

LEADING GROWING FOCUSED DRIVEN

At DICK'S Sporting Goods, we are committed to creating value. Over the past six decades, we've demonstrated this by transforming DICK'S from a local bait-and-tackle shop into the largest and most profitable publicly held full-line sporting goods retailer in the nation. As we enter 2014, we are continuing to reward our customers, shareholders, employees and vendors with the exceptional value they've come to expect. We are leading our industry by maintaining a dominant market position. We are growing our operations by leveraging promising expansion opportunities. We are focused on continuing to deliver steady improvement in every area of our business. And we remain driven to deliver the superior financial and operational results our constituents deserve.

A MESSAGE TO OUR SHAREHOLDERS

It's often said that an angler dedicates his life to just two pursuits: fishing and thinking about fishing. Given our roots as a local bait-and-tackle shop, it's only natural that DICK'S pours this same depth of passion into our business. Day in and day out, we "live" our brand, plan for our future and drive relentless improvement in every area of our business—whether we are interacting with our customers, expanding our omni-channel platform, or exploring innovative ways to reach and serve today's athletes and outdoor enthusiasts.

BUILDING A SUCCESSFUL OMNI-CHANNEL NETWORK

- Opened 40 new DICK'S stores
- Began testing buy-online, pick-up in-store
- Lowered shipping costs by nearly 10% per unit
- Increased online conversion by over 30%
- Created dedicated eCommerce commercial for holiday
- Launched new tablet optimized site

ALL 558 STORES ENABLED FOR SHIP-FROM-STORE

Our continuous dedication has made DICK'S the largest and most profitable publicly held full-line sporting goods retailer in the nation with a powerful omni-channel platform that spans 558 DICK'S Sporting Goods stores and a rapidly growing eCommerce business. And, just like our company's earliest customers—die-hard anglers who spent the off-season sharpening hooks, organizing tackle boxes and scouting promising locations—we are continuously strategizing for the future.

Our forward-thinking approach is evident as we enter 2014: We are leading our industry by maintaining a dominant market position. We are growing our operations by pursuing attractive expansion opportunities. We are focused on continuous improvement in every area of our business. And we are driven to deliver superior financial and operational results, including growing our sales to \$10 billion and increasing our operating margin to 10.5 percent by the end of 2017.

During 2013, we developed a targeted strategy to achieve these goals, which centers on building our omni-channel platform, enhancing the shopping experience we offer to customers, implementing innovative marketing campaigns and developing our new Field & Stream specialty outdoor retail concept.

STAYING AHEAD OF THE CURVE

DICK'S has a long history of building our business through innovation. Over the years, we have formed strategic partnerships with leading vendors, launched exclusive brands, tested specialty retail concepts and executed distinctive marketing campaigns. These efforts have given us exceptional insight into the needs of our customers, while improving our value proposition and driving consumer awareness of our brand. We also embraced eCommerce early on, recognizing that it was a business we

needed to develop. Since then, our eCommerce business has gained significant traction, and today, it is a strong growth vehicle that complements our store network. Together, these two channels constitute a powerful omni-channel platform that gives DICK'S a clear competitive advantage.

Our omni-channel platform is central to our growth strategy, and we are continuing to rely on our strength as an innovator to shape it into a seamless distribution network that delivers a unique, high-quality shopping experience to every customer at every point of contact. This initiative includes building and developing both our eCommerce business and our store network, while finding new ways to capitalize on the synergies between these two channels.

On the eCommerce side, we are enhancing the customer experience by expanding our product assortment, creating value-added content, offering free shipping for most items, and adding new functions that make our site easier to use, such as improved search capabilities for smartphones and tablets. We are also continuing to roll out new capabilities that link our eCommerce platform with our store network, including ship-from-store, and buy-online, pick-up in-store, which efficiently connect our in-store inventory with online customer demand.

These measures have already helped us to capture a meaningful share of the online sporting goods market, which generates an estimated \$6 billion in annual sales and is growing rapidly¹. From 2009-2012, the online sporting goods market posted a compounded annual growth rate (CAGR) of 19 percent, while DICK'S eCommerce business generated a CAGR of 41 percent. During this same period, we increased our overall share of this market from 2.9 percent in 2009 to 4.9 percent in 2012¹. And while 2013 industry data is not yet available, our strong growth accelerated in 2013, with our eCommerce growing 65 percent to over \$480 million.

¹ Source: Internet Retailer 2013 edition. Market defined as Sporting Goods (\$2.9 billion in 2012) and relevant Apparel / Accessories retailers (\$3.1 billion in 2012) in the 2013 Internet Top 500.

We believe we have only scratched the surface of our eCommerce growth potential, and we are in the process of building the technology platform required to internally control this business by 2017, increasing its profitability and giving us the flexibility required to take it to the next level.

Our store network remains fundamental to the strength of our omni-channel platform. Industry research estimates that by 2017, consumers will spend nearly \$5 in physical stores for every \$1 they spend online², making our stores a key driver of sales and profitability. In addition, our own sales data shows that our stores fuel eCommerce growth by promoting brand awareness, encouraging customer loyalty across all channels, allowing fast and easy in-store exchanges, and enabling us to offer integrated capabilities like buy-online, pick-up in-store, which we are currently testing. We plan to expand our store network to include more than 800 locations by 2017, and we are pursuing this growth through a methodical expansion plan that draws on our proven real estate expertise to penetrate high-growth markets.

OUR OMNI-CHANNEL PLATFORM IS CENTRAL TO OUR GROWTH STRATEGY, AND WE ARE CONTINUING TO RELY ON OUR STRENGTH AS AN INNOVATOR TO SHAPE IT INTO A SEAMLESS DISTRIBUTION NETWORK THAT DELIVERS A UNIQUE, HIGH-QUALITY SHOPPING EXPERIENCE TO EVERY CUSTOMER AT EVERY POINT OF CONTACT.

We also have initiatives in place to ensure that we will continue to deliver a high-quality customer experience in our stores. This includes strategically reallocating floor space to devote more square footage to the growing, high-margin categories our customers want most, such as women's and youth apparel. We are also partnering with the industry's premier brands to offer a highly differentiated assortment that includes exclusive vendor shops and unique products. Finally, we are highlighting our assortment through compelling merchandise presentations that resonate with our target customers and reinforce DICK'S as a best-in-class brand.

Another facet of our growth strategy is to implement innovative marketing initiatives that elevate our brand, promote our omni-channel platform and enable us to connect with our customers at every point in the buying process. This starts with focused brand messaging that

inspires athletes and outdoor enthusiasts as they plan for their sporting goods needs, and it continues through all phases of the purchasing cycle, from delivering relevant and informative research materials, to providing guidance about our premium services. The cornerstone of our marketing program is our ScoreCard Rewards loyalty program. This program is a highly effective tool for building customer loyalty and gathering sales data, and we are committed to expanding and refining it in the years ahead.

The final component of our growth strategy is to develop our new Field & Stream specialty outdoor retail concept. Field & Stream brings us back to our roots in the core outdoor market of hunting, fishing and camping, which is estimated to generate \$34 billion in annual sales. This market posted a CAGR of approximately five percent between 2006-2011, and still remains highly fragmented, with the top five specialty retailers accounting for less than a third of annual sales³. With more than six decades of experience in serving outdoor enthusiasts, we are confident that DICK'S has the balance sheet, infrastructure, real estate skills and market expertise to capture a sizeable share of this market.

BUILDING MOMENTUM

During 2013, we made significant progress in executing our strategy. We strengthened our omni-channel network by making strategic investments in both our eCommerce capabilities and our store network. On the eCommerce front, we expanded ship-from-store, enriched the functionality of our desktop site and created a new site that is optimized for tablets. We improved the customer experience by expanding our assortments, introducing new selector tools and adding relevant content, including updated buying guides and more detailed product descriptions. And we continued to fuel our marketing engine by strengthening our analytics

STRATEGIES FOR PROFITABLE GROWTH

DELIVER A COMPELLING OMNI-CHANNEL SHOPPING EXPERIENCE BY:

- Expanding our store network
- Enriching our eCommerce merchandise assortment, content and capabilities
- Leveraging our store base by integrating our online presence with our stores
- Developing multi-faceted marketing campaigns that drive omni-channel loyalty

and tracking protocols, and applying the sales data generated by our ScoreCard Rewards loyalty program. These efforts fueled substantial growth, with our eCommerce business posting a 65 percent increase in sales as compared with 2012.

We also continued to invest in our store network. We opened 40 new stores, ending the year with a total of 558 DICK'S Sporting Goods stores in 46 states. We relocated one store and fully remodeled four others, expanding our selling floors and adding new features, such as our shared-service footwear concept. We completed 75 apparel remodels, which included refreshing select stores and incorporating vendor shops.

Finally, we opened our first two Field & Stream stores, which proved to be our most successful store openings ever in terms of both sales and customer turnout. This is an exciting growth opportunity, and we have laid the groundwork to open approximately eight additional Field & Stream stores in 2014 and a total of approximately 55 by 2017.

During the year, we also continued to reward our shareholders, returning capital through quarterly dividends, as well as through more than \$255 million in share repurchases, which we made under the five-year, up to \$1 billion share repurchase program that our Board authorized in 2013.

FULFILLING OUR VISION

At DICK'S, we come to work every day to fulfill a simple vision: To build leading brands that serve and inspire athletes and outdoor enthusiasts around the world to achieve their personal best. To create value for our shareholders through the relentless improvement of everything we do. And to make a lasting impact on our communities through sport. These goals drive our team forward, inspiring us to advance our leadership position, innovate new concepts for our customers and reward our shareholders with increasing value.

As we move into 2014, we are confident that we have the strengths required to continue our progress. We have a leading brand, a powerful omni-channel platform and excellent vendor relationships. We have a clear strategy that has already delivered results, and a strong and flexible balance sheet. Most important, we have a highly experienced management team, backed by talented and motivated associates who consistently work to make our corporate vision a reality.

Our associates are fundamental to our progress, and I'd like to thank them all for their hard work and dedication. I'd also like to thank our customers for their loyalty, and to express our gratitude to you—our shareholders—for your ongoing support of our vision and strategies. Rest assured that we are committed to rewarding your investment in DICK'S with continued growth and value.

Sincerely,

Edward W. Stack

LEVERAGING OUR OMNI-CHANNEL PLATFORM

ONLINE AND MOBILE ACCESS

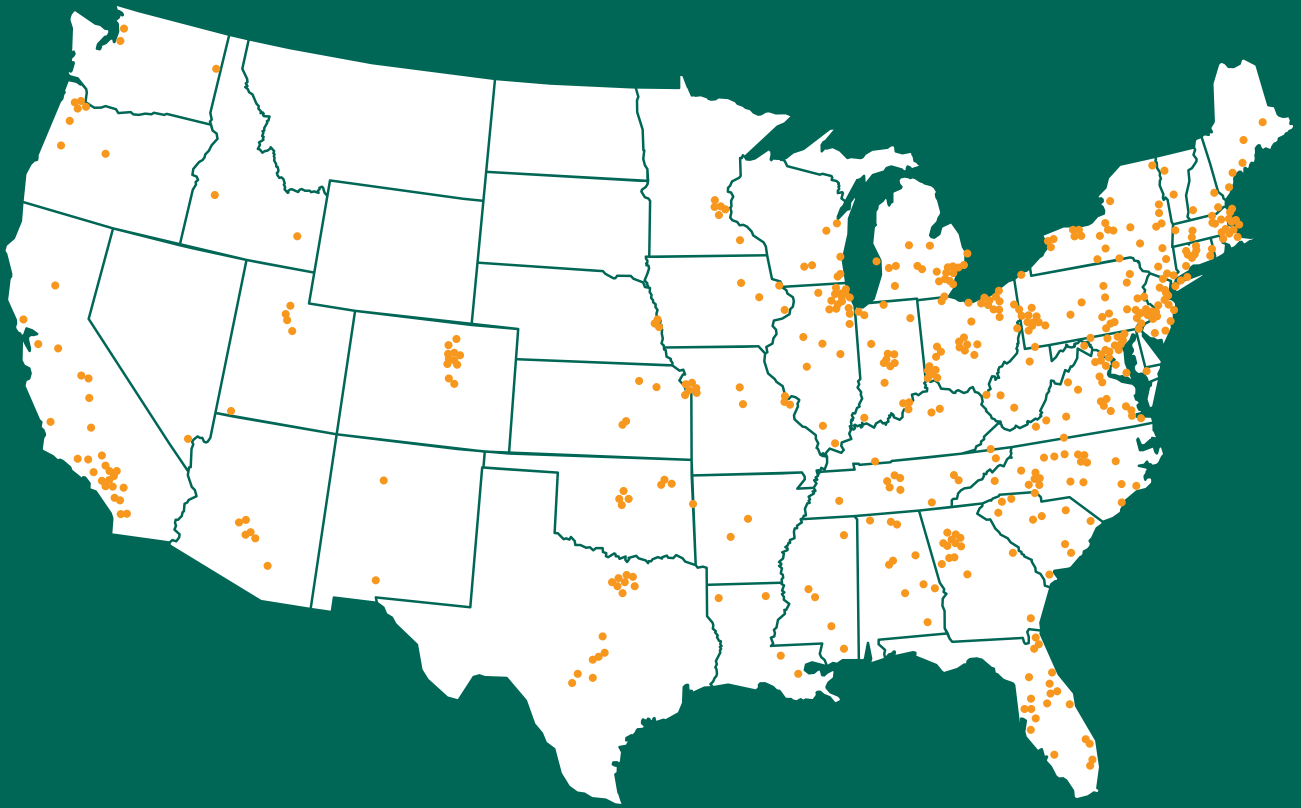

Our content-rich eCommerce site enables DICK'S customers to access our exceptional selection of products, sports expertise and value-added services whenever and wherever they want. We further leverage the power of our online channel through convenient mobile capabilities that make it fast and easy for customers on-the-go to shop, find a store and access ScoreCard Rewards benefits from a smartphone or tablet.

SYNERGISTIC CHANNELS

We optimize the synergies between our eCommerce business and our stores through innovative capabilities, including in-store kiosks that allow customers to order from our selling floors and have products shipped directly to their homes. We also link our eCommerce and store channels through functions that maximize our nationwide inventory and expedite shipping times, such as ship-from-store, which we rolled out in 2013, and buy-online, pick-up in-store, which we are currently testing.

OUR GOAL IS TO DELIVER A **CONSISTENT, SEAMLESS AND HIGH-QUALITY** SHOPPING EXPERIENCE TO EVERY CUSTOMER ACROSS EVERY POINT OF CONTACT.

NATIONWIDE STORE NETWORK

Our store network includes 558 DICK'S stores across the nation—each of which is a comprehensive sporting goods destination where athletes and outdoor enthusiasts can get authentic products, expert guidance and professional services across every sport, in every season of the year. Our unique retail concept unites several sports specialty stores under one roof, enabling us to combine the premium services and exclusive amenities of a specialty store with the scale advantages of a national chain.

THE LODGE

Since our inception as a local bait-and-tackle shop more than six decades ago, DICK'S has become a national leader in the outdoor sporting goods market. Today, we carry authentic gear for virtually every outdoor pursuit, including a wide array of merchandise from leading national brands, like Remington, Shimano, St. Croix, Under Armour, Diamondback and Old Town Canoes & Kayaks, as well as a growing selection of exclusive products from our own Field & Stream outdoor brand. Our product line-up strikes a thoughtful balance between outdoor basics, such as fishing rods, kayaks and tents, and innovative products, like underwater cameras, solar radios

and portable water filtration systems. In every category, we stock a carefully structured merchandise assortment that enables us to meet the budget and skill requirements of a wide range of outdoor customers—from occasional participants to committed enthusiasts. But stocking the right products is just the beginning. We also offer a selection of in-store amenities, such as an archery range for testing potential purchases and a menu of specialized equipment services to keep outdoor gear in peak condition, including mounting rifle-scopes, spooling lines and cutting arrow heads.

FITNESS

Fitness is all about individual drive—setting personal goals and then doing whatever it takes to achieve them. At DICK'S, our personal goal is to offer a complete fitness destination with access to high-quality equipment, apparel, training devices and nutritional supplements, as well as value-added services. We meet this goal by carrying an extensive range of merchandise for functional training, aerobic, cardio and strength training, as well as yoga, Pilates, boxing and mixed martial arts. We feature the fitness industry's leading brands, including Everlast, Skilz,

Sole and Rage, alongside our own Fitness Gear and Fitness Gear Pro lines. Many of our Fitness areas house dedicated cycle shops, which stock bicycles, accessories and riding apparel from leading manufacturers, including Diamondback, Yakima, Pearl Izumi, Giro, Bell and our private Nishiki brand. Our cycle shops also offer a full range of services, including custom fittings, safety inspections, repairs, tune-ups and assembly, all provided by our team of Certified Bike Technicians.

TEAM SPORTS

Effective teams are founded on the ideal that every team member must contribute 100 percent effort, every day. Our Team Sports store is founded on this same ideal, and we work tirelessly to deliver excellence on all fronts—from carrying great merchandise, to providing value-added services, to featuring trusted national brands, including Nike, adidas, Under Armour, Mizuno, Wilson, Easton, Rawlings, STX, Warrior, Marucci and Evo Shield. We also employ specially trained sales associates who are well versed in navigating our extensive

inventory and guiding our customers to the right products for every age, skill level and budget. And because our team sports customers tend to train for and compete in their sports year round, we stock the equipment and apparel they need for every sport in every season. We do our part for these organizations by donating equipment to area coaches, offering special league discounts, hosting player registrations for local teams and staging instructional clinics.

GOLF GALAXY

Golf Galaxy delivers the ultimate golf specialty retail experience by offering a world-class selection of equipment from the industry's premier manufacturers, along with tour-grade services and on-site access to highly knowledgeable sales associates, including a team of PGA and LPGA pros. In 2013, we opened one new Golf Galaxy store and repositioned one existing store, both in a new, larger store format that includes hitting bays, driving ranges with launch monitors, a large putting green, PGA lesson certification centers and a platinum club fitting area. We also continued to develop our Golf Galaxy eCommerce site, setting the stage to bring the management of this site in-house in 2014. This measure will enable us to offer an enhanced omni-channel experience with access to value-added capabilities, such as ship-from-store and in-store pickup.

FIELD & STREAM™
1871

Our Field & Stream specialty outdoor concept focuses on the core hunting, fishing and camping market, drawing on our decades of experience in this area, as well as our established relationships with key vendors, including Hoyt, Sitka, Beretta, Browning, Wilderness Systems and Yeti. In addition to offering authentic, high-quality products, our Field & Stream stores feature in-store specialty shops dedicated to archery, hunting and tackle, which offer outdoor enthusiasts a broad range of professional-grade equipment services, from arrow cutting to line spooling. We believe Field & Stream is a powerful growth vehicle, and we plan to expand our network from the two stores that we opened in 2013 to approximately 55 Field & Stream stores by 2017.

GIVING BACK TO THE COMMUNITIES WE SERVE

At DICK'S, we believe that meaningful brands should do meaningful things. For us that effort starts with a mission we are passionate about—promoting youth sports within the community.

DICK'S Sporting Goods makes a lasting impact in our communities by supporting programs that inspire and enable sports participation. We believe that sports contribute to a better world and that people who take part in sports will learn essential life skills such as leadership, discipline and integrity. DICK'S Sporting Goods believes that people who participate in sports understand the importance of building healthy relationships and are better citizens of the world. The DICK'S Sporting Goods Community Program proudly supports leagues, teams, athletes and outdoor enthusiasts. We support thousands of youth sports and outdoor recreation organizations in communities surrounding our stores.

In early 2014, DICK'S Sporting Goods and the DICK'S Sporting Goods Foundation announced a multi-year commitment to support youth athletic programs including donations to local sports teams and the launch of the DICK'S Sporting Goods Foundation's "Sports Matter" initiative. The Sports Matter program aims to address the growing issue of underfunded youth athletics nationwide, through an extensive public awareness campaign and a new proprietary crowd-funding platform. Through the program, the DICK'S Sporting Goods Foundation will match community donations to award up to \$2 million in grants to disbanded or financially challenged youth sports teams.

Our deep commitment to corporate responsibility carries through in our other philanthropic initiatives, including our role as a corporate partner in the St. Jude Children's Research Hospital Thanks and Giving Campaign.

Forward-Looking Statements

We caution that any forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) contained in this Annual Report on Form 10-K or made by our management involve risks and uncertainties and are subject to change based on various important factors, many of which may be beyond our control. Accordingly, our future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements. Investors should not place undue reliance on forward-looking statements as a prediction of actual results. These statements can be identified as those that may predict, forecast, indicate or imply future results, performance or advancements and by forward-looking words such as "*believe*", "*anticipate*", "*expect*", "*estimate*", "*predict*", "*intend*", "*plan*", "*project*", "*goal*", "*will*", "*will be*", "*will continue*", "*will result*", "*could*", "*may*", "*might*" or any variations of such words or other words with similar meanings. Forward-looking statements address, among other things, our expectations, our growth strategies, including our plans to open new stores, our efforts to increase profit margins and return on invested capital, plans to grow our private brand business, projections of our future profitability, results of operations, capital expenditures, plans to return capital to stockholders through dividends or share repurchases, our financial condition or other "forward-looking" information and include statements about revenues, earnings, spending, margins, costs, liquidity, store openings, eCommerce, operations, inventory, private brand products or our actions, plans or strategies.

The following factors, among others, in some cases have affected and in the future could affect our financial performance and actual results, and could cause actual results for fiscal 2014 and beyond to differ materially from those expressed or implied in any forward-looking statements included in this Annual Report on Form 10-K or otherwise made by our management:

- Our business is dependent on the general economic conditions in our markets and the ongoing economic and financial uncertainties may cause a decline in consumer spending;
- Intense competition in the sporting goods industry;
- Our ability to predict or effectively react to changes in consumer demand or shopping patterns;
- Lack of available retail store sites on terms acceptable to us, rising real estate prices and other costs and risks relating to our stores, or our inability to open new stores;
- Unauthorized disclosure of sensitive or confidential customer information;
- Risks associated with our private brand offerings, including product recalls and protection of proprietary rights;
- Our ability to access adequate capital to operate and expand our business and to respond to changing business and economic conditions;
- Risks and costs relating to changing laws and regulations affecting our business, including: consumer products; product liability; product recalls; and the regulation of and other hazards associated with certain products we sell, such as firearms and ammunition;
- Disruptions in our or our vendors' supply chain that could be caused by foreign trade issues, currency exchange rate fluctuations, increasing prices for raw materials and foreign political instability;
- Litigation risks for which we may not have sufficient insurance or other coverage, including risks relating to the sale of firearms and ammunition;
- Our relationships with our vendors, including: potential increases in the costs of their products and our ability to pass those cost increases on to our customers; their ability to maintain their inventory and production levels; and their ability or willingness to provide us with sufficient quantities of products at acceptable prices;
- The loss of our key executives, especially Edward W. Stack, our Chairman and Chief Executive Officer;
- Our ability to secure and protect our trademarks and other intellectual property and defend claims of intellectual property infringement;
- Disruption of or other problems with the services provided by our primary eCommerce services provider;

- Disruption of or other problems with our information systems;
- Any serious disruption at our distribution facilities;
- Performance of professional sports teams, professional team lockouts or strikes or retirement or scandal involving sports superstars;
- The seasonality of our business;
- Regional risks because our stores are generally concentrated in the eastern half of the United States;
- Our pursuit of strategic investments or acquisitions, including costs and uncertainties associated with combining businesses and/or assimilating acquired companies;
- Our ability to meet our labor needs;
- We are controlled by our Chairman and Chief Executive Officer and his relatives, whose interests may differ from those of our other stockholders;
- Our current anti-takeover provisions, which could prevent or delay a change in control of the Company;
- Our current intention to issue quarterly cash dividends; and
- Our repurchase activity, if any, pursuant to our share repurchase program.

The foregoing and additional risk factors are described in more detail herein under Item 1A. "Risk Factors". In addition, we operate in a highly competitive and rapidly changing environment; therefore, new risk factors can arise, and it is not possible for management to predict all such risk factors, nor to assess the impact of all such risk factors on our business or the extent to which any individual risk factor, or combination of risk factors, may cause results to differ materially from those contained in any forward-looking statement. The forward-looking statements included in this Annual Report on Form 10-K are made as of this date. We do not assume any obligation and do not intend to update or revise any forward-looking statements whether as a result of new information, future developments or otherwise except as may be required by the securities laws.

PART I

ITEM 1. BUSINESS

General

Dick's Sporting Goods, Inc. (referred to as the "Company" or in the first person notations "we", "us" and "our" unless specified otherwise) is an authentic full-line sports and fitness specialty omni-channel retailer offering a broad assortment of high quality, competitively-priced brand name sporting goods equipment, apparel and footwear in a specialty store environment. The Company also owns and operates Golf Galaxy, LLC, a golf specialty retailer ("Golf Galaxy"). The Company was founded in 1948 when Richard "Dick" Stack, the father of Edward W. Stack, our Chairman and Chief Executive Officer, opened his original bait and tackle store in Binghamton, New York. Edward W. Stack joined his father's business full-time in 1977 and in 1984 became President and Chief Executive Officer of the then two store chain. Our vision is to build leading brands that serve and inspire athletes and outdoor enthusiasts around the world to achieve their personal best; create value for our shareholders through the relentless improvement of everything we do; and make a lasting impact in our communities through sport.

We were incorporated in 1948 in New York under the name Dick's Clothing and Sporting Goods, Inc. In November 1997, we reincorporated as a Delaware corporation and in April 1999 we changed our name to Dick's Sporting Goods, Inc. Our executive office is located at 345 Court Street, Coraopolis, Pennsylvania 15108 and our phone number is (724) 273-3400. Our website is located at www.DicksSportingGoods.com. The information on our website does not constitute a part of this Annual Report on Form 10-K. We include on our website, free of charge, copies of our Annual and Quarterly Reports filed on Forms 10-K and 10-Q, Current Reports on Form 8-K and amendments to those reports filed or furnished pursuant to the Securities Exchange Act of 1934, as amended.

As of February 1, 2014, the Company operated 558 Dick's Sporting Goods stores in 46 states and 79 Golf Galaxy stores in 29 states and eCommerce websites for Dick's Sporting Goods and Golf Galaxy. The Company also operated two Field & Stream stores in two states and three True Runner stores in three states as of February 1, 2014.

Business Strategy

The key elements of our business strategy are:

Authentic Sporting Goods Retailer. Our history and core foundation is as a retailer of high-quality authentic athletic equipment, apparel and footwear, intended to enhance our customers' performance and enjoyment of athletic pursuits, rather than focusing our merchandise selection on the latest fashion trend or style. We believe our customers seek genuine, deep product offerings, and ultimately this merchandising approach positions us with advantages in the market, which we believe will continue to benefit from new product offerings with enhanced technological features.

Omni-channel Development. We believe our customers connect with the Dick's Sporting Goods brand and they expect a seamless shopping experience, regardless of the manner in which they choose to shop us. We continue to see growth in the number of customers who shop us both online and in our stores and believe these omni-channel customers represent the future of retail.

Our customers may research products online, then visit a store to experience the merchandise and consult with one of our in-store experts, such as a PGA golf professional, certified fitness trainer or bicycle mechanic. Other customers may be inspired by one of our digital advertisements on their mobile device, visit our store to test the merchandise by utilizing such features as the golf hitting bay, archery lane or trying a pair of running shoes on the treadmill and complete the purchase in the store or later on their tablet device.

We believe that leveraging all of our sales channels to deliver a consistent, seamless and high-quality customer experience across our store, on the web and via mobile technology, will differentiate us from our online-only competitors. As a result, we are upgrading website functionality, expanding assortment and content and investing in new capabilities to maximize device shift and leverage our store network to provide customers with an enhanced shopping experience that will enable our customers to buy and receive products where, when and how they want. We are also planning the development of an internal eCommerce platform that will allow us to fully control our customer experience and maximize profitability, while continuing store growth. We believe our store base is a competitive advantage to our online-only competitors, as our physical presence allows us to better serve our customers, whether through the convenience of accepting in-store returns or exchanges, or expediting fulfillment of eCommerce orders.

The primary factors that have historically influenced our profitability and success have been the growth in our number of stores and selling square footage, positive same store sales and our strong gross profit margins. We have grown from 398 Dick's Sporting Goods stores at the end of fiscal 2008 to 558 Dick's Sporting Goods stores at the end of fiscal 2013. We seek to expand our presence through opening of new stores and have the potential to reach approximately 1,100 Dick's Sporting Goods locations, including smaller-market locations across the United States.

We also make continued investments in our store locations in order to maintain our brand standards and improve our customers' shopping experience, such as our shared service footwear models, which have generated higher same store sales and sales per transaction than our full-service model. The Company had 218 and 174 shared service footwear models at the end of fiscal 2013 and 2012, respectively.

Brand Partnerships. We carry a wide variety of well-known brands, including adidas, Asics, Callaway Golf, Columbia, Nike, Remington, TaylorMade-adidas Golf, The North Face and Under Armour. In addition to the cost efficiencies of shared investments with our brand partners, we seek to leverage our partnerships to offer authenticity and credibility to our customers, while differentiating ourselves from our competitors. We partner with our brands on important marketing initiatives and product launches, in addition to leveraging athletes that these brands bring to us for our marketing campaigns. Our brand partnerships also provide us with access to exclusive products and allow us to collaboratively develop enhancements that differentiate our customers' shopping experience, such as our brand shops, which provide our customers with a wider and deeper selection of products from our key brands and co-branded microsites to enhance our customers' online experience.

The following table represents the Company's strategic brand shops for the periods presented:

| Brand Shops | Fiscal Year | |
|--------------------|--------------------|-------------|
| | 2013 | 2012 |
| Nike | 285 | 171 |
| Under Armour | 238 | 107 |
| The North Face | 90 | 91 |

Private Brands. We also offer a wide variety of private brands and products through exclusive licenses such as adidas baseball, DBX, Field & Stream, Fitness Gear, Maxfli, Nickent, Nishiki, Primed, Quest, Reebok (performance apparel), Slazenger (golf and racquets), Top-Flite, Umbro (performance equipment, footwear and apparel) and Walter Hagen. Our private brands and other exclusive products offer our customers products that they cannot find anywhere else. Our private brands also offer exceptional value and quality to our customers at each price point and obtain higher gross margins than we obtain on sales of comparable branded products. Our private brands are designed and developed to offer our customers differentiated assortments from our competitors. We have invested in a development and procurement staff that continually sources products targeted specifically to our customers' needs.

Retail Concept Development. In fiscal 2013, we opened two Field & Stream stores, a specialized outdoor concept, and one True Runner store, a specialized footwear concept. In fiscal 2014, we plan to open approximately eight additional Field & Stream locations. Our highly specialized concept stores enable us to connect with dedicated athletes and outdoor enthusiasts in their own element, giving us valuable insight into key merchandise categories that we can apply across our entire network. We also opened one new and relocated one Golf Galaxy store in fiscal 2013, based on our enhanced prototype, which delivers an innovative and highly interactive shopping experience. In fiscal 2014, we plan to open one new and relocate two Golf Galaxy stores based on the new prototype.

Strategic Marketing. Our historical marketing strategy was designed to promote our selection of brand name products at competitive prices and consisted largely of newspaper advertising supplemented by direct mail and seasonal use of local and national television and radio. While we continue to market our merchandise assortment through traditional channels, we have reduced our newspaper advertising and developed brand-building marketing campaigns focused on building passion and loyalty to the Dick's Sporting Goods brand. Additionally, we have shifted our advertising mix to include more digital marketing, including an increase in digital platforms as well as digital exclusive marketing campaigns.

Merchandising

We offer a full range of sporting goods and active apparel at each price point in order to appeal to the beginner, intermediate and enthusiast sports consumer. The merchandise we carry includes one or more of the leading manufacturers in each category and includes well-known brands such as adidas, Asics, Callaway Golf, Columbia, Nike, Remington, TaylorMade-adidas Golf, The North Face and Under Armour. Our merchandise also includes our private brands described above. Our objective is not only to carry leading brands, but to carry a full range of products within each brand, including premium items for the sports enthusiast.

We believe that the breadth of our product selections in each category of sporting goods offers our customers a wide range of good, better and best price points and enables us to address the needs of sporting goods consumers, from the beginner to the sports enthusiast, which distinguishes us from other large format sporting goods stores. We also believe that the range of merchandise we offer allows us to compete effectively against all of our competitors, from traditional independent sporting goods stores and specialty shops to other large format sporting goods stores and mass merchant discount retailers to internet-based retailers.

The following table sets forth the approximate percentage of our sales attributable to the hardlines, apparel and footwear categories for the periods presented:

| Category | Fiscal Year | | |
|--------------------------|-------------|------|------|
| | 2013 | 2012 | 2011 |
| Hardlines ⁽¹⁾ | 49% | 50% | 51% |
| Apparel | 30% | 29% | 29% |
| Footwear | 20% | 20% | 19% |
| Other ⁽²⁾ | 1% | 1% | 1% |
| Total | 100% | 100% | 100% |

(1) Includes items such as sporting goods equipment, fitness equipment, golf equipment and hunting and fishing gear.

(2) Includes the Company's non-merchandise sales categories, including in-store services and shipping revenues.

Selling Channels

We offer products to our customers through our retail stores and our eCommerce operations. Although we sell through both of these channels, we believe that sales in one channel are not independent of the other. Regardless of the sales channel, we seek to provide our customers with a seamless omni-channel shopping experience in our stores, online and via mobile devices.

Retail Stores:

Store Format. Each of our Dick's Sporting Goods stores unites several sports specialty stores under one roof and typically contains the following specialty stores: Footwear, Team Sports, Outdoor Lodge, Golf, Fitness and Athletic Apparel. We believe our "store-within-a-store" concept creates a unique shopping environment by combining the convenience, broad assortment and competitive prices of large format stores with the brand names, deep product selection and customer service of a specialty store. Our Golf Galaxy stores are designed to create an exciting and interactive shopping environment for the golf enthusiast that highlights our extensive product assortments and value-added services.

Our primary prototype Dick's Sporting Goods store is a single-level store of approximately 50,000 square feet. We also have a prototype two-level store of approximately 80,000 square feet for those trade areas that have sufficient in-profile customers to support it as well as a smaller-market model that is approximately 35,000 to 40,000 square feet. Our primary prototype Golf Galaxy store is a single-level store that generally ranges from 13,000 to 18,000 square feet. In addition, we also have a prototype Golf Galaxy store of approximately 35,000 square feet, which includes more services and experiential shopping. In our Dick's Sporting Goods stores, approximately 83% of store space is used for selling and approximately 17% is used for backroom storage of merchandise, receiving and office space.

We seek to encourage cross-selling and impulse buying through the layout of our departments. We provide a bright, open shopping environment through the use of glass, lights and lower shelving that enable customers to see the array of merchandise offered throughout our stores. We avoid the warehouse store look featured by some of our large format competitors.

Store Associates and Operations. We strive to complement our merchandise selection and innovative store design with superior customer service. We seek to recruit sports enthusiasts to serve as sales associates because we believe that they are more knowledgeable and passionate about the products they sell. For example, we currently employ PGA and LPGA golf professionals to work in our Dick's Sporting Goods golf departments and Golf Galaxy stores, bicycle mechanics to sell and service bicycles and certified fitness trainers to provide advice on the best fitness equipment for our customers. As of February 1, 2014, we employed 593 PGA and LPGA professionals in our Dick's Sporting Goods golf departments and Golf Galaxy stores. As of February 1, 2014, we also employed 679 bike mechanics and 490 certified fitness trainers. We believe that our associates' enthusiasm and ability to demonstrate and explain the advantages of the products lead to increased sales. We believe our prompt, knowledgeable and enthusiastic service fosters the confidence and loyalty of our customers and differentiates us from other large format sporting goods stores.

Our Dick's Sporting Goods stores are typically open seven days a week, generally from 9:00 a.m. to 9:30 p.m. Monday through Saturday and 10:00 a.m. to 7:00 p.m. on Sunday. Our Golf Galaxy stores are typically open seven days a week, generally from 10:00 a.m. to 9:00 p.m. Monday through Saturday and 10:00 a.m. to 6:00 p.m. on Sunday.

Support Services. We believe that offering support services for the products we sell enhances the credibility of our associates and specialty store concepts with our customers and further differentiates our stores from other large format sporting goods stores. At our Dick's Sporting Goods stores and Golf Galaxy stores, we offer a complete range of expert golf services, including custom club fitting, club repair and grip and shaft installation for drivers, irons and putters, and we also have certified club technicians on hand. We offer private lessons with our PGA and LPGA professionals in our Golf Galaxy Stores. Our Dick's Sporting Goods stores also feature bicycle maintenance and repair stations on the sales floor that allow our bicycle mechanics to service bicycles in addition to assisting customers. At our Dick's Sporting Goods stores, we also steam baseball gloves, string tennis racquets and lacrosse sticks, sharpen ice skates, provide home delivery and assembly of fitness equipment, provide scope mounting and bore sighting services, cut arrows, sell hunting and fishing licenses and fill CO₂ tanks for paintball.

Site Selection and Store Expansion. We select geographic markets and store sites based on a variety of factors, including demographic information, quality and nature of neighboring tenants, store visibility and accessibility. Key demographics include population density, household income, age and average number of occupants per household. In addition to these demographics, golf participation rates are considered in selecting sites for our Golf Galaxy stores. We seek to locate our Dick's Sporting Goods stores in primary retail centers with an emphasis on co-tenants, including major discount retailers such as Wal-Mart or Target, or specialty retailers from other categories such as Lowe's or Staples.

We seek to balance our expansion of Dick's Sporting Goods stores between new and existing markets. In our existing markets, we add stores as necessary to cover appropriate trade areas. Clustering stores allows us to take advantage of economies of scale in advertising, promotion, distribution and supervisory costs. We seek to locate stores within separate trade areas within each metropolitan area and expand in geographically contiguous areas, in order to establish long-term market penetration and build on our experience in the same or nearby regions. We believe that local knowledge is an important part of success. In considering new regions, we locate our stores in areas we believe are underserved. In addition to larger metropolitan areas, we also target smaller population centers in which we locate single stores, generally in regional shopping centers with a wide regional draw.

The following table summarizes store openings and closings for 2013 and 2012:

| | Fiscal 2013 | | | Fiscal 2012 | | |
|---------------------|-----------------------|---|-------|-----------------------|---|-------|

⁽¹⁾ Includes the Company's Field & Stream and True Runner stores. As of February 1, 2014, the Company operated two Field & Stream stores and three True Runner stores.

Future openings will depend upon several factors, including but not limited to general economic conditions, consumer confidence in the economy, unemployment trends, interest rates and inflation, the availability of retail store sites on acceptable terms, real estate prices and the availability of adequate capital. Because our new store openings depend on many factors, they are subject to risks and uncertainties as described below within Item 1A. "Risks Factors".

eCommerce:

Through our Dick's Sporting Goods and Golf Galaxy websites, we seek to provide our customers with in-depth product knowledge and the ability to shop with us at any time. We continue to develop our online content and capabilities to enhance the online experience and fully integrate our online business with our stores to provide our customers with an omni-channel shopping experience. Currently, we have return-to-store capabilities for online orders, the ability to place online orders in our stores if we are out of stock in the retail store and the ability to ship orders placed online from our retail locations, which reduces delivery times for online orders and improves inventory productivity. We have recently added capability for our customers to buy merchandise online and pick it up in store. In fiscal 2013, our eCommerce business accounted for approximately 8% of our total sales.

Marketing and Advertising

Our marketing program is designed to build loyalty for the Dick's Sporting Goods brand while promoting our broad assortment of brand name sporting goods equipment, apparel and footwear in a specialty store environment.

Our media plan is primarily comprised of television, direct mail, digital and print. In fiscal 2013, we continued to place special emphasis on growing the Dick's Sporting Goods brand through fully integrated campaigns across all media types. We continue to optimize our media mix by shifting to more efficient and effective marketing channels and by leveraging extensive customer relationship marketing data from our growing "ScoreCard Rewards" and "Advantage Club" loyalty programs. The Company is also actively involved in communities, sponsoring thousands of teams at the local level.

Information Systems

Our core merchandising, allocation and replenishment systems are from JDA Software Group, Inc. ("JDA"). The data generated by these systems are consolidated into a comprehensive data warehouse application that was purpose-built to provide near real-time performance information across a broad spectrum of critical metrics for our business. All functions of the business have access to highly accurate and consistent information related to the various components of sales, inventory and margin from department to SKU level.

Our end-to-end supply chain management suite of software applications is from Manhattan Associates and operates our four distribution centers from the central computing complex in our corporate headquarters, which we refer to as the Store Support Center ("SSC"). The Company's Financial and Human Resource Management systems are PeopleSoft applications provided by Oracle. All third party applications are integrated and enhanced using state-of-the-art software tools and techniques developed internally.

The enterprise data center located within our SSC is equipped with mainframe and mid-range computers and storage systems from IBM, integrated with voice and data networking communication equipment from Cisco. This facility has been built to support the future growth of the Company. The Company has also established a separate data center to serve as the Company's disaster recovery redundancy location.

Purchasing and Distribution

We purchase merchandise from approximately 1,400 vendors. During fiscal 2013, Nike and Under Armour, our largest vendors, represented approximately 18% and 11%, respectively, of our merchandise purchases. No other vendor represented 10% or more of our fiscal 2013 merchandise purchases. We do not have long-term purchase contracts with any of our vendors and all of our purchases from vendors are made on a short-term purchase order basis.

We operate four regional distribution centers: a 725,000 square foot distribution center in Plainfield, Indiana, a 657,000 square foot distribution center near Atlanta, Georgia, which will be expanded by 257,000 square feet during fiscal 2014, a 601,000 square foot distribution center in Smithton, Pennsylvania and a 624,000 square foot distribution center in Goodyear, Arizona. Vendors directly ship floor ready merchandise to our distribution centers, where it is processed and allocated directly to our stores or to temporary storage at our distribution centers. Our distribution centers are responsible for consolidating damaged or defective merchandise from our stores that is being returned to vendors. We have contracted with common carriers to deliver merchandise from all of our distribution centers to our stores.

Competition

The market for sporting goods retailers is highly fragmented and intensely competitive. The retail sporting goods industry comprises five principal categories:

- Large Format Sporting Goods Stores and Chains;
- Traditional Sporting Goods Stores and Chains;
- Specialty and Vendor Stores;
- Mass Merchants and Department Stores; and
- Internet and Catalog-Based Retailers.

Large Format Sporting Goods Stores

The large format stores generally range from 20,000 to 100,000 square feet and offer a broad selection of sporting goods merchandise. We believe that our strong performance with the large format store in recent years is due in part to our unique approach in blending the best attributes of a large format store with the best attributes of a specialty shop.

Traditional Sporting Goods Stores

These stores generally range from 5,000 to 20,000 square feet and are frequently located in regional malls and multi-store shopping centers. Although they typically carry a varied assortment of merchandise, these stores offer a more limited product assortment than our stores. We believe these stores do not cater to the sports enthusiast.

Specialty and Vendor Stores

These stores generally range from 2,000 to 20,000 square feet and typically focus on a specific category, such as athletic footwear, or an activity, such as golf or skiing. Certain specialty stores that focus on a group of related activities can have significantly larger square footage footprints and be designed as destination stores. In addition, several sporting goods brands, many of which we sell in our stores, also sell their products direct to consumers through their own retail stores and internet operations. While these stores may offer a deep selection of products within their specialty or across a single brand, they lack the wide range of products or brand selection that we offer. We believe prices at these stores typically tend to be higher than prices at the large format sporting goods stores and traditional sporting goods stores.

Mass Merchants and Department Stores

These stores generally range from 50,000 to over 200,000 square feet and are primarily located in shopping centers, freestanding sites or regional malls. Sporting goods merchandise and apparel represent a small portion of the total merchandise in these stores and the selection is often more limited than in other sporting goods retailers. Although Wal-Mart is currently the largest retailer of sporting goods as measured by sales, we believe that mass merchants' limited selection, particularly with well-known brand names, combined with the reduced service levels typical of a mass merchandiser, limit their ability to meet the needs of sporting goods customers. Department stores may have more selection from well-known brands in athletic apparel and footwear than mass merchants, but do not typically carry hardline equipment for the sporting goods customer.

Internet and Catalog-Based Retailers

These retailers either focus on a specific category or activity or sell a full line of sporting goods through the use of the Internet and/or catalogs. We believe that the relationships we have developed with our suppliers and customers through our retail stores, our growing eCommerce business, our omni-channel capabilities and our merchandise offerings, including a wide range of exclusive and private brand products, provide us with a significant advantage over Internet-only and catalog-based retailers.

Employees

As of February 1, 2014, we employed approximately 11,200 full-time and 23,100 part-time associates. Due to the seasonal nature of our business, total employment figures fluctuate throughout the year and typically peaks during the fourth quarter.

None of our associates are covered by a collective bargaining agreement. We believe that our relations with our associates are good.

Proprietary Rights

Various versions of each of "Acuity", "DBX", "Dick's", "Dick's Sporting Goods", "Field & Stream", "Fitness Gear", "Golf Galaxy", "Maxfli", "Nickent", "Nishiki", "Primed", "Quest", "ScoreCard", "ScoreCard Rewards", "Top-Flite" and "Walter Hagen" are registered as a service mark or trademark with the United States Patent and Trademark Office and "DicksSportingGoods.com", "Dicks.com" and "GolfGalaxy.com" are registered as our domain names. In addition, we have numerous pending applications for trademarks. Our trademarks and other intellectual property are subject to risks and uncertainties that are discussed within Item 1A. "Risk Factors". We have entered into licensing agreements for names that we do not own, which provide for exclusive rights to use names such as "adidas" (baseball only), "Slazenger" (golf and racquets), "Louisville Slugger" (hosiery only), "Reebok" (performance apparel) and "Umbro" (performance soccer equipment, footwear and apparel) for specified product categories and, in some cases, specified channels. These licenses contemplate long-term business relationships, with substantial initial terms and the opportunity for multi-year extensions. These licenses contain customary termination provisions at the option of the licensor including, in some cases, termination upon our failure to purchase or sell a minimum volume of products and may include early termination fees. Our licenses are also subject to risks and uncertainties common to licensing arrangements that are described within Item 1A. "Risk Factors".

Governmental Regulations

We must comply with various federal, state and local regulations, including regulations relating to consumer products and consumer protection, advertising and marketing, labor and employment, data protection and privacy, intellectual property, the environment and tax. In addition, in connection with the sale of firearms in our stores, we must comply with a number of federal and state laws and regulations related to the sale of firearms, including the federal Brady Handgun Violence Prevention Act.

Ensuring our compliance with these various laws and regulations, and keeping abreast of changes to the legal and regulatory landscape, requires us to expend considerable resources.

Executive Officers of the Company

The current executive officers of the Company, and their prior business experience, are as follows:

Edward W. Stack – 59, has served as our Chairman and Chief Executive Officer since 1984 when our founder and Mr. Stack's father, Richard "Dick" Stack, retired from our then two store chain. Mr. Stack has served us full-time since 1977 in a variety of positions, including President, Store Manager and Merchandise Manager.

Joseph H. Schmidt – 54, became our President and Chief Operating Officer in February 2009. In 2008, Mr. Schmidt served as Executive Vice President and Chief Operating Officer responsible for all aspects of Store Operations, Real Estate and Development, Distribution and Transportation. Previously, Mr. Schmidt was our Executive Vice President - Operations, and before that Senior Vice President - Store Operations, a position he held beginning in 2005. Mr. Schmidt was Vice President - Store Operations beginning in 2001. Mr. Schmidt joined us in 1990 and has held various positions in store operations. From 1981 to 1990, he held various positions in store operations for Ames Department Stores, Inc.

André J. Hawaux – 53, became our Executive Vice President - Finance, Administration and Chief Financial Officer in June 2013. Prior to joining the Company, Mr. Hawaux served as the President, Consumer Foods at ConAgra Foods, Inc., one of North America's leading packaged food companies, since 2009. From 2006 to 2009, Mr. Hawaux served as ConAgra Foods' Executive Vice President, Chief Financial Officer where he was responsible for the company's Finance and Information System and Services organizations. Prior to ConAgra Foods, Mr. Hawaux served as general manager of a large U.S. division of PepsiAmericas and previously served as Chief Financial Officer for Pepsi-Cola North America and Pepsi International's China business unit. Mr. Hawaux is also a Trustee of Southern New Hampshire University and a member of the Board of Directors of PulteGroup, Inc. (NYSE: PHM).

John G. Duken – 53, became our Executive Vice President, Global Merchandising in February 2012. For the previous four years, Mr. Duken served as Senior Vice President, Planning and Allocation. Prior to that role, he spent seven years in our store organization as a Regional Vice President and ultimately as Vice President - Operations over all regions. Mr. Duken joined Dick's Sporting Goods in 1999 as Vice President - Operations of dsports.com. Before joining Dick's Sporting Goods, Mr. Duken was Vice President of Operations for Good Guys, a specialty retailer of consumer electronics from 1994 to 1999.

Prior to that, he was the General Operations Manager for Circuit City from 1984 to 1994. Mr. Duken holds a B.S. in Business Administration from the University of Southern California, Marshall School of Business.

David I. Mossé – 40, became our Chief Strategy Officer and General Counsel in February 2013. Previously, Mr. Mossé was our Senior Vice President - General Counsel and Corporate Secretary since 2010. Prior to joining the Company, Mr. Mossé served as Senior Counsel, Chief Compliance Officer and Investment Team Member of Triam Fund Management, LP, a private investment firm based in New York, NY, since 2005. Prior to that, he served as Vice President and Assistant General Counsel of Triarc Companies, Inc. (NYSE: WEN), a publicly traded holding company that, at the time, owned several operating businesses including the Arby's restaurant system and Deerfield Capital Management. Mr. Mossé also spent several years as an attorney with the law firms Cravath, Swaine & Moore in New York, NY, where he began his career, and the Venture Law Group in Menlo Park, California. Mr. Mossé earned his BA from Duke University and his Juris Doctor from New York University School of Law.

Joseph R. Oliver – 54, has served as our Senior Vice President and Chief Accounting Officer since April 2011 and prior to that served as our Controller since November 2009. Previously, Mr. Oliver served as our Vice President and Controller since February 2006 and as our Director of Accounting from May 2000 to February 2006. Prior to joining Dick's Sporting Goods, Mr. Oliver was employed by Dominion Resources, Inc. (NYSE: D) from 1983 to 2000 in various finance functions, most recently as Director of Accounting.

Lauren R. Hobart – 45, joined Dick's Sporting Goods in February 2011 as our Senior Vice President and Chief Marketing Officer. Prior to that, Ms. Hobart spent 14 years with PepsiCo, Inc. (NYSE: PEP), most recently serving as Chief Marketing Officer for its Carbonated Soft Drink portfolio in the United States. During her career at PepsiCo, Ms. Hobart held several other significant marketing roles and also spent several years in strategic planning. Prior to joining PepsiCo, Ms. Hobart worked in commercial banking for JP Morgan Chase and Wells Fargo Bank. Ms. Hobart also serves as a member of the Board of Directors of Sonic Corp. (Nasdaq: SONC).

Michele B. Willoughby – 48, has served as our Executive Vice President - Inventory, Supply Chain and eCommerce since July 2013. Prior to that she served as our Senior Vice President - eCommerce since 2010. She joined Dick's Sporting Goods in 2004 as Vice President, Planning and Allocation. Ms. Willoughby was promoted to Senior Vice President, Supply Chain in 2009 and Senior Vice President - eCommerce in 2010. Prior to joining Dick's Sporting Goods, Ms. Willoughby was employed by Kohl's Department Stores (NYSE: KSS), where she held various positions in Merchandise Planning and Allocation from 1997 to 2004, most recently as Vice President, Planning and Allocation.

ITEM 1A. RISK FACTORS

Risks and Uncertainties

Our business is dependent on the general economic conditions in our markets and economic and financial uncertainties may cause a decline in consumer spending that may adversely affect the Company's business, operations, liquidity, financial results and stock price.

Our operating results are affected by the relative condition of the U.S. economy. All of our stores are currently located within the United States, making our operating results highly dependent on U.S. consumer confidence and the health of the U.S. economy. If the U.S. economy experiences a downturn or prolonged period of slow growth or negative growth, our results of operations may be negatively impacted.

As a business that depends on consumer discretionary spending, the Company may be adversely affected if our customers reduce, delay or forego their purchases of our products as a result of the overall perceived economic environment, lower consumer confidence and uncertainty due to political, national or international security concerns. Decreases in same store sales, customer traffic or average value per transaction negatively affect the Company's financial performance, and a prolonged period of depressed consumer spending could have a material adverse effect on our business. Promotional activities and decreased demand for consumer products, particularly higher-end products, could affect profitability and margins. In addition, adverse economic conditions may result in an increase in our operating expenses due to, among other things, higher costs of labor, energy, equipment and facilities. The effect of any economic downturn on other nearby retailers may adversely affect us. For example, if an economic downturn leads to one or more vacancies in a shopping plaza, traffic to our store in that location may be adversely impacted. Any of the foregoing factors could have a material adverse effect on our business, results of operations and financial condition and could adversely affect our stock price.

Intense competition in the sporting goods industry could limit our growth and reduce our profitability.

The market for sporting goods retailers is highly fragmented and intensely competitive. Our current and prospective competitors include many large companies, some of which have greater market presence, name recognition and financial, marketing and other resources than us. We compete, directly or indirectly, with retailers from multiple categories, including stores and chains utilizing large format, traditional and specialty formats, mass merchants, department stores and catalog, Internet-based and direct-sell retailers. We compete principally based on customer service, store location and appearance, and assortment, quality and availability of merchandise.

Pressure from our competitors could require us to reduce our prices or increase our spending for advertising and promotion. Increased competition in our current markets or the adoption or proliferation by competitors of innovative store formats, aggressive pricing strategies and retail sale methods, such as the Internet, could cause us to lose market share and could have a material adverse effect on our business, financial condition, results of operations and cash flows.

In addition, as the popularity and use of Internet sites continue to increase, our business faces increased competition from various domestic and international sources, including our suppliers. We may require significant capital in the future to sustain or grow our business, including our store and eCommerce operations, and there is no assurance that cash flow from operations will be sufficient to meet those needs or that additional sources of capital will be available on acceptable terms or at all.

If we are unable to predict or effectively react to changes in consumer demand or shopping patterns, we may lose customers and our sales may decline.

Our success depends in part on our ability to anticipate and respond in a timely manner to changing consumer demand, preferences and shopping patterns regarding sporting goods. Our products must appeal to a broad range of consumers whose preferences cannot be predicted with certainty and are subject to continual change and evolution. We often make commitments to purchase products from our vendors several months in advance of the proposed delivery. If we misjudge the market for our new merchandise our sales may decline significantly. We may overstock unpopular products and be forced to take significant inventory markdowns or miss opportunities for other products, both of which could have a negative impact on our profitability. Conversely, shortages of items that prove popular could also be detrimental to our net sales. A major shift in consumer demand away from sporting goods generally could also have a material adverse effect on our business, results of operations and financial condition. Failure to timely identify or effectively respond to changing consumer tastes, preferences and spending patterns could negatively affect our relationship with our customers, the demand for our products and services and our market share.

In addition, our customers are increasingly using computers, tablets, mobile phones and other devices to shop in our stores and online for our products. Omni-channel retailing is rapidly evolving and we must keep pace with consumer preferences and expectations. There are various risks relating to omni-channel retailing, including the need to keep pace with rapid technological change, internet security risks, risks of systems failure or inadequacy and increased competition. Further, governmental regulation of Internet-based commerce continues to evolve in areas such as taxation, privacy, data protection, copyrights, patents, mobile communications and the provision of online payment services. Unfavorable changes to regulations in these areas could harm our business.

Lack of available retail store sites on terms acceptable to us, rising real estate prices and other costs and risks relating to new store openings could severely limit our growth opportunities.

Our strategy includes opening stores in new and existing markets. We must successfully choose store sites, execute real estate transactions on terms that are acceptable to us, hire competent personnel and effectively open and operate these new stores. Our plans to increase our number of retail stores will depend in part on the availability of existing retail stores or store sites. A lack of available financing on terms acceptable to real estate developers may adversely affect the number or quality of retail sites available to us. We cannot provide assurance that stores or sites will be available to us, or that they will be available on terms acceptable to us. If additional retail store sites are unavailable on acceptable terms, we may not be able to carry out a significant part of our growth strategy. Rising real estate costs and acquisition, construction and development costs could also inhibit our ability to grow. If we fail to locate desirable sites, obtain lease rights to these sites on terms acceptable to us, hire adequate personnel and open and effectively operate these new stores, our financial performance could be adversely affected.

Unauthorized disclosure of sensitive or confidential customer information could harm the Company's business and standing with our customers.

The protection of our customer, associate and Company data is critical to us. The Company relies on commercially available systems, software, tools and monitoring to provide security for processing, transmission and storage of confidential customer information, such as payment card and personally identifiable information. Increasing costs associated with information security - such as increased investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud - could negatively impact our business and results of operations. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. While we have taken significant steps to protect customer and confidential information, the intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. Because the techniques used to obtain unauthorized access, disable or degrade service, or sabotage systems, change frequently and often are not recognized until launched against a target, we may be unable to anticipate these techniques or to implement adequate preventative measures. A party that is able to circumvent our security measures could misappropriate our or our users' proprietary information and cause interruption in our operations. Any compromise of our data security could result in a violation of applicable privacy and other laws or standards, significant legal and financial exposure beyond the scope or limits of insurance coverage, increased operating costs associated with remediation, equipment acquisitions or disposal and added personnel, and a loss of confidence in our security measures, which could harm our business or investor confidence. Data security breaches may also result from non-technical means, for example, actions by an employee. Any security breach involving the misappropriation, loss or other unauthorized disclosure of confidential information could attract a substantial amount of media attention, damage our reputation, expose us to risk of litigation and liability, disrupt our operations and harm our business.

Our private brand offerings expose us to various risks.

In addition to brand name products, we offer our customers private brand products that are not available from other retailers. We expect to continue to grow our exclusive private brand offerings through a combination of brands that we own and the ones that we license from third parties. We have invested in our development and procurement resources and marketing efforts relating to these private brand offerings. Although we believe that our private brand products offer value to our customers at each price point and provide us with higher gross margins than comparable products we sell, the expansion of our private brand offerings also subjects us to certain specific risks in addition to those discussed elsewhere in this section, such as: potential mandatory or voluntary product recalls; our ability to successfully protect our proprietary rights (e.g., defending against counterfeit, knock offs, grey-market, infringing or otherwise unauthorized goods); our ability to successfully navigate and avoid claims related to the proprietary rights of third parties; our ability to successfully administer and comply with obligations under license agreements that we have with the licensors of brands, including in some instances certain sales minimums that if not met could cause us to lose the licensing rights or pay damages; and other risks generally encountered by entities that source, sell and market exclusive branded offerings for retail. An increase in sales of our private brands may also adversely affect sales of our vendors' products, which may, in turn, adversely affect our relationship with our vendors. Our failure to adequately address some or all of these risks could have a material adverse effect on our business, results of operations and financial condition.

We rely on a single third-party provider to maintain and operate certain aspects of our www.DicksSportingGoods.com operations, and disruptions with the provider or in the services it provides to us could materially affect our reputation, operations or financial results.

We have contracted with a single third party to operate and host our DicksSportingGoods.com eCommerce website and provide related fulfillment and customer service. We rely on that party's operational, privacy and security procedures and controls to operate and host our DicksSportingGoods.com eCommerce business. Failure by such third party to adequately service these aspects of our DicksSportingGoods.com eCommerce business could result in a prolonged disruption that affects our customers' ability to utilize our website or receive product in a timely manner. As a result, we may lose customer sales and/or experience increased costs, which could materially affect our reputation, operations or financial results.

Our ability to operate and expand our business and to respond to changing business and economic conditions will be dependent upon the availability of adequate capital. The terms of our senior secured revolving credit facility impose certain restrictions that may impair our ability to access sufficient capital.

The operation of our business, the rate of our expansion and our ability to respond to changing business and economic conditions depend on the availability of adequate capital, which in turn depends on cash flow generated by our business and, if necessary, the availability of equity or debt capital. We cannot provide assurance that our cash flow will be sufficient to meet these needs or that we would be able to obtain equity or debt capital on acceptable terms or at all. Our current senior secured revolving credit facility contains provisions that limit our ability to incur additional indebtedness or make substantial asset sales, which might otherwise be used to finance our operations. In the event of our insolvency, liquidation, dissolution or reorganization, the lenders under our senior secured revolving credit facility would be entitled to payment in full from our assets before distributions, if any, were made to our stockholders.

If we are unable to generate sufficient cash flows from operations in the future, and if availability under our current senior secured revolving credit facility is not sufficient, we may have to obtain additional financing. We cannot provide assurance that we could obtain refinancing or additional financing on favorable terms or at all. Our liquidity or access to capital could also be adversely affected by unforeseen changes in the financial markets and global economy.

We are subject to costs and risks associated with increased or changing laws and regulations affecting our business, including those relating to the sale of consumer products.

We operate in a complex regulatory and legal environment that exposes us to compliance and litigation risks and that could materially affect our operations and financial results. These laws may change, sometimes significantly, as a result of political, economic or social events. Some of the federal, state or local laws and regulations that affect us include:

- those relating to consumer products, product liability or consumer protection, including regulation by the Consumer Product Safety Commission and similar state regulatory agencies;
- those relating to the manner in which we advertise, market or sell our products;
- labor and employment laws, including wage and hour laws;
- those that prohibit, limit or impose additional actions or requirements to the sale in certain areas of certain products we offer, such as firearms, ammunition or knives;
- tax laws or interpretations thereof;
- data protection and privacy laws and regulations;
- environmental laws;
- customs or import laws and regulations;
- securities and exchange laws and regulations;
- intellectual property laws and regulations; and
- those relating to the provision of online payment services and use of credit cards by our customers.

Our policies and procedures are designed to comply with all applicable laws, accounting and reporting requirements, tax rules and other regulations and requirements, including those imposed by the Securities and Exchange Commission, New York Stock Exchange, and foreign countries, as well as applicable trade, labor, healthcare, privacy, anti-bribery and corruption and merchandise laws. The complexity of the regulatory environment in which we operate and the related cost of compliance are both increasing due to additional or changing legal and regulatory requirements, our ongoing expansion into new markets and new channels and the fact that foreign laws occasionally conflict with domestic laws. In addition to potential damage to our reputation and brand, failure to comply with applicable federal, state and local laws and regulations such as those outlined above may result in our being subject to claims, lawsuits, fines and adverse publicity that could have a material adverse effect on our business, results of operations and financial condition.

We depend on our suppliers, distributors and manufacturers to provide us with sufficient quantities of products in a timely fashion.

We purchase merchandise from approximately 1,400 vendors. In fiscal 2013, purchases from Nike and Under Armour represented approximately 18% and 11%, respectively, of our merchandise purchases. Although in fiscal 2013 purchases from no other vendor represented 10% or more of our total purchases, our dependence on our principal suppliers involves risk. We generally do not have long-term written contracts with our major suppliers that would require them to continue supplying us with merchandise. If any of our key vendors fails to supply us with products or continue to develop new products that create consumer demand, we may not be able to meet the demands of our customers and our revenue could materially decline. Likewise, the formation or strengthening of business partnerships between our vendors and our competitors could directly alter the composition of products and level of customer purchasing within our stores and online, which could have a material adverse impact on our operating results. If there is a disruption in supply from a principal supplier or distributor, we may be unable to obtain the merchandise or obtain an adequate quantity that we desire to sell and that consumers desire to purchase. Moreover, many of our suppliers provide us with incentives, such as return privileges, volume purchasing allowances and cooperative advertising. A decline or discontinuation of these incentives could reduce our profit margins. Further, to the extent our suppliers are affected by economic uncertainty and other concerns relating to global economic conditions, there may be an adverse impact with respect to their respective inventory and production levels, customer incentives and vendor allowances, product quality, or ability to continue operations, all of which could ultimately have an adverse impact on our supply chain.

We may be subject to various types of litigation and other claims, and our insurance may not be sufficient to cover damages related to those claims.

From time to time the Company or its subsidiaries may be involved in lawsuits or other claims arising in the course of business, including those related to federal or state wage and hour laws, product liability, consumer protection, advertising, employment, intellectual property, tort and other matters. We may also be subject to lawsuits relating to the design, manufacture or distribution of our private brand products.

In addition, although we do not sell assault weapons or automatic firearms, we do sell hunting rifles, semi-automatic hunting rifles and ammunition, and in our Field & Stream stores, handguns which are products that are associated with an increased risk of injury and related lawsuits with respect to our compliance with Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) or state laws or regulations. In addition, any improper or illegal use by our customers of ammunition or firearms sold by us could have a negative impact on our reputation and business.

We may incur losses relating to claims filed against us, including costs associated with defending against them, and there is risk that any such claims or liabilities will exceed our insurance coverage, or affect our ability to retain adequate liability insurance in the future. Although we have entered into product liability indemnity agreements with many of our vendors and manufacturers, we cannot provide assurance that we will be able to collect payments sufficient to offset product liability losses or, in the case of our private brand products, where almost all of the manufacturing occurs outside the United States, that we will be able to collect anything at all. Even if a product liability claim is unsuccessful or is not fully pursued, the negative publicity surrounding any such assertions could adversely affect our reputation with our customers. Due to the inherent uncertainties of litigation and other claims, we cannot accurately predict the ultimate outcome of any such matters.

If our product costs are adversely affected by foreign trade issues, currency exchange rate fluctuations, increasing prices for raw materials, political instability or other reasons, our sales and profitability may suffer.

We believe that a significant portion of the products that we purchase, including those purchased from domestic suppliers, is manufactured abroad in countries such as China, Taiwan and South Korea. In addition, most of our private brand merchandise is manufactured abroad. Foreign imports subject us to risk relating to changes in import duties, quotas, loss of "most favored nation" status with the U.S., shipment delays and shipping port constraints, labor strikes, work stoppages or other disruptions, freight cost increases and economic uncertainties. In addition, the U.S. government periodically considers other restrictions on the importation of products obtained by our vendors and us. If any of these or other factors were to cause a disruption of trade from the countries in which our vendors' supplies or our private brand products manufacturers are located, our inventory levels may be reduced or the cost of our products may increase. In addition, to the extent that any foreign manufacturers from whom we directly or indirectly purchase products utilize labor and other practices that vary from those commonly accepted in the U.S., we could be hurt by any resulting negative publicity or, in some cases, face potential liability. Also, the prices charged by foreign manufacturers may be affected by the fluctuation of their local currency against the U.S. dollar. We source goods from various countries, including China, and thus changes in the value of the U.S. dollar compared to other currencies may affect the costs of goods that we purchase.

Our product costs are also affected in part by the prices for raw materials used in said products. A substantial rise in the price of one or more raw materials used in our products could dramatically increase the costs associated with the manufacturing of merchandise that we purchase from our vendors for sale in our stores, as well as products manufactured for our private brands, which could cause the cost of our products to increase and could potentially have a negative impact on our sales and profitability.

Historically, political or economic instability in the countries from which our products originate has not had a material adverse effect on our operations. However, we cannot predict the effect that future changes in economic or political conditions in such foreign countries may have on our operations.

The loss of our key executives, especially Edward W. Stack, our Chairman and Chief Executive Officer, could have a material adverse effect on our business due to the loss of their experience and industry relationships.

Our success depends on the continued services of our senior management, particularly Edward W. Stack, our Chairman and Chief Executive Officer. Mr. Stack also holds a majority of the voting power of our capital stock, and has been operating the Company since 1984. Mr. Stack possesses detailed and in-depth knowledge of the issues, opportunities and challenges facing the Company and its businesses. If we were to lose any key senior executive, especially Mr. Stack, our business could be materially adversely affected.

Our inability or failure to protect our intellectual property rights, or any claimed infringement by us of third party intellectual rights could have a negative impact on our operating results.

Our trademarks, service marks, copyrights, patents, trade secrets, domain names and other intellectual property are valuable assets that are critical to our success. Effective trademark and other intellectual property protection may not be available in every country in which our products are manufactured or may be made available. The unauthorized reproduction or other misappropriation of our intellectual property could diminish the value of our brands or goodwill and cause a decline in our revenue. In addition, any infringement or other intellectual property claim made against us, whether or not it has merit, could be time-consuming to address, result in costly litigation, cause product delays, require us to enter into royalty or licensing agreements or result in our loss of ownership or use of the intellectual property. As a result, any such claim or our failure to protect our intellectual property could have an adverse effect on our operating results.

Problems with our information system software could disrupt our operations and negatively impact our financial results and materially adversely affect our business operations.

We utilize a number of third party information systems for core system needs of our business. For example, our Dick's Sporting Goods stores and Golf Galaxy stores utilize a suite of applications from JDA for our core merchandising, allocation and replenishment systems. These systems, if not functioning properly, could disrupt our operations, including our ability to track, record and analyze the merchandise that we sell, process shipments of goods, process financial information or credit card transactions, deliver products or engage in similar normal business activities. Any material disruption, malfunction or other similar problems in or with our core information systems could negatively impact our financial results and materially adversely affect our business operations.

We may be unable to attract, train, engage and retain qualified leaders and associates.

The training and development of our future leaders and key personnel is important to our long-term success. If we do not effectively implement our strategic and business planning processes to attract, retain, train and develop future leaders, our business may suffer. In addition, stores depend significantly on our ability to hire and retain quality associates, including store managers and sales associates. We plan to expand our associate base to manage our anticipated growth. The market for non-entry level personnel, particularly for associates with retail expertise, is highly competitive. Additionally, our ability to maintain consistency in the quality of customer service in our stores is critical to our success. We are also dependent on the associates who staff our distribution centers, many of whom are skilled. We may be unable to meet our leadership needs or our labor needs. If we are unable to train and develop future leaders and key personnel, or hire and retain store-level and distribution center associates capable of providing a high level of customer service, our business could be materially adversely affected.

We rely on four distribution centers, and if there is a natural disaster or other serious disruption at one or more of these facilities, we may lose merchandise and be unable to effectively deliver it to our stores.

We currently operate a 725,000 square foot distribution center in Plainfield, Indiana, a 657,000 square foot distribution center near Atlanta, Georgia, a 601,000 square foot distribution center in Smithton, Pennsylvania and a 624,000 square foot

distribution center in Goodyear, Arizona. Any natural disaster or other serious disruption to one of these facilities due to fire, tornado or any other cause could damage a material portion of our inventory or impair our ability to adequately stock our stores and process returns of products to vendors, and could negatively affect our sales and profitability. In addition, as we grow, we may require additional distribution capacity, which could come in the form of expanding existing facilities or opening alternative or additional facilities. Any future expansions or other openings, could affect us in ways we cannot predict.

Poor performance of professional sports teams within our core regions of operation, as well as professional team lockouts or strikes, retirement of sports superstars or scandals involving sports superstars could adversely affect our financial results.

We sell a significant amount of professional sports team merchandise, the sale of which may be subject to fluctuations based on the success or failure of such teams. The poor performance by the professional sports teams within our core regions of operations, as well as professional team lockouts and strikes, could cause our financial results to fluctuate accordingly year over year. In addition, to the extent we use sports superstars to market our products and advertise our stores, or we sell merchandise branded by one or more sports superstars, the retirement of such individuals or scandals they may be implicated in could negatively impact our financial results.

The relative seasonality of our operations, along with the current geographic concentrations of our Dick's Stores, exposes us to certain risks.

Our business is seasonal based on sports seasons. Furthermore, a majority of our Dick's Sporting Goods stores are located in the eastern half of the United States, which exposes us to various regional risks, including those relating to weather conditions. Many of our stores are located in geographic areas that experience seasonably cold weather, and we sell a significant amount of cold weather sporting goods and apparel. Our highest sales and operating income results historically occur during our fourth fiscal quarter, which is due, in part, to the holiday selling season and, in part, to our strong sales of cold weather sporting goods and apparel. Abnormally warm weather conditions could reduce our sales of these items and cause a decrease in our profitability. The fourth quarter generated approximately 31% of our net sales for fiscal 2013. Poor performance during our fourth quarter, whether because of a slow holiday selling season, unseasonable weather conditions, economic conditions or otherwise, could have a material adverse effect on our business, financial condition and operating results for the entire fiscal year. Additionally, abnormally wet or cold weather in the spring or summer months could reduce our sales of golf, team sports or other merchandise and cause a decrease in our profitability.

We may pursue strategic acquisitions or investments and the failure of an acquisition or investment to produce the anticipated results or the inability to fully integrate the acquired companies could have an adverse impact on our business.

We may from time to time acquire or invest in complementary companies or businesses. The success of such acquisitions or investments is based on our ability to make accurate assumptions regarding the valuation, operations, growth potential, integration and other factors relating to the respective business. There can be no assurance that our acquisitions or investments will produce the results that we expect at the time we enter into or we complete the transaction. For example, we may not be able to capitalize on previously anticipated synergies. Furthermore, acquisitions may result in dilutive issuances of our equity securities, the incurrence of debt, contingent liabilities, amortization expenses or write-offs of goodwill or other intangibles, any of which could harm our financial condition. We also may not be able to successfully integrate operations that we acquire, including their personnel, financial systems, supply chain and other operations, which could adversely affect our business. Acquisitions may also result in the diversion of our capital and our management's attention from other business issues and opportunities.

We are controlled by our Chairman and Chief Executive Officer and his relatives, whose interests may differ from other stockholders.

We have two classes of common stock: our common stock has one vote per share and our Class B common stock has 10 votes per share. As of February 1, 2014, Mr. Edward W. Stack, our Chairman and Chief Executive Officer, and his relatives controlled a majority of the combined voting power of our common stock and Class B common stock and would control the outcome of a vote on any corporate transaction or other matter submitted to our stockholders for approval, including mergers, consolidations and the sale of all or substantially all of our assets. The interests of Mr. Stack and his relatives may differ from the interests of our other stockholders and they may take actions with which our other stockholders disagree.

Our anti-takeover provisions could prevent or delay a change in control of our Company, even if such change in control would be beneficial to our stockholders.

Provisions of our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws as well as provisions of Delaware law could discourage, delay or prevent a merger, acquisition or other change in control of our Company, even if such change in control would be beneficial to our stockholders. These provisions include: authorizing the issuance of Class B common stock; classifying the Board of Directors (the "Board") such that only one-third of directors are elected each year; authorizing the issuance of "blank check" preferred stock that could be issued by our Board of Directors to increase the number of outstanding shares and thwart a takeover attempt; prohibiting the use of cumulative voting for the election of directors; if our Class B common stock is no longer outstanding, prohibiting stockholder action by partial written consent and requiring all stockholder actions to be taken at a meeting of our stockholders or by unanimous written consent; and establishing advance notice requirements for nominations for election to the Board of Directors or for proposing matters that can be acted upon by stockholders at stockholder meetings.

In addition, the Delaware General Corporation Law, to which we are subject, prohibits us, except under specified circumstances, from engaging in any mergers, significant sales of stock or assets or business combinations with any stockholder or group of stockholders who owns 15% or more of our common stock.

We cannot provide any guaranty of future dividend payments or that we will continue to repurchase our common stock pursuant to our stock repurchase program.

Although our Board of Directors has indicated an intention to pay future quarterly cash dividends on our common stock, any determination to pay cash dividends on our common stock in the future will be based primarily upon our financial condition, results of operations, business requirements, and the continuing determination from our Board of Directors that the declaration of dividends is in the best interests of our stockholders and is in compliance with all laws and agreements applicable to the dividend. Furthermore, although we have authorized a five-year \$1 billion share repurchase program, we are not obligated to make any purchases under the program and we may discontinue it at any time.

None.

ITEM 2. PROPERTIES

On May 7, 2012, the Company purchased its corporate headquarters building in Coraopolis, Pennsylvania, pursuant to a purchase option included in its pre-existing lease agreement. The Company is a direct tenant of Allegheny County Airport Authority pursuant to an underlying ground lease. The property consists of approximately 670,000 square feet of office space. On November 1, 2013, the Company entered into an additional ground lease with the Allegheny County Airport Authority for the future expansion of its corporate headquarters, adjacent to its current headquarters location. The lease provides the Company with an additional 89 acres for expansion.

We currently lease a 725,000 square foot distribution center in Plainfield, Indiana, a 657,000 square foot distribution center near Atlanta, Georgia and a 601,000 square foot distribution center in Smithton, Pennsylvania. The terms of these leases expire in 2022, 2026 and 2025, respectively. On January 27, 2014, the Company amended its lease commitment for the Atlanta, Georgia distribution center to include a 257,000 square foot expansion of the facility. The Company also owns and operates a 624,000 square foot distribution center in Goodyear, Arizona.

We lease all of our stores. Initial lease terms are generally for ten years, and most leases contain multiple five-year renewal options and rent escalation provisions. We believe that our leases, when entered into, are at market rate rents. We generally select a new store site nine to 18 months before its opening. Our stores are primarily located in shopping centers in regional shopping areas, as well as in freestanding locations and in malls.

As of February 1, 2014, we operated 642 stores in 46 states. The following table sets forth the number of stores by state:

- (1) Selling, general and administrative expenses for fiscal 2010 included \$16.4 million relating to future lease obligations and asset impairment charges resulting from the closure of 12 underperforming Golf Galaxy stores and \$10.8 million relating to litigation settlement costs. Selling, general and administrative expenses for fiscal 2011 included a \$2.1 million expense reduction relating to the partial reversal of previously accrued litigation settlement costs. Selling, general and administrative expenses for fiscal 2013 included \$7.9 million relating to a non-cash impairment charge to reduce the carrying value of a corporate aircraft held for sale to its fair market value.
- (2) Impairment of available-for-sale investments reflects the Company's impairment of its investment in JJB Sports, plc ("JJB Sports").
- (3) Gain on sale of investment resulted from the sale of the Company's available-for-sale securities in GSI Commerce, Inc.
- (4) Interest expense in fiscal 2010, 2011 and 2012 included rent payments under the Company's financing lease obligation for its corporate headquarters building, which the Company purchased in fiscal 2012 for \$133.4 million, including closing costs. The Company's payment to purchase the building is reflected as a payment of its financing lease obligation in fiscal 2012.
- (5) Includes investment income recognized to reflect changes in deferred compensation plan investment values with a corresponding charge to selling, general and administrative costs for the same amount. During the first quarter of 2013, the Company recorded \$4.3 million related to the partial recovery of its previously impaired investment in JJB Sports, which is reflected herein.
- (6) Dividends declared per common share in fiscal 2011 represent the Company's first dividend of \$0.50 per share of common stock and Class B common stock. Dividends declared per common share in fiscal 2012 and thereafter represent quarterly dividends of \$0.125. Fiscal 2012 included a special cash dividend of \$2.00 per share of common stock and Class B common stock.
- (7) A store is included in the same store sales calculation in the same fiscal period that it commences its 14th full month of operations. Stores that were closed or relocated during the applicable period have been excluded from same store sales. Each relocated store is returned to the same store base in the fiscal period that it commences its 14th full month of operations at that new location. The Company's eCommerce business is included in the same store sales calculation beginning in fiscal 2010. The same store sales calculation for fiscal 2012 excluded sales during the 53rd week.
- (8) Includes Dick's Sporting Goods, Golf Galaxy, Field & Stream and True Runner stores.
- (9) Calculated using net sales and gross square footage of all stores open at both the beginning and the end of the period, excluding eCommerce sales. Gross square footage includes the storage, receiving and office space that generally occupies approximately 17% of total store space in our Dick's Sporting Goods stores.
- (10) Calculated as cost of goods sold divided by the average monthly ending inventories of the last 13 months.
- (11) Defined as current assets less current liabilities.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with Part I, Item 6, "Selected Financial Data" and our Consolidated Financial Statements and related notes appearing elsewhere in this Annual Report on Form 10-K. This Annual Report on Form 10-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. See "Forward-Looking Statements" and Part I, Item 1A. "Risk Factors".

Overview

Dick's Sporting Goods, Inc. (together with its subsidiaries, referred to as the "Company", "we", "us", and "our" unless specified otherwise) is an authentic full-line sports and fitness specialty omni-channel retailer offering a broad assortment of high quality, competitively-priced brand name sporting goods equipment, apparel and footwear in a specialty store environment. As of February 1, 2014, we operated 558 Dick's Sporting Goods stores in 46 states and 79 Golf Galaxy stores in 29 states, with

approximately 31.6 million square feet on a consolidated basis, the majority of which are located throughout the eastern half of the United States.

The primary factors that have historically influenced the Company's profitability and success have been the growth in its number of stores and selling square footage, positive same store sales and its strong gross profit margins. In the last five years, the Company has grown from 398 Dick's Sporting Goods stores at the end of fiscal 2008 to 558 Dick's Sporting Goods stores at the end of fiscal 2013. The Company continues to expand its presence through the opening of new stores and believes it has the potential to reach approximately 1,100 Dick's Sporting Goods locations, including smaller-market locations across the United States.

In order to monitor the Company's success, the Company's senior management monitors certain key performance indicators, including:

- Consolidated same store sales performance – Same store sales provide a measure of sales growth for stores open at least one year over the comparable prior year period, as well as the corresponding eCommerce sales. A store is included in the same store sales calculation in the same fiscal period that it commences its 14th full month of operations. Stores that were closed or relocated during the applicable period have been excluded from same store sales. Each relocated store is returned to the same store base in the fiscal period that it commences its 14th full month of operations at that new location. Our management considers same store sales to be an important indicator of our current performance. Same store sales results are important to leverage our costs, including occupancy costs, store payroll and other store expenses. Same store sales also have a direct impact on our total net sales, cash and working capital. See further discussion of the Company's same store sales in the "Results of Operations" section herein.
- Operating cash flow – Cash flow generation supports the general operating needs of the Company and funds capital expenditures related to its store network, distribution and administrative facilities, costs associated with continued improvement of information technology tools, costs associated with potential strategic acquisitions or investments that may arise from time to time and stockholder return initiatives, including cash dividends and share repurchases. We typically generate significant positive operating cash flows in our fiscal fourth quarter in connection with the holiday selling season and proportionately higher net income levels. See further discussion of the Company's cash flows in the "Liquidity and Capital Resources" section herein.
- Quality of merchandise offerings – To monitor and maintain acceptance of its merchandise offerings, the Company monitors sell-throughs, inventory turns, gross margins and markdown rates on a department and style level. This analysis helps the Company manage inventory levels to reduce cash flow requirements and deliver optimal gross margins by improving merchandise flow and establishing appropriate price points to minimize markdowns.
- Store productivity – To assess store-level performance, the Company monitors various indicators, including sales per square foot, store operating contribution margin and store cash flow.

Executive Summary

- Net income for the 52 weeks ended February 1, 2014 increased 16% to \$337.6 million, or \$2.69 per diluted share, as compared to net income of \$290.7 million, or \$2.31 per diluted share, during the 53 weeks ended February 2, 2013.
 - Fiscal 2013 net income includes \$4.3 million, net of tax, or \$0.03 per diluted share, related to the partial recovery from its previously impaired investment in JJB Sports recorded during the first quarter of 2013 and a charge of \$4.7 million, net of tax, or \$0.04 per diluted share, related to a non-cash impairment to reduce the carrying value of a corporate aircraft held for sale to its fair market value.
 - Fiscal 2012 net income included a charge of \$27.6 million, net of tax, or \$0.22 per diluted share, related to the Company's impairment of its investment in JJB Sports. Additionally, fiscal 2012 included approximately \$0.03 per diluted share for the 53rd week.
- Net sales increased 6% to \$6,213.2 million in fiscal 2013 from \$5,836.1 million in fiscal 2012 due primarily to a 1.9% increase in consolidated same store sales on a 52-week to 52-week basis and the growth of our store network, partially offset by the inclusion of the 53rd week of sales in fiscal 2012. Sales during the 53rd week of fiscal 2012 totaled approximately \$74 million.

- Gross profit decreased to 31.29% in fiscal 2013 as a percentage of net sales from 31.48% in fiscal 2012 due primarily to increased occupancy and shipping expenses, partially offset by higher merchandise margins.
- In fiscal 2013, the Company:
 - Declared and paid aggregate cash dividends of \$0.50 per share.
 - Launched two Field & Stream stores, a specialized outdoor concept.
 - Repurchased 4.8 million shares of common stock for \$255.6 million.
 - Made substantial capital investments in the business, increasing capital expenditures to \$285.7 million in fiscal 2013 from \$219.0 million in fiscal 2012.
- The Company ended fiscal 2013 with no outstanding borrowings under the current senior secured credit agreement (the "Credit Agreement").

Results of Operations

The following table presents for the periods indicated selected items in the Consolidated Statements of Income as a percentage of the Company's net sales, as well as the basis point change in percentage of net sales from the prior year:

- (A) Column does not add due to rounding.
- (1) Revenue from retail sales is recognized at the point of sale, net of sales tax. Revenue from eCommerce sales is recognized upon shipment of merchandise. Service-related revenue is recognized as the services are performed. A provision for anticipated merchandise returns is provided through a reduction of sales and cost of goods sold in the period that the related sales are recorded. Revenue from gift cards and returned merchandise credits (collectively the "cards") are deferred and recognized upon the redemption of the cards. These cards have no expiration date. Income from unredeemed cards is recognized on the Consolidated Statements of Income within selling, general and administrative expenses at the point at which redemption becomes remote. The Company performs an evaluation of the aging of the unredeemed cards, based on the elapsed time from the date of original issuance, to determine when redemption becomes remote.
- (2) Cost of goods sold includes the cost of merchandise, inventory shrinkage and obsolescence, freight, distribution, shipping and store occupancy costs. Store occupancy costs include rent, common area maintenance charges, real estate and other asset-based taxes, store maintenance, utilities, depreciation, fixture lease expenses and certain insurance expenses.
- (3) Selling, general and administrative expenses include store and field support payroll and fringe benefits, advertising, bank card charges, information systems, marketing, legal, accounting, other store expenses and all expenses associated with operating the Company's corporate headquarters. Selling, general and administrative expenses for the 52 weeks ended February 1, 2014 include \$7.9 million relating to a non-cash impairment charge to reduce the carrying value of a corporate aircraft held for sale to its fair market value.
- (4) Pre-opening expenses consist primarily of rent, marketing, payroll and recruiting costs incurred prior to a new or relocated store opening which are expensed as incurred.
- (5) Impairment of available-for-sale investments reflects the Company's impairment of its investment in JJB Sports.
- (6) Gain on sale of investment resulted from the sale of the Company's available-for-sale securities in GSI Commerce, Inc.
- (7) Interest expense in fiscal 2012 and 2011 includes rent payments under the Company's financing lease obligation for its corporate headquarters building, which the Company purchased on May 7, 2012.
- (8) Includes gains and losses associated with changes in deferred compensation plan investment values with a corresponding charge to selling, general and administrative costs for the same amounts. During the first quarter of 2013, the Company recorded \$4.3 million related to the partial recovery of its previously impaired investment in JJB Sports.

Fiscal 2013 (52 weeks) Compared to Fiscal 2012 (53 weeks)

Net Income

The Company reported net income for the year ended February 1, 2014 of \$337.6 million, or \$2.69 per diluted share, as compared to net income of \$290.7 million, or \$2.31 per diluted share, in fiscal 2012. Fiscal 2013 net income includes \$4.3 million, net of tax, or \$0.03 per diluted share, related to the partial recovery from its previously impaired investment in JJB Sports recorded during the first quarter of 2013 and a charge of \$4.7 million, net of tax, or \$0.04 per diluted share, related to a non-cash impairment to reduce the carrying value of a corporate aircraft held for sale to its fair market value. Fiscal 2012 net income included a charge of \$27.6 million, net of tax, or \$0.22 per diluted share, related to the Company's impairment of its investment in JJB Sports. Additionally, fiscal 2012 included approximately \$0.03 per diluted share for the 53rd week.

Net Sales

Net sales increased 6% to \$6,213.2 million in fiscal 2013 from \$5,836.1 million in fiscal 2012 due primarily to a 1.9% increase in consolidated same store sales on a 52-week to 52-week basis and the growth of our store network, partially offset by the inclusion of the 53rd week of sales in fiscal 2012. Sales during the 53rd week of fiscal 2012 totaled approximately \$74 million.

The 1.9% consolidated same store sales increase consisted of a 2.4% increase at Dick's Sporting Goods and a 7.1% decrease at Golf Galaxy. eCommerce sales penetration was 7.9% of total sales during the current period compared to 5.3% of total sales during the 53 weeks ended February 2, 2013.

The increase in consolidated same store sales was broad based, with larger increases in athletic apparel, athletic footwear and outdoor apparel and cold weather accessories, partially offset by declines in the golf, fitness and outdoor equipment categories. The same store sales increase at Dick's Sporting Goods was driven by an increase in sales per transaction of approximately 1.8% and an increase in transactions of approximately 0.6%. Based upon our fiscal 2013 sales mix, every 1% change in consolidated same store sales would have impacted fiscal 2013 earnings before income taxes by approximately \$19 million.

Store Count

During fiscal 2013, the Company opened 40 new Dick's Sporting Goods stores, one new Golf Galaxy store, two new Field & Stream stores and one new True Runner store. Additionally, the Company relocated one Dick's Sporting Goods store, repositioned one Golf Galaxy store and closed three underperforming Golf Galaxy stores. As of February 1, 2014, the Company operated 558 Dick's Sporting Goods stores in 46 states, 79 Golf Galaxy stores in 29 states, two Field & Stream stores in two states and three True Runner stores in three states, with approximately 31.6 million square feet on a consolidated basis.

Income from Operations

Income from operations increased \$13.1 million to \$536.8 million in fiscal 2013 from \$523.7 million in fiscal 2012.

Gross profit increased 6% to \$1,944.0 million in fiscal 2013 from \$1,837.2 million in fiscal 2012, but decreased as a percentage of net sales by 19 basis points compared to fiscal 2012. Occupancy costs and shipping expenses increased as a percentage of net sales by 61 basis points in the current year. Occupancy costs increased at a higher rate than the 1.9% increase in consolidated same store sales during the fiscal year and were unfavorably affected by 13 basis points due to the inclusion of sales from the 53rd week in fiscal 2012. Shipping expenses as a percentage of sales increased due to the growth in eCommerce sales relative to the sales growth at our brick and mortar stores. The decrease in gross profit as a percentage of net sales was partially offset by merchandise margin expansion of 35 basis points. Every 10 basis point change in merchandise margin would impact earnings before income taxes for the current period by approximately \$6 million.

Selling, general and administrative expenses increased approximately 7% to \$1,386.3 million in fiscal 2013 from \$1,297.4 million in fiscal 2012, and increased as a percentage of net sales by 8 basis points primarily due to increased payroll costs for planned growth initiatives and a \$7.9 million non-cash impairment charge to reduce the carrying value of a Gulfstream G450 corporate aircraft held for sale to its fair market value. The increase in selling, general and administrative expenses was partially offset by lower incentive compensation during the 52 weeks ended February 1, 2014 and a contribution to the Dick's Sporting Goods Foundation during the 53 weeks ended February 2, 2013.

Pre-opening expenses increased to \$20.8 million in fiscal 2013 from \$16.1 million in fiscal 2012. Pre-opening expenses in any period fluctuate depending on the timing and number of store openings and relocations. During fiscal 2013, the Company opened 40 new Dick's Sporting Goods stores, one new Golf Galaxy store, two new Field & Stream stores and one new True Runner store. Additionally, the Company relocated one Dick's Sporting Goods store and repositioned one Golf Galaxy store in the current year. During fiscal 2012, the Company opened 38 new Dick's Sporting Goods stores and two new True Runner stores, relocated five Dick's Sporting Goods stores and repositioned one Golf Galaxy store.

Impairment of Available-for-Sale Investments

Impairment of available-for-sale investments was \$32.4 million in fiscal 2012 resulting from the full impairment of the Company's investment in JJB Sports, as further described in Note 15 to the Consolidated Financial Statements.

Interest Expense

Interest expense totaled \$2.9 million for fiscal 2013 compared to \$6.0 million for fiscal 2012. Interest expense for fiscal 2012 included \$2.9 million related to rent payments under the Company's financing lease for its corporate headquarters building. The decrease in interest expense year over year reflects the Company's purchase of its corporate headquarters building on May 7, 2012.

Other Income

Other income was \$12.2 million for fiscal 2013 compared to \$4.6 million for fiscal 2012. The Company recognizes investment income to reflect changes in the investment value of assets held in its deferred compensation plans with a corresponding charge to selling, general and administrative costs for the same amount. The Company recognized investment income totaling \$6.0 million in fiscal 2013 compared to \$3.2 million for fiscal 2012 due to an overall improvement in the equity markets, which impacted the deferred compensation plan investment values. During the first quarter of 2013, the Company recorded \$4.3 million related to the partial recovery of the Company's investment in JJB Sports, which it had previously fully impaired.

Income Taxes

The Company's effective tax rate was 38.2% for fiscal 2013 as compared to 40.7% for fiscal 2012. During fiscal 2012, the Company determined that a valuation allowance totaling \$7.9 million was required for a portion of the deferred tax asset related to a \$32.4 million net capital loss carryforward resulting from the impairment of its investment in JJB Sports, as the Company did not believe that it was more likely than not that the Company would generate sufficient capital gains in future periods to recognize that portion of the expected net capital loss. During the first quarter of fiscal 2013, the Company determined that it would recover \$4.3 million of its investment in JJB Sports. There is no related tax expense, as the Company reversed a portion of the deferred tax valuation allowance it recorded during fiscal 2012 for net capital loss carryforwards it did not expect to realize at that time.

Fiscal 2012 (53 weeks) Compared to Fiscal 2011 (52 weeks)

Net Income

The Company reported net income for the year ended February 2, 2013 of \$290.7 million, or \$2.31 per diluted share, as compared to net income of \$263.9 million, or \$2.10 per diluted share, in fiscal 2011. Fiscal 2012 net income included a charge of \$27.6 million, net of tax, or \$0.22 per diluted share, related to the Company's impairment of its investment in JJB Sports. Additionally, fiscal 2012 included approximately \$0.03 per diluted share for the 53rd week. Fiscal 2011 net income included a gain on sale of investment of \$8.7 million, net of tax, or \$0.07 per diluted share, and an increase to net income of \$1.3 million, net of tax, or \$0.01 per diluted share, resulting from a partial reversal of litigation settlement costs previously accrued during fiscal 2010.

Net Sales

Net sales increased 12% to \$5,836.1 million in fiscal 2012 from \$5,211.8 million in fiscal 2011 due primarily to a 4.3% increase in consolidated same store sales measured on a 52-week to 52-week basis, growth of our store network and the inclusion of the 53rd week of sales. Sales during the 53rd week of fiscal 2012 totaled approximately \$74 million. The 4.3% consolidated same store sales increase consisted of a 2.4% increase at Dick's Sporting Goods and a 5.5% increase at Golf Galaxy. eCommerce sales penetration was 5.3% of total sales in fiscal 2012 compared to 4.0% of total sales in fiscal 2011.

The increase in consolidated same store sales was broad based, with larger increases in athletic apparel, hunting, athletic footwear, golf, accessories and team sports, partially offset by a sales decrease in outerwear and cold weather accessories due to a second consecutive warm winter season and a decline in sales of large fitness equipment, such as treadmills and ellipticals. The same store sales increase at Dick's Sporting Goods was driven by an increase in sales per transaction of approximately 3.3%, offset by a decrease in transactions of approximately 0.9%. Based upon our fiscal 2012 sales mix, every 1% change in consolidated same store sales would have impacted fiscal 2012 earnings before income taxes by approximately \$17 million.

Store Count

During fiscal 2012, the Company opened 38 new Dick's Sporting Goods stores and two new True Runner stores. Additionally, the Company relocated five Dick's Sporting Goods stores and repositioned one Golf Galaxy store. As of February 2, 2013, the Company operated 518 Dick's Sporting Goods stores in 44 states and 81 Golf Galaxy stores in 30 states, with approximately 29.6 million square feet on a consolidated basis.

Income from Operations

Income from operations increased \$91.7 million to \$523.7 million in fiscal 2012 from \$432.0 million in fiscal 2011.

Gross profit increased 15% to \$1,837.2 million in fiscal 2012 from \$1,594.9 million in fiscal 2011. As a percentage of net sales, gross profit increased to 31.48% in fiscal 2012 from 30.60% in fiscal 2011. The 88 basis point increase was due primarily to a 58 basis point decrease in fixed occupancy costs resulting primarily from the leverage on the increase in sales compared to fiscal 2011, including 13 basis points due to the inclusion of sales from the 53rd week in fiscal 2012 and merchandise margin expansion of 40 basis points resulting from continued inventory management efforts. Every 10 basis point change in merchandise margin would have impacted fiscal 2012 earnings before income taxes by approximately \$6 million.

Selling, general and administrative expenses increased 13% to \$1,297.4 million in fiscal 2012 from \$1,148.3 million in fiscal 2011, representing a 20 basis point increase as a percentage of net sales. Administrative expenses increased 54 basis points as a percentage of net sales as a result of payroll increases relative to sales, charitable contributions made in 2012 and the partial reversal in 2011 of previously accrued litigation settlement costs. Higher administrative expenses were substantially offset by a 16 basis point reduction in both store payroll expenses and advertising expenses from fiscal 2011 due to leverage on the increase in net sales in fiscal 2012.

Pre-opening expenses increased \$1.5 million to \$16.1 million in fiscal 2012 from \$14.6 million in fiscal 2011. Pre-opening expenses in any period fluctuate depending on the timing and number of store openings and relocations. During fiscal 2012, the Company opened 38 new Dick's Sporting Goods stores and two new True Runner stores, relocated five Dick's Sporting Goods stores and repositioned one Golf Galaxy store. During fiscal 2011, the Company opened 36 new Dick's Sporting Goods stores and relocated one Golf Galaxy store.

Gain on Sale of Investment

Gain on sale of investment was \$13.9 million in fiscal 2011 resulting from the sale of the Company's remaining investment in GSI Commerce, Inc., the Company's eCommerce service provider.

Impairment of Available-for-Sale Investments

Impairment of available-for-sale investments was \$32.4 million in fiscal 2012 resulting from the full impairment of the Company's investment in JJB Sports, as further described in Note 15 to the Consolidated Financial Statements.

Interest Expense

Interest expense totaled \$6.0 million for fiscal 2012 compared to \$13.9 million for fiscal 2011. Interest expense included rent payments under the Company's financing lease for its corporate headquarters building for fiscal 2012 and fiscal 2011 of \$2.9 million and \$10.6 million, respectively. The decrease in interest expense reflected the Company's purchase of its corporate headquarters building on May 7, 2012.

Income Taxes

The Company's effective tax rate was 40.7% for fiscal 2012 as compared to 38.9% for fiscal 2011. The Company determined that a valuation allowance totaling \$7.9 million was required for a portion of the deferred tax asset related to a \$32.4 million net capital loss carryforward resulting from the impairment of its investment in JJB Sports, as the Company did not believe that it was more likely than not that the Company would generate sufficient capital gains in future periods to recognize that portion of the expected net capital loss.

Liquidity and Capital Resources

Overview

The Company's liquidity and capital needs have generally been met by cash from operating activities and the Company's revolving credit facility. Cash flow from operations is seasonal in our business. Typically, we use cash flow from operations to increase inventory in advance of peak selling seasons, with the pre-Christmas inventory increase being the largest. In the fourth quarter, inventory levels are reduced in connection with Christmas sales and this inventory reduction, combined with proportionately higher net income, typically produces significant positive cash flow.

Net cash provided by operating activities for fiscal 2013 was \$403.9 million compared to \$438.3 million for fiscal 2012. Net cash from operating, investing and financing activities are discussed further below.

The Company has a \$500 million revolving credit facility, including up to \$100 million in the form of letters of credit, in the event further liquidity is needed. Under the credit agreement governing the facility (the "Credit Agreement"), subject to the satisfaction of certain conditions, the Company may request an increase of up to \$250 million in borrowing availability.

The Credit Agreement, which matures on December 5, 2016, is secured by a first priority security interest in certain property and assets, including receivables, inventory, deposit accounts and other personal property of the Company and is guaranteed by the Company's domestic subsidiaries.

The interest rates per annum applicable to loans under the Credit Agreement are, at the Company's option, a base rate or an adjusted LIBOR rate plus, in each case, an applicable margin percentage. The applicable margin percentage for base rate loans is 0.20% to 0.50% and for adjusted LIBOR rate loans is 1.20% to 1.50%, depending on the borrowing availability of the Company.

The Credit Agreement contains certain covenants that limit the Company's ability to, among other things: incur or guarantee additional indebtedness; pay distributions on, redeem or repurchase capital stock or redeem or repurchase subordinated debt; make certain investments; sell assets; and consolidate, merge or transfer all or substantially all of the Company's assets. In addition, the Credit Agreement contains a covenant that requires the Company to maintain a minimum adjusted availability of 7.5% of its borrowing base. As of February 1, 2014, the Company was in compliance with the terms of the Credit Agreement.

The Company ended fiscal 2013 with \$181.7 million in cash and cash equivalents as compared to \$345.2 million at the end of fiscal 2012. There were no outstanding borrowings under the Credit Agreement as of February 1, 2014 or February 2, 2013. As of February 1, 2014 and February 2, 2013, total remaining borrowing capacity, after subtracting letters of credit, was \$487.0 million and \$488.7 million, respectively.

Normal capital requirements consist primarily of capital expenditures related to the addition of new stores, remodeling and relocating existing stores, enhancing information technology and improving supply chain and omni-channel infrastructure. The Company has a capital appropriations committee that approves all capital expenditures in excess of certain amounts and groups and prioritizes all capital projects among required, discretionary and strategic categories.

Store and distribution infrastructure – The Company made substantial capital investments in fiscal 2013 compared to fiscal 2012. These investments included growing our omni-channel platform, implementing new systems, developing new retail concepts and store-related capital expenditures. Store-related capital expenditures nearly doubled from 2012 due to investments in new and relocated stores and further upgrades to some of our existing stores in order to improve the shopping experience for our customers.

- The Company opened 40 new Dick's Sporting Goods stores and relocated one Dick's Sporting Goods store during fiscal 2013. The Company also opened one new Golf Galaxy store and repositioned one Golf Galaxy store in fiscal 2013, both of which were in the new, larger format.
- The Company opened two new Field & Stream stores and one new True Runner store in 2013.
- The Company fully remodeled four Dick's Sporting Goods stores in 2013. We did not remodel any stores in 2012 as we were finalizing our new prototype store.
- The Company completed 75 apparel remodels in 2013. The apparel remodels focused on strategic growth categories and featured branded vendor shops.
- The Company added 114 Nike Fieldhouse shops and 131 Under Armour shops in new and existing Dick's Sporting Goods stores in fiscal 2013, including shops added as part of our apparel remodels. Additionally, we also worked closely with The North Face to add 81 seasonal outpost shops in conjunction with store remodels.
- Shared service footwear decks were installed in all new and fully remodeled stores in 2013.

Share repurchases – On March 7, 2013, the Company's Board of Directors authorized a five-year share repurchase program of up to \$1 billion of the Company's common stock. During fiscal 2013, the Company repurchased 4.8 million shares of its common stock for \$255.6 million.

Dividends – During the fiscal year ended February 1, 2014, the Company paid \$64.4 million of dividends to its stockholders. The declaration of future dividends and the establishment of the per share amount, record dates and payment dates for any such

future dividends are subject to the final determination of the Board, and will be dependent upon future earnings, cash flows, financial requirements and other factors.

The Company believes that cash flows generated by operations and funds available under the Credit Agreement will be sufficient to satisfy our current capital requirements through fiscal 2014. Other investment opportunities, such as potential strategic acquisitions or store expansion rates in excess of those presently planned, may require additional funding.

Changes in cash and cash equivalents are as follows:

| | Fiscal Year Ended | | |
|--|-----------------------------|-----------------------------|-----------------------------|
| | February 1, 2014 | February 2, 2013 | January 28, 2012 |
| Net cash provided by operating activities | \$ 403,870 | \$ 438,284 | \$ 410,421 |
| Net cash used in investing activities | (339,175) | (324,354) | (199,616) |
| Net cash used in financing activities | (228,090) | (503,112) | (22,451) |
| Effect of exchange rate changes on cash | (88) | (6) | (4) |
| Net (decrease) increase in cash and cash equivalents | <u>\$ (163,483)</u> | <u>\$ (389,188)</u> | <u>\$ 188,350</u> |

Operating Activities

Operating activities consist primarily of net income, adjusted for certain non-cash items and changes in operating assets and liabilities. Adjustments to net income for non-cash items include depreciation and amortization, deferred income taxes, stock-based compensation expense and tax benefits on stock options, as well as non-cash gains and losses on the disposal of the Company's assets. Changes in operating assets and liabilities primarily reflect changes in inventories, accounts payable and income taxes payable/receivable, as well as other working capital changes.

Cash provided by operating activities decreased \$34.4 million in fiscal 2013 to \$403.9 million. The decrease in cash provided by operating activities is due primarily to a decrease in cash flows provided by changes in operating assets and liabilities, partially offset by higher net income and increases in non-cash items. The decrease in operating assets and liabilities year-over-year is primarily due to the following:

- Changes in income taxes payable/receivable for fiscal 2013 decreased operating cash flows by \$105.7 million compared to the same period in fiscal 2012. Income tax payments in 2012 were favorably impacted by the timing of implementing a tax election to deduct certain repair and maintenance costs and higher deductions related to stock option exercise activity.
- Cash flows provided by changes in inventory and accounts payable decreased \$29.4 million compared to fiscal 2012, primarily attributable to the lower inventory turnover in fiscal 2013 compared to 2012. Fiscal 2012 accounts payable was lower due to the timing of inventory receipts resulting from the calendar shift caused by the 53rd week.

Investing Activities

Cash used in investing activities for fiscal 2013 increased by \$14.8 million to \$339.2 million from fiscal 2012. The Company's gross capital expenditures were \$285.7 million during fiscal 2013 compared to \$219.0 million during fiscal 2012, which reflects higher payments related to the Company's planned investments in stores and omni-channel infrastructure. Capital expenditure outflows were partially offset by the Company's \$32.0 million investment in JJB Sports during fiscal 2012 and \$11.0 million of proceeds received from the sale of a corporate aircraft during fiscal 2013.

Financing Activities

Cash used in financing activities consists primarily of the Company's stockholder return initiatives, including its share repurchase program and cash dividend payments and cash flows generated from stock option exercises. Cash used in financing activities for fiscal 2013 totaled \$228.1 million compared to \$503.1 million in fiscal 2012, primarily reflecting the Company's purchase of its corporate headquarters building and payment of a special cash dividend in fiscal 2012, partially offset by higher share repurchases in fiscal 2013.

Contractual Obligations and Commercial Commitments

The Company is party to many contractual obligations that involve commitments to make payments to third parties in the ordinary course of business. The following table provides summary information concerning our future contractual obligations (within the scope of Item 303(a)(5) of Regulation S-K) as of February 1, 2014 (in thousands).

| | Payments Due by Period | | | | |
|---|------------------------|---------------------|---------------------|-------------------|----------------------|
| | Total | Less than 1 year | 1-3 years | 3-5 years | More than 5 years |
| Contractual obligations: | | | | | |
| Capital lease obligations (see Note 7) | \$ 6,818 | \$ 798 | \$ 908 | \$ 1,123 | \$ 3,989 |
| Other long-term debt | 557 | 101 | 223 | 215 | 18 |
| Interest payments (see Note 7) | 3,873 | 685 | 1,141 | 945 | 1,102 |
| Operating lease obligations (see Note 8) ^(a) | 3,418,425 | 469,583 | 936,537 | 778,028 | 1,234,277 |
| Unrecognized tax benefits ^(b) | 606 | 606 | — | — | — |
| Purchase and other commitments (see Note 14) ^(c) | 267,759 | 65,675 | 91,956 | 46,397 | 63,731 |
| Total contractual obligations | <u>\$ 3,698,038</u> | <u>\$ 537,448</u> | <u>\$ 1,030,765</u> | <u>\$ 826,708</u> | <u>\$ 1,303,117</u> |

^(a) Amounts include direct lease obligations, excluding any taxes, insurance and other related expenses.

^(b) Excludes \$8,361 of accrued liability for unrecognized tax benefits as we cannot reasonably estimate the timing of settlement. These payments include interest and penalties.

^(c) The Company's purchase obligations relate primarily to marketing commitments, including naming rights, licenses for trademarks and technology-related and other commitments. In the ordinary course of business, the Company enters into many contractual commitments, including purchase orders and commitments for products or services, but generally, such commitments represent annual or cancellable commitments. The amount of purchase obligations shown is based on multi-year non-cancellable contracts outstanding at the end of fiscal 2013.

The note references above are to the notes to the Consolidated Financial Statements included in Item 8 herein.

The following table summarizes the Company's other commercial commitments, including both on and off-balance sheet arrangements, in effect at February 1, 2014 (in thousands):

| | Total | Less than 1 year |
|------------------------------------|------------------|---------------------|
| Other commercial commitments: | | |
| Documentary letters of credit | \$ — | \$ — |
| Standby letters of credit | 12,956 | 12,956 |
| Total other commercial commitments | <u>\$ 12,956</u> | <u>\$ 12,956</u> |

The Company expects to fund these commitments primarily with operating cash flows generated in the normal course of business.

Off-Balance Sheet Arrangements

The majority of our contractual obligations relate to operating leases for our stores. Future scheduled lease payments under non-cancelable operating leases as of February 1, 2014 are described in the table under Contractual Obligations and Commercial Commitments above and with additional information in Note 8 and Note 14 of the Consolidated Financial Statements included in Item 8 herein.

Critical Accounting Policies and Use of Estimates

The Company's significant accounting policies are described in Note 1 of the Consolidated Financial Statements, which were prepared in accordance with accounting principles generally accepted in the United States of America. Critical accounting policies are those that the Company believes are both most important to the portrayal of the Company's financial condition and results of operations, and require the Company's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Judgments and uncertainties affecting the application of those policies may result in materially different amounts being reported under different conditions or using different assumptions.

The Company considers the following policies to be the most critical in understanding the judgments that are involved in preparing its consolidated financial statements.

Inventory Valuation

The Company values inventory using the lower of weighted average cost or market method. Market price is generally based on the selling price expectations of the merchandise. The Company regularly reviews inventories to determine if the carrying value of the inventory exceeds market value and the Company records a reserve to reduce the carrying value to its market price, as necessary. Historically, the Company has rarely experienced significant occurrences of obsolescence or slow moving inventory. However, future changes, such as customer merchandise preference, unseasonable weather patterns, economic conditions or business trends could cause the Company's inventory to be exposed to obsolescence or slow moving merchandise.

Shrink expense is accrued as a percentage of merchandise sales based on historical shrink trends. The Company performs physical inventories at its stores and distribution centers throughout the year. The reserve for shrink represents an estimate for shrink for each of the Company's locations since the last physical inventory date through the reporting date. Estimates by location and in the aggregate are impacted by internal and external factors and may vary significantly from actual results.

Vendor Allowances

Vendor allowances include allowances, rebates and cooperative advertising funds received from vendors. These funds are determined for each fiscal year and the majority are based on various quantitative contract terms. Amounts expected to be received from vendors relating to the purchase of merchandise inventories are treated as a reduction of inventory and reduce cost of goods sold as the merchandise is sold. Amounts that represent a reimbursement of costs incurred, such as advertising, are recorded as a reduction to the related expense in the period that the related expense is incurred. The Company records an estimate of earned allowances based on the latest projected purchase volumes and advertising forecasts. On an annual basis at the end of the year, the Company confirms earned allowances with vendors to ensure the amounts are recorded in accordance with the terms of the contract.

Goodwill and Intangible Assets

Goodwill, indefinite-lived and other finite-lived intangible assets are reviewed for impairment on an annual basis, or whenever circumstances indicate that a decline in value may have occurred. Our evaluation for impairment requires accounting judgments and financial estimates in determining the fair value of the reporting unit. If these judgments or estimates change in the future, we may be required to record impairment charges for these assets.

When evaluating goodwill for impairment, we first perform a qualitative assessment to determine if the fair value of the reporting unit is more likely than not less than the carrying value. If so, we proceed to step one of the two-step goodwill impairment test, in which we compare the fair value of the reporting unit to its carrying value. If not, then performance of the two-step goodwill impairment test is not necessary. If the carrying value of goodwill exceeds the implied estimated fair value, an impairment charge to current operations is recorded to reduce the carrying value to the implied estimated fair value. The Company determines the fair value of its reporting units using a combination of a discounted cash flow and a market value approach. The Company's estimates may differ from actual results due to, among other things, economic conditions, changes to its business models or changes in operating performance. Significant differences between these estimates and actual results could result in future impairment charges and could materially affect the Company's future financial results. If the fair value of the reporting unit exceeds the carrying value of the net assets assigned to that reporting unit, goodwill is not impaired and the Company is not required to perform further testing. If the carrying value of the net assets assigned to the reporting unit exceeds the fair value of the reporting unit, then the Company must determine the implied fair value of the reporting unit's goodwill and compare it to the carrying value of the reporting unit's goodwill. This includes valuing the tangible and intangible assets and

liabilities of the impaired reporting unit based on their fair value and determining the fair value of the impaired reporting unit's goodwill based upon the residual of the aggregate identified tangible and intangible assets and liabilities. As of February 1, 2014, the Company had no reporting unit(s) at risk for goodwill impairment.

Intangible assets that have been determined to have indefinite lives are also not subject to amortization and are reviewed at least annually for potential impairment, or more frequently as mentioned above. The fair value of the Company's intangible assets are estimated and compared to their carrying value. The Company estimates the fair value of these intangible assets based on an income approach using the relief-from-royalty method. This methodology assumes that, in lieu of ownership, a third party would be willing to pay a royalty in order to exploit the related benefits of these types of assets. This approach is dependent on a number of factors, including estimates of future sales growth and trends, royalty rates in the category of intellectual property, discount rates and other variables. The Company recognizes an impairment charge when the estimated fair value of the intangible asset is less than the carrying value.

Impairment of Long-Lived Assets and Closed Store Reserves

The Company reviews long-lived assets whenever events and circumstances indicate that the carrying value of these assets may not be recoverable based on estimated undiscounted future cash flows. Assets are reviewed at the lowest level for which cash flows can be identified, which is the store level. In determining future cash flows, significant estimates are made by the Company with respect to future operating results of each store over its remaining lease term. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

Based on an analysis of current and future store performance, management periodically evaluates the need to close underperforming stores. Reserves are established when the Company ceases to use the location for the present value of any remaining operating lease obligations, net of estimated sublease income. If the timing or amount of actual sublease income differs from estimated amounts, this could result in an increase or decrease in the related reserves.

Self-Insurance

The Company is self-insured for certain losses related to health, workers' compensation and general liability insurance, although we maintain stop-loss coverage with third-party insurers to limit our liability exposure. Liabilities associated with these losses are estimated in part by considering historical claims experience, industry factors, severity factors and other actuarial assumptions.

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with fair value recognition provisions, under which the Company uses the Black-Scholes option-pricing model, which requires the input of assumptions. These assumptions include estimating the length of time employees will retain their vested stock options before exercising them ("expected term"), the estimated volatility of the Company's common stock price over the expected term and the expected dividend yield. In addition, we estimate the number of awards that will ultimately not complete their vesting requirements ("forfeitures") and recognize expense for those stock awards expected to vest. Changes in the assumptions can materially affect the estimate of fair value of stock-based compensation and consequently, the related amount recognized on the Consolidated Statements of Income.

Uncertain Tax Positions

The Company only recognizes the tax benefit from an uncertain tax position if it is more likely than not that the tax position will be sustained on examination by the taxing authorities. The application of income tax law is inherently complex. Laws and regulations in this area are voluminous and are often ambiguous. As such, we are required to make many subjective assumptions and judgments regarding our income tax exposures. Interpretations of and guidance surrounding income tax laws and regulations change over time. As such, changes in our subjective assumptions and judgments can materially affect amounts recognized on the Consolidated Balance Sheets and Statements of Income.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

The Company maintains a revolving credit facility to support potential liquidity and capital needs. Our interest rate under the Credit Agreement is benchmarked to, at the Company's option, a base rate or an adjusted LIBOR rate plus, in each case, an applicable margin percentage. There were no outstanding borrowings under the Credit Agreement as of February 1, 2014 and February 2, 2013.

The Company holds highly liquid instruments purchased with a maturity of three months or less at the date of purchase that are classified as cash equivalents. The Company had cash equivalent investments at February 1, 2014 and February 2, 2013, totaling \$91.9 million and \$259.0 million, respectively. Since these investments are short-term in nature, changes in interest rates generally would not have a material impact on the valuation of these investments. During fiscal 2013 and 2012, a hypothetical 10% increase or decrease in interest rates would not have materially affected our Consolidated Financial Statements.

Impact of Inflation

Inflationary factors such as increases in the cost of our products and overhead costs may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling, general and administrative expenses as a percentage of net sales if the selling prices of our products do not increase with inflation.

Seasonality and Quarterly Results

The Company's business is subject to seasonal fluctuations. Significant portions of the Company's net sales and profits are realized during the fourth quarter of the Company's fiscal year, which is due in part to the holiday selling season and in part to sales of cold weather sporting goods and apparel. Any decrease in fiscal fourth quarter sales, whether because of a slow holiday selling season, unseasonable weather conditions or otherwise, could have a material adverse effect on our business, financial condition and operating results for the entire fiscal year.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements required to be filed hereunder are set forth on pages 43 through 66 of this Annual Report on Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that, as of February 1, 2014, the Company's disclosure controls and procedures were effective in ensuring that material information relating to the Company, including its consolidated subsidiaries, required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that it is accumulated and communicated to management, including our principal executive and financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Report of Management on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of our financial reporting for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes: maintaining records that in reasonable detail accurately and fairly reflect our transactions; providing reasonable assurance that transactions are recorded as necessary for preparation of our financial statements; providing reasonable assurance that receipts and expenditures of Company assets are made in accordance with management authorization; and providing reasonable assurance that unauthorized acquisition, use or disposition of Company assets that could have a material effect on our financial statements would be prevented or detected on a timely basis. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our financial statements would be prevented or detected.

Our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework and criteria established in *Internal Control — Integrated Framework (1992)*, issued by the Committee of Sponsoring Organizations of the Treadway Commission. This evaluation included review of the documentation of controls, evaluation of the design effectiveness of controls, testing of the operating effectiveness of controls and a conclusion on this evaluation. Based on this evaluation, management concluded that the Company's internal control over financial reporting was effective as of February 1, 2014.

Deloitte & Touche LLP, an independent registered public accounting firm, has issued an attestation report on the Company's internal control over financial reporting included on the following page of this document.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the quarter ended February 1, 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Inherent Limitations of Control Systems

There are inherent limitations in the effectiveness of any control system, including the potential for human error and the circumvention or overriding of the controls and procedures. Additionally, judgments in decision-making can be faulty and breakdowns can occur because of simple error or mistake. An effective control system can provide only reasonable, not absolute, assurance that the control objectives of the system are adequately met. Accordingly, our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our control system can prevent or detect all error or fraud. Finally, projections of any evaluation or assessment of effectiveness of a control system to future periods are subject to the risks that, over time, controls may become inadequate because of changes in an entity's operating environment or deterioration in the degree of compliance with policies and procedures.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Dick's Sporting Goods, Inc.
Pittsburgh, Pennsylvania

We have audited the internal control over financial reporting of Dick's Sporting Goods, Inc. and subsidiaries (the "Company") as of February 1, 2014, based on criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying *Report of Management on Internal Control over Financial Reporting*. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of February 1, 2014, based on the criteria established in *Internal Control — Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended February 1, 2014 of the Company and our report dated March 28, 2014 expressed an unqualified opinion on those financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Dick's Sporting Goods, Inc.
Pittsburgh, Pennsylvania

We have audited the accompanying consolidated balance sheets of Dick's Sporting Goods, Inc. and subsidiaries (the "Company") as of February 1, 2014 and February 2, 2013, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended February 1, 2014. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Dick's Sporting Goods, Inc. and subsidiaries as of February 1, 2014 and February 2, 2013, and the results of their operations and their cash flows for each of the three years in the period ended February 1, 2014, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of February 1, 2014, based on the criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 28, 2014 expressed an unqualified opinion on the Company's internal control over financial reporting.

DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation and Summary of Significant Accounting Policies

Operations – Dick's Sporting Goods, Inc. (together with its subsidiaries, referred to as the "Company", "we", "us", and "our" unless specified otherwise) is an authentic, full-line sports and fitness specialty omni-channel retailer offering a broad assortment of high-quality, competitively priced brand name sporting goods equipment, apparel and footwear in a specialty store environment.

Fiscal Year – The Company's fiscal year ends on the Saturday closest to the end of January. Fiscal years 2013, 2012 and 2011 ended on February 1, 2014, February 2, 2013 and January 28, 2012, respectively. All fiscal years presented include 52 weeks of operations except fiscal 2012, which includes 53 weeks.

Principles of Consolidation – The Consolidated Financial Statements include Dick's Sporting Goods, Inc. and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates in the Preparation of Financial Statements – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents – Cash and cash equivalents consist of cash on hand and all highly liquid instruments purchased with a maturity of three months or less at the date of purchase. Cash equivalents are considered Level 1 investments and totaled \$91.9 million and \$259.0 million at February 1, 2014 and February 2, 2013, respectively. Interest income from cash equivalents was \$0.2 million, \$1.0 million and \$0.3 million for fiscal 2013, 2012 and 2011, respectively.

Cash Management – The Company's cash management system provides for the reimbursement of all major bank disbursement accounts on a daily basis. Accounts payable at February 1, 2014 and February 2, 2013 include \$135.2 million and \$91.7 million, respectively, of checks drawn in excess of cash balances not yet presented for payment.

Accounts Receivable – Accounts receivable consist principally of amounts receivable from vendors and landlords. The allowance for doubtful accounts totaled \$3.1 million and \$2.7 million as of February 1, 2014 and February 2, 2013, respectively.

Inventories – Inventories are stated at the lower of weighted average cost or market. Inventory costs consist of the direct cost of merchandise including freight. Inventories are net of shrinkage, obsolescence, other valuation accounts and vendor allowances totaling \$82.6 million and \$78.5 million at February 1, 2014 and February 2, 2013, respectively.

Property and Equipment – Property and equipment are recorded at cost and include capitalized leases. For financial reporting purposes, depreciation and amortization are computed using the straight-line method over the following estimated useful lives:

| | |
|-----------------------------------|-------------|
| Buildings | 40 years |
| Leasehold improvements | 10-25 years |
| Furniture, fixtures and equipment | 3-7 years |

For leasehold improvements and property and equipment under capital lease agreements, depreciation and amortization are calculated using the straight-line method over the shorter of the estimated useful lives of the assets or the lease term. Leasehold improvements made significantly after the initial lease term are depreciated over the shorter of their estimated useful lives or the remaining lease term, including renewal periods, if reasonably assured. Depreciation expense was \$151.5 million, \$123.3 million and \$111.7 million for fiscal 2013, 2012 and 2011, respectively.

Renewals and betterments are capitalized and repairs and maintenance are expensed as incurred.

Impairment of Long-Lived Assets and Closed Store Reserves – The Company evaluates its long-lived assets to assess whether the carrying values have been impaired whenever events and circumstances indicate that the carrying value of these assets may not be recoverable based on estimated undiscounted future cash flows. An impairment loss is recognized when the estimated

DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

undiscounted cash flows expected to result from the use of the asset plus eventual net proceeds expected from disposition of the asset (if any) are less than the carrying value of the asset. When an impairment loss is recognized, the carrying amount of the asset is reduced to its estimated fair value as determined based on quoted market prices or through the use of other valuation techniques.

The Company recognizes a liability for costs associated with closed or relocated premises when the Company ceases to use the location. The calculation of accrued lease termination and other costs primarily includes future minimum lease payments, maintenance costs and taxes from the date of closure or relocation to the end of the remaining lease term, net of contractual or estimated sublease income. The liability is discounted using a credit-adjusted risk-free rate of interest. The assumptions used in the calculation of the accrued lease termination and other costs are evaluated each quarter.

Goodwill – Goodwill represents the excess of acquisition cost over the fair value of the net assets of acquired entities. The Company assesses the carrying value of goodwill annually or whenever circumstances indicate that a decline in value may have occurred. When evaluating goodwill for impairment, the Company first performs a qualitative assessment to determine if the fair value of the reporting unit is more likely than not less than the carrying value. If so, the Company proceeds to step one of the two-step goodwill impairment test, in which the Company compares the fair value of the reporting unit to its carrying value. If not, then performance of the two-step goodwill impairment test is not necessary. If the carrying value of goodwill exceeds the implied estimated fair value, an impairment charge to current operations is recorded to reduce the carrying value to the implied estimated fair value. A reporting unit is the operating segment, or a business unit one level below that operating segment, for which discrete financial information is prepared and regularly reviewed by management.

Intangible Assets – Intangible assets consist primarily of trademarks and acquired trade names with indefinite lives, which are tested for impairment annually or whenever circumstances indicate that a decline in value may have occurred. The Company's finite-lived intangible assets consist primarily of favorable lease assets and other acquisition related assets. Finite-lived intangible assets are amortized over their estimated useful economic lives and are reviewed for impairment when factors indicate that an impairment may have occurred.

Gain on Sale of Investment – During fiscal 2011, the Company realized a pre-tax gain of \$13.9 million resulting from the sale of its remaining available-for-sale securities held in GSI Commerce, Inc. ("GSI"), in connection with GSI's acquisition by eBay, Inc. Prior to the sale, the investment was carried at fair value within other assets and unrealized holding gains and losses on the stock were included in other comprehensive income and reflected as a component of stockholders' equity.

Self-Insurance – The Company is self-insured for certain losses related to health, workers' compensation and general liability insurance, although we maintain stop-loss coverage with third-party insurers to limit our liability exposure. Liabilities associated with these losses are estimated in part by considering historical claims experience, industry factors, severity factors and other actuarial assumptions.

Pre-opening Expenses – Pre-opening expenses, which consist primarily of rent, marketing, payroll and recruiting costs, are expensed as incurred.

Earnings Per Common Share – Basic earnings per common share is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted earnings per common share is computed based on the weighted average number of shares of common stock, plus the effect of dilutive potential common shares outstanding during the period, using the treasury stock method. Dilutive potential common shares include outstanding stock options, restricted stock and warrants.

Stock-Based Compensation – The Company has the ability to grant restricted shares of common stock, restricted stock units and stock options to purchase common stock under the Dick's Sporting Goods, Inc. 2012 Stock and Incentive Plan. The Company records stock-based compensation expenses based on the fair value of stock awards at the grant date and recognizes the expense over the related service period.

Income Taxes – The Company utilizes the asset and liability method of accounting for income taxes and provides deferred income taxes for temporary differences between the amounts reported for assets and liabilities for financial statement purposes and for income tax reporting purposes, using enacted tax rates in effect in the years in which the differences are expected to reverse. The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the relevant taxing authorities, based on the technical merits of the position. The

DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

tax benefits recognized in the Consolidated Financial Statements from such a position are measured based on the largest benefit that will more likely than not be realized upon ultimate settlement. Interest and penalties related to income tax matters are recognized in income tax expense.

Revenue Recognition – Revenue from retail sales is recognized at the point of sale, net of sales tax. Revenue from eCommerce sales is recognized upon shipment of merchandise. Service-related revenue is recognized as the services are performed. A provision for anticipated merchandise returns is provided through a reduction of sales and cost of goods sold in the period that the related sales are recorded. Revenue from gift cards and returned merchandise credits (collectively the "cards") are deferred and recognized upon the redemption of the cards. These cards have no expiration date. Income from unredeemed cards is recognized on the Consolidated Statements of Income within selling, general and administrative expenses at the point at which redemption becomes remote. The Company performs an evaluation of the aging of the unredeemed cards, based on the elapsed time from the date of original issuance, to determine when redemption becomes remote.

Cost of Goods Sold – Cost of goods sold includes the cost of merchandise, inventory shrinkage and obsolescence, freight, distribution, shipping and store occupancy costs. Store occupancy costs include rent, common area maintenance charges, real estate and other asset-based taxes, general maintenance, utilities, depreciation, fixture lease expenses and certain insurance expenses.

Selling, General and Administrative Expenses – Selling, general and administrative expenses include store and field support payroll and fringe benefits, advertising, bank card charges, information systems, marketing, legal, accounting, other store expenses and all expenses associated with operating the Company's corporate headquarters.

Advertising Costs – Production costs of advertising and the costs to run the advertisements are expensed the first time the advertisement takes place. Advertising expense, net of cooperative advertising, was \$223.9 million, \$201.0 million and \$187.4 million for fiscal 2013, 2012 and 2011, respectively.

Vendor Allowances – Vendor allowances include allowances, rebates and cooperative advertising funds received from vendors. These funds are determined for each fiscal year and the majority are based on various quantitative contract terms. Amounts expected to be received from vendors relating to the purchase of merchandise inventories are recognized as a reduction of cost of goods sold as the merchandise is sold. Amounts that represent a reimbursement of costs incurred, such as advertising, are recorded as a reduction to the related expense in the period that the related expense is incurred. The Company records an estimate of earned allowances based on the latest projected purchase volumes and advertising forecasts. On an annual basis at the end of the fiscal year, the Company confirms earned allowances with vendors to determine that the amounts are recorded in accordance with the terms of the contract.

Segment Information – The Company is a specialty omni-channel retailer that offers a broad range of products in its specialty retail stores primarily in the eastern United States. Given the economic characteristics of the store formats, the similar nature of the products sold, the type of customer and method of distribution, the Company's operating segments are aggregated within one reportable segment. The following table sets forth the approximate amount of net sales attributable to hardlines, apparel and footwear for the periods presented (dollars in millions):

| | Fiscal Year | | |
|-----------------|--------------------|-----------------|-----------------|
| | 2013 | 2012 | 2011 |
| Hardlines | \$ 3,030 | \$ 2,964 | \$ 2,695 |
| Apparel | 1,867 | 1,685 | 1,504 |
| Footwear | 1,273 | 1,150 | 982 |
| Other | 43 | 37 | 31 |
| Total net sales | <u>\$ 6,213</u> | <u>\$ 5,836</u> | <u>\$ 5,212</u> |

Construction Allowances – All of the Company's store locations are leased. The Company may receive reimbursement from a landlord for some of the cost of the structure, subject to satisfactory fulfillment of applicable lease provisions. These reimbursements may be referred to as tenant allowances, construction allowances or landlord reimbursements ("construction allowances").

DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The Company's accounting for construction allowances differs if the Company is deemed to be the owner of the asset during the construction period. Some of the Company's leases have a cap on the construction allowance, which places the Company at risk for cost overruns and causes the Company to be deemed the owner during the construction period. In cases where the Company is deemed to be the owner during the construction period, a sale and leaseback of the asset occurs when construction of the asset is complete and the lease term begins, if relevant sale-leaseback accounting criteria are met. Any gain or loss from the transaction is included within deferred revenue and other liabilities on the Consolidated Balance Sheets and deferred and amortized as rent expense on a straight-line basis over the term of the lease. The Company reports the amount of cash received for the construction allowance as construction allowance receipts within the financing activities section of its Consolidated Statements of Cash Flows when such allowances are received prior to completion of the sale-leaseback transaction. The Company reports the amount of cash received from construction allowances as proceeds from sale leaseback transactions within the investing activities section of its Consolidated Statements of Cash Flows when such amounts are received after the sale-leaseback accounting criteria have been achieved.

In instances where the Company is not deemed to be the owner during the construction period, reimbursement from a landlord for tenant improvements is classified as an incentive and included within deferred revenue and other liabilities on the Consolidated Balance Sheets. The deferred rent credit is amortized as rent expense on a straight-line basis over the term of the lease. Landlord reimbursements from these transactions are included in cash flows from operating activities as a change in deferred construction allowances.

Recently Adopted Accounting Pronouncements – In February 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-2, "*Comprehensive Income – Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*." This update requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, entities are required to present, either on the face of the statement where net income is presented or in the notes to the financial statements, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, entities are required to cross-reference to the related note where additional details about the effect of the reclassifications are disclosed. This ASU is effective prospectively for reporting periods beginning after December 15, 2012. The Company adopted ASU 2013-2 during the first quarter of 2013. The adoption of this guidance did not impact the Company's Consolidated Financial Statements.

In July 2012, the FASB issued ASU 2012-2, "*Testing Indefinite-Lived Intangible Assets for Impairment*." This update amended the procedures for testing the impairment of indefinite-lived intangible assets by permitting an entity to first assess qualitative factors to determine whether the existence of events and circumstances indicates that it is more likely than not that the indefinite-lived intangible assets are impaired. An entity's assessment of the totality of events and circumstances and their impact on the entity's indefinite-lived intangible assets will then be used as a basis for determining whether it is necessary to perform the quantitative impairment test as described in Accounting Standard Codification ("ASC") 350-30, "*Intangibles – Goodwill and Other – General Intangibles Other than Goodwill*." ASU 2012-2 is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. The Company adopted ASU 2012-02 during the first quarter of 2013. The adoption of this guidance did not impact the Company's Consolidated Financial Statements.

2. Goodwill and Other Intangible Assets

At February 1, 2014 and February 2, 2013, the Company reported goodwill of \$200.6 million, net of accumulated impairment charges of \$111.3 million. There was no change in the carrying value of goodwill during fiscal 2013 or fiscal 2012. No impairment charges were recorded for goodwill in fiscal 2013, 2012 or 2011.

The Company had indefinite-lived and finite-lived intangible assets of \$89.5 million and \$8.8 million, respectively, as of February 1, 2014 and \$89.3 million and \$9.6 million, respectively, as of February 2, 2013. No impairment charges were recorded for the Company's intangible assets in fiscal 2013, 2012 or 2011.

DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The components of intangible assets were as follows (in thousands):

| | 2013 | | 2012 | |
|---|-----------------|-----------------------------|-----------------|-----------------------------|
| | Gross Amount | Accumulated Amortization | Gross Amount | Accumulated Amortization |
| Trademarks (indefinite-lived) | \$ 68,730 | \$ — | \$ 68,730 | \$ — |
| Trade name (indefinite-lived) | 15,900 | — | 15,900 | — |
| Customer list | 1,200 | (1,200) | 1,200 | (960) |
| Favorable leases and other finite-lived intangible assets | 16,454 | (7,674) | 14,954 | (5,580) |
| Other indefinite-lived intangible assets | 4,845 | — | 4,659 | — |
| Total intangible assets | \$ 107,129 | \$ (8,874) | \$ 105,443 | \$ (6,540) |

Amortization expense for the Company's finite-lived intangible assets was \$2.3 million, \$2.0 million and \$1.4 million for fiscal 2013, 2012 and 2011, respectively. The annual estimated amortization expense of the finite-lived intangible assets recorded as of February 1, 2014 is expected to be as follows (in thousands):

| Fiscal Year | Estimated Amortization Expense |
|-------------|--------------------------------------|
| 2014 | \$ 1,767 |
| 2015 | 1,692 |
| 2016 | 1,546 |
| 2017 | 1,351 |
| 2018 | 1,114 |
| Thereafter | 1,310 |
| Total | \$ 8,780 |

3. Store Closings

The following table summarizes the activity of the Company's store closing reserves (in thousands):

| | 2013 | 2012 |
|--|-----------|-----------|
| Accrued store closing and relocation reserves, beginning of period | \$ 31,785 | \$ 36,121 |
| Expense charged to earnings | — | 2,403 |
| Cash payments | (12,516) | (9,285) |
| Interest accretion and other changes in assumptions | (2,167) | 2,546 |
| Accrued store closing and relocation reserves, end of period | 17,102 | 31,785 |
| Less: current portion of accrued store closing and relocation reserves | (5,949) | (7,496) |
| Long-term portion of accrued store closing and relocation reserves | \$ 11,153 | \$ 24,289 |

The current portion of accrued store closing and relocation reserves is included within accrued expenses and the long-term portion is included within long-term deferred revenue and other liabilities on the Consolidated Balance Sheets. The related expense is recorded within selling, general and administrative expenses on the Consolidated Statements of Income.

7. Debt

The Company's outstanding debt consists of the following as of the end of the fiscal periods (in thousands):

| | 2013 | 2012 |
|--------------------------|-------------|-------------|
| Revolving line of credit | \$ — | \$ — |
| Capital leases | 6,818 | 15,624 |

| Less: current portion | (899) | (8,513) |
| Total long-term debt | \$ 6,476 | \$ 7,762 |

Revolving Credit Agreement – On December 5, 2011, the Company entered into a five-year credit agreement with Wells Fargo Bank, National Association (the "Credit Agreement"), which replaced the Company's then existing credit facility that was terminated. The Credit Agreement provides for a \$500 million revolving credit facility, including up to \$100 million in the form of letters of credit and allows the Company, subject to the satisfaction of certain conditions, to request an increase of up to \$250 million in borrowing availability to the extent that existing or new lenders agree to provide such additional revolving commitments.

The Credit Agreement matures on December 5, 2016 and is secured by a first priority security interest in certain property and assets, including receivables, inventory, deposit accounts and other personal property of the Company and is guaranteed by the Company's domestic subsidiaries.

The interest rates per annum applicable to loans under the Credit Agreement will be, at the Company's option, equal to a base rate or an adjusted LIBOR rate plus an applicable margin percentage. The applicable margin percentage for base rate loans is 0.20% to 0.50% and for adjusted LIBOR rate loans is 1.20% to 1.50%, depending on the borrowing availability of the Company.

The Credit Agreement contains certain covenants that limit the ability of the Company to, among other things: incur or guarantee additional indebtedness; pay distributions on, redeem or repurchase capital stock or redeem or repurchase subordinated debt; make investments; sell assets; and consolidate, merge or transfer all or substantially all of the Company's assets. In addition, the Credit Agreement requires that the Company maintain a minimum adjusted availability of 7.5% of its borrowing base.

There were no borrowings under the Credit Agreement as of February 1, 2014 and February 2, 2013, respectively. As of February 1, 2014, the Company had outstanding letters of credit and total borrowing capacity under the Credit Agreement of \$13.0 million and \$487.0 million, respectively. The Company had \$11.3 million of outstanding letters of credit and \$488.7 million of total borrowing capacity as of February 2, 2013.

Capital Lease Obligations – The gross and net carrying values of assets under capital leases are \$30.3 million and \$16.3 million, respectively, as of February 1, 2014, and \$31.9 million and \$21.9 million, respectively, as of February 2, 2013. The Consolidated Statement of Cash Flows for fiscal 2011 includes the non-cash impact of \$19.0 million for equipment received by the Company in fiscal 2011 pursuant to a capital lease, which expires in 2014. The Company also leases two buildings from an entity that is a related party to our Chairman and Chief Executive Officer, under a capital lease entered into May 1, 1986 that expires in April 2021.

8. Operating Leases

The Company leases substantially all of its stores, three distribution centers and equipment under non-cancelable operating leases that expire at various dates through 2028. Initial lease terms are generally for 10 to 25 years, and most leases contain multiple five-year renewal options and rent escalation provisions. The lease agreements provide primarily for the payment of minimum annual rentals, costs of utilities, property taxes, maintenance, common areas and insurance, and in some cases, contingent rent stated as a percentage of gross sales over certain base amounts. Rent expense under these operating leases totaled approximately \$411.5 million, \$388.3 million and \$360.3 million for fiscal 2013, 2012 and 2011, respectively. The Company entered into sale-leaseback transactions related to store fixtures, buildings and equipment that resulted in cash receipts of \$3.4 million and \$21.1 million for fiscal 2012 and 2011, respectively.

Scheduled lease payments due under non-cancelable operating leases as of February 1, 2014 are as follows (in thousands):

| <u>Fiscal Year</u> | |
|--------------------|---------------------|
| 2014 | \$ 469,583 |
| 2015 | 479,560 |
| 2016 | 456,977 |
| 2017 | 415,395 |
| 2018 | 362,633 |
| Thereafter | 1,234,277 |
| Total | <u>\$ 3,418,425</u> |

The Company has subleases related to certain of its operating lease agreements. The Company recognized sublease rental income of \$0.7 million, \$0.9 million and \$0.9 million in fiscal 2013, 2012 and 2011, respectively.

9. Stockholders' Equity

Common Stock, Class B Common Stock and Preferred Stock – The Company's Amended and Restated Certificate of Incorporation authorizes the issuance of 200,000,000 shares of common stock, par value \$0.01 per share, and the issuance of 40,000,000 shares of Class B common stock, par value \$0.01 per share. In addition, the Company's Amended and Restated Certificate of Incorporation authorizes the issuance of up to 5,000,000 shares of preferred stock.

Holders of common stock generally have rights identical to holders of Class B common stock, except that holders of common stock are entitled to one vote per share and holders of Class B common stock are entitled to ten votes per share. A related party, relatives of the related party and trusts held by them hold all of the Class B common stock. These shares can only be held by members of this group and are not publicly tradable. Each share of Class B common stock can be converted into one share of common stock at the holder's option at any time.

DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Dividends per Common Share – We declared and paid cash dividends of \$0.50, \$2.50 and \$0.50 per share of common stock and Class B common stock during fiscal 2013, 2012 and 2011, respectively. Fiscal 2012 included a special cash dividend of \$2.00 per share of common stock and Class B common stock in December 2012.

Treasury Stock – On March 7, 2013, the Company's Board of Directors authorized a five-year share repurchase program of up to \$1 billion of the Company's common stock. During fiscal 2013, the Company repurchased 4.8 million shares of its common stock for \$255.6 million.

10. Stock-Based Compensation and Employee Stock Plans

The Company has the ability to grant restricted shares of common stock, restricted stock units and options to purchase common stock under the Dick's Sporting Goods, Inc. 2012 Stock and Incentive Plan (the "Plan"). As of February 1, 2014, shares of common stock available for future issuance pursuant to the Plan were 11,352,865 shares.

The following represents total stock-based compensation recognized in the Consolidated Statements of Income for the fiscal years presented (in thousands):

| | <u>2013</u> | <u>2012</u> | <u>2011</u> |
|--|------------------|------------------|------------------|
| Stock option expense | \$ 8,263 | \$ 10,215 | \$ 9,734 |
| Restricted stock expense | 18,856 | 21,966 | 14,185 |
| Total stock-based compensation expense | <u>\$ 27,119</u> | <u>\$ 32,181</u> | <u>\$ 23,919</u> |
| Total related tax benefit | <u>\$ 9,230</u> | <u>\$ 11,561</u> | <u>\$ 8,947</u> |

Stock Option Plans – Stock options are generally granted on an annual basis, vest 25% per year over four years and have a seven-year maximum term.

The fair value of each stock option granted is estimated on the grant date using the Black-Scholes ("Black-Scholes") option valuation model. The assumptions used to calculate the fair value of options granted are evaluated and revised, as necessary, to reflect market conditions and the Company's experience. These options are expensed on a straight-line basis over the vesting period, which is considered to be the requisite service period. Compensation expense is recognized only for those options expected to vest, with forfeitures estimated at the date of grant based on the Company's historical experience and future expectations.

The fair value of stock-based awards to employees is estimated on the date of grant using the Black-Scholes valuation with the following assumptions:

| Black-Scholes Valuation Assumptions | Employee Stock Option Plans | | |
|--|------------------------------------|-----------------|-----------------|
| | <u>2013</u> | <u>2012</u> | <u>2011</u> |
| Expected life (years) ⁽¹⁾ | 5.33 | 5.70 | 5.76 |
| Expected volatility ⁽²⁾ | 36.10% - 47.86% | 44.52% - 49.38% | 44.27% - 48.93% |
| Weighted average volatility | 46.71% | 47.25% | 46.16% |
| Risk-free interest rate ⁽³⁾ | 0.73% - 1.73% | 0.59% - 1.57% | 0.89% - 2.70% |
| Expected dividend yield ⁽⁴⁾ | 0.98% - 1.04% | 0.98% - 1.25% | — |
| Weighted average grant date fair value | \$ 18.31 | \$ 19.24 | \$ 18.06 |

(1) The expected term of the options represents the estimated period of time until exercise and is based on historical experience of similar awards giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior.

(2) Expected volatility is based on the historical volatility of the Company's common stock over a timeframe consistent with the expected life of the stock options.

DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

- (3) The risk-free interest rate is based on the implied yield available on U.S. Treasury constant maturity interest rates whose term is consistent with the expected life of the stock options.
- (4) The Company declared its first dividend in December 2011. Options granted subsequent to the declaration of the initial dividend reflect the anticipated future cash dividend payouts.

The assumptions used to calculate the fair value of options granted are evaluated and revised, as necessary, to reflect market conditions and experience.

The stock option activity from January 29, 2011 through February 1, 2014 is presented in the following table:

The aggregate intrinsic value reported in the table above is based on the Company's closing stock prices for the last business day of the period indicated. The total intrinsic value for stock options exercised during 2013, 2012 and 2011 was \$67.2 million, \$186.5 million and \$61.3 million, respectively. The total fair value of options vested during 2013, 2012 and 2011 was \$14.9 million, \$7.1 million and \$12.2 million, respectively. The nonvested stock option activity for the year ended February 1, 2014 is presented in the following table:

| | Shares Subject to Options | Weighted Average Grant Date Fair Value |
|-----------------------------|---------------------------------|---|
| Nonvested, February 2, 2013 | 2,616,875 | \$ 11.88 |

Restricted Stock – The Company issues shares of restricted stock to eligible employees, which are subject to forfeiture until the end of an applicable vesting period. The awards generally vest on the third anniversary of the date of grant, subject to the employee's continuing employment as of that date.

The restricted stock activity from January 29, 2011 through February 1, 2014 is presented in the following table:

| | Shares | Weighted Average Grant Date Fair Value |
|-----------------------------|-----------|--|
| Nonvested, January 29, 2011 | 1,991,068 | \$ 24.11 |
| Granted | 658,393 | 39.54 |

| Forfeited | (553,621) | 39.93 |
| Nonvested, February 1, 2014 | 2,431,654 | \$ 45.93 |

As of February 1, 2014, total unrecognized stock-based compensation expense related to nonvested shares of restricted stock, net of estimated forfeitures, was approximately \$24.5 million before income taxes, which is expected to be recognized over a weighted average period of approximately 2.45 years.

In March 2010, the Company issued a special grant of performance-based restricted stock in support of the Company's long-term strategic initiatives which vested, in whole or in part, at the end of a three-year period upon the successful achievement of pre-established performance criteria. As of February 2, 2013, nonvested restricted stock outstanding included 654,194 shares of these performance-based awards, of which seventy-five percent vested on April 5, 2013. The remaining shares were forfeited and are available for issuance under the Plan.

DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

During 2013, the Company granted 1,185,793 shares of performance-based restricted stock in support of the Company's five-year strategic plan. As of February 1, 2014, nonvested restricted stock outstanding included 992,632 shares of these performance-based awards, which vest at the end of a five-year period based upon the achievement of certain pre-established financial performance metrics at the end of the performance period, with an opportunity for earlier vesting if the target metrics are achieved at the end of any fiscal year within the performance period. As of February 1, 2014, these awards were not deemed probable of achieving the pre-established financial performance metric.

11. Income Taxes

The components of the provision for income taxes are as follows (in thousands):

| | <u>2013</u> | <u>2012</u> | <u>2011</u> |

| Total deferred tax liabilities | <u>(160,095)</u> | <u>(132,180)</u> |
| Net deferred tax asset | <u>\$ 2,695</u> | <u>\$ 27,258</u> |

In 2013, of the \$2.7 million net deferred tax asset, \$38.8 million is included within current assets, \$2.5 million is included within other long-term assets and \$38.6 million is included within other long-term liabilities on the Consolidated Balance Sheets. In 2012, of the \$27.3 million net deferred tax asset, \$30.3 million is included within current assets, \$4.4 million is included within other long-term assets and \$7.4 million is included within other long-term liabilities on the Consolidated Balance Sheets.

The Company determined that a valuation allowance of \$7.9 million was required for a portion of the deferred tax asset recorded in fiscal 2012 relating to a \$32.4 million net capital loss carryforward resulting from the impairment of its investment in JJB Sports, plc ("JJB Sports"). During the first quarter of 2013, the Company determined that it would recover \$4.3 million of its investment in JJB Sports, which it had previously fully impaired. There is no related tax expense for this recovery as the Company reversed a portion of the deferred tax valuation allowance it had previously recorded for net capital loss carryforwards it did not expect to realize at the time its investment in JJB Sports was fully impaired.

As of February 1, 2014, the total liability for uncertain tax positions, including related interest and penalties, was approximately \$9.0 million.

DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The following table represents a reconciliation of the Company's total unrecognized tax benefits balances, excluding interest and penalties (in thousands):

| | 2013 | 2012 | 2011 |
|---|-----------------|------------------|------------------|
| Beginning of fiscal year | \$ 10,670 | \$ 18,692 | \$ 13,560 |

| End of fiscal year | <u>\$ 7,507</u> | <u>\$ 10,670</u> | <u>\$ 18,692</u> |

Included in the balance at February 1, 2014 are \$4.4 million of unrecognized tax benefits that would impact our effective tax rate if recognized. The Company recognizes accrued interest and penalties related to unrecognized tax benefits in income tax expense.

As of February 1, 2014, the liability for uncertain tax positions included \$1.5 million for the accrual of interest and penalties. During fiscal 2013, 2012 and 2011, the Company recorded \$0.9 million, \$0.8 million and \$1.3 million, respectively, for the accrual of interest and penalties in its Consolidated Statements of Income. The Company has federal, state and local examinations currently ongoing. It is possible that these examinations may be resolved within 12 months. Due to the potential for resolution of these examinations, and the expiration of various statutes of limitation, it is reasonably possible that \$0.6 million of the Company's gross unrecognized tax benefits and interest at February 1, 2014 could be recognized within the next 12 months. The Company does not anticipate that changes in its unrecognized tax benefits will have a material impact on the Consolidated Statements of Income during fiscal 2014.

The Company participates in the Internal Revenue Service ("IRS") Compliance Assurance Program ("CAP"). As part of the CAP, tax years are audited on a contemporaneous basis so that all or most issues are resolved prior to the filing of the tax return. The IRS has completed examinations of 2012 and all prior tax years. The Company is no longer subject to examination in any of its major state jurisdictions for years prior to 2006.

13. Retirement Savings Plans

The Company's retirement savings plan, established pursuant to Section 401(k) of the Internal Revenue Code, covers regular status full-time hourly and salaried employees as of their date of hire and part-time regular employees who have worked 1,000 hours or more in a year and attained 21 years of age. Under the terms of the retirement savings plan, the Company may make a discretionary matching contribution equal to a percentage of each participant's contribution, up to 10% of the participant's compensation. The Company's discretionary matching contribution percentage is typically 50%. Total employer contributions recorded under the plan, net of forfeitures, was \$6.4 million, \$5.3 million and \$4.9 million for fiscal 2013, 2012 and 2011, respectively.

The Company also has non-qualified deferred compensation plans for highly compensated employees whose contributions are limited under qualified defined contribution plans. Amounts contributed and deferred under the deferred compensation plans are credited or charged with the performance of investment options offered under the plans and elected by the participants. In the event of bankruptcy, the assets of these plans are available to satisfy the claims of general creditors. The liability for compensation deferred under the Company's plans was \$49.4 million and \$36.9 million at February 1, 2014 and February 2, 2013, respectively, and is included within long-term liabilities on the Consolidated Balance Sheets. Total employer contributions recorded under these plans, net of forfeitures, was \$1.0 million, \$0.9 million and \$0.2 million for fiscal 2013, 2012 and 2011, respectively.

14. Commitments and Contingencies

Marketing and Naming Rights Commitments

Within the ordinary course of business, the Company enters into contractual commitments in order to promote the Company's brand and products, including media and naming rights extending through 2026. The aggregate payments under these commitments were \$29.0 million, \$25.8 million and \$35.4 million during fiscal 2013, 2012 and 2011, respectively. The aggregate amount of future minimum payments at February 1, 2014 is as follows (in thousands):

| <u>Fiscal Year</u> | |
|---------------------------|-------------------|
| 2014 | \$ 46,735 |
| 2015 | 28,760 |
| 2016 | 22,061 |
| 2017 | 2,561 |
| 2018 | 2,638 |
| Thereafter | 23,127 |
| Total | <u>\$ 125,882</u> |

Licenses for Trademarks

Within the ordinary course of business, the Company enters into licensing agreements for the exclusive or preferential rights to use certain trademarks extending through 2020. Under specific agreements, the Company is obligated to pay annual guaranteed minimum royalties. Also, the Company is required to pay additional royalties when the royalties that are based on qualified purchases or retail sales (dependent upon the agreement) exceed the guaranteed minimum. The aggregate payments under these commitments were \$16.8 million, \$17.8 million and \$9.0 million during fiscal 2013, 2012 and 2011, respectively. The aggregate amount of future minimum payments at February 1, 2014 is as follows (in thousands):

| <u>Fiscal Year</u> | |
|--------------------|-------------------|
| 2014 | \$ 16,014 |
| 2015 | 17,257 |
| 2016 | 18,264 |
| 2017 | 20,052 |
| 2018 | 20,152 |
| Thereafter | 40,604 |
| Total | <u>\$ 132,343</u> |

Other

The Company also has other non-cancellable contractual commitments, including technology-related commitments extending through 2017. The aggregate payments under these commitments were \$43.9 million, \$9.6 million and \$25.6 million during fiscal 2013, 2012 and 2011, respectively. The aggregate amount of future minimum payments at February 1, 2014 is as follows (in thousands):

| <u>Fiscal Year</u> | |
|--------------------|-----------------|
| 2014 | \$ 2,926 |
| 2015 | 2,635 |
| 2016 | 2,979 |
| 2017 | 994 |
| 2018 | — |
| Thereafter | — |
| Total | <u>\$ 9,534</u> |

The Company is involved in legal proceedings incidental to the normal conduct of its business. Although the outcome of any pending legal proceedings cannot be predicted with certainty, management believes that adequate insurance coverage is maintained and that the ultimate resolution of these matters will not have a material adverse effect on the Company's liquidity, financial position or results of operations.

15. Investment in JJB Sports

On April 27, 2012, the Company invested an aggregate of £20 million in JJB Sports, a retail sports company based in the United Kingdom, consisting of junior secured convertible notes ("Convertible Notes") in the principal amount of £18.75 million and 12.5 million ordinary shares ("Ordinary Shares") of JJB Sports for £1.25 million, for a total cash outlay of \$32.0 million. The Company classified its investments in JJB Sports as available-for-sale investments, which were recorded at fair value. As of July 28, 2012, the Company recorded an other-than-temporary impairment charge of \$30.4 million on the Convertible Notes and \$2.0 million on the Ordinary Shares within the Consolidated Statements of Income, fully impairing the carrying value of its investment as of July 28, 2012.

The Company's initial fair value of its investment in the Convertible Notes was determined using a binomial lattice model with Level 2 inputs, including JJB Sports' stock price, the expected stock price volatility, the interest rate on the Convertible Notes, the risk-free interest rate based upon appropriate government yield curves and option-adjusted spreads for comparable

securities. Due to the use of discounted expected future cash flows to derive the fair value of the Convertible Notes, the Company reclassified its investment as a Level 3 investment (see Note 16) during the fiscal quarter ended July 28, 2012.

During the first quarter of 2013, the Company recorded \$4.3 million related to the partial recovery of its fully impaired investment in JJB Sports. The Company has received, and may receive in future periods, additional immaterial recoveries.

16. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). ASC 820, "*Fair Value Measurement and Disclosures*", outlines a valuation framework and creates a fair value hierarchy in order to increase the consistency and comparability of fair value measurements and the related disclosures and prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Assets measured at fair value on a recurring basis as of February 1, 2014 and February 2, 2013 are set forth in the table below:

| <u>Description</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
|--|------------------|----------------|----------------|
| As of February 1, 2014 | | | |
| Assets: | | | |
| Deferred compensation plan assets held in trust ⁽¹⁾ | \$ 49,351 | \$ — | \$ — |
| Total assets | <u>\$ 49,351</u> | <u>\$ —</u> | <u>\$ —</u> |
| As of February 2, 2013 | | | |
| Assets: | | | |
| Deferred compensation plan assets held in trust ⁽¹⁾ | \$ 36,871 | \$ — | \$ — |
| Total assets | <u>\$ 36,871</u> | <u>\$ —</u> | <u>\$ —</u> |

⁽¹⁾ Consists of investments in various mutual funds made by eligible individuals as part of the Company's deferred compensation plan (See Note 13).

The fair value of cash and cash equivalents, accounts receivable, accounts payable and certain other liabilities approximated book value due to the short-term nature of these instruments at both February 1, 2014 and February 2, 2013.

The Company uses quoted prices in active markets to determine the fair value of the aforementioned assets determined to be Level 1 instruments. There were no transfers between Levels 1 and 2 during fiscal 2013 and 2012. The Company did not hold any Level 3 financial assets or liabilities as of February 1, 2014 and February 2, 2013. The Company's policy for recognition of transfers between levels of the fair value hierarchy is to recognize any transfer at the end of the fiscal quarter in which the determination to transfer was made.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The following table provides a reconciliation of the beginning and ending balances of assets measured at fair value on a recurring basis using Level 3 inputs (in thousands):

| | 2012 |
|--|-------------|
| Beginning balance, January 28, 2012 | \$ — |
| Transfers in (see Note 15) | 32,370 |
| Total realized losses included in net income | (32,370) |
| Ending balance, February 2, 2013 | \$ — |

Realized losses are included within impairment of available-for-sale investments on the Consolidated Statements of Income.

17. Related Party Transaction

On July 17, 2013, the Company entered into a purchase agreement (the "Purchase Agreement") with SP Aviation, LLC, an entity 50% owned by our Chairman and Chief Executive Officer. Pursuant to the Purchase Agreement, the Company sold a Gulfstream G200 corporate aircraft to SP Aviation, LLC for \$11.0 million, paid in cash, representing the Company's carrying value of the asset at the time of sale. The transaction was approved pursuant to the Company's Related Party Transaction Policy.

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES

This Annual Report to Stockholders contains certain non-GAAP financial information. The adjusted financial information is considered non-GAAP and is not preferable to generally accepted accounting principles ("GAAP") financial information; however, the Company believes this information provides additional measures of performance that the Company's management, analysts and investors can use to compare core operating results between reporting periods. The Company has provided reconciliations below for EBITDA, ROIC, net income and earnings per share adjusted to exclude the recovery of a previously impaired asset, an asset impairment charge, an impairment of available-for-sale investments, a gain on sale of investment, the impact of a litigation settlement, and fiscal 2012 net sales adjusted for the 53rd week. All fiscal years presented include 52 weeks of operations except fiscal 2012, which includes 53 weeks.

EBITDA

EBITDA should not be considered as an alternative to net income or any other GAAP measure of performance or liquidity and may not be comparable to similarly titled measures reported by other companies. EBITDA is a key metric used by the Company that provides a measurement of profitability that eliminates the effect of changes resulting from financing decisions, tax regulations and capital investments.

¹ During the first quarter of 2013, the Company determined that it would recover \$4.3 million of its investment in JJB Sports, which it had previously fully impaired. There is no related tax expense as the Company reversed a portion of the deferred tax valuation allowance it had previously recorded for net capital loss carryforwards it did not expect to realize at the time its investment in JJB Sports was fully impaired.

² During the second quarter of 2013, the Company recorded a pre-tax \$7.9 million non-cash impairment charge to reduce the carrying value of a corporate aircraft held for sale to its fair market value. The provision for income taxes was calculated at 40%, which approximates the Company's blended tax rate.
