

Helen of Troy®

A N N U A L

R E P O R T

Company Profile

Helen of Troy Limited (NASDAQ:HELE) has established a leadership position in the personal care products market through new product innovation, superior product quality, and competitive pricing. The Company designs, produces, and markets brand-name personal care electrical products which include hair dryers, curling irons, hairsetters, hot air brushes, home hair clippers, and paraffin baths, as well as comfort products such as foot baths and body massagers. The Company also produces and markets non-electrical products, including brushes, combs, hair accessories, mirrors, and grooming implements. The Company's products are sold primarily through mass merchandisers, drug chains, warehouse clubs, and grocery stores. Additionally, through our affiliation with Tactica International, Inc., products are also marketed through direct response marketing and through retail channels.

Company growth strategy is facilitated by our sales of products under world-respected trade names. Helen of Troy is licensed to sell products under the trade names of Vidal Sassoon, Revlon®, Dr. Scholl's®, and Sunbeam®. Helen of Troy's owned trade names include Dazey®, Caruso®, Karina®, Wave Rage™, Hot Things™, Nandi™, and DCNL™. The company also markets professional and personal care products under the Helen of Troy®, Hot Tools®, Hot Spa®, Salon Edition®, Gallery Series®, Wigo®, Solingen™, and Ecstasy® trade names to the beauty salon industry.

Helen of Troy's U.S. operations are headquartered in El Paso, Texas, with offices and warehouse facilities around the world.

Dear Shareholders:

Fiscal year 2002 was a very successful year for Helen of Troy.

We fulfilled many of our long-term strategic goals and achieved many new corporate milestones. Sales increased 25 percent to a record \$451.2 million from \$361.4 million in fiscal 2001. Net income climbed to a record \$29.2 million or \$1.00 per diluted share in fiscal 2002, representing a 69 percent gain over net income of \$17.3 million or \$0.60 per diluted share last year. This has been the most profitable year since Helen of Troy's inception in 1968 and we look forward to continuing to pursue record profitability in our upcoming fiscal year.

Our balance sheet for the year ended February 28, 2002, also continues to remain strong with cash for the year more than doubling over the prior fiscal year, reaching \$64.3 million versus \$25.9 million at last fiscal year's end. Inventory declined 15.4 percent, from \$118.5 million to \$100.3 million, even though sales for the year increased 25 percent over the prior year. The Company's net worth increased 14 percent to \$250.3 million from \$219.6 million at last fiscal year end.

Sales increases during fiscal 2002, were driven primarily by increased sales of beauty and personal care products from our Retail and Professional divisions, consumer health and wellness products and

international personal care products. Our retail personal care products include Revlon, VS Sassoon and Sunbeam hair care appliances, as well as the new Sunbeam clipper lines. Health and wellness products include our spa and massager products, as well as related product sales of Dr. Scholl's and Tactica International.

Delivering on our commitment to product innovation, Helen of Troy introduced 50 new products at the 2002 International Housewares Show in Chicago. New product introductions included over fifteen new Dr. Scholl's massager products. These newly introduced foot massagers incorporate the most sought after consumer preferred features such as toe-touch control, acupressure rollers, interchangeable massage attachments and multiple settings for heat, massage and invigorating bubbles. We also introduced various new products in our hair care appliance and personal care product lines.

Building on the success of our Ion hair drying technology, Helen of Troy, under the VS Sassoon brand name, has developed a revolutionary line of Ion products. This line includes a variety of dryers, hot air brushes and kits containing styling plates, to create a variety of chic salon styles in the comfort of your own home. This new Ion technology dries hair faster by reducing the size of water droplets. Anti-static ions dry hair faster, while moisture is absorbed for a conditioning style, leaving hair more manageable with less static electricity.

Responding to the exploding teen/pre-teen market, Helen of Troy also introduced the new Wave-Rage line which includes three-barrel wavers, spiral curling irons, straighteners, hair-setters, and multi-stylers, creating a mix of today's most popular teen styles.

Partnering with Vidal Sassoon, one of the world's most innovative hairstylists and Marc Newson, one of the world's most innovative industrial designers, Helen of Troy has launched a bold, new line of professional styling tools. This line includes a hair dryer, curling irons, and a straightener, blending Marc's exclusive designs and signature colors with expertise from one of the world's foremost hair experts.

New products from Tactica International were also introduced at this year's Annual International Housewares Show. These products include a line of pore cleansing and skin care products, a line of nail care products, additional products in the depilatory and hair removal category, and a unique line of hair coloring applicator products.

In addition to our continued commitment to new product development and innovation, Helen of Troy also continued to improve its internal operations and support functions with new technologies and productivity-enhancing software with the goal to transform ourselves into a leaner, financially stronger and more flexible company, capable of more readily serving our customers worldwide. We have made significant progress in the assessment and improvement of our information systems technology, and developed and implemented more advanced methods to improve the sharing of both information and data resources throughout our global organization. Based on our most recent performance and the expectation of continued improvements in our business model, we eagerly look ahead to fiscal 2003 for the fulfillment of the corporate and financial goals that we have set for ourselves this year.

Identifying a growing demand in a broad international market for our branded personal care products, we have aggressively set out to further penetrate the rapidly emerging international marketplace of our global business enterprise. International sales have increased steadily over the last several years with the establishment of international sales offices in the United Kingdom, Germany and France and distribution in Latin America, South America, and Australia. Helen of Troy stands ready to provide quality name brand products to world markets with the same level of service and convenience that our domestic customers have come to expect.

The results of this fiscal year are impressive by any standards. However, to have achieved these results in the midst of one of the most challenging economic environments in recent years, highlights the exceptional performance of our employees and business partners worldwide. Our successful performance, in all its aspects, results from the hard work and dedication of our many employees. Their experience, commitment, and creativity have shaped the successes of this fiscal year.

I would like to express my sincere thanks to the many individuals who helped us achieve these results and to our shareholders for remaining confident in our abilities.

Gerald J. Rubin
Chairman, Chief Executive Officer and President

PART I

Item 1. Business

General

Unless the context requires otherwise, references to “the Company,” to “our Company,” or to “Helen of Troy” and references such as “we” and “us” refer to Helen of Troy Limited and its subsidiaries, including Tactica International, Inc. (“Tactica”). Our Company is comprised of three operating segments. The North American segment sells hair care and other personal care and comfort appliances, hairbrushes, combs, and utility and decorative hair accessories in the U.S. and Canada. The International segment sells hair care and other personal care and comfort appliances, hairbrushes, combs, and utility and decorative hair accessories outside of the U.S. and Canada. Our third segment, Tactica, sells personal care and other consumer products directly to consumers through direct response marketing and to retailers. We present financial information for each of our operating segments in Note (10) of the Consolidated Financial Statements. The matters discussed in Item 1 pertain to all three of our operating segments, unless otherwise specified.

We design, develop and sell a variety of personal care and comfort products under trademarks licensed from third parties, as well as under trademarks that we own. We outsource the manufacture of our products to third parties and sell most of those products to mass merchandisers, drug chains, warehouse clubs, grocery stores, beauty supply retailers and wholesalers, and directly to consumers in the U.S. and other countries.

Products bearing licensed trademarks include those sold under the trademarks of VS Sassoon®, licensed from The Procter & Gamble Company; Revlon®, licensed from Revlon Consumer Products Corporation; Dr. Scholl’s®, licensed from Schering-Plough HealthCare Products, Inc.; Scholl® (in areas other than North America), licensed from Scholl Limited; and Sunbeam®, licensed from Sunbeam Products, Inc. Trademarks owned by the Company include Helen of Troy®, Salon Edition®, Hot Tools®, Ecstasy™, Gold Series®, Hotspa®, Gallery Series®, Wigo®, Caruso™, Dazey®, Lady Dazey®, Carel®, Lady Carel®, Sable®, Karina®, Karina Girl™, Kurl*Mi®, Detangle*Mi®, Heat*Mi®, DCNL™, DCNL Signature™, IGIA®, and Epil-Stop®.

We were incorporated as Helen of Troy Corporation in Texas in 1968 and reincorporated as Helen of Troy Limited in Bermuda in 1994.

We do not engage in any activities involving special purpose entities or off-balance sheet financing.

Products

The business of Helen of Troy's North American and International segments is designing, developing and selling a full line of personal care and comfort products. Our products include hair dryers, curling irons, hair straighteners, hot air brushes, brush irons, home hair clippers and trimmers, mirrors, hairsetters, foot baths, body massagers, paraffin baths, hairbrushes, combs and hair accessories. The following table lists some of the products that the North American and International segments sell and some of the brand names that appear on those products.

PRODUCTS	BRAND NAMES
Hand-held hair dryers	VS Sassoon®, Revlon®, Sunbeam®, Helen of Troy®, Salon Edition®, Hot Tools®, Ecstasy™, Gold Series®, Gallery Series®, Wigo®, and Sable®
Curling irons, hair straighteners, hot air brushes and brush irons	VS Sassoon®, Revlon®, Sunbeam®, Helen of Troy®, Salon Edition®, Hot Tools®, Gold Series®, Gallery Series®, Ecstasy™, Wigo®, and Sable®.
Hairsetters	VS Sassoon®, Revlon® and Caruso™
Paraffin baths, facial brushes, and facial saunas	Revlon®
Foot baths	Dr. Scholl's®, Scholl®, Revlon®, Carel® and Hotspa®
Foot massagers, hydro massagers, cushion massagers and body massagers	Dr. Scholl's®, Scholl®, Carel® and Hotspa®
Hair clippers and trimmers	Sunbeam® and VS Sassoon®
Paraffin baths and other skin care appliances	Revlon®, and Hotspa®
Hard and soft-bonnet hair dryers	Dazey®, Lady Dazey®, Carel® and Hot Tools®
Hair styling and utility implements	VS Sassoon®, Revlon®, Wave Rage™, Nandi™, DCNL™, and Ecstasy™
Decorative hair accessories	VS Sassoon®, Karina®, Karina Girl™, HOT things™, isobel™, DCNL™, and DCNL Signature™

On March 14, 2000 we acquired a 55 percent ownership interest in Tactica International, Inc. ("Tactica"). Tactica's net sales comprised approximately 24 percent and five percent of the Company's consolidated net sales in fiscal 2002 and 2001, respectively. Tactica designs, develops and sells a variety of personal care and other consumer products in categories such as hair care, hair removal, dental care, skin care, sports and exercise, household, and kitchen. Tactica sells these products directly to consumers and through the retail distribution channel, primarily under the IGIA® and Epil-Stop® trademarks. Some of the products developed and marketed by Tactica are trend-oriented and have shorter product lives than Helen of Troy's other products. To create product awareness and interest, Tactica uses television infomercials and direct response marketing extensively.

We continue, primarily through our marketing and engineering departments, to develop new products and enhance existing products in order to maintain and improve our position in the personal care and comfort product market. Significant product additions during fiscal 2002 included hair dryers and other hair care appliances using ion technology. For fiscal 2003, we are introducing a number of new products, including new massager products, Memory Foam™ pillows, a quiet hair dryer and other new hair care appliances that incorporate ionic technology, hair styling products aimed at the teen market, and a line of appliances created by designer Marc Newson.

Sales and Marketing

We market our products primarily within the U.S. Sales within the U.S. comprised 91 percent of net sales in fiscal 2002, 89 percent of net sales in fiscal 2001, and 88 percent of net sales in fiscal 2000. Our North American and

International operating segments sell their products primarily through mass merchandisers, drug chains, warehouse clubs, catalogs, grocery stores and beauty supply retailers and wholesalers. Both of these segments market our products through outside sales representatives and through our own sales staff. Tactica primarily uses direct consumer marketing, such as television infomercials and catalog advertising to sell its products under the IGIA® and Epil-Stop® brands in the U.S.

The companies from whom we license many of our brand names promote those names extensively. Revlon Consumer Products Corporation engages in national advertising of its beauty care products. The VS Sassoon®, Dr. Scholl's® and Sunbeam® trademarks are widely recognized, because of advertising and the sale of a variety of products. We benefit from the name recognition associated with a number of our licensed trademarks and further improve the name recognition and perceived quality of all the trademarks under which we sell products through our own advertising and product development efforts. We promote our products through television advertising and through print media, including consumer and trade magazines and various industry trade shows.

Manufacturing and Distribution

We contract with unaffiliated manufacturers in the Far East, primarily in the Peoples' Republic of China, Thailand, Taiwan, and South Korea, to manufacture most of the products sold by our North American and International segments (see discussion of International Manufacturing and Operations in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" under the heading "Risk Factors"). For fiscal 2002, goods manufactured by vendors in the Far East comprised approximately 90 percent of the dollar value of the North American and International segments' inventory purchases. Those segments purchase the remainder of their products from unaffiliated manufacturers in North America and Europe. The manufacturers who produce our products use molds and certain other tooling, some of which we own, in manufacturing those products. The North American and International segments employ numerous technical and quality control persons to assure high product quality.

Our products that are manufactured in the Far East and sold in North America are shipped to the West Coast of the U.S. and the West Coast of Canada. The products are then shipped by truck or rail service to warehouse facilities in El Paso, Texas; Memphis, Tennessee; Toronto, Canada; and Vancouver, Canada, or directly to customers. We ship substantially all products to North American customers from these warehouses by ground transportation services. Products sold by the International segment outside the U.S. and Canada are shipped from manufacturers, primarily in the Far East, to warehouse facilities in Veenendaal, The Netherlands and Nottinghamshire, the United Kingdom, or directly to customers. Products stored at the warehouses in The Netherlands and the United Kingdom are shipped from those warehouses to distributors or retailers.

Our customers in both the North American and International segments seek to minimize their inventory levels, but often demand that we fulfill their orders within relatively short time frames. Consequently, these inventory management practices often require us to carry substantial levels of inventory in order to meet our customers' needs.

Tactica also contracts with unaffiliated manufacturers both within and outside the U.S. to manufacture its products. Tactica's products are shipped to a warehouse facility in Reno, Nevada for shipment to individuals or retail customers. Tactica also sometimes ships products from manufacturers directly to retailers. When selling to retail customers, Tactica often faces the same challenges as do our other two segments with regard to retailers' inventory management practices.

Most of our three segments' products manufactured outside the countries in which they are sold are subject to import duties.

License Agreements, Trademarks and Patents

Our North American and International operating segments depend materially upon the continued use of trademarks licensed under various agreements. The VS Sassoon® and Revlon® trademarks are of particular importance. New product introductions under licensed trademarks require approval from the respective licensors. The licensors also must approve the product packaging. Many of the license agreements require the Company to pay minimum royalties, meet minimum sales volumes, and make minimum levels of advertising expenditures. The duration of the license agreements for the Revlon® and VS Sassoon® trademarks, including the renewal terms, exceeds ten years. Upon expiration of the current terms of these agreements, we have the unconditional right to extend their terms, upon payment of a renewal fee.

The discussion below covers the primary product categories that Helen of Troy currently sells under its major license agreements. The product categories discussed do not necessarily include all of the products that Helen of Troy is entitled to sell under these agreements.

Under agreements with The Procter & Gamble Company, Helen of Troy is licensed to sell certain products using the VS Sassoon® trademark in the U.S., Canada, Mexico, and Western Europe. Products sold under the terms of these licenses include hair dryers, curling irons, brush irons, hairsetters, hot air brushes, hair clippers and hair trimmers, mirrors, brushes, combs and hair care accessories.

Under agreements with Revlon Consumer Products Corporation, we are licensed to sell, worldwide, except in Western Europe, hair dryers, curling irons, hair straighteners, brush irons, hairsetters, brushes, combs, mirrors, functional hair accessories, personal spa products, hair clippers and trimmers, and battery-operated and electric women's shavers bearing the Revlon® trademark.

We are licensed to sell foot baths, foot massagers, hydro massagers, cushion massagers, and body massagers bearing the Dr. Scholl's® trademark in the U.S. and Canada, under an agreement with Schering-Plough HealthCare Products, Inc. We also are licensed to sell the same products under the Scholl® trademark in other areas of the world through an agreement with Scholl Limited.

Under agreements with Sunbeam Products, Inc. we are licensed to sell hair clippers, hair trimmers, hair dryers, curling irons, hairsetters, hot air brushes, mirrors, manicure kits, hair brushes and combs, hair rollers, hair accessories, hair removal devices, and paraffin wax devices bearing the Sunbeam® trademark in the U.S., Canada, Mexico, Central America, South America, and the Caribbean.

Helen of Troy has filed or obtained licenses for design and utility patents in the U.S. and several foreign countries. The Company does not believe that the loss of any particular patent or patent license would have a materially adverse effect on its business.

Reliance on One Customer

Sales to Wal-Mart Stores, Inc., and one of its affiliates, accounted for approximately 22 percent, 23 percent, and 26 percent of our net sales in fiscal 2002, 2001, and 2000, respectively. No other customer accounted for ten percent or more of net sales in fiscal 2002, 2001, or 2000.

Order Backlog

There was no significant backlog of orders at February 28, 2002.

Competitive Conditions

The markets in which we sell our products are very competitive. Maintaining and gaining market share depends heavily on product development and enhancement, pricing, quality, performance, packaging and availability, brand name recognition, patents, and marketing and distribution approaches. Our primary competitors include The Conair Corporation; Applicia Incorporated; Remington Products Company; Goody Products, Inc., a division of Newell Rubbermaid Inc.; Homedics-USA, Inc.; and The New L & N Marketing and Sales Corporation. These competitors possess known brand names and significant resources.

Seasonality

The Company's business is somewhat seasonal. Sales in the Company's fiscal second and third quarters, combined, accounted for approximately 57 percent of fiscal 2002 and 2001 net sales and for approximately 54 percent of net sales in fiscal 2000. As a result of the seasonality of sales, working capital needs fluctuate during the year.

Regulation

Our electrical products must meet the safety standards imposed in various national, state, local and provincial jurisdictions. Our electrical products sold in the U.S. are designed, manufactured and tested to meet the safety standards of Underwriters Laboratories, Inc. or Electronic Testing Laboratories.

Employees

We employ 625 full-time employees in the U.S., Hong Kong and Europe, of which 216 are marketing and sales employees, 153 are distribution employees, 53 are engineering and development employees and 203 are administrative personnel. Included in these totals are 61 employees of Tactica. Tactica employs 44 administrative and 17 sales and marketing personnel. None of the Company's employees are covered by any collective bargaining agreement. We have never experienced a work stoppage and we believe that we have satisfactory working relations with our employees.

Geographic Information

Note (10) to the Consolidated Financial Statements contains geographic information concerning our net sales and long-lived assets.

Item 2. Properties

Plant and Facilities

North American Segment. We own a 135,000 square foot office building in El Paso, Texas that houses our U.S. operations. The warehouse that we own in El Paso, Texas totals 408,000 square feet and is adjacent to the building housing the U.S. operations. The two buildings are located on a 50-acre plot of land that we own. We lease 108,000 square feet of warehouse space in El Paso, Texas; 360,000 square feet of warehouse space in Memphis, Tennessee; 50,000 square feet of warehouse space in Toronto, Canada; and 20,000 square feet of warehouse space in Vancouver, Canada. We also lease sales offices in Bentonville, Arkansas, Minneapolis Minnesota, Troy Michigan, and Toronto, Canada.

We own 22 acres of land in El Paso, Texas, near the 50 acres on which the warehouse and the U.S. office building that we own are located. The Company is holding this land for future business use.

International Segment. We lease warehouse space in public warehouses located in Hong Kong; Veenendaal, The Netherlands and Nottinghamshire the United Kingdom. In addition, we also lease sales offices in the United Kingdom, France, and Germany.

Tactica. Tactica leases administrative offices in New York, New York and leases public warehouse space in Reno, Nevada.

Corporate. A subsidiary located in Hong Kong leases approximately 23,000 square feet of office space. Prior to fiscal 1996 this subsidiary was headquartered in approximately 12,000 square feet of office space that was acquired by condominium ownership. In fiscal 1998 the Company leased that office space to an unaffiliated company.

We also own 12,000 square feet of warehouse space on a 62,000 square foot lot adjacent to the building that formerly housed our U.S. operations. We are holding this property for sale and leasing it to an unaffiliated company.

Item 3. Legal Proceedings

The Hong Kong Inland Revenue Department (“the IRD”) has assessed tax on certain profits of the Company’s foreign subsidiaries for the fiscal years 1990 through 1997. Hong Kong taxes income earned from certain activities conducted in Hong Kong. The Company is vigorously defending its position that it conducted the activities that produced the profits in question outside of Hong Kong. The Company also asserts that it has complied with all applicable reporting and tax payment obligations. If the IRD’s position were to prevail and if it were to assert the same position for years after fiscal 1997, the resulting tax liability could total \$30,520,000 (U.S.) for the period from fiscal 1990 through fiscal 2002. In connection with the IRD’s tax assessment, the Company was required to purchase \$5,750,000 (U.S.) in tax reserve certificates in Hong Kong. The \$5,750,000 represented approximately 50 percent of the liability assessed by the IRD for fiscal 1990 through fiscal 1997. Tax reserve certificates represent the prepayment by a taxpayer of potential tax liabilities. The amounts paid for tax reserve certificates are refundable in the event that the value of the tax reserve certificates exceeds the related tax liability. These certificates are denominated in Hong Kong dollars and are subject to the risks associated with foreign currency fluctuations. Although the ultimate resolution of the IRD’s claims cannot be predicted with certainty, management believes that adequate provision has been made in the financial statements for the resolution of the IRD’s claims.

In the fourth quarter of the fiscal year ended February 28, 2001, the Company recorded a \$2,457,000 charge for the remaining unamortized costs under a distribution agreement (which was later formally terminated) with The Schawbel Corporation (“Schawbel”), the supplier of the Company’s butane hair care products. In a related matter, in September 1999, Schawbel commenced litigation in the U.S. District Court for the District of Massachusetts against The Conair Corporation (“Conair”), the predecessor distributor for Schawbel’s butane products. In its action, amended in June 2000, Schawbel alleged, among other things, that Conair, following Schawbel’s termination of the Conair distribution agreement, stockpiled and sold Schawbel product beyond the 120 day “sell-off” period afforded under the agreement, and manufactured, marketed and sold its own line of butane products which infringed patents held by Schawbel. In November 2000, the Massachusetts court granted Schawbel its request for preliminary injunction, and ordered that Conair cease selling all allegedly infringing products. The Company intervened as a plaintiff in the action to assert claims against Conair similar to the claims raised by Schawbel. The Company is seeking to recover damages in excess of \$10 million, arising from the Company’s inability to meet minimum purchase requirements under its distribution agreement with Schawbel and the subsequent termination of that agreement by Schawbel. Conair responded by filing a counterclaim alleging that the Company conspired with Schawbel to unlawfully terminate Conair’s distribution agreement with Schawbel, and to disparage Conair’s reputation in the industry. The counterclaim seeks \$15 million in damages. Although the ultimate outcome of the matter cannot be predicted, the Company contends that Conair’s counterclaims lack validity. The Company intends to pursue vigorously its claims and defense in the litigation.

The Company is involved in various other legal claims and proceedings in the normal course of operations. In the opinion of management, the outcome of these matters will not have a material adverse effect on the consolidated financial position, results of operations or liquidity of the Company.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders during the fourth quarter of fiscal 2002.

PART II

Item 5. Market for Registrant's Common Equity and Related Stockholder Matters

Price Range of Common Stock

Our Common Stock is listed on the NASDAQ National Market System [symbol: HELE]. The following table sets forth, for the periods indicated, in dollars per share, the high and low bid prices of the Common Stock as reported on the NASDAQ National Market System. These quotations reflect the inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions.

	<u>High</u>	<u>Low</u>
Fiscal 2002		
First quarter	9.42	5.16
Second quarter	14.80	7.75
Third quarter	13.20	7.99
Fourth quarter	15.79	10.26
Fiscal 2001		
First quarter	7.88	6.19
Second quarter	6.94	4.75
Third quarter	7.50	4.00
Fourth quarter	7.06	4.00

Approximate Number of Equity Security Holders

We have one class of equity security outstanding at February 28, 2002; Common Stock with a par value of \$0.10. As of May 3, 2002, there were 409 holders of record of the Company's Common Stock. Shares held in "nominee" or "street" name at each bank nominee or brokerage house are included in the number of shareholders of record as a single shareholder. We estimate that approximately 11,000 individuals and institutions hold our common stock.

Cash Dividends

The Board of Directors' current policy is to retain earnings to provide funds for the operation and expansion of the Company's business and for potential acquisitions. The Company has not paid any cash dividends on its Common Stock since inception. The Company's current intention is to pay no cash dividends in fiscal 2003. Any change in dividend policy will depend upon future conditions, including earnings and financial condition, general business conditions, any applicable contractual limitations, and other factors deemed relevant by the Board of Directors.

Item 6. Selected Financial Data

The selected consolidated financial information set forth below has been summarized from the Company's Consolidated Financial Statements. This information should be read in conjunction with the Consolidated Financial Statements and the related Notes to Consolidated Financial Statements included in Item 8. "Financial Statements and Supplementary Data." All currency amounts in this document are denominated in U.S. dollars.

- (1) Fiscal 2002 and 2001 results include 100 percent of the results of Tactica, a subsidiary in which the Company acquired a 55 percent interest in March 2000.
- (2) In fiscal 2000, the Company incurred \$2,669,000 of charges to cost of goods sold and \$8,725,000 of charges to selling, general and administrative expenses as a result of the discontinuance of its artificial nails product line. In fiscal 2000 the Company also incurred \$770,000 of charges related to the restructuring and reorganization of several departments.
- (3) Other income includes gains of approximately \$147,000 in fiscal 2002, \$1,400,000 in fiscal 2001 and \$6,300,000 in fiscal 2000 from the sale and appreciation of marketable securities. See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" for a further discussion of gains from marketable securities.
- (4) Certain items that, prior to fiscal 2002, were classified as "other income" have been reclassified as reductions to SG&A expense. Those items totaled \$434,000 in fiscal 2001 and \$382,000 in each of fiscal 2000, 1999, and 1998.
- (5) In fiscal 2000 the Company repurchased 526,485 shares of its Common Stock at a cost of \$4,076,000. In fiscal 2001, the Company repurchased 815,946 shares of its Common Stock at a cost of \$4,623,000. No Common Stock was repurchased in any other year presented above.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion contains a number of forward-looking statements, all of which are based on current expectations. Actual results may differ materially due to a number of factors, including those discussed in the sections entitled "Risk Factors" and "Information Relating to Forward Looking Statements" and in Item 7A. "Quantitative and Qualitative Disclosures About Market Risk."

Results of Operations

The following table sets forth, for the periods indicated, selected consolidated operating data for the Company as a percentage of net sales.

	Relationship to Net Sales Fiscal Year		
	<u>2002</u>	<u>2001</u>	<u>2000</u>
Net sales	100.0%	100.0	100.0
Cost of sales	<u>52.9</u>	<u>61.0</u>	<u>62.0</u>
Gross Profit	47.1	39.0	38.0
Selling, general and administrative expenses	<u>37.9</u>	<u>32.6</u>	<u>34.7</u>

Tactica	11,930	(4,629)	-	358	-
Corporate / other	(2,232)	(1,205)	(891)	(85)	(29)
	\$41,657	22,996	9,801	81%	140%

Results of operations

Consolidated Sales and Gross Profit Margins

Net sales for the 12 months ended February 28, 2002 (“fiscal 2002”) improved 24.9 percent or \$89,851,000, versus the 12 month period ended February 28, 2001 (“fiscal 2001”). All three of our operating segments exceeded their prior year sales totals, with the Tactica operating segment producing \$84,665,000 of the fiscal 2002 sales increase. The International operating segment was responsible for most of the remaining sales growth.

Net sales for fiscal 2001 increased 20.7 percent or \$61,885,000 compared to the 12 months ended February 29, 2000 (“fiscal 2000”). Increased North American sales and the addition of the sales of Tactica contributed most of the fiscal 2001 sales growth. Sales in our International segment also improved during fiscal 2001, versus fiscal 2000. Excluding the Tactica segment, which was acquired in fiscal 2001, we achieved net sales growth of 12.6 percent in fiscal 2001.

Gross profit, as a percentage of sales, for fiscal 2002 improved from 39.0 to 47.1 percent. Most of this increase was attributable to Tactica’s higher sales. Tactica’s net revenues made up 24.1 percent of our consolidated fiscal 2002 net sales, versus 6.6 percent in fiscal 2001, thus increasing the effect of its relatively high gross margins on consolidated gross margins. North American segment gross margins also improved from fiscal 2001 to fiscal 2002, primarily because of a favorable change in the mix of products sold and our ability to source product more efficiently.

Gross profit as a percentage of sales rose from 38.0 percent in fiscal 2000 to 39.0 percent in fiscal 2001. The sales of Tactica contributed significantly to the increase in gross profit. Additionally, gross profit for fiscal 2000 was reduced by a \$2,669,000 pre-tax charge for the write-down of the Company's artificial nails inventory. The absence of such a charge in fiscal 2001 contributed to that year's improved gross profit as a percentage of sales. Slightly lower gross margins on some of the Company's other North American and International products partially offset factors that increased fiscal 2001 gross profit margins.

Selling, general and administrative expense

From fiscal 2001 to fiscal 2002, selling, general, and administrative expenses ("SG&A"), expressed as a percentage of net sales, increased from 32.6 to 37.9 percent. Tactica incurs substantially higher SG&A, as a percentage of its sales, than do the North American and International segments because of its more extensive use of infomercials and other forms of advertising. Because Tactica grew significantly during fiscal 2002, both in its sales volume and as a percentage of our consolidated business, all of its operating statistics, including SG&A as a percentage of sales, became much more significant to our overall results. This was the primary reason for higher SG&A, as a percentage of sales, during fiscal 2002. Although its SG&A percentage was higher than the percentages incurred by the other segments, Tactica's SG&A declined as a percentage of its sales from fiscal 2001 to fiscal 2002. The main reason for the decline was a drop in Tactica's fixed expenses as a percentage of its increased sales. The variable portion of Tactica's SG&A expense rose slightly as a percentage of sales, mainly because of higher advertising expense. Excluding Tactica, our fiscal 2002 SG&A as a percentage of sales was consistent with fiscal 2001, as lower media advertising expenses largely offset slightly higher personnel, insurance, and inventory storage costs.

SG&A as a percentage of sales decreased to 32.6 percent in fiscal 2001, from 34.7 percent in fiscal 2000. Excluding Tactica, selling, general, and administrative expenses as a percentage of sales decreased from 34.7 percent in fiscal 2000 to 29.3 percent in fiscal 2001. Two factors contributed significantly to the decrease. First, because of fiscal 2001 sales growth, fixed expenses represented a smaller percentage of sales in fiscal 2001 than in fiscal 2000. Second, in fiscal 2000, we recognized more net expense than in fiscal 2001 in connection with the discontinuance of certain product lines and certain organizational changes. In fiscal 2000, we incurred \$8,725,000 in pre-tax SG&A expenses related primarily to the discontinuance of our artificial nails business and also to other charges associated with strategic reorganizations of certain operations. In fiscal 2001, the Company recognized a charge for the discontinuance of a product line, combined with a benefit from the settlement of a license obligation which, when combined, resulted in a net \$562,000 charge to fiscal 2001 SG&A. Partially offsetting the SG&A items that decreased in fiscal 2001 were higher media advertising expenditures in the North American segment and the higher levels of SG&A incurred by Tactica, relative to our other segments.

North American Segment

The North American segment sells hair care and other personal care and comfort appliances, hairbrushes, combs, and utility and decorative hair accessories in the U.S. and Canada. The North American segment's main customers are mass merchandisers, drug chains, warehouse clubs, grocery stores, and beauty supply retailers and wholesalers.

North American segment sales remained relatively constant from fiscal 2001 to fiscal 2002, increasing by less than one percent. In the retail distribution channel, our new line of Ion hair care appliances and our private label products produced sales increases. Slight decreases in sales of some of our branded hair care and personal care appliances, as well as lower sales of brushes, combs and accessories offset partially the sales increases. Sales in the North American professional distribution channel grew mainly because of new product introductions and the expansion of some of our larger customers in this channel of distribution. The weakness of the U.S. economy in fiscal 2002, relative to the recent past, contributed to a difficult North American sales environment. We believe that new product introductions, strong positioning of our current products, and a healthier U.S. economy should lead to fiscal 2003 North American segment sales growth in all product categories and distribution channels.

The increase in the Company's fiscal 2001 North American sales, compared to fiscal 2000, was largely due to the internal development of new products and sales of a new product line. The Company introduced new quiet hair dryers, a new line of halogen hair care appliances, and a new line of personal spa products, including paraffin baths, during fiscal 2001. Additionally, sales of home hair clippers and trimmers under the Sunbeam® and Oster® names helped the Company achieve increased sales in the North American segment during fiscal 2001. Fiscal 2001 was the first year in which the Company sold hair clippers and trimmers. Sales of certain brush, comb and accessory products declined in fiscal 2001, partially offsetting the sales growth produced by the segment's other products.

Operating income generated by the North American segment increased 12.1 percent in the fiscal year ended February 28, 2002, compared to the same period a year earlier. Expressed as a percentage of sales, the North American segment's operating income rose from 9.2 percent to 10.3 percent from fiscal 2001 to fiscal 2002. The improved North American operating results were primarily the result of higher gross profit margins, arising from favorable changes in the mix of products sold and our ability to source product more efficiently.

Fiscal 2001 North American segment operating income increased by 191.5 percent over fiscal 2000. Operating income in the North American segment totaled 9.2 percent of net sales in that segment during fiscal 2001, versus 3.6 percent during fiscal 2000. During fiscal 2000, we recognized \$8,725,000 in non-recurring expenses related to the discontinuance of the artificial nails product line and strategic reorganizations of some of our North American operations. By contrast, in fiscal 2001, we recognized net expenses of a non-recurring nature totaling \$562,000.

International Segment

The International segment sells hair care and other personal care and comfort appliances, hairbrushes, combs, and utility and decorative hair accessories outside of the U.S. and Canada. The International segment, like the North American segment, sells primarily to mass merchandisers, drug chains, warehouse clubs, grocery stores, and beauty supply retailers and wholesalers.

Increased sales in Latin and South America, France, and the United Kingdom ("U.K.") drove International segment sales up 17.8 percent during fiscal 2002. The growth in Latin America and South America was attributable to our successful efforts to increase distribution by expanding our customer base in that geographic area. The net sales increase in France was due both to the development of relationships with a larger number of customers and the growth of our business with existing customers. Expanded sales to some of our larger customers in the U.K. drove sales increases there.

Higher sales in Latin and South America, particularly in Brazil, were the primary factor increasing International sales during fiscal 2001, relative to fiscal 2000. Sales in Germany and France also grew in fiscal 2001.

Our International segment incurred an operating loss of \$244,000 in fiscal 2002, compared to operating income of \$94,000 in fiscal 2001. During fiscal 2002, we experienced collection difficulties with a customer in the Latin and South American market, as well as several customers in the Middle East. We are currently exploring strategies that might reduce our credit risk in the Latin and South American market. Such strategies will result in lower Latin and South American sales volume during the first quarter of and possibly throughout fiscal 2003. In addition to collection difficulties, inventory markdowns and currency exchange losses contributed to the International segment's operating loss.

The International segment's operating profit declined from \$835,000 in fiscal 2000 to \$94,000 in fiscal 2001. This decrease in International operating income was largely the result of foreign exchange losses, as the U.S. Dollar gained substantial strength against foreign currencies, particularly the British Pound Sterling during fiscal 2001.

Tactica Segment

We own a 55 percent ownership interest in Tactica International, Inc. (“Tactica”). Tactica sells a variety of personal care and other products to retailers and to individuals. Tactica uses infomercials and other forms of advertising extensively. As a result, Tactica incurs higher SG&A expenses, as a percentage of sales, than the North American and International operating segments.

At the time that we acquired Tactica, we determined that use of the purchase method of accounting and consolidation was appropriate and we continue to use that method of consolidation. Tactica had accumulated a net deficit at the time that we acquired our interest in it and the minority shareholders have not adequately guaranteed their portion of the accumulated deficit. Therefore, our Consolidated Statements of Income for fiscal 2002 and fiscal 2001 include 100 percent of Tactica’s net income and loss, respectively. We will continue to recognize all of Tactica’s net income or loss until such time as Tactica’s accumulated deficit is extinguished. After that time, our consolidated net earnings will include 55 percent of Tactica’s net income or loss. We anticipate that Tactica’s accumulated deficit will be extinguished during the quarter ending August 31, 2002.

During fiscal 2002, Tactica’s net revenues increased to over four times their fiscal 2001 levels. Tactica’s line of Epil-Stop® hair removal products played the most significant role of any product in its fiscal 2002 sales increase. The Electrosage™ muscle stimulation / exercise product line and its new Twist-A-Braid™ hair styling accessory also contributed to higher fiscal 2002 sales. The Tactica segment is selling Epil-Stop®, Electrosage™ and Twist-A-Braid™ to retailers and through direct response media.

Tactica’s operating income of \$11,930,000 in fiscal 2002 was a \$16,559,000 improvement over its fiscal 2001 operating loss of \$4,629,000. Tactica’s improvement in net sales was the primary factor leading to its better operating results in fiscal 2002. Higher fiscal 2002 revenues produced more gross profit for Tactica and caused its SG&A expenses, as a percentage of sales, to decrease.

As discussed above, Tactica’s net sales grew substantially in fiscal 2002 from fiscal 2001, comprising 24 percent and five percent, respectively, of the Company’s consolidated net sales during such periods. In addition, the increase in Tactica’s sales in fiscal 2002 accounted for 94 percent of the increase in our consolidated sales during this period. Tactica’s sales in fiscal 2002 were comprised heavily of the Epil-Stop® product line, which has an unproven product life cycle. Tactica also sells other products that have short life cycles. Furthermore, Tactica relies on television infomercials and direct response marketing campaigns for the marketing of its products. Accordingly, Tactica’s sales may be more volatile than the business of our other two segments. The results of our business could be adversely affected by decreases in sales of Tactica products.

Interest expense and Other income / expense

Interest expense increased by 6.7, or \$267,000, percent in fiscal 2002, versus fiscal 2001, due to increased borrowings under our line of credit during the first three quarters of fiscal 2002. The increase in borrowings was due to our relatively high levels of inventory purchases early in the year. Such purchases enabled us to obtain products from suppliers at favorable prices.

Interest expense increased to \$3,989,000 in fiscal 2001 from \$3,530,000 in fiscal 2000. The capitalization of interest on the construction of our new U.S. office building during the first two quarters of fiscal 2000 lowered interest expense for that year. No interest was capitalized during fiscal 2001.

Other income decreased to \$1,146,000 in fiscal 2002, compared to \$1,883,000 in fiscal 2001. The primary reason for the decrease was a drop in income from the sale and appreciation of marketable securities from approximately \$1,400,000 in fiscal 2001 to \$147,000 in fiscal 2002. Interest income also fell because of lower interest rates and because of lower cash balances for most of fiscal 2002, versus fiscal 2001.

Other income decreased to \$1,883,000 in fiscal 2001 from \$6,826,000 in fiscal 2000. Lower income from the sale and appreciation of marketable securities accounted for most of this decrease. Income from the sale and appreciation of marketable securities was approximately \$1,400,000 in fiscal 2001, versus \$6,300,000 for fiscal 2000.

Income tax expense

In fiscal 2002 our income tax expense was 24.2 percent of net income before income taxes, as opposed to 17.0 percent in fiscal 2001. The main reason for this change was Tactica. Tactica incurs a total income tax rate of approximately 45 percent, versus 20 percent for our other two segments combined. Because Tactica produced net income during fiscal 2002, our effective tax rate rose above 20 percent. The removal during fiscal 2002 of a valuation allowance from a \$1,115,000 deferred tax asset reduced Tactica's income tax expense below 45 percent for the fiscal year. Fiscal 2001 income tax expense totaled \$3,558,000 or 17.0 percent of earnings before income taxes, versus a tax benefit of \$14,000 in fiscal 2000 on \$13,097,000 in earnings before income taxes. The Company's effective tax rate for each of fiscal 2001 and fiscal 2000 was reduced below rates of approximately 20 percent that it had experienced prior to fiscal 2000. During both fiscal 2001 and fiscal 2000, the Company's tax rate was reduced by the fact that Helen of Troy Limited, the Bermuda Corporation, which is not subject to any capital gains or other income tax, holds the consolidated group's investments in marketable securities. In addition, the charges associated with the Company's discontinuance of its artificial nails product line created tax benefits on the books of a U.S. subsidiary that offset much of the tax expense associated with the income of non-U.S. subsidiaries.

Liquidity and Capital Resources

During fiscal 2002, we substantially strengthened our financial condition. Our cash balance increased, while our inventory balance decreased. In addition, at February 28, 2002 we had no borrowings outstanding on our working capital line of credit, versus a \$10,000,000 balance on the same date a year earlier.

Our cash balance increased 147.9 percent to \$64,293,000 at February 28, 2002, compared to \$25,937,000 at February 28, 2001. Operating activities provided \$52,589,000 of cash during fiscal 2002, compared to using \$185,000 during the previous fiscal year. In addition to net income, our successful efforts to reduce inventory balances were instrumental in the production of cash from operating activities. Investing activities used \$5,735,000, due primarily to our prepayment of approximately \$3,000,000 in royalties on an international royalty agreement. Financing activities used \$8,499,000, mainly because we began the year with \$10,000,000 borrowed under our line of credit and reduced that amount to zero by the end of fiscal 2002.

Net accounts receivable increased 8.8 percent from February 28, 2001 to February 28, 2002. The percentage increase in accounts receivable is substantially less than the 24.9 percent increase in net sales that we achieved during fiscal 2002. The fiscal 2002 growth in Tactica's cash sales to consumers, relative to total net sales, was the primary reason that accounts receivable grew by a smaller percentage than net sales.

Our February 28, 2002 inventory balance totaled \$100,306,000, versus \$118,544,000 at February 28, 2001, a 15.4 percent decrease. After making substantial purchases during the first half of fiscal 2002 in order to obtain favorable pricing from suppliers, we engaged in a successful effort to reduce our inventory levels mainly by curtailing inventory purchases in the second half of fiscal 2002.

Our working capital balance increased to \$191,438,000 at February 28, 2002 from \$157,809,000 at February 28, 2001. Our current ratio was 4.7 at February 28, 2002, compared to 3.5 at February 28, 2001. The increase in our current ratio was largely due to the production of cash by our operating activities, lower levels of accounts payable, and the repayment of borrowings under the working capital line of credit in fiscal 2002. The decrease in accounts payable is primarily the result of lower levels of inventory purchases.

In connection with its acquisition of a 55 percent interest in Tactica, the Company loaned \$3,500,000 to the

minority shareholders of Tactica. The interest rate on these loans is 8.75 percent. All principal and unpaid interest on these loans is due March 14, 2005. The total amounts of principal and accrued interest due to the Company under these loans were \$4,103,000 and \$3,826,000 at February 28, 2002 and 2001, respectively. These amounts are included in "Other assets" on the Consolidated Balance Sheets.

We maintain a revolving credit loan with a bank to facilitate short-term borrowings and the issuance of letters of credit. This line of credit allows borrowings totaling \$25,000,000, incurs interest at the three-month LIBOR rate plus a percentage that varies based on the ratio of the Company's debt to its earnings before interest, taxes, depreciation, and amortization (EBITDA), and expires August 31, 2003. At February 28, 2002 the interest rate charged under the line of credit was 2.89 percent. This line of credit allows for the issuance of letters of credit up to \$7,000,000. Any outstanding letters of credit reduce the \$25,000,000 maximum borrowing limit on a dollar-for-dollar basis. At February 28, 2002, there were no borrowings under this line of credit and outstanding letters of credit totaled \$439,000. The revolving credit agreement provides that the Company must satisfy requirements concerning its minimum net worth, total debt to consolidated total capitalization ratio, debt to EBITDA ratio and its fixed charge coverage ratio. The Company is in compliance with all of these requirements.

Our \$55,000,000 of long-term debt is comprised of a group of unsecured Senior Notes with face values totaling \$40,000,000 and an interest rate of 7.01 percent, as well as an unsecured Senior Note with a face value of \$15,000,000 and an interest rate of 7.24 percent. We pay interest on these notes each calendar quarter. The \$40,000,000 group of Senior Notes require annual principal payments of \$10,000,000 beginning January 5, 2005, with the final payment due January 5, 2008. The \$15,000,000 Senior Note requires annual principal payments of \$3,000,000 beginning July 18, 2008, with the final payment due July 18, 2012. The Senior Notes contain covenants that require the Company to meet certain net worth and other financial requirements. Additionally, the Senior Notes restrict the Company from incurring liens on any of its properties, except under certain conditions. The Company is in compliance with all the terms of these notes.

Capital and license expenditures totaled \$878,000, \$3,185,000, and \$8,340,000 in fiscal 2002, 2001, and 2000, respectively. Our operations are not typically capital intensive. On a normal operating basis, we are likely to incur approximately \$1,000,000 in capital expenditures annually. In fiscal 2000, capital expenditures included \$3,788,000 of expenditures associated with the construction of our U.S. office facility. We incurred capitalized license fees of \$1,834,000 and \$1,798,000 in fiscal 2001 and 2000, respectively. We are in the process of negotiating the renewal and modification of certain license agreements, which we expect to complete during fiscal 2003 at aggregate expenditures during fiscal 2003 of \$3,000,000.

Our contractual obligations and commercial commitments as of February 28, 2002 were:

Contractual Obligations	Payments Due by Period (in 000s)				
	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
Long-term debt	\$ 55,000	-	20,000	10,000	25,000
Open purchase orders – inventory	18,828	18,828	-	-	-
Minimum royalty payments	<u>49,220</u>	<u>8,655</u>	<u>13,621</u>	<u>13,730</u>	<u>13,214</u>
Total contractual obligations	\$ <u>123,048</u>	<u>27,483</u>	<u>33,621</u>	<u>23,730</u>	<u>38,214</u>

We do not engage in any activities involving special purpose entities or off-balance sheet financing.

Under a September 1999 Board of Directors resolution, the Company may repurchase up to a total of 3,000,000 shares of its Common Stock over a period extending to September 29, 2002. Since the inception of this Common Stock repurchase program, the Company repurchased a total of 1,342,431 shares of its Common Stock for \$8,699,196, including commissions, or an average price per share of \$6.48. No Common Stock was repurchased during fiscal 2002.

Based on our current financial condition and current operations, we believe that cash flows from operations and available financing sources will continue to provide sufficient capital resources to fund the Company's ongoing liquidity needs for the foreseeable future. We expect that our capital needs will stem primarily from the needs to purchase sufficient levels of inventory and to carry normal levels of accounts receivable on our balance sheet. In addition, we evaluate acquisition opportunities on a regular basis and might augment our internal growth with acquisitions of complimentary businesses and product lines. We might finance acquisition activity with available cash, the issuance of stock, or with additional debt, depending upon the size and nature of any such transaction and upon conditions in the capital markets.

Critical Accounting Policies

The U.S. Securities and Exchange Commission defines critical accounting policies as "those that are both most important to the portrayal of a company's financial condition and results, and require management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain." Preparation of our financial statements involves the application of several such policies. These policies include: consolidation of Tactica International, Inc. (Tactica) under the purchase method, estimates of our exposure to liability for income taxes in Hong Kong, estimates of credits to be issued to customers for sales that have already been recorded, the calculation of our allowance for doubtful accounts, and the valuation of inventory on a lower-of-cost-or-market basis.

Consolidation of Tactica – In March 2000 (fiscal 2001), we acquired a 55 percent interest in Tactica. At that time, we determined that use of the purchase method of accounting and consolidation was appropriate and we continue to use that method of consolidation. Because Tactica had accumulated a net deficit at the time that we acquired our interest in it and because the minority shareholders of Tactica have not adequately guaranteed their portion of the accumulated deficit, our Consolidated Statements of Income for fiscal 2002 and fiscal 2001 include 100 percent of Tactica's net income or loss. We will continue to recognize all of Tactica's net income or loss until such time as Tactica's accumulated deficit is extinguished. After that time, our consolidated net earnings will include 55 percent of Tactica's net income or loss.

Hong Kong Income Taxes – The Inland Revenue Department ("the IRD") in Hong Kong assessed tax on certain profits of the Company's foreign subsidiaries for the fiscal years 1990 through 1997. The ultimate resolution of the IRD's claims cannot be predicted with certainty. However, we have recorded a liability for the IRD's claims, based on consultations with outside Hong Kong tax experts as to the probability that some or all of the IRD's claims prevail. Such liability is included in "Income taxes payable" on the Consolidated Balance Sheets. If the IRD's position were to prevail and it were to assert the same position with respect to fiscal years after 1997, the resulting tax liability could total \$30,520,000 (U.S.) for the period from fiscal 1990 through fiscal 2002.

Estimates of credits to be issued to customers – We regularly receive requests for credits from retailers for returned product or in connection with sales incentives, such as co-operative advertising and volume rebate agreements. We reduce sales or increase selling, general, and administrative expenses, depending on the nature of the credits, for estimated future credits to customers. Our estimates of these amounts are based either on historical information about credits issued, relative to total sales, or on specific knowledge of incentives offered to retailers.

Allowance for doubtful accounts – From time to time, amounts due from our customers become uncollectible due to the customers' inability to pay. We record allowances specifically for customers' balances based on the probability that we will not receive payment. When major customers declare bankruptcy, we record an allowance equal to the amount due from that customer, less the portion of the receivable that we expect to collect either by selling the receivable in a secondary market or through settlement with the bankruptcy estate.

Valuation of inventory – We account for our inventory using a first-in-first-out system in which we record inventory on our balance sheet at the lower of its cost or its net realizable value. Determination of net realizable value requires management to estimate the point in time at which an item’s net realizable value drops below its cost. We regularly review our inventory for slow-moving items and for items that we are unable to sell at prices above their original cost. When we identify such an item, we reduce its book value to the net amount that we expect to realize upon its sale. This process entails a significant amount of inherent subjectivity and uncertainty.

In addition to the above policies, several other policies, including policies governing the timing of revenue recognition, are important to the preparation of our financial statements, but do not meet the definition of critical accounting policies because they do not involve subjective or complex judgements.

Risk Factors

Competition. The personal care and comfort products industry is extremely competitive. Maintaining and gaining market share depends heavily upon price, quality, brand name recognition, patents, innovation in the design of new products and replacement models, and marketing and distribution approaches. We compete with domestic and international companies, some of which have substantially greater financial and other resources than those of the Company. We believe that our ability to produce reliable products that incorporate developments in technology and to satisfy consumer tastes with respect to style and design, as well as our ability to market a broad offering of products in each applicable category at competitive prices, are keys to our future success. No assurance can be given that we will be able to successfully compete on the basis of these factors in the future.

Dependence Upon Licenses and Trademarks. A substantial portion of our sales revenue is derived from sales of products under licensed trademarks. As a result, we are materially dependent upon the continued use of such trademarks, particularly the VS Sassoon® and Revlon® trademarks. Actions taken by licensors and other third parties could diminish greatly the value of any of our licensed trademarks. If we were unable to sell products under these licensed trademarks the effect on our business, financial condition and results of operations could be both negative and material.

Income Taxes. Currently, we benefit from an international corporate structure that results in relatively low tax rates on a consolidated basis. If we were to encounter significant changes in the rates or rules imposed by certain key taxing jurisdictions, such changes could have a material adverse effect on the Company’s financial position and profitability. In 1994, we engaged in a corporate restructuring that, among other things, resulted in a greater portion of our income not being subject to taxation in the U.S. If such income were subject to U.S. federal income taxes, our effective income tax rate would increase materially. Several bills have been introduced recently in the U.S. Congress that, if enacted into law, could adversely affect our U.S. federal income tax status. At least one of the bills introduced would apply to companies such as ours that restructured several years ago. That bill could, if enacted into law, subject a greater portion of our income to U.S. income taxes, thereby reducing our net income. Other bills introduced recently would exempt restructuring transactions, such as ours, that were completed before certain dates in 2001 and 2002, but would limit the deductibility of payments made in certain intercompany transactions for U.S. income tax purposes and would subject gains on certain asset transfers to U.S. income tax. In addition to the legislation introduced in Congress, the U.S. Treasury Department recently published a study of restructurings such as ours. It is not currently possible to predict whether the legislation that has been introduced will become law, whether any additional bills will be introduced, or the consequences of the U.S. Treasury Department’s study. However, there is a risk that new laws in the U.S. could eliminate or substantially reduce the current income tax benefits of our corporate structure. If this were to occur, such changes could have a material adverse effect on our financial condition and results of operations.

In addition to potential changes in tax laws, the Company’s position on various tax matters may be challenged, as is the case with the Hong Kong Inland Revenue Department matter discussed in “Item 3. Legal Proceedings.”

Our ability to maintain our position that the parent company is not a Controlled Foreign Corporation (as defined under the U.S. Internal Revenue Code) is critical to the tax treatment of our non-U.S. earnings. A Controlled Foreign

Corporation is a non-U.S. corporation whose largest U.S. shareholders (i.e., those owning ten percent or more of its stock) together own more than 50 percent of the stock in such corporation. If a change of ownership of the Company were to occur such that the parent company became a Controlled Foreign Corporation, such a change could have a material negative effect on the largest U.S. shareholders and, in turn, on the Company's business.

International Manufacturing and Operations. All of our products are manufactured by unaffiliated companies, most of which are in the Far East. Risks associated with such foreign manufacturing include: changing international political relations; changes in laws, including tax laws, regulations, and treaties; changes in labor laws, regulations, and policies; changes in customs duties and other trade barriers; changes in shipping costs; currency exchange fluctuations; local political unrest; and the availability and cost of raw materials and merchandise. To date, these factors have not significantly affected our production in the Far East. However, any change that impairs our ability to obtain products from such manufacturers, or to obtain products at marketable rates, could have a material negative effect on our business, financial condition and results of operations.

Inventory. Because of our reliance on manufacturers in the Far East, our production lead times are relatively long. Therefore, we must commit to production in advance of customer orders. If we fail to forecast customer or consumer demand accurately we may encounter difficulties in filling customer orders or in liquidating excess inventories, or may find that customers are canceling orders or returning products. Distribution difficulties may have an adverse effect on our business by increasing the amount of inventory and the cost of storing inventory. Additionally, changes in retailer inventory management strategies could make inventory management more difficult. Any of these results could have a material adverse effect on our business, financial condition and result of operations.

Newly Acquired Product Lines and Subsidiaries. We may decide to grow our business through the acquisition of new product lines and businesses. The acquisition of a business or of the rights to market specific products or use specific product names involves a financial commitment. In the case of an acquisition such commitments are usually in the form of either cash or stock consideration. In the case of a new license, such commitments could take the form of license fees, prepaid royalties and future minimum royalty and advertising payments. While our strategy is to acquire businesses and to develop products that will contribute positively to earnings, there is no guarantee of such results. Anticipated synergies may not materialize, cost savings may be less than expected, sales of products may not meet expectations, and acquired businesses may carry unexpected liabilities. Each of these factors could result in a newly acquired business or product line having a material negative impact on financial condition and results of operations.

Reliance Upon Certain Customers. We are dependent on certain principal customers. Wal-Mart Stores, Inc., and one of its affiliates, accounted for approximately 22 percent of the Company's net sales in fiscal 2002. Our top three customers accounted for approximately 35 percent of fiscal 2002 net sales. Although we have long-standing relationships with our major customers, no contracts require these customers to buy from us. A substantial decrease in sales to any of our major customers could have a material adverse effect on our financial condition and results of operations.

Tactica's Potential Sales Volatility. Tactica's net sales grew substantially in fiscal 2002 from fiscal 2001, comprising 24 percent and five percent, respectively, of the Company's consolidated net sales during such periods. In addition, the increase in Tactica's sales in fiscal 2002 accounted for 94 percent of the increase in our consolidated sales during this period. Tactica's sales in fiscal 2002 were comprised heavily of the Epil-Stop® product line, which has an unproven product life cycle. Tactica also sells other products that have short life cycles. Furthermore, Tactica relies on television infomercials and direct response marketing campaigns for the marketing of its products. Accordingly, Tactica's sales may be more volatile than the business of our other two segments. The results of our business could be adversely affected by decreases in sales of Tactica products.

Tactica Stockholders' Agreement. One of our subsidiaries is a party to a stockholders' agreement with the former owners of Tactica, who retained a 45 percent interest in Tactica (collectively the "other Tactica stockholders"). Under the terms of the stockholders' agreement, we have been granted the right to initiate a process whereby we can purchase, and the other Tactica stockholders are required to sell, the shares they own. In addition, the other Tactica stockholders have the right to initiate a process regarding the sale of their remaining interest in Tactica. We may elect

at our option not to purchase the shares owned by the other Tactica stockholders and under the terms of the stockholders' agreement the parties will then be required to initiate a procedure under which the entire business of Tactica would be offered for sale to third parties. In either case, the purchase price will be based upon fair market value as determined by independent appraisal. A sale to a third party would be subject to the approval of the other Tactica stockholders and us. In the event that either party exercises its rights under the stockholders' agreement, our financial position and profitability could be adversely affected.

U.S. and Worldwide Economic Conditions. Adverse changes in economic conditions that affect consumer spending or worldwide economic conditions could have a material negative effect on the Company's financial condition and results of operations.

Information Relating to Forward-looking Statements

Certain written and oral statements made by our Company and subsidiaries or with the approval of an authorized executive officer of our Company may constitute "forward-looking statements" as defined under the Private Securities Litigation Reform Act of 1995. This includes statements made in this report, in other filings with the Securities and Exchange Commission, in press releases, and in certain other oral and written presentations. Generally, the words "anticipates," "believes," "expects" and other similar words identify forward-looking statements. All statements that address operating results, events or developments that we expect or anticipate will occur in the future, including statements related to sales, earnings per share results and statements expressing general expectations about future operating results, are forward-looking statements. The Company cautions readers not to place undue reliance on forward-looking statements. Forward-looking statements are subject to risks that could cause such statements to differ materially from actual results. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Factors that could cause actual results to differ from those anticipated include:

- general industry conditions and competition,
- credit risks,
- the Company's, or its operating segments' material reliance on individual customers or small numbers of customers,
- the Company's material reliance on certain trademarks,
- the impact of tax legislation, regulations, or treaties, including proposed legislation in the U.S. that would affect companies or subsidiaries of companies that have headquarters outside the U.S. and file U.S. income tax returns,
- the impact of other current and future laws, and regulations,
- the results of our disagreement with the Hong Kong Internal Revenue Department concerning the portion of our profits subject to Hong Kong income tax,
- any future disagreements with the U.S. Internal Revenue Service or other taxing authority regarding our assessment of the effects or interpretation of existing tax laws, regulations, or treaties,
- risks associated with inventory, including potential obsolescence,
- risks associated with new products and new product lines,
- risks associated with operating in foreign jurisdictions,
- foreign currency exchange losses,
- worldwide and domestic economic conditions,
- uninsured losses,
- reliance on computer systems,
- management's reliance on the representations of third parties,
- risks associated with new business ventures and acquisitions,
- risks associated with investments in equity securities, and
- the risks described from time to time in the Company's reports to the Securities and Exchange Commission, including this report.

New Accounting Guidance

In April 2001, the FASB's Emerging Issues Task force ("EITF") reached consensus on EITF Issue 00-25 ("EITF 00-25"), "Vendor Income Statement Characterization of Consideration from a Vendor to a Retailer." EITF 00-25 requires vendors who offer certain allowances to customers to characterize those allowances as reductions of net sales, rather than as selling, general, and administrative expenses ("SG&A"). EITF 00-25 is applicable for fiscal quarters beginning after December 15, 2001 and requires restatement of prior periods if possible. Had the Company applied EITF 00-25 its net sales and SG&A in fiscal 2002, 2001, and 2000 would have decreased by \$3,023,000, \$2,672,000 and \$1,665,000, respectively. EITF 00-25 will be applied beginning in fiscal 2003.

In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133"). SFAS 133 requires that an entity recognize all derivatives in its financial statements and measure those instruments at fair value. SFAS 133 was effective for fiscal quarters of fiscal years beginning after June 15, 2000. The adoption of SFAS 133 did not affect the Company's Consolidated Financial Statements.

In June 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 142 is effective for the Company beginning March 1, 2002. It eliminates the amortization of goodwill and other intangible assets that have indefinite useful lives. Amortization will continue to be recorded for intangible assets with definite useful lives. SFAS 142 also requires at least an annual impairment review of goodwill and other intangible assets. Any asset deemed to be impaired is to be written down to its fair value. In complying with SFAS 142, we will review the goodwill on our Consolidated Balance Sheets to determine whether it is impaired. We will determine fair values using discounted cash flow analysis. We estimate that the cumulative effect of adopting SFAS 142 will be a non-cash after-tax charge ranging from \$15 million to \$20 million in the first quarter of fiscal 2003. We will record this amount as a cumulative effect of an accounting change. Because it eliminates the amortization of goodwill, SFAS 142 will decrease our SG&A expense by approximately \$2,000,000 in fiscal 2003.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Changes in interest rates and currency exchange rates represent our primary financial market risks. Fluctuation in interest rates causes variation in the amount of interest that we can earn on our available cash. Our long-term debt is at fixed rates ranging from 7.01 percent to 7.24 percent. Increases in interest rates do not expose us to risk on this debt. However, as interest rates drop below the rates on our long-term debt, our interest cost can exceed the cost of capital of other companies who are borrowing at lower rates of interest.

As mentioned in the “Liquidity and Capital Resources” discussion, interest rates on our revolving credit agreement vary based on the three-month LIBOR rate and on our ratio of debt to EBITDA. Therefore, the potential for interest rate increases exposes us to interest rate risk on our revolving credit agreement. That agreement allows maximum borrowings of \$25,000,000. At the end of fiscal 2002, no borrowings were outstanding under this agreement. However, if the need to borrow under the revolving credit agreement were to arise, higher interest rates would increase the cost of such debt. We do not currently hedge against interest rate risk.

Because we purchase a substantial majority of our inventory using U.S. dollars, we are subject to minimal foreign exchange rate risk in purchasing inventory. Sales in countries other than the United Kingdom, Germany, and France are transacted in U.S. dollars. Our sales in the United Kingdom are transacted in British Pounds and our sales in France and Germany are invoiced in Euros. Until January 1, 2002, we also transacted sales in France and Germany in French Francs and German Marks, respectively. When the U.S. dollar strengthens against other currencies in which we transact sales, we are exposed to foreign exchange losses on those sales because our foreign currency sales prices are not adjusted for currency fluctuations. In fiscal 2002, our gross sales in currencies other than the U.S. dollar totaled approximately \$22,500,000, converted at average monthly exchange rates. Our fiscal 2002 foreign currency exchange loss totaled \$307,000. We do not currently hedge against foreign currency fluctuations.

The transition in 12 European countries from their local currencies to the Euro on January 1, 2002 did not affect our business materially. The effect of the transition for us is that sales that would previously have been invoiced in French Francs or German Marks are now invoiced in Euros.

Item 8. Financial Statements and Supplementary Data

INDEX TO CONSOLIDATED FINANCIAL STATEMENTS AND FINANCIAL STATEMENT SCHEDULE

	<u>Page</u>
Independent Auditors' Report	24
Consolidated Financial Statements:	
Consolidated Balance Sheets as of February 28, 2002 and 2001	25

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Stockholders
Helen of Troy Limited:

We have audited the consolidated financial statements of Helen of Troy Limited and subsidiaries (the Company) as listed in the index on page 23. In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule as listed in the index on page 23. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Helen of Troy Limited and subsidiaries as of February 28, 2002 and February 28, 2001, and the results of their operations and their cash flows for each of the years in the three-year period ended February 28, 2002, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth thereon.

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) Summary of Significant Accounting Policies

(a) General

Helen of Troy Limited, a Bermuda company, and its subsidiaries (the “Company”) design, develop, import, and distribute hair care appliances, hairbrushes, combs, hair accessories and other personal care products. The Company purchases its products from unaffiliated manufacturers most of which are located in The People’s Republic of China, Thailand, Taiwan and South Korea.

The consolidated financial statements are prepared in U.S. dollars and in accordance with accounting principles generally accepted in the United States of America. These principles require management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(b) Consolidation

The consolidated financial statements include the accounts of Helen of Troy Limited and its subsidiaries, including Tactica International, Inc. (“Tactica”), a subsidiary in which the Company acquired a 55 percent interest in fiscal 2001. The Company’s consolidated net income includes and will continue to include one hundred percent of Tactica’s net income or loss until such time as the minority interest in Tactica’s accumulated deficit has been extinguished. Intercompany balances and transactions have been eliminated in consolidation.

(c) Revenue recognition

The Company recognizes revenues when it ships its product to customers. Customers at times request credits for returned product or in connection with incentives such as co-operative advertising agreements. The Company reduces sales or increases selling, general, and administrative expenses, depending on the nature of the credits, for estimated future credits to customers. Management bases such estimates either on historical information about credits issued, relative to total sales, or on specific knowledge of incentives offered to retailers.

(d) Inventories

The Company accounts for its inventory using a first-in-first-out system in which it records inventory on its balance sheet at the lower of its cost or its net realizable value. Determination of net realizable value requires management to estimate the point in time at which an item’s value drops below its cost and the dollar amount of the item’s net realizable value. The Company regularly reviews its inventory for slow-moving items and for items that it is unable to sell at prices above their original cost. When it identifies such an item, the Company reduces its book value to the amount that it expects to realize upon sale of that item.

(e) Valuation of accounts receivable

The allowance for doubtful accounts reflects the Company’s best estimate of probable losses, determined principally on the basis of historical experience and specific allowances for known troubled accounts.

(f) Property and equipment

Property and equipment are stated at cost. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets.

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) Summary of Significant Accounting Policies, continued

(g) License agreements

A substantial majority of the Company's sales are made subject to license agreements with the licensors of the VS Sassoon®, Revlon®, Sunbeam® and Dr. Scholl's® trademarks. The Company amortizes the acquisition costs of the existing license agreements on a straight-line basis over the lives of the respective agreements. Net sales subject to license agreements comprised 55 percent, 72 percent, and 73 percent of total net sales for fiscal years 2002, 2001, and 2000, respectively. Royalty expense under the Company's license agreements is recognized as it is incurred.

(h) Income taxes

The Company uses the asset and liability method to account for income taxes. Deferred income tax assets and liabilities are recognized for the future tax consequences of temporary differences between the book and tax bases of various assets and liabilities. Generally, deferred tax assets represent future income tax reductions while deferred tax liabilities represent income taxes that the Company expects to pay in the future. The Company measures deferred tax assets and liabilities using enacted tax rates for the years in which it expects that temporary differences will reverse or be settled. Changes in tax rates affect the carrying values of deferred tax assets and liabilities. The effects of tax rate changes are recognized in the periods in which they are enacted.

(i) Earnings per Share

Basic earnings per share is computed based upon the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed based upon the weighted average number of common shares plus the effects of potentially dilutive securities. The number of potentially dilutive securities was 1,109,900; 308,689; and 832,472 for fiscal years 2002, 2001, and 2000, respectively. Dilutive securities for the year ended February 28, 2002 consisted entirely of stock options. Dilutive securities for the years ended February 28, 2001 and February 29, 2000 included 258,084 and 739,615 shares, respectively, attributable to dilutive stock options, as well as 50,605 and 92,857 shares, respectively, contingently issuable as part of an acquisition. Options to purchase common stock that were outstanding but not included in the computation of earnings per share because the exercise prices of such options were greater than the average market price of the Company's common stock totaled 2,794,900; 4,319,762; and 3,786,612 for fiscal 2002, 2001, and 2000, respectively.

(j) Cash Equivalents

The Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

(k) Foreign Currency Transactions

The U.S. dollar is the Company's functional currency. All of Helen of Troy Limited's non-U.S. subsidiaries' transactions involving other currencies have been re-measured in U.S. dollars using average exchange rates for the months in which the transactions occurred. Changes in exchange rates that affect cash flows and the related receivables or payables are recognized as transaction gains and losses in the determination of net earnings.

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) Summary of Significant Accounting Policies, continued

(l) Advertising

Advertising costs are expensed in the fiscal year in which they are incurred. During the fiscal years ended February 28, 2002, February 28, 2001 and February 29, 2000, the Company charged \$49,261,000, \$31,675,000, and \$18,527,000, respectively, of advertising costs to selling, general, and administrative expenses.

(m) Warranties

The Company's products are under warranty against defects in material and workmanship for a maximum of two years. The Company has established an accrual of approximately \$3,428,000, \$2,946,000 and \$2,868,000 as of February 28, 2002, February 28, 2001 and February 29, 2000, respectively, to cover future warranty costs.

(n) Long-Lived Assets

The Company reviews long-lived assets and certain identifiable intangibles for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured as the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

Intangible assets consist primarily of goodwill, license agreements and trademarks. The Company amortizes intangible assets using the straight-line method over appropriate periods ranging from five to forty years. The Company recorded amortization of intangible assets totaling \$5,765,000, \$5,292,000, and \$4,527,000 during fiscal 2002, 2001, and 2000, respectively.

The Company assesses the recoverability of goodwill by determining whether the amortization of the asset balance over its remaining life can be recovered through undiscounted future operating cash flows of the acquired operation. The amount of impairment, if any, is measured based on projected discounted future operating cash flows. The discount rate used would be based on the Company's cost of capital. Beginning in fiscal 2003, the Company will apply the provisions of Statement of Financial Accounting Standards No. 142 ("SFAS 142"), "Goodwill and Other Intangible Assets," in assessing the valuation of its goodwill. See the section of this footnote entitled "New Accounting Guidance" for a discussion of the implications of SFAS 142.

(o) Interest Income

Interest income is included in "Other income, net" on the Consolidated Statements of Income. Interest income totaled \$727,000, \$931,000, and \$987,000 in fiscal 2002, 2001, and 2000, respectively.

(p) Financial Instruments

The carrying amounts of cash and cash equivalents, receivables, accounts payable, accrued expenses and income taxes payable approximate fair value because of the short maturity of these items. See note 4 for management's assessment of the fair value of the Company's guaranteed Senior Notes.

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) Summary of Significant Accounting Policies, continued

(q) Stock-based Compensation Plans

Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation," encourages, but does not require companies to record compensation expense for stock-based compensation plans at fair value. The Company has chosen to account for its stock-based compensation plans using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. Accordingly, the Company recognizes no expense in connection with its stock-based compensation plans, as all stock option grants are made at market value on the date of grant. Income tax benefits attributable to stock options exercised are credited to Additional paid-in capital.

(r) New Accounting Guidance

In April 2001, the Financial Accounting Standards Board's ("FASB's") Emerging Issues Task force ("EITF") reached consensus on EITF Issue 00-25 ("EITF 00-25"), "Vendor Income Statement Characterization of Consideration from a Vendor to a Retailer." EITF 00-25 requires vendors who offer certain allowances to customers to characterize those allowances as reductions of net sales, rather than as selling, general, and administrative expenses ("SG&A"). EITF 00-25 is applicable for fiscal quarters beginning after December 15, 2001 and requires restatement of prior periods if possible. Had the Company applied EITF 00-25 its net sales and SG&A in fiscal 2002, 2001, and 2000 would have decreased by \$3,023,000, \$2,672,000 and \$1,665,000, respectively. EITF 00-25 will be applied beginning in fiscal 2003.

In June 1998, the FASB issued Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133"). SFAS 133 requires that an entity recognize all derivatives in its financial statements and measure those instruments at fair value. SFAS 133 was effective for fiscal quarters of fiscal years beginning after June 15, 2000. The adoption of SFAS 133 did not affect the Company's Consolidated Financial Statements.

In June 2001, the FASB issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 142 is effective for the Company beginning March 1, 2002. It eliminates the amortization of goodwill and other indefinite intangible assets. Amortization will continue to be recorded for intangible assets with definite useful lives. SFAS 142 also requires at least an annual impairment review of goodwill and other intangible assets. Any asset deemed by such analysis to be impaired is to be written down to its fair value. In complying with SFAS 142, the Company will review the goodwill on its Consolidated Balance Sheets to determine whether it is impaired. Fair values will be determined using discounted cash flow analysis. The Company estimates that the cumulative effect of adopting SFAS 142 will be a non-cash after-tax charge ranging from \$15 million to \$20 million in the first quarter of fiscal 2003. This amount will be recorded as a cumulative effect of an accounting change. Because it eliminates the amortization of goodwill, SFAS 142 will decrease the Company's SG&A expense by approximately \$2,000,000 in fiscal 2003.

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(2) Property and Equipment

A summary of property and equipment is as follows:

	Estimated Useful Lives (Years)	<u>As of February 28,</u>	
		<u>2002</u>	<u>2001</u>
Land	-	\$10,157	10,157
Building and improvements	20-40	29,315	29,242
Computer and other equipment	3 - 5	10,416	9,809
Transportation equipment	3 - 5	862	897
Furniture and fixtures	5-15	<u>6,964</u>	<u>6,791</u>
		57,714	56,896
		(11,998)	(9,133)
Property and equipment, net		<u>\$ 45,716</u>	<u>47,763</u>

The Company recorded \$2,865,000, \$3,003,000, and \$2,394,000 of depreciation expense for fiscal 2002, 2001, and 2000, respectively. Capital expenditures totaled \$878,000, \$1,351,000, and \$8,340,000 in fiscal 2002, 2001, and 2000, respectively.

The Company recognized a \$650,000 impairment charge during fiscal 2000 and an additional \$158,000 charge during the fourth quarter of fiscal 2001. These amounts represent the estimated excess of the carrying amount over the estimated net realizable value of the Company's former El Paso, Texas office facility and warehouse. The former office facility was sold during fiscal 2002, is classified as an asset held for sale and is included in the heading "Other assets" on the accompanying February 28, 2001 Consolidated Balance Sheet. The carrying value of the former warehouse is included in the heading "Other assets" on the accompanying February 28, 2002 and February 28, 2001 Consolidated Balance Sheets.

During fiscal 2000 the Company capitalized \$721,000 of interest in connection with the construction of a new office facility. No interest was capitalized in fiscal 2002 or fiscal 2001.

The Company leases 108,000 square feet of warehouse space, as well as various administrative office spaces, from a real estate partnership in which the Chief Executive Officer and another member of the Board of Directors are limited partners. During fiscal 2002 the Company paid the real estate partnership \$624,000 under these leases.

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(3) Notes Payable

The Company maintains a revolving credit loan with a bank to facilitate short-term borrowings and the issuance of letters of credit. This line of credit allows borrowings totaling \$25,000,000, charges interest at the three-month LIBOR rate plus a percentage that varies based on the ratio of the Company's debt to its earnings before interest, taxes, depreciation, and amortization (EBITDA), and expires August 31, 2003. At February 28, 2002 the interest rate charged under the line of credit was 2.89 percent. This line of credit allows for the issuance of letters of credit up to \$7,000,000. Any outstanding letters of credit reduce the \$25,000,000 maximum borrowing limit on a dollar-for-dollar basis. At February 28, 2002, there were no borrowings under this line of credit and outstanding letters of credit totaled \$439,000. The revolving credit agreement provides that the Company must satisfy requirements concerning its minimum net worth, total debt to consolidated total capitalization ratio, debt to EBITDA ratio, and its fixed charge coverage ratio. The Company is in compliance with all of these requirements.

(4) Long-Term Debt

On January 5, 1996, a U.S. subsidiary issued guaranteed Senior Notes at face value of \$40,000,000. Interest is paid quarterly at a rate of 7.01%. The Senior Notes are unsecured, and are guaranteed by Helen of Troy Limited and certain of its subsidiaries. Annual principal payments of \$10,000,000 each begin January 5, 2005, with the final payment due January 5, 2008. Using a discounted cash flow analysis based on estimated market rates, the estimated fair value of the guaranteed Senior Notes at February 28, 2002 is approximately \$41,119,000.

On July 18, 1997, a U.S. subsidiary of the Company issued a \$15,000,000 Senior Note. Interest is paid quarterly at a rate of 7.24%. The \$15,000,000 Senior Note is unsecured, is guaranteed by Helen of Troy Limited and certain of its subsidiaries and is due July 18, 2012. Annual principal payments of \$3,000,000 each begin July 18, 2008, with the final payment due July 18, 2012. Using a discounted cash flow analysis based on estimated market rates, the estimated fair value of the guaranteed Senior Note at February 28, 2002 is approximately \$15,818,000.

Both the \$40,000,000 and \$15,000,000 Senior Notes contain covenants that require the Company to meet certain net worth and other financial requirements. Additionally, the notes restrict the Company from incurring liens on any of its properties, except under certain conditions as defined in the Senior Note agreements. The Company is in compliance with all the terms of these notes.

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(5) Income Taxes

The components of earnings before income tax expense are as follows:

		<u>Years ended the last day of February</u> <u>(in thousands)</u>		
		<u>2002</u>	<u>2001</u>	<u>2000</u>
	U.S.	\$ 17,762	4,524	(5,725)
	Non-U.S.	<u>20,785</u>	<u>16,366</u>	<u>18,822</u>
		<u>\$ 38,547</u>	<u>20,890</u>	<u>13,097</u>

The components of income tax expense (benefit) are as follows:

		<u>2002</u>	<u>2001</u>	<u>2000</u>
	Current			
	U.S.	\$ 6,252	2,990	(182)
	Non-U.S.	1,689	2,716	1,280
	Deferred	<u>1,391</u>	<u>(2,148)</u>	<u>(1,112)</u>
		<u>\$ 9,332</u>	<u>3,558</u>	<u>(14)</u>

Total income tax expense differs from the amounts computed by applying the statutory tax rate to earnings before income taxes. The reasons for these differences are as follows:

		<u>Years ended the last day of February</u> <u>(in thousands)</u>		
		<u>2002</u>	<u>2001</u>	<u>2000</u>
	Expected tax expense at the U.S. statutory rate of 35%	\$ 13,491	7,312	4,584
	Decrease in income taxes resulting from income from non-U.S. operations subject to varying income tax rates	<u>(4,159)</u>	<u>(3,754)</u>	<u>(4,598)</u>
	Actual tax expense	<u>\$ 9,332</u>	<u>3,558</u>	<u>(14)</u>

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(5) Income Taxes, continued

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and liabilities at February 28, 2002 and 2001 are as follows:

	<u>2002</u>	<u>2001</u>
Deferred tax assets:	(in thousands)	
Net operating loss carryforwards	\$ 1,510	1,615
Inventories, principally due to additional cost of inventories for tax purposes	2,164	1,287
Accrued expenses	2,246	3,557
Accounts receivable	<u>2,679</u>	<u>2,926</u>
Total gross deferred tax assets	8,599	9,385
Valuation allowance	(1,076)	(1,627)
Deferred tax liabilities:		
Depreciation and amortization	<u>(1,796)</u>	<u>(640)</u>
Net deferred tax asset	<u>\$ 5,727</u>	<u>7,118</u>

The Company's U.S. net operating loss carryforward of \$1,248,000 expires if not utilized by fiscal 2019. Accounting standards require that deferred income taxes reflect the tax consequences of future tax benefits, including net operating losses, to the extent that realization of such benefits is more likely than not. Certain of the Company's gross deferred tax assets did not, in the opinion of management, meet that standard as of February 28, 2002 and 2001. Therefore, the Company placed a valuation allowance against those assets. Although realization is not assured, management believes it is more likely than not that the remaining net deferred tax assets, including net operating losses, will be realized. The amount of the deferred tax assets considered realizable, however, could be lower if estimates of future taxable income during the carryforward period are reduced.

The Hong Kong Inland Revenue Department ("the IRD") has assessed income tax on certain profits of the Company's foreign subsidiaries for the fiscal years 1990 through 1997. The ultimate resolution of the IRD's claims cannot be predicted with certainty. However, the Company has recorded a liability for the IRD's claims, based on consultations with outside Hong Kong tax experts as to the probability that some or all of the IRD's claims prevail. If the IRD's position were to prevail the resulting tax liability could total \$30,520,000 (U.S.) for the period from fiscal 1990 through fiscal 2002. In connection with the IRD's tax assessment, the Company purchased tax reserve certificates in Hong Kong. The certificates were valued at \$5,750,000 (U.S.) as of February 28, 2002. The \$5,750,000 represented approximately 50 percent of the liability assessed by the IRD for fiscal 1990 through 1997. Tax reserve certificates represent the prepayment of potential tax liabilities by a taxpayer. The amounts paid for tax reserve certificates are refundable in the event that the value of the tax reserve certificates exceeds the related tax liability. These certificates are denominated in Hong Kong dollars and are subject to the risks associated with foreign currency fluctuations. Although the ultimate resolution of the IRD's claims cannot be predicted with certainty, management believes that adequate provision has been made in the financial statements for the resolution of the IRD's claims.

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(5) Income Taxes, continued

The Internal Revenue Service (“IRS”) is examining the U.S. federal tax returns of the Company’s largest domestic subsidiary for the fiscal years 1997, 1998 and 1999. To date, the IRS has proposed no adjustments. Although the ultimate outcome of the examination cannot be predicted with certainty, management is of the opinion that adequate provision has been made in the financial statements for the estimated effect of the examination.

The Company plans to permanently reinvest all of the undistributed earnings of the non-U.S. subsidiaries of the U.S. subsidiaries. The Company has made no provision for U.S. federal income taxes on these undistributed earnings. At February 28, 2002, undistributed earnings for which the Company had not provided deferred U.S. federal income taxes totaled \$50,244,000.

(6) Stock-Based Compensation Plans

The Company sponsors four stock-based compensation plans. The plans consist of two employee stock option plans, a non-employee director stock option plan and an employee stock purchase plan. These plans are described below. As all options were granted at or above market prices on the dates of grant, no compensation expense has been recognized for the Company’s stock option plans or its stock purchase plan. Had the Company recorded compensation expense for its stock option plans based on the fair value of the options at the dates of grant for those awards, consistent with the method of Statement of Financial Accounting Standards No. 123, “Accounting For Stock-Based Compensation,” net income and earnings per share would have been reduced to the following pro forma amounts:

		<u>Years Ended the last day of February</u>		
		<u>2002</u>	<u>2001</u>	<u>2000</u>
Net Income:	As Reported	\$ 29,215,000	17,332,000	13,111,000
	Pro forma	21,799,000	12,502,000	5,054,000
Earnings per share:				
	Basic: As Reported	\$ 1.04	.61	.45
	Pro forma	.78	.44	.17
	Diluted: As Reported	\$ 1.00	.60	.44
	Pro forma	.75	.44	.17

The Company computed the pro forma figures disclosed above using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants in fiscal 2002, 2001, and 2000, respectively; expected dividend yields of zero for all years; expected volatility of 40.8 percent for fiscal 2002, 34.9 percent for fiscal 2001, and 27.4 percent for fiscal 1999; risk-free interest rates of 4.7 percent for fiscal 2002, 4.9 percent for fiscal 2001, and 6.6 percent for fiscal 2000; and expected lives of 3, 4, 5 or 10 years depending on the option granted.

Notes to Consolidated Financial Statements

(6) Stock-Based Compensation Plans, continued

Under stock option and restricted stock plans adopted in 1994 and 1998 (the “1994 Plan” and the “1998 Plan,” respectively) the Company reserved a total of 14,000,000 shares of its common stock for issuance to key officers and employees. Pursuant to the 1994 and 1998 Plans, the Company grants options to purchase its common stock at a price equal to or greater than the fair market value on the grant date. Both plans contain provisions for incentive stock options (“ISOs”), non-qualified stock options (“Non-Qs”) and restricted stock grants. Generally, options granted under the 1994 and 1998 Plans become exercisable immediately, or over a one, four or five-year vesting period and expire on a date ranging from seven to ten years from their date of grant.

Under a stock option plan for non-employee directors (the “Directors’ Plan”), adopted in fiscal 1996, the Company reserved a total of 480,000 shares of its common stock for issuance to non-employee members of the Board of Directors. The Company grants options under the Directors’ Plan at a price equal to the fair market value of the Company’s common stock at the date of grant. Options granted under the Directors’ Plan vest one year from their date of issuance and expire ten years after issuance.

A summary of stock option activity under all plans is as follows:

	<u>Years Ended the last day of February</u>					
	<u>2002</u>		<u>2001</u>		<u>2000</u>

Total	<u>320,000</u>		7.18	\$ 12.39	<u>240,000</u>	\$13.28

In fiscal 1999 the Company's shareholders approved an employee stock purchase plan (the "Stock Purchase Plan") under which 500,000 shares of common stock are reserved for issuance to the Company's employees, nearly all of whom are eligible to participate. Under the terms of the Stock Purchase Plan employees authorize the Company to withhold from 1 percent to 15 percent of their wages or salaries to purchase the Company's common stock. The purchase price for stock purchased under the plan is equal to the lower of 85 percent of the stock's fair market value on either the first day of each option period or the last day of each period. During fiscal 2002, employees purchased 22,341 shares of common stock from the Company under the stock purchase plan.

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(7) Commitments and Contingencies

The Company has employment contracts with certain of its officers. These agreements provide for minimum salary levels and potential incentive bonuses. One agreement automatically renews itself each month for a five year period and provides that in the event of a merger, consolidation or transfer of all or substantially all of the assets of the Company to an unaffiliated party, the officer may make an election to receive a cash payment for the balance of the obligations under the agreement. The expiration dates for these agreements range from March 15, 2003 to February 28, 2007. The aggregate commitment for future salaries pursuant to such contracts, at February 28, 2002, excluding incentive compensation, was approximately \$4,000,000.

Many of the license agreements under which the Company sells or intends to sell products with trademarks owned by other entities require the Company to pay minimum royalties, meet minimum sales volumes and make minimum levels of advertising expenditures. Minimum royalties due under these agreements during fiscal 2003 total \$8,655,000.

The Company purchases most of the appliances and products that it sells from unaffiliated manufacturers located in the Far East, principally in the Peoples' Republic of China, Thailand, Taiwan and South Korea. Due to the fact that most of its products are manufactured in the Far East, the Company is subject to risks associated with trade barriers, currency exchange fluctuations and political unrest. These risks have not historically affected the Company's operations. Additionally, the Company's management believes that it could obtain its products from facilities in other countries, if necessary. However, the relocation of production capacity could require substantial time and could result in increased costs.

In the fourth quarter of fiscal 2001, the Company recorded a \$2,457,000 charge for the remaining unamortized costs under a distribution agreement (which was later formally terminated) with The Schawbel Corporation ("Schawbel"), the supplier of the Company's butane hair care products. In a related matter, in September 1999, Schawbel commenced litigation in the U.S. District Court for the District of Massachusetts against The Conair Corporation ("Conair"), the predecessor distributor for Schawbel's butane products. In its action, amended in June 2000, Schawbel alleged, among other things, that Conair, following Schawbel's termination of the Conair distribution agreement, stockpiled and sold Schawbel product beyond the 120 day "sell-off" period afforded under the agreement, and manufactured, marketed and sold its own line of butane products which infringed patents held by Schawbel. In November 2000, the Massachusetts court granted Schawbel its request for preliminary injunction, and ordered that Conair cease selling all allegedly infringing products. The Company intervened as a plaintiff in the action to assert claims against Conair similar to the claims raised by Schawbel. The Company is seeking to recover damages in excess of \$10 million, arising from the Company's inability to meet minimum purchase requirements under its distribution agreement with Schawbel and the subsequent termination of that agreement by Schawbel. Conair responded by filing a counterclaim alleging that the Company conspired with Schawbel to unlawfully terminate Conair's distribution agreement with Schawbel, and to disparage Conair's reputation in the industry. The counterclaim seeks \$15 million in damages. Although the ultimate outcome of the matter cannot be predicted, the Company contends that Conair's counterclaims lack validity. The Company intends to pursue vigorously its claims and defense in the litigation.

The Company is also involved in various other legal claims and proceedings in the normal course of operations. The Company is insured for substantially all of the various claims in which it is involved. In the opinion of

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(7) Commitments and Contingencies, continued

management, the outcome of these matters will not have a material adverse effect on the consolidated financial position, results of operations or liquidity of the Company and its subsidiaries.

Under the terms of a Shareholders' Rights Plan approved by the Board of Directors in fiscal 1999, the Board of Directors declared a dividend of one preference share right ("Right") for each outstanding share of Common Stock. The dividend resulted in no cash payment by the Company, created no liability on the part of the Company and did not change the number of shares of Common Stock outstanding. The Rights are inseparable from the shares of Common Stock and entitle the holders to purchase one one-thousandth of a share of Series A First Preference Shares ("Preference Shares"), par value \$1.00, at a price of \$100 per one-one thousandth of a Preference Share. Should certain persons or groups of persons ("Acquiring Persons") acquire more than 15% of the Company's outstanding Common Stock, the Board of Directors may either adjust the price at which holders of Rights may purchase Preference Shares or may redeem all of the then outstanding Rights at \$.01 per Right. The Rights associated with the Acquiring Person's shares of Common Stock would not be exercisable. The Rights have certain anti-takeover effects. The Rights could cause substantial dilution to a person or group that attempts to acquire the Company in certain circumstances, but should not interfere with any merger or other business combination approved by the Board of Directors. The Rights expire December 1, 2008, unless their expiration date is advanced or extended or unless the Rights are earlier redeemed or exchanged by the Company.

On September 29, 1999, the Company's Board of Directors approved a resolution authorizing the Company to purchase, in open market or private transactions, up to 3,000,000 shares of its common stock over a period extending to September 29, 2002. As of February 28, 2001, the Company had repurchased 1,342,431 of its shares under this resolution at a total cost of \$8,699,000. The Company did not repurchase any of its Common Stock during fiscal 2002.

(8) Fourth Quarter Charges/Transactions

In the fourth quarter of fiscal 2001, the Company recognized \$2,457,000 in pre-tax charges due to the planned discontinuance of a product (see note 7). The Company's fourth quarter fiscal 2001 results also included a \$1,895,000 reduction in SG&A due to the settlement of a license obligation for which the Company accrued a liability in fiscal 2000.

During the fourth quarter of fiscal 2000 the Company recorded pre-tax charges of \$10,624,000 related to the discontinuation of its artificial nails product line. The pre-tax charges resulting from such discontinuation included \$2,669,000 for the write-down of artificial nails inventory. In addition, reserves for resolution of future contractual obligations, allowances for customer returns, and the write-off of related license costs, resulted in approximately \$7,955,000 in fourth quarter 2000 charges. Also during the fourth quarter of fiscal 2000, the Company implemented several major organizational changes, resulting in fourth quarter charges of \$770,000. These changes realigned organizational responsibilities, restructured various departments and streamlined certain functions within the Company. At February 29, 2000 accrued liabilities included approximately \$8,000,000 related to these charges.

The Company's fourth quarter fiscal 2002 results do not contain any transactions of a non-routine nature.

(10) Segment Information

The following table contains segment information for fiscal 2002, 2001, and 2000.

	(in thousands)				
2002	North American	International	Tactica	Corporate / Other	Total
Net sales	\$312,668	\$ 29,906	\$ 108,675	-	\$ 451,249
Operating income (loss)	32,203	(244)	11,930	(2,232)	41,657
Identifiable assets	287,897	21,248	17,184	31,229	357,558
Capital / license expenditures	647	111	120	-	878
Depreciation and amortization	6,665	1,442	256	267	8,630
2001					
Net sales	\$ 311,998	\$ 25,390	\$ 24,010	-	\$ 361,398
Operating income (loss)	28,736	94	(4,629)	(1,205)	22,996
Identifiable assets	273,068	24,331	19,943	19,839	337,181
Capital / license expenditures	3,056	125	4	-	3,185
Depreciation and amortization	7,537	372	228	-	8,137
2000					
Net sales	\$ 275,827	\$ 23,686	-	-	\$ 299,513
Operating income (loss)	9,857	835	-	(891)	9,801
Identifiable assets	264,460	20,231	-	19,561	304,252
Capital / license expenditures	8,253	87	-	-	8,340
Depreciation and amortization	6,025	896	-	-	6,921

The operating income and loss totals for the North American segment include \$233,000 of income for fiscal 2001 and a \$10,801,000 loss for fiscal 2000, related to artificial nails products. The Company has discontinued production of artificial nails and is in the process of attempting to sell the remainder of its artificial nails inventory (see note 8). The Company recognized no significant income or loss on artificial nails in fiscal 2002.

The North American segment sells hair care appliances, other personal care appliances, including massagers and spa products, hairbrushes, combs, and utility and decorative hair accessories in the U.S. and Canada. The International segment sells hair care appliances, personal care appliances, hairbrushes, combs, and hair accessories in other countries. Tactica sells a variety of personal care and other consumer products directly to customers and to retailers.

HELEN OF TROY LIMITED
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(10) Segment Information, continued

Operating profit for each operating segment is computed based on net sales, less cost of goods sold, less any selling, general and administrative expenses associated with the segment. The selling, general, and administrative expense totals used to compute each segment's operating profit are comprised of SG&A expense directly associated with those segments, plus overhead expenses that are allocable to operating segments. Other items of income and expense, including income taxes, are not allocated to operating segments.

The Company's domestic and international net revenues from third parties and long-lived assets are as follows:

	<u>2002</u>	<u>2001</u>	<u>2000</u>
Net revenues from third parties:			
United States	\$ 408,990	323,330	264,238
International	<u>42,259</u>	<u>38,068</u>	<u>35,275</u>
Total	<u>451,249</u>	<u>361,398</u>	<u>299,513</u>
Long-lived assets:			
United States	91,868	94,890	90,674
International	<u>22,020</u>	<u>21,910</u>	<u>19,555</u>
Total	<u>\$ 113,888</u>	<u>116,800</u>	<u>110,229</u>

Sales to one customer and its affiliate accounted for 22 percent, 23 percent, and 26 percent of the Company's net sales in fiscal 2002, 2001, and 2000, respectively.

(11) Acquisitions and Purchases of Trademarks

In December 1999, the Company entered into a long-term license with Sunbeam Products, Inc. to develop, market and distribute hair dryers and curling irons, hairsetters, styling products and hot air brushes under the Sunbeam® trade name in the U.S. and Canada. In January 2000 the Company acquired a long-term license from Sunbeam Products, Inc. to design, develop and sell human hair clippers and trimmers under the Sunbeam® trade name. At the same time Sunbeam Products, Inc. granted Helen of Troy a license to sell the same products under the Oster® trade name for a transitional period.

In March 2000, the Company acquired a 55 percent ownership interest in Tactica International, Inc. ("Tactica") for \$2,500,000. In addition, the Company loaned the minority shareholders of Tactica \$3,500,000 on March 14, 2000. The interest rate on these loans is 8.75 percent. All principal and accrued interest on the loans is due March 14, 2005. Included in "Other assets" on the Company's February 28, 2002 and 2001 consolidated balance sheets are \$4,103,000 and \$3,826,000, respectively, related to the principal and accrued interest on these loans. The 45 percent interest held by other shareholders in Tactica's deficit appears as a reduction of the Company's stockholders' equity on the February 28, 2002 and 2001 consolidated balance sheets. The financial results of Tactica have been included in the accompanying financial statements of the Company, beginning March 14, 2000, the date of acquisition. It was not practical to develop pro forma information for the year ended February 29, 2000. The Company accounted for the Tactica acquisition using the purchase method of accounting. Acquisition costs in excess of the fair value of the net tangible assets acquired are included in goodwill. During fiscal 2002, the other shareholders of Tactica contributed \$600,000 of cash to Tactica.

Helen of Troy®

CONSUMER AND PROFESSIONAL BRANDING

Helen of Troy has become one of the most trusted names in personal beauty and care items throughout the world. This trust has resulted from the steady years of Helen of Troy's representation of major consumer brand names.

Helen of Troy markets a wide range of products under the Vidal Sassoon banner, a

name that has been at the forefront of hair fashion and design for over 40 years. Helen of Troy builds on this solid brand foundation, marketing combs, brushes, accessories, and hair care appliances, such as the family of professional Gold Series® styling tools, a line of products incorporating breakthrough Ionic Technology,™ and styling tools designed by world-renowned designer Marc Newson.

Vidal Sassoon Gold Series® 3-Barrel Waver

Marc Newson Fast Dry™ 1875 Watt Dryer

Revlon Perfect Heat® Straightener

lasting beauty and glamour. With innovative product designs and instant brand recognition, Revlon is always a powerful shelf

Helen of Troy also capitalizes on Revlon's recognized leadership position in hair and personal care products, which evokes an image of

Revlon MoistureStay™ Manicure / Pedicure System

presence in the spa, hair, and personal care markets.

Revlon MoistureStay™ Luxury Paraffin Bath with Digital Timer

In addition, Helen of Troy markets a variety of personal wellness items under the Dr. Scholl's brand, a trusted name in foot care for over 90 years, which has quickly expanded into the areas of therapeutic care for the entire body. With a variety of innovative products ranging from body massagers to groundbreaking footbaths with a revolutionary "water heat up" feature, Helen of Troy takes its

REVLON

Marc Newson

expertise in personal wellness seriously. The Company also continues to market under such trusted brand names as Sunbeam, a household name for decades, and moves forward with its line of personal hair care tools for the home and family. Helen of Troy's years of experience and Sunbeam's name recognition allow the Company to expand its reach and growth in the home hair care and clipper markets.

Helen of Troy has also made a major push into the teen market, which is expected to experience substantial growth in the future. Helen of Troy has launched Wave Rage, a line of personal care products specifically geared for teens, a market of over 24 million in the U.S. alone. With hot colors and edgy designs, Wave Rage gives teenagers the tools they need for their favorite styles.

Wave Rage™ 4-in-1 Multi-Styler™

Dr. Scholl's Steam Footbath

Helen of Troy's professional division continues expansion of market share through

its high-quality personal care and hair care products, such as the innovative line of Wigo® and Hot Tools® professional straighteners, introduced to meet demands for high-quality straighteners and straighteners with smaller heating plates. Together, these new products are major contributors to the professional division's growth because of their strong brand names, excellent performance, high quality, and unique features.

Wigo® Professional 1-inch Straightener

Helen of Troy satisfies consumer demand in all areas of hair styling products by marketing a variety of brushes, combs, mirrors and hair accessories under the Vidal Sassoon brand, including the innovative Twist 'n' Clip™ Headband and Barrette.

Helen of Troy Products

Also, the Revlon family of brushes, combs and mirrors experiences continued growth and has been established as a true beauty-oriented product line.

Revlon Brushes

The Company's Nandi brand produces unique hair care items and accessories, and its DCNL and Karina line of accessories are known worldwide for their high quality.

Vidal Sassoon Twist 'n' Clip™

To build such brand recognition and brand loyalty, Helen of Troy engages in product promotion through television- and print-media advertising, including consumer and trade

Nandi™ Solar Rollers

magazines and various industry trade shows, increasing the name recognition of Helen of Troy and all its associated trademarks and improving their perceived quality. This enables the Company to expand market share, capture additional shelf space, and enter and expand new markets domestically and worldwide.

INNOVATIONS

Over the years, Helen of Troy has developed ground-breaking technologies that have become industry standards. One major breakthrough is the introduction of Ionic Technology™ in many hair care appliances such as the top-selling Vidal Sassoon Anti-static Ionic Dryer. With Ionic Technology™, negative ions reduce the size of water droplets on the hair, allowing more water to be absorbed. This dries hair more quickly and adds moisture to the hair follicle, helping condition, soften, and make hair shinier.

Vidal Sassoon Fast Dry™ Anti-static Ionic Dryer

Another example of Helen of Troy's innovation is the use of gold plating in many of its styling tools. Gold plating eliminates heat loss and maintains a constant level of heat, allowing easy styling. Many styling tools use Thermal Response Technology™ or Pulse Auto Heat Control® for fast heat up.

Wigo® Professional 3-inch Straightener

Helen of Troy expands its distribution through

REVLON

Sunbeam

Mme. Noverson

Helen of Troy PROFESSIONAL™

its relationship with Tactica, a 55-percent owned subsidiary of the Company that directly markets products to consumers using extensive television and print advertising and sells to major mass merchandisers, drug store chains, and specialty stores.

Igia Twist-A-Braid™

Helen of Troy combines technological innovations and marketing strategies to solidify the Company's leadership position, and provide it with strong direction to fuel growth and expand its lead in the personal care marketplace.

Hot Tools® Professional 1 1/2 inch Straightener and Curling Iron

INTERNATIONAL

Helen of Troy has established itself as a leader in the domestic market and the world marketplace as well, making its products a part of consumers' lives everywhere. Under the Vidal Sassoon trademark in Europe, the Company has added to its product line the Vidal Sassoon Steam Straightener, one of the most successful styling products in Germany, and offers a family of

Vidal Sassoon Maximum 'Funk It Up!' 2000 Watt Dryer

exciting products under the Maximum Range line, including the 'Funk It Up!' hair dryer. Outside of the European market, the Company sells hair care appliances and accessories under

Revlon's trusted brand name.

Scholl's remains prominent internationally in the personal therapeutic field with extensive brand-name recognition and a complete line of foot spas, personal massagers, and cushions. With its decades of experience, Helen of Troy continues to grow and build on its worldwide reputation of personal therapeutic care under the Scholl's brand.

Vidal Sassoon Steam Straightener

With international offices firmly established, and with strong recognition of its associated brand names, Helen of Troy is making strides in increasing the Company's international market share and expanding its worldwide market opportunities, continuing to fuel its growth well into the future.
