Masland Contract offers flooring products developed specifically for the commercial interior, while Masland Hospitality provides options that perform beautifully in high-traffic settings. No matter the project, we are equipped to work with your design team in developing flooring that delivers your vision. Come start the dialogue at maslandcontract.com.

ATLAS CARPET MILLS

Atlas' focus is to create unique and beautiful carpet styles. The Atlas product line features a range of patterns and textures with each one especially crafted for the discerning client. To accomplish this, Atlas has various sophisticated pattern machines, each equipped with the latest technology. This enables Atlas to provide unique patterns and textures in cut pile, cut-loop and all loop textures. Atlas' goal is to provide each client with carpets that will significantly enhance their space and set them apart from their competitors.

LETTER TO SHAREHOLDERS

Since 2009, our carpet sales have grown 96%, while we estimate that the industry grew around 12%. This has been the result of a growth plan we put together in 2010 to take advantage of what we felt were unique market opportunities. However, we have had challenges as a result of this growth. Our 2010 growth plan was for 10% growth per year, however, we became capacity constrained in 2013 as our sales grew over 30%.

As a result, in 2014 we accelerated our plan to grow our capacity from \$350 million to a range of \$550 to \$600 million, depending upon product mix. In addition, we purchased Atlas Carpet Mills, a premium provider to the high-end commercial market. Further, we purchased Burtco, a specialty provider to the hospitality marketplace. Therefore, 2014 was a year of business integration, capacity expansion and facility realignment, which impacted virtually all of our facilities. In the first half of 2015, we will have completed substantially all of our business integration, facility consolidation and capacity expansion plans.

The investments we have made included both capital expenditures and temporary increases in operating costs due to implementation of the capacity expansion plan. We began the year by expanding capacity at Colormaster, our continuous dyeline. We completed the training and full commissioning of our expanded Roanoke yarn facility. We acquired and began the integration process of Atlas Carpet Mills. We expanded our Eton residential tufting operations, doubling the number of machines

in service. We realigned our Calhoun wool operations, a change designed to increase capacity and lower cost. Further, we moved the finished goods for our residential East Coast business to our newly opened Adairsville facility, consolidating four warehousing operations into one facility. We added continuous yarn dyeing capability to our Colormaster facility and expanded our yarn skein dye operations in Calhoun. Similarly, we shut down our Atmore carpet and yarn dye operations, converting that mill to a dry mill dedicated to serving our Masland Contract brand. As part of this process, we decommissioned our Atmore wastewater treatment plant. Further, on the West Coast, we merged our newly acquired Atlas dye house into our Susan Street dye facility. We upgraded our machine tufted rug capability during the year with added capacity as well as installing skein dye yarn capability to support our custom wool rug programs. We purchased Burtco and its excellence in computerized yarn placement tufting technology, using this as the foundation for our newly formed Masland Hospitality sales force.

A prime focus in 2015 is on training our workforce, which has increased 45% since the beginning of 2013. Further, in 2015, we are focused on improving waste, yields and efficiencies in our operations. We are seeing the positive impact of our expanded sales force, the result of our efforts in 2013 and 2014 to significantly increase our field coverage. Despite the disruption of the past year, we continued to outgrow the industry in 2014 with

year-over-year sales growth approximately 7% better than the industry, excluding the result from Atlas Carpet Mills. Our residential product sales were up 8% for the year compared to 2013, while the industry, we estimate, was down in the low-single digit range. The year-over-year sales increase in commercial products, without Atlas, was 6% as compared with an estimated market growth in the low single digits for 2014.

We believe the consumer preference for innovative fashion and better quality products continue to provide us with the opportunity to grow our business and outperform the industry. We see positive signs with the housing market slowly improving, the unemployment rate back down to the levels of 2008 and job creation the strongest in seven years. These factors should lead to continued opportunities in the residential market. Particular opportunities are in the growth of our wool business, further increases in our Stainmaster® PetProtect™ products as well as utilization of our latest investments in both ColorPoint™ and iTuft™ tufting technologies for beautiful patterns in the upper-end residential market. We are excited about the growth potential in the commercial market, as evidenced by our purchase of Atlas. We continue to see opportunities for our modular tile offerings in both the Masland Contract and Atlas markets. Further, we believe we can capitalize on future opportunities in hospitality through the creation of Masland Hospitality and by

leveraging our investment in Burtco and its unique position in custom computerized yarn placement tufting technology.

2014 was a year of significant change in all of our facilities to prepare us for future growth. In 2015, our energy will be focused on improving our operations so we can continue to outperform the industry on the top line and improve our profitability.

We would like to express our appreciation to our customers, our shareholders, and to our Board of Directors, all of whom have given us continued support, and to our associates for their ongoing dedication and hard work.

We want to remember Dr. Don Brock, a faithful board member who passed away this month. Since 1997, he has helped guide us and develop our strategies for the future. As a personal friend and sounding board for your chairman, the Board and I have appreciated Don's input, counsel and support and will miss his wisdom and insight.

Sincerely,

FORWARD-LOOKING INFORMATION

This Report contains statements that may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements include the use of terms or phrases such as "expects," "estimates," "projects," "believes," "anticipates," "intends," and similar terms and phrases. Such forward-looking statements relate to, among other matters, our future financial performance, business prospects, growth strategies or liquidity. The following important factors may affect our future results and could cause those results to differ materially from our historical results; these factors include, in addition to those "Risk Factors" detailed in Item 1A of this report, and described elsewhere in this document, the cost and availability of capital, raw material and transportation costs related to petroleum price levels, the cost and availability of energy supplies, the loss of a significant customer or group of customers, materially adverse changes in economic conditions generally in carpet, rug and floorcovering markets we serve and other risks detailed from time to time in our filings with the Securities and Exchange Commission.

PART I.

Item 1. BUSINESS

General

Our business consists principally of marketing, manufacturing and selling carpet and rugs to high-end residential and commercial customers through our various sales forces and brands. A small portion of our manufacturing capacity is used to provide carpet and yarn related services to other manufacturers.

From 1920 until 1993 we were exclusively in the textile business. We sold our textile assets and began acquiring floorcovering businesses in 1993. We focus exclusively on the upper-end of the soft floorcovering market where we believe we have strong brands and competitive advantages with our style and design capabilities and customer relationships.

Our business is concentrated in areas of the soft floorcovering markets where innovative styling, design, color, quality and service, as well as limited distribution, are welcomed and rewarded. Our Fabrica, Masland, and Dixie Home brands have a significant presence in the high-end residential soft floorcovering markets. Our Atlas Carpet Mills, Masland Contract brand and Masland Hospitality, participate in the upper end specified commercial marketplace. Dixie International sells all of our brands outside of the North American market. Our brands are well known, highly regarded and complementary; by being differentiated, we offer meaningful alternatives to the discriminating customer.

We have one line of business, carpet and rug manufacturing.

Our Brands

Fabrica, markets and manufactures luxurious residential carpet and custom rugs, at selling prices that we believe are approximately five times the average for the residential soft floorcovering industry. Its primary customers are interior decorators and designers, selected retailers and furniture stores, luxury home builders and manufacturers of luxury motor coaches and yachts. Fabrica is among the leading premium brands in the domestic marketplace and is known for styling innovation and unique colors and patterns. Fabrica consists of made-to-order, hand-crafted, extremely high quality carpets and area rugs in both nylon and wool, with a wide variety of patterns and textures. Fabrica is viewed by the trade as the premier quality brand for very high-end carpet and enjoys an established reputation as a styling trendsetter and a market leader in providing both custom and designer products to the very high-end residential sector.

Masland Residential, founded in 1866, markets and manufactures design-driven specialty carpets and rugs for the high-end residential marketplace. Its residential and commercial broadloom carpet products are marketed at selling prices that we believe are over three times the average for the residential soft floorcovering industry. Its products are marketed through the interior design community, as well as to consumers through specialty floorcovering retailers. Masland Residential has strong brand recognition within the upper-end residential market. Masland Residential competes through innovative styling, color, product design, quality and service with products made of both wool and nylon.

Dixie Home provides stylishly designed, differentiated products that offer affordable fashion to residential consumers. Dixie Home markets an array of tufted broadloom residential and commercial carpet to selected retailers and home centers under the Dixie Home and private label brands. Its objective is to make the Dixie Home brand the choice for styling, service and quality in the more moderately priced sector of the high-end broadloom residential carpet market. Its products are marketed at selling prices which we believe average two times the soft floorcovering industry's average selling price.

Atlas Carpet Mills, acquired in 2014, is our premium commercial brand. Atlas has long been known for superior style and design. Atlas' focus is the specified design community including architects and designers who serve the upper end commercial marketplace. The Atlas brand has unique styling, as evident in both its broadloom and modular carpet tile product offerings. Atlas' high quality offerings are manufactured utilizing just in time manufacturing techniques in our California operations.

Masland Contract markets and manufactures broadloom and modular carpet tile for the specified commercial marketplace. Its commercial products are marketed to the architectural and specified design community and directly to commercial end users, as well as to consumers through specialty floorcovering retailers. Masland Contract has strong brand recognition within the upper-end contract market, and competes through innovative styling, color, patterns, quality and service.

Masland Hospitality, a new commercial business launched in 2014, is designed to focus on the hospitality market with both custom designed and running line products. Utilizing the computerized yarn placement technology we acquired with our Burtco acquisition this past year, as well as offerings utilizing our state of the art Infinity tufting technology, this brand provides excellent service and design flexibility to the hospitality market serving upper-end hotels, conference centers and

senior living markets. Its broadloom and rug product offerings are designed for the interior designer in the upper-end of the hospitality market who appreciates sophisticated texture, color and patterns with excellent service.

Industry

The carpet and rug industry has two primary markets, residential and commercial, with the residential market making up the largest portion of the industry's sales. A substantial portion of industry shipments is made in response to replacement demand. Residential products consist of broadloom carpets and rugs in a broad range of styles, colors and textures. Commercial products consist primarily of broadloom carpet and modular carpet tile for a variety of institutional applications such as office buildings, restaurant chains, schools and other commercial establishments. The carpet industry also manufactures carpet for the automotive, recreational vehicle, small boat and other industries.

The Carpet and Rug Institute (the "CRI") is the national trade association representing carpet and rug manufacturers. Information compiled by the CRI suggests that the domestic carpet and rug industry is comprised of fewer than 100 manufacturers, with a significant majority of the industry's production concentrated in a limited number of manufacturers focused on the lower end of the price curve. We believe that this industry focus provides us with opportunities to capitalize on our competitive strengths in selected markets where innovative styling, design, product differentiation, focused service and limited distribution add value.

Competition

The floorcovering industry is highly competitive. We compete with other carpet and rug manufacturers and other types of floorcoverings. We believe our products are among the leaders in styling and design in the high-end residential and high-end commercial carpet markets. However, a number of manufacturers produce competitive products and some of these manufacturers have greater financial resources than we do.

We believe the principal competitive factors in our primary soft floorcovering markets are styling, color, product design, quality and service. In the high-end residential and high-end commercial markets, carpet competes with various other types of floorcoverings. Nevertheless, we believe we have competitive advantages in several areas. We have an attractive portfolio of brands that we believe are well known, highly regarded by customers and complementary; by being differentiated, we offer meaningful alternatives to the discriminating customer. We believe our investment in new yarns, such as Stainmaster's® TruSoft™ and PetProtect™, and innovative tufting and dyeing technologies, strengthens our ability to offer product differentiation to our customers. In addition, we have established longstanding relationships with key suppliers in our industry and customers in most of our markets. Finally, our reputation for innovative design excellence and our experienced management team enhance our competitive position. See "Risk Factors" in Item 1A of this report.

Backlog

Sales order backlog is not material to understanding our business, due to relatively short lead times for order fulfillment in the markets for the vast majority of our products.

Trademarks

Our floorcovering businesses own a variety of trademarks under which our products are marketed. Among such trademarks, the names "Fabrica", "Masland", "Dixie Home", "Atlas Carpet Mills", "Masland Contract" and "Masland Hospitality" are of greatest importance to our business. We believe that we have taken adequate steps to protect our interest in all significant trademarks.

Customer and Product Concentration

As a percentage of our net sales, one customer, Lowe's, a mass merchant, accounted for approximately 9% in 2014, 13% in 2013 and 9% in 2012. No other customer was more than 10 percent of our sales during the periods presented. During 2014, sales to our top ten customers accounted for 15% percent of our sales and our top 20 customers accounted for 18% percent of our sales. We do not make a material amount of sales in foreign countries.

We do not have any single class of products that accounts for more than 10 percent of our sales. However, sales of our floorcovering products may be classified by significant end-user markets into which we sell, and such information for the past three years is summarized as follows:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Residential floorcovering products	67%	73%	75%
Commercial floorcovering products	33%	27%	25%

Seasonality

Our sales historically have normally reached their lowest level in the first quarter (approximately 23% of our annual sales), with the remaining sales being distributed relatively equally between the second, third and fourth quarters. Working capital requirements have normally reached their highest levels in the third and fourth quarters of the year.

Environmental

Our operations are subject to federal, state and local laws and regulations relating to the generation, storage, handling, emission, transportation and discharge of materials into the environment. The costs of complying with environmental protection laws and regulations have not had a material adverse impact on our financial condition or results of operations in the past and are not expected to have a material adverse impact in the future. See "Risk Factors" in Item 1A of this report.

Raw Materials

Our primary raw material is yarn. Nylon is the primary yarn we utilize and, to a lesser extent, wool and polyester yarn is used. Additionally, we utilize polypropylene carpet backing, latex, dyes and chemicals, and man-made topical applications in the construction of our products. Our synthetic yarns are purchased primarily from domestic fiber suppliers and wool is purchased from a number of domestic and international sources. Our other raw materials are purchased primarily from domestic suppliers. Where possible, we pass raw material price increases through to our customers; however, there can be no assurance that price increases can be passed through to customers and that increases in raw material prices will not have an adverse effect on our profitability. See "Risk Factors" in Item 1A of this report. We purchase a significant portion of our primary raw material (nylon yarn) from one supplier. We believe there are other sources of nylon yarn; however, an unanticipated termination or interruption of our supply arrangements could adversely affect our supplies of raw materials and could have a material effect on our operations. See "Risk Factors" in Item 1A of this report.

Utilities

We use electricity as our principal energy source, with oil or natural gas used in some facilities for dyeing and finishing operations as well as heating. We have not experienced any material problem in obtaining adequate supplies of electricity, natural gas or oil. Energy shortages of extended duration could have an adverse effect on our operations, and price volatility could negatively impact future earnings. See "Risk Factors" in Item 1A of this report.

Working Capital

We are required to maintain significant levels of inventory in order to provide the enhanced service levels demanded by the nature of our business and our customers, and to ensure timely delivery of our products. Consistent and dependable sources of liquidity are required to maintain such inventory levels. Failure to maintain appropriate levels of inventory could materially adversely affect our relationships with our customers and adversely affect our business. See "Risk Factors" in Item 1A of this report.

Employment Level

At December 27, 2014, we employed 1,740 associates in our operations.

Item 1A. RISK FACTORS

In addition to the other information provided in this Report, the following risk factors should be considered when evaluating the results of our operations, future prospects and an investment in shares of our Common Stock. Any of these factors could cause our actual financial results to differ materially from our historical results, and could give rise to events that might have a material adverse effect on our business, financial condition and results of operations.

The floorcovering industry is sensitive to changes in general economic conditions and a decline in residential or commercial construction activity or corporate remodeling and refurbishment could have a material adverse effect on our business.

The floorcovering industry, in which the Company participates, is highly dependent on general economic conditions, such as consumer confidence and income, corporate and government spending, interest rate levels, availability of credit and demand for housing. The Company derives a majority of its sales from the replacement segment of the market. Therefore, economic changes that result in a significant or prolonged decline in spending for remodeling and replacement activities could have a material adverse effect on the Company's business and results of operations.

The floorcovering industry is highly dependent on construction activity, including new construction, which is cyclical in nature, and recently experienced a downturn. The 2008 downturn in the U.S. and global economies, along with the residential and commercial markets in such economies, negatively impacted the floorcovering industry and the Company's business. Although the impact of a decline in new construction activity is typically accompanied by an increase in remodeling and replacement activity, these activities lagged during the downturn. Although the difficult economic conditions have improved, there may be additional downturns that could cause the industry to deteriorate in the foreseeable future. A significant or prolonged decline in residential or commercial construction activity could have a material adverse effect on the Company's business and results of operations.

We have significant levels of sales in certain channels of distribution and reduction in sales through these channels could adversely affect our business.

A significant amount of our sales are generated through certain retail and mass merchant channels of distribution. Because we depend on such certain channels of distribution, a significant reduction of sales through these channels could adversely affect our business.

We have significant levels of indebtedness that could result in negative consequences to us.

We have a significant amount of indebtedness relative to our equity. Insufficient cash flow, profitability or the value of our assets securing our loans could materially adversely affect our ability to generate sufficient funds to satisfy the terms of our senior loan agreements and other debt obligations. Additionally, the inability to access debt or equity markets at competitive rates in sufficient amounts to satisfy our obligations could adversely impact our business.

Uncertainty in the credit market or downturns in the economy and our business could affect our overall availability and cost of credit.

Uncertainty in the credit markets could affect the overall availability and cost of credit. Despite recent improvement in overall economic conditions, market conditions could impact our ability to obtain financing in the future, including any financing necessary to refinance existing indebtedness, and the cost and terms of it, remains uncertain. These and other economic factors could have a material adverse effect on demand for our products and on its financial condition and operating results.

We face intense competition in our industry, which could decrease demand for our products and could have a material adverse effect on our profitability.

The floorcovering industry is highly competitive. We face competition from a number of domestic manufacturers and independent distributors of floorcovering products and, in certain product areas, foreign manufacturers. Significant consolidation within the floorcovering industry has caused a number of our existing and potential competitors to grow significantly larger and have greater access to resources and capital than we do. Maintaining our competitive position may require us to make substantial additional investments in our product development efforts, manufacturing facilities, distribution network and sales and marketing activities. These additional investments may be limited by our access to capital, as well as restrictions set forth in our credit facilities. Competitive pressures may also result in decreased demand for our products and in the loss of market share. In addition, we face, and will continue to face, competitive pressures on our sales price and cost of our products. As a result of any of these factors, there could be a material adverse effect on our sales and profitability.

If we are unable to anticipate consumer preferences and successfully develop and introduce new, innovative and updated products, we may not be able to maintain or increase our net revenues and profitability.

Our success depends on our ability to identify and originate product trends as well as to anticipate and react to changing consumer demands in a timely manner. All of our products are subject to changing consumer preferences that cannot be predicted with certainty. In addition, long lead times for certain of our products may make it hard for us to quickly respond to changes in consumer demands. Our new products may not receive consumer acceptance as consumer preferences could shift rapidly to different types of flooring products or away from these types of products altogether, and our future success depends in part on our ability to anticipate and respond to these changes. Failure to anticipate and respond in a timely manner to changing consumer preferences could lead to, among other things, lower sales and excess inventory levels, which could have a material adverse effect on our financial condition.

Raw material prices may increase and the inability to pass any such increases to our customers could materially adversely affect our business, results of operations and financial condition.

The prices of raw materials and fuel-related costs vary significantly with market conditions. In particular, our business requires the purchase of large volumes of nylon and polyester yarn, as well as wool yarns, synthetic backing, latex, and dyes. Increases in the cost of these raw materials could materially adversely affect our business, results of operations and financial condition if we are unable to pass these increases through to our customers. Although we generally attempt to pass on increases in raw material, energy and fuel-related costs to our customers, our ability to do so is dependent upon the rate and magnitude of any increase, competitive pressures and market conditions for our products. There have been in the past, and may be in the future, periods of time during which increases in these costs cannot be recovered. During such periods of time, our business may be materially adversely affected.

Unanticipated termination or interruption of our arrangements with third-party suppliers of nylon yarn could have a material adverse effect on us.

Nylon yarn is the principal raw material used in our floorcovering products. A significant portion of such yarn is purchased from one supplier. Our yarn supplier is one of the leading fiber suppliers within the industry and is the exclusive supplier of certain innovative branded fiber technology upon which we rely. We believe our offerings of this innovative fiber technology contribute materially to the competitiveness of our products. While we believe there are other sources of nylon yarns, an unanticipated termination or interruption of our current supply of nylon yarn could have a material adverse effect on our ability to supply our product to our customers and have a material adverse impact on our competitiveness if we are unable to replace our nylon supplier with another supplier that can offer similar innovative fiber products. An extended interruption in the supply of these or other raw materials or sourced products used in the Company's business or in the supply of suitable substitute materials or products would disrupt the Company's operations, which could have a material adverse effect on the Company's business.

We may experience certain risks associated with internal expansion, acquisitions, joint ventures and strategic investments.

We have recently embarked on several strategic and tactical initiatives, including aggressive internal expansion, acquisitions and investment in new products, to strengthen our future and to enable us to return to sustained growth and profitability. Growth through expansion and acquisition involves risks, many of which may continue to affect us after the acquisition or expansion. An acquired company, operation or internal expansion may not achieve the levels of revenue, profitability and production that we expect. The combination of an acquired company's business with ours involves risks. Further, internally generated growth that involves expansion involves risks as well. Such risks include the integration of computer systems, alignment of human resource policies and the retention of valued talent. Reported earnings may not meet expectations because of goodwill and intangible asset impairment, other asset impairments, increased interest costs and issuance of additional securities or debt as a result of these acquisitions. We may also face challenges in consolidating functions and integrating our organizations, procedures, operations and product lines in a timely and efficient manner.

The diversion of management attention and any difficulties encountered in the transition and integration process could have a material adverse effect on our revenues, level of expenses and operating results. Failure to successfully manage and integrate an acquisition with our existing operations or expansion of our existing operations could lead to the potential loss of customers of the acquired or existing business, the potential loss of employees who may be vital to the new or existing operations, the potential loss of business opportunities or other adverse consequences that could have a material adverse effect on our business, financial condition and results of operations. Even if integration occurs successfully, failure of the expansion or acquisition to achieve levels of anticipated sales growth, profitability or productivity, or otherwise perform as expected, may have a material adverse effect on our business, financial condition and results of operations.

We are subject to various environmental, safety and health regulations that may subject us to costs, liabilities and other obligations, which could have a material adverse effect on our business, results of operations and financial condition.

We are subject to various environmental, safety and health and other regulations that may subject us to costs, liabilities and other obligations which could have a material adverse effect on our business. The applicable requirements under these laws are subject to amendment, to the imposition of new or additional requirements and to changing interpretations of agencies or courts. We could incur material expenditures to comply with new or existing regulations, including fines and penalties and increased costs of its operations. Additionally, future laws, ordinances or regulations could give rise to additional compliance or remediation costs that could have a material adverse effect on our business, results of operations and financial condition. For example, producer responsibility regulations regarding end-of-life disposal could impose additional cost and complexity to our business.

Various federal, state and local environmental laws govern the use of our current and former facilities. These laws govern such matters as:

- Discharge to air and water;
- Handling and disposal of solid and hazardous substances and waste, and
- Remediation of contamination from releases of hazardous substances in our facilities and off-site disposal locations.

Our operations also are governed by laws relating to workplace safety and worker health, which, among other things, establish noise standards and regulate the use of hazardous materials and chemicals in the workplace. We have taken, and will continue to take, steps to comply with these laws. If we fail to comply with present or future environmental or safety regulations, we could be subject to future liabilities. However, we cannot ensure that complying with these environmental or health and safety laws and requirements will not adversely affect our business, results of operations and financial condition.

We may be exposed to litigation, claims and other legal proceedings in the ordinary course of business relating to our products or business, which could have a material adverse effect on our business, results of operations and financial condition.

In the ordinary course of business, we are subject to a variety of work-related and product-related claims, lawsuits and legal proceedings, including those relating to product liability, product warranty, product recall, personal injury, and other matters that are inherently subject to many uncertainties regarding the possibility of a loss our business. Such matters could have a material adverse effect on our business, results of operations and financial condition if we are unable to successfully defend against or resolve these matters or if our insurance coverage is insufficient to satisfy any judgments against us or settlements relating to these matters. Although we have product liability insurance, the policies may not provide coverage for certain claims against us or may not be sufficient to cover all possible liabilities. Further, we may not be able to maintain insurance at commercially acceptable premium levels. Additionally, adverse publicity arising from claims made against us, even if the claims are not successful, could adversely affect our reputation or the reputation and sales of our products.

Our business operations could suffer significant losses from natural disasters, catastrophes, fire or other unexpected events.

Many of our business activities involve substantial investments in manufacturing facilities and many products are produced at a limited number of locations. These facilities could be materially damaged by natural disasters, such as floods, tornadoes, hurricanes and earthquakes, or by fire or other unexpected events such as adverse weather conditions or other disruptions to our facilities, supply chain or our customer's facilities. We could incur uninsured losses and liabilities arising from such events, including damage to our reputation, and/or suffer material losses in operational capacity, which could have a material adverse impact on our business, financial condition and results of operations.

In addition to the facilities listed above, we lease a small amount of office space in various locations.

In our opinion, our manufacturing facilities are well maintained and our machinery is efficient and competitive. Operations of our facilities generally vary between 120 and 168 hours per week. Substantially all of our owned properties are subject to mortgages, which secure the outstanding borrowings under our senior credit facilities.

Item 3. LEGAL PROCEEDINGS

At December 28, 2013, the Company was a plaintiff in a lawsuit against a former raw material supplier. In its lawsuit, the Company alleges that the former supplier sold defective materials to the Company over a period of time, which, when applied to certain of the Company's products, caused those products to become defective and unmerchantable in the ordinary course of the Company's business. On January 31, 2014, the Company and the supplier settled the Company's claim for \$400 thousand.

During 2014, based on further information, the Company retroactively applied adjustments to the initial provisional amounts resulting in a final bargain purchase amount of \$10,937.

Shareholder Return Performance Presentation

We compare our performance to two different industry indexes published by Dow Jones, Inc. The first of these is the Dow Jones Furnishings Index, which is composed of publicly traded companies classified by Dow Jones in the furnishings industry. The second is the Dow Jones Building Materials & Fixtures Index, which is composed of publicly traded companies classified by Dow Jones in the building materials and fixtures industry.

In accordance with SEC rules, set forth below is a line graph comparing the yearly change in the cumulative total shareholder return on our Common Stock against the total return of the Standard & Poor's 600 Stock Index, plus both the Dow Jones Furnishings Index and the Dow Jones Building Materials & Fixtures Index, in each case for the five year period ended December 27, 2014. The comparison assumes that \$100.00 was invested on December 26, 2009, in our Common Stock, the S&P 600 Index, and each of the two Peer Groups, and assumes the reinvestment of dividends.

The foregoing shareholder performance presentation shall not be deemed "soliciting material" or to be "filed" with the Commission subject to Regulation 14A, or subject to the liabilities of Section 18 of the Exchange Act.

Item 6. SELECTED FINANCIAL DATA

Selected financial data for the periods presented have been restated to classify the results of Carousel operations discontinued in December 2014 as discontinued operations.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our consolidated financial statements and related notes appearing elsewhere in this report.

OVERVIEW

After the downturn of 2008 - 2009, we put together a growth plan to take advantage of the unique opportunities that, we believe, has driven our sales success over the last 5 years. Since 2009, our carpet product sales have grown 96%, while the industry, we estimate, grew only around 12%. While we had planned on 10% growth per year, we became capacity constrained in 2013 as our sales grew over 30%. As a result, we accelerated our plan to grow our capacity from \$350 million to a range of \$550 to \$600 million, depending upon product mix. In addition, we made the decision to merge our two west coast dye houses as a result of the purchase of Atlas Carpet Mills ("Atlas") in the first quarter of 2014. Further, in the fourth quarter, we decided to discontinue the Carousel brand, a small non-core line of products that was part of the 2013 Robertex acquisition (See Note 21 in Consolidated Financial Statements). Therefore, 2014 was a year of expansion and facility re-alignment which impacted virtually all of our facilities.

The investments we made have included both capital expenditures and temporary increases in operating costs due to implementation of the capacity expansion plan. We began the year by expanding capacity at Colormaster, our continuous dyeline. We completed the training and fully commissioning of our expanded Roanoke yarn facility designed to support our growth with internal supply and lessen our dependence on externally supplied yarn. We acquired and began the integration process of Atlas. We expanded our Eton residential tufting operations, doubling the number of machines in service. We realigned our Calhoun wool operations, a change designed to increase capacity and lower costs. Further, we moved the finished goods for our residential east coast business to our newly opened Adairsville facility, consolidating four warehousing operations into one facility. We added continuous yarn dyeing capability to our Colormaster facility and expanded our yarn skein dye operations in Calhoun. Similarly, we shut down our Atmore carpet and yarn dye operations, converting that mill to a dry mill dedicated to serving our Masland Contract brand. As part of this process, we de-commissioned our Atmore wastewater treatment plant. Further, on the west coast, we merged our newly acquired Atlas dye house into our Susan Street dye facility. We upgraded our machine tufted rug capability during the year with added capacity as well as installing skein dye yarn capability to support our custom wool rug programs. We purchased Burtco Enterprises, LLC ("Burtco") and its excellence in computerized yarn placement tufting technology, using this as the foundation for our newly formed Masland Hospitality sales force. A prime focus in 2015 is on training our workforce which has increased 45% since the beginning of 2013. Further, in 2015 we are focused on improving waste, yields and efficiencies in our operations. We are seeing the positive impact of our expanded sales force, the result of our efforts in 2013 and 2014 to significantly increase our field coverage.

Several of the initiatives above were undertaken as a warehousing/distribution/manufacturing restructuring plan approved by our Board of Directors on January 20, 2014. This plan was developed to align our warehousing, distribution and manufacturing to support our growth and manufacturing strategy and to create a better cost structure and to improve distribution capabilities and customer service. The key element and first major step of this plan was securing a 292,000 square foot facility that serves as a finished goods warehouse and a cut-order and distribution center in Adairsville, Georgia on May 1, 2014. In June of 2014, the Board of Directors approved a modification of this plan to include the elimination of both carpet dyeing and yarn dyeing in our Atmore, Alabama facility designed to more fully accommodate our distribution and manufacturing realignment. As a result, the dyeing operations in Atmore were moved to our Colormaster continuous dyeing facility, our Calhoun Wool skein dyeing operation and other outside dyeing processors.

Expenses of this plan were \$4.0 million in 2014 with remaining estimated expenses of \$1.4 million anticipated through early 2016. These expenses primarily consist of moving and relocation expenses of inventory and equipment, facility restoration, information technology expenses and expenses relating to conversion and realignment of equipment. In addition, we incurred non-cash asset impairment charges of \$1.1 million related to manufacturing and equipment taken out of service in our facilities.

On March 19, 2014, we acquired Atlas Carpet Mills. Total consideration for the acquisition was approximately \$18.7 million. Atlas is a California based manufacturer and marketer of high-end commercial broadloom and tile carpeting serving soft floorcovering markets. Atlas has a strong reputation for exceptional design, quality and service. This brand will be sold through the existing Atlas sales force and will serve to broaden our product offerings for commercial applications along with our Masland Contract and Masland Hospitality brands. The existing management of Atlas will continue with the Company. Prior to the acquisition, we were a long-time supplier of yarn to Atlas through our Candlewick Yarn operation and provided certain tile manufacturing services for their tile product line. We recognized a pre-tax gain of \$10.9 million on the acquisition of Atlas. We believe several factors were significant in the recognition of a gain from the acquisition of Atlas. Atlas had higher cost of dyeing due to the lack of capacity utilization and therefore needed to lower costs by combining dye facilities with another operation. In addition, Atlas had a higher cost of modular carpet tile manufacturing due to outsourcing the tile manufacturing operations. Therefore, Atlas would have had to make significant investments in product and manufacturing equipment to be competitive in the modular carpet manufacturing business. Finally, the Seller had the desire to see Atlas operated as an independent brand and organization in the future. All of these objectives were achieved in our mutually advantageous relationship (See Note 6 in the Consolidated Financial Statements).

As a part of the Atlas acquisition, we discontinued operations at the Atlas dyeing facility in Los Angeles and moved the carpet dyeing of their products to our Susan Street dyeing operation located in Santa Ana, California. As part of the acquisition, we initiated a restructuring plan to accommodate the dyeing move and address the modification of computer systems. The costs of these initiatives are expected to be approximately \$1.8 million. \$1.4 million of costs were incurred under this plan in 2014 and the remaining initiatives for \$400 thousand are expected to be completed in 2015.

On September 22, 2014, we purchased certain assets, including specialized tufting equipment, and assumed certain liabilities from Burtco Enterprises. We believe the unique capabilities of this tufting equipment will enable us to develop products that complement our high-end, specialized commercial markets. The total consideration for the equipment, inventories and certain receivables, net of liabilities assumed was approximately \$2.4 million. This transaction resulted in a pre-tax bargain purchase of \$173 thousand (See Note 6 in the Consolidated Financial Statements).

We continue to see opportunities for our modular tile offerings in both the Masland Contract and Atlas markets. Further, the future opportunities in hospitality, we believe, can be capitalized upon with the creation of Masland Hospitality and leveraging our investment in Burtco and its unique position in custom computerized yarn placement tufting technology. Also, we remain optimistic about conditions that affect the higher-end residential markets we serve. We believe the actions discussed above have been, and are, necessary to position us to more fully take advantage of the markets we serve and have helped to facilitate the growth we have experienced and that we anticipate in the future.

RESULTS OF OPERATIONS

As a result of the discontinuance of the non-core Carousel brand in the fourth quarter of 2014, the operating results of Carousel have been reclassified to discontinued operations for all periods presented. Carousel was acquired as a portion of the Robertex acquisition at the beginning of the third quarter of 2013.

The following table sets forth certain elements of our continuing operations as a percentage of net sales for the periods indicated:

	Fiscal Year Ended		
	December 27, 2014	December 28, 2013	December 29, 2012
Net sales	100.0 %	100.0%	100.0%
Cost of sales	76.5 %	75.2%	75.5%
Gross profit	23.5 %	24.8%	24.5%
Selling and administrative expenses	22.9 %	22.2%	23.8%
Other operating expense, net	0.2 %	0.1%	—%
Facility consolidation expenses	1.4 %	—%	—%
Impairment of assets	0.3 %	—%	—%
Operating income (loss)	(1.3)%	2.5%	0.7%

Fiscal Year Ended December 27, 2014 Compared with Fiscal Year Ended December 28, 2013

Net Sales. Net sales for the year ended December 27, 2014 were \$406.6 million compared with \$344.4 million in the year-earlier period, an increase of 18.1%, or 7.1% excluding Atlas, for the year-over-year comparison. Sales for the carpet industry were flat for annual 2014 compared with the prior year. Our 2014 year-over-year carpet sales comparison reflected an increase of 18.1% in net sales, or 7.5% excluding Atlas. Sales of residential carpet were up 8.2% and sales of commercial carpet increased 45.5%, or 5.5% excluding Atlas. Revenue from carpet yarn processing and carpet dyeing and finishing services increased \$1.9 million in 2014 compared with 2013 primarily as a result of processing services performed by Atlas under an equity investment relationship. We believe our growth in both the residential and commercial sales were positively affected by the introduction of new and innovative products and the expansion of our wool product offerings.

Cost of Sales. Cost of sales, as a percentage of net sales, increased 1.3 percentage points, as a percentage of net sales in 2014 compared with 2013. The expansion and restructuring initiatives undertaken along with the expansion of our workforce negatively affected our operating results in the form of training costs, production inefficiencies, increased levels of waste and scrap and generally higher operating costs associated with the breadth and scope of activity.

Gross Profit. Gross profit increased \$9.9 million in 2014 compared with 2013. The increase in gross profit was primarily attributable to higher sales. However, the gross profit dollars in 2014 were negatively impacted by our actions taken to address our capacity constraints.

Selling and Administrative Expenses. Selling and administrative expenses were \$93.2 million in 2014 compared with \$76.2 million in 2013, or an increase of 0.7% as a percentage of sales. Our selling expense increase as a percentage of sales was

primarily driven by the higher relative selling expense of Atlas and higher levels of investment in new products and marketing in our Masland Contract business compared with the prior year.

Other Operating (Income) Expense, Net. Net other operating (income) expense was an expense of \$904 thousand in 2014 compared with expense of \$494 thousand in 2013. The change in 2014 was primarily a result of an increase in losses on currency valuations and the amortization of an intangible asset associated with the 2014 Atlas acquisition.

Operating Income (Loss). Operations reflected an operating loss of \$5.2 million in 2014 compared with operating income of \$8.9 million in 2013. Facility consolidation expenses of \$5.5 million and related asset impairment expenses of \$1.1 million were included in the 2014 operating results.

Interest Expense. Interest expense increased \$546 thousand in 2014 principally due to higher levels of debt to support our growth and the acquisition of capital assets under various debt arrangements.

Other (Income) Expense, Net. Other (income) expense, net was income of \$154 thousand in 2014 compared with expense of \$26 thousand in 2013. \$209 thousand of earnings from equity investments were included in 2014.

Gain on Purchase of Businesses. During 2014, we recognized gains of \$11.1 million on business acquisitions. The acquisition of Atlas resulted in a gain of \$10.9 million and the acquisition of Burtco resulted in a gain of \$173 thousand.

Income Tax Provision (Benefit). Our effective income tax rate was 61.0% in 2014 and included an increase of \$569 thousand in increased valuation allowances related to state income tax carryforwards and state income tax credit carryforwards. Our income tax provision was a benefit of \$643 thousand in 2013 on positive earnings primarily as a result of the reversal of \$1.2 million of previously established reserves for state income tax loss and tax credit carryforwards. The recognition or reversal of such reserves established by taxing jurisdiction is based on a number of factors including current and forecasted earnings. Additionally, 2013 included certain tax credits of approximately \$520 thousand related to the years 2009 - 2011 determined to be available for utilization and \$304 thousand of 2012 research and development tax credits that could not be recognized until the extension of the credit was approved by Congress in 2013.

Loss from Discontinued Operations and Loss on Disposal of Discontinued Operations, net of tax. In the fourth quarter of 2014, we discontinued the Carousel specialty tufting and weaving operation that was part of the 2013 Robertex, Inc. acquisition. As a result, we recognized a loss on the disposal of the discontinued operation of \$1.5 million, net of tax, which included the impairment of certain intangibles associated with Carousel and the related machinery and equipment. Additionally, 2014 included a loss from the discontinued Carousel operations of \$598 thousand, net of tax, compared with a loss of \$198 thousand, net of tax in 2013.

Net Income (Loss). Continuing operations reflected income of \$673 thousand, or \$0.03 per diluted share in 2014, compared with income from continuing operations of \$5.6 million, or \$0.42 per diluted share in 2013. Our discontinued operations reflected a loss of \$608 thousand, or \$0.04 per diluted share, and a loss on disposal of discontinued operations of \$1.5 million, or \$0.10 per diluted share in 2014 compared with a loss from discontinued operations of \$266 thousand, or \$0.02 per diluted share in 2013. Including discontinued operations, we had a net loss of \$1.4 million, or \$0.11 per diluted share, in 2014 compared with net income of \$5.3 million, or \$0.40 per diluted share, in 2013.

Fiscal Year Ended December 28, 2013 Compared with Fiscal Year Ended December 29, 2012

Net Sales. Net sales for the year ended December 28, 2013 were \$344.4 million compared with \$266.4 million in the year-earlier period, an increase of 29.3% for the year-over-year comparison. The carpet industry reported a percentage increase in the mid-single digits in net sales in 2013 compared with 2012. Our 2013 year-over-year carpet sales comparison reflected an increase of 28.6% in net sales. Sales of residential carpet were up 26.7% and sales of commercial carpet increased 34.3%. Revenue from carpet yarn processing and carpet dyeing and finishing services increased \$4.1 million in 2013 compared with 2012. We believe our residential and commercial sales were positively affected primarily as a result of the introduction of new products and the expansion of our wool products.

Cost of Sales. Cost of sales, as a percentage of net sales, was basically unchanged in 2013 compared with 2012. Cost of sales in 2013 included approximately \$5.1 million of costs associated with acquisitions in late 2012 and 2013 as well as certain process realignment and expansion initiatives undertaken during 2013. Cost of sales in 2012 included incremental costs of approximately \$1.4 million related to tufting equipment relocations and costs related to the transition of products from our beck dyeing operations to our continuous dyeing operations acquired in the fourth quarter of 2012.

Gross Profit. Gross profit increased \$20.2 million in 2013 compared with 2012. The increase in gross profit was primarily attributable to higher sales. Gross profit in 2013 and 2012 was negatively affected by the incremental costs discussed above related to costs of sales.

Selling and Administrative Expenses. Selling and administrative expenses were \$76.2 million in 2013 compared with \$63.5 million in 2012, a decline of 1.7 percentage points as a percentage of sales in 2013 compared with 2012. Selling and

administrative costs in 2013 included approximately \$1.8 million of sampling costs incurred to incorporate the new wool products associated with the Robertex acquisition and our launch of a new tile product line. 2012 included \$1.7 million related to investment in the development and sampling of new product initiatives, \$409 thousand for incremental costs related to the two acquisitions and \$600 thousand of costs related to management changes.

Other Operating (Income) Expense, Net. Net other operating (income) expense was \$494 thousand in 2013 compared with \$68 thousand in 2012. The change in 2013 was due to the disposal of certain manufacturing assets taken out of service, losses on currency valuations and settlement of a claim against a supplier.

Operating Income. Operating income was \$8.9 million in 2013 compared with operating income of \$1.8 million in 2012. The increase in 2013 was primarily a result of the increased level of sales in 2013, less the variable selling expenses associated with the sales increase.

Interest Expense. Interest expense increased \$610 thousand in 2013 principally due to higher levels of debt to support our growth, including an increase in debt related to business acquisitions in late 2012 and during mid-2013.

Other (Income) Expense, Net. Other (income) expense, net was an expense of \$26 thousand in 2013 compared to income of \$277 thousand in 2012. The change was primarily the result of a \$187 thousand gain recognized on the sale of a non-operating asset in 2012.

Income Tax Provision (Benefit). Our income tax provision was a benefit of \$577 thousand in 2013 on positive earnings primarily as a result of the reversal of \$1.2 million of previously established reserves for state income tax loss and tax credit carryforwards. The reversal of the reserves was based on a number of factors including current and future earnings assumptions by taxing jurisdiction. Additionally, 2013 included certain tax credits of approximately \$520 thousand related to the years 2009 - 2011 determined to be available for utilization and \$304 thousand of 2012 research and development tax credits that could not be recognized until the extension of the credit was approved by Congress in 2013. Our effective income tax benefit rate was 38.0% in 2012. The effective tax rate varied from statutory rates in 2012 primarily as a result of adjustments to estimates used in the 2011 estimated tax calculations versus amounts used in the subsequent tax return filing for the 2011 period, net of the effects of permanent differences on the lower level of pre-tax earnings in the 2012 tax calculations.

Net Income (Loss). Continuing operations reflected income of \$5.6 million, or \$0.42 per diluted share in 2013, compared with a loss from continuing operations of \$653 thousand, or \$0.05 per diluted share in 2012. Our discontinued operations reflected a loss of \$266 thousand, or \$0.02 per diluted share in 2013, compared with a loss of \$274 thousand, or \$0.02 per diluted share in 2012. Including discontinued operations, our net income was \$5.3 million, or \$0.40 per diluted share, in 2013 compared with a net loss of \$927 thousand, or \$0.07 per diluted share, in 2012.

LIQUIDITY AND CAPITAL RESOURCES

We believe our operating cash flows, credit availability under our senior loan and security agreement and other sources of financing are adequate to finance our normal foreseeable liquidity requirements. However, deterioration in our markets or significant additional cash expenditures above our normal liquidity requirements could require supplemental financing or other funding sources. There can be no assurance that such supplemental financing or other sources of funding can be obtained or will be obtained on terms favorable to us.

During the year ended December 27, 2014, we generated funds of \$24.6 million from the May 2014 equity offering, net of issuance costs including the underwriter discount. Additionally, we generated \$3.4 million from operating activities and \$6.8 million from proceeds related to the sales of capitalized assets and the sale of an equity investment. These funds were used to finance our operations, invest \$17.7 million in business acquisitions, invest \$9.5 million for purchases of property, plant and equipment, reduce debt \$3.5 million, \$2.7 million to fund outstanding checks and \$1.2 million for deposits for future equipment purchases.

Excluding assets acquired and liabilities assumed in the Atlas and Burtco acquisitions and the change in the current portion of debt, working capital increased \$1.1 million in 2014. The increase in working capital was primarily a result of an increase in current deferred income tax assets offset by a decrease in accounts payable and accrued expenses.

Capital asset acquisitions for the year ended December 27, 2014, excluding those acquired in business acquisitions, were \$32.8 million; \$9.5 million through funded debt and \$23.3 million of assets acquired under capital leases and notes payable, while depreciation and amortization was \$12.9 million. We expect capital expenditures to be approximately \$13.5 million in 2015 while depreciation and amortization is expected to be approximately \$14.1 million. Planned capital expenditures in 2015 are primarily for new equipment.

Debt Facilities

On March 14, 2014, we amended our senior credit facility ("amended senior credit facility"), effective as of March 19, 2014 to permit the acquisition of Atlas Carpet Mills, Inc. by means of an over advance ("Tranche B Advance") of \$5.4 million which

increased to \$5.8 million and matured on June 30, 2014. The Tranche B Advance bore interest at a rate of 3.50% plus LIBOR, subject also to various availability percentages, limitations, covenants and conditions. In addition, the revolving portion of the facility ("Tranche A Advance") provides for a maximum of \$150.0 million of revolving credit, subject to borrowing base availability. The borrowing base is currently equal to specified percentages of our eligible accounts receivable, inventories, fixed assets and real property less reserves established, from time to time, by the administrative agent under the facility. In addition, the term of the amended senior credit facility was extended from August 1, 2018 to March 14, 2019.

At our election, Tranche A Advances of the amended senior credit facility bears interest at annual rates equal to either (a) LIBOR for 1, 2 or 3 month periods, as selected by us, plus an applicable margin of either 1.50%, 1.75% or 2.00%, or (b) the higher of the prime rate, the Federal Funds rate plus 0.5%, or a daily LIBOR rate plus 1.00%, plus an applicable margin of either 0.50%, 0.75% or 1.00%. The applicable margin is determined based on availability under the amended senior credit facility with margins increasing as availability decreases. We pay an unused line fee on the average amount by which the aggregate commitments exceed utilization of the senior credit facility equal to 0.375% per annum.

The amended senior credit facility includes certain affirmative and negative covenants that impose restrictions on our financial and business operations. The amended senior credit facility required us to maintain a fixed charge coverage ratio of 1.1 to 1.0 during any period that borrowing availability was less than \$14.4 million through May 31, 2014 and increased to \$16.5 million after May 31, 2014. The amendment also provided for a waiver of the measurement and application of the fixed charge coverage ratio that would otherwise have been required by a reduction in excess availability from March 14, 2014 through and including April 13, 2014.

The weighted-average interest rate on borrowings outstanding under the amended senior credit facility was 2.29% at December 27, 2014 and 2.66% at December 28, 2013. As of December 27, 2014, the unused borrowing availability under the amended senior credit facility was \$40.2 million.

Notes Payable - Buildings. On November 7, 2014, we entered into a ten-year \$8.3 note payable to purchase a previously leased distribution center in Adairsville, Georgia. The note payable is scheduled to mature on November 7, 2024 and is secured by the distribution center. The note payable bears interest at a variable rate equal to one month LIBOR plus 2.0% and is payable in equal monthly installments of principal of \$35, plus interest calculated on the declining balance of the note, with a final payment of \$4,165 due on maturity. In addition, we entered into an interest swap with an amortizing notional amount effective November 7, 2014 which effectively fixes the interest rate at 4.50%.

On January 23, 2015, we entered into a ten-year \$6,290 note payable to finance an owned facility in Saraland, Alabama. The note payable is scheduled to mature on January 7, 2025 and is secured by the facility. The note payable bears interest at a variable rate equal to one month LIBOR plus 2.0% and is payable in equal monthly installments of principal of \$26, plus interest calculated on the declining balance of the note, with a final payment of \$3,145 due on maturity. In addition, we entered into a forward interest rate swap with an amortizing \$5.7 million notional amount effective January 7, 2017 which effectively fixes the interest rate at 4.30%.

Obligation to Development Authority of Gordon County. On November 2, 2012, we signed a 6% seller-financed note of \$5.5 million with Lineage PCR, Inc. ("Lineage") related to the acquisition of the continuous carpet dyeing facility in Calhoun, Georgia. Effective December 28, 2012 through a series of agreements between us, the Development Authority of Gordon County, Georgia (the "Authority") and Lineage, obligations with identical payment terms as the original note to Lineage are now payment obligations to the Authority. These transactions were consummated in order to provide us with a tax abatement to the related real estate and equipment at this facility. The tax abatement plan provides for abatement for certain components of the real and personal property taxes for up to ten years. At any time, we have the option to pay off the obligation, plus a nominal amount. The debt to the Authority bears interest at 6% and is payable in equal monthly installments of principal and interest of \$106 thousand over 57 months.

Note Payable - Robertex Acquisition. On July 1, 2013, we signed a 4.5% seller-financed note of \$4.0 million, which was recorded at a fair value of \$3.7 million with Robert P. Rothman related to the acquisition of Robertex Associates, LLC ("Robertex") in Calhoun, Georgia. The note is payable in five annual installments of principal of \$800 thousand plus interest. The note matures June 30, 2018.

Equipment Notes Payable. Our equipment financing notes have terms ranging from three to seven years, are secured by the specific equipment financed, bear interest ranging from 1.00% to 6.86% and are due in monthly installments of principal and interest ranging from \$1 thousand to \$53 thousand through December 2021. The notes do not contain financial covenants. (See Note 10 to our Consolidated Financial Statements).

Capital Lease Obligations. Our capital lease obligations have terms ranging from four to seven years, are secured by the specific equipment leased, bear interest ranging from 2.90% to 7.37% and are due in monthly installments of principal and interest ranging from \$1 thousand to \$43 thousand through January 2022. (See Note 10 to our Consolidated Financial Statements).

Equity Offering

On May 20, 2014, we completed a public offering of 2.5 million shares of our common stock. Net proceeds from the offering were \$24.6 million and were used to reduce the balance under our revolving credit facility and to pay off the \$5.8 million Tranche B Advance associated with the recent acquisition of Atlas Carpet Mills which matured on June 30, 2014.

Contractual Obligations

The following table summarizes our future minimum payments under contractual obligations as of December 27, 2014.

	Payments Due By Period						
	(dollars in millions)						
	2015	2016	2017	2018	2019	Thereafter	Total
Debt	\$ 6.3	\$ 5.4	\$ 4.9	\$ 3.7	\$ 84.8	\$ 7.2	112.3
Interest - debt (1)	3.4	3.8	3.8	3.6	2.2	3.7	20.5
Capital leases	2.8	2.9	2.9	2.7	1.5	2.3	15.1
Interest - capital leases	0.7	0.6	0.4	0.3	0.2	0.1	2.3
Operating leases	3.1	2.5	2.2	1.9	1.1	1.5	12.3
Purchase commitments	5.9	0.7	0.1	—	—	—	6.7
Totals	<u>22.2</u>	<u>15.9</u>	<u>14.3</u>	<u>12.2</u>	<u>89.8</u>	<u>14.8</u>	<u>169.2</u>

(1) Interest rates used for variable rate debt were those in effect at December 27, 2014.

Stock-Based Awards

We recognize compensation expense related to share-based stock awards based on the fair value of the equity instrument over the period of vesting for the individual stock awards that were granted. At December 27, 2014, the total unrecognized compensation expense related to unvested restricted stock awards was \$1.8 million with a weighted-average vesting period of 3.6 years. At December 27, 2014, there was no unrecognized compensation expense related to unvested stock options.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements at December 27, 2014 or December 28, 2013.

Income Tax Considerations

During 2014, our tax provision of \$1.1 million included \$569 thousand of increase in our valuation allowances related to state income tax loss carryforwards and state income tax credit carryforwards. The reserve increase was based on a number of factors including current and future earnings assumptions by taxing jurisdiction.

During 2015, we anticipate cash outlays for income taxes to be approximately \$3.0 million less than our provision for 2015. For 2016 and 2017, we expect our cash outlay for taxes to exceed our tax provision based on the anticipated differences between the book basis and tax basis of long-lived, depreciable assets. Such differences could be in the range of \$2.0 million to \$3.0 million in each of the periods, although further utilization of tax loss carryforwards and tax credit carryforwards could reduce such differences. At December 27, 2014, we were in a net deferred tax asset position of \$3.3 million. We performed an analysis, including an evaluation of certain tax planning strategies available to us, related to the net deferred tax asset and believe that the net deferred tax asset is recoverable in future periods. Approximately \$8.7 million of future taxable income would be required to realize the deferred tax asset.

Discontinued Operations - Environmental Contingencies

We have reserves for environmental obligations established at five previously owned sites that were associated with our discontinued textile businesses. Each site has a Corrective Action Plan ("CAP") with the applicable authoritative state regulatory body responsible for oversight for environmental compliance. The CAP for four of these sites involves natural attenuation (degradation of the contaminants through naturally occurring events) over periods estimated at 10 to 20 years and the CAP on the remaining site involves a pump and treat remediation process, estimated to occur over a period of 25 years. Additionally, we have a reserve for an environmental liability on the property of a facility and related business that was sold in 2004. The CAP has a specified remaining remediation term estimated to be 3 years subsequent to 2014. The total costs for remediation for all of these sites during 2014 were \$136 thousand, all of which related to normal ongoing remediation costs. We expect normal remediation costs to range from approximately \$50 thousand to \$150 thousand annually. We have a reserve of \$1.6 million for environmental liabilities at these sites as of December 27, 2014. The liability established represents our best estimate of loss

and is the reasonable amount to which there is any meaningful degree of certainty given the periods of estimated remediation and the dollars applicable to such remediation for those periods. The actual timeline to remediate, and thus, the ultimate cost to complete such remediation through these remediation efforts, may differ significantly from our estimates. Pre-tax costs for environmental remediation obligations classified as discontinued operations were primarily a result of specific events requiring action and additional expense in each period.

Fair Value of Financial Instruments

At December 27, 2014, we had \$1.9 million of liabilities measured at fair value that fall under a level 3 classification in the hierarchy (those subject to significant management judgment or estimation).

Certain Related Party Transactions

During 2014, we purchased a portion of our requirements for polyester fiber from Engineered Floors, an entity controlled by Robert E. Shaw. Mr. Shaw reported holding approximately 8.5% of our Common Stock, which as of year-end represented approximately 4% of the total vote of all classes of our Common Stock. Engineered Floors is our principal supplier of polyester fiber and polyester broadloom carpet. Total purchases from Engineered Floors for 2014 and 2013 were approximately \$11.3 million and \$12.0 million, respectively; or approximately 3.6% and 4.7% of our consolidated costs of sales in 2014 and 2013, respectively. Purchases from Engineered Floors are based on market value, negotiated prices. We have no contractual arrangements or commitments with Mr. Shaw associated with our business relationship with Engineered Floors. Transactions with Engineered Floors were reviewed and approved by our board of directors.

During 2013, we entered into a 10-year lease with the Rothman Family Partnership to lease a manufacturing facility as part of the Robertex acquisition. The Rothman Family Partnership includes Robert P. Rothman who is an associate of the Company. Rent paid to the Rothman Family Partnership during 2014 was \$257 thousand. The lease was based on current market values for similar facilities.

During 2014, we entered into a 5-year lease with the seller of Atlas Carpet Mills, Inc. to lease three manufacturing facilities as part of the acquisition. The seller is an associate of the Company. Rent paid to the seller during 2014 was \$343. The lease was based on current market values for similar facilities.

Recent Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board ("FASB") issued ASU No. 2011-11, "*Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities*." The amendments in this ASU required an entity to disclose information about offsetting assets and liabilities and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. An entity was required to apply the amendments for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. An entity had to provide the disclosures required by those amendments retrospectively for all comparative periods presented. In January 2013, the FASB issued ASU No. 2013-01, "*Balance Sheet (Topic 210)-Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities*". The ASU clarified that ordinary trade receivables and payables were not in the scope of ASU No. 2011-11. ASU No. 2011-11 applied only to derivatives, repurchase agreements and reverse purchase agreements, and securities borrowing and securities lending transactions that were either offset in accordance with specific criteria contained in the Codification or subject to a master netting arrangement or similar agreement. The effective date was the same as the effective date of ASU 2011-11. The adoption of these ASUs did not have a material effect on our Consolidated Financial Statements.

In February 2013, the FASB issued ASU No. 2013-04, "*Liabilities (Topic 405): Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date*". This ASU provided guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance was fixed at the reporting date, except for obligations addressed within existing guidance in GAAP. For public entities, the ASU was effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The ASU shall be applied retrospectively to all prior periods presented for those obligations within the scope of this Subtopic that existed at the beginning of an entity's fiscal year of adoption. Early adoption was permitted. The adoption of this ASU did not have a material effect on our Consolidated Financial Statements.

In July 2013, the FASB issued ASU No. 2013-11, "*Income Taxes (Topic 740) - Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*". This ASU required an unrecognized tax benefit, or a portion of an unrecognized tax benefit, to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except to the extent that a net operating loss carryforward, a similar tax loss, or a tax credit carryforward was not available at the reporting date, the unrecognized tax benefit will be presented in the financial statements as a liability and not combined with deferred tax assets. This ASU was effective for annual and interim periods beginning after December 15, 2013, with early adoption permitted. The adoption of this ASU did not have a material effect on our Consolidated Financial Statements.

In April 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-08, *"Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) - Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity"*. The ASU was issued to change the requirements for reporting discontinued operations and to enhance the disclosures in this area. The ASU requires a disposal of a component of an entity or a group of components of an entity to be reported in discontinued operations if the disposal represents a strategic shift and will have a major effect on an entity's operations and financial results. The ASU will be effective prospectively for interim and annual reporting periods beginning after December 15, 2014. The adoption of this ASU will only impact the reporting and disclosures of future disposals, if any.

In May 2014, the FASB issued ASU No. 2014-09, *"Revenue from Contracts with Customers (Topic 606)"*. The ASU requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. We have not yet selected a transition method. We will be evaluating the effect that the ASU will have on our Consolidated Condensed Financial Statements and related disclosures

In August 2014, the FASB issued ASU No. 2014-15, *"Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern."* The guidance requires an entity to evaluate whether there are conditions or events, in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued and to provide related footnote disclosures in certain circumstances. The guidance is effective for the annual period ending after December 15, 2016, and for annual and interim periods thereafter. Early application is permitted. We do not believe the adoption of this ASU will have a significant impact on our Consolidated Condensed Consolidated Financial Statements

Critical Accounting Policies

Certain estimates and assumptions are made when preparing our financial statements. Estimates involve judgments with respect to, among other things, future economic factors that are difficult to predict. As a result, actual amounts could differ from estimates made when our financial statements are prepared.

The Securities and Exchange Commission requires management to identify its most critical accounting policies, defined as those that are both most important to the portrayal of our financial condition and operating results and the application of which requires our most difficult, subjective, and complex judgments. Although our estimates have not differed materially from our experience, such estimates pertain to inherently uncertain matters that could result in material differences in subsequent periods.

We believe application of the following accounting policies require significant judgments and estimates and represent our critical accounting policies. Other significant accounting policies are discussed in Note 1 to our Consolidated Financial Statements.

- **Revenue recognition.** Revenues, including shipping and handling amounts, are recognized when the following criteria are met: there is persuasive evidence that a sales agreement exists, delivery has occurred or services have been rendered, the price to the buyer is fixed or determinable, and collection is reasonably assured. Delivery is considered to have occurred when the customer takes title to products, which is generally on the date of shipment. At the time revenue is recognized, we record a provision for the estimated amount of future returns based primarily on historical experience and any known trends or conditions.
- **Accounts receivable allowances.** We provide allowances for expected cash discounts and doubtful accounts based upon historical experience and periodic evaluations of the financial condition of our customers. If the financial conditions of our customers were to significantly deteriorate, or other factors impair their ability to pay their debts, credit losses could differ from allowances recorded in our Consolidated Financial Statements.
- **Customer claims and product warranties.** We provide product warranties related to manufacturing defects and specific performance standards for our products. We record reserves for the estimated costs of defective products and failure to meet applicable performance standards. The levels of reserves are established based primarily upon historical experience and our evaluation of pending claims. Because our evaluations are based on historical experience and conditions at the time our financial statements are prepared, actual results could differ from the reserves in our Consolidated Financial Statements.
- **Inventories.** Inventories are stated at the lower of cost or market. Cost is determined using the last-in, first-out method (LIFO), which generally matches current costs of inventory sold with current revenues, for substantially all inventories. Reserves are also established to adjust inventories that are off-quality, aged or obsolete to their estimated net realizable value. Additionally, rates of recoverability per unit of off-quality, aged or obsolete inventory are estimated based on historical rates of recoverability and other known conditions or circumstances that may affect future recoverability. Actual results could differ from assumptions used to value our inventory.

- **Goodwill.** Goodwill is tested annually for impairment during the fourth quarter or earlier if significant events or substantive changes in circumstances occur that may indicate that goodwill may not be recoverable. The goodwill impairment tests are based on determining the fair value of the specified reporting units based on management judgments and assumptions using the discounted cash flows. The valuation approaches are subject to key judgments and assumptions that are sensitive to change such as judgments and assumptions about sales growth rates, operating margins and the weighted average cost of capital ("WACC"). When developing these key judgments and assumptions, we consider economic, operational and market conditions that could impact the fair value of the reporting unit. However, estimates are inherently uncertain and represent only management's reasonable expectations regarding future developments. These estimates and the judgments and assumptions upon which the estimates are based will, in all likelihood, differ in some respects from actual future results. Should a significant or prolonged deterioration in economic conditions occur key judgments and assumptions could be impacted.
- **Contingent Consideration.** Contingent consideration liabilities represent future amounts we may be required to pay in conjunction with various business combinations. The ultimate amount of future payments is based on sales levels for one contingent liability and incremental gross margin growth related to another contingent liability. We estimate the fair value of the contingent consideration liability related to sales levels by forecasting estimated cash payments based on projected sales and discounting the cash payment to its present value using a risk-adjusted rate of return. We estimate the fair value of the contingent consideration liability associated with incremental gross margin growth by employing Monte Carlo simulations to estimate the volatility and systematic relative risk of gross margin levels and discounting the associated cash payment amounts to their present values using a credit-risk-adjusted interest rate. We evaluate our estimates of the fair value of contingent consideration liabilities on a periodic basis. Any changes in the fair value of contingent consideration liabilities are recorded through earnings. The total estimated fair value of contingent consideration liabilities was \$1.9 million and \$2.8 million at December 27, 2014 and December 28, 2013, respectively, and was included in accrued expenses and other liabilities in our consolidated balance sheets.
- **Self-insured accruals.** We estimate costs required to settle claims related to our self-insured medical, dental and workers' compensation plans. These estimates include costs to settle known claims, as well as incurred and unreported claims. The estimated costs of known and unreported claims are based on historical experience. Actual results could differ from assumptions used to estimate these accruals.
- **Income taxes.** The Company's effective tax rate is based on its income, statutory tax rates and tax planning opportunities available in the jurisdictions in which it operates. Tax laws are complex and subject to different interpretations by the taxpayer and respective governmental taxing authorities. Deferred tax assets represent amounts available to reduce income taxes payable on taxable income in a future period. The Company evaluates the recoverability of these future tax benefits by assessing the adequacy of future expected taxable income from all sources, including reversal of taxable temporary differences, forecasted operating earnings and available tax planning strategies. These sources of income inherently rely on estimates, including business forecasts and other projections of financial results over an extended period of time. In the event that the Company is not able to realize all or a portion of its deferred tax assets in the future, a valuation allowance is provided. The Company would recognize such amounts through a charge to income in the period in which that determination is made or when tax law changes are enacted. The Company had valuation allowances of \$4.3 million at December 27, 2014 and \$3.7 million at December 28, 2013. For further information regarding the Company's valuation allowances, see Note 14 to the consolidated financial statements.
- **Loss contingencies.** We routinely assess our exposure related to legal matters, environmental matters, product liabilities or any other claims against our assets that may arise in the normal course of business. If we determine that it is probable a loss has been incurred, the amount of the loss, or an amount within the range of loss, that can be reasonably estimated will be recorded.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK (Dollars in thousands)

Our earnings, cash flows and financial position are exposed to market risks relating to interest rates, among other factors. It is our policy to minimize our exposure to adverse changes in interest rates and manage interest rate risks inherent in funding our Company with debt. We address this financial exposure through a risk management program that includes maintaining a mix of fixed and floating rate debt and the use of interest rate swap agreements (See Note 12 to the Consolidated Financial Statements).

At December 27, 2014, \$57,897, or approximately 45% of our total debt, was subject to floating interest rates. A 10% fluctuation in the variable interest rates applicable to this floating rate debt would have an annual after-tax impact of approximately \$5 thousand.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The supplementary financial information required by ITEM 302 of Regulation S-K is included in PART II, ITEM 5 of this report and the Financial Statements are included in a separate section of this report.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures. We maintain disclosure controls and procedures to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and is accumulated and communicated to management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Our management, under the supervision and with the participation of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such terms are defined in Rules 13(a)-15(e) and 15(d)-15(e)) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") as of December 27, 2014, the date of the financial statements included in this Form 10-K (the "Evaluation Date"). Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of the Evaluation Date.

We acquired Atlas on March 19, 2014 and Burtco on September 22, 2014. Since the date of these acquisitions, we have been analyzing and evaluating procedures and controls of Atlas and Burtco to determine their effectiveness and to make them consistent with our disclosure controls and procedures. We have made changes to their procedures and controls and expect to make additional changes to those controls in the future. Prior to these acquisitions, neither Atlas nor Burtco were required to maintain disclosure controls and procedures or document and assess internal control over financial reporting, in each case as required under the rules and regulations of the U.S. Securities and Exchange Commission. As permitted by guidance issued by the staff of the U.S. Securities and Exchange Commission, Atlas and Burtco have been excluded from the scope of our discussion of material changes in internal control over financial reporting below. Atlas was included in our results of operations subsequent to our acquisition on March 19, 2014 and Burtco was included subsequent to our acquisition on September 22, 2014 and together constituted 9.7% of our consolidated revenues for the year ended December 27, 2014 and 7.3% of consolidated assets as of December 27, 2014.

(b) Changes in Internal Control over Financial Reporting. No changes in our internal control over financial reporting occurred during the quarter covered by this report that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting except as described above with respect to Atlas and Burtco. Changes to processes, information technology systems, and other components of internal control over financial reporting resulting from the acquisition of Atlas and Burtco, as described above, are expected as the integration proceeds.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures, as well as diverse interpretation of U. S. generally accepted accounting principles by accounting professionals. It is also possible that internal control over financial reporting can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. Furthermore, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. These inherent limitations are known features of the financial reporting process; therefore, while it is possible to design into the process safeguards to reduce such risk, it is not possible to eliminate all risk.

Our management report on internal control over financial reporting and the report of our independent registered public accounting firm on our internal control over financial reporting are contained in Item 15(a)(1) of this report.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures, as well as diverse interpretation of U. S. generally accepted accounting principles by accounting professionals. It is also possible that internal control over financial reporting can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. Furthermore, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. These inherent limitations are known features of the financial reporting process; therefore, while it is possible to design into the process safeguards to reduce such risk, it is not possible to eliminate all risk. Our internal control over financial reporting has been audited by Dixon Hughes Goodman LLP an independent registered public accounting firm, as stated in their report on internal control over financial reporting as of December 27, 2014.

As permitted by guidance provided by the Staff of the U.S. Securities and Exchange Commission, the scope of management's assessment of internal control over financial reporting as of December 27, 2014 has excluded Atlas Carpet Mills (Atlas) and Burtco Enterprises, Inc. (Burtco). Atlas and Burtco constituted 9.7% of consolidated revenues for the year ended December 27, 2014 and 7.3% of consolidated assets of December 27, 2014.

Management, including our principal executive officer and principal financial officer, has used the criteria set forth in the report entitled "*Internal Control - Integrated Framework*" published by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) to evaluate the effectiveness of its internal control over financial reporting. Management has concluded that its internal control over financial reporting was effective as of December 27, 2014, based on those criteria.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of The Dixie Group, Inc.

We have audited The Dixie Group, Inc.'s (the "Company") internal control over financial reporting as of December 27, 2014, based on criteria established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As described in Management's Report on Internal Control Over Financial Reporting, management has excluded Atlas Carpet Mills (Atlas) and Burtco Enterprises, Inc. (Burtco) from its assessment of internal controls over financial reporting as of December 27, 2014 because they were acquired by the Company in 2014. We have also excluded Atlas and Burtco from the scope of our audit of internal control over financial reporting. Atlas and Burtco were wholly-owned subsidiaries which constituted 9.7% of consolidated revenue for the year ended December 27, 2014 and 7.3% of consolidated assets as of December 27, 2014.

In our opinion, The Dixie Group, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 27, 2014, based on criteria established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of The Dixie Group, Inc. as of and for the year ended December 27, 2014, and our report dated March 12, 2015, expressed an unqualified opinion on those consolidated financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of The Dixie Group, Inc.

We have audited the accompanying consolidated balance sheet of The Dixie Group, Inc. as of December 27, 2014, and the related consolidated statements of operations, comprehensive income (loss), stockholders' equity and cash flows for the year then ended. Our audit also included the financial statement schedule for the year ended December 27, 2014 listed in the Index at Item 15(a)2. These consolidated financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and schedule based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of The Dixie Group, Inc. as of December 27, 2014, and the consolidated results of its operations and its cash flows for the year then ended, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule for the year ended December 27, 2014, when considered in relation to the basic financials statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), The Dixie Group, Inc.'s internal control over financial reporting as of December 27, 2014, based on criteria established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 12, 2015, expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of The Dixie Group, Inc.

We have audited the accompanying consolidated balance sheet of The Dixie Group, Inc. as of December 28, 2013, and the related consolidated statements of operations, comprehensive income (loss), cash flows, and stockholders' equity for each of the two years in the period ended December 28, 2013. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of The Dixie Group, Inc. at December 28, 2013, and the consolidated results of its operations and its cash flows for each of the two years in the period ended December 28, 2013, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

THE DIXIE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business

The Company's businesses consist principally of marketing, manufacturing and selling finished carpet and rugs. The Company has one reportable segment, carpet and rug manufacturing. The Company sells carpet and rug products in both residential and commercial applications. Additionally, the Company provides manufacturing support to its carpet businesses through its separate processing operations.

Principles of Consolidation

The Consolidated Financial Statements include the accounts of The Dixie Group, Inc. and its wholly-owned subsidiaries (the "Company"). Significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates and these differences could be material.

Fiscal Year

The Company ends its fiscal year on the last Saturday of December. All references herein to "2014," "2013," and "2012," mean the fiscal years ended December 27, 2014, December 28, 2013, and December 29, 2012, respectively. All years presented contained 52 weeks.

Reclassifications

The Company reclassified certain amounts in 2013 to conform to the 2014 presentation including the reclassification of the Company's spare parts inventory from inventory to prepaid expenses in the Consolidated Balance Sheets.

Discontinued Operations

The financial statements separately report discontinued operations and the results of continuing operations (See Note 21).

Cash and Cash Equivalents

Highly liquid investments with original maturities of three months or less when purchased are reported as cash equivalents.

Market Risk

The Company sells carpet to floorcovering retailers, the interior design, architectural and specifier communities and supplies carpet yarn and carpet dyeing and finishing services to certain manufacturers. The Company's customers are located principally throughout the United States. As a percentage of net sales, one customer accounted for approximately 9% in 2014, 13% in 2013 and 9% in 2012. No other customer accounted for more than 10% of net sales in 2014, 2013 or 2012, nor did the Company make a significant amount of sales to foreign countries during 2014, 2013 or 2012.

Credit Risk

The Company grants credit to its customers with defined payment terms, performs ongoing evaluations of the credit worthiness of its customers and generally does not require collateral. Accounts receivable are carried at their outstanding principal amounts, less an anticipated amount for discounts and an allowance for doubtful accounts, which management believes is sufficient to cover potential credit losses based on historical experience and periodic evaluation of the financial condition of the Company's customers. Notes receivable are carried at their outstanding principal amounts, less an allowance for doubtful accounts to cover potential credit losses based on the financial condition of borrowers and collateral held by the Company.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the last-in, first-out (LIFO) method, which generally matches current costs of inventory sold with current revenues, for substantially all inventories.

THE DIXIE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share data)
(Continued)

Property, Plant and Equipment

Property, plant and equipment is stated at the lower of cost or impaired value. Provisions for depreciation and amortization of property, plant and equipment have been computed for financial reporting purposes using the straight-line method over the estimated useful lives of the related assets, ranging from 10 to 40 years for buildings and improvements, and 3 to 10 years for machinery and equipment. Costs to repair and maintain the Company's equipment and facilities are expensed as incurred. Such costs typically include expenditures to maintain equipment and facilities in good repair and proper working condition.

Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment when circumstances indicate that the carrying value of an asset may not be fully recoverable. When the carrying value of the asset exceeds the value of its estimated undiscounted future cash flows, an impairment charge is recognized equal to the difference between the asset's carrying value and its fair value. Fair value is estimated using discounted cash flows, prices for similar assets or other valuation techniques.

Goodwill and Other Intangible Assets

Goodwill represents the excess of purchase price over the fair market value of identified net assets acquired in business combinations. The Company's goodwill is tested for impairment annually in the fourth quarter of each year or more frequently if events or circumstances indicate that the carrying value of goodwill associated with a reporting unit may not be fully recoverable.

The first step in the goodwill assessment process is to identify potential goodwill impairments and involves a comparison of the carrying value of a reporting unit, including goodwill, to the fair value of the reporting unit. The Company has identified its reporting units as its residential floorcovering business and commercial floorcovering business. For this purpose, the Company estimates fair value of the reporting unit based on expected current and future cash flows discounted at the Company's weighted-average cost of capital ("WACC"). Such an estimate necessarily involves judgments and assumptions concerning, among other matters, future sales and operating margins, as well as interest rates and other financial factors used to calculate the WACC.

If an impairment is indicated in the first step of the assessment, a second step in the assessment is performed by comparing the "implied fair value" of the Company's reporting units' goodwill with the carrying value of the reporting units' goodwill. For this purpose, the "implied fair value" of goodwill for each reporting unit that has goodwill associated with its operations is determined in the same manner as the amount of goodwill is determined in a business combination. (See Note 7).

Identifiable intangible assets with finite lives are generally amortized on a straight-line basis over their respective lives, which range from 10 to 20 years (See Note 7).

Customer Claims and Product Warranties

The Company generally provides product warranties related to manufacturing defects and specific performance standards for its products. At the time sales are recorded, the Company records reserves for the estimated costs of defective products and failure of its products to meet applicable performance standards. The level of reserves the Company establishes is based primarily upon historical experience, including the level of sales and evaluation of pending claims.

Self-Insured Benefit Programs

The Company records liabilities to reflect an estimate of the ultimate cost of claims related to its self-insured medical and dental benefits and workers' compensation. The amounts of such liabilities are based on an analysis of the Company's historical experience for each type of claim.

Income Taxes

The Company recognizes deferred income tax assets and liabilities for the future tax consequences of the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. The Company recognizes interest and penalties related to uncertain tax positions, if any, in income tax expense.

Derivative Financial Instruments

The Company does not hold speculative financial instruments, nor does it hold or issue financial instruments for trading purposes. The Company uses derivative instruments, currently interest rate swaps, to minimize the effects of interest rate volatility.

THE DIXIE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share data)
(Continued)

The Company recognizes all derivatives on its Consolidated Balance Sheet at fair value. Derivatives that are designated as cash flow hedges are linked to specific liabilities on the Company's balance sheet. The Company assesses, both at inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. When it is determined that a derivative is not highly effective or the derivative expires, is sold, terminated, or exercised, the Company discontinues hedge accounting for that specific hedge instrument. Changes in the fair value of effective cash flow hedges are deferred in accumulated other comprehensive income (loss) ("AOCIL") and reclassified to earnings in the same periods during which the hedge transaction affects earnings. Changes in the fair value of derivatives that are not effective cash flow hedges are recognized in results of operations.

Treasury Stock

The Company classifies treasury stock as a reduction to Common Stock for the par value of such shares acquired and the difference between the par value and the price paid for each share recorded either entirely to retained earnings or to additional paid-in-capital for periods in which the Company does not have retained earnings. This presentation reflects the repurchased shares as authorized but unissued as prescribed by state statute.

Revenue Recognition

Revenues, including shipping and handling amounts, are recognized when the following criteria are met: there is persuasive evidence that a sales agreement exists, delivery has occurred or services have been rendered, the price to the buyer is fixed or determinable, and collectability is reasonably assured. Delivery is not considered to have occurred until the customer takes title to the goods and assumes the risks and rewards of ownership, which is generally on the date of shipment. At the time revenue is recognized, the Company records a provision for the estimated amount of future returns based primarily on historical experience and any known trends or conditions that exist at the time revenue is recognized. Revenues are recorded net of taxes collected from customers.

Advertising Costs and Vendor Consideration

The Company engages in promotional and advertising programs that include rebates, discounts, points and cooperative advertising programs. Expenses relating to these programs are charged to results of operations during the period of the related benefits. These arrangements do not require significant estimates of costs. Substantially all such expenses are recorded as a deduction from sales. The cost of cooperative advertising programs is recorded as selling and administrative expenses when the Company can identify a tangible benefit associated with the program, and can reasonably estimate that the fair value of the benefit is equal to or greater than its cost. The amount of advertising and promotion expenses included in selling and administrative expenses was not significant for the years 2014, 2013 or 2012.

Cost of Sales

Cost of sales includes all costs related to manufacturing the Company's products, including purchasing and receiving costs, inspection costs, warehousing costs, freight costs, internal transfer costs or other costs of the Company's distribution network.

Selling and Administrative Expenses

Selling and administrative expenses include all costs, not included in cost of sales, related to the sale and marketing of the Company's products and general administration of the Company's business.

Operating Leases

Rent is expensed over the lease period, including the effect of any rent holiday and rent escalation provisions, which effectively amortizes the rent holidays and rent escalations on a straight-line basis over the lease period. Leasehold improvements are amortized over the shorter of their economic lives or the lease term, excluding renewal options. Any leasehold improvement made by the Company and funded by the lessor is treated as a leasehold improvement and amortized over the shorter of its economic life or the lease term. Any funding provided by the lessor for such improvements is treated as deferred costs and amortized over the lease period.

Stock-Based Compensation

The Company recognizes compensation expense relating to share-based payments based on the fair value of the equity or liability instrument issued. Restricted stock grants with pro-rata vesting are expensed using the straight-line method. (Terms of the Company's awards are specified in Note 16).

NOTE 2 - RECENT ACCOUNTING PRONOUNCEMENTS

In December 2011, the Financial Accounting Standards Board ("FASB") issued ASU No. 2011-11, "*Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities.*" The amendments in this ASU required an entity to disclose information about offsetting assets and liabilities and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. An entity was required to apply the amendments for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. An entity had to provide the disclosures required by those amendments retrospectively for all comparative periods presented. In January 2013, the FASB issued ASU No. 2013-01, "*Balance Sheet (Topic 210)—Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities.*" The ASU clarified that ordinary trade receivables and payables were not in the scope of ASU No. 2011-11. ASU No. 2011-11 applied only to derivatives, repurchase agreements and reverse purchase agreements, and securities borrowing and securities lending transactions that were either offset in accordance with specific criteria contained in the Codification or subject to a master netting arrangement or similar agreement. The effective date was the same as the effective date of ASU 2011-11. The adoption of these ASUs did not have a material effect on the Company's Consolidated Financial Statements.

In February 2013, the FASB issued ASU No. 2013-04, "*Liabilities (Topic 405): Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date.*" This ASU provided guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance was fixed at the reporting date, except for obligations addressed within existing guidance in GAAP. For public entities, the ASU was effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The ASU shall be applied retrospectively to all prior periods presented for those obligations within the scope of this Subtopic that existed at the beginning of an entity's fiscal year of adoption. Early adoption was permitted. The adoption of this ASU did not have a material effect on the Company's Consolidated Financial Statements.

In July 2013, the FASB issued ASU No. 2013-11, "*Income Taxes (Topic 740) - Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists.*" This ASU required an unrecognized tax benefit, or a portion of an unrecognized tax benefit, to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except to the extent that a net operating loss carryforward, a similar tax loss, or a tax credit carryforward was not available at the reporting date, the unrecognized tax benefit will be presented in the financial statements as a liability and not combined with deferred tax assets. This ASU was effective for annual and interim periods beginning after December 15, 2013, with early adoption permitted. The adoption of this ASU did not have a material effect on the Company's Consolidated Financial Statements.

In April 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-08, "*Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) - Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity.*" The ASU was issued to change the requirements for reporting discontinued operations and to enhance the disclosures in this area. The ASU requires a disposal of a component of an entity or a group of components of an entity to be reported in discontinued operations if the disposal represents a strategic shift and will have a major effect on an entity's operations and financial results. The ASU will be effective prospectively for interim and annual reporting periods beginning after December 15, 2014. The adoption of this ASU will only impact the reporting and disclosures of future disposals, if any.

In May 2014, the FASB issued ASU No. 2014-09, "*Revenue from Contracts with Customers (Topic 606).*" The ASU requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company has not yet selected a transition method. The Company will be evaluating the effect that the ASU will have on the Consolidated Financial Statements and related disclosures.

In August 2014, the FASB issued ASU No. 2014-15, "*Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern.*" The guidance requires an entity to evaluate whether there are conditions or events, in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued and to provide related footnote disclosures in certain circumstances. The guidance is effective for the annual period ending after December 15, 2016, and for annual and interim periods thereafter. Early application is permitted. The Company does not believe the adoption of this ASU will have a significant impact on the Consolidated Consolidated Financial Statements.

NOTE 6 - ACQUISITIONS

2014 Acquisitions

Atlas Carpet Mills, Inc.

Effective March 19, 2014, the Company acquired all outstanding stock of Atlas Carpet Mills, Inc. ("Atlas") for total purchase price consideration of \$18,759, including a cash payment of \$16,543, accrued consideration relating to holdbacks for certain inventories and customer claims of \$923 and accrued consideration for a working capital adjustment of \$1,293. The Company financed the transaction with availability under its amended credit facility. The Company incurred direct acquisition costs of approximately \$645 related to this acquisition. These incremental costs are classified as selling and administrative expenses in the Company's Consolidated Statements of Operations.

Atlas is a California-based manufacturer and marketer of high-end commercial broadloom and tile carpeting serving soft floorcovering markets. Atlas has a strong reputation for exceptional design, quality and service. This brand will be sold through the existing Atlas sales force and will serve to broaden the Company's product offerings for commercial applications along with the Company's Masland Contract and Masland Hospitality brands.

Cash paid	\$	16,543
Accrued consideration for holdbacks		923
Accrued consideration for working capital adjustment		1,293
Total purchase price consideration	<u>\$</u>	<u>18,759</u>

The acquisition was accounted for as a business combination which generally requires, among other things, that assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date. The acquisition did not represent a significant business combination. The fair value of the net assets acquired exceeded the purchase price resulting in a bargain purchase. The initial gain was subject to adjustment because the Company had not yet completed its evaluation and determination of the fair value, or fair value less cost to sell as applicable, of certain assets acquired and liabilities assumed, which included the final valuation and assessment of (i) property, plant and equipment acquired including assets held for sale and (ii) net working capital acquired. The Company completed these final valuations and assessments by the end of fiscal 2014. During 2014, based on further information, the Company retroactively applied adjustments to the initial provisional amounts to the first quarter of 2014. Such adjustments are presented in the table below. The most significant adjustment was to assets held for sale. The amount of assets held for sale was revised based on the final sale price. As a result of the adjustments, previously reported first quarter pre-tax earnings were increased by \$2,193 (\$1,360 after tax). The adjusted bargain gain recognized in the Consolidated Statement of Operations is \$10,937 (\$6,781 after tax).

Gain on purchase of business	<u>\$ (8,744)</u>	<u>\$ (2,193)</u>	<u>\$ (10,937)</u>

The Company believes that several factors were significant in the recognition of a gain from the acquisition of Atlas. Atlas had higher cost of dyeing due to the lack of capacity utilization and therefore needed to lower costs by combining dye facilities with another operation. In addition, Atlas had a higher cost of modular carpet tile manufacturing due to outsourcing the tile manufacturing operations. Therefore, Atlas would have had to make significant investments in product and manufacturing equipment to be competitive in the modular carpet manufacturing business. Finally, the Seller had the desire to see Atlas operated as an independent brand and organization in the future. All of these objectives were achieved by combining Atlas with the Company in a mutually advantageous relationship.

The Company determined that it is impracticable to provide comparative pro forma financial information related to the acquisition. Significant estimates of amounts to be included in pro forma financial information would be required and subject to an inordinate level of subjectivity. Net sales related to Atlas included in the Company's Consolidated Statement of Operations from the date of the acquisition to December 27, 2014 was \$37,620.

Burtco Enterprises, Inc.

Effective September 22, 2014, the Company acquired certain assets and assumed certain liabilities of Burtco Enterprises, Inc. ("Burtco") for total purchase price consideration of \$2,549, including a cash payment of \$2,430 and accrued consideration for a working capital adjustment of \$119. The Company incurred direct acquisition costs of approximately \$101 related to this acquisition. These incremental costs are classified as selling and administrative expenses in the Company's Consolidated Statements of Operations.

Since 1979, Burtco has created high-quality, custom-crafted carpet designed for the hospitality industry. Burtco manufactures both wool and solution-dyed computer yarn placement (CYP) products that are used in public spaces and hotel guest rooms. These products will broaden the product offerings for commercial applications under the Company's Masland Hospitality brand.

The acquisition was accounted for as a business combination which generally requires, among other things, that assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date. The acquisition did not represent a significant business combination. The fair value of the net assets acquired totaled \$2,722. The fair value of the net assets acquired exceeded the purchase price resulting in a pre-tax bargain purchase of \$173.

2013 Acquisition

Robertex Associates, Inc.

On June 30, 2013, the Company acquired Robertex Associates, Inc. ("Robertex") from Robert P. Rothman. The Company acquired all the outstanding shares of capital stock of Robertex for an aggregate purchase price of \$7,334, which included cash, a seller-financed note and an accrued contingent liability. The seller-financed note consists of five annual payments of principal and interest. The accrued contingent liability is payable in five annual payments based upon incremental growth in gross margins of selected products for five years subsequent to the acquisition. The Company has incurred direct incremental costs of approximately \$350 related to this acquisition. These incremental costs are classified in selling and administrative expenses in the Company's Consolidated Statements of Operations.

This acquisition is designed to increase the Company's market share in the wool markets it currently serves. Robertex produces wool floorcovering products.

The purchase price consideration was as follows:

Cash paid	\$	2,278
Seller-financed note		3,749
Contingent consideration		1,307
Total purchase price	<u>\$</u>	<u>7,334</u>

The acquisition was accounted for as a business combination which requires, among other things, that assets acquired and liabilities assumed to be recognized at their fair values as of the acquisition date. The acquisition did not represent a material business combination. The following table summarizes the estimates of fair values of the assets acquired and liabilities assumed as of June 30, 2013 based on the purchase price allocation. The components of the purchase price allocation consisted of the following:

2012 Acquisitions

Colormaster

On November 2, 2012, the Company acquired a continuous carpet dyeing facility ("Colormaster") in Calhoun, Georgia from Lineage PCR, Inc. for \$6,562 which included cash, a seller financed note and the fair value of a five-year below market agreement to process certain of the seller's products on a commission basis. The Company incurred direct, incremental costs of \$269 related to the acquisition which were expensed as incurred and included in general and administrative expenses in the Company's Consolidated Financial Statements. With the acquisition of these continuous dyeing assets, the Company has moved a significant volume of its dyeing production from its more costly beck dyeing process as well as developing future products that utilize the continuous dye process.

The purchase price consideration was as follows:

Cash paid	\$	239

Total purchase price	<u>\$</u>	<u>6,562</u>

The acquisition was accounted for as a business combination which requires, among other things, that assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date. The Company concluded that the acquisition did not represent a material business combination. The allocation of the purchase price was based on estimates of the fair value of the assets acquired as of November 2, 2012. The components of the purchase price allocation consisted of the following:

Property, plant and equipment	\$	6,371

Supplies		18
Purchase price	<u>\$</u>	<u>6,562</u>

Crown Rug

On November 28, 2012, the Company acquired the specialized wool rug tufting equipment and related business ("Crown Rug") from Crown Manufacturing, Inc. for \$2,580 which included cash, deferred payments and an accrued contingent liability. The deferred payment is payable in three equal annual installments and the accrued contingent liability is three annual payments based on sales volumes each year. The Company incurred direct incremental costs of \$49 related to this acquisition which were classified in general and administrative expenses in the Company's Consolidated Financial Statements. The acquired assets were moved into the Company's facilities to meet internal requirements as well as to enter certain other markets not currently served by the Company. Prior to the acquisition of these assets from Crown Manufacturing, the Company utilized a significant portion of the related machinery capacity at Crown Manufacturing.

The purchase price consideration was as follows:

Cash paid	\$	958
Deferred payments to seller		471
Contingent consideration		1,151
Total purchase price	<u>\$</u>	<u>2,580</u>

Amended Revolving Credit Facility

On March 14, 2014, the Company amended its senior credit facility ("amended senior credit facility"), effective as of March 19, 2014 to permit the acquisition of Atlas by means of an over advance ("Tranche B Advance") of \$5,438 which increased to \$5,764. The Tranche B Advance matured on June 30, 2014 and amounts outstanding were repaid. There is no availability remaining under Tranche B. The Tranche B Advance had an interest rate of 3.50% plus LIBOR, subject also to various availability percentages, limitations, covenants and conditions. In addition, the revolving portion of the facility ("Tranche A Advance") provides for a maximum of \$150,000 of revolving credit, subject to borrowing base availability. The borrowing base is currently equal to specified percentages of the Company's eligible accounts receivable, inventories, fixed assets and real property less reserves established, from time to time, by the administrative agent under the facility. In addition, the term of the amended senior credit facility was extended from August 1, 2018 to March 14, 2019. The amended senior credit facility is secured by a first priority lien on substantially all of the Company's assets.

At the Company's election, Tranche A Advances of the amended senior credit facility bear interest at annual rates equal to either (a) LIBOR for 1, 2 or 3 month periods, as selected by the Company, plus an applicable margin of either 1.50%, 1.75% or 2.00%, or (b) the higher of the prime rate, the Federal Funds rate plus 0.5%, or a daily LIBOR rate plus 1.00%, plus an applicable margin of either 0.50%, 0.75% or 1.00%. The applicable margin is determined based on availability under the amended senior credit facility with margins increasing as availability decreases. The Company pays an unused line fee on the average amount by which the aggregate commitments exceed utilization of the senior credit facility equal to 0.375% per annum.

The amended senior credit facility includes certain affirmative and negative covenants that impose restrictions on the Company's financial and business operations including the restriction on payment of dividends. The amended senior credit facility required the Company to maintain a fixed charge coverage ratio of 1.1 to 1.0 during any period that borrowing availability was less than \$14,440 through May 31, 2014 and increased to \$16,500 after May 31, 2014. The amendment also provided for a waiver of the measurement and application of the fixed charge coverage ratio that would otherwise have been required by a reduction in excess availability from March 14, 2014 through and including April 13, 2014.

Average Interest Rates and Availability

The weighted-average interest rate on borrowings outstanding under the amended senior credit facility was 2.29% at December 27, 2014 and 2.66% at December 28, 2013. As of December 27, 2014, the unused borrowing availability under the amended senior credit facility was \$40,214.

Notes Payable - Building

On November 7, 2014, the Company entered into a ten-year \$8,330 note payable to purchase a previously leased distribution center in Adairsville, Georgia. The note payable is scheduled to mature on November 7, 2024 and is secured by the distribution center. The note payable bears interest at a variable rate equal to one month LIBOR plus 2.0% and is payable in equal monthly installments of principal of \$35, plus interest calculated on the declining balance of the note, with a final payment of \$4,165 due on maturity. In addition, the Company entered into an interest rate swap with an amortizing notional amount effective November 7, 2014 which effectively fixes the interest rate at 4.50%.

Obligation to Development Authority of Gordon County

On November 2, 2012, the Company signed a 6.00% seller-financed note of \$5,500 with Lineage PCR, Inc. ("Lineage") related to the acquisition of a continuous carpet dyeing facility in Calhoun, Georgia. Effective December 28, 2012, through a series of agreements between the Company, the Development Authority of Gordon County, Georgia (the "Authority") and Lineage, obligations with identical payment terms as the original note to Lineage became payment obligations to the Authority. These transactions were consummated in order to provide a tax abatement to the Company related to the real estate and equipment at this facility. The tax abatement plan provides for abatement for certain components of the real and personal property taxes for up to ten years. At any time, the Company has the option to pay off the obligation, plus a nominal amount. The debt to the Authority bears interest at 6.00% and is payable in equal monthly installments of principal and interest of \$106 over 57 months.

Note Payable - Robertex Acquisition

On July 1, 2013, the Company signed a 4.50% seller-financed note of \$4,000, which was recorded at a fair value of \$3,749, with Robert P. Rothman related to the acquisition of Robertex Associates, LLC ("Robertex") in Calhoun, Georgia. The note is payable in five annual installments of principal of \$800 plus interest. The note matures June 30, 2018.

NOTE 11 - FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange value of an asset or a liability in an orderly transaction between market participants. The fair value guidance outlines a valuation framework and establishes a fair value hierarchy in order to increase the consistency and comparability of fair value measurements and disclosures. The hierarchy consists of three levels as follows:

THE DIXIE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share data)
(Continued)

Level 1 - Quoted market prices in active markets for identical assets or liabilities as of the reported date;

Level 2 - Other than quoted market prices in active markets for identical assets or liabilities, quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and other than quoted prices for assets or liabilities and prices that are derived principally from or corroborated by market data by correlation or other means; and

Level 3 - Measurements using management's best estimate of fair value, where the determination of fair value requires significant management judgment or estimation.

The following table reflects the fair values of assets and liabilities measured and recognized at fair value on a recurring basis on the Company's Consolidated Balance Sheets as of December 27, 2014 and December 28, 2013:

	<u>2014</u>	<u>2013</u>	<u>Fair Value Hierarchy Level</u>
Assets:			
Rabbi Trust (1)	\$ 15,316	\$ 14,242	Level 2
Interest rate swaps (2)	34	556	Level 2
Liabilities:			
Interest rate swaps (2)	\$ 3,040	\$ 813	Level 2
Deferred compensation plan (3)	14,331	13,210	Level 2
Contingent consideration (4)	1,855	2,751	Level 3

- (1) The Company maintains a Rabbi Trust that serves as an investment designed to offset its deferred compensation plan liability. The investment assets of the trust consist of life insurance policies for which the Company recognizes income or expense based upon changes in cash surrender value.
- (2) The fair value of the interest rate swaps was obtained from external sources. The interest rate swaps were valued using observable inputs (e.g., LIBOR yield curves, credit spreads). Valuations of interest rate swaps may fluctuate considerably from period-to-period due to volatility in underlying interest rates, which are driven by market conditions and the duration of the instrument. Credit adjustments could have a significant impact on the valuations due to changes in credit ratings of the Company or its counterparties.
- (3) Senior management and other highly compensated associates may defer a specified percentage of their compensation into a non-qualified deferred compensation plan. Changes in the value of the deferred compensation under this plan are recognized each period based on the fair value of the underlying measurement funds.
- (4) As a result of the Colormaster and Crown Rug acquisitions in 2012 and the Robertex acquisition in 2013, the Company recorded contingent consideration liabilities at fair value. These fair value measurements were based on calculations that utilize significant inputs not observable in the market including forecasted revenues, gross margins and discount rates and thus represent Level 3 measurements. These fair value measurements are directly impacted by the Company's estimates. Accordingly, if the estimates are higher or lower than the estimates within the fair value measurement, the Company would record additional charges or benefits, respectively, as appropriate.

Changes in the fair value measurements using significant unobservable inputs (Level 3) during the years ending December 27, 2014 and December 28, 2013 were as follows:

	<u>2014</u>	<u>2013</u>
Beginning balance	\$ 2,751	\$ 1,928
Contingent consideration liabilities recorded at fair value at acquisition	—	1,307
Fair value adjustments	(625)	(23)
Settlements	(271)	(461)
Ending balance	<u>\$ 1,855</u>	<u>\$ 2,751</u>

There were no transfers of assets or liabilities between Level 1, Level 2 and Level 3 during 2014 or 2013. If any, the Company recognizes the transfers in or transfers out at the end of the reporting period.

The carrying amounts and estimated fair values of the Company's financial instruments are summarized as follows:

	2014		2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets:				
Cash and cash equivalents	\$ 394	\$ 394	\$ 255	\$ 255

Interest rate swaps	3,040	3,040	813	813

The fair values of the Company's long-term debt and capital leases were estimated using market rates the Company believes would be available for similar types of financial instruments and represent level 2 measurements. The fair values of cash and cash equivalents and notes receivable approximate their carrying amounts due to the short-term nature of the financial instruments.

NOTE 12 - DERIVATIVES

The Company's earnings, cash flows and financial position are exposed to market risks relating to interest rates. It is the Company's policy to minimize its exposure to adverse changes in interest rates and manage interest rate risks inherent in funding the Company with debt. The Company addresses this risk by maintaining a mix of fixed and floating rate debt and entering into interest rate swaps for a portion of its variable rate debt to minimize interest rate volatility.

The following is a summary of the Company's interest rate swaps as of December 27, 2014:

Type	Notional Amount	Effective Date	Fixed Rate	Variable Rate
Interest rate swap	\$ 10,000	October 3, 2011 through September 1, 2016	1.330%	1 Month LIBOR
Interest rate swap	\$ 10,000	March 1, 2013 through September 1, 2016	1.620%	1 Month LIBOR
Interest rate swap	\$ 5,000	June 1, 2013 through September 1, 2016	1.700%	1 Month LIBOR

NOTE 13 - EMPLOYEE BENEFIT PLANS

Defined Contribution Plans

The Company sponsors a 401(k) defined contribution plan that covers a significant portion, or approximately 86% of the Company's associates. This plan includes a mandatory Company match on the first 1% of participants' contributions. The Company matches the next 2% of participants' contributions if the Company meets prescribed earnings levels. The plan also provides for additional Company contributions above the 3% level if the Company attains certain additional performance targets. Matching contribution expense for this 401(k) plan was \$382 in 2014, \$610 in 2013 and \$247 in 2012.

Additionally, the Company sponsors a 401(k) defined contribution plan that covers those associates at one facility who are under a collective-bargaining agreement, or approximately 14% of the Company's associates. Under this plan, the Company generally matches participants' contributions, on a sliding scale, up to a maximum of 2.75% of the participant's earnings. Matching contribution expense for the collective-bargaining 401(k) plan was \$87 in 2014, \$86 in 2013 and \$78 in 2012.

Non-Qualified Retirement Savings Plan

The Company sponsors a non-qualified retirement savings plan that allows eligible associates to defer a specified percentage of their compensation. The obligations owed to participants under this plan were \$14,331 at December 27, 2014 and \$13,210 at December 28, 2013 and are included in other long-term liabilities in the Company's Consolidated Balance Sheets. The obligations are unsecured general obligations of the Company and the participants have no right, interest or claim in the assets of the Company, except as unsecured general creditors. The Company utilizes a Rabbi Trust to hold, invest and reinvest

deferrals and contributions under the plan. Amounts are invested in Company-owned life insurance in the Rabbi Trust and the cash surrender value of the policies was \$15,316 at December 27, 2014 and \$14,242 at December 28, 2013 and is included in other assets in the Company's Consolidated Balance Sheets.

Multi-Employer Pension Plan

The Company contributes to a multi-employer pension plan under the terms of a collective-bargaining agreement that covers its union-represented employees. These union-represented employees represented approximately 14% of the Company's total employees. The risks of participating in multi-employer plans are different from single-employer plans. If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers. If the Company chooses to stop participating in the multi-employer plan, the Company may be required to pay the plan an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

The Company's participation in the multi-employer pension plan for 2014 is provided in the table below. The "EIN/Pension Plan Number" column provides the Employee Identification Number (EIN) and the three digit plan number. The most recent Pension Protection Act (PPA) zone status available in 2014 and 2013 is for the plan's year-end at 2013 and 2012, respectively. The zone status is based on information that the Company received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65% funded, plans in the yellow zone are less than 80% funded and plans in the green zone are at least 80% funded. The "FIP/RP Status Pending/Implemented" column indicates a plan for which a financial improvement plan (FIP) or a rehabilitation plan (RP) is either pending or has been implemented. The last column lists the expiration date of the collective-bargaining agreement to which the plan is subject.

Pension Fund	EIN/Pension Plan Number	Pension Protection Act Zone Status		FIP/RP Status Pending/Implemented (1)	Contributions (2)			Surcharge Imposed (1)	Expiration Date of Collective-Bargaining Agreement
		2014	2013		2014	2013	2012		
The Pension Plan of the National Retirement Fund	13-6130178 - 001	Red	Red	Implemented	\$ 279	\$ 279	\$ 256	Yes	6/3/2017

- (1) The collective-bargaining agreement requires the Company to contribute to the plan at the rate of \$0.47 per compensated hour for each covered employee. The Company will make additional contributions, as mandated by law, in accordance with the fund's 2010 Rehabilitation Plan which requires a surcharge equal to \$0.03 per hour (from \$0.47 to \$0.50) effective June 1, 2014 to May 31, 2015. Based upon current employment and benefit levels, the Company's contributions to the multi-employer pension plan are expected to be approximately \$300 for 2015.
- (2) The Company's contributions to the plan do not represent more than 5% of the total contributions to the plan for the most recent plan year available.

Postretirement Plans

The Company inherited a legacy postretirement benefit plan that provides life insurance to a limited number of associates as a result of a prior acquisition. The Company also sponsors a postretirement benefit plan that provides medical insurance for a limited number of associates who retired prior to January 1, 2003 and life insurance to a limited number of associates upon retirement as part of a collective bargaining agreement.

Other items	73	(30)	(83)
Total tax provision (benefit)	<u>\$ 1,053</u>	<u>\$ (577)</u>	<u>\$ (401)</u>

In 2014, the Company increased valuation allowances by \$569 related to state income tax loss carryforwards and credit carryforwards. This was primarily the result of actual 2014 pretax earnings being significantly less than the 2014 forecasted earnings used in the 2013 analysis, a change in California apportionment rules that limit the utilization of net operating loss and credit carryforwards in future years and a projected tax loss in 2014 that resulted in the need to record a valuation allowance against that loss in separate company reporting states.

During 2013, the Company reversed \$1,190 of previously established reserves related to state income tax loss carryforwards and state income tax credit carryforwards. The reversal of the reserves was based on a number of factors including current and future earnings assumptions by taxing jurisdiction. Additionally, 2013 included certain tax credits of approximately \$520 related to 2009 - 2011 determined to be available for utilization and \$304 of 2012 research and development tax credits that could not be recognized until the extension of the credit was approved by Congress in 2013.

The Company's 2012 effective income tax benefit rate varied from statutory rates primarily as a result of adjustments to estimates used in the 2011 estimated tax calculations versus amounts used in the subsequent tax return filing for the 2011 period; net of the effects of permanent differences on the lower level of pre-tax earnings in the 2012 tax calculations.

Income tax payments, net of income tax refunds received for continuing and discontinued operations were \$345 in 2014, \$58 in 2013 and \$1,318 in 2012.

At December 27, 2014, \$3,503 of deferred tax assets related to approximately \$10,010 of federal net operating loss carryforwards and \$3,417 of deferred tax assets related to approximately \$77,405 of state net operating loss carryforwards. In addition, \$2,472 of federal tax credit carryforwards and \$1,740 of state tax credit carryforwards were available to the Company. The federal net operating loss carryforwards and the federal tax credit carryforwards will expire in 20 years. The state net operating loss carryforwards and the state tax credit carryforwards will expire within 10 years. A valuation allowance of \$4,317 is recorded to reflect the estimated amount of deferred tax assets that may not be realized during the carryforward periods. At December 27, 2014, the Company is in a net deferred tax asset position of \$3,346. The Company performed an analysis related to the net deferred tax asset and believes that the net tax asset is recoverable in future periods.

Tax Uncertainties

The Company accounts for uncertainty in income tax positions according to FASB guidance relating to uncertain tax positions. Unrecognized tax benefits were \$400 and \$291 at December 27, 2014 and December 28, 2013, respectively. Such benefits, if recognized, would affect the Company's effective tax rate. There were no significant interest or penalties accrued as of December 27, 2014 and December 28, 2013.

The Company and its subsidiaries are subject to United States federal income taxes, as well as income taxes in a number of state jurisdictions. The tax years subsequent to 2010 remain open to examination for U.S. federal income taxes. The majority of state jurisdictions remain open for tax years subsequent to 2010. A few state jurisdictions remain open to examination for tax years subsequent to 2009.

NOTE 15 - COMMON STOCK AND EARNINGS (LOSS) PER SHARE

Common & Preferred Stock

The Company's charter authorizes 80,000,000 shares of Common Stock with a \$3 par value per share and 16,000,000 shares of Class B Common Stock with a \$3 par value per share. Holders of Class B Common Stock have the right to twenty votes per share on matters that are submitted to Shareholders for approval and to dividends in an amount not greater than dividends declared and paid on Common Stock. Class B Common Stock is restricted as to transferability and may be converted into Common Stock on a one share for one share basis. The Company's charter also authorizes 200,000,000 shares of Class C Common Stock, \$3 par value per share, and 16,000,000 shares of Preferred Stock. No shares of Class C Common Stock or Preferred Stock have been issued.

On May 20, 2014, the Company completed its equity offering of 2,500,000 shares of Common Stock at a price of \$10.65 per share, raising approximately \$24,559 after deducting underwriter fees and costs directly related to the offering. The Company used the net proceeds from the offering for general corporate purposes and to reduce the balance under the Company's revolving credit facility, including borrowings associated with the acquisition of Atlas Carpet Mills.

Earnings (Loss) Per Share

The Company's unvested stock awards that contain non-forfeitable rights to dividends or dividend equivalents, whether paid or unpaid, are considered participating securities and are included in the computation of earnings per share. The accounting guidance requires additional disclosure of EPS for common stock and unvested share-based payment awards, separately disclosing distributed and undistributed earnings. Undistributed earnings represent earnings that were available for distribution but were not distributed. Common stock and unvested share-based payment awards earn dividends equally. All earnings were undistributed in all periods presented.

(2) Because their effects are anti-dilutive, shares issuable under stock option plans where the exercise price is greater than the average market price of the Company's Common Stock during the relevant period and directors' stock performance units have been excluded. Aggregate shares excluded were 434 in 2014, 510 in 2013 and 827 in 2012.

NOTE 16 - STOCK PLANS AND STOCK COMPENSATION EXPENSE

The Company recognizes compensation expense relating to share-based payments based on the fair value of the equity instrument issued and records such expense in selling and administrative expenses in the Company's Consolidated Condensed Financial Statements. The number of shares to be issued is determined by dividing the specified dollar value of the award by the market value per share on the grant date. The Company's stock compensation expense was \$1,195 in 2014, \$847 in 2013 and \$937 in 2012.

2006 Stock Awards Plan

On May 3, 2006, the Company's shareholders' approved and adopted the Company's 2006 Stock Awards Plan (the "2006 Plan") which provided for the issuance of up to 800,000 shares of Common Stock and/or Class B Common Stock as stock-based or stock-denominated awards to directors of the Company and to salaried employees of the Company and its participating subsidiaries. The 2006 Plan superseded and replaced The Dixie Group, Inc. Stock Incentive Plan (the "2000 Plan"), which was terminated with respect to the granting of new awards. Awards previously granted under the 2000 Plan will continue to be governed by the terms of that plan and will not be affected by its termination.

On April 27, 2010, the Company's shareholders' approved the amendment and restatement of the 2006 Plan to increase the number of shares that may be issued under the plan from 800,000 to 1,300,000.

On April 30, 2013, the Company's shareholders' approved the amendment of the 2006 Plan to increase the number of shares that may be issued under the plan from 1,300,000 to 1,800,000.

Restricted Stock Awards

Each executive officer has the opportunity to earn a Primary Long-Term Incentive Award of restricted stock and separately receive an award of restricted stock denominated as "Career Shares." The number of shares issued, if any, is based on the market price of the Company's Common Stock at the time of grant of the award, subject to a \$5.00 per share minimum value. Primary Long-

Term Incentive Awards vest over 3 years, and Career Shares vest when the participant becomes qualified to retire from the Company at 60 years of age and has retained the Career Shares for 2 years following the grant date.

During 2014, the Company issued 101,315 shares of restricted stock to officers and other key employees. The grant-date fair value of the awards was \$1,588, or \$15.675 per share, and will be recognized as stock compensation expense over the vesting periods which range from 2 to 13 years from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each share of restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

During 2013, the Company issued 173,249 shares of restricted stock to officers and other key employees. The grant-date fair value of the awards was \$899, or \$5.190 per share, and will be recognized as stock compensation expense over the vesting periods which range from 2 to 14 years from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each share of restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

During 2012, the Company issued 241,233 shares of restricted stock to officers and other key employees. The grant-date fair value of the awards was \$998, or \$4.135 per share, and will be recognized as stock compensation expense over the vesting periods which range from 2 to 15 years from the date the awards were granted. Additionally, the Company issued 48,000 shares of restricted stock to certain key employees. The grant-date fair value of the awards was \$156, or \$3.255 per share, and will be recognized as stock compensation over a 4 year vesting period from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each share of restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

Restricted stock activity for the three years ended December 27, 2014 is summarized as follows:

	Number of Shares	Weighted-Average Grant-Date Fair Value
Outstanding at December 31, 2011	306,529	\$ 8.00

Forfeited	(125,000)	12.78
Outstanding at December 27, 2014	357,239	\$ 7.92

As of December 27, 2014, unrecognized compensation cost related to unvested restricted stock was \$1,809. That cost is expected to be recognized over a weighted-average period of 3.6 years. The total fair value of shares vested was approximately \$1,512, \$669 and \$439 during the year 2014, 2013 and 2012, respectively.

Stock Performance Units

Prior to 2014, the Company's non-employee directors received an annual retainer of \$12 in cash and \$12 in value of Stock Performance Units (subject to a \$5.00 minimum per unit) under the Director's Stock Plan. In 2014, the Company's non-employee directors received \$18 in cash and \$18 in value of Stock Performance Units (subject to a \$5.00 minimum per unit). If market value at the date of the grants is above \$5.00 per share; there is no reduction in the number of units issued. However, if the market value at the date of the grants is below \$5.00, units will be reduced to reflect the \$5.00 per share minimum. Upon retirement, the Company issues the number of shares of Common Stock equivalent to the number of Stock Performance Units held by non-employee directors at that time. As of December 27, 2014, 109,359 Stock Performance Units were outstanding under this plan.

Stock Purchase Plan

The Company has a stock purchase plan which authorizes 108,000 shares of Common Stock for purchase by supervisory associates at the market price prevailing at the time of purchase. At December 27, 2014, 27,480 shares remained available for issuance under the plan. Shares sold under this plan are held in escrow until paid for and are subject to repurchase agreements which give the Company a right of first refusal to purchase the shares if they are subsequently sold. No shares were sold under the plan in 2014, 2013 or 2012.

Stock Options

All stock options issued under the Company's 2000 Plan were exercisable generally at a cumulative rate of 25% per year after the second year from the date the options were granted. Options granted under the Company's 2006 Plan are exercisable for periods determined at the time the awards are granted. Effective 2009, the Company established a \$5.00 minimum exercise price on all options granted. No options were granted during 2014, 2013 or 2012.

The fair value of each option was estimated on the date of grant using the Black-Scholes model. Expected volatility was based on historical volatility of the Company's stock, calculated using the most recent period equal to the expected life of the options. The risk-free interest rate was based on the U.S. Treasury yield for a term equal to the expected life of the option at the time of grant. The Company uses historical exercise behavior data of similar employee groups to determine the expected life of options.

Option activity for the three years ended December 27, 2014 is summarized as follows:

NOTE 18 - COMMITMENTS AND CONTINGENCIES

Commitments

The Company had purchase commitments of \$4,843 at December 27, 2014, primarily related to machinery & equipment. The Company enters into fixed-price contracts with suppliers to purchase natural gas to support certain manufacturing processes. The Company had contract purchases of \$977 in 2014, \$1,109 in 2013 and \$1,127 in 2012. At December 27, 2014, the Company has commitments to purchase natural gas of \$1,027 for 2015, \$741 for 2016 and \$140 for 2017.

Property, plant and equipment includes machinery and equipment under capital leases which have asset cost and accumulated depreciation of \$16,353 and \$2,033, respectively, at December 27, 2014, and \$5,390 and \$914, respectively, at December 28, 2013.

Contingencies

The Company assesses its exposure related to legal matters, including those pertaining to product liability, safety and health matters and other items that arise in the regular course of its business. If the Company determines that it is probable a loss has been incurred, the amount of the loss, or an amount within the range of loss, that can be reasonably estimated will be recorded.

Environmental Remediation

The Company accrues for losses associated with environmental remediation obligations when such losses are probable and estimable. Remediation obligations are accrued based on the latest available information and are recorded at undiscounted amounts. The Company regularly monitors the progress of environmental remediation. If studies indicate that the cost of remediation has changed from the previous estimate, an adjustment to the liability would be recorded in the period in which such determination is made. (See Note 21)

Legal Proceedings

The Company was a plaintiff in a lawsuit against a former raw material supplier. In its lawsuit, the Company alleged that the former supplier sold defective materials to the Company over a period of time, which, when applied to certain of the Company's products, caused those products to become defective and unmerchantable in the ordinary course of the Company's business. On January 31, 2014, the Company and the supplier settled its claim for \$400. The difference in the amount previously recognized and the settlement amount was recorded in other operating (income) expense in 2013.

NOTE 20 - FACILITY CONSOLIDATION EXPENSES

2014 Warehousing, Distribution & Manufacturing Consolidation Plan

On January 20, 2014, the Company developed a plan to align its warehousing, distribution and manufacturing to support its growth and manufacturing strategy resulting in better cost structure and improved distribution capabilities and customer service. The key element and first major step of this plan was the leasing of a facility that will serve as a finished goods warehouse and a cut-order and distribution center in Adairsville, Georgia; such lease commenced on May 1, 2014. Costs related to the consolidation include moving and relocation expenses, information technology expenses and expenses relating to conversion and realignment of equipment.

In June of 2014, the Board of Directors' approved a modification of this plan to include the elimination of both carpet dyeing and yarn dyeing in the Company's Atmore, Alabama facility designed to more fully accommodate the distribution and manufacturing realignment. As a result, the dyeing operations in Atmore will be moved to the Company's continuous dyeing facility, skein dyeing operation and other outside dyeing processors. In addition, certain machinery and equipment has been identified for disposal resulting in an impairment charge of \$1,133 during 2014.

2014 Atlas Integration Plan

As a part of the March 19, 2014 acquisition of Atlas, the Company developed a plan to close the operations of the Atlas dyeing facility in Los Angeles and move the carpet dyeing of their products to the Company's dyeing operation located in Santa Ana, California. Costs related to the consolidation include equipment relocation, computer systems modifications and severance costs and should be completed in fiscal 2015.

Carousel

In the fourth quarter of 2014, the Company discontinued the Carousel specialty tufting and weaving operation that was part of the 2013 Robertex, Inc. acquisition. As a result, the Company had a loss on the disposal of the discontinued operation which included the impairment of certain intangibles associated with Carousel and the related machinery and equipment. The amount of non-current assets related to Carousel at December 28, 2013 was \$2,579. Operating results associated with Carousel have been classified as discontinued operations for all periods presented.

Previously Discontinued Operations

The Company has previously either sold or discontinued certain operations that have certain contingent obligations primarily related to self-insured workers' compensation and environmental liabilities. Costs related to these obligations for those businesses are classified as discontinued operations.

THE DIXIE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

Undiscounted reserves are maintained for the self-insured workers' compensation obligations. These reserves are administered by a third-party workers' compensation service provider under the supervision of Company personnel. Such reserves are reassessed on a quarterly basis. Pre-tax cost incurred for workers' compensation as a component of discontinued operations primarily represents a change in estimate for each period from unanticipated medical costs associated with the Company's obligations.

Reserves for environmental remediation obligations are established on an undiscounted basis. The Company has an accrual for environmental remediation obligations of \$1,637 and \$1,830 as of December 27, 2014 and December 28, 2013, respectively. The liability established represents the Company's best estimate of possible loss and is the reasonable amount to which there is any meaningful degree of certainty given the periods of estimated remediation and the dollars applicable to such remediation for those periods. The actual timeline to remediate, and thus, the ultimate cost to complete such remediation through these remediation efforts, may differ significantly from our estimates. Pre-tax cost for environmental remediation obligations classified as discontinued operations were primarily a result of specific events requiring action and additional expense in each period.

NOTE 22 - RELATED PARTY TRANSACTIONS

During 2014, the Company entered into a 5-year lease with the seller of Atlas Carpet Mills, Inc. to lease three manufacturing facilities as part of the acquisition. The seller is an associate of the Company. Rent paid to the seller during 2014 was \$343. The lease was based on current market values for similar facilities.

During 2014, the Company purchased a portion of its product needs in the form of fiber, yarn, carpet and dyeing services from Engineered Floors, an entity substantially controlled by Robert E. Shaw, a shareholder of the Company. Mr. Shaw reported holding approximately 8.5% of the Company's Common Stock, which as of year-end, represented approximately 4.2% of the total vote of all classes of the Company's Common Stock. Engineered Floors is one of several suppliers of such services to the Company. Total purchases from Engineered Floors for 2014, 2013 and 2012 were approximately \$11,300, \$12,000 and \$8,000, respectively; or approximately 3.6% of the Company's cost of goods sold in 2014. Purchases from Engineered Floors are based on market value, negotiated prices. The Company has no contractual arrangements or commitments with Mr. Shaw associated with its business relationship with Engineered Floors. Transactions with Engineered Floors were reviewed and approved by the Company's board of directors.

During 2013, the Company entered into a 10-year lease with the Rothman Family Partnership to lease a manufacturing facility as part of the Robertex acquisition. The Rothman Family Partnership includes Robert P. Rothman who is an associate of the Company. Rent paid to the Rothman Family Partnership during 2014 and 2013 was \$257 and \$127, respectively. The lease was based on current market values for similar facilities.

NOTE 23 - SUBSEQUENT EVENTS

On January 23, 2015, the Company entered into a ten-year \$6,290 note payable to finance an owned facility in Saraland, Alabama. The note payable is scheduled to mature on January 7, 2025 and is secured by the facility. The note payable bears interest at a variable rate equal to one month LIBOR plus 2.0% and is payable in equal monthly installments of principal of \$26, plus interest calculated on the declining balance of the note, with a final payment of \$3,145 due on maturity. In addition, the Company entered into a forward interest rate swap with an amortizing \$5,661 notional amount effective January 7, 2017 which effectively fixes the interest rate at 4.30%.

On March 12, 2015, the Company granted 114,625 shares of restricted stock to officers and other key employees of the Company. The shares will vest over periods ranging from 1 to 29 years from the date of the awards were granted. Each award is subject to a continued service condition. In addition, the Compensation Committee has approved a grant of 100,000 shares of restricted stock to the Company's Chief Executive Officer, subject to shareholder approval. The shares would vest in 4 years from the date of the award was granted and would be subject to both a performance and continued service condition.

ANNUAL MEETING OF SHAREHOLDERS
April 28, 2015

PROXY STATEMENT

INTRODUCTION

The enclosed Proxy is solicited on behalf of the Board of Directors of the Company for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders. This Proxy Statement and the enclosed Proxy will be mailed on or about March 23, 2015, to shareholders of record of the Company's Common Stock and Class B Common Stock as of the close of business on February 27, 2015.

At the Annual Meeting, holders of the Company's Common Stock, \$3.00 par value per share ("Common Stock"), and Class B Common Stock, \$3.00 par value per share ("Class B Common Stock"), will be asked to: (i) elect nine individuals to the Board of Directors for a term of one year each, (ii) approve the material terms of the Performance Goals of the Annual Incentive Compensation Plan applicable to 2015 - 2019; (iii) cast an advisory vote on the Company's compensation for its named executive officers; (iv) ratify the appointment of Dixon Hughes Goodman LLP to serve as independent registered public accountants of the Company for 2015, and (v) transact any other business that may properly come before the meeting.

The Board of Directors recommends that the Company's shareholders vote (i) **FOR** electing the nine (9) nominees for director; (ii) **FOR** approving the material terms of the Performance Goals of the Annual Incentive Compensation Plan applicable to 2015 - 2019; (iii) **FOR** approving the Company's executive compensation of its named executive officers; and (iv) **FOR** ratifying the appointment of Dixon Hughes Goodman LLP to serve as independent registered public accountants of the Company for 2015.

RECORD DATE, VOTE REQUIRED AND RELATED MATTERS

The Board has fixed the close of business on February 27, 2015, as the Record Date for the determination of shareholders entitled to notice of, and to vote at, the Annual Meeting. In accordance with the Company's Charter, each outstanding share of Common Stock is entitled to one vote, and each outstanding share of Class B Common Stock is entitled to 20 votes, exercisable in person or by properly executed Proxy, on each matter brought before the Annual Meeting. Cumulative voting is not permitted. As of February 27, 2015, 15,007,423 shares of Common Stock, representing 15,007,423 votes, were held of record by approximately 3,000 shareholders (including an estimated 2,550 shareholders whose shares are held in nominee names, but excluding approximately 540 participants in the Company's 401(k) Plan who may direct the voting of shares allocated to their accounts), and 764,191 shares of Class B Common Stock, representing 15,283,820 votes, were held by 12 individual shareholders, together representing an aggregate of 30,291,243 votes.

Shares represented at the Annual Meeting by properly executed Proxy will be voted in accordance with the instructions indicated therein unless such Proxy has previously been revoked. If no instructions are indicated, such shares will be voted (i) **FOR** electing the nine (9) nominees for director; (ii) **FOR** approving the material terms of the Performance Goals of the Annual Incentive Compensation Plan applicable to 2015 - 2019; (iii) **FOR** approving the Company's compensation of its named executive officers; and (iv) **FOR** ratifying the appointment of Dixon Hughes Goodman LLP to serve as independent registered public accountants of the Company for 2015.

Any Proxy given pursuant to this solicitation may be revoked at any time by the shareholder giving it by (i) delivering to the Secretary of the Company a written notice of revocation bearing a later date than the Proxy, (ii) submitting a later-dated, properly executed Proxy, or (iii) revoking the Proxy and voting in person at the Annual Meeting. Attendance at the Annual Meeting will not, in and of itself, constitute a revocation of a Proxy. Any written notice revoking a Proxy should be sent to The Dixie Group, Inc., P.O. Box 25107, Chattanooga, Tennessee 37422-5107, Attention: Starr T. Klein, Secretary.

The persons designated as proxies were selected by the Board of Directors and are Daniel K. Frierson, Lowry F. Kline and John W. Murrey, III. The cost of solicitation of Proxies will be borne by the Company.

The presence, in person or by Proxy, of the holders of a majority of the aggregate outstanding vote of Common Stock and Class B Common Stock entitled to vote is necessary to constitute a quorum at the Annual Meeting. In accordance with Tennessee law, Directors are elected by the affirmative vote of a plurality of the votes cast in person or by Proxy at the Annual Meeting.

The affirmative vote of a majority of the total votes cast is necessary for approval of the material terms of the Performance Goals for the Annual Incentive Compensation Plan applicable to 2015 - 2019.

Ratification of the appointment of Dixon Hughes Goodman LLP to serve as independent registered public accountants of the Company for 2015 will be approved if the votes properly cast favoring ratification exceed the votes cast opposing ratification.

Approval of the Company's executive compensation for its named executive officers will be deemed to have been obtained if the number of votes cast in favor of such compensation exceeds the number of votes cast against such compensation. Abstentions and broker non-votes will have no effect on the outcome.

Shares covered by abstentions and broker non-votes, while counted for purposes of determining the presence of a quorum at the Annual Meeting, are not considered to be affirmative votes. Abstentions and broker non-votes will have no effect upon the election of a nominee for director, so long as such nominee receives any affirmative votes. For purposes of approval of the material terms of the Performance Goals for the Annual Incentive Compensation Plan applicable to 2015 - 2019, abstentions and broker non-votes will be considered negative votes. For purposes of ratification of the appointment of Dixon Hughes Goodman LLP, as independent registered public accountants, abstentions and broker non-votes will not be considered negative votes.

A copy of the Company's Annual Report for the year-ended December 27, 2014, is enclosed herewith.

The Board is not aware of any other matter to be brought before the Annual Meeting for a vote of shareholders. If, however, other matters are properly presented, Proxies representing shares of Common Stock and Class B Common Stock will be voted in accordance with the best judgment of the proxy holders.

- (1) Under the rules of the Securities and Exchange Commission and for the purposes of these disclosures, a person is deemed to be a "beneficial owner" of a security if that person has or shares "voting power," which includes the power to vote or to direct the voting of such security, or "investment power," which includes the power to dispose or to direct the disposition of such security. Under these rules, more than one person may be deemed to be a beneficial owner of the same securities. The Class B Common Stock is convertible on a share-for-share basis into shares of Common Stock, and accordingly, outstanding shares of such stock are treated as having been converted to shares of Common Stock for purposes of determining both the number and percentage of class of Common Stock for persons set forth in the table who hold such shares.
- (2) Does not include 271,505 shares of Common Stock owned by The Dixie Group, Inc. 401(k) Retirement Savings Plan (the "401(k) Plan") for which Daniel K. Frierson is a fiduciary and for which T. Rowe Price Trust Company serves as Trustee. Participants in the 401(k) Plan may direct the voting of all shares of Common Stock held in their accounts, and the Trustee must vote all shares of Common Stock held in the 401(k) Plan in the ratio reflected by such direction. Participants may also direct the disposition of such shares. Accordingly, for purposes of these disclosures, shares held for participants in the 401(k) Plan are reported as beneficially owned by the participants.

(3) Mr. Daniel K. Frierson's beneficial ownership of Common Stock and Class B Common Stock may be summarized as follows:

PROPOSAL ONE ELECTION OF DIRECTORS

Dr. J. Don Brock passed away on March 10, 2015. Dr. Brock was a faithful Board member and friend to Dixie. We have appreciated Don's input, counsel and support and will miss his wisdom and insight.

Information About Nominees for Director

Pursuant to the Company's Bylaws, all Directors are elected to serve a one year term, or until their successors are elected and qualified. The Board of Directors is permitted to appoint directors to fill the unexpired terms of directors who resign.

The names of the nominees for election to the Board, their ages, their principal occupation or employment (which has continued for at least the past five years unless otherwise noted), directorships held by them in other publicly-held corporations or investment companies, the dates they first became directors of the Company, and certain other relevant information with respect to such nominees are as follows:

William F. Blue, Jr., age 56, is Chairman of the Board of The Hopeway Foundation in Charlotte, North Carolina. From 2008 until his retirement in 2014, he served a Vice Chairman of Investment Banking and Capital Markets, part of Wells Fargo Securities, LLC, in Charlotte. Throughout his 28-year investment banking career, he represented foreign and domestic corporations in financing and advisory assignments, including acquisitions, divestiture, recapitalizations, fairness opinions, and public and private equity and debt offerings. From 1998 until 2008, Mr. Blue served as group head of the Wachovia Consumer and Retail Investment Banking group. Before joining Wachovia, he was a managing director of the Mergers and Acquisitions group of NationsBanc Montgomery Securities, the predecessor firm to Banc of America Securities. Mr. Blue is a member of the Company's Audit Committee. He has been a director of the Company since October 2014.

Charles E. Brock, age 50, is the President and Chief Executive Officer of Launch Tennessee, a public-private partnership, focused on the development of high-growth companies in Tennessee. Previously, he served as the Executive Entrepreneur of The Company Lab, a Chattanooga organization that serves as "the Front Door for Entrepreneurs" in Southeast Tennessee and one of Launch Tennessee's regional accelerators. Mr. Brock was a founding partner of the Chattanooga Renaissance Fund, a locally based angel investment group. Mr. Brock also serves as a director of Four Bridges Capital Advisors, a Chattanooga based boutique investment bank as well as director of CapitalMark Bank and Trust. Mr. Brock is a member of the Company's Audit Committee and a member of the Company's Compensation Committee. He has been a director of the Company since 2012.

Daniel K. Frierson, age 73, is Chairman of the Board of the Company, a position he has held since 1987. He also has been Chief Executive Officer of the Company since 1980 and a director of the Company since 1973. Mr. Frierson is currently chairman of The Carpet and Rug Institute. Mr. Frierson serves as a director of Astec Industries, Inc., a manufacturer of specialized equipment for building and restoring the world's infrastructure headquartered in Chattanooga, Tennessee, and Louisiana-Pacific Corporation, a manufacturer and distributor of building materials headquartered in Nashville, Tennessee. Mr. Frierson is Chairman of the Company's Executive Committee and Chairman of the Company's Retirement Plans Committee.

D. Kennedy Frierson, Jr., age 48, is Chief Operating Officer of the Company, a position he has held since 2009. He has been President of Masland Residential, General Manager of Dixie Home, President of Bretlin as well as various other positions in operations, sales and senior management of the Company since 1998. Mr. Frierson is a member of the Company's Retirement Plans Committee. He has been a director of the Company since 2012.

Walter W. Hubbard, age 71, served as President and Chief Executive Officer of Honeywell Nylon, Inc., a wholly-owned subsidiary of Honeywell International, a manufacturer of nylon products from 2003 until his retirement in 2005. Prior to becoming President of Honeywell Nylon, Mr. Hubbard served as Group Vice President, Fiber Products of BASF Corporation from 1994 until 2003. Mr. Hubbard is a member of the Company's Audit Committee and the Company's Compensation Committee. He has been a director of the Company since 2005.

Lowry F. Kline, age 74, served as a director of Coca-Cola Enterprises, Inc. since April 2000, serving as Chairman from April 2002 until April 2008, and as Vice Chairman from April 2000 to April 2003. Mr. Kline served as Chief Executive Officer of Coca-Cola Enterprises, Inc. from April 2001 until January 2004 and from December 2005 to April 2006. Prior to becoming Chief Executive Officer for Coca-Cola Enterprises, Inc., he held a number of positions with said company, including Chief Administrative Officer, Executive Vice President and General Counsel. Mr. Kline is a member of the Board of Directors of Jackson Furniture Industries, Inc., headquartered in Cleveland, Tennessee, and McKee Foods Corporation, headquartered in Collegedale, Tennessee. Mr. Kline is Chairman of the Company's Compensation Committee and a member of the Company's Audit Committee and a member of the Company's Executive Committee. He has been a director of the Company since 2004.

Hilda S. Murray, age 60, is the Corporate Secretary and Executive Vice President of TPC Printing & Packaging, a specialty packaging and printing company in Chattanooga, TN. She is also founder and President of Greener Planet, LLC, an environmental compliance consultant to the packaging and printing industry. John W. Murrey, III, age 72, previously served as a Senior member of the law firm of Witt, Gaither & Whitaker, P.C. in Chattanooga, Tennessee until June 30, 2001. Since 1993, Mr. Murrey has served as a director of Coca-Cola Bottling Co. Consolidated, a Coca-Cola bottler headquartered in Charlotte, North Carolina and has served on its Audit Committee. From 2003 to 2007, he also served as a director of U. S. Xpress Enterprises, Inc., a truckload carrier headquartered in Chattanooga, Tennessee, and was Chairman of its Audit Committee. Mr. Murrey has been a director of the Company since 1997 and is Chairman of the Company's Audit Committee and a member of the Company's Compensation Committee.

Michael L. Owens, age 58, is Assistant Dean of Graduate Programs and Lecturer in the College of Business at the University of Tennessee at Chattanooga, Chattanooga, Tennessee. Prior to joining the University of Tennessee at Chattanooga, Mr. Owens was President of Coverdell & Company, Atlanta, Georgia. Prior to joining Coverdell, he was Senior Vice President and Chief Operating Officer of Monumental Life Insurance Company. He has been a director of the Company since 2014 and is a member of the Company's Audit Committee.

D. Kennedy Frierson, Jr., the Company's Vice President and Chief Operating Officer, is the son of Daniel K. Frierson. No other director, nominee, or executive officer of the Company has any family relationship, not more remote than first cousin, to any other director, nominee, or executive officer.

Considerations with Respect to Nominees

In selecting the slate of nominees for 2015, the Independent Directors of the Board considered the familiarity of the Company's incumbent Directors with the business and prospects of the Company, developed as a result of their service on the Company's Board. The Board believes that such familiarity will be helpful in their service on the Company's Board. With respect to all nominees, the Independent Directors of the Board noted the particular qualifications, experience, attributes and skills possessed by each nominee. These qualifications are reflected in the business experience listed under each nominee's name, above. In order of the list of nominees, such information may be summarized as follows: Mr. Blue is an experienced investment banker having been Vice Chairman of Wells Fargo Securities and involved with capital formation, mergers, acquisitions and financing of various types of ventures. Mr. Brock is experienced in establishing new businesses having been involved in the establishment of both Foxmark Media and CapitalMark Bank and Trust. Mr. Daniel K. Frierson has served with the Company in several management and executive capacities his entire adult life, and has been Chief Executive Officer since 1980 and a Board member since 1973. In such capacity, he has been instrumental in planning and implementing the transition of the Company to its current position as a manufacturer of residential and commercial soft floorcovering products. Additionally, Mr. Frierson has experience as a board member of other public companies as well as significant trade group experience relevant to the Company's business. He is well known and respected throughout the industry. Mr. D. Kennedy Frierson, Jr. has served with the Company in various capacities since 1992. He is currently Chief Operating Officer and has most recently led the Company's Masland Residential business. Mr. Hubbard has highly relevant industry experience with businesses that are fiber producers and fiber suppliers, and that have served as fiber suppliers to the Company. Mr. Hubbard's experience in the management of Honeywell Nylon and BASF Corporation, as outlined above, has given him valuable experience in management, relevant to his duties as a Director of the Company. Ms. Murray has a long history of executive management experience at TPC Printing and Packaging, a provider to the specialty packaging business as well as experience with environmental controls and footprint through Greener Planet. Mr. Kline has a long history of management and board level experience with the world's largest bottler and distributor of Coca Cola Products. Additionally, he has an extensive background in business, corporate and securities law. Mr. Kline has served as a Director of the Company for several years, as reflected above, and serves on the Company's Audit, Compensation and Executive Committees. Mr. Murrey has extensive experience in corporate, securities and business law, has experience drawn from board and committee service with several publicly-traded Companies, other than the Company; prior to his retirement in 2001, he represented the Company as counsel. Mr. Owens has extensive business and management experience, having served as President of Coverdell & Company prior to joining the University of Tennessee at Chattanooga. In addition, he has auditing experience having been employed as a certified public accountant.

The Board of Directors recommends that the Company's shareholders vote FOR electing the nine (9) nominees for director.

Meetings of the Board of Directors

The Board of Directors of the Company met six (6) times in 2014.

Committees, Attendance, and Directors' Fees

The Company has a standing Executive Committee, Audit Committee, Retirement Plans Committee, and Compensation Committee. As described in detail below, pursuant to provisions in its charter, the Company's Compensation Committee, which consists entirely of independent directors, also performs the functions of a corporate governance committee and a nominating committee. Copies of the Charter of the Company's Audit Committee and Compensation Committee may be found on the Company's website at www.thedixiegroupp.com/investor/investor.html.

Members of the Executive Committee are Daniel K. Frierson, Chairman, J. Don Brock and Lowry F. Kline. Except as otherwise limited by law or by resolution of the Board of Directors, the Executive Committee has and may exercise all of the powers and authority of the Board of Directors for the management of the business and affairs of the Company, which power the Executive Committee exercises between the meetings of the full Board of Directors. The Executive Committee met twice in 2014.

Members of the Audit Committee are John W. Murrey, III, Chairman, William F. Blue, Jr., Charles E. Brock, J. Don Brock, Walter W. Hubbard, Lowry F. Kline, Hilda S. Murray, and Michael L. Owens. All of the members of the Audit Committee are "independent directors" as that term is defined by applicable regulations and rules of the National Association of Securities Dealers, Inc. ("NASD"). The Audit Committee evaluates audit performance, handles relations with the Company's independent auditors, and evaluates policies and procedures relating to internal accounting functions and controls. The Audit Committee has the authority to engage the independent accountants for the Company. The Audit Committee operates pursuant to an Audit Committee Charter adopted by the Board of Directors. The Audit Committee has implemented pre-approval policies and procedures related to the provision of audit and non-audit services performed by the independent auditors. Under these procedures, the Audit Committee approves the type of services to be provided and the estimated fees related to those services.

The Audit Committee met five (5) times in 2014.

Members of the Retirement Plans Committee are Daniel K. Frierson, Chairman, D. Kennedy Frierson, Jr., and Hilda S. Murray. The Retirement Plans Committee administers the Company's retirement plans. The Retirement Plans Committee met one (1) time in 2014.

Members of the Compensation Committee are Lowry F. Kline, Chairman, Charles E. Brock, Walter W. Hubbard, and John W. Murrey, III. The Compensation Committee administers the Company's compensation plans, reviews and may establish the compensation of the Company's officers, and makes recommendations to the Board of Directors concerning such compensation and related matters. The Compensation Committee acts pursuant to a written Charter adopted by the Board of Directors.

The Compensation Committee may request recommendations from the Company's management concerning the types and levels of compensation to be paid to the Company's executive officers. Additionally, the Compensation Committee is authorized to engage compensation consultants and may review and consider information and recommendations of compensation consultants otherwise engaged by the Company or the Board of Directors in connection with the assessment, review and structuring of compensation plans and compensation levels. For a description of the Compensation Committee actions with respect to Compensation of Executive Officers in 2014, see ***Compensation Discussion and Analysis - Compensation for 2014***.

Annually, the Compensation Committee reviews the performance of the Chief Executive Officer against goals and objectives established by the Committee as part of the process of determining his compensation. The Compensation Committee reports to the Board on its performance review.

In addition to its responsibilities with respect to executive and director compensation, the Compensation Committee discharges responsibilities with respect to corporate governance. In that capacity, the Compensation Committee develops and recommends for board approval, corporate governance guidelines.

The Compensation Committee's Charter also includes the duties of a nominating committee. Only nominees approved by a majority of the Compensation Committee are recommended to the full Board. In selecting and approving director nominees, the independent directors that make up the Committee consider, among other factors, the existing composition of the Board and the mix of Board members appropriate for the perceived needs of the Company. The Compensation Committee believes continuity in leadership and board tenure increase the Board's ability to exercise meaningful board oversight. Because qualified incumbent directors provide stockholders the benefit of continuity of leadership and seasoned judgment gained through experience as a director of the Company, the Compensation Committee will generally give priority as potential candidates to those incumbent directors interested in standing for re-election who have satisfied director performance expectations, including regular attendance at, preparation for and meaningful participation in Board and committee meetings.

The Compensation Committee also considers the following in selecting the proposed nominee slate:

- at all times, at least a majority of directors must be "independent" in the opinion of the Board as determined in accordance with relevant regulatory and NASD standards;
- at all times at least three members of the Board must satisfy heightened standards of independence for Audit Committee members; and
- at all times the Board should have at least one member who satisfies the criteria to be designated by the Board as an "audit committee financial expert."

In selecting the current slate of director nominees, the Committee considered overall qualifications and the requirements of the makeup of the Board of Directors rather than addressing separate topics such as diversity in its selection. The Board considered the value of the incumbents' familiarity with the Company and its business as well as the considerations outlined above under the heading **Considerations with Respect to Nominees**.

The Compensation Committee met three (3) times in 2014.

Nominations for Director - Stockholder Recommendations

Generally, the Board will consider stockholder recommendations of proposed director nominees if such recommendations are timely received. To be timely for next year's annual meeting, recommendations must be received in writing at the principal executive offices of the Company no later than November 20, 2015. In addition, any stockholder director nominee recommendation must include the following information:

- the proposed nominee's name and qualifications and the reason for such recommendation;
- the name and record address of the stockholder(s) proposing such nominee;
- the number of shares of stock of the Company which are beneficially owned by such stockholder(s); and
- a description of any financial or other relationship between the stockholder(s) and such nominee or between the nominee and the Company or any of its subsidiaries.

In order to be considered by the Board, any candidate proposed by one or more stockholders will also be required to submit appropriate biographical and other information equivalent to that required of all other director candidates.

Board Leadership Structure

Mr. Daniel K. Frierson currently serves as the Chairman of the Board and the Chief Executive Officer of the Company. The positions of Chief Executive Officer and Chairman of the Board are combined. Executive sessions of the Board are chaired by the chairman of the Compensation Committee, Lowry Kline, who, as noted above, has extensive management and Board experience independent of his experience with the Company. Mr. Kline and the independent directors set their own agenda for meetings in executive session and may consider any topic relevant to the Company and its business. The Company believes that regular, periodic, meetings held in executive session, in the absence of management members or management directors, provide the Board an adequate opportunity to review and address issues affecting management or the Company that require an independent perspective. Additionally, the Company's Audit Committee holds separate executive sessions with the Company's independent registered public accounts, internal auditor and management. This Committee also sets its own agenda and may consider any relevant topic in its executive sessions.

Director Attendance

During 2014, no director attended fewer than 75% of the total number of meetings of the Board of Directors and any Committee of the Board of Directors on which he served. All directors are invited and encouraged to attend the annual meeting of shareholders. In general, all directors attend the annual meeting of shareholders unless they are unable to do so due to unavoidable commitments or intervening events. Eight (8) of the nine incumbent directors attended the 2014 annual meeting of shareholders.

Director Compensation

Directors who are employees of the Company do not receive any additional compensation for their services as members of the Board of Directors. Non-employee directors receive an annual retainer of \$36,000, payable one-half in cash and one-half in value of Performance Units under the Directors Stock Plan. Performance Units are redeemable upon a director's retirement for an equivalent number of shares of the Company's Common Stock, and the number of units issued is determined generally by the market value of the Company's Common Stock on the date of grant of the units. In addition to the annual retainer, directors who are not employees of the Company receive \$1,500 for each Board meeting attended and \$1,000 for each committee meeting attended. Chairmen of the Audit and Compensation committees receive an additional annual payment of \$8,000. For an additional discussion of Director Compensation, see the tabular information below under the heading, "Director Compensation."

Independent Directors

The Board has determined that William F. Blue, Jr., Charles E. Brock, Walter W. Hubbard, Lowry F. Kline, Hilda S. Murray, John W. Murrey, III, and Michael L. Owens are independent within the meaning of the standards for independence set forth in the Company's corporate governance guidelines, which are consistent with the applicable Securities and Exchange Commission ("SEC") rules and NASDAQ standards.

Executive Sessions of the Independent Directors

The Company's independent directors meet in executive session at each regularly scheduled quarterly meeting of the Board, with the chair of the Compensation Committee serving as chair of such executive sessions.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, and regulations of the SEC thereunder, require the Company's executive officers and directors and persons who beneficially own more than 10% of the Company's Common Stock, as well as certain affiliates of such persons, to file initial reports of such ownership and monthly transaction reports covering any changes in such ownership with the SEC and the National Association of Securities Dealers. Executive officers, directors and persons owning more than 10% of the Company's Common Stock are required by SEC regulations to furnish the Company with all such reports they file. Based on its review of the copies of such reports received by it, the Company believes that, during fiscal year 2014, all filing requirements were complied with applicable to its executive officers, directors, and owners of more than 10% of the Company's Common Stock.

Management Succession

Periodically, the Board reviews a succession plan, developed by management, addressing the policies and principles for selecting successors to the Company's executive officers, including the Company's CEO. The succession plan includes an assessment of the experience, performance and skills believed to be desirable for possible successors to the Company's executive officers.

Certain Transactions Between the Company and Directors and Officers

The Company's Compensation Committee has adopted written policies and procedures concerning the review, approval or ratification of all transactions required to be disclosed under the SEC's Regulation S-K, Rule 404. These policies and procedures cover all related party transactions required to be disclosed under the SEC's rules as well as all material conflict of interest transactions as defined by relevant state law and the rules and regulations of NASDAQ that are applicable to the Company, and require that all such transactions be identified by management and disclosed to the Company's Compensation Committee for review. If required and appropriate under the circumstances, the Compensation Committee will consider such transactions for approval or ratification. Full disclosure of the material terms of any such transaction must be made to the Compensation Committee, including:

- the parties to the transaction and their relationship to the Company, its directors and officers;
- the terms of the transaction, including all proposed periodic payments; and
- the direct or indirect interest of any related parties or any director, officer or associate in the transaction.

To be approved or ratified, the Compensation Committee must find any such transaction to be fair to the Company. Prior approval of such transactions must be obtained generally, if they are material to the Company. If such transactions are immaterial, such transactions may be ratified and prior approval is not required. Ordinary employment transactions may be ratified.

Certain Related Party Transactions

During its fiscal year ended December 27, 2014, the Company purchased a portion of its products needs in the form of fiber, yarn, carpet and dyeing services from Engineered Floors, an entity substantially controlled by Robert E. Shaw, a shareholder of the Company. Mr. Shaw has reported holding approximately 8.5% of the Company's Common Stock, which, as of year-end, represented approximately 4.1% of the total vote of all classes of the Company's Common Stock. Engineered Floors is one of several suppliers of such services to the Company. Total purchases from Engineered Floors for 2014 were approximately \$11.3 million; or approximately 3.6% of the Company's cost of goods sold in 2014. In accordance with the terms of its charter, the Compensation Committee reviewed the Company's supply relationship with Engineered Floors. The dollar value of Mr. Shaw's interest in the transactions with Engineered Floors is not known to the Company.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The Audit Committee of the Board of Directors is composed of eight members, each of whom is an independent, non-employee director. The Audit Committee operates under a written Audit Committee Charter adopted and approved by the Board of Directors. The Charter is reviewed at least annually by the Committee. While the Committee has the responsibilities and powers set forth in its written charter, it is not the duty of the Committee to plan or conduct audits. This function is conducted by the Company's management and its independent registered public accountants.

The Committee has reviewed and discussed with management the audited financial statements of the Company for the year ended December 27, 2014 (the "Audited Financial Statements"). In addition, the Committee has discussed with Dixon Hughes Goodman LLP the matters required by Statement on Auditing Standards No. 61, "Communications with Audit Committees" (SAS 61), as amended and as adopted by the Public Company Accounting Oversight Board (PCAOB) in Rule 3200T.

The Committee also has received the written report, disclosure and the letter from Dixon Hughes Goodman required by PCAOB Rule 3526, "Communication with Audit Committees Concerning Independence", and the Committee has reviewed, evaluated, and discussed with that firm the written report and its independence from the Company. The Committee also has discussed with management of the Company and Dixon Hughes Goodman LLP such other matters and received such assurances from them as the Committee deemed appropriate.

On November 4, 2014, the Audit Committee of the Board of Directors confirmed its engagement of Dixon Hughes Goodman LLP ("Dixon Hughes") to audit the Company's consolidated financial statements as of and for the year ending December 27, 2014, and the effectiveness of the Company's internal control over financial reporting as of December 27, 2014. Upon completion of all procedures related to filing the Company's Annual Report on Form 10-K for the year ended December 28, 2013, the engagement of Ernst & Young LLP ("Ernst & Young") ended.

During the fiscal years ended December 27, 2014 and December 28, 2013, neither Dixon Hughes report's nor Ernst & Young's reports, respectively, on the Registrant's financial statements contained an adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles.

During the fiscal years ended December 27, 2014 and December 28, 2013 and the subsequent periods through the date of this report, (i) there were no disagreements between the Registrant and neither Dixon Hughes nor Ernst & Young on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of both Dixon Hughes and Ernst & Young, would have caused either Dixon Hughes or Ernst & Young to make reference to the subject matter of the disagreements in connection with its reports on the Registrant's financial statements, and (ii) there were no reportable events as that term is described in Item 304(a)(1)(v) of Regulation S-K.

Based on the foregoing review and discussions and relying thereon, the Committee has recommended to the Company's Board of Directors the inclusion of the Company's Audited Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 27, 2014, to be filed with the Securities and Exchange Commission.

THE AUDIT COMMITTEE

John W. Murrey, III, Chairman
William F. Blue, Jr.
Charles E. Brock
Walter W. Hubbard
Lowry F. Kline
Hilda S. Murray
Michael L. Owens

AUDIT COMMITTEE FINANCIAL EXPERT

The Board has determined that John W. Murrey, III, Chairman of the Audit Committee, is an audit committee financial expert as defined by Item 407(d)(5) of Regulation S-K of the Securities Exchange Act of 1934, as amended, and is independent within the meaning of Rule 10A-3(b)(1) of the Securities Exchange Act of 1934 of the Securities Exchange Act of 1934. For a brief list of Mr. Murrey's relevant experience, please refer to Mr. Murrey's biographical information as set forth in the Election of Directors section of this proxy statement. Additionally, the Company believes the remaining members of the Audit Committee would qualify as audit committee financial experts, within the meaning of applicable rules, based on each individual's qualification and expertise.

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Committee sets compensation for the Company's executive officers, and its decisions are reported to and reviewed by the Board of Directors. The Compensation Committee currently consists of four independent directors chosen annually by the Board.

Compensation of the Company's executive officers is intended to be competitive with compensation offered by other companies generally similar to the Company in size and lines of business. In determining what types and levels of compensation to offer, the Committee may review relevant, publicly available data and, from time to time, it may receive advice and information from professional compensation consultants.

The Elements of Executive Officer Compensation

Compensation for each of the Company's executive officers consists generally of base salary, retirement plan benefits and other customary employment benefits, as well as potential cash incentive awards and stock plan awards pursuant to an annual incentive plan reviewed and adopted by the Committee at the beginning of each year. The annual incentive plan is customarily structured so that a significant portion of each executive's potential annual compensation may consist of equity awards, the award value of which is tied to accomplishing both financial and non-financial goals and objectives.

Compensation for 2014. During 2014, the Compensation Committee engaged Pay Governance, an independent compensation consultant, to assist the Committee in reviewing the Company's senior executive compensation. Pay Governance performed a competitive compensation analysis of the Company's senior executive positions, which included an analysis of compensation for the Chairman/Chief Executive Officer, Chief Operating Officer, Chief Financial Officer, Corporate Controller, President Residential, President Commercial, and VP Human Resources. The consultant presented findings and recommendations to the Committee with respect to each senior executive officer, utilizing data from Towers Watson's 2013 Executive Compensation database.

Recommendations were made to bring the senior executives' compensation levels up to the 25th to 50th percentiles of general industry market data levels, where the Company's current compensation levels were below such percentiles. For these purposes, compensation included base pay, potential bonuses, and potential equity plan incentives.

The Committee received and considered information concerning the independence of the consultant. Following consideration of the Consultant's review and recommendations, the Committee adopted the changes to potential bonus and incentive award levels described below and in the Summary Compensation Table, but left base salary unchanged.

Effective February 20, 2014, the Compensation Committee selected performance goals and a range of possible incentives for the Company's 2014 Incentive Compensation Plan (the "2014 Plan"). Pursuant to the 2014 Plan, each executive officer had the opportunity to earn a Cash Incentive Award, a Primary Long-Term Incentive Award of restricted stock, and an award of restricted stock denominated as "Career Shares." The potential range of cash incentives and conditions to vesting of the restricted stock awards are described below.

For 2014, each executive officer also received customary retirement plan benefits and other customary employment benefits, as in prior years.

Salary for 2014. The base salaries for the executive officers were not adjusted during 2014. See the 2014 Summary Compensation Table for a tabular presentation of the amount of salary and other compensation elements paid in proportion to total compensation for each named executive officer.

Potential Incentive Awards. The CEO and all executive officers whose responsibilities primarily relate to corporate level administration had the opportunity to earn a cash payment ranging from 15% to no more than 105% of such executive's base salary (from 45% to 105% for the Chief Executive Officer and Chief Operating Officer, and from 30% to 90% for the Chief Financial Officer). Fifty percent of the amount of the potential award was based on achievement of specified levels of operating income from continuing operations for the Company's consolidated operating income, as adjusted for unusual items, 30% of the amount was based on achievement of specified levels of the Company's residential business operations, as adjusted for unusual items, and 20% of the amount was based on achievement of specified levels of the Company's commercial business operating income, as adjusted for unusual items.

Executive officers whose responsibilities primarily relate to one of the Company's business units, had the opportunity to earn a cash payment ranging from 15% to no more than 75% of such participant's base salary. Fifty five percent of the amount was based on achievement of specified levels of their annual business unit operating income, as adjusted for unusual items, 30% was based on the achievement of specified levels of the Company's consolidated operating income, as adjusted for unusual items, and 15% was based on achievement of specified levels of the annual operating income of the Company's other business units, as adjusted for unusual items.

The Compensation Committee retained the discretion to reduce any award by up to 30% of the amount otherwise earned based on the participant's failure to achieve individual performance goals set by the committee.

Primary Long-Term Incentive Share Awards and Career Shares Awards. The incentive plan provided for two possible awards of restricted stock: Primary Long-Term Incentive Share Awards and Career Share Awards. Receipt of the Primary Long-Term Incentive Share Awards and Career Share Awards were made contingent on the Company's achievement of minimum levels of adjusted operating income and, in the case of Career Share Awards, having a profitable operating income, as adjusted.

The Primary Long-Term Incentive Share Award was designed as a possible award of restricted shares, in value equal to no more than 35% of the executive's base salary as of the beginning of 2014 plus any cash incentive award paid for such year. Any Primary Long-Term Incentive Share Awards, if earned, vest ratably over three years.

Career Shares were designed as a possible award of restricted stock valued at 20% of each executive officer's base salary as of the beginning of the year, excluding the Company's Chief Operating Officer and Chief Financial Officer. The level of career share awards was increased to 35% and 30%, respectively, of the Chief Operating Officer's and Chief Financial Officer's base salary, with vesting of such awards occurring ratably over 5 years beginning on the participant's 61st birthday.

In accordance with past practice, any such award, if earned, would be granted in 2015. For participants over age 60, the Career Share Awards vest when the participant becomes (i) qualified to retire from the Company and (ii) has retained such shares for 24 months following the grant date. For the participants under age 60, shares vest ratably over five years beginning on such officer's 61st birthday.

Additionally, all Share Awards are subject to vesting or forfeiture under certain conditions as follows: death, disability or a change in control will result in immediate vesting of all Share Awards; termination without cause will also result in immediate vesting of all Share Awards; voluntary termination of employment prior to retirement, or termination for cause will result in forfeiture of all unvested awards; to the extent that the Company has recognized compensation expense related to the shares subject to the awards, such amounts vest at retirement age and are paid out by March 15 of the subsequent year.

2014 Incentive Awards. No cash Awards were made for 2014 for the named executive officers. No Primary Long-Term Incentive Share Awards were granted in 2015 with respect to 2014 for the named executive officers. Career Share Awards were granted in 2015 with respect to 2014 for the following named executive officers: Mr. Daniel K. Frierson - 13,572 shares, Mr. D. Kennedy Frierson, Jr. - 12,161 shares, Mr. Paul B. Comiskey - 6,515 shares, Mr. Jon A. Faulkner - 8,795 shares and Mr. V. Lee Martin - 4,995 shares.

The 2015 Incentive Compensation Plan. Following year-end, the Committee adopted an incentive plan for 2015 providing for possible cash incentive awards and restricted stock awards in the form of Long-Term Incentive Share Awards and Career Share awards, as in prior years. Any such awards, if earned, would be paid, in the case of the cash award, or granted, in the case of the restricted stock awards, in March 2016. In addition, the Committee approved three additional awards structured as retention grants of restricted stock. These awards are as follows: 100,000 shares to the Company's Chief Executive Officer, Daniel K. Frierson, and 10,000 and 20,000 shares to the Company's President Residential, Paul B. Comiskey. Each of the additional awards is subject to a Continued Service Condition. In the case of the award to the Chief Executive Officer, the award is subject to a Performance Condition. The awards are described in more detail in Proposal Two under the heading "Retention Awards for 2015". If shareholder approval is obtained, the award to the Company's Chief Executive Officer will be granted immediately following the annual meeting.

The Compensation Committee also revised and approved the material terms of the performance goals that would be applicable to the Annual Incentive Compensation Plan for 2015-2019. The Committee revised the material terms of the performance goals by: increasing the dollar amount of cash compensation that may be awarded to any one individual and to the group of eligible individuals as a whole, and by increasing the dollar value of equity awards that may be earned by any one individual and by the group of eligible individuals as a whole. The category of eligible individuals is unchanged, but the number of individuals is increased. The description of performance criteria from which the Compensation Committee may choose in structuring performance awards is restated to include all potential criteria available under the Amended 2006 Stock Awards Plan. Accordingly, the material terms of the performance goals as revised and restated are being submitted to the Company's shareholders for their approval. See "Proposal Two, To Consider and Approve the Material Terms of the Performance Goals of the Annual Incentive Compensation Plan applicable for 2015-2019".

Retirement Plans and Other Benefits. The Company's compensation for its executive officers also includes the opportunity to participate in two retirement plans, one qualified and one non-qualified for federal tax purposes, and certain health insurance, life insurance, relocation allowances, and other benefits. Such benefits are designed to be similar to the benefits available to other exempt, salaried associates of the Company, and to be comparable to and competitive with benefits offered by businesses with which the Company competes for executive talent.

Executive officers may elect to contribute a limited amount of their compensation to the qualified plan and make deferrals into the non-qualified plan (up to 90% of total compensation). Although the plans permit the Company to make discretionary contributions in an aggregate amount equal to up to 3% of the executive officer's cash compensation, for 2014 the Company made a contribution of 1% to the qualified plan, while no Company contributions were made to the non-qualified plan.

Compensation Considerations for 2014. The tax effect of possible forms of compensation on the Company and on the executive officers is a factor considered in determining types of compensation to be awarded. Similarly, the accounting treatment accorded various types of compensation may be an important factor used to determine the form of compensation. For 2014, the Committee considered the possible tax effects of cash incentives and equity incentive awards that may not qualify as "incentive compensation" under Section 162m of the Internal Revenue Code. The Company held its first "Say on Pay" vote at its annual meeting in 2014. At that meeting, in excess of 95% of the votes were cast "For" approval of our executive compensation as described in the Proxy Statement for that meeting. The Committee intends to consider these results as part of its ongoing review of executive compensation.

Termination Benefits. Upon a Participant's reaching retirement age, all Long-Term Incentive Plan and Career Share restricted stock awards vest to the extent such awards have been expensed in the Company's financial statements. As of year-end, Daniel K. Frierson, Paul B. Comiskey and V. Lee Martin were the only Named Executive Officers eligible for retirement in accordance with the terms of the restricted stock awards. If Mr. Frierson had retired at year end, the number of shares subject to such awards that would have vested and the value of such shares would have been 39,751 shares and \$356,562. If Mr. Comiskey had retired at year end, the number of shares subject to such awards that would have vested and the value of such shares would have been 17,723 shares and \$158,974. If Mr. Martin had retired at year end, the number of shares subject to such awards that would have vested and the value of such shares would have been 7,656 shares and \$68,678. For purposes of valuing the foregoing awards, the Company used the year-end market value of the Company's Common Stock, which was \$8.97/share.

No termination benefit was paid to or accrued for any executive officer named in the accompanying tables in the fiscal year ended December 27, 2014.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis, set forth above, with management.

Based on our review and the discussions we held with management, we have recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's Proxy Materials.

Respectfully submitted,

Lowry F. Kline, Chairman
Charles E. Brock
Walter W. Hubbard
John W. Murrey, III

EXECUTIVE COMPENSATION INFORMATION

The following table sets forth information as to all compensation earned during the fiscal years ended December 29, 2012, and December 28, 2013 and December 27, 2014 to (i) the Company's Chief Executive Officer; and (ii) the Company's Chief Financial Officer, and (iii) the three other most highly compensated executive officers who served as such during the fiscal year ended December 27, 2014 (the "Named Executive Officers"). For a more complete discussion of the elements of executive compensation, this information should be read in conjunction with the other tabular information presented in the balance of this section.

(1) The market value of the restricted stock set forth in the table has been calculated by multiplying the closing price of the Company's Common Stock at year-end (\$8.97/share) by the number of shares of unvested restricted stock subject to the award.

The Committee's consultant (identified above under Executive Compensation Information) also reviewed and recommended changes to the Company's independent director compensation. Following consideration of the review and recommendations, the Committee adopted changes to independent director compensation as set forth under the heading Director Compensation, below, including an increase in the annual compensation for all directors (to \$36 thousand from \$24 thousand) and an increase in the annual fee received by each committee chairman (to \$8 thousand), and eliminating the difference in fee for attendance at in person and telephonic meetings.

Set forth below is a table presenting compensation information with respect to all non-employee directors of the Company. Compensation information for the Company's Chief Executive Officer, Daniel K. Frierson, and the Company's Chief Operating Officer, D. Kennedy Frierson, Jr. is reported in the Summary Compensation Table appearing elsewhere in this Proxy Statement.

- (1) Directors who are employees of the Company do not receive any additional compensation for their services as members of the Board of Directors. Non-employee directors receive an annual retainer of \$36,000, payable \$18,000 in cash and the remainder in Performance Units (subject, for payments made in 2012, 2013 and 2014, to a \$5.00 minimum value per unit) under the Directors Stock Plan. In addition to the annual retainer, directors who are not employees of the Company received \$1,500 for each Board meeting attended and \$1,000 for each committee meeting attended. The Committee Chairman each receive an additional \$8,000 annual payment. Also, directors receive reimbursement of the expenses they incur in attending all board and committee meetings.
- (2) The value presented is the aggregate grant date fair value computed in accordance with FASB ASC Topic 718. The value of the Performance Units awarded to each non-employee director under the Directors Stock Plan in 2014 was \$18,000.

At fiscal year-end, each non-employee director held the following outstanding equity awards:

(1) The performance units represent an equal number of shares of the Company's Common Stock. At year-end, the aggregate value of such stock was \$ 980,950, determined by multiplying the number of performance units by the year-end per share market value of the Company's Common Stock (\$8.97/share).

(2) All such options are presently exercisable.

PROPOSAL TWO

TO CONSIDER AND APPROVE THE MATERIAL TERMS OF THE PERFORMANCE GOALS OF THE ANNUAL INCENTIVE COMPENSATION PLAN APPLICABLE TO 2015 - 2019.

The Company seeks generally to preserve its ability to claim tax deductions for compensation paid to its executive officers. Section 162(m) of the Internal Revenue Code (the code) sets limits on deductibility for compensation paid to (i) the Chief Executive Officer and (ii) the other most highly compensated executive officers whose compensation is reported in the Summary Compensation Table (covered employees). "Qualified performance based compensation", as defined in the Code, (which can include compensation from stock options, SARS, stock units, stock payments, cash awards and grants of restricted stock) is not subject to the applicable deductibility limits if certain conditions are met. One of the conditions is shareholder approval of the material terms of the performance goals under which compensation is paid.

On February 24, 2015, the Compensation Committee revised and approved the material terms of the Annual Incentive Compensation Plan applicable to 2015 - 2019. The material terms of the performance goals upon which awards may be based are being submitted to you for shareholder approval at the Annual Meeting, in order to allow awards granted under the plan to satisfy the requirements for "qualified performance-based compensation" under the Code, thereby allowing the company to take a federal income tax deduction for the related compensation expense notwithstanding the limitations of Section 162(m).

Material Terms of the Performance Goals

Under the plan, both cash incentive and stock based incentive awards may be granted. The material terms of the performance goals for such awards consist of: (i) the class of employees eligible to receive the awards (**eligible employees**); (ii) the performance criteria on which goals are based (**performance criteria**); and (iii) the maximum payout of an award that can be provided to any employee and to all covered employees under the plan during a specified period (**maximum payout**).

Eligible Employees

All Covered Employees (as defined under IRC Section 162(m) and any additional key executives chosen by the compensation committee are eligible to receive awards under the plan. This group currently consists of approximately 30 individuals.

Performance Criteria

The performance goals related to awards that may be paid to participants under the Plan include one or more of the following measures in the discretion of the Compensation Committee: minimum annual levels of profitability; minimum annual levels of corporate and/or business unit Operating Income, as adjusted for specific and unusual items; corporate and/or business unit earnings before interest (EBIT) or earnings before interest taxes, and depreciation, as adjusted (EBITDA); total shareholder return, return on capital, return on equity, pre-tax earnings, earnings growth, revenue growth, operating income, operating profit, earnings per share, and return on investment or working capital, any one or more of which may be measured with respect to the Company, or any one or more of its subsidiaries or business units, and either in absolute terms or as compared to another company or other companies. Maximum payouts for each category of awards are described below. For awards that may be earned for 2015, the Committee has chosen minimum annual levels of corporate and business unit Operating Income, as adjusted, with respect to the cash incentive and restricted stock awards denominated as Long-Term Incentive Plan Awards and Career Share Awards. The performance measure applicable to the retention award for the Chief Executive Officer is based on achieving a certain percentage increase in the Company's Operating Income, as Adjusted over the 2014 level.

Cash Incentive Awards

A cash incentive award component may be established for each participant in an amount expressed as a percentage of such participant's base salary as of the beginning of the applicable year. Such percentage or percentages may be set annually by the compensation Committee. For 2015, the percentage weight given to Operating Income achievement levels was set at 55%, 30% and 15%, respectively, for business unit, Company, and other business unit results, to determine the cash incentive for officers whose primary responsibility relates to one of the Company's business units.

For 2015, the Cash Incentive Award component is equal to a range of from 15% to a maximum of 105% of base salary as of the beginning of the year. Also for 2015, the percentage weight given to Operating Income achievement levels was set at 50%, 30% and 20%, respectively, for Company, residential, and contract business unit results to determine the cash incentive for the Chief Executive Officer and all other participants whose primary responsibility is at the corporate level.

Share Based Awards

The Compensation Committee may elect annually to establish awards of restricted stock, stock options, stock appreciation rights, performance units or other types of awards as are permitted under the Company's Amended 2006 Stock Awards Plan, to each participant, the value of which will be equal to a percentage of the sum of such participant's base salary at the beginning of the applicable year plus any cash incentive award paid for such year. The Committee shall determine such percentage annually. All such awards may be made contingent upon attainment of one or more of the performance goals listed above and as set annually by the Committee.

For 2015, the plan also provides that each participant may earn a restricted stock award consisting of Long-Term Incentive Shares and Career Shares. Vesting of the restricted share awards of Long-Term Incentive Shares and Career Shares is as follows: Any Primary Long-Term Incentive Share Awards, if earned, vest ratably over three years. Career Share Awards for the participants under age 60, shares vest ratably over five years beginning on such officer's 61st birthday. Additionally, all such awards are subject to vesting or forfeiture under certain conditions as follows: death, disability or a change in control will result in immediate vesting of all such awards; termination without cause will also result in immediate vesting of all such awards; voluntary termination of employment prior to retirement, or termination for cause will result in forfeiture of all unvested awards; upon reaching retirement age, awards vest to the extent that the Company has recognized compensation expense related to the shares subject to the awards.

Retention Awards for 2015

The retention grants of restricted stock were structured to incentivize the Company's Chief Executive Officer, Daniel K. Frierson, and the Company's President Residential, Paul B. Comiskey, to continue providing their services to the Company for the duration of the grants. Accordingly they are structured as cliff vesting awards, and are forfeitable in the event of voluntary retirement prior to the respective vesting terms of the grants. Mr. Comiskey's award was structured as two separate awards: one in the amount of 10,000 shares that vests in March 2017, and one in the amount of 20,000 shares that vests in March 2018. Mr. Comiskey's award vests upon death, disability or a change of control of the Company. Mr. Comiskey's award is granted effective March 2015

Mr. Frierson's award is structured as a 100,000 share award vesting in March, 2019. Vesting of Mr. Frierson's award is also subject to meeting a significant performance criteria, namely that the Company's cumulative Operating Income as Adjusted as of fiscal year end 2018 (or in the case of death, disability, change of control, or other involuntary termination without cause, the end of the most recent quarterly accounting period), must equal or exceed 440% of the Company's Operating Income as Adjusted as of fiscal year end 2014. Thus, Mr. Frierson's award is subject to both a Continued Service Condition and a Performance Condition. Mr. Frierson's award vests upon death, disability or a change of control of the Company only if the Performance Condition has been met as of the potential vesting date. In accordance with the requirements of IRS Code Section 162(m), payment or vesting of the retention share awards are subject to shareholder approval of the material terms of the performance goals as described more fully in this Proposal Two, To Consider And Approve The Material Terms Of The Performance Goals Of The Annual Incentive Compensation Plan Applicable To 2015-2019. Mr. Frierson's retention award will only be granted if shareholder approval of this Proposal Two is obtained, and will be granted effective May 2015.

Maximum Payout

The maximum annual Cash Incentive Award that could be paid to any one participant for 2015 - 2019 is \$750,000 and the maximum annual amount of cash awards that can be paid to all covered employees is \$3,000,000.

The maximum annual value of stock based awards that could be issued to any one participant would be \$1,650,000 or 330,000 shares and the maximum annual value of stock awards that could be issued to all covered employees would be \$3,750,000 or 750,000 shares using the \$5.00 per share minimum price provided by the plan.

General

The Compensation Committee has the authority to establish, review and certify achievement of the performance criteria and to administer and interpret the Incentive Compensation Plan. The plan also provides that the Committee may, in its discretion, reduce, but not increase, any participant's award (by an amount equal to up to 30% of such award) based on subjective criteria related to the individuals' performance during the year.

The Compensation Committee must review and certify achievement of any applicable performance and service criteria prior to any grant or payment of any award.

In accordance with past practice, determination of whether and to what extent awards under the plan applicable to 2015 will be granted, will be made by the Compensation Committee during the first quarter of 2016.

The affirmative vote of a majority of the total votes cast that are represented in person or by proxy at the Annual Meeting is necessary for approval of the material terms of the performance goals for the plan. Abstentions and broker non-votes will be treated as negative votes in determining whether a majority of the total votes cast has been obtained.

The Board of Directors recommends that the Company's shareholders vote FOR approval of the material terms of the Performance Goals of the Annual Incentive Compensation Plan applicable to 2015 - 2019.

PROPOSAL THREE

ADVISORY VOTE ON EXECUTIVE COMPENSATION

As required under recent amendments to the Securities Exchange Act of 1934, our stockholders may cast an advisory vote on the compensation of our Named Executive Officers, as described in this proxy statement.

Our executive compensation programs are designed to attract, motivate, and retain our Named Executive Officers, who are critical to our success. Please read the *Compensation Discussion and Analysis* for additional details about our executive compensation programs, including information about the fiscal 2014 compensation of our Named Executive Officers.

We are asking our Shareholders to indicate their approval of our Named Executive Officer compensation as described in this proxy statement. This proposal, commonly known as a “say-on-pay” proposal, gives our stockholders the opportunity to express their views on our Named Executive Officers’ compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executive Officers and the philosophy, policies and practices described in this proxy statement.

We recommend that stockholders vote, on an advisory basis, “FOR” the following resolution:

“RESOLVED, that the Company’s stockholders approve, on an advisory basis, the compensation of the Company’s named executive officers, as discussed and disclosed in the *Compensation Discussion and Analysis*, the executive compensation tables and related narrative executive compensation disclosure in this proxy statement.”

The above resolution will be deemed to be approved if it receives the affirmative vote of a majority of the total votes cast on Proposal Three at the annual meeting. Abstentions and broker non-votes are not considered to be votes cast and, accordingly, will have no effect on the outcome of the vote. As this vote is an advisory vote, the outcome is not binding on us with respect to future executive compensation decisions, including those relating to our named executive officers. Our Board of Directors and our Compensation Committee, however, value the opinions of our stockholders, and to the extent there is any significant vote against the Named Executive Officer compensation as disclosed in this proxy statement, the Compensation Committee will consider our stockholders’ concerns and will evaluate whether any actions are necessary to address those concerns.

The Board of Directors recommends a vote FOR the approval of Proposal Three.

PROPOSAL FOUR

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR 2015

The firm of Dixon Hughes Goodman LLP served as independent registered public accountants for the Company for fiscal year 2014. Subject to ratification of its decision by the Company’s shareholders, the Company has selected the firm of Dixon Hughes Goodman LLP to serve as its independent registered public accountants for its 2015 fiscal year. A representative of Dixon Hughes Goodman LLP is expected to be present at the Annual Meeting and will have the opportunity to make a statement if he so desires and to respond to appropriate questions from shareholders.

The Board of Directors recommends that you vote FOR Proposal Four.

In the event that the Company’s shareholders do not ratify the selection of Dixon Hughes Goodman LLP as independent registered public accountants for fiscal 2015, the Board of Directors will consider other alternatives, including appointment of another firm to serve as independent registered public accountants for fiscal 2015.

AUDIT FEES DISCUSSION

The following table sets forth the fees paid to Dixon Hughes Goodman, LLP and Ernst & Young, LLP for services provided during fiscal year 2013 and 2014:

	2014	2013
Audit related fees paid to Dixon Hughes Goodman LLP (1)	\$ 796,492	
Tax related fees paid to Dixon Hughes Goodman LLP	\$ 35,084	
All other fees paid to Dixon Hughes Goodman LLP (2)	\$ 47,594	
Audit related fees paid to Ernst & Young, LLP (3)		\$ 791,461
Total Audit Fees	\$ 879,170	\$ 791,461

- (1) Represents fees for professional services paid to Dixon Hughes Goodman, LLP provided in connection with the audit of the Company’s annual financial statements, and audit of the effectiveness of internal control over financial reporting during the 2014, review of the Company’s quarterly financial statements, review of other SEC filings and technical accounting issues. Amounts include \$77,679 related to the review of acquisitions by the Company in 2014.
- (2) Represents fees paid to Dixon Hughes Goodman, LLP in connection with the secondary stock offering by the Company in 2014.
- (3) Represents fees for professional services paid to Ernst & Young LLP provided in connection with the audit of the Company’s annual financial statements, and audit of the effectiveness of internal control over financial reporting during

the 2013, review of the Company's quarterly financial statements, review of other SEC filings and technical accounting issues. Amounts include \$70,032 related to the review of acquisitions by the Company in 2013.

It is the policy of the Audit Committee to pre-approve all services provided by its independent registered public accountants. In addition, the Audit Committee has granted the Chairman of the Audit Committee the power to pre-approve any services that the Committee, as a whole, could approve. None of the fees were approved by the Audit Committee pursuant to the de minimis exception of Reg S-X T Rule 2-01(c)(7)(i)(C).

SHAREHOLDER PROPOSALS FOR INCLUSION IN NEXT YEAR'S PROXY STATEMENT

In the event any shareholder wishes to present a proposal at the 2016 Annual Meeting of Shareholders, such proposal must be received by the Company on or before November 20, 2015, to be considered for inclusion in the Company's proxy materials. All shareholder proposals should be addressed to the Company at its principal executive offices, P.O. Box 25107, Chattanooga, Tennessee 37422-5107, Attention: Corporate Secretary, and must comply with the rules and regulations of the Securities and Exchange Commission.

COMMUNICATIONS WITH THE BOARD OF DIRECTORS

Shareholders who wish to communicate with members of the Board, including the independent directors individually or as a group, may send correspondence to them in care of the Secretary at the Company's corporate headquarters, 104 Nowlin Lane, Suite 101, Chattanooga, TN 37421.

ADDITIONAL INFORMATION

The entire cost of soliciting proxies will be borne by the Company. In addition to solicitation of proxies by mail, proxies may be solicited by the Company's directors, officers, and other employees by personal interview, telephone, and telegram. The persons making such solicitations will receive no additional compensation for such services. The Company also requests that brokerage houses and other custodians, nominees, and fiduciaries forward solicitation materials to the beneficial owners of the shares of Common Stock held of record by such persons and will pay such brokers and other fiduciaries all of their reasonable out-of-pocket expenses incurred in connection therewith.

OTHER MATTERS

As of the date of this Proxy Material, the Board does not intend to present, and has not been informed that any other person intends to present, any matter for action at the Annual Meeting other than those specifically referred to herein. If other matters should properly come before the Annual Meeting, it is intended that the holders of the proxies will vote in accordance with their best judgment.
