

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-K

(Mark one)

- Annual report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the fiscal year ended December 31, 2017
 Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Commission file number 001-15169

PERFICIENT, INC.

(Exact Name of Registrant as Specified in Its Charter)

Delaware

(State or other jurisdiction of incorporation or organization)

No. 74-2853258

(I.R.S. Employer Identification No.)

555 Maryville University Drive, Suite 600

Saint Louis, Missouri 63141

(Address of principal executive offices)

(314) 529-3600

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class:

Common Stock, \$0.001 par value

Name of each exchange on which registered:

The Nasdaq Global Select Market

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting

Emerging growth
company

company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting stock held by non-affiliates of the Company was approximately \$621,087,857 based on the last reported sale price of the Company's common stock on The Nasdaq Global Select Market on June 30, 2017.

As of February 20, 2018, there were 34,817,355 shares of common stock outstanding.

Portions of the definitive proxy statement to be used in connection with the 2018 Annual Meeting of Stockholders, which will be filed with the Securities and Exchange Commission no later than April 30, 2018, are incorporated by reference in Part III of this Form 10-K.

PART I

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the statements contained in this Annual Report on Form 10-K that are not purely historical statements discuss future expectations, contain projections of results of operations or financial condition, or state other forward-looking information. Those statements are subject to known and unknown risks, uncertainties, and other factors that could cause the actual results to differ materially from those contemplated by the statements. The “forward-looking” information is based on various factors and was derived using numerous assumptions. In some cases, you can identify these so-called forward-looking statements by words like “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” or “continue” or the negative of those words and other comparable words. You should be aware that those statements only reflect our predictions and are subject to risks and uncertainties. Actual events or results may differ substantially. Important factors that could cause our actual results to be materially different from the forward-looking statements include (but are not limited to) the following:

- (1) the impact of the general economy and economic uncertainty on our business;
- (2) risks associated with potential changes to federal, state, local and foreign laws, regulations and policies;
- (3) risks associated with the operation of our business generally, including:
 - a) client demand for our services and solutions;
 - b) maintaining a balance of our supply of skills and resources with client demand;
 - c) effectively competing in a highly competitive market;
 - d) protecting our clients' and our data and information;
 - e) risks from international operations including fluctuations in exchange rates;
 - f) changes to immigration policies;
 - g) obtaining favorable pricing to reflect services provided;
 - h) adapting to changes in technologies and offerings;
 - i) risk of loss of one or more significant software vendors;
 - j) making appropriate estimates and assumptions in connection with preparing our consolidated financial statements;
 - k) maintaining effective internal controls; and
 - l) changes to tax levels, audits, investigations, tax laws or their interpretation;
- (4) legal liabilities, including intellectual property protection and infringement or the disclosure of personally identifiable information;
- (5) risks associated with managing growth organically and through acquisitions; and
- (6) the risks detailed from time to time within our filings with the Securities and Exchange Commission (the “SEC”).

This discussion is not exhaustive, but is designed to highlight important factors that may impact our forward-looking statements. Because the factors referred to above, as well as the statements included under the heading “Risk Factors” in this Annual Report on Form 10-K, including documents incorporated by reference therein and herein, could cause actual results or outcomes to differ materially from those expressed in any forward-looking statement made by us or on our behalf, you should not place undue reliance on any forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements. We are under no duty to update any of the forward-looking statements after the date of this Annual Report on Form 10-K to conform such statements to actual results.

All forward-looking statements, express or implied, included in this report and the documents we incorporate by reference and that are attributable to Perficient, Inc. and its subsidiaries (collectively, “we,” “us,” “Perficient,” or the “Company”) are expressly qualified in their entirety by this cautionary statement. This cautionary statement should also be considered in connection with any subsequent written or oral forward-looking statements that the Company or any persons acting on our behalf may issue.

Item 1. Business.

Overview

Perficient is a leading digital transformation consulting firm serving Global 2000® and enterprise customers throughout North America. With a broad array of information technology, management consulting, and creative capabilities, Perficient and its Perficient Digital agency deliver vision, execution, and value with outstanding digital experience, business optimization, and industry solutions.

Our work enables clients to improve productivity and competitiveness; grow and strengthen relationships with customers, suppliers and partners; and reduce costs. Our solutions include analytics, custom applications, management consulting, commerce, content management, business integration, customer relationship management, portals and collaboration, platform implementations, business process management, enterprise data and business intelligence, enterprise performance management, enterprise mobile, cloud services, digital marketing, and DevOps, among others. Our solutions enable our clients to operate a real-time enterprise that dynamically adapts business processes and the systems that support them to meet the changing demands of a global, Internet-driven and competitive marketplace.

Through our experience in developing and delivering solutions for our clients, we believe we have acquired domain expertise that differentiates our firm. We use project teams that deliver high-value, measurable results by working collaboratively with clients and their partners through a user-centered, technology-based and business-driven solutions methodology. We believe this approach enhances return on investment for our clients by reducing the time and risk associated with designing and implementing technology solutions.

We serve our clients from locations in multiple markets throughout North America and through domestic and global delivery centers by leveraging an experienced sales team that is connected through a common service portfolio, sales process, and performance management system. Our sales process utilizes project pursuit teams that include those colleagues best suited to address a particular prospective client's needs. Our primary target client base includes companies in North America with annual revenues in excess of \$500 million. We believe this market segment can generate the repeat business that is a fundamental part of our growth plan. We primarily pursue solutions opportunities where our domain expertise and delivery track record give us a competitive advantage.

During 2017, we continued to implement a strategy focused on: expanding our relationships with existing and new clients; continuing to make disciplined acquisitions by acquiring substantially all of the respective assets of RAS & Associates, LLC ("RAS"), in January and Clarity Consulting, Inc. and Truth Labs, LLC (together, "Clarity"), in June; expanding our technical skill and geographic base through the acquisitions of RAS and Clarity; expanding our brand visibility among prospective clients, employees, and software vendors; leveraging our offshore capabilities in India and China; and leveraging our existing (and pursuing new) strategic alliances by targeting leading business advisory companies and technology providers. Approximately 98% of our revenues were derived from clients in the United States during each of the years ended December 31, 2017, 2016 and 2015. Approximately 94%, 95% and 96% of our total assets were located in the United States as of December 31, 2017, 2016 and 2015, respectively, with the remainder located in Canada, India, China, and the United Kingdom.

We have been able to extend or enhance our presence in certain markets through acquisitions, as well as expand or enhance the services and solutions we are able to provide our clients. Our acquisition of RAS on January 3, 2017 enhanced and expanded the Company's management consultancy in strategy, operations and business process optimization expertise in the Denver, Colorado market. Our acquisition of Clarity on June 22, 2017 enhanced and expanded the Company's management consultancy in custom development, cloud implementation, and digital experience design on Microsoft platforms and devices and enabled us to deepen our penetration in the Chicago, Illinois market.

We provide services primarily to the healthcare (including pharma and life sciences), financial services (including banking and insurance), automotive and transport products, retail and consumer goods, manufacturing, electronics and computer hardware, telecommunications, business services, leisure, media and entertainment, and energy and utilities markets.

Our Solutions

We help clients gain competitive advantage by using technology to: make their businesses more responsive to market opportunities; strengthen relationships with customers, suppliers, and partners; improve productivity; and reduce information technology costs. Our digital experience, business optimization and industry solutions enable these benefits by developing, integrating, automating, and extending business processes, technology infrastructure, and software applications end-to-end within an organization and with key partners, suppliers, and customers. This provides real-time access to critical business applications and information and a scalable, reliable, secure, and cost-effective technology infrastructure that enables clients to:

- give managers and executives the information they need to make quality business decisions and dynamically adapt their business processes and systems to respond to client demands, market opportunities, or business problems;
- improve the quality and lower the cost of customer acquisition and care through web-based customer self-service and provisioning;
- reduce supply chain costs and improve logistics by flexibly and quickly integrating processes and systems and making relevant real-time information and applications available online to suppliers, partners, and distributors;
- increase the effectiveness and value of legacy enterprise technology infrastructure investments by enabling faster application development and deployment, increased flexibility, and lower management costs; and
- increase employee productivity through better information flow and collaboration capabilities and by automating routine processes to enable focus on unique problems and opportunities.

Our broad spectrum of digital experience and business optimization solutions, delivered through both Perficient and our Perficient Digital agency, include the following:

- *Analytics.* We design, develop, and implement business analytics solutions that allow companies to interpret and act upon accurate, timely, and integrated information. Business analytics solutions help our clients make more informed business decisions by classifying, aggregating, and correlating data into meaningful business information. Our business analytics solutions allow our clients to transform data into knowledge for quick and effective decision making and can include information strategy, data warehousing, and business analytics and reporting.
- *Custom Applications.* We design, develop, implement, and integrate custom application solutions that deliver enterprise-specific functionality to meet the unique requirements and needs of our clients. Our substantial experience with platforms including J2EE, .NET, and open source enables enterprises of all types to leverage cutting-edge technologies to meet business-driven needs.
- *Management Consulting.* Our management consulting experts communicate in a language that makes sense at all levels of the organization, translating corporate strategy into operational results by bridging the gaps that often exist between business and technology. Technology investments can be a critical piece of an overall strategic business plan, and we are able to translate that in business terms. We help our clients manage enterprise change, which is frequently in the context of large technology innovations and transformations. We offer services in many areas including: organizational change management; business analytics; project management; process excellence; and more.
- *Commerce.* Driven by customer insights, we gather and analyze data to determine the best approach for implementing a successful omni-channel commerce strategy. With a deep understanding of business needs and extensive technical capabilities, our commerce solutions embrace the power of digital transformation to encompass multiple channels, providing a seamless and efficient experience across the entire enterprise. Our solutions include: commerce transformation consulting; strategy, roadmaps, and program management; customer journeys, user experience and prototypes; content management; and product configuration.

- *Content Management.* Our content management solutions enable the management of all unstructured information regardless of file type or format. Our solutions can facilitate the creation of new content and/or provide easy access and retrieval of existing digital assets from other enterprise tools such as enterprise resource planning, customer relationship management, or legacy applications.

- *Business Integration.* We help clients integrate fragmented, non-integrated systems and processes with a coherent architecture on which to rationalize and modernize legacy systems, automate and optimize business processes, and improve data quality and accessibility. We specialize in service-oriented architecture, application program interfaces (“APIs”), business process management, event-driven architecture, complex event processing, master data management, and enterprise application integration, often using these technologies together to modernize legacy application architecture and support multi-channel user experiences such as portals, B2B (business to business) APIs, social media and mobility applications.
- *Customer Relationship Management (“CRM”).* We design, develop, and implement advanced CRM solutions that facilitate customer acquisition, service and support, and sales and marketing by understanding our clients’ needs through interviews, requirements-gathering sessions, call center analysis, developing an iterative prototype-driven solution, and integrating the solution to legacy processes and applications.
- *Portals and Collaboration.* We design, develop, implement, and integrate secure and scalable enterprise portals and social/collaboration solutions for our clients and their customers, employees, suppliers, partners, members, patients and others to help them connect to information, documents, and one another. These include searchable data systems, collaborative systems for process improvement, transaction processing, unified and extended reporting, commerce, content management and more. Our award-winning work includes multiple portal types built on many vendor platforms and features integration with a variety of technologies, social capabilities, and mobile sites.
- *Platform Implementations.* We design, develop, and implement technology platform solutions that allow our clients to establish a robust, reliable Internet-based infrastructure for integrated business applications which extend enterprise technology assets to employees, customers, suppliers, and partners. Our platform services include application server selection, architecture planning, installation and configuration, clustering for availability, performance assessment and issue remediation, security services, and technology migrations.
- *Business Process Management (“BPM”).* BPM combines people, process and technology to improve organizational performance and customer value. We design, develop, and implement BPM solutions that allow our clients to quickly adapt their business processes to respond to new market opportunities or competitive threats by taking advantage of business strategies supported by flexible business applications and information technology infrastructures.
- *Enterprise Data and Business Intelligence.* Analytics provide the vehicle for driving meaningful, measurable, and sustainable improvement for the business. With the prevalence of complex, disconnected, and variable business processes, along with ever-expanding data, it is essential for organizations to leverage analytics to improve decision making and agility. We integrate relevant data and systems into a robust analytics strategy to help our clients create a 360-degree view of their customers and key performance metrics.
- *Enterprise Performance Management (“EPM”).* EPM, also known as corporate performance management, provides executive decision makers access to the integrated information they need in order to truly focus on profitability and performance. We make the difference with solutions that link financial data to ensure clients have visibility into all their business drivers and can effectively make critical business decisions based on real-time information. We do this by providing solutions that support budgeting and forecasting, financial consolidations, reporting and analytics, compliance, and more.
- *Enterprise Mobile.* Enterprise mobile is transforming the way the world does business. Consumers and workforces alike are never far from a device, which is why we believe in connected experiences. Our Percipient Digital agency creates mobile solutions that enable sales teams, mobilize the workforce, and engage with users on a deeper level. We are experts in enterprise and consumer mobile apps, IoT (Internet of Things), wearables, virtual and augmented reality, POC (proof of concept) and prototypes, and enterprise systems integrations.
- *Cloud Services.* Agility, innovation, and rapid time-to-market are critical to maintaining competitive advantage and seizing market opportunities, and cloud computing has emerged as perhaps the key enabler for business efficiency and agility. We help clients leverage cloud technologies from strategy through implementation for maximum business value with cloud services that include: architecture; assessments (business value and health checks); strategy and road maps; and vendor evaluation and selection.
- *Digital Marketing.* We leverage client insights and analytical customer data to deliver exceptional results that allow our clients to stay ahead of the competition and to remain at the forefront of everything related to digital marketing. Our expertise, largely delivered by our Percipient Digital agency, includes: search engine marketing (including search engine optimization and pay-per-click advertising); user experience and design; and conversion rate optimization.
- *DevOps.* DevOps stresses communication, collaboration, and integration of the various IT aspects required to deliver solutions for the business, and promotes innovation by radically speeding application delivery time. We help clients address DevOps from a strategy and change management perspective. We assess and mitigate risks, redesign communications and delivery processes, ensure higher quality, and support increased automation of critical IT tasks that limit productivity of key IT resources.

We conceive, build, and implement these solutions through a comprehensive set of services including business strategy, user-centered design, systems architecture, custom application development, technology integration, package implementation, and managed services.

We have developed intellectual property assets, applications, utilities and products, that enable our clients to speed time to delivery and reduce total cost of ownership. In addition, we also sell certain internally developed software packages. These foundational tools include configurable Solution Accelerators and Industry Tools that can be customized to solve specific enterprise challenges. Our Solution Accelerators increase the velocity of solution development across key horizontal disciplines including content management, integration and APIs, business process management, enterprise search and tax compliance. Our Industry Tools enable enterprises to address industry-specific business process and workflow challenges. We offer tools for the healthcare, energy and utilities, financial services and retail markets. Our strong network of partnerships and cross-platform capabilities enable us to develop and deliver accelerators across a wide spectrum of solution areas and vendor platforms.

In addition to our technology solution services and intellectual property assets, we offer education and mentoring services to our clients. We conduct IBM and Oracle-certified training, where we provide our clients both a customized and established curriculum of courses and other education services.

Competitive Strengths

We believe our competitive strengths include:

- *Domain Expertise.* We have acquired significant domain expertise in a core set of technology solutions and software platforms. These solutions include analytics, custom applications, management consulting, commerce, content management, business integration, customer relationship management, portals and collaboration, platform implementations, and business process management, among others. The platforms with which we have significant domain expertise and on which these solutions are built include IBM, Microsoft, Oracle, Salesforce, Adobe and Magento, among others.
- *Industry Expertise.* We serve many of the world's largest and most-respected companies with extensive business process experience across a variety of markets. These markets include healthcare (including pharma and life sciences), financial services (including banking and insurance), automotive and transport products, retail and consumer goods, manufacturing, electronics and computer hardware, telecommunications, business services, leisure, media and entertainment, and energy and utilities markets.
- *Delivery Model and Methodology.* We believe our significant domain expertise enables us to provide high-value solutions through expert project teams that deliver measurable results by working collaboratively with clients through a user-centered, technology-based, and business-driven solutions methodology. Our methodology includes a proven execution process map we developed, which allows for repeatable, high quality services delivery. The methodology leverages the thought leadership of our senior strategists and practitioners to support the client project team and focuses on transforming our clients' business processes to provide enhanced customer value and operating efficiency, enabled by web technology. As a result, we believe we are able to offer our clients the dedicated attention that small firms usually provide and the delivery and project management that larger firms usually offer.
- *Client Relationships.* We have built a track record of quality solutions and client satisfaction through the timely, efficient, and successful completion of numerous projects for our clients. As a result, we have established long-term relationships with many of our clients who continue to engage us for additional projects and serve as references for us. For the years ended December 31, 2017, 2016, and 2015, 92%, 86% and 87%, respectively, of services revenues were derived from clients who continued to utilize our services from the prior year, excluding any revenues from acquisitions completed in that year.
- *Vendor Relationship and Endorsements.* We have built meaningful relationships with software providers, whose products we use to design and implement solutions for our clients. These relationships enable us to reduce our cost of sales and sales cycle times and increase win rates by leveraging our partners' marketing efforts and endorsements. We also serve as a sales channel for our partners, helping them market and sell their software products. We are an IBM Premier Business Partner, a Microsoft National Solutions Provider and Global NSP Partner, an Oracle Platinum Partner, an Adobe Premium Partner, and a Salesforce Platinum Consulting Partner. In 2017, we received multiple awards and recognition from our partners, including, among others:
 - IBM Beacon Award - Outstanding Enterprise Cloud Solution;
 - Microsoft Global Messaging Partner of the Year;
 - Microsoft Performance Partner of the Year; and
 - Microsoft U.S. EPG Office 365 Consumption Partner of the Year
- *Offshore Capability.* We serve our clients from locations in multiple markets throughout North America, and, in addition, we operate global development centers in Chennai and Nagpur, India and Hangzhou, China. These facilities are staffed with colleagues who have specializations that include application development, adapter and interface development, quality assurance and testing, monitoring and support, product development, platform migration, and portal development with expertise in IBM, Microsoft Oracle and Magento technologies. In addition to our offshore capabilities, we employ a number of foreign nationals in the United States on H1-B visas. The facility in Chennai, India is also a recruiting and development facility used to continue to grow our base of H1-B foreign national colleagues. As of December 31, 2017, we had 296 colleagues at the Nagpur, India facility, 242 colleagues at the Chennai, India facility, 210 colleagues at the Hangzhou, China facility, and 203 colleagues with H1-B visas. We intend to continue to leverage our existing offshore capabilities, especially in India, to support our growth and provide our clients flexible options for project delivery.
- *Onshore Capability.* The Company maintains a domestic delivery center (the "DDC") in Lafayette, Louisiana. The DDC augments our offshore delivery centers in India and China, further optimizing our global network and comprehensive technology, delivery management and industry vertical expertise across North America. With the addition of the DDC, we have increased capabilities and improved service levels that cover the entire spectrum of the software development lifecycle. As of December 31, 2017, we had 47 colleagues at the DDC.

Competition

The market for the services we provide is competitive and has low barriers to entry. We believe that our competitors fall into several categories, including:

- small local consulting firms that operate in no more than one or two geographic regions;
- boutique consulting firms, such as Prolifics and Avanaide;
- national consulting firms, such as Accenture, Deloitte Consulting, Publicis.Sapient, EPAM Systems, and Globant;
- digital consulting firms/entities such as Accenture Interactive, Deloitte Digital, SapientRazorfish, Edgewater, and Computer Task Group;
- in-house professional services organizations of software companies; and
- offshore providers, such as Infosys Technologies Limited, Cognizant and Wipro Limited.

We believe that the principal competitive factors affecting our market include domain expertise, track record and customer references, partner network with leading technology companies, quality of proposed solutions, service quality and performance, efficiency, reliability, scalability and features of the software platforms upon which the solutions are based, and the ability to implement solutions quickly and respond on a timely basis to customer needs. In addition, because of the relatively low barriers to entry into this market, we expect to face additional competition from new entrants. We expect competition from offshore outsourcing and development companies to continue.

Some of our competitors have longer operating histories, larger client bases, greater name recognition, and possess significantly greater financial, technical, and marketing resources than we do. As a result, these competitors may be able to attract customers to which we market our services and adapt more quickly to new technologies or evolving customer or industry requirements.

Employees

As of December 31, 2017, we had 3,024 employees, 2,362 of which were billable (excluding 216 billable subcontractors) and 446 of which were involved in sales, administration, and marketing. None of our employees are represented by a collective bargaining agreement, and we have never experienced a strike or similar work stoppage. We are committed to the continued development of our employees.

Sales and Marketing. As of December 31, 2017, we had a 101-person direct solutions-oriented sales force. We reward our sales force for developing and maintaining relationships with our clients, seeking follow-up engagements, and leveraging those relationships to forge new relationships in different areas of the business and with our clients' business partners. Approximately 86% of our services revenues are executed by our direct sales force. In addition to our direct sales team, we also have 51 dedicated sales support employees, 39 general managers and 9 vice-presidents who are engaged in our sales and marketing efforts.

We have sales and marketing partnerships with software vendors including IBM, Microsoft, Oracle, Adobe, Salesforce, and Magento. These companies are key vendors of open standards-based software commonly referred to as middleware application servers, enterprise application integration platforms, business process management, cloud computing applications, business activity monitoring and business intelligence applications, and enterprise portal server software. Our direct sales force works in tandem with the sales and marketing groups of our partners to identify potential new clients and projects. Our partnerships with these companies enable us to reduce our cost of sales and sales cycle times and increase win rates by leveraging our partners' marketing efforts and endorsements.

Talent Acquisition. We are dedicated to hiring, developing, and retaining experienced, motivated technology professionals who combine a depth of understanding of current Internet and legacy technologies with the ability to implement complex and cutting-edge solutions. We believe in an employee-centered environment that is built on a culture of respect.

Retention. We firmly believe in the power of partnership and the spirit of innovation and approach every opportunity with these philosophies in mind. We focus on a core set of digital experience, business optimization, and industry solutions, applications, and software platforms and our commitment to our employees' career development through continued training and advancement opportunities sets us apart as an employer of choice.

Compensation. Our compensation philosophy and programs are designed to attract, retain, motivate and reward employees based on performance and results. Our tiered incentive compensation plans help us reach our overall goals by rewarding individuals for their influence on key performance factors and allow for differentiation so that truly stellar performers may be rewarded.

General Information

Our stock is traded on The Nasdaq Global Select Market under the symbol "PRFT." Our website can be visited at www.perficient.com. We make available free of charge through our website our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. The information contained or incorporated in our website is not part of this document.

Financial Information about Segments and Geographic Areas

See the Consolidated Financial Statements and the Notes to Consolidated Financial Statements appearing in Part II, Item 8.

Item 1A. Risk Factors.

You should carefully consider the following factors together with the other information contained in or incorporated by reference into this Annual Report on Form 10-K before you decide to buy our common stock. These factors could materially adversely affect our business, financial condition, operating results, cash flows, or stock price. Our business is also subject to general risks and uncertainties that may broadly affect companies, including us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also could materially adversely affect our business, financial condition, operating results, cash flows, or stock price.

Our results of operations could be adversely affected by volatile, negative or uncertain economic conditions and the effects of these conditions on our clients' businesses and levels of business activity.

Global macroeconomic conditions affect our clients' businesses and the markets they serve. Developments such as economic downturns, recessions, instability and inflationary risks in the United States, Europe, Canada, China and India, among other developments, may have an adverse effect on our clients' businesses and, consequently, on our results of operations, revenue growth and profitability.

Volatile, negative or uncertain economic conditions in the markets we serve have undermined, and could in the future undermine, business confidence and cause our clients to reduce or defer their spending on new technologies or initiatives or terminate existing contracts, which would negatively affect our business. Growth in markets we serve could be at a slow rate, or could stagnate, in each case, for an extended period of time. Differing economic conditions and patterns of economic growth and contraction in the geographical regions in which we operate and the markets we serve have affected, and may in the future affect, demand for our services. A material portion of our revenues and profitability is derived from our clients in North America. Weakening demand in this market could have a material adverse effect on our results of operations. Ongoing economic volatility and uncertainty affects our business in a number of other ways, including making it more difficult to accurately forecast client demand beyond the short term and effectively build our revenue and resource plans, particularly in consulting. This could result, for example, in us not having the level of appropriate personnel where they are needed or having to use involuntary terminations as means to keep our supply of skills and resources in balance.

Economic volatility and uncertainty is particularly challenging because it may take some time for the effects and resulting changes in demand patterns to manifest themselves in our business and results of operations. Changing demand patterns from economic volatility and uncertainty could have a significant negative impact on our results of operations.

We face risks associated with potential changes to federal, state, local and foreign laws, regulations and policies.

Significant changes to various federal, state, local and foreign laws, regulations and policies to which the Company is subject are under consideration by applicable government administrations and agencies. If enacted, these changes may affect our business in a manner that currently cannot be reliably predicted. These uncertainties may include changes in laws, regulations and policies in areas such as corporate taxation (including but not limited to the recently enacted Tax Cuts and Jobs Act of 2017 (the "2017 Tax Act")), international trade, labor and employment law, immigration and health care, which individually or in the aggregate could materially and adversely affect our business, results of operations or financial condition.

We provide services to various clients participating in the healthcare market. Certain cuts in U.S. government healthcare programs and other changes have been proposed and discussed. These cuts and changes may result in reduced expenditures by our healthcare customers on information technology projects, which could materially and adversely affect our business, results of operations or financial condition.

Our business depends on generating and maintaining ongoing, profitable client demand for our services and solutions, and a significant reduction in such demand could materially affect our results of operations.

Our revenue and profitability depend on the demand for our services and favorable margins, which could be negatively affected by numerous factors, many of which are beyond our control and unrelated to our work product. As described above, volatile, negative or uncertain global economic conditions have adversely affected, and could in the future adversely affect, client demand for our services and solutions. In addition, developments in the markets we serve, which may be rapid, could shift demand to services and solutions where we are less competitive, or might require significant investment by us to upgrade, enhance or expand our services and solutions to meet that demand. Companies in the markets we serve sometimes seek to achieve economies of scale and other synergies by combining with or acquiring other companies. If one of our current clients merges or consolidates with a company that relies on another provider for its consulting, systems integration and technology, or outsourcing services, we may lose work from that client or lose the opportunity to gain additional work if we are not successful in generating new opportunities from the merger or consolidation. Many of our consulting contracts are less than 12 months in duration, and often contain 10 to 30 day termination provisions. If a client is dissatisfied with our services and we are unable to effectively respond to its needs, the client might terminate existing contracts, or reduce or eliminate spending on the services and solutions we provide. Additionally, a client could choose not to retain us for additional stages of a project, try to renegotiate the terms of its contract or cancel or delay additional planned work. When contracts are terminated or not renewed, we lose the anticipated revenues, and it may take significant time to replace the lost revenues or we may be unsuccessful in our attempt to recover such revenues. Consequently, our results of operations in subsequent periods could be materially lower than expected. The specific business or financial condition of a client, changes in management and changes in a client's strategy also are all factors that can result in terminations, cancellations or delays. It could also result in pressure to reduce the cost of our services.

If we are unable to keep our supply of skills and resources in balance with client demand and attract and retain professionals with strong leadership skills, our business, the utilization rate of our professionals and our results of operations may be materially adversely affected.

Our success depends, in large part, upon our ability to keep our supply of skills and resources in balance with client demand and our ability to attract and retain personnel with the knowledge and skills to lead our business. Experienced personnel in our industry are in high demand, and there is much competition to attract qualified personnel. We must hire, retain and motivate appropriate numbers of talented people with diverse skills in order to serve clients across North America, respond quickly to rapid and ongoing technology, industry and macroeconomic developments and grow and manage our business. For example, if we are unable to hire or continually train our employees to keep pace with the rapid and continuing changes in technology and the markets we serve or changes in the types of services clients are demanding we may not be able to develop and deliver new services and solutions to fulfill client demand. As we expand our services and solutions, we must also hire and retain an increasing number of professionals with different skills and expectations than those of the professionals we have historically hired and retained. Additionally, if we are unable to successfully integrate, motivate and retain these professionals, our ability to continue to secure work for our services and solutions in those markets may decline.

We are dependent upon retaining our senior executives and other experienced managers, and if we are unable to do so, our ability to develop new business and effectively lead our current projects could be jeopardized. We depend upon identifying, developing, and retaining key employees to provide leadership and direction for our businesses. This includes developing talent and leadership capabilities in emerging markets, where the depth of skilled employees is often limited and competition for these resources is great. Our geographic expansion strategy in emerging markets depends on our ability to attract, retain and integrate both local business leaders and people with the appropriate skills.

Similarly, our profitability depends upon our ability to effectively utilize personnel with the right mix of skills and experience to perform services for our clients, including our ability to transition employees to new assignments on a timely basis. If we are unable to effectively deploy our employees on a timely basis to fulfill the needs of our clients, our ability to perform our work profitably could suffer. If the utilization rate of our professionals is too high, it could have an adverse effect on employee engagement and attrition, the quality of the work performed and our ability to staff projects. If our utilization rate is too low, our profitability and the engagement of our employees could suffer. The costs associated with recruiting and training employees are significant. An important element of our global business model is the deployment of our employees around the world, which allows us to move talent as needed. Therefore, if we are not able to deploy the talent we need because of increased regulation of immigration or work visas, including limitations placed on the number of visas granted, limitations on the type of work performed or location in which it can be performed, and new or higher minimum salary requirements, it could be more difficult to staff our employees on client engagements and could increase our costs.

Our equity-based incentive compensation plans are designed to reward high-performing personnel for their contributions and provide incentives for them to remain with us. If the anticipated value of these incentives does not materialize because of volatility or lack of positive performance in our stock price, or if our total compensation package is not viewed as being competitive, our ability to attract and retain the personnel we need could be adversely affected.

There is a risk that at certain points in time and in certain markets, we will find it difficult to hire and retain a sufficient number of employees with the skills or backgrounds to meet current and/or future demand. In these cases, we might need to redeploy existing personnel or increase our reliance on subcontractors to fill certain labor needs, and if not done effectively, our profitability could be negatively impacted. Additionally, if demand for our services were to escalate at a high rate, we may need to adjust our compensation practices, which could put upward pressure on our costs and adversely affect our profitability if we are unable to recover these increased costs. At certain times, however, we may also have more personnel than we need in certain skill sets or geographies. In these situations, we must evaluate voluntary attrition and use reduced levels of new hiring and increased involuntary terminations as means to keep our supply of skills and resources in balance with client demand in those markets.

The market for the information technology consulting services in which we operate is highly competitive, and we might not be able to compete effectively.

The market for the information technology consulting services we provide is competitive, ever evolving, and subject to rapid technological change. Our competitors include: large multinational providers that offer some or all of the services that we do; offshore service providers in lower-cost locations that offer services similar to those we offer, often at highly competitive prices and on more aggressive contractual terms; niche solution and service providers or local competitors that compete with us in a specific geographic market, industry segment or service area, including companies that provide new or alternative products, service or delivery models; accounting firms that are expanding or building their capabilities to provide certain consulting services, including through acquisitions; and in-house departments of large corporations that use their own resources, rather than engage an outside firm for the types of services we provide.

Many of the larger regional and national information technology consulting firms have substantially longer operating histories, more established reputations and potential vendor relationships, greater financial resources, sales and marketing organizations, market penetration, and research and development capabilities, as well as broader product offerings, greater market presence, and name recognition.

In addition, there are relatively low barriers to entry into this market and therefore new entrants may compete with us in the future. For example, due to the rapid changes and volatility in our market, many well-capitalized companies, including some of our partners that have focused on sectors of the software and services industry that are not competitive with our business may refocus their activities and deploy their resources to be competitive with us.

Our future financial performance is largely dependent upon our ability to compete successfully in the markets we currently serve. If we are unable to compete successfully, we could lose market share and clients to competitors, which could materially adversely affect our results of operations.

In addition, we may face greater competition due to consolidation of companies in the technology sector, through strategic mergers or acquisition. Consolidation activity may result in new competitors with greater scale, a broader footprint, or offerings that are more attractive than ours. We believe that this competition could have a negative effect on our ability to compete for new work and skilled professionals. One or more of our competitors may develop and implement methodologies that result in superior productivity and price reductions without adversely affecting their profit margins. In addition, competitors may win client engagements by significantly discounting their services in exchange for a client's promise to purchase other goods and services from the competitor, either concurrently or in the future. These activities may potentially force us to lower our prices and suffer reduced operating margins. Any of these negative effects could significantly impair our results of operations and financial condition. We may not be able to compete successfully against new or existing competitors.

We could have liability or our reputation could be damaged if we fail to protect client and Company data or information systems or if our information systems are breached.

We are dependent upon information technology networks and systems to process, transmit, and store electronic information and to communicate among our locations and with our partners and clients. Security breaches of this infrastructure could lead to shutdowns or disruptions of our systems and potential unauthorized disclosure of confidential information. In providing services to clients, we are also required at times to manage, utilize, and store sensitive or confidential client or employee data. As a result, we are subject to numerous laws and regulations designed to protect this information, such as various U.S. federal and state laws and foreign laws governing the protection of personally identifiable information. If any person, including any of our employees, negligently disregards or intentionally breaches our established controls with respect to such data or otherwise mismanages or misappropriates that data, we could be subject to monetary damages, regulatory enforcement actions, fines, and/or criminal prosecution. Unauthorized disclosure of sensitive or confidential client or employee data, whether through systems failure, employee negligence, fraud or misappropriation could damage our reputation and cause us to lose clients. Similarly, unauthorized access to or through our information systems or those we develop for our clients, whether by our employees or third parties, could result in negative publicity, significant remediation costs, legal liability, and damage to our reputation and could have a material adverse effect on our results of operations. In addition, our liability insurance might not be sufficient in type or amount to cover us against claims related to security breaches, cyber-attacks and other related breaches.

We might not be successful at identifying, acquiring, or integrating other businesses.

We have pursued a disciplined acquisition strategy designed to enhance or add to our offerings of services and solutions, or to enable us to expand in certain markets. Depending upon the opportunities available, we may increase our investment in these acquisitions. In that pursuit, we may not successfully identify suitable acquisition candidates, succeed in completing targeted transactions, or achieve desired results of operations. Furthermore, we face risks in successfully integrating any businesses we acquire. Ongoing business may be disrupted and our management's attention may be diverted by acquisitions, transition or integration activities. In addition, we might need to dedicate additional management and other resources, and our organizational structure could make it difficult for us to efficiently integrate acquired businesses into our ongoing operations and assimilate and retain employees of those businesses into our culture and operations.

We might fail to realize the expected benefits or strategic objectives of any acquisition we make. We might not achieve our expected return on investment, or we may lose money. We may be adversely impacted by liabilities that we assume from a company we acquire, including from that company's known and unknown obligations, intellectual property or other assets, terminated employees, current or former clients, or other third parties, and we may fail to identify or adequately assess the magnitude of certain liabilities, shortcomings or other circumstances prior to acquisition, which could result in unexpected legal or regulatory exposure, unexpected increases in taxes or other adverse effects on our business and profitability. If we are unable to complete the number and kind of acquisitions for which we plan, or if we are inefficient or unsuccessful at integrating any acquired businesses into our operations, we may not be able to achieve our planned rates of growth or improve our market share, profitability, or competitive position in specific markets or services.

International operations subject us to additional political and economic risks that could have an adverse impact on our business.

We maintain global development centers in India and China. We have offices in the United Kingdom and Canada. We are subject to certain risks related to expanding our presence into non-U.S. regions, including risks related to complying with a wide variety of national and local laws, restrictions on the import and export of certain technologies, and multiple and possibly overlapping tax structures. In addition, we may face competition from companies that may have more experience with operations in these countries or with international operations generally. We may also face difficulties integrating new facilities in different countries into our existing operations, as well as integrating employees that we hire in different countries into our existing corporate culture.

Furthermore, there are risks inherent in operating in and expanding into non-U.S. regions, including, but not limited to:

- political and economic instability, including in connection with the United Kingdom's exit from the European Union;
- global health conditions and potential natural disasters;
- unexpected changes in regulatory requirements, including immigration restrictions, tariffs, and other trade barriers and tax regulations, the enforcement of such requirements by applicable governmental authorities and other legal uncertainty;
- limitations on our ability to repatriate cash from our international operations;
- complexities and additional costs in effectively managing our international operations;
- international currency controls and exchange rate fluctuations;
- reduced protection for intellectual property rights; and
- additional vulnerability from terrorist groups targeting U.S. interests abroad.

Any one or more of the factors set forth above could have a material adverse effect on our international operations and, consequently, on our business, financial condition, and operating results.

Immigration restrictions related to H1-B visas could hinder our growth and adversely affect our business, financial condition and results of operations.

Approximately 9% of our billable workforce is comprised of skilled foreign nationals holding H1-B visas. We also operate recruiting and development facilities in India and China to continue to grow our base of H1-B foreign national colleagues. The H1-B visa classification enables us to hire qualified foreign workers in positions that require the equivalent of at least a bachelor's degree in the U.S. in a specialty occupation such as technology systems engineering and analysis. The H1-B visa generally permits an individual to work and live in the U.S. for a period of three to six years, with some extensions available. The number of new H1-B petitions approved in any federal fiscal year is limited, making the H1-B visas necessary to bring foreign employees to the U.S. unobtainable in years in which the limit is reached. The number of H1-B visas available, and the process to obtain them, may be subject to significant change in connection with the change in administrations in the U.S. federal government. If we are unable to obtain all of the H1-B visas for which we apply, our growth may be hindered.

Our results of operations could materially suffer if we are not able to obtain favorable pricing.

If we are not able to obtain favorable pricing for our services, our revenues and profitability could materially suffer. The rates we are able to charge for our services are affected by a number of factors, including, but not limited to:

- general economic and political conditions;
- the competitive environment in our industry, as described below;
- our clients' desire to reduce their costs;
- our ability to accurately estimate, attain, and sustain contract revenues, margins, and cash flows over the full contract period; and
- procurement practices of clients and their use of third-party advisors.

The competitive environment in our industry affects our ability to obtain favorable pricing in a number of ways, any of which could have a material negative impact on our results of operations. The less we are able to differentiate our services and solutions and/or clearly convey the value of our services and solutions, the more risk we have that they will be seen as commodities, with price being the driving factor in selecting a service provider. In addition, the introduction of new services or products by competitors could reduce our ability to obtain favorable pricing for the services or products we offer. Competitors may be willing, at times, to price contracts lower than us in an effort to enter the market or increase market share. Further, if competitors develop and implement methodologies that yield greater efficiency and productivity, they may be better positioned to offer services similar to ours at lower prices.

If our negotiated fees do not accurately anticipate the cost and complexity of performing our work, then our contracts could be unprofitable.

We negotiate fees with our clients by utilizing a range of pricing structures and conditions, including time and materials and fixed fee contracts. Our fees are highly dependent upon our internal forecasts and predictions about the level of effort and cost necessary to deliver such services and solutions, which might be based on limited data and could turn out to be materially inaccurate. If we do not accurately estimate the level of effort or cost, our contracts could yield lower profit margins than planned, or be unprofitable. We could face greater risk when negotiating fees for our contracts that involve the coordination of operations and workforces in multiple locations and/or utilizing workforces with different skill sets and competencies. There is a risk that we will underprice our contracts, fail to accurately estimate the costs of performing the work, or fail to accurately assess the risks associated with potential contracts. In particular, any increased or unexpected costs, delays or failures to achieve anticipated cost savings, or unexpected risks we encounter in connection with the performance of services, including those caused by factors outside our control, could make these contracts less profitable or unprofitable, which could have an adverse effect on our profit margin.

Our business could be materially adversely affected if we incur legal liability in connection with providing our services and solutions.

We could be subject to significant legal liability and litigation expense if we fail to meet our contractual obligations, or otherwise breach obligations, to third parties, including clients, partners, employees and former employees, and other parties with whom we conduct business, or if our subcontractors breach or dispute the terms of our agreements with them and impede our ability to meet our obligations to our clients. We may enter into agreements with non-standard terms because we perceive an important economic opportunity or because our personnel did not adequately follow our contracting guidelines. In addition, the contracting practices of competitors, along with the demands of increasingly sophisticated clients, may cause contract terms and conditions that are unfavorable to us to become new standards in the marketplace. We may find ourselves committed to providing services or solutions that we are unable to deliver or whose delivery will reduce our profitability or cause us financial loss. If we cannot or do not meet our contractual obligations and if our potential liability is not adequately limited through the terms of our agreements, liability limitations are not enforced or a third party alleges fraud or other wrongdoing to prevent us from relying upon those contractual protections, we might face significant legal liability and litigation expense and our results of operations could be materially adversely affected. A failure of a client's system based on our services or solutions could also subject us to a claim for significant damages that could materially adversely affect our results of operations. In addition to expense, litigation can be lengthy and disruptive to normal business operations, and litigation results can be unpredictable. While we maintain insurance for certain potential liabilities, this insurance does not cover all types and amounts of potential liabilities and is subject to various exclusions as well as caps on amounts recoverable. Even if we believe a claim is covered by insurance, insurers may dispute our entitlement to recovery for a variety of potential reasons, which may affect the timing and the amount of our recovery, if any.

Our results of operations and ability to grow could be materially negatively affected if we cannot adapt and expand our services and solutions in response to ongoing changes in technology and offerings by new entrants.

Our success depends upon our ability to continue to develop and implement services and solutions that anticipate and respond to rapid and continuing changes in technology and industry developments and offerings by new entrants to serve the evolving needs of our clients. Current areas of significant change include mobility, cloud-based computing, software as a service solutions and the processing and analyzing of large amounts of data. Technological developments such as these may materially affect the cost and use of technology by our clients. Our growth strategy focuses on responding to these types of developments by driving innovation for our core business as well as through new business initiatives beyond our core business that will enable us to differentiate our services and solutions. If we do not sufficiently invest in new technology and industry developments, or if we do not make the right strategic investments to respond to these developments and successfully drive innovation, our services and solutions, our results of operations, and our ability to develop and maintain a competitive advantage and continue to grow could be negatively affected.

In addition, we operate in a quickly evolving environment, in which there currently are, and we expect will continue to be, new technology entrants. New services or technologies offered by competitors or new entrants may make our offerings less differentiated or less competitive, when compared to other alternatives, which may adversely affect our results of operations.

The loss of one or more of our significant software vendors could have a material and adverse effect on our business and results of operations.

We have significant relationships with software vendors including IBM, Oracle, Microsoft, Salesforce, Adobe and Magento. Our business relationships with these companies enable us to reduce our cost of acquiring customers and increase win rates through leveraging our vendors' marketing efforts and strong vendor endorsements. The loss of one or more of these relationships and endorsements could increase our sales and marketing costs, lead to longer sales cycles, harm our reputation and brand recognition, reduce our revenues, and adversely affect our results of operations. The financial impact of the loss of one or more software vendors is not reasonably estimable.

Our services could infringe upon the intellectual property rights of others.

We cannot be sure that our services do not infringe on the intellectual property rights of third parties, and we could have infringement claims

asserted against us. These claims may harm our reputation, cause our management to expend significant time in connection with any defense, and cost us money. We may be required to indemnify clients for any expense or liabilities they incur resulting from claimed infringement and these expenses could exceed the amounts paid to us by the client for services we have performed. Any claims in this area, even if won by us, could be costly, time-consuming, and harmful to our reputation.

We have only a limited ability to protect our intellectual property rights, which are important to our success.

Our success depends, in part, upon our ability to protect our proprietary methodologies and other intellectual property. Existing laws of some countries in which we provide services or solutions might offer only limited protection of our intellectual property rights. We rely upon a combination of trade secrets, confidentiality policies, nondisclosure, and other contractual arrangements to protect our intellectual property rights. These laws are subject to change at any time and could further restrict our ability to protect our innovations. Our intellectual property rights may not prevent competitors from independently developing products and services similar to or duplicative of ours. Further, the steps we take in this regard might not be adequate to prevent or deter infringement or other misappropriation of our intellectual property by competitors, former employees or other third parties, and we might not be able to detect unauthorized use of, or take appropriate and timely steps to enforce, our intellectual property rights. Enforcing our rights might also require considerable time, money and oversight and we may not be successful in enforcing our rights.

Depending upon the circumstances, we might need to grant a specific client greater rights in intellectual property developed in connection with a contract than we otherwise generally do. In certain situations, we might forego rights to the use of intellectual property we help create or knowledge associated with such creation, which would limit our ability to reuse that intellectual property or knowledge for other clients. Any limitation on our ability to provide a service or solution could cause us to lose revenue-generating opportunities and require us to incur additional expenses to develop new or modified solutions for future projects.

Our ability to attract and retain business may depend upon our reputation in the marketplace.

We believe the Perficient brand name and our reputation are important corporate assets that help distinguish our services from those of our competitors and also contribute to our efforts to recruit and retain talented employees. However, our corporate reputation is potentially susceptible to material damage by events such as disputes with clients, information technology security breaches or service outages, or other delivery failures. Similarly, our reputation could be damaged by actions or statements of current or former clients, employees, competitors, vendors, as well as members of the investment community and the media. There is a risk that negative information could adversely affect our business. Damage to our reputation could be difficult and time-consuming to repair, could make potential or existing clients reluctant to select us for new engagements or cause existing clients to terminate our services, resulting in a loss of business, and could adversely affect our recruitment and retention efforts. Damage to our reputation could also reduce the value and effectiveness of the Perficient brand name and could reduce investor confidence in us, materially adversely affecting our share price.

Our profitability could suffer if our cost-management strategies are unsuccessful.

Our ability to improve or maintain our profitability is dependent upon our ability to successfully manage our costs. Our cost management strategies include maintaining appropriate alignment between the demand for our services and our resource capacity, optimizing the costs of service delivery and maintaining or improving our sales and marketing and general and administrative costs as a percentage of revenues. These actions and other cost-management efforts may not be successful, our efficiency may not be enhanced and we may not achieve desired levels of profitability. Because of the significant steps taken in the past to reduce costs, we may not be able to continue to deliver efficiencies in our cost management, to the same degree as in the past. If we are not effective in reducing our operating costs in response to changes in demand or pricing, we might not be able to manage significantly larger and more diverse workforces as we increase the number of colleagues and execute our growth strategy, control our costs or improve our efficiency, and our profitability could be negatively affected.

We make estimates and assumptions in connection with the preparation of our consolidated financial statements, and any changes to those estimates and assumptions could adversely affect our financial results.

Our financial statements have been prepared in accordance with U.S. generally accepted accounting principles. The application of these principles requires us to make estimates and assumptions about certain items and future events that affect our reported financial condition, and our accompanying disclosure with respect to, among other things, revenue recognition, purchase accounting related fair value measurements, contingent consideration and income taxes. We base our estimates on historical experience, contractual commitments and on various other assumptions that we believe to be reasonable under the circumstances at the time they are made. These estimates and assumptions involve the use of our judgment and can be subject to significant uncertainties, some of which are beyond our control. If our estimates, or the assumptions underlying such estimates, are not correct, actual results may differ materially from our estimates, and we may need to, among other things, adjust revenues or accrue additional charges that could adversely affect our results of operations.

Our results of operations and share price could be adversely affected if we are unable to maintain effective internal controls.

The accuracy of our financial reporting is dependent on the effectiveness of our internal controls. We are required to provide a report from management to our stockholders on our internal control over financial reporting that includes an assessment of the effectiveness of these controls. Internal control over financial reporting has inherent limitations, including human error, the possibility that controls could be circumvented or become inadequate because of changed conditions, and fraud. Because of these inherent limitations, internal control over financial reporting might not prevent or detect all misstatements or fraud. If we cannot maintain and execute adequate internal control over financial reporting or implement required new or improved controls that provide reasonable assurance of the reliability of the financial reporting and preparation of our financial statements for external use, we could suffer harm to our reputation, fail to meet our public reporting requirements on a timely basis, be unable to properly report on our business and our results of operations, or be required to restate our financial statements, and our results of operations, our share price and our ability to obtain new business could be materially adversely affected.

Changes in our level of taxes, audits, investigations and tax proceedings, or changes in tax laws or their interpretation or enforcement could have a material adverse effect on our results of operations and financial condition.

We are subject to income taxes in numerous jurisdictions. We calculate and provide for income taxes in each tax jurisdiction in which we operate. Tax accounting often involves complex matters and requires our judgment to determine our corporate provision for income taxes and other tax liabilities. We are subject to ongoing tax audits in various jurisdictions. Tax authorities have disagreed, and may in the future disagree, with our judgments, or may take increasingly aggressive positions opposing the judgments we make. We regularly assess the likely outcomes of these audits to determine the appropriateness of our tax liabilities. However, our judgments might not be sustained as a result of these audits, and the amounts ultimately paid could be different from the amounts previously recorded. See Note 10, *Income Taxes*, in the Notes to the Consolidated Financial Statements for additional information regarding the disallowance of certain research credits claimed by the Company and the Company's actions to assert such credits. In addition, our effective tax rate in the future could be adversely affected by changes in the mix of earnings in countries with differing statutory tax rates, changes in the valuation of deferred tax assets and liabilities and changes in tax laws. Tax rates in the jurisdictions in which we operate may change as a result of macroeconomic or other factors outside of our control. Increases in the tax rate in any of the jurisdictions in which we operate could have a negative impact on our profitability. In addition, changes in tax laws (particularly the 2017 Tax Act signed into law on December 22, 2017), treaties, or regulations, or their interpretation or enforcement, may be unpredictable and could materially adversely affect our tax position. This legislation will make significant changes to the U.S. Internal Revenue Code. Such changes include a reduction in the corporate tax rate, limitations on certain corporate deductions and credits, and a one-time repatriation tax on deemed repatriation of historical earnings of foreign subsidiaries among other changes. The changes included in the 2017 Tax Act are broad and complex. The final transition impacts of the 2017 Tax Act may differ from the Company's estimates, possibly materially, due to, among other things, changes in interpretations of the 2017 Tax Act, any legislative actions to address questions that arise because of the 2017 Tax Act, any changes in the accounting standards for income taxes or related interpretations in response to the 2017 Tax Act, or any updates or changes to estimates the Company has utilized to calculate the transition impacts, including impacts from changes to current year earnings estimates and foreign exchange rates of foreign subsidiaries. Certain of these changes could have a negative impact on our business. Additionally, adverse changes in the underlying profitability and financial outlook of our operations or changes in tax law could lead to changes in our valuation allowances against deferred tax assets on our consolidated balance sheets, which could materially affect our results of operations. Any of these occurrences could have a material adverse effect on our results of operations and financial condition. See Note 10, *Income Taxes*, in the Notes to the Consolidated Financial Statements for additional information regarding the 2017 Tax Act.

Our results of operations could be adversely affected by fluctuations in foreign currency exchange rates.

Although we report our results of operations in U.S. dollars, a small portion of our revenues is denominated in currencies other than the U.S. dollar. Unfavorable fluctuations in foreign currency exchange rates could have an adverse effect on our results of operations.

Because our consolidated financial statements are presented in U.S. dollars, we must translate revenues and expenses, as well as assets and liabilities, into U.S. dollars at exchange rates in effect during or at the end of each reporting period. Therefore, changes in the value of the U.S. dollar against other currencies will affect our net revenues, operating income and the value of balance-sheet items, including intercompany payables and receivables, denominated in other currencies. These changes cause our growth in consolidated earnings stated in U.S. dollars to be higher or lower than our growth in local currency when compared against other periods. Our currency hedging program, which is designed to partially offset the impact on consolidated earnings related to the changes in value of certain balance sheet items, might not be successful.

As we continue to leverage our global delivery model, certain of our expenses are incurred in currencies other than those in which we bill for the related services. An increase in the value of certain currencies, such as the Indian Rupee, Chinese Yuan, Canadian dollar, British Pound and Euro, against the U.S. dollar could increase costs for delivery of services at off-shore sites by increasing labor and other costs that are denominated in local currency. Our contractual provisions or cost management efforts might not be able to offset their impact, and our currency hedging activities, which are designed to partially offset this impact, might not be successful. This could result in a decrease in the profitability of our contracts that are utilizing delivery center resources. Conversely, a decrease in the value of certain currencies, such as the Canadian dollar, Indian Rupee, Chinese Yuan, British Pound and Euro, against the U.S. dollar in which our revenue is recorded could place us at a competitive disadvantage compared to service providers that benefit to a greater degree from such a decrease and can, as a result, deliver services at a lower cost. In addition, our currency hedging activities are themselves subject to risk. These include risks related to counterparty performance under hedging contracts, risks related to ineffective hedges and risks related to currency fluctuations. We also face risks that extreme economic conditions, political instability, hostilities or natural disasters could impact or perhaps eliminate the underlying exposures that we are hedging. Such an event could lead to losses being recognized on the currency hedges then in place that are not offset by anticipated changes in the underlying hedge exposure.

If we do not effectively manage expected future growth, our results of operations and cash flows could be adversely affected.

Our ability to operate profitably with positive cash flows depends partially upon how effectively we manage our expected future growth. In order to create the additional capacity necessary to accommodate an increase in demand for our services, we may need to implement new or upgraded operational and financial systems, procedures and controls, open new offices, and hire additional colleagues. Implementation of these new or upgraded systems, procedures, and controls may require substantial management efforts and our efforts to do so may not be successful. The opening of new offices (including international locations) or the hiring of additional colleagues may result in idle or underutilized capacity. We continually assess the expected capacity and utilization of our offices and colleagues. We may not be able to achieve or maintain optimal utilization of our offices and colleagues. If demand for our services does not meet our expectations, our revenues and cash flows may not be sufficient to offset these expenses and our results of operations and cash flows could be adversely affected.

If we are unable to collect our receivables or unbilled services, our results of operations, financial condition, and cash flows could be adversely affected.

Our business depends on our ability to successfully obtain payment from our clients of the amounts they owe us for work performed. We evaluate the financial condition of our clients and usually bill and collect on relatively short cycles. We have established allowances for losses of receivables and unbilled services. Actual losses on client balances could differ from those that we currently anticipate and as a result we might need to adjust our allowances. We might not accurately assess the credit worthiness of our clients. Macroeconomic conditions could also result in financial difficulties for our clients, including bankruptcy and insolvency. This could cause clients to delay payments to us, request modifications to their payment arrangements that could increase our receivables balance, or default on their payment obligations to us. Recovery of client financing and timely collection of client balances also depends upon our ability to complete our contractual commitments and bill and collect our contracted revenues. If we are unable to meet our contractual requirements, we might experience delays in collection of and/or be unable to collect our client balances, and if this occurs, our results of operations and cash flows could be adversely affected. In addition, if we experience an increase in the time to bill and collect for our services, our cash flows could be adversely affected.

Our stock price and results of operations could fluctuate and be difficult to predict.

Our stock price has fluctuated in the past and could continue to fluctuate in the future in response to various factors. These factors include:

- changes in macroeconomic or political factors unrelated to our business;
- the effect of the recently enacted 2017 Tax Act;
- general or industry-specific market conditions or changes in financial markets;
- announcements by us or competitors about developments in our business or prospects;
- projections or speculation about our business or that of competitors by the media or investment analysts; and
- our ability to meet our growth and financial objectives, including with respect to our overall revenue growth, revenue growth for our priority emerging markets and earnings per share growth.

Our results of operations have varied in the past and could vary significantly from quarter to quarter in the future, making them difficult to predict. Some of the factors that could cause our results of operations to vary include:

- the business decisions of our clients to begin to curtail or reduce the use of our services, including in response to changes in macroeconomic or political conditions unrelated to our business or general market conditions;
- periodic differences between our clients' estimated and actual levels of business activity associated with ongoing work, as well as the stage of completion of existing projects and/or their termination or restructuring;
- contract delivery inefficiencies, such as those due to poor delivery or changes in forecasts;
- our ability to transition employees quickly from completed to new projects and maintain an appropriate headcount in each of our workforces;
- acquisition, integration and operational costs related to businesses acquired;
- the introduction of new products or services by us, competitors or partners;
- changes in our pricing or competitors' pricing;
- our ability to manage costs, including those for our own or subcontracted personnel, travel, support services and severance;
- our ability to limit and manage the incurrence of pre-contract costs, which must be expensed without corresponding revenues, which are then recognized in later periods without the corresponding costs;
- changes in, or the application of changes in, accounting principles or pronouncements under U.S. generally accepted accounting principles, particularly those related to revenue recognition;
- currency exchange rate fluctuations;
- changes in estimates, accruals or payments of variable compensation to our employees;
- global, regional and local economic and political conditions and related risks, including acts of terrorism; and
- seasonality, including number of work days and holidays and summer vacations.

As a result of any of the above factors, or any of the other risks described in this Item 1A, "Risk Factors," our stock price could be difficult to predict, and our stock price in the past might not be a good indicator of the price of our stock in the future.

We may need additional capital in the future, which may not be available to us. The raising of any additional capital may dilute your ownership percentage in our stock.

As of December 31, 2017, we had unrestricted cash and cash equivalents totaling \$6.3 million and a borrowing capacity of \$125.0 million, with \$69.7 million unused capacity available, and a commitment from our lenders to increase our borrowing capacity by \$75.0 million. Of the \$6.3 million of cash and cash equivalents at December 31, 2017, \$3.9 million was held by our Canadian, Indian and United Kingdom subsidiaries and is considered to be indefinitely reinvested in those operations. As of December 31, 2017, \$1.8 million in cash and cash equivalents was held by our Chinese subsidiary and is not considered indefinitely reinvested. We intend to continue to make investments to support our business growth and may require additional funds if our capital is insufficient to pursue business opportunities and respond to business challenges. Accordingly, we may need to engage in equity or debt financings to secure additional funds. If we raise additional funds through further issuances of equity or convertible debt securities, our existing stockholders could suffer dilution, and any new equity securities we issue could have rights, preferences, and privileges superior to those of holders of our common stock. Any debt financing secured by us in the future could involve restrictive covenants relating to our capital raising activities and other financial and operational matters, which may make it more difficult for us to obtain additional capital and to pursue business opportunities, including potential acquisitions. In addition, we may not be able to obtain additional financing on terms favorable to us, if at all. If we are unable to obtain adequate financing or financing on terms satisfactory to us our ability to continue to support our business growth and to respond to business challenges could be significantly limited.

Our officers, directors, and 5% and greater stockholders own a large percentage of our voting securities and their interests may differ from other stockholders.

Our executive officers, directors, and 5% and greater stockholders beneficially own or control approximately 34% of the voting power of our common stock. This concentration of voting power of our common stock may make it difficult for our other stockholders to successfully approve or defeat matters that may be submitted for action by our stockholders. It may also have the effect of delaying, deterring, or preventing a change in control of the Company.

It may be difficult for another company to acquire us, and this could depress our stock price.

In addition to the voting securities held by our officers, directors, and 5% and greater stockholders, provisions contained in our certificate of incorporation, bylaws, and Delaware law could make it difficult for a third party to acquire us, even if doing so would be beneficial to our stockholders. Our certificate of incorporation and bylaws may discourage, delay, or prevent a merger or acquisition that a stockholder may consider favorable by authorizing the issuance of "blank check" preferred stock. In addition, provisions of the Delaware General Corporation Law also restrict some business combinations with interested stockholders. These provisions are intended to encourage potential acquirers to negotiate with us and allow the Board of Directors the opportunity to consider alternative proposals in the interest of maximizing stockholder value. However, these provisions may also discourage acquisition proposals, or delay or prevent a change in control, which could harm our stock price.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties.

We have offices in multiple markets throughout the United States and in China, India, Canada, and the United Kingdom. We do not own any real property; all of our office space is leased with varying expiration dates. We believe our facilities are adequate to meet our needs in the near future.

Item 3. Legal Proceedings.

We are involved from time to time in various legal proceedings arising in the ordinary course of business. Although the outcome of lawsuits or other proceedings cannot be predicted with certainty and the amount of any liability that could arise with respect to such lawsuits or other proceedings cannot be predicted accurately, we do not expect any currently pending matters to have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Our common stock is quoted on The Nasdaq Global Select Market under the symbol “PRFT.” The following table sets forth, for the periods indicated, the high and low sale prices per share of our common stock as reported on The Nasdaq Global Select Market since January 1, 2016.

	<u>High</u>	<u>Low</u>
Year Ending December 31, 2017:		
First Quarter	\$ 19.06	\$ 16.80
Second Quarter	19.12	16.20
Third Quarter	19.74	16.70
Fourth Quarter	20.22	17.65
Year Ending December 31, 2016:		
First Quarter	\$ 21.92	\$ 15.46
Second Quarter	21.71	19.37
Third Quarter	22.66	17.66
Fourth Quarter	20.14	14.15

On February 20, 2018, the last reported sale price of our common stock on The Nasdaq Global Select Market was \$19.59 per share. There were approximately 359 stockholders of record of our common stock as of February 20, 2018, including 293 restricted account holders.

We have never declared or paid any cash dividends on our common stock. Our credit facility currently restricts the payment of cash dividends. See Note 9, *Line of Credit*, for further information regarding the restrictions. Any future determination as to the declaration and payment of dividends will be made at the discretion of our board of directors and will depend on our earnings, operating and financial condition, capital requirements and other factors deemed relevant by our board of directors, including the applicable requirements of the Delaware General Corporation Law.

Information on our Equity Compensation Plan has been included in Part III, Item 12 of this Annual Report on Form 10-K.

Unregistered Sales of Securities

None.

Issuer Purchases of Equity Securities

Prior to 2018, our Board of Directors authorized the repurchase of up to \$135.0 million of our common stock. On February 20, 2018, our Board of Directors authorized the expansion of our stock repurchase program by authorizing the repurchase of up to an additional \$25.0 million of our common stock for a total repurchase program of \$160.0 million and extended the expiration date of the program to December 31, 2019. The program could be suspended or discontinued at any time, based on market, economic, or business conditions. The timing and amount of repurchase transactions will be determined by our management based on its evaluation of market conditions, share price, and other factors.

Since the program’s inception on August 11, 2008, we have repurchased approximately \$135.0 million (12.4 million shares) of our outstanding common stock through December 31, 2017.

Period	Total Number of Shares Purchased	Average Price Paid Per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
Beginning Balance as of October 1, 2017	11,926,538	\$ 10.59	11,926,538	\$ 8,666,467
October 1-31, 2017	16,500	19.39	16,500	\$ 8,346,459
November 1-30, 2017	260,536	18.69	260,536	\$ 3,478,299
December 1-31, 2017	178,995	19.33	178,995	\$ 17,691
Ending Balance as of December 31, 2017	<u>12,382,569</u>	<u>\$ 10.90</u>	<u>12,382,569</u>	

(1) Average price paid per share includes commission.

Item 6. Selected Financial Data.

The selected financial data presented for, and as of the end of, each of the years in the five-year period ended December 31, 2017, has been prepared in accordance with U.S. generally accepted accounting principles. The financial data presented is not directly comparable between periods as a result of two acquisitions in 2017, one acquisition in 2016, and three acquisitions in each of 2015, 2014 and 2013.

The following data should be read in conjunction with the Consolidated Financial Statements and the Notes to Consolidated Financial Statements appearing in Part II, Item 8, and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing in Part II, Item 7.

	Year Ended December 31,				
	2017	2016	2015	2014	2013
Income Statement Data:	(In thousands, except per share information)				
Revenues	\$ 485,261	\$ 486,982	\$ 473,621	\$ 456,692	\$ 373,325
Cost of revenues	\$ 323,748	\$ 335,702	\$ 318,411	\$ 307,357	\$ 250,226
Selling, general and administrative	\$ 108,192	\$ 101,264	\$ 99,963	\$ 90,202	\$ 77,601
Depreciation and amortization	\$ 19,747	\$ 18,238	\$ 18,315	\$ 18,187	\$ 11,236
Acquisition costs	\$ 1,359	\$ 1,252	\$ 1,235	\$ 3,446	\$ 2,297
Adjustment to fair value of contingent consideration	\$ 3,235	\$ (1,679)	\$ 445	\$ (1,463)	\$ 287
Income from operations	\$ 28,980	\$ 32,205	\$ 35,252	\$ 38,963	\$ 31,678

Total stockholders' equity	\$ 366,351	\$ 359,465	\$ 348,810	\$ 304,728	\$ 259,490

(1) Working capital is total current assets less total current liabilities

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

You should read the following summary together with the more detailed business information and consolidated financial statements and related notes that appear elsewhere in this Annual Report on Form 10-K and in the documents that we incorporate by reference into this Annual Report on Form 10-K. This Annual Report on Form 10-K may contain certain "forward-looking" information within the meaning of the Private Securities Litigation Reform Act of 1995. This information involves risks and uncertainties. Our actual results may differ materially from the results discussed in the forward-looking statements. Factors that might cause such a difference include, but are not limited to, those discussed in "Risk Factors."

Overview

We are an information technology and management consulting firm serving Forbes Global 2000® and other large enterprise companies with a primary focus on the United States. We help clients gain competitive advantage by using technology to: make their businesses more responsive to market opportunities; strengthen relationships with customers, suppliers, and partners; improve productivity; and reduce information technology costs. Our digital experience, business optimization and industry solutions enable these benefits by developing, integrating, automating, and extending business processes, technology infrastructure and software applications end-to-end within an organization and with key partners, suppliers, and customers. Our solutions include analytics, custom applications, management consulting, commerce, content management, business integration, customer relationship management, portals and collaboration, platform implementations, and business process management, among others. Our solutions enable our clients to operate a real-time enterprise that dynamically adapts business processes and the systems that support them to meet the changing demands of an increasingly global, Internet-driven, and competitive marketplace.

Services Revenues

Services revenues are derived from professional services that include developing, implementing, integrating, automating and extending business processes, technology infrastructure, and software applications. Most of our projects are performed on a time and materials basis, while a portion of our revenues is derived from projects performed on a fixed fee basis. Fixed fee engagements represented approximately 8% of our services revenues for the year ended December 31, 2017 compared to 11% for each of the years ended December 31, 2016 and 2015. The decrease in fixed fee revenues is primarily attributable to an organic decrease in fixed fee engagements overall. For time and material projects, revenues are recognized and billed by multiplying the number of hours our professionals expend in the performance of the project by the established billing rates. For fixed fee projects, revenues are generally recognized using an input method based on the ratio of hours expended to total estimated hours. Amounts invoiced and collected in excess of revenues recognized are classified as deferred revenues. In conjunction with services provided, we occasionally receive referral fees under partner programs. These referral fees are recognized when earned and recorded within services revenues. On most projects, we are also reimbursed for out-of-pocket expenses including travel and other project-related expenses. These reimbursements are included as a component of revenues. The aggregate amount of reimbursed expenses will fluctuate depending on the location of our clients, the total number of our projects that require travel, and whether our arrangements with our clients provide for the reimbursement of such expenses.

Software and Hardware Revenues

Software and hardware revenues are derived from sales of third-party and internally developed software and hardware. Revenues from sales of third-party software and hardware are generally recorded on a gross basis provided that we act as a principal in the transaction. Revenues from sales of third-party software-as-a-service arrangements where we are not the primary obligor are recorded on a net basis. Software and hardware revenues are expected to fluctuate depending on our clients' demand for these products.

If we enter into contracts for the sale of services and software or hardware, management evaluates whether each element should be accounted for separately by considering the following criteria: (1) whether the deliverables have value to the client on a stand-alone basis; and (2) whether delivery or performance of the undelivered item or items is considered probable and substantially in our control (only if the arrangement includes a general right of return related to the delivered item). Further, for sales of software and services, management also evaluates whether the services are essential to the functionality of the software and whether there is fair value evidence for each deliverable. If management concludes that the separation criteria are met, then it accounts for each deliverable in the transaction separately, based on the relevant revenue recognition policies. Generally, all deliverables of our multiple element arrangements meet these criteria and are accounted for separately, with the arrangement consideration allocated among the deliverables using vendor specific objective evidence of the selling price. As a result, we generally recognize software and hardware sales upon delivery to the customer and services consistent with the policies described herein.

Further, delivery of software and hardware sales, when sold contemporaneously with services, can generally occur at varying times depending on the specific client project arrangement. Delivery of services generally occurs over a period of time consistent with the timeline as outlined in the client contract.

There are no significant cancellation or termination-type provisions for our software and hardware sales. Contracts for our professional services provide for a general right, to the client or us, to cancel or terminate the contract within a given period of time (generally 10 to 30 days' notice is required). The client is responsible for any time and expenses incurred up to the date of cancellation or termination of the contract.

Cost of Revenues

Cost of revenues consists of cost of services, software and hardware costs, and reimbursable expenses. Cost of services consists primarily of cash and non-cash compensation and benefits (including bonuses and non-cash compensation related to equity awards), costs associated with subcontractors and other unreimbursed project-related expenses. Cost of revenues does not include depreciation of assets used in the production of revenues which are primarily personal computers, servers, and other information technology related equipment.

Our cost of services as a percentage of services revenues is affected by the utilization rates of our professionals (defined as the percentage of our professionals' time billed to clients divided by the total available hours in the respective period), the salaries we pay our professionals, and the average billing rate we receive from our clients. If a project ends earlier than scheduled, we retain professionals in advance of receiving project assignments, or demand for our services declines, our utilization rate will decline and adversely affect our cost of services as a percentage of services revenues. Software and hardware costs as a percentage of software and hardware revenues (excluding internally developed software) are typically higher than cost of services as a percentage of services revenues, and the mix of services and software and hardware for a particular period can significantly impact our total combined cost of revenues as a percentage of total revenues for such period. In addition, software and hardware costs as a percentage of software and hardware revenues can fluctuate due to pricing and other competitive pressures.

Selling, General, and Administrative Expenses

Selling, general and administrative ("SG&A") expenses are primarily composed of sales-related costs, general and administrative salaries, stock compensation expense, office costs, recruiting expense, variable compensation costs, marketing costs and other miscellaneous expenses. We have access to sales leads generated by our software vendors, most notably IBM, Oracle and Microsoft, whose products we use to design and implement solutions for our clients. These relationships enable us to optimize our selling costs and sales cycle times and increase win rates through leveraging our partners' marketing efforts and endorsements.

Plans for Growth and Acquisitions

Our goal is to continue to build one of the leading information technology consulting firms by expanding our relationships with existing and new clients and through the continuation of our disciplined acquisition strategy. Our future growth plan includes expanding our business with a primary focus on customers in the United States, both organically and through acquisitions. We also intend to further leverage our existing offshore capabilities to support our future growth and provide our clients flexible options for project delivery.

When analyzing revenue growth by base business compared to acquired companies in the Results of Operations section below, revenue attributable to base business includes revenue from an acquired company that has been owned for a full four quarters after the date of acquisition.

The 2017 Tax Act was signed into law on December 22, 2017. The law includes significant changes to the U.S. corporate income tax system, including a federal corporate tax rate reduction from 35% to 21%, limitations on the deductibility of interest expense and executive compensation, and the transition of U.S. international taxation from a worldwide tax system to a territorial tax system. This change may result in a U.S. tax liability on those earnings which have not previously been repatriated to the U.S., with future foreign earnings potentially not subject to U.S. income taxes when repatriated. See Note 10, *Income Taxes*, in the Notes to Consolidated Financial Statements for a discussion of the Company's repatriation of earnings from the Company's Chinese subsidiary. The majority of the provisions will have an impact on Perficent beginning in fiscal years 2018 and 2019. However, there are certain transitional impacts of the 2017 Tax Act which affected the Company's tax provision during the fourth quarter of 2017. As part of the transition to the new territorial tax system, the 2017 Tax Act imposed a one-time repatriation tax on deemed repatriation of historical earnings of foreign subsidiaries, which produced a \$1.1 million tax expense payable over eight years. As a result, a \$0.1 million current liability and a \$1.0 million non-current liability were recorded in the Company's consolidated financial statements during the fourth quarter of 2017. The reduction of the federal corporate tax rate caused the Company to adjust its U.S. deferred tax assets and liabilities to the lower federal base rate of 21%. The reduction in the corporate tax rate resulted in a provisional net tax credit of \$3.3 million for the fourth quarter of 2017. In addition, as a result of the 2017 Tax Act, changes to the net tax cost of certain China dividends repatriated during 2017 created a \$1.6 million tax credit during the fourth quarter of 2017.

There were no specific impacts of the 2017 Tax Act that could not be reasonably estimated which the Company accounted for under prior tax law. However, the SEC has issued rules that would allow for a measurement period of up to one year after the enactment date of the 2017 Tax Act to finalize the recording of the related tax impacts. Based on a continued analysis of the estimates and further guidance on the application of the law, it is anticipated that additional revisions may occur throughout the allowable measurement period. We currently anticipate finalizing and recording any resulting adjustments within a year of the enactment date. See Note 10, *Income Taxes*, in the Notes to the Consolidated Financial Statements for additional information regarding the 2017 Tax Act.

Revenue Recognition Standard Adopted January 1, 2018

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, *Revenue from Contracts with Customers*, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU No. 2014-09 replaced most existing revenue recognition guidance in U.S. GAAP. In 2015, the FASB deferred the effective date of ASU No. 2014-09 by one year. In 2016, the FASB issued ASU No. 2016-08, *Principal versus Agent Considerations*, ASU No. 2016-10, *Identifying Performance Obligations and Licensing*, ASU No. 2016-12, *Narrow-Scope Improvements and Practical Expedients* and ASU No. 2016-20, *Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers*, all of which further amended ASU No. 2014-09. The Company adopted the standard on January 1, 2018 using the modified retrospective method, which requires a cumulative-effect adjustment to the opening balance of retained earnings within stockholders' equity, as will be fully presented in the Company's Quarterly Report on Form 10-Q for the three months ended March 31, 2018. The Company has determined that the most significant impact upon adoption is to third-party software and hardware revenue, which has primarily been recorded on a gross basis as the principal in the transaction through December 31, 2017 and will be presented on a net basis as the agent as of January 1, 2018. Had the Company historically presented third-party software and hardware revenues on a net basis, software and hardware revenues would have been \$5.3 million, \$6.4 million, and \$5.5 million for the years ended December 31, 2017, 2016, and 2015, respectively. As the Company adopted ASU No. 2014-09 using the modified retrospective method, the gross versus net presentation will not impact the historical presentation, but will impact the 2018 presentation. Additionally, as the agent, revenue from multi-year sales of third-party software and support will be recognized upfront as the performance obligation is fulfilled, rather than annually as invoiced to the customer. The impact from this timing change is expected to be immaterial. Variable consideration related to service contracts, such as volume discounts and holdbacks, may be recognized earlier under the new standard, and the Company is currently evaluating the impact of this change on contracts that are open as of December 31, 2017. The adoption of ASU No. 2014-09 and its amendments will also result in additional disclosures around the nature and timing of performance obligations, contract costs, and deferred revenue, as well as significant judgments and practical expedients used by the Company.

Results of Operations

The following table summarizes our results of operations as a percentage of total revenues:

	2017	2016	2015
Revenues:			
Services revenues	89.5%	85.9%	86.9%
Software and hardware revenues	8.0	10.3	9.8
Reimbursable expenses	2.5	3.8	3.3
Total revenues	100.0	100.0	100.0
Cost of revenues (depreciation and amortization, shown separately below):			
Cost of services	57.3	56.2	55.2
Software and hardware costs	6.9	8.9	8.7
Reimbursable expenses	2.5	3.8	3.3
Total cost of revenues	66.7	68.9	67.2
Selling, general and administrative	22.3	20.8	21.1
Depreciation and amortization	4.1	3.7	3.9
Acquisition costs	0.3	0.3	0.3
Adjustment to fair value of contingent consideration	0.7	(0.3)	0.1
Income from operations	6.0	6.6	7.4
Net interest expense	0.4	0.3	0.4
Net other expense	0.0	0.0	0.1
Income before income taxes	5.6	6.3	6.9
Provision for income taxes	1.8	2.1	2.0
Net income	3.8%	4.2%	4.9%

Year Ended December 31, 2017 Compared to Year Ended December 31, 2016

Revenues. Total revenues decreased less than 1% to \$485.3 million for the year ended December 31, 2017 from \$487.0 million for the year ended December 31, 2016.

	Financial Results (in thousands)			Explanation for Increases (Decreases) Over Prior Year Period (in thousands)	
	For the Year Ended December 31, 2017	For the Year Ended December 31, 2016	Total Increase (Decrease) Over Prior Year Period	Increase Attributable to Acquired Companies	Decrease Attributable to Base Business
Services Revenues	\$ 434,253	\$ 418,589	\$ 15,664	\$ 33,607	\$ (17,943)
Software and Hardware Revenues	38,642	49,954	(11,312)	-	(11,312)
Reimbursable Expenses	12,366	18,439	(6,073)	440	(6,513)
Total Revenues	<u>\$ 485,261</u>	<u>\$ 486,982</u>	<u>\$ (1,721)</u>	<u>\$ 34,047</u>	<u>\$ (35,768)</u>

Services revenues increased 4% to \$434.3 million for the year ended December 31, 2017 from \$418.6 million for the year ended December 31, 2016. The increase in services revenues was primarily due to acquisitions. Services revenues attributable to our base business decreased \$17.9 million while services revenues attributable to acquired companies was \$33.6 million, resulting in a total increase of \$15.7 million.

Software and hardware revenues decreased 23% to \$38.6 million for the year ended December 31, 2017 from \$50.0 million for the year ended December 31, 2016 primarily due to a decrease in initial and renewal software license sales. Reimbursable expenses decreased 33% to \$12.4 million for the year ended December 31, 2017 from \$18.4 million for the year ended December 31, 2016 primarily as a result of a higher mix of projects performed in our offices and lower media buy expenses passed through to customers of \$2.6 million. We do not realize any profit on reimbursable expenses.

Cost of Revenues (exclusive of depreciation and amortization, discussed separately below). Cost of revenues decreased 4% to \$323.7 million for the year ended December 31, 2017 from \$335.7 million for the year ended December 31, 2016. The decrease in cost of revenues is primarily related to software and hardware costs which decreased 24% to \$33.3 million for the year ended December 31, 2017 from \$43.6 million for the year ended December 31, 2016, as a result of the decrease in software license sales. Software and hardware costs as a percentage of software and hardware revenues was 86.2% for the year ended December 31, 2017 and 87.2% for the year ended December 31, 2016. Services revenue costs increased 2% to \$278.1 million for the year ended December 31, 2017 from \$273.7 million for the year ended December 31, 2016 due to an increase in service revenue as noted above. Services costs as a percentage of services revenues decreased to 64.0% for the year ended December 31, 2017 from 65.4% for the year ended December 31, 2016 primarily driven by improvements in the North American average bill rate and utilization, as well as a \$1.0 million cost reduction related to labor incentives earned by the Company's Louisiana and China operations. The average bill rate for our professionals decreased to \$126 per hour for the year ended December 31, 2017 from \$127 per hour for the year ended December 31, 2016 primarily due to the impact of a higher mix of lower bill rate offshore resources.

Selling, General and Administrative. SG&A expenses increased 7% to \$108.2 million for the year ended December 31, 2017 from \$101.3 million for the year ended December 31, 2016 primarily due to acquisitions completed during the first half of 2017 and the fluctuations in expenses as detailed in the following table. SG&A expenses, as a percentage of total revenues, increased to 22.3% for the year ended December 31, 2017 from 20.8% for the year ended December 31, 2016.

	For the Year Ended December 31, 2017	For the Year Ended December 31, 2016	Increase (Decrease)	Percentage Change
Selling, General and Administrative Expense (in millions)				
Sales-related costs	\$ 30.3	\$ 28.4	\$ 1.9	7%
Salary expense	26.3	25.3	1.0	4
Stock compensation expense	9.3	8.9	0.4	4
Office costs	9.2	8.9	0.3	3
Marketing expense	5.9	5.6	0.3	5
Variable compensation expense	5.2	2.0	3.2	160
Recruiting expense	5.1	5.7	(0.6)	(11)
Bad debt expense	0.9	1.1	(0.2)	(18)
Other	16.0	15.4	0.6	4
Total	<u>\$ 108.2</u>	<u>\$ 101.3</u>	<u>\$ 6.9</u>	<u>7%</u>

Depreciation. Depreciation expense decreased 3% to \$4.7 million for the year ended December 31, 2017 from \$4.9 million for the year ended December 31, 2016. The decrease in depreciation expense is primarily attributable to certain property and equipment becoming fully depreciated. Depreciation expense as a percentage of total revenues was 1.0% for each of the years ended December 31, 2017 and 2016.

Amortization. Amortization expense increased 12% to \$15.0 million for the year ended December 31, 2017 from \$13.4 million for the year ended December 31, 2016. The increase in amortization expense was due to the addition of intangible assets from the 2016 and 2017 acquisitions, partially offset by intangible assets from previous acquisitions becoming fully amortized. Amortization expense as a percentage of total revenues was 3.1% for the year ended December 31, 2017 and 2.7% for the year ended December 31, 2016.

Acquisition Costs. Acquisition-related costs of \$1.4 million were incurred during 2017 compared to \$1.3 million during 2016. Costs were incurred for legal, accounting, tax, investment bank and advisor fees, and valuation services performed by third parties in connection with merger and acquisition-related activities.

Adjustment to Fair Value of Contingent Consideration. An unfavorable adjustment of \$3.2 million was recorded during the year ended December 31, 2017 which represents the net impact of the fair market value adjustments to the Clarity, RAS, and Bluetube revenue and earnings-based contingent consideration liabilities in addition to the accretion of the fair value estimate for the revenue and earnings-based contingent consideration related to the acquisition of Bluetube and Clarity. A favorable adjustment of \$1.7 million was recorded during the year ended December 31, 2016 which represents the net impact of the fair market value adjustments to the Enlighten revenue and earnings-based contingent consideration liability partially offset by the accretion of the fair value estimate for the revenue and earnings-based contingent consideration related to the acquisition of Zeon, Market Street, Enlighten and Bluetube.

Provision for Income Taxes. We provide for federal, state, and foreign income taxes at the applicable statutory rates adjusted for non-deductible expenses. The effective income tax rate decreased to 31.5% for the year ended December 31, 2017 from 32.9% for the year ended December 31, 2016. The decrease in the effective rate is primarily due to the effects of certain foreign withholding taxes, a foreign toll charge on historic foreign earnings, and a revaluation of ending deferred income tax caused by passage of the 2017 Tax Act. These favorable items were partially offset by an increase in our unrecognized tax benefits. See Note 10, *Income Taxes*, in the Notes to the Consolidated Financial Statements for additional information regarding the 2017 Tax Act.

Year Ended December 31, 2016 Compared to Year Ended December 31, 2015

Revenues. Total revenues increased 3% to \$487.0 million for the year ended December 31, 2016 from \$473.6 million for the year ended December 31, 2015.

	Financial Results (in thousands)			Explanation for Increases (Decreases) Over Prior Year Period (in thousands)	
	For the Year Ended December 31, 2016	For the Year Ended December 31, 2015	Total Increase Over Prior Year Period	Increase Attributable to Acquired Companies	Decrease Attributable to Base Business
Services Revenues	\$ 418,589	\$ 411,469	\$ 7,120	\$ 16,405	\$ (9,285)
Software and Hardware Revenues	49,954	46,622	3,332	4,226	(894)
Reimbursable Expenses	18,439	15,530	2,909	4,427	(1,518)
Total Revenues	<u>\$ 486,982</u>	<u>\$ 473,621</u>	<u>\$ 13,361</u>	<u>\$ 25,058</u>	<u>\$ (11,697)</u>

Services revenues increased 2% to \$418.6 million for the year ended December 31, 2016 from \$411.5 million for the year ended December 31, 2015. The increase in services revenues was primarily due to acquisitions. Services revenues attributable to our base business decreased \$9.3 million while services revenues attributable to acquired companies was \$16.4 million, resulting in a total increase of \$7.1 million.

Software and hardware revenues increased 7% to \$50.0 million for the year ended December 31, 2016 from \$46.6 million for the year ended December 31, 2015 primarily due to acquisitions. Reimbursable expenses increased 19% to \$18.4 million for the year ended December 31, 2016 from \$15.5 million for the year ended December 31, 2015. The increase in reimbursable expenses is primarily due to the acquisition of Enlighten in which media buy expenses are passed through to customers. We do not realize any profit on reimbursable expenses.

Cost of Revenues (exclusive of depreciation and amortization, discussed separately below). Cost of revenues increased 5% to \$335.7 million for the year ended December 31, 2016 from \$318.4 million for the year ended December 31, 2015. The increase in cost of revenues is primarily related to costs associated with services revenues which increased 5% to \$273.7 million for the year ended December 31, 2016 from \$261.7 million for the year ended December 31, 2015 due to an increase in revenue as noted above. Services costs as a percentage of services revenues increased to 65.4% for the year ended December 31, 2016 from 63.6% for the year ended December 31, 2015 primarily driven by a decrease in the average bill rate of our professionals, in addition to higher salaries and subcontractor costs. The average bill rate decreased to \$127 per hour for the year ended December 31, 2016 from \$134 per hour for the year ended December 31, 2015 primarily due to the impact of a higher mix of lower bill rate offshore resources combined with a 1% reduction in the North American employee bill rate. Software and hardware costs increased 6% to \$43.6 million for the year ended December 31, 2016 from \$41.2 million for the year ended December 31, 2015, as a result of the increase in software license sales. Software and hardware costs as a percentage of software and hardware revenues was 87.2% for the year ended December 31, 2016 and 88.3% for the year ended December 31, 2015.

Selling, General and Administrative. SG&A expenses increased 1% to \$101.3 million for the year ended December 31, 2016 from \$100.0 million for the year ended December 31, 2015 primarily due to acquisitions completed during the second half of 2015 and October 2016 and the fluctuations in expenses as detailed in the following table. SG&A expenses, as a percentage of total revenues, decreased to 20.8% for the year ended December 31, 2016 from 21.1% for the year ended December 31, 2015.

	For the Year Ended December 31, 2016	For the Year Ended December 31, 2015	Increase (Decrease)	Percentage Change
Selling, General and Administrative Expense (in millions)				
Sales-related costs	\$ 28.4	\$ 29.1	\$ (0.7)	(2)%
Salary expense	25.3	23.9	1.4	6
Stock compensation expense	8.9	8.7	0.2	2
Office costs	8.9	8.2	0.7	9
Recruiting expense	5.7	6.0	(0.3)	(5)
Marketing expense	5.6	5.6	0.0	0
Variable compensation expense	2.0	3.4	(1.4)	(41)
Bad debt expense	1.1	0.4	0.7	175
Other	15.4	14.7	0.7	5
Total	<u>\$ 101.3</u>	<u>\$ 100.0</u>	<u>\$ 1.3</u>	<u>1%</u>

Depreciation. Depreciation expense increased 8% to \$4.9 million for the year ended December 31, 2016 from \$4.5 million for the year ended December 31, 2015. The increase in depreciation expense is primarily attributable to an increase in capital expenditures to support our growth. Depreciation expense as a percentage of total revenues was 1.0% and 0.9% for the years ended December 31, 2016 and 2015, respectively.

Amortization. Amortization expense decreased 3% to \$13.4 million for the year ended December 31, 2016 from \$13.8 million for the year ended December 31, 2015. The decrease in amortization expense was due to intangible assets related to previous acquisitions becoming fully amortized partially offset by the addition of intangible assets from the 2015 and 2016 acquisitions. Amortization expense as a percentage of total revenues was 2.7% for the year ended December 31, 2016 and 2.9% for the year ended December 31, 2015.

Acquisition Costs. Acquisition-related costs of \$1.3 million were incurred during 2016 compared to \$1.2 million during 2015. Costs were incurred for legal, accounting, tax, investment bank and advisor fees, and valuation services performed by third parties in connection with merger and acquisition-related activities.

Adjustment to Fair Value of Contingent Consideration. A favorable adjustment of \$1.7 million was recorded during the year ended December 31, 2016 which represents the net impact of the fair market value adjustments to the Enlighten revenue and earnings-based contingent consideration liability partially offset by the accretion of the fair value estimate for the revenue and earnings-based contingent consideration related to the acquisition of Zeon, Market Street, Enlighten and Bluetube. An adjustment of \$0.4 million was recorded during the year ended December 31, 2015 for the accretion of the fair value estimate for the revenue and earnings-based contingent consideration related to the acquisitions of the Zeon, Market Street, and Enlighten.

Provision for Income Taxes. We provide for federal, state, and foreign income taxes at the applicable statutory rates adjusted for non-deductible expenses. The effective income tax rate increased to 32.9% for the year ended December 31, 2016 from 29.9% for the year ended December 31, 2015. The increase in the effective rate is primarily due to an additional research and development tax credit recorded during the year ended December 31, 2015 related to the finalization of the Company's 2014 research and development tax assessment. The increase in the effective rate year ended December 31, 2016 was partially offset by an incremental research and development tax credit related to the current year and a favorable impact related to the early adoption of ASU No. 2016-09. See Note 2, *Summary of Significant Accounting Policies-Recent Accounting Pronouncements*, in the Notes to Consolidated Financial Statements for additional information regarding the adoption of ASU No. 2016-09.

Liquidity and Capital Resources

Selected measures of liquidity and capital resources are as follows (in millions):

	As of December 31,		
	2017	2016	2015
Cash and cash equivalents (1)	\$ 6.3	\$ 10.1	\$ 8.8
Working capital (including cash and cash equivalents) (2)	\$ 67.9	\$ 76.4	\$ 83.2
Amounts available under credit facilities	\$ 69.7	\$ 93.0	\$ 69.0

(1) The balance at December 31, 2017 includes \$3.9 million held by our Canadian, Indian and United Kingdom subsidiaries which is not available to fund domestic operations unless deemed repatriated. We currently do not plan or foresee a need to repatriate such funds. The balance also includes \$1.8 million in cash held in our Chinese subsidiary. During the year ended December 31, 2017, the Company determined that the Chinese subsidiary's earnings were no longer permanently reinvested and repatriated a total of approximately \$9.6 million in cash to the U.S. parent in the second and third quarters of 2017. See Note 10, *Income Taxes*, in the Notes to Consolidated Financial Statements for a discussion of the Company's repatriation of earnings from the Company's Chinese subsidiary.

(2) Working capital is total current assets less total current liabilities

Net Cash Provided By Operating Activities

Net cash provided by operating activities for the year ended December 31, 2017 was \$55.2 million compared to \$63.3 million and \$44.7 million for the years ended December 31, 2016 and 2015, respectively. For the year ended December 31, 2017, the components of operating cash flows were net income of \$18.6 million plus net non-cash charges of \$33.2 million and reductions in net operating assets of \$3.5 million. The primary components of operating cash flows for the year ended December 31, 2016 were net income of \$20.5 million plus net non-cash charges of \$34.9 million and reductions in net operating assets of \$7.9 million, primarily driven by reductions in accounts receivable. The primary components of operating cash flows for the year ended December 31, 2015 were net income of \$23.0 million plus net non-cash charges of \$31.9 million and investments in net operating assets of \$10.2 million.

Net Cash Used in Investing Activities

During the year ended December 31, 2017, we used \$37.9 million for acquisitions and \$4.3 million to purchase property and equipment and to develop software. During the year ended December 31, 2016, we used \$7.5 million for acquisitions and \$6.1 million to purchase property and equipment and to develop software. During the year ended December 31, 2016, we also purchased and subsequently sold short-term investments of \$0.9 million and settled \$2.8 million of Company-owned life insurance ("COLI") policies, the proceeds of which were used to fund new COLI policies. For the year ended December 31, 2015, we used \$37.8 million for acquisitions (net of cash acquired) and \$4.4 million to purchase property and equipment and to develop software.

Net Cash Provided By Financing Activities

For the year ended December 31, 2017, we received proceeds of \$275.0 million from our line of credit and \$0.1 million in proceeds from the sales of stock through the Employee Stock Purchase Plan. In 2017, we made payments of \$252.0 million on our line of credit, used \$32.6 million to repurchase shares of our common stock through the stock repurchase program and used \$4.2 million to remit taxes withheld as part of a net share settlement of restricted stock vesting. We also used \$3.3 million to settle the contingent consideration for the purchase of Market Street, Enlighten and Bluetube and paid \$0.4 million in fees related to our credit facility. For the year ended December 31, 2016, we received proceeds of \$208.5 million from our line of credit and \$0.2 million in proceeds from the sales of stock through the Employee Stock Purchase Plan. In 2016, we made payments of \$232.5 million on our line of credit, used \$18.0 million to repurchase shares of our common stock through the stock repurchase program and used \$3.7 million to remit taxes withheld as part of a net share settlement of restricted stock vesting. We also used \$2.1 million to settle the contingent consideration for the purchase of Zeon and paid \$0.2 million in fees related to our credit facility. For the year ended December 31, 2015, we received proceeds of \$266.5 million from our line of credit and we realized a tax benefit of \$1.4 million related to the vesting of stock awards and stock option exercises plus \$0.3 million in proceeds from the exercise of stock options and

sales of stock through the Employee Stock Purchase Plan. In 2015, we made payments of \$264.5 million on our line of credit, used \$5.0 million to remit taxes withheld as part of a net share settlement of restricted stock vesting, used \$2.8 million to repurchase shares of our common stock through the stock repurchase program and paid \$0.2 million in fees related to our credit facility.

Availability of Funds from Credit Facility

On June 9, 2017, we entered into a Credit Agreement, as amended (the "Credit Agreement"), with Wells Fargo Bank, National Association, as administrative agent and the other lenders parties thereto. The Credit Agreement replaces the Second Amended and Restated Credit Agreement dated as of July 31, 2013 between the Company, Silicon Valley Bank and the other lenders and signatories thereto (the "Prior Credit Agreement"). The new credit facility was used to repay amounts due under the Prior Credit Agreement and will be used for working capital and general corporate purposes. In connection with the new agreement, the Company wrote off \$0.2 million in unamortized credit facility fees associated with the Prior Credit Agreement, which was included in "Net interest expense" on the Consolidated Statements of Operations during the year ended December 31, 2017. The Credit Agreement provides for revolving credit borrowings up to a maximum principal amount of \$125.0 million, subject to a commitment increase of \$75.0 million. All outstanding amounts owed under the Credit Agreement become due and payable no later than the final maturity date of June 9, 2022.

The Credit Agreement also allows for the issuance of letters of credit in the aggregate amount of up to \$10.0 million at any one time; outstanding letters of credit reduce the credit available for revolving credit borrowings. As of December 31, 2017, the Company had one outstanding letter of credit for \$0.3 million. Substantially all of the Company's assets are pledged to secure the credit facility.

Borrowings under the Credit Agreement bear interest at the Company's option of the prime rate (4.50% on December 31, 2017) plus a margin ranging from 0.00% to 0.50% or one-month LIBOR (1.56% on December 31, 2017) plus a margin ranging from 1.00% to 1.75%. The Company incurs an annual commitment fee of 0.15% to 0.20% on the unused portion of the line of credit. The additional margin amount and annual commitment fee are dependent on the level of outstanding borrowings. As of December 31, 2017, the Company had \$69.7 million of unused borrowing capacity.

At December 31, 2017, we were in compliance with all covenants under the Credit Agreement.

Stock Repurchase Program

Prior to 2018, our Board of Directors authorized the repurchase of up to \$135.0 million of our common stock. On February 20, 2018, our Board of Directors authorized the expansion of our stock repurchase program by authorizing the repurchase of up to an additional \$25.0 million of our common stock for a total repurchase program of \$160.0 million and extended the expiration date of the program to December 31, 2019. The program could be suspended or discontinued at any time, based on market, economic, or business conditions. The timing and amount of repurchase transactions will be determined by our management based on its evaluation of market conditions, share price, and other factors.

From time to time, we establish a written trading plan in accordance with Rule 10b5-1 of the Exchange Act, pursuant to which we make a portion of our stock repurchases. Additional repurchases will be at times and in amounts as the Company deems appropriate and will be made through open market transactions in compliance with Rule 10b-18 of the Exchange Act, subject to market conditions, applicable legal requirements, and other factors.

Since the program's inception on August 11, 2008, we have repurchased approximately \$135.0 million (12.4 million shares) of our outstanding common stock through December 31, 2017.

Contractual Obligations

For the year ended December 31, 2017, there were no material changes outside the ordinary course of business in lease obligations or other contractual obligations. See Note 12, *Commitments and Contingencies*, in the Notes to Consolidated Financial Statements for further description of our contractual obligations.

As of December 31, 2017, there was \$55.0 million outstanding under the Credit Agreement as compared to \$32.0 million outstanding under the Prior Credit Agreement as of December 31, 2016. The amounts under the Credit Agreement are classified as "Long-term debt" within the Consolidated Balance Sheets and will become due and payable no later than the final maturity date of June 9, 2022.

We have incurred commitments to make future payments under contracts such as leases and the Credit Agreement. Maturities under these contracts are set forth in the following table as of December 31, 2017 (in thousands):

Contractual Obligations	Payments Due by Period				
	Total	Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Operating lease obligations	\$ 29,484	\$ 6,535	\$ 12,611	\$ 7,368	\$ 2,970
Software license purchase obligation	835	835	-	-	-
Total debt	55,000	-	-	55,000	-
Total	<u>\$ 85,319</u>	<u>\$ 7,370</u>	<u>\$ 12,611</u>	<u>\$ 62,368</u>	<u>\$ 2,970</u>

Conclusion

If our capital is insufficient to fund our activities in either the short- or long-term, we may need to raise additional funds. In the ordinary course of business, we may engage in discussions with various persons in connection with additional financing. If we raise additional funds through the issuance of equity securities, our existing stockholders' percentage ownership will be diluted. These equity securities may also have rights superior to our common stock. Additional debt or equity financing may not be available when needed or on satisfactory terms. If adequate funds are not available on acceptable terms, we may be unable to expand our services, respond to competition, pursue acquisition opportunities, or continue our operations.

Of the total cash and cash equivalents reported on the Consolidated Balance Sheet as of December 31, 2017 of \$6.3 million, approximately \$3.9 million was held by the Company's Canadian, Indian and United Kingdom subsidiaries and is considered to be indefinitely reinvested in those operations. The Company is able to fund its liquidity needs outside of these subsidiaries, primarily through cash flows generated by domestic operations and our credit facility. Therefore, the Company has no current plans to repatriate cash from these foreign subsidiaries in the foreseeable future. As of December 31, 2017, the aggregate unremitted earnings of the Company's foreign subsidiaries for which a deferred income tax liability has not been recorded was approximately \$4.9 million, and the unrecognized deferred tax liability on unremitted earnings was approximately \$0.2 million. See Note 10, *Income Taxes*, in the Notes to Consolidated Financial Statements for a discussion of the Company's repatriation of earnings from the Company's Chinese subsidiary.

We believe that the currently available funds, access to capital from our credit facility, and cash flows generated from operations will be sufficient to meet our working capital requirements and other capital needs for the next 12 months.

Critical Accounting Policies

Our accounting policies are fully described in Note 2, *Summary of Significant Accounting Policies*, in the Notes to Consolidated Financial Statements. We believe our most critical accounting policies include revenue recognition, purchase accounting and related fair value measurements and income taxes.

Revenue Recognition and Allowance for Doubtful Accounts

Service revenues are primarily derived from professional services provided on a time and materials basis. For time and material contracts, service revenues are recognized and billed by multiplying the number of hours expended in the performance of the contract by the established billing rates. For fixed fee projects, service revenues are generally recognized using an input method based on the ratio of hours expended to total estimated hours. Amounts invoiced and collected in excess of revenues recognized are classified as deferred revenues. In conjunction with services provided, the Company occasionally receives referral fees under partner programs. These referral fees are recognized when earned and recorded within service revenues. Revenues from software and hardware sales are generally recorded on a gross basis considering the Company's role as a principal in the transaction. Revenues from sales of third-party software-as-a-service arrangements where the Company is not the primary obligor are recorded on a net basis. On many projects the Company is also reimbursed for out-of-pocket expenses including travel and other project-related expenses. These reimbursements are included as a component of revenues. We did not realize any profit on reimbursable expenses.

Unbilled revenues represent the project time and expenses that have been incurred, but not yet billed to the client, prior to the end of the fiscal period. For time and materials projects, the client is invoiced for the amount of hours worked multiplied by the billing rates as stated in the contract. For fixed fee arrangements, the client is invoiced according to the agreed-upon schedule detailing the amount and timing of payments in the contract. Clients are typically billed monthly for services provided during that month, but can be billed on a more or less frequent basis as determined by the contract. If the time and expenses are worked/incurred and approved at the end of a fiscal period and the invoice has not yet been sent to the client, the amount is recorded as unbilled revenue once the Company verifies all other revenue recognition criteria have been met.

Revenues are recognized when the following criteria are met: (1) persuasive evidence of the customer arrangement exists; (2) fees are fixed and determinable; (3) delivery and acceptance have occurred; and (4) collectability is deemed probable. The Company's policy for revenue recognition in instances where multiple deliverables are sold contemporaneously to the same customer is in accordance with the FASB Accounting Standards Codification ("ASC") Subtopic 985-605, *Software – Revenue Recognition*, ASC Subtopic 605-25, *Revenue Recognition – Multiple-Element Arrangements*, and ASC Section 605-10-S99 (Staff Accounting Bulletin Topic 13, *Revenue Recognition*). Specifically, if the Company enters into contracts for the sale of services and software or hardware, then the Company evaluates whether each element should be accounted for separately by considering the following criteria: (1) whether the deliverables have value to the client on a stand-alone basis; and (2) whether delivery or performance of the undelivered item or items is considered probable and substantially in the control of the Company (only if the arrangement includes a general right of return related to the delivered item). Further, for sales of software and services, the Company also evaluates whether the services are essential to the functionality of the software and if it has fair value evidence for each deliverable. If the Company has concluded that the separation criteria are met, then it accounts for each deliverable in the transaction separately, based on the relevant revenue recognition policies. Generally, all deliverables of the Company's multiple element arrangements meet these criteria and are accounted for separately, with the arrangement consideration allocated among the deliverables using vendor specific objective evidence of the selling price. As a result, the Company generally recognizes software and hardware sales upon delivery to the customer and services consistent with the policies described herein.

Further, delivery of software and hardware sales, when sold contemporaneously with services, can generally occur at varying times depending on the specific client project arrangement. Delivery of services generally occurs over a period of time consistent with the timeline as outlined in the client contract.

There are no significant cancellation or termination-type provisions for the Company's software and hardware sales. Contracts for professional services provide for a general right, to the client or the Company, to cancel or terminate the contract within a given period of time (generally 10 to 30 days' notice is required). The client is responsible for any time and expenses incurred up to the date of cancellation or termination of the contract.

The Company may provide multiple services under the terms of an arrangement and is required to assess whether one or more units of accounting are present. Service fees are typically accounted for as one unit of accounting, as fair value evidence for individual tasks or milestones is not available. The Company follows the guidelines discussed above in determining revenues; however, certain judgments and estimates are made and used to determine revenues recognized in any accounting period. If estimates are revised, material differences may result in the amount and timing of revenues recognized for a given period.

Revenues are presented net of taxes assessed by governmental authorities. Sales taxes are generally collected and subsequently remitted on all software and hardware sales and certain services transactions as appropriate.

Allowance for doubtful accounts is based upon specific identification of likely and probable losses. Each accounting period, accounts receivable is evaluated for risk associated with a client's inability to make contractual payments, historical experience and other currently available information. Billed and unbilled receivables that are specifically identified as being at risk are provided for with a charge to revenue or bad debts as appropriate in the period the risk is identified. Considerable judgment is used in assessing the ultimate realization of these receivables, including reviewing the financial stability of the client, evaluating the successful mitigation of service delivery disputes, and gauging current market conditions. If the evaluation of service delivery issues or a client's ability to pay is incorrect, future reductions to revenue or bad debt expense may be incurred.

Purchase Accounting and Related Fair Value Measurements

The Company allocates the purchase price, including contingent consideration, of our acquisitions to the assets and liabilities acquired, including identifiable intangible assets, based on their respective fair values at the date of acquisition. Such fair market value assessments are primarily based on third-party valuations using assumptions developed by management that require significant judgments and estimates that can change materially as additional information becomes available. The purchase price allocated to intangibles is based on unobservable factors, including but not limited to, projected revenues, expenses, customer attrition rates, royalty rates, a weighted average cost of capital, among others. The weighted average cost of capital uses a market participant's cost of equity and after-tax cost of debt and reflects the risk inherent in the cash flows. The approach to valuing the contingent consideration associated with the purchase price also uses similar unobservable factors such as projected revenues and expenses over the term of the contingent earn-out period, discounted for the period over which the contingent consideration is measured. Based upon these assumptions, the contingent consideration is then valued using a Monte Carlo simulation. The Company finalizes the purchase price allocation within 12 months of the acquisition date as certain initial accounting valuation estimates are finalized.

Income Taxes

The Company calculates and provides for income taxes in each jurisdiction in which it operates. Deferred tax assets and liabilities, measured using enacted tax rates, are recognized for the future tax consequences of temporary differences between financial reporting and tax bases of assets and liabilities. A valuation allowance reduces the deferred tax assets to the amount that is more likely than not to be realized. The Company has established liabilities or reduced assets for uncertain tax positions when it believes those tax positions are not more likely than not of being sustained if challenged. The Company evaluates these uncertain tax positions and adjusts the related tax assets and liabilities in light of changing facts and circumstances each quarter. On December 22, 2017, the U.S. government enacted the 2017 Tax Act. The 2017 Tax Act significantly revised the future ongoing U.S. corporate income tax by, among other things, lowering U.S. corporate income tax rates and implementing a territorial tax system. See Note 10, *Income Taxes*, in the Notes to the Consolidated Financial Statements for additional information regarding the 2017 Tax Act.

Recent Accounting Pronouncements

Recent accounting pronouncements are fully described in Note 2, *Summary of Significant Accounting Policies*, in the Notes to Consolidated Financial Statements.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements, except operating lease commitments as disclosed in Note 12, *Commitments and Contingencies*, in the Notes to Consolidated Financial Statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

We are exposed to market risks related to changes in foreign currency exchange rates and interest rates. We believe our exposure to market risks is immaterial.

Exchange Rate Sensitivity

We are exposed to market risks associated with changes in foreign currency exchange rates because we generate a portion of our revenues and incur a portion of our expenses in currencies other than the U.S. dollar. As of December 31, 2017, we were exposed to changes in exchange rates between the U.S. dollar and the Canadian dollar, Chinese Yuan, Indian Rupee, British Pound, and Euro. We hedge material foreign currency exchange rate exposures when feasible using forward contracts. These instruments are subject to fluctuations in foreign currency exchange rates and credit risk. Credit risk is managed through careful selection and ongoing evaluation of the financial institutions utilized as counter parties. Refer to Note 11, *Financial Instruments*, in the Notes to Consolidated Financial Statements for further discussion.

Interest Rate Sensitivity

As of December 31, 2017, there was \$55.0 million outstanding and \$69.7 million of available borrowing capacity under our credit facility. Our interest expense will fluctuate as the interest rate for the line of credit floats based, at our option, on the prime rate plus a margin or the one-month LIBOR rate plus a margin. Based on the \$55.0 million outstanding on the line of credit as of December 31, 2017, an increase in the interest rate of 100 basis points would add \$550,000 of interest expense per year, which is not considered material to our financial position or results of operations.

We had unrestricted cash and cash equivalents totaling \$6.3 million at December 31, 2017 and \$10.1 million at December 31, 2016. The unrestricted cash and cash equivalents are held for working capital purposes. We do not enter into investments for trading or speculative purposes.

PERFICIENT, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2017

1. Description of Business and Principles of Consolidation

Perficient, Inc. (the "Company") is an information technology consulting firm. The Company helps its clients use Internet-based technologies to make their businesses more responsive to market opportunities and threats; strengthen relationships with customers, suppliers, and partners; improve productivity; and reduce information technology costs. The Company designs, builds, and delivers solutions using a core set of middleware software products developed by third-party vendors. The Company's solutions enable its clients to meet the changing demands of an increasingly global, Internet-driven, and competitive marketplace.

The Company is incorporated in Delaware. The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All material intercompany accounts and transactions have been eliminated in consolidation.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates, and such differences could be material to the financial statements.

Revenue Recognition

Service revenues are primarily derived from professional services provided on a time and materials basis. For time and material contracts, service revenues are recognized and billed by multiplying the number of hours expended in the performance of the contract by the established billing rates. For fixed fee projects, service revenues are generally recognized using an input method based on the ratio of hours expended to total estimated hours. Amounts invoiced and collected in excess of revenues recognized are classified as deferred revenues. In conjunction with services provided, the Company occasionally receives referral fees under partner programs. These referral fees are recognized when earned and recorded within service revenues. Revenues from software and hardware sales are generally recorded on a gross basis considering the Company's role as a principal in the transaction. Revenues from sales of third-party software-as-a-service arrangements where the Company is not the primary obligor are recorded on a net basis. On many projects the Company is also reimbursed for out-of-pocket expenses including travel and other project-related expenses. These reimbursements are included as a component of revenues. We did not realize any profit on reimbursable expenses.

Unbilled revenues represent the project time and expenses that have been incurred, but not yet billed to the client, prior to the end of the fiscal period. For time and materials projects, the client is invoiced for the amount of hours worked multiplied by the billing rates as stated in the contract. For fixed fee arrangements, the client is invoiced according to the agreed-upon schedule detailing the amount and timing of payments in the contract. Clients are typically billed monthly for services provided during that month, but can be billed on a more or less frequent basis as determined by the contract. If the time and expenses are worked/incurred and approved at the end of a fiscal period and the invoice has not yet been sent to the client, the amount is recorded as unbilled revenue once the Company verifies all other revenue recognition criteria have been met.

Revenues are recognized when the following criteria are met: (1) persuasive evidence of the customer arrangement exists; (2) fees are fixed and determinable; (3) delivery and acceptance have occurred; and (4) collectability is deemed probable. The Company's policy for revenue recognition in instances where multiple deliverables are sold contemporaneously to the same customer is in accordance with the FASB Accounting Standards Codification ("ASC") Subtopic 985-605, *Software – Revenue Recognition*, ASC Subtopic 605-25, *Revenue Recognition – Multiple-Element Arrangements*, and ASC Section 605-10-S99 (Staff Accounting Bulletin Topic 13, *Revenue Recognition*). Specifically, if the Company enters into contracts for the sale of services and software or hardware, then the Company evaluates whether each element should be accounted for separately by considering the following criteria: (1) whether the deliverables have value to the client on a stand-alone basis; and (2) whether delivery or performance of the undelivered item or items is considered probable and substantially in the control of the Company (only if the arrangement includes a general right of return related to the delivered item). Further, for sales of software and services, the Company also evaluates whether the services are essential to the functionality of the software and if it has fair value evidence for each deliverable. If the Company has concluded that the separation criteria are met, then it accounts for each deliverable in the transaction separately, based on the relevant revenue recognition policies. Generally, all deliverables of the Company's multiple element arrangements meet these criteria and are accounted for separately, with the arrangement consideration allocated among the deliverables using vendor specific objective evidence of the selling price. As a result, the Company generally recognizes software and hardware sales upon delivery to the customer and services consistent with the policies described herein.

Further, delivery of software and hardware sales, when sold contemporaneously with services, can generally occur at varying times depending on the specific client project arrangement. Delivery of services generally occurs over a period of time consistent with the timeline as outlined in the client contract.

There are no significant cancellation or termination-type provisions for the Company's software and hardware sales. Contracts for professional services provide for a general right, to the client or the Company, to cancel or terminate the contract within a given period of time (generally 10 to 30 days' notice is required). The client is responsible for any time and expenses incurred up to the date of cancellation or termination of the contract.

The Company may provide multiple services under the terms of an arrangement and is required to assess whether one or more units of accounting are present. Service fees are typically accounted for as one unit of accounting, as fair value evidence for individual tasks or milestones is not available. The Company follows the guidelines discussed above in determining revenues; however, certain judgments and estimates are made and used to determine revenues recognized in any accounting period. If estimates are revised, material differences may result in the amount and timing of revenues recognized for a given period.

Revenues are presented net of taxes assessed by governmental authorities. Sales taxes are generally collected and subsequently remitted on all software and hardware sales and certain services transactions as appropriate.

Allowance for Doubtful Accounts

An allowance for doubtful accounts is based upon specific identification of likely and probable losses. Each accounting period, accounts receivable is evaluated for risk associated with a client's inability to make contractual payments, historical experience, and other currently available information.

Stock-Based Compensation

The fair value of restricted stock awards are based on the value of the Company's common stock on the date of the grant. Stock-based compensation is accounted for in accordance with ASC Topic 718, *Compensation – Stock Compensation*. Under this guidance, the Company recognizes share-based compensation ratably using the straight-line attribution method over the requisite service period, which is generally three years. In addition, pursuant to ASU No. 2016-09, *Improvements to Employee Share-Based Payment Accounting*, the Company has continued to elect to estimate the amount of expected forfeitures when calculating share-based compensation, instead of accounting for forfeitures as they occur.

Income Taxes

The Company accounts for income taxes in accordance with ASC Subtopic 740-10, *Income Taxes* ("ASC Subtopic 740-10"), and ASC Section 740-10-25, *Income Taxes – Recognition* ("ASC Section 740-10-25"). ASC Subtopic 740-10 prescribes the use of the asset and liability method whereby deferred tax asset and liability account balances are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are subject to tests of recoverability. A valuation allowance is provided for such deferred tax assets to the extent realization is not judged to be more likely than not. ASC Section 740-10-25 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Section 740-10-25 also provides guidance on derecognition, classification, treatment of interest and penalties, and disclosure of such positions. On December 22, 2017, the U.S. government enacted the 2017 Tax Act. The 2017 Tax Act significantly revised the future ongoing U.S. corporate income tax by, among other things, lowering U.S. corporate income tax rates and implementing a territorial tax system. See Note 10, *Income Taxes*, for additional information regarding the 2017 Tax Act.

Cash and Cash Equivalents

Cash and cash equivalents consist of all cash balances and liquid investments with original maturities of three months or less.

Property and Equipment

Property and equipment are recorded at cost. Depreciation of property and equipment is computed using the straight-line method over the useful lives of the assets (generally one to seven years). Leasehold improvements are amortized over the shorter of the life of the lease or the estimated useful life of the assets.

Goodwill and Intangible Assets

Goodwill represents the excess purchase price over the fair value of net assets acquired, or net liabilities assumed, in a business combination. In accordance with ASC Topic 350, *Intangibles – Goodwill and Other* ("ASC Topic 350"), the Company performs an annual impairment review in the fourth quarter and more frequently if events or changes in circumstances indicate that goodwill might be impaired. ASC Topic 350 permits an assessment of qualitative factors to determine whether it is more likely than not that the fair value is less than the carrying amount of the Company before applying the quantitative goodwill impairment test. If it is more likely than not that the fair value is less than the carrying amount of the Company, the quantitative goodwill impairment test will be conducted to detect and measure any impairment. Based upon the Company's qualitative assessment, it is more likely than not that the fair value of the Company is greater than its carrying amount. No impairment charges were recorded for 2017, 2016 or 2015.

Other intangible assets include customer relationships, non-compete arrangements, trade names, customer backlog, and internally developed software, which are being amortized over the assets' estimated useful lives using the straight-line method. Estimated useful lives range from less than one year to ten years. Amortization of customer relationships, non-compete arrangements, trade names, customer backlog, and internally developed software is considered an operating expense and is included in "Amortization" in the accompanying Consolidated Statements of Operations. The Company periodically reviews the estimated useful lives of its identifiable intangible assets, taking into consideration any events or circumstances that might result in a lack of recoverability or revised useful life. Other intangible assets are evaluated for impairment upon the occurrence of events or changes in circumstances indicating that the carrying amount of an asset may not be recoverable. No impairment of intangible assets were recorded for 2017, 2016 or 2015.

Purchase Accounting and Related Fair Value Measurements

The Company allocates the purchase price, including contingent consideration, of our acquisitions to the assets and liabilities acquired, including identifiable intangible assets, based on their respective fair values at the date of acquisition. Such fair market value assessments are primarily based on third-party valuations using assumptions developed by management that require significant judgments and estimates that can change materially as additional information becomes available. The purchase price allocated to intangibles is based on unobservable factors, including but not limited to, projected revenues, expenses, customer attrition rates, royalty rates, a weighted average cost of capital, among others. The weighted average cost of capital uses a market participant's cost of equity and after-tax cost of debt and reflects the risks inherent in the cash flows. The approach to valuing the contingent consideration associated with the purchase price also uses similar unobservable factors such as; projected revenues and expenses over the term of the contingent earn-out period, discounted for the period over which the contingent considerations is measured. Based upon these assumptions, the contingent consideration is then valued using a Monte Carlo simulation. The Company finalizes the purchase price allocation within 12 months of the acquisition date as certain initial accounting valuation estimates are finalized.

Financial Instruments

Cash equivalents, accounts receivable, accounts payable, and other accrued liabilities are stated at amounts which approximate fair value due to the near term maturities of these instruments. The Company's long-term debt balance approximates fair market value.

The Company, when deemed appropriate, uses derivatives as a risk management tool to mitigate the potential impact of foreign currency exchange rate risk. Both the gain or loss on derivatives not designated as hedging instruments and the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in current earnings. All derivatives are carried at fair value in the consolidated balance sheets. See Note 11, *Financial Instruments*,

for additional information regarding our derivative financial instruments.

Treasury Stock

The Company uses the cost method to account for repurchases of its own stock.

Segment and Geographic Information

The Company operates as one reportable operating segment according to ASC Topic 280, *Segment Reporting*, which establishes standards for the way that business enterprises report information about operating segments. The chief operating decision maker formulates decisions about how to allocate resources and assess performance based on consolidated financial results. The Company also has one reporting unit for purposes of the goodwill impairment analysis discussed above. Approximately 98% of our revenues were derived from clients in the United States during each of the years ended December 31, 2017, 2016 and 2015. Less than 2% of the Company's non-current assets were located outside the United States for each of the years ended December 31, 2017 and 2016.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU No. 2014-09 replaced most existing revenue recognition guidance in U.S. GAAP. In 2015, the FASB deferred the effective date of ASU No. 2014-09 by one year. In 2016, the FASB issued ASU No. 2016-08, *Principal versus Agent Considerations*, ASU No. 2016-10, *Identifying Performance Obligations and Licensing*, ASU No. 2016-12, *Narrow-Scope Improvements and Practical Expedients* and ASU No. 2016-20, *Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers*, all of which further amended ASU No. 2014-09. The Company adopted the standard on January 1, 2018 using the modified retrospective method which requires a cumulative-effect adjustment to the opening balance of retained earnings within stockholders' equity, as will be fully presented in the Company's Quarterly Report on Form 10-Q for the three months ended March 31, 2018. The Company has determined that the most significant impact upon adoption is to third-party software and hardware revenue, which has primarily been recorded on a gross basis as the principal in the transaction through December 31, 2017 and will be presented on a net basis as the agent as of January 1, 2018. Had the Company historically presented third-party software and hardware revenues on a net basis, software and hardware revenues would have been \$5.3 million, \$6.4 million, and \$5.5 million for the years ended December 31, 2017, 2016, and 2015, respectively. As the Company adopted ASU No. 2014-09 using the modified retrospective method, the gross versus net presentation will not impact the historical presentation but will impact the 2018 presentation. Additionally, as the agent, revenue from multi-year sales of third-party software and support will be recognized upfront as the performance obligation is fulfilled, rather than annually as invoiced to the customer. The impact from this timing change is expected to be immaterial. Variable consideration related to service contracts, such as volume discounts and holdbacks, may be recognized earlier under the new standard, and the Company is currently evaluating the impact of this change on contracts that are open as of December 31, 2017. The adoption of ASU No. 2014-09 and its amendments will also result in additional disclosures around the nature and timing of performance obligations, contract costs, and deferred revenue, as well as significant judgments and practical expedients used by the Company.

In February 2016, the FASB issued ASU No. 2016-02, *Leases*, which supersedes ASC Topic 840, *Leases*, and creates a new topic, ASC Topic 842, *Leases*. This update requires lessees to recognize a lease liability and a lease asset for all leases, including operating leases, with a term greater than 12 months on its balance sheet. The update also expands the required quantitative and qualitative disclosures surrounding leases. This update is to become effective for the Company on January 1, 2019, with earlier application permitted. This update will be applied using a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. While the Company is currently assessing the impact ASU No. 2016-02 will have on its consolidated financial statements, the Company expects the primary impact upon adoption will be the recognition, on a discounted basis, of its minimum commitments under noncancellable operating leases on its consolidated balance sheets resulting in the recording of right of use assets and lease obligations. Current minimum commitments under noncancellable operating leases are disclosed in Note 12, *Commitments and Contingencies*.

In August 2016, the FASB issued ASU No. 2016-15, *Classification of Certain Cash Receipts and Cash Payments*. This update eliminates the diversity in practice related to the classification of certain cash receipts and payments for debt prepayment or extinguishment costs, the maturing of a zero coupon bond, the settlement of contingent liabilities arising from a business combination, proceeds from insurance settlements, distributions from certain equity method investees and beneficial interests obtained in a financial asset securitization. ASU No. 2016-15 designates the appropriate cash flow classification, including requirements to allocate certain components of these cash receipts and payments among operating, investing and financing activities. This update is to become effective for the Company on January 1, 2018 and requires using a retrospective approach. The Company elected to early adopt this update retrospectively on January 1, 2017 since the Company was already in compliance with the new standard. The adoption of ASU No. 2016-15 did not have a material impact on the Company's consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, *Simplifying the Test for Goodwill Impairment*. This update eliminates Step 2 from the goodwill impairment test which compares the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. ASU No. 2017-04 does not make any changes to the impairment indicators or aspects of the qualitative assessment. This update is to become effective for the Company on January 1, 2020 and requires using a prospective approach. Early adoption is permitted beginning with interim or annual goodwill impairment tests performed on testing dates on or after January 1, 2017. The Company elected to early adopt this update prospectively on January 1, 2017. The adoption of ASU No. 2017-04 did not have an impact on the Company's consolidated financial statements.

3. Net Income Per Share

Basic earnings per share is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share includes the weighted average number of common shares outstanding and the number of equivalent shares which would be issued related to the stock options, unvested restricted stock, and warrants using the treasury method, unless such additional equivalent shares are anti-dilutive.

The following table presents the calculation of basic and diluted net income per share (in thousands, except per share information):

	Year Ended December 31,		
	2017	2016	2015
Net income	\$ 18,581	\$ 20,459	\$ 23,007
Basic:			
Weighted-average shares of common stock outstanding	33,016	34,023	33,408

Shares used in computing basic net income per share	33,016	34,023	33,408
Effect of dilutive securities:			
Restricted stock subject to vesting	488	493	466
Contingently issuable shares (1)	-	2	2
Shares issuable for acquisition consideration (2)	562	483	448
Shares used in computing diluted net income per share	34,066	35,001	34,324
Basic net income per share	\$ 0.56	\$ 0.60	\$ 0.69
Diluted net income per share	\$ 0.55	\$ 0.58	\$ 0.67
Anti-dilutive options and restricted stock not included in the calculation of diluted net income per share			
	88	-	28

- (1) For the year ended December 31, 2016, this represents the shares issued to Zeon Solutions Incorporated and certain related entities (collectively, “Zeon”) pursuant to the Asset Purchase Agreement. For the year ended December 31, 2015, this represents the Company’s estimate of shares to be issued to Zeon pursuant to the Asset Purchase Agreement.
- (2) For the year ended December 31, 2017, this represents the shares held in escrow pursuant to: (i) the Asset Purchase Agreement with BioPharm Systems, Inc. (“BioPharm”); (ii) the Asset Purchase Agreement with Zeon; (iii) the Asset Purchase Agreement with The Pup Group, Inc. d/b/a Enlighten (“Enlighten”); (iv) the Asset Purchase Agreement with RAS & Associates, LLC (“RAS”); and (v) the Asset Purchase Agreement with Clarity Consulting, Inc. and Truth Labs, LLC (together, “Clarity”), as part of the consideration. For the year ended December 31, 2016, this represents the shares held in escrow pursuant to: (i) the Asset Purchase Agreement with BioPharm; (ii) the Asset Purchase Agreement with Zeon; (iii) the Stock Purchase Agreement for Market Street Solutions, Inc. (“Market Street”); and (iv) the Asset Purchase Agreement with Enlighten as part of the consideration. For the year ended December 31, 2015, this represents the shares held in escrow pursuant to: (i) the Agreement and Plan of Merger with ForwardThink Group Inc. (“ForwardThink”); (ii) the Asset Purchase Agreement with BioPharm; (iii) the Asset Purchase Agreement with Trifecta Technologies, Inc. and Trifecta Technologies Canada, Limited (together “Trifecta”); (iv) the Asset Purchase Agreement with Zeon; (v) the Stock Purchase Agreement for Market Street and (vi) the Asset Purchase Agreement with Enlighten as part of the consideration.

4. Concentration of Credit Risk and Significant Customers

Cash and accounts receivable potentially expose the Company to concentrations of credit risk. Cash is placed with highly rated financial institutions. The Company provides credit, in the normal course of business, to its customers. The Company generally does not require collateral or up-front payments. The Company performs periodic credit evaluations of its customers and maintains allowances for potential credit losses. Customers can be denied access to services in the event of non-payment. During 2017, a substantial portion of the services the Company provided were built on IBM, Oracle, and Microsoft platforms, among others, and a significant number of the Company’s clients are identified through joint selling opportunities conducted with and through sales leads obtained from the relationships with these vendors. Due to the Company’s significant fixed operating expenses, the loss of sales to any significant customer could negatively impact net income and cash flow from operations. However, the Company has remained relatively diversified, with its largest customer only representing approximately 5% of total revenues excluding reimbursable expenses for the year ended December 31, 2017, approximately 6% of total revenues excluding reimbursable expenses for the year ended December 31, 2016, and approximately 4% of total revenues excluding reimbursable expenses for the year ended December 31, 2015.

5. Employee Benefit Plans

The Company has a qualified 401(k) profit sharing plan available to full-time employees who meet the plan’s eligibility requirements. This defined contribution plan permits employees to make contributions up to maximum limits allowed by the Internal Revenue Code of 1986, as amended (the “Code”). The Company, at its discretion, matches a portion of the employee’s contribution under a predetermined formula based on the level of contribution and years of service. For 2017, the Company made matching contributions of 50% (25% in cash and 25% in Company stock) of the first 6% of eligible compensation deferred by the participant. The Company recognized \$4.9 million, \$4.8 million, and \$4.6 million of expense for the matching cash and Company stock contribution in 2017, 2016, and 2015, respectively. All matching contributions vest over a three-year period of service.

The Company has a nonqualified deferred compensation plan for certain U.S. personnel. The plan is designed to allow eligible participants to accumulate additional income through elective deferrals of compensation which will be paid in the future. As of December 31, 2017 and 2016, the deferred compensation liability balance was \$4.7 million and \$3.9 million, respectively. The Company funds the deferred compensation plan through company-owned life insurance (“COLI”) policies. During the year ended December 31, 2016, the Company settled its current COLI policies and funded new COLI policies with a different insurance provider.

In accordance with Indian law, the Company provides certain defined benefit plans covering substantially all of its Indian employees. The gratuity plan provides a lump-sum payment to vested employees upon retirement or termination of employment in an amount based on each employee’s salary and duration of employment with the Company. The leave encashment plan requires the Company to pay employees leaving the Company a specific formula taking into account earned leaves up to a certain maximum and the employee’s most recent salary. The annual projected cost of these defined benefit plans is actuarially determined. As of December 31, 2017 and 2016, the defined benefit plan liability, which is unfunded was immaterial.

6. Business Combinations

2016 Acquisition

Acquisition of Bluetube

On October 12, 2016, the Company acquired substantially all of the assets of Bluetube, LLC, a Georgia limited liability company (“Bluetube”), pursuant to the terms of an Asset Purchase Agreement. Bluetube was a digital marketing agency specializing in the development, implementation, integration and support of custom website and enterprise mobile solutions. The acquisition of Bluetube enhanced and expanded the Company’s digital strategy, creative services, mobile and marketing expertise.

The Company’s total allocable purchase price consideration was \$9.1 million. The purchase price was comprised of \$7.2 million in cash paid increased by \$1.9 million representing the initial fair value estimate of additional revenue and earnings-based contingent consideration. Bluetube realized the maximum cash payout pursuant to the Asset Purchase Agreement and, as a result, the Company recorded a pre-tax adjustment of \$0.8 million in “Adjustment to fair value of contingent consideration” on the Consolidated Statements of Operations during the year ended December 31, 2017 and paid \$2.7 million in contingent consideration in August 2017. The Company incurred approximately \$0.5 million in transaction costs, which were expensed when incurred.

The Company allocated the total purchase price consideration between tangible assets, identified intangible assets, liabilities, and goodwill as follows (in millions):

Acquired tangible assets	\$	0.9
Acquired intangible assets		3.1
Liabilities assumed		(0.6)
Goodwill		5.7
Total purchase price	\$	<u>9.1</u>

The amount of goodwill expected to be deductible for tax purposes is \$6.7 million.

The following table presents details of the intangible assets acquired during the year ended December 31, 2016 (dollars in millions).

	<u>Weighted Average Useful Life</u>	<u>Estimated Useful Life</u>	<u>Aggregate Acquisitions</u>
Customer relationships	5 years	5 years	\$ 2.5
Customer backlog	6 months	6 months	0.4
Non-compete agreements	5 years	5 years	0.2
Trade name	1 year	1 year	-
Total acquired intangible assets			<u>\$ 3.1</u>

2017 Acquisitions

Acquisition of RAS

On January 3, 2017, the Company acquired substantially all of the assets of RAS through a wholly-owned subsidiary of the Company, pursuant to the terms of an Asset Purchase Agreement. The acquisition of RAS expands the Company’s expertise in management consulting offerings with additional strategy, operations and business process optimization.

The Company’s total allocable purchase price consideration was \$10.4 million. The purchase price was comprised of \$7.1 million in cash paid and \$2.1 million in Company common stock issued at closing reduced by \$0.6 million as a result of a net working capital adjustment settled in Company common stock surrendered by RAS in September 2017. The purchase price also included \$1.8 million representing the initial fair value estimate of additional revenue and earnings-based contingent consideration, which may be realized by the seller twelve months after the closing date of the acquisition with a maximum cash payout of \$3.8 million. As of December 31, 2017, the Company’s best estimate of the fair value of the contingent consideration is zero. As a result, the Company recorded a pre-tax adjustment in “Adjustment to fair value of contingent consideration” on the Consolidated Statements of Operations of \$1.8 million during year ended December 31, 2017. The Company incurred approximately \$0.5 million in transaction costs, which were expensed when incurred.

The Company allocated the total purchase price consideration between tangible assets, identified intangible assets, liabilities, and goodwill as follows (in millions):

Acquired tangible assets	\$	0.9
Acquired intangible assets		5.1
Liabilities assumed		(1.0)
Goodwill		5.4
Total purchase price	\$	<u>10.4</u>

The amount of goodwill expected to be deductible for tax purposes, excluding contingent consideration, is \$3.7 million.

Acquisition of Clarity

On June 22, 2017, the Company acquired substantially all of the assets of Clarity, pursuant to the terms of an Asset Purchase Agreement. The acquisition of Clarity enhanced and expanded the Company's management consultancy in custom development, cloud implementation, and digital experience design on Microsoft platforms and devices and enabled us to deepen our penetration in the Chicago, Illinois market.

The Company's total allocable purchase price consideration was \$41.7 million. The purchase price was comprised of \$30.7 million in cash paid and \$7.3 million in Company common stock issued at closing reduced by \$0.4 million for an estimated net working capital settlement due from the seller. The purchase price also included \$4.1 million representing the initial fair value estimate of additional revenue and earnings-based contingent consideration, which may be realized by the seller twelve months after the closing date of the acquisition with a maximum cash payout of \$9.2 million. As of December 31, 2017, the Company's best estimate of the fair value of the contingent consideration is \$8.1 million. As a result, the Company recorded a pre-tax adjustment in "Adjustment to fair value of contingent consideration" on the Consolidated Statements of Operations of \$4.0 million during year ended December 31, 2017. The Company incurred approximately \$0.9 million in transaction costs, which were expensed when incurred.

As part of the consideration paid for the acquisition of Clarity, the Company issued common stock to owners of Clarity who are continuing with the Company with restrictions that limit the ability to sell the common stock and that lapse over a certain service period, or over an accelerated period upon meeting specified employment milestones. As such, \$0.9 million of the common stock value was attributed to future compensation and recorded as an asset within "Other current assets" and "Other non-current assets" in the Consolidated Balance Sheet as of December 31, 2017, to be amortized over the requisite service period.

The Company allocated the total purchase price consideration between tangible assets, identified intangible assets, liabilities, and goodwill as follows (in millions):

Acquired tangible assets	\$	6.0
Acquired intangible assets		15.0
Liabilities assumed		(3.6)
Goodwill		24.3
Total purchase price	\$	41.7

The amount of goodwill expected to be deductible for tax purposes, excluding contingent consideration, is \$22.1 million.

The following table presents details of the intangible assets acquired during the year ended December 31, 2017 (dollars in millions).

	Weighted Average Useful Life	Estimated Useful Life	Aggregate Acquisitions
Customer relationships	6 years	6 years	\$ 16.8
Customer backlog	1 year	3 months - 1 year	1.9
Non-compete agreements	5 years	2 - 5 years	0.7
Trade name	1 year	1 year	0.1
Internally developed software	4 years	4 years	0.6
Total acquired intangible assets			\$ 20.1

The results of the 2016 and 2017 acquisitions' operations have been included in the Company's consolidated financial statements since the respective acquisition dates.

The aggregate amounts of revenue and net income of the RAS and Clarity acquisitions included in the Company's Consolidated Statements of Operations from the acquisition date to December 31, 2017 are as follows (in thousands):

	Acquisition Date to December 31, 2017
Revenues	\$ 26,733
Net income	\$ 2,634

Pro-forma Results of Operations (Unaudited)

The following presents the unaudited pro-forma combined results of operations of the Company with the 2017 acquisitions for the year ended December 31, 2017 and the 2016 and 2017 acquisitions for the year ended December 31, 2016, after giving effect to certain pro-forma adjustments and assuming the 2017 acquisitions were acquired as of the beginning of 2016 and assuming the 2016 acquisitions were acquired as of the beginning of 2015.

These unaudited pro-forma results are presented in compliance with the adoption of ASU 2010-29, *Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations*, and are not necessarily indicative of the actual consolidated results of operations had the acquisitions actually occurred on January 1, 2016 or January 1, 2015 or of future results of operations of the consolidated entities (in thousands except per share data):

	December 31,	
	2017	2016
Revenues	\$ 500,436	\$ 525,915
Net income	\$ 23,899	\$ 19,203
Basic net income per share	\$ 0.71	\$ 0.56
Diluted net income per share	\$ 0.70	\$ 0.54
Shares used in computing basic net income per share	33,455	34,271
Shares used in computing diluted net income per share	34,298	35,676

7. Goodwill and Intangible Assets

Goodwill

Activity related to goodwill consisted of the following (in thousands):

	Year Ended December 31,	
	2017	2016
Balance, beginning of year	\$ 275,205	\$ 269,383
Purchase price allocations for acquisitions (Note 6)	29,756	5,716
Purchase accounting adjustments	-	195
Effect of foreign currency translation adjustments	277	(89)
Balance, end of year	<u>\$ 305,238</u>	<u>\$ 275,205</u>

Intangible Assets with Definite Lives

Following is a summary of the Company's intangible assets that are subject to amortization (in thousands):

	Year Ended December 31,					
	2017			2016		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Customer relationships	\$ 75,407	\$ (32,307)	\$ 43,100	\$ 67,648	\$ (30,458)	\$ 37,190
Non-compete agreements	1,556	(707)	849	1,018	(557)	461
Customer backlog	1,650	(866)	784	390	(195)	195
Trade name	100	(53)	47	30	(7)	23
Internally developed software	11,325	(5,039)	6,286	11,342	(4,096)	7,246
Total	<u>\$ 90,038</u>	<u>\$ (38,972)</u>	<u>\$ 51,066</u>	<u>\$ 80,428</u>	<u>\$ (35,313)</u>	<u>\$ 45,115</u>

The estimated useful lives of identifiable intangible assets are as follows:

Customer relationships	5 – 10 years
Non-compete agreements	2 – 5 years
Customer backlog	6 – 12 months
Trade name	1 year
Internally developed software	1 – 7 years

Total amortization expense for the years ended December 31, 2017, 2016, and 2015 was approximately \$15.0 million, \$13.4 million, and \$13.8 million, respectively.

Estimated annual amortization expense for the next five years ended December 31 and thereafter is as follows (in thousands):

2018	\$ 14,180
2019	\$ 12,317
2020	\$ 9,236
2021	\$ 7,098
2022	\$ 5,752
Thereafter	\$ 2,483

8. Stock-Based Compensation

Stock Plans

The Company's Second Amended and Restated Perficent, Inc. 2012 Long Term Incentive Plan (as amended, the "Incentive Plan") allows for the granting of various types of stock awards to eligible individuals. The Compensation Committee of the Board of Directors administers the Incentive Plan and determines the terms of all stock awards made under the Incentive Plan. The Incentive Plan was increased by 2.0 million shares on June 14, 2017 after the Company's stockholders approved the increase at the Company's 2017 annual meeting of stockholders. Following the increase, the Company may issue stock awards of up to 7.0 million shares of Common Stock pursuant to the Incentive Plan. As of December 31, 2017, there were 2.9 million shares of Common Stock available for issuance under the Incentive Plan.

Restricted stock activity for the year ended December 31, 2017 was as follows (in thousands, except fair value information):

	<u>Shares</u>	<u>Weighted-Average Grant Date Fair Value</u>
Restricted stock awards outstanding at December 31, 2016	1,403	\$ 17.52
Awards granted (1)	831	\$ 18.68
Awards vested (2)	(651)	\$ 18.00
Awards forfeited	(147)	\$ 16.16
Restricted stock awards outstanding at December 31, 2017	<u>1,436</u>	<u>\$ 18.12</u>

- (1) The weighted average grant date fair value of shares granted during 2016 and 2015 was \$16.79 and \$18.49, respectively.
- (2) The total fair value of restricted shares vested during the years ended December 31, 2017, 2016 and 2015 was \$12.0 million, \$10.8 million and \$14.2 million, respectively.

The Company recognized \$14.7 million, \$14.2 million, and \$13.5 million of share-based compensation expense during 2017, 2016 and 2015, respectively, which included \$2.5 million, \$2.4 million, and \$2.2 million of expense for retirement savings plan contributions, respectively. The associated current and future income tax benefit recognized during 2017, 2016 and 2015 was \$4.6 million, \$4.3 million, and \$4.2 million, respectively. As of December 31, 2017, there was \$19.4 million of total unrecognized compensation cost, net of estimated forfeitures, related to non-vested share-based awards. This cost is expected to be recognized over a weighted-average period of two years. Generally restricted stock awards vest over a three year service period.

Employee Stock Purchase Plan

The Employee Stock Purchase Plan (the "ESPP") is a broadly-based stock purchase plan in which any eligible employee may elect to participate by authorizing the Company to make payroll deductions in a specific amount or designated percentage to pay the exercise price of an option. In no event will the ESPP permit an employee to purchase common stock with a fair market value in excess of \$25,000 in any calendar year and the Compensation Committee of the Company has set the current annual participation limit at \$12,500. During the year ended December 31, 2017, approximately 7,681 shares were purchased under the ESPP.

There are four three-month offering periods in each calendar year beginning on January 1, April 1, July 1, and October 1, respectively. The purchase price of shares offered under the ESPP is an amount equal to 95% of the fair market value of the common stock on the date of purchase (occurring on, respectively, March 31, June 30, September 30, and December 31). The ESPP is designed to comply with Section 423 of the Code and thus is eligible for the favorable tax treatment afforded by Section 423.

9. Line of Credit

On June 9, 2017, the Company entered into a Credit Agreement, as amended (the "Credit Agreement"), with Wells Fargo Bank, National Association, as administrative agent and the other lenders parties thereto. The Credit Agreement replaces the Second Amended and Restated Credit Agreement dated as of July 31, 2013 between the Company, Silicon Valley Bank and the other lenders and signatories thereto (the "Prior Credit Agreement"). The new credit facility was used to repay amounts due under the Prior Credit Agreement and will be used for working capital and general corporate purposes. In connection with the new agreement, the Company wrote off \$0.2 million in unamortized credit facility fees associated with the Prior Credit Agreement, which was included in "Net interest expense" on the Consolidated Statements of Operations during the year ended December 31, 2017. The Credit Agreement provides for revolving credit borrowings up to a maximum principal amount of \$125.0 million, subject to a commitment increase of \$75.0 million. All outstanding amounts owed under the Credit Agreement become due and payable no later than the final maturity date of June 9, 2022.

The Credit Agreement also allows for the issuance of letters of credit in the aggregate amount of up to \$10.0 million at any one time; outstanding letters of credit reduce the credit available for revolving credit borrowings. As of December 31, 2017, the Company had one outstanding letter of credit for \$0.3 million. Substantially all of the Company's assets are pledged to secure the credit facility.

Borrowings under the Credit Agreement bear interest at the Company's option of the prime rate (4.50% on December 31, 2017) plus a margin ranging from 0.00% to 0.50% or one-month LIBOR (1.56% on December 31, 2017) plus a margin ranging from 1.00% to 1.75%. The Company incurs an annual commitment fee of 0.15% to 0.20% on the unused portion of the line of credit. The additional margin amount and annual commitment fee are dependent on the level of outstanding borrowings. As of December 31, 2017, the Company had \$69.7 million of unused borrowing capacity.

The Company is required to comply with various financial covenants under the Credit Agreement. Specifically, the Company is required to maintain a ratio of earnings before interest, taxes, depreciation, and amortization ("EBITDA") plus stock compensation to interest expense for the previous four consecutive fiscal quarters of not less than 3.00 to 1.00 and a ratio of indebtedness to EBITDA plus stock compensation ("Leverage Ratio") of not more than 3.00 to 1.00. Additionally, the Credit Agreement currently restricts the payment of dividends that would result in a pro-forma Leverage Ratio of more than 2.00 to 1.00.

At December 31, 2017, the Company was in compliance with all covenants under the Credit Agreement.

10. Income Taxes

The Company files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. The Internal Revenue Service (the “IRS”) has completed examinations of the Company’s U.S. income tax returns or the statute of limitations has passed on returns for the years through 2010. The Company’s 2011 through 2015 U.S. income tax returns are currently under examination by the IRS. The IRS has sought to disallow research credits in the total amount of \$2.5 million on the Company’s 2011, 2012 and 2013 U.S. income tax returns. The Company has exhausted all administrative appeals and formal mediation and has filed suit to resolve this dispute. The Company is awaiting a court date to be set by the U.S. Tax Court. The Company believes the research credits taken are appropriate and intends to vigorously defend its position. An amount of adjustment, if any, and the timing of such adjustment are not reasonably possible to estimate at this time. The total amount of research credits taken or expected to be taken in the Company’s income tax returns for 2011 through December 31, 2017 is \$8.9 million.

As of December 31, 2017, the Company had U.S. federal tax gross net operating loss carry forwards of approximately \$1.9 million that will begin to expire in 2023 if not utilized. Utilization of net operating losses may be subject to an annual limitation due to the “change in ownership” provisions of the Code. The annual limitation may result in the expiration of net operating losses before utilization.

Significant components of the provision for income taxes are as follows (in thousands):

	Year Ended December 31,		
	2017	2016	2015
Current:			
Federal	\$ 9,095	\$ 3,733	\$ 6,394
State	1,262	720	772
Foreign	2,345	1,207	1,165
Total current	<u>12,702</u>	<u>5,660</u>	<u>8,331</u>
Deferred:			
Federal	(3,726)	3,487	1,057
State	(684)	642	170
Foreign	270	261	270
Total deferred	<u>(4,140)</u>	<u>4,390</u>	<u>1,497</u>
Total provision for income taxes	<u>\$ 8,562</u>	<u>\$ 10,050</u>	<u>\$ 9,828</u>

The components of pretax income for the years ended December 31, 2017, 2016 and 2015 are as follows (in thousands):

	Year Ended December 31,		
	2017	2016	2015
Domestic	\$ 21,285	\$ 24,564	\$ 26,958
Foreign	5,858	5,945	5,877
Total	<u>\$ 27,143</u>	<u>\$ 30,509</u>	<u>\$ 32,835</u>

For the years ended December 31, 2017, 2016, and 2015 foreign operations included India, China, Canada and the United Kingdom.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred taxes as of December 31, 2017 and 2016 are as follows (in thousands):

	December 31,	
	2017	2016
Deferred tax assets:		
Accrued liabilities	\$ 2,027	\$ 1,710
Bad debt reserve	328	497
Net operating losses	483	893
Deferred compensation	2,579	3,851
Intangibles	4,097	3,624
Total deferred tax assets	<u>9,514</u>	<u>10,575</u>
Deferred tax liabilities:		
Prepaid expenses	902	965
Accounting method change	1,366	3,096
Goodwill and intangibles	13,975	18,172
Fixed assets	631	1,195
Total deferred tax liabilities	<u>16,874</u>	<u>23,428</u>
Net deferred tax liability	<u>\$ 7,360</u>	<u>\$ 12,853</u>

Management regularly assesses the likelihood that deferred tax assets will be recovered from future taxable income. To the extent management believes that it is more likely than not that a deferred tax asset will not be realized, a valuation allowance is established. Management believes it is more likely than not that the Company will generate sufficient taxable income in future years to realize the benefits of its deferred tax assets.

The federal corporate statutory tax rate is reconciled to the Company's effective income tax rate as follows:

	Year Ended December 31,		
	2017	2016	2015
Federal statutory rate	35.0%	35.0%	35.0%
State taxes, net of federal benefit	3.3	3.9	4.0
Effect of foreign operations	1.9	(2.1)	(2.6)
Foreign toll charge - U.S. tax reform	4.1	0.0	0.0
Stock compensation	1.9	2.4	3.4
Non-deductible acquisition costs	0.0	0.0	0.3
Research and development tax credit	(1.0)	(5.0)	(9.0)
U.S. domestic production deduction	(1.6)	(1.4)	(1.0)
Adjustment to deferred tax rate - U.S. tax reform	(12.3)	0.0	0.0
Other	0.2	0.1	(0.2)
Effective tax rate	<u>31.5%</u>	<u>32.9%</u>	<u>29.9%</u>

The effective income tax rate decreased to 31.5% for the year ended December 31, 2017 from 32.9% for the year ended December 31, 2016. The effective rate for the year ended December 31, 2017 included the effects of certain foreign withholding taxes, a foreign toll charge on historic foreign earnings, and a revaluation of ending deferred income taxes caused by passage of the 2017 Tax Act.

In general, it is the Company's practice and intention to reinvest the earnings of the Company's foreign subsidiaries in those operations. However, during the second quarter of 2017, the Company determined that as a result of changes in the business and macroeconomic environment, the foreign earnings of the Company's Chinese subsidiary were no longer permanently reinvested, and the Company repatriated \$4.8 million of cash in June 2017 and an additional \$4.8 million of cash in July 2017. A provision for the expected current and deferred taxes on repatriation of these earnings was recorded as a discrete item in the amount of \$2.5 million during the second quarter of 2017. Approximately \$1.6 million of this provision was reversed during the fourth quarter of 2017 due to the adoption of the 2017 Tax Act. Management intends to continue to permanently reinvest all other remaining current and prior earnings in its other foreign subsidiaries.

Excluding China, foreign unremitted earnings of entities not included in the United States tax return have been included in the consolidated financial statements without giving effect to the United States taxes that may be payable on distribution to the United States because it is not anticipated such earnings will be remitted to the United States. Under current applicable tax laws, if the Company elects to remit some or all of the funds it has designated as indefinitely reinvested outside the United States, the amount remitted would be subject to applicable non-U.S. withholding taxes. As of December 31, 2017, the aggregate unremitted earnings of the Company's foreign subsidiaries for which a deferred income tax liability has not been recorded was approximately \$4.9 million, and the unrecognized deferred tax liability on unremitted earnings was approximately \$0.2 million.

Under the provisions of the ASC Section 740-10-25, *Income Taxes - Recognition*, the Company had an unrecognized tax benefit of \$2.7 and \$1.2 million as of December 31, 2017 and 2016, respectively. If the Company's assessment of unrecognized tax benefits is not representative of actual outcomes, the Company's consolidated financial statements could be significantly impacted in the period of settlement or when the statute of limitations expires.

The following table is a reconciliation of beginning and ending balances of total amounts of gross unrecognized tax benefits (in thousands):

	December 31,	
	2017	2016
Balance at beginning of year	\$ 1,164	\$ 957
Additions based on tax positions related to current year	464	-
Additions based on tax positions related to prior years	1,151	207
Reductions for tax positions of prior years	(99)	-
Balance at end of year	<u>\$ 2,680</u>	<u>\$ 1,164</u>

U.S. Tax Reform

On December 22, 2017, the U.S. government enacted the 2017 Tax Act. The 2017 Tax Act significantly revised the future ongoing U.S. corporate income tax by, among other things, lowering U.S. corporate income tax rates and implementing a territorial tax system.

There are certain transitional impacts of the 2017 Tax Act which affected the Company's tax provision during the fourth quarter of 2017. As part of the transition to the new territorial tax system, the 2017 Tax Act imposed a one-time repatriation tax on deemed repatriation of historical earnings of foreign subsidiaries, which produced a \$1.1 million tax expense payable over eight years. As a result, a \$0.1 million current liability and a \$1.0 million non-current liability were recorded in the Company's consolidated financial statements during the fourth quarter of 2017. The reduction of the U.S. corporate tax rate caused the Company to adjust its U.S. deferred tax assets and liabilities to the lower federal base rate of 21%. The reduction in the corporate tax rate resulted in a provisional net tax credit of \$3.3 million for the fourth quarter of 2017. In addition, as a result of the 2017 Tax Act, changes to the net tax cost of certain China dividends repatriated during 2017 created a \$1.6 million tax credit during the fourth quarter of 2017.

The changes included in the 2017 Tax Act are broad and complex. The final transition impacts of the 2017 Tax Act may differ from the above estimate, possibly materially, due to, among other things, changes in interpretations of the 2017 Tax Act, any legislative action to address questions that arise because of the 2017 Tax Act, any changes in the accounting standards for income taxes or related interpretations in response to the 2017 Tax Act, or any updates or changes to estimates the Company has utilized to calculate the transition impacts, including impacts from changes to current year earnings estimates and foreign exchange rates of foreign subsidiaries. There were no specific impacts of the 2017 Tax Act that could not be reasonably estimated which the Company accounted for under prior tax law. However, the SEC has issued rules that would allow for a measurement period of up to one year after the enactment date of the 2017 Tax Act to finalize the recording of the related tax impacts. Based on a continued analysis of the estimates and further guidance on the application of the law, it is anticipated that additional revisions may occur throughout the allowable measurement period. We currently anticipate finalizing and recording any resulting adjustments within a year of the enactment date.

11. Financial Instruments

In the normal course of business, the Company uses derivative financial instruments to manage foreign currency exchange rate risk. Currency exposure is monitored and managed by the Company as part of its risk management program which seeks to reduce the potentially adverse effects that market volatility could have on operating results. The Company's derivative financial instruments consist of non-deliverable foreign currency forward contracts. Derivative financial instruments are neither held nor issued by the Company for trading purposes.

Derivatives Not Designated as Hedging Instruments

Both the gain or loss on the derivatives not designated as hedging instruments and the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in current earnings. Realized gains or losses and changes in the estimated fair value of foreign currency forward contracts that have not been designated as hedges were a net gain of \$0.1 million during the year ended December 31, 2017. A net loss of \$0.3 million was recognized during the year ended December 31, 2016. Gains and losses on these contracts are recorded in net other income (expense) and net interest expense in the Consolidated Statements of Operations and are offset by losses and gains on the related hedged items.

The notional amounts of the Company's derivative instruments outstanding were as follows (in thousands):

	December 31,	
	2017	2016
Derivatives not designated as hedges		
Foreign exchange contracts	\$ 3,979	\$ 4,541
Total derivatives not designated as hedges	\$ 3,979	\$ 4,541

Fair Value of Derivative Instruments

The authoritative guidance defines fair value as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The authoritative guidance also establishes a fair value hierarchy that is intended to increase consistency and comparability in fair value measurements and related disclosures. The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. Observable inputs reflect assumptions market participants would use in pricing an asset or liability based on market data obtained from independent sources while unobservable inputs reflect a reporting entity's pricing based upon its own market assumptions.

The fair value hierarchy consists of the following three levels:

- Level 1 – Inputs are quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs are quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable and market-corroborated inputs which are derived principally from or corroborated by observable market data.
- Level 3 – Inputs are derived from valuation techniques in which one or more significant inputs or value drivers are unobservable.

The Company estimates the fair value of each foreign exchange forward contract by using present value of expected cash flows. This considers the difference between the current market forward price and contracted forward price for each foreign exchange contract and applies the difference in the rates to each outstanding contract. Valuations for all derivatives fall within Level 2 of the GAAP valuation hierarchy. The fair value of the Company's derivative instruments outstanding as of December 31, 2017 was immaterial.

Derivatives may give rise to credit risks from the possible non-performance by counterparties. Credit risk is generally limited to the fair value of those contracts that are favorable to us. The Company has limited its credit risk by entering into derivative transactions only with highly-rated global financial institutions, limiting the amount of credit exposure with any one financial institution and conducting ongoing evaluation of the creditworthiness of the financial institutions with which the Company does business.

The Company utilizes standard counterparty master agreements containing provisions for the netting of certain foreign currency transaction obligations and for the set-off of certain obligations in the event of an insolvency of one of the parties to the transaction. Within the Consolidated Balance Sheets, the Company records derivative assets and liabilities at fair value.

The carrying value of cash and cash equivalents, accounts receivable, accounts payable, current liabilities and the revolving line of credit approximate fair value because of the short maturity of these instruments.

12. Commitments and Contingencies

From time to time the Company is involved in legal proceedings, claims and litigation related to employee claims, contractual disputes and taxes in the ordinary course of business. Although the Company cannot predict the outcome of such matters, currently the Company has no reason to believe the disposition of any current matter could reasonably be expected to have a material adverse impact on the Company's financial position, results of operations or the ability to carry on any of its business activities.

In June 2016, the Company entered into an agreement to purchase software licenses for internal use payable over a two-year period. As a result, the Company has recorded \$0.8 million in "Other current liabilities" in the Consolidated Balance Sheet as of December 31, 2017.

Certain of the Company's operating leases contain predetermined fixed escalations of minimum rentals during the original lease terms. For these leases, the Company recognizes the related rental expense on a straight-line basis over the life of the lease and records the difference between the amounts charged to operations and amounts paid as accrued rent expense.

The Company leases office space and certain equipment under various operating lease agreements. The Company has the option to extend the term of certain lease agreements. Future minimum commitments under these lease agreements as of December 31, 2017 are as follows (in thousands):

	Operating Leases
2018	\$ 6,535
2019	6,539
2020	6,072
2021	4,595
2022	2,773
Thereafter	2,970
Total minimum lease payments	\$ 29,484

Rent expense for the years ended December 31, 2017, 2016, and 2015 was approximately \$7.9 million, \$7.5 million, and \$6.5 million, respectively.

13. Balance Sheet Components

	December 31,	
	2017	2016
	(In thousands)	
Accounts receivable:		
Accounts receivable	\$ 82,603	\$ 80,461
Unbilled revenues	30,863	24,518
Allowance for doubtful accounts	(1,272)	(1,277)
Total	\$ 112,194	\$ 103,702
Property and Equipment:		
Computer hardware (useful life of 3 years)	\$ 13,110	\$ 12,191
Furniture and fixtures (useful life of 5 years)	3,772	3,306
Leasehold improvements (useful life of 5 years)	2,836	1,958
Software (useful life of 1 to 7 years)	5,159	9,186
Less: Accumulated depreciation	(17,732)	(17,753)
Total	\$ 7,145	\$ 8,888
Other current liabilities:		
Accrued variable compensation	\$ 16,842	\$ 10,979
Deferred revenues	3,278	3,138
Payroll related costs	2,971	2,607
Accrued subcontractor fees	469	1,049
Accrued medical claims expense	2,133	1,859
Professional fees	357	420
Estimated fair value of contingent consideration liability (Note 6)	8,148	3,384
Net working capital settlements	-	62
Other current liabilities	3,879	4,139
Total	\$ 38,077	\$ 27,637
Other non-current liabilities:		
Deferred compensation liability	\$ 4,409	\$ 3,662
Deferred income taxes	7,360	12,853
Other non-current liabilities	4,667	2,543
Total	\$ 16,436	\$ 19,058

14. Allowance for Doubtful Accounts

Activity in the allowance for doubtful accounts is summarized as follows for the years presented (in thousands):

	Year Ended December 31,		
	2017	2016	2015
Balance, beginning of year	\$ 1,277	\$ 749	\$ 911
Charges to expense	919	1,251	455
Uncollected balances written off, net of recoveries	(924)	(723)	(617)
Balance, end of year	<u>\$ 1,272</u>	<u>\$ 1,277</u>	<u>\$ 749</u>

15. Quarterly Financial Results (Unaudited)

The following tables set forth certain unaudited supplemental quarterly financial information for the years ended December 31, 2017 and 2016. The quarterly operating results are not necessarily indicative of future results of operations (in thousands except per share data).

	Three Months Ended,			
	March 31, 2017	June 30, 2017	September 30, 2017	December 31, 2017
	(Unaudited)			
Total revenues	\$ 111,019	\$ 117,026	\$ 123,738	\$ 133,478
Total cost of revenues	74,944	77,635	81,139	90,030
Income from operations	4,859	8,225	10,957	4,939
Income before income taxes	4,530	7,619	10,532	4,462
Net income (1)	2,709	2,409	7,027	6,436
Basic net income per share	0.08	0.07	0.22	0.20
Diluted net income per share	0.08	0.07	0.21	0.19

(1) See Note 10, *Income Taxes*, for additional information regarding the 2017 Tax Act and its impact on the fourth quarter of 2017.

	Three Months Ended,			
	March 31, 2016	June 30, 2016	September 30, 2016	December 31, 2016
	(Unaudited)			
Total revenues	\$ 123,843	\$ 124,396	\$ 119,153	\$ 119,590
Total cost of revenues	83,619	86,076	82,741	83,266
Income from operations	8,472	9,237	8,014	6,482
Income before income taxes	7,849	8,867	7,590	6,203
Net income	5,406	5,815	5,545	3,693

Diluted net income per share	0.16	0.17	0.16	0.11

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors
Perficient, Inc.:

Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting

We have audited the accompanying consolidated balance sheets of Perficient, Inc. and subsidiaries (the “Company”) as of December 31, 2017 and 2016, the related consolidated statements of operations, comprehensive income, changes in stockholders’ equity, and cash flows for each of the years in the three-year period ended December 31, 2017, and the related notes (collectively, the “consolidated financial statements”). We also have audited the Company’s internal control over financial reporting as of December 31, 2017, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2017 and 2016, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2017, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2017, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

The Company acquired substantially all of the assets of Clarity Consulting, Inc. and Truth Labs, LLC (together, “Clarity”) in June 2017, and management excluded from its assessment of the effectiveness of the Company’s internal control over financial reporting as of December 31, 2017, Clarity’s internal control over financial reporting associated with 9% and 4% of the Company’s total assets and total revenues, respectively, included in the consolidated financial statements of the Company as of and for the year ended December 31, 2017. Our audit of internal control over financial reporting of the Company also excluded an evaluation of the internal control over financial reporting of Clarity.

Basis for Opinion

The Company’s management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying *Management’s Report on Internal Control over Financial Reporting*. Our responsibility is to express an opinion on the Company’s consolidated financial statements and an opinion on the Company’s internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control Over Financial Reporting

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

We have served as the Company’s auditor since 2007.

St. Louis, Missouri
March 1, 2018

Item 9. Changes In and Disagreements With Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to the officers who certify the Company's financial reports and to other members of senior management and the Board of Directors.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the principal executive officer and principal financial officer of the Company, as appropriate, to allow timely decisions regarding required disclosure. The Company's management, with the participation of the Company's principal executive officer and principal financial officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the fiscal year covered by this Annual Report on Form 10-K. Based on that evaluation, the Company's principal executive and principal financial officers have determined that the Company's disclosure controls and procedures were effective.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Exchange Act Rule 13a-15(f). In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of internal control include providing management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles. Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our assessment under those criteria, management concluded that the Company's internal control over financial reporting was effective as of December 31, 2017.

The Company acquired substantially all of the assets of Clarity Consulting, Inc. and Truth Labs, LLC (together, "Clarity") in June 2017. As permitted by SEC guidance, management excluded Clarity from its assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2017. Clarity represented 9% and 4% of the Company's total assets and total revenues, respectively, as of and for the year ended December 31, 2017. Excluding identifiable intangible assets and goodwill recorded in the business combination, Clarity represented 1% of the Company's total assets as of December 31, 2017.

KPMG LLP, our independent registered public accounting firm, has audited our consolidated financial statements as of and for the year ended December 31, 2017 included in this Annual Report on Form 10-K, and has issued its report on the effectiveness of internal control over financial reporting as of December 31, 2017, which is included herein.

Changes in Internal Control Over Financial Reporting

There was no change in the Company's internal control over financial reporting as defined in Exchange Act Rule 13a-15(f) during the quarter ended December 31, 2017, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information.

On February 23, 2018, as a result of the one-time benefit the Company received under the 2017 Tax Act and to facilitate retention of the Company's executive employees, the Compensation Committee of the Board of Directors of the Company approved the payment of supplemental bonuses in the aggregate amount of \$2.8 million to employees of the Company that are eligible to participate under the Company's Executive Bonus Plan, as generally described in the Company's proxy statement of its annual meeting of stockholders held on June 14, 2017. The bonus recipients included, among others, Jeffrey S. Davis, the Company's President, Chief Executive Officer and Chairman, Kathryn J. Henely, the Company's Chief Operating Officer, and Paul E. Martin, the Company's Chief Financial Officer, Treasurer and Secretary. Messrs. Davis and Martin and Ms. Henely were awarded bonuses in the amounts of \$300,000, \$70,000, and \$98,750, respectively. Such bonuses are to be paid by March 15, 2018.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

Executive Officers

Our executive officers, including their ages as of the date of this filing are as follows:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Jeffrey S. Davis	53	Chairman of the Board, President and Chief Executive Officer
Kathryn J. Henely	53	Chief Operating Officer
Paul E. Martin	57	Chief Financial Officer, Treasurer and Secretary

Jeffrey S. Davis became the Chief Executive Officer and a member of the Board in 2009 and was elected Chairman of the Board in February 2017. He previously served as the Chief Operating Officer of the Company following its acquisition of Vertecon in April 2002, and was named the Company's President in 2004. He served the same role of Chief Operating Officer at Vertecon from October 1999 to its acquisition by the Company. Before Vertecon, Mr. Davis was a Senior Manager and member of the leadership team in Arthur Andersen's Business Consulting Practice, where he was responsible for defining and managing internal processes, while managing business development and delivery of all products, services and solutions to a number of large accounts. Mr. Davis also served in a leadership position at Ernst & Young LLP in the Management Consulting practice and in industry at Boeing, Inc. and Mallinckrodt, Inc. Mr. Davis is an active volunteer member of the board of directors of the Cystic Fibrosis Foundation of St. Louis and a member of the University of Missouri Trulaske College of Business advisory board. Mr. Davis has a M.B.A. from Washington University and a B.S. degree in Electrical Engineering from the University of Missouri.

Kathryn J. Henely was appointed as the Company's Chief Operating Officer in 2009. Ms. Henely joined the Company in the St. Louis office following its acquisition of Vertecon in 2002. Ms. Henely was the General Manager of the St. Louis office and the Vice President for the Company's largest business group, which included several local and national business units along with the Company's offshore development center in China. Prior to her appointment to Chief Operating Officer she actively participated in the due diligence and integration of several acquisitions within her business group. Additionally, she led the establishment of the Strategic Advisory Team and Corporate Recruiting organization. Ms. Henely received her M.S. in Computer Science from the University of Missouri-Rolla and her B.S. in Computer Science from the University of Iowa.

Paul E. Martin joined the Company in August 2006 as Chief Financial Officer, Treasurer and Secretary. From August 2004 until February 2006, Mr. Martin was the Interim co-Chief Financial Officer and Interim Chief Financial Officer of Charter Communications, Inc. ("Charter"), a publicly traded multi-billion dollar revenue domestic cable television multi-system operator. From April 2002 through April 2006, Mr. Martin was the Senior Vice President, Principal Accounting Officer and Corporate Controller of Charter, and was Charter's Vice President and Corporate Controller from March 2000 to April 2002. Prior to Charter, Mr. Martin was Vice President and Controller for Operations and Logistics for Fort James Corporation, a manufacturer of paper products with multi-billion dollar revenue. From 1995 to February 1999, Mr. Martin was Chief Financial Officer of Rawlings Sporting Goods Company, Inc., a publicly traded multi-million dollar revenue sporting goods manufacturer and distributor. Mr. Martin received a B.S. degree with honors in accounting from the University of Missouri – St. Louis. Mr. Martin is also a member of the board of the St. Louis chapter of Autism Speaks.

FIRST AMENDMENT TO CREDIT AGREEMENT

THIS FIRST AMENDMENT TO CREDIT AGREEMENT (this "Amendment"), effective as of the 16th day of February, 2018 (the "Effective Date"), is entered into by and among PERFICIENT, INC., a Delaware corporation (the "Borrower"), the Subsidiary Guarantors (as defined in the Credit Agreement defined below) party hereto, the Lenders (as hereinafter defined) party hereto and WELLS FARGO BANK, NATIONAL ASSOCIATION, as administrative agent for the Lenders (the "Administrative Agent").

RECITALS

WHEREAS, the Borrower, the lenders party thereto (the "Lenders") and the Administrative Agent entered into that certain Credit Agreement dated as of June 9, 2017 (as amended, restated, supplemented or otherwise modified from time to time, the "Credit Agreement");

WHEREAS, the Borrower has requested that the Administrative Agent and the Lenders amend certain provisions of the Credit Agreement; and

WHEREAS, said parties are willing to so amend the Credit Agreement subject to the terms and conditions set forth herein.

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants set forth in this Amendment, the Borrower, the Subsidiary Guarantors, the Lenders and the Administrative Agent agree as follows:

1. Defined Terms. Unless otherwise defined herein, capitalized terms used herein have the meanings assigned to them in the Credit Agreement.
2. Amendment to Credit Agreement. Section 7.2 of the Credit Agreement is hereby amended to restate clause (b) thereof in its entirety as follows:

“(b) reserved;”

3. Ratification. Each of the Borrower and the Subsidiary Guarantors hereby ratifies all of its obligations under the Credit Agreement and each of the Loan Documents to which it is a party, and agrees and acknowledges that the Credit Agreement and each of the Loan Documents to which it is a party are and shall continue to be in full force and effect as modified by this Amendment. Except as provided herein, nothing in this Amendment extinguishes, novates or releases any right, claim, lien, security interest or entitlement of any of the Lenders or the Administrative Agent created by or contained in any of such documents nor is the Borrower or any Subsidiary Guarantor released from any covenant, warranty or obligation created by or contained herein or therein.

4. Representations and Warranties. Each of the Borrower and the Subsidiary Guarantors hereby represents and warrants to the Administrative Agent and the Lenders that (a) this Amendment has been duly executed and delivered on behalf of each of the Borrower and the Subsidiary Guarantors, (b) this Amendment constitutes a valid and legally binding agreement enforceable against each of the Borrower and the Subsidiary Guarantors in accordance with its terms, subject to applicable bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium or other laws affecting creditors' rights generally and subject to general principles of equity, regardless of whether considered in a proceeding in equity or at law, (c) the representations and warranties contained in the Credit Agreement and the Loan Documents are true and correct on and as of the date hereof in all material respects as though made as of the date hereof (except for any such representation and warranty that by its terms is made only as of an earlier date, which representation and warranty shall remain true and correct in all material respects as of such earlier date); provided that, in each case, any representation or warranty that is qualified as to "materiality", "Material Adverse Effect" or similar language shall be true and correct in all respects on such respective dates, (d) no Default or Event of Default exists under the Credit Agreement or under any Loan Document and (e) the execution, delivery and performance of this Amendment has been duly authorized by each of the Borrower and the Subsidiary Guarantors.
-

5. Conditions to Effectiveness. This Amendment shall be effective on the Effective Date upon satisfaction of the following conditions:

(a) receipt by the Administrative Agent of counterparts of this Amendment executed by the Borrower, the Subsidiary Guarantors and the Required Lenders; and

(b) payment of all fees, charges and disbursements of counsel to the Administrative Agent (directly to such counsel if requested by the Administrative Agent) to the extent accrued and unpaid prior to or on the Effective Date.

6. Counterparts. This Amendment may be signed in any number of counterparts, which may be delivered in original, electronic or facsimile form each of which shall be construed as an original, but all of which together shall constitute one and the same instrument.

7. Governing Law. This Amendment shall be governed by, and construed in accordance with, the law of the State of New York.

8. Final Agreement of the Parties. Any previous agreement among the parties with respect to the subject matter hereof is superseded by the Credit Agreement, as modified by this Amendment. Nothing in this Amendment, express or implied is intended to confer upon any party other than the parties hereto any rights, remedies, obligations or liabilities under or by reason of this Amendment.

9. Amendment is a Loan Document; References to Credit Agreement. This Amendment is a Loan Document, as defined in the Credit Agreement. All references in the Credit Agreement to "this Agreement" shall mean the Credit Agreement as amended by this Amendment.

[Signature Pages Follow]

IN WITNESS WHEREOF, the parties hereto have caused this Amendment to be executed by their respective officers thereunto duly authorized as of the Effective Date.

Consent of Independent Registered Public Accounting Firm

The Board of Directors
Perficient, Inc.:

We consent to the incorporation by reference in the registration statements (Nos. 333-130624, 333-157799, 333-160465, 333-183422, 333-198589, and 333-219660) on Form S-8 of Perficient, Inc. and subsidiaries (the "Company") of our report dated March 1, 2018, with respect to the consolidated balance sheets of the Company as of December 31, 2017 and 2016, and the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2017, and the related notes (collectively, the "consolidated financial statements"), and the effectiveness of internal control over financial reporting as of December 31, 2017, which report appears in the December 31, 2017 annual report on Form 10-K of the Company.

Our report dated March 1, 2018 on the effectiveness of internal control over financial reporting as of December 31, 2017 contains an explanatory paragraph that states the Company acquired substantially all of the assets of Clarity Consulting, Inc. and Truth Labs, LLC (together, "Clarity") in June 2017, and management excluded from its assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2017, Clarity's internal control over financial reporting associated with 9% and 4% of the Company's total assets and total revenues, respectively, included in the consolidated financial statements of the Company as of and for the year ended December 31, 2017. Our audit of internal control over financial reporting of the Company also excluded an evaluation of the internal control over financial reporting of Clarity.

CERTIFICATIONS

I, Jeffrey S. Davis, certify that:

1. I have reviewed this annual report on Form 10-K of Perficient, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
