

Suburban Propane®

Our Business is Customer Satisfaction

2014
ANNUAL REPORT

Partnership Profile

A Master Limited Partnership since 1996, Suburban Propane Partners, L.P. (NYSE:SPH) has been in the customer service business since 1928. A value and growth-oriented company headquartered in Whippany, New Jersey, Suburban is managed for long-term, consistent performance.

Suburban is a nationwide marketer and distributor of a diverse array of energy-related products, specializing in propane, fuel oil and refined fuels, as well as marketing natural gas and electricity in deregulated markets. With approximately 3,800 full-time employees, Suburban maintains business operations in 41 states, providing dependable service to approximately 1.2 million residential, commercial, industrial and agricultural customers through more than 710 company-owned locations.

According to Department of Energy statistics, approximately 5 percent of U.S. households depend on propane as their primary space heating fuel and about 6 percent utilize fuel oil as their main heating fuel. Propane is an abundant, clean-burning, environmentally safe fuel with 100 percent of Suburban's supply produced in North America.

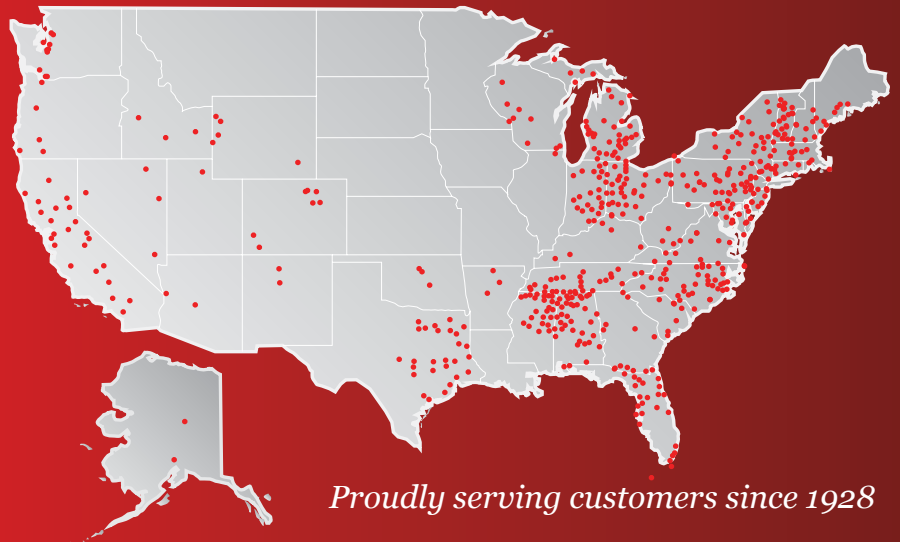

As one of the largest retail marketers of propane in the United States, Suburban had retail propane sales of 530.7 million gallons in fiscal 2014. In addition, Suburban sold 49.1 million gallons of fuel oil and other refined fuels.

It is the mission of Suburban Propane to:

Serve our customers, employees and communities by maintaining the highest level of safety standards, ethical principles, satisfaction and total value in all that we do.

Key Investment Considerations

- Attractive tax-advantaged current yield
- Consistent track record of cash distributions
- Investor-friendly partnership structure
 - MLP is controlled by unitholders through independently elected Board of Supervisors
 - No incentive distribution rights (IDRs)
 - Low relative cost of capital
- Leading propane MLP with stable cash flows
 - Diversity of geography and customer base
 - Flexible cost structure
- Strong financial position and distribution coverage
- Experienced and proven management team

Proudly serving customers since 1928

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements (“Forward-Looking Statements”) as defined in the Private Securities Litigation Reform Act of 1995 and Section 27A of the Securities Act of 1933, as amended, relating to future business expectations and predictions and financial condition and results of operations of Suburban Propane Partners, L.P. (the “Partnership”). Some of these statements can be identified by the use of forward-looking terminology such as “prospects,” “outlook,” “believes,” “estimates,” “intends,” “may,” “will,” “should,” “anticipates,” “expects” or “plans” or the negative or other variation of these or similar words, or by discussion of trends and conditions, strategies or risks and uncertainties. These Forward-Looking Statements involve certain risks and uncertainties that could cause actual results to differ materially from those discussed or implied in such Forward-Looking Statements (statements contained in this Annual Report identifying such risks and uncertainties are referred to as “Cautionary Statements”). The risks and uncertainties and their impact on the Partnership’s results include, but are not limited to, the following risks:

- The impact of weather conditions on the demand for propane, fuel oil and other refined fuels, natural gas and electricity;
- Volatility in the unit cost of propane, fuel oil and other refined fuels and natural gas, the impact of the Partnership’s hedging and risk management activities, and the adverse impact of price increases on volumes as a result of customer conservation;
- The cost savings expected from the Partnership’s acquisition of the retail propane operations formerly owned by Inergy, L.P. (the “Inergy Propane Acquisition”) may not be fully realized or realized within the expected time frame;
- The costs of integrating the business acquired in the Inergy Propane Acquisition into the Partnership’s existing operations may be greater than expected;
- The ability of the Partnership to compete with other suppliers of propane, fuel oil and other energy sources;
- The impact on the price and supply of propane, fuel oil and other refined fuels from the political, military or economic instability of the oil producing nations, global terrorism and other general economic conditions;
- The ability of the Partnership to acquire sufficient volumes of, and the costs to the Partnership of acquiring, transporting and storing, propane, fuel oil and other refined fuels;
- The ability of the Partnership to acquire and maintain reliable transportation for its propane, fuel oil and other refined fuels;
- The ability of the Partnership to retain customers or acquire new customers;
- The impact of customer conservation, energy efficiency and technology advances on the demand for propane, fuel oil and other refined fuels, natural gas and electricity;
- The ability of management to continue to control expenses;
- The impact of changes in applicable statutes and government regulations, or their interpretations, including those relating to the environment and global warming, derivative instruments and other regulatory developments on the Partnership’s business;
- The impact of changes in tax laws that could adversely affect the tax treatment of the Partnership for income tax purposes;
- The impact of legal proceedings on the Partnership’s business;
- The impact of operating hazards that could adversely affect the Partnership’s operating results to the extent not covered by insurance;
- The Partnership’s ability to make strategic acquisitions and successfully integrate them, including but not limited to Inergy Propane;
- The impact of current conditions in the global capital and credit markets, and general economic pressures;
- The operating, legal and regulatory risks Suburban may face; and
- Other risks referenced from time to time in filings with the Securities and Exchange Commission (“SEC”) and those factors listed or incorporated by reference into this Annual Report under “Risk Factors.”

Some of these Forward-Looking Statements are discussed in more detail in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this Annual Report. On different occasions, the Partnership or its representatives have made or may make Forward-Looking Statements in other filings with the SEC, press releases or oral statements made by or with the approval of one of the Partnership’s authorized executive officers. Readers are cautioned not to place undue reliance on Forward-Looking Statements, which reflect management’s view only as of the date made. The Partnership undertakes no obligation to update any Forward-Looking Statement or Cautionary Statement, except as required by law. All subsequent written and oral Forward-Looking Statements attributable to the Partnership or persons acting on its behalf are expressly qualified in their entirety by the Cautionary Statements in this Annual Report and in future SEC reports. For a more complete discussion of specific factors which could cause actual results to differ from those in the Forward-Looking Statements or Cautionary Statements, see “Risk Factors” in this Annual Report.

PART I

ITEM 1. BUSINESS

Development of Business

Suburban Propane Partners, L.P. (the “Partnership”), a publicly traded Delaware limited partnership, is a nationwide marketer and distributor of a diverse array of products meeting the energy needs of our customers. We specialize in the distribution of propane, fuel oil and refined fuels, as well as the marketing of natural gas and electricity in deregulated markets. In support of our core marketing and distribution operations, we install and service a variety of home comfort equipment, particularly in the areas of heating and ventilation. We believe, based on *LP/Gas Magazine* dated February 2014, that we are the third largest retail marketer of propane in the United States, measured by retail gallons sold in the calendar year 2013. As of September 27, 2014, we were serving the energy needs of approximately 1.2 million residential, commercial, industrial and agricultural customers through approximately 710 locations in 41 states with operations principally concentrated in the east and west coast regions of the United States, including Alaska. We sold approximately 530.7 million gallons of propane and 49.1 million gallons of fuel oil and refined fuels to retail customers during the year ended September 27, 2014. Together with our predecessor companies, we have been continuously engaged in the retail propane business since 1928.

We conduct our business principally through Suburban Propane, L.P., a Delaware limited partnership, which operates our propane business and assets (the “Operating Partnership”), and its direct and indirect subsidiaries. Our general partner, and the general partner of our Operating Partnership, is Suburban Energy Services Group LLC (the “General Partner”), a Delaware limited liability company whose sole member is the Chief Executive Officer of the Partnership. Since October 19, 2006, the General Partner has no economic interest in either the Partnership or the Operating Partnership (which means that the General Partner is not entitled to any cash distributions of either partnership, nor to any cash payment upon the liquidation of either partnership, nor any other economic rights in either partnership) other than as a holder of 784 Common Units of the Partnership. Additionally, under the Third Amended and Restated Agreement of Limited Partnership (the “Partnership Agreement”) of the Partnership, there are no incentive distribution rights for the benefit of the General Partner. The Partnership owns (directly and indirectly) all of the limited partner interests in the Operating Partnership. The Common Units represent 100% of the limited partner interests in the Partnership.

On August 1, 2012 (the “Acquisition Date”), we acquired the sole membership interest in Inergy Propane, LLC, including certain wholly-owned subsidiaries of Inergy Propane LLC, and the assets of Inergy Sales and Service, Inc. (the “Inergy Propane Acquisition”). The acquired interests and assets are collectively referred to as “Inergy Propane.” As of the Acquisition Date, Inergy Propane consisted of the former retail propane assets and operations, as well as the assets and operations of the refined fuels business, of Inergy, L.P. (“Inergy”), a publicly traded limited partnership at the time of the acquisition. On the Acquisition Date, Inergy Propane and its remaining wholly-owned subsidiaries which we acquired in the Inergy Propane Acquisition became subsidiaries of our Operating Partnership, but were merged into the Operating Partnership on April 30, 2013. The results of operations of Inergy Propane are included in the Partnership’s results of operations beginning on the Acquisition Date.

With the Inergy Propane Acquisition, we effectively doubled the size of our customer base and expanded our geographic reach into eleven (11) new states, including establishing a presence in portions of the midwest region of the United States. The Inergy Propane Acquisition was consistent with key elements of our business strategy to focus on businesses that complement our existing business segments and that can extend our presence in strategically attractive markets. This acquisition has provided, and will continue to provide, us with an opportunity to apply our operational expertise and customer-oriented initiatives to a much larger enterprise in order to enhance our growth prospects and cash flow profile. The total cost of the Inergy Propane Acquisition, as measured by the fair value of the total consideration was approximately \$1.9 billion.

Direct and indirect subsidiaries of the Operating Partnership include Suburban Heating Oil Partners, LLC, which owns and operates the assets of our fuel oil and refined fuels business; Agway Energy Services, LLC, which owns and operates the assets of our natural gas and electricity business; and Suburban Sales and Service, Inc., which conducts a portion of our service work and appliance and parts business. Our fuel oil and refined fuels, natural gas

and electricity and services businesses are structured as either limited liability companies that are treated as corporations or corporate entities (collectively referred to as “Corporate Entities”) and, as such, are subject to corporate level income tax.

Suburban Energy Finance Corp., a direct 100%-owned subsidiary of the Partnership, was formed on November 26, 2003 to serve as co-issuer, jointly and severally with the Partnership, of the Partnership’s senior notes. Suburban Energy Finance Corp. has nominal assets and conducts no business operations.

In this Annual Report, unless otherwise indicated, the terms “Partnership,” “Suburban,” “we,” “us,” and “our” are used to refer to Suburban Propane Partners, L.P. and its consolidated subsidiaries, including the Operating Partnership. The Partnership and the Operating Partnership commenced operations in March 1996 in connection with the Partnership’s initial public offering of Common Units.

We currently file Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and current reports on Form 8-K with the SEC. You may read and receive copies of any materials that we file with the SEC at the SEC’s Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Any information filed by us is also available on the SEC’s EDGAR database at www.sec.gov.

Upon written request or through an information request link from our website at www.suburbanpropane.com, we will provide, without charge, copies of our Annual Report on Form 10-K for the year ended September 27, 2014, each of the Quarterly Reports on Form 10-Q, current reports filed or furnished on Form 8-K and all amendments to such reports as soon as is reasonably practicable after such reports are electronically filed with or furnished to the SEC. Requests should be directed to: Suburban Propane Partners, L.P., Investor Relations, P.O. Box 206, Whippany, New Jersey 07981-0206. The information contained on our website is not included as part of, or incorporated by reference into, this Annual Report on Form 10-K.

Our Strategy

Our business strategy is to deliver increasing value to our Unitholders through initiatives, both internal and external, that are geared toward achieving sustainable profitable growth and steady or increased quarterly distributions. The following are key elements of our strategy:

Internal Focus on Driving Operating Efficiencies, Right-Sizing Our Cost Structure and Enhancing Our Customer Mix. We focus internally on improving the efficiency of our existing operations, managing our cost structure and improving our customer mix. Through investments in our technology infrastructure, we continue to seek to improve operating efficiencies and the return on assets employed. We have developed a streamlined operating footprint and management structure to facilitate effective resource planning and decision making. Our internal efforts are particularly focused in the areas of route optimization, forecasting customer usage, inventory control, cash management and customer tracking. In connection with the Inergy Propane Acquisition, we have developed, and are implementing, a detailed integration plan to combine the best practices of the two companies while, at the same time, continuing to pursue efficiencies and operational excellence. Our strategy will include continuing to execute on our integration plans and staying focused on providing exceptional service to the combined customer base. We will pursue opportunities to drive operational efficiencies across a broader geography. Our systems platform is advanced and scalable and we will seek to leverage that technology for enhanced routing, forecasting and customer relationship management, as well as centralizing certain back office functions within the former Inergy Propane operations.

Growing Our Customer Base by Improving Customer Retention and Acquiring New Customers. We set clear objectives to focus our employees on seeking new customers and retaining existing customers by providing highly responsive customer service. We believe that customer satisfaction is a critical factor in the growth and success of our operations. ***“Our Business is Customer Satisfaction”*** is one of our core operating philosophies. We measure and reward our customer service centers based on a combination of profitability of the individual customer service center and net customer growth. We have made investments in training our people both on techniques to provide exceptional customer service to our existing customer base, as well as advanced sales training focused on growing our customer base.

Selective Acquisitions of Complementary Businesses or Assets. Externally, we seek to extend our presence or diversify our product offerings through selective acquisitions. Our acquisition strategy is to focus on businesses with a relatively steady cash flow that will extend our presence in strategically attractive markets, complement our existing business segments or provide an opportunity to diversify our operations. We are very patient and deliberate in evaluating acquisition candidates. Consistent with this strategy, the Inergy Propane Acquisition, completed on August 1, 2012, was a transformative event for Suburban by expanding our geographic reach, doubling the size of our customer base and providing us with opportunities to achieve operational synergies by combining operations in overlapping territories and implementing our operating model and systems platform on a much larger business.

Selective Disposition of Non-Strategic Assets. We continuously evaluate our existing facilities to identify opportunities to optimize our return on assets by selectively divesting operations in slower growing markets, generating proceeds that can be reinvested in markets that present greater opportunities for growth. Our objective is to maximize the growth and profit potential of all of our assets.

Business Segments

We manage and evaluate our operations in five operating segments, three of which are reportable segments: Propane, Fuel Oil and Refined Fuels and Natural Gas and Electricity. These business segments are described below. See the Notes to the Consolidated Financial Statements included in this Annual Report for financial information about our business segments.

Propane

Propane is a by-product of natural gas processing and petroleum refining. It is a clean burning energy source recognized for its transportability and ease of use relative to alternative forms of stand-alone energy sources. Propane use falls into three broad categories:

- residential and commercial applications;
- industrial applications; and
- agricultural uses.

In the residential and commercial markets, propane is used primarily for space heating, water heating, clothes drying and cooking. Industrial customers use propane generally as a motor fuel to power over-the-road vehicles, forklifts and stationary engines, to fire furnaces, as a cutting gas and in other process applications. In the agricultural market, propane is primarily used for tobacco curing, crop drying, poultry brooding and weed control.

Propane is extracted from natural gas or oil wellhead gas at processing plants or separated from crude oil during the refining process. It is normally transported and stored in a liquid state under moderate pressure or refrigeration for ease of handling in shipping and distribution. When the pressure is released or the temperature is increased, propane becomes a flammable gas that is colorless and odorless, although an odorant is added to allow its detection. Propane is clean burning and, when consumed, produces only negligible amounts of pollutants.

Product Distribution and Marketing

We distribute propane through a nationwide retail distribution network consisting of approximately 700 locations in 41 states as of September 27, 2014. Our operations are principally concentrated in the east and west coast regions of the United States, including Alaska. As of September 27, 2014, we serviced approximately 1,027,000 propane customers. Typically, our customer service centers are located in suburban and rural areas where natural gas is not readily available. Generally, these customer service centers consist of an office, appliance showroom, warehouse and service facilities, with one or more 18,000 to 30,000 gallon storage tanks on the premises. Most of our residential customers receive their propane supply through an automatic delivery system. These deliveries are scheduled through proprietary computer technology, based upon each customer's historical consumption patterns and prevailing weather conditions. Additionally, we offer our customers a budget payment plan whereby the customer's estimated annual propane purchases and service contracts are paid for in a series of estimated equal monthly payments over a twelve-month period. From our customer service centers, we also sell, install and service equipment to customers who

purchase propane from us including heating and cooking appliances and, at some locations, propane fuel systems for motor vehicles.

We sell propane primarily to six customer markets: residential, commercial, industrial (including engine fuel), agricultural, other retail users and wholesale. Approximately 97% of the propane gallons sold by us in fiscal 2014 were to retail customers: 49% to residential customers, 26% to commercial customers, 7% to industrial customers, 5% to agricultural customers and 13% to other retail users. The balance of approximately 3% of the propane gallons sold by us in fiscal 2014 was for risk management activities and wholesale customers. No single customer accounted for 10% or more of our propane revenues during fiscal 2014.

Retail deliveries of propane are usually made to customers by means of bobtail and rack trucks. Propane is pumped from bobtail trucks, which have capacities ranging from 2,125 gallons to 2,975 gallons of propane, into a stationary storage tank on the customers' premises. The capacity of these storage tanks ranges from approximately 100 gallons to approximately 1,200 gallons, with a typical tank having a capacity of 300 to 400 gallons. As is common in the propane industry, we own a significant portion of the storage tanks located on our customers' premises. We also deliver propane to retail customers in portable cylinders, which typically have a capacity of 5 to 35 gallons. When these cylinders are delivered to customers, empty cylinders are refilled in place or transported for replenishment at our distribution locations. We also deliver propane to certain other bulk end users in larger trucks known as transports, which have an average capacity of approximately 9,000 gallons. End users receiving transport deliveries include industrial customers, large-scale heating accounts, such as local gas utilities that use propane as a supplemental fuel to meet peak load delivery requirements, and large agricultural accounts that use propane for crop drying.

Supply

Our propane supply is purchased from approximately 53 oil companies and natural gas processors at approximately 190 supply points located in the United States and Canada. We make purchases primarily under one-year agreements that are subject to annual renewal, and also purchase propane on the spot market. Supply contracts generally provide for pricing in accordance with posted prices at the time of delivery or the current prices established at major storage points, and some contracts include a pricing formula that typically is based on prevailing market prices. Some of these agreements provide maximum and minimum seasonal purchase guidelines. Propane is generally transported from refineries, pipeline terminals, storage facilities (including our storage facility in Elk Grove, California) and coastal terminals to our customer service centers by a combination of common carriers, owner-operators and railroad tank cars. See Item 2 of this Annual Report.

Historically, supplies of propane have been readily available from our supply sources. However, during the fiscal 2014 heating season, we were adversely affected by supply constraints resulting from industry-wide supply shortages and logistics issues involving propane transportation sourcing and costs. Nevertheless, through relationships with our suppliers and extraordinary efforts by our supply and logistics personnel, we were able to effectively manage the challenging environment in fiscal 2014 without a material disruption in supply. Although we make no assurance regarding the availability of supplies of propane in the future, we currently expect to be able to secure adequate supplies during fiscal 2015. During fiscal 2014, Crestwood Midstream Partners L.P. ("Crestwood"), Targa Liquids Marketing and Trade ("Targa") and Enterprise Products Partners L.P. ("Enterprise") provided approximately 19%, 13% and 13% of our total propane purchases, respectively. No other single supplier accounted for more than 10% of our propane purchases in fiscal 2014. The availability of our propane supply is dependent on several factors, including the severity of winter weather, the magnitude of competing demands for available supply (e.g., crop drying and exports), the availability of transportation and storage infrastructure and the price and availability of competing fuels, such as natural gas and fuel oil. We believe that if supplies from Crestwood, Targa or Enterprise were interrupted, we would be able to secure adequate propane supplies from other sources without a material disruption of our operations. Nevertheless, the cost of acquiring and transporting such propane might be higher and, at least on a short-term basis, our margins could be affected. Approximately 94% of our total propane purchases were from domestic suppliers in fiscal 2014.

We seek to reduce the effect of propane price volatility on our product costs and to help ensure the availability of propane during periods of short supply. We are currently a party to forward and option contracts with various third parties to purchase and sell propane at fixed prices in the future. These activities are monitored by our senior management through enforcement of our Hedging and Risk Management Policy. See Items 7 and 7A of this Annual

Report.

We own and operate a large propane storage facility in California. We also operate smaller storage facilities in other locations and have rights to use storage facilities in additional locations. These storage facilities enable us to buy and store large quantities of propane particularly during periods of low demand, which generally occur during the summer months. This practice helps ensure a more secure supply of propane during periods of intense demand or price instability. As of September 27, 2014, the majority of our storage capacity in California was leased to third parties.

Competition

According to the US Census Bureau's 2013 American Community Survey, propane ranks as the fourth most important source of residential energy in the nation, with about 5% of all households using propane as their primary space heating fuel. This level has not changed materially over the previous two decades. As an energy source, propane competes primarily with natural gas, electricity and fuel oil, principally on the basis of price, availability and portability.

Propane is more expensive than natural gas on an equivalent British Thermal Unit ("BTU") basis in locations serviced by natural gas, but it is an alternative or supplement to natural gas in rural and suburban areas where natural gas is unavailable or portability of product is required. Historically, the expansion of natural gas into traditional propane markets has been inhibited by the capital costs required to expand pipeline and retail distribution systems. Although the recent extension of natural gas pipelines to previously unserved geographic areas tends to displace propane distribution in those areas, we believe new opportunities for propane sales may arise as new neighborhoods are developed in geographically remote areas. However, over the last few years, fewer new housing developments have been started in our service areas as a result of recent economic circumstances. The increasing availability of natural gas extracted from shale deposits in the United States may accelerate the extension of natural gas pipelines in the future.

Propane has some relative advantages over other energy sources. For example, in certain geographic areas, propane is generally less expensive to use than electricity for space heating, water heating, clothes drying and cooking. Utilization of fuel oil is geographically limited (primarily in the northeast), and even in that region, propane and fuel oil are not significant competitors because of the cost of converting from one to the other.

In addition to competing with suppliers of other energy sources, our propane operations compete with other retail propane distributors. The retail propane industry is highly fragmented and competition generally occurs on a local basis with other large full-service multi-state propane marketers, thousands of smaller local independent marketers and farm cooperatives. Based on industry statistics contained in *2012 Sales of Natural Gas Liquids and Liquefied Refinery Gases*, as published by the American Petroleum Institute in December 2013, and *LP/Gas Magazine* dated February 2014, the ten largest retailers, including us, account for approximately 44% of the total retail sales of propane in the United States. Each of our customer service centers operates in its own competitive environment because retail marketers tend to locate in close proximity to customers in order to lower the cost of providing service. Our typical customer service center has an effective marketing radius of approximately 50 miles, although in certain areas the marketing radius may be extended by one or more satellite offices. Most of our customer service centers compete with five or more marketers or distributors.

Fuel Oil and Refined Fuels

Product Distribution and Marketing

We market and distribute fuel oil, kerosene, diesel fuel and gasoline to approximately 57,000 residential and commercial customers primarily in the northeast region of the United States. Sales of fuel oil and refined fuels for fiscal 2014 amounted to 49.1 million gallons. Approximately 66% of the fuel oil and refined fuels gallons sold by us in fiscal 2014 were to residential customers, principally for home heating, 8% were to commercial customers, and 7% to other users. Sales of diesel and gasoline accounted for the remaining 19% of total volumes sold in this segment during fiscal 2014. Fuel oil has a more limited use, compared to propane, and is used almost exclusively for space and water heating in residential and commercial buildings. We sell diesel fuel and gasoline to commercial and industrial customers for use primarily to operate motor vehicles.

Approximately 41% of our fuel oil customers receive their fuel oil under an automatic delivery system. These deliveries are scheduled through proprietary computer technology, based upon each customer's historical consumption patterns and prevailing weather conditions. Additionally, we offer our customers a budget payment plan whereby the customer's estimated annual fuel oil purchases are paid for in a series of estimated equal monthly payments over a twelve-month period. From our customer service centers, we also sell, install and service equipment to customers who purchase fuel oil from us including heating appliances.

Deliveries of fuel oil are usually made to customers by means of tankwagon trucks, which have capacities ranging from 2,500 gallons to 3,000 gallons. Fuel oil is pumped from the tankwagon truck into a stationary storage tank that is located on the customer's premises, which is owned by the customer. The capacity of customer storage tanks ranges from approximately 275 gallons to approximately 1,000 gallons. No single customer accounted for 10% or more of our fuel oil revenues during fiscal 2014.

Supply

We obtain fuel oil and other refined fuels in pipeline, truckload or tankwagon quantities, and have contracts with certain pipeline and terminal operators for the right to temporarily store fuel oil at 14 terminal facilities we do not own. We have arrangements with certain suppliers of fuel oil, which provide open access to fuel oil at specific terminals throughout the northeast. Additionally, a portion of our purchases of fuel oil are made at local wholesale terminal racks. In most cases, the supply contracts do not establish the price of fuel oil in advance; rather, prices are typically established based upon market prices at the time of delivery plus or minus a differential for transportation and volume discounts. We purchase fuel oil from approximately 25 suppliers at approximately 60 supply points. While fuel oil supply is more susceptible to longer periods of supply constraint than propane, we believe that our supply arrangements will provide us with sufficient supply sources. Although we make no assurance regarding the availability of supplies of fuel oil in the future, we currently expect to be able to secure adequate supplies during fiscal 2015.

Competition

The fuel oil industry is a mature industry with total demand expected to remain relatively flat to moderately declining. The fuel oil industry is highly fragmented, characterized by a large number of relatively small, independently owned and operated local distributors. We compete with other fuel oil distributors offering a broad range of services and prices, from full service distributors to those that solely offer the delivery service. We have developed a wide range of sales programs and service offerings for our fuel oil customer base in an attempt to be viewed as a full service energy provider and to build customer loyalty. For instance, like most companies in the fuel oil business, we provide home heating equipment repair service to our fuel oil customers on a 24-hour a day basis. The fuel oil business unit also competes for retail customers with suppliers of alternative energy sources, principally natural gas, propane and electricity.

Natural Gas and Electricity

We market natural gas and electricity through our 100%-owned subsidiary, Agway Energy Services, LLC ("AES"), in the deregulated markets of New York and Pennsylvania primarily to residential and small commercial customers. Historically, local utility companies provided their customers with all three aspects of electric and natural gas service: generation, transmission and distribution. However, under deregulation, public utility commissions in several states are licensing energy service companies, such as AES, to act as alternative suppliers of the commodity to end consumers. In essence, we make arrangements for the supply of electricity or natural gas to specific delivery points. The local utility companies continue to distribute electricity and natural gas on their distribution systems. The business strategy of this segment is to expand its market share by concentrating on growth in the customer base and expansion into other deregulated markets that are considered strategic markets.

We serve over 80,000 natural gas and electricity customers in New York and Pennsylvania. During fiscal 2014, we sold approximately 4.3 million dekatherms of natural gas and 476.2 million kilowatt hours of electricity through the natural gas and electricity segment. Approximately 83% of our customers were residential households and the remainder were small commercial and industrial customers. New accounts are obtained through numerous marketing

and advertising programs, including telemarketing and direct mail initiatives. Most local utility companies have established billing service arrangements whereby customers receive a single bill from the local utility company which includes distribution charges from the local utility company, as well as product charges for the amount of natural gas or electricity provided by AES and utilized by the customer. We have arrangements with several local utility companies that provide billing and collection services for a fee. Under these arrangements, we are paid by the local utility company for all or a portion of customer billings after a specified number of days following the customer billing with no further recourse to AES.

Supply of natural gas is arranged through annual supply agreements with major national wholesale suppliers. Pricing under the annual natural gas supply contracts is based on posted market prices at the time of delivery, and some contracts include a pricing formula that typically is based on prevailing market prices. The majority of our electricity requirements are purchased through the New York Independent System Operator (“NYISO”) under an annual supply agreement, as well as purchase arrangements through other national wholesale suppliers on the open market. Electricity pricing under the NYISO agreement is based on local market indices at the time of delivery. Competition is primarily with local utility companies, as well as other marketers of natural gas and electricity providing similar alternatives as AES.

All Other

We sell, install and service various types of whole-house heating products, air cleaners, humidifiers and space heaters to the customers of our propane, fuel oil, natural gas and electricity businesses. Our supply needs are filled through supply arrangements with several large regional equipment manufacturers and distribution companies. Competition in this business segment is primarily with small, local heating and ventilation providers and contractors, as well as, to a lesser extent, other regional service providers. The focus of our ongoing service offerings are in support of the service needs of our existing customer base within our propane, refined fuels and natural gas and electricity business segments. Additionally, we have entered into arrangements with third-party service providers to complement and, in certain instances, supplement our existing service capabilities.

Seasonality

The retail propane and fuel oil distribution businesses, as well as the natural gas marketing business, are seasonal because the primary use of these fuels is for heating residential and commercial buildings. Historically, approximately two-thirds of our retail propane volume is sold during the six-month peak heating season from October through March. The fuel oil business tends to experience greater seasonality given its more limited use for space heating, and approximately three-fourths of our fuel oil volumes are sold between October and March. Consequently, sales and operating profits are concentrated in our first and second fiscal quarters. Cash flows from operations, therefore, are greatest during the second and third fiscal quarters when customers pay for product purchased during the winter heating season. We expect lower operating profits and either net losses or lower net income during the period from April through September (our third and fourth fiscal quarters).

Weather conditions have a significant impact on the demand for our products, in particular propane, fuel oil and natural gas, for both heating and agricultural purposes. Many of our customers rely on propane, fuel oil or natural gas primarily as a heating source. Accordingly, the volume sold is directly affected by the severity of the winter weather in our service areas, which can vary substantially from year to year. In any given area, sustained warmer than normal temperatures will tend to result in reduced propane, fuel oil and natural gas consumption, while sustained colder than normal temperatures will tend to result in greater consumption.

Trademarks and Tradenames

We utilize a variety of trademarks and tradenames owned by us, including “Suburban Propane” and “Suburban Cylinder Express.” As part of the Inergy Propane Acquisition, we acquired a number of different tradenames, such as “Yates Gas,” under which Inergy Propane conducted its business as of the Acquisition Date. Additionally, we hold rights to certain trademarks and tradenames, including “Agway” in connection with the distribution of petroleum-based fuel and sales and service of heating and ventilation products. We regard our trademarks, tradenames and other proprietary rights as valuable assets and believe that they have significant value in the marketing of our products and

services.

Government Regulation; Environmental and Safety Matters

We are subject to various federal, state and local environmental, health and safety laws and regulations. Generally, these laws impose limitations on the discharge of hazardous materials and pollutants and establish standards for the handling, transportation, treatment, storage and disposal of solid and hazardous wastes and can require the investigation and cleanup of environmental contamination. These laws include the Resource Conservation and Recovery Act, the Comprehensive Environmental Response, Compensation and Liability Act (“CERCLA”), the Clean Air Act, the Occupational Safety and Health Act, the Emergency Planning and Community Right to Know Act, the Clean Water Act and comparable state statutes. CERCLA, also known as the “Superfund” law, imposes joint and several liability without regard to fault or the legality of the original conduct on certain classes of persons that are considered to have contributed to the release or threatened release of a “hazardous substance” into the environment. Propane is not a hazardous substance within the meaning of CERCLA, whereas some constituents contained in fuel oil are considered hazardous substances. We own real property at locations where such hazardous substances may be present as a result of prior activities.

We expect that we will be required to expend funds to participate in the remediation of certain sites, including sites where we have been designated as a potentially responsible party under CERCLA or comparable state statutes and at sites with aboveground and underground fuel storage tanks. We will also incur other expenses associated with environmental compliance. We continually monitor our operations with respect to potential environmental issues, including changes in legal requirements and remediation technologies.

Through an acquisition in fiscal 2004, and in the Inergy Propane Acquisition, we acquired certain properties with either known or probable environmental exposure, some of which are currently in varying stages of investigation, remediation or monitoring. Additionally, certain of the active sites acquired contained environmental conditions which required further investigation, future remediation or ongoing monitoring activities. The environmental exposures included instances of soil and/or groundwater contamination associated with the handling and storage of fuel oil, gasoline and diesel fuel. With respect to certain of the properties acquired in the Inergy Propane Acquisition, Inergy is contractually obligated to indemnify us for the costs associated with the investigation, monitoring, remediation and/or resolution of identified conditions. As of September 27, 2014, we had accrued environmental liabilities of \$0.6 million representing the total estimated future liability for remediation and monitoring of all of our properties.

Estimating the extent of our responsibility at a particular site, and the method and ultimate cost of remediation of that site, requires making numerous assumptions. As a result, the ultimate cost to remediate any site may differ from current estimates, and will depend, in part, on whether there is additional contamination, not currently known to us, at that site. However, we believe that our past experience provides a reasonable basis for estimating these liabilities. As additional information becomes available, estimates are adjusted as necessary. While we do not anticipate that any such adjustment would be material to our financial statements, the result of ongoing or future environmental studies or other factors could alter this expectation and require recording additional liabilities. We currently cannot determine whether we will incur additional liabilities or the extent or amount of any such liabilities, or the extent to which such additional liabilities would be subject to the contractual indemnification of Inergy.

National Fire Protection Association (“NFPA”) Pamphlet Nos. 54 and 58, which establish rules and procedures governing the safe handling of propane, or comparable regulations, have been adopted, in whole, in part or with state addenda, as the industry standard for propane storage, distribution and equipment installation and operation in all of the states in which we operate. In some states these laws are administered by state agencies, and in others they are administered on a municipal level.

NFPA Pamphlet Nos. 30, 30A, 31, 385 and 395, which establish rules and procedures governing the safe handling of distillates (fuel oil, kerosene and diesel fuel) and gasoline, or comparable regulations, have been adopted, in whole, in part or with state addenda, as the industry standard for fuel oil, kerosene, diesel fuel and gasoline storage, distribution and equipment installation/operation in all of the states in which we sell those products. In some states these laws are administered by state agencies and in others they are administered on a municipal level.

With respect to the transportation of propane, distillates and gasoline by truck, we are subject to regulations promulgated under the Federal Motor Carrier Improvement Safety Act. These regulations cover the transportation of hazardous materials and are administered by the United States Department of Transportation or similar state agencies. We conduct ongoing training programs to help ensure that our operations are in compliance with applicable safety regulations. We maintain various permits that are necessary to operate our facilities, some of which may be material to our operations. We believe that the procedures currently in effect at all of our facilities for the handling, storage, transportation and distribution of propane, distillates and gasoline are consistent with industry standards and are in compliance, in all material respects, with applicable laws and regulations.

The Department of Homeland Security (“DHS”) has published regulations under 6 CFR Part 27 Chemical Facility Anti-Terrorism Standards. We have a number of facilities registered with the DHS. Because our facilities are currently operating under the security programs developed under guidelines issued by the Department of Transportation, Department of Labor and Environmental Protection Agency, we do not anticipate that we will incur significant costs in connection with our ongoing efforts to comply with these DHS regulations.

In December 2009, the U.S. Environmental Protection Agency (“EPA”) issued an “Endangerment Finding” under the Clean Air Act, determining that emissions of carbon dioxide, methane and other greenhouse gases (“GHGs”) present an endangerment to public health and the environment because emissions of such gases may be contributing to warming of the earth’s atmosphere and other climatic changes. Based on these findings, the EPA has begun adopting and implementing regulations to restrict emissions of GHGs and require reporting by certain regulated facilities on an annual basis. The EPA’s authority to regulate GHGs was recently upheld by the U.S. Supreme Court.

Both Houses of the United States Congress also have considered adopting legislation to reduce emissions of GHGs. Although Congress has not yet enacted federal climate change legislation, numerous states and municipalities have adopted laws and policies on climate change.

The adoption of federal or state climate change legislation or regulatory programs to reduce emissions of GHGs could require us to incur increased capital and operating costs, with resulting impact on product price and demand. We cannot predict whether or in what form climate change legislation provisions and renewable energy standards may be enacted. In addition, a possible consequence of climate change is increased volatility in seasonal temperatures. It is difficult to predict how the market for our fuels would be affected by increased temperature volatility, although if there is an overall trend of warmer temperatures, it could adversely affect our business.

Future developments, such as stricter environmental, health or safety laws and regulations thereunder, could affect our operations. We do not anticipate that the cost of our compliance with environmental, health and safety laws and regulations, including CERCLA, as currently in effect and applicable to known sites will have a material adverse effect on our financial condition or results of operations. To the extent we discover any environmental liabilities presently unknown to us or environmental, health or safety laws or regulations are made more stringent, however, there can be no assurance that our financial condition or results of operations will not be materially and adversely affected.

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) was signed into law. The Dodd-Frank Act regulates derivative transactions, which include certain instruments used by the Partnership for risk management activities.

The Dodd-Frank Act requires the Commodity Futures Trading Commission (the “CFTC”) and the SEC to promulgate rules and regulations relating to, among other things, swaps, participants in the derivatives markets, clearing of swaps and reporting of swap transactions. In general, the Dodd-Frank Act subjects swap transactions and participants to greater regulation and supervision by the CFTC and the SEC and will require many swaps to be cleared through a registered CFTC- or SEC-clearing facility and executed on a designated exchange or swap execution facility.

Required transactional margins, capital, recordkeeping, reporting, clearing and settlement as a result of legislation (such as the Dodd-Frank Act) and related existing and proposed administrative rulemaking may increase our operational and transactional cost of entering and maintaining derivatives contracts and adversely affect the number

and/or creditworthiness of derivatives counterparties available to us. If we reduce our use of derivatives as a result of legislation and regulations, our results of operations may become more volatile and our cash flow may be less predictable.

Many of the states in which we do business have passed laws prohibiting “unfair or deceptive practices” in transactions between consumers and sellers of products used for residential purposes, which give the Attorney General or other officials of that state the authority to investigate alleged violations of those laws. From time to time, we receive inquiries or requests for additional information under these laws from the offices of Attorneys General or other government officials in connection with the sale of our products to residential customers. Based on information to date, we do not believe that the costs or liabilities associated with such inquiries or requests will result in a material adverse effect on our financial condition or results of operations; however, there can be no assurance that our financial condition or results of operations may not be materially and adversely affected as a result of current or future government investigations or civil litigation derived therefrom.

Employees

As of September 27, 2014, we had 3,796 full time employees, of whom 708 were engaged in general and administrative activities (including fleet maintenance), 37 were engaged in transportation and product supply activities and 3,051 were customer service center employees. As of September 27, 2014, 121 of our employees were represented by 16 different local chapters of labor unions. We believe that our relations with both our union and non-union employees are satisfactory. From time to time, we hire temporary workers to meet peak seasonal demands.

ITEM 1A. RISK FACTORS

Investing in our common units involves a high degree of risk. The most significant risks include those described below; however, additional risks that we currently do not know about may also impair our business operations. You should carefully consider the following risk factors, as well as the other information in this Annual Report. If any of the following risks actually occurs, our business, results of operations and financial condition could be materially adversely affected. In this case, the trading price of our common units would likely decline and you might lose part or all of the value in our common units. You should carefully consider the specific risk factors set forth below as well as the other information contained or incorporated by reference in this Annual Report. Some factors in this section are Forward-Looking Statements. See “Disclosure Regarding Forward-Looking Statements” above.

Risks Related to Our Business and Industry

Since weather conditions may adversely affect demand for propane, fuel oil and other refined fuels and natural gas, our results of operations and financial condition are vulnerable to warm winters.

Weather conditions have a significant impact on the demand for propane, fuel oil and other refined fuels and natural gas for both heating and agricultural purposes. Many of our customers rely on propane, fuel oil or natural gas primarily as a heating source. The volume of propane, fuel oil and natural gas sold is at its highest during the six-month peak heating season of October through March and is directly affected by the severity of the winter. Typically, we sell approximately two-thirds of our retail propane volume and approximately three-fourths of our retail fuel oil volume during the peak heating season.

Actual weather conditions can vary substantially from year to year, significantly affecting our financial performance. For example, average temperatures in our service territories were 3% colder than normal, and 4% and 14% warmer than normal for fiscal 2014, fiscal 2013 and fiscal 2012, respectively, as measured by the number of heating degree days reported by the National Oceanic and Atmospheric Administration (“NOAA”). Furthermore, variations in weather in one or more regions in which we operate can significantly affect the total volume of propane, fuel oil and other refined fuels and natural gas we sell and, consequently, our results of operations. Variations in the weather in the northeast, where we have a greater concentration of propane accounts and substantially all of our fuel oil and natural gas operations, generally have a greater impact on our operations than variations in the weather in

other markets. We can give no assurance that the weather conditions in any quarter or year will not have a material adverse effect on our operations, or that our available cash will be sufficient to pay principal and interest on our indebtedness and distributions to Unitholders.

Sudden increases in our costs to acquire and transport propane, fuel oil and other refined fuels and natural gas due to, among other things, our inability to obtain adequate supplies from our usual suppliers, or our inability to obtain adequate supplies of such products from alternative suppliers, may adversely affect our operating results.

Our profitability in the retail propane, fuel oil and refined fuels and natural gas businesses is largely dependent on the difference between our costs to acquire and transport product and retail sales price. Propane, fuel oil and other refined fuels and natural gas are commodities, and the availability of those products, and the unit prices we need to pay to acquire and transport those products, are subject to volatile changes in response to changes in supply or other market conditions over which we have no control, including the severity of winter weather, the price and availability of competing alternative energy sources, competing demands for the products and infrastructure (including highway, rail, pipeline and refinery) constraints. Our supply of these products from our usual sources may be interrupted due to these and other reasons that are beyond our control, necessitating the transportation of product, if it is available at all, by truck, rail car or other means from other suppliers in other areas, with resulting delay in receipt and delivery to customers and increased expense. As a result, our costs of acquiring and transporting alternative supplies of these products to our facilities might be materially higher at least on a short-term basis. Since we may not be able to pass on to our customers immediately, or in full, all increases in our wholesale and transportation costs of propane, fuel oil and other refined fuels and natural gas, these increases could reduce our profitability. In addition, our inability to obtain sufficient supplies of propane, fuel oil and other refined fuels and natural gas in order for us to fully meet our customer demand for these products on a timely basis could adversely affect our revenues, and consequently our profitability.

In general, product supply contracts permit suppliers to charge posted prices at the time of delivery or the current prices established at major supply points, including Mont Belvieu, Texas, and Conway, Kansas. We engage in transactions to manage the price risk associated with certain of our product costs from time to time in an attempt to reduce cost volatility and to help ensure availability of product. We can give no assurance that future increases in our costs to acquire and transport propane, fuel oil and natural gas will not have a material adverse effect on our profitability and cash flow, or that our available cash will be sufficient to pay principal and interest on our indebtedness and distributions to our Unitholders.

High prices for propane, fuel oil and other refined fuels and natural gas can lead to customer conservation, resulting in reduced demand for our product.

Prices for propane, fuel oil and other refined fuels and natural gas are subject to fluctuations in response to changes in wholesale prices and other market conditions beyond our control. Therefore, our average retail sales prices can vary significantly within a heating season or from year to year as wholesale prices fluctuate with propane, fuel oil and natural gas commodity market conditions. During periods of high propane, fuel oil and other refined fuels and natural gas product costs our selling prices generally increase. High prices can lead to customer conservation, resulting in reduced demand for our product.

Because of the highly competitive nature of the retail propane and fuel oil businesses, we may not be able to retain existing customers or acquire new customers, which could have an adverse impact on our operating results and financial condition.

The retail propane and fuel oil industries are mature and highly competitive. We expect overall demand for propane and fuel oil to be relatively flat to moderately declining over the next several years. Year-to-year industry volumes of propane and fuel oil are expected to be primarily affected by weather patterns and from competition intensifying during warmer than normal winters, as well as from the impact of a sustained higher commodity price environment on customer conservation and the impact of continued weakness in the economy on customer buying habits.

Propane and fuel oil compete with electricity, natural gas and other existing and future sources of energy, some of which are, or may in the future be, less costly for equivalent energy value. For example, natural gas currently is a significantly less expensive source of energy than propane and fuel oil on an equivalent BTU basis. As a result, except for some industrial and commercial applications, propane and fuel oil are generally not economically competitive with natural gas in areas where natural gas pipelines already exist. The gradual expansion of the nation's natural gas distribution systems has made natural gas available in many areas that previously depended upon propane or fuel oil. We expect this trend to continue, and, with the increasingly abundant supply of natural gas from domestic sources, perhaps accelerate. Propane and fuel oil compete to a lesser extent with each other due to the cost of converting from one to the other.

In addition to competing with other sources of energy, our propane and fuel oil businesses compete with other distributors of those respective products principally on the basis of price, service and availability. Competition in the retail propane business is highly fragmented and generally occurs on a local basis with other large full-service multi-state propane marketers, thousands of smaller local independent marketers and farm cooperatives. Our fuel oil business competes with fuel oil distributors offering a broad range of services and prices, from full service distributors to those offering delivery only. In addition, our existing fuel oil customers, unlike our existing propane customers, generally own their own tanks, which can result in intensified competition for these customers.

As a result of the highly competitive nature of the retail propane and fuel oil businesses, our growth within these industries depends on our ability to acquire other retail distributors, open new customer service centers, add new customers and retain existing customers. We can give no assurance that we will be able to acquire other retail distributors, add new customers and retain existing customers.

Energy efficiency, general economic conditions and technological advances have affected and may continue to affect demand for propane and fuel oil by our retail customers.

The national trend toward increased conservation and technological advances, including installation of improved insulation and the development of more efficient furnaces and other heating devices, has adversely affected the demand for propane and fuel oil by our retail customers which, in turn, has resulted in lower sales volumes to our customers. In addition, continued weakness in the economy may lead to additional conservation by retail customers seeking to further reduce their heating costs, particularly during periods of sustained higher commodity prices. Future technological advances in heating, conservation and energy generation and continued economic weakness may adversely affect our volumes sold, which, in turn, may adversely affect our financial condition and results of operations.

Current conditions in the global capital and credit markets, and general economic pressures, may adversely affect our financial position and results of operations.

Our business and operating results are materially affected by worldwide economic conditions. Current conditions in the global capital and credit markets and general economic pressures have led to declining consumer and business confidence, increased market volatility and reduction of business activity generally. As a result of this turmoil, coupled with increasing energy prices, our customers may experience cash flow shortages which may lead to delayed or cancelled plans to purchase our products, and affect the ability of our customers to pay for our products. In addition, disruptions in the U.S. residential mortgage market and the rate of mortgage foreclosures may adversely affect retail customer demand for our products (in particular, products used for home heating and home comfort equipment) and our business and results of operations.

Our operating results and ability to generate sufficient cash flow to pay principal and interest on our indebtedness, and to pay distributions to Unitholders, may be affected by our ability to continue to control expenses.

The propane and fuel oil industries are mature and highly fragmented with competition from other multi-state marketers and thousands of smaller local independent marketers. Demand for propane and fuel oil is expected to be affected by many factors beyond our control, including, but not limited to, the severity of weather conditions during the peak heating season, customer conservation driven by high energy costs and other economic factors, as well as technological advances impacting energy efficiency. Accordingly, our propane and fuel oil sales volumes and related

gross margins may be negatively affected by these factors beyond our control. Our operating profits and ability to generate sufficient cash flow may depend on our ability to continue to control expenses in line with sales volumes. We can give no assurance that we will be able to continue to control expenses to the extent necessary to reduce the effect on our profitability and cash flow from these factors.

The risk of terrorism, political unrest and the current hostilities in the Middle East or other energy producing regions may adversely affect the economy and the price and availability of propane, fuel oil and other refined fuels and natural gas.

Terrorist attacks, political unrest and the current hostilities in the Middle East or other energy producing regions may adversely impact the price and availability of propane, fuel oil and other refined fuels and natural gas, as well as our results of operations, our ability to raise capital and our future growth. The impact that the foregoing may have on our industry in general, and on us in particular, is not known at this time. An act of terror could result in disruptions of crude oil or natural gas supplies and markets (the sources of propane and fuel oil), and our infrastructure facilities could be direct or indirect targets. Terrorist activity may also hinder our ability to transport propane, fuel oil and other refined fuels if our means of supply transportation, such as rail or pipeline, become damaged as a result of an attack. A lower level of economic activity could result in a decline in energy consumption, which could adversely affect our revenues or restrict our future growth. Instability in the financial markets as a result of terrorism could also affect our ability to raise capital. Terrorist activity, political unrest and hostilities in the Middle East or other energy producing regions could likely lead to increased volatility in prices for propane, fuel oil and other refined fuels and natural gas. We have opted to purchase insurance coverage for terrorist acts within our property and casualty insurance programs, but we can give no assurance that our insurance coverage will be adequate to fully compensate us for any losses to our business or property resulting from terrorist acts.

Our financial condition and results of operations may be adversely affected by governmental regulation and associated environmental and health and safety costs.

Our business is subject to a wide and ever increasing range of federal, state and local laws and regulations related to environmental and health and safety matters including those concerning, among other things, the investigation and remediation of contaminated soil, groundwater and other environmental media, and the transportation of hazardous materials. These requirements are complex, changing and tend to become more stringent over time. In addition, we are required to maintain various permits that are necessary to operate our facilities, some of which are material to our operations. There can be no assurance that we have been, or will be, at all times in complete compliance with all legal, regulatory and permitting requirements or that we will not incur significant costs in the future relating to such requirements. Violations could result in penalties, or the curtailment or cessation of operations.

Moreover, currently unknown environmental issues, such as the discovery of additional contamination, may result in significant additional expenditures, and potentially significant expenditures also could be required to comply with future changes to environmental laws and regulations or the interpretation or enforcement thereof. Such expenditures, if required, could have a material adverse effect on our business, financial condition or results of operations.

We are subject to operating hazards and litigation risks that could adversely affect our operating results to the extent not covered by insurance.

Our operations are subject to all operating hazards and risks normally associated with handling, storing and delivering combustible liquids such as propane, fuel oil and other refined fuels. We have been, and are likely to continue to be, a defendant in various legal proceedings and litigation arising in the ordinary course of business, both as a result of these operating hazards and risks and as a result of other aspects of our business. We are self-insured for general and product, workers' compensation and automobile liabilities up to predetermined amounts above which third-party insurance applies. We cannot guarantee that our insurance will be adequate to protect us from all material expenses related to potential future claims for personal injury and property damage or that these levels of insurance will be available at economical prices, or that all legal matters that arise will be covered by our insurance programs.

If we are unable to make acquisitions on economically acceptable terms or effectively integrate such acquisitions into our operations, our financial performance may be adversely affected.

The retail propane and fuel oil industries are mature. We expect overall demand for propane and fuel oil to be relatively flat to moderately declining over the next several years. With respect to our retail propane business, it may be difficult for us to increase our aggregate number of retail propane customers except through acquisitions. As a result, we expect the success of our financial performance to depend, in part, upon our ability to acquire other retail propane and fuel oil distributors or other energy-related businesses and to successfully integrate them into our existing operations and to make cost saving changes. The competition for acquisitions is intense and we can make no assurance that we will be able to acquire other propane and fuel oil distributors or other energy-related businesses on economically acceptable terms or, if we do, to integrate the acquired operations effectively.

The adoption of climate change legislation could result in increased operating costs and reduced demand for the products and services we provide.

In December 2009, the EPA issued an “Endangerment Finding” under the Clean Air Act, determining that emissions of GHGs present an endangerment to public health and the environment because emissions of such gases may be contributing to warming of the earth’s atmosphere and other climatic changes. Based on these findings, the EPA has begun adopting and implementing regulations to restrict emissions of GHGs and require reporting by certain regulated facilities on an annual basis. The EPA’s authority to regulate GHGs was recently upheld by the U.S. Supreme Court.

Both Houses of the United States Congress also have considered adopting legislation to reduce emissions of GHGs. Although Congress has not yet enacted federal climate change legislation, numerous states and municipalities have adopted laws and policies on climate change.

The adoption of federal or state climate change legislation or regulatory programs to reduce emissions of GHGs could require us to incur increased capital and operating costs, with resulting impact on product price and demand. We cannot predict whether or in what form climate change legislation provisions and renewable energy standards may be enacted. In addition, a possible consequence of climate change is increased volatility in seasonal temperatures. It is difficult to predict how the market for our fuels would be affected by increased temperature volatility, although if there is an overall trend of warmer temperatures, it could adversely affect our business.

Our use of derivative contracts involves credit and regulatory risk and may expose us to financial loss.

From time to time, we enter into hedging transactions to reduce our business risks arising from fluctuations in commodity prices and interest rates. Hedging transactions expose us to risk of financial loss in some circumstances, including if the other party to the contract defaults on its obligations to us or if there is a change in the expected differential between the price of the underlying commodity or financial metric provided in the hedging agreement and the actual amount received.

Required transactional margins, capital, recordkeeping, reporting, clearing and settlement as a result of legislation (such as the Dodd-Frank Act) and related existing and proposed administrative rulemaking may increase our operational and transactional cost of entering and maintaining derivatives contracts and adversely affect the number and/or creditworthiness of derivatives counterparties available to us. If we reduce our use of derivatives as a result of legislation and regulations, our results of operations may become more volatile and our cash flow may be less predictable.

Because we depend on particular management information systems to effectively manage all aspects of our delivery of propane, a failure in our operational systems or cyber security attacks on any of our facilities, or those of third parties, may adversely affect our financial results.

We depend on our management information systems to process orders, manage inventory and accounts receivable collections, maintain distributor and customer information, maintain cost-efficient operations and assist in delivering our products on a timely basis. In addition, our staff of management information systems professionals relies heavily

on the support of several key personnel and vendors. Any disruption in the operation of those management information systems, loss of employees knowledgeable about such systems, termination of our relationship with one or more of these key vendors or failure to continue to modify such systems effectively as our business expands could negatively affect our business.

If any of our financial, operational, or other data processing systems fail or have other significant shortcomings, our financial results could be adversely affected. Our financial results also could be adversely affected if an employee or third party causes our operational systems to fail, either as a result of inadvertent error or by deliberately tampering with or manipulating our operational systems. In addition, dependence upon automated systems may further increase the risk that operational system flaws, employee tampering or manipulation of those systems will result in losses that are difficult to detect or recoup, including damage to our reputation. To the extent customer data is hacked or misappropriated, we could be subject to liability to affected persons.

Risks Related to the Inergy Propane Acquisition and the Related Transactions

We may not be able to successfully complete the integration of Inergy Propane's operations with our operations, which could cause our business to suffer.

In order to obtain all of the anticipated benefits of the Inergy Propane Acquisition, we need to fully combine and integrate the businesses and operations of Inergy Propane with ours. Although we have developed, and have substantially implemented, a detailed integration plan, the complete integration of two large businesses is a complex and costly process. We continue to devote significant management attention and resources to integrating all of the business practices and operations of Suburban and Inergy Propane. Although we believe that it has not yet done so, the integration process may, in the future, divert the attention of our executive officers and management from day-to-day operations and disrupt the business of Suburban and, if not completed effectively, may preclude realization of the full expected benefits of the transaction.

Our failure to meet the challenges involved in successfully completing the full integration of Inergy Propane's operations with our operations or otherwise to realize any of the anticipated benefits of the Inergy Propane Acquisition could adversely affect our results of operations. In addition, the overall integration of Suburban and Inergy Propane may yet result in unanticipated problems, expenses, liabilities and competitive responses. Although not yet experienced to any significant degree, possible difficulties that may yet arise from our continuing efforts to fully combine our two operations could include, among others:

- operating a significantly larger combined company with operations in more geographic areas;
- maintaining employee morale and retaining key employees;
- developing and implementing employment policies to facilitate workforce integration, and, where applicable, labor and union relations;
- preserving important strategic and customer relationships; and
- fully integrating the cultures of Suburban and Inergy Propane.

In addition, even if we are able to successfully complete the full integration of our businesses and operations, we may not fully realize the expected benefits of the Inergy Propane Acquisition within the intended time frame, or at all. Further, our post-acquisition results of operations may be affected by factors different from those existing prior to the Inergy Propane Acquisition and may suffer as a result of the Inergy Propane Acquisition. As a result, we can give no assurance that the combination of our business and operations with Inergy Propane will result in the realization of the full benefits anticipated from the Inergy Propane Acquisition.

We have incurred and continue to incur substantial expenses related to the integration of Inergy Propane.

We have incurred and expect to continue to incur substantial expenses in connection with the Inergy Propane Acquisition and integrating the business, operations, networks, systems, technologies, policies and procedures of Suburban and Inergy Propane. Although Suburban has assumed that a certain level of transaction and integration expenses would be incurred, there are a number of factors beyond our control that could affect the total amount or the timing of these integration expenses. Although integration expenses have been, to date, within the expected range, many of the expenses yet to be incurred are, by their nature, difficult to accurately estimate at the present time. Due to these factors, the total transaction and integration expenses associated with the Inergy Propane Acquisition could exceed the savings that we expect to achieve from the elimination of duplicative expenses and the realization of economies of scale and cost savings related to the integration of the businesses. As a result of these expenses, Suburban has taken, and expects to continue to take, charges against its earnings relating to the acquisition and integration of Inergy Propane. The charges relating to the acquisition and integration of Inergy Propane have been and expect to continue to be significant, although the aggregate amount and timing of all such charges are uncertain at present.

Risks Inherent in the Ownership of Our Common Units

Cash distributions are not guaranteed and may fluctuate with our performance and other external factors.

Cash distributions on our Common Units are not guaranteed, and depend primarily on our cash flow and our cash on hand. Because they are not dependent on profitability, which is affected by non-cash items, our cash distributions might be made during periods when we record losses and might not be made during periods when we record profits.

The amount of cash we generate may fluctuate based on our performance and other factors, including:

- the impact of the risks inherent in our business operations, as described above;
- required principal and interest payments on our debt and restrictions contained in our debt instruments;
- issuances of debt and equity securities;
- our ability to control expenses;
- fluctuations in working capital;
- capital expenditures; and
- financial, business and other factors, a number which will be beyond our control.

Our Partnership Agreement gives our Board of Supervisors broad discretion in establishing cash reserves for, among other things, the proper conduct of our business. These cash reserves will affect the amount of cash available for distributions.

We have substantial indebtedness. Our debt agreements may limit our ability to make distributions to Unitholders, as well as our financial flexibility.

As of September 27, 2014, our long-term debt borrowings consisted of \$250.0 million in aggregate principal amount of 7.375% senior notes due March 15, 2020 (excluding unamortized discount of \$1.2 million), \$346.2 million in aggregate principal amount of 7.375% senior notes due August 1, 2021 (excluding unamortized premium of \$22.7 million), \$525.0 million in aggregate principal amount of 5.5% senior notes due June 1, 2024, and \$100.0 million under our senior secured revolving credit facility. The payment of principal and interest on our debt will reduce the cash available to make distributions on our common units. In addition, we will not be able to make any distributions to holders of our common units if there is, or after giving effect to such distribution, there would be, an event of default under the indentures governing the senior notes. The amount of distributions that we may make to holders of

our common units is limited by the senior notes, and the amount of distributions that the Operating Partnership may make to us is limited by our revolving credit facility.

The revolving credit facility and the senior notes both contain various restrictive and affirmative covenants applicable to us and the Operating Partnership, respectively, including (i) restrictions on the incurrence of additional indebtedness, and (ii) restrictions on certain liens, investments, guarantees, loans, advances, payments, mergers, consolidations, distributions, sales of assets and other transactions. The revolving credit facility contains certain financial covenants: (a) requiring our consolidated interest coverage ratio, as defined, to be not less than 2.0 to 1.0 as of the end of any fiscal quarter (and commencing with the third quarter of fiscal 2014, such minimum ratio is 2.5 to 1.0); (b) prohibiting our total consolidated leverage ratio, as defined, from being greater than 4.75 to 1.0 (or 5.0 to 1.0) during an acquisition period, as defined in the credit agreement governing the credit facility) as of the end of any fiscal quarter; and (c) prohibiting the senior secured consolidated leverage ratio, as defined, of the Operating Partnership from being greater than 3.0 to 1.0 as of the end of any fiscal quarter. Under the indentures governing the senior notes, we are generally permitted to make cash distributions equal to available cash, as defined, as of the end of the immediately preceding quarter, if no event of default exists or would exist upon making such distributions, and our consolidated fixed charge coverage ratio, as defined, is greater than 1.75 to 1. We and the Operating Partnership were in compliance with all covenants and terms of the senior notes and the revolving credit facility as of September 27, 2014.

The amount and terms of our debt may also adversely affect our ability to finance future operations and capital needs, limit our ability to pursue acquisitions and other business opportunities and make our results of operations more susceptible to adverse economic and industry conditions. In addition to our outstanding indebtedness, we may in the future require additional debt to finance acquisitions or for general business purposes; however, credit market conditions may impact our ability to access such financing. If we are unable to access needed financing or to generate sufficient cash from operations, we may be required to abandon certain projects or curtail capital expenditures. Additional debt, where it is available, could result in an increase in our leverage. Our ability to make principal and interest payments depends on our future performance, which is subject to many factors, some of which are beyond our control. As interest expense increases (whether due to an increase in interest rates and/or the size of aggregate outstanding debt), our ability to fund distributions on our Common Units may be impacted, depending on the level of revenue generation, which is not assured.

Unitholders have limited voting rights.

A Board of Supervisors governs our operations. Unitholders have only limited voting rights on matters affecting our business, including the right to elect the members of our Board of Supervisors every three years and the right to vote on the removal of the general partner.

It may be difficult for a third party to acquire us, even if doing so would be beneficial to our Unitholders.

Some provisions of our Partnership Agreement may discourage, delay or prevent third parties from acquiring us, even if doing so would be beneficial to our Unitholders. For example, our Partnership Agreement contains a provision, based on Section 203 of the Delaware General Corporation Law, that generally prohibits the Partnership from engaging in a business combination with a 15% or greater Unitholder for a period of three years following the date that person or entity acquired at least 15% of our outstanding Common Units, unless certain exceptions apply. Additionally, our Partnership Agreement sets forth advance notice procedures for a Unitholder to nominate a Supervisor to stand for election, which procedures may discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of Supervisors or otherwise attempting to obtain control of the Partnership. These nomination procedures may not be revised or repealed, and inconsistent provisions may not be adopted, without the approval of the holders of at least 66-2/3% of the outstanding Common Units. These provisions may have an anti-takeover effect with respect to transactions not approved in advance by our Board of Supervisors, including discouraging attempts that might result in a premium over the market price of the Common Units held by our Unitholders.

Unitholders may not have limited liability in some circumstances.

A number of states have not clearly established limitations on the liabilities of limited partners for the obligations of a limited partnership. Our Unitholders might be held liable for our obligations as if they were general partners if:

- a court or government agency determined that we were conducting business in the state but had not complied with the state's limited partnership statute; or
- Unitholders' rights to act together to remove or replace the General Partner or take other actions under our Partnership Agreement are deemed to constitute "participation in the control" of our business for purposes of the state's limited partnership statute.

Unitholders may have liability to repay distributions.

Unitholders will not be liable for assessments in addition to their initial capital investment in the Common Units. Under specific circumstances, however, Unitholders may have to repay to us amounts wrongfully returned or distributed to them. Under Delaware law, we may not make a distribution to Unitholders if the distribution causes our liabilities to exceed the fair value of our assets. Liabilities to partners on account of their partnership interests and nonrecourse liabilities are not counted for purposes of determining whether a distribution is permitted. Delaware law provides that a limited partner who receives a distribution of this kind and knew at the time of the distribution that the distribution violated Delaware law will be liable to the limited partnership for the distribution amount for three years from the distribution date. Under Delaware law, an assignee who becomes a substituted limited partner of a limited partnership is liable for the obligations of the assignor to make contributions to the partnership. However, such an assignee is not obligated for liabilities unknown to him at the time he or she became a limited partner if the liabilities could not be determined from the partnership agreement.

If we issue additional limited partner interests or other equity securities as consideration for acquisitions or for other purposes, the relative voting strength of each Unitholder will be diminished over time due to the dilution of each Unitholder's interests and additional taxable income may be allocated to each Unitholder.

Our Partnership Agreement generally allows us to issue additional limited partner interests and other equity securities without the approval of our Unitholders. Therefore, when we issue additional Common Units or securities ranking on a parity with the Common Units, each Unitholder's proportionate partnership interest will decrease, and the amount of cash distributed on each Common Unit and the market price of Common Units could decrease. The issuance of additional Common Units will also diminish the relative voting strength of each previously outstanding Common Unit. In addition, the issuance of additional Common Units will, over time, result in the allocation of additional taxable income, representing built-in gains at the time of the new issuance, to those Unitholders that existed prior to the new issuance.

Tax Risks to Unitholders

Our tax treatment depends on our status as a partnership for U.S. federal income tax purposes. The Internal Revenue Service ("IRS") could treat us as a corporation, which would substantially reduce the cash available for distribution to Unitholders.

The anticipated after-tax economic benefit of an investment in our Common Units depends largely on our being treated as a partnership for U.S. federal income tax purposes. If less than 90% of the gross income of a publicly traded partnership, such as Suburban Propane Partners, L.P., for any taxable year is "qualifying income" within the meaning of Section 7704 of the Internal Revenue Code, that partnership will be taxable as a corporation for U.S. federal income tax purposes for that taxable year and all subsequent years.

If we were treated as a corporation for U.S. federal income tax purposes, then we would pay U.S. federal income tax on our income at the corporate tax rate, which is currently a maximum of 35%, and would likely pay additional state income tax at varying rates. Because a tax would be imposed upon us as a corporation, our cash available for

distribution to Unitholders would be substantially reduced. Treatment of us as a corporation would result in a material reduction in the anticipated cash flow and after-tax return to Unitholders and thus would likely result in a substantial reduction in the value of our Common Units.

The tax treatment of publicly traded partnerships or an investment in our Common Units could be subject to potential legislative, judicial or administrative changes and differing interpretations thereof, possibly on a retroactive basis.

The present U.S. federal income tax treatment of publicly traded partnerships, including Suburban Propane Partners, L.P., or an investment in our Common Units may be modified by legislative, judicial or administrative changes and differing interpretations thereof at any time. Any modification to the U.S. federal income tax laws or interpretations thereof may or may not be applied retroactively. Moreover, any such modification could make it more difficult or impossible for us to meet the exception that allows publicly traded partnerships that generate qualifying income to be treated as partnerships (rather than as corporations) for U.S. federal income tax purposes, affect or cause us to change our business activities, or affect the tax consequences of an investment in our Common Units. For example, legislation proposed by members of Congress and the President has considered substantive changes to the definition of qualifying income. One of the requirements for such classification is that at least 90% of our gross income for each taxable year has been and will be “qualifying income” within the meaning of Section 7704 of the Internal Revenue Code. Whether we will continue to be classified as a partnership in part depends on our ability to meet this qualifying income test in the future. We have not requested, and do not plan to request, a ruling from the IRS on this or any other tax matter affecting us. We are unable to predict whether any of these changes, or other proposals, will ultimately be enacted. Any such changes could negatively impact the value of an investment in our units.

In addition, because of widespread state budget deficits and other reasons, several states are evaluating ways to subject partnerships to entity-level taxation through the imposition of state income, franchise and other forms of taxation.

A successful IRS contest of the U.S. federal income tax positions we take may adversely affect the market for our Common Units, and the cost of any IRS contest will reduce our cash available for distribution to our Unitholders.

We have not requested a ruling from the IRS with respect to our treatment as a partnership for U.S. federal income tax purposes or any other matter affecting us. The IRS may adopt positions that differ from the positions we take. It may be necessary to resort to administrative or court proceedings to sustain some or all of the positions we take. A court may not agree with the positions we take. Any contest with the IRS may materially and adversely impact the market for our Common Units and the price at which they trade. In addition, our costs of any contest with the IRS will be borne indirectly by our Unitholders because the costs will reduce our cash available for distribution.

A Unitholder’s tax liability could exceed cash distributions on its Common Units.

Because our Unitholders are treated as partners, a Unitholder is required to pay U.S. federal income taxes and state and local income taxes on its allocable share of our income, without regard to whether we make cash distributions to the Unitholder. We cannot guarantee that a Unitholder will receive cash distributions equal to its allocable share of our taxable income or even the tax liability to it resulting from that income.

Ownership of Common Units may have adverse tax consequences for tax-exempt organizations and foreign investors.

Investment in Common Units by certain tax-exempt entities and foreign persons raises issues specific to them. For example, virtually all of our taxable income allocated to organizations exempt from U.S. federal income tax, including individual retirement accounts and other retirement plans, will be unrelated business taxable income and thus will be taxable to the Unitholder. Distributions to foreign persons will be reduced by withholding taxes at the highest applicable effective tax rate, and foreign persons will be required to file U.S. federal income tax returns and pay tax on their share of our taxable income. Tax-exempt organizations and foreign persons should consult, and should depend on, their own tax advisors in analyzing the U.S. federal, state, local and foreign income tax and other tax consequences of the acquisition, ownership or disposition of Common Units.

The ability of a Unitholder to deduct its share of our losses may be limited.

Various limitations may apply to the ability of a Unitholder to deduct its share of our losses. For example, in the case of taxpayers subject to the passive activity loss rules (generally, individuals and closely held corporations), any losses generated by us will only be available to offset our future income and cannot be used to offset income from other activities, including other passive activities or investments. Such unused losses may be deducted when the Unitholder disposes of its entire investment in us in a fully taxable transaction with an unrelated party, such as a sale by a Unitholder of all of its Common Units in the open market. A Unitholder's share of any net passive income may be offset by unused losses from us carried over from prior years, but not by losses from other passive activities, including losses from other publicly-traded partnerships.

The tax gain or loss on the disposition of Common Units could be different than expected.

A Unitholder who sells Common Units will recognize a gain or loss equal to the difference between the amount realized and its adjusted tax basis in the Common Units. Prior distributions in excess of cumulative net taxable income allocated to a Common Unit which decreased a Unitholder's tax basis in that Common Unit will, in effect, become taxable income if the Common Unit is sold at a price greater than the Unitholder's tax basis in that Common Unit, even if the price is less than the original cost of the Common Unit. A portion of the amount realized, if the amount realized exceeds the Unitholder's adjusted basis in that Common Unit, will likely be characterized as ordinary income. Furthermore, should the IRS successfully contest some conventions used by us, a Unitholder could recognize more gain on the sale of Common Units than would be the case under those conventions, without the benefit of decreased income in prior years. In addition, because the amount realized will include a holder's share of our nonrecourse liabilities, if a Unitholder sells its Common Units, such Unitholder may incur a tax liability in excess of the amount of cash it receives from the sale.

Reporting of partnership tax information is complicated and subject to audits.

We intend to furnish to each Unitholder, within 90 days after the close of each calendar year, specific tax information, including a Schedule K-1 that sets forth its allocable share of income, gains, losses and deductions for our preceding taxable year. In preparing these schedules, we use various accounting and reporting conventions and adopt various depreciation and amortization methods. We cannot guarantee that these conventions will yield a result that conforms to statutory or regulatory requirements or to administrative pronouncements of the IRS. Further, our income tax return may be audited, which could result in an audit of a Unitholder's income tax return and increased liabilities for taxes because of adjustments resulting from the audit.

We treat each purchaser of our Common Units as having the same tax benefits without regard to the actual Common Units purchased. The IRS may challenge this treatment, which could adversely affect the value of the Common Units.

Because we cannot match transferors and transferees of Common Units and because of other reasons, uniformity of the economic and tax characteristics of the Common Units to a purchaser of Common Units of the same class must be maintained. To maintain uniformity and for other reasons, we have adopted certain depreciation and amortization conventions that may be inconsistent with Treasury Regulations. A successful IRS challenge to those positions could adversely affect the amount of tax benefits available to a Unitholder. It also could affect the timing of these tax benefits or the amount of gain from the sale of Common Units, and could have a negative impact on the value of our Common Units or result in audit adjustments to a Unitholder's income tax return.

We prorate our items of income, gain, loss and deduction between transferors and transferees of our Common Units each month based upon the ownership of our Common Units on the first day of each month, instead of on the basis of the date a particular Common Unit is transferred. The IRS may challenge this treatment, which could change the allocation of items of income, gain, loss and deduction among our Unitholders.

We prorate our items of income, gain, loss and deduction between transferors and transferees of our Common Units each month based upon the ownership of our Common Units on the first day of each month, instead of on the basis of the date a particular Common Unit is transferred. The U.S. Treasury Department has issued proposed

Treasury Regulations that provide a safe harbor pursuant to which publicly traded partnerships may use a similar monthly simplifying convention to allocate tax items among transferors and transferees of our common units. However, if the IRS were to challenge our proration method, we may be required to change the allocation of items of income, gain, loss and deduction among our Unitholders.

Unitholders may have negative tax consequences if we default on our debt or sell assets.

If we default on any of our debt obligations, our lenders will have the right to sue us for non-payment. This could cause an investment loss and negative tax consequences for Unitholders through the realization of taxable income by Unitholders without a corresponding cash distribution. Likewise, if we were to dispose of assets and realize a taxable gain while there is substantial debt outstanding and proceeds of the sale were applied to the debt, Unitholders could have increased taxable income without a corresponding cash distribution.

The sale or exchange of 50% or more of our capital and profits interests during any twelve-month period will result in the termination of our partnership for federal income tax purposes.

We will be considered to have terminated as a partnership for U.S. federal income tax purposes if there is a sale or exchange of 50% or more of the total interests in our capital and profits within a twelve-month period. Our termination would, among other things, result in the closing of our taxable year for all Unitholders and could result in a deferral of depreciation deductions allowable in computing our taxable income. In the case of a Unitholder reporting on a taxable year other than the calendar year, the closing of our taxable year may also result in more than twelve months of our taxable income or loss being includable in his taxable income for the year of termination. Our termination currently would not affect our treatment as a partnership for U.S. federal income tax purposes, but instead, after our termination we would be treated as a new partnership for U.S. federal income tax purposes. If treated as a new partnership, we must make new tax elections and could be subject to penalties if we are unable to determine that a termination occurred.

There are state, local and other tax considerations for our Unitholders.

In addition to U.S. federal income taxes, Unitholders will likely be subject to other taxes, such as state and local taxes, unincorporated business taxes and estate, inheritance or intangible taxes that are imposed by the various jurisdictions in which we do business or own property, even if the Unitholder does not reside in any of those jurisdictions. A Unitholder will likely be required to file state and local income tax returns and pay state and local income taxes in some or all of the various jurisdictions in which we do business or own property and may be subject to penalties for failure to comply with those requirements. It is the responsibility of each Unitholder to file all U.S. federal, state and local income tax returns that may be required of each Unitholder.

A Unitholder whose Common Units are loaned to a “short seller” to cover a short sale of Common Units may be considered as having disposed of those Common Units. If so, that Unitholder would no longer be treated for tax purposes as a partner with respect to those Common Units during the period of the loan and may recognize gain or loss from the disposition.

Because there is no tax concept of loaning a partnership interest, a Unitholder whose Common Units are loaned to a “short seller” to cover a short sale of Common Units may be considered as having disposed of the loaned Common Units. In that case, a Unitholder may no longer be treated for tax purposes as a partner with respect to those Common Units during the period of the loan to the short seller and may recognize gain or loss from such disposition. Moreover, during the period of the loan to the short seller, any of our income, gain, loss or deduction with respect to those Common Units may not be reportable by the Unitholder and any cash distribution received by the Unitholder as to those Common Units could be fully taxable as ordinary income. Unitholders desiring to ensure their status as partners and avoid the risk of gain recognition from a loan to a short seller should consult their own tax advisors to discuss whether it is advisable to modify any applicable brokerage account agreements to prohibit their brokers from borrowing their Common Units.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

As of September 27, 2014, we owned approximately 73% of our customer service center and satellite locations and leased the balance of our retail locations from third parties. We own and operate a 22 million gallon refrigerated, aboveground propane storage facility in Elk Grove, California. Additionally, we own our principal executive offices located in Whippany, New Jersey.

The transportation of propane requires specialized equipment. The trucks and railroad tank cars utilized for this purpose carry specialized steel tanks that maintain the propane in a liquefied state. As of September 27, 2014, we had a fleet of 12 transport truck tractors, of which we owned 5, and 23 railroad tank cars, of which we owned none. In addition, as of September 27, 2014 we had 1,347 bobtail and rack trucks, of which we owned 51%, 139 fuel oil tankwagons, of which we owned 63%, and 1,360 other delivery and service vehicles, of which we owned 54%. We lease the vehicles we do not own. As of September 27, 2014, we also owned 950,257 customer propane storage tanks with typical capacities of 100 to 500 gallons, 69,294 customer propane storage tanks with typical capacities of over 500 gallons and 403,967 portable propane cylinders with typical capacities of five to ten gallons.

ITEM 3. LEGAL PROCEEDINGS

Litigation

Our operations are subject to operating hazards and risks normally incidental to handling, storing and delivering combustible liquids such as propane. We have been, and will continue to be, a defendant in various legal proceedings and litigation as a result of these operating hazards and risks, and as a result of other aspects of our business. Although any litigation is inherently uncertain, based on past experience, the information currently available to us, and the amount of our accrued insurance liabilities, we do not believe that currently pending or threatened litigation matters, or known claims or known contingent claims, will have a material adverse effect on our results of operations, financial condition or cash flow.

ITEM 4. MINE SAFETY DISCLOSURES

None.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON UNITS, RELATED UNITHOLDER MATTERS AND ISSUER PURCHASES OF UNITS

(a) Our Common Units, representing limited partner interests in the Partnership, are listed and traded on the New York Stock Exchange (“NYSE”) under the symbol SPH. As of November 24, 2014, there were 670 Unitholders of record (based on the number of record holders and nominees for those Common Units held in street name). The following table presents, for the periods indicated, the high and low sales prices per Common Unit, as reported on the NYSE, and the amount of quarterly cash distributions declared and paid per Common Unit in respect of each quarter.

	<u>Common Unit Price Range</u>		<u>Cash Distribution Declared per Common Unit</u>	
	<u>High</u>	<u>Low</u>		
<u>Fiscal 2014</u>				
First Quarter	\$ 48.90	\$ 44.21	\$	0.8750
Second Quarter	47.16	39.91		0.8750
Third Quarter	48.61	40.94		0.8750
Fourth Quarter	46.21	41.13		0.8750
<u>Fiscal 2013</u>				
First Quarter	\$ 44.82	\$ 36.69	\$	0.8750
Second Quarter	44.80	38.09		0.8750
Third Quarter	50.25	41.93		0.8750
Fourth Quarter	49.50	44.21		0.8750

We make quarterly distributions to our partners in an aggregate amount equal to our Available Cash (as defined in our Partnership Agreement) with respect to such quarter. Available Cash generally means all cash on hand at the end of the fiscal quarter plus all additional cash on hand as a result of borrowings subsequent to the end of such quarter less cash reserves established by the Board of Supervisors in its reasonable discretion for future cash requirements. The amount of distributions that we may make to holders of our Common Units is limited by the senior notes, and the amount of distributions that the Operating Partnership may make to us is limited by our revolving credit facility. See “Risk Factors—We have substantial indebtedness. Our debt agreements may limit our ability to make distributions to Unitholders, as well as our financial flexibility” and “Management’s Discussion and Analysis—Liquidity and Capital Resources.”

We are a publicly traded limited partnership and, other than certain corporate subsidiaries that are taxed as corporations, we are not subject to corporate level federal income tax. Instead, Unitholders are required to report their allocable share of our earnings or loss, regardless of whether we make distributions.

(b) Not applicable.

(c) None.

ITEM 6. SELECTED FINANCIAL DATA

The following table presents our selected consolidated historical financial data as derived from our audited consolidated financial statements, certain of which are included elsewhere in this Annual Report. All amounts in the table below, except per unit data, are in thousands.

	Year Ended				
	September <u>27, 2014</u>	September <u>28, 2013</u>	September <u>29, 2012 (a)</u>	September <u>24, 2011</u>	September <u>25, 2010</u>

(a) Fiscal 2012 includes 53 weeks of operations compared to 52 weeks in each of fiscal 2014, 2013, 2011 and 2010. In addition, on August 1, 2012, we acquired Inergy Propane. The results of operations of Inergy Propane have been included in the consolidated results from the Acquisition Date through September 29, 2012 and all of fiscal 2013 and fiscal 2014, and the assets and liabilities of Inergy Propane have been included in the consolidated balance sheet since September 29, 2012. Refer to Note 3 - Acquisition of Inergy Propane included within the Notes to the Consolidated Financial Statements section elsewhere in this Annual Report.

(b) Due to the Inergy Propane Acquisition on August 1, 2012 we recorded acquisition-related costs of \$17.9 million during fiscal 2012. These costs were primarily attributable to investment banker, legal, accounting and other consulting fees.

- (c) We incurred non-cash pension settlement charges of \$2.8 million during fiscal 2010 to accelerate the recognition of actuarial losses in our defined benefit pension plan as a result of the level of lump sum retirement benefit payments made.
- (d) On May 27, 2014, we repurchased and satisfied and discharged all of our 2018 Senior Notes with net proceeds from the issuance of the 2024 Senior Notes and cash on hand pursuant to a tender offer and redemption. In connection with this tender offer and redemption, we recognized a loss on the extinguishment of debt of \$11.6 million consisting of \$31.6 million for the redemption premium and related fees, as well as the write-off of \$5.3 million and (\$25.3) million in unamortized debt origination costs and unamortized premium, respectively. On August 2, 2013, we repurchased pursuant to optional redemption \$133.4 million of our 7.375% Senior Notes due August 1, 2021 using net proceeds from our May 2013 public offering and net proceeds from the underwriters' exercise of their over-allotment option to purchase additional Common Units. In addition, on August 6, 2013, we repurchased \$23.9 million of our 2021 Senior Notes in a private transaction using cash on hand. In connection with these repurchases, which totaled \$157.3 million in aggregate principal amount, we recognized a loss on the extinguishment of debt of \$2.1 million consisting of \$11.7 million for the repurchase premium and related fees, as well as the write-off of \$2.1 million and (\$11.7) million in unamortized debt origination costs and unamortized premium, respectively. During fiscal 2012 we amended the Credit Agreement (the "Amended Credit Agreement") to increase the five-year \$250.0 million revolving credit facility (the "Revolving Credit Facility") to \$400.0 million, of which, \$100.0 million was outstanding as of September 27, 2014, and also to extend the maturity date from June 25, 2013 to January 5, 2017. In connection with the execution of the Amended Credit Agreement, we recognized a non-cash charge of \$0.5 million for the write-off of previously incurred debt origination costs associated with lenders who did not participate, or whose lending capacity decreased, in the amended facility. On August 1, 2012, we amended the Amended Credit Agreement to provide for a \$250.0 million senior secured 364-day incremental term loan facility (the "364-Day Facility"). On August 1, 2012, in connection with the Inergy Propane Acquisition, we drew \$225.0 million on the 364-Day Facility and on August 14, 2012, using the proceeds of our secondary offering of common units, we repaid the \$225.0 million term loan facility, and wrote off \$1.7 million of unamortized commitment fees associated with the 364-Day Facility. During fiscal 2010 we completed the issuance of \$250.0 million of 7.375% senior notes maturing in March 2020 to replace the previously existing 6.875% senior notes that were set to mature in December 2013. In connection with the refinancing, we recognized a loss on debt extinguishment of \$9.5 million in the second quarter of fiscal 2010, consisting of \$7.2 million for the repurchase premium and related fees, as well as the write-off of \$2.2 million in unamortized debt origination costs and unamortized discount.
- (e) Computations of basic earnings per Common Unit were performed by dividing net income by the weighted average number of outstanding Common Units, and restricted units granted under our 2000 and 2009 Restricted Unit Plans (which we collectively refer to as the "Restricted Unit Plans" or the "RUP") to retirement-eligible grantees. Computations of diluted earnings per Common Unit were performed by dividing net income by the weighted average number of outstanding Common Units and unvested restricted units granted under our Restricted Unit Plans. On May 17, 2013, we sold 2.7 million Common Units in a public offering. On May 22, 2013, following the underwriters' exercise of their over-allotment option, we sold an additional 0.4 million Common Units. On August 1, 2012, in connection with the Inergy Propane Acquisition, we issued 14.2 million Common Units, and on August 14, 2012, we sold 7.2 million Common Units in a secondary offering. Those Common Units have been included in basic and diluted earnings per common unit from the respective dates of issuance.
- (f) EBITDA represents net income before deducting interest expense, income taxes, depreciation and amortization. Adjusted EBITDA represents EBITDA excluding the unrealized net gain or loss from mark-to-market activity for derivative instruments and other certain items as provided in the table below. Our management uses EBITDA and Adjusted EBITDA as measures of liquidity and we are including them because we believe that they provide our investors and industry analysts with additional information to evaluate our ability to meet our debt service obligations and to pay our quarterly distributions to holders of our Common Units. EBITDA and Adjusted EBITDA are not recognized terms under accounting principles generally accepted in the United States of America ("US GAAP") and should not be considered as an alternative to net income or net cash provided by operating activities determined in accordance with US GAAP. Because EBITDA and Adjusted EBITDA as determined by us excludes some, but not all, items that affect net income, they may not be comparable to

EBITDA and Adjusted EBITDA or similarly titled measures used by other companies.

The following table sets forth (i) our calculations of EBITDA and Adjusted EBITDA and (ii) a reconciliation of EBITDA and Adjusted EBITDA, as so calculated, to our net cash provided by operating activities (amounts in thousands):

	Fiscal 2014	Fiscal 2013	Fiscal 2012	Fiscal 2011	Fiscal 2010
Net income	\$ 94,509	\$ 78,798	\$ 638	\$ 114,966	\$ 115,316
Add:					
Provision for income taxes	767	607	137	884	1,182

Changes in working capital and other assets and liabilities	<u>(23,815)</u>	<u>2,635</u>	<u>55,642</u>	<u>(18,958)</u>	<u>(6,687)</u>
Net cash provided by operating activities	<u>\$ 225,551</u>	<u>\$ 214,306</u>	<u>\$ 110,973</u>	<u>\$ 132,786</u>	<u>\$ 155,797</u>

- (g) Our capital expenditures fall generally into two categories: (i) maintenance expenditures, which include expenditures for repair and replacement of property, plant and equipment; and (ii) growth capital expenditures which include new propane tanks and other equipment to facilitate expansion of our customer base and operating capacity.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion of our financial condition and results of operations, which should be read in conjunction with our consolidated financial statements and notes thereto included elsewhere in this Annual Report.

Executive Overview

The following are factors that regularly affect our operating results and financial condition. In addition, our business is subject to the risks and uncertainties described in Item 1A of this Annual Report.

Product Costs and Supply

The level of profitability in the retail propane, fuel oil, natural gas and electricity businesses is largely dependent on the difference between retail sales price and our costs to acquire and transport products. The unit cost of our products, particularly propane, fuel oil and natural gas, is subject to volatility as a result of supply and demand dynamics or other market conditions, including, but not limited to, economic and political factors impacting crude oil and natural gas supply or pricing. We enter into product supply contracts that are generally one-year agreements subject to annual renewal, and also purchase product on the open market. We attempt to reduce price risk by pricing product on a short-term basis. Our propane supply contracts typically provide for pricing based upon index formulas using the posted prices established at major supply points such as Mont Belvieu, Texas, or Conway, Kansas (plus transportation costs) at the time of delivery.

To supplement our annual purchase requirements, we may utilize forward fixed price purchase contracts to acquire a portion of the propane that we resell to our customers, which allows us to manage our exposure to unfavorable changes in commodity prices and to assure adequate physical supply. The percentage of contract purchases, and the amount of supply contracted for under forward contracts at fixed prices, will vary from year to year based on market conditions.

Changes in our costs to acquire and transport products can occur rapidly over a short period of time and can impact profitability. There is no assurance that we will be able to pass on product acquisition and transportation cost increases fully or immediately, particularly when such costs increase rapidly. Therefore, average retail sales prices can vary significantly from year to year as our costs fluctuate with the propane, fuel oil, crude oil and natural gas commodity markets and infrastructure conditions. In addition, periods of sustained higher commodity and/or transportation prices can lead to customer conservation, resulting in reduced demand for our product.

Seasonality

The retail propane and fuel oil distribution businesses, as well as the natural gas marketing business, are seasonal because these fuels are primarily used for heating in residential and commercial buildings. Historically, approximately two-thirds of our retail propane volume is sold during the six-month peak heating season from October through March. The fuel oil business tends to experience greater seasonality given its more limited use for space heating and approximately three-fourths of our fuel oil volumes are sold between October and March. Consequently, sales and operating profits are concentrated in our first and second fiscal quarters. Cash flows from operations, therefore, are greatest during the second and third fiscal quarters when customers pay for product purchased during the winter heating season. We expect lower operating profits and either net losses or lower net income during the period from April through September (our third and fourth fiscal quarters). To the extent necessary, we will reserve cash from the second and third quarters for distribution to holders of our Common Units in the fourth quarter and the following fiscal year first quarter.

Weather

Weather conditions have a significant impact on the demand for our products, in particular propane, fuel oil and natural gas, for both heating and agricultural purposes. Many of our customers rely heavily on propane, fuel oil or natural gas as a heating source. Accordingly, the volume sold is directly affected by the severity of the winter

weather in our service areas, which can vary substantially from year to year. In any given area, sustained warmer than normal temperatures will tend to result in reduced propane, fuel oil and natural gas consumption, while sustained colder than normal temperatures will tend to result in greater consumption.

Hedging and Risk Management Activities

We engage in hedging and risk management activities to reduce the effect of price volatility on our product costs and to ensure the availability of product during periods of short supply. We enter into propane forward, options and swap agreements with third parties, and use futures and options contracts traded on the New York Mercantile Exchange (“NYMEX”) to purchase and sell propane, fuel oil and crude oil at fixed prices in the future. The majority of the futures, forward and options agreements are used to hedge price risk associated with propane and fuel oil physical inventory, as well as, in certain instances, forecasted purchases of propane or fuel oil. In addition, we sell propane and fuel oil to customers at fixed prices, and enter into derivative instruments to hedge a portion of our exposure to fluctuations in commodity prices as a result of selling the fixed price contracts. Forward contracts are generally settled physically at the expiration of the contract whereas futures, options and swap contracts are generally settled at the expiration of the contract through a net settlement mechanism. Although we use derivative instruments to reduce the effect of price volatility associated with priced physical inventory and forecasted transactions, we do not use derivative instruments for speculative trading purposes. Risk management activities are monitored by an internal Commodity Risk Management Committee, made up of five members of management and reporting to our Audit Committee, through enforcement of our Hedging and Risk Management Policy.

Critical Accounting Policies and Estimates

Our significant accounting policies are summarized in Note 2 - Summary of Significant Accounting Policies included within the Notes to Consolidated Financial Statements section elsewhere in this Annual Report.

Certain amounts included in or affecting our consolidated financial statements and related disclosures must be estimated, requiring management to make certain assumptions with respect to values or conditions that cannot be known with certainty at the time the financial statements are prepared. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“US GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We are also subject to risks and uncertainties that may cause actual results to differ from estimated results. Estimates are used when accounting for depreciation and amortization of long-lived assets, employee benefit plans, self-insurance and litigation reserves, environmental reserves, allowances for doubtful accounts, asset valuation assessments and valuation of derivative instruments. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Any effects on our business, financial position or results of operations resulting from revisions to these estimates are recorded in the period in which the facts that give rise to the revision become known to us. Management has reviewed these critical accounting estimates and related disclosures with the Audit Committee of our Board of Supervisors. We believe that the following are our critical accounting estimates:

Allowances for Doubtful Accounts. We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. We estimate our allowances for doubtful accounts using a specific reserve for known or anticipated uncollectible accounts, as well as an estimated reserve for potential future uncollectible accounts taking into consideration our historical write-offs. If the financial condition of one or more of our customers were to deteriorate resulting in an impairment in their ability to make payments, additional allowances could be required. As a result of our large customer base, which is comprised of approximately 1.2 million customers, no individual customer account is material. Therefore, while some variation to actual results occurs, historically such variability has not been material. Schedule II, Valuation and Qualifying Accounts, provides a summary of the changes in our allowances for doubtful accounts during the period.

Pension and Other Postretirement Benefits. We estimate the rate of return on plan assets, the discount rate used to estimate the present value of future benefit obligations and the expected cost of future health care benefits in determining our annual pension and other postretirement benefit costs. While we believe that our assumptions are appropriate, significant differences in our actual experience or significant changes in market conditions may materially affect our pension and other postretirement benefit obligations and our future expense. With other assumptions held constant, an increase or decrease of 100 basis points in the discount rate would have an immaterial impact on net pension and postretirement benefit costs. See “Liquidity and Capital Resources - Pension Plan Assets and Obligations” below for additional disclosure regarding pension benefits.

Self-Insurance Reserves. Our accrued self-insurance reserves represent the estimated costs of known and anticipated or unasserted claims under our general and product, workers’ compensation and automobile insurance policies. Accrued insurance provisions for unasserted claims arising from unreported incidents are based on an analysis of historical claims data. For each unasserted claim, we record a self-insurance provision up to the estimated amount of the probable claim utilizing actuarially determined loss development factors applied to actual claims data. Our self-insurance provisions are susceptible to change to the extent that actual claims development differs from historical claims development. We maintain insurance coverage wherein our net exposure for insured claims is limited to the insurance deductible, claims above which are paid by our insurance carriers. For the portion of our estimated self-insurance liability that exceeds our deductibles, we record an asset related to the amount of the liability expected to be paid by the insurance companies. Historically, we have not experienced significant variability in our actuarial estimates for claims incurred but not reported. Accrued insurance provisions for reported claims are reviewed at least quarterly, and our assessment of whether a loss is probable and/or reasonably estimable is updated as necessary. Due to the inherently uncertain nature of, in particular, product liability claims, the ultimate loss may differ materially from our estimates. However, because of the nature of our insurance arrangements, those material variations historically have not, nor are they expected in the future to have, a material impact on our results of operations or financial position.

Loss Contingencies. In the normal course of business, we are involved in various claims and legal proceedings. We record a liability for such matters when it is probable that a loss has been incurred and the amounts can be reasonably estimated. The liability includes probable and estimable legal costs to the point in the legal matter where we believe a conclusion to the matter will be reached. When only a range of possible loss can be established, the most probable amount in the range is accrued. If no amount within this range is a better estimate than any other amount within the range, the minimum amount in the range is accrued.

Fair Values of Acquired Assets and Liabilities. From time to time, we enter into material business combinations. In accordance with accounting guidance associated with business combinations, the assets acquired and liabilities assumed are recorded at their estimated fair value as of the acquisition date. Fair values of assets acquired and liabilities assumed are based upon available information and may involve us engaging an independent third party to perform an appraisal. Estimating fair values can be complex and subject to significant business judgment. Estimates most commonly impact property, plant and equipment and intangible assets, including goodwill. Generally, we have, if necessary, up to one year from the acquisition date to finalize our estimates of acquisition date fair values.

Results of Operations and Financial Condition

Net income for fiscal 2014 amounted to \$94.5 million, or \$1.56 per Common Unit, compared to \$78.8 million, or \$1.35 per Common Unit, in fiscal 2013. Earnings before interest, taxes, depreciation and amortization (“EBITDA”) for fiscal 2014 amounted to \$314.9 million, compared to \$305.2 million for fiscal 2013.

Net income and EBITDA for fiscal 2014 included: (i) \$12.3 million in expenses related to the ongoing integration of Inergy Propane and (ii) a loss on debt extinguishment of \$11.6 million. Net income and EBITDA for fiscal 2013 included: (i) \$10.6 million in expenses related to the ongoing integration of Inergy Propane; (ii) \$7.0 million in charges related to our voluntary withdrawal from multi-employer pension plans covering certain employees acquired in the Inergy Propane Acquisition; and (iii) a loss on debt extinguishment of \$2.1 million. Excluding the effects of these charges, as well as the unrealized (non-cash) mark-to-market adjustments on derivative instruments in both years, Adjusted EBITDA (as defined and reconciled below) amounted to \$338.5 million for fiscal 2014, an increase of \$9.2 million, or 2.8%, compared to Adjusted EBITDA of \$329.3 million in fiscal 2013.

Retail propane gallons sold for fiscal 2014 decreased 3.9 million gallons, or 0.7%, to 530.7 million gallons from 534.6 million gallons in fiscal 2013. Sales of fuel oil and other refined fuels also decreased 8.6%, to 49.1 million gallons from 53.7 million gallons in the prior year. According to the NOAA, average temperatures (as measured by heating degree days) across all of our service territories during fiscal 2014 were 3% colder than normal and 7% colder than the prior year period. However, the weather pattern during the winter heating season (October 2013 through March 2014) was characterized by considerably colder than normal temperatures in our service territories in the east and midwest regions, whereas our service territories in the west experienced unseasonably warm temperatures throughout the period. Average temperatures in the western territories during this past winter heating season were 11% warmer than normal and 6% warmer than the comparable period in the prior year, which negatively impacted volumes sold in those territories. Additionally, volumes sold during fiscal 2014 were adversely affected by supply constraints resulting from industry-wide supply shortages and logistics issues, as well as customer conservation attributable to a significant rise in wholesale propane prices.

During fiscal 2014, we made significant progress, not only in our integration efforts with regards to Inergy Propane, but also in executing our strategic financing initiatives. To highlight a few key accomplishments for fiscal 2014:

- We completed our system conversions and much of the physical blending activities associated with the integration of Inergy Propane;
- We have installed our operating model across the entire platform and have migrated to one common brand;
- We successfully refinanced our previous 7.5% Senior Notes due 2018 with new 5.5% Senior Notes due in 2024, which effectively extended maturities on this portion of our debt by six years and reduced our cash interest requirement by more than \$8 million annually; and
- We have successfully transitioned our senior leadership team in accordance with Board-approved succession plans.

As we look ahead to fiscal 2015, our anticipated cash requirements include: (i) maintenance and growth capital expenditures of approximately \$34.0 million; (ii) approximately \$79.4 million of interest and income tax payments; and (iii) approximately \$211.6 million of distributions to Unitholders, assuming distributions remain at the current annualized rate of \$3.50 per Common Unit. Based on our current cash position of \$92.6 million as of September 27, 2014 and availability under the Revolving Credit Facility (unused borrowing capacity of \$255.1 million at September 27, 2014) and expected cash flow from operating activities, we expect to have sufficient funds to meet our current and future obligations.

Fiscal Year 2014 Compared to Fiscal Year 2013

Revenues

(Dollars in thousands)					
	Fiscal 2014	Fiscal 2013	Increase / (Decrease)	Percent Increase / (Decrease)	
Revenues					
Propane	\$ 1,606,840	\$ 1,357,102	\$ 249,738	18.4%	
Fuel oil and refined fuels	194,684	208,957	(14,273)	(6.8%)	
Natural gas and electricity	87,093	79,432	7,661	9.6%	
All other	49,640	58,115	(8,475)	(14.6%)	
Total revenues	<u>\$ 1,938,257</u>	<u>\$ 1,703,606</u>	<u>\$ 234,651</u>	13.8%	

Total revenues increased \$234.7 million, or 13.8%, to \$1,938.3 million for fiscal 2014 compared to \$1,703.6 million for the prior year due to higher average propane, fuel oil and refined fuels and natural gas selling prices, offset to an extent by lower volumes sold. As discussed above, average temperatures (as measured in heating degree days) across all

of our service territories for fiscal 2014 were 3% colder than normal, compared to 4% warmer than normal in the prior year. However, the weather pattern during the fiscal 2014 heating season was characterized by warmer than normal temperatures for the first two months of the period, followed by significantly colder than normal temperatures for the remainder of the heating season. In addition, during the peak of our heating season, we experienced considerably colder than normal temperatures in our east and midwest service territories, but sustained unseasonably warm temperatures in our western territories. Average temperatures in our western territories during the fiscal 2014 heating season were 11% warmer than normal and 6% warmer than the comparable prior year period.

Revenues from the distribution of propane and related activities of \$1,606.8 million for fiscal 2014 increased \$249.7 million, or 18.4%, compared to \$1,357.1 million for the prior year, primarily due to higher average retail selling prices associated with higher wholesale propane costs, partially offset by a decrease in retail propane volumes sold. Average propane selling prices for fiscal 2014 increased 20.0% compared to the prior year as a result of higher wholesale propane costs, resulting in a \$254.6 million increase in revenues year-over-year. Retail propane gallons sold in fiscal 2014 decreased 3.9 million gallons, or 0.7%, to 530.7 million gallons from 534.6 million gallons in the prior year. Volumes sold during fiscal 2014 were adversely affected by supply constraints resulting from industry-wide supply shortages and logistics issues adversely affecting propane transportation sourcing and costs that persisted throughout much of our heating season. Customer conservation attributable to the significant rise in propane prices also adversely affected volumes sold. Lower retail propane volumes sold resulted in a decrease in revenues of \$9.3 million for fiscal 2014 compared to the prior year. Included within the propane segment are revenues from other propane activities of \$79.1 million for fiscal 2014, which increased \$4.4 million compared to the prior year.

Revenues from the distribution of fuel oil and refined fuels of \$194.7 million for fiscal 2014 decreased \$14.3 million, or 6.8%, from \$209.0 million for the prior year, primarily due to lower volumes sold, partially offset by higher average selling prices. Fuel oil and refined fuels gallons sold in fiscal 2014 decreased 4.6 million gallons, or 8.6%, to 49.1 million gallons from 53.7 million gallons in the prior year, primarily due to a decline in lower margin gasoline and diesel volumes. Lower fuel oil and refined fuels volumes sold resulted in a decrease in revenues of \$18.0 million for fiscal 2014 compared to the prior year. Average selling prices in our fuel oil and refined fuels segment in fiscal 2014 increased 2.0% compared to the prior year, resulting in a \$3.7 million increase in revenues year-over-year.

Revenues in our natural gas and electricity segment increased \$7.7 million, or 9.6%, to \$87.1 million in fiscal 2014 compared to \$79.4 million in the prior year as a result of higher average selling prices for natural gas and electricity as a result of higher average wholesale costs, partially offset by lower electricity usage.

Cost of Products Sold

(Dollars in thousands)				
	Fiscal 2014	Fiscal 2013	Increase / (Decrease)	Percent Increase / (Decrease)
Cost of products sold				
Propane	\$ 844,855	\$ 612,240	\$ 232,615	38.0%
Fuel oil and refined fuels	155,773	172,022	(16,249)	(9.4%)
Natural gas and electricity	64,448	55,995	8,453	15.1%
All other	15,674	21,648	(5,974)	(27.6%)
Total cost of products sold	<u>\$ 1,080,750</u>	<u>\$ 861,905</u>	<u>\$ 218,845</u>	25.4%
As a percent of total revenues	55.8%	50.6%		

The cost of products sold reported in the consolidated statements of operations represents the weighted average unit cost of propane, fuel oil and refined fuels, natural gas and electricity sold, including transportation costs to deliver product from our supply points to storage or to our customer service centers. Cost of products sold also includes the cost of appliances and related parts sold or installed by our customer service centers computed on a basis

that approximates the average cost of the products. Unrealized (non-cash) gains or losses from changes in the fair value of derivative instruments that are not designated as cash flow hedges are recorded within cost of products sold. Cost of products sold excludes depreciation and amortization; these amounts are reported separately within the consolidated statements of operations.

In the commodities markets, propane prices were extremely volatile during fiscal 2014 as a result of the supply and logistics issues that started late in the first fiscal quarter and continued throughout most of the second quarter. Overall, average posted prices for propane for fiscal 2014 were 24.8% higher than the prior year while fuel oil prices were 2.1% lower than the prior year. The net change in the fair value of derivative instruments during the period resulted in unrealized (non-cash) gains of \$0.3 million and unrealized (non-cash) losses of \$4.3 million reported in cost of products sold in fiscal 2014 and 2013, respectively, resulting in a decrease of \$4.6 million in cost of products sold in fiscal 2014 compared to the prior year, \$4.4 million of which was reported in the propane segment.

Cost of products sold associated with the distribution of propane and related activities of \$844.9 million for fiscal 2014 increased \$232.6 million, or 38.0%, compared to the prior year primarily due to higher wholesale costs and higher transportation costs associated with the extraordinary measures we took to ensure adequate propane supplies were delivered to our customer service centers to meet customer demand during the heating season. Higher average propane costs resulted in an increase of \$233.3 million, partially offset by a decrease of \$4.3 million related to lower propane volumes sold during fiscal 2014 compared to the prior year. Cost of products sold from other propane activities increased \$8.0 million.

Cost of products sold associated with our fuel oil and refined fuels segment of \$155.8 million for fiscal 2014 decreased \$16.2 million, or 9.4%, compared to the prior year. Lower fuel oil and refined fuels volumes sold coupled with lower wholesale costs resulted in decreases of \$14.8 million and \$1.4 million, respectively, in costs of products sold during fiscal 2014 compared to the prior year.

Cost of products sold in our natural gas and electricity segment of \$64.4 million for fiscal 2014 increased \$8.5 million, or 15.1%, compared to the prior year, primarily due to higher natural gas and electricity wholesale costs, partially offset by lower volumes sold.

Total cost of products sold as a percent of total revenues increased 5.2 percentage points to 55.8% in fiscal 2014 from 50.6% in the prior year, primarily due to the rise in wholesale propane costs outpacing the rise in propane average selling prices during fiscal 2014.

Operating Expenses

(Dollars in thousands)				
	Fiscal 2014	Fiscal 2013	Decrease	Percent Decrease
Operating expenses	\$ 466,389	\$ 469,496	\$ (3,107)	(0.7%)
As a percent of total revenues	24.1%	27.6%		

All costs of operating our retail distribution and appliance sales and service operations are reported within operating expenses in the consolidated statements of operations. These operating expenses include the compensation and benefits of field and direct operating support personnel, costs of operating and maintaining our vehicle fleet, overhead and other costs of our purchasing, training and safety departments and other direct and indirect costs of operating our customer service centers.

Operating expenses of \$466.4 million for fiscal 2014 decreased \$3.1 million, or 0.7%, compared to \$469.5 million in the prior year, primarily due to synergies realized as a result of the continuing integration of Inergy Propane operations, which was offset to an extent by higher overtime and vehicle expenses attributable to harsh weather conditions during our fiscal 2014 heating season, as well as higher provisions for potential uncollectible accounts. Operating expenses for fiscal 2014 included integration-related expenses of \$8.1 million associated with the integration of the Inergy Propane

operations compared to \$4.6 million in the prior year. In addition, fiscal 2013 included a \$7.0 million charge related to our voluntary partial withdrawal from a multi-employer pension plan and full withdrawal from four multi-employer pension plans for certain employees acquired in the Inergy Propane Acquisition. These charges were excluded from our calculation of Adjusted EBITDA below.

General and Administrative Expenses

(Dollars in thousands)				
	Fiscal 2014	Fiscal 2013	Decrease	Percent Decrease
General and administrative expenses	\$ 64,593	\$ 64,845	\$ (252)	(0.4%)
As a percent of total revenues	3.3%	3.8%		

All costs of our back office support functions, including compensation and benefits for executives and other support functions, as well as other costs and expenses to maintain finance and accounting, treasury, legal, human resources, corporate development and the information systems functions are reported within general and administrative expenses in the consolidated statements of operations.

General and administrative expenses of \$64.6 million for fiscal 2014 was relatively flat compared to the prior year. General and administrative expenses for fiscal 2014 and 2013 included \$4.2 million and \$6.0 million, respectively, of professional services and other expenses associated with the integration of the Inergy Propane operations. These items were excluded from our calculation of Adjusted EBITDA below.

Depreciation and Amortization

(Dollars in thousands)				
	Fiscal 2014	Fiscal 2013	Increase	Percent Increase
Depreciation and amortization	\$ 136,399	\$ 130,384	\$ 6,015	4.6%
As a percent of total revenues	7.0%	7.7%		

Depreciation and amortization expense of \$136.4 million in fiscal 2014 increased \$6.0 million, primarily as a result of depreciation expense on buildings, vehicles and equipment taken out of service as a result of the integration of Inergy Propane operations.

Interest Expense, net

(Dollars in thousands)				
	Fiscal 2014	Fiscal 2013	Decrease	Percent Decrease
Interest expense, net	\$ 83,261	\$ 95,427	\$ (12,166)	(12.7%)
As a percent of total revenues	4.3%	5.6%		

Net interest expense of \$83.3 million for fiscal 2014 decreased \$12.2 million compared to \$95.4 million in the prior year, primarily due to the reduction of \$157.3 million in long-term borrowings during the fourth quarter of fiscal 2013 and, to a lesser extent, the impact of the refinancing of our 7.5% Senior Notes due 2018 with 5.5% Senior Notes due 2024 completed during the third quarter of fiscal 2014. See Liquidity and Capital Resources below for additional discussion.

Loss on Debt Extinguishment

On May 27, 2014, we repurchased and satisfied and discharged all of our 2018 Senior Notes with net proceeds from the issuance of the 2024 Senior Notes and cash on hand pursuant to a tender offer and redemption. In connection with this tender offer and redemption, we recognized a loss on the extinguishment of debt of \$11.6 million consisting of \$31.6 million for the redemption premium and related fees, as well as the write-off of \$5.3 million and (\$25.3) million in unamortized debt origination costs and unamortized premium, respectively.

On August 2, 2013, we repurchased, pursuant to an optional redemption, \$133.4 million of our 7.375% senior notes due August 1, 2021 using net proceeds from our May 2013 public offering and net proceeds from the underwriters' exercise of their over-allotment option to purchase additional Common Units. In addition, on August 6, 2013, we repurchased \$23.9 million of our 2021 senior notes in a private transaction using cash on hand. In connection with these repurchases, which totaled \$157.3 million in aggregate principal amount, we recognized a loss on the extinguishment of debt of \$2.1 million consisting of \$11.7 million for the repurchase premium and related fees, as well as the write-off of \$2.1 million and (\$11.7) million in unamortized debt origination costs and unamortized premium, respectively.

Net Income and Adjusted EBITDA

Net income for fiscal 2014 amounted to \$94.5 million, or \$1.56 per Common Unit, compared to \$78.8 million, or \$1.35 per Common Unit, in fiscal 2013. Earnings before interest, taxes, depreciation and amortization ("EBITDA") for fiscal 2014 amounted to \$314.9 million, compared to \$305.2 million for fiscal 2013.

Net income and EBITDA for fiscal 2014 included: (i) \$12.3 million in expenses related to the ongoing integration of Inergy Propane and (ii) a loss on debt extinguishment of \$11.6 million. Net income and EBITDA for fiscal 2013 included: (i) \$10.6 million in expenses related to the ongoing integration of Inergy Propane; (ii) \$7.0 million in charges related to our voluntary withdrawal from multi-employer pension plans covering certain employees acquired in the Inergy Propane Acquisition; and (iii) a loss on debt extinguishment of \$2.1 million. Excluding the effects of these charges, as well as the unrealized (non-cash) mark-to-market adjustments on derivative instruments in both years, Adjusted EBITDA amounted to \$338.5 million for fiscal 2014, compared to Adjusted EBITDA of \$329.3 million in fiscal 2013.

Adjusted EBITDA represents EBITDA excluding the unrealized net gain or loss from mark-to-market activity for derivative instruments and other certain items as provided in the table below. Our management uses EBITDA and Adjusted EBITDA as measures of liquidity and we are including them because we believe that they provide our investors and industry analysts with additional information to evaluate our ability to meet our debt service obligations and to pay our quarterly distributions to holders of our Common Units. EBITDA and Adjusted EBITDA are not recognized terms under US GAAP and should not be considered as an alternative to net income or net cash provided by operating activities determined in accordance with US GAAP. Because EBITDA and Adjusted EBITDA as determined by us excludes some, but not all, items that affect net income, they may not be comparable to EBITDA and Adjusted EBITDA or similarly titled measures used by other companies.

The following table sets forth (i) our calculations of EBITDA and adjusted EBITDA and (ii) a reconciliation of both EBITDA and adjusted EBITDA, as so calculated, to our net cash provided by operating activities

(Dollars in thousands)	Year Ended	
	September 27, 2014	September 28, 2013
Net income	\$ 94,509	\$ 78,798

Net cash provided by operating activities	\$ 225,551	\$ 214,306

Fiscal Year 2013 Compared to Fiscal Year 2012

Revenues

(Dollars in thousands)				
	Fiscal 2013	Fiscal 2012	Increase	Percent Increase
Revenues				
Propane	\$ 1,357,102	\$ 843,648	\$ 513,454	60.9%
Fuel oil and refined fuels	208,957	114,288	94,669	82.8%
Natural gas and electricity	79,432	67,419	12,013	17.8%
All other	58,115	38,103	20,012	52.5%
Total revenues	<u>\$ 1,703,606</u>	<u>\$ 1,063,458</u>	<u>\$ 640,148</u>	60.2%

Total revenues increased \$640.1 million, or 60.2%, to \$1,703.6 million for fiscal 2013 compared to \$1,063.5 million for the prior year due to higher volumes sold, offset to an extent by lower average propane, fuel oil and refined fuels and natural gas selling prices. The increase in sales volumes was primarily due to the addition of the Inergy Propane business, as well as increases in our legacy operations resulting from colder average temperatures. As discussed above, average temperatures (as measured in heating degree days) across all of our service territories for fiscal 2013 were 4% warmer than normal, compared to 14% warmer than normal for the prior year.

Revenues from the distribution of propane and related activities of \$1,357.1 million for fiscal 2013 increased \$513.5 million, or 60.9%, compared to \$843.6 million for the prior year, primarily due to higher volumes sold, partially offset by lower average selling prices associated with lower product costs. Retail propane gallons sold in fiscal 2013 increased 250.8 million gallons, or 88.4%, to 534.6 million gallons from 283.8 million gallons in the prior year, primarily as a result of the addition of Inergy Propane, as well as increases in our legacy operations resulting from colder average temperatures. Higher retail propane volumes sold resulted in an increase in revenues of \$679.8 million for fiscal 2013 compared to the prior year. Average propane selling prices for fiscal 2013 decreased 11.5% compared to the prior year due to lower wholesale product costs, resulting in a \$166.9 million decrease in revenues year-over-year. Included within the propane segment are revenues from risk management activities and other propane activities of \$74.7 million for fiscal 2013, which increased \$0.6 million compared to the prior year as higher volumes from other propane activities were substantially offset by lower volumes from wholesale and risk management activities.

Revenues from the distribution of fuel oil and refined fuels of \$209.0 million for fiscal 2013 increased \$94.7 million, or 82.8%, from \$114.3 million for the prior year, primarily due to higher volumes sold, partially offset by lower average selling prices. Fuel oil and refined fuels gallons sold in fiscal 2013 increased 25.2 million gallons, or 88.4%, to 53.7 million gallons from 28.5 million gallons in the prior year, primarily as a result of the addition of Inergy Propane, as well as increases in our legacy operations resulting from colder average temperatures. Higher fuel oil and refined fuels volumes sold resulted in an increase in revenues of \$100.5 million for fiscal 2013 compared to the prior year. Average selling prices in our fuel oil and refined fuels segment in fiscal 2013 decreased 2.6% compared to the prior year, resulting in a \$5.8 million decrease in revenues year-over-year.

Revenues in our natural gas and electricity segment increased \$12.0 million, or 17.8%, to \$79.4 million in fiscal 2013 compared to \$67.4 million in the prior year as a result of higher natural gas volumes sold, and higher electricity average selling prices. The increase in volumes sold was primarily attributable to the more favorable weather pattern in fiscal 2013, compared to the unseasonably warm weather in the prior year.

Cost of Products Sold

(Dollars in thousands)				
	Fiscal 2013	Fiscal 2012	Increase	Percent Increase
Cost of products sold				
Propane	\$ 612,240	\$ 448,120	\$ 164,120	36.6%
Fuel oil and refined fuels	172,022	91,239	80,783	88.5%
Natural gas and electricity	55,995	46,915	9,080	19.4%
All other	21,648	12,785	8,863	69.3%
Total cost of products sold	<u>\$ 861,905</u>	<u>\$ 599,059</u>	<u>\$ 262,846</u>	43.9%
As a percent of total revenues	50.6%	56.3%		

Average posted prices for propane for fiscal 2013 were 19.2% lower than the prior year, and fuel oil prices were essentially flat year-over-year. Total cost of products sold increased \$262.8 million, or 43.9%, to \$861.9 million in fiscal 2013 compared to \$599.1 million in the prior year due to higher volumes sold, partially offset by lower average propane product costs. The net change in the fair value of derivative instruments during the period resulted in unrealized (non-cash) losses of \$4.3 million and unrealized (non-cash) gains of \$4.6 million reported in cost of products sold in fiscal 2013 and 2012, respectively, resulting in an increase of \$8.9 million in cost of products sold in fiscal 2013 compared to the prior year, all of which was reported in the propane segment.

Cost of products sold associated with the distribution of propane and related activities of \$612.2 million for fiscal 2013 increased \$164.1 million, or 36.6%, compared to the prior year. Higher retail propane volumes sold resulted in an increase of \$368.4 million in cost of products sold during fiscal 2013 compared to the prior year. The impact of the increase in volumes sold was partially offset by lower average propane costs, which resulted in a \$190.0 million decrease in cost of products sold year-over-year. Cost of products sold from other propane activities decreased \$23.2 million in fiscal 2013 compared to the prior year, primarily due to lower sales from wholesale and risk management activities.

Cost of products sold associated with our fuel oil and refined fuels segment of \$172.0 million for fiscal 2013 increased \$80.8 million, or 88.5%, compared to the prior year primarily due to higher fuel oil and refined fuels volumes sold.

Cost of products sold in our natural gas and electricity segment of \$56.0 million for fiscal 2013 increased \$9.1 million, or 19.4%, compared to the prior year, primarily due to higher natural gas volumes sold, and higher electricity product costs.

Total cost of products sold as a percent of total revenues decreased 5.7 percentage points to 50.6% in fiscal 2013 from 56.3% in the prior year, primarily due to the decline in propane wholesale product costs outpacing the decline in propane average selling prices. In addition, colder average temperatures and the inclusion of Inergy Propane operations resulted in a higher concentration of residential volumes sold in fiscal 2013 compared to the prior year, which had a favorable impact on overall gross margins.

Operating Expenses

(Dollars in thousands)	Fiscal 2013	Fiscal 2012	Increase	Percent Increase
Operating expenses	\$ 469,496	\$ 298,772	\$ 170,724	57.1%
As a percent of total revenues	27.6%	28.1%		

Operating expenses of \$469.5 million for fiscal 2013 increased \$170.7 million, or 57.1%, compared to \$298.8 million in the prior year, primarily due to the addition of Inergy Propane, offset to an extent by lower payroll and benefit related expenses in our legacy operations resulting from operating efficiencies. In addition, operating expenses for fiscal 2013 included a \$7.0 million charge related to our voluntary partial withdrawal from a multi-employer pension plan and full withdrawal from four multi-employer pension plans, and a charge of \$4.6 million primarily for severance costs, both charges were associated with the integration of the Inergy Propane operations. These charges were excluded from our calculation of Adjusted EBITDA below.

As a result of the progress on our efforts to integrate the operations of Inergy Propane, including the initial process of blending geographic territories and systems, which commenced at the beginning of the third quarter of fiscal 2013, we have realized certain synergies in the combined operating expenses of Inergy Propane and our legacy operations.

General and Administrative Expenses

(Dollars in thousands)	Fiscal 2013	Fiscal 2012	Increase	Percent Increase
General and administrative expenses	\$ 64,845	\$ 59,020	\$ 5,825	9.9%
As a percent of total revenues	3.8%	5.5%		

General and administrative expenses of \$64.8 million for fiscal 2013 increased \$5.8 million compared to \$59.0 million for the prior year, primarily due to higher variable compensation associated with higher earnings, offset to an extent by a \$2.2 million gain on the sale of an asset in fiscal 2013. In addition, general and administrative expenses for fiscal 2013 included \$6.0 million of professional services and other expenses associated with the integration of the Inergy Propane operations. General and administrative expenses for fiscal 2012 included a \$4.5 million charge associated with a legal settlement and a \$2.1 million non-cash charge from a loss on disposal of an asset used in our natural gas and electricity business. These items were excluded from our calculation of Adjusted EBITDA below.

Acquisition-related Costs

During fiscal 2012 we recorded acquisition-related costs of \$17.9 million related to the Inergy Propane Acquisition. These costs were primarily attributable to investment banker, legal, accounting and other consulting fees.

Depreciation and Amortization

(Dollars in thousands)	Fiscal 2013	Fiscal 2012	Increase	Percent Increase
Depreciation and amortization	\$ 130,384	\$ 47,034	\$ 83,350	177.2%
As a percent of total revenues	7.7%	4.4%		

Depreciation and amortization expense of \$130.4 million in fiscal 2013 increased \$83.4 million, primarily as a result of the acquired tangible and identifiable intangible assets of Inergy Propane.

Interest Expense, net

(Dollars in thousands)				
	Fiscal 2013	Fiscal 2012	Increase	Percent Increase
Interest expense, net	\$ 95,427	\$ 38,633	\$ 56,794	147.0%
As a percent of total revenues	5.6%	3.6%		

Net interest expense of \$95.4 million for fiscal 2013 increased \$56.8 million compared to \$38.6 million in the prior year, primarily due to the issuance of \$496.6 million in aggregate principal amount of 7.5% senior notes due October 1, 2018 and \$503.4 million in aggregate principal amount of 7.375% senior notes due August 1, 2021 in connection with the Inergy Propane Acquisition on August 1, 2012. See Liquidity and Capital Resources below for additional discussion.

Loss on Debt Extinguishment

On August 2, 2013, we repurchased, pursuant to an optional redemption, \$133.4 million of our 7.375% senior notes due August 1, 2021 using net proceeds from our May 2013 public offering and net proceeds from the underwriters' exercise of their over-allotment option to purchase additional Common Units. In addition, on August 6, 2013, we repurchased \$23.9 million of our 2021 senior notes in a private transaction using cash on hand. In connection with these repurchases, which totaled \$157.3 million in aggregate principal amount, we recognized a loss on the extinguishment of debt of \$2.1 million consisting of \$11.7 million for the repurchase premium and related fees, as well as the write-off of \$2.1 million and (\$11.7) million in unamortized debt origination costs and unamortized premium, respectively.

During fiscal 2012, in connection with the execution of the amendment of our credit agreement on January 5, 2012, we recognized a non-cash charge of \$0.5 million to write-off a portion of unamortized debt origination costs associated with the credit agreement during the first quarter of fiscal 2012. In addition, in connection with the repayment, on August 14, 2012, of borrowings under our 364-Day Facility (defined below) which was used as short-term financing to fund a portion of the Inergy Propane Acquisition, we recognized a non-cash charge of \$1.7 million to write off unamortized debt origination costs associated with the 364-Day Facility during the fourth quarter of fiscal 2012. See Liquidity and Capital Resources below for additional discussion on the amendment to the credit agreement and other financing activities.

Net Income and Adjusted EBITDA

Net income for fiscal 2013 amounted to \$78.8 million, or \$1.35 per Common Unit, compared to \$0.6 million, or \$0.02 per Common Unit, in fiscal 2012. Earnings before interest, taxes, depreciation and amortization ("EBITDA") for fiscal 2013 amounted to \$305.2 million, compared to \$86.4 million for fiscal 2012.

Net income and EBITDA for fiscal 2013 included: (i) \$10.6 million in expenses related to the ongoing integration of Inergy Propane; (ii) \$7.0 million in charges related to our voluntary withdrawal from multi-employer pension plans covering certain employees acquired in the Inergy Propane Acquisition; and (iii) a loss on debt extinguishment of \$2.1 million. Net income and EBITDA for fiscal 2012 included: (i) \$17.9 million in acquisition-related costs associated with the Inergy Propane Acquisition; (ii) a charge of \$4.5 million associated with a legal settlement; (iii) a \$2.1 million non-cash charge from a loss on disposal of an asset in our natural gas and electricity business; and (iv) a loss on debt extinguishment of \$2.2 million. Excluding the effects of these charges, as well as the unrealized (non-cash) mark-to-market adjustments on derivative instruments in both years, Adjusted EBITDA amounted to \$329.3 million for fiscal 2013, compared to Adjusted EBITDA of \$108.5 million in fiscal 2012.

The following table sets forth (i) our calculations of EBITDA and adjusted EBITDA and (ii) a reconciliation of both EBITDA and adjusted EBITDA, as so calculated, to our net cash provided by operating activities:

(Dollars in thousands)	Year Ended	
	September 28, 2013	September 29, 2012

Liquidity and Capital Resources

Analysis of Cash Flows

Operating Activities. Net cash provided by operating activities for fiscal 2014 amounted to \$225.5 million, an increase of \$11.2 million compared to the prior year. The increase was primarily attributable to an increase in earnings, after adjusting for non-cash items in both periods. In addition, average posted prices for propane during fiscal 2014 increased 24.8% compared to the prior year, which resulted in a substantial increase in working capital requirements year-over-year. Cash flows from operating activities for fiscal 2013 benefited to an extent by the realization of working capital acquired in the Inergy Propane Acquisition.

Investing Activities. Net cash used in investing activities of \$16.5 million for fiscal 2014 consisted of capital expenditures of \$30.1 million (including \$18.2 million for maintenance expenditures and \$11.9 million to support the

growth of operations), partially offset by the net proceeds of \$13.5 million from the sale of property, plant and equipment. Net cash used in investing activities of \$14.7 million for fiscal 2013 consisted of capital expenditures of \$27.8 million (including \$8.3 million for maintenance expenditures and \$19.5 million to support the growth of operations), partially offset by the net proceeds of \$7.3 million from the sale of property, plant and equipment, and net proceeds of \$5.8 million from Inergy as a result of a purchase price adjustment attributable to the working capital of Inergy Propane.

Financing Activities. Net cash used in financing activities for fiscal 2014 of \$223.6 million reflects the quarterly distribution to Common Unitholders at a rate of \$0.8750 per Common Unit paid in respect of the fourth quarter of fiscal 2013 and the first, second and third quarters of fiscal 2014. In addition, cash used in financing activities included proceeds of \$525.0 million from the issuance of the 2024 Senior Notes in May 2014. The net proceeds from the 2024 Senior Notes offering were used, along with cash on hand, to repurchase and satisfy and discharge all of the outstanding 2018 Senior Notes, as well as to pay tender premiums and other related fees of \$31.6 million and debt issuance costs of \$9.5 million, pursuant to a tender offer and redemption.

Net cash used in financing activities for fiscal 2013 of \$226.7 million reflects the quarterly distribution to Common Unitholders at a rate of \$0.8525 per Common Unit paid in respect of the fourth quarter of fiscal 2012 and at a rate of \$0.8750 per Common Unit paid in respect of the first, second and third quarters of fiscal 2013. In addition, net cash used in financing activities for fiscal 2013 includes proceeds of \$143.4 million from the issuance of 3,105,000 of our Common Units in May 2013. The net proceeds from the equity offering, along with cash on hand, were used to redeem \$157.3 million of our 2021 Senior Notes in August 2013.

Equity Offering

On May 17, 2013, we sold 2,700,000 Common Units in a public offering at a price of \$48.16 per Common Unit realizing proceeds of \$124.7 million, net of underwriting commissions and other offering expenses. On May 22, 2013, following the underwriters' exercise of their over-allotment option, we sold an additional 405,000 Common Units at \$48.16 per Common Unit, generating additional proceeds of \$18.7 million, net of underwriting commissions. The net proceeds from the offering, including the net proceeds from the underwriters' exercise of their over-allotment option, were used to redeem \$133.4 million of our 2021 senior notes in August 2013, including prepayment premiums and other expenses.

Summary of Long-Term Debt Obligations and Revolving Credit Lines

As of September 27, 2014, our long-term debt consisted of \$250.0 million in aggregate principal amount of 7.375% senior notes due March 15, 2020, \$346.2 million in aggregate principal amount of 7.375% senior notes due August 1, 2021, \$525.0 million in aggregate principal amount of 5.5% senior notes due June 1, 2024 and \$100.0 million outstanding under our senior secured Revolving Credit Facility.

Senior Notes

2018 Senior Notes and 2021 Senior Notes

On August 1, 2012, the Partnership and its 100%-owned subsidiary, Suburban Energy Finance Corp., issued \$496.6 million in aggregate principal amount of unregistered 7.5% senior notes due October 1, 2018 (the "2018 Senior Notes") and \$503.4 million in aggregate principal amount of unregistered 7.375% senior notes due August 1, 2021 (the "2021 Senior Notes") in a private placement in connection with the Inergy Propane Acquisition. Based on market rates for similar issues, the 2018 Senior Notes and 2021 Senior Notes were valued at 106.875% and 108.125%, respectively, of the principal amount, on the Acquisition Date as they were issued in exchange for Inergy's outstanding notes, not for cash.

On May 27, 2014, we repurchased and satisfied and discharged all of our 2018 Senior Notes with net proceeds from the issuance of the 2024 Senior Notes, as defined below, and cash on hand, pursuant to a tender offer and redemption during the third quarter of fiscal 2014. In connection with this tender offer and redemption, we recognized a loss on the extinguishment of debt of \$11.6 million consisting of \$31.6 million for the redemption

premium and related fees, as well as the write-off of \$5.3 million and (\$25.3) million in unamortized debt origination costs and unamortized premium, respectively. The 2018 Senior Notes required semi-annual interest payments in April and October, and the 2021 Senior Notes require semi-annual interest payments in February and August.

The 2021 Senior Notes are redeemable, at our option, in whole or in part, at any time on or after August 1, 2016, in each case at the redemption prices described in the table below, together with any accrued and unpaid interest to date of the redemption.

<u>Year</u>	<u>Percentage</u>
2016.....	103.688%
2017.....	102.459%
2018.....	101.229%
2019 and thereafter.....	100.000%

On December 19, 2012, we completed an offer to exchange our then-outstanding unregistered 7.5% senior notes due 2018 and 7.375% senior notes due 2021 (collectively, the “Old Notes”) for an equal principal amount of 7.5% senior notes due 2018 and 7.375% senior notes due 2021 (collectively, the “Exchange Notes”), respectively, that have been registered under the Securities Act of 1933, as amended. The terms of the Exchange Notes are identical in all material respects (including principal amount, interest rate, maturity and redemption rights) to the Old Notes for which they were exchanged, except that the Exchange Notes generally will not be subject to transfer restrictions.

On August 2, 2013, we repurchased, pursuant to optional redemption, \$133.4 million of our 2021 Senior Notes using net proceeds from our May 2013 public offering and net proceeds from the underwriters’ exercise of their over-allotment option to purchase additional Common Units. In addition, on August 6, 2013, we repurchased \$23.9 million of our 2021 Senior Notes in a private transaction using cash on hand. In connection with these repurchases, which totaled \$157.3 million in aggregate principal amount, we recognized a loss on the extinguishment of debt of \$2.1 million consisting of \$11.7 million for the repurchase premium and related fees, as well as the write-off of \$2.1 million and (\$11.7) million in unamortized debt origination costs and unamortized premium, respectively.

2020 Senior Notes

On March 23, 2010, the Partnership and its 100%-owned subsidiary, Suburban Energy Finance Corp., completed a public offering of \$250.0 million in aggregate principal amount of 7.375% senior notes due March 15, 2020 (the “2020 Senior Notes”). The 2020 Senior Notes were issued at 99.136% of the principal amount and require semi-annual interest payments in March and September.

The 2020 Senior Notes are redeemable, at our option, in whole or in part, at any time on or after March 15, 2015, in each case at the redemption prices described in the table below, together with any accrued and unpaid interest to the date of the redemption.

<u>Year</u>	<u>Percentage</u>
2015.....	103.688%
2016.....	102.458%
2017.....	101.229%
2018 and thereafter.....	100.000%

2024 Senior Notes

As previously discussed, on May 27, 2014, the Partnership and its 100%-owned subsidiary, Suburban Energy Finance Corp., completed a public offering of \$525.0 million in aggregate principal amount of 5.5% senior notes due June 1, 2024 (the “2024 Senior Notes”). The 2024 Senior Notes were issued at 100% of the principal amount and require semi-annual interest payments in June and December, beginning in December 2014. The net proceeds from the issuance of the 2024 Senior Notes, along with cash on hand, were used to repurchase and satisfy and discharge all of the 2018 Senior Notes.

The 2024 Senior Notes are redeemable, at our option, in whole or in part, at any time on or after June 1, 2019, in each case at the redemption prices described in the table below, together with any accrued and unpaid interest to the date of the redemption.

<u>Year</u>	<u>Percentage</u>
2019.....	102.750%
2020.....	101.833%
2021.....	100.917%
2022 and thereafter.....	100.000%

Our obligations under the 2020 Senior Notes, 2021 Senior Notes and 2024 Senior Notes (collectively, the “Senior Notes”) are unsecured and rank senior in right of payment to any future subordinated indebtedness and equally in right of payment with any future senior indebtedness. The Senior Notes are structurally subordinated to, which means they rank effectively behind, any debt and other liabilities of the Operating Partnership. The Senior Notes each have a change of control provision that would require us to offer to repurchase the notes at 101% of the principal amount repurchased, if a change of control, as defined in the indenture, occurs and is followed by a rating decline (a decrease in the rating of the notes by either Moody’s Investors Service or Standard and Poor’s Rating Group by one or more gradations) within 90 days of the consummation of the change of control.

Credit Agreement

Our Operating Partnership has an amended and restated credit agreement entered into on January 5, 2012, as amended on August 1, 2012 and May 9, 2014 (collectively, the “Amended Credit Agreement”) that provides for a five-year \$400.0 million revolving credit facility (the “Revolving Credit Facility”), of which \$100.0 million was outstanding as of September 27, 2014 and September 28, 2013. Borrowings under the Revolving Credit Facility may be used for general corporate purposes, including working capital, capital expenditures and acquisitions. Our Operating Partnership has the right to prepay any borrowings under the Revolving Credit Facility, in whole or in part, without penalty at any time prior to maturity.

During the second quarter of fiscal 2014, we experienced a significant increase in working capital requirements as a result of the impact of the significant increase in wholesale propane costs. This increase in working capital requirements resulted in the net borrowing of \$61.7 million under our Revolving Credit Facility during fiscal 2014. The borrowings were repaid in full during fiscal 2014 with internally generated cash.

The amendment and restatement of the credit agreement on January 5, 2012 amended the previous credit agreement to, among other things, extend the maturity date from June 25, 2013 to January 5, 2017, reduce the borrowing rate and commitment fees, and amend certain affirmative and negative covenants.

On August 1, 2012, our Operating Partnership executed an amendment to the Amended Credit Agreement to, among other things, provide for (i) a \$250.0 million senior secured 364-Day Facility and (ii) an increase in our revolving credit facility under the Amended Credit Agreement from \$250.0 million to \$400.0 million. On the Acquisition Date, our Operating Partnership drew \$225.0 million on the 364-Day Facility, which was used to fund a portion of the Energy Propane Acquisition, including costs and expenses related to the acquisition. We repaid the \$225.0 million of borrowings under the 364-Day Facility on August 14, 2012 with the net proceeds from the public issuance of Common Units on August 14, 2012.

The amendment to the Amended Credit Agreement on August 1, 2012 also amended certain restrictive and affirmative covenants applicable to our Operating Partnership and to us, as well as certain financial covenants, including (a) requiring our consolidated interest coverage ratio, as defined in the amendment, to be not less than 2.0 to 1.0 as of the end of any fiscal quarter; (b) prohibiting the total consolidated leverage ratio, as defined in the amendment, of the Partnership from being greater than 7.0 to 1.0 as of the end of any fiscal quarter. The minimum consolidated interest coverage ratio increases over time, and commencing with the second quarter of fiscal 2014, such minimum ratio is 2.5 to 1.0. The maximum consolidated leverage ratio decreases over time, as well as upon the occurrence of certain events, and, commencing with the second quarter of fiscal 2013, such maximum ratio is 4.75 to 1.0 (or 5.0 to 1.0 during an acquisition period as defined in the amendment) as a result of the issuance of Common Units in August

2012.

The second amendment to the Amended Credit Agreement on May 9, 2014 made certain technical amendments with respect to agreements relating to debt refinancing.

We act as a guarantor with respect to the obligations of our Operating Partnership under the Amended Credit Agreement pursuant to the terms and conditions set forth therein. The obligations under the Amended Credit Agreement are secured by liens on substantially all of the personal property of the Partnership, the Operating Partnership and their subsidiaries, as well as mortgages on certain real property.

Borrowings under the Revolving Credit Facility of the Amended Credit Agreement bear interest at prevailing interest rates based upon, at the Operating Partnership's option, LIBOR plus the applicable margin or the base rate, defined as the higher of the Federal Funds Rate plus $\frac{1}{2}$ of 1%, the agent bank's prime rate, or LIBOR plus 1%, plus in each case the applicable margin. The applicable margin is dependent upon our ratio of Consolidated Total Debt to Consolidated EBITDA, as defined in the Revolving Credit Facility. As of September 27, 2014, the interest rate for the Revolving Credit Facility was approximately 2.5%. The interest rate and the applicable margin will be reset at the end of each calendar quarter.

In connection with the Amended Credit Agreement, our Operating Partnership entered into an interest rate swap agreement with a June 25, 2013 effective date and a maturity date of January 5, 2017. Under this interest rate swap agreement, our Operating Partnership will pay a fixed interest rate of 1.63% to the issuing lender on the notional principal amount outstanding, and the issuing lender will pay our Operating Partnership a floating rate, namely LIBOR, on the same notional principal amount. The interest rate swap has been designated as a cash flow hedge.

As of September 27, 2014, our Operating Partnership had standby letters of credit issued under the Revolving Credit Facility in the aggregate amount of \$44.9 million which expire periodically through April 3, 2015. Therefore, as of September 27, 2014, after giving effect to \$100.0 million in outstanding borrowings, we had available borrowing capacity of \$255.1 million under the Revolving Credit Facility.

The Amended Credit Agreement and the Senior Notes both contain various restrictive and affirmative covenants applicable to the Operating Partnership and the Partnership, respectively, including (i) restrictions on the incurrence of additional indebtedness, and (ii) restrictions on certain liens, investments, guarantees, loans, advances, payments, mergers, consolidations, distributions, sales of assets and other transactions. Under the Amended Credit Agreement and the indentures governing the Senior Notes, the Operating Partnership and the Partnership are generally permitted to make cash distributions equal to available cash, as defined, as of the end of the immediately preceding quarter, if no event of default exists or would exist upon making such distributions, and with respect to the indentures governing the Senior Notes, our consolidated fixed charge coverage ratio, as defined, is greater than 1.75 to 1. We and our Operating Partnership were in compliance with all covenants and terms of the Senior Notes and the Amended Credit Agreement as of September 27, 2014.

Debt origination costs representing the costs incurred in connection with the placement of, and the subsequent amendment to, long-term borrowings are capitalized within other assets and amortized on a straight-line basis over the term of the respective debt agreements. During fiscal 2014, we recognized charges of \$5.3 million to write-off unamortized debt origination costs associated with the tender offer and redemption of our 2018 Senior Notes. During fiscal 2013, we recognized charges of \$2.1 million to write-off unamortized debt origination costs associated with the repurchase of our 2021 Senior Notes. Other assets at September 27, 2014 and September 28, 2013 include debt origination costs with a net carrying amount of \$21.0 million and \$21.3 million, respectively.

The aggregate amounts of long-term debt maturities subsequent to September 27, 2014 are as follows: fiscal 2015 through fiscal 2016: \$-0-; fiscal 2017: \$100.0 million; fiscal 2018: \$-0-; fiscal 2019: \$-0-; and thereafter: \$1,121.2 million.

Partnership Distributions

We are required to make distributions in an amount equal to all of our Available Cash, as defined in our Third Amended and Restated Partnership Agreement, as amended (the “Partnership Agreement”), no more than 45 days after the end of each fiscal quarter to holders of record on the applicable record dates. Available Cash, as defined in the Partnership Agreement, generally means all cash on hand at the end of the respective fiscal quarter less the amount of cash reserves established by the Board of Supervisors in its reasonable discretion for future cash requirements. These reserves are retained for the proper conduct of our business, the payment of debt principal and interest and for distributions during the next four quarters. The Board of Supervisors reviews the level of Available Cash on a quarterly basis based upon information provided by management.

On October 23, 2014, we announced that our Board of Supervisors had declared a quarterly distribution of \$0.8750 per Common Unit for the three months ended September 27, 2014. This quarterly distribution rate equates to an annualized rate of \$3.50 per Common Unit. The distribution was paid on November 10, 2014 to Common Unitholders of record as of November 3, 2014.

Pension Plan Assets and Obligations

We have a noncontributory defined benefit pension plan which was originally designed to cover all of our eligible employees who met certain requirements as to age and length of service. Effective January 1, 1998, we amended the defined benefit pension plan to provide benefits under a cash balance formula as compared to a final average pay formula which was in effect prior to January 1, 1998. Our defined benefit pension plan was frozen to new participants effective January 1, 2000 and, in furtherance of our effort to minimize future increases in our benefit obligations, effective January 1, 2003, all future service credits were eliminated. Therefore, eligible participants will receive interest credits only toward their ultimate defined benefit under the defined benefit pension plan. There were no minimum funding requirements for the defined benefit pension plan during fiscal 2014, 2013 or 2012. As of September 27, 2014 and September 28, 2013 the plan’s projected benefit obligation exceeded the fair value of plan assets by \$32.1 million and \$27.9 million, respectively. As a result, the net liability recognized in the consolidated financial statements for the defined benefit pension plan increased by \$4.2 million during fiscal 2014, which was primarily attributable to an increase in the present value of the benefit obligation due to a general decrease in market interest rates.

Our investment policies and strategies, as set forth in the Investment Management Policy and Guidelines, are monitored by a Benefits Committee comprised of five members of management. The Benefits Committee employs a liability driven investment strategy, which seeks to increase the correlation of the plan’s assets and liabilities to reduce the volatility of the plan’s funded status. The execution of this strategy has resulted in an asset allocation that is largely comprised of fixed income securities. A liability driven investment strategy is intended to reduce investment risk and, over the long-term, generate returns on plan assets that largely fund the annual interest on the accumulated benefit obligation. However, as we experienced in recent fiscal years, significant declines in interest rates relevant to our benefit obligations, and/or poor performance in the broader capital markets in which our plan assets are invested, could have an adverse impact on the funded status of the defined benefit pension plan. For purposes of measuring the projected benefit obligation as of September 27, 2014 and September 28, 2013, we used a discount rate of 3.875% and 4.375%, respectively, reflecting current market rates for debt obligations of a similar duration to our pension obligations.

During fiscal 2014, fiscal 2013 and fiscal 2012, the amount of the pension benefit obligation settled through lump sum payments did not exceed the settlement threshold (combined service and interest costs of net periodic pension cost); therefore, a settlement charge was not required to be recognized in any of those fiscal years.

We also provide postretirement health care and life insurance benefits for certain retired employees. Partnership employees who were hired prior to July 1993 and retired prior to March 1998 are eligible for health care benefits if they reached a specified retirement age while working for the Partnership. Partnership employees hired prior to July 1993 are eligible for postretirement life insurance benefits if they reach a specified retirement age while working for the Partnership. Effective January 1, 2000, we terminated our postretirement health care benefit plan for all eligible employees retiring after March 1, 1998. All active and eligible employees who were to receive health care benefits

under the postretirement plan subsequent to March 1, 1998 were provided an increase to their accumulated benefits under the defined benefit pension plan. Our postretirement health care and life insurance benefit plans are unfunded. Effective January 1, 2006, we changed our postretirement health care plan from a self-insured program to one that is fully insured under which we pay a portion of the insurance premium on behalf of the eligible participants.

Long-Term Debt Obligations and Operating Lease Obligations

Contractual Obligations

The following table summarizes payments due under our known contractual obligations as of September 27, 2014:

(Dollars in thousands)	<u>Fiscal 2015</u>	<u>Fiscal 2016</u>	<u>Fiscal 2017</u>	<u>Fiscal 2018</u>	<u>Fiscal 2019</u>	<u>Fiscal 2020 and thereafter</u>
Long-term debt obligations	\$ -	\$ -	\$ 100,000	\$ -	\$ -	\$ 1,121,180
Interest payments	77,999	77,999	75,493	72,843	72,843	204,655
Operating lease obligations (a)	25,266	17,781	12,199	9,224	6,131	7,469
Self-insurance obligations (b)	14,356	12,236	9,232	5,374	3,369	17,883
Other contractual obligations (c)	4,308	4,156	4,054	2,201	1,282	16,592
Total	<u>\$ 121,929</u>	<u>\$ 112,172</u>	<u>\$ 200,978</u>	<u>\$ 89,642</u>	<u>\$ 83,625</u>	<u>\$ 1,367,779</u>

- (a) Payments exclude costs associated with insurance, taxes and maintenance, which are not material to the operating lease obligations.
- (b) The timing of when payments are due for our self-insurance obligations is based on estimates that may differ from when actual payments are made. In addition, the payments do not reflect amounts to be recovered from our insurance providers, which amount to \$3.9 million, \$3.5 million, \$2.7 million, \$1.5 million, \$0.9 million and \$5.8 million for each of the next five fiscal years and thereafter, respectively, and are included in other assets on the consolidated balance sheet.
- (c) These amounts are included in our consolidated balance sheet and primarily include payments for postretirement and long-term incentive benefits.

Additionally, we have standby letters of credit in the aggregate amount of \$44.9 million, in support of retention levels under our casualty insurance programs and certain lease obligations, which expire periodically through April 3, 2015.

Operating Leases

We lease certain property, plant and equipment for various periods under noncancelable operating leases, including 47% of our vehicle fleet, approximately 27% of our customer service centers and portions of our information systems equipment. Rental expense under operating leases was \$31.8 million, \$33.0 million and \$23.6 million for fiscal 2014, 2013 and 2012, respectively. Future minimum rental commitments under noncancelable operating lease agreements as of September 27, 2014 are presented in the table above.

Off-Balance Sheet Arrangements

Guarantees

Certain of our operating leases, primarily those for transportation equipment with remaining lease periods scheduled to expire periodically through fiscal 2021, contain residual value guarantee provisions. Under those provisions, we guarantee that the fair value of the equipment will equal or exceed the guaranteed amount upon completion of the lease period, or we will pay the lessor the difference between fair value and the guaranteed amount. Although the fair value of equipment at the end of its lease term has historically exceeded the guaranteed amounts, the

maximum potential amount of aggregate future payments we could be required to make under these leasing arrangements, assuming the equipment is deemed worthless at the end of the lease term, was approximately \$14.1 million. The fair value of residual value guarantees for outstanding operating leases was de minimis as of September 27, 2014 and September 28, 2013.

Recently Issued Accounting Pronouncements.

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09 “Revenue from Contracts with Customers” (“ASU 2014-09”). This update provides a principles-based approach to revenue recognition, requiring revenue recognition to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU provides a five-step model to be applied to all contracts with customers. The five steps are to identify the contract(s) with the customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when each performance obligation is satisfied. The revenue standard is effective for the first interim period within annual reporting periods beginning after December 15, 2016, which will be our first quarter of fiscal year 2018. ASU 2014-09 can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the update recognized at the date of the initial application along with additional disclosures. We are evaluating the impacts, if any, the adoption of ASU 2014-09 will have on our results of operations, financial position or cash flows.

Recently Adopted Accounting Pronouncements.

In December 2011, the FASB issued an ASU regarding disclosures about offsetting assets and liabilities (“ASU 2011-11”). The new guidance requires an entity to disclose information about offsetting and related arrangements to enable users of financial statements to understand the effect of those arrangements on its financial position. The amendment, further clarified with ASU 2013-01, enhances disclosures by requiring improved information about financial instruments and derivative instruments that are either offset in accordance with other US GAAP or subject to an enforceable master netting arrangement or similar agreement, irrespective of whether or not they are offset in the balance sheet. We adopted ASU 2011-11 and ASU 2013-01 on September 29, 2013 and included further disclosure regarding offsetting assets and liabilities for derivative instruments accounted for under ASC 815. As this guidance affects disclosures only, its adoption had no impact on our financial position, results of operations or cash flows.

In February 2013, the FASB issued an ASU to establish the effective date for the requirement to present components of reclassifications out of accumulated other comprehensive income either parenthetically on the face of the financial statements or in the notes to the financial statements (“ASU 2013-02”). We adopted ASU 2013-02 on September 29, 2013 and its adoption did not change the items that must be reported in other comprehensive income, nor did it have an impact on our financial position, results of operations or cash flows.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Commodity Price Risk

We enter into product supply contracts that are generally one-year agreements subject to annual renewal, and also purchase product on the open market. Our propane supply contracts typically provide for pricing based upon index formulas using the posted prices established at major supply points such as Mont Belvieu, Texas, or Conway, Kansas (plus transportation costs) at the time of delivery. In addition, to supplement our annual purchase requirements, we may utilize forward fixed price purchase contracts to acquire a portion of the propane that we resell to our customers, which allows us to manage our exposure to unfavorable changes in commodity prices and to ensure adequate physical supply. The percentage of contract purchases, and the amount of supply contracted for under forward contracts at fixed prices, will vary from year to year based on market conditions. In certain instances, and when market conditions are favorable, we are able to purchase product under our supply arrangements at a discount to the market.

Product cost changes can occur rapidly over a short period of time and can impact profitability. We attempt to reduce commodity price risk by pricing product on a short-term basis. The level of priced, physical product maintained in storage facilities and at our customer service centers for immediate sale to our customers will vary depending on several factors, including, but not limited to, price, supply and demand dynamics for a given time of the year. Typically, our on hand priced position does not exceed more than four to eight weeks of our supply needs, depending on the time of the year. In the course of normal operations, we routinely enter into contracts such as forward priced physical contracts for the purchase or sale of propane and fuel oil that, under accounting rules for derivative instruments and hedging activities, qualify for and are designated as normal purchase or normal sale contracts. Such contracts are exempted from fair value accounting and are accounted for at the time product is purchased or sold under the related contract.

Under our hedging and risk management strategies, we enter into a combination of exchange-traded futures and options contracts and, in certain instances, over-the-counter options and swap contracts (collectively, “derivative instruments”) to manage the price risk associated with physical product and with future purchases of the commodities used in our operations, principally propane and fuel oil, as well as to ensure the availability of product during periods of high demand. In addition, the Partnership sells propane and fuel oil to customers at fixed prices, and enters into derivative instruments to hedge a portion of its exposure to fluctuations in commodity prices as a result of selling the fixed price contracts. We do not use derivative instruments for speculative trading purposes. Futures and swap contracts require that we sell or acquire propane or fuel oil at a fixed price for delivery at fixed future dates. An option contract allows, but does not require, its holder to buy or sell propane or fuel oil at a specified price during a specified time period. However, the writer of an option contract must fulfill the obligation of the option contract, should the holder choose to exercise the option. At expiration, the contracts are settled by the delivery of the product to the respective party or are settled by the payment of a net amount equal to the difference between the then market price and the fixed contract price or option exercise price. To the extent that we utilize derivative instruments to manage exposure to commodity price risk and commodity prices move adversely in relation to the contracts, we could suffer losses on those derivative instruments when settled. Conversely, if prices move favorably, we could realize gains. Under our hedging and risk management strategy, realized gains or losses on derivative instruments will typically offset losses or gains on the physical inventory once the product is sold to customers at market prices, or delivered to customers as it pertains to fixed price contracts.

Futures are traded with brokers of the NYMEX and require daily cash settlements in margin accounts. Forward contracts are generally settled at the expiration of the contract term by physical delivery, and swap and options contracts are generally settled at expiration through a net settlement mechanism. Market risks associated with our derivative instruments are monitored daily for compliance with our Hedging and Risk Management Policy which includes volume limits for open positions. Open inventory positions are reviewed and managed daily as to exposures to changing market prices.

Credit Risk

Exchange-traded futures and options contracts are guaranteed by the NYMEX and, as a result, have minimal credit risk. We are subject to credit risk with over-the-counter forward, swap and options contracts to the extent the counterparties do not perform. We evaluate the financial condition of each counterparty with which we conduct business and establish credit limits to reduce exposure to the risk of non-performance by our counterparties.

Interest Rate Risk

A portion of our borrowings bear interest at prevailing interest rates based upon, at the Operating Partnership’s option, LIBOR, plus an applicable margin or the base rate, defined as the higher of the Federal Funds Rate plus ½ of 1% or the agent bank’s prime rate, or LIBOR plus 1%, plus the applicable margin. The applicable margin is dependent on the level of the Partnership’s total consolidated leverage ratio (the ratio of consolidated total debt to consolidated EBITDA). Therefore, we are subject to interest rate risk on the variable component of the interest rate. We manage our interest rate risk by entering into interest rate swap agreements. The interest rate swaps have been designated as a cash flow hedge. Changes in the fair value of the interest rate swaps are recognized in other comprehensive income (“OCI”) until the hedged item is recognized in earnings. At September 27, 2014, the fair value of the interest rate swaps was a net liability of \$1.5 million, which is included within other current liabilities and

other liabilities, as applicable, with a corresponding unrealized loss reflected in accumulated other comprehensive income.

Derivative Instruments and Hedging Activities

All of our derivative instruments are reported on the balance sheet at their fair values. On the date that derivative instruments are entered into, we make a determination as to whether the derivative instrument qualifies for designation as a hedge. Changes in the fair value of derivative instruments are recorded each period in current period earnings or OCI, depending on whether a derivative instrument is designated as a hedge and, if so, the type of hedge. For derivative instruments designated as cash flow hedges, we formally assess, both at the hedge contract's inception and on an ongoing basis, whether the hedge contract is highly effective in offsetting changes in cash flows of hedged items. Changes in the fair value of derivative instruments designated as cash flow hedges are reported in OCI to the extent effective and reclassified into earnings during the same period in which the hedged item affects earnings. The mark-to-market gains or losses on ineffective portions of cash flow hedges are immediately recognized in earnings. Changes in the fair value of derivative instruments that are not designated as cash flow hedges, and that do not meet the normal purchase and normal sale exemption, are recorded in earnings as they occur. Cash flows associated with derivative instruments are reported as operating activities within the consolidated statement of cash flows.

Sensitivity Analysis

In an effort to estimate our exposure to unfavorable market price changes in commodities related to our open positions under derivative instruments, we developed a model that incorporates the following data and assumptions:

- A. The fair value of open positions as of September 27, 2014.
- B. The market prices for the underlying commodities used to determine A. above were adjusted adversely by a hypothetical 10% change and compared to the fair value amounts in A. above to project the potential negative impact on earnings that would be recognized for the respective scenario.

Based on the sensitivity analysis described above, the hypothetical 10% adverse change in market prices for open derivative instruments as of September 27, 2014 indicates an increase in potential future net losses of \$2.7 million. The above hypothetical change does not reflect the worst case scenario. Actual results may be significantly different depending on market conditions and the composition of the open position portfolio.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Our Consolidated Financial Statements and the Report of Independent Registered Public Accounting Firm thereon listed on the accompanying Index to Financial Statements in Part IV, Item 15 (see page F-1) and the Supplemental Financial Information listed on the accompanying Index to Financial Statement Schedule in Part IV, Item 15 (see page S-1) are included herein.

Selected Quarterly Financial Data

Due to the seasonality of the retail propane, fuel oil and other refined fuel and natural gas businesses, our first and second quarter revenues and earnings are consistently greater than third and fourth quarter results. The following presents our selected quarterly financial data for the last two fiscal years (unaudited; in thousands, except per unit amounts).

	<u>First Quarter</u>	<u>Second Quarter</u>	<u>Third Quarter</u>	<u>Fourth Quarter</u>	<u>Total Year</u>
<u>Fiscal 2014</u>					
Revenues	\$ 526,056	\$ 873,772	\$ 297,143	\$ 241,286	\$ 1,938,257
Cost of products sold	280,526	517,198	161,482	121,544	1,080,750
Operating income (loss)	80,055	171,044	(26,575)	(34,398)	190,126
Loss on debt extinguishment (a)	-	-	11,589	-	11,589

Financing activities	(48,605)	(49,965)	93,459	(221,617)	(226,728)
EBITDA (c)	\$ 112,835	\$ 185,293	\$ 10,850	\$ (3,762)	\$ 305,216
Adjusted EBITDA (c)	\$ 117,473	\$ 190,668	\$ 19,171	\$ 1,941	\$ 329,253
Retail gallons sold					
Propane	153,933	210,314	92,109	78,265	534,621
Fuel oil and refined fuels	15,885	23,223	8,331	6,271	53,710

- (a) During the third quarter of fiscal 2014, we repurchased and satisfied and discharged all of our 2018 Senior Notes with net proceeds from the issuance of the 2024 Senior Notes and cash on hand pursuant to a tender offer and redemption. In connection with this tender offer and redemption, we recognized a loss on the extinguishment of

debt of \$11.6 million consisting of \$31.6 million for the redemption premium and related fees, as well as the write-off of \$5.3 million and (\$25.3) million in unamortized debt origination costs and unamortized premium, respectively. During the fourth quarter of fiscal 2013, we repurchased pursuant to an optional redemption \$133.4 million of our 2021 Senior Notes using net proceeds from our May 2013 public offering and net proceeds from the underwriters' exercise of their over-allotment option to purchase additional Common Units. In addition, we repurchased \$23.9 million of our 2021 Senior Notes in a private transaction using cash on hand. In connection with these repurchases, which totaled \$157.3 million in aggregate principal amount, we recognized a loss on the extinguishment of debt of \$2.1 million consisting of \$11.7 million for the repurchase premium and related fees, as well as the write-off of \$2.1 million and (\$11.7) million in unamortized debt origination costs and unamortized premium, respectively.

- (b) Basic net income (loss) per Common Unit is computed by dividing net income (loss) by the weighted average number of outstanding Common Units, and restricted units granted under the Restricted Unit Plans to retirement-eligible grantees. Computations of diluted net income per Common Unit are performed by dividing net income by the weighted average number of outstanding Common Units and unvested restricted units granted under our Restricted Unit Plans. Diluted loss per Common Unit for the periods where a net loss was reported does not include unvested restricted units granted under our Restricted Unit Plans as their effect would be anti-dilutive. On May 17, 2013, we sold 2.7 million Common Units in a public offering. On May 22, 2013, following the underwriters' exercise of their over-allotment option, we sold an additional 0.4 million Common Units.
- (c) EBITDA represents net income before deducting interest expense, income taxes, depreciation and amortization. Adjusted EBITDA represents EBITDA excluding the unrealized net gain or loss from mark-to-market activity for derivative instruments and other certain items as provided in the table below. Our management uses EBITDA and Adjusted EBITDA as measures of liquidity and we are including them because we believe that they provide our investors and industry analysts with additional information to evaluate our ability to meet our debt service obligations and to pay our quarterly distributions to holders of our Common Units. EBITDA and Adjusted EBITDA are not recognized terms under US GAAP and should not be considered as an alternative to net income or net cash provided by operating activities determined in accordance with US GAAP. Because EBITDA and Adjusted EBITDA as determined by us excludes some, but not all, items that affect net income, they may not be comparable to EBITDA and Adjusted EBITDA or similarly titled measures used by other companies. The following table sets forth (i) our calculations of EBITDA and (ii) a reconciliation of EBITDA, as so calculated, to our net cash provided by (used in) operating activities (amounts in thousands):

Fiscal 2014	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Total Year
Net income (loss)	\$ 58,671	\$ 149,547	\$ (58,989)	\$ (54,720)	\$ 94,509
Add:

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Partnership maintains disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the “Exchange Act”)) that are designed to provide reasonable assurance that information required to be disclosed in the Partnership’s filings under the Exchange Act is recorded, processed, summarized and reported within the periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to the Partnership’s management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Before filing this Annual Report, the Partnership completed an evaluation under the supervision and with the participation of the Partnership’s management, including the Partnership’s principal executive officer and principal financial officer, of the effectiveness of the design and operation of the Partnership’s disclosure controls and procedures as of September 27, 2014. Based on this evaluation, the Partnership’s principal executive officer and principal financial officer concluded that the Partnership’s disclosure controls and procedures were effective at the reasonable assurance level as of September 27, 2014.

Changes in Internal Control Over Financial Reporting

There have not been any changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter ended September 27, 2014, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Management's Report on Internal Control over Financial Reporting is included below.

Management's Report on Internal Control Over Financial Reporting

Management of the Partnership is responsible for establishing and maintaining adequate internal control over financial reporting. The Partnership's internal control over financial reporting is designed to provide reasonable assurance as to the reliability of the Partnership's financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Partnership's management has assessed the effectiveness of the Partnership's internal control over financial reporting as of September 27, 2014. In making this assessment, the Partnership used the criteria established by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in "Internal Control-Integrated Framework (1992)." These criteria are in the areas of control environment, risk assessment, control activities, information and communication, and monitoring. The Partnership's assessment included documenting, evaluating and testing the design and operating effectiveness of its internal control over financial reporting.

Based on the Partnership's assessment, as described above, management has concluded that, as of September 27, 2014, the Partnership's internal control over financial reporting was effective.

Our independent registered public accounting firm, PricewaterhouseCoopers LLP, issued an attestation report dated November 26, 2014 on the effectiveness of our internal control over financial reporting, which is included herein.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND PARTNERSHIP GOVERNANCE

Partnership Management

Our Partnership Agreement provides that all management powers over our business and affairs are exclusively vested in our Board of Supervisors and, subject to the direction of the Board of Supervisors, our officers. No Unitholder has any management power over our business and affairs or actual or apparent authority to enter into contracts on behalf of or otherwise to bind us. Under the current Partnership Agreement, members of our Board of Supervisors are elected by the Unitholders for three-year terms. Messrs. Harold R. Logan, Jr., John D. Collins, Dudley C. Mecum, John Hoyt Stookey and Ms. Jane Swift were elected to their current three-year terms at the Tri-Annual Meeting of our Unitholders convened on May 1, 2012 and then reconvened on May 14, 2012.

At its regular meeting on November 13, 2012, our Board of Supervisors, pursuant to authority granted to the Board under the Partnership Agreement, increased the size of the Board from six (6) Supervisors to eight (8) Supervisors. At the same meeting and again pursuant to authority granted to the Board under the Partnership Agreement, the Board elected Messrs. Lawrence C. Caldwell and Matthew J. Chanin to fill the two vacancies on the Board created by the increase in size of the Board, effective immediately. Messrs. Caldwell and Chanin were each elected for a term due to expire at the next Tri-Annual Meeting of our Unitholders, currently scheduled for Spring 2015.

At its meeting on November 12, 2014, and upon the recommendation of its Nominating/Governance Committee, our Board of Supervisors elected Michael A. Stivala, our current President and Chief Executive Officer, to fill the vacancy on the Board created by the retirement from the Board of Michael J. Dunn, Jr. effective on September 27, 2014, concurrently with Mr. Dunn's retirement as our Chief Executive Officer. Mr. Stivala was elected for a term due to expire at the next Tri-Annual Meeting of our Unitholders, currently scheduled for Spring 2015.

The Audit Committee of our Board of Supervisors has the authority to review, at the request of the Board of Supervisors, specific matters as to which the Board of Supervisors believes there may be a conflict of interest, or which may be required to be disclosed pursuant to Item 404(a) of Regulation S-K adopted by the SEC, in order to determine if the resolution or course of action in respect of such conflict proposed by the Board of Supervisors is fair and reasonable to us. Under the Partnership Agreement, any matter that receives the "Special Approval" of the Audit Committee (i.e., approval by a majority of the members of the Audit Committee) is conclusively deemed to be fair and reasonable to us, is deemed approved by all of our partners and shall not constitute a breach of the Partnership Agreement or any duty stated or implied by law or equity as long as the material facts known to the party having the potential conflict of interest regarding that matter were disclosed to the Audit Committee at the time it gave Special Approval. The Audit Committee also assists the Board of Supervisors in fulfilling its oversight responsibilities relating to (i) integrity of the Partnership's financial statements and internal control over financial reporting; (ii) the Partnership's compliance with applicable laws, regulations and its code of conduct; (iii) independence and qualifications of the independent registered public accounting firm; (iv) performance of the internal audit function and the independent registered public accounting firm; and (v) accounting complaints.

Until July 22, 2014, the Audit Committee consisted of all seven of our non-employee Supervisors (namely, Messrs. Logan, Stookey, Mecum, Collins, Caldwell, Chanin and Ms. Swift), all of whom had been determined by our Board of Supervisors to be independent and (with the exception of Ms. Swift) audit committee financial experts within the meaning of the NYSE corporate governance listing standards and in accordance with Rule 10A-3 of the Exchange Act, Item 407 of Regulation S-K and the Partnership's criteria for Supervisor independence (as discussed in Item 13, herein) as of the date of this Annual Report. At its meeting on July 22, 2014, the Board reduced the size of the Audit Committee to four – Messrs. Caldwell, Collins, Mecum and Ms. Swift – and reaffirmed the above determinations with respect to those four members.

Mr. Logan, Chairman of the Board, presides at the regularly scheduled executive sessions of the non-management Supervisors, all of whom are independent, held as part of the regular meetings of the Board of Supervisors. Investors and other parties interested in communicating directly with the non-management Supervisors as a group may do so by writing to the Non-Management Members of the Board of Supervisors, c/o Company Secretary, Suburban Propane Partners, L.P., P.O. Box 206, Whippany, New Jersey 07981-0206

Board of Supervisors and Executive Officers of the Partnership

The following table sets forth certain information with respect to the members of the Board of Supervisors and our executive officers as of November 26, 2014. Officers are appointed by the Board of Supervisors for one-year terms and Supervisors are elected by the Unitholders for three-year terms.

<u>Name</u>	<u>Age</u>	<u>Position With the Partnership</u>
Michael A. Stivala.....	45	President and Chief Executive Officer; Member of the Board of Supervisors
Mark Wienberg.....	52	Chief Operating Officer
Michael A. Kuglin.....	44	Chief Financial Officer & Chief Accounting Officer
Paul Abel.....	61	Senior Vice President, General Counsel and Secretary
Steven C. Boyd.....	50	Senior Vice President – Field Operations
Douglas T. Brinkworth.....	53	Senior Vice President – Product Supply, Purchasing & Logistics
Michael M. Keating.....	61	Senior Vice President
Neil E. Scanlon.....	49	Senior Vice President – Information Services
A. Davin D’Ambrosio.....	50	Vice President and Treasurer
Sandra N. Zwickel.....	48	Vice President – Human Resources
Daniel S. Bloomstein.....	41	Controller
Harold R. Logan, Jr.	70	Member of the Board of Supervisors (Chairman)
John Hoyt Stookey.....	84	Member of the Board of Supervisors (Chairman of the Compensation Committee)
Dudley C. Mecum.....	79	Member of the Board of Supervisors
John D. Collins.....	76	Member of the Board of Supervisors (Chairman of the Audit Committee)
Jane Swift.....	49	Member of the Board of Supervisors
Lawrence C. Caldwell.....	68	Member of the Board of Supervisors
Matthew J. Chanin.....	60	Member of the Board of Supervisors

Mr. Stivala has served as our President since April 2014 and as our Chief Executive Officer since September 2014. Mr. Stivala has served as a Supervisor since November 2014. From November 2009 until March 2014 he was our Chief Financial Officer, and, before that, our Chief Financial Officer and Chief Accounting Officer since October 2007. Prior to that he was our Controller and Chief Accounting Officer since May 2005 and Controller since December 2001. Before joining the Partnership, he held several positions with PricewaterhouseCoopers LLP, an international accounting firm, most recently as Senior Manager in the Assurance practice.

Mr. Stivala’s qualifications to sit on our Board include his thirteen years of experience in the propane industry, including as our current President and Chief Executive Officer and, before that, as our Chief Financial Officer for almost 7 years, which day to day leadership roles have provided him with intimate knowledge of our operations.

Mr. Wienberg has served as our Chief Operating Officer since April 2014 and before that was our Vice President – Operational Support and Analysis (formerly Vice President – Operational Planning) since October 2007. Prior to that he served as our Managing Director, Financial Planning and Analysis from October 2003 to October 2007 and as Director, Financial Planning and Analysis from July 2001 to October 2003. Prior to joining the Partnership, Mr. Wienberg was Assistant Vice President – Finance of International Home Foods Corp., a consumer products manufacturer.

Mr. Kuglin has served as our Chief Financial Officer & Chief Accounting Officer since September 2014 and was our Vice President – Finance and Chief Accounting Officer from April 2014 through September 2014. Prior to that he served as our Vice President and Chief Accounting Officer since November 2011, our Controller and Chief Accounting Officer since November 2009 and our Controller since October 2007. For the eight years prior to joining the Partnership he held several financial and managerial positions with Alcatel-Lucent, a global communications solutions provider. Prior to Alcatel-Lucent, Mr. Kuglin held several positions with the international accounting firm PricewaterhouseCoopers LLP, most recently Manager in the Assurance practice. Mr. Kuglin is a Certified Public Accountant and a member of the American Institute of Certified Public Accountants.

Mr. Abel has served as our General Counsel and Secretary since June 2006, was additionally made a Vice President in October 2007 and a Senior Vice President in April 2014. Prior to joining the Partnership, Mr. Abel served as senior in-house legal counsel (including as a General Counsel) for several technology companies.

Mr. Boyd has served as our Senior Vice President – Field Operations since April 2014; previously he was our Vice President – Field Operations (formerly Vice President – Operations) since October 2008. Prior to that he was our Southeast and Western Area Vice President since March 2007, Managing Director – Area Operations since November 2003 and Regional Manager – Northern California since May 1997. Mr. Boyd held various managerial positions with predecessors of the Partnership from 1986 through 1996.

Mr. Brinkworth has served as our Senior Vice President – Product Supply, Purchasing & Logistics since April 2014 and was previously our Vice President – Product Supply (formerly Vice President – Supply) since May 2005. Mr. Brinkworth joined the Partnership in April 1997 after a nine year career with Goldman Sachs and, since joining the Partnership, has served in various positions in the product supply area.

Mr. Keating has served as our Senior Vice President since October 2014 and before that was our Senior Vice President – Administration since July 2009. From July 1996 to that date he was our Vice President – Human Resources and Administration. He previously held senior human resource positions at Hanson Industries (the United States management division of Hanson plc, a global diversified industrial conglomerate) and Quantum Chemical Corporation (“Quantum”), a predecessor of the Partnership.

Mr. Scanlon became our Senior Vice President – Information Services in April 2014, after serving as our Vice President – Information Services since November 2008. Prior to that he served as our Assistant Vice President – Information Services since November 2007, Managing Director – Information Services from November 2002 to November 2007 and Director – Information Services from April 1997 until November 2002. Prior to joining the Partnership, Mr. Scanlon spent several years with JP Morgan & Co., most recently as Vice President – Corporate Systems and earlier held several positions with Andersen Consulting, an international systems consulting firm, most recently as Manager.

Mr. D’Ambrosio has served as our Treasurer since November 2002 and was additionally made a Vice President in October 2007. He served as our Assistant Treasurer from October 2000 to November 2002 and as Director of Treasury Services from January 1998 to October 2000. Mr. D’Ambrosio joined the Partnership in May 1996 after ten years in the commercial banking industry.

Ms. Zwickel has served as our Vice President – Human Resources since November 2013. Prior to that, she was our Assistant Vice President – Human Resources since April 2011 and earlier held several roles in the Partnership’s Legal Department (including Assistant General Counsel from October 2009 to April 2011 and Counsel from October 2002 to October 2009), where she was responsible for, among other things, providing legal counsel on employment issues. Ms. Zwickel joined the Partnership in June 1999 after eight years in the private practice of law.

Mr. Bloomstein joined the Partnership as its Controller in April 2014. For the ten years prior to joining the Partnership, he held several executive financial and accounting positions with The Access Group, a network of professional services companies, and with Dow Jones & Company, Inc., a global news and financial information company. Mr. Bloomstein started his career with the international accounting firm PricewaterhouseCoopers LLP, working his way to the level of Manager in the Assurance/Business Advisory Services practice. Mr. Bloomstein is a Certified Public Accountant and a member of the American Institute of Certified Public Accountants.

Mr. Logan has served as a Supervisor since March 1996 and was elected as Chairman of the Board of Supervisors in January 2007. Mr. Logan is a Co-Founder and, from 2006 to the present has been serving as a Director, of Basic Materials and Services LLC, an investment company that has invested in companies that provide specialized infrastructure services and materials for the pipeline construction industry and the sand/silica industry. From 2003 to September 2006, Mr. Logan was a Director and Chairman of the Finance Committee of the Board of Directors of TransMontaigne Inc., which provided logistical services (i.e. pipeline, terminaling and marketing) to producers and end-users of refined petroleum products. From 1995 to 2002, Mr. Logan was Executive Vice President/Finance, Treasurer and a Director of TransMontaigne Inc. From 1987 to 1995, Mr. Logan served as Senior Vice President – Finance and a Director of Associated Natural Gas Corporation, an independent gatherer and marketer of natural gas, natural gas liquids and crude oil. Mr. Logan is also a Director of Cimarex Energy Co., Graphic Packaging Holding Company and Hart Energy Publishing LLP.

Over the past forty years, Mr. Logan's education, investment banking/venture capital experience and business/financial management experience have provided him with a comprehensive understanding of business and finance. Most of Mr. Logan's business experience has been in the energy industry, both in investment banking and as a senior financial officer and director of publicly-owned energy companies. Mr. Logan's expertise and experience have been relevant to his responsibilities of providing oversight and advice to the managements of public companies, and is of particular benefit in his role as our Chairman. Since 1996, Mr. Logan has been a director of nine public companies and has served on audit, compensation and governance committees.

Mr. Stookey has served as a Supervisor since March 1996. He was Chairman of the Board of Supervisors from March 1996 through January 2007. From 1986 until September 1993, he was the Chairman, President and Chief Executive Officer of Quantum. He served as non-executive Chairman and a Director of Quantum from its acquisition by Hanson plc in September 1993 until October 1995, at which time he retired. Since then, Mr. Stookey has served as a trustee of a number of non-profit organizations, including founding and serving as non-executive Chairman of Per Scholas Inc. (a non-profit organization dedicated to training inner city individuals to become computer and software technicians), The Berkshire Choral Festival and Landmark Volunteers and also serves on the Board of Directors of The Clark Foundation and The Robert Sterling Clark Foundation and as a Life Trustee of the Boston Symphony Orchestra.

Mr. Stookey's qualifications to sit on our Board include his extensive experience as Chief Executive Officer of four corporations (including a predecessor of the Partnership) and his many years of service as a director of publicly-owned corporations and non-profit organizations.

Mr. Mecum has served as a Supervisor since June 1996. He was a Managing Director of Capricorn Holdings, LLC (a sponsor of and investor in leveraged buyouts) from 1997 to 2011 and a partner of G.L. Ohrstrom & Co. (a sponsor of and investor in leveraged buyouts) from 1989 to 1996.

Mr. Mecum's qualifications to sit on our Board include his 20 years in public accounting, rising to the level of Vice Chairman of KPMG LLP, a public accounting firm, his service as Assistant Secretary of the Army for Installations and Logistics and his fifteen years of service overseeing or managing various companies. Mr. Mecum has over twenty years of service as a director of various publicly-owned companies, including, until 2007, Citigroup, Inc.

Mr. Collins has served as a Supervisor since April 2007. He served with KPMG LLP, an international accounting firm, from 1962 until 2000, most recently as senior audit partner of its New York office. He has served as a United States representative on the International Auditing Procedures Committee, a committee of international accountants responsible for establishing international auditing standards. Until recently, Mr. Collins was a Director of Montpelier Re, Columbia Atlantic Funds and Mrs. Fields Original Cookies, Inc.

Mr. Collins' qualifications to sit on our Board, and serve as Chairman of its Audit Committee, include his 40 years of experience in public accounting, including 31 years as a partner supervising the audits of public companies. Mr. Collins has served on a number of AICPA and international accounting and auditing standards bodies.

Ms. Swift has served as a Supervisor since April 2007. She is currently the CEO of Middlebury Interactive Languages, LLC, a marketer of world language products. From 2010 through July 2011, Ms. Swift served as Senior

Vice President – ConnectEDU Inc., a private education technology company. In 2007, she founded WNP Consulting, LLC, a provider of expert advice and guidance to early stage education companies. From 2003 to 2006 she was a General Partner at Arcadia Partners, a venture capital firm focused on the education industry. She has previously served on the boards of K12, Inc., Animated Speech Company and The Young Writers Project, and currently serves on the boards of Sally Ride Science Inc. and several not-for-profit boards, including the National Alliance for Public Charter Schools. Ms. Swift is also a Trustee for Champlain College. Prior to joining Arcadia, Ms. Swift served for fifteen years in Massachusetts state government, becoming Massachusetts' first woman governor in 2001.

Ms. Swift's qualifications to sit on our Board include her strong skills in public policy and government relations and her extensive knowledge of regulatory matters arising from her fifteen years in state government.

Mr. Caldwell has served as a Supervisor since November 2012. He was a Co-Founder of New Canaan Investments, Inc. ("NCI"), a private equity investment firm, where he was one of three senior officers of the firm from 1988 to 2005. NCI was an active "fix and build" investor in packaging, chemicals, and automotive components companies. Mr. Caldwell held a number of board directorships and senior management positions in these companies until he retired in 2005. The largest of these companies was Kerr Group, Inc., a plastic closure and bottle company where Mr. Caldwell served as Director for eight years and Chief Financial Officer for six years. From 1985 to 1988, Mr. Caldwell was head of acquisitions for Moore McCormack Resources, Inc., an oil and gas exploration, shipping, and construction materials company. Mr. Caldwell is currently a director of Magnuson Products, LLC, a private company which manufactures specialty engine components for automotive original equipment manufacturers and aftermarket. Mr. Caldwell also serves on the Board of Trustees and as Chairman of the Investment and Finance Committee of Historic Deerfield, and on the Board of Directors and as Chairman of both the Finance and Strategic Planning Committees of the Leventhal Map Center; both of which non-profit institutions focus on enriching educational programs for K-12 children locally and nationwide.

Mr. Caldwell's qualifications to sit on our Board include over forty years of successful investing in and managing of a broad range of public and private businesses in a number of different industries. This experience has encompassed both turnaround situations, and the building of companies through internal growth and acquisitions.

Mr. Chanin has served as a Supervisor since November 2012. He was Senior Managing Director of Prudential Investment Management, a subsidiary of Prudential Financial, Inc., from 1996 until his retirement in January 2012. He headed the firm's private fixed income business, chaired an internal committee responsible for strategic investing and was a principal in Prudential Capital Partners, the firm's mezzanine investment business. He currently serves as a Director of three private companies that are in Prudential Capital Partners funds' portfolios, and provides consulting services to Prudential and one other client.

Mr. Chanin's qualifications to sit on our Board include 35 years of investment experience with a focus on highly structured private placements in companies in a broad range of industries, with a particular focus on energy companies. He has previously served on the audit committee of a public company board and is currently a member of the audit committee for a private company board. Mr. Chanin has earned an MBA and is a Chartered Financial Analyst.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our Supervisors, executive officers and holders of ten percent or more of our Common Units to file initial reports of ownership and reports of changes in ownership of our Common Units with the SEC. Supervisors, executive officers and ten percent Unitholders are required to furnish the Partnership with copies of all Section 16(a) forms that they file. Based on a review of these filings, we believe that all such filings were timely made during fiscal year 2014.

Codes of Ethics and of Business Conduct

We have adopted a Code of Ethics that applies to our principal executive officer, principal financial officer and principal accounting officer, and a Code of Business Conduct that applies to all of our employees, officers and Supervisors. A copy of our Code of Ethics and our Code of Business Conduct is available without charge from our

website at www.suburbanpropane.com or upon written request directed to: Suburban Propane Partners, L.P., Investor Relations, P.O. Box 206, Whippany, New Jersey 07981-0206. Any amendments to, or waivers from, provisions of our Code of Ethics or our Code of Business Conduct that apply to our principal executive officer, principal financial officer and principal accounting officer will be posted on our website.

Corporate Governance Guidelines

We have adopted Corporate Governance Guidelines and Principles in accordance with the NYSE corporate governance listing standards in effect as of the date of this Annual Report. In addition, we have adopted certain Corporate Governance Policies, including an Equity Holding Policy for Supervisors and Executives and an Incentive Compensation Recoupment Policy. A copy of our Corporate Governance Guidelines and Principles, as well as a copy of the Corporate Governance Policies, is available without charge from our website at www.suburbanpropane.com or upon written request directed to: Suburban Propane Partners, L.P., Investor Relations, P.O. Box 206, Whippany, New Jersey 07981-0206.

Audit Committee Charter

We have adopted a written Audit Committee Charter in accordance with the NYSE corporate governance listing standards in effect as of the date of this Annual Report. The Audit Committee Charter is reviewed periodically to ensure that it meets all applicable legal and NYSE listing requirements. A copy of our Audit Committee Charter is available without charge from our website at www.suburbanpropane.com or upon written request directed to: Suburban Propane Partners, L.P., Investor Relations, P.O. Box 206, Whippany, New Jersey 07981-0206.

Compensation Committee Charter

Until July 22, 2014, all seven Supervisors who are not officers or employees of the Partnership or its subsidiaries (namely, Messrs. Logan, Stookey, Mecum, Collins, Caldwell, Chanin and Ms. Swift) served on the Compensation Committee. The Board of Supervisors had determined that all seven members of the Compensation Committee are independent. At its meeting on July 22, 2014, the Board reduced the size of the Compensation Committee to three – Messrs. Chanin, Logan and Stookey – and reaffirmed the above determination with respect to those three members.

We have adopted a Compensation Committee Charter in accordance with the NYSE corporate governance listing standards in effect as of the date of this Annual Report. A copy of our Compensation Committee Charter is available without charge from our website at www.suburbanpropane.com or upon written request directed to: Suburban Propane Partners, L.P., Investor Relations, P.O. Box 206, Whippany, New Jersey 07981-0206.

During fiscal 2014, the Compensation Committee independently retained Towers Watson & Co. (“Towers Watson”), a human resources consulting firm, to assist the Compensation Committee in developing competitive compensation packages for those executive officers identified by the Compensation Committee as our senior core executive officers pursuant to a succession plan approved by the Board of Supervisors. See Item 11 below.

Nominating/Governance Committee Charter

We have adopted a written Nominating/Governance Committee Charter. A copy of our Nominating/Governance Committee Charter is available without charge from our website at www.suburbanpropane.com or upon written request directed to: Suburban Propane Partners, L.P., Investor Relations, P.O. Box 206, Whippany, New Jersey 07981-0206.

NYSE Annual CEO Certification

The NYSE requires the Chief Executive Officer of each listed company to submit a certification indicating that the company is not in violation of the Corporate Governance listing standards of the NYSE on an annual basis. Our Chief Executive Officer submits his Annual CEO Certification to the NYSE each December. In December 2013, our then Chief Executive Officer, Michael J. Dunn, Jr., submitted his Annual CEO Certification to the NYSE without qualification.

ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis explains our executive compensation philosophy, policies and practices with respect to the following executive officers of the Partnership, to whom we refer to as our “named executive officers”: Mr. Dunn, our former Chief Executive Officer (who held the position of President and Chief Executive Officer until March 31, 2014, and the position of Chief Executive Officer through September 27, 2014); Mr. Stivala, our current President and Chief Executive Officer (who held the position of Chief Financial Officer until March 31, 2014, and the position of President from April 1, 2014 through September 27, 2014); Mr. Kuglin, our current Chief Financial Officer and Chief Accounting Officer (who held the position of Vice President and Chief Accounting Officer until March 31, 2014, and the position of Vice President – Finance and Chief Accounting Officer, a position that required him to act in a manner identical to that of a Chief Financial Officer, from April 1, 2014 through September 27, 2014); and our three other most highly compensated executive officers: Mr. Wienberg, our Chief Operating Officer; Mr. Boyd, our Senior Vice President – Field Operations; and Mr. Brinkworth, our Senior Vice President – Product Supply, Purchasing & Logistics.

In accordance with a management succession plan developed by the Compensation Committee of the Partnership’s Board of Supervisors, which we hereafter refer to as the “Committee,” in close collaboration with Mr. Dunn, Mr. Dunn retired at the conclusion of fiscal 2014.

Executive Compensation Philosophy and Components

The objectives of our executive compensation program are as follows:

- The attraction and retention of talented executives who have the skills and experience required to achieve our goals; and
- The alignment of the short-term and long-term interests of our executive officers with the short-term and long-term interests of our Unitholders.

We accomplish these objectives by providing our executives with compensation packages that combine various components that are specifically linked to either short-term or long-term performance measures. Therefore, our executive compensation packages are designed to achieve our overall goal of sustainable, profitable growth by rewarding our executive officers for behaviors that facilitate our achievement of this goal.

The principal components of the compensation we provide to our named executive officers are as follows:

- Base salary;
- Cash incentives paid under a performance-based annual bonus plan;
- Long-Term Incentive Plan awards; and
- Awards of restricted units under the Restricted Unit Plan.

We align the short-term and long-term interests of our executive officers with the short-term and long-term interests of our Unitholders by:

- Providing our executive officers with an annual incentive target that encourages them to achieve or exceed targeted financial results and operating performance for the fiscal year;
- Providing a long-term incentive plan that encourages our executive officers to implement activities and practices conducive to sustainable, profitable growth; and
- Providing our executive officers with restricted units in order to encourage the retention of the participating executive officers, while simultaneously encouraging behaviors conducive to the long-term appreciation of our Common Units.

Establishing Executive Compensation

The Committee is responsible for overseeing our executive compensation program. In accordance with its charter, available on our website at www.suburbanpropane.com, the Committee ensures that the compensation packages provided to our executive officers are designed in accordance with our compensation philosophy. The Committee reviews and approves the compensation packages of our managing directors, assistant vice presidents, vice presidents, senior vice presidents, and our named executive officers.

The November 13, 2013 Compensation Committee Meeting

As in past fiscal years, our Senior Vice President – Administration (now Senior Vice President) prepared a comprehensive analysis of each executive officer’s past and current compensation to assist the Committee in the assessment and determination of executive compensation packages for fiscal 2014. The Committee considered a number of factors in establishing the fiscal 2014 executive compensation packages, including, but not limited to, experience, scope of responsibility and individual performance. The relative importance assigned to each of these factors by the Committee may differ from executive to executive and year to year. In addition, as part of the Committee’s annual review of each executive officer’s total compensation package, the Committee was provided with benchmarking data for comparison. This benchmarking data is just one of a number of factors that was considered by the Committee, but was not necessarily the most persuasive factor.

The benchmarking data provided to the Committee for fiscal 2014 was derived from the Mercer Human Resource Consulting, Inc. (“Mercer”) Benchmark Database containing information obtained from surveys of over 3,035 organizations and approximately 1,224 positions which may or may not include similarly-sized national propane marketers. The use of the Mercer database provides a broad base of compensation benchmarking information for companies of a size similar to the Partnership.

In making their decisions regarding executive compensation packages for fiscal 2014, for executive officers currently below the level of senior vice president, the members of the Committee reviewed the total cash compensation opportunities that were provided to each member of this subset of our executive officers (none of whom are our named executive officers) during the previous completed fiscal year. “Total cash compensation opportunity” consists of base salary, an annual cash bonus, and Long-Term Incentive Plan awards. The Committee then compared these officers’ total cash compensation opportunities to the total mean cash compensation opportunities for parallel positions in the Mercer database. By focusing on total cash compensation opportunity as a whole, instead of on single components of compensation such as base salary, when it met on November 13, 2013, the Committee created fiscal 2014 compensation packages for this subset of our executive officers that emphasized the performance-based components of compensation.

As in prior years, the Committee did not base its benchmarking solely on a peer group of other propane marketers. The Committee adopted this approach because it believes that the proximity of our headquarters to New York City and the need to realistically compete for skilled executives in an environment shared by numerous other enterprises that seek similarly skilled employees requires a broader review of the market. The Committee chooses not to base its benchmarking on the compensation practices of other propane marketers due to the fact that the other, similarly-sized propane marketers compete for executives in vastly different economic environments.

In connection with succession planning, the Committee unanimously decided to engage the services of Towers Watson & Co. (“Towers Watson”), a human resources consulting firm, for assistance in developing competitive compensation packages for those executive officers identified by the Committee as our senior level executive officers (i.e., those executives who are currently at or above the level of senior vice president). The Committee agreed that it would defer making promotion-related decisions (with the notable exception of the promotion of Mr. Stivala discussed below) and compensation-related decisions relative to our senior core executive officers until its January 22, 2014 meeting, by which time it was contemplated that Towers Watson would have completed a study of the Partnership, the executive team, and our past compensation practices.

In response to Mr. Dunn’s having informed the committee that he intended to retire at the end of fiscal 2014, the Committee promoted Mr. Stivala to the position of President (effective April 1, 2014) at its November 13, 2013 meeting. For Mr. Stivala and for those whom the Committee identified as our senior level executive officers (currently our Chief Operating Officer, our Chief Financial Officer and Chief Accounting Officer, and our Senior Vice Presidents), the Committee decided to postpone establishing fiscal 2014 compensation-related adjustments until after the Committee was presented with recommendations from Towers Watson.

The January 22, 2014 Compensation Committee Meeting

After completing a study of the Partnership and the responsibilities that had already been and were to be assumed by our senior level executive officers, a principal of Towers Watson provided the Committee with a presentation that included compensation recommendations for this group of executives. In accordance with the recommendations of Towers Watson, the Committee established fiscal year 2014 compensation packages for our President (who is currently our President and Chief Executive Officer), our Chief Operating Officer, our Senior Vice Presidents, and our Vice President – Finance and Chief Accounting Officer (who is currently our Chief Financial Officer and Chief Accounting Officer). The compensation packages established at this meeting became effective on April 1, 2014, the effective date on which Mr. Stivala was promoted to the position of President, Mr. Kuglin was promoted to the position of Vice President – Finance and Chief Accounting Officer, Mr. Wienberg was promoted to Chief Operating Officer, Mr. Boyd was promoted to the position of Senior Vice President – Field Operations, and Mr. Brinkworth was promoted to the position of Senior Vice President – Product Supply, Purchasing & Logistics.

The July 22, 2014 Compensation Committee Meeting

Continuing its preparation for Mr. Dunn’s retirement at the conclusion of fiscal 2014, the Committee approved Mr. Stivala’s assumption of the role and title of Chief Executive Officer in addition to his role as President. Because of the April 1, 2014 adjustments to Mr. Stivala’s overall compensation, the Committee chose not to adjust Mr. Stivala’s compensation at this time. This promotion became effective on September 28, 2014.

In addition, the Committee approved the promotion of Mr. Kuglin to Chief Financial Officer and Chief Accounting Officer. This promotion became effective on September 28, 2014. In establishing Mr. Kuglin’s compensation for this position, the Committee relied on the same Towers Watson study discussed above.

As previously reported, at their fiscal 2012 Tri-Annual Meeting, our Unitholders overwhelmingly approved the advisory “Say-on-Pay” resolution required by Section 14A of the Exchange Act. As a result, the Committee determined that no major revisions of its practices are required; however, the Committee has, and will continue to, periodically evaluate its compensation practices for possible improvement.

Role of Executive Officers and the Compensation Committee in the Compensation Process

The Committee establishes and enforces our general compensation philosophy in consultation with our President and Chief Executive Officer. The role of our President and Chief Executive Officer in the executive compensation process is to recommend individual pay adjustments for the executive officers, other than himself, to the Committee based on market conditions, our performance, and individual performance. With the assistance of our Senior Vice President – Administration, our President and Chief Executive Officer presents the Committee with information comparing each executive officer’s compensation to the mean compensation figures provided in the Mercer database.

Among other duties, the Committee has overall responsibility for:

- Reviewing and approving the compensation of our President and Chief Executive Officer, our Chief Operating Officer, our Chief Financial Officer, and our other executive officers;
- Reporting to the Board of Supervisors any and all decisions regarding compensation changes for our President and Chief Executive Officer and our other executive officers;

- Evaluating and approving our annual cash bonus plan, long-term incentive plan, and grants under our Restricted Unit Plans, as well as all other executive compensation policies and programs;
- Administering and interpreting the compensation plans that constitute each component of our executive officers' compensation packages; and
- Engaging consultants, when appropriate, to provide independent, third-party advice on executive officer-related compensation.

Our sole use of the Mercer database was to provide the Committee with benchmarking data. Therefore, prior to the November 13, 2013 Committee meeting, neither our President and Chief Executive Officer nor our Senior Vice President – Administration met with representatives from Mercer. The information provided by Mercer was derived from a proprietary database maintained by Mercer and, as such, there was no formal consultancy role played by them.

In preparation for its January 22, 2014 Committee meeting, the Committee directed Mr. Dunn, Mr. Stivala, Mr. Kuglin, Mr. Wienberg, and our Senior Vice President – Administration to meet with principals of Towers Watson to discuss the then current responsibilities of our senior level executives and their thoughts on the future responsibilities of these executives in light of the Committee's succession planning efforts. It was from these interviews with our senior executive officers that the principals of Towers Watson developed their recommendations regarding compensation of our senior level executive team.

Allocation Among Components

Under our compensation structure, the mix of base salary, cash bonus and long-term compensation provided to each executive officer varies depending on his or her position. The base salary for each executive officer is the only fixed component of compensation. All other cash compensation, including annual cash bonuses and long-term incentive compensation, is variable in nature as it is dependent upon achievement of certain performance measures. The following table summarizes the components as percentages of each named executive officer's total cash compensation opportunity for the first six months of fiscal 2014 (i.e., October 2013 through March 2014). For this period, the base salaries and cash bonus targets of our named executive officers remained identical to those in effect for fiscal 2013.

	<u>Base Salary</u>	<u>Cash Bonus Target</u>	<u>Long-Term Incentive</u>
Michael J. Dunn, Jr.	40%	40%	20%
Michael A. Stivala	46%	36%	18%
Michael A. Kuglin	51%	33%	16%
Mark Wienberg	46%	36%	18%
Steven C. Boyd	46%	36%	18%
Douglas T. Brinkworth	46%	36%	18%

The following table summarizes the components as percentages of each named executive officer's total cash compensation opportunity for the second six months of fiscal 2014 (i.e., April 2014 through September 2014).

	<u>Base Salary</u>	<u>Cash Bonus Target</u>	<u>Long-Term Incentive</u>
Michael J. Dunn, Jr.	40%	40%	20%
Michael A. Stivala	44%	44%	12%
Michael A. Kuglin	50%	35%	15%
Mark Wienberg	46%	37%	17%
Steven C. Boyd	46%	37%	17%
Douglas T. Brinkworth	46%	37%	17%

In allocating compensation among these components, we believe that the compensation of our senior level executive officers – the executive officers having the greatest ability to influence our performance – should be approximately 50% performance-based, while lower levels of management should receive a greater portion of their compensation in base salary. Additionally, our short-term and long-term incentive plans are pay-for-performance

compensation plans that do not provide for minimum payments.

Internal Pay Equity

In determining the different compensation packages for each of our named executive officers, the Committee takes into consideration a number of factors, including the level of responsibility and influence that each named executive officer has over the affairs of Suburban, individual performance and years of experience in his current position. The relative importance assigned to each of these factors by the Committee may differ from executive to executive. The Committee will also consider the existing level of equity ownership of each of our named executive officers when granting awards under our Restricted Unit Plan (see below for a description of this plan). As a result, different weights may be given to different components of compensation among each of our named executive officers. In addition, as discussed in the section above titled “Allocation Among Components,” the compensation packages that we provide to our senior level executive officers are, at a minimum, 50% performance-based. In order to align the interests of senior management with the interests of our Unitholders, we consider it requisite to accentuate the performance-based elements of the compensation packages that we provide to these individuals.

Base Salary

Base salaries for the named executive officers and all of our other executive officers, are reviewed and approved annually by the Committee. In order to determine base salary increases, the Committee’s practice has been to compare each executive officer’s base salary with the corresponding mean salary provided in the Mercer database. The Committee usually determines base salary adjustments, which may be higher or lower than the comparative data, following an assessment of our overall results as well as each executive officer’s position, performance and scope of responsibility, while at the same time considering each executive officer’s previous total cash compensation opportunities. This year, in order to facilitate the succession planning process, the Committee engaged the services of Towers Watson to make recommendations regarding the compensation packages provided to the executive officers the Committee identified as the Partnership’s senior level executive officers. In accordance with a tentative plan of succession discussed by the Committee at its November 13, 2013 meeting, the Committee decided to postpone discussions of base salary adjustments for our senior level executive officers until its January 22, 2014 Committee meeting when the results of the Towers Watson study would be made available.

In accordance with the recommendations contained in the Towers Watson study, the Committee adjusted the base salaries of the named executive officers (with the exception of Mr. Dunn who retired at the conclusion of fiscal 2014). These adjustments became effective on April 1, 2014, the effective date of Mr. Stivala’s promotion to President; Mr. Kuglin’s promotion to Vice President – Finance and Chief Accounting Officer; Mr. Wienberg’s promotion to Chief Operating Officer; Mr. Boyd’s promotion to Senior Vice President – Field Operations; and Mr. Brinkworth’s promotion to Senior Vice President – Product Supply, Purchasing & Logistics.

Name	Fiscal 2014 Base Salary (Second Six Months of Fiscal Year)	Fiscal 2014 Base Salary (First Six Months of Fiscal Year)	Fiscal 2013 Base Salary
Michael J. Dunn, Jr.	\$495,000	\$495,000	\$495,000
Michael A. Stivala	\$425,000	\$300,000	\$300,000
Michael A. Kuglin	\$265,000	\$240,000	\$240,000
Mark Wienberg	\$325,000	\$280,000	\$280,000
Steven C. Boyd	\$315,000	\$290,000	\$290,000
Douglas T. Brinkworth	\$300,000	\$270,000	\$270,000

In the event of a promotion, a significant increase in an executive officer’s responsibilities, or a new hire, it is the Committee’s practice to review that executive officer’s base salary at that time and take such action as the Committee deems warranted.

At its meeting on July 22, 2014, effective September 28, 2014, the Committee increased Mr. Kuglin’s salary to \$275,000, in recognition of his promotion to Chief Financial Officer and Chief Accounting Officer.

At its meeting on November 11, 2014, the Committee did not adjust the base salaries of our named executive officers for fiscal 2015 because their salaries were adjusted on April 1, 2014.

The base salaries paid to the named executive officers in fiscal 2014, fiscal 2013 and fiscal 2012 are reported in the column titled “Salary” in the Summary Compensation Table below.

Annual Cash Bonus Plan

Annual cash bonuses (which fall within the Securities and Exchange Commission’s definition of “Non-Equity Incentive Plan Compensation” for the purposes of the Summary Compensation Table and otherwise) are earned by our executive officers in accordance with the objective performance provisions of our annual cash bonus plan.

The terms of our annual cash bonus plan provide for cash payments of a specified percentage of our named executive officers’ annual base salaries (“target cash bonus”) if, for the fiscal year, actual cash bonus plan EBITDA equals the Partnership’s budgeted EBITDA. For purposes of calculating cash bonus plan EBITDA, the Committee customarily adjusts both budgeted and actual EBITDA (as defined in Item 6 in this annual report on Form 10-K) for various items considered to be non-recurring in nature; including, but not limited to, unrealized (non-cash) gains or losses on changes in the fair value of derivative instruments; acquisition-related costs; integration-related costs; multiemployer pension plan withdrawal charges; pension settlement charges; and losses on debt extinguishment. Under the provisions of the annual cash bonus plan in effect for fiscal 2014, our executive officers had the opportunity to earn between 60% and 120% of their target cash bonuses, depending upon the Partnership’s EBITDA performance during the fiscal year. No bonuses would be earned during fiscal 2014 if actual cash bonus plan EBITDA were less than 90% of budgeted cash bonus plan EBITDA; additionally, for fiscal 2014, cash bonuses could not exceed 120% of the target cash bonus even if actual cash bonus plan EBITDA were more than 120% of budgeted cash bonus plan EBITDA.

Although our annual cash bonus plan is generally administered in accordance with the provisions of the plan, the Committee may exercise its broad discretionary powers to decrease or increase the annual cash bonus paid to a particular executive officer, upon the recommendation of our President and Chief Executive Officer, or to the executive officers as a group, when the Committee recognizes that an adjustment is warranted. During fiscal 2014, fiscal 2013 and fiscal 2012, no such discretionary adjustments were made to the annual cash bonuses earned by our executives.

For fiscal 2014, our budgeted cash bonus plan EBITDA was \$360.0 million (“Budgeted EBITDA”). Our actual cash bonus plan EBITDA was such that each of our executive officers earned 68% of his or her target cash bonus. The following table provides the fiscal 2014 budgeted cash bonus plan EBITDA targets that were established at the November 13, 2013 Committee meeting:

Hypothetical Fiscal 2014 Cash Bonus Plan EBITDA Results (in Millions)	Hypothetical Fiscal 2014 Cash Bonus Plan EBITDA Expressed as a Percentage of Budgeted Cash Bonus Plan EBITDA	Target Bonus Percentage that would have been Earned if Actual Cash Bonus Plan EBITDA Equaled the Figure in the First Column
\$432.0	120%	120%
\$396.0	110%	110%
\$360.0⁽¹⁾	100%	100%
\$342.0	95%	90%
\$324.0	90%	60%

(1) Budgeted cash bonus plan EBITDA for fiscal 2014.

For those named executive officers who were promoted on April 1, 2014 (all of our named executive officers except Mr. Dunn), actual payments earned are equal to one half of what the payment would have been using each named executive officer’s base salary and bonus percentage in effect for the first half of fiscal 2014, plus one half of what the payment would have been using each named executive officer’s base pay and bonus percentage in effect for the second half of fiscal 2014. The fiscal 2014 target cash bonus percentages for both halves of the year and the blended target cash bonuses established for each named executive officer and the actual cash bonuses earned by each of them during fiscal 2014 are summarized as follows:

Name	2014 Target Cash Bonus as a % of Base Salary (for the First Half of the Fiscal Year)	2014 Target Cash Bonus as a % of Base Salary (for the Second Half of the Fiscal Year)	2014 Target Cash Bonus	2014 Actual Cash Bonus Earned at 68%
Michael J. Dunn, Jr.	100%	100%	\$495,000	\$336,600
Michael A. Stivala	80%	100%	\$332,500	\$226,100
Michael A. Kuglin	65%	70%	\$170,750	\$116,110
Mark Wienberg	80%	80%	\$242,000	\$164,560
Stephen C. Boyd	80%	80%	\$242,000	\$164,560
Douglas T. Brinkworth	80%	80%	\$228,000	\$155,040

For purposes of establishing the cash bonus targets for fiscal 2014, the Committee reviewed and approved our fiscal 2014 budgeted cash bonus plan EBITDA at its November 13, 2013 meeting. The budgeted cash bonus plan EBITDA is developed annually using a bottom-up process factoring in reasonable growth targets from the prior year’s performance, while at the same time attempting to reach a balance between a target that is reasonably achievable, yet not assured. As described above, during fiscal 2014, our executive officers had the opportunity to earn between 60% and 120% of their target cash bonuses. Over the past three years, our actual cash bonus plan EBITDA was such that each of our executive officers earned 68%, 60% and 0% of their respective target cash bonus for fiscal 2014, fiscal 2013 and fiscal 2012, respectively.

With the exception of Mr. Kuglin (and Mr. Dunn who has retired), the named executive officers’ target cash bonus percentages and target cash bonuses for fiscal 2015 are the same as those for the second half of fiscal 2014. In recognition of his promotion to Chief Financial Officer and Chief Accounting Officer, Mr. Kuglin’s fiscal 2015 target cash bonus has been increased to 75% of his base salary. Actual payments for fiscal 2015 under the annual cash bonus plan will depend upon the percentage of the budgeted cash bonus plan EBITDA for fiscal 2015 that is eventually achieved.

In accordance with recommendations from Towers Watson, the Committee modified the terms of our annual cash bonus plan, beginning with fiscal 2015, to provide our executive officers with the opportunity to earn between 50% and 120% of their target cash bonuses, depending upon the Partnership’s EBITDA performance during the fiscal year. No bonuses will be earned during fiscal 2015 if actual cash bonus plan EBITDA is less than 85% of budgeted cash bonus plan EBITDA; additionally, for fiscal 2015, cash bonuses cannot exceed 120% of the target cash bonus even if actual cash bonus plan EBITDA is more than 120% of budgeted cash bonus plan EBITDA.

The bonuses earned by our named executive officers under the annual cash bonus plan for fiscal 2014 and 2013 are reported in the column titled “Non-Equity Incentive Plan Compensation” in the Summary Compensation Table below.

Long-Term Incentive Plan

While the annual cash bonus plan is a pay-for-performance plan that focuses on our short-term financial goals, the Long-Term Incentive Plan, which we hereafter refer to as the “LTIP,” is structured as a phantom unit plan that has been designed to motivate our executive officers to focus on our long-term financial goals. Unvested awards are

granted at the beginning of each fiscal year as a Committee-approved percentage of each executive officer’s salary. Cash payments, if any, are earned and paid at the end of a three-year measurement period, depending on performance.

The LTIP is designed to:

- Align a portion of our executive officers’ compensation opportunities with the long-term goals of our Unitholders;
- Provide long-term compensation opportunities consistent with market practice;
- Reward long-term value creation; and
- Provide a retention incentive for our executive officers and other key employees.

LTIP History

At the beginning of fiscal 2003, the Committee adopted the 2003 Long-Term Incentive Plan (the “2003 LTIP”) as a principal component of our executive compensation program. At its meeting on November 9, 2011, the Committee adopted the 2013 Long-Term Incentive Plan (the “2013 LTIP”) as a replacement for the 2003 Long-Term Incentive Plan, which expired on September 30, 2012. The 2013 LTIP became effective on October 1, 2012; its provisions were essentially identical to the provisions of the 2003 LTIP. In accordance with recommendations from Towers Watson, at its meeting on August 6, 2013, the Committee adopted the 2014 Long-Term Incentive Plan (the “2014 LTIP”) as a replacement for the 2013 LTIP. The provisions of the 2014 LTIP govern all LTIP awards granted subsequent to fiscal 2013.

Calculation of LTIP Phantom Units

In accordance with the 2003, 2013, and 2014 LTIP documents, at the beginning of each three-fiscal year measurement period, each executive officer’s number of unvested LTIP unit awards is calculated by dividing a predetermined percentage (52% for awards made prior to fiscal 2014 and 50% for all subsequent awards), established by the Committee, of each executive officer’s target cash bonus by the average of the closing prices of our Common Units for the twenty days preceding the beginning of the first fiscal year in the measurement period.

The following are the numbers of the unvested LTIP units granted to our named executive officers during fiscal 2014 and fiscal 2013 that will be used to calculate cash payments at the end of each award’s respective three-year measurement period (i.e., at the end of fiscal 2016 for the fiscal 2014 award and at the end of fiscal 2015 for the fiscal 2013 award):

	<u>Fiscal 2014 Award</u>	<u>Fiscal 2013 Award</u>
Michael J. Dunn, Jr.	5,404	6,559
Michael A. Stivala	2,620	3,180
Michael A. Kuglin	1,703	2,067
Mark Wienberg	2,445	2,968
Steven C. Boyd	2,533	3,074
Douglas T. Brinkworth	2,358	2,862

At its meeting on November 11, 2014, the Committee approved the grant of the following number of unvested LTIP unit awards under the LTIP for the fiscal 2015 award cycle that commenced at the beginning of fiscal 2015 and will conclude at the end of fiscal 2017 that will be used to calculate cash payments at the end of this award’s three-year measurement period (i.e., at the end of fiscal 2017).

	Fiscal <u>2015 Award</u>
Michael A. Stivala	4,770
Michael A. Kuglin	2,315
Mark Wienberg	2,918
Steven C. Boyd	2,828
Douglas T. Brinkworth	2,694

Performance Metrics

The primary difference between the 2003/2013 LTIPs and the 2014 LTIP is the performance metric used to determine whether cash payments have been earned by the participants at the end of an LTIP award cycle’s three-year measurement period.

Awards made prior to fiscal 2014 under the 2003 and 2013 LTIPs measure the market performance of our Common Units on the basis of total return to our Unitholders, which we refer to as “TRU,” during a three-year measurement period commencing on the first day of the fiscal year in which an unvested award was granted and compares our TRU to the TRU of each of the other members of a predetermined peer group, consisting solely of other master limited partnerships, approved by the Committee. The fiscal 2013 LTIP award is the only remaining award subject to this metric.

The following table lists, in alphabetical order, the names and ticker symbols of the peer group used to measure our performance during the three-year measurement period for the fiscal 2013 LTIP award:

Fiscal 2013 Award Peer Group	
Peer Group Member Name	Ticker Symbol
Atlas Pipeline Partners, L.P.	APL
AmeriGas Partners, L.P.	APU
BreitBurn Energy Partners, L.P.	BBEP
Copano Energy, LLC ⁽¹⁾	CPNO
Enbridge Energy Partners, L.P.	EEP
Ferrellgas Partners, L.P.	FGP
Genesis Energy, L.P.	GEL
Global Partners L.P.	GLP
Inergy Midstream, L.P. ⁽²⁾	NRGM
MarkWest Energy Partners, L.P.	MWE
TC Pipelines, L.P.	TCP

(1) Copano Energy, LLC was acquired by Kinder Morgan Energy Partners, L.P. on May 1, 2013. For purposes of measuring relative TRU for the fiscal 2013 award, as a result of this event, we have reduced the peer group of this award by one member.

(2) Inergy Midstream, L.P. merged with Crestwood Midstream Partners LP on October 7, 2013. The combined partnership is named Crestwood Midstream Partners LP and trades under ticker CMLP on the New York Stock Exchange. For purposes of measuring relative TRU for the fiscal 2013 award, as a result of this event, we have reduced the peer group of this award by one member.

The three-year measurement period of the fiscal 2012 award ended simultaneously with the conclusion of fiscal 2014. The TRU for the fiscal 2012 award fell within the lowest quartile; therefore, the participants, including our named executive officers, did not earn cash payments relative to this award.

Subsequent to the Committee’s meeting on November 13, 2012, the Committee reconsidered the use of TRU as the performance metric for purposes of the LTIP. As a result, the Committee engaged the services of Towers Watson to review the LTIP’s measurement criteria. At the Committee’s July 24, 2013 meeting, Towers Watson presented the Committee with a recommendation to replace TRU with a performance metric that measures our average distribution

coverage ratio over a three-year measurement period.

The Committee's decision to replace the 2013 LTIP with the 2014 LTIP was based on its determination that an incentive structure focused on the level of distributable cash flow over a three-year measurement period, which supports the sustainability of the cash distributions to Unitholders and future growth in distributions, is a more meaningful indicator of the Partnership's performance than comparative TRU, and also better aligns management's interests with those of the Unitholders.

As a result of the Committee's adoption of the 2014 LTIP, the earning of cash payments under the 2014 LTIP will be determined based on the level of our distribution coverage ratio over a three-year measurement period ("Distribution Coverage Ratio"). This ratio will be calculated by dividing our average distributable cash flow generated during an outstanding award's three-year measurement period by a baseline cash flow set on the initial grant date of the award.

The average distributable cash flow is the average of the distributable cash flow for each of the three years in a particular award's three-year measurement period. For purposes of this plan's performance metric, distributable cash flow is equal to LTIP EBITDA for a particular fiscal year less capital expenditures, cash interest expense, and the provision for income taxes for the same fiscal year. For LTIP purposes, "LTIP EBITDA" is identical to cash bonus plan EBITDA. The average distributable cash flow will be adjusted by the sum of the annual differences between the per-Common Unit annualized distribution rate at the beginning of the three-year measurement period and the actual per-Common Unit distributions paid during each of the three years in an award's three-year measurement period. Baseline cash flow is calculated by multiplying the total number of Common Units outstanding at the beginning of the three-year measurement period by the then per Common Unit annualized distribution rate.

Cash Payments

For awards granted under the 2003 and 2013 LTIP plan documents (i.e., the fiscal 2013 award), at the end of the three-year measurement period, depending on the quartile ranking within which our TRU falls relative to the other members of the peer group, our executive officers, as well as the other participants, all of whom are key employees, will receive a cash payment equal to:

- The quantity of the participant's LTIP units multiplied by the average of the closing prices of our Common Units for the twenty days preceding the conclusion of the three-year measurement period;
- The quantity of the participant's LTIP units multiplied by the sum of the distributions that would have inured to one of our outstanding Common Units during the three-year measurement period; and
- The sum of the products of the two preceding calculations multiplied by: zero if our performance falls within the lowest quartile of the peer group; 50% if our performance falls within the second lowest quartile; 100% if our performance falls within the second highest quartile; and 125% if our performance falls within the top quartile.

For awards granted under the 2014 plan document (the fiscal 2014 award payable, if earned, at the end of fiscal 2016 and the fiscal 2015 award, payable, if earned, at the end of fiscal 2017), at the end of the three-year measurement period, depending on the Distribution Coverage Ratio for that three-year measurement period, our executive officers, as well as the other participants, all of whom are key employees, will receive cash payments equal to:

- The quantity of the participant's LTIP units multiplied by the average of the closing prices of our Common Units for the twenty days preceding the conclusion of the three-year measurement period;
- The quantity of the participant's LTIP units multiplied by the sum of the distributions that would have inured to one of our outstanding Common Units during the three-year measurement period; and

- The sum of the products of the two preceding calculations multiplied by the applicable percentage corresponding to the Distribution Coverage Ratio illustrated in the following table:

Distribution Coverage Ratio	% of Award Earned
Less than 1.00	00.0%
1.00 (Threshold Performance)	50.0%
1.01	52.5%
1.02	55.0%
1.03	57.5%
1.04	60.0%

1.47	145.1%
1.48	146.8%
1.49	148.4%
1.50 and Higher (Maximum Performance)	150.0%

Retirement Provision

A retirement-eligible participant's outstanding awards under the LTIP will vest as of the retirement-eligible date, but will remain subject to the same three-year measurement period for purposes of determining the eventual cash payment, if any, at the conclusion of the measurement period.

The grant date values based on the probable outcomes of the awards under the LTIP granted during fiscal 2014, fiscal 2013 and fiscal 2012 (although the final measurement of the fiscal 2012 award resulted in no actual payments to our executive officers) are reported in the column titled "Unit Awards" in the Summary Compensation Table below.

Restricted Unit Plan

We adopted the 2000 Restricted Unit Plan effective November 1, 2000. Upon adoption, this plan authorized the issuance of 487,805 Common Units to our executive officers, managers and other employees and to the members of our Board of Supervisors. On October 17, 2006, following approval by our Unitholders, we adopted amendments to this plan which, among other things, increased the number of Common Units authorized for issuance under this plan by 230,000 for a total of 717,805. As this plan terminated by its terms on October 31, 2010, no future awards can be made under this plan; however such termination will not affect the continued validity of any awards granted under the plan prior to its termination.

At our July 22, 2009 Tri-Annual Meeting, our Unitholders approved our adoption of the 2009 Restricted Unit Plan effective August 1, 2009. Upon adoption, this plan authorized the issuance of 1,200,000 Common Units to our executive officers, managers and other employees and to the members of our Board of Supervisors. The provisions of both restricted unit plans (collectively and individual referred to as the "RUP") are substantially identical. At the conclusion of fiscal 2014, there remained 417,758 restricted units available under the RUP for future awards.

When the Committee authorizes an award of restricted units, the unvested units underlying an award do not provide the grantee with voting rights and do not receive distributions or accrue rights to distributions during the vesting period. Restricted unit awards granted prior to August 6, 2013 normally vest as follows: 25% on each of the third and fourth anniversaries of the grant date and the remaining 50% on the fifth anniversary of the grant date. At its August 6, 2013 meeting, in accordance with recommendations from Towers Watson, the Committee amended the Partnership's 2009 Restricted Unit Plan to revise the normative vesting schedule of awards granted thereafter to one third on each of the first three anniversaries of the award grant date. The Committee retained the ability to deviate, at its discretion, from the normal vesting schedule with respect to particular restricted unit awards. The Committee amended the plan to make its vesting schedule comparable to those of similar plans offered by other companies. Unvested awards are subject to forfeiture in certain circumstances as defined in the applicable RUP document. Upon vesting, restricted units are automatically converted into our Common Units, with full voting rights and rights to receive distributions.

The RUP contains a retirement provision that provides for the vesting (six months and one day after the retirement date of qualifying participants) of unvested awards held by a retiring participant who meets all three of the following conditions on his or her retirement date:

- The unvested award has been held by the grantee for at least six months;
- The grantee is age 55 or older; and
- The grantee has worked for us or one of our predecessors for at least 10 years.

All RUP awards are approved by the Committee. Because individual circumstances differ, the Committee has not adopted a formulaic approach to making RUP awards. Although the reasons for granting an award can vary, the objective of granting an award to a recipient is to retain the services of the recipient over the vesting period while, at the same time providing the type of motivation that further aligns the long-term interests of the recipient with the long-term interests of our Unitholders. The reasons for which the Committee grants RUP awards include, but are not limited to, the following:

- To attract skilled and capable candidates to fill vacant positions;
- To retain the services of an employee;
- To provide an adequate compensation package to accompany an internal promotion; and
- To reward outstanding performance.

In determining the quantity of restricted units to grant to executive officers and other key employees, the Committee considers, without limitation:

- The executive officer's or key employee's scope of responsibility, performance and contribution to meeting our objectives;
- The total cash compensation opportunity provided to the executive officer or key employee for whom the award is being considered;
- The value of similar equity awards to executive officers of similarly sized enterprises; and
- The current value of a similar quantity of outstanding Common Units.

In addition, in establishing the level of restricted units to grant to our executive officers, the Committee considers the existing level of outstanding unvested RUP awards held by our executive officers.

The Committee generally approves awards under the RUP at its first meeting each fiscal year following the availability of the financial results for the prior fiscal year; however, occasionally the Committee grants awards at other times of the year, particularly when the need arises to grant awards because of promotions and new hires.

At its November 13, 2013 meeting, in order to further align the interests of management with the interests of our Unitholders the Committee approved the following grants to the following named executive officers:

Grant Name	Grant Date	Quantity
Michael A. Stivala	November 15, 2013	5,302
Michael A. Kuglin	November 15, 2013	4,242
Mark Wienberg	November 15, 2013	5,302
Steven C. Boyd	November 15, 2013	5,302
Douglas T. Brinkworth	November 15, 2013	5,302

In determining these fiscal 2014 awards for Mr. Stivala, Mr. Kuglin, Mr. Wienberg, Mr. Boyd and Mr. Brinkworth, the Committee relied upon information provided by the Mercer database to conclude that these awards were necessary to remediate shortfalls perceived by the Committee in the cash compensation opportunities of these named executive officers, as well as in recognition of their individual achievements throughout fiscal 2013. No award was granted to our Chief Executive Officer at the Committee's November 13, 2013 meeting.

At its January 22, 2014 meeting, in accordance with the recommendations of Towers Watson, in recognition of Mr. Dunn's years of service to the Partnership and in recognition of the promotions of the senior level executive officers, the Committee approved the following grants to the named executive officers:

Grant Name	Grant Date	Quantity
Michael J. Dunn, Jr.	March 1, 2014	17,009
Michael A. Stivala	April 1, 2014	23,885
Michael A. Kuglin	April 1, 2014	11,943
Mark Wienberg	April 1, 2014	11,943
Steven C. Boyd	April 1, 2014	11,943
Douglas T. Brinkworth	April 1, 2014	11,943

The aggregate grant date fair values of RUP awards made during fiscal 2014, fiscal 2013 and fiscal 2012, computed in accordance with accounting principles generally accepted in the United States of America are reported in the column titled “Unit Awards” in the Summary Compensation Table below.

At its November 11, 2014 meeting, the Committee did not grant any additional RUP awards to our named executive officers because each of these individuals was granted an award on April 1, 2014.

Equity Holding Policy

Effective April 22, 2010, the Committee adopted an Equity Holding Policy which establishes guidelines for the level of Partnership equity holdings that members of the Board and our executive officers are expected to maintain. The Equity Holding Policy can be accessed through a link on our website at www.suburbanpropane.com under the “Investors” tab.

The Partnership’s equity holding requirements are as follows:

Position	Amount
Member of the Board of Supervisors	2 x Annual Fee
Chief Executive Officer	5 x Base Salary
President	5 x Base Salary
Chief Operating Officer	3 x Base Salary
Chief Financial Officer	3 x Base Salary
Executive Vice President	3 x Base Salary
Senior Vice President	2.5 x Base Salary
Vice President	1.5 x Base Salary
Assistant Vice President	1 x Base Salary
Managing Director	1 x Base Salary

As of the January 2, 2014 measurement date, all of our executive officers, including our named executive officers, as well as the members of our Board of Supervisors, were in compliance with our Equity Holding Policy.

Incentive Compensation Recoupment Policy

Upon recommendation by the Committee, the Board of Supervisors has adopted an Incentive Compensation Recoupment Policy which permits the Committee to seek the reimbursement from certain executives of the Partnership and the Operating Partnership of incentive compensation (i.e., payments/awards pursuant to the annual cash bonus plan, the LTIP and RUP) paid to those executives in connection with any fiscal year for which there is a significant restatement of the published financial statements of the Partnership triggered by a material accounting error, which results in less favorable results than those originally reported. Such reimbursement can be sought from executives even if they had no responsibility for the restatement. In addition to the foregoing, if the Committee determines that any fraud or intentional misconduct by an executive was a contributing factor to the Partnership having to make a significant restatement, then the Committee is authorized to take appropriate action against such executive, including disciplinary action, up to, and including, termination, and requiring reimbursement of all, or any part, of the compensation paid to that executive in excess of that executive’s base salary, including cancellation of any unvested restricted units. The Incentive Compensation Recoupment Policy is available on our website at www.suburbanpropane.com under the “Investors” tab.

Pension Plan

We sponsor a noncontributory defined benefit pension plan that was originally designed to cover all of our eligible employees who met certain criteria relative to age and length of service. Effective January 1, 1998, we amended the plan in order to provide for a cash balance format rather than the final average pay format that was in effect prior to January 1, 1998. The cash balance format is designed to evenly spread the growth of a participant’s earned retirement benefit throughout his or her career rather than the final average pay format, under which a greater portion of a participant’s benefits were earned toward the latter stages of his or her career. Effective January 1, 2000,

we amended the plan to limit participation in this plan to existing participants and no longer admit new participants to the plan. On January 1, 2003, we amended the plan to cease future service and pay-based credits on behalf of the participants and, from that point on, participants' benefits have increased only due to interest credits.

Of our named executive officers, only Mr. Dunn, Mr. Boyd, and Mr. Brinkworth participate in the plan. The changes in the actuarial value relative to their participation in the plan during fiscal 2014, fiscal 2013 and fiscal 2012 are reported in the column titled "Change in Pension Value and Nonqualified Deferred Compensation Earnings" in the Summary Compensation Table below.

Deferred Compensation

All employees, including the named executive officers, who satisfy certain service requirements, are entitled to participate in our IRC Section 401(k) Plan, which we refer to as the "401(k) Plan," in which participants may defer a portion of their eligible cash compensation up to the limits established by law. We offer the 401(k) Plan to attract and retain talented employees by providing them with a tax-advantaged opportunity to save for retirement.

For fiscal 2014, all of our named executive officers participated in the 401(k) Plan. The benefits provided to our named executive officers under the 401(k) Plan are provided on the same basis as to our other exempt employees. Amounts deferred by our named executive officers under the 401(k) Plan during fiscal 2014, fiscal 2013 and fiscal 2012 are included in the column titled "Salary" in the Summary Compensation Table below.

In order to be competitive with other employers, if certain performance criteria are met, we will match our employee-participants' contributions up to the lesser of 6% of their base salary or \$260,000, at a rate determined based on a performance-based scale. The following chart shows the performance target criteria that must be met for each level of matching contribution:

<u>If We Meet This Percentage of Budgeted EBITDA⁽¹⁾...</u>	<u>The Participating Employee Will Receive this Matching Contribution for the Year...</u>
115% or higher	100%
100% to 114%	50%
90% to 99%	25%
Less than 90%	0%

(1) For purposes of the 401(k) Plan, the definition of the term "budgeted EBITDA" is identical to that of "budgeted cash bonus plan EBITDA" discussed under the heading titled "Annual Cash Bonus Plan" above.

Actual cash bonus plan EBITDA, when applied to the 401(k) Plan, was such that we will provide participants in the 401(k) Plan with a matching contribution equal to 25% of their calendar year 2014 contributions that do not exceed 6% of their total base pay, up to a maximum annual compensation limit of \$260,000. The matching contributions made on behalf of our named executive officers for 2014 are reported in the column titled "All Other Compensation" in the Summary Compensation Table below.

Other Benefits

As part of his total compensation package, each named executive officer is eligible to participate in all of our other employee benefit plans, such as the medical, dental, group life insurance and disability plans, on the same basis as other exempt employees. These benefit plans are offered to attract and retain talented employees by providing them with competitive benefits.

Other than to Mr. Dunn, in accordance with the terms of his letter agreement (described below in the section titled "Letter Agreement of Mr. Dunn"), there are no post-termination or other special rights provided to any named executive officer to participate in these benefit programs other than the right to participate in such plans for a fixed period of time following termination of employment, on the same basis as is provided to other exempt employees, as

required by law.

The costs of all such benefits incurred on behalf of our named executive officers in fiscal 2014, fiscal 2013 and fiscal 2012 are reported in the column titled “All Other Compensation” in the Summary Compensation Table below.

Perquisites

Perquisites represent a minor component of our executive officers’ compensation. Each of the named executive officers is eligible for tax preparation services, a company-provided vehicle, and an annual physical. The following table summarizes both the value and the utilization of these perquisites by the named executive officers in fiscal 2014.

Name	Tax Preparation Services	Employer-Provided Vehicle	Physical
Michael J. Dunn, Jr.	\$9,150	\$16,549	\$1,600
Michael A. Stivala	\$ -0-	\$18,153	\$ -0-
Michael A. Kuglin	\$ -0-	\$12,725	\$ -0-
Mark Wienberg	\$ -0-	\$13,142	\$1,750
Steven C. Boyd	\$4,450	\$ 6,837	\$ -0-
Douglas T. Brinkworth	\$4,400	\$11,410	\$1,500

Perquisite-related costs for fiscal 2014, fiscal 2013 and fiscal 2012 are reported in the column titled “All Other Compensation” in the Summary Compensation Table below.

Impact of Accounting and Tax Treatments of Executive Compensation

As we are a partnership and not a corporation for federal income tax purposes, we are not subject to the limitations of IRC Section 162(m) with respect to tax deductible executive compensation. Accordingly, none of the compensation paid to our named executive officers is subject to a limitation as to tax deductibility. However, if such tax laws related to executive compensation change in the future, the Committee will consider the implication of such changes to us.

Although it is our practice to comply with the statutory and regulatory provisions of IRC Section 409A, the Suburban Propane, L.P. Severance Protection Plan for Key Employees, which we refer to as the “Severance Plan,” provides that if any payment under the Severance Plan subjects a participant to the 20% additional tax under IRC Section 409A, the payment will be grossed up to permit such participant to retain a net amount on an after-tax basis equal to what he or she would have received had the excise tax not been payable.

Letter Agreement of Mr. Dunn

Simultaneous with the commencement of fiscal 2010, Mr. Dunn’s then existing employment agreement was terminated by mutual agreement and replaced with a letter agreement governing retirement and the implementation of a mutually agreed upon succession plan. The letter agreement between Mr. Dunn and us is summarized as follows:

- Mr. Dunn will participate in our Severance Protection Plan (see below) at the 78-week participation level.
- If on or after the last day of fiscal 2012, Mr. Dunn retires or leaves as a result of an agreed-upon succession plan, he will receive the following if he timely provides us with a release of all claims he might have against us at the time of his departure:
 - A payment equal to two years of base salary paid over a two year period.
 - Continuation of medical and dental benefits at no premium cost to him until attainment of age 65 (Mr. Dunn had attained age 65 prior to the conclusion of fiscal 2014).

We agreed that if there was a termination of Mr. Dunn’s employment in connection with a succession plan, it would be deemed a retirement for the purposes of his benefits under the employee benefit plans in which he participates. Mr. Dunn agreed to provide us with transition consultation services for a period not to exceed two years

following his departure. We also agreed that Mr. Dunn would not be deemed to have retired or terminated his employment if he simply relinquished the title and responsibilities of President but remained our Chief Executive Officer.

On November 14, 2013, we announced that, pursuant to a succession plan developed by Mr. Dunn and our Board of Supervisors, Mr. Dunn would relinquish the role of President on March 31, 2014, and retire as our Chief Executive Officer on September 27, 2014. Accordingly, the retirement provisions of our letter agreement with Mr. Dunn became effective on September 28, 2014, at which time Mr. Dunn was age 65.

The total payments that will be made under this agreement as a result of Mr. Dunn's retirement are reported in the column titled "All Other Compensation" in the Summary Compensation Table below.

Severance Benefits

We believe that, in most cases, employees should be paid reasonable severance benefits. Therefore, it is the general policy of the Committee to provide executive officers and other key employees who are terminated by us without cause or who choose to terminate their employment with us for good reason with a severance payment equal to, at a minimum, one year's base salary, unless circumstances dictate otherwise. This policy was adopted because it may be difficult for former executive officers and other key employees to find comparable employment within a short period of time. However, depending upon individual facts and circumstances, particularly the severed employee's tenure with us, the Committee may make exceptions to this general policy.

A "key employee" is an employee who has attained a director level pay-grade or higher. "Cause" will be deemed to exist where the individual has been convicted of a crime involving moral turpitude, has stolen from us, has violated his or her non-competition or confidentiality obligations, or has been grossly negligent in fulfillment of his or her responsibilities. "Good reason" generally will exist where an executive officer's position or compensation has been decreased or where the employee has been required to relocate.

Change of Control

Our executive officers and other key employees have built the Partnership into the successful enterprise that it is today; therefore, we believe that it is important to protect them in the event of a change of control. Further, it is our belief that the interests of our Unitholders will be best served if the interests of our executive officers are aligned with them, and that providing change of control benefits should eliminate, or at least reduce, the reluctance of our executive officers to pursue potential change of control transactions that may be in the best interests of our Unitholders. Additionally, we believe that the severance benefits provided to our executive officers and to our key employees are consistent with market practice and appropriate because these benefits are an inducement to accepting employment and because the executive officers have agreed to and are subject to non-competition and non-solicitation covenants for a period following termination of employment. Therefore, our executive officers and other key employees are provided with employment protection following a change of control, which we refer to as the "Severance Protection Plan". During fiscal 2014, our Severance Protection Plan covered all executive officers, including the named executive officers.

The Severance Protection Plan provides for severance payments of either 65 or 78 weeks of base salary and target cash bonuses for such officers and key employees if within one year following a change of control their employment is terminated by us or our successor or they resign for Good Reason (as defined in the Severance Protection Plan). All named executive officers who participate in the Severance Protection Plan are eligible for 78 weeks of base salary and target bonuses. The cash components of any change of control benefits are paid in a lump sum.

In addition, upon a change of control, without regard to whether a participant's employment is terminated, all unvested awards granted under the RUP will vest immediately and become distributable to the participants. Also, without regard to whether a participant's employment is terminated, all outstanding, unvested LTIP awards will vest immediately as if the three-year measurement period for each outstanding award concluded on the date the change of control occurred. Under the provisions of the LTIP document, an amount equal to the cash value of 125% of a participant's unvested LTIP units plus a sum equal to 125% of a participant's unvested LTIP units multiplied by an

amount equal to the cumulative, per-Common Unit distribution from the beginning of an unvested award's three-year measurement period through the date on which a change of control occurred would become payable to the participants.

For purposes of these benefits, a change of control is deemed to occur, in general, if:

- An acquisition of our Common Units or voting equity interests by any person immediately after which such person beneficially owns more than 30% of the combined voting power of our then outstanding Common Units, unless such acquisition was made by (a) us or our subsidiaries, or any employee benefit plan maintained by us, the Operating Partnership or any of our subsidiaries, or (b) any person in a transaction where (A) the existing holders prior to the transaction own at least 50% of the voting power of the entity surviving the transaction and (B) none of the Unitholders other than the Partnership, our subsidiaries, any employee benefit plan maintained by us, the Operating Partnership, or the surviving entity, or the existing beneficial owner of more than 25% of the outstanding Common Units owns more than 25% of the combined voting power of the surviving entity, which transaction we refer to as a "Non-Control Transaction"; or
- The consummation of (a) a merger, consolidation or reorganization involving the Partnership other than a Non-Control Transaction; (b) a complete liquidation or dissolution of the Partnership; or (c) the sale or other disposition of 40% or more of the gross fair market value of all the assets of the Partnership to any person (other than a transfer to a subsidiary).

For additional information pertaining to severance payable to our named executive officers following a change of control-related termination, see the tables titled "Potential Payments Upon Termination" below.

Report of the Compensation Committee

The Compensation Committee has reviewed and discussed with management this Compensation Discussion and Analysis. Based on its review and discussions with management, the Committee recommended to the Board of Supervisors that this Compensation Discussion and Analysis be included in this Annual Report on Form 10-K for fiscal 2014.

The Compensation Committee:

John Hoyt Stookey, Chairman
Matthew J. Chanin
Harold R. Logan, Jr.

ADDITIONAL INFORMATION REGARDING EXECUTIVE COMPENSATION

Summary Compensation Table

The following table sets forth certain information concerning the compensation of each named executive officer during the fiscal years ended September 27, 2014, September 28, 2013 and September 29, 2012:

Name and Principal Position	Year	Salary (\$) ⁽¹⁾	Bonus (\$) ⁽²⁾	Unit Awards (\$) ⁽³⁾	Non-Equity Incentive Plan Compensation (\$) ⁽⁴⁾	Change in Pension Value and Nonqualified Deferred Compensation Earnings (\$) ⁽⁵⁾	All Other Compensation (\$) ⁽⁶⁾	Total (\$)
(a)	(b)	(c)	(d)	(e)	(g)	(h)	(i)	(j)
Michael J. Dunn, Jr. Former Chief Executive Officer (Retired at the Conclusion of Fiscal 2014)	2014	\$495,000	-	\$ 981,921	\$336,600	\$ 9,102	\$ 48,352	\$1,870,975
	2013	\$495,000	-	\$ 369,124	\$297,000	-	\$ 54,619	\$1,215,743
	2012	\$475,000	-	\$ 521,058	-	\$ 22,308	\$ 49,280	\$1,067,646
Michael A. Stivala President and Chief Executive Officer	2014	\$362,500	-	\$1,182,776	\$226,100	-	\$ 40,906	\$1,812,282
	2013	\$300,000	-	\$ 376,313	\$144,000	-	\$ 42,073	\$ 862,386
	2012	\$275,000	-	\$ 328,487	-	-	\$ 36,557	\$ 640,044
Michael A. Kuglin Chief Financial Officer and Chief Accounting Officer	2014	\$252,500	-	\$ 675,618	\$116,110	-	\$ 33,430	\$1,077,658
	2013	\$240,000	-	\$ 257,297	\$ 93,600	-	\$ 35,161	\$ 626,058
	2012	\$215,000	-	\$ 215,211	-	-	\$ 28,715	\$ 458,926
Mark Wienberg Chief Operating Officer	2014	\$302,500	-	\$ 758,784	\$164,560	-	\$ 37,800	\$1,263,644
	2013	\$280,000	-	\$ 364,382	\$134,400	-	\$ 36,055	\$ 814,837
	2012	\$250,000	-	\$ 317,553	-	-	\$ 32,854	\$ 600,407
Steven C. Boyd Senior Vice President – Field Operations	2014	\$302,500	-	\$ 763,708	\$164,560	\$ 28,917	\$ 35,341	\$1,295,026
	2013	\$290,000	-	\$ 370,348	\$139,200	-	\$ 33,416	\$ 832,964
	2012	\$270,000	-	\$ 326,310	-	\$ 41,823	\$ 32,763	\$ 670,896
Douglas T. Brinkworth Senior Vice President – Product Supply, Purchasing & Logistics	2014	\$285,000	-	\$ 753,870	\$155,040	\$ 16,037	\$ 41,416	\$1,251,363
	2013	\$270,000	-	\$ 358,418	\$129,600	-	\$ 40,772	\$ 798,790
	2012	\$245,000	-	\$ 315,326	-	\$ 24,327	\$ 35,786	\$ 620,439

(1) Includes amounts deferred by named executive officers as contributions to the 401(k) Plan. For more information on the relationship between salaries and other cash compensation (i.e., annual cash bonuses and Long-Term Incentive Plan awards), refer to the subheading titled “Allocation Among Components” in the “Compensation Discussion and Analysis” above.

(2) This column is reserved for discretionary cash bonuses that are not based on any performance criteria. During fiscal years 2014, 2013, and 2012, we did not provide our named executive officers with non-performance related bonus payments.

- (3) The amounts reported in this column represent the aggregate grant date fair value of RUP awards made during fiscal years 2014, 2013 and 2012, as well as the value at the grant date of awards made in fiscal years 2014, 2013, and 2012 under the LTIP, based on the probable outcome with respect to satisfaction of the performance conditions. The specific details regarding these plans are provided in the preceding "Compensation Discussion and Analysis" under the subheadings "Restricted Unit Plan" and "Long-Term Incentive Plan." The breakdown for each plan with respect to each named executive officer is as follows:

Plan Name	Mr. Dunn	Mr. Stivala	Mr. Kuglin	Mr. Wienberg	Mr. Boyd	Mr. Brinkworth
2014						
RUP	\$ 677,679	\$ 1,035,266	\$ 579,736	\$ 621,111	\$ 621,111	\$ 621,111
LTIP	304,242	147,510	95,882	137,673	142,597	132,759
Total	\$ 981,921	\$ 1,182,776	\$ 675,618	\$ 758,784	\$ 763,708	\$ 753,870
2013						
RUP	N/A	\$ 197,351	\$ 140,971	\$ 197,351	\$ 197,351	\$ 197,351
LTIP	369,124	178,962	116,326	167,031	172,997	161,067
Total	\$ 369,124	\$ 376,313	\$ 257,297	\$ 364,382	\$ 370,348	\$ 358,418
2012						
RUP	\$ 260,900	\$ 208,007	\$ 138,668	\$ 208,007	\$ 208,007	\$ 208,007
LTIP	260,158	120,480	76,543	109,546	118,303	107,319
Total	\$ 521,058	\$ 328,487	\$ 215,211	\$ 317,553	\$ 326,310	\$ 315,326

- (4) The amounts reported in this column represent each named executive officer's annual cash bonus earned in accordance with the performance measures discussed under the subheading "Annual Cash Bonus Plan" in the "Compensation Discussion and Analysis."
- (5) Nothing was reported in this column for fiscal 2013 because there was a decline in value of the participating named executive officers' Cash Balance Plan holdings. The declines in pension values for fiscal 2013 were as follows: (\$24,140), (\$28,591), and (\$14,743) for Messrs. Dunn, Boyd, and Brinkworth, respectively. Mr. Stivala, Mr. Kuglin and Mr. Wienberg do not participate in the Cash Balance Plan.
- (6) The amounts reported in this column consist of the following:

2014						
Type of Compensation	Mr. Dunn	Mr. Stivala	Mr. Kuglin	Mr. Wienberg	Mr. Boyd	Mr. Brinkworth
401(k) Match	\$ 3,900	\$ 3,900	\$ 3,788	\$ 3,900	\$ 3,900	\$ 3,900
Value of Annual Physical Examination	1,600	N/A	N/A	1,750	N/A	1,500

Note: Column (f) was omitted from the Summary Compensation Table because we do not grant options to our employees.

Grants of Plan Based Awards Table for Fiscal 2014

The following table sets forth certain information concerning grants of awards made to each named executive officer during the fiscal year ended September 27, 2014:

Name	Plan Name	Grant Date	Approval Date	LTIP Units Underlying Equity Incentive Plan Awards (LTIP) ⁽⁴⁾	Estimated Future Payments Under Non-Equity Incentive Plan Awards		Estimated Future Payments Under Equity Incentive Plan Awards		All Other stock Awards: Number of Shares of Stock or Units (#)	Grant Date Fair Value of Stock and Option Awards (\$) ⁽⁵⁾
					Target (\$)	Maximum (\$)	Target (\$)	Maximum (\$)		
(a)		(b)			(d)	(e)	(g)	(h)	(i)	(l)
Michael J. Dunn, Jr.	RUP ⁽¹⁾	1 Mar 14	22 Jan 14						17,009	\$677,679
	Bonus ⁽²⁾	29 Sep 13	13 Nov 13		\$495,000	\$594,000				
	LTIP ⁽³⁾	29 Sep 13	13 Nov 13	5,404			\$304,242	\$456,363		
Michael A. Stivala	RUP ⁽¹⁾	15 Nov 13	13 Nov 13						5,302	\$206,924
	RUP ⁽¹⁾	1 Apr 14	22 Jan 14						23,885	\$828,342
	Bonus ⁽²⁾	29 Sep 13	13 Nov 13		\$332,500	\$399,000				
	LTIP ⁽³⁾	29 Sep 13	13 Nov 13	2,620			\$147,510	\$221,265		
Michael A. Kuglin	RUP ⁽¹⁾	15 Nov 13	13 Nov 13						4,242	\$165,549
	RUP ⁽¹⁾	1 Apr 14	22 Jan 14						11,943	\$414,187
	Bonus ⁽²⁾	29 Sep 13	13 Nov 13		\$170,750	\$204,900				
	LTIP ⁽³⁾	29 Sep 13	13 Nov 13	1,703			\$95,882	\$143,823		
Mark Wienberg	RUP ⁽¹⁾	15 Nov 13	13 Nov 13						5,302	\$206,924
	RUP ⁽¹⁾	1 Apr 14	22 Jan 14						11,943	\$414,187
	Bonus ⁽²⁾	29 Sep 13	13 Nov 13		\$242,000	\$290,400				
	LTIP ⁽³⁾	29 Sep 13	13 Nov 13	2,445			\$137,673	\$206,510		
Steven C. Boyd	RUP ⁽¹⁾	15 Nov 13	13 Nov 13						5,302	\$206,924
	RUP ⁽¹⁾	1 Apr 14	22 Jan 14						11,943	\$414,187
	Bonus ⁽²⁾	29 Sep 13	13 Nov 13		\$242,000	\$290,400				
	LTIP ⁽³⁾	29 Sep 13	13 Nov 13	2,533			\$142,597	\$213,896		
Douglas T. Brinkworth	RUP ⁽¹⁾	15 Nov 13	13 Nov 13						5,302	\$206,924
	RUP ⁽¹⁾	1 Apr 14	22 Jan 14						11,943	\$414,187
	Bonus ⁽²⁾	29 Sep 13	13 Nov 13		\$228,000	\$273,600				
	LTIP ⁽³⁾	29 Sep 13	13 Nov 13	2,358			\$132,759	\$199,139		

- The quantities reported on these lines represent awards granted under the Restricted Unit Plans. RUP awards granted subsequent to fiscal 2013 vest as follows: one third of the award on the first anniversary of the grant date; one third of the award on the second anniversary of the grant date; and one third of the award on the third anniversary of the grant date, subject in each case to continued service through each such date. If a recipient has held an unvested award for at least six months; is 55 years or older; and has worked for the Partnership for at least ten years, an award held by such participant will vest six months following such participant's retirement if the participant retires prior to the conclusion of the normal vesting schedule, unless the Committee exercises its authority to alter the applicability of the plan's retirement provisions in regard to a particular award. On September 27, 2014, Mr. Dunn was the only named executive officer who held RUP awards and, at the same time, satisfied all three retirement eligibility criteria. A discussion of the general terms of the RUP, and the facts and circumstances considered by the Committee in authorizing the fiscal 2014 awards to the named executive officers, is included in the "Compensation Discussion and Analysis" under the subheading "Restricted Unit Plan."
- Amounts reported on these lines are the targeted and maximum annual cash bonus compensation potential for each named executive officer under the annual cash bonus plan as described in the "Compensation Discussion and Analysis" under the subheading "Annual Cash Bonus Plan." Actual amounts earned by the named executive officers for fiscal 2014 were equal to 68% of the "Target" amounts reported on this line. Column (c) ("Threshold \$") was omitted because the annual cash bonus plan does not provide for a minimum cash payment. Because these plan awards were granted to, and 68% of the "Target" awards were earned by, our named executive officers during fiscal 2014, 68% of the "Target" amounts reported under column (d) have been reported in the Summary Compensation Table above.
- The LTIP is a phantom unit plan. Payments, if earned, are based on a combination of (1) the fair market value of our Common Units at the end of a three-year measurement period, which, for purposes of the plan, is the average of the closing prices for the twenty business days preceding the conclusion of the three-year measurement period, and (2) cash equal to the distributions that would have inured to the same quantity of outstanding Common Units during the same three-year measurement period. The fiscal 2014 award "Target" and "Maximum" amounts are estimates based upon (1) the fair market value (the average of the closing prices of our Common Units for the twenty business days preceding September 28, 2013) of our Common Units at the beginning of fiscal 2014, and (2) the estimated distributions over the course of the award's three-year measurement period. Column (f) ("Threshold") was omitted because the LTIP does not provide for a minimum cash payment. The "Target" amount represents a hypothetical payment at 100% of target and the "Maximum" amount represents a hypothetical payment at 150% of target. Detailed descriptions of the plan and the calculation of awards are included in the "Compensation Discussion and Analysis" under the subheading "Long-Term Incentive Plan."
- This column is frequently used when non-equity incentive plan awards are denominated in units; however, in this case, the numbers reported represent the LTIP units each named executive officer was awarded under the LTIP during fiscal 2014.
- The dollar amounts reported in this column represent the aggregate fair value of the RUP awards on the grant date, net of estimated future distributions during the vesting period. The fair value shown may not be indicative of the value realized in the future upon vesting due to the variability in the trading price of our Common Units.

Note: Columns (j) and (k) were omitted from the Grants of Plan Based Awards Table because we do not award options to our employees.

Outstanding Equity Awards at Fiscal Year End 2014 Table

The following table sets forth certain information concerning outstanding equity awards under our Restricted Unit Plan and LTIP unit awards under our LTIP for each named executive officer as of September 27, 2014:

Stock Awards				
Name	Number of Shares or Units of Stock That Have Not Vested (#) ⁽⁷⁾	Market Value of Shares or Units of Stock That Have Not Vested (\$) ⁽⁸⁾	Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights that Have Not Vested (#) ⁽⁹⁾	Equity Incentive Plan Awards: Market or Payout Value of Unearned Shares, Units or Other Rights That Have Not Vested (\$) ⁽¹⁰⁾
(a)	(g)	(h)	(i)	(j)
Michael J. Dunn, Jr. ⁽¹⁾	25,009	\$1,107,774	11,963	\$658,436
Michael A. Stivala ⁽²⁾	50,627	\$2,242,523	5,800	\$319,229
Michael A. Kuglin ⁽³⁾	30,879	\$1,367,785	3,770	\$207,499
Mark Wienberg ⁽⁴⁾	38,685	\$1,713,552	5,413	\$297,929
Steven C. Boyd ⁽⁵⁾	38,685	\$1,713,552	5,607	\$308,606
Douglas T. Brinkworth ⁽⁶⁾	38,865	\$1,713,552	5,220	\$287,305

(1) Mr. Dunn’s RUP awards will vest as follows:

Vesting Date	Mar 28 2015
Quantity of Units	25,009

(2) Mr. Stivala’s RUP awards will vest as follows:

Vesting Date	Nov 15 2014	Apr 1 2015	Nov 15 2015	Apr 1 2016	Nov 15 2016	Apr 1 2017	Nov 15 2017
Quantity of Units	7,275	7,962	8,189	7,962	7,062	7,961	4,216

(3) Mr. Kuglin’s RUP awards will vest as follows:

Vesting Date	Nov 15 2014	Apr 1 2014	Nov 15 2015	Apr 1 2016	Nov 15 2016	Apr 1 2017	Nov 15 2017
Quantity of Units	5,084	3,981	5,795	3,981	5,046	3,981	3,011

(4) Mr. Wienberg’s RUP awards will vest as follows:

Vesting Date	Nov 15 2014	Apr 1 2015	Nov 15 2015	Apr 1 2016	Nov 15 2016	Apr 1 2017	Nov 15 2017
Quantity of Units	7,275	3,981	8,189	3,981	7,062	3,981	4,216

(5) Mr. Boyd’s RUP awards will vest as follows:

Vesting Date	Nov 15 2014	Apr 1 2015	Nov 15 2015	Apr 1 2016	Nov 15 2016	Apr 1 2017	Nov 15 2017
Quantity of Units	7,275	3,981	8,189	3,981	7,062	3,981	4,216

(6) Mr. Brinkworth's RUP awards will vest as follows:

Vesting Date	Nov 15 2014	Apr 1 2015	Nov 15 2015	Apr 1, 2016	Nov 15 2016	Apr 1 2017	Nov 15 2017
Quantity of Units	7,275	3,981	8,189	3,981	7,062	3,981	4,216

- (7) The figures reported in this column represent the total quantity of each of our named executive officer's invested RUP awards.
- (8) The figures reported in this column represent the figures reported in column (g) multiplied by the average of the highest and the lowest trading prices of our Common Units on September 26, 2014, the last trading day of fiscal 2014.
- (9) The amounts reported in this column represent the quantities of LTIP units that underlie the outstanding and unvested fiscal 2014 and fiscal 2013 awards under the LTIP. Payments, if earned, for the 2013 award, will be made to participants at the end of a three-year measurement period and will be based upon our total return to our Common Unitholders in comparison to the total return provided by a predetermined peer group of eleven other companies, all of which are publicly-traded partnerships, to their unitholders. Payments if earned, for the 2014 award, will be made to participants at the end of a three-year measurement period and will be based upon the Partnership's distribution coverage ratio for the three-year measurement period. For more information on the LTIP, refer to the subheading "Long-Term Incentive Plan" in the "Compensation Discussion and Analysis."
- (10) The amounts reported in this column represent the estimated future target payouts of the fiscal 2014 and fiscal 2013 awards granted under the LTIP. These amounts were computed by multiplying the quantities of the invested LTIP units in column (i) by the average of the closing prices of our Common Units for the twenty business days preceding September 27, 2014 (in accordance with the plan's valuation methodology), and by adding to the product of that calculation the product of each year's underlying LTIP units times the sum of the distributions that are estimated to inure to an outstanding Common Unit during each award's three-year measurement period. Due to the variability in the trading prices of our Common Units, as well as our performance relative to the peer group, actual payments, if any, at the end of the three-year measurement period may differ. The following chart provides a breakdown of each year's awards:

	Mr. Dunn	Mr. Stivala	Mr. Kuglin	Mr. Wienberg	Mr. Boyd	Mr. Brinkworth
Fiscal 2014 LTIP Units	5,404	2,620	1,703	2,445	2,533	2,358
Value of Fiscal 2014 LTIP Units	\$ 240,756	\$ 116,725	\$ 75,871	\$ 108,928	\$ 112,849	\$ 105,052
Estimated Distributions over Measurement Period	\$ 56,742	\$ 27,510	\$ 17,882	\$ 25,673	\$ 26,597	\$ 24,759
Fiscal 2013 LTIP Units	6,559	3,180	2,067	2,968	3,074	2,862
Value of Fiscal 2013 LTIP Units	\$ 292,213	\$ 141,674	\$ 92,088	\$ 132,229	\$ 136,951	\$ 127,506
Estimated Distributions over Measurement Period	\$ 68,725	\$ 33,320	\$ 21,658	\$ 31,099	\$ 32,209	\$ 29,988

Note: Columns (b), (c), (d), (e) and (f), all of which are for the reporting of option-related compensation, have been omitted from the "Outstanding Equity Awards At Fiscal Year End 2014 Table" because we do not grant options to our employees.

Equity Vested Table for Fiscal 2014

Awards under the Restricted Unit Plans are settled in Common Units upon vesting. Awards under the LTIP, a LTIP-equity plan, are settled in cash. The following two tables set forth certain information concerning the vesting of awards under our Restricted Unit Plans and the vesting of the fiscal 2012 award under our LTIP for each named executive officer during the fiscal year ended September 27, 2014:

Restricted Unit Plans	Unit Awards		
	Name	Number of Common Units Acquired on Vesting (#)	Value Realized on Vesting (\$) ⁽¹⁾
Michael J. Dunn, Jr.		-0-	\$ -0-
Michael A. Stivala		5,044	\$ 232,680
Michael A. Kuglin		4,728	\$ 218,103
Mark Wienberg		4,242	\$ 195,683
Steven C. Boyd		3,920	\$ 180,830
Douglas T. Brinkworth		4,242	\$ 195,683

- (1) The value realized is equal to the average of the high and low trading prices of our Common Units on the vesting date, multiplied by the number of units that vested.

Long-Term Incentive Plan – Fiscal 2012 ⁽²⁾ Award	Cash Awards		
	Name	Number of LTIP Units Acquired on Vesting (#) ⁽³⁾	Value Realized on Vesting (\$) ⁽⁴⁾
	Michael J. Dunn, Jr.	5,258	\$0
	Michael A. Stivala	2,435	\$0
	Michael A. Kuglin	1,547	\$0
	Mark Wienberg	2,214	\$0
	Steven C. Boyd	2,391	\$0
	Douglas T. Brinkworth	2,169	\$0

- (2) The fiscal 2012 award’s three-year measurement period concluded on September 27, 2014.
- (3) In accordance with the formula described in the “Compensation Discussion and Analysis” under the subheading “Long-Term Incentive Plan,” these quantities were calculated at the beginning of the three-year measurement period and were, therefore, based upon each individual’s salary and target cash bonus at that time.
- (4) The value (i.e., cash payment) realized was calculated in accordance with the terms and conditions of the LTIP. For more information, refer to the subheading “Long-Term Incentive Plan” in the “Compensation Discussion and Analysis.”

Pension Benefits Table for Fiscal 2014

The following table sets forth certain information concerning each plan that provides for payments or other benefits at, following, or in connection with retirement for each named executive officer as of the end of the fiscal year ended September 27, 2014:

Name	Plan Name	Number of Years Credited Service (#)	Present Value of Accumulated Benefit (\$)	Payments During Last Fiscal Year (\$)
Michael J. Dunn, Jr.	Cash Balance Plan ⁽¹⁾	6	\$ 256,392	\$ -
	LTIP ⁽³⁾	N/A	\$ 658,436	\$ -
	RUP ⁽⁴⁾	N/A	\$1,107,774	\$ -
Michael A. Stivala ⁽²⁾	N/A	N/A	\$ -	\$ -
Michael A. Kuglin ⁽²⁾	N/A	N/A	\$ -	\$ -
Mark Wienberg ⁽²⁾	N/A	N/A	\$ -	\$ -
Steven Boyd	Cash Balance Plan ⁽¹⁾	15	\$ 198,829	\$ -
Douglas T. Brinkworth	Cash Balance Plan ⁽¹⁾	6	\$ 124,541	\$ -

- (1) For more information on the Cash Balance Plan, refer to the subheading “Pension Plan” in the “Compensation Discussion and Analysis.”
- (2) Because Mr. Stivala, Mr. Kuglin and Mr. Wienberg commenced employment with the Partnership after January 1, 2000, the date on which the Cash Balance Plan was closed to new participants, they do not participate in the Cash Balance Plan.
- (3) Currently, Mr. Dunn is the only named executive officer who meets the retirement criteria of the LTIP. For such participants, upon retirement, outstanding but unvested awards under the LTIP become fully vested. However, payouts on those awards are deferred until the conclusion of each outstanding award’s three-year measurement period, based on the outcome of the TRU relative to the peer group for the 2012 award and the outcome of the distributable cash flow measurement for the 2014 award. The number reported on this line represents a projected payout of Mr. Dunn’s outstanding fiscal 2014 and fiscal 2013 awards under the LTIP. Because the ultimate payout, if any, is predicated on the trading prices of the Partnership’s Common Units at the end of the three-year measurement period, the value reported may not be indicative of the value realized in the future upon vesting due to the variability in the trading price of our Common Units.
- (4) Currently, Mr. Dunn is the only named executive officer who meets the retirement criteria of the RUP. For more information on this and the retirement provisions, refer to the subheading “Restricted Unit Plans” in the “Compensation Discussion and Analysis.” For participants who meet the retirement criteria, upon retirement, outstanding RUP awards vest six months and one day after retirement.

Potential Payments Upon Termination

The following table sets forth certain information containing potential payments to the named executive officers in accordance with the provisions of Mr. Dunn’s letter agreement, the Severance Protection Plan, the RUP and the LTIP for the circumstances listed in the table assuming a September 27, 2014 termination date. For more information on Mr. Dunn’s letter agreement, refer to the subheading “Letter Agreement of Mr. Dunn” in the “Compensation

Discussion and Analysis.” As was indicated above in the “Compensation Discussion and Analysis,” concurrent with the beginning of fiscal 2015, Mr. Dunn’s retirement became effective; as such, in Mr. Dunn’s case, the numbers reported for him under the column heading “Involuntary Termination Without Cause by the Partnership or by the Executive for Good Reason without a Change of Control Event” reflect actual future payments that will be made to him in accordance with the letter agreement between him and the Partnership.

Executive Payments and Benefits Upon Termination	Death	Disability	Involuntary Termination Without Cause by the Partnership or by the Executive for Good Reason without a Change of Control Event	Involuntary Termination Without Cause by the Partnership or by the Executive for Good Reason with a Change of Control Event
Michael J. Dunn, Jr.

Total	\$ 1,713,552	\$ 949,685	\$ 318,706	\$ 2,996,327

- (1) In the event of death, the named executive officer’s estate is entitled to a payment equal to the decedent’s earned but unpaid salary and pro-rata cash bonus.
- (2) In the event of disability, the named executive officer is entitled to a payment equal to his earned but unpaid salary and pro-rata cash bonus. Because the terms of our letter agreement with Mr. Dunn became effective on September 29, 2012, for purposes of this table it has been assumed that if Mr. Dunn became disabled on September 27, 2014, the provisions of our letter agreement would govern. For more information on Mr. Dunn’s letter agreement, refer to the subheading “Letter Agreement of Mr. Dunn” in the “Compensation Discussion and Analysis.”

- (3) Any severance benefits, unrelated to a change of control event, payable to these officers would be determined by the Committee on a case-by-case basis in accordance with prior treatment of other similarly situated executives and may, as a result, differ from this hypothetical presentation. For purposes of this table, we have assumed that each of these named executive officers would, upon termination of employment without cause or for resignation for good reason, receive accrued salary and benefits through the date of termination plus one times annual salary and continued participation, at active employee rates, in our health insurance plans for one year. The terms of our letter agreement with Mr. Dunn became effective on September 29, 2012; therefore, Mr. Dunn's severance benefits for a termination of employment without cause or resignation for good reason have been calculated in accordance with this agreement. For more information on Mr. Dunn's letter agreement, refer to the subheading "Letter Agreement of Mr. Dunn" in the "Compensation Discussion and Analysis."
- (4) In the event of a change of control followed by a termination without cause or by a resignation with good reason, each of the named executive officers will receive 78 weeks of base pay plus a sum equal to their annual target cash bonus divided by 52 and multiplied by 78 in accordance with the terms of the Severance Protection Plan. For more information on the Severance Protection Plan, refer to the subheading "Change of Control" in the "Compensation Discussion and Analysis."
- (5) In the event of a change of control, all awards under the LTIP will vest immediately regardless of whether termination immediately follows. If a change of control event occurs, the pre-fiscal 2014 award payments will be equal to 125% of the cash value of a participant's unvested LTIP units plus a sum equal to 125% of a participant's unvested LTIP units multiplied by an amount equal to the cumulative, per-Common Unit distribution from the beginning of an unvested award's three-year measurement period through the date on which the change of control occurred. The post-fiscal 2013 award payments will be equal to 150% of the cash value of a participant's unvested LTIP units plus a sum equal to 150% of a participant's unvested LTIP units multiplied by an amount equal to the cumulative, per-Common Unit distribution from the beginning of an unvested award's three-year measurement period through the date on which the change of control occurred. If a change of control event occurred on September 27, 2014, the fiscal 2014, fiscal 2013, and fiscal 2012 awards would have been subject to this treatment. For more information, refer to the subheading "Long-Term Incentive Plan" in the "Compensation Discussion and Analysis."

In the event of death, the inability to continue employment due to permanent disability, or a termination without cause or a good reason resignation unconnected to a change of control event, awards will vest in accordance with the normal vesting schedule and will be subject to the same requirements as awards held by individuals still employed by us and will be subject to the same risks as awards held by all other participants.

- (6) Effective November 13, 2012, the Committee amended the RUP document to provide for the vesting of unvested awards held by a participant at the time of his or her death. If a recipient of a RUP award becomes permanently disabled, only those awards that have been held for at least one year on the date that the employee's employment is terminated as a result of his or her permanent disability will immediately vest; all awards held by the recipient for less than one year will be forfeited by the recipient. If any or all of the five named executive officers had become permanently disabled on September 28, 2013, the following quantities of unvested restricted units would have vested: Dunn, 25,009; Stivala, 21,440; Kuglin, 14,694; Wienberg, 21,440; Boyd, 21,440; and Brinkworth, 21,440. The following quantities would have been forfeited: Stivala, 29,187; Kuglin, 16,185; Wienberg, 17,245; Boyd, 17,245; and Brinkworth, 17,245. Because all of Mr. Dunn's unvested awards are subject to the plan's retirement provisions, if Mr. Dunn became permanently disabled on the last day of the fiscal year, none of his unvested awards would have been forfeited.

All of Mr. Dunn's unvested awards are subject to the plan's retirement provisions.

Under circumstances unrelated to a change of control, if a RUP award recipient's employment is terminated without cause or he or she resigns for good reason, any RUP awards held by such recipient will be forfeited.

In the event of a change of control, as defined in the RUP document, all unvested RUP awards will vest immediately on the date the change of control is consummated, regardless of the holding period and regardless of whether the recipient's employment is terminated.

SUPERVISORS' COMPENSATION

The following table sets forth the compensation of the non-employee members of the Board of Supervisors of the Partnership during fiscal 2014.

Supervisor	Fees Earned or Paid in Cash (\$) ⁽¹⁾	Unit Awards (\$) ⁽²⁾	Total (\$)
Harold R. Logan, Jr.	\$115,000	N/A	\$115,000
Lawrence C. Caldwell	\$ 85,000	N/A	\$ 85,000
Matthew J. Chanin	\$ 85,000	N/A	\$ 85,000
John D. Collins	\$ 85,000	N/A	\$ 85,000
Dudley C. Mecum	\$ 85,000	N/A	\$ 85,000
John Hoyt Stookey	\$ 85,000	N/A	\$ 85,000
Jane Swift	\$ 85,000	N/A	\$ 85,000

- (1) This includes amounts earned for fiscal 2014, including quarterly retainer installments for the fourth quarter of 2014 that were paid in November 2014. It does not include amounts paid in fiscal 2014 for fiscal 2013 quarterly retainer installments.
- (2) During fiscal 2014, the Compensation Committee did not make any additional grants of unvested restricted units to the members of our Board of Supervisors. As of September 27, 2014, Messrs. Logan, Collins, Mecum, Stookey, and Ms. Swift each held awards of 7,800 unvested restricted units and Messrs. Caldwell and Chanin each held awards of 6,023 unvested restricted units.

Note: The columns for reporting option awards, non-equity incentive plan compensation, changes in pension value and non-qualified deferred compensation plan earnings and all other forms of compensation were omitted from the Supervisor's Compensation Table because the Partnership does not provide these forms of compensation to its non-employee supervisors.

Fees and Benefit Plans for Non-Employee Supervisors

Annual Cash Retainer Fees. As the Chairman of the Board of Supervisors, Mr. Logan received an annual retainer of \$115,000 in fiscal 2014, payable in quarterly installments of \$28,750 each. Each of the other non-employee Supervisors received an annual cash retainer of \$85,000 in fiscal 2014, payable in quarterly installments of \$21,250 each.

Meeting Fees. The members of our Board of Supervisors receive no additional remuneration for attendance at regularly scheduled meetings of the Board or its Committees, other than reimbursement of reasonable expenses incurred in connection with such attendance.

Restricted Unit Plans. Each non-employee Supervisor participates in the Restricted Unit Plans. All awards vest in accordance with the provisions of the plan document (see "Compensation Discussion and Analysis" section titled "Restricted Unit Plans" for a description of the vesting schedule). Upon vesting, all awards are settled by issuing Common Units. As of September 27, 2014 Messrs. Logan, Collins, Mecum, Stookey, and Ms. Swift each held awards of 7,800 unvested restricted units and Messrs. Caldwell and Chanin each held awards of 6,023 unvested restricted units. At its November 11, 2014 meeting, the Compensation Committee established a policy of granting a retiring Supervisor an award of 1,000 restricted units, in recognition of his or her services to the Partnership. Pursuant to this policy, the Compensation Committee granted Mr. Mecum, who has informed the Board that he does not intend to run for re-election at the next Tri-Annual Meeting of the Partnership's Unitholders (currently scheduled for Spring 2015), an award of 1,000 unvested restricted units.

Additional Supervisor Compensation. Non-employee Supervisors receive no other forms of remuneration from us. The only perquisite provided to the members of the Board of Supervisors is the ability to purchase propane at the same discounted rate that we offer propane to our employees, the value of which was less than \$10,000 in fiscal 2014 for each Supervisor.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED UNITHOLDER MATTERS

The following table sets forth certain information as of November 24, 2014 regarding the beneficial ownership of Common Units by (a) each person or group known to the Partnership, based upon its review of filings under Section 13(d) or (g) under the Securities Act, to own more than 5% of the outstanding Common Units; (b) each member of the Board of Supervisors; (c) each executive officer named in the Summary Compensation Table in Item 11 of this Annual Report; and (d) all members of the Board of Supervisors and executive officers as a group. Except as set forth in the notes to the table, each individual or entity has sole voting and investment power over the Common Units reported.

<u>Name of Beneficial Owner</u>	<u>Amount and Nature of Beneficial Ownership (1)</u>	<u>Percent of Class (2)</u>
Neuberger Berman Group LLC (a)	7,080,982	11.7%
Michael J. Dunn, Jr. (b)	113,888	*
Michael A. Stivala (c)	22,319	*
Michael A. Kuglin (d)	5,084	*
Mark Wienberg (e)	8,275	*
Steven C. Boyd (f)	26,001	*
Douglas T. Brinkworth (g)	24,093	*
John Hoyt Stookey (h)	9,366	*
Harold R. Logan, Jr.(h)	10,240	*
Jane Swift (h)	-0-	*
John D. Collins (h)	17,246	*
Dudley C. Mecum (i)	18,934	*
Lawrence C. Caldwell (j)	15,963	*
Matthew J. Chanin (k)	5,000	*
All Members of the Board of Supervisors and Executive Officers, as a Group (19 persons) (l)	343,032	*

(1) With the exception of the 7,080,982 units held by Neuberger Berman Group LLC (of which the Partnership has no knowledge, see note (a) below), the 784 units held by the General Partner (see note (c) below) and the 10,092 units held by charitable organizations over which Mr. Caldwell has shared investment and voting power (see note (i) below), there is a possibility that any of the above listed units could be pledged as security.

(2) Based upon 60,457,780 Common Units outstanding on November 24, 2014.

* Less than 1%.

(a) Based upon a Schedule 13G/A dated February 12, 2014 filed by Neuberger Berman Group LLC and Neuberger Berman LLC, which indicates that as of December 31, 2013 they had the shared power to vote or direct the vote of 6,774,935 Common Units and the shared power to dispose or direct the disposition of 7,080,982 Common Units. The Schedule 13G indicates that Neuberger Berman Group LLC may be deemed to be a beneficial owner of these Common Units for purposes of Rule 13d-3 because certain affiliates have shared power to retain or dispose of Common Units belonging to many unrelated clients. We make no representation as to the accuracy or completeness of the information reported. The address of Neuberger Berman Group LLC is 605 Third Avenue, New York NY 10158.

- (b) Excludes 25,009 unvested restricted units, none of which will vest in the 60-day period following November 24, 2014.
- (c) Includes 784 Common Units held by the General Partner, of which Mr. Stivala is the sole member. Excludes 43,352 unvested restricted units, none of which will vest in the 60-day period following November 24, 2014.
- (d) Excludes 25,795 unvested restricted units, none of which will vest in the 60-day period following November 24, 2014.
- (e) Excludes 31,410 unvested restricted units, none of which will vest in the 60-day period following November 24, 2014.
- (f) Excludes 31,410 unvested restricted units, none of which will vest in the 60-day period following November 24, 2014.
- (g) Excludes 31,410 unvested restricted units, none of which will vest in the 60-day period following November 24, 2014.
- (h) Excludes 7,800 unvested restricted units, none of which will vest in the 60-day period following November 24, 2014.
- (i) Excludes 8,800 unvested restricted units, none of which will vest in the 60-day period following November 24, 2014.
- (j) Includes 10,092 Common Units held by charitable organizations over which Mr. Caldwell has shared investment and voting power. Excludes 6,023 unvested restricted units, none of which will vest in the 60-day period following November 24, 2014.

- (l) Inclusive of the unvested restricted units referred to in footnotes (b), (c), (d), (e), (f), (g), (h), (i), (j) and (k) above, the reported number of units excludes 361,882 unvested restricted units, none of which will vest in the 60-day period following November 24, 2014.

Securities Authorized for Issuance Under the Restricted Unit Plans

The following table sets forth certain information, as of September 27, 2014, with respect to the Partnership's Restricted Unit Plans, under which restricted units of the Partnership, as described in the Notes to the Consolidated Financial Statements included in this Annual Report, are authorized for issuance.

Plan Category	Number of Common Units to be issued upon vesting of restricted units (a)	Weighted-average grant date fair value per restricted unit (b)	Number of restricted units remaining available for future issuance under the Restricted Unit Plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders (1)	694,927 (2)	\$32.07	417,758
Equity compensation plans not approved by security holders	--	--	--
Total	<u>694,927</u>	<u>\$32.07</u>	<u>417,758</u>

(1) Relates to the Restricted Unit Plans.

(2) Represents number of restricted units that, as of September 27, 2014, had been granted under the Restricted Unit Plans but had not yet vested.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Related Person Transactions

None.

Supervisor Independence

The Corporate Governance Guidelines and Principles adopted by the Board of Supervisors provide that a Supervisor is deemed to be lacking a material relationship to the Partnership and is therefore independent of management if the following criteria are satisfied:

1. Within the past three years, the Supervisor:
 - a. has not been employed by the Partnership and has not received more than \$100,000 per year in direct compensation from the Partnership, other than Supervisor and committee fees and pension or other forms of deferred compensation for prior service;
 - b. has not provided significant advisory or consultancy services to the Partnership, and has not been affiliated with a company or a firm that has provided such services to the Partnership in return for aggregate payments during any of the last three fiscal years of the Partnership in excess of the greater of 2% of the other company's consolidated gross revenues or \$1 million;
 - c. has not been a significant customer or supplier of the Partnership and has not been affiliated with a company or firm that has been a customer or supplier of the Partnership and has either made to the Partnership or received from the Partnership payments during any of the last three fiscal years of the Partnership in excess of the greater of 2% of the other company's consolidated gross revenues or \$1 million;
 - d. has not been employed by or affiliated with an internal or external auditor that within the past three years provided services to the Partnership; and
 - e. has not been employed by another company where any of the Partnership's current executives serve on that company's compensation committee;
2. The Supervisor is not a spouse, parent, sibling, child, mother- or father-in-law, son- or daughter-in-law or brother- or sister-in-law of a person having a relationship described in 1. above nor shares a residence with such person;
3. The Supervisor is not affiliated with a tax-exempt entity that within the past 12 months received significant contributions from the Partnership (contributions of the greater of 2% of the entity's consolidated gross revenues or \$1 million are considered significant); and
4. The Supervisor does not have any other relationships with the Partnership or with members of senior management of the Partnership that the Board determines to be material.

A copy of our Corporate Governance Guidelines is available without charge from our website at www.suburbanpropane.com or upon written request directed to: Suburban Propane Partners, L.P., Investor Relations, P.O. Box 206, Whippany, New Jersey 07981-0206.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The following table sets forth the aggregate fees for services related to fiscal years 2014 and 2013 provided by PricewaterhouseCoopers LLP, our independent registered public accounting firm.

	Fiscal 2014	Fiscal 2013
Audit Fees (a)	\$ 2,440,000	\$ 2,378,400
Tax Fees (b)	1,064,200	1,399,000
All Other Fees (c)	<u>1,800</u>	<u>1,800</u>
	<u>\$ 3,506,000</u>	<u>\$ 3,779,200</u>

- (a) Audit Fees consist of professional services rendered for the integrated audit of our annual consolidated financial statements and our internal control over financial reporting, including reviews of our quarterly financial statements, as well as the issuance of consents in connection with other filings made with the SEC.
- (b) Tax Fees consist of fees for professional services related to tax reporting, tax compliance and transaction services assistance.
- (c) All Other Fees represent fees for the purchase of a license to an accounting research software tool.

The Audit Committee of the Board of Supervisors has adopted a formal policy concerning the approval of audit and non-audit services to be provided by the independent registered public accounting firm, PricewaterhouseCoopers LLP. The policy requires that all services PricewaterhouseCoopers LLP may provide to us, including audit services and permitted audit-related and non-audit services, be pre-approved by the Audit Committee. The Audit Committee pre-approved all audit and non-audit services provided by PricewaterhouseCoopers LLP during fiscal 2014 and fiscal 2013.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

Report of Independent Registered Public Accounting Firm

To the Board of Supervisors and Unitholders of
Suburban Propane Partners, L.P.:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, partners' capital, comprehensive income and cash flows present fairly, in all material respects, the financial position of Suburban Propane Partners, L.P and its subsidiaries at September 27, 2014 and September 28, 2013, and the results of their operations and their cash flows for each of the three fiscal years in the period ended September 27, 2014 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the accompanying index appearing under Item 15(a)(2) presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Partnership maintained, in all material respects, effective internal control over financial reporting as of September 27, 2014, based on criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Partnership's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing in Item 9A. Our responsibility is to express opinions on these financial statements and on the Partnership's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

SUBURBAN PROPANE PARTNERS, L.P. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(dollars in thousands, except unit and per unit amounts)

1. Partnership Organization and Formation

Suburban Propane Partners, L.P. (the “Partnership”) is a publicly traded Delaware limited partnership principally engaged, through its operating partnership and subsidiaries, in the retail marketing and distribution of propane, fuel oil and refined fuels, as well as the marketing of natural gas and electricity in deregulated markets. In addition, to complement its core marketing and distribution businesses, the Partnership services a wide variety of home comfort equipment, particularly for heating and ventilation. The publicly traded limited partner interests in the Partnership are evidenced by common units traded on the New York Stock Exchange (“Common Units”), with 60,316,746 Common Units outstanding at September 27, 2014. The holders of Common Units are entitled to participate in distributions and exercise the rights and privileges available to limited partners under the Third Amended and Restated Agreement of Limited Partnership (the “Partnership Agreement”), as amended. Rights and privileges under the Partnership Agreement include, among other things, the election of all members of the Board of Supervisors and voting on the removal of the general partner.

Suburban Propane, L.P. (the “Operating Partnership”), a Delaware limited partnership, is the Partnership’s operating subsidiary formed to operate the propane business and assets. In addition, Suburban Sales & Service, Inc. (the “Service Company”), a subsidiary of the Operating Partnership, was formed to operate the service work and appliance and parts businesses of the Partnership. The Operating Partnership, together with its direct and indirect subsidiaries, accounts for substantially all of the Partnership’s assets, revenues and earnings. The Partnership, the Operating Partnership and the Service Company commenced operations in March 1996 in connection with the Partnership’s initial public offering.

The general partner of both the Partnership and the Operating Partnership is Suburban Energy Services Group LLC (the “General Partner”), a Delaware limited liability company, the sole member of which is the Partnership’s Chief Executive Officer. Other than as a holder of 784 Common Units that will remain in the General Partner, the General Partner does not have any economic interest in the Partnership or the Operating Partnership.

The Partnership’s fuel oil and refined fuels, natural gas and electricity and services businesses are structured as either limited liability companies that are treated as corporations or corporate entities (collectively referred to as the “Corporate Entities”) and, as such, are subject to corporate level U.S. income tax.

Suburban Energy Finance Corp., a direct 100%-owned subsidiary of the Partnership, was formed on November 26, 2003 to serve as co-issuer, jointly and severally with the Partnership, of the Partnership’s senior notes.

On August 1, 2012 (the “Acquisition Date”), the Partnership completed the acquisition of the sole membership interest in Inergy Propane, LLC, including certain wholly-owned subsidiaries of Inergy Propane LLC, and the assets of Inergy Sales and Service, Inc. The acquired interests and assets are collectively referred to as “Inergy Propane.” As of the Acquisition Date, Inergy Propane consisted of the former retail propane assets and operations of Inergy, L.P. (“Inergy”). On the Acquisition Date, Inergy Propane and its remaining wholly-owned subsidiaries acquired became subsidiaries of the Operating Partnership, but were merged into the Operating Partnership on April 30, 2013. The results of operations of Inergy Propane are included in the Partnership’s results of operations beginning on the Acquisition Date.

The Partnership serves approximately 1.2 million residential, commercial, industrial and agricultural customers from approximately 710 locations in 41 states. The Partnership’s operations are principally concentrated in the east and west coast regions, including Alaska. No single customer accounted for 10% or more of the Partnership’s revenues during fiscal 2014, 2013 or 2012.

2. Summary of Significant Accounting Policies

Principles of Consolidation. The consolidated financial statements include the accounts of the Partnership, the Operating Partnership and all of its direct and indirect subsidiaries. All intercompany transactions and account balances have been eliminated. The Partnership consolidates the results of operations, financial condition and cash flows of the Operating Partnership as a result of the Partnership's 100% limited partner interest in the Operating Partnership.

Fiscal Period. The Partnership uses a 52/53 week fiscal year which ends on the last Saturday in September. The Partnership's fiscal quarters are generally 13 weeks in duration. When the Partnership's fiscal year is 53 weeks long, the corresponding fourth quarter is 14 weeks in duration. Fiscal 2014 and fiscal 2013 included 52 weeks of operations and fiscal 2012 included 53 weeks of operations.

Revenue Recognition. Sales of propane, fuel oil and refined fuels are recognized at the time product is delivered to the customer. Revenue from the sale of appliances and equipment is recognized at the time of sale or when installation is complete, as applicable. Revenue from repairs, maintenance and other service activities is recognized upon completion of the service. Revenue from service contracts is recognized ratably over the service period. Revenue from the natural gas and electricity business is recognized based on customer usage as determined by meter readings for amounts delivered, some of which may be unbilled at the end of each accounting period. Revenue from annually billed tank fees is deferred at the time of billings and recognized on a straight-line basis over one year.

Fair Value Measurements. The Partnership measures certain of its assets and liabilities at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants – in either the principal market or the most advantageous market. The principal market is the market with the greatest level of activity and volume for the asset or liability.

The common framework for measuring fair value utilizes a three-level hierarchy to prioritize the inputs used in the valuation techniques to derive fair values. The basis for fair value measurements for each level within the hierarchy is described below with Level 1 having the highest priority and Level 3 having the lowest.

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Quoted prices in active markets for similar assets or liabilities; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable in active markets.
- Level 3: Valuations derived from valuation techniques in which one or more significant inputs are unobservable.

Business Combinations. The Partnership accounts for business combinations using the acquisition method and accordingly, the assets and liabilities of the acquired entities are recorded at their estimated fair values at the acquisition date. Goodwill represents the excess of the purchase price over the fair value of the net assets acquired, including the amount assigned to identifiable intangible assets. The primary drivers that generate goodwill are the value of synergies between the acquired entities and the Partnership, and the acquired assembled workforce, neither of which qualifies as an identifiable intangible asset. Identifiable intangible assets with finite lives are amortized over their useful lives. The results of operations of acquired businesses are included in the consolidated financial statements from the acquisition date. The Partnership expenses all acquisition-related costs as incurred.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates have been made by management in the areas of self-insurance and litigation reserves, pension and other postretirement benefit liabilities and costs, valuation of derivative instruments, depreciation and amortization of long-lived assets, asset impairment assessments, tax valuation allowances, allowances for doubtful accounts, and purchase price allocation for acquired businesses. Actual results could differ from those estimates, making it reasonably possible that a material change in these estimates could occur in the near term.

Cash and Cash Equivalents. The Partnership considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. The carrying amount approximates fair value because of the short maturity of these instruments.

Inventories. Inventories are stated at the lower of cost or market. Cost is determined using a weighted average method for propane, fuel oil and refined fuels and natural gas, and a standard cost basis for appliances, which approximates average cost.

Derivative Instruments and Hedging Activities.

Commodity Price Risk. Given the retail nature of its operations, the Partnership maintains a certain level of priced physical inventory to help ensure its field operations have adequate supply commensurate with the time of year. The Partnership's strategy is to keep its physical inventory priced relatively close to market for its field operations. The Partnership enters into a combination of exchange-traded futures and option contracts and, in certain instances, over-the-counter options and swap contracts (collectively, "derivative instruments") to hedge price risk associated with propane and fuel oil physical inventories, as well as future purchases of propane or fuel oil used in its operations and to help ensure adequate supply during periods of high demand. In addition, the Partnership sells propane and fuel oil to customers at fixed prices, and enters into derivative instruments to hedge a portion of its exposure to fluctuations in commodity prices as a result of selling the fixed price contracts. Under this risk management strategy, realized gains or losses on derivative instruments will typically offset losses or gains on the physical inventory once the product is sold or delivered as it pertains to fixed price contracts. All of the Partnership's derivative instruments are reported on the consolidated balance sheet at their fair values. In addition, in the course of normal operations, the Partnership routinely enters into contracts such as forward priced physical contracts for the purchase or sale of propane and fuel oil that qualify for and are designated as normal purchase or normal sale contracts. Such contracts are exempted from the fair value accounting requirements and are accounted for at the time product is purchased or sold under the related contract. The Partnership does not use derivative instruments for speculative trading purposes. Market risks associated with derivative instruments are monitored daily for compliance with the Partnership's Hedging and Risk Management Policy which includes volume limits for open positions. Priced on-hand inventory is also reviewed and managed daily as to exposures to changing market prices.

On the date that derivative instruments are entered into, other than those designated as normal purchases or normal sales, the Partnership makes a determination as to whether the derivative instrument qualifies for designation as a hedge. Changes in the fair value of derivative instruments are recorded each period in current period earnings or other comprehensive income ("OCI"), depending on whether the derivative instrument is designated as a hedge and, if so, the type of hedge. For derivative instruments designated as cash flow hedges, the Partnership formally assesses, both at the hedge contract's inception and on an ongoing basis, whether the hedge contract is highly effective in offsetting changes in cash flows of hedged items. Changes in the fair value of derivative instruments designated as cash flow hedges are reported in OCI to the extent effective and reclassified into earnings during the same period in which the hedged item affects earnings. The mark-to-market gains or losses on ineffective portions of cash flow hedges are recognized in earnings immediately. Changes in the fair value of derivative instruments that are not designated as cash flow hedges, and that do not meet the normal purchase and normal sale exemption, are recorded within earnings as they occur. Cash flows associated with derivative instruments are reported as operating activities within the consolidated statement of cash flows.

Interest Rate Risk. A portion of the Partnership's borrowings bear interest at prevailing interest rates based upon, at the Operating Partnership's option, LIBOR plus an applicable margin or the base rate, defined as the higher of the Federal Funds Rate plus ½ of 1% or the agent bank's prime rate, or LIBOR plus 1%, plus the applicable margin. The applicable margin is dependent on the level of the Partnership's total leverage (the ratio of total debt to income before deducting interest expense, income taxes, depreciation and amortization ("EBITDA")). Therefore, the Partnership is subject to interest rate risk on the variable component of the interest rate. The Partnership manages part of its variable interest rate risk by entering into interest rate swap agreements. The interest rate swaps have been designated as, and are accounted for as, cash flow hedges. The fair value of the interest rate swaps are determined using an income approach, whereby future settlements under the swaps are converted into a single present value, with fair value being based on the value of current market expectations about those future amounts. Changes in the fair value are recognized in OCI until the hedged item is recognized in earnings. However, due to changes in the underlying

interest rate environment, the corresponding value in OCI is subject to change prior to its impact on earnings.

Valuation of Derivative Instruments. The Partnership measures the fair value of its exchange-traded options and futures contracts using quoted market prices found on the New York Mercantile Exchange (the “NYMEX”) (Level 1 inputs); the fair value of its swap contracts using quoted forward prices, and the fair value of its interest rate swaps using model-derived valuations driven by observable projected movements of the 3-month LIBOR (Level 2 inputs); and the fair value of its over-the-counter options contracts using Level 3 inputs. The Partnership’s over-the-counter options contracts are valued based on an internal option model. The inputs utilized in the model are based on publicly available information as well as broker quotes. The significant unobservable inputs used in the fair value measurements of the Partnership’s over-the-counter options contracts are interest rate and market volatility.

Long-Lived Assets.

Property, plant and equipment. Property, plant and equipment are stated at cost. Expenditures for maintenance and routine repairs are expensed as incurred while betterments are capitalized as additions to the related assets and depreciated over the asset’s remaining useful life. The Partnership capitalizes costs incurred in the acquisition and modification of computer software used internally, including consulting fees and costs of employees dedicated solely to a specific project. At the time assets are retired, or otherwise disposed of, the asset and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized within operating expenses. Depreciation is determined under the straight-line method based upon the estimated useful life of the asset as follows:

Buildings	40 Years
Building and land improvements	20 Years
Transportation equipment	3-20 Years
Storage facilities	7-40 Years
Office equipment	5-10 Years
Tanks and cylinders	10-40 Years
Computer software	3-7 Years

The weighted average estimated useful life of the Partnership’s storage facilities and tanks and cylinders is approximately 21 years and 28 years, respectively.

The Partnership reviews the recoverability of long-lived assets when circumstances occur that indicate that the carrying value of an asset may not be recoverable. Such circumstances include a significant adverse change in the manner in which an asset is being used, current operating losses combined with a history of operating losses experienced by the asset or a current expectation that an asset will be sold or otherwise disposed of before the end of its previously estimated useful life. Evaluation of possible impairment is based on the Partnership’s ability to recover the value of the asset from the future undiscounted cash flows expected to result from the use and eventual disposition of the asset. If the expected undiscounted cash flows are less than the carrying amount of such asset, an impairment loss is recorded as the amount by which the carrying amount of an asset exceeds its fair value. The fair value of an asset will be measured using the best information available, including prices for similar assets or the result of using a discounted cash flow valuation technique.

Goodwill. Goodwill represents the excess of the purchase price over the fair value of net assets acquired. Goodwill is subject to an impairment review at a reporting unit level, on an annual basis as of the end of fiscal July of each year, or when an event occurs or circumstances change that would indicate potential impairment.

The Partnership has the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, an entity determines it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. However, if an entity concludes otherwise, then it is required to perform the first step of the two-step impairment test.

Under the two-step impairment test, the Partnership assesses the carrying value of goodwill at a reporting unit level based on an estimate of the fair value of the respective reporting unit. Fair value of the reporting unit is estimated using discounted cash flow analyses taking into consideration estimated cash flows in a ten-year projection period and a terminal value calculation at the end of the projection period. If the fair value of the reporting unit exceeds its carrying value, the goodwill associated with the reporting unit is not considered to be impaired. If the carrying value of the reporting unit exceeds its fair value, an impairment loss is recognized to the extent that the carrying amount of the associated goodwill, if any, exceeds the implied fair value of the goodwill.

Other Intangible Assets. Other intangible assets consist of customer relationships, tradenames, non-compete agreements and leasehold interests. Customer relationships and tradenames are amortized under the straight-line method over the estimated period for which the assets are expected to contribute to the future cash flows of the reporting entities to which they relate, ending periodically between fiscal years 2016 and 2021. Non-compete agreements are amortized under the straight-line method over the periods of the related agreements. Leasehold interests are amortized under the straight-line method over the shorter of the lease term or the useful life of the related assets, through fiscal 2025.

Accrued Insurance. Accrued insurance represents the estimated costs of known and anticipated or unasserted claims for self-insured liabilities related to general and product, workers' compensation and automobile liability. Accrued insurance provisions for unasserted claims arising from unreported incidents are based on an analysis of historical claims data. For each claim, the Partnership records a provision up to the estimated amount of the probable claim utilizing actuarially determined loss development factors applied to actual claims data. The Partnership maintains insurance coverage such that its net exposure for insured claims is limited to the insurance deductible, claims above which are paid by the Partnership's insurance carriers. For the portion of the estimated liability that exceeds insurance deductibles, the Partnership records an asset related to the amount of the liability expected to be covered by insurance.

Customer Deposits and Advances. The Partnership offers different payment programs to its customers including the ability to prepay for usage and to make equal monthly payments on account under a budget payment plan. The Partnership establishes a liability within customer deposits and advances for amounts collected in advance of deliveries.

Income Taxes. As discussed in Note 1, the Partnership structure consists of two limited partnerships, the Partnership and the Operating Partnership, and the Corporate Entities. For federal income tax purposes, as well as for state income tax purposes in the majority of the states in which the Partnership operates, the earnings attributable to the Partnership and the Operating Partnership are included in the tax returns of the Common Unitholders. As a result, except for certain states that impose an income tax on partnerships, no income tax expense is reflected in the Partnership's consolidated financial statements relating to the earnings of the Partnership and the Operating Partnership. The earnings attributable to the Corporate Entities are subject to federal and state income tax. Net earnings for financial statement purposes may differ significantly from taxable income reportable to Common Unitholders as a result of differences between the tax basis and financial reporting basis of assets and liabilities and the taxable income allocation requirements under the Partnership Agreement.

Income taxes for the Corporate Entities are provided based on the asset and liability approach to accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the expected future tax consequences of differences between the carrying amounts and the tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period when the change is enacted. A valuation allowance is recorded to reduce the carrying amounts of deferred tax assets when it is more likely than not that the full amount will not be realized.

Loss Contingencies. In the normal course of business, the Partnership is involved in various claims and legal proceedings. The Partnership records a liability for such matters when it is probable that a loss has been incurred and the amounts can be reasonably estimated. The liability includes probable and estimable legal costs to the point in the legal matter where the Partnership believes a conclusion to the matter will be reached. When only a range of possible loss can be established, the most probable amount in the range is accrued. If no amount within this range is a better estimate than any other amount within the range, the minimum amount in the range is accrued.

Asset Retirement Obligations. Asset retirement obligations apply to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and/or the normal operation of a long-lived asset. The Partnership has recognized asset retirement obligations for certain costs to remove and properly dispose of underground and aboveground fuel oil storage tanks and contractually mandated removal of leasehold improvements.

The Partnership records a liability at fair value for the estimated cost to settle an asset retirement obligation at the time that liability is incurred, which is generally when the asset is purchased, constructed or leased. The Partnership records the liability, which is referred to as the asset retirement obligation, when it has a legal obligation to incur costs to retire the asset and when a reasonable estimate of the fair value of the liability can be made. If a reasonable estimate cannot be made at the time the liability is incurred, the Partnership records the liability when sufficient information is available to estimate the liability's fair value.

Unit-Based Compensation. The Partnership recognizes compensation cost over the respective service period for employee services received in exchange for an award of equity or equity-based compensation based on the grant date fair value of the award. The Partnership measures liability awards under an equity-based payment arrangement based on remeasurement of the award's fair value at the conclusion of each interim and annual reporting period until the date of settlement, taking into consideration the probability that the performance conditions will be satisfied.

Costs and Expenses. The cost of products sold reported in the consolidated statements of operations represents the weighted average unit cost of propane, fuel oil and refined fuels, as well as the cost of natural gas and electricity sold, including transportation costs to deliver product from the Partnership's supply points to storage or to the Partnership's customer service centers. Cost of products sold also includes the cost of appliances, equipment and related parts sold or installed by the Partnership's customer service centers computed on a basis that approximates the average cost of the products. Unrealized (non-cash) gains or losses from changes in the fair value of commodity derivative instruments that are not designated as cash flow hedges are recorded in each reporting period within cost of products sold. Cost of products sold is reported exclusive of any depreciation and amortization as such amounts are reported separately within the consolidated statements of operations.

All other costs of operating the Partnership's retail propane, fuel oil and refined fuels distribution and appliance sales and service operations, as well as the natural gas and electricity marketing business, are reported within operating expenses in the consolidated statements of operations. These operating expenses include the compensation and benefits of field and direct operating support personnel, costs of operating and maintaining the vehicle fleet, overhead and other costs of the purchasing, training and safety departments and other direct and indirect costs of operating the Partnership's customer service centers.

All costs of back office support functions, including compensation and benefits for executives and other support functions, as well as other costs and expenses to maintain finance and accounting, treasury, legal, human resources, corporate development and the information systems functions are reported within general and administrative expenses in the consolidated statements of operations.

Net Income Per Unit. Computations of basic income per Common Unit are performed by dividing net income by the weighted average number of outstanding Common Units, and vested (and unissued) restricted units granted under the Partnership's Restricted Unit Plans, as defined below, to retirement-eligible grantees. Computations of diluted income per Common Unit are performed by dividing net income by the weighted average number of outstanding Common Units and unissued restricted units granted under the Restricted Unit Plans. In computing diluted net income per Common Unit, weighted average units outstanding used to compute basic net income per Common Unit were increased by 269,867, 222,419 and 141,570 units for fiscal 2014, 2013 and 2012, respectively, to reflect the potential dilutive effect of the unvested restricted units outstanding using the treasury stock method.

Comprehensive Income. The Partnership reports comprehensive income (the total of net income and all other non-owner changes in partners' capital) within the consolidated statement of comprehensive income. Other comprehensive income includes unrealized gains and losses on derivative instruments accounted for as cash flow hedges and reclassifications of realized losses on cash flow hedges into earnings, amortization of net actuarial losses and prior service credits into earnings and changes in the funded status of pension and other postretirement benefit

plans.

Recently Issued Accounting Pronouncements. In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09 “Revenue from Contracts with Customers” (“ASU 2014-09”). This update provides a principles-based approach to revenue recognition, requiring revenue recognition to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU provides a five-step model to be applied to all contracts with customers. The five steps are to identify the contract(s) with the customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when each performance obligation is satisfied. The revenue standard is effective for the first interim period within annual reporting periods beginning after December 15, 2016, which will be the Partnership’s first quarter of fiscal year 2018. ASU 2014-09 can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the update recognized at the date of the initial application along with additional disclosures. The Partnership is evaluating the impacts, if any, the adoption of ASU 2014-09 will have on the Partnership’s results of operations, financial position or cash flows.

Recently Adopted Accounting Pronouncements. In December 2011, the FASB issued an ASU regarding disclosures about offsetting assets and liabilities (“ASU 2011-11”). The new guidance requires an entity to disclose information about offsetting and related arrangements to enable users of financial statements to understand the effect of those arrangements on its financial position. The amendment, further clarified with ASU 2013-01, enhances disclosures by requiring improved information about financial instruments and derivative instruments that are either offset in accordance with other US GAAP or subject to an enforceable master netting arrangement or similar agreement, irrespective of whether or not they are offset in the balance sheet. The Partnership adopted ASU 2011-11 and ASU 2013-01 on September 29, 2013 and included further disclosure regarding offsetting assets and liabilities for derivative instruments accounted for under ASC 815. As this guidance affects disclosures only, its adoption had no impact on the Partnership’s financial position, results of operations or cash flows.

In February 2013, the FASB issued an ASU to establish the effective date for the requirement to present components of reclassifications out of accumulated other comprehensive income either parenthetically on the face of the financial statements or in the notes to the financial statements (“ASU 2013-02”). The Partnership adopted ASU 2013-02 on September 29, 2013 and its adoption did not change the items that must be reported in other comprehensive income, nor did it have an impact on the Partnership’s financial position, results of operations or cash flows.

3. Acquisition of Inergy Propane

As described in Note 1, the Partnership completed the acquisition of Inergy Propane on August 1, 2012. The acquisition of Inergy Propane (the “Inergy Propane Acquisition”) was consummated pursuant to a definitive agreement dated April 25, 2012 with Inergy, Inergy GP, LLC and Inergy Sales, as amended (the “Contribution Agreement”). Prior to the Acquisition Date, Inergy Propane transferred its interest in certain subsidiaries, as well as all of its rights and interests in the assets and properties of its wholesale propane supply, marketing and distribution business, and its rights and interest in the assets and properties of its west coast natural gas liquids business, to Inergy. These assets were not included as part of the Inergy Propane business at the time of the transfer of the membership interests in Inergy Propane to the Partnership and were not part of the Inergy Propane Acquisition. The results of operations of Inergy Propane are included in the Partnership’s results of operations beginning on the Acquisition Date.

Pursuant to the Contribution Agreement, the Partnership agreed to issue \$600,000 in new Common Units in the aggregate to Inergy and Inergy Sales (the “Equity Consideration”). In accordance with the Contribution Agreement, the number of Common Units issued to Inergy and Inergy Sales in the aggregate was determined by dividing \$600,000 by the average of the high and low sales prices of the Partnership’s Common Units for the twenty consecutive trading days ending on the day prior to the execution of the Contribution Agreement, which was determined to be \$43.1885, resulting in 13,892,587 Common Units.

Also pursuant to the Contribution Agreement, the Partnership and its wholly-owned subsidiary Suburban Energy Finance Corp. commenced an offer to exchange (the “Exchange Offers”) any and all of the outstanding unsecured 7% senior notes due 2018 and 6.875% senior notes due 2021 issued by Inergy and Inergy Finance Corp., which had an

aggregate principal amount outstanding of \$1,200,000 (collectively, the “Inergy Notes”), for a combination of \$1,000,000 in aggregate principal amount of new unsecured 7.5% senior notes due 2018 and 7.375% senior notes due 2021 (collectively, the “SPH Notes”) issued by the Partnership and Suburban Energy Finance Corp. and up to \$200,000 in cash to tendering noteholders (the “Exchange Offer Cash Consideration”). Pursuant to the Contribution Agreement, the Partnership was required to pay Inergy the difference, if any, between \$200,000 and the actual Exchange Offer Cash Consideration paid in accordance with the terms of the Exchange Offers (such payment, the “Inergy Cash Consideration”). The Contribution Agreement provided that the Partnership would offer \$65,000 in aggregate cash consent payments in connection with the Exchange Offers and that Inergy would pay \$36,500 to the Partnership in cash on the Acquisition Date. The Exchange Offers expired and settled on August 1, 2012 (the “Settlement Date”). On the Settlement Date, the Partnership had received tenders and consents from holders representing approximately 98.09% of the total outstanding principal amount of the 2018 Inergy Notes, and tenders and consents from holders representing approximately 99.74% of the total outstanding principal amount of the 2021 Inergy Notes. Based on the results of the Exchange Offers, the Exchange Offer Cash Consideration due to tendering Inergy noteholders was \$184,761. The Inergy Cash Consideration was satisfied by the issuance of 307,835 Common Units to Inergy and therefore, when combined with the Equity Consideration, the Partnership issued 14,200,422 Common Units in the aggregate to Inergy and Inergy Sales on August 1, 2012. Inergy distributed 14,058,418 of such Common Units to its unitholders on September 14, 2012.

On April 25, 2012, the Partnership received consents from the requisite lenders under the Amended Credit Agreement (as defined in Note 8) to enable it to incur additional indebtedness, make amendments to the Amended Credit Agreement to adjust certain covenants, and otherwise perform our obligations as contemplated by the Inergy Propane Acquisition. On August 1, 2012, the Operating Partnership executed an amendment to the Amended Credit Agreement to, among other things, provide for (i) a \$250,000 senior secured 364-day incremental term loan facility (the “364-Day Facility”) and (ii) an increase in our revolving credit facility under the Amended Credit Agreement from \$250,000 to \$400,000. On the Acquisition Date, the Operating Partnership drew \$225,000 on the 364-Day Facility, which, together with cash received from Inergy (pursuant to the Contribution Agreement) and cash on hand, was used to pay: (i) the consent fees and the Exchange Offer Cash Consideration, (ii) costs and fees related to the Exchange Offers, and (iii) costs and expenses related to the Inergy Propane Acquisition. On August 14, 2012 the Partnership repaid its borrowings of \$225,000 under its 364-Day Facility with the proceeds from a public sale of 6,300,000 Common Units that closed on that date.

The fair value of the purchase price for Inergy Propane as determined on the Acquisition Date was \$1,890,915, consisting of: (i) \$1,075,043 of newly issued senior notes (with an aggregate par value of \$1,000,000) and \$184,761 in cash to tendering Inergy noteholders pursuant to the Exchange Offers; (ii) \$65,000 in cash paid to the Inergy noteholders for the consent payments pursuant to the consent solicitations; (iii) \$590,027 of new Suburban Common Units (consisting of 14,200,422 Common Units), which were issued to Inergy and Inergy Sales, all but \$5,942 (consisting of 142,004 Common Units) of which were subsequently distributed by Inergy to its unitholders; reduced by (iv) \$23,916 of cash received from Inergy pursuant to the Contribution Agreement (the cash consideration from Inergy includes the \$36,500 discussed above and is net of amounts owed to Inergy by the Partnership at the Acquisition Date). The fair value of the newly issued senior notes was determined using Level 2 inputs and the fair value of the equity issued to Inergy and Inergy Sales was determined using Level 1 inputs.

During the third quarter of fiscal 2013, the Partnership finalized the third party valuations of the Acquisition Date fair value of certain assets acquired in the Inergy Propane Acquisition, principally property, plant and equipment, and intangible assets. The consolidated balance sheets since September 29, 2012 reflect the final allocation of the purchase price to the assets acquired and liabilities assumed in this business combination.

The table provides the final purchase price allocation:

Assets acquired:	
Cash and cash equivalents	\$ 7,964
Accounts receivable	36,076
Inventories	30,457
Other current assets	2,067
Current assets acquired	<u>76,564</u>
Property, plant & equipment	617,854
Customer relationships (estimated useful life of 9 years)	445,500
Non-compete agreements (estimated useful life of 6 years)	23,059
Other intangible assets (estimated useful life of 4 years)	1,983
Goodwill	809,778
Other assets	2,151
Total assets acquired	<u>\$ 1,976,889</u>
Liabilities assumed:	
Accounts payable	\$ 16
Accrued employment and benefit costs	2,149
Customer deposits and advances	48,469
Other current liabilities	18,613
Other noncurrent liabilities	16,727
Total liabilities assumed	<u>85,974</u>
Total	<u>\$ 1,890,915</u>

The final purchase price allocation resulted in the following adjustments to the provisional fair value estimates: property, plant and equipment decreased \$33,302, intangible assets (principally customer relationships) increased \$39,583, other current assets decreased \$765 and other noncurrent liabilities increased \$646. The net effect of these adjustments resulted in a \$4,870 decrease to goodwill as of the Acquisition Date. As a result, results of operations for fiscal 2012 have been revised for a \$205 decrease to depreciation expense and a \$1,449 increase to amortization expense.

The following presents unaudited pro forma combined financial information as if the Inergy Propane Acquisition had occurred on September 25, 2011, the first day of the Partnership's 2012 fiscal year, as adjusted for the final purchase price allocation. The unaudited pro forma combined financial information was prepared under the assumption that the net proceeds from the issuance of the 6,300,000 Common Units on August 14, 2012 were used to fund the portion of the Inergy Propane Acquisition that was originally financed through the 364-Day Facility (which was repaid two weeks after the Acquisition Date). As a result, the Common Units were assumed to have been issued on September 30, 2011, and, in turn, the pro forma results for the fiscal year ended September 29, 2012 do not include any interest costs associated with the 364-Day Facility.

	Year Ended September 29, 2012
Revenues	\$ 1,842,698
Net income	\$ 12,824
Income per common unit	
Basic	\$ 0.23
Diluted	\$ 0.23

The unaudited pro forma combined financial information is not necessarily indicative of the results that would have occurred had the Inergy Propane Acquisition occurred on the date indicated nor is it necessarily indicative of future operating results.

4. Distributions of Available Cash

The Partnership makes distributions to its partners no later than 45 days after the end of each fiscal quarter in an aggregate amount equal to its Available Cash for such quarter. Available Cash, as defined in the Partnership Agreement, generally means all cash on hand at the end of the respective fiscal quarter less the amount of cash reserves established by the Board of Supervisors in its reasonable discretion for future cash requirements. These reserves are retained for the proper conduct of the Partnership's business, the payment of debt principal and interest and for distributions during the next four quarters.

The following summarizes the quarterly distributions per Common Unit declared and paid in respect of each of the quarters in the three fiscal years in the period ended September 27, 2014:

	Fiscal 2014	Fiscal 2013	Fiscal 2012
First Quarter	\$ 0.8750	\$ 0.8750	\$ 0.8525
Second Quarter	0.8750	0.8750	0.8525
Third Quarter	0.8750	0.8750	0.8525
Fourth Quarter	0.8750	0.8750	0.8525

5. Selected Balance Sheet Information

Inventories consist of the following:

	As of	
	September 27, 2014	September 28, 2013
Propane, fuel oil and refined fuels and natural gas	\$ 89,470	\$ 75,885
Appliances	1,495	1,738
	\$ 90,965	\$ 77,623

The Partnership enters into contracts for the supply of propane, fuel oil and natural gas. Such contracts generally have a term of one year subject to annual renewal, with purchase quantities specified at the time of order and costs based on market prices at the date of delivery.

Property, plant and equipment consist of the following:

	As of	
	September 27, 2014	September 28, 2013
Land and improvements	\$ 201,353	\$ 207,516
Buildings and improvements	103,751	104,137
Transportation equipment	64,254	71,815
Storage facilities	110,586	113,571
Equipment, primarily tanks and cylinders	823,478	830,282
Computer systems	49,904	49,049
Construction in progress	3,420	4,472
	<u>1,356,746</u>	<u>1,380,842</u>
Less: accumulated depreciation	<u>(529,920)</u>	<u>(492,610)</u>
	<u>\$ 826,826</u>	<u>\$ 888,232</u>

Depreciation expense for fiscal 2014, 2013 and 2012 amounted to \$78,921, \$72,353 and \$35,032, respectively.

6. Goodwill and Other Intangible Assets

The Partnership's fiscal 2014 and fiscal 2013 annual goodwill impairment review resulted in no adjustments to the carrying amount of goodwill.

The carrying values of goodwill assigned to the Partnership's operating segments are as follows:

	<u>Propane</u>	<u>Fuel oil and refined fuels</u>	<u>Natural gas and electricity</u>	<u>Total</u>
Balance as of September 27, 2014 and September 28, 2013				
Goodwill	\$ 1,075,091	\$ 10,900	\$ 7,900	\$ 1,093,891
Accumulated adjustments	-	(6,462)	-	(6,462)
	<u>\$ 1,075,091</u>	<u>\$ 4,438</u>	<u>\$ 7,900</u>	<u>\$ 1,087,429</u>

Other intangible assets consist of the following:

	<u>As of</u>	
	<u>September 27, 2014</u>	<u>September 28, 2013</u>
Customer relationships	\$ 466,959	\$ 466,959
Non-compete agreements	26,815	26,815
Tradenames	3,482	3,482
Other	1,967	1,967
	<u>499,223</u>	<u>499,223</u>
Less: accumulated amortization		
Customer relationships	(122,411)	(71,382)
Non-compete agreements	(13,962)	(8,138)
Tradenames	(2,573)	(2,040)
Other	(984)	(892)
	<u>(139,930)</u>	<u>(82,452)</u>
	<u>\$ 359,293</u>	<u>\$ 416,771</u>

Aggregate amortization expense related to other intangible assets for fiscal 2014, 2013 and 2012 was \$57,478, \$58,031 and \$12,002, respectively. Aggregate amortization expense for each of the five succeeding fiscal years related to other intangible assets held as of September 27, 2014 is as follows: 2015 - \$56,767; 2016 - \$53,971; 2017 - \$52,686; 2018 - \$52,326; and 2019 - \$51,303.

7. Income Taxes

For federal income tax purposes, as well as for state income tax purposes in the majority of the states in which the Partnership operates, the earnings attributable to the Partnership and the Operating Partnership are not subject to income tax at the partnership level. With the exception of those states that impose an entity-level income tax on partnerships, the taxable income or loss attributable to the Partnership and to the Operating Partnership, which may vary substantially from the income (loss) before income taxes reported by the Partnership in the consolidated statement of operations, are includable in the federal and state income tax returns of the Common Unitholders. The aggregate difference in the basis of the Partnership's net assets for financial and tax reporting purposes cannot be readily determined as the Partnership does not have access to each Common Unitholder's basis in the Partnership.

As described in Note 1 and Note 2, the earnings of the Corporate Entities are subject to corporate level federal and state income tax. However, based upon past performance, the Corporate Entities are currently reporting an income tax provision composed primarily of minimum state income taxes. A full valuation allowance has been provided against the deferred tax assets based upon an analysis of all available evidence, both negative and positive at the balance sheet date, which, taken as a whole, indicates that it is more likely than not that sufficient future taxable income will not be available to utilize the assets. Management's periodic reviews include, among other things, the nature and amount of the taxable income and expense items, the expected timing of when assets will be used or liabilities will be required to be reported and the reliability of historical profitability of businesses expected to provide future earnings. Furthermore, management considered tax-planning strategies it could use to increase the likelihood that the deferred tax assets will be realized.

The income tax provision of all the legal entities included in the Partnership's consolidated statement of operations, which is composed primarily of state income taxes in the few states that impose taxes on partnerships and minimum state income taxes on the Corporate Entities, consists of the following:

	Year Ended		
	September 27, 2014	September 28, 2013	September 29, 2012
Current			
Federal	\$ 10	\$ 26	\$ 18
State and local	757	581	119
	<u>767</u>	<u>607</u>	<u>137</u>
Deferred	-	-	-
	<u>\$ 767</u>	<u>\$ 607</u>	<u>\$ 137</u>

The provision for income taxes differs from income taxes computed at the United States federal statutory rate as a result of the following:

	Year Ended		
	September 27, 2014	September 28, 2013	September 29, 2012
Income tax provision at federal statutory tax rate	\$ 33,346	\$ 27,792	\$ 271
Impact of Partnership income not subject to federal income taxes	(38,919)	(35,187)	(4,564)
Permanent differences	86	71	244
Transfer of assets to Corporate Entities	-	-	8,181
Change in valuation allowance	5,458	9,771	(3,567)
State income taxes	(60)	(1,135)	339
Other	856	(705)	(767)
Provision for income taxes - current	<u>\$ 767</u>	<u>\$ 607</u>	<u>\$ 137</u>

The components of net deferred taxes and the related valuation allowance using currently enacted tax rates are as follows:

	As of	
	September 27, 2014	September 28, 2013
Deferred tax assets:		
Net operating loss carryforwards	\$ 51,321	\$ 46,356
Allowance for doubtful accounts	1,371	878
Inventory	433	525
Intangible assets	122	577
Deferred revenue	1,524	2,188
Derivative instruments	71	109
AMT credit carryforward	1,086	1,086
Other accruals	2,060	2,062
Total deferred tax assets	<u>57,988</u>	<u>53,781</u>
Deferred tax liabilities:		
Property, plant and equipment	6,124	7,375
Total deferred tax liabilities	<u>6,124</u>	<u>7,375</u>
Net deferred tax assets	51,864	46,406
Valuation allowance	<u>(51,864)</u>	<u>(46,406)</u>
Net deferred tax assets	<u>\$ -</u>	<u>\$ -</u>

After the Inergy Propane Acquisition, the Partnership contributed all of the Inergy Propane assets and liabilities to the Operating Partnership which, in turn, contributed the fuel oil and refined fuels and service assets and liabilities to the Corporate Entities. At the time of the transfer, the Corporate Entities recognized a deferred tax liability for the difference between the book basis of the assets received and their tax basis. The recognition of that deferred tax liability was offset by the release of a portion of the valuation allowance that previously existed on the net deferred tax assets. Thus, the transfer of these assets had no impact on net income for fiscal 2012.

8. Long-Term Borrowings

Long-term borrowings consist of the following:

	As of	
	September 27, 2014	September 28, 2013
7.5% senior notes, due October 1, 2018, including unamortized premium of \$- and \$28,614, respectively	\$ -	\$ 525,171
7.375% senior notes, due March 15, 2020, net of unamortized discount of \$1,183 and \$1,400, respectively	248,817	248,600
7.375% senior notes, due August 1, 2021, including unamortized premium of \$22,688 and \$25,286, respectively	368,868	371,466
5.5% senior notes, due June 1, 2024	525,000	-
Revolving Credit Facility, due January 5, 2017	100,000	100,000
	<u>\$ 1,242,685</u>	<u>\$ 1,245,237</u>

Senior Notes.

2018 Senior Notes and 2021 Senior Notes

On August 1, 2012, the Partnership and its 100%-owned subsidiary, Suburban Energy Finance Corp., issued \$496,557 in aggregate principal amount of unregistered 7.5% senior notes due October 1, 2018 (the “2018 Senior Notes”) and \$503,443 in aggregate principal amount of unregistered 7.375% senior notes due August 1, 2021 (the “2021 Senior Notes”) in a private placement in connection with the Inergy Propane Acquisition described in Note 3. Based on market rates for similar issues, the 2018 Senior Notes and 2021 Senior Notes were valued at 106.875% and 108.125%, respectively, of the principal amount, on the Acquisition Date as they were issued in exchange for Inergy’s outstanding notes, not for cash.

On May 27, 2014, the Partnership repurchased and satisfied and discharged all of its 2018 Senior Notes with net proceeds from the issuance of the 2024 Senior Notes, as defined below, and cash on hand pursuant to a tender offer and redemption during the third quarter of fiscal 2014. In connection with this tender offer and redemption, the Partnership recognized a loss on the extinguishment of debt of \$11,589 consisting of \$31,633 for the redemption premium and related fees, as well as the write-off of \$5,230 and (\$25,274) in unamortized debt origination costs and unamortized premium, respectively. The 2018 Senior Notes required semi-annual interest payments in April and October, and the 2021 Senior Notes require semi-annual interest payments in February and August.

The 2021 Senior Notes are redeemable, at the Partnership’s option, in whole or in part, at any time on or after August 1, 2016, in each case at the redemption prices described in the table below, together with any accrued and unpaid interest to date of the redemption.

<u>Year</u>	<u>Percentage</u>
2016.....	103.688%
2017.....	102.459%
2018.....	101.229%
2019 and thereafter.....	100.000%

On December 19, 2012, the Partnership completed an offer to exchange its then-outstanding unregistered 7.5% senior notes due 2018 and 7.375% senior notes due 2021 (collectively, the “Old Notes”) for an equal principal amount of 7.5% senior notes due 2018 and 7.375% senior notes due 2021 (collectively, the “Exchange Notes”), respectively, that have been registered under the Securities Act of 1933, as amended. The terms of the Exchange Notes are identical in all material respects (including principal amount, interest rate, maturity and redemption rights) to the Old Notes for which they were exchanged, except that the Exchange Notes generally will not be subject to transfer restrictions.

On August 2, 2013, the Partnership repurchased, pursuant to an optional redemption, \$133,400 of its 2021 Senior Notes using net proceeds from the May 2013 public offering and net proceeds from the underwriters’ exercise of their over-allotment option to purchase additional Common Units. In addition, on August 6, 2013, the Partnership repurchased \$23,863 of 2021 Senior Notes in a private transaction using cash on hand. In connection with these repurchases, which totaled \$157,263 in aggregate principal amount, the Partnership recognized a loss on the extinguishment of debt of \$2,144 consisting of \$11,759 for the repurchase premium and related fees, as well as the write-off of \$2,064 and (\$11,678) in unamortized debt origination costs and unamortized premium, respectively.

2020 Senior Notes

On March 23, 2010, the Partnership and its 100%-owned subsidiary, Suburban Energy Finance Corp., completed a public offering of \$250,000 in aggregate principal amount of 7.375% senior notes due March 15, 2020 (the “2020 Senior Notes”). The 2020 Senior Notes were issued at 99.136% of the principal amount and require semi-annual interest payments in March and September.

The 2020 Senior Notes are redeemable, at the Partnership’s option, in whole or in part, at any time on or after March 15, 2015, in each case at the redemption prices described in the table below, together with any accrued and unpaid

interest to the date of the redemption.

<u>Year</u>	<u>Percentage</u>
2015.....	103.688%
2016.....	102.458%
2017.....	101.229%
2018 and thereafter.....	100.000%

2024 Senior Notes

As previously discussed, on May 27, 2014, the Partnership and its 100%-owned subsidiary, Suburban Energy Finance Corp., completed a public offering of \$525,000 in aggregate principal amount of 5.5% senior notes due June 1, 2024 (the “2024 Senior Notes”). The 2024 Senior Notes were issued at 100% of the principal amount and require semi-annual interest payments in June and December, beginning in December 2014. The net proceeds from the issuance of the 2024 Senior Notes, along with cash on hand, were used to repurchase and satisfy and discharge all of the 2018 Senior Notes.

The 2024 Senior Notes are redeemable, at the Partnership’s option, in whole or in part, at any time on or after June 1, 2019, in each case at the redemption prices described in the table below, together with any accrued and unpaid interest to the date of the redemption.

<u>Year</u>	<u>Percentage</u>
2019.....	102.750%
2020.....	101.833%
2021.....	100.917%
2022 and thereafter.....	100.000%

The Partnership’s obligations under the 2020 Senior Notes, 2021 Senior Notes and 2024 Senior Notes (collectively, the “Senior Notes”) are unsecured and rank senior in right of payment to any future subordinated indebtedness and equally in right of payment with any future senior indebtedness. The Senior Notes are structurally subordinated to, which means they rank effectively behind, any debt and other liabilities of the Operating Partnership. The Senior Notes each have a change of control provision that would require the Partnership to offer to repurchase the notes at 101% of the principal amount repurchased, if a change of control, as defined in the indenture, occurs and is followed by a rating decline (a decrease in the rating of the notes by either Moody’s Investors Service or Standard and Poor’s Rating Group by one or more gradations) within 90 days of the consummation of the change of control.

Credit Agreement

The Operating Partnership has an amended and restated credit agreement entered into on January 5, 2012, as amended on August 1, 2012 and May 9, 2014 (collectively, the “Amended Credit Agreement”) that provides for a five-year \$400,000 revolving credit facility (the “Revolving Credit Facility”), of which \$100,000 was outstanding as of September 27, 2014 and September 28, 2013. Borrowings under the Revolving Credit Facility may be used for general corporate purposes, including working capital, capital expenditures and acquisitions. The Operating Partnership has the right to prepay any borrowings under the Revolving Credit Facility, in whole or in part, without penalty at any time prior to maturity.

During the second quarter of fiscal 2014, the Partnership experienced a significant increase in working capital requirements as a result of the significant increase in wholesale propane costs. The increase in working capital resulted in the net borrowing of \$55,000 under the Partnership’s Revolving Credit Facility in the second quarter of fiscal 2014. These additional borrowings were repaid in full in April 2014 with internally generated cash.

The amendment and restatement of the credit agreement on January 5, 2012 amended the previous credit agreement to, among other things, extend the maturity date from June 25, 2013 to January 5, 2017, reduce the borrowing rate and commitment fees, and amend certain affirmative and negative covenants.

On August 1, 2012, the Operating Partnership executed an amendment to the Amended Credit Agreement to, among other things, provide for (i) a \$250,000 senior secured 364-Day Facility and (ii) an increase in our revolving credit facility under the Amended Credit Agreement from \$250,000 to \$400,000. On the Acquisition Date, the Operating Partnership drew \$225,000 on the 364-Day Facility, which was used to fund a portion of the Inergy Propane Acquisition, including costs and expenses related to the acquisition. The Partnership repaid the \$225,000 of borrowings under the 364-Day Facility on August 14, 2012 with the net proceeds from the public issuance of Common Units on August 14, 2012.

The amendment to the Amended Credit Agreement on August 1, 2012 also amended certain restrictive and affirmative covenants applicable to the Operating Partnership and the Partnership, as well as certain financial covenants, including (a) requiring the Partnership's consolidated interest coverage ratio, as defined in the amendment, to be not less than 2.0 to 1.0 as of the end of any fiscal quarter; (b) prohibiting the total consolidated leverage ratio, as defined in the amendment, of the Partnership from being greater than 7.0 to 1.0 as of the end of any fiscal quarter. The minimum consolidated interest coverage ratio increases over time, and commencing with the second quarter of fiscal 2014, such minimum ratio is 2.5 to 1.0. The maximum consolidated leverage ratio decreases over time, as well as upon the occurrence of certain events (such as the issuance of Common Units where the net proceeds from the issuance exceed certain thresholds). Commencing with the second quarter of fiscal 2013, such maximum ratio is 4.75 to 1.0 (or 5.0 to 1.0 during an acquisition period as defined in the amendment).

On May 9, 2014, the Operating Partnership executed a second amendment to the Amended Credit Agreement to make certain technical amendments with respect to agreements relating to debt refinancing.

The Partnership acts as a guarantor with respect to the obligations of the Operating Partnership under the Amended Credit Agreement pursuant to the terms and conditions set forth therein. The obligations under the Amended Credit Agreement are secured by liens on substantially all of the personal property of the Partnership, the Operating Partnership and their subsidiaries, as well as mortgages on certain real property.

Borrowings under the Revolving Credit Facility of the Amended Credit Agreement bear interest at prevailing interest rates based upon, at the Operating Partnership's option, LIBOR plus the applicable margin or the base rate, defined as the higher of the Federal Funds Rate plus $\frac{1}{2}$ of 1%, the agent bank's prime rate, or LIBOR plus 1%, plus in each case the applicable margin. The applicable margin is dependent upon the Partnership's ratio of total debt to EBITDA on a consolidated basis, as defined in the Revolving Credit Facility. As of September 27, 2014, the interest rate for the Revolving Credit Facility was approximately 2.5%. The interest rate and the applicable margin will be reset at the end of each calendar quarter.

In connection with the Amended Credit Agreement, the Operating Partnership entered into an interest rate swap agreement with a notional amount of \$100,000, an effective date of June 25, 2013 and a termination date of January 5, 2017. Under this interest rate swap agreement, the Operating Partnership will pay a fixed interest rate of 1.63% to the issuing lender on the notional principal amount outstanding, and the issuing lender will pay the Operating Partnership a floating rate, namely LIBOR, on the same notional principal amount. The interest rate swap has been designated as a cash flow hedge.

As of September 27, 2014, the Partnership had standby letters of credit issued under the Revolving Credit Facility in the aggregate amount of \$44,882 which expire periodically through April 3, 2015. Therefore, as of September 27, 2014 the Partnership had available borrowing capacity of \$255,118 under the Revolving Credit Facility.

The Amended Credit Agreement and the Senior Notes both contain various restrictive and affirmative covenants applicable to the Operating Partnership and the Partnership, respectively, including (i) restrictions on the incurrence of additional indebtedness, and (ii) restrictions on certain liens, investments, guarantees, loans, advances, payments, mergers, consolidations, distributions, sales of assets and other transactions. Under the Amended Credit Agreement and the indentures governing the Senior Notes, the Operating Partnership and the Partnership are generally permitted to make cash distributions equal to available cash, as defined, as of the end of the immediately preceding quarter, if no event of default exists or would exist upon making such distributions, and with respect to the indentures governing the Senior Notes, the Partnership's consolidated fixed charge coverage ratio, as defined, is greater than 1.75 to 1. The Partnership and the Operating Partnership were in compliance with all covenants and terms of the Senior Notes and

the Amended Credit Agreement as of September 27, 2014.

Debt origination costs representing the costs incurred in connection with the placement of, and the subsequent amendment to, long-term borrowings are capitalized within other assets and amortized on a straight-line basis over the term of the respective debt agreements. During fiscal 2014, the Partnership recognized charges of \$5,230 to write-off unamortized debt origination costs associated with the tender offer and redemption of its 2018 Senior Notes. During fiscal 2013, the Partnership recognized charges of \$2,064 million to write-off unamortized debt origination costs associated with the repurchase of its 2021 Senior Notes. Other assets at September 27, 2014 and September 28, 2013 include debt origination costs with a net carrying amount of \$21,023 and \$21,254, respectively.

The aggregate amounts of long-term debt maturities subsequent to September 27, 2014 are as follows: fiscal 2015 through fiscal 2016: \$-0-; fiscal 2017: \$100,000; fiscal 2018: \$-0-; fiscal 2019: \$-0-; and thereafter: \$1,121,180.

9. Unit-Based Compensation Arrangements

As described in Note 2, the Partnership recognizes compensation cost over the respective service period for employee services received in exchange for an award of equity, or equity-based compensation, based on the grant date fair value of the award. The Partnership measures liability awards under an equity-based payment arrangement based on re-measurement of the award's fair value at the conclusion of each interim and annual reporting period until the date of settlement, taking into consideration the probability that the performance conditions will be satisfied.

Restricted Unit Plans. In fiscal 2000 and fiscal 2009, the Partnership adopted the Suburban Propane Partners, L.P. 2000 Restricted Unit Plan and 2009 Restricted Unit Plan (collectively, the "Restricted Unit Plans"), respectively, which authorizes the issuance of Common Units to executives, managers and other employees and members of the Board of Supervisors of the Partnership. The total number of Common Units authorized for issuance under the Restricted Unit Plans was 1,902,122 as of September 27, 2014. In accordance with an August 6, 2013 amendment to the Restricted Unit Plans, unless otherwise stipulated by the Compensation Committee of the Partnership's Board of Supervisors on or before the grant date, all restricted unit awards granted after the date of the amendment will vest 33.33% on each of the first three anniversaries of the award grant date. Prior to the August 6, 2013 amendment, unless otherwise stipulated by the Compensation Committee of the Partnership's Board of Supervisors on or before the grant date, restricted units issued under the Restricted Unit Plans vest over time with 25% of the Common Units vesting at the end of each of the third and fourth anniversaries of the grant date and the remaining 50% of the Common Units vesting at the end of the fifth anniversary of the grant date. The Restricted Unit Plans participants are not eligible to receive quarterly distributions on, or vote, their respective restricted units until vested. Restricted units cannot be sold or transferred prior to vesting. The value of the restricted unit is established by the market price of the Common Unit on the date of grant, net of estimated future distributions during the vesting period. Restricted units are subject to forfeiture in certain circumstances as defined in the Restricted Unit Plans. Compensation expense for the unvested awards is recognized ratably over the vesting periods and is net of estimated forfeitures.

The following is a summary of activity in the Restricted Unit Plans:

	<u>Units</u>	<u>Weighted Average Grant Date Fair Value Per Unit</u>
Outstanding September 24, 2011	485,423	\$32.71
Granted	108,674	32.60
Forfeited	(12,225)	(30.78)
Issued	(139,021)	(33.14)
Outstanding September 29, 2012	442,851	32.68
Granted	200,933	23.42
Forfeited	(3,497)	(32.15)
Issued	(112,660)	(32.01)
Outstanding September 28, 2013	527,627	29.30
Granted	256,273	37.43
Forfeited	(3,119)	(28.39)
Issued	(85,854)	(31.23)
Outstanding September 27, 2014	694,927	\$32.07

As of September 27, 2014, unrecognized compensation cost related to unvested restricted units awarded under the Restricted Unit Plans amounted to \$8,255. Compensation cost associated with the unvested awards is expected to be recognized over a weighted-average period of 1.4 years. Compensation expense for the Restricted Unit Plans for fiscal 2014, 2013 and 2012 was \$7,390, \$3,888 and \$4,059, respectively.

Long-Term Incentive Plans. The Partnership has a non-qualified, unfunded long-term incentive plan for officers and key employees (the “LTIP”) which provides for payment, in the form of cash, of an award of equity-based compensation at the end of a three-year performance period. For the fiscal 2013 and 2012 awards, the level of compensation earned under the LTIP is based on the market performance of the Partnership’s Common Units on the basis of total return to Unitholders (“TRU”) compared to the TRU of a predetermined peer group consisting solely of other master limited partnerships, approved by the Compensation Committee of the Board of Supervisors, over the same three-year performance period. On August 6, 2013, the Compensation Committee of the Partnership’s Board of Supervisors adopted the 2014 Long-Term Incentive Plan of the Partnership (“2014 LTIP”) as a replacement for the existing LTIP. As a result, for the fiscal 2014 award, the level of compensation earned under the 2014 LTIP is based on the average distribution coverage ratio over the three-year measurement period. The average distribution coverage ratio is calculated as the Partnership’s average distributable cash flow, as defined in the 2014 LTIP, for each of the three years in the measurement period, subject to certain adjustments as set forth in the 2014 LTIP, divided by the amount of annualized cash distributions to be paid by the Partnership, based on the annualized cash distribution rate at the beginning of the measurement period. Compensation expense, which includes adjustments to previously recognized compensation expense for current period changes in the fair value of unvested awards, for fiscal 2014, 2013 and 2012 was \$120, \$1,439 and (\$340), respectively. The cash payouts in fiscal 2014, 2013 and 2012, which related to the fiscal 2011, 2010 and 2009 awards, were \$-0-, \$-0- and \$3,336, respectively.

10. Employee Benefit Plans

Defined Contribution Plan. The Partnership has an employee Retirement Savings and Investment Plan (the “401(k) Plan”) covering most employees. Employer matching contributions relating to the 401(k) Plan are a percentage of the participating employees’ elective contributions. The percentage of the Partnership’s contributions are based on a sliding scale depending on the Partnership’s achievement of annual performance targets. These contributions totaled \$1,848, \$1,915 and \$1,359 for fiscal 2014, 2013 and 2012, respectively.

Defined Pension and Retiree Health and Life Benefits Arrangements

Pension Benefits. The Partnership has a noncontributory defined benefit pension plan which was originally designed to cover all eligible employees of the Partnership who met certain requirements as to age and length of service. Effective January 1, 1998, the Partnership amended its defined benefit pension plan to provide benefits under a cash balance formula as compared to a final average pay formula which was in effect prior to January 1, 1998. Effective January 1, 2000, participation in the defined benefit pension plan was limited to eligible existing participants on that date with no new participants eligible to participate in the plan. On September 20, 2002, the Board of Supervisors approved an amendment to the defined benefit pension plan whereby, effective January 1, 2003, future service credits ceased and eligible employees receive interest credits only toward their ultimate retirement benefit.

Contributions, as needed, are made to a trust maintained by the Partnership. Contributions to the defined benefit pension plan are made by the Partnership in accordance with the Employee Retirement Income Security Act of 1974 minimum funding standards plus additional amounts made at the discretion of the Partnership, which may be determined from time to time. There were no minimum funding requirements for the defined benefit pension plan for fiscal 2014, 2013 or 2012. During the last decade, cash balance plans came under increased scrutiny which resulted in litigation pertaining to the cash balance feature and the Internal Revenue Service (“IRS”) issued additional regulations governing these types of plans. In fiscal 2010, the IRS completed its review of the Partnership’s defined benefit pension plan and issued a favorable determination letter pertaining to the cash balance formula. However, there can be no assurances that future legislative developments will not have an adverse effect on the Partnership’s results of operations or cash flows.

Retiree Health and Life Benefits. The Partnership provides postretirement health care and life insurance benefits for certain retired employees. Partnership employees hired prior to July 1993 are eligible for postretirement life insurance benefits if they reach a specified retirement age while working for the Partnership. Partnership employees hired prior to July 1993 and who retired prior to March 1998 are eligible for postretirement health care benefits if they reached a specified retirement age while working for the Partnership. Effective January 1, 2000, the Partnership terminated its postretirement health care benefit plan for all eligible employees retiring after March 1, 1998. All active employees who were eligible to receive health care benefits under the postretirement plan subsequent to March 1, 1998, were provided an increase to their accumulated benefits under the cash balance pension plan. The Partnership’s postretirement health care and life insurance benefit plans are unfunded. Effective January 1, 2006, the Partnership changed its postretirement health care plan from a self-insured program to one that is fully insured under which the Partnership pays a portion of the insurance premium on behalf of the eligible participants.

The Partnership recognizes the funded status of pension and other postretirement benefit plans as an asset or liability on the balance sheet and recognizes changes in the funded status in other comprehensive income (loss) in the year the changes occur. The Partnership uses the date of its consolidated financial statements as the measurement date of plan assets and obligations.

Projected Benefit Obligation, Fair Value of Plan Assets and Funded Status. The following tables provide a reconciliation of the changes in the benefit obligations and the fair value of the plan assets for fiscal 2014 and 2013 and a statement of the funded status for both years. Under the Partnership's cash balance defined benefit pension plan, the accumulated benefit obligation and the projected benefit obligation are the same.

	Pension Benefits		Retiree Health and Life Benefits	
	2014	2013	2014	2013
	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>
Reconciliation of benefit obligations:				
Benefit obligation at beginning of year	\$ 148,631	\$ 165,906	\$ 17,754	\$ 20,232
Service cost	-	-	5	8
Interest cost	5,774	5,229	640	586
Actuarial loss (gain)	8,459	(11,446)	(278)	(1,784)
Lump sum benefits paid	(5,401)	(3,155)	-	-
Ordinary benefits paid	(7,627)	(7,903)	(1,167)	(1,288)
Benefit obligation at end of year	<u>\$ 149,836</u>	<u>\$ 148,631</u>	<u>\$ 16,954</u>	<u>\$ 17,754</u>
Reconciliation of fair value of plan assets:				
Fair value of plan assets at beginning of year	\$ 120,776	\$ 133,873	\$ -	\$ -
Actual return on plan assets	10,023	(2,039)	-	-
Employer contributions	-	-	1,167	1,288
Lump sum benefits paid	(5,401)	(3,155)	-	-
Ordinary benefits paid	(7,627)	(7,903)	(1,167)	(1,288)
Fair value of plan assets at end of year	<u>\$ 117,771</u>	<u>\$ 120,776</u>	<u>\$ -</u>	<u>\$ -</u>
Funded status:				
Funded status at end of year	<u>\$ (32,065)</u>	<u>\$ (27,855)</u>	<u>\$ (16,954)</u>	<u>\$ (17,754)</u>
Amounts recognized in consolidated balance sheets consist of:				
Net amount recognized at end of year	\$ (32,065)	\$ (27,855)	\$ (16,954)	\$ (17,754)
Less: Current portion	-	-	1,276	1,427
Non-current benefit liability	<u>\$ (32,065)</u>	<u>\$ (27,855)</u>	<u>\$ (15,678)</u>	<u>\$ (16,327)</u>
Amounts not yet recognized in net periodic benefit cost and included in accumulated other comprehensive income (loss):				
Actuarial net (loss) gain	\$ (49,034)	\$ (49,986)	\$ 3,780	\$ 3,683
Prior service credits	-	-	889	1,379
Net amount recognized in accumulated other comprehensive (loss) income	<u>\$ (49,034)</u>	<u>\$ (49,986)</u>	<u>\$ 4,669</u>	<u>\$ 5,062</u>

Amounts recognized in other comprehensive income included net actuarial losses (gains) arising during the period of \$3,538 and (\$4,126) for pension benefits for fiscal 2014 and 2013, respectively, and net actuarial (gains) arising during the period of (\$278) and (\$1,784) for other postretirement benefits for fiscal 2014 and 2013, respectively. The amounts in accumulated other comprehensive loss as of September 27, 2014 that are expected to be recognized as components of net periodic benefit costs during fiscal 2015 are expenses of \$4,522 and credits of \$(686) for pension and other postretirement benefits, respectively.

Plan Assets. The Partnership's investment policies and strategies, as set forth in the Investment Management Policy and Guidelines, are monitored by a Benefits Committee comprised of six members of management. The Partnership employs a liability driven investment strategy, which seeks to increase the correlation of the plan's assets and liabilities to reduce the volatility of the plan's funded status. This strategy has resulted in an asset allocation that is largely comprised of investments in funds of fixed income securities. The target asset mix is as follows: (i) fixed income securities portion of the portfolio should range between 80% and 90%; and (ii) equity securities portion of the portfolio should range between 10% and 20%.

The following table presents the actual allocation of assets held in trust as of:

	<u>September 27, 2014</u>	<u>September 28, 2013</u>
Fixed income securities	85%	85%
Equity securities	15%	15%
	<u>100%</u>	<u>100%</u>

The Partnership's valuations include the use of the funds' reported net asset values for commingled fund investments. Commingled funds are valued at the net asset value for their underlying securities. The Partnership further corroborates the above valuations with observable market data using level 2 inputs within the fair value framework. The assets of the defined benefit pension plan have no significant concentration of risk and there are no restrictions on these investments.

The following table describes the measurement of the Partnership's pension plan assets by asset category as of:

	<u>September 27, 2014</u>	<u>September 28, 2013</u>
Short term investments (1)	\$ 1,500	\$ 1,516
Equity securities: (1) (2)		
Domestic	6,370	11,780
International	10,916	5,959
Fixed income securities (1) (3)	98,985	101,521
	<u>\$ 117,771</u>	<u>\$ 120,776</u>

- (1) Includes funds which are not publicly traded and are valued at the net asset value of the units provided by the fund issuer.
- (2) Includes funds which invest primarily in a diversified portfolio of publicly traded U.S. and Non-U.S. common stock.
- (3) Includes funds which invest primarily in publicly traded and non-publicly traded, investment grade corporate bonds, U.S. government bonds and asset-backed securities.

Projected Contributions and Benefit Payments. There are no projected minimum funding requirements under the Partnership's defined benefit pension plan for fiscal 2015. Estimated future benefit payments for both pension and retiree health and life benefits are as follows:

<u>Fiscal Year</u>	<u>Pension Benefits</u>	<u>Retiree Health and Life Benefits</u>
2015	\$ 32,316	\$ 1,276
2016	12,632	1,202
2017	11,194	1,122
2018	11,317	1,048
2019	10,244	972
2020 through 2024	45,032	3,599

Estimated future pension benefit payments assumes that age 65 or older active and non-active eligible participants in the pension plan that had not received a benefit payment prior to fiscal 2015 will elect to receive a benefit payment in fiscal

2015. In addition, for all periods presented, estimated future pension benefit payments assumes that participants will elect a lump sum payment in the fiscal year that the participant becomes eligible to receive benefits.

Effect on Operations. The following table provides the components of net periodic benefit costs included in operating expenses for fiscal 2014, 2013 and 2012:

	Pension Benefits			Retiree Health and Life Benefits		
	2014	2013	2012	2014	2013	2012
Service cost	\$ -	\$ -	\$ -	\$ 5	\$ 8	\$ 7
Interest cost	5,774	5,229	6,311	640	586	802
Expected return on plan assets	(5,102)	(5,281)	(5,665)	-	-	-
Amortization of prior service credit	-	-	-	(490)	(490)	(490)
Recognized net actuarial loss	4,492	5,285	5,271	(181)	-	-
Net periodic benefit costs	<u>\$ 5,164</u>	<u>\$ 5,233</u>	<u>\$ 5,917</u>	<u>\$ (26)</u>	<u>\$ 104</u>	<u>\$ 319</u>

Actuarial Assumptions. The assumptions used in the measurement of the Partnership's benefit obligations as of September 27, 2014 and September 28, 2013 are shown in the following table:

	Pension Benefits		Retiree Health and Life Benefits	
	2014	2013	2014	2013
Weighted-average discount rate	3.875%	4.375%	3.500%	3.750%
Average rate of compensation increase	n/a	n/a	n/a	n/a
Health care cost trend	n/a	n/a	7.120%	7.330%

The assumptions used in the measurement of net periodic pension benefit and postretirement benefit costs for fiscal 2014, 2013 and 2012 are shown in the following table:

	Pension Benefits			Retiree Health and Life Benefits		
	2014	2013	2012	2014	2013	2012
Weighted-average discount rate	4.375%	3.500%	4.375%	3.750%	3.000%	4.000%
Average rate of compensation increase	n/a	n/a	n/a	n/a	n/a	n/a
Weighted-average expected long-term rate of return on plan assets	4.900%	4.500%	4.800%	n/a	n/a	n/a
Health care cost trend	n/a	n/a	n/a	7.330%	7.530%	7.740%

The discount rate assumption takes into consideration current market expectations related to long-term interest rates and the projected duration of the Partnership's pension obligations based on a benchmark index with similar characteristics as the expected cash flow requirements of the Partnership's defined benefit pension plan over the long-term. The expected long-term rate of return on plan assets assumption reflects estimated future performance in the Partnership's pension asset portfolio considering the investment mix of the pension asset portfolio and historical asset performance. The expected return on plan assets is determined based on the expected long-term rate of return on plan assets and the market-related value of plan assets. The market-related value of pension plan assets is the fair value of the assets. Unrecognized actuarial gains and losses in excess of 10% of the greater of the projected benefit obligation and the market-related value of plan assets are amortized over the expected average remaining service period of active employees expected to receive benefits under the plan.

The 7.12% increase in health care costs assumed at September 27, 2014 is assumed to decrease gradually to 4.48% in fiscal 2028 and to remain at that level thereafter. An increase or decrease of the assumed health care cost trend rates by 1.0% in each year would have no material impact to the Partnership's benefit obligation as of September 27, 2014 nor the aggregate of service and interest components of net periodic postretirement benefit expense for fiscal 2014. The Partnership has concluded that the prescription drug benefits within the retiree medical plan do not entitle the Partnership

to an available Medicare subsidy.

Multiemployer Pension Plans. As a result of the Inergy Propane Acquisition, the Partnership contributes to multiemployer pension plans (“MEPPs”) in accordance with various collective bargaining agreements covering union employees. As one of the many participating employers in these MEPPs, the Partnership is responsible with the other participating employers for any plan underfunding. During fiscal 2013, the Partnership established an accrual of \$7,000 for its estimated obligation to certain MEPPs due to the Partnership’s voluntary partial withdrawal from one such MEPP and full withdrawal from four MEPPs. As of September 27, 2014, the accrual was \$6,880 for its estimated obligation to these MEPPs. Due to the uncertainty regarding future factors that could trigger withdrawal liability, including the integration of Inergy Propane, the Partnership is unable to determine the amount and timing of any future withdrawal liability, if any.

The Partnership’s contributions to a particular MEPP are established by the applicable collective bargaining agreements (“CBAs”); however, the required contributions may increase based on the funded status of an MEPP and legal requirements of the Pension Protection Act of 2006 (the “PPA”), which requires substantially underfunded MEPPs to implement a funding improvement plan (“FIP”) or a rehabilitation plan (“RP”) to improve their funded status. Factors that could impact funded status of an MEPP include, without limitation, investment performance, changes in the participant demographics, decline in the number of contributing employers, changes in actuarial assumptions and the utilization of extended amortization provisions.

While no multiemployer pension plan that the Partnership contributed to is individually significant to the Partnership, the table below discloses the three largest MEPPs to which the Partnership contributes. The financial health of a MEPP is indicated by the zone status, as defined by the PPA, which represents the funded status of the plan as certified by the plan's actuary. Plans in the red zone are less than 65% funded, the yellow zone are between 65% and 80% funded, and green zone are at least 80% funded. Total contributions made by the Partnership to multiemployer pension plans for the fiscal year ended September 27, 2014 are shown below and reflect contributions made from the Inergy Propane Acquisition Date.

Pension Fund	EIN/Pension Plan Number	PPA Zone Status		FIP/RP Status	Contributions			Contributions greater than 5% of Total Plan Contributions	Expiration date of CBA
		2014	2013		2014	2013	2012

- (a) Based on most recent available valuation information for plan years ended September 2013.
- (b) Based on most recent available valuation information for plan years ended February 2014.
- (c) Based on most recent available valuation information for plan years ended December 2013.
- (d) Includes the MEPPs from which the Partnership withdrew in fiscal 2013.

Additionally, the Partnership contributes to certain multi-employer plans that provide health and welfare benefits and defined annuity plans. Contributions to those plans were \$1,897, \$2,040 and \$309 for fiscal 2014, fiscal 2013 and fiscal 2012, respectively.

11. Financial Instruments and Risk Management

Cash and Cash Equivalents. The fair value of cash and cash equivalents is not materially different from their carrying amount because of the short-term maturity of these instruments.

Derivative Instruments and Hedging Activities. The Partnership measures the fair value of its exchange-traded commodity-related options and futures contracts using Level 1 inputs, the fair value of its commodity-related swap contracts and interest rate swaps using Level 2 inputs and the fair value of its over-the-counter commodity-related options contracts using Level 3 inputs. The Partnership's over-the-counter options contracts are valued based on an internal option model. The inputs utilized in the model are based on publicly available information, as well as broker quotes.

The following summarizes the fair value of the Partnership's derivative instruments and their location in the consolidated balance sheets as of September 27, 2014 and September 28, 2013, respectively:

	As of September 27, 2014		As of September 28, 2013	
	Location	Fair Value	Location	Fair Value
Asset Derivatives				
Derivatives not designated as hedging instruments:				
Commodity-related derivatives	Other current assets	\$ 3,924	Other current assets	\$ 2,546
	Other assets	62	Other assets	716
		<u>\$ 3,986</u>		<u>\$ 3,262</u>
Liability Derivatives				
Derivatives designated as hedging instruments:				
Interest rate swaps	Other current liabilities	\$ 1,257	Other current liabilities	\$ 1,307
	Other liabilities	283	Other liabilities	1,121
		<u>\$ 1,540</u>		<u>\$ 2,428</u>
Derivatives not designated as hedging instruments:				
Commodity-related derivatives	Other current liabilities	\$ 1,527	Other current liabilities	\$ 430
	Other liabilities	53	Other liabilities	-
		<u>\$ 1,580</u>		<u>\$ 430</u>

The following summarizes the reconciliation of the beginning and ending balances of assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs:

	Fair Value Measurement Using Significant Unobservable Inputs (Level 3)			
	Fiscal 2014		Fiscal 2013	
	Assets	Liabilities	Assets	Liabilities
Beginning balance of over-the-counter options	\$ 1,847	\$ -	\$ 5,002	\$ 1,209
Beginning balance realized during the period	(1,166)	-	(4,400)	(1,182)
Contracts purchased during the period	1,145	-	1,825	-
Change in the fair value of outstanding contracts	(314)	-	(580)	(27)
Ending balance of over-the-counter options	<u>\$ 1,512</u>	<u>\$ -</u>	<u>\$ 1,847</u>	<u>\$ -</u>

As of September 27, 2014 and September 28, 2013, the Partnership's outstanding commodity-related derivatives had a weighted average maturity of approximately four and five months, respectively.

The effect of the Partnership's derivative instruments on the consolidated statements of operations for fiscal 2014, 2013 and 2012 are as follows:

<u>Derivatives in Cash Flow Hedging Relationships:</u>	Amount of (Losses) Gains Recognized in OCI (Effective Portion)	Gains (Losses) Reclassified from Accumulated OCI into Income (Effective Portion)	
		Location	Amount
Interest rate swaps:			
Fiscal 2014	\$ (518)	Interest expense	\$ (1,406)
Fiscal 2013	\$ 584	Interest expense	\$ (2,465)
Fiscal 2012	\$ (3,561)	Interest expense	\$ (2,680)
			Amount of Unrealized Gains (Losses) Recognized in Income
<u>Derivatives Not Designated as Hedging Instruments:</u>	Location of Gains (Losses) Recognized in Income		
Commodity-related derivatives:			
Fiscal 2014	Cost of products sold		\$ 306
Fiscal 2013	Cost of products sold		\$ (4,318)
Fiscal 2012	Cost of products sold		\$ 4,649

The following table presents the fair value of the Partnership's recognized derivative assets and liabilities on a gross basis and amounts offset on the consolidated balance sheets subject to enforceable master netting arrangements or similar agreements:

	As of September 27, 2014		
	Gross amounts	Effects of netting	Net amounts presented in the balance sheet
Asset Derivatives			
Commodity-related derivatives	\$ 9,533	\$ (5,547)	\$ 3,986
Interest rate swap	2,139	(2,139)	-
	<u>\$ 11,672</u>	<u>\$ (7,686)</u>	<u>\$ 3,986</u>
Liability Derivatives			
Commodity-related derivatives	\$ 7,127	\$ (5,547)	\$ 1,580
Interest rate swap	3,679	(2,139)	1,540
	<u>\$ 10,806</u>	<u>\$ (7,686)</u>	<u>\$ 3,120</u>
	As of September 28, 2013		
	Gross amounts	Effects of netting	Net amounts presented in the balance sheet
Asset Derivatives			
Commodity-related derivatives	\$ 3,634	\$ (372)	\$ 3,262
Interest rate swap	2,804	(2,804)	-
	<u>\$ 6,438</u>	<u>\$ (3,176)</u>	<u>\$ 3,262</u>
Liability Derivatives			
Commodity-related derivatives	\$ 802	\$ (372)	\$ 430
Interest rate swap	5,232	(2,804)	2,428
	<u>\$ 6,034</u>	<u>\$ (3,176)</u>	<u>\$ 2,858</u>

The Partnership had no posted cash collateral as of September 27, 2014 and September 28, 2013 with its brokers for outstanding commodity-related derivatives.

Concentrations. The Partnership’s principal customers are residential and commercial end users of propane and fuel oil and refined fuels served by approximately 710 locations in 41 states. No single customer accounted for more than 10% of revenues during fiscal 2014, 2013 or 2012 and no concentration of receivables exists as of September 27, 2014 or September 28, 2013.

During fiscal 2014, Crestwood Midstream Partners L.P., Targa Liquids Marketing and Trade and Enterprise Products Partners L.P. provided approximately 19%, 13% and 13% of our total propane purchases, respectively. No other single supplier accounted for more than 10% of the Partnership’s propane purchases in fiscal 2014. The Partnership believes that, if supplies from any of these suppliers were interrupted, it would be able to secure adequate propane supplies from other sources without a material disruption of its operations.

Credit Risk. Exchange-traded futures and options contracts are traded on and guaranteed by the NYMEX and as a result, have minimal credit risk. Futures contracts traded with brokers of the NYMEX require daily cash settlements in margin accounts. The Partnership is subject to credit risk with over-the-counter swaps and options contracts entered into with various third parties to the extent the counterparties do not perform. The Partnership evaluates the financial condition of each counterparty with which it conducts business and establishes credit limits to reduce exposure to credit risk based on non-performance. The Partnership does not require collateral to support the contracts.

Bank Debt and Senior Notes. The fair value of the Revolving Credit Facility approximates the carrying value since the interest rates are adjusted quarterly to reflect market conditions. Based upon quoted market prices, the fair value of the Partnership’s 2020 Senior Notes, 2021 Senior Notes and 2024 Senior Notes was \$263,250, \$363,489 and \$508,594, respectively, as of September 27, 2014.

12. Commitments and Contingencies

Commitments. The Partnership leases certain property, plant and equipment, including portions of the Partnership’s vehicle fleet, for various periods under noncancelable leases. Rental expense under operating leases was \$31,849, \$33,036 and \$23,593 for fiscal 2014, 2013 and 2012, respectively.

Future minimum rental commitments under noncancelable operating lease agreements as of September 27, 2014 are as follows:

Fiscal Year	Minimum Lease Payments
2015	\$ 25,266
2016	17,781
2017	12,199
2018	9,224
2019	6,131
2020 and thereafter	7,469

Contingencies.

Self Insurance. As described in Note 2, the Partnership is self-insured for general and product, workers’ compensation and automobile liabilities up to predetermined amounts above which third party insurance applies. At September 27, 2014 and September 28, 2013, the Partnership had accrued liabilities of \$62,450 and \$58,152, respectively, representing the total estimated losses under these self-insurance programs. For the portion of the estimated liability that exceeds insurance deductibles, the Partnership records an asset within other assets (or prepaid expenses and other current assets, as applicable) related to the amount of the liability expected to be covered by insurance which amounted to \$18,410 and \$18,330 as of September 27, 2014 and September 28, 2013, respectively.

Legal Matters. The Partnership's operations are subject to operating hazards and risks normally incidental to handling, storing and delivering combustible liquids such as propane. The Partnership has been, and will continue to be, a defendant in various legal proceedings and litigation as a result of these operating hazards and risks, and as a result of other aspects of its business. Although any litigation is inherently uncertain, based on past experience, the information currently available to the Partnership, and the amount of its accrued insurance liabilities, the Partnership does not believe that currently pending or threatened litigation matters, or known claims or known contingent claims, will have a material adverse effect on its results of operations, financial condition or cash flow.

13. Guarantees

The Partnership has residual value guarantees associated with certain of its operating leases, related primarily to transportation equipment, with remaining lease periods scheduled to expire periodically through fiscal 2021. Upon completion of the lease period, the Partnership guarantees that the fair value of the equipment will equal or exceed the guaranteed amount, or the Partnership will pay the lessor the difference. Although the fair value of equipment at the end of its lease term has historically exceeded the guaranteed amounts, the maximum potential amount of aggregate future payments the Partnership could be required to make under these leasing arrangements, assuming the equipment is deemed worthless at the end of the lease term, was \$14,122 as of September 27, 2014. The fair value of residual value guarantees for outstanding operating leases was de minimis as of September 27, 2014 and September 28, 2013.

14. Amounts Reclassified Out of Accumulated Other Comprehensive Income

The following table summarizes amounts reclassified out of accumulated other comprehensive (loss) income for the years ended September 27, 2014, September 28, 2013 and September 29, 2012:

	<u>For the year ended September 27, 2014</u>			
	<u>Gains and Losses on Cash Flow Hedges</u>	<u>Pension Benefits</u>	<u>Postretirement Benefits</u>	<u>Total</u>
Balance, beginning of period	\$ (2,428)	\$ (49,987)	\$ 5,062	\$ (47,353)
Other comprehensive income before reclassifications	(518)	-	-	(518)
Amounts reclassified from accumulated other comprehensive income	<u>1,406</u> (a)	<u>953</u> (b)	<u>(393)</u> (b)	<u>1,966</u>
Net current period other comprehensive income	<u>888</u>	<u>953</u>	<u>(393)</u>	<u>1,448</u>
Balance, end of period	<u>\$ (1,540)</u>	<u>\$ (49,034)</u>	<u>\$ 4,669</u>	<u>\$ (45,905)</u>

For the year ended September 28, 2013

	Gains and Losses on Cash Flow Hedges	Pension Benefits	Postretirement Benefits	Total
Balance, beginning of period	\$ (5,477)	\$ (59,398)	\$ 3,768	\$ (61,107)
Other comprehensive income before reclassifications	584	-	-	584
Amounts reclassified from accumulated other comprehensive income	2,465 (a)	9,411 (b)	1,294 (b)	13,170
Net current period other comprehensive income	3,049	9,411	1,294	13,754
Balance, end of period	\$ (2,428)	\$ (49,987)	\$ 5,062	\$ (47,353)

For the year ended September 29, 2012

	Gains and Losses on Cash Flow Hedges	Pension Benefits	Postretirement Benefits	Total
Balance, beginning of period	\$ (4,596)	\$ (59,503)	\$ 4,183	\$ (59,916)
Other comprehensive income before reclassifications	(3,561)	-	-	(3,561)
Amounts reclassified from accumulated other comprehensive income	2,680 (a)	105 (b)	(415) (b)	2,370
Net current period other comprehensive income	(881)	105	(415)	(1,191)
Balance, end of period	\$ (5,477)	\$ (59,398)	\$ 3,768	\$ (61,107)

(a) Reclassification of realized losses on cash flow hedges are recognized in interest expense.

(b) These amounts are included in the computation of net periodic benefit cost. See Note 10, "Employee Benefit Plans".

15. Public Offerings

On May 17, 2013, the Partnership sold 2,700,000 Common Units in a public offering at a price of \$48.16 per Common Unit, realizing proceeds of \$124,684, net of underwriting commissions and other offering expenses. On May 22, 2013, following the underwriters' exercise of their over-allotment option, the Partnership sold an additional 405,000 Common Units at \$48.16 per Common Unit, generating additional proceeds of \$18,760, net of underwriting commissions. The net proceeds from the offering, including the net proceeds from the underwriters' exercise of their over-allotment option, were used to redeem \$133,400 of the Partnership's 2021 Senior Notes in August 2013.

16. Segment Information

The Partnership manages and evaluates its operations in five operating segments, three of which are reportable segments: Propane, Fuel Oil and Refined Fuels and Natural Gas and Electricity. The chief operating decision maker evaluates performance of the operating segments using a number of performance measures, including gross margins and income before interest expense and provision for income taxes (operating profit). Costs excluded from these profit measures are captured in Corporate and include corporate overhead expenses not allocated to the operating segments. Unallocated corporate overhead expenses include all costs of back office support functions that are reported as general and administrative expenses within the consolidated statements of operations. In addition, certain costs associated with field operations support that are reported in operating expenses within the consolidated statements of operations, including purchasing, training and safety, are not allocated to the individual operating segments. Thus, operating profit for each operating segment includes only the costs that are directly attributable to the operations of the individual segment. The accounting policies of the operating segments are otherwise the same as those described in the summary of significant accounting policies in Note 2.

The propane segment is primarily engaged in the retail distribution of propane to residential, commercial, industrial and agricultural customers and, to a lesser extent, wholesale distribution to large industrial end users. In the residential and commercial markets, propane is used primarily for space heating, water heating, cooking and clothes drying. Industrial customers use propane generally as a motor fuel burned in internal combustion engines that power over-the-road vehicles, forklifts and stationary engines, to fire furnaces and as a cutting gas. In the agricultural markets, propane is primarily used for tobacco curing, crop drying, poultry brooding and weed control.

The fuel oil and refined fuels segment is primarily engaged in the retail distribution of fuel oil, diesel, kerosene and gasoline to residential and commercial customers for use primarily as a source of heat in homes and buildings.

The natural gas and electricity segment is engaged in the marketing of natural gas and electricity to residential and commercial customers in the deregulated energy markets of New York and Pennsylvania. Under this operating segment, the Partnership owns the relationship with the end consumer and has agreements with the local distribution companies to deliver the natural gas or electricity from the Partnership's suppliers to the customer.

Activities in the "all other" category include the Partnership's service business, which is primarily engaged in the sale, installation and servicing of a wide variety of home comfort equipment, particularly in the areas of heating and ventilation, and activities from the Partnership's Suburban Franchising subsidiaries.

The following table presents certain data by reportable segment and provides a reconciliation of total operating segment information to the corresponding consolidated amounts for the periods presented:

	Year Ended		
	September 27, 2014	September 28, 2013	September 29, 2012

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We hereby consent to the incorporation by reference in the Registration Statements on Form S-3 (Nos. 333-195864, 333-183124 and 333-165368) and Form S-8 (No. 333-160768) of Suburban Propane Partners, L.P. of our report dated November 26, 2014 relating to the financial statements, financial statement schedule, and the effectiveness of internal control over financial reporting, which appears in this Form 10-K.

PricewaterhouseCoopers LLP

PricewaterhouseCoopers LLP
Florham Park, New Jersey
November 26, 2014

Certification of the President and Chief Executive Officer Pursuant to
Section 302 of the Sarbanes-Oxley Act of 2002

I, Michael A. Stivala, certify that:

1. I have reviewed this Annual Report on Form 10-K of Suburban Propane Partners, L.P.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Supervisors:
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Michael A. Stivala
President and Chief Executive Officer

Certification of the Chief Financial Officer
Pursuant to Section 302
of the Sarbanes-Oxley Act of 2002

I, Michael A. Kuglin, certify that:

1. I have reviewed this Annual Report on Form 10-K of Suburban Propane Partners, L.P.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Supervisors:
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Certification of the President and Chief Executive Officer Pursuant to
18 U.S.C. Section 1350,
as Adopted Pursuant to
Section 906 of the Sarbanes-Oxley Act of 2002

In connection with the Annual Report of Suburban Propane Partners, L.P. (the “Partnership”) on Form 10-K for the period ended September 27, 2014 as filed with the Securities and Exchange Commission on the date hereof (the “Report”), I, Michael A. Stivala, President and Chief Executive Officer of the Partnership, certify, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Partnership.

This certification shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Certification of the Chief Financial Officer
Pursuant to 18 U.S.C. Section 1350,
as Adopted Pursuant to
Section 906 of the Sarbanes-Oxley Act of 2002

In connection with the Annual Report of Suburban Propane Partners, L.P. (the "Partnership") on Form 10-K for the period ended September 27, 2014 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Michael A. Kuglin, Chief Financial Officer and Chief Accounting Officer of the Partnership, certify, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Partnership.

This certification shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

FIVE-YEAR PERFORMANCE GRAPH ¹

The following graph compares the performance of our Common Units with the performance of the S&P 500 Index, the Alerian MLP Index and a peer group index for the period of the five fiscal years commencing September 27, 2009. The graph assumes that at the beginning of the period, \$100 was invested in each of (1) our Common Units, (2) the S&P 500 Index, (3) the Alerian MLP Index, and (4) the peer group, and that all distributions or dividends were reinvested.

We do not believe that any published industry or line-of-business index accurately reflects our business. Accordingly, we have created a special peer group index consisting of other propane-marketing companies whose common units are publicly traded on the New York Stock Exchange. The peer group is composed of the following companies: Amerigas Partners, L.P. and Ferrellgas Partners, L.P.

¹ The performance graph shall not be deemed incorporated by reference by any general statement incorporating by reference this Annual Report on Form 10-K into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that Suburban specifically incorporates this information by reference in such filing, and shall not otherwise be deemed filed under such Acts.
