the Company's shares of Common Stock issued and outstanding immediately prior to the Closing Date, as required by Nasdaq Marketplace Rule 5635(d) (the "Issuance Approval"), and (ii) amend its Amended and Restated Certificate of Incorporation, as amended ("Charter") to increase the number of shares of Common Stock available for issuance thereunder (or effect a reverse stock split of its issued and outstanding shares of Common Stock so as to effectively increase the number of shares of Common Stock available for issuance) by a sufficient amount to permit the conversion of all outstanding Series C Preferred Stock into Conversion Shares and all Series C Preferred Warrants into warrant shares (the "Authorized Share Approval," and together with the Issuance Approval, the "Stockholder Approvals"). In addition, the Company may not effect, and a Purchaser will not be entitled to, convert the Series C Preferred Stock or exercise any Series C Preferred Warrants, which, upon giving effect to such conversion or exercise, would cause (i) the aggregate number of shares of Common Stock beneficially owned by the Purchaser (together with its affiliates) to exceed 4.99% (or, at the election of the holder, 9.99%) of the number of shares of Common Stock outstanding immediately after giving effect to the exercise. The Stockholder Approvals were obtained on April 26, 2019 and the Company's Charter was amended on April 29, 2019. As of September 30, 2019, a total of 9,786.5 shares of Series C Preferred Stock have been converted to 1,087,443 shares of Common Stock.

The Company determined that the Series C Preferred Stock and the Series C Preferred Warrants are each separate freestanding financial instrument issued in a single transaction (the Private Placement) and that the Series C Preferred Warrants have been determined to be derivative liabilities, which are measured at fair value on a recurring basis. The net proceeds of that single transaction were allocated to each of the freestanding financial instruments based on their fair values. The purchase price was allocated to the Series C Preferred Warrants first leaving no value for the Series C Preferred Stock, as the Series C Preferred Warrants were fair valued at \$21.5 million and the total proceeds were \$10.3 million. The allocation of the proceeds resulted in a charge against income of \$11.2 million representing the excess of fair value over the net proceeds, which was recognized during the year ended September 30, 2019 and included in Other income (expense), net in the Consolidated Statements of Operations.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Common Stock

In February 2018, the Company issued 41,006 shares of restricted common stock at \$2.39 to four members of its Board of Directors in lieu of cash payments for their annual services as board members. The shares vested in equal installments on a monthly basis through the end of the service period of September 30, 2018. The aggregate fair value of the shares is \$98 and was expensed over the service period.

Public Offering

On October 16, 2018, the Company issued and sold in a public offering (the “Offering”) an aggregate of (i) 28,480 Class A Units (the “Class A Units”) at a price of \$25.00 per Class A Unit, consisting of (i) one share of the Company’s common stock and one five-year warrant to purchase one share of the Company’s common stock at an exercise price of \$25.00 per share and (ii) 4,288 Class B Units, consisting of one share of Series B Convertible Preferred Stock and a Warrant to purchase one share of common stock. The net proceeds to the Company from the Offering, after deducting the underwriter’s fees and expenses, was approximately \$4.4 million.

In addition, the Company granted the underwriter of the Offering a 45-day option (the “Over-allotment Option”) to purchase up to an additional 30,000 shares of common stock and additional warrants to purchase an additional 30,000 shares of common stock. At the time of the Offering, the underwriter partially exercised the Over-allotment Option by electing to purchase from the Company additional warrants to purchase 8,000 shares of common stock.

Amended and Restated Stock Incentive Plan

The Company has granted common stock, common stock warrants, and common stock option awards (the “Equity Awards”) to employees, consultants, advisors and debt holders of the Company and to former owners and employees of acquired companies that have become employees of the Company. The Company’s Amended and Restated Stock Incentive Plan (the “Plan”) provided for the issuance of up to 5,000 shares of common stock. This Plan expired in August 2016. As of September 30, 2019, there were 3,246 options outstanding under the Plan. On April 29, 2016, the stockholders approved a new plan, The 2016 Stock Incentive Plan (the “2016 Plan”). The 2016 Plan authorizes the award of incentive stock options, non-statutory stock options, restricted stock, unrestricted stock, performance shares, stock appreciation rights and any combination thereof to employees, officers, directors, consultants, independent contractors and advisors of the Company. Initially, a total of 10,000 shares of the Company’s Common Stock are reserved for issuance under the 2016 Plan. As of September 30, 2019, there were 4,602 options outstanding and 5,398 shares available for future issuance under the 2016 Plan.

\$901 to \$1,400	124	3.43	1,353.53	124	1,353.53
\$1,401 to \$1,975	331	3.66	1,618.05	331	1,618.05
	7,848	6.68	\$ 306.41	5,688	\$ 349.97

Compensation Expense

Compensation expense is generally recognized on a graded accelerated basis over the vesting period of grants. During the years ended September 30, 2019 and 2018, the Company recognized \$249 and \$394, respectively, as compensation expense related to share based payments related to stock options. Compensation expense is recorded in the Consolidated Statement of Operations with a portion charged to Cost of Goods Sold and a portion to Operating Expenses depending on the employee's department. In fiscal 2019, \$9 was charged to Cost of Goods Sold and \$240 was charged to Operating Expenses. In fiscal 2018, \$16 was charged to Cost of Goods Sold and \$378 was charged to Operating Expenses. As of September 30, 2019, the Company had approximately \$15 of unrecognized compensation costs related to unvested options which the Company expects to recognize through fiscal 2021.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Common Stock Warrants

The Company typically issues warrants to individual investors and placement agents to purchase shares of the Company's common stock in connection with private placement fund raising activities. Warrants may also be issued to individuals or companies in exchange for services provided for the company. The warrants are typically exercisable six months after the issue date, expire in five years, and contain a cashless exercise provision and piggyback registration rights.

Montage Warrant – As additional consideration for the Montage Loan, the Company issued to Montage Capital an eight-year warrant (the "*Montage Warrant*") to purchase 1,326 shares of the Company's common stock at a price equal to \$132.50 per share. The Montage Warrant contains an equity buy-out provision upon the earlier of (1) dissolution or liquidation of the Company, (2) any sale or distribution of all or substantially all of the assets of the Company or (3) a "Change in Control" as defined within the meaning of Section 13(d) and 14(d)(2) of the Securities Exchange Act of 1934. Montage Capital shall have the right to receive an equity buy-out of \$250. If the equity buy-out is exercised, the Montage Warrant will be surrendered to the Company for cancellation. The fair value of the Montage warrant liability was \$14 and \$180 at September 30, 2019 and 2018, respectively.

Series A, B and C Preferred Warrants – Reset Dates and Reset Price – The Series A Warrants and Series B Warrants had an initial exercise price of \$9.00 per share; *provided, however*, that the exercise price of the Series A Warrants and Series B Warrants could be reset up to three times (each, a "*Reset Date*"), as more specifically set forth in the Series C Warrants, to a price equal to the greater of (i) 80% of the average of the two lowest VWAP days out of the 20 consecutive trading days immediately preceding the Reset Date, and (ii) \$4.00 (the "*Floor*") (the "*Reset Price*"). Upon the applicable Reset Date, the number of shares of Common Stock issuable pursuant to the Series A Warrants and Series B Warrants would also be adjusted, as more specifically set forth in the Series C Warrants. The Series C Warrants were not exercisable until the applicable Reset date. At the first Reset Date, which was May 29, 2019, the Reset Price was set to the Floor price of \$4.00 per share. Therefore, there will be no future Reset Dates or Reset Prices. The shares were fixed to the following at the Reset Date: the number of shares of Common Stock issuable upon exercise of the Series A Warrants is 2,556,875 shares, Series B Warrants is 2,556,875 shares, and Series C Warrants is 1,420,486 shares. The number of shares of Common Stock issuable upon exercise of warrants issued to the placement agents is 127,848 shares.

During the year ended September 30, 2019, shareholders exercised 1,351,217 shares of the Series C Warrants. There are no Series A, B or placement agents warrants exercised as of September 30, 2019. The fair value of the total warrant liability related to the Series A, B and C warrants and the placement agents' warrants was \$3,500 at September 30, 2019.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Stock warrants outstanding at September 30, 2019 are as follows:

14. Disaggregated Revenue

The Company disaggregates revenue from contracts with customers by geography and product grouping, as it believes this best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors.

The Company's revenue by geography (based on customer address) is as follows:

Revenues:	Years Ended September 30,	
	2019	2018
United States	\$ 8,881	\$ 12,961
International	1,071	607
	\$ 9,952	\$ 13,568

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

The Company's revenue by type is as follows:

	Years Ended September 30,	
	2019	2018
Revenues:		
Digital Engagement Services	\$ 4,117	\$ 6,914
Subscription	1,569	3,741
Perpetual Licenses	2,863	1,401
Maintenance	405	467
Hosting	998	1,045
	<u>\$ 9,952</u>	<u>\$ 13,568</u>

15. Income Taxes

The components of the Company's tax provision for the years ended September 30, 2019 and 2018 are as follows:

	Years Ended September 30,	
	2019	2018
Current		
Federal	\$ -	\$ -
State	4	19
Foreign	-	-
Total current	<u>4</u>	<u>19</u>
Deferred		
Federal	-	(22)
State	-	-
Total deferred	<u>-</u>	<u>(22)</u>
Total	<u>\$ 4</u>	<u>\$ (3)</u>

The Company's income tax provision was computed using the federal statutory rate (21%) and average state statutory rates (6.37%), net of related federal benefit. The provision differs from the amount computed by applying the statutory federal income tax rate to pretax income, as follows:

	Years Ended September 30,	
	2019	2018
Income tax benefit at the federal statutory rate	\$ (1,905)	\$ (1,497)
Permanent differences, net	541	1,534
State income tax (benefit)	(578)	(437)
Change in statutory rate	-	3,839
Change in valuation allowance attributable to operations	1,925	(3,495)
Other	21	53
Total	<u>\$ 4</u>	<u>\$ (3)</u>

As of September 30, 2019, the Company has federal net operating loss (NOL) carryforwards of approximately \$34 million that expires on various dates through 2039. Internal Revenue Code Section 382 places a limitation on the amount of taxable income which can be offset by NOL carryforwards after a change in control of a loss corporation. Due to these "change of ownership" provisions, utilization of NOL carryforwards may be subject to an annual limitation in future periods. The Company has not performed a Section 382 analysis. However, if performed, Section 382 may be found to limit potential future utilization of the Company's NOL carryforwards. The Company also has approximately \$30 million in state NOLs which expire on various dates through 2038.

BRIDGELINE DIGITAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

The Company has deferred tax assets that are available to offset future taxable income. A valuation allowance is established if it is more likely than not that all or a portion of the deferred tax assets will not be realized. Management believes that it is more likely than not that all deferred tax assets will not be realized, with the exception of the alternative minimum tax (AMT) carryover which has not been reserved against. Accordingly, the Company has established a valuation allowance against a portion of its deferred tax assets at September 30, 2019 and 2018. For the year ended September 30, 2019, the valuation allowance for deferred tax assets increased by \$1.9 million, which was mainly due to increases in the net operating losses. For the year ended September 30, 2018, the valuation allowance for deferred tax assets decreased by \$3.5 million, which was mainly due to offsetting increases in the net operating losses and the effect of the change in the federal tax rate to 21%.

Significant components of the Company's deferred tax assets and liabilities are as follows:

	As of September 30,	
	2019	2018
Deferred tax assets:		
Accrued vacation	\$ 46	\$ 26
Bad debt reserve	24	49
Deferred revenue	717	90
AMT carryforward	23	22
Contribution carryforward	1	15
Depreciation	8	36
Intangibles	401	437
Net operating loss carryforwards	8,895	7,515
Total deferred tax assets	<u>10,115</u>	<u>8,190</u>
Valuation allowance	<u>(10,093)</u>	<u>(8,168)</u>
Net deferred tax assets	<u>\$ 22</u>	<u>\$ 22</u>

Undistributed losses of the Company's foreign subsidiaries amounted to approximately (\$108) and (\$59) at September 30, 2019 and 2018, respectively.

The 2017 Tax Act subjects a U.S. shareholder to tax on global intangible low-taxed income ("GILTI") earned by certain foreign subsidiaries. The FASB Staff Q&A, Topic 740, No. 5, Accounting for Global Intangible Low-Taxed Income provides that an entity may make an accounting policy election to either recognize deferred taxes for temporary basis differences expected to reverse as GILTI in future years, or provide for the tax expense related to GILTI in the year the tax is incurred as a period expense only. Additionally, the 2017 Tax Act provides for a tax benefit to U.S. taxpayers that sell goods or services to foreign customers under the new Foreign Derived Intangible Income Deduction ("FDII") rules. As of September 30, 2019, the Company had net losses in from all foreign derived income and therefore reported zero GILTI tax expense for the year ended September 30, 2019.

The Company recognizes interest accrued related to unrecognized tax benefits in interest expense. Penalties, if incurred, are recognized as a component of tax expense.

The Company is subject to U.S. federal income tax as well as income tax in certain state jurisdictions. The Company has not been audited by the Internal Revenue Service (IRS) or any states in connection with income taxes. The tax periods from 2015 to 2018 generally remain open to examination by the IRS and state authorities.

When accounting for uncertain income tax positions, the impact of uncertain tax positions is recognized in the financial statements if they are more likely than not of being sustained upon examination, based on the technical merits of the position. The Company's management has determined that the Company has no uncertain tax positions requiring recognition as of September 30, 2019 and 2018. The Company does not expect any change to this determination in the next twelve months.

16. Related Party Transactions

In October 2013, Mr. Michael Taglich joined the Board of Directors. Michael Taglich is the Chairman and President of Taglich Brothers, Inc. (“Taglich Brothers”), a New York based securities firm. Taglich Brothers were the Placement Agents for many of the Company’s private offerings and debt issuances. In connection with previous private offerings and debt issuances which occurred prior to the fiscal year ended September 30, 2018, Taglich Brothers were granted Placement Agent warrants to purchase 10,926 shares of common stock at a weighted average price of \$761.61 per share. As of September 30, 2019, Michael Taglich beneficially owns approximately 10% of the Company’s stock.

In connection with the November 2016 Private Placement, the Company issued to the Investors warrants to purchase an aggregate total of 4,270 shares common stock. Included were warrant shares issued to Roger Kahn (172 shares), the Company’s President and Chief Executive Officer, and Michael Taglich (308 shares). Each warrant share expires five and one-half years from the date of issuance and is exercisable for \$175 per share beginning six-months from the date of issuance, or May 9, 2017. The warrants expire May 9, 2022.

Michael Taglich has also guaranteed \$1.5 million in connection with the Company’s out of formula borrowings on its credit facility with Heritage Bank. In consideration of previous loans made by Michael Taglich to the Company and the personal guaranty for Heritage Bank, Mr. Taglich has been issued warrants to purchase common stock totaling 1,080 shares at an exercise price of \$1,000 per share.

Michael Taglich participated in the Promissory Term Notes in September 2018. Michael Taglich purchased Promissory Term Notes in the amount of approximately \$122. Taglich Brothers served as placement agent for the above transaction, for which services the Company paid to Taglich Brothers \$40 in cash compensation, or five percent (5%) of the net proceeds received by the Company.

In November 2018, the Company engaged Taglich Brothers, on a non-exclusive basis, to perform advisory and investment banking services to identify possible acquisition target possibilities. Fees for the services were \$8 per month for three months and \$5 thereafter, cancellable at any time. Taglich Brothers could also earn a success fee ranging from \$200 for a revenue target acquisition of under \$5 million up to \$1 million for an acquisition target over \$200 million. In connection with the asset purchase of Stantive, Taglich Brothers earned a success fee of \$200.

Michael Taglich purchased 350 units in the amount of \$350 of Series C Preferred Stock and associated warrants in the private transaction consummated on March 13, 2019. Mr. Taglich’s purchase was subject to stockholder approval pursuant to Nasdaq Marketplace Rule 5635(c), for which approval by the stockholders of the Company was obtained on April 26, 2019.

17. Subsequent Events

The Company evaluated subsequent events through the date of this filing and concluded there were no material subsequent events requiring adjustment to or disclosure in these consolidated financial statements, other than those included below.

Stock Incentive Plan

In November 2019, the Company increased the number of common shares available for issuance under the 2016 Stock Incentive Plan from 10,000 shares to 800,000 shares. There were no revisions to exercise prices, terms or any other underlying terms of existing stock options outstanding.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None

Item 9A. Controls and Procedures.***Management's Report on Disclosure Controls and Procedures***

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the *Securities Exchange Act of 1934*, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our President and Chief Executive Officer (Principal Executive Officer) and our Chief Financial Officer (Principal Financial and Accounting Officer), as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, as ours are designed to do, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of September 30, 2019, the end of our fiscal year covered by this report, we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, we concluded that our disclosure controls and procedures were effective as of the end of the period covered by this annual report.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Responsibility estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of internal control include providing management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States. Our management assessed the effectiveness of our internal control over financial reporting as of September 30, 2019. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in the 2013 *Internal Control-Integrated Framework*. Our management has concluded that as of September 30, 2019, our internal control over financial reporting is effective in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with US generally accepted accounting principles. Our management reviewed the results of their assessment with our Board of Directors.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to a permanent exemption from the internal control audit requirements of Section 404(b) of the Sarbanes-Oxley Act of 2002.

Inherent Limitations on Effectiveness of Controls

Internal control over financial reporting has inherent limitations which include but are not limited to the use of independent professionals for advice and guidance, interpretation of existing and/or changing rules and principles, segregation of management duties, scale of organization, and personnel factors. Internal control over financial reporting is a process which involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Provided its inherent limitations, internal control over financial reporting may not prevent or detect misstatements on a timely basis, however these inherent limitations are known features of the financial reporting process and it is possible to design into the process safeguards to reduce, though not eliminate, this risk. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control over Financial Reporting

There have been no significant changes in our internal controls over financial reporting that occurred during the fiscal quarter ended September 30, 2019 that have materially or are reasonably likely to materially affect, our internal controls over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

PART III**Item 10. Directors, Executive Officers and Corporate Governance.**

The following table sets forth information regarding our directors and executive officers:

Name	Age	Position
Joni Kahn	64	Chairperson (1)(2)(3)(4)
Kenneth Galaznik	68	Director (1)(2)(4)
Scott Landers	49	Director (1)(2)(3)(4)
Michael Taglich	54	Director
Roger Kahn	50	Director, President and Chief Executive Officer
Mark G. Downey	54	Chief Financial Officer (5)

(1) Member of the Audit Committee.

(2) Member of the Compensation Committee.

(3) Member of the Nominating and Governance Committee.

(4) Independent director.

(5) Mr. Downey was appointed as our Chief Financial Officer and Treasurer effective July 1, 2019, following the resignation of our former Chief Financial Officer, Carole Tyner.

Biographies

Joni Kahn has been a member of our Board of Directors since April 2012. Ms. Joni Kahn and Mr. Roger Kahn, the Company's President and Chief Executive Officer, are not related. In May 2015, Ms. Kahn was appointed Chairperson of the Board of Directors. She also serves as the Chair of the Compensation Committee and is a member of the Audit and Nominating and Governance Committees. Ms. Kahn has over thirty years of operating experience with high growth software and services companies with specific expertise in the SaaS (Software as a Service), ERP (Enterprise Resource Planning) Applications, Business Intelligence and Analytics and Cybersecurity segments. From 2013 to 2015, Ms. Kahn was the Senior Vice President of Global Services for Big Machines, Inc., which was acquired by Oracle in October 2013. From 2007 to 2012, Ms. Kahn was Vice President of Services for HP's Enterprise Security Software group. From 2005 to 2007, Ms. Kahn was the Executive Vice President at BearingPoint where she managed a team of over 3,000 professionals and was responsible for North American delivery of enterprise applications, systems integration and managed services solutions. Ms. Kahn also oversaw global development centers in India, China and the U.S. From 2002 to 2005, Ms. Kahn was the Senior Group Vice President for worldwide professional services for Business Objects, a business intelligence software maker based in San Jose, where she led the applications and services division that supported that company's transformation from a products company to an enterprise solutions company. Business Objects was acquired by SAP in 2007. From 2000 to 2007, Ms. Kahn was a Member of the Board of Directors for MapInfo, a global location intelligence solutions company. She was a member of MapInfo's Audit Committee and the Compensation Committee. MapInfo was acquired by Pitney Bowes in 2007. From 1993 to 2000, Ms. Kahn was an Executive Vice President and Partner of KPMG Consulting, where she helped grow the firm's consulting business from \$700 million to \$2.5 billion. Ms. Kahn received her B.B.A in Accounting from the University of Wisconsin – Madison.

Ms. Kahn brings extensive leadership experience to our Board and our Audit Committee as an experienced senior executive. Ms. Kahn has over thirty years of executive level managerial, operational, and strategic planning experience leading world-class service and support technology organizations. Her service on prior boards also provides financial and governance experience.

Kenneth Galaznik has been a member of our Board of Directors since 2006. Mr. Galaznik is the Chairman of the Company's Audit Committee and serves as a member of the Compensation Committee. From 2005 to 2016, Mr. Galaznik was the Senior Vice President, Chief Financial Officer and Treasurer of American Science and Engineering, Inc., a publicly held supplier of X-ray inspection and screening systems with a public market cap of over \$200 million. Mr. Galaznik retired from his position at American Science and Engineering on March 31, 2016. From August 2002 to February 2005, Mr. Galaznik was Vice President of Finance of American Science and Engineering, Inc. From November 2001 to August 2002, Mr. Galaznik was self-employed as a consultant. From March 1999 to September 2001, he served as Vice President of Finance at Spectro Analytical Instruments, Inc. and has more than 35 years of experience in accounting and finance positions. Mr. Galaznik holds a B.B.A. degree in accounting from The University of Houston. Mr. Galaznik brings extensive experience to our Board and our Audit Committee as an experienced senior executive, a financial expert, and as chief financial officer of a publicly-held company.

Scott Landers has been a member of our Board of Directors since 2010. Mr. Landers is the Chair of the Nominating and Corporate Governance Committee and serves as a member of the Audit and Compensation Committees. Mr. Landers was named President and Chief Executive Officer of Monotype Imaging Holdings, Inc. on January 1, 2016 after serving as the company's Chief Operating Officer since early 2015 and its Chief Financial Officer, Treasurer and Assistant Secretary since joining Monotype in July 2008. Monotype is a publicly-held company and is a leading provider of typefaces, technology and expertise that enable the best user experiences and sure brand integrity. Prior to joining Monotype, from September 2007 until July 2008, Mr. Landers was the Vice President of Global Finance at Pitney Bowes Software, a \$450 million division of Pitney Bowes, a leading global provider of location intelligence solutions. From 1997 until September 2007, Mr. Landers held several senior finance positions, including Vice President of Finance and Administration, at MapInfo, a publicly-held company which was acquired by Pitney Bowes in April 2007. Earlier in his career, Mr. Landers was a Business Assurance Manager with Coopers & Lybrand. Mr. Landers holds a bachelor's degree in accounting from Le Moyne College in Syracuse, N.Y. and a master's degree in business administration from The College of Saint Rose in Albany, N.Y. Mr. Landers brings extensive experience to our Board and our Audit Committee as an experienced senior executive, a financial expert, and as chief executive officer and a chief financial officer of a publicly-held company.

Michael Taglich has been a member of our Board of Directors since 2013. He is the Chairman and President of Taglich Brothers, Inc., a New York City based securities firm which he co-founded in 1992 with his brother Robert Taglich. Taglich Brothers, Inc. focuses on public and private micro-cap companies in a wide variety of industries. He is currently the Chairman of the Board of each Air Industries Group Inc., a publicly traded aerospace and defense company (NYSE AIRI), and BioVentrix, Inc., a privately held medical device company whose products are directed at heart failure treatment. He also serves as a director of a number of other private companies, and is a director of Icagen Inc, a drug screening company. Michael Taglich brings extensive

professional experience which spans various aspects of senior management, including finance, operations and strategic planning. Mr. Taglich has more than 30 years of financial industry experience and served on his first public company board over 20 years ago.

Roger Kahn was elected to the Board of Directors in December 2017. Mr. Kahn joined the Company as the Chief Operating Officer in August 2015 and has been our President and Chief Executive Officer since May 2016. Prior to joining Bridgeline Digital, Mr. Kahn co-founded FatWire, a leading content management and digital engagement company. As the General Manager and Chief Technology Officer of FatWire, Mr. Kahn built the company into a global corporation with offices in thirteen countries and annual revenues of \$40 million. FatWire was acquired by Oracle in 2011 for \$160 million. Mr. Kahn received his Ph.D. in Computer Science and Artificial Intelligence from the University of Chicago. Mr. Kahn brings extensive experience to our Board as an experienced senior executive and industry expert. As a prior chief operating officer, Mr. Kahn brings extensive leadership experience in international business operations and strategic planning, and his Ph.D. provides significant value to the Company's technology footprint.

Mark G. Downey has been our Executive Vice President and Chief Financial Officer and Treasurer since July 2019. Mr. Downey comes to Bridgeline with more than 25 years of executive experience, including more than 15 years as a CFO and COO at several public and privately held companies in the technology, private equity, financial services and professional services industries. Mr. Downey has extensive accounting, capital markets structuring, risk, treasury, M&A due diligence, technology enhancements, and overall operational and management experience. Prior to joining Bridgeline Digital, Inc., Mr. Downey served as a consultant and Director of Accounting & Transaction Services at MorganFranklin Consulting from 2015 to 2019. He was the global CFO and COO at Algodon Group, a private equity firm from 2014 to 2015 and CFO and COO and Treasurer at Dahlman Rose, Tullett Prebon and Commerzbank Securities from 2000 through 2014. He started his career at Coopers and Lybrand and holds a B.B.A. in Accounting from Iona College – Hagan School of Business and is a member of the American Institute of Certified Public Accountants and New York State Society of Certified Public Accountants.

There are no family relationships between any of the directors and the Company's executive officers, including between Ms. Joni Kahn and Mr. Roger Kahn, the Company's President and Chief Executive Officer.

Section 16(A) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities and Exchange Act of 1934, as amended (the "*Exchange Act*") requires the Company's executive officers, directors and persons who beneficially own more than 10% of a registered class of the Company's equity securities (collectively, the "*Reporting Persons*") to file certain reports regarding ownership of, and transactions in, the Company's securities with the Securities and Exchange Commission (the "*SEC*"). These officers, directors and stockholders are also required by SEC rules to furnish the Company with copies of all Section 16(a) reports that they file with the SEC. With respect to fiscal 2018 and based solely on its review of the copies of such forms and amendments thereto received by it, the Company believes that all of the executive officers, directors, and owners of ten percent of the outstanding Common Stock complied all applicable filing requirements, except as follows:

- Michael Taglich, a director and 6% stockholder of the Company, filed a Form 4 reporting three late transactions;
- Scott Landers, a director of the Company, filed a Form 4 reporting two late transactions;
- Joni Kahn, a director of the Company, filed a Form 4 reporting two late transactions; and
- Kenneth Galaznik, a director of the Company, filed a Form 4 reporting two late transactions.

Code of Conduct and Ethics

The Company's Board of Directors has adopted a Code of Ethics within the meaning of Item 406(b) of Regulation S-K of the Securities Act that applies to all of the Company's officers and employees, including its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The Code of Ethics codifies the business and ethical principles that govern the Company's business.

Committees of the Board of Directors

The Company has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee.

Audit Committee

The Audit Committee assists the Board in the oversight of the audit of our consolidated financial statements and the quality and integrity of our accounting, auditing and financial reporting processes. The Audit Committee is responsible for making recommendations to the Board concerning the selection and engagement of independent registered public accountants and for reviewing the scope of the annual audit, audit fees, results of the audit and auditor independence. The Audit Committee also reviews and discusses with management and the Board such matters as accounting policies, internal accounting controls and procedures for preparation of financial statements. Our Audit Committee is comprised of Mr. Galaznik (Chair), Ms. Kahn and Mr. Landers. Our Board has determined that each of the members of the Audit Committee meet the criteria for independence under the standards provided by the Nasdaq Stock Market. The Board of Directors has adopted a written charter for the Audit Committee. A copy of such charter is available on the Company's website, www.bridgeline.com. During Fiscal 2018, the Audit Committee met four times. Each member of the Audit Committee attended each such meeting. The Chairman of the Audit Committee was present at all meetings.

Audit Committee Financial Expert. Our Board has also determined that each of Mr. Galaznik and Mr. Landers qualifies as an "audit committee financial expert" as defined under Item 407(d) (5) of Regulation S-K and as an independent director as defined by the Nasdaq listing standards.

Compensation Committee

The Compensation Committee evaluates the performance of our senior executives, considers the design and competitiveness of our compensation plans, including the review of independent research and data regarding compensation paid to executives of public companies of similar size and geographic location, reviews and approves senior executive compensation and administers our equity compensation plans. In addition, the Committee also conducts reviews of executive compensation to ensure compliance with Section 162(m) of the Internal Revenue Code of 1986, as amended. Our Compensation Committee is comprised of Ms. Kahn (Chair), Mr. Galaznik and Mr. Landers, all of whom are independent directors. The Board of Directors has adopted a written charter for the Compensation Committee. A copy of such charter is available on the Company's website, www.bridgeline.com. During Fiscal 2018, the Compensation Committee met six times and acted two times by unanimous written consent.

Nominating and Corporate Governance Committee

The Nominating and Governance Committee identifies candidates for future Board membership and proposes criteria for Board candidates and candidates to fill Board vacancies, as well as a slate of directors for election by the shareholders at each annual meeting. The Nominating and Governance Committee also annually assesses and reports to the Board on Board and Board Committee performance and effectiveness and reviews and makes recommendations to the Board concerning the composition, size and structure of the Board and its committees. A copy of such charter is available on the Company's website, www.bridgeline.com. Our Nominating and Governance Committee is comprised of Mr. Landers (Chair) and Ms. Kahn, each of whom are independent directors. During Fiscal 2018, the Nominating and Governance Committee met four times

Item 11. Executive Compensation.**Summary Compensation Table**

The following Summary Compensation Table sets forth the total compensation paid or accrued for the fiscal years ended September 30, 2019 and September 30, 2018 for our principal executive officer and our other two most highly compensated executive officers who served as executive officers during the year ended September 30, 2019. We refer to these officers as our named executive officers.

Name and Principal Position	Fiscal Year End	Salary	Bonus	Option Awards	All Other Compensation (3)	Total
Roger Kahn President and Chief Executive Officer	2019	\$ 300,000	\$ 26,042	\$ -	\$ -	\$ 326,042
	2018	\$ 300,000	\$ 67,497	\$ -	\$ -	\$ 367,497
Michael Prinn (1) Former Executive Vice President and Chief Financial Officer	2019	\$ -	\$ -	\$ -	\$ -	\$ -
	2018	\$ 250,000	\$ 40,498	\$ -	\$ -	\$ 290,498
Carole Tyner (2) Former Chief Financial Officer	2019	\$ 201,167	\$ 7,500	\$ -	\$ 116,189	\$ 324,856
	2018	\$ 186,750	\$ 5,933	\$ -	\$ -	\$ 192,683
Mark G. Downey Executive Vice President Chief Financial Officer and Treasurer	2019	\$ 60,000	\$ -	\$ -	\$ -	\$ 60,000

(1) Michael Prinn resigned as Executive Vice President and Chief Financial Officer effective September 25, 2018.

(2) Carole Tyner resigned as Chief Financial Officer on August 31, 2019. Effective July 1, 2019, Mark Downey was appointed as Executive Vice President, Chief Financial Officer and Treasurer.

(3) Amounts paid to Carole Tyner in fiscal 2019 represent severance of \$110,000, unused vacation of \$5,077 and COBRA of \$1,112.

Employment Agreements*Roger Kahn*

On August 24, 2015, Mr. Roger "Ari" Kahn joined Bridgeline Digital, Inc. (the "Company") as the Company's Chief Operating Officer. On December 1, 2015, Mr. Kahn and another were named Co-Interim Chief Executive Officers and Presidents and assumed the responsibilities of the Office of the Chief Executive Officer and President. On May 6, 2016, the Company appointed Mr. Kahn as President and Chief Executive Officer, effective May 10, 2016. Mr. Kahn's employment agreement was amended and reported on Form 8-K filed with the Securities and Exchange Commission on May 13, 2016. In furtherance of Mr. Kahn's employment with the Company, a new employment agreement was entered into on September 13, 2019 by and between the Company and Mr. Kahn. The principal change to Mr. Kahn's employment agreement is that it will automatically renew each fiscal year unless the Company provides written notice of its intent not to renew such employment agreement at least sixty (60) days in advance of the Company's fiscal year rather than the employment agreement only renewing upon notice from the Company.

Carole Tyner

On June 28, 2019, Ms. Carole Tyner resigned from her position of Chief Financial Officer of Bridgeline Digital, Inc. ("Bridgeline" or the "Company") to pursue new professional opportunities. Ms. Tyner will continue to provide services to the Company as an employee until August 31, 2019. Upon Ms. Tyner's departure on August 31, 2019, she will receive a lump sum separation payment equivalent to six-months base salary, and further, she will continue to receive COBRA health insurance continuation benefits with the Employer portion of the premiums paid by the Company up through February 28, 2020.

Mark G. Downey

Effective July 1, 2019, Mark G. Downey was appointed by the Company's Board of Directors as Executive Vice President, Chief Financial Officer and Treasurer of the Company. The Company and Mr. Downey entered into an employment agreement (the "Employment Agreement"), effective July 1, 2019 through September 30, 2020, whereby he will receive two-hundred and forty thousand dollars base salary and the ability to earn a bi-annual incentive bonus of thirty thousand dollars. Mr. Downey may also participate in such equity-based and cash-based incentive programs as the Company may from time to time and made available to its executive officers, in accordance with the terms and conditions of such programs, as well as, the Company's other applicable employee benefits plans and programs. His Employment Agreement also provides that in the event Mr. Downey's employment is terminated by the Company without cause or if the Company terminates his employment for good reason, he is entitled to receive severance benefits. The foregoing descriptions of the material terms of the Employment Agreement by and between the Company and Mr. Downey do not purport to be complete descriptions and are qualified in their entirety by reference to the Employment Agreement, which is filed as Exhibit 10.1 on Form 8-K. There are no family relationships between Mr. Downey and any director or executive officer of the Company.

Outstanding Equity Awards at Fiscal 2019 Year-End

The following table sets forth information concerning outstanding stock options for each named executive officer as of September 30, 2019.

Name	Grant Date	Number of Securities Underlying Unexercised Options Exercisable (1)	Number of Securities Underlying Unexercised Options Unexercisable (1)	Exercise price (\$/sh)	Option Expiration Date
Roger Kahn (1)	08/24/2015	800	-	\$ 287.50	08/24/2025
	08/19/2016	716	-	\$ 205.00	08/19/2026
		<u>1,516</u>	<u>-</u>		

(1) Shares vest in equal installments upon the anniversary date of the grant over three years.

Director Compensation

The non-employee members of our Board of Directors are compensated as follows:

- *Compensation.* Each outside director receives an annual retainer of \$12,000 and is compensated \$1,500 for each meeting such director attends in person. Members of the Audit Committee receive additional annual compensation of \$3,000.
- *Committee Chair Bonus.* The Chair of the Board of Directors receives an additional annual fee of \$15,000. The Chair of the Audit Committee receives an additional annual fee of \$10,000. The Chairs of the Compensation Committee and Nominating and Corporate Governance Committee each receive an additional annual fee of \$5,000. These fees are payable in lump sums in advance. Other directors who serve on our standing committees, other than the Audit Committee, do not receive additional compensation for their committee services.

Director Compensation Table

The following table sets forth information concerning the compensation paid to our non-employee directors during the fiscal year ended September 30, 2019.

Director	Annual Retainer	Board Meetings	Chairman	Additional	Total
Galaznik, Ken	\$ 12,000	\$ 6,000	\$ 10,000	\$ -	\$ 28,000

Kahn, Joni	12,000	6,000	15,000	3,000	36,000
Landers, Scott	12,000	6,000	5,000	3,000	26,000
Taglich, Michael	12,000	6,000	-	-	18,000
	<u>\$ 48,000</u>	<u>\$ 24,000</u>	<u>\$ 30,000</u>	<u>\$ 6,000</u>	<u>\$ 108,000</u>

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

Beneficial ownership is determined in accordance with Rule 13d-3 under the Exchange Act. In computing the number of shares beneficially owned by a person or a group and the percentage ownership of that person or group, shares of our common stock subject to options or warrants currently exercisable or exercisable within 60 days after December 27, 2019 are deemed outstanding, but are not deemed outstanding for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated, the address of each individual named below is our address, 100 Summit Drive, Burlington, Massachusetts 01803.

The following tables set forth, as of December 27, 2019, the beneficial ownership of our Series A Preferred, Series C Preferred and Common Stock by (i) each person or group of persons known to us to beneficially own more than 5% of the outstanding shares of each class of the outstanding securities, (ii) each of our directors and named executive officers, and (iii) all of our executive officers and directors as a group. At the close of business on December 27, 2019 there were 262,310 shares of Series A Preferred, 441 shares of our Series C Preferred and 12,798,475 shares of our Common Stock issued and outstanding.

Except as indicated in the footnotes to the tables below, each stockholder named in the table has sole voting and investment power with respect to the shares shown as beneficially owned by such stockholder.

This information is based upon information received from or on behalf of the individuals named herein.

Series A Preferred Stock

Name and Address (1)	Number of Shares Owned (2)		Percent of Shares Outstanding
Robert Taglich 790 New York Avenue Huntington, NY 11743	65,993		25.16%
Alvin Fund, LLC 215 West 98 th Street, Apt. 10A New York, NY 10025	22,446		8.56%
Shadow Capital, LLC 3601 SW 29 th Street Topeka, KS 66614	21,128		8.05%
Sterling Family Investment, LLC 12400 Dutch Forest PL Edmond, OK 73013	21,128		8.05%
All current executive officers and directors as a group	-		*

- (1) Each of our officers and directors are excluded from this table, as no officer or director currently holds shares of Series A Preferred.
- (2) Holders of Series A Preferred are entitled to vote on all matters presented to our stockholders on an as-converted basis. Each share of Series A Preferred is convertible, at the option of each respective holder, into approximately 0.012 shares of our Common Stock.

Series C Preferred Stock

Director/Shareholder	12-May-15	240	\$ 1,000.00	12-May-20

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Item 404(d) of Regulation S-K requires the Company to disclose any transaction or proposed transaction which occurred since the beginning of the two most recently completed fiscal years in which the amount involved exceeds the lesser of \$120,000 or one percent (1%) of the average of the Company's total assets as of the end of the last two completed fiscal years in which the Company is a participant and in which any related person has or will have a direct or indirect material interest. A related person is any executive officer, director, nominee for director, or holder of 5% or more of the Company's Common Stock, or an immediate family member of any of those persons.

In accordance with our Audit Committee charter, our Audit Committee is responsible for reviewing and approving the terms of any related party transactions. Therefore, any material financial transaction between the Company and any related person would need to be approved by our Audit Committee prior to the Company entering into such transaction.

In October 2013, Mr. Michael Taglich joined the Board of Directors. Michael Taglich is the Chairman and President of Taglich Brothers, Inc. a New York based securities firm. Taglich Brothers, Inc. acted as placement agents for many of the Company's private offerings in 2012, 2013, 2014, and 2016. They were also the placement agent for the Company's \$3 million subordinated debt offering in 2013, the Series A Preferred stock sale in 2015, and Promissory Term Notes in 2018. As of August 16, 2019, Michael Taglich beneficially owns approximately 10% of Bridgeline stock. Michael Taglich has also guaranteed \$1.5 million in connection with the Company's out of formula borrowings on its credit facility with Heritage Bank. In consideration of previous loans made by Michael Taglich to the Company and the personal guaranty for Heritage Bank of Commerce, Mr. Taglich has been issued warrants to purchase common stock totaling 1,080 shares at an exercise price of \$1,000.00 per share.

In connection with the Company's private placement completed in November 2016, the Company issued to the Investors warrants to purchase an aggregate total of 4,271 shares common stock. Included were warrants to purchase 172 shares of common stock issued to Roger Kahn and warrants to purchase 308 shares of common stock issued to Michael Taglich. Each warrant to purchase common stock expires five and one-half years from the date of issuance and is exercisable for \$175.00 per share beginning six-months from the date of issuance, or May 9, 2017. The warrants expire May 9, 2022.

In connection with previous private offerings and debt issuances, Taglich Brothers, Inc. were granted placement agent warrants to purchase 4,246 shares of common stock at a weighted average price of \$321.00 per share.

In September 2018, the Company sold and issued subordinate promissory notes (the "Promissory Term Notes") to certain accredited investors (each, a "Purchaser"), pursuant to which it issued to the Purchasers (i) Promissory Term Notes, in the aggregate principal amount of approximately \$941,000. The Promissory Term Notes have an original issue discount of fifteen percent (15%), bear interest at a rate of twelve percent (12%) per annum, and have a maturity date of the earlier to occur of (a) six months from the date of execution of the Purchase Agreement, or (b) the consummation of a debt or equity financing resulting in the gross proceeds to the Company of at least \$3.0 million. Michael Taglich participated in the Note Purchase Agreement in September 2018. Michael Taglich purchased Promissory Term Notes in the amount of approximately \$122,000 pursuant to the Note Purchase Agreement. Taglich Brothers, Inc. served as placement agent for the above transaction, for which services the Company paid to Taglich Brothers, Inc. \$40,000 in cash compensation, or five percent (5%) of the net proceeds received by the Company.

Item 14. Principal Accounting Fees and Services.**Audit Fees**

The firm of Marcum LLP acts as our principal independent registered public accounting firm. They have served as our independent auditors since April 26, 2006. A representative of Marcum LLP is expected to attend this year's Annual Meeting, and he will have an opportunity to make a statement if he desires to do so. It is also expected that such representative will be available to respond to appropriate questions.

The table below shows the aggregate fees that the Company paid or accrued for the audit and other services provided by Marcum LLP for the fiscal years ended September 30, 2019 and September 30, 2018. The Company did not engage its independent registered public accounting firm during either of the fiscal years ended September 30, 2019 or September 30, 2018 for any other non-audit services.

Type of Service	Amount of Fee for Fiscal Year Ended	
	September 30, 2019	September 30, 2018
Audit Fees	\$268,271	\$250,670
Audit-Related Fees	—	—
Tax Fees	—	—
Total	\$268,271	\$250,670

Audit Fees. This category includes fees for the audits of the Company's annual financial statements, review of financial statements included in the Company's Form 10-Q Quarterly Reports and services that are normally provided by the independent auditors in connection with statutory and regulatory filings or engagements for the relevant fiscal years.

Audit-Related Fees. This category consists of audits performed in connection with certain acquisitions.

Tax Fees. This category consists of professional services rendered for tax compliance, tax planning and tax advice. The services for the fees disclosed under this category include tax return preparation, research and technical tax advice.

There were no other fees paid or accrued to Marcum LLP in the fiscal years ended September 30, 2019 or September 30, 2018.

Audit Committee Pre-Approval Policies and Procedures.

Before an independent public accounting firm is engaged by the Company to render audit or non-audit services, the engagement is approved by the Audit Committee. Our Audit Committee has the sole authority to approve the scope of the audit and any audit-related services as well as all audit fees and terms. Our Audit Committee must pre-approve any audit and non-audit related services by our independent registered public accounting firm. During our fiscal year ended September 30, 2019, no services were provided to us by our independent registered public accounting firm other than in accordance with the pre-approval procedures described herein.

PART IV

Item 15. Exhibits and Financial Statement Schedules.

(a) Documents Filed as Part of this Form 10-K

1. Financial Statements (included in Item 8 of this report on Form 10-K):

- Reports of Independent Registered Public Accounting Firm
- Consolidated Balance Sheets as of September 30, 2019 and 2018
