ANNUAL REPORT 2015

FOR IMMEDIATE RELEASE

ATRIUM MORTGAGE INVESTMENT CORPORATION GENERATES RECORD EARNINGS AND RECORD BONUS DIVIDEND IN 2015

TORONTO: February 9, 2016 – Atrium Mortgage Investment Corporation (TSX: AI, AI.DB, AI.DB.A, AI.DB.B) today released its financial results for the year ended December 31, 2015.

Highlights

- **$0.94 basic and $0.93 fully diluted earnings per share for the year ended December 31, 2015, up over 3% from the previous year**
- **$0.09 per share special dividend to shareholders of record December 31, 2015**
- **$0.93 total dividends per share in 2015, representing a yield of 9.1% on book value**
- **Regular monthly dividend increased to $0.0717, (annualized rate of $0.86) in 2016**
- **Mortgage portfolio increased 4% year-over-year to $452 million at December 31, 2015**
- **High quality mortgage portfolio**
  - **77.8% of portfolio in first mortgages**
  - **96.2% of loan portfolio is less than 75% loan to value**
  - **Continued focus on low risk real estate sectors**
  - **Alberta exposure reduced from 19.5% of portfolio at March 31, 2015 to 13.5% at year-end; 98% of remaining Alberta loans are first mortgages**

"2015 was another great year for us," said Robert Goodall, CEO of Atrium. He continued, "Our lending team continued to do an excellent job of originating high quality loan opportunities which allowed us to continue to grow the portfolio. We were again able to generate higher earnings per share in 2015, despite the relatively weak performance of the Canadian economy. Our experienced team, working in our five offices across Canada, coupled with our controlled growth objectives and conservative risk parameters, have allowed us to continue to grow in these conditions.

"Once again we would like to thank our real estate clients for their continued loyalty, and our new and existing shareholders who allowed us to successfully complete another common share issuance in 2015. We are proud to state that Atrium continues to be regarded as '**Canada's premier non-bank lender™**'."

Interested parties are invited to participate in a conference call with management on Wednesday, February 10, 2016 at 4:00 p.m. EST. Please refer to the call-in information at the end of this news release.

Results of operations

For the year ended December 31, 2015, mortgage interest and fees revenue aggregated $40.2 million, compared to $35.0 million in the prior year, an increase of 15.0%. The weighted average interest rate on the mortgage portfolio was 8.66% at December 31, 2015, compared with 8.81% at December 31, 2014. Earnings and total comprehensive income were up 10.9% from the previous year.

Conference call

Interested parties are invited to participate in a conference call with management on Wednesday, February 10, 2016 at 4:00 p.m. EST.

To participate or listen to the conference call live, please call 1 (888) 241-0551 or (647) 427-3415.

For a replay of the conference call (available until February 23, 2016) please call 1 (855) 859-2056, Conference ID 95356785.

About Atrium

Canada's Premier Non-Bank Lender™

Atrium is a non-bank provider of residential and commercial mortgages that lends in major urban centres in Canada where the stability and liquidity of real estate are high. Atrium's objectives are to provide its shareholders with stable and secure dividends and preserve shareholders' equity by lending within conservative risk parameters.

Atrium is a Mortgage Investment Corporation (MIC) as defined in the *Income Tax Act*. Accordingly, Atrium is not taxed on income provided that its taxable income is paid to its shareholders in the form of dividends within 90 days after December 31 each year. Such dividends are generally treated by shareholders as interest income, so that each shareholder is in the same position as if the mortgage investments made by the company had been made directly by the shareholder. For further information, please refer to regulatory filings available at www.sedar.com or Atrium's website at www.atriummic.com.

ATRIUM MORTGAGE
INVESTMENT CORPORATION

CANADA'S PREMIER NON-BANK LENDER ™

MD&A

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED
DECEMBER 31, 2015

Management's Discussion and Analysis

December 31, 2015

Our business

Atrium is a mortgage lender filling the lending gap caused by the limited number of financial institutions operating in Canada. We lend in major urban centres and where the stability and liquidity of real estate is high. Our loan portfolio is of high quality but we are able to charge higher rates than the banks because we offer flexibility including flexible repayment terms. Our mortgages are secured by all types of residential, multi-residential and commercial real property located in Canada, subject to compliance with our investment policies. Atrium has achieved its strategic objectives over the past 15 years: to grow in a controlled manner by diversifying geographically, and focusing on real estate sectors with the lowest risk profiles.

Our investment objectives are to preserve our shareholders' equity and provide our shareholders with stable and secure dividends from our investments in mortgage loans within the criteria mandated for a Mortgage Investment Corporation (MIC). Working within conservative risk parameters, we endeavour to maximize income and dividends through the sourcing and efficient management of our mortgage investments. Information herein is current as of February 9, 2016.

Highlights

Atrium had an excellent year, despite a challenging economy. For the year ended December 31, 2015, our total revenue was $40 million, up 15% from the previous year, and we earned $23 million ($0.94 per share basic and $0.93 per share fully diluted), compared to $21 million ($0.91 per share, basic and diluted) for the previous year, an increase of 11% in earnings, and 3% in earnings per share. We thank our staff, underwriters and our clients for our success.

During this year we have actively managed the risk profile of our mortgage portfolio, and currently target commercial real estate, low-rise infill developments and single family mortgages. Balance sheet leverage increased from 41% debt-to-assets at the end of 2014 to 44% at the end of our third quarter, then decreased to 37% at the end of 2015 primarily due to an issue of common shares during the fourth quarter.

We declared a regular dividend of $0.07 per share for each month in 2015, a rate of $0.84 per year. In addition, we declared a special dividend of $0.09, for a total dividend of $0.93 for 2015, compared to $0.89 for the previous year.

We had $448 million of mortgages receivable as at December 31, 2015, an increase of 4% from December 31, 2014. During the year, $267 million of gross new mortgages were advanced, and $250 million of gross mortgages were repaid.

	207	$ 451,591	100.0%	190	$ 434,268	100.0%

As of December 31, 2015, the average outstanding mortgage balance was $2.2 million (December 31, 2014 – $2.3 million), and the median outstanding mortgage balance was $1.0 million (December 31, 2014 – $1.1 million).

The tables below show our mortgage portfolio by location of the underlying property and type of mortgage. The weighted average interest rates shown exclude the lender fees paid by the borrower, which reflect the yield to Atrium including any mortgage discount or premium.

We have successfully reduced our exposure in Alberta – from 19.5% of the mortgage portfolio at March 31, 2015 ($76.7 million), to 13.5% at December 31, 2015 ($61.1 million). 98% of the remaining Alberta loans are first mortgages. In that market our exposure is further mitigated by not lending to office, high-rise condominiums or to hotels.

We have an exceptionally high proportion of our portfolio invested in first mortgages (77.8%), which is one of our core strategies.

At December 31, 2015, the weighted average loan-to-value ratio in our mortgage portfolio was 64.7%, with 96.2% of the portfolio below 75% loan-to-value. (At December 31, 2014, the weighted average loan-to-value ratio in our mortgage portfolio was 64.3%, with 97.2% of the portfolio below 75% loan-to-value.)

	35	85,058	19.6%	10.14%
	190	$ 434,268	100.0%	8.81%

Conventional mortgages are those with a loan-to-value of less than or equal to 75%, which is the industry standard for determining whether a mortgage is conventional. Non-conventional mortgages are those with a loan-to-value in excess of 75%.

The weighted average term remaining for our mortgage portfolio at December 31, 2015 is 11.1 months (December 31, 2014 – 13.7 months).

Our business

We are a mortgage lender filling the lending gap caused by the limited number of financial institutions operating in Canada. We lend in major urban centres where the stability and liquidity of real estate is at the highest level. We focus on loans that cannot be placed with financial institutions but which represent an acceptable underwriting risk. The weighted average loan-to-value ratio of our mortgage portfolio, as a whole, at the time of underwriting each loan in our portfolio, will not exceed 75%. A typical loan in our portfolio has an interest rate of 8% to 10% per annum, a one or two-year term and monthly interest-only mortgage payments.

Our lending parameters are as follows:

- First or second mortgages on income-producing real estate up to a maximum of 85% of appraised value.
- Mortgages on residential and commercial properties up to a maximum of 75% of appraised value.
- Loans on single family residences up to 75% of appraised value.
- Construction loans up to a maximum of 90% of cost.
- Loans to condominium corporations.

Mortgage loan amounts are generally $300,000 to $20 million. The largest single mortgage in our mortgage portfolio as at December 31, 2015 was $20.4 million (December 31, 2014 – $13.7 million). For loan amounts in excess of $20 million, we generally co-lend with a financial institution or private lender. The parameters listed above are our maximum mortgage lending parameters. At December 31, 2015, the weighted average loan-to-value ratio of the mortgage portfolio remained conservative at 64.7%, compared to 64.3% at December 31, 2014.

Our investment policies, which may be changed by our board of directors, are as follows:

- We may invest only in residential mortgages, commercial mortgages, commercial mortgage backed securities and certain related investments.
- All investments must be mortgages on the security of real property situated within Canada, loans to condominium corporations, or certain permitted interim investments.
- Commercial mortgages may not constitute more than 50% of our total assets at any time.
- The term of the mortgage may be no greater than ten years.
- No single borrower may account for more than 15% of our total assets. In addition, any loan or amendment that would result in an exposure to one borrower exceeding the lesser of $50 million or 10% of the portfolio requires approval of the board.
- All mortgages are supported by external appraisals by a qualified appraiser. All mortgages, except mortgages secured by one to six residential units, are also supported by environmental audits.
- The maximum initial loan-to-value ratio of an individual mortgage is 85% including any prior ranking encumbrances, and the weighted average loan-to-value ratio of our mortgage portfolio at the time of underwriting each loan may not exceed 75%.
- Our ratio of debt to equity must be less than 1:1.
- We do not invest directly in real property, although real property may be acquired through foreclosing on a mortgage.
- A mortgage investment: (i) of $2,000,000 or more requires approval of the board; (ii) of between $1,000,000 and $2,000,000 requires approval of three members of the board, including at least two independent directors; and (iii) of $1,000,000 or less requires approval of any one member of the board. For loans previously approved, if the mortgage amount exceeds the amount approved by up to $200,000 and if the loan-to-value ratio increases by less than 5% where the ratio is 75% or less, requires the approval of one member of the board, otherwise the general limits apply. We may invest in interim investments that are guaranteed by the Government of Canada or of a province or territory of Canada or deposits or certificates of deposits, acceptances and other similar instruments issued, endorsed or guaranteed by a Schedule I Bank in any amount without prior board approval.
- We may not make unsecured loans to, nor invest in securities issued by, our manager or its affiliates, nor make loans to the directors or officers of the manager.
- We may not make any investment, or incur any indebtedness, that would result in our not qualifying as a MIC.

Our investment objectives are to preserve our shareholders' equity and to provide our shareholders with stable and secure dividends from our investments in mortgage loans within the criteria mandated for a MIC. Working within conservative risk parameters, we endeavour to maximize income and dividends through the sourcing and efficient management of our mortgage investments.

We are a non-bank lender and invest in mortgages secured by all types of residential, multi-residential and commercial real property located in Canada, subject to compliance with our investment policies. The types of properties that we finance include residential houses, small multi-family residential properties comprised of six or fewer units, residential apartment buildings, mixed-use residential apartments and store-front properties, commercial properties, residential and commercial land development sites and construction projects. We also invest in short-term bridge financing for real estate developers. Our strategy is to grow in a controlled manner by diversifying geographically, and focusing on real estate sectors with the lowest risk profiles.

We qualify as a MIC and are restricted from any activity that would result in us failing to qualify as a MIC. In order to qualify as a MIC, we must satisfy the requirements in subsection 130.1(6) of the ITA throughout the taxation year. Among the requirements are:

- We can only invest or manage funds and cannot manage or develop real property.
- We cannot own debts secured on real property situated outside Canada, debts owing by non-residents unless such debts were secured on real property situated in Canada, shares of the capital stock of corporations not resident in Canada, or real property situated outside of Canada or any leasehold interest in such property.
- No shareholder (together with related persons, as defined in the ITA) may at any time own, directly or indirectly, more than 25% of our common shares.
- The cost for tax purposes of cash on hand, debts secured on specified residential properties, and funds on deposit with a Canada Deposit Insurance Fund or Régie de l'assurance-dépôts du Québec-insured institution or credit union must constitute at least 50% of the cost of all of our property.
- The cost for tax purposes of any interests in real property (including leaseholds but excepting real or immovable property acquired by foreclosure after default by the mortgagor) may not exceed 25% of the cost of all of our property.
- There are certain restrictions as to our maximum debt-to-equity ratio.

We are managed by Canadian Mortgage Capital Corporation (the "manager" or "CMCC"), which is our exclusive manager and arranges and services our mortgage loans and otherwise directs our affairs and manages our business.

For explanations as to some of the terms used herein, please refer to our Annual Information Form for the year ended December 31, 2015, which is available at www.sedar.com.

Results of operations – three months ended December 31, 2015

For the three months ended December 31, 2015, mortgage interest and fees revenue aggregated $10,546, compared to $9,919 in the comparative period, an increase of 6.3%, as a result of growth of our mortgage portfolio. The weighted average interest rate on our mortgage portfolio was 8.66% at December 31, 2015, compared with 8.81% at the previous year end, December 31, 2014.

Operating expenses, excluding the provision for mortgage losses, for the three months ended December 31, 2015 were $1,482, compared to $1,428 in the comparative period, an increase of 3.8%, due to the growth of the mortgage portfolio. The provision for mortgage losses was $700 in the quarter to bring the total reserve to $4,300. There were seven mortgages in default at December 31, 2015. At December 31, 2014 there was one mortgage in default which was subsequently repaid in full.

Mortgage servicing and other fees paid to the manager (that is, the management fee plus HST) aggregated $1,099 for the three months ended December 31, 2015, compared with $1,094 in the prior year period. Financing costs for the three months ended December 31, 2015 were $2,530, compared to $2,364 in the same period of 2014, an increase of 7.0%. This increase is due to the increased use of our bank line of credit compared to the comparable period as we maintained our balance sheet leverage, which was 37.3% at December 31, 2015 (December 31, 2014 – 41%).

Net earnings for the three months ended December 31, 2015 were $5,834, an increase of 8.2% from net earnings of $5,390 for the same period in the prior year. Basic and diluted earnings per common share were $0.23, for the three months ended December 31, 2015, compared with $0.22 basic and diluted per common share for the comparable period in the previous year.

During the three months ended December 31, 2015, we funded gross mortgages aggregating $54,513. Of those advances, $41,010 were first mortgages, representing 75.2% of the total loans funded. British Columbia advances were $19,081, $8,820 were on properties in Alberta, $1,032 were non-GTA Ontario, $2,984 were on properties in Saskatchewan and the remaining $22,596 were for mortgages on properties located in the Greater Toronto Area. There were $65,073 of gross repayments during the period. The total portfolio decreased from $462,151 to $451,591 during the three month period.

Results of operations – year ended December 31, 2015

For the year ended December 31, 2015, mortgage interest and fees revenue aggregated $40,206, compared to $34,956 in the comparative period, an increase of 15.0%. The weighted average interest rate on our mortgage portfolio was 8.66% at December 31, 2015, compared with 8.81% at the previous year end, December 31, 2014.

Operating expenses, excluding the provision for mortgage losses, for the year ended December 31, 2015 were $5,360 compared to $4,567 in the comparative period, an increase of 17.4%, due to the increase in the mortgage portfolio. The provision for mortgage losses was $1,912 in the year ended December 31, 2015, to bring the total reserve to $4,300. There were seven mortgages in default at December 31, 2015. At December 31, 2014 there was one mortgage in default which was subsequently repaid in full.

Mortgage servicing and other fees paid to the manager (that is, the management fee plus HST) aggregated $4,173 for the year ended December 31, 2015, compared with $3,553 in the prior year period, reflecting the growth of our mortgage portfolio.

Financing costs for the year ended December 31, 2015 were $9,597, compared to $7,535 in the same period of 2014, an increase of 27%. This increase is due to the increased use of our bank line of credit compared to the comparable period, and two convertible debentures issued during 2014.

Net earnings for the year ended December 31, 2015 were $23,337, an increase of 10.9% from net earnings of $21,037 in the prior year. Basic and diluted earnings per common share were $0.94 and $0.93, respectively, for the year ended December 31, 2015, compared with $0.91 basic and diluted earnings per common share for the previous year.

During the year ended December 31, 2015, we funded gross mortgages aggregating $281,113. Of these advances, $210,642 were first mortgages, representing 74.9% of the total loans funded. British Columbia advances were $71,464, $34,229 were on properties in Alberta, $6,790 were non-GTA Ontario, $7,943 were on properties in Saskatchewan and the remaining $160,687 were made in the Greater Toronto Area. There were $263,790 of gross repayments during the period. The total portfolio increased from $434,268 to $451,591 during the period.

Liquidity and capital resources

At December 31, 2015, we had bank indebtedness and operating line outstanding of $66,566. The operating line is provided by a syndicate of two major chartered banks, drawn through a combination of bankers' acceptances and bank loans to minimize our borrowing costs. We are in compliance with the covenants in our operating credit facility as at December 31, 2015, and we expect to remain in compliance with such covenants going forward. We also have three series of convertible debentures outstanding, with a total book value of $100,180 at December 31, 2015.

Growth in our mortgage portfolio has historically been financed by the issuance of common shares and by the issuance of convertible debt. We expect to be able to generate sufficient funds for future growth in net mortgage loan investments through a combination of common share issuances, convertible or other debt, and the operating credit facility.

Investing activities during the year ended December 31, 2015 consisted of advances on new mortgage loan investments of $266,522, less repayments received of $249,552, for net cash from new mortgage loan investments of $16,970.

Cash used by financing activities during the year ended December 31, 2015 consisted primarily of net repayments of our bank line as a result of issuance of common shares during the year. Repayments less draws under our operating facility used cash of $13,343.

Changes in financial position

Bank indebtedness, bankers' acceptances and bank loans payable (all under our operating credit facility) decreased to $66,566 at December 31, 2015, from $79,966 at December 31, 2014, as a result of the issuance of common shares during the year. As at December 31, 2015, total debt (consisting of bank debt, operating line and convertible debentures) was 37.3% of total assets.

Accounts payable and accrued charges were $677 at December 31, 2015 compared to $523 at December 31, 2014. Dividends payable were $4,294 at December 31, 2015 up from $3,379 at December 31, 2014. The increase was primarily due to the increase in the regular and special dividend from 2015.

Share capital increased slightly to $272,698 at December 31, 2015 from $245,794 at December 31, 2014 due to a share issuance completed in November (which accounted for $25,003 of the increase) along with our dividend reinvestment plan and the employee share purchase plan.

Contractual obligations

Contractual obligations due at December 31, 2015 were as follows:

Obligations at December 31 2015	***Total***	***Less than 1 year***	***1-2 years***	***3-5 years***	***More than 5 years***
Bank indebtedness	$ 29	$ –	$ 29	$ –	$ –
Operating line	66,925	–	66,925	–	–
Accounts payable and accrued liabilities	677	677	–	–	–
Accrued convertible debentures interest	1,050	1,050	–	–	–
Dividends payable	4,294	4,294	–	–	–
Due to related party	402	402	–	–	–
Convertible debentures	104,551	–	–	64,301	40,250
Total	$ 177,928	$ 6,423	$ 66,954	$ 64,301	$ 40,250

We have commitments to advance additional funds under existing mortgages of $71,856 and for new mortgages of $300 at December 31, 2015 (December 31, 2014 – $99,757 and $10,063 respectively). Generally, outstanding commitments are expected to be funded within the next 24 months. However, our experience has been that a portion of the unfunded amounts on existing mortgages will never be drawn.

Off-balance sheet arrangements

As at December 31, 2015, we had $2,616 (December 31, 2014 – $4,483) of letters of credit (LCs) outstanding which were issued under our operating credit facility. The maximum available by way of LCs under our operating credit facility is $10,000, and those drawn reduce that maximum. LCs represent irrevocable assurances that our banks will make payments in the event that a customer cannot meet its obligations to third parties. LCs carry the same credit risk, recourse and collateral security requirements as mortgages extended to customers.

Transactions with related parties

Transactions with related parties are in the normal course of business and are recorded at the exchange amount, which is the amount of consideration established and agreed to by the related parties, and are measured at fair value. The manager is responsible for our day-to-day activities. We incurred management and mortgage servicing fees from a subsidiary of the manager of $4,173 for the year ended December 31, 2015 (2014 – $3,548). Mr. Robert G. Goodall is a director and part of the key management personnel of the manager, received compensation from the manager, and is also a director and part of the key management personnel of Atrium. The management agreement between us and the manager contains provisions for the payment of termination fees to the manager in the event that the management agreement is terminated in certain circumstances. The manager also acts as broker for our mortgages. The manager receives origination fees from the borrowers of up to 1% of the amount being funded; origination fees in excess of 1% are split equally between the manager and Atrium.

Critical accounting estimates and policies

Our annual financial statements for the years ended December 31, 2015 and 2014 are prepared in accordance with Canadian generally accepted accounting principles and IFRS, as set out in Part I of the CPA Canada *Handbook*. Management makes certain estimates and relies upon certain assumptions related to reporting our assets and liabilities as well as results of operations in conformity with Canadian generally accepted accounting principles. Actual results will differ from these estimates and assumptions.

The preparation of financial statements in accordance with IFRS requires us to make estimates, assumptions and judgements. The most subjective of these are the valuation of mortgages receivable including the provision for mortgage losses, as well as the measurement of the liability and equity components of our convertible debentures. We believe that our estimates are appropriate; however, actual results could differ from the amounts estimated. Estimates and underlying assumptions are reviewed each quarter. The more significant accounting policies are set out below.

Revenue recognition

Mortgage interest and fees revenues are recognized in the statements of earnings and comprehensive income using the effective interest method. Mortgage interest and fees revenues include our share of any fees received, as well as the effect of any discount or premium on the mortgage.

The effective interest method derives the interest rate that discounts the estimated future cash payments and receipts during the expected life of the mortgage receivable (or, where appropriate, a shorter period) to its carrying amount. When calculating the effective interest rate, future cash flows are estimated considering all contractual terms of the financial instrument, but not future credit losses. The calculation of the effective interest rate includes all fees and transaction costs paid or received. Fees and transaction costs include incremental revenues and costs that are directly attributable to the acquisition or issuance of the mortgage.

Mortgages receivable

A mortgage receivable, carried at amortized cost, is considered impaired when there is objective evidence that there has been a deterioration of credit quality subsequent to its initial recognition to the extent that we no longer have reasonable assurance as to the timely collection of the full amount of principal and interest.

We assess mortgages receivable for objective evidence of impairment both individually and collectively each reporting period. The provision for mortgage losses are determined by taking into account the following factors:

- Delays in the collection of interest and principal
- The point at which we consider a loan to be in default (which we define as 90 days for single family residential mortgages and 30 days for all other mortgages)
- Other known factors specific to the property, the borrower or the guarantor
- Economic and other real estate market conditions in the geographic area in which a borrower's project is located
- Our judgement as to whether current economic and credit conditions are such that the actual inchoate or potential losses at the reporting date are likely to be higher or lower than the amounts suggested by historic experience
- Any other factors that apply to a particular mortgage or group of mortgages

Several of these factors involve estimates and judgements on the part of management in determining the provisions for mortgage losses. The other key estimates used for quantifying the provision for mortgage losses are:

- The period of time expected to elapse between the contractual maturity or interest and principal repayment dates and the date at which recovery is estimated
- The amount expected to be ultimately recovered on impaired loans, taking into account the probability of different outcomes, where necessary
- The value of underlying security, and whether Atrium expects to take possession of the property
- The amount of any legal and other third party costs estimated to be incurred

An impairment loss is calculated as the difference between the carrying amount of the mortgage receivable and the present value of the estimated future cash flows discounted at the original effective interest rate. Losses are charged to the statements of earnings and comprehensive income and are reflected in the provision for mortgage losses.

If there is no objective evidence of impairment for a counterparty specific mortgage receivable, it is included in a group of mortgages with similar credit risk characteristics and collectively assessed for impairment for losses incurred but not identified. For the purpose of determining the group of mortgages with similar credit risk characteristic, mortgages are grouped by the location of the underlying property and by other risk characteristics.

Convertible debentures

The convertible debentures can be converted into our common shares at the option of the investor. They are compound financial instruments with two components: a financial liability, and a call option which is an equity instrument. The fair value of the liability component is measured as of the date that the debentures were issued, and the equity instrument is valued on that date based upon the difference between the fair value of the debenture and the fair value of the liability component.

The measurement of the fair value of the liability component is based upon market rates of interest on similar debt instruments without the conversion feature. Expenses of issue are allocated between the two components on a *pro-rata* basis. The book value of the debt is accreted up to its face value over the life of the debentures using the effective interest method, which provides for the application of a constant interest rate over the life of the debenture. The value of the equity component is not re-measured subsequent to its initial measurement date.

Income taxes

We are, and intend to maintain our status as, a MIC, and as such are not taxed on income provided that it flows through to our shareholders as dividends during the year or within 90 days after December 31 each year. It is our policy to pay such dividends to our shareholders to remain non-taxable. Accordingly, no provision for current or future income taxes is required.

Controls and procedures

Our Chief Executive Officer (CEO) and Chief Financial Officer (CFO) are responsible for establishing and maintaining disclosure controls and procedures (DC&P) and internal control over financial reporting (ICFR), as those terms are defined in National Instrument (NI) 52-109 – *Certification of Disclosure in Issuers' Annual and Interim Filings*.

We designed the DC&P and ICFR, the latter of which was using the framework in *Internal Control – Integrated Framework* (published by COSO, as revised in 2013) to provide reasonable assurance that material information relating to us is made known to our CEO and CFO during the reporting period; and information required to be disclosed by us in our filings under securities legislation is recorded, processed, summarized and reported within the required time periods; and provide reasonable assurance regarding the reliability of financial reporting and preparation of financial statements for external purposes in accordance with Canadian generally accepted accounting principles (GAAP).

Our CEO and CFO evaluated the design effectiveness of the DC&P and ICFR, as defined by NI 52-109, as of December 31, 2015. Based on this evaluation, they concluded that the designs of the DC&P and ICFR were effective as of December 31, 2015. NI 52-109 also requires Canadian public companies to disclose in their MD&A any change in ICFR during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, ICFR. No such change to ICFR has occurred during the most recently completed quarter.

It should be noted that a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that its objectives are met. Because of the inherent limitations in any control system, no evaluation of control can provide absolute assurance that all control weaknesses including, for example, any instances of fraud, have been detected. Inherent limitations include: (i) that management's assumptions and judgements could ultimately prove to be incorrect as conditions and circumstances vary; (ii) the impact of any undetected errors; and (iii) controls may be circumvented through the unauthorized acts of individuals, by collusion of two or more people, or by management override. The design of any system of control is also based upon assumptions as to the likelihood of future events and there is no assurance that any design will succeed in achieving its goals under future conditions.

Outstanding share data

Our authorized capital consists of an unlimited number of common shares, of which 26,834,574 were issued and outstanding at December 31, 2015, and 26,852,034 were issued and outstanding as at the date hereof. In addition, as at the date hereof, 2,407,408, 2,391,054 and 2,747,440 common shares are issuable upon conversion or redemption or in respect of repayment at maturity of the outstanding 5.25%, 6.25%, and the 5.50% convertible debentures, using the conversion price of $13.50, $13.30 and $14.65, respectively, for each common share.

We also have an employee share purchase plan, a deferred share incentive plan and a dividend reinvestment plan pursuant to which common shares are issued from time to time.

Risks and uncertainties

We are subject to many risks and uncertainties that may limit our ability to execute our strategies and achieve our objectives. We have processes and procedures in place in an attempt to control or mitigate certain risks, while others cannot be or are not mitigated. Material risks that cannot be mitigated include a significant decline in the general real estate market, interest rates changing markedly, being unable to make mortgage loans at rates consistent with rates historically achieved, not having adequate mortgage loan opportunities presented to us, and not having adequate sources of bank finance available.

Under various federal, provincial and municipal laws, an owner or operator of real property could become liable for the cost of removal or remediation of certain hazardous or toxic substances released on or in its properties or disposed of at other locations. We do not own any real property and thus would not attract environmental liability to which an owner would be exposed. In rare circumstances where a mortgage is in default, we may take possession of real property and may become liable for environmental issues as a mortgagee in possession. As part of the due diligence performed in respect of our mortgage loan investments, we obtain a Phase I environmental audit on the underlying real property provided as security for a mortgage, unless the manager has determined that a Phase I environmental audit is not necessary.

Please also refer to "Forward-looking information," below, and the "Risk Factors" section of our Annual Information Form for the year ended December 31, 2015 which is incorporated herein by reference and is available at www.sedar.com and at www.atriummic.com.

Forward-looking information

Certain information included in this MD&A contains forward-looking statements within the meaning of applicable securities legislation, including statements with respect to management's beliefs, estimates, and intentions, and similar statements concerning anticipated future events, results, circumstances, performance or expectations that are not historical facts. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "outlook", "objective", "may", "will", "expect", "intent", "estimate", "anticipate", "believe", "should", "plans" or "continue" or similar expressions suggesting future outcomes or events. Forward-looking statements regarding earnings and mortgage portfolio growth are based upon the following assumptions: that other factors such as revenues and expenses continue to follow current trends, and that current trends in our mortgage portfolio growth continue.

All forward-looking statements reflect management's current beliefs and are based on information currently available to management. These statements are not guarantees of future performance and are based on our estimates and assumptions that are subject to risks and uncertainties which could cause our actual results to differ materially from the forward-looking statements contained in this MD&A. Those risks and uncertainties include risks associated with mortgage lending, competition for mortgage lending, real estate values, interest rate fluctuations, environmental matters and the general economic environment. For other risks and uncertainties, please refer to "Risks and uncertainties" above, and the "Risk Factors" section of our Annual Information Form for the year ended December 31, 2015 which is available at www.sedar.com and at www.atriummic.com. That list is not exhaustive, as other factors could adversely affect our results, performance or achievements. The reader is cautioned against undue reliance on any forward-looking statements.

Although the forward-looking information contained in this MD&A is based upon what management believes are reasonable assumptions, there can be no assurance that actual results will be consistent with these forward-looking statements. Except as required by law, we will not publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Responsibility of management and the board of directors

Management is responsible for the information disclosed in this MD&A, and has in place the appropriate information systems, procedures and controls to ensure that the information used internally by management and disclosed externally is materially complete and reliable. In addition, our audit committee and board of directors provide an oversight role with respect to our public financial disclosures, and have reviewed and approved this MD&A and the annual financial statements.

Dividend Reinvestment Plan

A Dividend Reinvestment Plan (DRIP) is available to holders of our common shares. The DRIP allows participants to have their monthly cash dividends reinvested in additional common shares, at a discount of 2% from the market price. Shareholders who wish to enroll or who would like further information about the DRIP should contact their broker or our agent for the DRIP, Computershare Trust Company of Canada, at 1 (800) 564-6253 or www.computershare.com.

Additional information

Additional information about Atrium, including our Annual Information Form for the year ended December 31, 2015, is available on SEDAR at www.sedar.com. You may also obtain further information about us from our website at www.atriummic.com, by telephone at (416) 607-4200, or by email at ir@atriummic.com.

ATRIUM MORTGAGE
INVESTMENT CORPORATION

CANADA'S PREMIER NON-BANK LENDER™

FINANCIAL STATEMENTS

YEAR ENDED
DECEMBER 31, 2015

ATRIUM
MORTGAGE INVESTMENT CORPORATION

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

To the shareholders of
Atrium Mortgage Investment Corporation:

The management of Atrium Mortgage Investment Corporation is responsible for the preparation, presentation and integrity of these financial statements, and the accompanying Management's Discussion and Analysis. This responsibility includes the selection and consistent application of appropriate accounting principles and methods in addition to making the judgements and estimates necessary to prepare the financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Management of Atrium is responsible to provide reasonable assurance that assets are safeguarded and that relevant and reliable financial information is produced. We are required to design a system of internal controls and certify as to the design and operating effectiveness of internal controls over financial reporting. We have implemented a system of internal controls that we believe provides reasonable assurance in all material respects that transactions are authorized, assets are safeguarded and financial records are reliable for producing financial statements. Crowe Soberman LLP was appointed as the independent auditor by a vote of Atrium's shareholders to audit the financial statements; their report appears on the next page.

The Board of Directors, through the Audit Committee comprised solely of independent directors, is responsible for determining that management fulfills its responsibilities in the preparation of these financial statements and the financial control of operations. The Audit Committee recommends the independent auditors for appointment by the shareholders, and it meets regularly with senior and financial management to discuss internal controls and financial reporting matters. The independent auditors have unrestricted access to the Audit Committee.

These financial statements and accompanying Management's Discussion and Analysis have been approved by the Board of Directors based upon the review and recommendation of the Audit Committee.

INDEPENDENT AUDITORS' REPORT

To the Shareholders of
Atrium Mortgage Investment Corporation

We have audited the accompanying financial statements of Atrium Mortgage Investment Corporation, which comprise the statements of financial position as at December 31, 2015 and December 31, 2014 and the statements of earnings and comprehensive income, changes in equity, and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements present fairly, in all material respects, the financial position of Atrium Mortgage Investment Corporation as at December 31, 2015 and December 31, 2014, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

The accompanying notes are an integral part of these financial statements.

1. NATURE OF OPERATIONS

Atrium Mortgage Investment Corporation is a corporation domiciled in Canada, incorporated under the Ontario *Business Corporations Act*. The address of the company's registered head office and principal place of business is Suite 900, 20 Adelaide Street East, Toronto, Ontario M5C 2T6.

The company is a Mortgage Investment Corporation (MIC) as defined in Section 130.1(6) of the Canada *Income Tax Act* (ITA). Accordingly, the company is not taxed on income provided that its taxable income is paid to its shareholders in the form of dividends within 90 days after December 31 each year. Such dividends are generally treated by shareholders as interest income, so that each shareholder is in the same position as if the mortgage investments made by the company had been made directly by the shareholder.

The company's common shares are listed on the Toronto Stock Exchange (TSX) under the symbol AI and its convertible debentures are listed under the symbols AI.DB, AI.DB.A and AI.DB.B.

2. BASIS OF PRESENTATION

(a) Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as set out in Part I of the *CPA Canada Handbook – Accounting*. These annual financial statements were authorized for issuance by the board of directors on February 9, 2016.

(b) Basis of measurement

These financial statements are prepared on the historical cost basis.

(c) Functional and presentation currency

These financial statements are presented in Canadian dollars, which is also the company's functional currency. Dollars are expressed in thousands except for per share amounts or where the context requires otherwise.

(d) Use of estimates and judgements

The preparation of financial statements in accordance with IFRS requires management to make estimates, assumptions and judgements that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the reporting date and the reported amounts of revenue and expenses during the reporting period. The most subjective of these estimates relates to: (a) valuation of mortgages receivable, which is affected primarily by the provision for mortgage losses, and (b) the measurement of the liability and equity components of the convertible debentures which depend upon the estimated market interest rates for a comparable debenture without the convertibility feature. Management believes that its estimates are appropriate; however, actual results could differ from the amounts estimated. Estimates and underlying assumptions are reviewed each quarter. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

3. SIGNIFICANT ACCOUNTING POLICIES

(a) Revenue recognition

Mortgage interest and fees revenues are recognized in the statement of earnings and comprehensive income using the effective interest method. Mortgage interest and fees revenues include the company's share of any fees received, as well as the effect of any discount or premium on the mortgage.

The effective interest method derives the interest rate that discounts the estimated future cash payments and receipts during the expected life of the mortgage receivable (or, where appropriate, a shorter period) to its carrying amount. When calculating the effective interest rate, future cash flows are estimated considering all contractual terms of the financial instrument, but not future credit losses (see Note 3 (c)). The calculation of the effective interest rate includes all fees and transaction costs paid or received. Fees and transaction costs include incremental revenues and costs that are directly attributable to the acquisition or issuance of the mortgage.

(b) Financial assets – classification, initial recognition and measurement

Classification of financial assets depends upon the purpose for which the financial assets were acquired. Management determines the classification of financial assets at initial recognition. Mortgages receivable are classified as loans and receivables. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Loans and receivables are initially recognized at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest method.

All financial assets are reviewed for impairment quarterly, and written down when there is evidence of impairment.

(c) Mortgages receivable

A mortgage receivable, carried at amortized cost, is considered impaired when there is objective evidence at the end of the reporting period that there has been a deterioration of credit quality subsequent to its initial recognition to the extent that the company no longer has reasonable assurance as to the timely collection of the full amount of principal and interest. The company assesses mortgages receivable for objective evidence of impairment both individually and collectively at each reporting period. The provision for mortgage losses is determined by taking into account the following factors:

- Delays in the collection of interest and principal
- The point at which management considers a loan to be in default (which is defined as 90 days for single family residential mortgages and 30 days for all other mortgages)
- Other known factors specific to the property, the borrower or the guarantor
- Economic and other real estate market conditions in the geographic area in which a borrower's property is located
- Management's judgement as to whether current economic and credit conditions are such that the inchoate or potential losses at the reporting date are likely to be higher or lower than the amounts suggested by historic experience
- Any other factors that apply to a particular mortgage or group of mortgages

Several of these factors involve estimates and judgements on the part of management in determining the provision for mortgage losses. The other key estimates used for quantifying the provision for mortgage losses are:

- The period of time expected to elapse between the contractual maturity or interest and principal repayment dates and the date at which recovery is estimated
- The amount expected to be ultimately recovered on impaired loans, taking into account the likelihood of different outcomes
- The value of underlying security, and whether the company expects to take possession of the property
- The amount of any legal and other third party costs estimated to be incurred

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Mortgages receivable (continued)

An impairment loss is calculated as the difference between the carrying amount of the mortgage receivable and the present value of the estimated future cash flows discounted at the original effective interest rate. Losses are charged to the statements of earnings and comprehensive income and are reflected in the provision for mortgage losses.

If there is no objective evidence of impairment for a counterparty specific mortgage receivable, it is included in a group of mortgages with similar credit risk characteristics and collectively assessed for impairment for losses incurred but not identified. For the purpose of determining groups of mortgages with similar credit risk characteristics, mortgages are grouped by the location of the underlying property and by other risk characteristics.

(d) Convertible debentures

Convertible debentures can be converted into common shares of the company at the option of the investor. They are compound financial instruments with two components: a financial liability, and a call option which is an equity instrument. The fair value of the liability component is measured as of the date that the debentures were issued, and the equity instrument is valued on that date based upon the difference between the fair value of the convertible debenture and the fair value of the liability component. The measurement of the fair value of the liability component is based upon market rates of interest on similar debt instruments without the conversion feature. Expenses of issue are allocated between the two components on a pro-rata basis. The book value of the debt is accreted up to its face value over the life of the debentures using the effective interest method, which applies a constant interest rate over the life of each debenture. The value of the equity component is not remeasured subsequent to its initial measurement date.

(e) Other financial liabilities

Other financial liabilities are non-derivative liabilities recognized initially at fair value, net of transaction costs, and are subsequently stated at amortized cost using the effective interest method. The company has classified bank indebtedness, operating line, accounts payable and accrued liabilities, dividends payable, due to related party and the liability component of convertible debentures as other financial liabilities.

(f) Income taxes

The company qualifies as a Mortgage Investment Corporation under the ITA, and as such is not taxed on income provided that its taxable income is distributed to its shareholders in the form of dividends within 90 days after December 31 each year. It is the company’s policy to pay such dividends to remain non-taxable. Accordingly, no provision for current or future income taxes is required.

(g) Earnings per common share

Basic earnings per common share is calculated by dividing earnings during the period by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated by adjusting the earnings attributable to common shareholders and the weighted average number of common shares outstanding for the effects of all dilutive items such as convertible debentures and deferred share incentive plans.

(h) Share-based payments

The company has an equity-settled share-based compensation plan for grants to eligible directors, officers, and senior management under its deferred share incentive plan. Grants are measured based upon the fair value of the awards granted, based on the volume-weighted average trading share price for the five trading days prior to date of the grant.

4. RECENT ACCOUNTING PRONOUNCEMENTS

Various pronouncements have been issued by the IASB or IFRS Interpretations Committee (IFRIC) that will be effective for future accounting periods, most of which do not apply to the company; one that is applicable is summarized below.

IFRS 9 – Financial Instruments is a new standard on accounting for financial instruments that will replace IAS 39, Financial Instruments: Recognition and Measurement. The effective date is applicable for the company's December 31, 2018 financial statements. IFRS 9 has two measurement categories: amortized cost and fair value. All equity instruments are measured at fair value. A debt instrument is recorded at amortized cost only if the entity is holding the instrument to collect contractual cash flows and the cash flows represent principal and interest. Otherwise it is recorded at fair value through profit or loss. IFRS 9 requires an expected-loss impairment model (replacing the current incurred loss impairment model) that will require more timely recognition of expected losses and requires accounting for expected credit losses when financial instruments are first recognized and to accelerate the recognition of full lifetime expected losses. The potential impact of the new standard on the company's financial statements has not been determined.

5. MORTGAGES RECEIVABLE

(a) Mortgage portfolio

	December 31, 2015			December 31, 2014		
Mortgage category	**Number**	**Outstanding amount**	**% of Portfolio**	**Number**	**Outstanding amount**	**% of Portfolio**
Low-rise residential	23	$ 110,034	24.3%	23	$ 85,678	19.7%
House and apartment	110	84,755	18.8%	90	93,070	21.4%
Construction	9	44,701	9.9%	17	61,095	14.1%
High-rise residential	9	42,245	9.4%	8	44,048	10.1%
Mid-rise residential	7	14,662	3.2%	8	12,127	2.8%
Condominium corporation	18	4,111	0.9%	13	3,260	0.8%
Residential portfolio	176	300,508	66.5%	159	299,278	68.9%
Commercial/mixed use	31	151,083	33.5%	31	134,990	31.1%
Mortgage portfolio	207	451,591	100.0%	190	434,268	100.0%
Accrued interest receivable		1,960			2,177	
Mortgage discount		(440)			(465)	
Mortgage origination fees		(712)			(835)	
Provision for mortgage losses		(4,300)			(2,388)	
Mortgages receivable		$ 448,099			$ 432,757	

The mortgage portfolio has maturity dates between 2016 and 2030 with a weighted average term to maturity of 11.1 months at December 31, 2015 (December 31, 2014 – 13.7 months). The portfolio has a weighted average interest rate (which excludes lender fees earned by the company) of 8.66% for the year ended December 31, 2015 (8.81% for the year ended December 31, 2014).

Within the mortgage portfolio, at December 31, 2015 there were twelve loans aggregating $26,603 (5.9% of the mortgage portfolio) in which the company has a subordinate position in a syndicated mortgage (December 31, 2014 – six mortgages aggregating $9,823, 2.3% of the portfolio).

Additional analysis of the mortgage portfolio, including by location of underlying property and type of mortgage, is set out in the "Investment Portfolio" section of the Management's Discussion and Analysis for the year ended December 31, 2015.

5. MORTGAGES RECEIVABLE

(a) Mortgage portfolio (continued)

Principal repayments based on contractual maturity dates are as follows:

Years ended December 31, 2016	298,947	66.2%
2017	102,798	22.8%
2018	45,851	10.2%
2019	57	0.0%
2020	–	0.0%
Thereafter	3,938	0.8%
	$ 451,591	100.0%

(b) Provision for mortgage losses

	Years ended December 31 2015	2014
Balance, beginning of year	$ 2,388	$ 1,151
Mortgages settled during the year	–	(580)
Provision for mortgage losses	1,912	1,817
Balance, end of year	$ 4,300	$ 2,388

The increase in the provision for mortgage losses during the period is based upon assessment of the factors described in Note 3(c). Also, see Note 12(c).

6. CREDIT FACILITY

At December 31, 2015, the company had a credit facility from a syndicate of two Canadian financial institutions of $130,000 (December 31, 2014 – $100,000) at a formula rate that varies with bank prime and the market bankers' acceptance rate. Drawings under the credit facility may be by way of a bank loan (including bank indebtedness of up to $500), bankers' acceptances or letters of credit (LCs). LCs represent irrevocable assurances that the company's banks will make payments in the event that a customer cannot meet its obligations to third parties. LCs carry the same credit risk, recourse and collateral security requirements as mortgages extended to customers. The committed credit facility was effective September 25, 2015, has a term of two years, and is subject to certain conditions of drawdown and other covenants.

The credit facility is secured by a lien over all of the company's assets by means of a general security agreement. The amount that may be drawn down under the credit facility is determined by the aggregate value of mortgages that are acceptable to the lender. Under the terms of the credit facility, covenants must be met in respect of shareholders' equity, debt to total assets and interest coverage. At December 31, 2015 and December 31, 2014, the company was in compliance with these covenants.

Credit facility	**December 31 2015**	**December 31 2014**
Bankers' acceptances	$ 61,000	$ 57,000
Bank loan	5,925	22,985
Unamortized finance costs	(388)	(332)
Operating line	66,537	79,653
Bank indebtedness	29	313
Total borrowing under credit facility	66,566	79,966
Letters of credit	2,616	4,483
Total credit facility utilization	$ 69,182	$ 84,449

7. RELATED PARTY TRANSACTIONS

The company pays management and mortgage servicing fees to Canadian Mortgage Capital Corporation (CMCC), which is the manager of the company, and responsible for its day-to-day management. The majority beneficial owner and Chief Executive Officer (CEO) of the manager is also CEO of the company. The company incurred management and mortgage servicing fees of $4,173 for the year ended December 31, 2015 (2014 – $3,548). The management agreement between the company and CMCC contains provisions for the payment of termination fees to the manager in the event that the management agreement is terminated in certain circumstances. Amounts due to related party are due to CMCC, in the normal course of business, are non-interest bearing and due on demand, and are paid within 30 days of each period end.

Key management includes directors and officers of the company. Compensation expenses for key management personnel include:

	Years ended December 31	
	2015	**2014**
Directors' fees	$ 177	$ 175
Share-based payments to directors (Note 10)	123	110
Share-based payments to officers (Note 10)	105	101
	$ 405	$ 386

Related party transactions are recorded at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

8. CONVERTIBLE DEBENTURES

	Year ended December 31, 2015

Convertible debentures, end of year	$ 37,966	$ 30,375	$ 30,894	$ 99,235

9. SHARE CAPITAL

The company is authorized to issue an unlimited number of common shares without par value. Common shares rank equally with each other and have no preference, conversion, exchange or redemption rights. Common shares participate pro rata with respect to any dividends paid, including distributions upon termination and dissolution.

The company has an optional dividend reinvestment plan (DRIP) for shareholders, whereby participants may reinvest cash dividends in additional common shares of the company at the volume weighted average price for five days prior to distribution, less a 2% discount. Shares issued under the DRIP are issued by the company from treasury.

Under the employee share purchase plan (ESPP), each participant may contribute up to an annual maximum to the ESPP, and CMCC (the manager) will match 50% of the participant's contribution. Thus, the company does not bear any of the cost of the ESPP, but is reimbursed by CMCC and the participants.

10. SHARE-BASED PAYMENTS

	Year ended December 31, 2015			Year ended December 31, 2014		
	Deferred share units	Income deferred share units	Total	Deferred share units	Income deferred share units	Total
Balance, beginning of year	61,500	6,155	67,655	40,500	2,810	43,310
Units granted	24,000	–	24,000	24,000	–	24,000
Units earned	–	5,532	5,532	–	3,772	3,772
Common shares issued	(33,083)	(7,261)	(40,344)	(3,000)	(427)	(3,427)
Balance, end of year	52,417	4,426	56,843	61,500	6,155	67,655

10. SHARE-BASED PAYMENTS (continued)

Share compensation expense:	Years ended December 31 2015	Years ended December 31 2014
September 1, 2015 grant	$ 62	$ –
September 1, 2014 grant	166	55
August 30, 2013 grant	63	125
August 29, 2012 grant	34	68
	$ 325	$ 248

Grants are provided to certain directors and employees under the company's deferred share incentive plan ("DSIP"). The deferred share units vest annually over three years. Common shares are issued to participants on the vesting date of each tranche of deferred share units, unless a participant elects to defer the issuance. In addition, income deferred share units ("IDSU") are credited to holders of deferred share units based upon dividends paid on common shares. The fair value of share-based compensation was based upon the volume weighted average market price of the common shares five days prior to the grant date of September 1, 2015 ($11.58) and September 1, 2014 ($11.46).

11. EARNINGS PER SHARE

Diluted earnings per share	$ 0.93	$ 0.91

12. FINANCIAL INSTRUMENTS

(a) Classification of financial instruments

Financial assets comprise mortgages receivable. All financial assets are classified as loans and receivables. Financial liabilities comprise bank indebtedness, operating line, accounts payable and accrued liabilities, dividends payable, due to related party and the liability component of convertible debentures. All financial liabilities are classified as other financial liabilities.

12. FINANCIAL INSTRUMENTS (continued)

(b) Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between arm's length market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data or other means.
- Level 3 inputs are unobservable (supported by little or no market activity).

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. All financial assets are classified as loans and receivables and are recorded at amortized cost. Their carrying values approximate their fair value due to their relatively short-term maturities and because market interest rates have not fluctuated significantly since the date at which the loans were entered into. The fair value of the bank indebtedness and operating line approximates book value since it bears interest at floating rates. The accounts payable and accrued liabilities, dividends payable and due to related party carrying value approximates their fair value due to the short term nature of the items. Mortgages receivable mature between 2016 and 2030 with a weighted average term to maturity at December 31, 2015 of 11.1 months (December 31, 2014 – 13.7 months). Fair value of mortgages receivable is established by Level 3 inputs.

The fair value of convertible debentures at the time of issue is established using Level 2 inputs. The fair value of convertible debentures has been determined based on the closing prices of the convertible debentures on the TSX on the respective dates.

Convertible debentures	**December 31 2015**	**December 31 2014**
Fair value	$ 103,815	$ 104,507
Less book value of equity component	(1,062)	(1,062)
	$ 102,753	$ 103,445
Book value of financial liability component	$ 100,180	$ 99,235

The fair value of all other financial liabilities is estimated using level 3 inputs.

(c) Credit risk

The following asset is exposed to credit risk: mortgages receivable. Credit risk is the risk that a counterparty to a financial instrument will fail to discharge its obligation or commitment, resulting in a financial loss to the company.

Seven mortgages were in default at December 31, 2015, aggregating $6,619 (one was in default at December 31, 2014, aggregating $546, which has been subsequently brought up to date).

The company controls the credit risk of mortgages receivable by maintaining strict credit policies including due diligence processes, credit limits, documentation requirements, review and approval of new mortgages by the board of directors or a subgroup thereof, quarterly review of the entire portfolio by the board of directors, and other credit policies approved by the board of directors. Credit risk is approved by the board of directors. The largest related group of borrowers accounted for 10.0% of mortgages receivable at December 31, 2015 (December 31, 2014 – 7.9%). See Note 5(a) for a breakdown of mortgages by category.

12. FINANCIAL INSTRUMENTS (continued)

(d) Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its obligations when due. The primary sources of liquidity risk are the requirements to fund commitments for new mortgages, advances on existing mortgages, as well as obligations under the company's credit facility. The company's liquidity risk is managed on an ongoing basis in accordance with the policies and procedures in place that reduce the risk to an acceptable level. Policies and procedures include continual monitoring of expected cash flows, reviewing credit requirements with the company's bankers, issuing convertible debentures or common shares in the public markets from time to time as required, and staggering the maturities of convertible debentures when they are issued. From time to time the company has arranged temporary increases in its credit facility with its banks in order to manage liquidity requirements, and expects to be able to continue to do so in the future if required. The company's significant financial liabilities include bank indebtedness, operating line, accounts payable and accrued liabilities, dividends payable, due to related party and the liability component of convertible debentures. The bank indebtedness and operating line are drawn upon as required to discharge accounts payable and accrued liabilities as well as to pay out dividends on a monthly basis. The company's agreement with the lender is that the operating line will not be called provided that all covenants are met and that any significant excess cash is used to pay down the bank loan and indebtedness.

As at December 31, 2015, management considers that it has adequate procedures in place to manage liquidity risk.

Obligations at December 31, 2015	Total	Less than 1 year	1-2 years	3-5 years	More than 5 years
Bank indebtedness	$ 29	$ –	$ 29	$ –	$ –
Operating line	66,925	–	66,925	–	–
Accounts payable and accrued liabilities	677	677	–	–	–
Accrued convertible debentures interest	1,050	1,050	–	–	–
Dividends payable	4,294	4,294	–	–	–
Due to related party	402	402	–	–	–
Convertible debentures	104,551	–	–	64,301	40,250
Total	$ 177,928	$ 6,423	$ 66,954	$ 64,301	$ 40,250

The company has commitments to advance additional funds under existing mortgages of $71,856 and for new mortgages of $300 at December 31, 2015 (December 31, 2014 – $99,757 and $10,063 respectively). Generally, outstanding commitments are expected to be funded within the next 24 months. However, the experience of the company has been that a portion of the unfunded amounts on existing mortgages will never be drawn.

(e) Interest rate risk

The company is exposed to interest rate risk in that an increase in interest rates will result in increased interest expense due to its operating line and indebtedness being set at a variable rate but all mortgages being set at fixed rates. The financial structure of the company results in relatively moderate interest rate risk because most of the company's financing is through common shares and convertible debentures, with a moderate amount of borrowings under the credit facility that bear floating interest rates.

If interest rates on debt had been one percentage point higher (lower) during the year ended December 31, 2015, earnings would have been reduced (increased) by approximately $761 during the year, assuming that no changes had been made to the interest rates at which new mortgage loans were entered into. However, if new mortgage loans had been entered into at higher (lower) interest rates, the resulting reduction of earnings would have been less than (greater than) $761.

(f) Currency risk

Currency risk is the risk that the value of financial assets and liabilities will fluctuate due to changes in foreign exchange rates. The company is not currently exposed to significant currency risk as all assets and liabilities are denominated in Canadian funds.

13. CAPITAL MANAGEMENT

The company defines capital as total debt plus shareholders' equity, as shown below:

	December 31 2015	December 31 2014
Bank indebtedness	$ 29	$ 313
Operating line	66,925	79,985
Unamortized finance costs	(388)	(332)
Total borrowing under credit facility	66,566	79,966
Convertible debentures	100,180	99,235
Total debt	166,746	179,201
Shareholders' equity	274,984	248,204
Capital employed	$ 441,730	$ 427,405

The company's objectives for managing capital are to preserve shareholders' equity, provide shareholders with stable dividends, and to use leverage in a conservative manner to improve return to shareholders. The company finances growth of its portfolio by issuing common shares and debt. In addition, a small amount of equity is raised every month through a dividend reinvestment plan for shareholders.

As bank borrowings increase, the company could expect to raise further funds through public offerings of convertible debentures or common shares, and through private placements of debt. The company's bank indebtedness, bankers' acceptances and bank loan are subject to external covenants as set out in Note 6. There has been no change in the company's capital management objectives since the prior year.

14. SUBSEQUENT EVENTS

On January 12, 2015, the company issued 17,460 common shares ($193) to shareholders under its dividend reinvestment plan.
