Chairman's Review

Teresa Handicott

I am delighted to present to you PWR's 2019 annual report.

The solid performance of the Group has been made possible by investments made in people and equipment over the past 18 months. Despite a high capital investment program, our return on equity has improved to 26.8%, up from 23.7% in the prior comparative period.

The Group delivered a 29% increase in statutory net profit after tax (NPAT) and a 17% increase in underlying NPAT to \$14.2m which was another record for PWR.

Improved working capital management has resulted in an EBITDA to cash conversion ratio of 102.9% and a strong cash balance at 30 June 2019 of over \$20.2m with overall net cash.

Considering these results and improved balance sheet position, the Board has declared:

- a final dividend of 6.9 cents per share which is an increase of over 11% on the prior year final dividend of 6.2 cents per share; and
- a special dividend of 3.0 cents per share.

The full year dividend for FY19 increased to 11.5 cents per share, up from 7.3 cents per share in the prior year, an increase of 58%.

Managing growth efficiently is a central pillar for the next two years as management execute the strategic plan. This includes further investment in leading edge manufacturing equipment and technologies including an additive manufacturing machine, a 3D CT scanner and a vacuum furnace.

Capitalising on this growth requires solid foundations and an efficient corporate support structure. The Group has already started investing in cyber security, IT infrastructure and systems and processes to ensure ongoing growth is both executed and managed effectively and efficiently.

Diversification has been a key focus of your Board and this strategy appears to be coming to fruition with solid progress being made in categories outside of motorsport. Deliveries under our OEM contracts have commenced with deliveries for the Ford GT500 program of 8,000 vehicles under way. Micro matrix and cold plate technologies are also showing encouraging sales in the emerging technologies category.

The successes of the past year has been rewarding for staff, management and directors and I take this opportunity to thank all employees at PWR.

On behalf of your Board, I would like to thank all shareholders for their continued support of PWR.

Managing Director's Review

Kees Weel

The 2019 financial year has been another record year for PWR.

REVENUE

Group revenue for FY19 was up significantly at 26% with Europe being the stand out performer whose growth was over 40%. This significant increase was offset by the reduction in revenue at C&R resulting from the exit from non-cooling related operations whose revenue was included in the prior year comparative period.

Favourable foreign currency movements during FY19 accounted for 5% of the revenue growth.

C&R is now a fully operational manufacturing facility which successfully completed a significantly higher volume of production throughput for the Group with inter segment sales increasing from \$0.38m in FY18 to \$4.0m in FY19. Leveraging this production capability and capacity for the Group will be a key focus area in FY20 and beyond.

Motorsport has been a major driver of the higher revenue in FY19 and further growth is expected albeit at a lower rate of growth than that achieved in FY19. The OEM and emerging technology segments are expected to see continued sales increases in FY20.

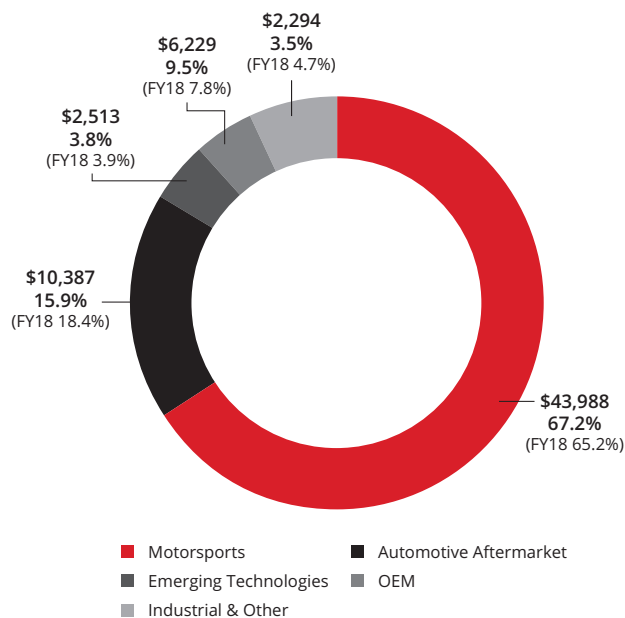

THIRD PARTY REVENUE BY CURRENCY

Growth Rates	FY19	FY18	Change
Motorsports	\$43,988	\$33,850	30%
Automotive Market	\$10,387	\$9,530	9%
Emerging Technologies	\$2,513	\$2,023	24%
OEM	\$6,229	\$4,027	55%
Industrial & Other	\$2,294	\$2,459	-7%
	\$65,411	\$51,889	26%

Managing Directors' Report

continued

PWR AUSTRALIA AND EUROPE

PWR continues to supply the majority of motorsport categories with cooling technology and this continues to be our primary category as noted in the graphical analysis above. The Australian and European operations have performed exceptionally well in FY19 in this category.

OEM PROGRAMMES

The previously announced OEM programmes have commenced production at C&R which has the capacity to deliver current programs and future OEM growth. OEM programmes are expected to be an important source of growth for PWR.

CASHFLOW

Our working capital management has improved at 30 June 2019 which, combined with higher revenues, has resulted in a cash balance of over \$20m at 30 June 2019. Your directors are conscious of the need to balance returning funds to shareholders and retaining funds to finance future growth plans and opportunities. We believe we have achieved a balanced outcome for both shareholders and expected future business requirements by declaring a special dividend of 3.0 cents per share.

Our EBITDA to cash conversion ratio was 102.9% which is a significant improvement over FY18.

TECHNOLOGY DEVELOPMENTS

The introduction of advanced technologies into our manufacturing processes will ensure we remain at the forefront of manufacturing capability and complexity for both existing customers as well as potential new customers and industries.

Our new products have been extensively tested and have recently been commercialised with initial sales commencing. These new products provide compelling solutions to new industries and initial sales have been made to customers in both aerospace and military segments.

THE FUTURE

Visibility of our growth potential for the next two to three years is now better than what we have previously had which allows us to invest with confidence.

PWR now has over 300 team members globally. Staff numbers are expected to increase further, although at a lower rate given our focus on productivity and efficiency.

Exchange rates will continue to affect results and this is inherent in the nature of our business. Our treasury policy has been further revised and, as at 30 June 2019, GBP forward cover of £10.65m is in place through to June 2020, thereby reducing the risk of foreign exchange fluctuations materially impacting our FY20 financial results.

Staff go beyond what is expected of them on a regular basis and I thank them for the dedication and commitment which is so often demonstrated.

Thank you to shareholders, customers and staff for your continued support and I am looking forward to working with PWR and C&R staff this year with the objective of making FY20 another record year on all fronts.

4. PRINCIPAL ACTIVITIES

The Company's registered office and principal place of business is 103 Lahrs Road, Ormeau, Queensland 4208.

The principal activities of the Group during the year were the design, prototyping, production, testing, validation and sales of advanced cooling products and solutions to the motorsports, automotive original equipment manufacturing ("OEM"), automotive aftermarket and emerging technologies sectors for domestic and international markets.

Other than items outlined in the Operating and Financial review, there were no significant changes in the nature of the activities of the Group during the year.

5. OPERATING AND FINANCIAL REVIEW (continued)

Underlying Profit and Loss Summary

A reconciliation of underlying EBITDA¹ to the reported profit before tax in the consolidated statement of profit or loss and other comprehensive income is as follows:

	FY19 A\$'000	FY18 A\$'000
Profit for the period before tax	19,836	14,688
Add: loss on sale and write down of assets held for sale	-	856
Add: settlement of distribution agreement dispute	-	413
Add: net finance costs	(543)	(18)
Add: depreciation & amortisation	2,470	1,666
Underlying EBITDA ¹	21,763	17,605

¹ Earnings Before Interest, Tax, Depreciation and Amortisation ("EBITDA") is a non-IFRS term which has not been subject to audit or review but has been determined using information presented in the annual financial report.

The prior year (FY18) statutory profit and loss includes the C&R deferred tax adjustment and several items arising from the restructuring and repositioning of the operations at C&R in the USA none of which are expected to reoccur. These items are as follows:

- \$0.85 million (\$0.63m after tax) for the loss on sale and write down in the carrying value of assets held for sale in the USA the majority of which were disposed of in April 2018.
- \$0.41 million (\$0.3m after tax) for the termination of a distribution agreement
- \$0.18 million charge to income tax expense for the decrease in the net deferred tax balance in the USA following their reduction in their federal corporate tax rate from 35% to 21%.

Incorporating the above items, underlying results are as follows:

Underlying Profit and Loss Summary

	FY19 A\$'000	FY18 A\$'000	FY18 to FY19
Underlying revenue	65,411	51,889	26.1%
Underlying EBITDA	21,763	17,605	23.6%
Underlying EBITDA margin	33.3%	33.9%	(1.8%)
Underlying net profit after tax	14,206	12,115	17.3%
Underlying operating cash flow	22,397	16,639	34.6%
Underlying earnings per share	14.21 cents	12.11 cents	17.3%

Revenue

The Group achieved overall revenue growth of 26.1% compared to the prior corresponding period. Organic revenue growth of 21.5% was supplemented by exchange rate movements of 4.6%.

The above growth was primarily driven out of Europe where sales increased by 40%. Sales in the Australian and American markets were static although activity at both these manufacturing operations increased significantly to support the increased sales in Europe.

With reporting in Australian dollars, exchange rate fluctuations have seen the GB pound being 1.7% stronger at 30 June 2019 and the US dollar being 4.7% stronger compared to the prior period. In addition, average rates during the financial year saw a US dollar being 7.7% stronger and the pound 4.2% stronger.

The net impact of exchange rate movements had a favourable impact on revenue for the year of \$2,345,523 (2018: \$615,395).

Directors' Report

For the year ended 30 June 2019

5. OPERATING AND FINANCIAL REVIEW (continued)

EBITDA

In addition to the positive impact on revenue of foreign exchange rates mentioned above, the higher EBITDA in FY19 compared to the prior corresponding period was mainly due to:

- Overall revenue growth at consistent margins;
- Production and overhead costs increasing consistently with sales volume increases; and
- Administration and overhead costs increasing at a lower rate than sales and EBITDA increases supporting the higher revenue and margins generated.

Net profit after tax

Net profit after tax of the Group for the year ended 30 June 2019 was \$14.21 million. The 2018 NPAT of \$11.00 million, included the recognition of \$1.1 million (after tax) of one-off expenses in relation to the changes to Federal corporate tax rates in the USA, the loss on sale and write down of the C&R non core non cooling business and costs associated with the termination of a distribution agreement at C&R.

Operating cash flow

The Group continued its strong cash conversion rate with FY19 operating cash flow of \$22.4 million, a conversion of 102.9% from EBITDA. This high EBITDA to cash conversion rate is due primarily to improved working capital management.

Foreign currency

The Group is exposed to movements in foreign exchange rates, with consolidated revenue generated in various currencies (using average exchange rates through the reporting period) as outlined below:

	FY19	FY18
British pounds (GBP)	66.7%	57.6%
US dollars (USD)	20.7%	25.4%
Australian dollars (AUD)	12.6%	17.0%

Balance sheet management

The balance sheet remains strong with cash of \$20.2 million (2018: \$12.1 million).

Working capital utilisation has improved with the working capital cycle reducing from 122 days at 30 June 2018 to 86 days at 30 June 2019 contributing to a higher year end cash balance.

Capital expenditure for the year was \$5.9 million (FY18: \$5.2 million) which completed the majority of the capital investment program announced in April 2018.

Our strong balance sheet can support ongoing expected capital expenditure for potential future growth opportunities whilst still having access to available financing facilities. With the improved working capital position, expected future capital investment requirements and the ongoing strong contribution of EBITDA to operating cash flows, the Board has declared a Special 2019 dividend of 3.00 cents per share in addition to the Final 2019 dividend of 6.90 cents per share.

Review of operating segments

The Group has two operating segments, PWR Performance Products which comprises its Australian and European operations, and C&R which comprises its USA operations.

The PWR Performance Products segment generated external revenue of \$52.50 million (2018: \$39.07 million), primarily arising from increased market penetration in the motorsports sector in the United Kingdom and Europe.

The C&R segment generated external revenue of \$12.91 million (2018: \$12.81 million). This is a positive development considering FY18 revenue included \$1.29 million of revenue for the now exited non-core, non cooling components of C&R's business.

Review of principal businesses

During the year ended 30 June 2019, in addition to the items outlined above, the Group:

- Continued to be appointed cooling assembly supplier for additional OEM programs;
- Released our new Micro Matrix and cold plate technology products;
- Completed the majority of its capital program of works providing additional capacity;
- Was awarded a grant from the State Government of over \$1m from the Made in Queensland program;
- Commenced prototype supplies into new industries including aerospace and the military.

Directors' Report

For the year ended 30 June 2019

5. OPERATING AND FINANCIAL REVIEW (continued)

Business risks

PWR recognises the importance of, and is committed to, the identification, monitoring and management of material risks associated with its activities. The following information sets out the material risks of PWR which are kept under review and actively managed within PWR's risk management framework. These are not in any particular order.

Strategic	<ul style="list-style-type: none">- Loss of key management personnel- Damage to or dilution of PWR brand- Consequences of BREXIT
Operational	<ul style="list-style-type: none">- Loss of critical supply inputs or infrastructure- Threats from cyber security breaches- Loss of intellectual property protection- Reduction in product quality standards- Loss of data security and integrity
Financial	<ul style="list-style-type: none">- Currency volatility

Significant changes in the state of affairs

Other than as outlined in the operating and financial review, there were no significant changes in the state of affairs of the Group during the year.

6. DIVIDENDS

Dividends paid or declared by the Company to members since the end of the previous financial year were:

Declared and paid during the year	Cents per share	Total amount \$	Date of payment
Final 2018 ordinary	6.20	6,200,000	14 September 2018
Interim 2019 ordinary	1.60	1,600,000	5 April 2019
Total amount		7,800,000	

Declared after end of year

The following dividend was declared by the Directors since the end of the financial year:

	Cents per share	Total amount \$	Date of payment
Final 2019 ordinary dividend	6.90	6,900,000	19 September 2019
Special 2019 dividend	3.00	3,000,000	19 September 2019
Total amount		9,900,000	

The financial effect of these dividends have not been brought to account in the consolidated financial statements for the year end 30 June 2019 and will be recognised in subsequent financial reports. There is no dividend re-investment plan in operation.

7. LIKELY DEVELOPMENTS

The Group will continue its strategy of increasing profitability and market share within existing markets and pursue opportunities in emerging markets during the next financial year.

Further information about likely developments in the operations of the Group and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Group.

8. EVENTS SUBSEQUENT TO REPORTING DATE

The Board declared a fully franked final 2019 ordinary dividend of 6.90 cents per share and a special fully franked 2019 dividend of 3.00 cents per share. The financial effect of these dividends have not been brought to account in the consolidated financial statements for the year ended 30 June 2019.

Directors' Report

For the year ended 30 June 2019

8. EVENTS SUBSEQUENT TO REPORTING DATE (continued)

Other than the matter noted above, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, in future financial years.

9. ROUNDING OF AMOUNTS

The Company is of a kind referred to in ASIC Corporations Instrument 2016/191 issued by the Australian Securities and Investment Commission, relating to the "rounding off" of amounts in the Directors' Report. Amounts in the Directors' Report have been rounded off in accordance with that Instrument to the nearest thousand dollars unless otherwise stated.

10. ENVIRONMENTAL REGULATION

The Group is not subject to any significant environmental regulations.

11. INDEMNIFICATION AND INSURANCE OF OFFICERS

The Group has indemnified the Directors and Executives for costs incurred, in their capacity as a Director or Executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Group paid insurance premiums in respect of a contract to insure the Directors and Executives of the Group against a liability to the extent permitted by the *Corporations Act 2001*. The insurance contract prohibits disclosure of the nature of liability and the amount of the premium.

12. PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

13. NON-AUDIT SERVICES

During the year KPMG, the Group's auditor, has performed certain other services in addition to the audit and review of the financial statements.

The Board has considered the non-audit services provided during the year by the auditor and in accordance with written advice provided by resolution of the audit committee, is satisfied that the provision of those non-audit services during the year by the auditor is compatible with, and did not compromise, the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- all non-audit services were subject to the corporate governance procedures adopted by the Group and have been reviewed by the audit committee to ensure they do not impact the integrity and objectivity of the auditor; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants, as they did not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Group, acting as an advocate for the Group or jointly sharing risks and rewards.

Details of the amounts paid to the auditor of the Group, KPMG, and its network firms for audit and non-audit services provided during the year are set out below.

In dollars	2019
Services other than audit and review of financial statements:	
IT advisory services	39,607
Audit and review of financial statements	147,500
Total paid to KPMG	187,107

14. LEAD AUDITOR'S INDEPENDENCE DECLARATION

The lead auditor's independence declaration is set out on page 21 and forms part of the directors' report for the financial year ended 30 June 2019.

15. DIRECTORS' INTERESTS

Details of the Directors' interests in the securities of the Company are disclosed in the remuneration report. At the date of this report their holdings do not differ from the amount held at 30 June 2019.

Directors' Report

For the year ended 30 June 2019

16. REMUNERATION REPORT – AUDITED

The information provided in this Remuneration Report has been prepared in accordance with section 300A of the *Corporations Act 2001 (Cth)*.

A. Key Management Personnel

The remuneration report outlines remuneration for those people considered to be Key Management Personnel (KMP) of the Group during the Reporting Period. KMP are persons having authority and responsibility for planning, directing and controlling the activities of the Group.

KMP consist of:

- Non-Executive Directors; and
- Executive Directors and certain senior executives.

The table below summarises details of KMP of the Group that were KMP on 30 June 2019 or who were KMP during the financial year ended 30 June 2019, their roles and appointment/cessation dates.

Key Management Personnel during the Reporting Period

¹ Jim Ryder, General Manager USA and Andy Burton, General Manager Europe became KMP effective 1 January 2018 following an organisational restructure. Mr Burton was a consultant to PWR Europe Ltd prior to his appointment date.

B. Remuneration Governance

The following shows the Board's framework to establish and review remuneration for KMP and employees of the Group:

Board	Approves the overall remuneration framework and policy, ensuring it is fair, transparent and aligned with long term outcomes
Nomination and Remuneration Committee ("NRC")	NRC is delegated to review and make recommendations to the Board on remuneration policies for non-executive directors, senior executives and all employees including incentive arrangements and awards. The NRC can appoint remuneration consultants and other external advisors to provide independent advice
Managing Director	Provides all relevant information to the NRC to facilitate the NRC making recommendations to the Board on remuneration decisions

Directors' Report

For the year ended 30 June 2019

16. REMUNERATION REPORT – AUDITED (continued)

C. Non-Executive Director Remuneration

C1. Policy

A copy of the remuneration policy for Non-Executive Directors is available on the Group's website. The Board's Non-Executive Director remuneration policy is to:

- Provide a clear fee arrangement that avoids potential conflicts of interest associated with performance incentives,
- Remunerate Directors at market rates for their commitment and responsibilities, and
- Obtain independent external remuneration advice when required.

Non-Executive Directors receive remuneration for undertaking their role. They do not participate in the Group's incentive plans or receive any variable remuneration. Non-Executive Directors are not entitled to retirement payments.

The aggregate Non-Executive Director remuneration cap approved by shareholders in 2016 is \$750,000 per annum (inclusive of superannuation contributions). The Board determines the distribution of Non-Executive Director fees within the approved remuneration cap.

C2. Remuneration of Non-Executive Directors during Reporting Period

The following table sets out the annual Board and Committee fees (inclusive of superannuation) for Non-Executive Directors during the reporting period.

Role	Timeframe	Director Fees per annum
Chairman	Reporting Period	\$150,000
Non-Executive Director	Reporting Period	\$95,000
Audit and Risk Committee Chairman	Reporting Period	\$20,000
Nomination and Remuneration Committee Chairman	Reporting Period	\$20,000

D. Executive Director and Senior Executive Remuneration

D1. Remuneration policy for senior executives

The Board's policy for determining the nature and amount of remuneration for the Managing Director and other senior executives is:

- Provide for both fixed and performance based remuneration,
- Provide a remuneration package based on an annual review of employment market conditions, the Group's performance and individual performance, and
- Obtain independent external remuneration advice when required.

The remuneration framework for senior executives comprises two elements:

1. Fixed remuneration; and
2. "At risk" or performance linked remuneration.

D1.1 Fixed remuneration

Fixed remuneration is a function of size and complexity of the role, individual responsibilities, experience, skills and market pay levels. This consists of cash salary, salary sacrifice items, employer superannuation, annual leave provisions and any fringe benefits tax charges related to employee benefits. Superannuation is paid at the relevant statutory rate. The opportunity to salary sacrifice superannuation benefits on a tax-compliant basis is available upon request.

The Board determines an appropriate level of fixed remuneration for the senior executives with recommendations from the Nomination and Remuneration Committee.

Fixed remuneration is reviewed annually following performance reviews at the end of the financial year and takes into account the role and accountabilities, relevant market benchmarks and attraction, retention and motivation of executives in the context of the talent market.

The Managing Director and senior executives did not receive increases to their fixed remuneration during the Reporting Period.

D1.2 Performance linked remuneration

Short-term incentive plan

The Managing Director and senior executives are eligible to participate in the Group's short-term incentive plan.

Under the plan, participants have an opportunity to receive an annual cash bonus calculated as a percentage of their total fixed remuneration ("TFR") and conditional on the achievement of short-term financial and non-financial performance measures at a corporate and individual level. For the year ended 30 June 2019, the operation of the short term-incentive plan had a NPAT target, established by the Board at the commencement of the Reporting Period, to trigger its operation, which was achieved by PWR but not at C&R. Individual and corporate key performance measures (KPI's), established at the beginning of the reporting period, are then measured against actual performance for the period. The corporate KPI's include measures on revenue, profitability, safety and quality all of which are key metrics for the Group's collective success. Short-term incentives were awarded to the Managing Director and senior executives of PWR (but not C&R) as outlined below.

Analysis of cash bonuses included in remuneration

The Board awarded the Managing Director and senior executives the following cash bonuses for the Reporting Period:

Employed at 30 June 2018	Position	Max Potential Bonus % TFR	Actual Bonus % TFR	Bonuses included in FY19 remuneration
Kees Weel	Managing Director	50%	44%	\$168,630
Stuart Smith	Chief Financial Officer	30%	26%	\$72,270
Matthew Bryson	General Manager, Engineering	30%	26%	\$72,270
Jim Ryder ⁽ⁱ⁾	General Manager, USA	30%	–	–
Andrew Burton ⁽ⁱⁱ⁾	General Manager, Europe	20%	16%	\$40,000

(i) Employed by C&R Racing Inc and remunerated in USD. The AUD equivalent is shown above.

(ii) Employed by PWR Europe and remunerated in GBP. The AUD equivalent is shown above.

Long-term incentive plan

Shareholders approved the implementation of a long-term incentive plan ("LTIP") at the 2016 Annual General Meeting ("AGM").

The LTIP is an equity-based incentive designed to provide participants with the incentive to deliver growth in shareholder value. Senior Executives receive performance rights ("Rights") on an annual basis under the Performance Rights Plan, subject to the approval of the Board. The Managing Director is entitled to receive Performance Rights on an annual basis under the Performance Rights Plan, subject to approval of shareholders. A grant of Rights was made to Senior Executives in the 2019 financial year. No Rights were issued to the Managing Director in the current or prior year.

Rights convert to ordinary shares in the Company on a one-for-one basis at the end of the three-year performance period depending on the extent to which performance hurdles are achieved and service conditions met.

Directors' Report

For the year ended 30 June 2019

16. REMUNERATION REPORT – AUDITED (continued)

The performance hurdles are the achievement of Total Shareholder Return (“TSR”) ranking criteria relative to the TSR of constituents of the S&P/ASX300 (excluding mining and exploration entities) and growth in annual Earnings Per Share (“EPS”) relative to a target set by the Board. Participants must remain continually employed with the Company until the date of vesting. Vesting on each tranche is as follows:

TSR Ranking (50%)		EPS Growth (50%)	
The percentage of Performance Rights linked to TSR will be 50%. TSR is calculated by an independent third party, comparing the TSR percentile rank that the Company holds relative to all S&P ASX 300 constituent companies (excluding Energy sector (oil, gas and coal)) for the relevant 3-year Performance Period.		The percentage of the Performance Rights linked to the EPS hurdle will be 50%. Vesting is determined by the growth in EPS from the financial year immediately prior to the start of the Performance Period (base year) to the end of the third year of the Performance Period, measured against specific EPS targets outlined below.	
TSR Ranking	Vesting outcome	EPS	Vesting outcome
TSR is 50% or less	Nil vesting	EPS growth is 4% or less	Nil vesting
TSR is more than 50% but less than 75%	Rateable vesting between 20% and 99%	EPS growth is more than 4% but less than 12%	Rateable vesting between 50% and 99%
TSR is 75% or more	100% vesting	EPS growth is 12% or more	100% vesting

Rights that do not vest at the end of the three-year period lapse, unless the Board in its discretion determines otherwise. Upon cessation of employment prior to the vesting date, Rights will be forfeited and lapse. Rights do not entitle holders to dividends that are declared during the vesting period. The Board believes that performance hurdles, in combination, serve to align the interests of the individual senior executives with the interests of the Company's shareholders.

E. Company performance and remuneration outcomes

The various components of the way the Group remunerates key management personnel have been structured to support the Group's strategy and business objectives which in turn are designed to generate shareholder wealth.

When setting targets and determining the quantum of the remuneration increases and the proportion of fixed and performance linked remuneration components, the Board refers to remuneration benchmarking reports provided by independent sources and remuneration consultants from time to time.

The at risk component (short-term incentive plan and long-term incentive plan) of the remuneration structure intends to reward achievement against Group and individual performance measures over one year and three-year timeframes, respectively.

The table below summarises the Group's performance in recent financial years ending 30 June:

	Note	2019 \$'000	2018 \$'000	2017 \$'000	2016 \$'000

F. Contract duration and termination requirements

The Company has contracts of employment with no fixed tenure requirements with the Managing Director and senior executives. The notice period for each is outlined in the table below. Termination with notice may be initiated by either party. The contracts contain customary clauses dealing with immediate termination for gross misconduct, confidentiality and post-employment restraint of trade provisions.

Name	Position	Notice Period
Executive Director		
Kees Weel	Managing Director	6 months
Senior Executives		
Stuart Smith	Chief Financial Officer	3 months
Matthew Bryson	General Manager, Engineering	3 months
Andrew Burton	General Manager, Europe	3 months
Jim Ryder	General Manager, USA	3 months

G. Services from remuneration consultants

The Nomination and Remuneration Committee (NRC) engaged Godfrey & Associates (Godfrey) as remuneration consultant to the board to review the amount and elements of the key management personnel remuneration and provide recommendations in relation thereto.

Godfrey was paid \$10,000 for the remuneration recommendations in respect of reviewing the amount and elements of remuneration. Godfrey did not provide any other services.

The engagement of Godfrey by the NRC was based on a documented set of protocols that would be followed by Godfrey, members of the NRC, and members of the key management personnel for the way in which remuneration recommendations would be developed by Godfrey and provided to the board.

The protocols included the prohibition of Godfrey providing advice or recommendations to key management personnel before the advice or before Godfrey's recommendations were given to members of the NRC and not unless Godfrey had approval to do so from members of the NRC.

These arrangements were implemented to ensure that Godfrey would be able to carry out its work, including information capture and the formation of its recommendations, free from undue influence by members of the key management personnel about whom the recommendations may relate.

The board is satisfied that the remuneration recommendations were made by Godfrey free from undue influence by members of the key management personnel about whom the recommendations may relate.

The board undertook its own inquiries and review of the processes and procedures followed by Godfrey during the course of its assignment and is satisfied that its remuneration recommendations were made free from undue influence.

These inquiries included arrangements under which Godfrey was required to provide the board with a summary of the way in which it carried out its work, details of its interaction with key management personnel in relation to the assignment and other services and respond to questioning by members of the board after the completion of the assignment.

The results of this review have been implemented in the financial year beginning 1 July 2019 (FY20) and there is no impact on the reported results for the Reporting Period.

L. Key management personnel transactions

KMP, or their related parties, may hold positions in other entities that result in them having control, or joint control, over the financial or operating policies of those entities.

These entities may transact with the Group. The terms and conditions of the transactions with KMP and their related parties were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-key management personnel related entities on an arm's length basis.

From time to time, directors of the Group, or their related entities, may purchase goods from the Group. These purchases are on the same terms and conditions as those entered into by other Group employees or customers and are trivial or domestic in nature.

PWR Holdings Limited (the "Company") is a Company domiciled in Australia.

The consolidated financial statements of the Company as at and for the year ended 30 June 2019 comprise the Company and its subsidiaries (together referred to as the "Group" and individually as "Group Entities").

The Group is involved in the design, engineering, testing, production, validation and sale of customised cooling products and solutions to the motorsports, automotive original equipment manufacturing, automotive aftermarket and emerging technologies sectors for domestic and international markets.

The Company's registered office and principal place of business is 103 Lahrs Road, Ormeau, Queensland 4208.

The Group is a for-profit entity for the purposes of preparing these financial statements.

A2 Basis of preparation

(a) Statement of compliance

The consolidated financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (AASBs) adopted by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The consolidated financial statements comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB).

The Company is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and in accordance with that instrument, amounts in the Financial Report and Directors' Report have been rounded off to the nearest thousand dollars, unless otherwise stated.

The financial statements were approved by the Board of Directors on 29 August 2019.

(b) Functional and presentation currency

These consolidated financial statements are presented in Australian dollars, which is the Company's functional currency.

(c) Use of estimates and judgements

The preparation of consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of the entities within the Group. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about critical judgements, estimates and assumptions in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements is included in the Notes C3 (Inventories) and C6 (Intangible assets).

A3 Significant accounting policies

Apart from the first time adoption of AASB 9 and AASB 15 as described in Note H5, the accounting policies set out in Section I to the consolidated financial statements have been applied consistently to all periods presented in these consolidated financial statements.

SECTION C OPERATING ASSETS AND LIABILITIES (continued)

Impairment

For the purpose of impairment testing, goodwill and trademarks are allocated to the Group's cash generating units (CGUs) as follows:

	PWR Performance Products		C&R	
	2019 \$'000	2018 \$'000	2019 \$'000	2018 \$'000
Goodwill	1,904	1,904	1,348	1,213
Trademarks	8,432	8,432	2,553	2,553
	10,336	10,336	3,901	3,766

For the purpose of impairment testing, the recoverable amount of each CGU was based on its value in use, determined by discounting the future cash flows to be generated from the continuing use of each CGU. The carrying amount of each CGU was determined to be less than its recoverable amount and accordingly, no impairment loss was recognised.

Value in use is calculated based on the present value of the cash flow projections over a five year period and include a terminal value at the end of year five. The cash flow projections over the five year period are based on the Group's budget for 2020 and growth over the forecast periods based on the Group's business plans and management's assessment of the impacts of underlying economic conditions, past performance and other factors on each CGU's financial performance. For the C&R CGU, the cashflow projections include management's estimate of the expected growth from C&R's involvement in OEM programs as a cooling assembly supplier as well as growth into the automotive aftermarket. The long term growth rate used in calculating the terminal value is based on long term inflation estimates for the country and industry in which each CGU operates.

The cash flows are discounted to their present value using a pre-tax discount rate based on a weighted average cost of capital adjusted for country and industry specific risks associated with each CGU.

Key assumptions used in the estimation of value in use were:

	2019 %	2018 %
PWR Performance Products		
Discount rate – pre tax	14.6%	16.4%
Terminal value growth rate	2.0%	2.0%
Revenue – compound annual growth rate	2.0%	2.0%
Average EBITDA margin	35.7%	35.7%
C&R		
Discount rate – pre tax	13.5%	13.7%
Terminal value growth rate	2.0%	2.0%
Revenue – compound annual growth rate	5.5%	5.6%
Average EBITDA margin	15.1%	17.3%

C7 Trade and other payables

Trade and other payables are carried at amortised cost.

	2019 \$'000	2018 \$'000
Trade payables	2,383	1,324
Other payables	2,429	2,073

Long service leave liability	187	100

During the year ended 30 June 2019, the Group contributed \$1,151,394 (2018: \$932,853) to defined contribution plans. These contributions are included in employee expenses in the statement of profit or loss and other comprehensive income.

D2 Key management personnel compensation

Key management personnel compensation comprised the following:

	2019 \$'000	2018 \$'000
Short-term employee benefits	2,067	1,955
Termination benefits	–	129
Post-employment benefits	132	125
Share based payments	155	84
Other long term benefits	9	9
	2,363	2,302

D3 Share based payments

During the year the Board granted performance rights to employees under the terms of the Performance Rights Plan (the Plan) approved at the Company's Annual General Meeting on 21 October 2016.

Under the Plan, the Board may issue employees conditional performance rights for no consideration. Subject to the achievement of vesting conditions, the performance rights entitle the employee to receive ordinary shares in the Company at no cost.

Vesting of the performance rights approved during the year is subject to meeting a 3 year service condition and achievement of performance hurdles (based on either an EPS growth target or total shareholder return (TSR) ranking). The performance period for the rights issued is from 1 July 2018 to 30 June 2021.

162,790 (2018: 158,364) performance rights were issued to key management personnel during the year with 50% subject to the EPS performance hurdle and 50% subject to the TSR performance hurdle. At 30 June 2019, all of these performance rights remain on issue.

In accordance with the Group's accounting policy, the grant date fair values of the rights issued will be recognised as an expense over the vesting period. An expense of \$219,000 (2018: \$75,518) was recognised during the year and included in "employee expenses" in the statement of profit or loss and other comprehensive income.

Notes to the Consolidated Financial Statements

For the year ended 30 June 2019

SECTION D EMPLOYEE BENEFITS (continued)

Measurement of fair values

The fair value of the TSR component of the performance rights has been measured using a Monte Carlo simulation. The fair value of the EPS component of the performance rights has been measured using the Black Scholes formula.

The inputs used in the measurement of the fair values at grant date of the equity-settled share-based payments were as follows:

	2019		2018	
	TSR component	EPS component	TSR component	EPS component
Fair value at grant date	\$1.82	\$2.68	\$0.87	\$2.43
Share price at grant date	\$2.90	\$2.90	\$2.20	\$2.20
Exercise price	Nil	N/A	Nil	N/A
Expected volatility	34%	N/A	40%	N/A
Risk free rate	2.03%	N/A	1.90%	N/A
Expected life	3 years	3 years	2.77 years	2.77 years
Expected dividends	2.66%	2.66%	2.20%	2.20%

Expected volatility has been based on an evaluation of the historical volatility of the Company's share price prior to the grant date.

G3 Deed of cross guarantee

Pursuant to ASIC Corporations (wholly-owned companies) Instrument 2016/785, the wholly owned subsidiaries listed below are relieved from the *Corporations Act 2001* requirements for the preparation, audit and lodgement of financial reports, and Directors' reports.

It is a condition of the Instrument that the Company and each of the subsidiaries enter into a Deed of Cross Guarantee. The effect of the Deed is that the Company guarantees to each creditor, payment in full of any debt in the event of winding up of any of the subsidiaries under certain provisions of the *Corporations Act 2001*. If a winding up occurs under other provisions of the Act, the Company will only be liable in the event that after six months any creditor has not been paid in full. The subsidiaries have also given similar guarantees in the event that the Company is wound up.

The subsidiaries subject to the Deed are:

PWR Performance Products Pty Ltd

PWR IP Pty Ltd

Both subsidiaries became a party to the Deed on 18 May 2017.

SECTION H OTHER INFORMATION

H1 Financial risk management

The Group has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

The note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group's risk management activities are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management activities are reviewed to reflect changes in market conditions and the Group's operations. The Group aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

Management assesses each new customer for creditworthiness before the Group's standard payment and delivery terms and conditions are offered.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the end of the reporting period was as follows.

		Carrying amount	
	Note	2019 \$'000	2018 \$'000
Cash and cash equivalents	C1	20,223	12,110
Trade and other receivables	C2	4,689	4,054
		24,912	16,164

Cash and cash equivalents

The Group held cash and cash equivalents of \$20,223,016 at 30 June 2019 (2018: \$12,110,095), which represents its maximum credit exposure on these assets. The cash and cash equivalents are held with bank and financial institution counterparties, which are rated A to AA-, based on independent rating agency ratings.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk of the country in which customers operate, as these factors may have an influence on credit risk.

Notes to the Consolidated Financial Statements

For the year ended 30 June 2019

SECTION H OTHER INFORMATION (continued)

Exposure to credit risk

The maximum exposure to credit risk for trade and other receivables at the end of the reporting period by geographic region was as follows:

	Carrying amount	
	2019 \$'000	2018 \$'000
Australia	647	1,084
UK	2,574	2,091
USA	1,468	879
	4,689	4,054

The ageing of the Group's trade and other receivables at the end of the reporting date was as follows:

Not past due	3,487	3,228
Past due 1-30 days	1,148	801
Past due 31-60 days	34	22
Past due > 61 days	20	3
	4,689	4,054
Provision for impairment	-	-
	4,689	4,054

Management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historic payment behaviour and analysis of customer credit risk.

No impairment losses were recognised in respect of trade and other receivables during the year (2018: Nil).

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

In addition, the Group maintains the following lines of credit: (refer Note F1)

- A\$10,000,000 foreign currency advance facility (multicurrency);
- A\$7,500,000 asset finance facility;
- A\$750,000 trade finance facility;
- A\$100,000 corporate credit card facility; and
- USD\$100,000 corporate credit card facility.

		3,880	(3,913)	(3,569)	(344)

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Group is exposed to currency risk on its financial assets and liabilities arising from sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of Group entities, being the Australian dollar (AUD), Pound Sterling (GBP) and US dollar (USD). The currencies in which these transactions are denominated are primarily AUD, GBP and USD.

Under the Group's financial risk management policies, the Group may use derivative financial instruments to manage its foreign currency risks. At 30 June 2019, the Group had entered into participating forward contracts to manage its exposure to sales denominated in GBP. These contracts, which settle monthly until 30 June 2020, have a total notional amount of £10.65m and have been accounted for at fair value through the profit and loss. The fair value at year end was an asset of \$258,036 (2018: NIL).

During the year ended 30 June 2019, the Group recognised \$218,960 in realised gains and \$341,904 in unrealised gains on derivatives (2018: \$236,000 loss). This has been included in finance income or costs in the income statement.

Exposure to currency risk

A summary of quantitative data about the Group's exposure to currency risk on financial assets and liabilities at year end is as follows:

	Note	30 June 2019			30 June 2018

SECTION H OTHER INFORMATION (continued)

Sensitivity analysis

A strengthening (weakening) of the GBP or USD against the AUD at 30 June would have affected the measurement of financial instruments denominated in a foreign currency and increased or (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases. The analysis is performed on the same basis for 2018, using consistent foreign exchange rate variances, as indicated below.

	Profit or loss (net of tax)		Equity (net of tax)	
	Strengthening \$'000	Weakening \$'000	Strengthening \$'000	Weakening \$'000

GBP (10% movement)	108	(118)	108	(118)
USD (10% movement)	76	(83)	76	(83)

Interest rate risk

At the end of the reporting period the interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group was as follows:

	Nominal amount	
	2019 \$'000	2018 \$'000
Fixed rate instruments		
Financial liabilities	(227)	(483)
	(227)	(483)

Financial assets	20,223	12,110
Financial liabilities	(3,415)	-
	16,808	12,110

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the end of reporting period would have increased or (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

	Profit or loss (net of tax)		Equity (net of tax)

SECTION H OTHER INFORMATION (continued)

Fair values

The fair values of the Group's financial assets and liabilities approximate their carrying amounts recognised in the statement of financial position.

H2 Related party information

Certain key management personnel, or their related parties, hold positions in other entities that result in them having control, joint control or significant influence over the financial or operating policies of these entities.

A number of these entities transacted with the Group during the year. The terms and conditions of the transactions with key management personnel and their related parties were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-key management personnel related entities on an arm's length basis.

The aggregate value of transactions and outstanding balances relating to key management personnel and entities over which they have control, joint control or significant influence were as follows:

Entity	Transaction	Transaction values during the year		Balance outstanding Receivable/(Payable)

SECTION H OTHER INFORMATION (continued)

H4 Subsequent events

The Board declared a fully franked final ordinary dividend of 6.90 cents per share and a special FY19 dividend of 3.00 cents per share. The financial effect of the 2019 declared final and special dividend has not been brought to account in the consolidated financial statements for the year ended 30 June 2019.

Other than the matter noted above, there has not arisen in the interval since the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Group, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

H5 New accounting standards

Changes in accounting policies - new standards and interpretations adopted

Effective from 1 July 2018, AASB 9 *Financial Instruments* and AASB 15 *Revenue from Contracts with Customers* have been adopted by the Group. The nature and effect of these standards being adopted are disclosed below.

AASB 9 *Financial Instruments*

AASB 9 replaces AASB 139 *Financial Instruments: Recognition and Measurement* and includes revised guidance on the classification and measurement of financial instruments, a new 'expected credit loss' ("ECL") model for calculating impairment on financial assets and new general hedge accounting requirements.

As the Group does not hold complex financial instruments or long dated receivables, there was no material impact of adopting AASB 9 on the Group's financial statements in the current or comparative period.

New standards and interpretations adopted

AASB 15 *Revenue from Contracts with Customers*

AASB 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including AASB 118 *Revenue* (AASB 118). AASB 15 is a significant change from the revenue recognition requirements under AASB 118 and will involve more judgements and estimates as it requires revenue to be recognised when control of a good or service transfers to a customer, or on satisfaction of performance obligations, which replaced the previous recognition concept of transfer of risks and rewards.

The application of AASB 15 has not had a material impact on the Group in the current or comparative period including the timing of recognition of the Group's key revenue streams. For the sale of manufactured products, revenue will be recognised at the point in time that the performance obligation is satisfied which is generally on shipment of the goods to the customer from the Group's warehouse. For services, including wind tunnel testing and freight, revenue is recognised over time as those services are provided.

New standards and interpretations not yet adopted

AASB 16 *Leases*

The Group has not early adopted AASB 16 *Leases*. The Group will apply AASB 16 initially in its financial statements for the year ending 30 June 2020.

AASB 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are optional exemptions for short-term leases and leases of low value items.

The Group has started an initial assessment of the potential impact on its consolidated financial statements, with the most significant impact identified so far being that the Group will recognise new assets and liabilities for its operating leases of factory and office facilities. In addition, the nature of expenses related to those leases will now change as AASB 16 replaces the straight-line operating lease expense with a depreciation charge for right-of-use assets and interest expense on lease liabilities. The Group has not yet decided whether it will use the optional exemptions. No significant impact is expected for the Group's finance leases.

Although the Group has not yet fully quantified the impact on its reported assets and liabilities of adoption of AASB 16, based on an initial assessment the impact on the net profit after tax is not expected to be significant. The quantitative effect will depend on, inter alia, the transition method chosen, the extent to which the Group uses the practical expedients and recognition exemptions, and any additional leases that the Group enters into.

14. Financial instruments
15. Fair value measurement

1 Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

2 Foreign currency

Transactions in foreign currencies are translated to the respective functional currencies of the Groups' entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated to the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Foreign currency differences are generally recognised in profit or loss.

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition are translated to the functional currency at exchange rates at the reporting date. The income and expenses of foreign operations are translated to the functional currency at exchange rates at the dates of the transactions.

Foreign currency translation differences are recognised in other comprehensive income and presented in the foreign currency translation reserve in equity.

3 Revenue

Sale of goods

For the sale of manufactured products, revenue is recognised at the point in time that the performance obligation is satisfied which is generally on shipment of the goods to the customer from the Group's warehouse.

Rendering of services

For services, including wind tunnel testing and freight, revenue is recognised over time as those services are provided.

Notes to the Consolidated Financial Statements

For the year ended 30 June 2019

SECTION I SIGNIFICANT ACCOUNTING POLICIES (continued)

4 Employee benefits

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past services provided by the employee and the obligation can be estimated reliably.

Long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefits that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Re-measurements are recognised in profit or loss in the period in which they arise.

Share based payment transactions

The grant-date fair value of share-based payment awards granted to employees is recognised as an expense, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

Defined contribution funds

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

5 Finance income and finance costs

Finance income comprises interest income on funds invested and changes in the fair value of derivative financial instruments at fair value through profit or loss. Interest income is recognised as it accrues in profit or loss, using the effective interest method.

Finance costs comprise interest expense on borrowings and changes in the fair value of derivative financial instruments at fair value through profit or loss. Interest expense is recognised using the effective interest method.

Foreign currency gains and losses on monetary assets and liabilities are reported on a net basis as either finance income or finance costs depending on whether foreign currency movements are in a net gain or net loss position.

6 Income Tax

Income tax on the profit or loss for the year comprises current and deferred tax. Current and deferred tax is recognised in the statement of comprehensive income except to the extent that it relates to items recognised directly in equity, or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance date, and any adjustments to tax payable in respect of previous years. Current tax payable also includes any tax liability arising from the declaration of dividends.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: initial recognition of goodwill, the initial recognition of assets and liabilities that affect neither accounting nor taxable profit, and difference relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Notes to the Consolidated Financial Statements

For the year ended 30 June 2019

SECTION I SIGNIFICANT ACCOUNTING POLICIES (continued)

In determining the amount of current and deferred tax the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such as changes to tax liabilities will impact tax expense in the period that such a determination is made.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend.

7 Inventories

Inventories are measured at the lower of cost and net realisable value.

The cost of inventories is based on the first-in first-out principle, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

8 Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, and the costs of dismantling and removing the items and restoring the site on which they are located, and capitalised borrowing costs. Cost also may include transfers from other comprehensive income of any gain or loss on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within other income in profit or loss.

Subsequent costs

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group. Ongoing repairs and maintenance are expensed as incurred.

Depreciation

Depreciation is calculated to write off the cost of property, plant and equipment less their estimated residual values using the straight-line and/or diminishing value basis over their estimated useful lives, and is generally recognised in profit or loss. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

The estimated useful lives are as follows:

	2019	2018
Plant and equipment	2-7 years	2-7 years
Motor vehicles	4-6 years	4-6 years

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

SECTION I SIGNIFICANT ACCOUNTING POLICIES (continued)

9 Intangible assets and goodwill

Goodwill

Goodwill on acquisition is initially measured at cost, being the excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. At the acquisition date, any goodwill acquired is allocated to each of the cash-generating units expected to benefit from the combination's synergies. Goodwill is not amortised.

Trademarks

Separately acquired trademarks are measured initially at cost of acquisition. Trademarks acquired in a business combination are recognised at fair value at the acquisition date. Fair value is determined using the relief from royalty method.

The Group's trademarks are subsequently carried at cost less impairment losses and are not amortised as they are considered to have an indefinite useful life.

Research and development

Research expenditure is recognised as an expense as incurred. Concessional tax benefits and incentives receivable are recognised as other income based on an estimate of the eligible research and development expenditure incurred during the financial year. Costs incurred on development projects are recognised as intangible assets only when it is probable that a project will, after assessment of its commercial and technical feasibility, be completed and generate future economic benefits and can be measured reliably.

Impairment of non financial assets

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. Goodwill and trademarks with an indefinite life are tested annually for impairment.

An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of other assets in the CGU on a pro rata basis. An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

10 Share capital

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to issue of ordinary shares are recognised as a deduction from equity, net of any related income tax benefit.

The Company does not have authorised capital or par value in respect of its issued shares. All shares are fully paid. The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company.

Foreign currency translation reserve

The foreign currency translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations, as well as the effective portion of any foreign currency differences arising from hedges of a net investment in a foreign operation.

Share based payments reserve

The share based payments reserve comprises the grant-date fair value of share-based payment awards granted to employees.

SECTION I SIGNIFICANT ACCOUNTING POLICIES (continued)

11 Provisions

Warranties

A provision for warranties is recognised when the underlying products are sold, based on historical warranty data and a weighting of possible outcomes against their assumed possibilities.

Provision for warranties relates to products sold during the current and prior financial years. The provision is based on estimates made from historical warranty data. The Group expects to settle the majority of the liability over the next year.

12 Leases

Leased assets

Assets held by the Group under leases that transfer to the Group substantially all the risks and rewards of ownership are classified as finance leases. The leased assets are measured initially at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the assets are accounted for in accordance with the accounting policy applicable to that asset.

Assets held under other leases are classified as operating leases and are not recognised in the Group's statement of financial position.

Lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

13 Financial instruments

Non-derivative financial instruments

Trade and other receivables are initially recognised as fair value and subsequently measured at amortised cost less impairment. Trade receivables are due for settlement no more than 30-60 days from the date of recognition.

The Group initially recognises debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument. Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at reporting date.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

The Group classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest rate method.

Interest-bearing loans and liabilities are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest basis.

Derivative financial instruments

The Group may use derivative financial instruments to manage its foreign currency exposures. Embedded derivatives are separated from the host contract and accounted for separately if certain criteria are met.

Derivatives are recognised initially at fair value, any directly attributable transaction costs are recognised in profit or loss as they are incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 30 June 2019

SECTION I SIGNIFICANT ACCOUNTING POLICIES (continued)

14 Fair value measurements

The consolidated financial statements have been prepared on the historical cost basis except for any derivative financial instruments which are recognised at fair value.

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities.

When one is available, the Group measures the fair value using the quoted price in an active market for that asset or liability. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. When an active market is not available, the Group uses observable market data as far as possible.

Further information about the methods and assumptions made in determining fair values for measurement and/or disclosure purposes is included in the following notes:

- Note I14 – financial instruments
- Note D3 – share based payments.

Report on the Remuneration Report

Opinion

In our opinion, the Remuneration Report of PWR Holdings Limited for the year ended 30 June 2019 complies with *Section 300A* of the *Corporations Act 2001*.

Directors' responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with *Section 300A* of the *Corporations Act 2001*.

Our responsibilities

We have audited the Remuneration Report included in pages 12 to 20 of the Directors' Report for the year ended 30 June 2019.

Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with *Australian Auditing Standards*.

For the year ended 30 June 2019

Other Information

Other Information is financial and non-financial information in PWR Holdings Limited's annual reporting which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

The Other Information we obtained prior to the date of this Auditor's Report was the Directors' Report and ASX Additional Information. The Chairman's Letter and Managing Director's Report are expected to be included in the Annual Report, and made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*;
- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- assessing the Group and Company's ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf. This description forms part of our Auditor's Report.

Valuation of goodwill and intangible assets \$14.2m	
Refer to Note C6 to the Financial Report	
The key audit matter	How the matter was addressed in our audit
<p>A key audit matter for us was the Group's annual testing of goodwill and intangible assets for impairment given the size of the balance (being 21.9% of total assets).</p> <p>We focused on the significant forward-looking assumptions the Group applied in its value in use models, including forecast cash flows, growth rates and discount rates.</p> <p>The Group uses complex models in performing its annual impairment testing. These models use forward looking assumptions based on the Group's budgeting and business plans and a range of other internal and external sources as inputs to the assumptions. Complex modelling using forward-looking assumptions tend to be prone to greater risk for potential bias, error and inconsistent application. These conditions necessitate additional scrutiny by us, in particular to address the objectivity of sources used for assumptions, and their consistent application.</p> <p>We involved valuation specialists to supplement our senior audit team members in assessing this key audit matter.</p>	<p>Our procedures included:</p> <ul style="list-style-type: none"> • We considered the appropriateness of the value in use method applied by the Group to perform the annual impairment testing against the requirements of the accounting standards. • We assessed the integrity of the value in use models used, including the accuracy of the underlying calculation formulas. • We considered the Group's determination of its CGUs based on our understanding of the Group's operations and how independent cash inflows were generated, against the requirements of the accounting standards. • We compared the forecast cash flows contained in the value in use model to Board approved budgets and the Group's business plans. • We assessed the accuracy of previous Group forecasts to inform our evaluation of forecasts incorporated in the models. • We considered the sensitivity of the models by varying key assumptions, such as forecast growth rates, terminal growth rates and discount rates, within a reasonably possible range, to identify those CGUs at higher risk of impairment and to focus our further procedures. • We challenged the Group's significant forecast cash flow and growth assumptions using our knowledge of the Group, its past performance and our understanding of factors impacting the business and customers in which the CGUs operate in. • Working with our valuation specialists, we independently developed a discount rate range considered comparable using publicly available market data for comparable entities, adjusted by risk factors specific to the CGU and the industry it operates in. • We assessed the disclosures in the financial report using our understanding obtained from our testing and the requirements of the accounting standards.

Report on the audit of the Financial Report

Opinion

We have audited the **Financial Report** of PWR Holdings Limited (the Company).

In our opinion, the accompanying Financial Report of the Company is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the Group's financial position as at 30 June 2019 and of its financial performance for the year ended on that date; and
- complying with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** comprises:

- Consolidated statement of financial position as at 30 June 2019;
- Consolidated statement of profit or loss and other comprehensive income, Consolidated statement of changes in equity, and Consolidated statement of cash flows for the year then ended;
- Notes including a summary of significant accounting policies; and
- Directors' Declaration.

The **Group** consists of the Company and the entities it controlled at the year-end or from time to time during the financial year.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

The **Key Audit Matter** we identified was the valuation of goodwill and intangible assets.

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

These matters were addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
