Driven to Deliver More

Dear Fellow Shareholders,

CSX strengthened its value to customers and the U.S. economy in 2021, achieving multiple business successes and advancing our growth strategies during a challenging year for the transportation industry. Amid global supply chain disruptions and a tight labor market, we introduced innovative new service solutions, reinforced our environmental leadership and invested in our people and our network to keep customers' freight moving. Through these and other actions, we positioned our company to accelerate highway-to-rail freight conversion, driven by technological innovation, operating efficiency and dependable service.

As we sustained momentum across our key growth initiatives, we capitalized on the overall strength of the U.S. economy to produce outstanding financial results.

Compared to the previous year, CSX's 2021 revenue of \$12.5 billion was 18% higher, operating income leapt 28%, and earnings per diluted share increased 40%. The company delivered these results despite an 11% increase in operating expenses, contributing to a 2021 operating ratio of 55.3%.

The primary driver of our success continues to be the commitment of our employees to CSX's guiding principles and our unified service culture. Safety is foremost among our principles, and we maintained our relentless focus on training, rules compliance and risk reduction in 2021. At the same time, we implemented an intense hiring initiative for operating employees in response to the impact of the COVID-19 pandemic on train crew availability.

Our employees demonstrated their pride in being part of an essential transportation company by acting quickly to implement solutions to supply chain congestion. We adjusted our network plan to alleviate backups at ocean ports and added container overflow capacity for our intermodal terminals. Through their dedicated resolve, CSX employees leveraged the resiliency of our operating model to respond quickly to challenging conditions.

With an unwavering focus on safety, service and efficiency, our employees successfully met the challenges of 2021 and kept CSX on track to achieve our company's immediate and long-term growth objectives.

James M. Foote

President and Chief Executive Officer

Powered to → Perform

CSX brings on-time delivery, first-class service, and a seamless shipping experience to customers across an extensive network that reaches nearly two-thirds of the U.S. population and a diverse set of consumers and industrial end markets. A leading supplier of rail-based freight transportation, CSX is powered to deliver comprehensive service solutions.

CSX Revenue Mix

CSX Network

Financial Performance

CSX achieved outstanding financial results in 2021 despite the impact of supply chain disruptions and a tight labor market exacerbated by the COVID-19 pandemic. Although these headwinds mitigated the positive forces of U.S. economic recovery, the company capitalized on strong underlying market fundamentals and its effective strategies to reach \$12.5 billion in revenue, a new CSX record. Operating income increased to nearly \$5.6 billion, driven by business growth, operating efficiency and the acquisition of Quality Carriers, a chemical trucking company.

Safety Performance

Safety is foremost among CSX's guiding principles. In 2021, the company continued to focus on critical rules compliance and field contacts to reinforce positive safety behaviors. Although the company's Federal Railroad Administration (FRA)-reportable personal

injury rate increased 12% in 2021, injury severity declined, and the company finished the year without an employee fatality. At the same time, the company's FRA-reportable train accident rate decreased 8%, approaching all-time lows for CSX.

FRA Personal Injury Frequency Index

FRA Train Accident Rate

Service Performance

CSX responded to supply chain challenges across the transportation industry in 2021 with innovative solutions and operating plan adjustments that help substantially alleviate congestion and keep customer freight moving. Nevertheless, the impact of supply chain disruptions, as well as the pandemic's impact on the company's workforce, was reflected in service performance that dropped below the record levels the company achieved in recent years.

Growth Opportunities

By continuing to invest in network capacity, customer service technology and new service offerings, CSX added to a solid operating foundation that will support future business growth. Among the company's 2021 highlights were:

- Acquisition of Quality Carriers, the largest liquid bulk chemicals trucking carrier in North America, enabling CSX to offer shippers the first integrated intermodal chemical transportation solution of its kind.
- Announcement of an agreement to acquire the Pan Am Systems, Inc., which would expand CSX's reach in the Northeastern United States, providing customers with new service possibilities.
- Introduction of CSX Greenway, a flexible, rail-truck solution providing door-to-door shipping service for fresh produce, frozen foods and other refrigerated products along the Interstate 95 corridor.
- A growing pipeline of business development initiatives, with three major projects announced in 2021 to be built on CSX lines: two electric-vehicle manufacturing complexes and a steel mill.

At the same time, the company continued to improve its ShipCSX customer service platform, further enhancing the value proposition of rail and supporting the company's strategy for capturing market share from the trucking industry.

Environmental, Social and Governance

CSX Continues to **Lead**
the Rail Industry in
its Commitment to
Environmental,
Social and
Governance (ESG) Excellence.

Focused on safety, service and efficiency, the company's operating model is built to deliver on the very same priorities that are essential to ESG leadership.

The CSX Sustainability Statement, Environmental Policy and other ESG-related information can be found at [csx.com/esg](https://www.csx.com/esg).

Environmental Sustainability

The environmental advantage of rail over trucking has emerged as a major competitive advantage, and CSX has established itself as the rail industry's sustainability leader. The company's fuel efficiency continued to lead all U.S. Class I railroads in 2021, at less than one gallon of fuel required to move 1,000 gross ton-miles of freight.

Also in 2021, CSX customers continued to demonstrate increased interest in improving their carbon footprint. Customers doubled their use of CSX tools that helped them calculate emissions savings by switching to rail, and they collectively avoided 11 million metric tons of carbon dioxide emissions during the year — the equivalent of taking 2.3 million passenger vehicles off the road — by choosing rail over trucking.

CSX's commitment to sustainability and its efforts to drive carbon emissions reduction throughout the supply chain were once again recognized at a national and global level in 2021.

533 miles

Distance CSX moves one ton of freight on a single gallon of fuel

Among the company's recognitions during the year were:

Dow Jones Sustainability Index

In 2021, CSX received this top sustainability honor for the eleventh consecutive year for high performance in environmental management, corporate governance, supply chain management, and corporate citizenship and philanthropy.

CDP A-List

CSX is among an elite number of companies to earn an "A" from the global environmental non-profit group CDP. 2021 marked the ninth consecutive year the company has ranked among CDP's corporate sustainability leaders. CSX was the top U.S.-based Class I railroad in 2021's CDP ranking and placed in the top 5% of survey respondents globally.

Forbes Green Growth 50

CSX was named to the 2021 Forbes Green Growth 50 list of corporations that have successfully cut greenhouse gas emissions while increasing earnings. The company appeared at number 39, and was the only railroad — and the only transportation company of any kind — to earn a spot in the rankings.

Newsweek Magazine "America's Most Responsible Companies"

Newsweek featured CSX in its second annual ranking of "America's Most Responsible Companies." The magazine recognized CSX as America's top railroad for corporate responsibility and second among all U.S. travel, transport and logistics companies.

Social Responsibility

Providing essential supply chain services for job-creating industries and reducing high-emission truck traffic on highways are not the only ways that CSX supports communities across its nearly 19,500-mile rail network.

Through corporate initiatives and active employee volunteers, CSX contributes to a wide range of causes that help improve the quality of life for individuals and their communities.

The company's signature community investment initiative — Pride in Service — contributed in multiple ways in 2021 to support U.S. armed forces veterans, military families and first responders and their families. Company events were held

in conjunction with the Pride in Service program's five non-profit partners, which provide life-enhancing services and support to the nation's military and first responder community.

The company also relaunched its Military Business Resource Group, comprised of employees committed to supporting CSX's large number of employees who are veterans or active-duty military, as well as taking the lead in supporting Pride in Service activities. The Military group forms an internal community that deepens the company's One-CSX connection to ensure that employee families are supported when their loved ones are deployed in active military service.

In addition, the company advanced its social justice initiatives in 2021 through a variety of community programs and support of racial equity, both internally and externally. More than one-third of CSX's new hires were people of color in 2021, as the company continued to build a workforce that reflects the communities it serves and where its employees live.

The company further demonstrated its commitment to diversity, equity and inclusion through its Social Justice Action Plan, which included support of the Congressional Black Caucus Foundation; sponsorship of the Jacksonville, Fla., Black Expo and Martin Luther King Jr. Day Breakfast; and a new partnership with the National Association of Black Accountants.

One of the Social Justice Action Plan's most engaging activities in 2021 was the company's collaboration with City Year, a nationwide organization that promotes educational equity, for the launch a 100,000 Steps Toward Social Justice initiative designed to support systemically under-resourced schools. Throughout the year, CSX employees from 12 states supported City Year AmeriCorps members in Jacksonville, Philadelphia and Washington, D.C.

The CSX Pride in Service initiative continues to mobilize CSX employees and partners to impact communities across the United States. In 2021, the initiative increased the volume of support it's delivered over the three-year span of its existence.

Social Responsibility

Among the recognitions CSX received in 2021 were:

U.S. Chamber of Commerce Foundation's Citizens Award

CSX was named as a 2021 U.S. Chamber of Commerce Foundation's Citizens Award finalist. The award highlights businesses that serve the societal good, expand opportunity and help drive progress for communities.

Disability:IN – Best Place to Work for Disability Inclusion

For the third consecutive year, CSX was recognized as a Best Place to Work for Disability Inclusion by Disability:IN and the American Association of People with Disabilities (AAPD), scoring a 90% on the 2021 Disability Equality Index.

Insider Pro and Computerworld Best Places to Work in IT

CSX was the only railroad and one of only four transportation and logistics businesses ranked among large companies on the annual listing in 2021. The Insider Pro and Computerworld list is compiled based on a comprehensive questionnaire regarding company offerings in categories such as benefits, career development, training and retention. IDG also conducts extensive surveys of IT workers, and their responses factor heavily in determining the rankings.

U.S. Veteran's Magazine Top Veteran-Friendly Companies

The U.S. Veterans Magazine named CSX on its Best of the Best Top Veteran-Friendly Companies list in 2021 for the third year in a row. CSX actively engages in recruitment, support and retention activities. The company connects with veterans' employment representatives, student veterans groups, professional military associations and veterans' service organizations - and also places significant resources in its CSX Pride in Service community investment initiative.

Governance

The CSX executive team and Board of Directors are committed to corporate governance practices that mitigate risk, protect shareholder value and support long-term growth and business success. In consultation with the Board of Directors, the executive leadership team develops governance policies, sets clear expectations and requires robust annual ethics training for management employees.

The company's practices are deemed essential for ensuring proper disclosure of information, auditing and compliance. The CSX governance program includes:

- Annual election of directors
- Majority voting standard for election of directors
- Independent chairman of the board
- Stock ownership guidelines for officers and directors
- Policy against hedging or pledging of CSX shares
- Proxy access
- Pay for performance alignment

CSX CORPORATION

PART I

Item 1. Business

CSX Corporation, together with its subsidiaries ("CSX" or the "Company"), based in Jacksonville, Florida, is one of the nation's leading transportation companies. The Company provides rail-based freight transportation services including traditional rail service, the transport of intermodal containers and trailers, as well as other transportation services such as rail-to-truck transfers and bulk commodity operations. CSX and the rail industry provide customers with access to an expansive and interconnected transportation network that plays a key role in North American commerce and is critical to the long-term economic success and improved global competitiveness of the United States. In addition, freight railroads provide the most economical and environmentally efficient means to transport goods over land.

CSX Transportation, Inc.

CSX's principal operating subsidiary, CSX Transportation, Inc. ("CSXT"), provides an important link to the transportation supply chain through its approximately 19,500 route-mile rail network, which serves major population centers in 23 states east of the Mississippi River, the District of Columbia and the Canadian provinces of Ontario and Quebec. It has access to over 70 ocean, river and lake port terminals along the Atlantic and Gulf Coasts, the Mississippi River, the Great Lakes and the St. Lawrence Seaway. This access allows the Company to meet the dynamic transportation needs of manufacturers, industrial producers, the automotive industry, construction companies, farmers and feed mills, wholesalers and retailers, and energy producers. The Company's intermodal business links customers to railroads via trucks and terminals. CSXT also serves thousands of production and distribution facilities through track connections with other Class I railroads and more than 230 short-line and regional railroads.

CSXT is also responsible for the Company's real estate sales, leasing, acquisition and management and development activities. Substantially all of these activities are focused on supporting railroad operations.

Other Entities

In addition to CSXT, the Company's subsidiaries include Quality Carriers, Inc. ("Quality Carriers"), CSX Intermodal Terminals, Inc. ("CSX Intermodal Terminals"), Total Distribution Services, Inc. ("TDSI"), Transflo Terminal Services, Inc. ("Transflo"), CSX Technology, Inc. ("CSX Technology") and other subsidiaries. Effective July 1, 2021, CSX acquired Quality Carriers, the largest provider of bulk liquid chemicals truck transportation in North America, from Quality Distribution, Inc. For further details, refer to Note 17, *Business Combinations*. CSX Intermodal Terminals owns and operates a system of intermodal terminals, predominantly in the eastern United States, and also provides drayage services (the pickup and delivery of intermodal shipments) for certain customers. TDSI serves the automotive industry with distribution centers and storage locations. Transflo connects non-rail served customers to the many benefits of rail by transferring products from rail to trucks. The biggest Transflo markets are chemicals and agriculture, which includes shipments of plastics and ethanol. CSX Technology and other subsidiaries provide support services for the Company.

Operating Model

The Company is focused on developing and strictly maintaining a scheduled service plan with an emphasis on optimizing assets. When this operating model is executed effectively, customer service is improved, enabling the Company to better compete for an increased share of the U.S. freight market. Further, this model leads to reduced costs and strong free cash flow generation.

CSX CORPORATION PART I

Lines of Business

During 2021, the Company's services generated \$12.5 billion of revenue and served four primary lines of business: merchandise, intermodal, coal and trucking.

- The merchandise business shipped 2.6 million carloads (41% of volume) and generated 60% of revenue in 2021. The Company's merchandise business is comprised of shipments in the following diverse markets: chemicals, agricultural and food products, minerals, automotive, forest products, metals and equipment, and fertilizers.
- The intermodal business shipped 3.0 million units (48% of volume) and generated 16% of revenue in 2021. The intermodal business combines the superior economics of rail transportation with the flexibility of trucks and offers a cost and environmental advantage over long-haul trucking. Through a network of approximately 30 terminals, the intermodal business serves all major markets east of the Mississippi River and transports mainly manufactured consumer goods in containers, providing customers with truck-like service for longer shipments.
- The coal business shipped 706 thousand carloads (11% of volume) and generated 14% of revenue in 2021. The Company transports domestic coal, coke and iron ore to electricity-generating power plants, steel manufacturers and industrial plants as well as export coal to deep-water port facilities. Approximately one-quarter of export coal and the majority of the domestic coal that the Company transports is used for generating electricity or industrial purposes.
- The trucking business generated 3% of revenue in 2021. Trucking revenue includes revenue from the operations of Quality Carriers, which was acquired by CSX effective July 1, 2021.

Other revenue accounted for 7% of the Company's total revenue in 2021. This category includes revenue from regional subsidiary railroads and incidental charges, including intermodal storage and equipment usage, demurrage and switching. Revenue from regional subsidiary railroads includes shipments by railroads that the Company does not directly operate. Intermodal storage represents charges for customer storage of containers at an intermodal terminal, ramp facility or offsite location beyond a specified period of time. Demurrage represents charges assessed when freight cars are held by a customer beyond a specified period of time. Switching represents charges assessed when a railroad switches cars for a customer or another railroad.

CSX's Committed Workforce

Most of the Company's employees provide or support transportation services. The Company had more than 20,900 employees as of December 2021, which includes approximately 16,500 employees that are members of a labor union. For the 13 rail unions that participate in national bargaining, a round of negotiations for benefits, wages and work rules is underway. Typically, these negotiations take several years. Current agreements remain in place until modified by new agreements.

CSX prioritizes workplace safety for employees and is committed to continued improvement through enhanced processes, training, technology, communication, and continuous collaboration with customers and peers across the railroad industry. Training programs and processes are focused on injury and accident prevention as well as emergency preparedness. The attainment of key safety targets is a component of management's annual incentive program. The FRA Personal Injury Frequency Index, a measure of the number of FRA-reportable injuries per 200,000 man-hours, was 0.92 in 2021 and 0.82 in 2020, representing a 12% increase year over year.

CSX CORPORATION PART I

In response to the novel coronavirus ("COVID-19") pandemic, additional policies and procedures were developed to protect the health and safety of employees. A cross-functional task force continues to monitor the situation to ensure that appropriate safety measures are being taken.

The Compensation and Talent Management Committee of the Board of Directors is charged with oversight of CSX's workforce. The Company is committed to developing a culture that promotes workforce diversity and inclusion and encourages ethical behavior. As of December 31, 2021, approximately 20% of CSX's overall workforce and 37% of management was diverse, calculated as the percentage of males of color and all females. In 2021, CSX was recognized as a "Best Place to Work for Disability Inclusion" by Disability:IN and the American Association of People with Disabilities for a third consecutive year after receiving a top score on their disability equality index. The CSX Code of Ethics serves as a guiding standard for ethical behavior and covers many types of matters, including discrimination and harassment as well as safety. Annually, all management employees are required, and union employees are highly encouraged, to complete ethics training.

Company History

A leader in freight rail transportation for more than 190 years, the Company's heritage dates back to the early nineteenth century when The Baltimore and Ohio Railroad Company ("B&O"), the nation's first common carrier, was chartered in 1827. Since that time, the Company has built on this foundation to create a railroad that could safely and reliably service the ever-increasing demands of a growing nation. Since its founding, numerous railroads have combined with the former B&O through merger and consolidation to create what has become CSX. Each of the railroads that combined into the CSX family brought new geographical reach to valuable markets, gateways, cities, ports and transportation corridors.

CSX Corporation was incorporated in 1978 under Virginia law. In 1980, the Company completed the merger of the Chessie System and Seaboard Coast Line Industries into CSX. The merger allowed the Company to connect northern population centers and Appalachian coal fields to growing southeastern markets. Later, the Company's acquisition of key portions of Conrail, Inc. ("Conrail") allowed CSXT to link the northeast, including New England and the New York metropolitan area, with Chicago and midwestern markets as well as the growing areas in the Southeast already served by CSXT. This current rail network allows the Company to directly serve every major market in the eastern United States with safe, dependable, environmentally responsible and fuel efficient freight transportation and intermodal service.

Competition

The business environment in which the Company operates is highly competitive. Shippers typically select transportation providers that offer the most compelling combination of service and price. Service requirements, both in terms of transit time and reliability, vary by shipper and commodity. As a result, the Company's primary competition varies by commodity, geographic location and mode of available transportation and includes other railroads, motor carriers that operate similar routes across its service area and, to a less significant extent, barges, ships and pipelines.

CSXT's primary rail competitor is Norfolk Southern Railway, which operates throughout much of the Company's territory. Other railroads also operate in parts of the Company's territory. Depending on the specific market, competing railroads and deregulated motor carriers may exert pressure on price and service levels. For further discussion on the risk of competition to the Company, see Item 1A. Risk Factors.

CSX CORPORATION

PART I

Regulatory Environment

The Company's operations are subject to various federal, state, provincial (Canada) and local laws and regulations generally applicable to businesses operating in the United States and Canada. In the U.S., the railroad operations conducted by the Company's subsidiaries, including CSXT, are subject to the regulatory jurisdiction of the Surface Transportation Board ("STB"), the Federal Railroad Administration ("FRA"), and its sister agency within the U.S. Department of Transportation ("DOT"), the Pipeline and Hazardous Materials Safety Administration ("PHMSA"). Together, FRA and PHMSA have broad jurisdiction over railroad operating standards and practices, including track, freight cars, locomotives and hazardous materials requirements. In addition, the U.S. Environmental Protection Agency ("EPA") has regulatory authority with respect to matters that impact the Company's properties and operations.

The Transportation Security Administration ("TSA"), a component of the Department of Homeland Security, has broad authority over railroad operating practices that may have homeland security implications. In Canada, the railroad operations conducted by the Company's subsidiaries, including CSXT, are subject to the regulatory jurisdiction of the Canadian Transportation Agency.

Although the Staggers Act of 1980 significantly deregulated the U.S. rail industry, the STB has broad jurisdiction over rail carriers. The STB regulates routes, fuel surcharges, conditions of service, rates for non-exempt traffic, acquisitions of control over rail common carriers and the transfer, extension or abandonment of rail lines, among other railroad activities. Any new rules from the STB regarding, among other things, competitive access or revenue adequacy could have a material adverse effect on the Company's financial condition, results of operations and liquidity as well as its ability to invest in enhancing and maintaining vital infrastructure. For further discussion on regulatory risks to the Company, see Item 1A. *Risk Factors*.

Financial Information

Information regarding the Company's results of operations and financial position can be found in Item 7. Management's Discussion and Analysis of Financial Condition.

Other Information

CSX makes available on its website www.csx.com, free of charge, its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to those reports as soon as reasonably practicable after such reports are filed with or furnished to the Securities and Exchange Commission ("SEC"). The information on the CSX website is not part of this annual report on Form 10-K. Additionally, the Company has posted its code of ethics on its website, which is also available to any shareholder who requests it. This Form 10-K and other SEC filings made by CSX are also accessible through the SEC's website at www.sec.gov.

CSX has included the certifications of its Chief Executive Officer ("CEO") and the Chief Financial Officer ("CFO") required by Section 302 of the Sarbanes-Oxley Act of 2002 ("the Act") as Exhibit 31, as well as Section 906 of the Act as Exhibit 32 to this Form 10-K report.

For additional information concerning business conducted by the Company during 2021, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

CSX CORPORATION PART I

Item 1A. Risk Factors

The risks set forth in the following risk factors could have a material adverse effect on the Company's financial condition, results of operations or liquidity, and could cause those results to differ materially from those expressed or implied in the Company's forward-looking statements. Additional risks and uncertainties not currently known to the Company or that the Company currently does not deem to be material also may materially impact the Company's financial condition, results of operations or liquidity.

Regulatory, Legislative and Legal

New legislation or regulatory changes could impact the Company's earnings or restrict its ability to independently negotiate prices.

Legislation passed by Congress, new regulations issued by federal agencies or executive orders issued by the President of the United States could significantly affect the revenues, costs, including income taxes, and profitability of the Company's business. In addition, statutes or regulations imposing price constraints or affecting rail-to-rail competition could adversely affect the Company's profitability.

Government regulation and compliance risks may adversely affect the Company's operations and financial results.

The Company is subject to the jurisdiction of various regulatory agencies, including the STB, FRA, PHMSA, TSA, EPA and other state, provincial and federal regulatory agencies for a variety of economic, health, safety, labor, environmental, tax, legal and other matters. New or modified rules or regulations by these agencies could increase the Company's operating costs, adversely impact revenue or reduce operating efficiencies and affect service performance. Noncompliance with applicable laws or regulations could erode public confidence in the Company and can subject the Company to fines, penalties and other legal or regulatory sanctions.

CSXT, as a common carrier by rail, is required by law to transport hazardous materials, which could expose the Company to significant costs and claims.

A train accident involving the transport of hazardous materials could result in significant claims arising from personal injury, property or natural resource damage, environmental penalties and remediation obligations. Such claims, if insured, could exceed existing insurance coverage or insurance may not continue to be available at commercially reasonable rates. Under federal regulations, CSXT is required to transport hazardous materials under the legal duty referred to as the common carrier mandate.

CSXT is also required to comply with regulations regarding the handling of hazardous materials. In November 2008, the TSA issued final rules placing significant new security and safety requirements on passenger and freight railroad carriers, rail transit systems and facilities that ship hazardous materials by rail. Noncompliance with these rules can subject the Company to significant penalties and could be a factor in litigation arising out of a train accident. Finally, legislation preventing the transport of hazardous materials through certain cities could result in network congestion and increase the length of haul for hazardous substances, which could increase operating costs, reduce operating efficiency or increase the risk of an accident involving the transport of hazardous materials.

CSX CORPORATION
PART I

The Company may be subject to various claims and lawsuits that could result in significant expenditures.

As part of its railroad and other operations, the Company is subject to various claims and lawsuits related to disputes over commercial practices, labor and unemployment matters, occupational and personal injury claims, property damage, environmental and other matters. The Company may experience material judgments or incur significant costs to defend existing and future lawsuits. Although the Company maintains insurance to cover some of these types of claims and establishes reserves when appropriate, final amounts determined to be due on any outstanding matters may exceed the Company's insurance coverage or differ materially from the recorded reserves. Additionally, the Company could be impacted by adverse developments not currently reflected in the Company's reserve estimates.

Operational, Safety and Business Disruption

An epidemic or pandemic, including the ongoing COVID-19 pandemic, and the initiatives to reduce its transmission could adversely affect the Company's business.

The Company could be materially and adversely affected by a public health crisis, including a widespread epidemic or pandemic. As COVID-19 and its variant strains have spread globally, including significant impacts in the United States, CSX continues to take a variety of measures to ensure the availability of its transportation services, promote the safety and security of its employees and support the communities in which it operates. However, public and private sector policies and initiatives to reduce the transmission of COVID-19, such as closures of businesses and manufacturing facilities, the promotion of social distancing, the adoption of working from home by companies and institutions, and travel restrictions could continue to adversely affect demand for the commodities and products that the Company transports, including import and export volume.

In addition, COVID-19 and the related initiatives to reduce transmission have resulted in greater supply chain disruption, which could continue to impact volumes and make it more difficult for the Company to serve its customers. The extent to which COVID-19 continues to impact operations will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, its effects on demand for the Company's transportation services and the supply chain, as well as the effect of governmental regulations imposed in response to the pandemic. The duration of the pandemic is dependent on several factors, including the impacts of virus variants and case resurgences across the country. Moreover, operations are negatively affected when a significant number of employees are quarantined as the result of exposure to a contagious illness. To the extent COVID-19 adversely affects the Company's business and financial results, it may also have the effect of heightening many of the other risks described herein.

The Company relies on the security, stability and availability of its technology systems to operate its business.

The Company relies on information technology in all aspects of its business. The security, stability and availability of the Company's and its key third-party vendors' technology systems are critical to its ability to operate safely and effectively and to compete within the transportation industry. A successful data breach, cyber-attack, or the occurrence of any similar incident that impacts the Company's or its key third-party vendors' information technology systems could result in a service interruption, train accident, misappropriation of confidential or proprietary information (including personal information), process failure, or other operational difficulties. A disruption or compromise of the Company's information technology systems, even for short periods of time, and any resulting theft or compromise of Company confidential or proprietary information (including personal information), could adversely affect the Company's business or reputation, create significant legal, regulatory or financial exposure and have a material adverse impact on CSX's business, financial condition or operations.

CSX CORPORATION PART I

The Company, its third-party vendors and other companies in the rail and transportation industries have been subject to, and are likely to continue to be the target of, data breaches, cyber-attacks and other similar incidents. These incidents may include, among other things, malware, ransomware, distributed denial of service attacks, social engineering, phishing, theft, malfeasance or improper access by employees or third-party vendors, human error, fraud, or other modes of attack or disruption. Attacks of these nature are increasing in frequency, levels of persistence, intensity and sophistication. Further, the Company may be at increased risk of a cyber-attack as a result of being a component of the critical U.S. infrastructure. As cybersecurity threats continue to evolve, the Company may be required to expend significant additional resources to continue to modify or enhance its protective measures or to investigate and remediate any information security vulnerabilities, data breaches, cyber-attacks or other similar incidents. The ongoing COVID-19 pandemic also increases the risk that the Company or its third-party vendors may experience cybersecurity incidents as a result of employees, third-party vendors and other third parties with which they interact working remotely on less secure systems and environments.

Despite the Company's efforts to protect its information technology systems, it may not be able to prevent or anticipate all data breaches, cyber-attacks or other similar incidents, detect or react to such incidents in a timely manner or adequately remediate any such incident. While CSX's security protocols have detected attempts to gain unauthorized access to the Company's information technology systems, none of such attempts have resulted in any material breach of or disruption to the Company's systems. For example, CSX has experienced distributed denial of service attacks that have resulted in brief system disruptions, but none have resulted in access to CSX systems. Additionally, despite routine security assessment of the Company's key third-party vendors, some vendors have experienced cyber-attacks in the past, but none of such attacks have had a material adverse impact on CSX's business or operations. Due to applicable laws and regulations or contractual obligations, CSX may be held responsible for data breaches, cyber-attacks or other similar incidents attributed to its third-party vendors as they relate to the information CSX shares with them.

Network or supply chain constraints could have a negative impact on service, operating efficiency or volume of shipments.

CSXT could experience rail network difficulties related to: (i) unpredictable increases in demand; (ii) locomotive or crew shortages; (iii) labor shortages or other service disruptions in the supply chain affecting trucking, ports, handling facilities, customer facilities or other railroads; (iv) reductions in availability of pooled equipment, including chassis; (v) extreme weather conditions; (vi) impacts from changes in yard capacity, or network structure or composition, including train routes; (vii) increased passenger activities; or (viii) regulatory changes resulting in forced access or impacting where and how fast CSXT can transport freight or maintain routes, which could impact CSXT's operational fluidity, leading to deterioration of service, asset utilization and overall efficiency.

Future acts of terrorism, war or regulatory changes to combat the risk of terrorism may cause significant disruptions in the Company's operations.

Terrorist attacks, along with any government response to those attacks, may adversely affect the Company's financial condition, results of operations or liquidity. CSXT's rail lines, other key infrastructure and information technology systems may be targets or indirect casualties of acts of terror or war. This risk could cause significant business interruption and result in increased costs and liabilities and decreased revenues. In addition, premiums charged for some or all of the insurance coverage currently maintained by the Company could increase dramatically, or the coverage may no longer be available.

CSX CORPORATION PART I

Furthermore, in response to the heightened risk of terrorism, federal, state and local governmental bodies are proposing and, in some cases, have adopted legislation and regulations relating to security issues that impact the transportation industry. For example, the Department of Homeland Security adopted regulations that require freight railroads to implement additional security protocols when transporting hazardous materials. Complying with these or future regulations could continue to increase the Company's operating costs and reduce operating efficiencies.

Severe weather or other natural occurrences could result in significant business interruptions and expenditures in excess of available insurance coverage.

The Company's operations may be affected by external factors such as severe weather and other natural occurrences, including floods, fires, hurricanes and earthquakes. As a result, the Company's rail network may be damaged, its workforce may be unavailable, fuel costs may rise and significant business interruptions could occur. In addition, the performance of locomotives and railcars could be adversely affected by extreme weather conditions. Insurance maintained by the Company to protect against loss of business and other related consequences resulting from these natural occurrences is subject to coverage limitations, depending on the nature of the risk insured. This insurance may not be sufficient to cover all of the Company's damages or damages to others, and this insurance may not continue to be available at commercially reasonable rates. Even with insurance, if any natural occurrence leads to a catastrophic interruption of service, the Company may not be able to restore service without a significant interruption in operations.

Competitive, Economic and Financial

The Company faces competition from other transportation providers.

The Company experiences competition in pricing, service, reliability and other factors from various transportation providers including railroads and motor carriers that operate similar routes across its service area and, to a less significant extent, barges, ships and pipelines. Other transportation providers generally use public rights-of-way that are built and maintained by governmental entities, while CSXT and other railroads must build and maintain rail networks largely using internal resources. Any future improvements or expenditures materially increasing the quality or reducing the cost of alternative modes of transportation such as through the use of automation, autonomy or electrification, or legislation providing for less stringent size or weight restrictions on trucks, could negatively impact the Company's competitive position. Additionally, any future consolidation in the rail industry could materially affect the regulatory and competitive environment in which the Company operates.

Global economic conditions could negatively affect demand for commodities and other freight.

A decline or disruption in general domestic and global economic conditions that affects demand for the commodities and products the Company transports, including import and export volume, could reduce revenues or have other adverse effects on the Company's cost structure and profitability. For example, slower rates of economic growth in Asia, contraction of European economies, and changes in the global supply of seaborne coal or price of seaborne coal have adverse impacts on U.S. export coal volume and result in lower coal revenue for CSX. Additionally, changes to trade agreements or policies could result in reduced import and export volumes due to increased tariffs and lower consumer demand. If the Company experiences significant declines in demand for its transportation services with respect to one or more commodities and products, the Company may experience reduced revenue and increased operating costs, workforce adjustments, and other related activities, which could have a material adverse effect on the Company's financial condition, results of operations and liquidity.

CSX CORPORATION
PART I

Changing dynamics in the U.S. and global energy markets could negatively impact profitability.

Over time, changing dynamics in the U.S. and global energy markets have resulted in lower energy production from coal-fired power plants in CSX's service territory. Changes in natural gas prices, or other factors impacting demand for electricity, could impact future power generation at coal-fired plants, which would affect the Company's domestic coal volumes and revenues.

Weaknesses in the capital and credit markets could negatively impact the Company's access to capital.

The Company regularly relies on capital markets for the issuance of long-term debt instruments, commercial paper and bank financing from time to time. Instability or disruptions of the capital markets, including credit markets, or the deterioration of the Company's financial condition due to internal or external factors, could restrict or prohibit access and could increase financing costs. A significant deterioration of the Company's financial condition could also reduce credit ratings and could limit or affect its access to external sources of capital and increase the costs of short and long-term debt financing.

Availability of Critical Supplies and Labor

The unavailability of critical resources could adversely affect the Company's operational efficiency and ability to meet demand.

Marketplace conditions for resources like locomotives as well as the availability of qualified personnel, particularly engineers and conductors, could each have a negative impact on the Company's ability to meet demand for rail service. Although the Company strives to maintain adequate resources and personnel for the current business environment, unpredictable increases in demand for rail services or extreme weather conditions may exacerbate such risks, which could have a negative impact on the Company's operational efficiency and otherwise have a material adverse effect on the Company's financial condition, results of operations, or liquidity in a particular period.

Disruption to a key railroad industry supplier could negatively affect operating efficiency and increase costs.

The capital intensive and unique nature of core rail equipment (including rail, ties, rolling stock equipment and locomotives) limits the number of railroad equipment suppliers. If any of the current manufacturers stops production or experiences a supply shortage, CSXT could experience a significant cost increase or material shortage. In addition, a few critical railroad suppliers are foreign and, as such, adverse developments in international relations, new trade regulations, disruptions in international shipping or increases in global demand could make procurement of these supplies more difficult or increase CSXT's costs. Additionally, if a fuel supply shortage were to arise, the Company would be negatively impacted.

Failure to complete negotiations on collective bargaining agreements could result in strikes and/or work stoppages.

Most of CSX's employees are represented by labor unions and are covered by collective bargaining agreements. These agreements are either bargained for nationally by the National Carriers Conference Committee or locally between CSX and the union. Such agreements are negotiated over the course of several years and previously have not resulted in any extended work stoppages. Under the Railway Labor Act's procedures (which include mediation, cooling-off periods and the possibility of an intervention by the President of the United States), during negotiations neither party may take action until the procedures are exhausted. If, however, CSX is unable to negotiate acceptable agreements, the employees covered by the Railway Labor Act could strike, which could result in loss of business and increased operating costs as a result of higher wages or benefits paid to union members.

CSX CORPORATION
PART I

Climate Change and Environmental

The Company's operations and financial results could be negatively impacted by climate change and regulatory and legislative responses to climate change.

There is potential for operational impacts from changing weather patterns or rising sea levels in the Company's operational territory, which could impact the Company's network or other assets. Climate change and other emissions-related laws and regulations have been proposed and, in some cases adopted, on the federal, state, provincial and local levels. These final and proposed laws and regulations take the form of restrictions, caps, taxes or other controls on emissions. In particular, the EPA has issued various regulations and may issue additional regulations targeting emissions, including rules and standards governing emissions from certain stationary sources and from vehicles.

Any of these pending or proposed laws or regulations, including any proposed or implemented under the Biden administration, could adversely affect the Company's operations and financial results by, among other things: (i) reducing coal-fired electricity generation due to mandated emission standards; (ii) reducing the consumption of coal as a viable energy resource in the United States and Canada; (iii) increasing the Company's fuel, capital and other operating costs and negatively affecting operating and fuel efficiencies; and (iv) making it difficult for the Company's customers in the U.S. and Canada to produce products in a cost competitive manner. Any of these factors could reduce the amount of shipments the Company handles and have a material adverse effect on the Company's financial condition, results of operations or liquidity.

The Company is subject to environmental laws and regulations that may result in significant costs.

The Company is subject to wide-ranging federal, state, provincial and local environmental laws and regulations concerning, among other things, emissions into the air, ground and water; the handling, storage, use, generation, transportation and disposal of waste and other materials; the clean-up of hazardous material and petroleum releases and the health and safety of our employees. If the Company violates or fails to comply with these laws and regulations, CSX could be fined or otherwise sanctioned by regulators. The Company can also be held liable for consequences arising out of human exposure to any hazardous substances for which CSX is responsible. In certain circumstances, environmental liability can extend to formerly owned or operated properties, leased properties, adjacent properties and properties owned by third parties or Company predecessors, as well as to properties currently owned, leased or used by the Company.

The Company has been, and may in the future be, subject to allegations or findings to the effect that it has violated, or is strictly liable under, environmental laws or regulations, and such violations can result in the Company's incurring fines, penalties or costs relating to the cleanup of environmental contamination. Although the Company believes it has appropriately recorded current and long-term liabilities for known and reasonably estimable future environmental costs, it could incur significant costs that exceed reserves or require unanticipated cash expenditures as a result of any of the foregoing. The Company also may be required to incur significant expenses to investigate and remediate known, unknown or future environmental contamination.

Item 1B. Unresolved Staff Comments

None

CSX CORPORATION
PART I

Item 2. Properties

The Company's properties primarily consist of track and its related infrastructure, locomotives and freight cars and equipment. These categories and the geography of the network are described below.

Track and Infrastructure

Serving 23 states, the District of Columbia, and the Canadian provinces of Ontario and Quebec, the CSXT rail network serves, among other markets, New York, Philadelphia and Boston in the Northeast and Mid-Atlantic, the southeast markets of Atlanta, Miami and New Orleans, and the midwestern markets of St. Louis, Memphis and Chicago.

CSXT's track structure includes mainline track, connecting terminals and yards, track within terminals and switching yards, sidings used for passing trains, track connecting CSXT's track to customer locations and turnouts that divert trains from one track to another. Total track miles, which reflect the size of CSXT's network that connects markets, customers and western railroads, are greater than CSXT's approximately 19,500 route miles. At December 2021, the breakdown of track miles was as follows:

	Track Miles
Single mainline track	19,433
Other mainline track	5,707
Terminals and switching yards	9,278
Passing sidings and turnouts	887
Total	35,305

In addition to its physical track structure, the Company operates numerous yards and terminals for rail and intermodal service. These serve as points of connectivity between the Company and its local customers and as sorting facilities where railcars and intermodal containers are received, classed for destination and placed onto outbound trains, or arrive and are delivered to the customer. The Company's largest yards and terminals based on 2021 volume (number of railcars or intermodal containers processed) are listed below.

Yards and Terminals	Annual Volume
Waycross, GA	930,621
Bedford Park Intermodal Terminal (Chicago)	916,805
Avon, IN (Indianapolis)	671,856
Nashville, TN	660,424
Cincinnati, OH	644,679
Selkirk, NY	620,526
Walbridge, OH (Toledo)	407,205
Fairburn, GA Intermodal Terminal (Atlanta)	392,688
Louisville, KY	336,211
Chicago 59th St. Intermodal Terminal	313,870

CSX CORPORATION PART I

Network Geography

CSXT's operations are primarily focused on four major transportation networks and corridors that are defined geographically and by commodity flows below.

Interstate 90 (I-90) Corridor – This CSXT corridor links Chicago and the Midwest to metropolitan areas in New York and New England. This route, also known as the “waterlevel route,” has minimal hills and grades and nearly all of it has two main tracks (referred to as double track). These engineering attributes permit the corridor to support high-speed service across intermodal, automotive and merchandise commodities. This corridor is a primary route for import traffic coming from the far east through western ports moving eastward across the country, through Chicago and into the population centers in the Northeast. The I-90 Corridor is also a critical link between ports in New York, New Jersey, and Pennsylvania and consumption markets in the Midwest. This route carries goods from all three of the Company's major markets – merchandise, intermodal and coal.

Interstate 95 (I-95) Corridor – The CSXT I-95 Corridor connects Charleston, Jacksonville, Miami and many other cities throughout the Southeast with the heavily populated mid-Atlantic and northeastern cities of Baltimore, Philadelphia and New York. CSXT primarily transports food and consumer products, as well as metals and chemicals along this line. It is the leading rail corridor along the eastern seaboard south of the District of Columbia and provides access to major eastern ports.

Southeastern Corridor – This critical part of the network runs between CSXT's western gateways of Chicago, St. Louis and Memphis through the cities of Nashville, Birmingham, and Atlanta and markets in the Southeast. The Southeastern Corridor is the premier rail route connecting these key cities, gateways, and markets and positions CSXT to efficiently handle projected traffic volumes of intermodal, automotive and general merchandise traffic. The corridor also provides direct rail service between the coal reserves of the southern Illinois basin and the demand for coal in the Southeast.

Coal Network – The CSXT coal network connects the coal mining operations in the Appalachian mountain region and Illinois basin with industrial areas in the Southeast, Northeast and Mid-Atlantic, as well as many river, lake, and deep water port facilities. The domestic coal market has declined significantly over the last decade and export coal remains subject to a high degree of volatility. CSXT's coal network remains well positioned to supply utility markets in both the Northeast and Southeast and to transport coal shipments for export outside of the U.S. Approximately one-quarter of export coal and the majority of the domestic coal that the Company transports is used for generating electricity or industrial purposes.

See the following page for a map of the CSX Rail Network. Also included on the map, "CSX Operating Agreement" indicates areas within which CSX can operate through trackage rights beyond the CSX network.

CSX CORPORATION
PART I

CSX Rail Network

CSX CORPORATION
PART I

Locomotives

As of December 2021, CSXT owns or long-term leases more than 3,500 locomotives. From time to time, the Company also short-term leases locomotives based on business needs. Freight locomotives are used primarily to pull trains while switching locomotives are used in yards. Auxiliary units are typically used to provide extra traction for heavy trains in hilly terrain. Of owned locomotives, approximately 68% were in active service as of December 31, 2021, and the remainder were in storage to be utilized as needed. Storing locomotives and equipment allows the Company to quickly adjust its active fleet based on demand and other factors while avoiding delays due to supply limitations or excessive lead times to acquire additional equipment. As of December 2021, CSXT's fleet of owned or long-term leased locomotives consisted of the following types:

	Locomotives	%	Average Age (years)
Freight	3,126	89 %	22
Switching	212	6 %	43
Auxiliary units	178	5 %	29
Total locomotives	3,516	100 %	22

Equipment

The Company owns or long-term leases rail equipment, including several types of freight cars and intermodal containers. Of total owned and long-term leased equipment, approximately 87% was in active service as of December 31, 2021, and the remainder were in storage to be utilized as needed. As of December 2021, the Company's owned and long-term leased equipment consisted of the following:

Equipment	Number of Units	%
Gondolas	18,394	38 %
Multi-level flat cars	10,910	23 %
Covered hoppers	7,187	15 %
Open-top hoppers	6,610	14 %
Box cars	3,926	8 %
Flat cars	622	1 %
Other cars	384	1 %
Subtotal freight cars	48,033	100 %
Containers	17,147	
Total equipment	65,180	

At any time, approximately two-thirds of the railcars on the CSXT system are not owned or leased by the Company. Examples of these include railcars owned by other railroads (which are utilized by CSXT), shipper-furnished or private cars (which are generally used only in that shipper's service), multi-level railcars used to transport automobiles (which are shared between railroads) and double-stack railcars, or well cars (which are industry pooled), that allow for two intermodal containers to be loaded one above the other.

CSX CORPORATION PART I

The Company's revenue-generating equipment, either owned or long-term leased, primarily consists of freight cars and containers as described below.

Gondolas – Support CSXT's metals markets and provide transport for woodchips and other bulk commodities. Some gondolas are equipped with special hoods for protecting products like coil and sheet steel.

Multi-level flat cars – Transport finished automobiles and are differentiated by the number of levels: bi-levels for large vehicles such as pickup trucks and SUVs and tri-levels for sedans and smaller automobiles.

Covered hoppers – Have a permanent roof and are segregated based upon commodity density. Lighter bulk commodities such as grain, fertilizer, flour, salt, sugar, clay and lime are shipped in large cars called jumbo covered hoppers. Heavier commodities like cement, ground limestone and industrial sand are shipped in small cube covered hoppers.

Open-top hoppers – Transport heavy dry bulk commodities such as coal, coke, stone, sand, ores and gravel that are resistant to weather conditions.

Box cars – Include a variety of tonnages, sizes, door configurations and heights to accommodate a wide range of finished products, including paper, auto parts, appliances and building materials. Insulated box cars deliver food products, canned goods, beer and wine.

Flat cars – Used for shipping intermodal containers and trailers or bulk and finished goods, such as lumber, pipe, plywood, drywall and pulpwood.

Other cars – Primarily leased refrigerator cars and slab steel cars.

Containers – Weather-proof boxes used for bulk shipment of freight.

Executive Officers of the Registrant

Executive officers of the Company are elected by the CSX Board of Directors and generally hold office until the next annual election of officers. There are no family relationships or any arrangement or understanding between any officer and any other person pursuant to which such officer was elected. As of the date of this filing, the executive officers' names, ages and business experience are:

Name and Age	Business Experience During Past Five Years
James M. Foote, 68 <i>President and Chief Executive Officer</i>	<p>Foote has served as President and Chief Executive Office since December 2017. He joined CSX in October 2017 as Chief Operating Officer, with responsibility for both operations and sales and marketing.</p> <p>Mr. Foote has more than 40 years of railroad industry experience. Most recently, he was President and Chief Executive Officer of Bright Rail Energy. Before heading Bright Rail, he was Executive Vice President, Sales and Marketing with Canadian National Railway Company. At Canadian National, Mr. Foote also served as Vice President – Investor Relations and Vice President Sales and Marketing – Merchandise.</p>
Sean R. Pelkey, 42 <i>Executive Vice President and Chief Financial Officer</i>	<p>Pelkey was named Executive Vice President and Chief Financial Officer in January 2022 after serving as Vice President and Acting Chief Financial Officer since June 2021. Prior to these roles, Pelkey held the role of Vice President Finance & Treasury since 2017. In his current role, he is responsible for all financial aspects of the Company's business including financial and economic analysis, accounting, tax, treasury, real estate and purchasing activities.</p> <p>Prior to 2017, he has held the positions of AVP Capital Markets and Director Performance Analysis. During his 16 years with CSX, Mr. Pelkey has held a variety of other roles, including financial planning and technology finance.</p>
Kevin S. Boone, 44 <i>Executive Vice President and Chief Sales & Marketing Officer</i>	<p>Boone was named Executive Vice President and Chief Sales & Marketing Officer in June 2021 after serving as Chief Financial Officer since May 2019. In his current role, he is responsible for the commercial organization.</p> <p>Mr. Boone has more than 20 years of experience in finance, accounting, mergers and acquisitions, and transportation performance analysis. He joined CSX in September 2017 as Vice President of Corporate Affairs and Chief Investor Relations Officer and was later named Vice President, Marketing and Strategy leading research and data analysis to advance growth strategies for CSX. Before joining CSX in 2017, Mr. Boone worked as a Senior Equity Research Analyst at Janus Capital. He also served as a Vice President at Morgan Stanley in equity research and an associate at Merrill Lynch in the mergers and acquisitions group.</p>
Jamie J. Boychuk, 44 <i>Executive Vice President of Operations</i>	<p>Boychuk has served as CSXT's Executive Vice President of Operations since October 2019. In this role, he is responsible for mechanical, engineering, transportation and network operations, including terminals.</p> <p>Since joining CSXT in 2017, he has held the positions of Senior Vice President of Network, Engineering, Mechanical and Intermodal Operations; Vice President of Scheduled Railroading; and Assistant Vice President of Transportation Support. Mr. Boychuk previously worked at Canadian National Railway, where he served for 20 years in various operational roles of increasing responsibility, including sub-region General Manager.</p>

PART I**

Name and Age	Business Experience During Past Five Years
<p>Nathan D. Goldman, 64 <i>Executive Vice President and Chief Legal Officer</i></p>	<p>Goldman has served as Executive Vice President and Chief Legal Officer, and Corporate Secretary of CSX since November 2017. In this role, he directs the Company's legal affairs, government relations, corporate communications, risk management, public safety, environmental, and audit functions.</p> <p>During his 18 years with the Company, Mr. Goldman has previously served as Vice President of Risk Compliance and General Counsel and has overseen work in compliance, risk management and safety programs.</p>
<p>Diana B. Sorfleet, 57 <i>Executive Vice President and Chief Administrative Officer</i></p>	<p>Sorfleet was named Executive Vice President and Chief Administrative Officer in July 2018. In this role, her responsibilities include human resources, information technology, labor relations, people systems and analytics, total rewards and aviation.</p> <p>During her 10 years with the Company, Ms. Sorfleet has previously served as Chief Human Resources Officer. Prior to joining CSX, she worked in human resources for 20 years.</p>
<p>Angela C. Williams, 47 <i>Vice President and Chief Accounting Officer</i></p>	<p>Williams has served as Vice President and Chief Accounting Officer of CSX since March 2018. She is responsible for financial and regulatory reporting, freight billing and collections, payroll, accounts payable and various other accounting processes.</p> <p>During her 18 years with the Company, she previously served as Assistant Vice President - Assistant Controller and in other various accounting roles. With more than 24 years of experience, Williams held various accounting and auditing positions prior to joining CSX. Ms. Williams is a Certified Public Accountant.</p>

CSX CORPORATION
PART II

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

CSX’s common stock is listed on the Nasdaq Global Select Market, which is its principal trading market, and is traded over-the-counter and on exchanges nationwide. The official trading symbol is “CSX.”

Description of Common and Preferred Stock

A total of 5.4 billion shares of common stock are authorized, of which 2,201,787,404 shares were outstanding as of December 31, 2021. Each share is entitled to one vote in all matters requiring a vote of shareholders. There are no preemptive rights, which are privileges extended to select shareholders that would allow them to purchase additional shares before other members of the general public in the event of an offering. At January 31, 2022, the latest practicable date that is closest to the filing date, there were 23,137 common stock shareholders of record. The weighted average of common shares outstanding, which was used in the calculation of diluted earnings per share, was 2,255 million as of December 31, 2021. (See Note 2, *Earnings Per Share*.) A total of 25 million shares of preferred stock is authorized, none of which is currently outstanding.

The following table sets forth, for the quarters indicated, the dividends declared on CSX common stock.

	Quarter				
	1st	2nd	3rd	4th	Year
2021 \$	0.093	\$ 0.093	\$ 0.093	\$ 0.093	\$ 0.372

Stock Performance Graph

The cumulative shareholder returns, assuming reinvestment of dividends, on \$100 invested at December 31, 2016 are illustrated on the graph below. The Company references the Standard & Poor’s 500 Stock Index (“S&P 500®”), and the Dow Jones U.S. Transportation Average Index, which provide comparisons to a broad-based market index and other companies in the transportation industry.

CSX CORPORATION
PART II

CSX Purchases of Equity Securities

The Company continues to repurchase shares under the \$5 billion program announced in October 2020. Total repurchase authority remaining as of December 31, 2021 was \$3.0 billion. For more information about share repurchases, see Note 2, *Earnings Per Share*. Share repurchase activity of \$570 million for the fourth quarter 2021 was as follows:

CSX Purchases of Equity Securities for the Quarter

Fourth Quarter	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
Beginning Balance				\$ 3,572,838,310
October 1 - October 31, 2021	5,194,579	\$ 31.56	5,194,579	3,408,904,138
November 1 - November 30, 2021	4,300,579	35.60	4,300,579	3,255,785,536
December 1 - December 31, 2021	6,984,577	36.17	6,984,577	3,003,170,964
Ending Balance	16,479,735	\$ 34.57	16,479,735	\$ 3,003,170,964

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

TERMS USED BY CSX

When used in this report, unless otherwise indicated by the context, these terms are used to mean the following:

Car hire - A charge paid by one railroad for its use of cars belonging to another railroad or car owner.

Class I freight railroad - One of the largest line haul freight railroads as determined based on operating revenue; the exact revenue required to be in each class is periodically adjusted for inflation by the Surface Transportation Board. Smaller railroads are classified as Class II or Class III.

Common carrier mandate - A federal mandate that requires U.S. railroads to accommodate reasonable requests from shippers to carry any freight, including hazardous materials.

Demurrage - A charge assessed by railroads for the use of rail cars by shippers or receivers of freight beyond a specified free time.

Department of Transportation ("DOT") - A U.S. government agency with jurisdiction over matters of all modes of transportation.

Depreciation study - Conducted by a third-party specialist and analyzed by management, a periodic statistical analysis of fixed asset service lives, salvage values, accumulated depreciation, and other factors for group assets along with a comparison of similar asset groups at other companies.

Double-stack - Stacking containers two-high on specially equipped cars.

Environmental Protection Agency ("EPA") - A U.S. government agency that has regulatory authority with respect to environmental law.

Federal Railroad Administration ("FRA") - The branch of the DOT that is responsible for developing and enforcing railroad safety regulations, including safety standards for rail infrastructure and equipment.

Free cash flow - The calculation of a non-GAAP measure by using net cash provided by operating activities and adjusting for property additions and certain other investing activities. Free cash flow is a measure of cash available for paying dividends, share repurchases and principal reduction on outstanding debt.

Group-life depreciation - A type of depreciation in which assets with similar useful lives and characteristics are aggregated into groups. Instead of calculating depreciation for individual assets, depreciation is calculated as a whole for each group.

Incidental charges - Charges for switching, demurrage, storage, etc.

Intermodal - A flexible way of transporting freight over highway, rail and water without being removed from the original transportation equipment, namely a container or trailer.

Mainline - The main track thoroughfare, exclusive of terminals, yards, sidings and turnouts.

CSX CORPORATION
PART II

Pipeline and Hazardous Materials Safety Administration ("PHMSA") - An agency within the DOT that, together with the FRA, has broad jurisdiction over railroad operating standards and practices, including hazardous materials requirements.

Positive Train Control ("PTC") - An interoperable train control system designed to prevent train-to-train collisions, over-speed derailments, incursions into established work-zone limits, and train diversions onto another set of tracks.

Revenue adequacy - The achievement of a rate of return on investment at least equal to the industry cost of investment capital, as measured by the STB.

Shipper - A customer shipping freight via rail.

Siding - Track adjacent to the mainline used for passing trains.

Staggers Act of 1980 - Congressional law that significantly deregulated the rail industry, replacing the regulatory structure in existence since the 1887 Interstate Commerce Act. Where previously rates were controlled by the Interstate Commerce Commission, the Staggers Act allowed railroads to establish their own rates for shipments, enhancing their ability to compete with other modes of transportation.

Surface Transportation Board ("STB") - An independent governmental adjudicatory body administratively housed within the DOT, responsible for the economic regulation of interstate surface transportation within the United States.

Switching - Putting cars in a specific order, placing cars for loading, retrieving empty cars or adding or removing cars from a train at an intermediate point.

Terminal - A facility, typically owned by a railroad, for the handling of freight and for the breaking up, making up, forwarding and servicing of trains.

Transportation Security Administration ("TSA") - A component of the Department of Homeland Security with broad authority over railroad operating practices that may have homeland security implications.

TTX Company ("TTX") - A company that provides its owner-railroads with standardized fleets of intermodal, automotive and general use railcars at time and mileage rates. CSX owns about 20 percent of TTX's common stock, and the remainder is owned by the other leading North American railroads and their affiliates.

Turnout - A track that diverts trains from one track to another.

Yard - A system of tracks, other than main tracks and sidings, used for making up trains, storing cars and other purposes.

CSX CORPORATION
PART II
2021 HIGHLIGHTS

- Revenue of \$12.5 billion increased \$1.9 billion or 18% versus the prior year.
- Expenses of \$6.9 billion increased \$707 million or 11% year over year.
- Operating income of \$5.6 billion increased \$1.2 billion or 28% year over year.
- Operating ratio of 55.3% improved 350 basis points from 58.8%.
- Earnings per diluted share of \$1.68 increased \$0.48 or 40% year over year.

RESULTS OF OPERATIONS

The following section generally discusses the Company's results of operations and financial condition for the year ended December 31, 2021, compared to the year ended December 31, 2020. A discussion regarding results of operations and financial condition for the year ended December 31, 2020, compared to the year ended December 31, 2019, except as provided herein, can be found in Part II, Item 7 of CSX's Annual Report on Form 10-K for fiscal year 2020, filed with the Securities and Exchange Commission on February 10, 2021.

2021 vs. 2020 Results of Operations

	Fiscal Years		\$ Change	% Change
	2021	2020		
<i>(Dollars in Millions)</i>

Earnings Per Diluted Share^(b)	\$ 1.68	\$ 1.20	\$ 0.48	40 %
Operating Ratio	55.3 %	58.8 %		350 bps

(a) Beginning third quarter 2021, the Company changed the name of Materials, Supplies and Other expense to Purchased Services and Other, which better describes the composition of this expense amount. This change in naming convention does not impact previously reported results.

(b) All prior period share and per share data has been retroactively adjusted to reflect the stock split effective June 28, 2021. Certain prior year data has been reclassified to conform to the current presentation.

CSX CORPORATION PART II

Acquisition of Quality Carriers, Inc.

On July 1, 2021, CSX acquired Quality Carriers, Inc. from Quality Distribution, Inc. for a purchase price of \$544 million in cash, which is presented on the statement of cash flows net of \$3 million cash acquired. This transaction was funded by cash on hand. For further details, refer to Note 17, *Business Combinations*.

COVID-19 Update

Demand for rail services has improved from steep declines in the first half of 2020, but the effects of the disruption of global manufacturing, supply chains and consumer spending as a result of the COVID-19 global pandemic are ongoing. Future impacts of the pandemic on the Company's financial and operating results will be determined by its duration, effects on the demand for the Company's transportation services and the supply chain, as well as the effect of governmental regulations imposed and legislative stimulus packages passed in response to the pandemic. The duration of the pandemic is dependent on several factors, including the impacts of virus mutations and case resurgences across the country.

CSX employees that provide efficient and reliable rail service are essential to keeping supply chains fluid in response to this challenge. Accordingly, business operations have been modified to ensure the safety of employees across the network while continuing to provide a high level of service to customers. The Company is strongly encouraging employees to get vaccinated. A cross-functional task force continues to monitor and coordinate the Company's response to COVID-19.

NM - not meaningful

(a) Effective first quarter 2021, changes were made in the categorization of certain lines of business, impacting Forest Products and Fertilizers. The impacts were not material and prior periods have been reclassified to conform to the current presentation.

(b) Effective third quarter 2021, Trucking revenue is comprised of revenue from the operations of Quality Carriers, which was acquired by CSX effective July 1, 2021.

CSX CORPORATION
PART II

Revenue

Total revenue increased \$1.9 billion in 2021, or 18%, when compared to the previous year due to higher volume, the inclusion of Quality Carriers' results, pricing gains, increases in other revenue and higher fuel recovery.

Merchandise Volume

Chemicals - Decreased due to lower shipments of crude oil and other energy-related commodities, partially offset by higher shipments of core chemicals and waste.

Agricultural and Food Products - Increased as a result of higher shipments of vegetable oils, ethanol, and food and consumer products.

Minerals - Increased as a result of higher shipments of cement, lime and limestone.

Automotive - Decreased due to lower vehicle production at plants served by CSX, which were impacted by shortages of semiconductors and other parts.

Forest Products - Increased primarily due to higher shipments of pulpboard, woodpulp and building products.

Metals and Equipment - Increased as growth across the metals markets was partially offset by reduced equipment shipments.

Fertilizers - Increased due to higher long-haul fertilizer shipments, partially offset by lower short-haul phosphate shipments.

Intermodal Volume

Increases in both domestic and international shipments resulted from strong demand, tight truck capacity, inventory replenishments and growth in rail volumes from east coast ports.

Coal Volume

The increase in export coal was driven by higher international shipments of both thermal coal and metallurgical coal. Domestic coal increased due to higher shipments of utility coal as well as higher steel and industrial shipments.

Trucking Revenue

Trucking revenue increased \$410 million versus prior year due to the inclusion of Quality Carriers' results.

Other

Other revenue increased \$336 million versus prior year due to increases in revenue for intermodal storage and equipment usage as well as higher affiliate and demurrage revenue.

CSX CORPORATION PART II

Expense

In 2021, total expenses increased \$707 million, or 11%, compared to prior year. Descriptions of each expense category as well as significant year-over-year changes are described below.

Labor and Fringe expenses include employee wages and related payroll taxes, health and welfare costs, pension, other post-retirement benefits and incentive compensation. These expenses increased \$275 million due to the following items:

- Inflation and higher volume resulted in \$133 million of increased expenses.
- Incentive compensation increased \$123 million primarily due to higher expected payouts in the current year, including accelerated expense for certain employees.
- The acquisition of Quality Carriers resulted in increased costs of \$61 million.
- Other costs decreased \$42 million primarily due to efficiency savings, lower severance expenses and other non-significant items, partially offset by expenses related to increased hiring and new retention programs of \$38 million.

Purchased Services and Other expenses consist primarily of contracted services to maintain infrastructure and equipment, terminal and pier services, purchased trucking and other transportation, and professional services. This category also includes costs related to materials, travel, casualty claims, environmental remediation, train accidents, property and sales tax, utilities and other items. Total purchased services and other expenses increased \$416 million driven by the following:

- The inclusion of Quality Carriers' operations drove \$257 million of additional costs.
- Higher operating support costs, primarily due to an increased active locomotive fleet, as well as higher intermodal terminal costs drove an increase of \$80 million.
- All other costs increased \$79 million primarily due to inflation and other non-significant costs, including \$17 million in expenses related to the acquisition of Quality Carriers.

Depreciation expense primarily relates to recognizing the costs of capital assets, such as locomotives, railcars and track structure, over their respective useful lives, which are reviewed periodically as part of depreciation studies. This expense is impacted primarily by the capital expenditures made each year. Depreciation expense increased \$37 million primarily due to a larger net asset base, which includes Quality Carriers' assets, partially offset by the impacts of the 2020 road and track depreciation study.

Fuel expense includes locomotive diesel fuel as well as non-locomotive fuel. This expense is largely driven by the market price and locomotive consumption of diesel fuel. Fuel expense increased \$372 million primarily due to a 55% price increase in locomotive fuel prices and the inclusion of non-locomotive fuel used for trucking.

Equipment and Other Rents expense includes rent paid for freight cars owned by other railroads or private companies, net of rents received by CSXT for use of its equipment. This category of expenses also includes expenses for short-term and long-term leases of locomotives, railcars, containers, tractors and trailers, offices and other rentals. These expenses increased \$26 million primarily due to increased car hire costs driven by higher days per load and the addition of Quality Carriers' costs, partially offset by other non-significant items.

Gains on Property Dispositions increased to \$454 million in 2021 from \$35 million in 2020 primarily due to the conveyance of a permanent land easement to the Commonwealth of Virginia that resulted in a \$349 million gain in April 2021 as well as other property dispositions throughout 2021.

CSX CORPORATION
PART II

Interest Expense

Interest Expense includes interest on long-term debt, equipment obligations and finance leases. Interest expense decreased \$32 million as a result of lower average interest rates and a lower average debt balance.

Other Income - Net

Other Income - Net includes investment gains, losses and interest income, as well as components of net periodic pension and post-retirement benefit cost and other non-operating activities. Other income increased \$60 million primarily due to \$48 million debt repurchase expense in the prior year and an increase in net pension benefit credits during 2021, partially offset by lower interest income.

Income Tax Expense

Income Tax Expense increased \$308 million primarily due to higher earnings before income taxes, partially offset by favorable state legislative changes and adjustments to deferred taxes as a result of filing of the 2020 state tax returns.

Net Earnings and Earnings per Diluted Share

Net Earnings increased \$1 billion to \$3.8 billion, and earnings per diluted share increased \$0.48 to \$1.68, due to the factors mentioned above. Average shares outstanding was lower as a result of share repurchase activity during the year and had a favorable impact on earnings per diluted share.

CSX CORPORATION
PART II

2020 vs. 2019 Results of Operations

See below for discussion regarding operating expenses and earnings per share for the year ended December 31, 2020, compared to the year ended December 31, 2019. These discussion items have been updated to conform to the current presentation due to the reclassification of gains on property dispositions from the Purchased Services and Other caption to Gain on Property Dispositions, which had no impact on operating income, as well as the three-for-one stock split effective June 28, 2021.

Expense

In 2020, total expenses decreased \$751 million, or 11%, compared to 2019. Descriptions of each expense category as well as significant year-over-year changes are described below.

Labor and Fringe expenses include employee wages and related payroll taxes, health and welfare costs, pension, other post-retirement benefits and incentive compensation. These expenses decreased \$341 million due to the following items:

- Efficiency and volume savings of \$288 million primarily resulted from structural changes to the train plan that resulted in reduced crew starts as well as lower headcount.
- Incentive compensation decreased \$86 million primarily due to lower expected annual incentive payouts as well as higher prior year accelerated stock compensation expense for certain retirement-eligible employees.
- Other costs increased \$33 million primarily due to inflation and several other non-significant items, including severance costs.

Purchased Services and Other expenses consist primarily of contracted services to maintain infrastructure and equipment, terminal and pier services and professional services. This category also includes costs related to materials, travel, casualty claims, environmental remediation, train accidents, property and sales tax, utilities and other items. Total purchased services and other expenses decreased \$181 million driven by the following:

- Efficiency and volume savings of \$185 million primarily resulted from lower operating support costs, lower terminal costs as a result of record productivity levels at intermodal terminals, and reduced equipment maintenance expenses.
- All other costs increased \$4 million primarily due to inflation and other non-significant costs that were mostly offset by a \$22 million non-railroad asset impairment in the prior year related to an intermodal terminal sale agreement.

Depreciation expense primarily relates to recognizing the costs of capital assets, such as locomotives, railcars and track structure, over their respective useful lives, which are reviewed periodically as part of depreciation studies. This expense is impacted primarily by the capital expenditures made each year. Depreciation expense increased \$34 million primarily due to the impacts of the 2019 equipment depreciation study as well as a larger net asset base.

CSX CORPORATION PART II

Fuel expense includes locomotive diesel fuel as well as non-locomotive fuel. This expense is largely driven by the market price and locomotive consumption of diesel fuel. Fuel expense decreased \$365 million primarily due to a 31% price decrease that drove savings of \$243 million, volume savings and a 5% improvement in fuel efficiency.

Equipment and Other Rents expense includes rent paid for freight cars owned by other railroads or private companies, net of rents received by CSXT for use of its equipment. This category of expenses also includes expenses for short-term and long-term leases of locomotives, railcars, containers, tractors and trailers, offices and other rentals. These expenses decreased \$14 million primarily due to volume savings, partially offset by higher days per load for automotive and other merchandise markets that resulted in increased car hire costs.

Gains on Property Dispositions decreased to \$35 million in 2020 from \$151 million in 2019.

Net Earnings and Earnings per Diluted Share

Net Earnings decreased \$566 million to \$2.8 billion, and earnings per diluted share decreased \$0.19 to \$1.20. Average shares outstanding was lower as a result of share repurchase activity during the year and had a favorable impact on earnings per diluted share.

CSX CORPORATION
PART II

NON-GAAP MEASURES (Unaudited)

CSX reports its financial results in accordance with United States generally accepted accounting principles ("GAAP"). CSX also uses certain non-GAAP measures that fall within the meaning of Securities and Exchange Commission Regulation G and Regulation S-K Item 10(e), which may provide users of the financial information with additional meaningful comparison to prior reported results. Non-GAAP measures do not have standardized definitions and are not defined by GAAP. Therefore, CSX's non-GAAP measures are unlikely to be comparable to similar measures presented by other companies. The presentation of these non-GAAP measures should not be considered in isolation from, as a substitute for, or as superior to the financial information presented in accordance with GAAP. Reconciliations of non-GAAP measures to corresponding GAAP measures are below.

Free Cash Flow

Management believes that free cash flow is useful to investors as it is important in evaluating the Company's financial performance. More specifically, free cash flow measures cash generated by the business after reinvestment. This measure represents cash available for both equity and bond investors to be used for dividends, share repurchases or principal reduction on outstanding debt. Free cash flow is calculated by using net cash from operations and adjusting for property additions and certain other investing activities, which includes proceeds from property dispositions. This measure should be considered in addition to, rather than a substitute for, cash provided by operating activities. Free cash flow before dividends increased \$1.2 billion year-over-year to \$3.8 billion primarily due to higher net cash provided by operating activities and higher proceeds and advances from property dispositions, including \$400 million of proceeds related to the conveyance of a permanent land easement to the Commonwealth of Virginia in 2021. These increases were partially offset by higher property additions.

The following table reconciles cash provided by operating activities (GAAP measure) to free cash flow and adjusted free cash flow (both non-GAAP measures).

	Fiscal Years	
	2021	2020
<i>(Dollars in Millions)</i>		
Net cash provided by operating activities ^(a)	\$ 5,099	\$ 4,263
Property additions	(1,791)	(1,626)
Other investing activities ^(b)	525	9
Free Cash Flow, before dividends (non-GAAP)	\$ 3,833	\$ 2,646

(a) Net cash provided by operating activities for the year ended December 31, 2020, includes the impact of \$21 million paid to settle a liability for non-controlling interest in an affiliate.

(b) For the year ended December 31, 2020, certain other investing activities used in the calculation of free cash flow do not include the impact of a \$30 million deposit paid by the Company related to its signed definitive agreement to acquire Pan Am Railways, Inc. This transaction remains subject to regulatory review and approval by the Surface Transportation Board. This deposit is included in the other investing activities total on the consolidated cash flow statement for the year ended December 31, 2020.

CSX CORPORATION
PART II
OPERATING STATISTICS (Estimated)

	Fiscal Years		
	2021	2020	<i>Improvement/ (Deterioration)</i>

Safety			
FRA Personal Injury Frequency Index	0.92	0.82	(12)%
FRA Train Accident Rate	2.90	3.16	8 %

(a) The methodologies for calculating train velocity, dwell and cars online differ from those prescribed by the STB as the Company believes these numbers more accurately reflect railroad performance. CSXT will continue to report these metrics, using the prescribed methodology, to the STB on a weekly basis. See additional discussion on the Company's website.

Certain operating statistics are estimated and can continue to be updated as actuals settle.

Key Performance Measures Definitions:

Train Velocity - Average train speed between origin and destination in miles per hour (does not include locals, yard jobs, work trains or passenger trains). Train velocity measures the profiled schedule of trains (from departure to arrival and all interim time), and train profiles are periodically updated to align with a changing operation.

Dwell - Average amount of time in hours between car arrival to and departure from the yard.

Cars Online - Average number of active freight rail cars on lines operated by CSX, excluding rail cars that are being repaired, in storage, those that have been sold, or private cars dwelling at a customer location more than one day.

On-Time Originations - Percent of scheduled road trains that depart the origin yard on-time or ahead of schedule.

On-Time Arrivals - Percent of scheduled road trains that arrive at the destination yard on-time to within two hours of scheduled arrival.

Carload Trip Plan Performance - Percent of measured cars destined for a customer that arrive at or ahead of the original estimated time of arrival, notification or interchange (as applicable).

Intermodal Trip Plan Performance - Percent of measured containers destined for a customer that arrive at or ahead of the original estimated time of arrival, notification or interchange (as applicable).

Fuel Efficiency - Gallons of locomotive fuel per 1,000 gross ton-miles.

Revenue Ton-Miles (RTM's) - The movement of one revenue-producing ton of freight over a distance of one mile.

Gross Ton-Miles (GTM's) - The movement of one ton of train weight over one mile. GTM's are calculated by multiplying total train weight by distance the train moved. Total train weight is comprised of the weight of the freight cars and their contents.

FRA Personal Injury Frequency Index - Number of FRA-reportable injuries per 200,000 man-hours.

FRA Train Accident Rate - Number of FRA-reportable train accidents per million train-miles.

CSX CORPORATION PART II

The Company is committed to continuous improvement in safety and service performance through training, innovation and investment. Training and safety programs are designed to prevent incidents that can adversely impact employees, customers and communities. Technological innovations that can detect and avoid many types of human factor incidents are designed to serve as an additional layer of protection for the Company's employees. Continued capital investment in the Company's assets, including track, bridges, signals, equipment and detection technology also supports safety performance.

Despite the operating challenges presented by global supply disruptions and the ongoing COVID-19 pandemic, the Company remained focused on safety, service, and controlling costs. Train velocity declined 11% relative to 2020. Dwell increased by 15% and cars online increased 17% in 2021. Compared to 2020, carload and intermodal trip plan performance decreased 10% and 3%, respectively. CSX expects network fluidity to improve commensurate with ongoing hiring efforts and a return to more normal supply chain conditions.

From a safety perspective, the FRA personal injury index increased by 12% while the train-accident rate improved by 8% from the prior year. Safety remains a top priority at CSX, and the Company is committed to reducing risk and enhancing the overall safety of its employees, customers and communities in which the Company operates.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity is a company's ability to generate adequate amounts of cash to meet both current and future needs for obligations as they mature and to provide for planned capital expenditures, including those to address regulatory and legislative requirements. To have a complete picture of a company's liquidity, its sources and uses of cash, balance sheet and external factors should be reviewed.

Significant Cash Flows

The following charts highlight the operating, investing and financing components of the change in cash and cash equivalents for operating, investing and financing activities for full years 2021 and 2020.

In 2021, the Company generated \$5.1 billion of cash from by operating activities, which was \$836 million higher than prior year primarily driven by higher cash-generating income and favorable working capital activities. Net cash used in investing activities was \$1.9 billion, an increase in net spend of \$1.2 billion from the prior year primarily as a result of decreased net sales of short-term investments and cash paid to acquire Quality Carriers, partially offset by higher proceeds and advances from property dispositions. Net cash used in financing activities was \$4.1 billion, which represents an increase in net spend of \$2.7 billion from the prior year primarily driven by higher share repurchases and lower proceeds from debt issuances, partially offset by lower debt repayments.

CSX CORPORATION
PART II

Sources of Cash and Liquidity

The Company has multiple sources of liquidity, including cash generated from operations and financing sources. Simultaneous with the filing of this Form 10-K, the Company intends to file a new shelf registration statement, which may be used to issue debt or equity securities at CSX's discretion, subject to market conditions and CSX Board authorization. While CSX seeks to give itself flexibility with respect to cash requirements, there can be no assurance that market conditions would permit CSX to sell such securities on acceptable terms at any given time, or at all. In 2021, CSX did not issue any new long-term debt.

CSX has access to a \$1.2 billion five-year unsecured revolving credit facility backed by a diverse syndicate of banks that expires in March 2024. As of December 31, 2021, the Company had no outstanding balances under this facility. See Note 10, *Debt and Credit Agreements* for more information. The Company also has a commercial paper program, backed by the revolving credit facility, under which the Company may issue unsecured commercial paper notes up to a maximum aggregate principal amount of \$1.0 billion outstanding at any one time. As of December 31, 2021, the Company had no outstanding debt under the commercial paper program.

Uses of Cash

CSX uses current cash balances for general corporate purposes, which may include capital expenditures, working capital requirements, reduction or refinancing of outstanding indebtedness, redemptions and repurchases of CSX common stock, dividends to shareholders, acquisitions and other business opportunities, and contributions to the Company's qualified pension plan.

In 2021, CSX continued to invest in its business to create long-term value for shareholders. The Company is committed to maintaining and improving its existing infrastructure and to positioning itself for long-term, profitable growth through optimizing network and terminal capacity. Funds used for property additions are further described below.

Capital Expenditures <i>(Dollars in Millions)</i>	Fiscal Years	
	2021	2020
Track	\$ 876	\$ 858
Bridges, Signals and Other	567	508
Total Infrastructure	1,443	1,366
Strategic Projects and Commercial Facilities	194	143
Locomotives	89	57
Regulatory (including PTC)	36	39
Freight Cars	29	21
Total Capital Expenditures	\$ 1,791	1,626

Planned capital investments for 2022 are expected to be approximately \$2.0 billion. Of the 2022 investment, over 80% is expected to be used to sustain the core infrastructure and operating equipment. The remaining amounts will be used to promote profitable growth, including projects supporting service enhancements and productivity initiatives. CSX intends to fund capital investments through cash generated from operations.

CSX is continually evaluating market and regulatory conditions that could affect the Company's ability to generate sufficient returns on capital investments. CSX may revise its future estimates for capital spending as a result of changes in business conditions, tax legislation or the enactment of new laws or regulations, which could have a material adverse effect on the Company's operations and financial performance in the future (see *Risk Factors* under Item 1A of this Form 10-K).

CSX CORPORATION PART II

CSX is committed to returning cash to shareholders. Capital structure, capital investments and cash distributions, including dividends and share repurchases, are reviewed at least annually by the Board of Directors. On February 16, 2022, the Company's Board of Directors authorized a 7% increase in the quarterly cash dividend to \$0.10 per common share effective March 2022. Management's assessment of market conditions and other factors guides the timing and volume of repurchases. Future share repurchases are expected to be funded by cash on hand, cash generated from operations and debt issuances.

Material Changes in the Consolidated Balance Sheets and Working Capital

CSX's balance sheet reflects its strong capital base and the impact of CSX's balanced approach in deploying capital for the benefit of its shareholders, which includes investments in infrastructure, dividend payments and share repurchases. Further, CSX is well positioned from a liquidity standpoint. The Company ended the year with \$2.3 billion of cash, cash equivalents and short-term investments.

Total assets as well as total liabilities and shareholders' equity increased \$738 million from prior year end. The increase in total assets was primarily due to a net increase in property of \$571 million attributable to capital expenditures and the consolidation of Quality Carrier's properties, the recognition of \$393 million of goodwill and intangible assets related to the acquisition of Quality Carriers, a \$236 million increase in accounts receivable commensurate with higher revenue and a \$226 million increase in net assets for qualified pension plans primarily driven by favorable discount rates. These increases were partially offset by the \$890 million decrease in cash described above.

Total liabilities increased \$348 million from year end primarily due to an increase in deferred tax liabilities of \$215 million driven by accelerated tax depreciation, an increase in accounts payable of \$154 million due to the timing of payments, an increase in labor and fringe benefit payable of \$148 million partly due higher expected incentive compensation payouts, the assumption of \$68 million in debt as a result of the acquisition of Quality Carriers, and an increase in income and other taxes payable of \$61 million. These and other increases were offset by debt repayments of \$426 million. Total shareholders' equity increased \$390 million from year end primarily driven by net earnings of nearly \$3.8 billion, mostly offset by share repurchases of \$2.9 billion and dividends paid of \$839 million.

Working capital is considered a measure of a company's ability to meet its short-term needs. CSX had a working capital surplus of \$1.6 billion at December 2021 and \$2.4 billion at December 2020, a decrease of \$782 million. The decrease in current assets was primarily driven by the net decrease in cash described above, partially offset by the increase in accounts receivable. The increase in current liabilities was due to higher accounts payable and labor and fringe payable, partially offset by lower current maturities of long-term debt.

The Company's working capital balance varies due to factors such as the timing of scheduled debt payments and changes in cash and cash equivalent balances. Although the Company currently has a surplus, a working capital deficit is not unusual for CSX or other companies in the industry and does not indicate a lack of liquidity. The Company continues to maintain adequate current assets to satisfy current liabilities and maturing obligations when they come due. Furthermore, CSX has sufficient financial capacity, including its revolving credit facility, commercial paper program and shelf registration statement to manage its day-to-day cash requirements and any anticipated obligations. The Company from time to time accesses the credit markets for additional liquidity.

CSX CORPORATION PART II

Completed and Pending Transactions

Acquisition of Quality Carriers, Inc.

On July 1, 2021, CSX acquired Quality Carriers, Inc. from Quality Distribution, Inc. for a purchase price of \$544 million in cash, which is presented on the statement of cash flows net of \$3 million cash acquired. This transaction was funded by cash on hand. For further details, refer to Note 17, *Business Combinations*.

Proposed Acquisition of Pan Am Systems, Inc.

On November 30, 2020, CSX signed a definitive agreement to acquire Pan Am Systems, Inc. ("Pan Am") which is the parent company of Pan Am Railways, Inc. who jointly owns Pan Am Southern, LLC with a subsidiary of Norfolk Southern Corporation. Pan Am owns and operates a highly integrated, nearly 1,200-mile rail network and has a joint interest in the more than 600-mile Pan Am Southern system. This acquisition, if approved, will expand CSX's reach in the Northeastern United States. Assets and facilities to be acquired as part of the proposed transaction include road and track assets, work equipment, land, buildings and other assets. On February 25, 2021, the Company began the process of seeking approval from the STB. On January 13 and 14, 2022, the Company participated in a hearing before the STB to discuss the proposed transaction and a decision is expected by mid-April 2022. This proposed acquisition is not expected to be material with respect to the Company's financial statements when reviewed under the quantitative and qualitative considerations of Regulation S-X Article 11 and ASC 805, *Business Combinations*.

Sale of Property Rights to the Commonwealth of Virginia

On March 26, 2021, the Company entered into a comprehensive agreement to sell certain property rights in three CSX-owned line segments to the Commonwealth of Virginia ("Commonwealth") over three phases for a total of \$525 million. The timing and amount of gains recognized are based on the allocation of fair value to each conveyance, the timing of future conveyances and collectability. In April 2021, upon closing of the first phase of the agreement, the Company collected \$200 million in proceeds and recognized a \$349 million gain. In fourth quarter 2021, the Company collected additional proceeds of \$200 million, a portion of which was attributable to the first phase with the remaining attributable to the second phase. There was no gain recognized in fourth quarter 2021 related to this agreement. As the second phase closed on January 10, 2022, the resulting \$20 million gain will be recognized in first quarter 2022.

The Company anticipates closing on the remaining conveyances by the end of 2022, which will result in future cash proceeds and gains. As of December 31, 2021, the carrying values of the remaining assets subject to this transaction were not material.

CSX CORPORATION PART II

Credit Ratings

Credit ratings reflect an independent agency's judgment on the likelihood that a borrower will repay a debt obligation at maturity. The ratings reflect many considerations, such as the nature of the borrower's industry and its competitive position, the size of the company, its liquidity and access to capital and the sensitivity of a company's cash flows to changes in the economy. The two largest rating agencies, Standard & Poor's Ratings Services ("S&P") and Moody's Investors Service ("Moody's"), use alphanumeric codes to designate their ratings. The highest quality rating for long-term credit obligations is AAA and Aaa for S&P and Moody's, respectively. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency.

The cost and availability of unsecured financing are materially affected by CSX's long-term credit ratings. CSX's credit ratings remained stable during 2021. As of December 2021 and December 2020, S&P's long-term rating on CSX was BBB+ (Stable), and Moody's was Baa1 (Stable). Ratings of BBB- and Baa3 or better by S&P and Moody's, respectively, reflect ratings on debt obligations that fall within a band of credit quality considered to be investment grade. If CSX's credit ratings were to decline to below investment-grade levels, the Company could experience significant increases in its interest cost for new debt. In addition, a decline in CSX's credit ratings to below investment grade levels could adversely affect the market's demand, and thus the Company's ability to readily issue new debt. The Company is committed to maintaining an investment-grade credit profile.

Guaranteed Notes Issued By CSXT

In 2007, CSXT, a wholly-owned subsidiary of CSX Corporation, issued in a registered public offering \$381 million of secured equipment notes maturing in 2023. CSX Corporation has fully and unconditionally guaranteed the notes. At CSXT's option, CSXT may redeem any or all of the notes, in whole or in part, at any time, at the redemption price including premium. In the case of loss or destruction of any item of equipment securing the notes, if CSXT does not substitute another item of equipment for the item suffering such loss or destruction, CSXT will be required to redeem the notes in part at par. The guarantee of the notes will rank equally in right of payment with all existing and future senior obligations of CSX Corporation and will be effectively subordinated to all future secured indebtedness of CSX Corporation to the extent of the assets securing such indebtedness. The guarantee is subject to release in limited circumstances only upon the occurrence of certain customary conditions. As of December 31, 2021, the principal balance of these secured equipment notes was \$149 million.

In accordance with SEC rules, including amendments adopted in 2020, CSX is not required to present separate condensed consolidating financial information for wholly-owned subsidiaries who issued or guaranteed notes. Additionally, presentation of combined summary financial information regarding subsidiary issuers and guarantors is not required because the assets, liabilities and results of operations of the combined issuers and guarantors of the notes are not materially different from the corresponding amounts presented in the consolidated financial statements.

CSX CORPORATION
PART II

CONTRACTUAL OBLIGATIONS, OTHER COMMITMENTS AND OFF-BALANCE SHEET ARRANGEMENTS

Contractual Obligations

CSX is party to contractual arrangements that obligate the Company to make future cash payments. These obligations impact the Company's liquidity and capital resource needs. The Company's contractual obligations primarily consist of long-term debt and related interest payments, purchase commitments, leases, other-post employment benefits and agreements with Conrail.

- As of December 31, 2021, the Company had outstanding fixed-rate notes with varying maturities. See Note 10, *Debt and Credit Agreements*, for additional information related to future debt payments. Future interest payments associated with outstanding debt total \$13.5 billion, with \$699 million payable in 2022.
- Purchase commitments consist of CSX's long-term locomotive maintenance program and other commitments to purchase technology, communications, railcar maintenance and other services. See Note 8, *Commitments and Contingencies*, for additional information about future payments related to purchase commitments.
- The Company's leases include property, equipment, and line leases. See Note 7, *Leases*, for additional information about future payments related to leases.
- Other post-employment benefits include estimated other post-retirement medical and life insurance payments and payments under non-qualified pension plans that are unfunded. See Note 9, *Employee Benefit Plans*, for additional information about future payments under such plans.
- Conrail owns rail infrastructure and operates for the joint benefit of CSX and NS. This is known as the shared asset area. Conrail charges fees for right-of-way usage, equipment rentals and transportation, switching and terminal service charges in the shared asset area. See Note 15, *Investment in Affiliates and Related-Party Transactions*, for additional information about future payments related to agreements with Conrail.

Other Commitments and Off-Balance Sheet Arrangements

Other commitments total \$153 million and primarily consist of guarantees, letters of credit and surety bonds, none of which are individually significant. These off-balance sheet arrangements are not reasonably likely to have a material effect on the Company's financial condition, results of operations or liquidity.

CSX CORPORATION
PART II
LABOR AGREEMENTS

Approximately 16,500 of the Company's over 20,900 employees are members of a labor union. For the 13 rail unions that participate in national bargaining, a round of negotiations for benefits, wages and work rules is underway. Typically, these negotiations take several years. Current agreements remain in place until modified by new agreements.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires that management make estimates in reporting the amounts of certain assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and certain revenues and expenses during the reporting period. Actual results may differ from those estimates. These estimates and assumptions are discussed with the Audit Committee of the Board of Directors on a regular basis. Significant estimates using management judgment are made for the following areas:

- personal injury and environmental reserves;
- pension and post-retirement medical plan accounting;
- depreciation policies for assets under the group-life method; and
- goodwill and other intangible assets.

Personal Injury and Environmental Reserves

Personal Injury

Personal Injury reserves of \$118 million and \$131 million for 2021 and 2020, respectively, represent liabilities for employee work-related and third-party injuries. CSXT retains an independent actuary to assist management in assessing the value of personal injury claims. The methodology used by the actuary includes a development factor to reflect growth or reduction in the value of these personal injury claims. It is based largely on CSXT's historical claims and settlement experience. Actual results may vary from estimates due to the number, type and severity of the injury, costs of medical treatments and uncertainties in litigation. For additional details, including a description of our related accounting policies, see Note 5, *Casualty, Environmental and Other Reserves*, in the consolidated financial statements.

Environmental

Environmental reserves were \$108 million and \$76 million in 2021 and 2020, respectively. The Company is a party to various proceedings related to environmental issues, including administrative and judicial proceedings involving private parties and regulatory agencies. The Company has been identified as a potentially responsible party at approximately 220 environmentally impaired sites. The Company reviews its potential liability with respect to each site identified, giving consideration to a number of factors such as:

- type of clean-up required;
- nature of the Company's alleged connection to the location (e.g., generator of waste sent to the site or owner or operator of the site);
- extent of the Company's alleged connection (e.g., volume of waste sent to the location and other relevant factors); and
- number, connection and financial viability of other named and unnamed potentially responsible parties at the location.

CSX CORPORATION
PART II

Critical Accounting Estimates, *continued*

Conditions that are currently unknown could, at any given location, result in additional exposure, the amount and materiality of which cannot presently be reasonably estimated. For additional details, including a description of our related accounting policies, see Note 5, *Casualty, Environmental and Other Reserves*, in the consolidated financial statements.

Pension and Post-retirement Medical Plan Accounting

The Company sponsors defined benefit pension plans principally for salaried, management personnel. For employees hired prior to 2003, the plans provide eligible employees with retirement benefits based predominantly on years of service and compensation rates near retirement. For employees hired between 2003 and 2019, benefits are determined based on a cash balance formula, which provides benefits by utilizing interest and pay credits based upon age, service and compensation. Beginning in 2020, the CSX Pension Plan was closed to new participants. As of December 2021, the projected benefit obligation for the Company's pension plans was \$3.0 billion.

In addition to these plans, the Company sponsors a post-retirement medical plan and a life insurance plan that provide certain benefits to full-time, salaried, management employees hired prior to 2003 upon their retirement if certain eligibility requirements are met. Beginning in 2019, both the life insurance benefit for eligible active management employees and health savings account contributions made by the Company to eligible retirees younger than 65 were eliminated. Beginning in 2020, the employer-funded health reimbursement arrangements for eligible retirees 65 years or older were eliminated. As of December 2021, the projected benefit obligation for the Company's other post-retirement benefit plans was \$81 million.

For information related to the funded status of the Company's pension and other post-retirement benefit plans, see Note 9, *Employee Benefit Plans*.

The accounting for these plans is subject to the guidance provided in the *Compensation-Retirement Benefits Topic* in the ASC. This rule requires that management make certain assumptions relating to the following:

- discount rates used to measure future obligations and interest expense;
- long-term rate of return on plan assets;
- salary scale inflation rates; and
- other assumptions.

The Company engages independent actuaries to compute the amounts of liabilities and expenses relating to these plans subject to the assumptions that the Company determines are appropriate based on historical trends, current market rates and future projections. These amounts are reviewed by management.

CSX CORPORATION PART II

Critical Accounting Estimates, *continued*

Discount Rates

Discount rates affect the amount of liability recorded and the service and interest cost components of pension and post-retirement expense. Discount rates reflect the rates at which pension and other post-retirement benefits could be effectively settled, or in other words, how much it would cost the Company to buy enough high quality bonds to generate cash flow equal to the Company's expected future benefit payments. The Company determines the discount rate based on the market yield as of year-end for high quality corporate bonds whose maturities match the plans' expected benefit payments.

The Company measures the service and interest cost components of the net pension and post-retirement benefits expense by using individual spot rates matched with separate cash flows for each future year. Under the spot rate approach, individual spot discount rates along the same high quality corporate bonds yield curve used to measure the pension and post-retirement benefit liabilities are applied to the relevant projected cash flows at the relevant maturity.

The weighted average discount rates used by the Company to value its 2021 pension and post-retirement obligations are 2.78% and 2.51%, respectively. For 2020, the weighted average discount rates used by the Company to value its pension and post-retirement obligations were 2.43% and 2.07%, respectively. Discount rates may differ for pension and post-retirement benefits due to varying duration of the liabilities for projected payments for each plan. As of December 2021, the estimated duration of pensions and post-retirement benefits is approximately 12 years and 8 years, respectively.

Each year, these discount rates are reevaluated and adjusted using the current market interest rates for high quality corporate bonds to reflect the best estimate of the current effective settlement rates. In general, if interest rates decline or rise, the assumed discount rates will change.

Long-term Rate of Return on Plan Assets

The expected long-term average rate of return on plan assets reflects the average rate of earnings expected on the funds invested, or to be invested, to provide for benefits included in the projected benefit obligation. In estimating that rate, the Company gives appropriate consideration to the returns being earned by the plan assets in the funds and the rates of return expected to be available for reinvestment as well as the current and projected asset mix of the funds. Management, with the assistance of an outsourced investment manager, balances market expectations obtained from various investment managers with both market and actual plan historical returns to develop a reasonable estimate of the expected long-term rate of return on assets. As this assumption is long term, the annual review may result in less frequent adjustment than other assumptions used in pension accounting. The long-term rate of return on plan assets used by the Company to value its benefit cost for the subsequent plan year was 6.75% in both 2021 and 2020.

Salary Scale Inflation Rates

Salary scale inflation rates are based on current trends and historical data accumulated by the Company. The Company reviews recent wage increases and management incentive compensation payments over the past five years in its assessment of salary scale inflation rates. The Company used a salary scale rate of 4.60% in both 2021 and 2020 to value its pension obligations.

Other Assumptions

The calculations made by the actuaries also include assumptions relating to health care cost trend rates, mortality rates, turnover and retirement age. These assumptions are based upon historical data, recent plan experience and industry trends and are determined by management.

CSX CORPORATION
PART II

Critical Accounting Estimates, *continued*

2022 Estimated Pension and Post-retirement Expense

Net periodic pension and post-retirement benefits expenses for 2022 are expected to be credits of \$42 million and \$5 million, respectively. Net periodic pension and post-retirement benefits expenses for 2022 are expected to include service cost expense of \$32 million and \$1 million, respectively. Service cost expense is included in labor and fringe on the consolidated income statement and all other components of net pension expense and post-retirement benefits expense are included in other income - net. Net periodic pension expense and post-retirement benefits expense in 2021 were credits of \$17 million and \$5 million, respectively. The net increase in the expected credit is primarily due to impacts from the increase in discount rates and recent favorable pension asset experience.

The following sensitivity analysis illustrates the effects of a 1% change in certain assumptions like discount rates, long-term rate of return and salaries on the 2022 estimated pension and post-retirement expense:

<i>(Dollars in Millions)</i>	Pension Expense	Post-Retirement Expense
Discount Rate	\$ 20	\$ 1
Long-term Rate of Return	\$ 28	N/A
Salary Inflation	\$ 4	N/A

Depreciation Policies for Assets Utilizing the Group-Life Method

The depreciable assets of the Company are depreciated using either the group-life or straight-line method of accounting, which are both acceptable depreciation methods in accordance with GAAP. The Company depreciates its railroad assets, including main-line track, locomotives and freight cars, using the group-life method of accounting. Assets depreciated under the group-life method comprise 86% of total fixed assets of \$46.5 billion on a gross basis at December 31, 2021. The remaining depreciable assets of the Company, including non-railroad assets and assets under finance leases, are depreciated using the straight-line method on a per asset basis. Land is not depreciated.

Management performs a review of depreciation expense and useful lives on a regular basis. Under the group-life method, the service lives and salvage values for each group of assets are determined by completing periodic depreciation studies and applying management's methods to determine the service lives of its properties. There are several factors taken into account during the depreciation study and they include:

- statistical analysis of historical life and salvage data for each group of property;
- statistical analysis of historical retirements for each group of property;
- evaluation of current operations;
- evaluation of technological advances and maintenance schedules;
- previous assessment of the condition of the assets;
- management's outlook on the future use of certain asset groups;
- expected net salvage to be received upon retirement; and
- comparison of assets to the same asset groups with other companies.

CSX CORPORATION PART II

Critical Accounting Estimates, *continued*

The STB requires depreciation studies be performed every three years for equipment assets (e.g., locomotives and freight cars) and every six years for road and track assets (e.g., bridges, signals, rail, ties, and ballast). The Company completed a depreciation study for its road and track assets in 2020 and for equipment assets in 2019, both of which resulted in changes to accumulated depreciation, service lives, salvage values, and other related factors for certain assets. Recent experience with depreciation studies has resulted in changes to accumulated depreciation and depreciation rates that did not materially affect the Company's depreciation expense of \$1.4 billion, \$1.4 billion and \$1.3 billion for 2021, 2020 and 2019, respectively. A 1% change in the average estimated useful life of all group-life assets would result in an approximate \$12 million change to the Company's annual depreciation expense. For additional details, including a more detailed description of our related accounting policies, see Note 6, *Properties*, in the consolidated financial statements.

Goodwill and Intangible Assets

As of December 2021, the Company had \$451 million of Goodwill and Other Intangibles - Net. CSX recognized \$213 million of goodwill and \$180 million of intangible assets as a result of the Quality Carriers acquisition effective July 1, 2021.

In applying the acquisition method of accounting for business combinations, management must determine the fair value of assets acquired and liabilities assumed in order to properly allocate purchase price consideration between depreciable and amortizable assets and goodwill. The fair values assigned to tangible and intangible assets acquired and liabilities assumed are based on management's estimates and assumptions, as well as other information compiled by management, including valuations that utilize customary valuation procedures and techniques. Estimates and assumptions include, but are not limited to, the cash flows that an asset is expected to generate in the future and the appropriate weighted-average cost of capital.

CSX evaluates goodwill and intangible assets for impairment on an annual basis, or sooner if indicators of impairment exist. In performing the qualitative impairment assessment, CSX considers relevant events and conditions, including but not limited to: macroeconomic trends, industry and market conditions, overall financial performance, company-specific events, and legal and regulatory factors. If the qualitative assessments indicate that it is more likely than not that the fair value of the reporting unit or intangible assets are less than their carrying amounts, the Company would perform a quantitative impairment test. If the carrying amount of the reporting unit's goodwill or intangible asset exceeded the fair value under the quantitative test, an impairment loss would be recorded. Measurement of the fair value of a reporting unit could be based on one or more of the following fair value measures: amounts at which the unit as a whole could be bought or sold in a current transaction between willing parties, present value techniques of estimated future cash flows, valuation techniques based on multiples of earnings or revenue, or a similar performance measure.

New Accounting Pronouncements and Changes in Accounting Policy

See Note 1, *Nature of Operations and Significant Accounting Policies* under the caption "New Accounting Pronouncements and Changes in Accounting Policy."

CSX CORPORATION
PART II

FORWARD-LOOKING STATEMENTS

Certain statements in this report and in other materials filed with the Securities and Exchange Commission, as well as information included in oral statements or other written statements made by the Company, are forward-looking statements. The Company intends for all such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements within the meaning of the Private Securities Litigation Reform Act may contain, among others, statements regarding:

- projections and estimates of earnings, revenues, margins, volumes, rates, cost-savings, expenses, taxes or other financial items;
- expectations as to results of operations and operational initiatives;
- expectations as to the effect of claims, lawsuits, environmental costs, commitments, contingent liabilities, labor negotiations or agreements on the Company's financial condition, results of operations or liquidity;
- management's plans, strategies and objectives for future operations, capital expenditures, workforce levels, dividends, share repurchases, safety and service performance, proposed new services and other matters that are not historical facts, and management's expectations as to future performance and operations and the time by which objectives will be achieved; and
- future economic, industry or market conditions or performance and their effect on the Company's financial condition, results of operations or liquidity.

Forward-looking statements are typically identified by words or phrases such as "will," "should," "believe," "expect," "anticipate," "project," "estimate," "preliminary" and similar expressions. The Company cautions against placing undue reliance on forward-looking statements, which reflect its good faith beliefs with respect to future events and are based on information currently available to it as of the date the forward-looking statement is made. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the timing when, or by which, such performance or results will be achieved.

Forward-looking statements are subject to a number of risks and uncertainties and actual performance or results could differ materially from those anticipated by any forward-looking statements. The Company undertakes no obligation to update or revise any forward-looking statement. If the Company does update any forward-looking statement, no inference should be drawn that the Company will make additional updates with respect to that statement or any other forward-looking statements.

The following important factors, in addition to those discussed in Part II, Item 1A. *Risk Factors* and elsewhere in this report, may cause actual results to differ materially from those contemplated by any forward-looking statements:

- legislative, regulatory or legal developments involving transportation, including rail or intermodal transportation, the environment, hazardous materials, taxation, international trade and initiatives to further regulate the rail industry;
- the outcome of litigation, claims and other contingent liabilities, including, but not limited to, those related to fuel surcharge, environmental matters, taxes, shipper and rate claims subject to adjudication, personal injuries and occupational illnesses;
- changes in domestic or international economic, political or business conditions, including those affecting the transportation industry (such as the impact of industry competition, conditions, performance and consolidation, as well as the impact of international trade agreements and tariffs) and the level of demand for products carried by CSXT;

CSX CORPORATION PART II

- natural events such as severe weather conditions, including floods, fire, hurricanes and earthquakes, a pandemic crisis affecting the health of the Company's employees, its shippers or the consumers of goods, or other unforeseen disruptions of the Company's operations, systems, property, equipment or supply chain;
- competition from other modes of freight transportation, such as trucking, and competition and consolidation or financial distress within the transportation industry generally;
- the cost of compliance with laws and regulations that differ from expectations as well as costs, penalties and operational and liquidity impacts associated with noncompliance with applicable laws or regulations;
- the impact of increased passenger activities in capacity-constrained areas, including potential effects of high speed rail initiatives, or regulatory changes affecting when CSXT can transport freight or service routes;
- unanticipated conditions in the financial markets that may affect timely access to capital markets and the cost of capital, as well as management's decisions regarding share repurchases;
- changes in fuel prices, surcharges for fuel and the availability of fuel;
- the impact of natural gas prices on coal-fired electricity generation;
- the impact of global supply and price of seaborne coal on CSX's export coal market;
- availability of insurance coverage at commercially reasonable rates or insufficient insurance coverage to cover claims or damages;
- the inherent business risks associated with safety and security, including the transportation of hazardous materials or a cybersecurity attack which would threaten the availability and vulnerability of information technology;
- adverse economic or operational effects from actual or threatened war or terrorist activities and any governmental response;
- loss of key personnel or the inability to hire and retain qualified employees;
- labor and benefit costs and labor difficulties, including stoppages affecting either the Company's operations or customers' ability to deliver goods to the Company for shipment;
- the Company's success in implementing its strategic, financial and operational initiatives, including acquisitions;
- the impact of conditions in the real estate market on the Company's ability to sell assets;
- changes in operating conditions and costs or commodity concentrations;
- the continued and uncertain impact of the COVID-19 pandemic; and
- the inherent uncertainty associated with projecting economic and business conditions.

Other important assumptions and factors that could cause actual results to differ materially from those in the forward-looking statements are specified elsewhere in this report and in CSX's other SEC reports, which are accessible on the SEC's website at www.sec.gov and the Company's website at www.csx.com. The information on the CSX website is not part of this annual report on Form 10-K.

CSX CORPORATION
PART II

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Changes in interest rates may impact the cost of future long-term debt issued by the Company, and as a result, represent interest rate risk to the Company. In an effort to manage this risk, CSX may use certain financial instruments such as interest rate forward contracts. The following information, together with information included in Note 10, *Debt and Credit Agreements*, describes the key aspects of such contracts and the related market risk to CSX.

Changes in interest rates could impact the fair value of the Company's forward starting interest rate swap. On both April 29, 2020, and July 9, 2020, the Company executed a forward starting interest rate swap with a notional value of \$250 million for an aggregate notional value of \$500 million. These swaps were effected to hedge the benchmark interest rate associated with future interest payments related to the anticipated refinancing of notes due in 2027. The Company recognized an unrealized gain of \$8 million and \$62 million net of tax during the years ended December 31, 2021 and 2020, respectively, in the consolidated statements of comprehensive income with the related asset on the balance sheet as of December 31, 2021. Upon settlement of the swaps, which expire in 2027, the unrealized gain or loss in AOCI will be recognized in earnings as an adjustment to interest expense over the same period during which the hedged transaction affects earnings. As of December 31, 2021, the potential change in fair value resulting from a hypothetical 10% change in interest rates would not be material.

As of December 31, 2021, CSX has no floating rate debt obligations outstanding. However, changes in interest rates could impact the fair value (but not the carrying value) of the Company's fixed rate long-term debt. The potential decrease in fair value of the Company's fixed rate long-term debt resulting from a hypothetical 10% increase in U.S. Treasury rates, or approximately 15 basis points, is estimated to be \$448 million as of December 31, 2021 and \$428 million as of December 31, 2020. The underlying fair values of the Company's long-term debt were estimated based on quoted market prices or on the current rates offered for debt with similar terms and maturities.

Item 8. Financial Statements and Supplementary Data

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of CSX Corporation

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of CSX Corporation (the Company) as of December 31, 2021 and 2020, and the related consolidated statements of income, comprehensive income, cash flows, and changes in shareholders' equity for each of the three years in the period ended December 31, 2021, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2021, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), and our report dated February 16, 2022 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below providing a separate opinion on the critical audit matter or on the accounts or disclosure to which it relates.

PART II

Item 8. Financial Statements and Supplementary Data

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM, *continued*

Depreciation Policies for Assets Utilizing the Group-Life Method

Description of the Matter At December 31, 2021, assets depreciated under the group-life method comprised 86% of total gross fixed assets of \$46.5 billion. As discussed in Note 6 of the consolidated financial statements, the group-life method aggregates assets with similar lives and characteristics into groups and depreciates each of these groups as a whole. When using the group-life method, an underlying assumption is that each group of assets, as a whole, is used and depreciated to the end of the group’s recoverable life. The Company utilizes different depreciable asset categories to account for depreciation expense for the railroad assets that are depreciated under the group-life method.

Under the group-life method, depreciation studies are completed to review asset service lives, salvage values, accumulated depreciation and other factors related to group assets. Depreciation studies are performed every three years for equipment assets and every six years for road and track assets. A depreciation study was performed in 2019 for equipment assets and 2020 for road and track assets. The most recent depreciation studies are reviewed by management each year through an annual data review to determine if there have been significant factors that result in changes to the group-life method key assumptions.

Auditing depreciation expense for assets subject to the group-life method was complex and required the involvement of specialists due to the nature of the methods used in the depreciation studies to determine the useful service lives and salvage values of the Company’s assets. These methods have a significant effect on depreciation expense.

How We Addressed the Matter in Our Audit We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company’s process related to the assessment of periodic depreciation studies and annual data reviews of its group-life assets. For example, we tested controls over management’s review of asset activity and assumptions that could impact the most recent depreciation study of equipment and road and track assets.

To test the estimated useful lives and salvage values of the Company’s group-life assets, we performed audit procedures that included, among others: obtaining the periodic depreciation studies and annual data reviews provided by the Company’s third-party specialist; assessing the completeness and accuracy of the data provided by management to the third-party specialist; and including a specialist on our team to evaluate the methods used by the third-party specialist and management in determining the average service lives and salvage values of assets to perform the depreciation studies and any changes to the service lives and salvage values, if any, resulting from the annual data reviews.

We compared the significant methods used by management to those used throughout the industry and within other depreciation studies. We assessed the historical accuracy of management’s estimates via retrospective review and independently calculated the current year depreciation rates.

/s/ Ernst & Young LLP

We have served as the Company’s auditor since 1981.

PART II

Item 8. Financial Statements and Supplementary Data
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**NOTE 1. Nature of Operations and Significant Accounting Policies*****Business***

CSX Corporation together with its subsidiaries ("CSX" or the "Company"), based in Jacksonville, Florida, is one of the nation's leading transportation companies. The Company provides rail-based transportation services including traditional rail service, the transport of intermodal containers and trailers, as well as other transportation services such as rail-to-truck transfers and bulk commodity operations.

CSX Transportation, Inc.

CSX's principal operating subsidiary, CSX Transportation, Inc. ("CSXT"), provides an important link to the transportation supply chain through its approximately 19,500 route mile rail network, which serves major population centers in 23 states east of the Mississippi River, the District of Columbia and the Canadian provinces of Ontario and Quebec. It has access to over 70 ocean, river and lake port terminals along the Atlantic and Gulf Coasts, the Mississippi River, the Great Lakes and the St. Lawrence Seaway. The Company's intermodal business links customers to railroads via trucks and terminals. CSXT also serves thousands of production and distribution facilities through track connections to more than 230 short-line and regional railroads.

CSXT is also responsible for the Company's real estate sales, leasing, acquisition and management and development activities. Substantially all of these activities are focused on supporting railroad operations.

Other Entities

In addition to CSXT, the Company's subsidiaries include Quality Carriers, Inc. ("Quality Carriers"), CSX Intermodal Terminals, Inc. ("CSX Intermodal Terminals"), Total Distribution Services, Inc. ("TDSI"), Transflo Terminal Services, Inc. ("Transflo"), CSX Technology, Inc. ("CSX Technology") and other subsidiaries. Effective July 1, 2021, CSX acquired Quality Carriers, the largest provider of bulk liquid chemicals truck transportation in North America, from Quality Distribution, Inc. For further details, refer to Note 17, *Business Combinations*. CSX Intermodal Terminals owns and operates a system of intermodal terminals, predominantly in the eastern United States, and also provides drayage services (the pickup and delivery of intermodal shipments) for certain customers. TDSI serves the automotive industry with distribution centers and storage locations. Transflo connects non-rail served customers to the many benefits of rail by transferring products from rail to trucks. The biggest Transflo markets are chemicals and agriculture, which include shipments of plastics and ethanol. CSX Technology and other subsidiaries provide support services for the Company.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 1. Nature of Operations and Significant Accounting Policies, *continued**Lines of Business*

During 2021, the Company's services generated \$12.5 billion of revenue and served four primary lines of business: merchandise, intermodal, coal and trucking.

- The merchandise business shipped 2.6 million carloads (41% of volume) and generated 60% of revenue in 2021. The Company's merchandise business is comprised of shipments in the following diverse markets: chemicals, agricultural and food products, minerals, automotive, forest products, metals and equipment, and fertilizers.
- The intermodal business shipped 3.0 million units (48% of volume) and generated 16% of revenue in 2021. The intermodal business combines the superior economics of rail transportation with the flexibility of trucks and offers a cost and environmental advantage over long-haul trucking. Through a network of approximately 30 terminals, the intermodal business serves all major markets east of the Mississippi River and transports mainly manufactured consumer goods in containers, providing customers with truck-like service for longer shipments.
- The coal business shipped 706 thousand carloads (11% of volume) and generated 14% of revenue in 2021. The Company transports domestic coal, coke and iron ore to electricity-generating power plants, steel manufacturers and industrial plants as well as export coal to deep-water port facilities. Approximately one-quarter of export coal and the majority of the domestic coal that the Company transports is used for generating electricity or industrial purposes.
- The trucking business generated 3% of revenue in 2021. Trucking revenue includes revenue from the operations of Quality Carriers, which was acquired by CSX effective July 1, 2021.

Other revenue accounted for 7% of the Company's total revenue in 2021. This category includes revenue from regional subsidiary railroads and incidental charges, including intermodal storage and equipment usage, demurrage and switching. Revenue from regional subsidiary railroads includes shipments by railroads that the Company does not directly operate. Intermodal storage represents charges for customer storage of containers at an intermodal terminal, ramp facility or offsite location beyond a specified period of time. Demurrage represents charges assessed when freight cars are held by a customer beyond a specified period of time. Switching represents charges assessed when a railroad switches cars for a customer or another railroad.

Employees

The Company's number of employees was more than 20,900 as of December 2021, which includes approximately 16,500 union employees. Most of the Company's employees provide or support transportation services.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 1. Nature of Operations and Significant Accounting Policies, *continued****Basis of Presentation***

In the opinion of management, the accompanying consolidated financial statements contain all normal, recurring adjustments necessary to fairly present the financial position of CSX and its subsidiaries at December 31, 2021 and December 31, 2020, and the consolidated statements of income, comprehensive income, cash flows and changes in shareholders' equity for fiscal years 2021, 2020 and 2019. Where applicable, prior year information has been reclassified to conform to current presentation. In addition, management has evaluated and disclosed all material events occurring subsequent to the date of the financial statements up to the date this annual report is filed on Form 10-K.

Common Stock Split

On June 4, 2021, CSX announced a three-for-one split of the Company's common stock in the form of a stock dividend. Each shareholder of record on June 18, 2021, received two additional shares of common stock for each share held as of this record date. The new shares were distributed after close of trading on June 28, 2021. All prior period share and per share amounts, common stock, other capital, and retained earnings presented herein have been retroactively adjusted to reflect the impact of the stock split. Proportional adjustments were also made to outstanding awards under the Company's stock-based compensation plans.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires that management make estimates in reporting the amounts of certain assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of certain revenues and expenses during the reporting period. Actual results may differ from those estimates. Critical accounting estimates using management judgment are made for the following areas:

- personal injury and environmental reserves (see Note 5, *Casualty, Environmental and Other Reserves*);
- pension and post-retirement medical plan accounting (see Note 9, *Employee Benefit Plans*);
- depreciation policies for assets under the group-life method (see Note 6, *Properties*); and
- goodwill and other intangible assets (see Note 17, *Business Combinations* and Note 18, *Goodwill and Other Intangibles - Net*).

Fiscal Year

The Company's fiscal periods are based upon the calendar year. Except as otherwise specified, references to full years indicate CSX's fiscal years ended on December 31, 2021, December 31, 2020, and December 31, 2019.

Principles of Consolidation

The consolidated financial statements include results of operations of CSX and subsidiaries over which CSX has majority ownership or financial control. All significant intercompany accounts and transactions have been eliminated. Most investments in companies that were not majority-owned were carried at cost (if less than 20% owned and the Company has no significant influence) or were accounted for under the equity method (if the Company has significant influence but does not have control). These investments are reported within Investment in Affiliates and Other Companies on the consolidated balance sheets.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 1. Nature of Operations and Significant Accounting Policies, *continued***Cash and Cash Equivalents**

On a daily basis, cash in excess of current operating requirements is invested in various highly liquid investments having a typical maturity date of three months or less at the date of acquisition. These investments are carried at cost, which approximates market value, and are classified as cash equivalents.

Investments

Investments in instruments with original maturities greater than three months that will mature in less than one year are classified as short-term investments. Investments with original maturities of one year or greater are initially classified within other long-term assets, and the classification is re-evaluated at each balance sheet date.

Materials and Supplies

Materials and supplies in the consolidated balance sheets are carried at average cost and consist primarily of parts used in the repair and maintenance of track structure, equipment, and CSXT's freight car and locomotive fleets, as well as fuel.

New Accounting Pronouncements

In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2020-04, *Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. As the London Interbank Offered Rate ("LIBOR") will no longer be available beginning July 2023, this standard update provides practical expedients for contract modifications made as part of the transition from LIBOR to alternative reference rates. CSX's revolving line of credit currently uses LIBOR as a reference rate. This standard update can be adopted prospectively through December 31, 2022. The Company continues to evaluate the impact of this standard update, but does not anticipate that adoption will have a material impact on the Company's results of operations or financial position.

In November 2021, the FASB issued ASU 2021-10, *Disclosure by Business Entities about Government Assistance*. This standard update requires annual disclosure of the nature of any government assistance received, accounting policies related to such assistance and the effect of that assistance on the entity's financial statements. The Company is required to adopt this guidance effective January 2022, though early adoption is permitted. The Company is currently evaluating the impact of these amendments on its disclosures, but this standard update will not impact the Company's results of operations or financial position.

	Fiscal Years		
	2021	2020	2019
Numerator (<i>Dollars in Millions</i>):			
Net Earnings	\$ 3,781	\$ 2,765	\$ 3,331
Dividend Equivalents on Restricted Stock	—	—	—
Net Earnings, Attributable to Common Shareholders	\$ 3,781	\$ 2,765	\$ 3,331
Denominator (<i>Units in Millions</i>):			
Average Common Shares Outstanding	2,250	2,300	2,389
Other Potentially Dilutive Common Shares	5	5	6
Average Common Shares Outstanding, Assuming Dilution	2,255	2,305	2,395
Net Earnings Per Share, Basic	\$ 1.68	\$ 1.20	\$ 1.39
Net Earnings Per Share, Assuming Dilution	\$ 1.68	\$ 1.20	\$ 1.39

Basic earnings per share is based on the weighted-average number of shares of common stock outstanding. Earnings per share, assuming dilution, is based on the weighted-average number of shares of common stock outstanding and common stock equivalents adjusted for the effects of common stock that may be issued as a result of potentially dilutive instruments. CSX's potentially dilutive instruments are made up of equity awards including performance units and employee stock options.

When calculating diluted earnings per share, the potential shares that would be outstanding if all outstanding stock options were exercised are included. This number is different from outstanding stock options, which is included in Note 4, *Stock Plans and Share-Based Compensation*, because it is offset by shares CSX could repurchase using the proceeds from these hypothetical exercises to obtain the common stock equivalent. The total average outstanding equity awards that were excluded from the diluted earnings per share calculation because their effect was antidilutive is in the table below.

	Fiscal Years		
	2021	2020	2019
Antidilutive stock options excluded from Diluted EPS (<i>in millions</i>)	2	6	3

Share Repurchase Programs

In January 2019, the Company announced a \$5 billion share repurchase program ("January 2019 program"). During June 2021, this program was completed, and the Company began repurchasing shares under the \$5 billion share repurchase program announced October 21, 2020 ("October 2020 program"). Total repurchase authority remaining as of December 31, 2021, was \$3.0 billion. A portion of share repurchases in January 2019 were completed under a previous share repurchase program announced in October 2017.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 2. Earnings Per Share, *continued*

Share repurchases may be made through a variety of methods including, but not limited to, open market purchases, purchases pursuant to Rule 10b5-1 plans, accelerated share repurchases and negotiated block purchases. The timing of share repurchases depends upon management's assessment of marketplace conditions and other factors, and the program remains subject to the discretion of the Board of Directors. Future share repurchases are expected to be funded by cash on hand, cash generated from operations and debt issuances. Shares are retired immediately upon repurchase. In accordance with the *Equity Topic* in the Accounting Standards Codification ("ASC"), the excess of repurchase price over par value is recorded in retained earnings.

Share Repurchase Activity

During 2021, 2020, and 2019, CSX repurchased the following shares:

	Fiscal Years		
	2021	2020	2019
Shares Repurchased (<i>Units in Millions</i>)	90	38	144
Cost of Shares (<i>Dollars in Millions</i>)	\$ 2,886	\$ 867	\$ 3,373
Average Price Paid per Share	\$ 31.91	\$ 22.90	\$ 23.51

On October 17, 2019, the Company repurchased 14.1 million (split-adjusted) shares for \$319 million from MR Argent Advisor LLC, a CSX shareholder, on behalf of certain limited partners of its affiliated funds ("Mantle Ridge") under the January 2019 share repurchase program. A member of CSX's Board of Directors, Paul C. Hilal, founded and controls Mantle Ridge and each of its related entities. Shares purchased from Mantle Ridge are included in the table above.

Periodically, CSX enters into structured agreements for the repurchase of CSX shares. Upon execution of each agreement, the Company pays a fixed amount of cash in exchange for the right to receive either CSX stock or a predetermined amount of cash, including a premium. Shares acquired through these structured share repurchase agreements were recorded in common stock and retained earnings and are included in the share repurchases table above. Premiums received were not material. As a result of entering into and settling structured share repurchase agreements, the Company paid a net total of approximately \$378 million and received approximately 12 million shares during the twelve months ended 2021. As of December 31, 2021, no such agreements were outstanding.

Accelerated Share Repurchases

Shares repurchased under accelerated share repurchase agreements are included in the table above. In December 2020, the Company completed an accelerated share repurchase subject to an agreement to repurchase shares of the Company's stock under the January 2019 program. Under this agreement, the Company paid a total of \$100 million and received approximately 3.3 million shares.

In August 2019, the Company entered into an accelerated share repurchase agreement under the January 2019 program. Under this accelerated share repurchase agreement, the Company made a prepayment of \$250 million to a financial institution and settlement occurred in September 2019. At settlement, the Company received approximately 11.5 million shares, calculated based on the volume-weighted average price of the Company's common stock over the term of the agreement, less a discount.

Dividend Increase

On February 16, 2022, the Company's Board of Directors authorized a 7% increase in the quarterly cash dividend to \$0.10 per common share effective March 2022.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 3. Shareholders' Equity

Common and preferred stock consists of the following:

Common Stock, \$1 Par Value	December 2021
	<i>(Units in Millions)</i>
Common Shares Authorized	5,400
Common Shares Issued and Outstanding	2,202
Preferred Stock	
Preferred Shares Authorized	25
Preferred Shares Issued and Outstanding	—

Holders of common stock are entitled to one vote on all matters requiring a vote for each share held. Preferred stock is senior to common stock with respect to dividends and upon liquidation of CSX.

Other Capital

As a result of the stock split during second quarter 2021, CSX's common stock balance was increased and its other capital balance was reduced commensurately. Because this adjustment brought the other capital balance below zero, \$1.0 billion was reclassified from retained earnings to other capital to bring the other capital balance to zero as of June 30, 2021. Prior period amounts have also been retroactively adjusted as needed to bring the other capital balance to zero.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 4. Stock Plans and Share-Based Compensation

Under CSX's share-based compensation plans, awards consist of performance units, stock options, restricted stock units and restricted stock awards for management and stock grants for directors. Awards granted under the various programs are determined and approved by the Compensation and Talent Management Committee of the Board of Directors. Awards to the Chief Executive Officer are approved by the full Board and awards to senior executives are approved by the Compensation and Talent Management Committee. In certain circumstances, the Chief Executive Officer or delegate approves awards to management employees other than senior executives. The Board of Directors approves awards granted to CSX's non-management directors upon recommendation of the Governance and Sustainability Committee.

Share-based compensation expense for awards under share-based compensation plans and purchases made as part of the employee stock purchase plan is measured using the fair value of the award on the grant date and is recognized on a straight-line basis over the service period of the respective award. Alternately, expense is recognized upon death or upon grant date to certain retirement-eligible employees whose agreements allow for continued vesting upon retirement. Forfeitures are recognized as they occur. Total pre-tax expense and income tax benefits associated with share-based compensation are shown in the table below. Income tax benefits include impacts from option exercises and the vesting of other equity awards.

	Fiscal Years		
	2021	2020	2019
<i>(Dollars in Millions)</i>			
Share-Based Compensation Expense			
Performance Units	\$ 71	\$ (3)	\$ 42
Stock Options	18	19	18
Restricted Stock Units and Awards	12	6	8
Employee Stock Purchase Plan	4	5	4
Stock Awards for Directors	2	2	2
Total Share-based Compensation Expense	\$ 107	\$ 29	\$ 74
Income Tax Benefit	\$ 23	\$ 19	\$ 43

Long-term Incentive Plans

The objective of the CSX Long-term Incentive Plans ("LTIP") is to motivate and reward certain employees for achieving and exceeding certain financial goals. The 2021-2023 and 2020-2022 LTIP were adopted under the 2019 Stock and Incentive Award Plan and the 2019-2021 LTIP was adopted under the 2010 Stock and Incentive Award Plan. Grants were made in performance units, with each unit being equivalent to one share of CSX common stock, and payouts will be made in CSX common stock. The payout range for most participants will be between 0% and 200% of the target awards depending on Company performance against predetermined goals for each three-year cycle.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 4. Stock Plans and Share-Based Compensation, *continued*

In 2021, 2020, and 2019, target performance units were granted to certain employees under three separate LTIP plans covering three-year cycles: the 2021-2023 ("2021-2023 LTIP"), the 2020-2022 ("2020-2022 LTIP") and the 2019-2021 ("2019-2021 LTIP") plans. Payouts of performance units for the plans will be based on the achievement of certain goals, in each case excluding non-recurring items as disclosed in the Company's financial statements.

- For the 2021-2023 LTIP plan, the average annual operating income growth percentage and cumulative free cash flow over the plan period will each comprise 50% of the payout and will be measured independently of the other. Participants will receive stock dividend equivalents declared over the performance period based on the number of performance units paid upon vesting.
- For the 2020-2022 LTIP plan, the cumulative operating income and cumulative free cash flow over the plan period will each comprise 50% of the payout and will be measured independently of the other. Participants will receive stock dividend equivalents declared over the performance period based on the number of performance units paid upon vesting.
- For the 2019-2021 LTIP plan, the cumulative operating ratio and cumulative free cash flow over the plan period will each comprise 50% of the payout and will be measured independently of the other.

For these plans, payouts for certain executive officers are subject to formulaic upward or downward adjustment by up to 25%, capped at an overall payout of 250%, based upon the Company's total shareholder return relative to specified comparable groups over the performance period.

The fair values of the performance units awarded during the years ended December 2021, 2020 and 2019 were calculated primarily using a Monte-Carlo simulation model with the following weighted-average assumptions:

Weighted-average assumptions used:	2021	2020	2019
Annual dividend yield	n/a	n/a	1.4 %
Risk-free interest rate	0.2 %	1.4 %	2.4 %
Annualized volatility	33.6 %	24.5 %	27.4 %
Expected life (<i>in years</i>)	2.9	2.9	2.8

Performance unit grant and vesting information is summarized as follows:

	Fiscal Years		
	2021	2020	2019
Weighted-average grant date fair value	\$ 30.11	\$ 25.39	\$ 22.06
Fair value of units vested in fiscal year ending (<i>in millions</i>)	\$ 19	\$ 18	\$ 17

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 4. Stock Plans and Share-Based Compensation, *continued*

The performance unit activity related to the outstanding long-term incentive plans and corresponding fair value is summarized as follows:

	Performance Units Outstanding (in Thousands)	Weighted-Average Fair Value at Grant Date
Unvested at December 31, 2020	1,920	\$ 23.86
Granted	597	30.11
Forfeited	(59)	24.30
Vested	(882)	22.09
Unvested at December 31, 2021	<u>1,576</u>	<u>\$ 27.21</u>

As of December 2021, there was \$20 million of total unrecognized compensation cost related to performance units that is expected to be recognized over a weighted-average period of approximately two years.

Stock Options

Stock options in 2021, 2020, and 2019 were primarily granted along with the corresponding LTIP plans. Under this program, an employee receives an award that provides the opportunity in the future to purchase CSX shares at the closing market price of the stock on the date the award is granted (the strike price). Options granted become exercisable in equal installments on the anniversary of the grant date over a vesting period (three-year graded). All options expire 10 years from the grant date if they are not exercised.

The fair value of stock options granted was estimated as of the dates of grant using the Black-Scholes option valuation model, which uses the following assumptions: dividend yield, risk-free interest rate, annualized volatility and expected life. The annual dividend yield is based on the most recent quarterly CSX dividend payment annualized. The risk-free interest rate is based on U.S. Treasury yield curve in effect at the time of grant. The annualized volatility is based on historical volatility of daily CSX stock price returns over a 6.0 year look-back period ending on the grant date. The expected life is calculated using the safe harbor approach due to lack of historical data on CSX options, which is the midpoint between the vesting schedule and contractual term (10 years).

Assumptions and inputs used to estimate fair value of stock options are summarized as follows:

	Fiscal Years		
	2021	2020	2019
Weighted-average grant date fair value	\$ 7.94	\$ 6.31	\$ 5.96
Stock options valuation assumptions:			
Annual dividend yield	1.2 %	1.2 %	1.3 %
Risk-free interest rate	0.7 %	1.4 %	2.4 %
Annualized volatility	31.2 %	26.1 %	25.7 %
Expected life (in years)	6.0	6.0	6.1
Other pricing model inputs:			
Weighted-average grant-date market price of CSX stock (strike price)	\$ 29.65	\$ 26.53	\$ 23.34

CSX CORPORATION

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 4. Stock Plans and Share-Based Compensation, *continued*

The stock option activity is summarized as follows:

	Stock Options Outstanding (in Thousands)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life (in Years)	Aggregate Intrinsic Value (in Millions)
Outstanding at December 31, 2020	12,652	\$ 20.29		
Granted	2,005	29.69		
Forfeited	(174)	26.91		
Exercised	(1,971)	15.76		
Outstanding at December 31, 2021	12,512	\$ 22.42	7.2	\$ 190
Exercisable at December 31, 2021	6,347	\$ 18.16	6.1	\$ 123

Unrecognized compensation expense related to stock options as of December 2021 was \$15 million and is expected to be recognized over a weighted-average period of approximately two years. The Company issues new shares upon stock option exercises. Additional information on stock option exercises is summarized as follows:

<i>(Dollars in Millions)</i>	2021	2020	2019
Intrinsic value of stock options exercised	\$ 32	\$ 30	\$ 87
Cash received from option exercises	\$ 31	\$ 29	\$ 45

Restricted Stock Grants

Restricted stock grants consist of units and awards, each equivalent to one share of CSX stock. Restricted stock units are primarily issued along with corresponding LTIP plans and vest three years after the date of grant. Separately, restricted stock awards generally vest over an employment period of up to five years. These awards are time-based and not based upon CSX's attainment of operational targets. Participants receive cash or stock dividend equivalents on these shares, depending on the grant. Restricted stock grant and vesting information is summarized as follows:

	Fiscal Years		
	2021	2020	2019
Weighted-average grant date fair value	\$ 29.84	\$ 26.43	\$ 23.06
Fair value of units and awards vested during fiscal year ended <i>(in millions)</i>	\$ 12	\$ 8	\$ 7

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 4. Stock Plans and Share-Based Compensation, *continued*

The restricted stock activity related to the outstanding long-term incentive plans and other awards and corresponding fair value is summarized as follows:

	Restricted Stock Units and Awards Outstanding (in Thousands)	Weighted-Average Fair Value at Grant Date
Unvested at December 31, 2020	1,055	\$ 22.36
Granted	561	29.84
Forfeited	(50)	27.31
Vested	(543)	21.26
Unvested at December 31, 2021	<u>1,023</u>	<u>\$ 27.53</u>

As of December 2021, unrecognized compensation expense for these restricted stock units and awards was approximately \$12 million, which will be expensed over a weighted-average remaining period of two years.

Stock Awards for Directors

CSX's non-management directors receive a base annual retainer of \$122,500 to be paid quarterly in cash, unless the director chooses to defer the retainer in the form of cash or CSX common stock. Additionally, non-management directors receive an annual grant of common stock in the amount of approximately \$172,500, with the number of shares to be granted based on the average closing price of CSX stock in the months of November, December and January. The independent non-executive Chairman also receives an annual grant of common stock in the amount of approximately \$250,000, with the number of shares to be granted based on the average closing price of CSX stock in the months of November, December, and January. These awards are evaluated periodically by the Board of Directors.

Employee Stock Purchase Plan

In May 2018, shareholders approved the 2018 CSX Employee Stock Purchase Plan ("ESPP") for the benefit of Company employees. The Company registered 12 million (split-adjusted) shares of common stock that may be issued pursuant to this plan. Under the ESPP, employees may contribute between 1% and 10% of base compensation, after-tax, to purchase up to \$25,000 of market value CSX common stock per year at 85% of the closing market price on either the grant date or the last day of the six-month offering period, whichever is lower. During 2021, 2020 and 2019, the Company issued the following shares under this program.

	Fiscal Years		
	2021	2020	2019
Shares issued (in thousands)	730	726	747
Weighted average purchase price per share	\$ 21.90	\$ 20.13	\$ 17.57

CSX CORPORATION

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 5. Casualty, Environmental and Other Reserves

Activity related to casualty, environmental and other reserves is as follows:

<i>(Dollars in Millions)</i>	Casualty Reserves	Environmental Reserves	Other Reserves	Total
December 31, 2018	\$ 199	\$ 80	\$ 45	\$ 324
Charged to Expense	56	17	34	107
Payments	(68)	(23)	(35)	(126)
December 31, 2019	187	74	44	305
Charged to Expense	55	20	32	107
Payments	(46)	(18)	(34)	(98)
December 31, 2020	196	76	42	314
Assumed in Acquisition of Quality Carriers	—	29	33	62
Charged to Expense	55	26	49	130
Payments	(71)	(23)	(44)	(138)
December 31, 2021	\$ 180	\$ 108	\$ 80	\$ 368

Personal injury and environmental reserves are considered critical accounting estimates due to the need for management judgment. In the table above, the impacts of changes in estimates are included in the charged to expense amount and were not material in 2021, 2020, or 2019. Casualty, environmental and other reserves are provided for in the consolidated balance sheets as shown in the table below.

<i>(Dollars in Millions)</i>	December 2021			December 2020		
	Current	Long-term	Total	Current	Long-term	Total
Casualty:						
Personal Injury	\$ 37	\$ 81	\$ 118	\$ 38	\$ 93	\$ 131
Occupational	7	55	62	11	54	65
Total Casualty	\$ 44	\$ 136	\$ 180	\$ 49	\$ 147	\$ 196
Environmental	37	71	108	23	53	76
Other	37	43	80	18	24	42
Total	\$ 118	\$ 250	\$ 368	\$ 90	\$ 224	\$ 314

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 5. Casualty, Environmental and Other Reserves, *continued*

These liabilities are accrued when probable and reasonably estimable in accordance with the *Contingencies Topic* in the ASC. Actual settlements and claims received could differ and final outcomes of these matters cannot be predicted with certainty. Considering the legal defenses currently available, the liabilities that have been recorded and other factors, it is the opinion of management that none of these items individually, when finally resolved, will have a material adverse effect on the Company's financial condition, results of operations or liquidity. Should a number of these items occur in the same period, however, their combined effect could be material in that particular period.

Casualty

Casualty reserves of \$180 million and \$196 million for 2021 and 2020, respectively, represent accruals for personal injury, occupational disease and occupational injury claims primarily related to railroad operations. Beginning June 1, 2021, the Company's self-insured retention amount for these claims increased from \$75 million to \$100 million per occurrence. Currently, no individual claim is expected to exceed the self-insured retention amount. Most of the Company's casualty claims relate to CSXT. In accordance with the *Contingencies Topic* in the ASC, to the extent the value of an individual claim exceeds the self-insured retention amount, the Company would present the liability on a gross basis with a corresponding receivable for insurance recoveries.

These reserves fluctuate based upon the timing of payments as well as changes in estimate. Actual results may vary from estimates due to the number, type and severity of the injury, costs of medical treatments and uncertainties in litigation. Defense and processing costs, which historically have been insignificant and are anticipated to be insignificant in the future, are not included in the recorded liabilities. Changes in casualty reserves are included in purchased services and other on the consolidated income statements.

Personal Injury

Personal injury reserves represent liabilities for employee work-related and third-party injuries. Work-related injuries for CSXT employees are primarily subject to the Federal Employers' Liability Act ("FELA"). CSXT retains an independent actuary to assist management in assessing the value of personal injury claims. An analysis is performed by the actuary quarterly and is reviewed by management. The methodology used by the actuary includes a development factor to reflect growth or reduction in the value of these personal injury claims based largely on CSXT's historical claims and settlement experience. These analyses did not result in a material adjustment to the personal injury reserve in 2021, 2020 or 2019.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 5. Casualty, Environmental and Other Reserves, *continued**Occupational*

Occupational reserves represent liabilities arising from allegations of exposure to certain materials in the workplace (such as solvents, soaps, chemicals and diesel fumes), past exposure to asbestos or allegations of chronic physical injuries resulting from work conditions (such as repetitive stress injuries). Beginning in second quarter 2020, the Company retains an independent actuary to analyze the Company's historical claims, settlement amounts, and dismissal rates to assist in determining future anticipated claim filing rates and average settlement values. This analysis is performed by the actuary and reviewed by management quarterly. Previously, the quarterly analysis was performed by management. There were no material adjustments to the occupational reserve in 2021, 2020 or 2019.

Environmental

Environmental reserves were \$108 million and \$76 million for 2021 and 2020, respectively. Environmental reserves as of December 31, 2021, include liabilities assumed as a result of the Company's acquisition of Quality Carriers. The Company is a party to various proceedings related to environmental issues, including administrative and judicial proceedings involving private parties and regulatory agencies. The Company has been identified as a potentially responsible party at approximately 220 environmentally impaired sites. Many of these are, or may be, subject to remedial action under the federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 ("CERCLA"), also known as the Superfund Law, or similar state statutes. Most of these proceedings arose from environmental conditions on properties used for ongoing or discontinued railroad operations. A number of these proceedings, however, are based on allegations that the Company, or its predecessors, sent hazardous substances to facilities owned or operated by others for treatment, recycling or disposal. In addition, some of the Company's land holdings were leased to others for commercial or industrial uses that may have resulted in releases of hazardous substances or other regulated materials onto the property and could give rise to proceedings against the Company.

In any such proceedings, the Company is subject to environmental clean-up and enforcement actions under the Superfund Law, as well as similar state laws that may impose joint and several liability for clean-up and enforcement costs on current and former owners and operators of a site without regard to fault or the legality of the original conduct. These costs could be substantial.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 5. Casualty, Environmental and Other Reserves, *continued*

In accordance with the *Asset Retirement and Environmental Obligations Topic* in the ASC, the Company reviews its role with respect to each site identified at least quarterly, giving consideration to a number of factors such as:

- type of clean-up required;
- nature of the Company's alleged connection to the location (e.g., generator of waste sent to the site or owner or operator of the site);
- extent of the Company's alleged connection (e.g., volume of waste sent to the location and other relevant factors); and
- number, connection and financial viability of other named and unnamed potentially responsible parties at the location.

Based on management's review process, amounts have been recorded to cover contingent anticipated future environmental remediation costs with respect to each site to the extent such costs are reasonably estimable and probable. The recorded liabilities for estimated future environmental costs are undiscounted. The liability includes future costs for remediation and restoration of sites as well as any significant ongoing monitoring costs, but excludes any anticipated insurance recoveries. Payments related to these liabilities are expected to be made over the next several years. Environmental remediation costs are included in purchased services and other on the consolidated income statements.

Currently, the Company does not possess sufficient information to reasonably estimate the amounts of additional liabilities, if any, on some sites until completion of future environmental studies. In addition, conditions that are currently unknown could, at any given location, result in additional exposure, the amount and materiality of which cannot presently be reasonably estimated. Based upon information currently available, however, the Company believes its environmental reserves accurately reflect the estimated cost of remedial actions currently required.

Other

Other reserves were \$80 million and \$42 million for 2021 and 2020, respectively. These reserves as of December 31, 2021, include liabilities assumed as a result of the Company's acquisition of Quality Carriers. Other reserves include liabilities for various claims, such as automobile, property, general liability and workers' compensation. Also included in other reserves are longshoremen disability claims related to a previously owned international shipping business (these claims are in runoff) as well as claims for current port employees.

(a) For depreciation method, certain asset categories contain intermodal terminals or technology-related assets, which are depreciated using the straight-line method.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 6. Properties, continued*Capital Expenditures*

The Company's capital investment includes purchased and self-constructed assets and property additions that substantially extend the service life or increase the utility of those assets. Indirect costs that can be specifically traced to capital projects are also capitalized. The Company is committed to maintaining and improving its existing infrastructure and expanding its network capacity for long-term growth. Rail operations are capital intensive and CSX accounts for these costs in accordance with GAAP and the Company's capitalization policy. All properties are stated at historical cost less an allowance for accumulated depreciation.

The Company's largest category of capital investment is the replacement of track assets and the acquisition or construction of new assets that enable CSX to enhance its operations or provide new capacity offerings to its customers. These construction projects are primarily completed by CSXT employees. Costs for track asset replacement and capacity projects that are capitalized include:

- labor costs, because many of the assets are self-constructed;
- costs to purchase or construct new track or to prepare ground for the laying of track;
- welding (rail, field and plant), which are processes used to connect segments of rail;
- new ballast, which is gravel and crushed stone that holds track in line;
- fuels and lubricants associated with tie, rail and surfacing work, which is the process of raising track to a designated elevation over an extended distance;
- cross, switch and bridge ties, which are the braces that support the rails on a track;
- gauging, which is the process of standardizing the distance between rails;
- handling costs associated with installing rail, ties or ballast;
- usage charge of machinery and equipment utilized in construction or installation; and
- other track materials.

Labor is a significant cost in self-constructed track replacement work. CSXT engineering employees directly charge their labor to the track replacement project (the capitalized depreciable property). In replacing track, these employees concurrently perform deconstruction and installation of track material. Because of this concurrent process, CSX must estimate the amount of labor that is related to deconstruction versus installation. As a component of the depreciation study for road and track assets, management performs an analysis of labor costs related to the self-constructed track replacement work, which includes direct observation of track replacement processes. Through this analysis, CSX determined that approximately 20% of labor costs associated with track replacement is related to the deconstruction of old track, for which certain elements are expensed, and 80% is associated with the installation of new track, which is capitalized.

Capital investment related to locomotives and freight cars comprises the second largest category of the Company's capital assets. This category includes purchases of locomotives and freight cars as well as certain equipment leases that are considered to be finance leases in accordance with the Leases Topic in the ASC. In addition, costs to modify or rebuild these assets are capitalized if the investment incurred extends the asset's service life or improves utilization. Improvement projects must meet specified dollar thresholds to be capitalized and are reviewed by management to determine proper accounting treatment. Routine repairs, overhauls and other maintenance costs, for all asset categories, are expensed as incurred.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 6. Properties, continued*Depreciation Method*

The depreciable assets of the Company are depreciated using either the group-life or straight-line method of accounting, which are both acceptable depreciation methods in accordance with GAAP. The Company depreciates its railroad assets, including main-line track, locomotives and freight cars, using the group-life method. Assets depreciated under the group-life method comprise 86% of total fixed assets of \$46.5 billion on a gross basis as of December 2021. The remaining depreciable assets of the Company, including non-railroad assets and assets under finance leases, are depreciated using the straight-line method on a per asset basis. Land is not depreciated.

The group-life method aggregates assets with similar lives and characteristics into groups and depreciates each of these groups as a whole. When using the group-life method, an underlying assumption is that each group of assets, as a whole, is used and depreciated to the end of its group's recoverable life. The Company currently utilizes different depreciable asset categories to account for depreciation expense for the railroad assets that are depreciated under the group-life method. By utilizing various depreciable categories, the Company can more accurately account for the use of its assets. All assets of the Company are depreciated on a time or life basis.

The group-life method of depreciation closely approximates the straight-line method of depreciation. Additionally, due to the nature of most of its assets (e.g. track is one contiguous, connected asset), the Company believes that this is the most accurate and effective way to properly depreciate its assets.

Estimated Useful Life

Management performs a review of depreciation expense and useful lives on a regular basis. Under the group-life method, the service lives and salvage values for each group of assets are determined by completing periodic depreciation studies and applying management's methods to determine the service lives of its properties. A depreciation study is the periodic review of asset service lives, salvage values, accumulated depreciation, and other related factors for group assets conducted by a third-party specialist, analyzed by the Company's management and approved by the STB, the regulatory board that has broad jurisdiction over railroad practices. The STB requires depreciation studies be performed every three years for equipment assets (e.g., locomotives and freight cars) and every six years for road and track assets (e.g., bridges, signals, rail, ties, and ballast). The Company believes the frequency of depreciation studies currently required by the STB, complemented by annual data reviews conducted by a third-party specialist and analyzed by the Company's management, provides adequate review of asset service lives and that a more frequent review would not result in a material change due to the long-lived nature of most of the assets.

The Company completed a depreciation study for its road and track assets in 2020 and for equipment assets in 2019, both of which resulted in changes to accumulated depreciation, service lives, salvage values, and other related factors for certain assets. Recent experience with depreciation studies has resulted in changes to accumulated depreciation and depreciation rates that did not materially affect the Company's depreciation expense of \$1.4 billion, \$1.4 billion and \$1.3 billion for 2021, 2020 and 2019, respectively.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 6. Properties, continued*Group-Life Assets Sales and Retirements*

Since the rail network is one contiguous, connected network it is impractical to maintain specific identification records for these assets. For track assets (e.g., rail, ties, and ballast), CSX utilizes a first-in, first-out approach to asset retirements. Equipment assets (e.g., locomotives and freight cars) are specifically identified at retirement. When an equipment asset is retired that has been depreciated using the group-life method, the cost is reduced from the cost base and recorded in accumulated depreciation.

For sales or retirements of assets depreciated under the group-life method that occur in the ordinary course of business, the asset cost (net of salvage value or sales proceeds) is charged to accumulated depreciation and no gain or loss is immediately recognized. This practice is consistent with accounting treatment prescribed under the group-life method. As part of the depreciation study, an assessment of the recorded amount of accumulated depreciation is made to determine if it is deficient (or in excess) of the appropriate amount indicated by the study. Any such deficiency (or excess), including any deferred gains or losses, is amortized as a component of depreciation expense over the remaining service life of the asset group until the next required depreciation study. Since the overall assumption with the group-life method is that the assets within the group on average have the same service life and characteristics, it is therefore concluded that the deferred gains and losses offset over time.

For sales or retirements of assets depreciated under the group-life method that do not occur in the ordinary course of business, a gain or loss may be recognized if the sale or retirement meets each of the following three criteria: (i) it is unusual, (ii) it is material in amount, and (iii) it varies significantly from the retirement profile identified through our depreciation studies. No material gains or losses were recognized on the sale of assets depreciated using the group-life method in 2021, 2020 or 2019, as no sales met the criteria described above.

Land and Straight-line Assets Sales and Retirements

When the Company sells or retires land, land-related easements or assets depreciated under the straight-line method, a gain or loss is recognized in purchased services and other on the consolidated statements of income. Primarily as a result of its initiative to monetize non-core properties, the Company recognized gains on the sale of properties of \$454 million, \$35 million and \$151 million in 2021, 2020 and 2019, respectively.

Sale of Property Rights to the Commonwealth of Virginia

On March 26, 2021, the Company entered into a comprehensive agreement to sell certain property rights in three CSX-owned line segments to the Commonwealth of Virginia ("Commonwealth") over three phases for a total of \$525 million. The timing and amount of gains recognized are based on the allocation of fair value to each conveyance, the timing of future conveyances and collectability. In April 2021, upon closing of the first phase of the agreement, the Company collected \$200 million in proceeds and recognized a \$349 million gain. In fourth quarter 2021, the Company collected additional proceeds of \$200 million, a portion of which was attributable to the first phase with the remaining attributable to the second phase. There was no gain recognized in fourth quarter 2021 related to this agreement. As the second phase closed on January 10, 2022, the resulting \$20 million gain will be recognized in first quarter 2022.

The Company anticipates closing on the remaining conveyances by the end of 2022, which will result in future cash proceeds and gains. As of December 31, 2021, the carrying values of the remaining assets subject to this transaction were not material.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 6. Properties, continued*Impairment Review*

Properties and other long-lived assets are reviewed for impairment whenever events or business conditions indicate the carrying amount of such assets may not be fully recoverable. Initial assessments of recoverability are based on estimates of undiscounted future net cash flows associated with an asset or a group of assets in accordance with the *Property, Plant, and Equipment Topic* in the ASC. Where impairment is indicated, the assets are evaluated and their carrying amount is reduced to fair value based on discounted net cash flows or other estimates of fair value. Impairment expense of \$2 million in 2021 and \$8 million in 2020 was primarily due to the discontinuation of certain in-progress projects. In 2019, impairment expense of \$22 million was related to an intermodal terminal sale agreement. Impairment expense is recorded in purchased services and other expense on the consolidated income statement.

NOTE 7. Leases

At inception, the Company determines if an arrangement contains a lease and whether that lease meets the classification criteria of a finance or operating lease. Some of the Company's lease arrangements contain lease components (e.g., minimum rent payments) and non-lease components (e.g., maintenance, labor charges, etc.). The Company generally accounts for each component separately based on the estimated standalone price of each component. For certain equipment leases, such as freight car, vehicles and work equipment, the Company accounts for the lease and non-lease components as a single lease component.

Certain of the Company's lease agreements include rental payments that are adjusted periodically for an index or rate. The leases are initially measured using the projected payments adjusted for the index or rate in effect at the commencement date. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Operating Leases

Operating leases are included in right-of-use lease assets, other current liabilities and long-term lease liabilities on the consolidated balance sheets. These assets and liabilities are recognized at the commencement date based on the present value of remaining lease payments over the lease term using the Company's secured incremental borrowing rates or implicit rates, when readily determinable. Short-term operating leases, which have an initial term of 12 months or less, are not recorded on the balance sheet.

The Company has various lease agreements with other parties with terms up to 50 years. Non-cancelable, long-term leases may include provisions for maintenance, options to purchase and options to extend the terms. These options are included in the lease term when it is reasonably certain that the option will be exercised. Lease expense for operating leases, including leases with escalations over their terms, is recognized on a straight-line basis over the lease term. Variable lease expense is recognized in the period in which the obligation for those payments is incurred. Lease expense is included in equipment and other rents on the consolidated income statements and is reported net of lease income. Lease income was not material to the results of operations for 2021, 2020 or 2019.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 7. Leases, continued

CSX has a significant operating lease with the State of Georgia for approximately 137 miles of right-of-way with integral equipment for a term of 50 years with an annual 2.5% increase. The following table presents information about the amount, timing and uncertainty of cash flows arising from all of the Company's operating leases as of December 31, 2021.

(Dollars in Millions)

	December 2021	
Maturity of Lease Liabilities	Lease Payments	
2022	\$	66
2023		55
2024		45
2025		40
2026		31
Thereafter		1,153
Total undiscounted operating lease payments	\$	1,390
Less: Imputed interest		(848)
Present value of operating lease liabilities	\$	542

(Dollars in Millions)

	2021		2020	
Balance Sheet Classification				
Right of use asset	\$	501	\$	472
Current lease liabilities (included in other current liabilities)	\$	64	\$	45
Long-term lease liabilities		478		455
Total operating lease liabilities	\$	542	\$	500
Other Information				
Weighted-average remaining lease term for operating leases		32 years		35 years
Weighted-average discount rate for operating leases		4.9 %		5.0 %

Cash Flows

As of December 2021 and 2020, the Company's right-of-use asset was valued at \$501 million and \$472 million, respectively. In 2021, right-of-use assets of \$88 million were recognized as non-cash asset additions that resulted from the inclusion of Quality Carriers' leases and new operating lease liabilities. In 2020, right-of-use assets of \$11 million were recognized as non-cash asset additions due to new operating lease liabilities. Cash paid for amounts included in the present value of operating lease liabilities was \$60 million and \$59 million during the years ended 2021 and 2020, respectively, and is included in operating cash flows.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 7. Leases, continued**Operating Lease Costs**

These costs are primarily related to long-term operating leases, but also include immaterial amounts for variable leases and short-term leases with terms greater than 30 days. These amounts are shown in the table below.

	Fiscal Years		
	2021	2020	2019
<i>(Dollars in Millions)</i>			
Rent Expense on Operating Leases	\$ 89	\$ 82	\$ 84

Finance Leases

Finance leases are included in properties - net and long-term debt on the consolidated balance sheets and were not material as of December 2021 or December 2020. The associated amortization expense and interest expense are included in depreciation and interest expense, respectively, on the consolidated income statements and were not material to the results of operations for 2021, 2020 or 2019.

NOTE 8. Commitments and Contingencies**Purchase Commitments**

CSXT's long-term locomotive maintenance program agreement with a third party contains commitments related to specific locomotive rebuilds and a long-term maintenance program that covers a portion of CSXT's fleet of locomotives. The maintenance program costs are based on the maintenance cycle for each covered locomotive, which is determined by the asset's age and type. Expected future costs may change as required maintenance schedules are revised and locomotives are placed into or removed from service. Under CSXT's current obligations, the agreement will expire no earlier than 2035.

The following table summarizes the number of locomotives covered and CSXT's payments under the long-term maintenance program.

	Fiscal Years		
	2021	2020	2019
<i>(Dollars in Millions)</i>			
Amounts Paid	\$ 99	\$ 158	\$ 139
Number of Locomotives	1,863	1,874	1,897

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 8. Commitments and Contingencies, *continued*

The total of annual payments under the agreement, including those related to locomotive rebuilds and the long-term locomotive maintenance program, are estimated in the table below.

Additionally, the Company has various other commitments to purchase technology, communications, track maintenance services and materials, and other services from various suppliers. Total annual payments under all of these purchase commitments are also estimated in the table below.

<i>(Dollars in Millions)</i>	Locomotive Maintenance & Rebuild Payments	Other Commitments	Total
2022	\$ 205	\$ 45	\$ 250
2023	231	35	266
2024	273	31	304
2025	288	30	318
2026	218	13	231
Thereafter	1,643	81	1,724
Total	<u>\$ 2,858</u>	<u>\$ 235</u>	<u>\$ 3,093</u>

Insurance

The Company maintains insurance programs with substantial limits for property damage, including resulting business interruption, and third-party liability. A certain amount of risk is retained by the Company on each insurance program. Under its property insurance program, the Company retains all risk up to \$100 million per occurrence for losses from floods and named windstorms and up to \$75 million per occurrence for other property losses. For third-party liability claims, the Company retains all risk up to \$100 million per occurrence. As CSX negotiates insurance coverage above its full self-retention amounts, it retains a percentage of risk at various layers of coverage. While the Company believes its insurance coverage is adequate, future claims could exceed existing insurance coverage or insurance may not continue to be available at commercially reasonable rates.

Legal

The Company is involved in litigation incidental to its business and is a party to a number of legal actions and claims, various governmental proceedings and private civil lawsuits, including, but not limited to, those related to fuel surcharge practices, tax matters, environmental and hazardous material exposure matters, FELA and labor claims by current or former employees, other personal injury or property claims and disputes and complaints involving certain transportation rates and charges. Some of the legal proceedings include claims for compensatory as well as punitive damages and others are, or are purported to be, class actions. While the final outcome of these matters cannot be predicted with certainty, considering, among other things, the legal defenses available and liabilities that have been recorded along with applicable insurance, it is currently the opinion of management that none of these pending items will have a material adverse effect on the Company's financial condition, results of operations or liquidity. An unexpected adverse resolution of one or more of these items, however, could have a material adverse effect on the Company's financial condition, results of operations or liquidity in that particular period.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 8. Commitments and Contingencies, *continued*

The Company is able to estimate a range of possible loss for certain legal proceedings for which a loss is reasonably possible in excess of reserves established. The Company has estimated this range to be \$2 million to \$25 million in aggregate as of December 31, 2021. This estimated aggregate range is based upon currently available information and is subject to significant judgment and a variety of assumptions. Accordingly, the Company's estimate will change from time to time, and actual losses may vary significantly from the current estimate.

Fuel Surcharge Antitrust Litigation

In May 2007, class action lawsuits were filed against CSXT and three other U.S.-based Class I railroads alleging that the defendants' fuel surcharge practices relating to contract and unregulated traffic resulted from an illegal conspiracy in violation of antitrust laws. The class action lawsuits were consolidated into one case in federal court in the District of Columbia. In 2017, the District Court issued its decision denying class certification. On August 16, 2019, the U.S. Court of Appeals for the D.C. Circuit affirmed the District Court's ruling.

The consolidated case is now moving forward without class certification. Although a class was not certified, shippers other than those who brought the original lawsuit in 2007 must decide whether to bring their own individual claim against one or more railroads. Individual shipper claims filed to date have been consolidated into a separate case.

CSXT believes that its fuel surcharge practices were arrived at and applied lawfully and that the case is without merit. Accordingly, the Company intends to defend itself vigorously. However, penalties for violating antitrust laws can be severe, and resolution of these matters individually or when aggregated could have a material adverse effect on the Company's financial condition, results of operations or liquidity in that particular period.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 8. Commitments and Contingencies, *continued**Environmental*

CSXT is indemnifying Pharmacia LLC, formerly known as Monsanto Company, ("Pharmacia") for certain liabilities associated with real estate located in Kearny, New Jersey along the Lower Passaic River (the "Property"). The Property, which was formerly owned by Pharmacia, is now owned by CSXT. CSXT's indemnification and defense duties arise with respect to several matters. The U.S. Environmental Protection Agency ("EPA"), using its CERCLA authority, seeks the investigation and cleanup of hazardous substances in the 17-mile Lower Passaic River Study Area (the "Study Area"). CSXT, on behalf of Pharmacia, and a significant number of other potentially responsible parties are together conducting a Remedial Investigation and Feasibility Study of the Study Area pursuant to an Administrative Settlement Agreement and Order on Consent with the EPA. Pharmacia's share of responsibility, indemnified by CSXT, for the investigation and cleanup costs of the Study Area may be determined through various mechanisms including (a) an allocation and settlement with EPA; (b) litigation brought by EPA against non-settling parties; or (c) litigation among the responsible parties.

In March 2016, EPA issued its Record of Decision detailing the agency's mandated remedial process for the lower 8 miles of the Study Area. Approximately 80 parties, including Pharmacia, are participating in an EPA-directed allocation and settlement process to assign responsibility for the remedy selected for the lower 8 miles of the Study Area. CSXT is participating in the EPA-directed allocation and settlement process on behalf of Pharmacia. EPA has also selected an interim remedy for the remainder of the Study Area in a Record of Decision dated September 28, 2021. Settlement discussions are also ongoing for the selected interim remedy.

CSXT is also defending and indemnifying Pharmacia with regard to the Property in litigation filed by Occidental Chemical Corporation, which is seeking to recover various costs. These costs include costs for the remedial design of the lower 8 miles of the Study Area, as well as anticipated costs associated with the future remediation of the lower 8 miles of the Study Area and potentially the entire Study Area. Alternatively, Occidental seeks to compel some, or all of the defendants to participate in the remediation of the Study Area. Pharmacia is one of approximately 110 defendants in this federal lawsuit filed by Occidental on June 30, 2018.

CSXT is also defending and indemnifying Pharmacia in a cooperative natural resource damages assessment process related to the Property. Based on currently available information, the Company does not believe any indemnification or remediation costs potentially allocable to CSXT with respect to the Property and the Study Area would be material to the Company's financial condition, results of operations or liquidity.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 9. Employee Benefit Plans

The Company sponsors defined benefit pension plans principally for salaried, management personnel. For employees hired prior to 2003, the plans provide eligible employees with retirement benefits based predominantly on years of service and compensation rates near retirement. For employees hired between 2003 and 2019, benefits are determined based on a cash balance formula, which provides benefits by utilizing interest and pay credits based upon age, service and compensation. Beginning in 2020, the CSX Pension Plan was closed to new participants.

In addition to these plans, the Company sponsors a post-retirement medical plan and a life insurance plan that provide certain benefits to full-time, salaried, management employees hired prior to 2003 upon their retirement if certain eligibility requirements are met. Beginning in 2019, both the life insurance benefit for eligible active management employees and health savings account contributions made by the Company to eligible retirees younger than 65 were eliminated for those retiring on or after January 1, 2019. Beginning in 2020, the employer-funded health reimbursement arrangements and life insurance benefit for eligible retirees 65 years or older were eliminated. These changes did not result in a curtailment loss as there was no material impact to service costs for active plan participants.

The Company engages independent actuaries to compute the amounts of liabilities and expenses relating to these plans subject to the assumptions that the Company determines are appropriate based on historical trends, current market rates and future projections. These amounts are reviewed by management. In order to perform this valuation, the actuaries are provided with the details of the population covered at the beginning of the year, summarized in the table below, and projects that population forward to the end of the year.

	Summary of Participants as of January 1, 2021	
	Pension Plans	Post-retirement Medical Plan
Active Employees	3,019	698
Retirees and Beneficiaries	11,659	847
Other ^(a)	3,748	—
Total	18,426	1,545

(a) For pension plans, the other category consists mostly of terminated but vested former employees.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 9. Employee Benefit Plans, *continued*

The benefit obligation for these plans represents the liability of the Company for current and retired employees and is affected primarily by the following:

- service cost (benefits attributed to employee service during the period);
- interest cost (interest on the liability due to the passage of time);
- actuarial gains/losses (experience during the year different from that assumed and changes in plan assumptions); and
- benefits paid to participants.

Cash Flows

Plan assets are amounts that have been segregated and restricted to provide qualified pension plan benefits and include amounts contributed by the Company and amounts earned from invested contributions, net of benefits paid. Qualified pension plan obligations are funded in accordance with regulatory requirements and with an objective of meeting or exceeding minimum funding requirements necessary to avoid restrictions on flexibility of plan operation and benefit payments. The Company funds the cost of the post-retirement medical and life insurance benefits as well as nonqualified pension benefits on a pay-as-you-go basis. No qualified pension plan contributions were made during 2021, 2020 and 2019. No contributions to the Company's qualified pension plans are expected in 2022.

Future expected benefit payments are as follows:

	Expected Cash Flows	
	Pension Benefits	Post-retirement Benefits
<i>(Dollars in Millions)</i>		
2022	\$ 193	\$ 12
2023	187	9
2024	186	8
2025	183	7
2026	181	7
2027-2031	881	25
Total	<u>\$ 1,811</u>	<u>\$ 68</u>

Plan Assets

During 2020, the Company migrated to an outsourced investment management strategy to manage the pension plan assets. The CSX Investment Committee (the "Investment Committee"), whose members are selected by the Executive Vice President and Chief Financial Officer, is responsible for setting policy and oversight of investment management. The Investment Committee and investment manager utilize an investment asset allocation strategy that is monitored on an ongoing basis and updated periodically in consideration of plan or employee changes, or changing market conditions. Periodic studies provide an extensive modeling of asset investment return in conjunction with projected plan liabilities and seek to evaluate how to maximize return within the constraints of acceptable risk.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 9. Employee Benefit Plans, *continued*

The current asset allocation targets 60% growth-oriented investments and 40% immunizing investments. The growth-oriented portfolio consists of return-seeking investments that are diversified across geography, market capitalization, and asset class. The immunizing portfolio is comprised of a customized mix of fixed income and cash investments designed to reduce liability risk. Allocations are evaluated for levels within 5% of targeted allocations and are adjusted quarterly as necessary.

The distribution of pension plan assets as of the measurement date is shown in the table below, and these assets are reported net of pension liabilities on the balance sheet.

	December 2021		December 2020	
	Amount	Percent of Total Assets	Amount	Percent of Total Assets
<i>(Dollars in Millions)</i>				
Equity	\$ 1,559	52 %	\$ 1,324	44 %
Fixed Income	204	7	271	9
Cash and Cash Equivalents	49	1	221	8
Growth-Oriented	\$ 1,812	60 %	\$ 1,816	61 %
Fixed Income	1,145	38	1,018	34
Cash and Cash Equivalents	59	2	166	5
Immunizing	\$ 1,204	40 %	\$ 1,184	39 %
Total	\$ 3,016	100 %	\$ 3,000	100 %

Under the supervision of the Investment Committee, the investment manager selects investments or fund managers in accordance with standards of prudence applicable to asset diversification and investment suitability. The Company also selects fund managers with differing investment styles and benchmarks their investment returns against appropriate indices. Fund investment performance is continuously monitored. Acceptable performance is determined in the context of the long-term return objectives of the fund and appropriate asset class benchmarks.

Within the Company's equity funds, domestic stock is diversified among large and small capitalization stocks. International stock is diversified in a similar manner as well as in developed versus emerging markets stocks. Guidelines established with individual managers limit investment by industry sectors, individual stock issuer concentration and the use of derivatives and CSX securities.

Fixed income securities guidelines established with individual managers specify the types of allowable investments, such as government, corporate and asset-backed bonds, target certain allocation ranges for domestic and foreign investments and limit the use of certain derivatives. Additionally, guidelines stipulate minimum credit quality constraints and any prohibited securities. For detailed information regarding the fair value of pension assets, see Note 13, *Fair Value Measurements*.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 9. Employee Benefit Plans, *continued***Benefit Obligation, Plan Assets and Funded Status**

Changes in benefit obligation and the fair value of plan assets for the 2021 and 2020 calendar plan years are as follows:

	Pension Benefits		Post-retirement Benefits	
	Plan Year	Plan Year	Plan Year	Plan Year
	2021	2020	2021	2020
<i>(Dollars in Millions)</i>				
Actuarial Present Value of Benefit Obligation				
Accumulated Benefit Obligation	\$ 2,909	\$ 3,134	N/A	N/A
Projected Benefit Obligation	3,022	3,257	\$ 81	\$ 96
Change in Projected Benefit Obligation:				
Projected Benefit Obligation at Beginning of Plan Year	\$ 3,257	\$ 3,122	\$ 96	\$ 117
Service Cost ^(a)	45	46	1	1
Interest Cost	55	82	1	5
Plan Participants' Contributions	—	—	4	6
Actuarial (Gain) Loss	(142)	197	(4)	(11)
Benefits Paid	(193)	(190)	(17)	(22)
Benefit Obligation at End of Plan Year	\$ 3,022	\$ 3,257	\$ 81	\$ 96
Change in Plan Assets:				
Fair Value of Plan Assets at Beginning of Plan Year	\$ 3,000	\$ 2,825	\$ —	\$ —
Actual Return on Plan Assets	187	345	—	—
Non-qualified Employer Contributions	22	20	13	16
Plan Participants' Contributions	—	—	4	6
Benefits Paid	(193)	(190)	(17)	(22)
Fair Value of Plan Assets at End of Plan Year	\$ 3,016	\$ 3,000	\$ —	\$ —
Funded Status at End of Plan Year	\$ (6)	\$ (257)	\$ (81)	\$ (96)

(a) Service cost for 2021 and 2020 includes capitalized service costs of \$4 million and \$3 million, respectively.

The \$142 million net actuarial gain for pension benefits in 2021 was driven by a 35 basis points increase in the weighted average discount rate. In 2020, the \$197 million net actuarial loss for pension benefits was driven by a 70 basis points decrease in the weighted average discount rate, partially offset by changes to assumptions based on census data.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 9. Employee Benefit Plans, continued

For qualified plan funding purposes, assets and discounted liabilities are measured in accordance with the Employee Retirement Income Security Act ("ERISA"), as well as other related provisions of the Internal Revenue Code and related regulations. Under these funding provisions and the alternative measurements available thereunder, the Company estimates its unfunded obligation for qualified plans on an annual basis.

In accordance with *Compensation-Retirement Benefits Topic* in the ASC, an employer must recognize the funded status of a pension or other post-retirement benefit plan by recording a liability (underfunded plan) or asset (overfunded plan) for the difference between the projected benefit obligation (or the accumulated post-retirement benefit obligation for a post-retirement benefit plan) and the fair value of plan assets at the plan measurement date. Amounts related to pension and post-retirement benefits recorded in other long-term assets, labor and fringe benefits payable and other long-term liabilities on the balance sheet are as follows:

	Pension Benefits		Post-retirement Benefits	
	December	December	December	December
<i>(Dollars in Millions)</i>	2021	2020	2021	2020
Amounts Recorded in Consolidated				
Balance Sheets:				
Long-term Assets ^(a)	\$ 255	\$ 29	\$ —	\$ —
Current Liabilities	(17)	(16)	(12)	(17)
Long-term Liabilities	(244)	(270)	(69)	(79)
Net Amount Recognized in				
Consolidated Balance Sheets	\$ (6)	\$ (257)	\$ (81)	\$ (96)

(a) Long-term assets as of December 2021 and 2020 relate to qualified pension plans where assets exceed projected benefit obligations.

The funded status, or amount by which the benefit obligation exceeds the fair value of plan assets, represents a liability. At December 2021, the status of CSX plans with a net liability only is disclosed below. The total fair value of all plan assets as of December 2021 was \$3.0 billion, which includes the qualified pension plans with net assets.

<i>(Dollars in Millions)</i>	Aggregate	
	Fair Value	Aggregate
Benefit Obligations in Excess of Plan Assets	of Plan Assets	Benefit Obligation
Projected Benefit Obligation	\$ —	\$ (261)
Accumulated Benefit Obligation	—	(249)

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 9. Employee Benefit Plans, *continued***Net Benefit Expense**

Only the service cost component of net periodic benefit costs is included in labor and fringe expense on the consolidated income statement. All other components of net periodic benefit cost are included in other income - net. The following table describes the components of expense/(income) related to net benefit expense recorded on the income statement.

	Pension Benefits Fiscal Years			Post-retirement Benefits Fiscal Years		
	2021	2020	2019	2021	2020	2019
<i>(Dollars in Millions)</i>						
Service Cost Included in Labor and Fringe	\$ 41	\$ 43	\$ 31	\$ 1	\$ 1	\$ 1
Interest Cost	55	82	103	1	5	2
Expected Return on Plan Assets	(186)	(176)	(171)	—	—	—
Amortization of Net Loss	73	54	30	—	1	—
Amortization of Prior Service Cost	—	—	—	(7)	(7)	(7)
Total Income Included in Other Income - Net	\$ (58)	\$ (40)	\$ (38)	\$ (6)	\$ (1)	\$ (5)
Net Periodic Benefit (Credit)/Cost	\$ (17)	\$ 3	\$ (7)	\$ (5)	\$ —	\$ (4)
Settlement Gain	—	(1)	—	—	—	—
Total Periodic Benefit (Credit)/Cost	\$ (17)	\$ 2	\$ (7)	\$ (5)	\$ —	\$ (4)

Pension and Other Post-retirement Benefits Adjustments

The following table shows the pre-tax change in other comprehensive loss (income) attributable to certain components of net benefit expense and the change in benefit obligation for CSX for pension and other post-employment benefits.

	Pension Benefits		Post-retirement Benefits	
	December 2021	December 2020	December 2021	December 2020
<i>(Dollars in Millions)</i>				
Components of Other Comprehensive Loss (Income)				
Recognized in the Balance Sheet				
(Gains) Losses	\$ (143)	\$ 28	\$ (4)	\$ (11)
Expense (Income) Recognized in the Income Statement				
Amortization of Net Losses	\$ 73	\$ 54	\$ —	\$ 1
Settlement Gain	—	(1)	—	—
Amortization of Prior Service Costs	—	—	(7)	(7)

As of December 2021, the balances to be amortized related to the Company's pension obligations is a pre-tax loss of \$637 million and related to post-retirement obligations is a pre-tax gain of \$75 million. These amounts are included in accumulated other comprehensive loss, a component of shareholders' equity.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 9. Employee Benefit Plans, *continued***Assumptions**

The expected long-term average rate of return on plan assets reflects the average rate of earnings expected on the funds invested, or to be invested, to provide for benefits included in the projected benefit obligation. In estimating that rate, the Company gives appropriate consideration to the returns being earned by the plan assets in the funds and the rates of return expected to be available for reinvestment as well as the current and projected asset mix of the funds. Management, with the assistance of the outsourced investment manager, balances market expectations obtained from various investment managers with both market and actual plan historical returns to develop a reasonable estimate of the expected long-term rate of return on assets. This assumption is reviewed annually and adjusted as deemed appropriate.

The Company measures the service cost and interest cost components of the net pension and post-retirement benefits expense by using individual spot rates matched with separate cash flows for each future year. The weighted averages of assumptions used by the Company to value its pension and post-retirement obligations were as follows:

	Pension Benefits		Post-retirement Benefits	
	2021	2020	2021	2020
Expected Long-term Return on Plan Assets:				
Benefit Cost for Current Plan Year	6.75 %	6.75 %	N/A	N/A
Benefit Cost for Subsequent Plan Year	6.75 %	6.75 %	N/A	N/A
Discount Rates:				
Benefit Cost for Plan Year				
Service Cost for Plan Year	2.69 %	3.32 %	1.81 %	2.93 %
Interest Cost for Plan Year	1.70 %	2.69 %	1.27 %	2.43 %
Benefit Obligation at End of Plan Year	2.78 %	2.43 %	2.51 %	2.07 %
Salary Scale Inflation	4.60 %	4.60 %	N/A	N/A
Cash Balance Plan Interest Credit Rate	3.75 %	3.75 %	N/A	N/A

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 9. Employee Benefit Plans, *continued****Other Plans***

Under collective bargaining agreements, the Company participates in a multi-employer benefit plan, which provides certain post-retirement health care and life insurance benefits to eligible contract employees. Premiums under this plan are expensed as incurred and amounted to \$21 million, \$20 million and \$26 million in 2021, 2020 and 2019, respectively.

The Company maintains savings plans for virtually all full-time salaried employees and certain employees covered by collective bargaining agreements. Expense associated with these plans was \$29 million, \$39 million and \$41 million for 2021, 2020 and 2019, respectively, and is included in labor and fringe expense on the consolidated income statement.

Under the terms of collective bargaining agreements that cover union-represented employees, Quality Carriers contributes to three multi-employer pension plans. These plans provide defined benefits to retired participants. All three of these pension plans are in Pension Protection Act zone “red”, meaning they are at least 65% underfunded. Formal rehabilitation plans have been adopted. As of December 31, 2021, based on information provided to the Company from the administrators of these plans, Quality Carriers’ portion of the contingent liability in the case of a full withdrawal or termination from these plans is approximately \$334 million, of which \$323 million relates to the Central States Southeast and Southwest Areas Pension Plan. The Company does not currently intend to withdraw from any of these multi-employer pension plans. Required monthly contributions to these plans are not material.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 10. Debt and Credit Agreements

Debt at December 2021 and December 2020 is shown in the table below. For information regarding the fair value of debt, see Note 13, *Fair Value Measurements*.

<i>(Dollars in Millions)</i>	Maturity at December 2021	Average Interest Rates at December 2021	December 2021	December 2020
Notes	2022-2068	4.2%	\$ 16,166	\$ 16,542
Equipment Obligations ^(a)	2022-2024	6.2%	153	160
Finance Leases	2022-2032	6.1%	47	3
Subtotal Long-term Debt (including current portion)			<u>\$ 16,366</u>	<u>\$ 16,705</u>
Less Debt Due within One Year			<u>(181)</u>	<u>(401)</u>
Long-term Debt (excluding current portion)			<u>\$ 16,185</u>	<u>\$ 16,304</u>

(a) *Equipment obligations are secured by an interest in certain railroad equipment.*

Debt Issuance & Early Redemption of Long-term Debt

No debt was issued in 2021. CSX issued the following notes in 2020, which are included in the consolidated balance sheets under long-term debt and may be redeemed by the Company at any time, subject to payment of certain make-whole premiums:

- On December 1, 2020, issued \$500 million of 2.50% notes due 2051. On December 30, 2020, the proceeds of the offering were used to fully redeem CSX's outstanding \$500 million of 3.70% notes that otherwise would have matured on November 1, 2023.
- On March 30, 2020, issued \$500 million of 3.8% notes due 2050.

The net proceeds from debt issuances will be used for general corporate purposes, which may include debt repayments, repurchases of CSX's common stock, capital investment, working capital requirements, improvements in productivity and other cost reductions. For more information regarding a non-cash debt transaction with a related party, see Note 15, *Investment in Affiliates and Related-Party Transactions*.

In July 2021, finance lease obligations and debt totaling \$68 million were assumed related to the Company's acquisition of Quality Carriers on July 1, 2021. See Note 17, *Business Combinations*.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 10. Debt and Credit Agreements, *continued***Long-term Debt Maturities (Net of Discounts, Premiums and Issuance Costs)***(Dollars in Millions)*

Fiscal Years Ending	Maturities at December 2021
2022	\$ 181
2023	153
2024	560
2025	605
2026	704
Thereafter	14,163
Total Long-term Debt Maturities, including current portion	<u>\$ 16,366</u>

Interest Rate Derivatives

On both April 29, 2020, and July 9, 2020, the Company executed a forward starting interest rate swap with a notional value of \$250 million for an aggregate notional value of \$500 million. These swaps were effected to hedge the benchmark interest rate associated with future interest payments related to the anticipated refinancing of \$850 million of 3.25% notes due in 2027. In accordance with the *Derivatives and Hedging Topic* in the ASC, the Company has designated these swaps as cash flow hedges. As of December 31, 2021 and 2020, the asset value of the forward starting interest rate swaps was \$91 million and \$80 million, respectively, and was recorded in other long-term assets on the consolidated balance sheet.

Unrealized gains or losses associated with changes in the fair value of the hedge are recorded net of tax in accumulated other comprehensive income ("AOCI") on the consolidated balance sheet. Unless settled early, the swaps will expire in 2027 and the unrealized gain or loss in AOCI will be recognized in earnings as an adjustment to interest expense over the same period during which the hedged transaction affects earnings. Unrealized gains, recorded net of tax in other comprehensive income, related to the hedges were \$8 million and \$62 million for the years ended December 31, 2021 and 2020, respectively.

Credit Facilities

CSX has a \$1.2 billion unsecured, revolving credit facility backed by a diverse syndicate of banks. This facility allows same-day borrowings at floating interest rates, based on LIBOR or an agreed-upon replacement reference rate, plus a spread that depends upon CSX's senior unsecured debt ratings. This facility expires in March 2024, and as of December 31, 2021, the Company had no outstanding balances under this facility.

Commitment fees and interest rates payable under the facility were similar to fees and rates available to comparably rated investment-grade borrowers. As of December 31, 2021, CSX was in compliance with all covenant requirements under the facility.

Commercial Paper

Under its commercial paper program, which is backed by the revolving credit facility, the Company may issue unsecured commercial paper notes up to a maximum aggregate principal amount of \$1.0 billion. Proceeds from issuances of the notes are expected to be used for general corporate purposes. At December 31, 2021, the Company had no commercial paper outstanding.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 11. Revenues

The Company's revenues are primarily derived from the transportation of freight as performance obligations that arise from its contracts with customers are satisfied. The following table presents the Company's revenues disaggregated by market as this best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors.

(Dollars in millions)	Fiscal Years		
	2021	2020	2019
Chemicals	\$ 2,421	\$ 2,309	\$ 2,349
Agricultural and Food Products	1,461	1,386	1,410
Forest Products ^(a)	918	834	870
Automotive	886	920	1,236
Metals and Equipment	796	675	742
Minerals	587	538	559
Fertilizers ^(a)	470	414	423
Total Merchandise	7,539	7,076	7,589
Intermodal	2,039	1,702	1,760
Coal	1,790	1,397	2,070
Trucking^(b)	410	—	—
Other	744	408	518
Total	\$ 12,522	\$ 10,583	\$ 11,937

(a) Effective first quarter 2021, changes were made in the categorization of certain lines of business, impacting Forest Products and Fertilizers. The impacts were not material and prior periods have been reclassified to conform to the current presentation.

(b) Effective third quarter 2021, Trucking revenue is comprised of revenue from the operations of Quality Carriers, which was acquired by CSX effective July 1, 2021.

Revenue Recognition

The Company generates revenue from rail freight billings under contracts with customers generally on a rate per carload, container or ton-basis based on length of haul and commodities carried. The Company's performance obligation arises when it receives a bill of lading ("BOL") to transport a customer's commodities at a negotiated price contained in a transportation services agreement or a publicly disclosed tariff rate. Once a BOL is received, a contract is formed whereby the parties are committed to perform, collectability of consideration is probable and the rights of the parties, shipping terms and conditions, and payment terms are identified. A customer may submit several BOLs for transportation services at various times throughout a service agreement term, but each shipment represents a distinct service that is a separately identified performance obligation.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 11. Revenues, *continued*

The average transit time to complete a rail shipment is between 2 to 8 days depending on market. Payments for transportation services are normally billed once a BOL is received and are generally due within 15 days after the invoice date. The Company recognizes revenue over transit time of freight as it moves from origin to destination. Revenue for services started but not completed at the reporting date is allocated based on the relative transit time in each reporting period, with the portion allocated for services subsequent to the reporting date considered remaining performance obligations.

The certain key estimates included in the recognition and measurement of revenue and related accounts receivable are as follows:

- Revenue associated with shipments in transit is recognized ratably over transit time and is based on average cycle times to move commodities and products from their origin to their final destination or interchange;
- Adjustments to revenue for billing corrections and billing discounts;
- Adjustments to revenue for overcharge claims filed by customers, which are based on historical payments to customers for rate overcharges as a percentage of total billing; and
- Incentive-based refunds to customers, which are primarily volume-related, are recorded as a reduction to revenue on the basis of the projected liability (this estimate is based on historical activity, current volume levels and forecasted future volume).

Revenue related to interline transportation services that involve the services of another party, such as another railroad, is reported on a net basis. The portion of the gross amount billed to customers that is remitted by the Company to another party is not reflected as revenue.

Effective third quarter 2021, trucking revenue includes revenue from the operations of Quality Carriers and is mostly comprised of truck shipments of chemicals. A performance obligation arises when Quality Carriers receives a customer order to transport a commodity at a contracted rate. Revenue is recorded on a gross basis ratably over transit time.

Other revenue is recorded upon completion of the service and is comprised of revenue from regional subsidiary railroads and incidental charges, including intermodal storage and equipment usage, demurrage and switching. Revenue from regional subsidiary railroads includes shipments by railroads that the Company does not directly operate. Intermodal storage represents charges for customer storage of containers at an intermodal terminal, ramp facility or offsite location beyond a specified period of time. Demurrage represents charges assessed when freight cars are held by a customer beyond a specified period of time. Switching represents charges assessed when a railroad switches cars for a customer or another railroad.

During 2021, 2020 and 2019, revenue recognized from performance obligations related to prior periods (for example, due to changes in transaction price) was not material.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 11. Revenues, *continued***Remaining Performance Obligations**

Remaining performance obligations represent the transaction price allocated to future reporting periods for freight services started but not completed at the reporting date. This includes the unearned portion of billed and unbilled amounts for cancellable freight shipments in transit. The Company expects to recognize the unearned portion of revenue for freight services in transit within one week of the reporting date. As of December 31, 2021, remaining performance obligations were not material.

Contract Balances and Accounts Receivable

The timing of revenue recognition, billings and cash collections results in accounts receivable and customer advances and deposits (contract liabilities) on the consolidated balance sheets. Contract assets, contract liabilities and deferred contract costs recorded on the consolidated balance sheet as of December 31, 2021 were not material.

The Company's accounts receivable - net consists of freight and non-freight receivables, reduced by an allowance for credit losses.

<i>(Dollars in millions)</i>	December 31, 2021	December 31, 2020
Freight Receivables	\$ 951	\$ 716
Freight Allowance for Credit Losses	(14)	(16)
Freight Receivables, net	937	700
Non-Freight Receivables	225	224
Non-Freight Allowance for Credit Losses	(14)	(12)
Non-Freight Receivables, net	211	212
Total Accounts Receivable, net	\$ 1,148	\$ 912

Freight receivables include amounts earned, billed and unbilled, and currently due from customers for transportation-related services. Non-freight receivables include amounts billed and unbilled and currently due related to government reimbursement receivables and other non-revenue receivables. The Company maintains an allowance for credit losses to provide for the estimated amount of receivables that will not be collected. The allowance is based upon an assessment of risk characteristics, historical payment experience, and the age of outstanding receivables adjusted for forward-looking economic conditions as necessary. Credit losses recognized on the Company's accounts receivable were not material in 2021 and 2020.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 12. Income Taxes

Earnings before income taxes of \$5.0 billion, \$3.6 billion and \$4.3 billion for fiscal years 2021, 2020 and 2019, respectively, represent earnings from domestic operations. The breakdown of income tax expense between current and deferred is as follows:

<i>(Dollars in Millions)</i>	Fiscal Years		
	2021	2020	2019
Current:			
Federal	\$ 827	\$ 559	\$ 608
State	176	123	104
Subtotal Current	\$ 1,003	\$ 682	\$ 712
Deferred:			
Federal	166	149	235
State	1	31	38
Subtotal Deferred	\$ 167	\$ 180	\$ 273
Total Income Tax Expense	\$ 1,170	\$ 862	\$ 985

The Company recorded a 2021 income tax benefit of \$48 million primarily as a result of favorable state legislative changes, additional tax benefits associated with the vesting of share-based awards and adjustments to deferred taxes as a result of filing the 2020 state tax returns. In 2020, the Company recorded an income tax benefit of \$30 million primarily as a result of the additional tax benefit associated with vesting of share-based awards and the resolution of certain tax matters. The Company recorded a 2019 income tax benefit of \$77 million primarily as a result of the additional tax benefit associated with vesting of share-based awards, federal and state legislative changes, and a change in the valuation of deferred taxes as a result of filing the 2018 tax returns.

Income tax expense reconciled to the tax computed at statutory rates is presented in the following table.

<i>(Dollars In Millions)</i>	Fiscal Years					
	2021		2020		2019	
Federal Income Taxes	\$ 1,040	21.0 %	\$ 762	21.0 %	\$ 906	21.0 %
State Income Taxes	139	2.8 %	117	3.2 %	108	2.5 %
Other	(9)	(0.2)%	(17)	(0.4)%	(29)	(0.7)%
Income Tax Expense/ Rate	\$ 1,170	23.6 %	\$ 862	23.8 %	\$ 985	22.8 %

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 12. Income Taxes, continued

The primary factors in the change in year-end net deferred income tax liability balances include the annual provision for deferred income tax expense and accumulated other comprehensive income/loss. The significant components of deferred income tax assets and liabilities include:

(Dollars in Millions)	2021		2020	
	Assets	Liabilities	Assets	Liabilities
Pension Plans	\$ 2	\$ —	\$ 62	\$ —
Other Employee Benefit Plans	106	—	96	—
Accelerated Depreciation	—	7,366	—	7,195
Other	497	622	320	451
Total	<u>\$ 605</u>	<u>\$ 7,988</u>	<u>\$ 478</u>	<u>\$ 7,646</u>
Net Deferred Income Tax Liabilities		<u>\$ 7,383</u>		<u>\$ 7,168</u>

The Company files a consolidated federal income tax return, which includes its principal domestic subsidiaries. CSX and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state jurisdictions. CSX participated in a contemporaneous IRS audit of tax years 2021 and 2020. Federal examinations of original federal income tax returns for all years through 2019 are resolved.

As of December 2021 and 2020, the Company had approximately \$18 million and \$16 million, respectively, of total unrecognized tax benefits as a result of uncertain tax positions. Net tax benefits of \$15 million and \$13 million as of December 2021 and 2020, respectively, could favorably impact the effective income tax rate in each year. The Company does not expect that unrecognized tax benefits as of December 2021 for various state and federal income tax matters will significantly change over the next 12 months. The final outcome of these uncertain tax positions is not yet determinable. There were no material changes to the total gross unrecognized tax benefits and prior year audit resolutions of the Company during the fiscal year ended December 2021.

CSX's continuing practice is to recognize net interest and penalties related to income tax matters in income tax expense. Accrued interest and penalties were not material as of December 2021 or 2020. Additionally, expenses from changes to the reserves for interest and penalties were not material in 2021, 2020 or 2019.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 13. Fair Value Measurements

The *Financial Instruments Topic* in the ASC requires disclosures about fair value of financial instruments in annual reports as well as in quarterly reports. For CSX, this statement applies to certain investments, pension plan assets, long-term debt and interest rate derivatives. Also, the *Fair Value Measurements and Disclosures Topic* in the ASC clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

Various inputs are considered when determining the value of the Company's investments, pension plan assets, long-term debt and interest rate derivatives. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. These inputs are summarized in the three broad levels listed below:

- Level 1 – observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets;
- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.); and
- Level 3 – significant unobservable inputs (including the Company's own assumptions about the assumptions market participants would use in determining the fair value of investments).

The valuation methods described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments

The Company's investment assets are carried at fair value on the consolidated balance sheet in accordance with the *Fair Value Measurements and Disclosures Topic* in the ASC. They are valued with assistance from a third-party trustee and consist of corporate bonds, government securities and fixed income mutual funds. The corporate bonds and government securities are valued using broker quotes that utilize observable market inputs, which are Level 2 inputs. The fixed income mutual funds are valued using unadjusted quoted prices for identical assets in active markets, which are Level 1 inputs.

CSX CORPORATION

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 13. Fair Value Measurements, *continued*

The Company's investment assets are carried at fair value on the consolidated balance sheets as summarized in the following table.

<i>(Dollars in Millions)</i>	Fiscal Years					
	2021			2020		
	Level 1	Level 2	Total	Level 1	Level 2	Total
Fixed Income Mutual Funds	\$ 75	\$ —	\$ 75	\$ —	\$ —	\$ —
Corporate Bonds	—	63	63	—	68	68
Government Securities	—	26	26	—	33	33
Total investments at fair value	\$ 75	\$ 89	\$ 164	\$ —	\$ 101	\$ 101
Total investments at amortized cost			\$ 156			\$ 89

These investments have the following maturities and are represented on the consolidated balance sheet within short-term investments for investments with maturities of less than one year, and other long-term assets for investments with maturities of one year and greater.

<i>(Dollars in Millions)</i>	December 2021	December 2020
Less than 1 year	\$ 77	\$ 2
1 - 5 years	28	22
5 - 10 years	12	23
Greater than 10 years	47	54
Total investments at fair value	\$ 164	\$ 101

Long-term Debt

Long-term debt, which includes finance leases, is reported at carrying amount on the consolidated balance sheets and is the Company's only financial instrument with fair values significantly different from their carrying amounts. The majority of the Company's long-term debt is valued with assistance from a third party that utilizes closing transactions, market quotes or market values of comparable debt. For those instruments not valued by the third party, the fair value has been estimated by applying market rates of similar instruments to the scheduled contractual debt payments and maturities. These market rates are provided by the same third party. All of the inputs used to determine the fair value of the Company's long-term debt are Level 2 inputs.

The fair value of outstanding debt fluctuates with changes in a number of factors. Such factors include, but are not limited to, interest rates, market conditions, credit ratings, values of similar financial instruments, size of the transaction, cash flow projections and comparable trades. Fair value will exceed carrying value when the current market interest rate is lower than the interest rate at which the debt was originally issued. The fair value of a company's debt is a measure of its current value under present market conditions. It does not impact the financial statements under current accounting rules.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 13. Fair Value Measurements, continued

The fair value and carrying value of the Company's long-term debt is as follows:

<i>(Dollars in Millions)</i>	December 2021	December 2020
Long-term Debt (Including Current Maturities):		
Fair Value	\$ 19,439	\$ 21,076
Carrying Value	16,366	16,705

Interest Rate Derivatives

The Company's forward starting interest rate swaps are carried at fair value and valued with assistance from a third party based upon pricing models using inputs observed from actively quoted markets. All of the inputs used to determine the fair value of the swaps are Level 2 inputs. The fair value of the Company's forward starting interest rate swaps asset was \$91 million and \$80 million at December 31, 2021 and 2020, respectively. See Note 10, *Debt and Credit Agreements*, for further information.

Pension Plan Assets

Pension plan assets are reported at fair value, net of pension liabilities, on the consolidated balance sheet. The Investment Committee targets an allocation of pension assets to be generally 60% growth-oriented and 40% immunizing. See Note 9, *Employee Benefit Plans*, for further information. There are several valuation methodologies used for those assets as described below.

Investments in the Fair Value Hierarchy

- *Common stock (Level 1)*: Valued at the closing price reported on the active market on which the individual securities are traded on the last day of the year and classified in Level 1 of the fair value hierarchy.
- *Mutual funds (Level 1)*: Valued at the net asset value of shares held at year end based on quoted market prices determined in an active market. These assets are classified in Level 1 of the fair value hierarchy.
- *Cash and cash equivalents (Level 1)*: Includes cash and short term investments with an original maturity of three months or less. The carrying value of cash and cash equivalents at year end approximates fair value. These assets are classified in Level 1 of the fair value hierarchy.
- *Corporate bonds, government securities, asset-backed securities and derivatives (Level 2)*: Valued using price evaluations reflecting the bid and/or ask sides of the market for a similar investment at year end. Asset-backed securities include commercial mortgage-backed securities and collateralized mortgage obligations. These assets are classified in Level 2 of the fair value hierarchy.

Investments Measured at Net Asset Value

- *Partnerships*: Net asset value of private equity is based on the fair market values associated with the underlying investments at year end. These funds have redemption restrictions that require advanced notice of 15 business days.
- *Commingled and common collective trust funds*: This class consists of private funds that invest in corporate equity and debt securities, government securities and various short-term debt instruments and are measured at net asset value to estimate the fair value of the investments. The net asset value of the investments is determined by reference to the fair value of the underlying securities, which are valued primarily through the use of directly or indirectly observable inputs. These funds have redemption restrictions that require advanced notice of up to 30 business days.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 13. Fair Value Measurements, *continued*

The pension plan assets at fair value by level, within the fair value hierarchy, as of calendar plan years 2021 and 2020 are shown in the table below. For additional information related to pension assets, see Note 9, *Employee Benefit Plans*.

	Fiscal Years					
	2021			2020		
	Level 1	Level 2	Total	Level 1	Level 2	Total
<i>(Dollars in Millions)</i>						
Common Stock	\$ 487	\$ —	\$ 487	\$ 337	\$ —	\$ 337
Mutual funds	14	—	14	21	—	21
Cash and cash equivalents	108	—	108	387	—	387
Corporate bonds	—	1,013	1,013	—	1,026	1,026
Government securities	—	173	173	—	164	164
Asset-backed securities, derivatives and other	—	98	98	—	85	85
Total investments in the fair value hierarchy	\$ 609	\$ 1,284	\$ 1,893	\$ 745	\$ 1,275	\$ 2,020
Investments measured at net asset value ^(a)	n/a	n/a	\$ 1,123	n/a	n/a	\$ 980
Investments at fair value	\$ 609	\$ 1,284	\$ 3,016	\$ 745	\$ 1,275	\$ 3,000

(a) Investments measured at net asset value represent certain investments that have been measured at net asset value per share (or its equivalent) and thus are not classified in the fair value hierarchy. In accordance with ASC 820, Fair Value Measurements, the fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the pension assets disclosed in Note 9, *Employee Benefit Plans*.

NOTE 14. Other Income - Net

The Company derives income from items that are not considered operating activities. Income from these items is reported net of related expense. All components of net periodic pension and post-retirement benefit costs, excluding service cost, are included in other income - net on the consolidated income statement. Miscellaneous income (expense) may fluctuate due to timing and includes investment gains, losses and interest income as well as other non-operating activities.

For discussion of the drivers of changes in net periodic pension and post-retirement benefit credit from 2020 to 2021 and from 2019 to 2020, refer to Note 9, *Employee Benefit Plans*. Debt repurchase expense increased from 2019 to 2020 primarily as a result of long-term debt being redeemed earlier relative to maturity date. Other income – net consisted of the following:

	Fiscal Years		
	2021	2020	2019
<i>(Dollars in Millions)</i>			
Net Periodic Pension and Post-retirement Benefit Credit ^(a)	\$ 64	\$ 42	\$ 43
Interest Income	7	17	48
Debt Repurchase Expense	—	(48)	(10)
Miscellaneous Income	8	8	7
Total Other Income - Net	\$ 79	\$ 19	\$ 88

(a) Excludes the service cost component of net periodic benefit cost.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 15. Investment in Affiliates and Related-Party Transactions

CSX's investments in affiliates are included on the consolidated balance sheet as investments in affiliates and other companies.

<i>(Dollars in Millions)</i>	December 2021	December 2020
Equity-method investments:		
Conrail	\$ 1,083	\$ 1,025
TTX	849	796
Other	167	164
Total	<u>\$ 2,099</u>	<u>\$ 1,985</u>

Conrail

Through a limited liability company, CSX and Norfolk Southern Corporation ("NS") jointly own Conrail. CSX has a 42% economic interest and 50% voting interest in the jointly-owned entity, and NS has the remainder of the economic and voting interests. Pursuant to the *Investments-Equity Method and Joint Venture Topic* in the ASC, CSX applies the equity method of accounting to its investment in Conrail.

Conrail owns rail infrastructure and operates for the joint benefit of CSX and NS. This is known as the shared asset area. Conrail charges fees for right-of-way usage, equipment rentals and transportation, switching and terminal service charges in the shared asset area. These expenses are included in purchased services and other on the consolidated income statements. Future payments due to Conrail under the shared asset area agreements are shown in the table below.

<i>(Dollars in Millions)</i>	Conrail Shared Asset Agreement
Years	
2022	\$ 31
2023	31
2024	23
2025	—
2026	—
Thereafter	—
Total	<u>\$ 85</u>

Also, included in equity earnings of affiliates are CSX's 42 percent share of Conrail's income and its amortization of the fair value write-up arising from the acquisition of Conrail and certain other adjustments. The amortization primarily represents the additional after-tax depreciation expense related to the write-up of Conrail's fixed assets when the original purchase price, from the 1997 acquisition of Conrail, was allocated based on fair value. This write-up of fixed assets resulted in a difference between CSX's investment in Conrail and its share of Conrail's underlying net equity, which is \$331 million as of December 2021.

CSX CORPORATION

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 15. Investment in Affiliates and Related-Party Transactions, *continued*

The following table discloses amounts related to Conrail. All amounts in the table below are included in purchased services and other expenses on the Company's consolidated income statements.

<i>(Dollars in Millions)</i>	Fiscal Years		
	2021	2020	2019
Rents, fees and services	\$ 128	\$ 126	\$ 119
Purchase price amortization and other	4	4	4
Equity earnings of Conrail	(44)	(49)	(42)
Total Conrail Expense	\$ 88	\$ 81	\$ 81

As required by the *Related Party Disclosures Topic* in the ASC, the Company has disclosed amounts below owed to Conrail, or its subsidiaries, representing liabilities under the operating, equipment and shared area agreements with Conrail. In 2014, the Company executed two promissory notes with a subsidiary of Conrail which were included in long-term debt on the consolidated balance sheets. In December 2020, the Company completed a non-cash conversion of its existing payable balance of approximately \$217 million and \$224 million, 2.89% notes due 2044 into new notes. The new notes for operation of the shared asset area are \$441 million, 1.31% notes due 2050. Interest expense from these promissory notes was \$6 million in each 2021, 2020 and 2019.

<i>(Dollars in Millions)</i>	December 2021	December 2020
Balance Sheet Information:		
CSX accounts payable to Conrail	\$ 100	\$ 50
Promissory notes payable to Conrail subsidiary		
1.31% CSX Promissory Note due December 2050	73	73
1.31% CSXT Promissory Note due December 2050	368	368

TTX Company

TTX Company ("TTX") is a privately-held corporation engaged in the business of providing its owner-railroads with standardized fleets of intermodal, automotive and general use railcars at time and mileage rates. CSX owns about 20 percent of TTX's common stock, and the remaining is owned by the other leading North American railroads and their affiliates. Pursuant to the *Investments-Equity Method* topic in the ASC, CSX applies the equity method of accounting to its investment in TTX.

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 15. Investment in Affiliates and Related-Party Transactions, *continued*

As required by the *Related Party Disclosures Topic* in the ASC, the following table discloses amounts related to TTX. Car hire rents and equity earnings are included in equipment and other rents expense on the Company's consolidated income statement.

<i>(Dollars in Millions)</i>	Fiscal Years		
	2021	2020	2019
Income statement information:			
Car hire rents	\$ 221	\$ 219	\$ 223
Equity earnings of TTX	(52)	(51)	(56)
Total TTX expense	\$ 169	\$ 168	\$ 167

Also included below is balance sheet information related to CSX's payable to TTX, which represents car rental liabilities.

Balance sheet information:	December	December
	2021	2020
CSX payable to TTX	\$ 35	\$ 40

Other Related Party Transactions

On October 17, 2019, the Company repurchased 14.1 million (split-adjusted) shares for \$319 million from MR Argent Advisor LLC, a CSX shareholder on behalf of certain limited partners of its affiliated funds. See additional discussion in Note 2, *Earnings Per Share*.

NOTE 16. Other Comprehensive Income (Loss)

CSX reports comprehensive earnings or loss in accordance with the *Comprehensive Income Topic* in the ASC in the consolidated comprehensive income statement. Total comprehensive earnings are defined as all changes in shareholders' equity during a period, other than those resulting from investments by and distributions to shareholders (e.g., issuance of equity securities and dividends). Generally, for CSX, total comprehensive earnings equal net earnings plus or minus adjustments for pension and other post-retirement liabilities as well as other adjustments. Total comprehensive earnings represent the activity for a period net of tax and were \$4.0 billion, \$2.8 billion and \$3.3 billion for 2021, 2020 and 2019, respectively.

While total comprehensive earnings is the activity in a period and is largely driven by net earnings in that period, accumulated other comprehensive income or loss ("AOCI") represents the cumulative balance of other comprehensive income, net of tax, as of the balance sheet date. For CSX, AOCI is primarily the cumulative balance related to pension and other post-retirement benefit adjustments, interest rate derivatives and CSX's share of AOCI of equity method investees.

CSX CORPORATION

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 16. Other Comprehensive Income (Loss), *continued*

Changes in the AOCI balance by component are shown in the following table. Amounts reclassified in pension and other post-employment benefits to net earnings relate to the amortization of actuarial losses and are included in other income-net on the consolidated income statements. See Note 9, *Employee Benefit Plans*, for further information. Interest rate derivatives consist of forward starting interest rate swaps classified as cash flow hedges. See Note 10, *Debt and Credit Agreements*, for further information. Items classified as other primarily represent CSX's share of AOCI of equity method investees. Amounts reclassified in other to net earnings are included in purchased services and other or equipment and other rents on the consolidated income statements.

	Pension and Other Post- Employment Benefits	Interest Rate Derivatives	Other	Accumulated Other Comprehensive Income (Loss)

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 17. Business Combinations*Acquisition of Quality Carriers, Inc.*

On July 1, 2021, the Company completed its acquisition of Quality Carriers, the largest provider of bulk liquid chemicals truck transportation in North America, for \$544 million in cash, which is presented on the statement of cash flows net of \$3 million cash acquired. Through a network of over 100 company-owned and affiliate terminals and facilities in key locations throughout the United States, Canada and Mexico, Quality Carriers provides transportation services to many of the leading chemical producers and shippers in North America. The results of Quality Carriers' operations and its cash flows were consolidated prospectively.

The Company accounted for the transaction using the acquisition method in accordance with ASC Topic 805, Business Combinations. The purchase price allocation was finalized as of December 31, 2021, and total measurement period adjustments to the preliminary allocation were immaterial. The allocation of total consideration to the fair values of the acquired assets and liabilities of Quality Carriers is summarized in the table below.

(Dollars in millions)

	<u>July 1, 2021</u>
Assets Acquired:	
Cash and Cash Equivalents	\$ 3

Liabilities Assumed:	
Accounts Payable and Accrued Liabilities	\$ 48
Finance Lease Obligations and Notes Payable	68
Casualty, Environmental and Other Reserves	62
Other Long-term Liabilities	21
Total Liabilities Assumed	<u>\$ 199</u>
Fair Value of Assets Acquired, Net of Liabilities Assumed:	<u><u>\$ 544</u></u>

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 17. Business Combinations, *continued*

Cash paid to acquire the business, net of acquired cash and cash equivalents of \$3 million, is included in investing activities on the Company's consolidated statement of cash flows. Properties and equipment of \$225 million include tractors and trailers, equipment, land, buildings and other assets. For information about Goodwill and intangible assets, see Note 18, *Goodwill and Other Intangible Assets*.

The Company incurred costs related to this acquisition of approximately \$17 million. All acquisition-related costs were expensed as incurred and have been recorded in purchased services and other in the accompanying consolidated income statements.

This acquisition is not material with respect to the Company's financial statements when reviewed under the quantitative and qualitative considerations of Regulation S-X Article 11 and ASC Topic 805. As the acquisition is not material, CSX has not provided pro forma information relating to the pre-acquisition period.

Proposed Acquisition of Pan Am Systems, Inc.

On November 30, 2020, CSX signed a definitive agreement to acquire Pan Am Systems, Inc. ("Pan Am") which is the parent company of Pan Am Railways, Inc. who jointly owns Pan Am Southern, LLC with a subsidiary of Norfolk Southern Corporation. Pan Am owns and operates a highly integrated, nearly 1,200-mile rail network and has a joint interest in the more than 600-mile Pan Am Southern system. This acquisition, if approved, will expand CSX's reach in the Northeastern United States. Assets and facilities to be acquired as part of the proposed transaction include road and track assets, work equipment, land, buildings and other assets. On February 25, 2021, the Company began the process of seeking approval from the STB. On January 13 and 14, 2022, the Company participated in a hearing before the STB to discuss the proposed transaction and a decision is expected by mid-April 2022. This proposed acquisition is not expected to be material with respect to the Company's financial statements when reviewed under the quantitative and qualitative considerations of Regulation S-X Article 11 and ASC Topic 805.

CSX CORPORATION

PART II

Item 8. Financial Statements and Supplementary Data

NOTE 18. Goodwill and Other Intangible Assets

The following table presents goodwill and other intangible asset balances and adjustments to those balances for the years ended December 31, 2021 and 2020:

<i>(Dollars in millions)</i>	Goodwill		Intangible Assets		Total Goodwill and Other Intangible Assets - Net
	Net Carrying Amount	Cost	Accumulated Amortization	Net Carrying Amount	
Balance at December 31, 2019	\$ 63	\$ —	\$ —	\$ —	\$ 63
Additions	—	—	—	—	—
Amortization	—	—	—	—	—
Balance at December, 31, 2020	\$ 63	\$ —	\$ —	\$ —	\$ 63
Additions	213	180	—	180	393
Amortization	—	—	(5)	(5)	(5)
Balance at December, 31, 2021	\$ 276	\$ 180	\$ (5)	\$ 175	\$ 451

As a result of the acquisition of Quality Carriers, Inc. on July 1, 2021, CSX recognized goodwill and intangible assets. The goodwill of \$213 million was calculated as the excess of the consideration paid over the fair value of net assets assumed as of July 1, 2021 and relates primarily to the ability of CSX to extend the reach of its network and gain access to new products, markets, and regions through a unique and competitive multimodal solution that leverages the reach of truck transportation with the cost advantage of rail-based services. Goodwill recognized in the acquisition is deductible for tax purposes. Prior to 2021, the Company's goodwill balance related to affiliates of CSXT, primarily P&L Transportation, Inc.

Intangible assets of \$180 million consist of \$150 million of customer relationships and \$30 million of trade names that will be amortized over a weighted-average period of 20 years and 15 years, respectively.

In fourth quarter 2021, CSX performed its annual evaluation of each reporting unit's goodwill and intangible assets for impairment. No impairment was recorded as a result of this evaluation.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure
None

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of December 31, 2021, under the supervision and with the participation of CSX's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), management has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the CEO and CFO concluded that, as of December 31, 2021, the Company's disclosure controls and procedures were effective at the reasonable assurance level in timely alerting them to material information required to be included in CSX's periodic SEC reports.

Management's Report on Internal Control over Financial Reporting

CSX's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Under the supervision and with the participation of the management of CSX, including CSX's CEO and CFO, CSX conducted an evaluation of the effectiveness of the Company's internal control over financial reporting as of December 31, 2021 based on the 2013 framework in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, which is also referred to as COSO. Based on that evaluation, management of CSX concluded that the Company's internal control over financial reporting was effective as of December 31, 2021. Management's assessment of the effectiveness of internal control over financial reporting is expressed at the level of reasonable assurance because a control system, no matter how well designed and operated, can provide only reasonable, but not absolute, assurance that the control system's objectives will be met.

The Company's internal control over financial reporting as of December 31, 2021 has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report which is included elsewhere herein.

**CSX CORPORATION
PART II**

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of CSX Corporation

Opinion on Internal Control Over Financial Reporting

We have audited CSX Corporation's internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, CSX Corporation (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of CSX Corporation as of December 31, 2021 and 2020, and the related consolidated statements of income, comprehensive income, cash flows, and changes in shareholders' equity for each of the three years in the period ended December 31, 2021, and the related notes of the Company and our report dated February 16, 2022 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

CSX CORPORATION
PART II

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM, *continued*

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Item 15. Exhibits, Financial Statement Schedules

(a)(1) Financial Statements

See Index to Consolidated Financial Statements on page 48.

(2) Financial Statement Schedules

The information required by Schedule II, *Valuation and Qualifying Accounts*, is included in Note 5 to the Consolidated Financial Statements, *Casualty, Environmental and Other Reserves*. All other financial statement schedules are not applicable.

(3) Exhibits

See exhibits listed under part (b) below.

(b) The documents listed below are being filed or have previously been filed on behalf of CSX and are incorporated herein by reference from the documents indicated and made a part hereof. Exhibits not previously filed are filed herewith. Pursuant to Regulation S-K, Item 601(b)(4)(iii), instruments that define the rights of holders of the Registrant's long-term debt securities, where the long-term debt securities authorized under each such instrument do not exceed 10% of the Registrant's total assets, have been omitted and will be furnished to the Commission upon request.

Description of CSX Corporation Common Stock

The following description of our common stock, which is registered under Section 12(b) of the Securities Exchange Act of 1934, as amended, is a summary and is qualified in its entirety by reference to CSX's amended and restated articles of incorporation and bylaws, which are incorporated by reference as exhibits to the Annual Report on Form 10-K of which this exhibit is a part, and by the applicable provisions of the Virginia Stock Corporation Act (the "VSCA"). We encourage you to read CSX's amended and restated articles of incorporation and bylaws, as well as applicable provisions of the VSCA, for more information.

Authorized Capital Stock

The authorized capital stock of CSX is (i) 5,400,000,000 shares of common stock, par value \$1.00 per share, and (ii) 25,000,000 shares of preferred stock, without par value, issuable in series.

Common Stock

Listing. Our common stock is listed on the Nasdaq Global Select Market under the symbol "CSX."

Fully Paid and Non-Assessable. All outstanding shares of common stock are fully-paid and non-assessable. Any additional shares of common stock we issue will also be fully-paid and non-assessable.

Voting Rights. Holders of common stock are entitled to one vote per share on all matters voted on by shareholders, and, except as otherwise required by law or provided by the terms of any series of preferred stock, the holders of those shares exclusively possess all voting power of CSX. No holder of common stock is entitled as such, as a matter of right, to subscribe for or purchase any shares of common stock or preferred stock. There is no cumulative voting in the election of directors, who are elected annually by a vote of the majority of the votes cast with respect to a nominee's election; provided, that if there are more nominees for election than the number of directors to be elected, directors are elected by a plurality of the votes cast in such an election.

Dividends. Subject to the preferential rights of any outstanding series of preferred stock, the holders of common stock are entitled to receive ratably dividends as may be declared from time to time by our Board of Directors from funds legally available for that purpose.

Right to Receive Liquidation Distributions. In the event of a liquidation, dissolution or winding up of CSX, holders of common stock are entitled to share ratably in all assets remaining after payment or provision for liabilities and amounts owing in respect of any outstanding preferred stock.

Transfer Agent. Broadridge Corporate Issuer Solutions, Inc., located in Edgewood, New York, is the transfer agent for our common stock.

Preferred Stock

Subject to limitations prescribed by the VSCA and CSX's amended and restated articles of incorporation, our Board of Directors, without further action by our shareholders, is authorized to designate and issue in series preferred stock and to fix as to any series:

- the number of shares constituting that series;
- the rate of dividend, the time of payment and, if cumulative, the dates from which dividends will be cumulative, and the extent of participation rights, if any;
- any right to vote with holders of shares of any other series or class and any right to vote as a class, either generally or as a condition to specified corporate action;
- the price at and the terms and conditions on which shares may be redeemed, including any sinking fund provisions for the redemption or purchase of shares;
- the amount payable upon shares in the event of a voluntary or involuntary liquidation; and
- whether shares will have the privilege of conversion, and if so, the terms and conditions on which shares may be converted.

The issuance of preferred stock could, among other things, adversely affect the voting power of the holders of common stock and, under certain circumstances, make it more difficult for a third party to gain control of CSX or to remove present management and could have the effect of delaying or preventing a merger, tender offer or other attempted takeover of CSX. No holder of preferred stock will be entitled, as a matter of right, to subscribe for or purchase any shares of preferred stock or common stock.

Unless otherwise determined by our Board of Directors, any series of preferred stock will rank, with respect to dividends and the distribution of assets, senior to common stock, and on a parity with shares of any other then outstanding series of preferred stock. Therefore, any preferred stock that may subsequently be issued may limit the rights of the holders of our common stock and preferred stock. In addition, under certain circumstances, preferred stock could also restrict dividend payments to our holders of common stock.

Virginia Stock Corporation Act; Anti-takeover Effects

The VSCA contains provisions governing "Affiliated Transactions." These provisions, with several exceptions discussed below, generally require approval of certain material transactions between a Virginia corporation and any beneficial holder of more than 10% of any class of its outstanding voting shares (an "Interested Shareholder") by a majority of disinterested directors and by the holders of at least two-thirds of the remaining voting shares. Affiliated Transactions subject to this approval requirement include mergers, share exchanges, material dispositions of corporate assets not in the ordinary course of business, any dissolution of the corporation proposed by or on behalf of an Interested Shareholder, or any reclassification, including a reverse stock split, recapitalization or merger of the corporation with its subsidiaries, which increases the percentage of voting shares owned beneficially by an Interested Shareholder by more than 5%.

For three years following the time that a person becomes an Interested Shareholder, a Virginia corporation cannot engage in an Affiliated Transaction with that Interested Shareholder without the approval of two-thirds of the voting shares other than those shares beneficially owned by the Interested Shareholder, and the approval of a majority of the Disinterested Directors. "Disinterested Director" means, with respect to a particular Interested Shareholder, a member of our Board of Directors who was:

- a member before the date on which an Interested Shareholder became an Interested Shareholder, or
- recommended for election by, or was elected to fill a vacancy and received the affirmative vote of, a majority of the Disinterested Directors then on the Board of Directors.

After the expiration of the three-year period, the statute requires approval of Affiliated Transactions by two-thirds of the voting shares other than those beneficially owned by the Interested Shareholder.

The principal exceptions to the special voting requirements apply to transactions proposed after the three-year period has expired and require either that the transaction be approved by a majority of CSX's Disinterested Directors or that the transaction satisfy the fair-price requirements of the statute. In general, the fair-price requirement provides that in a two-step acquisition transaction, the Interested Shareholder must pay the shareholders in the second step either the same amount of cash or the same amount and type of consideration paid to acquire CSX's shares in the first step.

None of the limitations and special voting requirements described above applies to an Interested Shareholder whose acquisition of shares making that person an Interested Shareholder was approved by a majority of CSX's Disinterested Directors.

These provisions are designed to deter certain types of takeovers of Virginia corporations. The statute provides that, by affirmative vote of a majority of the voting shares other than shares owned by any Interested Shareholder, a corporation can adopt an amendment to its articles of incorporation or bylaws providing that the Affiliated Transactions provisions will not apply to the corporation. At the 2006 annual meeting, the shareholders of CSX voted to "opt out" of the Affiliated Transactions provisions of the VSCA. Under CSX's amended and restated articles of incorporation, the following actions must be approved by the affirmative vote of a majority of the voting shares entitled to vote: (1) any plan of merger or share exchange for which the VSCA requires shareholder approval; (2) the sale of all or substantially all of CSX's property for which the VSCA requires shareholder approval; and (3) the dissolution of CSX. Majority voting for these three types of actions became effective on November 3, 2007, 18 months after the amendment was approved by the shareholders.

The VSCA also generally provides that shares of a Virginia corporation acquired in a transaction that would cause the acquiring person's voting strength to meet or exceed any of three thresholds (20%, 33-1/3% or 50%) have no voting rights with respect to those shares unless granted by a majority vote of shares not owned by the acquiring person or any officer or employee-director of the corporation. This provision empowers an acquiring person to require the Virginia corporation to hold a special meeting of shareholders to consider the matter within 50 days of its request. CSX's bylaws provide that this law does not apply to acquisitions of CSX stock.

Subsidiaries of the Registrant

As of December 31, 2021, the Registrant was the beneficial owner of 100% of the common stock of the following significant subsidiaries:

CSX Transportation, Inc. (a Virginia corporation)

As of December 31, 2021, none of the other subsidiaries included in the Registrant's consolidated financial statements constitute a significant subsidiary.

List of Subsidiary Issuers and Guarantors

As of December 31, 2021, the following subsidiaries of CSX are issuers or guarantors of the Company's Secured Equipment Notes due 2023 issued in 2007:

Issuers:

CSX Transportation, Inc.

Guarantors:

CSX Corporation

Consent of Independent Registered Public Accounting Firm

We consent to the incorporation by reference in the following Registration Statements:

- Registration Statement (Form S-8 No. 333-238807) pertaining to the CSX Corporation 401(k) Plan,
- Registration Statement (Form S-8 No. 333-231259) pertaining to the CSX 2019 Stock and Incentive Award Plan,

CERTIFICATION OF CEO AND CFO PURSUANT TO EXCHANGE ACT RULE

13a - 14(a) OR RULE 15d-14(a)

I, James M. Foote, certify that:

1. I have reviewed this Annual Report on Form 10-K of CSX Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

I, Sean R. Pelkey, certify that:

1. I have reviewed this Annual Report on Form 10-K of CSX Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
