

ANNUAL REPORT

2019

PennyMac Financial Services, Inc. (NYSE: PFSI) is a specialty financial services firm with a comprehensive mortgage platform and integrated business focused on the production and servicing of U.S. mortgage loans and the management of investments related to the U.S. mortgage market.

PennyMac was founded in 2008 by members of our executive leadership team, and two strategic partners, BlackRock Mortgage Ventures, LLC and HC Partners, LLC. Since our founding, we have pursued opportunities to acquire, originate and manage mortgage loans and mortgage-related assets and established what we believe is the leading residential mortgage platform in the U.S.

We manage PennyMac Mortgage Investment Trust (NYSE: PMT), a publicly-traded mortgage real estate investment trust (REIT). PMT is a tax-efficient vehicle for investing in mortgage-related assets and has a successful track record of deploying and managing capital in mortgage-related investments for more than 10 years.

Dear Fellow Stockholders,

PennyMac Financial delivered exceptional results in 2019, driven by record loan production volumes with market share gains in all of our production channels and our servicing business. The strong results were further enhanced by our consistent and disciplined hedging of the interest rate risk inherent in our mortgage servicing rights (MSR) investments. We reported record revenue of \$1.5 billion and pretax income of \$529 million, up 50 percent and 98 percent from the prior year, respectively. Diluted earnings per share were \$4.89, up from \$2.59 in the prior year and also a record for PennyMac Financial. We are pleased to note that we earned a 21.6 percent return on equity for the year which drove growth in our book value per share to \$26.26, up 23 percent from the end of 2018. We also initiated a quarterly cash dividend, which we believe is an important addition to the structure of providing returns to our stockholders.

Key to our record financial results were the investments we have made in our production platform that allowed us to quickly scale our operations to address the large mortgage origination market. In our correspondent channel, the continued growth of our seller network, in addition to our ability to maintain high service levels and fast turn times in a vibrant origination market, made PennyMac the largest aggregator of residential mortgage loans in the country for the second half of the year, according to Inside Mortgage Finance. Combined with originations in our consumer- and broker-direct lending channels, PennyMac was the third largest mortgage lender in the U.S. in 2019 with \$118 billion in unpaid principal balance (UPB), or approximately 5 percent of the loan production market. These record volumes more than offset elevated prepayment activity and drove the continued growth of our servicing portfolio to \$368.7 billion in UPB at year end, up 23 percent from the prior year and making PennyMac Financial the sixth largest servicer in the U.S., according to *Inside Mortgage Finance*. Notably, we expect our servicing portfolio, which has nearly doubled in size versus three years ago, to provide a strong foundation to scale our business and drive future opportunities to grow our consumer-direct lending channel. Our investment management business also continued its success in 2019, as PMT again distinguished itself among public mortgage REITs with exceptional performance and raised more than \$800 million in equity to deploy in new investments.

The competitive advantage PennyMac Financial enjoys is dependent upon our continued investment in the development and utilization of technology. In 2019 we completed a multi-year initiative for our proprietary Servicing Systems Environment (SSE), a workflow-driven system that we designed specifically to address our unique needs as a leading, growing servicer. SSE is based on a fully cloud-based infrastructure and enables modern approaches to data management and real-time processing. It is a substantial technology advancement for

PennyMac Financial and will enable us to realize reduced costs, increased scalability and a better servicing experience for our 1.8 million portfolio customers. We continue to invest in technology to enhance our leadership in other areas of our business. In our correspondent channel, for example, we are migrating our platform to Ellie Mae's next generation Encompass Digital Lending Platform, while also leveraging our own proprietary systems with the objective to eventually transition our consumer-direct and broker-direct lending channels onto the same cloud-based platform. We believe this new platform will enable further operational efficiencies and process consistencies as an industry-leading mortgage lender while simultaneously improving the customer experience. Similarly, we continue to regularly release enhancements to our consumer and broker portals, keeping PennyMac Financial connected to our customers and business partners.

While we are proud of our performance and success, we are in the midst of addressing the significant dislocations in our financial markets, economy and society resulting from the spread of the novel coronavirus. While the situation remains fluid as we write this, we are taking numerous actions to protect the company, provide needed services to consumers suffering the financial consequences of this environment and maintain a safe work environment to protect the health of our staff.

Interest rates have fallen to new historic lows providing a favorable environment for mortgage origination. With certain competitors forced to reduce or limit their participation, PennyMac Financial is capturing elevated production volumes and margins across all three production channels, even while substantially all of our 4,400 employees are working remotely from home for their safety. Our disciplined approach to risk management, and in particular our continued success in hedging our MSR assets and our production pipeline, has proven essential in the current market environment. Our strong balance sheet, low leverage and disciplined approach to liquidity management have also distinguished PennyMac Financial from competitors and been critically important in navigating the recent market stresses.

Perhaps even more important, we recognize that the environment is causing increased hardship to customers and we are taking the appropriate steps to expand our operational capacity to address the changing servicing needs of our customers. We are well positioned as one of the largest servicers in the country to provide the forbearance programs needed as well as to offer refinances or loan modifications that will ultimately improve the consumers' financial well-being. We are in alignment and working closely with the various government and regulatory agencies to ensure that we are able to offer the relief necessary to assist our borrowers.

Over our 12-year history, PennyMac has successfully navigated periods of market volatility and operational disruptions driven by external influences. We are well positioned and confident in our abilities to effectively mitigate the associated risks and execute on our business objectives. We also believe that PennyMac's operating platform is uniquely positioned to capitalize on opportunities that may arise as the dislocations in the mortgage market unfold. Throughout it all, we remain steadfast in our commitment to address the needs of our employees, 1.8 million customers, business partners and other stakeholders in PennyMac.

This February, after a successful partnership that lasted more than 12 years, BlackRock, one of our founding sponsors, announced the contribution of its 20 percent ownership stake in PennyMac Financial to charitable entities to fund its philanthropic endeavors. This contribution reflects the substantial value we have created for our stockholders over time, and we are proud to help BlackRock fund its social impact initiatives. The transfer and subsequent sale of these shares will further increase PFSI's public float and create opportunities for more institutional shareholders to be a part of our growth story going forward.

We are incredibly proud of the organization we have built and the success we have achieved under Stan's leadership as our founder and Chairman. As Stan has relinquished his day-to-day responsibilities, we are confident that this management team and over 4,400 of our dedicated employees will continue to contribute to this Company's success for years to come. The two of us are working closely with the senior management team, as we always have, to advise and guide the company through these challenging times. We are grateful to Stan for his vision and countless contributions to PennyMac and look forward to his continued guidance as Chairman of the Board.

Lastly, we thank you, our stockholders, as well as our customers and stakeholders for your continued support and confidence in PennyMac Financial.

Sincerely,

Stanford L. Kurland

S. 2 Mule

STOCK PERFORMANCE GRAPH

The following graph and table describe certain information comparing the cumulative total return on our Class A common stock to the cumulative total return of the S&P 500 Index and the Russell 2000 Index. The comparison period is from May 8, 2013, the day our Class A common stock commenced trading on the NYSE, to December 31, 2019, and the calculation assumes reinvestment of any dividends. The graph and table illustrate the value of a hypothetical investment in our Class A common stock and the two other indices on May 8, 2013.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K ("Report") contains certain forward-looking statements that are subject to various risks and uncertainties. Forward-looking statements are generally identifiable by use of forward-looking terminology such as "may," "will," "should," "potential," "intend," "expect," "seek," "anticipate," "estimate," "approximately," "believe," "could," "project," "predict," "continue," "plan" or other similar words or expressions.

Forward-looking statements are based on certain assumptions, discuss future expectations, describe future plans and strategies, contain financial and operating projections or state other forward-looking information. Examples of forward-looking statements include the following:

- projections of our revenues, income, earnings per share, capital structure or other financial items;
- descriptions of our plans or objectives for future operations, products or services;
- forecasts of our future economic performance, interest rates, profit margins and our share of future markets;
 and
- descriptions of assumptions underlying or relating to any of the foregoing expectations regarding the timing of generating any revenues.

Our ability to predict results or the actual effect of future events, actions, plans or strategies is inherently uncertain. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, our actual results and performance could differ materially from those set forth in the forward-looking statements. There are a number of factors, many of which are beyond our control that could cause actual results to differ significantly from management's expectations. Some of these factors are discussed below.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties discussed elsewhere in this Report and as set forth in Item IA. of Part I hereof and any subsequent Quarterly Reports on Form 10-Q.

Factors that could cause actual results to differ materially from historical results or those anticipated include, but are not limited to:

- the continually changing federal, state and local laws and regulations applicable to the highly regulated industry in which we operate;
- lawsuits or governmental actions if we do not comply with the laws and regulations applicable to our businesses;
- the mortgage lending and servicing-related regulations promulgated by the Consumer Financial Protection Bureau ("CFPB") and its enforcement of these regulations;
- our dependence on U.S. government-sponsored entities and changes in their current roles or their guarantees or guidelines;
- changes to government mortgage modification programs;
- certain banking regulations that may limit our business activities;
- foreclosure delays and changes in foreclosure practices;
- the licensing and operational requirements of states and other jurisdictions applicable to our businesses, to which our bank competitors are not subject;

- our ability to manage third-party service providers and vendors and their compliance with laws, regulations and investor requirements;
- changes in macroeconomic and U.S. real estate market conditions;
- difficulties inherent in growing loan production volume;
- difficulties inherent in adjusting the size of our operations to reflect changes in business levels;
- any required additional capital and liquidity to support business growth that may not be available on acceptable terms, if at all;
- changes in prevailing interest rates;
- increases in loan delinquencies and defaults;
- our reliance on PennyMac Mortgage Investment Trust ("PMT") as a significant source of financing for, and revenue related to, our mortgage banking business;
- our obligation to indemnify third-party purchasers or repurchase loans if loans that we originate, acquire, service or assist in the fulfillment of, fail to meet certain criteria or characteristics or under other circumstances;
- our exposure to counterparties that are unwilling or unable to honor contractual obligations, including their obligation to indemnify us or repurchase defective mortgage loans;
- our ability to realize the anticipated benefit of potential future acquisitions of mortgage servicing rights ("MSRs");
- our obligation to indemnify PMT if our services fail to meet certain criteria or characteristics or under other circumstances;
- decreases in the returns on the assets that we select and manage for our clients, and our resulting management and incentive fees;
- the extensive amount of regulation applicable to our investment management segment;
- conflicts of interest in allocating our services and investment opportunities among ourselves and PMT;
- the effect of public opinion on our reputation;
- our recent growth;
- our ability to effectively identify, manage, monitor and mitigate financial risks;
- our initiation of new business activities or expansion of existing business activities;
- our ability to detect misconduct and fraud;
- our ability to effectively deploy new information technology applications and infrastructure;
- our ability to mitigate cybersecurity risks and cyber incidents;

- our exposure to risks of loss resulting from adverse weather conditions, man-made or natural disasters, the effects of climate change, or other events; and
- our organizational structure and certain requirements in our charter documents.

Other factors that could also cause results to differ from our expectations may not be described in this Report or any other document. Each of these factors could by itself, or together with one or more other factors, adversely affect our business, results of operations and/or financial condition.

Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

PART I

Item 1. Business

The following description of our business should be read in conjunction with the information included elsewhere in this Report. This description contains forward-looking statements that involve risks and uncertainties. Actual results could differ significantly from the projections and results discussed in the forward-looking statements due to the factors described under the caption "Risk Factors" and elsewhere in this Report. References in this Report to "we," "our," "us," and the "Company" refer to PennyMac Financial Services, Inc. (formerly known as New PennyMac Financial Services, Inc.) ("PFSI").

Our Company

We are a specialty financial services firm with a comprehensive mortgage platform and integrated business primarily focused on the production and servicing of U.S. residential mortgage loans (activities which we refer to as mortgage banking) and the management of investments related to the U.S. mortgage market. We believe that our operating capabilities, specialized expertise, access to long-term investment capital, and our management's experience across all aspects of the mortgage business will allow us to profitably grow these activities and capitalize on other related opportunities as they arise in the future.

We operate and control all of the business and affairs and consolidate the financial results of Private National Mortgage Acceptance Company, LLC ("PennyMac"). PennyMac was founded in 2008 by members of our executive leadership team and two strategic partners, BlackRock Mortgage Ventures, LLC ("BlackRock" or "BlackRock, Inc.") and HC Partners, LLC, formerly known as Highfields Capital Investments, LLC, together with its affiliates ("Highfields").

We were formed as a Delaware corporation on July 2, 2018. We became the top-level parent holding company for the consolidated PennyMac business pursuant to a corporate reorganization (the "Reorganization") that was consummated on November 1, 2018. Before the Reorganization, PNMAC Holdings, Inc. (formerly known as PennyMac Financial Services, Inc.) ("PNMAC Holdings") was our top-level parent holding company and our public company registrant.

One result of the consummation of the Reorganization was that our equity structure was changed to create a single class of publicly-held common stock as opposed to the two classes that were in place before the Reorganization. For tax purposes, the Reorganization is to be treated as an integrated transaction that qualifies as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code and/or a transfer described in Section 351(a) of the Internal Revenue Code. PNMAC Holdings' financial statements remain our historical financial statements.

Our principal mortgage banking subsidiary, PennyMac Loan Services, LLC ("PLS"), is a non-bank producer and servicer of mortgage loans in the United States. PLS is a seller/servicer for the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac"), each of which is a government-sponsored entity ("GSE"). PLS is also an approved issuer of securities guaranteed by the Government National Mortgage Association ("Ginnie Mae"), a lender of the Federal Housing Administration ("FHA"), and a lender/servicer of the Veterans Administration ("VA") and the U.S. Department of Agriculture ("USDA"). We refer to each of Fannie Mae, Freddie Mac, Ginnie Mae, FHA, VA and USDA as an "Agency" and collectively as the "Agencies." PLS is able to service loans in all 50 states, the District of Columbia, Guam and the U.S. Virgin Islands, and originate loans in 49 states and the District of Columbia, either because PLS is properly licensed in a particular jurisdiction or exempt or otherwise not required to be licensed in that jurisdiction.

Our investment management subsidiary is PNMAC Capital Management, LLC ("PCM"), a Delaware limited liability company registered with the Securities and Exchange Commission ("SEC") as an investment adviser under the Investment Advisers Act of 1940 (the "Advisers Act"), as amended. PCM manages PennyMac Mortgage Investment Trust ("PMT"), a mortgage real estate investment trust listed on the New York Stock Exchange under the ticker symbol PMT. PCM previously managed PNMAC Mortgage Opportunity Fund, LLC, PNMAC Mortgage Opportunity Fund, LP,

an affiliate of these funds and PNMAC Mortgage Opportunity Fund Investors, LLC. We refer to these funds collectively as our Investment Funds. The Investment Funds were dissolved during 2018.

We conduct our business in three segments: production, servicing (together, production and servicing comprise our mortgage banking activities) and investment management.

- The production segment performs loan origination, acquisition and sale activities.
- The servicing segment performs loan servicing for both newly originated loans we are holding for sale and loans we service for others, including for PMT.
- The investment management segment represents our investment management activities, which include the
 activities associated with investment asset acquisitions and dispositions such as sourcing, due diligence,
 negotiation and settlement.

Following is a summary of our segment's results:

		Year ended December 31,								
		2019		2018		2017		2016		2015
					(in	thousands)				
Net revenues:										
Production	\$	993,884	\$	385,995	\$	513,641	\$	694,405	\$	481,636

Income (loss) before income taxes:										
Production	\$	527,834	\$	87,266	\$	238,508	\$	416,096	\$	271,869
Servicing		(14,751)		172,302		58,672		(36,099)		1,297
Investment management		16,361		7,003		5,789		2,486		7,722
Non-segment activities (1)				1,126		32,940		600		(1,695)
	\$	529,444	\$	267,697	\$	335,909	\$	383,083	\$	279,193
Total assets at year end:		_								
Production	\$	4,836,472	\$ 2	2,434,897	\$ 2	2,459,014	\$ 2	2,195,330	\$ 1	,122,242
Servicing		5,347,549	4	5,031,920	2	4,886,594	2	2,841,551	2	2,270,940
Investment management		19,996		11,681		19,880		91,517		92,893
	\$	10,204,017	\$ 7	7,478,498	\$ 1	7,365,488	\$ 3	5,128,398	\$ 3	3,486,075

⁽¹⁾ Primarily represents Repricing of payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders under tax receivable agreement we entered into as part of our initial public offering during 2013, of which, for 2017, \$32.0 million was the result of the change in the federal income tax rate under the Tax Cuts and Jobs Act of 2017 (the "Tax Act").

Mortgage Banking

Loan Production

In our loan production activities, we earn interest income, gains or losses during the holding period and upon the sale of these loans, and retain the associated mortgage servicing rights ("MSRs"). Our loan production segment sources new prime credit quality first-lien residential conventional and government-insured or guaranteed mortgage loans and home equity loans through three channels: correspondent production, consumer direct and broker direct lending.

In correspondent production we manage, on behalf of PMT and for our own account, the purchase from non-affiliates of mortgage loans that have been underwritten to investor guidelines. For conventional mortgage loans, we perform fulfillment activities for PMT and earn a fulfillment fee for each mortgage loan purchased by PMT. In the case of government insured mortgage loans, we fulfill them for our own account and purchase them from PMT at PMT's cost plus a sourcing fee.

Through our consumer direct lending channel, we originate mortgage and home equity loans on a national basis. Our consumer direct model relies on the Internet and call center-based staff to acquire and interact with customers across the country. We do not have a "brick and mortar" branch network.

In broker direct lending, we obtain loan application packages from third-party mortgage loan brokers for mortgage loans, underwrite and fund mortgage loans for sale to PMT or investors.

We conduct our own fulfillment for loans originated through the consumer direct and broker direct lending channels. Our loan production activity is summarized below:

	Year ended December 31,			
	2019	2018	2017	
		(in thousands)		
Unpaid principal balance ("UPB") of loans purchased and originated				
for sale:				
Loans sourced through our correspondent lending channel:				
From PennyMac Mortgage Investment Trust	\$ 47,937,306	\$ 36,415,933	\$ 40,561,241	
From non-affiliates	1,686,472	_	_	
	49,623,778	36,415,933	40,561,241	
Loans sourced through our consumer direct channel	9,752,500	4,650,316	5,466,669	
Loans sourced through our broker direct channel	2,154,817	378,544		
	61,531,095	41,444,793	46,027,910	
UPB of conventional loans fulfilled for PennyMac Mortgage				
Investment Trust	56,033,704	26,194,303	22,971,119	
Total loan production	\$ 117,564,799	\$ 67,639,096	\$ 68,999,029	

Loan Servicing

Our loan servicing segment performs loan administration, collection, and default management activities, including the collection and remittance of loan payments; response to customer inquiries; accounting for principal and interest; holding custodial (impounded) funds for the payment of property taxes and insurance premiums; counseling delinquent borrowers; and supervising foreclosures and property dispositions. We service loans both as the owner of MSRs and on behalf of other MSR or loan owners. We provide servicing for conventional and government-insured or guaranteed mortgage loans and home equity loans ("prime servicing"), as well as servicing of distressed loans for PMT ("special servicing").

The UPB of our loan servicing portfolio is summarized below:

		December 31, 2019		December 31, 2018				
	Servicing rights owned	Contract servicing and subservicing	servicing and mortgage		Contract servicing and subservicing	Total mortgage loans serviced		
			(in thou	ands)				
Investor:

Investment Management

We are an investment manager through our subsidiary, PCM. PCM currently manages PMT and, before 2019, managed the Investment Funds. For these activities, we earn management fees as a percentage of net assets and may earn incentive compensation based on investment performance. During 2018, we completed the liquidation of the Investment Funds.

The net assets of PMT are summarized below:

	Decen	nber 31,
	2019	2018
	(in the	usands)
PennyMac Mortgage Investment Trust	\$ 2,450,916	\$ 1,556,132

U.S. Mortgage Market

The U.S. residential mortgage market is one of the largest financial markets in the world, with approximately \$11.0 trillion of outstanding debt as of December 31, 2019. According to Inside Mortgage Finance, first lien mortgage loan origination volume was approximately \$2.4 trillion in 2019. Many of the largest financial institutions, primarily banks which have traditionally held the majority of the market share in mortgage origination and servicing, have reduced their participation in the mortgage market creating opportunities for non-bank participants.

The residential mortgage industry is characterized by high barriers to entry, including the necessity for approvals required to sell loans to and service loans for the Agencies, state licensing requirements for non-federally chartered banks, sophisticated infrastructure, technology, risk management, and processes required for successful operations, and financial capital requirements.

Our Growth Strategies

Our growth strategies include:

Growing Consumer Direct Lending through Portfolio Recapture and Non-Portfolio Originations

We expect to grow our consumer direct lending business by leveraging our growing servicing portfolio through recapture of existing customers for refinance and purchase-money loans as well as increasing our non-portfolio originations. As our servicing portfolio grows, we will have a greater number of leads to pursue, which we believe will lead to greater origination activity through our consumer direct business. As of December 31, 2019, we serviced 1.8 million loans. At the same time, we are making significant investments in technology, personnel and marketing to increase our non-portfolio originations. We believe that our national call center model and our technology will enable us to drive origination process efficiencies and best-in-class customer service.

Growing Broker Direct Lending

During 2018, we introduced our broker direct lending channel. The broker lending channel involves the underwriting and funding of mortgage loans sourced by mortgage loan brokers and other financial intermediaries. According to Inside Mortgage Finance, the broker lending channel represented approximately 14% of U.S. residential mortgage originations in 2019. Through this mortgage loan origination channel, third-party mortgage loan brokers submit loan application packages to us and we underwrite and fund the mortgage loans. In 2019 and 2018, we funded \$2.2 billion and \$378.5 million of mortgage loans, respectively, through our broker direct channel. We plan on growing our mortgage loan volume by adding broker relationships and offering our mortgage loan brokers access to our technology through a dedicated portal.

Growing Correspondent Production through Expanding Seller Relationships and Adding Products and Services

We expect to grow our correspondent production business by expanding the number and types of sellers from which we purchase loans and increasing the volume of loans that we purchase from our sellers as we continue to add to the loan products and services we offer. Over the past several years, a number of large banks have exited or reduced the size of their correspondent production businesses, creating an opportunity for non-bank entities to gain market share. We believe that we are well positioned to continue taking advantage of this opportunity based on our management expertise in the correspondent production business, our relationships with correspondent sellers, and our supporting systems and processes.

Growing our Mortgage Loan Servicing Portfolio

We expect to focus the growth of our servicing portfolio on loan production activities, as our correspondent government-insured production and consumer and broker direct lending add new prime servicing for owned MSRs, and correspondent conventional production adds new subservicing. In 2019, our correspondent, consumer direct and broker direct loan production totaled \$117.6 billion in UPB. We supplement our organic growth with MSR acquisitions, some of which may be concentrated in delinquent or defaulted loans for which we have expertise in servicing. We have acquired MSRs both from large mortgage servicers and independent mortgage bankers, which are selling MSRs due to continuing operational and regulatory and capital pressures. In 2019, we purchased approximately \$16.3 billion in UPB of MSRs.

Expansion into New Markets and Products

We regularly evaluate opportunities to grow our business, including expansion into new markets, such as the broker lending channel. We also continue to develop new products to satisfy demand from customers in each of our production channels and respond to changing circumstances in the market for mortgage-related financing.

Compliance and Regulatory

Our business is subject to extensive federal, state and local regulation. The CFPB was established on July 21, 2010 under Title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act. The CFPB is responsible for ensuring consumers are provided with timely and understandable information to make responsible decisions about financial transactions, federal consumer financial laws are enforced and consumers are protected from unfair, deceptive, or abusive acts and practices and from discrimination. Although the CFPB's actions may improve consumer protection, such actions also have resulted in a meaningful increase in costs to consumers and financial services companies including mortgage originators and servicers.

Our loan production and loan servicing operations are regulated at the state level by state licensing authorities and administrative agencies. We, along with certain PennyMac employees who engage in regulated activities, must apply for licensing as a mortgage banker or lender, loan servicer and debt collector pursuant to applicable state law. These state licensing requirements typically require an application process, the payment of fees, background checks and administrative review. Our servicing operations are licensed (or exempt or otherwise not required to be licensed) to service mortgage loans in all 50 states, the District of Columbia, Guam and the U.S. Virgin Islands. Our consumer direct lending business is licensed to originate loans in 49 states and the District of Columbia. From time to time, we receive requests from states and Agencies and various investors for records, documents and information regarding our policies, procedures and practices regarding our loan production and loan servicing business activities, and undergo periodic examinations by federal and state regulatory agencies. We incur significant ongoing costs to comply with these licensing and examination requirements.

The Secure and Fair Enforcement for Mortgage Licensing Act of 2008 (the "SAFE Act") requires all states to enact laws that require all individuals acting in the United States as mortgage loan originators to be individually licensed or registered if they intend to offer mortgage loan products. These licensing requirements include enrollment in the Nationwide Mortgage Licensing System, application to state regulators for individual licenses and the completion of pre-licensing education, annual education and the successful completion of both national and state exams.

We must comply with a number of federal consumer protection laws, including, among others:

- the Real Estate Settlement Procedures Act ("RESPA"), and Regulation X thereunder, which require certain disclosures to mortgagors regarding the costs of mortgage loans, the administration of tax and insurance escrows, the transferring of servicing of mortgage loans, the response to consumer complaints, and payments between lenders and vendors of certain settlement services;
- the Truth in Lending Act ("TILA"), and Regulation Z thereunder, which require certain disclosures to mortgagors regarding the terms of their mortgage loans, notices of sale, assignments or transfers of ownership of mortgage loans, new servicing rules involving payment processing, and adjustable rate mortgage change notices and periodic statements;
- the Equal Credit Opportunity Act and Regulation B thereunder, which prohibit discrimination on the basis of age, race and certain other characteristics, in the extension of credit;
- the Fair Housing Act, which prohibits discrimination in housing on the basis of race, sex, national origin, and certain other characteristics;
- the Home Mortgage Disclosure Act and Regulation C thereunder, which require financial institutions to report certain public loan data;
- the Homeowners Protection Act, which requires the cancellation of private mortgage insurance once certain equity levels are reached, sets disclosure and notification requirements, and requires the return of unearned premiums;

- the Servicemembers Civil Relief Act, which provides, among other things, interest and foreclosure protections for service members on active duty;
- the Gramm-Leach-Bliley Act and Regulation P thereunder, which require us to maintain privacy with respect to certain consumer data in our possession and to periodically communicate with consumers on privacy matters;
- the Fair Debt Collection Practices Act, which regulates the timing and content of debt collection communications;
- the Fair Credit Reporting Act and Regulation V thereunder, which regulate the use and reporting of information related to the credit history of consumers; and
- the National Flood Insurance Reform Act of 1994, which provides for lenders to require from borrowers or to purchase flood insurance on behalf of borrower/owners of properties in special flood hazard areas.

Many of these laws are further impacted by the SAFE Act and implementation of new rules by the CFPB.

Our senior management team has established a comprehensive compliance management system ("CMS") that is designed to ensure compliance with applicable mortgage origination and servicing laws and regulations. The components of our CMS include: (a) oversight by senior management and our Board of Directors to ensure that our compliance culture, guidance, and resources are appropriate; (b) a compliance program to ensure that our policies, training and monitoring activities are complete and comprehensive; (c) a complaint management program to ensure that consumer complaints are appropriately addressed and that any required actions are implemented on a timely basis; and (d) independent oversight to ensure that our CMS is functioning as designed.

An important component of the CMS is management's Mortgage Regulatory Compliance Committee ("MRCC"). This committee oversees the CMS and supports our cultural initiatives that reinforce the importance of regulatory compliance. The MRCC also monitors changes in the internal and external environment, approves mortgage compliance policies, monitors compliance with those policies and ensures any required remediation is implemented on a timely basis. The MRCC has identified individuals throughout the organization to oversee specific areas of compliance. MRCC membership includes senior management from all areas of the Company impacted by mortgage compliance laws and regulations. The MRCC meets on a regular basis throughout the year.

Intellectual Property

We hold various registered trademarks, including trademarks with respect to the name PennyMac[®], the swirl design and rooftop design appearing in certain PennyMac drawings and logos and various additional designs and word marks relating to the PennyMac name. Depending upon the jurisdiction, trademarks generally are valid as long as they are in use and/or their registrations are properly maintained. We generally intend to renew our trademarks as they come up for renewal. We do not otherwise rely on any copyright, patent or other form of registration to protect our rights in our intellectual property. Our other intellectual property includes proprietary know-how and technological innovations, such as our proprietary workflow-driven cloud-based servicing system, as well as proprietary pricing engines, loan-level analytics systems and other trade secrets that we have developed to maintain our competitive position.

Competition

Given the diverse and specialized nature of our businesses, we do not believe we have a direct competitor for the totality of our business. We compete with a number of nationally-focused companies in each of our businesses.

In our mortgage banking segments, we compete with large financial institutions and with other independent residential mortgage loan producers and servicers, such as Wells Fargo, JP Morgan Chase, Quicken Loans and Mr. Cooper. In our loan production segment, we compete on the basis of product offerings, technical knowledge, manufacturing quality, speed of execution, rate and fees. In our servicing segment, we compete on the basis of experience in the residential loan servicing business, quality and efficiency of execution and servicing performance.

In our investment management segment, we compete for capital with both traditional and alternative investment managers. We compete on the basis of historical track record of risk-adjusted returns, experience of investment management team, the return profile of prospective investment opportunities and on the level of fees and expenses.

Employees

As of December 31, 2019, we, through a subsidiary, had 4,215 employees.

Available Information

Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and amendments to those reports filed with or furnished to the SEC pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), are available free of charge through the investor relations section of our website at www.pennymacfinancial.com as soon as reasonably practicable after electronically filing such material with the SEC. The SEC maintains an Internet site that contains reports, proxy and information statements and other information regarding our filings at www.sec.gov. The above references to our website and the SEC's website do not constitute incorporation by reference of the information contained on those websites and should not be considered part of this document.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the following factors, which could materially affect our business, financial condition, liquidity and results of operations in future periods. The risks described below are not the only risks that we face. Additional risks not presently known to us or that we currently deem immaterial may also materially adversely affect our business, financial condition, liquidity and results of operations in future periods.

Risks Related to Our Mortgage Banking Segment

Regulatory Risks

We operate in a highly regulated industry and the continually changing federal, state and local laws and regulations could materially and adversely affect our business, financial condition, liquidity and results of operations.

We are required to comply with a wide array of federal, state and local laws and regulations that regulate, among other things, the manner in which we conduct our businesses. These regulations directly impact our business and require constant compliance, monitoring and internal and external audits and examinations by federal and state regulators. Our failure to operate effectively and in compliance with any of these laws, regulations and rules could subject us to lawsuits or governmental actions and damage our reputation, which could materially and adversely affect our business, financial condition, liquidity and results of operations. In addition, our failure to comply with these laws, regulations and rules may result in increased costs of doing business, reduced payments by borrowers, modification of the original terms of mortgage loans, permanent forgiveness of debt, delays in the foreclosure process, increased servicing advances, litigation, reputational damage, enforcement actions, and repurchase and indemnification obligations. Further, PLS may be required to pay substantial penalties imposed by its regulators due to compliance errors, or PLS may lose its license to originate and/or service loans.

The failure of our correspondent sellers to comply with any applicable laws, regulations and rules may also result in these adverse consequences. We have in place a due diligence program designed to assess areas of risk with respect to loans we acquire from such correspondent sellers. However, we may not detect every violation of law and, to the extent any correspondent sellers or other third party originators or servicers with whom we do business fail to comply with applicable laws or regulations and any of their mortgage loans or MSRs become part of our assets, it could subject us, as an assignee or purchaser of the related mortgage loans or MSRs, to monetary penalties or other losses. While we may have contractual rights to seek indemnity or repurchase from certain of these lenders and third party originators and servicers, if any of them are unable to fulfill their indemnity or repurchase obligations to us to a material extent, our business, liquidity, financial condition and results of operations could be materially and adversely affected. Our service providers and vendors are also required to operate in compliance with applicable laws, regulations and rules. Our failure to adequately manage service providers and vendors to mitigate risks of noncompliance with applicable laws may also have these negative results.

The outcome of the 2020 U.S. Presidential and Congressional elections could result in significant policy changes or regulatory uncertainty in our industry. While it is not possible to predict when and whether significant policy or regulatory changes would occur, any such changes on the federal, state or local level could significantly impact, among other things, our operating expenses, the availability of mortgage financing, interest rates, consumer spending, the economy and the geopolitical landscape. To the extent that the new government administration takes action by proposing and/or passing regulatory policies that could have a negative impact on our industry, such actions may have a material adverse effect on our business, financial condition and results of operations.

New rules and regulations and more stringent enforcement of existing rules and regulations by the CFPB or state regulators could result in enforcement actions, fines, penalties and the inherent reputational risk that results from such actions.

Under the Dodd-Frank Act, the CFPB has regulatory authority over certain aspects of our business as a result of our residential mortgage banking activities, including, without limitation, the authority to conduct investigations, bring enforcement actions, impose monetary penalties, require remediation of practices, pursue administrative proceedings or litigation, and obtain cease and desist orders for violations of applicable federal consumer financial laws. Although there has been a decline in enforcement actions by the CFPB under the current government administration, examinations by state regulators and enforcement actions by state attorneys general have increased and may continue to increase in the residential mortgage and servicing sectors.

Rules and regulations promulgated under the Dodd-Frank Act or by the CFPB, uncertainty regarding recent changes in leadership (including interim leadership) or authority levels within the CFPB, and actions taken or not taken by the CFPB could result in heightened federal and state regulation and oversight of our business activities, materially and adversely affect the manner in which we conduct our business, and increase costs and potential litigation associated with our business activities. Our failure to comply with the laws, rules or regulations to which we are subject, whether actual or alleged, could have a material adverse effect on our business, liquidity, financial condition and results of operations.

We are highly dependent on U.S. government-sponsored entities and government agencies, and any changes in these entities, their current roles or the leadership at such entities or their regulators could materially and adversely affect our business, financial condition, liquidity and results of operations.

Our ability to generate revenues through mortgage loan sales depends on programs administered by GSEs, such as Fannie Mae and Freddie Mac, government agencies, including Ginnie Mae, and others that facilitate the issuance of mortgage-backed securities ("MBS"), in the secondary market. Presently, almost all of the newly originated loans that we originate directly with borrowers or assist PMT in acquiring from mortgage lenders through our correspondent production activities qualify under existing standards for inclusion in MBS issued by Fannie Mae or Freddie Mac or guaranteed by Ginnie Mae. We or PMT also derive other material financial benefits from our Agency relationships, including the assumption of credit risk by certain of these Agencies on loans included in such MBS in exchange for our payment of guarantee fees and the ability to avoid certain loan inventory finance costs through streamlined loan funding and sale procedures. A number of legislative proposals have been introduced in recent years that would wind down or

phase out the GSEs, including a proposal by the current White House administration to end the conservatorship and privatize Fannie Mae and Freddie Mac. It is not possible to predict the scope and nature of the actions that the U.S. government, will ultimately take with respect to the GSEs. Any changes in laws and regulations affecting the relationship between Fannie Mae and Freddie Mac and their regulators or the U.S. federal government, and any changes in leadership at these entities, could adversely affect our business and prospects. Any discontinuation of, or significant reduction in, the operation of Fannie Mae or Freddie Mac or any significant adverse change in their capital structure, financial condition, activity levels in the primary or secondary mortgage markets or in underwriting criteria could materially and adversely affect our business, financial condition, liquidity and results of operations.

Elimination of the traditional roles of Fannie Mae and Freddie Mac, or any changes to the nature or extent of the guarantees provided by Fannie Mae and Freddie Mac or the fees, terms and guidelines that govern our selling and servicing relationships with them, could also materially and adversely affect our ability to sell and securitize loans through our loan production segment, and the performance, liquidity and market value of our investments. Our ability to generate revenues from newly originated loans that we assist PMT in acquiring through its correspondent production business would be similarly affected. Moreover, any changes to the nature of the GSEs or their guarantee obligations could redefine what constitutes an Agency MBS and could have broad adverse implications for the market and our business, financial condition, liquidity and results of operations.

Our ability to generate revenues from newly originated loans that we assist PMT in acquiring through its correspondent production business is also highly dependent on the fact that the Agencies have not historically acquired such loans directly from mortgage lenders, but have instead relied on banks and non-bank aggregators such as us to acquire, aggregate and securitize or otherwise sell such loans to investors in the secondary market. Certain of the Agencies have approved new and smaller lenders that traditionally may not have qualified for such approvals. To the extent that these mortgage lenders choose to sell directly to the Agencies rather than through loan aggregators like us, the number of loans available for purchase by aggregators is reduced, which could materially and adversely affect our business and results of operations. Similarly, to the extent the Agencies increase the number of purchases and sales for their own accounts, our business and results of operations could be materially and adversely affected.

Our business prospects, financial condition, liquidity and results of operations could be adversely impacted if, and to the extent that, there is no longer a special exemption and qualified mortgage ("QM") loan designation for certain GSE eligible loans and there are no offsetting changes to the ability to repay ("ATR") rules.

The Dodd-Frank Act provides that a lender must make "a reasonable, good faith determination" of each borrower's ability to repay a loan, but may presume that a borrower will be able to repay a loan if such loan has certain characteristics that meet the QM definition. The CFPB adopted regulations that created a special exemption, generally referred to as the "QM patch," which allows any GSE-eligible loan to be deemed a QM. The QM patch effectively provides QM designation for GSE eligible loans that have a debt-to-income ratio in excess of 43%, which represents a meaningful portion of the loans currently purchased by the GSEs. Without the QM patch or an alternative, loans with debt-to-income ratios above 43% would not be designated as QM unless they were insured by a federal agency such as the FHA or VA, which have each adopted their own QM definition that does not currently have a debt-to-income ratio limitation. The QM patch expires on the earlier of the end of the GSEs' conservatorship or January 10, 2021.

On July 25, 2019, the CFPB released an Advanced Notice of Proposed Rulemaking ("ANPR") regarding the expiration of the QM patch, specifically stating that the CFPB intends to allow the QM patch to expire in January 2021. In a letter to lawmakers on January 17, 2020, the CFPB signaled it plans to extend the QM patch for a short period until the effective date of a proposed alternative that would replace the 43% DTI requirement or until the end of the GSEs' conservatorship, whichever comes first. The expiration of the QM Patch or any action to modify the QM rule could have significant implications for the U.S. housing and mortgage market. The GSEs would no longer be able to purchase or guarantee loans with DTIs above 43% and a portion of the type of loans currently originated under the QM patch could move away from the GSEs to other federal agencies or to the private market. We may be unable to comply with Appendix Q of the ATR rule or to find comfort in the non-QM market, and our borrowers may be unable to meet the 43% DTI requirement. Also, a loan from another federal agency may not be attractive to all borrowers who otherwise would have found financing under the QM patch. The GSEs could also see a significant drop in their origination volumes if changes to the QM rule do not offset the impact of the expiration of the QM patch. Further, we may also face operational changes and significant declines in origination volume if the QM patch expires without offsetting changes to the QM rule. All of these events could materially and adversely affect our business, financial condition, liquidity and results of operations.

We are required to hold various Agency approvals in order to conduct our business and there is no assurance that we will be able to obtain or maintain those Agency approvals or that changes in Agency guidelines will not materially and adversely affect our business, financial condition, liquidity and results of operations.

We are required to hold certain Agency approvals in order to sell mortgage loans to the Agencies and service such mortgage loans on their behalf. Our failure to satisfy the various requirements necessary to obtain and maintain such Agency approvals over time would restrict our direct business activities and could materially and adversely impact our business, financial condition, liquidity and results of operations.

We are also required to follow specific guidelines that impact the way that we originate and service Agency loans. A significant change in these guidelines that has the effect of decreasing the fees we charge or requires us to expend additional resources in providing mortgage services could decrease our revenues or increase our costs, which would also adversely affect our business, financial condition, liquidity and results of operations.

In addition, the FHFA has directed the GSEs to align their guidelines for servicing delinquent mortgages and assess compensatory penalties against servicers in connection with the failure to meet specified timelines relating to delinquent loans and foreclosure proceedings, and other breaches of servicing obligations. Our failure to operate efficiently and effectively within the prevailing regulatory framework and in accordance with the applicable origination and servicing guidelines and/or the loss of our seller/servicer license approval or approved issuer status with the Agencies could result in our failure to benefit from available monetary incentives and/or expose us to monetary penalties and curtailments, all of which could materially and adversely affect our business, financial condition, liquidity and results of operations.

Our inability to meet certain net worth and liquidity requirements imposed by the Agencies could have a material adverse effect on our business, financial condition, liquidity and results of operation.

We are subject to minimum financial eligibility requirements established by the Agencies. These minimum financial requirements, which are described in *Liquidity and Capital Resources*, include net worth, capital ratio and/or liquidity criteria in order to set a minimum level of capital needed to adequately absorb potential losses and a minimum amount of liquidity needed to service Agency mortgage loans and MBS and cover the associated financial obligations and risks.

In order to meet these minimum financial requirements, we are required to maintain cash and cash equivalents in amounts that may adversely affect our business, financial condition, liquidity and results of operations, which could significantly impede us from growing our business and place us at a competitive disadvantage in relation to federally chartered banks and certain other financial institutions. To the extent that such minimum financial requirements are not met, the Agencies may suspend or terminate our Agency approvals or agreements, which could cause us to cross default under financing arrangements and/or have a material adverse effect on our business, financial condition liquidity and results of operations.

We may be subject to certain banking regulations that may limit our business activities.

As of December 31, 2019, PNC Financial Services Group Inc. ("PNC") owned approximately 22% of the outstanding voting common shares of BlackRock, Inc. Based on PNC's interests in and relationships with BlackRock, Inc., BlackRock, Inc. is deemed to be a non-bank subsidiary of PNC. BlackRock, Inc. is one of our largest equity holders. Due to this relationship, we are deemed to be a non-bank subsidiary of PNC, which is regulated as a financial holding company under the Bank Holding Company Act of 1956, as amended. As a non-bank subsidiary of PNC, we may be subject to certain banking regulations, including the supervision and regulation of the Board of Governors of the Federal Reserve System (the "Federal Reserve"). Such banking regulations could limit the activities and the types of businesses that we may conduct, and the Federal Reserve may also impose substantial fines and other penalties for violations that we may commit. To the extent that we, as a non-bank mortgage lender, are subject to banking regulations, we could be at a competitive disadvantage because many of our non-bank competitors are not subject to these same regulations.

In addition, provisions of the Dodd-Frank Act referred to as the "Volcker Rule" prohibit or restrict a bank holding company and its affiliates from conducting certain transactions with certain investment funds, including hedge funds and private equity funds (collectively "covered funds"), when it has an ownership interest in, sponsors or advises a covered fund. The Volcker Rule prohibits proprietary trading as defined by such rule, unless the trading is permitted by an exemption, such as for risk-mitigating hedging purposes. The Volcker Rule applies to us by virtue of our affiliation with PNC through BlackRock. The Volcker Rule limits our ability to acquire or retain an ownership interest in, sponsor, advise or manage covered funds, and limits investments in certain covered funds by our employees, among other restrictions. If a fund, whether newly created or existing, becomes a covered fund, then certain transactions between us and the covered fund could be prohibited or restricted, or the fund may need to be restructured. These prohibitions, restrictions and limitations could disadvantage us against those competitors that are not subject to the Volcker Rule in the ability to manage covered funds and to retain employees. Our failure to comply with the requirements of the Volcker Rule may adversely affect our business, financial condition, liquidity and results of operations.

Unlike competitors that are federally chartered banks, we are subject to the licensing and operational requirements of states and other jurisdictions that result in substantial compliance costs, and our business would be adversely affected if we lose our licenses.

Because we are not a federally chartered depository institution, we do not benefit from exemptions to state mortgage lending, loan servicing or debt collection licensing and regulatory requirements. We must comply with state licensing requirements and varying compliance requirements in all 50 states, the District of Columbia, Guam and the U.S. Virgin Islands, and regulatory changes may increase our costs through stricter licensing laws, disclosure laws or increased fees or may impose conditions to licensing that we or our personnel are unable to meet.

In most states in which we operate, a regulatory agency or agencies regulate and enforce laws relating to mortgage servicers and mortgage originators. Future state legislation and changes in existing regulation may significantly increase our compliance costs or reduce the amount of ancillary income we are entitled to collect from borrowers or otherwise. This could make our business cost-prohibitive in the affected state or states and could materially affect our business.

The failure of PennyMac Loan Services, LLC to avail itself of an appropriate exemption from registration as an investment company under the Investment Company Act of 1940 could have a material and adverse effect on our business.

We intend to operate so that we and each of our subsidiaries are not required to register as investment companies under the Investment Company Act of 1940, as amended, or the Investment Company Act. We believe that our subsidiary, PennyMac Loan Services, LLC ("PLS"), qualifies for one or more exemptions provided in the Investment Company Act because of the historical and current composition of its assets and income; however, there can be no assurances that the composition of PLS' assets and income will remain the same over time such that one or more exemptions will continue to be applicable.

If PLS is required to register as an investment company, we would be required to comply with a variety of substantive requirements under the Investment Company Act that impose, among other things: limitations on capital structure; restrictions on specified investments; prohibitions on transactions with affiliates; compliance with reporting, record keeping, voting and proxy disclosure; and, other rules and regulations that would significantly increase our operating expenses. Further, if PLS was or is required to register as an investment company, PLS would be in breach of various representations and warranties contained in its credit and other agreements resulting in a default as to certain of our contracts and obligations. This could also subject us to civil or criminal actions or regulatory proceedings, or result in a court appointed receiver to take control of us and liquidate our business, any or all of which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Liability relating to environmental matters may impact the value of properties that we may acquire or the properties underlying our investments.

Under various U.S. federal, state and local laws, an owner or operator of real property may become liable for the costs of removal of certain hazardous substances released on its property. These laws often impose liability without regard to whether the owner or operator was responsible for, or aware of, the release of such hazardous substances. The presence of hazardous substances may also adversely affect an owner's ability to sell real estate, borrow using real estate as collateral or make debt payments to us. In addition, if we take title to a property, the presence of hazardous substances may adversely affect our ability to sell the property, and we may become liable to a governmental entity or to third parties for various fines, damages or remediation costs. Any of these liabilities or events may materially and adversely affect the fair value of the relevant asset and/or our business, financial condition, liquidity and results of operations.

Market Risks

Our mortgage banking revenues are highly dependent on macroeconomic and United States real estate market, mortgage market and financial market conditions.

The success of our business strategies and our results of operations are materially affected by current or future conditions in the real estate market, mortgage markets, financial markets and the economy generally. Factors such as inflation, deflation, unemployment, personal and business income taxes, healthcare, energy costs, domestic political issues, government shutdowns, climate change and the availability and cost of credit may contribute to increased volatility and unclear expectations for the economy in general and the real estate, mortgage market and financial markets in particular going forward. A destabilization of the real estate market, mortgage market and financial markets or deterioration in these markets also could reduce our loan production volume, reduce the profitability of servicing mortgages or adversely affect our ability to sell mortgage loans that we originate or acquire, either at a profit or at all. Any of the foregoing could materially and adversely affect our business, financial condition, liquidity and results of operations.

The industry in which we operate is highly competitive, and is likely to become more competitive, and decreased margins resulting from increased competition or our inability to compete successfully could adversely affect our business, financial condition, liquidity and results of operations.

We operate in a highly competitive industry that could become even more competitive as a result of economic, legislative, regulatory and technological changes. With respect to mortgage loan production, we face competition in such areas as mortgage loan offerings, rates, fees and customer service. With respect to servicing, we face competition in areas such as fees, cost to service and service levels, including our performance in reducing delinquencies and entering into successful modifications.

Large commercial banks and savings institutions and other non-bank mortgage originators and servicers are becoming increasingly competitive in the origination or acquisition of newly originated mortgage loans and the servicing of mortgage loans. Many of these institutions have significantly greater resources and access to capital and financing arrangements than we do, which may give them the benefit of a lower cost of funds. Additionally, our existing and potential competitors may decide to modify their business models to compete more directly with our loan production and servicing models. As more non-bank entities enter these markets and as more commercial banks aggressively compete, our mortgage banking businesses may generate lower volumes and/or margins. If we are unable to grow our loan production volumes or if our margins become compressed, then our business, financial condition, liquidity and results of operations could be materially and adversely affected.

In addition, technological advances and heightened e-commerce activities have increased consumers' access to products and services. This has intensified competition among banks and non-banks in offering and servicing mortgage loans. We may be unable to compete successfully in our mortgage banking businesses and this could materially and adversely affect our business, financial condition, liquidity and results of operations.

We may not be able to effectively manage significant increases or decreases in our loan production volume, which could negatively affect our business, financial condition, liquidity and results of operations.

Our loan production segment consists of our consumer direct lending activities, in which we originate mortgage loans directly with borrowers through telephone call centers or the Internet, our correspondent production activities, in which we facilitate the acquisition by PMT from correspondent sellers of newly originated mortgage loans that have been underwritten to our standards and, in the case of government loans, acquire such loans from PMT, and our broker direct lending activities, in which we provide brokers with a broad range of mortgage loan products and programs. To date, we have grown our loan production volumes on the basis of our product offerings, technical knowledge, manufacturing quality, speed of execution, interest rates and fees, as well as the relationships we have established through our network of mortgage lenders. In our correspondent production activities and broker direct lending activities, the lenders and brokers with whom we do business are not contractually obligated to do business with us or PMT, and our competitors also have relationships with these lenders and brokers and actively compete against us. Our non-servicing portfolio consumer direct lending platform is also largely driven on referrals and establishing relationships.

In addition, our consumer direct lending business relies heavily on our ability to convert leads regarding prospective borrowers into funded loans, the success of which depends on the pricing we offer relative to the pricing of our competitors and our operational ability to process, underwrite and close loans. Institutions that compete with us in this regard may have significantly greater access to capital or other resources than we do, which may give them the benefit of a lower cost of operations.

We may experience significant growth in our loan production volumes. If we do not effectively manage our growth and are unable to consistently maintain quality of execution, our reputation and existing relationships with mortgage lenders and brokers could be damaged, we may not be able to maintain PMT's existing relationships or develop new relationships with mortgage lenders and brokers, our new mortgage products may not gain widespread acceptance and the quality of our correspondent production, consumer direct lending and broker direct lending operations could suffer, all of which could negatively affect our brand and operating results.

Our loan production segment is also subject to overall market factors that could adversely impact our ability to grow our loan production volume. For example, increased competition from new and existing market participants, reductions in the overall level of refinancing activity or slow growth in the level of new home purchase activity can impact our ability to continue to grow our loan production volumes, and we may be forced to accept lower margins in our respective businesses in order to continue to compete and keep our volume of activity consistent with past or projected levels.

We may be unable to maintain sufficient capital and liquidity to meet the financing requirements of our business.

We will require new and continued debt financing to facilitate our anticipated growth. Accordingly, our ability to finance our operations and repay maturing obligations rests in large part on our ability to borrow money. We are generally required to renew our financing arrangements each year, which exposes us to refinancing and interest rate risks. Our ability to refinance existing debt and borrow additional funds is affected by a variety of factors beyond our control including:

- limitations imposed on us under our financing agreements that contain restrictive covenants and borrowing conditions, which may limit our ability to raise additional debt;
- restrictions imposed upon us by regulatory agencies that mandate certain minimum capital and liquidity requirements and additional scrutiny from such regulatory agencies;
- liquidity in the credit markets;
- prevailing interest rates;
- the strength of the lenders from which we borrow, and the regulatory environment in which they operate, including proposed capital strengthening requirements;
- limitations on borrowings on credit facilities imposed by the amount of eligible collateral pledged, which may be less than the borrowing capacity of the credit facility; and
- accounting changes that may impact calculations of covenants in our debt agreements.

No assurance can be given that any refinancing or additional financing will be possible when needed, that we will be able to negotiate acceptable terms or that market conditions will be favorable at the times that we require such refinancing or additional financing. If we are unable to obtain sufficient capital to meet the financing requirements of our business, financial condition, liquidity and results of operations would be materially and adversely affected.

We are also dependent on a limited number of banking institutions that extend us credit on terms that we have determined to be commercially reasonable. These banking institutions are subject to their own regulatory supervision, liquidity and capital requirements, risk management frameworks, profitability and risk thresholds and tolerances, any of which may change materially and negatively impact their business strategies, including their extension of credit to us specifically or mortgage lenders and servicers generally. Certain banking institutions have already exited, and others may in the future decide to exit, the mortgage business. Such actions may increase our cost of capital and limit or otherwise eliminate our access to capital, in which case our business, financial condition, liquidity and results of operations would be materially and adversely affected.

We leverage our assets under credit and other financing agreements and utilize various other sources of borrowings, which exposes us to significant risk and may materially and adversely affect our business, financial condition, liquidity and results of operations.

We currently leverage and, to the extent available, we intend to continue to leverage the mortgage loans produced through our consumer direct lending business and the government-insured loans acquired through our correspondent production activities from PMT with borrowings under repurchase agreements. When we enter into

repurchase agreements, we sell mortgage loans to lenders, which are the repurchase agreement counterparties, and receive cash from the lenders. The lenders are obligated to resell the same assets back to us at the end of the term of the transaction. Because the cash that we receive from a lender when we initially sell the assets to that lender is less than the fair value of those assets (this difference is referred to as the haircut), if the lender defaults on its obligation to resell the same assets back to us we could incur a loss on the transaction equal to the amount of the haircut (assuming that there was no change in the fair value of the assets). In addition, repurchase agreements generally allow the counterparties, to varying degrees, to determine a new fair value of the collateral to reflect current market conditions. If a counterparty lender determines that the fair value of the collateral has decreased, it may initiate a margin call and require us to either post additional collateral to cover such decrease or repay a portion of the outstanding borrowing. Should this occur, in order to obtain cash to satisfy a margin call, we may be required to liquidate assets at a disadvantageous time, which could cause us to incur further losses. If we are unable to satisfy a margin call, our counterparty may sell the collateral, which may result in significant losses to us.

In addition, we invest in certain assets, including MSRs, for which financing has historically been difficult to obtain. We currently leverage certain of our MSRs under secured financing arrangements. Our Fannie Mae MSRs are pledged to secure borrowings under a master repurchase agreement and our and Freddie Mac MSRs are pledged to secure borrowings under a loan and security agreement. Our Ginnie Mae MSRs and related excess servicing spread financing ("ESS") are pledged to a special purpose entity, which issues variable funding notes and term notes that are secured by such Ginnie Mae assets and repaid through the cash flows received by the special purpose entity as the lender under a repurchase agreement with PLS. In each case, similar to our repurchase agreements, the cash that we receive under these secured financing arrangements is less than the fair value of the assets and a decrease in the fair value of the pledged collateral can result in a margin call. Should a margin call occur, we may be required to liquidate assets at a disadvantageous time, which could cause us to incur further losses. If we are unable to satisfy a margin call, the secured parties may sell the collateral, which may result in significant losses to us.

Each of the secured financing arrangements pursuant to which we finance MSRs and ESS is further subject to the terms of an acknowledgement agreement with Fannie Mae, Freddie Mac or Ginnie Mae, as applicable, pursuant to which our and the secured parties' rights are subordinate in all respects to the rights of the applicable Agency. Accordingly, the exercise by any of Fannie Mae, Freddie Mac or Ginnie Mae of its rights under the applicable acknowledgment agreement could result in the extinguishment of our and the secured parties' rights in the related collateral and result in significant losses to us.

We leverage certain of our other assets under a capital lease and a revolving credit agreement and may in the future utilize other sources of borrowings, including term loans, bank credit facilities and structured financing arrangements, among others. The amount of leverage we employ varies depending on the asset class being financed, our available capital, our ability to obtain and access financing arrangements with lenders and the lenders' and rating agencies' estimate of, among other things, the stability of our cash flows. We can provide no assurance that we will have access to any debt or equity capital on favorable terms or at the desired times, or at all. Our inability to raise such capital or obtain financing on favorable terms could materially and adversely impact our business, financial condition, liquidity and results of operations.

Our credit and financing agreements contain financial and restrictive covenants that could adversely affect our business, financial condition, liquidity and results of operations.

The lenders under our credit and financing agreements require us and/or our subsidiaries to comply with various financial covenants, including those relating to tangible net worth, profitability and our ratio of total liabilities to tangible net worth. Incurring substantial debt subjects us to the risk that our cash flows from operations may be insufficient to repurchase the assets that we have sold to the lenders under our repurchase agreements or otherwise service the debt incurred under our other credit and financing agreements. Our lenders also require us to maintain minimum amounts of cash or cash equivalents sufficient to maintain a specified liquidity position. If we are unable to maintain these liquidity levels, we could be forced to sell additional assets at a loss and our financial condition could deteriorate rapidly.

Our existing credit and financing agreements also contain certain events of default and other financial and non-financial covenants and restrictions that impact our flexibility to determine our operating policies and investment strategies. If we default on our obligations under a credit or financing agreement, fail to comply with certain covenants and restrictions or breach our representations and are unable to cure, the lender may be able to terminate the transaction or its commitments, accelerate any amounts outstanding, require us to post additional collateral or repurchase the assets, and/or cease entering into any other credit transactions with us.

Because our credit and financing agreements typically contain cross-default provisions, a default that occurs under any one agreement could allow the lenders under our other agreements to also declare a default, thereby exposing us to a variety of lender remedies, such as those described above, and potential losses arising therefrom. Any losses that we incur on our credit and financing agreements could materially and adversely affect our business, financial condition, liquidity and results of operations.

Our earnings may decrease because of changes in prevailing interest rates.

Our profitability is directly affected by changes in prevailing interest rates. An increase in prevailing interest rates could:

- adversely affect our loan production volume, as refinancing an existing loan would be less attractive and qualifying for a loan may be more difficult;
- adversely affect our Ginnie Mae early buyout program because loan modifications would become less economically feasible; and
- increase the cost of servicing our outstanding debt, including debt related to servicing assets and loan production;

A decrease in prevailing interest rates could:

- cause an increase in the expected volume of loan refinancings, which would require us to record decreases in fair value on our MSRs; and
- reduce our earnings from our custodial deposit accounts.

An event of default, a negative ratings agency action, the perception of financial weakness, an adverse action by a regulatory authority, a lengthening of foreclosure timelines or a general deterioration in the economy that constricts the availability of credit may increase our cost of funds and make it difficult for us to refinance existing debt and borrow additional funds. In addition, we may not be able to adjust our operational capacity in a timely manner, or at all, in response to increases or decreases in mortgage production volume resulting from changes in prevailing interest rates.

Any of the increases or decreases discussed above could have a material adverse effect on our business, financial condition, liquidity and results of operations.

We are subject to risks associated with the expected discontinuation of LIBOR.

In July 2017, the head of the United Kingdom Financial Conduct Authority announced the phase out of the use of LIBOR by the end of 2021. To identify a set of alternative interest reference rates to LIBOR, the U.S. Federal Reserve established the Alternative Reference Rates Committee ("ARRC"), a U.S. based working group composed of large U.S. financial institutions. ARRC has identified the Secured Overnight Financing Rate as its preferred replacement for LIBOR, but it is unclear how their preference may impact the risks we maintain to the cessation of LIBOR, or if other benchmarks may emerge as a replacement for LIBOR.

The expected and actual discontinuation of LIBOR could have a significant impact on the financial markets and our business activities. We rely substantially on financing arrangements and liabilities under which our cost of

borrowing is based on LIBOR. We also hold assets and instruments used to hedge the value of certain assets that depend for their value on LIBOR. We anticipate significant challenges as it relates to the transition away from LIBOR for all of our LIBOR-based assets, financing arrangements, and liabilities, regardless whether their maturity dates fall before or after the anticipated discontinuation date in 2021. These challenges will include, but will not be limited to, amending agreements underlying our existing and/or new LIBOR-based assets, financing arrangements, and liabilities with appropriate fallback language prior to the discontinuation of LIBOR, and the possibility that LIBOR may deteriorate as a viable benchmark to ensure a fair cost of funds for our LIBOR-linked liabilities, interest income for our LIBOR-linked assets, and/or the fair value of our LIBOR-linked assets and hedges.

We also anticipate additional risks to our current business activities as they relate to the discontinuation of LIBOR. We service LIBOR-based adjustable rate mortgages ("ARMs") for which the underlying mortgage notes incorporate fallback provisions, but we cannot anticipate the response of our borrowers or note holders to such risks. Further, we expect to originate new LIBOR-based ARMs in 2020 and 2021. We also rely on financial models that incorporate LIBOR into their methodologies for financial planning and reporting.

Due to these risks, we expect both the impending and actual discontinuation of LIBOR could materially affect our interest expense and earnings, our cost of capital, and the fair value of certain of our assets and the instruments we use to hedge their value. For the same reason, we also can provide no assurance that changes in the value of our hedge instruments will effectively offset changes in the value of the assets they are expected to hedge. Our inability to manage these risks effectively may materially and adversely affect our business, financial condition, liquidity and results of operations.

Hedging against interest rate exposure may materially and adversely affect our results of operations and cash flows.

We pursue hedging strategies to reduce our exposure to adverse changes in interest rates. Our hedging activity will vary in scope based on the risks hedged, the level of interest rates, the type of investments held, and other changing market conditions. Hedging instruments involve risk because they often are not traded on regulated exchanges, guaranteed by an exchange or its clearing house, or regulated by any U.S. or foreign governmental authorities, and our interest rate hedging may fail to protect or could adversely affect us because, among other things:

- interest rate hedging can be expensive, particularly during periods of rising and volatile interest rates;
- available interest rate hedging may not correspond directly with the interest rate risk for which protection is sought;
- the duration of the hedge may not match the duration of the related liability or asset;
- the credit quality of the hedging counterparty owing money on the hedge may be downgraded to such an extent that it impairs our ability to sell or assign our side of the hedging transaction; and
- the hedging counterparty owing the money in the hedging transaction may default on its obligation to pay.

In addition, we may fail to recalculate, re-adjust and execute hedges in an efficient manner. Any hedging activity, which is intended to limit losses, may materially and adversely affect our results of operations and cash flows. Therefore, while we may enter into such transactions seeking to reduce interest rate risk, unanticipated changes in interest rates may result in worse overall investment performance than if we had not engaged in any such hedging transactions. A liquid secondary market may not exist for a hedging instrument purchased or sold, and we may be required to maintain a position until exercise or expiration, which could result in significant losses. In addition, the degree of correlation between price movements of the instruments used in hedging strategies and price movements in the portfolio positions or liabilities being hedged may vary materially. Moreover, for a variety of reasons, we may not establish an effective correlation between such hedging instruments and the portfolio positions or liabilities being hedged. Any such ineffective correlation may prevent us from achieving the intended hedge and expose us to risk of loss. Numerous regulations currently apply to hedging and any new regulations or changes in existing regulations may significantly increase our administrative or compliance costs. Our derivative agreements generally provide for the daily

mark to market of our hedge exposures. If a hedge counterparty determines that its exposure to us exceeds its exposure threshold, it may initiate a margin call and require us to post collateral. If we are unable to satisfy a margin call, we would be in default of our agreement, which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

We use estimates in determining the fair value of our MSRs, which are highly volatile assets with continually changing fair values. If our estimates of their value prove to be inaccurate, we may be required to write down the fair values of the MSRs which could adversely affect our business, financial condition, liquidity and results of operations.

Our estimates of the fair value of our MSRs is based on the cash flows projected to result from the servicing of the related mortgage loans and continually fluctuates due to a number of factors. These factors include prepayment speeds and other market conditions, which affect the number of loans that are repaid or refinanced and thus no longer result in cash flows, and the number of loans that become delinquent.

We use internal financial models that utilize our understanding of inputs and assumptions used by market participants to value our MSRs for purposes of financial reporting and for purposes of determining the price that we pay for portfolios of MSRs and to acquire loans for which we will retain MSRs. These models are complex and use asset-specific collateral data and market inputs for interest and discount rates. In addition, the modeling requirements of MSRs are complex because of the high number of variables that drive cash flows associated with MSRs. Even if the general accuracy of our valuation models is validated, valuations are highly dependent upon the reasonableness of our inputs and the results of the models.

If loan delinquencies or prepayment speeds are different than anticipated or other factors perform differently than modeled, the recorded value of certain of our MSRs may change. Significant differences in performance could increase the chance that we do not adequately estimate the impact of these factors on our valuations which could result in misstatements of our financial results, restatements of our financial statements, or otherwise materially and adversely affect our business, financial condition, liquidity and results of operations.

The geographic concentration of our servicing portfolio may be affected by weaker economic conditions or adverse events specific to certain regions which could decrease the fair value of our MSRs and adversely affect our business, financial condition, liquidity and results of operations.

A decline in the economy or difficulties in certain real estate markets are likely to cause a decline in the value of residential and commercial properties. To the extent that certain states in which we have greater concentrations of business in the future experience weaker economic conditions or greater rates of decline in real estate values than the United States generally, such concentration may disproportionately decrease the fair value of our MSRs and adversely affect our loan production businesses. The impact of property value declines may increase in magnitude and it may continue for a long period of time. Additionally, if states in which we have greater concentrations of business were to change their licensing or other regulatory requirements to make our business cost-prohibitive, we may be required to stop doing business in those states or may be subject to a higher cost of doing business in those states, which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Increases in delinquencies and defaults may adversely affect our business, financial condition, liquidity and results of operations.

Delinquencies can result from many factors including unemployment, weak economic conditions or real estate values, or catastrophic events such as man-made or natural disasters, pandemic, war or terrorist attacks. A decrease in home prices may result in higher loan-to-value ratios ("LTVs"), lower recoveries in foreclosure and an increase in loss severities above those that would have been realized had property values remained the same or continued to increase. Some borrowers do not have sufficient equity in their homes to permit them to refinance their existing loans, which may reduce the volume or growth of our loan production business. This may also provide borrowers with an incentive to default on their mortgage loans even if they have the ability to make principal and interest payments. Further, despite recent increases, interest rates have remained near historical lows for an extended period of time.

The likelihood of mortgage delinquencies and defaults, and the associated risks to our business, including higher costs to service such loans and a greater risk that we may incur losses due to repurchase or indemnification demands, change as loans season. Newly originated loans typically exhibit low delinquency and default rates as the changes in economic conditions, individual financial circumstances and other factors that drive borrower delinquency often do not appear for months or years. Highly seasoned loan portfolios, in which borrowers have demonstrated years of performance on their mortgage payments, also tend to exhibit low delinquency and default rates. Most of the loans in our prime servicing portfolio were originated in the years 2016 through 2019. As a result, we expect the delinquency rate and defaults in the prime servicing portfolio to increase in future periods as the portfolio seasons.

Increased mortgage delinquencies, defaults and foreclosures may result in lower revenue for loans that we service for the Agencies because we only collect servicing fees from the Agencies for performing loans, and our failure to service delinquent and defaulted loans in accordance with the applicable servicing guidelines could result in our failure to benefit from available monetary incentives and/or expose us to monetary penalties and curtailments. Additionally, while increased delinquencies generate higher ancillary fees, including late fees, these fees are not likely to be recoverable in the event that the related loan is liquidated. In addition, an increase in delinquencies lowers the interest income that we receive on cash held in collection and other accounts because there is less cash in those accounts. Also, increased mortgage defaults may ultimately reduce the number of mortgages that we service.

Increased mortgage delinquencies, defaults and foreclosures will also result in a higher cost to service those loans due to the increased time and effort required to collect payments from delinquent borrowers and to acquire and liquidate the properties securing the loans or otherwise resolve loan defaults if payment collection is unsuccessful, and only a portion of these increased costs are recoverable under our servicing agreements. Increased mortgage delinquencies, defaults and foreclosures may also result in an increase in servicing advances we are obligated to make to fulfill our obligations to MBS holders and to protect our investors' interests in the properties securing the delinquent mortgage loans. An increase in required advances also may cause an increase in our interest expense and affect our liquidity as a result of increased borrowings under our credit facilities to fund any such increase in the advances.

A disruption in the MBS market could materially and adversely affect our business, financial condition, liquidity and results of operations.

Most of the loans that we produce are pooled into MBS issued by Fannie Mae or Freddie Mac or guaranteed by Ginnie Mae. Disruptions in the general MBS market have occurred in the past. Any significant disruption or period of illiquidity in the general MBS market would directly affect our own liquidity and the liquidity of PMT because no existing alternative secondary market would likely be willing and able to accommodate on a timely basis the volume of loans that we typically sell in any given period. Furthermore, we would remain contractually obligated to fund loans under our outstanding IRLCs without being able to sell our existing inventory of mortgage loans. Accordingly, if the MBS market experiences a period of illiquidity, we might be prevented from selling the loans that we produce into the secondary market in a timely manner or at favorable prices and we would be required to hold a larger inventory of loans than we have committed facilities to fund or we may be required to repay a portion of the debt secured by these assets, which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Related Party Risks

We rely on PMT as a significant source of financing for, and revenue related to, our mortgage banking business, and the termination of, or material adverse change in, the terms of this relationship, or a material adverse change to PMT or its operations, would adversely affect our business, financial condition, liquidity and results of operations.

PMT is the counterparty that currently acquires all of the newly originated mortgage loans in connection with our correspondent production activities. A significant portion of our income is derived from a fulfillment fee earned in connection with PMT's acquisition of conventional loans. We are able to conduct our correspondent production activities without having to incur the significant additional debt financing that would be required for us to purchase those loans from the originating lender. In the case of government-insured loans, we purchase them from PMT at PMT's cost plus a sourcing fee and fulfill them for our own account and sell the loans, typically by pooling the federally insured or guaranteed loans together into an MBS which Ginnie Mae guarantees. We earn interest income and gains or losses

during the holding period and upon the sale of these securities, and we retain the MSRs with respect to the loans. If this relationship with PMT is terminated by PMT or PMT reduces the volume of these loans that it acquires for any reason, we would have to acquire these loans from the correspondent sellers for our own account, something that we may be unable to do, or enter into another similar counterparty arrangement with a third party, which we may not be able to enter into on terms that are as favorable to us, or at all.

The management agreement, the mortgage banking services agreement and certain of the other agreements that we have entered into with PMT contain cross-termination provisions that allow PMT to terminate one or more of those agreements under certain circumstances where another one of such agreements is terminated. Accordingly, the termination of this relationship with PMT, or a material change in the terms thereof that is adverse to us, would likely have a material adverse effect our business, financial condition, liquidity and results of operations. The terms of these agreements extend until September 12, 2020, subject to automatic renewal for additional 18-month periods, but any of the agreements may be terminated earlier under certain circumstances or otherwise non-renewed. If any agreement is terminated or non-renewed and not replaced by a new agreement, it would materially and adversely affect our ability to continue to execute our business plan.

We expect that PMT will continue to qualify as a REIT for U.S. federal income tax purposes. However, it is possible that PMT may not meet the requirements for qualification as a REIT. If PMT were to lose its REIT status, corporate-level income taxes, would apply to all of PMT's taxable income at federal and state tax rates. Either of these scenarios would potentially impair PMT's financial position and its ability to raise capital, which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

A significant portion of our loan servicing operations are conducted pursuant to subservicing contracts with PMT, and any termination by PMT of these contracts, or a material change in the terms thereof that is adverse to us, would adversely affect our business, financial condition, liquidity and results of operations.

PMT, as the owner of a substantial number of all of the MSRs or mortgage loans that we subservice, may, under certain circumstances, terminate our subservicing contract with or without cause, in some instances with little notice and little to no compensation. Upon any such termination, it would be difficult to replace such a large volume of subservicing in a short period of time, or perhaps at all. Accordingly, we may not generate as much revenue from subservicing for other third parties. If we were to have our subservicing terminated by PMT, or if there was a change in the terms under which we perform subservicing for PMT that was material and adverse to us, this would have a material adverse effect on our business, financial condition, liquidity and results of operations.

PMT has an exclusive right to acquire the loans that are produced through our correspondent production activities, which may limit the revenues that we could otherwise earn in respect of those loans.

Our mortgage banking services agreement with PMT requires PLS to provide fulfillment services for correspondent production activities exclusively to PMT as long as PMT has the legal and financial capacity to purchase correspondent loans. As a result, the revenue that we earn with respect to these loans will be limited to the fulfillment fees that we earn in connection with the production of these loans, which may be less than the revenues that we might otherwise be able to realize by acquiring these loans ourselves and selling them in the secondary loan market.

Our financings of MSRs using excess servicing spread exposes us to significant risks.

We have previously sold to PMT or its subsidiaries, from time to time, the right to receive certain ESS arising from MSRs that we owned or acquired. The ESS represents the difference between our contractual servicing fee with the applicable Agency and the base servicing fee that we retain as compensation for servicing the related mortgage loans upon our sale of the ESS.

As a condition of our sale of the ESS, PMT was required to subordinate its interests in the ESS to those of the applicable Agency. With respect to our Ginnie Mae MSRs, we pledged our interest in such MSRs and PMT's interest in the related ESS to a special purpose entity, which issues variable funding notes and term notes that are secured by such Ginnie Mae assets and repaid through the cash flows received by the special purpose entity as the lender under a repurchase agreement with PLS. Accordingly, our interest in the Ginnie Mae MSRs and PMT's interest in the related ESS are also subordinated to the rights of an indenture trustee on behalf of the note holders to which the special purpose entity issues its variable funding notes and term notes under an indenture, pursuant to which the indenture trustee has a blanket lien on all of our Ginnie Mae MSRs (including the ESS we sell to PMT and record as a financing).

The indenture trustee, on behalf of the note holders, may liquidate our Ginnie Mae MSRs along with PMT's interest in the ESS to the extent there exists an event of default under the indenture. In the event PMT's ESS is liquidated as a result of certain of our actions or inactions, we generally would be required to indemnify PMT under the applicable spread acquisition agreement. A claim by PMT for the loss of its ESS as a result of our actions or inactions would likely be significant in size. Either of these occurrences could have a material adverse effect on our business, financial condition, liquidity and results of operations.

In connection with PLS' repurchase agreement with the special purpose entity, we also provide pass through financing to PMT under a repurchase agreement to facilitate its financing of the ESS it acquires from us. The repurchase agreement subjects us to the credit risk of PMT. To the extent PMT defaults in its payments of principal and interest under its repurchase agreement with us, we would still be required to make the allocable and corresponding payments under our repurchase agreement with the special purpose entity. To the extent PMT fails to make such payments of principal and interest to us or otherwise defaults under its repurchase agreement and we are unable to make the allocable and corresponding payments under our repurchase agreement with the special purpose entity, this could also create an event of default that could cause a cross default under other financing arrangements and/or have a material adverse effect on our business, financial condition, liquidity and results of operations.

Other Risks

We may be required to indemnify the purchasers of loans that we originate, acquire or assist in the fulfillment of, or repurchase those loans, if those loans fail to meet certain criteria or characteristics or under other circumstances.

Our contracts with purchasers of newly originated loans that we fund through our consumer direct lending business or acquire from PMT through our correspondent production activities contain provisions that require us to indemnify the purchaser of the related loans or repurchase such loans under certain circumstances. Our loan sale agreements with purchasers, including the Agencies, contain provisions that generally require us to indemnify or repurchase these loans if our representations and warranties concerning loan quality and loan characteristics are inaccurate; or the loans fail to comply with the respective Agency's underwriting or regulatory requirements.

Repurchased loans typically can only be financed at a steep discount to their repurchase price, if at all. They are also typically valued and, therefore, can generally only be sold at a significant discount to the underlying UPBs. In certain cases involving mortgage lenders from whom loans were acquired through our correspondent production activities, we may have contractual rights to either recover some or all of our indemnification losses or otherwise demand repurchase of these loans. Depending on the volume of repurchase and indemnification requests, some of these mortgage lenders may not be able to financially fulfill their obligation to indemnify us or repurchase the affected loans. If a material amount of recovery cannot be obtained from these mortgage lenders, our business, financial condition, liquidity and results of operations could be materially and adversely affected.

Although our indemnification and repurchase exposure cannot be quantified with certainty, to recognize these potential indemnification and repurchase losses, we have recorded a liability of \$21.4 million as of December 31, 2019. Because of the increase in our loan production over time, we expect that indemnification and repurchase requests are also likely to increase. Should home values decrease and negatively impact the related loan values, our realized loan losses from indemnifications and repurchases may increase as well. As such, our indemnification and repurchase costs may increase well beyond our current expectations. In addition, our mortgage banking services agreement with PMT requires us to indemnify it with respect to loans for which we provide fulfillment services in certain instances. If we are

required to indemnify PMT or other purchasers against losses, or repurchase loans from PMT or other purchasers, that result in losses that exceed the recorded liability, this could have a material adverse effect on our business, financial condition, liquidity and results of operations.

We depend on the accuracy and completeness of information about borrowers and counterparties and any misrepresented information could adversely affect our business, financial condition, liquidity and results of operations.

In deciding whether to approve loans or to enter into other transactions across our businesses with borrowers and counterparties, including brokers, correspondent lenders and non-delegated correspondent lenders, we may rely on information furnished to us by or on behalf of borrowers and such counterparties, including financial statements and other financial information. We also may rely on representations of borrowers and such counterparties as to the accuracy and completeness of that information and, with respect to financial statements, on reports of independent auditors. If any of this information is intentionally or negligently misrepresented and such misrepresentation is not detected prior to loan funding, the fair value of the loan may be significantly lower than expected. Whether a misrepresentation is made by the loan applicant, another third party or one of our employees, we generally bear the risk of loss associated with the misrepresentation. Our controls and processes may not have detected or may not detect all misrepresented information in our loan originations or acquisitions. Any such misrepresented information could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Our counterparties may terminate our MSRs, which could adversely affect our business, financial condition, liquidity and results of operations.

As is standard in the industry, under the terms of our master servicing agreements with the Agencies in respect of Agency MSRs that we retain in connection with our loan production, the Agencies have the right to terminate us as servicer of the loans we service on their behalf at any time (and, in certain instances, without the payment of any termination fee) and also have the right to cause us to sell the MSRs to a third party. In addition, our failure to comply with applicable servicing guidelines could result in our termination under such master servicing agreements by the Agencies with little or no notice and without any compensation. The owners of other non-Agency loans that we service may also terminate certain of our MSRs if we fail to comply with applicable servicing guidelines. If the MSRs are terminated on a material portion of our servicing portfolio, our business, financial condition, liquidity and results of operations could be adversely affected.

We are required to make servicing advances that can be subject to delays in recovery or may not be recoverable in certain circumstances, which could adversely affect our business, financial condition, liquidity and results of operations.

During any period in which a borrower is not making payments, we are required under most of our servicing agreements in respect of our MSRs to advance our own funds to pay property taxes and insurance premiums, legal expenses and other protective advances. We also advance funds under these agreements to maintain, repair and market real estate properties on behalf of investors. As home values change, we may have to reconsider certain of the assumptions underlying our decisions to make advances and, in certain situations, our contractual obligations may require us to make advances for which we may not be reimbursed. In addition, if a mortgage loan serviced by us is in default or becomes delinquent, the repayment to us of the advance may be delayed until the mortgage loan is repaid or refinanced or a liquidation occurs. A delay in our ability to collect advances may adversely affect our liquidity, and our inability to be reimbursed for advances could have a material adverse effect on our business, financial condition, liquidity and results of operations.

We may not realize all of the anticipated benefits of potential future acquisitions of MSRs, which could adversely affect our business, financial condition, liquidity and results of operations.

Our ability to realize the anticipated benefits of potential future acquisitions of servicing portfolios will depend, in part, on our ability to appropriately service any such assets. The process of acquiring these assets may disrupt our business and may not result in the full benefits expected. The risks associated with these acquisitions include, among others, unanticipated issues in integrating information regarding the new loans to be serviced into our information technology systems, and the diversion of management's attention from other ongoing business concerns. We have also seen increased scrutiny by the Agencies and regulators with respect to large servicing acquisitions, the effect of which could reduce the willingness of selling institutions to pursue MSR sales and/or impede our ability to complete MSR acquisitions. Moreover, if we inappropriately value the assets that we acquire or the fair value of the assets that we acquire declines after we acquire them, the resulting charges may negatively affect both the carrying value of the assets on our balance sheet and our earnings. Furthermore, if we incur additional indebtedness to finance an acquisition, the acquired servicing portfolio may not be able to generate sufficient cash flows to service that additional indebtedness. Unsuitable or unsuccessful acquisitions could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Risks Related to our Investment Management Segment

Market conditions could reduce the fair value of the assets that we manage, which would reduce our management and incentive fees.

A significant portion of the fees that we earn under our investment management agreements with clients are based on the fair value of the assets that we manage. The fair values of the securities and other assets held in the portfolios that we manage and, therefore, our assets under management may decline due to any number of factors beyond our control, including, among others, a decline in housing, changes to interest rates, stock or bond market movements, a general economic downturn, political uncertainty or acts of terrorism. The economic outlook cannot be predicted with certainty and we continue to operate in a challenging business environment. If volatile market conditions cause a decline in the fair value of our assets under management, that decline in fair value could materially reduce our management fees and incentive fees under our management contract with PMT and adversely affect our revenues. If our revenues decline without a commensurate reduction in our expenses, our net income will be reduced.

We currently manage assets for a single client, the loss of which could significantly reduce our management and incentive fees and have a material adverse effect on our results of operations.

Substantially all of our management and incentive fees result from our management of PMT. The term of the management agreement that we have entered into with PMT, as amended, expires on September 12, 2020, subject to automatic renewal for additional 18-month periods, unless terminated earlier in accordance with the terms of the agreement. In the event of a termination of one or more related party agreements by PMT in certain circumstances, we may be entitled to a termination fee under our management agreement. However, the termination of such management agreement and the loss of PMT as a client would significantly affect our investment management segment and negatively impact our management fees and incentive fees.

The historical returns on the assets that we select and manage for PMT, and our resulting management and incentive fees, may not be indicative of future results.

The historical returns of the assets that we manage should not be considered indicative of the future returns on those assets or future returns on other assets that we may select for investment by PMT. The investment performance that is achieved for the assets that we manage varies over time, and the nature and mix of assets we manage has changed significantly over the past several years. As a result, the change and variance in investment performance can be significant. Accordingly, the management and incentive fees that we have earned in the past based on those returns should not be considered indicative of the management or incentive fees that we may earn in the future from managing those same assets or from managing other assets for PMT. A decline in the investment performance of our managed assets will also adversely affect our ability to attract and retain clients.

Changes in regulations applicable to our investment management segment could materially and adversely affect our business, financial condition, liquidity and results of operations.

The legislative and regulatory environment in which we operate has undergone significant changes in the recent past. New laws or regulations, or changes in the enforcement of existing laws or regulations, applicable to us and our clients, may adversely affect our business. Our ability to succeed in this environment will depend on our ability to proactively monitor any such legislative and regulatory changes. Regulatory changes that will affect other market participants are likely to change the way in which we conduct business with our counterparties. The uncertainty regarding the continued implementation of laws and regulations and their impact on the investment management industry and us cannot be predicted at this time but will continue to be a risk for our business.

We may be adversely affected as a result of new or revised legislation or regulations imposed by the SEC, other U.S. or non-U.S. governmental regulatory authorities or self-regulatory organizations that supervise the financial markets. We also may be adversely affected by changes in the interpretation or enforcement of existing laws and rules by these governmental authorities and self-regulatory organizations, as well as by U.S. and non-U.S. courts. It is impossible to determine the extent of the impact of any new laws, regulations or initiatives that may be imposed on us or the markets in which we trade, or whether any of the proposals will become law. Compliance with any new laws or regulations could add to our compliance burden and costs and adversely affect the manner in which we conduct business, as well as our financial condition, liquidity and results of operations.

Our failure to comply with the extensive amount of regulation applicable to our investment management segment could materially and adversely affect our business, financial condition, liquidity and results of operations.

Our investment management segment is subject to extensive regulation in the United States. These regulations are designed primarily to ensure the integrity of the financial markets and to protect investors in any entity that we advise and are not designed to protect our stockholders. Consequently, these regulations often serve to limit our activities. These requirements relate to, among other things, fiduciary duties to clients, solicitation agreements, conflicts of interest, recordkeeping and reporting requirements, disclosure requirements, limitations on agency cross and principal transactions between an adviser and advisory clients and general anti-fraud prohibitions. We are required to maintain an effective compliance program, and are subject to routine periodic examinations by the staff of the SEC.

The failure by us or our service providers to comply with applicable laws or regulations, or the failure of our outside third party compliance advisor to design and successfully implement and administer our compliance program, could result in fines, suspensions of individual employees or other sanctions, any of which could have a material adverse effect on our business, financial condition, liquidity and results of operations. Even if an investigation or proceeding did not result in a fine or sanction or the fine or sanction imposed against us or our employees by a regulator were small in monetary amount, the adverse publicity relating to an investigation, proceeding or imposition of these fines or sanctions could harm our reputation and cause us to lose existing clients.

We may encounter conflicts of interest in trying to appropriately allocate our time and services between activities for our own account and for PMT, or in trying to appropriately allocate investment opportunities among ourselves and for PMT.

Pursuant to our management agreement with PMT, we are obligated to provide PMT with the services of our senior management team, and the members of that team are required to devote such time as is necessary and appropriate, commensurate with the level of activity of PMT. The members of our senior management team may have conflicts in allocating their time and services between our operations and the activities of PMT and any other entities or accounts that we may manage in the future.

In addition, we and the other entities or accounts that we may manage may participate in some of PMT's investments now or in the future, which may not be the result of arm's length negotiations and may involve or later result in potential conflicts between our interests in the investments and those of PMT or such other entities. Any such

perceived or actual conflicts of interest could damage our reputation and materially and adversely affect our business, financial condition, liquidity and results of operations.

We are subject to significant financial and reputational risks from potential liability arising from lawsuits, and regulatory and government action.

We face significant legal risks in our business, and the volume of claims and amount of damages, penalties and fines claimed in litigation, and regulatory and government proceedings against us and other financial institutions remains high. Greater than expected investigation costs and litigation, including class action lawsuits associated with compliance related issues, substantial legal liability or significant regulatory or government action against us could have adverse effects on our financial condition and results of operations or cause significant reputational harm to us, which in turn could adversely impact our business results and prospects. We may experience a significant volume of litigation and other disputes, including claims for contractual indemnification, with counterparties regarding relative rights and responsibilities. Consumers, clients and other counterparties may also become increasingly litigious.

We also may be exposed to the risk of litigation by investors in clients that we manage from time to time if our management advice is alleged to constitute gross negligence or willful misconduct. Investors could sue us to recover amounts lost by those entities due to our alleged misconduct, up to the entire amount of loss. Further, we may be subject to litigation arising from investor dissatisfaction with the performance of any such entities that we manage or from allegations that we improperly exercised control or influence over those entities. In addition, we are exposed to risks of litigation or investigation relating to transactions which presented conflicts of interest that were not properly addressed. In such actions, we would be obligated to bear legal, settlement and other costs (which may be in excess of available insurance coverage). In addition, although we are generally indemnified by the entities that we manage, our rights to indemnification may be challenged. If we are required to incur all or a portion of the costs arising out of litigation or investigations as a result of inadequate insurance proceeds or failure to obtain indemnification from the entities that we manage, our business, financial condition, liquidity and results of operations would be materially and adversely affected.

Risks Related to Our Business in General

We depend on counterparties and vendors to provide services that are critical to our business, which subjects us to a variety of risks.

We have a number of counterparties and vendors, who provide us with financial, technology and other services that are critical to support our businesses. If our current counterparties and vendors were to stop providing services to us on acceptable terms or if we had a disruption in service due to a vendor dispute, we may be unable to procure alternative services from other counterparties or vendors in a timely and efficient manner and on similarly acceptable terms, or at all. Some of these counterparties and vendors have significant operations outside of the United States. If we or our vendors had to curtail or cease operations in these countries due to political unrest or natural disasters and then transfer some or all of these operations to another geographic area, we could experience disruptions in service and incur significant transition costs as well as higher future overhead costs. With respect to vendors engaged to perform certain servicing activities, we are required to assess their compliance with various regulations and establish procedures to provide reasonable assurance that the vendor's activities comply in all material respects with such regulations. In the event that a vendor's activities are not in compliance, it could negatively impact our relationships with our regulators, as well as our business and operations. Further, we may incur significant costs to resolve any such disruptions in service which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Our failure to deal appropriately with various issues that may give rise to reputational risk could cause harm to our business and adversely affect our earnings.

Our business is subject to significant reputational risks. If we fail, or appear to fail, to address various issues that may give rise to reputational risk, we could significantly harm our business prospects and earnings. Such issues include, but are not limited to, actual or perceived conflicts of interest, violations of legal or regulatory requirements, and any of the other risks discussed in this Item 1A. Similarly, market rumors and actual or perceived association with counterparties whose own reputations are under question could harm our business.

Certain of our officers also serve as officers of PMT. As we expand the scope of our businesses, we increasingly confront potential conflicts of interest relating to investment activities that we manage for PMT. The SEC and certain regulators have increased their scrutiny of potential conflicts of interest, and as we experience growth in our businesses, we continue to monitor and mitigate or otherwise address any conflicts between our interests and those of PMT through the implementation of procedures and controls. Reputational risk incurred in connection with conflicts of interest could negatively affect our business, strain our working relationships with regulators and government agencies, expose us to litigation and regulatory action, impact our ability to attract and retain clients, customers, trading counterparties, investors and employees and adversely affect our results of operations.

Reputational damage can result from our actual or alleged conduct in any number of activities, including lending and debt collection practices, corporate governance, and actions taken by government regulators and community organizations in response to those activities. Negative public opinion can also result from social media and media coverage, whether accurate or not. These factors could impair our working relationships with regulators and government agencies, expose us to litigation and regulatory action, negatively affect our ability to attract and retain customers, trading counterparties and employees, significantly harm our ability to raise capital, and adversely affect our results of operations.

Initiating new business activities, developing new products or significantly expanding existing business activities may expose us to new risks and will increase our cost of doing business.

Initiating new business activities, developing new products, such as the recently launched home equity line of credit product, or significantly expanding existing business activities, such as our entry into broker direct and consumer direct lending, are ways to grow our businesses and respond to changing circumstances in our industry; however, they may expose us to new risks and regulatory compliance requirements. We cannot be certain that we will be able to manage these risks and compliance requirements effectively. Furthermore, our efforts may not succeed, and any revenues we earn from any new or expanded business initiative may not be sufficient to offset the initial and ongoing costs of that initiative, which would result in a loss with respect to that initiative.

Our risk management efforts may not be effective.

We could incur substantial losses and our business operations could be disrupted if we are unable to effectively identify, manage, monitor, and mitigate financial risks, such as credit risk, interest rate risk, prepayment risk, liquidity risk, and other market-related risks, as well as operational and legal risks related to our business, assets, and liabilities. We also are subject to various laws, regulations and rules that are not industry specific, including employment laws related to employee hiring and termination practices, health and safety laws, environmental laws and other federal, state and local laws, regulations and rules in the jurisdictions in which we operate. Our risk management policies, procedures, and techniques may not be sufficient to identify all of the risks to which we are exposed, mitigate the risks we have identified, or identify additional risks to which we may become subject in the future. Expansion of our business activities may also result in our being exposed to risks to which we have not previously been exposed or may increase our exposure to certain types of risks, and we may not effectively identify, manage, monitor, and mitigate these risks as our business activities change or increase.

We could be harmed by misconduct or fraud that is difficult to detect.

We are exposed to risks relating to misconduct by our employees, contractors we use, or other third parties with whom we have relationships. For example, our employees could execute unauthorized transactions, use our assets improperly or without authorization, perform improper activities, use confidential information for improper purposes, or misrecord or otherwise try to hide improper activities from us. This type of misconduct could also relate to assets we manage for others through our investment advisory subsidiary, and can be difficult to detect. If not prevented or detected, misconduct by employees, contractors, or others could result in losses, claims or enforcement actions against us, or could seriously harm our reputation. Our controls may not be effective in detecting this type of activity.

If we fail to maintain an effective system of internal controls, we may not be able to accurately determine our financial results or prevent fraud. As a result, our stockholders could lose confidence in our financial results, which could harm our business and the market value of our common stock.

Effective internal controls are necessary for us to provide reliable financial reports and effectively prevent fraud. We may in the future discover areas of our internal controls that need improvement. Section 404 of the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act") requires that we evaluate and report on our internal control over financial reporting. We cannot be certain that we will be successful in maintaining adequate control over our financial reporting and financial processes. Furthermore, as we rapidly grow our businesses, our internal controls will become more complex, and we will require significantly more resources to ensure our internal controls remain effective. Section 404(b) of the Sarbanes-Oxley Act requires our auditors to formally attest to and report on the effectiveness of our internal control over financial reporting.

If we cannot maintain effective internal control over financial reporting, or our independent registered public accounting firm cannot provide an unqualified attestation report on the effectiveness of our internal control over financial reporting, investor confidence and, in turn, the market price of our common stock could decline. If we or our independent auditors discover a material weakness, the disclosure of that fact, even if quickly remedied, could result in an event of default under one or more of our lending arrangements and/or reduce the market value of shares of our common stock. Additionally, the existence of any material weakness or significant deficiency could require management to devote significant time and incur significant expense to remediate any such material weakness or significant deficiency in a timely manner, or at all. Accordingly, our failure to maintain effective internal control over financial reporting could result in misstatements of our financial results or restatements of our financial statements or otherwise have a material adverse effect on our business, financial condition, liquidity and results of operations.

Accounting rules for certain of our transactions are highly complex and involve significant judgment and assumptions. Changes in accounting interpretations or assumptions could impact our financial statements.

Accounting rules for mortgage loan sales and securitizations, valuations of financial instruments and MSRs, investment consolidations, income taxes and other aspects of our operations are highly complex and involve significant judgment and assumptions. These complexities could lead to a delay in preparation of financial information and the delivery of this information to our stockholders and also increase the risk of errors and restatements, as well as the cost of compliance. Changes in accounting interpretations or assumptions could impact our financial statements and our ability to timely prepare our financial statements. Our inability to timely prepare our financial statements in the future would likely adversely affect our share price significantly.

The success and growth of our business depends upon our ability to adapt to and implement technological changes and to successfully develop, implement and protect proprietary technology.

Our success in the mortgage industry is highly dependent upon our ability to adapt to constant technological changes, successfully enhance our current information technology solutions through the use of third-party and proprietary technologies, and introduce new solutions and services that more efficiently address the needs of our customers.

Our mortgage loan production businesses are dependent upon our ability to effectively interface with our borrowers, mortgage lenders and other third parties and to efficiently process loan applications and closings. The direct lending processes are becoming more dependent upon technological advancement, such as our continued ability to process applications over the Internet, accept electronic signatures, provide process status updates instantly and other borrower- or counterparty-expected conveniences. In our correspondent production activities, our and PMT's correspondent sellers also expect and require certain conveniences and service levels that are dependent on technological advancement. In this regard, we are in the process of transitioning from an older loan acquisition platform to a new workflow-driven, cloud-based loan acquisition platform. While we anticipate that this new system will increase scalability and produce other efficiencies, there can be no assurance that the new system will prove to be effective or that such correspondent sellers will easily adapt to a new system. Any failure to effectively or timely transition to our new system and meet our expectations and the expectations of our correspondent sellers could have a material adverse effect

on our business, financial condition and results of operations.

Similarly, our servicing business is dependent on our ability to effectively interface with our customers and investors, as well as service mortgage loans in compliance with applicable laws and regulations and the contractual requirements of such investors. For example, we recently announced the completion of an initiative to develop a proprietary, workflow-driven, cloud-based servicing system that provides for real-time processing and advanced workflow management thereby reducing servicing costs, increasing scalability and creating sustainable efficiencies.

The development, implementation and protection of these technologies and becoming more proficient with them requires significant capital expenditures. As these technological advancements and investor and compliance requirements increase in the future, we will need to further develop these technological capabilities in order to remain competitive, and we will need to implement, execute and maintain them in an operating and regulatory environment that exposes us to significant risk. Moreover, litigation has become necessary to protect our technologies, and, such litigation is expected to be time consuming and result in substantial costs and diversion of resources. Any failure by us to develop, implement, execute or maintain our technological capabilities and any litigation costs associated with protection of our technologies could have a material adverse effect on our business, financial condition and results of operations.

Cybersecurity risks, cyber incidents and technology failures may adversely affect our business by causing a disruption to our operations, a compromise or corruption of our confidential information, and/or damage to our business relationships, all of which could negatively impact our financial results.

A cyber incident is considered to be any adverse event that threatens the confidentiality, integrity or availability of our information resources. These incidents may be an intentional attack or an unintentional event and could involve gaining unauthorized access to our information systems for purposes of theft of certain personally identifiable information of consumers, misappropriating assets, stealing confidential information, corrupting data or causing operational disruption. The result of these incidents may include disrupted operations, misstated or unreliable financial data, liability for stolen assets or information, increased cybersecurity protection and insurance costs, litigation and damage to our investor relationships.

As our reliance on rapidly changing technology has increased, so have the risks posed to our information systems, both proprietary and those provided to us by third-party service providers such as cloud-based computing service providers. System disruptions and failures caused by fire, power loss, telecommunications outages, unauthorized intrusion, computer viruses and disabling devices, natural disasters and other similar events may interrupt or delay our ability to provide services to our customers.

Despite our efforts to ensure the integrity of our systems our investment in significant physical and technological security measures, employee training, contractual precautions and business continuity plans, and our implementation of policies and procedures designed to help mitigate cybersecurity risks and cyber intrusions, there can be no assurance that any such cyber intrusions will not occur or, if they do occur, that they will be adequately addressed. We also may not be able to anticipate or implement effective preventive measures against all security breaches, especially because the methods of attack change frequently or may not be recognized until after such attack has been launched, and because security attacks can originate from a wide variety of sources, including third parties such as persons involved with organized crime or associated with external service providers. We are also held accountable for the actions and inactions of our third-party vendors regarding cybersecurity and other consumer-related matters.

Any of the foregoing events could result in violations of applicable privacy and other laws, financial loss to us or to our customers, loss of confidence in our security measures, customer dissatisfaction, additional regulatory scrutiny, significant litigation exposure and harm to our reputation, any of which could have a material adverse effect on our business, financial condition, liquidity and results of operations, any of which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Terrorist attacks and other acts of violence or war may cause disruptions in our operations and in the financial markets, and could materially and adversely affect the real estate industry generally and our business, financial condition, liquidity and results of operations.

Terrorist attacks and other acts of violence or war may cause disruptions in the U.S. financial markets, including the real estate capital markets, and negatively impact the U.S. economy in general. Such attacks could also cause disruptions in our operations. Any future terrorist attacks, the anticipation of any such attacks, the consequences of any military or other response by the United States and its allies, and other armed conflicts could cause consumer confidence and spending to decrease or result in increased volatility in the United States and worldwide financial markets and economy. The economic impact of these events could also materially and adversely affect the credit quality of some of our loans and investments and the properties underlying our interests.

We may suffer losses as a result of the adverse impact of any future attacks and these losses may adversely impact our performance and may cause the market value of our common stock to decline or be more volatile. A prolonged economic slowdown, recession or declining real estate values could impair the performance of our investments and harm our financial condition and results of operations, increase our funding costs, limit our access to the capital markets or result in a decision by lenders not to extend credit to us. We cannot predict the severity of the effect that potential future armed conflicts and terrorist attacks would have on us. Losses resulting from these types of events may not be fully insurable.

We are subject to certain risks associated with investing in real estate and real estate related assets, including risks of loss from adverse weather conditions, man-made or natural disasters and the effects of climate change, which may cause disruptions in our operations and could materially and adversely affect the real estate industry generally and our business, financial condition, liquidity and results of operations.

Weather conditions and man-made or natural disasters such as hurricanes, tornadoes, earthquakes, floods, droughts, fires and other environmental conditions can adversely impact properties that we own or that collateralize loans we own or service, as well as properties where we conduct business. Future adverse weather conditions and man-made or natural disasters could also adversely impact the demand for, and value of, our assets, as well as the cost to service or manage such assets, directly impact the value of our assets through damage, destruction or loss, and thereafter materially impact the availability or cost of insurance to protect against these events. Potentially adverse consequences of global warming and climate change, including rising sea levels and increased intensity of extreme weather events, could similarly have an impact on our properties and the local economies of certain areas in which we operate. Although we believe our owned real estate and the properties collateralizing our loan assets or underlying our MSR assets are appropriately covered by insurance, we cannot predict at this time if we or our borrowers will be able to obtain appropriate coverage at a reasonable cost in the future, or if we will be able to continue to pass along all of the costs of insurance. There also is a risk that one or more of our property insurers may not be able to fulfill their obligations with respect to claims payments due to a deterioration in its financial condition or may even cancel policies due to increasing costs of providing insurance coverage in certain geographic areas.

Certain types of losses, generally of a catastrophic nature, that result from events described above such as earthquakes, floods, hurricanes, tornados, terrorism or acts of war may also be uninsurable or not economically insurable. Inflation, changes in building codes and ordinances, environmental considerations and other factors, including terrorism or acts of war, also might make the insurance proceeds insufficient to repair or replace a property if it is damaged or destroyed. Under these circumstances, the insurance proceeds received might not be adequate to restore our economic position with respect to the affected real property. Any uninsured loss could result in the loss of cash flow from, and the asset value of, the affected property, which could have an adverse effect on our business, financial condition, liquidity and results of operations.

Catastrophic events may disrupt our business.

Our corporate headquarters are located in Westlake Village, California and we have additional locations around the greater Los Angeles metropolitan area and elsewhere in the State of California. Many areas of California, including the immediate area around our corporate headquarters, have experienced extensive damage and property loss due to a series of large wildfires. California and the other jurisdictions in which we operate are also prone to other types of natural disasters. In the event of a major earthquake, hurricane, or catastrophic event such as fire, flood, power loss, telecommunications failure, cyber attack, pandemic, war, or terrorist attack, we may be unable to continue our operations and may endure significant business interruptions, reputational harm, delays in servicing our customers and working with our partners, interruptions in the availability of our technology and systems, breaches of data security, and loss of critical data, all of which could have an adverse effect on our future operating results.

Risks Related to Our Organizational Structure

BlackRock and Highfields may be able to significantly influence the outcome of votes of our common stock, or exercise certain other rights pursuant to separate stockholder agreements we have entered into with each of them, and their interests may differ from those of our public stockholders.

Pursuant to separate stockholder agreements with BlackRock and Highfields, which were amended and restated in connection with the Reorganization in November 2018, Highfields has the right to nominate one or two individuals for election to our board of directors, depending on the percentage of the voting power of our outstanding shares common stock that it holds, and we are obligated to use our best efforts to cause the election of those nominees. In addition, these stockholder agreements require that we obtain the consent of BlackRock and Highfields with respect to amendments to our certificate of incorporation or bylaws. As a result, each of BlackRock and Highfields may be able to significantly influence our management and affairs. In addition, as a result of the size of their individual equity holding they may be able to significantly influence the outcome of all matters requiring stockholder approval, including mergers and other material transactions, and may be able to cause or prevent a change in the composition of our board of directors or a change in control of our Company that could deprive our stockholders of an opportunity to receive a premium for their common stock as part of a sale of our company and might ultimately affect the market price of our common stock.

Our only material assets are our equity interests in PNMAC Holdings, Inc., PennyMac and their subsidiaries, and we are accordingly dependent upon distributions from such entities to pay taxes, make payments under the tax receivable agreement or pay dividends.

We are a holding company and have no material assets other than our direct ownership of PNMAC Holdings, Inc. and our direct and indirect ownership of all of the Class A units of PennyMac. We have no independent means of generating revenue. We are required to pay tax on the taxable income of PennyMac and make payments under the tax receivable agreement without regard to whether PennyMac distributes to us any cash or other property. To the extent that we need funds, and PennyMac is restricted from making such distributions under applicable laws or regulations or under the terms of financing arrangements, or is otherwise unable to provide such funds, it could materially and adversely affect our liquidity and financial condition.

We have not established a minimum dividend payment level and no assurance can be given that we will be able to make dividends to our stockholders in the future at current levels or at all.

In October 2019, we announced the initiation of a quarterly dividend for our common stockholders. We have not established a minimum dividend payment level, and our ability to pay dividends to our stockholders may be materially and adversely affected by the risk factors discussed in this Report and any subsequent Quarterly Reports on Form 10-Q. Although we paid, and anticipate continuing to pay, quarterly dividends to our stockholders, our board of directors has the sole discretion to determine the timing, form and amount of any future dividends to our stockholders, and such determination will depend upon, among other factors, our historical and projected results of operations, financial condition, cash flows and liquidity, capital requirements and other expense obligations, debt covenants, contractual legal, tax, regulatory and other restrictions and such other factors as our board of directors may deem relevant from time to time.

As a result, no assurance can be given that we will be able to continue to pay dividends to our stockholders in the future or that the level of any future dividends will achieve a market yield or increase or even be maintained over time, any of which could materially and adversely affect the market price of our common stock.

Anti-takeover provisions in our charter documents and Delaware law might discourage or delay acquisition attempts for us that you might consider favorable.

Our certificate of incorporation and bylaws contain provisions that may make the acquisition of our company more difficult without the approval of our board of directors. Among other things, these provisions:

- authorize the issuance of undesignated preferred stock, the terms of which may be established and the shares of which may be issued without stockholder approval;
- prohibit stockholder action by written consent unless the matter as to which action is being taken has been approved by our board of directors;
- provide that our board of directors is expressly authorized to make, alter, or repeal our bylaws (provided
 that, if that action adversely affects BlackRock or Highfields when that entity, together with its affiliates,
 holds at least 5% of the voting power of our outstanding shares of capital stock, our stockholder
 agreements provide that such action must be approved by that entity);
- establish advance notice requirements for nominations for elections to our board or for proposing matters that can be acted upon by stockholders at stockholder meetings; and
- prevent a sale of substantially all of our assets or completion of a merger or other business combination that constitutes a change of control without the approval of a majority of our independent directors.

These and other provisions under Delaware law could discourage, delay or prevent a transaction involving a change in control of our company or negatively affect the trading price of our common stock. These provisions could also discourage proxy contests and make it more difficult for you and other stockholders to elect directors of and take other corporate actions.

Our certificate of incorporation contains provisions renouncing our interest and expectancy in certain corporate opportunities identified by or presented to BlackRock and Highfields.

BlackRock, Highfields and their respective affiliates are in the business of providing capital to growing companies, and may acquire interests in businesses that directly or indirectly compete with certain portions of our business. Our certificate of incorporation provides that neither BlackRock nor Highfields nor their respective affiliates has any duty to refrain from (i) engaging, directly or indirectly, in a corporate opportunity in the same or similar lines of business in which we now engage or propose to engage, or (ii) doing business with any of our clients, customers or vendors. In the event that either of BlackRock or Highfields or their respective affiliates acquires knowledge of a potential transaction or other business opportunity which may be a corporate opportunity for itself or its affiliates and for us or our affiliates other than in the capacity as one of our officers or directors, then neither BlackRock nor Highfields has any duty to communicate or offer such transaction or business opportunity to us and may take any such opportunity for themselves or offer it to another person or entity. Neither BlackRock nor Highfields nor any officer, director or employee thereof, shall be liable to us or to any of our stockholders (or any affiliates thereof) for breach of any fiduciary or other duty by engaging in any such activity and we waive and renounce any claim based on such activity. This provision applies even if the business opportunity is one that we might reasonably be deemed to have pursued or had the ability or desire to pursue if granted the opportunity to do so. Our separate stockholder agreements with BlackRock and Highfields provide that any amendment or repeal of the provisions related to corporate opportunities described above requires the consent of each of BlackRock and Highfields as long as it, or any of its affiliates, holds any equity interest in us. These potential conflicts of interest could have a material and adverse effect on our business, financial condition,

liquidity, results of operations or prospects if attractive corporate opportunities are allocated by BlackRock or Highfields to themselves or their other affiliates instead of to us.

Our bylaws include an exclusive forum provision that could limit our stockholders' ability to obtain a judicial forum viewed by the stockholders as more favorable for disputes with us or our directors, officers or other employees.

Our bylaws provide that the state or federal court located within the State of Delaware is the exclusive forum for any derivative action or proceeding brought on our behalf; any action asserting a claim of breach of fiduciary duty; any action asserting a claim against us arising pursuant to the Delaware General Corporation Law, our certificate of incorporation or our bylaws; or any action asserting a claim against us that is governed by the internal affairs doctrine. This exclusive forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers or other associates, which may discourage such lawsuits against us and our directors, officers and other employees. Alternatively, if a court were to find the exclusive forum provision contained in our bylaws to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could adversely affect our business, financial condition, liquidity and results of operations.

Risks Related to Ownership of Our Common Stock

The market price and trading volume of our common stock may be volatile, which could result in rapid and substantial losses for our stockholders.

The market price and trading volume of our common stock has fluctuated significantly in the past and may be highly volatile in the future and could be subject to wide fluctuations. In addition, the trading volume in our common stock may fluctuate and cause significant price variations to occur. Further, if the market price of our common stock declines significantly, you may be unable to resell your shares at or above your purchase price, if at all. Some of the factors that could negatively affect the market price or trading volume of our common stock include:

- variations in our actual and anticipated financial and operating results and those expected by investors and analysts;
- changes in the manner that investors and securities analysts who provide research to the marketplace on us analyze the value of our common stock and similar companies;
- changes in recommendations or in estimated financial results published by securities analysts who provide research to the marketplace on us, our competitors or our industry;
- litigation and governmental investigations;
- increases in market interest rates that may lead purchasers of our shares to demand a higher yield;
- announcements by us or our competitors of significant contracts, acquisitions, dispositions, strategic relationships, joint ventures or capital commitments; and
- general market, political and economic conditions, including any such conditions and local conditions in the markets in which our customers are located.

These broad market and industry factors may decrease the market price and trading volume of our common stock, regardless of our actual operating performance.

The market price of our common stock could be negatively affected by sales of substantial amounts of our common stock into the public trading market.

PennyMac was founded in 2008 by members of our executive leadership team, BlackRock and Highfields. As a result of the Reorganization, BlackRock, Highfields, and certain other former owners of PennyMac contributed 37,497,607 Class A units of PennyMac to us in exchange for, on a one-for-one basis, shares of our common stock. These former owners of PennyMac are now eligible for long-term capital gains treatment (rather than ordinary income tax treatment) on future sales of such common stock now that they have satisfied the required one-year holding period. Sales of substantial numbers of shares of our common stock into the public trading market, or the perception that such sales could occur, could adversely affect the market price of our common stock and impede our ability to raise capital through the issuance of additional common stock or other equity securities.

The future issuance of additional common stock in connection with our incentive plans, acquisitions or otherwise will dilute all other stockholdings.

As of December 31, 2019, we have an aggregate of 4.2 million shares of common stock authorized and remaining available for future issuance under our 2013 Equity Incentive Plan. We may issue all of these shares of common stock without any action or approval by our stockholders, subject to certain exceptions. We also intend to continue to evaluate acquisition opportunities and may issue common stock in connection with these acquisitions. Any common stock issued in connection with our incentive plans, acquisitions, the exercise of outstanding stock options or otherwise would dilute the percentage ownership held by investors who purchase our common stock.

Future offerings of debt or equity securities by us may adversely affect the market price of our common stock.

In the future, we may attempt to obtain financing or further increase our capital resources by issuing additional shares of our common stock or offering debt or other equity securities, including commercial paper, medium-term notes, senior or subordinated notes, convertible debt securities or shares of preferred stock. The issuance of additional shares of our common stock or other equity securities or securities convertible into equity may dilute the economic and voting rights of our existing stockholders or reduce the market price of our common stock or both. Upon liquidation, holders of such debt securities and preferred stock, if issued, and lenders with respect to other borrowings would receive a distribution of our available assets prior to the holders of our common stock. Debt securities convertible into equity could be subject to adjustments in the conversion ratio pursuant to which certain events may increase the number of equity securities issuable upon conversion. Preferred stock, if issued, could have a preference with respect to liquidating distributions or a preference with respect to dividend payments that could limit our ability to pay dividends to the holders of our common stock. Any issuance of securities in future offerings may reduce the market price of our common stock and dilute existing stockholders' interests in us.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

Our corporate offices are housed in a 60,000 square foot leased facility located at 3043 Townsgate Road, Westlake Village, California 91361 where we conduct executive management for all of our businesses and investment management activities.

Our loan servicing operations are primarily housed in a 142,000 square foot leased facility located in Moorpark, CA, a 116,000 square foot facility in Fort Worth, TX, and a 51,000 square foot facility in Summerlin, NV.

Our consumer direct lending business occupies a 36,000 square foot leased facility in Pasadena, CA. Much of our loan processing activity is performed in a leased 60,000 square foot facility in close proximity to our corporate offices. We lease an additional 90,000 square feet in Tampa, FL, 75,000 square feet in Plano and 30,000 square feet in St. Louis, MO primarily for our correspondent production activities. We have three loan production centers located in Roseville, CA, Honolulu, HI, Edina, MN, and one collocated in our Summerlin, NV office.

Our information technology division is housed in a 50,000 square foot facility in Agoura Hills, CA and we lease a few small locations throughout the country, generally housing loan production and servicing activities.

The financial commitments of our leases are disclosed in Note—10 *Leases* to our consolidated financial statements included in Item 8 of this Report.

Item 3. Legal Proceedings

From time to time, the Company may be involved in various legal and regulatory proceedings, lawsuits and other claims arising in the ordinary course of its business. The amount, if any, of ultimate liability with respect to such matters cannot be determined, but despite the inherent uncertainties of litigation, management currently believes that the ultimate disposition of any such proceedings and exposure will not have, individually or taken together, a material adverse effect on the financial condition, results of operations, or cash flows of the Company. Set forth below are material updates to legal proceedings of the Company.

As previously disclosed, on December 20, 2018, a purported shareholder of the Company filed a complaint in a putative class and derivative action in the Court of Chancery of the State of Delaware (the "Delaware Court"), captioned *Robert Garfield v. BlackRock Mortgage Ventures, LLC et al.*, Case No. 2018-0917-KSJM (the "Garfield Action"). The Garfield Action alleges, among other things, that certain current directors and officers of the Company breached their fiduciary duties to the Company and its shareholders by, among other things, agreeing to and entering into the Reorganization without ensuring that the Reorganization was entirely fair to the Company or public shareholders. The Reorganization was approved by 99.8% of voting shareholders on October 24, 2018. On December 19, 2019, the Delaware Court denied a motion to dismiss filed by the Company and certain of its directors and officers. Nevertheless, the Company continues to believe the Garfield Action is without merit and plans to vigorously defend the matter, which remains pending.

On November 5, 2019, Black Knight Servicing Technologies, LLC, a wholly-owned indirect subsidiary of Black Knight, Inc. ("BKI"), filed a Complaint and Demand for Jury Trial in the Circuit Court for the Fourth Judicial Circuit in and for Duval County, Florida, captioned *Black Knight Servicing Technologies, LLC v. PennyMac Loan Services, LLC*, Case No. 2019-CA-007908 (the "BKI Complaint"). Allegations contained within the BKI Complaint include breach of contract and misappropriation of MSP® System trade secrets in order to develop an imitation mortgage-processing system intended to replace the MSP® System. The BKI Complaint seeks damages for breach of contract and misappropriation of trade secrets, injunctive relief under the Florida Uniform Trade Secrets Act and declaratory judgment of ownership of all intellectual property and software developed by or on behalf of PLS as a result of its wrongful use of and access to the MSP® System and related trade secret and confidential information. On January 6, 2020, the Company filed a motion to compel arbitration, which has not yet been fully briefed or argued. The Company believes the BKI Complaint is without merit and plans to vigorously defend the matter, which remains pending.

On November 6, 2019, the Company, through its wholly-owned subsidiary, PLS, filed a complaint in the U.S. District Court for the Central District of California (the "Federal Court"), captioned *PennyMac Loan Services, LLC v. Black Knight, Inc., et al.*, Case No. 2:19–cv–09526 RGK (JEMx) (the "PLS Complaint"). The PLS Complaint alleges that BKI uses its market-dominating LoanSphere® MSP mortgage loan servicing system to engage in unfair business tactics that both entrap its licensees and create barriers to entry that stifle competition. The PLS Complaint further alleges that BKI violated the federal Sherman Act, the California Cartwright Act and California's Unfair Competition Law and engaged in unfair competition under common law. The Company seeks, among other relief, to preliminarily and permanently enjoin BKI's wrongful practices, and seeks the recovery of actual and statutory damages. On February 13, 2020, the Federal Court transferred the PLS complaint to the Middle District of Florida. The matter remains pending.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our shares of common stock are listed on the New York Stock Exchange (Symbol: PFSI). As of February 24, 2020, our shares of common stock were held by 12,099 holders of record.

We initiated a quarterly dividend for common stockholders in October 2019. The dividend level is reviewed each quarter and determined based on a number of factors, including, among other things, our earnings, our financial condition, growth outlook, the capital required to support ongoing growth opportunities and compliance with other internal and external requirements. Payments of dividends are subject to approval by our board of directors. Our ability to pay dividends may be adversely affected for the reasons described in Item 1A of this Report in the section entitled *Risk Factors*.

Unregistered Sales of Equity Securities and Use of Proceeds

There were no sales of unregistered equity securities during the year ended December 31, 2019.

Repurchase of our Common Stock

There was no stock repurchase activity for the quarter ended December 31, 2019.

Item 6. Selected Financial Data

The following financial data should be read in conjunction with Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Item 8, "Financial Statements and Supplementary Data." The table below presents, as of and for the dates indicated, selected historical financial information for us. The condensed consolidated statements of income data for the years ended December 31, 2019, 2018, and 2017 and the condensed consolidated balance sheets data at December 31, 2019, and 2018 have been derived from our audited financial statements included elsewhere in this Report. The condensed consolidated statements of income data for the years ended December 31, 2016 and 2015 and the condensed consolidated balance sheets data at December 31, 2017, 2016, and 2015 have been derived from our Company's audited consolidated financial statements that are not included in this Report.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Policies

Preparation of financial statements in compliance with accounting principles generally accepted in the United States ("GAAP") requires us to make estimates that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reporting period. Certain of these estimates significantly influence the portrayal of our financial condition and results, and they require us to make difficult, subjective or complex judgments. Our critical accounting policies primarily relate to our fair value estimates.

Fair Value

We group assets measured at or based on fair value in three levels based on the markets in which the assets are traded and the observability of the inputs used to determine fair value. These levels are:

	December 31, 2019				
			Percen	tage of	
Level/Description	Carrying value of assets (1) (in thousands)		Total assets	Total stockholders' equity	
Level 1:Prices determined using quoted prices in active markets for identical assets or liabilities.	\$	81,697	1%	4%	
Level 2:Prices determined using other significant observable inputs. Observable inputs are inputs that other market participants would use in pricing an asset or liability and are developed based on market data obtained from sources independent of us.		4,536,649	44%	220%	
Level 3:Prices determined using significant unobservable inputs. Unobservable inputs reflect our judgements about the factors that market participants use in pricing an asset or liability, and are based on the best information available in the circumstances.		3,477,692	34%	169%	
Total assets measured at or based on fair value (1)	\$	8,096,038	79%	392%	
Total assets	\$	10,204,017			
Total stockholders' equity	\$	2,061,507			

⁽¹⁾ Includes assets measured on both a recurring and nonrecurring basis based on the accounting principles applicable to the specific asset or liability and whether we have elected to carry the asset or liability at its fair value.

As shown above, our consolidated balance sheet is substantially comprised of assets and liabilities that are measured at or based on their fair values. At December 31, 2019, \$8.1 billion or 79% of our total assets were carried at fair value on a recurring basis and \$20.3 million (real estate acquired in settlement of loans ("REO")), were carried based on fair value on a non-recurring basis when fair value indicates evidence of impairment of individual properties. Of these assets carried at or based on fair value, \$3.5 billion or 34% of total assets are measured using "Level 3" fair value inputs – significant inputs where there is difficulty in observing the inputs used by market participants in establishing fair value. Changes in inputs to measurement of these assets can have a significant effect on the amounts reported for these items including their reported balances and their effects on our income.

As a result of the difficulty in observing certain significant valuation inputs affecting our "Level 3" fair value assets and liabilities, we are required to make judgments regarding these items' fair values. Different persons in possession of the same facts may reasonably arrive at different conclusions as to the inputs to be applied in valuing these assets and liabilities and their fair values. Such differences may result in significantly different fair value measurements. Likewise, due to the general illiquidity of some of these assets, subsequent transactions may be at values significantly different from those reported.

Because the fair value of "Level 3" fair value assets and liabilities are difficult to estimate, our valuation process includes performance of these items' fair value estimation by specialized staff and significant senior management oversight. We have assigned the responsibility for estimating the fair values of non-interest rate lock commitment ("IRLC") "Level 3" fair value assets and liabilities to our Financial Analysis and Valuation group (the "FAV group"), which is responsible for valuing and monitoring these items and maintenance of our valuation policies and procedures for non-IRLC assets and liabilities. The FAV group submits the results of its valuations to our senior management valuation committee, which oversees the valuations. During 2019, our senior management valuation committee included the Company's executive chairman, chief executive, chief financial, chief risk, and deputy chief financial officers.

The fair value of our IRLCs is developed by our Capital Markets Risk Management staff and is reviewed by our Capital Markets Operations group.

Following is a discussion of our approach to measuring the balance sheet items that are most affected by "Level 3" fair value estimates.

Loans Held for Sale

We carry loans at their fair values. We recognize changes in the fair value of loans in current period income as a component of *Net gains on loans held for sale at fair value*. How we estimate the fair value of loans is based on whether the loans are saleable into active markets with observable fair value inputs.

- We categorize loans that are saleable into active markets as "Level 2" fair value assets. We estimate the fair value of such loans using their quoted market price or market price equivalent. At December 31, 2019, we held \$4.5 billion of such loans.
- We categorize loans that are not saleable into active markets as "Level 3" fair value assets. "Level 3" fair value loans arise primarily from three sources:
 - We may purchase certain delinquent government guaranteed or insured loans from Ginnie Mae guaranteed securitizations included in our loan servicing portfolio. Our right to purchase such loans arises as the result of the loan being at least three months delinquent when we buy the loan. Our ability to purchase delinquent loans provides us with an alternative to our obligation to continue advancing principal and interest at the coupon rate of the related Ginnie Mae security. To the extent such loans ("early buyout" or "EBO" loans) have not become saleable into another Ginnie Mae guaranteed security by becoming current either through the borrower's reperformance or through completion of a modification of the loan's terms, we measure such loans using "Level 3" fair value inputs. At December 31, 2019, we held \$374.1 million of such loans.
 - Certain of our loans may become non-saleable into active markets due to our identification of one or more defects. At December 31 2019, we held \$9.2 million of such loans.
 - We originate home equity loans for sale to PMT. At present, an active, observable market for such loans does not exist. Because such loans are generally not saleable into active markets, we classify them as "Level 3" fair value assets. At December 31, 2019, we held \$513,000 of such loans.

We use a discounted cash flow model to estimate the fair value of "Level 3" fair value loans. The significant unobservable inputs used in the fair value measurement of our "Level 3" fair value loans held for sale are discount rates, home price projections and prepayment speeds. Significant changes in any of those inputs in isolation could result in a significant change to the loans' fair value measurement.

Interest Rate Lock Commitments

Our net gains on loans held for sale include our estimates of the gains or losses we expect to realize upon the sale of loans we have contractually committed to fund or purchase but have not yet funded, purchased or sold. We recognize a substantial portion of our net gains on loans held for sale at fair value before we fund or purchase the loans as the result of these commitments. We call these commitments IRLCs. We recognize the fair value of IRLCs at the time we make the commitment to the correspondent seller, broker or loan applicant and adjust the fair value of such IRLCs as the loan approaches the point of funding or purchase or the prospective transaction is canceled.

We carry IRLCs as either *Derivative assets* or *Derivative liabilities* on our consolidated balance sheet. The fair value of an IRLC is transferred to *Loans held for sale at fair value* when the loan is funded or purchased.

An active, observable market for IRLCs does not exist. Therefore, we measure the fair value of IRLCs using methods we believe that market participants use in pricing IRLCs. We estimate the fair value of an IRLC based on observable Agency MBS prices, our estimates of the fair value of the MSRs we expect to receive in the sale of the loans and the probability that we will fund or purchase the loan (the "pull-through rate").

Pull-through rates and MSR fair values are based on our estimates as these inputs are difficult to observe in the marketplace. Our estimate of the probability that a loan will be funded and market interest rates are updated as the loans move through the funding or purchase process and as market interest rates change and may result in significant changes in our estimates of the fair value of the IRLCs. Such changes are reflected in the change in fair value of IRLCs which is a component of our *Net gains on loans held for sale at fair value* in the period of the change. The financial effects of changes in these inputs are generally inversely correlated. Increasing interest rates have a positive effect on the fair value of the MSR component of IRLC fair value but increase the pull-through rate for the loan principal and interest payment cash flow component, which decreases in fair value.

A shift in our assessment of an input to the valuation of IRLCs can have a significant effect on the amount of *Net gains on loans held for sale at fair value* for the period. We believe that the most significant "Level 3" fair value input to the measurement of IRLCs is the pull-through rate. At December 31, 2019, we held \$136.7 million of net IRLC assets at fair value. Following is a quantitative summary of the effect of changes in the pull-through rate input on the fair value of IRLCs at December 31, 2019:

Change in input (1)	Effect on fair value of IRLC of a change in pull-through						
		(in thousands)					
(20)%	\$	(35,814)					
(10)%	\$	(17,892)					
(5)%	\$	(8,931)					
5 %	\$	7,855					
10 %	\$	14,649					
20 %	\$	26,262					

⁽¹⁾ The upward shift in input amount on a per-loan basis is limited to the amount of shift required to reach a 100% pull-through rate.

The preceding analysis holds constant all of the other inputs to show an estimate of the effect on fair value of a change in the pull-through rate. We expect that in a market shock event, multiple inputs would be affected and the effects of these changes may compound or counteract each other. Therefore the preceding analysis is not a projection of the effects of a shock event or a change in our estimate of an input and should not be relied upon as an earnings projection.

Mortgage Servicing Rights

MSRs represent the fair value assigned to contracts that obligate us to service the mortgage loans on behalf of the owners of the mortgage loans in exchange for servicing fees and the right to collect certain ancillary income from the borrower. We recognize MSRs at our estimate of the fair value of the contract to service the loans.

We include changes in fair value of MSRs in current period income as a component of *Net loan servicing fees—Amortization, impairment and change in fair value of mortgage servicing rights and mortgage servicing liabilities*. Both our estimate of the change in fair value attributable to realization of cash flows and of the change in fair value are affected by changes in market inputs are affected by changes in inputs. During the year ended December 31, 2019, we recognized a \$1.0 billion net reduction in fair value of MSRs: \$455.5 million of the reduction was due to realization of cash flows underlying the fair value of MSR and a \$550.7 million of the reduction was due to changes in market inputs.

We classify MSRs as "Level 3" fair value assets and determine their fair value using a discounted cash flow approach. We believe the most significant "Level 3" fair value inputs to the valuation of MSRs are the pricing spread (used to develop periodic discount rates), prepayment speed and annual per-loan cost of servicing.

A shift in the market for MSRs or a change in our assessment of an input to the valuation of MSRs can have a significant effect on their fair value and in our income for the period. The fair value of MSRs that we held at December 31, 2019 was \$2.9 billion.

Following is a summary of the effect on fair value of MSRs of various changes to these key inputs at December 31, 2019:

	Effect on fair value of MSRs of a change in input value								
Change in input		Pricing spread		Prepayment speed		Servicing cost			
				(in thousands)					
(20)%	\$	193,469	\$	285,318	\$	98,065			
(10)%	\$	93,548	\$	136,043	\$	49,032			
(5)%	\$	46,104	\$	66,474	\$	24,516			
5 %	\$	(44,561)	\$	(63,569)	\$	(24,516)			
10 %	\$	(87,734)	\$	(124,411)	\$	(49,032)			
20 %	\$	(170,155)	\$	(238,549)	\$	(98,065)			

The preceding analyses hold constant all of the inputs other than the input that is being changed to show an estimate of the effect on fair value of a change in a specific input. We expect that in a market shock event, multiple inputs would be affected and the effects of these changes may compound or counteract each other. Therefore the preceding analyses are not projections of the effects of a shock event or a change in our estimate of an input and should not be relied upon as earnings projections.

Excess Servicing Spread Financing

We finance a portion of the cost of Agency MSRs that we purchase from non-affiliate sellers through the sale to PMT of the servicing spread in excess of a specified level. We carry our ESS at fair value.

Because the ESS is a claim to a portion of the cash flows from MSRs, the valuation of the ESS is similar to that of MSRs. We use the same discounted cash flow approach to measure the ESS and the related MSRs except that certain inputs relating to the cost to service the mortgage loans underlying the MSRs and certain ancillary income are not included in the ESS valuation as these cash flows do not accrue to the holder of the ESS.

A shift in the market for, or a change in our assessment of an input to, the valuation of ESS can have a significant effect on the fair value of ESS and in our income for the period. However, we believe that this change will be offset to a great extent by a change in the fair value of the MSRs that the ESS is financing. We record changes in the fair value of ESS in *Net loan servicing fees—Change in fair value of excess servicing spread payable to PennyMac Mortgage Investment Trust*. During the year ended December 31, 2019, we recorded \$9.3 million of net gains due to changes in fair value of ESS.

We believe that the most significant "Level 3" fair value inputs to the valuation of ESS are the pricing spread (used to develop periodic discount rates) and prepayment speed. At December 31, 2019, we carried \$178.6 million of ESS at fair value. Following is a summary of the effect on fair value of various changes to these inputs at December 31, 2019:

	 Effect on fair value of excess servi	cing spr	ead of a change in input value
Change in input	Pricing spread		Prepayment speed
	(in th	ousands	s)
(20)%	\$ 4,907	\$	18,565
(10)%	\$ 2,422	\$	8,878
(5)%	\$ 1,203	\$	4,344
5 %	\$ (1,188)	\$	(4,164)
10 %	\$ (2,361)	\$	(8,160)
20 %	\$ (4,662)	\$	(15,680)

The preceding analyses hold constant all of the inputs other than the input that is being changed to show an estimate of the effect on fair value of a change in that specific input. We expect that in a market shock event, multiple inputs would be affected and the effects of these changes may compound or counteract each other. Therefore the preceding analyses are not projections of the effects of a shock event or a change in our estimate of an input and should not be relied upon as earnings projections.

Critical Accounting Policy Not Based on Fair Value-Liability for Losses Under Representations and Warranties

We record a provision for losses relating to our representations and warranties as part of our loan sale transactions and periodically update our estimates of our liability. The method we use to estimate the liability for representations and warranties is a function of the representations and warranties given and considers a combination of factors, including, but not limited to, estimated future default and loan repurchase rates, the potential severity of loss in the event of default and, if applicable, the probability of reimbursement by the correspondent loan seller.

The level of the liability for losses under representations and warranties is difficult to estimate and requires considerable judgment. The level of loan repurchase losses is dependent on economic factors, purchaser or insurer loss mitigation strategies, and other external conditions that may change over the lives of the underlying loans. Our estimate of the liability for representations and warranties is developed by our credit administration staff. The liability estimate is reviewed and approved by our senior management credit committee which includes the senior executives of the Company and of the loan production, loan servicing and credit risk management areas.

During the year ended December 31, 2019, we recorded \$8.4 million in provision for losses relating to current year loan sales in *Net gain on loans held for sale at fair value* and incurred net losses totaling \$209,000.

As economic fundamentals change, as purchaser and insurer evaluations of their loss mitigation strategies (including claims under representations and warranties) change and as the mortgage market and general economic conditions affect our correspondent sellers, the level of repurchase activity and ensuing losses will change. As a result of these changes, we may be required to adjust the estimate of our liability for representations and warranties. Such an adjustment may be material to our financial condition and income. During the year ended December 31, 2019, we recorded reductions to our previously recorded representations and warranties liability amounts totaling \$7.9 million in *Net gain on loans held for sale at fair value*. At December 31, 2019, the balance of our liability for losses under representations and warranties totaled \$21.4 million.

Accounting Developments

Refer to Note 3 – Significant Accounting Policies – Recently Issued Accounting Pronouncements to our consolidated financial statements for a discussion of recent accounting developments and the expected effect on the Company.

Results of Operations

⁽¹⁾ Primarily represents Repricing of payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders under tax receivable agreement, of which, for 2017, \$32.0 million was the result of the change in the federal tax rate under the Tax Act.

Comparison of the years ended December 31, 2019, 2018 and 2017

During the year ended December 31, 2019, we recorded net income of \$393.0 million, an increase of \$148.5 million, or 61%, from 2018. The increase is due to an increase of \$492.8 million in total net revenue, partially offset by an increase of \$231.0 million in total expenses and \$113.2 million in provision for income taxes.

The increase in total revenue was primarily due to an increase of \$476.5 million in *Net gains on loans held for sale at fair value*, \$79.3 million in *Fulfillment fees from PennyMac Mortgage Invest Trust*, and \$72.5 million in *Loan origination fees* resulting from higher production volume and improved profit margins, which was partially offset by a decrease of \$151.7 million in *Net loan servicing fees* primarily attributable to the effect of lower interest rates on the fair value of our MSRs that resulted in fair value losses net of hedging results compared to the year ended December 31, 2018.

The increase in total expenses was primarily due to increases in loan origination and compensation expenses, reflecting the continuing growth of our mortgage banking activities. The provision for income taxes increased significantly as a result of the Reorganization which was completed in late 2018.

During the year ended December 31, 2018, we recorded net income of \$244.4 million, a decrease of \$67.1 million or 22% from 2017. The decrease was primarily due to an increase of \$97.4 million in total expense, which was partially offset by an increase of \$29.2 million in total net revenue. The increase in total expense was primarily due to expansion of our loan servicing and production businesses. The increase in total net revenue was primarily due to an increase of \$139.3 million in *Net loan servicing fees* and an increase of \$73.2 million in *Net interest income*, partially offset by decreases of \$142.8 million in *Net gains on loans held for sale at fair value*, \$17.6 million in *Loan origination fees* and \$31.8 million in *Repricing of payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders under tax receivable agreement*. The decrease in our *Net gains on loans held for sale at fair value* reflected continued competitive pressures in the mortgage market place arising from the effect of then-increasing interest rates on borrower demand for mortgage loans. Increasing interest rates also contributed \$70.8 million to *Net loan servicing fees* in the form of fair value gains net of hedging results during 2018 as compared to 2017.

Net gains on loans held for sale at fair value

During the year ended December 31, 2019, we recognized *Net gains on loans held for sale at fair value* totaling \$725.5 million, compared to \$249.0 million and \$391.8 million during the years ended December 31, 2018 and 2017, respectively. The increase in 2019 compared to 2018 was primarily due to an increase in loan production volume and improved profit margins in our mortgage production business, reflecting increased demand for mortgage loans during 2019 as compared to 2018.

The increase in demand for mortgage loans during 2019 as compared to 2018 is attributable primarily to the decrease in market interest rates that prevailed during 2019 compared to 2018. The decreases in 2018 compared to 2017 was primarily due to decreases in both loan production volume for our own account and profit margins reflecting the effect of then-generally rising interest rates in the mortgage market, which has a negative influence on demand for mortgage lending. Reduced demand negatively influences profit margins by causing increased price competition in the acquisition and origination of mortgage loans.

Our net gains on loans held for sale are summarized below:

			2017
(in thousand	s)		
From non-affiliates:			
Cash loss:			
Loans \$ (190,853) \$ (469,6		\$	(174,669)

From PennyMac Mortgage Investment Trust 183,365 64,5	83		21,989
\$ 725,528 \$ 249,0)22	\$	391,804
During the year:			
Interest rate lock commitments issued:			
Government-insured or guaranteed mortgage loans \$ 62,772,725 \$ 40,193,5	31	\$	46,341,356
Conventional mortgage loans 9,886,462 4,592,4		_	3,265,411
	641		
Home equity lines of credit 9,186	_		_
\$ 72,698,014 \$ 44,786,4	84	\$	49,606,767
At end of year: $\frac{\sqrt{23,050,011}}{\sqrt{23,050,011}} = \frac{\sqrt{11,1700,011}}{\sqrt{11,1700,011}}$	<u> </u>	*	.,,,,,,,,,,,
Loans held for sale at fair value \$ 4,912,953 \$ 2,521,6	647	\$	3,099,103
Commitments to fund and purchase loans \$ 7,122,316 \$ 2,805,4	100	\$	3,654,955

Our gain on sale of loans held for sale includes both cash and non-cash elements. We receive proceeds on sale that include our estimate of the fair value of MSRs and we incur liabilities for mortgage servicing liabilities (which represent the fair value of the costs we expect to incur in excess of the fees we receive for early buyout of delinquent loans we have resold) and for the fair value of our estimate of the losses we expect to incur relating to the representations and warranties we provide in our loan sale transactions.

Non-cash elements of gain on sale of loans

The MSRs, mortgage servicing liabilities ("MSLs"), and liability for representations and warranties we recognize represent our estimate of the fair value of future benefits and costs we will realize for years in the future. These estimates represented approximately 125% of our gain on sale of loans at fair value for the year ended December 31, 2019, as compared to 225% and 143% for the years ended December 31, 2018 and 2017, respectively.

How we measure and update our measurements of MSRs and MSLs is detailed in Note $6 - Fair\ value - Valuation\ Techniques\ and\ Inputs$ to the consolidated financial statements included in this Annual Report.

Our agreements with the purchasers and insurers include representations and warranties related to the loans we sell. The representations and warranties require adherence to purchaser and insurer origination and underwriting guidelines, including but not limited to the validity of the lien securing the loan, property eligibility, borrower credit, income and asset requirements, and compliance with applicable federal, state and local law.

In the event of a breach of our representations and warranties, we may be required to either repurchase the loans with the identified defects or indemnify the purchaser or insurer. In such cases, we bear any subsequent credit loss on the loans. Our credit loss may be reduced by any recourse we have to correspondent originators that sold such loans to us and breached similar or other representations and warranties. In such event, we have the right to seek a recovery of related repurchase losses from that correspondent seller.

The method used to estimate our losses on representations and warranties is a function of our estimate of future defaults, loan repurchase rates, the severity of loss in the event of default, if applicable, and the probability of reimbursement by the correspondent loan seller. We establish a liability at the time loans are sold and review our liability estimate on a periodic basis.

During the years ended December 31, 2019, 2018, and 2017 we recorded provisions for losses under representations and warranties relating to current loan sales as a component of *Net gains on loans held for sale at fair value* totaling \$8.4 million, \$5.8 million, and \$5.9 million, respectively. We also recorded reductions in the liability relating to previously sold loans of \$7.9 million, \$4.7 million, and \$4.3 million, for the years ended December 31, 2019, 2018 and 2017, respectively. The reductions in the liability relating to previously sold loans resulted from those loans meeting performance criteria established by the Agencies which significantly limits the likelihood of certain repurchase or indemnification claims.

Following is a summary of mortgage loan repurchase activity and the unpaid balance of mortgage loans subject to representations and warranties:

	Year ended December 31,						
	2019			2018		2017	
			((in thousands)			
During the year:							
Indemnification activity:							
Loans indemnified by PFSI at beginning of year	\$	8,899	\$	7,579	\$	5,599	
New indemnifications		11,629		4,511		3,255	
Less indemnified loans sold, repaid or refinanced		5,162		3,191		1,275	
Loans indemnified by PFSI at end of year	\$	15,366	\$	8,899	\$	7,579	
Repurchase activity:							
Total loans repurchased by PFSI	\$	18,660	\$	26,025	\$	20,152	
Less:							
Loans repurchased by correspondent lenders		12,396		18,127		14,298	
Loans repaid by borrowers or resold with defects							
resolved		6,735		2,138		8,792	
Net loans repurchased (resolved) with losses chargeable to							
liability for representations and warranties	\$	(471)	\$	5,760	\$	(2,938)	
Net losses charged to liability for representations and			-				
warranties	\$	209	\$	50	\$	603	
At end of year:							
Unpaid principal balance of loans subject to representations							
and warranties	\$	177,611,568	\$	137,849,704	\$	120,855,101	
Liability for representations and warranties	\$	21,446	\$	21,155	\$	20,053	

During the year ended December 31, 2019, we repurchased loans with unpaid principal balances totaling \$18.7 million and charged \$209,000 in net incurred losses relating to repurchases against our liability for representations and warranties. As the credit criteria relating to loans we originate and sell change, as the outstanding balance of loans we purchase and sell subject to representations and warranties increases and as the loans sold continue to season, we expect that the level of repurchase activity and corresponding losses may increase.

The level of the liability for losses under representations and warranties is difficult to estimate and requires considerable judgment. The level of loan repurchase losses is dependent on economic factors, purchaser or insurer loss mitigation strategies, and other external conditions that may change over the lives of the underlying loans. Our estimate of the liability for representations and warranties is developed by our credit administration staff and approved by our senior management credit committee which includes our senior executives and senior management in our loan production, loan servicing and credit risk management groups.

Our representations and warranties are generally not subject to stated limits of exposure. However, we believe that the current UPB of loans sold by us and subject to representation and warranty liability to date represents the maximum exposure to repurchases related to representations and warranties.

Loan origination fees

Following is a summary of our loan origination fees:

	Year ended December 31,					
	2019	2018	2017			
		(in thousands)				
Loan origination fee revenue	\$ 174,156	\$ 101,641	\$ 119,202			
Unpaid principal balance of loans purchased and originated for sale	\$ 61,531,095	\$ 41,444,793	\$ 46,027,911			

Loan origination fees increased \$72.5 million during the year ended December 31, 2019 compared to the year ended December 31, 2018, and the increase was primarily due to an increase in the volume of loans we produced. Loan origination fees decreased \$17.6 million during the years ended December 31, 2018 compared to the year ended December 31, 2017, and the decrease was primarily due to decreases in the volume of loans we produced.

Fulfillment fees fron PennyMac Mortgage Investment Trust

Following is a summary of our fulfillment fees:

	Year ended December 31,							
	2019	2018	2017					
	(dollars in thousands)							
Fulfillment fee revenue	\$ 160,610	\$ 81,350	\$ 80,359					
Unpaid principal balance of loans fulfilled subject to fulfillment fees	\$ 56,033,704	\$ 26,194,303	\$ 22,971,119					
Average fulfillment fee rate (in basis points)	29	31	35					

Fulfillment fees from PMT represent fees we collect for services we perform on behalf of PMT in connection with the acquisition, packaging and sale of loans. The fulfillment fees are calculated as a percentage of the UPB of the loans we fulfill for PMT.

Fulfillment fees increased \$79.3 million and \$1.0 million during the years ended December 31, 2019 and 2018, compared to the years ended December 31, 2018 and 2017, respectively. The increases were primarily due to increased volume of loans we fulfilled for PMT, partially offset by an increase in discretionary reductions in the fulfillment fee rate during the years ended December 31, 2019 and 2018 compared to the respective prior years.

Net loan servicing fees

Following is a summary of our net loan servicing fees:

	Year ended December 31,					
	2019		2018			2017
			(in	thousands)		
Net loan servicing fees:						
Loan servicing fees:

Mortgage servicing rights	\$ 2,764,105	\$ 2,433,758	\$ 1,873,001			
Mortgage servicing liabilities	\$ 18,718	\$ 10,506	\$ 15,587			
Excess servicing spread financing	\$ 195,461	\$ 229,607	\$ 262,078			
At year end:						
Mortgage servicing rights	\$ 2,926,790	\$ 2,820,612	\$ 2,119,588			
Mortgage servicing liabilities	\$ 29,140	\$ 8,681	\$ 14,120			
Excess servicing spread financing	\$ 178,586	\$ 216,110	\$ 236,534			

Following is a summary of our loan servicing portfolio:

	December 31, 2019	December 31, 2018
	(in tho	usands)
Loans serviced		
Prime servicing:		
Owned:		
Mortgage servicing rights		
Originated	\$ 166,188,825	\$ 144,296,544
Acquired	59,598,279	56,757,600
	225,787,104	201,054,144
Mortgage servicing liabilities	2,758,454	1,160,938
Loans held for sale	4,724,006	2,420,636
	233,269,564	204,635,718
Subserviced for PMT	135,288,944	94,276,938
Total prime servicing	368,558,508	298,912,656
Special servicing – Subserviced for PMT	125,724	381,216
Total loans serviced	\$ 368,684,232	\$ 299,293,872

Net loan servicing fees decreased \$151.7 million during the year ended December 31, 2019 compared to the year ended December 31, 2018. The decrease was primarily due to an increase of \$338.0 million in losses in fair value of MSR, MSLs and excess servicing spread financing, net of hedging results, compared to the year ended December 31, 2018, resulting from the effect of decreasing interest rates on mortgage servicing asset and liability fair values. The increased losses were partially offset by an increase of \$186.2 million in loan servicing fees, resulting from an increase of 24% in our average servicing portfolio for the year ended December 31, 2019 compared to the year ended December 31, 2018.

Net loan servicing fees increased \$139.3 million during the year ended December 31, 2018, compared to the year ended December 31, 2017. The increase was due to a combination of an increase of \$112.0 million of mortgage loan servicing fees, resulting from growth in our loan servicing portfolio and a decrease of \$27.3 million in fair value losses and impairment of MSRs and MSL, net of hedging results, resulting from the effect of generally rising interest rates during 2017.

Net Interest Income

Net interest income increased \$4.9 million during the year ended December 31, 2019 compared to the year ended December 31, 2018. The increase was primarily due to:

- an increase of \$56.3 million in placement fees we receive relating to custodial funds that we manage, reflecting the growth of our servicing portfolio and net interest income relating to growth in our average inventory of loans held for sale, partially offset by
- a \$33.4 million decrease in the financing incentives we received from one of our lenders for financing mortgage loans approved for satisfying certain consumer relief characteristics; and
- a \$22.7 million increase in interest shortfall on repayment of loans serviced for Agency securitizations. When a borrower repays a loan, we are responsible for paying the full month's interest to the holders of the Agency securities that are backed by the loan regardless of when in the month the borrower repays the loan. The increase in refinancing activity in our MSR portfolio caused the increase in the interest shortfall.

Net interest income increased \$73.2 million during the year ended December 31, 2018 compared to the year ended December 31, 2017. The increase is primarily due to a \$38.9 million increase of incentives relating to financing of mortgage loans under the master repurchase agreement described below and an increase of \$37.4 million in the placement fees we received relating to the custodial funds that we manage, reflecting the growth of our servicing portfolio and higher placement fee rates, as well as an increase in interest income on loans held for sale.

We entered into a master repurchase agreement in 2017 that provided us with incentives to finance mortgage loans approved for satisfying certain consumer relief characteristics as provided in the agreement. We recorded \$14.7 million, \$48.1 million and \$9.2 million of such incentives as reductions of *Interest expense* during the years ended December 31, 2019, 2018 and 2017, respectively. The master repurchase agreement expired on August 21, 2019.

Management fees and Carried Interest

Management fees and Carried Interest are summarized below:

	Y	Year ended December 31,			
	2019	2018	2017		
		(in thousands)			
Management fees:					
PennyMac Mortgage Investment Trust:					
Base management	\$ 29,30	3 \$ 23,033	\$ 22,280		
Performance incentive	7,189	1,432	304		
	36,492	24,465	22,584		
Investment Funds		- 4	1,001		
Total management fees	36,492	2 24,469	23,585		
Carried Interest	_	- (365)	(1,040)		
Total management fees and Carried Interest	\$ 36,492	\$ 24,104	\$ 22,545		
Net assets of Advised Entities at year end:					
PennyMac Mortgage Investment Trust	\$ 2,450,910	\$ 1,566,132	\$ 1,544,585		
Investment Funds	_	- —	29,329		
	\$ 2,450,910	\$ 1,566,132	\$ 1,573,914		

Management fees from PMT increased by \$12.0 million during the year ended December 31, 2019, compared to the year ended December 31, 2018, reflecting the combined effect of the performance incentive fees arising from PMT's increased profitability and the increase in PMT's average shareholders' equity upon which its management fees are based. The increase in average shareholders' equity was primarily due to the issuance of new common shares by PMT during the year ended December 31, 2019.

Management fees from PMT increased by \$1.9 million during the year ended December 31, 2018, compared to the year ended December 31, 2017, primarily reflecting the increase in PMT's average shareholders' equity upon which its management fees are based and an increase in performance incentive fees. Performance incentive fees increased \$1.1 million during the year ended December 31, 2018, compared to the year ended December 31, 2017, resulting from an increase in PMT's net income on which incentive fees are based.

Change in Fair Value of Investment in and Dividends Received from PMT

The results of our holdings of common shares of PMT, which is included in *Changes in fair value of investment in, and dividends received from PMT* are summarized below:

	Year ended December 31,				i,	
	2019		2018			2017
			(in t	housands)	,	
Dividends from PennyMac Mortgage Investment Trust	\$	141	\$	140	\$	141
Change in fair value of investment in PennyMac Mortgage Investment Trust		275		192		(23)
Dividends received and change in fair value	\$	416	\$	332	\$	118
Fair value of PennyMac Mortgage Investment Trust shares at year end	\$	1,672	\$	1.397	\$	1,205

Change in fair value of investment in and dividends received from PMT increased \$84,000 during the year ended December 31, 2019, compared to the year ended December 31, 2018, and increased \$214,000 during the year ended December 31, 2018, compared to the year ended December 31, 2017, due to changes in the fair value of our investment in PMT. We held 75,000 common shares of PMT during each of the three years ended December 31, 2019.

Other revenues

Other revenue decreased \$1.2 million for the year ended December 31, 2019, compared to the year ended December 31, 2018. The decrease was primarily due to a decrease of \$747,000 in *Repricing of Payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders under the tax receivable agreement* as a result of a smaller change in tax rate in 2019 compared to 2018.

Other revenue decreased \$25.5 million for the year ended December 31, 2018, compared to the year ended December 31, 2017. The decrease was primarily due to a decrease of \$31.8 million in *Repricing of payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders under the tax receivable agreement* as a result of the reduction in the federal tax rate which was recognized in 2017, partially offset by an increase of \$5.1 million in reimbursements from PMT due to our adoption of the Financial Accounting Standard Board's Accounting Standards Update 2014-09, *Revenue from Contracts with Customers (Subtopic 606)* using the modified retrospective method effective January 1, 2018. Under Accounting Standard Update 2014-09, reimbursements must be accounted for as revenue. Those reimbursements were included as a reduction of expense in previous years.

Expenses

Compensation

Our compensation expense is summarized below:

	Year ended December 31,		
	2019	2018	2017
	(de	nds)	
Salaries and wages	\$ 293,987	\$ 256,750	\$ 229,710
Incentive compensation	124,203	70,574	65,922
Taxes and benefits	60,497	50,695	42,392
Stock and unit-based compensation	24,771	25,251	20,697
	\$ 503,458	\$ 403,270	\$ 358,721
Head count:			
Average	3,709	3,335	3,024
Year end	4,215	3,460	3,189

Compensation expense increased \$100.2 million during the year ended December 31, 2019, compared to the year ended December 31, 2018. The increase in compensation was primarily due to increases in incentive compensation resulting from performance-based incentives in our mortgage banking business and higher than expected attainment of profitability targets along with increases in base salaries, taxes and benefits due to increased average head count resulting from the growth in our mortgage banking activities during 2019.

Compensation expense increased \$44.5 million during the year ended December 31, 2018, compared to the year ended December 31, 2017. The increase in compensation was primarily due to increased base salaries, taxes and benefits due to increased average head count resulting from the growth in our mortgage banking activities during 2018.

Servicing

Servicing expense increased \$27.6 million and \$19.4 million in the years ended December 31, 2019 and 2018 compared to the years ended December 31, 2018 and 2017, respectively. The increases were due to growth in our government-insured or guaranteed mortgage servicing portfolio, which includes loans that are subject to nonreimbursable servicing advance losses, and to our EBO program to purchase defaulted loans from Ginnie Mae pools. During the year ended December 31, 2019, we purchased \$4.4 billion in UPB of EBO loans as compared to \$3.0 billion for the year ended December 31, 2018 and \$2.9 billion for the year ended December 31, 2017.

The EBO program reduces the ongoing cost of servicing defaulted mortgage loans subject to Ginnie Mae MBS when we purchase and either sell the defaulted loans or finance them with debt at interest rates below the Ginnie Mae MBS pass-through rates. While the EBO program reduces the ultimate cost of servicing such mortgage loan pools, it accelerates loss recognition when the mortgage loans are purchased. We recognize expense because purchasing the mortgage loans from their Ginnie Mae pools causes us to write off accumulated non-reimbursable interest advances, net of interest receivable from the mortgage loans' insurer or guarantor at the debenture rate of interest applicable to the respective mortgage loans.

Technology

Technology expense increased \$7.8 million and \$8.1 million in the years ended December 31, 2019 and 2018 compared to the years ended December 31, 2018 and 2017, respectively. The increases were primarily due to growth in our loan servicing operations and continued investment in our loan production and servicing infrastructure.

Occupancy and equipment

Occupancy and equipment expenses increased \$1.8 million and \$4.5 million during the years ended December 31, 2019 and 2018, compared to the years ended December 31, 2018 and 2017, respectively. The increases are primarily attributable to expansion of our facilities to accommodate our growth.

Provision for Income Taxes

For the years ended December 31, 2019, 2018 and 2017, our effective tax rates were 25.8%, 8.7%, and 7.3%, respectively. The difference in prior years between our effective tax rate and the statutory rates was primarily due to the allocation of earnings to the noncontrolling interest unitholders. Pursuant to the Reorganization, the noncontrolling interest unitholders converted their ownership units into our shares and as a result, we were allocated starting on that date and will in the future be allocated 100% of PNMAC earnings that will be subject to corporate federal and state statutory tax rates, which has in turn increased our effective income tax rate.

Balance Sheet Analysis

Following is a summary of key balance sheet items as of the dates presented:

	December 31, 2019	December 31, 2018
	(in thousands)	
ASSETS		
Cash and short-term investments	\$ 262,902	\$ 273,113
Loans held for sale at fair value	4,912,953	2,521,647
Servicing advances, net	331,169	313,197
Investments in and advances to affiliates	157,343	165,886
Mortgage servicing rights	2,926,790	2,820,612
Loans eligible for repurchase	1,046,527	1,102,840
Other	566,333	281,278
Total assets	\$ 10,204,017	\$ 7,478,573
LIABILITIES AND STOCKHOLDERS' EQUITY		
Short-term debt	\$ 4,639,001	\$ 2,332,143
Long-term debt	1,493,466	1,648,973
Liability for loans eligible for repurchase	1,046,527	1,102,840
Income taxes payable	504,569	400,546
Other	458,947	340,280
Total liabilities	8,142,510	5,824,782
Stockholders' equity	2,061,507	1,653,791
Total liabilities and stockholders' equity	\$ 10,204,017	\$ 7,478,573

Total assets increased \$2.7 billion from \$7.5 billion at December 31, 2018 to \$10.2 billion at December 31, 2019. The increase was primarily due to an increase of \$2.4 billion in loans held for sale at fair value resulting from an increase in loan production inventory and \$106.2 million in MSRs reflecting continued additions from our loan production activities and servicing portfolio acquisitions.

Total liabilities increased by \$2.3 billion from \$5.8 billion as of December 31, 2018 to \$8.1 billion as of December 31, 2019. The increase was primarily attributable to an increase of \$2.3 billion in borrowings required to finance a larger inventory of loans held for sale combined with a \$91.3 million increase in other liabilities due to recognition of operating lease liabilities effective January 1, 2019, as the result of our adoption of the Financial Accounting Standards Board's Accounting Standards Update 2016-02, *Leases (Topic 842)*, which requires us to recognize our contractual lease rights and obligations on our consolidated balance sheet.

Cash Flows

Our cash flows for the three years ended December 31, 2019 are summarized below:

	Year	Year ended December 31,				
	2019	2018	2017			
	·	(in thousands)				
Operating	\$ (2,245,123)	\$ 572,396	\$ (883,412)			
Investing	148,782	(322,611)	(339,231)			
Financing	2,128,995_	(132,034)	1,161,174			
Net increase (decrease) in cash and restricted cash	\$ 32,654	\$ 117,751	\$ (61,469)			

Operating activities

Net cash (used in) provided by operating activities totaled (\$2.2) billion, \$572.4 million, and (\$883.4) million during the years ended December 31, 2019, 2018, and 2017 respectively. Our cash flows from operating activities are primarily influenced by changes in the levels of our inventory of loans held for sale as shown below:

		Year ended December 31,			
	20	2019 2018			
			(in thousands)		
Cash flows from:					
Loans held for sale	\$ (2,48	37,105)	\$ 338,838	\$ (1,019,898)	
Other operating sources	24	1,982	233,558	136,486	
	\$ (2,24	5,123)	\$ 572,396	\$ (883,412)	

Cash provided by other operating sources for the year ended December 31, 2019 was consistent with the year ended December 31, 2018. The increase in cash flow from other operating sources during the year ended December 31, 2018, compared to the year ended December 31, 2017, was primarily attributable to our collection of \$31.9 million in repurchase agreement derivatives and an increase in operating cash flows arising from net changes in other assets and accounts payable and accrued expenses in the amount of \$68.2 million. The master repurchase agreement expired on August 21, 2019.

Investing activities

Net cash provided by investing activities was \$148.8 million during the year ended December 2019, primarily comprised of \$366.1 million in net settlement of derivative financial instruments used to hedge our investment in MSRs, partially offset by \$227.4 million used in purchase of MSRs.

Net cash used in investing activities was \$322.6 million and \$339.2 million during the years ended December 31, 2018, and 2017, respectively, primarily comprised of cash used in purchase of MSRs and net settlements of derivative financial instruments used to hedge our investment in MSRs.

Financing activities

Net cash provided by financing activities totaled \$2.1 billion during the year ended December 31, 2019 which was primarily to finance the growth in our inventory of mortgage loans held for sale and our investments in MSR.

Net cash used in financing activities totaled \$132.0 million during the year ended December 31, 2018 which was primarily due to net repurchases of assets sold under agreements to repurchase and mortgage loan participation purchase and sale agreements of \$440.9 million, reflecting a reduction in our financing of loans held for sale, and repayments of excess servicing spread financing of \$46.8 million, partially offset by net proceeds from issuance of notes payable secured by of \$400 million.

Net cash provided by financing activities was \$1.2 billion during the year ended December 31, 2017, primarily due to an increase in loans sold under agreements to repurchase and notes payable used to finance the growth in our inventory of loans held for sale and MSRs.

Liquidity and Capital Resources

Our liquidity reflects our ability to meet our current obligations (including our operating expenses and, when applicable, the retirement of, and margin calls relating to, our debt, and margin calls relating to hedges on our commitments to purchase or originate mortgage loans and on our MSR investments), fund new originations and purchases, and make investments as we identify them. We expect our primary sources of liquidity to be through cash flows from business activities, proceeds from bank borrowings, proceeds from and issuance of ESS and/or equity or debt offerings. We believe that our liquidity is sufficient to meet our current liquidity needs and make distributions to our shareholders.

Our current borrowing strategy is to finance our assets where we believe such borrowing is prudent, appropriate and available. Our borrowing activities are in the form of sales of assets under agreements to repurchase, sales of mortgage loan participation certificates, ESS financing, notes payable (including a revolving credit agreement) and a capital lease. Most of our borrowings have short-term maturities and provide for terms of approximately one year. Because a significant portion of our current debt facilities consists of short-term borrowings, we expect to renew these facilities in advance of maturity in order to ensure our ongoing liquidity and access to capital or otherwise allow ourselves sufficient time to replace any necessary financing.

Our repurchase agreements represent the sales of assets together with agreements for us to buy back the assets at a later date. The table below presents the average outstanding, maximum and ending balances for each of the three years ended December 31, 2019, 2018 and 2017:

	Year ended December 31,																		
	2019 2018		2019 2018		2019 2018		2019 2018		2019 2018		2019 2018		2019 2018		2019 2018		2019 2018		2017
		(in thousands)																	
Average balance	\$ 2,185,830	\$ 1,626,729	\$ 1,829,257																
Maximum daily balance	\$ 4,141,680	\$ 2,380,121	\$ 3,022,656																
Balance at year end	\$ 4,141,680	\$ 1,935,200	\$ 2,380,866																

The differences between the average and maximum daily balances on our repurchase agreements reflect the fluctuations throughout the month of our inventory as we fund and pool mortgage loans for sale in guaranteed mortgage securitizations.

Our secured financing agreements at PLS require us to comply with various financial covenants. The most significant financial covenants currently include the following:

- positive net income during each calendar quarter;
- a minimum in unrestricted cash and cash equivalents of \$40 million;

- a minimum tangible net worth of \$500 million;
- a maximum ratio of total liabilities to tangible net worth of 10:1; and
- at least one other warehouse or repurchase facility that finances amounts and assets that are similar to those being financed under certain of our existing secured financing agreements.

With respect to servicing performed for PMT, PLS is also subject to certain covenants under PMT's debt agreements. Covenants in PMT's debt agreements are equally, or sometimes less, restrictive than the covenants described above.

In addition to the covenants noted above, PennyMac's revolving credit agreement and capital lease contain additional financial covenants including, but not limited to,

- a minimum of cash equal to the amount borrowed under the revolving credit agreement;
- a minimum of unrestricted cash and cash equivalents equal to \$25 million;
- a minimum of tangible net worth of \$500 million;
- a minimum asset coverage ratio (the ratio of the total asset amount to the total commitment) of 2.5; and
- a maximum ratio of total indebtedness to tangible net worth ratio of 5:1.

Although these financial covenants limit the amount of indebtedness that we may incur and affect our liquidity through minimum cash reserve requirements, we believe that these covenants currently provide us with sufficient flexibility to successfully operate our business and obtain the financing necessary to achieve that purpose.

Our debt financing agreements also contain margin call provisions that, upon notice from the applicable lender at its option, require us to transfer cash or, in some instances, additional assets in an amount sufficient to eliminate any margin deficit. A margin deficit will generally result from any decline in the market value (as determined by the applicable lender) of the assets subject to the related financing agreement. Upon notice from the applicable lender, we will generally be required to satisfy the margin call on the day of such notice or within one business day thereafter, depending on the timing of the notice.

We are also subject to liquidity and net worth requirements established by FHFA for Agency seller/servicers and Ginnie Mae for single-family issuers. FHFA and Ginnie Mae have established minimum liquidity requirements and revised their net worth requirements for their approved non-depository single-family sellers/servicers or issuers as summarized below:

- FHFA liquidity requirement is equal to 0.035% (3.5 basis points) of total Agency servicing UPB plus an incremental 200 basis points of the amount by which total nonperforming Agency servicing UPB exceeds 6% of the applicable Agency servicing UPB; allowable assets to satisfy liquidity requirement include cash and cash equivalents (unrestricted), certain investment-grade securities that are available for sale or held for trading including Agency mortgage-backed securities, obligations of Fannie Mae or Freddie Mac, and U.S. Treasury obligations, and unused and available portions of committed servicing advance lines;
- FHFA net worth requirement is a minimum net worth of \$2.5 million plus 0.25% (25 basis points) of UPB for total 1-4 unit residential mortgage loans serviced and a tangible net worth/total assets ratio greater than or equal to 6%;
- Ginnie Mae single-family issuer minimum liquidity requirement is equal to the greater of \$1.0 million or 0.10% (10 basis points) of the issuer's outstanding Ginnie Mae single-family securities, which must be met with cash and cash equivalents; and

• Ginnie Mae net worth requirement is equal to \$2.5 million plus 0.35% (35 basis points) of the issuer's outstanding Ginnie Mae single-family obligations.

We believe that we are currently in compliance with the applicable Agency requirements.

We have purchased portfolios of MSRs and have financed them in part through the sale to PMT of the right to receive ESS. The outstanding amount of the ESS is based on the current fair value of such ESS and amounts received on the underlying mortgage loans.

In June 2017, our Board of Directors approved a stock repurchase program that allows us to repurchase up to \$50 million of our common stock using open market stock purchases or privately negotiated transactions in accordance with applicable rules and regulations. The stock repurchase program does not have an expiration date and the authorization does not obligate us to acquire any particular amount of common stock. We intend to finance the stock repurchase program through cash on hand. From inception through December 31, 2019, we have repurchased \$14.9 million of shares under our stock repurchase program.

We continue to explore a variety of means of financing our continued growth, including debt financing through bank warehouse lines of credit, bank loans, repurchase agreements, securitization transactions and corporate debt. However, there can be no assurance as to how much additional financing capacity such efforts will produce, what form the financing will take or whether such efforts will be successful.

Off-Balance Sheet Arrangements and Aggregate Contractual Obligations

Off-Balance Sheet Arrangements

As of December 31, 2019, we have not entered into any off-balance sheet arrangements or guarantees.

Contractual Obligations

As of December 31, 2019 we had contractual obligations aggregating \$13.7 billion, comprised of commitments to purchase and originate loans, borrowings, and a payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders under a tax receivable agreement. We also lease our office facilities.

Payment obligations under these agreements are summarized below:

	Payments due by year					
Contractual obligations	Total	Less than 1 vear	1-3 vears	3-5 vears	More than 5 years	
Contractant obligations	10111		n thousands)	years	o years	
Commitments to purchase and originate loans	\$ 7,122,316	\$ 7,122,316	\$ —	\$ —	\$ —	
Short-term debt	4,639,628	4,639,628	_			
Long-term debt	1,499,396	8,249	12,561	1,300,000	178,586	
Interest on long-term debt	247,694	66,899	130,309	32,411	18,075	
Office leases	109,301	17,365	30,702	25,930	35,304	
Payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders under						
tax receivable agreement	46,158	12,192		_	33,966	
Total	\$ 13,664,493	\$ 11,866,649	\$ 173,572	\$ 1,358,341	\$ 265,931	

Debt Obligations

As described further above in "Liquidity and Capital Resources," we currently finance certain of our assets through borrowings with major financial institution counterparties in the form of sales of assets under agreements to repurchase, mortgage loan participation purchase and sale agreements, notes payable (including a revolving credit agreement), ESS and a capital lease. The borrower under each of these facilities is PLS or subsidiary Issuer Trust with the exception of the revolving credit agreement, which is classified as a note payable, and the capital lease, in each case where the borrower is PennyMac. All PLS obligations as previously noted are guaranteed by PennyMac.

Under the terms of these agreements, PLS is required to comply with certain financial covenants, as described further above in "Liquidity and Capital Resources," and various non-financial covenants customary for transactions of this nature. As of December 31, 2019, we believe we were in compliance in all material respects with these covenants.

The agreements also contain margin call provisions that, upon notice from the applicable lender, require us to transfer cash or, in some instances, additional assets in an amount sufficient to eliminate any margin deficit. Upon notice from the applicable lender, we will generally be required to satisfy the margin call on the day of such notice or within one business day thereafter, depending on the timing of the notice.

In addition, the agreements contain events of default (subject to certain materiality thresholds and grace periods), including payment defaults, breaches of covenants and/or certain representations and warranties, cross-defaults, guarantor defaults, servicer termination events and defaults, material adverse changes, bankruptcy or insolvency proceedings and other events of default customary for these types of transactions. The remedies for such events of default are also customary for these types of transactions and include the acceleration of the principal amount outstanding under the agreements and the liquidation by our lenders of the mortgage loans or other collateral then subject to the agreements.

The borrowings have maturities as follows:

⁽¹⁾ Outstanding indebtedness as of December 31, 2019.

⁽²⁾ Total facility size, committed facility and maturity date include contractual changes through the date of this Report.

⁽³⁾ The total credit facility from Credit Suisse is \$1.5 billion. The borrowing of \$100 million with Credit Suisse First Boston Mortgage Capital LLC is in the form of a sale of a variable funding note under an agreement to repurchase up to a maximum of \$400 million, less any amount utilized under the Credit Suisse AG note payable and an agreement to repurchase relating to the financing of Fannie Mae MSRs.

The amount at risk (the fair value of the assets pledged plus the related margin deposit, less the amount advanced by the counterparty and accrued interest) relating to our assets sold under agreements to repurchase is summarized by counterparty below as of December 31, 2019:

Counterments	A	ount at risk	Weighted average maturity of advances under	Facility maturity

⁽¹⁾ The borrowing facility with Credit Suisse First Boston Mortgage Capital LLC is in the form of a sale of a variable funding note under an agreement to repurchase.

(2) The borrowing facility with Credit Suisse First Boston Mortgage Capital LLC is in the form of an asset sale under an agreement to repurchase.

All debt financing arrangements that matured between December 31, 2019 and the date of this Report have been renewed or extended and are described in Note 13—*Borrowings* to the accompanying consolidated financial statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices, real estate values and other market-based risks. The primary market risks that we are exposed to are interest rate risk, prepayment risk, credit risk and fair value risk.

Interest Rate Risk

Interest rate risk is highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations, and other factors beyond our control. Changes in interest rates affect both the fair value of, and interest income we earn from, our mortgage-related investments and our derivative financial instruments. This effect is most pronounced with fixed-rate mortgage assets. In general, rising interest rates negatively affect the fair value of our IRLCs, inventory of mortgage loans held for sale and ESS financing and positively affect the fair value of our MSRs.

Our operating results will depend, in part, on differences between the income from our investments and our financing costs. Presently our debt financing is based on a floating rate of interest calculated on a fixed spread over the relevant index, as determined by the particular financing arrangement.

We engage in interest rate risk management activities in an effort to mitigate the effect of changes in interest rates on the fair value of our assets. To manage this price risk resulting from interest rate risk, we use derivative financial instruments acquired with the intention of moderating the risk that changes in market interest rates will result in unfavorable changes in the fair value of our IRLCs, inventory of mortgage loans held for sale and MSRs. We do not use derivative financial instruments other than IRLCs for purposes other than in support of our risk management activities.

Prepayment Risk

To the extent that the actual prepayment rate on the mortgage loans underlying our MSRs differs from what we projected when we initially recognized the MSRs, MSLs, and ESS financing and when we measured fair value as of the end of each reporting period, the carrying value of our investment in MSRs will be affected. In general, a decrease in the principal balances of the mortgage loans underlying our MSRs or an increase in prepayment expectations will decrease our estimates of the fair value of the MSRs, thereby reducing net servicing income, partially offset by the beneficial effect on net servicing income of a corresponding reduction in the fair value of our MSLs and ESS.

Credit Risk

We are subject to credit risk in connection with our mortgage loan sales activities. Our mortgage loan sales are generally made with contractual representations and warranties, which, if breached, can require us to repurchase the mortgage loan or reimburse the investor for any losses incurred due to such breach. These breaches are generally evidenced when the borrower defaults on a mortgage loan.

The amount of our liability for losses due to representations and warranties to the mortgage loans' investors is not limited. However, we believe that the current UPB of mortgage loans sold by us to date represents the maximum exposure to repurchases related to representations and warranties. We include a provision for potential losses due to the representations and warranties we make as part of our recognition of mortgage loan sales, based initially on our estimate of the fair value of such obligation. We review our loss experience relating to representations and warranties and adjust our liability estimate when necessary.

In the event of developments affecting the credit performance of mortgage loans we have sold subject to representations and warranties, such as a significant increase in unemployment or a significant deterioration in real estate values in markets where properties securing mortgage loans we produce are located, defaults could increase and result in credit losses arising from claims under our representations and warranties, which could materially and adversely affect our business, financial condition and results of operations.

Fair Value Risk

Our IRLCs, mortgage loans held for sale, our MSRs, MSLs and ESS financing are reported at their estimated fair values. The fair value of these assets fluctuates primarily due to changes in interest rates.

The following sensitivity analyses are limited in that they were performed at a particular point in time; only contemplate the movements in the indicated variables; do not incorporate changes to other variables; are subject to the accuracy of various models and assumptions used; and do not incorporate other factors that would affect our overall financial performance in such scenarios, including operational adjustments made by management to account for changing circumstances. For these reasons, the following estimates should not be viewed as earnings forecasts.

Mortgage Servicing Rights

The following tables summarize the estimated change in fair value of MSRs as of December 31, 2019, given several shifts in pricing spreads, prepayment speed and annual per loan cost of servicing:

Pricing spread shift in %	-20%	-10%	-5%	+5%	+10%	+20%			
	(dollar amounts in thousands)

Item 8. Financial Statements and Supplementary Data

The information called for by this Item 8 is hereby incorporated by reference from our Financial Statements and Auditors' Report in Part IV of this Report.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. However, no matter how well a control system is designed and operated, it can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in our periodic reports.

Our management has conducted an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Report as required by paragraph (b) of Rule 13a-15 under the Exchange Act. Based on our evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this Report, to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Exchange Act Rule 13a-15(f). Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Management assessed the effectiveness of its internal control over financial reporting based on the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control—Integrated Framework (2013)*. Based on those criteria, management concluded that our internal control over financial reporting was effective as of December 31, 2019.

The effectiveness of our internal control over financial reporting as of December 31, 2019 has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report which appears herein.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of PennyMac Financial Services, Inc. 3043 Townsgate Road Westlake Village, CA 91361

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of PennyMac Financial Services, Inc. and subsidiaries ("the Company") as of December 31, 2019, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2019, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended December 31, 2019, of the Company and our report dated February 28, 2020, expressed an unqualified opinion on those financial statements and included explanatory paragraphs regarding the Company's election in 2018 to prospectively change its method of accounting for the classes of mortgage servicing rights it had accounted for using the amortization method and the Company's change in method of accounting for leases in 2019 due to adoption of Accounting Standards Update 2016-2, *Leases (Topic 842)*.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

/s/ DELOITTE & TOUCHE LLP

Los Angeles, California February 28, 2020

Changes in Internal Control over Financial Reporting

In the ordinary course of business, we review our system of internal control over financial reporting and make changes that we believe will improve the efficiency and effectiveness of controls, ensure sufficient precision of controls, and appropriately mitigate the risk of material misstatement in the financial statements.

Management has evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, whether any changes in our internal control over financial reporting that occurred during our last fiscal quarter have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Below we describe changes in our internal control over financial reporting since June 30, 2019 that management believes have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

During the quarter ended September 30, 2019, we substantially completed the implementation of an internally developed loan servicing system. In connection with this implementation and related business process changes, we updated the design of multiple internal controls over financial reporting that were previously considered effective to reflect the design of the loan servicing system and associated data sources, and implemented controls to replace controls previously addressed by certain service organization SOC 1 Reports (System and Organization Controls Reports). We adopted this system and the related processes and controls during the quarter ended September 30, 2019. Therefore, the use of this system was included in the preparation of our financial statements for the year ended December 31, 2019. We continue to monitor and test these controls for adequate design and operating effectiveness.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this Item 10 is hereby incorporated by reference from our definitive proxy statement, or will be contained in an amendment to this Report, in either case to be filed by April 29, 2020, which is within 120 days after the end of fiscal year 2019.

Item 11. Executive Compensation

The information required by this Item 11 is hereby incorporated by reference from our definitive proxy statement, or will be contained in an amendment to this Report, in either case to be filed by April 29, 2020, which is within 120 days after the end of fiscal year 2019.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Equity Compensation Plan Information

We have adopted an equity incentive plan, the 2013 Equity Incentive Plan, which provides for the grant of incentive stock option and nonstatutory stock options, stock appreciation rights, restricted stock and stock unit awards, performance units, stock grants and qualified performance-based awards, which we collectively refer to as "awards." Directors, officers and other employees of our Company and our subsidiaries, as well as others performing consulting or advisory services for us, are eligible for grants under the 2013 Equity Incentive Plan. The plan administrator of the equity incentive plan is the compensation committee of the board of directors. The board of directors itself may also exercise any of the powers and responsibilities under the 2013 Equity Incentive Plan. Subject to the terms of the 2013 Equity Incentive Plan, the plan administrator will select the recipients of awards and determine, among other things, the:

- number of shares of common stock covered by the awards and the dates upon which such awards become exercisable or any restrictions lapse, as applicable;
- type of award and the exercise or purchase price and method of payment for each such award;
- performance measures, if applicable, required to be satisfied prior to vesting;
- vesting period for awards, risks of forfeiture and any potential acceleration of vesting or lapses in risks of forfeiture; and
- duration of awards.

The following table provides information as of December 31, 2019 concerning our shares of common stock authorized for issuance under our equity incentive plan.

	(a)	(b)	(c)
Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted average exercise price of outstanding options, warrants and rights (1)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (2)
Equity compensation plans approved by			
security holders (3)	6,147,999	\$ 18.40	4,223,430
Equity compensation plans not approved by security holders (4)		_	
Total	6,147,999	\$ 18.40	4,223,430

⁽¹⁾ The weighted average exercise price set forth in this column relates only to 3,699,164 shares of stock options outstanding under our 2013 Equity Incentive Plan. The remaining securities included in column (a) of this table are performance and time-based restricted stock units, for which no exercise price applies.

- (2) This number includes a general pool of 4,223,430 shares of common stock authorized for future awards (excluding securities reflected in column (a)). This general pool initially consisted of 3,906,433 shares of common stock authorized under the 2013 Equity Incentive Plan for future awards, and has been, and will continue to be, increased pursuant to the terms of the 2013 Equity Incentive Plan on January 1st of each calendar year by an amount equal to the lesser of (i) 1.75% of our outstanding common stock on a fully diluted basis as of the end of our immediately preceding fiscal year, (ii) 1,322,024 shares, and (iii) any lower amount determined by our board of directors. The annual increase to this general pool on January 1, 2019 pursuant to the foregoing formula was 1,322,024.
- (3) Represents our 2013 Equity Incentive Plan.
- (4) We do not have any equity plans that have not been approved by our stockholders.

The other information required by this Item 12 is hereby incorporated by reference from our definitive proxy statement, or will be contained in an amendment to this Report, in either case to be filed by April 29, 2020, which is within 120 days after the end of fiscal year 2019.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this Item 13 is hereby incorporated by reference from our definitive proxy statement, or will be contained in an amendment to this Report, in either case to be filed by April 29, 2020, which is within 120 days after the end of fiscal year 2019.

Item 14. Principal Accounting Fees and Services

The information required by this Item 14 is hereby incorporated by reference from our definitive proxy statement, or will be contained in an amendment to this Report, in either case to be filed April 29, 2020, which is within 120 days after the end of fiscal year 2019.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of PennyMac Financial Services, Inc. 3043 Townsgate Road Westlake Village, CA 91361

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of PennyMac Financial Services, Inc. and subsidiaries (the "Company") as of December 31, 2019 and 2018, the related consolidated statements of income, changes in stockholders' equity, and cash flows, for each of the three years in the period ended December 31, 2019, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2019 and 2018, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2019, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2019, based on criteria established in *Internal Control* — *Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 28, 2020, expressed an unqualified opinion on the Company's internal control over financial reporting.

Change in Accounting Principles

As discussed in Note 3 to the financial statements, during 2018 the Company elected to prospectively change its method of accounting for the classes of mortgage servicing rights ("MSRs") it had accounted for using the amortization method.

As discussed in Note 3 to the financial statements, the Company has changed its method of accounting for leases in 2019 due to adoption of Accounting Standards Update 2016-2, *Leases (Topic 842)* using the modified retrospective approach.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current-period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Mortgage Servicing Rights - Refer to Notes 3, 6 and 9 to the Financial Statements

Critical Audit Matter Description

The Company accounts for MSRs at fair value and categorizes its MSRs as "Level 3" fair value assets. The Company uses a discounted cash flow approach to estimate the fair value of MSRs. The key inputs used in the estimation of the fair value of MSRs include the applicable pricing spread (a component of the discount rate), the prepayment and default rates of the underlying loans ("prepayment speed") and the annual per-loan cost of servicing, all of which are unobservable. Significant changes to any of those inputs in isolation could result in a significant change in the MSRs' fair value measurement.

We identified the pricing spread and prepayment speed assumptions used in the valuation of MSRs as a critical audit matter because of the significant judgments made by management in determining these assumptions. Auditing these assumptions required a high degree of auditor judgment and an increased extent of effort, including the need to involve our fair value specialists, to evaluate the reasonableness of management's estimates and assumptions related to selection of the pricing spread and prepayment speed.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to the pricing spread and prepayment speed assumptions used by the Company to estimate the fair value of MSRs included the following, among others:

- We tested the design and operating effectiveness of internal controls over determining the fair value of MSRs, including those over the determination of the pricing spread and prepayment speed assumptions
- With the assistance of our fair value specialists, we evaluated the reasonableness of management's prepayment speed assumptions by comparing them to independent market information
- We evaluated the reasonableness of management's prepayment speed assumptions of the underlying mortgage loans, by comparing historical prepayment speed assumptions to actual results
- We tested management's process for determining the pricing spread assumptions by comparing them to the implied spreads within market transactions and other third-party information used by management

/s/ DELOITTE & TOUCHE LLP

Los Angeles, California February 28, 2020

We have served as the Company's auditor since 2008.

PENNYMAC FINANCIAL SERVICES, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1—Organization

PennyMac Financial Services, Inc. (formerly known as New PennyMac Financial Services, Inc.) ("PFSI" or the "Company") is a holding corporation and its primary assets are direct and indirect equity interests in Private National Mortgage Acceptance Company, LLC ("PennyMac"). The Company is the managing member of PennyMac, and it operates and controls all of the businesses and consolidates the financial results of PennyMac and its subsidiaries.

PennyMac is a Delaware limited liability company which, through its subsidiaries, engages in mortgage banking and investment management activities. PennyMac's mortgage banking activities consist of residential mortgage loan production and loan servicing. PennyMac's investment management activities and a portion of its loan servicing activities are conducted on behalf of entities that invest in residential mortgage loans and related assets. PennyMac's primary wholly owned subsidiaries are:

PennyMac Loan Services, LLC ("PLS")—a Delaware limited liability company that services portfolios of
residential mortgage loans on behalf of non-affiliates and PennyMac Mortgage Investment Trust ("PMT"),
a publicly held real estate investment trust, purchases, originates and sells new prime credit quality
residential mortgage loans and engages in other mortgage banking activities for its own account and the
account of PMT.

PLS is approved as a seller/servicer of mortgage loans by the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac") and as an issuer of securities guaranteed by the Government National Mortgage Association ("Ginnie Mae"). PLS is a licensed Federal Housing Administration Nonsupervised Title II Lender with the U.S. Department of Housing and Urban Development ("HUD") and a lender/servicer with the Veterans Administration ("VA") and U.S. Department of Agriculture ("USDA") (each an "Agency" and collectively the "Agencies").

• PNMAC Capital Management, LLC ("PCM")—a Delaware limited liability company registered with the Securities and Exchange Commission ("SEC") as an investment adviser under the Investment Advisers Act of 1940, as amended. PCM enters into investment management agreements with entities that invest in residential mortgage loans and related assets.

Presently, PCM has a management agreement with PMT. Previously, PCM had management agreements with PNMAC Mortgage Opportunity Fund, LLC and PNMAC Mortgage Opportunity Fund, L.P., an affiliate of these registered funds, and PNMAC Mortgage Opportunity Fund Investors, LLC (collectively, the "Investment Funds"). Together, PMT and the Investment Funds are referred to as the "Advised Entities". The Investment Funds were dissolved during 2018.

On November 1, 2018, PNMAC Holdings, Inc. (formerly known as PennyMac Financial Services, Inc.) ("PNMAC Holdings" or "Old PFSI") completed a corporate reorganization (the "Reorganization") by which it changed its equity structure to create a single class of common stock held by all stockholders at a new top-level publicly traded parent holding corporation, as opposed to the two classes of common stock, Class A and Class B, that were in place at Old PFSI before the Reorganization. As part of the Reorganization, the Company replaced Old PFSI as the top-level parent holding corporation of the consolidated PennyMac business and changed its name from New PennyMac Financial Services, Inc. ("New PFSI").

As the result of the reorganization:

- Each outstanding share of Class A common stock of Old PFSI was converted on a one-for-one basis into shares of New PFSI common stock.
- Each outstanding share of Class B common stock of Old PFSI was cancelled for no consideration.

- Each Class A unit of PennyMac not held by Old PFSI was contributed to New PFSI and exchanged on a
 one-for-one basis for shares of New PFSI common stock.
- New PFSI replaced Old PFSI as the publicly-held entity and, through its subsidiaries, conducts all of the operations previously conducted by Old PFSI.
- Old PFSI changed its name to PNMAC Holdings, Inc. and New PFSI changed its name to PennyMac Financial Services, Inc.
- New PFSI assumed Old PFSI's existing equity incentive plan—including all performance share awards, restricted share awards, common stock options and other incentive awards covering shares of Old PFSI's Class A common stock, whether vested or not vested, that were outstanding at the effective time of the Reorganization.

New PFSI reserved the same number of shares of its common stock as was reserved by Old PFSI before the effective time of the Reorganization, and the terms and conditions that were in effect immediately before the Reorganization under each outstanding incentive award assumed by New PFSI continue in full force and effect after the Reorganization, except that the shares of Class A common stock reserved under Old PFSI's plans and issuable under each such award will be replaced by shares of common stock of New PFSI.

- The Reorganization was treated as an integrated transaction that qualifies as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code and/or a transfer described in Section 351(a) of the Internal Revenue Code.
- After the completion of the Reorganization, PNMAC Holdings became a consolidated subsidiary of the Company and is considered the predecessor of the Company for accounting purposes. Accordingly, PNMAC Holdings' historical consolidated financial statements are the Company's historical financial statements.

Note 2—Concentration of Risk

A substantial portion of the Company's activities relate to the Advised Entities. Revenues generated from these entities (generally comprised of gains on mortgage loans held for sale, loan origination fees, fulfillment fees, loan servicing fees, management fees, carried interest, less net interest paid to these entities) totaled 31%, 21%, and 20% of total net revenues for the years ended December 31, 2019, 2018 and 2017, respectively.

Note 3—Significant Accounting Policies and Recently Issued Accounting Pronouncement

A description of the Company's significant accounting policies applied in the preparation of these consolidated financial statements follows.

Basis of Presentation

The Company's consolidated financial statements have been prepared in compliance with accounting principles generally accepted in the United States ("GAAP") as codified in the Financial Accounting Standards Board's ("FASB") *Accounting Standards Codification* (the "ASC" or the "Codification").

Principles of Consolidation

The consolidated financial statements include the accounts of PFSI and its wholly-owned subsidiaries, including PennyMac. Intercompany accounts and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make judgments and estimates that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results will likely differ from those estimates.

Cash Flows

For the purpose of presentation in the statement of cash flows, the Company has identified tenant security deposits relating to rental properties owned by PMT and managed by the Company as restricted cash. Tenant security deposits are included in *Other* assets on the Company's consolidated balance sheets.

Fair Value

Most of the Company's assets and certain of its liabilities are measured at or based on their fair values. The Company groups its assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the observability of the inputs used to determine fair value. These levels are:

- Level 1—Quoted prices in active markets for identical assets or liabilities.
- Level 2—Prices determined or determinable using other significant observable inputs. Observable inputs are inputs that other market participants would use in pricing an asset or liability and are developed based on market data obtained from sources independent of the Company.
- Level 3— Prices determined using significant unobservable inputs. In situations where observable inputs are unavailable, unobservable inputs may be used. Unobservable inputs reflect the Company's own judgments about the factors that market participants use in pricing an asset or liability, and are based on the best information available in the circumstances.

As a result of the difficulty in observing certain significant valuation inputs affecting "Level 3" fair value assets and liabilities, the Company is required to make judgments regarding these items' fair values. Different persons in possession of the same facts may reasonably arrive at different conclusions as to the inputs to be applied in valuing these assets and liabilities and their fair values. Such differences may result in significantly different fair value measurements. Likewise, due to the general illiquidity of some of these assets and liabilities, subsequent transactions may be at values significantly different from those reported.

Short-Term Investments

Short-term investments, which represent investments in accounts with depository institutions, are carried at fair value. Changes in fair value are recognized in current period income. The Company classifies its short-term investments as "Level 1" fair value assets.

Loans Held for Sale at Fair Value

Management has elected to account for loans held for sale at fair value, with changes in fair value recognized in current period income, to more timely reflect the Company's performance. All changes in fair value are recognized as a component of *Net gains on loans held for sale at fair value*. The Company classifies most of the loans held for sale at fair value as "Level 2" fair value assets. Certain of the Company's loans held for sale may not be saleable into active markets due to identified defects or delinquency. Such loans are classified as "Level 3" fair value assets.

Sale Recognition

The Company recognizes transfers of loans as sales when it surrenders control over the loans. Control over transferred loans is deemed to be surrendered when (i) the loans have been isolated from the Company, (ii) the transferee has the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred loans, and (iii) the Company does not maintain effective control over the transferred loans through either (a) an agreement that entitles and obligates the Company to repurchase or redeem them before their maturity or (b) the ability to unilaterally cause the holder to return specific loans.

Interest Income Recognition

Interest income on loans held for sale at fair value is recognized over the life of the loans using their contractual interest rates. Income recognition is suspended and the interest receivable is reversed against interest income when loans become 90 days delinquent, or when, in management's opinion, a full recovery of interest and principal becomes doubtful. Income recognition is resumed when the loan becomes contractually current.

Derivative Financial Instruments

The Company holds and issues derivative financial instruments that are created as a result of certain of its operations. The Company also enters into derivative transactions as part of its interest rate risk management activities.

Derivative financial instruments created as a result of the Company's operations include:

- Interest rate lock commitments ("IRLCs") that are created when the Company commits to purchase or originate a loan acquired for sale at specified interest rates.
- Derivatives that are embedded in a master repurchase agreement with a non-affiliate that provides for the Company to receive incentives for financing loans that satisfy certain consumer relief characteristics as provided in the master repurchase agreement.

The Company is exposed to price risk relative to:

- Its loans held for sale as well as to IRLCs. The Company bears price risk from the time a commitment to fund a loan is made to a borrower or to purchase a loan from PMT, to the time either the prospective transaction is cancelled or the loan is sold. During this period, the Company is exposed to losses if market interest rates increase, because the fair value of the purchase commitment or prospective loan decreases.
- The fair value of its mortgage servicing rights ("MSRs") when interest rates decrease. MSRs are generally subject to reduction in fair value when mortgage interest rates decrease. Decreasing mortgage interest rates normally encourage increased mortgage refinancing activity. Increased refinancing activity reduces the expected life of the mortgage loans underlying the MSRs, thereby reducing their fair value. Reductions in the fair value of MSRs affect earnings primarily through change in fair value and impairment charges.

The Company engages in interest rate risk management activities in an effort to moderate the effect of changes in market interest rates on the fair value of the Company's assets. To manage this fair value risk resulting from interest rate risk, the Company uses derivative financial instruments acquired with the intention of reducing the risk that changes in market interest rates will result in unfavorable changes in the fair value of the Company's IRLCs, inventory of loans held for sale and MSRs.

IRLCs are accounted for as derivative financial instruments. The Company manages the risk created by IRLCs relating to mortgage loans held for sale by entering into forward sale agreements to sell the mortgage loans and by the purchase and sale of options and futures on mortgage-backed securities ("MBS"). Such agreements are also accounted for as derivative financial instruments. These and other interest-rate derivatives are also used to manage the fair value risk created by changes in prepayment speeds on certain of the MSRs the Company holds.

The Company classifies its IRLCs as "Level 3" fair value assets and liabilities. Fair value of exchange-traded hedging derivative financial instruments that are actively traded on an exchange are categorized by the Company as "Level 1" fair value assets and liabilities. Fair value of hedging derivative financial instruments based on observable MBS prices or interest rate volatilities in the MBS market are categorized as "Level 2" fair value assets and liabilities.

The Company does not designate its derivative financial instruments for hedge accounting. Therefore, the Company accounts for its derivative financial instruments as free-standing derivatives. All derivative financial instruments are recognized on the consolidated balance sheet at fair value with changes in the fair values being reported in current period income. Changes in fair value of derivative financial instruments hedging IRLCs, loans held for sale at fair value and MSRs are included in *Net gains on loans held for sale at fair value* or in *Amortization, impairment, and change in fair value of mortgage servicing rights and mortgage servicing liabilities,* as applicable, in the Company's consolidated statements of income. Changes in fair value of derivative assets relating to a master repurchase agreement are included in *Interest expense*.

When the Company has multiple derivative financial instruments with the same counterparty subject to a master netting arrangement, it offsets the amounts recorded as assets and liabilities and amounts recognized for the right to reclaim cash collateral it has deposited with the counterparty or the obligation to return cash collateral it has collected from the counterparty arising from that master netting arrangement. Such offset amounts are presented as either a net asset or liability by counterparty on the Company's consolidated balance sheets.

Servicing Advances

Servicing advances represent advances made on behalf of borrowers and the mortgage loans' investors to fund property taxes, insurance premiums and out-of-pocket collection costs (e.g., preservation and restoration of mortgaged property or real estate acquired in the settlement of loans ("REO"), legal fees, and appraisals). Servicing advances are made in accordance with the Company's servicing agreements and, when made, are deemed recoverable. A valuation allowance is provided for amounts expected to become uncollectable. Servicing advances are written off when they are deemed uncollectable.

Mortgage Servicing Rights and Mortgage Servicing Liabilities

MSRs and MSLs arise from contractual agreements between the Company and investors (or their agents) in mortgage securities and mortgage loans. Under these contracts, the Company performs loan servicing functions in exchange for fees and other remuneration. The servicing functions typically performed include, among other responsibilities, collecting and remitting loan payments; responding to borrower inquiries; accounting for principal and interest; holding custodial (impound) funds for payment of property taxes and insurance premiums; counseling delinquent mortgagors; and supervising the acquisition and disposition of REO.

The fair value of MSRs and MSLs is derived from the net positive or negative, respectively, cash flows associated with the servicing contracts. The Company receives a servicing fee, net of related guarantee fees based on the remaining outstanding principal balances of the mortgage loans subject to the servicing contracts. The servicing fees are collected from the monthly payments made by the mortgagors.

The Company is contractually entitled to receive other remuneration including various mortgagor-contracted fees such as late charges and collateral reconveyance charges, and the Company is generally entitled to retain the placement fees earned on funds held pending remittance related to its collection of mortgagor payments. The Company also generally has the right to solicit the mortgagors for other products and services as well as for new mortgages for those considering refinancing their existing loan or purchasing a new home.

The Company recognizes MSRs and MSLs initially at fair value, either as proceeds from or liabilities incurred in, sales of mortgage loans where the Company assumes the obligation to service the mortgage loan in the sale transaction, or from the purchase of MSRs or receipt of cash for acceptance of MSLs.

Through December 31, 2017, the Company's subsequent accounting for MSRs and MSLs was based on the class of MSR or MSL. The Company identified three classes of MSRs: originated MSRs backed by mortgage loans with initial interest rates of less than or equal to 4.5%, MSRs backed by mortgage loans with initial interest rates of more than 4.5%, and purchased MSRs financed in part through the transfer of the right to receive excess servicing spread ("ESS") cash flows.

- Originated MSRs backed by mortgage loans with initial interest rates of less than or equal to 4.5% were accounted for using the amortization method (discussed below).
- Originated MSRs backed by loans with initial interest rates of more than 4.5% and purchased MSRs financed in part by ESS were accounted for at fair value with changes in fair value recorded in current period income.
- MSLs were and continue to be carried at fair value with changes in fair value recorded in current period income.

Effective January 1, 2018, the Company elected to change the accounting for MSRs it had accounted for using the amortization method through December 31, 2017, to the fair value method as allowed in the *Transfers and Servicing* topic of the FASB's ASC. The Company determined that a single accounting treatment across all currently existing classes of MSRs is consistent with lender valuation under its financing arrangements and simplifies that Company's hedging activities. As a result of this change, the Company recorded an adjustment to increase its investment in MSRs by \$848,000, increase its liability for income taxes payable by \$72,000 and increase its stockholders' equity by \$776,000.

The fair value of MSRs and MSLs is difficult to determine because MSRs and MSLs are not actively traded in observable stand-alone markets. Considerable judgment is required to estimate the fair values of MSRs and MSLs and the exercise of such judgment can significantly affect the Company's income. Therefore, the Company classifies its MSRs and MSLs as "Level 3" fair value assets and liabilities.

MSRs and MSLs Accounted for at Fair Value

Changes in fair value of MSLs and MSRs accounted for at fair value are recognized in current period income in *Amortization, impairment and change in fair value of mortgage servicing rights and mortgage servicing liabilities* in the consolidated statements of income.

MSRs Accounted for Using the Amortization Method

Through December 2017, the Company amortized MSRs that were accounted for using the amortization method. MSR amortization was determined by applying the ratio of the net MSR cash flows projected for the current period to the estimated total remaining projected net MSR cash flows. The estimated total net MSR cash flows were determined at the beginning of each month using prepayment inputs applicable at that time.

MSRs accounted for using the amortization method were periodically evaluated for impairment. Impairment occurred when the current fair value of the MSRs decreased below the asset's amortized cost. If MSRs were impaired, the impairment was recognized in current-period income and the carrying value (carrying value is the MSR's amortized cost reduced by any related valuation allowance) of the MSRs was adjusted through a valuation allowance. If the fair value of impaired MSRs subsequently increased, the increase in fair value was recognized in current-period income. When an increase in fair value of MSR was recognized, the valuation allowance was adjusted to increase the carrying value of the MSRs only to the extent of the valuation allowance.

For impairment evaluation purposes, the Company stratified its MSRs by predominant risk characteristic when evaluating for impairment. For purposes of performing its MSR impairment evaluation, the Company stratified its servicing portfolio on the basis of certain risk characteristics including mortgage loan type (fixed-rate or adjustable-rate) and note interest rate. Fixed-rate mortgage loans were stratified into note rate pools of 50 basis points for note rates between 3.0% and 4.5% and a single pool for note rates of less than or equal to 3.0%. If the fair value of MSRs in any of the note interest rate pools was below the carrying value of the MSRs for that pool, impairment was recognized to the extent of the difference between the fair value and the carrying value of that pool.

Management periodically reviewed the various impairment strata to determine whether the fair value of the impaired MSRs in a given stratum was likely to recover. When management deemed recovery of the fair value to be unlikely in the foreseeable future, a write-down of the cost of the MSRs for that stratum to its estimated recoverable value was charged to the valuation allowance.

Both amortization and changes in the amount of the MSR valuation allowance were recorded in current period income in *Amortization, impairment and change in fair value of mortgage servicing rights and mortgage servicing liabilities* in the consolidated statements of income.

Leases

The Company determines if an arrangement is a lease at inception. Operating leases are included in *Operating lease right-of-use assets* and *Operating lease liabilities* in its consolidated balance sheet, except leases with initial terms less than or equal to 12 months. Lease expense is recognized on the straight-line basis over the lease term and is recorded in *Occupancy and equipment* in the consolidated statements of income.

The Company's lease agreements include both lease and non-lease components (such as common area maintenance), which are generally included in the lease and are accounted for together with the lease as a single lease component. As such, lease payments represent payments on both lease and non-lease components. At lease commencement, lease liabilities are recognized based on the present value of the remaining lease payments and discounted using the Company's incremental borrowing rate. Right-of-use assets initially equal the lease liability, adjusted for any lease payments made before lease commencement and for any lease incentives.

Furniture, Fixtures, Equipment and Building Improvements

Furniture, fixtures, equipment and building improvements are stated at historical cost less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the various classes of assets, which range from five to seven years for furniture and equipment and the lesser of the asset's estimated useful life or the remaining lease term for fixtures and building improvements.

Capitalized Software

The Company capitalizes certain consulting, payroll, and payroll-related costs related to the development of computer software for internal use. Once development is complete and the software is placed in service, the Company amortizes the capitalized costs over three to seven years using the straight-line method.

The Company also periodically assesses capitalized software for recoverability when events or changes in circumstances indicate that its carrying amount may not be recoverable. If the Company identifies an indicator of impairment, it assesses recoverability by comparing the carrying amount of the asset to the sum of the undiscounted cash flows expected to result from the use and the eventual disposal of the asset. An impairment loss is recognized when the carrying amount is not recoverable and is measured as the excess of carrying value over fair value.

Investment in PennyMac Mortgage Investment Trust at Fair Value

Common shares of beneficial interest in PMT are carried at their fair value with changes in fair value recognized in current period income. Fair value for purposes of the Company's holdings in PMT is based on the published closing price of the shares as of period end. The Company classifies its investment in common shares of PMT as a "Level 1" fair value asset.

Loans Eligible for Repurchase

The terms of the Ginnie Mae MBS program allow, but do not require, the Company to repurchase loans when the loan is at least three months delinquent when it is repurchased. As a result of this right, the Company recognizes the loans in *Loans eligible for repurchase* at their unpaid principal balances and records a corresponding liability in *Liability for loans eligible for repurchase* on its consolidated balance sheets.

Borrowings

The carrying values of borrowings other than ESS are based on the accrued cost of the agreements. The costs of creating the facilities underlying the agreements are included in the carrying value of the agreements and are amortized to *Interest expense* over the terms of the respective borrowing facilities:

- Debt issuance costs relating to revolving facilities, such as repurchase agreement and mortgage loan
 participation purchase and sale facilities are amortized on the straight line basis over the term of the
 facility;
- Debt issuance cost relating to non-revolving debts, such as the Company's Notes payable secured by
 mortgage servicing assets, are amortized over the contractual term of the non-revolving debt using the
 interest method;
- Debt issuance premiums recorded as the results of recognition of repurchase agreement derivatives are amortized to *Interest expense* over the contractual term of the repurchase agreement. Unamortized premiums relating to repurchase agreements repaid before the transaction's contractual maturity are credited to *Interest expense*.

Excess Servicing Spread Financing at Fair Value

The Company finances certain of its purchases of Agency MSRs through the sale to PMT of the right to receive the excess of the servicing fee rate over a specified rate of the underlying MSRs. This excess is referred to as the ESS. ESS is carried at its fair value. Changes in fair value of ESS are recognized in current period income in *Change in fair value of excess servicing spread payable to PennyMac Mortgage Investment Trust*.

Interest expense for ESS is accrued using the interest method based upon the expected cash flows from the ESS through the expected life of the underlying mortgage loans.

Liability for Losses Under Representations and Warranties

The Company's agreements with the Agencies and other investors include representations and warranties related to the loans the Company sells to the Agencies and other investors. The representations and warranties require adherence to Agency and other investor origination and underwriting guidelines, including but not limited to the validity of the lien securing the loan, property eligibility, borrower credit, income and asset requirements, and compliance with applicable federal, state and local law.

In the event of a breach of its representations and warranties, the Company may be required to either repurchase the loans with the identified defects or indemnify the investor or insurer. In such cases, the Company bears any subsequent credit loss on the loans. The Company's credit loss may be reduced by any recourse it may have to correspondent loan sellers that, in turn, had sold such mortgage loans to PMT and breached similar or other representations and warranties. In such event, the Company has the right to seek a recovery of related repurchase losses from that correspondent loan seller, through PMT.

As a result of providing representations and warranties to investors and insurers, the Company records a provision for losses relating to representations and warranties as part of its loan sale transactions. The method used to estimate the liability for representations and warranties is a function of the representations and warranties given and considers a combination of factors, including, but not limited to, estimated future defaults and loan repurchase rates, the estimated severity of loss in the event of default and the probability of reimbursement by the correspondent loan seller. The Company establishes a liability at the time loans are sold and periodically updates its liability estimate. The level of the liability for representations and warranties is reviewed and approved by the Company's management credit committee.

The level of the liability for representations and warranties is difficult to estimate and requires considerable management judgment. The level of loan repurchase losses is dependent on economic factors, investor repurchase demand or insurer claim denial strategies, and other external conditions that may change over the lives of the underlying loans. The Company's representations and warranties are generally not subject to stated limits of exposure. However, the Company believes that the current unpaid principal balance of loans sold to date represents the maximum exposure to repurchases related to representations and warranties.

Loan Servicing Fees

Loan servicing fees are received by the Company for servicing loans. Loan servicing activities include loan administration, collection, and default management, including the collection and remittance of loan payments; response to customer inquiries; accounting for principal and interest; holding custodial (impounded) funds for the payment of property taxes and insurance premiums; counseling delinquent mortgagors; and supervising foreclosures and REO property dispositions.

Loan servicing fee amounts are based upon fee schedules established by the applicable investor and depend on whether the Company is directly servicing loans, where it holds the MSRs, is subservicing MSRs or loans held by PMT or another third party or is subservicing distressed mortgage loans for the Advised Entities.

The Company's obligations under its loan servicing agreements are fulfilled as the Company services the loans. Fees are collected when the loan payments are received from the borrowers in the case of MSRs held by the Company or within 30 days of the applicable month-end from the Advised Entities.

Owned loan servicing fees are recorded net of Agency guarantee fees paid by the Company and are recognized when the loan payments are received from the borrowers. Loan servicing fees relating to loans serviced for the Advised Entities are recognized in the month in which the loans are serviced.

Fulfillment Fees

Fulfillment fees represent fees the Company collects for services it performs on behalf of PMT in connection with the acquisition, packaging and sale of loans. Fulfillment fee amounts are based upon a negotiated fee schedule and the unpaid principal balance of the loans purchased by PMT. The Company's obligation under the agreement is fulfilled when PMT completes the sale or securitization of a loan it purchases. Fulfillment fee revenue is recognized in the month the loan is purchased by PMT. Fulfillment fees are generally collected within 30 days of purchase by PMT.

Management fees

Management fees represent compensation to the Company for its management services provided to the Advised Entities. Management fees were earned based on the Investment Funds' net assets and are based on PMT's shareholders' equity amounts and profitability in excess of specified thresholds. Management fees are recognized as services are provided and are paid to the Company on a quarterly basis within 30 days of the end of the quarter.

Stock-Based Compensation

The Company establishes the cost of its share-based awards at the awards' fair values at the grant date of the awards. The Company estimates the fair value of time-based restricted stock units and performance-based restricted stock units awarded with reference to the fair value of its underlying common stock and expected forfeiture rates on the date of the award. The Company estimates the fair value of its stock option awards with reference to the expected price volatility of its shares of common stock and risk-free interest rate for the period that exercisable stock options are expected to be outstanding.

Compensation costs are fixed, except for performance-based restricted stock units, as of the award date. The cost of performance-based restricted stock units is adjusted in each reporting period after the grant for changes in expected performance attainment until the performance share units vest. The Company amortizes the cost of stock based awards to compensation expense over the vesting period using the graded vesting method. Expense relating to awards is included in *Compensation* expense in the consolidated statements of income.

Income Taxes

The Company is subject to federal and state income taxes. Income taxes are provided using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The effect on deferred taxes of a change in tax rates is recognized in income in the period in which the change occurs. A valuation allowance is established if, in management's judgment, it is not more likely than not that a deferred tax asset will be realized.

The Company recognizes tax benefits relating to its tax positions only if, in the opinion of management, it is more likely than not that the tax position will be sustained upon examination by the appropriate taxing authority. A tax position that meets this standard is recognized as the largest amount that is greater than 50% likely to be realized upon ultimate settlement with the appropriate taxing authority. The Company will classify any penalties and interest as a component of provision for income taxes.

As a result of the PennyMac recapitalization and reorganization in 2013, the Company expects to benefit from amortization and other tax deductions resulting from increases in the tax basis of PennyMac's assets from the exchange of PennyMac Class A units to the shares of the Company's common stock. Those deductions will be allocated to the Company and will be taken into account in reporting the Company's taxable income.

The Company assumed an agreement with certain of the former unitholders of PennyMac that provides for the

additional payment by the Company to exchanging unitholders of PennyMac equal to 85% of the amount of cash savings, if any, in U.S. federal, state and local income tax that PFSI realizes due to (i) increases in tax basis resulting from exchanges of the then existing unitholders and (ii) certain other tax benefits related to PFSI entering into the tax receivable agreement, including tax benefits attributable to payments under the tax receivable agreement. Although the Company's Reorganization in 2018 eliminated the potential for unitholders to exchange any additional units subject to this tax receivable agreement, the Company continues to be subject to the agreement and provide payment when applicable for units exchanged before the Reorganization.

Recently Issued Accounting Pronouncements

Effective January 1, 2019, the Company adopted FASB Accounting Standards Update 2016-02, *Leases (Topic 842)*, as amended ("ASU 2016-02"), using the modified retrospective approach. As the result of this adoption, the Company recorded a \$58.6 million right-of-use asset, a corresponding lease liability and reclassified \$20.7 million of deferred rent from accrued liabilities to the lease liability for a total lease liability of \$79.3 million. The Company did not adjust amounts reported in the prior comparative period. At the adoption date, ASU 2016-02 did not have any effect on the Company's consolidated statements of income, stockholder's equity or cash flows.

As part of its adoption of ASU 2016-02, the Company made the following accounting policy elections:

- to retain its existing classification of existing leases; and
- to exclude from its consolidated balance sheet leases with initial terms that are less than or equal to 12 months.

The Company determines if an arrangement is a lease at inception. Operating leases are included in *Operating lease right-of-use assets* and *Operating lease liabilities* in its consolidated balance sheet. Operating lease right-of-use assets represent the Company's right to use the underlying assets and operating lease liabilities represent its obligation to make the payments required by the leases.

As most of the Company's leases do not provide an implicit discount rate, the Company uses its incremental borrowing rate based on information available at the lease commencement date to determine the present value of its lease payment obligations. The operating lease right-of-use assets also reflect any lease payments made and are reduced by lease incentives. Lease expense is recognized on the straight-line basis over the lease term.

The Company has lease agreements that include both lease and non-lease components (such as common area maintenance), which are generally included in the lease and are accounted for together with the lease as a single lease component. Detailed lease disclosures are included in Note 10–*Leases*.

In June 2016, the FASB issued Accounting Standard Update No. 2016-13, *Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* ("ASU 2016-13"). ASU 2016-13, as amended, replaces the existing measurement of the allowance for credit losses that is based on incurred loss accounting model with an expected loss model, which requires the Company to use a forward-looking expected credit loss model for accounts receivable, loans and other financial instruments that measured at amortized cost basis. Most of the Company's financial assets are measured at their fair values and are therefore not subject to the requirements of ASU 2016-13.

ASU 2016-13 is effective January 1, 2020 for the Company. Adoption of ASU 2016-13 will be applied using a modified retrospective approach through a cumulative-effect adjustment to retained earnings as of the effective date. Because of the Company's current accounting, the adoption of ASU 2016-13 on January 1, 2020 is not expected to have a significant effect on the Company's allowance for credit losses on its assets subject to ASU 2016-13 due to the assets' relatively short-term lives.

Note 4—Transactions with Affiliates

Transactions with PMT

Operating Activities

Mortgage Loan Production Activities and MSR Recapture

The Company sells newly originated conforming balance non-government insured or guaranteed loans to PMT under a mortgage loan purchase agreement.

Pursuant to the terms of an MSR recapture agreement by and between the Company and PMT, which was amended and restated effective September 12, 2016, if the Company refinances mortgage loans for which PMT previously held the MSRs, the Company is generally required to transfer and convey to PMT cash in an amount equal to 30% of the fair market value of the MSRs related to all such mortgage loans. The MSR recapture agreement expires on September 12, 2020, subject to automatic renewal for additional 18-month periods, unless terminated earlier in accordance with the terms of the agreement.

Pursuant to a mortgage banking services agreement, which was amended and restated effective September 12, 2016, the Company provides PMT with certain mortgage banking services, including fulfillment and disposition-related services, for which it receives a fulfillment fee. Pursuant to the terms of the mortgage banking services agreement, the monthly fulfillment fee is an amount that shall equal (a) no greater than the product of (i) 0.35% and (ii) the aggregate initial unpaid principal balance (the "Initial UPB") of all mortgage loans purchased in such month, plus (b) in the case of all mortgage loans other than mortgage loans sold to or securitized through Fannie Mae or Freddie Mac, no greater than the product of (i) 0.50% and (ii) the aggregate Initial UPB of all such mortgage loans sold and securitized in such month; provided, however, that no fulfillment fee shall be due or payable to the Company with respect to any mortgage loans underwritten to the Ginnie Mae MBS Guide. PMT does not hold the Ginnie Mae approval required to issue Ginnie Mae MBS and act as a servicer. Accordingly, under the agreement, the Company currently purchases mortgage loans underwritten in accordance with the Ginnie Mae MBS Guide "as is" and without recourse of any kind from PMT at PMT's cost less an administrative fee plus accrued interest and a sourcing fee ranging from two to three and one-half basis points, generally based on the average number of calendar days the respective mortgage loans are held by PMT before being purchased by the Company. The Company purchases these mortgage loans "as is" and without recourse of any kind from PMT; however, where the Company has a claim for repurchase, indemnity or otherwise as against a correspondent seller, the Company is entitled, at its sole expense, to pursue any such claim through or in the name of PMT.

Following is a summary of loan production activities, including MSR recapture, between the Company and PMT:

	Year ended December 31,							
		2019		2019		2018		2017
			(i	in thousands)				
Net gains on loans held for sale at fair value:								
Net gains on loans held for sale to PMT	\$	190,416	\$	69,359	\$	28,238		
Mortgage servicing rights and excess servicing spread recapture								
incurred		(7,051)		(4,776)		(6,249)		
	\$	183,365	\$	64,583	\$	21,989		
Sale of loans held for sale to PMT	\$	6,255,915	\$	3,343,028	\$	904,097		
Tax service fees earned from PMT included in Loan origination fees	\$	14,695	\$	7,433	\$	7,078		
Fulfillment fee revenue	\$	160,610	\$	81,350	\$	80,359		
Unpaid principal balance of loans fulfilled for PMT subject to								
fulfillment fees	\$ 5	56,033,704	\$	26,194,303	\$ 2	22,971,119		
Sourcing fees paid to PMT	\$	14,381	\$	10,925	\$	12,084

Loan Servicing

The Company has a loan servicing agreement with PMT ("Servicing Agreement"). The Servicing Agreement provides for servicing fees of per-loan monthly amounts based on the delinquency, bankruptcy and/or foreclosure status of the serviced mortgage loan or REO. The Company also remains entitled to customary ancillary income and market-based fees and charges relating to mortgage loans it services for PMT. These include boarding and deboarding fees, liquidation and disposition fees, assumption, modification and origination fees and a percentage of late charges.

- The base servicing fee rates for distressed whole mortgage loans range from \$30 per month for current loans up to \$85 per month for loans where the borrower has declared bankruptcy. The base servicing fee rate for REO is \$75 per month.
- To the extent the Company facilitates rentals of PMT's REO under its REO rental program, the Company collects an REO rental fee of \$30 per month per REO, an REO property lease renewal fee of \$100 per lease renewal, and a property management fee in an amount equal to the Company's cost if property management services and/or any related software costs are outsourced to a third-party property management firm or 9% of gross rental income if the Company provides property management services directly. The Company is also entitled to retain any tenant paid application fees and late rent fees and seek reimbursement for certain third-party vendor fees.
- Except as otherwise provided in the MSR recapture agreement, when the Company effects a refinancing of
 a mortgage loan on behalf of PMT and not through a third-party lender and the resulting mortgage loan is
 readily saleable, or the Company originates a loan to facilitate the disposition of a REO, the Company is
 entitled to receive from PMT market-based fees and compensation consistent with pricing and terms the
 Company offers unaffiliated parties on a retail basis.

- Because PMT has a small number of employees and limited infrastructure, the Company is required to
 provide a range of services and activities significantly greater in scope than the services provided in
 connection with a customary servicing arrangement. For these services, the Company receives a
 supplemental servicing fee of \$25 per month for each distressed mortgage loan. The Company is entitled to
 reimbursement for all customary, good faith reasonable and necessary out-of-pocket expenses incurred by
 the Company in performance of its servicing obligations.
- During the period the U.S. Department of Treasury's Home Affordable Modification Plan ("HAMP") was in place, the Company was entitled to retain any incentive payments made to it and to which it was entitled under the plan provided, however, that with respect to any such incentive payments paid to the Company in connection with a mortgage loan modification for which PMT previously paid the Company a modification fee, the Company was required to reimburse PMT an amount equal to the incentive payments.
- The Company is entitled to certain activity-based fees for distressed whole mortgage loans that are charged based on the achievement of certain events. These fees range from \$750 for a streamline modification to \$1,750 for a full modification or liquidation and \$500 for a deed-in-lieu of foreclosure. The Company is not entitled to earn more than one liquidation fee, reperformance fee or modification fee per mortgage loan in any 18-month period.
- The base servicing fees for non-distressed mortgage loans are calculated through a monthly per-loan dollar amount, with the actual dollar amount for each loan based on whether the loan is a fixed-rate or adjustable-rate loan. The base servicing fee rates are \$7.50 per month for fixed-rate loans and \$8.50 per month for adjustable-rate loans.

The Servicing Agreement expires on September 12, 2020, subject to automatic renewal for additional 18-month periods, unless terminated earlier in accordance with the terms of the agreement.

Following is a summary of loan servicing and property management fees earned from PMT:

	Year ended December 31,					,
	2019		2019 2018		2018	
			(in	thousands)		
Loan type serviced:						
Loans acquired for sale at fair value	\$	1,772	\$	1,037	\$	954
Loans at fair value		2,207		7,555		15,610
Mortgage servicing rights		44,818		33,453		26,500
	\$	48,797	\$	42,045	\$	43,064
Property management fees received from PMT included in Other income	\$	314	\$	442	\$	350

Investment Management Activities

The Company has a management agreement with PMT ("Management Agreement"), which was amended and restated effective September 12, 2016. Pursuant to the Management Agreement, the Company oversees PMT's business affairs in conformity with the investment policies that are approved and monitored by its board of trustees, for which it collects a base management fee and may collect a performance incentive fee. The Management Agreement provides that:

- The base management fee is calculated quarterly and is equal to the sum of (i) 1.5% per year of PMT's average shareholders' equity up to \$2 billion, (ii) 1.375% per year of PMT's average shareholders' equity in excess of \$2 billion and up to \$5 billion, and (iii) 1.25% per year of PMT's average shareholders' equity in excess of \$5 billion.
- The performance incentive fee is calculated quarterly at a defined annualized percentage of the amount by which PMT's "net income," on a rolling four-quarter basis and before deducting the incentive fee, exceeds certain levels of return on "equity."

The performance incentive fee is equal to the sum of: (a) 10% of the amount by which PMT's "net income" for the quarter exceeds (i) an 8% return on equity plus the "high watermark," up to (ii) a 12% return on PMT's equity; plus (b) 15% of the amount by which PMT's "net income" for the quarter exceeds (i) a 12% return on PMT's equity plus the "high watermark," up to (ii) a 16% return on PMT's equity; plus (c) 20% of the amount by which PMT's "net income" for the quarter exceeds a 16% return on equity plus the "high watermark."

For the purpose of determining the amount of the performance incentive fee:

"Net income" is defined as net income or loss attributable to PMT's common shares of beneficial interest computed in accordance with GAAP adjusted for certain other non-cash charges determined after discussions between the Company and PMT's independent trustees and approval by a majority of PMT's independent trustees.

"Equity" is the weighted average of the issue price per common share of all of PMT's public offerings, multiplied by the weighted average number of common shares outstanding (including restricted share units) in the rolling four-quarter period.

The "high watermark" is the quarterly adjustment that reflects the amount by which the "net income" (stated as a percentage of return on equity) in that quarter exceeds or falls short of the lesser of 8% and the average Fannie Mae 30-year MBS yield (the "Target Yield") for the four quarters then ended. If the "net income" is lower than the Target Yield, the high watermark is increased by the difference. If the "net income" is higher than the Target Yield, the high watermark is reduced by the difference. Each time a performance incentive fee is earned, the high watermark returns to zero. As a result, the threshold amounts required for the Company to earn a performance incentive fee are adjusted cumulatively based on the performance of PMT's "net income" over (or under) the Target Yield, until the "net income" in excess of the Target Yield exceeds the then-current cumulative high watermark amount, and a performance incentive fee is earned.

The base management fee and the performance incentive fee are both receivable quarterly in arrears. The performance incentive fee may be paid in cash or a combination of cash and PMT's common shares (subject to a limit of no more than 50% paid in common shares), at PMT's option.

The Management Agreement expires on September 12, 2020, subject to automatic renewal for additional 18-month periods, unless terminated earlier in accordance with the terms of the agreement. In the event of termination of the Management Agreement between PMT and the Company, the Company may be entitled to a termination fee in certain circumstances. The termination fee is equal to three times the sum of (a) the average annual base management fee, and (b) the average annual performance incentive fee earned by the Company, in each case during the 24-month period immediately preceding the date of termination.

Following is a summary of the base management and performance incentive fees earned from PMT:

		Year ended December 31,						
	2019	2019 2018			2017			
		— (iı	thousands)					
Base management	\$ 29,30	3 \$	23,033	\$	22,280			
Performance incentive	7,18	39	1,432		304			
	\$ 36,49	92 \$	24,465	\$	22,584			

Expense Reimbursement

Under the Management Agreement, PMT reimburses the Company for its organizational and operating expenses, including third-party expenses, incurred on PMT's behalf, it being understood that the Company and its affiliates shall allocate a portion of their personnel's time to provide certain legal, tax and investor relations services for the direct benefit of PMT. With respect to the allocation of the Company's and its affiliates' personnel compensation, the Company shall be reimbursed \$120,000 per fiscal quarter, such amount to be reviewed annually and not preclude reimbursement for any other services performed by the Company or its affiliates.

PMT is also required to pay its pro rata portion of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses of the Company and its affiliates required for PMT's and its subsidiaries' operations. These expenses are allocated based on the ratio of PMT's proportion of gross assets compared to all remaining gross assets managed by the Company as calculated at each fiscal quarter end.

The Company received reimbursements from PMT for expenses as follows:

	Year ended December 31,					,
	2019		2018			2017
			(in	thousands)		
Reimbursement of:						
Common overhead incurred by the Company (1)	\$	5,340	\$	4,640	\$	5,306
Compensation (1)		480		480		_
Expenses incurred on PMT's behalf, net		4,362		1,113		2,257
	\$	10,182	\$	6,233	\$	7,563
Payments and settlements during the year (2)	\$	177,116	\$	71,943	\$	64,945

- (1) The Company adopted Accounting Standards Update 2014-09 *Revenues from Contracts with Customers (Topic 606)* ("ASU 2014-09") using the modified retrospective method effective January 1, 2018. Adoption of ASU 2014-09 using the modified retrospective method required the Company to include those reimbursements from PMT in *Other* revenue starting January 1, 2018. Before adoption of ASU 2014-09, the Company included such reimbursements as offsets to the respective expense line items.
- (2) Payments and settlements include payments for the operating, investing and financing activities summarized in this note and netting settlements made pursuant to master netting agreements between the Company and PMT.

Conditional Reimbursement of Underwriting Fees

In connection with its initial public offering of common shares of beneficial interest on August 4, 2009 ("IPO"), PMT conditionally agreed to reimburse the Company up to \$2.9 million for underwriting fees paid to the IPO underwriters by the Company on PMT's behalf. In the event a termination fee is payable to the Company under the Management Agreement, and the Company has not received the full amount of the reimbursements and payments under the reimbursement agreement, such amount will be paid in full. On February 1, 2019, the term of the reimbursement agreement was extended to February 1, 2023. The Company received \$580,000, \$69,000 and \$30,000 in reimbursement from PMT during the years ended December 31, 2019, 2018, and 2017, respectively.

Investing Activities

Master Repurchase Agreement

On December 19, 2016, the Company, through PLS, entered into a master repurchase agreement with one of PMT's wholly-owned subsidiaries, PennyMac Holdings, LLC ("PMH") (the "PMH Repurchase Agreement"), pursuant to which PMH may borrow from the Company for the purpose of financing PMH's participation certificates representing beneficial ownership in ESS under the Spread Acquisition Agreement. PLS then re-pledges such participation certificates to PNMAC GMSR ISSUER TRUST (the "Issuer Trust") under a master repurchase agreement by and among PLS, the Issuer Trust and PennyMac, as guarantor (the "PC Repurchase Agreement"). The Issuer Trust was formed for the purpose of allowing PLS to finance MSRs and ESS relating to such MSRs (the "GNMA MSR Facility").

In connection with the GNMA MSR Facility, PLS pledges and/or sells to the Issuer Trust participation certificates representing beneficial interests in MSRs and ESS pursuant to the terms of the PC Repurchase Agreement. In return, the Issuer Trust (a) has issued to PLS, pursuant to the terms of an indenture, the Series 2016-MSRVF1 Variable Funding Note, dated December 19, 2016, known as the "PNMAC GMSR ISSUER TRUST MSR Collateralized Notes, Series 2016-MSRVF1" (the "VFN"), and (b) has issued and may, from time to time pursuant to the terms of any supplemental indenture, issue to institutional investors additional term notes ("Term Notes"), in each case secured on a pari passu basis by the participation certificates relating to the MSRs and ESS. The maximum principal balance of the VFN is \$1,000,000,000.

The principal amount paid by PLS for the participation certificates under the PMH Repurchase Agreement is based upon a percentage of the market value of the underlying ESS. Upon PMH's repurchase of the participation certificates, PMH is required to repay PLS the principal amount relating thereto plus accrued interest (at a rate reflective of the current market and consistent with the weighted average note rate of the VFN and any outstanding Term Notes) to the date of such repurchase. PLS is then required to repay the Issuer Trust the corresponding amount under the PC Repurchase Agreement.

The Company holds an investment in PMT in the form of 75,000 common shares of beneficial interest.

Following is a summary of investing activities between the Company and PMT:

Financing Activities

Spread Acquisition and MSR Servicing Agreements

On December 19, 2016, the Company amended and restated a master spread acquisition and MSR servicing agreement with PMT (the "Spread Acquisition Agreement"), pursuant to which the Company may sell to PMT, from time to time, the right to receive participation certificates representing beneficial ownership in ESS arising from Ginnie Mae MSRs acquired by the Company, in which case the Company generally would be required to service or subservice the related mortgage loans for Ginnie Mae. The primary purpose of the amendment and restatement was to facilitate the continued financing of the ESS owned by PMT in connection with the parties' participation in the GNMA MSR Facility.

To the extent the Company refinances any of the mortgage loans relating to the ESS it has acquired, the Spread Acquisition Agreement also contains recapture provisions requiring that the Company transfer to PMT, at no cost, the ESS relating to a certain percentage of the unpaid principal balance of the newly originated mortgage loans. However, under the Spread Acquisition Agreement, in any month where the transferred ESS relating to newly originated Ginnie Mae mortgage loans is not equivalent to at least 90% of the product of the excess servicing fee rate and the unpaid principal balance of the refinanced mortgage loans, the Company is also required to transfer additional ESS or cash in the amount of such shortfall. Similarly, in any month where the transferred ESS relating to modified Ginnie Mae mortgage loans is not equivalent to at least 90% of the product of the excess servicing fee rate and the unpaid principal balance of the modified mortgage loans, the Spread Acquisition Agreement contains provisions that require the Company to transfer additional ESS or cash in the amount of such shortfall. To the extent the fair market value of the aggregate ESS to be transferred for the applicable month is less than \$200,000, the Company may, at its option, pay cash to PMT in an amount equal to such fair market value in lieu of transferring such ESS.

Following is a summary of financing activities between the Company and PMT:

	Year ended December 31,				,	
		2019		2018		2017
			(in	thousands)

Other		2,611		3,898
	\$	73,280	\$	104,631

Exchanged Private National Mortgage Acceptance Company, LLC Unitholders

The Company has a tax receivable agreement with certain former owners of PennyMac that provides for the payment from time to time by the Company to PennyMac's exchanged unitholders of an amount equal to 85% of the amount of the net tax benefits, if any, that the Company is deemed to realize as a result of (i) increases in tax basis of PennyMac's assets resulting from exchanges of ownership interests in PennyMac and (ii) certain other tax benefits related to entering into the tax receivable agreement, including tax benefits attributable to payments under the tax receivable agreement.

The Reorganization eliminated the potential for unitholders to exchange any additional units subject to this tax receivable agreement. However, the Company continues to be subject to the agreement and will be required to make payments, to the extent any of the tax benefits specified above are deemed to be realized, under the tax receivable agreement to those certain prior owners of PennyMac who effected exchanges of ownership interests in PennyMac for the Company's common stock before the closing of the Reorganization in November 2018.

Following is a summary of activity in *Payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders under tax receivable agreement:*

	Year ended December 31,					31,
	2019		2019 2018		2018	
			(in	thousands)	
Activity during the year:						
Liability resulting from unit exchanges	\$	_	\$	3,652	\$	7,723
Payments under tax receivable agreement	\$	_	\$	_	\$	(6,726)
Repricing of liability (1)	\$	(379)	\$	(1,126)	\$	(32,940)
Balance at end of year	\$	46,158	\$	46,537	\$	44,011

⁽¹⁾ A \$32.0 million reduction in the payable to exchanged PennyMac unitholders under the tax receivable agreement in 2017 was the result of the change in the federal corporate tax rate to 21% from the previous maximum of 35% under Tax Cuts and Jobs Act of 2017 ("the Tax Act").

Note 5—Loan Sales and Servicing Activities

The Company originates or purchases and sells mortgage loans in the secondary mortgage market without recourse for credit losses. However, the Company maintains continuing involvement with the loans in the form of servicing arrangements and the liability under representations and warranties it makes to purchasers and insurers of the loans.

The following table summarizes cash flows between the Company and transferees as a result of the sale of loans in transactions where the Company maintains continuing involvement as servicer with the loans as servicer:

	Y	Year ended December 31,								
	2019	2019 2018								
		(in thousands)								
Cash flows:										
Sales proceeds	\$ 61,214,102	\$ 44,557,560	\$ 50,235,245							
Servicing fees received (1)	\$ 587,919	\$ 488,483	\$ 376,160							
Net servicing advances	\$ 36,277	\$ 28,557	\$ 52,353							

⁽¹⁾ Net of guarantee fees paid to the Agencies

The following table summarizes unpaid principal balance (the "UPB") of the loans sold by the Company in which it maintains continuing involvement:

		December 31,

December 21 2010

Following is a summary of the geographical distribution of loans included in the Company's servicing portfolio for the top five and all other states as measured by UPB:

State	December 31, 2019	December 31, 2018
	(in the	usands)
California	\$ 57,311,867	\$ 51,377,441
Florida	28,940,696	22,650,926
Texas	27,909,821	23,648,042
Virginia	22,115,619	19,011,950
Maryland	16,829,320	13,774,011
All other states	215,576,909	168,831,502
	\$ 368,684,232	\$ 299,293,872

Note 6—Fair Value

Most of the Company's assets and certain of its liabilities are measured at or based on their fair values. The application of fair value may be on a recurring or nonrecurring basis depending on the accounting principles applicable to the specific asset or liability and whether the Company has elected to carry the item at its fair value as discussed in the following paragraphs.

⁽¹⁾ Certain of the loans for which the Company has purchased the MSRs are subserviced on the Company's behalf by other loan servicers on an interim basis when servicing of the loans has not yet been transferred to the Company's loan servicing platform.

⁽²⁾ Custodial funds include cash accounts holding funds on behalf of borrowers and investors relating to loans serviced under servicing agreements and are not recorded on the Company's consolidated balance sheets. The Company earns placement fees on certain of the custodial funds it manages on behalf of the loans' investors. Placement fees are included in *Interest income* in the Company's consolidated statements of income.

Fair Value Accounting Elections

The Company identified all of its MSRs, MSLs and all of its non-cash financial assets other than *Assets* purchased from PennyMac Mortgage Investment Trust under agreements to resell pledged to creditors, to be accounted for at fair value so changes in fair value will be reflected in income as they occur and more timely reflect the results of the Company's performance. The Company has also identified its ESS financing to be accounted for at fair value as a means of hedging the related MSRs' fair value risk.

Before January 1, 2018, originated MSRs backed by mortgage loans with initial interest rates of less than or equal to 4.5% were accounted for using the amortization method. Effective January 1, 2018, the Company elected to change the accounting for the classes of MSRs it had accounted for using the amortization method through December 31, 2017, to the fair value method as allowed in the *Transfers and Servicing* topic of the FASB's ASC. The Company determined that a single accounting treatment across all currently existing classes of MSRs is consistent with lender valuation under its financing arrangements and simplifies the Company's hedging activities.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Following is a summary of assets and liabilities that are measured at fair value on a recurring basis:

				Decembe	r 31,	2019		
		Level 1]	Level 2		Level 3		Total
				(in tho	usan	ds)		
Assets:								=
Short-term investments	\$	74,611	\$		\$		\$	74,611

The information used in the preceding roll forwards represents activity for any assets and liabilities measured at fair value on a recurring basis and identified as using "Level 3" significant fair value inputs at either the beginning or the end of the years presented. The Company had transfers among the fair value levels arising from transfers of IRLCs to loans held for sale at fair value upon purchase or funding of the respective loans and from the return to salability in the active secondary market of certain loans held for sale.

Assets and Liabilities Measured at Fair Value under the Fair Value Option

Net changes in fair values included in income for assets and liabilities carried at fair value as a result of the Company's election of the fair value option by income statement line item are summarized below:

							Year en	led	December 3	31,

Assets Measured at Fair Value on a Nonrecurring Basis

Following is a summary of assets that are measured at fair value on a nonrecurring basis:

Real estate acquired in settlement of loans	L	evel 1	I	Level 2	1	Level 3	Total		
			· ·	(in tho	usands)				
December 31, 2019	\$	_	\$	_	\$	9,850	\$	9,850	
December 31, 2018	\$	_	\$	_	\$	2,150	\$	2,150	

The following table summarizes the total net losses on assets measured at fair values on a nonrecurring basis:

	Year ended December 31,				,
	2019 2018				2017
			(in thousands))	_
Real estate acquired in settlement of loans	\$	(1,913)	\$ (75)	\$	(125)
Mortgage servicing rights at lower of amortized cost or fair value					(6,853)
	\$	(1,913)	\$ (75)	\$	(6,978)

Fair Value of Financial Instruments Carried at Amortized Cost

The Company's Assets purchased from PennyMac Mortgage Investment Trust under agreements to resell pledged to creditors, Assets sold under agreements to repurchase, Mortgage loan participation purchase and sale agreements, Notes payable secured by mortgage servicing assets and Obligations under capital lease are carried at amortized cost.

These assets and liabilities are classified as "Level 3" fair value items due to the Company's reliance on unobservable inputs to estimate their fair values. The Company has concluded that the fair values of these assets and liabilities other than the Term Notes included in *Notes payable secured by mortgage servicing assets* approximate their carrying values due to their short terms and/or variable interest rates.

The fair value of the Term Notes at December 31, 2019 was based on non-affiliate broker indications of fair value. The fair value of Term Notes at December 31, 2018 was estimated using a discounted cash flow approach using indications of market pricing spreads provided by non-affiliate brokers to develop an appropriate discount rate. The fair value and carrying value of the Term Notes are summarized below:

Term Notes	December 31, 2019 December 31, 2018
	(in thousands)
Fair value	\$ 1,303,047 \$ 1,285,894
Carrying value	\$ 1,294,070 \$ 1,292,291

Valuation Governance

Most of the Company's financial assets, and all of its MSRs, ESS, derivative liabilities and MSLs, are carried at fair value with changes in fair value recognized in current period income. Certain of the Company's financial assets and all of its MSRs, ESS and MSLs are "Level 3" fair value assets and liabilities which require use of unobservable inputs that are significant to the estimation of the items' fair values. Unobservable inputs reflect the Company's own judgments about the factors that market participants use in pricing an asset or liability, and are based on the best information available under the circumstances.

Due to the difficulty in estimating the fair values of "Level 3" fair value assets and liabilities, the Company has assigned the responsibility for estimating the fair value of these items to specialized staff and subjects the valuation process to significant senior management oversight. The Company's Financial Analysis and Valuation group (the "FAV group") is the Company's specialized staff responsible for estimating the fair values of "Level 3" fair value assets and liabilities other than IRLCs.

With respect to the non-IRLC "Level 3" valuations, the FAV group reports to the Company's senior management valuation committee, which oversees the valuations. The FAV group monitors the models used for valuation of the Company's "Level 3" fair value assets and liabilities, including the models' performance versus actual results, and reports those results to the Company's senior management valuation committee. During the years presented, the Company's senior management valuation committee included the Company's executive chairman, chief executive, chief financial, chief risk and deputy chief financial officers.

The FAV group is responsible for reporting to the Company's senior management valuation committee on the changes in the valuation of the non-IRLC "Level 3" fair value assets and liabilities, including major factors affecting the valuation and any changes in model methods and inputs. To assess the reasonableness of its valuations, the FAV group presents an analysis of the effect on the valuation of changes to the significant inputs to the models.

The Company has assigned responsibility for developing the fair values of IRLCs to its Capital Markets Risk Management staff. The fair values developed by the Capital Markets Risk Management staff are reviewed by the Company's Capital Markets Operations group.

Valuation Techniques and Inputs

Following is a description of the techniques and inputs used in estimating the fair values of "Level 2" and "Level 3" fair value assets and liabilities:

Loans Held for Sale

Most of the Company's loans held for sale at fair value are saleable into active markets and are therefore categorized as "Level 2" fair value assets. The fair values of "Level 2" fair value loans are determined using their quoted market or contracted selling price or market price equivalent.

Certain of the Company's loans held for sale are not saleable into active markets with observable inputs that are significant to the estimation of fair value and are therefore categorized as "Level 3" fair value assets. Loans held for sale categorized as "Level 3" fair value assets include:

- Certain delinquent government guaranteed or insured loans purchased by the Company from Ginnie Mae guaranteed pools in its loan servicing portfolio. The Company's right to purchase delinquent government guaranteed or insured loans arises as the result of the loan being at least three months delinquent on the date of repurchase by the Company and provides an alternative to its obligation to continue advancing principal and interest at the coupon rate of the related Ginnie Mae security. Such repurchased loans may be resold to investors and thereafter may be repurchased to the extent eligible for resale into a new Ginnie Mae guaranteed pool. Such eligibility for resale generally occurs when the repurchased loans become current either through the borrower's reperformance or through completion of a modification of the loan's terms.
- Certain of PFSI's loans held for sale that become non-saleable into active markets due to identification of a
 defect or to the repurchase of a loan with an identified defect by the Company.
- Home equity lines of credit held for sale to PMT. At present, an active market with observable inputs that are significant to the estimation of fair value of home equity lines of credit does not exist.

The Company uses a discounted cash flow model to estimate the fair value of its "Level 3" fair value loans held for sale. The significant unobservable inputs used in the fair value measurement of the Company's "Level 3" fair value loans held for sale are discount rates, home price projections, voluntary prepayment/resale speeds and total prepayment speeds. Significant changes in any of those inputs in isolation could result in a significant change to the loans' fair value measurement. Increases in home price projections are generally accompanied by an increase in voluntary prepayment speeds.

Following is a quantitative summary of key "Level 3" fair value inputs used in the valuation of loans held for sale at fair value:

	December 31, 2019	December 31, 2018
Fair value (in thousands)	\$ 383,878	\$ 260,008
Key inputs (1):		
Discount rate:		
Range	3.0% - 9.2%	2.8% - 9.2%
Weighted average	3.0%	2.9%
Twelve-month projected housing price index change:		
Range	2.6% - 3.2%	2.2% - 5.0%
Weighted average	2.8%	3.5%
Voluntary prepayment/resale speed (2):		
Range	0.4% - 21.4%	0.1% - 21.8%
Weighted average	18.2%	20.1%
Total prepayment speed (3):		
Range	0.5% - 39.2%	0.1% - 40.5%
Weighted average	36.2%	37.7%

- (1) Weighted average inputs are based on fair value of loans.
- (2) Voluntary prepayment/resale speed is measured using Life Voluntary Conditional Prepayment Rate ("CPR").
- (3) Total prepayment speed is measured using Life Total CPR.

All changes in fair value relating to loans held for sale are the result of changes in the loan's instrument specific credit risk as indicated by successful modifications of the loan's terms or changes in the respective loan's delinquency status and performance history at year end from the later of the beginning of the year or acquisition date. Changes in fair value of loans held for sale are included in *Net gains on loans held for sale at fair value* in the Company's consolidated statements of income.

Derivative Financial Instruments

Interest Rate Lock Commitments

IRLCs are categorized as a "Level 3" fair value asset or liability. The Company estimates the fair value of an IRLC based on quoted Agency MBS prices, its estimate of the fair value of the MSRs it expects to receive in the sale of the loans and the probability that the loan will fund or be purchased (the "pull-through rate").

The significant unobservable inputs used in the fair value measurement of the Company's IRLCs are the pull-through rate and the MSR component of the Company's estimate of the fair value of the mortgage loans it has committed to purchase. Significant changes in the pull-through rate or the MSR component of the IRLCs, in isolation, could result in significant changes in the IRLCs' fair value measurement. The financial effects of changes in these inputs are generally inversely correlated as increasing interest rates have a positive effect on the fair value of the MSR component of IRLC fair value, but increase the pull-through rate for the loan principal and interest payment cash flow component, which has decreased in fair value. Changes in fair value of IRLCs are included in *Net gains on loans acquired for sale at fair value* in the consolidated statements of income.

Following is a quantitative summary of key unobservable inputs used in the valuation of IRLCs:

	Dece	ember 31, 2019	Dece	mber 31, 2018
Fair value (in thousands) (1)	\$	136,650	\$	49,338
Key inputs (2):				
Pull-through rate:				
Range	12	2.2% - 100%	16	.6% - 100%
Weighted average		86.5%		84.1%
Mortgage servicing rights value expressed as:				
Servicing fee multiple:				
Range		1.4 - 5.7		1.5 - 5.5
Weighted average		4.2		3.8
Percentage of unpaid principal balance:				
Range	0	0.3% - 2.8%	0.	.4% - 3.2%
Weighted average		1.6%		1.5%

⁽¹⁾ For purposes of this table, the IRLC assets and liability positions are shown net.

(2) Weighted average inputs are based on the committed amounts.

Hedging Derivatives

Fair value of hedging derivative financial instruments that are actively traded on exchanges are categorized by the Company as "Level 1" fair value assets and liabilities. Fair value of hedging derivative financial instruments based on observable MBS prices or interest rate volatilities in the MBS market are categorized as "Level 2" fair value assets and liabilities.

Changes in the fair value of hedging derivatives are included in *Net gains on loans acquired for sale at fair value*, or *Net loan servicing fees* – *Amortization, impairment and change in fair value of mortgage servicing rights and mortgage servicing liabilities*, as applicable, in the consolidated statements of income.

Repurchase Agreement Derivatives

Through August 21, 2019, the Company had a master repurchase agreement that included incentives for financing loans approved for satisfying certain consumer relief characteristics. These incentives are classified for financial reporting purposes as embedded derivatives and are separated for reporting purposes from the master repurchase agreement. The Company classifies repurchase agreement derivatives as "Level 3" fair value assets. The significant unobservable inputs into the valuation of repurchase agreement derivative assets are the discount rate and the Company's expected approval rate of the loans financed under the master repurchase agreement. The resulting ratios included in the Company's fair value estimate were 99.0% and 97.0% at December 31, 2019 and December 31, 2018, respectively.

Mortgage Servicing Rights

MSRs are categorized as "Level 3" fair value assets. The Company uses a discounted cash flow approach to estimate the fair value of MSRs. The key inputs used in the estimation of the fair value of MSRs include prepayment and default rates of the underlying mortgage loans, the applicable pricing spread (discount rate) and annual per-loan cost to service mortgage loans, all of which are unobservable. Significant changes to any of those inputs in isolation could result in a significant change in the MSR fair value measurement. Changes in these key inputs are not necessarily directly related. Recognized changes in the fair value of MSRs are included in *Net loan servicing fees—Amortization*, impairment and change in fair value of mortgage servicing rights and mortgage servicing liabilities in the consolidated statements of income.

Following are the key inputs, separated by the Company's basis of accounting for the respective asset, used in determining the fair value of MSRs at the time of initial recognition, excluding MSR purchases:

	Year ended December 31,					
	2019	2018	20	17		
	Fair value	Fair value	Fair value	Amortized cost		
	(Amount recognized and	unpaid principal balance of	of underlying mortgage loan	ns amounts in thousands)		
MSR and pool characteristics:	·	• •	, , ,			
Amount recognized	\$884,876	\$591,757	\$24,471	\$556,630		
Unpaid principal balance of underlying mortgage loans	\$56,038,354	\$42,008,585	\$2,316,539	\$44,664,551		
Weighted average servicing fee rate (in basis points)	41	36	31	31		
Key inputs (1):						
Pricing spread (2):						
Range	5.5% - 16.2%	5.8% - 16.4%	7.6% - 11.2%	7.6% - 15.2%		
Weighted average	8.5%	9.9%	10.5%	10.7%		
Prepayment speed (3):						
Range	7.7% - 32.8%	3.9% - 61.8%	3.9% - 71.8%	3.4% - 47.6%		
Weighted average	13.5%	10.8%	12.6%	9.1%		
Average life (in years):						
Range	2.6 - 8.2	0.5 - 11.6	0.8 - 11.7	1.5 - 12.2		
Weighted average	6.2	7.3	6.6	8.1		
Annual per-loan cost of servicing:						
Range	\$78 - \$100	\$78 – \$99	\$78 - \$101	\$79 - \$101		
Weighted average	\$97	\$91	\$89	\$89		

⁽¹⁾ Weighted average inputs are based on UPB of the underlying mortgage loans.

⁽²⁾ Pricing spread represents a margin that is applied to a reference interest rate's forward rate curve to develop periodic discount rates. The Company applies a pricing spread to the United States Dollar London Interbank Offered Rate ("LIBOR")/swap curve for purposes of discounting cash flows relating to MSRs.

⁽³⁾ Prepayment speed is measured using Life Total CPR. Equivalent average life is included for informational purposes.

Following is a quantitative summary of key inputs used in the valuation of the Company's MSRs and the effect on the fair value from adverse changes in those inputs:

	December 31, 2019 (Fair value, unpaid principa loans and effect on fair value	e amounts in thousands)
Fair value	\$ 2,926,790	\$ 2,820,612
Pool characteristics:		
Unpaid principal balance of underlying loans	\$ 225,787,103	\$ 201,054,144
Weighted average note interest rate	3.9%	4.0%
Weighted average servicing fee rate (in basis points)	35	33
Key inputs (1):		
Pricing spread (2):		
Range	6.8% - 15.8%	5.8% - 16.1%
Weighted average	8.5%	8.7%
Effect on fair value of:		
5% adverse change	(\$44,561)	(\$45,268)
10% adverse change	(\$87,734)	(\$89,073)
20% adverse change	(\$170,155)	(\$172,556)
Prepayment speed (3):		
Range	9.3% - 40.9%	8.4% - 32.6%
Weighted average	12.7%	9.9%
Average life (in years):		
Range	1.4 - 7.4	1.5 - 7.9
Weighted average	6.1	7.2
Effect on fair value of:		
5% adverse change	(\$63,569)	(\$47,687)
10% adverse change	(\$124,411)	(\$93,626)
20% adverse change	(\$238,549)	(\$180,623)
Annual per-loan cost of servicing:		
Range	\$77 - \$100	\$78 - \$99
Weighted average	\$97	\$93
Effect on fair value of:		
5% adverse change	(\$24,516)	(\$22,944)
10% adverse change	(\$49,032)	(\$45,888)
20% adverse change	(\$98,065)	(\$91,775)

⁽¹⁾ Weighted average inputs are based on UPB of the underlying mortgage loans.

⁽²⁾ The Company applies a pricing spread to the United States Dollar LIBOR/swap curve for purposes of discounting cash flows relating to MSRs.

⁽³⁾ Prepayment speed is measured using Life Total CPR. Equivalent average life is included for informational purposes.

The preceding sensitivity analyses are limited in that they were performed as of a particular date; only contemplate the movements in the indicated inputs; do not incorporate changes to other inputs; are subject to the accuracy of the models and inputs used; and do not incorporate other factors that would affect the Company's overall financial performance in such events, including operational adjustments made by management to account for changing circumstances. For these reasons, the preceding analysis should not be viewed as earnings forecasts.

Excess Servicing Spread Financing at Fair Value

ESS are categorized as a "Level 3" fair value liability. Because the ESS is a claim to a portion of the cash flows from MSRs, the fair value measurement of the ESS is similar to that of MSRs. The Company uses the same discounted cash flow approach to measuring the ESS as it uses to measure MSRs except that certain inputs relating to the cost to service the mortgage loans underlying the MSRs and certain ancillary income are not included as these cash flows do not accrue to the holder of the ESS.

The key inputs used in the estimation of ESS fair value include pricing spread (discount rate) and prepayment speed. Significant changes to either of those inputs in isolation could result in a significant change in the fair value of ESS. Changes in these key inputs are not necessarily directly related.

ESS is generally subject to fair value increases when mortgage interest rates increase. Increasing mortgage interest rates normally discourage mortgage refinancing activity. Decreased refinancing activity increases the life of the mortgage loans underlying the ESS, thereby increasing its fair value. Changes in the fair value of ESS are included in Net loan servicing fees—Change in fair value of excess servicing spread payable to PennyMac Mortgage Investment Trust.

Following are the key inputs used in determining the fair value of ESS financing:

	December 31, 2019	December 31, 2018
Fair value (in thousands)	\$ 178,586	\$ 216,110
Pool characteristics:		
Unpaid principal balance of underlying loans (in thousands)	\$ 19,904,571	\$ 23,196,033
Average servicing fee rate (in basis points)	34	34
Average excess servicing spread (in basis points)	19	19
Key inputs (1):		
Pricing spread (2):		
Range	3.0% - 3.3%	2.8% - 3.2%
Weighted average	3.1%	3.1%
Annualized prepayment speed (3):		
Range	8.7% - 16.2%	8.2% - 29.5%
Weighted average	11.0%	9.7%
Average life (in years):		
Range	2.7 - 7.2	1.6 - 7.6
Weighted average	6.1	6.8

⁽¹⁾ Weighted average inputs are based on UPB of the underlying mortgage loans.

⁽²⁾ The Company applies a pricing spread to the United States Dollar LIBOR/swap curve for purposes of discounting cash flows relating to ESS.

⁽³⁾ Prepayment speed is measured using Life Total CPR. Equivalent average life is included for informational purposes.

Mortgage Servicing Liabilities

MSLs are categorized as "Level 3" fair value liabilities. The Company uses a discounted cash flow approach to estimate the fair value of MSLs. This approach consists of projecting net servicing cash flows discounted at a rate that the Company believes market participants would use in their determinations of fair value. The key inputs used in the estimation of the fair value of MSLs include the applicable pricing spread (discount rate), the prepayment rates of the underlying mortgage loans, and the per-loan annual cost to service the respective mortgage loans. Changes in the fair value of MSLs are included in *Net servicing fees—Amortization, impairment and change in fair value of mortgage servicing rights and mortgage servicing liabilities* in the consolidated statements of income.

Following are the key inputs used in determining the fair value of MSLs:

	December 31,			31,
		2019		2018
Fair value (in thousands)	\$	29,140	\$	8,681
Pool characteristics:				
Unpaid principal balance of underlying loans (in thousands)	\$	2,758,454	\$	1,160,938
Servicing fee rate (in basis points)		25		25
Key inputs:				
Pricing spread (1)		8.2%		7.3%
Prepayment speed (2)		29.2%		32.2%
Average life (in years)		3.9		3.8
Annual per-loan cost of servicing	\$	300	\$	373

⁽¹⁾ The Company applies a pricing spread to the United States Dollar LIBOR/swap curve for purposes of discounting cash flows relating to MSLs.

(2) Prepayment speed is measured using Life Total CPR. Equivalent average life is included for informational purposes.

Note 7—Loans Held for Sale at Fair Value

Loans held for sale at fair value include the following:

Loan type	December 31, 2019	December 31, 2018
	(in tho	usands)
Government-insured or guaranteed	\$ 4,222,010	\$ 2,116,126
Conventional conforming	307,065	144,872
Jumbo	_	641
Home equity lines of credit	513	_
Purchased from Ginnie Mae pools serviced by the Company	374,121	250,585
Repurchased pursuant to representations and warranties	9,244	9,423
	\$ 4,912,953	\$ 2,521,647
Fair value of loans pledged to secure:		
Assets sold under agreements to repurchase	\$ 4,322,789	\$ 1,923,857
Mortgage loan participation purchase and sale agreements	523,349	555,001
	\$ 4,846,138	\$ 2,478,858

Note 8—Derivative Activities

Derivative Notional Amounts and Fair Value of Derivatives

Derivative Balances and Netting of Financial Instruments

The Company has elected to present net derivative asset and liability positions, and cash collateral obtained from (or posted to) its counterparties when subject to a master netting arrangement that is legally enforceable on all counterparties in the event of default. The derivatives that are not subject to a master netting arrangement are IRLCs and repurchase agreement derivatives.

Offsetting of Derivative Assets

Following are summaries of derivative assets and related netting amounts.

		December 31, 20	19	December 31, 2018

Derivative Liabilities, Financial Instruments, and Collateral Held by Counterparty

The following table summarizes by significant counterparty the amount of derivative liabilities and assets sold under agreements to repurchase after considering master netting arrangements and financial instruments or cash pledged that do not qualify under the accounting guidance for netting. All assets sold under agreements to repurchase are secured by sufficient collateral or have fair value that exceeds the liability amount recorded on the consolidated balance sheets.

Balance at end of year	\$	29,140	\$	8,681	\$	14,120

⁽¹⁾ Principally reflects changes in expected borrower performance and servicer losses given default.

⁽²⁾ Represents changes due to realization of cash flows.

Servicing fees relating to MSRs and MSLs are recorded in *Net loan servicing fees—Loan servicing fees—From non-affiliates* on the consolidated statements of income; late charges and other ancillary fees relating to MSRs and MSLs are recorded in *Net loan servicing fees—Loan servicing fees—Other* on the Company's consolidated statements of income. Such amounts are summarized below:

	Year ended December 31,					
	 2019	119 2018			2017	
	(in thousands)					
Contractual servicing fees	\$ 730,165	\$	585,101	\$	475,848	
Other fees:						
Late charges	43,350		27,940		25,097	
Other	14,258		6,276		4,603	
	\$ 787,773	\$	619,317	\$	505,548	

Note 10—Leases

Substantially all of the Company's lease agreements are operating leases and relate to its office facilities. The Company's operating lease agreements have remaining terms ranging from less than one year to ten years; some of these operating lease agreements include options to extend the term for up to five years. None of the Company's operating lease agreements require the Company to make variable lease payments.

		ear ended aber 31, 2019
	· · · · · · · · · · · · · · · · · · ·	in thousands)
Lease expense:		
Operating leases	\$	13,644

New leases		24,535
	\$	83,248
Period end:		
Weighted averages:		
Remaining lease term (in years)		7.1
Discount rate		4.3%

Lease expense during the years ended December 31, 2019, 2018 and 2017 was \$14.4 million, \$12.3 million and \$12.3 million, respectively.

The maturities of the Company's operating lease liabilities are summarized below:

Year ended December 31,	Operating leases
	(in thousands)
2020	\$ 17,102
2021	16,051
2022	13,791
2023	14,006
2024	11,673
Thereafter	35,178
Total lease payments	107,801
Less imputed interest	(16,481)
Total	\$ 91,320

As of December 31, 2019, the Company has one operating lease that has not yet commenced with an undiscounted minimum payment commitment totaling \$1.5 million. The lease is expected to commence in May 2020.

Note 11—Furniture, Fixtures, Equipment and Building Improvements

Furniture, fixtures, equipment and building improvements is summarized below:

	December 31,			
	 2019		2018	
	(in thousands)			
Furniture, fixtures, equipment and building improvements	\$ 57,012	\$	55,251	
Less: Accumulated depreciation and amortization	(26,532)		(21,877)	
	\$ 30,480	\$	33,374	
Fixed assets pledged to secure obligations under capital lease	\$ 20,406	\$	16,281	

Depreciation and amortization expenses are summarized below:

	Year ended December 31,		
	2019	2018	2017
	(in thousands)		
Depreciation and amortization expenses	\$ 9,018	\$ 9,500	\$ 8,150
Less: Depreciation and amortization allocated to PMT(1)	_	_	(1,396)
Depreciation and amortization expenses included in Occupancy and equipment	\$ 9,018	\$ 9,500	\$ 6,754

⁽¹⁾ The Company's management agreement with PMT provides for allocation by the Company of certain common overhead costs to PMT. The Company adopted ASU 2014-09, using the modified retrospective method effective January 1, 2018. Adoption of ASU 2014-09 required the Company to include those reimbursements from PMT of \$1.2 million and \$1.2 million in *Other* revenue for the years ended December 31, 2019 and 2018, respectively. Before adoption of ASU 2014-09, the Company included such reimbursements in the respective expense line items.

Note 12—Capitalized Software

Capitalized software is summarized below:

	Decer	December 31,			
	2019	2018			
	(in the	(in thousands)			
Cost	\$ 74,325	\$ 45,039			
Less: Accumulated amortization	(11,195)	(5,291)			
	\$ 63,130	\$ 39,748			
Capitalized software pledged to secure obligations under capital lease	\$ 12,192	\$ 1,017			

Software amortization expense totaled \$6.0 million, \$3.4 million and \$1.6 million for the years ended December 31, 2019, 2018 and 2017, respectively. The Company recorded \$827,000 of impairment of capitalized software during the year ended December 31, 2017. No such impairment was recorded for the years ended December 31, 2019 and 2018.

Note 13—Borrowings

The borrowing facilities described throughout this Note 13 contain various covenants, including financial covenants governing the Company's net worth, debt-to-equity ratio, profitability and liquidity. Management believes that the Company was in compliance with these covenants as of December 31, 2019.

Assets Sold Under Agreements to Repurchase

The Company has multiple borrowing facilities in the form of asset sales under agreements to repurchase. These borrowing facilities are secured by loans held for sale at fair value or participation certificates backed by MSRs. Eligible loans and participation certificates backed by MSRs are sold at advance rates based on the fair value (as determined by the lender) of the assets sold. Interest is charged at a rate based on the lender's overnight cost of funds rate or on LIBOR depending on the terms of the respective agreements. Loans and MSRs financed under these agreements may be re-pledged by the lenders.

Assets sold under agreements to repurchase are summarized below:

	Year ended December 31,					
	2019	2018	2017			
	(dollars in thousands)					
Average balance of assets sold under agreements to repurchase	\$ 2,185,830	\$ 1,626,729	\$ 1,829,257

Assets purchased from PennyMac Mortgage Investment Trust under agreements to			
resell	\$ 107,512	\$ 131,025	
Servicing advances (4)	\$ 207,460	\$ 162,895	
Mortgage servicing rights (4)	\$ 2,902,721	\$ 2,807,333	
Margin deposits placed with counterparties (5)	\$ 5,000	\$ 3,750	

⁽¹⁾ Excludes the effect of amortization of net debt issuance premiums totaling \$7.5 million, \$40.5 million and \$1.3 million, for the years ended December 31, 2019, 2018 and 2017, respectively.

- (2) In 2017, PFSI entered into a master repurchase agreement that provided the Company with incentives to finance mortgage loans approved for satisfying certain consumer relief characteristics as provided in the agreement. The Company included \$14.7 million, \$48.1 million and \$9.2 million of such incentives as a reduction in *Interest expense* during the years ended December 31, 2019, 2018 and 2017, respectively. The master repurchase agreement expired on August 21, 2019.
- (3) The amount the Company is able to borrow under asset repurchase agreements is tied to the fair value of unencumbered assets eligible to secure those agreements and the Company's ability to fund the agreements' margin requirements relating to the assets financed.
- (4) Beneficial interests in the Ginnie Mae MSRs of \$2.8 billion and servicing advances are pledged to the Issuer Trust and together serve as the collateral backing the VFN, 2018-GT1 Notes and 2018-GT2 Notes described in *Notes payable secured by mortgage servicing assets*. The VFN financing is included in *Assets sold under agreements to repurchase* and 2018-GT1 Notes and 2018-GT2 Notes are included in *Notes payable secured by mortgage servicing assets* on the Company's consolidated balance sheet.
- (5) Margin deposits are included in *Other* assets on the Company's consolidated balance sheets.

Following is a summary of maturities of outstanding advances under repurchase agreements by maturity date:

Remaining maturity at December 31, 2019	Unpaid principal balance
	(dollars in thousands)
Within 30 days	\$ 715,059
Over 30 to 90 days	3,157,444
Over 90 to 180 days	269,177_
Total assets sold under agreements to repurchase	\$ 4,141,680
Weighted average maturity (in months)	2.0

The amount at risk (the fair value of the assets pledged plus the related margin deposit, less the amount advanced by the counterparty and interest payable) relating to the Company's assets sold under agreements to repurchase is summarized by counterparty below as of December 31, 2019:

Counterparty		nount at risk thousands)	maturity of advances under repurchase agreement	Facility maturity
Credit Suisse First Boston Mortgage Capital LLC	_ \	1,709,197	April 26, 2020	April 26, 2020
Credit Suisse First Boston Mortgage Capital LLC	\$	72,865	February 12, 2020	April 24, 2020
JP Morgan Chase Bank, N.A.	\$	61,561	March 1, 2020	October 9, 2020
Citibank, N.A.	\$	48,017	March 18, 2020	August 4, 2020
Morgan Stanley Bank, N.A.	\$	42,181	March 16, 2020	August 21, 2020
Bank of America, N.A.	\$	29,252	January 27, 2020	January 27, 2020
Royal Bank of Canada	\$	13,811	March 31, 2020	March 31, 2020
BNP Paribas	\$	10,233	March 12, 2020	July 31, 2020

The Company is subject to margin calls during the period the agreements are outstanding and therefore may be required to repay a portion of the borrowings before the respective agreements mature if the fair value (as determined by the applicable lender) of the assets securing those agreements decreases.

Mortgage Loan Participation Purchase and Sale Agreements

Certain of the borrowing facilities secured by mortgage loans held for sale are in the form of mortgage loan participation purchase and sale agreements. Participation certificates, each of which represents an undivided beneficial ownership interest in mortgage loans that have been pooled with Fannie Mae, Freddie Mac or Ginnie Mae, are sold to a lender pending the securitization of the mortgage loans and sale of the resulting securities which generally occurs within 30 days. A commitment to sell the securities resulting from the pending securitization between the Company and a non-affiliate is also assigned to the lender at the time a participation certificate is sold.

The purchase price paid by the lender for each participation certificate is based on the trade price of the security, plus an amount of interest expected to accrue on the security to its anticipated delivery date, minus a present value adjustment, any related hedging costs and a holdback amount that is based on a percentage of the purchase price. The holdback amount is not required to be paid to the Company until the settlement of the security and its delivery to the lender.

The mortgage loan participation and sale agreements are summarized below:

	Year	Year ended December 31,				
	2019	2019 2018				
	(dollars in thousands)					
Average balance	\$ 244,203	\$ 248,539	\$ 208,613

Notes Payable Secured by Mortgage Servicing Assets

Term Notes

On February 16, 2017, the Company, through the Issuer Trust, issued an aggregate principal amount of \$400 million in Term Notes (the "2017-GT1 Notes") to qualified institutional buyers under Rule 144A of the Securities Act of 1933, as amended (the "Securities Act"). The 2017-GT1 Notes bore interest at a rate equal to one-month LIBOR plus 4.75% per annum. The 2017-GT1 Notes were scheduled to mature on February 25, 2020 or, if extended pursuant to the terms of the related indenture supplement, February 25, 2021 (unless earlier redeemed in accordance with their terms).

On August 10, 2017, the Company, through the Issuer Trust, issued an aggregate principal amount of \$500 million in Term Notes (the "2017-GT2 Notes") to qualified institutional buyers under Rule 144A of the Securities Act. The 2017-GT2 Notes bore interest at a rate equal to one-month LIBOR plus 4.0% per annum. The 2017-GT2 Notes were scheduled to mature on August 25, 2022 or, if extended pursuant to the terms of the related indenture supplement, August 25, 2023 (unless earlier redeemed in accordance with their terms).

On February 28, 2018, the Company, through the Issuer Trust, issued an aggregate principal amount of \$650 million in Term Notes (the "2018-GT1 Notes") to qualified institutional buyers under Rule 144A of the Securities Act. The 2018-GT1 Notes bear interest at a rate equal to one-month LIBOR plus 2.85% per annum. The 2018-GT1 Notes will mature on February 25, 2023 or, if extended pursuant to the terms of the related indenture supplement, February 25, 2025 (unless earlier redeemed in accordance with their terms).

On February 28, 2018, in connection with its issuance of the 2018-GT1 Notes, the Company also redeemed all of the 2017-GT1 Notes previously issued by the Issuer Trust. The redemption amount for the 2017-GT1 Notes was \$400 million plus all accrued and unpaid interest. As a result, the Company recognized the unamortized debt issuance cost of \$3.4 million in *Interest Expense*.

On August 10, 2018, the Company, through the Issuer Trust, issued an aggregate principal amount of \$650 million in Term Notes (the "2018-GT2 Notes") to qualified institutional buyers under Rule 144A of the Securities Act. The 2018-GT2 Notes bear interest at a rate equal to one-month LIBOR plus 2.65% per annum. The 2018-GT2 Notes will mature on August 25, 2023 or, if extended pursuant to the terms of the related indenture supplement, August 25, 2025 (unless earlier redeemed in accordance with their terms).

On August 10, 2018, in connection with its issuance of the 2018-GT2 Notes, the Company also redeemed all of the 2017-GT2 Notes previously issued by the Issuer Trust. The redemption amount for the 2017-GT2 Notes was \$500 million plus all accrued and unpaid interest. As a result, the Company recognized the unamortized debt issuance cost of \$4.6 million in *Interest Expense*.

All the Term Notes rank pari passu with each other and with the VFN issued by Issuer Trust to PLS and are secured by certain participation certificates relating to Ginnie Mae MSRs and ESS that are financed pursuant to the GNMA MSR Facility.

MSR Note Payable

On February 1, 2018, the Company issued a note payable in favor of Credit Suisse AG, Cayman Islands Branch ("CS Cayman") that is secured by Fannie Mae and Freddie Mac MSRs. On September 11, 2019, CS Cayman terminated and released the portion of its security interest relating to the Fannie Mae MSRs in connection with the Loan and Security Agreement and entered a separate repurchase facility to purchase a participation certificate relating to the Fannie Mae MSRs. Interest is charged at a rate based on LIBOR plus the applicable contract margin. The facility expires on February 1, 2020. The maximum amount that the Company may borrow under the note payable is \$400 million, less any amount outstanding under agreements to repurchase pursuant to which the Company finances the VFN and Fannie Mae MSRs. The Company did not borrow under this note payable during the year ended December 31, 2019.

Notes payable are summarized below:

	Year ended December 31,
	2019 2018 2017
	(dollars in thousands)
Average balance	\$ 1,300,000 \$ 1,169,452 \$ 586,135
Weighted average interest rate (1)	5.08 % 5.29 % 5.86 %
Total interest expense	\$ 67,789 \$ 71,697 \$ 37,001
Maximum daily amount outstanding	\$ 1,300,000 \$ 1,300,000 \$ 900,006

(1) Excluding the effect of amortization of debt issuance costs totaling \$1.8 million, \$9.8 million and \$3.4 million for the years ended December 31, 2019, 2018 and 2017, respectively.

	December 31,
	2019 2018
	(dollars in thousands)
Carrying value:	
Unpaid principal balance	\$ 1,300,000 \$ 1,300,000
Unamortized debt issuance costs	(5,930) (7,709)
	\$ 1,294,070 \$ 1,292,291
Weighted average interest rate	4.46 % 5.07 %
Assets pledged to secure notes payable:	
Servicing advances (1)	\$ 207,460 \$ 162,895
Mortgage servicing rights (1)	\$ 2,861,442 \$ 2,807,333

⁽¹⁾ Beneficial interests in the Ginnie Mae MSRs of \$2.8 billion and servicing advances are pledged to the Issuer Trust and together serve as the collateral backing the VFN, 2018-GT1 Notes and 2018-GT2 Notes. The VFN financing is included in *Assets sold under agreements to repurchase* and 2018-GT1 Notes and 2018-GT2 Notes are included in *Notes payable secured by mortgage servicing assets* on the Company's consolidated balance sheet.

Corporate Revolving Line of Credit

On November 1, 2018, the Company, through its subsidiary, PennyMac (the "Borrower"), entered into amendments (the "Amendments") to that certain (i) amended and restated credit agreement, dated as of November 18, 2016, by and among the Borrower, the lenders that are parties thereto and Credit Suisse AG, as administrative agent and collateral agent, and Credit Suisse Securities (USA) LLC, as sole bookrunner and sole lead arranger (the "Credit Agreement"); and (ii) amended and restated collateral and guaranty agreement, dated as of November 18, 2016, by and among the Borrower, as grantor, Credit Suisse AG, Cayman Islands Branch ("CS Cayman"), as collateral agent, and PNMAC Holdings, Inc. (formerly known as PennyMac Financial Services, Inc.) and certain of its subsidiaries, PCM, PLS and PNMAC Opportunity Fund Associates, LLC ("Associates"), as guarantors and grantors ("the "Guaranty").

Pursuant to the Credit Agreement, the lenders have agreed to make revolving loans to the Borrower in an amount not to exceed \$150 million. Interest on the loans shall accrue at a per annum rate of interest equal to, at the election of the Borrower, either LIBOR plus the applicable margin or an alternate base rate (as defined in the Credit Agreement). During the existence of certain events of default, interest shall accrue at a higher default rate. The proceeds of the loans are to be used solely for working capital and general corporate purposes of the Borrower and its subsidiaries.

The primary purposes of the Amendments were to (i) extend the maturity date of the Credit Agreement to October 30, 2020; (ii) name the Company as an additional guarantor under the Credit Agreement; and (iii) release Associates from its obligations as a guarantor under the Credit Agreement. Accordingly, the obligations of the Borrower under the Credit Agreement are now guaranteed by PFSI, PNMAC Holdings, Inc., PCM and PLS, and secured by a grant by each of the referenced grantors of its respective right, title and interest in and to limited and otherwise unencumbered (other than specified permitted encumbrances) specified contract rights, specified deposit accounts, all documents and instruments related to such specified contract rights and specified deposit accounts, and any and all proceeds and products thereof. All other terms and conditions of the Credit Agreement and Guaranty remain the same in all material respects. The Company did not borrow under this facility during the years ended December 31, 2019 and 2018.

Corporate revolving line of credit is summarized below:

		Year ended December 31,					
		2019		2019 2018		2017	
		(in thousands)					
Interest expense (1)	\$	1,921	\$	1,913	\$	2,368	

	Decemb	er 31,
	2019	2018
	(in thou	sands)
Carrying value	\$ —	\$ —
Unused amount	\$ 150,000	\$ 150,000
Cash pledged to secure corporate revolving line of credit	\$ 52,599	\$ 108,174

⁽¹⁾ Interest expenses for the years ended December 31, 2019 and 2018 represent debt issuance costs and non-utilization fees.

Excess Servicing Spread Financing at Fair Value

In conjunction with the Company's purchase from non-affiliates of certain MSRs on pools of Agency-backed residential mortgage loans, the Company has entered into sale and assignment agreements with PMT. Under these agreements, the Company sold to PMT the right to receive ESS cash flows relating to certain MSRs. The Company retained a fixed base servicing fee and all ancillary income associated with servicing the loans. The Company continues to be the servicer of the mortgage loans and retains all servicing obligations, including responsibility to make servicing advances.

Following is a summary of ESS:

	Year ended December 31,				
	2019	2018	2017		
		(in thousands)			
Balance at beginning of year	\$ 216,110	\$ 236,534	\$ 288,669		
Issuances of excess servicing spread to PennyMac Mortgage Investment Trust					
pursuant to recapture agreement	1,757	2,688	5,244		
Accrual of interest	10,291	15,138	16,951		
Repayment	(40,316)	(46,750)	(54,980)		
Change in fair value	(9,256)	8,500	(19,350)		
Balance at end of year	\$ 178,586	\$ 216,110	\$ 236,534		

Note 14—Liability for Losses Under Representations and Warranties

Following is a summary of the Company's liability for losses under representations and warranties:

	Year ended December 31,				
	2019		2018		2017
			(in thou	sands)	
Balance at beginning of year	\$	21,155	\$	20,053	\$ 19,067
Provision for losses on loans sold:					
Resulting from sales of loans		8,377		5,824	5,890
Reduction in liability due to change in estimate		(7,877)		(4,672)	(4,301)
Losses incurred, net		(209)		(50)	(603)
Balance at end of year	\$	21,446	\$	21,155	\$ 20,053
Unpaid principal balance of loans subject to representations and warranties					
at end of year	\$ 17	7,611,568	\$ 137	7,849,704	

Note 15—Income Taxes

The Company files U.S. federal and state corporate income tax returns for PFSI and partnership returns for PennyMac. The Company's federal tax returns are subject to examination for 2016 and forward and its state tax returns are generally subject to examination for 2015 and forward. PennyMac's federal partnership returns are subject to examination for 2016 and forward, and its state tax returns are generally subject to examination for 2015 and forward. No returns are currently under examination.

As a result of the Reorganization, the Company recorded through equity a net deferred tax liability attributable to the noncontrolling interest in the amount of \$320.5 million. Beginning from November 1, 2018, the Company's income subject to the corporate federal and state income taxes will include the portion of its income formerly attributed to the noncontrolling interest. As a result, the Company has recognized an increase in its effective income tax rate.

The Reorganization was treated as an integrated transaction that qualifies as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code ("IRC") and/or a transfer described in Section 351(a) of the IRC.

PFSI received a ruling from the California Franchise Tax Board in November 2018 which allows the Company to apply a reduced California statutory rate of 8.84% compared to the 10.84% rate previously applied by the Company. As a result, the Company recorded a tax benefit of \$8.5 million due to remeasurement of deferred tax assets and tax liabilities.

The Company's tax expense for the year ended December 31, 2017 was significantly impacted by the Tax Act. The Tax Act reduces the U.S. federal corporate tax rate to 21% from the previous maximum rate of 35%, effective January 1, 2018. Other than the change in the applicable federal rate, the changes introduced by the Tax Act did not have a significant impact on the 2018 tax expense.

In 2017, the Company recorded a tax benefit of \$13.7 million due to a re-measurement of deferred tax assets and liabilities resulting from a decrease in the federal tax rate. The re-measurement of the deferred tax assets and liabilities is predominantly based on a reduction to the federal rate as described above which will result in lower tax expense when these deferred tax assets and liabilities are realized.

Revaluation of the deferred tax asset resulting from PennyMac unitholder exchanges under the tax receivable agreement resulted in the repricing of the Company's corresponding liability under the tax receivable agreement. The Company recorded a reduction of \$32.0 million in the *Payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders* under the tax receivable agreement for the year ended December 31, 2017 as a result of the Tax Act.

The following table details the Company's provision for income taxes:

	Year ended December 31,				1,	
	2019		2018			2017
			(in t	housands)		
Current expense:						
Federal	\$	17,661	\$	12	\$	(81)
State		8,071		274		56
Total current expense		25,732		286		(25)
Deferred expense:						
Federal		85,296		23,395		14,674
State		25,451		(427)		9,738
Total deferred expense		110,747		22,968		24,412
Total provision for income taxes	\$	136,479	\$	23,254	\$	24,387

The following table is a reconciliation of the Company's provision for income taxes at statutory rates to the provision for income taxes at the Company's effective tax rate:

	Year ended December 31,				
	2019	2018	2017		
Federal income tax statutory rate	21.0 %	21.0 %	35.0 %		
Less: Income attributable to noncontrolling interest	 %	(12.3)%	(22.0)%		
State income taxes, net of federal benefit	5.6 %	2.3 %	2.2 %		
Tax rate revaluation	(0.6)%	(2.2)%	(8.0)%		
Other	(0.2)%	(0.1)%	0.1 %		
Effective income tax rate	25.8 %	8.7 %	7.3 %		

The components of the Company's provision for deferred income taxes are as follows:

	Year ended December 31,				
	2019	2017			
		(in thousands)			
Mortgage servicing rights	\$ 91,592	\$ 46,064	\$ —		
Net operating loss	23,445	(14,902)	(9,675)		
Compensation accruals	(12,286)	(3,596)	_		
Additional tax basis in partnership from exchanges of partnership units into the					
Company's common stock	4,269	(1,391)			
Reserves and losses	(2,945)	(1,848)	_		
Other	6,106	(1,302)			
Tax credits	566	(57)	76		
Investment in PennyMac			34,011		
Total provision for deferred income taxes	\$ 110,747	\$ 22,968	\$ 24,412		

As the result of the Company's reclassification of the noncontrolling interest to paid-in capital pursuant to the Reorganization on November 1, 2018, beginning in 2018, the provision for deferred taxes reflects each individual adjustment item in PFSI's underlying investment in PennyMac. The provision for deferred income taxes for the year ended December 31, 2017 primarily relates to PFSI's investment in PennyMac partially offset by the Company's generation and utilization of a net operating loss and generation of tax credits. The provision for income taxes attributable to PFSI's investment in PennyMac primarily relates to MSRs that PennyMac received pursuant to sales of mortgage loans held for sale at fair value and carried interest from the Investment Funds.

The components of *Income taxes payable* are as follows:

	 December 31,			
	 2019	2018		
	(in thousands)			
Income taxes currently (receivable) payable	\$ (6,506)	\$ 218		
Deferred income tax liability, net	 511,075	400,328		
Income taxes payable	\$ 504,569	\$ 400,546		

The tax effects of temporary differences that gave rise to deferred income tax assets and liabilities are presented below:

	December 31,			31,
		2019		2018
	(in thousands)			ds)
Deferred income tax assets:				
Compensation accruals	\$	41,038	\$	28,752
Additional tax basis in partnership from exchanges of partnership units into the				
Company's common stock		39,897		44,165
Reserves and losses		29,534		26,589
Net operating loss carryforward		1,658		25,104
Tax credits carryforward		50		616
Gross deferred tax assets		112,177		125,226
Deferred income tax liabilities:				
Mortgage servicing rights		608,635		517,042
Other		14,617		8,512
Gross deferred tax liabilities		623,252		525,554
Net deferred income tax liability	\$	511,075	\$	400,328

The Company recorded a deferred tax asset of \$1.7 million related to California and other states' net operating loss carryforwards, which were mostly incurred in 2018 and expire in 2038, and are expected to be fully utilized in 2020. All of the federal net operating loss carryforward has been fully utilized in 2019. The Company has tax credits of \$0.1 million, which generally have no expiration date.

At December 31, 2019 and 2018, the Company had no unrecognized tax benefits and does not anticipate any unrecognized tax benefits. Should the recognition of any interest or penalties relative to unrecognized tax benefits be necessary, it is the Company's policy to record such expenses in the Company's income tax accounts. No such accruals existed at December 31, 2019 and 2018.

Note 16—Commitments and Contingencies

Litigation

From time to time, the Company may be involved in various legal and regulatory proceedings, lawsuits and other claims arising in the ordinary course of its business. The amount, if any, of ultimate liability with respect to such matters cannot be determined, but despite the inherent uncertainties of litigation, management currently believes that the ultimate disposition of any such proceedings and exposure will not have, individually or taken together, a material adverse effect on the financial condition, results of operations, or cash flows of the Company.

On December 20, 2018, a purported shareholder of the Company filed a complaint in a putative class and derivative action in the Court of Chancery of the State of Delaware (the "Delaware Court"), captioned *Robert Garfield v. BlackRock Mortgage Ventures, LLC et al.*, Case No. 2018-0917-KSJM (the "Garfield Action"). The Garfield Action alleges, among other things, that certain current directors and officers of the Company breached their fiduciary duties to the Company and its shareholders by, among other things, agreeing to and entering into the Reorganization without ensuring that the Reorganization was entirely fair to the Company or public shareholders. The Reorganization was approved by 99.8% of voting shareholders on October 24, 2018. On December 19, 2019, the Delaware Court denied a motion to dismiss filed by the Company and certain of its directors and officers. While no assurance can be provided as to the ultimate outcome of this claim or the account of any losses to the Company, the Company believes the Garfield Action is without merit and plans to vigorously defend the matter, which remains pending.

On November 5, 2019, Black Knight Servicing Technologies, LLC, a wholly-owned indirect subsidiary of Black Knight, Inc. ("BKI"), filed a Complaint and Demand for Jury Trial in the Circuit Court for the Fourth Judicial Circuit in and for Duval County, Florida, captioned *Black Knight Servicing Technologies, LLC v. PennyMac Loan Services, LLC*, Case No. 2019-CA-007908 (the "BKI Complaint"). Allegations contained within the BKI Complaint include breach of contract and misappropriation of MSP® System trade secrets in order to develop an imitation mortgage-processing system intended to replace the MSP® System. The BKI Complaint seeks damages for breach of contract and misappropriation of trade secrets, injunctive relief under the Florida Uniform Trade Secrets Act and declaratory judgment of ownership of all intellectual property and software developed by or on behalf of PLS as a result of its wrongful use of and access to the MSP® System and related trade secret and confidential information. On January 6, 2020, the Company filed a motion to compel arbitration, which has not yet been fully briefed or argued. While no assurance can be provided at to the ultimate outcome of this claim or the account of any losses to the Company, the Company believes the BKI Complaint is without merit and plans to vigorously defend the matter, which remains pending.

Regulatory Matters

The Company and/or its subsidiaries are subject to various state and federal regulations related to its loan production and servicing operations by the various states it operates in as well as federal agencies such as the Consumer Financial Protection Bureau, HUD, the Federal Housing Administration as well as subject to the requirements of the Agencies it sells loans to and performs loan servicing for. As the result, the Company may become involved in information-gathering requests, reviews, investigations and proceedings (both formal and informal) by the various federal, state and local regulatory bodies.

Commitments to Purchase and Fund Loans

The Company's commitments to purchase and fund loans totaled \$7.1 billion as of December 31, 2019.

Note 17—Stockholders' Equity

In June 2017, the Company's board of directors authorized a stock repurchase program under which the Company may repurchase up to \$50 million of its outstanding common stock.

The following table summarizes the Company's stock repurchase activity:

	Year ended December 31,				C	umulative		
		2019		2018		2017		total (1)
		(in thousands)						
Shares of common stock repurchased		51		260		505		816
Cost of shares of common stock repurchased	\$	1,056	\$	5,293	\$	8,599	\$	14,948

⁽¹⁾ Amounts represent the total shares common stock repurchased under the stock repurchase program through December 31, 2019.

The shares of repurchased common stock were canceled upon settlement of the repurchase transactions and returned to the authorized but unissued common stock pool.

Note 18—Noncontrolling Interest

As a result of the Reorganization on November 1, 2018, noncontrolling interest unitholders contributed their Class A units of PNMAC for shares of PFSI common stock without any cash consideration on a one-for-one basis and became stockholders of the Company. Consequently, the noncontrolling interest was reclassified to the Company's paidin capital accounts.

Net income attributable to the Company's common stockholders and the effects of changes in noncontrolling ownership interest in PennyMac for the years ended December 31, 2018 and 2017 is summarized below:

	Year ended December			ıber 31,
		2018		2017
	(in thousands)			ls)
Net income attributable to PennyMac Financial Services, Inc. common stockholders	\$	87,694	\$	100,757

	211,979	144,597	144,520	
	\$ 76,721	\$ 71,819	\$ (1,341)	
	Ψ /0,/21	Ψ /1,019	ψ (1,571)	

⁽¹⁾ In 2017, the Company entered a master repurchase agreement that provided it with incentives to finance mortgage loans approved for satisfying certain consumer relief characteristics as provided in the agreement. During the years ended December 31, 2019, 2018 and 2017, the Company included \$14.7 million, \$48.1 million and \$9.2 million, respectively of such incentives as a reduction in *Interest expense*. The master repurchase agreement expired on August 21, 2019.

Note 21—Stock-based Compensation

The Company has adopted an equity incentive plan that provides for grants of stock options, time-based and performance-based restricted stock units ("RSUs"), stock appreciation rights, performance units and stock grants. As of December 31, 2019, the Company has 4.2 million units available for future awards.

Following is a summary of the stock-based compensation expense by instrument awarded:

	Year	Year ended December 31,					
	2019	2019 2018					
		(in thousands)					
Performance-based RSUs	\$ 14,820	\$ 12,425	\$ 11,020				
Time-based RSUs	6,659	6,608	4,768				
Stock options	3,292	6,218	4,909				
	\$ 24,771	\$ 25,251	\$ 20,697				

Performance-Based RSUs

The performance-based RSUs provide for the issuance of shares of the Company's common stock based on the attainment of earnings per share and/or return on equity and are generally adjusted for grantee job performance ratings. The satisfaction of the performance goals and issuance of shares will be approved by a committee of the Company's board of directors. Approximately 603,000 shares vested under the grants with a performance period ended December 31, 2019 will be issued to the grantees in March 2020.

The fair value of the performance-based RSUs is measured based on the fair value of the Company's common stock at the grant date, taking into consideration management's estimate of the expected outcome of the performance goal, and the number of shares to be forfeited during the vesting period. The Company assumes forfeiture rates of 0 - 23.2% per year based on the grantees' employee classification. The actual number of shares that vest could vary from zero, if the performance goals are not met, to as much as 130% of the units granted, if the performance goals are meaningfully exceeded.

The table below summarizes performance-based RSU activity:

		Year ended December 31,						
		2019		2018		2017		
	(i	(in thousands, except per unit am						
Number of units:								
Outstanding at beginning of year		1,892		2,389		2,475		
Granted		682		524		694		
Vested (1)		(735)		(730)		(446)		
Forfeited or cancelled		(32)		(291)		(334)		
Outstanding at end of year		1,807		1,892		2,389		
Weighted average grant date fair value per unit:								
Outstanding at beginning of year	\$	14.48	\$	15.57	\$	14.24		
Granted	\$	23.11	\$	24.40	\$	18.04		
Vested	\$	11.28	\$	12.86	\$	13.65		
Forfeited	\$	21.72	\$	16.17	\$	14.45		
Outstanding at end of year	\$	21.67	\$	14.48	\$	15.57		

⁽¹⁾ The actual number of performance-based RSUs vested during the year ended December 31, 2019 and 2018 was 648,000 and 774,000 shares, respectively, which is approximately 88% and 106% of the 735,000 and 730,000 originally granted units, respectively, due to the performance varying from the established target for the respective grant.

Following is a summary of performance-based RSUs as of December 31, 2019:

Unamortized compensation cost (in thousands)	\$ 14,252
Number of shares expected to vest (in thousands)	1,596
Weighted average remaining vesting period (in months)	12

Time-Based RSUs

The RSU grant agreements provide for the award of time-based RSUs, entitling the award recipient to one share of the Company's common stock for each RSU. One-third of the time-based RSUs vest on each of the first, second, and third anniversaries of the grant date, subject to the recipient's continued service through each anniversary.

Compensation cost relating to time-based RSUs is based on the grant date fair value of the Company's common stock and the number of shares expected to vest. For purposes of estimating the cost of the time-based RSUs granted, the Company assumes forfeiture rates of 0 - 22.7% per year based on the grantees' employee classification.

V---- 21

The table below summarizes time-based RSU activity:

	Year ended December 31,					
		2019		2018		2017
	(i)	n thousand	ls, ex	cept per u	nit a	mounts)
Number of units:

Vested	\$	18.73	\$	16.08	\$	14.66
Forfeited	\$	22.29	\$	19.40	\$	14.87
Outstanding at end of year	\$	22.40	\$	20.39	\$	16.37

Following is a summary of RSUs as of December 31, 2019:

Unamortized compensation cost (in thousands)	\$ 4,107
Number of units expected to vest (in thousands)	570
Weighted average remaining vesting period (in months)	10

Stock Options

The stock option award agreements provide for the award of stock options to purchase the optioned common stock. In general, and except as otherwise provided by the agreement, one-third of the stock option awards vests on each of the first, second, and third anniversaries of the grant date, subject to the recipient's continued service through each anniversary. Each stock option has a term of ten years from the date of grant but expires (1) immediately upon termination of the holder's employment or other association with the Company for cause, (2) one year after the holder's employment or other association is terminated due to death or disability and (3) three months after the holder's employment or other association is terminated for any other reason.

The fair value of each stock option award is estimated on the date of grant using a variant of the Black Scholes model based on the following inputs:

	Y	Year ended December 31,							
	2019	2018	2017						
Expected volatility (1)	30%	30%	31%						
Expected dividends	0%	0%	0%						
Risk-free interest rate	2.5% - 2.7%	1.7% - 3.0%	0.8% - 2.7%						
Expected grantee forfeiture rate	2.3% - 22.7%	0.0% - 23.2%	0.0% - 21.1%						

⁽¹⁾ Based on historical volatilities of the Company's common stock.

The Company uses its historical employee departure behavior to estimate the grantee forfeiture rates used in its option-pricing model. The expected term of common stock options granted is derived from the Company's option pricing model and represents the period that common stock options granted are expected to be outstanding. The risk-free interest rate for periods within the contractual term of the common stock option is based on the U.S. Treasury yield curve in effect at the time of grant.

The table below summarizes stock option award activity:

		er 31	31,			
		2019		2018		2017
	(in	thousands	s, exc	ept per opt	ion a	mounts)

Exercisable (in thousands)	\$	45,837				
Expected vesting amounts:						
Number of options expected to vest (in thousands)		929				
Weighted average vesting period (in months)		9				

Note 22—Earnings Per Share of Common Stock

Basic earnings per share of common stock is determined using net income attributable to the Company's common stockholders divided by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per share of common stock is determined by dividing net income attributable to the Company's common stockholders by the weighted average number of shares of common stock outstanding, assuming all dilutive shares of common stock were issued.

Potentially dilutive shares of common stock include non-vested stock-based compensation awards and PennyMac Class A units. The Company applies the treasury stock method to determine the diluted weighted average shares of common stock outstanding based on the outstanding non-vested stock-based compensation awards. As a result of the Reorganization on November 1, 2018, all Class A units of PNMAC converted for shares of PFSI common stock on a one-for-one basis.

The following table summarizes the basic and diluted earnings per share calculations:

	Year ended December 31,					
	2019	2018	2017			
	(in thousa	ands, except per	share data)			
Basic earnings per share of common stock:						
Net income attributable to common stockholders	\$ 392,965	\$ 87,694	\$ 100,757			
Weighted average shares of common stock outstanding	78,206	33,524	23,199			
Basic earnings per share of common stock	\$ 5.02	\$ 2.62	\$ 4.34			
Diluted earnings per share of common stock:						
Net income attributable to common stockholders	\$ 392,965	\$ 87,694	\$ 100,757			
Net income attributable to dilutive stock-based compensation units	_	3,868				
Net income attributable to common stockholders for diluted earnings per						
share	\$ 392,965	\$ 91,562	\$ 100,757			
Weighted average shares of common stock outstanding applicable to basic						
earnings per share	78,206	33,524	23,199			
Effect of dilutive shares:			,			
Common shares issuable under stock-based compensation plan	2,134	1,798	1,800			
Weighted average shares of common stock applicable to diluted earnings per						
share	80,340	35,322	24,999			
Diluted earnings per share of common stock	\$ 4.89	\$ 2.59	\$ 4.03			

Calculations of diluted earnings per share require certain potentially dilutive shares to be excluded when their inclusion in the diluted earnings per share calculation would be anti-dilutive. The following table summarizes the weighted-average number of anti-dilutive outstanding performance-based RSUs, time-based RSUs, stock options and Exchangeable PNMAC Class A units excluded from the calculation of diluted earnings per share:

		Year ended December 31,					
		2019 2018			2017		
	(in	thousand	s except for we	ighted	l-average		
			exercise price	e)			
Performance-based RSUs (1)		1,032	1,084		497		
Time-based RSUs		_	3		_		
Stock options (2)		572	740)	1,323		
Exchangeable PNMAC Class A units (3)			43,700		53,299		
Total anti-dilutive shares and units		1,604	45,527		55,119		
Weighted average exercise price of anti-dilutive stock options (2)	\$	23.70	\$ 17.81	\$	16.40		

- (1) Certain performance-based RSUs were outstanding but not included in the computation of earnings per share because the performance thresholds included in such RSUs have not been achieved.
- (2) Certain stock options were outstanding but not included in the computation of diluted earnings per share because the weighted-average exercise prices were above the average stock prices during the year.
- (3) Exchangeable PNMAC units were anti-dilutive during 2017 primarily due to the effect of adoption of the Tax Act on earnings attributable to PNMAC unitholders.

Note 23—Supplemental Cash Flow Information

	Year ended December 31,					1,
		2019	2018			2017
			(in	thousands)

Non-cash investing activity:						
Mortgage servicing rights resulting from loan sales	\$	884,876	\$	591,757	\$	581,101
Mortgage servicing liabilities resulting from loan sales	\$	37,988	\$	7,601	\$	17,229
Unsettled portion of MSR acquisitions	\$	_	\$	10,139	\$	5,319
Operating right-of-use assets recognized	\$	83,248	\$	_	\$	_
Non-cash financing activity:						
Issuance of Excess servicing spread payable to PennyMac Mortgage Investment						
Trust pursuant to a recapture agreement	\$	1,757	\$	2,688	\$	5,244
Issuance of common stock and Class A common stock in settlement of director						
fees	\$	233	\$	330	\$	338

Note 24—Regulatory Capital and Liquidity Requirements

The Company, through PLS and PennyMac, is required to maintain specified levels of "Capital" to remain a seller/servicer in good standing with the Agencies. Such "Capital" requirements generally are tied to the size of the Company's loan servicing portfolio or loan origination volume.

The Company is subject to financial eligibility requirements for sellers/servicers eligible to sell or service mortgage loans with Fannie Mae and Freddie Mac. The eligibility requirements include tangible net worth of \$2.5 million plus 25 basis points of the Company's total 1-4 unit servicing portfolio, excluding loans subserviced for others and a liquidity requirement equal to 3.5 basis points of the aggregate UPB serviced for the Agencies plus 200 basis points of total nonperforming Agency servicing UPB in excess of 600 basis points.

The Company is also subject to financial eligibility requirements for Ginnie Mae single-family issuers. The eligibility requirements include net worth of \$2.5 million plus 35 basis points of PLS' outstanding Ginnie Mae single-family obligations and a liquidity requirement equal to the greater of \$1.0 million or 10 basis points of PLS' outstanding Ginnie Mae single-family securities.

The Agencies' capital and liquidity requirements, the calculations of which are specified by each Agency, are summarized below:

		Decemb	er 31,	2019	December 31, 2018						
Agency-company subject to requirement		Actual (1)		Requirement (1)		Actual (1)	Rec	quirement (1)			
	(dollars in thousands)										
Capital											
Fannie Mae & Freddie Mac – PLS	\$ 2	2,247,751	\$	585,674	\$	1,788,430	\$	514,089			
Ginnie Mae – PLS	\$	1,907,398	\$	910,456	\$	1,535,826	\$	733,342			
HUD – PLS	\$	1,907,398	\$	2,500	\$	1,535,826	\$	2,500			
Liquidity											
Fannie Mae & Freddie Mac – PLS	\$	257,794	\$	79,991	\$	271,802	\$	70,775			
Ginnie Mae – PLS	\$	257,794	\$	216,119	\$	271,802	\$	189,592			
Tangible net worth / Total assets ratio											
Fannie Mae & Freddie Mac – PLS		22 %	6	6 %	Ó	21 %	ó	6 %			

⁽¹⁾ Calculated in compliance with the respective Agency's requirements.

Noncompliance with an Agency's requirements can result in such Agency taking various remedial actions up to and including terminating PennyMac's ability to sell loans to and service loans on behalf of the respective Agency.

Note 25—Segments

The Company operates in three segments: production, servicing and investment management.

Two of the segments are in the mortgage banking business: production and servicing. The production segment performs loan origination, acquisition and sale activities. The servicing segment performs servicing of newly originated loans, execution and management of early buyout transactions and servicing of loans sourced and managed by the investment management segment for PMT, including executing the loan resolution strategy identified by the investment management segment relating to distressed mortgage loans.

The investment management segment represents the activities of the Company's investment manager, which include sourcing, performing diligence, bidding and closing investment asset acquisitions, managing the acquired assets and correspondent production activities for PMT.

Financial performance and results by segment are as follows:

Note 28—Subsequent Events

Management has evaluated all events and transactions through the date the Company issued these consolidated financial statements. During this period:

- During February 2020, the Company acquired from a non-affiliate seller approximately \$2.3 billion in UPB of Ginnie Mae MSRs.
- During February 2020, the Company entered into an agreement with a non-affiliate seller to acquire approximately \$292 million in UPB of MSRs related to defaulted government loans. The MSR acquisition by the Company is subject to the negotiation and execution of definitive documentation, continuing due diligence and customary closing conditions. There can be no assurance that the committed amounts will ultimately be acquired or that the transaction will be completed at all.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.
