⁽¹⁾ Fiscal 2017 included 53 weeks of operation.

⁽²⁾ Compares the 53 weeks ended February 3, 2018 to the 53 weeks ended February 4, 2017.

STORE LOCATIONS BY STATE

Citi Trends is a value-priced retailer of urban fashion apparel and accessories for the entire family with 549 stores in 31 states as of February 3, 2018. Citi Trends completed its initial public offering in May 2005 and is listed on the NASDAQ Stock Market under the symbol CTRN. Citi Trends' headquarters is located in Savannah, Georgia, with distribution centers located in Darlington, South Carolina and Roland, Oklahoma. Citi Trends provides quality fashion items at outstanding prices to our customers. As a team, we are committed to delivering exceptional value to our customers.

LETTER TO STOCKHOLDERS

I am pleased to report that the sales momentum we saw building in late 2016 continued throughout 2017 – a positive trend that accompanied success in several other areas of our business. Together, these accomplishments strengthened Citi Trends' profits significantly in 2017 and provide a platform to support additional initiatives to enhance growth prospects and stockholder value.

An 8.6% increase in total sales for the year ended February 3, 2018, reflected contributions from both our previously existing store base and the 20 new stores we opened throughout the year, together with a 53rd week in fiscal 2017. Importantly, comparable store sales remained strong throughout the year, rising 4.5% for the 53 weeks of 2017 when compared with the similar 53 weeks ended February 4, 2017.

Underscoring our sales growth, all three ticket and transaction metrics were favorable, as transaction counts, average number of items per transaction and the average unit retail improved year over year. In addition, all five of our major merchandise categories contributed to the sales improvement, providing confirmation that our merchandising strategy is resonating with customers across all lines of our business.

This top-line expansion, combined with our ability to leverage selling, general and administrative expenses during 2017, was the key driver behind our increase in profits for the year. For the full year, net income per diluted share rose 13.2% to \$1.03 compared with \$0.91 in 2016. However, when 2017 is adjusted for proxy contest expenses and the impact of tax reform, earnings per diluted share increased 38.5% to \$1.26*. Our financial progress last year was also apparent on our balance sheet, as cash and investments remained strong at \$105 million, we continued to operate debt-free, and inventory per store declined 0.7%.

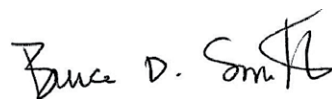

Citi Trends' strong operations and financial position provide us with increased flexibility to pursue opportunities for growth and improvement and to reward the ongoing loyalty of our stockholders. Considering the Company's performance and a confident outlook for the future, the Board of Directors has continued to expand a capital return program that commenced in 2015, when the Board approved our first share repurchase program and implemented a quarterly dividend.

In April 2017, the Board approved a second share repurchase program, which authorized the repurchase of \$25 million of our common stock and increased the cash dividend per share by 33.3% to \$0.08 per share. Having completed the second share repurchase program in 2017, the Board approved a third repurchase program in March 2018, again for \$25 million. Each of these actions demonstrates the Board's commitment to return excess capital to stockholders while maintaining the financial flexibility required to invest in and grow our business. As an example of the latter, during 2017 we began the roll-out of enhancements to our merchandise planning and allocation systems with a view toward tailoring our merchandise assortments on a store-by-store basis. This is a major strategic initiative designed to support continued sales momentum while also improving gross margin and inventory turns.

With a chain of 549 stores spanning 31 states, we confidently enter fiscal 2018, well-positioned as to our merchandise inventory, which benefited from a strong sell-down of fall and winter product in the fourth quarter. Looking ahead, we will remain steadfast in our efforts to grow all areas of our business by providing customers with highly fashionable merchandise at great values. As we strive to be a leader in this space by providing value-priced urban fashions, we are pleased to note signs of our success. Sales gains across all categories validate strategies to improve our apparel offerings and target our customers' broader lifestyle needs.

Lastly, I wish to thank the Board of Directors for the support they have extended to me over the past year as Acting CEO and for the additional confidence they have recently expressed in naming me to the position of CEO of Citi Trends. We share a vision for what our company is and is becoming, for its potential and for the opportunities ahead. We look forward to sharing our journey with you.

Sincerely,

Bruce D. Smith
President and Chief Executive Officer

PART I

Some statements in, or incorporated by reference into, this Annual Report on Form 10-K (this “Report”) of Citi Trends, Inc. (“we”, “us”, or the “Company”) may constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). All statements other than historical facts contained in this Report, including statements regarding our future financial position, business policy and plans, objectives and expectations of management for future operations and capital allocation expectations, are forward-looking statements. The words “believe,” “anticipate,” “project,” “plan,” “expect,” “estimate,” “objective,” “forecast,” “goal,” “intend,” “could,” “will likely result,” or “will continue” and similar expressions, as they relate to us, are intended to identify forward-looking statements, although not all forward-looking statements contain such language. We have based these forward-looking statements largely on our current expectations and projections about future events, including, among other things: our ability to anticipate and respond to fashion trends, competition in our markets, consumer spending patterns, actions of our competitors or anchor tenants in the strip shopping centers where our stores are located, anticipated fluctuations in our operating results and expected cash position.

These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including those described in Item 1A. Risk Factors and elsewhere in this Report and the other documents we file with the Securities and Exchange Commission (“SEC”), including our reports on Form 8-K and Form 10-Q, and any amendments thereto. Because forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, you should not rely upon forward-looking statements as predictions of future events. The events and circumstances reflected in the forward-looking statements may not be achieved or occur and actual results could differ materially from those projected in the forward-looking statements. These forward-looking statements speak only as of the date of such statements. Except as required by applicable law, including the securities laws of the United States and the rules and regulations of the SEC, we do not plan to publicly update or revise any forward-looking statements contained in this Report, whether as a result of any new information, future events or otherwise.

Information is provided herein with respect to our operations related to our fiscal years ended on February 3, 2018 (“fiscal 2017”), January 28, 2017 (“fiscal 2016”) and January 30, 2016 (“fiscal 2015”).

ITEM 1. BUSINESS

Overview and History

We are a value-priced retailer of urban fashion apparel and accessories for the entire family. Our merchandise offerings are designed to appeal to the fashion preferences of value-conscious consumers, particularly African-Americans. We believe that we provide merchandise at compelling values. Our goal is to provide merchandise at discounts to department and specialty stores’ regular prices of 20% to 70%. Our stores average approximately 11,000 square feet of selling space and are typically located in neighborhood shopping centers that are convenient to low and moderate income customers. As of February 3, 2018, we operated 549 stores in both urban and rural markets in 31 states.

Our predecessor, Allied Department Stores, was founded in 1946 and grew into a chain of family apparel stores operating in the Southeast. In 1999, the Company, then consisting of 85 stores, was acquired by a private equity firm. Following this acquisition, management implemented several strategies to focus on the growing urban market and improve our operating and financial performance. After the successful implementation of these strategies and the successful growth of our chain from 85 stores to 212 stores, we completed an initial public offering of our common stock on May 18, 2005.

We are a Delaware corporation, and our executive offices are located at 104 Coleman Boulevard, Savannah, Georgia 31408 and our telephone number is (912) 236-1561. Our Internet address is <http://www.cititrends.com>. The reference to our web site address in this Report does not constitute the incorporation by reference of the information contained at the web site into this Report. We make available, free of charge through publication on our web site, copies of our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, as soon as reasonably practicable after we have filed such materials with, or furnished such materials to, the SEC. In addition, you may read and copy any materials we file with the SEC at the SEC’s Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 or on the SEC’s web site at <http://www.sec.gov>, and you may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330.

Company Strengths and Strategies

Our goal is to be the leading value-priced retailer of urban fashion apparel and accessories. We believe the following business strengths differentiate us from our competitors and are important to our success:

Focus on Urban Fashion Mix. We focus our merchandise on urban fashions, which we believe appeal to our core customers. We do not attempt to dictate trends, but rather devote considerable effort to identifying emerging trends and ensuring that our apparel assortment is considered timely and fashionable in the urban market. Our merchandising staff tests new emerging merchandise trends before reordering and actively manages the mix of fashion and branded products in the stores to keep our offering fresh and minimize markdowns.

Superior Value Proposition. As a value-priced retailer, we seek to offer top quality, fashionable merchandise at compelling prices in relation to department and specialty stores. We also offer products under our proprietary brands such as “Citi Steps” and “Red Ape.” These private brands enable us to expand our product selection, offer fashion merchandise at lower prices and enhance our product offerings.

Merchandise Mix that Appeals to the Entire Family. We merchandise our stores to create a destination environment capable of meeting the fashion needs of the entire value-conscious family. Each store offers a wide variety of products for men and women, as well as children. Our stores feature sportswear, dresses, outerwear, footwear, intimate apparel, accessories, scrubs, beauty and home. We believe that the breadth of our merchandise distinguishes our stores from many competitors that offer urban apparel primarily for women, and reduces our exposure to fashion trends and demand cycles in any single category.

Strong and Flexible Sourcing Relationships. We maintain strong sourcing relationships with a large group of suppliers. We have purchased merchandise from approximately 1,800 vendors in the past 12 months. Purchasing is controlled by a 45 member buying team located in one of our three buying offices - New York, New York; Los Angeles, California; and our Savannah, Georgia headquarters. We purchase merchandise through planned programs with vendors at reduced prices and opportunistically through close-outs, with the majority of our merchandise purchased for the current season and a lesser quantity held for sale in future seasons. To foster vendor relationships, we pay vendors promptly and do not ask for typical retail concessions, such as promotional and markdown allowances.

Attractive Fashion Presentation and Store Environment. We seek to provide a fashion-focused shopping environment that is similar to a specialty apparel retailer, rather than a typical off-price store. Products are prominently displayed by style, rather than by size, on dedicated, four-way fixtures featuring multiple sizes and styles. The remaining merchandise is arranged on hanging racks. The stores are carpeted and well-lit, with most featuring a sound system that plays urban adult and urban contemporary music throughout the store.

Cost-Effective Store Locations. We locate stores in high traffic strip shopping centers that are convenient to low and moderate income neighborhoods. We generally utilize previously occupied store sites which enables us to obtain attractive rents. Similarly, advertising expenses are low as we do not rely on promotion-driven sales but rather seek to build our reputation for value through everyday low prices. At the same time, from an investment perspective, we seek to design stores that are inviting and easy to shop, while limiting startup and fixturing costs.

Product Merchandising and Pricing

Products. Our merchandising strategy is to offer fashionable urban apparel and accessories at attractive prices for the entire value-conscious family. We seek to maintain a diverse assortment of first quality, in-season merchandise that appeals to the distinctive tastes and preferences of our core customers. Approximately 20% of our net sales in fiscal 2017 were represented by nationally recognized brands. We also offer a wide variety of products from less recognized brands and a lesser amount representing private label products under our proprietary brands.

Our merchandise includes apparel, accessories and home. Within apparel, we offer fashion sportswear for men, women and children, including offerings for newborns, infants, toddlers, boys and girls. Accessories include handbags, jewelry, footwear, belts, intimate apparel, scrubs and sleepwear. Home includes both functional and decorative home product, as well as beauty, books and toys.

The following table sets forth the merchandise assortment by classification as a percentage of net sales for fiscal 2017, 2016 and 2015.

	<u>Percentage of Net Sales</u>		
	<u>2017</u>	<u>2016</u>	<u>2015</u>
Accessories	32 %	31 %	30 %
Ladies'	23 %	24 %	24 %
Children's	23 %	23 %	25 %
Men's	17 %	17 %	17 %
Home	5 %	5 %	4 %

Pricing. We purchase our merchandise at attractive prices and mark prices up less than department or specialty stores. We seek to provide nationally recognized brands at prices that are 20% to 70% below regular retail prices available in department stores and specialty stores. Further, we consider the price-to-value relationships of our non-branded products to be exceptionally strong. Both branded and non-branded offerings validate our value and fashion positioning to our customers. We review each department in our stores at least monthly for possible markdowns based on sales rates and fashion seasons to promote faster turnover of inventory and to accelerate the flow of current merchandise.

Sourcing and Allocation

The merchandising department oversees the sourcing, planning and allocation of merchandise to our stores, which allows us to utilize volume purchase discounts and maintain control over our inventory. We source our merchandise from approximately 1,800 vendors, consisting of domestic manufacturers and importers. Our merchandising department consists of a buying team of 45 merchants and a planning and allocation team, which is comprised of over 25 associates.

The buyers on our buying team have, on average, more than 15 years of experience in the retail business and have developed long-standing relationships with many of our vendors, including those controlling the distribution of branded apparel. Our buyers, who are based in New York, Los Angeles and Savannah, travel regularly to the major United States apparel markets, visiting major manufacturers and attending national and regional apparel trade shows, including urban-focused trade shows.

Our buyers purchase merchandise in styles, sizes and quantities to meet inventory levels developed by the planning staff. The buying staff utilizes several purchasing techniques that enable us to offer to customers branded and non-branded fashion merchandise at everyday low prices. The majority of the nationally recognized branded products we sell are purchased in-season, and we generally purchase later in the merchandising buying cycle than department and specialty stores. This allows us to take advantage of imbalances between retailers' demands for specific merchandise and manufacturers' supply of that merchandise. We also purchase merchandise from some vendors in advance of the selling season at reduced prices and purchase merchandise on an opportunistic basis near the end of the selling season, which we then store in our distribution centers for sale three to nine months later. Where possible, we seek to purchase items based on style or color in limited quantities on a test basis with the right to reorder as needed. Finally, we purchase private brand merchandise that we source to our specifications.

We allocate merchandise across our store base according to sales and merchandise plans that are created by our planning and allocation teams. The merchandising staff utilizes a centralized management system to monitor merchandise purchasing, planning and allocation in order to maximize inventory turnover, identify and respond to changing product demands and determine the timing of markdowns to our merchandise. The buyers also regularly review the age and condition of the merchandise and manage both the reordering and clearance processes. In addition, the merchandising team communicates with regional, district and store managers to ascertain regional and store-level conditions and to better ensure that our product mix meets our consumers' demands in terms of quality, fashion, price and overall value.

We accept payment from our customers for merchandise at time of sale. Payments are made to us by cash, check, Visa™, MasterCard™, American Express™, or Discover™. We do not extend credit terms to our customers; however, we do offer a layaway service.

Seasonality

The nature of our business is seasonal. Historically, sales in the first and fourth quarters have been higher than sales achieved in the second and third quarters of the fiscal year. Expenses and, to a greater extent, operating income, vary by quarter. Results of a period shorter than a full year may not be indicative of results expected for the entire year. Furthermore, the seasonal nature of our business may affect comparisons between periods.

Store Operations

Store Format. The average selling space of our 549 stores is approximately 11,000 square feet, which allows us the space and flexibility to departmentalize our stores and provide directed traffic patterns. We arrange most of our stores in a racetrack format with ladies' sportswear in the center of each store and complementary categories adjacent to those items. Men's and boy's apparel and footwear are displayed on one side of the store, while dresses, ladies' footwear and accessories are displayed on the other side. Merchandise for infants, toddlers and girls, as well as home goods, are displayed along the back of the store. Impulse items, such as jewelry and sunglasses, are featured near the checkout area. Products from nationally recognized brands and other current fashion styles are prominently displayed on four-way racks at the front of each department. The remaining merchandise is displayed on hanging racks and occasionally on table displays. Large hanging signs identify each category location. The unobstructed floor plan allows the customer to see virtually all of the different product areas from the store entrance and provides us the flexibility to easily expand and contract departments in response to customer demand, seasonality and merchandise availability. Virtually all of our inventory is displayed on the selling floor.

Store Management. Store operations are managed by our Senior Vice President of Store Operations, four regional vice presidents and 50 district managers, each of whom manages seven to fourteen stores. The typical store is staffed with a store manager, two or three assistant managers and seven to eight part-time sales associates, all of whom rotate work days on a shift basis. Store managers and assistant store managers participate in a bonus program based on achieving predetermined levels of sales and inventory shrinkage. District managers participate in bonus programs based on achieving targeted levels of sales, profits, inventory shrinkage and payroll costs. Regional Vice Presidents participate in a bonus program based partly on a roll-up of the district managers' bonuses and partly on the Company's profit performance in relation to budget. Sales associates are compensated on an hourly basis with incentives. Moreover, we recognize individual performance through internal promotions and provide opportunities for advancement.

We place significant emphasis on loss prevention in order to control inventory shrinkage. Initiatives include electronic tags on many of our products, training and education of store personnel on loss prevention issues, digital video camera systems, alarm systems and motion detectors in the stores. In certain stores, we visually monitor the stores throughout the day using sophisticated camera systems. We also capture extensive point-of-sale data and maintain systems that monitor returns, voids and employee sales, and produce trend and exception reports to assist in identifying shrinkage issues. We have a centralized loss prevention team that focuses exclusively on implementation of these initiatives and specifically on stores that have experienced above average levels of shrinkage. We also maintain an independent, third party administered, toll-free line for reporting shrinkage concerns and any other employee concerns.

Employee Training. Our employees are critical to achieving our goals, and we strive to hire employees with high energy levels and motivation. We have well-established store operating policies and procedures and an extensive 30-day in-store training program for new store managers and assistant managers. Sales associates also participate in a 14-day customer service and store procedures training program, which is designed to enable them to assist customers in a friendly, helpful manner.

Layaway Program. We offer a layaway program that allows customers to purchase merchandise by initially paying a 20% deposit and a \$2 service charge, although at various times, we have reduced the deposit requirement to 10% and waived the service charge in connection with promotional events. The customer then makes additional payments every two weeks and has 60 days within which to complete the purchase. If the purchase is not completed, the customer receives a Citi Trends gift card for amounts paid less a restocking and layaway service fee.

Site Selection. Cost-effective store locations are an important part of our store profitability model. Accordingly, we look for second and third use store locations that offer attractive rents, but also meet our demographic and economic criteria. We have a dedicated real estate management team responsible for new store site selection. In selecting a location, we target both urban and rural markets. Demographic criteria used in site selection include concentrations of our core consumers. In addition, we require convenient site accessibility, as well as strong co-tenants, such as food stores, dollar stores and rent-to-own stores.

Shortly after we sign a new store lease and complete the necessary leasehold improvements to the building, we prepare the store over a three to four week period by installing fixtures, signs, dressing rooms, checkout counters and cash register systems and merchandising the initial inventory.

Advertising and Marketing

Our marketing goals are to build the "Citi Trends" brand, promote customers' association of the "Citi Trends" brand with value, quality, fashion and everyday low prices, and drive traffic into our stores. We generally focus our advertising efforts during the first quarter (Spring/Easter), back-to-school and Christmas through the use of hip-hop radio stations and social media. In addition, we

promote fashion trends and exciting deals in our window signage and through in-store announcements. In 2011, we started a Facebook page which has grown to nearly 600,000 followers.

Distribution

All merchandise sold in our stores is shipped directly from our distribution centers in Darlington, South Carolina and Roland, Oklahoma, utilizing various express package distributors. Our stores receive multiple shipments of merchandise from our distribution centers each week. The Darlington distribution center has 550,000 square feet of space, while the Roland distribution center has 565,000 square feet.

Information Technology and Systems

We have information systems in place to support our core business functions, using a combination of industry-standard third party products and internally developed applications. These systems support purchase order management, price and markdown management, merchandise planning and allocation, general ledger, accounts payable, sales audit and supply chain functions. We continue to evaluate and implement new technologies to enhance the execution of our merchandising strategies, improve our operating efficiencies and maintain financial control. Recent initiatives include the continued implementation of new planning and allocation systems which allow inventory planning by class, weather zone and store, as well as the ability to rank each store at the division, department, or class level.

Our stores use an industry standard point-of-sale solution supplemented by external chip-accepting pin pad devices that utilize point-to-point encryption technology. To facilitate the marking down and re-ticketing of merchandise, our stores are equipped with mobile scanners and printers which allow our stores to efficiently prepare and apply new price tickets for merchandise. Additionally, we have recently implemented a new retail analytics solution which provides exception-based transaction reporting to assist with loss prevention activities.

We believe that our information systems, with upgrades and updates over time, are adequate to support our operations for the foreseeable future.

Growth Strategy

After opening twenty new stores in fiscal 2017, we plan to open approximately twenty new stores in fiscal 2018.

Competition

The markets we serve are highly competitive. The principal methods of competition in the retail business are fashion, assortment, pricing and presentation. We believe we have a competitive advantage in our offering of fashionable merchandise at everyday low prices. We compete against a diverse group of retailers, including national off-price retailers, mass merchants, smaller specialty retailers and dollar stores. The off-price retail companies with which we compete include TJX Companies, Inc. (“TJX Companies”), Ross Stores, Inc. (“Ross Stores”), The Cato Corporation (“Cato”), and Burlington Stores, Inc. (“Burlington”). In particular, Ross Stores’ “dd’s DISCOUNTS” stores, and Cato’s “It’s Fashion Metro” stores target lower and moderate income consumers. We believe our strategy of appealing to African-American consumers and offering urban apparel products allows us to compete successfully with these retailers. We also believe we offer a more inviting store format than the traditional off-price retailers, including our use of carpeted floors and more prominently displayed brands. In addition, we compete with a group of smaller specialty retailers that sell only women’s products, such as Rainbow, as well as value-oriented retailers such as National Stores, Forman Mills and Variety Wholesalers. Our mass merchant competitors include Wal-Mart, Target and Kmart. These chains do not focus on fashion apparel and, within their apparel offering, lack the urban focus that we believe differentiates our offering and appeals to our core customers. Similarly, while some of the dollar store chains offer apparel, they typically offer a more limited selection focused on basic apparel needs. As a result, we believe there is significant demand for a value-priced retailer that addresses the market of low and moderate income consumers generally and, particularly, African-American and other consumers who seek value-priced, urban fashion apparel and accessories. See Item 1A. Risk Factors in this Report for additional information regarding competition in our markets.

Intellectual Property

We regard our trademarks and service marks as having significant value and as being important to our marketing efforts. We have registered “Citi Trends” as a trademark with the U.S. Patent and Trademark Office on the Principal Register for retail department store services. We have also registered the following trademarks with the U.S. Patent and Trademark Office on the Principal Register for

various apparel: “Citi Steps,” “Citi Trends Fashion for Less,” “Lil Ms Hollywood,” “Red Ape,” and “Vintage Harlem.” Our policy is to pursue registration of our marks and to oppose vigorously infringement of our marks.

Employees

As of February 3, 2018, we had approximately 2,700 full-time and approximately 2,900 part-time employees. Of these employees, approximately 4,800 are employed in our stores and the remainder are employed in our distribution centers and corporate office. We are not a party to any collective bargaining agreements, and none of our employees are represented by a labor union.

ITEM 1A. RISK FACTORS

You should carefully consider the following risk factors, together with the other information contained or incorporated by reference into this Report. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us or that we deem to be currently immaterial also may impair our business operations. The occurrence of any of the following risks could have a material adverse effect on our business, financial condition and results of operations.

Our success depends on our ability to anticipate, identify and respond rapidly to changes in consumers’ fashion tastes, and our failure to adequately evaluate fashion trends could have an adverse effect on our business, financial condition and results of operations.

The apparel industry in general and our core customer market in particular are subject to rapidly evolving fashion trends and shifting consumer demands. Accordingly, our success is heavily dependent on our ability to anticipate, identify and capitalize on emerging fashion trends, including products, styles and materials that will appeal to our target consumers. A failure on our part to anticipate, identify or react appropriately and timely to changes in styles, trends, brand preferences or desired image preferences is likely to lead to lower demand for our merchandise, which could cause, among other things, sales declines, excess inventories and higher markdowns.

If we are unsuccessful in competing with our retail apparel competitors, our market share could decline or our growth could be impaired and, as a result, our financial results could suffer.

The retail apparel market is highly competitive with few barriers to entry. We compete against a diverse group of retailers, including national off-price apparel chains such as TJX Companies, Ross Stores, Cato, and Burlington; mass merchants such as Wal-Mart, Target and Kmart; smaller discount retail chains that sell only women’s products, such as Rainbow; and general merchandise discount stores and dollar stores, which offer a variety of products, including apparel, for the value-conscious consumer. We also compete against local off-price and specialty retail stores, regional retail chains, traditional department stores, web-based retail stores and other direct retailers.

The level of competition we face from these retailers varies depending on the product segment, as many of our competitors do not offer apparel for the entire family. Our greatest competition is generally in women’s apparel. Many of our competitors are larger than we are and have substantially greater resources than we do and, as a result, may be able to adapt better to changing market conditions, exploit new opportunities and exert greater pricing pressures on suppliers than we can. Many of these retailers have better name recognition among consumers than we do and purchase significantly more merchandise from vendors. These retailers may be able to purchase merchandise that we cannot purchase because of their name recognition and relationships with suppliers, or they may be able to purchase merchandise with better pricing concessions than we can. Our local and regional competitors have extensive knowledge of the consumer base and may be able to garner more loyalty from customers than we can. If the consumer base we serve is satisfied with the selection, quality and price of our competitors’ products, consumers may decide not to shop in our stores. Additionally, if our existing competitors or other retailers decide to focus more on our core customers, we may have greater difficulty in competing effectively, our business and results of operations could be adversely affected, and the market price of our common stock could suffer.

Our ability to attract consumers to our stores depends on the success of the strip shopping centers where our stores are located.

We locate our stores primarily in strip shopping centers where we believe our consumers and potential consumers shop. The success of an individual store can depend on favorable placement within a given strip shopping center. We cannot control the development of alternative shopping destinations near our existing stores or the availability or cost of real estate within existing or new shopping destinations. If our store locations fail to attract sufficient consumer traffic or we are unable to locate replacement locations on terms acceptable to us, our business could suffer. If one or more of the anchor tenants located in the strip shopping centers where our stores

are located close or leave, or if there is significant deterioration of the surrounding areas in which our stores are located, our business may be adversely affected.

We could experience a reduction in sales if we are unable to fulfill our current and future merchandising needs.

We depend on our suppliers for the continued availability and satisfactory quality of our merchandise. Most of our suppliers could discontinue selling to us at any time. Additionally, if the manufacturers or other owners of brands or trademarks terminate the license agreements under which some of our suppliers sell our products, we may be unable to obtain replacement merchandise of comparable fashion appeal or quality, in the same quantities or at the same prices. In addition, a number of our suppliers are smaller, less capitalized companies and are more likely to be impacted by unfavorable general economic and market conditions than larger and better capitalized companies. These smaller suppliers may not have sufficient liquidity during economic downturns to properly fund their businesses, and their ability to supply their products to us could be negatively impacted. If we lose the services of one or more of our significant suppliers or one or more of them fail to meet our merchandising needs, we may be unable to obtain replacement merchandise in a timely manner, which could negatively impact our sales and results of operations.

Our sales could decline as a result of general economic and other factors outside of our control, such as changes in consumer spending patterns and declines in employment levels.

Downturns, or the expectation of a downturn, in general economic conditions, including the effects of unemployment levels, interest rates, levels of consumer debt, inflation in food and energy prices, taxation, government stimulus, consumer confidence, and other macroeconomic factors, could adversely affect consumer spending patterns, our sales and our results of operations. Consumer confidence may also be affected by domestic and international political unrest, acts of war or terrorism, natural disasters or other significant events outside of our control, any of which could lead to a decrease in spending by consumers. Because apparel generally is a discretionary purchase, declines in consumer spending patterns may have a more negative effect on apparel retailers than some other retailers. In addition, since many of our stores are located in the southeastern United States, our operations are more susceptible to regional factors than the operations of our more geographically diversified competitors. Therefore, any adverse economic conditions that have a disproportionate effect on the southeastern United States could have a greater negative effect on our sales and results of operations than on retailers with a more geographically diversified store base.

We do not sell our products through the internet. As the retail industry experiences an increase in online sales, our sales could be adversely affected.

The retail landscape is changing with consumers' shopping habits shifting away from the traditional brick-and-mortar stores to online retailers. Internet sales have been obtaining an increasing percentage of retail sales over the past few years and this trend is expected to continue. Although we have tested the sale of products through the internet, we no longer have any items available on our company's website. The continued growth of online sales could have a negative impact on our sales, as our customers may decide to make purchases through online retailers.

Adverse trade restrictions may disrupt our supply of merchandise. We also face various risks because much of our merchandise is imported from abroad.

We purchase the products we sell directly from approximately 1,800 vendors, and a substantial portion of this merchandise is manufactured outside of the United States and imported by our vendors from countries such as China and other areas of the Far East. The countries in which our merchandise currently is manufactured or may be manufactured in the future could become subject to new trade restrictions imposed by the United States or other foreign governments. There is increased uncertainty with respect to trade relations between the United States and other countries. Trade restrictions, including increased customs restrictions and tariffs or quotas against apparel items, as well as United States or foreign labor strikes, work stoppages or boycotts, could increase the cost or reduce the supply or impede the timely delivery of apparel available to us and have an adverse effect on our business. In addition, our merchandise supply could be impacted if our vendors' imports become subject to existing or future duties and quotas, or if our vendors face increased competition from other companies for production facilities, import quota capacity and shipping capacity.

We also face a variety of other risks generally associated with relying on vendors that do business in foreign markets and import merchandise from abroad, such as:

- political instability, natural disasters, or the threat of terrorism, in particular in countries where our vendors source merchandise;

- increases in merchandise costs due to raw material price inflation or changes in purchasing power caused by fluctuations in currency exchange rates;
- enhanced security measures at United States and foreign ports, which could delay delivery of imports;
- imposition of new or supplemental duties, taxes, and other charges on imports;
- delayed receipt or non-delivery of goods due to the failure of foreign-source suppliers to comply with import regulations, organized labor strikes or congestion at United States ports; and
- local business practice and political issues, including issues relating to compliance with domestic or international labor and environmental standards.

As an apparel retailer, we rely on numerous third parties in the supply chain to produce and deliver the products that we sell, and our business may be negatively impacted by their failure to comply with applicable law.

We rely on numerous third parties to supply the products that we sell. Violations of law by our importers, manufacturers or distributors could result in delays in shipments and receipt of goods or damage our reputation, thus causing our sales to decline. In addition, merchandise we sell in our stores is subject to regulatory standards set by various governmental authorities with respect to quality and safety. Regulations in this area may change from time to time. Issues with the quality and safety of merchandise we sell in our stores, regardless of our fault, or customer concerns about such issues, could result in damage to our reputation, lost sales, uninsured product liability claims or losses, merchandise recalls and increased costs. Further, we are susceptible to the receipt of counterfeit brands or unlicensed goods. We could incur liability with manufacturers or other owners of the brands or trademarked products if we receive and sell counterfeit brands or unlicensed goods, even inadvertently, and, therefore, it is important that we establish relationships with reputable vendors to reduce the risk that we may inadvertently receive counterfeit brands or unlicensed goods. Although we have a quality assurance team to check merchandise in an effort to assure that we purchase only authentic brands and licensed goods and are careful in selecting our vendors, we may receive products that we are prohibited from selling or incur liability for selling counterfeit brands or unlicensed goods, which could adversely impact our results of operations.

A significant disruption to our distribution process or southeastern retail locations could have an adverse effect on our business, financial condition and results of operations.

Our ability to distribute our merchandise to our store locations in a timely manner is essential to the efficient and profitable operation of our business. We have distribution centers located in Darlington, South Carolina and Roland, Oklahoma. Any natural disaster or other disruption to the operation of either of these facilities due to fire, accidents, weather conditions or any other cause could damage a significant portion of our inventory and impair our ability to stock our stores adequately.

In addition, the southeastern United States, where the Darlington distribution center and many of our stores are located, is vulnerable to significant damage or destruction from hurricanes and tropical storms. Although we maintain insurance on our stores and other facilities, the economic effects of a natural disaster that affects our distribution centers and/or a significant number of our stores could increase our operating expenses, impair our cash flows and reduce our sales.

If we fail to protect our name and brand in the marketplace, there could be a negative effect on our business and limitations on our ability to penetrate new markets.

We believe that our “Citi Trends” trademark is integral to our store design and our success in building consumer loyalty to our brand. We have registered this trademark with the U.S. Patent and Trademark Office. We have also registered, or applied for registration of, additional trademarks with the U.S. Patent and Trademark Office that we believe are important to our business. We cannot assure you that these registrations will prevent imitation of our name, merchandising concept, store design or private label merchandise or the infringement of our other intellectual property rights by others. Imitation of our name, concept, store design or merchandise in a manner that projects lesser quality or carries a negative connotation of our brand image could have an adverse effect on our reputation, business, financial condition and results of operations.

In addition, we cannot assure you that others will not try to block the manufacture or sale of our private label merchandise by claiming that our merchandise violates their trademarks or other proprietary rights since other entities may have rights to trademarks that contain the word “Citi” or may have rights in similar or competing marks for apparel and/or accessories. Although we cannot

currently estimate the likelihood of success of any such lawsuit or ultimate resolution of such a conflict, such a controversy could have an adverse effect on our business, financial condition and results of operations.

If we fail to implement and maintain effective internal controls in our business, there could be an adverse effect on our business, financial condition, results of operations and stock price.

Section 404 of the Sarbanes Oxley Act of 2002 requires annual management assessments of the effectiveness of our internal controls over financial reporting and an audit of such controls by our independent registered public accounting firm. If we fail to maintain the adequacy of our internal controls, we may be unable to conclude on an ongoing basis that we have effective internal controls over financial reporting. Moreover, effective internal controls, particularly those related to revenue recognition and accounting for inventory/cost of sales, are necessary for us to produce reliable financial reports and are important in our effort to prevent financial fraud. If we cannot produce reliable financial reports or prevent fraud, our business, financial condition and results of operations could be harmed, investors could lose confidence in our reported financial information, the market price of our stock could decline significantly and we may be unable to obtain additional financing to operate and expand our business.

Failure to attract, train, assimilate and retain skilled personnel could have an adverse effect on our financial condition.

Like most retailers, we experience significant employee turnover rates, particularly among store sales associates and managers. We therefore must continually attract, hire and train new personnel to meet our staffing needs. We constantly compete for qualified personnel with companies in our industry and in other industries. A significant increase in the turnover rate among our store sales associates and managers would increase our recruiting and training costs and could cause us to be unable to service our customers effectively, thus reducing our ability to operate our stores as profitably as we have in the past.

In addition, we rely heavily on the experience and expertise of our senior management team and other key management associates, and accordingly, the loss of their services could have a material adverse effect on our business strategy and results of operations.

Our business could be negatively affected as a result of a proxy fight and the actions of activist shareholders.

If we become engaged in a proxy contest with activist shareholders in the future, our business could be adversely affected because:

- Responding to proxy contests, litigation and other actions by activist stockholders can be costly and time-consuming, disrupt our operations and divert the attention of management and our employees.
- Perceived uncertainties as to our future direction may result in the loss of potential business opportunities and harm our ability to attract new investors and to retain and attract experienced executives and employees.
- If individuals are elected to our board of directors with a specific agenda, it may adversely affect our ability to retain and attract experienced executives and employees, to effectively and timely implement our business strategy and create additional value for stockholders.
- We may experience a significant increase in legal fees, administrative, advisor and associated costs incurred in connection with responding to a proxy contest or related action. For example, we incurred \$2.5 million in expenses as a result of the proxy contest in connection with our 2017 annual meeting.

These factors could adversely impact our results of operations and could also cause our stock price to experience periods of volatility or stagnation.

Increases in the minimum wage could have an adverse effect on our financial condition and results of operations.

Wage rates for many of our employees are slightly above the federal minimum wage. As federal and/or state minimum wage rates increase, we may need to increase not only our employees' wage rates that are under the new minimum, but also the wages paid to our other hourly employees. Any increase in the cost of our labor could have a material adverse effect on our operating costs, financial condition and results of operations.

Failure to comply with legal requirements could result in increased costs.

Compliance risks in our business include areas such as employment law, taxation, customer relations and personal injury claims, among others. Failure to comply with laws, rules and regulations could result in unexpected costs and have an adverse effect on our business and reputation.

Changes in government regulations could have an adverse effect on our financial condition and results of operations.

Our business is subject to numerous federal, state and local laws and regulations. New legal requirements in any number of areas could result in higher compliance costs. Changes in areas, such as workplace-regulation and other employment-related laws, supply chain, privacy and information security, or environmental regulation may require extensive structural and organizational changes that could be difficult to implement, disrupt our business, cause reputational harm and materially adversely affect our operations and financial results.

Any failure of our management information systems or the inability of third parties to continue to upgrade and maintain our systems could have an adverse effect on our business, financial condition and results of operations.

We depend on the accuracy, reliability and proper functioning of our management information systems, including the systems used to track our sales and facilitate inventory management. We also rely on our management information systems for merchandise planning, replenishment and markdowns, as well as other key business functions. These functions enhance our ability to optimize sales while limiting markdowns and reducing inventory risk through properly marking down slow-selling styles, reordering existing styles and effectively distributing new inventory to our stores. We do not currently have redundant systems for all functions performed by our management information systems. Any interruption in these systems could impair our ability to manage our inventory effectively, which could have an adverse effect on our business.

We depend on third-party suppliers to maintain and periodically upgrade our management information systems. If any of these suppliers is unable to continue to maintain and upgrade these software programs and/or if we are unable to convert to alternate systems in an efficient and timely manner, it could result in an adverse effect on our business.

Failure to secure our customers' charge card information, or the private data relating to our associates or the Company, could subject us to negative publicity, government enforcement actions, or private litigation.

We have procedures and technology in place to safeguard our customers' debit and credit card information, our associates' private data, and the Company's records and intellectual property. However, if we experience a data security breach, we could be exposed to costly negative publicity, governmental enforcement actions, and private litigation. In addition, our sales could be negatively impacted if our customers have security concerns and are not willing to purchase our merchandise using charge cards.

Our sales, inventory levels and earnings fluctuate on a seasonal basis, which makes our business more susceptible to adverse events that occur during the first and fourth quarters.

Our sales and earnings are significantly higher during the first and fourth quarters each year due to the importance of the spring selling season, which includes Easter, and the fall selling season, which includes Christmas. Factors negatively affecting us during the first and fourth quarters, including adverse weather, unfavorable economic conditions, reduced governmental assistance, and tax refund patterns for our customers, will have a greater adverse effect on our financial condition than if our business was less seasonal.

In order to prepare for the spring and fall selling seasons, we must order and keep in stock significantly more merchandise than during other parts of the year. This seasonality makes our business more susceptible to the risk that our inventory will not satisfy actual consumer demand. In addition, any unanticipated demand imbalances during these peak shopping seasons could require us to sell excess inventory at a substantial markdown or fail to satisfy our consumers. In either event, our sales may be lower and our cost of sales may be higher than historical levels, which could have a material adverse effect on our business, financial condition and results of operations.

We experience fluctuations and variability in our comparable store sales and quarterly results of operations and, as a result, the market price of our common stock may fluctuate substantially.

Our comparable store sales and quarterly results have fluctuated significantly in the past based on a number of economic, seasonal and competitive factors, and we expect them to continue to fluctuate in the future. Since the beginning of fiscal 2010, our quarter-to-quarter comparable store sales have ranged from a decrease of 11.9% to an increase of 13.9%. This variability could cause our comparable store sales and quarterly results to fall below the expectations of securities analysts or investors, which could result in a decline in the market price of our common stock.

Our stock price is subject to volatility.

Our stock price has been volatile in the past and may be influenced in the future by a number of factors, including:

- actual or anticipated fluctuations in our operating results;
- changes in securities analysts' recommendations or estimates of our financial performance;
- changes in market valuations or operating performance of our competitors or companies similar to ours;
- announcements by us, our competitors or other retailers;
- additions and departures of key personnel;
- changes in accounting principles;
- the passage of legislation or other developments affecting us;
- the trading volume of our common stock in the public market;
- changes in economic or financial market conditions;
- natural disasters, terrorist acts, acts of war or periods of civil unrest; and
- the realization of some or all of the risks described in this section entitled "Risk Factors."

In addition, the stock markets have experienced significant price and trading volume fluctuations from time to time, and the market prices of the equity securities of retailers have been extremely volatile and have recently experienced sharp price and trading volume changes. These broad market fluctuations may adversely affect the market price of our common stock.

We cannot provide any guaranty of future cash dividend payments or that we will continue to actively repurchase our common stock pursuant to a share repurchase program.

Any determination to declare and pay cash dividends on our common stock in the future (quarterly or otherwise) will be based, among other things, upon our financial condition, results of operations, business and cash requirements and our board of directors' conclusion in each instance that the declaration and payment of a cash dividend is in the best interest of our stockholders and is in compliance with all laws and agreements applicable to the dividend. In addition, there can be no assurance that our existing share repurchase authorization will be completed.

Provisions in our certificate of incorporation and by-laws and Delaware law may delay or prevent our acquisition by a third party.

Our second amended and restated certificate of incorporation and our second amended and restated by-laws, as amended, contain several provisions that may make it more difficult for a third party to acquire control of us without the approval of our board of directors. These provisions include, among other things, a classified board of directors, advance notice for raising business or making nominations at stockholder meetings and "blank check" preferred stock. Blank check preferred stock enables our board of directors, without stockholder approval, to designate and issue additional series of preferred stock with such dividend, liquidation, conversion, voting or other rights, including convertible securities with no limitations on conversion, as our board of directors may determine, including rights to dividends and proceeds in a liquidation that are senior to the common stock.

We are also subject to several provisions of the Delaware General Corporation Law that could delay, prevent or deter a merger, acquisition, tender offer, proxy contest or other transaction that might otherwise result in our stockholders receiving a premium over the market price for their common stock or may otherwise be in the best interests of our stockholders.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Store Locations

As of February 3, 2018, we operated 549 stores located in 31 states. Our stores average approximately 11,000 square feet of selling space and are typically located in neighborhood strip shopping centers that are convenient to low and moderate income customers.

We have no franchising relationships, and all of the stores are company operated. All existing 549 stores, totaling 7.3 million total square feet and 6.1 million selling square feet, are leased under operating leases. The typical store lease is for five years with options to extend the lease term for three additional five-year periods. Nearly all store leases provide us the right to cancel following an initial three-year period in the event the store does not meet pre-determined sales levels. The table below sets forth the number of stores in each of the 31 states in which we operated as of February 3, 2018:

Alabama—31
Arkansas—13
California—9
Connecticut—4
Delaware—1
Florida—51
Georgia—63
Illinois—20
Indiana—16
Iowa—2
Kansas—1
Kentucky—6
Louisiana—34
Maryland—5
Massachusetts—2
Michigan—22
Minnesota—2
Mississippi—26
Missouri—7
Nebraska—1
Nevada—3
New York—8
North Carolina—47
Ohio—28
Oklahoma—6
Pennsylvania—6
South Carolina—44
Tennessee—17
Texas—47
Virginia—21
Wisconsin—6

Support Center Facilities

We own a facility in Savannah, Georgia totaling approximately 70,000 square feet, which serves as our headquarters and, to a lesser extent, as a storage facility. We also own an approximately 550,000 square-foot distribution center in Darlington, South Carolina and a 565,000 square-foot distribution center in Roland, Oklahoma. In addition, we currently lease an 11,500 square-foot office in New York City and an 1,800 square-foot office in Los Angeles which are used for buyer operations and meetings with vendors.

ITEM 3. LEGAL PROCEEDINGS

We are from time to time involved in various legal proceedings incidental to the conduct of our business, including claims by customers, employees or former employees. Once it becomes probable that we will incur costs in connection with a legal proceeding and such costs can be reasonably estimated, we establish appropriate reserves. While legal proceedings are subject to uncertainties and the outcome of any such matter is not predictable, we are not aware of any legal proceedings pending or threatened against us that we expect to have a material adverse effect on our financial condition, results of operations or liquidity.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is traded on The NASDAQ Stock Market under the symbol "CTRN". The following table shows the high and low per share prices of our common stock and our quarterly cash dividends per common share for the periods indicated.

	<u>High</u>	<u>Low</u>	<u>Dividend</u>
<u>2016</u>			
First Quarter	\$ 20.95	\$ 15.46	\$ 0.06
Second Quarter	18.30	14.01	0.06
Third Quarter	21.01	15.44	0.06
Fourth Quarter	22.73	16.31	0.06
<u>2017</u>			
First Quarter	19.69	15.54	0.06
Second Quarter	22.58	17.34	0.08
Third Quarter	22.63	17.43	0.08
Fourth Quarter	28.12	20.04	0.08

On April 3, 2018, the last reported sale price of our common stock on The NASDAQ Stock Market was \$31.17 per share. On April 3, 2018, there were 39 holders of record and approximately 2,600 beneficial holders of our common stock.

In 2017, we paid a quarterly dividend of \$0.06 per common share on March 14, 2017, and a quarterly dividend of \$0.08 per common share on June 13, 2017, September 12, 2017 and December 12, 2017.

On February 13, 2018, the Company's Board of Directors declared a quarterly dividend of \$0.08 per common share, which was paid on March 20, 2018 to stockholders of record as of March 6, 2018. We currently anticipate continuing our \$0.08 quarterly dividend. However, any determination to declare and pay cash dividends on our common stock in the future (quarterly or otherwise) will be based, among other things, upon our financial condition, results of operations, business and cash requirements and our board of directors' conclusion in each instance that the declaration and payment of a cash dividend is in the best interest of our stockholders and is in compliance with all laws and agreements applicable to the dividend.

Recent Sales of Unregistered Securities.

None.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers.

In April 2017, the Company's Board of Directors approved a \$25.0 million stock repurchase program. During the second and third quarters of 2017 the Company repurchased \$25.0 million of common stock under this repurchase program. There were no repurchases in the fourth quarter of fiscal 2017, and no shares remained available as of February 3, 2018.

On March 16, 2018, the Company announced a new \$25.0 million stock repurchase program. Repurchases under the stock repurchase program may be made at management's discretion from time to time on the open market, in privately negotiated transactions or otherwise, and may be made in part under one or more Rule 10b5-1 plans. The stock repurchase program does not have an expiration date.

Equity Compensation Plan Information.

See Item 12 of this Report.

Stock Performance Graph

Set forth below is a line graph comparing the last five years' percentage change in the cumulative total stockholder return on shares of our common stock against (i) the cumulative total return of companies listed on The NASDAQ Stock Market and (ii) the cumulative total return of the NASDAQ Retail Trade Index. This graph assumes that \$100 was invested on January 31, 2013 in our common stock and in each of the market index and the industry index, and that all cash distributions were reinvested. Our common stock price performance shown on the graph is not indicative of future price performance.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*
Among Citi Trends, Inc., the NASDAQ Composite Index and the NASDAQ Retail Trade Index

*\$100 invested on 1/31/13 in stock or index, including reinvestment of dividends.
Fiscal year ending on or about January 31.

Total Return Analysis	1/13	1/14	1/15	1/16	1/17	1/18
Citi Trends, Inc.	100.00	123.65	176.89	160.50	126.36	187.94
NASDAQ Composite	100.00	133.35	152.66	153.70	187.33	249.85
NASDAQ Retail Trade	100.00	127.83	143.03	175.90	212.73	315.35

ITEM 6. SELECTED FINANCIAL DATA

Selected Financial and Operating Data

The following table provides selected consolidated financial and operating data for each of the fiscal years in the five-year period ended February 3, 2018, including: (a) consolidated statement of operations data for each such period, (b) additional operating data for each such period and (c) consolidated balance sheet data as of the end of each such period. The consolidated statement of operations data for the fiscal years ended February 3, 2018, January 28, 2017 and January 30, 2016 and the consolidated balance sheet data as of February 3, 2018 and January 28, 2017 are derived from our audited consolidated financial statements included in Item 8 of this Report that have been audited by KPMG LLP, an independent registered public accounting firm. The statement of operations data for the fiscal years ended January 31, 2015 and February 1, 2014 and the balance sheet data as of January 30, 2016, January 31, 2015 and February 1, 2014 are derived from our audited financial statements that are not included in this Report. The selected consolidated financial and operating data set forth below should be read in conjunction with, and are qualified in their entirety by reference to, the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Item 7 of this

Report and our consolidated financial statements and related notes set forth in the financial pages of this Report. Historical results are not necessarily indicative of results to be expected for any future period.

	Fiscal Year Ended (1)				
	February 3, 2018	January 28, 2017	January 30, 2016	January 31, 2015	February 1, 2014
	(dollars in thousands, except per share amounts)				
Statement of Operations Data:					
Net sales	\$ 755,241	\$ 695,175	\$ 683,791	\$ 670,840	\$ 622,204

- (1) Our fiscal year ends on the Saturday closest to January 31 of each year. The years ended February 3, 2018, January 28, 2017, January 30, 2016, January 31, 2015 and February 1, 2014 are referred to as fiscal 2017, 2016, 2015, 2014 and 2013, respectively. Fiscal 2017 is comprised of 53 weeks, while fiscal years 2016, 2015, 2014 and 2013 are each comprised of 52 weeks.
- (2) Stores included in the comparable store sales calculation for any period are those stores that were opened prior to the beginning of the preceding fiscal year and were still open at the end of such period. Relocated stores and expanded stores are included in the comparable store sales results.
- (3) The Company is reporting comparable store sales on a comparable store and comparable weeks basis; for fiscal 2017, the 53 weeks ended February 3, 2018 were compared to the 53 weeks ended February 4, 2017.
- (4) Average sales per store is defined as net sales divided by the average number of stores open at the end of the prior fiscal year and stores open at the end of the current fiscal year.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the section entitled "Selected Financial and Operating Data" and our audited consolidated financial statements and the respective related notes included elsewhere in this Annual Report on Form 10-K. This discussion may contain forward-looking statements that involve risks and uncertainties. As a result of many factors, such as those set forth under the section entitled "Risk Factors" and elsewhere in this Report, our actual results may differ materially from those anticipated in these forward-looking statements.

Overview

We are a value-priced retailer of urban fashion apparel and accessories for the entire family. Our merchandise offerings are designed to appeal to the preferences of fashion conscious consumers, particularly African-Americans. As of February 3, 2018, we operated 549 stores in both urban and rural markets in 31 states.

After opening twenty new stores in fiscal 2017, we plan to open approximately twenty new stores in fiscal 2018.

Basis of the Presentation

Net sales consist of store sales and layaway fees, net of returns by customers. Cost of sales consists of the cost of products we sell and associated freight costs. Depreciation is not considered a component of cost of sales and is included as a separate line item in the consolidated statements of operations. Selling, general and administrative expenses are comprised of store costs, including payroll and occupancy costs, corporate and distribution center costs and advertising costs. We operate on a 52- or 53-week fiscal year, which ends on the Saturday closest to January 31. Each of our fiscal quarters consists of four 13-week periods, with an extra week added to the fourth quarter every five to six years. The years ended February 3, 2018, January 28, 2017, January 30, 2016, January 31, 2015 and February 1, 2014 are referred to as fiscal 2017, 2016, 2015, 2014 and 2013, respectively. Fiscal 2017 is comprised of 53 weeks, while fiscal years 2016, 2015, 2014 and 2013 are each comprised of 52 weeks.

Results of Operations

The following discussion of our financial performance is based on the consolidated financial statements set forth in the financial pages of this Report. The nature of our business is seasonal. Historically, sales in the first and fourth quarters have been higher than sales achieved in the second and third quarters of the fiscal year. Expenses and, to a greater extent, operating income, vary by quarter. Results of a period shorter than a full year may not be indicative of results expected for the entire year. Furthermore, the seasonal nature of our business may affect comparisons between periods.

Net Sales and Additional Operating Data

The following table sets forth, for the periods indicated, selected consolidated statement of operations data expressed both in dollars and as a percentage of net sales:

	Fiscal Year Ended					
	February 3, 2018		January 28, 2017		January 30, 2016	
	(dollars in thousands)					
Statement of Operations Data						
Net sales	\$ 755,241	100.0 %	\$ 695,175	100.0 %	\$ 683,791	100.0 %
Cost of sales (exclusive of depreciation shown separately below)	(466,022)	(61.7)%	(428,167)	(61.6)%	(416,779)	(61.0)%
Selling, general and administrative expenses	(247,062)	(32.7)%	(230,666)	(33.2)%	(224,218)	(32.8)%
Depreciation	(18,883)	(2.5)%	(17,090)	(2.5)%	(18,577)	(2.7)%
Asset impairment	(507)	(0.1)%	(313)	0.0 %	—	0.0 %
Income from operations	22,767	3.0 %	18,939	2.7 %	24,217	3.5 %
Interest income	883	0.1 %	571	0.1 %	339	0.0 %
Interest expense	(150)	(0.0)%	(159)	(0.0)%	(242)	(0.0)%
Income before income taxes	23,500	3.1 %	19,351	2.8 %	24,314	3.5 %
Income tax expense	(8,926)	(1.2)%	(6,020)	(0.9)%	(8,787)	(1.3)%
Net income	<u>\$ 14,574</u>	<u>1.9 %</u>	<u>\$ 13,331</u>	<u>1.9 %</u>	<u>\$ 15,527</u>	<u>2.3 %</u>

The following table provides information, for the years indicated, about the number of total stores open at the beginning of the year, stores opened and closed during each year, total stores open at the end of each year and the change in comparable store sales for each year:

	Fiscal Year Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
Total stores open, beginning of year	533	521	511
New stores	20	18	13
Closed stores	(4)	(6)	(3)
Total stores open, end of year	<u>549</u>	<u>533</u>	<u>521</u>
Comparable store sales increase (decrease) (1)	4.5 %	(0.4)%	(0.1)%

(1) Stores included in the comparable store sales calculation for any year are those stores that were opened prior to the beginning of the preceding fiscal year and were still open at the end of such year. Relocated stores and expanded stores are included in the comparable store sales results. In a 53-week year, comparable store sales are reported on a comparable weeks basis (e.g. the 53 weeks ended February 3, 2018 were compared to the 53 weeks ended February 4, 2017.)

Key Operating Statistics

We measure performance using key operating statistics. One of the main performance measures we use is comparable store sales growth. We define a comparable store as a store that has been open for an entire fiscal year. Therefore, a store will not be considered a comparable store until its 13th month of operation at the earliest or until its 24th month at the latest. As an example, stores opened in fiscal 2016 and fiscal 2017 were not considered comparable stores in fiscal 2017. Relocated and expanded stores are included in the comparable store sales results. We also use other operating statistics, most notably average sales per store, to measure our performance. As we typically occupy existing space in established shopping centers rather than sites built specifically for our stores, store square footage (and therefore sales per square foot) varies by store. We focus on overall store sales volume as the critical driver of profitability.

In addition to sales, we measure cost of sales as a percentage of sales and store operating expenses, with a particular focus on labor, as a percentage of sales. These results translate into store level contribution, which we use to evaluate overall performance of each individual store. Finally, we monitor corporate expenses against budgeted amounts. All of the statistics discussed above are critical components of earnings before interest, taxes, depreciation and amortization (“EBITDA”) and Adjusted EBITDA (comprised of EBITDA, excluding non-cash asset impairment expense and expenses related to our proxy contest), which are considered our most important operating statistics. We believe that excluding proxy contest expenses from our financial results reflects operating results that are more indicative of our ongoing operating performance while improving comparability to prior periods, and as such, provides an enhanced understanding of our past financial performance and prospects for the future.

Although non-GAAP measures such as EBITDA and Adjusted EBITDA provide useful information on an operating cash flow basis, they are limited measures in that they exclude the impact of cash requirements for capital expenditures, income taxes and interest expense and should not be regarded as comparable to similarly titled measures used by other companies. Therefore, EBITDA and Adjusted EBITDA should be used as supplements to results of operations and cash flows as reported under generally accepted accounting principles (“GAAP”) and should not be used as the only measures of operating performance or as a substitute for GAAP results.

Provided below is a reconciliation of net income to EBITDA and to Adjusted EBITDA for fiscal years ended February 3, 2018, January 28, 2017 and January 30, 2016:

	Fiscal Year Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
	(dollars in thousands)		
Net income	\$ 14,574	\$ 13,331	\$ 15,527
Plus:			
Interest expense	150	159	242
Income tax expense	8,926	6,020	8,787
Depreciation	18,883	17,090	18,577
Less:			
Interest income	(883)	(571)	(339)
EBITDA	41,650	36,029	42,794
Asset impairment	507	313	—
Proxy contest expenses	2,516	—	—
Adjusted EBITDA	<u>\$ 44,673</u>	<u>\$ 36,342</u>	<u>\$ 42,794</u>

Provided below is a reconciliation of net income (the closest comparable GAAP measure) to (i) net income adjusted for proxy contest expenses and the effect of the Tax Cuts and Jobs Act (“Adjusted net income”) and (ii) diluted Adjusted net income per share. We believe that excluding proxy contest expenses and their related tax effects and the effect of the Tax Cuts and Jobs Act from our financial results reflects operating results that are more indicative of our ongoing operating performance while improving comparability to prior periods, and as such, may provide investors with an enhanced understanding of our past financial performance and prospects for the future. These non-GAAP measures should be used as a supplement to net income and diluted net income per common share as reported under GAAP and should not be used as the only measures of operating performance or as a substitute for GAAP results.

	Fiscal Year Ended		
	February 3, 2018	January 28, 2017	January 30, 2016
	(in thousands, except per share data)		
Net income	\$ 14,574	\$ 13,331	\$ 15,527
Proxy contest expenses and related tax effects	1,560	—	—
Tax Cuts and Jobs Act effect	1,609	—	—
Adjusted net income	<u>\$ 17,743</u>	<u>\$ 13,331</u>	<u>\$ 15,527</u>
Diluted Adjusted net income per share	<u>\$ 1.26</u>	<u>\$ 0.91</u>	<u>\$ 1.03</u>
Diluted shares outstanding	<u>14,116</u>	<u>14,662</u>	<u>15,056</u>

Fiscal 2017 Compared to Fiscal 2016

Net Sales. Net sales increased \$60.0 million, or 8.6%, to \$755.2 million in the 53-week fiscal 2017 from \$695.2 million in the 52-week fiscal 2016. The increase in net sales was due primarily to a 4.5% increase in comparable store sales on a 53-week versus 53-week basis, together with twenty new store openings in 2017 and eighteen new store openings in 2016 for which there was not a full year of sales last year, and an extra week in fiscal 2017 which contributed \$11.8 million in sales. These sales increases were partially offset by the closing of four stores in 2017 and six stores in 2016. The increase in comparable store sales on a 53-week basis was reflected in a 2.6% increase in the number of customer transactions, along with a 1.8% increase in the average number of items per transaction and a 0.1% increase in the average unit sale. Comparable store sales changes on a 53-week basis, by major merchandise class, were as follows: Home +21%; Men's +5%; Accessories +5%; Ladies' +4%; and Children's +2%.

The 4.5% comparable store sales increase in the 511 comparable stores totaled \$30.8 million and store opening and closing activity resulted in a net increase of \$17.4 million in sales, while the aforementioned extra week added \$11.8 million in sales.

Cost of Sales (exclusive of depreciation). Cost of sales (exclusive of depreciation) increased \$37.8 million, or 8.8%, to \$466.0 million in fiscal 2017 from \$428.2 million in fiscal 2016 due to the effect of the increase in sales discussed above and an increase in cost of sales as a percentage of sales to 61.7% in fiscal 2017 from 61.6% in fiscal 2016. The increase in cost of sales as a percentage of sales was due primarily to an increase in freight costs.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$16.4 million, or 7.1%, to \$247.1 million in fiscal 2017 from \$230.7 million in fiscal 2016 due to a \$4.8 million increase in incentive compensation expense resulting from the improved operating results in relation to budget, together with \$3.5 million to \$4.0 million of expenses attributable to the extra week in fiscal 2017, \$2.5 million in expenses incurred in connection with a proxy contest, the opening of twenty new stores in 2017 and eighteen stores in 2016, and normal inflationary pressure on expenses such as payroll and rent. These factors that caused the increase in selling, general and administrative expenses were partially offset by a \$1.0 million gain on insurance claims. Selling, general and administrative expenses as a percentage of sales decreased to 32.7% in fiscal 2017 from 33.2% in fiscal 2016 due primarily to the leveraging effect resulting from higher comparable store sales.

Depreciation. Depreciation expense increased \$1.8 million, or 10.5%, to \$18.9 million in fiscal 2017 from \$17.1 million in fiscal 2016, due to the acceleration of our store opening pace in relation to previous years, along with the completion of an expansion of our Roland, Oklahoma distribution center.

Asset Impairment. Impairment charges related to property and equipment at underperforming stores totaled \$0.5 million and \$0.3 million in fiscal 2017 and 2016, respectively.

Income Tax Expense. Income tax expense increased \$2.9 million to \$8.9 million in fiscal 2017 from \$6.0 million in fiscal 2016 due to pretax income increasing \$4.1 million, accompanied by an increase in the effective income tax rate to 38.0% from 31.1%. The increase in the effective tax rate from last year was due primarily to a \$1.9 million write-down of net deferred tax assets resulting from the reduction in the federal income tax rate from 35% to 21%. Such reduction is the result of the Tax Cuts and Jobs Act tax reform legislation which was enacted in December 2017. The Company was required to revalue its deferred tax assets and liabilities to reflect the reduced federal income tax rate expected to be in effect at the time of future reversals.

Net Income. Net income was \$14.6 million in fiscal 2017 and \$13.3 million in fiscal 2016, due to the factors discussed above.

Fiscal 2016 Compared to Fiscal 2015

Net Sales. Net sales increased \$11.4 million, or 1.7%, to \$695.2 million in fiscal 2016 from \$683.8 million in fiscal 2015, consisting of the opening of eighteen stores in 2016 and thirteen stores in 2015, partially offset by the closing of six stores in 2016 and three stores in 2015 and a 0.4% decrease in comparable store sales. The decrease in comparable store sales was reflected in a 6.1% decrease in the average unit sale, partially offset by a 4.6% increase in the average number of items per transaction and a 1.1% increase in the number of customer transactions. Comparable store sales changes, by major merchandise class, were as follows: Home +28%; Accessories +3%; Men's +1%; Ladies' -4%; and Children's -6%.

Store opening and closing activity resulted in a net increase of \$14.2 million in sales, while the 0.4% comparable store sales decrease in the 502 comparable stores totaled \$2.8 million.

Cost of Sales (exclusive of depreciation). Cost of sales (exclusive of depreciation) increased \$11.4 million, or 2.7%, to \$428.2 million in fiscal 2016 from \$416.8 million in fiscal 2015 due to the effect of the increase in sales discussed above and an increase in cost of sales as a percentage of sales to 61.6% in fiscal 2016 from 61.0% in fiscal 2015. The increase in cost of sales as a percentage of sales was due to a 20 basis points decrease in the core merchandise margin (initial mark-up, net of markdowns) caused by the challenging comparable store sales results, together with increases of 20 basis points in both shrinkage and freight costs.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$6.5 million, or 2.9%, to \$230.7 million in fiscal 2016 from \$224.2 million in fiscal 2015 due to the opening of eighteen new stores in 2016 and thirteen stores in 2015, together with normal inflationary pressure on expenses such as payroll and rent and a \$0.9 million benefit from a legal recovery in fiscal 2015. These factors that caused the increase in selling, general and administrative expenses were partially offset by a \$4.0 million decrease in incentive compensation expense resulting from the diminished operating results and a \$2.2 million decrease in employee medical and workers' compensation claims. Selling, general and administrative expenses as a percentage of sales increased to 33.2% in fiscal 2016 from 32.8% in fiscal 2015 due primarily to the deleveraging effect resulting from lower comparable store sales.

Depreciation. Depreciation expense decreased \$1.5 million, or 8.0%, to \$17.1 million in fiscal 2016 from \$18.6 million in fiscal 2015, due to the slowing of our store opening pace in relation to previous years.

Asset Impairment. Impairment charges related to property and equipment at underperforming stores totaled \$0.3 million and \$0.0 million in fiscal 2016 and 2015, respectively.

Income Tax Expense. Income tax expense decreased \$2.8 million to \$6.0 million in fiscal 2016 from \$8.8 million in fiscal 2015 due to pretax income decreasing \$4.9 million, accompanied by a decrease in the effective income tax rate to 31.1% from 36.1%. The decrease in the effective tax rate from last year was due to an increase in work opportunity tax credits.

Net Income. Net income was \$13.3 million in fiscal 2016 and \$15.5 million in fiscal 2015, due to the factors discussed above.

Liquidity and Capital Resources

Our cash requirements are primarily for working capital and for capital expenditures for our stores, distribution infrastructure and information systems. In recent years, we have met these cash requirements using cash flow from operations and short-term trade credit. We expect to be able to meet future cash requirements with cash flow from operations, short-term trade credit and existing balances of cash and investment securities and, if necessary, borrowings under our revolving credit facility (described below). In fiscal 2017, there was no need to borrow under the credit facility. Due to our strong cash and cash equivalents position as of February 3, 2018 (\$48.5 million), we believe that we will likely not have to borrow under the credit facility during fiscal 2018.

Cash Flows

Fiscal 2017 Compared to Fiscal 2016

As of February 3, 2018, we had total cash and cash equivalents of \$48.5 million, compared with \$49.3 million as of January 28, 2017. Additionally, we had \$31.5 million and \$25.5 million of short-term and long-term investment securities, respectively, as of February 3, 2018, compared with \$38.0 million and \$26.7 million, respectively, as of January 28, 2017. These securities are comprised of bank certificates of deposit and obligations of the U.S. Treasury, states and municipalities.

Inventory represented 42.1% of our total assets as of February 3, 2018, compared with 40.5% as of January 28, 2017. Management's ability to manage our inventory can have a significant impact on our cash flows from operations during a given interim period or fiscal year. In addition, inventory purchases can be seasonal in nature, such as the purchase of warm-weather or Christmas-related merchandise.

Cash Flows Provided by Operating Activities. Net cash provided by operating activities was \$42.3 million in fiscal 2017 compared with \$39.7 million in fiscal 2016. Net income, adjusted for noncash expenses such as depreciation, asset impairment, loss on disposal of property and equipment, insurance proceeds from operating activities, deferred income taxes and stock-based compensation expense, provided cash of \$39.8 million in fiscal 2017 (compared with \$36.3 million in fiscal 2016). Other significant sources of cash provided by operating activities in fiscal 2017 included (1) an \$8.1 million increase in accrued compensation (compared with a \$4.2 million decrease in fiscal 2016) primarily as a result of higher incentive compensation accruals this year due to improved financial performance relative to budget in 2017, and our balance sheet as of the end of fiscal 2017 including accrued payroll for two weeks,

while our 2016 year-end balance sheet included accrued payroll for one week, due to the timing of our bi-weekly payroll; and (2) a shift from an income tax receivable to an income tax payable totaling \$3.6 million (compared with an increase in the income tax receivable last year of \$0.2 million) due to an increase in federal and state income taxes arising from higher pre-tax income in fiscal 2017 and lower prepayments of estimated tax during the year. Significant uses of cash included (1) a \$3.9 million increase in inventory (compared with a \$1.7 million decrease in fiscal 2016) due primarily to having sixteen more stores than at the previous year end; (2) a \$3.1 million decrease in accrued expenses and other long-term liabilities (compared with a \$0.1 million increase in fiscal 2016) due primarily to a \$1.6 million decrease in the fixed asset accrual as a result of completion of the aforementioned Roland distribution center expansion; along with a \$1.1 million decrease in a legal settlement accrual as a result of final payment to the settlement fund; and (3) a \$2.4 million increase in prepaid and other current assets (compared with a \$1.7 million increase in fiscal 2016) due to a \$1.3 million increase in self-insurance collateral for payment of workers compensation claims, along with a \$1.2 million increase in charge card receivables, as the last three days of this year had \$4.0 million more in sales than the last three days of last year as a result of this fiscal year ending one week later, thereby including first-of-the-month sales. Since charge card receivables are comprised of charge card sales for the last three days of the month, the receivable was higher this year.

Cash Flows Used in Investing Activities. Cash used in investing activities was \$12.8 million in fiscal 2017 compared with \$24.7 million in fiscal 2016. Cash used for the purchase of property and equipment was \$21.0 million in fiscal 2017 and \$23.9 million in fiscal 2016, with the decrease resulting primarily from capital expenditures made in 2016 to expand the Roland distribution center and enhance markdown equipment in all stores. Sales/redemptions of investment securities, net of purchases, provided cash of \$7.8 million in fiscal 2017 and used cash of \$1.2 million in fiscal 2016.

Cash Flows Used in Financing Activities. Cash used in financing activities was \$30.3 million in fiscal 2017 compared with \$4.9 million in fiscal 2016. Cash used for the repurchase of common stock totaled \$25.0 million in fiscal 2017. Dividends paid to stockholders used cash of \$4.2 million in fiscal 2017 and \$3.5 million in fiscal 2016.

Until required for other purposes, we maintain cash and cash equivalents in deposit or money market accounts.

Fiscal 2016 Compared to Fiscal 2015

As of January 28, 2017, we had total cash and cash equivalents of \$49.3 million, compared with \$39.1 million as of January 30, 2016. Additionally, we had \$38.0 million and \$26.7 million of short-term and long-term investment securities, respectively, as of January 28, 2017, compared with \$32.7 million and \$30.9 million, respectively, as of January 30, 2016. These securities are comprised of bank certificates of deposit and obligations of the U.S. Treasury, states and municipalities.

Inventory represented 40.5% of our total assets as of January 28, 2017, compared with 43.6% as of January 30, 2016. Management's ability to manage our inventory can have a significant impact on our cash flows from operations during a given interim period or fiscal year. In addition, inventory purchases can be seasonal in nature, such as the purchase of warm-weather or Christmas-related merchandise.

Cash Flows Provided by Operating Activities. Net cash provided by operating activities was \$39.7 million in fiscal 2016 compared with \$27.5 million in fiscal 2015. Net income, adjusted for noncash expenses such as depreciation, asset impairment, loss on disposal of property and equipment, insurance proceeds from operating activities, deferred income taxes and stock-based compensation expense, provided cash of \$36.3 million in fiscal 2016 (compared with \$39.0 million in fiscal 2015). Other significant sources of cash provided by operating activities in fiscal 2016 included (1) an \$8.0 million increase in accounts payable (compared with a \$5.0 million decrease in fiscal 2015) due primarily to \$5.4 million more in merchandise purchases in December and January of fiscal 2016 over the previous year; since this higher level of purchases occurred in the last two months of the fiscal year, all such purchases would have still been in accounts payable as of January 28, 2017; the relationship between inventory and accounts payable was distorted due to a higher level of next-season-buy inventory at the end of fiscal 2015, with such merchandise being already paid for since it was purchased earlier than 60 days before year end; and (2) a \$1.7 million decrease in inventory (compared with a \$6.0 million increase in fiscal 2015) due primarily to the aforementioned reduction in next-season-buy inventory, partially offset by having twelve more stores than at the previous year end. Significant uses of cash included (1) a \$4.2 million decrease in accrued compensation (compared with a \$1.9 million decrease in fiscal 2015) primarily as a result of lower incentive compensation accruals this year due to diminished financial performance relative to budget in 2016; and (2) a \$1.7 million increase in prepaid and other current assets (compared with a \$2.4 million decrease in fiscal 2015) due to an increase in receivables related to tenant improvement allowances due from landlords for new and expanded or relocated stores opened in the fourth quarter of fiscal 2016.

Cash Flows Used in Investing Activities. Cash used in investing activities was \$24.7 million in fiscal 2016 compared with \$44.9 million in fiscal 2015. Cash used for the purchase of property and equipment was \$23.9 million in fiscal 2016 and \$19.6 million

in fiscal 2015, with the increase resulting primarily from opening more stores in fiscal 2016, together with capital expenditures made to expand the Roland distribution center and enhance markdown equipment in all stores. Purchases of investment securities, net of sales/redemptions, used cash of \$1.2 million in fiscal 2016 and \$25.3 million in fiscal 2015.

Cash Flows Used in Financing Activities. Cash used in financing activities was \$4.9 million in fiscal 2016 compared with \$18.0 million in fiscal 2015. Dividends paid to stockholders in fiscal 2016 used cash of \$3.5 million. Cash used for the repurchase of common stock totaled \$15.0 million in fiscal 2015.

Until required for other purposes, we maintain cash and cash equivalents in deposit or money market accounts.

Liquidity Sources and Requirements and Contractual Cash Requirements and Commitments

Our principal sources of liquidity consist of: (i) cash and cash equivalents (which equaled \$48.5 million as of February 3, 2018); (ii) short-term and long-term investment securities (which equaled \$31.5 million and \$25.5 million, respectively, as of February 3, 2018); (iii) short-term trade credit; (iv) cash generated from operations on an ongoing basis as we sell our merchandise inventory; and (v) a \$50 million revolving credit facility. Trade credit represents a significant source of financing for inventory purchases and arises from customary payment terms and trade practices with our vendors. Historically, our principal liquidity requirements have been for working capital and capital expenditure needs.

We believe that our existing sources of liquidity will be sufficient to fund our operations and anticipated capital expenditures for at least the next 12 months.

We anticipate that capital expenditures will be approximately \$21 million in fiscal 2018, including amounts related to approximately twenty new stores that we plan to open in fiscal 2018. We plan to finance these capital expenditures with cash flow from operations and existing cash balances.

The following table discloses aggregate information about our contractual obligations as of February 3, 2018 and the periods in which payments are due:

	Payments Due by Period				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
	(in thousands)				
Contractual obligations:					
Operating leases (1)	\$ 149,695	\$ 45,658	\$ 70,084	\$ 27,970	\$ 5,983
Purchase obligations	130,142	130,142	—	—	—
Total contractual cash obligations	<u>\$ 279,837</u>	<u>\$ 175,800</u>	<u>\$ 70,084</u>	<u>\$ 27,970</u>	<u>\$ 5,983</u>

- (1) Represents fixed minimum rents in stores and does not include incremental rents which are computed as a percentage of net sales. For example, in fiscal 2017 incremental percentage rent was approximately \$0.5 million, which represented 0.9% of total rent expense.

Indebtedness. On October 27, 2011, we entered into a five-year, \$50 million credit facility with Bank of America. The facility was amended on August 18, 2015, extending the maturity date to August 18, 2020. The amended facility provides a \$50 million credit commitment and a \$25 million uncommitted “accordion” feature that under certain circumstances could allow us to increase the size of the facility to \$75 million. Borrowings, if any, under the facility will bear interest (a) for LIBOR Rate Loans, at LIBOR plus either 1.25% or 1.5%, or (b) for Base Rate Loans, at a rate equal to the highest of (i) the prime rate plus either 0.25% or 0.5%, (ii) the Federal Funds Rate plus either 0.75% or 1.0%, or (iii) LIBOR plus either 1.25% or 1.5%, based in any such case on the average daily availability for borrowings under the facility. The facility continues to be secured by our inventory, accounts receivable and related assets, but not our real estate, fixtures and equipment, and it contains one financial covenant, a fixed charge coverage ratio, which is applicable and tested only in certain circumstances. The facility has an unused commitment fee of 0.25% and permits the payment of cash dividends subject to certain limitations, including a requirement that there were no borrowings outstanding in the 30 days prior to the dividend payment and no borrowings are expected in the 30 days subsequent to the payment. We have had no borrowings under the credit facility.

Operating Leases. We lease our stores under operating leases, which generally have an initial term of five years with renewal options. The typical store lease requires a combination of both fixed monthly rents and contingent rents computed as a percentage of net sales

after a certain sales threshold has been met. For fiscal 2017, rent expense was \$53.0 million compared with \$50.7 million in fiscal 2016 (including \$0.5 million and \$0.4 million of contingent rent, respectively, in fiscal 2017 and 2016).

Purchase Obligations. As of February 3, 2018, we had purchase obligations of \$130.1 million, all of which were for less than one year. These purchase obligations consist of outstanding merchandise orders.

Off-Balance Sheet Arrangements

Other than the store operating leases described above, we do not have any off-balance sheet arrangements.

Critical Accounting Policies and Estimates

The preparation of our consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. We believe the following critical accounting policies describe the more significant judgments and estimates used in the preparation of the consolidated financial statements:

Inventory

Inventory is stated at the lower of cost (first-in, first-out basis) or market as determined by the retail inventory method for store inventory and the average cost method for distribution center inventory. Under the retail inventory method, the cost of inventory is determined by calculating a cost-to-retail ratio and applying it to the retail value of inventory. Inherent in the retail inventory calculation are certain management judgments and estimates, including, among others, merchandise markups, markdowns and shrinkage, which impact the ending inventory valuation at cost as well as resulting cost of sales. Merchandise markdowns are reflected in the inventory valuation when the price of an item is lowered in the stores. As a result, we believe the retail inventory method results in a more conservative inventory valuation than other accounting methods. We estimate and record an allowance for shrinkage for the period between the last physical count and the balance sheet date. The estimate of shrinkage can be affected by changes in actual shrinkage trends. Inventory shrinkage as a percentage of sales was 1.5% for fiscal 2017, compared to 1.3% in fiscal 2016 and 1.2% in fiscal 2015. The allowance for estimated inventory shrinkage was \$3.5 million as of February 3, 2018 and \$3.1 million as of January 28, 2017. Many retailers have arrangements with vendors that provide for rebates and allowances under certain conditions, which ultimately affect the value of the inventory. We do not generally enter into such arrangements with our vendors. There were no material changes in the estimates or assumptions related to the valuation of inventory during fiscal 2017.

Property and Equipment, net

We have a significant investment in property and equipment stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the lesser of the estimated useful lives (primarily three to five years for computer equipment and furniture, fixtures and equipment, five years for leasehold improvements, seven years for major purchased software systems, and fifteen to twenty years for buildings and building improvements) of the related assets or the relevant lease term. Any reduction in these estimated useful lives would result in a higher annual depreciation expense for the related assets. There were no material changes in the estimates or assumptions related to the valuation and classification of property and equipment during fiscal 2017.

Impairment of Long-Lived Assets

We continually evaluate whether events and changes in circumstances warrant revised estimates of the useful lives or recognition of an impairment loss for long-lived assets. If facts and circumstances indicate that a long-lived asset may be impaired, the carrying value is reviewed. If this review indicates that the carrying value of the asset will not be recovered as determined based on projected undiscounted cash flows related to the asset over its remaining life, the carrying value of the asset is reduced to its estimated fair value. Non-cash impairment losses related to leasehold improvements and fixtures and equipment at underperforming stores totaled \$0.5 million, \$0.3 million and \$0.0 million in fiscal 2017, 2016 and 2015, respectively. Impairment losses in the future are dependent on a number of factors such as site selection and general economic trends on a localized, regional, or national basis, and thus could be significantly different from historical results. To the extent our estimates for net sales, cost of sales and store expenses are not realized, future assessments of recoverability could result in impairment charges. There were no changes in our impairment loss methodology during fiscal 2017.

Insurance Liabilities

We are largely self-insured for workers' compensation costs and employee medical claims. Our self-insurance liabilities are based on the total estimated costs of claims filed and estimates of claims incurred but not reported, less amounts paid against such claims. We use current and historical claims data, together with information from actuarial studies, in developing our estimates. The insurance liabilities we record are primarily influenced by the frequency and severity of claims and the Company's growth. If the underlying facts and circumstances related to the claims change, then we may be required to record more or less expense which could be material in relation to our results of operations. Our self-insurance liabilities totaled \$2.8 million (\$1.6 million current and \$1.2 million noncurrent) as of February 3, 2018 and \$2.8 million (\$1.4 million current and \$1.4 million noncurrent) as of January 28, 2017. There were no material changes in the estimates or assumptions related to insurance liabilities during fiscal 2017.

Operating Leases

We lease all of our store properties and account for the leases as operating leases. Many lease agreements contain tenant improvement allowances, rent holidays, rent escalation clauses and/or contingent rent provisions. For purposes of recognizing incentives and minimum rent expense on a straight-line basis over the terms of the leases, we use the date of initial possession to begin amortization, which is generally when we enter the space and begin to make improvements in preparation of intended use.

For scheduled rent escalation clauses during the lease terms or for rental payments commencing "rent holidays" at a date other than the date of initial occupancy, we record minimum rent expense on a straight-line basis over the terms of the leases. Tenant improvement allowances are included in accrued expenses (current portion) and other long-term liabilities (noncurrent portion) and are amortized over the lease term. Changes in the balances of tenant improvement allowances are included as a component of operating activities in the consolidated statements of cash flows.

Certain leases provide for contingent rents that are not measurable at inception. These contingent rents are primarily based on a percentage of net sales that are in excess of a predetermined level. These amounts are excluded from minimum rent and are included in the determination of total rent expense when it is probable that the expense has been incurred and the amount is reasonably estimable. There were no material changes in the estimates or assumptions related to operating leases during fiscal 2017.

Accounting for Income Taxes

We account for income taxes under the asset and liability method. The computation of income taxes is subject to estimation due to the judgment required and the uncertainty related to the recoverability of deferred tax assets or the outcome of tax audits. We adjust our income tax provision in the period it is determined that actual results will differ from our estimates. Tax law and rate changes are reflected in the income tax provision in the year in which such changes are enacted. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making an assessment as to the realization of these assets. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible and income tax credits and net operating losses may be utilized, management may determine that some or all of the Company's deferred tax assets may not ultimately be deductible and income tax credits and net operating losses may expire unused. Should such an assessment be made, a valuation allowance against some or all of the Company's \$5.8 million in deferred tax assets would have to be recorded with a resulting charge to income tax expense. During the fourth quarter of fiscal 2017, the Company revalued its deferred tax assets and liabilities to reflect the reduced federal income tax rate expected to be in effect at the time of future reversals. Such reduction was the result of the Tax Cuts and Jobs Act tax reform legislation enacted in December 2017 which reduced the federal statutory rate from 35% to 21%. Such revaluation resulted in the reduction of net deferred tax assets and a charge to income tax expense of \$1.9 million. There were no other material changes in the estimates or assumptions related to income taxes during fiscal 2017.

The above listing is not intended to be a comprehensive list of all our accounting policies. In many cases the accounting treatment of a particular transaction is specifically dictated by U.S. GAAP, with no need for management's judgment in their application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result.

Recent Accounting Pronouncements

See Note 2 to our consolidated financial statements included in this Report for recently issued accounting standards, including the expected dates of adoption and estimated effects on our consolidated financial statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

We are exposed to financial market risks related to changes in interest rates earned on our investments. We cannot predict market fluctuations in interest rates. As a result, future results may differ materially from estimated results due to changes in interest rates. A hypothetical 100 basis point change in prevailing market interest rates would not have materially impacted our financial position, results of operations or cash flows for fiscal 2017. We do not engage in financial transactions for trading or speculative purposes and have not entered into any interest rate hedging contracts. Interest rates on our credit facility did not impact us in fiscal 2017 because we did not borrow during the year.

We source all of our product from apparel markets in the United States in U.S. Dollars and, therefore, are not directly subject to fluctuations in foreign currency exchange rates. However, fluctuations in currency exchange rates could affect our purchasing power with vendors that import merchandise to sell to us. We have not entered into forward contracts to hedge against fluctuations in foreign currency prices.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements required by this item and the report of the independent accountant thereon required by Item 14(a)(2) appear beginning on page F-2 of this Report. See accompanying Index to the consolidated financial statements on page F-1. The supplementary financial data required by Item 302 of Regulation S-K appears in note 11 to the consolidated financial statements.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation under the supervision and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Report pursuant to Rules 13a-15 and 15d-15 of the Exchange Act. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer each concluded that our disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information has been accumulated and communicated to our management, including the officers who certify our financial reports, as appropriate, to allow timely decisions regarding the required disclosures.

Our disclosure controls and procedures are designed to provide reasonable assurance that the controls and procedures will meet their objectives. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the fiscal quarter ended February 3, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

For the Report of Management on Internal Control over Financial Reporting and the report of our independent registered public accounting firm on Internal Control over Financial Reporting, see "Management's Annual Report on Internal Control Over Financial Reporting" on page F-2 of this Report and "Report of Independent Registered Public Accounting Firm" on page F-4 of this Report.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this Item with respect to our executive officers and directors, compliance by our directors, executive officers and certain beneficial owners of our common stock with Section 16(a) of the Exchange Act, the committees of our Board of Directors, our Audit Committee Financial Expert and our Code of Ethics is incorporated herein by reference to information under the captions entitled “Board of Directors and Committees of the Board of Directors,” “Executive Officers,” and “Section 16(a) Beneficial Ownership Reporting Compliance” in our definitive proxy statement (to be filed hereafter) in connection with our 2018 Annual Meeting of Stockholders and possibly elsewhere in the proxy statement (or will be filed by amendment to this Report).

ITEM 11. EXECUTIVE COMPENSATION

The information required by this Item is incorporated herein by reference to information under the captions entitled “Executive Compensation,” “Board of Directors and Committees of the Board of Directors” and “Compensation Committee Report” in our definitive proxy statement (to be filed hereafter) in connection with our 2018 Annual Meeting of Stockholders and possibly elsewhere in the proxy statement (or will be filed by amendment to this Report).

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this Item with respect to ownership of our common stock is incorporated herein by reference to the information under the caption entitled “Security Ownership of Certain Beneficial Owners and Management” in our definitive proxy statement (to be filed hereafter) in connection with our 2018 Annual Meeting of Stockholders and possibly elsewhere in the proxy statement (or will be filed by amendment to this Report).

Equity Compensation Plan Information. The following table represents those securities authorized for issuance as of February 3, 2018 under our existing equity compensation plans.

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (1) (a)	Weighted average exercise price of outstanding options, warrants and rights (2) (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (3) (c)
Equity compensation plans approved by security holders	—	\$ —	930,835
Equity compensation plans not approved by security holders	—	—	—
Total	—	\$ —	930,835

- (1) The Citi Trends, Inc. 2012 Incentive Plan (the “2012 Plan”) became effective in May 2012 as a successor to the 2005 Plan. The 2012 Plan provides for the issuance of up to 1,600,000 shares of common stock, plus a number of additional shares (not to exceed 300,000) underlying awards outstanding under prior plans that later terminate or expire unexercised. Such shares will be issued upon the exercise of stock options or as awards of nonvested restricted stock and other performance awards. Does not include nonvested restricted stock grants issued under the 2012 Plan totaling 173,208 shares. No options were outstanding as of February 3, 2018.
- (2) The weighted average exercise price is for options only and does not include nonvested restricted stock.
- (3) Consists of shares available for awards of options, restricted stock and other performance awards under the 2012 Plan.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this Item is incorporated herein by reference to the information under the captions entitled “Certain Relationships and Related Party Transactions” and “Board of Directors and Committees of the Board of Directors” in our definitive proxy statement (to be filed hereafter) in connection with our 2018 Annual Meeting of Stockholders and possibly elsewhere in the proxy statement (or will be filed by amendment to this Report).

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information required by this Item is incorporated herein by reference to the information under the caption entitled “Ratification of Independent Registered Public Accounting Firm” in our definitive proxy statement (to be filed hereafter) in connection with our 2018 Annual Meeting of Stockholders and possibly elsewhere in the proxy statement (or will be filed by amendment to this Report).

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

(a)(1) Financial Statements

See accompanying Financial Statements beginning on page F-1.

(a)(2) Financial Statement Schedules

All schedules for which provision is made in the applicable accounting regulations of the SEC are not required under the related instructions, are inapplicable or the information is included in the Financial Statements, and therefore, have been omitted.

(a)(3) Exhibits

Exhibit Index

<u>Exhibit No.</u>	<u>Description</u>
3.1	Second Amended and Restated Certificate of Incorporation, as amended by the Certificate of Amendment dated June 22, 2006 (incorporated by reference to Exhibit 3.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended July 29, 2006)
3.2	Second Amended and Restated By-laws (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed with the SEC on May 30, 2017)
3.3	Amendment to the Second Amended and Restated By-laws (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed with the SEC on March 22, 2018)
4.1	Specimen certificate for shares of common stock, \$.01 par value (incorporated by reference to Exhibit 4.1 to Amendment No. 2 to the Company's Registration Statement on Form S-1 (File No. 333-123028) filed with the SEC on April 29, 2005)
*10.1	Citi Trends, Inc. Amended and Restated 2005 Long-Term Incentive Plan (the "2005 Plan") (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 2, 2008)
*10.2	Form of Restricted Stock Award Agreement for Employees under the 2005 Plan (incorporated by reference to Exhibit 10.2 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 2, 2008)
*10.3	Form of Restricted Stock Award Agreement for Directors under the 2005 Plan (incorporated by reference to Exhibit 10.19 to the Company's Annual Report on Form 10-K for the year ended February 3, 2007)
*10.4	Form of Stock Option Agreement for Employees under the 2005 Plan (incorporated by reference to Exhibit 10.20 to the Company's Annual Report on Form 10-K for the year ended February 3, 2007)
*10.5	Form of Stock Option Agreement for Directors under the 2005 Plan (incorporated by reference to Exhibit 10.21 to the Company's Annual Report on Form 10-K for the year ended February 3, 2007)
*10.6	Offer Letter to Ivy Council dated December 6, 2006 (incorporated by reference to Exhibit 10.24 to the Company's Annual Report on Form 10-K for the year ended February 2, 2008)
*10.7	Offer Letter to Bruce D. Smith dated March 5, 2007 (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended May 5, 2007)

Exhibit No.	Description
*10.8	Citi Trends, Inc. Annual Incentive Bonus Plan (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 1, 2009)
*10.9	Form of Restricted Stock Award Agreement for Employees under the 2005 Plan (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended October 31, 2009)
*10.10	Form of Restricted Stock Award Agreement for Directors under the 2005 Plan (incorporated by reference to Exhibit 10.2 to the Company's Quarterly Report on Form 10-Q for the quarter ended October 31, 2009)
*10.11	Offer Letter to Charles D. Crowell dated February 3, 2011 (incorporated by reference to Exhibit 10.29 to the Company's Annual Report on Form 10-K for the year ended January 28, 2012)
10.12	Credit Agreement, dated October 27, 2011 among Citi Trends, Inc., as Borrower, its wholly owned subsidiary, as Guarantor, and Bank of America, N.A., as Lender (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended October 29, 2011)
*10.13	Summary of terms of employment for R. Edward Anderson (incorporated by reference to Exhibit 10.34 to the Company's Annual Report on Form 10-K for the year ended January 28, 2012)
*10.14	Employment Non-Compete, Non-Solicit and Confidentiality Agreement between the Company and R. Edward Anderson dated February 7, 2012 (incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K filed with the SEC on February 10, 2012)
*10.15	Severance Agreement between the Company and R. Edward Anderson dated February 7, 2012 (incorporated by reference to Exhibit 10.36 to the Company's Annual Report on Form 10-K for the year ended January 28, 2012)
*10.16	Offer Letter to Jason T. Mazzola dated January 18, 2012 (incorporated by reference to Exhibit 10.37 to the Company's Annual Report on Form 10-K for the year ended January 28, 2012)
*10.17	Employment Non-Compete, Non-Solicit and Confidentiality Agreement between the Company and Jason T. Mazzola dated February 13, 2012 (incorporated by reference to Exhibit 10.38 to the Company's Annual Report on Form 10-K for the year ended January 28, 2012)
*10.18	Severance Agreement between the Company and Jason T. Mazzola dated February 13, 2012 (incorporated by reference to Exhibit 10.39 to the Company's Annual Report on Form 10-K for the year ended January 28, 2012)
*10.19	Citi Trends, Inc. 2012 Incentive Plan (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended July 28, 2012)
*10.20	Form of Restricted Stock Award Agreement for Employees under the Citi Trends, Inc. 2012 Incentive Plan (incorporated by reference to Exhibit 10.2 to the Company's Quarterly Report on Form 10-Q for the quarter ended April 29, 2017)
*10.21	Form of Restricted Stock Award Agreement for Directors under the Citi Trends, Inc. 2012 Incentive Plan (incorporated by reference to Exhibit 10.3 to the Company's Quarterly Report on Form 10-Q for the quarter ended July 28, 2012)

Exhibit No.	Description
*10.22	Form of Restricted Stock Unit Award Agreement for Employees under the Citi Trends, Inc. 2012 Incentive Plan (incorporated by reference to Exhibit 10.3 to the Company's Quarterly Report on Form 10-Q for the quarter ended April 29, 2017)
*10.23	Employment Non-Compete, Non-Solicit and Confidentiality Agreement between the Company and Bruce D. Smith dated May 1, 2013 (incorporated by reference to Exhibit 10.1 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 3, 2013)
*10.24	Employment Non-Compete, Non-Solicit and Confidentiality Agreement between the Company and Ivy D. Council dated May 1, 2013 (incorporated by reference to Exhibit 10.2 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 3, 2013)
*10.25	Employment Non-Compete, Non-Solicit and Confidentiality Agreement between the Company and James A. Dunn dated May 1, 2013 (incorporated by reference to Exhibit 10.3 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 3, 2013)
*10.26	Employment Non-Compete, Non-Solicit and Confidentiality Agreement between the Company and Charles D. Crowell dated May 1, 2013 (incorporated by reference to Exhibit 10.4 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 3, 2013)
*10.27	Severance Agreement between the Company and Bruce D. Smith dated May 1, 2013 (incorporated by reference to Exhibit 10.5 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 3, 2013)
*10.28	Severance Agreement between the Company and Ivy D. Council dated May 1, 2013 (incorporated by reference to Exhibit 10.6 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 3, 2013)
*10.29	Severance Agreement between the Company and James A. Dunn dated May 1, 2013 (incorporated by reference to Exhibit 10.7 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 3, 2013)
*10.30	Severance Agreement between the Company and Charles D. Crowell dated May 1, 2013 (incorporated by reference to Exhibit 10.8 to the Company's Quarterly Report on Form 10-Q for the quarter ended August 3, 2013)
10.31	First Amendment to Credit Agreement, dated as of August 18, 2015, by and among Citi Trends, Inc., as Borrower, Citi Trends Marketing Solutions, Inc., as Guarantor, and Bank of America, N.A., as Lender (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed with the SEC on August 19, 2015)

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that:

- pertain to maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are made only in accordance with authorizations of management and directors of the Company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Under the supervision and with the participation of management, including our chief executive officer and chief financial officer, we assessed the effectiveness of our internal control over financial reporting as of February 3, 2018, based on the criteria described in *Internal Control—Integrated Framework (2013)*, issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”). Based on this assessment, our management concluded that our internal control over financial reporting was effective based on those criteria as of February 3, 2018.

Our independent registered public accounting firm, KPMG LLP, audited the effectiveness of our internal control over financial reporting as of February 3, 2018, as stated in their report which is included herein.

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
Citi Trends, Inc.:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Citi Trends, Inc. and subsidiary (the Company) as of February 3, 2018 and January 28, 2017, the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years ended February 3, 2018, January 28, 2017, and January 30, 2016, and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of February 3, 2018 and January 28, 2017, and the results of its operations and its cash flows for each of the years ended February 3, 2018, January 28, 2017, and January 30, 2016, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of February 3, 2018, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated April 18, 2018 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ KPMG LLP

We have served as the Company's auditor since 2002.

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
Citi Trends, Inc.:

Opinion on Internal Control Over Financial Reporting

We have audited Citi Trends, Inc. and subsidiary's (the Company) internal control over financial reporting as of February 3, 2018, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of February 3, 2018, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of February 3, 2018 and January 28, 2017, the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years ended February 3, 2018, January 28, 2017, and January 30, 2016, and the related notes (collectively, the consolidated financial statements), and our report dated April 18, 2018 expressed an unqualified opinion on those consolidated financial statements.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

See accompanying notes to consolidated financial statements

Citi Trends, Inc.
Notes to Consolidated Financial Statements
February 3, 2018, January 28, 2017 and January 30, 2016

(1) Organization and Business

Citi Trends, Inc. and its subsidiary (the “Company”) operate as a value-priced retailer of urban fashion apparel and accessories for the entire family. As of February 3, 2018, the Company operated 549 stores in 31 states.

(2) Summary of Significant Accounting Policies

(a) Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary. All intercompany transactions and balances have been eliminated in consolidation.

(b) Fiscal Year

The Company’s fiscal year ends on the Saturday closest to January 31 of each year. The years ended February 3, 2018, January 28, 2017 and January 30, 2016 are referred to as fiscal 2017, fiscal 2016 and fiscal 2015, respectively, in the accompanying consolidated financial statements. Fiscal year 2017 is comprised of 53 weeks, while fiscal years 2016 and 2015 are each comprised of 52 weeks.

(c) Cash and Cash Equivalents/Concentration of Credit Risk

For purposes of the consolidated balance sheets and consolidated statements of cash flows, the Company considers all highly liquid investments with maturities at date of purchase of three months or less to be cash equivalents. Financial instruments that potentially subject the Company to a concentration of credit risk consist principally of cash and cash equivalents. The Company places its cash and cash equivalents in what it believes to be high credit quality banks and institutional money market funds. The Company maintains cash accounts that exceed federally insured limits.

(d) Inventory

Inventory is stated at the lower of cost (first-in, first-out basis) or market as determined by the retail inventory method for store inventory and the average cost method for distribution center inventory. Under the retail inventory method, the cost of inventory is determined by calculating a cost-to-retail ratio and applying it to the retail value of inventory. Merchandise markdowns are reflected in the inventory valuation when the retail price of an item is lowered in the stores. Inventory is recorded net of an allowance for shrinkage based on the most recent physical inventory counts.

(e) Property and Equipment, net

Property and equipment, net are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the lesser of the estimated useful lives (primarily three to five years for computer equipment and furniture, fixtures and equipment, five years for leasehold improvements, seven years for major purchased software systems, and fifteen to twenty years for buildings and building improvements) of the related assets or the relevant lease term.

(f) Impairment of Long-Lived Assets

If facts and circumstances indicate that a long-lived asset may be impaired, the carrying value is reviewed. If this review indicates that the carrying value of the asset will not be recovered as determined based on projected undiscounted cash flows related to the asset over its remaining life, the carrying value of the asset is reduced to its estimated fair value. Non-cash impairment expense related primarily to leasehold improvements and fixtures and equipment at underperforming stores totaled \$0.5 million, \$0.3 million and \$0.0 million in fiscal 2017, 2016 and 2015, respectively.

(g) Insurance Liabilities

The Company is largely self-insured for workers' compensation costs and employee medical claims. The Company's self-insured retention or deductible, as applicable, for each claim involving workers' compensation and employee medical is limited to \$250,000 and \$100,000, respectively. Self-insurance liabilities are based on the total estimated costs of claims filed and estimates of claims incurred but not reported, less amounts paid against such claims. Current and historical claims data, together with information from actuarial studies, are used in developing the estimates. The insurance liabilities that are recorded are primarily influenced by the frequency and severity of claims and the Company's growth. If the underlying facts and circumstances related to the claims change, then the Company may be required to record more or less expense which could be material in relation to results of operations.

(h) Stock-Based Compensation

The Company recognizes compensation expense associated with all nonvested restricted stock and restricted stock units based on an estimate of the grant-date fair value of each equity award. Grants of time-based nonvested restricted stock are valued based on the closing stock price on the grant date, while grants of performance-based restricted stock units are valued at an estimate of fair market value using a lattice model. See Note 8 for additional information on the Company's stock-based compensation plans.

(i) Revenue Recognition

Revenue from retail sales, net of sales taxes, is recognized at the time the customer takes possession of and pays for merchandise, less an allowance for returns. The Company allows customers to return merchandise for up to thirty days after the date of sale and the Company reduces revenues for each fiscal year using a combination of actual and estimated return information for the returns in the thirty days after the year ends. The sales returns allowance and related changes were not significant for 2017 or 2016. Revenue from layaway sales is recognized when the customer has paid for and received the merchandise. If the merchandise is not fully paid for within sixty days, the customer is given a store credit for merchandise payments made, less a re-stocking and layaway service fee. Such fees, which are non-refundable, are recognized in revenue when collected. Proceeds from the sale of gift cards are deferred until the customers use the cards to purchase merchandise. No amounts have yet been amortized into income for gift cards that were sold and are not expected to be redeemed ("breakage") due to the relative immateriality of the total gift card liability (\$1.0 million as of February 3, 2018 and \$0.8 million as of January 28, 2017) and requirements to escheat certain amounts to the state in which the gift card subsidiary is incorporated. All sales are from cash, check or major credit card company transactions. The Company does not offer company-sponsored customer credit accounts.

(j) Cost of Sales

Cost of sales includes the cost of inventory sold during the period and transportation costs, including inbound freight related to inventory sold and freight from the distribution centers to the stores, net of discounts and allowances. Distribution center costs, store occupancy expenses and advertising expenses are not considered components of cost of sales and are included as part of selling, general and administrative expenses. Depreciation is also not considered a component of cost of sales and is included as a separate line item in the consolidated statements of operations. Distribution center costs (exclusive of depreciation) for fiscal 2017, 2016 and 2015 were \$17.4 million, \$17.2 million and \$15.7 million, respectively.

(k) Earnings per Share

Basic earnings per common share amounts are calculated using the weighted average number of common shares outstanding for the period. Diluted earnings per common share amounts are calculated using the weighted average number of common shares outstanding plus the additional dilution for all potentially dilutive securities, such as nonvested restricted stock and stock options. During loss periods, diluted loss per share amounts are based on the weighted average number of common shares outstanding because the inclusion of common stock equivalents would be antidilutive.

The following table provides a reconciliation of the number of average common shares outstanding used to calculate basic earnings per share to the number of common shares and common stock equivalents outstanding used in calculating diluted earnings per share for fiscal 2017, 2016 and 2015:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Average number of common shares outstanding	14,058,008	14,656,753	14,996,496
Incremental shares from assumed exercises of stock options	—	—	193
Incremental shares from assumed vesting of nonvested restricted stock	57,887	5,519	58,849
Average number of common shares and common stock equivalents outstanding	<u>14,115,895</u>	<u>14,662,272</u>	<u>15,055,538</u>

The dilutive effect of stock-based compensation arrangements is accounted for using the treasury stock method. This method assumes that the proceeds the Company receives from the exercise of stock options are used to repurchase common shares in the market. Prior to the adoption of ASU No. 2016-09, Compensation-Stock Compensation: Improvements to Employee Share-Based Payment Accounting, in the first quarter of fiscal 2017, the Company included as assumed proceeds the amount of compensation costs attributed to future services and not yet recognized, and the amount of tax benefits, if any, that would be credited to additional paid-in capital assuming exercise of outstanding options and vesting of nonvested restricted stock. Following the adoption of ASU No. 2016-09, the assumed proceeds include only the amount of compensation costs attributed to future services and not yet recognized but does not include any tax benefits arising from the assumed exercise of outstanding options and the vesting of nonvested restricted stock. For fiscal 2017, 2016 and 2015, respectively, there were 0, 4,000 and 19,000 options outstanding to purchase shares of common stock excluded from the calculation of diluted earnings per share because of antidilution. For fiscal 2017, 2016 and 2015, respectively, there were 125,000, 237,000 and 332,000 shares of nonvested restricted stock, respectively, excluded from the calculation of diluted earnings per share because of antidilution.

(l) Advertising

The Company expenses advertising as incurred. Advertising expense for fiscal 2017, 2016 and 2015 was \$2.0 million, \$2.5 million and \$2.6 million, respectively.

(m) Operating Leases

The Company leases all of its store properties and accounts for the leases as operating leases. Many lease agreements contain tenant improvement allowances, rent holidays, rent escalation clauses and/or contingent rent provisions. For purposes of recognizing incentives and minimum rent expense on a straight-line basis over the terms of the leases, the Company uses the date of initial possession to begin amortization, which is generally when the Company enters the space and begins to make improvements in preparation of intended use.

For scheduled rent escalation clauses during the lease terms or for rental payments commencing “rent holidays” at a date other than the date of initial occupancy, the Company records minimum rent expense on a straight-line basis over the terms of the leases. Tenant improvement allowances are included in accrued expenses (current portion) and other long-term liabilities (noncurrent portion) and are amortized over the lease term. Changes in the balances of tenant improvement allowances are included as a component of operating activities in the consolidated statements of cash flows.

Certain leases provide for contingent rents that are not measurable at inception. These contingent rents are primarily based on a percentage of net sales that are in excess of a predetermined level. These amounts are excluded from minimum rent and are included in the determination of total rent expense when it is probable that the expense has been incurred and the amount is reasonably estimable.

The Company is required to recognize a liability for the fair value of a conditional asset retirement obligation when incurred if the liability’s fair value can be reasonably estimated. The Company included a liability of \$0.8 million as of February 3, 2018 and January 28, 2017 in other long-term liabilities, representing estimated expenses that would be incurred upon the termination of the Company’s operating leases.

(n) Store Opening and Closing Costs

New and relocated store opening period costs are charged directly to expense when incurred. When the Company decides to close or relocate a store, the Company records an expense for the present value of expected future rent payments, net of sublease income, if any, in the period that a store closes or relocates. All store opening and closing costs are included in selling, general and administrative expenses.

(o) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(p) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and use assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The most significant estimates made by management include those used in the valuation of inventory, property and equipment, self-insurance liabilities, leases and income taxes. Management periodically evaluates estimates used in the preparation of the consolidated financial statements for continued reasonableness. Appropriate adjustments, if any, to the estimates used are made prospectively based on such periodic evaluations.

(q) Business Reporting Segments

The Company is a value-priced retailer of urban fashion apparel and accessories for the entire family. The retail operations represent a single operating segment based on the way the Company manages its business. Operating decisions and resource allocation decisions are made at the Company level in order to maintain a consistent retail store presentation. The Company's retail stores sell similar products, use similar processes to sell those products, and sell their products to similar classes of customers. All sales and assets are located within the United States. The Company's merchandise assortment by classification as a percentage of net sales for fiscal 2017, 2016 and 2015 is as follows:

	Percentage of Net Sales		
	2017	2016	2015
Accessories	32 %	31 %	30 %
Ladies'	23 %	24 %	24 %
Children's	23 %	23 %	25 %
Men's	17 %	17 %	17 %
Home	5 %	5 %	4 %

(r) Recent Accounting Pronouncements

In May 2014 the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606) ("ASU 2014-09"). The guidance requires an entity to recognize revenue on contracts with customers relating to the transfer of promised goods or services in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this, an entity is required to identify the contract with a customer; identify the separate performance obligations in the contract; determine the transaction price; allocate the transaction price to the separate performance obligations in the contract; and recognize revenue when (or as) the entity satisfies each performance obligation. In August of 2015, the FASB issued ASU 2015-14 which defers the effective date of ASU 2014-09 to annual reporting periods beginning after December 15, 2017 and interim periods in the year of adoption. The Company may use either a full retrospective or modified retrospective approach to adopt these ASUs. The Company will adopt ASU 2014-09 in fiscal 2018 beginning February 4, 2018 using the modified retrospective approach. The Company's primary source of revenue is derived from the sale of clothing and accessories to its customers with the Company's performance obligations satisfied immediately when the customer pays for their purchase and receives the merchandise. As such, adoption of the new standard will not have a material impact on the Company's consolidated balance sheet, results of operations or cash flows. Additionally, the Company does not anticipate significant changes to business processes, controls, systems or disclosures as a result of adopting the new standard.

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory ("ASU 2015-11"). ASU 2015-11 requires entities to measure inventory at the lower of cost or net realizable value, simplifying the current requirement that inventories be measured at the lower of cost or market. The ASU does not apply to inventories that are measured using the last-in, first-out method or retail inventory method. The guidance was effective prospectively for annual periods, and interim periods within those annual periods, that began after December 15, 2016. The Company adopted ASU 2015-11 in the first quarter of 2017. As the majority of the Company's inventory is accounted for under the retail inventory method, the adoption of this guidance did not have a material impact on the Company's consolidated balance sheet, results of operations or cash flows.

In February 2016, the FASB issued ASU No. 2016-02, Leases (“ASU 2016–02”) which replaces the existing guidance in ASC 840, Leases. The new standard establishes a right-of-use model that requires a lessee to record a right-of-use asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the statement of operations. The guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, and requires a modified retrospective transition approach. The Company will adopt ASU 2016-02 in fiscal 2019. The Company is currently in the process of evaluating the new lease guidance to determine the ultimate impact, but anticipates the new standard will result in significant right of use assets and related liabilities associated with its operating leases. All of the Company’s retail store locations are subject to operating lease arrangements. Being party to 549 leases for individual retail locations with an average remaining contractual rent period of 3.0 years, the Company has determined that the adoption of the new lease standard will have a significant impact on the Company’s consolidated balance sheet and disclosures.

In March 2016, the FASB issued ASU No. 2016-09, Compensation — Stock Compensation: Improvements to Employee Share-Based Payment Accounting (“ASU 2016-09”). The new guidance changes how companies account for certain aspects of share-based payments to employees. Under previous accounting guidance, tax benefits and certain tax deficiencies arising from the vesting of share-based payments were recorded in additional paid-in-capital. The new guidance requires such benefits or deficiencies to be recognized as components of income tax expense in the statement of operations. The ASU also allows election of an accounting policy whereby forfeitures of share-based payment awards are recognized as they occur, or alternatively, are accounted for on a prospective basis utilizing an estimate of expected forfeitures. Entities are required to apply the new guidance prospectively. The new standard was effective for fiscal years beginning after December 15, 2016. The Company adopted ASU 2016-09 in the first quarter of fiscal 2017 and elected to recognize the impact of forfeitures as they occur. These impacts on the Company’s consolidated balance sheet, results of operations and cash flows were immaterial. Future impacts will be dependent on the volume of vestings of restricted stock and changes in the Company's stock price.

(3) Property and Equipment, net

The components of property and equipment as of February 3, 2018 and January 28, 2017 are as follows (in thousands):

	February 3, 2018	January 28, 2017
Land	\$ 479	\$ 478
Buildings	30,540	23,996
Leasehold improvements	93,653	88,585
Furniture, fixtures and equipment	127,816	118,105
Computer equipment	37,115	34,663
Construction in progress	1,873	6,195
	<u>291,476</u>	<u>272,022</u>
Accumulated depreciation	<u>(229,699)</u>	<u>(212,742)</u>
	<u>\$ 61,777</u>	<u>\$ 59,280</u>

(4) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market at the measurement date. Fair value is established according to a hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs are used when little or no market data is available. Level 3 inputs are given the lowest priority in the fair value hierarchy.

As of February 3, 2018, the Company's investment securities are classified as held-to-maturity since the Company has the intent and ability to hold the investments to maturity. Such securities are carried at amortized cost plus accrued interest and consist of the following (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
Short-term:				
Obligations of the U.S. Treasury and U.S. government agencies (Level 1)	\$ 10,162	\$ —	\$ (25)	\$ 10,137
Obligations of states and municipalities (Level 2)	8,111	1	(2)	8,110
Bank certificates of deposit (Level 2)	13,227	—	—	13,227
	<u>\$ 31,500</u>	<u>\$ 1</u>	<u>\$ (27)</u>	<u>\$ 31,474</u>
Long-term:				
Obligations of the U. S. Treasury (Level 1)	\$ 9,967	\$ —	\$ (116)	\$ 9,851
Bank certificates of deposit (Level 2)	15,484	—	—	15,484
	<u>\$ 25,451</u>	<u>\$ —</u>	<u>\$ (116)</u>	<u>\$ 25,335</u>

The amortized cost and fair market value of investment securities as of February 3, 2018 by contractual maturity are as follows (in thousands):

	Amortized Cost	Fair Market Value
Mature in one year or less	\$ 31,500	\$ 31,474
Mature after one year through five years	25,451	25,335
	<u>\$ 56,951</u>	<u>\$ 56,809</u>

As of January 28, 2017, the Company's investment securities were classified as held-to-maturity and consisted of the following (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
Short-term:				
Obligations of the U. S. Treasury (Level 1)	\$ 9,995	\$ 1	\$ —	\$ 9,996
Obligations of states and municipalities (Level 2)	14,816	2	(1)	14,817
Bank certificates of deposit (Level 2)	13,215	—	—	13,215
	<u>\$ 38,026</u>	<u>\$ 3</u>	<u>\$ (1)</u>	<u>\$ 38,028</u>
Long-term:				
Obligations of the U. S. Treasury (Level 1)	\$ 15,011	\$ —	\$ (51)	\$ 14,960
Bank certificates of deposit (Level 2)	11,680	—	—	11,680
	<u>\$ 26,691</u>	<u>\$ —</u>	<u>\$ (51)</u>	<u>\$ 26,640</u>

The amortized cost and fair market value of investment securities as of January 28, 2017 by contractual maturity were as follows (in thousands):

	Amortized Cost	Fair Market Value
Mature in one year or less	\$ 38,026	\$ 38,028
Mature after one year through five years	26,691	26,640
	<u>\$ 64,717</u>	<u>\$ 64,668</u>

There were no changes among the levels in the three fiscal years ended February 3, 2018.

Fair market values of Level 2 investments are determined by management with the assistance of a third party pricing service. Since quoted prices in active markets for identical assets are not available, these prices are determined by the third party pricing service using observable market information such as quotes from less active markets and quoted prices of similar securities.

(5) Revolving Line of Credit

On October 27, 2011, the Company entered into a five-year, \$50 million credit facility with Bank of America. The facility was amended on August 18, 2015, extending the maturity date to August 18, 2020. The amended facility provides a \$50 million credit commitment and a \$25 million uncommitted “accordion” feature that under certain circumstances could allow the Company to increase the size of the facility to \$75 million. Borrowings, if any, under the facility will bear interest (a) for LIBOR Rate Loans, at LIBOR plus either 1.25% or 1.5%, or (b) for Base Rate Loans, at a rate equal to the highest of (i) the prime rate plus either 0.25% or 0.5%, (ii) the Federal Funds Rate plus either 0.75% or 1.0%, or (iii) LIBOR plus either 1.25% or 1.5%, based in any such case on the average daily availability for borrowings under the facility. The facility continues to be secured by the Company’s inventory, accounts receivable and related assets, but not its real estate, fixtures and equipment, and it contains one financial covenant, a fixed charge coverage ratio, which is applicable and tested only in certain circumstances. The facility has an unused commitment fee of 0.25% and permits the payment of cash dividends subject to certain limitations, including a requirement that there were no borrowings outstanding in the 30 days prior to the dividend payment and no borrowings are expected in the 30 days subsequent to the payment. The Company has had no borrowings under the credit facility.

(6) Income Taxes

Income tax expense for fiscal 2017, 2016 and 2015 consists of the following (in thousands):

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Current:			
Federal	\$ (5,249)	\$ (3,759)	\$ (6,805)
State	(948)	(779)	(1,283)
Total current	<u>(6,197)</u>	<u>(4,538)</u>	<u>(8,088)</u>
Deferred:			
Federal	(3,078)	(1,541)	(806)
State	349	59	107
Total deferred	<u>(2,729)</u>	<u>(1,482)</u>	<u>(699)</u>
Total income tax expense	<u>\$ (8,926)</u>	<u>\$ (6,020)</u>	<u>\$ (8,787)</u>

Income tax expense computed using the federal statutory rate is reconciled to the reported income tax expense as follows for fiscal 2017, 2016 and 2015 (in thousands):

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Statutory rate applied to income before income taxes	\$ (7,924)	\$ (6,773)	\$ (8,510)
Revaluation of net deferred tax assets due to the Tax Cuts and Jobs Act	(1,925)	—	—
State income taxes, net of federal benefit	(549)	(903)	(950)
State tax credits	252	226	186
State tax credits - valuation allowance (net of federal benefit)	(79)	—	—
Tax exempt interest	24	20	6
General business credits	1,273	1,605	978
Excess compensation	—	—	(263)
Excess tax benefits from stock based compensation	70	—	—
Other	(68)	(195)	(234)
Income tax expense	<u>\$ (8,926)</u>	<u>\$ (6,020)</u>	<u>\$ (8,787)</u>

The components of deferred tax assets and deferred tax liabilities as of February 3, 2018 and January 28, 2017 are as follows (in thousands):

	February 3, 2018	January 28, 2017
Deferred tax assets:		
Deferred rent amortization	\$ 558	\$ 722
Inventory capitalization	1,863	2,895
Federal jobs credits	—	95
Book and tax depreciation differences	312	526
Vacation liability	585	921
State tax credits	2,676	2,161
Stock compensation	834	1,340
Legal expense reserve	73	407
Insurance liabilities	537	845
Other	342	481
Subtotal deferred tax assets	7,780	10,393
Less: State tax credits valuation allowance - net	(1,624)	(1,272)
Total deferred tax assets	6,156	9,121
Deferred tax liabilities:		
Prepaid expenses	(379)	(615)
Total deferred tax liabilities	(379)	(615)
Net deferred tax asset	<u>\$ 5,777</u>	<u>\$ 8,506</u>

The Company files income tax returns in U.S. federal and state jurisdictions where it does business and is subject to examinations by the Internal Revenue Service (“IRS”) and other taxing authorities. With a few exceptions, the Company is no longer subject to U.S. federal and state income tax examinations by tax authorities for years prior to fiscal 2012. The Company reviews and assesses uncertain tax positions, if any, with recognition and measurement of tax benefit based on a “more-likely-than-not” standard with respect to the ultimate outcome, regardless of whether this assessment is favorable or unfavorable. As of February 3, 2018, there were no benefits taken on the Company’s income tax returns that do not qualify for financial statement recognition. If a tax position does not meet the minimum statutory threshold to avoid payment of penalties and interest, a company is required to recognize an expense for the amount of the interest and penalty in the period in which the company claims or expects to claim the position on its tax return. For financial statement purposes, companies are allowed to elect whether to classify such charges as either income tax expense or another expense classification. Should such expense be incurred in the future, the Company will classify such interest as a component of interest expense and penalties as a component of income tax expense.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible and income tax credits may be utilized, management believes it is more likely than not that the Company will realize the benefits of these deductible differences with the exception of certain tax credits available in one state. Beginning in 2011, the Company concluded that its ability to utilize a portion of such state’s tax credits was no longer more likely than not. Such recognition resulted in the establishment of a valuation allowance which necessitated a charge to income tax expense and a reduction in deferred tax assets. Subsequent to 2011, the Company has continued to earn such state credits and has further adjusted the related valuation allowance. At February 3, 2018, the valuation allowance, net of federal tax benefit, totaled \$1.6 million.

The effective income tax rate for fiscal 2017, 2016 and 2015 included the recognition of benefits arising from various federal and state tax credits. Under current IRS and state income tax regulations, these credits may be carried back for one year or carried forward for periods up to 20 years. The income tax benefit included \$1.3 million related to such credits in fiscal 2017, \$1.8 million related to such credits in fiscal 2016 and \$1.2 million related to such credits in fiscal 2015.

On December 22, 2017, the President of the United States signed into law the Tax Cuts and Jobs Act tax reform legislation. The legislation was effective January 1, 2018 and made significant changes to U.S. tax law including a reduction in the corporate income tax rate, changes to net operating loss carryforwards and carrybacks, and a repeal of the corporate alternative minimum tax. The

legislation reduced the federal statutory tax rate from 35% to 21% and required corporations with fiscal years spanning periods before and after the effective date to use a blended federal tax rate for fiscal years which include January 1, 2018. As a result of the provision requiring a blended rate, the Company's federal statutory rate was reduced from 35% to 33.7% with a commensurate reduction in income tax expense of \$0.3 million for fiscal year 2017. In addition, the Company was required to revalue its deferred tax assets and liabilities to reflect the reduced federal income tax rate expected to be in effect at the time of future reversals. Such revaluation resulted in the reduction of net deferred tax assets and a charge to income tax expense in the fourth quarter of \$1.9 million. The other provisions of the Tax Cuts and Jobs Act did not have a material impact on the fiscal 2017 consolidated financial statements.

(7) Other Long-Term Liabilities

The components of other long-term liabilities as of February 3, 2018 and January 28, 2017 are as follows (in thousands):

	February 3, 2018	January 28, 2017
Deferred rent	\$ 2,148	\$ 1,810
Tenant improvement allowances	4,325	4,554
Other	1,960	2,150
	<u>\$ 8,433</u>	<u>\$ 8,514</u>

(8) Stockholders' Equity

Repurchases of common stock

On April 10, 2017, the Company's Board of Directors approved a program that authorized the purchase of up to \$25.0 million in shares of the Company's common stock. During the second and third quarters of 2017, the Company repurchased 1,201,000 shares of its common stock in the open market at an aggregate cost of \$25.0 million. As of February 3, 2018, there were no additional shares which could be repurchased under the 2017 repurchase program. On March 16, 2018, the Board of Directors approved the 2018 repurchase program that authorized the purchase of another \$25.0 million in shares of the Company's common stock.

Dividends

In fiscal 2017, the Company paid four quarterly dividends: \$0.06 per common share on March 14, 2017, and \$0.08 per common share on June 13, 2017, September 12, 2017 and December 12, 2017. In fiscal 2016, the Company paid four quarterly dividends of \$0.06 per common share on March 15, 2016, June 14, 2016, September 13, 2016 and December 13, 2016. On February 13, 2018, the Company's Board of Directors declared a dividend of \$0.08 per common share, which was paid on March 20, 2018 to stockholders of record as of March 6, 2018. Any determination to declare and pay cash dividends for future quarters will be made by the Board of Directors.

Stock-Based Compensation

On April 6, 2012, the Company adopted the Citi Trends, Inc. 2012 Incentive Plan (the "2012 Plan"), which became effective upon approval by the Company's stockholders on May 23, 2012. The 2012 Plan is a successor plan to the 2005 Citi Trends, Inc. Long-Term Incentive Plan (the "2005 Plan"), which became effective upon the consummation of the Company's initial public offering in May 2005.

The 2005 Plan provided for the grant of incentive and nonqualified options, nonvested restricted stock and other forms of stock-based compensation to key employees and directors. The 2012 Plan provides for the grant of incentive and nonqualified options, nonvested restricted stock and other forms of stock-based and cash-based compensation to key employees and directors.

Shares of time-based nonvested restricted stock granted to employees vest in either equal installments over three or four years from the date of grant, or over three years at 25% on the first and second anniversaries and 50% on the third anniversary. Shares issued to directors vest one year from the date of grant. The Company records compensation expense for grants of time-based nonvested restricted stock on a straight line basis over the requisite service period of the stock recipients which is equal to the vesting period of the stock. Total compensation cost for such stock is calculated based on the closing market price on the date of grant multiplied by the number of shares granted. The Company expects to recognize \$2.2 million in future compensation expense from the grants of time-based restricted stock over the requisite service period of up to three years. Compensation costs for grants of performance-based restricted stock units ("RSUs") are recorded in full on the date of grant using a lattice model to estimate fair market value. During

fiscal 2017, 2016 and 2015, compensation expense arising from time-based nonvested restricted stock grants and performance-based RSUs totaled \$1.6 million, \$2.9 million and \$4.1 million, respectively.

A summary of activity related to time-based nonvested restricted stock grants during fiscal year 2017 is as follows:

	Nonvested Restricted Shares	Weighted Average Grant Date Fair Value
Outstanding as of January 28, 2017	217,968	\$ 18.89
Granted	118,676	18.71
Vested	(132,133)	16.20
Forfeited	(31,303)	19.11
Outstanding as of February 3, 2018	<u>173,208</u>	<u>\$ 19.02</u>

In March 2017, the Company granted 23,551 RSUs to two employees. The RSUs had performance vesting criteria which were based upon the closing price of the Company's stock achieving certain thresholds. The shares vest 25% upon achieving a closing stock price for a 20 consecutive day period of \$19.10; \$21.70; \$24.30; and \$26.90, respectively. The awards expire three years from the date of grant. On the date of grant, the Company expensed \$306,000 which was the estimated fair market value. One of the two employees resigned after the date of grant and forfeited their shares. Three of these thresholds were achieved in 2017.

In March 2016, the Company granted 24,816 RSUs to two employees. The RSUs had performance vesting criteria which were based upon the closing price of the Company's stock achieving certain thresholds. The shares vest 25% upon achieving a closing stock price for a 20 consecutive day period of \$20.75; \$23.50; \$26.25; and \$29.00, respectively. The awards expire three years from the date of grant. On the date of grant, the Company expensed \$238,000 which was the estimated fair market value. Three of these thresholds were achieved in 2017.

In March 2015, the Company granted 16,823 RSUs to two employees. The RSUs had performance vesting criteria which were based upon the closing price of the Company's stock achieving certain thresholds. The shares vest 25% upon achieving a closing stock price for a 20 consecutive day period of \$27.00; \$29.25; \$31.50; and \$33.50, respectively. The awards expire three years from the date of grant. On the date of grant, the Company expensed \$331,000 which was the estimated fair market value. None of the thresholds were achieved in 2015, 2016 or 2017.

In fiscal 2016 and 2015, tax deductions in excess of cumulative compensation cost resulting from vestings of restricted shares ("excess tax benefits") were recorded in additional paid-in-capital and classified as financing cash flows in the Company's consolidated statements of cash flows. Such increases in excess tax benefits amounted to \$0.2 million and \$1.3 million in fiscal 2016 and 2015, respectively. Beginning in fiscal 2017, following the implementation of ASU No. 2016-09, such income tax benefits or deficiencies are being recorded as a component of income tax expense in the Company's consolidated statement of operations. In fiscal 2017, such amount was a \$70,000 benefit to income tax expense.

(9) Commitments and Contingencies

The Company leases its stores under operating leases, which generally have an initial term of five years with renewal options. Future minimum rent payments under operating leases having noncancellable lease terms as of February 3, 2018 are as follows (in thousands):

<u>Fiscal Year:</u>	
2018	\$ 45,658
2019	39,536
2020	30,548
2021	19,520
2022	8,450
Thereafter	5,983
Total future minimum lease payments	<u>\$ 149,695</u>

Certain operating leases provide for fixed monthly rents, while others provide for contingent rents computed as a percentage of net sales and others provide for a combination of both fixed monthly rents and contingent rents computed as a percentage of net sales. Rent expense was \$53.0 million, \$50.7 million and \$47.1 million in fiscal 2017, 2016 and 2015 (including \$0.5 million, \$0.4 million and \$0.5 million of contingent rent), respectively.

The Company from time to time is involved in various legal proceedings incidental to the conduct of its business, including claims by customers, employees or former employees. Once it becomes probable that the Company will incur costs in connection with a legal proceeding and such costs can be reasonably estimated, it establishes appropriate reserves. While legal proceedings are subject to uncertainties and the outcome of any such matter is not predictable, the Company is not aware of any legal proceedings pending or threatened against it that it expects to have a material adverse effect on its financial condition, results of operations or liquidity.

(10) Valuation and Qualifying Accounts

The following table summarizes the allowances for inventory shrinkage and deferred tax assets (in thousands):

	Allowance for Inventory Shrinkage	Allowance for Deferred Tax Assets
Balance as of January 31, 2015	\$ 2,646	\$ 1,272
Additions charged to costs and expenses	7,873	—
Deductions	<u>(7,935)</u>	<u>—</u>
Balance as of January 30, 2016	2,584	1,272
Additions charged to costs and expenses	9,351	—
Deductions	<u>(8,836)</u>	<u>—</u>
Balance as of January 28, 2017	3,099	1,272
Additions charged to costs and expenses	11,103	79
Impact of tax reform	—	273
Deductions	<u>(10,698)</u>	<u>—</u>
Balance as of February 3, 2018	<u>\$ 3,504</u>	<u>\$ 1,624</u>

For the allowance for inventory shrinkage, additions charged to costs and expenses are the result of estimated inventory shrinkage, while deductions represent actual inventory shrinkage incurred from physical inventories taken during the fiscal year.

For the deferred tax asset valuation allowance, additions charged to costs and expenses represent the establishment of a valuation allowance when management determines that its ability to utilize certain tax credits included in deferred tax assets is no longer more likely than not. In fiscal 2017, the Company revalued its deferred tax assets and liabilities to reflect the reduced federal income tax rate expected to be in effect at the time of future reversals including the future utilization of tax credits. Such reduction was the result of the Tax Cuts and Jobs Act tax reform legislation enacted in December 2017 which reduced the federal statutory rate from 35% to 21%. The revaluation necessitated an increase in the valuation allowance related to the future realization of state income tax credits due to the reduction of the associated federal income tax benefit.

(11) Unaudited Quarterly Results of Operations

	Quarter Ended							
	Feb. 3 2018 (1)	Oct. 28 2017	Jul. 29 2017	Apr. 29 2017	Jan. 28 2017	Oct. 29 2016	Jul. 30 2016	Apr. 30 2016
(in thousands, except per share and share amounts)

Net income (loss)	\$ 5,247	\$ 647	\$ (210)	\$ 8,890	\$ 5,550	\$ (836)	\$ (120)	\$ 8,737
Net income (loss) per common share: (2)								
Basic	\$ 0.39	\$ 0.05	\$ (0.01)	\$ 0.60	\$ 0.38	\$ (0.06)	\$ (0.01)	\$ 0.60
Diluted	\$ 0.38	\$ 0.05	\$ (0.01)	\$ 0.60	\$ 0.38	\$ (0.06)	\$ (0.01)	\$ 0.60
Weighted average shares used to compute net income (loss) per common share:								
Basic	13,567,870	13,563,295	14,381,738	14,719,130	14,680,129	14,676,990	14,675,712	14,594,180
Diluted	13,652,330	13,614,404	14,381,738	14,779,930	14,693,008	14,676,990	14,675,712	14,603,377

- (1) Fourth quarter includes the impact of the Tax Cuts and Jobs Act enacted in December 2017. See Note 6 to the consolidated financial statements for additional information.
- (2) Net income (loss) per share is computed independently for each period presented. As a result, the total of net income (loss) per share for the four quarters may not equal the annual amount.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER PURSUANT TO 17 CFR 240.13a-14
PROMULGATED UNDER SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Bruce D. Smith, certify that:

1. I have reviewed this Annual Report on Form 10-K of Citi Trends, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

The 2018 Annual Meeting of Stockholders will be held at 9:00 a.m., EDT on June 6, 2018, at the Embassy Suites - Airport, 145 West Mulberry Boulevard, Savannah, Georgia.

MARKET AND DIVIDEND INFORMATION

Citi Trends' common stock has been quoted on the NASDAQ Global Select Market under the symbol "CTRN" since its initial public offering on May 18, 2005. The following table shows the high and low per share prices of Citi Trends' common stock, as well as dividends paid, for the periods indicated:

Quarter Ended	High	Low	Dividend Per Common Share
April 29, 2017	\$ 19.69	\$ 15.54	\$ 0.06
July 29, 2017	\$ 22.58	\$ 17.34	\$ 0.08
October 28, 2017	\$ 22.63	\$ 17.43	\$ 0.08
February 3, 2018	\$ 28.12	\$ 20.04	\$ 0.08

In August 2015, the Company's Board of Directors approved the initiation of cash dividends at an annual rate of \$0.24 per share. Quarterly dividend payments of \$0.06 per common share were made in March, June, September and December of 2016. Quarterly dividend payments of \$0.06 per common share were made in March and \$0.08 per common share in June, September and December of 2017. Any determination to declare and pay cash dividends in the future (quarterly or otherwise) will be made by the Board of Directors, from time to time, subject to the Company's financial condition, results of operations, business requirements and compliance with legal requirements.

FORWARD-LOOKING STATEMENTS

All statements other than historical facts contained in this annual report, including statements regarding our future financial position, business policy and plans and objectives of management for future operations, are forward-looking statements that are subject to material risks and uncertainties. The words "believe," "may," "could," "estimate," "continue," "anticipate," "intend," "expect" and similar expressions, as they relate to Citi Trends, are intended to identify forward-looking statements, although not all forward-looking statements contain such language. Investors are cautioned that any such forward-looking statements are not guarantees of future performance or results and are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, and that actual results or developments may differ materially from those in the forward-looking statements as a result of various factors which are discussed in Item 1A, Risk Factors, in the Citi Trends, Inc. Annual Report on Form 10-K for the fiscal year ended February 3, 2018, and in other filings that we make with the Securities and Exchange Commission. These risks and uncertainties include, but are not limited to, uncertainties relating to economic conditions, growth risks, consumer spending patterns, competition within the industry, competition in our markets, the ability to anticipate and respond to fashion trends and the outcome of any actions of activist investors. Any forward-looking statements by the Company are intended to speak only as of the date such statements are made. Except as required by applicable law, including the securities laws of the United States and the rules and regulations of the Securities and Exchange Commission, Citi Trends does not undertake to publicly update any forward-looking statements in this annual report or with respect to matters described herein, whether as a result of any new information, future events or otherwise.
