CHAIRMAN'S REPORT

Professor John Sheehan AM
CHAIRMAN

It gives me great pleasure to introduce the Annual Report of Desane Group Holdings Limited for 2022.

I can report to shareholders that the Group's earnings before interest and tax, for the financial year ending 30 June 2022, was **\$6.8m** and the Group's total assets are **\$97.6m**, a substantial increase of 11% over the previous corresponding year. The Group's **net tangible assets (NTA)** now stand at **\$1.55 per security**, an increase of 8% over the previous corresponding year.

Notwithstanding the aftermath from COVID-19, the Group has continued to be minimally affected. In such an environment the Group has achieved a robust financial result, particularly asset revaluations, whilst at the same time the current cash and financial assets stands at a healthy \$15.4m.

As mentioned in my report last year, these substantial cash reserves continue to place the Group in a good position to facilitate the uptake of property investment opportunities over the next financial year.

The Board has resolved that the advantageous cash position of the Group should be preserved in order to facilitate current and future opportunities and further resolved not to declare a dividend for this financial year.

The Group's traditional base of industrial and logistic property assets have continued to perform well and remain clearly positioned for growth in a property investment sector which is increasingly sought after. As previously mentioned, the Group's cash position continues to be strong, providing opportunities to support prudent property acquisition and investments when the occasion arises. This focussed approach continues to grow the revenue streams but crucially also, providing capital growth in the medium to long term. This is particularly evident in the substantial increase in the Group's total assets, which now stand at \$97.6m.

“The Group's traditional base of industrial and logistic property assets have continued to perform well and remain clearly positioned for growth in a property investment sector which is increasingly sought after.”

As mentioned in my report last year, the resilient Australian economic growth has been clearly supported by rising energy exports and strong domestic expenditure. Paradoxically, this very growth has triggered the Reserve Bank to tighten monetary policy, as it endeavours to place inflation ranges within accepted targets. Australian bond yields continue to be well supported, suggesting that long dated investor perceptions are such that the Australian economy continues to have an underlying robustness. I would be remiss to not reflect on the impact of two international aspects which have a bearing upon the Australian economy. Firstly, the continuing apparent deterioration of the relationship between Australia and China and secondly, the slowly increasing but inevitable impact of the Ukraine-Russia conflict. It is evident that efficient and cost-effective international trade, notably in building materials, has been adversely affected, with resultant increases in cost bases. Such impacts are clearly of importance for our Board when committing to making decisions regarding upgrading and constructing some of our Group's assets.

The Board and the Group management continue to monitor such building costs, and in the forthcoming financial year it is anticipated that such costs should stabilise.

Whilst the Australian economy clearly remains vulnerable to global influences, nevertheless a prospective reduction in residential construction will doubtless see surplus capacity in building materials and construction capacity. This should underpin a more reasonable cost base for construction, and is regarded as potentially beneficial for commercial and industrial construction in the coming financial year.

Finally, I can report to shareholders that this annual report is the 35th such report of Desane Group Holdings Limited. Your Company has continued to maintain its profitability due to the quality of its senior management and the invaluable contribution of its current Board.

Your Board remains confident the current prudent strategies of investment and cash retention will continue to result in responsible asset growth and further earnings for shareholders. I congratulate both the Group executives and the employees of Desane Group Holdings Limited for the solid and as always, prudent management of the Group.

Finally, I would like to welcome those shareholders who have recently joined the Company. The Board looks forward to a rewarding and fruitful association with those new shareholders during the coming years.

PROFESSOR JOHN SHEEHAN AM
Chairman

I am pleased to report that Desane Group Holdings Limited has reported its eleventh consecutive yearly profit result for FY22.

The Group's net tangible assets, over the past five (5) years, has **increased by 96%** and shareholders have been rewarded with **over \$7.6m in dividends**. Our management's focused approach has ensured that shareholders' asset value has been protected and enhanced.

The Group's profits increased by 157.1% over the corresponding period, driven by \$7.2m in asset revaluation. The Group's total assets increased by 11% to \$97.6m over the corresponding period and net tangible assets have increased by 8% over the corresponding period.

Desane's cash position remains strong with **\$15.4m in cash and financial assets**. The Company's diversified \$13.3m loan portfolio, secured by first registered mortgages against quality property assets, is yielding an **average of 7% pa interest revenue**.

Notwithstanding the economic impact and uncertainty caused by the second phase of COVID-19, the Group's management has remained focussed on:

- Adding value to our existing investment property portfolio;
- Creating value through obtaining planning approvals to our residential properties;
- Preservation of cash reserves and capital; and
- Ensuring the health and safety of our employees and customers.

In October 2020, Desane received development approval from Brisbane City Council to expand its existing industrial property asset located in the Brisbane suburb of Wacol. The existing 5,039m² facility is leased to Brisbane City Council and serves as the Council's vehicle and fleet maintenance headquarters. The approved facility will add 3,250m² of net lettable high clearance floor space to the existing 5,039m² facility, creating a total of 8,289m² of net lettable area.

Construction of the new facility is anticipated to commence this financial year. **On completion, the combined facilities should have a value of approximately \$20m and is expected to generate over \$1.1m per annum of net rental income for the Group.**

In June 2021, Desane received development approval for a boutique 4 storey residential development, comprising 9 residential apartments, 1 ground floor retail commercial space and 10 basement car spaces. The property is located in Norton Street's vibrant restaurant, café and cinema precinct and is 200m from Leichhardt North Light Rail Station.

The approval of the Norton Street project complements our Company's existing nearby 46-apartment project in Allen Street, which holds a current planning approval. The property is located 200m from Hawthorne Light Rail Station and is a short distance from local schools and other amenities.

On completion, the combined Norton Street and Allen Street developments could yield estimated revenues of between \$70m to \$75m for the Group.

Desane's two Leichhardt residential development properties are leased on a medium term basis, in anticipation of market conditions sentiments improving for residential apartment developments in Sydney's Inner West.

In June 2022, as part of its property investment portfolio restocking, Desane completed the acquisition of a prime commercial property located in the Sydney suburb of Leichhardt for \$7.25m. The property, zoned B2-Local Centre, has ample onsite parking and is located in the heart of Norton Street – Leichhardt's commercial, retail and residential district. The building currently includes multiple diverse tenancies over 1,800m² of net lettable area, yielding approximately \$0.5m net rent per annum. **The three Leichhardt properties are unencumbered.**

The acquisition and the planned upgrade costs for the new Norton Street commercial property has been funded through an \$8 million drawdown debt facility provided by the Commonwealth Bank. Desane's total bank facility with the Commonwealth Bank is \$13.9m, with a weighted average expiry of 3.7 years and a low variable rate of approximately 2.4% pa.

The Group's industrial and commercial property assets, and the approved residential development properties, combined with the 1.2ha property asset located in the Sydney western suburb of Penrith, should continue to achieve significant medium to long term returns for shareholders.

The emerging economic challenges for property companies in Australia, over the next 12 to 24 months, will require Desane's management to remain focussed on maintaining and improving its existing property assets' value and income. Desane's existing investment assets provide stability of income and the ability to add value. The Group's strong balance sheet, coupled with the ability to acquire additional income producing properties, will provide the opportunity to improve and protect shareholder's asset value, as well as to continue with its stated objectives of restocking its investment property portfolio and to continue to source reliable income producing and add-value assets, that will provide sustainable revenue streams, capital growth and medium to long term benefits for shareholders.

Over the next 12 months, the full economic impact of COVID-19 and world events will become evident in the broader economy and the property sector. The investment policies and measures implemented by Desane should provide a level of **protection against a negative economic impact**. Desane's investment property assets are performing well, in line with industrial and logistic assets across the major capital cities.

CHIEF EXECUTIVE'S REPORT

Phil Montrone
Managing Director & CEO

Over the past three years, Australian consumers have changed the way they spend, which has accelerated Australia's e-commerce market, resulting in a healthy demand for properties that offer warehousing, logistics and distribution facilities. Desane's investment assets fall into the highly sought-after industrial asset class, providing stability of income during these challenging times.

I wish to thank the executive team and all our dedicated staff for their hard work in producing a steady result in very difficult times.

Finally, I would like to acknowledge the support of our Company's shareholders, in particular for the confidence they have placed in the Company's management over the past twelve months.

PHIL MONTRONE OAM
Managing Director & CEO

16 INDUSTRIAL AVE. BRISBANE

An outstanding industrial property, strengthening and expanding our investment portfolio.

16 Industrial Avenue is a 21,750m² industrial site comprising of a 5,039m² warehouse, ample on-site parking and excellent truck access. The property is fully leased to a high quality local government tenant on a long term basis. Desane has recently had approved a Development Application with Brisbane City Council, to construct an additional 3,250m² industrial facility on the site. Construction is anticipated to begin in 2022.

Concept images of proposed project.

322 NORTON ST. LEICHHARDT

Creating community through a boutique development.

The 607m² site at Norton Street was previously used as an auto-electrical shop and has development approval for a 9-unit, mixed-use development. The property is located approximately 5 kilometres from the CBD and is zoned B2 Mixed-Use. Situated 200 metres from Leichhardt North Light Rail Station, the property is in walking distance to transport as well as Leichhardt's vibrant cafes, dining and shopping scene.

Concept images of proposed project.

159 ALLEN ST. LEICHHARDT

Lifestyle at the door step of the city fringe.

159 Allen Street, Leichhardt is a 2,782m², R1 General Residential zoned site. The property is located approximately 5 kilometres from the CBD, less than 200 metres from Hawthorne Light Rail Station and is a rare development opportunity in Sydney's city fringe. The property is in short distance to local schools, amenities and other public services, including the University of Sydney and the Royal Prince Alfred Hospital at Camperdown. Desane has recently attained planning approval from the Inner West Council for a 5-storey apartment complex, comprising of 46 residential apartments.

Concept images of proposed project.

270-278 NORTON ST. LEICHHARDT

This property, a family legacy in the heart of the inner west, is ideally placed in leafy surrounds and has been known for over forty years for the joy it provided when run as the function venue, Villa Rosa.

Situated just 400 metres from Leichhardt North Light Rail and in the heart of bustling Norton Street, this property will generate approximately \$0.5 million net rental for the Group when fully leased.

Zoned B2 (Leichhardt LEP) the property has an FSR of 1.5:1 and can be converted to residential apartments in the future (subject to council approval).

91 THORNTON DRIVE. PENRITH

Future development on the horizon.

91 Thornton Drive, Penrith has an area of approximately 1.2 hectares, with an 88m frontage to Thornton Drive. The site is located within 400 metres of Penrith Railway Station and 500 metres of Westfield Penrith Plaza and the Penrith CBD.

The property falls within the 'Thornton' Masterplan Urban Transformation and will form part of the urban transformation area. The NSW Government has announced an \$8.0 billion investment into the Western Sydney Airport at Badgerys Creek, a \$1.0 billion upgrade to the Nepean Hospital and anticipates 40,000 new jobs will be created in the Penrith area by 2021.

Concept images of proposed project.

13 SIRIUS RD. LANE COVE

The limited availability of highly sought after acquisition options will continue to drive investor demand in the area.
A 2,400m² commercial, high-tech building with 50 secure basement parking spaces. This property is fully leased to two high-quality tenants on a long term basis. The property is located within the Lane Cove West precinct and is approximately 12 kilometres north of the Sydney CBD.

Artists images

7 SIRIUS RD. LANE COVE

A 2,700m² commercial property.

Located in the Lane Cove West industrial precinct, the property is approximately 12 kilometres north of the Sydney CBD. The property is fully leased to a long term tenant and is situated within 100 metres from another asset owned by Desane.

DIRECTORS' REPORT

These consolidated financial statements are the financial statements of the consolidated entity consisting of Desane Group Holdings Limited and its controlled entities.

The consolidated financial statements were authorised for issue by the Directors on 26 August 2022. The Directors have the power to amend and reissue the consolidated financial statements. Through the use of the internet, we have ensured that our corporate reporting is timely and complete. All press releases, financial reports and other information are available on our website: desane.com.au

The Directors of Desane Group Holdings Limited ("Desane" and "the Company") present their report, together with the financial report of the Company and its controlled entities for the financial year ended 30 June 2022.

Deferred tax attributable to operating profit			(1,988)	(770)
Operating profit after income tax attributable to members of Desane Group Holdings Limited			4,644	1,806

Financial Review

Desane achieved a sound financial result for the 2022 financial year, despite a challenging domestic property market and economic unrest due to the impact of COVID-19. The Group's operational revenues and expenses have remained steady whilst its property portfolio has continued to grow year on year.

Following development approval from Brisbane City Council in October 2020, to expand its existing industrial property asset located in the Brisbane suburb of Wacol, Desane has progressed with securing a construction certificate with the view of engaging a builder to construct an additional 3,250m² high clearance facility. The new facility, once built, together with the existing 5,039m² facility, will create a total of 8,289m² of net lettable area and will generate over \$1.1m per annum of net rental income for the Group.

The acquisition and the planned upgrade costs for the new Norton Street property has been funded through an \$8 million drawdown debt facility provided by the Commonwealth Bank. Desane's total bank facility with Commonwealth Bank is \$13.9m, with a weighted average expiry of 3.7 years and a low variable rate of approximately 2.4% pa.

In June 2022, as part of its property investment portfolio restocking, Desane completed the acquisition of a prime commercial property located in the Sydney suburb of Leichhardt for \$7.25m. The property, zoned B2-Local Centre, has ample onsite parking and is located in the heart of Norton Street – Leichhardt's commercial, retail and residential district. The building currently includes multiple diverse tenancies over 1,800m² of net lettable area, yielding approximately \$0.5m net rent per annum.

Despite the challenging economic climate ahead, Desane will continue to focus on three main objectives into the new financial year and beyond:

1. Strategic investment acquisitions which will bolster ROE and rental income streams;
2. Evaluate its development projects with an eye to achieving maximum value outcomes; and
3. Review capital management strategies to ensure capacity to grow and continued shareholder dividends.

Capital Gains Tax Deferral

Included in the deferred tax liability of \$19.1m is approximately \$13.9m of capital gains tax (CGT) deferral pertaining to the involuntary sale of the Rozelle property, in September 2018, as part of the compulsory acquisition by Roads and Maritime Services which triggered a CGT event.

Dividends Paid or Recognised

	2022 \$'000	2021 \$'000
Dividends paid or declared for payment are as follows:		
Interim dividend of \$0.0225 unfranked, per share, paid on 26 March 2021		920
Ordinary dividend of \$0.0225 unfranked, per share, paid on 25 October 2021, declared in the 2021 financial year		920
No dividend was declared for the full year ended 30 June 2022	-	

Dividend Reinvestment Plan (DRP)

The DRP has been suspended until further notice.

Significant Changes in State of Affairs

There was no significant change in the state of affairs of the Group.

Events Subsequent to Balance Date

There were no events subsequent to the balance date.

Likely Developments

The Group continues to pursue its strategy of focusing on its core operations, utilising a strengthened statement of financial position to provide support to grow and develop these operations.

Environmental Regulation

The consolidated group complies with all relevant legislation and regulations in respect to environmental matters. No matters have arisen during the year in connection with Desane's obligations pursuant to Commonwealth and State environmental regulations.

Occupational Health and Safety Regulations

The consolidated group complies with all relevant legislation and regulations in respect to occupational health and safety matters.

COVID-19

Desane's workplace environment and practices are reviewed to ensure that the safety of its staff and visitors was a priority and that Desane was in compliance with Government policies. Appropriate COVID-19 safety measures have been implemented, which include the restriction of non-essential meetings at the head office, all staff members being given the option and equipment to work from home and all Board members being given the option to attend Board meetings remotely.

All properties owned and managed by Desane, both in NSW and QLD, also adhere to Occupational Health and Safety requirements. Staff members and contractors (on behalf of Desane) attending properties ensured that all site COVID-19 safety measures were followed and that Government COVID-19 policies were complied with. Desane has not applied for, nor received, Federal Government COVID-19 financial assistance such as JobKeeper.

AUDITED REMUNERATION REPORT

This report details the nature and amount of remuneration for each director of Desane Group Holdings Limited, and for the executives receiving the highest remuneration.

Remuneration Policy

The remuneration policy of Desane Group Holdings Limited has been designed to align director and executive objectives with shareholder and business objectives. The board of Desane Group Holdings Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best executives and directors to run and manage the consolidated group, as well as create goal congruence between directors, executives and shareholders.

Approach to Remuneration

The Group is committed to applying fair and equitable remuneration practices, taking into account the Company's corporate strategy, objectives and shareholder returns.

The Group's current remuneration framework includes:

1. Fixed remuneration
2. Incentive schemes
3. Executive agreements

Fixed Remuneration

Fixed remuneration includes a base salary, statutory superannuation and all other statutory entitlements. Fixed remunerations are reviewed annually by the Remuneration Committee and are based upon performance, qualification, experience and current market practices. The Remuneration Committee accesses external independent advice if required.

Incentive Schemes (Discretionary Remuneration)

Short Term Incentives

A discretionary Short Term Incentive ("STI") cash bonus may be offered to executives and key management personnel ("KMP") at the discretion of the Remuneration Committee. STIs align the achievement of strategic short term objectives for the long term benefit of the Company and its shareholders. The total potential STI available is set at a level that provides sufficient incentive to the executive to achieve the operational targets at a cost to the Group that is reasonable.

Approved STIs depend on the extent to which specific targets set by the Board at the beginning of the financial year (or shortly thereafter) are achieved. The targets consist of a number of Key Performance Indicators ("KPI") which are linked to the Company's strategic business objectives such as (but not limited to):

- Dividends paid;
- Earnings before interest and tax ("EBIT");
- Net profit after tax ("NPAT");
- Share price performance; and
- Net tangible asset ("NTA") per share.

On an annual basis, after consideration of the Group's performance against KPIs, the remuneration committee determines the amount, if any, of the STI to be paid to KMP.

For the financial year ended 30 June 2022, there was no approval or payment of an STI bonus to KMP (2021: \$-).

Consequences of Performance on Shareholder Wealth

In considering the Group's performance and benefits for shareholder wealth, the remuneration committee have regard to the following indices in respect of the current and previous financial years.

	2022	2021	2020
NPAT for the year at 30 June	\$4.6m	\$1.8m	\$2.3m
Dividends paid per share (cents)	-	4.5	4.5
Closing share price at 30 June	\$1.100	\$1.180	\$1.350
Earnings/(loss) per share (cents) at 30 June	11.35	4.42	5.52
Ordinary shares on issue at 30 June	40,909,990	40,909,990	40,909,990
NTA per share at 30 June	\$1.55	\$1.44	\$1.44

Executive Agreements

Executive agreements are formal legal agreements between the Company and all executives and KMP. The agreements are executed in line with the Corporations Act and will define terms of employment, role and responsibilities, performance expectations, specify termination payment arrangements, provide provisions for performance related bonuses and ensure transparency for the Company and its shareholders.

Executive agreements are generally reviewed every three years (unless required earlier) by the executive, KMP and the Remuneration Committee to ensure that they are adequate and updated if required.

Termination benefits are within the limits set by the *Corporations Act 2001* such that they do not require shareholder approval.

Name	Commencement Date	Term of Agreement & Notice Period	Base Salary inc. Superannuation \$'000	Termination Payments/ Benefits \$'000
P Montrone	1 September 1987	No fixed term & 12 months	222	-
R Montrone	2 November 2003	No fixed term & 12 months	395	-
J Sciara	3 September 2001	No fixed term & 12 months	223	-

Non Executive Directors

Total compensation for all non executive directors, last voted on at the 2015 Annual General Meeting, is not to exceed \$300,000 per annum. Currently, non executive directors are compensated to a total of \$0.1m per annum (2021: \$0.1m), inclusive of superannuation. The 2022 non executive director fees are 48% (2021: 48%) of the aggregate maximum sum approved by shareholders.

The base fee for the Chairman is \$84,000 per annum and \$55,000 per annum for other non executive directors. Base fee cover all main board activities and membership of all board committees. Non executive directors are not provided with retirement benefits apart from statutory superannuation if applicable.

Details of Remuneration for year ended 30 June 2022

The remuneration for each director and the executive officer of the consolidated entity receiving the highest remuneration during the year was as follows:

Directors	Salary & Fee \$'000	Short Term Benefits STI Cash Bonus \$'000	Superannuation \$'000	Total \$'000
John B. Sheehan (non-executive)	84	-	-	84
Peter Krejci (non-executive)	55	-	5	60
Phil Montrone	217	-	22	239
Rick Montrone	375	-	37	412
Chief Financial Officer/Company Secretary				
Jack Sciara	180	-	18	198
	911	-	82	993

Indemnifying Officers or Auditor

The company or consolidated group has not, during or since the financial year, in respect of any person who is or has been an officer or auditor of the company or a related body corporate, indemnified or made any relevant agreement for indemnifying against a liability incurred as an officer, including costs and expenses in successfully defending legal proceedings.

The company paid a premium of \$27,325 to insure the directors of the company and controlled entities. The policy provides cover for individual directors and officers of the company, in respect of claims made and notified to the insurer during the policy period for losses and expenses incurred in defence of claims for any alleged wrongful acts arising out of their official capacities. It will also reimburse the company for any liability it has to indemnify the directors or officers for such losses.

It is noted that the company's Constitution allows an officer or auditor of the company to be indemnified by the company against any liability incurred by him in his capacity of officer or auditor in defending any proceedings in which judgement is given in his favour.

Options

No options have been granted over unissued shares during the financial year and there are no outstanding options at 30 June 2022.

Proceedings on Behalf of the Company

The Owners Corporation of 47-51 Lilyfield Road, Rozelle, no longer having the ability to pursue the project builder, whom is in liquidation, for alleged building defect rectification works, had commenced legal proceedings in the NSW Supreme Court against Desane Contracting Pty Ltd. Refer to note 27e for further details.

Non-audit Services

The board of directors, in accordance with the advice from the Audit Committee, is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the services disclosed below did not compromise the external auditor's independence for the following reasons:

- All non-audit services are reviewed and approved by the Audit Committee prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- The nature of the services provided does not compromise the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

The following fees for non-audit services were paid/payable to the external auditors during the year ended 30 June 2022.

Auditor's Independence Declaration

The lead auditor's Independence Declaration for the year ended 30 June 2022, has been received and can be found on page 9 of the Financial Report.

ASIC Class Order 98/100 Rounding of Amounts

The company is an entity to which ASIC Class Order 98/100 applies and accordingly, amounts in the financial statements and directors' report have been rounded to the nearest thousand dollars.

Corporate Governance Statement

Desane is committed to implementing sound standards of corporate governance. The Group has taken into consideration the ASX Corporate Governance Council's Corporate Governance principles and Recommendations (4th Edition) ("ASX Recommendations"). The Group's corporate governance statement outlines the key principles and practices of the Company. A copy of the Group's Corporate Governance Statement has been placed on the Group's website under the About Us tab in the Corporate Governance Section - desane.com.au/about/corporate-governance/

This Report of the Directors, incorporating the Remuneration Report, is signed in accordance with a resolution of the Board of Directors, at Sydney, this 26th day of August, 2022.

Note 1: Summary of Significant Accounting Policies

Basis of Preparation

The financial report covers the economic entity of Desane Group Holdings Limited and its controlled entities. The separate financial statements of the parent entity, Desane Group Holdings Limited, have not been presented within this financial report, as permitted by the Corporations Act, 2001. Desane Group Holdings Limited is a listed public company, incorporated and domiciled in Australia.

The consolidated financial statements are presented in Australian dollars, which is the functional currency for the parent company and its controlled entities.

The financial statements were authorised for issue on 26 August 2022 by the directors of the Company. The financial statements are a general purpose financial report, that have been prepared in accordance with the Corporations Act, 2001, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board ("AASB") and the International Financial Reporting Standards as issued by the International Accounting Standards Board ("IASB"). The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards, as issued by IASB. Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

The following is a summary of the material accounting policies adopted by the consolidated group in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

The accounting policies set out below have been consistently applied to all years presented.

Accounting Policies

a. Principles of Consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of the parent entity controlled by Desane Group Holdings Limited and all of its controlled entities. Desane Group Holdings Limited controls an entity when it is exposed to or has rights to, variable returns from its involvement

with the entity and has the ability to affect those returns through its power over the entity.

A list of controlled entities is contained in note 30 to the financial statements. All controlled entities have a 30 June financial year end.

All inter-company balances and transactions between entities in the economic entity, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of controlled entities have been changed where necessary to ensure consistencies with those policies applied by the parent entity.

Where controlled entities have entered or left the economic entity during the year, their operating results have been included/excluded from the date control was obtained or until the date control ceased.

Non-controlling interests, being the equity in a controlled entity not attributable, directly or indirectly, to a parent, are reported separately within the equity section of the consolidated statement of financial position and statement of other comprehensive income. The non-controlling interests in the net assets comprise their interests at the date of the original business combination and their share of changes in equity since that date.

b. Income Tax

The income tax expense (benefit) for the year comprises current income tax expense and deferred tax expense (benefit).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using the applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amount expected to be paid to (recovered from) the relevant taxation authority. Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses. Deferred tax assets and liabilities are ascertained based on the temporary differences arising between the tax base of the assets and liabilities and their carrying amounts in the financial statements.

Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or a liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets or liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that the net settlement or simultaneous realisation and settlement of the respective asset and liability will occur.

Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Tax Consolidation

Desane Group Holdings Limited and its wholly owned Australian controlled entities have formed an income tax consolidated group under tax consolidation legislation. Each entity in the Group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liabilities (assets) and deferred tax assets arising from unused tax losses and tax credits in the controlled entities are immediately transferred to the head entity. The Group notified the Australian Taxation Office that it had formed an income tax consolidated group to apply from 1 July 2003. The tax consolidated group has entered a tax funding arrangement whereby each company in the Group contributes to the income tax payable by the Group in proportion to their contribution to the Group's taxable income.

c. Inventories

Development Property

Land held for development and sale is measured at the lower of cost and net realisable value. Net realisable value determined on the basis of like sales in the location and assess likelihood of full recovery of costs on the ultimate sale of the property. Costs include the cost of acquisition, development, borrowing costs and holding costs until the completion of development. Gains and losses are recognised in the statement of profit and loss on the signing of an unconditional contract of sale if significant risks and rewards and effective control over the property passes to the purchaser at this point. Inventory is classified as current when development is expected to be developed and available for sale in the next twelve months, otherwise it will be classified as non-current.

If applicable, the carrying value will include revaluations applied to the asset during the period the property was classified as an investment property.

d. Property, Plant and Equipment

Property

Freehold land and buildings are carried at their fair value (being the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's length transaction), based on periodic, but at least triennial, valuations by external independent valuers, less accumulated impairment losses and accumulated depreciation for buildings.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity; all other decreases are recognised in profit or loss.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Plant and Equipment

Each class of plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment are measured on a cost basis.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Depreciation

The depreciable amount of plant and equipment is depreciated on a straight line basis over their useful lives to the economic entity commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Motor vehicles	15%
Plant and equipment	2.5%-33%
Office and computer equipment	10%-33%

The assets' residual values and useful lives are reviewed and adjusted if appropriate, at each reporting date. An asset's carrying value is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Note 1: Summary of Significant Accounting Policies (cont)

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the consolidated statement of profit and loss.

e. Investment Properties

Investment properties, comprising freehold office and industrial complexes, are held to generate long-term rental yields and capital gains. All tenant leases are on an arm's length basis. The fair value model is applied to all investment property and each property is reviewed at each reporting date. The fair value is defined as the price at which the property could be exchanged between knowledgeable, willing parties in an arm's length transaction. Each property is independently valued at least every three years by registered valuers who have recognised and appropriate professional qualifications, and recent experience in the location and category of investment property being valued. Changes to fair value are recorded in the statement of profit and loss as revenue from non operating activities. Acquired investment properties are recognised in the statement of financial position when control of the property is attained and the Group derives the benefits of ownership.

Investment properties under construction are measured at the lower of fair value and net realisable value. Cost includes the cost of acquisition, development and interest on financing during development. Interest and other holding charges after practical completion are expensed as incurred.

Investment properties are maintained at a high standard and, as permitted by accounting standards, the properties are not depreciated.

Rental revenue from the leasing of investment properties is recognised in the statement of profit and loss and other comprehensive income in the periods in which it is receivable, as this represents the pattern of service rendered through the provision of the properties. All tenant leases are on an arm's length basis.

f. Leases

Finance leases are capitalised by recognising an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period. Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, as recognised as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight line basis over the lease term.

g. Financial Instruments

The Group has adopted AASB 9: Financial Instruments.

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the entity commits itself to either the purchase or sale of the asset (ie. trade date accounting is adopted). Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Financial instruments are subsequently measured at fair value through profit or loss, or amortised cost using the effective interest method, or cost.

The Group has interests in the following financial assets:

(i) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Group's intention to hold these investments to maturity. Interest income is recognised in profit or loss when received. On maturity, the financial asset is derecognised and re-classified as cash at bank.

h. Impairment of Assets

At each reporting date, the group reviews the carrying values of its tangible assets to determine whether there is any indication that those assets have been impaired. The assessment will include the consideration of external and internal sources of information. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less cost to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the consolidated statement of profit and loss.

i. Investments in Associates

Associates are companies in which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the entity but is not control or joint control of those policies. Profits and losses resulting from transactions between the Group and the associate are eliminated to the extent of the Group's interest in the associate.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group discontinues

recognising its share of further losses unless it has incurred legal or constructive obligations or made payments on behalf of the associate. When the associate subsequently makes profits, the Group will resume recognising its share of those profits once its share of the profits equals the share of the losses not recognised.

Investments in associate companies are recognised in the financial statements by applying the equity method of accounting, whereby the investment is initially recognised at cost and adjusted thereafter for the post acquisition change in the Group's share of net assets of the associate company. In addition, the Group's share of the profit or loss of the associate is included in the Group's profit or loss.

j. Interests in Joint Arrangements

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required. Joint venture operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The Group's interests in the assets, liabilities, revenue and expenses of joint operations are included in the respective line items of the consolidated financial statements.

Gains and losses resulting from sales to a joint operation are recognised to the extent of the other party's interest. When the Group makes a purchase from a joint operation, it does not recognise its share of the gains and losses from the joint arrangement until it resells the goods and services to a third party.

k. Employee Benefits

Short-term Employee Benefits

Provision is made for the Group's obligation for short-term employee benefits. Short-term employee benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Group's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Other Long-term Employee Benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary

levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Group's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Group does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

l. Provisions

Provisions are recognised when the group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

m. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

n. Revenue and Other Income

The Group has applied AASB 15: Revenue from Contracts with Customers.

Revenue from the rendering of property services is recognised upon delivery of the service to customers.

Investment property revenue is recognised on a straight-line basis over the period of the lease term so as to reflect a constant periodic rate of return on the net investment. The Group derives revenue from investing in properties for rental and capital appreciation over time.

Revenue from sale of properties held for resale and non-current property or other assets is brought to account when control over the property is transferred to the purchaser, often on the signing of an unconditional contract of sale if the significant risks and rewards and effective control over the property passes to the purchaser at this point.

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

Dividend revenue is recognised when the right to receive a dividend has been established. Dividends received from associates and joint venture entities are accounted for in accordance with the equity method of accounting.

NOTES TO THE
FINANCIAL STATEMENTS
for the year ended 30 June 2022

Note 1: Summary of Significant Accounting Policies (cont)

All revenue is stated net of the amount of goods and services tax (GST).

o. Trade and Other Receivables

Trade and other receivables include amounts due from customers for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

p. Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the entity that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

q. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are expensed in the period in which they are incurred.

r. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financial activities, which are disclosed as operating cash flows.

s. Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in the presentation in the financial year. When the Group retrospectively applies an accounting policy and makes a retrospective restatement or reclassifies items in its financial statement, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative

financial statement is presented.

t. Rounding of Amounts

The parent entity has applied the relief available to it under ASIC Class Order 98/100. Accordingly, amounts in the financial statements and directors' report have been rounded off to the nearest \$1,000.

u. Critical Accounting Estimates and Judgements

The preparation of the financial reports requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial reports. Management bases its judgements and estimates on historical experience and other various factors it believes to be reasonable under the circumstances, but which are inherently uncertain and unpredictable, the results of which form the basis of the carrying value of assets and liabilities. The resulting accounting estimates may differ from actual results under different assumptions and conditions.

Key estimates and assumptions that have a risk of causing adjustment with the next financial year to the carrying amounts of assets and liabilities recognised in these financial reports are:

(i) *Impairment – property valuations*

Critical judgements are made by the Group in respect of the fair values of investment properties. The fair value of these investments are reviewed regularly by management with reference to external independent property valuations and market conditions existing at reporting date, using generally accepted market practices.

The critical assumptions underlying management's estimates of fair values are those relating to the passing rent, market rent, occupancy, capitalisation rate, terminal yield and discount rate. If there is any change in these assumptions or economic conditions, the fair value of the property investments may differ. Assumptions used in valuation of property investments are disclosed in note 14.

(ii) *Impairment – general*

The Group assesses impairment at the end of each reporting period by evaluating conditions and events specific to the Group the property sector or the economy in general that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

v. New and Amended Policies Adopted by the Group

No new accounting standards were applicable for the Group during the financial year.

Note 2: Revenue and Other Income

	Consolidated Group	
	2022	2021
	\$'000	\$'000
Revenue from Continuing Operations		
Property rental income	1,752	2,080
Property management fees and services	44	47
Total Revenue from Continuing Operations	1,796	2,127
Other Revenue		
a. Interest revenue from:		
- other persons	747	498
Total Other Revenue	747	498
Total Revenue	2,543	2,625
Other Income		
Property investment – net revaluations	7,179	2,522
Total Other Income	7,179	2,522

Note 3: Profit for the Year

Profit before income tax from continuing operations includes the following specific expenses:

		Consolidated Group	
	Note	2022	2021
		\$'000	\$'000
Expenses			
Auditors' remuneration	6	85	80
Depreciation of plant and equipment		49	53
Finance costs:			
- External		164	133
Transfer to/(from) provisions for:			
- Employee entitlements		9	(2)
Rental expenses relating to operating leases		-	5
Direct property expenditure from investment property generating rental income		665	613

Note 4: Income Tax Expense

a. The components of tax expense comprise:

		Consolidated Group	
	Note	2022	2021
		\$'000	\$'000
Deferred Tax	22	1,988	770
		1,988	770

Note 4: Income Tax Expense (cont)

b. The prima facie tax on profit from ordinary activities before income tax is reconciled to income tax as follows:

	Note	Consolidated Group	
		2022 \$'000	2021 \$'000
Prima facie tax payable on profit from ordinary activities before income tax at 30% (2021: 30%)			
- consolidated group		1,990	773
Add:			
Tax effect of:			
- adjustment for prior year tax provision		-	1
- other accruals/provisions		(29)	5
- other non-allowable items		1	2
- other items not included in taxable income		26	(11)
Income tax attributable to entity		1,988	770
The applicable weighted average effective tax rates		30.0%	29.9%

The Group has approximately \$3.5m in available carried forward tax losses as at 30 June 2022. The amount of benefits brought to account or which may be realised in the future, is based on the assumption that no adverse change will occur in the income tax legislation, the anticipation that the Group will derive sufficient future assessable income to enable the benefit to be realised and continue to comply with the conditions of deductibility imposed by the law.

Note 5: Key Personnel Compensation

a. Names and position held of economic and parent entity key personnel in office at any time during the financial year are:

Key Personnel	Position
Prof. John B. Sheehan AM	Chairman (non-executive director)
Mr Phil Montrone OAM	Managing Director
Mr Peter Krejci	Director (non-executive)
Mr Rick Montrone	Director – Head of Property
Mr Jack Sciarra	Company Secretary and Chief Financial Officer

b. Compensation Practices

The board's policy for determining the nature and amount of compensation of key personnel for the group is as follows:

The compensation structure for key personnel is based on a number of factors, including length of service, particular experience of the individual concerned, and the overall performance of the company. Employment is on a continuing basis the terms of which are not expected to change in the immediate future. Upon retirement key personnel are paid employee benefit entitlements accrued to the date of retirement.

The company may terminate any employee without cause by providing adequate written notice or making payment in lieu of notice based on the individual's annual salary component. Termination payments are generally not payable on resignation or dismissal for serious misconduct. In the instance of serious misconduct the company can terminate employment at any time.

All remuneration packages are set at levels that are intended to attract and retain executives capable of managing the economic entity's operations. Refer note 5c.

c. Key Personnel Compensation

2022

Key Personnel	Salary & Fees \$'000	Superannuation \$'000	Short Term Incentives \$'000	Total \$'000

		74,668	67,350

Valuation overview

The basis of the directors' valuation of the investment properties (non-current) is a fair market value as defined in note 1e.

In arriving at their opinion, the directors have reviewed and adopted the following three approaches and methodologies:

1. Capitalisation of current net rental income;
2. Discounted cash flow ("DCF"); and
3. Direct comparison to market sales evidence.

The properties are being valued independently at least every three years. The Group has no restrictions on the

realisability of an investment property nor any contractual obligations to construct, develop, perform, repair or enhance an investment property.

a. The directors' valuation, as at 30 June 2022. An independent valuation was undertaken in December 2020 by a certified practicing valuation company. The directors have based the value on the valuation report, together with current direct comparison market sales evidence.

b. The directors' valuation as at 30 June 2022. An independent valuation was undertaken in December 2020 by a certified practicing valuation company. The directors have based the value on the valuation report, together with current direct comparison market sales evidence.

c. The directors' valuation, as at 30 June 2022. An independent valuation was undertaken in December 2021 by a certified practicing valuation company. The directors have based the value on the valuation report, together with current direct comparison market sales evidence.

d. The directors' valuation as at 30 June 2022. An independent valuation was undertaken in December 2021 by a certified practicing valuation company. The directors have based the value on the valuation report, together with current direct comparison market sales evidence.

e. The directors' valuation as at 30 June 2022. An independent valuation was undertaken in March 2022 by a certified practicing valuation company. The directors have based the value on the valuation report, together with current direct comparison market sales evidence.

f. Valued at cost expenditure as at 30 June 2022. The purchase of the property was settled in June 2022, on market.

Operational Overview

Rental income from investment properties is recognised in the consolidated statement of profit or loss.

Direct operating expenses from investment properties generating rental income and from investment properties not generating rental income are recognised in the consolidated statement of profit or loss.

Note 20: Issued Capital (cont)

a. Movements in Ordinary Share Capital of the Company

No shares were issued during 2022: nil (2021: nil).

b. Authorised Capital

500,000,000 Ordinary Shares of no par value.

c. Capital Management

Management controls the capital of the Group in order to maintain a good debt to equity ratio, provide the shareholders with adequate returns and ensure that the Group can fund its operations and continue as a going concern.

The Group's debt and capital include ordinary share capital and financial liabilities, supported by financial assets.

There are no externally imposed capital requirements.

Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues.

There have been no significant changes in the strategy adopted by management to control and manage the capital of the Group since the prior year.

Note 21: Retained Earnings

	Consolidated Group	
	2022	2021
	\$'000	\$'000
Retained earnings at beginning of financial year	37,563	37,598

Retained earnings at end of financial year	42,207	37,563

Note 22: Deferred Taxes

	Consolidated Group	
Note	2022	2021
	\$'000	\$'000
Non-current		
Deferred tax liability comprises:		
Tax allowances relating to property and equipment	14,405	14,348
Revaluation of investment properties	5,892	3,739
Deferred tax asset attributable to tax and capital losses	(1,072)	(879)
Provisions	(111)	(82)
	19,114	17,126

Reconciliation

Gross Movement

The overall movement in the deferred tax account is as follows:

	Note	2022 \$'000	2021 \$'000
Opening balance		17,126	16,356
Charge to statement of profit and loss	4	1,988	770
Closing balance		19,133	17,126

Deferred Tax Liability

Tax allowance relating to property, plant and equipment

Opening balance		14,348	14,285
Adjustment to previous year's provision		-	-
Charged to the statement of profit and loss		57	63
Closing balance		14,405	14,348

Revaluation of investment properties

Opening balance		3,739	2,982
Net revaluation during the current period		2,153	757
Transfers on property sale		-	-
Closing balance		5,892	3,739

Deferred Tax Assets

Tax and capital losses

Opening balance		(879)	(829)
Prior year adjustment		-	-
Tax and capital losses utilised		(193)	(50)
Closing balance		(1,072)	(879)

Provisions

Opening balance		(82)	(82)
Credited to statement of profit and loss		(29)	-
Closing balance		(111)	(82)

Included in the deferred tax liability balance of \$19.1m, is an amount of approximately \$13.9m of capital gains tax deferred pertaining to the involuntary sale of the Rozelle property in September 2018 as part of the compulsory acquisition by Roads and Maritime Services which triggered a CGT event.

Note 23: Financial Instruments

a. Financial Risk Management

The group's financial instruments consist mainly of deposits with banks, mortgage loans with banking institutions, accounts receivable and payable, and loans to and from controlled entities.

Desane's Board of Directors and management are responsible for the monitoring and managing of financial risk exposures on a monthly basis.

The main risks the group is exposed to through its financial instruments are liquidity risk and interest rate risk.

Liquidity Risk

Liquidity risk arises from the possibility that the group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. Desane manages this risk through the following mechanisms:

- Preparing forward looking cash flow analysis in relation to its operational, investing and financing activities;
- Monitoring undrawn credit facilities;
- Obtaining funding from a variety of sources; and
- Investing surplus cash with major financial institutions.

Interest Rate Risk

Exposure to interest rate risks arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments.

Interest rate risk is managed using a mix of fixed and floating rate debt. At 30 June 2022, approximately 100% of the Group's debt is with a floating interest rate and any balance is fixed interest rate debt.

The group entity's exposure to interest rate risk and the effective weighted average interest rate by maturity periods are set out in the following table (note 23d). For interest rates applicable to each class of asset or liability, refer to individual notes to the financial statements. Exposures arise predominantly from assets and liabilities bearing variable interest rates as the consolidated entity intends to hold fixed rate assets and liabilities to maturity.

The contractual maturities of the financial liabilities are set out below. The amounts represent the future undiscounted principal and interest cash flows relating to the amounts drawn at reporting date.

b. Credit Risk Exposure

The credit risk on financial assets of the consolidated entity which has been recognised in the statement of financial position is generally the carrying amount, net of any provisions for doubtful debts.

The consolidated group does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the economic entity.

c. Net Fair Values

On Statement of Financial Position:

The net fair value of cash and cash equivalents and non-interest bearing monetary financial assets and financial liabilities approximates their carrying value.

Off Statement of Financial Position:

The parent entity and certain controlled entities have potential financial liabilities which may arise from certain contingencies disclosed in note 30. No material losses are anticipated in respect of any of these contingencies.

d. Carrying Amount and Net Fair Values

There is no material difference between the carrying amounts and the net fair values of financial assets and liabilities.

2022		Note	Floating Interest Rate	Floating Interest Maturing within 1-5 years	Fixed Interest Maturing within 1 year	Fixed Interest Maturing within 1-5 years	Non Interest Bearing	Total

Note 23: Financial Instruments (cont)

Sensitivity Analysis

The following table illustrates sensitivities to the Group's exposure to changes in interest rates. The table indicates the impact on how profit and equity values reported at reporting date would have been affected by change in the relevant risk variable that management considers to be reasonably possible. These sensitivities assume that the movement in a particular variable is independent of other variables.

The net effective variable interest rate borrowings (floating interest rate) expose the Group to interest rate risk which will impact future cash flows and interest charges, are indicated in the above figures. All interest bearing liabilities and their weighted interest rate is shown in note 23(d).

There are no financial liabilities maturing over 5 years.

Consolidated Group Equity

Profit \$'000	Equity \$'000
+/- 278	+/- 278

Year ended 30 June 2022

- interest rate sensitivity calculated at an average of +/- 2%pa.

Consolidated Group Equity

Profit \$'000	Equity \$'000
+/- 118	+/- 118

Year ended 30 June 2021

- interest rate sensitivity calculated at an average of +/- 2%pa.

Held to Maturity Investments

There is an inherent risk associated with investments in fixed interest securities, however, the risks are mitigated by ensuring funds invested are secured with a first registered mortgage security, the term of the investment is for a period of 12 months or less, and the secured property asset has a loan-to-value-ratio (LVR) of less than 65% based on an independent valuation completed by a registered and qualified property valuer.

Note 24: Related Party Transactions

All transactions are under normal commercial terms and conditions.

The Group's main related parties are as follows:

i. *Key management personnel:*

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity, are considered key management personnel.

ii. *Other related parties:*

Other related parties include entities controlled by the parent entity and entities over which key management personnel have control.

Related parties of Desane Group Holdings Limited (parent entity) fall into the following categories:

a. Controlled Entities

Information relating to controlled entities is set out in note 30. Other transactions between related parties consist of:

	Consolidated Group	
	2022 \$'000	2021 \$'000
Desane Properties Pty Ltd: Dividend paid	1,200	1,250

b. Directors

The names of the persons who were directors of the parent entity during the financial year are as follows:

- Phil Montrone
- John Blair Sheehan
- Rick Montrone
- Peter Krejci

Information on the remuneration of directors and executives is set out in note 5.

The Managing Director and all executives are permanent employees of Desane Group Holdings Limited.

Trafalgar Contracting Pty Ltd, which is a company owned by Mr Phil Montrone's brother, has provided maintenance and project management services totalling \$2,400 at properties owned by the Group on an arm's length basis.

Mr Jack Sciarra provided professional tax services to the Group for the amount of \$4,900 on an arm's length basis. Mr Jack Sciarra's spouse has been employed by Desane Group Holdings Limited on a part time basis as an administration assistant for the accounting and finance department. Her employment is on an arm's length basis.

Mr Rick Montrone's spouse was paid \$38,900 on market terms, for the design and production of annual financial report, as well as the AGM presentation and ongoing website maintenance.

Other than the above transactions, no director has entered into a material contract since the end of the previous financial year and there were no material contracts involving directors' interests existing at year-end.

Note 25: Commitments for Expenditure

There are no contractual commitments.

Note 26: Superannuation Commitments

In the case of employees of the holding company and controlled entities, the company contributed 10.0% of each member's salary into the fund nominated by each member. Group companies contribute a minimum amount equal to 10.0% of each member's salary, plus the cost of the insurance coverage, if required, to insure the provision of all benefits to the Fund. The benefits provided by the accumulation fund are based on the contributions and income thereon held by the Fund on behalf of the member. The 10.0% contribution made by group companies is legally enforceable.

The company and its controlled entities have a legally enforceable obligation to contribute to the funds.

The directors are not aware of any other changes in circumstances which would have a material impact on the overall financial position of the funds.

Employer contributions to the plans; consolidated \$103,456 (2021 - \$97,220), parent entity \$65,694 (2021 - \$38,143).

Note 27: Contingent Liabilities

a. The parent entity has given a letter of support to each of its two controlled entities, to the effect that it will not require repayment of the loan funds advanced in the coming year (refer note 30(ii)).

The shareholders' funds as at 30 June 2022, in the controlled entities concerned were:

	Consolidated Group Equity	
	2022 \$'000	2021 \$'000
159 Allen Street Leichhardt Pty Ltd - net assets	(321)	(304)
Desane Contracting Pty Limited – net assets	(2,415)	(1,898)
Desane Properties Pty Limited – net assets	54,544	49,406

b. 7 Sirius Road Property

The parent entity has guaranteed the repayment of the first mortgage finance secured over the 7 Sirius Road property (note 17).

c. 13 Sirius Road Property

The parent entity has guaranteed the repayment of the first mortgage finance secured over the 13 Sirius Road property (note 17).

d. 16 Industrial Avenue Property

The parent entity has guaranteed the repayment of the first mortgage finance secured over the 16 Industrial Avenue property (note 17).

e. Legal Claim

In 2015, Ozzy States Pty Ltd, the builder (now in liquidation), completed a mixed residential development in Rozelle contracted by Desane Contracting Pty Ltd. The Board has been advised that the project builder has been placed in liquidation. The Owners Corporation for the Rozelle property, no longer having the ability to pursue the project builder for alleged building defect rectification works, had commenced legal proceedings in the NSW Supreme Court against Desane Contracting Pty Ltd. Desane Contracting Pty Ltd engaged legal representation to defend the alleged claim.

Prior to the matter being heard in the Court, it was mutually agreed by both parties to convene mediation in order to settle the matter before the court hearing. The Court's consent was sought and obtained. Following the Court's consent, mediation was held with the Owners Corporation in late July 2022 and both parties reached an agreement for the sum of \$400,000 as settlement for the matter. A provision for \$400,000 has been provided in the 2022 financial report.

Note 28: Operating Segments – Consolidated Group

Segment Information

Identification of Reportable Segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors in assessing performance and determining the allocation of resources.

Reportable segments disclosed are based on aggregating operating systems where the segments are considered to have similar economic characteristics and are also similar to the operations and or services provided by the segment.

Types of Operations and Services by Segment

Revenue is derived by the industry segments from the following activities:

- i. Property Development
Development projects (residential, commercial or industrial).
- ii. Property Investment
Rental income from prime real estate investments.
- iii. Property Project Management and Resale
Property project management and resale of commercial, industrial and residential properties, principally in Sydney metropolitan areas.
- iv. Property Services
Property and related services.

Accounting Policies Adopted

Unless stated otherwise, all amounts reported to the Board of Directors, with respect to operating segments, are determined in accordance with accounting policies that are consistent to those adopted in the annual financial statements of the Group.

Segment Assets

Where an asset is used across multiple segments, the asset is allocated to that segment that receives majority economic value from that asset. In the majority of instances, segment assets are clearly identifiable on the basis of their nature and physical location.

Segment Liabilities

Liabilities are allocated to segments where there is a direct nexus between the incurrance of the liability and the operations of the segment. Borrowings and tax liabilities are generally considered to relate to the Group as a whole and are not allocated. Segment liabilities include trade and other payables and certain direct borrowings.

Unallocated Items

The following items of revenue, expenses, assets and liabilities are not allocated to operating segments as they are not

considered part of the core operations of any segment:

- Net gains on disposal of available for sale investments;
- Impairment of assets and other non recurring items of revenue or expenses;
- Income tax expense;
- Deferred tax assets and liabilities;
- Current tax liabilities;
- Other financial liabilities;
- Retirement benefit obligations; and
- Administration expenses.

Geographical Segments

The consolidated group operates in one geographical segment being New South Wales, Australia.

Inter-segment Transactions

Inter-segment pricing is based on what would be realised in the event the sale was made to an external party at arm's-length basis.

2022	Property Investment \$'000	Property Development \$'000	Property Services \$'000	Plant & Equipment \$'000	Other \$'000	Consolidated Group \$'000

	<u>11,714</u>	<u>12,557</u>

Guarantees

Desane Group Holdings Limited has not entered into any guarantees, in the current or previous financial year, in relation to the above debts of its controlled entities.

Capital Commitments

Desane Group Holdings has no capital commitments to note.

Contractual Commitments

At 30 June 2022, Desane Group Holdings Limited had not entered into any contractual commitments for the acquisition of property, plant and equipment or any other affairs (2021: Nil).

Note 31: Events after the Reporting Date

There were no material events subsequent to reporting date.

Note 32: Economic Dependency

A portion of all the Group's investment properties are under financial loans.

**DIRECTORS'
DECLARATION**

In accordance with a resolution of the directors of Desane Group Holdings Limited, the directors of the company declare that:

1. The financial statements and notes, as set out on pages 31 to 63 are in accordance with the *Corporations Act 2001* and;

a. Comply with Australian Accounting Standards, which, as stated in accounting policy note 1 to the financial statements, constitutes compliance with International Financial Reporting Standards (IFRS); and

b. Give a true and fair view of the financial position as at 30 June 2022 and of the performance for the year ended on that date of the consolidated group;

2. In the directors' opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable; and

3. The directors have been given the declarations required by a 295A of the *Corporations Act 2001* from the Managing Director and Chief Financial Officer.

This declaration is made in accordance with a resolution of the Board of Directors.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DESANE GROUP HOLDINGS LIMITED

REPORT ON THE AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS

Report on the Financial Report

Opinion

We have audited the financial report of Desane Group Holdings Limited and Controlled Entities (the Group), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*; including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement. Our responsibilities under those standards are further disclosed in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110: *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the year ended 30 June 2022. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide an opinion on these matters.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2022, but does not include the financial report and our auditor's report. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon. In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration

We have audited the remuneration report included in pages 26 to 28 of the directors' report for the year ended 30 June 2022. The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with s 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Responsibilities

The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with s 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australia Auditing Standards.

Auditor's Opinion

In our opinion, the remuneration report of Desane Group Holdings Limited, for the year ended 30 June 2022, complies with s 300A of the Corporations Act 2001.
