

MDC  PARTNERS

"WHERE GREAT TALENT LIVES"

2008 ANNUAL REPORT

Dear Fellow Shareholders:

I am exceedingly proud of our accomplishments in 2008, a year in which MDC Partners attained success, both as a thought leader in the marketing services industry and financially, as a strong cash flow generating public entity. Crispin Porter + Bogusky was crowned agency of the year by all three top industry publications, while many of our other Partner firms continued to produce outstanding work for their clients in the marketplace, working to generate over \$77 million of net new business wins during the year. These market share gains put MDC in an excellent position heading into 2009.

This was also a year in which MDC continued to invest in resources to support the growth ambitions of our Partners. The Strategic Resource Group continued to gain traction and drive new business with approximately \$15 million of new business generated by cross-referrals and an improved new business hit rate across the network. While M&A activity during the year was limited, several small 'tuck under' acquisitions were made to boost our capabilities in digital, public relations and marketing consulting. Like 2008, we expect that 2009 will continue to be a modest year for acquisitions. We will continue, as always, to look for potential opportunities, however in this environment we do not anticipate making any large bets with our capital.

From a financial perspective, 2008 marked a year in which MDC was able to not only grow our earnings, but also contain capital spending and harvest cash, generating nearly \$33 million of free cash flow, not including an over \$18 million improvement in working capital. Further, the Company ended the year with over \$41 million of cash on the balance sheet putting it in a strong liquidity position. This success was achieved as a result of the implementation of a working capital optimization program, tighter controls over capital expenditures at the corporate level, and more proactive actions being taken with underperforming assets.

Despite a strong start to 2008 and best efforts by management, MDC, like many in the industry, began to experience some negative effects of the weakening economy during the third and fourth quarters. Specifically, a slow down in project spending by our clients, resulted in growth that was below what we had anticipated and what our shareholders have come to expect from MDC. As a result of this slowdown, we immediately shifted our focus to protecting the bottom line. This resulted in growth of MDC EBITDA for 2008 of over 45%. We are extremely proud of this accomplishment, as it is a reflection of the ability of our organization and management team to be nimble enough to successfully adjust to difficult circumstances while still providing actionable strategies that produce results for our clients. With that in mind, we have been proactive in our efforts to bolster our margin heading into 2009 in light of the continued difficult economic circumstances.

During 2009 our primary mission is to control the knowns, to protect ourselves from the unknowns. We will focus on generating cash flow and growing profitability. To achieve this we will not lose focus on growing our top line; pursuing new business opportunities has been a key

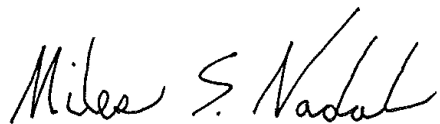

focus at all of our Partner firms. Continuing on the trend of the last several years, we expect 2009 to be a year of market share gains and profit growth for the company.

We will also continue to harvest cash, as we anticipate several large capital commitments in the early part of 2010 including the maturation of our convertible debentures. We are very confident in our ability to protect our balance sheet during 2009 and be in a position to handily repay all of these obligations.

We know that 2009 will be a challenging year for the global economy. Our promise to you is that we will stay focused on managing risk across our businesses, preserving our capital and outperforming the industry on a relative basis. Our goal for 2009 is to put MDC Partners in a position to emerge from this year a stronger player in the marketing services landscape.

We thank you for your support and look forward to a strong 2009.

Best regards,

Comparison of 5 Years' Cumulative Total Return among MDC Partners, the S&P 500 Index and Peer Group

Set forth below is a line graph comparing the yearly percentage change in the company's cumulative total shareholder return for the last five years to that of the Standard & Poor's 500 Stock Index and a peer group of publicly held corporate communications and marketing holding companies. The peer group consists of The Interpublic Group of Companies, Inc., Omnicom Group, Inc. and WPP Group plc. The graph below shows the value at the end of each year of each \$100 invested in our common stock, the S&P 500 Index and the peer group. The graph assumes the reinvestment of dividends. Total shareholder return for the peer group is weighted according to market capitalization at the beginning of each annual period.

FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements. The Company's representatives may also make forward-looking statements orally from time to time. Statements in this document that are not historical facts, including statements about the Company's beliefs and expectations, recent business and economic trends, potential acquisitions, estimates of amounts for deferred acquisition consideration and "put" option rights, constitute forward-looking statements. These statements are based on current plans, estimates and projections, and are subject to change based on a number of factors, including those outlined in this section. Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update publicly any of them in light of new information or future events, if any.

Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statements. Such risk factors include, but are not limited to, the following:

- risks associated with severe effects of national and regional economic conditions;
- the Company's ability to attract new clients and retain existing clients;
- the financial success of the Company's clients;
- the Company's ability to retain and attract key employees;
- the Company's ability to remain in compliance with its debt agreements and the Company's ability to finance its contingent payment obligations when due and payable, including but not limited to those relating to "put" options rights and deferred acquisition consideration;
- the successful completion and integration of acquisitions which complement and expand the Company's business capabilities; and
- foreign currency fluctuations;

The Company's business strategy includes ongoing efforts to engage in material acquisitions of ownership interests in entities in the marketing communications services industry. The Company intends to finance these acquisitions by using available cash from operations, through incurrence of bridge or other debt financing, either of which may increase the Company's leverage ratios, or by issuing equity, which may have a dilutive impact on existing shareholders proportionate ownership. At any given time, the Company may be engaged in a number of discussions that may result in one or more material acquisitions. These opportunities require confidentiality and may involve negotiations that require quick responses by the Company. Although there is uncertainty that any of these discussions will result in definitive agreements or the completion of any transactions, the announcement of any such transaction may lead to increased volatility in the trading price of the Company's securities.

Investors should carefully consider these risk factors and the additional risk factors outlined in more detail in this Annual Report on Form 10-K under the caption "Risk Factors" and in the Company's other SEC filings.

SUPPLEMENTARY FINANCIAL INFORMATION

The Company reports its financial results in accordance with generally accepted accounting principles ("GAAP") of the United States of America ("US GAAP"). However, the Company has included certain non-US GAAP financial measures and ratios, which it believes, provide useful information to both management and readers of this report in measuring the financial performance and financial condition of the Company. These measures do not have a standardized meaning prescribed by US GAAP and, therefore, may not be comparable to similarly titled measures presented by other publicly traded companies, nor should they be construed as an alternative to other titled measures determined in accordance with US GAAP.

PART I

Item 1. Business

BUSINESS

MDC PARTNERS INC.

MDC was formed by Certificate of Amalgamation effective December 19, 1986, pursuant to the Business Corporations Act (Ontario). Effective December 19, 1986, MDC amalgamated with Branbury Explorations Limited, and thereby became a public company operating under the name of MDC Corporation. On May 28, 1996, MDC changed its name to MDC Communications Corporation and, on May 29, 1999, it changed its name to MDC Corporation Inc. On July 31, 2003, MDC acquired the remaining 26% of Maxxcom Inc. (“Maxxcom”) that it did not already own, privatizing the now wholly-owned subsidiary and merging Maxxcom’s corporate functions with MDC’s existing corporate functions. On January 1, 2004, MDC changed its name to its current name, MDC Partners Inc., and on June 28, 2004, MDC was continued under Section 187 of the Canada Business Corporations Act. MDC’s registered and head office address is located at 45 Hazelton Avenue, Toronto, Ontario, M5R 2E3.

MDC is a leading provider of marketing communications services to customers globally. MDC has operating units in the United States, Canada, Europe, Jamaica and Philippines.

MDC’s subsidiaries provide a comprehensive range of marketing communications and consulting services, including advertising, interactive marketing, direct marketing, database and customer relationship management, sales promotion, corporate communications, market research, corporate identity, design and branding and other related services.

Part I — Business

MDC’s strategy is to build, grow and acquire market-leading businesses that deliver innovative, value-added marketing communications and strategic consulting services to their clients. MDC Partners strives to be a partnership of best in class marketing communications and consulting companies whose strategic, creative and innovative solutions are media-agnostic, challenge the status quo and achieve superior results for clients and stakeholders.

MDC’s Corporate Group ensures that MDC is the most Partner-responsive marketing services network through its strategic mandate to help Partner firms find clients, talent and tuck under acquisitions, as well as cross-sell services and enhance their culture for innovation and growth. MDC’s Corporate Group also works directly with Partner firms to expand their offerings through new strategic services, as well as leverage the collective expertise and scale of the partnership as a whole. The Corporate Group uses this leverage to provide various shared services to help reduce costs across the partnership.

The MDC model is driven by three key elements:

Perpetual Partnership. The perpetual partnership creates ongoing alignment of interests to drive performance. The perpetual partnership model functions by (1) identifying the ‘right’ Partners with a sustainable differentiated position in the marketplace; (2) creating the ‘right’ Partnership structure generally by taking a majority ownership position and leaving a substantial minority equity or economic ownership position in the hands of operating management to incentivize long-term growth; (3) providing access to more resources and leverage the network’s scale; and (4) delivering financial results.

Entrepreneurialism. Entrepreneurial spirit is optimized by creating customized solutions to support and grow our businesses.

Human and Financial Capital. The model balances accountability with financial flexibility to support growth.

MDC operates through “Partner” companies within the following reportable segments:

Strategic Marketing Services (“SMS”)

The SMS segment generally consists of firms that offer a full suite of integrated marketing communication and consulting services, including advertising and media, interactive marketing, direct marketing, public relations, corporate communications, market research, corporate identity and branding, and sales promotion to national and global clients. The SMS segment is comprised of the following agencies: Allard Johnson; Colle + McVoy; Crispin Porter + Bogusky; Fletcher Martin; HL Group Partners; kirshenbaum bond + partners; Mono Advertising; Redscout; Skinny, NYC; VitroRobertson; Zig; and Zyman Group.

Customer Relationship Management (“CRM”)

The CRM segment, comprised of Accent Marketing Services, provides marketing services that interface directly with the consumer of a client’s product or service. These services include the design, development and implementation of a complete customer service and direct marketing initiative intended to acquire, retain and develop each client’s customer base. This is accomplished primarily through sophisticated database management and analytical services and through customer care services using several domestic and two foreign-based customer care facilities to regional, national and global clients.

Specialized Communication Services (“SCS”)

The SCS segment includes marketing services firms that are generally engaged to provide a single or a few specific marketing services to regional, national and global clients. These firms provide niche solutions by providing world class expertise in selected marketing services. The services they provide include advertising, interactive marketing, sales promotion, direct marketing, media relations, design and branding, research, and corporate communications. The SCS segment is comprised of the following agencies: Accumark Communications, Bruce Mau Design; Bryan Mills Iradesso; Computer Composition; Hello Design; henderson bas; Northstar Research Partners; Onbrand; Source Marketing; TargetCom; Veritas Communications; and Yamamoto Moss Mackenzie.

Marketing Communications Equity

Adrenalina, LLC is accounted for under the equity method. Adrenalina is an agency focused on providing marketing services to the Hispanic market, and its marketing disciplines include: advertising, retail and event marketing and consumer promotions.

Ownership Information

The following table includes certain information about MDC’s operating subsidiaries. The “Put and Call Options” information represents existing contractual rights. Owners of interests in certain subsidiaries have the right in certain circumstances to require MDC to acquire additional ownership interests held by them. The owners’ ability to exercise any such “put” option right is subject to the satisfaction of certain conditions, including conditions requiring notice in advance of exercise. In addition, these rights cannot be exercised prior to specified staggered exercise dates. The exercise of these rights at their earliest contractual date would result in obligations of MDC to fund the related amounts during the periods described in the accompanying notes. It is not determinable, at this time, if or when the owners of these rights will exercise all or a portion of these rights. The amount payable by MDC in the event such rights are exercised is dependent on defined valuation formulas and on future events, such as the average earnings of the relevant subsidiary through the date of exercise, the growth rate of the earnings of the relevant subsidiary during that period, and, in some cases, the currency exchange rate at the date of payment. See also “Management’s Discussion and Analysis — Off-Balance Sheet Commitments — Put Rights of Subsidiaries’ Minority Shareholders” for further discussion.

Put options represent puts of ownership interests by other interest holders to MDC with reciprocal call rights held by MDC for the same ownership interests with similar terms. The percentages shown represent the potential ownership interest MDC could achieve in each company assuming that the remaining equity holder(s) were to fully exercise their put option rights at the earliest opportunity.

Financial Information Relating to Business Segments and Geographic Regions

For financial information relating to the Company's Marketing Communications Businesses and the geographic regions the businesses operate within, refer to Note 15 (Segmented Information) of the notes to the consolidated financial statements included in this Annual Report and to "Item 7. Management's Discussion and Analysis" for further discussion.

Competition

In the competitive, highly fragmented marketing and communications industry, the Company's operating companies compete for business with the operating subsidiaries of large global holding companies such as Omnicom Group Inc., Interpublic Group of Companies, Inc., WPP Group plc, Publicis Group SA and Havas Advertising. These global holding companies generally have greater resources than those available to MDC and its subsidiaries, and such resources may enable them to aggressively compete with the Company's marketing communications businesses. Each of MDC's operating companies also faces competition from numerous independent agencies that operate in multiple markets. MDC's operating companies must compete with these other companies to maintain existing client relationships and to obtain new clients and assignments. MDC's operating companies compete at this level by providing clients with marketing ideas and strategies that are focused on increasing clients' revenues and profits. These existing and potential clients include multinational corporations and national companies with mid-to-large sized marketing budgets. MDC also benefits from cooperation among the operating companies through referrals and the sharing of both services and expertise, which enables MDC to service clients' varied marketing needs.

A partner agency's ability to compete for new clients is affected in some instances by the policy, which many advertisers and marketers impose, of not permitting their agencies to represent competitive accounts in the same market. In the vast majority of cases, however, MDC's consistent maintenance of separate, independent operating companies has enabled MDC to represent competing clients across its network.

Industry Trends

Historically, advertising has been the primary service provided by the marketing communications industry. However, as clients aim to establish one-to-one relationships with customers, and more accurately measure the effectiveness of their marketing expenditures, specialized and digital communications services are consuming a growing portion of marketing dollars. This is increasing the demand for a broader range of non-advertising marketing communications services (i.e., direct marketing, sales promotion, interactive, etc). The notion of a mass market audience is giving way to life-style segments, social events/networks, and online/mobile communities, each segment requiring a different message and/or different, often non-traditional, channels of communication. Global marketers now seek innovative ideas wherever they can find them, providing new opportunities for small to mid-sized communications companies.

Clients

The Company serves clients in virtually every industry and in many cases the same clients in various locations. Representation of a client rarely means that MDC handles marketing communications for all brands or product lines of the client in every geographical location. MDC's agencies have written contracts with many of their clients. As is customary in the industry, these contracts provide for termination by either party on relatively short notice. See "Management's Discussion and Analysis — Executive Overview" for a further discussion of MDC's arrangements with its clients.

During 2008, 2007 and 2006, the Company's largest client, Sprint, accounted for approximately 19%, 17% and 16% of revenues, respectively. In addition, MDC's ten largest clients (measured by revenue generated) accounted for 45%, 39% and 43% of 2008, 2007 and 2006 revenues, respectively.

Employees

As of December 31, 2008, MDC and its subsidiaries had the following number of employees within its reportable segments:

See Management’s Discussion and Analysis for a discussion of the effect of cost of services sold on MDC’s historical results of operations. Because of the personal service character of the marketing communications businesses, the quality of personnel is of crucial importance to MDC’s continuing success. MDC considers its relations with employees to be satisfactory.

Effect of Environmental Laws

MDC believes it is substantially in compliance with all regulations concerning the discharge of materials into the environment, and such regulations have not had a material effect on the capital expenditures or operations of MDC.

Item 1A. Risk Factors

The following factors could adversely affect the Company’s revenues, results of operations or financial condition. See also “Statement Regarding Forward-Looking Disclosure.”

Deteriorating economic and financial conditions could adversely impact our financial condition and results.

Economic and financial conditions deteriorated sharply in the latter part of 2008, and these deteriorating conditions are continuing in 2009. The effects could adversely affect our financial condition and results of operations.

a. As a marketing services company, our revenues are highly susceptible to declines as a result of unfavorable economic conditions.

The current economic downturn could affect the advertising and marketing services industry more severely than other industries, and any recovery of the advertising and marketing services industry could lag that of the economy generally. In the past, some clients have responded to weakening economic conditions with reductions to their marketing budgets, which include discretionary components that are easier to reduce in the short term than other operating expenses. This pattern may recur in the future. A decrease in our revenue would negatively affect our financial results, including a reduction of our estimates of free cash flow from operations.

b. If our clients experience financial distress, their weakened financial position could negatively affect our own financial position and results.

We have a diverse client base, and at any given time, one or more of our clients may experience financial difficulty, file for bankruptcy protection or go out of business. The current unfavorable economic and financial conditions that are impacting most sectors of the economy could result in an increase in client financial difficulties that affect us. The direct impact on us could include reduced revenues and write-offs of accounts receivable. If these effects were severe, the indirect impact could include impairments of goodwill, financing agreement covenant violations or reduced liquidity. Our largest single client accounted for approximately 19% of revenue in 2008.

MDC competes for clients in highly competitive industries.

The Company operates in a highly competitive environment in an industry characterized by numerous firms of varying sizes, with no single firm or group of firms having a dominant position in the marketplace. Competitive factors include creative reputation, management, personal relationships, quality and reliability of service and expertise in particular niche areas of the marketplace. In addition, because a firm's principal asset is its people, barriers to entry are minimal, and relatively small firms are, on occasion, able to take all or some portion of a client's business from a larger competitor.

While many of MDC's client relationships are long-standing, companies put their advertising and marketing services businesses up for competitive review from time to time, including at times when clients enter into strategic transactions. To the extent that the Company fails to maintain existing clients or attract new clients, MDC's business, financial condition and operating results may be affected in a materially adverse manner.

The loss of lines of credit under our Financing Agreement could adversely affect MDC's liquidity and our ability to implement MDC's acquisition strategy and fund any put options if exercised.

As of December 31, 2008, MDC had utilized approximately \$144.4 million of its Financing Agreement in the form of borrowings and letters of credit. MDC uses amounts available under the Financing Agreement, together with cash flow from operations, to fund its working capital needs, to fund the exercise of put option obligations and to fund our strategy of making selective acquisitions of ownership interests in entities in the marketing communications services industry.

The Company is currently in compliance with all of the terms and conditions of the Financing Agreement, and management believes that the Company will be in compliance with covenants over the next twelve months. If, however, events were to occur which result in MDC losing all or a substantial portion of its available credit under the Financing Agreement, MDC would be required to seek other sources of liquidity. In addition, if MDC were unable to replace this source of liquidity, then MDC's ability to fund its working capital needs and any contingent obligations with respect to put options would be materially adversely affected.

MDC may not realize the benefits it expects from past acquisitions or acquisitions MDC may make in the future.

MDC's business strategy includes ongoing efforts to engage in material acquisitions of ownership interests in entities in the marketing communications services industry. MDC intends to finance these acquisitions by using available cash from operations and through incurrence of debt or bridge financing, either of which may increase its leverage ratios, or by issuing equity, which may have a dilutive impact on its existing shareholders. At any given time MDC may be engaged in a number of discussions that may result in one or more material acquisitions. These opportunities require confidentiality and may involve negotiations that require quick responses by MDC. Although there is uncertainty that any of these discussions will result in definitive agreements or the completion of any transactions, the announcement of any such transaction may lead to increased volatility in the trading price of its securities.

The success of acquisitions or strategic investments depends on the effective integration of newly acquired businesses into MDC's current operations. Such integration is subject to risks and uncertainties, including realization of anticipated synergies and cost savings, the ability to retain and attract personnel and clients, the diversion of management's attention from other business concerns, and undisclosed or potential legal liabilities of the acquired company. MDC may not realize the strategic and financial benefits that it expects from any of its past acquisitions, or any future acquisitions.

MDC's business could be adversely affected if it loses key clients.

MDC's strategy has been to acquire ownership stakes in diverse marketing communications businesses to minimize the effects that might arise from the loss of any one client or executive. The loss of one or more clients could materially affect the results of the individual operating companies and the Company as a whole. Management succession at our operating units is very important to the ongoing results of the Company because, as in any service business, the success of a particular agency is dependent upon the leadership of key

executives and management personnel. If key executives were to leave our operating units, the relationships that MDC has with its clients could be adversely affected.

MDC's ability to generate new business from new and existing clients may be limited.

To increase its revenues, MDC needs to obtain additional clients or generate demand for additional services from existing clients. MDC's ability to generate initial demand for its services from new clients and additional demand from existing clients is subject to such clients' and potential clients' requirements, pre-existing vendor relationships, financial condition, strategic plans and internal resources, as well as the quality of MDC's employees, services and reputation and the breadth of its services. To the extent MDC cannot generate new business from new and existing clients due to these limitations, it will limit MDC's ability to grow its business and to increase its revenues.

MDC's business could be adversely affected if it loses or fails to attract key employees.

Employees, including creative, research, media, account and practice group specialists, and their skills and relationships with clients, are among MDC's most important assets. An important aspect of MDC's competitiveness is its ability to retain key employee and management personnel. Compensation for these key employees is an essential factor in attracting and retaining them, and MDC may not offer a level of compensation sufficient to attract and retain these key employees. If MDC fails to hire and retain a sufficient number of these key employees, it may not be able to compete effectively. If key executives were to leave our operating units, the relationships that MDC has with its clients could be adversely affected.

MDC is exposed to the risk of client defaults.

The Company often incurs expenses on behalf of its clients for productions and in order to secure a variety of media time and space, in exchange for which it receives a fee. The difference between the gross cost of the production and media and the net revenue earned by us can be significant. While MDC takes precautions against default on payment for these services (such as advance billing of clients) and have historically had a very low incidence of default, MDC is still exposed to the risk of significant uncollectible receivables from our clients. This risk is enhanced by the current distress in the credit markets which could impact our client's ability to finance their businesses.

MDC's results of operations are subject to currency fluctuation risks.

Although MDC's financial results are reported in U.S. dollars, a portion of its revenues and operating costs are denominated in currencies other than the US dollar. As a result, fluctuations in the exchange rate between the U.S. dollar and other currencies, particularly the Canadian dollar, may affect MDC's financial results and competitive position.

Goodwill may become impaired.

We have recorded a significant amount of goodwill in our consolidated financial statements in accordance with U.S. GAAP resulting from our acquisition activities, which principally represents the specialized know-how of the workforce at the agencies we have acquired. We test, at least annually, the carrying value of goodwill for impairment, as discussed in Note 2 to our consolidated financial statements. The estimates and assumptions about future results of operations and cash flows made in connection with the impairment testing could differ from future actual results of operations and cash flows. While we have concluded, for each year presented in our financial statements, that our goodwill relating to continuing operations is not impaired, future events could cause us to conclude that the asset values associated with a given operation may become impaired. Any resulting impairment loss could materially adversely affect our results of operations and financial condition.

MDC is subject to regulations that could restrict its activities or negatively impact its revenues.

Advertising and marketing communications businesses are subject to government regulation, both domestic and foreign. There has been an increasing tendency in the United States on the part of advertisers to resort to litigation and self-regulatory bodies to challenge comparative advertising on the grounds that the advertising

is false and deceptive. Moreover, there has recently been an expansion of specific rules, prohibitions, media restrictions, labeling disclosures, and warning requirements with respect to advertising for certain products and usage of personally identifiable information. Representatives within government bodies, both domestic and foreign, continue to initiate proposals to ban the advertising of specific products and to impose taxes on or deny deductions for advertising which, if successful, may have an adverse effect on advertising expenditures and consequently MDC's revenues.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

See the notes to the Company's consolidated financial statements included in this Annual Report for a discussion of the Company's lease commitments and the "Management's Discussion and Analysis" for the impact of occupancy costs on the Company's operating expenses.

The Company maintains office space in many cities in the United States, Canada, and in the United Kingdom, Jamaica and the Philippines. This space is primarily used for office and administrative purposes by the Company's employees in performing professional services. This office space is in suitable and well-maintained condition for MDC's current operations. All of the Company's materially important office space is leased from third parties with varying expiration dates. Certain of these leases are subject to rent reviews or contain various escalation clauses and certain of our leases require our payment of various operating expenses, which may also be subject to escalation. In addition, leases related to the Company's non-US businesses are denominated in other than US dollars and are therefore subject to changes in foreign exchange rates.

Item 3. Legal Proceedings

MDC's operating entities are involved in legal proceedings of various types. While any litigation contains an element of uncertainty, MDC has no reason to believe that the outcome of such proceedings or claims will have a material adverse effect on the financial condition or results of operations of MDC.

Item 4. Submission of Matters to a Vote of Security Holders

MDC's annual shareholders' meeting has historically been held in the second quarter of the year. No matters were submitted to a vote of security holders during the fourth quarter of 2008.

PART II

Item 5. Market for Registrant's Common Equity and Related Stockholder Matters

Market Information and Holders of Class A Subordinate Voting Shares

The principal United States market on which the Company's Class A subordinate voting shares are traded is the NASDAQ National Market ("NASDAQ") (symbol: "MDCA"), and the principal market in Canada is The Toronto Stock Exchange (symbol: "MDZ.A"). As of February 27, 2009, the approximate number of holders of our Class A subordinate voting shares, including those whose shares are held in nominee name, was 2,800. Quarterly high and low sales prices per share of the Company's Class A subordinate voting shares, as reported by the NASDAQ composite and The Toronto Stock Exchange, respectively, for each quarter in the years ended December 31, 2008 and 2007 are as follows:

As of February 27, 2009, the last reported sale price of the Class A subordinate voting shares was \$3.43 on NASDAQ and C\$4.26 on the Toronto Stock Exchange.

Dividend Policy

MDC has not declared nor paid any dividends on its Class A subordinate voting shares since its incorporation in 1986. In addition, MDC's Financing Agreement prohibits MDC from declaring and paying cash dividends. Accordingly, it is expected that no dividends will be paid by MDC on the Class A subordinate voting shares or the Class B shares in the foreseeable future. Any future payment of dividends, if permitted, will be determined by the board of directors of MDC Partners Inc. on the basis of MDC's earnings, financial requirements and other relevant factors.

Recent Sales of Unregistered Securities; Use of Proceeds from Registered Securities

- (1) On November 10, 2008, the Company acquired an additional 17% of the equity interests of Crispin Porter & Bogusky LLC, a Delaware limited liability company ("CPB"). The Company paid \$6.4 million in cash, and issued 105,000 of the Company's Class A Shares (valued at approximately \$393,000 on the date of issuance). The Class A Shares of the Company were issued by the Company to the seller of CPB equity interests without registration in reliance on Section 4(2) under the Securities Act and Regulation D thereunder, based on the sophistication of the seller and its status as an "accredited investor" within the meaning of Rule 501(a) of Regulation D. The seller of CPB equity interests had access to all of the documents filed by the Company with the SEC.
- (2) On December 31, 2008, HL Group LLC (a majority-owned subsidiary of the Company) acquired substantially all of the assets of the Clifford public relations business from Clifford/Bratskeir Public Relations LLC (another subsidiary of the Company). In connection with such acquisition, HL Group issued additional equity interests to the Company, and the Company issued 45,000 Class A Shares to Hamilton South. The Class A Shares of the Company were issued by the Company without registration in reliance on Section 4(2) under the Securities Act and Regulation D thereunder, based on the sophistication of Mr. South and his status as an "accredited investor" within the meaning of Rule 501(a) of Regulation D. Mr. South had access to all of the documents filed by the Company with the SEC.

Purchase of Equity Securities by the Issuer and Affiliated Purchasers

Issuer Purchases of Equity Securities:

Shares — Class A subordinate voting shares

For the twelve months ended December 31, 2008, the Company made no open market purchases of its Class A shares or its Class B shares. Pursuant to its Financing Agreement, the Company is currently restricted from repurchasing its shares.

During 2008, the Company's employees surrendered 112,146 Class A shares valued at \$0.9 million in connection with the required tax withholding resulting from the vesting of restricted stock. In addition, during 2008, the Company received 12,346 Class A shares valued at \$0.1 million in connection with a partial repayment of a note receivable from the Company's Chief Executive Officer. These 124,492 Class A shares were subsequently retired and no longer remain outstanding as of December 31, 2008.

Several significant factors that should be considered when comparing the annual results shown above are as follows:

Year Ended December 31, 2008

During the year ended December 31, 2008, MDC recognized \$13.3 million of primarily non-cash, unrealized, foreign exchange gains due primarily to the strengthening of the US dollar as compared to the Canadian dollar on its intercompany balances that are denominated in the US dollar.

Effective December 31, 2008, three of the Company's operating subsidiaries, Clifford/Bratskeir Public Relations LLC, Ito Partners, LLC and Mobium Creative Group (a division of Colle + McVoy) have been deemed discontinued operations. All periods have been restated to reflect these discontinued operations. See Note 10 of the notes to the consolidated financial statements included herein.

Year Ended December 31, 2007

In March 2007, due to continued operating and client losses, the Company ceased Margeotes Fertitta Powell, LLC (“MFP”) current operations and spun off a new operating business and as a result incurred a goodwill impairment charge of \$4.5 million in 2007. The Company also recorded an impairment charge relating to MFP of \$6.3 million in 2006. After reviewing the 2008 projections of the new operating business the Company decided to cease the operations of the new operating business as well. As a result, the Company has classified these operations as discontinued. In addition, an additional intangible relating to an employment contract of \$0.6 million was deemed impaired and written off.

In December 2007, due to continued operating losses and the lack of new business wins the Company ceased Banjo Strategic Entertainment, LLC (“Banjo”) operations. All periods have been restated to reflect these discontinued operations. See Note 10 of the notes to the consolidated financial statements included herein.

Year Ended December 31, 2006

On November 14, 2006, MDC sold its Secure Products International Products division, and all periods have been restated to reflect these discontinued operations. See Note 10 of the notes to consolidated financial statements included herein.

Year Ended December 31, 2005

On June 28, 2005, MDC completed an issuance in Canada of convertible unsecured subordinated debentures amounting to \$38.7 million as of December 31, 2005 (C\$45.0 million) (the “Debentures”). The Debentures mature on June 30, 2010. The Debentures bear interest at an annual rate of 8.00% payable semi-annually, in arrears, on June 30 and December 31 of each year.

On April 1, 2005, MDC, through a wholly-owned subsidiary, purchased 61.6% of the total outstanding membership units of Zyman Group, LLC for a purchase price equal to \$52.4 million paid in cash, plus the issuance of 1,139,975 class A shares of MDC valued at approximately \$11.2 million.

Year Ended December 31, 2004

During 2004, MDC sold its remaining 20% interest in Custom Direct, Inc. (“CDI”) with a resulting reduction in long-term debt and a net gain of \$15.0 million.

MDC acquired interests in several marketing communication businesses in 2004, which contributed \$56.1 million of revenue, \$2.9 million of income from continuing operations and \$120.6 million of assets.

Effective September 22, 2004, MDC consolidated Crispin Porter + Bogusky, LLC (“CPB”) as a variable interest entity. Prior to that date, CPB had been accounted for on an equity basis since acquired by MDC in 2001. As a result of the change in accounting, from September 22, 2004, CPB contributed revenues of \$13.3 million and increased MDC’s assets by approximately \$80.0 million.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Unless otherwise indicated, references to the “Company” mean MDC Partners Inc. and its subsidiaries, and references to a fiscal year means the Company’s year commencing on January 1 of that year and ending December 31 of that year (e.g., fiscal 2008 means the period beginning January 1, 2008, and ending December 31, 2008).

The Company reports its financial results in accordance with generally accepted accounting principles (“GAAP”) of the United States of America (“US GAAP”). However, the Company has included certain non-US GAAP financial measures and ratios, which it believes provide useful information to both management and readers of this report in measuring the financial performance and financial condition of the Company. One such term is “organic revenue”, which means growth in revenues from sources other than acquisitions or foreign exchange impacts. These measures do not have a standardized meaning prescribed by US GAAP and, therefore, may not be comparable to similarly titled measures presented by other publicly traded companies, nor should they be construed as an alternative to other titled measures determined in accordance with US GAAP.

Executive Summary

The Company's objective is to create shareholder value by building market-leading subsidiaries and affiliates that deliver innovative, value-added marketing communications and strategic consulting to their clients. Management believes that shareholder value is maximized with an operating philosophy of "Perpetual Partnership" with proven committed industry leaders in marketing communications.

MDC manages the business by monitoring several financial and non-financial performance indicators. The key indicators that we review focus on the areas of revenues and operating expenses and capital expenditures. Revenue growth is analyzed by reviewing the components and mix of the growth, including: growth by major geographic location; existing growth by major reportable segment (organic); growth from currency changes; and growth from acquisitions.

MDC conducts its businesses through the Marketing Communications Group. Within the Marketing Communications Group, there are three reportable operating segments: Strategic Marketing Services ("SMS"), Customer Relationship Management ("CRM") and Specialized Communication Services ("SCS"). In addition, MDC has a "Corporate Group" which provides certain administrative, accounting, financial and legal functions.

Marketing Communications Businesses

Through its operating "partners", MDC provides advertising, consulting, customer relationship management, and specialized communication services to clients throughout the United States, Canada, Europe, Jamaica and the Philippines.

The operating companies earn revenue from agency arrangements in the form of retainer fees or commissions; from short-term project arrangements in the form of fixed fees or per diem fees for services; and from incentives or bonuses. Additional information about revenue recognition appears in Note 2 of the notes to the consolidated financial statements.

MDC measures operating expenses in two distinct cost categories: cost of services sold, and office and general expenses. Cost of services sold is primarily comprised of employee compensation related costs and direct costs related primarily to providing services. Office and general expenses are primarily comprised of rent and occupancy costs and administrative service costs including related employee compensation costs. Also included in operating expenses is depreciation and amortization.

Because we are a service business, we monitor these costs on a percentage of revenue basis. Cost of services sold tend to fluctuate in conjunction with changes in revenues, whereas office and general expenses and depreciation and amortization, which are not directly related to servicing clients, tend to decrease as a percentage of revenue as revenues increase because a significant portion of these expenses are relatively fixed in nature.

We measure capital expenditures as either maintenance or investment related. Maintenance capital expenditures are primarily composed of general upkeep of our office facilities and equipment that are required to continue to operate our businesses. Investment capital expenditures include expansion costs, the build out of new capabilities, technology or call centers, or other growth initiatives not related to the day to day upkeep of the existing operations. Growth capital expenditures are measured and approved based on the expected return of the invested capital.

Certain Factors Affecting Our Business

Acquisitions and Dispositions. Our strategy includes acquiring ownership stakes in well-managed businesses with strong reputations in the industry. We engaged in a number of acquisition and disposal transactions during the 2006 to 2008 period, which affected revenues, expenses, operating income and net income. Additional information regarding material acquisitions is provided in Note 4 "Acquisitions" and information on dispositions is provided in Note 10 "Discontinued Operations" in the notes to the consolidated financial statements.

Foreign Exchange Fluctuations. Our financial results and competitive position are affected by fluctuations in the exchange rate between the US dollar and non-US dollars, primarily the Canadian dollar. See also "Quantitative and Qualitative Disclosures About Market Risk — Foreign Exchange."

Seasonality. Historically, with some exceptions, we generate the highest quarterly revenues during the fourth quarter in each year. The fourth quarter has historically been the period in the year in which the highest volumes of media placements and retail related consumer marketing occur.

Fourth Quarter Results and Current Economic Conditions. The Company's results of operations during the fourth quarter of 2008 were negatively impacted due to the current economic recession. Revenues for the fourth quarter of 2008 decreased to \$144.7 million, compared to 2007 fourth quarter revenues of \$152.1 million. This decrease of \$7.4 million was a result of foreign currency fluctuations of \$5.4 million and a decrease in revenue of \$2.0 million. The decrease in revenue occurred in the SCS segment and the CRM segment. The decrease in the revenue in these segments is directly related to clients' canceling, cutting back and not spending on projects and other activities that they have traditionally engaged the Company to perform for them. However, the SMS segment, which is retainer fee-based, had revenue growth of approximately \$3.0 million as clients continued to spend on annual programs. Operating profit for the fourth quarter of 2008 decreased to \$1.4 million from \$10.9 million in 2007, primarily as a result of the decrease in revenue and an increase in non-cash stock based compensation charges of \$3.9 million. This amount was offset in part by a decrease in administrative expenses. Non-cash stock based compensation charges increased due primarily to amounts being allocated to compensation expense relating to step-acquisitions of additional equity interests in Accent Marketing Services, Source Marketing and Allard Johnson Communications. Fourth quarter income before income taxes decreased to \$5.6 million in 2008, from \$8.3 million in 2007, as a result of the above factors and was offset in part by an unrealized gain from the strengthening of the US dollar primarily against the Canadian dollar in 2008 of \$7.7 million as compared to an unrealized loss in 2007 of \$0.1 million.

The current stock market turmoil has, in part, led to a decline in the market value of the Company's stock. As a result of its lower stock price, the Company determined to pay certain acquisition related payments in the form of cash instead of with the Company's Class A shares, in order to minimize dilution to the current shareholder base. If the current market turmoil continues, it may require the Company to adjust its acquisition strategy.

The severe tightening of the credit markets in 2008 has impacted the Company by virtue of its impact on client spending. In evaluating the 2009 fiscal year, the Company is revisiting 2009 client budgets and assessing the impact of a reduction of those anticipated client spends, including the potential impact that it could have on the Company's results of operations. The Company is currently taking steps to manage its costs to ensure that if client spending is reduced, the Company is in a position to cut the appropriate costs accordingly.

The Company performs its annual goodwill impairment test as of October 1st. In performing this test in October 2008, the Company used multiple valuation techniques to value its reporting units. Since the Company used multiple valuation techniques to measure fair value, the results (respective indications of fair value) were evaluated and weighted, as appropriate, considering the reasonableness of the range indicated by those results. A fair value measurement is the point within that range that is most representative of fair value in the circumstances. Accordingly the Company used both a multiple of earnings and revenues, and discounted cash flow model, to perform the test. The discounted cash flow model was used primarily to confirm the multiples used in the market value method. The Company uses multiples as provided by an industry survey of projected 2009 multiples and with data of actual 2008 transaction multiples. This industry survey was issued in January 2009. The Company used both 2008 actual and 2009 estimated results to determine fair value. In light of the current economic conditions, the Company used multiples, discount rates and updated/revised 2009 budgets as a basis to test for impairment based on the most current information available, in January 2009. The Company also reconciled the aggregate fair value of the reporting units to the market capitalization of the Company. This reconciliation was done as of October 1, 2008 as well as on December 31, 2008. After taking into consideration outstanding indebtedness and considering a deduction for Corporate expenses, there was no difference in the aggregate fair value of the reporting units as compared to the market capitalization. The Company also considered a control premium discount; however, the Company determined that a control premium would have little impact on the reconciliation. Accordingly, a control premium discount was not used in the reconciliation. Based on the tests performed, the Company determined that none of its goodwill was impaired in 2008.

Summary of Key Transactions

Year Ended December 31, 2008

Step-Up Acquisitions of Key Partners

On November 10, 2008, the Company acquired an additional 17% equity interest in CPB from certain minority holders. The purchase price consisted of a cash payment equal to \$6.4 million plus the issuance of 105,000 newly-issued Class A shares of the Company, plus an additional contingent purchase price payment due in April 2010 based on 2007, 2008 and 2009 performance. Following the closing of this transaction, the Company's ownership in CPB is 94%.

On December 31, 2008, the Company acquired the remaining 6.3% of Accent Marketing Services ("Accent"). The aggregate purchase price was equal to \$4.8 million and was satisfied as follows: on closing, the extinguishment of \$1.8 million of outstanding loans, and payment of \$1.0 million in cash; in July 2009, \$0.6 million payable in cash and in December 2009, \$1.4 million payable in cash. The sellers may also earn additional contingent payments based on 2009 performance.

Discontinued Operations

Effective December 3, 2008, Colle & McVoy, LLC completed the sale of certain assets of its Mobium division. The purchase price consisted of minimal cash received at closing plus additional potential payments to be received through 2010. As of December 31, 2008, Mobium is treated as a discontinued operation.

In December 2008, the Company entered into negotiations with the management of Clifford/Bratskeir Public Relations LLC ("Bratskeir") to sell certain remaining assets to management. This transaction is expected to be completed in March 2009, although there can be no assurance that this transaction will be completed. As of December 31, 2008, Bratskeir has been treated as a discontinued operation.

Year Ended December 31, 2007

Financing Agreement

On June 18, 2007, MDC and its material subsidiaries entered into a \$185 million senior secured financing agreement (the "Financing Agreement") with Fortress Credit, an affiliate of Fortress Investment Group, as collateral agent and Wells Fargo Bank, as administrative agent, and a syndicate of lenders. Proceeds from the Financing Agreement were used to repay in full the outstanding balances on the Company's prior credit facility, which was terminated.

The Financing Agreement consists of a \$55 million revolving credit facility, a \$60 million term loan and a \$70 million delayed draw term loan. Borrowings under the Financing Agreement bear interest as follows: (a) LIBOR Rate Loans bear interest at applicable interbank rates and Reference Rate Loans bear interest at the rate of interest publicly announced by the Reference Bank in New York, New York, plus (b) a percentage spread ranging from 0% to a maximum of 4.75% depending on the type of loan and the Company's Senior Leverage Ratio. In addition, the Company is required to pay a facility fee of 50 basis points.

Step-Up Acquisitions in Key Partners

On November 1, 2007, the Company acquired an additional 28% of CPB from certain minority holders. The purchase price consisted of a payment of approximately \$22.6 million in cash and the issuance of 514,025 newly-issued shares of the Company's Class A stock valued at approximately \$5.5 million. Following this transaction, the Company's ownership in CPB was 77%.

On October 18, 2007, the Company acquired the remaining 40% equity interest in kirshenbaum bond & partners LLC ("KBP"). The purchase price consisted of an initial payment of approximately \$12.3 million in cash and the issuance of 269,389 newly-issued shares of the Company's Class A stock valued at approximately \$2.9 million. In addition, the Company expects to pay contingent amounts to the selling minority holder in 2009 and 2010, based on KBP's financial performance in 2007, 2008 and 2009. Based on 2008 results, an additional payment of \$16 million was paid as follows: \$14.1 million in November 2008 and \$1.9 million is due in 2009.

Management Services Agreement

On April 27, 2007, the Company entered into a new Management Services Agreement (the “Services Agreement”) with Miles Nadal and with Nadal Management, Inc. to set forth the terms and conditions on which Mr. Nadal will continue to provide services to the Company as its Chief Executive Officer. Mr. Nadal’s prior services agreement with the Company was scheduled to expire on October 31, 2007, subject to two-year annual renewals. If the Company were not going to enter into a new agreement with Mr. Nadal and did not intend to allow the prior agreement to renew, it would have been required to give Mr. Nadal notice of such non-renewal by April 30, 2007.

As an incentive to enter into the Services Agreement, the Company paid a one-time non-renewal fee of \$3.5 million upon execution of the Services Agreement, which was expensed during the second quarter of 2007. Mr. Nadal used a portion of the proceeds to repay to the Company the \$2.7 million (C\$3.0 million) note receivable due on November 1, 2007 from Nadal Management, Inc. The Company had previously reserved the principal amount of this note receivable; the collection of this receivable resulted in a one-time recovery of \$2.7 million, which was included in operating income for the year ended December 31, 2007. In addition, during 2007, Mr. Nadal repaid an additional \$0.5 million of other previously reserved notes receivable. As a result of these transactions above, operating income was adversely impacted by \$0.4 million during the year ended December 31, 2007.

Separation Agreement

On July 23, 2007, the Company entered into a separation agreement and release with its former President and Chief Financial Officer. In connection with this agreement and related matters, the Company incurred charges of approximately \$1.9 million during the year ended December 31, 2007. This charge represents all costs and expenses incurred as a consequence of this separation.

Year Ended December 31, 2006

Sale of Secure Products International

On November 14, 2006, MDC completed the sale of its Secure Products International Group for consideration equal to approximately \$27 million. Consideration was received in the form of cash of \$20 million and additional \$1 million annual payments over the next five years. In addition, MDC received a 7.5% equity interest in the newly formed entity acquiring the Secure Products International Group. As of December 31, 2008, MDC has received \$3.5 million of these annual payments and a dividend distribution equal to \$0.8 million. During 2006, the Company recorded an impairment loss of \$19.5 million and a gain on a sale of \$1.8 million. The results of operations of the Secure Products International Group have been included in discontinued operations.

Year Ended December 31, 2008 Compared to Year Ended December 31, 2007

Revenue was \$584.6 million for the year ended 2008, representing an increase of \$50.7 million, or 9.5%, compared to revenue of \$533.9 million for the year ended 2007. This increase relates primarily to organic growth of \$45.0 million, and \$6.6 million relates to acquisitions. In addition, a strengthening of the US Dollar, primarily versus the Canadian dollar during the year ended December 31, 2008, resulted in decreased revenues of \$0.8 million.

Operating profit for the year ended 2008 was \$20.3 million, compared to \$23.4 million for the year ended 2007. The decrease in operating profit was primarily the result of decreases in operating profit of \$4.0 million in the Strategic Marketing Services (“SMS”), \$0.6 million within the Customer Relationship Management (“CRM”) and \$2.8 million in the Specialized Communication Services (“SCS”) segment. Corporate operating expenses decreased by \$4.4 million.

The income from continuing operations for 2008 was \$10.1 million, compared to a loss of \$18.2 million in 2007. This increase in income of \$28.3 million was primarily the result of a decrease in other expenses of \$15.1 million, which includes a \$20.4 million increase in unrealized gains on foreign currency transactions; decreased minority interest of \$12.4 million; and decreased income taxes of \$3.7 million. These amounts were offset by the decrease in operating profits of \$3.0 million.

Marketing Communications Group

Revenues in 2008 attributable to the Marketing Communications Group, which consists of three reportable segments — SMS, CRM, and SCS, were \$584.6 million compared to \$533.9 million in 2007, representing a year-over-year increase of 9.5%.

The components of revenue growth for 2008 are shown in the following table:

	Revenue	
	\$000's	%
Year ended December 31, 2007	\$533,883	—
Organic	44,972	8.4%
Acquisitions	6,581	1.2%
Foreign exchange impact	(788)	(0.1%)
Year ended December 31, 2008	<u>\$584,648</u>	<u>9.5%</u>

The geographic mix in revenues was relatively consistent between 2008 and 2007 and is demonstrated in the following table:

	2008	2007
US	83%	80%
Canada	15%	17%
UK and other	2%	3%

The operating profit of the Marketing Communications Group decreased by approximately 16.2% to \$38.4 million from \$45.8 million. Operating margins decreased to 6.6% for 2008 compared to 8.6% for 2007. The decrease in operating margin is primarily attributable to an increase in direct costs (excluding staff costs) as a percentage of revenues from 26.3% of revenue in 2007 to 27.5% of revenue in 2008 due to an increase in reimbursed client related direct costs. In addition, total staff costs as a percentage of revenues increased from 46.3% in 2007 to 47.3% in 2008. This was offset in part by a decrease in occupancy and administrative costs as a percentage of revenue from 4.0% in 2007 to 3.8% in 2008. Depreciation and amortization expenses increased as a percentage of revenue from 5.4% in 2007 to 5.8% in 2008, in addition non-cash stock based compensation charges increased as a percentage of revenue from 1.1% in 2007 to 1.7% in 2008.

Marketing Communications Businesses

Strategic Marketing Services (“SMS”)

Revenues attributable to SMS in 2008 were \$333.4 million compared to \$307.2 million in 2007. The year-over-year increase of \$26.1 million or 8.5% was attributable primarily to organic growth of \$20.4 million as a result of net new business wins, and \$5.7 million of the increase related to the 2007 acquisitions of HL Group Partners and Redscout.

The operating profit of SMS decreased by approximately 13.8% to \$25.3 million in 2008, from \$29.3 million in 2007, while operating margins decreased to 7.6% in 2008 from 9.5% in 2007. The decrease in margin is primarily related to an increase in direct costs (excluding staff costs) as a percentage of revenues from 11.8% of revenue in 2007 to 11.9% of revenue in 2008, primarily due to an increase in reimbursed client related direct costs. Total staff costs as a percentage of revenue increased from 56.5% in 2007 to 58.4% in 2008. In addition, staff costs increased in 2008 due to a \$1.0 million increase in non-cash stock based compensation, primarily as a result of an increase of \$0.9 million in the charge resulting from the 2008 contingent payment relating to the 2007 purchase of the remaining 40% equity interest in kirshenbaum bond + partners and other phantom equity plans at certain partner firms. Depreciation and amortization represented 7.2% and 6.6% of revenues during 2008 and 2007, respectively, as certain intangibles resulting from the CPB and KBP step acquisitions have a full year of amortized expense.

Customer Relationship Management (“CRM”)

Revenues reported by the CRM segment in 2008 were \$134.1 million, an increase of \$21.0 million or 18.6% compared to the \$113.0 million reported for 2007. This growth was entirely organic due primarily to higher volumes from existing clients in part as a result of the opening of a new customer care center in September 2007.

Operating profit earned by CRM decreased by approximately \$0.6 million to \$2.7 million for 2008, from \$3.3 million for the previous year. Operating margins were 2.0% for 2008, as compared to 3.0% in 2007. The decrease in operating profit and margins is primarily due to an increase in non-cash stock based compensation of \$2.3 million in 2008 relating to the acquisition on December 31, 2008, of the remaining 6.3% of Accent. Excluding this charge, operating profit would have increased by \$1.7 million, and margins would have been 3.9% in 2008 compared to 3% in 2007. This increase in margin relates to a decrease as a percentage of revenue of office and general expenses from 18.9% in 2007, to 17.1% in 2008. This decrease is a result of maintaining fixed costs on increased revenues.

Specialized Communication Services (“SCS”)

SCS generated revenues of \$117.3 million for 2008, which was \$3.6 million or 3.2% higher than revenues of \$113.7 million in 2007. The year-over-year increase was attributable primarily to organic growth of \$3.4 million as a result of net new business wins, and \$0.8 million relating to acquisitions. A strengthening of the US dollar versus the Canadian dollar and British pound in 2008 compared to 2007 resulted in a \$0.6 million decrease in revenues from the division’s Canadian and UK-based operations.

The operating profit of SCS decreased by \$2.8 million to \$10.4 million in 2008, from an operating profit of \$13.2 million in 2007, with operating margins of 8.8% in 2008 compared to 11.6% in 2007. The decrease in operating margin in 2008 was due primarily to an increase in direct costs as a percentage of revenues from 32.5% in 2007 to 34.4% in 2008. In addition, staff costs as a percentage of revenue increased to 43.8% in 2008 from 43.5% in 2007. This increase is a result of the timing of when expected clients’ projects were expected to begin, while maintaining the appropriate staffing levels to properly service those projects. Margins were also impacted by an increase in office and general expenses as a percent of revenue, which increased from 17.2% in 2007 to 17.7% in 2008 and an increase in depreciation and amortization from 1.7% in 2007 to 2.2% in 2008. The increase in office and general expenses was in support of revenue growth which did not occur. The increase in depreciation and amortization was due to the amortization of intangibles relating to the acquisition of Clifford PR in February 2008.

Corporate

Operating costs related to the Company’s Corporate operations decreased by \$4.4 million to \$18.0 million in 2008, compared to \$22.4 million in 2007. This decrease in Corporate expenses was a result of 2007 charges of \$1.9 million of costs associated with the Company’s separation agreement with its former President and Chief Financial Officer and the hiring of a new CFO, and the net \$0.4 million impact of the renewal of the CEO management services agreement. In addition, the Company reduced Corporate salaries expense, insurance costs, professional and consulting fees and travel and entertainment costs by an aggregate amount equal to \$2.5 million. These decreases were offset by increases in non-cash stock based compensation and increased promotional expenses and other expenses of \$0.4 million.

Other Income, Net

Other income decreased \$3.2 million in 2008 to almost nil compared to \$3.2 million in 2007. The 2007 income is primarily comprised of a \$1.8 million gain on the sale of the plane acquired in the Zyman acquisition, a dividend payment of \$0.8 million from the purchaser of the Secured Products Group, and the recovery of an investment of \$0.4 million. The 2008 expense is comprised of losses on the sale of assets.

Foreign Exchange

The foreign exchange gain was \$13.3 million for 2008 compared to the loss of \$7.2 million recorded in 2007, and was due primarily to an unrealized gain due to a strengthening in the US dollar during 2008 compared to the Canadian dollar primarily on its US dollar denominated intercompany balances with its Canadian subsidiaries. At December 31, 2008, the exchange rate was 1.22 Canadian dollars to one US dollar, compared to 0.99 at the end of 2007 and 1.17 at the end of 2006.

Net Interest Expense

Net interest expense for 2008 was \$13.3 million, an increase of \$2.2 million over the \$11.1 million net interest expense incurred during 2007. Interest expense increased \$2.2 million in 2008 due to higher average outstanding debt in 2008, offset by lower interest rates. Interest income was \$1.7 million for 2008, as compared to \$2.7 million in 2007. This decrease was primarily due to the interest income recognized from the acceleration of payments received in July 2007 related to the sale of SPI, originally due to be received in 2010 and 2011.

Income Taxes

Income tax expense in 2008 was \$2.4 million compared to \$6.1 million for 2007. In 2008, the Company's effective tax rate was substantially lower than the statutory tax rate due to a decrease in the Company's valuation allowance, a reversal of withholding taxes due to a change in the tax law, and minority interest charges. These amounts were offset in part by non-deductible stock based compensation. The Company's effective tax rate was substantially higher than the statutory rate in 2007 due to non-deductible stock-based compensation and an increase in the Company's valuation allowance, offset in part by minority interest charges.

The Company's US operating units are generally structured as limited liability companies, which are treated as partnerships for tax purposes. The Company is only taxed on its share of profits, while minority holders are responsible for taxes on their share of the profits.

Equity in Affiliates

Equity in affiliates represents the income attributable to equity-accounted affiliate operations. For 2008 and 2007, income of \$0.3 and \$0.2 million was recorded, respectively. Included in 2007 is an impairment charge of \$0.2 million relating to the Company's investment in Cliff Freeman.

Minority Interests

Minority interest expense was \$8.1 million for 2008, down \$12.4 million from the \$20.5 million of minority interest expense incurred during 2007. Such decrease was primarily due to the Company's fourth quarter 2007 step-up in ownership of CPB and KBP, and a decrease in profitability of subsidiaries within the SCS operating segment, which are not 100% owned.

Discontinued Operations

The loss net of taxes from discontinued operations for 2008 was \$10.0 million and is comprised of the operating results of Mobium, a division of Colle & McVoy, LLC ("Colle"), Clifford/Bratskeir Public Relations LLC ("Bratskeir"), The Ito Partnership ("Ito") and Margeotes Fertitta Powell, LLC ("MFP"). MFP was previously discontinued in 2007; the other entities were discontinued in 2008.

Effective December 3, 2008, Colle completed the sale of certain assets of its Mobium division. The Company recorded a loss on sale of \$1.2 million (\$0.8 million net of taxes) and an operating loss of \$3.4 million (\$2.3 million net of taxes).

In December 2008, the Company entered into negotiations to sell certain remaining assets in Bratskeir to management. This transaction is expected to be completed in March 2009. As a result of this expected transaction, the Company recorded an impairment charge of \$1.9 million (\$1.3 million net of taxes). In addition, Bratskeir recorded an operating loss of \$3.8 million (\$2.5 million net of taxes) in 2008.

Effective June 30, 2008, the Company completed the sale of its interests in Ito. The sale resulted in a loss of \$0.8 million (\$0.5 million net of taxes.)

As a result, the Company has classified the Mobium, Bratskeir and Ito operations as discontinued.

In 2007, the Company ceased operation of MFP. In 2008, the Company recorded a loss of \$4.0 million (\$2.6 million net of taxes) resulting primarily from the accrual of lease abandonment costs and severance at MFP.

The aggregate loss from discontinued operations for 2007 was \$8.2 million and is comprised of the operating results of Mobium, Bratskeir, Ito, MFP and Banjo Strategic Entertainment, LLC ("Banjo").

The 2007 loss from discontinued operations consists of net income of \$0.3 million from Mobium, income of \$0.1 million from Ito and a net loss of \$1.3 million from Bratskeir.

In addition, in March 2007, due to continued operating and client losses, the Company ceased MFP's current operations and spun off a new operating division, and as a result incurred a goodwill impairment charge of \$4.5 million. After reviewing the 2008 projections of the new operating division, the Company decided to cease the operations of the new operating business as well. In addition, an additional intangible relating to an employment contract of \$0.6 million was deemed impaired and written off. The results of operations of MFP and the new operating business, net of income tax benefits, was a loss of \$7.1 million in 2007.

In December 2007, due to continued operating losses and the lack of new business wins, the Company ceased Banjo's operations. The results of operations of Banjo, net of income tax benefits, was a loss \$0.2 million in 2007.

As a result, the Company has classified these operations as discontinued.

Net Income

As a result of the foregoing, the net income recorded for 2008 was \$0.1 million or income of \$0.01 per diluted share, compared to a net loss of \$26.4 million or \$1.05 per diluted share reported for 2007.

Year Ended December 31, 2007 Compared to Year Ended December 31, 2006

Revenue was \$533.9 million for the year ended 2007, representing an increase of \$130.8 million, or 32.5%, compared to revenue of \$403.1 million for the year ended 2006. This increase relates primarily to organic growth of \$90.6 million, \$19.8 million relating to the consolidation of three entities that were previously accounted for on the equity method and \$12.7 million relating to acquisitions. In addition, a weakening of the US Dollar, primarily versus the Canadian dollar during the year ended December 31, 2007, resulted in increased revenues of \$7.8 million.

Operating profit for the year ended 2007 was \$23.4 million, the same as the year ended 2006. Operating profit remained consistent despite a decrease in operating profit of \$4.2 million in the Strategic Marketing Services ("SMS") segment, partially offset by increases in operating profits of \$1.4 million and \$0.9 million within the Customer Relationship Management ("CRM") and Specialized Communication Services ("SCS") segments, respectively. In addition, Corporate operating expenses decreased by \$1.9 million.

During 2007, certain members of corporate management were permanently assigned and actively involved in the strategic planning of the various operating subsidiaries within each of the Marketing Communication business segments in an effort to maximize growth and profitability. As a result, during the year ended December 31, 2007, approximately \$2.4 million, \$0.3 million and \$1.5 million of costs were allocated to the SMS, CRM, and SCS segments, respectively. The operating results of each of the operating segments are discussed in further details within Management's Discussion and Analysis that follows.

The loss from continuing operations for 2007 was \$18.2 million, compared to \$8.3 million in 2006. This increase in loss of \$9.9 million was primarily the result of an increase in other expenses of \$7.3 million, which includes a \$7.8 million increase in unrealized losses on foreign currency transactions, increased minority interest of \$3.8 million, partially offset by reduced income taxes of \$1.3 million.

Marketing Communications Group

Revenues in 2007 attributable to the Marketing Communications Group, which consists of three reportable segments — SMS, CRM, and SCS, were \$533.9 million compared to \$403.1 million in 2006, representing a year-over-year increase of 32.5%.

The components of revenue growth for 2007 are shown in the following table:

	Revenue	
	\$000's	%
Year ended December 31, 2006	\$403,086	—
Organic	90,596	22.5%
Effect of accounting change	19,753	4.9%
Acquisitions	12,653	3.2%
Foreign exchange impact	7,795	1.9%
Year ended December 31, 2007	<u>\$533,883</u>	<u>32.5%</u>

The geographic mix in revenues was relatively consistent between 2007 and 2006 and is demonstrated in the following table:

	2007	2006
US	80%	83%
Canada	17%	15%
UK and other	3%	2%

The operating profit of the Marketing Communications Group decreased by approximately 4.2% to \$45.8 million from \$47.8 million. Operating margins decreased to 8.6% for 2007 compared to 11.9% for 2006. The decrease in operating margin is primarily attributable to an increase in direct costs (excluding staff costs) as a percentage of revenues from 21.3% of revenue in 2006 to 26.3% of revenue in 2007 due to an increase in reimbursed client related direct costs. In addition, staff costs as a percentage of revenues increased from 45.2% in 2006 to 46.3% in 2007. This was offset in part by a decrease in office and general expenses as a percentage of revenue from 24.8% in 2006 to 21.7% in 2007 and a decrease in depreciation and amortization as a percentage of revenue from 5.9% in 2006 to 5.4% in 2007. Included in operating profits in 2007 was a termination payment of \$5.3 million received in connection with the termination by a client of their engagement with a subsidiary of the Company.

Marketing Communications Businesses

Strategic Marketing Services (“SMS”)

Revenues attributable to SMS in 2007 were \$307.2 million compared to \$236.2 million in 2006. The year-over-year increase of \$71.0 million or 30.1% was attributable primarily to organic growth of \$48.6 million as a result of net new business wins, \$11.7 million of the increase related to the acquisitions of HL Group Partners and Redscout, LLC and \$8.5 million related to the change in accounting for Zig Inc., and Mono Advertising, LLC, from the equity method of accounting in 2006 to consolidating them in 2007 for the full year. A weakening of the US dollar versus the Canadian dollar in 2007 compared to 2006 resulted in a \$2.1 million increase in revenues from the division’s Canadian-based operations.

The operating profit of SMS decreased by approximately 12.6% to \$29.3 million in 2007 from \$33.5 million in 2006, while operating margins decreased to 9.5% in 2007 from 14.2% in 2006. Excluding the receipt of the termination payment noted above, 2006 operating profit would have been \$28.2 million with operating margins of 12.2%. The decrease in margin is primarily related to an increase in direct costs (excluding staff costs) as a percentage of revenues from 5.5% of revenue in 2006 to 11.8% of revenue in 2007 primarily due to an increase in reimbursed client related direct costs. Operating margins also decreased in 2007 by 0.8% due to the allocation of \$2.4 million relating to the reassignment of certain members of corporate management to entities within this segment. Total staff costs as a percentage of revenue increased from 54.2% in 2006 to 56.5% in 2007. Excluding the termination payment, staff costs as a percentage of revenue in 2006 would have been 55.4%. In addition, staff costs increased in 2007 due to a \$4.2 million increase in non-cash stock based compensation primarily as a result of a \$2.6 million charge resulting from the acquisition of the remaining 40% equity interest in kirshenbaum bond + partners and other phantom equity plans at certain partner firms. Office and general expenses increased due to additional occupancy and administrative costs relating to the expansion of operations in Boulder, Colorado and expansions and office moves of other partner firms but as a

percentage of revenue office and general expenses decreased from 29.8% in 2006 to 24.5% in 2007. Depreciation and amortization represented 6.6% and 7.4% of revenues during 2007 and 2006, respectively, as certain intangibles resulting from the Zyman acquisition were fully amortized during 2006. During 2007, amortization expense increased from a change in the estimated amortization rate of customer lists.

Customer Relationship Management (“CRM”)

Revenues reported by the CRM segment in 2007 were \$113.0 million, an increase of \$28.1 million or 33.0% compared to the \$84.9 million reported for 2006. This growth was entirely organic due primarily to higher volumes from existing clients in part as a result of the opening of a new customer care center in September 2007 and the opening of three additional customer care centers during 2006. Such growth was offset by the closure of one customer care center in August 2006.

Operating profit earned by CRM increased by approximately \$1.3 million to \$3.3 million for 2007 from \$2.0 million for the previous year. Operating margins were 3.0% for 2007 as compared to 2.3% in 2006. The increase in margins is primarily due to a decrease in occupancy and administrative costs as a percentage of revenue from 11.0% in 2006 to 9.4% in 2007.

Specialized Communication Services (“SCS”)

SCS generated revenues of \$113.7 million for 2007, \$31.7 million or 38.7% higher than revenues of \$82.0 million in 2006. The year-over-year increase was attributable primarily to organic growth of \$13.9 million as a result of net new business wins, \$11.2 million relating to the change in accounting for Accumark, Inc., from the equity method in 2006 to consolidating them in 2007 for the full year and \$0.9 million for acquisitions. A weakening of the US dollar versus the Canadian dollar and British pound in 2007 compared to 2006 resulted in a \$5.7 million increase in revenues from the division’s Canadian and UK-based operations.

The operating profit of SCS increased by \$0.9 million to \$13.2 million in 2007, from an operating profit of \$12.3 in 2006, with operating margins of 11.6% in 2007 compared to 15.0% in 2006. Included in 2006 was a non-cash stock based compensation charge of \$2.3 million relating to the price paid for membership interests, which was less than fair value of such membership interests and the fair value of an option granted to certain members of management of Source Marketing LLC (“Source”). Excluding the Source non-cash stock based compensation charge, 2006 operating income would have been \$14.6 million with operating margins of 17.8% compared to 11.6% in 2007. The decrease in operating margin in 2007 was due primarily to an increase in direct costs as a percentage of revenues from 27.1% in 2006 to 32.5% in 2007, primarily due to an increase in reimbursed client related direct costs. Operating margins also decreased in 2007 by 1.3% due to the allocation of \$1.5 million relating to the reassignment of certain members of corporate management to entities within this segment. In addition, staff costs excluding the Source non-cash stock based compensation charge as a percentage of revenue increased to 43.5% in 2007 from 42.6% in 2006. Including the Source non-cash stock based compensation charge staff costs as a percentage of revenue in 2006 was 45.4%. This increase is a result of the timing of when expected clients’ projects will begin, while maintaining the appropriate staffing levels to properly service those projects.

Corporate

Operating costs related to the Company’s Corporate operations totaled \$22.4 million in 2007 compared to \$24.3 million in 2006. During 2007, certain members of corporate management were permanently assigned and actively involved in the strategic planning of the various operating subsidiaries within each of the Marketing Communication business segments in an effort to maximize growth and profitability. As a result, approximately \$4.2 million of costs were allocated to the Marketing Communications segments. Excluding the allocation of these costs, corporate operating costs increased by \$2.3 million. This increase in corporate expenses was a result of \$1.9 million of costs associated with the Company’s separation agreement with its former President and Chief Financial Officer and the hiring of a new CFO, and the net \$0.4 million impact of the renewal of the CEO management services agreement. In addition, non-cash stock based compensation increased by \$1.0 million. These increases were partially offset by a reduction in insurance and professional fees in 2007.

Other Income, Net

Other income increased to \$3.2 million in 2007 compared to \$1.4 million in 2006. The 2007 income is primarily comprised of a \$1.8 million gain on the sale of the plane acquired in the Zyman acquisition, a dividend payment of \$0.8 million from the purchaser of the Secured Products Group, and the recovery of an investment of \$0.4 million. The 2006 income is comprised of gains on the sale of assets, the settlement in June 2006, of the Company's cross currency swap, the recovery of an investment offset in part by a loss on an equity transaction of a subsidiary.

Foreign Exchange

The foreign exchange loss was \$7.2 million for 2007 compared to the gain of \$0.6 million recorded in 2006 and was due primarily to an unrealized loss due to a weakening in the US dollar during 2007 compared to the Canadian dollar primarily on its US dollar denominated intercompany balances with its Canadian subsidiaries. At December 31, 2006, the exchange rate was 1.17 Canadian dollars to one US dollar, compared to 0.99 at the end of 2007.

Net Interest Expense

Net interest expense for 2007 was \$11.1 million, an increase of \$1.3 million over the \$9.8 million net interest expense incurred during 2006. Interest expense increased \$2.5 million in 2007 due to higher interest rates and higher average outstanding debt in 2007. Interest income was \$2.7 million for 2007, as compared to \$1.5 million in 2006. This increase was primarily due to the interest income recognized from the acceleration of payments received in July 2007 related to the sale of SPI, originally due to be received in 2010 and 2011.

Income Taxes

Income tax expense in 2007 was \$6.1 million compared to an expense of \$7.3 million for 2006. In 2007, the Company's effective tax rate was substantially higher than the statutory tax rate in 2007 due to non deductible stock based compensation, and an increase in the Company's valuation allowance offset in part by minority interest charges. The Company's effective tax rate was substantially higher than the statutory rate in 2006 because the Company increased its valuation allowance in an amount equal to the tax loss resulting from the sale of SPI.

The Company's US operating units are generally structured as limited liability companies, which are treated as partnerships for tax purposes. The Company is only taxed on its share of profits, while minority holders are responsible for taxes on their share of the profits.

Equity in Affiliates

Equity in affiliates represents the income attributable to equity-accounted affiliate operations. For 2007 and 2006, income of \$0.2 million was recorded. Included in 2006 is an impairment charge of \$0.8 million relating to the Company's investment in Cliff Freeman.

Minority Interests

Minority interest expense was \$20.5 million for 2007, up \$3.8 million from the \$16.7 million of minority interest expense incurred during 2006. Such increase was primarily due to the increase in profitability in the subsidiaries within the SMS and SCS operating segments who are not 100% owned, offset in part by the Company's step-up in ownership of CPB and KBP.

Discontinued Operations

The loss from discontinued operations for 2007 was \$8.2 million and is comprised of the operating results of MFP and Banjo, which operations were discontinued during 2007. The loss also includes results from Mobium, Ito and Bratskeir, entities that were discontinued in 2008.

The results of operations of MFP, net of income tax benefits, was a loss of \$7.1 million in 2007 and a loss of \$6.0 million in 2006.

The results of operations of Banjo, net of income tax benefits, was a loss \$0.2 million in 2007 and a loss of \$0.1 million in 2006.

The 2007 loss from discontinued operations consists of net income of \$0.3 million from Mobium, income of \$0.1 million from Ito and a net loss of \$1.3 million from Bratskeir.

The loss from discontinued operations for 2006 amounted to \$25.2 million and is comprised of \$18.7 million relating to SPI and \$6.1 million relating to MFP and Banjo and \$0.4 million related to Mobium and Bratskeir.

On November 14, 2006, the Company completed its sale of SPI, resulting in net proceeds of \$27 million. During 2006, the Company had previously recorded an impairment charge of \$19.5 million relating to SPI's long lived assets to adjust them to fair market value. The sale of SPI resulted in a gain of \$2.9 million (\$1.8 million, net of taxes). The results of operations of SPI for 2006 resulted in a loss of \$2.1 million.

Based on the net proceeds and average borrowing rate for each period, the Company has allocated interest expense to discontinued operations of \$1.4 million for the year ended 2006.

Net Income

As a result of the foregoing, the net loss recorded for 2007 was \$26.3 million or a loss of \$1.05 per diluted share, compared to the net loss of \$33.5 million or \$1.40 per diluted share reported for 2006.

Liquidity and Capital Resources

The following table provides information about the Company's liquidity position:

Liquidity	2008	2007	2006
	(In Thousands, Except for Long-Term Debt to Shareholders' Equity Ratio)		
Cash and cash equivalents	\$ 41,331	\$ 10,410	\$ 6,591
Working capital (deficit)	\$(12,091)	\$(22,364)	\$(105,039)
Cash from operations	\$ 57,446	\$ 4,132	\$ 39,705
Cash from investing	\$(50,186)	\$(60,914)	\$ (14,315)
Cash from financing	\$ 23,510	\$ 60,929	\$ (31,597)
Ratio of long-term debt to shareholders' equity	1.43	1.29	0.37

As at December 31, 2008, 2007 and 2006, \$8.4 million, \$3.5 million and \$2.3 million, respectively, of the consolidated cash position was held by subsidiaries. Although this amount is available for the subsidiaries' use, it does not represent cash that is distributable as earnings to MDC for use to reduce its indebtedness. It is the Company's intent through its cash management system to reduce outstanding borrowings under the Financing Agreement by using available cash.

Working Capital

At December 31, 2008, the Company had a working capital deficit of \$12.1 million, compared to a deficit of \$22.4 million at December 31, 2007. Working capital deficit decreased by \$10.3 million primarily due to a significant increase in operating results in 2008 compared to 2007. In addition, the Company made improvements in its billing and collecting practices. The Company includes amounts due to minority interest holders, for their share of profits, in accrued and other liabilities. During 2008, 2007 and 2006, the Company made distributions to these minority interest holders of \$11.6 million, \$25.0 million and \$19.4 million, respectively. At December 31, 2008, \$4.9 million remains outstanding to be distributed to minority interest holders over the next twelve months.

The Company expects that available borrowings under its Financing Agreement, together with cash flows from operations, will be sufficient at any particular time to adequately fund working capital deficits should there be a need to do so from time to time.

Operating Activities

Cash flow provided by continuing operations for 2008 was \$60.9 million. This was attributable primarily to income from continuing operations of \$10.1 million, plus non-cash stock based compensation of \$13.5 million, depreciation and amortization of \$35.8 million, a decrease in accounts receivable and expenditures billable to clients of \$28.5 million and a decrease in prepaid expenses and other current assets and liabilities of \$1.6 million. This was partially offset by foreign exchange gains of \$14.6 million, deferred taxes of \$1.0 million, changes in other non-current assets and liabilities of \$1.3 million and decreases in accounts payable, accruals and other current liabilities of \$11.7 million. Discontinued operations used cash of \$3.5 million.

Cash flow provided by continuing operations for 2007 was \$3.1 million. This was attributable primarily to a loss from continuing operations of \$18.2 million, plus non-cash stock based compensation of \$9.1 million, depreciation and amortization of \$31.3 million, foreign exchange losses of \$7.3 million, deferred income taxes of \$5.3 million, a decrease in expenditures billable to clients of \$8.9 million and a decrease in other non-current assets and liabilities of \$3.7 million. This was partially offset by decreases in accounts payable, accruals and other current liabilities of \$26.2 million and an increase in accounts receivable of \$11.6 million. Discontinued operations generated cash of \$1.0 million.

Cash flow provided by continuing operations for 2006 was \$34.0 million. This was attributable primarily to a loss from continuing operations of \$8.3 million, plus non-cash stock based compensation of \$7.4 million, depreciation and amortization of \$26.3 million, deferred income taxes of \$4.9 million, an increase in accounts payable, accruals and other liabilities of \$34.5 million and an increase in advance billings of \$15.4 million. This was partially offset by increases in accounts receivable of \$19.8 million and expenditures billable to clients of \$19.5 million. Discontinued operations provided cash of \$5.7 million.

Investing Activities

Cash flows used in investing activities were \$50.2 million for 2008, compared with \$60.9 million in 2007, and \$14.3 million in 2006.

Cash used in acquisitions during 2008 was \$35.8 million of which \$19.1 million was paid in the acquisition of equity interests in Crispin Porter & Bogusky, Texture Media, Clifford PR, Core Strategy Group, DMG Inc., Skinny NY, Source Marketing, Allard Johnson, Zig and Accent Marketing. In addition, the Company paid \$16.7 million as contingent deferred payments from prior acquisitions.

The proceeds of \$0.2 million from dispositions in 2008 primarily relate to proceeds received from the sale of capital assets.

Expenditures for capital assets in 2008 were equal to \$14.4 million. Of this amount, \$8.8 million was incurred by the SMS segment, \$4.3 million was incurred by the CRM segment and \$1.2 million was incurred by the SCS segment. These expenditures consisted primarily of computer equipment, leasehold improvements, furniture and fixtures, and \$0.1 million related to the purchase of Corporate assets, primarily software.

Cash used in acquisitions during 2007 was equal to \$47.4 million. This amount included cash paid in the acquisition of equity interests in Crispin Porter & Bogusky, kirshenbaum bond + partners, HL Group Partners and Redscout.

The proceeds from dispositions in 2007 primarily relate to proceeds received from the sale of the plane acquired in the Zyman acquisition.

Expenditures for capital assets in 2007 were equal to \$19.5 million. Of this amount, \$9.0 million was incurred by the SMS segment, \$7.9 million was incurred by the CRM segment and \$2.4 million was incurred by the SCS segment. These expenditures consisted primarily of computer equipment, leasehold improvements, furniture and fixtures, and \$0.2 million related to the purchase of Corporate assets, primarily software.

In 2006, capital expenditures totaled \$22.4 million, of which \$9.1 million was incurred by the SMS segment, \$11.7 million was incurred by the CRM segment and \$1.2 million was incurred by the SCS segment, which expenditures consisted primarily of leasehold improvements, computer and switching equipment, and \$0.4 million related to the purchase of Corporate assets primarily software.

During 2006, the Company received net proceeds of \$16.4 million in connection with the sale of SPI and used \$7.2 million of cash to fund acquisitions, step-ups in ownership of certain partner firms and earnout payments.

Profit distributions received from affiliates amounted to \$0.4 million in 2008, nil for 2007, and \$0.9 million for 2006. The decrease between 2007 and 2006 related primarily to the consolidation in 2006 and 2007 of certain partner firms, which had been previously accounted for on the equity method of accounting.

Discontinued operations used cash of \$0.5 million, \$0.9 million and \$2.7 million in 2008, 2007 and 2006, respectively, relating to expenditures for capital assets, and in 2008 and 2007 such payments also related to acquisitions and earnout payments.

Financing Activities

During the year ended December 31, 2008, cash flows provided by financing activities amounted to \$23.5 million, and primarily consisted of \$26.3 million of proceeds from borrowings under the Company's Financing Agreement. These proceeds were partially offset by \$1.9 million of net repayments of long-term debt and \$0.9 million relating to the repurchase of treasury shares for income tax withholding requirements.

During the year ended December 31, 2007, cash flows provided by financing activities amounted to \$60.9 million, and primarily consisted of \$113.4 million of proceeds from the current Financing Agreement. These proceeds were partially offset by the \$45.0 million repayment of the old credit facility, \$10.8 million of net repayments of long-term debt and bank borrowings, and the payment of \$3.9 million of deferred financing costs relating to the current Financing Agreement. The Company also received proceeds from a forgivable note payable amounting to \$3.3 million relating to the opening of a new customer care center. In addition, the Company received \$4.9 million of proceeds from the issuance of share capital resulting from the exercise of stock options. The Company also repurchased treasury shares of \$0.8 million for income tax withholding requirements. Discontinued operations used cash of \$0.1 million for payments under capital leases.

During 2006, the Company used cash of \$31.6 million to repay borrowings under the old credit facility and payments under capital leases and other debt. Discontinued operations used cash of \$3.3 million for payments under capital leases.

Total Debt

On June 18, 2007, the Company and its material subsidiaries entered into a \$185 million senior secured financing agreement (the "Financing Agreement") with Fortress Credit, an affiliate of Fortress Investment Group, as collateral agent and Wells Fargo Bank, as administrative agent, and a syndicate of lenders. Proceeds from the Financing Agreement were used to repay in full the outstanding balances on the Company's prior credit facility, which was terminated.

The Financing Agreement consists of a \$55 million revolving credit facility, a \$60 million term loan and a \$70 million delayed draw term loan. Borrowings under the Financing Agreement will bear interest as follows: (a) LIBOR Rate Loans bear interest at applicable interbank rates and Reference Rate Loans bear interest at the rate of interest publicly announced by the Reference Bank in New York, New York, plus (b) a percentage spread ranging from 0% to a maximum of 4.75% depending on the type of loan and the Company's Senior Leverage Ratio. In addition, the Company is required to pay a facility fee of 50 basis points. The weighted average interest rate at December 31, 2008 was 7.59%.

The Financing Agreement is guaranteed by the material subsidiaries and secured by all the assets of the Company and matures on June 17, 2012. The Financing Agreement is subject to various covenants, including a senior leverage ratio, fixed charges ratio, limitations on debt incurrence, limitation on liens and limitation on dividends and other payments.

Debt as of December 31, 2008 was \$181.5 million, an increase of \$16.7 million compared with the \$164.8 million outstanding at December 31, 2007, primarily as a result of borrowings under the revolving Financing Agreement to fund seasonal working capital requirements and acquisitions. At December 31, 2008, \$40.6 million is available under the Financing Agreement plus cash of \$32.9 million which is available to fund working capital requirements.

The Company is currently in compliance with all of the terms and conditions of its Financing Agreement, and management believes, based on its current financial projections, that the Company will be in compliance with covenants over the next twelve months.

If the Company loses all or a substantial portion of its lines of credit under the Financing Agreement, it will be required to seek other sources of liquidity. If the Company were unable to find these sources of liquidity, for example through an equity offering or access to the capital markets, the Company's ability to fund its working capital needs and any contingent obligations with respect to put options would be adversely affected.

Pursuant to the Financing Agreement, the Company must comply with certain financial covenants including, among other things, covenants for (i) total debt ratio, (ii) fixed charges ratio, (iii) minimum earnings before interest, taxes and depreciation and amortization, and (iv) limitations on capital expenditures, in each case as such term is specifically defined in the Financing Agreement. For the period ended December 31, 2008, the Company's calculation of each of these covenants, and the specific requirements under the Financing Agreement, respectively, were as follows:

	December 31, 2008
Total Senior Leverage Ratio	1.86
Maximum per covenant	3.25
Fixed Charges Ratio	3.03
Minimum per covenant	1.20
Minimum earnings before interest, taxes, depreciation and amortization	\$65.5 million
Minimum per covenant	\$42.8 million
Capital Expenditures:	\$14.6 million
Maximum per covenant	\$16.4 million

These ratios are not based on generally accepted accounting principles and are not presented as alternative measures of operating performance or liquidity. They are presented here to demonstrate compliance with the covenants in the Company's Financing Agreement, as non-compliance with such covenants could have a material adverse effect on the Company.

8% Convertible Unsecured Subordinated Debentures

On June 28, 2005, the Company completed a public offering in Canada of convertible unsecured subordinated debentures amounting to \$36.7 million (C\$45.0 million) (the "Debentures"). The Debentures will mature on June 30, 2010. The Debentures bear interest at an annual rate of 8.00% payable semi-annually, in arrears, on June 30 and December 31 of each year. Unless an event of default has occurred and is continuing, the Company may elect, from time to time, subject to applicable regulatory approval, to issue and deliver Class A subordinate voting shares to the Debenture trustee in order to raise funds to satisfy all or any part of the Company's obligations to pay interest on the Debentures in accordance with the indenture in which event holders of the Debentures will be entitled to receive a cash payment equal to the interest payable from the proceeds of the sale of such Class A subordinate voting shares by the Debenture trustee.

The Debentures will be convertible at the holder's option into fully-paid, non-assessable and freely tradeable Class A subordinate voting shares of the Company, at any time prior to maturity or redemption, subject to the restrictions on transfer, at a conversion price of \$11.49 (C\$14.00) per Class A subordinate voting share being a ratio of approximately 71.4286 Class A subordinate voting shares per \$821 (C\$1,000) principal amount of Debentures.

The Debentures may not be redeemed by the Company on or before June 30, 2008. Thereafter, but prior to June 30, 2009, the Debentures may be redeemed, in whole or in part from time to time, at a price equal to the principal amount of the Debenture plus accrued and unpaid interest, provided that the volume weighted average trading price of the Class A subordinate voting shares on The Toronto Stock Exchange during a specified period is not less than 125% of the conversion price. From July 1, 2009 until the maturity of the Debentures, the Debentures may be redeemed by the Company at a price equal to the principal amount of the

Debenture plus accrued and unpaid interest, if any. The Company may elect to satisfy the redemption consideration, in whole or part, by issuing Class A subordinate voting shares of the Company to the holders, the number of which will be determined by dividing the principal amount of the Debenture by 95% of the current market price of the Class A subordinate voting shares on the redemption date. Upon the occurrence of a change of control of the Company involving the acquisition of voting control or direction over 50% or more of the outstanding Class A subordinate voting shares prior to June 30, 2008, the Company shall be required to make an offer to purchase all of the then outstanding Debentures at a price equal to 100% of the principal amount thereof plus an amount equal to the interest payments not yet received on the Debentures calculated from the date of the change of control to June 30, 2008, discounted at a specified rate. Upon the occurrence of a change of control on or after June 30, 2008, the Company shall be required to make an offer to purchase all of the then outstanding Debentures at a price equal to 100% of the principal amount of the Debentures plus accrued and unpaid interest to the purchase date.

Disclosure of Contractual Obligations and Other Commercial Commitments

The following table provides a payment schedule of present and future obligations. Management anticipates that the obligations outstanding at December 31, 2008 will be repaid with new financing, equity offerings and/or cash flow from operations (in thousands):

Contractual Obligations	Payments Due by Period				
	Total	Less than 1 Year	1 – 3 Years	3 – 5 Years	After 5 Years

For further detail on MDC’s long-term debt principal and interest payments, see Note 12 of the Company’s consolidated financial statements included in this Form 10-K. See also “*Deferred Acquisition and Contingent Consideration (Earnouts)*” and “*Off-Balance Sheet Commitments*” below.

Capital Resources

At December 31, 2008, the Company had utilized approximately \$144.4 million of its Financing Agreement in the form of borrowings and letters of credit. Cash and undrawn available bank credit facilities to support the Company’s future cash requirements at December 31, 2008 was approximately \$73.5 million.

The Company expects to incur approximately \$13 million of capital expenditures in 2009. Such capital expenditures are expected to include leasehold improvements, furniture and fixtures, and computer equipment at certain of the Company’s operating subsidiaries. The Company intends to maintain and expand its business using cash from operating activities, together with funds available under the Financing Agreement. Management believes that the Company’s cash flow from operations and funds available under the Financing Agreement will be sufficient to meet its ongoing working capital, capital expenditures and other cash needs

over the next eighteen months. If the Company has growth through acquisitions, management expects that the Company may need to obtain additional financing in the form of debt and/or equity financing.

Deferred Acquisition and Contingent Consideration (Earnouts)

Acquisitions of businesses by the Company may include commitments to contingent deferred purchase consideration payable to the seller. These contingent purchase obligations are generally payable within a one to three-year period following the acquisition date, and are based on achievement of certain thresholds of future earnings and, in certain cases, also based on the rate of growth of those earnings. The contingent consideration is recorded as an obligation of the Company when the contingency is resolved and the amount is reasonably determinable. At December 31, 2008, there was \$5.5 million of deferred consideration included in the Company's balance sheet. Based on the various assumptions as to future operating results of the relevant entities, management estimates that approximately \$45.6 million of additional deferred purchase obligations could be triggered during 2009 or thereafter, including approximately \$9.9 million which may be paid in the form of issuance by the Company of its Class A shares. The actual amount that the Company pays in connection with the deferred and contingent obligations may be materially different from this estimate.

Off-Balance Sheet Commitments

Put Rights of Subsidiaries' Minority Shareholders

Owners of interests in certain of the Company's subsidiaries have the right in certain circumstances to require the Company to acquire either a portion of or all of the remaining ownership interests held by them. The owners' ability to exercise any such "put option" right is subject to the satisfaction of certain conditions, including conditions requiring notice in advance of exercise. In addition, these rights cannot be exercised prior to specified staggered exercise dates. The exercise of these rights at their earliest contractual date would result in obligations of the Company to fund the related amounts during the period 2009 to 2018. It is not determinable, at this time, if or when the owners of these rights will exercise all or a portion of these rights.

The amount payable by the Company in the event such put option rights are exercised is dependent on various valuation formulas and on future events, such as the average earnings of the relevant subsidiary through that date of exercise, the growth rate of the earnings of the relevant subsidiary during that period, and, in some cases, the currency exchange rate at the date of payment.

Management estimates, assuming that the subsidiaries owned by the Company at December 31, 2008, perform over the relevant future periods at their 2008 earnings levels, that these rights, if all exercised, could require the Company, in future periods, to pay an aggregate amount of approximately \$31.7 million to the owners of such rights to acquire such ownership interests in the relevant subsidiaries. Of this amount, the Company is entitled, at its option, to fund approximately \$4.0 million by the issuance of the Company's Class A subordinate voting shares. In addition, the Company is obligated under similar put option rights to pay an aggregate amount of approximately \$6.2 million only upon termination of such owners employment with the applicable subsidiary. The Company intends to finance the cash portion of these contingent payment obligations using available cash from operations, borrowings under its Financing Agreement (and refinancings thereof) and, if necessary, through incurrence of additional debt. The ultimate amount payable and the incremental operating income in the future relating to these transactions will vary because it is dependent on the future results of operations of the subject businesses and the timing of when these rights are exercised. Approximately \$7.0 million of the estimated \$31.7 million that the Company would be required to pay subsidiaries minority shareholders' upon the exercise of outstanding "put" rights, relates to rights exercisable within the next twelve months. Upon the settlement of the total amount of such put options, the Company estimates that it would receive incremental operating income before depreciation and amortization of \$5.7 million.

The following table summarizes the potential timing of the consideration and incremental operating income before depreciation and amortization based on assumptions as described above.

Consideration ⁽³⁾	2009	2010	2011	2012	2013 & Thereafter	Total
	(\$ Millions)					
Cash	\$6.5	\$1.0	\$1.3	\$4.6	\$14.3	\$27.7

- (1) This financial measure is presented because it is the basis of the calculation used in the underlying agreements relating to the put rights and is based on actual 2008 operating results. This amount represents amounts to be received commencing in the year the put is exercised.
- (2) Cumulative operating income before depreciation and amortization represents the cumulative amounts to be received by the company.
- (3) The timing of consideration to be paid varies by contract and does not necessarily correspond to the date of the exercise of the put.
- (4) Amounts are not presented as they would not be meaningful due to multiple periods included.

Guarantees

In connection with certain dispositions of assets and/or businesses in 2001 and 2003, as well as the 2006 sale of SPI, the Company has provided customary representations and warranties whose terms range in duration and may not be explicitly defined. The Company has also retained certain liabilities for events occurring prior to sale, relating to tax, environmental, litigation and other matters. Generally, the Company has indemnified the purchasers in the event that a third party asserts a claim against the purchaser that relates to a liability retained by the Company. These types of indemnification guarantees typically extend for several years.

Historically, the Company has not made any significant indemnification payments under such agreements and no provision has been accrued in the accompanying consolidated financial statements with respect to these indemnification guarantees. The Company continues to monitor the conditions that are subject to guarantees and indemnifications to identify whether it is probable that a loss has occurred, and would recognize any such losses under any guarantees or indemnifications in the period when those losses are probable and estimable.

For guarantees and indemnifications entered into after January 1, 2003, in connection with the sale of the Company's investment in CDI and the sale of SPI, the Company has estimated the fair value of its liability to be insignificant.

Transactions with Related Parties

CEO Services Agreement

On April 27, 2007, the Company entered into a new Management Services Agreement (the "Services Agreement") with Miles Nadal and with Nadal Management, Inc. to set forth the terms and conditions on which Mr. Nadal will continue to provide services to the Company as its Chief Executive Officer. Mr. Nadal's prior services agreement with the Company was scheduled to expire on October 31, 2007, subject to two-year annual renewals. If the Company were not going to enter into a new agreement with Mr. Nadal and did not intend to allow the prior agreement to renew, it would have been required to give Mr. Nadal notice of such non-renewal by April 30, 2007.

As an incentive to enter into the Services Agreement, the Company paid a one-time non-renewal fee of \$3.5 million upon execution of the Services Agreement, which was expensed during the second quarter of 2007. Mr. Nadal used a portion of the proceeds to repay to the Company the \$2.7 million (C\$3.0 million) note receivable due on November 1, 2007 from Nadal Management, Inc. In addition, during 2007 and 2008 and in accordance with this new Services Agreement, Mr. Nadal repaid an additional \$0.5 million and \$0.1 million, respectively, of loans due to the Company.

At December 31, 2008, outstanding loans due from Nadal Management to the Company, with no stated maturity date, amounted to C\$6.3 million (\$5.1 million), which have been reserved for in the Company's accounts.

Trapeze Media

In 2000, the Company purchased 1,600,000 shares in Trapeze Media Limited ("Trapeze") for \$0.2 million. At the same time, the Company's CEO purchased 4,280,000 shares of Trapeze for \$0.6 million, the Company's former Chief Financial Officer and a Managing Director of the Company each purchased 50,000 Trapeze shares for \$7,000 and a Board Member of the Company purchased 75,000 shares of Trapeze for \$10,000. In 2001, the Company purchased an additional 1,250,000 shares for \$0.2 million, and the Company's CEO purchased 500,000 shares for \$0.1 million. In 2002, the Company's CEO purchased 3,691,930 shares of Trapeze for \$0.5 million. All of these purchases were made at identical prices (i.e., C\$0.20/unit).

During 2008, 2007 and 2006, Trapeze provided services to certain partner firms of MDC, and the total amount of such services provided was \$0.4 million, \$0.4 million, and \$0.3 million, respectively. In addition, in 2008, an MDC Partner firm provided services to Trapeze in exchange for fees equal to \$0.1 million.

The Company's Board of Directors, through its Audit Committee, has reviewed and approved these transactions.

Critical Accounting Policies

The following summary of accounting policies has been prepared to assist in better understanding the Company's consolidated financial statements and the related management discussion and analysis. Readers are encouraged to consider this information together with the Company's consolidated financial statements and the related notes to the consolidated financial statements as included in the Company's annual report on Form 10-K for a more complete understanding of accounting policies discussed below.

Estimates. The preparation of the Company's financial statements in conformity with generally accepted accounting principles in the United States of America, or "GAAP", requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities including goodwill, intangible assets, valuation allowances for receivables and deferred income tax assets and stock based compensation. The statements are evaluated on an ongoing basis and estimates are based on historical experience, current conditions and various other assumptions believed to be reasonable under the circumstances. Actual results can differ from those estimates, and it is possible that the differences could be material.

Revenue Recognition

The Company's revenue recognition policies are in compliance with the SEC Staff Accounting Bulletin 104, "Revenue Recognition" ("SAB 104"), and accordingly, revenue is generally recognized when services are earned or upon delivery of the products when ownership and risk of loss has transferred to the customer, the selling price is fixed or determinable and collection of the resulting receivable is reasonably assured.

The Company earns revenue from agency arrangements in the form of retainer fees or commissions; from short-term project arrangements in the form of fixed fees or per diem fees for services; and from incentives or bonuses.

Non-refundable retainer fees are generally recognized on a straight-line basis over the term of the specific customer contract. Commission revenue is earned and recognized upon the placement of advertisements in various media when the Company has no further performance obligations. Fixed fees for services are recognized upon completion of the earnings process and acceptance by the client. Per diem fees are recognized upon the performance of the Company's services. In addition, for certain service transactions, which require

delivery of a number of service acts, the Company uses the Proportional Performance model, which generally results in revenue being recognized based on the straight-line method due to the acts being non-similar and there being insufficient evidence of fair value for each service provided.

Fees billed to clients in excess of fees recognized as revenue are classified as advance billings.

A small portion of the Company's contractual arrangements with clients includes performance incentive provisions, which allow the Company to earn additional revenues as a result of its performance relative to both quantitative and qualitative goals. The Company recognizes the incentive portion of revenue under these arrangements when specific quantitative goals are achieved, or when the Company's clients determine performance against qualitative goals has been achieved. In all circumstances, revenue is only recognized when collection is reasonably assured.

The Company follows EITF No. 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent" ("EITF 99-19"). This Issue summarized the EITF's views on when revenue should be recorded at the gross amount billed because revenue has been earned from the sale of goods or services, or the net amount retained because a fee or commission has been earned. The Company's business at times acts as an agent and records revenue equal to the net amount retained, when the fee or commission is earned. The Company also follows EITF No. 01-14 for reimbursements received for out-of-pocket expenses. This issue summarized the EITF's views that reimbursements received for out-of-pocket expenses incurred should be characterized in the income statement as revenue. Accordingly, the Company has included in revenue such reimbursed expenses.

Acquisitions, Goodwill and Other Intangibles. A fair value approach is used in testing goodwill for impairment under SFAS 142 to determine if an other than temporary impairment has occurred. One approach utilized to determine fair values is a discounted cash flow methodology. When available and as appropriate, comparative market multiples are used. Numerous estimates and assumptions necessarily have to be made when completing a discounted cash flow valuation, including estimates and assumptions regarding interest rates, appropriate discount rates and capital structure. Additionally, estimates must be made regarding revenue growth, operating margins, tax rates, working capital requirements and capital expenditures. Estimates and assumptions also need to be made when determining the appropriate comparative market multiples to be used. Actual results of operations, cash flows and other factors used in a discounted cash flow valuation will likely differ from the estimates used and it is possible that differences and changes could be material.

The Company has historically made and expects to continue to make selective acquisitions of marketing communications businesses. In making acquisitions, the price paid is determined by various factors, including service offerings, competitive position, reputation and geographic coverage, as well as prior experience and judgment. Due to the nature of advertising, marketing and corporate communications services companies; the companies acquired frequently have significant identifiable intangible assets, which primarily consist of customer relationships. The Company has determined that certain intangibles (trademarks) have an indefinite life, as there are no legal, regulatory, contractual, or economic factors that limit the useful life.

A summary of the Company's deferred acquisition consideration obligations, sometimes referred to as earnouts, and obligations under put rights of subsidiaries' minority shareholders to purchase additional interests in certain subsidiary and affiliate companies is set forth in the "Liquidity and Capital Resources" section of this report. The deferred acquisition consideration obligations and obligations to purchase additional interests in certain subsidiary and affiliate companies are primarily based on future performance. Contingent purchase price obligations are accrued, in accordance with GAAP, when the contingency is resolved and payment is determinable.

Allowance for Doubtful Accounts. Trade receivables are stated less allowance for doubtful accounts. The allowance represents estimated uncollectible receivables usually due to customers' potential insolvency. The allowance includes amounts for certain customers where risk of default has been specifically identified.

Income Tax Valuation Allowance. The Company records a valuation allowance against deferred income tax assets when management believes it is more likely than not that some portion or all of the deferred income tax assets will not be realized. Management considers factors such as the reversal of deferred income tax liabilities, projected future taxable income, the character of the income tax asset, tax planning strategies, changes in tax laws and other factors. A change to any of these factors could impact the estimated valuation allowance and income tax expense.

Stock-based Compensation

The fair value method is applied to all awards granted, modified or settled on or after January 1, 2003. Under the fair value method, compensation cost is measured at fair value at the date of grant and is expensed over the service period, that is the award's vesting period. When awards are exercised, share capital is credited by the sum of the consideration paid together with the related portion previously credited to additional paid-in capital when compensation costs were charged against income or acquisition consideration. Stock-based awards that are settled in cash or may be settled in cash at the option of employees are recorded as liabilities. The measurement of the liability and compensation cost for these awards is based on the fair value of the award, and is recorded into operating income over the service period, that is the vesting period of the award. Changes in the Company's payment obligation are revalued each period and recorded as compensation cost over the service period in operating income.

Effective January 1, 2006, the Company adopted SFAS 123(R) and has opted to use the modified prospective application transition method. Under this method the Company will not restate its prior financial statements. Instead, the Company will apply SFAS 123(R) for new awards granted or modified after the adoption of SFAS 123(R), any portion of awards that were granted after December 15, 1994 and have not vested as of January 1, 2006, and any outstanding liability awards.

New Accounting Pronouncements

The following recent pronouncements were issued by the Financial Accounting Standards Board ("FASB"):

In February 2007, FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159"). This statement permits entities to choose to measure many financial instruments and certain other items at fair value. This statement expands the use of fair value measurement and applies to entities that elect the fair value option. The fair value option established by this Statement permits all entities to choose to measure eligible items at fair value at specified election dates. SFAS 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The adoption of this statement did not have a material effect on our financial statements.

In September 2006, FASB issued SFAS No. 157, "Fair Value Measurements". This statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This statement is effective for all fiscal year beginning after November 15, 2007 and interim periods within those fiscal years. Earlier application is encouraged. The adoption of this statement did not have a material effect on our financial statements.

Effective in Future Periods

In December 2007, FASB issued SFAS No. 141R "Business Combination" ("SFAS 141R"). This revised statement retains some fundamental concepts of the current standard, including the acquisition method of accounting (known as the "purchase method" in Statement 141) for all business combinations but SFAS 141R broadens the definitions of both businesses and business combinations, resulting in the acquisition method applying to more events and transactions. This statement also requires the acquirer to recognize the identifiable assets and liabilities, as well as the noncontrolling interest in the acquiree, at the full amounts of their fair values. SFAS 141R will require both acquisition-related costs and restructuring costs to be recognized separately from the acquisition and be expensed as incurred. In addition, acquirers will record contingent consideration at fair value on the acquisition date as either a liability or equity. Subsequent changes in fair value will be recognized in the income statement for any contingent consideration recorded as a liability. SFAS 141R is to be applied prospectively for financial statements issued for fiscal years beginning on or after December 15, 2008. Early application is prohibited.

In December 2007, FASB issued SFAS No. 160 “Non-controlling Interests in Consolidated Financial Statements” (“SFAS 160”). This statement amends ARB No. 51 Consolidated Financial Statements, to now require the classification of noncontrolling (minority) interests and dispositions of noncontrolling interests as equity within the consolidated financial statements. The income statement will now be required to show net income/loss with and without adjustments for noncontrolling interests. SFAS 160 is to be applied prospectively for financial statements issued for fiscal years beginning on or after December 15, 2008 and interim periods within those years. However, this statement requires companies to apply the presentation and disclosure requirements retrospectively to comparative financial statements. Early application is prohibited. The Company is currently evaluating the impact of this new statement on its financial statements. However, in accordance with the adoption of this statement, the Company will record the put options (see Off-Balance Sheet Commitments) as an adjustment to non-controlling interests with a corresponding adjustment to additional paid-in capital. In addition, in the statement of operations minority interests in income of consolidated subsidiaries will be reclassified.

In March 2008, the FASB issued SFAS No. 161, “Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133” (“SFAS 161”), which requires enhanced disclosures for derivative and hedging activities. SFAS 161 will become effective beginning with our first quarter of 2009. Early adoption is permitted. We are currently evaluating the impact of this standard on our Consolidated Financial Statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to market risk related to interest rates and foreign currencies.

Debt Instruments: At December 31, 2008, the Company’s debt obligations consisted of amounts outstanding under its Financing Agreement. This facility bears interest at variable rates based upon the Eurodollar rate, US bank prime rate and, US base rate, at the Company’s option. The Company’s ability to obtain the required bank syndication commitments depends in part on conditions in the bank market at the time of syndication. Given the existing level of debt of \$139.7 million, as of December 31, 2008, a 1.0% increase or decrease in the weighted average interest rate, which was 7.59% at December 31, 2008, would have an interest expense impact of approximately \$1.4 million annually.

Foreign Exchange: The Company conducts business in five currencies, the US dollar, the Canadian dollar, Jamaican dollar, the Mexican Peso and the British Pound. Our results of operations are subject to risk from the translation to the US dollar of the revenue and expenses of our non-US operations. The effects of currency exchange rate fluctuations on the translation of our results of operations are discussed in the “Management’s Discussion and Analysis of Financial Condition and Result of Operations” and in Note 2 of our consolidated financial statements. For the most part, our revenues and expenses incurred related to our non-US operations are denominated in their functional currency. This minimizes the impact that fluctuations in exchange rates will have on profit margins. The Company generally does not enter into foreign currency forward exchange contracts or other derivative financial instruments to hedge the effects of adverse fluctuations in foreign currency exchange rates.

The Company is exposed to foreign currency fluctuations relating to its intercompany balances between the US and Canada. For every one cent change in the foreign exchange rate between the US and Canada, the Company will incur an approximate \$0.5 million impact to its financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders
MDC Partners, Inc.
New York, New York

We have audited the accompanying consolidated balance sheets of MDC Partners, Inc. and subsidiaries as of December 31, 2008 and 2007 and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of MDC Partners, Inc. and subsidiaries at December 31, 2008 and 2007, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), MDC Partners, Inc. and subsidiaries' internal control over financial reporting as of December 31, 2008, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and our report dated March 6, 2009 expressed an unqualified opinion thereon.

MDC PARTNERS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Thousands of United States Dollars, Unless Otherwise Stated Except Share and per Share Amounts)

1. Basis of Presentation

MDC Partners Inc. (the “Company”) has prepared the consolidated financial statements included herein pursuant to the rules and regulations of the United States Securities and Exchange Commission (the “SEC”) and in accordance with generally accepted accounting principles (“GAAP”) of the United States of America (“US GAAP”).

Nature of Operations

MDC Partners Inc., formerly MDC Corporation Inc., is incorporated under the laws of Canada. The Company commenced using the name MDC Partners Inc. on November 1, 2003 and legally changed its name through amalgamation with a wholly-owned subsidiary on January 1, 2004. The Company’s operations are in primarily one business group — Marketing Communications. The business group operates primarily in the United States (“US”), Canada and in the United Kingdom. See Note 15, “Segment Information”, for further description of the one business group and MDC’s reportable segments.

2. Significant Accounting Policies

The Company’s significant accounting policies are summarized as follows:

Principles of Consolidation. The accompanying consolidated financial statements include the accounts of MDC Partners Inc. its domestic and international controlled subsidiaries. Intercompany balances and transactions have been eliminated on consolidation.

Use of Estimates. The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities including goodwill, intangible assets, valuation allowances for receivables and deferred tax assets and the reported amounts of revenue and expenses during the reporting period. The estimates are evaluated on an ongoing basis and estimates are based on historical experience, current conditions and various other assumptions believed to be reasonable under the circumstances. Actual results could differ from those estimates.

Fair Value of Financial Instruments. Effective January 1, 2008, the Company adopted SFAS No. 157, “Fair Value Measurements” (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosure requirements about fair value measurements. In accordance with FASB Staff Position FAS 157-2, “Effective Date of FASB Statement No. 157” (FSP 157-2), we will defer the adoption of SFAS 157 for our nonfinancial assets and nonfinancial liabilities except those items recognized or disclosed at fair value on an annual or more frequent recurring basis, until January 1, 2009. The adoption of SFAS 157 did not have a material impact on our fair value measurements.

Concentration of Credit Risk. The Company provides marketing communications services to clients who operate in most industry sectors. Credit is granted to qualified clients in the ordinary course of business. Due to the diversified nature of the Company’s client base, the Company does not believe that it is exposed to a concentration of credit risk; however, one client accounted for approximately 17% of the Company’s consolidated accounts receivable as of December 31, 2008. This client also accounted for 19%, 17% and 16% of revenue for the years ended December 31, 2008, 2007 and 2006, respectively.

Cash and Cash Equivalents. The Company’s cash equivalents are primarily comprised of investments in overnight interest-bearing deposits, commercial paper and money market instruments and other short-term investments with original maturity dates of three months or less at the time of purchase. The Company has a concentration of credit risk in that there are cash deposits in excess of federally insured amounts. Included in cash and cash equivalents at December 31, 2008 and 2007 is \$51 and \$63, respectively of cash restricted as to withdrawal pursuant to a collateral agreement and a customer’s contractual requirement.

2. Significant Accounting Policies – (continued)

Allowance for Doubtful Accounts. Trade receivables are stated at invoiced amounts less allowances for doubtful accounts. The allowances represent estimated uncollectible receivables associated with potential customer defaults usually due to customers' potential insolvency. The allowances include amounts for certain customers where a risk of default has been specifically identified. The assessment of the likelihood of customer defaults is based on various factors, including the length of time the receivables are past due, historical experience and existing economic conditions.

Expenditures Billable to Clients. Expenditures billable to clients consist principally of outside vendors costs incurred on behalf of clients when providing advertising, marketing and corporate communications services to clients that have not been invoiced. Such amounts are invoiced to clients at various times over the course of the production process.

Fixed Assets. Fixed assets are stated at cost, net of accumulated depreciation. Buildings are depreciated on a declining balance basis over the estimated useful lives of 20 to 25 years. Computers, furniture and fixtures are depreciated on a straight-line basis over periods of 3 to 7 years. Machinery and equipment are depreciated on a straight-line basis over periods of 3 to 10 years. Leasehold improvements are depreciated on a straight-line basis over the lesser of the term of the related lease or the estimated useful life of the asset. Repairs and maintenance costs are expensed as incurred.

Impairment of Long-lived Assets. In accordance with SFAS, No. 144, "Accounting for the Impairment or Disposal of Long-lived Assets," ("SFAS No. 144") a long-lived asset or asset group is tested for recoverability whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. When such events occur, the Company compares the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset or asset group to the carrying amount of the long-lived asset or asset group. If this comparison indicates that there is an impairment, the amount of the impairment is typically calculated using discounted expected future cash flows where observable fair values are not readily determinable. The discount rate applied to these cash flows is based on the Company's weighted average cost of capital, risk adjusted where appropriate.

Equity Method Investments. The equity method is used to account for investments in entities in which the Company has an ownership interest of less than 50.1% and has significant influence, or joint control by contractual arrangement with all parties having an equity interest, over the operating and financial policies of the affiliate or has an ownership interest of greater than 50% however the substantive participating rights of the minority interest shareholders preclude the Company from exercising unilateral control over the operating and financial policies of the affiliate. The Company's investments accounted for using the equity method includes Adrenalina, 49.9% owned by the Company, and a 50% undivided interest in a real estate joint venture. The Company's management periodically evaluates these investments to determine if there has been a decline in value that is other than temporary.

Cost Method Investments. The Company's cost-based investments at December 31, 2008 were primarily comprised of various interests in limited partnerships and companies where the Company does not exercise significant influence over the operating and financial policies of the investee. The total net cost basis of these investments, which are included in Other Assets on the balance sheet, as of December 31, 2008 and 2007 was \$3,387 and \$3,783, respectively. These investments are periodically evaluated to determine if there have been any other than temporary declines below book value. A variety of factors are considered when determining if a decline in fair value below book value is other than temporary, including, among others, the financial condition and prospects of the investee, as well as the Company's investment intent. In addition, the Company has a 7.5% interest in the entity which purchased the Secured Products International Group. See Note 10.

Goodwill and Indefinite Lived Intangibles. In accordance with SFAS No. 142, "Goodwill and Other Intangible Assets" ("SFAS No 142"), goodwill and indefinite life intangible assets (trademarks) acquired as a result of a business combination which are not subject to amortization are tested for impairment annually, and

more frequently if events and circumstances indicate that the asset might be impaired. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value. For goodwill, this determination is made at the reporting unit level and consists of two steps. First, the Company determines the fair value of a reporting unit and compares it to its carrying amount. Fair value is determined based on earnings multiples of each subsidiary. Second, if the carrying amount of a reporting unit exceeds its fair value, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation, in accordance with SFAS No. 141, "Business Combinations". The residual fair value after this allocation is the implied fair value of the reporting unit goodwill. Impairment losses, where applicable, will be charged to operating profit. The Company identifies certain intangible assets (trademarks) as indefinite life if there are no legal, regulatory, contractual or economic factors that limit the useful life. If the carrying amount of an indefinite life intangible exceeds its fair value, an impairment loss is recognized for the excess. As of December 31, 2008, there was no impairment of goodwill.

Definite Lived Intangible Assets. In accordance with SFAS No. 142, acquired intangibles, are subject to amortization over their useful lives. The method of amortization selected reflects the pattern in which the economic benefits of the specific intangible asset is consumed or otherwise used up. If that pattern cannot be reliably determined, a straight-line amortization method is used over the estimated useful life. Intangible assets that are subject to amortization are reviewed for potential impairment in accordance with SFAS 144 at least annually or whenever events or circumstances indicate that carrying amounts may not be recoverable. See also Note 8.

Deferred Taxes. The Company uses the asset and liability method of accounting for income taxes. Deferred income taxes are provided for the temporary difference between the financial reporting basis and tax basis of the Company's assets and liabilities. Deferred tax benefits result principally from certain tax carryover benefits and from recording certain expenses in the financial statements that are not currently deductible for tax purposes and from differences between the tax and book basis of assets and liabilities recorded in connection with acquisitions. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax liabilities result principally from deductions recorded for tax purposes in excess of that recorded in the financial statements. The effect of changes in tax rates is recognized in the period the rate change is enacted.

Minority Interest. The Company accounts for minority interest in two accounts, long term minority interest and short term minority interest. Long term minority interest represents the minority holders share of equity in the related subsidiaries that is not expected to be distributed in the near term. Short term minority interest represents the minority holders share of current year profits that are expected to be distributed within the next twelve months.

Guarantees. Guarantees issued or modified by the Company to third parties after January 1, 2003 are generally recognized, at the inception or modification of a guarantee, as a liability for the obligations it has undertaken in issuing the guarantee, including its ongoing obligation to stand ready to perform over the term of the guarantee in the event that the specified triggering events or conditions occur. The initial measurement of that liability is the fair value of the guarantee. The recognition of the liability is required even if it is not probable that payments will be required under the guarantee. The Company's liability associated with guarantees is not significant. (See Note 17)

2. Significant Accounting Policies – (continued)

Revenue Recognition

The Company's revenue recognition policies are in compliance with the SEC Staff Accounting Bulletin 104, "Revenue Recognition" ("SAB 104"), and accordingly, revenue is generally recognized as services are provided or upon delivery of the products when ownership and risk of loss has transferred to the customer, the selling price is fixed or determinable and collection of the resulting receivable is reasonably assured.

In November 2002, EITF Issue No. 00-21, "Revenue Arrangements with Multiple Deliverables" ("EITF 00-21") was issued. EITF 00-21 addresses certain aspects of the accounting by a vendor for arrangements under which it will perform multiple revenue-generating activities and how to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting. EITF 00-21 is effective for revenue arrangements entered into in fiscal periods beginning after June 15, 2003. Also, in July 2000, the EITF of the Financial Accounting Standards Board released Issue No. 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent" ("EITF 99-19"). This Issue summarized the EITF's views on when revenue should be recorded at the gross amount billed because it has earned revenue from the sale of goods or services, or the net amount retained because it has earned a fee or commission. The Company also follows EITF No. 01-14, "Income Statement Characterization of Reimbursements Received for Out-of-Pocket Expenses Incurred", for reimbursements received for out-of-pocket expenses. This issue summarized the EITF's views that reimbursements received for out-of-pocket expenses incurred should be characterized in the income statement as revenue. Accordingly, the Company has included in revenue such reimbursed expenses.

The Company earns revenue from agency arrangements in the form of retainer fees or commissions; from short-term project arrangements in the form of fixed fees or per diem fees for services; and from incentives or bonuses.

Non refundable retainer fees are generally recognized on a straight line basis over the term of the specific customer contract. Commission revenue is earned and recognized upon the placement of advertisements in various media when the Company has no further performance obligations. Fixed fees for services are recognized upon completion of the earnings process and acceptance by the client. Per diem fees are recognized upon the performance of the Company's services. In addition, for certain service transactions, which require delivery of a number of service acts, the Company uses the Proportional Performance model, which generally results in revenue being recognized based on the straight-line method due to the acts being non-similar and there being insufficient evidence of fair value for each service provided.

Fees billed to clients in excess of fees recognized as revenue are classified as Advanced Billings.

A small portion of the Company's contractual arrangements with customers includes performance incentive provisions, which allows the Company to earn additional revenues as a result of its performance relative to both quantitative and qualitative goals. The Company recognizes the incentive portion of revenue under these arrangements when specific quantitative goals are achieved, or when the company's clients determine performance against qualitative goals has been achieved. In all circumstances, revenue is only recognized when collection is reasonably assured. The Company records revenue net of sales and other taxes due to be collected and remitted to governmental authorities.

Cost of Services Sold. Costs of services sold do not include depreciation charges for related fixed assets.

Stock-Based Compensation

Under the fair value method, compensation cost is measured at fair value at the date of grant and is expensed over the service period, that is the award's vesting period. When awards are exercised, share capital is credited by the sum of the consideration paid together with the related portion previously credited to additional paid-in capital when compensation costs were charged against income or acquisition consideration. The

Company uses its historical volatility derived over the expected term of the award, to determine the volatility factor used in determining the fair value of the award. The Company uses the “simplified” method to determine the term of the award.

Stock-based awards that are settled in cash or may be settled in cash at the option of employees are recorded as liabilities. The measurement of the liability and compensation cost for these awards is based on the fair value of the award, and is recorded into operating income over the service period, that is the vesting period of the award. Changes in the Company’s payment obligation prior to the settlement date are recorded as compensation cost in operating profit in the period of the change. The final payment amount for such awards is established on the date of the exercise of the award by the employee.

Stock-based awards that are settled in cash or equity at the option of the Company are recorded at fair value on the date of grant and recorded as additional paid-in capital. The fair value measurement of the compensation cost for these awards is based on using the Black-Scholes option pricing-model and is recorded in operating income over the service period, that is the vesting period of the award.

The fair value of the stock options and similar awards at the grant date were estimated using the Black-Scholes option-pricing model with the following weighted average assumptions for each of the following years:

	Years Ended December 31,	
	2007	2006
Expected dividend	\$0	\$0
Expected volatility	65.6% – 66.7%	32.2% – 40%
Risk-free interest rate	4.95% – 5.0%	4.57% – 4.95%
Expected option life in years	7.5	5.75 – 7
Weighted average fair value of options granted	\$5.75	\$4.50

For the year ended December 31, 2008, the Company did not issue any stock options or similar awards.

Effective January 1, 2006, the Company adopted SFAS 123(R) and has opted to use the modified prospective application transition method. Under this method the Company has not restated its prior financial statements. Instead, the Company applies SFAS 123(R) for new awards granted or modified after the adoption of SFAS 123(R), any portion of awards that were granted after December 15, 1994 and have not vested as of January 1, 2006, and any outstanding liability awards. It is the Company’s policy for issuing shares upon the exercise of an equity incentive award to verify the amount of shares to be issued, as well as the amount of proceeds to be collected (if any) and delivery of new shares to the exercising party.

Measurement of compensation cost for awards that are outstanding and classified as equity, at January 1, 2006, will be based on the original grant-date fair value calculations of those awards. The Company had previously adopted SFAS 123 and as such has been expensing the fair value of all awards issued after January 1, 2003. For all previously issued awards, the Company has been providing pro-forma disclosure for such awards. Upon the adoption of SFAS 123(R), the Company expenses the fair value of the awards granted prior to January 1, 2003. The Company has adopted the straight-line attribution method for determining the compensation cost to be recorded during each accounting period. However, awards based on performance conditions are recorded as compensation expense when the performance conditions are expected to be met. The adoption of SFAS 123(R) did not have a material effect on the Company’s financial position or results of operations.

Pension Costs. Several of the Company's US and Canadian subsidiaries offer employees access to certain defined contribution pension programs. Under the defined contribution plans, these subsidiaries, in some cases, make annual contributions to participants' accounts which are subject to vesting. The Company's contribution expense pursuant to these plans was \$2,736, \$2,238 and \$1,476 for the years ended December 31, 2008, 2007 and 2006, respectively.

Earnings per Common Share. Basic earnings per share is based upon the weighted average number of common shares outstanding during each period, including the "Share capital to be issued" as reflected in the Shareholders' Equity on the balance sheet. Diluted earnings per share is based on the above, plus, if dilutive, common share equivalents, which include outstanding options, warrants, stock appreciation rights, restricted stock units and convertible notes.

Sale of Subsidiary Interests. The Company records dilution gains and losses on sales of certain subsidiary interests as a component of the statement operations as other income (expense).

Foreign Currency Translation. The Company's financial statements were prepared in accordance with the requirements of SFAS No. 52, "Foreign Currency Translation" ("SFAS 52"). The functional currency of the Company is the Canadian dollar and it has decided to use US dollars as its reporting currency for consolidated reporting purposes. All of the Company's subsidiaries use their local currency as their functional currency in accordance with SFAS 52. Accordingly, the currency impacts of the translation of the balance sheets of the Company's non-US dollar based subsidiaries to US dollar statements are included as cumulative translation adjustments in accumulated other comprehensive income. Cumulative translation adjustments are not included in net earnings unless they are actually realized through a sale or upon complete or substantially complete liquidation of the Company's net investment in the foreign operation. The balance sheets of non-US dollar based subsidiaries are translated at the period end rate. The income statements of non-US dollar based subsidiaries are translated at average exchange rates for the period.

Gains and losses arising from the Company's foreign currency transactions are reflected in net earnings. Unrealized gains or losses arising on the translation of certain intercompany foreign currency transactions that are of a long-term nature (that is settlement is not planned or anticipated in the future) are included as cumulative translation adjustments in accumulated other comprehensive income.

Derivative Financial Instruments. The Company follows SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133"). SFAS 133 establishes accounting and reporting standards requiring that every derivative instrument (including certain derivative instruments embedded in other contracts and debt instruments) be recorded in the balance sheet as either an asset or liability measured at its fair value. The accounting for the change in fair value of the derivative depends on whether the instrument qualifies for and has been designated as a hedging relationship and on the type of hedging relationship. There are three types of hedging relationships: a cash flow hedge, a fair value hedge and a hedge of foreign currency exposure of a net investment in a foreign operation. The designation is based upon the exposure being hedged. Derivatives that are not hedges, or become ineffective hedges, must be adjusted to fair value through earnings.

Effective June 28, 2005, the Company entered into a cross currency swap contract ("Swap"), a form of derivative. The Swap contract provides for a notional amount of debt fixed at \$45,000 Canadian dollars ("C\$") and at \$36,452, with the interest rates fixed at 8% per annum for the Canadian dollar amount and fixed at 8.25% per annum for the US dollar amount. Consequently, under the terms of this Swap, semi-annually, the Company will receive interest of C\$1,800 and will pay interest of \$1,503 per annum. On June 22, 2006, the Company settled this swap for its fair value of \$357, which resulted in a gain of \$192 for the year ended December 31, 2006 and is included in other income.

Put Options. The minority interest shareholders of certain subsidiaries have the right to require the Company to acquire their ownership interest under certain circumstances pursuant to a contractual arrangement and the Company has similar call options under the same contractual terms. The amount of consideration under the put and call rights is not a fixed amount, but rather is dependent upon various valuation formulas and on future events, such as the average earnings of the relevant subsidiary through the date of exercise, the growth rate of the earnings of the relevant subsidiary through the date of exercise, etc. as described in Note 17.

The Company accounts for the put options with a charge to minority interest expense to reflect the excess, if any, of the estimated exercise price over the estimated fair value of the minority shares at the date of the option being exercised. No recognition is given to any increase in value of the put option if the estimated exercise price is less than the estimated fair value of the minority interest shares. The estimated exercise price is determined based on defined criteria pursuant to each arrangement. The commitment is calculated at each reporting period based on the earliest contractual exercise date. The estimated fair value of the minority interest shares is based on an overall value determined by a multiple of historical and projected future earnings.

4. Acquisitions

2008 Acquisitions

Effective December 31, 2008, the Company acquired an additional 6.3% of equity interests in Accent Marketing LLC, increasing the Company's ownership to 100%. The aggregate purchase price totaled \$4,830 and was paid in cash of \$995 at closing and repayment of outstanding loans of \$1,830. The balance aggregate of \$2,005 will be paid in 2009 and has been recorded in deferred acquisition consideration. In addition, an additional contingent performance payment may be paid based on Accent's financial results in 2009. The allocation of the excess purchase consideration of these step acquisitions to the fair value of the net assets acquired resulted in identifiable intangibles of \$1,900 (consisting of customer lists), goodwill of \$365 and a stock based compensation charge of \$2,285, relating to the amount paid in excess of the fair value of the equity purchase. The identified intangibles will be amortized over a seven year period in a manner represented by the pattern in which the economic benefits of the customer contracts/relationships are realized. The intangibles, goodwill and stock based compensation charge are tax deductible.

Effective December 1, 2008, the Company acquired an additional 3% of equity interests in Source Marketing LLC, increasing the Company's ownership to 83%. The purchase price totaled \$1,286 and was paid in cash less \$42 of outstanding loans. The allocation of the excess purchase consideration of this step acquisition to the fair value of the net assets acquired resulted in identifiable intangibles of \$300 (consisting of customer lists), goodwill of \$504 and a stock based compensation charge of \$524, relating to the amount paid in excess of the fair value of the equity purchase. The identified intangibles will be amortized over a five year period in a manner represented by the pattern in which the economic benefits of the customer contracts/relationships are realized. The intangibles, goodwill and stock based compensation charge are tax deductible.

On November 24, 2008, the Company agreed to make an early payment to KBP Management Partners LLC of the contingent payment originally due in 2009 pursuant to the purchase agreement entered into in November 2007. The additional payment totaled \$16,005, of which \$14,124 was paid in cash in November 2008 and \$1,881 will be paid in 2009. The 2009 payment is included in deferred acquisition consideration. This additional payment was accounted for as additional goodwill. In addition, pursuant to an existing phantom stock arrangement a stock based compensation charge of \$3,548 has been recorded for amounts paid to the phantom equity holders. The goodwill is tax deductible.

Effective November 10, 2008, the Company acquired an additional 17% of equity interests in Crispin Porter & Bogusky LLC ("CPB"), increasing the Company's ownership to 94%. The purchase price totaled \$6,823 plus a contingent payment in April of 2010 based on the financial performance of 2009. This contingent payment will be calculated in accordance with CPB's existing limited liability company agreement. The consideration was paid in cash of \$6,430 and the issuance of 105,000 newly-issued shares of the Company's Class A subordinated voting stock valued at \$393. For accounting purposes, the value of the Company's Class A shares issued as consideration was calculated based on the price of the Company's Class A shares over a period of two days before and after the November 10, 2008 announcement date. This acquisition represented an accelerated exercise of the Company's existing call option that was otherwise exercisable in April 2010. The allocation of the excess purchase consideration of this acquisition to the fair value of the net assets acquired resulted in \$5,008 being allocated to identifiable intangibles, existing backlog. This intangible will be amortized over 14.5 month period. This intangible is tax deductible.

Effective October 10, 2008, MDC acquired an additional 8.56% of Zig Inc and an additional 13.17% of an affiliate of Zig Inc for cash of \$1,320. These transactions increased the Company's equity ownership in Zig Inc to 74.07%. The allocation of the excess purchase consideration of these step acquisitions to the fair value of the net assets acquired resulted in identifiable intangibles of \$176 (consisting of customer lists and existing backlog) and goodwill of \$1,196. The identified intangibles will be amortized over 30 months in a manner represented by the pattern in which the economic benefits of the customer contracts/relationships are realized. The tax deductible portion of these transactions amounts to \$253.

4. Acquisitions – (continued)

On June 16, 2008, CPB, acquired certain assets and assumed certain liabilities of Texture Media, Inc. Texture Media is a digital agency specializing in website development, and is based in Boulder, Colorado with approximately 50 employees. The purchase price consisted of \$2,500 in cash and a non-contingent cash payment of \$1,040 in one year, which is included in deferred acquisition consideration. The allocation of the excess purchase consideration of this acquisition to the fair value of the net assets acquired resulted in identifiable intangibles of \$150 (consisting of customer lists and covenants not to compete) and goodwill of \$3,111. The identified intangibles will be amortized up to a two year period in a manner represented by the pattern in which the economic benefits of the customer contracts/relationship are realized. The intangibles and goodwill are tax deductible.

On February 12, 2008, the Company's Bratskeir subsidiary purchased the net assets of Clifford PR for \$2,050 in cash and the issuance of 30,444 newly issued shares of the Company's Class A stock valued at \$249, plus a 10% membership interest in Clifford/Bratskeir. For accounting purposes, the value of the Company's Class A shares issued as consideration was calculated based on the price of the Company's Class A shares on the date of the acquisition. The accounting value of the 10% membership interest in Clifford/Bratskeir was valued at \$400. The allocation of the excess purchase consideration of this acquisition to the fair value of the net assets acquired resulted in identifiable intangibles of \$1,031 (consisting of customer lists, backlog and covenants not to compete) and goodwill of \$1,432. The identified intangibles will be amortized over a period of up to five years in a manner represented by the pattern in which the economic benefits of the customer contracts/relationship are realized. Effective December 31, 2008, the Company transferred the ownership of the Clifford PR assets to HL Group Partners, LLC. As part of this transfer, the Company issued 45,000 Class A Shares valued at \$137 which have been recorded as stock based compensation expense. In connection with that transaction, the Company purchased the 10% membership interest in Clifford/Bratskeir for \$400 less an adjustment for working capital of \$88. This net amount will be paid over a three-year period and is included in deferred acquisition consideration. The intangibles and goodwill are tax deductible.

In January 2008, the Company's 62% owned subsidiary, Zyman Group, purchased certain assets of Core Strategy Group and DMG Inc. The aggregate purchase price paid at closing consisted of \$1,000 paid in cash and the issuance of 126,478 newly issued shares of the Company's Class A stock valued at \$1,110. In addition, the principals of Core Strategy Group and DMG received 1,000,000 newly-issued Restricted Class C units of Zyman Group, which will entitle them to a profit interest of 15% of Zyman Group's pre-tax income in excess of a specified threshold amount. For accounting purposes, the value of the Company's Class A shares issued as consideration was calculated based on the price of the Company's Class A share on the date of the acquisitions. The accounting value of the Restricted Class C units of Zyman Group was determined based on a Black-Scholes value of \$1,001. The allocation of the excess purchase consideration of these acquisitions to the fair value of the net assets acquired resulted in identifiable intangibles of \$497 (consisting of customer lists and covenants not to compete) and goodwill of \$2,626. The identified intangibles will be amortized up to a five year period in a manner represented by the pattern in which the economic benefits of the customer contracts/relationship are realized. The intangibles and goodwill are tax deductible.

Throughout 2008, the Company completed 16 equity acquisitions with various shareholders of Allard Johnson Communications Inc. ("Allard"). The aggregate purchase price for the 16 transactions was cash equal to \$3,442. These transactions increased the Company's equity ownership in Allard to 75.06%, an increase of 14.8%. The allocation of the excess purchase consideration of these step acquisitions to the fair value of the net assets acquired resulted in identifiable intangibles of \$247 (consisting of customer lists and existing backlog), goodwill of \$2,752 and a stock based compensation charge of \$467, relating to amounts paid in excess of the fair value of the equity purchased. The identified intangibles will be amortized over a five year period in a manner represented by the pattern in which the economic benefits of the customer contracts/relationship are realized. The intangible and goodwill are not tax deductible.

4. Acquisitions – (continued)

2007 Acquisitions

On November 1, 2007, the Company acquired an additional 28% of Crispin Porter & Bogusky LLC, (“CPB”) from certain minority holders resulting in the Company’s current ownership of 77%. The purchase price consisted of a payment of approximately \$22,561 in cash and the issuance of 514,025 newly-issued shares of the Company’s Class A subordinated voting stock valued at approximately \$5,546. For accounting purposes, the value of the Company’s Class A shares issued as consideration was calculated based on the price of the Company’s Class A shares over a period two days before and after the November 1, 2007 announcement date. This acquisition represented an accelerated exercise of the Company’s existing call option that was otherwise exercisable in December 2007 and in April 2008. Prior to the transaction, the Company consolidated CPB as a Variable Interest Entity (“VIE”). As a result of this step acquisition, the Company now consolidates CPB as a majority owned subsidiary. The allocation of the excess purchase consideration of this acquisition to the fair value of net assets acquired resulted in 100% or \$4,637 of the excess consideration being allocated to identifiable intangible assets. Approximately \$2,000 represented customer backlog and is being amortized over a five month period and the balance of \$2,637 represents customer relationships and will be amortized over a five year period in a manner represented by the pattern in which the economic benefits of the customer contractual relationships are realized. These intangibles are tax deductible in future years as well as \$23,471 of intangibles which have been previously recorded in connection with the VIE accounting.

On October 18, 2007, the Company acquired the remaining 40% equity interest in KBP Holdings LLC, (“KBP”) from KBP Management Partners LLC (“Minority Holder”). The purchase price consisted of an initial payment of approximately \$12,255 in cash and the issuance of 269,389 newly-issued shares of the Company’s Class A subordinated voting stock valued at approximately \$2,901. For accounting purposes, the value of the Company’s Class A shares issued as consideration was calculated based on the price of the Company’s Class A shares on the date of the acquisition. In addition, the Company expects to pay a contingent amount to the Minority Holder in 2009 and 2010, based on KBP’s financial performance in 2008 and 2009. These additional contingent payments will be calculated in accordance with KBP’s existing limited liability company agreement. In connection with this acquisition, certain key executives of KBP agreed to extend the terms of their existing employment agreements and received grants of restricted stock of the Company valued at \$234 in the aggregate. These equity grants vest over a three year period. This acquisition represented an accelerated exercise of the Company’s existing call option that was otherwise exercisable in 2008. The allocation of the excess purchase consideration of this acquisition to the fair value of net assets acquired resulted in 100% or \$14,494 of the excess consideration being allocated to identifiable intangible assets. Approximately \$2,711 represented customer backlog and is being amortized over a six and one-half month period and the balance of \$11,783 represented customer relationships and will be amortized over a five year period in a manner represented by the pattern in which the economic benefits of the customer contractual relationships are realized. The value of the restricted stock grants will be amortized over a three year period. In addition, the Company incurred a non-cash stock based compensation charge of approximately \$2,603 resulting from a portion of the purchase price being paid by the Minority Holder to certain employees of KBP pursuant to an existing phantom equity plan between those employees and the Minority Holder. A similar type of charge will be incurred if and when any contingent payments are made in 2009 and 2010. The intangibles are tax deductible in future years. In May 2008, it was determined that an additional payment of \$814 was due. This additional payment has been allocated to backlog and written off during the second quarter of 2008. This amount was paid in cash in December 2008. In addition, the Company incurred a non-cash stock based compensation charge of \$142 resulting from this payment to the phantom equity holders.

On August 17, 2007, the Company purchased an additional 16% of the equity interests of VitroRobertson LLC (“Vitro”) resulting in the Company’s current ownership of 84%. This 16% represents one of the founders’ remaining equity interest in Vitro. This founder initially had a put option right to the Company for this 16%, which was to become exercisable in 2011. However, the Company agreed to purchase this 16% for

an initial payment of \$650, together with the potential of two additional payments of \$75 each based upon client retention targets. The allocation of the cost of the acquisition to the fair value of net assets acquired resulted in identifiable intangible assets of \$200 and goodwill of \$375. The identifiable intangibles will be amortized on a straight line basis over five years. The intangibles and goodwill are tax deductible in future years. During 2008, it was determined that only one payment of \$75 was due. The amount was paid in January 2009, at December 31, 2008, this amount was included in deferred acquisition consideration.

On June 15, 2007, the Company acquired a 60% membership interest in Redscout, LLC (“Redscout”). Redscout is a brand development and innovation consulting firm. Redscout is expected to expand the Company’s strategic consultancy services within the Strategic Marketing Services segment. The purchase price consisted of \$4,021 in cash and \$641 was paid in the form of 76,340 newly issued Class A shares of the Company. In addition, the Company may be required to make additional payments which are contingent on the results of Redscout’s operations through December 2008. As of December 31, 2007, the Company will be required to make additional payments of \$1,500 of which approximately \$214 may be paid in the form of Class A shares. At December 31, 2007, this amount has been accrued in deferred acquisition consideration. In addition, the Company incurred approximately \$35 of transaction related costs for a total purchase price of \$4,697. The allocation of the cost of the acquisition to the fair value of net assets acquired resulted in amortizable intangible assets of \$1,275 and goodwill of \$2,706 and is based on estimates of fair values and certain assumptions that the Company believed were reasonable. The intangibles and goodwill are tax deductible in future years. As of December 31, 2008, it has been determined that no additional payments are due.

On May 1, 2007, the Company’s 70.1% owned subsidiary, Northstar Research Holdings USA LP, acquired a 51% membership interest in Trend Core LLC (“TC”). TC is a qualitative research firm with a specialty in the understanding of the merger of cultural trends and consumer needs with product innovation. TC is expected to expand the Company’s research capabilities within the Specialized Communication Services segment. The purchase price consisted of \$103 in cash and related closing costs. In addition, the Company may be required to pay up to an additional \$900 in cash to the sellers if TC achieves specified financial targets at certain specified times over the period ending April 30, 2011. The allocation of the cost of the acquisition to the fair value of net assets acquired resulted in an amortizable intangible asset of approximately \$96 based on estimates of fair values and certain assumptions that the Company believed were reasonable. The intangible is tax deductible in future years.

On April 4, 2007, the Company acquired a 59% membership interest in HL Group Partners LLC (“HL”). The Company intends to use up to 8% of the membership interests acquired for purposes of entering into a profits interest arrangement with other key executives of HL, or “Gen II” management. Gen II management will also have liquidity rights based on any appreciation of value over the original purchase price attributable to the profits interest. HL is a marketing strategy and corporate communications firm with a specialty in high end fashion and luxury goods. HL is expected to expand the Company’s creative talent within the Strategic Marketing Services segment. The purchase price consisted of \$4,813 in cash, of which \$4,493 was paid and \$320 will be paid on April 4, 2008, and \$1,000 was paid in the form of 128,550 newly-issued Class A shares of the Company. In addition, the Company incurred transaction costs of approximately \$30 for a total purchase price of \$5,843. The allocation of the cost of the acquisition to the fair value of net assets acquired resulted in amortizable intangible assets of \$2,154 and goodwill of \$3,442 and is based on estimates of fair values and certain assumptions that the Company believed were reasonable. The intangibles and goodwill are tax deductible in future years.

4. Acquisitions – (continued)

2006 Acquisitions

During 2006, the Company did not complete any material acquisitions, however the Company did complete the following transactions:

On February 7, 2006, the Company purchased the remaining outstanding membership interests of 12.33% of Source Marketing LLC (“Source”) pursuant to an exercise of a put option notice delivered in October 2005. The purchase price of \$2,287 consisted of cash of \$1,830 and the delivery of 1,063,516 shares of LifeMed Media Inc. (“LifeMed”) valued at \$457. The Company’s carrying value of these LifeMed shares was \$27, thus the Company recorded a gain on the disposition of these shares of \$430, which has been included in other income.

On February 15, 2006, Source issued 15% of its membership interests to certain members of management. The purchase price for these membership interests was \$1,540, which consisted of \$385 cash and recourse notes in an aggregate principal amount equal to \$1,155. In addition, the purchaser also received a fully vested option to purchase an additional 5% of Source at an exercise price equal to the price paid above. The option is exercisable any time prior to December 31, 2010. An amended and restated LLC agreement was entered into with these new members. The agreement also provides these members with an option to put to the Company these membership interests from December 2008-2012. As a result of the above transactions, the Company now owns 85% of Source. During the quarter ended March 31, 2006, the company recorded a non-cash stock based compensation charge of \$2,338 relating to the price paid for the membership interests which was less than the fair value of such membership interests and the fair value of the option granted. On October 1, 2006, the options noted above were exercised. This exercise resulted in a dilution loss of \$626 and reduced the Company’s ownership down to 80%.

On July 1, 2006, the Company and Mono Advertising, LLC amended its operating agreement to eliminate certain limitations that the Company had on its ability to exercise control of Mono Advertising, LLC. Effective July 1, 2006 the Company has consolidated Mono Advertising, LLC which had previously been accounted for under the equity method.

On July 27, 2006, the Company settled a put option obligation for a fixed amount equal to \$1,492, relating to the purchase of 4.3% of additional equity interests of Accent Marketing, LLC. The settlement of this put was satisfied by a cash payment of \$424, plus the cancellation of an outstanding promissory note to the Company in a principal amount equal to \$1,068. The purchase price was allocated as follows: \$403 to identified intangibles, amortized over eight years and the balance of \$1,089 as additional goodwill. The goodwill and intangibles are deductible for tax purposes. Including this transaction, the Company now owns 93.7% of Accent Marketing, LLC.

On November 14, 2006, the Company purchased an additional 20% interest in Northstar Research Partners Inc. for \$3,405 in cash. This transaction resulted in an allocation of the purchase price to goodwill of \$2,989 and identifiable intangible assets of \$415. The goodwill and intangibles are deductible for tax purposes.

On November 14, 2006, the Company through its subsidiary Zig Inc. purchased a 65% interest in Hadrian’s Wall Advertising, LLC for \$550. Hadrian’s Wall Advertising, LLC is a creative advertising firm that was acquired to facilitate the expansion of the Zig Canada business into the US market. In addition the Company purchased an additional 0.2% of Zig Inc. for cash of \$18 and 30,000 of the Company’s Stock Appreciation Rights, valued at \$104. The purchase price was allocated to goodwill of \$18 and the value of the SAR’s was considered to be compensation expense and will be amortized over the vesting period of the SAR’s. Effective November 17, 2006, as a result of the additional share purchase, the Company has consolidated Zig Inc. which had previously been accounted for under the equity method.

4. Acquisitions – (continued)

On December 15, 2006, the Company and Accumark Communications Group Inc. amended its operating agreement to eliminate certain minority rights. As a result of this amendment, effective December 15, 2006, the Company has consolidated Accumark Communications Inc. which had previously been accounted for under the equity method.

Proforma Information

The following unaudited pro forma results of operations of the Company for the years ended December 31, 2008, 2007 and 2006 assume that the acquisition of the operating assets of the significant businesses acquired during 2008 and 2007 had occurred on January 1st of the respective year in which the business was acquired and for the comparable period only (i.e., 2008 acquisitions are reflected in 2007, not 2006). During 2006, there were no significant businesses acquired. These unaudited pro forma results are not necessarily indicative of either the actual results of operations that would have been achieved had the companies been combined during these periods, or are they necessarily indicative of future results of operations. These unaudited pro forma results for the years December 31, 2007 and 2006, include in each of the years, an adjustment for the non-cash stock based compensation charge of \$2,603 resulting from the KBP acquisition.

7. Financial Instruments

Financial assets, which include cash and cash equivalents and accounts receivable, have carrying values which approximate fair value due to the short-term nature of these assets. Financial liabilities with carrying values approximating fair value due to short-term maturities include accounts payable, accrued and other liabilities, advance billings, and deferred acquisition consideration. Bank debt and long-term debt are variable rate debt, the carrying value of which approximates fair value. The Company's convertible debt and note payable are fixed rate debt instruments, the carrying values of which approximates fair value. The fair value of financial commitments, guarantees and letters of credit, are based on the stated value of the underlying instruments. Guarantees have been issued in conjunction with the disposition of businesses in 2001 and 2003 and letters of credit have been issued in the normal course of business.

8. Goodwill and Intangible Assets

As of December 31, the gross and net amounts of acquired intangible assets were as follows:

Effective income tax rate	<u>11.8%</u>	<u>73.7%</u>	<u>47.1%</u>

See Note 10 for income taxes for discontinued operations.

The 2008 effective income tax rate was significantly lower than the statutory rate due primarily from the reversal of Canadian withholding taxes due to a change in Canadian tax law of \$2,088 (included in other taxes above) and a decrease in the Company's valuation allowance of \$4,149, primarily due to utilization of net operating loss carry forwards.

Income taxes receivable were \$1,312 and \$579 at December 31, 2008 and 2007, respectively, and were included in accounts receivable on the balance sheet. Income taxes payable were \$1,056 and \$987 at December 31, 2008 and 2007, respectively, and were included in accrued and other liabilities on the balance sheet. It is the Company's policy to classify interest and penalties arising in connection with the under payment of income taxes as a component of income tax expense. For the years ended 2008, 2007 and 2006, income tax expense does not include any amounts for interest and penalties.

Included in accrued and other liabilities at December 31, 2008 and 2007 is a deferred tax liability of \$212 and \$84, respectively. Included in other current assets at December 31, 2008 and 2007 is a deferred tax asset of \$2,925 and \$707, respectively.

The Company has US federal net operating loss carry forwards of \$29,459 and non-US net operating loss carry forwards of \$75,020, these carry forwards expire in years 2009 through 2028. The Company also has total indefinite loss carry forwards of \$121,113. These indefinite loss carry forwards consist of \$30,125 relating to the US and \$90,988 which are related to capital losses from the Canadian operations. In addition, the Company has net operating loss carry forwards for various state taxing jurisdictions of approximately \$93,015.

The Company records a valuation allowance against deferred income tax assets when management believes it is more likely than not that some portion or all of the deferred income tax assets will not be realized. Management considers factors such as the reversal of deferred income tax liabilities, projected future taxable income, the character of the income tax asset; tax planning strategies, changes in tax laws and other factors. A change to these factors could impact the estimated valuation allowance and income tax expense.

The valuation allowance has been recorded to reduce our deferred tax asset to an amount that is more likely than not to be realized, and is based upon the uncertainty of the realization of certain US, non-US and state deferred tax assets. The increase in the Company's valuation allowance charged to the statement of

operations for each of the years ended December 31, 2007 and 2006 was \$6,870 and \$3,038, respectively. In 2008, the Company reduced its valuation and recorded a benefit in the statement of operations of \$4,149.

Deferred taxes are not provided for temporary differences representing earnings of non-Canadian subsidiaries that are intended to be permanently reinvested. The potential deferred tax liability associated with these undistributed earnings is not material.

On January 1, 2007, the Company adopted the provisions of FIN48. We have classified certain liabilities as unrecognized tax benefits as well as any applicable penalties and interest.

The following table summarizes the activity related to our unrecognized tax benefits:

	Total

Balance at December 31, 2007	617
Increases related to current year tax positions	—
Expiration of statute of limitations for the assessment of taxes	—
Balance at December 31, 2008	\$617

We do not expect our unrecognized tax benefits to change significantly over the next 12 months.

The Company has completed US federal tax audits through 2006 and has completed a non-US tax audit through 2004.

10. Discontinued Operations

In December 2008, the Company entered into negotiations to sell certain remaining assets in Bratskeir to management. This transaction is expected to be completed in March 2009. As a result of this expected transaction, the Company recorded a goodwill and intangibles impairment charge of \$1,945. Including the impairment charge Bratskeir’s results of operations, net of income tax benefits, for the years ended 2008, 2007 and 2006 were losses of \$3,815, \$1,217 and \$970, respectively. This entity had been previously included in the Company’s Specialized Communication Service segment.

Effective December 3, 2008, Colle & McVoy, LLC (“Colle”), completed the sale of certain assets of its Mobium division. The Company recorded a loss on sale of \$1,159 (\$765 net of taxes). Including the loss on sale, Mobium’s results of operations, net of income tax benefits for the year ended 2008 was a loss of \$3,022. The results of operations net of income taxes for Mobium for the years ended 2007 and 2006 were income of \$283 and \$558, respectively. This entity had been previously included in the Company’s Strategic Marketing Service segment.

Effective June 30, 2008, the Company sold its 60% interest in The Ito Partnership (“Ito”), a start-up operation formed in 2006. The sale resulted in a loss of \$877, (\$579 net of taxes). Including the loss on sale, Ito’s results of operations, net of income tax benefits for the year ended 2008 was a loss of \$533. The results of operations net of income taxes for Ito for the year ended 2007 was income of \$38. This entity had been previously included in the Company’s Specialized Communication Service segment.

In March 2007, due to continued operating and client losses, the Company ceased Margeotes Fertitta Powell, LLC (“MFP”) current operations and spun off a new operating business and as a result incurred a goodwill impairment charge of \$4,475, in 2007. The Company also recorded an impairment charge relating to MFP of \$6,306 in 2006. After reviewing the 2008 projections of the new operating business the Company decided to cease the operations of the new operating business as well. As a result, the Company has classified

these operations as discontinued. In addition, an additional intangible relating to an employment contract of \$629 was deemed impaired and written off. The results of operations of MFP and the new operating business, net of income tax benefits, was a loss of \$7,123 in 2007, and a loss of \$5,986 in 2006. In 2008, the Company recorded a loss of \$2,645 net of income taxes resulting primarily from the accrual of lease abandonment costs and severance.

In December 2007, due to continued operating losses and the lack of new business wins the Company ceased Banjo Strategic Entertainment, LLC (“Banjo”) operations. The results of operations of Banjo, net of income tax benefits, was a loss of \$154 in 2007 and a loss of \$114 in 2006. MFP and Banjo had been previously included in the Company’s Specialized Communication Service segment.

In June 2006, the Company’s Board of Directors made the decision to sell or otherwise divest the Company’s Secure Paper Businesses and Secure Card Businesses (collectively, Secured Products International or “SPI”).

On November 14, 2006, the Company completed its sale of SPI, resulting in net proceeds of \$27,000. Consideration was received in the form of cash of \$20,000 and five additional annual payments of \$1,000. In addition, the Company received a 7.5% equity interest in the newly formed entity acquiring SPI. The Company has recorded the present value of the five additional payments of \$3,724 as Other Assets. Also included in Other Assets is the estimated value of the 7.5% equity interest received of \$1,924. During 2006, the Company had previously recorded an impairment charge of \$19,498 relating to SPI’s long lived assets to adjust them to fair market value. The sale of SPI has resulted in a gain of \$2,856 (\$1,824, net of taxes). The results of operations of SPI for 2006 was a loss of \$21,569.

Based on the net proceeds and average borrowing rate for each period, the Company has allocated interest expense to discontinued operations of \$1,393 for the year ended 2006.

Included in discontinued operations in the Company’s consolidated statements of operations for the years ended December 31 were the following:

	Years Ended December 31,		
	2008	2007	2006
Revenue.	\$ 5,700	\$ 16,926	\$ 87,989

Minority interest (expense) recovery.	—	(48)	7
Net loss from discontinued operations.	\$(10,015)	\$ (8,173)	\$(25,227)

Included in other income (expense) is a loss on sale of assets of \$2,036 in 2008. There was no loss on sale of assets for 2007 or 2006.

The statutory income tax rate differs from the effective rate for 2006 due to the operating loss of SPI, which had a valuation allowance recorded against that amount.

At December 31, 2008, \$408, \$323 and \$2,139 was included in current assets, other assets and accrual and other liabilities, respectively, which represent assets held for sale and related liabilities.

Financing Agreement

On June 18, 2007, MDC Partners Inc. (the "Company") and its material subsidiaries entered into a \$185,000 senior secured financing agreement (the "Financing Agreement") with Fortress Credit, an affiliate of Fortress Investment Group, as collateral agent and Wells Fargo Bank, as administrative agent, and a syndicate of lenders. Proceeds from the Financing Agreement were used to repay in full the outstanding balances on the Company's then existing credit facility, which was terminated.

The current Financing Agreement consists of a \$55,000 revolving credit facility, a \$60,000 term loan and a \$70,000 delayed draw term loan. Borrowings under the Financing Agreement will bear interest as follows: (a) LIBOR Rate Loans bear interest at applicable interbank rates and Reference Rate Loans bear interest at the rate of interest publicly announced by the Reference Bank in New York, New York, plus (b) a percentage spread ranging from 0% to a maximum of 4.75% depending on the type of loan and the Company's Senior Leverage Ratio. In addition, the Company is required to pay a facility fee of 50 basis points. At December 31, 2008, the weighted average interest rate was 7.59%.

At December 31, 2008, \$40,586 remains available under the Financing Agreement plus cash of \$32,895 is available to support the Company's future cash requirements. The Company's obligations under the Financing Agreement are guaranteed by the material subsidiaries and secured by all assets of the Company. The Financing Agreement matures on June 17, 2012 and is subject to various covenants, including a senior leverage ratio, fixed charges ratio, limitations on debt incurrence, limitation on liens and limitation on dividends and other payments.

8% Convertible Unsecured Subordinated Debentures

On June 28, 2005, the Company completed an offering in Canada of convertible unsecured subordinated debentures amounting to \$36,723 (C\$45,000) (the “Debentures”). The Debentures will mature on June 30, 2010. The Debentures bear interest at an annual rate of 8.00% payable semi-annually, in arrears, on June 30 and December 31 of each year. Unless an event of default has occurred and is continuing, the Company may elect, from time to time, subject to applicable regulatory approval, to issue and deliver Class A subordinate voting shares to the Debenture trustee in order to raise funds to satisfy all or any part of the Company’s obligations to pay interest on the Debentures in accordance with the indenture in which holders of the Debentures will be entitled to receive a cash payment equal to the interest payable from the proceeds of the sale of such Class A subordinate voting shares by the Debenture trustee.

The Debentures are convertible at the holder’s option into fully-paid, non-assessable and freely tradeable Class A subordinate voting shares of the Company, at any time prior to maturity or redemption, subject to the restrictions on transfer, at a conversion price of \$11.49 (C\$14.00) per Class A subordinate voting share being a ratio of approximately 71.4286 Class A subordinate voting shares per \$821.00 (C\$1,000.00) principal amount of Debentures.

Prior to June 30, 2009, the Debentures may be redeemed, in whole or in part from time to time, at a price equal to the principal amount of the Debenture plus accrued and unpaid interest, provided that the volume weighted average trading price of the Class A subordinate voting shares on the Toronto Stock Exchange during a specified period is not less than 125% of the conversion price. From July 1, 2009 until the maturity of the Debentures the Debentures may be redeemed by the Company at a price equal to the principal amount of the Debenture plus accrued and unpaid interest, if any. The Company may elect to satisfy the redemption consideration, in whole or in part, by issuing Class A subordinate voting shares of the Company to the holders, the number of which will be determined by dividing the principal amount of the Debenture by 95% of the current market price of the Class A subordinate voting shares on the redemption date. Upon the occurrence of a change of control of the Company involving the acquisition of voting control or direction over 50% or more of the outstanding Class A subordinate voting shares prior to June 30, 2008, the Company shall be required to make an offer to purchase all of the then outstanding Debentures at a price equal to 100% of the principal amount thereof plus an amount equal to the interest payments not yet received on the Debentures calculated from the date of the change of control to June 30, 2008, discounted at a specified rate. Upon the occurrence of a change of control on or after June 30, 2008, the Company shall be required to make an offer to purchase all of the then outstanding Debentures at a price equal to 100% of the principal amount of the Debentures plus accrued and unpaid interest to the purchase date.

15. Segmented Information

The Company reports in three segments plus corporate. The segments are as follows:

- The *Strategic Marketing Services* (“SMS”) segment includes Crispin Porter & Bogusky and kirshenbaum bond + partners among others. This segment consists of integrated marketing consulting services firms that offer a full complement of marketing consulting services including advertising and media, marketing communications including direct marketing, public relations, corporate communications, market research, corporate identity and branding, interactive marketing and sales promotion. Each of the entities within SMS share similar economic characteristics, specifically related to the nature of their respective services, the manner in which the services are provided and the similarity of their respective customers. Due to the similarities in these businesses, they exhibit similar long term financial performance and have been aggregated together.
- The *Customer Relationship Management* (“CRM”) segment provides marketing services that interface directly with the consumer of a client’s product or service. These services include the design, development and implementation of a complete customer service and direct marketing initiative intended to acquire, retain and develop a client’s customer base. This is accomplished using several domestic and a foreign-based customer contact facilities.
- The *Specialized Communication Services* (“SCS”) segment includes all of the Company’s other marketing services firms that are normally engaged to provide a single or a few specific marketing services to regional, national and global clients. These firms provide niche solutions by providing world class expertise in select marketing services.

16. Related Party Transactions

- (a) The Company incurred fees and paid incentive awards totaling \$3,413, \$2,471 and \$2,394 in 2008, 2007 and 2006, respectively, relating to companies controlled by the Chairman and Chief Executive Officer ("CEO") of the Company in respect of services rendered pursuant to a management services agreement and incentive plans.

On April 27, 2007, the Company entered into a new Management Services Agreement (the "Services Agreement") with Miles Nadal and with Nadal Management, Inc. to set forth the terms and conditions on which Mr. Nadal will continue to provide services to the Company as its Chief Executive Officer. Mr. Nadal's prior services agreement with the Company was scheduled to expire on October 31, 2007, subject to two-year annual renewals. If the Company were not going to enter into a new agreement with Mr. Nadal and did not intend to allow the prior agreement to renew, it would have been required to give Mr. Nadal notice of such non-renewal by April 30, 2007.

The Services Agreement has a three-year term with automatic one-year extensions. Pursuant to the Agreement, the base compensation for Mr. Nadal's services will continue through 2007 at the current rate of \$950, with annual increases of \$25 in each of 2008 and 2009. The Services Agreement also provides for an annual bonus with a targeted payout of up to 250% of the base compensation. The Company will also make an annual cash payment of \$500 in respect of retirement benefits, employee health benefits and perquisites. In addition, in the discretion of the Compensation Committee, the Company may grant equity incentives with a targeted grant-date value of up to 300% of the then current base retainer.

As an incentive to enter into the Services Agreement, the Company paid a one-time non-renewal fee of \$3,500 upon execution of the Services Agreement, which has been expensed during the second quarter of 2007. Mr. Nadal used a portion of the proceeds to repay to the Company the \$2,677 (C\$3,000) note receivable due on November 1, 2007 from Nadal Management, Inc. In addition during 2008 and 2007, in accordance with this new agreement Mr. Nadal repaid an additional \$100 and \$458, respectively, of loans due to the Company.

16. Related Party Transactions – (continued)

- (b) In 2000, the Company agreed to provide to its CEO, Miles S. Nadal a bonus of C\$10,000 (\$10,088) in the event that the average market price of the Company's Class A subordinate voting shares is C\$30 (\$30) per share or more for more than 20 consecutive trading days (measured as of the close of trading on each applicable date). This bonus is payable until the date that is three years after the date on which Mr. Nadal is no longer employed by the Company for any reason. The after-tax proceeds of such bonus are to be applied first as repayment of any outstanding loans due to the Company from this officer and his related companies in the amount of C\$6,253 (\$5,134), as at December 31, 2008, which has been reserved for in the Company's accounts. These loans have no stated maturity date.
- (c) In 2000, the Company purchased 1,600,000 shares in Trapeze Media Limited ("Trapeze") for \$215. At the same time, the Company's CEO purchased 4,280,000 shares of Trapeze for \$576, the Company's former Chief Financial Officer and a Managing Director of the Company each purchased 50,000 Trapeze shares for \$7 and a Board Member of the Company purchased 75,000 shares of Trapeze for \$10. In 2001, the Company purchased an additional 1,250,000 shares for \$161, and the Company's CEO purchased 500,000 shares for \$64. In 2002, the Company's CEO purchased 3,691,930 shares of Trapeze for \$470. All of these purchases were made at identical prices (i.e., C\$.20/share). In 2003, the Company and the CEO exchanged their units in Trapeze for non-voting shares and entered into a voting trust agreement.

During 2008, 2007 and 2006, Trapeze provided services to certain subsidiaries, the total amount of such services provided were \$371, \$369 and \$302, respectively. In addition, in 2008, a subsidiary provided Trapeze with \$144 of services.

17. Commitments, Contingencies and Guarantees

Deferred Acquisition Consideration. In addition to the consideration paid by the Company in respect of certain of its acquisitions at closing, additional consideration may be payable, or may be potentially payable based on the achievement of certain threshold levels of earnings. See Note 4.

Put Options. Owners of interests in certain subsidiaries have the right in certain circumstances to require the Company to acquire either a portion of or all of the remaining ownership interests held by them. The owners' ability to exercise any such "put option" right is subject to the satisfaction of certain conditions, including conditions requiring notice in advance of exercise. In addition, these rights cannot be exercised prior to specified staggered exercise dates. The exercise of these rights at their earliest contractual date would result in obligations of the Company to fund the related amounts during the period 2009 to 2018. It is not determinable, at this time, if or when the owners of these rights will exercise all or a portion of these rights.

The amount payable by the Company in the event such rights are exercised is dependent on various valuation formulas and on future events, such as the average earnings of the relevant subsidiary through the date of exercise, the growth rate of the earnings of the relevant subsidiary during that period, and, in some cases, the currency exchange rate at the date of payment.

Management estimates, assuming that the subsidiaries owned by the Company at December 31, 2008, perform over the relevant future periods at their 2008 earnings levels, that these rights, if all exercised, could require the Company, in future periods, to pay an aggregate amount of approximately \$31,654 to the owners of such rights to acquire such ownership interests in the relevant subsidiaries. Of this amount, the Company is entitled, at its option, to fund approximately \$3,948 by the issuance of share capital. In addition, the Company is obligated under similar put option rights to pay an aggregate amount of approximately \$6,195 only upon termination of such owner's employment with the applicable subsidiary. The ultimate amount payable relating to these transactions will vary because it is dependent on the future results of operations of the subject businesses and the timing of when and if these rights are exercised.

17. Commitments, Contingencies and Guarantees – (continued)

Natural Disasters. Certain of the Company’s operations are located in regions of the United States and Caribbean which typically are subject to hurricanes. During the year ended December 31, 2008, 2007 and 2006, these operations did not incur any costs related to damages resulting from hurricanes.

Guarantees. In connection with certain dispositions of assets and/or businesses in 2001 and 2003, the Company has provided customary representations and warranties whose terms range in duration and may not be explicitly defined. The Company has also retained certain liabilities for events occurring prior to sale, relating to tax, environmental, litigation and other matters. Generally, the Company has indemnified the purchasers in the event that a third party asserts a claim against the purchaser that relates to a liability retained by the Company. These types of indemnification guarantees typically extend for a number of years.

In connection with the sale of the Company’s investment in CDI, the amounts of indemnification guarantees were limited to the total sale price of approximately \$84,000. For the remainder, the Company’s potential liability for these indemnifications are not subject to a limit as the underlying agreements do not always specify a maximum amount and the amounts are dependent upon the outcome of future contingent events.

Historically, the Company has not made any significant indemnification payments under such agreements and no amount has been accrued in the accompanying consolidated financial statements with respect to these indemnification guarantees. The Company continues to monitor the conditions that are subject to guarantees and indemnifications to identify whether it is probable that a loss has occurred, and would recognize any such losses under any guarantees or indemnifications in the period when those losses are probable and estimable.

For guarantees and indemnifications entered into after January 1, 2003, in connection with the sale of the Company’s investment in CDI, the Company has estimated the fair value of its liability, which was insignificant.

Legal Proceedings. The Company’s operating entities are involved in legal proceedings of various types. While any litigation contains an element of uncertainty, the Company has no reason to believe that the outcome of such proceedings or claims will have a material adverse effect on the financial condition or results of operations of the Company.

Commitments. The Company has commitments to fund \$172 in an investment fund over a period of up to two years. At December 31, 2008, the Company has \$4,713 of undrawn outstanding letters of credit.

Leases. The Company and its subsidiaries lease certain facilities and equipment. Gross premises rental expense amounted to \$16,749 for 2008, \$15,718 for 2007 and \$14,572 for 2006, which was reduced by sublease income of \$31 in 2008, \$13 in 2007 and \$463 in 2006. Where leases contain escalation clauses or other concessions, the impact of such adjustments is recognized on a straight-line basis over the minimum lease period.

Minimum rental commitments for the rental of office and production premises and equipment under non-cancellable leases net of sublease income, some of which provide for rental adjustments due to increased property taxes and operating costs for 2008 and thereafter, are as follows:

Period	Amount
2009	\$14,799
2010	13,392
2011	11,515
2012	10,123
2013	7,753
2014 and thereafter	20,145
	\$77,727

At December 31, 2008, the total future cash to be received on sublease income is \$593.

18. New Accounting Pronouncements

In September 2006, FASB issued SFAS No. 157, "Fair Value Measurements". This statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This statement is effective for all fiscal year beginning after November 15, 2007 and interim periods within those fiscal years. Earlier application is encouraged. The adoption of this statement did not have a material effect on its financial statements.

In February 2007, FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159"). This statement permits entities to choose to measure many financial instruments and certain other items at fair value. This statement expands the use of fair value measurement and applies to entities that elect the fair value option. The fair value option established by this Statement permits all entities to choose to measure eligible items at fair value at specified election dates. SFAS 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The adoption of this statement did not have a material effect on its financial statements.

In December 2007, FASB issued SFAS No. 141R "Business Combination" ("SFAS 141R"). This revised statement retains some fundamental concepts of the current standard, including the acquisition method of accounting (known as the "purchase method" in Statement 141) for all business combinations but SFAS 141R broadens the definitions of both businesses and business combinations, resulting in the acquisition method applying to more events and transactions. This statement also requires the acquirer to recognize the identifiable assets and liabilities, as well as the noncontrolling interest in the acquiree, at the full amounts of their fair values. SFAS 141R will require both acquisition-related costs and restructuring costs to be recognized separately from the acquisition and be expensed as incurred. In addition, acquirers will record contingent consideration at fair value on the acquisition date as either a liability or equity. Subsequent changes in fair value will be recognized in the income statement for any contingent consideration recorded as a liability. SFAS 141R is to be applied prospectively for financial statements issued for fiscal years beginning on or after December 15, 2008. Early application is prohibited.

In December 2007, FASB issued SFAS No. 160 "Non-controlling Interests in Consolidated Financial Statements" ("SFAS 160"). This statement amends ARB No. 51 Consolidated Financial Statements, to now require the classification of noncontrolling (minority) interests and dispositions of noncontrolling interests as equity within the consolidated financial statements. The income statement will now be required to show net income/loss with and without adjustments for noncontrolling interests. SFAS 160 is to be applied prospectively for financial statements issued for fiscal years beginning on or after December 15, 2008 and interim periods within those years. However, this statement requires companies to apply the presentation and disclosure requirements retrospectively to comparative financial statements. Early application is prohibited. The Company is currently evaluating the impact of this new statement on its financial statements. However, in accordance with the adoption of this statement, the Company will record the put options (Note 17) as an adjustment to noncontrolling interests with a corresponding adjustment to additional paid-in capital. In addition, in the statement of operations minority interests in income of consolidated subsidiaries will be reclassified.

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133" ("SFAS 161"), which requires enhanced disclosures for derivative and hedging activities. SFAS 161 will become effective beginning with our first quarter of 2009. Early adoption is permitted. The Company is currently evaluating the impact of this standard on its financial statements.

19. Quarterly Results of Operations (Unaudited) (Restated for Discontinued Operations)

The following table sets forth a summary of the Company's consolidated unaudited quarterly results of operations for the years ended December 31, 2008 and 2007, in thousands of dollars, except per share amounts.

	Quarters			
	First	Second	Third	Fourth
Revenue:				
2008	\$140,902	\$156,949	\$142,089	\$144,708
2007	\$114,648	\$131,373	\$135,770	\$152,092
Cost of services sold:				
2008	\$ 95,519	\$102,332	\$ 94,559	\$ 99,735
2007	\$ 74,710	\$ 83,696	\$ 88,527	\$ 96,363
Income (loss) from continuing operations:				
2008	\$ (358)	\$ (1,581)	\$ 4,021	\$ 8,066
2007	\$ (4,966)	\$ (701)	\$ (5,918)	\$ (6,597)
Net income (loss):				
2008	\$ (3,394)	\$ (4,472)	\$ 3,250	\$ 4,749
2007	\$ (8,797)	\$ (2,601)	\$ (6,771)	\$ (8,186)
Income (loss) per common share:				
Basic				
Continuing operations:				
2008	\$ (0.01)	\$ (0.06)	\$ 0.15	\$ 0.30
2007	\$ (0.20)	\$ (0.03)	\$ (0.24)	\$ (0.26)
Net (income) loss:				
2008	\$ (0.13)	\$ (0.17)	\$ 0.12	\$ 0.18
2007	\$ (0.36)	\$ (0.11)	\$ (0.27)	\$ (0.31)
Diluted				
Continuing operations:				
2008	\$ (0.01)	\$ (0.06)	\$ 0.15	\$ 0.29
2007	\$ (0.20)	\$ (0.03)	\$ (0.24)	\$ (0.26)
Net (income) loss:				
2008	\$ (0.13)	\$ (0.17)	\$ 0.12	\$ 0.18
2007	\$ (0.36)	\$ (0.11)	\$ (0.27)	\$ (0.31)

The above revenue, cost of services sold, and income (loss) from continuing operations have primarily been affected by acquisitions, divestitures and discontinued operations.

Historically, with some exceptions, the Company's fourth quarter generates the highest quarterly revenues in a year. The fourth quarter has historically been the period in the year in which the highest volumes of media placements and retail related consumer marketing occur.

Income (loss) from continuing operations and net loss have been affected as follows:

- The fourth quarter of 2008 includes non-cash stock based compensation charges of \$6,961 relating to acquisitions. See Note 4.
- The third and fourth quarters of 2008 include unrealized foreign exchange gains of \$5,582 and \$7,675, respectively.
- The third quarter of 2007 includes an unrealized foreign exchange loss of \$3,629.
- The fourth quarter of 2007 includes non-cash stock based compensation charges of \$2,603 relating to acquisitions. See Note 4.

Item 9A. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be included in our SEC reports is recorded, processed, summarized and reported within the applicable time periods specified by the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer (CEO) and our Chief Financial Officer (CFO), who is our principal financial officer, as appropriate, to allow timely decisions regarding required disclosures. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

We conducted an evaluation, under the supervision and with the participation of our management, including our CEO, our CFO and our management Disclosure Committee, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) of the Exchange Act. Based on that evaluation, the Company has concluded that its disclosure controls and procedures were effective.

(b) Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) under the Exchange Act). Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

We evaluated the effectiveness of our internal control over financial reporting as of December 31, 2008. In making this assessment, we used the criteria set forth in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on our assessment, we believe that, as of December 31, 2008, we maintained effective internal control over financial reporting based on these criteria.

The effectiveness of our internal control over financial reporting as of December 31, 2008, has been independently audited by BDO Seidman LLP, an independent registered public accounting firm, as stated in their report which is included herein.

(c) Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the fiscal quarter ended December 31, 2008, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

(d) Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
MDC Partners, Inc.
New York, New York

We have audited MDC Partners, Inc. and subsidiaries' internal control over financial reporting as of December 31, 2008, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). MDC Partners, Inc. and subsidiaries' management is responsible for maintaining effective internal control over financial reporting included in the accompanying Item 9A, "Management's Report on Internal Control Over Financial Reporting." Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, MDC Partners, Inc., and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2008, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of MDC Partners Inc. and subsidiaries as of December 31, 2008 and 2007 and the related consolidated statement of operations, shareholders' equity, and cash flows for the years ended December 31, 2008 and 2007 and our report dated March 6, 2009 expressed an unqualified opinion thereon.
