Letter To Shareholders

Dear Fellow Shareholders,

Because each of us comes into this world in need of a roof over our head, housing is the most fundamental of all property types. Our nation's population of 322 million residents is growing at an annual rate of approximately one percent. Adding three million people per year is the equivalent of adding a city the size of Denver or Pittsburgh to our country annually. People need affordable housing.

UMH has been a provider of affordable housing for our nation's workforce and retirees since 1968. We plan to continue to do so for many decades to come. Homeownership rates have fallen sharply as a result of heightened regulations, and consequently, much of the demand we are seeing has been coming from home renters. This past year we have increased our home rental program by 42% and this has helped us provide the affordable housing that is needed.

I am pleased to report that UMH continues to make progress in growing the Company and building long-term value for our shareholders. During 2015, the Company's accomplishments included the following:

- Acquired ten communities containing approximately 2,800 homesites for \$81.2 million. This represents an 18% increase in developed sites over the prior year;
- Increased Normalized FFO per diluted share by 14.6%;
- Increased Community NOI by 24.5%;
- Increased Same Property Occupancy from 83.2% to 83.9%;
- Increased Same Property Community NOI by 17.2%;
- Decreased our Operating Expense Ratio from 52.6% to 49.6%;
- Raised approximately \$25 million in common equity capital through our Dividend Reinvestment and Stock Purchase Plan;
- Raised approximately \$43 million in net proceeds in a registered direct placement of 8.0% Series B Cumulative Redeemable Preferred Stock;
- Financed/refinanced 21 communities for a total of \$139 million, reducing our weighted average interest rate from 4.8% to 4.5%;
- Increased our rental home portfolio by 1,100 homes, representing an increase of 42%, to 3,700 total rental homes; and
- Increased rental home occupancy from 91.5% to 92.9%.

Following an 11% growth rate in total homesites during 2014, we acquired ten communities in 2015, containing approximately 2,800 developed homesites. This represents an 18% increase in total homesites over the prior year. We've

been successfully executing our growth strategy and over the past six years have more than doubled our portfolio by acquiring a total of 70 communities containing over 11,000 developed homesites. Our portfolio is now comprised of 98 communities with 17,800 developed homesites located throughout seven states.

In addition, we own approximately 1,300 acres of developable land that will enable us to generate substantial growth as demand dictates. Our total portfolio now comprises 5,100 acres, 53% of which is in the energy-rich Marcellus and Utica Shale regions. No other REIT of any property type has as much acreage in these regions. While energy prices have fallen sharply this past year, we are long-term investors and view owning real estate in close proximity to some of the world's largest oil and natural gas reserves as a great investment. For the first time in over 40 years the U.S. is once again exporting oil. Additionally, we are now the world's largest producer of natural gas. We believe that these abundant domestic natural resources will bring strong economic growth to our regions for decades to come.

Over the past six years, UMH has grown into a much larger company. Rental revenue has risen from under \$30 million annually to now approximately \$75 million. For the full year, rental and related income was \$74.8 million, as compared to \$63.9 million last year, representing an increase of 17%. Normalized FFO was \$14.2 million or \$0.55 per diluted share, as compared to \$10.8 million or \$0.48 per diluted share in 2014. These increases were primarily due to the acquisition of ten communities, the addition of rental units, and increased same-store occupancy. UMH currently has approximately 3,620 vacant sites. This 20% vacancy factor can provide us with substantial operating leverage to grow our earnings as demand increases. Filling these vacant sites would increase our gross income by approximately \$17.5 million and increase our net income by approximately \$10.0 million per year. Based on our current portfolio, each one percent increase in occupancy will result in approximately \$0.02 in increased earnings per share, providing an expansive runway for organic growth.

As of year end, our capital structure consisted of approximately \$345 million in debt, of which \$287 million was community level mortgage debt and \$58 million were loans payable. The weighted average interest rate on our mortgage debt is 4.5%, down from 4.8% one year ago and the weighted average maturity is 7.1 years, improved from 5.3 years one year ago. 99.8% of our mortgage debt is fixed rate. During the fourth quarter we issued a new 8.0% Series B Perpetual Preferred stock that generated \$43

million in net proceeds. This, combined with our Series A Preferred shares, resulted in a total of \$137 million in perpetual preferred equity at year end. Our total preferred stock, combined with an equity market capitalization of \$274 million and our \$345 million in debt, results in a total market capitalization of approximately \$756 million at year end. We ended the year with net debt to total market capitalization at 45% and with \$6.5 million in cash and cash equivalents. We have been utilizing low cost mortgage debt with an average interest rate below 4% combined with our preferred equity to acquire communities, make capital improvements, and finance our home rental program. Since 2010, we have grown the amount of total sites in our portfolio by 123%. Operating as a public REIT, it is important that we gain scale. We have been very successful in generating needed growth over the past several years. The benefits from improved operating efficiencies will continue to be felt in the years ahead.

Our investments in REIT securities totaled \$75 million at year end, up from \$63.6 million in the prior year period. The primary function of our REIT securities portfolio is to enhance our balance sheet liquidity. This past year our portfolio generated \$4.4 million in income. Our securities investments have also delivered substantial realized gains. Over the past five years, our net-realized gains total \$12.6 million. While we have positioned the Company to be less reliant on our securities portfolio, we are very pleased with our current holdings and anticipate excellent performance going forward.

UMH's same property results in 2015 showed continued improvement. Same property NOI growth increased by 17.2% this year marking the second consecutive year of solid double-digit growth. Our same property occupancy rate increased to 83.9% at year end as compared to 83.2% in the prior year. Given the substantial amount of acquisitions we have been doing, same property occupancy is a more meaningful metric to gauge the demand we are seeing.

Home sales are an integral part in increasing our occupancy rates and enhancing our community values. While the main demand driver today is rental units, we are actively working with our tenant base to find ways of converting some of these rental units into sales. New home sales for UMH were disappointing this year with \$6.8 million in sales versus \$7.5 million in 2014. Although the conventional single-family housing market is strengthening, limited wage growth and increased government regulations have all negatively impacted our sales. The Company continues to be optimistic about future sales and rental prospects

given the fundamental need for affordable housing.

“Manufactured Homes allow the American dream of home ownership to be achieved by lower-income citizens: Around 70% of new homes costing \$150,000 or less come from our industry.” – From Warren E. Buffett’s Letter to Shareholders 2015.

Single-family conventional home prices have increased by 8.2% to a median price of \$213,800 over the prior year. Apartment rental rates have continued to rise as well, increasing 4.8% to an average monthly rate of \$1,244 from one year ago. Consequently, the Manufactured Home property type offers substantial comparative value that should result in increased demand going forward. Our sales operation has been adversely affected by the limited ability of homebuyers to qualify for loans to purchase manufactured homes. Therefore, much of our occupancy gains have come from home rentals. Nationally, first-time homeownership levels are at a 30-year low, representing only 30% of total conventional home sales. The Company anticipates that as national home sales to first-time home buyers improve, our sales operations will return to profitability.

Housing starts in the U.S. are currently running at an annual rate of 1.2 million units. This rate is substantially less than the historic average household formation rate of 1.5 million units. Single-family homes accounted for 59% of all housing starts in 2015. This represents the lowest amount since 1985. Multi-family apartment construction has been gaining market share since 2008, as a result of the tightened lending standards. Conventional homeownership rates have

continued to fall and are currently at 63.7%, down from a high of 69.2% in 2004. This has resulted in continued occupancy gains and increased rental rates for the apartment sector. Additionally, conventional single-family housing costs have continued to rise. All of these factors should help to increase demand for our property type.

Overall sales of manufactured homes in the U.S. have increased from historic lows. Total shipments grew 9.6% year-over-year from 64,300 manufactured homes to 70,500 in 2015. This level of shipments is still a fraction of long-term historic norms of over 150,000 units per year. Manufactured home shipments represent just 6% of new housing starts today versus a historic average of 15%. Much of the excess housing that was built during the housing bubble has now been absorbed. As noted above, UMH, like the other manufactured housing REITs, has embraced the apartment model of renting not just the land but the home as well. We expect manufactured home sales will increase over time.

UMH's business plan is to acquire communities in areas where we anticipate economic and demographic growth. We then make capital improvements to the community, take care of any deferred maintenance, and then add rental units and marketing. Our year end results give us confidence that our business plan is working. We look forward to improving on our positive results.

"Manufactured Homes allow the American dream of home ownership to be achieved by lower-income citizens. Around 70% of new homes costing \$150,000 or less come from our industry."

- Warren E. Buffett

I would like to take this opportunity to thank our Founder and Chairman, Eugene Landy. It is my great honor to protect and build upon the legacy that he started back in 1968 when he was only 35 years of age. To look back and see all of the value that has been created over our 47 year history makes me very optimistic about the future for UMH.

I would also like to thank the dedicated members of the UMH team. We have an excellent group of people who have helped build a company that we are all very proud of. I would also like to thank our directors for their valuable input. Thank you to all of our loyal shareholders for your faith and trust. We look forward to reporting back to you in the year ahead.

Very truly yours,

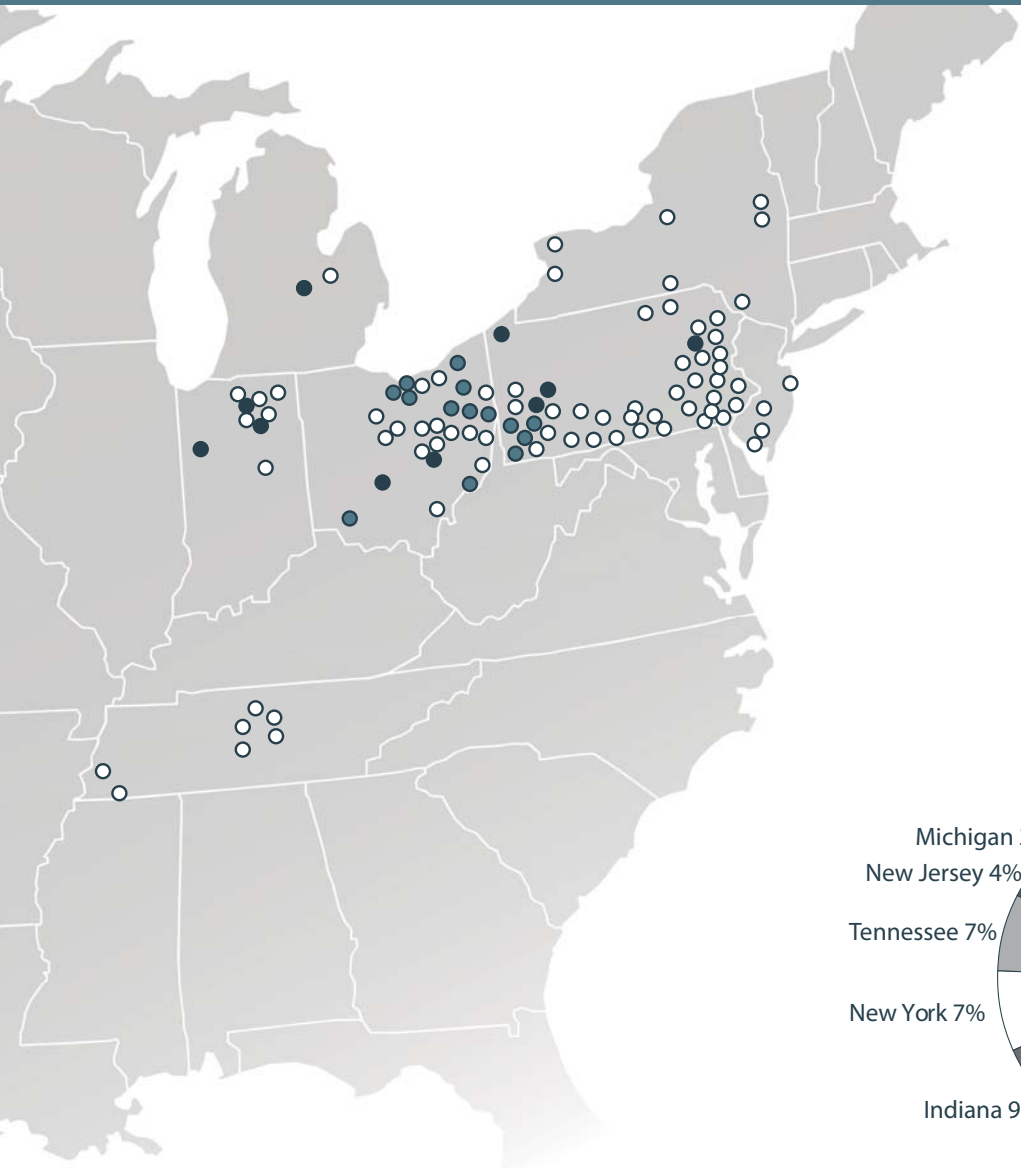

A handwritten signature in blue ink that reads "Samuel Landy".

The Industry

The need for quality affordable housing has never been more apparent. Manufactured homes fill a niche in the housing market. Due to the efficiencies of factory production, these homes are highly competitive in quality and value at costs of 20 to 50 percent less per square foot than conventional site-built homes. Manufactured homes are built in controlled settings using efficient assembly line techniques, and achieve economies of scale from purchasing large quantities of materials, products and appliances. By providing a high-quality product at a low cost, manufactured homes allow more people to achieve the goal of owning their own home.

The Community

Modern residential land-lease communities are similar to typical residential subdivisions containing central entrances, paved well-lit streets, curbs and gutters. Generally, modern manufactured home communities contain buildings for recreation, green areas, and other common area facilities. In addition to such improvements, manufactured home communities may also include recreational enhancements such as swimming pools, tennis courts, community centers and playgrounds. Our communities allow our residents to experience the true privacy and independence of a single-family home by providing spacious yards and no common area walls, floors, or ceilings.

The Home

Technological advances and greater flexibility in the construction process are allowing manufactured home builders to offer a wide variety of architectural styles, exterior finishes and interior features. Interior features may include vaulted ceilings, skylights, fireplaces, master suites and state-of-the-art kitchens and baths. Increased levels of insulation and more efficient heating and cooling systems have enhanced the energy efficiency in manufactured homes. Our customers are able to customize their homes to meet their lifestyle and needs.

Item 1 – Business

General Development of Business

In this Form 10-K, “we”, “us”, “our”, or “the Company”, refers to UMH Properties, Inc., together with its predecessors and subsidiaries, unless the context requires otherwise.

UMH Properties, Inc. operates as a qualified real estate investment trust (“REIT”) under Sections 856-860 of the Internal Revenue Code (the “Code”). The Company had elected REIT status effective January 1, 1992 and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code.

The Company was incorporated in the state of New Jersey in 1968. On September 29, 2003, the Company changed its state of incorporation from New Jersey to Maryland by merging with and into a Maryland corporation, with the approval of the Company’s shareholders at the Company’s annual meeting on August 14, 2003.

Narrative Description of Business

The Company derives its income primarily from real estate rental operations. Its primary business is the ownership and operation of manufactured home communities – leasing manufactured home sites to private manufactured home owners. The Company also leases homes to residents, and through its wholly-owned taxable REIT subsidiary, UMH Sales and Finance, Inc. (“S&F”), conducts manufactured home sales in its communities.

As of December 31, 2015, the Company owns and operates ninety-eight manufactured home communities containing approximately 17,800 developed sites. The communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan.

A manufactured home community is designed to accommodate detached, single-family manufactured homes. These manufactured homes are produced off-site by manufacturers and installed on sites within the community. These homes may be improved with the addition of features constructed on site, including garages, screened rooms and carports. Manufactured homes are available in a variety of designs and floor plans, offering many amenities and custom options. Each owner of a manufactured home leases the site on which the home is located from the Company.

Manufactured homes are accepted by the public as a viable and economically attractive alternative to common stick-built single-family housing. The affordability of the modern manufactured home makes it a very attractive housing alternative.

Modern residential land lease communities are similar to typical residential subdivisions containing central entrances, paved well-lit streets, curbs and gutters. Generally, modern manufactured home communities contain buildings for recreation, green areas, and other common area facilities, all of which, are the property of the community owner. In addition to such general improvements, certain manufactured home communities include recreational improvements such as swimming pools, tennis courts and playgrounds. Municipal water and sewer services are available in some manufactured home communities, while other communities supply these facilities on site.

Typically, our leases are on an annual or month-to-month basis, renewable upon the consent of both parties. The community manager interviews prospective residents, collects rent and finance payments, ensures compliance with community regulations, maintains public areas and community facilities and is responsible for the overall appearance of the community. Manufactured home communities produce predictable income streams and provide protection from inflation due to the ability to annually increase rents. Manufactured home communities may also appreciate over time.

Inherent in the operation of a manufactured home community is the development, redevelopment, and expansion of our communities. The Company sells and finances the sale of manufactured homes in our communities through S&F. S&F was established to potentially enhance the value of our communities. The home sales business is operated like other homebuilders with sales centers, model homes, an inventory of completed homes and the ability to supply custom designed homes based upon the requirements of the new homeowners. Many of our communities compete with other manufactured home community properties located in the same or nearby markets that are owned and operated by other companies in our business. We generally monitor the rental rates and other terms being offered by our competitors and consider this information as a factor in determining our own rental rates.

The Company also owns a portfolio of investment securities, which the Company generally limits to no more than approximately 15% of its undepreciated assets.

Investment and Other Policies of the Company

The Company may invest in improved and unimproved real property and may develop unimproved real property. Such properties may be located throughout the United States, but the Company has concentrated on the Northeast.

The Company may finance communities with purchase money mortgages or other financing, including first liens, wraparound mortgages or subordinated indebtedness. In connection with its ongoing activities, the Company may issue notes, mortgages or other senior securities. The Company intends to use both secured and unsecured lines of credit.

The Company may issue securities for property; however, this has not occurred to date. The Company may repurchase or reacquire its shares from time to time if, in the opinion of the Board of Directors, such acquisition is advantageous to the Company. No shares were repurchased or reacquired during 2015 and, as of December 31, 2015, the Company does not own any of its own shares.

The Company also invests in equity securities of other REITs. The Company from time to time may purchase these securities on margin when the interest and dividend yields exceed the cost of funds. As of December 31, 2015, the Company had borrowings of \$15,766,573 under its margin line at 2.0% interest. The REIT securities portfolio, to the extent not pledged to secure borrowings, provides the Company with additional liquidity and additional income. Such securities are subject to risk arising from adverse changes in market rates and prices, primarily interest rate risk and market price risk relating to equity securities. From time to time, the Company may use derivative instruments to mitigate interest rate risk; however, this has not occurred during any periods presented. At December 31, 2015 and 2014, the Company had \$75,011,260 and \$63,555,961, respectively, of securities available for sale. Included in these securities are Preferred Stock of \$14,219,712 and \$19,045,983 at December 31, 2015 and 2014, respectively. The realized net gain on securities available for sale at December 31, 2015 and 2014 amounted to \$204,230 and \$1,542,589, respectively. The unrealized net gain (loss) on securities available for sale at December 31, 2015 and 2014 amounted to \$(2,055,027) and \$5,079,921, respectively.

Property Maintenance and Improvement Policies

It is the policy of the Company to properly maintain, modernize, expand and make improvements to its properties when required. The Company anticipates that renovation expenditures with respect to its present properties during 2016 will be approximately \$12 million. It is the policy of the Company to maintain adequate insurance coverage on all of its properties; and, in the opinion of the Company, all of its properties are adequately insured.

Number of Employees

As of February 29, 2016, the Company had approximately 295 employees, including Officers. During the year, the Company hires approximately 50 part-time and full-time temporary employees as grounds keepers, lifeguards, and for emergency repairs.

Financial Information

Management views the Company as a single segment based on its method of internal reporting in addition to its allocation of capital and resources. For required financial information related to our operations and assets, please refer to our consolidated financial statements, including the notes thereto, included in Item 8 “Financial Statements and Supplementary Data” in this Annual Report.

Item 1A – Risk Factors

The following risk factors address the material risks concerning our business. If any of the risks discussed in this report were to occur, our business, prospects, financial condition, results of operation and our ability to service our debt and make distributions to our shareholders could be materially and adversely affected and the market price per share of our stock could decline significantly. Some statements in this report, including statements in the following risk factors, constitute forward-looking statements. Please refer to the section entitled “Cautionary Statement Regarding Forward-Looking Statements.”

Risks Related to Global Financial Conditions

Disruptions in financial markets could affect our ability to obtain financing on reasonable terms and have other adverse effects on us and the market price of our securities. Since 2008, the United States stock and credit markets have experienced significant price volatility, dislocations and liquidity disruptions, which have caused market prices of many stocks and debt securities to fluctuate substantially and the spreads on prospective debt financings to widen considerably. These circumstances have materially impacted liquidity in the financial markets, making terms for certain financings less attractive, and in certain cases have resulted in the unavailability of certain types of financing. War in certain Middle Eastern countries, the slowing of the Chinese economy and the recent decline in petroleum prices, among other factors, have added to the uncertainty in the capital markets. Uncertainty in the stock and credit markets may negatively impact our ability to access additional financing at reasonable terms, which may negatively affect our ability to acquire properties and otherwise pursue our investment strategy. A prolonged downturn in the stock or credit markets may cause us to seek alternative sources of potentially less attractive financing, and may require us to adjust our investment strategy accordingly. These types of events in the stock and credit markets may make it more difficult or costly for us to raise capital through the issuance of the common stock, preferred stock or debt securities. The potential disruptions in the financial markets may have a material adverse effect on the market value of our securities, and the return we receive on our properties and investments, as well as other unknown adverse effects on us or the economy in general.

Real Estate Industry Risks

General economic conditions and the concentration of our properties in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan may affect our ability to generate sufficient revenue. The market and economic conditions in our current markets may significantly affect manufactured home occupancy or rental rates. Occupancy and rental rates, in turn, may significantly affect our revenues, and if our communities do not generate revenues sufficient to meet our operating expenses, including debt service and capital expenditures, our cash flow and ability to pay or refinance our debt obligations could be adversely affected. As a result of the geographic concentration of our properties in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan, we are exposed

to the risks of downturns in the local economy or other local real estate market conditions which could adversely affect occupancy rates, rental rates, and property values in these markets.

Other factors that may affect general economic conditions or local real estate conditions include:

- the national and local economic climate which may be adversely impacted by, among other factors, plant closings, and industry slowdowns;
- local real estate market conditions such as the oversupply of manufactured home sites or a reduction in demand for manufactured home sites in an area;
- the number of repossessed homes in a particular market;
- the lack of an established dealer network;
- the rental market which may limit the extent to which rents may be increased to meet increased expenses without decreasing occupancy rates;
- the safety, convenience and attractiveness of our properties and the neighborhoods where they are located;
- zoning or other regulatory restrictions;
- competition from other available manufactured home communities and alternative forms of housing (such as apartment buildings and single-family homes);
- our ability to provide adequate management, maintenance and insurance;
- increased operating costs, including insurance premiums, real estate taxes and utilities; and
- the enactment of rent control laws or laws taxing the owners of manufactured homes.

Our income would also be adversely affected if tenants were unable to pay rent or if sites were unable to be rented on favorable terms. If we were unable to promptly relet or renew the leases for a significant number of sites, or if the rental rates upon such renewal or reletting were significantly lower than expected rates, then our business and results of operations could be adversely affected. In addition, certain expenditures associated with each property (such as real estate taxes and maintenance costs) generally are not reduced when circumstances cause a reduction in income from the property.

We may be unable to compete with our larger competitors and other alternatives available to tenants or potential tenants of our properties, which may in turn adversely affect our profitability. The real estate business is highly competitive. We compete for manufactured home community investments with numerous other real estate entities, such as individuals, corporations, REITs and other enterprises engaged in real estate activities. In many cases, the competing concerns may be larger and better financed than we are, making it difficult for us to secure new manufactured home community investments. Competition among private and institutional purchasers of manufactured home community investments has resulted in increases in the purchase price paid for manufactured home communities and consequent higher fixed costs. To the extent we are unable to effectively compete in the marketplace, our business may be adversely affected.

Our ability to sell manufactured homes may be affected by various factors, which may in turn adversely affect our profitability. S&F operates in the manufactured home market offering homes for sale to tenants and prospective tenants of our communities. The market for the sale of manufactured homes may be adversely affected by the following factors:

- downturns in economic conditions which adversely impact the housing market;
- an oversupply of, or a reduced demand for, manufactured homes;
- the difficulty facing potential purchasers in obtaining affordable financing as a result of heightened lending criteria; and
- an increase or decrease in the rate of manufactured home repossessions which provide aggressively priced competition to new manufactured home sales.

Any of the above listed factors could adversely impact our rate of manufactured home sales, which would result in a decrease in profitability.

Costs associated with taxes and regulatory compliance may reduce our revenue. We are subject to significant regulation that inhibits our activities and may increase our costs. Local zoning and use laws, environmental statutes and other governmental requirements may restrict expansion, rehabilitation and reconstruction activities. These regulations may prevent us from taking advantage of economic opportunities. Legislation such as the Americans with Disabilities Act may require us to modify our properties at a substantial cost and noncompliance could result in the imposition of fines or an award of damages to private litigants. Future legislation may impose additional requirements. We cannot predict what requirements may be enacted or amended or what costs we will incur to comply with such requirements. Costs resulting from changes in real estate laws, income taxes, service or other taxes may adversely affect our funds from operations and our ability to pay or refinance our debt. Similarly, changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures, which would adversely affect our business and results of operations.

Licensing laws and compliance could affect our profitability. We are subject to the Secure and Fair Enforcement for Mortgage Licensing Act of 2008 (“SAFE Act”), which requires that we obtain appropriate licenses pursuant to the Nationwide Mortgage Licensing System & Registry in each state where we conduct business. There are extensive federal and state requirements mandated by the SAFE Act and other laws pertaining to financing, including the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”), and there can be no assurance that we will obtain or renew our SAFE Act licenses, which could result in fees and penalties and have an adverse impact on our ability to continue with our home financing activities.

Rent control legislation may harm our ability to increase rents. State and local rent control laws in certain jurisdictions may limit our ability to increase rents and to recover increases in operating expenses and the costs of capital improvements. Currently, rent control affects only two of our manufactured home communities, both of which are in New Jersey, and has resulted in slower growth of earnings from these properties. However, we may purchase additional properties in markets that are either subject to rent control or in which rent-limiting legislation exists or may be enacted.

Our investments are concentrated in the manufactured housing/residential sector and our business would be adversely affected by an economic downturn in that sector. Our investments in real estate assets are primarily concentrated in the manufactured housing/residential sector. This concentration may expose us to the risk of economic downturns in this sector to a greater extent than if our business activities included a more significant portion of other sectors of the real estate industry.

Environmental liabilities could affect our profitability. Under various federal, state and local laws, ordinances and regulations, an owner or operator of real estate is liable for the costs of removal or remediation of certain hazardous substances at, on, under or in such property, as well as certain other potential costs relating to hazardous or toxic substances. Such laws often impose such liability without regard to whether the owner knew of, or was responsible for, the presence of such hazardous substances. A conveyance of the property, therefore, does not relieve the owner or operator from liability. As a current or former owner and operator of real estate, we may be required by law to investigate and clean up hazardous substances released at or from the properties we currently own or operate or have in the past owned or operated. We may also be liable to the government or to third parties for

property damage, investigation costs and cleanup costs. In addition, some environmental laws create a lien on the contaminated site in favor of the government for damages and costs the government incurs in connection with the contamination. Contamination may adversely affect our ability to sell or lease real estate or to borrow using the real estate as collateral. Persons who arrange for the disposal or treatment of hazardous substances also may be liable for the costs of removal or remediation of such substances at a disposal or treatment facility owned or operated by another person. In addition, certain environmental laws impose liability for the management and disposal of asbestos-containing materials and for the release of such materials into the air. These laws may provide for third parties to seek recovery from owners or operators of real properties for personal injury associated with asbestos-containing materials. In connection with the ownership, operation, management, and development of real properties, we may be considered an owner or operator of such properties and, therefore, are potentially liable for removal or remediation costs, and also may be liable for governmental fines and injuries to persons and property. When we arrange for the treatment or disposal of hazardous substances at landfills or other facilities owned by other persons, we may be liable for the removal or remediation costs at such facilities. We are not aware of any environmental liabilities relating to our investment properties which would have a material adverse effect on our business, assets, or results of operations. However, we cannot assure you that environmental liabilities will not arise in the future and that such liabilities will not have a material adverse effect on our business, assets or results of operation.

Of the ninety-eight manufactured home communities we currently operate, thirty-nine have their own wastewater treatment facility or water distribution system, or both. At these locations, we are subject to compliance with monthly, quarterly and yearly testing for contaminants as outlined by the individual state's Department of Environmental Protection Agencies. Currently, we are not subject to radon or asbestos monitoring requirements.

Additionally, in connection with the management of the properties or upon acquisition or financing of a property, the Company authorizes the preparation of Phase I or similar environmental reports (which involves general inspections without soil sampling or ground water analysis) completed by independent environmental consultants. Based upon such environmental reports and the Company's ongoing review of its properties, as of the date of this Annual Report, the Company is not aware of any environmental condition with respect to any of its properties which it believes would be reasonably likely to have a material adverse effect on its financial condition and/or results of operations. However, these reports cannot reflect conditions arising after the studies were completed, and no assurances can be given that existing environmental studies reveal all environmental liabilities, that any prior owner or operator of a property or neighboring owner or operator did not create any material environmental condition not known to us, or that a material environmental condition does not otherwise exist as to any one or more properties.

Actions by our competitors may decrease or prevent increases in the occupancy and rental rates of our properties which could adversely affect our business. We compete with other owners and operators of manufactured home community properties, some of which own properties similar to ours in the same submarkets in which our properties are located. The number of competitive manufactured home community properties in a particular area could have a material adverse effect on our ability to lease sites and increase rents charged at our properties or at any newly acquired properties. In addition, other forms of multi-family residential properties, such as private and federally funded or assisted multi-family housing projects and single-family housing, provide housing alternatives to potential tenants of manufactured home communities. If our competitors offer housing at rental rates below current market rates or below the rental rates we currently charge our tenants, we may lose potential tenants, and we may be pressured to reduce our rental rates below those we currently charge in order to retain tenants when our tenants' leases expire. As a result, our financial condition, cash flow, cash available for distribution, and ability to satisfy our debt service obligations could be materially adversely affected.

Losses in excess of our insurance coverage or uninsured losses could adversely affect our cash flow. We generally maintain insurance policies related to our business, including casualty, general liability and other policies covering business operations, employees and assets. However, we may be required to bear all losses that are not adequately covered by insurance. In addition, there are certain losses that are not generally insured because it is not economically feasible to insure against them, including losses due to riots or acts of war. If an uninsured loss or a loss in excess of insured limits occurs with respect to one or more of our properties, then we could lose the capital we invested in the properties, as well as the anticipated profits and cash flow from the properties and, in the case of debt which is with recourse to us, we would remain obligated for any mortgage debt or other financial obligations related to the properties. Although we believe that our insurance programs are adequate, no assurance can be given that we

will not incur losses in excess of its insurance coverage, or that we will be able to obtain insurance in the future at acceptable levels and reasonable cost.

We may not be able to integrate or finance our acquisitions and our acquisitions may not perform as expected. We acquire and intend to continue to acquire manufactured home communities on a select basis. Our acquisition activities and their success are subject to the following risks:

- we may be unable to acquire a desired property because of competition from other well capitalized real estate investors, including both publicly traded REITs and institutional investment funds;
- even if we enter into an acquisition agreement for a property, it is usually subject to customary conditions to closing, including completion of due diligence investigations to our satisfaction, which may not be satisfied;
- even if we are able to acquire a desired property, competition from other real estate investors may significantly increase the purchase price;
- we may be unable to finance acquisitions on favorable terms;
- acquired properties may fail to perform as expected;
- acquired properties may be located in new markets where we face risks associated with a lack of market knowledge or understanding of the local economy, lack of business relationships in the area and unfamiliarity with local governmental and permitting procedures; and
- we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into our existing operations.

If any of the above were to occur, our business and results of operations could be adversely affected.

In addition, we may acquire properties subject to liabilities and without any recourse, or with only limited recourse, with respect to unknown liabilities. As a result, if a liability were to be asserted against us based upon ownership of those properties, we might have to pay substantial sums to settle it, which could adversely affect our cash flow.

We may be unable to sell properties when appropriate because real estate investments are illiquid. Real estate investments generally cannot be sold quickly and, therefore, will tend to limit our ability to vary our property portfolio promptly in response to changes in economic or other conditions. In addition, the Code limits our ability to sell our properties. The inability to respond promptly to changes in the performance of our property portfolio could adversely affect our financial condition and ability to service our debt and make distributions to our stockholders.

Financing Risks

We face risks generally associated with our debt. We finance a portion of our investments in properties and marketable securities through debt. We are subject to the risks normally associated with debt financing, including the risk that our cash flow will be insufficient to meet required payments of principal and interest. In addition, debt creates other risks, including:

- rising interest rates on our variable rate debt;
- failure to repay or refinance existing debt as it matures, which may result in forced disposition of assets on disadvantageous terms;
- refinancing terms less favorable than the terms of existing debt; and

- failure to meet required payments of principal and/or interest.

We mortgage our properties, which subjects us to the risk of foreclosure in the event of non-payment. We mortgage many of our properties to secure payment of indebtedness. If we are unable to meet mortgage payments, then the property could be foreclosed upon or transferred to the mortgagee with a consequent loss of income and asset value. A foreclosure of one or more of our properties could adversely affect our financial condition, results of operations, cash flow, ability to service debt and make distributions and the market price of our preferred and common stock and any other securities we issue.

We face risks related to “balloon payments” and refinancings. Certain of our mortgages will have significant outstanding principal balances on their maturity dates, commonly known as “balloon payments.” There can be no assurance that we will be able to refinance the debt on favorable terms or at all. To the extent we cannot refinance debt on favorable terms or at all, we may be forced to dispose of properties on disadvantageous terms or pay higher interest rates, either of which would have an adverse impact on our financial performance and ability to service debt and make distributions.

We face risks associated with our dependence on external sources of capital. In order to qualify as a REIT, we are required each year to distribute to our stockholders at least 90% of our REIT taxable income, and we are subject to tax on our income to the extent it is not distributed. Because of this distribution requirement, we may not be able to fund all future capital needs from cash retained from operations. As a result, to fund capital needs, we rely on third-party sources of capital, which we may not be able to obtain on favorable terms, if at all. Our access to third-party sources of capital depends upon a number of factors, including (i) general market conditions; (ii) the market’s perception of our growth potential; (iii) our current and potential future earnings and cash distributions; and (iv) the market price of our preferred and common stock. Additional debt financing may substantially increase our debt-to-total capitalization ratio. Additional equity issuance may dilute the holdings of our current stockholders.

We may become more highly leveraged, resulting in increased risk of default on our obligations and an increase in debt service requirements which could adversely affect our financial condition and results of operations and our ability to pay distributions. We have incurred, and may continue to incur, indebtedness in furtherance of our activities. Our governing documents do not limit the amount of indebtedness we may incur. Accordingly, our Board of Directors may vote to incur additional debt and would do so, for example, if it were necessary to maintain our status as a REIT. We could therefore become more highly leveraged, resulting in an increased risk of default on our obligations and in an increase in debt service requirements, which could adversely affect our financial condition and results of operations and our ability to pay distributions to stockholders.

Covenants in our credit agreements could limit our flexibility and adversely affect our financial condition. The terms of our various credit agreements and other indebtedness require us to comply with a number of customary financial and other covenants, such as maintaining debt service coverage and leverage ratios and maintaining insurance coverage. These covenants may limit our flexibility in our operations, and breaches of these covenants could result in defaults under the instruments governing the applicable indebtedness even if we had satisfied our payment obligations. If we were to default under our credit agreements, our financial condition would be adversely affected.

A change in the United States government policy with regard to Fannie Mae and Freddie Mac could impact our financial condition. Fannie Mae and Freddie Mac are a major source of financing for the manufactured housing real estate sector. We depend frequently on Fannie Mae and Freddie Mac to finance growth by purchasing or guarantying manufactured housing community loans. In February 2011, the Obama Administration released a report to Congress which included options, among others, to gradually shrink and eventually shut down Fannie Mae and Freddie Mac. We do not know when or if Fannie Mae or Freddie Mac will restrict their support of lending to our real estate sector or to us in particular. A final decision by the government to eliminate Fannie Mae or Freddie Mac, or reduce their acquisitions or guarantees of our mortgage loans, may adversely affect interest rates, capital availability and our ability to refinance our existing mortgage obligations as they come due and obtain additional long-term financing for the acquisition of additional communities on favorable terms or at all.

We face risks associated with the financing of home sales to customers in our manufactured home communities. To produce new rental revenue and to upgrade our communities, we sell homes to customers in our communities at competitive prices and finance these home sales through S&F. We allow banks and outside finance companies the first opportunity to finance these sales. We are subject to the following risks in financing these homes:

- the borrowers may default on these loans and not be able to make debt service payments or pay principal when due;
- the default rates may be higher than we anticipate;
- demand for consumer financing may not be as great as we anticipate or may decline;
- the value of property securing the installment notes receivable may be less than the amounts owed; and
- interest rates payable on the installment notes receivable may be lower than our cost of funds.

Additionally, there are many regulations pertaining to our home sales and financing activities. There are significant consumer protection laws and the regulatory framework may change in a manner which may adversely affect our operating results. The regulatory environment and associated consumer finance laws create a risk of greater liability from our home sales and financing activities and could subject us to additional litigation. We are also dependent on licenses granted by state and other regulatory authorities, which may be withdrawn or which may not be renewed and which could have an adverse impact on our ability to continue with our home sales and financing activities.

Risks Related to our Status as a REIT

If our leases are not respected as true leases for federal income tax purposes, we would fail to qualify as a REIT. To qualify as a REIT, we must, among other things, satisfy two gross income tests, under which specified percentages of our gross income must be passive income, such as rent. For the rent paid pursuant to our leases, to qualify for purposes of the gross income tests, the leases must be respected as true leases for federal income tax purposes and not be treated as service contracts, joint ventures or some other type of arrangement. We believe that our leases will be respected as true leases for federal income tax purposes. However, there can be no assurance that the Internal Revenue Service (“IRS”) will agree with this view. If the leases are not respected as true leases for federal income tax purposes, we would not be able to satisfy either of the two gross income tests applicable to REITs, and we could lose our REIT status.

Failure to make required distributions would subject us to additional tax. In order to qualify as a REIT, we must, among other requirements, distribute, each year, to our stockholders at least 90% of our taxable income, excluding net capital gains. To the extent that we satisfy the 90% distribution requirement, but distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed income. In addition, we will incur a 4% nondeductible excise tax on the amount, if any, by which our distributions (or deemed distributions) in any year are less than the sum of:

- 85% of our ordinary income for that year;
- 95% of our capital gain net earnings for that year; and
- 100% of our undistributed taxable income from prior years.

To the extent we pay out in excess of 100% of our taxable income for any tax year, we may be able to carry forward such excess to subsequent years to reduce our required distributions for purposes of the 4% nondeductible excise tax in such subsequent years. We intend to pay out our income to our stockholders in a manner intended to satisfy the 90% distribution requirement. Differences in timing between the recognition of income and the related cash receipts or the effect of required debt amortization payments could require us to borrow money or sell assets to pay out enough of our taxable income to satisfy the 90% distribution requirement and to avoid corporate income tax.

We may not have sufficient cash available from operations to pay distributions to our stockholders, and, therefore, distributions may be made from borrowings. The actual amount and timing of distributions to our stockholders will be determined by our Board of Directors in its discretion and typically will depend on the amount of cash available for distribution, which will depend on items such as current and projected cash requirements, limitations on distributions imposed by law on our financing arrangements and tax considerations. As a result, we may not have sufficient cash available from operations to pay distributions as required to maintain our status as a REIT. Therefore, we may need to borrow funds to make sufficient cash distributions in order to maintain our status as a REIT, which may cause us to incur additional interest expense as a result of an increase in borrowed funds for the purpose of paying distributions.

We may be required to pay a penalty tax upon the sale of a property. The federal income tax provisions applicable to REITs provide that any gain realized by a REIT on the sale of property held as inventory or other property held primarily for sale to customers in the ordinary course of business is treated as income from a “prohibited transaction” that is subject to a 100% penalty tax. Under current law, unless a sale of real property qualifies for a safe harbor, the question of whether the sale of real estate or other property constitutes the sale of property held primarily for sale to customers is generally a question of the facts and circumstances regarding a particular transaction. We intend that we and our subsidiaries will hold the interests in the real estate for investment with a view to long-term appreciation, engage in the business of acquiring and owning real estate, and make occasional sales as are consistent with our investment objectives. We do not intend to engage in prohibited transactions. We cannot assure you, however, that we will only make sales that satisfy the requirements of the safe harbors or that the IRS will not successfully assert that one or more of such sales are prohibited transactions.

We may be adversely affected if we fail to qualify as a REIT. If we fail to qualify as a REIT, we will not be allowed to deduct distributions to stockholders in computing our taxable income and will be subject to Federal income tax, including any applicable alternative minimum tax, at regular corporate rates. In addition, we might be barred from qualification as a REIT for the four years following disqualification. The additional tax incurred at regular corporate rates would reduce significantly the cash flow available for distribution to stockholders and for debt service. Furthermore, we would no longer be required to make any distributions to our stockholders as a condition to REIT qualification. Any distributions to noncorporate stockholders would be taxable as ordinary income to the extent of our current and accumulated earnings and profits, although such dividend distributions generally would be subject to a top federal tax rate of 20%. Corporate distributees would in that case generally be eligible for the dividends received deduction on the distributions, subject to limitations under the Code.

To qualify as a REIT, we must comply with certain highly technical and complex requirements. We cannot be certain we have complied, and will always be able to comply, with the requirements to qualify as a REIT because there are few judicial and administrative interpretations of these provisions. In addition, facts and circumstances that may be beyond our control may affect our ability to continue to qualify as a REIT. We cannot assure you that new legislation, regulations, administrative interpretations or court decisions will not change the tax laws significantly with respect to our qualification as a REIT or with respect to the Federal income tax consequences of qualification. We believe that we have qualified as a REIT since our inception and intend to continue to qualify as a REIT. However, we cannot assure you that we are qualified or will remain qualified.

There is a risk of changes in the tax law applicable to REITs. Because the IRS, the United States Treasury Department and Congress frequently review federal income tax legislation, we cannot predict whether, when or to what extent new federal tax laws, regulations, interpretations or rulings will be adopted. Any of such legislative action may prospectively or retroactively modify our tax treatment and, therefore, may adversely affect taxation of us and/or our investors.

We may be unable to comply with the strict income distribution requirements applicable to REITs. To maintain qualification as a REIT under the Code, a REIT must annually distribute to its stockholders at least 90% of its REIT taxable income, excluding the dividends paid deduction and net capital gains. This requirement limits our ability to accumulate capital. We may not have sufficient cash or other liquid assets to meet the distribution requirements. Difficulties in meeting the distribution requirements might arise due to competing demands for our funds or to timing differences between tax reporting and cash receipts and disbursements, because income may have to be reported before cash is received, because

expenses may have to be paid before a deduction is allowed, because deductions may be disallowed or limited or because the IRS may make a determination that adjusts reported income. In those situations, we might be required to borrow funds or sell properties on adverse terms in order to meet the distribution requirements and interest and penalties could apply which could adversely affect our financial condition. If we fail to make a required distribution, we could cease to be taxed as a REIT.

If we were considered to have actually or constructively paid a “preferential dividend” to certain of our stockholders, our status as a REIT could be adversely affected. In order to qualify as a REIT, we must distribute annually to our stockholders at least 90% of our REIT taxable income (which does not equal net income as calculated in accordance with accounting principles generally accepted in the United States of America (“GAAP”)), determined without regard to the deduction for dividends paid and excluding net capital gain. For distributions to be counted as satisfying the annual distribution requirements for REITs, and to provide us with a REIT level tax deduction, the distributions for REIT years beginning prior to January 1, 2015 must not be “preferential dividends.” A dividend is not a preferential dividend if the distribution is pro rata among all outstanding shares of stock within a particular class, and in accordance with the preferences among different classes of stock as set forth in a REIT’s organizational documents. There is no de minimis exception with respect to preferential dividends; therefore, if the IRS were to take the position that we inadvertently paid a preferential dividend, for a REIT year beginning prior to January 1, 2015, we may be deemed to have failed the 90% distribution test, and our status as a REIT could be terminated for the year in which such determination is made if we were unable to cure such failure. While we believe that our operations have been structured in such a manner that we will not be treated as inadvertently paying preferential dividends, we can provide no assurance to this effect.

Notwithstanding our status as a REIT, we are subject to various federal, state and local taxes on our income and property. For example, we will be taxed at regular corporate rates on any undistributed taxable income, including undistributed net capital gains; provided, however, that properly designated undistributed capital gains will effectively avoid taxation at the stockholder level. We may be subject to other Federal income taxes and may also have to pay some state income or franchise taxes because not all states treat REITs in the same manner as they are treated for Federal income tax purposes.

Other Risks

We may not be able to obtain adequate cash to fund our business. Our business requires access to adequate cash to finance our operations, distributions, capital expenditures, debt service obligations, development and redevelopment costs and property acquisition costs, if any. We expect to generate the cash to be used for these purposes primarily with operating cash flow, borrowings under secured and unsecured loans, proceeds from sales of strategically identified assets and, when market conditions permit, through the issuance of debt and equity securities from time to time. We may not be able to generate sufficient cash to fund our business, particularly if we are unable to renew leases, lease vacant space or re-lease space as leases expire according to our expectations.

We are dependent on key personnel. Our executive and other senior officers have a significant role in our success. Our ability to retain our management group or to attract suitable replacements should any members of the management group leave is dependent on the competitive nature of the employment market. The loss of services from key members of the management group or a limitation in their availability could adversely affect our financial condition and cash flow. Further, such a loss could be negatively perceived in the capital markets.

We may amend our business policies without stockholder approval. Our Board of Directors determines our growth, investment, financing, capitalization, borrowing, REIT status, operations and distributions policies. Although our Board of Directors has no present intention to change or reverse any of these policies, they may be amended or revised without notice to stockholders. Accordingly, stockholders may not have control over changes in our policies. We cannot assure you that changes in our policies will serve fully the interests of all stockholders.

The market value of our preferred and common stock could decrease based on our performance and market perception and conditions. The market value of our preferred and common stock may be based primarily upon the market’s perception of our growth potential and current and future cash dividends, and may be secondarily based upon the real estate market value of our underlying assets. The market price of our preferred and common stock is influenced by

their respective distributions relative to market interest rates. Rising interest rates may lead potential buyers of our stock to expect a higher distribution rate, which would adversely affect the market price of our stock. In addition, rising interest rates would result in increased expense, thereby adversely affecting cash flow and our ability to service our indebtedness and pay distributions.

There are restrictions on the transfer of our capital stock. To maintain our qualification as a REIT under the Code, no more than 50% in value of our outstanding capital stock may be owned, actually or by attribution, by five or fewer individuals, as defined in the Code to also include certain entities, during the last half of a taxable year. Accordingly, our charter contains provisions restricting the transfer of our capital stock.

Our earnings are dependent, in part, upon the performance of our investment portfolio. As permitted by the Code, we invest in and own securities of other REITs, which we generally limit to no more than approximately 15% of our undepreciated assets. To the extent that the value of those investments declines or those investments do not provide a return, our earnings and cash flow could be adversely affected.

We are subject to restrictions that may impede our ability to effect a change in control. Certain provisions contained in our charter and bylaws and certain provisions of Maryland law may have the effect of discouraging a third party from making an acquisition proposal for us and thereby inhibit a change in control. These provisions include the following:

- Our charter provides for three classes of directors with the term of office of one class expiring each year, commonly referred to as a “staggered board.” By preventing common stockholders from voting on the election of more than one class of directors at any annual meeting of stockholders, this provision may have the effect of keeping the current members of our Board of Directors in control for a longer period of time than stockholders may desire.
- Our charter generally limits any holder from acquiring more than 9.8% (in value or in number, whichever is more restrictive) of our outstanding equity stock (defined as all of our classes of capital stock, except our excess stock). While this provision is intended to assure our ability to remain a qualified REIT for Federal income tax purposes, the ownership limit may also limit the opportunity for stockholders to receive a premium for their shares of common stock that might otherwise exist if an investor was attempting to assemble a block of shares in excess of 9.8% of the outstanding shares of equity stock or otherwise effect a change in control.
- The request of stockholders entitled to cast at least a majority of all votes entitled to be cast at such meeting is necessary for stockholders to call a special meeting. We also require advance notice by common stockholders for the nomination of directors or proposals of business to be considered at a meeting of stockholders.
- Our Board of Directors may authorize and cause us to issue securities without shareholder approval. Under our charter, the board has the power to classify and reclassify any of our unissued shares of capital stock into shares of capital stock with such preferences, rights, powers and restrictions as the Board of Directors may determine.
- “Business combination” provisions that provide that, unless exempted, a Maryland corporation may not engage in certain business combinations, including mergers, dispositions of 10 percent or more of its assets, certain issuances of shares of stock and other specified transactions, with an “interested shareholder” or an affiliate of an interested shareholder for five years after the most recent date on which the interested shareholder became an interested shareholder, and thereafter unless specified criteria are met. An interested shareholder is defined generally as any person who beneficially owns 10% or more of the voting power of our shares or an affiliate thereof or an affiliate or associate of ours who was the beneficial owner, directly or indirectly, of 10% or more of the voting power of our then outstanding voting stock at any time within the two-year period immediately prior to the date in question. In our charter, we have expressly elected that the Maryland Business Combination Act not govern or apply to any transaction with our affiliated company MREIC, a Maryland corporation.

- The duties of directors of a Maryland corporation do not require them to, among other things (a) accept, recommend or respond to any proposal by a person seeking to acquire control of the corporation, (b) authorize the corporation to redeem any rights under, or modify or render inapplicable, any shareholders rights plan, (c) make a determination under the Maryland Business Combination Act or the Maryland Control Share Acquisition Act to exempt any person or transaction from the requirements of those provisions, or (d) act or fail to act solely because of the effect of the act or failure to act may have on an acquisition or potential acquisition of control of the corporation or the amount or type of consideration that may be offered or paid to the shareholders in an acquisition.

We cannot assure you that we will be able to pay distributions regularly. Our ability to pay distributions in the future is dependent on our ability to operate profitably and to generate cash from our operations and the operations of our subsidiaries. We cannot guarantee that we will be able to pay distributions on a regular quarterly basis in the future.

Future terrorist attacks and military conflicts could have a material adverse effect on general economic conditions, consumer confidence and market liquidity. Among other things, it is possible that interest rates may be affected by these events. An increase in interest rates may increase our costs of borrowing, leading to a reduction in our earnings. Terrorist acts affecting our properties could also result in significant damages to, or loss of, our properties. Additionally, we may be unable to obtain adequate insurance coverage on acceptable economic terms for losses resulting from acts of terrorism. Our lenders may require that we carry terrorism insurance even if we do not believe this insurance is necessary or cost effective. Should an act of terrorism result in an uninsured loss or a loss in excess of insured limits, we could lose capital invested in a property, as well as the anticipated future revenues from a property, while remaining obligated for any mortgage indebtedness or other financial obligations related to the property. Any loss of these types would adversely affect our financial condition.

We are subject to risks arising from litigation. We may become involved in litigation. Litigation can be costly, and the results of litigation are often difficult to predict. We may not have adequate insurance coverage or contractual protection to cover costs and liability in the event we are sued, and to the extent we resort to litigation to enforce our rights, we may incur significant costs and ultimately be unsuccessful or unable to recover amounts we believe are owed to us. We may have little or no control of the timing of litigation, which presents challenges to our strategic planning.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer. In the ordinary course of our business, we collect and store sensitive data, including our business information and the personal information of our residents and our employees, in our facility and on our network. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our network and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, disrupt our operations, damage our reputation, and cause a loss of confidence, which could adversely affect our business.

Item 2 – Properties

UMH Properties, Inc. is engaged in the ownership and operation of manufactured home communities located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. As of December 31, 2015, the Company owns ninety-eight manufactured home communities containing approximately 17,800 developed sites. The rents collectible from the land ultimately depend on the value of the home and land. Therefore, fewer but more expensive homes can actually produce the same or greater rents. For this reason, the number of developed sites operated by the Company is subject to change, and the number of developed sites listed is always an approximate number. The following table sets forth certain information concerning the Company’s real estate investments as of December 31, 2015. There is a long-term trend toward larger manufactured homes. Manufactured home communities designed for older manufactured homes must be modified to accommodate modern, wider and longer manufactured homes. These changes may decrease the number of homes that may be accommodated in a manufactured home community.

(1) Does not include vacant sites at Memphis Blues.

(2) Weighted average monthly rent per site.

In connection with the operation of its communities, approximately 20% of its developed sites operate as rental units consisting of approximately 3,700 developed sites. These rental units are homes owned by the Company and rented to residents. The Company engages in the rental of manufactured homes primarily in areas where the communities have existing vacancies. The rental homes produce income on both the home and the site which might otherwise be non-income producing. The Company sells the rental homes when the opportunity arises.

The Company also has approximately 1,300 additional sites in various stages of engineering/construction. Due to the difficulties involved in the approval and construction process, it is difficult to predict the number of sites which will be completed in a given year.

Significant Properties

The Company operates approximately \$578,000,000 (at original cost) in manufactured home properties. These consist of ninety-eight separate manufactured home communities and related improvements. No single community constitutes more than 10% of the total assets of the Company. Our larger properties consist of: Woods Edge with 598 developed sites, Port Royal Village with 464 developed sites, Catalina with 462 developed sites, Allentown with 434 developed sites, Heather Highlands with 404 developed sites, Broadmore Estates with 390 developed sites, Sandy Valley Estates with 364 developed sites, Countryside Village with 349 developed sites, Meadows with 335 developed sites, Holiday Village- IN with 326 developed sites, Highland Estates with 318 developed sites, Fairview Manor with 317 developed sites, and Maple Manor with 317 developed sites.

Mortgages on Properties

The Company has mortgages on many of its properties. The maturity dates of these mortgages range from the years 2016 to 2025. Interest rates vary from fixed rates ranging from 3.71% to 12.75% and variable rates of Prime plus 1.0% and LIBOR plus 3.0%. The weighted-average interest rate on our mortgages was approximately 4.5% at December 31, 2015. The aggregate balances of these mortgages total \$286,637,096 at December 31, 2015. (For additional information, see Part IV, Item 15(a) (1) (vi), Note 5 of the Notes to Consolidated Financial Statements – Loans and Mortgages Payable).

Item 3 – Legal Proceedings

The Company is subject to claims and litigation in the ordinary course of business. For additional information about legal proceedings, see Part IV, Item 15(a)(1)(vi), Note 12 of the Notes to Consolidated Financial Statements – Commitments, Contingencies and Legal Matters.

Item 4 – Mine Safety Disclosures

PART II

Item 5 – Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Since March 2, 2012, the Company’s common and preferred shares are traded on the New York Stock Exchange (“NYSE”), under the symbol “UMH”. Previously, the Company’s common and preferred shares were traded on the NYSE Amex. The per share range of high and low quotes for the Company’s common stock and distributions paid to common shareholders for each quarter of the last two years are as follows:

	2015			2014		
	High	Low	Distribution	High	Low	Distribution
First Quarter	\$10.40	\$9.27	\$ 0.18	\$9.95	\$9.01	\$ 0.18
Second Quarter	10.64	9.39	0.18	10.11	9.57	0.18
Third Quarter	10.09	9.01	0.18	10.41	9.31	0.18
Fourth Quarter	10.55	9.25	<u>0.18</u>	10.11	9.01	<u>0.18</u>
			<u>\$0.72</u>			<u>\$0.72</u>

On February 29, 2016, the closing price of the Company’s stock was \$9.39.

As of February 29, 2016, there were approximately 1,021 registered shareholders of the Company’s common stock based on the number of record owners.

For the years ended December 31, 2015 and 2014, total distributions paid by the Company for common stock amounted to \$18,747,120 or \$0.72 per share (\$0.72 as a return of capital) and \$16,285,828 or \$0.72 per share (\$0.01114 taxed as ordinary income, \$0.00265 taxed as capital gains and \$0.70621 as a return of capital), respectively.

We have historically paid regular quarterly distributions to holders of our common stock. In addition, we are obligated to make distributions to holders of shares of Series A and Series B Preferred Stock. It is the Company’s intention to continue making comparable quarterly distributions to holders of our common stock. On January 20, 2016, the Board of Directors declared a cash dividend of \$0.18 per share to be paid on March 15, 2016 to common shareholders of record as of the close of business on February 16, 2016. Future dividend policy is dependent on the Company’s earnings, capital requirements, REIT requirements, financial condition, availability and cost of bank financing and other factors considered relevant by the Board of Directors.

For the year ended December 31, 2015, total distributions paid by the Company for our Series A Preferred Stock amounted to \$7,556,588 or \$2.0625 per share (\$1.36264 taxed as ordinary income, \$0.03439 taxed as capital gains and \$0.66547 taxed as return of capital). For the year ended December 31, 2014, total distributions paid by the Company for our Series A Preferred Stock amounted to \$7,556,588 or \$2.0625 per share (\$1.66551 taxed as ordinary income and \$0.39699 taxed as capital gains).

On January 20, 2016, the Board of Directors declared a quarterly dividend of \$0.515625 per share for the period from December 1, 2015 through February 29, 2016, on the Company’s 8.25% Series A Cumulative Redeemable Preferred Stock payable March 15, 2016 to preferred shareholders of record as of the close of business on February 16, 2016. Series A preferred share dividends are cumulative and payable quarterly at an annual rate of \$2.0625 per share.

During the fourth quarter of 2015, the Company issued shares of Series B Preferred Stock, a new series, and will begin making distributions on the Series B Preferred Stock in 2016. On January 20, 2016, the Board of Directors declared an initial dividend of \$0.72466 for the period from October 20, 2015 through February 29, 2016, on the 8.0% Series B Cumulative Redeemable Preferred Stock payable March 15, 2016, to shareholders of record as of the close of business on February 16, 2016. Series B preferred share dividends are cumulative and payable quarterly at an annual rate of \$2.00 per share.

Issuer Purchases of Equity Securities

On January 20, 2016, the Board of Directors reaffirmed its Share Repurchase Program (the “Repurchase Program”) that authorizes the Company to purchase up to \$10,000,000 in the aggregate of the Company's common stock. The Repurchase Program was originally created in June 2008 and is intended to be implemented through purchases made from time to time using a variety of methods, which may include open market purchases, privately negotiated transactions or block trades, or by any combination of such methods, in accordance with applicable insider trading and other securities laws and regulations. The size, scope and timing of any purchases will be based on business, market and other conditions and factors, including price, regulatory and contractual requirements or consents, and capital availability. The Repurchase Program does not require the Company to acquire any particular amount of common stock, and the Repurchase Program may be suspended, modified or discontinued at any time at the Company's discretion without prior notice. There have been no purchases under the Repurchase Program to date.

Securities Authorized for Issuance Under Equity Compensation Plans

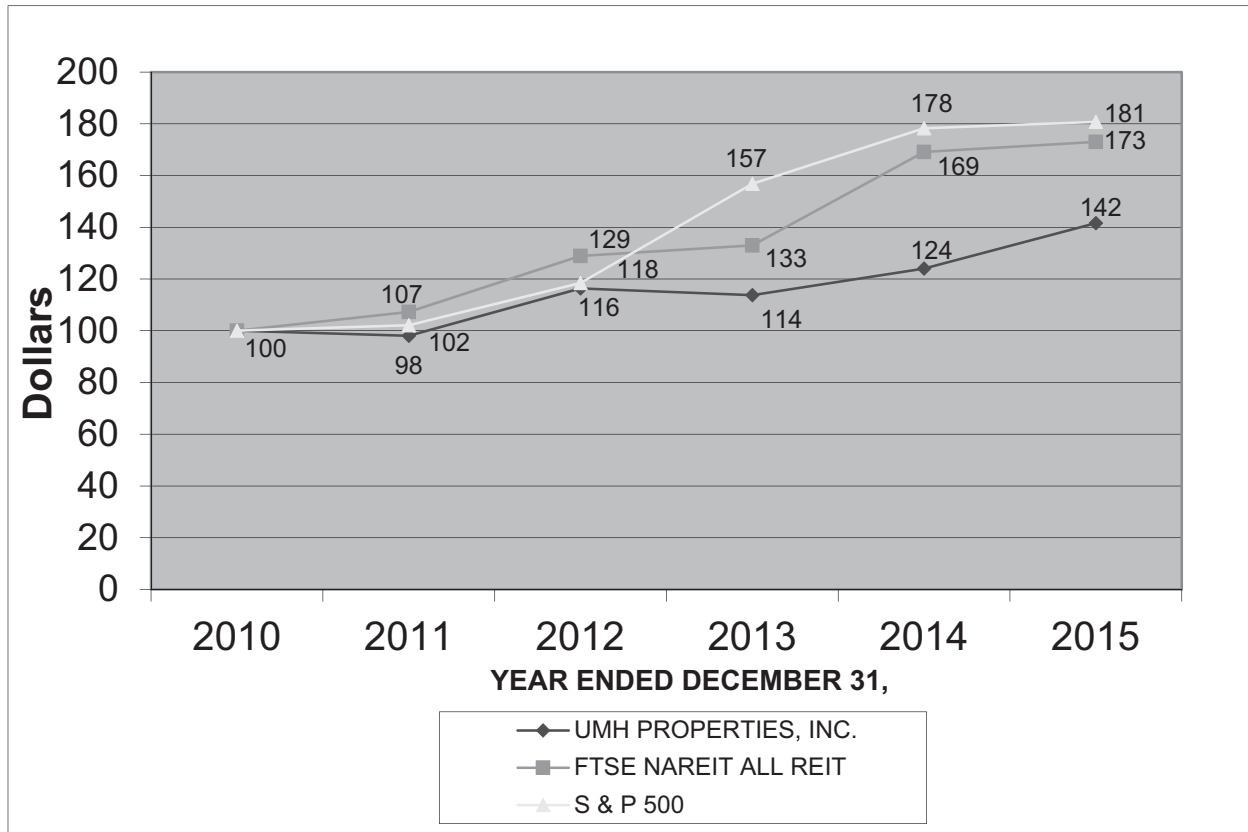

On June 13, 2013, the shareholders approved and ratified the Company's 2013 Stock Option and Stock Award Plan (the “2013 Plan”) authorizing the grant to officers and key employees of options to purchase up to 3,000,000 shares of common stock. The 2013 Plan replaced the Company's 2003 Stock Option and Award Plan, as amended, which, pursuant to its terms, terminated in 2013. The outstanding options under the 2003 Stock Option and Award Plan, as amended, remain outstanding until exercised, forfeited or expired. See Note 6 of the Notes to the Consolidated Financial Statements for a description of the plans. See Item 12 – Security Ownership of Certain Beneficial Owners and Management and Related Matters for a table of beneficial ownership of the Company's common stock.

The following table summarizes information, as of December 31, 2015, relating to equity compensation plans of the Company (including individual compensation arrangements) pursuant to which equity securities of the Company are authorized for issuance:

Cautionary Statement Regarding Forward-Looking Statements

Statements contained in this Form 10-K, that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements provide our current expectations or forecasts of future events. Forward-looking statements include statements about the Company’s expectations, beliefs, intentions, plans, objectives, goals, strategies, future events, performance and underlying assumptions and other statements that are not historical facts. Forward-looking statements can be identified by their use of forward-looking words, such as “may,” “will,” “anticipate,” “expect,” “believe,” “intend,” “plan,” “should,” “seek” or comparable terms, or the negative use of those words, but the absence of these words does not necessarily mean that a statement is not forward-looking.

The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. Forward-looking statements are not predictions of future events. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Some of these factors are described below and under the headings “Business”, “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations”. These and other risks, uncertainties and factors could cause our actual results to differ materially from those included in any forward-looking statements we make. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for us to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Important factors that could cause actual results to differ materially from our expectations include, among others:

- changes in the real estate market conditions and general economic conditions;
- the inherent risks associated with owning real estate, including local real estate market conditions, governing laws and regulations affecting manufactured housing communities and illiquidity of real estate investments;
- increased competition in the geographic areas in which we own and operate manufactured housing communities;
- our ability to continue to identify, negotiate and acquire manufactured housing communities and/or vacant land which may be developed into manufactured housing communities on terms favorable to us;
- our ability to maintain rental rates and occupancy levels;
- changes in market rates of interest;
- our ability to repay debt financing obligations;
- our ability to refinance amounts outstanding under our credit facilities at maturity on terms favorable to us;
- our ability to comply with certain debt covenants;
- our ability to integrate acquired properties and operations into existing operations;
- the availability of other debt and equity financing alternatives;
- continued ability to access the debt or equity markets;
- the loss of any member of our management team;
- our ability to maintain internal controls and processes to ensure all transactions are accounted for properly, all relevant disclosures and filings are timely made in accordance with all rules and regulations, and any potential fraud or embezzlement is thwarted or detected;
- the ability of manufactured home buyers to obtain financing;
- the level of repossessions by manufactured home lenders;
- market conditions affecting our investment securities;
- changes in federal or state tax rules or regulations that could have adverse tax consequences;
- our ability to qualify as a REIT for federal income tax purposes; and
- those risks and uncertainties referenced under the heading "Risk Factors" contained in this Form 10-K and the Company's filings with the Securities and Exchange Commission.

You should not place undue reliance on these forward-looking statements, as events described or implied in such statements may not occur. The forward-looking statements contained in this Form 10-K speak only as of the date hereof and the Company expressly disclaims any obligation to publicly update or revise any forward-looking statements whether as a result of new information, future events, or otherwise.

2015 Accomplishments

- Increased our rental home portfolio by 1,100 homes, representing an increase of 42% to 3,700 total rental homes; and
- Increased rental home occupancy from 91.5% to 92.9%.

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto included elsewhere herein.

The Company is a self-administered, self-managed, REIT with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities which includes leasing manufactured home spaces on an annual or month-to-month basis to residential manufactured home owners. The Company also leases homes to residents and, through its taxable REIT subsidiary, S&F, sells and finances homes to residents and prospective residents of our communities.

Our communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. UMH has continued to execute our growth strategy of purchasing well-located communities in our target markets, including the energy-rich Marcellus and Utica shale regions. During the year ended December 31, 2015, we have purchased ten manufactured home communities with four located in Pennsylvania, three located in Indiana, two located in Ohio and one located in Michigan, for an aggregate purchase price of \$81,217,000. These acquisitions added approximately 2,800 developed sites to our portfolio, bringing our total to ninety-eight communities containing approximately 17,800 developed sites. This represents an 18% increase in developed sites.

The Company's income primarily consists of rental and related income from the operation of its manufactured home communities. Income also includes sales of manufactured homes. In 2015, total income has increased 14% from the prior year and Community NOI has increased 24% from the prior year, primarily due to the acquisitions in 2014 and 2015. Due to the acquisition of approximately 2,800 sites at a weighted-average occupancy rate of 64%, overall occupancy has decreased from 82.3% at December 31, 2014 to 79.5% at December 31, 2015. Same property occupancy has increased from 83.2% at December 31, 2014 to 83.9% at December 31, 2015. Our sales operations have continued to be affected by the limited ability of homebuyers to qualify for loans to purchase homes. As a result of continued increases in single-family conventional home prices and apartment rental rates, our property type offers substantial comparative value that should result in increased demand. Additionally, the Company anticipates that as national home sales of first time home buyers and purchasers of retirement homes improve, our sales operations will return to profitability.

The macro-economic environment and current housing fundamentals continue to favor home rentals. Rental homes in a manufactured home community allow the resident to obtain the efficiencies of factory-built housing and the amenities of community living for less than the cost of other forms of affordable housing. We continue to see increased demand for rental homes. During 2015, we added a net of approximately 1,100 rental units to selected communities, including approximately 400 rental units acquired with fiscal 2015 community acquisitions. Occupied rental units represent approximately 24.7% of total occupied sites. Occupancy in rental homes continues to be strong and is at 92.9% as of December 31, 2015. We compare favorably with other types of rental housing, including apartments, and we will add additional rental homes, as demand dictates.

Revenues also include interest and dividend income and net realized gain on securities transactions. The Company holds a portfolio of marketable securities of other REITs with a fair value of \$75,011,260 at December 31, 2015. The Company generally limits its marketable securities investments to no more than approximately 15% of its un depreciated assets. The REIT securities portfolio provides the Company with additional liquidity and additional income and serves as a proxy for real estate when more favorable risk adjusted returns are not available. The Company invests in these REIT securities and, from time to time, may use margin debt when an adequate yield spread can be obtained. As of December 31, 2015, the Company has borrowings of \$15,766,573 under its margin line at 2.0% interest. As of December 31, 2015, the Company's portfolio consisted of 19% REIT preferred stocks and 81% REIT common stocks. The Company's weighted-average yield on the securities portfolio was approximately 7.7% at December 31, 2015. The Company realized a net gain of \$204,230 on sale of securities transactions in 2015 as compared to a net gain of \$1,542,589 during 2014. At December 31, 2015, the Company had unrealized losses of \$2,055,027 in its REIT securities portfolio. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities for investment on a long-term basis.

The Company continues to strengthen its balance sheet. During 2015, the Company raised approximately \$25 million in new capital through the DRIP. The Company also issued 1,801,200 shares of its new 8.0% Series B Cumulative Redeemable Preferred Stock in a registered direct placement, with net proceeds of approximately \$43 million after deducting offering related expenses. This capital was used to purchase communities, purchase rental homes and pay down certain loans and mortgages and for other general corporate purposes. As a result of this sale of preferred stock, it is anticipated that fewer new common shares will be issued and sold under our DRIP in 2016.

Over the past several years, we have taken advantage of historically low long-term mortgage rates and have been financing and refinancing our communities. The weighted average interest rate on our mortgage debt is now 4.5% at December 31, 2015, with a weighted-average maturity of 7.1 years.

At December 31, 2015, the Company had approximately \$6.5 million in cash and cash equivalents and \$20 million available on our credit facility, with an additional \$15 million potentially available pursuant to an accordion feature. We also had \$10.4 million available on our revolving lines of credit for the financing of home sales and the purchase of inventory. In addition, we held approximately \$75.0 million in marketable REIT securities encumbered by \$15.8 million in margin loans. In general, the Company may borrow up to 50% of the value of the marketable securities.

The Company intends to continue to increase its real estate investments. Our business plan includes acquiring communities that yield in excess of our cost of funds and then making physical improvements, including adding rental homes onto otherwise vacant sites. In 2014 and 2015, we have added a total of twenty-four manufactured home communities to our portfolio, encompassing approximately 4,400 developed sites. These manufactured home communities were acquired with an average occupancy rate of 68%. The Company will utilize the rental home program to increase occupancy rates and improve operating results at these communities. These manufactured home communities were acquired with an average occupancy rate of 68%. The Company will utilize the rental home program to increase occupancy rates and improve operating results at these communities. We have been positioning ourselves for future growth and will continue to seek opportunistic investments in 2016. There is no guarantee that any of these additional opportunities will materialize or that the Company will be able to take advantage of such opportunities. The growth of our real estate portfolio depends on the availability of suitable properties which meet the Company's investment criteria and appropriate financing. Competition in the market areas in which the Company operates is significant and affects acquisitions, occupancy levels, rental rates and operating expenses of certain properties. Transaction costs, such as legal, valuation, and other professional fees related to acquisitions are expensed as incurred.

See PART I, Item 1- Business and Item 1A – Risk Factors for a more complete discussion of the economic and industry-wide factors relevant to the Company, the Company's lines of business and principal products and services, and the opportunities, challenges and risks on which the Company is focused.

Results of Operations

2015 vs. 2014

Rental and related income increased from \$63,886,010 for the year ended December 31, 2014 to \$74,762,548 for the year ended December 31, 2015, or 17%. This increase was due to the acquisitions during 2014 and 2015, as well as an increase in rental rates, same property occupancy and rental homes. The Company has been raising rental rates by approximately 2% to 6% annually at most communities. Rent increases vary depending on overall market conditions and demand. Occupancy, as well as the ability to increase rental rates, directly affects revenues. The Company has been acquiring communities with vacant sites that can potentially be occupied and earn income in the future. Due to the acquisition of approximately 2,800 sites at a weighted-average occupancy rate of 64%, overall occupancy has decreased from 82.3% at December 31, 2014 to 79.5% at December 31, 2015. The overall occupancy rate is exclusive of 156 vacant sites at Memphis Blues caused by the 2011 flood. Same property occupancy has increased from 83.2% at December 31, 2014 to 83.9% at December 31, 2015. In the current environment, the demand for rental homes is high. As of December 31, 2015, we had approximately 3,700 rental homes with an occupancy of 92.9%. We continue to evaluate the demand for rental homes and will invest in additional homes as demand dictates. Vacant sites allow for future revenue growth.

Sales of manufactured homes decreased from \$7,545,923 for the year ended December 31, 2014 to \$6,754,123 for the year ended December 31, 2015, or 10%. The total number of homes sold was 134 homes in 2014 and 135 homes in 2015. There were 69 new homes sold in 2014 as compared to 65 in 2015. The Company's average sales price was \$56,313 and \$50,031 for the year ended December 31, 2014 and 2015, respectively. Cost of sales of manufactured homes decreased from \$5,832,540 for the year ended December 31, 2014 to \$5,058,350 for the year ended December 31, 2015, or 13%. Selling expenses decreased from \$2,983,376 for the year ended December 31, 2014 to \$2,788,360 for the year ended December 31, 2015, or 7%. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses less interest on the financing of inventory) remained relatively stable at \$1,881,936 for the year ended December 31, 2014 and \$1,851,780 for the year ended December 31, 2015. The losses on sales include selling expenses of approximately \$2.8 million for the year ended December 31, 2015. Many of these costs, such as rent, salaries, and to an extent, advertising and promotion, are fixed. Sales of manufactured homes have not yet returned to pre-recession levels. The U.S. homeownership rate fell to 63.8% in the fourth quarter of 2015, according to the U.S. Census. This is down from 69.2% at its peak at the end of 2004. Although, the conventional single-family housing market is gradually strengthening, the inability of our customers to sell their current homes, limited wage growth and new licensing laws and government regulations, including the SAFE Act and the Dodd-Frank Act, have all negatively impacted our sales. The Company continues to be optimistic about future sales and rental prospects given the fundamental need for affordable housing. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of our communities.

Community operating expenses increased from \$33,592,327 for the year ended December 31, 2014 to \$37,049,462 for the year ended December 31, 2015, or 10%. This increase was due to the acquisitions during 2014 and 2015. Additionally, the Company incurred additional non-recurring expenses relating to our acquisitions and to the one-time final settlement of a lawsuit relating to a 2010 flood in our Memphis Blues community of \$125,000.

Community NOI increased from \$30,293,683 for the year ended December 31, 2014 to \$37,713,086 for the year ended December 31, 2015, or 24%. This increase was primarily due to the acquisitions during 2014 and 2015 and an increase in rental rates, occupancy and rental homes. The Company has also been reducing its Operating Expense Ratio (defined as Community Operating Expenses divided by Rental and Related Income). The Operating Expense Ratio decreased from 52.6% for the year ended December 31, 2014 to 49.6% for the year ended December 31, 2015, a decrease of 300 basis points. Many acquisitions have deferred maintenance requiring higher than normal expenditures in the first two years of ownership. Because most of the community expenses are fixed costs, as occupancy rates continue to increase, these expense ratios will continue to improve. Because of the Company's ability to adjust its rental rates at least annually, inflation and changing prices have generally not had a material effect on revenues and income from continuing operations.

General and Administrative Expenses increased from \$6,465,973 for the year ended December 31, 2014 to \$7,345,644 for the year ended December 31, 2015, or 14%. This increase was primarily due to an increase in office space and personnel costs.

Acquisition costs, relating to the transaction, due diligence and other related costs associated with the acquisitions of communities, increased from \$483,522 for the year ended December 31, 2014 to \$957,219 for the year ended December 31, 2015, or 98%. This increase was due to the increase in acquisitions in 2015 with an aggregate purchase price of \$81,217,000 as compared to 2014 with an aggregate purchase price of \$42,550,000.

Depreciation expense increased from \$15,163,420 for the year ended December 31, 2014 to \$18,877,511 for the year ended December 31, 2015, or 24%. This increase was primarily due to the acquisitions and increase in rental homes during 2014 and 2015.

Interest income decreased from \$2,098,974 for the year ended December 31, 2014 to \$1,819,567 for the year ended December 31, 2015, or 13%. This decrease was primarily due to a decrease in the average balance of notes receivable from \$22.2 million for the year ended December 31, 2014 to \$19.5 million for the year ended December 31, 2015.

Dividend income increased from \$4,065,986 for the year ended December 31, 2014 to \$4,399,181 for the year ended December 31, 2015, or 8%. This increase was due to an increase in the average balance of securities from \$61,405,452 for the year ended December 31, 2014 to \$69,283,611 for the year ended December 31, 2015 and from the increase in the Company's weighted-average yield on the securities portfolio which was approximately 6.1% and 7.7% as of December 31, 2014 and 2015, respectively.

Realized gain on sale of securities transactions, net consists of the following:

	Year Ended December 31,	
	2015	2014
Gross realized gains	\$208,200	\$1,555,656
Gross realized losses	(3,970)	(13,067)
Total Realized Gain on Sale of Securities Transactions, net	<u>\$204,230</u>	<u>\$1,542,589</u>

The Company had an accumulated net unrealized loss on its securities portfolio of \$2,055,026 as of December 31, 2015.

Other income remained relatively stable for the year ended December 31, 2015 as compared to the year ended December 31, 2014.

Interest expense increased from \$10,194,472 for the year ended December 31, 2014 to \$13,245,429 for the year ended December 31, 2015, or 30%. This increase was primarily due to the new mortgage loans for the community acquisitions as well as additional community financings/refinancings in 2015. During the year, we obtained 21 new mortgage loans totaling \$139 million. The average balance of mortgages payable was approximately \$235 million during 2015 as compared to approximately \$172 million during 2014. The increase in interest expense was partially offset by the decrease in the weighted-average interest rate on its mortgages which was 4.5% at December 31, 2015 as compared to 4.8% at December 31, 2014.

Amortization of financing costs increased from \$522,250 for the year ended December 31, 2014 to \$829,017 for the year ended December 31, 2015, or 59%. This increase was primarily due to the writeoff of unamortized deferred financing costs of \$231,590 associated with the early extinguishment of debt as well as costs associated with the new/assumed mortgages in 2014 and 2015.

2014 vs. 2013

Rental and related income increased from \$53,477,893 for the year ended December 31, 2013 to \$63,886,010 for the year ended December 31, 2014, or 19%. This increase was due to the acquisitions during 2013 and 2014, and an increase in rental rates, occupancy and rental homes.

The Company has been raising rental rates by approximately 2% to 6% annually at certain communities. Other communities received no increases. Occupancy, as well as the ability to increase rental rates, directly affects revenues. Exclusive of the vacant sites at Memphis Blues, the Company's occupancy rate has increased from 81.5% at December 31, 2013 to 82.3% at December 31, 2014. Same store occupancy has increased from 81.5% at December 31, 2013 to 83.2% at December 31, 2014. Some of the Company's vacant sites resulted from expansions completed before the downturn in the economy. The Company continues to evaluate further expansion at selected communities in order to increase the number of available sites, obtain efficiencies and generate increased revenues. In the current environment, the demand for rental homes is high. As of December 31, 2014, we had approximately 2,600 rental homes with an occupancy of 91.5%. We continue to evaluate the demand for rental homes and will invest in additional homes as demand dictates.

Sales of manufactured homes decreased from \$8,727,214 for the year ended December 31, 2013 to \$7,545,923 for the year ended December 31, 2014, or 14%. The number of homes sold decreased from 164 homes in 2013 to 134 homes in 2014. There were 69 new homes sold in 2014 as compared to 96 in 2013. Cost of sales of manufactured homes decreased from \$7,204,410 for the year ended December 31, 2013 to \$5,832,540 for the year ended December 31, 2014, or 19%. Selling expenses increased from \$1,985,834 for the year ended December 31, 2013 to \$2,983,376 for the year ended December 31, 2014, or 50%. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses less interest on the financing of inventory) increased from \$640,019 for the year ended December 31, 2013 to \$1,881,936 for the year ended December 31, 2014. The losses on sales include selling expenses of approximately \$3.0 million for the year ended December 31, 2014. Many of these costs, such as rent, salaries, and to an extent, advertising and promotion, are fixed. Selling expenses in 2014 also include additional costs associated with the opening of sales lots. Adverse conditions have continued to slow the manufactured housing industry and the broader housing market in the U.S. The inability of our customers to sell their current homes, limited wage growth new licensing laws, including the SAFE Act and the Dodd-Frank Act, have all negatively impacted our sales. However, the Company is optimistic about future sales and rental prospects given the fundamental need for housing. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of our communities. Because of the Company's ability to adjust prices at least annually, inflation and changing prices have generally not had a material effect on revenues and income from continuing operations.

Community operating expenses increased from \$29,140,920 for the year ended December 31, 2013 to \$33,592,327 for the year ended December 31, 2014, or 15%. This increase was due to the acquisitions during 2013 and 2014. Additionally, the Company incurred additional non-recurring expenses relating to deferred maintenance at a number of our acquisitions.

General and administrative expenses remained relatively stable for the year ended December 31, 2014 as compared to the year ended December 31, 2013.

Acquisition costs, relating to the transaction, due diligence and other related costs associated with the acquisitions of communities, decreased from \$1,455,542 for the year ended December 31, 2013 to \$483,522 for the year ended December 31, 2014, or 67%. This decrease was due to the decrease in acquisitions in 2014 with an aggregate purchase price of \$42,550,000 as compared to 2013 with an aggregate purchase price of \$88,270,000.

Depreciation expense increased from \$11,681,724 for the year ended December 31, 2013 to \$15,163,420 for the year ended December 31, 2014, or 30%. This increase was primarily due to the acquisitions during 2013 and 2014.

Interest income remained relatively stable for the year ended December 31, 2014 as compared to the year ended December 31, 2013.

Dividend income increased from \$3,481,514 for the year ended December 31, 2013 to \$4,065,986 for the year ended December 31, 2014, or 17%. This increase is due to the increase in the balance of securities from \$59,254,942 at December 31, 2013 to \$63,555,961 at December 31, 2014. The Company's weighted-average yield on the securities portfolio was approximately 6.1% and 7.0% as of December 31, 2014 and 2013, respectively.

The Company had an accumulated net unrealized gain on its securities portfolio of \$5,079,921 as of December 31, 2014.

Other income increased from \$211,051 for the year ended December 31, 2013 to \$328,888 for the year ended December 31, 2014, or 56%. This increase was primarily due to new contracts with cable companies at a number of communities where we received upfront fees from \$75 to \$125 for each occupied home site. The Company is also eligible to receive additional amounts based on the number of new customers generated by the cable company at the community.

Interest expense increased from \$7,849,835 for the year ended December 31, 2013 to \$10,194,472 for the year ended December 31, 2014, or 30%. This increase is primarily due to the new mortgage loans for the community acquisitions in 2014. The average balance of mortgages payable was approximately \$172 million during 2014 as compared to approximately \$135 million during 2013. The weighted-average interest rate on these mortgages was 4.8% at December 31, 2014 as compared to 4.5% at December 31, 2013.

Amortization of financing costs increased from \$462,362 for the year ended December 31, 2013 to \$522,250 for the year ended December 31, 2014, or 13%. This increase is primarily due to the assumption of mortgages associated with the acquisitions completed in 2013 and 2014.

Community NOI increased from \$24,336,973 for the year ended December 31, 2013 to \$30,293,683 for the year ended December 31, 2014, or 24%. This increase was due to the acquisitions during 2013 and 2014, and an increase in rental rates, occupancy and rental homes.

Liquidity and Capital Resources

The Company operates as a REIT deriving its income primarily from real estate rental operations. The Company's principal liquidity demands have historically been, and are expected to continue to be, distribution requirements, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured homes, investment in debt and equity securities of other REITs, financing of manufactured home sales and payments of expenses relating to real estate operations. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, financing and refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, proceeds from the DRIP, and access to the capital markets.

The Company has a DRIP in which participants can purchase stock from the Company at a price of approximately 95% of market. During 2015, amounts received, including dividends reinvested of \$2,006,287, totaled \$24,599,818. The Company also issued 1,801,200 shares of its new 8.0% Series B Cumulative Redeemable Preferred Stock in a registered direct placement, with net proceeds of approximately \$43 million after deducting offering related

expenses. As a result of this sale of preferred stock, it is anticipated that fewer new common shares will be issued and sold under our DRIP in 2016.

During 2015, the Company distributed to our common shareholders a total of \$18,747,120, including dividends reinvested. It is anticipated, although no assurances can be given, that the level of participation in the DRIP in 2016 will be comparable to 2015. In addition, the Company also paid \$7,556,588 in preferred dividends.

The Company intends to operate its existing properties from the cash flows generated by the properties. However, the Company's expenses are affected by various factors, including inflation. Increases in operating expenses raise the breakeven point for a property and, to the extent that they cannot be passed on through higher rents, reduce the amount of available cash flow which can adversely affect the market value of the property.

The Company has the ability to finance home sales, inventory purchases and rental home purchases. The Company has a \$10,000,000 revolving line of credit for the financing of homes, of which all was utilized at December 31, 2015, and revolving credit facilities totaling \$22,500,000 to finance inventory purchases, of which \$12,112,039 was utilized at December 31, 2015. We also have \$20,000,000 available on our credit facility, with an additional \$15,000,000 potentially available pursuant to an accordion feature.

As of December 31, 2015, the Company had \$6,535,897 of cash and cash equivalents and securities available for sale of \$75,011,260 encumbered by \$15,766,573 in margin loans. At December 31, 2015, the Company owns ninety-eight communities of which twenty-three are unencumbered. Subsequent to year-end, the Company completed the financing of one community (See Note 15 of the Notes to Consolidated Financial Statements). As of December 31, 2015, we have one mortgage with a balance of approximately \$8.6 million due in 2016. On February 25, 2016, this Credit Facility was extended to March 29, 2017. The Company's marketable securities and non-mortgaged properties provide us with additional liquidity. The Company believes that cash on hand, funds generated from operations, the DRIP and capital market, the funds available on the lines of credit, together with the ability to finance and refinance its properties will provide sufficient funds to adequately meet its obligations over the next several years.

The Company's focus is on real estate investments. The Company has historically financed purchases of real estate primarily through mortgages. During 2015, total investment property increased 29% or \$129,544,615. The Company made acquisitions of ten manufactured home communities totaling 2,774 developed sites at an aggregate purchase price of \$81,217,000. These acquisitions were funded through new mortgages, the use of our unsecured credit facility and the issuance of preferred stock. See Note 3 of the Notes to Consolidated Financial Statements for additional information on our acquisitions and Note 5 of the Notes to Consolidated Financial Statements for related debt transactions. The Company continues to evaluate acquisition opportunities. The funds for these acquisitions may come from bank borrowings, proceeds from the DRIP, and private placements or public offerings of common or preferred stock. To the extent that funds or appropriate properties are not available, fewer acquisitions will be made.

The Company also invests in rental homes and as of December 31, 2015 the Company owns approximately 3,700 rental homes making up approximately 20% of our sites. During 2015, rental homes increased by \$42,988,766. The Company added approximately 1,100 net rental homes to selected communities, including approximately 400 acquired with fiscal 2015 community acquisitions. The Company actively markets these rental homes for sale to existing residents. The Company estimates that in 2016 it will purchase approximately 700 manufactured homes to use as rental units for a total cost of approximately \$28,000,000. Rental home rates on new homes range from \$700-\$1,200 per month, including lot rent, depending on size, location and market conditions.

Additionally, the Company invests in marketable debt and equity securities of other REITs. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real estate when more favorable risk adjusted returns are not available. The Company generally limits its marketable securities investments to no more than approximately 15% of its undepreciated assets. The securities portfolio increased 18% or \$11,455,299 primarily due to purchases of \$23,019,035, partially offset by sales of securities with a cost of \$4,428,789 and a change in the unrealized gain (loss) of \$7,134,947. The Company from time to time may purchase these securities on margin when there is an adequate yield spread. At December 31, 2015, \$15,766,573 was outstanding on the margin loan at a 2.0% interest rate.

Net cash provided by operating activities amounted to \$25,708,212, \$24,326,461 and \$11,238,088 for the years ended December 31, 2015, 2014 and 2013, respectively. These increases were primarily due to the increase in income from operations generated from the acquisitions and the increased rental homes.

Net cash used by investing activities amounted to \$148,674,626, \$56,033,767 and \$110,365,339 for the years ended December 31, 2015, 2014 and 2013, respectively. Cash flows used by investing activities in 2015 increased as compared to 2014 primarily due to purchasing more manufactured home communities and securities available for sale in 2015 as compared to 2014. Cash flows used by investing activities in 2014 decreased as compared to 2013 primarily due to purchasing fewer manufactured home communities and securities available for sale in 2014 as compared to 2013.

Net cash provided by financing activities amounted to \$121,419,519, \$32,174,955 and \$95,706,570 for the years ended December 31, 2015, 2014 and 2013, respectively. Cash flows provided by financing activities in 2015 increased as compared to 2014 primarily due to new mortgages in 2015 for the purchase of manufactured home communities, in addition to the proceeds from our 8.00% Series B Preferred Offering. Cash flows provided by financing activities in 2014 decreased as compared to 2013 primarily due to new mortgages in 2013 for the purchase of manufactured home communities.

Cash flow was primarily used for purchases of manufactured home communities, capital improvements, payment of dividends, purchases of securities available for sale, purchase of inventory and rental homes, loans to customers for the sales of manufactured homes, and expansion of existing communities. The Company meets maturing mortgage obligations by using a combination of cash flow and refinancing. The dividend payments were primarily made from cash flow from operations.

Capital improvements include amounts needed to meet environmental and regulatory requirements in connection with the manufactured home communities that provide water or sewer service. Excluding expansions and rental home purchases, the Company is budgeting approximately \$12 million in capital improvements for 2016.

The Company's significant commitments and contractual obligations relate to its mortgages and loans payable, retirement benefits, and the lease on its corporate offices as described in Note 8 to the Consolidated Financial Statements.

The Company has 1,261 acres of undeveloped land which it could develop over the next several years. The Company continues to analyze the best use of its vacant land.

As of December 31, 2015, the Company had total assets of \$604,028,981 and total liabilities of \$357,790,556. The Company believes that it has the ability to meet its obligations and to generate funds for new investments.

Off-Balance Sheet Arrangements and Contractual Obligations

The Company has not executed any off-balance sheet arrangements.

The following is a summary of the Company's contractual obligations as of December 31, 2015:

Contractual Obligations	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Mortgages Payable	\$286,637,096	\$14,879,151	\$48,343,506	\$23,304,911	\$200,109,528
Interest on Mortgages Payable	78,726,366	12,554,311	20,987,218	18,910,784	26,274,053
Loans Payable	57,986,503	12,258,341	25,304,929	4,305,919	16,117,314
Interest on Loans Payable	5,149,386	2,156,014	1,590,140	1,035,573	367,659
Operating Lease Obligations	1,142,000	178,800	357,600	360,800	244,800
Retirement Benefits	500,000	50,000	-0-	-0-	450,000
Total	\$430,141,351	\$42,076,617	\$96,583,393	\$47,917,987	\$243,563,354

Mortgages payable represents the principal amounts outstanding based on scheduled payments. The interest rates on these mortgages vary from fixed rates ranging from 3.71% to 12.75% and variable rates of Prime plus 1.0% to LIBOR plus 3.0%. The weighted-average interest rate was approximately 4.5% at December 31, 2015.

Loans payable represents \$15,000,000 outstanding on the Company's unsecured line of credit with an interest rate ranging from LIBOR plus 2.0% to 2.75% or Prime plus 1.0% to 1.75%, based on the Company's overall leverage (interest rate of 2.80% as of December 31, 2015), \$15,766,573 outstanding on its margin line with an interest rate of 2.0% at December 31, 2015, \$12,112,039 outstanding on the Company's revolving credit agreements to finance inventory with interest rates ranging from prime with a minimum of 6% to Prime plus 2% with a minimum of 8% after 18 months (weighted average interest rate of 6.5% as of December 31, 2015), \$671,717 loans outstanding for the finance of rental homes with an interest rate of 6.99% at December 31, 2015, \$4,000,000 outstanding on its commercial term loan with an interest rate of 4.625% at December 31, 2015, \$10,000,000 outstanding on the Company's revolving line of credit secured by eligible notes receivables with an interest rate of prime plus 50 basis points (interest rate of 4.0% as of December 31, 2015), and \$436,174 outstanding on its automotive loans with a weighted average interest rate of 3.61%.

Operating lease obligations represent a lease, with a related party, for the Company's corporate offices. On May 1, 2015, the Company renewed this lease for additional space and for an additional seven-year term with monthly lease payments of \$14,900 through April 30, 2020 and \$15,300 through April 30, 2022. The Company is also responsible for its proportionate share of real estate taxes and common area maintenance.

Retirement benefits of \$500,000 represent the total future amount to be paid, on an undiscounted basis, relating to the Company's Founder and Chairman. These benefits are based upon his specific employment agreement. The agreement does not require the Company to separately fund the obligation and therefore will be paid from the general assets of the Company. The Company has accrued these benefits on a present value basis over the term of the agreement (See Note 8 of the Notes to Consolidated Financial Statements).

Supplemental Measures

In addition to the results reported in accordance with GAAP, management's discussion and analysis of financial condition and results of operations include certain non-GAAP financial measures that in management's view of the business we believe are meaningful as they allow the investor the ability to understand key operating details of our business both with and without regard to certain accounting conventions or items that may not always be indicative of recurring annual cash flow of the portfolio. These non-GAAP financial measures as determined and presented by us may not be comparable to related or similarly titled measures reported by other companies, and Community Net Operating Income ("Community NOI"), Funds from Operations ("FFO"), Core Funds from Operations ("Core FFO") and Normalized Funds from Operations ("Normalized FFO").

We define Community NOI as rental and related income less community operating expenses such as real estate taxes, repairs and maintenance, community salaries, utilities, insurance and other expenses. We believe that Community NOI is helpful to investors and analysts as a direct measure of the actual operating results of our manufactured home communities, rather than our Company overall. Community NOI should not be considered a substitute for the reported results prepared in accordance with GAAP. Community NOI should not be considered as an alternative to net income (loss) as an indicator of our financial performance, or to cash flows as a measure of liquidity; nor is it indicative of funds available for our cash needs, including our ability to make cash distributions.

The Company's Community NOI for the years ended 2015, 2014 and 2013 is calculated as follows:

	<u>2015</u>	<u>2014</u>	<u>2013</u>
Rental and related income	\$74,762,548	\$63,886,010	\$53,477,893
Less Other Community Operating Expense	<u>(37,049,462)</u>	<u>(33,592,327)</u>	<u>(29,140,920)</u>
Community NOI	<u>\$37,713,086</u>	<u>\$30,293,683</u>	<u>\$24,336,973</u>

We also assess and measure our overall operating results based upon an industry performance measure referred to as FFO, which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by NAREIT, represents net income (loss) attributable to common shareholders, as defined by GAAP, excluding extraordinary items, as defined under GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-GAAP supplemental measure of REIT operating performance. We define Core FFO as FFO plus acquisition costs and costs of early extinguishment of debt. We define Normalized FFO as Core FFO excluding gains and losses realized on securities investments and certain non-recurring charges. FFO, Core FFO and Normalized FFO should be considered as supplemental measures of operating performance used by REITs. FFO, Core FFO and Normalized FFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. The items excluded from FFO, Core FFO and Normalized FFO are significant components in understanding the Company's financial performance.

FFO, Core FFO and Normalized FFO (i) do not represent Cash Flow from Operations as defined by GAAP; (ii) should not be considered as an alternative to net income (loss) as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) are not alternatives to cash flow as a measure of liquidity. FFO, Core FFO and Normalized FFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.

The Company's FFO, Core FFO and Normalized FFO are calculated as follows:

	<u>2015</u>	<u>2014</u>	<u>2013</u>	<u>2012</u>	<u>2011</u>
Net Income (Loss) Attributable to Common Shareholders	\$(6,122,993)	\$(3,318,785)	\$(1,719,765)	\$1,749,339	\$2,039,497
Add: Depreciation Expense	18,877,511	15,163,420	11,681,724	7,357,158	5,962,338

Critical Accounting Policies and Estimates

The discussion and analysis of the Company's financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the Company's consolidated financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Significant accounting policies are defined as those that involve significant judgment and potentially could result in materially different results under different assumptions and conditions. Management believes the following critical accounting policies are affected by our more significant judgments and estimates used in the preparation of the Company's consolidated financial statements. For a detailed description of these and other accounting policies, see Note 2 of the Notes to Consolidated Financial Statements included in this Form 10-K.

Real Estate Investments

The Company applies Financial Accounting Standards Board Accounting Standards Codification ("ASC") 360-10, Property, Plant & Equipment ("ASC 360-10") to measure impairment in real estate investments. Rental properties are individually evaluated for impairment when conditions exist which may indicate that it is probable that the sum of expected future cash flows (on an undiscounted basis without interest) from a rental property is less than the carrying value under its historical net cost basis. These expected future cash flows consider factors such as future operating income, trends and prospects as well as the effects of leasing demand, competition and other factors. Upon determination that a permanent impairment has occurred, rental properties are reduced to their fair value. For properties to be disposed of, an impairment loss is recognized when the fair value of the property, less the estimated cost to sell, is less than the carrying amount of the property measured at the time there is a commitment to sell the property and/or it is actively being marketed for sale. A property to be disposed of is reported at the lower of its carrying amount or its estimated fair value, less its cost to sell. Subsequent to the date that a property is held for disposition, depreciation expense is not recorded.

Upon acquisition of a property, the Company applies ASC 805, Business Combinations ("ASC 805") and allocates the purchase price of the property based upon the fair value of the assets acquired, which generally consist of land, site and land improvements, buildings and improvements and rental homes. The Company allocates the purchase price of an acquired property generally determined by internal evaluation as well as third-party appraisal of the property obtained in conjunction with the purchase. Transaction costs, such as broker fees, transfer taxes, legal, accounting, valuation, and other professional and consulting fees, related to acquisitions are expensed as incurred.

The Company conducted a comprehensive review of all real estate asset classes in accordance with ASC 360-10-35-21, which indicates that asset values should be analyzed whenever events or changes in circumstances indicate that the carrying value of a property may not be fully recoverable. The process entails the analysis of property for instances where the net book value exceeds the estimated fair value. In accordance with ASC 360-10-35-17, an impairment loss shall be recognized if the carrying amount of a long-lived asset is not recoverable and exceeds its fair value. The Company utilizes the experience and knowledge of its internal valuation team to derive certain assumptions used to determine an operating property's cash flow. Such assumptions include lease-up rates, rental rates, rental growth rates, and capital expenditures. The Company reviewed its operating properties in light of the requirements of ASC 360-10 and determined that, as of December 31, 2015, the undiscounted cash flows over the holding period for these properties were in excess of their carrying values and, therefore, no impairment charges were required.

Securities Available for Sale

Investments in non-real estate assets consist primarily of marketable securities. The Company individually reviews and evaluates our marketable securities for impairment on a quarterly basis or when events or circumstances that may indicate possible impairment occur. The Company considers, among other things, credit aspects of the issuer, amount of decline in fair value over cost and length of time in a continuous loss position. The Company has developed a general policy of evaluating whether an unrealized loss is other than temporary. On a quarterly basis, the Company makes an initial review of every individual security in its portfolio. If the security is impaired, the Company first determines our intent and ability to hold this investment for a period of time sufficient to allow for any anticipated recovery in market value. Next, the Company determines the length of time and the extent of the impairment. Barring other factors, including the downgrading of the security or the cessation of dividends, if the fair value of the security is below cost by less than 20% for less than 6 months and the Company has the intent and ability to hold the security, the security is deemed to not be other than temporarily impaired. Otherwise, the Company reviews additional information to determine whether the impairment is other than temporary. The Company discusses and analyzes any relevant information known about the security, such as:

- a. Whether the decline is attributable to adverse conditions related to the security or to specific conditions in an industry or in a geographic area.
- b. Any downgrading of the security by a rating agency.
- c. Whether the financial condition of the issuer has deteriorated.
- d. Status of dividends – Whether dividends have been reduced or eliminated, or scheduled interest payments have not been made.
- e. Analysis of the underlying assets (including NAV analysis) using independent analysis or recent transactions.

The Company generally holds REIT securities long-term and has the ability and intent to hold securities to recovery. If a decline in fair value is determined to be other than temporary, an impairment charge is recognized in earnings and the cost basis of the individual security is written down to fair value as the new cost basis.

The Company's securities consist primarily of common and preferred stock of other REITs. These securities are all publicly-traded and purchased on the open market, through private transactions or through dividend reinvestment plans. These securities are classified among three categories: Held-to-maturity, trading and available-for-sale. As of December 31, 2015 and 2014, the Company's securities are all classified as available-for-sale and are carried at fair value based upon quoted market prices. Gains or losses on the sale of securities are based on identifiable cost and are accounted for on a trade date basis. Unrealized holding gains and losses are excluded from earnings and reported as a separate component of Shareholders' Equity until realized. The change in net unrealized holding gains and losses are reflected as comprehensive income (loss).

Other

Estimates are used when accounting for the allowance for doubtful accounts for our rents and loans receivable, potentially excess and obsolete inventory and contingent liabilities, among others. These estimates are susceptible to change and actual results could differ from these estimates. The effects of changes in these estimates are recognized in the period they are determined.

Item 7A – Quantitative and Qualitative Disclosures about Market Risk

The Company's principal market risk exposure is interest rate risk. The Company mitigates this risk by maintaining prudent amounts of leverage, minimizing capital costs and interest expense while continuously evaluating all available debt and equity resources and following established risk management policies and procedures, which

include the periodic use of derivatives. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes.

The following table sets forth information as of December 31, 2015, concerning the Company's long-term debt obligations, including principal cash flow by scheduled maturity, weighted average interest rates and estimated fair value.

	<u>Fixed Rate Carrying Value</u>	<u>Weighted Average Fixed Interest Rate</u>	<u>Variable Rate Carrying Value</u>	<u>Total Long-Term Debt</u>
2016	8,618,982	6.66%	-0-	8,618,982
2017	19,147,961	5.97%	11,416,309	30,564,270
2018	8,954,713	6.83%	678,288	9,633,001
2019	3,133,875	5.59%	-0-	3,133,875
2020	12,883,028	5.94%	-0-	12,883,028
Thereafter	221,803,940	4.06%	-0-	221,803,940
Total	<u>\$274,542,499</u>	4.49%	<u>\$12,094,597</u>	<u>\$286,637,096</u>
Estimated Fair Value	<u>\$276,657,074</u>		<u>\$12,094,597</u>	<u>\$288,751,671</u>

The Company's variable rate long-term debt consists of two mortgage loans with a total balance of \$12,094,597 as of December 31, 2015. Interest rates on these mortgages are at Prime plus 1.0% and LIBOR plus 3.0%. To minimize the variability that changes in interest rates could have on its future cash flows, the Company has entered into a separate interest rate swap agreement for one of these loans. This interest rate swap agreement has the effect of fixing the interest rate relative to a mortgage loan with a balance of approximately \$11.4 million at December 31, 2015. The unrealized loss in fair value of the interest rate swap agreement amounted to \$1,700 for the year ended December 31, 2015. The effective fixed interest rates on this loan is 3.89%.

The Company's remaining variable rate mortgage totals approximately \$678,000 as of December 31, 2015. Interest rates on this mortgage is Prime plus 1%. If prime increased or decreased by 1.0%, the Company believes its interest expense would have increased or decreased by approximately \$68,000, based on the balance of the variable rate long-term debt outstanding at December 31, 2015.

On March 29, 2013, the Company entered into a \$35 million Unsecured Revolving Credit Facility ("Credit Facility") with Bank of Montreal ("BMO"). The Company has the ability to increase the borrowing capacity by an amount not to exceed \$15 million, representing a maximum aggregate borrowing capacity of \$50 million, subject to various conditions, as defined in the agreement. The maturity date of the Credit Facility is March 29, 2016 with a one year extension available at the Company's option. On February 25, 2016, this Credit Facility was extended to March 29, 2017. Borrowings under the Credit Facility can be used for, among other things, acquisitions, working capital, capital expenditures, and repayment of other indebtedness. Borrowings bear interest at the Company's option of LIBOR plus 2.00% to 2.75% or BMO's prime lending rate plus 1.00% to 1.75%, based on the Company's overall leverage. The Company incurs a fee on the unused commitment amount of up to 0.35% per annum. The Credit Facility replaced the Company's previous \$5.0 million unsecured line of credit. As of December 31, 2015, the balance outstanding on the Credit Facility was \$15,000,000. Based on the current leverage ratio, interest on this borrowing is at LIBOR plus 2.75% for an interest rate of 2.80% as of December 31, 2015.

The Company also has approximately \$22,100,000 in variable rate debt. This debt primarily consists of approximately \$12.1 million outstanding on our inventory financing lines with interest rates ranging from prime with a minimum of 6% to Prime plus 2% with a minimum of 8% after 18 months (weighted average interest rate of 6.5% as of December 31, 2015) and \$10 million outstanding on our revolving line of credit to finance home sales with an interest rate of prime plus 50 basis points (interest rate of 4.00% as of December 31, 2015). The carrying value of the Company's variable rate debt approximates fair value at December 31, 2015. Additionally, at December 31, 2015,

the Company has fixed rate debt consisting of \$4,000,000 outstanding on its commercial term loan with an interest rate of 4.625%, approximately \$672,000 loan outstanding for the financing of rental homes with an interest rate of 6.99% and approximately \$436,000 outstanding on its automotive loans with a weighted average interest rate of 3.61%.

The Company invests in equity securities of other REITs and is primarily exposed to market price risk from adverse changes in market rates and conditions. The Company generally limits its marketable securities investments to no more than approximately 15% of its undepreciated assets. All securities are classified as available for sale and are carried at fair value. The Company obtains margin loans secured by its marketable securities. The interest rate on the margin account is the bank's margin rate and was 2.0% at December 31, 2015 and 2014. There was \$15,766,573 outstanding on the margin loans as of December 31, 2015. As of December 31, 2015, the value of marketable securities was \$75,011,260. In general, the Company may borrow up to 50% of the value of the marketable securities.

Item 9 – Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

There were no changes in, or any disagreements with, the Company's independent registered public accounting firm on accounting principles and practices or financial disclosure during the years ended December 31, 2015 and 2014.

Item 9A – Controls and Procedures

Disclosure Controls and Procedures

Management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Securities Exchange Act of 1934 Rule 13a-15(e) and 15d-15(e)) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to give reasonable assurances to the timely collection, evaluation and disclosure of information that would potentially be subject to disclosure under the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder as of December 31, 2015.

Internal Control over Financial Reporting

(a) Management’s Annual Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining effective internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). The Company’s internal control system was designed to provide reasonable assurance regarding the preparation and fair presentation of published financial statements. Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that we will detect or uncover failures to disclose material information otherwise required to be set forth in our periodic reports.

Management assessed the Company’s internal control over financial reporting as of December 31, 2015. This assessment was based on criteria for effective internal control over financial reporting established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”) (2013 framework). Based on this assessment, management has concluded that the Company’s internal control over financial reporting was effective as of December 31, 2015.

PKF O’Connor Davies, the Company’s independent registered public accounting firm, has issued their report on their audit of the Company’s internal control over financial reporting, a copy of which is included herein.

(b) **Attestation Report of the Independent Registered Public Accounting Firm**

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
UMH Properties, Inc.

We have audited UMH Properties, Inc.'s (the "Company") internal control over financial reporting as of December 31, 2015, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") (2013 framework). UMH Properties, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting included in the accompanying Item 9A. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control, based upon the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, (3) receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (4) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, UMH Properties, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015 based on criteria established in Internal Control-Integrated Framework issued by COSO (2013 framework).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of UMH Properties, Inc. as of December 31, 2015 and 2014, and the related consolidated statements of income (loss), comprehensive income (loss), shareholders' equity and cash flows for each of the three years in the period ended December 31, 2015 and our report dated March 8, 2016 expressed an unqualified opinion thereon.

New York, New York

Compensation Discussion and Analysis

Overview of Compensation Program

The Compensation Committee (for purposes of this analysis, the "Committee") of the Board has been appointed to discharge the Board's responsibilities relating to the compensation of the Company's executive officers. The Committee has the overall responsibility for approving and evaluating the executive officer compensation plans, policies and programs of the Company. The Committee's primary objectives include serving as an independent and objective party to review such compensation plans, policies and programs. The Committee has not retained or obtained the advice of a compensation committee consultant for determining or recommending the amount of executive or director compensation.

Throughout this report, the individuals who served as the Company's chief executive officer and chief financial officer during fiscal 2015, as well as certain other individuals included in the Summary Compensation Table presented below in Item 11 of this report, are sometimes referred to in this report as the "named executive officers."

Compensation Philosophy and Objectives

The Committee believes that a well-designed compensation program should align the goals of the chief executive officer with the goals of the shareholders, and that a significant part of the executive's compensation, over the long term, should be dependent upon the value created for shareholders. In addition, all executives should be held accountable through their compensation for the performance of the Company, and compensation levels should also reflect the executive's individual performance in an effort to encourage increased individual contributions to the Company's performance. The compensation philosophy, as reflected in the Company's employment agreements with its executives, is designed to motivate executives to focus on operating results and create long-term shareholder value by:

- establishing a plan that attracts, retains and motivates executives through compensation that is competitive with a peer group of other publicly-traded REITs;
- linking a portion of executives' compensation to the achievement of the Company's business plan by using measurements of the Company's operating results and shareholder return; and
- building a pay-for-performance system that encourages and rewards successful initiatives within a team environment.

The Committee believes that each of the above factors is important when determining compensation levels for named executive officers. The Committee reviews and approves the employment contracts for the Chairman of the Board, the President and Chief Executive Officer, and the Vice President and Chief Financial Officer, as well as other named executive officers, including performance goals and objectives. The Committee annually evaluates performance of these executive officers in light of those goals and objectives. The Committee considers the Company's performance, relative stockholder return, the total compensation provided to comparable officers at similarly-situated companies, and compensation given to named executive officers in prior years. The Committee uses the Residential Sector of the Real Estate Compensation Survey (the "Survey"), produced under the guidance of NAREIT, as a guide to setting compensation levels. Participant company data is not presented in a manner that specifically identifies any

named individual or company. The Survey details compensation by position type and company size with statistical salary and bonus information for each position. The Company's salary and bonus amounts are compared to the ranges presented for reasonableness. The Committee believes executive compensation packages provided by the Company to its executive officers should include both base salaries and annual bonus awards that reward corporate and individual performance, as well as give incentives to executives to meet or exceed established goals.

Role of Executive Officers in Compensation Decisions

The Committee makes all final compensation decisions for the Company's named executive officers. The Chairman of the Board and the President and Chief Executive Officer annually review the performance of the other named executive officers and then present their conclusions and recommendations to the Committee with respect to base salary adjustments and annual cash bonus and stock option and restricted stock awards. The Committee exercises its own discretion in modifying any recommended adjustments or awards, but does consider the recommendations from management who work closely with the other named executive officers.

Role of Grants of Stock Options and Restricted Stock in Compensation Analysis

The Committee views the grant of stock options and restricted stock awards as a form of long-term compensation. The Committee believes that such grants promote the Company's goal of retaining key employees, and aligns the key employee's interests with those of the Company's shareholders from a long-term perspective. The number of options or shares of restricted stock granted to each employee is determined by consideration of various factors including, but not limited to, the employee's contribution, title, responsibilities and years of service.

Role of Employment Agreements in Determining Executive Compensation

Most of the Company's currently employed named executive officers are parties to employment agreements. These agreements provide for base salaries, bonuses and customary fringe benefits. Other key elements of the Company's compensation program for the named executive officers are stock options, restricted stock awards and perquisites and other benefits. Each of these is addressed separately below. In determining initial compensation, the Committee considers all elements of a named executive officer's total compensation package in comparison to current market practices and other benefits.

Shareholder Advisory Vote

One way to determine if the Company's compensation program reflects the interests of shareholders is through their non-binding vote. At the Annual Meeting of Shareholders held on June 12, 2014, the Company's shareholders approved by their advisory vote the compensation of the named executive officers.

Base Salaries

Base salaries are paid for ongoing performance throughout the year. In order to compete for and retain talented executives who are critical to the Company's long-term success, the Committee has determined that the base salaries of named executive officers should approximate those of executives of other equity REITs that compete with the Company for employees, investors and business, while also taking into account the named executive officers' performance and tenure and the Company's performance relative to its peer companies within the REIT industry using the NAREIT Compensation Survey described above.

Bonuses

In addition to the provisions for base salaries under the terms of their employment agreements, the President and Chief Executive Officer and the Vice President and Chief Financial Officer are entitled to receive annual cash bonuses for each year during the terms of each respective agreement. These bonuses are based on the achievement of certain performance goals set by the Committee as described below.

For the President and Chief Executive Officer:

Increase same store occupancy Bonus	0.75% \$46,000	1.00% \$92,000	1.25% \$115,000
Increase same store revenue Bonus	3% \$46,000	4% \$92,000	5% \$138,000
Increase same store rental units Bonus	400 units \$92,000	500 units \$92,000	600 units \$115,000
Increase same store sales profit Bonus	Breakeven \$46,000	Up to \$500,000 \$46,000 plus 10% of profit	Over \$500,000 \$96,000 plus 12% of profit over \$500,000
Reduce and or maintain same store operating costs as a percentage of revenue Bonus	50% \$92,000	50% \$92,000	50% \$92,000
Reduce and or maintain administrative expense as a percentage of total operating revenue Bonus	10% \$92,000	10% \$92,000	10% \$92,000
Total Bonus Potential	\$414,000	\$556,000	\$708,000

For the Vice President and Chief Financial Officer:

Increase same store occupancy Bonus	0.75% \$35,000	1.00% \$70,000	1.25% \$88,000
Increase same store revenue Bonus	3% \$35,000	4% \$70,000	5% \$106,000
Increase same store rental units Bonus	400 units \$70,000	500 units \$70,000	625 units \$88,000
Increase same store sales profit Bonus	Breakeven \$35,000	Up to \$500,000 \$35,000 plus 10% of profit	Over \$500,000 \$85,000 plus 12% of profit over \$500,000
Reduce and or maintain same store operating costs as a percentage of revenue Bonus	50% \$70,000	50% \$70,000	50% \$70,000
Reduce and or maintain administrative expense as a percentage of total operating revenue Bonus	10% \$70,000	10% \$70,000	10% \$70,000
Total Bonus Potential	\$315,000	\$435,000	\$567,000

Bonuses awarded to the other named executive officers are recommended by the Chairman of the Board and the President and Chief Executive Officer and are approved by the Committee. The Company believes that short-term rewards in the form of cash bonuses to senior executives generally should reflect short-term results and should take into consideration both the profitability and performance of the Company and the performance of the individual, which may include comparing such individual's performance to the preceding year, reviewing the breadth and nature of the senior executives' responsibilities and valuing special contributions by each such individual. In evaluating performance of the Company annually, the Compensation Committee considers a variety of factors, including, among others, FFO, Core FFO, Normalized FFO, net income, growth in asset size, occupancy and total return to

shareholders. The Company considers FFO to be an important measure of an equity REIT's operating performance and has adopted the definition suggested by the National Association of Real Estate Investment Trusts (NAREIT), which defines FFO to mean net income computed in accordance with U.S. GAAP, excluding gains or losses from sales of property, plus real estate related depreciation and amortization. The company defines Core FFO as FFO plus acquisition costs and costs of early extinguishment of debt. The Company defines Normalized FFO as Core FFO excluding gains and losses realized on securities investments and certain non-recurring charges. The Company considers FFO, Core FFO and Normalized FFO to be meaningful, additional measures of operating performance primarily because it excludes the assumption that the value of its real estate assets diminishes predictably over time and because industry analysts have accepted these as performance measures.

Other factors considered include the employee's title and years of service. The employee's title generally reflects the employee's responsibilities and the employee's years of service may be considered in determining the level of bonus in comparison to base salary. The Committee has declined to use specific performance formulas with respect to the other named executive officers, believing that with respect to Company performance, such formulas do not adequately account for many factors, including, among others, the relative performance of the Company compared to its competitors during variations in the economic cycle, and that with respect to individual performance, such formulas are not a substitute for the subjective evaluation by the Committee of a wide range of management and leadership skills of each of the senior executives.

Stock Options and Restricted Stock Awards

The employment agreements for the President and Chief Executive Officer and the Vice President and Chief Financial Officer provides for the grant of restricted stock awards, based on the following:

President and Chief Executive Officer

Achievement of any of the performance goals previously stated	12,500
Discretion of the Compensation Committee	12,500

Vice President and Chief Financial Officer

Achievement of any of the performance goals previously stated	10,000
Discretion of the Compensation Committee	10,000

Stock options and restricted stock awards to the other named executive officers are recommended by the Chairman of the Board and the President and Chief Executive Officer. In making its decisions, the Committee does not use an established formula or focus on a specific performance target. The Committee recognizes that often outside forces beyond the control of management, such as economic conditions, changing real estate markets and other factors, may contribute to less favorable near term results even when sound strategic decisions have been made by the senior executives to position the Company for longer term profitability. Thus, the Compensation Committee also attempts to identify whether the senior executives are exercising the kind of judgment and making the types of decisions that will lead to future growth and enhanced asset value, even if the same are difficult to measure on a current basis. For example, in determining appropriate stock option and restricted stock awards, the Compensation Committee considers, among other matters, whether the senior executives have executed strategies that will provide adequate funding or appropriate borrowing capacity for future growth, whether acquisition strategies have been developed to ensure a future stream of reliable and increasing revenues for the Company, whether the selection of properties evidence appropriate risk management, including risks associated with real estate markets, and whether the administration of staff size and compensation appropriately balances the current and projected operating requirements of the Company with the need to effectively control overhead costs.

In 2015, the Compensation Committee received the recommendations from the Chairman of the Board and the President and Chief Executive Officer for the number of options or restricted stock to be awarded. The factors that were considered in awarding the stock options and restricted stock included the following progress that was made by the Company due to the efforts of management:

- Acquired 10 communities containing approximately 2,800 home sites for a total of \$81,217,000. This represents an 18% increase in developed sites compared to December 31, 2014;
- Increased Community NOI by 24.5%;
- Increased same property Community NOI by 17.2%;
- Increased same property occupancy from 83.2% to 83.9%;
- Increased year over year Normalized FFO per share by 14.6%
- Decreased our Operating Expense Ratio from 52.6% to 49.6%;
- Raised approximately \$25 million in common equity capital through our Dividend Reinvestment and Stock Purchase Plan;
- Issued 1,801,200 shares of its new 8.0% Series B Cumulative Redeemable Preferred Stock in a registered direct placement, with net proceeds of approximately \$43 million after deducting offering related expenses;
- Financed/refinanced 21 communities for a total of \$139 million, reducing our weighted average interest rate from 4.8% to 4.5% and increasing our weighted average maturity from 5.3 years to 7.1 years;
- Increased our rental home portfolio by 1,100 homes, representing an increase of 42% to 3,700 total rental homes;
- Increased rental home occupancy from 91.5% to 92.9%;
- Managed general and administrative costs to an appropriate level; and
- Maintained cash distributions to shareholders.

After considering the recommendations of the Chairman of the Board and the President and Chief Executive Officer, the Committee allocated the individual awards to the named executive officers based on the named executive officers' individual contributions to these accomplishments. Other factors considered in this allocation included the named executive officers' responsibilities and years of service. In addition, the awards were compared to each named officers' total compensation and compared with comparable REITs using the annual Compensation Survey published by NAREIT as a guide for setting total compensation.

Perquisites and Other Personal Benefits

The Company's employment agreements provide the named executive officers with perquisites and other personal benefits that the Company and the Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain superior employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to the named executive officers.

The named executive officers are provided the following benefits under the terms of their employment agreements: an allotted number of paid vacation weeks; eligibility for the executives, spouses and dependents in all Company sponsored employee benefits plans, including 401(k) plan, group health, accident, and life insurance, on such terms no less favorable than applicable to any other executive; use of an automobile; and, supplemental disability insurance, at the Company's cost, as agreed to by the Company and the named executive officer. Attributed costs of the personal benefits described above for the named executive officers for the fiscal year ended December 31, 2015, are included in "All Other Compensation" of the Summary Compensation Table provided below under Item 11 of this report.

Payments upon Termination or Change in Control

In addition, the named executive officers' employment agreements each contain provisions relating to change in control events and severance upon termination for events other than for cause or good reason (as defined under the terms of the employment agreements). These change in control and severance terms are designed to promote stability and continuity of senior management. Information regarding these provisions is included in "Employment Agreements" provided below in Item 11 of this report. There are no other agreements or arrangements governing change in control payments.

Evaluation

Mr. Eugene Landy is employed under an amended employment agreement with the Company. His base compensation under his amended contract was increased in 2014 to \$250,000 per year. Mr. Landy also received bonuses totaling \$134,615 primarily based on performance, including growth of the Company. Additionally, Mr. Eugene Landy received \$47,000 in director's fees and fringe benefits.

The Committee also reviewed the progress made by Mr. Samuel A. Landy, President and Chief Executive Officer and Ms. Anna T. Chew, Vice President and Chief Financial Officer. Mr. Samuel Landy is employed under an employment agreement with the Company. His base compensation under this contract was \$460,000 for 2015. In evaluating Mr. Samuel Landy's eligibility for an annual bonus, stock options and restricted stock awards, the Compensation Committee used the bonus schedule included in Mr. Samuel Landy's employment agreement as a guide.

Ms. Chew is employed under an employment agreement with the Company. Her base compensation under this contract is \$349,000 for 2015. In evaluating Ms. Chew's eligibility for an annual bonus, stock options and restricted stock awards, the Compensation Committee used the bonus schedule included in Ms. Chew's employment agreement as a guide.

The Committee has also approved the recommendations of the Chairman of the Board and the President and Chief Executive Officer concerning the other named executives' annual salaries, bonuses, option and restricted stock grants and fringe benefits.

In addition to its determination of the executive's individual performance levels for 2015, the Committee also compared the executive's total compensation for 2015 to that of similarly-situated personnel in the REIT industry using the NAREIT Compensation Survey described above. The Company's salary and bonus amounts were compared to the ranges presented for reasonableness. The Company's total compensation fell in the lowest range (25th percentile) of this survey.

Risk Management

The Compensation Committee has assessed our compensation program for the purpose of viewing and considering any risks presented by our compensation policies and practices that are likely to have a material adverse effect on us. As part of that assessment, management reviewed the primary elements of our compensation program, including base salary, annual bonus opportunities, equity compensation and severance arrangements. Management's risk assessment included a review of the overall design of each primary element of our compensation program, and an analysis of the various design features, controls and approval rights in place with respect to compensation paid to management and other employees that mitigate potential risks to us that could arise from our compensation program. Following the assessment, management determined that our compensation policies and practices did not create risks that were reasonably likely to have a material adverse effect on us and reported the results of the assessment to the Compensation Committee.

Compensation Committee Report

The Compensation Committee of the Board has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this report.

- (3) Represents discretionary contributions by the Company to the Company's 401(k) Plan allocated to an account of the named executive officer.
- (4) Mr. Koster joined the Company on November 26, 2012. Effective January 1, 2015, Mr. Koster was promoted to General Counsel.
- (5) The fair value of the stock options granted were established using the Black-Scholes stock option valuation model. See Note 6 of the Notes to the Consolidated Financial Statements for assumptions used in the model. The actual value of the options will depend upon the performance of the Company during the period of time the options are outstanding and the price of the Company's common stock on the date of exercise.
- (6) The grant date fair values were established based on the number of shares granted and the share prices as follows: 2015, 2/5/15 - \$9.73, 9/14/15 - \$9.12 (see table below for details); and 2014, 1/15/14 - \$9.31. Such shares vest over five years.
- (7) Accrual for pension benefits in accordance with Mr. Landy's employment agreement.

Equity Compensation Plan Information

On June 13, 2013, the shareholders approved and ratified the Company's 2013 Stock Option and Stock Award Plan (the "2013 Plan") authorizing the grant of stock options or restricted stock awards to Directors, officers and key employees. The maximum number of shares that may be issued under the 2013 Plan is 3,000,000 shares. If and to the extent that an award made under the 2013 Plan is forfeited, terminated, expires or is canceled unexercised, the number of shares associated with the forfeited, terminated, expired or canceled portion of the award shall again become available for additional awards under the 2013 Plan. The 2013 Plan replaced the Company's 2003 Stock Option and Award Plan, as amended, which, pursuant to its terms, terminated in 2013. The outstanding options under the 2003

Stock Option and Award Plan, as amended, remain outstanding until exercised, forfeited or expired. Not more than 200,000 shares of the Company's common stock may be granted as options in any one fiscal year to a participant under the 2013 Plan. In general, each option may be exercised only after one year of continued service with the Company. The maximum number of shares underlying restricted stock awards that may be granted in any one fiscal year to a participant is 100,000.

Grants of Plan-Based Awards

The following table sets forth, for the named executive officers in the Summary Compensation Table, information regarding individual grants of restricted stock and stock options made under the 2013 Plan during the year ended December 31, 2015:

Name	Grant Date	Number of Shares of Restricted Stock ⁽¹⁾	Number of Shares Underlying Options ⁽²⁾	Exercise Price of Option Award or Fair Value Per Share at Grant Date of Restricted Stock Award	Grant Date Fair Value ⁽³⁾
Eugene W. Landy	6/24/2015	-0-	100,000	\$9.82	\$93,000
	9/14/2015	1,000	-0-	9.12	9,120
Samuel A. Landy	2/05/2015	25,000	-0-	9.73	243,250
	6/24/2015	-0-	50,000	9.82	45,500
	9/14/2015	1,000	-0-	9.12	9,120

	9/14/2015	1,000	-0-	9.12	9,120
Craig Koster	6/24/2015	-0-	20,000	9.82	18,600

(1) All restricted stock awards granted during fiscal year 2015 vest 1/5th per year over a five-year period and all dividends earned are reinvested in restricted stock.

(2) These options vest 1 year and expire 8 years from grant date.

(3) The values of the shares underlying options were established using the Black-Scholes stock option valuation model. The following assumptions were used in the model: expected volatility of 27.17%; risk-free interest rate of 2.12%; dividend yield of 7.37%; expected life of the options of eight years; and forfeitures of \$-0. The actual value of the options will depend upon the performance of the Company during the period of time the options are outstanding and the price of the Company's common stock on the date of exercise. The value of the shares of restricted stock was based on the closing price of the shares on the grant date.

Employment Agreements

The Company has an Employment Agreement with Mr. Eugene W. Landy, Founder and Chairman of the Board. Under this agreement, Mr. Landy receives an annual base compensation of \$250,000 (as amended) plus bonuses and customary fringe benefits, including health insurance, participation in the Company's 401(k) Plan, stock options, five weeks' vacation and use of an automobile. Additionally, there may be bonuses voted by the Board of Directors. The Employment Agreement is terminable by either party at any time subject to certain notice requirements. The Employment Agreement provides for aggregate severance payments of \$450,000, payable to Mr. Eugene Landy upon the termination of his employment for any reason in increments of \$150,000 on severance and \$150,000 on the first and second anniversaries of severance. In the event of disability, Mr. Landy's compensation will continue for a period of three years, payable monthly. On retirement, Mr. Landy will receive a pension of \$50,000 a year for ten years (subsequently amended to extend pension benefits through 2016), payable in monthly installments. In the event of death, Mr. Landy's designated beneficiary will receive \$450,000, \$100,000 thirty days after death and the balance one year after death. The Employment Agreement automatically renews each year for successive one-year periods. On April 14, 2008, the Company executed a Second Amendment to the Employment Agreement with Mr. Landy (the "Second Amendment"). The Second Amendment provides that in the event of a change in control, Eugene W. Landy shall receive a lump sum payment of \$1,200,000, provided the sale price of the Company is at least \$16 per share of common stock. A change of control shall be defined as the consummation of a reorganization, merger, share exchange, consolidation, or sale or disposition of all or substantially all of the assets of the Company. This change of control provision shall not apply to any combination between the Company and MREIC. Payment shall be made simultaneously with the closing of the transaction, and only in the event that the transaction closes.

Effective as of January 1, 2015, the Company and Mr. Samuel A. Landy entered into an amended and restated three-year Employment Agreement. The employment agreement is renewed automatically for a new three-year term as of the first day of each calendar quarter after the effective date unless otherwise terminated. Under the agreement, Mr. Landy is entitled to receive an annual base salary of \$460,000 for 2015, \$473,000 for 2016 and \$488,000 for 2017. For calendar years after 2017, Mr. Landy's base salary will be set by the Compensation Committee of the Company's Board of Directors but will be no less than his base salary for the preceding year. Mr. Landy will be eligible for annual cash bonuses based on the Company's achievement of certain performance objectives specified in

the Employment Agreement as determined by the Compensation Committee. Mr. Landy will also be entitled to equity awards of up to 25,000 shares of restricted stock each year based on achievement of performance objectives as determined by the Compensation Committee. If Mr. Landy's employment is terminated for any reason, either involuntarily or voluntarily, including the death of Mr. Landy or termination for cause, Mr. Landy shall be entitled to the base salary plus base target bonuses due under the Employment Agreement for the remaining term of the Employment Agreement. The Employment Agreement also provides that, upon a change of control of the Company, the Employment Agreement will automatically renew for three years from the date of the change of control. Additionally or alternatively, if a change of control occurs, Mr. Landy shall have the right to terminate the Employment Agreement and continue to receive the base salary plus base target bonuses and restricted stock awards he would have been entitled to receive during the remaining term of the Employment Agreement. In addition, provided that Mr. Landy is actively employed by the Company as of the consummation of a change of control, Mr. Landy shall be entitled to a transaction bonus consistent with the terms of the Company's Executive Management Transaction Bonus Plan, which shall be approved by the Compensation Committee. The Employment Agreement entitles Mr. Landy to customary fringe benefits, including vacation, life insurance and health benefits, the use of an automobile, and the right to participate in the Company's 401(k) retirement plan.

Effective as of January 1, 2015, the Company and Ms. Anna T. Chew, its Chief Financial Officer, entered into an amended and restated three-year Employment Agreement. The employment agreement is renewed automatically for a new three-year term as of the first day of each calendar quarter after the effective date unless otherwise terminated. Under the agreement, Ms. Chew is entitled to receive an annual base salary of \$349,000 for 2015, \$360,000 for 2016 and \$371,000 for 2017. For calendar years after 2017, Ms. Chew's base salary will be set by the Compensation Committee of the Company's Board of Directors but will be no less than her base salary for the preceding year. Ms. Chew will be eligible for annual cash bonuses based on the Company's achievement of certain performance objectives specified in the Employment Agreement as determined by the Compensation Committee. Ms. Chew will also be entitled to equity awards of up to 20,000 shares of restricted stock each year based on achievement of performance objectives as determined by the Compensation Committee. Under the Employment Agreement, if Ms. Chew's employment is terminated for any reason, either involuntarily or voluntarily, including the death of Ms. Chew or termination for cause, Ms. Chew shall be entitled to the base salary plus base target bonuses due under the Employment Agreement for the remaining term of the Employment Agreement. The Employment Agreement also provides that, upon a change of control of the Company, the Employment Agreement will automatically renew for three years from the date of the change of control. Additionally or alternatively, if a change of control occurs, Ms. Chew shall have the right to terminate the Employment Agreement and continue to receive the base salary plus base target bonuses and restricted stock awards she would have been entitled to receive during the remaining term of the Employment Agreement. In addition, provided that Ms. Chew is actively employed by the Company as of the consummation of a change of control, Ms. Chew shall be entitled to a transaction bonus consistent with the terms of the Company's Executive Management Transaction Bonus Plan, which shall be approved by the Compensation Committee. The Employment Agreement entitles Ms. Chew to customary fringe benefits, including vacation, life insurance and health benefits, the use of an automobile, and the right to participate in the Company's 401(k) retirement plan.

Potential Payments upon Termination of Employment or Change-in-Control

Under the terms of the employment agreements of the named executive officers, such named executive officers are entitled to receive the following estimated payments and benefits upon a termination of employment or voluntary resignation (with or without a change-in-control). These disclosed amounts are estimates only and do not necessarily reflect the actual amounts that would be paid to the named executive officers, which would only be known at the time that they become eligible for payment and would only be payable if a termination of employment, or voluntary resignation, were to occur. The table below reflects the amount that could be payable under the various arrangements assuming that the termination of employment had occurred at December 31, 2015. Each of the employees named in the table below have restricted stock awards and/or stock option awards which are listed in the "Outstanding Equity Awards at Fiscal Year End" table previously disclosed. Restricted Stock Awards vest upon the termination of an employee due to death or disability. In addition, restricted stock awards vest on the date of an involuntary termination of employment with the Company if the employee has met the definition of Retirement. If the termination of employment is for any other reason, including voluntary resignation, termination not for cause or good reason resignation, termination for cause, or termination not for cause or good reason (after a change in control), the restricted stock awards are forfeited. Regarding the stock option awards, if the termination is for any reason other

than a termination for cause, the stock option awards may be exercised until three months after the termination of employment. If the termination is for cause, the stock option awards are forfeited.

(1) Consists of severance payments of \$450,000, payable \$150,000 per year for three years.

(2) Mr. Landy shall receive a lump-sum payment of \$1,200,000 in the event of a change in control, provided that the sale price of the Company is at least \$16 per share of common stock. In addition, if Mr. Landy's employment agreement is terminated, he receives severance payments of \$450,000, payable \$150,000 per year for three years.

(3) In the event of a disability, as defined in the agreement, Mr. Landy shall receive disability payments equal to his base salary for a period of three years. He has a death benefit of \$450,000 payable to Mr. Landy's beneficiary.

(4) The respective employment agreements provide for the base salaries plus base target bonuses due for the remaining terms of the agreements. The respective employment agreements also provide for death benefits of the same amount.

The Company retains the discretion to compensate any officer upon any future termination of employment or change-in control.

Director Compensation

Directors receive a fee of \$4,000 for each Board meeting attended, \$500 for each Board phone meeting attended, and an additional fixed annual fee of \$31,000 payable quarterly. Directors appointed to board committees receive \$1,200 for each committee meeting attended.

The table below sets forth a summary of director compensation for the year ended December 31, 2015:

Item 13 – Certain Relationships and Related Transactions, and Director Independence

The Company will file its definitive Proxy Statement for its 2016 Annual Meeting of Stockholders within the period required under the applicable rules of the Securities and Exchange Commission. Additional information required by this Item is included under the caption “ELECTION OF DIRECTORS” and “CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS” of such Proxy Statement and is incorporated herein by reference.

Certain relationships and related party transactions are incorporated herein by reference to Part IV, Item 15(a)(1)(vi), Note 8 of the Notes to Consolidated Financial Statements – Related Party Transactions.

No director, executive officer, or any immediate family member of such director or executive officer may enter into any transaction or arrangement with the Company without the prior approval of the Board of Directors. If any such transaction or arrangement is proposed, the Board of Directors will appoint a Business Judgment Committee consisting of independent directors who are also independent of the transaction or arrangement. This Committee will recommend to the Board of Directors approval or disapproval of the transaction or arrangement. In determining whether to approve such a transaction or arrangement, the Business Judgment Committee will take into account, among other factors, whether the transaction was on terms no less favorable to the Company than terms generally available to third parties and the extent of the executive officer’s or director’s involvement in such transaction or arrangement. While the Company does not have specific written standards for approving such related party transactions, such transactions are only approved if it is in the best interest of the Company and its shareholders. Additionally, the Company’s Code of Business Conduct and Ethics, which is found at the Company’s website at www.umh.reit, requires all directors, officers and employees to notify and report a potential or apparent conflict of interest, in the case of a director or the principal executive officer, to the Board, in the case of an officer other than the principal executive officer, to the principal executive officer, and, in the case of an employee, to his or her supervisor. Further, to identify related party transactions, the Company submits and requires our directors and executive officers to complete director and officer questionnaires identifying any transactions with the Company in which the director, executive officer or their immediate family members have an interest.

See identification and other information relating to independent directors under Item 10 and committee members under Item 11.

Item 14 – Principal Accounting Fees and Services

The Company will file its definitive Proxy Statement for its 2016 Annual Meeting of Stockholders within the period required under the applicable rules of the Securities and Exchange Commission. Additional information required by this Item is included under the caption “FEES BILLED BY INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM” of such Proxy Statement and is incorporated herein by reference.

PKF O’Connor Davies served as the Company’s independent registered public accounting firm for the years ended December 31, 2015 and 2014. The following are fees billed by and accrued to PKF O’Connor Davies in connection with services rendered:

	<u>2015</u>	<u>2014</u>
Audit Fees	\$178,500	\$170,000
Audit Related Fees	47,595	24,907
Tax Fees	68,950	64,580
All other fees	-0-	-0-
Total Fees	<u>\$295,045</u>	<u>\$259,487</u>

Audit fees include professional services rendered for the audit of the Company’s annual financial statements, management’s assessment of internal controls, and reviews of financial statements included in the Company’s quarterly reports on Form 10-Q.

Audit related fees include services that are normally provided by the Company's independent auditors in connection with statutory and regulatory filings, such as consents and assistance with and review of documents filed with the Securities and Exchange Commission.

Tax fees include professional services rendered for the preparation of the Company's federal and state corporate tax returns and supporting schedules as may be required by the Internal Revenue Service and applicable state taxing authorities. Tax fees also include other work directly affecting or supporting the payment of taxes, including planning and research of various tax issues.

All of the services performed by PKF O'Connor Davies for the Company during fiscal 2015, including audit fees, audit-related fees, tax fees and all other fees described above, were either expressly pre-approved by the Audit Committee or were pre-approved in accordance with the Audit Committee Pre-Approval Policy, and the Audit Committee was provided with regular updates as to the nature of such services and fees paid for such services.

Audit Committee Pre-Approval Policy

The Audit Committee has adopted a policy for the pre-approval of audit and permitted non-audit services provided by the Company's independent registered public accounting firm. The policy requires that all services provided by our principal independent registered public accounting firm to the Company, including audit services, audit-related services, tax services and other services, must be pre-approved by the Audit Committee, and all have been so pre-approved. The pre-approval requirements do not prohibit day-to-day normal tax consulting services, which matters will not exceed \$10,000 in the aggregate.

The Audit Committee has determined that the provision of the non-audit services described above is compatible with maintaining PKF O'Connor Davies' independence.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
UMH Properties, Inc.

We have audited the accompanying consolidated balance sheets of UMH Properties, Inc. and subsidiaries (the “Company”) as of December 31, 2015 and 2014 and the related consolidated statements of income (loss), comprehensive income (loss), shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2015. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(2)(i). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and schedule are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of UMH Properties, Inc. at December 31, 2015 and 2014, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2015 based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated March 8, 2016 expressed an unqualified opinion thereon.

UMH PROPERTIES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2015 and 2014

NOTE 1 – ORGANIZATION

UMH Properties, Inc., a Maryland corporation, and its subsidiaries (the “Company”) operates as a real estate investment trust (“REIT”) deriving its income primarily from real estate rental operations. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (“S&F”), sells manufactured home in its communities. Inherent in the operations of manufactured home communities are site vacancies. S&F was established to fill these vacancies and enhance the value of the communities. The Company also owns a portfolio of REIT securities which the Company generally limits to no more than approximately 15% of its undepreciated assets. Management views the Company as a single segment based on its method of internal reporting in addition to its allocation of capital and resources.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Business

As of December 31, 2015, the Company owns and operates ninety-eight manufactured home communities containing approximately 17,800 developed sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan.

These manufactured home communities are listed by trade names as follows:

Basis of Presentation

The Company prepares its financial statements under the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The Company’s subsidiaries are all 100% wholly-owned. The consolidated financial statements of the Company include all of these subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company does not have a majority or minority interest in any other company, either consolidated or unconsolidated.

Use of Estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and revenue and expenses for the years then ended. These estimates and assumptions include the allowance for doubtful accounts, valuation of inventory, depreciation, valuation of securities, reserves and accruals, and stock compensation expense. Actual results could differ from these estimates and assumptions.

Investment Property and Equipment and Depreciation

Property and equipment are carried at cost. Depreciation for Sites and Building is computed principally on the straight-line method over the estimated useful lives of the assets (ranging from 15 to 27.5 years). Depreciation of Improvements to Sites and Buildings, Rental Homes and Equipment and Vehicles is computed principally on the straight-line method over the estimated useful lives of the assets (ranging from 3 to 27.5 years). Land Development Costs are not depreciated until they are put in use, at which time they are capitalized as Sites and Land Improvements. Interest Expense pertaining to Land Development Costs are capitalized. Maintenance and Repairs are charged to expense as incurred and improvements are capitalized. The costs and related accumulated depreciation of property sold or otherwise disposed of are removed from the financial statement and any gain or loss is reflected in the current year’s results of operations.

The Company applies Financial Accounting Standards Board Accounting Standards Codification (“ASC”) 360-10, Property, Plant & Equipment (“ASC 360-10”) to measure impairment in real estate investments. Rental properties are individually evaluated for impairment when conditions exist which may indicate that it is probable that the sum of expected future cash flows (on an undiscounted basis without interest) from a rental property is less than the carrying value under its historical net cost basis. These expected future cash flows consider factors such as future operating income, trends and prospects as well as the effects of leasing demand, competition and other factors. Upon determination that a permanent impairment has occurred, rental properties are reduced to their fair value. For properties to be disposed of, an impairment loss is recognized when the fair value of the property, less the estimated cost to sell, is less than the carrying amount of the property measured at the time there is a commitment to sell the property and/or it is actively being marketed for sale. A property to be disposed of is reported at the lower of its

carrying amount or its estimated fair value, less its cost to sell. Subsequent to the date that a property is held for disposition, depreciation expense is not recorded.

The Company conducted a comprehensive review of all real estate asset classes in accordance with ASC 360-10-35-21. The process entailed the analysis of property for instances where the net book value exceeded the estimated fair value. The Company utilizes the experience and knowledge of its internal valuation team to derive certain assumptions used to determine an operating property's cash flow. Such assumptions include lease-up rates, rental rates, rental growth rates, and capital expenditures. The Company reviewed its operating properties in light of the requirements of ASC 360-10 and determined that, as of December 31, 2015, the undiscounted cash flows over the expected holding period for these properties were in excess of their carrying values and, therefore, no impairment charges were required.

Acquisitions

The Company accounts for acquisitions in accordance with ASC 805, Business Combinations ("ASC 805"). ASC 805 requires that transaction costs, such as broker fees, transfer taxes, legal, accounting, valuation, and other professional and consulting fees, related to acquisitions be expensed as incurred.

Upon acquisition of a property, the Company allocates the purchase price of the property based upon the fair value of the assets acquired, which generally consist of land, site and land improvements, buildings and improvements and rental homes. The Company generally allocates the purchase price of an acquired property determined by internal evaluation as well as a third-party appraisal of the property obtained in conjunction with the purchase.

Cash and Cash Equivalents

Cash and cash equivalents include all cash and investments with an original maturity of three months or less. The Company maintains its cash in bank accounts in amounts that may exceed federally insured limits. The Company has not experienced any losses in these accounts in the past. The fair value of cash and cash equivalents approximates their current carrying amounts since all such items are short-term in nature.

Securities Available for Sale

Investments in securities available for sale primarily consist of marketable common and preferred stock securities of other REITs, which the Company generally limits to no more than approximately 15% of its undepreciated assets. These marketable securities are all publicly-traded and purchased on the open market, through private transactions or through dividend reinvestment plans. These securities may be classified among three categories: held-to-maturity, trading, and available-for-sale. The Company normally holds REIT securities on a long term basis and has the ability and intent to hold securities to recovery, as of December 31, 2015 and 2014, the Company's securities are all classified as available-for-sale and are carried at fair value based upon quoted market prices in active markets. Gains or losses on the sale of securities are based on identifiable cost and are accounted for on a trade date basis. Unrealized holding gains and losses are excluded from earnings and reported as a separate component of Shareholders' Equity until realized. The change in the unrealized net holding gains (losses) is reflected as Comprehensive Income (loss).

The Company individually reviews and evaluates our marketable securities for impairment on a quarterly basis or when events or circumstances occur. The Company considers, among other things, credit aspects of the issuer, amount of decline in fair value over cost and length of time in a continuous loss position. The Company has developed a general policy of evaluating whether an unrealized loss is other than temporary. On a quarterly basis, the Company makes an initial review of every individual security in its portfolio. If the security is impaired, the Company first determines our intent and ability to hold this investment for a period of time sufficient to allow for any anticipated recovery in market value. Next, the Company determines the length of time and the extent of the impairment. Barring other factors, including the downgrading of the security or the cessation of dividends, if the fair value of the security is below cost by less than 20% for less than 6 months and the Company has the intent and ability to hold the security, the security is deemed to not be other than temporarily impaired. Otherwise, the Company reviews additional information to determine whether the impairment is other than temporary. The Company discusses and analyzes any relevant information known about the security, such as:

- a. Whether the decline is attributable to adverse conditions related to the security or to specific conditions in an industry or in a geographic area.
- b. Any downgrading of the security by a rating agency.
- c. Whether the financial condition of the issuer has deteriorated.
- d. Status of dividends – Whether dividends have been reduced or eliminated, or scheduled interest payments have not been made.
- e. Analysis of the underlying assets (including NAV analysis) using independent analysis or recent transactions.

The Company normally holds REIT securities long term and has the ability and intent to hold securities to recovery. The Company generally limits its marketable securities investments to no more than approximately 15% of its undepreciated assets. If a decline in fair value is determined to be other than temporary, an impairment charge is recognized in earnings and the cost basis of the individual security is written down to fair value as the new cost basis.

Inventory of Manufactured Homes

Inventory of manufactured homes is valued at the lower of cost or market value and is determined by the specific identification method. All inventory is considered finished goods.

Accounts and Notes Receivables

The Company's accounts, notes and other receivables are stated at their outstanding balance reduced by an allowance for uncollectible accounts. The Company evaluates the recoverability of its receivables whenever events occur or there are changes in circumstances such that management believes it is probable that it will be unable to collect all amounts due according to the contractual terms of the notes receivable or lease agreements. The collectability of notes receivable is measured based on the present value of the expected future cash flow discounted at the notes receivable effective interest rate or the fair value of the collateral if the notes receivable is collateral dependent. Total notes receivables at December 31, 2015 and 2014 was \$18,281,392 and \$20,761,642, respectively. At December 31, 2015 and 2014, the reserves for uncollectible accounts, notes and other receivables were \$1,040,415 and \$1,068,465, respectively. For the years ended December 31, 2015, 2014 and 2013, the provisions for uncollectible notes and other receivables were \$1,123,926, \$1,020,655 and \$760,570, respectively. Charge-offs and other adjustments related to repossessed homes for the years ended December 31, 2015, 2014 and 2013 amounted to \$1,151,976, \$1,049,577 and \$601,178, respectively.

The Company's notes receivable primarily consists of installment loans collateralized by manufactured homes with principal and interest payable monthly. The average interest rate on these loans is approximately 9.5% and the average maturity is approximately 10 years.

Unamortized Financing Costs

Costs incurred in connection with obtaining mortgages and other financings and refinancings are deferred and are amortized on a straight-line basis over the term of the related obligations, which is not materially different than the effective interest method. Unamortized costs are charged to expense upon prepayment of the obligation. As of December 31, 2015 and 2014, accumulated amortization amounted to \$2,455,392 and \$1,555,818, respectively. The Company estimates that aggregate amortization expense will be approximately \$629,000 for 2016, \$501,000 for 2017, \$440,000 for 2018, \$434,000 for 2019 and \$388,000 for 2020.

Derivative Instruments and Hedging Activities

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on our variable rate debt. We attempt to limit these risks by following established risk management policies, procedures and strategies, including the use of derivative financial instruments. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes. The Company does enter into various interest rate swap agreements that have the effect of fixing interest rates relative to specific mortgage loans.

As of December 31, 2015, the Company has an interest rate swap agreement that has the effect of fixing interest rates relative to a specific mortgage loan as follows:

<u>Mortgage</u>	<u>Due Date</u>	<u>Mortgage Interest Rate</u>	<u>Effective Fixed Rate</u>	<u>Balance 12/31/15</u>
Various – 11 properties	8/1/2017	LIBOR + 3.00%	3.89%	\$11,416,309

The Company's interest rate swap agreement is based upon 30-day LIBOR. The re-pricing and scheduled maturity dates, payment dates, index and the notional amounts of the interest rate swap agreement coincides with those of the underlying mortgage. The interest rate swap agreement is net settled monthly. The Company has designated this derivative as a cash flow hedge and has recorded the fair value on the balance sheet in accordance with ASC 815, Derivatives and Hedging (See Note 13 for information on the determination of fair value). The effective portion of the gain or loss on this hedge will be reported as a component of Accumulated Other Comprehensive Income (Loss) in our Consolidated Balance Sheets. To the extent that the hedging relationship is not effective or does not qualify as a cash flow hedge, the ineffective portion is recorded in interest expense. Hedges that received designated hedge accounting treatment are evaluated for effectiveness at the time that they are designated as well as through the hedging period. As of December 31, 2015, the Company has determined that this interest rate swap agreement is highly effective as a cash flow hedge. As a result, the fair value of this derivatives of \$(1,700) and \$(39,685) as of December 31, 2015 and 2014, respectively, was recorded as a component of Accumulated Other Comprehensive Income (Loss), with the corresponding liability included in Accrued Liabilities and Deposits.

Revenue Recognition

The Company derives its income primarily from the rental of manufactured home sites. The Company also owns approximately 3,700 rental units which are rented to residents. Rental and related income is recognized on the accrual basis over the term of the lease, which is typically one year or less.

Sale of manufactured homes is recognized on the full accrual basis when certain criteria are met. These criteria include the following: (a) initial and continuing payment by the buyer must be adequate; (b) the receivable, if any, is not subject to future subordination; (c) the benefits and risks of ownership are substantially transferred to the buyer; and (d) the Company does not have a substantial continued involvement with the home after the sale. Alternatively, when the foregoing criteria are not met, the Company recognizes gains by the installment method. Interest income on loans receivable is not accrued when, in the opinion of management, the collection of such interest appears doubtful.

Net Income (Loss) Per Share

Basic net income (loss) per share is calculated by dividing net income (loss) by the weighted-average number of common shares outstanding during the period (25,932,626; 22,496,103 and 18,724,321 in 2015, 2014 and 2013, respectively). Diluted net income (loss) per share is calculated by dividing net income (loss) by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method (25,972,807; 22,539,708 and 18,789,662 in 2015, 2014 and 2013, respectively) (See Note 6). The common stock equivalent resulting from options in the amount of 40,181; 43,605 and 65,341 for 2015, 2014 and 2013, respectively, are included in the diluted weighted average shares outstanding. As of December 31, 2015, 2014 and 2013, options to purchase 982,000, 1,125,000 and 502,000 shares, respectively, were antidilutive.

Stock Compensation Plan

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Compensation costs, which is included in General and Administrative Expenses, of \$855,768, \$922,944 and \$850,349 have been recognized in 2015, 2014 and 2013, respectively. During

2015, 2014 and 2013, compensation costs included a one-time charge of \$102,000, \$98,000, and \$142,000, respectively, for stock option grants awarded to one participant who is of retirement age and therefore the entire amount of measured compensation cost has been recognized at grant date. Included in Note 6 to these consolidated financial statements are the assumptions and methodology used to calculate the fair value of stock options and restricted stock awards.

Income Tax

The Company has elected to be taxed as a REIT under the applicable provisions of Sections 856 to 860 of the Internal Revenue Code. Under such provisions, the Company will not be taxed on that portion of its income which is distributed to shareholders, provided it distributes at least 90% of its taxable income, has at least 75% of its assets in real estate investments and meets certain other requirements for qualification as a REIT. The Company has and intends to continue to distribute all of its income currently, and therefore no provision has been made for income or excise taxes. If the Company fails to qualify as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. The Company is also subject to certain state and local income, excise or franchise taxes. In addition, the Company has a taxable REIT Subsidiaries (“TRS”) which is subject to federal and state income taxes at regular corporate tax rates (See Note 11).

The Company follows the provisions of ASC Topic 740, Income Taxes, that, among other things, defines a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Topic 740 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. Based on its evaluation, the Company determined that it has no uncertain tax positions and no unrecognized tax benefits as of December 31, 2015. The Company records interest and penalties relating to unrecognized tax benefits, if any, as interest expense. As of December 31, 2015, the tax years 2012 through and including 2015 remain open to examination by the Internal Revenue Service. There are currently no federal tax examinations in progress.

Comprehensive Income (Loss)

Comprehensive income (loss) is comprised of net income and other comprehensive income (loss). Other comprehensive income (loss) consists of the change in unrealized gains or losses on securities available for sale and the change in the fair value of derivatives.

Reclassifications

Certain amounts in the consolidated financial statements for the prior years have been reclassified to conform to the financial statement presentation for the current year.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, “Leases”. ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In January 2016, the FASB issued ASU 2016-01, “Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities”. ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. ASU 2016-01 is effective for annual reporting periods, including interim reporting periods within those periods, beginning

after December 15, 2017, and early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In September 2015, the FASB issued ASU 2015-16, “Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments”. ASU 2015-16 eliminates the requirement to restate prior period financial statements for measurement period adjustments. The new guidance requires that the cumulative impact of a measurement period adjustment (including the impact on prior periods) be recognized in the reporting period in which the adjustment is identified. In addition, separate presentation on the face of the income statement or disclosure in the notes is required regarding the portion of the adjustment recorded in the current period earnings, by line item, that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. ASU 2015-16 is to be applied prospectively for measurement period adjustments that occur after the effective date. ASU 2015-16 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2015, and early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In August 2015, the FASB issued ASU 2015-15, “Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements”. ASU 2015-15 expands guidance provided in ASU 2015-03 and states that presentation of costs associated with securing a revolving line of credit as an asset is permitted, regardless of whether a balance is outstanding. ASU 2015-15 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2015, and early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In July 2015, the FASB issued ASU No. 2015-11, “Simplifying the Measurement of Inventory”. ASU 2015-11 applies to inventory that is measured using first-in, first-out (“FIFO”) or average cost. An entity should measure inventory within the scope of ASU 2015-11 at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonable predictable costs of completion, disposal and transportation. The amendments in ASU 2015-11 more closely align the measurement of inventory in GAAP with the measurement of inventory in International Financial Reporting Standards (“IFRS”). ASU 2015-11 is effective for fiscal years beginning after December 15, 2016. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, “Simplifying the Presentation of Debt Issuance Costs”. ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The standard is effective for annual reporting periods beginning after December 15, 2015, and interim periods within those years, with early adoption permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In February 2015, the FASB issued ASU 2015-02, “Consolidation (Topic 810): Amendments to the Consolidation Analysis”. ASU 2015-02 focuses to minimize situations under previously existing guidance in which a reporting entity was required to consolidate another legal entity in which that reporting entity did not have: (1) the ability through contractual rights to act primarily on its own behalf; (2) ownership of the majority of the legal entity's voting rights; or (3) the exposure to a majority of the legal entity's economic benefits. ASU 2015-02 affects reporting entities that are required to evaluate whether they should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. ASU 2015-02 will be effective for periods beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period. The Company does not expect the adoption of ASU 2015-02 to have a material effect on the Company’s consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers” as a new Topic, ASC Topic 606. The objective of ASU 2014-09 is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying the new standard,

companies will perform a five-step analysis of transactions to determine when and how revenue is recognized. ASU 2014-09 applies to all contracts with customers except those that are within the scope of other topics in the FASB ASC. In July 2015, the FASB deferred the effective date for annual reporting periods beginning after December 15, 2017 (including interim reporting periods within those periods). Early adoption is permitted to the original effective date of December 15, 2016 (including interim reporting periods within those periods). The amendments may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the method and timing of adoption.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

NOTE 3 – INVESTMENT PROPERTY AND EQUIPMENT

Acquisitions in 2015

On January 21, 2015, the Company acquired Holly Acres, a manufactured home community located in Erie, Pennsylvania, for \$3,800,000. This all-age community contains a total of 141 developed homesites that are situated on approximately 40 total acres. At the date of acquisition, the average occupancy for this community was approximately 96%. The Company assumed a mortgage loan with a balance of approximately \$2,300,000. The interest rate on this mortgage is fixed at 6.5%. This mortgage matures on October 5, 2021.

On April 23, 2015, the Company acquired two manufactured home communities for \$5,300,000. These all-age communities are located in western Pennsylvania and contain a total of 324 developed homesites that are situated on approximately 141 total acres. At the date of acquisition, the average occupancy for these communities was approximately 63%.

On May 27, 2015, the Company acquired Valley Stream, a manufactured home community located in northeastern Pennsylvania for \$3,517,000. This all-age community contains a total of 158 developed home sites that are situated on approximately 43 total acres. At the date of acquisition, the average occupancy for this community was approximately 64%.

On August 19, 2015, the Company completed the first tranche of a six community acquisition for a total purchase price of \$68,600,000. This tranche consisted of three manufactured home communities, two located in Ohio and one located in Michigan, for \$32,500,000. These three all-age communities contain 897 developed homesites that are situated on approximately 177 total acres. At the date of acquisition, the average occupancy for these communities was approximately 69%. In conjunction with this acquisition, the Company completed the financing of six manufactured home communities, including these three communities, for total proceeds of approximately \$43,100,000.

On October 16, 2015, the Company completed the second tranche of the six community acquisition. This tranche consisted of three manufactured home communities, located in Indiana, for \$36,100,000. These three all-age communities contain 1,254 developed home sites, situated on approximately 316 total acres. At the date of acquisition, the average occupancy for these communities was approximately 56%. In conjunction with this acquisition, the Company obtained an \$8,851,000 Freddie Mac mortgage through Wells Fargo on one of the acquired communities, Holiday Village in Elkhart, Indiana. The interest rate on this mortgage is fixed at 3.96%. This mortgage matures on November 1, 2025, with principal repayments based on a 30-year amortization schedule.

Acquisitions in 2014

On March 13, 2014, the Company acquired 8 Ohio manufactured home communities for \$24,950,000. These 8 all-age communities total 1,018 sites and are situated on approximately 270 acres. The average occupancy for these communities at closing was approximately 70%. The Company assumed mortgages totaling approximately \$18,100,000 and used its Unsecured Revolving Credit Facility with Bank of Montreal (“Credit Facility”) to finance this acquisition.

On July 14, 2014, the Company acquired 4 Pennsylvania manufactured home communities for \$12,200,000. These 4 all-age communities are located in the Pittsburgh metropolitan area and contain a total of 336 developed home

sites situated on approximately 239 acres. The average occupancy for these communities is 84%. The Company assumed a mortgage loan with a balance of approximately \$8.6 million. In addition, the Company used cash received from the additional borrowing from Sun National Bank for the remaining balance of the purchase price.

On July 28, 2014, the Company acquired 2 Ohio manufactured home communities for \$5,400,000. These 2 all age communities contain a total of 258 developed home sites that are situated on 39 acres. The average occupancy for these communities is 91%. The Company took down an additional \$5.0 million on its Credit Facility for the acquisition of the two communities.

These acquisitions have been accounted for utilizing the acquisition method of accounting in accordance with ASC 805, Business Combinations, and accordingly, the result of the acquired assets are included in the statements of income (loss) from the dates of acquisition. The allocations of the fair value of the assets acquired is subject to further adjustment as final costs and valuations are determined. The following table summarizes the estimated fair value of the assets acquired for the year ended December 31, 2015 and 2014:

NOTE 5 – LOANS AND MORTGAGES PAYABLE

Loans Payable

The Company may purchase securities on margin. The interest rates charged on the margin loans at December 31, 2015 and 2014 was 2%. These margin loans are due on demand. At December 31, 2015 and 2014, respectively, the margin loans amounted to \$15,766,573 and \$19,392,382, respectively, and are collateralized by the Company's securities portfolio. The Company must maintain a coverage ratio of approximately 2 times.

The Company has revolving credit agreements totaling \$22,500,000 with Customers Bank, Northpoint Commercial Finance and 21st Mortgage Corporation ("21st Mortgage") to finance inventory purchases. Interest rates on these agreements range from prime with a minimum of 6% to Prime plus 2% with a minimum of 8% after 18 months. As of December 31, 2015 and 2014, the total amount outstanding on these lines was \$12,112,039 and \$8,323,300, respectively, with a weighted average interest rate of 6.5% and 6.6%, respectively.

On September 29, 2014, the Company entered into a new revolving line of credit with OceanFirst Bank (“OceanFirst Line”) secured by the Company’s eligible notes receivable. The maximum availability on this line is \$10.0 million. Interest is at a variable rate of prime plus 50 basis points (0.5%) and matures on June 1, 2017. This line replaces the revolving line of credit with Sun National Bank which was fully repaid with proceeds from the OceanFirst Line. As of December 31, 2015 and 2014, the amount outstanding on this revolving line of credit was \$10,000,000, and the interest rate was 4.00% and 3.75%, respectively.

The Company has an agreement with 21st Mortgage to finance the Company’s purchase of rental units. These loans are at an interest rate of 6.99%, with an origination fee of 2% on new units and 3% on existing units. These loans will have a 10 year term from the date of the borrowing. The amount outstanding on this loan was \$671,717 and \$723,548, as of December 31, 2015 and 2014, respectively.

On October 30, 2014, the Company obtained a \$4,000,000 loan from Two River Community Bank, secured by 1,000,000 shares of Monmouth Real Estate Investment Corporation common stock. This loan is at an interest rate of 4.625%, with interest only payments through October 2017, and matures on October 30, 2019. The amount outstanding on this loan was \$4,000,000 as of December 31, 2015 and 2014, respectively. The Company also has \$436,174 in automotive loans with a weighted average interest rate of 3.61%.

Unsecured Lines of Credit

On March 29, 2013, the Company entered into a \$35 million Unsecured Revolving Credit Facility with Bank of Montreal (“Credit Facility”). The Company has the ability to increase the borrowing capacity by an amount not to exceed \$15 million, representing a maximum aggregate borrowing capacity of \$50 million, subject to various conditions, as defined in the agreement. The maturity date of the Credit Facility is March 29, 2016 with a one year extension available at the Company’s option. On February 25, 2016, this Credit Facility was extended to March 29, 2017. Borrowings under the Credit Facility can be used for, among other things, acquisitions, working capital, capital expenditures, and repayment of other indebtedness. Borrowings will bear interest at the Company’s option of LIBOR plus 2.00% to 2.75% or BMO’s prime lending rate plus 1.00% to 1.75%, based on the Company’s overall leverage. Based on leverage ratios, interest on this borrowing is at LIBOR plus 275 basis points or 2.80% as of December 31, 2015, and LIBOR plus 275 basis points or 2.91% as of December 31, 2014. The Company incurs a fee on the unused commitment amount of up to 0.35% per annum. The Credit Facility replaces the Company’s former \$5.0 million unsecured line of credit, which was at an interest rate of LIBOR plus 375 basis points. As of December 31, 2015, the amount outstanding on the Credit Facility was \$15,000,000.

The aggregate principal payments of all loans payable, including the Credit Facility, are scheduled as follows:

NOTE 6 – STOCK COMPENSATION PLAN

On June 13, 2013, the shareholders approved and ratified the Company's 2013 Stock Option and Stock Award Plan (the "2013 Plan") authorizing the grant of stock options or restricted stock awards to directors, officers and key employees of options to purchase up to 3,000,000 shares of common stock. All options are exercisable one year from the date of grant. The option price shall not be below the fair market value at date of grant. If and to the extent that an award made under the 2013 Plan is forfeited, terminated, expires or is canceled unexercised, the number of shares associated with the forfeited, terminated, expired or canceled portion of the award shall again become available for additional awards under the 2013 Plan. The 2013 Plan replaced the Company's 2003 Stock Option Plan (the "2003 Plan"), which, pursuant to its terms, terminated in 2013. The outstanding options under the 2003 Stock Option and Award Plan, as amended, remain outstanding until exercised, forfeited or expired. Not more than 200,000 shares of the Company's common stock may be granted as options in any one fiscal year to a participant under the 2013 Plan. In general, each option may be exercised only after one year of continued service with the Company.

The Compensation Committee determines the recipients of restricted stock awards; the number of restricted shares to be awarded; the length of the restricted period of the award; the restrictions applicable to the award including, without limitation, the employment or retirement status of the participant; rules governing forfeiture and restrictions applicable to any sale, assignment, transfer, pledge or other encumbrance of the restricted stock during the restricted period; and the eligibility to share in dividends and other distributions paid to the Company's stockholders during the restricted period. The maximum number of shares underlying restricted stock awards that may be granted in any one fiscal year to a participant shall be 100,000 shares.

Unless otherwise provided for in an underlying restricted stock award agreement, if a participant's status as an employee or director of the Company is terminated by reason of death or disability, the restrictions will lapse on such date. Unless otherwise provided for in an underlying restricted stock award agreement, the Plan provides that if an individual's status as an employee or director is terminated by reason of retirement following an involuntary termination (other than for "cause" as defined in the 2013 Plan), the restrictions will generally lapse, unless the restricted stock award is intended to constitute "performance based" compensation for purposes of Section 162(m) of the Internal Revenue Code. If a participant's status as an employee or director terminates for any other reason, the Plan provides that a participant will generally forfeit any outstanding restricted stock awards, unless otherwise indicated in the applicable award agreement. Shares of restricted stock that are forfeited become available again for issuance under the 2013 Plan. The Compensation Committee has the authority to accelerate the time at which the restrictions may lapse whenever it considers that such action is in the best interests of the Company and of its stockholders, whether by reason of changes in tax laws, a "change in control" as defined in the 2013 Plan or otherwise.

The Company accounts for stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period).

Stock Options

During the year ended December 31, 2015, twenty-four employees were granted options to purchase a total of 425,000 shares. During the year ended December 31, 2014, twenty-five employees were granted options to purchase a total of 339,000 shares. During the year ended December 31, 2013, twenty-four employees were granted options to purchase a total of 392,000 shares. The fair value of these options for the years ended December 31, 2015, 2014 and 2013 was approximately \$393,000, \$332,000 and \$556,000, respectively, based on assumptions noted below and is

being amortized over the 1-year vesting period. The remaining unamortized stock option expense was \$125,305 as of December 31, 2015, and that amount will be expensed in 2016.

The Company calculates the fair value of each option grant on the grant date using the Black-Scholes option-pricing model which requires the Company to provide certain inputs, as follows:

- The assumed dividend yield is based on the Company's expectation of an annual dividend rate for regular dividends over the estimated life of the option.
- Expected volatility is based on the historical volatility of the Company's stock over a period relevant to the related stock option grant.
- The risk-free interest rate utilized is the interest rate on U.S. Government Bonds and Notes having the same life as the estimated life of the Company's option awards.
- Expected life of the options granted is estimated based on historical data reflecting actual hold periods.
- Estimated forfeiture is based on historical data reflecting actual forfeitures.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants in the following years:

	<u>2015</u>	<u>2014</u>	<u>2013</u>
Dividend yield	7.37%	7.14%	6.67%
Expected volatility	27.17%	27.12%	32.37%
Risk-free interest rate	2.12%	2.23%	1.96%
Expected lives	8	8	8
Estimated forfeitures	-0-	-0-	-0-

During the year ended December 31, 2015, options to five employees to purchase a total of 22,500 shares were exercised. During the year ended December 31, 2014, options to two employees to purchase a total of 23,000 shares were exercised. During the year ended December 31, 2013, no options were exercised. During the year ended December 31, 2015, options to sixteen employees to purchase a total of 143,000 shares expired or were forfeited. During the year ended December 31, 2014, options to eleven employees to purchase a total of 108,000 shares expired. During the year ended December 31, 2013, options to ten employees to purchase a total of 84,000 shares expired.

There are six Directors of the Company who are also Directors and shareholders of Monmouth Real Estate Investment Corporation ("MREIC"). The Company holds common stock of MREIC in its securities portfolio. As of December 31, 2015, the Company owns a total of 2,125,270 shares of MREIC common stock, representing 3.3% of the total shares outstanding at December 31, 2015 (See Note 4). The Company shares 1 officer (Chairman of the Board) and one employee with MREIC. Effective October 1, 2015, other than the Company's Chairman of the Board, the Company does not share any employees with MREIC.

Employment Agreements and Compensation

The Company has three year employment agreements with its Chairman, President and Vice President. The agreements provide for base compensation aggregating approximating \$1 million. In addition, the agreements call for

incentive bonuses, and an extension of services and severance payments upon certain future events, such as a change in control.

Other Matters

Mr. Eugene W. Landy, the Founder and Chairman of the Board of the Company, owns a 24% interest in the entity that is the landlord of the property where the Company's corporate office space is located. The Company is also responsible for its proportionate share of real estate taxes and common area maintenance. On May 1, 2015, the Company renewed this lease for additional space and an additional seven-year term with monthly lease payments of \$14,900 through April 30, 2020 and \$15,300 through April 30, 2022. Management believes that the aforesaid rent is no more than what the Company would pay for comparable space elsewhere.

NOTE 9 – SHAREHOLDERS' EQUITY

Common Stock

The Company has a Dividend Reinvestment and Stock Purchase Plan ("DRIP"), as amended. Under the terms of the DRIP, shareholders who participate may reinvest all or part of their dividends in additional shares of the Company at a discounted price (approximately 95% of market value) directly from the Company, from authorized but unissued shares of the Company common stock. Shareholders may also purchase additional shares at this discounted price by making optional cash payments monthly. Optional cash payments must be not less than \$500 per payment nor more than \$1,000 unless a request for waiver has been accepted by the Company.

Amounts received in connection with the DRIP for the years ended December 31, 2015, 2014 and 2013 were as follows:

	<u>2015</u>	<u>2014</u>	<u>2013</u>

Preferred Stock

As of December 31, 2015, the Company had a total of 3,663,800 shares of Series A Preferred Stock outstanding representing an aggregate liquidation preference of \$91,595,000.

The annual dividend of the Series A Preferred Stock is \$2.0625 per share, or 8.25%, of the \$25.00 per share liquidation value and is payable quarterly in arrears on March 15, June 15, September 15, and December 15.

The Series A Preferred Stock, par value \$0.10, has no maturity and will remain outstanding indefinitely unless redeemed or otherwise repurchased. Except in limited circumstances relating to the Company's qualification as a REIT, and as described below, the Series A Preferred Stock is not redeemable prior to May 26, 2016. On and after May 26, 2016, the Series A Preferred Stock will be redeemable at the Company's option for cash, in whole or, from time to time, in part, at a price per share equal to \$25.00, plus all accrued and unpaid dividends (whether or not declared) to the date of redemption.

Upon the occurrence of a Delisting Event or Change of Control, as defined in the Prospectus of the Preferred Offering, each holder of the Series A Preferred Stock will have the right to convert all or part of the shares of the Series A Preferred Stock held, unless the Company elects to redeem the Series A Preferred Stock.

Holders of the Series A Preferred Stock generally have no voting rights, except if the Company fails to pay dividends for six or more quarterly periods, whether or not consecutive, or with respect to certain specified events.

On October 20, 2015, the Company issued and sold 1,801,200 shares of its 8.0% Series B Cumulative Redeemable Preferred Stock ("Series B Preferred Stock") in a registered direct placement at a sale price of \$25.00 per

share. The Company received net proceeds from the offering of approximately \$43 million, after deducting offering related expenses. Dividends on the Series B Preferred Stock are cumulative from October 20, 2015 at an annual rate of \$2.00 per share and will be payable quarterly in arrears at March 15, June 15, September 15, and December 15. The first quarterly dividend payment date for the Series B Preferred Stock will be payable March 15, 2016 and will be for the dividend period from October 20, 2015 to February 29, 2016. A portion of the dividend to be paid on March 15, 2016, covering the period October 20, 2015 to December 31, 2015, amounting to \$710,610 is included in the computation of net loss attributable to common shareholders in the accompanying consolidated financial statements.

The Series B Preferred Stock, par value \$0.10, has no maturity and will remain outstanding indefinitely unless redeemed or otherwise repurchased. Except in limited circumstances relating to the Company's qualification as a REIT, and as described below, the Series B Preferred Stock is not redeemable prior to October 20, 2020. On and after October 20, 2020, the Series B Preferred Stock will be redeemable at the Company's option for cash, in whole or, from time to time, in part, at a price per share equal to \$25.00, plus all accrued and unpaid dividends (whether or not declared) to the date of redemption.

Upon the occurrence of a Delisting Event or Change of Control, as defined in the Prospectus of the Preferred Offering, each holder of the Series B Preferred Stock will have the right to convert all or part of the shares of the Series B Preferred Stock held, unless the Company elects to redeem the Series B Preferred Stock.

Holders of the Series B Preferred Stock generally have no voting rights, except if the Company fails to pay dividends for six or more quarterly periods, whether or not consecutive, or with respect to certain specified events.

In conjunction with the issuance of the Company's Series B Preferred Stock, the Company filed with the Maryland State Department of Assessments and Taxation (the "Maryland SDAT"), an amendment to the Company's charter to increase the authorized number of shares of the Company's common stock by 22,000,000 shares. As a result of this amendment, the Company's total authorized shares were increased from 48,663,800 shares (classified as 42,000,000 shares of common stock, 3,663,800 shares of 8.25% Series A Cumulative Redeemable Preferred Stock and 3,000,000 shares of excess stock) to 70,663,800 shares (classified as 64,000,000 shares of common stock, 3,663,800 shares of 8.25% Series A Cumulative Redeemable Preferred Stock and 3,000,000 shares of excess stock). Immediately following this amendment, the Company filed with the Maryland SDAT Articles Supplementary setting forth the rights, preferences and terms of the Series B Preferred Stock and reclassifying 2,000,000 shares of Common Stock as shares of Series B Preferred Stock. After the reclassification, the Company's authorized stock consisted of 62,000,000 shares of common stock, 3,663,800 shares of 8.25% Series A Cumulative Redeemable Preferred Stock, 2,000,000 shares of 8% Series B Cumulative Redeemable Preferred Stock and 3,000,000 shares of excess stock.

Issuer Purchases of Equity Securities

On January 20, 2016, the Board of Directors reaffirmed its Share Repurchase Program (the "Repurchase Program") that authorizes the Company to purchase up to \$10,000,000 in the aggregate of the Company's common stock. The Repurchase Program was originally created in June 2008 and is intended to be implemented through purchases made from time to time using a variety of methods, which may include open market purchases, privately negotiated transactions or block trades, or by any combination of such methods, in accordance with applicable insider trading and other securities laws and regulations. The size, scope and timing of any purchases will be based on business, market and other conditions and factors, including price, regulatory and contractual requirements or consents, and capital availability. The Repurchase Program does not require the Company to acquire any particular amount of common stock, and the Repurchase Program may be suspended, modified or discontinued at any time at the Company's discretion without prior notice. There have been no purchases under the Repurchase Program to date.

NOTE 10 – DISTRIBUTIONS

For the year ended December 31, 2015, total distributions paid by the Company for preferred stock, amounted to \$7,556,588 or \$2.0625 per share (\$1.36264 taxed as ordinary income, \$0.03439 taxed as capital gains and \$0.66547 as a return of capital). For the year ended December 31, 2014, total distributions paid by the Company for preferred stock, amounted to \$7,556,588 or \$2.0625 per share (\$1.66551 taxed as ordinary income and \$0.39699 taxed as capital gains). For the year ended December 31, 2013, total distributions paid by the Company for preferred stock, amounted to \$7,556,588 or \$2.0625 per share (\$1.41816 taxed as ordinary income and \$.64434 taxed as capital gains).

In addition to the above, taxable income from non-REIT activities conducted by S&F, a Taxable REIT Subsidiary ("TRS"), is subject to federal, state and local income taxes. Deferred income taxes pertaining to S&F are accounted for using the asset and liability method. Under this method, deferred income taxes are recognized for temporary differences between the financial reporting bases of assets and liabilities and their respective tax bases and for operating loss and tax credit carryforwards based on enacted tax rates expected to be in effect when such amounts are realized or settled. However, deferred tax assets are recognized only to the extent that it is more likely than not that they will be realized based on consideration of available evidence, including tax planning strategies and other factors. For the years ended December 31, 2015, 2014 and 2013, S&F had operating losses for financial reporting purposes of \$3,550,961, \$3,946,571 and \$2,746,526, respectively. Therefore, a valuation allowance has been established against any deferred tax assets relating to S&F. For the years ended December 31, 2015, 2014 and 2013, S&F recorded \$15,000, \$15,000 and \$5,000, respectively, in federal, state and franchise taxes.

NOTE 12 – COMMITMENTS, CONTINGENCIES AND LEGAL MATTERS

The Company is subject to claims and litigation in the ordinary course of business. Management does not believe that any such claim or litigation will have a material adverse effect on the business, assets, or results of operations of the Company.

In 2010, a rainstorm bringing 13 inches of rain in a two-hour period caused flooding at Memphis Blues (formerly Memphis Mobile City). A lawsuit was filed by a purported class of individuals alleging various claims based on federal and state discrimination and consumer protection laws, seeking monetary damages and injunctive relief. This case was settled in March, 2015. In conjunction with the settlement, the Company paid \$125,000 to its insurance company for the Company's share of the settlement and the Company has no further liability. This amount has been included in the Company's community operating expenses. The Company is in the process of constructing a new manufactured home community at the former Memphis Blues location, which is expected to cost approximately \$5.4 million.

In November 2013, the Company entered into an agreement with 21st Mortgage under which 21st Mortgage can provide financing for home purchasers in the Company's communities. The Company does not receive referral fees or other cash compensation under the agreement. If 21st Mortgage makes loans to purchasers and those purchasers default on their loans and 21st Mortgage repossesses the homes securing such loans, the Company has agreed to purchase from 21st Mortgage each such repossessed home for a price equal to 80% to 95% of the amount under each such loan, subject to certain adjustments. This agreement may be terminated by either party with 30 days written notice. As of December 31, 2015, there were eighty-six transactions under this agreement with a total original loan amount of approximately \$4.5 million. Additionally, 21st Mortgage previously made loans to purchasers in certain communities we acquired. In conjunction with these acquisitions, the Company has agreed to purchase from

21st Mortgage each repossessed home, if those purchasers default on their loans. The purchase price ranges from 55% to 100% of the amount under each such loan, subject to certain adjustments. As of December 31, 2015, the total loan balance was approximately \$6.0 million.

NOTE 13 - FAIR VALUE MEASUREMENTS

The Company follows ASC 825, Fair Value Measurements, for financial assets and liabilities recognized at fair value on a recurring basis. The Company measures certain financial assets and liabilities at fair value on a recurring basis, including securities available for sale. The fair value of these certain financial assets and liabilities was determined using the following inputs at December 31, 2015 and 2014:

Fair Value Measurements at Reporting Date Using				
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(1) Included in accrued liabilities and deposits

In addition to the Company's investment in Securities Available for Sale at Fair Value, the Company is required to disclose certain information about fair values of its other financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are made at a specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's securities available for sale have quoted market prices. However, for a portion of the Company's other financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties, future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only and, therefore, cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents and notes receivables approximates their current carrying amounts since all such items are short-term in nature. The fair value of securities available for sale is primarily based upon quoted market values. The fair value of variable rate mortgages payable and loans payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. The estimated fair value of fixed rate mortgage notes payable is based on discounting the future cash flows at a year-end risk adjusted borrowing rate currently available to the Company for issuance of debt with similar terms and remaining maturities. These fair value measurements fall within level 2 of the fair value hierarchy. As of December 31, 2015, the fair and carrying value of fixed rate mortgages payable amounted to \$276,657,074 and \$274,542,499, respectively. As of December 31, 2014, the fair and carrying value of fixed rate mortgages payable amounted to

\$154,848,509 and \$152,213,686, respectively. When the Company acquires a property, it is required to fair value all of the assets and liabilities, including intangible assets and liabilities (See Note 1). Those fair value measurements fall within level 3 of the fair value hierarchy.

NOTE 14 – SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the years ended December 31, 2015, 2014 and 2013 was \$12,497,858, \$10,832,747 and \$8,185,305, respectively.

During the years ended December 31, 2015 and 2014, the Company assumed mortgages totaling approximately \$2.3 million and \$26.7 million for the acquisition of communities.

During the years ended December 31, 2015, 2014 and 2013, land development costs of \$60,857, \$100,372 and \$77,562, respectively were transferred to investment property and equipment and placed in service.

During the years ended December 31, 2015, 2014 and 2013, the Company had dividend reinvestments of \$2,006,287, \$1,858,491 and \$1,861,987, respectively which required no cash transfers.

NOTE 15 – SUBSEQUENT EVENTS

Material subsequent events have been evaluated and are disclosed herein.

The Company entered into a Chattel Loan Origination, Sale and Servicing Agreement (“COP Program”) with Triad Financial Services, effective January 1, 2016. The Company does not receive referral fees or other cash compensation under the agreement. Customer loan applications are initially submitted to Triad for consideration by Triad’s portfolio of outside lenders. If the loan application does not meet the criteria for outside financing, the application is then considered for financing under the COP Program. If the loan is approved under the COP Program, then it is originated by Triad and subsequently purchased by the Company

On January 7, 2016, the Company obtained a \$7,200,000 mortgage loan on Woods Edge from OceanFirst Bank. This mortgage is at a fixed rate of 4.3% and matures on January 7, 2026. The interest rate will be reset after five years to the rate the Federal Home Loan Bank of New York charges to its members plus 2.5%.

NOTE 16 – PRO FORMA FINANCIAL INFORMATION (UNAUDITED)

The following unaudited pro forma condensed financial information reflects the 2015 and 2014 acquisitions that have closed. This information has been prepared utilizing the historical financial statements of the Company and the effect of additional revenue and expenses from the properties acquired during 2015 and 2014 assuming that the acquisitions had occurred as of January 1, 2014, after giving effect to certain adjustments including (a) rental and related income; (b) community operating expenses; (c) interest expense resulting from the assumed increase in mortgages and loans payable related to the new acquisitions and (d) depreciation expense related to the new acquisitions. The unaudited pro forma condensed financial information is not indicative of the results of operations that would have been achieved had the acquisitions reflected herein been consummated on the dates indicated or that will be achieved in the future.
