related buying and occupancy
divided by average inventory)

Cash Flow from Operations

†2007 cash flow from operations was \$312. Cash flow from operations was impacted in 2007 by the securitization accounting change and, to a lesser extent, growth in credit accounts receivable. 2007 adjusted cash flow from operations of \$975 is a non-GAAP financial measure and is calculated as follows: cash flow from operations of \$312, plus the impact of \$1,083 related to accounts receivable, and less the impact of \$420 related to the investment in asset-backed securities, both primarily related to the securitization accounting change. We believe that adjusted cash flow from operations is a useful measure for investors to understand the effect of the securitization accounting change in comparing 2007 results to other years. It should not be considered a substitute for cash flow from operations.

DEAR CUSTOMERS, EMPLOYEES AND SHAREHOLDERS,

While 2008 was a challenging year for Nordstrom, we made a number of positive strides and believe the company is well positioned in the marketplace with stores in the best locations across the country. Despite the tough climate, we continued to execute our long-term strategy by staying focused on the quality of our customers' shopping experience, both in our stores and online. Our optimism for growing the company and our multi-channel capabilities remains strong as we continue to strive to gain market share with customers. Throughout the year ahead, we remain committed to a superior customer experience and merchandise offering while continuing our focus on operating an efficient and profitable business.

Eighteen months ago, in fall 2007, we experienced a softening in our top-line sales, causing inventories to outpace our sales. As a management team, we took steps to get our inventories and expenses aligned with our projected sales. We developed alternative plans based on various scenarios to ensure we could react quickly to changing conditions. These steps put the company on solid footing in 2008 and positioned us to respond quickly to the precipitous drop in the economy last October. As market circumstances changed, we responded by realigning inventories and reducing both expenses and capital expenditures once again, which enabled us to manage the business effectively.

Let's review 2008 results, which contained a few bright spots:

- Sales – Our original plan was flat to negative low single digit same-store sales, which was realistic at the beginning of the year. Market conditions changed and we ended the year with a total sales decrease of 6.3% to \$8.3 billion, and a same-store sales decrease of 9.0%.
- SG&A – We cut selling, general and administrative expenses by approximately \$130 million, excluding incremental expenses related to bad debt and new stores. We will continue to rigorously manage expenses while maintaining our focus on the customer's experience at point of sale.
- Earnings – Earnings before interest and taxes (EBIT) were \$779 million, a 37% decrease compared to last year's EBIT of \$1.2 billion.
- Full-line Stores – We opened eight stores in 2008. Our full-line stores experienced a 12.4% same-store sales decrease. While sales were down, our year-end inventory per square foot was aligned with sales, down 12% compared with last year.
- Nordstrom Rack – We opened six Nordstrom Racks in 2008. Our Rack division once again had an outstanding year, achieving a 3.1% same-store sales increase and providing a secondary sales outlet to keep our Nordstrom store inventories fresh.
- Nordstrom Direct – Net sales increased 8.4% in Nordstrom Direct, our online and catalog business. This indicates that many of our customers want to be served through multiple channels and our ability to do this well is contributing to sales growth for the company.

While we certainly weren't satisfied with the overall results, we positioned ourselves well from a financial standpoint to begin the new year and lay groundwork for the future. As we move into 2009, business is and will continue to be challenging. While we don't know how long the current economic downturn will last, we do have a solid strategy in place to navigate these difficult times. We've made great strides to ensure that every dollar spent is meaningful to the customer experience – and we continue to challenge activities that are not. Our strategy addresses four key efforts:

- Strive to improve our customers' service experience.
- Continue to evolve our merchandise offering to meet the changing needs of our customers.
- Deepen the personal relationships with our customers through our multi-channel shopping experience and Nordstrom Fashion Rewards® program.
- Manage the business effectively through an unpredictable environment and emerge stronger.

The cornerstone of our strategy is customer service. Deepening customer relationships is a simple notion that can be hard to master and there is literally no finish line – we can always work to improve. For us to be effective we need to continue doing all we can to serve each customer properly. The relationship our salespeople have with each customer is the heart and soul of our customer service. Our goal is to give our salespeople the tools and freedom they need to develop those relationships. One such vehicle is Personal Book, a dynamic tool at the register that allows salespeople to build and strengthen customer relationships. Among its many features, Personal Book enables salespeople to focus on customer preferences, so they can be more proactive in serving each customer and driving their business.

Second, our merchants continue to adjust inventory levels with a keen eye to brands and price points our customers want. We know customers still desire quality and newness in fashion, yet they are more deliberate with their purchases and place a higher priority on value. Our long-standing tradition of ensuring we have integrity in our pricing, every day of the year, is especially relevant today. We are proud of our buyers' heightened efforts to seek out the best values in the marketplace and to continue to pursue new trends and hot items. We have also done a better job of utilizing Direct-to-Customer shipping, or DTCs, which enables salespeople to meet customer demand in our stores by accessing inventory company-wide.

A third focus of our strategy is to deepen customer relationships through our multi-channel shopping experience and our Nordstrom Fashion Rewards® program. We made substantial strides toward a seamless multi-channel shopping experience in 2008 by adding a new convenience called 'Buy Online, Pick Up In Store.' This service enables customers to buy items online, then pick them up at one of our stores, usually within one hour. Our customers responded well to this convenience and many customers utilized it during the holidays. In addition, we continued to evolve Nordstrom Fashion Rewards, our customer loyalty program. Customers who utilize this program continue to outspend customers not taking advantage of Nordstrom Rewards.

The fourth point of our strategy involves managing our business effectively during this challenging economy. We have made tough decisions in the past year to scale back expenditures where necessary without compromising our approach to customer service. We cut selling, general and administrative expenses by approximately \$130 million, excluding incremental expenses related to bad debt and new stores. We also plan to reduce major store remodels from six per year to two and have postponed several new store openings. We have not cut maintenance capital because it's important that we maintain the look, feel and experience of shopping in our stores. We expect our actions in 2009 related to inventory, expenses, working capital and capital expenditures will allow us to generate positive free cash flow this year and position the company well when the economy recovers.

Our operating margins and low debt ratio put us in the top tier of our industry. We also see benefit in our investment-grade credit ratings which rank higher than the majority of our peers. In addition, we have \$950 million in short-term borrowing facilities, which provides flexibility in managing our business.

We are particularly proud of the over 50,000 Nordstrom employees who are working hard to make business happen. Even in a down economy, we have numerous examples of salespeople exceeding their goals, and going above and beyond to better serve the customer. It's especially important for our people to know that the company values their efforts, welcomes their input and trusts in their ability to make a difference with our customers. If we work collectively as a team, our entrepreneurial spirit and culture of service will help us realize the goals before us. When our salespeople think of Nordstrom as their own business, it's amazing what they can accomplish.

Finally, we are encouraged by the feedback we receive from our customers. We know there are many places where people can shop, so we are especially grateful that they continue to choose Nordstrom.

For us to be effective, we need to continue doing all we can to serve each customer well and find ways to drive top-line sales. We have many bright spots in our business that reaffirm for all of us that we have the right foundation and principles.

On behalf of everyone at Nordstrom, thank you for your continued support.

Sincerely,

Blake W. Nordstrom
President, Nordstrom, Inc.

A NOTE FROM OUR CHAIRMAN

On behalf of the Board of Directors, I am pleased to address all of you, our shareholders, on the progress the company made in 2008, and why we believe Nordstrom is well positioned for 2009 and beyond. As directors, we are committed, along with the management team, to ensuring that the company's reputation, financial position and customer service are maintained at the highest level, and that our people are performing to the best of their ability. Our goal, ultimately, is to serve our shareholders in a manner that warrants your support, trust and continued investment.

Last year at this time, Blake Nordstrom outlined in the annual report Nordstrom's strategy, which comprised: gaining market share by investing in and driving strong performance by existing stores, expanding our presence in the best retail locations around the country, growing our multi-channel business, and investing time and resources in developing leaders. The board gave its full support to this strategy. Even though 2008 sales results fell short of all of our expectations, we believe management made the necessary adjustments during the year to protect the company's interests and to compete in an extremely challenging retail environment. We found ourselves, along with many other businesses, working hard in the fall to adjust to a new sales reality. Throughout the year, the team set inventories appropriately and managed expenses well with an eye toward continuing the quality of Nordstrom customers' shopping experience both in our stores and online.

While we expect times ahead will be turbulent, we believe changes in the marketplace will present opportunities for Nordstrom. During the last several years, we have focused on the company's financial condition in order to ensure that our credit rating and access to capital would provide the advantages necessary to maintain and grow our business. Our investment-grade credit ratings and access to \$950 million in short-term borrowing facilities should position us well, not only for 2009, but also for the foreseeable future. We are encouraged about where the company is positioned in the retail landscape. We also believe the advantages Nordstrom holds in terms of reputation with the customer, the caliber of its employees and management, and its strong performance will allow Nordstrom to gain market share and take advantage of opportunities that may arise during these times, emerging a stronger company.

The Nordstrom Board of Directors, through our Compensation Committee, consistently has sought to maintain a pay-for-performance compensation philosophy. This approach extends from the salespeople who operate on a commission basis through those members of the executive team who are rewarded on an EBIT and Return on Invested Capital basis. These measures are highly correlated with shareholder value and we believe foster outcomes that are in the best interest of our customers and shareholders. Our approach is simple and straightforward and we try to be as transparent as possible with our compensation methodology. Though good governance in and of itself does not dictate or determine shareholder value performance, it is an important aspect of Nordstrom, and one for which we are proud to see the company consistently recognized as exemplary.

We also are proud that the company was recently named to Fortune magazine's "World's Most Admired Companies," ranking 24th globally. Additionally, we are honored to be recognized in Fortune's "100 Best Companies to Work For®" list. Nordstrom is one of only 12 companies to receive this honor every year since Fortune began printing this list in 1998, and one of only five companies to make the list every year since *The 100 Best Companies to Work For®* book was first published in 1984.

While fully aware of the economic circumstances facing our nation and our business, we are well positioned for the coming year and believe the best years for Nordstrom lie ahead. On behalf of the entire Board of Directors, thank you for your continued support.

Enrique Hernandez, Jr.
Chairman

PART I

Item 1. Business.

DESCRIPTION OF BUSINESS

Nordstrom incorporated in the state of Washington in 1946 as the successor to a retail shoe business that started in 1901. We are one of the nation's leading fashion specialty retailers, with 171 U.S. stores located in 28 states as of March 20, 2009. The west coast and east coast are the areas in which we have the largest presence. Nordstrom is comprised of four segments: Retail Stores, Direct, Credit, and Other.

Retail Stores derives its revenues from sales of high-quality apparel, shoes, cosmetics and accessories. It includes our 109 'Nordstrom' full-line stores, 58 off-price 'Nordstrom Rack' stores, two clearance stores that operate under the name 'Last Chance,' and two 'Jeffrey' boutiques. The Nordstrom Rack stores purchase merchandise directly from manufacturers and also serve as outlets for clearance merchandise from our full-line stores.

In 2008, we opened eight full-line stores (Aventura, Florida; Honolulu, Hawaii; Burlington, Massachusetts; Clinton Township, Michigan; Thousand Oaks, California; Indianapolis, Indiana; Pittsburgh, Pennsylvania; and Naples, Florida), relocated one full-line store (Tacoma, Washington) and opened six Rack stores (White Plains, New York; Laguna Hills, California; Naperville, Illinois; Lyndhurst, Ohio; Danvers, Massachusetts; and San Antonio, Texas). To date in 2009, we have relocated one full-line store (Murray, Utah) and opened two new Rack stores (Paramus, New Jersey and Dallas, Texas). During the remainder of 2009, we are scheduled to open three full-line stores (Cherry Hill, New Jersey; Peabody, Massachusetts; and Cincinnati, Ohio) and open eight additional Rack stores (Sandy, Utah; Orland Park, Illinois; East Palo Alto, California; Los Angeles, California; Southlake, Texas; Orlando, Florida; Pasadena, California; and Cincinnati, Ohio). In 2010, we are scheduled to open three full-line stores, relocate one full-line store and open four Rack stores.

Direct generates revenues from sales of high-quality apparel, shoes, cosmetics and accessories by serving our customers on the Internet at www.nordstrom.com and through our catalogs. The Direct segment's sales are primarily shipped via third-party carriers from our fulfillment center in Cedar Rapids, Iowa.

Through our wholly owned federal savings bank, Nordstrom fsb, we offer a private label card, two Nordstrom VISA credit cards and a debit card for Nordstrom purchases. The credit and debit cards feature a shopping-based loyalty program designed to increase customer visits and spending in our Retail Stores and Direct segments. Our **Credit** segment generates income through finance charges and other fees on these cards.

Our **Other** segment includes our product development team, called Nordstrom Product Group, which designs and contracts to manufacture private label merchandise sold in our Retail Stores and Direct. In addition, this segment includes our corporate center operations. During the time that we owned it, this segment also included the operations of our Façonnable business.

For more information about our business and our reportable segments, see Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 15 and Note 15 of the Notes to Consolidated Financial Statements in Item 8.

FISCAL YEAR END

Our fiscal year ends on the Saturday closest to January 31st. References to 2008 relate to the 52-week fiscal year ended January 31, 2009. References to 2007 and 2006 relate to the 52-week fiscal year ended February 2, 2008 and 53-week fiscal year ended February 3, 2007, respectively. Fiscal year 2006 includes an extra week (the 53rd week) as a result of our 4-5-4 retail reporting calendar. References to 2009 relate to the 52-week fiscal year ending January 30, 2010.

TRADEMARKS

We have approximately 139 registered trademarks or trademark applications. Our most notable trademarks include Nordstrom, Nordstrom Rack, John W. Nordstrom, Caslon, and Classiques Entier. Each of our trademarks is renewable indefinitely provided that it is still used in commerce at the time of the renewal.

RETURN POLICY

We offer our customers a fair and liberal return policy at our full-line stores and Nordstrom Direct (online and catalog). Our Nordstrom Rack stores accept returns up to 30 days from the date of purchase. In general, our return policy is somewhat more generous than industry standards. We utilize historical return patterns to estimate our expected returns.

SEASONALITY

Due to our Anniversary Sale in July and the holidays in December, historically, sales are higher for our Retail Stores and Direct in the second and fourth quarters of the fiscal year than in the first and third quarters.

INVENTORY

We plan our merchandise purchases and receipts to coincide with the selling patterns that we expect. For instance, our merchandise purchases and receipts increase prior to our Anniversary Sale, which extends over the last two weeks of July. Also, we purchase and receive a larger amount of merchandise in the fall as we prepare for the holiday shopping season (from late November through early January). We pay for our merchandise purchases under the terms established with our vendors.

In order to offer merchandise that our customers want, we purchase merchandise from a wide variety of high-quality suppliers. We also have arrangements with agents and contract manufacturers to produce our private label merchandise. Our suppliers include domestic and foreign businesses. We expect our suppliers to meet our "Nordstrom Partnership: Standards and Business Practice Guidelines," which address our standards for matters such as law, labor, health and safety, and environment.

COMPETITIVE CONDITIONS

Our business is highly competitive. Each of our stores competes with other national, regional and local retail establishments that may carry similar lines of merchandise, including department stores, specialty stores, boutiques and Internet businesses. Our specific competitors vary from market to market. We believe the principal methods of competing in our industry include customer service, fashion, quality of product, depth of selection, store environment and location.

EMPLOYEES

During 2008, we regularly employed on a full- or part-time basis approximately 51,000 employees. Due to the seasonal nature of our business, employment increased to approximately 54,000 employees in July 2008 and 52,000 in December 2008.

CAUTIONARY STATEMENT

Certain statements in this Annual Report on Form 10-K contain "forward-looking" information (as defined in the Private Securities Litigation Reform Act of 1995) that involve risks and uncertainties, including, but not limited to, anticipated financial results, store openings, capital expenditures and dividend yield, and trends in company operations. Such statements are based upon current beliefs and expectations of the company's management and are subject to significant risks and uncertainties. Actual future results and trends may differ materially from historical results or current expectations depending upon factors including, but not limited to, the impact of deteriorating economic and market conditions and the resultant impact on consumer spending patterns, the company's ability to respond to the business environment and fashion trends, the competitive pricing environment within the retail sector, effective inventory management, the effectiveness of planned advertising, marketing, and promotional campaigns, successful execution of the company's store growth strategy including the timely completion of construction associated with newly planned stores, relocations, and remodels, all of which may be impacted by the financial health of third parties, the company's compliance with applicable banking and related laws and regulations impacting the company's ability to extend credit to its customers, the company's compliance with information security and privacy laws and regulations, employment laws and regulations and other laws and regulations applicable to the company, successful execution of the company's multi-channel strategy, the company's ability to safeguard its brand and reputation, efficient and proper allocation of the company's capital resources, successful execution of the company's technology strategy, trends in personal bankruptcies and bad debt write-offs, availability and cost of credit, changes in interest rates, the company's ability to maintain its relationships with company employees and to effectively train and develop its future leaders, the company's ability to control costs, risks related to fluctuations in world currencies, weather conditions and hazards of nature that affect consumer traffic and consumers' purchasing patterns, and the timing and amounts of any share repurchases by the company.

These and other factors could affect our financial results and cause actual results to differ materially from those contained in any forward-looking statements we may make. As a result, while we believe there is a reasonable basis for the forward-looking statements, you should not place undue reliance on those statements. We undertake no obligation to update or revise any forward-looking statements to reflect subsequent events, new information or future circumstances.

SEC FILINGS

We file annual, quarterly and current reports, proxy statements and other documents with the Securities and Exchange Commission ("SEC"). All material we file with the SEC is publicly available at the SEC's Public Reference Room at 100 F Street, NE, Room 1580, Washington, DC 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. In addition, the SEC maintains an Internet Web site at www.sec.gov that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC.

WEB SITE ACCESS

Our Internet Web site address is www.nordstrom.com. We make available free of charge on or through our Internet Web site our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, statements of changes in beneficial ownership of securities on Form 4 and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after we electronically file the report with or furnish it to the SEC. Interested parties may also access a webcast of quarterly earnings conference calls and other financial events over our Internet Web site.

CORPORATE GOVERNANCE

We have a long-standing commitment to upholding a high level of ethical standards. In addition, as required by the listing standards of the New York Stock Exchange ("NYSE") and the rules of the SEC, we have adopted Codes of Business Conduct and Ethics for our employees, officers and directors ("Codes of Ethics") and Corporate Governance Guidelines. We have posted on our Internet Web site our Codes of Ethics, our Corporate Governance Guidelines, and our Committee Charters for the Audit, Compensation, Corporate Governance and Nominating, Executive, and Finance committees. These items are also available in print to any person, without charge, upon request to:

Nordstrom, Inc. Investor Relations

invrelations@nordstrom.com

Item 1A. Risk Factors.

(Dollars in millions)

Our business faces many risks. We believe the risks described below outline the items of most concern to us. However, these risks are not the only ones we face. Additional risks and uncertainties, not presently known to us or that we currently consider immaterial, may also impair our business operations.

DETERIORATION OF ECONOMIC CONDITIONS

The recent deterioration in economic conditions has hurt our business in several ways. Instability in the stock market, tightening of consumer credit and the recent decline in the housing market in the United States has caused a reduction in consumer spending. This has had a significant negative impact on our revenues. We sell high-quality apparel, shoes, cosmetics and accessories, which many consumers consider to be discretionary items. During economic downturns, fewer customers may shop in our stores and on our Web site, and those who do shop may limit the amount of their purchases, all of which may lead to higher markdowns and increased marketing and promotional spending in response to lower demand. The deterioration of economic conditions has also adversely affected our credit customers' payment patterns and default rates, increasing our bad debt expense. We do not expect that economic conditions are likely to improve significantly in the near future, and a continuation or worsening of the credit crisis, or even the fear of such a development, could continue to harm our business.

ABILITY TO RESPOND TO THE BUSINESS ENVIRONMENT AND FASHION TRENDS

Our ability to predict or respond to changes in fashion trends and consumer preferences quickly, and to match our merchandise mix to consumer tastes, impacts our sales and operating results. If we do not identify and respond to emerging trends in lifestyle and consumer preferences quickly enough, we may be forced to sell our merchandise at higher average markdown levels and lower average margins, which could harm our business. In addition, many factors outside of our control, including consumer confidence, weather and other hazards of nature that affect consumer traffic, and general economic conditions could decrease consumer spending at our stores.

BRAND AND REPUTATION

We have a well-recognized brand that many customers believe offers a high level of customer service and quality merchandise. Any significant damage to our brand or reputation could negatively impact sales, reduce employee morale and productivity, and diminish customer trust, any of which would harm our business.

INVENTORY MANAGEMENT

We strive to ensure the merchandise we offer remains fresh and compelling to our customers. We make decisions regarding inventory purchases well in advance of the season in which it will be sold. If we are not successful at predicting our sales trends and adjusting our purchases, we may have excess inventory, which would result in additional markdowns and reduce our operating performance. This could have an adverse effect on margins and net earnings. Conversely, if we fail to purchase enough merchandise, we may not have an adequate supply of products to meet our customers' demand. This may cause us to lose sales or harm our customer relationships.

CAPITAL MANAGEMENT AND LIQUIDITY

Our goal is to invest capital to maximize our overall long-term returns. This includes spending on inventory, capital projects and expenses, managing debt levels, managing accounts receivable through our credit business and returning value to our shareholders through dividends and share repurchases. To a large degree, capital management and liquidity reflects how well we manage our other key risks. The actions we take to address other specific risks could affect how well we manage the more general risk of capital management and liquidity. If we do not properly allocate our capital to maximize returns, our business may suffer.

IMPACT OF COMPETITIVE MARKET FORCES

The retail industry environment continues to change for many of our vendors and customers. In the future, our competition may partner more effectively with vendors to serve consumers' needs. If we do not effectively respond to changes in our environment, we may see a loss of market share to competitors, declining sales and declining profitability due to higher markdowns.

STORE GROWTH PLAN

Our five-year strategic growth plan includes opening several new full-line and Rack stores, with 28 announced store openings through 2013. We compete with other retailers and businesses for suitable locations for our stores. Local land use and other regulations may impact our ability to find suitable locations. New store openings also involve certain risks, including constructing, furnishing and supplying a store in a timely and cost effective manner and accurately assessing the demographic or retail environment for a particular location. Our future sales at new, relocated or remodeled stores may not meet our projections, which could affect our return on investment. Performance in our new stores could also be negatively impacted if we are unable to hire employees who are able to deliver the level of service our customers have come to expect when shopping in our stores. Our expected opening dates have sometimes been delayed because of developer plan delays. If these developer plan delays continue or worsen, they could have a negative impact on profitability. Our inability to execute our store growth strategy in a way that generates appropriate returns on investment could affect our future growth and profitability.

CONSUMER CREDIT

Our credit card operations drive sales in our stores, allow our stores to avoid third-party transaction fees and generate additional revenues by extending credit. Our credit card revenue is subject to changes in interest rates which fluctuate based on market conditions. The market conditions influencing interest rates are based on economic factors that are beyond our control and include, but are not limited to, recession, inflation, deflation, consumer credit availability, consumer debt levels, tax rates and policy, unemployment trends and other matters that influence consumer confidence and spending. Our ability to extend credit to our customers and to collect payments from them depends on many factors including compliance with applicable laws and regulations, any of which may change from time to time. Changes in credit card use, payment patterns and default rates have resulted from a variety of economic, legal, social and other factors that we cannot control or predict with certainty. Changes that impact our ability to extend credit and collect payments have negatively affected our results and may continue in the future.

AVAILABILITY AND COST OF CREDIT

U.S. and global credit and equity markets have recently undergone significant disruption, making it difficult for many businesses to obtain financing on acceptable terms or at all. As a result of this disruption, we have experienced an increase in the cost of borrowings necessary to operate our business. If these conditions continue or become worse, our cost of borrowing could continue to increase. It may also become more difficult to obtain financing for our operations or to refinance long-term obligations as they become payable. In addition, our borrowing costs can be affected by independent rating agencies' short and long-term debt ratings which are based largely on our performance as measured by credit metrics including interest coverage and leverage ratios. A decrease in these ratings would likely also increase our cost of borrowing and make it more difficult for us to obtain financing. A significant increase in the costs we incur in order to finance our operations may have a material adverse impact on our business results and financial condition.

SUPPLY CHAIN DISRUPTION

We do not own or operate any manufacturing facilities and depend on independent third-parties to manufacture our merchandise. We may experience operational difficulties with our vendors, such as the availability of production capacity, errors in meeting merchandise specifications, insufficient quality control, failures to meet production deadlines or increases in manufacturing costs. A vendor's failure to ship merchandise to us on a timely basis or to meet the required quality standards could cause supply shortages and could result in lost sales. We depend on the orderly operation of the receiving and distribution process, which depends, in turn, on adherence to shipping schedules and effective management of our six distribution centers and our Direct fulfillment center. We believe that our receiving and distribution process is efficient. However, unforeseen disruptions in operations due to fires, hurricanes or other catastrophic events, labor disagreements or shipping problems, may result in delays in the delivery of merchandise to our stores or our customers and could increase our costs. Although we maintain business interruption and property insurance, if any of the distribution centers or our fulfillment center is shut down for any reason, our insurance coverage may not be sufficient or we may not receive insurance proceeds in a timely manner.

RELATIONSHIP WITH VENDORS AND DEVELOPERS

Our relationships with our vendors and developers have been a significant contributor to our past success and our position as a retailer of high-quality and fashion merchandise. Some of our vendors and developers have experienced serious cash flow problems due to the credit market crisis. In addition, the recent economic deterioration has reduced the availability of funds for vendors and developers.

We depend on the work of our developer partners to be able to sustain our store growth plan. In the case of developer delays of shopping center expansion, renovation or construction projects or developer bankruptcies, our expected store openings or remodels could be further delayed or cancelled, and maintenance and leasing at some shopping centers in which we have stores could be adversely affected.

Many of our key vendors limit the number of retail channels they use to sell their merchandise and competition to obtain and sell these goods is intense. Nearly all of the brands of our top vendors are sold by competing retailers, and many of our top vendors also have their own dedicated retail stores. If one or more of our top vendors were to increase sales of merchandise through their own stores or to the stores of our competitors, our business could be adversely affected. We have no guaranteed supply arrangements with our principal merchandising sources. To counteract cash flow problems, our vendors could attempt to increase their prices, pass through increased costs, alter payment terms or seek other relief. Accordingly, there can be no assurance that our vendors will continue to meet our quality, style or volume requirements. Our vendors may be forced to reduce their operations or file for bankruptcy protection, which in some cases would make it difficult for us to serve the market's needs and could have a material adverse effect on our business.

GEOGRAPHIC LOCATION OF STORES

A significant amount of our total sales are derived from stores located on the west and east coasts, particularly California, which increases our dependence on local economic conditions within these states. The success of our credit card business is also highly dependent on our customers' ability to pay and our ability to minimize risk when extending credit to cardholders. Deterioration in economic conditions and consumer confidence within these states has negatively impacted our business, including a reduction in overall sales, reduced gross margins and increased expenses including bad debt expense. These trends could become worse if these factors continue.

LEADERSHIP DEVELOPMENT AND SUCCESSION PLANNING

The training and development of our future leaders is important to our long-term growth. If we do not effectively implement our strategic and business planning processes to train and develop future leaders, our long-term growth may suffer. We rely on the experience of our senior management, who have specific knowledge relating to us and our industry that is difficult to replace. If unexpected leadership turnover occurs without adequate succession plans, the loss of the services of any of these individuals, or any negative perceptions of our business as a result of those losses, could damage our brand image and our business. Our operations could be adversely affected if we cannot attract and retain qualified key personnel.

EMPLOYMENT LAWS AND REGULATIONS

Our policies and procedures are designed to comply with human resource laws, employment laws and discrimination laws set forth by the federal government and in each of the states and municipalities where we do business. Human resource laws include regulations related to wage and hour, meal and rest period, and commissions. Wage and hour laws are complex, and the related enforcement is increasingly aggressive, particularly in the state of California. Employment and discrimination laws continue to evolve, making ongoing compliance in this area a challenge. Failure to comply with these laws may result in damage to our reputation, class action lawsuits, legal and settlement costs, disruption of our business, and loss of customers and employees, which would result in a loss of sales, increased employment costs, low employee morale, and harm to our business and results of operations.

INFORMATION SECURITY AND PRIVACY

The protection of our customer, employee and company data is important to us. The regulatory environment surrounding information security and privacy is increasingly demanding, with new and constantly changing requirements across our business units. In addition, our customers have a high expectation that we will adequately protect their personal information. A significant breach of customer, employee or company data could damage our reputation and result in lost sales, fines and lawsuits.

INFORMATION TECHNOLOGY STRATEGY

We make investments in information technology to sustain our competitive position. For 2009, we expect to spend approximately \$155 on information technology operations and system development, which is key to our growth. We must monitor and choose the right investments and implement them at the right pace. Targeting the wrong opportunities, failing to make the best investments, or making an investment commitment significantly above or below our needs may result in the loss of our competitive position. In addition, if we do not maintain our current systems we may see interruptions to our business and increase our costs in order to bring our systems up to date.

We may implement too much technology, or change too fast, which could result in failure to adopt the new technology if we are not ready or capable of accepting it. Excessive technological change impacts the effectiveness of adoption, and could make it more difficult for us to realize benefits from the technology. However, not implementing new technologies can also compromise our competitive position. If we are unable to strike the appropriate balance in the pace of our adoption of new technology, our business may suffer.

REGULATORY COMPLIANCE

Our policies and procedures are designed to comply with all applicable laws and regulations, including those imposed by the SEC, NYSE, the banking industry and foreign countries. Additional legal and regulatory requirements and the fact that foreign laws occasionally conflict with domestic laws, have increased the complexity of the regulatory environment and the cost of compliance. Failure to comply with the various regulations may result in damage to our reputation, civil and criminal liability, fines and penalties, increased cost of regulatory compliance and restatements of our financial statements.

MULTI-CHANNEL STRATEGY EXECUTION

Over the past several years, we have made changes in our Direct business that better align our online shopping environment with the customer experience in our full-line stores. These changes included: aligning our Direct merchandise offering with our full-line stores to create a seamless experience for our customers between our stores and Web site, linking the full-line stores and Direct merchandise organizations; reducing the number and frequency of our Direct catalog mailings; and transitioning our Direct inventory system onto our full-line store platform. Our inability to continue to successfully execute this strategy could impact our future operating performance.

SEASONALITY

Our business is seasonal in nature. Due to our Anniversary Sale in July and the holidays in December, sales are higher for our Retail Stores and Direct segment in the second and fourth quarters of the fiscal year than in the first and third quarters. Accordingly, our results may vary considerably from quarter to quarter. In addition, we have significant additional cash requirements in the period leading up to the months of November and December in anticipation of higher sales volume in those months, including expenses for additional inventory, advertising and employees.

FOREIGN CURRENCY

We purchase a portion of our inventory from foreign suppliers whose cost to us is affected by fluctuations of their local currency against the U.S. dollar or who price their merchandise in currencies other than the U.S. dollar. We purchase goods from many countries and are affected by changes in numerous currencies as well as fluctuations in the U.S. dollar relative to foreign currencies. Changes in the value of the U.S. dollar relative to foreign currencies may increase our cost of goods sold, and if we are unable to pass these cost increases on to our customers, our gross margins, and ultimately our earnings, would decrease. Foreign currency fluctuations could have a material adverse effect on our business, financial condition and results of operations in the future.

ANTI-TAKEOVER PROVISIONS

We are incorporated in the state of Washington and subject to Washington state law. Some provisions of Washington state law could interfere with or restrict takeover bids or other change-in-control events affecting us. For example, one provision prohibits us, except under specified circumstances, from engaging in any significant business transaction with any shareholder who owns 10% or more of our common stock (an "acquiring person") for a period of five years following the time that the shareholder became an acquiring person.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties.

The following table summarizes the number of retail stores owned or leased by us, and the percentage of total store square footage represented by each listed category at January 31, 2009:

	Number of Stores	% of total store square footage
Owned stores on owned land	33	24.0%
Owned on leased land	56	47.1%
Leased stores	79	28.1%
Partly owned and partly leased	1	0.8%
Total	169	100.0%

We also own six merchandise distribution centers, located in Portland, Oregon; Dubuque, Iowa; Ontario, California; Newark, California; Upper Marlboro, Maryland; and Gainesville, Florida, which are utilized by the Retail Stores segment. The Direct segment utilizes one fulfillment center in Cedar Rapids, Iowa, which is owned on leased land. Our administrative offices in Seattle, Washington are a combination of leased and owned space. We also lease an office building in the Denver, Colorado metropolitan area that serves as an office of Nordstrom fsb and Nordstrom Credit, Inc.

The following table lists our retail store facilities as of January 31, 2009:

¹This store has been subsequently relocated.

To date in 2009, we have relocated one full-line store and opened two new Rack stores. During the remainder of 2009, we are scheduled to open three full-line stores and eight additional Rack stores. In 2010, we are scheduled to open three new full-line stores and four Rack stores.

Item 3. Legal Proceedings.

We are involved in routine claims, proceedings and litigation arising from the normal course of our business. We do not believe any such claim, proceeding or litigation, either alone or in aggregate, will have a material impact on our financial condition, results of operations or cash flows.

Item 4. Submission of Matters to a Vote of Security Holders.

None.

PART II

Item 5. Market for Registrant's Common Equity, Related Shareholder Matters and Issuer Purchases of Equity Securities.

MARKET, SHAREHOLDER AND DIVIDEND INFORMATION

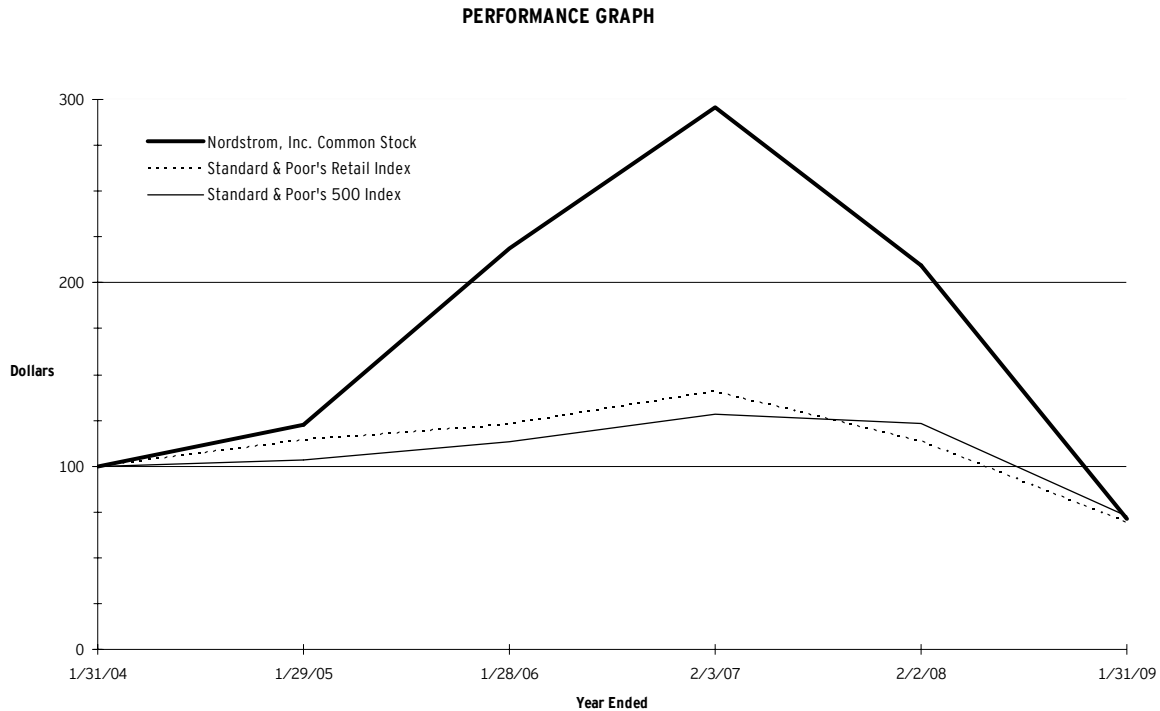

Our common stock, without par value, is traded on the New York Stock Exchange under the symbol "JWN." The approximate number of holders of common stock as of March 11, 2009 was 103,543, based upon the number of registered and beneficial shareholders, as well as the number of employee shareholders in the Nordstrom 401(k) Plan and Profit Sharing Plan. On this date we had 215,485,680 shares of common stock outstanding.

The high and low sales prices of our common stock and dividends declared for each quarter of 2008 and 2007 are presented in the table below:

	Common Stock Price				Dividends per Share	
	2008		2007		2008	2007
	High	Low	High	Low		
1st Quarter	\$40.59	\$30.72	\$59.70	\$49.35	\$0.16	\$0.135
2nd Quarter	\$38.65	\$25.67	\$56.00	\$42.70	\$0.16	\$0.135
3rd Quarter	\$37.00	\$13.66	\$53.47	\$36.12	\$0.16	\$0.135
4th Quarter	\$18.17	\$6.61	\$39.95	\$28.00	\$0.16	\$0.135
Full Year	\$40.59	\$6.61	\$59.70	\$28.00	\$0.64	\$0.54

STOCK PRICE PERFORMANCE

The following graph compares, for each of the last five fiscal years ending January 31, 2009, the cumulative total return of Nordstrom, Inc. common stock, Standard & Poor's 500 Index and Standard & Poor's Retail Index. The Retail Index is comprised of 27 retail companies, including Nordstrom, Inc., representing an industry group of the Standard & Poor's 500 Index. The cumulative total return of Nordstrom, Inc. common stock assumes \$100 invested on January 31, 2004 in Nordstrom, Inc. common stock and assumes reinvestment of dividends.

End of fiscal year:	2003	2004	2005	2006	2007	2008
Standard & Poor's 500 Index	100	104	113	128	123	73
Standard & Poor's Retail Index	100	114	123	140	113	69
Nordstrom, Inc. common stock	100	122	219	296	209	72

Item 6. Selected Financial Data.

(Dollars in millions except sales per square foot and per share amounts)

The following selected financial data are derived from the audited Consolidated Financial Statements and should be read in conjunction with Item 1A "Risk Factors," Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations," and the Consolidated Financial Statements and related notes included in Item 8 of this Annual Report on Form 10-K.

Fiscal year	2008	2007 ⁶	2006	2005	2004

¹Same-stores include stores that have been open at least one full year at the beginning of the year and merchandise sales from our Direct segment. Fiscal year 2006 includes an extra week (the 53rd week) as a result of our 4-5-4 retail reporting calendar. The 53rd week is not included in same-store sales calculations.

²As described in Note 1 of the Notes to Consolidated Financial Statements in Item 8, we have reclassified credit card revenues and selling, general and administrative expenses for our credit segment in our consolidated statements of earnings to more clearly present our credit card business. Credit card revenues include finance charges, late and other fees generated by our combined Nordstrom private label card and Nordstrom VISA credit card programs, and interchange fees generated by the use of Nordstrom VISA cards at third-party merchants. These revenues were previously included in finance charges and other, net in our consolidated statement of earnings. Selling, general and administrative expenses for our credit segment consist of operational and marketing costs incurred to support and service our credit card programs and bad debt expense, and were previously included in total selling, general and administrative expenses in our consolidated statements of earnings.

³Gross profit is calculated as net sales less cost of sales and related buying and occupancy costs (for all segments).

⁴Gross profit and selling, general and administrative rates are calculated as a percentage of net sales.

⁵Sales per square foot is calculated as net sales for all of our segments divided by weighted average square footage.

⁶During the third quarter of 2007, we completed the sale of our Façonnable business and realized a gain on sale of \$34 (\$21, net of tax). Results of operations for fiscal year 2007 include the international Façonnable boutiques through August 31, 2007 and the domestic Façonnable boutiques through October 31, 2007. Prior to the sale, the domestic Façonnable boutiques were included in "Rack and other stores."

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

(Dollar, share and square footage amounts in millions except percentages, per share and per square foot amounts)

Nordstrom is a fashion specialty retailer offering high-quality apparel, shoes, cosmetics and accessories for women, men and children. We offer a wide selection of brand name and private label merchandise. We offer our products through multiple channels including full-line 'Nordstrom' stores, off-price 'Nordstrom Rack' stores, 'Jeffrey' boutiques, catalogs and on the Internet at www.nordstrom.com. Our stores are located throughout the United States. In addition, we offer our customers a variety of payment products and services including our loyalty program.

As a multi-channel retailer, we believe we are well positioned to respond to evolving customer needs and expectations. Our goal is to offer knowledgeable, friendly and welcoming service in our stores, online, and through our credit business with an integrated offering and consistent experience. Our salespeople are focused on building deeper relationships with our customers through their product knowledge and ability to offer solutions which save the customer's time. We continue to strive to serve our customers better, using resources such as Personal Book, Fashion Rewards and the ability for our salespeople to seamlessly find inventory anywhere in the company. In 2008, we launched the "Buy Online, Pick Up in Store" service, which allows customers to purchase online, then pick up their item at a Nordstrom store on the same day. We want to create value for our customers through our seamless and unique shopping experience.

We've found that there's a great deal of opportunity to grow our sales in existing stores simply by earning a greater share of our customers' business across multiple product categories. We use customer research to better serve our customers' needs and wants, whether it is a new wardrobe of great foundation pieces or an updated item to enhance their current attire. Our customer still wants newness, fashion, quality and brands. Our goal is to provide all of these items, with a best-in-market selection of versatile and compelling fashion brands. Over the course of 2008, it became clear that value and price sensitivity are important factors to our customers. With a broad merchandise offering, we can adjust our mix without changing who we are or how we are positioned in the market. Our merchants are working hard with our vendors to provide the right balance of quality, value and price points to our customers.

RESULTS OF OPERATIONS

2008 Overview

The business environment during 2008 was both challenging and volatile. The first half of the year was relatively stable with quarterly same-store sales decreasing between 6.0% and 6.5%. The second half of 2008 was more volatile as consumers reduced their discretionary spending due to economic concerns and uncertainty, and retailers struggled to align their businesses with significantly lower levels of demand. As a result, our quarterly same-store sales in the second half of 2008 declined between 11.1% and 12.5% and our gross profit was negatively impacted. In response, we needed to make tough choices in the near term while remaining true to our long-term strategy. Even in a challenging and uncertain economy, our strategy remains unchanged in its focus on customers and building strong relationships with them. We strive to provide superior service and compelling merchandise within existing product categories in an effort to grow our share of business with core customers. While the conditions in 2008 required that we significantly reduce expenses, inventory and planned capital expenditures, we believe we have done so while preserving our standards of service, product and shopping experience.

Our variable cost business model provides flexibility that helps mitigate the impact of slower sales trends on profit margins and cash flows. While we believe our model adjusts well to changing market trends, we took additional actions on expenses, working capital and planned capital expenditures to further mitigate operating margin pressure, improve operating cash flow and maintain a healthy balance sheet. We ended the fiscal year with inventory levels aligned with current sales trends. We followed a disciplined approach to finding and executing expense reduction opportunities and will continue these efforts through 2009. Given the current economic conditions, our capital expenditures in 2009 will be significantly reduced compared to our plan last year. These changes include reducing the number of major full-line store remodels from approximately six per year to approximately two per year. Additionally, the economic environment has affected our real estate development partners, who have delayed or canceled several of our planned new full-line stores. We are continuously monitoring our capital expenditure plans as economic conditions change. Although we have reduced our planned capital expenditures overall, we did not reduce our maintenance expenditures budget, as it is important that we maintain the look, feel and experience of shopping in our stores. Overall, we believe we are well positioned to weather the economic downturn, while maintaining an unwavering focus on our customers and positioning the company for the future.

Full year earnings before income taxes ("EBT") decreased \$525 from \$1,173 in 2007 to \$648 in 2008. The Retail Stores, Direct and Other segments produced \$491 of this decrease due to lower sales and increased markdowns, partially offset by decreased variable costs and savings in fixed expenses. Our Credit segment contributed \$34 of the decline in EBT, as our credit card yields were negatively impacted by higher bad debt expense and lower interest rates.

As described in Note 1 of the Notes to Consolidated Financial Statements in Item 8, we have reclassified credit card revenues and expenses in our consolidated statements of earnings to more clearly present our credit card business. Credit card revenues include finance charges, late and other fees generated by our combined Nordstrom private label card and Nordstrom VISA credit card programs, and interchange fees generated by the use of Nordstrom VISA cards at third-party merchants. These revenues were previously included in finance charges and other, net in our consolidated statement of earnings. Selling, general and administrative expenses for our credit segment consist of operational and marketing costs incurred to support and service our credit card programs and bad debt expense, and were previously included in total selling, general and administrative expenses in our consolidated statements of earnings.

Retail Stores, Direct and Other Segments

Summary

Fiscal year	2008	2007	2006
Net sales	\$8,272	\$8,828	\$8,561
Cost of sales and related buying and occupancy costs	(5,367)	(5,479)	(5,316)
Gross profit ¹	2,905	3,349	3,245
Selling, general and administrative expenses	(2,111)	(2,183)	(2,205)
% of net sales:			
Cost of sales and related buying and occupancy costs	64.9%	62.1%	62.1%
Gross profit	35.1%	37.9%	37.9%
Selling, general and administrative expenses	25.5%	24.7%	25.8%

¹Gross profit is calculated as net sales less Retail Stores, Direct and Other segment cost of sales and related buying and occupancy costs.

Other	3%	2%	3%
Total	100%	100%	100%

2008 VS 2007 NET SALES

Net sales declined 6.3% in 2008 compared to 2007. The decrease was due to same-store sales declines in our full-line stores, partially offset by increases in same-store sales for Rack and Direct, as well as new store openings.

Same-store sales for our full-line stores decreased 12.4% compared to the same period last year. The largest same-store sales decreases came in women's apparel and men's apparel. Women's apparel continues to experience a market-wide downturn and we have seen a decline in men's apparel correspond to the economic downturn, particularly during the fourth quarter. Regionally, business trends were most challenging in markets undergoing the largest housing price corrections. California was the most challenging region throughout 2008, with same-store sales below the full-line store average. All other regions were above the same-store sales average for full-line stores.

Our Rack channel had its seventh consecutive year of positive sales growth with a same-store sales increase of 3.1% for the year. Rack purchases merchandise from third parties and also serves as a clearance channel for our full-line stores. The accessories and men's apparel categories drove this growth. Designer handbags led accessories and premium denim led men's apparel. All regions contributed to the positive same-store sales results.

Our Direct channel net sales increased 8.4% for the year, with results driven by accessories, women's apparel and kids' merchandise categories. The growth in our Direct business was driven by our efforts to better align our merchandise offering and experience with our full-line stores. Our new "Buy Online, Pick Up in Store" service proved to be a convenient and valued service for our customers over the holiday gift-giving season.

During 2008 we opened eight new full-line and six new Rack stores. These new stores represent 3.3% of our total net sales for fiscal 2008, and increased our gross square footage by 6.7% during 2008.

2007 VS 2006 NET SALES

Total net sales increased 3.1% as a result of same-store sales increases as well as from the three full-line stores and one Rack store opened during fiscal 2007. The 2006 fiscal calendar had 53 weeks compared to our normal operating calendar of 52 weeks. In the 53rd week of 2006, we had sales of \$118. Excluding the extra week of sales in fiscal 2006, total sales increased 4.6% in fiscal year 2007. The 53rd week is not included in same-store sales calculations.

Our full-line stores had a 2.5% same-store sales increase in 2007, on top of a 5.9% increase in 2006. The Midwest, South and Northwest were our strongest performing regions during 2007. By category, our largest same-store sales increases came from our designer apparel, women's accessories and men's apparel categories. Designer apparel offers fashion-forward and aspirational products, and customer demand for these products was strong. Women's accessories benefited from increased sales of handbags and fashion jewelry. The increase in men's apparel was in part due to growth in our younger contemporary offering.

Our Rack same-store sales increased 8.7% in 2007, following a 10.9% increase in 2006. The sales growth came from all regions and merchandise categories. Same-store sales were consistent across all regions, which showed high single-digit increases. The largest same-store sales increases were in accessories and men's apparel. High performance bodywear, watches and sunglasses led the accessories category. The men's increase reflects sales from premium denim, suits and dress shirts.

Nordstrom Direct's 2007 total net sales increased 17.9% to \$644. The growth in our Direct business was driven by our efforts to better align our online shopping environment with the customer experience in our full-line stores. This includes aligning our merchandise offering with the full-line stores to create a seamless experience for customers.

During 2007 we opened three new full-line stores and one new Rack store. These new stores represent 1.0% of our total net sales for fiscal 2007, and increased our gross square footage by 2.6% during 2007.

2009 FORECAST OF SAME-STORE SALES

As of March 20, 2009, we have relocated one full-line store and opened two new Rack stores. In total, we plan to open three new full-line stores and eight additional Rack stores during the year. This will increase retail square footage by approximately 3.7%. We expect 2009 same-store sales to decrease approximately 10% to 15%. Based on the pace of business in 2008, same-store sales in the first half of 2009 are expected to be 300 to 400 basis points lower than the projected annual rate.

Gross Profit

Fiscal year	2008	2007	2006
Gross profit ¹	\$2,905	\$3,349	\$3,245
Gross profit rate ²	35.1%	37.9%	37.9%
Average inventory per square foot	\$49.00	\$52.70	\$52.37
Inventory turnover rate ³	5.20	5.16	5.06

¹Gross profit is calculated as net sales less Retail Stores, Direct and Other segment cost of sales and related buying and occupancy costs.

²Gross profit rate is calculated as gross profit divided by net sales.

³Inventory turnover rate is calculated as annual cost of sales and related buying and occupancy costs (for all segments) divided by 5-quarter average inventory.

2008 VS 2007 GROSS PROFIT

Gross profit dollars decreased \$444 from last year while our gross profit rate declined 280 basis points. Our gross profit rate is made up of both merchandise margin rates and buying and occupancy cost rate. The deterioration for the year was driven primarily by a decrease in our merchandise margin rate as we utilized markdowns to respond to slower sales and a more competitive environment. All major merchandise categories at our full-line stores contributed to this decrease. Our buying and occupancy costs as a percentage of sales increased 76 basis points as many of these costs are fixed relative to the sales decline.

Our average inventory turnover improved slightly over last year while our average inventory per square foot decreased 7.0% compared to the prior year. Our merchants' efforts to align inventory levels to lower demand resulted in the improvement in our inventory turnover rate and our lower inventory per square foot. Our objective is to match the change in inventory per square foot, which declined 7.0% on average, with our same-store sales rate, which declined 9.0% for the year.

2007 VS 2006 GROSS PROFIT

Our gross profit rate in 2007 was consistent with 2006. During 2007 we experienced increasing inventory levels coupled with slower sales trends. To realign our inventory levels, we took higher markdowns during the last half of the year. The increase in markdowns was offset by a decrease in our buying and occupancy costs, which declined due to lower performance-based incentives and from the sale of our Façonnable business in 2007.

The increase in our average inventory per square foot in 2007 compared with 2006 supported the growth of our designer business in apparel, accessories and shoes. Although we encountered softer sales trends during the latter half of 2007, inventory discipline and growth in sales throughout the year resulted in improvement in our inventory turnover rate, which increased 1.9%.

2009 FORECAST OF GROSS PROFIT

In 2009, we expect a 150 to 250 basis point decrease in our gross profit rate. Although we begin 2009 with a good inventory position, we expect continued gross margin pressure as a result of competitive pressure and lower levels of customer demand. We will also incur additional occupancy expense for the three new full-line stores and ten new Rack stores in 2009.

Selling, General and Administrative Expenses

<u>Fiscal year</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>
Selling, general and administrative expenses	\$2,111	\$2,183	\$2,205
Selling, general and administrative rate ¹	25.5%	24.7%	25.8%

¹Selling, general and administrative rate is calculated as selling, general and administrative expenses for our Retail Stores, Direct and Other segments as a percentage of net sales.

2008 VS 2007 SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Our selling, general and administrative expenses decreased \$72 due to lower variable expenses as well as costs savings resulting from our focus on controlling fixed expenses, partially offset by the additional expenses related to our new stores. During 2008, we opened eight new full-line stores and six new Rack stores, which contributed \$72 of additional expenses.

Our selling, general and administrative expenses as a percentage of net sales increased 79 basis points. The increase as a percentage of net sales was due to the fixed nature of many of our selling, general and administrative expenses and the impact of declining sales.

2007 VS 2006 SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses were relatively flat in 2007 compared with 2006. The decrease in selling, general and administrative expenses as a percentage of net sales was primarily due to decreases in our incentive costs tied to company performance.

2009 FORECAST OF SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

In 2009, our selling, general and administrative dollars are expected to decrease \$85 to \$175, dependent on our sales performance in 2009. We anticipate our variable expense model to continue to adjust to sales trends. Additionally, continuing to manage headcount to our business, as well as targeted reductions in merit-based salary awards, discretionary spending and marketing and technology will reduce our fixed expenses. We expect \$42 of additional selling, general and administrative expenses from new stores, which will partially offset the reduction in fixed and variable expenses.

We expect our selling, general and administrative expenses as a percentage of net sales to be slightly higher in 2009 compared with 2008, due to the fixed nature of many of these expenses in relation to our expected decline in net sales.

Gain on Sale of Façonnable

During the third quarter of 2007, we completed the sale of the Façonnable business in exchange for cash of \$216, net of transaction costs, and realized a gain on sale of \$34. The impact to reported earnings per diluted share for the year was \$0.09, net of tax of \$13.

Credit Segment

The Nordstrom Credit card products are designed to grow retail sales and customer relationships by providing superior payment products, services and loyalty benefits. We believe that owning our credit card business allows us to fully integrate our rewards program with our retail stores and provide superior service and experience to our customers, thus deepening our relationship with customers and driving higher levels of long-term customer loyalty. Each card enables participation in the Nordstrom Fashion Rewards® program, through which the customer accumulates points based on their level of spending (two points per dollar spent at Nordstrom and one point per dollar spent outside of Nordstrom stores). Upon reaching two thousand points, customers receive twenty dollars in Nordstrom Notes®, which can be redeemed for goods or services in our stores. As customers increase their level of spending they receive additional benefits, including rewards such as complimentary shipping and alterations in our retail stores. We believe the Fashion Rewards program, including these additional rewards, drives sales in our Retail Stores and Direct segments.

The table below illustrates a detailed view of the operational results of our Credit segment, consistent with the segment disclosure provided in the notes to the consolidated financial statements. In order to view the total economic contribution of our credit card program, the following items are also included in the table below:

- During 2007, we combined our Nordstrom private label credit card and Nordstrom VISA credit card programs into one securitization program. At this time the Nordstrom VISA credit card receivables were brought on-balance sheet. While the underlying economics of the business did not change (Nordstrom has always owned 100% of its Credit segment), the accounting for this business segment did change. For comparability between years, **off-balance sheet income (expense), net** (credit card revenues, net of bad debt and interest expense) is shown to mitigate the impact of the change in accounting.
- **Intercompany merchant fees** represents the estimated intercompany income of our credit business from the usage of our cards in the Retail Stores and Direct segments. To encourage the use of Nordstrom cards in our stores, the Credit segment does not charge the Retail Stores and Direct segments an interchange merchant fee. On a consolidated basis, we avoid these costs which would be incurred if our customers used third-party cards.

Fiscal year	2008	2007	2006
Finance charge revenue	\$215	\$194	\$96
Late fees and other revenue	18	12	9
Interchange	69	47	-
Total credit card revenues	302	253	105
Interest expense	(50)	(64)	(37)
Net credit card income	252	189	68
Cost of sales – loyalty program	(50)	(47)	(38)
Selling, general and administrative expenses ¹	(275)	(198)	(92)
Total expense	(325)	(245)	(130)
Other income and expense, net ¹	1	18	109
Credit card (charge) contribution to earnings before income tax expense, as presented in segment disclosure	(72)	(38)	47
Off-balance sheet income (expense), net ²	-	9	(6)
Intercompany merchant fees	48	48	43
Total credit card (charge) contribution	\$(24)	\$19	\$84
Average accounts receivable investment (assuming 80% of accounts receivable is funded with debt)	\$382	\$332	\$283
Credit card (charge) contribution, net of tax, as a percentage of average accounts receivable investment	(3.9%)	3.5%	18.1%

¹In 2007, the one-time transitional charge-offs on the Nordstrom VISA receivables of \$21 are included in other income and expense, net on our consolidated statement of earnings. In the above disclosure this amount is included in selling, general and administrative expenses. These charge-offs represent actual write-offs on the Nordstrom VISA credit card portfolio during the eight-month transitional period.

²Includes off-balance sheet finance charges and other income of \$22 in 2007 and \$37 in 2006, off-balance sheet interest expense of \$6 in 2007 and \$21 in 2006, and off-balance sheet bad debt expense of \$7 in 2007 and \$22 in 2006.

CREDIT CARD REVENUES

Credit card revenues include finance charges, late and other fees, and interchange fees. The majority of our credit accounts have finance charge rates that vary with changes in the prime rate. Interchange fees are earned from the use of Nordstrom VISA cards at merchants outside of Nordstrom.

Credit card revenues increased from \$253 in 2007 to \$302 in 2008 in part due to the Nordstrom VISA portfolio being on-balance sheet for a full year in fiscal 2008 compared to only three quarters in fiscal 2007, as well as overall portfolio growth. During the first three quarters of fiscal 2008, the positive impact we saw on finance charge revenue as a result of portfolio growth was partially offset by a significant reduction in the average prime rate as most of our Nordstrom private label and VISA cards have annual percentage rate terms that are tied to the prime rate. However, during the fourth quarter of 2008, finance charge revenues improved slightly due to a change in our credit card pricing terms effective November 15, 2008.

The increase in credit card revenues from \$105 in 2006 to \$253 in 2007 is due to bringing the Nordstrom VISA portfolio on-balance sheet as of May 1, 2007, as well as portfolio growth year over year.

INTEREST EXPENSE

Interest is assigned to the Credit segment proportionate to the amount of debt estimated to fund our credit card receivables, which assumes a mix of 80% debt and 20% equity. The average accounts receivable investment metric included in the table on the previous page represents our best estimate of the amount of capital for our credit card program that is financed by equity. As a means of assigning comparable cost of capital for our credit card business, we believe it is important to maintain a capital structure similar to other financial institutions. Based on our research, we have found that debt as a percentage of credit card receivables for other credit card companies ranges from 70% to 90%. We believe that debt equal to 80% of our credit card receivables is appropriate given our overall capital structure goals.

Interest expense decreased to \$50 in 2008 from \$64 in 2007 due to declining variable interest rates, partially offset by higher average borrowings. Interest expense increased in 2007 compared to 2006 due to higher variable interest rates and higher average borrowings due to bringing the Nordstrom VISA portfolio on-balance sheet as well as year over year portfolio growth.

COST OF SALES

Cost of sales includes the estimated cost of Nordstrom Notes that will be issued and redeemed under the rewards program. The increase in cost of sales expense in 2007 compared with 2006 was due to growth in volume.

CREDIT SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses for our credit segment are made up of bad debt and operational and marketing expenses, which are summarized in the following table:

Fiscal year	2008	2007	2006
Bad debt expense ¹	\$173	\$107	\$17
Operational and marketing expense	102	91	75
Total credit selling, general and administrative expense	\$275	\$198	\$92

¹In 2007, the one-time transitional charge-offs on the Nordstrom VISA receivables of \$21 are included in other income and expense, net on our consolidated statement of earnings. In the above disclosure this amount is included in bad debt expense. These charge-offs represent actual write-offs on the Nordstrom VISA credit card portfolio during the eight-month transitional period.

Bad Debt Expense

Bad debt expense increased to \$173 in 2008 from \$107 in 2007 due to increased delinquencies and write-offs reflecting current consumer credit trends, as well as reserves for higher projected losses inherent in the receivables portfolio as of January 31, 2009. Overall, we believe our credit card portfolio remains high quality compared with the credit card industry as a whole, with customers considered to have prime or better credit scores making up approximately 90% of total spending on our credit cards in 2008. While our delinquency and write-off rates have been negatively impacted by the current economic conditions, our rates remain relatively low when compared to the credit card industry average.

The following table illustrates the allowance for doubtful accounts activity for the past three fiscal years:

Fiscal year	2008	2007	2006
Allowance at beginning of period	\$73	\$17	\$18
Bad debt provision ¹	173	86	17
Net write-offs (on-balance sheet)	(108)	(30)	(18)
Allowance at end of period	\$138	\$73	\$17
Allowance as a percentage of on-balance sheet accounts receivable	6.8%	4.1%	2.7%
Bad debt provision as a percentage of average on-balance sheet accounts receivable	9.1%	5.8%	2.8%
Net write-offs as a percentage of average receivables ²	5.6%	3.5%	2.5%

¹In 2007, the one-time transitional charge-offs on the Nordstrom VISA receivables of \$21 are included in bad debt expense in the selling, general and administrative expenses table above. These charge-offs represent actual write-offs on the Nordstrom VISA credit card portfolio during the eight-month transitional period and are not included in the allowance for doubtful accounts activity in the table above for 2007.

²Calculated as net write-offs for the combined Nordstrom private label and Nordstrom VISA portfolio as a percentage of average receivables, including average off-balance sheet receivables in 2007 and 2006 of \$182 and \$816, respectively.

Operational and Marketing Expense

Operational and marketing expenses are incurred to support and service our credit card products and are included in selling, general and administrative expenses in the consolidated statement of earnings. Operational and marketing expense increased from \$91 in 2007 to \$102 in 2008 primarily due to additional marketing expenses as a result of an increase in promotions related to our loyalty program in 2008. The increase in 2007 compared with 2006 was due to the launch of the Fashion Rewards program in 2007.

OTHER INCOME AND EXPENSE, NET

During 2006 and the first quarter of 2007, other income and expense, net included income related to our retained interest in the Nordstrom VISA receivables, which was held in an off-balance sheet trust during these periods. The decline in other income and expense, net from \$109 in 2006 to \$18 in 2007 is due to bringing the Nordstrom VISA credit card receivables on-balance sheet as of May 1, 2007. Prior to this date, income and expenses related to the Nordstrom VISA portfolio were recorded net and included in other income and expense, net. After this date, credit card revenues, as well as bad debt and interest expense are recorded in the respective line items in our consolidated statement of earnings.

2009 FORECAST OF CREDIT CARD REVENUES AND SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

In 2009, credit card revenues are expected to increase \$50 to \$55 due primarily to the changes in our credit card pricing terms which were effective November 15, 2008. We anticipate selling, general and administrative expense dollars for our credit segment to be approximately flat to down \$15 compared to 2008. In fiscal 2008, the rapid economic deterioration in the fourth quarter led to increased bad debt expense as we increased our reserves in response to anticipated higher delinquencies.

Total Company Results

Interest Expense, Net

Fiscal year	2008	2007	2006
Interest expense, net	\$131	\$74	\$43

2008 VS 2007 INTEREST EXPENSE, NET

Interest expense, net increased \$57 in 2008 compared with 2007 due to higher average debt levels resulting from the \$1,000 debt offering in the fourth quarter of 2007, as well as the \$850 securitization transaction in May 2007.

2007 VS 2006 INTEREST EXPENSE, NET

We experienced higher interest expense, net, of \$74 in 2007 due to higher average debt levels resulting from the issuance of \$850 in secured notes in May 2007 and our \$1,000 debt offering during the fourth quarter of 2007.

2009 FORECAST OF INTEREST EXPENSE, NET

We anticipate interest expense, net to increase by \$20 to \$25 due to the higher cost of debt and higher average debt levels. Additional information about our interest expense and our fixed and variable rate debt is included in Quantitative and Qualitative Disclosures About Market Risk included as Item 7A of this Form 10-K.

Income Tax Expense

Fiscal year	2008	2007	2006
Income tax expense	\$247	\$458	\$428
Effective tax rate	38.1%	39.0%	38.7%

2008 VS 2007 INCOME TAX EXPENSE

The decline in income tax expense for the year correlates to the decline in earnings before income taxes. Our effective tax rate decreased to 38.1% for fiscal 2008 due to a change in our deferred tax assets primarily driven by the closure of several tax years under audit, partially offset by a permanent item related to investment valuation. The net impact of these items increased earnings per diluted share by \$0.04.

2007 VS 2006 INCOME TAX EXPENSE

Our effective tax rate in 2007 increased from the 2006 rate because of the impact of Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* ("FIN 48") and changes in our estimates of the carrying value of our deferred tax assets.

2009 FORECAST OF INCOME TAX EXPENSE

In 2009, considering the unfavorable impact of anticipated lower sales, we expect our effective tax rate to be between 39.4% and 39.7%.

Net Earnings and Earnings per Diluted Share

Fiscal year	2008	2007	2006
Net earnings	\$401	\$715	\$678
Net earnings as a percentage of total revenues	4.7%	7.9%	7.8%
Earnings per diluted share	\$1.83	\$2.88	\$2.55

2008 VS 2007 NET EARNINGS AND EARNINGS PER DILUTED SHARE

In 2008, net earnings decreased 43.9% and earnings per diluted share decreased 36.5% as a result of lower sales volume, increased markdowns and higher bad debt expense, partially offset by decreased variable costs and savings in fixed expenses. The decline in earnings per share was also partially offset by the impact of share repurchases, which caused our weighted average shares outstanding to decrease in 2008 compared with 2007.

2007 VS 2006 NET EARNINGS AND EARNINGS PER DILUTED SHARE

In 2007, net earnings increased 5.5% and earnings per diluted share increased 12.9% compared with 2006 as a result of same-store sales increases, three full-line stores opened during the year and lower incentive costs tied to company performance. These increases were offset by increased markdowns at our full-line stores and higher bad debt expense. Additionally, earnings per diluted share for 2007 were impacted by the following transactions:

- \$0.09 positive impact from the gain on the sale of the Façonnable business,
- \$0.07 positive impact from repurchases of common stock, and
- \$0.06 negative impact from the securitization transaction.

2009 FORECAST OF EARNINGS PER DILUTED SHARE

We expect our earnings per diluted share to be in the range of \$1.10 to \$1.40 in 2009 primarily due to lower sales volume.

Fourth Quarter Results

The business environment during the fourth quarter challenged the retail industry and our company. Our earnings per diluted share were \$0.31 for the quarter ended January 31, 2009 compared to \$0.92 in the same period last year. Net earnings for the fourth quarter of 2008 were \$68 compared with \$212 in 2007.

Total sales for the quarter decreased 8.5% to \$2,301 while same-store sales declined 12.5%. Results in full-line stores continued to be challenging, as same-store sales decreased 15.8% for the quarter. Nordstrom Rack remained one of the top performers amongst its off-price competition with a same-store sales decrease of 1.5%. Women's apparel and shoes were the Rack categories with same-store sales above the Rack average. Net sales for the Direct segment increased 9.7%, led by the shoes and kids' apparel divisions.

Our gross profit rate declined to 32.0% from 37.6% last year as we responded to slower sales trends and the competitive environment with increased markdowns. We continued to make good progress in aligning inventory levels with sales trends, ending the quarter with inventory per square foot down 12% from the fourth quarter of 2007.

Selling, general and administrative dollars for our Retail Stores, Direct and Other segments were approximately flat compared to last year, while these expenses as a percentage of net sales increased 191 basis points from 23.3% to 25.2%. Although we continued to vigorously control our expenses in the fourth quarter, the impact of declining sales resulted in the rate increase. Our new stores expenses in the fourth quarter of 2008 were \$20, which offset expense savings during the quarter.

In the fourth quarter, selling, general and administrative expenses for our credit segment were \$90, up from \$52 in 2007. The increase was primarily driven by higher bad debt expense from increased delinquencies and write-offs.

For further information on our quarterly results in 2008 and 2007, refer to Note 16 in the Notes to Consolidated Financial Statements in Item 8.

Return on Invested Capital (ROIC) (Non-GAAP financial measure)

We define Return on Invested Capital (ROIC) as follows:

$$\text{ROIC} = \frac{\text{Net Operating Profit After Taxes (NOPAT)}}{\text{Average Invested Capital}}$$

Numerator = NOPAT	Denominator = Average Invested Capital
Net earnings	Average total assets
+ Income tax expense	- Average non-interest-bearing current liabilities
+ Interest expense, net	- Average deferred property incentives
<hr/>	+ Average estimated asset base of capitalized operating leases
= EBIT	<hr/>
+ Rent expense	= Average invested capital
- Estimated depreciation on capitalized operating leases	
<hr/>	
= Net operating profit	
- Estimated income tax expense	
<hr/>	
= NOPAT	

We believe that ROIC is a useful financial measure for investors in evaluating our operating performance for the periods presented. When read in conjunction with our net earnings and total assets and compared to return on assets, it provides investors with a useful tool to evaluate our ongoing operations and our management of assets from period to period. Over the past several years, we have incorporated ROIC into our key financial metrics, and since 2005 have used it as an executive incentive measure. Our research has shown historically that overall performance as measured by ROIC correlates directly to shareholders' return over the long term. For the 12 fiscal months ended January 31, 2009, our ROIC decreased to 11.6% compared to 19.4% for the 12 fiscal months ended February 2, 2008. ROIC is not a measure of financial performance under United States GAAP and should not be considered a substitute for return on assets, net earnings or total assets as determined in accordance with GAAP and may not be comparable to similarly titled measures reported by other companies. See our ROIC reconciliation to GAAP below. The closest GAAP measure is return on assets, which decreased to 7.0% from 13.1% for the 12 months ended January 31, 2009 compared to the 12 months ended February 2, 2008. The following is a reconciliation of return on assets and ROIC:

	12 fiscal months ended	
	January 31, 2009	February 2, 2008
Net earnings	\$401	\$715
Add: income tax expense	247	458
Add: interest expense, net	131	74
<hr/>		
Earnings before interest and income taxes	779	1,247
Add: rent expense	37	48
Less: estimated depreciation on capitalized operating leases ¹	(19)	(26)
<hr/>		
Net operating profit	797	1,269
Estimated income tax expense	(303)	(497)
<hr/>		
Net operating profit after taxes	\$494	\$772
Average total assets ²	\$5,768	\$5,455
Less: average non-interest-bearing current liabilities ³	(1,447)	(1,506)
Less: average deferred property incentives ²	(400)	(359)
Add: average estimated asset base of capitalized operating leases ⁴	322	395
<hr/>		
Average invested capital	\$4,243	\$3,985
Return on assets	7.0%	13.1%
ROIC	11.6%	19.4%

¹Depreciation based upon estimated asset base of capitalized operating leases as described in footnote 4 below.

²Based upon the trailing 12-month average.

³Based upon the trailing 12-month average for accounts payable, accrued salaries, wages and related benefits, and other current liabilities.

⁴Based upon the trailing 12-month average of the monthly asset base which is calculated as the trailing 12 months rent expense multiplied by 8.

Our ROIC declined primarily due to a decrease in our earnings before interest and income taxes compared to the prior year as well as an increase in our average invested capital. The increase in average invested capital compared to the prior year is primarily due to the securitization transaction on May 1, 2007, which brought the entire portfolio of Nordstrom VISA credit card receivables on-balance sheet as of that date.

LIQUIDITY AND CAPITAL RESOURCES

The following discussion of Liquidity and Capital Resources reflects the effects of the correction discussed in Note 1 of the Notes to Consolidated Financial Statements in Item 8 of this Annual Report on Form 10-K.

We maintain a level of liquidity sufficient to allow us to cover our seasonal cash needs and to minimize our need for short-term borrowings. We believe that our operating cash flows and available credit facilities are sufficient to finance our cash requirements for the next 12 months.

Over the long term, we manage our cash and capital structure to maximize shareholder return, strengthen our financial position and maintain flexibility for future strategic initiatives. We continuously assess our debt and leverage levels, capital expenditure requirements, principal debt payments, dividend payouts, potential share repurchases and future investments or acquisitions. We believe our operating cash flows and available credit facilities, as well as any potential future borrowing facilities, will be sufficient to fund these scheduled future payments and potential long-term initiatives.

In 2008 cash decreased by \$286 to \$72 as of January 31, 2009. The decrease was driven by capital expenditures of \$563, returns to our shareholders through dividends and repurchases of our common stock totaling \$402, and purchases made by our customers for third-party merchandise and services using Nordstrom VISA credit cards of \$232. These decreases were partially offset by cash provided by operating activities of \$848.

Operating Activities

The majority of our operating cash inflows are related to sales to our customers, including the collection of accounts receivable. We also receive cash payments for property incentives from developers. Our operating cash outflows generally consist of payments to our inventory vendors (net of vendor allowances), payments to our employees for wages, salaries and other employee benefits, and payments to our landlords for rent. Operating cash outflows also include payments for income taxes and interest payments on our short and long-term borrowings.

2008 VS 2007 OPERATING ACTIVITIES

Net cash provided by operating activities increased from \$312 in 2007 to \$848 in 2008. In 2007, the conversion of our Nordstrom VISA credit card receivables into an on-balance sheet securitization program reduced cash provided by operating activities by \$663. As a result of this transaction, we recorded the Nordstrom VISA credit card receivables on our consolidated balance sheet and eliminated our investment in asset backed securities. The increase in cash provided by operating activities in 2008 compared with 2007 was also due to lower variable expenses, fixed cost reductions and a decrease in cash paid for taxes in 2008. These increases were offset by the impact of declining sales in 2008 as well as an increase in cash paid for interest.

2009 FORECAST OF OPERATING ACTIVITIES

In 2009, we expect our operating cash flows to decline as a result of lower sales.

Investing Activities

Our investing cash flows typically consist of capital expenditures and, beginning in the second quarter of 2007, customer purchases (net of payments) for goods and services outside of Nordstrom using the Nordstrom VISA credit cards.

2008 VS 2007 INVESTING ACTIVITIES

Net cash used in investing activities increased \$371 to \$792 in 2008, primarily due to an increase in third-party purchases using the Nordstrom VISA credit cards and an increase in capital expenditures. Additionally, the sale of our Façonnable business in 2007 partially offset investing cash outflows in the prior year.

In 2008, we experienced growth in our Nordstrom VISA credit receivables related to purchases made by our customers for merchandise and services outside of Nordstrom. This drove an increase in cash used for accounts receivable originated at third parties, which was \$232 in 2008 compared with \$151 in 2007. The Nordstrom VISA credit cards enable our customers to purchase at merchants outside of Nordstrom and accumulate points for our Nordstrom Fashion Rewards[®] program (two points per dollar spent at Nordstrom and one point per dollar spent outside of Nordstrom stores). Upon reaching two thousand points, customers receive twenty dollars in Nordstrom Notes[®], which can be redeemed for goods or services in our stores. We believe participation in the Fashion Rewards program has resulted in beneficial shifts in customer spending patterns and incremental sales in our stores.

CAPITAL EXPENDITURES

Our capital expenditures over the last three years totaled \$1,328, with \$563 in 2008, \$501 in 2007 and \$264 in 2006. With these capital expenditures, we added stores, enhanced existing facilities and improved our information systems. The largest components of these expenditures were for new or relocated stores and store remodels. We also received property incentives from our developers of \$119 in 2008, \$58 in 2007 and \$31 in 2006. These incentives are included in our cash provided by operations in our consolidated statements of cash flows, however operationally we view these as an offset to our capital expenditures. Our capital expenditures, net of property incentives, for the last three years by category are summarized in the following table:

Fiscal year	2008	2007	2006
Category:			
New store openings and relocations	55%	51%	35%
Remodels (major and minor)	30%	27%	39%
Information technology	8%	8%	13%
Other	7%	14%	13%
Total	100%	100%	100%

The following table summarizes our store count and square footage activity during 2008:

	Store Count			Square Footage		
	Total	Full-line Stores	Rack and Other Stores	Total	Full-line Stores	Rack and Other Stores
Balance at February 2, 2008	156	101	55	20.5	18.4	2.1
New store openings & relocations	14	8	6	1.4	1.2	0.2
Store closings	(1)	-	(1)	-	-	-
Balance at January 31, 2009	169	109	60	21.9	19.6	2.3

In 2008 we opened eight full-line stores (Aventura Mall in Aventura, Florida; Ala Moana Center in Honolulu, Hawaii; Burlington Mall in Burlington, Massachusetts; Partridge Creek in Clinton Township, Michigan; Thousand Oaks in Thousand Oaks, California; Fashion Mall in Indianapolis, Indiana; Ross Park in Pittsburgh, Pennsylvania; and Waterside in Naples, Florida), relocated one full-line store (Tacoma Mall in Tacoma, Washington), and opened six Rack stores (City Center in White Plains, New York; Laguna Hills Mall in Laguna Hills, California; Springbrook Prairie Pavilion in Naperville, Illinois; Legacy Village in Lyndhurst, Ohio; Liberty Tree Mall in Danvers, Massachusetts; and The Rim in San Antonio, Texas). Together these openings increased our gross square footage by 6.7%.

2009 AND LONG-TERM CAPITAL EXPENDITURES FORECAST

During 2008 we made adjustments to our capital plan as a result of developer delays due to the current economic conditions. With these changes, we delayed two planned store openings originally planned for 2009. To date in 2009, we have relocated one full-line store and opened two new Rack stores. During the remainder of 2009, we anticipate opening three new full-line stores and eight additional new Rack stores.

We expect that our capital expenditures (net of property incentives) will be approximately \$2,100 over the next five years, with approximately \$325 planned for 2009. Over these five years, we plan to use 47% of this investment to build new and relocated stores, 28% on remodels (major and minor), 12% on information technology and 13% for other projects. Our current five-year plans include 28 new stores announced through 2013, which represents an 11% increase in square footage. Almost half of these stores will be in the Northeast and South. We have also reduced the number of major full-line store remodels from approximately six per year to approximately two per year. We believe that we have the capacity to address additional capital investments should opportunities arise.

As of January 31, 2009, we were contractually committed to spend \$54 for constructing new stores, remodeling existing stores, and other capital projects.

Financing Activities

Our net cash used in financing activities was \$342 in 2008 compared with \$64 provided by financing activities in 2007. In 2008, our financing activities consisted of \$250 in principal paid related to our 5.625% senior notes, dividend payments of \$138, and share repurchases of \$264, partially offset by \$275 of proceeds from commercial paper issuances.

2008 SHORT AND LONG-TERM BORROWING ACTIVITY

During 2008, we issued \$150 in notes using our 2007-A Variable Funding Note ("VFN") facility, which were repaid in full as of January 31, 2009. We also issued commercial paper, ending the year with outstanding borrowings of \$275. The majority of the outstanding commercial paper as of year-end was used to repay our \$250 senior notes, which we retired in January 2009.

DIVIDENDS

Fiscal year	2008	2007	2006
Cash dividends paid per share	\$0.64	\$0.54	\$0.42

In 2008, we paid dividends of \$0.64 per share, the twelfth consecutive year that our annual dividends increased. In determining the amount of dividends to pay, we analyze our dividend payout ratio and dividend yield, and balance the dividend payment with our operating performance and capital resources. For the dividend yield, which is calculated as our dividends per share divided by our stock price, we plan to target a 1.0% to 1.5% long-term yield. We will balance any potential future dividend changes with our operating performance and available capital resources.

In February 2009, we declared a first quarter dividend of \$0.16 per share, which is consistent with 2008.

2008 SHARE REPURCHASES

Our reported results for 2008 include \$264 in share repurchases. During 2008 we repurchased 6.9 shares of our common stock for an aggregate purchase price of \$238, at an average price per share of \$34.29. In addition, our results for the period include the settlement of \$26 in repurchases initiated in the fourth quarter of 2007. In August 2007 our Board of Directors authorized a \$1,500 share repurchase program and in November 2007 authorized an additional \$1,000 for share repurchases, bringing the total program to \$2,500. Although the program will not expire until August 2009, we suspended our share repurchase program in September 2008. We may resume the program in the future if economic conditions improve. As of January 31, 2009, we had \$1,126 in remaining capacity under our share repurchase program. The actual amount and timing of future share repurchases will be subject to market conditions and applicable Securities and Exchange Commission rules.

Credit Capacity and Commitments

The following table summarizes our credit capacity, the amounts outstanding and the expiration per period:

	Total Amounts Outstanding	Less than 1 year	1-3 years	3-5 years	More than 5 years
2007-A \$300 variable funding note	-	-	-	-	-
\$100 variable funding note	-	-	-	-	-
\$650 commercial paper/unsecured line of credit	\$275	\$275	-	-	-
Import letters of credit	\$5	\$5	-	-	-
Total	\$280	\$280	-	-	-

Our 2007-A Variable Funding Note facility is backed by substantially all of the Nordstrom private label card receivables and a 90% interest in the Nordstrom VISA credit card receivables with a capacity of \$300. Borrowings under the facility incur interest based upon the cost of commercial paper issued by the third-party bank conduit plus specified fees. We pay a commitment fee for the note based on the size of the commitment and the amount of borrowings outstanding.

Our \$100 variable funding facility is backed by the remaining 10% interest in the Nordstrom VISA credit card receivables and is available as liquidity support to our wholly owned federal savings bank, Nordstrom fsb. As of January 31, 2009, no issuances have been made against this facility. Borrowings under the facility incur interest based upon the cost of commercial paper issued by the third-party bank conduit plus specified fees.

During 2008, we increased our short-term borrowing capacity by exercising the \$150 accordion feature on our revolving credit facility. The accordion feature allowed us to increase our existing \$500 unsecured line of credit to \$650. In conjunction with the increase of our unsecured line of credit, we also increased our \$500 commercial paper program to \$650. The issuance of commercial paper has the effect, while it is outstanding, of reducing our borrowing capacity under the line of credit by an amount equal to the principal amount of the commercial paper.

Under the terms of the commercial paper agreement, we pay a rate of interest based on, among other factors, the maturity of the issuance and market conditions. Our unsecured line of credit expires in November 2010.

We currently have an automatic shelf registration statement on file with the Securities and Exchange Commission. Under the terms of the registration statement, and subject to the filing of certain post-effective amendments, we are authorized to issue an unlimited principal amount of debt securities.

We are continuing to monitor the credit markets to determine the best time to refinance with long-term debt. Our next debt maturity is a \$350 securitized note due in April 2010.

Debt Covenants

Our borrowing facilities include restrictive covenants, including the following significant restrictions:

Facility	Description of Covenant
2007-A \$300 variable funding note	Standard and Poor's BB+ and Moody's Ba1 ratings or better
\$100 variable funding note	Standard and Poor's BB+ and Moody's Ba1 ratings or better
\$650 commercial paper/unsecured line of credit	Leverage ratio ("Adjusted Debt to EBITDAR" not greater than approximately four times)

As of January 31, 2009 and February 2, 2008 we were in compliance with these covenants. We will monitor each of these covenants closely in 2009 to ensure that we make any necessary adjustments to our plans and believe that we will remain in compliance with this covenant during 2009. See additional disclosure of Adjusted Debt to EBITDAR on the following page.

The following table shows our credit ratings at the date of this report:

Credit Ratings	Moody's	Standard and Poor's
Senior unsecured debt	Baa2	A-
Commercial paper	P-2	A-2
Senior unsecured outlook	Negative	Negative/Watch

These ratings could change depending on our performance and other factors. Our 2007-A VFN, which matures in November 2009, and our \$100 variable funding facility can be cancelled or not renewed if our debt ratings fall below Standard and Poor's BB+ rating or Moody's Ba1 rating. Our other outstanding debt is not subject to termination or interest rate adjustments based on changes in our credit ratings. We are currently four ratings above the minimum for our Standard and Poor's covenant requirements, and two ratings above the minimum for our Moody's covenant requirements.

Adjusted Debt to EBITDAR (Non-GAAP financial measure)

We define Adjusted Debt to Earnings before Interest, Income Taxes, Depreciation, Amortization and Rent ("EBITDAR") as follows:

Adjusted Debt to EBITDAR =	$\frac{\text{Adjusted Debt}}{\text{Earnings before Interest, Income Taxes, Depreciation, Amortization and Rent (EBITDAR)}}$
Numerator = Adjusted Debt	Denominator = EBITDAR
Debt	Net Earnings
+ Rent expense x 8	+ Income tax expense
= Adjusted Debt	+ Interest expense, net
	+ Depreciation and amortization of buildings and equipment
	+ Rent expense
	= EBITDAR

Adjusted Debt to EBITDAR is one of our key financial metrics and we believe that our debt levels are best analyzed using this measure. Our goal today is to manage debt levels at a point which we believe will help us maintain an investment grade credit rating as well as operate with an efficient capital structure for our size, growth plans and industry. Investment grade credit ratings are important to maintaining access to a variety of short-term and long-term sources of funding, and we rely on these funding sources to continue to grow our business. We believe a higher ratio, among other factors, could result in rating agency downgrades. In contrast, we believe a lower ratio would result in a higher cost of capital and could negatively impact shareholder returns. As of January 31, 2009, our Adjusted Debt to EBITDAR was 2.5 compared to 1.8 at the end of 2007. The increase was the result of a decrease in EBITDAR in 2008 compared with 2007, driven primarily by a reduction in net earnings from \$715 in 2007 to \$401 in 2008.

Adjusted Debt to EBITDAR is not a measure of financial performance under GAAP and should not be considered a substitute for debt to net earnings, net earnings or debt as determined in accordance with GAAP. In addition, Adjusted Debt to EBITDAR does have limitations:

- Adjusted Debt is our best estimate of the total company debt we would incur if we had purchased the property associated with our operating leases.
- EBITDAR does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments, including leases, or the cash requirements necessary to service interest or principal payments on our debt.
- Other companies in our industry may calculate Adjusted Debt to EBITDAR differently than we do, limiting its usefulness as a comparative measure.

To compensate for these limitations, we analyze Adjusted Debt to EBITDAR in conjunction with other GAAP financial and performance measures impacting liquidity, including operating cash flows, capital spending and net earnings (see our Adjusted Debt to EBITDAR reconciliation to GAAP below). The closest GAAP measure is debt to net earnings, which was 6.3 and 3.5 for 2008 and 2007, respectively. The following is a reconciliation of debt to net earnings and Adjusted Debt to EBITDAR:

	2008 ¹	2007 ¹
Debt ²	\$2,513	\$2,497
Add: rent expense x 8 ³	298	382
Adjusted Debt	\$2,811	\$2,879
Net earnings	401	715
Add: income tax expense	247	458
Add: interest expense, net	131	74
Earnings before interest and income taxes	779	1,247
Add: depreciation and amortization of buildings and equipment	302	269
Add: rent expense ⁴	37	48
EBITDAR	\$1,118	\$1,564
Debt to Net Earnings	6.3	3.5
Adjusted Debt to EBITDAR	2.5	1.8

¹The components of adjusted debt are as of the end of 2008 and 2007, while the components of EBITDAR are for the 12 months ended January 31, 2009 and February 2, 2008.

²Debt includes \$275 of outstanding commercial paper borrowings as of January 31, 2009. There were no commercial paper borrowings outstanding as of February 2, 2008.

³The multiple of eight times rent expense used to calculate adjusted debt is our best estimate of the debt we would record for our leases which are classified as operating, if they had met criteria for a capital lease, or if we had purchased the property.

⁴The decrease in rent expense is primarily due to the sale of our Façonnable business in the third quarter of 2007.

Contractual Obligations

The following table summarizes our contractual obligations and the expected effect on our liquidity and cash flows as of January 31, 2009. We expect to fund these commitments primarily with operating cash flows generated in the normal course of business and credit available to us under existing and potential future facilities.

	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term debt	\$3,759	\$134	\$549	\$690	\$2,386
Capital lease obligations	20	3	4	4	9
Other long-term liabilities	178	13	39	25	101
Operating leases	696	79	160	122	335
Purchase obligations	1,059	983	72	4	-
Total	\$5,712	\$1,212	\$824	\$845	\$2,831

Included in the required debt repayments disclosed above are estimated total interest payments of \$1,534 as of January 31, 2009, payable over the remaining life of the debts.

Other long-term liabilities consist of workers' compensation and general liability insurance reserves, postretirement benefits and a portion of our Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* ("FIN 48") reserves. The repayment amounts presented above were determined based on historical payment trends. We expect to pay \$13 of uncertain tax positions under FIN 48 in the next 12 months and include this balance in other long-term liabilities as due in less than one year. We are unable to reasonably estimate the timing of future cash flows for the remaining FIN 48 balance and have excluded this from the table above. Other long-term liabilities not requiring cash payments, such as deferred property incentives and deferred revenue, were excluded from the table above.

Purchase obligations primarily consist of purchase orders for unreceived goods or services and capital expenditure commitments.

This table also excludes the short-term liabilities, other than the current portion of long-term debt, disclosed on our 2008 consolidated balance sheet, as the amounts recorded for these items will be paid in the next year.

CRITICAL ACCOUNTING ESTIMATES

The preparation of our financial statements requires that we make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities. We base our estimates on historical experience and on other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates. The following discussion highlights the estimates we feel are critical and should be read in conjunction with the Notes to the Consolidated Financial Statements.

Our management has discussed the development and selection of these critical accounting estimates with the Audit Committee of our Board of Directors and the Audit Committee has reviewed the company's disclosures that follow.

Inventory

Our merchandise inventories are primarily stated at the lower of cost or market using the retail inventory method. Under the retail method, the valuation of inventories and the resulting gross margins are determined by applying a calculated cost-to-retail ratio to the retail value of ending inventory. To determine if the retail value of our inventory should be marked down, we consider current and anticipated demand, customer preferences, age of the merchandise and fashion trends. As our inventory retail value is adjusted regularly to reflect market conditions, our inventory is valued at the lower of cost or market. Inherent in the retail inventory method are certain management judgments that may affect the ending inventory valuation as well as gross margin. Among others, the significant estimates used in inventory valuation are obsolescence and shrinkage.

We reserve for obsolescence based on historical trends and specific identification. Shrinkage is estimated as a percentage of net sales for the period from the most recent semi-annual inventory count based on historical shrinkage results. Therefore, our obsolescence reserve and shrinkage percentage contain uncertainties as the calculations require management to make assumptions and to apply judgment regarding a number of factors, including market conditions, the selling environment, historical results and current inventory trends.

Management does not believe that the assumptions used in these estimates will change significantly based on prior experience. In prior years, we have made no material changes to our estimates included in the calculations of the obsolescence and shrinkage reserves. We do not believe a 10% change in the obsolescence reserve or our shrink percentage would have a material effect on our net earnings.

Revenue Recognition

We recognize revenues net of estimated returns and we exclude sales taxes. Our retail stores record revenue at the point of sale. Our catalog and online sales include shipping revenue and are recorded upon estimated delivery to the customer. As part of the normal sales cycle, we receive customer merchandise returns. To recognize the financial impact of sales returns, we estimate the amount of goods that will be returned and reduce sales and cost of sales accordingly. Inherent in establishing and maintaining a sales return reserve are management judgments around customer return patterns and return rates. We utilize historical return patterns to estimate our expected returns.

Although we believe we have sufficient current and historical knowledge to record reasonable estimates of sales returns, there is a possibility that actual returns could differ from recorded amounts. A 10% change in the sales return reserve would have had a \$4 impact on our net earnings for the year ended January 31, 2009.

Allowance for Doubtful Accounts

Our allowance for doubtful accounts represents our best estimate of the losses inherent in our Nordstrom private label card and Nordstrom VISA credit card receivables as of the balance sheet date. We evaluate the collectibility of our accounts receivable based on several factors, including historical trends of aging of accounts, write-off experience and expectations of future performance. We recognize finance charges on delinquent accounts until the account is written off. Delinquent accounts are written off when they are determined to be uncollectible, usually after the passage of 151 days without receiving a full scheduled monthly payment. Accounts are written off sooner in the event of customer bankruptcy or other circumstances that make further collection unlikely. Management believes the allowance for doubtful accounts is adequate to cover anticipated losses in our credit card accounts receivable under current conditions; however, significant deterioration in any of the factors mentioned above or in general economic conditions could materially change these expectations. In prior years, we have not made material changes to our estimates involved in the allowance for doubtful accounts. A 10% change in our allowance for doubtful accounts would have affected net earnings by \$9 for the fiscal year ended January 31, 2009.

Income Taxes

In accordance with Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*, we calculate income taxes using the asset and liability approach. We recognize deferred tax assets and liabilities based on the difference between the financial statement carrying amounts and respective tax bases of assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the years in which we expect those temporary differences to reverse. As audits of income tax returns for prior years are completed, adjustments may occur related to previously recorded deferred taxes. These potential adjustments, if any, are not expected to be material.

RECENT ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (Revised 2007), *Business Combinations* ("SFAS 141(R)"). Under SFAS 141(R), an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS 141(R) will change the accounting treatment for certain specific acquisition-related items, including expensing acquisition-related costs as incurred, valuing noncontrolling interests (minority interests) at fair value at the acquisition date, and expensing restructuring costs associated with an acquired business. SFAS 141(R) also includes a substantial number of new disclosure requirements. SFAS 141(R) is to be applied prospectively to business combinations for which the acquisition date is on or after January 1, 2009. Early adoption is not permitted. Generally, the effect of SFAS 141(R) will depend on the circumstances of any potential future acquisition.

Also in December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, *Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51* ("SFAS 160"). SFAS 160 establishes new accounting and reporting standards for a noncontrolling interest (minority interest) in a subsidiary, provides guidance on the accounting for and reporting of the deconsolidation of a subsidiary, and increases transparency through expanded disclosures. Specifically, SFAS 160 requires the recognition of a minority interest as equity in the consolidated financial statements and separate from the parent company's equity. It also requires consolidated net earnings in the consolidated statement of earnings to include the amount of net earnings attributable to minority interest. This statement will be effective for Nordstrom as of the beginning of fiscal year 2009. Early adoption is not permitted. We do not believe the impact of the adoption of SFAS 160 will have a material impact on our consolidated financial statements.

In February 2008, the FASB issued FASB Staff Position No. FAS 157-2, ("FSP FAS 157-2"), which delayed the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), to fiscal years beginning after November 15, 2008. We are presently evaluating the impact of the adoption of SFAS 157 for our nonfinancial assets and nonfinancial liabilities and do not believe it will have a material effect on our consolidated financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, *Disclosures About Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133* ("SFAS 161"). SFAS 161 expands the disclosure requirements in SFAS 133 about an entity's derivative instruments and hedging activities. This statement will be effective for Nordstrom as of the beginning of fiscal year 2009. We do not believe the impact of the adoption of SFAS 161 will have a material impact on our consolidated financial statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

(Dollars in millions)

INTEREST RATE RISK

Our primary exposure to market risk is through changes in interest rates. In seeking to minimize risk, we manage exposure through our regular operating and financing activities. We do not use financial instruments for trading or other speculative purposes and are not party to any leveraged financial instruments.

We have both credit card receivables that generate finance charge income and debt obligations for which we pay fixed and variable interest expense. We manage our net interest rate exposure through our mix of fixed and variable rate borrowings. A portion of our credit card receivables maintains a fixed interest rate. Additionally, a portion of this portfolio is used as convenience by our customers who pay in full monthly. The annualized effect of a one-percentage-point change in interest rates would not materially affect net earnings.

Additionally, short-term borrowing and investing activities generally bear interest at variable rates, but because they have maturities of three months or less, we believe that the risk of material loss is low, and that the carrying amount approximates fair value.

The table below presents information about our debt obligations that are sensitive to changes in interest rates at January 31, 2009. For debt obligations, including our capital leases, the table presents principal amounts, at book value, by maturity date, and related weighted average interest rates.

Dollars in millions	2009	2010	2011	2012	2013	Thereafter	Total at January 31, 2009	Fair value at January 31, 2009
Long-term debt								
Fixed	\$24	\$356	\$6	\$6	\$7	\$1,339	\$1,738	\$1,400
Avg. int. rate	6.3%	5.0%	8.8%	8.5%	8.4%	6.7%	6.4%	
Variable	-	-	-	\$500	-	-	\$500	\$350
Avg. int. rate	-	-	-	0.5%	-	-	0.5%	

FOREIGN CURRENCY EXCHANGE RISK

The majority of our revenue, expense and capital expenditures are transacted in U.S. dollars. However, we periodically enter into foreign currency purchase orders denominated in Euros for apparel, accessories and shoes. We use forward contracts to hedge against fluctuations in foreign currency prices. We do not believe the fair value of our outstanding forward contracts at January 31, 2009 to be material.

Item 8. Financial Statements and Supplementary Data.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as is defined in the Securities Exchange Act of 1934. These internal controls are designed to provide reasonable assurance that the reported financial information is presented fairly, that disclosures are adequate and that the judgments inherent in the preparation of financial statements are reasonable. There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and overriding of controls. Consequently, an effective internal control system can only provide reasonable, not absolute, assurance, with respect to reporting financial information.

Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework and criteria established in Internal Control – Integrated Framework, issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that the Company's internal control over financial reporting was effective as of January 31, 2009.

Deloitte and Touche LLP, an independent registered public accounting firm, is retained to audit Nordstrom's consolidated financial statements and the effectiveness of the Company's internal control over financial reporting. Its accompanying reports are based on audits conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States).

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Nordstrom, Inc.
Seattle, Washington

We have audited the internal control over financial reporting of Nordstrom, Inc. and subsidiaries (the "Company") as of January 31, 2009, based on criteria established in *Internal Control – Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying *Management's Report on Internal Control Over Financial Reporting*. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of January 31, 2009, based on the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended January 31, 2009, of the Company and our report dated March 20, 2009, expressed an unqualified opinion on those financial statements and financial statement schedule.

/s/ Deloitte & Touche LLP

March 20, 2009

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Nordstrom, Inc.
Seattle, Washington

We have audited the accompanying consolidated balance sheets of Nordstrom, Inc. and subsidiaries (the "Company") as of January 31, 2009 and February 2, 2008, and the related consolidated statements of earnings, shareholders' equity, and cash flows for each of the three fiscal years in the period ended January 31, 2009. Our audits also included the financial statement schedule listed in the index at Item 15(a)2. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Nordstrom, Inc. and subsidiaries as of January 31, 2009 and February 2, 2008, and the results of their operations and cash flows for each of the three fiscal years in the period ended January 31, 2009, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of January 31, 2009, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated March 20, 2009, expressed an unqualified opinion on the Company's internal control over financial reporting.

Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

NOTE 1: NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

Founded in 1901 as a shoe store in Seattle, today Nordstrom is a fashion specialty retailer that offers customers a well-edited selection of high-quality fashion brands focused on clothing, shoes and accessories for men, women and children. This breadth of merchandise allows us to serve both our affluent customer segment as well as those who appreciate quality products and experiences. We offer a wide selection of brand name and private label merchandise. We offer our products through multiple retail channels, including 109 'Nordstrom' full-line stores, 56 off-price 'Nordstrom Rack' stores, two 'Jeffrey' boutiques, two clearance stores, our catalogs and through our online store at www.nordstrom.com. Our stores are located throughout the United States.

Our credit operations offer a Nordstrom private label card, two Nordstrom VISA credit cards and a debit card for Nordstrom purchases, which generate credit card revenues. We offer our customers a variety of payment products and services, including our loyalty program.

Our operations also include a product development group, which coordinates the design and production of private label merchandise sold in our retail stores.

Fiscal Year

Our fiscal year ends on the Saturday closest to January 31st. References to 2008 relate to the 52-week fiscal year ended January 31, 2009. References to 2007 and 2006 relate to the 52-week fiscal year ended February 2, 2008 and the 53-week fiscal year ended February 3, 2007, respectively. Fiscal year 2006 includes an extra week (the 53rd week) as a result of our 4-5-4 retail reporting calendar. References to 2009 relate to the 52-week fiscal year ending January 30, 2010.

Principles of Consolidation

The consolidated financial statements include the balances of Nordstrom, Inc. and its subsidiaries. All intercompany transactions and balances are eliminated in consolidation.

Use of Estimates

We make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassification

In order to improve the transparency related to our Credit segment, we have reclassified credit card revenues and expenses in our consolidated statements of earnings in 2007 and 2006 to conform to our 2008 presentation. Credit card revenues were previously included in finance charges and other, net in our consolidated statement of earnings and selling, general and administrative expenses for our credit segment were previously included in total selling, general and administrative expenses in our consolidated statements of earnings. These reclassifications did not impact our reported net earnings, earnings per share or cash flows for these periods.

Net Sales

We record revenues net of estimated returns and we exclude sales taxes. Our retail stores record revenue at the point of sale. Our catalog and online sales include shipping revenue and are recorded upon estimated receipt by the customer. We recognize revenue associated with our gift cards upon redemption of the gift card. As part of the normal sales cycle, we receive customer merchandise returns. To recognize the financial impact of sales returns, we estimate the amount of goods that will be returned and reduce sales and cost of sales accordingly. We utilize historical return patterns to estimate our expected returns. Our sales return reserves were \$70 and \$56 at the end of 2008 and 2007.

Credit Card Revenues and Credit Selling, General and Administrative Expenses

Credit card revenues include finance charges, late and other fees generated by our combined Nordstrom private label card and Nordstrom VISA credit card programs, and interchange fees generated by the use of Nordstrom VISA cards at third-party merchants. These revenues were previously included in finance charges and other, net in our consolidated statement of earnings. Selling, general and administrative expenses for our credit segment consist of operational and marketing costs incurred to support and service our credit card programs and bad debt expense, and were previously included in total selling, general and administrative expenses in our consolidated statements of earnings.

Buying and Occupancy Costs

Buying costs consist primarily of compensation and other costs incurred by our merchandise and product development groups. Occupancy costs include rent, depreciation, property taxes and facility operating costs of our retail, corporate center and distribution operations.

Shipping and Handling Costs

Our shipping and handling costs include payments to third-party shippers and costs to hold, move and prepare merchandise for shipment. Shipping and handling costs of \$106, \$87 and \$78 in 2008, 2007 and 2006 were included in selling, general and administrative expenses.

Nordstrom, Inc. Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

Advertising

Production costs for newspaper, radio and other media are expensed the first time the advertisement is run. Total advertising expenses, net of vendor allowances, of \$98, \$101 and \$109 in 2008, 2007 and 2006 were included in selling, general and administrative expenses.

Other Income and Expense, Net

On May 1, 2007, we converted our Nordstrom private label card and Nordstrom VISA credit card programs into one securitization program. Prior to the transaction, other income and expense, net consisted primarily of earnings from our investment in asset backed securities and securitization gains and losses, which were both generated from the Nordstrom VISA credit card program.

Gift card breakage is another component of other income and expense, net. Based on an analysis of our program since its inception in 1999, we determined that balances remaining on cards issued beyond five years ago are unlikely to be redeemed and therefore may be recognized as income. Breakage income was \$7, \$6 and \$5 in 2008, 2007 and 2006. This breakage income is approximately 3.5% of the amount initially issued as gift cards.

Stock-Based Compensation

We recognize stock-based compensation expense on a straight-line basis over the requisite service period. The total compensation expense is reduced by estimated forfeitures expected to occur over the vesting period of the award. We estimate the fair value of stock options granted using the Binomial Lattice option valuation model. We believe that this model provides a better estimate of fair value than the Black-Scholes option valuation model, as it can accommodate variability in assumptions for expected volatility, dividends and risk-free interest rates. Refer to Note 12: Shareholders' Equity and Stock Compensation Plans for additional information on our stock option plans and related stock-based compensation expense.

Cash Equivalents

Cash equivalents are short-term investments with a maturity of three months or less from the date of purchase and are carried at amortized cost, which approximates fair value. Our cash management system provides for the reimbursement of all major bank disbursement accounts on a daily basis. Accounts payable at the end of 2008 and 2007 included \$66 and \$46 of checks not yet presented for payment drawn in excess of our bank deposit balances.

Supplemental Cash Flow Information

Fiscal year	2008	2007	2006
Cash paid during the year for:			
Interest (net of capitalized interest)	\$145	\$75	\$55
Income taxes	340	478	449

Statement of Cash Flows Correction

Subsequent to the issuance of our 2007 Annual Report on Form 10-K, we determined that beginning in the second quarter of 2007, cash flows arising from VISA originations and repayments for sales outside of Nordstrom are more properly defined as an investing activity rather than an operating activity within our consolidated statements of cash flows. As a result, net cash used in operating activities and net cash used in investing activities in the accompanying consolidated statement of cash flows for 2007 have been corrected from the amounts previously reported as follows:

	Fiscal year 2007	
	As previously reported	As corrected
Operating Activities:		
Change in accounts receivable	\$(1,234)	\$(1,083)
Net cash provided by operating activities	161	312
Investing Activities:		
Change in accounts receivable originated at third parties	-	(151)
Net cash used in investing activities	(270)	(421)

Nordstrom, Inc. Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

Securitization of Accounts Receivable

Prior to May 2007, through our wholly owned federal savings bank, Nordstrom fsb, we offered a private label card and two Nordstrom VISA credit cards. The private label card receivables were held in a trust, which could issue third-party debt that was secured by the private label receivables; the private label program was treated as 'on-balance sheet,' with the receivables, net of bad debt allowance, and debt, if any, recorded on our consolidated balance sheet, the finance charge income recorded in credit card revenues, and the bad debt expense recorded in credit segment selling, general and administrative expenses.

The Nordstrom VISA credit card receivables were held in a separate trust (the VISA Trust), which could issue third-party debt that was secured by the Nordstrom VISA credit card receivables. The Nordstrom VISA credit card program was treated as 'off-balance sheet.' We recorded the fair value of our interest in the VISA Trust on our consolidated balance sheet, gains on the sale of receivables to the VISA Trust and our share of the VISA Trust's finance income in other income and expense, net.

On May 1, 2007, we converted the Nordstrom private label cards and Nordstrom VISA credit card programs into one securitization program, which is accounted for as a secured borrowing (on-balance sheet). When we combined the securitization programs, our investment in asset backed securities, which was accounted for as available-for-sale securities, was eliminated and we reacquired all of the Nordstrom VISA credit card receivables previously held off-balance sheet. These reacquired Nordstrom VISA credit card receivables were recorded at fair value at the date of acquisition. We have transitioned the Nordstrom VISA credit card receivable portfolio to historical cost, net of bad debt allowances, on our consolidated balance sheet.

Also on May 1, 2007, the trust issued securities that are backed by substantially all of the Nordstrom private label card receivables and 90% of the Nordstrom VISA credit card receivables. Under the securitization, the receivables are transferred to a third-party trust on a daily basis. The balance of the receivables transferred to the trust fluctuates as new receivables are generated and old receivables are retired (through payments received, charge-offs or credits for merchandise returns). These combined receivables back the Series 2007-1 Notes, the Series 2007-2 Notes, and two unused variable funding notes that are discussed in Note 6: Debt and Credit Facilities.

Our credit card securitization agreements set a maximum percentage of receivables that can be associated with various receivable categories, such as employee or foreign receivables. As of January 31, 2009 and February 2, 2008, these maximums were not exceeded.

The following table summarizes certain income, expenses and cash flows received from and paid to the VISA Trust prior to the May 2007 transaction:

Period	3 months ended	12 months ended
	May 1, 2007	February 3, 2007
Principal collections reinvested in new receivables	\$819	\$3,094
Gains on sales of receivables	3	20
Income earned on beneficial interests	21	75
Cash flows (used in) provided by beneficial interests:		
Investment in asset backed securities	(457)	494
Servicing fees	2	16

Net credit losses were \$9 and \$22 in 2007 and 2006.

Merchandise Inventories

Merchandise inventories are valued at the lower of cost or market, using the retail method (weighted average cost).

Land, Buildings and Equipment

Depreciation is computed using the straight-line method. Estimated useful lives by major asset category are as follows:

Asset	Life (in years)
Buildings and improvements	5-40
Store fixtures and equipment	3-15
Leasehold improvements	Shorter of initial lease term or asset life
Software	3-7

Goodwill

In accordance with Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets* ("SFAS 142"), we review our goodwill annually for impairment in the first quarter or when circumstances indicate the carrying value of these assets may not be recoverable. SFAS 142 requires that the test be performed through the application of a two-step fair value test. The first step of the test compares the book value to the estimated fair value which is based on future cash flows. If fair value does not exceed carrying value then a second step is performed to quantify the amount of the impairment.

Nordstrom, Inc.

Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

Impairment of Long-Lived Assets

In accordance with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, when facts and circumstances indicate that the carrying values of long-lived assets may be impaired, we perform an evaluation of recoverability by comparing the carrying values of the net assets to projected undiscounted future cash flows in addition to other quantitative and qualitative analyses. Upon indication that the carrying values of long-lived assets may not be recoverable, we recognize an impairment loss. We estimate the fair value of the assets using the discounted future cash flows of the assets. Property, plant and equipment assets are grouped at the lowest level for which there are identifiable cash flows when assessing impairment. Cash flows for our retail store assets are identified at the individual store level.

Leases

We recognize lease expense, net of landlord reimbursements, on a straight-line basis over the minimum lease term from the time that we control the leased property.

We lease the land or the land and buildings at many of our full-line stores, and we lease the buildings at many of our Rack stores. Additionally, we lease office facilities, warehouses and equipment. Most of these leases are classified as operating leases and they expire at various dates through 2080. We have no significant individual or master lease agreements.

Our fixed, noncancelable lease terms generally are 20 to 30 years for full-line stores and 10 to 15 years for Rack stores. Many of our leases include options that allow us to extend the lease term beyond the initial commitment period, subject to terms agreed to at lease inception.

For leases that contain predetermined, fixed escalations of the minimum rent, we recognize the rent expense on a straight-line basis and record the difference between the rent expense and the rent payable as a liability.

Most of our leases also provide for payment of operating expenses, such as common area charges, real estate taxes and other executory costs. Some leases require additional payments based on sales and are recorded in rent expense when the contingent rent is probable.

Leasehold improvements made at the inception of the lease are amortized over the shorter of the asset life or the initial lease term as described above. Leasehold improvements made during the lease term are also amortized over the shorter of the asset life or the remaining lease term.

We receive incentives to construct stores in certain developments. These incentives are recorded as a deferred credit and recognized as a reduction to rent expense on a straight-line basis over the lease term as described above. At the end of 2008 and 2007, this deferred credit balance was \$478 and \$408. Also, we may receive incentives based on a store's net sales; we recognize these incentives in the year that they are earned as a reduction of rent expense.

Foreign Currency Translation

During 2008, we did not own any material foreign subsidiaries, and therefore, we did not recognize any foreign currency translation in accumulated other comprehensive earnings. Prior to the sale of the Façonnable business in the third quarter of 2007, the assets and liabilities of our foreign subsidiaries were translated to U.S. dollars using the exchange rates effective on the balance sheet date, while income and expense accounts were translated at the average rates in effect during the year. The resulting translation adjustments were recorded in accumulated other comprehensive earnings in 2007 and 2006.

Income Taxes

We use the asset and liability method of accounting for income taxes. Using this method, deferred tax assets and liabilities are recorded based on differences between financial reporting and tax basis of assets and liabilities. The deferred tax assets and liabilities are calculated using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse. We establish valuation allowances for tax benefits when we believe it is not likely that the related expense will be deductible for tax purposes.

Effective February 4, 2007, we adopted Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*. In accordance with FIN 48, we regularly evaluate the likelihood of realizing the benefit for income tax positions we have taken in various federal, state and foreign filings by considering all relevant facts, circumstances and information available. We follow the general guidelines that FIN 48 sets forth in determining whether a tax position will ultimately prevail. If we believe it is more likely than not that our position will be sustained, we recognize a benefit. The amount of the benefit is the amount which we believe is greater than 50% likely to be realized.

Other Current Liabilities

Included in other current liabilities were gift card liabilities of \$175 and \$188 at the end of 2008 and 2007.

Nordstrom, Inc. Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

Loyalty Program

Customers who reach a cumulative purchase threshold when using our Nordstrom private label cards or our Nordstrom VISA credit cards receive Nordstrom Notes[®]. These Nordstrom Notes can be redeemed for goods or services in our stores. We estimate the net cost of the Nordstrom Notes that will be issued and redeemed and record this cost as rewards points are accumulated. In addition to this long-standing benefit, in 2007 we launched an enhanced loyalty program, Fashion Rewards[®]. Under this program, Nordstrom customers receive higher levels of cumulative benefits based on their annual spend. We record the cost of the loyalty program benefits for Nordstrom Notes and alterations in cost of sales given that we provide customers with products or services for these rewards. Other costs of the loyalty program, which primarily include shipping and fashion events, are recorded as selling, general and administrative expenses. These expenses are recorded based on estimates of benefits expected to be accumulated and redeemed in relation to sales.

Vendor Allowances

We receive allowances from merchandise vendors for cosmetic selling expenses, purchase price adjustments, cooperative advertising programs and vendor sponsored contests. Allowances for cosmetic selling expenses are recorded in selling, general and administrative expenses as a reduction to the related cost when incurred. Purchase price adjustments are recorded as a reduction of cost of sales at the point they have been earned and the related merchandise has been sold. Allowances for cooperative advertising and promotion programs and vendor sponsored contests are recorded in cost of sales and related buying and occupancy costs and selling, general and administrative expenses as a reduction to the related cost when incurred. Any allowances in excess of actual costs incurred that are recorded in selling, general and administrative expenses are recorded as a reduction to cost of sales. The following table shows vendor allowances earned during the year:

Fiscal year	2008	2007	2006
Cosmetic selling expenses	\$112	\$120	\$121
Purchase price adjustments	96	86	70
Cooperative advertising and promotion	65	61	67
Vendor sponsored contests	3	2	3
Total vendor allowances	\$276	\$269	\$261

Allowances were recorded in our consolidated statements of earnings as follows:

Fiscal year	2008	2007	2006
Cost of sales and related buying and occupancy costs	\$157	\$146	\$138
Selling, general and administrative expenses	119	123	123
Total vendor allowances	\$276	\$269	\$261

Fair Value of Financial Instruments

The carrying amounts of cash equivalents approximate fair value. See Note 6: Debt and Credit Facilities for the fair value of our long-term debt.

Derivatives Policy

We periodically enter into foreign currency purchase orders denominated in Euros for apparel, accessories and shoes. We use forward contracts to hedge against fluctuations in foreign currency prices. These forward contracts do not qualify for derivative hedge accounting, therefore any changes in the fair value of financial contracts are reflected in the statement of earnings. The notional amounts of our foreign currency forward contracts at the contract rates were \$3 and \$10 at the end of 2008 and 2007.

Recent Accounting Pronouncements

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (Revised 2007), *Business Combinations* ("SFAS 141(R)"). Under SFAS 141(R), an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS 141(R) will change the accounting treatment for certain specific acquisition-related items, including expensing acquisition-related costs as incurred, valuing noncontrolling interests (minority interests) at fair value at the acquisition date, and expensing restructuring costs associated with an acquired business. SFAS 141(R) also includes a substantial number of new disclosure requirements. SFAS 141(R) is to be applied prospectively to business combinations for which the acquisition date is on or after January 1, 2009. Early adoption is not permitted. Generally, the effect of SFAS 141(R) will depend on the circumstances of any potential future acquisition.

Also in December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, *Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51* ("SFAS 160"). SFAS 160 establishes new accounting and reporting standards for a noncontrolling interest (minority interest) in a subsidiary, provides guidance on the accounting for and reporting of the deconsolidation of a subsidiary, and increases transparency through expanded disclosures. Specifically, SFAS 160 requires the recognition of a minority interest as equity in the consolidated financial statements and separate from the parent company's equity. It also requires consolidated net earnings in the consolidated statement of earnings to include the amount of net earnings attributable to minority interest. This statement will be effective for Nordstrom as of the beginning of fiscal year 2009. Early adoption is not permitted. We do not believe the adoption of SFAS 160 will have a material impact on our consolidated financial statements.

Nordstrom, Inc. Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

In February 2008, the FASB issued FASB Staff Position No. FAS 157-2, ("FSP FAS 157-2"), which delayed the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), to fiscal years beginning after November 15, 2008. We are presently evaluating the impact of the adoption of SFAS 157 for our nonfinancial assets and nonfinancial liabilities and do not believe it will have a material effect on our consolidated financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, *Disclosures About Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133* ("SFAS 161"). SFAS 161 expands the disclosure requirements in SFAS 133 about an entity's derivative instruments and hedging activities. This statement will be effective for Nordstrom as of the beginning of fiscal year 2009. We do not believe the adoption of SFAS 161 will have a material impact on our consolidated financial statements.

NOTE 2: ACCOUNTS RECEIVABLE

The components of accounts receivable are as follows:

	January 31, 2009	February 2, 2008
Trade receivables:		
Unrestricted	\$14	\$18
Restricted	2,005	1,760
Allowance for doubtful accounts	(138)	(73)
Trade receivables, net	1,881	1,705
Other	61	83
Accounts receivable, net	\$1,942	\$1,788

The following table summarizes the restricted trade receivables:

	January 31, 2009	February 2, 2008
Private label card receivables	\$636	\$630
Nordstrom VISA credit card receivables	1,369	1,130
Restricted trade receivables	\$2,005	\$1,760

The restricted trade receivables secure our Series 2007-1 Notes, the Series 2007-2 Notes and our two variable funding notes. The restricted trade receivables relate to substantially all of our Nordstrom private label card receivables and our Nordstrom VISA credit card receivables.

The unrestricted trade receivables consist primarily of the remaining portion of our Nordstrom private label and Nordstrom VISA credit card receivables and accrued finance charges not yet allocated to customer accounts.

Other accounts receivable consist primarily of credit card receivables due from third-party financial institutions and vendor claims.

Nordstrom, Inc.
Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

NOTE 3: LAND, BUILDINGS AND EQUIPMENT

Land, buildings and equipment consist of the following:

	January 31, 2009	February 2, 2008
Land and land improvements	\$67	\$65
Buildings and building improvements	847	842
Leasehold improvements	1,631	1,313
Store fixtures and equipment	2,214	1,995
Software	347	303
Construction in progress	222	391
	5,328	4,909
Less: accumulated depreciation and amortization	(3,107)	(2,926)
Land, buildings and equipment, net	\$2,221	\$1,983

The total cost of buildings and equipment held under capital lease obligations was \$28 at the end of both 2008 and 2007, with related accumulated amortization of \$21 in 2008 and \$20 in 2007. The amortization of capitalized leased buildings and equipment of \$1 in both 2008 and 2007 was recorded in depreciation expense.

NOTE 4: EMPLOYEE BENEFITS

We provide a 401(k) and profit sharing plan for our employees. Our Board of Directors establishes our profit sharing contribution each year. The 401(k) component is funded by voluntary employee contributions and our matching contributions up to a fixed percentage of employee contributions. Our expense related to the profit sharing component and matching contributions to the 401(k) component totaled \$39, \$50 and \$73 in 2008, 2007 and 2006.

NOTE 5: INCOME TAXES

We recorded a liability for uncertain tax benefits upon adoption of Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* ("FIN 48") as of February 4, 2007. A reconciliation of the beginning and ending amount of unrecognized tax benefits for 2008 and 2007 is as follows:

Fiscal Year	2008	2007
Unrecognized tax benefit at beginning of year	\$27	\$21
Gross increase to tax positions in prior periods	2	5
Gross decrease to tax positions in prior periods	(1)	(1)
Gross increase to tax positions in current period	4	3
Lapse of statute	(1)	(1)
Settlements	(3)	-
Unrecognized tax benefit at end of year	\$28	\$27

Unrecognized tax benefits related to federal, state and foreign tax positions may decrease by \$13 by January 30, 2010, if years close and audits are completed during 2009.

As of January 31, 2009 and February 2, 2008, \$10 and \$9 of the ending gross unrecognized tax benefit balance relates to deferred items which, if recognized, would not impact the effective tax rate.

Interest and penalties related to income tax matters are classified as a component of income tax expense. During 2008 and 2007, our income tax expense included \$2 and \$3 of tax-related interest and penalties. At the end of 2008 and 2007, our liability for interest and penalties was \$6 and \$4.

Nordstrom, Inc.
Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

We file income tax returns in federal and various state and local jurisdictions. Prior to 2008, we filed returns in France and other foreign jurisdictions. With few exceptions, we are no longer subject to federal, state and local, or non-U.S. income tax examinations for years before 2002. During 2008, the IRS completed its routine examinations of our federal filings for the years 2002 through 2006. As a result of adjustments identified in the IRS examinations and revisions of estimates, we increased our deferred tax assets, specifically related to land, buildings and equipment which also resulted in a reduction in our effective tax rate. Additionally, the federal tax returns for 2007 and 2008 are under concurrent year processing (accelerated audits), which are expected to be completed in 2009 and 2010. We also currently have an active examination in France for the years 2001 through 2004, related to our Façonnable business which we sold in 2007.

Income tax expense consists of the following:

Fiscal year	2008	2007	2006
Current income taxes:			
Federal	\$244	\$435	\$423
State and local	39	65	63
Total current income tax expense	283	500	486
Deferred income taxes:			
Current	(29)	(24)	(10)
Non-current	(7)	(18)	(48)
Total deferred income tax benefit	(36)	(42)	(58)
Total income tax expense	\$247	\$458	\$428

A reconciliation of the statutory Federal income tax rate to the effective tax rate on earnings before income taxes is as follows:

Fiscal year	2008	2007	2006
Statutory rate	35.0%	35.0%	35.0%
State and local income taxes, net of federal income taxes	3.4	3.4	3.2
Deferred tax adjustment	(3.2)	-	-
Permanent differences	2.0	-	-
Other, net	0.9	0.6	0.5
Effective tax rate	38.1%	39.0%	38.7%

Deferred income taxes reflect the net tax effect of temporary differences between amounts recorded for financial reporting purposes and amounts used for tax purposes. The major components of deferred tax assets and liabilities are as follows:

	January 31, 2009	February 2, 2008
Compensation and benefits accruals	\$99	\$105
Accrued expenses	63	56
Merchandise inventories	26	28
Land, buildings and equipment basis and depreciation differences	7	-
Gift cards and gift certificates	17	15
Loyalty reward certificates	11	10
Allowance on accounts receivables	54	28
Federal benefit of state taxes	10	9
Other	2	13
Total deferred tax assets	289	264
Land, buildings and equipment basis and depreciation differences	-	(4)
Total deferred tax liabilities	-	(4)
Net deferred tax assets	\$289	\$260

Nordstrom, Inc.
Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

NOTE 6: DEBT AND CREDIT FACILITIES

We hold both secured and unsecured debt. The primary collateral for our secured debt is our Nordstrom private label card and Nordstrom VISA credit card receivables. A summary of long-term debt is as follows:

	January 31, 2009	February 2, 2008
Secured		
Series 2007-1 Class A Notes, 4.92%, due April 2010	\$326	\$326
Series 2007-1 Class B Notes, 5.02%, due April 2010	24	24
Series 2007-2 Class A Notes, one-month LIBOR plus 0.06% per year, due April 2012	454	454
Series 2007-2 Class B Notes, one-month LIBOR plus 0.18% per year, due April 2012	46	46
Mortgage payable, 7.68%, due April 2020	63	67
Other	17	19
	930	936
Unsecured		
Senior notes, 5.625%, due January 2009	-	250
Senior notes, 6.25%, due January 2018, net of unamortized discount	646	646
Senior debentures, 6.95%, due March 2028	300	300
Senior notes, 7.00%, due January 2038, net of unamortized discount	343	342
Other	19	23
	1,308	1,561
Total long-term debt	2,238	2,497
Less: current portion	(24)	(261)
Total due beyond one year	\$2,214	\$2,236

Both the Series 2007-1 Class A & B Notes and the Series 2007-2 Class A & B Notes are secured by substantially all of the Nordstrom private label card receivables and a 90% interest in the Nordstrom VISA credit card receivables.

Our mortgage payable is secured by an office building which had a net book value of \$82 at the end of 2008.

Other secured and unsecured debt consists primarily of capital lease obligations and liabilities related to the acquisition of Jeffrey.

During the fourth quarter of 2008, we retired our \$250 in 5.625% senior notes. The notes were paid using commercial paper borrowings.

The fair value of long-term debt, including current maturities, using quoted market prices of the same or similar issues, was \$1,750 and \$2,514 at the end of 2008 and 2007.

Required principal payments on long-term debt, excluding capital lease obligations, are as follows:

Fiscal year	
2009	\$23
2010	355
2011	5
2012	505
2013	5
Thereafter	1,332

The components of interest expense, net are as follows:

Fiscal year	2008	2007	2006
Interest expense on long-term debt and short-term borrowings	\$145	\$102	\$63
Less:			
Interest income	(3)	(16)	(15)
Capitalized interest	(11)	(12)	(5)
Interest expense, net	\$131	\$74	\$43

Nordstrom, Inc. Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

As of January 31, 2009, we had total short-term borrowing capacity for general corporate purposes of \$950, of which we have borrowings outstanding of \$275. Of the total capacity, we have \$650 under our commercial paper program, which is backed by our unsecured line of credit. As of January 31, 2009, we had \$275 in outstanding issuances of commercial paper. We paid a weighted average interest rate of approximately 1% for these issuances, which had a term of three days. As of February 2, 2008, we had no outstanding issuances of commercial paper. As of January 31, 2009 and February 2, 2008, we had no outstanding borrowings under our line of credit. The remaining \$300 in short-term capacity as of January 31, 2009 was available under a Variable Funding Note facility ("2007-A VFN"). As of January 31, 2009 and February 2, 2008, we had no outstanding issuances against this facility.

During 2008, we increased our short-term borrowing capacity, by exercising the \$150 accordion feature on our revolving credit facility. The accordion feature allowed us to increase our existing \$500 unsecured line of credit to \$650. In conjunction with the increase of our unsecured line of credit, we also increased our \$500 commercial paper program to \$650.

Our short-term borrowing facilities include restrictive covenants. Our commercial paper program allows us to use the proceeds to fund share repurchases as well as operating cash requirements. Under the terms of the commercial paper agreement, we pay a rate of interest based on, among other factors, the maturity of the issuance and market conditions. The issuance of commercial paper has the effect, while it is outstanding, of reducing the borrowing capacity under the line of credit by an amount equal to the principal amount of the commercial paper. The unsecured line of credit expires in November 2010 and requires that we maintain a leverage ratio not greater than approximately four times adjusted debt to earnings before interest, income taxes, depreciation, amortization and rent ("EBITDAR"). As of January 31, 2009 and February 2, 2008 we were in compliance with this covenant.

Our 2007-A VFN is backed by substantially all of the Nordstrom private label card receivables and a 90% interest in the Nordstrom VISA credit card receivables with a commitment of \$300. Borrowings under the facility incur interest based upon the cost of commercial paper issued by the third-party bank conduit plus specified fees. We pay a commitment fee for the note based on the size of commitment and the amount of borrowings outstanding. The facility matures November 2009 and can be cancelled if our debt ratings fall below Standard and Poor's BB+ rating or Moody's Baa rating. As of March 20, 2009, our rating by Standard and Poor's was A-, four grades above BB+, and by Moody's was Baa2, two grades above Ba1.

Our wholly owned federal savings bank, Nordstrom fsb, also maintains a variable funding facility with a short-term credit capacity of \$100. This facility is backed by the remaining 10% interest in the Nordstrom VISA credit card receivables and is available, if needed, to provide liquidity support to Nordstrom fsb. As of January 31, 2009 and February 2, 2008, Nordstrom fsb had no outstanding borrowings under this facility. Borrowings under the facility incur interest based upon the cost of commercial paper issued by the third-party bank conduit plus specified fees.

NOTE 7: LEASES

Future minimum lease payments as of January 31, 2009 are as follows:

Fiscal year	Capital Leases	Operating Leases
2009	\$3	\$79
2010	2	82
2011	2	78
2012	2	64
2013	2	58
Thereafter	9	335
Total minimum lease payments	20	\$696
Less amount representing interest	(7)	
Present value of net minimum lease payments	\$13	

Rent expense for 2008, 2007 and 2006 are as follows:

Fiscal year	2008	2007	2006
Minimum rent:			
Store locations	\$63	\$67	\$67
Offices, warehouses and equipment	13	14	15
Percentage rent – store locations	9	14	12
Property incentives – store locations	(48)	(47)	(46)
Total rent expense	\$37	\$48	\$48

The rent expense above does not include common area maintenance costs of \$19 in both 2008 and 2007 and \$16 in 2006.

Nordstrom, Inc.
Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

NOTE 8: SELF INSURANCE

We retain a portion of the risk for certain losses related to health and welfare, workers' compensation and general liability claims. Liabilities associated with these losses include estimates of both losses reported and losses incurred but not yet reported. We estimate our ultimate cost based on analysis of historical data and independent actuarial estimates.

- **Health and Welfare** – We are self insured for the majority of our health and welfare coverage and we do not use stop-loss coverage. Participants contribute to the cost of their coverage through both premiums and out of pocket expenses and are subject to certain plan limits and deductibles. Our health and welfare reserve was \$16 and \$14 at the end of 2008 and 2007.
- **Workers' Compensation** – We have a retention per claim of \$1 or less and no policy limits. Our workers' compensation reserve was \$53 at the end of both 2008 and 2007 and our expense was \$19, \$15 and \$21 in 2008, 2007 and 2006.
- **General Liability** – Our General Liability encompasses two types of losses – Employment Practices Liability and Commercial General Liability. We have a retention per claim of \$1 or less and a policy limit up to \$25 and \$150, respectively. Our general liability insurance reserve was \$11 at the end of 2008 and \$10 at the end 2007.

NOTE 9: POST-RETIREMENT BENEFITS

We have an unfunded Supplemental Executive Retirement Plan ("SERP"), which provides retirement benefits to certain officers and select employees. The SERP has different benefit levels depending on the participant's role in the company. As of January 31, 2009 and February 2, 2008, there were 33 and 38 officers and select employees eligible for SERP benefits. This plan is non-qualified and does not have a minimum funding requirement.

Effective February 3, 2007, we adopted Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* ("SFAS 158"). The impact of the adoption of SFAS 158 is reflected within our consolidated financial statements as of February 3, 2007. SFAS 158 requires the recognition of a plan's overfunded or underfunded status as an asset or liability in the consolidated balance sheet and the recognition of changes in that funded status in the year in which the changes occur through comprehensive income.

The following table reflects the effects of the adoption of SFAS 158 on our consolidated balance sheet as of February 3, 2007:

	Before Application of Statement 158	Adjustments	After Application of Statement 158
Other assets	\$185	\$2	\$187
Total assets	4,820	2	4,822
Other liabilities	228	12	240
Accumulated other comprehensive earnings (loss), net	1	(10)	(9)
Total shareholders' equity	2,179	(10)	2,169
Total liabilities and shareholders' equity	\$4,820	\$2	\$4,822

Amounts not yet reflected in net periodic benefit cost and included in accumulated other comprehensive earnings (pre-tax) included prior service cost of \$(2) and \$(3) and accumulated loss of \$(9) and \$(28) at the end of 2008 and 2007.

The change in benefit obligation and plan assets for 2008 and 2007 are as follows:

	January 31, 2009	February 2, 2008
Change in benefit obligation:		
Benefit obligation at beginning of year	\$95	\$98
Participant service cost	3	3
Interest cost	7	6
Benefits paid	(4)	(4)
Actuarial gain	(16)	(8)
Benefit obligation at end of year	\$85	\$95
Change in plan assets:		
Fair value of plan assets at beginning of year	-	-
Employer contribution	\$4	\$4
Distributions	(4)	(4)
Fair value of plan assets at end of year	-	-
Underfunded status	\$(85)	\$(95)

The accumulated benefit obligation was \$81 at January 31, 2009 and \$86 at February 2, 2008.

Nordstrom, Inc.
Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

Amounts recognized as liabilities in the consolidated balance sheets consist of:

	January 31, 2009	February 2, 2008
Current liabilities	\$5	\$5
Noncurrent liabilities	80	90
Net amount recognized	\$85	\$95

The components of SERP expense are as follows:

Fiscal year	2008	2007	2006
Participant service cost	\$2	\$2	\$2
Interest cost	6	6	6
Amortization of net loss	2	3	3
Amortization of prior service cost	1	1	1
Total expense	\$11	\$12	\$12

Weighted-average assumptions used to determine benefit obligation and net periodic benefit cost are as follows:

Fiscal year	2008	2007	2006
Assumption percentages used to determine benefit obligation:			
Discount rate	6.95%	6.35%	6.00%
Rate of compensation increase	3.00%	3.00%	4.00%
Assumption percentages used to determine net periodic benefit cost:			
Discount rate	6.35%	6.00%	6.00%
Rate of compensation increase	3.00%	4.00%	4.00%
Measurement date	1/31/09	10/31/07	10/31/06

In accordance with SFAS 158, during 2008, we recognized a one-time adjustment of (\$3) to retained earnings in shareholders' equity as a result of changing our benefit obligation measurement date from October 31 to our fiscal year-end.

In 2008, the methodology for selecting the discount rate was to match the plan's cash flows to that of a theoretical bond portfolio yield curve that provides the equivalent yields on zero-coupon, non-callable bonds with an AA rating or better by Moody's and have at least \$250 of outstanding issue for each maturity. In 2007, we used a discount rate that was determined by constructing a hypothetical bond portfolio based on bonds available on October 31, 2007 rated AA or better by either Moody's or Standard & Poor's. The discount rate changed from 6.35% in 2007 to 6.95% in 2008 to reflect the current interest rate environment.

In 2008, we updated the post-retirement mortality table to better reflect plan experience. In addition, we updated our assumptions relating to bonus payments, profit sharing contribution and salary growth.

As of January 31, 2009, the expected future benefit payments based upon the assumptions described above and including benefits attributable to future employee service for the following periods are as follows:

Fiscal year	
2009	\$5
2010	5
2011	5
2012	6
2013	6
2014-2018	37

In 2009, we expect less than \$1 of costs currently in accumulated other comprehensive earnings to be recognized as components of net periodic benefit cost. We expect to make contributions to the plan of \$5.

Nordstrom, Inc.
Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

NOTE 10: SALE OF FAÇONNABLE

During the third quarter of 2007, we completed the sale of our Façonnable business in exchange for cash of \$216, net of transaction costs. As part of this transaction, goodwill of \$28, acquired tradename of \$84, and foreign currency translation of \$16 were removed from our consolidated balance sheet and we recorded a gain of \$34. Upon the closing of this transaction, we entered into a Transition Services Agreement, whereby we will continue to provide certain back office functions related to the Façonnable U.S. wholesale business for a limited amount of time as part of a transition period.

NOTE 11: COMMITMENTS AND CONTINGENT LIABILITIES

We are involved in routine claims, proceedings and litigation arising in the normal course of our business. We do not believe any such claim, proceeding or litigation, either alone or in aggregate, will have a material impact on our results of operations, financial position or liquidity. Our estimated total purchase obligations, capital expenditure contractual commitments and inventory purchase orders were \$1,059 as of January 31, 2009. In connection with the purchase of foreign merchandise, we have outstanding import letters of credit totaling \$5 as of January 31, 2009.

NOTE 12: SHAREHOLDERS' EQUITY AND STOCK COMPENSATION PLANS

Share Repurchase Program

2008 SHARE REPURCHASES

During 2008 we repurchased 6.9 shares for \$238 at an average price of \$34.29. Although our share repurchase program will not expire until August 2009, we suspended the program in September 2008. We may resume the program in the future if economic conditions improve. As of January 31, 2009, we had \$1,126 in remaining capacity under our share repurchase program. The actual amount and timing of future share repurchases will be subject to market conditions and applicable Securities and Exchange Commission rules.

2007 SHARE REPURCHASES

In August 2007, our Board of Directors authorized a \$1,500 share repurchase program and in November 2007 authorized an additional \$1,000 for share repurchases.

During 2007, we repurchased 39.1 shares for \$1,728 at an average price per share of \$44.17, including \$300 repurchased as part of an accelerated share repurchase program. We repurchased 5.4 shares of our common stock on May 23, 2007 at \$55.17 per share and in June 2007, we received 0.4 shares at no additional cost, based on the volume weighted average price of our common stock from June 1, 2007 to June 26, 2007. This resulted in an average price per share of \$51.69 for the accelerated share repurchase as a whole.

2006 SHARE REPURCHASES

At the beginning of 2006, we had \$213 remaining from a program authorized by our Board of Directors in February 2005. In 2006, our Board of Directors authorized an additional \$1,000 of share repurchases. In 2006, we repurchased 16.5 shares for \$621 at an average price of \$37.57 per share.

Dividends

In 2008, we paid dividends of \$0.64 per share. We paid dividends of \$0.54 and \$0.42 in 2007 and 2006.

Nordstrom, Inc.
Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

Stock Compensation Plans

We currently grant stock options, performance share units and common shares under our 2004 Equity Incentive Plan.

The following table summarizes our stock-based compensation expense:

Fiscal year	2008	2007	2006
Stock options	\$24	\$23	\$27
Employee stock purchase plan	2	2	2
Performance share units	-	(1)	7
Other	2	2	1
Total stock-based compensation expense before income tax benefit	28	26	37
Income tax benefit	(10)	(9)	(13)
Total stock-based compensation expense, net of income tax benefit	\$18	\$17	\$24

The stock-based compensation expense before income tax benefit was recorded in our consolidated statements of earnings as follows:

Fiscal year	2008	2007	2006
Cost of sales and related buying and occupancy costs	\$10	\$10	\$12
Selling, general and administrative expenses	18	16	25
Total stock-based compensation expense before income tax benefit	\$28	\$26	\$37

Statement of Financial Accounting Standard No. 123(R), *Share-Based Payment* ("SFAS 123(R)"), requires the benefits of tax deductions in excess of the compensation cost recognized for those awards to be classified as financing cash inflows rather than operating cash inflows. This amount is shown as "Excess tax benefit from stock-based payments" in the consolidated statement of cash flows and was \$4, \$26 and \$38 in 2008, 2007 and 2006.

STOCK OPTIONS

We used the following assumptions to estimate the fair value for stock options at grant date:

Fiscal year	2008	2007	2006
Risk-free interest rate	2.0% - 4.3%	4.6% - 4.7%	4.9% - 5.1%
Volatility	45.0%	35.0%	37.0%
Dividend yield	1.3%	1.0%	1.0%
Expected life in years	5.5	5.7	5.4

The weighted average fair value per option at the grant date was \$15, \$20 and \$16 in 2008, 2007 and 2006. The following describes the significant assumptions used to estimate the fair value of options granted:

- Risk-free interest rate: The risk-free interest rate represents the yield on U.S. Treasury zero-coupon securities that mature over the 10-year life of the stock options.
- Expected volatility: The expected volatility is based on a combination of the historical volatility of our common stock and the implied volatility of exchange traded options for our common stock.
- Expected dividend yield: The expected dividend yield is our forecasted dividend yield for the next ten years.
- Expected life in years: The expected life represents the estimated period of time until option exercise. The expected term of options granted was derived from the output of the Binomial Lattice option valuation model and was based on our historical exercise behavior taking into consideration the contractual term of the option and our employees' expected exercise and post-vesting employment termination behavior.

In 2008 and 2007, stock option awards to employees were approved by the Compensation Committee of our Board of Directors and their exercise price was set at \$38.02 and \$53.63, respectively, the closing price of our common stock on February 28, 2008 and March 1, 2007 (the date of grant). In 2006, stock option awards to employees were approved by the Compensation Committee of our Board of Directors and their exercise price was set at \$40.27, the closing price of our common stock on the Committee meeting date. The stock option awards provide recipients with the opportunity for financial rewards when our stock price increases. The awards are determined based upon a percentage of the recipients' base salary and the fair value of the stock options. In 2008, we awarded stock options to 1,230 employees compared to 1,195 and 1,236 employees in the same periods in 2007 and 2006.

Nordstrom, Inc.
Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

As of January 31, 2009, we have options outstanding under two stock option plans (collectively, the "Nordstrom, Inc. Plans"). Options vest over periods ranging from four to eight years, and expire ten years after the date of grant. We recognize stock-based compensation expense on a straight-line basis over the requisite service period. A summary of the stock option activity for 2008 under the Nordstrom, Inc. Plans is presented below:

Fiscal Year	2008			
	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Outstanding, beginning of year	10.9	\$25		
Granted	2.2	38		
Exercised	(0.8)	17		
Cancelled	(0.5)	40		
Outstanding, end of year	11.8	\$27	6	\$9
Options exercisable at end of year	7.5	\$19	4	\$9
Options vested or expected to vest at end of year	11.1	\$26	6	\$9

The total intrinsic value of options exercised during 2008, 2007 and 2006 was \$14, \$79 and \$111. The total fair value of stock options vested during fiscal years 2008, 2007 and 2006 was \$24, \$24 and \$30. As of January 31, 2009, the total unrecognized stock-based compensation expense related to nonvested stock options was \$37, which is expected to be recognized over a weighted average period of 30 months.

PERFORMANCE SHARE UNITS

We grant performance share units to executive officers as one of the ways to align compensation with shareholder interests. Performance share units are payable in either cash or stock as elected by the employee; therefore they are classified as a liability award in accordance with Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*. Performance share units vest after a three-year period only when our total shareholder return (reflecting daily stock price appreciation and compound reinvestment of dividends) is positive and outperforms companies in a defined group of direct competitors determined by the Compensation Committee of our Board of Directors. The percentage of units that are earned depends on our relative position at the end of the vesting period and can range from 0% to 125% of the number of units granted.

The liability is remeasured and the appropriate earnings adjustment is taken at each fiscal quarter-end during the vesting period. The performance share unit liability is remeasured using the estimated vesting percentage multiplied by the closing market price of our common stock on the current period-end date and is pro-rated based on the amount of time passed in the vesting period. The price used to issue stock or cash for the performance share units upon vesting is the closing market price of our common stock on the vest date.

As of January 31, 2009, we had no liabilities related to performance share units. As of February 2, 2008, our liabilities included \$3 for performance share units. As of January 31, 2009, we did not have any unrecognized stock-based compensation expense for unvested performance share units as we had a negative total shareholder return for all outstanding periods. This position may change before the end of the vesting period for the unvested performance share units. At February 2, 2008, 113,743 units were unvested. During the year ended January 31, 2009, 79,504 units were granted, 57,006 units were vested but unearned and 18,852 units were cancelled, resulting in an ending balance of 117,389 unvested units as of January 31, 2009.

The following table summarizes the information for performance share units that vested during the period:

Fiscal Year	2008	2007	2006
Number of performance share units earned ¹	-	191,794	216,865
Total fair value of performance share units earned	-	\$12	\$11
Total amount of performance share units settled or to be settled for cash	-	\$3	\$6

¹In 2008, 57,006 units were vested, but unearned as the units had a negative total shareholder return as of January 31, 2009 (vest date).

NONEMPLOYEE DIRECTOR STOCK INCENTIVE PLAN

The Nonemployee Director Stock Incentive Plan authorizes the grant of stock awards to our nonemployee directors. These awards may be deferred or issued in the form of restricted or unrestricted stock, nonqualified stock options or stock appreciation rights. In 2008, we deferred shares with a total expense of \$1. As of January 31, 2009, we had 0.7 remaining shares available for issuance.

EMPLOYEE STOCK PURCHASE PLAN

We offer an Employee Stock Purchase Plan ("ESPP") as a benefit to our employees. Employees may make payroll deductions of up to ten percent of their base and bonus compensation. At the end of each six-month offering period, participants may purchase shares of our common stock at 90% of the fair market value on the last day of each offer period. Beginning in 2006, we recorded compensation expense over the purchase period at the fair value of the ESPP at the end of each reporting period. We issued 0.6 shares under the ESPP during the year ended January 31, 2009. As of January 31, 2009 and February 2, 2008, we had current liabilities of \$5 and \$6, respectively, for future purchase of shares under the ESPP.

Nordstrom, Inc.
Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

NOTE 13: ACCUMULATED OTHER COMPREHENSIVE (LOSS) EARNINGS

The following table shows the components of accumulated other comprehensive (loss) earnings, net of tax:

	January 31, 2009	February 2, 2008	February 3, 2007
Foreign currency translation	-	-	\$15
Unrecognized loss on postretirement benefit obligations, prior to adoption of SFAS 158	-	-	(16)
Adjustment to initially apply SFAS 158	-	-	(13)
Unrecognized loss on postretirement benefit obligations, subsequent to adoption of SFAS 158	\$(10)	\$(22)	-
Fair value adjustment to investment in asset backed securities	-	-	5
Total accumulated other comprehensive loss	\$(10)	\$(22)	\$(9)

Included in our adjustment to initially apply SFAS 158 in 2006 are our SERP and our employee retiree medical plan. The adoption of SFAS 158 had a \$(3) impact (net of tax of \$2) to accumulated other comprehensive earnings for the retiree medical plan.

NOTE 14: EARNINGS PER SHARE

Earnings per basic share is computed using the weighted average number of common shares outstanding during the year. Earnings per diluted share uses the weighted average number of common shares outstanding during the year plus dilutive common stock equivalents, primarily stock options and performance share units.

The computation of earnings per share is as follows:

Fiscal year	2008	2007	2006
Net earnings	\$401	\$715	\$678
Basic shares	216.6	244.8	260.7
Dilutive effect of stock options and performance share units	2.6	4.0	5.0
Diluted shares	219.2	248.8	265.7
Earnings per basic share	\$1.85	\$2.92	\$2.60
Earnings per diluted share	\$1.83	\$2.88	\$2.55

Options and other equity instruments totaling 4.9 shares in 2008, 2.7 shares in 2007 and 1.9 shares in 2006 were excluded from earnings per diluted share because their impact was anti-dilutive.

Since the beginning of 2006, 6.9 shares have been issued upon the exercise of stock options; we repurchased a total of 62.5 shares during the three fiscal years ended January 31, 2009.

Nordstrom, Inc.
Notes to Consolidated Financial Statements

Dollar and share amounts in millions except per share and per option amounts

NOTE 15: SEGMENT REPORTING

We offer three main channels through which our customers can shop: full-line and Rack retail stores and Nordstrom Direct (online and catalog). Our goal is to create an integrated, consistent merchandise offering for our customers regardless of which channel they choose. These three channels meet the aggregation criteria set forth in Statement of Financial Accounting Standards No. 131, *Disclosures about Segments of an Enterprise and Related Information* ("SFAS 131") with the exception of "distribution method." Nordstrom Direct sells merchandise via our online store and the catalog as opposed to in a retail store. As such, we aggregate our full-line and Rack stores into the **Retail Stores** segment and report **Direct** as a separate segment.

The **Credit** segment earns finance charges and late fee income through operation of the Nordstrom private label and Nordstrom VISA credit cards.

The **Other** segment includes our product development group, which coordinates the design and production of private label merchandise sold in our retail stores, and our distribution network. This segment also includes our corporate center operations. During the time that we owned it, this segment also included the operations of our Façonnable business.

The segment information for 2007 and 2006 has been reclassified from our previous disclosures to reflect how we currently view our business. These changes include the 2008 view of interest expense between our Credit and Other segments and the 2008 view of our sales return reserve between our Direct and Other segments. These changes do not impact the consolidated statements of earnings.

The following table summarizes net sales by merchandise category:

Fiscal year	2008	2007	2006
Women's apparel	\$2,812	\$3,063	\$2,963
Shoes	1,721	1,784	1,731
Men's apparel	1,362	1,571	1,561
Women's accessories	963	941	848
Cosmetics	921	950	942
Children's apparel	269	285	286
Other	224	234	230
Total	\$8,272	\$8,828	\$8,561

The following table presents our sales by merchandise category as a percentage of net sales:

Fiscal year	2008	2007	2006
Women's apparel	34%	35%	35%
Shoes	21%	20%	20%
Men's apparel	16%	18%	18%
Women's accessories	12%	11%	10%
Cosmetics	11%	11%	11%
Children's apparel	3%	3%	3%
Other	3%	2%	3%
Total	100%	100%	100%

In general, we use the same measurements to compute earnings before income taxes for reportable segments as we do for the consolidated company. However, redemptions of our Nordstrom Notes[®] are included in net sales for our Retail Stores segment. The sales amount in our Other segment includes an entry to eliminate these transactions from our consolidated net sales. There is no impact to consolidated earnings before income taxes for this adjustment. In addition, our sales return reserve and other corporate adjustments are recorded in the Other segment. Other than described above, the accounting policies of the operating segments are the same as those described in the summary of significant accounting policies in Note 1.

¹Gross profit is calculated as net sales less cost of sales and related buying and occupancy costs.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

As of the end of the period covered by this Annual Report on Form 10-K, the Company performed an evaluation under the supervision and with the participation of management, including our President and Chief Financial Officer, of the design and effectiveness of our disclosure controls and procedures (as defined in rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based upon that evaluation, our President and our Chief Financial Officer concluded that, as of the end of the period covered by this Annual Report, our disclosure controls and procedures were effective in the timely and accurate recording, processing, summarizing and reporting of material financial and non-financial information within the time periods specified within the Commission's rules and forms. Our President and Chief Financial Officer also concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our President and Chief Financial Officer, to allow timely discussions regarding required disclosure.

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

The following information required under this item is filed as part of this report:

Management's Report on Internal Control Over Financial Reporting	31
Report of Independent Registered Public Accounting Firm	32

Item 9B. Other Information.

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

The information required under this item is included in the following sections of our Proxy Statement for our 2009 Annual Meeting of Shareholders, which sections are incorporated by reference herein and will be filed within 120 days after the end of our fiscal year:

- Executive Officers
- Election of Directors
- Board Committees
- Director Nominating Process
- Web site Access to Corporate Governance Documents
- Section 16(a) Beneficial Ownership Reporting Compliance
- Corporate Governance

The certifications of our President and Chief Financial Officer required pursuant to Sections 302 and 906 of the Sarbanes-Oxley Act of 2002 are included as exhibits to this Annual Report on Form 10-K and were included as exhibits to each of our quarterly reports on Form 10-Q. Our President certified to the New York Stock Exchange (NYSE) on June 11, 2008 pursuant to Section 303A.12(a) of the NYSE's listing standards, that he was not aware of any violation by the Company of the NYSE's corporate governance listing standards as of that date.

Item 11. Executive Compensation.

The information required under this item is included in the following sections of our Proxy Statement for our 2009 Annual Meeting of Shareholders, which sections are incorporated by reference herein and will be filed within 120 days after the end of our fiscal year:

- Compensation of Executive Officers
- Compensation Committee Report
- Director Compensation
- Compensation Committee Interlocks and Insider Participation

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Shareholder Matters.

The information required under this item is included in the following section of our Proxy Statement for our 2009 Annual Meeting of Shareholders, which sections are incorporated by reference herein and will be filed within 120 days after the end of our fiscal year:

Security Ownership of Certain Beneficial Owners and Management
Equity Compensation Plans

Item 13. Certain Relationships and Related Transactions.

The information required under this item is included in the following sections of our Proxy Statement for our 2009 Annual Meeting of Shareholders, which sections are incorporated by reference herein and will be filed within 120 days after the end of our fiscal year:

Election of Directors
Certain Relationships and Related Transactions

Item 14. Principal Accounting Fees and Services.

The information required under this item is included in the following section of our Proxy Statement for our 2009 Annual Meeting of Shareholders, which section is incorporated by reference herein and will be filed within 120 days after the end of our fiscal year:

Ratification of the Appointment of Independent Registered Public Accounting Firm

Certifications

We have filed the required certifications under Section 302 of the Sarbanes-Oxley Act of 2002 regarding the quality of our public disclosures as Exhibits 31.1 and 31.2 to our annual report on Form 10-K for the year ended January 31, 2009. After our 2009 Annual Meeting of shareholders, we intend to file with the New York Stock Exchange the CEO certification regarding our compliance with the NYSE's corporate governance listing standards as required by NYSE Rule 303A.12(a).

contains 100% PCW.

A low-angle, close-up photograph of a woman's legs and feet as she walks on a light-colored tiled floor. She is wearing a black dress and black high-heeled shoes. In her right hand, she carries a large, light-colored paper shopping bag with the word "NORDSTROM" printed in white capital letters. The background is blurred, showing what appears to be a store interior with a tiled floor and some indistinct shapes. The lighting is warm and soft, creating a sophisticated and elegant atmosphere.
