Your directors present their report, together with the financial statements of Cazaly Resources Limited (the Company) and its controlled entities ("Consolidated Group") for the financial year ended 30 June 2013.

1. DIRECTORS AND COMPANY SECRETARY

Directors

The names of directors in office at any time during or since the end of the year are:

Nathan McMahon
Clive Jones
Kent Hunter

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

Company Secretary

Julie Hill held the position of company secretary until her resignation on 26 July 2013.

Mike Robbins was appointed Company Secretary on 26 July 2013 and holds that position at the date of this report. Mr Robbins has over 20 years resource industry experience gathered at both operational and corporate levels, both within Australia and overseas. During that time, he has held numerous project level management positions as well as CFO and Company Secretarial roles with Hodges Resources Ltd, Bannerman Resources Ltd, Moto Gold Mines Ltd and Asian Mineral Resources Limited.

2. PRINCIPAL ACTIVITIES

The principal activity of the Consolidated Group during the financial period was mineral exploration.

There were no significant changes in the nature of the Consolidated Group's principal activities during the financial period.

3. OPERATING RESULTS & FINANCIAL POSITION

The loss after tax for the year was $1,262,416 (2012:$1,875,229). The Company's net assets at the end of the year are $23,596,905 (2012: $23,772,151).

Cash and cash equivalents as at year end were $598,083 (2012 - $2,847,346).

At year end the Company had trade receivables of $1,051,899 (2012 - $666,012). Included in trade receivables is the Phoenix Gold Limited royalty for the March and June 2013 quarters of $531,732. These were subsequently both paid on 28 August 2013.

Exploration expenditure for the year was $3,284,321 (2012 - $3,027,119). The majority of this expenditure was on the Halls Creek and Parker Range projects. Exploration expenditure written off for the year was $781,956 compared to $1,411,634 in the previous financial year.

Net administration expenses and employee benefits for the year totalled $1,179,601 (2012 - $1,341,615).

During the next financial year the Company intends to continue to develop its core projects (Parker Range and Halls Creek) and explore new mining opportunities both in Australia and overseas. These opportunities are being explored by the Board and corporate consultants who operate on a success fee basis only.

4. RISKS

There are specific risks associated with the activities of the Company and general risks which are largely beyond the control of the Company and the Directors. The risks identified below, or other risk factors, may have a material impact on the future financial performance of the Company and the market price of the Company's shares.

All mining ventures are exposed to risks and the Board continues to monitor risks associated with current projects whilst also analysing the risks associated with any new mining opportunities. These risks may cover such areas as:

- Title Risk

  This may specifically cover mining tenure whereby country specific mining laws and legislation apply.

  Any opportunity in Australia and overseas will be subject to particular risks associated with operating in Australia or the respective foreign country. These risks may include economic, social or political instability or change, hyperinflation, currency non-convertibility or instability and changes of law affecting foreign ownership, exchange control, exploration licensing, export duties, investment into a foreign country and repatriation of income or return of capital, environmental protection, land access and environmental regulation, mine safety, labour relations as well as government control over mineral properties or government regulations that require the employment of local staff or contractors or require other benefits be provided to local residents.

- Exploration Risk

  The Board realises that mineral exploration and development are high risk undertakings due to the high level of inherent uncertainty. There can be no assurance that exploration of the Group's tenements, or of any other tenements that may be acquired by the Group in the future, will result in the discovery of economic mineralisation. Even if economic mineralisation is discovered there is no guarantee that it can be commercially exploited.

  Any future exploration activities of the Group may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Group.

- Resource Estimates

  The Company's main projects contain JORC Code compliant resources. There is no guarantee that a JORC Code compliant resource will be discovered on any of the Company's other tenements. Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when originally calculated may alter significantly when new information or techniques become available. In addition, by their very nature, resource estimates are imprecise and depend to some extent on interpretations which may prove to be inaccurate. As further information becomes available through additional fieldwork and analysis the estimates are likely to change. This may result in alterations to development and mining plans which may, in turn, adversely affect the Company's operations and the value of the Company's Listed Shares.

- Access Risks – Cultural Heritage and Native Title

  The Group must comply with various country specific cultural heritage and native title legislation including access agreements which require various commitments, such as base studies and compliant survey work, to be undertaken ahead of the commencement of mining operations.

  It is possible that some areas of those tenements may not be available for exploration due to cultural heritage and native title legislation or invalid access agreements. The Group may need to obtain the consent of the holders of such interests before commencing activities on affected areas of the tenements. These consents may be delayed or may be given on conditions which are not satisfactory to the Group.

- JV and Contractual Risk

  The Group has and may have additional options where it can increase its holding in the selective assets by achieving or undertaking selected milestones. The Group's ability to achieve its objectives and earn or maintain an interest in these projects is dependent upon it and the registered holders of those tenements complying with their respective contractual obligations under joint venture agreements in respect of those tenements, and the registered holders complying with the terms and conditions of the tenements and any other relevant legislation.

- Economic

  General economic conditions, introduction of tax reform, new legislation, the general level of activity within the resources industry, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and possible production activities, as well as on its ability to fund those activities.

- Market conditions

  Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

  - general economic outlook;
  - introduction of tax reform or other new legislation;
  - interest rates and inflation rates;
  - changes in investor sentiment toward particular market sectors;
  - the demand for, and supply of, capital; and
  - terrorism or other hostilities.

  The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

- Volatility in Global Credit and Investment Markets

  Global credit, commodity and investment markets have recently experienced a high degree of uncertainty and volatility. The factors which have led to this situation have been outside the control of the Company and may continue for some time resulting in continued volatility and uncertainty in world stock markets (including the ASX). This may impact the price at which the Listed Options and Shares trade regardless of operating performance and affect the Company's ability to raise additional equity and/or debt to achieve its objectives, if required.

- Commodity Price Volatility and Exchange Rates Risks

  If the Company achieves success leading to mineral production, the revenue it will derive through the sale of coal or any other minerals it may discover exposes the potential income of the Company to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for commodities and metals, technological advancements, forward selling activities and other macro-economic factors such as inflation expectations, interest rates and general global economic conditions.

  Furthermore, international prices of various commodities are denominated in United States dollars whereas the income and expenditure of the Company are and will be taken into account in Australian currency. This exposes the Company to the fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined in international markets.

  If the price of commodities declines this could have an adverse effect on the Company's exploration, development and possible production activities, and its ability to fund these activities, which may no longer be profitable.

- Environmental Risks

  The operations and proposed activities of the Company are subject to each project's jurisdiction, laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. Future legislation and regulations governing exploration, development and possible production may impose significant environmental obligations on the Company.

  The cost and complexity of complying with the applicable environmental laws and regulations may prevent the Company from being able to develop potential economically viable mineral deposits. The Company may require approval from the relevant authorities before it can undertake activities that are likely to impact the environment. Failure to obtain such approvals or to obtain them on terms acceptable to the Company may prevent the Company from undertaking its desired activities. The Company is unable to predict the effect of additional environmental laws and regulations, which may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area.

  There can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Company to incur significant expenses and undertake significant investments in such respect which could have a material adverse effect on the Company's business, financial condition and results of operations.

The above risks are not exhaustive but are the minimum exposure areas observed by the Group. Outside of the above, the Group is continually assessing Industry type risk (covering resources, commercial, commodity prices & volatility, insurance and environmental) and general type risk (economic, share markets, government & legal and global volatility).

5. *DIVIDENDS PAID OR RECOMMENDED*

The directors do not recommend the payment of a dividend and no amount has been paid or declared by way of a dividend to the date of this report.

6. *REVIEW OF OPERATIONS*

Corporate

Under a sale agreement, the Company is entitled to receive quarterly payments of $250,000 from Phoenix Gold Limited ('Phoenix') for a total of eight (8) quarters (totalling $2,000,000) from the start of the March quarter. These payments are a part of the deferred consideration resulting from the sale of tenements to Phoenix.

In addition, a further gold production royalty stream from the Catherwood gold project is due from Phoenix commencing in the March 2014 quarter.

The royalty is $40/ounce to the Company and is capped at $3,000,000.

Projects

Halls Creek Copper Project (CAZ earning 75%)

Mount Angelo North

The Company is in agreement with 3D Resources Limited to earn up to a 75% interest in the Halls Creek Copper Project, located in the Kimberley region of Western Australia.

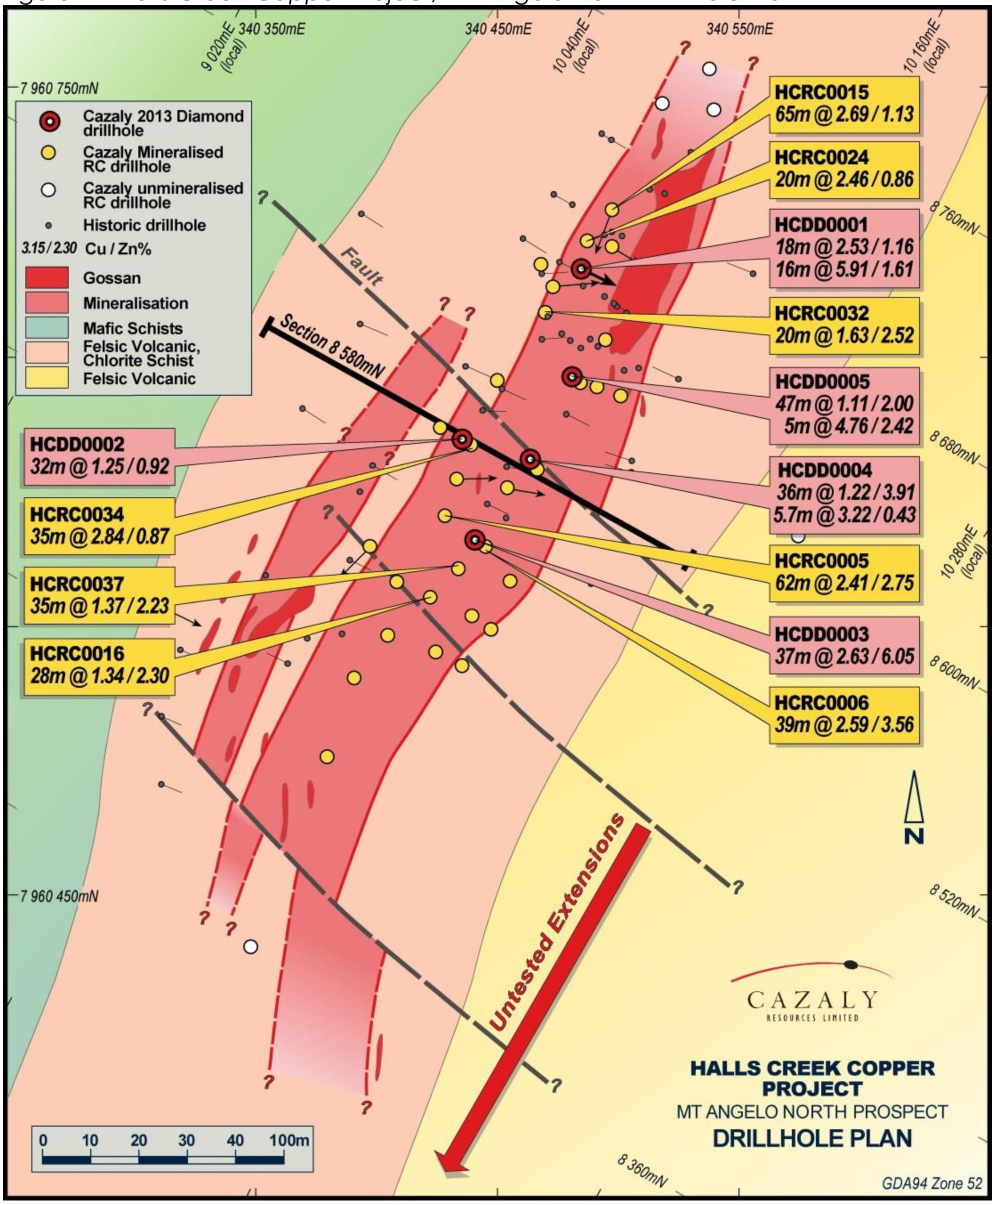
The Halls Creek Project comprises a large package of six tenements covering an area of approximately 298 km², near the township of Halls Creek covering part of the Halls Creek Mobile Zone which is highly prospective for a range of commodities including base metals, gold, diamonds and nickel. Initial work will concentrate on mineralisation previously discovered at the *Mt Angelo North* Cu-Ag-Zn and the *Mt Angelo Porphyry* prospects.

The two prospects occur in association with the Angelo Microdiorite, a 5km by 1km long elongate intrusive occurring along the boundary, and the Koongie Park and Olympio Formations. The Koongie Park Formation is widely considered to have potential regionally for the development of stratabound base metals.

In an ASX announcement on 26 August 2013, Cazaly announced results from their pre-collar RC drilling completed at the Mt Angelo North copper deposit.

Since taking on the project the Company has conducted four drilling programmes for a total of 48 RC and 14 diamond core holes totalling 4,423m RC and 1,021m diamond core. The majority of this drilling has occurred at the Mount Angelo North copper deposit and has delineated a significant, shallow body of volcanogenic massive sulphide (VMS) hosted copper-zinc-silver mineralisation. Furthermore the company discovered a linking 'Feeder' zone below the deposit which has the potential to positively impact upon the future economics of the deposit.

Figure 1 – Halls Creek Copper Project, Mt Angelo North Drill Hole Plan



Better intercepts from the drilling are summarised below in table 1.

Table 1 - Significant Drill Intercepts from RC Holes at Mt Angelo North

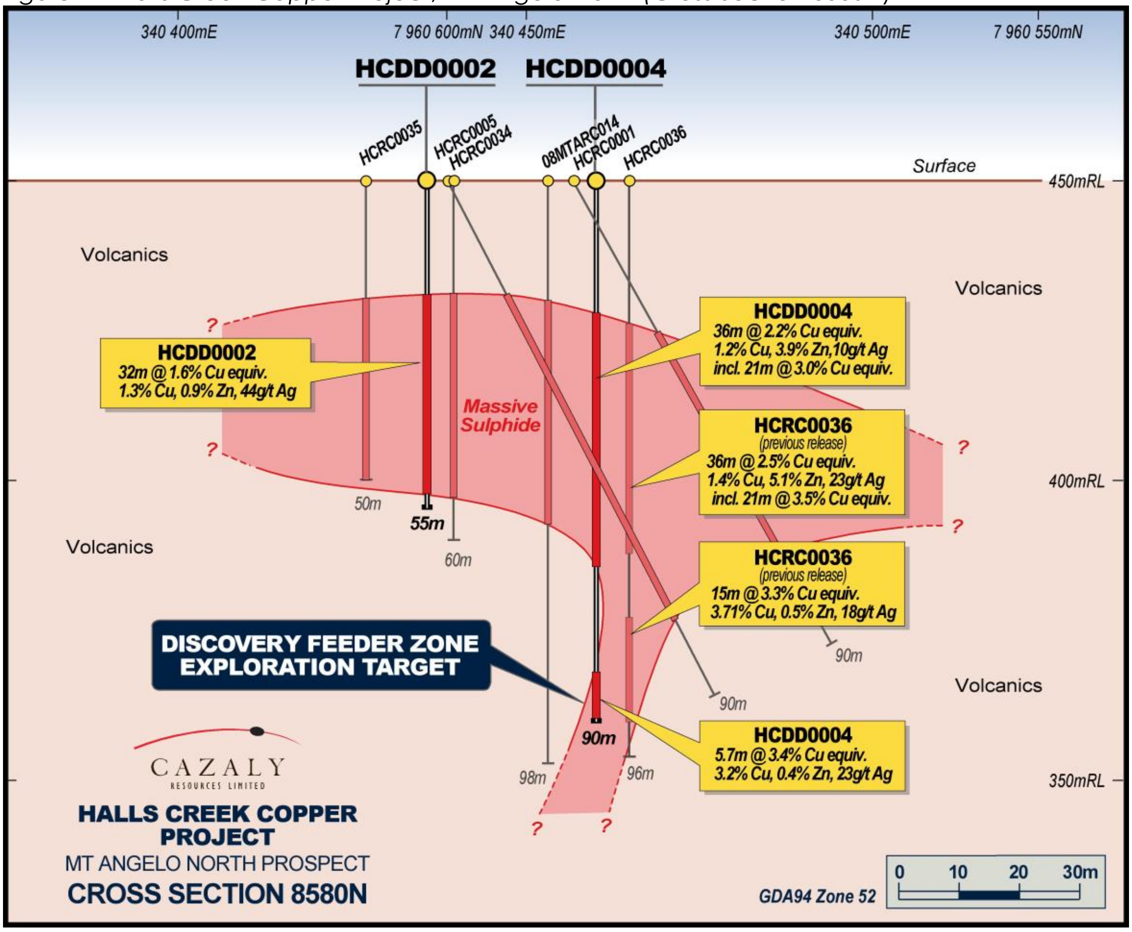
Note:
Cu, Pb, Zn and Ag analysed by 4 acid digest and ICP-MS finish. Au analysed by Fire Assay and AAS finish.
CuEq intercepts calculated using a 0.5% lower cut, minimum 2 metres interval with two internal waste intervals of 3 metres allowable. All holes located on a GDA94-Zone52
****Copper Equivalent Calculation***
Copper Equivalent (CuEq) represents the total metal value for each metal, multiplied by the conversion factor, summed and expressed as equivalent copper percentage. These results are exploration results and no allowance is made for recovery losses should mining eventually occur. However, the company is of the opinion that the elements considered here have reasonable potential to be recovered based upon preliminary metallurgical test work.
Copper Equivalent Formula (CuEq):
(7,500(Cu ppm/10,000)) + (1,850(Zn ppm/10,000)) + (2,100(Pb ppm/10,000)) + (25(Ag ppm/31.1024)) + (1,500(Au ppm/31.1024)) = Ore Value
Ore Value/7,500 = CuEq (%).
Price Assumptions Cu (US$7,500/t), Zn (US$1,850/t), Pb (US$2,100/t), Ag (US$25/oz), Au (US$1,500/oz)

The massive sulphide mineralisation in the upper blanket zone has been extended by up to 50m to the east for 100m of strike and remains open. The results have confirmed the geological model and show that the massive sulphide blanket extends further than historic drilling on the eastern flank. In this area, results indicate copper/zinc ratios grade into more distal zinc-copper ore.

The discovery of the feeder zone is highly encouraging for the discovery of further high grade mineralisation at Mount Angelo North. The zone is characterised by chalcopyrite bearing breccia/stringer zone in a sub-vertical system linking into the more massive overlying chalcocite/chalcopyrite ore body above (figure 2).

Figure 2 – Halls Creek Copper Project, Mt Angelo North (Cross Section 8580N)



Multi-element data and structural information collected from recent drilling will assist Cazaly targeting other massive sulphide lenses as well as extensions to the blanket and feeder mineralisation defined to date at the Mt Angelo North copper deposit.

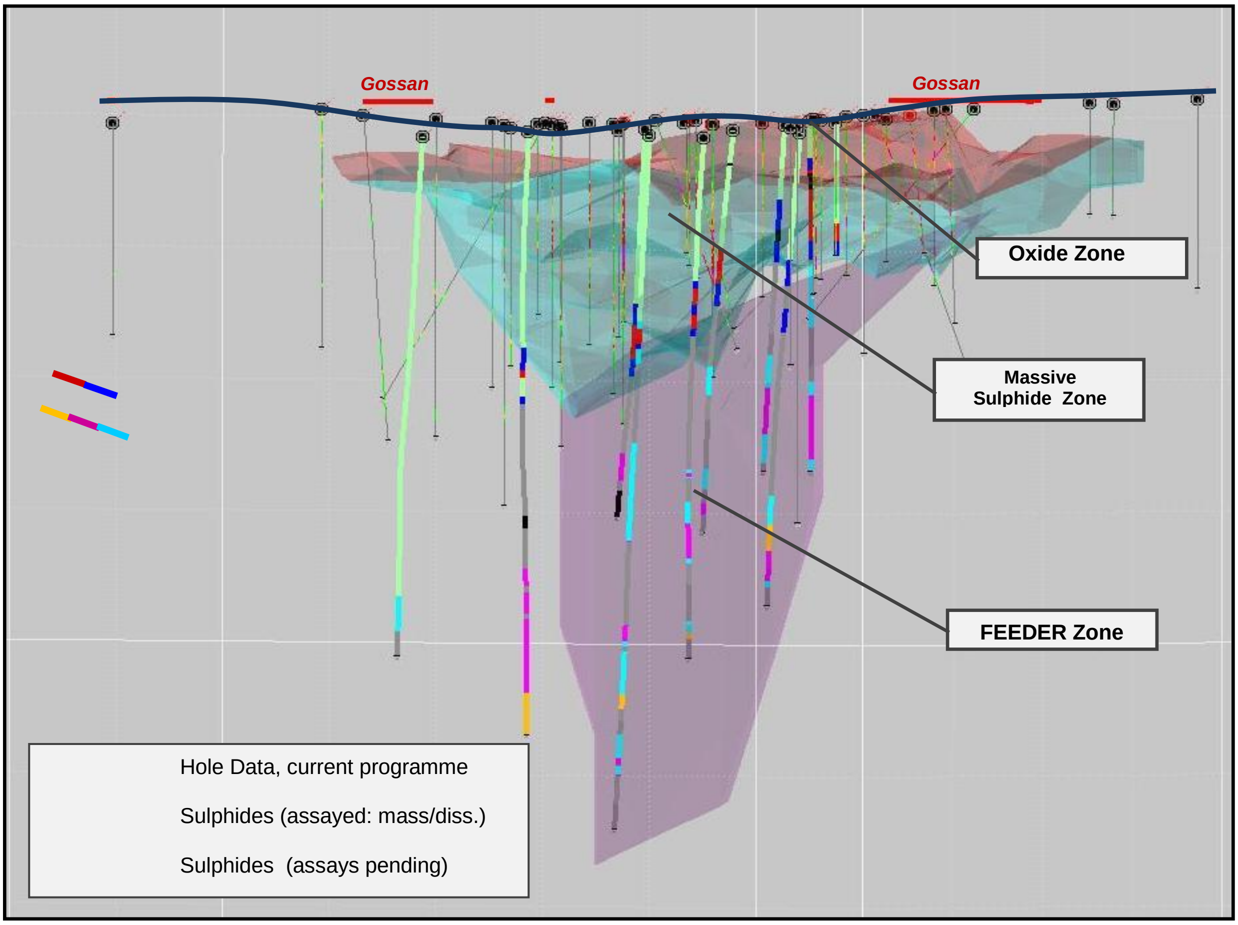


Figure 3- Schematic section showing drilling & predicted extent of Feeder Zone relative to overlying VMS & oxide mineralisation, Mt Angelo North deposit

The Company will collate all data and await final assays ahead of planning further drilling targeting the extensions of the Feeder and Blanket mineralisation. This work will lead into a maiden resource for the deposit aimed for release later in 2013.

Mount Angelo Porphyry

The company completed first pass drilling at the Mt Angelo Porphyry located 2.5km to the south west of the Mt Angelo North copper deposit (Figure 4). A total of 5 reverse circulation (RC) holes for 862 metres were drilled within the quartz porphyry intrusive. Previous RC and Diamond core drilling returned intercepts up to 117m @ 0.32% Cu and 150m @ 0.30% Cu. The porphyry system is large with extensive intercepts of disseminated and occasional semi-massive sulphides and it appears that the entire intrusive is mineralised.

The higher grade intercepts of mineralisation included 23m @ 1.00% Cu and 7m @ 1.26% Cu, indicating potential for the delineation of higher grade zones in the system (Table 3).

Table 3 - Significant Drill Intercepts, Mount Angelo Porphyry Prospect

Hole ID	East	North	GDA Grid	Hole Depth	GDA Azm	Dip	Intercept

All elements analysed by aqua regia digest and ICPMS finish

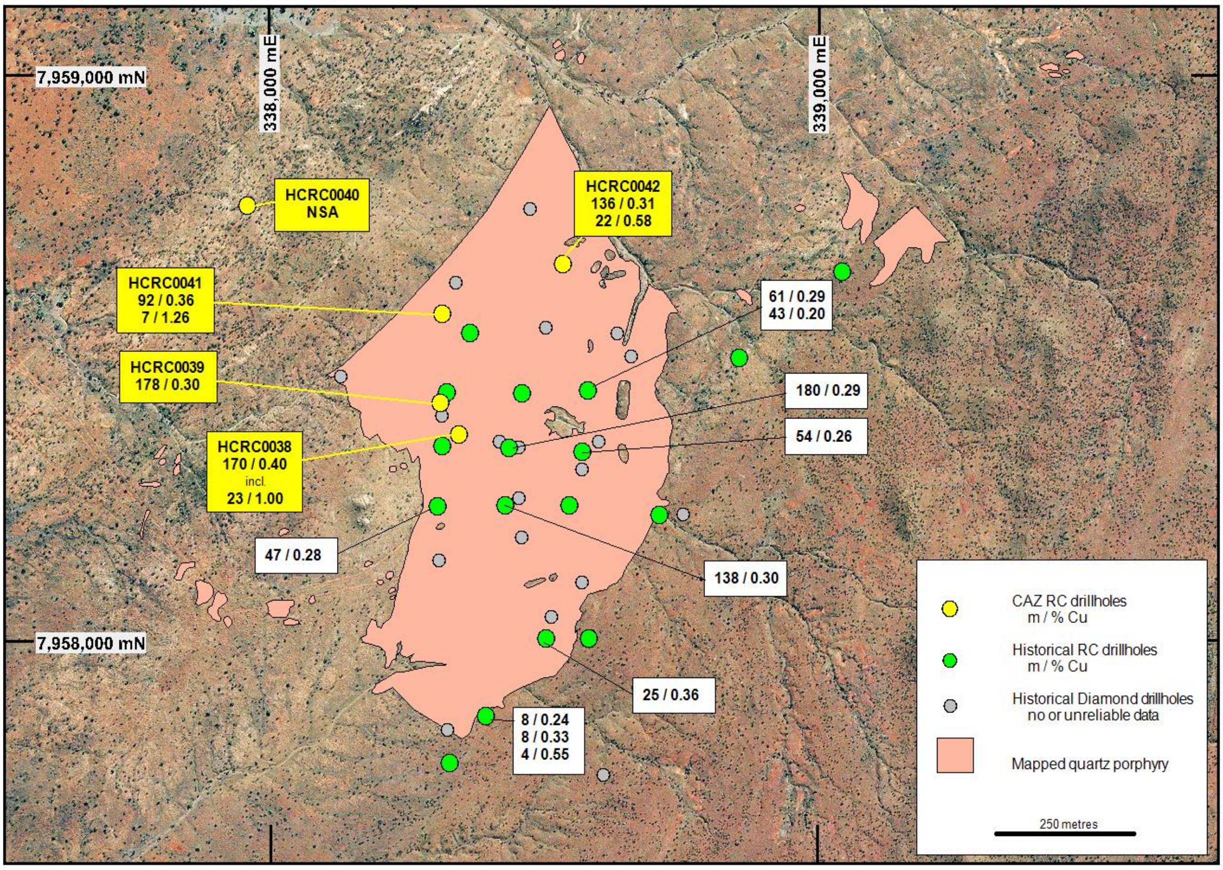

Figure 4 - Drillhole plan showing extent of mineralised quartz porphyry, Mt Angelo Porphyry prospect

Helitem Results

Processing and Interpretation of a helicopter borne electromagnetic (EM) survey flown by the company in February this year was completed. The survey covered 1,049 line kilometres over 140 square kilometres of the Halls Creek Copper Project. A total of 36 EM conductor targets have been identified that may represent undiscovered sulphide mineralisation of a similar nature as the Mount Angelo North VHMS deposit. These anomalies are currently being prioritised and plans for follow-up work in the field are underway.

Webb Project - (CAZ 100%)

Site works were recently completed over the main Iron Oxide Copper Gold ('IOCG') target at the Webb Project located within the West Arunta region of WA and is ready for drilling.

Proposed drilling is aimed at identifying the source of a pronounced 3 km × 3 km magnetic anomaly (amplitude 1100 nT) which is coincident with a 4 mgal gravity anomaly (Figure 5). This anomaly compares favourably with other known IOCG mineral deposits with coincident or near-coincident magnetic and gravity anomalies resulting from magnetite and hematite alteration. The amplitudes lie within the Carrapateena – Olympic Dam range, with the Carrapateena Deposits having coincident 200 nT magnetic and 2mgal gravity anomalies and Olympic Dam having a 1600 nT anomaly and an anomalous gravity response of 17 mgal associated with the hematitie mineralisation/alteration.

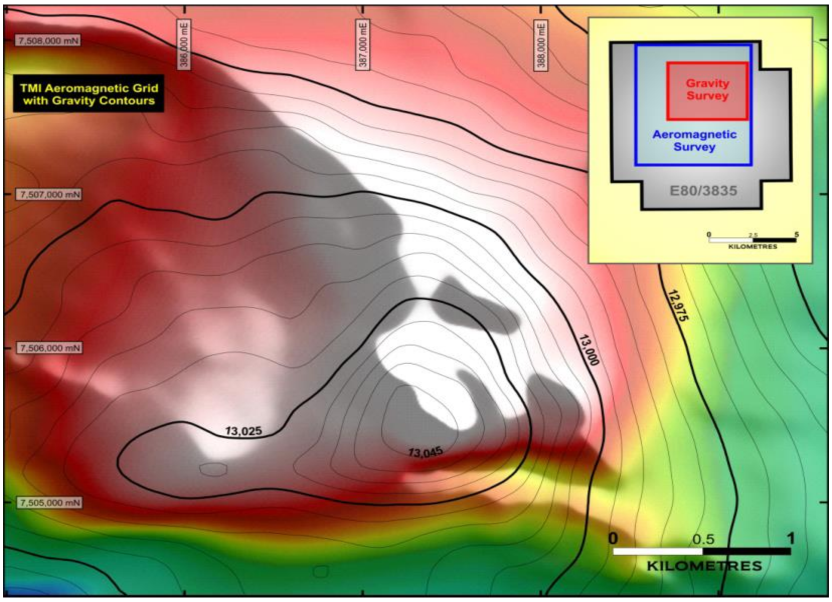

Figure 5 – Coincident magnetic and gravity anomaly at Webb Project

Parker Range Iron Ore Project (CAZ 100%)

The Parker Range Iron Ore Project ("PRIOP") is effectively a 'mine ready' development project. The project has a Definitive Feasibility Study fully completed and has all key regulatory approvals in place. Access to a reliable export port facility however has stalled development of the project. Significant progress however has been made in the development of a new iron ore export facility at the Port of Esperance as the State Government continues to advance the interests of the planned producers in the Yilgarn iron ore province. It is expected that the expansion will commence in 2014 with a view towards the export facilities being ready for operation in 2015.

The Company has a signed Capacity Reservation Deed in place with the port for 5Mtpa.

The Company continues to engage with potential partners, including potential third party port constructors and operators for the project.

Hamersley Iron Ore Project
(Cazaly 49% interest and Winmar Resources Ltd 51% interest)

In November 2012, the Company's joint venture partner, Winmar Resources Limited (ASX: WFE) completed its earn-in requirements (expenditure of $6 million) under the Farm-in and Joint Venture Agreement and earned its 51% participating interest.

During May 2013 Winmar announced a maiden Indicated Mineral Resource at the Hamersley Iron Joint Venture Project which is located 50km north-northeast of Tom Price in the Pilbara region of Western Australia.

The total current Resource is 343.2Mt @ 54.5% Fe (57.9% Ca Fe) which comprises an Indicated Resource of 42.6 Mt @ 55.2% Fe (57.3% Ca Fe) and an Inferred Resource of 300.6 Mt @ 54.5% Fe (57.9% Ca Fe) and remains open in several areas.

The upgrade of the Mineral Resource to Indicated category provides the Joint Venture with the opportunity to commence a range of studies including scoping studies, mine economic studies, environmental studies and Native Title negotiations as part of prefeasibility studies. These studies will examine the potential for the early development of Direct Shipping Ore (DSO) from the Channel iron Deposit (CID) material to the southwest of the project area.

Joint Venture Projects

<u>Musgrave JV (Cazaly diluting to 10% - Traka Resources Ltd (ASX: TKLK) acquiring 90%)</u>

Cazaly notes the recent publicity regarding the exploration success of BHP Billiton on the adjacent tenement. Forthcoming work planned comprises; a systematic MLEM survey, particularly within the area north and south of BHP Billiton's Prospects called Gilboa, Succoth, Salem, Esagila and Goshem. Aeromagnetic, gravity and geological mapping indicates that the whole of this area, both within BHP Billiton's tenements and also the JV areas, is underlain by one or more of the prospective mafic and ultramafic intrusives that comprise part of the Giles Intrusive Complex. Massive, stringer and disseminated copper and nickel sulphide mineralisation within feeder zones or in structures peripheral to or within the intrusive rocks constitute the target style. Recent reports (April 11th 2013) have indicated that recent drilling by BHP Billiton at its Succoth prospect had "*returned broad intersections of copper mineralisation at relatively high grades…including a return of about 200m of mineralisation at a grade of about 1.3% copper*". As is the case for the Babel Nebo resource, the massive and/or stringer sulphide zones are often directly associated with peripheral disseminated sulphide zones. A systematic MLEM survey in the priority area could lead to follow up drilling fairly quickly on any of the targets that may be highlighted.

For further detailed information please consult the Traka Resources Limited website (www.trakaresources.com.au).

<u>Huckitta JV (Cazaly 20% - Mithril Resources Ltd (ASX: MTH) 80%)</u>

The East Arunta Project Area is highly prospective for the discovery of economic copper mineralisation within both the Iron Oxide Copper Gold (IOCG). The Illogwa IOCG JV Area lies within the Huckitta Project and is located on two tenements (ELs 25643 and 25653) subject to a joint venture between MTH (80%) and a wholly owned subsidiary of the Company, Sammy Resources Pty Ltd (20%). The parties are now funding the project pro-rata and MTH is the operator of the joint venture.

Targets have been advanced to "drill-ready" stage (in the Mini Me West and El Gordo areas) with drilling anticipated to commence in September 2013. Prospectivity of the targets has been further reinforced by the identification of further surface copper mineralisation at Mini Me West and EM geophysical anomalies at El Gordo.

Additional targets have been prioritised for further geophysical surveying and geological mapping in order to also advance them to a "drill ready" stage

Mini Me West (Cazaly 20% - MTH 80%)

Mini Me West is located within the eastern half of Illogwa and comprises an 800 - metre long coincident EM and IP geophysical anomaly. Portions of this anomaly lie beneath outcropping disseminated copper mineralisation (2012 rock chip results up to 1.9% copper) and modeling suggests that the geophysical anomalies are two parallel steeply north east – dipping bodies which may be attributable to sulphide mineralisation.

The target's prospectivity was further reinforced with the identification of more outcropping quartz – haematite alteration and copper mineralisation directly above the IP anomaly. All statutory approvals have now been received for Mini Me West and the target is being drilled in the September 2013 quarter.

El Gordo (Cazaly 20% - MTH 80%)

El Gordo is located immediately south of Mini Me West, and comprises a zone of sporadically outcropping copper (malachite – azurite) mineralisation and associated quartz – haematite alteration which has been mapped over 800 metres strike length with widths ranging from 2 to 10 metres. 2012 rock chip sampling of the mineralisation returned values ranging from 0.7% to 12.6% copper, 0.1g/t to 1.0g/t gold and 1.6g/t to 12.5g/t silver.

Three shallow reconnaissance drill holes completed by Mithril in late 2012 at the eastern end of El Gordo, successfully intersected copper mineralisation, with one hole (MIRC-008) returning 14m @ 0.34% copper, 0.04g/t gold from 18 metres including 2m @ 1.15% copper, 0.23g/t gold. The intersection remains open in all directions and will be tested by further tested by drilling in the upcoming program.

A review of MTH's 2012 VTEM survey data over the area has also identified three weak EM geophysical anomalies at El Gordo. The features have not been drill tested and their significance is currently being assessed given that they coincide with, and lie directly along strike from, known copper mineralisation. All statutory approvals have now been received for the target.

Earaheedy JV (Anglo American earning 75%, CAZ/VEC 25%)

Cazaly and Vector Resources Limited (ASX:VEC) (collectively the Earaheedy Joint Venture, "EJV") have a farm-in agreement with Anglo American ("Anglo"), the global diversified mining house, covering a large part of the Earaheedy East Iron project in the Wiluna region of Western Australia (Figure 6). Anglo can earn a 75% interest via staged payments of up to $51m and the completion of a BFS.

Initial work undertaken by Anglo appears to confirm extensive outcropping iron formations. A 5,000m RC drilling campaign is expected to commence in the last quarter of 2013.

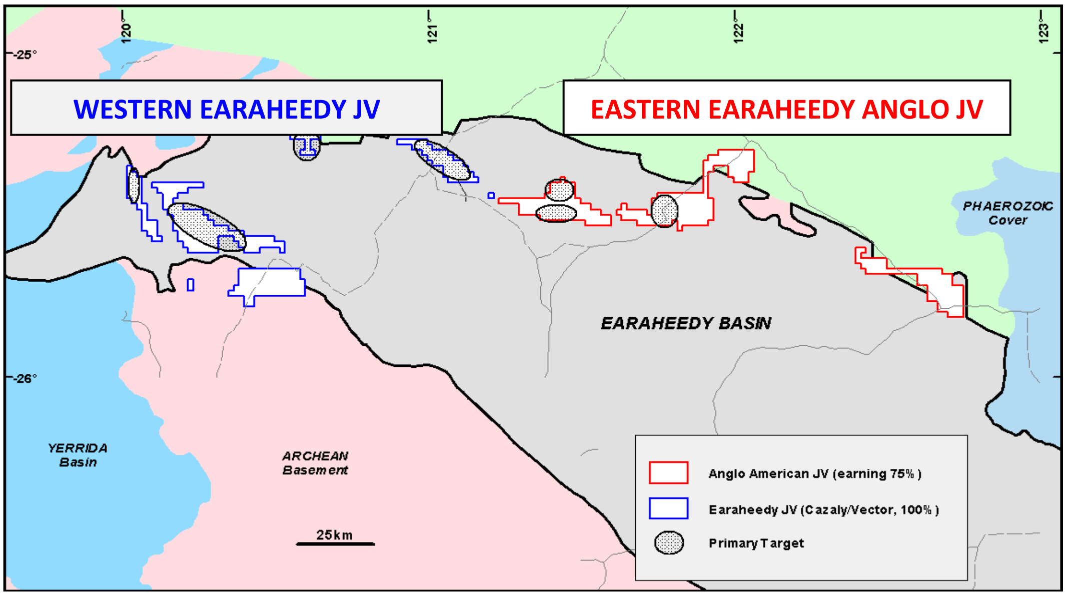

Figure 6: Location map of Earaheedy JV's

The Cazaly-Vector JV covers the Earaheedy West iron Project where manganese potential has been confirmed at the Blue Cliffs and Blue Nugget prospects.

6. FUTURE DEVELOPMENTS, PROSPECTS AND BUSINESS STRATEGIES

The Consolidated Group will continue its mineral exploration activity at and around its exploration projects with the object of identifying commercial resources.

The Consolidated Group will also continue to identifying new mineral exploration opportunities within Australia and the rest of the world for further potential acquisitions which may offer value enhancing opportunities for shareholders.

7. SIGNIFICANT CHANGES IN STATE OF AFFAIRS

The following significant changes in the state of affairs of the Consolidated Group occurred during the financial period:

- On 22 August 2012 the Consolidated Group acquired 80% of the issued capital in Discovery Minerals Pty Ltd ("Discovery"). Discovery, via its fully owned European subsidiary, has several tenement applications in Europe targeting potential uranium mineralisation. During the December quarter, Cazaly received 2,500,000 shares in Zeus Resources Ltd (ASX: ZEU) as consideration for the vending in of the Discovery uranium tenements.

- During The December quarter, the Company received 2,058,824 shares in McPherson's Reward Ltd (ASX: MRP) as the full payment for the Boorara project. The Company retains a 1% net smelter royalty capped at $2,000,000.

- On 8 November 2012, the Company issued 1,250,000 ordinary shares to 3D Resources as part consideration for the farm-in agreement to earn up to 75% in the Halls Creek Copper Project.

- On 29 January 2013, the Company issued 600,000 ordinary shares to Sulphide Resources Pty Ltd as consideration for a 1.5% net smelter royalty for M80/247 (tenement included within Mount Angelo North copper deposit area).

- From the start of the June quarter, the first of eight quarterly payments of $250,000 were received from Phoenix Gold Limited. The payments commenced after first production from royalty tenements with production now commenced by Phoenix Gold Limited. In addition, a royalty stream commenced with the first payment received in the June quarter (for production in the March quarter) from Phoenix Gold Limited who have commenced processing gold from the Catherwood gold project. The royalty is initially worth $40/ounce.

- On 16 April 2013, a placement was successfully completed of 5,000,000 ordinary shares at an issue price of $0.16 to raise $800,000.

8. AFTER BALANCE DATE EVENTS

The 1:12 non-renounceable entitlement issue (as outlined above) closed on 5 July 2013. 1,037,996 new ordinary shares were issued on 12 July 2013 to the participants in the entitlement issue which raised $166,079 (before costs).

9. ENVIRONMENTAL ISSUES

The Consolidated Group is aware of its environmental obligations with regards to its exploration activities and ensures that it complies with all regulations when carrying out any exploration work.

The directors have considered the enacted National Greenhouse and Energy Reporting Act 2007 (the NGER Act) which introduces a single national reporting framework for the reporting and dissemination of information about the greenhouse gas emissions, greenhouse gas projects, and energy use and production of corporations. At the current stage of development, the directors have determined that the NGER Act will have no effect on the Group for the current or subsequent financial year. The directors will reassess this position as and when the need arises.

10. INFORMATION ON DIRECTORS

Nathan McMahon	**Managing Director (Corporate and Administration)**	
Qualifications	*B.Com*	
Experience	Mr McMahon has provided tenement management advice to the mining industry for approximately 16 years to in excess of 20 public listed mining companies. Mr McMahon has specialised in native title negotiations, joint venture negotiations and project acquisition due diligence. Mr McMahon is a Director of several listed companies.	
Interest in Shares	Fully Paid Ordinary Shares	17,190,939
Clive Jones	**Managing Director (Technical)**	
Qualifications	*B.App.Sc(Geol), M.AusIMM.*	
Experience	Mr Jones has been involved in mineral exploration for over 25 years and has worked on the exploration for a range of commodities including gold, base metals, mineral sands, uranium and iron ore. Mr Jones is a Director of several ASX listed companies. He is Chairman of Unity Mining Ltd, joint Managing Director of Cazaly Resources Ltd, Chairman of Corazon Mining Ltd and a Director of Bannerman Resources Ltd.	

Interest in Shares	Fully Paid Ordinary Shares	10,075,114
Kent Hunter	**Non-Executive Director**	
Qualifications	*B.Bus, CA.*	
Experience	Mr Hunter is a Chartered Accountant with over 16 years' corporate and company secretarial experience. He has been involved in the listing of over 20 exploration companies on ASX in the past 9 years. He has experience in capital raisings, ASX compliance and regulatory requirements and is currently a director of Cazaly Resources Limited and is company secretary of two other ASX Listed entities.	
Interest in Shares	Fully Paid Ordinary Shares	2,052,103

Directorships of other listed companies

Directorships of other listed companies held by directors in the three years immediately before the end of the financial year are as follows:

Name	***Company***	***Period of directorship***
Nathan McMahon	Hodges Resources Limited	Since May 2008
	Whitestar Resources Limited	From December 2009 to April 2012
	Winmar Resources Limited	From October 2010 to May 2011
	Dempsey Minerals Limited	Since February 2011
Clive Jones	Corazon Mining Limited	Since February 2005
	Cortona Resources Limited	From January 2006 to January 2013
	Bannerman Resources Limited	Since January 2007
	Unity Mining Limited	Since January 2013
Kent Hunter	Red Emperor Resources NL	From April 2007 to August 2010
	Cauldron Energy Limited	From November 2002 to March 2011
	Krakatoa Resources Limited	From January 2012
	Stratum Metals Limited	Since December 2010
	Western Manganese Limited	Since June 2010
	Carbon Conscious Limited	Since November 2010

11. REMUNERATION REPORT (Audited)

This report details the nature and amount of remuneration for each director of Cazaly Resources Limited.

Remuneration Policy

The remuneration policy of Cazaly Resources Limited has been designed to align director objectives with shareholder and business objectives by providing a fixed remuneration component which is assessed on an annual basis in line with market rates. The board of Cazaly Resources Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best directors to run and manage the company, as well as create goal congruence between directors and shareholders.

The board's policy for determining the nature and amount of remuneration for board members is set out below.

The remuneration policy, setting the terms and conditions for the executive directors and other senior staff members, was developed by the managing directors and approved by the board after seeking professional advice from independent external consultants.

In determining competitive remuneration rates, the Board seeks independent advice on local and international trends among comparative companies and industry generally. It examines terms and conditions for employee incentive schemes benefit plans and share plans. Independent advice is obtained to confirm that executive remuneration is in line with market practice and is reasonable in the context of Australian executive reward practices.

All executives receive a base salary (which is based on factors such as length of service and experience), superannuation and fringe benefits.

The Consolidated Group is an exploration entity, and therefore speculative in terms of performance. Consistent with attracting and retaining talented executives, directors and senior executives are paid market rates associated with individuals in similar positions, within the same industry.

The Board acquired and were issued shares as part of the terms of the Initial Public Offer in 2003. Board members have retained these securities which assist in aligning their objectives with overall shareholder value.

Options have been issued to Board members to provide a mechanism to participate in the future development of the Company and an incentive for their future involvement with and commitment to the Company.

Options and performance incentives will be issued in the event that the entity moves from an exploration entity to a producing entity, and key performance indicators such as profits and growth can be used as measurements for assessing Board performance.

All remuneration paid to directors is valued at the cost to the Company and expensed or carried forward on the balance sheet for time that is attributable to exploration and evaluation. Shares given to directors and executives are valued as the difference between the market price of those shares and the amount paid by the director or executive. Options are valued using the Black-Scholes methodology.

The board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. The managing directors in consultation with independent advisors determine payments to the non-executive directors and review their remuneration annually, based on market practice, duties and accountability. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting. Fees for non-executive directors are not linked to the performance of the Company. However, to align directors' interests with shareholder interests, all directors are encouraged to hold shares in the company.

Company Performance, Shareholder Wealth and Directors' and Executives' Remuneration

The remuneration policy has been tailored to increase goal congruence between shareholders and directors and executives. This has been achieved by the issue of shares to the majority of the directors and executives to encourage the alignment of personal and shareholder interest.

Details of Remuneration for Year Ended 30 June 2013

The remuneration for key management personnel of the company during the year was as follows:

	Short-term Benefits				Post-Employment Benefits	Other Long-term Benefits	Share based Payment		Total	Performance Related
	Cash, salary & commiss-ions	Cash profit share	Non-cash benefit	Other	Super-annuation	Other	Equity	Options (i)

i) The fair value of the Options is calculated at the date of grant using a Black-Scholes model.

ii) An aggregate amount of $180,000 (2012:$ 180,000) was paid, or was due and payable to Kingsreef Pty Ltd, a company controlled by Mr Nathan McMahon, for the provision of corporate and tenement management services to the Company.

iii) An aggregate amount of $180,000 (2012:$ 180,000) was paid, or was due and payable to Widerange Corporation Pty Ltd, a company controlled by Mr Clive Jones, for the provision of geological services to the Company.

iv) In 2012 fees of $2,409 were paid to Sila Consulting Pty Ltd for the provision of company secretarial services. Ms Wynne is a Director of Sila Consulting Pty Ltd. Fees of $35,000 were paid to Blue Horse Corporate Pty Ltd for the provision of company secretarial services to the Company. Ms Wynne is a director and shareholder of Blue Horse Corporate Pty Ltd. Ms Wynne resigned as Company Secretary on 7 September 2011.

v) Fees of $50,000 (2012: $41,667) were paid the DZB Pty Ltd, a company controlled by Ms Hill, for the provision of company secretarial services to the company. Ms Hill was appointed Company Secretary on 7 September 2011.

Options issued as part of remuneration for the year ended 30 June 2013

No Options were issued to directors or executives as part of their remuneration for the year ended 30 June 2013.

The following Options were issued to executives as part of their remuneration for the year ended 30 June 2012. No cash consideration was paid by the recipients.

	Number Granted	Number Vested	Grant Date	Expiry Date	Exercise Price $	Fair Value at Grant Date $
J Hill	100,000	100,000	14.09.2011	14.09.2013	$0.40	0.114

Employment Contracts of Directors and Senior Executives

The employment conditions of the joint Managing Directors, Nathan McMahon and Clive Jones, are each formalised in contracts of employment. These contracts commenced on 31 October 2011 and have terms of 3 years. The contracts provide Messrs.' McMahon and Jones with annual salaries of $180,000 each. The company may terminate these agreements at any time and without prior notice if serious misconduct has occurred. In this event only the fixed proportion of the remuneration is payable and only up until the date of the termination.

There is no formal contract finalized at the completion of the 30 June 2013 financial year for the non-executive director. The non-executive director was paid under terms agreed to by a directors' resolution at $27,250 per year.

The employment contracts stipulate a range of one to three-month resignation periods. The Consolidated Group may terminate an employment contract without cause by providing one to three months written notice or making payment in lieu of notice, based on the individual's annual salary component.

Termination payments are not payable on resignation or under the circumstances of unsatisfactory performance.

End of remuneration report.

12. MEETINGS OF DIRECTORS

The number of directors' meetings and/or circular resolutions held and/or conducted during the financial year, each director held office during the financial year and the number of meetings and/or circular resolutions attended and/or signed off by each director is:

	Directors Meetings/Resolutions	
Director	**Number Eligible to Attend**	**Meetings Attended**
N McMahon	10	10
C Jones	10	10
K Hunter	10	10

The Consolidated Group does not have a formally constituted audit committee as the board considers that the company's size and type of operation do not warrant such a committee.

13. INDEMNIFYING OFFICERS OR DIRECTORS

In accordance with the constitution, except as may be prohibited by the Corporations Act 2001 every Officer, or agent of the Company shall be indemnified out of the property of the Company against any liability incurred by him in his capacity as Officer or agent of the Company or any related corporation in respect of any act or omission whatsoever and howsoever occurring or in defending any proceedings, whether civil or criminal.

The Company has insurance policies in place for Directors and Officers insurance. The premium paid on this policy was $15,540.

14. OPTIONS

Unissued Shares under Option

At the date of this report unissued ordinary shares of the Company under option are:

Expiry Date	Exercise Price	Number Under Option	Grant Date
15/12/2013	$0.280	250,000	15/12/2011
18/03/2014	$0.520	300,000	18/03/2011
18/03/2014	$0.520	200,000	15/04/2011
11/01/2015	$0.330	925,000	12/01/2010
04/02/2015	$0.490	100,000	05/02/2010
31/07/2015	$0.100	100,000	01/08/2013
31/07/2016	$0.107	100,000	01/08/2013

Option holders do not have any rights to participate in any issue of shares or other interests in the Company or any other entity.

There have been no unissued shares or interest under option of any controlled entity within the Consolidated Group during or since the reporting date.

For details of options issued to directors and executives as remuneration, refer to the Remuneration Report.

During the year ended 30 June 2013, no ordinary shares of Cazaly Resources Ltd were issued on the exercise of options granted.

15. PROCEEDINGS ON BEHALF OF COMPANY

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or any part of those proceedings.

The Consolidated Group was not a party to any such proceedings during the year.

16. AUDITORS INDEPENDENCE DECLARATION

The lead auditor's independence declaration for the year ended 30 June 2013 has been received and can be found on page 25 of the directors' report.

17. NON AUDIT SERVICES

The board of directors is satisfied that the provision of non-audit services performed during the year by the Group's auditors is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

No other fees were paid or payable to the auditors for non-audit services performed during the year ended 30 June 2013.

This report of the Directors, incorporating the Remuneration Report, is signed in accordance with a resolution of the Board of Directors.

Nathan McMahon
Managing Director **24 September 2013**

Competent Persons Statement

The relevant information contained in the report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled or reviewed by Mr Clive Jones and Mr Don Horn, who are employees of the Company. Mr Jones is a Member of the Australian Institute of Mining and Metallurgy and Mr Horn is a Member of the Australian Institute of Geoscientists. Mr Jones and Mr Horn have sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Jones and Mr Horn consent to the inclusion of their names in the matters based on the information in the form and context in which it appears.

To The Board of Directors

Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

As lead audit director for the audit of the financial statements of Cazaly Resource Limited and its controlled entities for the financial year ended 30 June 2013, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- any applicable code of professional conduct in relation to the audit.

Yours faithfully

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements and notes represent those of Cazaly Resources Limited and Controlled Entities (the "consolidated group" or "group"). Cazaly Resources Limited is a listed public company, incorporated and domiciled in Australia.

The financial statements were authorised for issue on 24 September 2013 by the directors of the company.

Basis of Preparation

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out in accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the IASB. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless otherwise stated.

These financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Going Concern

The financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The Group incurred a loss after tax for the year of $1,262,416 (2012: Loss of $1,875,229) and net cash outflows from operating activities of $3,781,676 (2012: $3,949,880). Working capital has decreased by $1,773,145 from $2,980,628 at 30 June 2012 to $1,207,483 at 30 June 2013.

A 1:12 non-renounceable entitlement issue closed on 5 July 2013 and raised $166,079 (before costs). Subsequent to year end, the Group received $531,732 of the contingent payments from previous sale of tenements and related royalty payments.

Pending the outcome of various applications, the Group could have lease and exploration commitments of $ 6,397,199 (2012: $2,634,676) due within the next twelve months.

The directors have prepared a cash flow forecast, which indicates that the Group will have sufficient cash flows to meet all commitments and working capital requirements for the 12 month period from the date of signing this financial report. Based on the cash flow forecasts and other factors referred to above, the directors are satisfied that the going concern basis of preparation is appropriate because:

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

- the Directors have an appropriate plan to raise additional funds as and when it is required. In light of the Group's current exploration projects, the Directors believe that the additional capital required can be raised in the market; and
- the Directors have an appropriate plan to contain certain operating and exploration expenditure if appropriate funding is unavailable; and
- the Directors expect to received contingent payments from the previous sale of tenements and related royalty payments from these tenements as set out in note 28.

Should the Group not achieve the matters set out above, there is material uncertainty whether the Group will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The financial report does not contain any adjustments relating to the recoverability and classification of recorded assets or to the amounts or classification of recorded assets or liabilities that might be necessary should the Group not be able to continue as going concern.

(a) Principles of Consolidation

The consolidated financial statements incorporate the assets, liabilities and results of entities controlled by the Company at the end of the reporting period. A controlled entity is any entity over which the Company has the power to govern the financial and operating policies so as to obtain benefits from the entity's activities. Control will generally exist when the parent owns, directly or indirectly through subsidiaries, more than half of the voting power of an entity. In assessing the power to govern, the existence and effect of holdings of actual and potential voting rights are also considered.

Where controlled entities have entered or left the Group during the year, the financial performance of those entities are included only for the period of the year that they were controlled. A list of controlled entities is contained in Note 21 to the financial statements.

In preparing the consolidated financial statements, all inter-group balances and transactions between entities in the Group have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with those adopted by the Company.

Non-controlling interests, being the equity in a subsidiary not attributable, directly or indirectly, to a parent, are shown separately within the Equity section of the consolidated Statement of Financial Position and Statement of Profit or Loss and other Comprehensive Income. The non-controlling interest in the net assets comprises their interests at the date of the original business combination and their share of changes in equity since that date.

Business Combinations

Business combinations occur where an acquirer obtains control over one or more businesses and results in the consolidation of its assets and liabilities.

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control. The acquisition method requires that for each business combination on of the combining entities must be identified as the acquirer i.e. parent entity). The business combination will be accounted for as at the acquisition date, which is the date that control over the acquiree is obtained by the parent entity. At this date, the parent shall recognise, in the consolidated accounts, and subject to certain limited exceptions, the fair value of the identifiable assets acquired and liabilities assumed. In addition, contingent liabilities of the acquiree will be recognised where a present obligation has been incurred and its fair value can be reliably measured.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

The acquisition may result in the recognition of goodwill or a gain from a bargain purchase. The method adopted for the measurement of goodwill will impact on the measurement of a non-controlling interest to be recognised in the acquiree where less than 100% ownership inters is held in the acquiree.

The acquisition date fair value of the consideration transferred for a business combination plus the acquisition date fair value of any previously held equity interest shall form the cost of the investment in the separate financial statements. Consideration may comprise the sum of the assets transferred by the acquirer, liabilities incurred by the acquirer to the former owners of the acquiree and the equity interests issued by the acquirer.

Fair value uplifts in the value of pre-existing equity holdings are taken to the Statement of Profit or Loss and other Comprehensive Income. Where changes in the value of such equity holdings had previously been recognised in other comprehensive income, such amounts are recycled to profit or loss.

Included in the measurement of consideration transferred is any asset or liability resulting from a contingent consideration arrangement. Any obligation incurred relating to contingent consideration is classified as either a financial liability or equity instrument, depending upon the nature of the arrangement. Rights to refunds of consideration previously paid are recognised as a receivable. Subsequent to initial recognition, contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or a liability is remeasured each reporting period to fair value through the Statement of Profit or Loss and other Comprehensive Income unless the change in value can be identified as existing at acquisition date.

All transaction costs incurred in relation to the business combination are expensed to the Statement of Profit or Loss and other Comprehensive Income.

(b) Plant and Equipment

Plant and equipment are stated at cost less accumulated depreciation and impairment. The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

(c) Depreciation

Depreciation is provided on plant and equipment. Depreciation is calculated on a straight line basis so as to write off the net cost or other revalued amount of each asset over its expected useful life to its estimated residual value.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	**Depreciation Rate**
Plant and equipment	40.0%
Office furniture and equipment	18.0%
Motor vehicle	22.5%
Leasehold improvements	Term of Lease

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the Statement of Profit or Loss and other Comprehensive Income. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

(d) Exploration, Evaluation and Development Expenditure

Costs incurred during exploration and evaluations relating to an area of interest are accumulated. Costs are carried forward to the extent they are expected to be recouped through successful development, or by sale, or where exploration and evaluation activities have not yet reached a stage to allow a reasonable assessment regarding the existence of economically recoverable reserves. In these instances the entity must have rights of tenure to the area of interest and must be continuing to undertake exploration operations in the area.

Accumulated costs carried forward in respect of an area of interest that is abandoned are written off in full against profit in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest will be amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to capitalise costs in relation to that area of interest.

Costs of site restoration are provided over the life of the project from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with clauses of the mining permits. Such costs have been estimated of future costs, current legal requirements and technology on an undiscounted basis.

(e) Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership, are transferred to entities in the consolidated group are classified as finance leases. Finance leases are capitalised by recording an asset and a liability equal to the present value of the minimum lease payments, including any guaranteed residual values. Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

(f) Financial Instruments

Initial Recognition and Measurement

Financial instruments, incorporating financial assets and financial liabilities, are recognised when the entity becomes a party to the contractual provisions of the instrument. Trade date accounting is adopted for financial assets that are delivered within timeframes established by marketplace convention.

Financial instruments are initially measured at fair value plus transactions costs, except where the instrument is classified as "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Classification and Subsequent Measurement

Finance instruments are subsequently measured at either of fair value, amortised cost using the effective interest rate method, or cost.

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

Amortised cost is the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amounts calculated using the *effective interest method.*

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

The Group does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments.

(i) Financial assets at fair value through profit or loss
Financial assets classified as held for trading are included in the category 'financial assets at fair value through profit or loss'. Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term. Derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on investments held for trading are recognised in profit or loss.

(ii) Held-to-maturity investments
Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Group has the positive intention and ability to hold to maturity. Investments that are intended to be held-to-maturity, such as bonds, are subsequently measured at amortised cost.

Held-to-maturity investments are included in non-current assets, except for those which are expected to mature within 12 months after the end of the reporting period. (All other investments are classified as current assets.)

(iii) Loans and receivables
Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

Loans and receivables are included in current assets, except for those which are not expected to mature within 12 months after the end of the reporting period. (All other loans and receivables are classified as non-current assets).

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(iv) Available-for-sale investments
Available-for-sale investments are those non-derivative financial assets that are designated as available-for-sale or are not classified as any of the three preceding categories. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with gains or losses being recognised in other comprehensive income (except for impairment losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in non-current assets where they are expected to be sold within 12 months after the end of the reporting period. All other financial assets are classified as current assets.

(v) Financial liabilities
Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Impairment

At the end of each reporting period, the Group assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether impairment has arisen. Impairment losses are recognised in profit or loss. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

Financial guarantees

Where material, financial guarantees issued, which require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due, are recognised as a financial liability at fair value on initial recognition. The Group has no such financial guarantees.

De-recognition

Financial assets are de-recognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are de-recognised where the related obligations are discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(g) Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

(h) Trade and Other Receivables

Trade receivables, which generally have 30-90 day terms, are recognised and carried at original invoice amount less an allowance for any uncollectible amounts. An allowance for doubtful debts is made when there is objective evidence that the entity will not be able to collect the debts. Bad debts are written off when identified.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(i) Revenue and Other Income

Revenue from the sale of goods is recognised upon the delivery of goods to customers. Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets. Revenue from the rendering of a service is recognised upon the delivery of the service to the customers.

All revenue is stated net of the amount of goods and services tax (GST).

(j) Impairment of Assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information including dividends received from subsidiaries, associates or jointly controlled entities deemed to be out of pre-acquisition profits. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another standard (eg in accordance with the revaluation model in AASB 116). Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other standard.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

(k) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office ("ATO"). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the statement of financial position.

Cash flows are included in the cash flow statement on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.

(l) Taxation

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well unused tax losses.

Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Tax Consolidation

Cazaly Resources Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under tax consolidation legislation. Each entity in the group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liabilities (assets) and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the head entity. The group notified the Australian Tax Office that it had formed an income tax consolidated group to apply from 1 July 2004.

(m) Trade and Other Payables

Trade payables and other payables are carried at amortised costs and represent liabilities for goods and services provided to the company prior to the end of the financial year that are unpaid and arise when the company becomes obliged to make future payments in respect of the purchase of these goods and services.

(n) Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

(o) Share Based Payments

The Group operates equity-settled share-based payment employee share and option schemes. The fair value of the equity to which employees become entitled is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account. Share-based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the good or services cannot be reliably measured, and are recorded at the date the goods or services are received. The corresponding amount is shown in the option reserve.

The fair value of shares is ascertained as the market bid price. The fair value of options is ascertained using a Black–Scholes pricing model which incorporates all market vesting conditions. The number of shares and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognised for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

(p) Issued Capital

Issued and paid up capital is recognised at the fair value of the consideration received by the Company. Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

(q) Earnings Per Share

Basic earnings per share is calculated as net earnings attributable to members, adjusted to exclude costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for an bonus element.

Diluted earnings per share is calculated as net earnings attributable to members, adjusted for:

costs of servicing equity (other than dividends) and preference share dividends; the after tax effect of dividends and interest associated with dilutive potential ordinary shares that would have been recognised as expenses; and other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

(r) Employee Benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(s) Royalty Assets

Royalty assets are valued in the accounts at cost of acquisition and are amortised over the period in which their benefits are expected to be realised. The balances are reviewed annually and any balance representing future benefits for which the realisation is considered to be no longer probable are written off.

(t) Critical Accounting Estimates and Judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group.

Key Judgements –Exploration and evaluation expenditure
Exploration and evaluation costs are carried forward where right of tenure of the area of interest is current. These costs are carried forward in respect of an area that has not at balance sheet date reached a stage that permits reasonable assessment of the existence of economically recoverable reserves, refer to the accounting policy stated in note 1(d).

Key Judgements Share based payment transactions
The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an internal valuation using a Black-Scholes option pricing model, using the assumptions detailed in note 26.

Key Judgments – Environmental Issues
Balances disclosed in the financial statements and notes thereto are not adjusted for any pending or enacted environmental legislation, and the directors understanding thereof. At the current stage of the company's development and its current environmental impact the directors believe such treatment is reasonable and appropriate.

Key Estimate – Taxation
Balances disclosed in the financial statements and the notes thereto, related to taxation, are based on the best estimates of directors. These estimates take into account both the financial performance and position of the company as they pertain to current income taxation legislation, and the directors understanding thereof. No adjustment has been made for pending or future taxation legislation. The current income tax position represents that directors' best estimate, pending an assessment by the Australian Taxation Office.

	2013 $	2012 $
2. REVENUE & OTHER INCOME		
Revenue		
- interest received	68,478	183,972
- option fees	4,670	137,501

Non-Current		
Costs carried forward in respect of areas of interest in:		
Exploration and evaluation phases at cost	21,860,178	19,072,479
Movement – exploration and evaluation		
Brought forward	19,072,479	17,477,365
Exploration expenditure capitalised during the year	3,284,321	3,027,119
Acquisitions	541,608	-
Recoupment of exploration expenditure from joint venture partners	(11,077)	(20,371)
Exploration expenditure written off	(1,027,153)	(1,411,634)
	21,860,178	19,072,479

The value of the Consolidated Group interest in exploration expenditure is dependent upon:

- the continuance of the Consolidated group rights to tenure of the areas of interest;
- the results of future exploration; and
- the recoupment of costs through successful development and exploitation of the areas of interest, or alternatively, by their sale.

The Consolidated group exploration properties may be subjected to claim(s) under native title, or contain sacred sites, or sites of significance to Aboriginal people. As a result, exploration properties or areas within the tenements may be subject to exploration restrictions, mining restrictions and/or claims for compensation. At this time, it is not possible to quantify whether such claims exist, or the quantum of such claims.

Closing balance 30 June 2013		129,597,118		24,800,080

(i) On 8 November 2012, the Company issued 1,250,000 ordinary shares to 3D Resources as part consideration for the farm-in agreement to earn up to 75% in the Halls Creek Copper Project.

(ii) On 29 January 2013, the Company issued 600,000 ordinary shares to Sulphide Resources Pty Ltd as consideration for a 1.5% net smelter royalty which covers M80/247, which includes the Mount Angelo North copper deposit.

(iii) On 16 April 2013, a placement was successfully completed of 5,000,000 ordinary shares at an issue price of $0.16 to raise $800,000 (before costs).

(iv) Deferred tax recognised directly in equity relating to equity raising costs.

(v) Funds of $25,279 were received by the Company during May 2013. These funds represented proceeds for 157,993 shares that were issued on 12 July 2013 as per the terms and conditions of the Company Non-Renounceable Entitlement Issue which closed on 5 July 2013. The entitlement was based on the issue of 1 new share for every 12 shares held, at an issue price of $0.16 per new share. A total of 1,037,996 shares were issued under the entitlement issue.

Ordinary shares participate in dividends and the proceeds on winding up of the Company in proportion to the number of shares held and in proportion to the amount paid up on the shares held.

At shareholders meetings each ordinary share is entitled to one vote in proportion to the paid up amount of the share when a poll is called, otherwise each shareholder has one vote on a show of hands.

14. ISSUED CAPITAL (Cont'd)

b. Capital risk management

Management controls the capital of the Group when managing capital their intentions are to safeguard their ability to continue as a going concern, so that they may continue to provide returns for shareholders and benefits for other stakeholders. Due to the nature of the Group's activities, being mineral exploration, the Group does not have ready access to credit facilities, with the primary source of funding being equity raisings. Therefore, the focus of the Group's capital risk management is the current working capital position against the requirements of the Group to meet exploration programmes and corporate overheads. Management's strategy is to ensure appropriate liquidity is maintained to meet anticipated operating requirements, with a view to initiating appropriate capital raisings as required.

The working capital position of the Group at 30 June 2013 and 30 June 2012 are as follows:

	2013 $	2012 $
Cash and cash equivalents	598,083	2,847,346
Trade and other receivables	1,051,899	666,012
Financial assets	975,640	1,852,157
Trade and other payables	(392,528)	(468,764)
Working capital position	2,233,094	4,896,751

15. OPTION RESERVE

Opening balance	861,913	1,210,019
Transfers to accumulated losses	(503,588)	(348,106)
Closing balance	358,325	861,913

This reserve is used to record the value of equity benefits provided to the employees and directors as part of their remuneration.

16. ACCUMULATED LOSSES

Opening balance	(801,609)	867,585
Net loss attributable to members	(1,255,476)	(1,875,229)
Transfers from option reserve	503,588	206,035
Closing balance	(1,553,497)	(801,609)

17. FINANCIAL RISK MANAGEMENT

The Group's principal financial instruments comprise receivables, payables, held-for-trading investments, cash and short-term deposits.

The Board of Directors has overall responsibility for the oversight and management of the Group's exposure to a variety of financial risks (including fair value interest rate risk, credit risk, liquidity risk and cash flow interest rate risk).

The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group.

Interest rate risks
The Group's exposure to market interest rates relates to cash deposits held at variable rates. The Board constantly analyses its interest rate exposure. Within this analysis consideration is given to potential renewals of existing positions.

17. FINANCIAL RISK MANAGEMENT (Cont'd)

Credit risk

The maximum exposure to credit risk at balance date is the carrying amount (net of provision of doubtful debts) of those assets as disclosed in the Statement of Financial Position and notes to the financial statements. The Consolidated group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

Credit risk related to balances with banks and other financial institutions is managed by the board. The board's policy requires that surplus funds are only invested with counterparties with a Standard & Poor's rating of at least A+. All of the Group's surplus funds are invested with AA and A+ Rated financial institutions, the amount is $598,083 (2012: $2,847,346).

Liquidity risk

The responsibility for liquidity risk management rests with the Board of Directors. The Consolidated group manages liquidity risk by maintaining sufficient cash or credit facilities to meet the operating requirements of the business and investing excess funds in highly liquid short term investments.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Maturity profile of financial instruments

The following table details the Group's exposure to interest rate risk as at 30 June 2013:

2013	Floating Interest Rate	Fixed Interest maturing in 1 year or less	Fixed Interest maturing over 1 to 5 years	Non-interest bearing	2013 Total
	$	$	$	$	$
Financial assets					
Cash and cash equivalents	597,588	-	-	495	598,083
Trade and other receivables	-	165,800	-	1,051,899	1,217,699
Financial assets – held for trading	-	-	-	975,640	975,640
	597,588	165,800	-	2,028,034	2,791,422
Weighted average Interest rate	-	3.06%	-		
Financial Liabilities					
Trade and other payables	-	-	-	392,528	392,528
				392,528	392,528

17. *FINANCIAL RISK MANAGEMENT (Cont'd)*

The following table details the Group's exposure to interest rate risk as at 30 June 2012:

2012	Floating Interest Rate $	Fixed Interest maturing in 1 year or less $	Fixed Interest maturing over 1 to 5 years $	Non-interest bearing $	2012 Total $
Financial assets					
Cash and cash equivalents	313,432	2,533,419	-	495	2,847,346
Trade and other receivables	-	164,650	-	666,012	830,662
Financial assets – held for trading	-	-	-	1,852,157	1,852,157
	313,432	2,698,069	-	2,518,664	5,530,165
Weighted average Interest rate	-	5.57%	-		
Financial Liabilities					
Trade and other payables	-	-	-	468,764	468,764
				468,764	468,764

Net Fair Values

The carrying value and net fair values of financial assets and liabilities at balance date are:

	2013 Carrying Amount $	2013 Net fair Value $	2012 Carrying Amount $	2012 Net fair Value $
Financial assets				
Cash and deposits	598,083	598,083	2,847,346	2,847,346
Receivables	1,217,699	1,217,699	830,662	830,662
Investment held for trading	975,640	975,640	1,852,157	1,852,157
	2,791,422	2,791,422	5,530,165	5,530,165
Financial liabilities				
Payables	392,528	392,528	468,764	468,764
	392,528	392,528	468,764	468,764

The financial instruments recognised at fair value in the statement of financial position have been analysed and classified using a fair value hierarchy reflecting the significance of the inputs used in making the measurements. All financial instruments measured at fair value are level one, meaning fair value is determined from quoted prices in active markets for identical assets.

Sensitivity Analysis
Interest Rate Risk

The Company has performed sensitivity analysis relating to its exposure to interest rate risk at balance date. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks.

17. FINANCIAL RISK MANAGEMENT (Cont'd)

Interest Rate Sensitivity Analysis

At 30 June 2013, the effect on loss as a result of changes in the interest rate, with all other variables remaining constant would be as follows:

	2013 $	2012 $
Change in loss		
-Increase in interest rate by 100 basis points	5,963	28,474
-Decrease in interest rate by 100 basis points	(5,963)	(28,474)
Change in equity		
-Increase in interest rate by 100 basis points	5,963	28,474
-Decrease in interest rate by 100 basis points	(5,963)	(28,474)

18. EARNINGS PER SHARE

a) Reconciliation of earnings to profit or loss:

	2013	2012
Loss for the year	(1,262,416)	(1,875,229)
Loss used to calculate basic and diluted EPS	(1,262,416)	(1,875,229)

	No. of Shares	No. of Shares
b) Weighted average number of ordinary shares outstanding during the period used in the calculation of basic EPS	124,667,756	122,402,825
Weighted average number of dilutive options outstanding	-	8,621
Weighted average number of ordinary shares outstanding during the year used in calculating dilutive EPS	124,667,756	122,411,446

19. CASH FLOW INFORMATION

	2013 $	2012 $
(i) Reconciliation of cash flows from operating activities with profit/(loss) after income tax		
Profit/(Loss) after income tax	(1,262,416)	(1,875,229)
Non-operating cash flows in loss for the year:		
Depreciation	53,649	68,379
Net Loss on sale of shares	(26,433)	57,274
Net Profit on sale of exploration assets	(2,171,431)	(994,956)
Employee & Consultant equity settled transactions	-	30,527
Fair value adjustment to investments	1,331,026	996,190

Management fees received	(21,935)	(645)
Income tax expense recognised in profit or loss	238,730	(216,577)
Changes in assets and liabilities:		
Decrease/(increase) in trade receivables and prepayments	(481,812)	101,525
Increase/(decrease) in trade payables, accruals and employee entitlements	386,853	(464,174)
Increase/(decrease) in provisions		-
Decrease/(increase) in exploration	(2,845,519)	(3,063,838)
Cash outflow from operations	(3,781,676)	(3,949,890)
(ii) Non-cash financing and investing activities	-	-
Share based payments (note 28)		

20. COMMITMENTS

On 25 February 2010, the Group entered into a lease agreement with CB Richard Ellis (C) Pty Ltd for the premises at Level 2, 38 Richardson Street, West Perth, Western Australia. The initial term, was for a three (3) years expiring on 1 April 2013, this has been extended for a further term which expires on 31 May 2016 in consideration for a rental fee of $225,350 per annum.

In order to maintain rights of tenure to mining tenements, the Group would have the following discretionary exploration expenditure requirements up until expiry of leases. These obligations, which are subject to renegotiation upon expiry of the leases, are not provided for in the financial statements and are payable:

	2013 $	2012 $
No longer than one year	6,397,199	2,417,872
Longer than one year, but not longer than five years	10,455,527	5,443,424
Longer than five years	-	-
	16,852,727	7,861,296

At the moment the Group has commitments in excess of cash, however the Board believes it will be able to raise the additional funds to satisfy the commitments for the future.

If the Group decides to relinquish certain leases and/or does not meet these obligations, assets recognised in the statement of financial position may require review to determine the appropriateness of carrying values. The sale, transfer or farm-out of exploration rights to third parties will reduce or extinguish these obligations.

21. CONTROLLED ENTITIES

Hase Fe Pty Ltd	Australia	100%	100%
Caz Yilgarn Pty Ltd	Australia	100%	100%
Discovery Minerals Pty Ltd	Australia	80%	-

22. OPERATING SEGMENTS

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of its exploration and corporate activities. Operating segments are therefore determined on the same basis.

Exploration

Segment assets, including acquisition cost of exploration licenses, all expenses related to the tenements and profit on sale of tenements are reported on in this segment.

Segment assets

Where an asset is used across multiple segments, the asset is allocated to the segment that receives the majority of economic value from the asset. In the majority of instances, segment assets are clearly identifiable on the basis of their nature and physical location.

Unless indicated otherwise in the segment assets note, deferred tax assets and intangible assets have not been allocated to operating segments.

Segment liabilities

Liabilities are allocated to segments where there is direct nexus between the incurrence of the liability and the operations of the segment. Borrowings and tax liabilities are generally considered to relate to the Group as a whole and are not allocated. Segment liabilities include trade and other payables.

Unallocated items

The following items of revenue, expense, assets and liabilities are not allocated to operating segments as they are not considered part of the core operations of any segment:

- non-recurring items of revenue or expense;
- deferred tax assets and liabilities.

22. OPERATING SEGMENTS (Cont'd)

Total comprehensive income	(1,171,325)	(3,261,045)

Loans to Controlled Entities

Loans are provided by the Parent Entity to its controlled entities for their respective operating activities. Amounts receivable from controlled entities are non-interest bearing with no fixed term of repayment. The eventual recovery of the loan will be dependent upon the successful commercial application of these projects or the sale to third parties.

25. RELATED PARTY INFORMATION

Transactions between related parties are on commercial terms and conditions, no more favourable than those available to other parties unless otherwise stated.

Transactions with related entities:

(i) Director related Entities

Remuneration (excluding the reimbursement of costs) received or receivable by the directors of the Group and aggregate amounts paid to superannuation plans in connection with the retirement of directors are disclosed in Note 4 to the accounts.

Mr McMahon was at any time during the financial years ended 30 June 2013 and 30 June 2012, a director and shareholder of Hodges Resources Limited ("Hodges"), Dempsey Minerals Limited ("Dempsey"). Hodges and Dempsey have an agreement based on normal commercial terms and conditions to reimburse Cazaly for office rental and administration and overheads.

Aggregate amounts of each of the above types of other transaction with related parties of Cazaly Resources Limited:

	2013 $	2012 $
Sales		
Rent, administrative and office overheads:		
• Hodges Resources Limited	132,768	119,719
• Dempsey Minerals Limited	49,395	80,767
	182,163	200,486

26. *SHARE BASED PAYMENTS*

Options are issued to vendors as part of purchase consideration and also to directors and employees as part of their remuneration as disclosed in Note 4. The options issued may be subject to performance criteria, and are issued to directors and employees of Cazaly Resources Limited to increase goal congruence between executives, directors and shareholders.

The following table illustrates the number and weighted average exercise prices of and movements in share options issued under the Employee Incentive Plan during the year:

	2013		2012	
	Number of Options	Weighted Average Exercise Price $	Number of Options	Weighted Average Exercise Price $
At beginning of reporting period	5,075,000	0.47	9,775,000	0.43
Granted during the period				
Employee & consultants options	-	-	350,000	0.31
Director remuneration	-	-	-	-
Exercised during the period	-	-	(1,500,000)	0.28
Expired during the period	(3,200,000)	0.51	(4,550,000)	0.42
Balance the end of reporting period	1,875,000	0.39	5,075,000	0.47
Exercisable at end of reporting period	1,875,000		5,075,000	

(i) The compensation options outstanding at 30 June 2013 had a weighted average remaining life of 1.105 years (2012 – 0.98 years).

(ii) The weighted average fair value of the options outstanding at 30 June 2013 was $0.1597 (2012 - $0.0872).

No share options were granted or exercised during the year ended 30 June 2013.

The fair value of the options granted is determined by using the Black-Scholes methodology. The following table lists the inputs to the models used for period ended 30 June 2012:

Allottees	Fair Value at Grant Date	Estimated Volatility	Life of Option (yrs)	Exercise Price	Share Price	Risk Free Interest Rate
Consultant	$0.1140	73%	2.00	$0.40	$0.32	4.75%
Employee	$0.0765	73%	2.00	$0.28	$0.22	4.25%

The expected volatility is based on the historical volatility (based on remaining life of the options), adjusted for any expected changes to future volatility based on publicly available information.

26. SHARE BASED PAYMENTS (Cont'd)

The following share-based payment arrangements were in existence during the current and prior reporting periods:

Options series	Number	Grant date	Expiry date	Exercise price	Fair value at grant date
Employee	75,000	14/6/2007	14/9/2012	$0.39	$0.2666
Employees	225,000	26/10/2007	26/10/2012	$0.45	$0.3812
Employee	100,000	22/5/2008	22/5/2013	$0.36	$0.3812
Employees	925,000	12/1/2010	11/1/2015	$0.33	$0.1928

Consultant	200,000	15/4/2011	18/3/2014	$0.52	$0.1641
Consultant	1,000,000	15/4/2011	30/6/2012	$0.55	$0.0834
Consultant	100,000	14/9/2011	14/9/2013	$0.40	$0.1140
Employee	250,000	15/12/2011	15/12/2013	$0.28	$0.0765

27. CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Except as referred below, there are no other contingent liabilities or contingent assets outstanding at the end of the year:

Contingent Asset

As per the binding West Kalgoorlie Tenements sale to Phoenix Gold Pty Ltd ('Phoenix'), the Company is due $2,000,000 in cash, to be paid in eight equal instalments of $250,000 each, with the first instalment due to be paid three months after the first gold produced by Phoenix from the West Kalgoorlie tenements. The remaining instalments are to be paid at three monthly intervals thereafter.

The Company also has a production royalty of A$40 per ounce of gold recovered by Phoenix from the West Kalgoorlie Tenements up to 75,000 ounces and a once off payment of A$3,000,000 on Phoenix having recovered 140,000 ounces from the royalty tenements.

The contingent assets disclosed above are dependent upon the liquidity of Phoenix Gold Pty Ltd and the production profile from the West Kalgoorlie Tenements.

Contingent Liability

As announced to the ASX on 30 October 2012, the Company signed an agreement with 3D Resources Ltd to earn up to a 75% interest in the Halls Creek Copper Project, located in the Kimberley region of Western Australia.

In order to earn up to 75% in the project, under the terms of the Tenement Sale, Farm-In and Joint Venture Agreement, the Company is required to:

- Make a payment of a further $100,000 cash, issue 1,250,000 fully paid Cazaly shares and incur expenditures of $500,000 within 24 months to earn a total of 51%
- Complete a pre-feasibility study within 36 months to earn a 75% interest

If the pre-feasibility is positive, or Cazaly transacts on the project, then a further payment of $500,000 in shares is payable to 3D Resources Ltd.

28. NEW ACCOUNTING STANDARDS FOR APPLICATION IN FUTURE YEARS

New Accounting Standards Affecting Amounts Reported in the Current Period

The following new and revised Standards and Interpretations have been adopted in the current year and have affected the amounts reported in these financial statements.

Standards affecting presentation and disclosure

Amendments to AASB 101 'Presentation of Financial Statements'	The amendment (part of AASB 2011-9 'Amendments to Australian Accounting Standards - Presentation of Items of Other Comprehensive Income' introduce new terminology for the Statement of Comprehensive Income and income statement. Under the amendments to AASB 101, the Statement of Comprehensive Income is renamed as a Statement of Profit or Loss and other Comprehensive Income. The amendments to AASB 101 require items of other comprehensive income to be grouped into two categories in the other comprehensive income section: (a) items that will not be reclassified subsequently to profit or loss and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis – the amendments do not change the option to present items of other comprehensive income either before tax or net of tax. The amendments have been applied retrospectively, and hence the presentation of items of other comprehensive income has been modified to reflect the changes. Other than the above mentioned presentation changes, the application of the amendments to AASB 101 does not result in any impact on profit or loss, other comprehensive income and total comprehensive income.

Standards and Interpretations affecting the reported results or financial position

Amendments to AASB 112 'Income Taxes'	The Company is not affected by the adoption of this standard as the Company does not hold investment property.

New Accounting Standards for Application in Future Periods

At the date of authorisation of the financial statements, the Standards and Interpretations listed below were in issue but not yet effective.

Standard/Interpretation	Effective for annual reporting periods beginning on or after	Expected to be initially applied in the financial year ending	Directors' assessment of potential effect of adoption
AASB 9 'Financial Instruments', and the relevant amending standards	1 January 2015	30 June 2016	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 10 'Consolidated Financial Statements' and AASB 2011-7 'Amendments to Australian Accounting Standards arising from	1 January 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian

the consolidation and Joint Arrangements standards'			Accounting Standard.
AASB 11 'Joint Arrangements' and AASB 2011-7 'Amendments to Australian Accounting Standards arising from the consolidation and Joint Arrangements standards'	1 January 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 12 'Disclosure of Interests in Other Entities' and AASB 2011-7 'Amendments to Australian Accounting Standards arising from the consolidation and Joint Arrangements standards'	1 January 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 127 'Separate Financial Statements'(2011) and AASB 2011-7 'Amendments to Australian Accounting Standards arising from the consolidation and Joint Arrangements standards'	1 January 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 128 'Investments in Associates and Joint Ventures' (2011) and AASB 2011-7 'Amendments to Australian Accounting Standards arising from the consolidation and Joint Arrangements standards'	1 January 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 13 'Fair Value Measurement' and AASB 2011-8 'Amendments to Australian Accounting Standards arising from AASB 13'	1 January 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 119 'Employee Benefits' (2011) and AASB 2011-10 'Amendments to Australian Accounting Standards arising from AASB 119 (2011)'	1 January 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 2011-4 'Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements'	1 July 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 2012-2 'Amendments to Australian Accounting Standards – Disclosures – Offsetting Financial Assets and Financial Liabilities'	1 January 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 2012-3 'Amendments to Australian Accounting Standards – Offsetting Financial Assets and Financial Liabilities'	1 January 2014	30 June 2015	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 2012-5 'Amendments to Australian Accounting Standards arising from Annual Improvements 2009–2011 Cycle'	1 January 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.
AASB 2012-10 'Amendments to Australian Accounting Standards – Transition Guidance and Other Amendments'	1 January 2013	30 June 2014	The Company does not anticipate a material effect from the adoption of this Australian Accounting Standard.

In accordance with a resolution of the directors of Cazaly Resources Limited, the directors of the company declare that:

1. the financial statements and notes, as set out, are in accordance with the Corporations Act 2001 and:

    a. comply with Australian Accounting Standards, which, as stated in accounting policy Note 1 to the financial statements, constitutes compliance with International Financial Reporting Standards (IFRS); and

    b. give a true and fair view of the financial position as at 30 June 2013 and of the performance for the year ended on that date of the consolidated group;

2. in the directors' opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable; and

3. the directors have been given the declarations required by s 295A of the Corporations Act 2001 from the Chief Executive Officer and Chief Financial Officer.

On behalf of the Directors

Nathan McMahon

Independent Auditor's Report

To the Members of Cazaly Resources Limited

Bentleys
THINKING AHEAD

Bentleys Audit & Corporate (WA) Pty Ltd
Level 1, 12 Kings Park Road
West Perth WA 6005
Australia
PO Box 44
West Perth WA 6872
Australia
ABN 33 121 222 802
T +61 8 9226 4500
F +61 8 9226 4300
bentleys.com.au

We have audited the accompanying financial report of Cazaly Resources Limited ("the Company") and Controlled Entities ("the Consolidated Entity"), which comprises the consolidated statement of financial position as at 30 June 2013, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the Consolidated Entity, comprising the Company and the entities it controlled at the year's end or from time to time during the financial year.

Directors Responsibility for the Financial Report

The directors of the Company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standards AASB 101: *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we followed applicable independence requirements of Australian professional ethical pronouncements and the *Corporations Act 2001*.

Auditor's Opinion

In our opinion:

a. The financial report of Cazaly Resources Limited and Controlled Entities is in accordance with the *Corporations Act 2001*, including:

  i. giving a true and fair view of the Consolidated Entity's financial position as at 30 June 2013 and of its performance for the year ended on that date; and

  ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001*;

b. The financial report also complies with *International Financial Reporting Standards* as disclosed in Note 1.

Emphasis of Matter – Going Concern

Without qualifying our opinion, we draw attention to Note 1 in the financial report which indicates that the Consolidated Entity incurred a loss of $1,262,416 during the year ended 30 June 2013. This condition, along with other matters as set forth in Note 1, indicate the existence of a material uncertainty which may cast significant doubt about the ability of the Consolidated Entity to continue as a going concern and whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

Report on the Remuneration Report

We have audited the Remuneration Report included in directors' report of the year ended 30 June 2013. The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion, the Remuneration Report of Cazaly Resources Limited for the year ended 30 June 2013, complies with section 300A of the *Corporations Act 2001*.

CORPORATE GOVERNANCE

The Company is committed to implementing the highest standards of corporate governance. In determining what those high standards should involve the Company has turned to the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, 2nd Edition. The Company is pleased to advise that the Company's practices are largely consistent with those ASX guidelines. As consistency with the guidelines has been a gradual process, where the Company did not have certain policies or committees recommended by the ASX Corporate Governance Council (the Council) in place during the reporting period, we have identified such policies or committees.

The Board of Directors of Cazaly Resources Limited is responsible for corporate governance of the Company. The Board guides and monitors the business and affairs of Cazaly Resources Limited on behalf of the shareholders by whom they are elected and to whom they are accountable.

Where the Company's corporate governance practices do not correlate with the practices recommended by the Council, the Company is working towards compliance however it does not consider that all the practices are appropriate for the Company due to the size and scale of Company operations.

For further information on corporate governance policies adopted by Cazaly Resources Limited, refer to our website: www.cazalyresources.com.au.

The Company reports below on how it has followed (or otherwise departed from) each of the Principles & Recommendations during the 2012/2013 financial year (Reporting Period).

Board

Roles and responsibilities of the Board and Senior Executives
(Recommendations: 1.1, 1.3)

The Company has established the functions reserved to the Board, and those delegated to senior executives and has set out these functions in its Board Charter.

The Board is collectively responsible for promoting the success of the Company through its key functions of overseeing the management of the Company, providing overall corporate governance of the Company, monitoring the financial performance of the Company, engaging appropriate management commensurate with the Company's structure and objectives, involvement in the development of corporate strategy and performance objectives, and reviewing, ratifying and monitoring systems of risk management and internal control, codes of conduct and legal compliance.

Senior executives are responsible for supporting the two Managing Directors and assisting the Managing Directors in implementing the running of the general operations and financial business of the Company in accordance with the delegated authority of the Board. Senior executives are responsible for reporting all matters which fall within the Company's materiality thresholds at first instance to the Managing Directors or, if the matter concerns one of the Managing Director, directly to other Managing Director or the lead independent director, as appropriate.

The Company's Board Charter is available on the Company's website.

Skills, experience, expertise and period of office of each Director
(Recommendation: 2.6)

A profile of each Director setting out their skills, experience, expertise and period of office is set out in the Directors' Report.

Director independence
(Recommendations: 2.1, 2.2, 2.3, 2.6)

The Board does not have a majority of Directors who are independent.

Mr Hunter is a Non-Executive Director and is considered to be Independent. Mr Hunter is independent as he is a non-executive director who is not a member of management and is free of any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the independent exercise of his judgement. The Board considers the independence of directors having regard to the relationships listed in Box 2.1 of the Principles & Recommendations and the Company's materiality thresholds.

Mr McMahon is an Executive Director of the Company and does not meet the Company's criteria for independence. Mr McMahon's experience and knowledge of the Company make his contribution to the Board such that it is appropriate for him to remain on the Board.

Mr Jones is an Executive Director of the Company and does not meet the Company's criteria for independence. Mr Jones experience and knowledge of the Company make his contribution to the Board such that it is appropriate for him to remain on the Board.

Given the size of the company and the industry in which it operates, the current Board structure is considered to best serve the Company in meeting its objectives, given its small capitalisation, limited resources and existing operations. The composition of the Board is reviewed on an annual basis to ensure that the Board has the appropriate mix of expertise and experience.

The Board has agreed on the following guidelines, as set out in the Company's Board Charter, for assessing the materiality of matters:

- Balance sheet items are material if they have a value of more than 10% of pro-forma net asset.
- Profit and loss items are material if they will have an impact on the current year operating result of 10% or more.
- Items are also material if they impact on the reputation of the Company, involve a breach of legislation, are outside the ordinary course of business, could affect the Company's rights to its assets, if accumulated would trigger the quantitative tests, involve a contingent liability that would have a probable effect of 10% or more on balance sheet or profit and loss items, or will have an effect on operations which is likely to result in an increase or decrease in net income or dividend distribution of more than 10%.
- Contracts will be considered material if they are outside the ordinary course of business, contain exceptionally onerous provisions in the opinion of the Board, impact on income or distribution in excess of the quantitative tests, there is a likelihood that either party will default and the default may trigger any of the quantitative or qualitative tests, are essential to the activities of the Company and cannot be replaced or cannot be replaced without an increase in cost which triggers any of the quantitative tests, contain or trigger change of control provisions, are between or for the benefit of related parties, or otherwise trigger the quantitative tests.

Independent professional advice
(Recommendation: 2.6)

To assist directors with independent judgement, it is the Board's policy that if a director considers it necessary to obtain independent professional advice to properly discharge the responsibility of their office as a director then, provided the director first obtains approval from the Chair for incurring such expense, the Company will pay the reasonable expenses associated with obtaining such advice.

Selection and (Re)appointment of Directors
(Recommendation: 2.6)

In determining candidates for the Board, the Nomination Committee (or equivalent) follows a prescribed process whereby it evaluates the mix of skills, experience and expertise of the existing Board. In particular, the Nomination Committee (or equivalent) is to identify the particular skills that will best increase the Board's effectiveness. Consideration is also given to the balance of independent directors. Potential candidates are identified and, if relevant, the Nomination Committee (or equivalent) recommends an appropriate candidate for appointment to the Board. Any appointment made by the Board is subject to ratification by shareholders at the next general meeting.

The Board recognises that Board renewal is critical to performance and the impact of Board tenure on succession planning. Each director other than the Managing Director, must not hold office (without re-election) past the third annual general meeting of the Company following the director's appointment or three years following that director's last election or appointment (whichever is the longer). However, a director appointed to fill a casual vacancy or as an addition to the Board must not hold office (without re-election) past the next annual general meeting of the Company. At each annual general meeting a minimum of one director or one third of the total number of directors must resign. A director who retires at an annual general meeting is eligible for re-election at that meeting and re-appointment of directors is not automatic.

Board committees

Nomination Committee
(Recommendations: 2.4, 2.6)

The Board has not established a separate Nomination Committee. Given the current size and composition of the Board, the Board believes that there would be no efficiencies gained by establishing a separate Nomination Committee. Accordingly, the Board performs the role of the Nomination Committee. Items that are usually required to be discussed by a nomination committee are marked as separate agenda items at Board meetings when required. When the Board convenes as the Nomination Committee it carries out those functions which are delegated to it in the Company's Nomination Committee Charter. The Board deals with any conflicts of interest that may occur when convening in the capacity of the Nomination Committee by ensuring that the director with conflicting interests is not party to the relevant discussions.

To assist the Board to fulfil its function as the Nomination Committee, it has adopted a Nomination Committee Charter which describes the role, composition, functions and responsibilities of the Nomination Committee.

Audit Committee
(Recommendations: 4.1, 4.2, 4.3, 4.4)

The Board has not established a separate Audit Committee, and therefore it is not structured in accordance with Recommendation 4.2. Given the current size and composition of the Board, the Board believes that there would be no efficiencies gained by establishing a separate Audit Committee. Accordingly, the Board performs the role of Audit Committee. Items that are usually required to be discussed by an Audit Committee are marked as separate agenda items at Board meetings when required. When the Board convenes as the Audit Committee it carries out those functions which are delegated to it in the Company's Audit Committee Charter. The Board deals with any conflicts of interest that may occur when convening in the capacity of the Audit Committee by ensuring that the director with conflicting interests is not party to the relevant discussions.

The full Board, in its capacity as the Audit Committee, held one meeting during the Reporting Period. To assist the Board to fulfil its function as the Audit Committee, the Company has adopted an Audit Committee Charter which describes the role, composition, functions and responsibilities of the Audit Committee.

All of the directors consider themselves to be financially literate and possess relevant industry experience. Details of each of the director's qualifications are set out in the Directors' Report.

The Company has established procedures for the selection, appointment and rotation of its external auditor. The Board is responsible for the initial appointment of the external auditor and the appointment of a new external auditor when any vacancy arises, as recommended by the Audit Committee (or its equivalent). Candidates for the position of external auditor must demonstrate complete independence from the Company through the engagement period. The Board may otherwise select an external auditor based on criteria relevant to the Company's business and circumstances. The performance of the external auditor is reviewed on an annual basis by the Audit Committee (or its equivalent) and any recommendations are made to the Board.

Remuneration Committee
(Recommendations: 8.1, 8.2, 8.3)

The Board has not established a separate Remuneration Committee. Given the current size and composition of the Company, the Board believes that there would be no efficiencies gained by establishing a separate Remuneration Committee. Accordingly, the Board performs the role of Remuneration Committee. Items that are usually required to be discussed by a Remuneration Committee are marked as separate agenda items at Board meetings when required. When the Board convenes as the Remuneration Committee it carries out those functions which are delegated to it in the Company's Remuneration Committee Charter. The Board deals with any conflicts of interest that may occur when convening in the capacity of the Remuneration Committee by ensuring that the director with conflicting interests is not party to the relevant discussions.

To assist the Board to fulfil its function as the Remuneration Committee, it has adopted a Remuneration Committee Charter which describes the role, composition, functions and responsibilities of the Remuneration Committee.

Details of remuneration, including the Company's policy on remuneration, are contained in the "Remuneration Report" which forms of part of the Directors' Report. The remuneration of non-executive directors is set by reference to payments made by other companies of similar size and industry, and by reference to the director's skills and experience. Given the Company is at its early stage of development and the financial restrictions placed on it, the Company may consider it appropriate to issue unlisted options to non-executive directors, subject to obtaining the relevant approvals. The Remuneration Policy is subject to annual review. All of the directors' option holdings are fully disclosed. Executive Pay and rewards consists of a base salary and performance incentives. Long term performance incentives may include options granted at the discretion of the Board and subject to obtaining the relevant approvals. The grant of options is designed to recognise and reward efforts as well as to provide additional incentive and may be subject to the successful completion of performance hurdles. Executives are offered a competitive level of base pay at market rates (for comparable companies) and are reviewed annually to ensure market competitiveness. Executives are prohibited from entering into transactions or arrangements which limit the economic risk of participating in unvested entitlements.

<u>Performance evaluation</u>

Senior executives
(Recommendations: 1.2, 1.3)

The Managing Directors are responsible for evaluating the performance of senior executives. The evaluation of senior executives is undertaken via an informal interview process which occurs annually or more frequently as required and otherwise takes place as part of the annual salary review under the senior executives' employment contract.

During the Reporting Period an evaluation of senior executives took place in accordance with the process disclosed above.

Board, its committees and individual directors
(Recommendations: 2.5, 2.6)

The Chair is responsible for evaluating the performance of the Board and, when appropriate, Board committees and individual directors deemed. The Board is responsible for evaluating the Managing Directors. The evaluations of the Board, and any applicable Board committees and individual directors are undertaken via informal discussions on an on-going basis with the Chair.

The evaluation of the Managing Directors is undertaken via an informal interview process which occurs annually or more frequently, at the Board's discretion.

Ethical and responsible decision making

Code of Conduct
(Recommendations: 3.1, 3.3)

The Company has established a Code of Conduct as to the practices necessary to maintain confidence in the Company's integrity, the practices necessary to take into account its legal obligations and the reasonable expectations of its stakeholders, and the responsibility and accountability of individuals for reporting and investigating reports of unethical practices.

Diversity Policy
(Recommendations: 3.2, 3.3, 3.4 & 3.5)

Diversity includes, but is not limited to, gender, age, ethnicity and cultural background. The company is committed to diversity and recognises the benefits arising from employee and board diversity and the importance of benefiting from all available talent. The Company has established a Diversity Policy, which includes requirements for the Board to establish measurable objectives for achieving gender diversity and for the Board to assess annually both the objectives and progress in achieving them.

During the Reporting Period the Company developed and the Board adopted a Diversity Strategy which details the Company's measurable objectives for achieving gender diversity in accordance with the Diversity Policy. In doing this, and assigning the responsibility for the Diversity Policy and its administration, monitoring and review, the Company has achieved its structural and procedural measurable objectives set for [2012/13]. The Diversity Strategy includes a number of concepts including contribution to enhance local workforce and provision of opportunities for career development. Initiation of programs and schemes to achieve these goals were achieved during the Reporting Period. The Board has also adopted a policy to address harassment and discrimination in the Company, which it believes will facilitate an environment that encourages a diverse workforce.

A summary of the Company's Diversity Policy is available on the Company's website.

Continuous Disclosure
(Recommendations: 5.1, 5.2)

The Company has established written policies and procedures designed to ensure compliance with ASX Listing Rule disclosure requirements and accountability at a senior executive level for that compliance.

A summary of the Company's Policy on Continuous Disclosure is available on the Company's website.

Shareholder Communication
(Recommendations: 6.1, 6.2)

The Company has designed a communications policy for promoting effective communication with shareholders and encouraging shareholder participation at general meetings.

A copy of the Company's Shareholder Communication Policy is available on the Company's website.

Risk Management
Recommendations: 7.1, 7.2, 7.3, 7.4)

The Board has adopted a Risk Management Policy, which sets out the Company's risk profile. Under the policy, the Board is responsible for approving the Company's policies on risk oversight and management and satisfying itself that management has developed and implemented a sound system of risk management and internal control.

Under the policy, the Board delegates day-to-day management of risk to the Managing Directors, who are responsible for identifying, assessing, monitoring and managing risks. The Managing Directors are also responsible for updating the Company's material business risks to reflect any material changes, with the approval of the Board.

In fulfilling the duties of risk management, the Managing Directors may have unrestricted access to Company employees, contractors and records and may obtain independent expert advice on any matter they believe appropriate, with the prior approval of the Board.

In addition, the following risk management measures have been adopted by the Board to manage the Company's material business risks:

- the Board has established authority limits for management, which, if proposed to be exceeded, requires prior Board approval;
- the Board has adopted a compliance procedure for the purpose of ensuring compliance with the Company's continuous disclosure obligations; and
- the Board has adopted a corporate governance manual which contains other policies to assist the Company to establish and maintain its governance practices.

During the Reporting Period, management regularly reported to the Board on the following categories of risks affecting the Company as part of the Company's systems and processes for managing material business risks: operational, financial reporting, sovereignty and market-related risks.

The Managing Director and the Chief Financial Officer have provided a declaration to the Board in accordance with section 295A of the Corporations Act and have assured the Board that such declaration is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.

A summary of the Company's Risk Management Policy is available on the Company's website (www.cazalyresources.com.au).
