

**2014
PROXY STATEMENT
NOTICE OF ANNUAL
SHAREHOLDER MEETING**

**Your vote is important! Please vote by using the internet,
telephone, or by signing, dating and returning the enclosed proxy card.**

35 S. Lindan Avenue • Quincy, CA 95971 • 530.283.7305 • Fax 530.283.9665

To our Shareholders:

It is with great pleasure that we report yet another profitable year for Plumas Bank, and, even more exciting, our second highest level of earnings in our 34-year history. Also in 2014, we achieved another very significant achievement; Plumas Bank was ranked in the top ten percent of similarly-sized community banks in the nation on the CB Resource Top Ten™ Performance Scorecard. We are very proud of all of these important accomplishments.

In terms of profitability, our 2014 net income was \$4.7 million, a 38% increase over 2013. This profitability is the result of the positive operating momentum that we carried into 2014 which extended throughout the year, along with strong organic loan growth, a substantial increase in our non-interest revenues, responsible management of operating expenses and continued improvement in asset quality.

During 2014, we initiated a number of strategic actions which positioned the Company for additional opportunity. These actions included the expansion of our small business lending, or SBA, operations into Oregon and the opening of a commercial and agricultural loan production office in Chico, California. And more recently, in February 2015, we filed an application with the Federal Deposit Insurance Corporation (FDIC) to establish a full-service branch in Reno, Nevada so that we can expand our offerings in the Northern Nevada region.

In April, our online banking technology will be enhanced with Unified User Experience (UUX). UUX provides a consistent look, feel and functionality across all virtual channels – smartphones, tablets and desktop computers. This technology will improve the customer experience by making navigation simple and familiar regardless of device.

Because of these strategic actions, our business is well positioned in our markets and we are optimistic about further growth opportunities into new markets. We look to sustain momentum through continued investments in talent, products and services. We remain committed to successfully building this organization for the long-term and delivering value to both clients and shareholders.

On behalf of your Board and Management team, thank you for your continued trust and confidence.

Sincerely,

A handwritten signature in black ink, appearing to read 'Andrew J. Ryback'.

Andrew J. Ryback

President & Chief Executive Officer

A handwritten signature in black ink, appearing to read 'Daniel E. West'.

Daniel E. West

Chairman of the Board

Dear Shareholder:

You are cordially invited to attend the annual meeting of shareholders of Plumas Bancorp, (the "Company") which will be held at the Plumas Bank Credit Administration Building located at 32 Central Avenue, Quincy, California, on Wednesday, May 20, 2015 at 9:30 a.m. At this annual meeting, shareholders will be asked to (i) elect nine directors for the next year and (ii) ratify the appointment of Vavrinek, Trine, Day & Company, LLP as our independent auditors for the fiscal year ending December 31, 2015.

The Company is requesting your proxy to vote on the election of directors and the ratification of auditors. The Board of Directors of the Company recommends that you vote "FOR" the election of each of the nominees for director and "FOR" the ratification of the appointment of Vavrinek, Trine, Day & Company, LLP as the Company's independent auditors for the fiscal year ending December 31, 2015.

The proxy statement contains information about each of the nominees for directors, the Company's executive compensation, and proposal 2.

To ensure that your vote is represented at this important meeting, please sign, date and return the proxy card in the enclosed envelope as promptly as possible. As an alternative to using your paper proxy card to vote, you may also vote by telephone or over the internet by following the instructions on your proxy card.

Sincerely,

Andrew J. Ryback
President and Chief Executive Officer

The date of this proxy statement is April 1, 2015.

**Notice of Annual Meeting of Shareholders
Plumas Bancorp**

**To: The Shareholders of
Plumas Bancorp**

Notice is hereby given that, pursuant to its Bylaws and the call of its Board of Directors, the annual meeting of shareholders of Plumas Bancorp will be held at the Plumas Bank Credit Administration Building located at 32 Central Avenue, Quincy, California, on Wednesday, May 20, 2015 at 9:30 a.m., for the purpose of considering and voting upon the following matters:

1. **Election of Directors.** To elect nine (9) persons to serve as directors of the Bancorp until their successors are duly elected and qualified.

Alvin G. Blickenstaff
Steven M. Coldani
William E. Elliott
Gerald W. Fletcher
John Flournoy

Arthur C. Grohs
Robert J. McClintock
Terrance J. Reeson
Daniel E. West

2. **Ratification of the Appointment of Independent Auditors.** To vote on the ratification of the appointment of Vavrinek, Trine, Day & Company, LLP as our independent auditors for the fiscal year ending December 31, 2015.
3. **Transaction of Other Business.** To transact such other business as may properly come before the meeting and any adjournment or adjournments thereof.

The Board of Directors has fixed the close of business on March 31, 2015 as the record date for determination of shareholders entitled to notice of, and the right to vote at, the meeting.

You are urged to vote “FOR” the election of all of the nominees for directors and “FOR” the ratification of the appointment of Vavrinek, Trine, Day & Company, LLP as our independent auditors for the fiscal year ending December 31, 2015, by signing and returning the enclosed proxy as promptly as possible, whether or not you plan to attend the meeting in person. As an alternative to using your paper proxy card to vote, you may also vote by telephone or over the internet by following the instructions on your proxy card. If you do attend the meeting, you may then withdraw your proxy. The proxy may be revoked at any time prior to its exercise.

By Order of the Board of Directors,

Dated: April 1, 2015

Terrance J. Reeson, Vice Chairman and Secretary

**Plumas Bancorp
Proxy Statement
Annual Meeting of Shareholders
May 20, 2015**

Plumas Bancorp (the “Company”) is providing this proxy statement to its shareholders in connection with the annual meeting (the “Meeting”) of shareholders to be held at the Plumas Bank Credit Administration Building located at 32 Central Avenue, Quincy, California, on Wednesday, May 20, 2015 at 9:30 a.m. and at any and all adjournments thereof.

It is expected that the Company will mail this proxy statement and accompanying notice and form of proxy to shareholders on or about April 8, 2015.

Shareholders may also view this proxy statement and the 2014 Annual Report to Stockholders on the internet at <http://materials.proxyvote.com/729273>.

General Information

Voting By Proxy. Whether or not you plan to attend the Meeting, you may submit a proxy to vote the **shares registered in your name** via internet, telephone or mail as more fully described below:

- By Internet: Go to <http://www.proxyvote.com> and follow the instructions. You will need information from your proxy card or electronic delivery notice to submit your proxy.
- By Telephone: Call 1.800.690.6903 and follow the voice prompts. You will need information from your proxy card or electronic delivery notice to submit your proxy.
- By Mail: Mark your vote, sign your name exactly as it appears on your proxy card, date your proxy card and return it in the envelope provided.

If a bank, broker or other nominee holds your shares, you will receive voting instructions directly from the holder of record. All shares represented by valid proxies that we receive through this solicitation, and that are not revoked, will be voted in accordance with your instructions on the proxy card or as instructed via internet or telephone. If you properly submit a proxy without giving specific voting instructions, your shares will be voted in accordance with the Board’s recommendations “FOR”:

- Proposal 1: Election to the Board of all of the 9 director nominees named in this proxy statement; and
- Proposal 2: Ratification of the appointment of Vavrinek, Trine, Day & Company, LLP as our independent auditors for the fiscal year ending December 31, 2015.

If other matters properly come before the Meeting, the persons appointed to vote the proxies will vote on such matters in accordance with their best judgment. Such persons also have discretionary authority to vote to adjourn the Meeting, including for the purpose of soliciting proxies to vote in accordance with the Board’s recommendations on any of the above items.

Revocability of Proxies and Proxy Voting

You may revoke your proxy at any time before it is exercised by:

- written notice of revocation delivered to Terrance J. Reeson, Corporate Secretary of Plumas Bancorp, at 35 S. Lindan Avenue, Quincy, California 95971;
- a properly executed proxy of a later date mailed to the Company;
- casting a new vote by telephone or internet; or
- voting in person at the Meeting if you are the record holder.

If you are a street name shareholder and you voted by proxy, you may revoke your proxy by informing the holder of record in accordance with that entity's procedures. In addition, the powers of the proxy holders will be revoked if the person executing the proxy is present at the Meeting and elects to vote in person. Subject to such revocation or suspension, the proxy holders will vote all shares represented by a properly executed proxy received in time for the Meeting in accordance with the instructions on the proxy.

If no instruction is specified by the shareholder with regard to the matter on the proxy to be acted upon, the proxy holders will vote the shares represented by the proxy "FOR" each of the nominees for directors and "FOR" the ratification of the appointment of Vavrinek, Trine, Day & Company, LLP as our independent auditors for the fiscal year ending December 31, 2015. If any other matter is presented at the Meeting, the proxy holders will vote in accordance with the recommendations of management.

Persons Making the Solicitation

The Board of Directors of the Company is soliciting proxies. The Company will bear the expense of preparing, assembling, printing and mailing this proxy statement and the material used in the solicitation of proxies for the Meeting. The Company contemplates that proxies will be solicited principally through the use of the mail, but officers, directors and employees of the Company may solicit proxies personally or by telephone, without receiving special compensation for the solicitation. Although there is no formal agreement to do so, the Company will reimburse banks, brokerage houses and other custodians, nominees and fiduciaries for their reasonable expenses in forwarding these proxy materials to their principals. In addition, the Company may utilize the services of individuals or entities not regularly employed by the Company in connection with the solicitation of proxies, if management of the Company determines that this is advisable.

Voting Securities

Management of the Company has fixed March 31, 2015 as the record date for purposes of determining the shareholders entitled to notice of, and to vote at, the Meeting. On March 31, 2015, there were 4,800,439 shares of the Company's common stock issued and outstanding. Each holder of the Company's common stock will be entitled to one vote for each share of the Company's common stock held of record on the books of the Company as of the record date. In connection with the election of directors, shares may be voted cumulatively if a shareholder present at the Meeting gives notice at the Meeting, prior to the voting for election of directors, of his or her intention to vote cumulatively. If any shareholder of the Company gives that notice, then all shareholders eligible to vote will be entitled to cumulate their shares in voting for election of directors. Cumulative voting allows a shareholder to cast a number of votes equal to the number of shares held in his or her name as of the record date, multiplied by the number of directors to be elected. These votes may be cast for any one nominee, or may be distributed

among as many nominees as the shareholder sees fit. If cumulative voting is declared at the Meeting, votes represented by proxies delivered pursuant to this proxy statement may be cumulated in the discretion of the proxy holders, in accordance with management's recommendation.

The effect of broker non-votes is that such votes are not counted as being voted; however, such votes are counted for purposes of determining a quorum. The effect of a vote of abstention on any matter is that such vote is not counted as a vote for or against the matter, but is counted as an abstention.

Shareholdings of Certain Beneficial Owners and Management

Management of the Company knows of no person who owns, beneficially or of record, either individually or together with associates, 5 percent or more of the outstanding shares of the Company's common stock, except as set forth in the table below. The following table sets forth, as of March 20, 2015, the number and percentage of shares of the Company's outstanding common stock beneficially owned, directly or indirectly, by principal shareholders, by each of the Company's directors, our executive officers named in the Summary Compensation Table contained in this proxy statement and by the directors and executive officers of the Company as a group. The shares "beneficially owned" are determined under the Securities and Exchange Commission ("SEC") Rules, and do not necessarily indicate ownership for any other purpose. In general, beneficial ownership includes shares over which the director, named executive officer or principal shareholder has sole or shared voting or investment power and shares which such person has the right to acquire within 60 days of March 20, 2015. Unless otherwise indicated, the persons listed below have sole voting and investment powers of the shares beneficially owned or acquirable by exercise of stock options. Management is not aware of any arrangements, which may result in a change of control of the Company.

Beneficial Owner	Amount and Nature of Beneficial Ownership (1) Percent of Class (1)	
Principal Shareholders that own 5% or more:		
Dean A. Cortopassi (2)	476,967	9.9
Siena Capital Management, LLC (3)	277,754	5.8
Directors and Named Executive Officers:		
Andrew J. Ryback, President and CEO	45,340 (4)	*
Richard L. Belstock, EVP and CFO	45,135 (5)	*
Monetta R. Dembosz, EVP- Operations Manager of Plumas Bank	27,059 (6)	*
Daniel E. West, Director and Chairman of the Board	54,181 (7)	1.1
Terrance J. Reeson, Director, Vice Chairman and Secretary of the Board	84,631 (8)	1.8
Alvin G. Blickenstaff, Director	77,393 (9)	1.6
Steven M. Coldani, Director	7,314 (10)	*
William E. Elliott, Director	82,410 (11)	1.7
Gerald W. Fletcher, Director	35,254 (12)	*
John Flournoy, Director	54,906 (13)	1.1
Arthur Grohs, Director	33,478 (14)	*
Robert J. McClintock, Director	85,156 (15)	1.8
All 14 Directors and Executive Officers as a Group	671,662	13.7

* Less than one percent

- (1) Includes 116,700 shares subject to options held by the directors and executive officers that were exercisable within 60 days of March 20, 2015. These are treated as issued and outstanding for the purpose of computing the percentage of each director, named executive officer and the directors and executive officers as a group, but not for the purpose of computing the percentage of class owned by any other person, including principal shareholders.
- (2) Two Cortopassi controlled entities have beneficial ownership over a total of 476,967 shares of the Company. The Cortopassi Family Trust owns 156,410 shares of the Company's common stock, while Cortopassi Partners, L.P. owns 320,557 shares of the Company's common stock. Dean A. Cortopassi is the Trustee of the Cortopassi Family Trust and is also President of San Tomo, Inc., the general partner of Cortopassi Partners, L.P. Mr. Cortopassi disclaims beneficial ownership of the shares held by Cortopassi Family Trust and Cortopassi Partners, L.P. except to the extent of his pecuniary or partnership interests therein. The address of the Cortopassi entities is 11292 North Alpine Road, Stockton, California 95212.
- (3) Siena Capital Management, LLC is the general partner of each of Siena Capital Partners I, L.P. and Siena Capital Partners Accredited, L.P. Siena Capital Partners I, L.P. may be deemed to beneficially own 269,932 shares of common stock of the Company, Siena Capital Partners Accredited, L.P. may be deemed to own 7,822 shares of common stock of the Company and Siena Capital Management, LLC may be deemed to own 277,754 shares of common stock of the Company. The address of the Siena entities is 100 North Riverside Plaza, Suite 1630 Chicago, Illinois 60606.
- (4) Mr. Ryback has shared voting and investment powers as to 13,200 of these shares. Mr. Ryback also has 9,500 shares acquirable by exercise of stock options.
- (5) Mr. Belstock has 16,900 shares acquirable by exercise of stock options.
- (6) Ms. Dembosz has shared voting and investment powers as to 4,359 of these shares. Ms. Dembosz also has 22,700 shares acquirable by exercise of stock options.
- (7) Mr. West has shared voting and investment powers as to 23,662 of these shares and sole voting powers but shared investment powers as to 16,794 of these shares. He also has 5,000 shares acquirable by exercise of stock options.
- (8) Mr. Reeson has shared voting and investment powers as to 74,771 of these shares. He also has 5,000 shares acquirable by exercise of stock options.
- (9) Mr. Blickenstaff has shared voting and investment powers as to 69,602 of these shares. He also has 2,600 shares acquirable by exercise of stock options.
- (10) Mr. Coldani has shared voting and investment powers as to 3,239 of these shares. He also has 800 shares acquirable by exercise of stock options.
- (11) Mr. Elliott has shared voting and investment powers as to 77,410 of these shares. He also has 5,000 shares acquirable by exercise of stock options.

- (12) Mr. Fletcher has shared voting and investment powers as to 32,609 of these shares. He also has 2,600 shares acquirable by exercise of stock options.
- (13) Mr. Flournoy has 5,100 shares acquirable by exercise of stock options.
- (14) Mr. Grohs has shared voting and investment powers as to 28,478 of these shares. He also has 5,000 shares acquirable by exercise of stock options.
- (15) Mr. McClintock has shared voting and investment powers as to 43,058 of these shares. He also has 4,000 shares acquirable by exercise of stock options.

Section 16(a) Beneficial Ownership Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and certain executive officers and persons who own more than ten percent (10%) of a registered class of the Company's equity securities (collectively, the "Reporting Persons"), to file reports of ownership and changes in ownership with the SEC. The Reporting Persons are required by SEC regulation to furnish the Bancorp with copies of all Section 16(a) forms they file.

Based solely upon a review of Forms 3, 4 and 5 and amendments thereto furnished to the Company during and with respect to its 2014 fiscal year, no director, executive officer or beneficial owner of 10% or more of the Company's common stock failed to file, on a timely basis, reports required during or with respect to 2014 by Section 16(a) of the Securities Exchange Act of 1934, as amended.

PROPOSAL 1
ELECTION OF DIRECTORS

The persons named below, all of whom are current members of the Board of Directors (the “Board”), will be nominated for election as directors at the Meeting to serve until the 2016 Annual Meeting of Shareholders and until their successors are elected and have qualified. Votes of the proxy holders will be cast in such a manner as to effect the election of all 9 nominees, as appropriate. The 9 nominees for directors receiving the most votes will be elected directors. In the event that any of the nominees should be unable to serve as a director, it is intended that the proxy will be voted for the election of such substitute nominee, if any, as shall be designated by the Board. The Board has no reason to believe that any of the nominees named below will be unable to serve if elected. Additional nominations for directors may only be made by complying with the nomination procedures which are included in the notice of annual meeting of shareholders accompanying this proxy statement.

The following table sets forth the names of, and certain information concerning, the persons to be nominated by the Board for election as directors of the Company.

<u>Name and Title Other than Director</u>	<u>Age</u>	<u>Year First Appointed Director</u>	<u>Principal Occupation During the Past Five Years</u>
Daniel E. West Chairman of the Board	61	1997	President, Graeagle Land & Water Co., a land management company. President, Graeagle Water Co, a private water utility, Graeagle, CA.
Terrance J. Reeson Vice Chairman and Secretary of the Board	70	1984	Retired. Formerly with the U.S. Forestry Service, Quincy, CA.
Alvin G. Blickenstaff	79	1988	Farmer and Rancher, partner in Blickenstaff Ranch, Janesville, CA.
Steven M. Coldani	61	2013	President, Owner/Broker, Coldani Realty Inc. and co-owner of Graeagle Associates Realtors; a managing member of Coldani Farming, LLC, a diversified farming company, Lodi, CA.
William E. Elliott	74	1987	Retired. Formerly President and CEO of the Company and Plumas Bank, Quincy, CA.
Gerald W. Fletcher	72	1988	Forest Products Wholesaler, Susanville, CA.
John Flournoy	70	2005	Rancher and Chief Financial Officer of Likely Land and Livestock Corporation, Likely, CA.
Arthur C. Grohs	78	1988	Retired. Former Retailer, Sparks, NV.
Robert J. McClintock	57	2008	Certified Public Accountant, co-owner of McClintock Accountancy Corporation, Tahoe City, CA.

The following is a brief description of the experience and qualifications of each nominee that the Corporate Governance Committee considered, in light of the Company's business and structure, in nominating them for service as Directors:

Daniel E. West

*Chairman of the Board
Director since 1997*

Mr. Daniel E. West has lived in Graeagle, California since 1958. He is president of Graeagle Land and Water Company, a land management company, and Graeagle Water Company, a private water utility. Mr. West is a managing member of Graeagle Timber Company, LLC and is a member of the Feather River College Foundation. He also serves as a director on the boards of Graeagle Fire Protection District and California Water Association. Mr. West's valuable business acumen, his extensive experience on various and diverse boards, and his deep ties to his community highly qualify him for service as a member of the Board and Chairman.

Terrance J. Reeson

*Vice Chairman
Director since 1984*

Mr. Terrance J. Reeson has lived in Quincy, California for over 50 years. He is a retired U.S. Forest Service Aviation Officer for the Plumas National Forest. Mr. Reeson is active in his community and is a former executive director of the Quincy Chamber of Commerce. Mr. Reeson's relevant experience qualifying him for service as a director includes extensive government service and widespread civic and community involvement.

Alvin G. Blickenstaff

*Director
Director since 1988*

Mr. Alvin G. Blickenstaff was born and raised in the Susanville, California area. Mr. Blickenstaff, along with his wife, Beverly, own and operate Blickenstaff Ranch, a family-owned partnership, where they raise alfalfa hay, wheat, straw and alfalfa seed. He was a founding director and chairman of former Sierra Security Bank. He is a member and past president of both the Lassen County Farm Bureau and Lassen County Cattleman's Association. Mr. Blickenstaff served as a 4-H leader and on the Jr. Livestock Sale Committee for 42 years. He served on the FHA Loan Board and the Agricultural Stabilization and Conservation Committee and received the Conservationist of the Year Award in 1972. In 2007, he was recognized by his peers with a Distinguished Service Award for community service. Mr. Blickenstaff's expertise in the agricultural industry and business management highly qualifies him for service as a member of the Board.

Steven M. Coldani

*Director
Director since 2013*

Mr. Steven M. Coldani was born and raised in Lodi, California. He is a licensed real estate broker and the president and owner of Coldani Realty Inc. in Lodi, California; he is also co-owner of Graeagle Associates Realtors in Graeagle, California since 1992. In addition, Mr. Coldani is a managing member of Coldani Farming, LLC, a diversified farming company producing various row crops such as olives and grapes, hay and livestock. Mr. Coldani graduated from the University of the Pacific, Stockton, California where he received a Bachelor of Science degree in Business and Public Administration. Mr. Coldani's relevant experience qualifying him for service as a member of the Board is comprised of a broad range of management and community service experience including his service on the board of Community Business Bank as well as his membership in the Lodi District Chamber of Commerce, the California

Farm Bureau, the Lodi Association of Realtors and the Plumas Association of Realtors; he is also a past director of the California Association of Realtors.

William E. Elliott

Director

Director since 1987

Mr. William E. Elliott joined Plumas Bank in 1987 as President and Chief Executive Officer and retired in 2005. He has been in the banking industry for over 50 years holding various management and board positions; this experience highly qualifies him for service as a board director. Mr. Elliott graduated from California State University, Sacramento where he received a Bachelor of Science degree in Accounting and a Master's in Business Administration. He also graduated from the Pacific School of Banking at the University of Washington. Mr. Elliott is very active in his community; he is a director and former chairman of the Feather River Community College Board, and he is a former director on the Plumas District Hospital Board, both in Quincy, California. He has been a member of the Rotary Club for over 40 years.

Gerald W. Fletcher

Director

Director since 1988

Mr. Gerald W. Fletcher has lived in Susanville, California since 1956 and is a retired rancher, realtor, and insurance agent. He was also a director of former Sierra Security Bank. Mr. Fletcher owns and operates Fletcher Christmas Trees. He was also a reforestation contractor and has planted millions of trees throughout Northern California. He is a member and past president of Lassen County Cattleman's Association and a member of the Lassen County Farm Bureau. Mr. Fletcher's relevant experience qualifying him for service as a member of the Board is comprised of a broad range of management and community service including his past service as Lieutenant in the Susanville Volunteer Fire Department, a past 4-H Leader and member of the Lassen County Jr. Livestock Auction Committee.

John Flournoy

Director

Director since 2005

Mr. John Flournoy was born and raised in Likely, California. He is a rancher and hay producer in Likely, California. Since 1971, he has served on the board of directors of the South Fork Irrigation District (SFID). He served for many years as a committee member for the Farm Service Agency where he reviewed all loan applications for small agricultural operations and evaluated collateral releases and settlements. Mr. Flournoy's relevant experience qualifying him for service as a member of the Board includes his lifelong experience as a rancher and hay producer on his family-owned ranch, expertise in business and agricultural lending, and operational risk management.

Arthur C. Grohs

Director

Director since 1988

Mr. Arthur C. Grohs was born in Susanville, California and raised in Westwood and Susanville, California. Mr. Grohs is an experienced business owner and entrepreneur; he retired after 35 years of retail store ownership in Susanville. Mr. Groh's experience in qualifying him for service as a member of the Board includes marketing, long range planning, personnel management, and operational risk management. He now resides in Reno, Nevada and remains active in the Northern Nevada community.

Robert J. McClintock*Director**Director since 2008*

Mr. Robert J. McClintock has lived in Tahoe City, California for over 30 years. He is a Certified Public Accountant and is a shareholder of McClintock Accountancy Corporation headquartered in Tahoe City, California with an additional office in Truckee, California. As a CPA, Mr. McClintock brings strong accounting and financial skills important to the oversight of the Company's financial reporting, enterprise and operational risk management. Mr. McClintock is Troop Committee Chairman for Boy Scouts of America Troop 266. He is also a board member of the Kiwanis Club of North Lake Tahoe and has served previously as past President and Treasurer. He is a member of the advisory board for the Tahoe Truckee Excellence in Education Foundation and has served previously as Treasurer. Mr. McClintock attended Michigan Tech University where he received his Bachelor of Science degree in Business Administration.

All nominees will continue to serve if elected at the Meeting until the 2015 annual meeting of shareholders and until their successors are elected and have been qualified. None of the directors were selected pursuant to any arrangement or understanding other than with the directors and executive officers of the Company acting within their capacities as such. There are no family relationships between any of the directors of the Company. No director of the Company serves as a director of any company that has a class of securities registered under, or which is subject to the periodic reporting requirements of, the Securities Exchange Act of 1934, or of any company registered as an investment company under the Investment Company Act of 1940.

Board Matters**The Board of Directors and Committees**

During 2014, the Company's Board of Directors met 18 times. None of the Company's directors attended less than 75 percent of all Board of Directors' meetings and committee meetings of which they were members. The Company does not have a policy requiring director attendance at its annual meeting; however, most directors attend the meeting as a matter of course. All current directors attended the annual meeting of shareholders held in May 2014. The Board has established, among others, an Audit Committee and a Corporate Governance Committee and each of these committees have charters. Charters for each of these committees are available on the Company's website www.plumasbank.com.

Shareholder Communication with the Board of Directors

If you wish to communicate with the Board of Directors or the Chairman of the Board you may send correspondence to the Corporate Secretary, Plumas Bancorp, 35 S. Lindan Avenue, Quincy, California 95971. The Corporate Secretary will perform a review of such correspondence to ensure that communications forwarded to the Board or the Chairman preserve the integrity of the process. For example, items that are unrelated to the duties and responsibilities of the Board or the Chairman such as spam, junk mail and mass mailings, product complaints, personal employee complaints, product inquiries, new product suggestions, resumes and other forms of job inquiries, surveys, business solicitations or advertisements (the "Unrelated Items") will not be forwarded. In addition, material that is unduly hostile, threatening, illegal or similarly unsuitable will not be forwarded. Any communication that is relevant to the conduct of the Company's business and is not forwarded will be retained for one year (other than Unrelated Items) and made available to the Chairman and any other independent director on request. The independent directors grant the Corporate Secretary discretion to decide what correspondence shall be shared with the Company's management and specifically instruct that any personal employee complaints be forwarded to the Company's Human Resources Department.

Board Role in Risk Oversight

The Board's duties include understanding and assessing risks to the Company and monitoring the management of those risks. To fulfill this responsibility the directors are expected to attend all meetings and review materials in advance of the meetings. Each meeting includes a review of the activities of each board committee including the committee's activities related to risk management. Each of our board committees concentrates on specific risks for which they have an expertise and each committee is required to regularly report to the Board of Directors on its findings.

The Board believes that evaluating how the executive team manages the various risks confronting the Company is one of its most important areas of oversight. In carrying out this critical responsibility, the Board has designated the Audit Committee with primary responsibility for overseeing enterprise risk management. While the Audit Committee has primary responsibility for overseeing enterprise risk management, each of the other Board committees also considers risk within its area of responsibility. For example, the Corporate Governance Committee reviews risks related to legal and regulatory compliance as they relate to corporate governance structure and processes, and reviews risks related to compensation matters. The Board is apprised by the committee chairs of significant risks and management's response to those risks via periodic reports. While the Board and its committees oversee risk management strategy, management is responsible for implementing and supervising day-to-day risk management processes and reporting to the Board and its committees on such matters.

Furthermore, because the banking industry is highly regulated, certain risks to the Company are monitored by the Board through its review of the Company's compliance with regulations set forth by its regulatory authorities, including the FDIC and recommendations contained in regulatory examinations.

With respect to risk related to compensation matters, the Corporate Governance Committee considers, in establishing and reviewing the Company's executive compensation program, whether the program encourages unnecessary or excessive risk taking and has concluded that it does not. Executives' base salaries are fixed in amount and thus do not encourage risk-taking. During 2014, the Company established a non-equity incentive plan (the NEI) for its officer level employees. Under the NEI, an allocation of 50% of pretax income in excess of budgeted pretax income is payable to eligible employees up to a maximum of \$500,000 for all eligible employees, exclusive of the CEO. The CEO's allocation is based on 10% of pretax income in excess of budgeted pretax income up to a maximum of \$100,000. For 2014, the entire \$600,000 was earned. No individual officer's earnings under the NEI exceeded \$20,000 with the exception of Mr. Ryback who earned an incentive of \$100,000. The Corporate Governance Committee concluded that the NEI as described above did not encourage unnecessary or excessive risk taking. The other significant source of compensation to executives is in the form of long-term equity awards that are important to help further align executives' interests with those of the Company's shareholders. The Corporate Governance Committee believes that these awards do not encourage unnecessary or excessive risk-taking since the ultimate value of the awards is tied to the Company's stock price, and awards are subject to long-term vesting schedules to help ensure that executives have significant value tied to long-term stock price performance.

The Corporate Governance Committee has also reviewed the Company's compensation programs for employees generally and has concluded that these programs do not create risks that are reasonably likely to have a material adverse effect on the Company. The Corporate Governance Committee believes that the design of the Company's annual cash and long-term equity incentives provides an effective and appropriate mix of incentives to help ensure the Company's performance is focused on long-term shareholder value creation and does not encourage the taking of short-term risks at the expense of long-term results.

Leadership Structure of Board

The Board believes that the Company and its shareholders are best served by having an independent Board Chairman and a separate CEO. We separate these roles in recognition of the differences between the two roles. The CEO is responsible for day-to-day leadership and performance of the Company, while the Chairman of the Board provides strategic guidance to the CEO and presides over meetings of the full Board.

Code of Ethics

The Board of Directors has adopted a code of business conduct and ethics for directors, officers (including the Company's principal executive officer and principal financial officer) and financial personnel, known as the Corporate Governance Code of Ethics. This Code of Ethics Policy is available on the Company's website at www.plumasbank.com. Shareholders may request a free copy of the Code of Ethics Policy from Plumas Bancorp, Ms. Elizabeth Kuipers, Investor Relations, 35 S. Lindan Avenue, Quincy, California 95971. Additionally, a copy of the Company's Corporate Governance Code of Ethics can be accessed at <http://www.plumasbank.com>. Click on the "Investor Relations tab" and then Governance Documents.

Director Independence

The Board has determined that each of the following non-employee directors are "independent" within the meaning of the listing standards and rules of NASDAQ.

Daniel E. West

Alvin G. Blickenstaff

Steven M. Coldani

John Flournoy

Robert J. McClintock

Terrance J. Reeson

Gerald W. Fletcher

Arthur C. Grohs

Audit Committee

The Company has an Audit Committee composed of Mr. McClintock, Chairman and Messrs. Flournoy, Grohs and Reeson. The Board has determined that each member of the Audit Committee meets the independence and experience requirements of the listing standards of NASDAQ and the SEC. The Board has also determined that Mr. Robert J. McClintock is qualified as an audit committee financial expert and that he has accounting or related financial management expertise, in each case in accordance with the rules of the SEC and NASDAQ's listing standards.

The Audit Committee met 7 times during 2014. The Audit Committee reviews all internal and external audits including the audit by Vavrinek, Trine, Day & Company, LLP, the Company's independent auditor for 2014. The Audit Committee reports any significant findings of audits to the Board of Directors, and ensures that the Company's internal audit plans are met, programs are carried out, and deficiencies and weaknesses, if any, are addressed. The Audit Committee meets regularly to discuss and review the overall audit plan. The Audit Committee's policy is to pre-approve all recurring audit and non-audit services provided by the independent auditors through the use of engagement letters. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to particular service or category of services and is generally subject to a specific budget. The independent auditors and management are required to periodically report to the Audit Committee regarding all services provided by the independent auditors and fees associated with those services performed to date. The fees paid to the independent auditors in 2014 and 2013 were approved per the Audit Committee's pre-approval policies.

Audit Committee Report

This report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under the Acts.

The Board of Directors and the Audit Committee has reviewed the Company's audited financial statements and discussed such statements with management. The Audit Committee has discussed with Vavrinek, Trine, Day & Company, LLP, the Company's independent auditors during the year 2014, all communications required by standards of the Public Company Accounting Oversight Board, including the matters required to be discussed by Auditing Standard No. 16, Communications with Audit Committees, and Rule 2-07, Communication with Audit Committees, of Regulation S-X, and, with and without management present, discussed and reviewed the results of the independent external audit firm's examination of the financial statements. The Committee also discussed the results of internal audits.

The Audit Committee has also received the written disclosures and the letter from Vavrinek, Trine, Day & Company, LLP as required by the PCAOB's Ethics and Independence Rule 3526 (Communication with Audit Committees Concerning Independence) and has discussed with the independent registered public accounting firm their independence.

Based on the review and discussions noted above, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, for filing with the SEC.

THE AUDIT COMMITTEE:

Robert J. McClintock, Chairman
Arthur C. Grohs

John Flournoy
Terrance J. Reeson

Corporate Governance Committee

The Company has a Corporate Governance Committee which met 5 times during 2014. The Corporate Governance Committee consists of Mr. Flournoy, Chairman, and Messrs. Coldani, Grohs, Reeson and West. The Board has determined that Messrs. Flournoy, Coldani Grohs, Reeson and West are "independent" within the meaning of the listing standards and rules of NASDAQ. The Corporate Governance Committee, which functions as the Board's nominating and compensation committees, provides assistance to the Board by identifying qualified individuals as prospective Board members, recommends to the Board the director nominees for election at the annual meeting of shareholders, nominates the Chairperson and Vice-Chairperson of the Board, oversees the annual review and evaluation of the performance of the Board and its committees, and develops and recommends corporate governance guidelines to the Board of Directors.

The Corporate Governance Committee also at least annually reviews, adjusts (as necessary), and approves the Company's directors' compensation, including cash, equity or other compensation for service on the Board, any committee of the Board and as Chairperson of the Board or any committee of the Board, at least annually reviews, adjusts (as necessary) and approves the Chief Executive Officer's compensation, provides advice and consents to the Chief Executive Officer in the review and adjustment of executive officer compensation (other than the Chief Executive Officer), approves the compensation strategy for the Company's employees, reviews and recommends for approval by the Board all equity-based compensation, including stock options and stock grants and approves other personnel matters, which are in excess of management's authority.

The Corporate Governance Committee has the authority, to the extent it deems necessary, to retain and terminate an outside compensation consultant to assist in the evaluation of director and executive officer compensation and benefit matters. During the year ending December 31, 2014 the Corporate Governance Committee did not engage an outside compensation consultant.

The Corporate Governance Committee does not have any written specific minimum qualifications or skills that the committee believes must be met by either a committee-recommended or a shareholder-recommended candidate in order to serve on the Board. The Corporate Governance Committee identifies nominees by first evaluating the current members of the Board willing to continue in service. Current members of the Board with skills and experience that are relevant to the Company's business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the Board with that of obtaining a new perspective. If any member of the Board does not wish to continue in service or if the Corporate Governance Committee or the Board decided not to re-nominate a member for re-election, the Corporate Governance Committee identifies the desired skills and experience of a new nominee in light of the following criteria. While no specific diversity policy exists, when identifying and evaluating new directors, the Corporate Governance Committee considers the diversity and mix of the existing members of the Board, including, but not limited to, such factors as: the age of the current directors, their geographic location (being a community bank, there is a strong preference for local directors), background, skills and employment experience. Among other things, when examining a specific candidate's qualifications, the Corporate Governance Committee considers the candidate's: ability to represent the best interest of the Company; existing relationships with the Company; interest in the affairs of the Company and its purpose; ability to fulfill director responsibilities; leadership skills; reputation within the Company's community; community service; integrity; business judgment; ability to develop business for the Company; and ability to work as a member of a team. The Committee does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective nominees. Nominees are not discriminated against on the basis of race, religion, national origin, sexual orientation, disability or any other basis proscribed by law. All nominees to be considered at the Meeting were recommended by the Corporate Governance Committee.

The Corporate Governance Committee will consider nominees to the Board proposed by shareholders, although the Board has no formal policy with regard to shareholder nominees as it considers all nominees on their merits as aforementioned. Any shareholder nominations proposed for consideration by the Board may only be made by complying with the procedures which are included in this proxy statement and should be addressed to:

President
Plumas Bancorp
35 S. Lindan Avenue
Quincy, CA 95971

Executive Officers

The following table sets forth information concerning executive officers of the Company and Plumas Bank:

<u>Name</u>	<u>Age</u>	<u>Position and Principal Occupation for the Past Five Years</u>
Andrew J. Ryback	49	President and Chief Executive Officer of the Company and Plumas Bank since November 16, 2011. Interim President and Chief Executive Officer of the Company and Plumas Bank effective March 29, 2010.
Richard L. Belstock	58	Executive Vice President of the Company and Plumas Bank since July 18, 2012. Chief Financial Officer of the Company and Plumas Bank since November 16, 2011. Interim Chief Financial Officer of the Company and Plumas Bank effective March 31, 2010.
Monetta R. Dembosz	64	Executive Vice President and Operations Manager of Plumas Bank.
BJ North	64	Executive Vice President of Retail Banking, Marketing and Commercial Lending of Plumas Bank.
Kerry D. Wilson	58	Executive Vice President and Chief Credit Officer of Plumas Bank since July 18, 2012. Chief Credit Administrator of Plumas Bank since February, 2012. Previously Senior Vice President and Assistant Loan Administrator of Plumas Bank.

Executive Compensation

Summary Compensation Table

Name and Principal Position	Year	Salary	Bonus	Stock Awards (1)	Option Awards (2)	Non-Equity Incentive Plan Compensation	Nonqualified Deferred Compensation Earnings	All Other Compensation (3)	Total
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)	(j)
Andrew J. Ryback President and CEO of the Company and Plumas Bank	2014	\$210,000	\$0	\$0	\$ 43,452	\$ 100,000	\$ 0	\$ 6,456	\$359,908
	2013	\$200,000	\$0	\$0	\$ 0	\$ 0	\$ 0	\$ 7,018	\$207,018
Richard L. Belstock EVP and CFO of the Company and Plumas Bank	2014	\$145,000	\$0	\$0	\$ 28,968	\$ 19,600	\$ 0	\$ 2,172	\$195,740

	2013	\$135,000	\$0	\$0	\$ 0	\$ 8,600	\$ 0	\$ 4,129	\$147,729

- (1) The Company did not grant any stock awards in 2014 or 2013.
- (2) The amounts in column (f) reflect the aggregate grant date fair value computed in accordance with FASB ASC Topic 718. Assumptions used in the calculation of these amounts are included in footnote 3 to the Company's audited financial statements for the fiscal year ended December 31, 2014 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 19, 2015. No stock options were granted in 2013.
- (3) The amounts in column (i) include premiums paid and accrued on life insurance policies, personal use of a Company automobile, Company-provided gasoline and cell phone allowance.

Non-Equity Incentive Plan

During 2014, the Company established a non-equity incentive plan (the “2014 NEI”) for its officer level employees. Under the 2014 NEI, an allocation of 50% of pretax income in excess of budgeted pretax income is payable to eligible employees up to a maximum of \$500,000 for all eligible employees, exclusive of the CEO. The CEO’s allocation is based on 10% of pretax income in excess of budgeted pretax income up to a maximum of \$100,000. For 2014, the entire \$600,000 was earned. No individual officer’s earnings under the 2014 NEI exceeded \$20,000 with the exception of Mr. Ryback who earned an incentive of \$100,000. A total of forty employees received a bonus payment under the 2014 NEI. These payments were made during the first quarter of 2015. The Company’s 2015 NEI is expected to be similar to the 2014 NEI.

Under the Company’s 2013 NEI an allocation of 50% of pretax income in excess of budgeted pretax income was payable to eligible employees up to a maximum of \$250,000 for all eligible employees. For 2013 the entire \$250,000 was earned. No individual officer’s earnings under the 2013 NEI exceeded \$10,000. Mr. Ryback was not included in the 2013 NEI as during most of 2013 we were subject to restrictions on paying incentives to our CEO under the Troubled Asset Relief Capital Purchase Program.

Stock Option Awards

We consider equity compensation in the form of annual stock option awards an important component of our total compensation package because it helps align the interests of our executives to those of our shareholders and provides a significant retention benefit. During 2013 the Company’s shareholders approved the Plumas Bancorp 2013 Stock Option Plan (2013 Plan) which allows for the granting of stock option awards to employees. The 2013 Plan is for a term of 10 years. No more than 500,000 shares of common stock may be issued pursuant to Awards of stock options. The Corporate Governance Committee approves and recommends to the Board for its approval all stock option grants.

On April 28, 2014 the Company granted 110,400 stock options under the 2013 plan with an exercise price of \$6.32 per share. These options have a four year vesting period and expire eight (8) years from the date of grant. There were no stock options granted during the year ended December 31, 2013. The Company makes grants of equity-based compensation only at fair market value of our stock at the time of grant. The exercise price of stock options is set at the closing stock price on the date of grant. All option grants have a maximum vesting period of five (5) years and expire no more than ten (10) years from the date of grant.

The Company incorporates the officer’s position level in the determination of the total value of the equity-based compensation to be included in the officer’s total compensation. The higher the officer’s level, the more options that may be granted to the officer. Additional options may be granted to an individual based on outstanding achievement. This is consistent with the Company’s philosophy of rewarding those officers who have the most impact on our performance.

Post-Employment Benefits and Potential Payments Upon Termination Or Change of Control

We consider providing significant post-employment benefits in the form of providing salary continuation benefits to our executives as an important part of their total executive compensation to reward them for their service and loyalty to the Company. The Company has entered into salary continuation agreements with Mr. Ryback and Ms. Dembosz. The purpose of the salary continuation agreements is to provide special incentive to the experienced executive officer to continue employment with the Company on a long-term basis. The agreements provide the executive with salary continuation benefits of up to \$62,000 per year for 15 years after retirement at age 65. In the event of death prior to retirement, the executive’s beneficiary will receive salary continuation benefits at a reduced amount depending on the length of service with the Company or in the case of Mr. Ryback his beneficiary is entitled to a portion of the death benefits pursuant to a split dollar agreement. In the event of disability

wherein the executive does not continue employment with the Company, the executive is entitled to salary continuation benefits, at a reduced amount depending on the length of service with the Company, beginning at age 65 or on the date on which he is no longer entitled to disability benefits under the Company's group disability insurance, whichever is earlier. If the executive terminates employment with the Company for a reason other than death or disability prior to the retirement age of 65, such person will be entitled to salary continuation benefits at a reduced amount depending on the length of service with the Company. The vesting of salary continuation benefits for Mr. Ryback occurs at a rate that provides for a 90% vesting at age 60 and 2% per year for the next five years of service, for a total vesting of 100%. Ms. Dembosz's salary continuation benefits were approximately 32% vested at age 60. Between age 60 and 65 her vesting will increase at an annual rate of between 13% and 15% per year and she will become fully vested at age 65.

In the event of a change of control of the Company and the executive terminates employment with the Company or its successor within a period of 24 months after such change in control, then the executive may elect full vesting of his salary continuation payments and the payment of the salary continuation benefits beginning with the month following the month of termination, subject to the reduction of benefits if the benefits result in a limitation of deductibility of such benefits for the Company under Section 280G of the Internal Revenue Code. The salary continuation benefits are informally funded by single premium life insurance policies with the executive as the insured parties and the Company as the beneficiary of the policies.

The Company has entered into a split dollar agreement with Mr. Ryback. The purpose of the split dollar agreement is to provide special incentive to Mr. Ryback to continue employment with the Company on a long-term basis. To accomplish this, the Company agrees to divide the net death proceeds of life insurance policies on Mr. Ryback's life with Mr. Ryback's beneficiary. However, Mr. Ryback's rights or interests in the split dollar policies no longer exist once he ceases to be employed by the Company for any reason whatsoever prior to normal retirement age provided that he has received or had the opportunity to receive any benefit under his executive salary continuation agreement.

The Company has agreed to pay the taxes on the imputed income on the life insurance benefit provided to Mr. Ryback under the split dollar agreement.

Perquisites

We offer a qualified 401(k) plan in which the named executive officers participate on the same terms as all other employees. On April 1, 2010 we discontinued the Company's matching contribution but reinstated it at a reduced rate beginning January 1, 2015. In addition we offer medical, dental and vision plans under the same terms to all employees. Other perquisites and benefits, which do not represent a significant portion of the named executive's total compensation, include for Mr. Ryback a Company provided automobile, maintenance on the automobile and the payment of his portion of the split dollar insurance premium. Mr. Ryback, Mr. Belstock and Ms. Dembosz also receive a monthly allowance to cover the business portion of their cellular phone use and are provided with gasoline for the business use of their automobiles. These plans, and the contributions we make to them, provide an additional benefit to attract and retain executive officers of the Company.

- (1) Options were granted 4/28/2014, have an eight year life and vest 25% per year beginning 4/28/2015
- (2) Options were granted 3/1/2007, have an eight year life and vest 25% per year beginning 3/01/2008
- (3) Options were granted 2/20/2008, have an eight year life and vest 25% per year beginning 2/20/2009
- (4) Options were granted 3/16/2011, have an eight year life and vest 25% per year beginning 3/16/2012
- (5) Options were granted 9/20/2006, have a ten year life and vest 20% per year beginning 9/20/2007

Compensation of Directors

Director Compensation: During 2014 Directors, except the Chairman, each received \$2,100 per month for serving on the Company's and Plumas Bank's Board of Directors. The Chairman received \$2,650 per month.

Non-Qualified Stock Options: On April 28, 2014, the Company granted to each of its directors 3,200 in non-qualified stock options with an exercise price of \$6.23 per share. The options vest 25% per year beginning on April 28, 2015 and have an eight year life. The Company makes grants of non-qualified stock options only at fair market value of our stock at the time of grant. All option grants have a maximum vesting period of five (5) years and expire no more than ten (10) years from the date of grant. Upon a change in control, all stock options held by directors may vest and become exercisable.

Director Retirement Agreement: The Company has entered into Director Retirement (fee continuation) Agreements with its Directors excluding Mr. Elliott and Mr. Coldani. Mr. Elliott retired as President and Chief Executive Officer of the Company during 2005 and is currently receiving benefits under his executive salary continuation agreement. The purpose of the fee continuation agreements is to provide a retirement benefit to the Board members as an incentive to continue informal service with the Company. The agreements provide for fee continuation benefits of up to \$10,000 per year with a term of 12 years after retirement with the exception that Board members Flournoy and McClintock's agreements have a term of 15 years. In the event of death prior to retirement, the beneficiary will receive full fee continuation benefits, with the exception of Messrs. Flournoy and McClintock's beneficiaries who would

be entitled to receive a lump sum payment of \$30,000. In the event of disability wherein the director does not continue service with the Company, the director is entitled to fee continuation benefits, at a reduced amount depending on the length of service with the Company, beginning the month following termination of service. The agreements, with the exception of Messrs. Flournoy and McClintock's agreements, allow for a Hardship Distribution under specified circumstances. Hardship Distributions are limited to the amount the Company had accrued under the terms of the agreement as of the day the director petitioned the Board to receive a Hardship Distribution. Upon a change in control, the director is eligible to receive the full fee continuation benefits upon the director's termination of service. The fee continuation benefits, with the exception of Mr. McClintock's benefits, are informally funded by single premium life insurance policies. The directors are the insured parties and the Company is the beneficiary of the respective policies.

Post-Retirement Consulting Agreement: The Company has entered into Post-Retirement Consulting Agreements with its non-employee Directors with the exception of Messrs. Flournoy, Elliott, McClintock and Coldani. The purpose of the Agreements is to provide consideration to the Board members in exchange for consulting services after their retirement from the Board. The Agreements provide for consulting fees of \$10,000 per year for 3 years after retirement. In the event of death prior to completion of the consulting services, the beneficiary will receive death benefits equal to the remaining unpaid consulting fee benefits. In the event of disability wherein the retired director is unable to continue consulting services with the Company, the Company may terminate the director's post-retirement consulting services. If the retired director voluntarily terminates his or her consulting services for other than good reason or if the Company terminates the director's post-retirement consulting services for cause, the Post-Retirement Consulting Agreement shall terminate.

The table below summarizes the compensation paid by the Company to non-employee Directors for the fiscal year ended December 31, 2014.

Director Compensation Table

- (1) The Company did not grant any stock awards in 2014.
- (2) The amounts in column (f) reflect the aggregate grant date fair value computed in accordance with FASB ASC Topic 718. Assumptions used in the calculation of these amounts are included in footnote 3 to the Company's audited financial statements for the fiscal year ended December 31, 2014 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 19, 2015.

PROPOSAL 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

At the Meeting, shareholders will be asked to ratify the appointment of Vavrinek, Trine, Day & Company, LLP as the Company's independent auditors for the fiscal year ending December 31, 2015. The firm of Vavrinek, Trine, Day & Company, LLP served as independent registered public accounting firm for the audit of the Company's consolidated financial statements as of and for the year ended December 31, 2014. We have been advised by Vavrinek, Trine, Day & Company, LLP and by the directors themselves that neither it nor any of its members or associates has any relationship with us or our subsidiaries, other than as independent auditors.

Proposal 2 is nonbinding. If the appointment is not ratified, our Audit Committee will consider whether to appoint another independent registered public accounting firm in its discretion. If the appointment is ratified, our Audit Committee in its discretion may appoint a different independent registered public accounting firm at any time if it determines that such a change would be advisable.

Representatives of Vavrinek, Trine, Day & Company, LLP will be present at the Meeting, will have an opportunity to make any statement that they may desire to make, and will be available to answer appropriate questions from shareholders.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF THE APPOINTMENT OF VAVRINEK, TRINE, DAY & COMPANY, LLP AS INDEPENDENT AUDITORS OF THE COMPANY FOR THE FISCAL YEAR ENDING DECEMBER 31, 2015.

Change in Independent Auditors:

On December 19, 2013, the Company notified Crowe Horwath LLP that it will be dismissed as the Company's independent registered public accounting firm upon the completion of its audit of the Company's consolidated financial statements as of and for the year ending December 31, 2013. The decision to dismiss Crowe Horwath LLP was approved by the Company's Audit Committee. The audit report of Crowe Horwath LLP on the consolidated financial statements of the Company for the years ended December 31, 2013, December 31, 2012 and December 31, 2011 did not contain an adverse opinion or a disclaimer of opinion, and was not qualified or modified as to uncertainty, audit scope or accounting principles. During the years ended December 31, 2012 and December 31, 2011 and the subsequent interim period through December 19, 2013 there were: (1) no disagreements between the Company and Crowe Horwath LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of Crowe Horwath LLP would have caused them to make reference thereto in their reports on the Company's financial statements for such years, and (2) no reportable events within the meaning set forth in Item 304(a)(1)(v) of the SEC's Regulation S-K. The Company has provided Crowe Horwath LLP with a copy of the preceding statements and requested Crowe Horwath LLP to furnish it with a letter addressed to the SEC stating whether or not it agrees with the statements. A copy Crowe Horwath LLP's letter was included as an exhibit to the Company's Form 8-K filed with the SEC on December 23, 2013.

During the years ended December 31, 2012 and December 31, 2011, and the subsequent interim period through December 19, 2013 the Company did not consult Vavrinek, Trine, Day & Company, LLP regarding: (1) the application of accounting principles to a specified transaction, either completed or proposed; (2) the type of audit opinion that might be rendered on the Company's financial statements, and Vavrinek, Trine, Day & Company, LLP did not provide any written report or oral advice that Vavrinek, Trine, Day & Company, LLP concluded was an important factor considered by the Company in reaching a decision as to any such accounting, auditing or financial reporting issue; or (3) any matter that was either the subject of a disagreement or a reportable event.

Fees Paid to Independent Auditors:

Aggregate fees billed by Vavrinek, Trine, Day & Company, LLP (2014) and Crowe Horwath LLP (2013) to the Company and Plumas Bank and the percentage of those fees that were pre-approved by the Company's Audit Committee for the years ended 2014 and 2013 are as follows:

	Percentage Pre-		Percentage Pre-	
	2014	Approved	2013	Approved
Audit fees	\$ 100,000	100%	\$ 215,000	100 %
Audit-related fees	15,000	100%	19,000	100 %
Tax fees	15,000	100%	19,000	100 %
Total fees	<u>\$ 130,000</u>	<u>100%</u>	<u>\$ 253,000</u>	<u>100 %</u>

The Audit Committee of the Bancorp has considered the provision of non-audit services provided by Vavrinek, Trine, Day & Company, LLP and Crowe Horwath LLP to be compatible with maintaining the independence of Vavrinek, Trine, Day & Company, LLP and Crowe Horwath LLP.

Shareholder Proposals

In order for a shareholder proposal to be considered for inclusion in the Company's proxy statement for next year's annual meeting, the written proposal must be received by the Company no later than December 10, 2015 and should contain such information as is required under the Company's Bylaws. Such proposals will need to comply with the SEC's regulations regarding the inclusion of shareholder proposals in the Company's proxy materials.

Nomination of Director Candidates: The Company's Bylaws permit shareholders to nominate directors at a shareholder meeting. In order to make a director nomination at an annual shareholder meeting, it is necessary that you notify the Company not less than 120 days before the first anniversary of the date that the proxy statement for the preceding year's annual meeting was first sent to shareholders. The Company's 2015 proxy statement was first sent to stockholders on April 8, 2015. Thus, in order for any such nomination notice to be timely for next year's annual meeting, it must be received by the Company not later than December 10, 2015. In addition, the notice must meet all other requirements contained in the Company's Bylaws and include any other information required pursuant to Regulation 14A under the Exchange Act.

Copy of Bylaw Provisions: You may contact the Investor Relations Officer, Ms. Elizabeth Kuipers, at the Company for a copy of the relevant Bylaw provisions regarding the requirements for making shareholder proposals and nominating director candidates. Additionally, a copy of the Company's Bylaws can be accessed at <http://www.plumasbank.com>. Click on the "Investor Relations tab" and then Governance Documents.

Certain Transactions

Some of the directors and executive officers of the Company and their immediate families, as well as the companies with which they are associated, are customers of, or have had banking transactions with, the Company in the ordinary course of the Company's business, and the Company expects to have banking transactions with such persons in the future. In management's opinion, all loans and commitments to lend in such transactions were made in compliance with applicable laws and on substantially the same terms, including interest rates and collateral, as those prevailing for comparable transactions with other persons of similar creditworthiness and, in the opinion of management, did not involve more than a normal risk of collectibility or present other unfavorable features.

Other Matters

Management does not know of any matters to be presented at the Meeting other than those set forth above. However, if other matters come before the Meeting, it is the intention of the persons named in the accompanying proxy to vote the shares represented by the proxy in accordance with the recommendations of management on such matters, and discretionary authority to do so is included in the proxy.

Available Information

The Company's common stock is registered under the Securities Exchange Act of 1934 and as a result the Company is required to file annual reports, quarterly reports and other periodic filings with the SEC and are posted and are available at no cost on the Company's website, www.plumasbank.com, as soon as reasonably practicable after the Company files such documents with the SEC. These reports and filings are also available for inspection and/or printing at no cost through the SEC website, www.sec.gov. In addition, regulatory report data for both the Company and Plumas Bank are available for inspection and/or printing at no cost through the Federal Financial Institutions Examination Council's (the "FFIEC") website, www.ffiec.gov and the Federal Deposit Insurance Corporation's (the "FDIC") website, www.fdic.gov, respectively.

You may request an additional copy of the proxy statement, 10-K, 2014 annual report to shareholders, and form of proxy as to this Meeting or all future shareholder meetings by calling us at 1.888.375.8627, by writing to us at Plumas Bancorp, 35 S. Lindan Avenue, Quincy, California 95971, Attn: Ms. Elizabeth Kuipers, Vice President and Investor Relations Officer, or by email at investorrelations@plumasbank.com.

Forward-Looking Information

This Annual Report on Form 10-K includes forward-looking statements and information is subject to the “safe harbor” provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements (which involve Plumas Bancorp’s (the “Company’s”) plans, beliefs and goals, refer to estimates or use similar terms) involve certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, but are not limited to, the following factors:

- *Local, regional, national and international economic conditions and the impact they may have on us and our customers, and our assessment of that impact on our estimates including, but not limited to, the allowance for loan losses.*
- *The effects of and changes in trade, monetary and fiscal policies and laws, including the interest rate policies of the Federal Open Market Committee of the Federal Reserve Board.*
- *The ability to receive regulatory approval for the Bank to declare and pay dividends to the Company.*
- *Changes imposed by regulatory agencies to increase our capital to a level greater than the current level required for well-capitalized financial institutions (including the impact of the recent joint rule proposals by the Federal Reserve Board, Office of the Comptroller of the Currency, and the FDIC to revise the regulatory capital rules, including the implementation of the Basel III standards), the failure to maintain capital above the level required to be well-capitalized under the regulatory capital adequacy guidelines, the availability of capital from private or government sources, or the failure to raise additional capital as needed.*
- *The effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standard setters.*
- *The costs and effects of changes in laws and regulations and of other legal and regulatory developments, including, but not limited to, increases in FDIC insurance premiums, the resolution of legal proceedings or regulatory or other governmental inquiries, and the results of regulatory examinations, reviews or other inquires.*
- *Changes in the interest rate environment and volatility of rate sensitive assets and liabilities.*
- *Declines in the health of the economy, nationally or regionally, which could reduce the demand for loans, reduce the ability of borrowers to repay loans and/or reduce the value of real estate collateral securing most of the Company’s loans.*
- *Credit quality deterioration, which could cause an increase in the provision for loan and lease losses.*
- *Devaluation of fixed income securities.*
- *Asset/liability matching risks and liquidity risks.*
- *Loss of key personnel.*
- *Operational interruptions including data processing systems failure and fraud.*
- *Our success at managing the risks involved in the foregoing items.*

The Company undertakes no obligation to revise or publicly release the results of any revision to these forward-looking statements.

ITEM 1. BUSINESS

General

The Company. Plumas Bancorp (the “Company”) is a California corporation registered as a bank holding company under the *Bank Holding Company Act* of 1956, as amended, and is headquartered in Quincy, California. The Company was incorporated in January 2002 and acquired all of the outstanding shares of Plumas Bank (the “Bank”) in June 2002. The Company’s principal subsidiary is the Bank, and the Company exists primarily for the purpose of holding the stock of the Bank and of such other subsidiaries it may acquire or establish. At the present time, the Company’s only other subsidiaries are Plumas Statutory Trust I and Plumas Statutory Trust II, which were formed in 2002 and 2005 solely to facilitate the issuance of trust preferred securities.

The Company’s principal source of income is dividends from the Bank, but the Company may explore supplemental sources of income in the future. The cash outlays of the Company, including (but not limited to) the payment of dividends to shareholders, if and when declared by the Board of Directors, costs of repurchasing Company common stock, the cost of servicing debt and preferred stock dividends, will generally be paid from dividends paid to the Company by the Bank.

At December 31, 2014, the Company had consolidated assets of \$539 million, deposits of \$468 million, other liabilities of \$35 million and shareholders’ equity of \$36 million. The Company’s other liabilities include \$10.3 million in junior subordinated deferrable interest debentures, \$7.5 million in subordinated debentures and a \$1.0 million note payable. These items are described in detail later in this section.

References herein to the “Company,” “we,” “us” and “our” refer to Plumas Bancorp and its consolidated subsidiary, unless the context indicates otherwise. Our operations are conducted at 35 South Lindan Avenue, Quincy, California. Our annual, quarterly and other reports, required under the Securities Exchange Act of 1934 and filed with the Securities and Exchange Commission, (the “SEC”) are posted and are available at no cost on the Company’s website, www.plumasbank.com, as soon as reasonably practicable after the Company files such documents with the SEC. These reports are also available through the SEC’s website at www.sec.gov.

The Bank. The Bank is a California state-chartered bank that was incorporated in July 1980 and opened for business in December 1980. The Bank is not a member of the Federal Reserve System. The Bank’s Administrative Office is located at 35 South Lindan Avenue, Quincy, California. At December 31, 2014 the Bank had approximately \$538 million in assets, \$367 million in net loans and \$469 million in deposits (including deposits of \$0.6 million from the Bancorp). It is currently the largest independent bank headquartered in Plumas County. The Bank’s deposit accounts are insured by the Federal Deposit Insurance Corporation (the “FDIC”) up to maximum insurable amounts.

The Bank’s primary service area covers the Northeastern portion of California, with Lake Tahoe to the South and the Oregon border to the North. The Bank, through its eleven branch network, serves the seven contiguous California counties of Plumas, Nevada, Sierra, Placer, Lassen, Modoc and Shasta. The branches are located in the communities of Quincy, Portola, Greenville, Truckee, Fall River Mills, Alturas, Susanville, Chester, Tahoe City, Kings Beach and Redding. The Bank maintains fifteen automated teller machines (“ATMs”) tied in with major statewide and national networks. In addition to its branch network, the Bank operates lending offices specializing in government-guaranteed lending in Auburn, California and Beaverton, Oregon, a commercial/agricultural lending office located in Chico, California, and a commercial loan office located in Reno, Nevada. The Bank’s primary business is servicing the banking needs of these communities. Its marketing strategy stresses its local ownership and commitment to serve the banking needs of individuals living and working in the Bank’s primary service areas.

With a predominant focus on personal service, the Bank has positioned itself as a multi-community independent bank serving the financial needs of individuals and businesses within the Bank’s geographic footprint. Our principal retail lending services include consumer, automobile and home equity loans. Our principal commercial lending

services include term real estate, commercial and industrial term loans. In addition, we provide government-guaranteed and agricultural loans as well as credit lines. We provide land development and construction loans on a limited basis.

The Bank's Government-guaranteed lending center, headquartered in Auburn, California with additional personnel in Truckee, California and Beaverton, Oregon (serving the Portland Oregon metropolitan area) provides Small Business Administration and USDA Rural Development loans to qualified borrowers throughout Northern California, Oregon and Northern Nevada. During 2007 the Bank was granted nationwide Preferred Lender status with the U.S. Small Business Administration and we expect government-guaranteed lending to continue to be an important part of our overall lending operation. During 2014 proceeds from the sale of government-guaranteed loans totaled \$21.6 million and we generated a gain on sale of \$1.4 million. In 2013 proceeds from the sale of government guaranteed loans totaled \$21.7 million and we generated a gain on sale of \$1.4 million.

The Agricultural Credit Centers located in Susanville, Chico and Alturas provide a complete line of credit services in support of the agricultural activities which are key to the continued economic development of the communities we serve. "Ag lending" clients include a full range of individual farming customers, small- to medium-sized business farming organizations and corporate farming units.

As of December 31, 2014, the principal areas to which we directed our lending activities, and the percentage of our total loan portfolio comprised by each, were as follows: (i) commercial real estate – 44.1%; (ii) commercial and industrial loans – 8.5%; (iii) consumer loans (including residential equity lines of credit and automobile loans) – 23.4%; (iv) agricultural loans (including agricultural real estate loans) – 9.5%; (v) residential real estate – 7.9%; and (vi) construction and land development – 6.6% .

In addition to the lending activities noted above, we offer a wide range of deposit products for the retail and commercial banking markets including checking, interest-bearing checking, business sweep, public funds sweep, savings, time deposit and retirement accounts, as well as remote deposit, telephone and mobile banking and internet banking with bill-pay options. Interest bearing deposits include high yield sweep accounts designed for our commercial customers and for public entities such as municipalities. In addition we offer a premium interest bearing checking account for our consumer customers. As of December 31, 2014, the Bank had 28,821 deposit accounts with balances totaling approximately \$469 million, compared to 29,072 deposit accounts with balances totaling approximately \$450 million at December 31, 2013. We attract deposits through our customer-oriented product mix, competitive pricing, convenient locations, extended hours, remote deposit operations and drive-up banking, all provided with a high level of customer service.

Most of our deposits are attracted from individuals, business-related sources and smaller municipal entities. This mix of deposit customers resulted in a relatively modest average deposit balance of approximately \$16.2 thousand at December 31, 2014. However, it makes us less vulnerable to adverse effects from the loss of depositors who may be seeking higher yields in other markets or who may otherwise draw down balances for cash needs.

We also offer a variety of other products and services to complement the lending and deposit services previously reviewed. These include cashier's checks, bank-by-mail, ATMs, night depository, safe deposit boxes, direct deposit, electronic funds transfers, on-line banking, remote deposit, mobile banking and other customary banking services.

Through our offering of a Remote Deposit product our customers are able to make non-cash deposits remotely from their physical location. With this product, we have extended our service area and can now meet the deposit needs of customers who may not be located within a convenient distance of one of our branch offices.

Additionally, the Bank has devoted a substantial amount of time and capital to the improvement of existing Bank services, during 2009 we replaced our on-line banking service with a new state of the art product that greatly expands the features available to our customers. In addition we utilized this platform to add mobile banking services during the first quarter of 2010. During 2010 Plumas Bank began offering a new Green Account which promotes protecting the environment, reducing clutter and making life simpler for the customer through technological advancements such as eStatements, online banking, and debit card usage. In 2011, we introduced a new product for our larger business customers which use repurchase agreements as an alternative to interest-bearing deposits. The balance in this product at December 31, 2014 was \$9.6 million. Interest paid on this product is similar to that which

can be earned on the Bank's premium money market account; however, these are not deposits and are not FDIC insured. During the first quarter of 2012 we replaced our ATMs with new state of the art machines that are capable of accepting check and cash deposits without a deposit envelope.

The officers and employees of the Bank are continually engaged in marketing activities, including the evaluation and development of new products and services, to enable the Bank to retain and improve its competitive position in its service area.

We hold no patents or licenses (other than licenses required by appropriate bank regulatory agencies or local governments), franchises, or concessions. Our business has a modest seasonal component due to the heavy agricultural and tourism orientation of some of the communities we serve. As our branches in less rural areas such as Truckee have expanded and with the opening of our Auburn commercial lending office, the agriculture-related base has become less significant. We are not dependent on a single customer or group of related customers for a material portion of our deposits, nor are a material portion of our loans concentrated within a single industry or group of related industries. There has been no material effect upon our capital expenditures, earnings, or competitive position as a result of federal, state, or local environmental regulation.

Commitment to our Communities. The Board of Directors and Management believe that the Company plays an important role in the economic well being of the communities it serves. Our Bank has a continuing responsibility to provide a wide range of lending and deposit services to both individuals and businesses. These services are tailored to meet the needs of the communities served by the Company and the Bank.

We offer various loan products which encourage job growth and support community economic development. Types of loans offered range from personal and commercial loans to real estate, construction, agricultural, automobile and government-guaranteed community infrastructure loans. Many banking decisions are made locally with the goal of maintaining customer satisfaction through the timely delivery of high quality products and services.

Capital Purchase Program - TARP - Preferred Stock and Stock Warrant. On January 30, 2009 the Company entered into a Letter Agreement (the "Purchase Agreement") with the United States Department of the Treasury ("Treasury"), pursuant to which the Company issued and sold (i) 11,949 shares of the Company's Fixed Rate Cumulative Perpetual Preferred Stock, Series A (the "Series A Preferred Stock") and (ii) a warrant (the "Warrant") to purchase 237,712 shares of the Company's common stock, no par value (the "Common Stock"), for an aggregate purchase price of \$11,949,000 in cash.

On April 11, 2013, the Treasury announced its intent to sell its investment in the Bancorp's Series A Preferred Stock along with similar investments the Treasury had made in seven other financial institutions, principally to qualified institutional buyers. Using a modified Dutch auction methodology that establishes a market price by allowing investors to submit bids at specified increments during the period of April 15, 2013 through April 18, 2013, the U.S. Treasury auctioned all of the Bancorp's 11,949 Series A Preferred Stock. The Bancorp sought and obtained regulatory permission to participate in the auction. The Bancorp successfully bid to repurchase 7,000 shares of the 11,949 outstanding shares. This repurchase resulted in a discount of approximately 7% on the face value of the Series A Preferred Stock plus related outstanding dividends. The remaining 4,949 shares were purchased at auction by third party private investors. On June 27, 2013 the Bancorp repurchased 1,566 shares of the Series A Preferred Stock at \$1,000 per share from certain of those third party private investors and on September 16, 2013 the Bancorp repurchased 250 shares at \$985 per share from another one of the third party investors leaving 3,133 shares outstanding as of September 30, 2013. On October 25, 2013, Plumas Bancorp repurchased the remaining 3,133 shares of the Series A Preferred Stock from a third party private investor for \$3,101,670 plus accrued dividends of \$30,453. This represents a discount of 1% from the liquidation value of the Preferred Stock. On May 22, 2013 the Bancorp repurchased the Warrant from the Treasury at a cost of \$234,500.

Trust Preferred Securities. During the third quarter of 2002, the Company formed a wholly owned Connecticut statutory business trust, Plumas Statutory Trust I (the "Trust I"). On September 26, 2002, the Company issued to the Trust I, Floating Rate Junior Subordinated Deferrable Interest Debentures due 2032 (the "Debentures") in the aggregate principal amount of \$6,186,000. In exchange for these debentures the Trust I paid the Company \$6,186,000. The Trust I funded its purchase of debentures by issuing \$6,000,000 in floating rate capital securities

("trust preferred securities"), which were sold to a third party. These trust preferred securities qualify as Tier I capital under current Federal Reserve Board guidelines. The Debentures are the only asset of the Trust I. The interest rate and terms on both instruments are substantially the same. The rate is based on the three-month LIBOR (London Interbank Offered Rate) plus 3.40%, not to exceed 11.9%, adjustable quarterly. The proceeds from the sale of the Debentures were primarily used by the Company to inject capital into the Bank.

During the third quarter of 2005, the Company formed a wholly owned Connecticut statutory business trust, Plumas Statutory Trust II (the "Trust II"). On September 28, 2005, the Company issued to the Trust II, Floating Rate Junior Subordinated Deferrable Interest Debentures due 2035 (the "Debentures") in the aggregate principal amount of \$4,124,000. In exchange for these debentures the Trust II paid the Company \$4,124,000. The Trust II funded its purchase of debentures by issuing \$4,000,000 in floating rate capital securities ("trust preferred securities"), which were sold to a third party. These trust preferred securities qualify as Tier I capital under current Federal Reserve Board guidelines. The Debentures are the only asset of the Trust II. The interest rate and terms on both instruments are substantially the same. The rate is based on the three-month LIBOR (London Interbank Offered Rate) plus 1.48%, adjustable quarterly. The proceeds from the sale of the Debentures were primarily used by the Company to inject capital into the Bank.

The Debentures and trust preferred securities accrue and pay distributions quarterly based on the floating rate described above on the stated liquidation value of \$1,000 per security. The Company has entered into contractual agreements which, taken collectively, fully and unconditionally guarantee payment of: (1) accrued and unpaid distributions required to be paid on the capital securities; (2) the redemption price with respect to any capital securities called for redemption by either Trust I or Trust II, and (3) payments due upon voluntary or involuntary dissolution, winding up, or liquidation of either Trust I or Trust II.

The trust preferred securities are mandatorily redeemable upon maturity of the Debentures on September 26, 2032 for Trust I and September 28, 2035 for Trust II, or upon earlier redemption as provided in the indenture.

Neither Trust I nor Trust II are consolidated into the Company's consolidated financial statements and, accordingly, both entities are accounted for under the equity method and the junior subordinated debentures are reflected as debt on the consolidated balance sheet.

Subordinated Debentures. On April 15, 2013 the Bancorp issued \$7.5 million in subordinated debentures ("subordinated debt"). The subordinated debt was issued to an unrelated third-party ("Lender") pursuant to a subordinated debenture purchase agreement, subordinated debenture note, and stock purchase warrant. The subordinated debt agreement provides that in the event of default with respect to the subordinated debt, the Bancorp will be subject to certain restrictions on the payment of dividends and distributions to shareholders, repurchase or redemption of the Bancorp's securities and payment on certain debts or guarantees. The subordinated debenture agreement also provides that in the event of default, Lender will have the right to appoint a director to the Bancorp's board of directors and/or the Plumas Bank board in certain limited circumstances.

The subordinated debt bears an interest rate of 7.5% per annum, has a term of 8 years with no prepayment allowed during the first two years and was made in conjunction with an eight-year warrant (the "Lender Warrant") to purchase up to 300,000 shares of the Bancorp's common stock, no par value at an exercise price, subject to anti-dilution adjustments, of \$5.25 per share. Interest expense related to the subordinated debt for the years ended December 31, 2014 and 2013 totaled \$756,000 and \$541,000, respectively.

The Company allocated the proceeds received on April 15, 2013 between the subordinated debt and the Lender Warrant based on the estimated relative fair value of each. The fair value of the Warrant was estimated based on a Black-Scholes-Merton model and totaled \$318,000. The discount recorded on the subordinated note will be amortized by the level-yield method over 2 years.

Promissory Note. On October 24, 2013 the Bancorp issued a \$3 million promissory note (the "Note") payable to an unrelated commercial bank. The note bears interest at the U.S. "Prime Rate" plus three-quarters percent per annum, 4.00% at December 31, 2014 and 2013, has a term of 18 months and is secured by 100 shares of Plumas Bank stock representing the Company's 100% ownership interest in Plumas Bank. Interest expense related to this note for the years ended December 31, 2014 and 2013 totaled \$111,000 and \$23,000, respectively. Under the Note the Bank is subject to several negative and affirmative covenants including, but not limited to providing timely financial information, maintaining specified levels of capital, restrictions on additional borrowings, and meeting or exceeding certain capital and asset quality ratios. The Bank was in compliance with all such requirements at December 31, 2014 and December 31, 2013.

On July 28, 2014, Plumas Bancorp entered into a Renewal, Extension, and Modification of Loan Agreement (the "Agreement") related to the Note. This Agreement provides for the following changes, among others:

- 1.) The maturity date of the Note is October 24, 2015.
- 2.) The maximum amount of the Note is \$7.5 million.
- 3.) The Company may borrow, repay, and reborrow up to the principal face amount of the Note.

The above provisions are subject to the following conditions:

- 1.) An advance under the Note in excess of \$3 million is subject to the lender completing a satisfactory loan review of the Company.
- 2.) The Company shall provide an assignment of Key Man life Policy(s) in a minimum amount of \$3.5 million.
- 3.) The Company shall not prepay the Company's Junior Subordinated Deferrable Interest Debentures until the Note has been paid in full.

On August 26, 2014 the Company made a \$2 million payment on the Note reducing the outstanding balance to \$1 million.

Proceeds from the Note and the subordinated debt were used to partially fund the repurchase of preferred stock.

Regulatory Developments. Effective February 8, 2012, the Bank entered into an informal agreement with the FDIC and the California Department of Financial Institutions ("DFI") which, among other things, requested that the Bank maintain a Tier 1 Leverage Capital Ratio of 9% which is in excess of that required for well capitalized institutions and continue to reduce its level of classified asset balances that were outstanding as of September 30, 2011 to not more than 50% of Tier 1 Capital plus the allowance for loan losses. At December 31, 2012 this ratio was 32% and the Bank's Tier 1 Leverage Capital Ratio was 10.4%. The FDIC and DFI terminated the informal agreement effective January 24, 2013.

On July 28, 2011 the Company entered into an agreement with the Federal Reserve Bank of San Francisco (the "FRB Agreement"). Under the terms of the FRB Agreement, Plumas Bancorp agreed to take certain actions that are designed to maintain its financial soundness so that it may continue to serve as a source of strength to the Bank. Among other things, the FRB Agreement required prior written approval related to the payment or taking of dividends and distributions, making any distributions of interest, principal or other sums on subordinated debentures or trust preferred securities, incurrence of debt, and the purchase or redemption of stock. In addition, the FRB Agreement required Plumas Bancorp to submit, within 60 days of the FRB Agreement, a written statement of Plumas Bancorp's planned sources and uses of cash for debt service, operating expense and other purposes ("Cash Flow Statement") for the remainder of 2011 and annually thereafter. The Company submitted the Cash Flow Statements within the required time frames. On April 19, 2013 the Company received notice that the FRB Agreement had been terminated.

Business Concentrations. No individual or single group of related customer accounts is considered material in relation to the Banks' assets or deposits, or in relation to our overall business. However, at December 31, 2014 approximately 74% of the Bank's total loan portfolio consisted of real estate-secured loans, including real estate mortgage loans, real estate construction loans, consumer equity lines of credit, and agricultural loans secured by real estate. Moreover, our business activities are currently focused in the California counties of Plumas, Nevada, Placer,

Lassen, Modoc, Shasta and Sierra and Washoe County in Nevada. Consequently, our results of operations and financial condition are dependent upon the general trends in these economies and, in particular, the residential and commercial real estate markets. In addition, the concentration of our operations in these areas of California and Nevada exposes us to greater risk than other banking companies with a wider geographic base in the event of catastrophes, such as earthquakes, fires and floods in these regions in California and Nevada.

Competition. With respect to commercial bank competitors, the business is largely dominated by a relatively small number of major banks with many offices operating over a wide geographical area. These banks have, among other advantages, the ability to finance wide-ranging and effective advertising campaigns and to allocate their resources to regions of highest yield and demand. Many of the major banks operating in the area offer certain services that we do not offer directly but may offer indirectly through correspondent institutions. By virtue of their greater total capitalization, such banks also have substantially higher lending limits than we do. For customers whose loan demands exceed our legal lending limit, we attempt to arrange for such loans on a participation basis with correspondent or other banks.

In addition to other banks, our competitors include savings institutions, credit unions, and numerous non-banking institutions such as finance companies, leasing companies, insurance companies, brokerage firms, and investment banking firms. In recent years, increased competition has also developed from specialized finance and non-finance companies that offer wholesale finance, credit card, and other consumer finance services, including on-line banking services and personal financial software. Strong competition for deposit and loan products affects the rates of those products as well as the terms on which they are offered to customers. Mergers between financial institutions have placed additional competitive pressure on banks within the industry to streamline their operations, reduce expenses, and increase revenues. Competition has also intensified due to federal and state interstate banking laws enacted in the mid-1990's, which permit banking organizations to expand into other states. The relatively large California market has been particularly attractive to out-of-state institutions. The Financial Modernization Act, which became effective March 11, 2000, has made it possible for full affiliations to occur between banks and securities firms, insurance companies, and other financial companies, and has also intensified competitive conditions.

Currently, within the towns in which the Bank has a branch there are 51 banking branch offices of competing institutions (excluding credit unions, but including savings banks), including 28 branches of 8 major banks. As of June 30, 2014, the Federal Deposit Insurance Corporation (FDIC) estimated the Bank's market share of insured deposits within the communities it serves to be as follows: Chester 65%, Quincy 57%, Alturas 66%, Fall River Mills 37%, Kings Beach 32%, Susanville 28%, Truckee 17%, Tahoe City 9%, Redding less than 1% and 100% in Greenville and Portola. Redding is the location of our most recently opened branch, which became operational in June 2007.

Technological innovations have also resulted in increased competition in financial services markets. Such innovation has, for example, made it possible for non-depository institutions to offer customers automated transfer payment services that previously were considered traditional banking products. In addition, many customers now expect a choice of delivery systems and channels, including home computer, mobile, remote deposit, telephone, ATMs, mail, full-service branches and/or in-store branches. The sources of competition in such products include traditional banks as well as savings associations, credit unions, brokerage firms, money market and other mutual funds, asset management groups, finance and insurance companies, internet-only financial intermediaries, and mortgage banking firms.

For many years we have countered rising competition by providing our own style of community-oriented, personalized service. We rely on local promotional activity, personal contacts by our officers, directors, employees, and shareholders, automated 24-hour banking, and the individualized service that we can provide through our flexible policies. This approach appears to be well-received by our customers who appreciate a more personal and customer-oriented environment in which to conduct their financial transactions. To meet the needs of customers who prefer to bank electronically, we offer telephone banking, mobile banking, remote deposit, and personal computer and internet banking with bill payment capabilities. This high tech and high touch approach allows the customers to tailor their access to our services based on their particular preference.

Employees. At December 31, 2014, the Company and its subsidiary employed 155 persons. On a full-time equivalent basis, we employed 133 persons. None of the Company's employees are represented by a labor union, and management considers its relations with employees to be good.

Code of Ethics. The Board of Directors has adopted a code of business conduct and ethics for directors, officers (including Plumas Bancorp's principal executive officer and principal financial officer) and financial personnel, known as the Corporate Governance Code of Ethics. This Code of Ethics Policy is available on Plumas Bancorp's website at www.plumasbank.com. Shareholders may request a free copy of the Code of Ethics Policy from Plumas Bancorp, Ms. Elizabeth Kuipers, Investor Relations, 35 S. Lindan Avenue, Quincy, California 95971.

Supervision and Regulation

General. We are extensively regulated under federal and state law. These laws and regulations are generally intended to protect depositors and customers, not shareholders. To the extent that the following information describes statutory or regulatory provisions, it is qualified in its entirety by reference to the particular statute or regulation. Any change in applicable laws or regulations may have a material effect on our business and prospects. Our operations may be affected by legislative changes and by the policies of various regulatory authorities. We cannot accurately predict the nature or the extent of the effects on our business and earnings that fiscal or monetary policies, or new federal or state legislation may have in the future.

Securities Regulation. The Company is subject to the disclosure and regulatory requirements of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, both as administered by the Securities and Exchange Commission. As a listed company on NASDAQ, we are subject to NASDAQ rules for listed companies.

Holding Company Regulation. We are a registered bank holding company under the Bank Holding Company Act of 1956, as amended, and are subject to the supervision of, and regulation by, the Board of Governors of the Federal Reserve System (the "FRB"). We are required to file reports with the FRB and the FRB periodically examines the Company. A bank holding company is required to serve as a source of financial and managerial strength to its subsidiary bank and, under appropriate circumstances, to commit resources to support the subsidiary bank. FRB regulations require the Company to meet or exceed certain capital requirements and regulate provisions of certain bank holding company debt. The Company is also a bank holding company within the meaning of Section 3700 of the California Financial Code. Therefore, the Company and any of its subsidiaries are subject to supervision and examination by, and may be required to file reports with, the California Department of Business Oversight ("DBO").

Capital Adequacy. The Federal Deposit Insurance Corporation (the "FDIC") has risk-based capital adequacy guidelines intended to provide a measure of capital adequacy that reflects the degree of risk associated with a banking organization's operations for both transactions reported on the balance sheet as assets, and transactions, such as letters of credit and recourse arrangements, which are reported as off-balance-sheet items. Under these guidelines, nominal dollar amounts of assets and credit equivalent amounts of off-balance-sheet items are multiplied by one of several risk adjustment percentages, which range from 0% for assets with low credit risk, such as certain U.S. government securities, to 100% for assets with relatively higher credit risk, such as business loans.

A banking organization's risk-based capital ratios are obtained by dividing its qualifying capital by its total risk-adjusted assets and off-balance-sheet items. The regulators measure risk-adjusted assets and off-balance-sheet items against both total qualifying capital (the sum of Tier 1 capital and limited amounts of Tier 2 capital) and Tier 1 capital. Tier 1 capital consists of common stock, retained earnings, noncumulative perpetual preferred stock and minority interests in certain subsidiaries, less most other intangible assets. Tier 2 capital may consist of a limited amount of the allowance for loan and lease losses and certain other instruments with some characteristics of equity. The inclusion of elements of Tier 2 capital is subject to certain other requirements and limitations of the federal banking agencies. Since December 31, 1992, the FRB and the FDIC have required a minimum ratio of qualifying total capital to risk-adjusted assets and off-balance-sheet items of 8%, and a minimum ratio of Tier 1 capital to risk-adjusted assets and off-balance-sheet items of 4%.

In addition to the risk-based guidelines, the FRB requires banking organizations to maintain a minimum amount of Tier 1 capital to average total assets, referred to as the leverage ratio. For a banking organization rated in the highest of the five categories used by regulators to rate banking organizations, the minimum leverage ratio of Tier 1 capital to total assets is 3%. It is improbable; however, that an institution with a 3% leverage ratio would receive the highest rating by the regulators since a strong capital position is a significant part of the regulators' ratings. For all banking organizations not rated in the highest category, the minimum leverage ratio is at least 100 to 200 basis points above the 3% minimum. Thus, the effective minimum leverage ratio, for all practical purposes, is at least 4% or 5%. In addition to these uniform risk-based capital guidelines and leverage ratios that apply across the industry, the FRB and FDIC have the discretion to set individual minimum capital requirements for specific institutions at rates significantly above the minimum guidelines and ratios.

A bank that does not achieve and maintain the required capital levels may be issued a capital directive by the FDIC and/or the DBO to ensure the maintenance of required capital levels. The Company is also required to maintain certain levels of capital. The regulatory capital guidelines as well as the actual capitalization for the Bank and the Company as of December 31, 2014 were as follows:

Minimum ratio required to be:

	<u>Adequately Capitalized</u>	<u>Well Capitalized</u>	<u>Plumas Bank</u>	<u>Plumas Bancorp</u>
Tier 1 leverage capital ratio	4.0%	5.0%	9.8%	8.4%
Tier 1 risk-based capital ratio	4.0%	6.0%	13.2%	11.4%
Total risk-based capital ratio	8.0%	10.0%	14.4%	14.5%

The Company and the Bank met all of the above capital adequacy requirements as of December 31, 2014 and 2013. The Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA") requires federal banking regulators to take "prompt corrective action" with respect to a capital-deficient institution, including requiring a capital restoration plan and restricting certain growth activities of the institution. The Company could be required to guarantee any such capital restoration plan required of the Bank if the Bank became undercapitalized. Pursuant to FDICIA, regulations were adopted defining five capital levels: well capitalized, adequately capitalized, undercapitalized, severely undercapitalized and critically undercapitalized.

If capital falls below the minimum levels established by these regulatory capital guidelines, a holding company or a bank may be denied approval to acquire or establish additional banks or non-bank businesses or to open new facilities.

Banks with capital ratios below the required minimums are subject to certain administrative actions, including prompt corrective action, the termination of deposit insurance upon notice and hearing, or a temporary suspension of insurance without a hearing.

New Capital Rules. In July, 2013, the federal bank regulatory agencies approved the final rules implementing the Basel Committee on Banking Supervision's capital guidelines for U.S. banks. Under the final rules, minimum requirements will increase for both the quantity and quality of capital held by the Company and the Bank. The rules include a new common equity Tier 1 capital to risk-weighted assets ratio of 4.5% and a common equity Tier 1 capital conservation buffer of 2.5% of risk-weighted assets. The final rules also raise the minimum ratio of Tier 1 capital to risk-weighted assets from 4.0% to 6.0% and require a minimum leverage ratio of 4.0%. The final rules also implement strict eligibility criteria for regulatory capital instruments.

The phase-in period for the final rules begin on January 1, 2015, with full compliance with all of the final rule's requirements phased in over a multi-year schedule. As of January 1, 2015, the Company's and the Bank's capital levels remained "well-capitalized" under the new rules.

Dividends. The Company's ability to pay cash dividends is dependent on dividends paid to it by the Bank and limited by California corporation law. Under California law, the holders of common stock of the Company are entitled to receive dividends when and as declared by the Board of Directors, out of funds legally available, subject to certain restrictions. The California general corporation law prohibits the Company from paying dividends on its common stock unless: (i) its retained earnings, immediately prior to the dividend payment, equals or exceeds the amount of the dividend or (ii) immediately after giving effect to the dividend, the sum of the Company's assets (exclusive of goodwill and deferred charges) would be at least equal to 125% of its liabilities (not including deferred taxes, deferred income and other deferred liabilities) and the current assets of the Company would be at least equal to its current liabilities, or, if the average of its earnings before taxes on income and before interest expense for the two preceding fiscal years was less than the average of its interest expense for the two preceding fiscal years, at least equal to 125% of its current liabilities.

Dividends from the Bank to the Company are restricted under California law to the lesser of the Bank's retained earnings or the Bank's net income for the latest three fiscal years, less dividends previously declared during that period, or, with the approval of the DBO, to the greater of the retained earnings of the Bank, the net income of the Bank for its last fiscal year, or the net income of the Bank for its current fiscal year. As of December 31, 2014, the maximum amount available for dividend distribution under this restriction was approximately \$5,100,000. In addition the Company's ability to pay dividends is subject to certain covenants contained in the indentures relating to the Trust Preferred Securities issued by the business trusts.

Federal and State Bank Regulation. The Bank, as a state-chartered bank with deposits insured by the FDIC, is primarily subject to the supervision and regulation of the California Department of Business Oversight (the "DBO"), the FDIC, and the Consumer Financial Protection Bureau (the "CFPB"). These agencies may prohibit the Bank from engaging in what they believe constitute unsafe or unsound banking practices. The DBO regularly examines the Bank or participates in joint examinations with the FDIC.

The Community Reinvestment Act. The Community Reinvestment Act ("CRA") requires that, in connection with examinations of financial institutions within its jurisdiction, the FDIC evaluate the record of the financial institutions in meeting the credit needs of their local communities, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of those institutions. These factors are also considered in evaluating mergers, acquisitions and applications to open a branch or new facility. A less than "Satisfactory" rating would likely result in the suspension of any growth of the Bank through acquisitions or opening de novo branches until the rating is improved. As of the most recent CRA examination the Bank's CRA rating was "Satisfactory."

Transactions with Affiliates. Banks are also subject to certain restrictions imposed by the Federal Reserve Act on extensions of credit to executive officers, directors, principal shareholders (including the Company) or any related interest of such persons. Extensions of credit must be made on substantially the same terms, including interest rates and collateral as, and follow credit underwriting procedures that are not less stringent than, those prevailing at the time for comparable transactions with persons not affiliated with the bank, and must not involve more than the normal risk of repayment or present other unfavorable features. Banks are also subject to certain lending limits and restrictions on overdrafts to such persons. A violation of these restrictions may result in the assessment of substantial civil monetary penalties on the affected bank or any officer, director, employee, agent or other person participating in the conduct of the affairs of that bank, the imposition of a cease and desist order, and other regulatory sanctions.

The Federal Reserve Act and related Regulation W limit the amount of certain loan and investment transactions between the Bank and its affiliates, require certain levels of collateral for such loans, and limit the amount of advances to third parties that may be collateralized by the securities of the Company or its subsidiaries. Regulation W requires that certain transactions between the Bank and its affiliates be on terms substantially the same, or at least as favorable to the Bank, as those prevailing at the time for comparable transactions with or involving nonaffiliated companies or, in the absence of comparable transactions, on terms and under circumstances, including credit standards, that in good faith would be offered to or would apply to nonaffiliated companies. The Company and its subsidiaries have adopted an Affiliate Transactions Policy and have entered into various affiliate agreements in compliance with Regulation W.

Safety and Soundness Standards. The FRB and the FDIC have adopted non-capital safety and soundness standards for institutions. These standards cover internal controls, information and internal audit systems, loan documentation, credit underwriting, interest rate exposure, asset growth, compensation, fees and benefits, and standards for asset quality, earnings and stock valuation. An institution that fails to meet these standards must develop a plan acceptable to the agency, specifying the steps that it will take to meet the standards. Failure to submit or implement such a plan may subject the institution to regulatory sanctions.

Federal Deposit Insurance. In addition to supervising and regulating state chartered non-member banks, the FDIC insures the Bank's deposits, up to prescribed statutory limits, through the Deposit Insurance Fund (the "DIF"), currently \$250,000 per depositor per institution. The DIF is funded primarily by FDIC assessments paid by each DIF member institution. The amount of FDIC assessments paid by each DIF member institution is based on its relative risk of default as measured by regulatory capital ratios and other supervisory factors. The Bank's FDIC insurance expense totaled \$0.4 million for 2014.

Additionally, all FDIC-insured institutions are required to pay assessments to the FDIC to fund interest payments on bonds issued by the Financing Corporation ("FICO"), an agency of the Federal government established to recapitalize the predecessor to the DIF. The FICO assessment rates, which are determined quarterly, averaged less than 0.01% of deposits in fiscal 2014. These assessments will continue until the FICO bonds mature in 2017.

The FDIC may terminate a depository institution's deposit insurance upon a finding that the institution's financial condition is unsafe or unsound or that the institution has engaged in unsafe or unsound practices that pose a risk to the DIF or that may prejudice the interest of the bank's depositors. Under California law, the termination of deposit insurance for the Bank would result in a termination of the Bank's charter.

Interstate Branching. The Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"), authorized national and state banks to establish branches in other states to the same extent as a bank chartered by that state would be permitted to branch. Previously, banks could only establish branches in other states if the host state expressly permitted out-of-state banks to establish branches in that state. Accordingly, banks will be able to enter new markets more freely.

Consumer Protection Laws and Regulations. The banking regulatory agencies are focusing greater attention on compliance with consumer protection laws and their implementing regulations. Examination and enforcement have become more intense in nature, and insured institutions have been advised to monitor carefully compliance with such laws and regulations. The Company is subject to many federal and state consumer protection and privacy statutes and regulations, including but not limited to the following:

- The Equal Credit Opportunity Act ("ECOA") generally prohibits discrimination in any credit transaction, whether for consumer or business purposes, on the basis of race, color, religion, national origin, sex, marital status, age (except in limited circumstances), receipt of income from public assistance programs, or good faith exercise of any rights under the Consumer Credit Protection Act.
- The Truth in Lending Act ("TILA") is designed to ensure that credit terms are disclosed in a meaningful way so that consumers may compare credit terms more readily and knowledgeably. As a result of the TILA, all creditors must use the same credit terminology to express rates and payments, including the annual percentage rate, the finance charge, the amount financed, the total of payments and the payment schedule, among other things. As a result of the Dodd-Frank Act, Regulation Z promulgated under the TILA includes new limits on loan originator compensation for all closed-end mortgages. These changes include, prohibiting certain payments to a mortgage broker or loan officer based on the transaction's terms or conditions, prohibiting dual compensation, and prohibiting a mortgage broker or loan officer from "steering" consumers to transactions not in their interest, to increase mortgage broker or loan officer compensation.
- The Fair Housing Act ("FH Act") regulates many practices, including making it unlawful for any lender to discriminate in its housing-related lending activities against any person because of race, color, religion, national origin, sex, handicap or familial status. A number of lending practices have been found by the

courts to be, or may be considered, illegal under the FH Act, including some that are not specifically mentioned in the FH Act itself.

- The Home Mortgage Disclosure Act (“HMDA”), in response to public concern over credit shortages in certain urban neighborhoods, requires public disclosure of information that shows whether financial institutions are serving the housing credit needs of the neighborhoods and communities in which they are located. The HMDA also includes a “fair lending” aspect that requires the collection and disclosure of data about applicant and borrower characteristics as a way of identifying possible discriminatory lending patterns and enforcing anti-discrimination statutes.
- The Right to Financial Privacy Act (“RFPA”) imposes a new requirement for financial institutions to provide new privacy protections to consumers. Financial institutions must provide disclosures to consumers of its privacy policy, and state the rights of consumers to direct their financial institution not to share their nonpublic personal information with third parties.
- The Real Estate Settlement Procedures Act (“RESPA”) requires lenders to provide noncommercial borrowers with disclosures regarding the nature and cost of real estate settlements. Also, RESPA prohibits certain abusive practices, such as kickbacks, and places limitations on the amount of escrow accounts.

Penalties for noncompliance or violations under the above laws may include fines, reimbursement and other penalties. Due to heightened regulatory expectations related to compliance with generally, the Company may incur additional compliance costs.

The Dodd-Frank Act created a new, independent federal agency called the Consumer Financial Protection Bureau (“CFPB”), which is granted broad rulemaking, supervisory and enforcement powers under various federal consumer financial protection laws. The CFPB has examination and primary enforcement authority with respect to depository institutions with \$10 billion or more in assets. Smaller institutions will be subject to rules promulgated by the CFPB but will continue to be examined and supervised by federal banking regulators for consumer compliance purposes. The CFPB has authority to prevent unfair, deceptive or abusive practices in connection with the offering of consumer financial products. The Dodd-Frank Act authorizes the CFPB to establish certain minimum standards for the origination of residential mortgages including a determination of the borrower’s ability to repay. In addition, the Dodd-Frank Act allows borrowers to raise certain defenses to foreclosure if they receive any loan other than a “qualified mortgage” as defined by the CFPB. The Dodd-Frank Act permits states to adopt consumer protection laws and standards that are more stringent than those adopted at the federal level and, in certain circumstances, permits state attorneys general to enforce compliance with both the state and federal laws and regulations.

Anti-Money Laundering Laws. A series of banking laws and regulations beginning with the bank Secrecy Act in 1970 requires banks to prevent, detect, and report illicit or illegal financial activities to the federal government to prevent money laundering, international drug trafficking, and terrorism. Under the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001, financial institutions are subject to prohibitions against specified financial transactions and account relationships, requirements regarding the Customer Identification Program, as well as enhanced due diligence and “know your customer” standards in their dealings with high risk customers, foreign financial institutions, and foreign individuals and entities.

Privacy and Data Security. The Gramm-Leach Bliley Act (“GLBA”) of 1999 imposes requirements on financial institutions with respect to consumer privacy. The GLBA generally prohibits disclosure of consumer information to non-affiliated third parties unless the consumer has been given the opportunity to object and has not objected to such disclosure. Financial institutions are further required to disclose their privacy policies to consumers annually. The GLBA also directs federal regulators, including the FDIC, to prescribe standards for the security of consumer information. The Bank is subject to such standards, as well as standards for notifying consumers in the event of a security breach. The Bank is required to have an information security program to safeguard the confidentiality and security of customer information and to ensure proper disposal of information that is no longer needed. Customers must be notified when unauthorized disclosure involves sensitive customer information that may be misused.

Potential Enforcement Actions; Supervisory Agreements. Under federal law, the Bank and its institution-affiliated parties may be the subject of potential enforcement actions by the FDIC for unsafe and unsound practices in conducting their businesses, or for violations of any law, rule or regulation or provision, any consent order with any agency, any condition imposed in writing by the agency or any written agreement with the agency. Enforcement actions may include the imposition of a conservator or receiver, cease-and-desist orders and written agreements, the termination of insurance of deposits, the imposition of civil money penalties and removal and prohibition orders against institution-affiliated parties. The DBO also has authority to bring similar enforcement actions against the Bank. The FRB has the authority to bring similar enforcement actions against the Company.

Legislation and Proposed Changes. From time to time, legislation is enacted which has the effect of increasing the cost of doing business, limiting or expanding permissible activities or affecting the competitive balance between banks and other financial institutions. Proposals to change the laws and regulations governing the operations and taxation of banks, bank holding companies and other financial institutions are frequently made in Congress, in the Hawaii legislature and before various bank regulatory agencies. Typically, the intent of this type of legislation is to strengthen the banking industry, even if it may on occasion prove to be a burden on management's plans. No prediction can be made as to the likelihood of any major changes or the impact that new laws or regulations might have on us.

Effects of Government Monetary Policy. Our earnings and growth are affected not only by general economic conditions, but also by the fiscal and monetary policies of the federal government, particularly the FRB. The FRB implements national monetary policy for such purposes as curbing inflation and combating recession, through its open market operations in U.S. Government securities, control of the discount rate applicable to borrowings from the FRB, and establishment of reserve requirements against certain deposits. These activities influence growth of bank loans, investments and deposits, and also affect interest rates charged on loans or paid on deposits. The Company's profitability, like most financial institutions, is primarily dependent on interest rate spreads. In general, the difference between the interest rates paid by the Bank on interest-bearing liabilities, such as deposits and other borrowings, and the interest rates received by the Bank on interest-earning assets, such as loans extended to customers and securities held in the investment portfolio, will comprise the major portion of the Company's earnings. These rates are highly sensitive to many factors that are beyond our control, such as inflation, recession and unemployment, the monetary and fiscal policies of the federal government and the policies of regulatory agencies, particularly the FRB and the impact which future changes in domestic and foreign economic conditions might have on us cannot be predicted. The nature and impact of future changes in monetary policies and their impact on us cannot be predicted with certainty.

Recent Accounting Pronouncements

See Note 3 – “Summary of Significant Accounting Policies – Adoption of New Accounting Standards” of the Company's Consolidated Financial Statements in Item 8 – Financial Statements and Supplementary Data of this Annual Report on Form 10K for information related to recent accounting pronouncements.

ITEM 1A. RISK FACTORS

As a smaller reporting company we are not required to provide the information required by this item.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES

Of the Company's eleven depository branches, ten are owned and one is leased. The Company also leases three lending offices and one administrative/lending office, and owns four administrative facilities.

Owned Properties		
35 South Lindan Avenue Quincy, California (1)	32 Central Avenue Quincy, California (1)	80 W. Main St. Quincy, California (1)
424 N. Mill Creek Quincy, California (1)	336 West Main Street Quincy, California	120 North Pine Street Portola, California
43163 Highway 299E Fall River Mills, California	121 Crescent Street Greenville, California	255 Main Street Chester, California
510 North Main Street Alturas, California	3000 Riverside Drive Susanville, California	8475 North Lake Boulevard Kings Beach, California
11638 Donner Pass Road Truckee, California	2175 Civic Center Drive Redding, California	
Leased Properties		
243 North Lake Boulevard Tahoe City, California	1755 E. Plumb Lane, Suite 270 Reno, Nevada (1) (3)	470 Nevada St., Suite 108 Auburn, California (2)
12725 SW Millikan Way, Suite 30 Beaverton, OR 97005 (2)	2585 Ceanothus Avenue, Suite 173 Chico, CA 95973 (3)	

- (1) Non-branch administrative or credit administrative offices.
(2) SBA lending office.
(3) Commercial lending office.

Total rental expenses under all leases, including premises, totaled \$192,000, \$154,000 and \$153,000, in 2014, 2013 and 2012 respectively. The expiration dates of the leases vary, with the first such lease expiring during 2015 and the last such lease expiring during 2016.

Future minimum lease payments in thousands of dollars are as follows:

Year Ending December 31,	
2015	\$ 140,000
2016	88,000
	<u>\$ 228,000</u>

The Company maintains insurance coverage on its premises, leaseholds and equipment, including business interruption and record reconstruction coverage. The branch properties and non-branch offices are adequate, suitable, in good condition and have adequate parking facilities for customers and employees. The Company and Bank are limited in their investments in real property under Federal and state banking laws. Generally, investments in real property are either for the Company and Bank use or are in real property and real property interests in the ordinary course of the Bank's business.

ITEM 3. LEGAL PROCEEDINGS

From time to time, the Company and/or its subsidiary are a party to claims and legal proceedings arising in the ordinary course of business. In the opinion of the Company's management, the amount of ultimate liability with respect to such proceedings will not have a material adverse effect on the financial condition or results of operations of the Company taken as a whole.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCK-HOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

The Company's common stock is quoted on the NASDAQ Capital Market under the ticker symbol "PLBC". As of December 31, 2014, there were 4,799,139 shares of the Company's stock outstanding held by approximately 1,300 shareholders of record as of the same date. The following table shows the high and low sales prices for the common stock, for each quarter as reported by Yahoo Finance.

Quarter	Common Dividends	High	Low
4 th Quarter 2014	-	\$ 8.25	\$ 7.52
3 rd Quarter 2014	-	\$ 8.50	\$ 6.77
2 nd Quarter 2014	-	\$ 7.74	\$ 6.12
1 st Quarter 2014	-	\$ 6.75	\$ 5.96
4 th Quarter 2013	-	\$ 6.74	\$ 6.00
3 rd Quarter 2013	-	\$ 6.99	\$ 5.72
2 nd Quarter 2013	-	\$ 8.00	\$ 4.36
1 st Quarter 2013	-	\$ 5.96	\$ 3.24

It is the policy of the Company to periodically distribute excess retained earnings to the shareholders through the payment of cash dividends. Such dividends help promote shareholder value and capital adequacy by enhancing the marketability of the Company's stock. All authority to provide a return to the shareholders in the form of a cash or stock dividend or split rests with the Board of Directors (the "Board"). The Board will periodically, but on no regular schedule and in accordance with regulatory restrictions, if any, reviews the appropriateness of a cash dividend payment. No common cash dividends were paid in 2014 or 2013.

The Company is subject to various restrictions on the payment of dividends. See Note 13 "Shareholders' Equity – Dividend Restrictions" of the Company's Consolidated Financial Statements in Item 8 – Financial Statements and Supplementary Data of this Annual Report on Form 10K.

Securities Authorized for Issuance under Equity Compensation Plans. The following table sets forth securities authorized for issuance under equity compensation plans as of December 31, 2014.

Plan Category	Number of securities to be issued upon exercise of outstanding options (a)	Weighted-average exercise price of outstanding options (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	416,793	\$ 7.52	389,600
Equity compensation plans not approved by security holders	None	Not Applicable	None
Total	416,793	\$ 7.52	389,600

For additional information related to the above plans see Note 13 of the Company's Consolidated Financial Statements in Item 8 – Financial Statements and Supplementary Data of this Annual Report on Form 10K.

Issuer Purchases of Equity Securities. There were no purchases of Plumas Bancorp common stock by the Company during 2014.

ITEM 6. SELECTED FINANCIAL DATA

The following table presents a summary of selected financial data and should be read in conjunction with the Company's consolidated financial statements and notes thereto included under Item 8 – Financial Statements and Supplementary Data.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

We are a bank holding company for Plumas Bank, a California state-chartered commercial bank. We derive our income primarily from interest received on real estate related, commercial, automobile and consumer loans and, to a lesser extent, interest on investment securities, fees received in connection with servicing deposit and loan customers and fees from the sale of loans. Our major operating expenses are the interest we pay on deposits and borrowings and general operating expenses. We rely on locally-generated deposits to provide us with funds for making loans.

We are subject to competition from other financial institutions and our operating results, like those of other financial institutions operating in California, are significantly influenced by economic conditions in California, including the strength of the real estate market. In addition, both the fiscal and regulatory policies of the federal and state government and regulatory authorities that govern financial institutions and market interest rates also impact the Bank's financial condition, results of operations and cash flows.

Critical Accounting Policies

Our accounting policies are integral to understanding the financial results reported. Our most complex accounting policies require management's judgment to ascertain the valuation of assets, liabilities, commitments and contingencies. We have established detailed policies and internal control procedures that are intended to ensure valuation methods are applied in an environment that is designed and operating effectively and applied consistently from period to period. The following is a brief description of our current accounting policies involving significant management valuation judgments.

Allowance for Loan Losses. The allowance for loan losses is an estimate of credit losses inherent in the Company's loan portfolio that have been incurred as of the balance-sheet date. The allowance is established through a provision for loan losses which is charged to expense. Additions to the allowance are expected to maintain the adequacy of the total allowance after credit losses and loan growth. Credit exposures determined to be uncollectible are charged against the allowance. Cash received on previously charged off amounts is recorded as a recovery to the allowance. The overall allowance consists of two primary components, specific reserves related to impaired loans and general reserves for inherent losses related to loans that are collectively evaluated for impairment.

We evaluate our allowance for loan losses quarterly. We believe that the allowance for loan losses is a "critical accounting estimate" because it is based upon management's assessment of various factors affecting the collectability of the loans, including current economic conditions, past credit experience, delinquency status, the value of the underlying collateral, if any, and a continuing review of the portfolio of loans.

We cannot provide you with any assurance that economic difficulties or other circumstances which would adversely affect our borrowers and their ability to repay outstanding loans will not occur which would be reflected in increased losses in our loan portfolio, which could result in actual losses that exceed reserves previously established.

Other Real Estate Owned. Other real estate owned (OREO) represents properties acquired through foreclosure or physical possession. OREO is initially recorded at fair value less costs to sell when acquired. Write-downs to fair value at the time of transfer to OREO is charged to allowance for loan losses. Subsequent to foreclosure, we periodically evaluate the value of OREO held for sale and record a valuation allowance for any subsequent declines in fair value less selling costs. Subsequent declines in value are charged to operations. Fair value is based on our assessment of information available to us at the end of a reporting period and depends upon a number of factors, including our historical experience, economic conditions, and issues specific to individual properties. Our evaluation of these factors involves subjective estimates and judgments that may change.

The following discussion is designed to provide a better understanding of significant trends related to the Company's financial condition, results of operations, liquidity and capital. It pertains to the Company's financial condition, changes in financial condition and results of operations as of December 31, 2014 and 2013 and for each of the three years in the period ended December 31, 2014. The discussion should be read in conjunction with the Company's audited consolidated financial statements and notes thereto and the other financial information appearing elsewhere herein.

Overview

The Company recorded net income of \$4.7 million for the year ended December 31, 2014, a 38% increase over net income of \$3.4 million during the year ended December 31, 2013. Pretax income increased by \$2.2 million, or 40%, from \$5.6 million in 2013 to \$7.8 million during the year ended December 31, 2014.

Net interest income increased by \$1.5 million from \$17.9 million during 2013 to \$19.4 million for the year ended December 31, 2014. This increase in net interest income resulted from an increase in interest income of \$1.7 million partially offset by an increase in interest expense of \$159 thousand. Interest on loans increased by \$1.3 million and interest on investment securities increased by \$353 thousand. A decrease of \$84 thousand in interest expense on deposits was offset by an increase in interest expense on borrowings of \$243 thousand. The provision for loan losses declined by \$300 thousand from \$1.4 million during 2013 to \$1.1 million during 2014 resulting in an increase in net interest income after provision for loan losses of \$1.8 million.

During the year ended December 31, 2014 non-interest income totaled \$7.3 million an increase of \$673 thousand from the year ended December 31, 2013. The \$673 thousand includes increases of \$196 thousand in service charges on deposits accounts, \$179 thousand in loan servicing income, a \$148 thousand gain on sale of our credit card portfolio and \$128 thousand in gains on sale of securities.

Non-interest expense increased by \$275 thousand from \$17.6 million during the twelve months ended December 31, 2013 to \$17.8 million during 2014. We achieved reductions in several categories of expense the largest two of which were \$248 thousand in professional fees and \$246 thousand in the provision for losses on OREO. The two largest increases in expense were \$745 thousand in salary and benefits expense and \$187 thousand in outside service fees.

The provision for income taxes increased from \$2.2 million in 2013 to \$3.1 million during the year ended December 31, 2014.

Net income allocable to common shareholders increased by \$1.1 million from \$3.6 million during the year ended December 31, 2013 to \$4.7 million during 2014. Income allocable to common shareholders is calculated by adding discount on redemption of preferred stock and subtracting dividends and discount amortized on preferred stock from net income. During 2013 the Company redeemed all of its outstanding preferred stock, recording a \$565 discount on redemption. Discount amortized on the preferred stock during 2013 totaled \$347 thousand.

Total assets at December 31, 2014 were \$539 million, an increase of \$23.1 million from \$516 million at December 31, 2013. An increase of \$32.4 million in net loans and \$0.3 million in bank owned life insurance was partially offset by decreases of \$4.3 million in cash and due from banks, \$23 thousand in investment securities, \$0.9 million in premises and equipment, \$2.9 million in OREO and \$1.5 million in other assets.

Total deposits increased by \$18.5 million from \$449 million at December 31, 2013 to \$468 million at December 31, 2014. Core deposit growth remained strong in 2014 as evidenced by increases of \$17.8 million in demand deposits and \$12.3 million in savings accounts. Time deposits declined by \$6.3 million, much of which we attribute to migration into other types of deposits given the low rates and lack of liquidity associated with time deposits. Interest-bearing transaction accounts (NOW) declined by \$0.5 million and money market accounts declined by \$4.8 million.

Total shareholders' equity increased by \$5.9 million from \$30.6 million at December 31, 2013 to \$36.5 million at December 31, 2014. The \$5.9 million includes earnings during the twelve month period totaling \$4.7 million and a

decrease in net unrealized loss on investment securities of \$1.1 million with the balance of \$0.1 million representing stock option activity.

The return on average assets was 0.89% for 2014, up from 0.69% for 2013. The return on average common equity was 14.0% for 2014, up from 12.0% for 2013.

Results of Operations

Net Interest Income

The following table presents, for the years indicated, the distribution of consolidated average assets, liabilities and shareholders' equity. Average balances are based on average daily balances. It also presents the amounts of interest income from interest-earning assets and the resultant yields expressed in both dollars and yield percentages, as well as the amounts of interest expense on interest-bearing liabilities and the resultant cost expressed in both dollars and rate percentages. Nonaccrual loans are included in the calculation of average loans while nonaccrued interest thereon is excluded from the computation of yields earned:

	Year ended December 31,

Net interest spread ⁽⁴⁾			3.88%			3.87%			4.05%
Net interest margin ⁽⁵⁾			4.05%			4.03%			4.18%

(1) Interest income is reflected on an actual basis and is not computed on a tax-equivalent basis.

(2) Average nonaccrual loan balances of \$6.7 million for 2014, \$9.3 million for 2013 and \$14.6 million for 2012 are included in average loan balances for computational purposes.

(3) Loan origination fees and costs are included in interest income as adjustments of the loan yields over the life of the loan using the interest method. Loan interest income includes net loan costs of \$380,000, \$371,000 and \$75,000 for 2014, 2013 and 2012, respectively.

(4) Net interest spread represents the average yield earned on interest-earning assets less the average rate paid on interest-bearing liabilities.

(5) Net interest margin is computed by dividing net interest income by total average earning assets.

The following table sets forth changes in interest income and interest expense, for the years indicated and the amount of change attributable to variances in volume, rates and the combination of volume and rates based on the relative changes of volume and rates:

	2014 compared to 2013				2013 compared to 2012			
	Increase (decrease) due to change in:				Increase (decrease) due to change in:

Net interest income	\$ 1,587	\$ (18)	\$ (41)	\$ 1,528	\$ 1,302	\$ 54	\$ (581)	\$ 775

- (1) The volume change in net interest income represents the change in average balance multiplied by the previous year's rate.
(2) The rate change in net interest income represents the change in rate multiplied by the previous year's average balance.
(3) The mix change in net interest income represents the change in average balance multiplied by the change in rate.

2014 compared to 2013. Net interest income is the difference between interest income and interest expense. Net interest income, on a nontax-equivalent basis, was \$19.4 million for the year ended December 31, 2014, up \$1.5 million, or 8.5%, from \$17.9 million for 2013. An increase of \$1.7 million, or 8.7% in interest income, from \$19.4 million during 2013 to \$21.1 million during the current year, was partially offset by an increase in interest expense of \$159 thousand.

Interest and fees on loans increased by \$1.3 million, interest on investment securities increased by \$353 thousand and interest on deposits increased by \$13 thousand. The increase in interest and fees on loans was related to an increase in average loan balances partially offset by a decline in yield. Interest on investments securities benefited from both an increase in yield and an increase in average balance.

Interest and fees on loans was \$19.5 million during 2014 and \$18.2 million for the year ended December 31, 2013. The average loan balances were \$353.4 million for 2014, up \$32.2 million from the \$321.2 million for 2013. The following table compares loan balances by type at December 31, 2014 and 2013.

(dollars in thousands)	Balance at	Percent of	Balance at	Percent of
	End of	Loans in	End of	Loans in
	Period	Each	Period	Each
	12/31/14	Category to	12/31/13	Category to
		Total Loans		Total Loans
Commercial	\$ 31,465	8.5%	\$ 32,612	9.6%
Agricultural	35,355	9.5%	30,647	9.0%
Real estate - residential	29,284	7.9%	31,322	9.3%
Real estate - commercial	163,306	44.1%	155,942	46.1%
Real estate - construction	24,572	6.6%	17,793	5.3%
Equity Lines of Credit	38,972	10.5%	35,800	10.6%
Auto	44,618	12.1%	30,305	8.9%
Other	2,818	0.8%	4,130	1.2%
Total Gross Loans	\$ 370,390	100%	\$ 338,551	100%

The average yield on loans was 5.52% for 2014 down from 5.66% for 2013. We attribute much of the decrease in yield to price competition in our service area as well as an increase in lower yielding automobile loans as a percentage of total loans.

Interest on investment securities increased by \$353 thousand as a result of an increase in yield of 32 basis points from 1.40% during 2013 to 1.72% during 2014 and an increase in average balance from \$82.8 million in 2013 to \$87.9 million in 2014. The increase in yield on investment securities includes an increase in government sponsored agency residential mortgage backed securities and municipal securities as a percentage of total securities and an increase in market yields. Interest income on other interest-earning assets, which totaled \$137 thousand in 2014 and \$124 thousand in 2013, primarily relates to interest on cash balances held at the Federal Reserve.

Interest expense on deposits decreased by \$84 thousand, or 14%, to \$516 thousand for the twelve months ended December 31, 2014, down from \$600 thousand in 2013. Interest expense on time deposits declined by \$69 thousand from \$281 thousand during 2013 to \$212 thousand at during 2014. Average time deposits declined by \$6.9 million from \$66.0 million during 2013 to \$59.1 million for the year ended December 31, 2014. We attribute much of this decline to migration into other types of deposits given the low rates and lack of liquidity associated with time deposits. The average rate paid on time deposits decreased from 0.43% during 2013 to 0.36% during the current twelve month period. This decrease primarily relates to a decline in market rates paid in the Company's service area and the maturity of higher rate time deposits.

Interest expense on NOW accounts declined by \$14 thousand. Rates paid on NOW accounts declined by 2 basis points from 0.11% during 2013 to 0.09% during 2014. Average balances decreased by \$568 thousand from 2013. Interest expense on money market accounts decreased by \$17 thousand related to a decrease in rate paid on these accounts of 3 basis points from 0.17% during 2013 to 0.14% during 2014 and a decline in average balances from \$48.7 million during 2013 to \$46.7 million in 2014. Interest expense on savings accounts increased by \$16 thousand as we continued to experience strong growth in this category of deposits. Average savings deposits increased by \$18.2 million from \$84.5 million during 2013 to \$102.7 million during 2014. The average rate paid on savings accounts during this same period declined from 17 basis points during 2013 to 16 basis points during 2014. The decline in rates paid on deposits is consistent with a decline in competitive market rates in our service area.

Interest expense on other interest-bearing liabilities increased by \$243 thousand from \$934 thousand during the twelve months ending December 31, 2013 to \$1,177 thousand during 2014. This increase was mostly related to an increase of \$215 thousand in interest expense on a \$7.5 million subordinated debenture which was only outstanding for 8.5 months during 2013. The subordinated debt bears an interest rate of 7.5% per annum, has a term of 8 years with no prepayment allowed during the first two years and was made in conjunction with an eight-year warrant (the "Lender Warrant") to purchase up to 300,000 shares of the Bancorp's common stock, no par value at an exercise price, subject to anti-dilution adjustments, of \$5.25 per share. The effective yield on the debenture during 2014 was 10.3% which was in excess of the 7.5% rate due to amortization of a \$75 thousand commitment fee and a discount recorded on issuance of \$318 thousand.

On October 24, 2013 the Bancorp issued a \$3 million promissory note dated October 24, 2013 payable to an unrelated commercial bank. The note bears interest at the U.S. "Prime Rate" plus three-quarters percent per annum (currently 4%), has a term of 18 months and is secured by 100 shares of Plumas Bank stock representing the Company's 100% ownership interest in Plumas Bank. Proceeds from this note were used to help fund the redemption of the remaining preferred shares during 2013. Interest expense on this note for 2013 totaled \$23 thousand and for 2014 it totaled \$111 thousand. The increase relates mostly to an increase in average balance from \$567 thousand in 2013 to \$2.3 million during 2014.

Interest expense on junior subordinated debentures, which decreased by \$10 thousand from 2013, fluctuates with changes in the 3-month London Interbank Offered Rate (LIBOR) rate.

Interest on other borrowings, which during 2014 relates to repurchase agreements, totaled \$7 thousand in 2014 and \$57 thousand in 2013.

Net interest margin is net interest income expressed as a percentage of average interest-earning assets. As a result of the changes noted above, the net interest margin for 2014 increased slightly to 4.05%, from 4.03% for 2013.

2013 compared to 2012. Net interest income, on a nontax-equivalent basis, was \$17.9 million for the year ended December 31, 2013, up \$775 thousand, or 4.5%, from \$17.2 million for 2012. An increase of \$1.0 million, or 5.6% in interest income, from \$18.4 million during 2012 to \$19.4 million during the current year, was partially offset by an increase in interest expense of \$260 thousand.

Interest and fees on loans increased by \$747 thousand, interest on investment securities increased by \$270 thousand and interest on deposits increased by \$18 thousand. The increase in interest and fees on loans was related to an increase in average loan balances partially offset by a decline in yield. Interest on investments securities benefited from both an increase in yield and an increase in average balance.

Interest and fees on loans was \$18.2 million during 2013 and \$17.4 million for the year ended December 31, 2012. The average loan balances were \$321.2 million for 2013, up \$19.4 million from the \$301.8 million for 2012. The largest areas of loan growth were in our commercial real estate and auto portfolios. We have dedicated significant resources to our loan production activities and have emphasized the need for quality and diversified growth in the portfolio.

The average yields on loans were 5.66% for 2013 down from 5.77% for 2012. We attribute much of the decrease in yield to intense pricing competition in our service area.

Interest on investment securities increased by \$270 thousand as a result of an increase in yield of 12 basis points from 1.28% during 2012 to 1.40% during 2013 and an increase in average balance from \$69.7 million in 2012 to \$82.8 million in 2013. The increase in yield includes an increase in government sponsored agency residential mortgage backed securities as a percentage of total securities and an increase in market yields.

Interest income on interest-bearing deposits, which totaled \$124 thousand in 2013 and \$106 thousand in 2012, mostly relates to interest on cash balances held at the Federal Reserve.

Interest expense on deposits decreased by \$247 thousand, or 29%, to \$600 thousand for the twelve months ended December 31, 2013, down from \$847 thousand in 2012. Interest expense on time deposits declined by \$232 thousand from \$513 thousand at December 31, 2012 to \$281 thousand at December 31, 2013. Average time deposits declined by \$10.1 million from \$76.1 million during 2012 to \$66.0 million for the year ended December 31, 2013. We attribute much of this decline to migration into other types of deposits given the low rates and lack of liquidity associated with time deposits. The average rate paid on time deposits decreased from 0.67% during 2012 to 0.43% during the current twelve month period. This decrease primarily relates to a decline in market rates paid in the Company's service area and the maturity of higher rate time deposits.

Interest expense on NOW accounts declined by \$21 thousand. Rates paid on NOW accounts declined by 2 basis points from 0.13% during 2012 to 0.11% during 2013. Average balances increased by \$1.3 million from 2012. Interest expense on money market accounts decreased by \$9 thousand related to a decrease in rate paid on these accounts of 4 basis points from 0.21% during 2012 to 0.17% during 2013. Average money market balances increased by \$5.8 million from \$42.9 million during 2012 to \$48.7 million in 2013. Interest expense on savings accounts increased by \$15 thousand as we have experienced strong growth in this category of deposits. Average savings deposits increased by \$15.7 million from \$68.8 million during 2012 to \$84.5 million during 2013. The average rate paid on savings accounts during this same period declined from 19 basis points during 2012 to 17 basis points during 2013. The decline in rates paid on deposits is consistent with a decline in competitive market rates in our service area.

Interest expense on other interest-bearing liabilities increased by \$507 thousand from \$427 thousand during the twelve months ending December 31, 2012 to \$934 thousand during 2013. This increase was related to \$541 thousand in interest expense on the \$7.5 million subordinated debenture. The effective yield on the debenture was 10.4% which was in excess of the 7.5% rate due to amortization of a \$75 thousand commitment fee and a discount recorded on issuance of \$318 thousand.

Interest expense on junior subordinated debentures decreased by \$31 thousand from 2012. Interest expense on our outstanding note payable for 2013 totaled \$23 thousand. Interest on other borrowings, which totaled \$57 thousand in 2013 and \$83 thousand in 2012, primarily relates to interest paid on repurchase agreements.

Net interest margin is net interest income expressed as a percentage of average interest-earning assets. As a result of the changes noted above, the net interest margin for 2013 decreased 15 basis points to 4.03%, from 4.18% for 2012.

Provision for Loan Losses

During the year ended December 31, 2014 we recorded a provision for loan losses of \$1.1 million, down \$300 thousand from the \$1.4 million provision recorded during 2013. See “Analysis of Asset Quality and Allowance for Loan Losses” for further discussion of loan quality trends and the provision for loan losses.

The allowance for loan losses is maintained at a level that management believes will be appropriate to absorb inherent losses on existing loans based on an evaluation of the collectability of the loans and prior loan loss experience. The evaluations take into consideration such factors as changes in the nature and volume of the portfolio, overall portfolio quality, review of specific problem loans, and current economic conditions that may affect the borrower's ability to repay their loan. The allowance for loan losses is based on estimates, and ultimate losses may vary from the current estimates. These estimates are reviewed periodically and, as adjustments become necessary, they are reported in earnings in the periods in which they become known.

Based on information currently available, management believes that the allowance for loan losses is appropriate to absorb potential risks in the portfolio. However, no assurance can be given that the Company may not sustain charge-offs which are in excess of the allowance in any given period.

Non-Interest Income

The following table sets forth the components of non-interest income for the years ended December 31, 2014, 2013 and 2012.

	Years Ended December 31,			Change during Year	
	2014	2013	2012	2014	2013
	<i>(dollars in thousands)</i>				
Service charges on deposit accounts	\$ 4,108	\$ 3,912	\$ 3,617	\$ 196	\$ 295
Gain on sale of loans, net	1,396	1,399	1,324	(3)	75
Gain on sale of investments	128	-	403	128	(403)
Earnings on bank owned life insurance policies	341	344	345	(3)	(1)
Loan servicing fees	502	323	215	179	108
Other income	840	664	692	176	(28)
Total non-interest income	\$ 7,315	\$ 6,642	\$ 6,596	\$ 673	\$ 46

2014 compared to 2013. During the twelve months ended December 31, 2014 non-interest income totaled \$7.3 million an increase of \$673 thousand from the twelve months ended December 31, 2013. The largest component of this increase was an increase of \$196 thousand in service charge income which we attribute to growth in the Company's demand deposit accounts, an increase in debit card interchange income and a restructuring of our service charge fee structure beginning in August of 2013. During July and August 2014 we sold fourteen available-for-sale securities totaling \$16.2 million recognizing a gain on sale of \$128 thousand. Loan servicing fees, which totaled \$502 thousand for the 12 months ended December 31, 2014, increased by \$179 thousand from 2013. Loan servicing fees mostly relate to servicing income on the sold portion of government guaranteed small business administration loans. Other non-interest income increased by \$176 thousand mostly related to a \$148 thousand gain on the sale of our credit card portfolio during the fourth quarter of 2014. Prior to the sale, credit card loans represented less than one-half of a percent of our loan portfolio.

2013 compared to 2012. During the twelve months ended December 31, 2013 non-interest income totaled \$6.6 million an increase of \$46 thousand from 2012. The largest component of this change was an increase of \$295 thousand in service charges on deposit accounts which we attribute to growth in the Company's demand deposit accounts, an increase in debit card interchange income and a restructuring of our service charge fee schedule beginning in August of 2013. Gains on sale of government guaranteed loans increased by \$75 thousand. During 2012 we sold 53 loans receiving proceeds of \$20.1 million on sale. Sales proceeds increased to \$21.7 million in

2013 related to the sale of 55 loans. During 2013 loan servicing income totaled \$323 thousand an increase of \$108 thousand from \$215 thousand during 2012.

The largest decrease in non-interest income was \$403 thousand in gain on sale of investment securities. No investment securities were sold in 2013. During 2012 we sold twenty-five available-for-sale securities totaling \$20.8 million recognizing a gain on sale of \$403 thousand.

Non-Interest Expense

The following table sets forth the components of other non-interest expense for the years ended December 31, 2014, 2013 and 2012.

	Years Ended December 31,			Change during Year	
	2014	2013	2012	2014	2013
	<i>(dollars in thousands)</i>				
Salaries and employee benefits	\$ 9,474	\$ 8,729	\$ 8,968	745	\$ (239)
Occupancy and equipment	2,902	2,874	3,023	28	(149)
Outside service fees	2,042	1,855	1,503	187	352
Professional fees	583	831	875	(248)	(44)
Deposit insurance	387	435	613	(48)	(178)
OREO costs	362	310	187	52	123
Telephone and data communications	351	287	308	64	(21)
Director compensation and retirement	298	232	255	66	(23)
Advertising and promotion	282	281	251	1	30
Business development	279	291	268	(12)	23
Provision for OREO losses	240	486	907	(246)	(421)
Armored car and courier	224	228	224	(4)	4
Loan collection costs	182	212	219	(30)	(7)
Stationery and supplies	122	113	124	9	(11)
Postage	45	51	104	(6)	(53)
Core deposit intangible	-	128	173	(128)	(45)
Insurance	(9)	112	120	(121)	(8)
(Gain) loss on sale of OREO	(101)	(171)	16	70	(187)
Other operating expense	182	286	239	(104)	47
Total non-interest expense	\$ 17,845	\$ 17,570	\$ 18,377	\$ 275	\$ (807)

2014 compared to 2013. During the twelve months ended December 31, 2014, total non-interest expense increased by \$275 thousand, or 2%, to \$17.8 million, up from \$17.6 million for the comparable period in 2013. The largest components of this increase were \$745 thousand in salary and benefit expense, \$187 thousand in outside service fees and \$70 thousand related to reduction in gain on sale of OREO. The largest declines in non-interest expense were \$248 thousand in professional fees, \$246 thousand in provision for OREO losses, \$128 thousand in deposit premium amortization and \$121 thousand in insurance expense.

Salaries and employee benefits increased by \$745 thousand primarily related to an increase in bonus expense of \$350 thousand. The Bank's bonus plan for 2014 provides for a bonus pool of 60% of the amount that pretax income exceeds budgeted pretax income with a cap of \$600 thousand. Bonus expense was \$600 thousand for the twelve months ended December 31, 2014 and \$250 thousand during the twelve months ended December 31, 2013. In both years the maximum allowed under the bonus plans was earned. Salary expense, exclusive of commissions, increased by \$265 thousand as a decline of four employees from 159 at December 31, 2013 to 155 at December 31, 2014 was offset by an increase in average salary per employee which includes the effect of merit and promotional increases.

Other increases include, but were not limited to an \$89 thousand increase in commissions, which relate to government guaranteed loan production, and a \$67 thousand increase in payroll tax expense. Partially offsetting these items was an increase in deferred loan origination costs totaling \$104 thousand.

Of the \$187 thousand increase in outside service fees, \$96 thousand was related to the outsourcing of our item processing beginning in June of 2013. This cost has been offset by savings in salary and benefit expense and software expense. In addition we incurred an increase in costs for the management of our investment portfolio and an increase in costs related to an increase in debit card interchange transactions.

Professional fees benefited from reductions in legal expense related to loan collection activities totaling \$148 thousand, a reduction in corporate legal expense of \$88 thousand mostly related to the repurchase of the preferred stock in 2013 and a reduction in audit expense related to a change in audit firms beginning in 2014.

When other real estate is acquired, any excess of the Bank's recorded investment in the loan balance and accrued interest income over the estimated fair market value of the property less costs to sell is charged against the allowance for loan losses. A valuation allowance for losses on other real estate is maintained to provide for temporary declines in value. The allowance is established through a provision for subsequent losses on other real estate which is included in other expenses. Subsequent gains or losses on sales or write-downs resulting from impairment are recorded as incurred. The provision for OREO losses declined by \$246 thousand from \$486 thousand during the twelve months ended December 31, 2013 to \$240 thousand during the current period. During the second quarter of 2013 we recorded a \$300 thousand provision related to one land development property.

Insurance expense benefited from a one-time adjustment to accrued life insurance costs. The deposit premium intangible asset was fully amortized at the end of September, 2013 resulting in a savings of \$128 thousand during the comparison periods.

2013 compared to 2012. Non-interest expense declined by \$807 thousand from \$18.4 million during the twelve months ended December 31, 2012 to \$17.6 million during 2013. Reductions of \$239 thousand in salary and benefits expense, \$421 thousand in the provision for changes in OREO, \$187 thousand in gain/loss on sale of OREO, \$149 thousand in occupancy and equipment, \$44 thousand in professional fees, \$178 thousand in deposit insurance and \$53 thousand in postage were partially offset by increases in other expenses, the largest of which were outside service fees of \$352 thousand and costs associated with OREO properties of \$123 thousand.

During June of 2012 we outsourced the processing of our account statements and notices and during June of 2013 we outsourced our item processing department resulting in savings in salary expense, occupancy and equipment costs, postage and stationary costs. The \$178 thousand reduction in deposit insurance expense is related to a decline in the rate charged to Plumas Bank. The reduction in professional fees primarily relates to a decrease in consulting costs.

Salaries and employee benefits decreased by \$239 thousand primarily related to declines in salary continuation expense and stock compensation expense and an increase in deferred loan origination costs. Salary continuation expense declined by \$188 thousand related to an adjustment in 2012. During 2012, related to a significant reduction in long term market interest rates, we reduced the discount rates used in calculating the present value of our salary continuation liabilities. This had the effect of increasing salary continuation expense during 2012 by \$195 thousand. Stock compensation expense decreased by \$58 thousand from \$93 thousand during 2012 to \$35 thousand during the current period. During the first quarter of 2012 we had an adjustment to the estimated forfeiture rate resulting in an increase in stock compensation; no adjustment was required during 2013. The largest reduction in salary and benefits was related to an increase in deferred loan origination costs totaling \$384 thousand. We attribute this increase in deferred loan origination costs to an increase in lending activity. These items were partially offset by an increase in bonus expense of \$250 thousand and salary expense of \$173 thousand. The Bank's bonus plan for 2013 provided for a bonus pool of 50% of the amount that pretax income exceeds budgeted pretax income with a cap of \$250 thousand. The maximum amount was allocated under this formula. There was no bonus plan in place and no bonuses were earned or paid in 2012. Salary expense increased by \$173 thousand as savings related to the outsourcing of statement and item processing were offset by an increase in loan production personnel and salary increases.

The \$486 thousand OREO provision during 2013, a \$421 thousand decline from 2012, resulted from declines in value of ten properties. The \$907 thousand in OREO provision during the 2012 was related to a decline in the value of twenty-one properties. During the year ended December 31, 2013, we sold twenty-eight properties and a portion of another property recording a gain on sale of \$171 thousand. During 2012, we sold fourteen properties and a portion of two other properties recording a loss on sale of \$16 thousand.

The increase in outside service fees was related to the outsourcing of our statement and notice processing in June of 2012, the outsourcing of our item processing beginning in June of 2013, an increase in costs related to monitoring and maintaining our ATMs and an increase in the cost of managing our investment portfolio. During 2012 the Bank modernized its ATM network by purchasing new ATM machines which have the ability to accept currency and checks and provide an imaged receipt. While these ATMs provide a significant increase in functionality, they are also more expensive to operate and maintain. During the first half of 2012 we began to use a third party for assistance with the analysis and management of our investment securities portfolio. The increase in cost during 2013 for this function was related to a full year of costs and an increase in the balance of our portfolio.

OREO expense during the 2012 period benefited from \$80 thousand in rental income net of operating expenses on an apartment building acquired in July 2011. Both the rental income and the operating expenses are included under the category of OREO expense. This building was sold during the third quarter of 2012. The remaining increase in OREO expense during 2013 primarily relates to an increase in legal expense as we are actively pursuing additional recoveries on selected OREO properties through legal channels.

Provision for Income Taxes. The Company recorded an income tax provision of \$3.1 million, or 39.4% of pre-tax income for the year ended December 31, 2014. During 2013 the Company recorded an income tax provision of \$2.2 million, or 38.7% of pre-tax income for the year ended December 31, 2013. The percentages for 2014 and 2013 differ from the statutory rate as tax exempt income such as earnings on Bank owned life insurance, municipal loan interest and in 2013 state of California enterprise zone interest, decrease taxable income.

Deferred tax assets and liabilities are recognized for the tax consequences of temporary differences between the reported amount of assets and liabilities and their tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The determination of the amount of deferred income tax assets which are more likely than not to be realized is primarily dependent on projections of future earnings, which are subject to uncertainty and estimates that may change given economic conditions and other factors. The realization of deferred income tax assets is assessed and a valuation allowance is recorded if it is "more likely than not" that all or a portion of the deferred tax asset will not be realized. "More likely than not" is defined as greater than a 50% chance. All available evidence, both positive and negative is considered to determine whether, based on the weight of that evidence, a valuation allowance is needed.

Based upon the analysis of available evidence, management has determined that it is "more likely than not" that all deferred income tax assets as of December 31, 2014 and 2013 will be fully realized and therefore no valuation allowance was recorded.

Financial Condition

Loan Portfolio. Net loans increased by \$32.4 million, or 10%, from \$334.4 million at December 31, 2013 to \$366.8 million at December 31, 2014. The two largest areas of growth in the Company's loan portfolio were \$14.3 million in automobile loans and \$7.4 million in commercial real estate loans. Additionally, construction and land development loans increased by \$6.8 million to \$24.6 million and agricultural loans increased by \$4.7 million. The Company continues to manage the mix of its loan portfolio consistent with its identity as a community bank serving the financing needs of all sectors of the area it serves. Although the Company offers a broad array of financing options, it continues to concentrate its focus on small to medium sized commercial businesses. These commercial loans offer diversification as to industries and types of businesses, thus limiting material exposure in any industry concentrations. The Company offers both fixed and floating rate loans and obtains collateral in the form of real property, business assets and deposit accounts, but looks to business and personal cash flows as its primary source of repayment.

As shown in the following table the Company's largest lending categories are commercial real estate loans, auto loans, equity lines of credit, agricultural loans and commercial loans.

(dollars in thousands)	Balance at End of Period	Percent of Loans in Each Category to Total Loans	Balance at End of Period	Percent of Loans in Each Category to Total Loans
	12/31/14	12/31/14	12/31/13	12/31/13
Commercial	\$ 31,465	8.5%	\$ 32,612	9.6%
Agricultural	35,355	9.5%	30,647	9.0%
Real estate - residential	29,284	7.9%	31,322	9.3%
Real estate – commercial	163,306	44.1%	155,942	46.1%

Total Gross Loans	\$ 370,390	100%	\$ 338,551	100%

Construction and land development loans represented 6.6% and 5.3% of the loan portfolio as of December 31, 2014 and December 31, 2013, respectively. The construction and land development portfolio component has been identified by Management as a higher-risk loan category. The quality of the construction and land development category is highly dependent on property values both in terms of the likelihood of repayment once the property is transacted by the current owner as well as the level of collateral the Company has securing the loan in the event of default. Loans in this category are characterized by the speculative nature of commercial and residential development properties and can include property in various stages of development from raw land to finished lots. The decline in these loans as a percentage of the Company's loan portfolio from over 21% at December 31, 2007 to less than 7% during the last two years reflects management's efforts, which began in 2009, to reduce its exposure to construction and land development loans.

The Company's real estate related loans, including real estate mortgage loans, real estate construction and land development loans, consumer equity lines of credit, and agricultural loans secured by real estate comprised 74% of the total loan portfolio at December 31, 2014. Moreover, the business activities of the Company currently are focused in the California counties of Plumas, Nevada, Placer, Lassen, Modoc, Shasta, Sierra and in Washoe County in Northern Nevada. Consequently, the results of operations and financial condition of the Company are dependent upon the general trends in these economies and, in particular, the residential and commercial real estate markets. In addition, the concentration of the Company's operations in these areas of Northeastern California and Northwestern Nevada exposes it to greater risk than other banking companies with a wider geographic base in the event of catastrophes, such as earthquakes, fires and floods in these regions.

The rates of interest charged on variable rate loans are set at specific increments in relation to the Company's lending rate or other indexes such as the published prime interest rate or U.S. Treasury rates and vary with changes in these indexes. At December 31, 2014 and December 31, 2013, approximately 71% and 73%, respectively of the Company's loan portfolio was comprised of variable rate loans. At December 31, 2014 and December 31, 2013, 42% and 40%, respectively of the variable loans were at their respective floor rate. While real estate mortgage, commercial and consumer lending remain the foundation of the Company's historical loan mix, some changes in the mix have occurred due to the changing economic environment and the resulting change in demand for certain loan types. The most significant change has been an increase in indirect auto lending with automobile loans increasing from 2.5% of gross loans at December 31, 2011 to 12.1% of gross loans at December 31, 2014. The automobile portfolio provides diversification to the loan portfolio in terms of rate, term and balance as these loans tend to have a much shorter term and balance than commercial real-estate loans and are fixed rate. In addition, the Company remains committed to the agricultural industry in Northeastern California and will continue to pursue high quality agricultural loans. Agricultural loans include both commercial and commercial real estate loans. The Company's agricultural loan balances totaled \$35 million at December 31, 2014 and \$31 million at December 31, 2013.

The following table sets forth the amounts of loans outstanding by category as of the dates indicated.

	At December 31,				
	2014	2013	2012	2011	2010
	<i>(dollars in thousands)</i>				
Real estate – mortgage	\$ 192,590	\$ 187,264	\$ 174,212	\$ 158,431	\$ 162,513
Real estate – construction and land development	24,572	17,793	15,801	17,063	31,199
Commercial	31,465	32,612	29,552	30,235	33,433
Consumer (1)	86,408	70,235	60,368	49,268	48,586
Agriculture (2)	35,355	30,647	35,124	38,868	38,469
Total loans	370,390	338,551	315,057	293,865	314,200
Plus:					
Deferred costs	1,848	1,340	900	475	275
Less:					
Allowance for loan losses	5,451	5,517	5,686	6,908	7,324
Net loans	\$ 366,787	\$ 334,374	\$ 310,271	\$ 287,432	\$ 307,151

(1) Includes equity lines of credit and auto

(2) Includes agriculture real estate

The following table sets forth the maturity of gross loan categories as of December 31, 2014. Also provided with respect to such loans are the amounts due after one year, classified according to sensitivity to changes in interest rates:

	Within One Year	After One Through Five Years	After Five Years	Total
		<i>(dollars in thousands)</i>		
Real estate – mortgage	\$ 11,320	\$ 58,463	\$ 122,807	\$ 192,590
Real estate – construction and land development	6,542	7,512	10,518	24,572
Commercial	10,962	10,712	9,791	31,465
Consumer	11,077	39,485	35,846	86,408
Agriculture	13,208	8,189	13,958	35,355
Total	\$ 53,109	\$ 124,361	\$ 192,920	\$ 370,390
Loans maturing after one year with:				
Fixed interest rates		\$ 53,957	\$ 38,017	\$ 91,974
Variable interest rates		70,404	154,903	225,307
Total		\$ 124,361	\$ 192,920	\$ 317,281

Analysis of Asset Quality and Allowance for Loan Losses. The Company attempts to minimize credit risk through its underwriting and credit review policies. The Company's credit review process includes internally prepared credit reviews as well as contracting with an outside firm to conduct periodic credit reviews. The Company's management and lending officers evaluate the loss exposure of classified and impaired loans on a quarterly basis, or more frequently as loan conditions change. The Management Asset Resolution Committee (MARC) reviews the asset quality of criticized and past due loans on a monthly basis and reports the findings to the full Board of Directors. In management's opinion, this loan review system helps facilitate the early identification of potential criticized loans.

The Company has implemented MARC to develop an action plan to significantly reduce nonperforming assets. It consists of the Bank's Chief Executive Officer, Chief Financial Officer and Chief Credit Officer, and the activities are governed by a formal written charter. The MARC meets at least monthly and reports to the Board of Directors.

More specifically, a formal plan to effect repayment and/or disposition of every significant nonperforming loan relationship is developed and documented for review and on-going oversight by the MARC. Some of the strategies used include but are not limited to: 1) obtaining additional collateral, 2) obtaining additional investor cash infusion, 3) sale of the promissory note to an outside party, 4) proceeding with foreclosure on the underlying collateral, and 5) legal action against borrower/guarantors to encourage settlement of debt and/or collect any deficiency balance owed. Each step includes a benchmark timeline to track progress.

MARC also provides guidance for the maintenance and timely disposition of OREO properties; including developing financing and marketing programs to incent individuals to purchase OREO.

The allowance for loan losses is established through charges to earnings in the form of the provision for loan losses. Loan losses are charged to and recoveries are credited to the allowance for loan losses. The allowance for loan losses is maintained at a level deemed appropriate by management to provide for known and inherent risks in the loan portfolio. The adequacy of the allowance for loan losses is based upon management's continuing assessment of various factors affecting the collectability of loans; including current economic conditions, maturity of the portfolio, size of the portfolio, industry concentrations, borrower credit history, collateral, the existing allowance for loan losses, independent credit reviews, current charges and recoveries to the allowance for loan losses and the overall quality of the portfolio as determined by management, regulatory agencies, and independent credit review consultants retained by the Company. There is no precise method of predicting specific losses or amounts which may ultimately be charged off on particular segments of the loan portfolio. The collectability of a loan is subjective to some degree, but must relate to the borrower's financial condition, cash flow, quality of the borrower's management expertise, collateral and guarantees, and state of the local economy.

Formula allocations are calculated by applying loss factors to outstanding loans with similar characteristics. Loss factors are based on the Company's historical loss experience as adjusted for changes in the business cycle and may be adjusted for significant factors that, in management's judgment, affect the collectability of the portfolio as of the evaluation date. Historical loss data from the beginning of the latest business cycle are incorporated in the loss factors.

The discretionary allocation is based upon management's evaluation of various loan segment conditions that are not directly measured in the determination of the formula and specific allowances. The conditions may include, but are not limited to, general economic and business conditions affecting the key lending areas of the Company, credit quality trends, collateral values, loan volumes and concentrations, and other business conditions.

The following table provides certain information for the years indicated with respect to the Company's allowance for loan losses as well as charge-off and recovery activity.

	For the Year Ended December 31,				
	2014	2013	2012	2011	2010
	<i>(dollars in thousands)</i>

(1) Includes equity lines of credit and auto

(2) Includes agriculture real estate

During the year ended December 31, 2014 we recorded a provision for loan losses of \$1.1 million down \$300 thousand from the \$1.4 million provision recorded during the year ended December 31, 2013. Net charge-offs totaled \$1.2 million during the year ended December 31, 2014 down \$403 thousand from \$1.6 million during 2013. Net charge-offs as a percentage of average loans decreased from 0.49% during 2013 to 0.33% during the year ended December 31, 2014.

The following table provides a breakdown of the allowance for loan losses:

(dollars in thousands)	Balance at	Percent of	Balance at	Percent of
	End of Period	Loans in Each Category to Total Loans	End of Period	Loans in Each Category to Total Loans
	2014	2014	2013	2013
Commercial and agricultural	\$ 799	18.0%	\$ 949	18.6%
Real estate mortgage	2,080	52.0%	2,412	55.4%
Real estate construction	1,227	6.6%	944	5.3%
Consumer (includes equity LOC & Auto)	1,345	23.4%	1,212	20.7%
Total	\$ 5,451	100.0%	\$ 5,517	100.0%

The allowance for loan losses totaled \$5.5 million at December 31, 2014 and December 31, 2013. Specific reserves related to impaired loans decreased by \$65 thousand from \$629 thousand at December 31, 2013 to \$564 thousand at December 31, 2014. At least quarterly the Company evaluates each specific reserve and if it determines that the loss represented by the specific reserve is uncollectable it records a charge-off for the uncollectable portion. General reserves were \$4.9 million at December 31, 2014 and December 31, 2013. The allowance for loan losses as a percentage of total loans decreased from 1.63% at December 31, 2013 to 1.47% at December 31, 2014. The percentage of general reserves to unimpaired loans decreased from 1.49% at December 31, 2013 to 1.35% at December 31, 2014 primarily related to reductions in historical net charge-offs.

The Company places loans 90 days or more past due on nonaccrual status unless the loan is well secured and in the process of collection. A loan is considered to be in the process of collection if, based on a probable specific event, it is expected that the loan will be repaid or brought current. Generally, this collection period would not exceed 90 days. When a loan is placed on nonaccrual status the Company's general policy is to reverse and charge against current income previously accrued but unpaid interest. Interest income on such loans is subsequently recognized only to the extent that cash is received and future collection of principal is deemed by management to be probable. Where the collectability of the principal or interest on a loan is considered to be doubtful by management, it is placed on nonaccrual status prior to becoming 90 days delinquent.

Impaired loans are measured based on the present value of the expected future cash flows discounted at the loan's effective interest rate or the fair value of the collateral if the loan is collateral dependent. The amount of impaired loans is not directly comparable to the amount of nonperforming loans disclosed later in this section. The primary difference between impaired loans and nonperforming loans is that impaired loan recognition considers not only loans 90 days or more past due, restructured loans and nonaccrual loans but also may include identified problem loans other than delinquent loans where it is considered probable that we will not collect all amounts due to us (including both principal and interest) in accordance with the contractual terms of the loan agreement.

A restructuring of a debt constitutes a troubled debt restructuring (TDR) if the Company, for economic or legal reasons related to the debtor's financial difficulties, grants a concession to the debtor that it would not otherwise consider. Restructured workout loans typically present an elevated level of credit risk as the borrowers are not able to perform according to the original contractual terms. Loans that are reported as TDRs are considered impaired and measured for impairment as described above.

Loans restructured (TDRs) and not included in nonperforming loans in the following table totaled \$2.0 million, \$4.5 million, \$5.4 million, \$8.6 million and \$2.0 million at December 31, 2014, 2013, 2012, 2011 and 2010, respectively. For additional information related to restructured loans see Note 6 of the Company's Consolidated Financial Statements in Item 8 – Financial Statements and Supplementary Data of this Annual Report on Form 10K.

The following table sets forth the amount of the Company's nonperforming assets as of the dates indicated.

	At December 31,				
	2014	2013	2012	2011	2010
	<i>(dollars in thousands)</i>				
Nonaccrual loans	\$ 6,625	\$ 5,519	\$ 13,683	\$ 16,757	\$ 25,313
Loans past due 90 days or more and still accruing	-	17	15	72	45
Total nonperforming loans	6,625	5,536	13,698	16,829	25,358
Other real estate owned	3,590	6,399	5,295	8,623	8,867
Other vehicles owned	13	60	41	57	17
Total nonperforming assets	\$ 10,228	\$ 11,995	\$ 19,034	\$ 25,509	\$ 34,242
Interest income forgone on nonaccrual loans	\$ 345	\$ 280	\$ 646	\$ 510	\$ 1,021
Interest income recorded on a cash basis on nonaccrual loans	\$ 31	\$ 22	\$ 192	\$ 285	\$ 608
Nonperforming loans to total loans	1.79%	1.64%	4.35%	5.73%	8.07%
Nonperforming assets to total assets	1.90%	2.33%	3.98%	5.60%	7.07%

Nonperforming loans at December 31, 2014 were \$6.6 million, an increase of \$1.1 million from the \$5.5 million balance at December 31, 2013. Specific reserves on nonaccrual loans totaled \$522 thousand at December 31, 2014 and \$578 thousand at December 31, 2013, respectively. Performing loans past due thirty to eighty-nine days increased by \$0.1 million from \$1.5 million at December 31, 2013 to \$1.6 million at December 31, 2014.

A substandard loan is not adequately protected by the current sound worth and paying capacity of the borrower or the value of the collateral pledged, if any. Total substandard loans increased by \$612 thousand from \$7.5 million at December 31, 2013 to \$8.1 million at December 31, 2014. Loans classified as watch decreased by \$1.4 million from \$5.8 million at December 31, 2013 to \$4.4 million at December 31, 2014. At December 31, 2014, \$1.6 million of performing loans were classified as substandard. Further deterioration in the credit quality of individual performing substandard loans or other adverse circumstances could result in the need to place these loans on nonperforming status.

At December 31, 2014 and December 31, 2013, the Company's recorded investment in impaired loans totaled \$8.6 million and \$9.8 million, respectively. The specific allowance for loan losses related to impaired loans totaled \$564 thousand and \$629 thousand at December 31, 2014 and December 31, 2013, respectively. Additionally, \$0.7 million has been charged off against the impaired loans at December 31, 2014 and December 31, 2013.

It is the policy of management to make additions to the allowance for loan losses so that it remains appropriate to absorb the inherent risk of loss in the portfolio. Management believes that the allowance at December 31, 2014 is appropriate. However, the determination of the amount of the allowance is judgmental and subject to economic conditions which cannot be predicted with certainty. Accordingly, the Company cannot predict whether charge-offs of loans in excess of the allowance may occur in future periods.

OREO represents real property acquired by the Bank either through foreclosure or through a deed in lieu thereof from the borrower. Repossessed assets include vehicles and other commercial assets acquired under agreements with delinquent borrowers. OREO holdings represented fifteen properties totaling \$3.6 million at December 31, 2014 and twenty-six properties totaling \$6.4 million at December 31, 2013. During June 2014 the Company sold its largest property in OREO, a land development property with an OREO value of \$2.2 million which represented 36% of the total OREO balance prior to sale. A gain of \$28 thousand was recorded on the sale of this property. Nonperforming assets as a percentage of total assets were 1.90% at December 31, 2014 and 2.33% at December 31, 2013.

The following table provides a summary of the change in the number and balance of OREO properties for the years ended December 31, 2014 and 2013, dollars in thousands:

	Year Ended December 31,			
	#	2014	#	2013
Beginning Balance	26	\$ 6,399	40	\$ 5,295
Additions	6	729	14	3,824
Dispositions	(17)	(3,298)	(28)	(2,234)
Provision from change in OREO valuation	-	(240)	-	(486)
Ending Balance	15	\$ 3,590	26	\$ 6,399

Investment Portfolio and Federal Funds Sold. Total investment securities were \$90.3 million as of December 31, 2014 and December 31, 2013. During the twelve months ended December 31, 2014 we sold investment securities with a book balance of \$16.2 million and recognized a gain on sale of \$128 thousand. The investment portfolio at December 31, 2014 consisted of \$77.3 million in securities of U.S. Government-sponsored agencies, 52 municipal securities totaling \$12.5 million and one corporate security totaling \$0.5 million. Included in the \$90.3 million at December 31, 2013 were \$89.0 million in securities of U.S. Government-sponsored agencies and six municipal securities totaling \$1.3 million.

There were no Federal funds sold at December 31, 2014 and December 31, 2013; however, the Bank maintained interest earning balances at the Federal Reserve Bank (FRB) totaling \$22.9 million at December 31, 2014 and \$29.1 million at December 31, 2013. These balances currently earn 25 basis points.

The Company classifies its investment securities as available-for-sale or held-to-maturity. Currently all securities are classified as available-for-sale. Securities classified as available-for-sale may be sold to implement the Company's asset/liability management strategies and in response to changes in interest rates, prepayment rates and similar factors.

The following tables summarize the values of the Company's investment securities held on the dates indicated:

Available-for-sale (fair value)	December 31,		
	2014	2013	2012
	<i>(dollars in thousands)</i>		
U.S. Government-sponsored agencies	\$ 7,002	\$ 27,097	\$ 38,442
U.S. Government-sponsored agency residential mortgage-backed securities	70,280	61,875	42,522
Municipal obligations	12,532	1,371	-
Corporate debt	506	-	-
Total	\$ 90,320	\$ 90,343	\$ 80,964

The following table summarizes the maturities of the Company's securities at their carrying value, which represents fair value, and their weighted average tax equivalent yields at December 31, 2014. Mortgage-backed securities are included in maturity categories based on their stated maturity date. Expected maturities may differ from contractual maturities because the issuers may have the right to call or prepay obligations.

<i>(dollars in thousands)</i> Available-for-sale (Fair Value)	Within One Year		After One Through Five Years		After Five Through Ten Years		After Ten Years		Total	
	Amount	Yield	Amount	Yield	Amount	Yield	Amount	Yield	Amount	Yield

Deposits. During 2013 and continuing into 2014 we have experienced strong core deposit growth and have benefited from the closing of two branches of a large national bank in our service area. Total deposits increased by \$18.5 million from \$449 million at December 31, 2013 to \$468 million at December 31, 2014. Core deposit growth remained strong in 2014 as evidenced by increases of \$17.8 million in demand deposits and \$12.3 million in savings accounts. Time deposits declined by \$6.3 million, much of which we attribute to migration into other types of deposits given the low rates and lack of liquidity associated with time deposits. Interest-bearing transaction accounts (NOW) declined by \$0.5 million and money market accounts declined by \$4.8 million.

The Company continues to manage the mix of its deposits consistent with its identity as a community bank serving the financial needs of its customers. The following table shows the distribution of deposits by type at December 31, 2014 and 2013.

<i>(dollars in thousands)</i>	Balance at	Percent of	Balance at	Percent of
	End of Period	Deposits in Each Category	End of Period	Deposits in Each Category
	12/31/14	12/31/14	12/31/13	12/31/13
Non-interest bearing	\$ 180,649	38.6%	\$ 162,816	36.2%
NOW	82,144	17.6%	82,687	18.4%
Money Market	42,499	9.1%	47,331	10.5%
Savings	106,257	22.7%	93,922	20.9%
Time	56,342	12.0%	62,683	14.0%
Total Deposits	\$ 467,891	100%	\$ 449,439	100%

Deposits represent the Bank's primary source of funds. Deposits are primarily core deposits in that they are demand, savings and time deposits generated from local businesses and individuals. These sources are considered to be relatively stable, long-term relationships thereby enhancing steady growth of the deposit base without major fluctuations in overall deposit balances. The Company experiences, to a small degree, some seasonality with the slower growth period between November through April, and the higher growth period from May through October. In order to assist in meeting any funding demands, the Company maintains a secured borrowing arrangement with the FHLB. There were no brokered deposits at December 31, 2014 or 2013.

The Company's time deposits of \$100,000 or more had the following schedule of maturities at December 31, 2014:

<i>(dollars in thousands)</i>	
Remaining Maturity:	Amount
Three months or less	\$ 7,277
Over three months to six months	4,601
Over six months to 12 months	6,296
Over 12 months	4,283
Total	<u>\$ 22,457</u>

Time deposits of \$100,000 or more are generally from the Company's local business and individual customer base. The potential impact on the Company's liquidity from the withdrawal of these deposits is discussed at the Company's asset and liability management committee meetings, and is considered to be minimal.

Short-term Borrowing Arrangements. The Company is a member of the FHLB and can borrow up to \$133,000,000 from the FHLB secured by commercial and residential mortgage loans with carrying values totaling \$205,000,000. The Company is required to hold FHLB stock as a condition of membership. At December 31, 2014 and 2013, the Company held \$2,380,000 and \$2,226,000 of FHLB stock which is recorded as a component of other assets. Based on the level of stock holdings at December 31, 2014, the Company can borrow up to \$50,600,000. To borrow the \$133,000,000 in available credit the Company would need to purchase \$3,900,000 in additional FHLB stock. In addition to its FHLB borrowing line, the Company has unsecured short-term borrowing agreements with three of its correspondent banks in the amounts of \$11 million, \$10 million and \$10 million. There were no outstanding borrowings to the FHLB or the correspondent banks under these agreements at December 31, 2014 and 2013.

Note Payable. On October 24, 2013 the Bancorp issued a \$3 million promissory note (the "Note") payable to an unrelated commercial bank. The note bears interest at the U.S. "Prime Rate" plus three-quarters percent per annum, 4.00% at December 31, 2014 and 2013, has a term of 18 months and is secured by 100 shares of Plumas Bank stock representing the Company's 100% ownership interest in Plumas Bank. Interest expense related to this note for the years ended December 31, 2014 and 2013 totaled \$111,000 and \$23,000, respectively. Under the Note the Bank is subject to several negative and affirmative covenants including, but not limited to providing timely financial information, maintaining specified levels of capital, restrictions on additional borrowings, and meeting or exceeding certain capital and asset quality ratios. The Bank was in compliance with all such requirements at December 31, 2014 and December 31, 2013.

On July 28, 2014, Plumas Bancorp entered into a Renewal, Extension, and Modification of Loan Agreement (the "Agreement") related to the Note. This Agreement provides for the following changes, among others:

- 1.) The maturity date of the Note is October 24, 2015.
- 2.) The maximum amount of the Note is \$7.5 million.
- 3.) The Company may borrow, repay, and reborrow up to the principal face amount of the Note.

The above provisions are subject to the following conditions:

- 1.) An advance under the Note in excess of \$3 million is subject to the lender completing a satisfactory loan review of the Company.
- 2.) The Company shall provide an assignment of Key Man life Policy(s) in a minimum amount of \$3.5 million.
- 3.) The Company shall not prepay the Company's Junior Subordinated Deferrable Interest Debentures until the Note has been paid in full.

On August 26, 2014 the Company made a \$2 million payment on the Note reducing the outstanding balance to \$1 million.

Repurchase Agreements. In 2011 Plumas Bank introduced a new product for their larger business customers which use repurchase agreements as an alternative to interest-bearing deposits. The balance in this product at December 31, 2014 was \$9.6 million an increase of \$0.5 million from the December 31, 2013 balance of \$9.1 million. Interest paid on this product is similar to that which is paid on the Bank's premium money market account; however, these are not deposits and are not FDIC insured.

Subordinated Debentures. On April 15, 2013, to help fund the repurchase of preferred stock during 2013, the Company issued a \$7.5 million subordinated debenture. The subordinated debt bears an interest rate of 7.5% per annum, has a term of 8 years with no prepayment allowed during the first two years and was made in conjunction with an eight-year warrant to purchase up to 300,000 shares of the Bancorp's common stock, no par value at an exercise price, subject to anti-dilution adjustments, of \$5.25 per share. The effective yield on the debenture was 10.3% which was in excess of the 7.5% rate due to amortization of a \$75 thousand commitment fee and a discount recorded on issuance of \$318 thousand. Interest expense related to the subordinated debt for the years ended December 31, 2014 and 2013 totaled \$756,000 and \$541,000, respectively.

The subordinated debt agreement provides that in the event of default with respect to the subordinated debt, the Bancorp will be subject to certain restrictions on the payment of dividends and distributions to shareholders, repurchase or redemption of the Bancorp's securities and payment on certain debts or guarantees. The subordinated debenture agreement also provides that in the event of default, Lender will have the right to appoint a director to the Bancorp's board of directors and/or the Plumas Bank board in certain limited circumstances. Under current capital guidelines the subordinated debt qualifies as Tier 2 capital; however, under Basel III guidelines effective January 1, 2015 it does not qualify for regulatory capital.

Junior Subordinated Deferrable Interest Debentures. Plumas Statutory Trust I and II are Connecticut business trusts formed by the Company with capital of \$304,000 and \$161,000, respectively, for the sole purpose of issuing trust preferred securities fully and unconditionally guaranteed by the Company. Under current applicable regulatory guidance, the amount of trust preferred securities (TRUPS) that is eligible as Tier 1 capital is limited to twenty-five percent of the Company's Tier 1 capital, as defined, on a pro forma basis. At December 31, 2014, all of the trust preferred securities that have been issued qualify as Tier 1 capital. Under Basel III guidelines the twenty-five percent limitation applies to Tier 1 capital exclusive of the TRUPS which we expect will result in a portion of the TRUPS not qualifying as Tier 1 capital. The amount of the TRUPS that does not qualify as Tier 1 capital will be included in Tier 2 capital.

During 2002, Plumas Statutory Trust I issued 6,000 Floating Rate Capital Trust Pass-Through Securities ("Trust Preferred Securities"), with a liquidation value of \$1,000 per security, for gross proceeds of \$6,000,000. During 2005, Plumas Statutory Trust II issued 4,000 Trust Preferred Securities with a liquidation value of \$1,000 per security, for gross proceeds of \$4,000,000. The entire proceeds were invested by Trust I in the amount of \$6,186,000 and Trust II in the amount of \$4,124,000 in Floating Rate Junior Subordinated Deferrable Interest Debentures (the "Subordinated Debentures") issued by the Company, with identical maturity, repricing and payment terms as the Trust Preferred Securities. The Subordinated Debentures represent the sole assets of Trusts I and II.

Trust I's Subordinated Debentures mature on September 26, 2032, bear a current interest rate of 3.66% (based on 3-month LIBOR plus 3.40%), with repricing and payments due quarterly. Trust II's Subordinated Debentures mature on September 28, 2035, bear a current interest rate of 1.72% (based on 3-month LIBOR plus 1.48%), with repricing and payments due quarterly. The interest rate of the Trust Preferred Securities issued by Trust I adjust on each quarterly anniversary date to equal the 3-month LIBOR plus 3.40%. The Trust Preferred Securities issued by Trust II adjust on each quarterly anniversary date to equal the 3-month LIBOR plus 1.48%. Both Trusts I and II have the option to defer payment of the distributions for a period of up to five years, as long as the Company is not in default on the payment of interest on the Subordinated Debentures.

Interest expense recognized by the Company for the years ended December 31, 2014, 2013 and 2012 related to the subordinated debentures was \$303,000, \$313,000 and \$344,000, respectively.

Capital Resources

Total shareholders' equity increased by \$5.9 million from \$30.6 million at December 31, 2013 to \$36.5 million at December 31, 2014. The \$5.9 million includes earnings during the twelve month period totaling \$4.7 million and a decrease in net unrealized loss on investment securities of \$1.1 million with the balance of \$0.1 million representing stock option activity.

It is the policy of the Company to periodically distribute excess retained earnings to the shareholders through the payment of cash dividends. Such dividends help promote shareholder value and capital adequacy by enhancing the marketability of the Company's stock. All authority to provide a return to the shareholders in the form of a cash or stock dividend or split rests with the Board of Directors (the "Board"). The Board will periodically, but on no regular schedule, review the appropriateness of a cash dividend payment. Banking regulations limit the amount of dividends that may be paid without prior approval of regulatory agencies. No common cash dividends were paid during the last five years.

The Company is subject to various restrictions on the payment of dividends.

Capital Standards.

The Company uses a variety of measures to evaluate its capital adequacy, with risk-based capital ratios calculated separately for the Company and the Bank. Management reviews these capital measurements on a monthly basis and takes appropriate action to ensure that they are within established internal and external guidelines. The FDIC has promulgated risk-based capital guidelines for all state non-member banks such as the Bank. These guidelines establish a risk-adjusted ratio relating capital to different categories of assets and off-balance sheet exposures. There are two categories of capital under the guidelines: Tier 1 capital includes common stockholders' equity, and qualifying trust-preferred securities (including notes payable to unconsolidated special purpose entities that issue trust-preferred securities), less goodwill and certain other deductions, notably the unrealized net gains or losses (after tax adjustments) on available-for-sale investment securities carried at fair market value; Tier 2 capital can include qualifying subordinated debt and the allowance for loan losses, subject to certain limitations. The Series A Preferred Stock qualifies as Tier 1 capital for the Company.

The following tables present the capital ratios for the Company and the Bank compared to the standards for bank holding companies and the regulatory minimum requirements for depository institutions as of December 31, 2014 and 2013 (amounts in thousands except percentage amounts).

	<u>December 31, 2014</u>		<u>December 31, 2013</u>	
	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>
<u>Tier 1 Leverage Ratio</u>				
Plumas Bancorp and Subsidiary	\$ 46,557	8.4%	\$ 40,909	7.8%
Minimum regulatory requirement	22,157	4.0%	20,856	4.0%
Plumas Bank	53,925	9.8%	50,748	9.7%
Minimum requirement for "Well-Capitalized" institution under the prompt corrective action regulation	27,643	5.0%	26,026	5.0%
Minimum regulatory requirement	22,114	4.0%	20,821	4.0%
<u>Tier 1 Risk-Based Capital Ratio</u>				
Plumas Bancorp and Subsidiary	46,557	11.4%	40,909	10.7%
Minimum regulatory requirement	16,358	4.0%	15,332	4.0%
Plumas Bank	53,925	13.2%	50,748	13.2%
Minimum requirement for "Well-Capitalized" institution under the prompt corrective action regulation	24,517	6.0%	22,986	6.0%
Minimum regulatory requirement	16,344	4.0%	15,324	4.0%
<u>Total Risk-Based Capital Ratio</u>				
Plumas Bancorp and Subsidiary	59,128	14.5%	53,006	13.8%
Minimum regulatory requirement	32,715	8.0%	30,664	8.0%
Plumas Bank	59,039	14.4%	55,547	14.5%
Minimum requirement for "Well-Capitalized" institution under the prompt corrective action regulation	40,860	10.0%	38,310	10.0%
Minimum regulatory requirement	32,689	8.0%	30,648	8.0%

Management believes that the Company and the Bank currently meet their entire capital adequacy requirements.

The current and projected capital positions of the Company and the Bank and the impact of capital plans and long-term strategies are reviewed regularly by management. The Company policy is to maintain the Bank's ratios above the prescribed well-capitalized leverage, Tier 1 risk-based and total risk-based capital ratios of 5%, 6% and 10%, respectively, at all times.

Basel III Capital Rules. In July, 2013, the federal bank regulatory agencies approved the final rules implementing the Basel Committee on Banking Supervision's capital guidelines for U.S. banks. Under the final rules, minimum requirements will increase for both the quantity and quality of capital held by the Company and the Bank. The rules include a new common equity Tier 1 capital to risk-weighted assets ratio of 4.5% and a common equity Tier 1 capital conservation buffer of 2.5% of risk-weighted assets. The final rules also raise the minimum ratio of Tier 1 capital to risk-weighted assets from 4.0% to 6.0% and require a minimum leverage ratio of 4.0%. The final rules also implement strict eligibility criteria for regulatory capital instruments. Under current capital guidelines the Company's subordinated debt qualifies as Tier 2 capital; however, under Basel III guidelines effective January 1, 2015 it does not qualify for regulatory capital. Additionally, the Basel III rules have reduced the amount of TRUPS that is eligible for inclusion in Tier 1 capital which will we expect will result in a portion of the TRUPS not qualifying as Tier 1 capital. The amount that does not qualify as Tier 1 capital will qualify as Tier 2 capital.

The phase-in period for the final rules begin on January 1, 2015, with full compliance with all of the final rule's requirements phased in over a multi-year schedule. As of January 1, 2015, the Company's and the Bank's capital levels remained "well-capitalized" under the new rules.

Off-Balance Sheet Arrangements

Loan Commitments. In the normal course of business, there are various commitments outstanding to extend credits that are not reflected in the financial statements. Commitments to extend credit and letters of credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Annual review of commercial credit lines, letters of credit and ongoing monitoring of outstanding balances reduces the risk of loss associated with these commitments. As of December 31, 2014, the Company had \$89.7 million in unfunded loan commitments and no letters of credit. This compares to \$84.2 million in unfunded loan commitments and \$60 thousand in letters of credit at December 31, 2013. Of the \$89.7 million in unfunded loan commitments, \$52.3 million and \$37.4 million represented commitments to commercial and consumer customers, respectively. Of the total unfunded commitments at December 31, 2014, \$41.7 million were secured by real estate, of which \$14.8 million was secured by commercial real estate and \$26.9 million was secured by residential real estate in the form of equity lines of credit. The commercial loan commitments not secured by real estate primarily represent business lines of credit, while the consumer loan commitments not secured by real estate primarily represent revolving credit card lines and overdraft protection lines. Since some of the commitments are expected to expire without being drawn upon the total commitment amounts do not necessarily represent future cash requirements.

Operating Leases. The Company leases one depository branch, three lending offices, one loan administration office and two non-branch automated teller machine locations. Total rental expenses under all operating leases were \$192,000 and \$154,000 during the years ended December, 31, 2014 and 2013, respectively. The expiration dates of the leases vary, with the first such lease expiring during 2015 and the last such lease expiring during 2016.

Liquidity

The Company manages its liquidity to provide the ability to generate funds to support asset growth, meet deposit withdrawals (both anticipated and unanticipated), fund customers' borrowing needs, satisfy maturity of short-term borrowings and maintain reserve requirements. The Company's liquidity needs are managed using assets or liabilities, or both. On the asset side, in addition to cash and due from banks, the Company maintains an investment portfolio which includes unpledged U.S. Government-sponsored agency securities that are classified as available-for-sale. On the liability side, liquidity needs are managed by charging competitive offering rates on deposit products and the use of established lines of credit.

The Company is a member of the FHLB and can borrow up to \$133,000,000 from the FHLB secured by commercial and residential mortgage loans with carrying values totaling \$205,000,000. See "Short-term Borrowing Arrangements" for additional information on our FHLB borrowing capacity. In addition to its FHLB borrowing line, the Company has unsecured short-term borrowing agreements with three of its correspondent banks in the amounts of \$11 million, \$10 million and \$10 million. There were no outstanding borrowings under the FHLB or the correspondent bank borrowing lines at December 31, 2014 or 2013.

Customer deposits are the Company's primary source of funds. Total deposits increased by \$18.5 million from \$449 million at December 31, 2013 to \$468 million at December 31, 2014. Deposits are held in various forms with varying maturities. The Company's securities portfolio, Federal funds sold, FHLB advances, and cash and due from banks serve as the primary sources of liquidity, providing adequate funding for loans during periods of high loan demand. During periods of decreased lending, funds obtained from the maturing or sale of investments, loan payments, and new deposits are invested in short-term earning assets, such as cash held at the FRB, Federal funds sold and investment securities, to serve as a source of funding for future loan growth. Management believes that the Company's available sources of funds, including borrowings, will provide adequate liquidity for its operations in the foreseeable future.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company we are not required to provide the information required by this item.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The following consolidated financial statements of Plumas Bancorp and subsidiary, and report of the independent registered public accounting firm are included in the Annual Report of Plumas Bancorp to its shareholders for the years ended December 31, 2014, 2013 and 2012.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
Plumas Bancorp and Subsidiary
Quincy, California

We have audited the accompanying consolidated balance sheets of Plumas Bancorp and Subsidiary (the "Company") as of December 31, 2014 and the related consolidated statements of income and comprehensive income, changes in shareholders' equity and cash flows for the year then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Plumas Bancorp and Subsidiary as of December 31, 2014 and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Shareholders and Board of Directors
Plumas Bancorp
Quincy, California

We have audited the accompanying consolidated balance sheet of Plumas Bancorp and Subsidiary (the "Company") as of December 31, 2013, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity, and cash flows for each of the two years in the period ended December 31, 2013. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Plumas Bancorp and Subsidiary as of December 31, 2013, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. THE BUSINESS OF PLUMAS BANCORP

During 2002, Plumas Bancorp (the "Company") was incorporated as a bank holding company for the purpose of acquiring Plumas Bank (the "Bank") in a one bank holding company reorganization. This corporate structure gives the Company and the Bank greater flexibility in terms of operation, expansion and diversification. The Company formed Plumas Statutory Trust I ("Trust I") for the sole purpose of issuing trust preferred securities on September 26, 2002. The Company formed Plumas Statutory Trust II ("Trust II") for the sole purpose of issuing trust preferred securities on September 28, 2005.

The Bank operates eleven branches in California, including branches in Alturas, Chester, Fall River Mills, Greenville, Kings Beach, Portola, Quincy, Redding, Susanville, Tahoe City, and Truckee. The Bank's administrative headquarters is in Quincy, California. In addition, the Bank operates a loan administrative office in Reno, Nevada, lending offices specializing in government-guaranteed lending in Auburn, California and Beaverton, Oregon and a commercial/agricultural lending office in Chico, California. The Bank's primary source of revenue is generated from providing loans to customers who are predominately small and middle market businesses and individuals residing in the surrounding areas.

2. REGULATORY MATTERS

On February 15, 2012, the Bank received notice from the Federal Deposit Insurance Corporation (FDIC) and the California Department of Financial Institutions ("DFI") that the Consent Order with the FDIC and the DFI which was effective on March 16, 2011 had been terminated. Effective February 8, 2012, the Bank entered into an informal agreement with the FDIC and DFI which, among other things, requested that the Bank continue to maintain a Tier 1 Leverage Capital Ratio of 9% which is in excess of that required for well capitalized institutions and continue to reduce its level of classified asset balances that were outstanding as of September 30, 2011 to not more than 50% of Tier 1 Capital plus the allowance for loan losses. At December 31, 2012 this ratio was 32% and the Bank's Tier 1 Leverage Capital Ratio was 10.4%. The FDIC and DFI terminated the informal agreement effective January 24, 2013. Effective July 1, 2013, the California Department of Corporations and the DFI merged to form the Department of Business Oversight ("DBO").

On July 28, 2011 the Company entered into an agreement with the Federal Reserve Bank of San Francisco (the "FRB Agreement"). Under the terms of the FRB Agreement, Plumas Bancorp agreed to take certain actions that were designed to maintain its financial soundness so that it may continue to serve as a source of strength to the Bank. Among other things, the FRB Agreement required prior written approval related to the payment or taking of dividends and distributions, making any distributions of interest, principal or other sums on subordinated debentures or trust preferred securities, incurrence of debt, and the purchase or redemption of stock. On April 19, 2013 the Company received notice that the FRB Agreement had been terminated.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Consolidation and Basis of Presentation

The consolidated financial statements include the accounts of the Company and the consolidated accounts of its wholly-owned subsidiary, Plumas Bank. All significant intercompany balances and transactions have been eliminated.

Plumas Statutory Trust I and Trust II are not consolidated into the Company's consolidated financial statements and, accordingly, are accounted for under the equity method. The Company's investment in Trust I of \$304,000 and Trust II of \$161,000 are included in accrued interest receivable and other assets on the consolidated balance sheet. The junior subordinated deferrable interest debentures issued and guaranteed by the Company and held by Trust I and Trust II are reflected as debt on the consolidated balance sheet.

The accounting and reporting policies of Plumas Bancorp and subsidiary conform with accounting principles generally accepted in the United States of America and prevailing practices within the banking industry.

Reclassifications

Certain reclassifications have been made to prior years' balances to conform to the classifications used in 2014. These reclassifications had no impact on the Company's consolidated financial position, results of operations or net change in cash and cash equivalents.

Segment Information

Management has determined that since all of the banking products and services offered by the Company are available in each branch of the Bank, all branches are located within the same economic environment and management does not allocate resources based on the performance of different lending or transaction activities, it is appropriate to aggregate the Bank branches and report them as a single operating segment. No customer accounts for more than 10 percent of revenues for the Company or the Bank.

Use of Estimates

To prepare financial statements in conformity with accounting principles generally accepted in the United States of America management makes estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and the disclosures provided, and actual results could differ. The allowance for loan losses, loan servicing rights, deferred tax assets, and fair values of financial instruments are particularly subject to change.

Cash and Cash Equivalents

For the purpose of the statement of cash flows, cash and due from banks and Federal funds sold are considered to be cash equivalents. Generally, Federal funds are sold for one day periods. Cash held with other federally insured institutions in excess of FDIC limits as of December 31, 2014 was \$12.0 million. Net cash flows are reported for customer loans and deposit transactions and repurchase agreements.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Securities

Investments are classified into one of the following categories:

- Available-for-sale securities reported at fair value, with unrealized gains and losses excluded from earnings and reported, net of taxes, as accumulated other comprehensive income (loss) within shareholders' equity.
- Held-to-maturity securities, which management has the positive intent and ability to hold, reported at amortized cost, adjusted for the accretion of discounts and amortization of premiums. As of December 31, 2014 and 2013 the Company did not have any investment securities classified as held-to-maturity.

Management determines the appropriate classification of its investments at the time of purchase and may only change the classification in certain limited circumstances.

As of December 31, 2014 and 2013 the Company did not have any investment securities classified as trading and gains or losses on the sale of securities are computed on the specific identification method. Interest earned on investment securities is reported in interest income, net of applicable adjustments for accretion of discounts and amortization of premiums accounted for by the level yield method with no pre-payment anticipated.

An investment security is impaired when its carrying value is greater than its fair value. Investment securities that are impaired are evaluated on at least a quarterly basis and more frequently when economic or market conditions warrant such an evaluation to determine whether such a decline in their fair value is other than temporary. Management utilizes criteria such as the magnitude and duration of the decline and the intent and ability of the Company to retain its investment in the securities for a period of time sufficient to allow for an anticipated recovery in fair value, in addition to the reasons underlying the decline, to determine whether the loss in value is other than temporary. The term "other than temporary" is not intended to indicate that the decline is permanent, but indicates that the prospects for a near-term recovery of value is not necessarily favorable, or that there is a lack of evidence to support a realizable value equal to or greater than the carrying value of the investment. Once a decline in value is determined to be other than temporary, and management does not intend to sell the security or it is more likely than not that the Company will not be required to sell the security before recovery, only the portion of the impairment loss representing credit exposure is recognized as a charge to earnings, with the balance recognized as a charge to other comprehensive income. If management intends to sell the security or it is more likely than not that the Company will be required to sell the security before recovering its forecasted cost, the entire impairment loss is recognized as a charge to earnings.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment in Federal Home Loan Bank Stock

As a member of the Federal Home Loan Bank (FHLB) System, the Bank is required to maintain an investment in the capital stock of the FHLB. The investment is carried at cost classified as a restricted security, and periodically evaluated for impairment based on ultimate recovery of par value. At December 31, 2014 and 2013, FHLB stock totaled \$2,380,000 and \$2,226,000, respectively. On the consolidated balance sheet, FHLB stock is included in accrued interest receivable and other assets.

Loans Held for Sale, Loan Sales and Servicing

Included in the loan portfolio are loans which are 75% to 85% guaranteed by the Small Business Administration (SBA), US Department of Agriculture Rural Business Cooperative Service (RBS) and Farm Services Agency (FSA). The guaranteed portion of these loans may be sold to a third party, with the Bank retaining the unguaranteed portion. The Company can receive a premium in excess of the adjusted carrying value of the loan at the time of sale.

As of December 31, 2014 and 2013 the Company had \$3.0 million and \$2.8 million, respectively in government guaranteed loans held for sale. Loans held for sale are recorded at the lower of cost or fair value and therefore may be reported at fair value on a non-recurring basis. The fair values for loans held for sale are based on either observable transactions of similar instruments or formally committed loan sale prices.

Government guaranteed loans with unpaid balances of \$76,797,000 and \$70,212,000 were being serviced for others at December 31, 2014 and 2013, respectively.

The Company accounts for the transfer and servicing of financial assets based on the fair value of financial and servicing assets it controls and liabilities it has assumed, derecognizes financial assets when control has been surrendered, and derecognizes liabilities when extinguished.

Servicing rights acquired through 1) a purchase or 2) the origination of loans which are sold or securitized with servicing rights retained are recognized as separate assets or liabilities. Servicing assets or liabilities are recorded at fair value and are subsequently amortized in proportion to and over the period of the related net servicing income or expense. Servicing rights are evaluated for impairment based upon the fair value of the rights as compared to carrying amount. Impairment is determined by stratifying rights into groupings based on predominant risk characteristics, such as interest rate, loan type and investor type. Impairment is recognized through a valuation allowance for an individual grouping, to the extent that fair value is less than the carrying amount. If the Company later determines that all or a portion of the impairment no longer exists for a particular grouping, a reduction of the allowance may be recorded as an increase to income. Changes in valuation allowances are reported with non-interest income on the statement of income. The fair values of servicing rights are subject to significant fluctuations as a result of changes in estimated and actual prepayment speeds and default rates and losses.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loans Held for Sale, Loan Sales and Servicing (continued)

The Company's investment in the loan is allocated between the retained portion of the loan, the servicing asset, the interest-only (IO) strip, and the sold portion of the loan based on their fair values on the date the loan is sold. The gain on the sold portion of the loan is recognized as income at the time of sale.

The carrying value of the retained portion of the loan is discounted based on the estimated value of a comparable non-guaranteed loan. The servicing asset is recognized and amortized over the estimated life of the related loan. Assets (accounted for as IO strips) are recorded at the fair value of the difference between note rates and rates paid to purchasers (the interest spread) and contractual servicing fees, if applicable. IO strips are carried at fair value with gains or losses recorded as a component of shareholders' equity, similar to available-for-sale investment securities. Significant future prepayments of these loans will result in the recognition of additional amortization of related servicing assets and an adjustment to the carrying value of related IO strips.

Loans

Loans that management has the intent and ability to hold for foreseeable future or until maturity or payoff are reported at the principal balance outstanding, net of purchase premiums or discounts, deferred loan fees and costs, and an allowance for loan losses. Loans, if any, that are transferred from loans held for sale are carried at the lower of principal balance or market value at the date of transfer, adjusted for accretion of discounts. Interest is accrued daily based upon outstanding loan balances. However, when, in the opinion of management, loans are considered to be impaired and the future collectability of interest and principal is in serious doubt, loans are placed on nonaccrual status and the accrual of interest income is suspended. Any interest accrued but unpaid is charged against income. Payments received are applied to reduce principal to the extent necessary to ensure collection. A loan is moved to non-accrual status in accordance with the Company's policy, typically after 90 days of non-payment unless well secured and in the process of collection. Past due status is based on the contractual terms of the loan. Subsequent payments on these loans, or payments received on nonaccrual loans for which the ultimate collectability of principal is not in doubt, are applied first to earned but unpaid interest and then to principal. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Loan origination fees, commitment fees, direct loan origination costs and purchased premiums and discounts on loans are deferred and recognized as an adjustment of yield, to be amortized to interest income over the contractual term of the loan. The unamortized balance of deferred fees and costs is reported as a component of net loans.

The Company may acquire loans through a business combination or a purchase for which differences may exist between the contractual cash flows and the cash flows expected to be collected due, at least in part, to credit quality.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loans (continued)

When the Company acquires such loans, the yield that may be accreted (accretable yield) is limited to the excess of the Company's estimate of undiscounted cash flows expected to be collected over the Company's initial investment in the loan. The excess of contractual cash flows over cash flows expected to be collected may not be recognized as an adjustment to yield, loss, or a valuation allowance.

Subsequent increases in cash flows expected to be collected generally should be recognized prospectively through adjustment of the loan's yield over its remaining life. Decreases in cash flows expected to be collected should be recognized as an impairment.

The Company may not "carry over" or create a valuation allowance in the initial accounting for loans acquired under these circumstances. At December 31, 2014 and 2013, there were no such loans being accounted for under this policy.

Allowance for Loan Losses

The allowance for loan losses is an estimate of probable incurred credit losses inherent in the Company's loan portfolio that have been incurred as of the balance-sheet date. The allowance is established through a provision for loan losses which is charged to expense. Additions to the allowance are expected to maintain the adequacy of the total allowance after credit losses and loan growth. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. The overall allowance consists of two primary components, specific reserves related to impaired loans and general reserves for inherent losses related to loans that are not impaired but collectively evaluated for impairment.

A loan is considered impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due, including principal and interest, according to the contractual terms of the original agreement. Loans determined to be impaired are individually evaluated for impairment. When a loan is impaired, the Company measures impairment based on the present value of expected future cash flows discounted at the loan's effective interest rate, except that as a practical expedient, it may measure impairment based on a loan's observable market price, or the fair value of the collateral if the loan is collateral dependent. A loan is collateral dependent if the repayment of the loan is expected to be provided solely by the underlying collateral.

A restructuring of a debt constitutes a troubled debt restructuring (TDR) if the Company, for economic or legal reasons related to the debtor's financial difficulties, grants a concession to the debtor that it would not otherwise consider. Restructured workout loans typically present an elevated level of credit risk as the borrowers are not able to perform according to the original contractual terms. Loans that are reported as TDRs are considered impaired and measured for impairment as described above.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allowance for Loan Losses (continued)

The determination of the general reserve for loans that are not impaired is based on estimates made by management, to include, but not limited to, consideration of historical losses by portfolio segment from January 1, 2008 (the beginning of the latest business cycle as determined by management) to the most current balance sheet date, internal asset classifications, and qualitative factors to include economic trends in the Company's service areas, industry experience and trends, geographic concentrations, estimated collateral values, the Company's underwriting policies, the character of the loan portfolio, and probable incurred losses inherent in the portfolio taken as a whole. During 2012, the Company modified its method of estimating the allowance for loan losses for non-impaired loans. This modification incorporated historical losses from the beginning of the latest business cycle. Previously we utilized historical loss experience based on a rolling eight quarters ending with the most recently completed calendar quarter. This modification had the effect of increasing the required allowance related to the expanded historical loss period by \$250,000. The Company believes that, given the recent trend in historical losses, it was prudent to increase the period examined and that a full business cycle was the appropriate period.

The Company maintains a separate allowance for each portfolio segment (loan type). These portfolio segments include commercial, agricultural, real estate construction (including land and development loans), commercial real estate mortgage, residential mortgage, home equity loans, automobile loans and other loans primarily consisting of consumer installment loans and credit card receivables. The allowance for loan losses attributable to each portfolio segment, which includes both impaired loans and loans that are not impaired, is combined to determine the Company's overall allowance, and is included as a component of loans on the consolidated balance sheet.

The Company assigns a risk rating to all loans, with the exception of automobile and other loans and periodically, but not less than annually, performs detailed reviews of all such loans over \$100,000 to identify credit risks and to assess the overall collectability of the portfolio. These risk ratings are also subject to examination by independent specialists engaged by the Company and the Company's regulators. During these internal reviews, management monitors and analyzes the financial condition of borrowers and guarantors, trends in the industries in which borrowers operate and the fair values of collateral securing these loans. These credit quality indicators are used to assign a risk rating to each individual loan.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allowance for Loan Losses (continued)

The risk ratings can be grouped into five major categories, defined as follows:

Pass – A pass loan is a strong credit with no existing or known potential weaknesses deserving of management's close attention.

Watch – A Watch loan has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or in the Company's credit position at some future date. Watch loans are not adversely classified and do not expose the Company to sufficient risk to warrant adverse classification.

Substandard – A substandard loan is not adequately protected by the current sound worth and paying capacity of the borrower or the value of the collateral pledged, if any. Loans classified as substandard have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. Well defined weaknesses include a project's lack of marketability, inadequate cash flow or collateral support, failure to complete construction on time or the project's failure to fulfill economic expectations. They are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected.

Doubtful – Loans classified doubtful have all the weaknesses inherent in those classified as substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently known facts, conditions and values, highly questionable and improbable.

Loss – Loans classified as loss are considered uncollectible and charged off immediately.

The general reserve component of the allowance for loan losses associated with loans collectively evaluated for impairment also consists of reserve factors that are based on management's assessment of the following for each portfolio segment: (1) historical losses and (2) other qualitative factors, including inherent credit risk. These reserve factors are inherently subjective and are driven by the repayment risk associated with each portfolio segment described on the next page.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allowance for Loan Losses (continued)

Commercial – Commercial loans are generally underwritten to existing cash flows of operating businesses. Debt coverage is provided by business cash flows and economic trends influenced by unemployment rates and other key economic indicators are closely correlated to the credit quality of these loans.

Agricultural – Loans secured by crop production and livestock are especially vulnerable to two risk factors that are largely outside the control of Company and borrowers: commodity prices and weather conditions.

Real estate – Residential and Home Equity Lines of Credit – The degree of risk in residential real estate lending depends primarily on the loan amount in relation to collateral value, the interest rate and the borrower's ability to repay in an orderly fashion. These loans generally possess a lower inherent risk of loss than other real estate portfolio segments. Economic trends determined by unemployment rates and other key economic indicators are closely correlated to the credit quality of these loans. Weak economic trends indicate that the borrowers' capacity to repay their obligations may be deteriorating.

Real estate – Commercial – Commercial real estate mortgage loans generally possess a higher inherent risk of loss than other real estate portfolio segments, except land and construction loans. Adverse economic developments or an overbuilt market impact commercial real estate projects and may result in troubled loans. Trends in vacancy rates of commercial properties impact the credit quality of these loans. High vacancy rates reduce operating revenues and the ability for properties to produce sufficient cash flow to service debt obligations.

Real estate – Construction and Land Development – Construction and land development loans generally possess a higher inherent risk of loss than other real estate portfolio segments. A major risk arises from the necessity to complete projects within specified cost and time lines. Trends in the construction industry significantly impact the credit quality of these loans, as demand drives construction activity. In addition, trends in real estate values significantly impact the credit quality of these loans, as property values determine the economic viability of construction projects.

Automobile – An automobile loan portfolio is usually comprised of a large number of smaller loans scheduled to be amortized over a specific period. Most automobile loans are made directly for consumer purchases, but business vehicles may also be included. Economic trends determined by unemployment rates and other key economic indicators are closely correlated to the credit quality of these loans. Weak economic trends indicate that the borrowers' capacity to repay their obligations may be deteriorating.

Other – Other loans primarily consist of consumer and credit card loans and are similar in nature to automobile loans.

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allowance for Loan Losses (continued)

Although management believes the allowance to be adequate, ultimate losses may vary from its estimates. At least quarterly, the Board of Directors and management review the adequacy of the allowance, including consideration of the relative risks in the portfolio, current economic conditions and other factors. If the Board of Directors and management determine that changes are warranted based on those reviews, the allowance is adjusted. In addition, the Company's primary regulators, the FDIC and DBO, as an integral part of their examination process, review the adequacy of the allowance. These regulatory agencies may require additions to the allowance based on their judgment about information available at the time of their examinations.

The Company also maintains a separate allowance for off-balance-sheet commitments. Management estimates anticipated losses using historical data and utilization assumptions. The allowance for these commitments totaled \$141,000 at December 31, 2014 and 2013, respectively and is included in accrued interest payable and other liabilities in the consolidated balance sheet.

Other Real Estate

Other real estate owned relates to real estate acquired in full or partial settlement of loan obligations, which was \$3,590,000 (\$5,884,000 less a valuation allowance of \$2,294,000) at December 31, 2014 and \$6,399,000 (\$9,065,000 less a valuation allowance of \$2,666,000) at December 31, 2013. Proceeds from sales of other real estate owned totaled \$3,399,000, \$2,404,000 and \$3,714,000 for the years ended December 31, 2014, 2013 and 2012, respectively. For the year ended December 31, 2014 and 2013 the Company recorded gains on sale of other real estate owned of \$101,000 and \$171,000, respectively. For the year ended December 31, 2012 the Company recorded a loss on sale of other real estate owned of \$16,000. Other real estate owned is initially recorded at fair value less cost to sell when acquired, any excess of the Bank's recorded investment in the loan balance and accrued interest income over the estimated fair value of the property less costs to sell is charged against the allowance for loan losses. A valuation allowance for losses on other real estate is maintained to provide for temporary declines in value. The allowance is established through a provision for losses on other real estate which is included in other expenses. Subsequent gains or losses on sales or write-downs resulting from permanent impairment are also recorded in other expenses as incurred.

The following table provides a summary of the change in the OREO balance for the years ended December 31, 2014 and 2013:

	<u>Year Ended December 31,</u>	
	<u>2014</u>	<u>2013</u>
Beginning balance	\$ 6,399,000	\$ 5,295,000
Additions	729,000	3,824,000
Dispositions	(3,298,000)	(2,234,000)
Write-downs	(240,000)	(486,000)
Ending balance	<u>\$ 3,590,000</u>	<u>\$ 6,399,000</u>

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Intangible Assets

Intangible assets consist of core deposit intangibles related to branch acquisitions and are amortized using the straight-line method over ten years. These assets were fully amortized as of December 31, 2013. The Company evaluates the recoverability and remaining useful life annually to determine whether events or circumstances warrant a revision to the intangible asset or the remaining period of amortization. There were no such events or circumstances in 2013 or 2012.

Premises and Equipment

Land is carried at cost. Premises and equipment are stated at cost less accumulated depreciation. Depreciation is determined using the straight-line method over the estimated useful lives of the related assets. The useful lives of premises are estimated to be twenty to thirty years. The useful lives of furniture, fixtures and equipment are estimated to be two to ten years. Leasehold improvements are amortized over the life of the asset or the life of the related lease, whichever is shorter. When assets are sold or otherwise disposed of, the cost and related accumulated depreciation or amortization are removed from the accounts, and any resulting gain or loss is recognized in income for the period. The cost of maintenance and repairs is charged to expense as incurred. The Company evaluates premises and equipment for financial impairment as events or changes in circumstances indicate that the carrying amount of such assets may not be fully recoverable.

Bank Owned Life Insurance

The Company has purchased life insurance policies on certain key executives. Bank owned life insurance is recorded at the amount that can be realized under the insurance contract at the balance sheet date, which is the cash surrender value adjusted for other charges or other amounts due that are probable at settlement.

Income Taxes

The Company files its income taxes on a consolidated basis with its subsidiary. Income tax expense is the total of current year income tax due or refundable and the change in deferred tax assets and liabilities.

Deferred tax assets and liabilities are recognized for the tax consequences of temporary differences between the reported amount of assets and liabilities and their tax bases. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. A valuation allowance is recognized if, based on the weight of available evidence management believes it is more likely than not that some portion or all of the deferred tax assets will not be realized. On the consolidated balance sheet, net deferred tax assets are included in accrued interest receivable and other assets.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accounting for Uncertainty in Income Taxes

When tax returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the accompanying balance sheet along with any associated interest and penalties that would be payable to the taxing authorities upon examination.

Interest expense and penalties associated with unrecognized tax benefits, if any, are classified as income tax expense in the consolidated income statement. There have been no significant changes to unrecognized tax benefits or accrued interest and penalties for the years ended December 31, 2014 and 2013.

Earnings Per Share

Basic earnings per share (EPS), which excludes dilution, is computed by dividing income available to common stockholders (net income plus discount on redemption of preferred stock less preferred dividends and accretion) by the weighted-average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock, such as stock options, result in the issuance of common stock which shares in the earnings of the Company. The treasury stock method has been applied to determine the dilutive effect of stock options in computing diluted EPS.

Comprehensive Income

Comprehensive income consists of net income and other comprehensive income. Other comprehensive income includes unrealized gains and losses on securities available for sale which are also recognized as separate components of equity. There were no sales of available for sale investment securities during the year ended December 31, 2013. The amount reclassified out of other accumulated comprehensive income relating to realized gains on securities available for sale was \$128,000 and \$403,000 for 2014 and 2012, with the related tax effect of \$53,000 and \$167,000, respectively.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Dividend Restrictions

Banking regulations require maintaining certain capital levels and may limit the dividend paid by the bank to the holding company or by the holding company to shareholders.

Fair Value of Financial Instruments

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in a separate note. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect these estimates.

Stock-Based Compensation

Compensation expense related to the Company's Stock Option Plans, net of related tax benefit, recorded in 2014, 2013 and 2012 totaled \$75,000, \$37,000 and \$93,000 or \$0.02, \$0.01 and \$0.02 per diluted share, respectively. Compensation expense is recognized over the vesting period on a straight line accounting basis.

The Company determines the fair value of options on the date of grant using a Black-Scholes-Merton option pricing model that uses assumptions based on expected option life, expected stock volatility and the risk-free interest rate. The expected volatility assumptions used by the Company are based on the historical volatility of the Company's common stock over the most recent period commensurate with the estimated expected life of the Company's stock options. The Company bases its expected life assumption on its historical experience and on the terms and conditions of the stock options it grants to employees. The risk-free rate is based on the U.S. Treasury yield curve for the periods within the contractual life of the options in effect at the time of the grant. The Company also makes assumptions regarding estimated forfeitures that will impact the total compensation expenses recognized under the Plans.

During 2014 the Company granted options to purchase 110,400 shares of common stock. The fair value of each option was estimated on the date of grant using the following assumptions.

	<u>2014</u>
Expected life of stock options (in years)	5.2
Risk free interest rate	1.64%
Volatility	63.8%
Dividend yields	2.00%
Weighted-average fair value of options granted during the year	\$3.02

No options were granted during the years ended December 31, 2013 and 2012.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Adopted Accounting Pronouncements

In July 2013, the FASB issued ASU 2013-11, Income Taxes, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The FASB issued ASU 2013-11 to eliminate the diversity in the presentation of unrecognized tax benefits in those instances. The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The Company has determined the provisions for ASU 2013-11 did not have a material impact on the financial statements.

Pending Accounting Pronouncements

In January 2014, the FASB issued ASU No. 2014-04, Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure. The objective of this guidance is to clarify when an in substance repossession or foreclosure occurs, that is, when a creditor should be considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan such that the loan receivable should be derecognized and the real estate property recognized. ASU No. 2014-04 states that an in substance repossession or foreclosure occurs, and a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan, upon either (1) the creditor obtaining legal title to the residential real estate property upon completion of a foreclosure or (2) the borrower conveying all interest in the residential real estate property to the creditor to satisfy that loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. Additionally, ASU No. 2014-04 requires interim and annual disclosure of both (1) the amount of foreclosed residential real estate property held by the creditor and (2) the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure according to local requirements of the applicable jurisdiction. ASU No. 2014-04 is effective for interim and annual reporting periods beginning after December 15, 2014. The adoption of ASU No. 2014-04 is not expected to have a material impact on the Company's Financial Statements.

In May 2014, the FASB issued ASU No. 2014-09 Revenue from Contracts with Customers. This update to the ASC is the culmination of efforts by the FASB and the International Accounting Standards Board (IASB) to develop a common revenue standard for U.S. GAAP and International Financial Reporting Standards (IFRS). ASU 2014-09 supersedes Topic 605 – Revenue Recognition and most industry-specific guidance. The core principal of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance in ASU 2014-09 describes a 5-step process entities can apply to achieve the core principle of revenue recognition and requires disclosures sufficient to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers and the significant judgments used in determining that information.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pending Accounting Pronouncements (continued)

The amendments in ASU 2014-9 are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period and early application is not allowed. The Company is currently evaluating the effects of ASU 2014-09 on its financial statements and disclosures, if any.

In June 2014, the FASB issued ASU No. 2014-11, Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures. The Update improves the financial reporting of repurchase agreements and other similar transactions through a change in accounting for repurchase-to-maturity transactions and repurchase financings, and the introduction of two new disclosure requirements. New disclosures are required for (1) transfers accounted for as sales in transactions that are economically similar to repurchase agreements, in which the transferor retains substantially all of the exposure to the economic return on the transferred financial asset throughout the term of the transaction and (2) repurchase agreements, securities lending transactions, and repurchase-to-maturity transactions accounted for as secured borrowings about the nature of collateral pledged and the time to maturity of those transactions. The Company is currently evaluating the effects of ASU 2014-011 on its financial statements and disclosures, if any.

4. FAIR VALUE MEASUREMENTS

The Company measures fair value under the fair value hierarchy described below.

Level 1: Quoted prices for identical instruments traded in active exchange markets.

Level 2: Quoted prices (unadjusted) for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable or can be corroborated by observable market data.

Level 3: Model based techniques that use one significant assumption not observable in the market. These unobservable assumptions reflect the Company's estimates of assumptions that market participants would use on pricing the asset or liability. Valuation techniques include management judgment and estimation which may be significant.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Management monitors the availability of observable market data to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

4. FAIR VALUE MEASUREMENTS (Continued)

transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total assets, total liabilities or total earnings.

Fair Value of Financial Instruments

The carrying amounts and estimated fair values of financial instruments, at December 31, 2014 and December 31, 2013 are as follows:

	Carrying Value	Fair Value Measurements at December 31, 2014 Using:			Total Fair Value
		Level 1	Level 2	Level 3	
Financial assets:					
Cash and cash equivalents	\$45,574,000	\$45,574,000			\$45,574,000

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

4. FAIR VALUE MEASUREMENTS (Continued)

These estimates do not reflect any premium or discount that could result from offering the Company's entire holdings of a particular financial instrument for sale at one time, nor do they attempt to estimate the value of anticipated future business related to the instruments. In addition, the tax ramifications related to the realization of unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in any of these estimates.

The following methods and assumptions were used by management to estimate the fair value of its financial instruments:

Cash and cash equivalents: The carrying amounts of cash and short-term instruments approximate fair values and are classified as Level 1.

Investment securities: Fair values for securities available for sale are generally determined by matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2).

Loans: Fair values of loans, excluding loans held for sale, are estimated as follows: For variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values resulting in a Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality resulting in a Level 3 classification. Impaired loans are valued at the lower of cost or fair value. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price.

FHLB stock: It was not practicable to determine the fair value of the FHLB stock due to restrictions placed on its transferability.

Deposits: The fair values disclosed for demand deposits, including interest and non-interest demand accounts, savings, and certain types of money market accounts are, by definition, equal to the carrying amount at the reporting date resulting in a Level 1 classification. Fair values for fixed rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits resulting in a Level 2 classification.

Repurchase agreements: The fair value of securities sold under repurchase agreements is estimated based on bid quotations received from brokers using observable inputs and are included as Level 2.

Note payable: The fair value of the Company's Note Payable is estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 3 classification.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

4. FAIR VALUE MEASUREMENTS (Continued)

Subordinated debentures and Junior subordinated deferrable interest debentures: The fair values of the Company's Subordinated Debentures are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 3 classification.

Accrued interest and payable: The carrying amounts of accrued interest approximate fair value and are considered to be linked in classification to the asset or liability for which they relate.

Commitments to extend credit and letters of credit: The fair value of commitments are estimated using the fees currently charged to enter into similar agreements and are not significant and, therefore, not presented. Commitments to extend credit are primarily for variable rate loans and letters of credit.

Because no market exists for a significant portion of the Company's financial instruments, fair value estimates are based on judgments regarding current economic conditions, risk characteristics of various financial instruments and other factors. Those estimates that are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision are included in Level 3. Changes in assumptions could significantly affect the fair values presented.

The following tables present information about the Company's assets and liabilities measured at fair value on a recurring and non-recurring basis as of December 31, 2014 and December 31, 2013, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value:

Assets and liabilities measured at fair value on a recurring basis at December 31, 2014 are summarized below:

Fair Value Measurements at December 31, 2014 Using

	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
U.S. Government-sponsored agencies	\$ 7,002,000		\$ 7,002,000	
U.S. Government-sponsored agencies collateralized by mortgage obligations-residential	70,280,000		70,280,000	
Obligations of states and political subdivisions	12,532,000		12,532,000	
Corporate debt	506,000		506,000	
	<u>\$ 90,320,000</u>	<u>\$ -</u>	<u>\$ 90,320,000</u>	<u>\$ -</u>

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

4. FAIR VALUE MEASUREMENTS (Continued)

Assets and liabilities measured at fair value on a recurring basis at December 31, 2013 are summarized below:

Fair Value Measurements at December 31, 2013 Using

	<u>Total Fair Value</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
Assets:				
U.S. Government-sponsored agencies	\$ 27,097,000		\$ 27,097,000	
U.S. Government-sponsored agencies collateralized by mortgage obligations-residential	61,875,000		61,875,000	
Obligations of states and political subdivisions	1,371,000		1,371,000	
	<u>\$ 90,343,000</u>	<u>\$ -</u>	<u>\$ 90,343,000</u>	<u>\$ -</u>

The fair value of securities available-for-sale equals quoted market price, if available. If quoted market prices are not available, fair value is determined using quoted market prices for similar securities or matrix pricing. There were no changes in the valuation techniques used during 2014 or 2013. Transfers between hierarchy measurement levels are recognized by the Company as of the beginning of the reporting period. Changes in fair market value are recorded in other comprehensive income.

Equity lines of credit	254,000			254,000	-
Total other real estate	<u>6,399,000</u>	<u>-</u>	<u>-</u>	<u>6,399,000</u>	<u>(486,000)</u>
	<u>\$ 8,931,000</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 8,931,000</u>	<u>\$ (510,000)</u>

The Company has no liabilities which are reported at fair value.

The following methods were used to estimate fair value.

Impaired Loans: The fair value of collateral dependent impaired loans with specific allocations of the allowance for loan losses or loans that have been subject to partial charge-offs are generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Total losses of \$125,000 and \$24,000 represent impairment charges recognized during the years ended December 31, 2014 and 2013, respectively, related to the above impaired loans.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

4. FAIR VALUE MEASUREMENTS (Continued)

Other Real Estate: Nonrecurring adjustments to certain commercial and residential real estate properties classified as other real estate owned (OREO) are measured at fair value, less costs to sell. Fair values are based on recent real estate appraisals. These appraisals may use a single valuation approach or a combination of approaches including comparable sales and the income approach.

Appraisals for both collateral-dependent impaired loans and other real estate are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Company. Once received, a member of the Loan Administration Department reviews the assumptions and approaches utilized in the appraisal as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. On a quarterly basis, the Company compares the actual selling price of similar collateral that has been liquidated to the most recent appraised value for unsold properties to determine what additional adjustment, if any, should be made to the appraisal value to arrive at fair value. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available.

5. INVESTMENT SECURITIES (Continued)

At December 31, 2014, the Company held 120 securities of which 42 were in a loss position. Of the securities in a loss position, 14 were in a loss position for less than twelve months. Of the 42 securities 4 are U.S. Government-sponsored agencies 29 are U.S. Government-sponsored agencies collateralized by residential mortgage obligations and 9 were obligations of states and political subdivisions. The unrealized losses relate principally to market rate conditions. All of the securities continue to pay as scheduled. When analyzing an issuer's financial condition, management considers the length of time and extent to which the market value has been less than cost; the historical and implied volatility of the security; the financial condition of the issuer of the security; and the Company's intent and ability to hold the security to recovery. As of December 31, 2014, management does not have the intent to sell these securities nor does it believe it is more likely than not that it will be required to sell these securities before the recovery of its amortized cost basis. Based on the Company's evaluation of the above and other relevant factors, the Company does not believe the securities that are in an unrealized loss position as of December 31, 2014 are other than temporarily impaired.

The amortized cost and estimated fair value of investment securities at December 31, 2014 by contractual maturity are shown below. Expected maturities will differ from contractual maturities because the issuers of the securities may have the right to call or prepay obligations with or without call or prepayment penalties.

	Amortized Cost	Estimated Fair Value
After one year through five years	\$ 7,505,000	\$ 7,508,000
After five years through ten years	9,240,000	9,393,000
After ten years	3,067,000	3,139,000
Investment securities not due at a single maturity date:		
Government-sponsored mortgage-backed securities	70,610,000	70,280,000
	\$ 90,422,000	\$ 90,320,000

Investment securities with amortized costs totaling \$57,793,000 and \$54,373,000 and estimated fair values totaling \$57,636,000 and \$53,493,000 at December 31, 2014 and 2013, respectively, were pledged to secure deposits and repurchase agreements.

6. LOANS AND THE ALLOWANCE FOR LOAN LOSSES

Outstanding loans are summarized below:

	December 31,	
	2014	2013
Commercial	\$ 31,465,000	\$ 32,612,000
Agricultural	35,355,000	30,647,000
Real estate – residential	29,284,000	31,322,000
Real estate – commercial	163,306,000	155,942,000
Real estate – construction and land development	24,572,000	17,793,000
Equity lines of credit	38,972,000	35,800,000
Auto	44,618,000	30,305,000
Other	2,818,000	4,130,000
	370,390,000	338,551,000
Deferred loan costs, net	1,848,000	1,340,000
Allowance for loan losses	(5,451,000)	(5,517,000)
	<u>\$ 366,787,000</u>	<u>\$ 334,374,000</u>

Changes in the allowance for loan losses were as follows:

	Year Ended December 31,		
	2014	2013	2012
Balance, beginning of year	\$ 5,517,000	\$ 5,686,000	\$ 6,908,000
Provision charged to operations	1,100,000	1,400,000	2,350,000
Losses charged to allowance	(1,913,000)	(1,915,000)	(3,901,000)
Recoveries	747,000	346,000	329,000
Balance, end of year	<u>\$ 5,451,000</u>	<u>\$ 5,517,000</u>	<u>\$ 5,686,000</u>

The recorded investment in impaired loans totaled \$8,582,000 and \$9,815,000 at December 31, 2014 and 2013, respectively. The Company had specific allowances for loan losses of \$564,000 on impaired loans of \$2,401,000 at December 31, 2014 as compared to specific allowances for loan losses of \$629,000 on impaired loans of \$2,322,000 at December 31, 2013. The balance of impaired loans in which no specific reserves were required totaled \$6,181,000 and \$7,493,000 at December 31, 2014 and 2013, respectively. The average recorded investment in impaired loans for the years ended December 31, 2014, 2013 and 2012 was \$8,070,000 \$10,182,000 and \$19,816,000, respectively. The Company recognized \$152,000, \$298,000 and \$597,000 in interest income on impaired loans during the years ended December 31, 2014, 2013 and 2012, respectively. Of these amounts, \$31,000, \$22,000 and \$192,000 were recognized on the cash basis, respectively.

Included in impaired loans are troubled debt restructurings. A troubled debt restructuring is a formal restructure of a loan where the Company for economic or legal reasons related to the borrower's financial difficulties, grants a concession to the borrower. The concessions may be granted in various forms to include one or a combination of the following: a reduction of the stated interest rate of the loan; an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk; or a permanent reduction of the recorded investment in the loan.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

6. LOANS AND THE ALLOWANCE FOR LOAN LOSSES (Continued)

In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under the Company's internal underwriting policy.

The carrying value of troubled debt restructurings at December 31, 2014 and December 31, 2013 was \$5,738,000 and \$7,616,000, respectively. The Company has allocated \$319,000 and \$284,000 of specific reserves on loans to customers whose loan terms have been modified in troubled debt restructurings as of December 31, 2014 and December 31, 2013, respectively. The Company has not committed to lend additional amounts on loans classified as troubled debt restructurings at December 31, 2014 and December 31, 2013.

During the twelve month period ended December 31, 2014, the terms of certain loans were modified as troubled debt restructurings. Modifications involving a reduction of the stated interest rate of the loan was for periods ranging from 1 month to 10 years. During the twelve month period ended December 31, 2013, the terms of certain loans were modified as troubled debt restructurings. Modifications involving a reduction of the stated interest rate of the loan was for periods ranging from 1 month to 10 years. For the periods described above, modifications involving an extension of the maturity date were for periods ranging from 1 month to 10 years

The following table presents loans by class modified as troubled debt restructurings that occurred during the twelve months ending December 31, 2014:

	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Recorded Investment
Troubled Debt Restructurings:			
Auto	2	\$ 29,000	\$ 29,000

The troubled debt restructurings described above resulted in no allowance for loan losses or charge-offs during the year ending December 31, 2014.

The following table presents loans by class modified as troubled debt restructurings that occurred during the twelve months ending December 31, 2013:

	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Recorded Investment
Troubled Debt Restructurings:			
Auto	1	\$ 8,000	\$ 7,000
Other	1	9,000	9,000
Total	<u>2</u>	<u>\$ 17,000</u>	<u>\$ 16,000</u>

The troubled debt restructurings described above resulted in no allowance for loan losses or charge-offs during the year ending December 31, 2013.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

6. LOANS AND THE ALLOWANCE FOR LOAN LOSSES (Continued)

There were no troubled debt restructurings for which there was a payment default within twelve months following the modification during the twelve months ended December 31, 2014.

The following table presents loans by class modified as troubled debt restructurings for which there was a payment default within twelve months following the modification during the twelve months ended December 31, 2013.

	Number of Loans	Recorded Investment
Troubled Debt Restructurings:		
Real estate – construction and land development	1	\$ 837,000
Total	1	\$ 837,000

The troubled debt restructurings that subsequently defaulted described above increased the allowance for loan losses by \$158,000 and resulted in no charge-offs during the year ending December 31, 2013.

The terms of certain other loans were modified during the years ending December 31, 2014 and 2013 that did not meet the definition of a troubled debt restructuring. These loans have a total recorded investment as of December 31, 2014 and 2013 of \$27 million and \$14 million, respectively.

These loans which were modified during the years ended December 31, 2014 and 2013 did not meet the definition of a troubled debt restructuring as the modification was a delay in a payment ranging from 30 days to 3 months that was considered to be insignificant or the borrower was not considered to be experiencing financial difficulties.

At December 31, 2014 and 2013, nonaccrual loans totaled \$6,625,000 and \$5,519,000, respectively. Interest foregone on nonaccrual loans totaled \$345,000, \$280,000 and \$646,000 for the twelve months ended December 31, 2014, 2013 and 2012, respectively. The Company recognized \$31,000, \$22,000 and \$192,000 in interest income on nonaccrual loans during the years ended December 31, 2014, 2013 and 2012, respectively. Loans past due 90 days or more and on accrual status totaled \$0 and \$17,000 at December 31, 2014 and 2013, respectively.

Salaries and employee benefits totaling \$1,441,000, \$1,337,000 and \$953,000 have been deferred as loan origination costs during the years ended December 31, 2014, 2013 and 2012, respectively.

7. PREMISES AND EQUIPMENT

Premises and equipment consisted of the following:

	<u>December 31,</u>	
	<u>2014</u>	<u>2013</u>
Land	\$ 2,628,000	\$ 2,628,000
Premises	15,768,000	15,793,000
Furniture, equipment and leasehold improvements	<u>6,599,000</u>	<u>9,643,000</u>
	24,995,000	28,064,000
Less accumulated depreciation and amortization	<u>(13,353,000)</u>	<u>(15,545,000)</u>
	<u>\$ 11,642,000</u>	<u>\$ 12,519,000</u>

Depreciation and amortization included in occupancy and equipment expense totaled \$1,147,000, \$1,166,000 and \$1,181,000 for the years ended December 31, 2014, 2013 and 2012, respectively.

8. DEPOSITS

Interest-bearing deposits consisted of the following:

	<u>December 31,</u>	
	<u>2014</u>	<u>2013</u>
Interest-bearing demand deposits	\$ 82,144,000	\$ 82,687,000
Money market	42,499,000	47,331,000
Savings	106,257,000	93,922,000
Time, \$250,000 or more	3,291,000	3,290,000
Other time	<u>53,051,000</u>	<u>59,393,000</u>
	<u>\$ 287,242,000</u>	<u>\$ 286,623,000</u>

At December 31, 2014, the scheduled maturities of time deposits were as follows:

<u>Year Ending</u> <u>December 31,</u>	
2015	\$ 45,949,000
2016	7,221,000
2017	1,945,000
2018	725,000
2019	502,000
thereafter	-
	<u>\$ 56,342,000</u>

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

8. DEPOSITS (Continued)

Deposit overdrafts reclassified as loan balances were \$269,000 and \$357,000 at December 31, 2014 and 2013, respectively.

9. SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE

Securities sold under agreements to repurchase are secured by U.S. Government agency securities with a carrying amount of \$9,626,000 and \$9,109,000 at December 31, 2014 and 2013, respectively.

Securities sold under agreements to repurchase are financing arrangements that mature within two years. At maturity, the securities underlying the agreements are returned to the Company. Information concerning securities sold under agreements to repurchase during 2014 and 2013 is summarized as follows:

	<u>2014</u>
Average daily balance during the year	\$7,519,000
Average interest rate during the year	0.09%
Maximum month-end balance during the year	\$11,466,000
Weighted average interest rate at year-end	0.11%
	<u>2013</u>
Average daily balance during the year	\$7,285,000
Average interest rate during the year	0.18%
Maximum month-end balance during the year	\$9,109,000
Weighted average interest rate at year-end	0.09%

10. BORROWING ARRANGEMENTS

The Company is a member of the FHLB and can borrow up to \$133,000,000 from the FHLB secured by commercial and residential mortgage loans with carrying values totaling \$205,000,000. The Company is required to hold FHLB stock as a condition of membership. At December 31, 2014 and 2013, the Company held \$2,380,000 and \$2,226,000 of FHLB stock which is recorded as a component of other assets. Based on this level of stock holdings at December 31, 2014, the Company can borrow up to \$50,600,000. To borrow the \$133,000,000 in available credit the Company would need to purchase \$3,900,000 in additional FHLB stock. In addition to its FHLB borrowing line, the Company has unsecured short-term borrowing agreements with three of its correspondent banks in the amounts of \$11 million, \$10 million and \$10 million. There were no outstanding borrowings to the FHLB or the correspondent banks under these agreements at December 31, 2014 and 2013.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

10. BORROWING ARRANGEMENTS (Continued)

On October 24, 2013 the Bancorp issued a \$3 million promissory note (the "Note") payable to an unrelated commercial bank. The note bears interest at the U.S. "Prime Rate" plus three-quarters percent per annum, 4.00% at December 31, 2014 and 2013, has a term of 18 months and is secured by 100 shares of Plumas Bank stock representing the Company's 100% ownership interest in Plumas Bank. Interest expense related to this note for the years ended December 31, 2014 and 2013 totaled \$111,000 and \$23,000, respectively. Under the Note the Bank is subject to several negative and affirmative covenants including, but not limited to providing timely financial information, maintaining specified levels of capital, restrictions on additional borrowings, and meeting or exceeding certain capital and asset quality ratios. The Bank was in compliance with all such requirements at December 31, 2014 and December 31, 2013.

On July 28, 2014, Plumas Bancorp entered into a Renewal, Extension, and Modification of Loan Agreement (the "Agreement") related to the Note. This Agreement provides for the following changes, among others:

- 1.) The maturity date of the Note is October 24, 2015.
- 2.) The maximum amount of the Note is \$7.5 million.
- 3.) The Company may borrow, repay, and reborrow up to the principal face amount of the Note.

The above provisions are subject to the following conditions:

- 1.) An advance under the Note in excess of \$3 million is subject to the lender completing a satisfactory loan review of the Company.
- 2.) The Company shall provide an assignment of Key Man life Policy(s) in a minimum amount of \$3.5 million.
- 3.) The Company shall not prepay the Company's Junior Subordinated Deferrable Interest Debentures until the Note has been paid in full.

On August 26, 2014 the Company made a \$2 million payment on the Note reducing the outstanding balance to \$1 million.

On April 15, 2013 the Bancorp issued \$7.5 million in subordinated debentures ("subordinated debt"). The subordinated debt was issued to an unrelated third-party ("Lender") pursuant to a subordinated debenture purchase agreement, subordinated debenture note, and stock purchase warrant. The subordinated debt agreement provides that in the event of default with respect to the subordinated debt, the Bancorp will be subject to certain restrictions on the payment of dividends and distributions to shareholders, repurchase or redemption of the Bancorp's securities and payment on certain debts or guarantees. The subordinated debenture agreement also provides that in the event of default, Lender will have the right to appoint a director to the Bancorp's board of directors and/or the Plumas Bank board in certain limited circumstances.

The interest only payments on the subordinated debt are based on an interest rate of 7.5% per annum. Principal repayment is required at the conclusion of an 8 year term with no prepayment allowed during the first two years. Issuance of the subordinated debt was made in conjunction with an eight-year warrant (the "Lender Warrant") to purchase up to

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

10. BORROWING ARRANGEMENTS (Continued)

300,000 shares of the Bancorp's common stock, no par value at an exercise price, subject to anti-dilution adjustments, of \$5.25 per share. Under capital guidelines in effect through December 31, 2014 the subordinated debt qualifies as Tier 2 capital. However, under the provisions of Basel III, which became effective for the Company on January 1, 2015, the subordinated debt no longer qualifies as capital. Interest expense related to the subordinated debt for the years ended December 31, 2014 and 2013 totaled \$756,000 and \$541,000, respectively.

The Company allocated the proceeds received on April 15, 2013 between the subordinated debt and the Lender Warrant based on the estimated relative fair value of each. The fair value of the Warrant was estimated based on a Black-Scholes-Merton model and totaled \$318,000. The discount recorded on the subordinated note will be amortized by the level-yield method over 2 years.

Proceeds from the Note and the subordinated debt were used to partially fund the repurchase of preferred stock. (see Note 13 - Shareholders' Equity for additional information related to the repurchase, during 2013, of the Bancorp's Fixed Rate Cumulative Perpetual Preferred Stock, Series A (the "Series A Preferred Stock").

11. JUNIOR SUBORDINATED DEFERRABLE INTEREST DEBENTURES

Plumas Statutory Trust I and II are Connecticut business trusts formed by the Company with capital of \$304,000 and \$161,000, respectively, for the sole purpose of issuing trust preferred securities fully and unconditionally guaranteed by the Company. Under applicable regulatory guidance in effect as of December 31, 2014, the amount of trust preferred securities that is eligible as Tier 1 capital is limited to twenty-five percent of the Company's Tier 1 capital, as defined, on a pro forma basis. At December 31, 2014, all of the trust preferred securities that have been issued qualify as Tier 1 capital.

During 2002, Plumas Statutory Trust I issued 6,000 Floating Rate Capital Trust Pass-Through Securities ("Trust Preferred Securities"), with a liquidation value of \$1,000 per security, for gross proceeds of \$6,000,000. During 2005, Plumas Statutory Trust II issued 4,000 Trust Preferred Securities with a liquidation value of \$1,000 per security, for gross proceeds of \$4,000,000. The entire proceeds were invested by Trust I in the amount of \$6,186,000 and Trust II in the amount of \$4,124,000 in Floating Rate Junior Subordinated Deferrable Interest Debentures (the "Subordinated Debentures") issued by the Company, with identical maturity, repricing and payment terms as the Trust Preferred Securities. The Subordinated Debentures represent the sole assets of Trusts I and II.

Trust I's Subordinated Debentures mature on September 26, 2032, bear a current interest rate of 3.66% (based on 3-month LIBOR plus 3.40%), with repricing and payments due quarterly. Trust II's Subordinated Debentures mature on September 28, 2035, bear a current interest rate of 1.72% (based on 3-month LIBOR plus 1.48%), with repricing and payments due quarterly. The Subordinated Debentures are redeemable by the Company, subject to receipt by the Company of prior approval from the Federal Reserve Board of Governors, on any quarterly anniversary date on or after the 5-year anniversary date of the issuance. The redemption price is par plus accrued and unpaid interest, except in the

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

11. JUNIOR SUBORDINATED DEFERRABLE INTEREST DEBENTURES (Continued)

case of redemption under a special event which is defined in the debenture. The Trust Preferred Securities are subject to mandatory redemption to the extent of any early redemption of the Subordinated Debentures and upon maturity of the Subordinated Debentures on September 26, 2032 for Trust I and September 28, 2035 for Trust II.

Holders of the Trust Preferred Securities are entitled to a cumulative cash distribution on the liquidation amount of \$1,000 per security. The interest rate of the Trust Preferred Securities issued by Trust I adjust on each quarterly anniversary date to equal the 3-month LIBOR plus 3.40%. The Trust Preferred Securities issued by Trust II adjust on each quarterly anniversary date to equal the 3-month LIBOR plus 1.48%. Both Trusts I and II have the option to defer payment of the distributions for a period of up to five years, as long as the Company is not in default on the payment of interest on the Subordinated Debentures. The Trust Preferred Securities were sold and issued in private transactions pursuant to an exemption from registration under the Securities Act of 1933, as amended. The Company has guaranteed, on a subordinated basis, distributions and other payments due on the Trust Preferred Securities. Beginning in the second quarter of 2010 and continuing until March 15, 2013, the Company had deferred regularly scheduled quarterly interest payments on its outstanding junior subordinated debentures relating to its two trust preferred securities and had given notice of deferral each quarterly payment period.

While the Company had accrued for this obligation, it had been deferring the interest payments on the junior subordinated debentures as permitted by the agreements. As of December 31, 2012 the amount of the arrearage on the payments on the subordinated debt associated with the trust preferred securities was \$906,000.

On March 15, 2013, with the approval of the Federal Reserve Bank of San Francisco (FRB), the Company made all current and deferred interest payments on its trust preferred securities and all subsequent payments have been made when due.

Interest expense recognized by the Company for the years ended December 31, 2014, 2013 and 2012 related to the subordinated debentures was \$303,000, \$313,000 and \$344,000, respectively.

12. COMMITMENTS AND CONTINGENCIES

Leases

The Company has commitments for leasing premises under the terms of noncancelable operating leases expiring from 2015 to 2016. Future minimum lease payments are as follows:

<u>Year Ending December 31,</u>	
2015	\$ 140,000
2016	<u>88,000</u>
	<u>\$ 228,000</u>

Rental expense included in occupancy and equipment expense totaled \$192,000, \$154,000 and \$153,000 for the years ended December 31, 2014, 2013 and 2012, respectively.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

12. COMMITMENTS AND CONTINGENCIES (Continued)

Financial Instruments With Off-Balance-Sheet Risk

The Company is a party to financial instruments with off-balance-sheet risk in the normal course of business in order to meet the financing needs of its customers. These financial instruments include commitments to extend credit and letters of credit. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized on the consolidated balance sheet.

The Company's exposure to credit loss in the event of nonperformance by the other party for commitments to extend credit and letters of credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and letters of credit as it does for loans included on the consolidated balance sheet.

The following financial instruments represent off-balance-sheet credit risk:

	<u>December 31,</u>	
	<u>2014</u>	<u>2013</u>
Commitments to extend credit	\$ 89,735,000	\$ 84,229,000
Letters of credit	\$ -	\$ 60,000

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since some of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the borrower. Collateral held varies, but may include accounts receivable, crops, inventory, equipment, income-producing commercial properties, farm land and residential properties.

Letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers. The fair value of the liability related to these letters of credit, which represents the fees received for issuing the guarantees, was not significant at December 31, 2014 and 2013. The Company recognizes these fees as revenues over the term of the commitment or when the commitment is used.

At December 31, 2014, consumer loan commitments represent approximately 12% of total commitments and are generally unsecured. Commercial and agricultural loan commitments represent approximately 42% of total commitments and are generally secured by various assets of the borrower. Real estate loan commitments, including consumer home equity lines of credit, represent the remaining 46% of total commitments and are generally secured by property with a loan-to-value ratio not to exceed 80%. In addition, the majority of the Company's commitments have variable interest rates.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

12. COMMITMENTS AND CONTINGENCIES (Continued)

Concentrations of Credit Risk

The Company grants real estate mortgage, real estate construction, commercial, agricultural and consumer loans to customers throughout Plumas, Nevada, Placer, Lassen, Sierra, Shasta and Modoc counties in California and Washoe county in Northern Nevada.

Although the Company has a diversified loan portfolio, a substantial portion of its portfolio is secured by commercial and residential real estate. A continued substantial decline in the economy in general, or a continued decline in real estate values in the Company's primary market areas in particular, could have an adverse impact on the collectability of these loans. However, personal and business income represents the primary source of repayment for a majority of these loans.

Contingencies

The Company is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to such actions will not materially affect the financial position or results of operations of the Company.

13. SHAREHOLDERS' EQUITY

Dividend Restrictions

The Company's ability to pay cash dividends is dependent on dividends paid to it by the Bank and limited by California corporation law. Under California law, the holders of common stock of the Company are entitled to receive dividends when and as declared by the Board of Directors, out of funds legally available, subject to certain restrictions. The California general corporation law prohibits the Company from paying dividends on its common stock unless: (i) its retained earnings, immediately prior to the dividend payment, equals or exceeds the amount of the dividend or (ii) immediately after giving effect to the dividend, the sum of the Company's assets (exclusive of goodwill and deferred charges) would be at least equal to 125% of its liabilities (not including deferred taxes, deferred income and other deferred liabilities) and the current assets of the Company would be at least equal to its current liabilities, or, if the average of its earnings before taxes on income and before interest expense for the two preceding fiscal years was less than the average of its interest expense for the two preceding fiscal years, at least equal to 125% of its current liabilities.

Dividends from the Bank to the Company are restricted under California law to the lesser of the Bank's retained earnings or the Bank's net income for the latest three fiscal years, less dividends previously declared during that period, or, with the approval of the DBO, to the greater of the retained earnings of the Bank, the net income of the Bank for its last fiscal year, or the net income of the Bank for its current fiscal year. As of December 31, 2014, the maximum amount available for dividend distribution under this restriction was approximately \$5,100,000. In addition the Company's ability to pay dividends is subject to certain covenants contained in the indentures relating to the Trust Preferred Securities

Dividend Restrictions (continued)

issued by the business trusts (see Note 11 for additional information related to the Trust Preferred Securities).

Preferred Stock

On January 30, 2009 the Bancorp entered into a Letter Agreement (the "Purchase Agreement") with the United States Department of the Treasury ("Treasury"), pursuant to which the Bancorp issued and sold (i) 11,949 shares Series A Preferred Stock and (ii) a warrant (the "Warrant") to purchase 237,712 shares of the Bancorp's common stock, no par value (the "Common Stock"), for an aggregate purchase price of \$11,949,000 in cash.

On April 11, 2013, the Treasury announced its intent to sell its investment in the Bancorp's Series A Preferred Stock along with similar investments the Treasury had made in seven other financial institutions, principally to qualified institutional buyers. Using a modified Dutch auction methodology that establishes a market price by allowing investors to submit bids at specified increments during the period of April 15, 2013 through April 18, 2013, the U.S. Treasury auctioned all of the Bancorp's 11,949 Series A Preferred Stock. The Bancorp sought and obtained regulatory permission to participate in the auction. The Bancorp successfully bid to repurchase 7,000 shares of the 11,949 outstanding shares. This repurchase resulted in a discount of approximately 7% on the face value of the Series A Preferred Stock plus related outstanding dividends. The remaining 4,949 shares were purchased at auction by third party private investors.

On June 27, 2013 the Bancorp repurchased 1,566 shares of the Series A Preferred Stock at \$1,000 per share from certain of those third party private investors and on September 16, 2013 the Bancorp repurchased 250 shares at \$985 per share from another one of the third party investors leaving 3,133 shares outstanding as of September 30, 2013. On October 25, 2013, Plumas Bancorp repurchased the remaining 3,133 shares of the Series A Preferred Stock from a third party private investor. The Company paid \$3,101,670 plus accrued dividends of \$30,453. This represents a discount of 1% from the liquidation value of the Preferred Stock. On May 22, 2013 the Bancorp repurchased the Warrant from the Treasury at a cost of \$234,500.

Earnings Per Share

Basic earnings per share is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock, such as stock options, result in the issuance of common stock which shares in the earnings of the Company. The treasury stock method has been applied to determine the dilutive effect of stock options in computing diluted earnings per share.

Earnings Per Share (continued)

(In thousands, except per share data)	For the Year Ended December 31,		
	2014	2013	2012
Net Income:			
Net income	\$ 4,738	\$ 3,431	\$ 1,950
Discount on redemption of preferred shares	-	565	-
Dividends and accretion on preferred shares	-	(347)	(684)
Net income available to common shareholders	\$ 4,738	\$ 3,649	\$ 1,266
Earnings Per Share:			
Basic earnings per share	\$ 0.99	\$ 0.76	\$ 0.26
Diluted earnings per share	\$ 0.95	\$ 0.75	\$ 0.26
Weighted Average Number of Shares Outstanding:			
Basic shares	4,793	4,780	4,776
Diluted shares	4,977	4,883	4,782

Shares of common stock issuable under stock options and warrants for which the exercise prices were greater than the average market prices were not included in the computation of diluted earnings per share due to their antidilutive effect. Stock options and warrants not included in the computation of diluted earnings per share, due to shares not being in-the-money and having an antidilutive effect, were 238,000, 172,000 and 632,000 for the years ended December 31, 2014, 2013 and 2012, respectively. At December 31, 2014 and 2013 one stock warrant was outstanding to purchase up to 300,000 shares of the Bancorp's common stock at an exercise price, subject to anti-dilution adjustments, of \$5.25 per share. At December 31, 2012 one stock warrant was outstanding to purchase up to 237,712 shares of the Bancorp's common stock at an exercise price, subject to anti-dilution adjustments, of \$7.54 per share.

Stock Options

In 2001, the Company established a Stock Option Plan for which 306,393 shares of common stock remain reserved for issuance to employees and directors and no shares are available for future grants as of December 31, 2014.

As of December 31, 2014, there was \$10,000 of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under the 2001 Plan. That cost is expected to be recognized over a weighted average period of 0.2 years.

The total fair value of options vested was \$49,000 and \$52,000 for the year ended December 31, 2014 and 2013, respectively. The total intrinsic value of options at time of exercise was \$51,000 and \$34,000 for the years ended December 31, 2014 and 2013, respectively.

\$34,000 in cash was received from option exercises for each of the years ended December 31, 2014 and 2013. A tax benefit of \$13,000 was realized for the tax deduction from options exercised in 2014. There was no tax benefit realized for the tax deduction from options exercised in 2013.

Stock Options (continued)

A summary of the activity within the 2001 Stock Option Plan follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Intrinsic Value
Options outstanding at January 1, 2012	482,780	\$ 8.74		
Options cancelled	(62,974)	9.17		
Options outstanding at December 31, 2012	419,806	\$ 8.67		
Options cancelled	(43,347)	11.34		
Options exercised	(11,400)	2.95		
Options outstanding at December 31, 2013	365,059	\$ 8.53		
Options cancelled	(47,266)	13.64		
Options exercised	(11,400)	2.95		
Options outstanding at December 31, 2014	306,393	\$ 7.95	2.7	\$ 901,000
Options exercisable at December 31, 2014	257,200	\$ 8.91	2.4	\$ 653,000
Expected to vest after December 31, 2014	41,918	\$ 2.95	4.2	\$ 211,000

In May 2013, the Company established the 2013 Stock Option Plan for which 500,000 shares of common stock are reserved and 389,600 shares are available for future grants as of December 31, 2014. The Plan requires that the option price may not be less than the fair market value of the stock at the date the option is granted, and that the stock must be paid in full at the time the option is exercised. Payment in full for the option price must be made in cash, with Company common stock previously acquired by the optionee and held by the optionee for a period of at least six months, in options of the Optionee that are fully vested and exercisable or in any combination of the foregoing. The options expire on dates determined by the Board of Directors, but not later than ten years from the date of grant. Options granted during the years ended December 31, 2014 and 2013 were 110,400 and 0 options, respectively.

As of December 31, 2014, there was \$186,000 of total unrecognized compensation cost related to non-vested, share-based compensation arrangements granted under the 2013 Plan. That cost is expected to be recognized over a weighted average period of 3.3 years.

Stock Options (continued)

A summary of the activity within the 2013 Plan follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term in Years	Intrinsic Value
Options outstanding at January 1, 2014	-	\$ -		
Options granted	110,400	6.32		
Options outstanding at December 31, 2014	110,400	\$ 6.32	7.3	\$ 184,000
Options exercisable at December 31, 2014	-	N/A	N/A	\$ N/A
Expected to vest after December 31, 2014	94,061	\$ 6.32	7.3	\$ 157,000

Compensation cost related to stock options recognized in operating results under the two stock option plans was \$81,000 and \$38,000 for the years ended December 31, 2014 and 2013, respectively. The associated future income tax benefit recognized was \$6,000 for the year ended December 31, 2014 and \$1,000 for the year ended December 31, 2013.

Regulatory Capital

The Company and the Bank are subject to certain regulatory capital requirements administered by the Board of Governors of the Federal Reserve System and the FDIC. Failure to meet these minimum capital requirements can initiate certain mandatory and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on the Company's consolidated financial statements.

Under capital adequacy guidelines, the Company and the Bank must meet specific capital guidelines that involved quantitative measures of their assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. These quantitative measures are established by regulation and require that minimum amounts and ratios of total and Tier 1 capital to risk-weighted assets and of Tier 1 capital to average assets be maintained. Capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

The Bank is also subject to additional capital guidelines under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain total risk-based, Tier 1 risk-based and Tier 1 leverage ratios as set forth in the table on the following page and cannot be subject to a written agreement, order or capital directive issued by the FDIC. Management believes that the Company and the Bank met all capital adequacy requirements to which they are subject.

In July, 2013, the federal bank regulatory agencies approved the final rules implementing the Basel Committee on Banking Supervision's capital guidelines for U.S. banks. Under the final rules, minimum requirements will increase for both the quantity and quality of capital held by the Company and the Bank. The rules include a new common equity Tier 1

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

13. SHAREHOLDERS' EQUITY (Continued)

Regulatory Capital (continued)

capital to risk-weighted assets ratio of 4.5% and a common equity Tier 1 capital conservation buffer of 2.5% of risk-weighted assets. The final rules also raise the minimum ratio of Tier 1 capital to risk-weighted assets from 4.0% to 6.0% and require a minimum leverage ratio of 4.0%. The final rules also implement strict eligibility criteria for regulatory capital instruments.

The following tables present the capital ratios for the Company and the Bank compared to the standards for bank holding companies and the regulatory minimum requirements for depository institutions as of December 31, 2014 and 2013.

	December 31,			
	2014		2013	
	Amount	Ratio	Amount	Ratio

Loan collection expenses	182,000	212,000	219,000
Stationery and supplies	122,000	113,000	124,000
Postage	45,000	51,000	104,000
Core deposit intangible amortization	-	128,000	173,000
(Gain) loss on sale of other real estate	(101,000)	(171,000)	16,000
Other operating expenses	173,000	398,000	359,000
	\$ 5,229,000	\$ 5,481,000	\$ 5,479,000

15. INCOME TAXES

The provision for income taxes for the years ended December 31, 2014, 2013 and 2012 consisted of the following:

<u>2014</u>	Federal	State	Total
Current	\$ 1,863,000	\$ 58,000	\$ 1,921,000
Deferred	401,000	764,000	1,165,000
Provision for income taxes	\$ 2,264,000	\$ 822,000	\$ 3,086,000

<u>2013</u>	Federal	State	Total
Current	\$ 60,000	\$ 22,000	\$ 82,000
Deferred	1,578,000	507,000	2,085,000
Provision for income taxes	\$ 1,638,000	\$ 529,000	\$ 2,167,000

<u>2012</u>	Federal	State	Total
Current	\$ 25,000	\$ 3,000	\$ 28,000
Deferred	812,000	230,000	1,042,000
Provision for income taxes	\$ 837,000	\$ 233,000	\$ 1,070,000

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

15. INCOME TAXES (Continued)

Deferred tax assets (liabilities) consisted of the following:

	December 31,	
	2014	2013
Deferred tax assets:		
Allowance for loan losses	\$ 181,000	\$ 29,000
Deferred compensation	1,773,000	1,757,000
OREO valuation allowance	944,000	1,097,000
Net operating loss carryovers	236,000	1,069,000
Unrealized loss on available-for-sale investment securities	42,000	817,000
Other	847,000	1,049,000
Total deferred tax assets	4,023,000	5,818,000
Deferred tax liabilities:		
Deferred loan costs	(1,397,000)	(1,187,000)
Other	(229,000)	(233,000)
Total deferred tax liabilities	(1,626,000)	(1,420,000)
Net deferred tax assets	\$ 2,397,000	\$ 4,398,000

Deferred tax assets and liabilities are recognized for the tax consequences of temporary differences between the reported amount of assets and liabilities and their tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The determination of the amount of deferred income tax assets which are more likely than not to be realized is primarily dependent on projections of future earnings, which are subject to uncertainty and estimates that may change given economic conditions and other factors. The realization of deferred income tax assets is assessed and a valuation allowance is recorded if it is "more likely than not" that all or a portion of the deferred tax asset will not be realized. "More likely than not" is defined as greater than a 50% chance. All available evidence, both positive and negative is considered to determine whether, based on the weight of that evidence, a valuation allowance is needed.

At December 31, 2014 total deferred tax assets were approximately \$4,023,000 and total deferred tax liabilities were approximately \$1,626,000 for a net deferred tax asset of \$2,397,000. The Company's deferred tax assets primarily relate to net operating loss carry-forwards, tax benefits related to unrealized losses on available-for-sale investment securities and timing differences in the tax deductibility of impairment charges on other real estate owned and deferred compensation. Based upon our analysis of available evidence, management of the Company determined that it is "more likely than not" that all of our deferred income tax assets as of December 31, 2014 and 2013 will be fully realized and therefore no valuation allowance was recorded. On the consolidated balance sheet, net deferred tax assets are included in accrued interest receivable and other assets.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

15. INCOME TAXES (Continued)

When tax returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the accompanying balance sheet along with any associated interest and penalties that would be payable to the taxing authorities upon examination.

Interest expense and penalties associated with unrecognized tax benefits, if any, are classified as income tax expense in the consolidated statement of income. There have been no significant changes to unrecognized tax benefits or accrued interest and penalties for the year ended December 31, 2014.

The provision for income taxes differs from amounts computed by applying the statutory Federal income tax rate to operating income before income taxes. The significant items comprising these differences consisted of the following:

	2014	2013	2012
Federal income tax, at statutory rate	34.0 %	34.0 %	34.0 %
State franchise tax, net of Federal tax effect	6.9 %	6.0 %	5.7 %
Interest on obligations of states and political subdivisions	(0.7)%	(0.1)%	(0.3)%
Net increase in cash surrender value of bank owned life insurance	(1.5)%	(2.1)%	(3.9)%
Other	0.7 %	0.9%	(0.1)%
Effective tax rate	39.4 %	38.7 %	35.4 %

At year-end 2014, the Company had state operating loss carry-forwards of approximately \$3,300,000 which expire at various dates from 2029 to 2031. Deferred tax assets are recognized for net operating losses because the benefit is more likely than not to be realized.

The Company and its subsidiary file income tax returns in the U.S. federal and California jurisdictions. The Company conducts all of its business activities in the states of California and Nevada. There are currently no pending U.S. federal, state, and local income tax or non-U.S. income tax examinations by tax authorities.

With few exceptions, the Company is no longer subject to tax examinations by U.S. Federal taxing authorities for years ended before December 31, 2011, and by state and local taxing authorities for years ended before December 31, 2010.

PLUMAS BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

15. INCOME TAXES (Continued)

The unrecognized tax benefits and changes therein and the interest and penalties accrued by the Company as of or during the years ended December 31, 2014 and 2013 were not significant. The Company does not expect the total amount of unrecognized tax benefits to significantly increase or decrease in the next twelve months.

16. RELATED PARTY TRANSACTIONS

During the normal course of business, the Company enters into transactions with related parties, including executive officers and directors. The following is a summary of the aggregate activity involving related party borrowers during 2014:

Balance, January 1, 2014	\$ 1,413,000
Disbursements	3,039,000
Amounts repaid	<u>(2,703,000)</u>
Balance, December 31, 2014	<u>\$ 1,749,000</u>
Undisbursed commitments to related parties, December 31, 2014	<u>\$ 2,907,000</u>

17. EMPLOYEE BENEFIT PLANS

Profit Sharing Plan

The Plumas Bank Profit Sharing Plan commenced April 1, 1988 and is available to employees meeting certain service requirements. Under the Plan, employees are able to defer a selected percentage of their annual compensation. Included under the Plan's investment options is the option to invest in Company stock. No contribution was made for the years ended December 31, 2014, 2013 and 2012.

Salary Continuation and Retirement Agreements

Salary continuation and retirement agreements are in place for two key executives and seven members of the Board of Directors as well as four former executives and four former directors. Under these agreements, the directors and executives will receive monthly payments for twelve to fifteen years, respectively, after retirement. The estimated present value of these future benefits is accrued over the period from the effective dates of the agreements until the participants' expected retirement dates. The expense recognized under these plans for the years ended December 31, 2014, 2013 and 2012 totaled \$289,000, \$286,000 and \$507,000, respectively. Accrued compensation payable under these plans totaled \$4,007,000 and \$4,009,000 at December 31, 2014 and 2013, respectively.

In connection with these agreements, the Bank purchased single premium life insurance policies with cash surrender values totaling \$11,845,000 and \$11,504,000 at December 31, 2014 and 2013, respectively. Income earned on these policies, net of expenses, totaled \$341,000, \$344,000 and \$345,000 for the years ended December 31, 2014, 2013 and 2012, respectively.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. There was no change in our internal control over financial reporting during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

REPORT OF MANAGEMENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of Plumas Bancorp and subsidiary (the “Company”), is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934.

Management, including the undersigned Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of our internal control over financial reporting presented in conformity with accounting principles generally accepted in the United States of America as of December 31, 2014. In conducting its assessment, management used the criteria established by the Committee of Sponsoring Organizations of the Treadway Commission in the 2013 Internal Control — Integrated Framework. Based on this assessment, management concluded that, as of December 31, 2014, our internal control over financial reporting was effective based on those criteria.

This annual report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's independent registered public accounting firm pursuant to the rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.
