Report of the Chairman, the Chief Executive Officer and the President

Report of the Chairman, the Chief Executive Officer and the President

2013 has been a year of continued progress for ImmuPharma. Lupuzor™ remains our primary focus. We have been conducting discussions with a number of multinational pharmaceutical companies with a view to obtaining a new partner for Lupuzor™. In parallel, we have been in discussions with Contract Research Organisations and exploring alternative financing arrangements that would enable ImmuPharma to retain rights until commercialisation by pursuing Phase III development of Lupuzor™. The successful agreement of a £50 million equity financing facility with Darwin Strategic has been a significant step forward in strengthening our position. Of major significance is the establishment of a world class Scientific Advisory Board of prominent physicians and advisors in the field of lupus to provide guidance and support for Lupuzor™'s clinical development. Our Nucant programme in cancer has continued to make progress in its ongoing Phase I/IIa clinical trial.

Following the reacquisition of the rights to Lupuzor™ from Cephalon, Inc arising from their acquisition by Teva Pharmaceuticals, ImmuPharma has been focused on licensing and development options to complete the final development phase. Lupuzor™ has received approval from the US Food and Drug Administration (FDA) to start Phase III with a Special Protocol Assessment (SPA) as well as having received Fast Track designation. ImmuPharma was granted an amended SPA during 2013. Under the new SPA, the necessary number of patients for the Phase III programme has been reduced. This number is lower than other lupus development candidates in clinical trials and underpins the significant efficacy shown by Lupuzor™. Importantly, this means that the total cost of Phase III is now greatly reduced. ImmuPharma has manufactured the Phase III drug supplies as well as the CMC (Chemistry Manufacturing and Controls) section of the regulatory file proving appropriate stability of the drug product. Finally, Torrey Partners, a leading specialist advisory firm for pharmaceutical sector transactions, was appointed during the summer to support our corporate discussions for Lupuzor™.

ImmuPharma has also been moving forward with our nucleolin antagonist ("Nucant") peptide programme being tested in cancer patients. Having received approval from the French regulatory authorities, Agence Française de Sécurité Sanitaire des Produits de Santé (AFSSAPS), we initiated an initial Phase I dose ranging tolerability and safety study in three hospitals in France which completed in 2012. Patients were suffering from different types of cancer including breast, lung and bladder cancers which had all metastasised. No serious drug related adverse events were reported. 6 out of the 14 patients had a proven stabilization and for 2 out of the 6 the stabilization lasted for more than 6 months. ImmuPharma initiated a Phase I/II

study based on the next generation "polyplexed Nucant", assessing the safety in a dose ranging tolerability study with the new formulation and primary efficacy. This trial is being conducted in three hospitals in Europe including the prestigious Institute Jules Bordet, an Integrated Multidisciplinary Centre which is the only autonomous hospital in Belgium totally dedicated to cancer. The trial continues to progress through its dose escalation phase, and we hope to report on its progress during 2014.

In parallel, novel applications of the Nucant family of peptides have emerged and these will be announced in the near future.

ImmuPharma has initiated the development of a novel and innovative peptide technology platform in collaboration with the University of Bordeaux and the CNRS. Further details will be announced shortly.

We continue to work diligently to maintain and further raise ImmuPharma's profile in the investment community and strive to continue an effective dialogue with our investors through various channels including group and one-to-one meetings as well as via our investor website.

Our key objectives for 2014 are to initiate the final development phase of Lupuzor™, either with a licensing partner or with supportive funding, to advance our Nucant programme in cancer and other indications and to focus on the exciting projects with the University of Bordeaux. We value the support and look forward to enhancing our key relationship with the Centre National de la Recherche Scientifique (CNRS), the largest fundamental research institution in Europe. As in previous years, this is to be achieved with solid financial management and carefully controlled expenditure.

ImmuPharma is focused on achieving key milestones in 2014. The Board would like to thank its shareholders for their ongoing support as well as its corporate and scientific advisors and the Centre Nationale de la Recherche Scientifique in France for their collaboration.

Richard Warr
Chairman

Dimitri F. Dimitriou
Chief Executive Officer

Dr Robert Zimmer
President

Financial Review

Financial Review

The year ended 31 December 2013 was focused on securing a sustainable future for Lupuzor™ and on ensuring the progress of our cancer programme with the ongoing progress of its clinical trial.

Income Statement

The overall loss for the year ended 31 December 2013 was £3.7m (2012: £3.8m). During 2013, research and development expenditure was £2.1m which is £0.45m more than that incurred in 2012. This was primarily due to the manufacture of Phase III trial supplies for Lupuzor™ and continued expenditure on our cancer trial programme. Administrative expenses were £2.2m down from £2.6m in 2012. This was mostly attributable to a reduction of professional fees. The Group posted a £148,166 loss on foreign exchange in 2013 compared to a loss of £76,327 on foreign exchange in 2012. This arises from the translation of the US dollar balance held by the Group's French subsidiaries. To date, the Group has not entered into any formal hedging arrangements to protect against such fluctuations. Total comprehensive loss for the period was £3.5m (2012: £4.2m), £0.2m lower than the loss for the year as a result of exchange gains on translation of foreign operations.

In previous years, IFRS2, relating to share-based payments has had an impact on the Group's results. There is a charge in the accounts of £8,844 which represents the current year charge for options previously granted. This is a notional amount stipulated by IFRS2 (and calculated using a statistical model) as a result of granting the options. A further £43,275 is due to be charged over the next two years accounts under IFRS2, being the remainder of the fair value charge. A further share based payment of £117,900 has been recognised in finance costs in the year, following the issue of warrants to Darwin Strategic Limited. The full charge has been made in the current year.

Balance Sheet

Cash and cash equivalents at 31 December 2013 amounted to £5.4m (2012: £8.9m). Financial borrowings were £1,117k (2012: £1,288k). This is primarily the conditional advance, from the French Government, for use in the development of our cancer programme. No interest is payable.

Darwin Equity Finance Facility

In May 2013, ImmuPharma agreed a £50 million equity finance facility with Darwin Strategic Limited. Although the facility has not been utilised to date, it gives ImmuPharma increased flexibility in securing the necessary support to begin Phase III for Lupuzor™.

Results

The Group recorded a loss for the year of £3.7m (2012: £3.8m). Basic and diluted loss per share was 4.52p (2012: 4.71p). No dividend is proposed.

Treasury Policy

The policy continues to be that surplus funds of the Group are held in interest-bearing bank accounts on short or medium maturities, until commitments to future expenditure are made, when adequate funds are released to enable future expenditure to be incurred. The Group's Treasury Policy and controls are straightforward and approved by the Board.

Financial Strategy

The overall strategy is to successfully find a suitable partner to advance Lupuzor™ and to maintain a tight control over cash resources whilst enabling controlled development of the potential product portfolio.

Tracy Weimar

Vice President, Operations and Finance

Strategic Report

Strategic Report

Business Overview and Prospects

The Directors present their Strategic Report for the Group for the year ended 31 December 2013.

Business Overview and Prospects

ImmuPharma's strategy and business model are different from many of our peers. We are a risk-averse company and our management team has extensive experience in senior positions in some of the world's leading pharmaceutical companies.

ImmuPharma focuses on developing pioneering and novel drugs in specialist therapeutic areas where there is a distinct lack of existing treatments, avoiding primary care (diseases treated by GPs) where many treatments exist. This is consistent with trends in the pharmaceutical industry.

Since our foundation, our research strategy has been to work closely with the largest fundamental research organisation in Europe, the Centre National de la Recherche Scientifique, (CNRS) in France. This collaboration enables us to access innovative research with substantial embedded value at a relatively low cost, and to work with many leading scientists and doctors. ImmuPharma has exclusive rights to all its intellectual property assets.

Our market strategy is to develop drug candidates to a point where further value can be added by licensing our assets to partners – primarily major pharmaceutical corporations - that are well-placed to further develop and/or commercialise them. Our corporate deal with Cephalon Inc. in 2008/2009, for the worldwide rights of our lead drug candidate for the treatment of Lupus, Lupuzor™ is one example of this strategy in action.

ImmuPharma's principal business objective is to enhance shareholder value through the development and commercialisation of novel drugs. Its strategies for achieving this objective include:

- Pursuing a low cost model of accessing world class research through our collaboration with the CNRS in France
- Selecting specialist therapeutic areas where there are high unmet needs and the potential for high pricing
- Managing the clinical development of novel drug candidates
- Seeking collaborative agreements with partner companies to further the development and commercialisation of novel drug candidates
- Maintaining a small corporate infrastructure to minimise costs

Strategic Report (continued)

Business Objectives and Strategy

ImmuPharma plc is a drug discovery and development company headquartered in London and listed on AIM of the London Stock Exchange (LSE:IMM). Its research operations are in France (ImmuPharma (France) SA) and Switzerland (ImmuPharma AG). ImmuPharma is dedicated to the development of novel drugs, largely based on peptide therapeutics, to treat serious medical conditions such as autoimmune diseases characterised by:

- Blockbuster potential in niche markets;
- High unmet medical need;
- Ability to command high pricing;
- Low marketing costs; and
- Relatively lower development costs.

ImmuPharma is currently developing drug candidates for five different medical conditions, each of which would represent a significant breakthrough in its field. The lead product candidate targets Lupus, a disease for which there is currently no cure or specific treatment, and was successfully licensed to Cephalon, Inc in February, 2009. In 2011, following the acquisition of Cephalon by Teva Pharmaceuticals, ImmuPharma was able to regain the rights to Lupuzor™. The other four address cancer, moderate to severe pain (such as that experienced by cancer sufferers and post-operative patients), MRSA and severe hospital-acquired resistant infections and inflammation/allergic disorders.

Collaboration with Centre National de la Recherche Scientifique (CNRS)

ImmuPharma has important collaboration arrangements with the Centre National de la Recherche Scientifique (CNRS), the French National Council for Scientific Research and also has links with the Institut National de la Sante et de la Recherche Medicale (INSERM), France's national institute for health and medical research.

As part of the collaboration arrangements, ImmuPharma has entered into a research agreement with CNRS which relates to the therapeutic use of peptides and peptide derivatives. ImmuPharma has been granted the worldwide exclusive rights to exploit all discoveries made pursuant to this agreement and will co-own the relevant intellectual property with the CNRS.

CNRS has granted additional exclusive worldwide licenses to ImmuPharma covering rights to discoveries made prior to this agreement but related to it. Applications for additional patents, to be jointly owned by CNRS and ImmuPharma, have already been and are being filed. CNRS is entitled to a share of the revenue generated by ImmuPharma from the exploitation of CNRS' licensed and co-owned rights.

ImmuPharma intends to continue its research in collaboration with CNRS and sub-contract labour intensive and non-core development activities to Contract Research Organisations (CROs). ImmuPharma intends to either manage the development of its own assets up to commercialisation or to seek collaborative agreements with larger pharmaceutical companies at an earlier stage.

Strategic Report (continued)

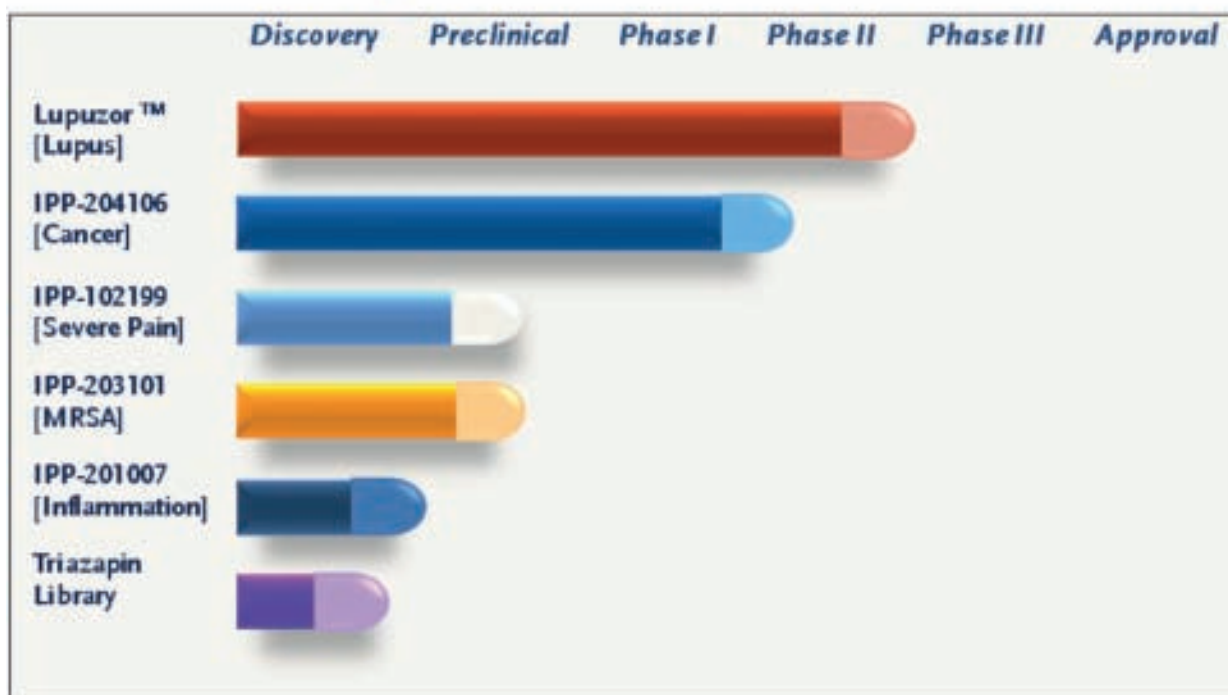

Product portfolio and pipeline

ImmuPharma currently has 5 lead drug candidates to treat, respectively:

- Lupus
- Cancer
- Moderate to severe pain such as cancer and post-operative pain;
- Severe resistant hospital-acquired infections such as MRSA; and,
- Inflammation/allergic conditions such as asthma and rheumatoid arthritis.

Each of these drug candidates are proprietary and represent a novel approach to therapy. The Company believes each has significant sales potential if successfully developed. In addition to its 5 lead candidates, ImmuPharma has its own proprietary drug discovery engine and library which, ImmuPharma believes, will continue generating a strong potential drug candidate pipeline and patent portfolio.

Diverse Pipeline

Strategic Report (continued)

Product Pipeline

Lupuzor™ – Treatment of lupus

Lupus (frequently manifested as Systemic Lupus Erythematosus or SLE) is a chronic, life-threatening autoimmune, inflammatory disease with a pattern of flares and remission. Lupus can affect multiple organs such as skin, joints, kidneys, blood cells, heart and lungs. It can appear in a multitude of forms, making diagnosis difficult with patients presenting to several different specialists (mainly dermatologists, rheumatologists and nephrologists). Awareness of the disease has steadily increased in recent years and should continue to do so due to well-organised patient groups and increased research and development activity into new treatments. New diagnostic tools are now in place and are increasingly used by physicians, which coupled with greater awareness, should lead to an increase in diagnosis rates.

ImmuPharma believes that Lupuzor™, which has developed through its collaboration with the CNRS, has the potential to be a novel specific first-line drug therapy for the treatment of Lupus by specifically modulating the immune system and halting disease progression in a substantial proportion of patients. Lupuzor™, taken over the long term, is intended to prevent the progression of Lupus rather than just treating its symptoms. Lupuzor™ has a unique mechanism of action that modulates the activity of CD4 T cells which are involved in the cell-mediated immune response which leads to the Lupus disease. The company believes that Lupuzor™ could leave the rest of the immune system working normally.

Lupuzor™ has successfully completed Phase IIb clinical trials and is ready to begin Phase III. Lupuzor™ has been given a Special Protocol Assessment (SPA) from the US Food and Drug Administration (FDA) to begin Phase III trials with Fast Track Designation. ImmuPharma is in active licensing discussions with a large number of other pharmaceutical companies and potential investors. In parallel, ImmuPharma is currently securing funding to commence the pivotal Phase III trial.

IPP-204106: Treatment of cancer

IPP-204106 is ImmuPharma's anti-cancer nucleolin/nucleophosmin antagonist ("Nucant") peptide programme and is part of the Group's ongoing research collaboration with the Centre National de la Recherche Scientifique (CNRS), France's scientific research institution.

IPP-204106 is a nucleolin/nucleophosmin antagonist, the lead molecule in a family of pseudopeptides designed to block the activity of a protein called nucleolin. Located in the nucleus of normal cells where it is protected, nucleolin is much more abundant (often 100 times more) at the surface of the cells which are proliferating as well as the surface of active endothelial cells where it can be a target for antagonist peptides. Cell surface expressed nucleolin is involved in the proliferation processes as well as in cell transformation. It is also a receptor for many growth factors and plays a key role in angiogenesis. Nucleolin antagonists have therefore both anti-angiogenic and anti-proliferative properties.

Pre-clinical and Phase I/IIa clinical trials have been successfully completed. The next generation "polyplexed Nucants", comprising small particles of the drug candidate has shown 10 times more potency in pre-clinical cancer models. In October 2012, ImmuPharma began dosing patients in the Phase I/II trial of the polyplexed Nucant formulation in three European hospitals including the prestigious Jules Bordet cancer institute in Belgium. The trial continues to progress through its dose escalation phase, and we hope to report on its progress in 2014. The intention is to conduct follow-up studies on patients showing the appropriate biomarkers with glioblastoma (brain tumour), metastatic melanoma, and pancreatic cancer where nuclear protein plays a role.

Strategic Report (continued)

Product Pipeline (continued)

Other Compounds and the Discovery Pipeline

In addition to Lupuzor™ and the cancer programme, ImmuPharma has three other pre-clinical development compounds and a discovery pipeline.

IPP--201007: Treatment of inflammatory/allergic conditions such as asthma and rheumatoid arthritis

Following investigation of its proprietary chemical library, ImmuPharma discovered a new molecular series with potential application in inflammatory/allergic conditions such as asthma and rheumatoid arthritis. These molecules, in the programme code-named IPP-201007, have utility as selective phospholipase A2 subtype inhibitors and are already patented through ImmuPharma's library broad patent.

IPP-102199: Treatment of Moderate and Severe Pain

ImmuPharma's lead drug candidate for pain relief is IPP-102199 which is being developed as a morphine replacement, with major advantages such as longer pain relief and reduced opioid side effects such as respiratory depression and dependency.

In preclinical studies, IPP-102199 has demonstrated efficacy over 24 hours when administered orally as a single dose. When given intravenously, IPP-102199 also shows activity for 24 hours and therefore may have the potential to be given just once a day. ImmuPharma has developed IPP-102199 using its proprietary Peptide-to-Drug-Converting Technology (PDCT), a key novel approach that allows peptides to be delivered orally and retain their efficacy, applied to met-enkephalin.

IPP-203101: Treatment of MRSA and other hospital-acquired infections

ImmuPharma, in conjunction with CNRS, has discovered a novel class of antibiotics based on the fact that bacteria (and other microorganisms) have electrically charged cell membranes whereas human cells do not. IPP-203101 is

a peptide-based antibiotic with a stable helical structure that can carry electrical charges which may interact with those of bacterial cell membranes. Bacteria are very efficient in mutating, thus inducing resistance to known antibiotics. It is however believed to be very unlikely that a bacterium can modify the fundamental properties of its membrane structure in such a way that IPP-203101 would not interact with it. The potential is for IPP-203101 to be able to effect cell death in a manner that the bacteria cannot circumvent through mutation. In vitro data shows stability in plasma of over 5 days, so it may be able to be used as a single injection.

The Discovery Pipeline

In addition to these 3 drug candidates, ImmuPharma has a promising proprietary discovery engine that should be able to sustain the generation of further novel compounds that either fit with ImmuPharma's strategic focus for internal development or allow substantial out-licensing opportunities.

Heterocyclic ureas scaffolds

ImmuPharma is co-owner with CNRS of a series of patents protecting a virtual library of heterocyclic urea molecules out of which 70 per cent are considered as "drug-like" based on their physiochemical characteristics. In comparison, commercially available libraries are generally considered to be 35-40 per cent "drug-like". Currently, it is estimated that up to 300,000 molecules may be able to be synthesised based on this core heterocyclic urea structure.

Peptide to drug converting technology (PDCT)

This technology increases the stability of peptides in plasma and therefore improves their activity. It may also facilitate the oral absorption of small peptides (like met-enkephalin). Improving the oral absorption of small peptides in humans would be a major advance in the development of effective medicines. The potent analgesic lead compound IPP-102199 described earlier is the first drug candidate to be developed using this technology.

Strategic Report (continued)

Review of Group Activity

As a drug development company, ImmuPharma does not currently have steady revenues. Its primary focus is to develop drug candidates sufficiently to attract a license partner to further develop and commercialise them. Therefore, at present, ImmuPharma is currently incurring an overall loss for the year ended 31 December 2013 of £3.7m (2012: £3.8m). During 2013, research and development expenditure was £2.1m and administrative expenses were £2.2m.

Key Performance Indicators

ImmuPharma plc is a drug discovery and development group. In keeping with organisations at a similar stage of development in the pharmaceutical and biotechnology sector, ImmuPharma's main activity involves incurring research and development expenditure. The overall strategy is to maintain a tight control over cash resources whilst enabling controlled development of the potential product portfolio.

Key objectives and performance

Objective	Key progress during the period
Successfully find a suitable partner or investor for Lupuzor™	<ul style="list-style-type: none"> • Numerous ongoing discussions under confidentiality agreement with potential partners – both self-generated and via Torrey Partners • The Company continues to engage in active discussions for both traditional licensing arrangements and more innovative investment models • The appointment of specialist consulting firm, Torrey Partners to support in corporate discussions
Develop potential product portfolio	<ul style="list-style-type: none"> • Lupuzor™ granted amended SPA for Phase III trials with Fast Track status by US FDA • Lupuzor™ – numerous discussions being held with potential partners • Cancer programme, IPP-204106, next generation, polyplexed Nucant has begun Phase I/IIa clinical trial in three European hospitals including the prestigious Institute Jules Bordet in Belgium • Collaboration with the University of Bordeaux established.
Maintain strong cash position	<ul style="list-style-type: none"> • Consolidated cash balance at 31 December 2013 was £5.4 million • £50 million Equity Finance Facility secured from Darwin Strategic • Further cash flow anticipated from the planned re-licensing of Lupuzor™ • Continued tight financial control to ensure effective overall expenditure

Strategic Report (continued)

Principal Risks and Uncertainties

Investors and potential investors are reminded about the risks involved surrounding an investment in the Company.

An investment in the Company involves a high degree of risk. Investors should consider carefully the following risks, before deciding to buy any shares. Additional risks and uncertainties not currently known to the Directors or that they currently deem to be immaterial may also impair its business operations. Investors may lose all or a part of their investment.

Lack of continuity of profits

While ImmuPharma was successful in licensing Lupuzor™ in 2008/2009 which resulted in revenue of £22m during that year, in common with most comparable businesses in the biotechnology/pharmaceutical sector, ImmuPharma has not been consistently profitable. The Directors expect it to incur additional losses for the near future as its research and development efforts progress. To become consistently profitable, ImmuPharma must successfully develop drug candidates and enter into profitable agreements with other parties and its drug candidates must receive regulatory approval. ImmuPharma or these other parties must then successfully manufacture and market the drug candidates. It could be several years, if ever, before ImmuPharma receives royalties from any future licence agreements or revenues directly from product sales. If ImmuPharma fails to obtain additional financing, it may be unable to complete the development and commercialisation of its drug candidates or continue its research and development programs.

Uncertainty of capital requirements and availability of funds

The Group's long-term capital requirements and the adequacy of available funds will depend upon many factors, including:

- the progress of its research, drug discovery and development programs;
- changes in existing collaborative relationships;
- its ability to establish additional collaborative relationships;
- the magnitude and outcome of its research and development programs;
- the scope and results of preclinical studies and clinical trials to identify drug candidates;
- competitive and technological advances;
- the time and costs involved in obtaining regulatory approvals;
- the costs involved in preparing, filing, prosecuting, maintaining and enforcing patent claims; its dependence on others for development and commercialisation of its drug candidates; and
- successful commercialisation of its products consistent with its licensing strategy.

Raising Capital

The Group may need to raise additional capital to complete the development and commercialisation of ImmuPharma's current drug candidates. Additional funding, whether through additional sales of shares or collaborative or other arrangements with corporate partners or from other sources, may not be available when needed or on terms acceptable to it. The issuance of preferred or ordinary shares, or the borrowing of additional funds with terms and prices significantly more favourable than those of the currently available ordinary shares, could have the effect of diluting or adversely affecting the holdings or rights of existing shareholders. In addition, collaborative arrangements may require ImmuPharma to transfer certain material rights to such corporate partners. Insufficient funds may require it to delay, scale-back or eliminate certain of its research and development programs.

Reliance on third parties

ImmuPharma relies heavily upon other parties (including contract research organisations) for many important stages of its drug development programs, including execution of some Pre-Clinical studies and later-stage development for its compounds and drug candidates, management of its clinical trials, including medical monitoring and data management, management of its regulatory function, and manufacturing, sales, marketing and distribution of its drug candidates.

Development risk

If the clinical trials of any of ImmuPharma's drug candidates fail, that drug candidate will not be marketed, which would result in a complete absence of revenue from the failed product. The drug development process and achievement of regulatory approvals is complex and uncertain. Because of the cost and duration of

Strategic Report (continued)

Principal Risks and Uncertainties (continued)

clinical trials, the Directors may decide to discontinue development of drug candidates that are either unlikely to show good results in the trials or unlikely to help advance a product to the point of a meaningful collaboration. Positive results from pre-clinical studies and early clinical trials do not ensure positive results in clinical trials designed to permit application for regulatory approval.

Competition

ImmuPharma's competitors include amongst others, major pharmaceutical, biotechnology and healthcare companies with substantially greater resources than those of the Group. The areas in which ImmuPharma has chosen to conduct its research and development are very attractive areas to all its competitors. There is no assurance that competitors will not succeed in developing products that are more effective or economical than those being developed by ImmuPharma or which would render its products obsolete and/or otherwise uncompetitive.

Furthermore, there is no guarantee that the drug candidates being developed by ImmuPharma have either a better safety profile, dosing profile and/or efficacy profile than products that are already marketed by its competitors and this may adversely affect the sales of any new products.

Health authorities

The ability of ImmuPharma and any of its licensees or collaborators to commercialise its products also depends on the extent to which reimbursement for the cost of such products and related treatments will be available from government health administration authorities, private health providers and other organisations. There is uncertainty as to the reimbursement status of newly approved healthcare products, and there is no assurance that adequate, or indeed any, health administration or third party coverage will be available to ImmuPharma or its partners to obtain satisfactory price levels.

Patents

The commercial success of ImmuPharma depends to a great extent upon its ability to obtain patent protection for its products in Europe, the US and other countries and to preserve the confidentiality of its know-how. The successful commercialisation of its products, whether by itself or by third parties, as licensees or collaborators, is largely dependent on the extent of the intellectual property protection obtained. No assurance is given that ImmuPharma will develop products that are patentable, or that patents will be sufficiently broad in their scope to provide protection for ImmuPharma's intellectual property rights and exclude competitors with similar technology. The commercial success of ImmuPharma is dependent, in part, on non-infringement of patents granted to third parties. Competitors or potential competitors may have filed applications, or may have been granted or may obtain patents that may relate to products competitive with those of ImmuPharma. If this is the case then

ImmuPharma may have to obtain appropriate licences under these patents or cease and/or alter certain activities or processes, or develop or obtain alternative technology. There can be no assurance that, if any licences are required, ImmuPharma will be able to obtain any such licences on commercially favourable terms, if at all.

Liability risks

ImmuPharma's business exposes it to potential liability risks, which are inherent in research and development, manufacturing, marketing and use of human therapeutic products. There can be no assurance that future necessary insurance cover will be available to ImmuPharma at an acceptable cost, if at all, or that, in the event of any claim, the level of insurance carried by ImmuPharma now or in the future will be adequate or that a liability or other claim would not materially and adversely affect the business.

Strategic Report (continued)

Principal Risks and Uncertainties (continued)

Reliance on personnel

ImmuPharma is dependent on the principal members of its management and scientific staff. Recruiting and retaining qualified personnel, consultants and advisers will be important to its success. There can be no assurance that ImmuPharma will be able to recruit the new staff required in its business plan and retain its personnel on acceptable terms given the competition for such personnel from competing businesses. The loss of service of any of ImmuPharma's personnel could impede the achievement of its objectives.

Environmental hazards

ImmuPharma and its third party contractors are subject to laws, regulations and policies relating to environmental protection, disposal of hazardous or potentially hazardous substances, healthy and safe working conditions, manufacturing practices and fire hazard control. There can be no assurance that ImmuPharma or its collaborators will not be required to incur significant costs to comply with future laws, regulations and policies relating to these or similar matters. The risk of accidental contamination or injury from certain materials cannot be eliminated. In the event of such an accident, ImmuPharma could be held liable for any damage that results and any such liability could exceed its resources.

Regulation

Changes in government regulations or enforcement policies could impose more stringent requirements on ImmuPharma, compliance with which could adversely affect its business. Failure to comply with applicable regulatory requirements could result in enforcement action, including withdrawal of marketing authorisation, injunction, seizure of products and liability for civil and/or criminal penalties.

Share price and liquidity

The share price of publicly traded biotechnology and emerging pharmaceutical companies can be highly volatile. The price at which the Company's shares will be quoted and the price which investors may realise for their shares will be influenced by a large number of factors, which could include the performance of both ImmuPharma's and its competitor's research and development programs, large purchases or sales of the Company's shares, legislative changes in the healthcare environment and general economic conditions. The volume of share trading on the Alternative Investment Market can be limited and this may restrict the ability of shareholders to dispose of their shareholding at any particular time.

Investment in shares traded on AIM is perceived to involve a higher degree of risk and be less liquid than investment in companies the shares of which are listed on the Official List. An investment in the Company's Shares may be difficult to realise. Prospective investors should be aware

that the value of an investment in the Company may go down as well as up and that the market price of the Company's shares may not reflect the underlying value of the Company. Investors may therefore realise less than, or lose all of, their investment.

Forward looking statements

This document contains certain statements that are not historical facts and may be forward-looking statements that are subject to a variety of risks and uncertainties. There are a number of important factors that could cause actual results to differ materially from those projected or suggested in any forward-looking statement made herein.

These factors include, but are not limited to:

(i) ImmuPharma's and/or ImmuPharma's partners' ability to successfully complete product research and development, including pre-clinical and clinical studies and commercialisation; (ii) ImmuPharma's and/or ImmuPharma's partners' ability to obtain required governmental approvals, including product and patent approvals, the impact of pharmaceutical industry regulation, the difficulty of predicting FDA and other regulatory authority approvals, the regulatory environment and changes in the health policies and structure of various countries; (iii) the acceptance and demand for new pharmaceutical products and new discovery-enabling technologies such as the use of cells and (iv) ImmuPharma's ability to attract and/or maintain manufacturing, sales, distribution and marketing partners; and (v) ImmuPharma's and/or ImmuPharma's partners' ability to develop and commercialise products before its

Strategic Report (continued)

Principal Risks and Uncertainties (continued)

competitors and the impact of competitive products and pricing, the availability and pricing of ingredients used in the manufacture of products, uncertainties regarding market acceptance of innovative products newly launched, currently being sold or in development. In addition, significant fluctuations in financial results may occur as a result of the timing of milestone payments and the timing of costs and expenses related to ImmuPharma's research and development program.

Without limiting the generality of the foregoing, no assurance is given as to when ImmuPharma's products will be launched or licensed, or whether that launch or licensing will be commercially successful, and words such as "may", "will", "to", "expect", "plan", "believe", "anticipate", "intend", "could", "would", "estimate" or "continue" or the negative or other variations thereof or comparable terminology is intended to identify forward-looking statements.

If one or more of these risks or uncertainties materialises, or if underlying assumptions prove incorrect, the Group's actual results may vary materially from those expected, estimated or projected. Given these risks and uncertainties, potential investors should not place any reliance on forward-looking statements.

Neither the Directors nor the Company undertake any obligation to update forward-looking statements or risk factors other than as required by the AIM Rules or by applicable law, whether as a result of new information, future events or otherwise.

Board of Directors

Board of Directors

Richard Warr, MA

Chairman

Mr. Warr has more than 20 years experience in investment banking and the capital markets having held a number of senior positions. He was a director at ABN Amro Equities (now Royal Bank of Scotland) and a member of the ABN Amro team rated number one in the 2001 Reuters UK smaller companies survey. He is former Head of European Equity Sales and Marketing at Credit Lyonnais (now Credit Agricole), a former executive director of Dresdner Kleinwort Benson (now Commerz Bank) and former Head of European Equity Distribution at Swiss Bank Corporation (now Union Bank of Switzerland). He is a graduate of Oxford University.

Dimitri Dimitriou, MSc

Chief Executive Officer

Mr. Dimitriou has more than 25 years experience in the pharmaceutical and biotech industry. He was Senior Director, Worldwide Business Development at GlaxoSmithKline, where his responsibilities included corporate deals with pharmaceutical and biotech companies on a worldwide basis. He is also the founder and CEO of DyoDelta Biosciences Ltd, a company specialising in transactions between pharma and biotech companies. His other past positions included Senior Director of Business Development in Europe for Bristol-Myers Squibb, and a number of managerial positions in the pharmaceutical division of Procter & Gamble and marketing at Novartis. He received his first degree in Biochemistry from King's College prior to graduating in Pathology & Toxicology from the Royal Postgraduate Medical School (now Imperial College Medical School) in London in 1984.

Dr. Robert Zimmer, MD, PhD

President and Chief Scientific Officer

Dr. Robert Zimmer was the CEO and founder of ImmuPharma's operations in Switzerland and France. He is a physician and obtained his MD at Strasbourg Medical School and his PhD at the University of Aix-Marseille. He became a department director at the "Fondation de Recherche en Hormonologie" in Paris. He began his career in the industry in 1985 in Roche's headquarters in Basle, Switzerland responsible for numerous clinical studies. He was a director and head of R&D at SkyePharma plc. He was instrumental in the development of a substantial number of products for companies including Roche, GlaxoSmithKline, Abbott, Searle, Sanofi -Aventis and Lilly; some of which reached the market, such as Paxil CR (GSK), Xatral LP (Sanofi) and Madopar CR (Roche).

Dr. Franco Di Muzio

Non-Executive Director

Dr. Di Muzio has 40 years experience in the pharmaceutical and other industries, encompassing international management experience in business development, strategic marketing, international finance, M&A and re-engineering businesses. After graduating in Economics and Business in 1963, Dr Di Muzio worked for Colgate Palmolive and Nestle before joining Squibb (now Bristol Myers Squibb) for 18 years. He then became Executive Vice President of BMS' medical equipment and products division, Weck International Inc., in charge of Europe, Asia, Middle East and Africa. In 1990, he joined Glaxo Wellcome plc (now GlaxoSmithKline plc) in London as Area Managing Director and Head of all GW's business in the Middle East, Africa and Turkey. Following early retirement from GW, in the beginning of 1998, he joined Alza International, the then world leader in drug delivery systems, as Managing Director, based in London, in charge of the company's business expansion in all markets outside of the US and remained there until the end of 2000.

Dr. Ajay Agrawal

Non-Executive Director

Dr Agrawal has almost 20 years experience in the biotech and pharmaceutical industry worldwide. He was a founder of polyMASC Pharmaceuticals plc, London in 1995, the first UK biotech company, derived from a university that was directly listed on AIM, raising approximately \$40 million in 1995, and subsequently merged with a NASDAQ-listed company, Valentis Inc (USA) in 1999 to become one of the biggest companies in the delivery of biologics at that time. He currently sits on the editorial advisory board of three prestigious international journals, Current Drug Delivery, Infectious Disorders- Drug Targets, and Recent Patents on Drug Delivery and Formulation, Bentham Press, California, USA. Dr Agrawal has been a consultant to a number of companies in the sector, including Genovac GmbH (Germany), Qiagen (Germany), Aldevron (USA), PHT Pharma (Italy) and Karo Bio (Sweden). He holds a PhD in Chemistry and has conducted his post-doctoral research in the faculty of Medicine, University of Alberta, Canada and at the Royal Free Hospital in London.

Company Secretary

Tracy Weimar, BA, MBA

Vice President and Operations and Finance

Ms Weimar has over 14 years of experience in the pharmaceutical industry. Her most recent position was Director of Worldwide Business Development, GlaxoSmithKline where she was involved in a number of corporate licensing deals. She also held a number of positions in health economics, strategy development, sales and marketing. Prior to joining GlaxoSmithKline, she spent five years at Arthur Andersen in San Francisco and London where she was responsible for a range of consulting and compliance projects. Ms Weimar holds an MBA from London Business School and a BA in Economics from the University of California, Berkeley.

Scientific Collaborators

Scientific Collaborators

Dr. Sylviane Muller, PhD

Co-founder of ImmuPharma France SA

Dr. Muller is senior research director and head of the immunologie et chimie thérapeutiques unit of the Centre National de la Recherche Scientifique (CNRS), France's scientific research institution. Her field of expertise covers auto-immunity, immuno-peptides and synthetic vaccines. She has made 13 patented discoveries and is widely published. She was also founder of NeoMPS, a leading peptide development and manufacturing company. She is the key inventor of ImmuPharma's lead drug candidate for Lupus, LUPUZOR™, and has been working in this field for more than five years.

Dr. Gilles Guichard, PhD

Co-founder of ImmuPharma France SA

Dr. Guichard is senior researcher in the chimie et immunologie des peptides-medicaments unit of the Centre National de la Recherche Scientifique (CNRS), France's scientific research institution and is co-inventor of the heterocyclic ureas and oligoureas chemistry. He leads various research groups in the field of chemistry and peptide mimicry including one dedicated to the development and process improvement of the heterocyclic urea library. He received the CNRS bronze award for the excellence of his research activities and has made eight patented discoveries.

Dr. Jean-Paul Briand, PhD

Co-founder of ImmuPharma France SA

Dr. Briand is research director of the immunologie et chimie therapeutiques unit of the Centre National de la Recherche Scientifique (CNRS), France's scientific research institution, and co-inventor of the heterocyclic ureas and oligoureas chemistry. He has extensive industry experience in peptide chemistry and synthesis in Peninsula, USA and was also a founder of NeoMPS, a leading peptide development and manufacturing company.

Dr. Jose Courty, PhD

Dr. Courty is CNRS Research Director and head of the 'Croissance, Réparation et Régénération Tissulaires', a unit of both the Centre National de la Recherche Scientifique and the University Paris EST Créteil. He has been working for several years on tumour growth and angiogenesis and has good expertise in the field of growth factors and the regulation of their biological activities. He is a co-inventor of ImmuPharma's lead compound for the treatment of cancer IPP-204106 molecule also named Nucant.

Corporate Governance Report

The Directors continue to recognise the importance of sound corporate governance. At this stage of the Company's development the Directors consider that full compliance with the UK Combined Code would be too onerous, but nevertheless, the company acts with regard to its main provisions as far as is practicable and appropriate for a public company of its size. In September 2010, the Quoted Companies Alliance published *Corporate Governance Guidelines for Smaller Quoted Companies* to guide the corporate governance policies of those smaller companies for which the full UK Combined Code would be inappropriate. The Company finds that these guidelines provide a useful basis for its corporate governance practices. The Company has noted that the Quoted Companies Alliance has recently published a Corporate Governance Code for Small and Mid-Size Quoted Companies 2013. It is reviewing these new guidelines with a view to incorporating the principles going forward.

In the table below, details of the Board of Directors are summarised:

Name	Title	Independent	Committee Memberships
Mr Richard Warr	Chairman		
Mr Dimitri Dimitriou	Chief Executive Officer		
Dr Robert Zimmer	President and Chief Scientific Officer		
Dr Franco di Muzio	Senior Non-Executive Director	X	Audit, Remuneration
Dr Ajay Agrawal	Non-Executive Director	X	Audit, Remuneration

Brief biographies of each director are set out on page 19. The Company believes that the skills and experience of each director are of the appropriate mix to provide effective governance and management of the business. The Board is supported by the Company Secretary, Tracy Weimar, who is not a director.

The Board considers the two non-executive directors to be independent and to represent the interests of shareholders. Both independent directors have considerable relevant experience to sufficiently question and hold the executive directors to account.

The Board meets regularly throughout the year with all decisions concerning the direction and control of the business made by a quorum of the Board. The Board met 10 times during 2013 with the attendance records of the directors as follows:

Mr Richard Warr, Chairman – 8/10

Mr Dimitri Dimitriou, Chief Executive Officer – 9/10

Dr Robert Zimmer, President and Chief Scientific Officer – 10/10

Dr Franco di Muzio, Senior Non-Executive Director – 8/10

Dr Ajay Agrawal, Non-Executive Director – 7/10

The principal control mechanisms agreed by the Board are the Medium Term Business Plan and the Annual Budget for expenditure. These items are discussed by the Board on a regular basis.

Risk assessment is a priority for the Board. The major risks to the business were listed in some detail in the prospectus at the time of the float and are laid out in detail in pages [13-16.] They concern mainly the control and timely progress of clinical trials and the obtaining of regulatory approval and profitable agreements with other parties, with adequate financial resources to achieve these objectives.

Although the Company's Articles of Association do not require Directors to submit themselves for re-election every three years, the Board has resolved to adopt this principle and appropriate resolutions will be placed before shareholders at future Annual General Meetings.

The Board seeks to promote efficient and effective shareholder communication. The Company meets with its institutional shareholders and analysts as appropriate and holds its Annual General Meeting to facilitate communication with shareholders. Information is further provided in the form of the Annual Report and Accounts, the Interim Statement and its website.

Corporate Governance Report (continued)

An Audit Committee and a Remuneration Committee have been established with formally delegated duties and responsibilities. The members of both committees are the non-executive Directors.

Audit Committee

The Audit Committee which determines the engagement of the Company's auditors and, in consultation with them, the scope of their audit. The Audit Committee receives and reviews reports from management and the auditors relating to the interim and annual accounts and the accounting and internal control systems in use by the company. It has unrestricted access to the auditors.

The Board and the Audit Committee review the need for an internal audit function on an annual basis and currently do not consider it to be necessary at this stage in the Company's development.

The Directors acknowledge their responsibilities for the Group's system of internal financial controls. They have not, during the year ended 31 December 2013, carried out a formal review of internal financial controls in view of the small size of the Board and employees. The Group's financial reporting arrangements are designed to provide the Directors with reasonable assurance that problems are identified on a timely basis and dealt with appropriately.

Remuneration Committee

The Remuneration Committee reviews the scale and structure of the executive Directors' remuneration and benefits and the terms of their service contracts. The remuneration of the non-executive directors is determined by the Board as a whole.

The Committee has formal terms of reference and meets at least twice a year. It is the duty of the Committee, inter alia, to determine and agree with the Board the framework or broad policy for the remuneration of the Company's executive board members. The remuneration packages are designed to motivate and retain Executive Directors to ensure the continuing development of the company and to reward them for enhancing value to shareholders.

The Company operates a discretionary bonus scheme with bonuses to be awarded by the Remuneration Committee. There were no salary/fee increases, no bonuses and no share option grants for the directors during 2013. The Company has also implemented an incentive scheme for key executives to encourage the successful partnering of Lupuzor.

The Group has implemented a patent incentive scheme which is open to all employees and is designed to encourage the creation of novel patents that will bring future economic benefits to the Group.

Further details of remuneration paid during the year to 31 December 2013 are shown in the Directors Report and in the Notes to the Accounts.

Directors' Report

The directors present their report and the audited financial statements of ImmuPharma plc (the "Company", and collectively with the subsidiary companies, the "Group") for the year ended 31 December 2013.

Principal activities

The principal activity of the Group and Company in the year under review was that of pharmaceutical research and development.

Results and dividends

The consolidated income statement is set out on page 30.

The directors do not recommend the payment of a dividend.

Business review, research and development and future developments

The Strategic Report includes a review of the business, as well as a commentary regarding research and development, and future developments (see page 7). The principal risks and uncertainties facing the group are considered on pages 13 - 16.

Directors

The following directors of the Company have held office since 1 January 2013:

Richard Leonard Warr
Dimitri Dimitriou
Dr Robert Henri Zimmer
Dr Franco Di Muzio
Dr Ajay Agrawal

Directors remuneration

The following amounts were payable to the directors of ImmuPharma plc across the Group in relation to the year ended 31 December 2013:

Director	Salary/Fees £	Benefits £	Total remuneration 2013 £	Total remuneration 2012 £
Richard Warr	237,600	59,400	297,000	297,000
Dimitri Dimitriou	239,600	59,900	299,500	301,881
Robert Zimmer	383,439	95,860	479,299	458,251
Franco di Muzio	53,525	-	53,525	102,368
Ajay Agrawal	107,294	-	107,294	157,030
Total	1,021,458	215,160	1,236,618	1,316,530

The following share options were outstanding to the directors of ImmuPharma plc in relation to the year ended 31 December 2013 (see note 19 for more detail):

Director	Options granted on 4 February 2009	Options granted on 31 July 2007	Options granted on 16 February 2006	Share options outstanding 2013	Share options outstanding 2012
Richard Warr	140,000	140,000	750,000	1,030,000	1,030,000
Dimitri Dimitriou	140,000	140,000	750,000	1,030,000	1,030,000
Robert Zimmer	150,000	150,000	750,000	1,050,000	1,050,000
Franco di Muzio	100,000	100,000	-	200,000	200,000
Ajay Agrawal	100,000	100,000	-	200,000	200,000
Total	630,000	630,000	2,250,000	3,510,000	3,510,000

Directors' Report (continued)

The company does not operate a pension plan, health plan or company car plan. Directors are paid a cash benefit and encouraged to make their own arrangements. There were no bonus payments to directors in 2013. No share options were granted to directors during 2013. Dr Ajay Agrawal's fees include a consultancy project undertaken for ImmuPharma France SA for which he was paid £60,000. As referred to in Note 21, the £159,499 received by D Dimitriou in lieu of directors fees for the year ended 31 December 2013 is included in the table above.

Third party indemnity provision for directors

Qualifying third party indemnity provision for the benefit for 5 directors was in force during the financial year and as at the date this report is approved.

Substantial shareholdings

Up to 31 March 2014, the Directors are not aware of any interest of 2% or more in the share capital of the Company other than the persons noted below.

	Number of ordinary 10p shares	% of issued share capital	Options to acquire ordinary shares
Dr Robert Zimmer	23,056,602	28.02%	1,050,000
Pictet Asset Management	4,231,000	5.14%	-
Aviva plc and subsidiaries	3,726,047	4.53%	-
Dimitri Dimitriou	3,528,968	4.29%	1,030,000
Richard Leonard Warr	3,518,968	4.28%	1,030,000
Mr Daniel Hegglin	2,357,950	2.87%	-
Brewin Dolphin	1,968,011	2.39%	
Odey Asset Management	1,650,000	2.01%	

Financial instruments and financial risk management

Information regarding the use of financial instruments and the approach to financial risk management is detailed in notes 1 and 2 of the financial statements.

Disclosure of information to the auditors

In the case of each person who was a director at the time this report was approved they have:

- taken all the necessary steps to make themselves aware of any information relevant to the audit and to establish that the auditors are aware of that information; and
- so far as they are aware, there is no relevant audit information of which the auditors have not been made aware.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Auditor

A resolution to reappoint the auditors, Nexia Smith & Williamson, will be proposed at the next Annual General Meeting.

On behalf of the Board

Tracy Weimar

Secretary

20 May 2014

Statement of Directors' Responsibilities

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the group and parent company financial statements in accordance with applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the Group and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state that the financial statements comply with IFRSs as adopted by the European Union subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and the group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for ensuring that they meet their responsibilities under the AIM Rules.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditor's report To the members of Immupharma plc

We have audited the financial statements of ImmuPharma plc for the year ended 31 December 2013 which comprise the Consolidated Income Statement, the Consolidated and Company Statements of Comprehensive Income, the Consolidated and Company Statements of Financial Position, the Consolidated and Company Statement of Cash Flows, the Consolidated and Company Statements of Changes in Equity and the related notes 1 to 23. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union and, as regards the Company financial statements, as applied in accordance with the provisions of the Companies Act 2006.

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Statement of Directors' Responsibilities set out on page 25, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Financial Reporting Council's (FRC's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the FRC's website at www.frc.org.uk/apb/scope/private.cfm.

Opinion on financial statements

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and the Company's affairs as at 31 December 2013 and of the Group's loss for the year then ended;
- the Group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union;
- the Company financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union and as applied in accordance with the provisions of the Companies Act 2006; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the Company, or returns adequate for our audit have not been received from branches not visited by us; or
- the Company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Notes to the Consolidated Financial Statements

for the year ended 31 December 2013

1 Accounting policies

The principal accounting policies are summarised below. They have all been applied consistently throughout the financial years contained in these financial statements.

Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union as applied in accordance with the provisions of the Companies Act 2006.

The financial statements have been prepared under the historical cost convention.

The Company has taken advantage of the exemption provided under section 408 of the Companies Act 2006 not to publish its individual income statement and related notes.

Critical accounting judgements and key sources of estimation uncertainty

The preparation of financial statements in conformity with generally accepted accounting practice requires management to make estimates and judgements that affect the reported amounts of assets and liabilities as well as the disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting year.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In determining the fair value of equity settled share based payments and the related charge to the Income Statement, the Group makes assumptions about future events and market conditions. In particular, judgement must be made as to the likely number of shares that will vest, and the fair value of each award granted. The fair value is determined using a valuation model which is dependent on further estimates, including the group's future dividend policy, employee turnover, the timing with which options will be exercised and the future volatility in the price of the Group's shares. Such assumptions are based on publicly available information, where available, and reflect market expectations and advice taken from qualified personnel. Assumptions about these factors which are different to those made by the Group could materially affect the reported value of share based payments.

New standards and interpretations

The following standard has been adopted by the Group for the first time for the financial year beginning on 1 January 2013 and has a material impact on the Group:

Amendment to IAS 1, 'Presentation of Financial Statements' regarding other comprehensive income. The main change resulting from these amendments is a requirement for entities to group items presented in 'other comprehensive income' (OCI) on the basis of whether they are potentially reclassifiable to profit or loss subsequently (reclassification adjustments).

At the date of authorisation of these financial statements, the following new standards and interpretations have been issued but are not yet effective and have not been applied in these financial statements:-

- IFRS 9 - Financial Instruments (*)
- IFRS 10 - Consolidated Financial Statements
- IFRS 12 - Disclosure of Interests in Other Entities
- IAS 27 - Separate Financial Statements
- Amendments to IAS 36: Recoverable Amount Disclosures for Non-Financial Assets
- Annual improvements to IFRSs 2010- 2012 cycle (*)

(*) not yet endorsed by EU

The directors do not anticipate that the adoption of these standards and interpretations will have a material impact on the Group's financial statements. Certain of these standards and interpretations will require additional disclosures over and above those currently included in these financial statements in the period of application.

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

1 Accounting policies (continued)

Basis of consolidation

Both the consolidated and the Company's financial statements are for the year ended 31 December 2013 and present comparative information for the year ended 31 December 2012. All intra-group transactions, balances, income and expenditure are eliminated upon consolidation.

The Group's financial statements incorporate the financial statements of ImmuPharma plc and other entities controlled by the company ('the subsidiaries'). Control is achieved where the company has the power to govern the financial and operating policies of an investee entity so as to obtain benefits from its activities. The financial statements of these other entities cease to be included in the Group financial statements from the date that control ceases.

Revenue

Grant income

Revenue relates to grants received by ImmuPharma (France) SA. In respect of certain grants, the proportion of the grant received recognised as revenue in the year is based upon the proportion of the relevant project costs actually incurred as at the year end, compared with the projected total costs over the life of that project. For other grants, the amount of grant receivable is based upon the costs of specific research staff and in respect of these grants, the amount recognised as revenue is matched to the cost incurred.

Foreign currency

i) Income statement

The presentational and functional currency of ImmuPharma plc is sterling (£). Transactions in foreign currency are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Any gains or losses arising on translation are taken to the income statement.

ii) Translation reserve

The main functional currencies of the overseas subsidiaries are the Euro and the Swiss Franc. On consolidation, the assets and liabilities of the Group's overseas operations are translated at exchange rates prevailing on the balance sheet date. Income and expenses are translated at the average exchange rates for the period unless exchange rates fluctuate significantly. Exchange differences arising are classified as equity and transferred to the group's translation reserve. Such cumulative translation differences are recognised as income or as expenses in the period in which the operation is disposed of.

Taxation

The tax expense represents the sum of the tax currently payable and any deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the Income Statement as it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantially enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Investments in subsidiaries

Investments in subsidiaries are stated at cost less any provision for impairment.

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

1 Accounting policies (continued)

Intangible assets

Research expenditure is charged to the income statement in the year in which it is incurred.

An internally generated asset arising from the group's development activities is only recognised if all of the following conditions are met:

- an asset is created that can be identified
- it is probable that the asset created will generate future economic benefits; and
- the development cost of an asset can be measured reliably.

In the case of development projects undertaken by the group, regulatory and other uncertainties generally mean that such criteria are not met. Where no internally generated intangible asset can be recognised, development expenditure is recognised as an expense in the year in which it is incurred.

In process research and development acquired as part of a business combination is recognised separately from goodwill where the associated project meets the definition of an intangible asset and its fair value can be measured reliably. In process research and development assets arising as a consequence of a business combination are amortised on a straight-line basis over their useful lives from the point in time at which the asset is available for use.

Patents are stated at purchase cost and are amortised on a straight-line basis over their estimated useful lives of 15 years from the date of patent registration.

Property, plant and equipment

Tangible fixed assets are stated at cost, net of depreciation and provision for any impairment. Depreciation is calculated to write off the cost of all tangible fixed assets to estimated residual value by equal annual instalments over their expected useful lives as follows:

Fixtures, fittings and equipment: 2 – 5 years

Impairment of tangible and intangible assets

At each balance sheet date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). An impairment loss is immediately recognised as an expense, in the Income Statement.

Share based payments

The Group issues equity-settled share based payments to certain employees and corporate entities. These are measured at fair value (excluding the effect of non-market based vesting conditions) at the date of grant. The fair value determined at the grant date is expensed on a straight line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non market-based vesting conditions.

Fair value is measured by use of the Black Scholes model in respect of options granted during 2013. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

Provisions

In respect of National Insurance contributions on share option gains, the Company provides in full for the employer's National Insurance liability estimated to arise on the future exercise of the unapproved share options granted. The amount of National Insurance payable will depend on the number of employees who remain with the Company and exercise their options, the market price of the Company's Ordinary shares at the time of exercise and the prevailing National Insurance rate at that time.

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

1 Accounting policies (continued)

Equity

Share capital is determined using the nominal value of shares that have been issued.

The Share premium account includes any premiums received on the initial issuing of the share capital. Any transaction costs associated with the issuing of shares are deducted from the Share premium account, net of any related income tax benefits.

The Merger reserve represents the difference between the nominal value and the market value at the date of issue of shares issued in connection with the acquisition by the Group of an interest in over 90% of the share capital of another company.

The Acquisition reserve includes those adjustments arising on reverse acquisition of the Company by ImmuPharma (UK) Limited.

Foreign currency translation differences are included in the Translation reserve.

Equity-settled share-based payments are credited to the Equity shares to be issued reserve as a component of equity until related options or warrants are exercised.

Retained earnings includes all current and prior period results as disclosed in the income statement.

Financial instruments

Financial assets and financial liabilities are recognised on the balance sheet when the Group becomes a party to the contractual provisions of the instrument. An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities and when issued by the Group is recorded at the proceeds received, net of direct issue costs.

Trade and other receivables are measured at initial recognition at fair value, and are subsequently measured at amortised cost using the effective interest method. A provision is established when there is objective evidence that the Group will not be able to collect all amounts due. The amount of any provision is recognised in the income statement.

Cash and cash equivalents comprise cash held by the Group and short-term bank deposits with an original maturity of three months or less.

Trade and other payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Non-interest bearing loans and overdrafts are initially recorded at fair value, which is ordinarily equal to the proceeds received net of direct issue costs. Finance costs are accounted for on an accruals basis in the income statement using the effective interest method.

2 Financial risk management

The Group uses a limited number of financial instruments, comprising cash, short-term deposits, loans and overdrafts and various items such as trade receivables and payables, which arise directly from operations. The Group does not trade in financial instruments.

Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, and interest rate risk), credit risk, liquidity risk and cash flow interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

2 Financial risk management (continued)

Financial risk factors (continued)

a) Foreign exchange risk

The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to Sterling, the Euro and the US dollar. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.

Foreign exchange risk arises when future commercial transactions or recognised assets or liabilities are denominated in a currency that is not the entity's functional currency.

The Group has certain investments in foreign operations, whose net assets are exposed to foreign exchange risks.

The Group did not enter into any arrangements to hedge this risk, as the Directors' did not consider this risk to be significant. The Directors will review this policy as appropriate in the future.

b) Credit risk

The Group has no significant concentrations of credit risk and has policies in place to ensure that sales are made to customers with an appropriate credit history.

c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and available funding through an adequate amount of committed facilities. The Group ensures it has adequate cover through the availability of funding and facilities.

d) Cash flow and interest rate

The Group finances its operations through a mix of equity finance and borrowings. Borrowings are generally non-interest bearing.

3 Segment information

- Group

IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker to allocate resources to the segments and to assess their performance. In accordance with IFRS 8, the chief operating decision maker has been identified as the Board of Directors. They review the Group's internal reporting in order to assess performance and allocate resources. The Board of Directors consider that the business comprises a single activity, being the development and commercialisation of pharmaceutical products. Therefore, the Group is organised into one operating segment and there is one primary reporting segment. The segment information is the same as that set out in the Consolidated Income Statement, Consolidated Statement of Comprehensive Income, Consolidated Statement of Financial Position, Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows.

The loss before taxation of £2,735,467 (2012: £2,751,527) originates in France, with losses before taxation of £1,701,906 (2012: £1,419,051) and profit before taxation of £3,483 (2012: £2,325) originating in the United Kingdom and Switzerland respectively.

Total non-current assets of £694,057 (2012: £735,817) originates in France and £5,162 (2012: £6,694) from the United Kingdom.

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

4 Staff costs

- Group

The average monthly number of employees of the Group (including executive directors) were:

	Year ended 31 December 2013 No.	Year ended 31 December 2012 No.
Drug research and development, and commercial operations	4	4
Administration and management	3	3
	7	7

Their aggregate remuneration comprised:

	Year ended 31 December 2013 £	Year ended 31 December 2012 £
Wages and salaries	1,574,628	1,581,033

Share-based payment	8,844	67,072
	1,738,482	1,687,492

Directors' emoluments

The following disclosures are in respect of emoluments payable across the Group to the directors of ImmuPharma Plc:

	Year ended 31 December 2013 £	Year ended 31 December 2012 £
Fees	160,819	259,398
Salaries and benefits	1,075,799	1,057,132
	1,236,618	1,316,530

Please refer to information in the Directors report on page 26 in respect for amounts paid to individual directors.

Refer to note 21 for details of amounts paid to related parties in lieu of directors fees and bonus payments.

The emoluments of the highest paid director, amounts included above are:

	Year ended 31 December 2013 £	Year ended 31 December 2012 £
Salaries and benefits	479,299	458,251
	479,299	458,251

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

4 Staff costs (continued)

- Group

Directors' emoluments (continued)

Key management are those persons having authority and responsibility for planning, directing and controlling the activities of the entity. In the opinion of the Board, the Group's key management comprises the Executive and Non-executive Directors of ImmuPharma plc. Information regarding their emoluments is set out below.

The following disclosures are in respect of employee benefits payable to the directors of ImmuPharma plc across the Group and are stated in accordance with IFRS:

	Year ended 31 December 2013 £	Year ended 31 December 2012 £
Short-term employee benefits (salaries and benefits)	1,236,618	1,316,530
Share based payments	-	8,922
	<u>1,236,618</u>	<u>1,325,452</u>

5 Operating loss

- Group

	Year ended 31 December 2013 £	Year ended 31 December 2012 £
Operating loss is stated after charging/(crediting):		
Share based payments charge	8,844	67,072
Employers National Insurance provision in respect of share based payments charge	26,229	(84,367)
Depreciation of property, plant and equipment		
- owned	23,270	19,553
Amortisation of intangible assets		
- patents	32,644	31,370
Services provided by Company auditors:		
- Audit services	39,500	39,000
- Other services relating to tax compliance services	3,750	3,150
- Other services relating to taxation advisory services	1,850	550
- Other services – interim review	7,750	7,250
Audit services provided by other auditors	11,541	10,625

6 Finance costs

- Group

	Year ended 31 December 2013 £	Year ended 31 December 2012 £
Interest payable on loans and overdraft	55	4,425
Loss on foreign exchange	148,166	76,327
Share based payment	117,900	-
	<u>266,121</u>	<u>80,752</u>

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

7 Finance income

- Group

	Year ended 31 December 2013 £	Year ended 31 December 2012 £
Bank interest receivable	60,366	87,552
	60,366	87,552

8 Taxation

- Group

	Year ended 31 December 2013 £	Year ended 31 December 2012 £
Current tax:		
Corporation tax	(744,544)	(324,219)
Total current tax credit for the year	(744,544)	(324,219)

The difference between the total current tax shown above and the amount calculated by applying the standard rate of UK corporation tax to the loss before tax is as follows:

	Year ended 31 December 2013 £	Year ended 31 December 2012 £
Loss before taxation	(4,433,890)	(4,168,253)
Tax on loss on ordinary activities (at the average rate 23.25%) (2012: 24.5%)	(1,030,879)	(1,021,222)
Effects of:		
Expenses not allowable for tax purposes	33,897	25,208
Capital allowances in excess of depreciation	5,563	5,394
Other permanent differences	-	(53,927)
Rate differences	1,147	1,403
Research and development tax credit	(746,733)	(236,399)
Losses carried back	-	(89,821)
Current year losses carried forward	992,461	1,045,145
Current tax credit for year	(744,544)	(324,219)

The decrease in the applicable tax rate is as a result of a reduction in the UK tax rate from 24% to 23% that was substantively enacted on 3 July 2012 and effective from April 2013.

As at 31 December 2013, the Group has unused tax losses of £7,100,000 (2012: £6,100,000) available for offset against future profits in the jurisdiction in which the loss arises. No deferred tax asset has been recognised due to the unpredictability of future profit streams in the relevant jurisdictions.

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

9 Earnings per share

- Group

	Year ended 31 December 2013 £	Year ended 31 December 2012 £
Earnings		
Earnings for the purposes of basic earnings per share being net loss after tax attributable to equity shareholders	(3,689,346)	(3,844,034)
Number of shares		
Weighted average number of ordinary shares for the purposes of basic earnings per share	81,663,119	81,532,463
Basic earnings per share	(4.52)p	(4.71)p
Diluted earnings per share	(4.52)p	(4.71)p

The Group has granted share options in respect of equity shares to be issued, the details of which are disclosed in note 19.

There is no difference between basic earnings per share and diluted earnings per share as the share options are anti-dilutive.

Cost and fair value	
At 31 December 2012	33,814,336
Disposals	(174,671)
At 31 December 2013	<u>33,639,665</u>

Details of the Company's subsidiaries as at 31 December 2013 are as follows:

Name of company	Holding	% voting rights and shares held	Nature of business & country of incorporation
ImmuPharma (France) SA	Ordinary	100	Pharmaceutical research and development – France
ImmuPharma AG	Ordinary	100	Pharmaceutical research and development – Switzerland
Ureka SARL	Ordinary	99.9	Pharmaceutical research and development – France
Elro Pharma SARL	Ordinary	99.9	Pharmaceutical research and development – France

Investments are recorded at cost which is the fair value of the consideration paid.

13 Trade and other receivables

	Group 31 December 2013 £	Group 31 December 2012 £	Company 31 December 2013 £	Company 31 December 2012 £
Amounts owed by group undertakings	-	-	2,076,030	768,293
Trade debtors	-	13,195	-	-
Other debtors	297,526	489,629	35,747	298,884
Taxation	783,070	330,221	-	-
Prepayments and accrued income	29,141	40,575	28,020	33,425
	<u>1,109,737</u>	<u>873,620</u>	<u>2,139,797</u>	<u>1,100,602</u>

The Group's and the Company's credit risk is primarily attributable to its other debtors, which includes £143,147 (2012: £127,339) recoverable TVA (French VAT) in respect of Elro Pharma SARL. Based on prior experience and an assessment of the current economic environment, the Company's management did not consider any provision for irrecoverable amounts was required. The directors consider that the carrying value of these assets approximates to their fair value.

The total carrying amount of loans and receivables for the Group is £5,425,437 (2012: £8,947,037), consisting of trade and other receivables of £29,141 (2012: £53,770) and cash and cash equivalents of £5,396,296 (2012: £8,893,267).

The total carrying amount of loans and receivables for the Company is £2,759,616 (2012: £1,476,653), consisting of trade and other receivables of £2,104,050 (2012: £801,718) and cash and cash equivalents of £655,566 (2012: £674,935).

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

14 Cash and cash equivalents

	Group 31 December 2013 £	Group 31 December 2012 £	Company 31 December 2013 £	Company 31 December 2012 £
Cash and cash equivalents	5,396,296	8,893,267	655,566	674,935

Cash and cash equivalents comprise cash held by the Group and short-term bank deposits with an original maturity of three months or less at varying rates of interest over the period between 0.0% and 0.5%.

The directors consider that the carrying value of these assets approximates to their fair value.

The credit risk on liquid funds is limited because the counter-party is a bank with a high credit rating.

15 Financial Liabilities – Borrowings

- Group

	31 December 2013 £	31 December 2012 £
Total borrowings within one year comprises:		
Bank overdraft	974	26,900
Loans	345,961	223,051
	346,935	249,951
Total borrowings after more than one year comprises:		
Loans	769,601	1,038,203
	769,601	1,038,203

Please refer to note 23 for details of maturity.

All loans are non-interest bearing.

The directors consider that the carrying amount of short and long term liabilities approximates to their fair value.

The non-interest bearing loan referred to above is a conditional advance from the French Government and repayments began in 2012. The full amount is repayable if the relevant research and development is deemed successful. A reduced amount will be repayable if the relevant research and development is deemed unsuccessful.

16 Trade and Other Payables

	Group 31 December 2013 £	Group 31 December 2012 £	Company 31 December 2013 £	Company 31 December 2012 £
Trade payables	433,760	294,426	16,331	48,168
Amounts owed to group undertakings	-	-	-	12,167
Other taxes and social security	113,594	395,504	20,387	20,245
Accruals and deferred income	81,018	83,072	74,280	78,428
	628,372	773,002	110,998	159,008

The directors consider that the carrying amount of trade and other payables approximates to their fair value.

17 Provisions

- Group and Company

	31 December 2013	31 December 2012
	£	£
At 1 January	30,371	114,738
Amount credited during the year	26,229	(84,367)
At 31 December	56,600	30,371

Provisions relate to a provision for national insurance on directors share options, the timing of which is dependant on the exercise date of the share options (see note 19).

18 Share Capital

	Group and Company		Group and Company	
	Called up, issued and fully paid		Called up, issued and fully paid	
	31 December 2013		31 December 2012	
	Number of shares	£	Number of shares	£
Ordinary shares of 10p each	82,282,463	8,228,246	81,532,463	8,153,246

On 8 October 2013, 750,000 new ordinary 10p shares were issued for a cash consideration of £393,750.

Please refer to note 19 for details of share based payments granted by the company.

19 Share Based Payments

Equity-settled share option scheme

Details of the share options outstanding during the period are as follows:

	Number of share options	Weighted average exercise price (£)
Outstanding as at 1 January 2012	4,357,000	0.605
Exercisable as at 1 January 2012	3,512,000	0.541
Outstanding as at 31 December 2012	4,357,000	0.605
Exercisable as at 31 December 2012	4,242,000	0.597
Granted on 20 May 2013	1,500,000	0.525
Exercised during the year ended 31 December 2013	(750,000)	0.525
Outstanding as at 31 December 2013	5,107,000	0.594
Exercisable as at 31 December 2013	4,992,000	0.586

The options outstanding as at 31 December 2013 had a weighted average remaining contractual life of 6 years.

The above disclosure has been restated from the prior year to include an additional 488,000 share options with an exercise price of £0.425 that were outstanding and exercisable at both 1 January 2012 and 31 December 2012.

The total value of options granted on 24 November 2011 was calculated as £107,582. Of this amount, £8,844 (2012: £53,903) has been charged in the financial statements for the year ended 31 December 2013. The total charged to date is £64,306 (2012: £55,462) and the remaining £43,275 (2012: £52,120) will be charged in the financial statements over the years ending 31 December 2014 and 2015.

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

19 Share Based Payments (continued)

Equity-settled share option scheme (continued)

The total value of options granted on 4 February 2009 was calculated as £435,426. Of this amount, £nil (2012: £13,171) has been charged in the financial statements for the year ended 31 December 2013. The total value of the option of £435,426 has been fully charged in the financial statements as at 31 December 2012.

Equity-settled warrants

ImmuPharma plc entered into a warrant agreement with Darwin Strategic Limited on 20 May 2013 to subscribe for up to 1,500,000 ordinary shares. These warrants are exercisable at 52.5p at any time up to 36 months from the date of the warrant agreement. The value of these warrants has been calculated using a Black-Scholes model with the following inputs:

	Warrants granted on 20 May 2013
Share price at grant date	£0.4025
Exercise price	£0.5250
Volatility	42%
Expected life	3 years
Risk free rate	0.13%

Expected volatility was determined by calculating the historical volatility of the company's share price from February 2006 to the date of grant.

See note 6 for the total expenditure recognised in the income statement for warrants.

21 Related party transactions (continued)

b) Company

The balance due to the company from ImmuPharma (France) SA at 31 December 2013 was £1,882,382 (31 December 2012: £768,293). During the year ended 31 December 2013, management charges of £218,377 (31 December 2012: £768,293) were rendered by ImmuPharma plc to ImmuPharma (France) SA.

The balance due to the company from Ureka SARL at 31 December 2013 was £193,648 (31 December 2012: £nil).

During the year ended 31 December 2013, management charges of £334,360 (31 December 2012: £nil) were rendered by ImmuPharma plc to Elro Pharma SARL.

The balance due by the company to ImmuPharma AG at 31 December 2013 was £nil (31 December 2012: £12,167). During the year ended 31 December 2013, management charges of £176,533 (31 December 2012: £186,765) were rendered by ImmuPharma AG to ImmuPharma plc.

22 Subsequent events

There have been no subsequent events since 31 December 2013.

23 Financial Instruments

The Group's financial instruments comprise cash and cash equivalents, borrowings and items such as trade payables which arise directly from its operations. The main purpose of these financial instruments is to provide finance for the Group's operations.

The Group's operations expose it to a variety of financial risks including liquidity risk, interest rate risk and foreign exchange rate risk. Given the size of the Group, the directors have not delegated the responsibility of monitoring financial risk management to a sub-committee of the board. The policies set by the board of directors are implemented by the company's finance department.

Liquidity risk

Group

The Group actively maintains a mixture of long term and short term debt finance that is designed to ensure it has sufficient available funds for operations and planned expansions. The Group monitors its levels of working capital to ensure that it can meet its debt repayments as they fall due.

The following table shows the contractual maturities of the Group's financial liabilities, all of which are measured at amortised cost:

	Trade payables £	Borrowings £	Total £
At 31 December 2013			
6 months or less	433,760	194,415	628,175
6 – 12 months	-	152,520	152,520
1 – 2 years	-	347,401	347,401
2 – 5 years	-	395,200	395,200
Total contractual cash flows	433,760	1,116,536	1,550,296
Carrying amount of financial liabilities measured at amortised cost	433,760	1,116,536	1,550,296

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

23 Financial Instruments (continued)

Liquidity risk (continued)

	Trade payables	Borrowings	Total
	£	£	£
At 31 December 2012			
6 months or less	773,002	160,730	933,732
6 – 12 months	-	89,221	89,221
1 – 2 years	-	287,939	287,939
2 – 5 years	-	750,264	750,264
Total contractual cash flows	773,002	1,288,154	2,061,156
Carrying amount of financial liabilities measured at amortised cost	773,002	1,288,154	2,061,156

Company

The Company's only financial liabilities comprise trade payables with a carrying amount equal to gross cash flows payable of £110,998 (2012: £159,008), all of which are payable within 6 months.

Interest rate risk

Group

The Group has both interest bearing assets and interest bearing liabilities. Interest bearing assets comprise cash and cash equivalents denominated in Sterling, the Euro and the US dollar which earn interest at a variable rate. The Group has a policy of maintaining debt at fixed rates to ensure certainty of future interest cash flows. The directors will revisit the appropriateness of this policy should the Group's operations change in size or nature.

The Group has not entered into any derivative transactions during the year or the previous year.

During the year, the Group's cash and cash equivalents earned interest at a variable rate between 0.0% and 0.5% (2012: 0.0% and 0.5%).

As at 31 December 2013, if LIBOR had increased by 0.5% with all other variables held constant, the post-tax profit and equity would have been higher by £38,000 (2012: £50,000). Conversely, if LIBOR had fallen by 0.5% with all other variables held constant, the post-tax profit and equity would have been lower by £38,000 (2012: £50,000).

Details of the terms of the Group's borrowings are disclosed in note 15.

The Group has only non-interest bearing borrowings which are carried at amortised cost and therefore the risk is the change in the fair value of the borrowings. Changes in the market interest rates of these liabilities do not affect loss or equity and therefore no sensitivity analysis is required under IFRS 7.

Company

The Company has interest bearing assets, comprising of cash and cash equivalents denominated in Sterling, which earn interest at a variable rate. During the year, the Company's cash and cash equivalents earned interest at a variable rate between 0.0% and 0.5% (2012: 0.0% and 0.5%).

As at 31 December 2013, if LIBOR had increased by 0.5% with all other variables held constant, the post-tax loss would have been lower and equity would have been higher by £2,200 (2012: £2,250). Conversely, if LIBOR had fallen by 0.5% with all other variables held constant, the post-tax loss would have been higher and equity would have been lower by £2,200 (2012: £2,250).

Notes to the Consolidated Financial Statements (continued)

for the year ended 31 December 2013

23 Financial instruments (continued)

Foreign exchange rate risk

Group

The Group is exposed to foreign exchange rate risk as a result of having cash balances in Euros and US\$ in its subsidiaries. During the year, the Group did not enter into any arrangements to hedge this risk, as the directors did not consider the exposure to be significant given the short term nature of the balances. The Group will review this policy as appropriate in the future.

As at 31 December 2013, if the Euro had weakened 10% against Sterling with all other variables held constant, the post-tax profit and equity would have been lower by £320,000 (2012: £400,000). Conversely, if the Euro had strengthened 10% against Sterling with all other variables held constant, the post tax profit and equity would have been higher by £320,000 (2012: £400,000).

As at 31 December 2013, if the US\$ had weakened 10% against Sterling with all other variables held constant, the post-tax profit and equity would have been lower by £470,000 (2012: £690,000). Conversely, if the US\$ had strengthened 10% against Sterling with all other variables held constant, the post tax profit and equity would have been higher by £470,000 (2012: £690,000).

Company

The Company is exposed to foreign exchange rate risk through the payment of non Sterling amounts and as a result of having cash balances in Euros and US\$. During the year, the Company did not enter into any arrangements to hedge this risk, as the directors did not consider the exposure to be significant. The Company will review this policy as appropriate in the future.

As at 31 December 2013, if the US\$ had weakened 10% against Sterling with all other variables held constant, the post-tax profit and equity would have been lower by £8,000 (2012: £14,000). Conversely, if the US\$ had strengthened 10% against Sterling with all other variables held constant, the post tax profit and equity would have been higher by £8,000 (2012: £14,000).

As at 31 December 2013, if the Euro had weakened 10% against Sterling with all other variables held constant, the post-tax profit and equity would have been lower by £22,000 (2012: £15,000). Conversely, if the Euro had strengthened 10% against Sterling with all other variables held constant, the post tax profit and equity would have been higher by £22,000 (2012: £15,000).

Glossary of Technical Terms

'ADME'	absorption, distribution, metabolism and excretion
'Big Pharma'	one or more of the major pharmaceutical companies or, as the context requires, the pharmaceutical sector comprising these major companies
'biomarkers'	measurable biological responses used as predictors of clinical effects
'Biotech'	the biotechnology industry, often used to describe the sector of small to medium, innovative, R&D-based pharmaceutical companies
'CRO'	contract research organisation
'drug-like'	having the potential to become a drug product candidate due to its physical and chemical characteristics
'i.v.'	intravenous
'in vitro'	experiments conducted in an artificial environment outside the living organism
'in vivo'	experiments conducted in the living organism
'Lupus'	an autoimmune inflammatory disease of unknown etiology
'MRSA'	methicillin-resistant staphylococcus aureus, a drug resistant bacteria
'OD'	once-a-day
'parenteral'	administered by injection
'PDCT'	peptide to drug converting technology
'peptide'	a molecule comprised of a series of amino acids (or a small subpart of a protein)
'Pharma'	abbreviation for "Pharmaceutical"; sometimes in the industry "pharma" also denotes a pharmaceutical company
'Phase 0'	the stage of development of a drug candidate before the first administration to man, during which all mandatory data required by regulatory bodies such as the FDA or the EMEA is generated and filed
'Phase I'	the stage of development of a drug candidate during which it is administered to man (usually healthy volunteers) for the first time. Phase I studies are designed to assess primarily the safety and tolerability of the drug candidate and gather information on its ADME. This phase is also used whenever possible to evaluate surrogate markers which are indicative of the clinical efficacy of the drug candidate
'Phase II'	the stage of development of a drug candidate during which therapeutic studies are conducted in limited numbers of patients using data generated in Phase I studies to determine dose regimen and primary efficacy, and to examine therapeutic outcomes and monitor safety in patients
'Phase III'	the stage of development of a drug candidate during which it is tested in large scale pivotal trials on, typically, between 200 to 4000 patients to demonstrate overall efficacy, tolerability and safety with a dose regimen as determined in Phase II. The drug candidate must generally prove to be statistically better than placebo or the current best therapy in terms of efficacy, safety or quality of life

Notice of the 2014 Annual General Meeting of ImmuPharma plc

(The "Company")

NOTICE IS HEREBY GIVEN that the 2014 Annual General Meeting of the Company will be held at the offices of Bircham Dyson Bell LLP, 50 Broadway, London, SW1H 0BL on 27 June 2014 at 11am for the transaction of the following business:

ORDINARY BUSINESS

To consider and if thought fit, to pass the following resolutions which will be proposed as ordinary resolutions:

1. To receive the accounts of the Company for the year ended 31 December 2013 together with the reports thereon of the directors and auditors of the Company.
2. To reappoint Mr Dimitri Dimitriou as a director of the Company.
3. To reappoint Dr Ajay Agrawal as a director of the Company.
4. To reappoint Nexia Smith & Williamson Audit Limited as the auditors of the Company to hold office from the conclusion of the meeting until the conclusion of the next general meeting at which the accounts are laid before the Company at a remuneration to be determined by the directors.

SPECIAL BUSINESS

To consider and if thought fit, to pass the following resolutions, of which Resolution 5 will be proposed as an ordinary resolution and Resolution 6 will be proposed as a special resolution:

5. That the directors be and they are hereby generally and unconditionally authorised for the purposes of Section 551 of the Companies Act 2006 (the "Act") to exercise all the powers of the Company to allot shares or grant rights to subscribe for or to convert any security into shares in the Company up to a maximum nominal amount of £2,742,749 of the unissued ordinary share capital provided that this authority shall expire on the conclusion of the next Annual General Meeting of the Company after the passing of this Resolution except that the Company may before the expiry of such period make an offer or agreement which would, or might, require shares to be allotted after the expiry of such period and the directors may allot shares in pursuance of any such offer or agreement as if the authority conferred hereby had not expired. This authority is in substitution for any existing like authority which is hereby revoked with immediate effect.
6. That the directors be and they are hereby empowered pursuant to section 571 of the Act to allot equity securities (as defined in section 560 of the Act) pursuant to the authority conferred upon them by Resolution 5 above as if section 561 of the Act did not apply to any such allotment provided that such power shall be limited to the allotment of equity securities:
 - a. In connection with an offer of such securities by way of rights to holders of ordinary shares in proportion (as nearly as may be practicable) to their respective holdings of such shares, but subject to such exclusions or other arrangements as the directors may deem necessary or expedient in relation to fractional entitlements or any legal or practical problems under the laws of any territory, or the requirements of any regulatory body or stock exchange; and
 - b. Otherwise than pursuant to sub-paragraph (a), equity securities up to an aggregate nominal amount of £822,825, and shall expire on the conclusion of the next Annual General Meeting of the Company unless renewed or extended prior to such time except that the Company may, before the expiry of any power contained in this resolution, make an offer or agreement which would, or might require equity securities to be allotted after such expiry and the directors may allot equity securities in pursuance of such offer or agreement as if the power conferred hereby had not expired. This power applies in relation to a sale of shares which is an allotment of equity securities by virtue of section 560(2)(b) of the Act as if in the first paragraph of this resolution the words "pursuant to the authority conferred by Resolution 5 above" were omitted.

Date: 20 May 2014
Registered Office: 50 Broadway
London
SW1H 0RG

BY ORDER OF THE BOARD

Tracy Weimar
Secretary

Notice of the 2014 Annual General Meeting of ImmuPharma plc (continued)

(The "Company")

NOTES:

Entitlement to vote

1. Only those members registered on the Company's register of members at 6.00 pm on the day falling two days prior to the date of the Meeting (or if this Meeting is adjourned, at 6.00 pm on the day two days prior to the adjourned meeting) shall be entitled to attend and vote at the Meeting.

Appointment of proxies

2. A member entitled to attend and vote at the meeting is entitled to appoint a proxy to exercise all or any of their rights to attend, speak and vote at the Meeting. You should have received a proxy form with this notice of meeting. You can only appoint a proxy using the procedures set out in these notes and the notes to the proxy form.
3. A proxy does not need to be a member of the Company but must attend the Meeting to represent you. Details of how to appoint the Chairman of the Meeting or another person as your proxy using the proxy form are set out in the notes to the proxy form. If you wish your proxy to speak on your behalf at the Meeting you will need to appoint your own choice of proxy (not the Chairman) and give your instructions directly to them.
4. You may appoint more than one proxy provided each proxy is appointed to exercise rights attached to different shares. You may not appoint more than one proxy to exercise rights attached to any one share. To appoint more than one proxy, (an) additional proxy form(s) may be obtained by contacting the Registrars helpline on 0870 707 1014 or (from overseas) +44 (0) 870 703 6101 or you may photocopy the proxy you received. Please mark (and initial) each proxy form clearly with the number of Ordinary Shares held by you in relation to which each proxy is appointed.
5. A vote withheld is not a vote in law, which means that the vote will not be counted in the calculation of votes for or against the resolution. If you either select the 'Discretionary' option or if no voting indication is given, your proxy will vote or abstain from voting at his or her discretion. Your proxy will vote (or abstain from voting) as he or she thinks fit in relation to any other matter which is put before the Meeting.
6. The notes to the proxy form explain how to direct your proxy how to vote on each resolution or withhold their vote. To appoint a proxy using the proxy form, the form and any authority under which it is executed (or a duly certified copy of such authority) must be:
 - completed and signed;
 - deposited at the Company's registrars, Computershare Investor Services plc, The Pavilions, Bridgwater Road, Bristol, BS99 6ZY; and
 - received by Computershare Investor Services plc no later than 48 hours before the time fixed for the Meeting (or any adjourned meeting as the case may be).

In the case of a member which is a company, the proxy form must be executed under its common seal or signed on its behalf by an officer of the company or an attorney for the company.

Appointment of proxy by joint members

7. In the case of joint holders, where more than one of the joint holders purports to appoint a proxy, only the appointment submitted by the most senior holder will be accepted. Seniority is determined by the order in which the names of the joint holders appear in the Company's register of members in respect of the joint holding (the first-named being the most senior).

Changing proxy instructions

8. To change your proxy instructions simply submit a new proxy appointment using the methods set out above. Note that the cut-off time for receipt of proxy appointments (see above) also apply in relation to amended instructions; any amended proxy appointment received after the relevant cut-off time will be disregarded.

If you submit more than one valid proxy appointment, the appointment received last before the latest time for the receipt of proxies will take precedence.

Termination of proxy appointments

9. In order to revoke a proxy instruction you will need to inform Computershare Investor Services plc by sending a signed hard copy notice clearly stating your intention to revoke your proxy appointment to Computershare Investor Services plc, The Pavilions, Bridgwater Road, Bristol, BS99 6ZY. In the case of a member which is a company, the revocation notice must be executed under its common seal or signed on its behalf by an officer of the company or an attorney for the company. Any power of attorney or any other authority under which the revocation notice is signed (or a duly certified copy of such power or authority) must be included with the revocation notice. In either case, the revocation notice must be received by Computershare Investor Services plc no later than 48 hours before the time fixed for the Meeting (or any adjourned meeting as the case may be).

If you attempt to revoke your proxy appointment but the revocation is received after the time specified then, subject to the paragraph directly below, your proxy appointment will remain valid.

Appointment of a proxy does not preclude you from attending the Meeting and voting in person. If you have appointed a proxy and attend the Meeting in person, your proxy appointment will automatically be terminated.

Notice of the 2014 Annual General Meeting of ImmuPharma plc (continued)

(The "Company")

Corporate representatives

10. In order to facilitate voting by corporate representatives at the Meeting, arrangements will be put in place at the Meeting so that:

(i) if a corporate member has appointed the Chairman of the Meeting as its corporate representative with instructions to vote on a poll in accordance with the directions of all the other corporate representatives for that member at the Meeting, then, on a poll, those corporate representatives will give voting directions to the Chairman and the Chairman will vote (or withhold a vote) as corporate representative in accordance with those directions; and

(ii) if more than one corporate representative for the same corporate member attends the Meeting but the corporate member has not appointed the Chairman of the Meeting as its corporate representative, a designated corporate representative will be nominated, from those corporate representatives who attend, who will vote on a poll and the other corporate representatives will give voting directions to that designated corporate representative.

Corporate members are referred to the guidance issued by the Institute of Chartered Secretaries and Administrators on proxies and corporate representatives – www.icsa.org.uk – for further details of this procedure. The guidance includes a sample form of representation letter to appoint the Chairman as a corporate representative as described in (i) above.

Issued share capital and voting rights

11. On 20 May 2014, the Company's authorised issued share capital comprised 82,282,463 ordinary shares of 10p each. Each ordinary share carries the right to one vote at the AGM and, therefore, the total number of voting rights in the Company on 20 May 2014 is 82,282,463.

Documents on display

12. The following documents will be available for inspection at 50 Broadway, Westminster, London SW1H 0BL from the date of this Notice until the time of the Meeting and for at least 15 minutes prior to the Meeting and during the Meeting:

- (i) copies of the service contracts of executive directors of the Company; and
- (ii) copies of the letters of appointment of the non-executive directors of the Company.

Electronic communication

13. You may not use any electronic address provided either in this notice of AGM or any related documents (including the proxy form), to communicate with the Company for any purposes other than those expressly stated. If you have any general queries about the AGM please send all communications by post to the Company's registrars, Computershare Investor Services plc, The Pavilions, Bridgwater Road, Bristol, BS99 6ZY and no other methods of communication will be accepted.
