CORPORATE DIRECTORY	IRC

Kimco Realty Corporation (NYSE: KIM) is a real estate investment trust (REIT) headquartered in New Hyde Park, N.Y., that owns and operates North America's largest portfolio of neighborhood and community shopping centers. As of December 31, 2012, the company owned interests in 896 shopping centers comprising 131 million square feet of leasable space across 44 U.S. states, Puerto Rico, Canada, Mexico and South America.

From our first shopping center in Miami in 1958, to our nearly 900 shopping centers across North America today, growth has always been a part of Kimco's DNA.

It still is. But as we enter the next chapter in our history, our path to growth is becoming even more focused – on top markets, quality and value, serving retailers and, as always, on results.

We're paying close attention to what really matters, with one goal in mind: to be the best neighborhood and community shopping center company in North America.

We will achieve that goal by staying FOCUSED	ON TOP MARKETS	6
	ON QUALITY AND VALUE	8
	ON RETAILERS	10
	ON RESULTS	12

Dear Fellow Shareholders and Associates:

When Marty Kimmel and I developed our first shopping center in 1958, our primary focus was on the cash flow that could be generated from tenant leases; this would amortize the mortgage loan and provide our investors with stable and predictable cash distributions. The investment thesis was simple: Construct a building where a retailer wanted to serve its customers and lease it at a rate that would pay the investors a safe and reasonable return over the life of the lease. We could earn money while we slept.

During the '70s and '80s, we shifted to acquiring properties with the same characteristics – low rent relative to the anchor tenant's sales, strong locations in densely populated markets and a steady cash flow providing distributions to the investors.

In 1991, when we completed our initial public offering, we provided investors access to ownership of shopping centers in a new public vehicle for the first time in a very long time. Our shareholders enjoyed a safe and growing dividend and growth in cash flow from retail real estate, along with a vehicle to opportunistically capitalize on the needs of distressed, real-estate rich retailers.

Fast forward to Kimco's Investor Day in September 2010 when, after the worst recession since the Great Depression, we made a commitment to our

shareholders to simplify our strategy and once again focus on recurring cash flow from high-quality shopping centers. We are making excellent progress fulfilling that commitment. To put our transformation in perspective, in 2008 our non-retail investment balance was \$1.1 billion. After the impending sale of the InTown Suites extended-stay portfolio, that balance is expected to be below \$300 million.

Since our Investor Day, we've also shed shopping centers that didn't fit our criteria, generating proceeds to Kimco of more than \$500 million.

We have used these proceeds, together with those generated from our non-retail dispositions, to reduce debt and acquire higher-quality shopping centers in well-located areas.

The table on the next page illustrates our transformation.

Today, the demand for space for our type of retail property continues to improve. Absorptions are forecast to outpace completions of new construction for the foreseeable future. Despite prevailing economic uncertainties, planned store openings are at a multiyear high.

Our tenants are generally strong credits, including discounters, off-price retailers, drugstores, supermarkets and warehouse clubs, supplying everyday

^{*} Represents Kimco's pro-rata interest

necessities. Many of our leases were entered into decades ago, and contain very low contract rents. Very few public companies have entered into leases 40 years ago; these legacy contract rents are obviously below market, and they form a basis for future rental growth as the leases expire. A recent illustration of this was a 41-year-old lease with a major retailer that provided us with annual rental revenues of \$315,000. When the lease expired in the first quarter of 2012, we entered into a new ground lease with a credit tenant for over six times that rent. There are more such leases in our portfolio, which should result in additional rental growth as the leases expire.

Like other retail property owners, we are still navigating through some headwinds. Many consumers are feeling the impact from the end of the payroll tax holiday, and gasoline prices are up. And yet some major economic indicators are pointing in the right direction.

The unemployment rate, while still too high, is slowly improving, and home prices continue to recover. Interest rates remain low. We remain focused on leasing our space to smart retailers who will benefit from better economic conditions in the years ahead.

[†] Within a three-mile radius

Having evolved from that first shopping center many years ago, there are three aspects of Kimco's business that distinguish us today.

- 1. We have a very large operating platform 896 shopping centers with approximately 8,400 tenants that enables us to service the needs of major national and regional retailers. Having this breadth of locations provides us with access to most, if not all, of the retailers that are experiencing the most rapid growth today. Among our peers, we are the largest landlord to Costco, TJX Companies (T.J. Maxx, Marshalls, etc.), Royal Ahold (Stop & Shop, Giant, etc.) and others. Home Depot and Walmart, two of the most creditworthy companies in America today, are among our largest tenants. Given our scale, we are afforded a seat at the table when a retailer is looking to expand or open a new store. In the retail real estate industry, size matters.
- 2. We are a manager and owner in joint ventures that hold approximately \$10 billion of retail real estate. This platform has enabled us to acquire interests in numerous high-quality properties and to generate high returns on our shareholders' equity due to our management role. Recently, an added benefit of this business has been the opportunity to increase our investment in select assets when some of our partners have expressed a desire to monetize their investments or modify their investment allocations. Since our Investor Day in 2010, we have disposed of 55 joint venture properties that were not strategic
- to our portfolio and acquired 10 properties from partners in which we had a minority interest stake and a management role. For example, during the year, we acquired Towson Marketplace in Towson, Maryland. This is a wonderful shopping center anchored by both Target and Walmart, with a full-line Weis Market on site. This property should provide stable and growing cash flows to our shareholders for many years to come. Another recent example is Santee Trolley Square in Santee, California, where we increased our ownership from 45 percent to 100 percent. This 98-percent-occupied, 311,000-square-foot shopping center is anchored by several prominent national retailers such as T.J. Maxx, PetSmart, Party City, Bed Bath & Beyond, 24 Hour Fitness and Old Navy, and shadow-anchored by Target.
- 3. We have a long-term track record of capturing retail-related opportunities. Our history is illuminated by profitable transactions with Venture Stores, Gold Circle, Hechinger's, Montgomery Ward, Service Merchandise, Kmart, Ames, Albertsons, Woolworth, Frank's Nursery, Strawbridge & Clothier, Strauss Discount Auto, Penn Traffic, Save Mart and Shopko. While committed to our stable and growing base of recurring income, Kimco has always had an opportunistic culture, which is the "plus" in our "Income Plus" strategy. Our track record of generating profits from transactions with retailers that are real-estate rich has proven time and again that if you are fast with your footwork,

and well-known, reliable and trusted in the retail industry, you can generate outsized returns for your shareholders. Our most recent example of an opportunistic investment is our participation in a consortium to restructure Supervalu. This is the same group we partnered with in the Albertsons transaction, which made Kimco shareholders five times their initial investment – and we still maintain a valuable position in this investment. Kimco will continue to provide real estate advisory services to the new Supervalu venture.

In closing, please permit me to express a few thoughts about today's retail real estate market prices. The prices of high-quality shopping centers today appear "expensive" compared with long-term historical averages for market cap rates, which are the initial unleveraged yields available to property buyers. However, let's dig a little deeper. When compared with the risk-free interest rate available on the 10-year U.S. Treasury note, investment yields available on quality retail real estate may be at historically attractive levels. Let me explain. The interest rate on 10-year Treasuries was, as of this writing, approximately two percent. Treasury Inflation-Protected Securities (TIPS) for the same duration show negative yields. An argument can be made that real estate returns should be compared with TIPS, because the residual value of real estate often increases in value with inflation, in some ways similar to the increasing yield on a TIPS bond.

Clearly, by these measures, quality real estate bearing cap rates in the 5 to 6 percent range looks attractively priced. A similar conclusion might be reached if one compares real estate cap rates with yields presently available on investment-grade corporate bonds. All this considered, I'll put my money in shopping centers at today's cap rates any day.

Our goal at Kimco is to continue to be the premier owner of retail properties in North America; this should enable us to deliver safe and growing cash flows from our investment portfolio, as well as increasing distributions to our shareholders. In addition, we seek to continue generating profits and create value from our retail-related opportunistic activities. In other words, "Income Plus." We continue to work very hard to achieve these objectives.

I want to thank all of our associates for the wonderful job they are doing executing our business plan; I'm quite proud of their achievements on behalf of Kimco shareholders and stakeholders. I am very excited by the future opportunities I see ahead. It's indeed a great time to own high-quality, income-producing retail real estate and I'm as proud as ever of our position in the industry.

Milton Cooper Executive Chairman

Milwooper

We're focusing our business on key U.S. markets, where population, income and growth prospects are highest.

FOCUSED on Top Markets

Kimco's strategy is to be where the consumers are. We're rebalancing our portfolio so the vast majority of our shopping centers are in the most densely populated, highest-income areas of the U.S. – the places retailers value most.

By deepening our presence in top markets, we'll improve our overall asset values, gain operating efficiencies, and increase occupancy and income – factors that produce greater wealth for our investors.

Wilton Campus Shops in Wilton, Conn., is a prime example of our quality trade-up. Acquired last year, the center is 97 percent occupied, commands rent of \$30 per square foot, and is located in Connecticut's affluent Gold Coast, an area which has an average household income of \$241,000. In comparison, the properties we sold since Investor Day 2010 were, on average, 85 percent occupied, had rent of \$8.75 per square foot, and average household income of \$65,000. Early in 2013, Kimco acquired Wilton Executive Campus and Shoppes, a mixed-use center adjacent to Wilton Campus Shops, securing full ownership of the entire Wilton River Park development.

The median household income in our target markets is 14 percent higher than the U.S. average.

We're focused on increasing the value of our centers – for consumers, communities and the company alike.

FOCUSED on Quality and Value

Our redevelopment projects bring new life to outmoded shopping centers in strong locations.

Whenever we rebuild, expand, or reconfigure space to attract highly coveted national retailers, we create quality and value – in the form of increased economic activity, jobs, and tax revenues for communities; more attractive shopping environments and greater choice for consumers; and stronger returns for Kimco shareholders.

Even the environment benefits: using energy-efficient design and sustainable materials, our revamped centers are greener than ever before.

With a 33 percent vacancy rate, Kimco saw an opportunity to revitalize the Wilde Lake Village Center in Columbia, Md., and once again make it a hub of community life in this affluent suburb of Baltimore. The \$45 million project, which includes a \$17 million investment by Kimco, will open up the center's courtyard area and add new retail, office and residential space. Expected to be completed in 2014, the project is being built to LEED certification, with a new storm water management system and energy-efficient lighting and HVAC systems.

We expect to invest \$400 million in redevelopment projects over the next few years.

FOCUSED on Retailers

Kimco and its retail partners enjoy some of the longest and strongest relationships in the industry – each built on trust, dependability and service.

Retailers count on Kimco for our national scale and local expertise, but they also appreciate how we're always thinking beyond the box, offering programs like KEYS, which provides training and incentives to help entrepreneurs launch retail businesses.

In return, our loyal tenants provide a steady, reliable source of income, and the opportunity, when conditions change, to participate in restructurings and retailer-owned asset sales that create mutual value.

Rudy Gonzales got the idea for his new business, Build-It Workshops, after watching his two young daughters play with blocks at San Diego's New Children's Museum. With help from Kimco's KEYS program, Rudy received the training and incentives he needed to turn that idea into reality. Now, Build-It Workshops, located in Kimco's North County Plaza shopping center in Carlsbad, Calif., offers children and their parents a creative play outlet fueled by a sense of fun and imagination. Rudy hopes to open other locations in the future, but no matter how far he goes, he will always appreciate the head start he got from Kimco to get his initial idea off the ground.

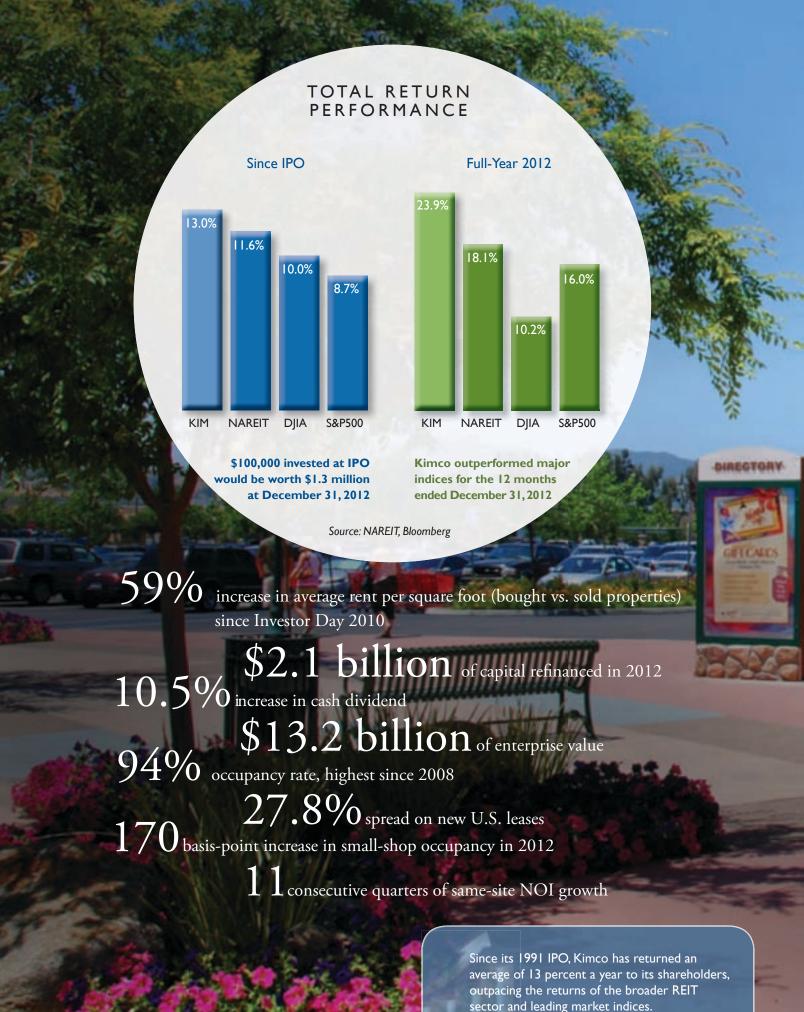

During 2012, 90 percent of tenants coming up for renewal or with options decided to remain with Kimco.

We're focused on providing more services and greater opportunity for retailers —

the kind of support that builds long-term relationships.

In many ways, 2012 was a banner year for Kimco. We delivered outstanding results, while improving the quality, value and growth potential of our shopping center portfolio.

Dear Fellow Shareholders and Associates:

In many ways, 2012 was a banner year for Kimco. Focused on both the present and the future, we delivered outstanding financial and operating results, while strengthening our balance sheet and making significant strides toward improving the quality, value and growth potential of our shopping center portfolio for the long term.

Our reported funds from operations (FFO) as adjusted came in at \$514.2 million, or \$1.26 per diluted share, up 5 percent from \$489.8 million, or \$1.20 per diluted share, in 2011.

For this solid performance, shareholders were rewarded with a total return of nearly 24 percent, continuing a long history of sector- and market-beating returns enjoyed by Kimco investors (see chart on page 12).

Dividends, of course, make up a significant portion of Kimco's total return. In October, the Board approved a 10.5 percent increase in our quarterly dividend, to an annualized rate of \$0.84 per common share, reflecting our strong results and confidence in our future growth prospects.

FUNDAMENTALS LOOKING UP

We have good reason to be confident in the future. While economic uncertainty persists, the leading indicators in our industry continue to trend upward.

Demand for quality retail space is steadily increasing, with store openings hitting multiyear highs as retailers expand their store counts, population and consumer spending continue to rise, unemployment eases, and the housing recovery, fueled by low interest rates, gains momentum.

Yet available supply remains tight, with virtually no new development on the drawing boards. That translates into accelerating growth in effective rents and occupancy rates.

Kimco is well positioned to capitalize on these trends. The quality of our shopping center portfolio is strong and improving, our national platform is geographically diverse and increasingly focused on top markets, and our creditworthy tenant base is very stable, generating reliable and growing cash flows.

Vital Signs Show Strength and Stability

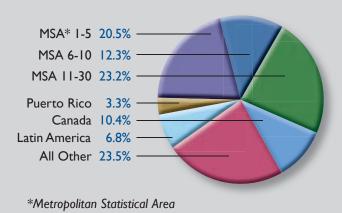

Our 2012 operating metrics, what we call our vital signs, provide further evidence of our strength and stability.

Same-site net operating income (NOI) in our combined portfolio has grown now for 11 consecutive quarters — a terrific winning streak. In the fourth quarter, it rose 3.4 percent — the highest quarterly increase since the end of 2007. In all, our same-site NOI grew 2.3 percent in 2012, including a negative 60 basis-point impact from currency changes.

Much of the improvement in our NOI came from a rise in effective rents, but was also helped by efforts to reduce operating expenses, improve occupancy and retain tenants,

Stable, Growing Cash Flows Come From...

Geographically Diverse Rental Income

Location	Number of Properties	Square Feet (in millions)	Annualized Base Rent
California	109	18.7	13.1%
Florida	77	10.7	8.8%
New York	60	6.4	8.0%
Texas	52	8.0	4.9%
Pennsylvania	45	5.0	4.7%
New Jersey	28	4.3	4.1%
All Other U.S.	381	50.9	35.9%
Puerto Rico	7	2.2	3.3%
Subtotal U.S.	759	106.2	82.8%
Latin America	71	12.7	6.8%
Canada	66	12.4	10.4%
Subtotal International	137	25.1	17.2%
Total Shopping Centers	896	131.3	100.0%

recover lost rents, and generate new revenue streams from services and ancillary income programs.

Our growing occupancy levels tell the tale of strong retailer demand for quality space, while also reflecting the success of our portfolio recycling program. For the year, occupancy in our combined portfolio was 93.8 percent, up 70 basis points from 2011. In the U.S., the level was 93.9 percent, an increase of 80 basis points.

Occupancy in our U.S. anchor space (over 10,000 square feet) climbed 50 basis points, to 96.9 percent, fueled by increased demand from national and regional chains. Meanwhile, our small-shop occupancy jumped 170 basis points, to 84.2 percent – a strong indicator of the improving health of the economy.

During 2012, the company signed 2,678 new leases, renewals and options for a total of 10 million square feet – a 25 percent increase in pro-rata square footage over the previous year. Available space from bankruptcies such as Room Store, Syms and A&P, or end-of-term vacancies from such retailers as Kmart, were absorbed very quickly at higher rents, underscoring the value of those spaces.

Overall, our leasing spreads – the difference between old and new rents on the same space – continue to widen, another sign of strong demand. In the U.S., the spread was 9.8 percent. Rents on new leases were 27.8 percent higher; on renewals and options, they rose 4.5 percent.

Progress in Canada and Mexico

Our portfolio in Canada continues to enjoy high occupancy, at 97 percent, amid strong demand. High-quality space is at a premium, with more and more U.S. retailers seeking to expand into Canada.

In 2013, the big expansion story is Target. In what promises to be a real transformational move for Canadian retailing, Target plans to open 125 stores in Canada, including one in our Shoppers World Danforth center in Toronto this spring, the first of nine the retailer will open in our joint-venture properties over the next two years.

In 2012, we strengthened our presence in Canada by acquiring shopping centers in Ottawa and Edmonton. We also increased our ownership in one shopping center and converted our preferred equity interest into a paripassu joint venture in another, both in British Columbia.

The quality of our portfolio is strong and improving, our national platform is geographically diverse and focused on top markets, and our tenant base is stable, generating reliable and growing cash flows.

Our portfolio will be concentrated in key territories, areas with the strongest demographics, limited retail per capita, high barriers to entry, and the greatest population density.

We're also pleased with our progress in Mexico, where occupancy rose to nearly 90 percent in our fully operational centers, reaching the target we established last year. In all, Mexico contributed more than \$57 million to our NOI last year, up 16 percent before currency impacts.

Demand for quality space in Mexico is on the rise, with the economy expected to grow nearly 4 percent in 2013. Many major U.S. retailers have their sights set on Mexico, including Petco, American Eagle and Old Navy, among others.

Mexico's real estate capital market is suddenly very vibrant as well, thanks to recent offerings from several Mexican REITs. With the flow of investment money into real estate driving property values higher, we will look to monetize certain assets to optimize our portfolio composition.

At the end of 2012, we also made a decision to sell, over time, our South America portfolio – two projects in Brazil, two in Peru, and 11 in Chile. Even though GDP growth rates are projected to remain strong in these markets, we don't have the scale or the efficient tax structure to continue expanding in South America. Instead, we'll take our profits and reinvest the proceeds to help fund our U.S. growth strategy.

OUR MODEL: INCOME PLUS

Since our Investor Day in September 2010, we have been focused on executing against four strategic imperatives: active portfolio management, value creation through redevelopment and re-tenanting, opportunistic retail investments, and maintaining a strong balance sheet.

These activities all contribute to our "Income Plus" model. The "income" comes from a continuously improving portfolio of stable shopping centers that generates reliable and growing cash flows. The "plus" comes from the opportunistic investments we're able to make because of our strong financial position and longstanding relationships with major retailers and investment partners. Added together, they produce outstanding results for our shareholders.

Active Portfolio Management

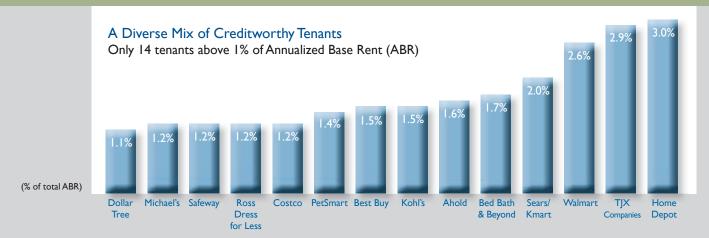

Thirty months ago, we decided to get back to basics, concentrating on our core competency of owning and operating stable, high-quality neighborhood and community shopping centers. It's how we got our start in 1958, and what we know best.

After a painstaking review process, we decided to sell those shopping centers that were outside our core operating markets, didn't fit our desired asset profile, or had limited

In the last two and a half years, we have made tremendous progress rebalancing our portfolio for greater growth and value.

Stable, Growing Cash Flows Come From...

opportunity for growth or repositioning. In addition, we decided to exit substantially all of our non-retail investments.

In the last two and a half years, we have made tremendous progress rebalancing our portfolio for greater growth and value. Last year alone, we sold 68 properties in the U.S., more than double the pace of the previous year, while purchasing 24 higher-quality shopping centers.

In all, we have sold 108 U.S. retail properties since September 2010, for gross proceeds of \$825 million, while buying 59 higher-quality properties for a gross price of \$1.3 billion. The measure of success: our newly acquired centers have occupancy of 96 percent, average base rent of \$13.92 a square foot, and average household income of \$89,000. Those we sold: occupancy of 85 percent, rent of \$8.75, and income of \$65,000.

Despite the progress we've made, we're not finished yet. We're now looking to optimize our remaining portfolio by refining and deepening our presence in top U.S. markets.

Going forward, our portfolio will be concentrated in key markets, encompassing the top Metropolitan Statistical Areas (MSAs) of the U.S., areas that have the strongest demographics, limited retail per capita, high barriers to entry, and the greatest population density.

Our plan is to acquire larger, higher-value retail properties in these key territories, funding our investments through an active portfolio recycling program, both within and outside these markets. At the same time, we'll keep an eye on a handful of areas in other parts of the country that we think have the highest future growth potential.

In the end, we want to have a national platform that allows us to take advantage of scale and operating efficiencies, that enables us to serve as a top landlord to most national retailers, and that is broad enough to maintain the spread of financial risk, while having enough depth to capture new opportunities. This is our core investment proposition.

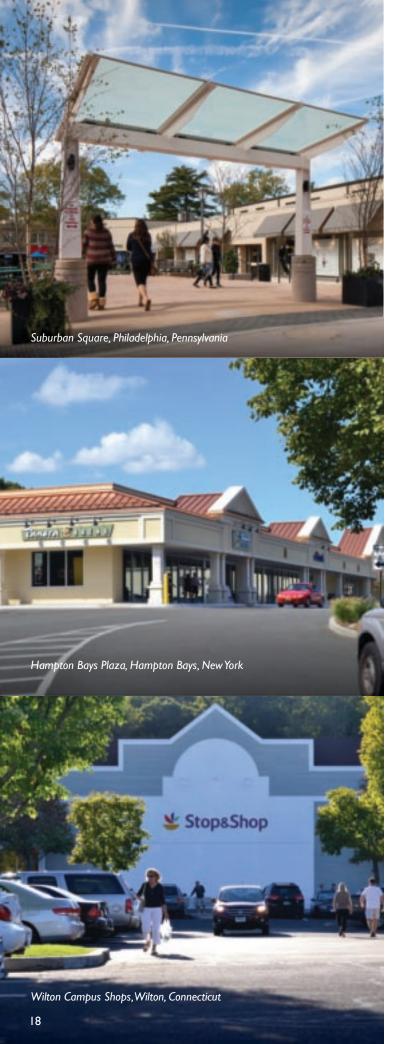

That model leaves little room for non-retail assets. After we complete the impending sale of our InTown Suites portfolio, our non-retail holdings are expected to comprise only 2.5 percent of our asset base, down from 10 percent at the peak.

Value Creation through Redevelopment and Re-tenanting

Acquiring high-quality properties in top markets is one avenue to growth. Another way we're adding value for the long term is to redevelop, re-tenant and expand the strongly situated shopping centers we already have.

Our relationships with major retailers and investment partners, coupled with our strong balance sheet, put us in a great position to make opportunistic retail investments.

After spending more than \$40 million on redevelopment in 2012, we're ramping up our activity and targeting nearly \$400 million in spending over the next few years.

In Staten Island, N.Y., we're redeveloping our Richmond shopping center, converting an empty box formerly occupied by Kmart into a new, higher-income space for Target. Similarly, in Pompano, Fla., we're taking a former Kmart location and turning it into new space for Whole Foods and The Sports Authority, at higher rents.

These are just two examples of how we're benefiting from turnover in leases signed more than 20 years ago at what are now below-market rents. We still have more than 1,000 such leases in our portfolio, so there's plenty of upside remaining to be captured.

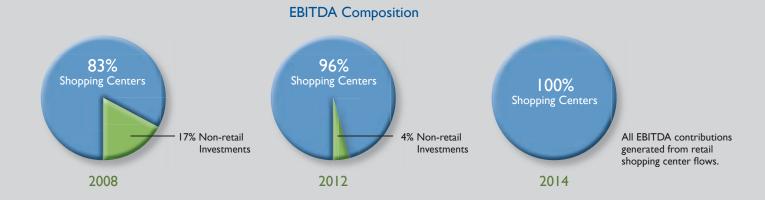

Opportunistic Retail Investments

Our longstanding relationships with major retailers and investment partners, coupled with our strong balance sheet, put us in great position to make opportunistic retail investments that add value to our portfolio.

A recent example is our participation in an investment consortium that is buying five grocery banners – Albertsons, Acme, Jewel-Osco, Shaw's and Star Market – encompassing 877 stores, from Supervalu Inc.

Kimco was part of the original consortium that purchased more than 600 stores from Albertsons in 2006. As with our initial investment, we expect this latest transaction will result in a substantial return on our investment of up to \$76.5 million, adding to our long history of success with retailer-owned real estate opportunities.

Joint ventures provide Kimco with another attractive source of acquisitions as our partners look to monetize their investments and we seek to simplify our ownership

structure. We currently have about \$10 billion of assets in such partnerships.

During the year, Kimco acquired from joint-venture partners full interests in seven U.S. shopping centers. Most recently, we acquired our partner's 55 percent ownership interest in the Santee Trolley Square shopping center in the affluent San Diego market.

We'll also look to increase our ownership in other joint ventures. For example, we recently increased our interest in the Kimco Income Fund I from 14.6 percent to 29.8 percent, and reached preliminary agreement with a new institutional investor to raise our stake from 18 percent to 33 percent in an existing institutional joint venture.

Maintaining a Strong Balance Sheet

During 2012, we took every opportunity to maintain and strengthen our healthy balance sheet and our liquidity position by accessing lower-cost money in the capital markets.

In all, we issued \$800 million of perpetual preferred stock, at a blended coupon of 5.78 percent, and redeemed \$635 million of such debt with a blended coupon of 7.45 percent. We also paid off approximately \$199 million in senior unsecured notes with a coupon of 6.0 percent. Although we reported one-time non-cash charges of approximately \$22 million, or \$0.05 per diluted share, as a result of these transactions, we will benefit by approximately \$13 million a year, or \$0.03 per diluted share, in real cash savings and reduced fixed charges year after year.

Our immediate liquidity position remains very strong, at more than \$1.4 billion, and over the course of the year, we improved our net-debt-to-recurring EBITDA ratio to 5.7 times, a level better than the 6 times to which we had committed at our 2010 Investor Day.

ACCELERATING OUR PROGRESS IN 2013

In 2013, we expect the pace of our activities will accelerate in response to improving market conditions and new opportunities. We have four main strategic objectives to guide us, but only one real focus: to maximize the value we create for Kimco shareholders, partners and associates.

Here is how we see the year shaping up:

- Portfolio Recycling We will continue to recycle our portfolio for quality and growth, selling 60-75 retail properties that no longer meet our criteria, while reinvesting the proceeds to acquire higher-value shopping centers that deepen and refine our presence in our key U.S. territories. In addition, we will substantially complete the sale of our non-retail assets, take initial steps to monetize our South American portfolio and select assets in Mexico, and continue to invest in redevelopment projects that improve the value of our U.S. portfolio.
- Shopping Center Performance We're focused, as always, on extracting maximum value and cash flow from our shopping centers by increasing occupancy levels and rents, lowering costs and finding new revenue streams. We closed out 2012 with a streak of 11 consecutive quarters of same-site net operating income growth and we intend to keep that streak going in 2013. We also expect to increase our combined portfolio occupancy.
- **Financial Strength** We will continue to maintain a healthy balance sheet and employ a conservative capital structure to achieve our business objectives. Our ongoing target for consolidated net-debt-to-recurring-EBITDA ratio is between 5.5 and 6.0 times, with a fixed-charge coverage ratio of at least 2.5 times.

Kimco helps protect the environment through sustainability initiatives like utility and waste management, lighting and irrigation efficiency, rooftop solar-power production, and low-impact materials and design — efforts that also reduce operating costs and create new revenue streams

FOCUSED ON VALUE

The true value of retail real estate comes from people. The people who finance, build and maintain shopping centers; the people who realize retail success in them, and the people who shop, enjoy dining and entertainment, or find a sense of community in them.

Behind them all, are the people of Kimco – the men and women who are focused every day on creating value for retailers, consumers, investors and communities alike. And they do a great job of it.

They work closely with retailers of all sizes to understand their business plans and help them find the right real estate to maximize their performance.

They give entrepreneurs and first-time business owners a helping hand through programs like KEYS, which offers training and incentives to start new businesses, and FastTRACK Franchise, which connects aspiring and experienced franchise owners with pre-approved locations.

They create, renew and maintain attractive shopping environments that enhance the consumer experience, improve property values, and keep shoppers coming back for more.

They help protect the environment through sustainability initiatives like utility and waste management, lighting and irrigation efficiency, rooftop solar-power production, and low-impact materials and design – efforts that also reduce operating costs and create new revenue streams.

They improve our internal efficiency with technology, creating lease management and integrated financial planning systems; business intelligence tools, and mobile property management applications.

In the end, as they focus on creating value for those around them, the people of Kimco create value for themselves, building careers and a company with almost unlimited potential and opportunity.

We thank all Kimco associates for their many contributions to our success in 2012, and look forward to what their energy, creativity, drive and determination will mean to us in the years ahead.

FORWARD-LOOKING STATEMENTS

This annual report on Form 10-K ("Form 10-K"), together with other statements and information publicly disseminated by Kimco Realty Corporation (the "Company") contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forwardlooking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of complying with the safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations, are generally identifiable by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project" or similar expressions. You should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond the Company's control and could materially affect actual results, performances or achievements. Factors which may cause actual results to differ materially from current expectations include, but are not limited to (i) general adverse economic and local real estate conditions, (ii) the inability of major tenants to continue paying their rent obligations due to bankruptcy, insolvency or a general downturn in their business, (iii) financing risks, such as the inability to obtain equity, debt or other sources of financing or refinancing on terms favorable to the Company, (iv) the Company's ability to raise capital by selling its assets, (v) changes in governmental laws and regulations, (vi) the level and volatility of interest rates and foreign currency exchange rates, (vii) risks related to our international operations, (viii) the availability of suitable acquisition and disposition opportunities, (ix) valuation and risks related to our joint venture and preferred equity investments, (x) valuation of marketable securities and other investments, (xi) increases in operating costs, (xii) changes in the dividend policy for the Company's common stock, (xiii) the reduction in the Company's income in the event of multiple lease terminations by tenants or a failure by multiple tenants to occupy their premises in a shopping center, (xiv) impairment charges and (xv) unanticipated changes in the Company's intention or ability to prepay certain debt prior to maturity and/or hold certain securities until maturity and the risks and uncertainties identified under Item 1A, "Risk Factors" and elsewhere in this Form 10-K and in the Company's other filings with the SEC. Accordingly, there is no assurance that the Company's expectations will be realized.

PART I

<u>Item 1. Business</u>

Background

Kimco Realty Corporation, a Maryland corporation, is one of the nation's largest owners and operators of neighborhood and community shopping centers. The terms "Kimco," the "Company," "we," "our" and "us" each refer to Kimco Realty Corporation and our subsidiaries, unless the context indicates otherwise. The Company is a self-administered real estate investment trust ("REIT") and has owned and operated neighborhood and community shopping centers for more than 50 years. The Company has not engaged, nor does it expect to retain, any REIT advisors in connection with the operation of its properties. As of December 31, 2012, the Company had interests in 896 shopping center properties (the "Combined Shopping Center Portfolio"), aggregating 131.3 million square feet of gross leasable area ("GLA"), and 829 other property interests, primarily through the Company's preferred equity investments, other real estate investments and non-retail properties, totaling 26.6 million square feet of GLA, for a grand total of 1,725 properties aggregating 157.9 million square feet of GLA, located in 44 states, Puerto Rico, Canada, Mexico, Chile, Brazil and Peru. The Company's ownership interests in real estate consist of its consolidated portfolio and portfolios where the Company owns an economic interest, such as properties in the Company's investment real estate management programs, where the Company partners with institutional investors and also retains management. The Company believes its portfolio of neighborhood and community shopping center properties is the largest (measured by GLA) currently held by any publicly traded REIT.

The Company's executive offices are located at 3333 New Hyde Park Road, New Hyde Park, New York 11042-0020 and its telephone number is (516) 869-9000. Nearly all operating functions, including leasing, legal, construction, data processing, maintenance, finance and accounting are administered by the Company from its executive offices in New Hyde Park, New York and supported by the Company's regional offices. As of December 31, 2012, a total of 635 persons are employed by the Company.

The Company's Web site is located at http://www.kimcorealty.com. The information contained on our Web site does not constitute part of this Form 10-K. On the Company's Web site you can obtain, free of charge, a copy of our Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act of 1934, as amended, as soon as reasonably practicable, after we file such material electronically with, or furnish it to, the Securities and Exchange Commission (the "SEC"). The public may read and copy any materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC at http://www.sec.gov.

The Company began operations through its predecessor, The Kimco Corporation, which was organized in 1966 upon the contribution of several shopping center properties owned by its principal stockholders. In 1973, these principals formed the Company as a Delaware corporation, and, in 1985, the operations of The Kimco Corporation were merged into the Company. The Company completed its initial public stock offering (the "IPO") in November 1991, and, commencing with its taxable year which began January I,

1992, elected to qualify as a REIT in accordance with Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"). If, as the Company believes, it is organized and operates in such a manner so as to qualify and remain qualified as a REIT under the Code, the Company generally will not be subject to federal income tax, provided that distributions to its stockholders equal at least the amount of its REIT taxable income, as defined under the Code. In 1994, the Company reorganized as a Maryland corporation. In March 2006, the Company was added to the S & P 500 Index, an index containing the stock of 500 Large Cap companies, most of which are U.S. corporations. The Company's common stock, Class H Depositary Shares, Class I Depositary Shares, Class J Depositary Shares and Class K Depositary Shares are traded on the New York Stock Exchange ("NYSE") under the trading symbols "KIM", "KIMprH", "KIMprH", "KIMprI" and "KIMprK", respectively.

The Company's initial growth resulted primarily from ground-up development and the construction of shopping centers. Subsequently, the Company revised its growth strategy to focus on the acquisition of existing shopping centers and continued its expansion across the nation. The Company implemented its investment real estate management format through the establishment of various institutional joint venture programs, in which the Company has noncontrolling interests. The Company earns management fees, acquisition fees, disposition fees and promoted interests based on value creation. The Company continued its geographic expansion with investments in Canada, Mexico, Chile, Brazil and Peru. The Company's revenues and equity in income from its foreign investments in U.S. dollar equivalents and their respective local currencies are as follows (in millions):

	2012		2011		2010	
Revenues (consolidated in USD):						
Mexico	\$	47.3	\$	46.3	\$	35.4
Brazil	\$	3.8	\$	3.8	\$	3.3
Peru	\$	0.4	\$	0.4	\$	0.4
Chile	\$	7.4	\$	0.3	\$	0.1
Revenues (consolidated):						
Mexico (Mexican Pesos "MXN")		626.5		570.2		455.8
Brazil (Brazillian Real)		7.2		6.3		5.9
Peru (Peruvian Nuevo Sol)		1.1		1.1		1.0
Chile (Chilean Pesos "CLP")		3,648.0		144.7		62.8
Equity in income (unconsolidated joint ventures, including preferred equity						
investments in USD):						
Canada	\$	45.4	\$	21.3	\$	26.5
Mexico	\$	15.0	\$	11.9	\$	12.0
Chile	\$	0.4	\$	0.9	\$	0.1
Equity in income (unconsolidated joint ventures, including preferred						
equity investments in local currencies):						
Canada (Canadian dollars)		44.4		19.7		27.3
Mexico (MXN)		152.8		123.5		99.0
Chile (CLP)		194.2		411.2		32.0

The Company, through its taxable REIT subsidiaries ("TRS"), as permitted by the Tax Relief Extension Act of 1999, has been engaged in various retail real estate related opportunities, including (i) ground-up development of neighborhood and community shopping centers and the subsequent sale thereof upon completion, (ii) retail real estate management and disposition services, which primarily focused on leasing and disposition strategies for real estate property interests of both healthy and distressed retailers and (iii) acting as an agent or principal in connection with tax-deferred exchange transactions. The Company may consider other investments through its TRS should suitable opportunities arise.

In addition, the Company has capitalized on its established expertise in retail real estate by establishing other ventures in which the Company owns a smaller equity interest and provides management, leasing and operational support for those properties. The Company has also provided preferred equity capital in the past to real estate entrepreneurs and, from time to time, provides real estate capital and management services to both healthy and distressed retailers. The Company has also made selective investments in secondary market opportunities where a security or other investment is, in management's judgment, priced below the value of the underlying assets, however these investments are subject to volatility within the equity and debt markets.

Operating and Investment Strategy

The Company's vision is to be the premier owner and operator of shopping centers with its core business operations focusing on owning and operating neighborhood and community shopping centers through investments in North America. This vision has entailed a shift away from non-retail assets that the Company currently holds. These investments include non-retail preferred equity investments, marketable securities, mortgages on non-retail properties and several urban mixed-use properties. The Company has been actively selling its non-retail assets and investments. As of December 31, 2012, these investments had a book value of \$398.4 million, which represents

less than 3.5% of the Company's total assets, before depreciation. In addition, the Company has an active capital recycling program of selling retail assets deemed non-strategic. The Company also has an institutional management business with domestic and foreign institutional partners for the purpose of investing in neighborhood and community shopping centers.

The Company's investment objective is to increase cash flow, current income and, consequently, the value of its existing portfolio of properties and to seek continued growth through (i) the retail re-tenanting, renovation and expansion of its existing centers and (ii) the selective acquisition of established income-producing real estate properties and properties requiring significant re-tenanting and redevelopment, primarily in neighborhood and community shopping centers in geographic regions in which the Company presently operates. The Company may consider investments in other real estate sectors and in geographic markets where it does not presently operate should suitable opportunities arise.

The Company's neighborhood and community shopping center properties are designed to attract local area customers and are typically anchored by a discount department store, a supermarket or a drugstore tenant offering day-to-day necessities rather than high-priced luxury items. The Company may either purchase or lease income-producing properties in the future and may also participate with other entities in property ownership through partnerships, joint ventures or similar types of co-ownership. Equity investments may be subject to existing mortgage financing and/or other indebtedness. Financing or other indebtedness may be incurred simultaneously or subsequently in connection with such investments. Any such financing or indebtedness would have priority over the Company's equity interest in such property. The Company may make loans to joint ventures in which it may or may not participate.

The Company seeks to reduce its operating and leasing risks through diversification achieved by the geographic distribution of its properties and a large tenant base. As of December 31, 2012, no single neighborhood and community shopping center accounted for more than 1.7% of the Company's annualized base rental revenues, including the proportionate share of base rental revenues from properties in which the Company has less than a 100% economic interest, or more than 1.2% of the Company's total shopping center GLA. At December 31, 2012, the Company's five largest tenants were The Home Depot, TJX Companies, Wal-Mart, Sears Holdings and Bed Bath & Beyond, which represented 3.0%, 2.9%, 2.6%, 2.0% and 1.7%, respectively, of the Company's annualized base rental revenues, including the proportionate share of base rental revenues from properties in which the Company has less than a 100% economic interest.

As one of the original participants in the growth of the shopping center industry and one of the nation's largest owners and operators of neighborhood and community shopping centers, the Company has established close relationships with a large number of major national and regional retailers and maintains a broad network of industry contacts. Management is associated with and/or actively participates in many shopping center and REIT industry organizations. Notwithstanding these relationships, there are numerous regional and local commercial developers, real estate companies, financial institutions and other investors who compete with the Company for the acquisition of properties and other investment opportunities and in seeking tenants who will lease space in the Company's properties.

Item IA. Risk Factors

We are subject to certain business and legal risks including, but not limited to, the following:

Loss of our tax status as a real estate investment trust could have significant adverse consequences to us and the value of our securities.

We have elected to be taxed as a REIT for federal income tax purposes under the Code. We believe that we have operated so as to qualify as a REIT under the Code and that our current organization and method of operation comply with the rules and regulations promulgated under the Code to enable us to continue to qualify as a REIT. However, there can be no assurance that we have qualified or will continue to qualify as a REIT for federal income tax purposes.

Qualification as a REIT involves the application of highly technical and complex Code provisions, for which there are only limited judicial and administrative interpretations. The determination of various factual matters and circumstances not entirely within our control may affect our ability to qualify as a REIT. New legislation, regulations, administrative interpretations or court decisions could significantly change the tax laws with respect to qualification as a REIT, the federal income tax consequences of such qualification or the desirability of an investment in a REIT relative to other investments.

In order to qualify as a REIT, we must satisfy a number of requirements, including requirements regarding the composition of our assets and a requirement that at least 95% of our gross income in any year be derived from qualifying sources, such as "rents from real property." Also, we must make distributions to stockholders aggregating annually at least 90% of our REIT taxable income, excluding net capital gains. Furthermore, we own a direct or indirect interest in certain subsidiary REITs which elected to be taxed as REITs for federal income tax purposes under the Code. Provided that each subsidiary REIT qualifies as a REIT, our interest in such subsidiary REIT will be treated as a qualifying real estate asset for purposes of the REIT asset tests. To qualify as a REIT, the subsidiary REIT must independently satisfy all of the REIT qualification requirements. The failure of a subsidiary REIT to qualify as a REIT could have an adverse effect on our ability to comply with the REIT income and asset tests, and thus our ability to qualify as a REIT.

If we lose our REIT status, we will face serious tax consequences that will substantially reduce the funds available to pay dividends to stockholders for each of the years involved because:

- we would not be allowed a deduction for distributions to stockholders in computing our taxable income and we would be subject to federal income tax at regular corporate rates;
- we could be subject to the federal alternative minimum tax and possibly increased state and local taxes;
- unless we were entitled to relief under statutory provisions, we could not elect to be subject to tax as a REIT for four taxable years following the year during which we were disqualified; and
- we would not be required to make distributions to stockholders.

As a result of all these factors, our failure to qualify as a REIT could also impair our ability to expand our business or raise capital and materially adversely affect the value of our securities.

To maintain our REIT status, we may be forced to borrow funds on a short-term basis during unfavorable market conditions.

To qualify as a REIT, we generally must distribute to our stockholders at least 90% of our REIT taxable income each year, excluding capital gains, and we will be subject to regular corporate income taxes to the extent that we distribute less than 100% of our net taxable income each year. In addition, we will be subject to a 4% nondeductible excise tax on the amount, if any, by which distributions paid by us in any calendar year are less than the sum of 85% of our ordinary income, 95% of our capital gain net income and 100% of our undistributed income from prior years. While we have historically satisfied these distribution requirements by making cash distributions to our stockholders, a REIT is permitted to satisfy these requirements by making distributions of cash or other property, including, in limited circumstances, its own stock. Assuming we continue to satisfy these distributions requirements with cash, we may need to borrow funds to meet the REIT distribution requirements even if the then prevailing market conditions are not favorable for these borrowings. These borrowing needs could result from differences in timing between the actual receipt of cash and inclusion of income for federal income tax purposes, or the effect of non-deductible capital expenditures, the creation of reserves or required debt or amortization payments.

Adverse global market and economic conditions may impede our ability to generate sufficient income and maintain our properties.

The economic performance and value of our properties is subject to all of the risks associated with owning and operating real estate, including:

- changes in the national, regional and local economic climate;
- local conditions, including an oversupply of, or a reduction in demand for, space in properties like those that we own;
- trends toward smaller store sizes as retailers reduce inventory and new prototypes;
- increasing use by customers of e-commerce and online store sites;
- the attractiveness of our properties to tenants;
- the ability of tenants to pay rent, particularly anchor tenants with leases in multiple locations;
- tenants who may declare bankruptcy and/or close stores;
- competition from other available properties to attract and retain tenants;
- changes in market rental rates;
- the need to periodically pay for costs to repair, renovate and re-let space;
- changes in operating costs, including costs for maintenance, insurance and real estate taxes;
- the fact that the expenses of owning and operating properties are not necessarily reduced when circumstances such as market factors and competition cause a reduction in income from the properties; and
- changes in laws and governmental regulations, including those governing usage, zoning, the environment and taxes.

Competition may limit our ability to purchase new properties or generate sufficient income from tenants and may decrease the occupancy and rental rates for our properties.

Our properties consist primarily of community and neighborhood shopping centers and other retail properties. Our performance therefore, is generally linked to economic conditions in the market for retail space. In the future, the market for retail space could be adversely affected by:

- weakness in the national, regional and local economies;
- the adverse financial condition of some large retailing companies;

- the impact of internet sales on the demand for retail space;
- ongoing consolidation in the retail sector, and
- the excess amount of retail space in a number of markets.

In addition, numerous commercial developers and real estate companies compete with us in seeking tenants for our existing properties and properties for acquisition. New regional malls, open-air lifestyle centers, or other retail shopping centers with more convenient locations or better rents may attract tenants or cause them to seek more favorable lease terms at or prior to renewal. Retailers at our properties may face increasing competition from other retailers, e-commerce, outlet malls, discount shopping clubs, catalog companies, direct mail, telemarketing or home shopping networks, all of which could (i) reduce rents payable to us; (ii) reduce our ability to attract and retain tenants at our properties; or (iii) lead to increased vacancy rates at our properties. We may fail to anticipate the effects of changes in consumer buying practices, particularly of growing online sales and the resulting retailing practices and space needs of our tenants or a general downturn in our tenants' businesses, which may cause tenants to close stores or default in payment of rent.

Our performance depends on our ability to collect rent from tenants, our tenants' financial condition and our tenants maintaining leases for our properties.

At any time our tenants, particularly small local stores, may experience a downtum in their business that may significantly weaken their financial condition. As a result, our tenants may delay a number of lease commencements, decline to extend or renew leases upon expiration, fail to make rental payments when due, close stores or declare bankruptcy. Any of these actions could result in the termination of tenants' leases and the loss of rental income attributable to these tenants' leases. In the event of a default by a tenant, we may experience delays and costs in enforcing our rights as landlord under the terms of the leases.

In addition, multiple lease terminations by tenants or a failure by multiple tenants to occupy their premises in a shopping center could result in lease terminations or significant reductions in rent by other tenants in the same shopping centers under the terms of some leases. In that event, we may be unable to re-lease the vacated space at attractive rents or at all, and our rental payments from our continuing tenants could significantly decrease. The occurrence of any of the situations described above, particularly if it involves a substantial tenant with leases in multiple locations, could have a material adverse effect on our financial condition, results of operations and cash flows.

A tenant that files for bankruptcy protection may not continue to pay us rent. A bankruptcy filing by, or relating to, one of our tenants or a lease guarantor would bar all efforts by us to collect pre-bankruptcy debts from the tenant or the lease guarantor, or their property, unless the bankruptcy court permits us to do so. A tenant or lease guarantor bankruptcy could delay our efforts to collect past due balances under the relevant leases and could ultimately preclude collection of these sums. If a lease is rejected by a tenant in bankruptcy, we would have only a general unsecured claim for damages. As a result, it is likely that we would recover substantially less than the full value of any unsecured claims we hold, if at all.

We may be unable to sell our real estate property investments when appropriate or on terms favorable to us.

Real estate property investments are illiquid and generally cannot be disposed of quickly. In addition, the federal tax code restricts a REIT's ability to dispose of properties that are not applicable to other types of real estate companies. Therefore, we may not be able to vary our portfolio in response to economic or other conditions promptly or on terms favorable to us within a time frame that we would need.

We may acquire or develop properties or acquire other real estate related companies and this may create risks.

We may acquire or develop properties or acquire other real estate related companies when we believe that an acquisition or development is consistent with our business strategies. We may not succeed in consummating desired acquisitions or in completing developments on time or within budget. When we do pursue a project or acquisition, we may not succeed in leasing newly developed or acquired properties at rents sufficient to cover the costs of acquisition or development and operations. Difficulties in integrating acquisitions may prove costly or time-consuming and could divert management's attention from other activities. Acquisitions or developments in new markets or industries where we do not have the same level of market knowledge may result in poorer than anticipated performance. We may also abandon acquisition or development opportunities that management has begun pursuing and consequently fail to recover expenses already incurred and will have devoted management's time to a matter not consummated. Furthermore, our acquisitions of new properties or companies will expose us to the liabilities of those properties or companies, some of which we may not be aware of at the time of the acquisition. In addition, development of our existing properties presents similar risks.

Newly acquired or re-developed properties may have characteristics or deficiencies currently unknown to us that affect their value or revenue potential. It is also possible that the operating performance of these properties may decline under our management. As we acquire additional properties, we will be subject to risks associated with managing new properties, including lease-up and tenant retention. In addition, our ability to manage our growth effectively will require us to successfully integrate our new acquisitions into our existing management structure. We may not succeed with this integration or effectively manage additional properties, particularly in secondary markets. Also, newly acquired properties may not perform as expected.

We face competition in pursuing acquisition or development opportunities that could increase our costs.

We face competition in the acquisition, development, operation and sale of real property from others engaged in real estate investment that could increase our costs associated with purchasing and maintaining assets. Some of these competitors may have greater financial resources than we do. This could result in competition for the acquisition of properties for tenants who lease or consider leasing space in our existing and subsequently acquired properties and for other real estate investment opportunities.

We do not have exclusive control over our joint venture and preferred equity investments, such that we are unable to ensure that our objectives will be pursued.

We have invested in some properties as a co-venturer or partner, instead of owning directly. In these investments, we do not have exclusive control over the development, financing, leasing, management and other aspects of these investments. As a result, the co-venturer or partner might have interests or goals that are inconsistent with ours, take action contrary to our interests or otherwise impede our objectives. These investments involve risks and uncertainties. The co-venturer or partner may fail to provide capital or fulfill its obligations, which may result in certain liabilities to us for guarantees and other commitments, conflicts arising between us and our partners and the difficulty of managing and resolving such conflicts, and the difficulty of managing or otherwise monitoring such business arrangements. The co-venturer or partner also might become insolvent or bankrupt, which may result in significant losses to us.

Although our joint venture arrangements may allow us to share risks with our joint-venture partners, these arrangements may also decrease our ability to manage risk. Joint ventures implicate additional risks, such as:

- potentially inferior financial capacity, diverging business goals and strategies and the need for our venture partner's continued cooperation;
- our inability to take actions with respect to the joint venture activities that we believe are favorable to us if our joint venture partner does not agree;
- our inability to control the legal entity that has title to the real estate associated with the joint venture;
- our lenders may not be easily able to sell our joint venture assets and investments or may view them less favorably as collateral, which could negatively affect our liquidity and capital resources;
- our joint venture partners can take actions that we may not be able to anticipate or prevent, which could result in negative impacts on our debt and equity; and
- our joint venture partners' business decisions or other actions or omissions may result in harm to our reputation or adversely affect the value of our investments.

Our joint venture and preferred equity investments generally own real estate properties for which the economic performance and value is subject to all the risks associated with owning and operating real estate as described above.

We intend to sell many of our non-retail and non-strategic assets over the next several years and may not be able to recover our investments, which may result in significant losses to us.

There can be no assurance that we will be able to recover the current carrying amount of all of our non-retail and/or non-strategic properties and investments and those of our unconsolidated joint ventures in the future. Our failure to do so would require us to recognize impairment charges for the period in which we reached that conclusion, which could materially and adversely affect our business, financial condition, operating results and cash flows.

We have significant international operations, which may be affected by economic, political and other risks associated with international operations, and this could adversely affect our business.

The risks we face in international business operations include, but are not limited to:

- currency risks, including currency fluctuations;
- unexpected changes in legislative and regulatory requirements;
- potential adverse tax burdens;
- burdens of complying with different accounting and permitting standards, labor laws and a wide variety of foreign laws;
- obstacles to the repatriation of earnings and cash;
- regional, national and local political uncertainty;
- economic slowdown and/or downturn in foreign markets;
- difficulties in staffing and managing international operations;
- difficulty in administering and enforcing corporate policies, which may be different than the normal business practices of local cultures; and
- reduced protection for intellectual property in some countries.

Each of these risks might impact our cash flow or impair our ability to borrow funds, which ultimately could adversely affect our business, financial condition, operating results and cash flows.

In order to fully develop our international operations, we must overcome cultural and language barriers and assimilate different business practices. In addition, we are required to create compensation programs, employment policies and other administrative programs that comply with laws of multiple countries. We also must communicate and monitor standards and directives in our international locations. Our failure to successfully manage our geographically diverse operations could impair our ability to react quickly to changing business and market conditions and to enforce compliance with standards and procedures. Since a meaningful portion of our revenues are generated internationally, we must devote substantial resources to managing our international operations.

Our future success will be influenced by our ability to anticipate and effectively manage these and other risks associated with our international operations. Any of these factors could, however, materially adversely affect our international operations and, consequently, our financial condition, results of operations and cash flows.

We cannot predict the impact of laws and regulations affecting our international operations nor the potential that we may face regulatory sanctions.

Our international operations include properties in Canada, Mexico, Chile, Brazil and Peru and are subject to a variety of United States and foreign laws and regulations, including the United States Foreign Corrupt Practices Act ("FCPA"). We have policies and procedures designed to promote compliance with the FCPA and other anti-corruption laws, but we cannot assure you that we will continue to be found to be operating in compliance with, or be able to detect violations of, any such laws or regulations. In addition, we cannot predict the nature, scope or effect of future regulatory requirements to which our international operations might be subject, the manner in which existing laws might be administered or interpreted, or the potential that we may face regulatory sanctions.

We cannot assure you that our employees will adhere to our Code of Conduct or any other of our policies, applicable anti-corruption laws, including the FCPA, or other legal requirements. Failure to comply or violations of any applicable policies, anti-corruption laws, or other legal requirements may subject us to legal, regulatory or other sanctions, including criminal and civil penalties and other remedial measures. We have received a subpoena from the Enforcement Division of the SEC in connection with the SEC's investigation, In the Matter of Wal-Mart Stores, Inc. (FW-3678), that the SEC Staff is currently conducting with respect to possible violations of the FCPA. See "Item 3. Legal Proceedings," below. The U.S. Department of Justice and the SEC have a broad range of civil and criminal sanctions under the FCPA and other laws and regulations, which they may seek to impose against corporations and individuals in appropriate circumstances including, but not limited to, injunctive relief, disgorgement, fines, penalties and modifications to business practices and compliance programs. Any of these remedial measures, if applicable to us, could have a material adverse impact on our business, results of operations, financial condition and liquidity.

We face risks relating to cybersecurity attacks, loss of confidential information and other business disruptions.

Our business is at risk from and may be impacted by cybersecurity attacks, including attempts to gain unauthorized access to our confidential data and other electronic security breaches. Such cyber attacks can range from individual attempts to gain unauthorized access to our information technology systems to more sophisticated security threats. While we employ a number of measures to prevent, detect and mitigate these threats including password protection, backup servers and annual penetration testing, there is no guarantee such efforts will be successful in preventing a cyber attack. Cybersecurity incidents could compromise the confidential information of our tenants, employees and third party vendors and disrupt and effect the efficiency of our business operations.

We may be unable to obtain financing through the debt and equities market, which would have a material adverse effect on our growth strategy, our results of operations and our financial condition.

We cannot assure you that we will be able to access the capital and credit markets to obtain additional debt or equity financing or that we will be able to obtain financing on terms favorable to us. The inability to obtain financing on a timely basis could have negative effects on our business, such as:

- we could have great difficulty acquiring or developing properties, which would materially adversely affect our business strategy;
- our liquidity could be adversely affected;
- we may be unable to repay or refinance our indebtedness;
- we may need to make higher interest and principal payments or sell some of our assets on terms unfavorable to us to fund our indebtedness; or
- we may need to issue additional capital stock, which could further dilute the ownership of our existing shareholders.

Adverse changes in our credit ratings could impair our ability to obtain additional debt and equity financing on terms favorable to us, if at all, and could significantly reduce the market price of our publicly traded securities.

We are subject to financial covenants that may restrict our operating and acquisition activities.

Our revolving credit facility and the indentures under which our senior unsecured debt is issued contain certain financial and operating covenants, including, among other things, certain coverage ratios and limitations on our ability to incur debt, make dividend payments, sell all or substantially all of our assets and engage in mergers and consolidations and certain acquisitions. These covenants may restrict our ability to pursue certain business initiatives or certain acquisition transactions that might otherwise be advantageous. In addition, failure to meet any of the financial covenants could cause an event of default under our revolving credit facility and the indentures and/or accelerate some or all of our indebtedness, which would have a material adverse effect on us.

Changes in market conditions could adversely affect the market price of our publicly traded securities.

As with other publicly traded securities, the market price of our publicly traded securities depends on various market conditions, which may change from time-to-time. Among the market conditions that may affect the market price of our publicly traded securities are the following:

- the extent of institutional investor interest in us;
- the reputation of REITs generally and the reputation of REITs with portfolios similar to ours;
- the attractiveness of the securities of REITs in comparison to securities issued by other entities, including securities issued by other real estate companies;
- our financial condition and performance;
- the market's perception of our growth potential and potential future cash dividends;
- an increase in market interest rates, which may lead prospective investors to demand a higher distribution rate in relation to the price paid for our shares; and
- general economic and financial market conditions.

We may change the dividend policy for our common stock in the future.

The decision to declare and pay dividends on our common stock in the future, as well as the timing, amount and composition of any such future dividends, will be at the sole discretion of our Board of Directors and will depend on our earnings, operating cash flows, liquidity, financial condition, capital requirements, contractual prohibitions or other limitations under our indebtedness including preferred stock, the annual distribution requirements under the REIT provisions of the Code, state law and such other factors as our Board of Directors deems relevant or are requirements under the Code or state or federal laws. Any change in our dividend policy could have a material adverse effect on the market price of our common stock.

We may not be able to recover our investments in marketable securities or mortgage receivables, which may result in significant losses to us.

Our investments in marketable securities are subject to specific risks relating to the particular issuer of the securities, including the financial condition and business outlook of the issuer, which may result in significant losses to us. Marketable securities are generally unsecured and may also be subordinated to other obligations of the issuer. As a result, investments in marketable securities are subject to risks of:

- limited liquidity in the secondary trading market;
- substantial market price volatility, resulting from changes in prevailing interest rates;
- subordination to the prior claims of banks and other senior lenders to the issuer,
- the possibility that earnings of the issuer may be insufficient to meet its debt service and distribution obligations; and
- the declining creditworthiness and potential for insolvency of the issuer during periods of rising interest rates and economic downturn.

These risks may adversely affect the value of outstanding marketable securities and the ability of the issuers to make distribution payments.

In the event of a default by a borrower, it may be necessary for us to foreclose our mortgage or engage in costly negotiations. Delays in liquidating defaulted mortgage loans and repossessing and selling the underlying properties could reduce our investment returns. Furthermore, in the event of default, the actual value of the property securing the mortgage may decrease. A decline in real estate values will adversely affect the value of our loans and the value of the mortgages securing our loans.

Our mortgage receivables may be or become subordinated to mechanics' or materialmen's liens or property tax liens. In these instances we may need to protect a particular investment by making payments to maintain the current status of a prior lien or discharge it entirely. In these cases, the total amount we recover may be less than our total investment, resulting in a loss. In the event of a major loan default or several loan defaults resulting in losses, our investments in mortgage receivables would be materially and adversely affected.

We may be subject to liability under environmental laws, ordinances and regulations.

Under various federal, state, and local laws, ordinances and regulations, we may be considered an owner or operator of real property and may be responsible for paying for the disposal or treatment of hazardous or toxic substances released on or in our property, as well as certain other potential costs relating to hazardous or toxic substances (including governmental fines and injuries to persons and property). This liability may be imposed whether or not we knew about, or were responsible for, the presence of hazardous or toxic substances.

None

Item 2. Properties

Real Estate Portfolio. As of December 31, 2012, the Company had interests in 896 shopping center properties (the "Combined Shopping Center Portfolio") aggregating 131.3 million square feet of gross leasable area ("GLA") and 829 other property interests, primarily through the Company's preferred equity investments, other real estate investments and non-retail properties, totaling 26.6 million square feet of GLA, for a grand total of 1,725 properties aggregating 157.9 million square feet of GLA, located in 44 states, Puerto Rico, Canada, Mexico and South America. The Company's portfolio includes noncontrolling interests. Neighborhood and community shopping centers comprise the primary focus of the Company's current portfolio. As of December 31, 2012, the Company's Combined Shopping Center Portfolio was 94.0% leased.

The Company's neighborhood and community shopping center properties, which are generally owned and operated through subsidiaries or joint ventures, had an average size of 138,518 square feet as of December 31, 2012. The Company generally retains its shopping centers for long-term investment and consequently pursues a program of regular physical maintenance together with major renovations and refurbishing to preserve and increase the value of its properties. This includes renovating existing facades, installing uniform signage, resurfacing parking lots and enhancing parking lot lighting. During 2012, the Company capitalized \$7.8 million in connection with these property improvements and expensed to operations \$25.4 million.

The Company's management believes its experience in the real estate industry and its relationships with numerous national and regional tenants gives it an advantage in an industry where ownership is fragmented among a large number of property owners. The Company's neighborhood and community shopping centers are usually "anchored" by a national or regional discount department store, supermarket or drugstore. As one of the original participants in the growth of the shopping center industry and one of the nation's largest owners and operators of shopping centers, the Company has established close relationships with a large number of major national and regional retailers. Some of the major national and regional companies that are tenants in the Company's shopping center properties include The Home Depot, TJX Companies, Wal-Mart, Sears Holdings, Bed Bath & Beyond, Royal Ahold, Kohl's, Best Buy, Petsmart and Costco.

A substantial portion of the Company's income consists of rent received under long-term leases. Most of the leases provide for the payment of fixed-base rentals monthly in advance and for the payment by tenants of an allocable share of the real estate taxes, insurance, utilities and common area maintenance expenses incurred in operating the shopping centers. Although many of the leases require the Company to make roof and structural repairs as needed, a number of tenant leases place that responsibility on the tenant, and the Company's standard small store lease provides for roof repairs to be reimbursed by the tenant as part of common area maintenance. The Company's management places a strong emphasis on sound construction and safety at its properties.

Minimum base rental revenues and operating expense reimbursements accounted for 97% and other revenues, including percentage rents, accounted for 3% of the Company's total revenues from rental property for the year ended December 31, 2012. The Company's management believes that the base rent per leased square foot for many of the Company's existing leases is generally lower than the prevailing market-rate base rents in the geographic regions where the Company operates, reflecting the potential for future growth.

Approximately 15.4% of the Company's leases of consolidated properties also contain provisions requiring the payment of additional rent calculated as a percentage of tenants' gross sales above predetermined thresholds. Percentage rents accounted for less than 1% of the Company's revenues from rental property for the year ended December 31, 2012. Additionally, a majority of the Company's leases have provisions requiring contractual rent increases. The Company's leases may also include escalation clauses, which provide for increases based upon changes in the consumer price index or similar inflation indices.

As of December 31, 2012, the Company's consolidated operating portfolio was 93.4% leased and was comprised of 58.9 million square feet of GLA, of which 55.1 million related to properties held in the U.S. and 3.8 million related to properties located in Latin America. For the period January 1, 2012 to December 31, 2012, the Company increased the average base rent per leased square foot, which includes the impact of tenant concessions, in its U.S. consolidated portfolio of neighborhood and community shopping centers from \$11.48 to \$12.18, an increase of \$0.70. This increase primarily consists of (i) a \$0.16 increase relating to acquisitions, as well as development properties placed into service, (ii) a \$0.24 increase relating to new leases signed net of leases vacated and rent step-ups within the portfolio and (iii) a \$0.30 increase relating to dispositions or the transfer of properties to various joint venture entities. For the period January 1, 2012 to December 31, 2012, the Company's average base rent per leased square foot in its Mexican consolidated portfolio of neighborhood and community shopping centers decreased from \$9.66 to \$9.22, a decrease of \$0.44. This decrease is primarily due to higher vacancy levels at certain development sites placed into service, which were included in occupancy in 2012, and new leases signed net of leases vacated and renewals within the portfolio.

The Company has a total of 5,027 leases in the U.S. consolidated operating portfolio, of which 682 leases, comprising 3.7 million square feet of GLA, are scheduled to expire within the next 12 months, assuming available extension options are not exercised. These expiring leases have an average base rent per square foot of \$13.99. The average rent per square foot on new U.S. leases signed during 2012 was \$16.41. The Company will seek to obtain rents that are higher than these expiring leases, however, there are many variables and uncertainties which can significantly affect the leasing market at any time; as such, the Company cannot guarantee that future leases will continue to be signed for rents that are equal to or higher than current amounts.

Ground-Leased Properties. The Company has interests in 47 consolidated shopping center properties and interests in 20 shopping center properties in unconsolidated joint ventures that are subject to long-term ground leases where a third party owns and has leased the underlying land to the Company (or an affiliated joint venture) to construct and/or operate a shopping center. The Company or the joint venture pays rent for the use of the land and generally is responsible for all costs and expenses associated with the building and improvements. At the end of these long-term leases, unless extended, the land together with all improvements revert to the landowner.

More specific information with respect to each of the Company's property interests is set forth in Exhibit 99.1, which is incorporated herein by reference.

Item 3. Legal Proceedings

The Company is not presently involved in any litigation nor, to its knowledge, is any litigation threatened against the Company or its subsidiaries that, in management's opinion, would result in any material adverse effect on the Company's ownership, management or operation of its properties taken as a whole, or which is not covered by the Company's liability insurance.

On January 28, 2013, the Company received a subpoena from the Enforcement Division of the SEC in connection with an investigation, In the Matter of Wal-Mart Stores, Inc. (FW-3678), that the SEC Staff is currently conducting with respect to possible violations of the Foreign Corrupt Practices Act. The Company is responding to the subpoena and intends to cooperate fully with the SEC in this matter. The Company has also been notified that the U.S. Department of Justice ("DOJ") is conducting a parallel investigation, and the Company expects that it will cooperate with the DOJ investigation. At this point, we are unable to predict the duration, scope or result of the SEC or DOJ investigation.

PART II

Item 5. Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

<u>Market Information</u> There were no common stock offerings completed by the Company during the three-year period ended December 31, 2012.

The table below sets forth, for the quarterly periods indicated, the high and low sales prices per share reported on the NYSE Composite Tape and declared dividends per share for the Company's common stock. The Company's common stock is traded on the NYSE under the trading symbol "KIM".

Period -		Sto				
		High		Low	Dividends	
2011:						
First Quarter	\$	19.50	\$	16.98	\$	0.18
Second Quarter		19.80	\$	17.01	\$	0.18
Third Quarter	\$	20.31	\$	14.54	\$	0.18
Fourth Quarter		17.93	\$	13.55	\$	0.19(a)
2012:						
First Quarter	\$	19.90	\$	16.21	\$	0.19
Second Quarter		19.96	\$	17.16	\$	0.19
Third Quarter	\$	21.16	\$	18.62	\$	0.19
Fourth Quarter		20.95	\$	18.11	\$	0.21(b)

- (a) Paid on January 17, 2012, to stockholders of record on January 4, 2012.
- (b) Paid on January 15, 2013, to stockholders of record on January 2, 2013.

Holders The number of holders of record of the Company's common stock, par value \$0.01 per share, was 2,815 as of January 31, 2013.

<u>Dividends</u> Since the IPO, the Company has paid regular quarterly cash dividends to its stockholders. While the Company intends to continue paying regular quarterly cash dividends, future dividend declarations will be paid at the discretion of the Board of Directors and will depend on the actual cash flows of the Company, its financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Code and such other factors as the Board of Directors deems relevant. The Company's Board of Directors will continue to evaluate the Company's dividend policy on a quarterly basis as they monitor sources of capital and evaluate the impact of the economy on operating fundamentals. The Company is required by the Code to distribute at least 90% of its REIT taxable income. The actual cash flow available to pay dividends will be affected by a number of factors, including the revenues received from rental properties, the operating expenses of the Company, the interest expense on its borrowings, the ability of lessees to meet their obligations to the Company, the ability to refinance near-term debt maturities and any unanticipated capital expenditures.

The Company has determined that the \$0.76 dividend per common share paid during 2012 represented 72% ordinary income, a 23% return of capital and 5% capital gain to its stockholders. The \$0.72 dividend per common share paid during 2011 represented 71% ordinary income and a 29% return of capital to its stockholders.

In addition to its common stock offerings, the Company has capitalized the growth in its business through the issuance of unsecured fixed and floating-rate medium-term notes, underwritten bonds, mortgage debt and construction loans, convertible preferred stock and perpetual preferred stock. Borrowings under the Company's revolving credit facility have also been an interim source of funds to both finance the purchase of properties and other investments and meet any short-term working capital requirements. The various instruments governing the Company's issuance of its unsecured public debt, bank debt, mortgage debt and preferred stock impose certain restrictions on the Company with regard to dividends, voting, liquidation and other preferential rights available to the holders of such instruments. See "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Footnotes 13, 14 and 17 of the Notes to Consolidated Financial Statements included in this Form 10-K.

The Company does not believe that the preferential rights available to the holders of its Class H Preferred Stock, Class J Preferred Stock, Class J Preferred Stock and Class K Preferred Stock, the financial covenants contained in its public bond indentures, as amended, or its revolving credit agreements will have an adverse impact on the Company's ability to pay dividends in the normal course to its common stockholders or to distribute amounts necessary to maintain its qualification as a REIT.

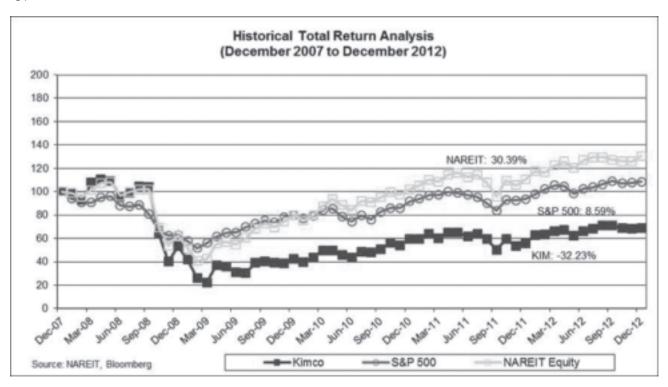

The Company maintains a dividend reinvestment and direct stock purchase plan (the "Plan") pursuant to which common and preferred stockholders and other interested investors may elect to automatically reinvest their dividends to purchase shares of the Company's common stock or, through optional cash payments, purchase shares of the Company's common stock. The Company may, from time-to-time, either (i) purchase shares of its common stock in the open market or (ii) issue new shares of its common stock for the purpose of fulfilling its obligations under the Plan.

<u>Issuer Purchases of Equity Securities</u> During the year ended December 31, 2012, the Company repurchased 1,635,823 shares in open-market transactions to offset new issuances of common shares in connection with the exercise of stock options. The Company expended \$30.9 million to repurchase these shares, of which \$22.6 million was provided to the Company from stock options exercised.

	Total Number of Shares	Average Price Paid per	Total Number of Shares Purchased as Part of Publicly Announced Plans or	Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
Period	Purchased	Share (\$)	Programs	(in millions)

Approximate

Total Stockholder Return Performance The following performance chart compares, over the five years ended December 31, 2012, the cumulative total stockholder return on the Company's common stock with the cumulative total return of the S&P 500 Index and the cumulative total return of the NAREIT Equity REIT Total Return Index (the "NAREIT Equity Index") prepared and published by the National Association of Real Estate Investment Trusts ("NAREIT"). Equity real estate investment trusts are defined as those which derive more than 75% of their income from equity investments in real estate assets. The NAREIT Equity Index includes all tax qualified equity real estate investment trusts listed on the New York Stock Exchange, American Stock Exchange or the NASDAQ National Market System. Stockholder return performance, presented quarterly for the five years ended December 31, 2012, is not necessarily indicative of future results. All stockholder return performance assumes the reinvestment of dividends. The information in this paragraph and the following performance chart are deemed to be furnished, not filed.

Item 6. Selected Financial Data

The following table sets forth selected, historical, consolidated financial data for the Company and should be read in conjunction with the Consolidated Financial Statements of the Company and Notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations included in this Form 10-K.

The Company believes that the book value of its real estate assets, which reflects the historical costs of such real estate assets less accumulated depreciation, is not indicative of the current market value of its properties. Historical operating results are not necessarily indicative of future operating performance.

- (3) Does not include amounts reflected in discontinued operations.
- (4) Does not include amounts reflected in discontinued operations and extraordinary gain. Amounts include income taxes related to gain on transfer/sale of operating properties.
- (5) Does not include amounts reflected in discontinued operations. Amounts include income taxes related to gain on transfer/sale of operating properties.
- (6) Amounts exclude noncontrolling interests and amounts reflected in discontinued operations.
- (7) Amounts include gain on transfer/sale of operating properties, net of tax and net income attributable to noncontrolling interests.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in this Form 10-K. Historical results and percentage relationships set forth in the Consolidated Statements of Income contained in the Consolidated Financial Statements, including trends which might appear, should not be taken as indicative of future operations.

Executive Summary

Kimco Realty Corporation is one of the nation's largest publicly-traded owners and operators of neighborhood and community shopping centers. As of December 31, 2012, the Company had interests in 896 shopping center properties (the "Combined Shopping Center Portfolio"), aggregating 131.3 million square feet of gross leasable area ("GLA") and 829 other property interests, primarily through the Company's preferred equity investments, other real estate investments and non-retail properties, totaling 26.6 million square feet of GLA, for a grand total of 1,725 properties aggregating 157.9 million square feet of GLA, located in 44 states, Puerto Rico, Canada, Mexico, Chile, Brazil and Peru.

The executive officers are engaged in the day-to-day management and operation of real estate exclusively with the Company, with nearly all operating functions, including leasing, asset management, maintenance, construction, legal, finance and accounting, administered by the Company.

The Company's vision is to be the premier owner and operator of shopping centers with its core business operations focusing on owning and operating neighborhood and community shopping centers through investments in North America. This vision has entailed a shift away from non-retail assets that the Company currently holds. These investments include non-retail preferred equity investments, marketable securities, mortgages on non-retail properties and several urban mixed-use properties. The Company has been actively selling its non-retail assets and investments. As of December 31, 2012, these investments had a book value of \$398.4 million, which represents less than 3.5% of the Company's total assets, before depreciation. In addition, the Company has an active capital recycling program of selling retail assets deemed non-strategic. If the Company accepts sales prices for these non-retail and/or non-strategic assets that are less than their net carrying values, the Company would be required to take impairment charges. In order to execute the Company's vision, the Company's strategy is to continue to strengthen its balance sheet by pursuing deleveraging efforts over time, providing it the necessary flexibility to invest opportunistically and selectively, primarily focusing on neighborhood and community shopping centers. In addition, the Company has an institutional management business with domestic and foreign institutional partners for the purpose of investing in neighborhood and community shopping centers.

The following highlights the Company's significant transactions, events and results that occurred during the year ended December 31, 2012:

Portfolio Information:

- Net income available to common shareholders increased by \$63.0 million to \$172.7 million for the year ended December 31, 2012, as compared to \$109.7 million for the corresponding period in 2011.
- Funds from operations ("FFO") as adjusted increased from \$1.20 for the year ended December 31, 2011 to \$1.26 for the year ended December 31, 2012 (see additional disclosure on FFO beginning on page 31).
- Same Property net operating income ("NOI") increased by \$18.8 million or 2.3% for the year ended December 31, 2012, as compared to the corresponding period in 2011; excluding the negative impact of foreign currency fluctuation, this increase would have been \$23.6 million or 2.9% (see additional disclosure on NOI beginning on page 32).
- Occupancy rose from 93.3% at December 31, 2011 to 94.0% at December 31, 2012 in the Combined Shopping Center Portfolio.
- Occupancy rose from 93.1% at December 31, 2011 to 93.9% at December 31, 2012 for the U.S. combined shopping center portfolio.
- Recognized U.S. cash-basis leasing spreads of 9.8%; new leases increased 27.8% and renewals/options increased 4.5%.
- Executed 2,678 leases, renewals and options totaling over 10.0 million square feet in the Combined Shopping Center Portfolio.

Acquisition Activity:

• Acquired 24 shopping center properties, five outparcels and 69 net leased parcels comprising an aggregate 3.1 million square feet of GLA, for an aggregate purchase price of \$634.5 million including the assumption of \$179.2 million of non-recourse mortgage debt encumbering seven of the properties.

Disposition Activity:

- During 2012, the Company monetized non-retail assets of \$83.0 million and reduced its non-retail book values by \$114.1 million to \$398.4 million.
- Included in the monetization above are the disposition of four properties and one land parcel, in separate transactions, for an aggregate sales price of \$40.3 million. These transactions resulted in an aggregate net gain of \$4.8 million, before income taxes.
- Also included in the monetization above is (i) the receipt of \$24.8 million from payment of mortgage receivables, (ii) the Company's receipt of \$14.6 million in distributions from two preferred equity investments and one joint venture investment and (iii) \$10.4 million in distributions from two cost method investments.
- Additionally, during 2012, the Company disposed of 59 operating properties, four land parcels and four outparcels, in separate transactions, for an aggregate sales price of \$443.0 million. These transactions resulted in an aggregate gain of \$91.5 million and impairment charges of \$22.5 million, before income taxes and noncontrolling interests.

Capital Activity (for additional details see Liquidity and Capital Resources below):

- During 2012, the Company issued 16,000,000 depositary shares of 6.00% Class I Cumulative Redeemable Preferred Stock, 9,000,000 depositary shares of 5.50% Class J Cumulative Redeemable Preferred Stock and 7,000,000 depositary shares of 5.625% Class K Cumulative Redeemable Preferred Stock resulting in aggregate proceeds after expenses of \$774.1 million to the Company.
- Additionally, during 2012, the Company redeemed all of its outstanding 18,400,000 depositary shares of the Company's 7.75% Class G Cumulative Redeemable Preferred Stock and all of its outstanding 7,000,000 depositary shares of the Company's 6.65% Class F Cumulative Redeemable Preferred Stock resulting in aggregate payments of \$635.0 million.
- Also during 2012, the Company (i) repaid the \$17.0 million outstanding on its 5.98% medium-term notes, which matured in July 2012 and (ii) repaid the \$198.9 million outstanding on its 6.00% senior unsecured note, which matured in November 2012.
- The Company also obtained a new \$400.0 million unsecured term loan with a consortium of banks, which accrues interest at LIBOR plus 105 basis points. The term loan is scheduled to mature in April 2014, with three additional one-year options to extend the maturity date, at the Company's discretion, to April 17, 2017.

Impairments:

- Real estate market conditions, including capitalization rates, discount rates and vacancies had continued to improve throughout 2012; however, declines in certain real estate markets continued to have a negative effect on transactional activity as it related to dispositions of select real estate assets. This factor, in addition to the Company's efforts to market certain assets and management's assessment as to the likelihood and timing of such potential transactions caused the Company to recognize impairment charges of \$59.6 million (including \$22.5 million which is classified within discontinued operations), before income tax benefit and noncontrolling interests. Potential future adverse market and economic conditions could cause the Company to recognize additional impairments in the future (see Footnote 2 of the Notes to Consolidated Financial Statements included in this annual report on Form 10-K).
- In addition to the impairment charges above, various unconsolidated joint ventures in which the Company holds noncontrolling interests recognized impairment charges relating to certain properties during 2012. The Company's share of these charges was \$11.1 million, before income taxes (see Footnotes 2 and 8 of the Notes to Consolidated Financial Statements included in this annual report on Form 10-K).

Critical Accounting Policies

The Consolidated Financial Statements of the Company include the accounts of the Company, its wholly-owned subsidiaries and all entities in which the Company has a controlling interest, including where the Company has been determined to be a primary beneficiary of a variable interest entity in accordance with the consolidation guidance of the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC"). The Company applies these provisions to each of its joint venture investments to determine whether the cost, equity or consolidation method of accounting is appropriate. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying Consolidated Financial Statements and related notes. In preparing these financial statements, management has made its best estimates and assumptions that affect the reported amounts of assets and liabilities. These estimates are based on, but not limited to, historical results, industry standards and current economic conditions, giving due consideration to materiality. The most significant assumptions and estimates relate to revenue recognition and the recoverability of trade accounts receivable, depreciable lives, valuation of real estate and intangible assets and liabilities, valuation of joint venture investments and other investments, realizability of deferred tax assets and uncertain tax positions. Application of these estimates.

The Company is required to make subjective assessments as to whether there are impairments in the value of its real estate properties, investments in joint ventures, marketable securities and other investments. The Company's reported net earnings are directly affected by management's estimate of impairments and/or valuation allowances.

Revenue Recognition and Accounts Receivable

Base rental revenues from rental property are recognized on a straight-line basis over the terms of the related leases. Certain of these leases also provide for percentage rents based upon the level of sales achieved by the lessee. These percentage rents are recorded once the required sales level is achieved. Operating expense reimbursements are recognized as earned. Rental income may also include payments received in connection with lease termination agreements. In addition, leases typically provide for reimbursement to the Company of common area maintenance, real estate taxes and other operating expenses.

The Company makes estimates of the uncollectability of its accounts receivable related to base rents, straight-line rent, expense reimbursements and other revenues. The Company analyzes accounts receivable and historical bad debt levels, customer credit-worthiness and current economic trends when evaluating the adequacy of the allowance for doubtful accounts. In addition, tenants in bankruptcy are analyzed and estimates are made in connection with the expected recovery of pre-petition and post-petition claims. The Company's reported net earnings are directly affected by management's estimate of the collectability of accounts receivable.

Real Estate

The Company's investments in real estate properties are stated at cost, less accumulated depreciation and amortization. Expenditures for maintenance and repairs are charged to operations as incurred. Significant renovations and replacements, which improve and extend the life of the asset, are capitalized.

Upon acquisition of real estate operating properties, the Company estimates the fair value of acquired tangible assets (consisting of land, building, building improvements and tenant improvements) and identified intangible assets and liabilities (consisting of above and below-market leases, in-place leases and tenant relationships), assumed debt and redeemable units issued at the date of acquisition, based on evaluation of information and estimates available at that date. Based on these estimates, the Company allocates the estimated fair value to the applicable assets and liabilities. Fair value is determined based on an exit price approach, which contemplates the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If, up to one year from the acquisition date, information regarding fair value of the assets acquired and liabilities assumed is received and estimates are refined, appropriate adjustments are made to the purchase price allocation on a retrospective basis. The Company expenses transaction costs associated with business combinations in the period incurred.

Depreciation and amortization are provided on the straight-line method over the estimated useful lives of the assets, as follows:

Buildings and building improvements

15 to 50 years

Fixtures, leasehold and tenant improvements (including certain identified intangible assets)

Terms of leases or useful lives, whichever is shorter

The Company is required to make subjective assessments as to the useful lives of its properties for purposes of determining the amount of depreciation to reflect on an annual basis with respect to those properties. These assessments have a direct impact on the Company's net earnings.

On a continuous basis, management assesses whether there are any indicators, including property operating performance and general market conditions, that the value of the real estate properties (including any related amortizable intangible assets or liabilities) may be impaired. A property value is considered impaired only if management's estimate of current and projected operating cash flows (undiscounted and unleveraged) of the property over its remaining useful life is less than the net carrying value of the property. Such cash flow projections consider factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. To the extent impairment has occurred, the carrying value of the property would be adjusted to reflect the estimated fair value of the property.

When a real estate asset is identified by management as held-for-sale, the Company ceases depreciation of the asset and estimates the sales price of such asset net of selling costs. If, in management's opinion, the net sales price of the asset is less than the net book value of such asset, an adjustment to the carrying value would be recorded to reflect the estimated fair value of the property.

Investments in Unconsolidated Joint Ventures

The Company accounts for its investments in unconsolidated joint ventures under the equity method of accounting as the Company exercises significant influence, but does not control, these entities. These investments are recorded initially at cost and are subsequently adjusted for cash contributions and distributions. Earnings for each investment are recognized in accordance with each respective investment agreement and, where applicable, are based upon an allocation of the investment's net assets at book value as if the investment was hypothetically liquidated at the end of each reporting period.

The Company's joint ventures and other real estate investments primarily consist of co-investments with institutional and other joint venture partners in neighborhood and community shopping center properties, consistent with its core business. These joint ventures typically obtain non-recourse third-party financing on their property investments, thus contractually limiting the Company's exposure to losses to the amount of its equity investment, and, due to the lender's exposure to losses, a lender typically will require a minimum level of equity in order to mitigate its risk. The Company's exposure to losses associated with its unconsolidated joint ventures is primarily limited to its carrying value in these investments. The Company, on a limited selective basis, obtained unsecured financing for certain joint ventures. These unsecured financings are guaranteed by the Company with guarantees from the joint venture partners for their proportionate amounts of any guaranty payment the Company is obligated to make.

On a continuous basis, management assesses whether there are any indicators, including property operating performance and general market conditions, that the value of the Company's investments in unconsolidated joint ventures may be impaired. An investment's value is impaired only if management's estimate of the fair value of the investment is less than the carrying value of the investment and such difference is deemed to be other-than-temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the estimated fair value of the investment.

The Company's estimated fair values are based upon a discounted cash flow model for each specific property that includes all estimated cash inflows and outflows over a specified holding period and, where applicable, any estimated debt premiums. Capitalization rates, discount rates and credit spreads utilized in these models are based upon rates that the Company believes to be within a reasonable range of current market rates for each respective property.

Realizability of Deferred Tax Assets and Uncertain Tax Positions

The Company is subject to federal, state and local income taxes on the income from its activities relating to its TRS activities and subject to local taxes on certain non-U.S. investments. The Company accounts for income taxes using the asset and liability method, which requires that deferred tax assets and liabilities be recognized based on future tax consequences of temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply in the years in which temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period when the changes are enacted.

A reduction of the carrying amounts of deferred tax assets by a valuation allowance is required, if based on the evidence available, it is more likely than not (a likelihood of more than 50 percent) that some portion or all of the deferred tax assets will not be realized. The valuation allowance should be sufficient to reduce the deferred tax asset to the amount that is more likely than not to be realized.

The Company considers all available evidence, both positive and negative, to determine whether, based on the weight of that evidence, a valuation allowance is needed. Information about an enterprise's current financial position and its results of operations for the current and preceding years is supplemented by all currently available information about future years. The Company must use judgment in considering the relative impact of negative and positive evidence.

The Company believes, when evaluating deferred tax assets within its taxable REIT subsidiaries, special consideration should be given to the unique relationship between the Company as a REIT and its taxable REIT subsidiaries. This relationship exists primarily to protect the REIT's qualification under the Code by permitting, within certain limits, the REIT to engage in certain business activities in which the REIT cannot directly participate. As such, the REIT controls which and when investments are held in, or distributed or sold from, its taxable REIT subsidiaries. This relationship distinguishes a REIT and taxable REIT subsidiary from an enterprise that operates as a single, consolidated corporate taxpayer.

The Company primarily utilizes a twenty year projection of pre-tax book income and taxable income as positive evidence to overcome any negative evidence. Although items of income and expense utilized in the projection are objectively verifiable there is also significant judgment used in determining the duration and timing of events that would impact the projection. Based upon the Company's analysis of negative and positive evidence the Company will make a determination of the need for a valuation allowance against its deferred tax assets. If future income projections do not occur as forecasted, the Company will reevaluate the need for a valuation allowance. In addition, the Company can employ additional strategies to realize its deferred tax assets, including transferring a greater portion of its property management business to the TRS, sale of certain built-in gain assets, and reducing intercompany debt.

The Company recognizes and measures benefits for uncertain tax positions, which requires significant judgment from management. Although the Company believes it has adequately reserved for any uncertain tax positions, no assurance can be given that the final tax outcome of these matters will not be different. The Company adjusts these reserves in light of changing facts and circumstances, such as the closing of a tax audit or the refinement of an estimate. Changes in the recognition or measurement of uncertain tax positions could result in material increases or decreases in the Company's income tax expense in the period in which a change is made, which could have a material impact on operating results (see Footnote 22 of the Notes to Consolidated Financial Statements included in this Form 10-K).

Results of Operations

Comparison 2012 to 2011

	 2012	<u> </u>	2011 unts in million	 Increase/ Decrease)	% change
Revenues from rental property (1)	\$ 884.8	\$	825.7	\$ 59.1	7.2%
Rental property expenses: (2) Rent Real estate taxes Operating and maintenance	\$ 12.8 115.3 118.8	\$	13.9 108.8 114.1	\$ (1.1) 6.5 4.7	(7.9)% 6.0% 4.1%
Operating and maintenance	\$ 246.9	\$	236.8	\$ 10.1	4.3%
Depreciation and amortization (3)	\$ 249.5	\$	231.7	\$ 17.8	7.7%

- (1) Revenues from rental property increased primarily from the combined effect of (i) the acquisition of operating properties during 2012 and 2011, providing incremental revenues for the year ended December 31, 2012 of \$50.9 million, as compared to the corresponding period in 2011, (ii) an increase in revenues relating to the Company's Latin American portfolio of \$8.0 and (iii) the completion of certain development and redevelopment projects, tenant buyouts and overall growth in the current portfolio, providing incremental revenues of \$0.9 million, for the year ended December 31, 2012, as compared to the corresponding period in 2011, partially offset by (iv) a decrease in revenues of \$0.7 million for the year ended December 31, 2012, as compared to the corresponding period in 2011, primarily resulting from the partial sale of certain properties during 2012 and 2011.
- (2) Rental property expenses include (i) rent expense relating to ground lease payments for which the Company is the lessee; (ii) real estate tax expense for consolidated properties for which the Company has a controlling ownership interest and (iii) operating and maintenance expense, which consists of property related costs including repairs and maintenance costs, roof repair, landscaping, parking lot repair, snow removal, utilities, property insurance costs, security and various other property related expenses. Rental property expenses increased for the year ended December 31, 2012, as compared to the corresponding period in 2011, primarily due to (i) an increase in real estate taxes of \$6.5 million, primarily due to acquisitions of properties during 2012 and 2011, (ii) an increase in repairs and maintenance costs of \$5.5 million, primarily due to acquisitions of properties during 2012 and 2011 (iii) an increase in insurance premiums and claims of \$1.7 million and (iv) an increase in utilities of \$1.8 million, partially offset by (v) a decrease in snow removal costs of \$5.2 million and (vi) a decrease in rent expense of \$1.1 million.
- (3) Depreciation and amortization increased for the year ended December 31, 2012, as compared to the corresponding period in 2011, primarily due to (i) operating property acquisitions during 2012 and 2011, (ii) the placement of certain development properties into service and (iii) tenant vacancies, partially offset by (iv) certain operating property dispositions during 2012 and 2011.

Management and other fee income increased \$2.2 million to \$37.5 million for the year ended December 31, 2012, as compared to \$35.3 million for the corresponding period in 2011. This increase is due to an increase in property management fees of \$0.8 million, primarily due to the acquisitions of properties within the Company's joint venture portfolio during 2012 and 2011, and an increase in transaction related fees of \$1.4 million recognized during 2012, as compared to 2011.

General and administrative costs include employee-related expenses (salaries, bonuses, equity awards, benefits, severance costs and payroll taxes), professional fees, office rent, travel expense, and other company-specific expenses. General and administrative expenses increased \$5.6 million to \$124.5 million for the year ended December 31, 2012, as compared to \$118.9 million for the corresponding period in 2011. This increase is primarily a result of (i) an increase of \$2.6 million in severance costs related to the departure of an executive officer in January 2012, (ii) an increase in professional and consulting fees of \$2.1 million, primarily due to increased transactional activity, and (iii) an increase in other personnel related costs during 2012, as compared to the corresponding period in 2011.

During year ended December 31, 2012, the Company recognized impairment charges of \$59.6 million (\$22.5 million of which is included in discontinued operations) before income tax benefit and noncontrolling interest. During the year ended December 31, 2011, the Company recognized impairment charges of \$32.8 million (\$19.7 million of which is included in discontinued operations) before income tax benefit and noncontrolling interest. These impairments were primarily calculated based on the usage of estimated sales prices and comparable sales information as inputs. The Company determined that its valuation in these assets was classified within Level 3 of the FASB's fair value hierarchy. These impairment charges resulted from the Company's efforts to market certain assets and management's assessment as to the likelihood and timing of such potential transactions.

Interest, dividends and other investment income decreased \$14.4 million to \$2.2 million for the year ended December 31, 2012, as compared to \$16.6 million for the corresponding period in 2011. This decrease is primarily due to (i) the Company's sale of its investment in Valad notes during 2011, resulting in a decrease in interest income of \$6.2 million, (ii) a decrease in other investment income of \$6.4 million relating to the receipt of cash distributions during 2011 in excess of the Company's carrying value of a cost method investment, (iii) a reduction in interest income of \$0.5 million due to repayments of notes in 2012 and 2011 and (iv) a decrease in gains on sales of securities of \$0.5 million.

Other expense, net increased \$3.3 million to \$8.0 million for the year ended December 31, 2012, as compared to \$4.7 million for the corresponding period in 2011. This change is primarily due to (i) an increase in acquisition related costs of \$3.1 million relating to an increase in transactional activity, (ii) a decrease in gains on foreign currency of \$2.4 million relating to changes in foreign currency exchange rates, partially offset by (iii) an increase of \$2.5 million in gains on land sales during 2012, as compared to the corresponding period in 2011.

Interest expense increased \$4.1 million to \$227.6 million for the year ended December 31, 2012, as compared to \$223.5 million for the corresponding period in 2011. This increase is primarily related to a decrease in capitalization of interest due to the placement of certain development and redevelopment properties into service during 2012, as compared to the corresponding period in 2011.

During 2011, the Company sold a merchant building property to an unconsolidated joint venture in which the Company has a noncontrolling interest for a sales price of \$37.6 million resulting in a pretax gain of \$12.1 million after a deferral of \$2.1 million due to the Company's continued involvement in the property.

Provision for income taxes, net decreased by \$17.4 million to \$3.9 million for the year ended December 31, 2012, as compared to \$21.3 million for the corresponding period in 2011. This decrease is primarily due to (i) an increase in income tax benefit of \$10.2 million related to impairments taken during the year ended December 31, 2012, as compared to the corresponding period in 2011, (ii) a decrease in the income tax provision expense of \$5.7 million in connection with a gain on sale of a development property during 2011, (iii) a decrease in tax provision of \$2.8 million resulting from the receipt of a cash distribution during 2011 in excess of the Company's carrying value of a cost method investment and (iv) a decrease in tax provision of \$2.7 million resulting from a decrease in equity in income recognized in connection with the Albertson's investment during 2012, as compared to 2011, partially offset by (v) an increase in foreign withholding taxes of \$5.4 million primarily resulting from an unrealized foreign exchange gains recognized for Mexican tax purposes on U.S. denominated mortgage debt within the Company's Latin American property portfolio.

Equity in income of joint ventures, net increased \$49.4 million to \$112.9 million for the year ended December 31, 2012, as compared to \$63.5 million for the corresponding period in 2011. This increase is primarily the result of (i) an increase in gains on sale and promote income recognized of \$12.6 million, (ii) the recognition of \$7.5 million in income on the sale of certain air rights at a property within one of the Company's joint venture investments in Canada, (iii) an increase in equity in income of \$5.9 million from the Company's InTown Suites investment primarily resulting from increased operating profitability, (iv) the recognition of \$2.1 million in income resulting from cash distributions received in excess of the Company's carrying value of its investment in an unconsolidated joint venture, (v) a decrease in impairment charges of \$3.2 million resulting from fewer impairment charges recognized against certain joint venture properties during the year ended December 31, 2012, as compared to the corresponding period in 2011, (vi) a decrease in equity in loss of \$4.0 million resulting from the disposition of a portfolio of properties during 2011, (vii) an increase in equity in income of \$6.0 million from the Company's joint venture investments in Canada (viii) an increase in equity in income of \$3.7 million from the Company's joint venture investments in Mexico and (ix) incremental earnings due to increased profitability from properties within the Company's joint venture program.

During 2012, the Company acquired four properties from joint ventures in which the Company had noncontrolling interests. The Company recorded an aggregate gain on change in control of interests of \$15.6 million related to the fair value adjustment associated with its original ownership. During 2011, the Company acquired one property from a joint venture in which the Company had a noncontrolling interest. The Company recorded an aggregate gain on change in control of interests of \$0.6 million related to the fair value adjustment associated with its original ownership.

During 2012, the Company disposed of 62 operating properties and two outparcels, in separate transactions, for an aggregate sales price of \$418.9 million. These transactions resulted in an aggregate gain of \$85.9 million and impairment charges of \$22.5 million, before income taxes, which is included in Discontinued operations in the Company's Consolidated Statements of Income.

During 2011, the Company disposed of 27 operating properties, one development property and one outparcel, in separate transactions, for an aggregate sales price of \$124.9 million. These transactions resulted in an aggregate gain of \$17.3 million and aggregate impairment charges of \$16.9 million, before income taxes, which is included in Discontinued operations in the Company's Consolidated Statements of Income.

During 2011, a consolidated joint venture in which the Company had a preferred equity investment disposed of a property for a sales price of \$6.1 million. As a result of this capital transaction, the Company received \$1.4 million of profit participation, before noncontrolling interest of \$0.1 million. This profit participation has been recorded as Income from other real estate investments and is reflected in Income from discontinued operating properties in the Company's Consolidated Statements of Income.

During 2012, the Company sold a previously consolidated operating property to a newly formed unconsolidated joint venture in which the Company has a 20% noncontrolling interest for a sales price of \$55.5 million. This transaction resulted in a pre-tax gain of \$10.0 million, of which the Company deferred \$2.0 million due to its continued involvement. This gain has been recorded as Gain on sale of operating properties, net of tax in the Company's Consolidated Statements of Income.

Net income attributable to the Company increased \$97.0 million to \$266.1 million for the year ended December 31, 2012, as compared to \$169.1 million for the corresponding period in 2011. On a diluted per share basis, net income attributable to the Company was \$0.42 for 2012, as compared to net income of \$0.27 for 2011. These increases are primarily attributable to (i) additional incremental earnings due to increased profitability from the Company's operating properties and the acquisition of operating properties during 2012 and 2011, (ii) an increase in gains on disposition of operating properties and change in control of interests, (iii) an increase in equity in income of joint ventures, net primarily due to gains on sales of operating properties sold within various joint venture portfolios during 2012 and (iv) a decrease in provision for income taxes, partially offset by (v) an increase in impairment charges recognized during the year ended December 31, 2012, as compared to the corresponding period in 2011, (vi) a decrease in interest, dividends and other investment income resulting primarily from the sale of certain marketable securities during 2011 and (vii) a decrease in gain on sale of development properties recognized during 2012, as compared to 2011. The 2012 diluted per share results were decreased by a reduction in net income available to common shareholders of \$21.7 million resulting from the deduction of original issuance costs associated with the redemption of the Company's 6.65% Class F Cumulative Redeemable Preferred Stock and 7.75% Class G Cumulative Redeemable Preferred Stock.

Comparison 2011 to 2010

	2011			2010		Increase	% change
		(am	ounts in millions	5)	_	
Revenues from rental property (1)	\$	825.7	\$	786.9	\$	38.8	4.9%
Rental property expenses: (2)							
Rent	\$	13.9	\$	13.7	\$	0.2	1.5%
Real estate taxes		108.8		105.3		3.5	3.3%
Operating and maintenance		114.1		108.4		5.7	5.3%
	\$	236.8	\$	227.4	\$	9.4	4.1%
Depreciation and amortization (3)	\$	231.7	\$	217.2	\$	14.5	6.7%

- (1) Revenues from rental property increased primarily from the combined effect of (i) the acquisition of operating properties during 2011 and 2010, providing incremental revenues for the year ended December 31, 2011 of \$35.7 million, as compared to the corresponding period in 2010 and (ii) the completion of certain development and redevelopment projects, tenant buyouts and overall growth in the current portfolio, providing incremental revenues of \$4.2 million, for the year ended December 31, 2011, as compared to the corresponding period in 2010, which was partially offset by (iii) a decrease in revenues of \$1.1 million for the year ended December 31, 2011, as compared to the corresponding period in 2010, primarily resulting from the partial sale of certain properties during 2011 and 2010.
- (2) Rental property expenses include (i) rent expense relating to ground lease payments for which the Company is the lessee; (ii) real estate tax expense for consolidated properties for which the Company has a controlling ownership interest and (iii) operating and maintenance expense, which consists of property related costs including repairs and maintenance costs, roof repair, landscaping, parking lot repair, snow removal, utilities, property insurance costs, security and various other property related expenses. Rental property expenses increased primarily due to (i) operating property acquisitions during 2011 and 2010, and (ii) the placement of certain development properties into service, which resulted in lower capitalization of carrying costs.
- (3) Depreciation and amortization increased primarily due to (i) operating property acquisitions during 2011 and 2010, (ii) the placement of certain development properties into service and (iii) tenant vacancies.

Management and other fee income decreased \$4.6 million to \$35.3 million for the year ended December 31, 2011, as compared to \$39.9 million for the corresponding period in 2010. This decrease is primarily due to a decrease in property management fees of \$2.4 million recognized during 2011, as compared to 2010, primarily due to the disposition of properties during 2011 and 2010 and a decrease in transaction related fees of \$2.2 million recognized during 2011, as compared to 2010.

General and administrative costs include employee-related expenses (salaries, bonuses, equity awards, benefits, severance costs and payroll taxes), professional fees, office rent, travel expense, and other company-specific expenses. General and administrative expenses increased \$9.9 million to \$118.9 million for the year ended December 31, 2011, as compared to \$109.0 million for the corresponding period in 2010. This change is primarily a result of an increase in equity awards expense related to grants issued during 2011 and 2010 and an increase in other personnel related costs during 2011, as compared to the corresponding periods in 2010.

During 2011, the Company recognized aggregate impairment charges of \$32.2 million (\$19.7 million of which is included in discontinued operations), before income taxes and noncontrolling interest, relating to adjustments to property carrying values, investments in other real estate investments, investment in real estate joint ventures and other investments. The Company's estimated fair values relating to these impairment assessments were based upon their respective estimated sales prices. Based on these inputs, the Company determined that its valuation in these investments was classified within Level 3 of the FASB fair value hierarchy. These impairment charges resulted from the Company's efforts to market certain assets and management's assessment as to the likelihood and timing of such potential transactions. Additionally, during 2011, the Company recorded impairment charges of \$0.6 million due to the decline in value of certain marketable securities that were deemed to be other-than-temporary.

During 2010, the Company recognized impairment charges of \$34.5 million (\$6.5 million of which is included in discontinued operations), before income taxes and noncontrolling interest, relating to adjustments to property carrying values, real estate under development, investments in other real estate investments and other investments. The Company's estimated fair values relating to these impairment assessments were based upon estimated sales prices and discounted cash flow models that included all estimated cash inflows and outflows over a specified holding period. These cash flows are comprised of unobservable inputs which include contractual rental revenues and forecasted rental revenues and expenses based upon market conditions and expectations for growth. Capitalization rates and discount rates utilized in these models were based upon observable rates that the Company believes to be within a reasonable range of current market rates for the respective properties. Based on these inputs, the Company determined that its valuation in these investments was classified within Level 3 of the FASB fair value hierarchy. Additionally, during 2010, the Company recorded impairment charges of \$4.6 million due to the decline in value of certain marketable securities that were deemed to be other-than-temporary.

Mortgage financing income decreased \$2.1 million to \$7.3 million for the year ended December 31, 2011, as compared to \$9.4 million for the corresponding period in 2010. This decrease is primarily due to a decrease in interest income resulting from the repayment of certain mortgage receivables during 2011 and 2010.

Interest, dividends and other investment income decreased \$4.6 million to \$16.6 million for the year ended December 31, 2011, as compared to \$21.2 million for the corresponding period in 2010. This decrease is primarily due to the sale of Valad notes resulting in a decrease in interest income of \$13.5 million, partially offset by (i) an increase in bank interest income of \$1.1 million during 2011, as compared to the corresponding period in 2010, primarily resulting from the change in cash balances during 2011 and (ii) an income distribution of \$7.4 million from a cost method investment during 2011.

During the year ended December 31, 2010, the Company incurred early extinguishment of debt charges aggregating \$10.8 million in connection with the optional make-whole provisions of notes that were repaid prior to maturity and prepayment penalties on five mortgages that the Company paid prior to their maturity.

During 2011, the Company sold a merchant building property to an unconsolidated joint venture in which the Company has a noncontrolling interest for a sales price of \$37.6 million resulting in a pretax gain of \$12.1 million after a deferral of \$2.1 million due to the Company's continued involvement in the property.

During 2010, the Company disposed of a land parcel for a sales price of \$0.8 million resulting in a gain of \$0.4 million. Additionally, the Company recognized \$1.7 million in income on previously sold development properties during the year ended December 31, 2010.

Provision for income taxes, net increased by \$18.1 million to \$21.3 million for the year ended December 31, 2011, as compared to \$3.2 million for the corresponding period in 2010. This change is primarily due to (i) a decrease in income tax benefit of \$10.3 million related to fewer impairments taken during the year ended December 31, 2011, as compared to the corresponding period in 2010, (ii) an increase in the income tax provision expense of \$4.8 million in connection with gains on sale of development properties during 2011, as compared to 2010, (iii) a decrease in tax benefit of \$4.9 million as a result of reduced interest expense for the Company's taxable REIT subsidiaries, (iv) a tax provision of \$2.7 million resulting from the receipt of a cash distribution in excess of the Company's carrying value of a cost method investment during 2011 and (v) a tax provision of \$1.4 million resulting from incremental earnings due to increased profitability from properties within the Company's taxable REIT subsidiaries, partially offset by (vi) a decrease in foreign taxes of \$6.8 million primarily resulting from an unrealized foreign exchange loss recognized for Mexican tax purposes on U.S. denominated mortgage debt within the Company's Latin American property portfolio.

Equity in income of joint ventures, net increased \$28.9 million to \$63.5 million for the year ended December 31, 2011, as compared to \$34.6 million for the corresponding period in 2010. This increase is primarily the result of (i) a decrease in impairment charges of \$10.0 million resulting from fewer impairment charges recognized against certain joint venture properties during the year ended December 31, 2011, as compared to the corresponding period in 2010, (ii) an increase in equity in income of \$4.2 million from the Company's InTown Suites investment primarily resulting from increased operating profitability, (iii) an increase in equity in income of \$2.3 million from the Company's joint venture investments in Canada primarily resulting from the Company increasing its noncontrolling ownership interest in certain Canadian portfolios, (iv) an increase in equity in income of \$2.1 million from the Company's joint venture investments in Latin America primarily resulting from lease-up activities at properties that were placed into service, (v) a decrease of \$7.2 million in equity in loss from a joint venture in which the Company no longer has an equity basis and is therefore no longer required to record equity losses, (vi) an increase in gains on sales of \$4.4 million for 2011, as compared to 2010 and (vii) incremental earnings due to increased profitability from properties within the Company's joint venture program, partially offset by (viii) the recognition of \$8.0 million in income resulting from cash distributions received in excess of the Company's carrying value of its investment in an unconsolidated limited liability partnership during the year ended December 31, 2010.

Equity in income from other real estate investments, net decreased \$9.0 million to \$51.8 million for the year ended December 31, 2011, as compared to \$60.8 million for the corresponding period in 2010. This decrease is primarily due to a decrease of \$7.2 million in equity in income from the Albertson's joint venture resulting from lower cash distributions received in excess of the Company's investment during 2011, as compared to the corresponding period during 2010 and a decrease of \$2.7 million in equity in earnings including profit participation earned from the Company's Preferred Equity Program during 2011, as compared to the corresponding period in 2010.

During 2011, the Company disposed of 27 operating properties, one development property and one outparcel, in separate transactions, for an aggregate sales price of \$124.9 million. These transactions, which are included in Discontinued Operations, resulted in an aggregate gain of \$17.3 million and aggregate impairment charges of \$16.9 million, before income taxes.

Additionally, during 2011, a consolidated joint venture in which the Company had a preferred equity investment disposed of a property for a sales price of \$6.1 million. As a result of this capital transaction, the Company received \$1.4 million of profit participation, before noncontrolling interest of \$0.1 million. This profit participation has been recorded as Income from other real estate investments and is reflected in Income from discontinued operating properties in the Company's Consolidated Statements of Income.

During 2010, the Company (i) sold seven operating properties, which were previously consolidated, to two new joint ventures in which the Company holds noncontrolling equity interests for an aggregate sales price of \$438.1 million including the assignment of \$159.9 million of non-recourse mortgage debt encumbering three of the properties and (ii) disposed of, in separate transactions, seven operating properties for an aggregate sales price of \$100.5 million including the assignment of \$81.0 million of non-recourse mortgage debt encumbering one of the properties. These transactions resulted in aggregate gains of \$4.4 million and aggregate losses/impairments of \$5.0 million.

Additionally, during 2010, the Company disposed of (i) three properties, in separate transactions, for an aggregate sales price of \$23.8 million and (ii) five properties from a consolidated joint venture in which the Company had a preferred equity investment for a sales price of \$40.8 million. These transactions resulted in an aggregate profit participation of \$20.8 million, before income tax of \$1.0 million and noncontrolling interest of \$4.9 million. This profit participation has been recorded as Income from other real estate investments and is reflected in Income from discontinued operating properties, net of tax in the Company's Consolidated Statements of Income.

Net income attributable to the Company increased \$26.2 million to \$169.1 million for the year ended December 31, 2011, as compared to \$142.9 million for the corresponding period in 2010. On a diluted per share basis, net income attributable to the Company was \$0.27 for 2011, as compared to net income of \$0.22 for 2010. These increases are primarily attributable to (i) additional incremental earnings due to increased profitability from the Company's operating properties and the acquisition of operating properties during 2011 and 2010, (ii) an increase in gain on sale of development properties recognized during 2011, as compared to 2010, (iii) increased equity in income of joint ventures, net primarily due to incremental earnings from increased profitability within the joint venture portfolios and fewer impairment charges recognized against certain joint venture properties during the year ended December 31, 2011, as compared to the corresponding period in 2010 and (iv) early extinguishment of debt charges recognized during 2010, aggregating \$10.8 million, partially offset by (v) an increase in provision for income taxes.

Liquidity and Capital Resources

The Company's capital resources include accessing the public debt and equity capital markets, mortgage and construction loan financing and immediate access to an unsecured revolving credit facility with bank commitments of \$1.75 billion.

The Company's cash flow activities are summarized as follows (in millions):

	Yeai	⁻ End	Year Ended December 31,										
	2012		2011		2010								
Net cash flow provided by operating activities	\$ 479.1	\$	448.6	\$	479.9								
Net cash flow (used for)/provided by investing activities	\$ (51.0)	\$	(20.8)	\$	37.9								
Net cash flow used for financing activities	\$ (399.1)	\$	(440.1)	\$	(514.7)								

Operating Activities

The Company anticipates that cash on hand, operating cash flows, borrowings under its revolving credit facility, issuance of equity and public debt, as well as other debt and equity alternatives, will provide the necessary capital required by the Company. Net cash flow provided by operating activities for the year ended December 31, 2012, was primarily attributable to (i) cash flow from the diverse portfolio of rental properties, (ii) the acquisition of operating properties during 2012 and 2011, (iii) new leasing, expansion and retenanting of core portfolio properties and (iv) distributions from the Company's joint venture programs.

Cash flow provided by operating activities for the year ended December 31, 2012, was \$479.1 million, as compared to \$448.6 million for the comparable period in 2011. The change of \$30.5 million is primarily attributable to higher operational income, increased distributions from joint ventures and other real estate investments and changes in accounts and notes receivable due to timing of receipts.

Investing Activities

Cash flow used for investing activities for the year ended December 31, 2012, was \$51.0 million, as compared to \$20.8 million for the comparable period in 2011. This change of \$30.2 million resulted primarily from (i) an increase in acquisition of and improvements to operating real estate of \$209.2 million, (ii) a decrease in proceeds from the sale/repayments of marketable securities of \$187.8 million, (iii) an increase in investments and advances to real estate joint ventures of \$48.2 million, (iv) a decrease in reimbursements of investments and advances to other real estate investments and other investments of \$43.7 million and (v) investment in mortgage loans receivable of \$16.0 million, partially offset by, (vi) an increase in proceeds from the sale of operating and development properties of \$269.4 million, (vii) an increase in reimbursements of investments and advances to real estate joint ventures of \$124.3 million, (viii) an increase in collections of mortgage receivables of \$44.5 million and (ix) a decrease in acquisition of and improvements to real estate under development of \$35.4 million.

Acquisitions of and Improvements to Operating Real Estate

During the year ended December 31, 2012, the Company expended \$552.5 million towards acquisition of and improvements to operating real estate including \$78.9 million (inclusive of \$2.4 million in capitalized costs) expended in connection with redevelopments and re-tenanting projects. (See Footnote 4 of the Notes to the Consolidated Financial Statements included in this Form 10-K.)

The Company has an ongoing program to reformat and re-tenant its properties to maintain or enhance its competitive position in the marketplace. The Company anticipates its capital commitment toward these reformatting and re-tenanting efforts and other redevelopment projects during 2013 will be approximately \$90.0 million to \$100.0 million. The funding of these capital requirements will be provided by cash flow from operating activities and availability under the Company's revolving line of credit.

Investments and Advances to Real Estate Joint Ventures

During the year ended December 31, 2012, the Company expended \$219.9 million for investments and advances to real estate joint ventures and received \$187.9 million from reimbursements of investments and advances to real estate joint ventures, primarily due to the refinance of debt and sales of properties. (See Footnote 8 of the Notes to the Consolidated Financial Statements included in this Form 10-K.)

Acquisitions of and Improvements to Real Estate Under Development

The Company is engaged in ground-up development projects which will be held as long-term investments by the Company. The ground-up development projects generally have significant pre-leasing prior to the commencement of construction. As of December 31, 2012, the Company had a total of three ground-up development projects, consisting of two projects located in the U.S. and one project located in Peru.

The Company anticipates its capital commitment during 2013 toward these and other development projects will be approximately \$15.0 million to \$25.0 million. The funding of these capital requirements will be provided by cash flow from operating activities and availability under the Company's revolving line of credit.

Dispositions and Transfers

During the year ended December 31, 2012, the Company received net proceeds of \$449.5 million relating to the sale of various operating properties. (See Footnotes 5 and 7 of the Notes to the Consolidated Financial Statements included in this Form 10-K.)

Financing Activities

Cash flow used for financing activities for the year ended December 31, 2012, was \$399.1 million, as compared to \$440.1 million for the comparable period in 2011. This change of \$41.0 million resulted primarily from (i) the redemption of the Company's 6.65% Class F Preferred Stock and 7.75% Class G Preferred Stock of \$635.0 million, (ii) an increase in principal payments of \$221.5 million, (iii) an increase in the repayment of unsecured term loan/notes of \$123.3 million, (iv) a decrease of \$103.6 million in net borrowings under unsecured revolving credit facility, (v) an increase in dividends paid of \$29.0 million due to the issuance of the Company's 6.00% Class I Preferred Stock and 5.50% Class J Preferred Stock and (vi) an increase in repurchases of common stock of \$24.9 million, partially offset by (vii) an increase of \$790.2 million from the issuance of stock, primarily relating to the issuance of the Company's 6.00% Class I Preferred Stock, 5.50% Class J Preferred Stock and 5.625% Class K Preferred Stock and (viii) an increase of \$400.0 million in proceeds from the unsecured term loan.

The Company continually evaluates its debt maturities, and, based on management's current assessment, believes it has viable financing and refinancing alternatives that will not materially adversely impact its expected financial results. The credit environment has improved and the Company continues to pursue borrowing opportunities with large commercial U.S. and global banks, select life insurance companies and certain regional and local banks. The Company has noticed a continuing trend that although pricing remains dependent on specific deal terms, generally spreads for non-recourse mortgage financing are gradually compressing from levels a year ago. The unsecured debt markets are functioning well and credit spreads are at manageable levels. The Company continues to assess 2013 and beyond to ensure the Company is prepared if the current credit market conditions deteriorate.

Debt maturities for 2013 consist of: \$640.5 million of consolidated debt; \$570.6 million of unconsolidated joint venture debt; and \$98.2 million of preferred equity debt, assuming the utilization of extension options where available. The 2013 consolidated debt maturities are anticipated to be extended, refinanced or repaid with operating cash flows and borrowings from the Company's credit facility, which at December 31, 2012, the Company had \$1.5 billion available. The 2013 unconsolidated joint venture and preferred equity debt maturities are anticipated to be extended or repaid through debt refinancing and partner capital contributions, as deemed appropriate.

The Company intends to maintain strong debt service coverage and fixed charge coverage ratios as part of its commitment to maintain its investment-grade debt ratings. The Company plans to continue strengthening its balance sheet by pursuing deleveraging efforts over time. The Company may, from time-to-time, seek to obtain funds through additional common and preferred equity offerings, unsecured debt financings and/or mortgage/construction loan financings and other capital alternatives.

Since the completion of the Company's IPO in 1991, the Company has utilized the public debt and equity markets as its principal source of capital for its expansion needs. Since the IPO, the Company has completed additional offerings of its public unsecured debt and equity, raising in the aggregate over \$8.7 billion. Proceeds from public capital market activities have been used for the purposes of, among other things, repaying indebtedness, acquiring interests in neighborhood and community shopping centers, funding ground-up development projects, expanding and improving properties in the portfolio and other investments. The Company will continue to access these markets, as available.

The Company has a \$1.75 billion unsecured revolving credit facility (the "Credit Facility") with a group of banks, which is scheduled to expire in October 2015 and has a one-year extension option. This credit facility, provides funds to finance general corporate purposes, including (i) property acquisitions, (ii) investments in the Company's institutional management programs, (iii) development and redevelopment costs and (iv) any short-term working capital requirements. Interest on borrowings under the Credit Facility accrues at LIBOR plus 1.05% and fluctuates in accordance with changes in the Company's senior debt ratings and has a facility fee of 0.20% per annum. As part of this Credit Facility, the Company has a competitive bid option whereby the Company could auction up to \$875.0 million of its requested borrowings to the bank group. This competitive bid option provides the Company the opportunity to obtain pricing below the currently stated spread. In addition, as part of the Credit Facility, the Company has a \$500.0 million sub-limit which provides it the opportunity to borrow in alternative currencies such as Canadian Dollars, British Pounds Sterling, Japanese Yen or Euros. Pursuant to the terms of the Credit Facility, the Company, among other things, is subject to covenants requiring the maintenance of (i) maximum leverage ratios on both unsecured and secured debt and (ii) minimum interest and fixed coverage ratios. As of December 31, 2012, the Credit Facility had a balance of \$249.9 million outstanding and \$27.3 million appropriated for letters of credit.

Pursuant to the terms of the Credit Facility, the Company, among other things, is subject to maintenance of various covenants. The Company is currently in compliance with these covenants. The financial covenants for the Credit Facility are as follows:

Covenant	Must Be	As of 12/31/12
Total Indebtedness to Gross Asset Value ("GAV")	<60%	44%
Total Priority Indebtedness to GAV	<35%	9%
Unencumbered Asset Net Operating Income to Total Unsecured Interest Expense	>1.75×	3.23×
Fixed Charge Total Adjusted EBITDA to Total Debt Service	>1.50×	2.17×

For a full description of the Credit Facility's covenants refer to the Credit Agreement dated as of October 27, 2011 filed in the Company's Current Report on Form 8-K dated November 2, 2011.

During April 2012, the Company obtained a \$400.0 million unsecured term loan with a consortium of banks, which accrues interest at LIBOR plus 105 basis points. The term loan is scheduled to mature in April 2014, with three additional one-year options to extend the maturity date, at the Company's discretion, to April 17, 2017. Pursuant to the terms of the Credit Agreement, the Company, among other things is subject to covenants requiring the maintenance of (i) maximum indebtedness ratios and (ii) minimum interest and fixed charge coverage ratios. Proceeds from this term loan were used for general corporate purposes including the repayment of debt. The term loan covenants are similar to the Credit Facility covenants described above.

During March 2008, the Company obtained a Mexican peso ("MXN") 1.0 billion term loan, which bears interest at a rate of 8.58%, subject to change in accordance with the Company's senior debt ratings, and is scheduled to mature in March 2013. The Company utilized proceeds from this term loan to fully repay the outstanding balance of a MXN 500.0 million unsecured revolving credit facility, which was terminated by the Company. Remaining proceeds from this term loan were used for funding MXN denominated investments. As of December 31, 2012, the outstanding balance on this term loan was MXN 1.0 billion (USD \$76.9 million). The Mexican term loan covenants are similar to the Credit Facility covenants described above. During December 2012, the lender agreed to extend this term loan for an additional five years at an interest rate of TIIE (Equilibrium Interbank Interest Rate) plus 1.35%, which will be effective subsequent to the scheduled maturity in March 2013. The Company has the option to swap this rate to a fixed rate at any time during the term of the loan.

During April 2012, the Company filed a shelf registration statement on Form S-3, which is effective for a term of three years, for the future unlimited offerings, from time-to-time, of debt securities, preferred stock, depositary shares, common stock and common stock warrants. The Company, pursuant to this shelf registration statement may, from time-to-time, offer for sale its senior unsecured debt for any general corporate purposes, including (i) funding specific liquidity requirements in its business, including property acquisitions, development and redevelopment costs and (ii) managing the Company's debt maturities. (See Footnote 13 of the Notes to Consolidated Financial Statements included in this Form 10-K.)

The Company's supplemental indenture governing its medium term notes and senior notes contains the following covenants, all of which the Company is compliant with:

Covenant	Must Be	As of 12/31/12
Consolidated Indebtedness to Total Assets	<60%	38%
Consolidated Secured Indebtedness to Total Assets	<40%	9%
Consolidated Income Available for Debt Service to Maximum Annual Service Charge	>1.50×	4.2×
Unencumbered Total Asset Value to Consolidated Unsecured Indebtedness	>1.50×	2.8×

For a full description of the various indenture covenants refer to the Indenture dated September 1, 1993, First Supplemental Indenture dated August 4, 1994, the Second Supplemental Indenture dated April 7, 1995, the Third Supplemental Indenture dated June 2, 2006, the Fifth Supplemental Indenture dated as of September 24, 2009, the Fifth Supplemental Indenture dated as of October 31, 2006 and First Supplemental Indenture dated October 31, 2006, as filed with the SEC. See Exhibits Index on page 38, for specific filing information.

During 2012, the Company (i) repaid the \$17.0 million outstanding on its 5.98% medium-term notes, which matured in July 2012, (ii) repaid the \$198.9 million outstanding on its 6.00% senior unsecured note, which matured in November 2012, (iii) assumed \$185.3 million of individual non-recourse mortgage debt relating to the acquisition of seven operating properties, including an increase of \$6.1 million associated with fair value debt adjustments, (iv) paid off \$284.8 million of mortgage debt that encumbered 19 operating properties and (v) assigned five mortgages aggregating \$17.1 million in connection with property dispositions.

During March 2012, the Company issued 16,000,000 Depositary Shares (the "Class I Depositary Shares"), each representing a one-thousandth fractional interest in a share of the Company's 6.00% Class I Cumulative Redeemable Preferred Stock, \$1.00 par value per share (the "Class I Preferred Stock"). Dividends on the Class I Depositary Shares are cumulative and payable quarterly in arrears at the rate of 6.00% per annum based on the \$25.00 per share initial offering price, or \$1.50 per annum. The Class I Depositary Shares are redeemable, in whole or part, for cash on or after March 20, 2017, at the option of the Company, at a redemption price of \$25.00 per depositary share, plus any accrued and unpaid dividends thereon. The Class I Depositary Shares are not convertible or exchangeable for any other property or securities of the Company. The net proceeds received from this offering of \$387.2 million were used for general corporate purposes, including the reduction of borrowings outstanding under the Company's revolving credit facility and the redemption of shares of the Company's preferred stock.

During July 2012, the Company issued 9,000,000 Depositary Shares (the "Class J Depositary Shares"), each representing a one-thousandth fractional interest in a share of the Company's 5.50% Class J Cumulative Redeemable Preferred Stock, \$1.00 par value per share (the "Class J Preferred Stock"). Dividends on the Class J Depositary Shares are cumulative and payable quarterly in arrears at the rate of 5.50% per annum based on the \$25.00 per share initial offering price, or \$1.375 per annum. The Class J Depositary Shares are redeemable, in whole or part, for cash on or after July 25, 2017, at the option of the Company, at a redemption price of \$25.00 per depositary share, plus any accrued and unpaid dividends thereon. The Class J Depositary Shares are not convertible or exchangeable for any other property or securities of the Company. The net proceeds received from this offering of \$217.8 million were used for the redemption of all the outstanding depositary shares representing the Company's Class F preferred stock, which redemption occurred on August 15, 2012, as discussed below, with the remaining proceeds used towards the redemption of outstanding depositary shares representing the Company's Class G preferred stock, which redemption occurred on October 10, 2012, as discussed below, and general corporate purposes.

On August 15, 2012, the Company redeemed of all of its outstanding 7,000,000 depositary shares of the Company's 6.65% Class F Cumulative Redeemable Preferred Stock, \$1.00 par value per share (the "Class F Preferred Stock") for \$175.0 million, before payment of accrued and unpaid dividends of \$1.0 million. In connection with this redemption the Company recorded a charge of \$6.2 million resulting from the difference between the redemption amount and the carrying amount of the Class F Preferred Stock on the Company's Consolidated Balance Sheets in accordance with the FASB's guidance on Distinguishing Liabilities from Equity. The \$6.2 million was subtracted from net income to arrive at net income available to common shareholders and is used in the calculation of earnings per share for the year ended December 31, 2012.

On October 10, 2012, the Company redeemed all of its outstanding 18,400,000 depositary shares of the Company's 7.75% Class G Cumulative Redeemable Preferred Stock, \$1.00 par value per share (the "Class G Preferred Stock") for \$460.0 million, before payment of accrued and unpaid dividends of \$8.5 million. In connection with this redemption the Company recorded a non-cash charge of \$15.5 million resulting from the difference between the redemption amount and the carrying amount of the Class G Preferred Stock on the Company's Consolidated Balance Sheets in accordance with the FASB's guidance on Distinguishing Liabilities from Equity. The \$15.5 million was subtracted from net income to arrive at net income available to common shareholders and is used in the calculation of earnings per share for the year ended December 31, 2012.

During November 2012, the Company issued 7,000,000 Depositary Shares (the "Class K Depositary Shares"), each representing a one-thousandth fractional interest in a share of the Company's 5.625% Class K Cumulative Redeemable Preferred Stock, \$1.00 par value per share (the "Class K Preferred Stock"). Dividends on the Class K Depositary Shares are cumulative and payable quarterly in arrears at the rate of 5.625% per annum based on the \$25.00 per share initial offering price, or \$1.40625 per annum. The Class K Depositary Shares are redeemable, in whole or part, for cash on or after December 7, 2017, at the option of the Company, at a redemption price of \$25.00 per depositary share, plus any accrued and unpaid dividends thereon. The Class K Depositary Shares are not convertible or exchangeable for any other property or securities of the Company. The net proceeds received from this offering of \$169.1 million, after expenses, were used for general corporate purposes, including funding towards the repayment of maturing Senior Unsecured Notes.

The Company, from time to time, repurchases shares of its common stock in amounts that offset new issuances of common shares in connection with the exercise of stock options or the issuance of restricted stock awards. These share repurchases may occur in open market purchases, privately negotiated transactions or otherwise, subject to prevailing market conditions, the Company's liquidity requirements, contractual restrictions and other factors. During the year ended December 31, 2012, the Company repurchased 1.6 million shares of the Company's common stock for \$30.9 million, of which \$22.6 million was provided to the Company from stock options exercised.

In addition to the public equity and debt markets as capital sources, the Company may, from time-to-time, obtain mortgage financing on selected properties and construction loans to partially fund the capital needs of its ground-up development projects. As of December 31, 2012, the Company had over 400 unencumbered property interests in its portfolio.

In connection with its intention to continue to qualify as a REIT for federal income tax purposes, the Company expects to continue paying regular dividends to its stockholders. These dividends will be paid from operating cash flows. The Company's Board of Directors will continue to evaluate the Company's dividend policy on a quarterly basis as they monitor sources of capital and evaluate the impact of the economy and capital markets availability on operating fundamentals. Since cash used to pay dividends reduces amounts available for capital investment, the Company generally intends to maintain a conservative dividend payout ratio, reserving such amounts as it considers necessary for the expansion and renovation of shopping centers in its portfolio, debt reduction, the acquisition of interests in new properties and other investments as suitable opportunities arise and such other factors as the Board of Directors considers appropriate. Cash dividends paid were \$382.7 million in 2012, \$353.8 million in 2011 and \$307.0 million in 2010.

Although the Company receives substantially all of its rental payments on a monthly basis, it generally intends to continue paying dividends quarterly. Amounts accumulated in advance of each quarterly distribution will be invested by the Company in short-term money market or other suitable instruments. The Company's Board of Directors declared a quarterly cash dividend of \$0.21 per common share payable to shareholders of record on January 2, 2013, which was paid on January 15, 2013. Additionally, the Company's Board of Directors declared a quarterly cash dividend of \$0.21 per common share payable to shareholders of record on April 3, 2013, which is scheduled to be paid on April 15, 2013.

The Company is subject to taxes on its activities in Canada, Mexico, Brazil, Chile, and Peru. During 2012, less than \$0.1 million of withholding and transaction taxes were withheld from distributions related to foreign activities. In general, under local country law applicable to the structures the Company has in place and applicable treaties, the repatriation of cash to the Company from its subsidiaries and joint ventures in Canada, Mexico and Brazil generally are not subject to withholding tax. The Company does not anticipate the need to repatriate foreign funds from Chile, Peru or Brazil to provide for its cash flow needs in the U.S. and, as such, no significant withholding or transaction taxes are expected in the foreseeable future.

Contractual Obligations and Other Commitments

The Company has debt obligations relating to its revolving credit facility, MTNs, senior notes, mortgages and construction loans with maturities ranging from less than one year to 23 years. As of December 31, 2012, the Company's total debt had a weighted average term to maturity of 3.4 years. In addition, the Company has non-cancelable operating leases pertaining to its shopping center portfolio. As of December 31, 2012, the Company has 47 shopping center properties that are subject to long-term ground leases where a third party owns and has leased the underlying land to the Company to construct and/or operate a shopping center. In addition, the Company has 10 non-cancelable operating leases pertaining to its retail store lease portfolio. The following table summarizes the Company's debt maturities (excluding extension options and fair market value of debt adjustments aggregating \$10.6 million) and obligations under non-cancelable operating leases as of December 31, 2012 (in millions):

	Payments due by period												
Contractual Obligations:	2013		2014		2015		2016		2017	Th	ereafter		Total
Long-Term Debt-Principal(I)	\$ 659.7	\$	900.7	\$	731.2	\$	553.1	\$	468.9	\$	871.1	\$	4,184.7
Long-Term Debt-Interest(2)	\$ 197.8	\$	152.8	\$	131.6	\$	96.9	\$	67.3	\$	107.2	\$	753.6
Operating Leases:													
Ground Leases	\$ 12.6	\$	12.2	\$	11.1	\$	10.3	\$	9.9	\$	172.6	\$	228.7
Retail Store Leases	\$ 2.3	\$	1.7	\$	1.3	\$	0.1	\$	0.5	\$	0.1	\$	6.9

- (I) Maturities utilized do not reflect extension options, which range from one to five years.
- (2) For loans which have interest at floating rates, future interest expense was calculated using the rate as of December 31, 2012.

The Company has accrued \$16.9 million of non-current uncertain tax benefits and related interest under the provisions of the authoritative guidance that addresses accounting for income taxes, which are included in Other liabilities on the Company's Consolidated Balance Sheets at December 31, 2012. These amounts are not included in the table above because a reasonably reliable estimate regarding the timing of settlements with the relevant tax authorities, if any, cannot be made.

The Company has \$100.0 million of medium term notes, \$175.0 million of unsecured notes, \$201.3 million of Canadian unsecured notes, a \$76.9 million Mexican term loan, \$2.2 million of unsecured debt and \$85.1 million of secured debt scheduled to mature in 2013. The Company anticipates satisfying these maturities with a combination of operating cash flows, its unsecured revolving credit facility, exercise of extension options, where available, and new debt issuances.

The Company has issued letters of credit in connection with completion and repayment guarantees for loans encumbering certain of the Company's redevelopment projects and guarantee of payment related to the Company's insurance program. As of December 31, 2012, these letters of credit aggregate \$33.6 million.

On a select basis, the Company provides guarantees on interest bearing debt held within real estate joint ventures in which the Company has noncontrolling ownership interests. The Company is often provided with a back-stop guarantee from its partners. The Company had the following outstanding guarantees as of December 31, 2012 (amounts in millions):

Name of	Amo	ount of		Maturity, with		
Joint Venture	Gua	rantee	Interest rate	extensions	Terms	Type of debt
InTown Suites						Unsecured credit
Management, Inc. (1)	\$	145.2	LIBOR plus 1.15%	2015	25% partner back-stop	facility
					Jointly and severally	Promissory
Hillsborough	\$	2.8	LIBOR plus 1.05%	2013	with partner	note
					Jointly and severally	Promissory
Victoriaville	\$	5.1	3.92%	2020	with partner	note

(1) During October 2012, a purchase and sale agreement was executed to sell the InTown Suites company and related real estate assets for a gross sales price of \$735 million, including \$617 million of existing debt. The sale is contingent upon satisfactorily completing a due diligence process and other closing conditions, including lender approvals. The Company expects to complete this transaction in the first half of 2013. If the transaction is completed, the Company has agreed to maintain \$145.2 million in preexisting guarantees of outstanding debt to be assumed by the buyer.

In connection with the construction of its development projects and related infrastructure, certain public agencies require posting of performance and surety bonds to guarantee that the Company's obligations are satisfied. These bonds expire upon the completion of the improvements and infrastructure. As of December 31, 2012, the Company had \$20.7 million in performance and surety bonds outstanding.

Off-Balance Sheet Arrangements

Unconsolidated Real Estate Joint Ventures

The Company has investments in various unconsolidated real estate joint ventures with varying structures. These joint ventures primarily operate shopping center properties or are established for development projects. Such arrangements are generally with third-party institutional investors, local developers and individuals. The properties owned by the joint ventures are primarily financed with individual non-recourse mortgage loans, however, the Company, on a selective basis, obtains unsecured financing for certain joint ventures. These unsecured financings are guaranteed by the Company with guarantees from the joint venture partners for their proportionate amounts of any guaranty payment the Company is obligated to make (see guarantee table above). Non-recourse mortgage debt is generally defined as debt whereby the lenders' sole recourse with respect to borrower defaults is limited to the value of the property collateralized by the mortgage. The lender generally does not have recourse against any other assets owned by the borrower or any of the constituent members of the borrower, except for certain specified exceptions listed in the particular loan documents (See Footnote 8 of the Notes to Consolidated Financial Statements included in this Form 10-K). These investments include the following joint ventures:

Non-

- (k) Represents the Company's joint ventures with RioCan Real Estate Investment Trust.
- (I) The Company's share of this investment is subject to fluctuation and is dependent upon property cash flows.

The Company has various other unconsolidated real estate joint ventures with varying structures. As of December 31, 2012, these other unconsolidated joint ventures had individual non-recourse mortgage loans aggregating \$1.9 billion and unsecured notes payable aggregating \$2.8 million. The aggregate debt as of December 31, 2012, of all of the Company's unconsolidated real estate joint ventures is \$7.1 billion, of which the Company's proportionate share of this debt is \$2.8 billion. As of December 31, 2012, these loans had scheduled maturities ranging from one month to 10 years and bear interest at rates ranging from 1.21% to 10.50%. Approximately \$570.6 million of the aggregate outstanding loan balance matures in 2013, of which the Company's proportionate share is \$274.1 million. These maturing loans are anticipated to be repaid with operating cash flows, debt refinancing and partner capital contributions, as deemed appropriate. (See Footnote 8 of the Notes to Consolidated Financial Statements included in this Form 10-K).

Other Real Estate Investments

The Company previously provided capital to owners and developers of real estate properties through its Preferred Equity program. The Company accounts for its preferred equity investments under the equity method of accounting. As of December 31, 2012, the Company's net investment under the Preferred Equity Program was \$157.2 million relating to 107 properties. As of December 31, 2012, these preferred equity investment properties had individual non-recourse mortgage loans aggregating \$694.3 million. Due to the Company's preferred position in these investments, the Company's share of each investment is subject to fluctuation and is dependent upon property cash flows. The Company's maximum exposure to losses associated with its preferred equity investments is primarily limited to its invested capital.

Additionally, during July 2007, the Company invested \$81.7 million of preferred equity capital in a portfolio comprised of 403 net leased properties which are divided into 30 master leased pools with each pool leased to individual corporate operators. These properties consist of a diverse array of free-standing restaurants, fast food restaurants, convenience and auto parts stores. As of December 31, 2012, the remaining 397 properties were encumbered by third party loans aggregating \$358.9 million, not including \$63.7 million in net fair market value of debt adjustments, with interest rates ranging from 5.08% to 10.47%, a weighted average interest rate of 9.3% and maturities ranging from one to 10 years.

At December 31, 2012, the Company had a 90% equity participation interest in an existing leveraged lease of 11 properties, which is reported as a net investment in leveraged lease in accordance with the FASB's Lease guidance. The properties are leased under a long-term bond-type net lease whose primary term expires in 2016, with the lessee having certain renewal option rights. These 11 properties were encumbered by third-party non-recourse debt of \$21.1 million that is scheduled to fully amortize during the primary term of the lease from a portion of the periodic net rents receivable under the net lease. As an equity participant in the leveraged lease, the Company has no recourse obligation for principal or interest payments on the debt, which is collateralized by a first mortgage lien on the properties and collateral assignment of the lease. Accordingly, this debt has been offset against the related net rental receivable under the lease.

Funds from Operations

Funds From Operations ("FFO") is a supplemental non-GAAP measure utilized to evaluate the operating performance of real estate companies. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as net income/(loss) attributable to common shareholders computed in accordance with generally accepted accounting principles ("GAAP"), excluding (i) gains or losses from sales of operating real estate assets and (ii) extraordinary items, plus (iii) depreciation and amortization of operating properties and (iv) impairment of depreciable real estate and in substance real estate equity investments and (v) after adjustments for unconsolidated partnerships and joint ventures calculated to reflect funds from operations on the same basis.

The Company presents FFO as it considers it an important supplemental measure of our operating performance and believes it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting results. Comparison of our presentation of FFO to similarly titled measures for other REITs may not necessarily be meaningful due to possible differences in the application of the NAREIT definition used by such REITs.

The Company also presents FFO as adjusted as an additional supplemental measure as it believes it is more reflective of the Company's core operating performance. The Company believes FFO as adjusted provides investors and analysts an additional measure in comparing the Company's performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. FFO as adjusted is generally calculated by the Company as FFO excluding certain transactional income and expenses and non-operating impairments which management believes are not reflective of the results within the Company's operating real estate portfolio.

FFO is a supplemental non-GAAP financial measure of real estate companies' operating performances, which does not represent cash generated from operating activities in accordance with GAAP and therefore should not be considered an alternative for net income as a measure of liquidity. Our method of calculating FFO and FFO as adjusted may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

The Company's reconciliation of net income available to common shareholders to FFO and FFO as adjusted for the three months and years ended December 31, 2012 and 2011 is as follows (in thousands, except per share data):

		Three Mor				Year I Decem

For the three and twelve months ended December 31, 2012 and 2011, the effect of certain convertible units would have an anti-dilutive effect upon the calculation of Income from continuing operations per share. Accordingly, the impact of such conversion has not been included in the determination of diluted earnings per share calculations.

Same Property Net Operating Income

Same Property Net Operating Income ("Same Property NOI") is a supplemental non-GAAP financial measure of real estate companies' operating performance. Same Property NOI is considered by management to be an important performance measure of the Company's operations and management believes that it is helpful to investors as a measure of the Company's operating performance because it includes only the net operating income of properties that have been owned for the entire current and prior year reporting periods and excludes properties under development and pending stabilization. As such, Same Property NOI assists in eliminating disparities in net income due to the development, acquisition or disposition of properties during the particular period presented, and thus provides a more consistent performance measure for the companison of the Company's properties.

Same Property NOI is calculated using revenues from rental properties (excluding straight-line rents, lease termination fees and above/below market rents) less operating and maintenance expense, real estate taxes and rent expense, plus the Company's proportionate share of Same Property NOI from unconsolidated real estate joint ventures, calculated on the same basis. Same Property NOI includes all properties that are owned for the entire current and prior year reporting periods and excludes properties under development and properties pending stabilization. Properties are deemed stabilized at the earlier of (i) reaching 90% leased or (ii) one year following a projects inclusion in operating real estate (two years for Latin American properties).

Same Property NOI is a supplemental non-GAAP financial measure of real estate companies' operating performance and should not be considered an alternative to net income in accordance with GAAP or as a measure of liquidity. Our method of calculating Same Property NOI may differ from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

The following is a reconciliation of the Company's Income from continuing operations to Same Property NOI (in thousands):

	d December								
	3	١,			Year Ended December 31,				
	2012		2011		2012		2011

Same Property NOI	\$ 218,521	\$	211,336	\$	851,832	\$	832,983		

Same Property NOI increased by \$7.2 million or 3.4% for the three months ended December 31, 2012, as compared to the corresponding period in 2011. This increase is primarily the result of (i) an increase of \$4.7 million related to lease-up and rent commencements, (ii) an increase of \$2.0 million in other property and ancillary income, and (iii) the impact from changes in foreign currency exchange rates of \$0.5 million.

Same Property NOI increased by \$18.8 million or 2.3% for the year ended December 31, 2012, as compared to the corresponding period in 2011. This increase is primarily the result of (i) an increase of \$15.8 million related to lease-up and rent commencements and (ii) an increase of \$7.8 million in other property and ancillary income, partially offset by, (iii) the negative impact from changes in foreign currency exchange rates of \$4.8 million.

Effects of Inflation

Many of the Company's leases contain provisions designed to mitigate the adverse impact of inflation. Such provisions include clauses enabling the Company to receive payment of additional rent calculated as a percentage of tenants' gross sales above pre-determined thresholds, which generally increase as prices rise, and/or escalation clauses, which generally increase rental rates during the terms of the leases. Such escalation clauses often include increases based upon changes in the consumer price index or similar inflation indices. In addition, many of the Company's leases are for terms of less than 10 years, which permits the Company to seek to increase rents to

market rates upon renewal. Most of the Company's leases require the tenant to pay an allocable share of operating expenses, including common area maintenance costs, real estate taxes and insurance, thereby reducing the Company's exposure to increases in costs and operating expenses resulting from inflation. The Company periodically evaluates its exposure to short-term interest rates and foreign currency exchange rates and will, from time-to-time, enter into interest rate protection agreements and/or foreign currency hedge agreements which mitigate, but do not eliminate, the effect of changes in interest rates on its floating-rate debt and fluctuations in foreign currency exchange rates.

Market and Economic Conditions; Real Estate and Retail Shopping Sector

In the U.S., economic and market conditions have improved. Credit conditions have continued to allow increased access and availability to secured mortgage debt and the unsecured bond and equity markets. However, there remains concern over high unemployment rates in the U.S. and concerns over uncertain economic conditions in Europe. These conditions have contributed to slow growth in the U.S. and international economies.

Historically, real estate has been subject to a wide range of cyclical economic conditions that affect various real estate markets and geographic regions with differing intensities and at different times. Different regions of the United States have and may continue to experience varying degrees of economic growth or distress. Adverse changes in general or local economic conditions could result in the inability of some tenants of the Company to meet their lease obligations and could otherwise adversely affect the Company's ability to attract or retain tenants. The Company's shopping centers are typically anchored by two or more national tenants who generally offer day-to-day necessities, rather than high-priced luxury items. In addition, the Company seeks to reduce its operating and leasing risks through ownership of a portfolio of properties with a diverse geographic composition and tenant base.

The Company monitors potential credit issues of its tenants, and analyzes the possible effects to the financial statements of the Company and its unconsolidated joint ventures. In addition to the collectability assessment of outstanding accounts receivable, the Company evaluates the related real estate for recoverability as well as any tenant related deferred charges for recoverability, which may include straight-line rents, deferred lease costs, tenant improvements, tenant inducements and intangible assets.

The retail shopping sector overall has continued to steadily improve during 2012, however select markets, which experienced rapid expansion prior to the economic recession, such as Nevada, Arizona and select portions of California are experiencing slower growth. If growth in the retail shopping sector does not continue, the Company may experience tenants delaying lease commencements or declining to extend or renew leases upon expiration. These conditions also have forced some weaker retailers, in some cases, to declare bankruptcy and/or close stores. Certain retailers have announced store closings even though they have not filed for bankruptcy protection. However, any of these particular store closings affecting the Company often represent a small percentage of the Company's overall gross leasable area and the Company does not currently expect store closings to have a material adverse effect on the Company's overall performance.

New Accounting Pronouncements

See Footnote 1 of the Company's Consolidated Financial Statements included in this Form 10-K.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

The Company's primary market risk exposure is interest rate risk. The following table presents the Company's aggregate fixed rate and variable rate domestic and foreign debt obligations outstanding as of December 31, 2012, with corresponding weighted-average interest rates sorted by maturity date. The table does not include extension options where available. Amounts include fair value purchase price allocation adjustments for assumed debt. The information is presented in U.S. dollar equivalents, which is the Company's reporting currency. The instruments' actual cash flows are denominated in U.S. dollars, Canadian dollars (CAD), Mexican pesos (MXN) and Chilean Pesos (CLP) as indicated by geographic description (\$USD equivalent in millions).

	201	3	2	2014		2015		2016		2017	Th	ereafter		Total	Fai	r Value

Average Interest Rate	4	5.18%	-	Ψ	-	Ψ	-	Ψ	-	Ψ	5.99%	Ψ	5.53%	Ψ	3 3 3
MXN Denominated															
Unsecured Debt															
Fixed Rate	\$	76.9	-	\$	-	\$	-	\$	-	\$	-	\$	76.9	\$	69.6
Average Interest Rate		8.58%	-		-		-		-		-		8.58%		
<u>CLP Denominated</u>															
Secured Debt															
Variable Rate	\$	-	\$ -	\$	-	\$	-	\$	-	\$	40.3	\$	40.3	\$	45.9
Average Interest Rate		-	-		-		-		-		5.72%		5.72%		

Based on the Company's variable-rate debt balances, interest expense would have increased by \$7.2 million in 2012 if short-term interest rates were 1.0% higher.

The Company also faces foreign currency exchange risk. The following table presents the Company's foreign investments as of December 31, 2012. Investment amounts are shown in their respective local currencies and the U.S. dollar equivalents:

Foreign Investment (in millions)

	Local	
Country	Currency	US Dollars
Mexican real estate investments (MXN)	8,881.2	\$ 685.0
Canadian real estate joint venture and marketable securities investments (CAD)	397.8	\$ 400.5
Chilean real estate investments (CLP)	37,761.2	\$ 78.9
Brazilian real estate investments (Brazilian Real)	43.5	\$ 21.3
Peruvian real estate investments (Peruvian Nuevo Sol)	14.7	\$ 5.9

The foreign currency exchange risk has been partially mitigated, but not eliminated, through the use of local currency denominated debt. The Company has not, and does not plan to, enter into any derivative financial instruments for trading or speculative purposes. As of December 31, 2012, the Company has no other material exposure to market risk.

<u>Item 8. Financial Statements and Supplementary Data</u>

The response to this Item 8 is included in our audited Notes to Consolidated Financial Statements, which are contained in Part IV Item 15 of this Form 10-K.

<u>Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure</u>

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth fiscal quarter ended December 31, 2012, to which this report relates, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f) and 15d-15(f). Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control-Integrated Framework*, our management concluded that our internal control over financial reporting was effective as of December 31, 2012.

The effectiveness of our internal control over financial reporting as of December 31, 2012, has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which is included herein.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this item is incorporated by reference to "Proposal I—Election of Directors," "Corporate Governance," "Committees of the Board of Directors" and "Section 16(a) Beneficial Ownership Reporting Compliance" in our Proxy Statement.

We have adopted a Code of Ethics that applies to all employees. The Code of Ethics is available at the Investors/Governance/Governance Documents section of our website at www.kimcorealty.com. A copy of the Code of Ethics is available in print, free of charge, to stockholders upon request to us at the address set forth in Item I of this Annual Report on Form I0-K under the section "Business - Background." We intend to satisfy the disclosure requirements under the Securities and Exchange Act of 1934, as amended, regarding an amendment to or waiver from a provision of our Code of Ethics by posting such information on our web site.

Item 11. Executive Compensation

The information required by this item is incorporated by reference to "Compensation Discussion and Analysis," "Executive Compensation Committee Report," "Compensation Tables" and "Compensation of Directors" in our Proxy Statement.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this item is incorporated by reference to "Security Ownership of Certain Beneficial Owners and Management" and "Compensation Tables" in our Proxy Statement.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this item is incorporated by reference to "Certain Relationships and Related Transactions" and "Corporate Governance" in our Proxy Statement.

Item 14. Principal Accounting Fees and Services

The information required by this item is incorporated by reference to "Independent Registered Public Accountants" in our Proxy Statement.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of Kimco Realty Corporation:

In our opinion, the consolidated financial statements listed in the index appearing under Item 15(a)(1) present fairly, in all material respects, the financial position of Kimco Realty Corporation and its subsidiaries (the "Company") at December 31, 2012 and 2011, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules listed in the index appearing under Item 15(a)(2) present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control -Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedules, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

KIMCO REALTY CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Amounts relating to the number of buildings, square footage, tenant and occupancy data, joint venture debt average interest rates and terms and estimated project costs are unaudited.

1. Summary of Significant Accounting Policies:

Business

Kimco Realty Corporation and subsidiaries (the "Company" or "Kimco"), affiliates and related real estate joint ventures are engaged principally in the operation of neighborhood and community shopping centers which are anchored generally by discount department stores, supermarkets or drugstores. The Company also provides property management services for shopping centers owned by affiliated entities, various real estate joint ventures and unaffiliated third parties.

Additionally, in connection with the Tax Relief Extension Act of 1999 (the "RMA"), which became effective January 1, 2001, the Company is permitted to participate in activities which it was precluded from previously in order to maintain its qualification as a Real Estate Investment Trust ("REIT"), so long as these activities are conducted in entities which elect to be treated as taxable subsidiaries under the Internal Revenue Code, as amended (the "Code"), subject to certain limitations. As such, the Company, through its wholly-owned taxable REIT subsidiaries ("TRS"), has been engaged in various retail real estate related opportunities including (i) ground-up development of neighborhood and community shopping centers and the subsequent sale thereof upon completion, (ii) retail real estate management and disposition services which primarily focuses on leasing and disposition strategies of retail real estate controlled by both healthy and distressed and/or bankrupt retailers and (iii) acting as an agent or principal in connection with tax deferred exchange transactions.

The Company seeks to reduce its operating and leasing risks through diversification achieved by the geographic distribution of its properties, avoiding dependence on any single property and a large tenant base. At December 31, 2012, the Company's single largest neighborhood and community shopping center accounted for only 1.7% of the Company's annualized base rental revenues and only 1.2% of the Company's total shopping center gross leasable area ("GLA"), including the proportionate share of base rental revenues from properties in which the Company has less than a 100% economic interest. At December 31, 2012, the Company's five largest tenants were The Home Depot, TJX Companies, Wal-Mart, Sears Holdings and Bed Bath & Beyond, which represented 3.0%, 2.9%, 2.6%, 2.0% and 1.7%, respectively, of the Company's annualized base rental revenues, including the proportionate share of base rental revenues from properties in which the Company has less than a 100% economic interest.

The principal business of the Company and its consolidated subsidiaries is the ownership, management, development and operation of retail shopping centers, including complementary services that capitalize on the Company's established retail real estate expertise. The Company evaluates performance on a property specific or transactional basis and does not distinguish its principal business or group its operations on a geographical basis for purposes of measuring performance. Accordingly, the Company believes it has a single reportable segment for disclosure purposes in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Principles of Consolidation and Estimates

The accompanying Consolidated Financial Statements include the accounts of Kimco Realty Corporation and subsidiaries (the "Company"). The Company's subsidiaries includes subsidiaries which are wholly-owned and all entities in which the Company has a controlling interest, including where the Company has been determined to be a primary beneficiary of a variable interest entity ("VIE") or meets certain criteria of a sole general partner or managing member in accordance with the Consolidation guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"). All inter-company balances and transactions have been eliminated in consolidation.

GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses during a reporting period. The most significant assumptions and estimates relate to the valuation of real estate and related intangible assets and liabilities, equity method investments, marketable securities and other investments, including the assessment of impairments, as well as, depreciable lives, revenue recognition, the collectability of trade accounts receivable, realizability of deferred tax assets and the assessment of uncertain tax positions. Application of these assumptions requires the exercise of judgment as to future uncertainties, and, as a result, actual results could differ from these estimates.

KIMCO REALTY CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Subsequent Events

The Company has evaluated subsequent events and transactions for potential recognition or disclosure in its consolidated financial statements.

Real Estate

Real estate assets are stated at cost, less accumulated depreciation and amortization. Upon acquisition of real estate operating properties, the Company estimates the fair value of acquired tangible assets (consisting of land, building, building improvements and tenant improvements) and identified intangible assets and liabilities (consisting of above and below-market leases, in-place leases and tenant relationships), assumed debt and redeemable units issued at the date of acquisition, based on evaluation of information and estimates available at that date. Based on these estimates, the Company allocates the estimated fair value to the applicable assets and liabilities. Fair value is determined based on an exit price approach, which contemplates the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If, up to one year from the acquisition date, information regarding fair value of the assets acquired and liabilities assumed is received and estimates are refined, appropriate adjustments are made to the purchase price allocation on a retrospective basis. The Company expenses transaction costs associated with business combinations in the period incurred.

In allocating the purchase price to identified intangible assets and liabilities of an acquired property, the value of above-market and below-market leases is estimated based on the present value of the difference between the contractual amounts, including fixed rate renewal options, to be paid pursuant to the leases and management's estimate of the market lease rates and other lease provisions (i.e., expense recapture, base rental changes, etc.) measured over a period equal to the estimated remaining term of the lease. The capitalized above-market or below-market intangible is amortized to rental income over the estimated remaining term of the respective leases, which includes the expected renewal option period. Mortgage debt discounts or premiums are amortized into interest expense over the remaining term of the related debt instrument. Unit discounts and premiums are amortized into noncontrolling interest in income, net over the period from the date of issuance to the earliest redemption date of the units.

In determining the value of in-place leases, management considers current market conditions and costs to execute similar leases in arriving at an estimate of the carrying costs during the expected lease-up period from vacant to existing occupancy. In estimating carrying costs, management includes real estate taxes, insurance, other operating expenses, estimates of lost rental revenue during the expected lease-up periods and costs to execute similar leases including leasing commissions, legal and other related costs based on current market demand. The value assigned to in-place leases and tenant relationships is amortized over the estimated remaining term of the leases. If a lease were to be terminated prior to its scheduled expiration, all unamortized costs relating to that lease would be written off.

Depreciation and amortization are provided on the straight-line method over the estimated useful lives of the assets, as follows:

Buildings and building improvements
Fixtures, leasehold and tenant improvements
(including certain identified intangible assets)

15 to 50 years Terms of leases or useful lives, whichever is shorter

Expenditures for maintenance and repairs are charged to operations as incurred. Significant renovations and replacements, which improve and extend the life of the asset, are capitalized. The useful lives of amortizable intangible assets are evaluated each reporting period with any changes in estimated useful lives being accounted for over the revised remaining useful life.

When a real estate asset is identified by management as held-for-sale, the Company ceases depreciation of the asset and estimates the sales price, net of selling costs. If, in management's opinion, the net sales price of the asset is less than the net book value of the asset, an adjustment to the carrying value would be recorded to reflect the estimated fair value of the property.

On a continuous basis, management assesses whether there are any indicators, including property operating performance and general market conditions, that the value of the real estate properties (including any related amortizable intangible assets or liabilities) may be impaired. A property value is considered impaired only if management's estimate of current and projected operating cash flows (undiscounted and unleveraged) of the property over its remaining useful life is less than the net carrying value of the property. Such cash flow projections consider factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. To the extent impairment has occurred, the carrying value of the property would be adjusted to an amount to reflect the estimated fair value of the property.

KIMCO REALTY CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Real Estate Under Development

Real estate under development represents both the ground-up development of neighborhood and community shopping center projects which may be subsequently sold upon completion and projects which the Company may hold as long-term investments. These properties are carried at cost. The cost of land and buildings under development includes specifically identifiable costs. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs of personnel directly involved and other costs incurred during the period of development. The Company ceases cost capitalization when the property is held available for occupancy upon substantial completion of tenant improvements, but no later than one year from the completion of major construction activity. If, in management's opinion, the net sales price of assets held for resale or the current and projected undiscounted cash flows of these assets to be held as long-term investments is less than the net carrying value, the carrying value would be adjusted to an amount that reflects the estimated fair value of the property.

Investments in Unconsolidated Joint Ventures

The Company accounts for its investments in unconsolidated joint ventures under the equity method of accounting as the Company exercises significant influence, but does not control these entities. These investments are recorded initially at cost and subsequently adjusted for cash contributions and distributions. Earnings for each investment are recognized in accordance with each respective investment agreement and where applicable, based upon an allocation of the investment's net assets at book value as if the investment was hypothetically liquidated at the end of each reporting period.

The Company's joint ventures and other real estate investments primarily consist of co-investments with institutional and other joint venture partners in neighborhood and community shopping center properties, consistent with its core business. These joint ventures typically obtain non-recourse third-party financing on their property investments, thus contractually limiting the Company's exposure to losses primarily to the amount of its equity investment; and due to the lender's exposure to losses, a lender typically will require a minimum level of equity in order to mitigate its risk. The Company, on a limited selective basis, obtains unsecured financing for certain joint ventures. These unsecured financings are guaranteed by the Company with guarantees from the joint venture partners for their proportionate amounts of any guaranty payment the Company is obligated to make.

To recognize the character of distributions from equity investees the Company reviews the nature of the cash distribution to determine the proper character of cash flow distributions as either returns on investment, which would be included in operating activities or returns of investment, which would be included in investing activities.

On a continuous basis, management assesses whether there are any indicators, including the underlying investment property operating performance and general market conditions, that the value of the Company's investments in unconsolidated joint ventures may be impaired. An investment's value is impaired only if management's estimate of the fair value of the investment is less than the carrying value of the investment and such difference is deemed to be other-than-temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the estimated fair value of the investment.

The Company's estimated fair values are based upon a discounted cash flow model for each specific property that includes all estimated cash inflows and outflows over a specified holding period and, where applicable, any estimated debt premiums. Capitalization rates, discount rates and credit spreads utilized in these models are based upon rates that the Company believes to be within a reasonable range of current market rates for each respective property.

Other Real Estate Investments

Other real estate investments primarily consist of preferred equity investments for which the Company provides capital to owners and developers of real estate. The Company typically accounts for its preferred equity investments on the equity method of accounting, whereby earnings for each investment are recognized in accordance with each respective investment agreement and based upon an allocation of the investment's net assets at book value as if the investment was hypothetically liquidated at the end of each reporting period.

On a continuous basis, management assesses whether there are any indicators, including the underlying investment property operating performance and general market conditions, that the value of the Company's Other real estate investments may be impaired. An investment's value is impaired only if management's estimate of the fair value of the investment is less than the carrying value of the investment and such difference is deemed to be other-than-temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the estimated fair value of the investment.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

The Company's estimated fair values are based upon a discounted cash flow model for each specific property that includes all estimated cash inflows and outflows over a specified holding period and, where applicable, any estimated debt premiums. Capitalization rates, discount rates and credit spreads utilized in these models are based upon rates that the Company believes to be within a reasonable range of current market rates for each respective property.

Mortgages and Other Financing Receivables

Mortgages and other financing receivables consist of loans acquired and loans originated by the Company. Borrowers of these loans are primarily experienced owners, operators or developers of commercial real estate. The Company's loans are primarily mortgage loans that are collateralized by real estate. Loan receivables are recorded at stated principal amounts, net of any discount or premium or deferred loan origination costs or fees. The related discounts or premiums on mortgages and other loans purchased are amortized or accreted over the life of the related loan receivable. The Company defers certain loan origination and commitment fees, net of certain origination costs and amortizes them as an adjustment of the loan's yield over the term of the related loan. The Company reviews on a quarterly basis credit quality indicators such as (i) payment status to identify performing versus non-performing loans, (ii) changes affecting the underlying real estate collateral and (iii) national and regional economic factors.

Interest income on performing loans is accrued as earned. A non-performing loan is placed on non-accrual status when it is probable that the borrower may be unable to meet interest payments as they become due. Generally, loans 90 days or more past due are placed on non-accrual status unless there is sufficient collateral to assure collectability of principal and interest. Upon the designation of non-accrual status, all unpaid accrued interest is reserved against through current income. Interest income on non-performing loans is generally recognized on a cash basis. Recognition of interest income on non-performing loans on an accrual basis is resumed when it is probable that the Company will be able to collect amounts due according to the contractual terms.

The Company has determined that it has one portfolio segment, primarily represented by loans collateralized by real estate, whereby it determines, as needed, reserves for loan losses on an asset-specific basis. The reserve for loan losses reflects management's estimate of loan losses as of the balance sheet date. The reserve is increased through loan loss expense and is decreased by charge-offs when losses are confirmed through the receipt of assets such as cash or via ownership control of the underlying collateral in full satisfaction of the loan upon foreclosure or when significant collection efforts have ceased.

The Company considers a loan to be impaired when, based upon current information and events, it is probable that the Company will be unable to collect all amounts due under the existing contractual terms. A reserve allowance is established for an impaired loan when the estimated fair value of the underlying collateral (for collateralized loans) or the present value of expected future cash flows is lower than the carrying value of the loan. An internal valuation is performed generally using the income approach to estimate the fair value of the collateral at the time a loan is determined to be impaired. The model is updated if circumstances indicate a significant change in value has occurred. The Company does not provide for an additional allowance for loan losses based on the grouping of loans as the Company believes the characteristics of the loans are not sufficiently similar to allow an evaluation of these loans as a group for a possible loan loss allowance. As such, all of the Company's loans are evaluated individually for impairment purposes.

Cash and Cash Equivalents

Cash and cash equivalents (demand deposits in banks, commercial paper and certificates of deposit with original maturities of three months or less) includes tenants' security deposits, escrowed funds and other restricted deposits of \$4.0 million and \$5.6 million as of December 31, 2012 and 2011, respectively.

Cash and cash equivalent balances may, at a limited number of banks and financial institutions, exceed insurable amounts. The Company believes it mitigates risk by investing in or through major financial institutions and primarily in funds that are currently U.S. federal government insured. Recoverability of investments is dependent upon the performance of the issuers.

Marketable Securities

The Company classifies its marketable equity securities as available-for-sale in accordance with the FASB's Investments-Debt and Equity Securities guidance. These securities are carried at fair market value with unrealized gains and losses reported in stockholders' equity as a component of Accumulated other comprehensive income ("OCI"). Gains or losses on securities sold are based on the specific identification method.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

All debt securities are generally classified as held-to-maturity because the Company has the positive intent and ability to hold the securities to maturity. It is more likely than not that the Company will not be required to sell the debt security before its anticipated recovery and the Company expects to recover the security's entire amortized cost basis even if the entity does not intend to sell. Held-to-maturity securities are stated at amortized cost, adjusted for amortization of premiums and accretion of discounts to maturity. Debt securities which contain conversion features generally are classified as available-for-sale.

On a continuous basis, management assesses whether there are any indicators that the value of the Company's marketable securities may be impaired, which includes reviewing the underlying cause of any decline in value and the estimated recovery period, as well as the severity and duration of the decline. In the Company's evaluation, the Company considers its ability and intent to hold these investments for a reasonable period of time sufficient for the Company to recover its cost basis. A marketable security is impaired if the fair value of the security is less than the carrying value of the security and such difference is deemed to be other-than-temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the security over the estimated fair value in the security.

Deferred Leasing and Financing Costs

Costs incurred in obtaining tenant leases and long-term financing, included in deferred charges and prepaid expenses in the accompanying Consolidated Balance Sheets, are amortized on a straight-line basis, which approximates the effective interest method, over the terms of the related leases or debt agreements, as applicable. Such capitalized costs include salaries, lease incentives and related costs of personnel directly involved in successful leasing efforts.

Software Development Costs

Expenditures for major software purchases and software developed for internal use are capitalized and amortized on a straight-line basis generally over a 3 to 5 year period. The Company's policy provides for the capitalization of external direct costs of materials and services associated with developing or obtaining internal use computer software. In addition, the Company also capitalizes certain payroll and payroll-related costs for employees who are directly associated with internal use computer software projects. The amount of capitalizable payroll costs with respect to these employees is limited to the time directly spent on such projects. Costs associated with preliminary project stage activities, training, maintenance and all other post-implementation stage activities are expensed as incurred. As of December 31, 2012 and 2011, the Company had unamortized software development costs of \$26.8 million and \$23.8 million, respectively. The Company incurred \$5.5 million, \$3.1 million and \$1.9 million in amortization of software development costs during the years ended December 31, 2012, 2011 and 2010, respectively.

Revenue Recognition and Accounts Receivable

Base rental revenues from rental property are recognized on a straight-line basis over the terms of the related leases. Certain of these leases also provide for percentage rents based upon the level of sales achieved by the lessee. These percentage rents are recognized once the required sales level is achieved. Rental income may also include payments received in connection with lease termination agreements. In addition, leases typically provide for reimbursement to the Company of common area maintenance costs, real estate taxes and other operating expenses. Operating expense reimbursements are recognized as earned.

Management and other fee income consists of property management fees, leasing fees, property acquisition and disposition fees, development fees and asset management fees. These fees arise from contractual agreements with third parties or with entities in which the Company has a noncontrolling interest. Management and other fee income, including acquisition and disposition fees, are recognized as earned under the respective agreements. Management and other fee income related to partially owned entities are recognized to the extent attributable to the unaffiliated interest.

Gains and losses from the sale of depreciated operating property and ground-up development projects are generally recognized using the full accrual method in accordance with the FASB's real estate sales guidance, provided that various criteria relating to the terms of sale and subsequent involvement by the Company with the properties are met.

Gains and losses on transfers of operating properties result from the sale of a partial interest in properties to unconsolidated joint ventures and are recognized using the partial sale provisions of the FASB's real estate sales guidance.

The Company makes estimates of the uncollectability of its accounts receivable related to base rents, straight-line rent, expense reimbursements and other revenues. The Company analyzes accounts receivable and historical bad debt levels, customer credit worthiness and current economic trends when evaluating the adequacy of the allowance for doubtful accounts. In addition, tenants in bankruptcy are analyzed and estimates are made in connection with the expected recovery of pre-petition and post-petition claims. The Company's reported net earnings are directly affected by management's estimate of the collectability of accounts receivable.

KIMCO REALTY CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Income Taxes

The Company has made an election to qualify, and believes it is operating so as to qualify, as a REIT for federal income tax purposes. Accordingly, the Company generally will not be subject to federal income tax, provided that distributions to its stockholders equal at least the amount of its REIT taxable income as defined under Section 856 through 860 of the Code.

In connection with the RMA, which became effective January I, 2001, the Company is permitted to participate in certain activities which it was previously precluded from in order to maintain its qualification as a REIT, so long as these activities are conducted by entities which elect to be treated as taxable REIT subsidiaries under the Code. As such, the Company is subject to federal and state income taxes on the income from these activities. The Company is also subject to local taxes on certain non-U.S. investments.

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The Company provides a valuation allowance for deferred tax assets for which it does not consider realization of such assets to be more likely than not.

The Company reviews the need to establish a valuation allowance against deferred tax assets on a quarterly basis. The review includes an analysis of various factors, such as future reversals of existing taxable temporary differences, the capacity for the carryback or carryforward of any losses, the expected occurrence of future income or loss and available tax planning strategies.

The Company applies the FASB's guidance relating to uncertainty in income taxes recognized in a company's financial statements. Under this guidance the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. The guidance on accounting for uncertainty in income taxes also provides guidance on de-recognition, classification, interest and penalties on income taxes, and accounting in interim periods.

Foreign Currency Translation and Transactions

Assets and liabilities of the Company's foreign operations are translated using year-end exchange rates, and revenues and expenses are translated using exchange rates as determined throughout the year. Gains or losses resulting from translation are included in OCl, as a separate component of the Company's stockholders' equity. Gains or losses resulting from foreign currency transactions are translated to local currency at the rates of exchange prevailing at the dates of the transactions. The effect of the transactions gain or loss is included in the caption Other expense, net in the Consolidated Statements of Income.

Derivative/Financial Instruments

The Company is exposed to certain risk arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risk through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments. Specifically, the Company may use derivatives to manage exposures that arise from changes in interest rates, foreign currency exchange rate fluctuations and market value fluctuations of equity securities. The Company limits these risks by following established risk management policies and procedures including the use of derivatives.

The Company measures its derivative instruments at fair value and records them in the Consolidated Balance Sheet as an asset or liability, depending on the Company's rights or obligations under the applicable derivative contract. The accounting for changes in the fair value of the derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives designated and qualifying as a hedge of the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. Derivatives may also be designated as hedges of the foreign currency exposure of a net investment in a foreign operation. Hedge accounting generally provides for the matching of the timing of gain or loss recognition on the hedging instrument with the recognition of the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk in a fair value hedge or the earnings effect of the hedged forecasted transactions in a cash flow

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

hedge. The Company may enter into derivative contracts that are intended to economically hedge certain of its risk, even though hedge accounting does not apply or the Company elects not to apply hedge accounting under the Derivatives and Hedging guidance issued by the FASB.

The effective portion of the changes in fair value of derivatives designated and that qualify as cash flow hedges is recorded in OCI and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. Any ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. During 2012, 2011 and 2010, the Company had no hedge ineffectiveness.

Noncontrolling Interests

The Company accounts for noncontrolling interests in accordance with the Consolidation guidance and the Distinguishing Liabilities from Equity guidance issued by the FASB. Noncontrolling interests represent the portion of equity that the Company does not own in those entities it consolidates. The Company identifies its noncontrolling interests separately within the equity section on the Company's Consolidated Balance Sheets. The amounts of consolidated net earnings attributable to the Company and to the noncontrolling interests are presented separately on the Company's Consolidated Statements of Income.

Noncontrolling interests also includes amounts related to partnership units issued by consolidated subsidiaries of the Company in connection with certain property acquisitions. These units have a stated redemption value or a defined redemption amount based upon the trading price of the Company's common stock and provides the unit holders various rates of return during the holding period. The unit holders generally have the right to redeem their units for cash at any time after one year from issuance. For convertible units, the Company typically has the option to settle redemption amounts in cash or common stock.

The Company evaluates the terms of the partnership units issued in accordance with the FASB's Distinguishing Liabilities from Equity guidance. Units which embody an unconditional obligation requiring the Company to redeem the units for cash at a specified or determinable date (or dates) or upon an event that is certain to occur are determined to be mandatorily redeemable under this guidance and are included as Redeemable noncontrolling interest and classified within the mezzanine section between Total liabilities and Stockholders' equity on the Company's Consolidated Balance Sheets. Convertible units for which the Company has the option to settle redemption amounts in cash or Common Stock are included in the caption Noncontrolling interest within the equity section on the Company's Consolidated Balance Sheets.

Earnings Per Share

The following table sets forth the reconciliation of earnings and the weighted-average number of shares used in the calculation of basic and diluted earnings per share (amounts presented in thousands, except per share data):

⁽a) The effect of the assumed conversion of certain convertible units had an anti-dilutive effect upon the calculation of Income from continuing operations per share. Accordingly, the impact of such conversions has not been included in the determination of diluted earnings per share calculations. Additionally, there were 11,159,160, 13,304,016 and 12,085,874, stock options that were not dilutive as of December 31, 2012, 2011 and 2010, respectively.

The Company's unvested restricted share awards contain non-forfeitable rights to distributions or distribution equivalents. The impact of the unvested restricted share awards on earnings per share has been calculated using the two-class method whereby earnings are allocated to the unvested restricted share awards based on dividends declared and the unvested restricted shares' participation rights in undistributed earnings.

Stock Compensation

The Company maintains two equity participation plans, the Second Amended and Restated 1998 Equity Participation Plan (the "Prior Plan") and the 2010 Equity Participation Plan (the "2010 Plan") (collectively, the "Plans"). The Prior Plan provides for a maximum of 47,000,000 shares of the Company's common stock to be issued for qualified and non-qualified options and restricted stock grants. The 2010 Plan provides for a maximum of 10,000,000 shares of the Company's common stock to be issued for qualified and non-qualified options, restricted stock, performance awards and other awards, plus the number of shares of common stock which are or become available for issuance under the Prior Plan and which are not thereafter issued under the Prior Plan, subject to certain conditions. Unless otherwise determined by the Board of Directors at its sole discretion, options granted under the Plans generally vest ratably over a range of three to five years, expire ten years from the date of grant and are exercisable at the market price on the date of grant. Restricted stock grants generally vest (i) 100% on the fourth or fifth anniversary of the grant, (ii) ratably over three or four years, (iii) over three years at 50% after two years and 50% after the third year or (iv) over ten years at 20% per year commencing after the fifth year. Performance share awards may provide a right to receive shares of restricted stock based on the Company's performance relative to its peers, as defined, or based on other performance criteria as determined by the Board of Directors. In addition, the Plans provide for the granting of certain options and restricted stock to each of the Company's non-employee directors (the "Independent Directors") and permits such Independent Directors to elect to receive deferred stock awards in lieu of directors' fees.

The Company accounts for equity awards in accordance with the FASB's Stock Compensation guidance which requires that all share based payments to employees, be recognized in the Statement of Income over the service period based on their fair values. Fair value is determined, depending on the type of award, using either the Black-Scholes option pricing formula or the Monte Carlo method, both of which are intended to estimate the fair value of the awards at the grant date (see Footnote 21 for additional disclosure on the assumptions and methodology).

KIMCO REALTY CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

New Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS ("ASU 2011-04"). ASU 2011-04 is intended to improve comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards ("IFRS"). The amendments are of two types: (i) those that clarify the Board's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The Company's adoption of this guidance did not have a material impact on its financial statement presentation.

In June 2011, the FASB issued ASU No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income ("ASU 2011-05"). The amendments in this ASU require an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of equity. In December 2011, the FASB deferred portions of this update in its issuance of Accounting Standards Update No. 2011-12 ("ASU 2011-12"), Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05. The amendment requires that all non-owner changes in stockholders' equity be presented in either a single continuous statement of comprehensive income or in two separate but consecutive statements. ASU 2011-12 defers only those changes in ASU 2011-05 that relate to the presentation of reclassification adjustments out of accumulated other comprehensive income. ASU 2011-05 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2011, with early adoption permitted, but full retrospective application is required. The adoption of ASU 2011-05 and ASU 2011-12 did not have a material impact on the Company's financial statement presentation.

In January 2013, the FASB released ASU 2013-02, Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income ("ASU 2013-02"). This guidance is the culmination of the board's redeliberation on reporting reclassification adjustments from accumulated other comprehensive income. The standard requires that companies present either in a single note or parenthetically on the face of the financial statements, the effect of significant amounts reclassified from each component of accumulated other comprehensive income based on its source (e.g., the release due to cash flow hedges from interest rate contracts) and the income statement line items affected by the reclassification (e.g., interest income or interest expense). If a component is not required to be reclassified to net income in its entirety (e.g., the net periodic pension cost), companies would instead cross reference to the related footnote for additional information (e.g., the pension footnote). The new requirements will take effect for public companies in interim and annual reporting periods beginning after December 15, 2012. The adoption of ASU 2013-02 is not expected to have a material impact on the Company's financial statement presentation.

In November 2011, the FASB issued ASU 2011-10, Property, Plant and Equipment (Topic 360): Derecognition of in Substance Real Estate - a Scope Clarification (a consensus of the FASB Emerging Issues Task Force) ("ASU 2011-10"). ASU 2011-10 requires a parent company that ceases to have a controlling financial interest in a subsidiary that is in substance real estate because the subsidiary has defaulted on its nonrecourse debt should use the FASB's Real Estate guidance to determine whether to derecognize the in substance real estate entities. ASU 2011-10 is effective for reporting periods beginning on or after June 15, 2012. The adoption of ASU 2011-10 did not have a material impact on the Company's financial position or results of operations.

In December 2011, the FASB released ASU 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities ("ASU 2011-11"). ASU 2011-11 requires companies to provide new disclosures about offsetting and related arrangements for financial instruments and derivatives. The provisions of ASU 2011-11 are effective for annual reporting periods beginning on or after January 1, 2013, and are required to be applied retrospectively. The adoption of ASU 2011-11 will not have a material impact on the Company's financial statement presentation.

Reclassifications

Certain reclassifications have been made to previously reported amounts to conform to the current year presentation. Specifically, the Company reclassified amounts relating to rent security deposits from Accounts payable and accrued expenses to Other liabilities. Additionally, the Company is presenting on its Consolidated Statements of Income its provision for doubtful accounts, which was previously included in Revenues from rental properties, as a separate line item included in Operating expenses as well as certain other immaterial reclassifications.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

2. Impairments:

Management assesses on a continuous basis whether there are any indicators, including property operating performance and general market conditions, that the value of the Company's assets (including any related amortizable intangible assets or liabilities) may be impaired. To the extent impairment has occurred, the carrying value of the asset would be adjusted to an amount to reflect the estimated fair value of the asset.

Real estate market conditions, including capitalization rates, discount rates and vacancies continued to improve throughout 2011 and 2012; however, declines in certain real estate markets continued to have a negative effect on transactional activity as it related to dispositions of select real estate assets. This factor, in addition to the Company's efforts to market certain assets and management's assessment as to the likelihood and timing of such potential transactions caused the Company to recognize impairment charges for the years ended December 31, 2012, 2011 and 2010 as follows (in millions):

	2012	2011	2010
Impairment of property carrying values (including amounts within			
discontinued operations)	\$ 56.9	\$ 22.8	\$ 8.7
Real estate under development	-	-	11.7
Investments in other real estate investments	2.7	3.3	13.4
Marketable securities and other investments	-	1.6	5.3
Investments in real estate joint ventures	-	5.1	-
Total gross impairment charges	59.6	32.8	39.1
Noncontrolling interests	(0.4	0.7	(0.1)
Income tax benefit	(10.6	(4.5)	(7.6)
Total net impairment charges	\$ 48.6	\$ 29.0	\$ 31.4

In addition to the impairment charges above, the Company recognized pretax impairment charges during 2012, 2011 and 2010 of \$11.1 million, \$14.1 million, and \$28.3 million, respectively, relating to certain properties held by various unconsolidated joint ventures in which the Company holds noncontrolling interests. These impairment charges are included in Equity in income of joint ventures, net in the Company's Consolidated Statements of Income.

The Company will continue to assess the value of its assets on an on-going basis. Based on these assessments, the Company may determine that one or more of its assets may be impaired due to a decline in value and would therefore write-down its cost basis accordingly (see Footnotes 6, 8, 9, 11, and 12).

3. Real Estate:

The Company's components of Rental property consist of the following (in thousands):

	December 31,				
		2012		2011	
Land	\$	1,927,800	\$	1,847,770	
Undeveloped land		96,500		97,275	
Buildings and improvements:					
Buildings		4,607,931		4,513,339	
Building improvements		1,091,810		1,024,514	
Tenant improvements		708,626		715,951	
Fixtures and leasehold improvements		59,690		56,827	
Other rental property (1)		357,667		335,859	
		8,850,024		8,591,535	
Accumulated depreciation and amortization		(1,745,462)		(1,693,090)	
Total	\$	7,104,562	\$	6,898,445	

(1) At December 31, 2012 and 2011, Other rental property (net of accumulated amortization of \$212.9 million and \$180.7 million, respectively), consisted of intangible assets including (i) \$237,166 and \$213,915, respectively, of in-place leases, (ii) \$21,335 and \$21,444, respectively, of tenant relationships, and (iii) \$99,166 and \$100,500, respectively, of above-market leases.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

In addition, at December 31, 2012 and 2011, the Company had intangible liabilities relating to below-market leases from property acquisitions of \$167.2 million and \$165.0 million, respectively, net of accumulated amortization of \$138.3 million and \$120.5 million, respectively. These amounts are included in the caption Other liabilities in the Company's Consolidated Balance Sheets. The Company's amortization expense associated with the above mentioned intangible assets and liabilities for the years ended December 31, 2012, 2011 and 2010 was \$15.4 million, \$15.2 million and \$12.6 million, respectively. The estimated net amortization expense associated with the Company's intangible assets and liabilities for the next five years are as follows (in millions): 2013, \$9.6; 2014, \$1.7; 2015, \$(0.8); 2016, \$(3.4) and 2017, \$(3.0).

4. Property Acquisitions, Developments and Other Investments:

Operating property acquisitions, ground-up development costs and other investments have been funded principally through the application of proceeds from the Company's public equity and unsecured debt issuances, proceeds from mortgage and construction financings and availability under the Company's revolving lines of credit.

Acquisition of Operating Properties -

During the year ended December 31, 2012, the Company acquired 24 operating properties, 69 net leased parcels and five outparcels, in separate transactions as follows (in thousands):

			Purchase Price						
		Month		Debt

- * Gross leasable area ("GLA")
- (1) These properties were acquired from a joint venture in which the Company has a 15% noncontrolling interest. The Company evaluated these transactions pursuant to the FASB's Consolidation guidance and as such recognized an aggregate gain of \$2.0 million from the fair value adjustment associated with its original ownership due to a change in control.
- (2) Acquired an aggregate of 67 parcels net leased to restaurants through a consolidated joint venture, in which the Company has a 99.1% controlling interest. During July 2012, the Company purchased the remaining 0.9% interest for \$0.7 million.
- (3) Acquired an aggregate of two parcels net leased to restaurants through a consolidated joint venture, in which the Company has a 92.0% controlling interest. During July 2012, the Company sold 4% of its interest for \$0.1 million. The Company continues to have a controlling interest in the joint venture and therefore continues to consolidate this investment.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

- (4) This property was acquired from a joint venture in which the Company had a 30% noncontrolling interest. The Company evaluated this transaction pursuant to the FASB's Consolidation guidance and as such recognized a gain of \$12.1 million from the fair value adjustment associated with its original ownership due to a change in control. In addition, the Company recognized promote income of \$1.1 million in connection with this transaction. The promote income is included in Equity in income of joint ventures, net on the Company's Consolidated Statements of Income. Additionally, the debt assumed in connection with this transaction of \$57.6 million was repaid in May 2012.
- (5) The Company acquired this property from a preferred equity investment in which the Company held a noncontrolling interest. The Company evaluated this transaction pursuant to the FASB's Consolidation guidance. This transaction resulted in a change in control with no gain or loss recognized.
- (6) This property was acquired from a joint venture in which the Company had a 50% noncontrolling interest. The Company evaluated this transaction pursuant to the FASB's Consolidation guidance. This transaction resulted in a change in control with no gain or loss recognized.
- (7) This property was acquired from a joint venture in which the Company has an II% noncontrolling interest. The Company evaluated this transaction pursuant to the FASB's Consolidation guidance and as such recognized a gain of \$0.4 million from the fair value adjustment associated with its original ownership due to a change in control.
- (8) This property was acquired from a joint venture in which the Company has a 50% noncontrolling interest. The Company evaluated this transaction pursuant to the FASB's Consolidation guidance and as such recognized a gain of \$1.0 million from the fair value adjustment associated with its original ownership due to a change in control.

During the year ended December 31, 2011, the Company acquired 19 operating properties, a land parcel and an outparcel, in separate transactions as follows (in thousands):

			Purchase Price						
		Month				Debt

		Total	\$	256,652	\$	117,912	\$	374,564	2,488

- * Gross leasable area ("GLA")
- (1) This property was acquired from a joint venture in which the Company has a 13.4% noncontrolling interest. The Company evaluated this transaction pursuant to the FASB's Consolidation guidance and as such recorded a gain of \$0.6 million from the fair value adjustment associated with its original 13.4% ownership due to a change in control.
- (2) The Company purchased the leasehold improvements at this property for which it previously owned the land.
- (3) The Company acquired the land at this site for which it previously held a ground lease.
- (4) The Company purchased this out parcel next to an existing property that the Company previously owned.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

The aggregate purchase price of the above 2012 and 2011 property acquisitions have been allocated as follows (in thousands):

	2012	2011
Land	\$ 196,219	\$ 104,824
Buildings	319,955	174,129
Below Market Rents	(40,375)	(16,958)
Above Market Rents	14,977	12,345
In-Place Leases	31,248	20,031
Building Improvements	99,092	72,979
Tenant Improvements	19,327	14,110
Mortgage Fair Value Adjustment	(5,965)	(6,896)
	\$ 634,478	\$ 374,564

Additionally, during the years ended December 31, 2012 and 2011, the Company acquired the remaining interest in six and two previously consolidated joint ventures for \$12.0 million and \$0.2 million, respectively. Also during 2011, the Company acquired additional interests in two separate consolidated joint ventures for an aggregate cost of \$9.7 million. The Company continues to consolidate these entities as there was no change in control from these transactions. The purchase of the remaining and additional partnership interests resulted in an aggregate decrease in noncontrolling interest of \$10.4 million and \$13.0 million for the years ended December 31, 2012 and 2011, respectively, and an aggregate decrease of \$0.3 million and an aggregate increase of \$3.6 million to the Company's Paid-in capital, during 2012 and 2011, respectively.

Ground-Up Development -

The Company is engaged in ground-up development projects, which will be held as long-term investments by the Company. As of December 31, 2012, the Company had in progress a total of three ground-up development projects, consisting of two located in the U.S. and one located in Peru.

During 2011, the Company acquired a land parcel located in Lima, Peru through a newly formed joint venture in which the Company has a 95% controlling ownership interest for a purchase price of 6.8 million Peruvian Sols (USD \$2.5 million). This parcel will be developed into a grocery anchored shopping center.

Kimsouth -

Kimsouth Realty Inc. ("Kimsouth") is a wholly-owned subsidiary of the Company that holds a 13.4% noncontrolling interest in a joint venture which owns a portion of Albertson's Inc. During 2012, the joint venture distributed \$50.3 million of which the Company received \$6.9 million, which was recognized as income from cash received in excess of the Company's investment, before income tax. During 2011, the joint venture distributed \$100.0 million of which the Company received \$13.9 million, which was recognized as income from cash received in excess of the Company's investment, before income tax. The income for both 2012 and 2011 was included in Equity in income from other real estate investments, net on the Company's Consolidated Statements of Income.

FNC Realty Corporation -

During 2011, the Company acquired an additional 12.48% interest in FNC Realty Corporation ("FNC") for \$12.4 million, which increased the Company's total controlling ownership interest to 69.08%. During 2012, the Company acquired an additional 13.62% interest in FNC for \$15.3 million, which increased the Company's total ownership interest to 82.70%. The Company had previously and continues to consolidate FNC. Since there was no change in control from these transactions, the purchase of the additional interest resulted in an increase to the Company's Paid-in capital of \$0.1 million and \$1.0 million during 2012 and 2011, respectively.

5. <u>Dispositions of Real Estate:</u>

Operating Real Estate -

During 2012, the Company disposed of 62 operating properties and two outparcels, in separate transactions, for an aggregate sales price of \$418.9 million. These transactions, which are included in discontinued operations, resulted in an aggregate pre-tax gain of \$85.9 million and aggregate impairment charges of \$22.5 million, before income taxes. The Company provided seller financing in connection with the sale of one of the operating properties for \$4.2 million, which bears interest at a rate of 6.0% and matures in November 2013. The Company evaluated this transaction pursuant to the FASB's real estate sales guidance and concluded that the criteria for sale recognition were met.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Additionally, during 2012, the Company disposed of four land parcels and two outparcels for an aggregate sales price of \$7.1 million and recognized an aggregate gain of \$2.0 million and aggregate impairment charges of \$0.3 million related to these transactions. The gains from these transactions are recorded as other income, which is included in Other expense, net, and the impairment charges have been recorded as Impairment charges in the Company's Consolidated Statements of Income. The Company provided seller financing in connection with the sale of one of the land parcels for \$1.8 million, which bears interest at a rate of 6.5% for the first six months and 7.5% for the remaining term and is scheduled to mature in March 2013. The Company evaluated this transaction pursuant to the FASB's real estate sales guidance and concluded that the criteria for sale recognition were met.

Also, during 2012, the Company sold a land parcel in San Juan del Rio, Mexico for a sales price of 24.3 million Mexican Pesos ("MXN") (USD \$1.9 million). The Company recognized a gain of MXN 5.7 million (USD \$0.4 million) on this transaction. The gain from this transaction is recorded as other income, which is included in Other expense, net, in the Company's Consolidated Statements of Income.

During 2012, the Company sold a previously consolidated operating property to a newly formed unconsolidated joint venture in which the Company has a 20% noncontrolling interest for a sales price of \$55.5 million. This transaction resulted in a pre-tax gain of \$10.0 million, of which the Company deferred \$2.0 million due to its continued involvement. This gain has been recorded as Gain on sale of operating properties, net of tax in the Company's Consolidated Statements of Income.

During 2011, the Company disposed of 27 operating properties, one development property and one outparcel, in separate transactions, for an aggregate sales price of \$124.9 million. These transactions, which are included in discontinued operations, resulted in an aggregate gain of \$17.3 million and aggregate impairment charges of \$16.9 million, before an income tax benefit and noncontrolling interest. The Company provided seller financing aggregating \$11.9 million on three of these transactions which bear interest at rates ranging from 5.50% to 8.00% per annum and have maturities ranging from one to seven years. The Company evaluated these transactions pursuant to the FASB's real estate sales guidance to determine sale and gain recognition.

Additionally, during 2011 the Company disposed of a portion of an operating property and a land parcel, in separate transactions, for an aggregate sales price of \$5.4 million. These transactions resulted in aggregate impairment charges of \$1.6 million which is included in Impairment charges, on the Company's Consolidated Statements of Income.

Also, during 2011, a consolidated joint venture in which the Company had a preferred equity investment disposed of a property for a sales price of \$6.1 million. As a result of this capital transaction, the Company received \$1.4 million of profit participation, before noncontrolling interest of \$0.1 million. This profit participation has been recorded as Income from other real estate investments and is reflected in Income from discontinued operating properties in the Company's Consolidated Statements of Income.

During 2011, the Company transferred an operating property for a sales price of \$23.9 million to a newly formed unconsolidated joint venture in which the Company has a noncontrolling interest. This transaction resulted in a gain of \$0.4 million, of which the Company deferred \$0.1 million due to its continued involvement.

During 2010, the Company (i) sold seven operating properties, which were previously consolidated, to two new joint ventures in which the Company holds noncontrolling equity interests for an aggregate sales price of \$438.1 million including the assignment of \$159.9 million of non-recourse mortgage debt encumbering three of the properties and (ii) disposed of, in separate transactions, seven operating properties for an aggregate sales price of \$100.5 million including the assignment of \$81.0 million of non-recourse mortgage debt encumbering one of the properties. These transactions resulted in aggregate gains of \$4.4 million and aggregate losses/impairments of \$5.0 million.

Additionally, during 2010, the Company disposed of (i) three properties, in separate transactions, for an aggregate sales price of \$23.8 million and (ii) five properties from a consolidated joint venture in which the Company had a preferred equity investment for a sales price of \$40.8 million. These transactions resulted in an aggregate profit participation of \$20.8 million, before income tax of \$1.0 million and noncontrolling interest of \$4.9 million. This profit participation has been recorded as Income from other real estate investments and is reflected in Income from discontinued operating properties, net of tax in the Company's Consolidated Statements of Income.

During 2010, the Company also disposed of, in separate transactions, nine land parcels for an aggregate sales price of \$25.6 million which resulted in an aggregate gain of \$3.4 million. This gain is included in Other expense, net in the Company's Consolidated Statements of Income.

KIMCO REALTY CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Ground-up Development -

During 2011, the Company transferred a merchant building property for a sales price of \$37.6 million to a newly formed unconsolidated joint venture in which the Company has a noncontrolling interest. This transaction resulted in an aggregate gain of \$14.2 million, before income tax expense, of which the Company deferred \$2.1 million due to its continued involvement.

During 2010, the Company disposed of a land parcel for a sales price of \$0.8 million resulting in a gain of \$0.4 million. Additionally, the Company recognized \$1.7 million in income on previously sold development properties during the year ended December 31, 2010.

6. Adjustment of Property Carrying Values and Real Estate Under Development:

Impairments -

During 2012, the Company recognized an aggregate impairment charge of \$34.1 million, before income tax benefit of \$10.7 million, relating to its investment in four operating properties, which are included in Impairment charges in the Company's Consolidated Statements of Income. The aggregate book value of these properties was \$86.6 million. The estimated aggregate fair value of these properties is based upon purchase price offers and comparable sales information aggregating \$52.5 million (see footnote 16 for additional disclosure on fair value). These impairment charges resulted from the Company's efforts to market certain assets and management's assessment as to the likelihood and timing of such potential transactions.

During 2011, the Company recognized an aggregate impairment charge of \$3.9 million, before income tax benefit of \$1.1 million, relating to its investment in two operating properties and one land parcel. The aggregate book value of these properties was \$9.2 million. The estimated aggregate fair value of these properties was based upon purchase prices and purchase price offers aggregating \$5.3 million. These impairment charges resulted from the Company's efforts to market certain assets and management's assessment as to the likelihood and timing of such potential transactions.

During 2010, the Company recognized an aggregate impairment charge of \$8.7 million, of which \$5.2 million is classified as discontinued operations on the Company's Consolidated Statement of Income, relating to its investment in seven properties. Four of these properties were sold during 2010 and one of these properties was classified as held-for-sale as of December 31, 2010. The estimated individual fair value of these properties was based upon purchase prices and current purchase price offers. These impairments were primarily due to declines in real estate fundamentals along with adverse changes in local market conditions and the uncertainty of their recovery.

Additionally, during 2010, the Company had determined that one of its unconsolidated joint ventures' ground-up development projects, located in Miramar, FL, estimated recoverable value will not exceed its estimated cost. As a result, the Company recorded a pre-tax other-than-temporary impairment on its investment of \$11.7 million, representing the excess of the investment's carrying value over its estimated fair value. The Company's estimated fair value was based upon projected operating cash flows (discounted and unleveraged) of the property over its specified holding period. Such cash flow projections consider factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. Capitalization rates and discount rates utilized in this model were based upon rates that the Company believes to be within a reasonable range of current market rates for the respective properties.

7. <u>Discontinued Operations and Assets Held-for-Sale:</u>

The Company reports as discontinued operations assets held-for-sale as of the end of the current period and assets sold during the period. All results of these discontinued operations are included in a separate component of income on the Consolidated Statements of Income under the caption Discontinued operations. This has resulted in certain reclassifications of 2012, 2011 and 2010 financial statement amounts.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

The components of Income from discontinued operations for each of the three years in the period ended December 31, 2012, are shown below. These include the results of Income through the date of each respective sale for properties sold during 2012, 2011 and 2010, and the operations for the applicable periods for those assets classified as held-for-sale as of December 31, 2012 (in thousands):

	2012	2011		2010

During 2012, the Company classified as held-for-sale 18 operating properties, comprising 2.1 million square feet of GLA. The book value of these properties was \$73.2 million, net of accumulated depreciation of \$57.2 million. The Company recognized impairment charges of \$4.2 million on three of these properties. The book value of the other properties did not exceed their estimated fair value, less costs to sell, and as such no impairment charges were recognized. The Company's determination of the fair value of these properties, aggregating \$102.0 million, was based upon executed contracts of sale with third parties (see Footnote 16). In addition, the Company completed the sale of 19 operating properties during the year ended December 31, 2012, of which two were classified as held-for-sale during 2011 (these dispositions are included in Footnote 2 above). At December 31, 2012, the Company had one operating property classified as held-for-sale at a carrying amount of \$3.4 million, net of accumulated depreciation of \$6.8 million, which is included in Other assets on the Company's Consolidated Balance Sheets.

During 2011, the Company classified as held-for-sale seven operating properties and one land parcel, comprising 0.2 million square feet of GLA. The book value of each of these properties aggregated \$10.0 million, net of accumulated depreciation of \$7.3 million. The Company recognized impairment charges of \$1.1 million on the land parcel. The individual book values of the seven operating properties did not exceed each of their estimated fair values less costs to sell; as such no impairments were recognized. The Company's determination of the fair value of these properties and land parcel, aggregating \$19.7 million, was based upon executed contracts of sale with third parties. The Company completed the sale of five of these operating properties during the year ended December 31, 2011. At December 31, 2011 the Company had two properties classified as held-for-sale at an aggregate carrying amount of \$3.8 million, net of accumulated depreciation of \$0.5 million, which are included in Other assets on the Company's Consolidated Balance Sheets.

During 2010, the Company classified as held-for-sale 12 operating properties comprising 0.5 million square feet of GLA. The book value of each of these properties aggregated \$40.5 million, net of accumulated depreciation of \$11.9 million. The Company recognized impairment charges of \$5.2 million, before income tax benefit, on seven of these properties. The individual book value of the five remaining properties did not exceed each of their estimated fair values less costs to sell. The Company's determination of the fair value of the 12 properties, aggregating \$66.1 million, was based upon executed contracts of sale with third parties. The Company completed the sale of eleven of these properties during 2010. During 2011, the Company reclassified one property previously classified as held-for-sale into held-for-use. At December 31, 2010 the Company had one property classified as held-for-sale at a carrying value of \$4.4 million, which was included in Other assets on the Company's Consolidated Balance Sheets.

8. Investment and Advances in Real Estate Joint Ventures:

The Company and its subsidiaries have investments in and advances to various real estate joint ventures. These joint ventures are engaged primarily in the operation of shopping centers which are either owned or held under long-term operating leases. The

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Company and the joint venture partners have joint approval rights for major decisions, including those regarding property operations. As such, the Company holds noncontrolling interests in these joint ventures and accounts for them under the equity method of accounting. ⁽¹⁾ This venture represents four separate joint ventures, with four separate accounts managed by Prudential Real Estate Investors ("PREI"), three of these ventures are collectively referred to as KimPru and the remaining venture is referred to as KimPru II.

(3) The Company's share of this investment is subject to fluctuation and is dependent upon property cash flows.

⁽²⁾ The Company manages these joint venture investments and, where applicable, earns acquisition fees, leasing commissions, property management fees, assets management fees and construction management fees.

⁽⁴⁾ During the year ended December 31, 2012, the Company amended one of its Canadian preferred equity investment agreements to restructure the investment as a pari passu joint venture in which the Company holds a noncontrolling interest. As a result of this transaction, the Company continues to account for its investment in this joint venture under the equity method of accounting and includes this investment in Investments and advances to real estate joint ventures within the Company's Consolidated Balance Sheets.

⁽⁵⁾ During the year ended December 31, 2012, a joint venture in which the Company holds a noncontrolling interest sold an operating property for a sales price of \$62.0 million, which resulted in no gain or loss recognized.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

- (6) During the year ended December 31, 2012, a joint venture in which the Company held a noncontrolling interest sold an operating property to the Company for a sales price of \$127.0 million. The Company evaluated this transaction pursuant to the FASB's Consolidation guidance and as such recognized a gain of \$12.1 million from the fair value adjustment associated with its original ownership due to a change in control. In addition, the Company recognized promote income of \$1.1 million in connection with this transaction.
- (7) During the year ended December 31, 2012, the Company sold an operating property to a newly formed unconsolidated joint venture in which the Company has a noncontrolling interest for a sales price of \$55.5 million.
- (8) During the year ended December 31, 2012, a joint venture in which the Company holds a noncontrolling interest acquired an operating property in Alberta, Canada for a purchase price of \$42.4 million. The Company's capital contribution was \$14.5 million.
- (9) During the year ended December 31, 2012, the Company recognized income of \$7.5 million, before taxes of \$1.5 million, from the sale of certain air rights at one of the properties in this portfolio.
- (10) During the year ended December 31, 2012, the Company acquired four properties from joint ventures in which the Company has a noncontrolling interest. The Company evaluated these transactions pursuant to the FASB's Consolidation guidance and as such recognized an aggregate gain of \$14.5 million from the fair value adjustment associated with its original ownership due to a change in control.
- (11) During the year ended December 31, 2012, the Company acquired a property from a joint venture in which the Company had a noncontrolling interest. The Company evaluated this transaction pursuant to the FASB's Consolidation guidance and as such recognized an aggregate gain of \$1.0 million from the fair value adjustment associated with its original ownership due to a change in control.
- (12) During the year ended December 31, 2012, two joint ventures in which the Company holds noncontrolling interests sold two properties for an aggregate sales price of \$118.0 million. The Company received distributions of \$18.5 million and recognized an aggregate gain of \$8.3 million.
- (13) During the year ended December 31, 2012, a joint venture in which the Company holds a noncontrolling interest sold two encumbered operating properties to the Company for an aggregate sales price of \$75.5 million. The Company recognized promote income of \$2.6 million.
- (14) KimPru recognized impairment charges of \$6.5 million related to the sale of two properties; \$53.6 million related to the potential foreclosure of two properties and \$161.7 million related to the sale of 26 properties, during the years ended December 31, 2012, 2011 and 2010, respectively. The Company had previously taken other-than-temporary impairment charges on its investment in KimPru and had allocated these impairment charges to the underlying assets of the KimPru joint ventures including a portion to these operating properties. As such, the Company's share of these impairment charges for the years ended December 31, 2012, 2011 and 2010 were \$0.8 million, \$6.0 million and \$14.8 million, respectively.
- (15) During 2011, a third party mortgage lender foreclosed on an operating property for which KimPru had previously taken an impairment charge during 2010. As a result of the foreclosure during 2011, KimPru recognized an aggregate gain on early extinguishment of debt of \$29.6 million. The Company's share of this gain was \$4.4 million, before income taxes.
- (16) KimPru II recognized impairment charges of \$7.3 million and \$25.6 million, during the years ended December 31, 2011 and 2010, respectively. The impairment charges recognized in 2011 related to the foreclosure of one operating property and the impairment charges recognized in 2010 related to the sale of four operating properties. The Company had previously taken other-than-temporary impairment charges on its investment in KimPru II and had allocated these impairment charges to the underlying assets of the KimPru II joint ventures including a portion to these operating properties. As such, the Company's share of these impairment charges for the years ended December 31, 2011 and 2010 were \$1.0 million and \$3.4 million, respectively.
- (17) KIR recognized impairment charges of \$4.6 million related to the sale of one operating property and \$6.7 million related to the sale of one operating property and one out-parcel during the years ended December 31, 2011 and 2010, respectively. The Company's share of these impairment charges for the years ended December 31, 2011 and 2010 were \$2.1 million and \$3.0 million, respectively.
- (18) During 2010, KIR recognized a gain on early extinguishment of debt of \$5.8 million related to a property that was foreclosed on by a third party lender. The Company's share of this gain was \$2.6 million.
- (19) The UBS Program recognized impairment charges of \$13.0 million related to the sale of two properties and \$9.7 million related to the sale of one property, during the years ended December 31, 2012 and 2011, respectively. The Company's share of these impairment charges for the years ended December 31, 2012 and 2011 were \$2.2 million and \$1.9 million, respectively. Additionally, during the year ended December 31, 2011, the UBS Program recognized an impairment charge of \$5.0 million relating to a property that was anticipated to be foreclosed on by the third party lender in 2012. The Company's share of this impairment charge was \$0.8 million. A deed in lieu of foreclosure was given to the third party lender in 2012.
- (20) During the year ended December 31, 2012, BIG recognized an impairment charge of \$9.0 million on a property that is expected to be foreclosed upon in 2013. The Company's share of this impairment charge was \$0.9 million.
- During the year ended December 31, 2012, two joint ventures in which the Company has a noncontrolling interest recognized aggregate impairment charges of \$6.5 million related to the sale of four operating properties. The Company's share of these impairment charges was \$0.8 million.
- Ouring the year ended December 31, 2012, three joint ventures in which the Company has noncontrolling interests recognized aggregate impairment charges of \$12.8 million related to the sale of one operating property, the pending sale of one property and the potential foreclosure of another property. The Company's share of these impairment charges was \$6.4 million.
- (23) During the year ended December 31, 2011, the Company sold its interest in a Canadian hotel portfolio to its partner, for Canadian Dollars ("CAD") \$2.5 million (USD \$2.4 million). As a result, the Company recorded an impairment charge of USD \$5.2 million, before income taxes.
- (24) For the year ended December 31, 2010, the Company recognized impairment charges of \$7.0 million, against the carrying value of its investments in various unconsolidated joint ventures. These impairment charges resulted from properties, within various unconsolidated joint ventures, being classified as held-for-sale.

RioCan Investments -

During October 2001, the Company formed three joint ventures (collectively, the "RioCan Ventures") with RioCan Real Estate Investment Trust ("RioCan"), in which the Company has 50% noncontrolling interests, to acquire retail properties and development projects in Canada. The acquisition and development projects are to be sourced and managed by RioCan and are subject to review and approval by a joint oversight committee consisting of RioCan management and the Company's management personnel. Capital contributions will only be required as suitable opportunities arise and are agreed to by the Company and RioCan.

The Company's equity in income from the Riocan Ventures for the year ended December 31, 2012, exceeded 10% of the Company's income from continuing operations, as such the Company is providing summarized financial information for the RioCan Ventures as follows (in millions):

			Decem	ber	31,

Other liabilities included in the Company's accompanying Consolidated Balance Sheets include accounts with certain real estate joint ventures totaling \$21.3 million and \$24.2 million at December 31, 2012 and 2011, respectively. The Company and its subsidiaries have varying equity interests in these real estate joint ventures, which may differ from their proportionate share of net income or loss recognized in accordance with GAAP.

The Company's maximum exposure to losses associated with its unconsolidated joint ventures is primarily limited to its carrying value in these investments. Generally, such investments contain operating properties and the Company has determined these entities do not contain the characteristics of a VIE. As of December 31, 2012 and 2011, the Company's carrying value in these investments is \$1.4 billion.

9. Other Real Estate Investments:

Preferred Equity Capital -

The Company previously provided capital to owners and developers of real estate properties through its Preferred Equity program. As of December 31, 2012, the Company's net investment under the Preferred Equity program was \$287.8 million relating to 504 properties, including 397 net leased properties. For the year ended December 31, 2012, the Company earned \$43.1 million from its preferred equity investments, including \$17.6 million in profit participation earned from 21 capital transactions. For the year ended December 31, 2011, the Company earned \$35.7 million from its preferred equity investments, including \$13.7 million in profit participation earned from 13 capital transactions. For the year ended December 31, 2010, the Company earned \$37.6 million from its preferred equity investments, including \$9.7 million in profit participation earned from nine capital transactions.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

During 2012, the Company amended one of its preferred equity agreements to restructure its investment, into a pari passu joint venture investment in which the Company holds a noncontrolling interest. The Company will continue to account for this investment under the equity method of accounting and from the date of the amendment will include this investment in Investments and advances in real estate joint ventures within the Company's Consolidated Balance Sheets.

Included in the capital transactions described above for the year ended December 31, 2012, is the sale of three preferred equity investments in which the Company had a \$0 investment and recognized promote income of \$10.0 million. In connection with this transaction, the Company provided seller financing for \$7.5 million, which bears interest at a rate of 7.0% and matures in December 2013. The Company evaluated this transaction pursuant to the FASB's real estate sales guidance and concluded that the criteria for sale recognition was met.

During 2011, the Company, in separate transactions, amended three preferred equity agreements to restructure its investments, which hold investments in seven retail properties, into three pari passu joint venture investments in which the Company holds noncontrolling interests. The Company will continue to account for these investments under the equity method of accounting and from the dates of the amendments will include these investments in Investments and advances in real estate joint ventures within the Company's Consolidated Balance Sheets (see Footnote 8).

Additionally, during the year ended December 31, 2011, two properties within two of the Company's preferred equity investments were in default of the their respective mortgages and received foreclosure notices from the respective mortgage lenders. As such, the Company recognized full impairment charges on both of the investments aggregating \$2.2 million.

During 2010, the Company sold 50% of a preferred equity investment in a Canadian retail operating property for CAD \$31.9 million (USD \$31.0 million). In connection with this sale the Company (i) recognized profit participation of CAD \$1.7 million (USD \$1.6 million) and (ii) amended its preferred equity agreement to restructure the Company's remaining investment as a pari passu joint venture investment. Additionally, during 2010, the Company amended its preferred equity agreement to restructure another Canadian investment that holds investments in 12 retail properties as a pari passu joint venture investment. The Company will continue to account for both of these investments under the equity method of accounting and includes these investments in Investments and advances in real estate joint ventures within the Company's Consolidated Balance Sheets (see Footnote 8).

Also during 2010, the Company recognized an impairment charge of \$3.8 million against the carrying value of its preferred equity investment in an operating property located in Tucson, AZ based on its estimated sales price. During 2010, the Company acquired the remaining ownership interest in this operating property for a purchase price of \$90.0 million, including the assumption of \$81.0 million in non-recourse mortgage debt, which bears interest at a rate of 6.08% and is scheduled to mature in 2016. During August 2010, this property was fully disposed of.

Additionally, during the year ended December 31, 2010, the Company recognized an impairment charge of \$5.0 million against the carrying value of two of its preferred equity investments, based on estimated sales prices. During 2010, the Company sold one of these preferred equity investments for a sales price of \$0.3 million.

The Company's estimated fair values relating to the impairment assessments above were based upon sales prices, where applicable, or discounted cash flow models that include all estimated cash inflows and outflows over a specified holding period and where applicable, any estimated debt premiums. Capitalization rates, discount rates and credit spreads utilized in these models were based upon rates that the Company believes to be within a reasonable range of current market rates for the respective properties.

During 2007, the Company invested \$81.7 million of preferred equity capital in an entity which was comprised of 403 net leased properties ("Net Leased Portfolio") which consist of 30 master leased pools with each pool leased to individual corporate operators. Each master leased pool is accounted for as a direct financing lease. These properties consist of a diverse array of free-standing restaurants, fast food restaurants, convenience and auto parts stores. As of December 31, 2012, the remaining 397 properties were encumbered by third party loans aggregating \$358.9 million with interest rates ranging from 5.08% to 10.47% with a weighted-average interest rate of 9.3% and maturities ranging from one to 10 years. The Company recognized \$14.0 million, \$12.7 million and \$12.1 million in equity in income from this investment during the years ended December 31, 2012, 2011 and 2010, respectively.

The Company's maximum exposure to losses associated with its preferred equity investments is primarily limited to its invested capital. As of December 31, 2012 and 2011, the Company's invested capital in its preferred equity investments approximated \$287.8 million and \$316.0 million, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Summarized financial information relating to the Company's preferred equity investments is as follows (in millions):

	Decem	ber	31,
	2012		2011
Assets:

Net income	\$	51.1	\$	42.9	\$	56.3

(a) Represents an impairment charge against one master leased pool due to decline in fair market value.

Other -

During 2010, the Company recognized an other-than-temporary impairment charge of \$2.1 million against the carrying value of an investment that owns two operating properties located in Manchester, NH and Nashua, NH. The Company determined the fair value of its investment based on an estimated sales price of the operating properties. During 2011, these two properties were sold and as a result of an adjustment to the purchase price, the Company recognized an additional \$0.5 million in impairment charges.

Investment in Retail Store Leases -

The Company has interests in various retail store leases relating to the anchor store premises in neighborhood and community shopping centers. These premises have been sublet to retailers who lease the stores pursuant to net lease agreements. Income from the investment in these retail store leases during the years ended December 31, 2012, 2011 and 2010, was \$0.9 million, \$0.8 million and \$1.6 million, respectively. These amounts represent sublease revenues during the years ended December 31, 2012, 2011 and 2010, of \$3.9 million, \$5.1 million and \$5.9 million, respectively, less related expenses of \$3.0 million, \$4.3 million and \$4.3 million, respectively. The Company's future minimum revenues under the terms of all non-cancelable tenant subleases and future minimum obligations through the remaining terms of its retail store leases, assuming no new or renegotiated leases are executed for such premises, for future years are as follows (in millions): 2013, \$3.7 and \$2.3; 2014, \$2.9 and \$1.7; 2015, \$2.0 and \$1.3; 2016, \$1.6 and \$1.0; 2017, \$1.0 and \$0.5, and thereafter, \$0.4 and \$0.04, respectively.

Leveraged Lease -

During June 2002, the Company acquired a 90% equity participation interest in an existing leveraged lease of 30 properties. The properties are leased under a long-term bond-type net lease whose primary term expires in 2016, with the lessee having certain renewal option rights. The Company's cash equity investment was \$4.0 million. This equity investment is reported as a net investment in leveraged lease in accordance with the FASB's lease guidance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

As of December 31, 2012, 19 of these properties were sold, whereby the proceeds from the sales were used to pay down the mortgage debt by \$32.3 million and the remaining 11 properties were encumbered by third-party non-recourse debt of \$21.1 million that is scheduled to fully amortize during the primary term of the lease from a portion of the periodic net rents receivable under the net lease.

As an equity participant in the leveraged lease, the Company has no recourse obligation for principal or interest payments on the debt, which is collateralized by a first mortgage lien on the properties and collateral assignment of the lease. Accordingly, this obligation has been offset against the related net rental receivable under the lease.

At December 31, 2012 and 2011, the Company's net investment in the leveraged lease consisted of the following (in millions):

	2012	2011
Remaining net rentals	\$ 24.0	\$ 30.8
Estimated unguaranteed residual value	30.3	30.3
Non-recourse mortgage debt	(19.0)	(25.1)
Unearned and deferred income	(27.6)	(29.9)
Net investment in leveraged lease	\$ 7.7	\$ 6.1

10. Variable Interest Entities:

Consolidated Operating Properties

Included within the Company's consolidated operating properties at December 31, 2012, are two consolidated entities that are VIEs, for which the Company is the primary beneficiary. These entities have been established to own and operate real estate property. The Company's involvement with these entities is through its majority ownership and management of the properties. The entities were deemed VIEs primarily based on the fact that the voting rights of the equity investors is not proportional to their obligation to absorb expected losses or receive the expected residual returns of the entity and substantially all of the entity's activities are conducted on behalf of the investor which has disproportionately fewer voting rights. The Company determined that it was the primary beneficiary of these VIEs as a result of its controlling financial interest.

At December 31, 2012, total assets of these VIEs were \$10.8 million and total liabilities were \$0.1 million. The classification of these assets is primarily within real estate and the classifications of liabilities are primarily within accounts payable and accrued expenses.

The majority of the operations of these VIEs are funded with cash flows generated from the properties. The Company has not provided financial support to any of these VIEs that it was not previously contractually required to provide, which consists primarily of funding any capital expenditures, including tenant improvements, which are deemed necessary to continue to operate the entity and any operating cash shortfalls that the entity may experience.

Consolidated Ground-Up Development Projects

Included within the Company's ground-up development projects at December 31, 2012, are two entities that are VIEs, for which the Company is the primary beneficiary. These entities were established to develop real estate property to hold as long-term investments. The Company's involvement with these entities is through its majority ownership and management of the properties. The entities were deemed VIEs primarily based on the fact that the equity investment at risk is not sufficient to permit the entity to finance its activities without additional financial support. The initial equity contributed to these entities was not sufficient to fully finance the real estate construction as development costs are funded by the partners throughout the construction period. The Company determined that it was the primary beneficiary of these VIEs as a result of its controlling financial interest.

At December 31, 2012, total assets of these ground-up development VIEs were \$87.8 million and total liabilities were \$0.1 million. The classification of these assets is primarily within real estate under development and the classifications of liabilities are primarily within accounts payable and accrued expenses.

Substantially all of the projected development costs to be funded for these ground-up development VIEs, aggregating \$33.3 million, will be funded with capital contributions from the Company and by the outside partners, when contractually obligated. The Company has not provided financial support to these VIEs that it was not previously contractually required to provide.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Unconsolidated Ground-Up Development

Also included within the Company's ground-up development projects at December 31, 2012, is an unconsolidated joint venture, which is a VIE for which the Company is not the primary beneficiary. This joint venture is primarily established to develop real estate property for long-term investment and was deemed a VIE primarily based on the fact that the equity investment at risk was not sufficient to permit the entity to finance its activities without additional financial support. The initial equity contributed to this entity was not sufficient to fully finance the real estate construction as development costs are funded by the partners throughout the construction period. The Company determined that it was not the primary beneficiary of this VIE based on the fact that the Company has shared control of this entity along with the entity's partners and therefore does not have a controlling financial interest.

The Company's investment in this VIE was \$17.9 million as of December 31, 2012, which is included in Real estate under development in the Company's Condensed Consolidated Balance Sheets. The Company's maximum exposure to loss as a result of its involvement with this VIE is estimated to be \$36.3 million, which primarily represents the Company's current investment and estimated future funding commitments of \$18.4 million. The Company has not provided financial support to this VIE that it was not previously contractually required to provide. All future costs of development will be funded with capital contributions from the Company and the outside partner in accordance with their respective ownership percentages.

Unconsolidated Redevelopment Investment

Included in the Company's joint venture investments at December 31, 2012, is one unconsolidated joint venture, which is a VIE for which the Company is not the primary beneficiary. This joint venture was primarily established to develop real estate property for long-term investment and was deemed a VIE primarily based on the fact that the equity investment at risk was not sufficient to permit the entity to finance its activities without additional financial support. The initial equity contributed to this entity was not sufficient to fully finance the real estate construction as development costs are funded by the partners throughout the construction period. The Company determined that it was not the primary beneficiary of this VIE based on the fact that the Company has shared control of this entity along with the entity's partners and therefore does not have a controlling financial interest.

As of December 31, 2012, the Company's investment in this VIE was a negative \$12.1 million, due to the fact that the Company had a remaining capital commitment obligation, which is included in Other liabilities in the Company's Condensed Consolidated Balance Sheets. The Company's maximum exposure to loss as a result of its involvement with this VIE is estimated to be \$12.1 million, which is the remaining capital commitment obligation. The Company has not provided financial support to this VIE that it was not previously contractually required to provide. All future costs of development will be funded with capital contributions from the Company and the outside partner in accordance with their respective ownership percentages.

11. Mortgages and Other Financing Receivables:

The Company has various mortgages and other financing receivables which consist of loans acquired and loans originated by the Company. For a complete listing of the Company's mortgages and other financing receivables at December 31, 2012, see Financial Statement Schedule IV included in this annual report on Form 10-K.

The following table reconciles mortgage loans and other financing receivables from January 1, 2010 to December 31, 2012 (in thousands):

	2012	2011	2010
Balance at January I	\$ 102,972	\$ 108,493	\$ 131,332
Additions:			
New mortgage loans	29,496	14,297	1,411

Balance at December 31	\$ 70,704	\$ 102,972	\$ 108,493

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

The Company reviews payment status to identify performing versus non-performing loans. Interest income on performing loans is accrued as earned. A non-performing loan is placed on non-accrual status when it is probable that the borrower may be unable to meet interest payments as they become due. Generally, loans 90 days or more past due are placed on non-accrual status unless there is sufficient collateral to assure collectability of principal and interest. Upon the designation of non-accrual status, all unpaid accrued interest is reserved against through current income. Interest income on non-performing loans is generally recognized on a cash basis. The following table presents performing and non-performing loans as of December 31, 2012 (in thousands):

	Number of	
	Loans	Amount
Performing Loans	24	\$ 50,802
Non-Performing Loans	4	19,902
Total	28	\$ 70,704

As of December 31, 2012, the Company had four loans aggregating \$19.9 million which were in default for nonpayment of interest only or principal and interest. The Company has placed all of these loans on non-accrual status with respect to the recognition of interest income starting from each loan's nonperformance date. Nonperformance dates for these loans range from 7 months to 7 years. The Company assessed each of these four loans and determined that the estimated fair value of the underlying collateral exceeded the respective carrying values as of December 31, 2012.

During 2010, the Company recognized an impairment charge of \$0.7 million, against the carrying value, including accrued interest of a mortgage receivable that was in default. This impairment charge reflects a decrease in the estimated fair value of the underlying collateral. The remaining balance on this mortgage receivable as of December 31, 2010, was \$1.4 million. This impairment charge is reflected in Impairments charges on the Company's Consolidated Statements of Income.

12. Marketable Securities:

The amortized cost and estimated fair values of securities available-for-sale and held-to-maturity at December 31, 2012 and 2011, are as follows (in thousands):

	December 31, 2012							
		Amortized Cost	Į	Gross Unrealized Gains		Gross Unrealized Losses		Estimated Fair Value
Available-for-sale:								
Equity securities	\$	14,205	\$	19,223	\$	-	\$	33,428

Total marketable securities	\$	17,318	\$	19,507	\$	-	\$	36,825
				Decembe	r 3	1, 2011		
		Amortized Cost		Gross Unrealized	r 3	Gross Unrealized Losses		Estimated Fair Value
Available-for-sale:				Gross	r 3	Gross Unrealized		Estimated Fair Value
Equity securities				Gross Unrealized	_	Gross Unrealized Losses	\$	
		Cost		Gross Unrealized Gains	_	Gross Unrealized Losses	\$	Fair Value

During February 2008, the Company acquired an aggregate \$190 million Australian denominated ("AUD") (USD \$170.1 million) convertible notes (the "Valad notes") issued by a subsidiary of Valad Property Group ("Valad"), a publicly traded Australian company listed on the Australian stock exchange that is a diversified, property fund manager, investor, developer and property investment banker with property investments in Australia, Europe and Asia. The notes were guaranteed by Valad and bore interest at 9.5% payable semi-annually in arrears. The notes were repayable after five years with an option for Valad to extend up to 18 months, subject to certain interest rate and conversion price resets. The notes were convertible any time into publicly traded Valad securities at a price of AUD \$26.60. During 2010, the Company acquired an additional AUD \$10 million (USD \$9.3 million) of Valad notes. Additionally, during 2010, Valad made a principal payment of AUD \$8.0 million (USD \$7.9 million).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

During 2011, the Company received an additional principal payment of \$7.0 million AUD (USD \$6.9 million) and the Company sold its remaining Valad notes for a sales price of AUD \$165.0 million (USD \$169.1 million), plus unpaid accrued interest. In connection with the anticipation of this sale, the Company entered into a foreign currency forward contract to sell AUD \$165.0 million and buy USD \$169.1 million in efforts to mitigate the foreign exchange risk resulting from fluctuations in currency exchange rates. The Company designated the AUD-USD foreign exchange risk as the risk being hedged.

The Company recorded an adjustment to the carrying value of the Valad notes, including amounts allocated to the conversion option described below, of USD \$0.9 million based upon the agreed sales price. This adjustment is recorded in Other expense, net on the Company's Consolidated Statements of Income. At the completion of the sale, the Company received AUD \$170.2 million (USD \$174.7 million) representing the principal and unpaid interest and settled its foreign currency forward contract. Upon settling the foreign currency forward contract, the Company recorded a reclass of \$10.0 million from Accumulated other comprehensive income to Other expense, net, which was fully offset by a foreign currency gain on sale of the Valad notes. As a result there was no net gain or loss recognized.

In accordance with the FASB's Derivative and Hedging guidance, the Company bifurcated the conversion option within the Valad notes and separately accounted for this option as an embedded derivative. The original host instrument was classified as an available-for-sale security at fair value and was included in Marketable securities on the Company's Consolidated Balance Sheets with changes in the fair value recorded through Stockholders' equity as a component of other comprehensive income. At December 31, 2010, the Company had an unrealized gain, including foreign currency adjustments, associated with these notes of \$6.0 million. The embedded derivative was recorded at fair value and was included in Other assets on the Company's Consolidated Balance Sheets with changes in fair value recognized in the Company's Consolidated Statements of Income. The value attributed to the embedded convertible option was AUD \$10.0 million, (USD \$10.2 million). As a result of the fair value remeasurement of this derivative instrument during 2010 there was an AUD \$0.2 million (USD \$0.2 million) unrealized decrease in the fair value of the convertible option. This unrealized increase/decrease is included in Other expense, net on the Company's Consolidated Statements of Income.

During 2011, and 2010, the Company recorded impairment charges of \$0.6 million, and \$4.6 million, respectively, before income tax benefits of \$0.4 million, and \$0 million, respectively, due to the decline in value of certain marketable securities and other investments that were deemed to be other-than-temporary. These impairments were a result of the deterioration of the equity markets for these securities during their respective years and the uncertainty of their future recoverability. Market value for the equity securities represents the closing price of each security as it appears on their respective stock exchange at the end of the period.

During 2012, 2011 and 2010, the Company received \$0.1 million, \$22.7 million and \$23.2 million in proceeds from the sale/redemption of certain marketable securities, respectively. In connection with these transactions, during 2012. 2011 and 2010 the Company recognized (i) gross realizable gains of \$0.0 million, \$0.8 million and \$2.6 million, respectively, (ii) foreign currency gains of \$0.0 million, \$1.6 million and \$0.0 million, respectively, and (iii) gross realizable losses of \$0.0 million, \$0.3 million and \$1.9 million, respectively.

As of December 31, 2012, the contractual maturities of Other debt securities classified as held-to-maturity are as follows: after one year through five years, \$0.1 million; and after five years through 10 years, \$3.0 million. Actual maturities may differ from contractual maturities as issuers may have the right to prepay debt obligations with or without prepayment penalties.

Maturity

Maturity

13. Notes Payable:

As of December 31, 2012 and 2011 the Company's Notes Payable consisted of the following (dollars in millions):

	Balance at 12/31/12	Interest Rate Range (Low)	Interest Rate Range (High)	Date Range (Low)	Date Range (High)
Senior Unsecured Notes (c)	\$ 965.9	4.70%	6.88%	Jan-2013	Oct-2019

- (a) Interest rate is equal to LIBOR plus 1.05%
- (b) Interest rate is equal to LIBOR plus 3.50%
- (c) During January 2013, the Company repaid the \$100.0 million outstanding balance on its 6.125% senior unsecured note, which matured in January 2013.

Senior Unsecured Notes/Medium Term Notes -

During September 2009, the Company entered into a fifth supplemental indenture, under the indenture governing its Medium Term Notes ("MTN") and Senior Notes, which included the financial covenants for future offerings under the indenture that were removed by the fourth supplemental indenture.

In accordance with the terms of the Indenture, as amended, pursuant to which the Company's Senior Unsecured Notes, except for \$300.0 million issued during April 2007 under the fourth supplemental indenture, have been issued, the Company is subject to maintaining (a) certain maximum leverage ratios on both unsecured senior corporate and secured debt, minimum debt service coverage ratios and minimum equity levels, (b) certain debt service ratios, (c) certain asset to debt ratios and (d) restricted from paying dividends in amounts that exceed by more than \$26.0 million the funds from operations, as defined, generated through the end of the calendar quarter most recently completed prior to the declaration of such dividend; however, this dividend limitation does not apply to any distributions necessary to maintain the Company's qualification as a REIT providing the Company is in compliance with its total leverage limitations.

The Company had a MTN program pursuant to which it offered for sale its senior unsecured debt for any general corporate purposes, including (i) funding specific liquidity requirements in its business, including property acquisitions, development and redevelopment costs and (ii) managing the Company's debt maturities.

Interest on these fixed-rate senior unsecured notes is payable semi-annually in arrears. Proceeds from these issuances were primarily used for the acquisition of neighborhood and community shopping centers, the expansion and improvement of properties in the Company's portfolio and the repayment of certain debt obligations of the Company.

During the years ended December 31, 2012 and 2011, the Company repaid the following notes (dollars in millions):

Туре	Date Issued	Amount Repaid	Interest Rate	Maturity Date	Date Paid
MTN	July-02	\$ 17.0	5.98%	July-12	July-12
Senior Note	Nov-02	\$ 198.9	6.00%	Nov-12	Nov-12
MTN	Aug-04	\$ 88.0	4.82%	Aug-11	Aug-11

Credit Facility -

The Company has a \$1.75 billion unsecured revolving credit facility (the "Credit Facility") with a group of banks, which is scheduled to expire in October 2015 and has a one-year extension option. This credit facility, provides funds to finance general corporate purposes, including (i) property acquisitions, (ii) investments in the Company's institutional management programs, (iii) development and redevelopment costs and (iv) any short-term working capital requirements. Interest on borrowings under the Credit Facility accrues at LIBOR plus 1.05% and fluctuates in accordance with changes in the Company's senior debt ratings and has a facility fee of 0.20% per annum. As part of this Credit Facility, the Company has a competitive bid option whereby the Company could auction up to \$875.0 million of its requested borrowings to the bank group. This competitive bid option provides the Company the opportunity to obtain pricing below the currently stated spread. In addition, as part of the Credit Facility, the Company has a \$500.0 million sublimit which provides it the opportunity to borrow in alternative currencies such as Canadian Dollars, British Pounds Sterling, Japanese Yen or Euros. Pursuant to the terms of the Credit Facility, the Company, among other things, is subject to covenants requiring the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

maintenance of (i) maximum leverage ratios on both unsecured and secured debt and (ii) minimum interest and fixed coverage ratios. As of December 31, 2012, the Credit Facility had a balance of \$249.9 million outstanding and \$27.3 million appropriated for letters of credit.

U.S. Term Loan -

During 2012, the Company obtained a \$400.0 million unsecured term loan with a consortium of banks, which accrues interest at LIBOR plus 105 basis points. The term loan is scheduled to mature in April 2014, with three additional one-year options to extend the maturity date, at the Company's discretion, to April 17, 2017. Proceeds from this term loan were used for general corporate purposes including the repayment of maturing debt amounts. Pursuant to the terms of the Credit Agreement, the Company, among other things is subject to covenants requiring the maintenance of (i) maximum indebtedness ratios and (ii) minimum interest and fixed charge coverage ratios.

Mexican Term Loan -

During March 2008, the Company obtained a Mexican peso ("MXN") 1.0 billion term loan, which bears interest at a rate of 8.58%, subject to change in accordance with the Company's senior debt ratings, and is scheduled to mature in March 2013. The Company utilized proceeds from this term loan to fully repay the outstanding balance of a MXN 500.0 million unsecured revolving credit facility, which was terminated by the Company. Remaining proceeds from this term loan were used for funding MXN denominated investments. As of December 31, 2012, the outstanding balance on this term loan was MXN 1.0 billion (USD \$76.9 million). The Mexican term loan covenants are similar to the Credit Facility covenants described above. During December 2012, the lender agreed to extend this term loan for an additional five years at an interest rate of TIIE (Equilibrium Interbank Interest Rate) plus 1.35%, which will be effective subsequent to the scheduled maturity in March 2013. The Company has the option to swap this rate to a fixed rate at any time during the term of the loan.

The weighted-average interest rate for all unsecured notes payable is 4.72% as of December 31, 2012. The scheduled maturities of all unsecured notes payable as of December 31, 2012, were as follows (in millions): 2013, \$555.4; 2014, \$694.8; 2015, \$600.0; 2016, \$300.0; 2017, \$290.9 and thereafter, \$751.0.

14. Mortgages Payable:

During 2012, the Company (i) assumed \$185.3 million of individual non-recourse mortgage debt relating to the acquisition of seven operating properties, including an increase of \$6.1 million associated with fair value debt adjustments, (ii) paid off \$284.8 million of mortgage debt that encumbered 19 properties and (iii) assigned five mortgages aggregating \$17.1 million in connection with property dispositions.

During 2011, the Company assumed \$124.8 million of individual non-recourse mortgage debt relating to the acquisition of 12 operating properties, including an increase of \$6.9 million associated with fair value debt adjustments and paid off \$62.5 million of mortgage debt that encumbered 10 operating properties.

Mortgages payable, collateralized by certain shopping center properties and related tenants' leases, are generally due in monthly installments of principal and/or interest, which mature at various dates through 2035. Interest rates range from LIBOR (0.17% as of December 31, 2012) to 9.75% (weighted-average interest rate of 6.18% as of December 31, 2012). The scheduled principal payments (excluding any extension options available to the Company) of all mortgages payable, excluding unamortized fair value debt adjustments of \$10.3 million, as of December 31, 2012, were as follows (in millions): 2013, \$104.3; 2014, \$206.1; 2015, \$131.3; 2016, \$253.1; 2017, \$178.0 and thereafter, \$120.1.

15. Noncontrolling Interests:

Noncontrolling interests represent the portion of equity that the Company does not own in those entities it consolidates as a result of having a controlling interest or determined that the Company was the primary beneficiary of a VIE in accordance with the provisions of the FASB's Consolidation guidance.

The Company accounts and reports for noncontrolling interests in accordance with the Consolidation guidance and the Distinguishing Liabilities from Equity guidance issued by the FASB. The Company identifies its noncontrolling interests separately within the equity section on the Company's Consolidated Balance Sheets. Units that are determined to be mandatorily redeemable are classified as Redeemable noncontrolling interests and presented in the mezzanine section between Total liabilities and Stockholder's equity on the Company's Consolidated Balance Sheets. The amounts of consolidated net income attributable to the Company and to the noncontrolling interests are presented separately on the Company's Consolidated Statements of Income.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

The Company owns seven shopping center properties located throughout Puerto Rico. These properties were acquired partially through the issuance of \$158.6 million of non-convertible units and \$45.8 million of convertible units. Noncontrolling interests related to these acquisitions totaled \$233.0 million of units, including premiums of \$13.5 million and a fair market value adjustment of \$15.1 million (collectively, the "Units"). The Company is restricted from disposing of these assets, other than through a tax free transaction until November 2015. The Units and related annual cash distribution rates consisted of the following:

	Number of	Par Value	
Туре	Units Issued	Per Unit	Return Per Annum
Preferred A Units (I)	81,800,000	\$ 1.00	7.0%
Class A Preferred Units (I)	2,000	\$ 10,000	LIBOR plus 2.0%
Class B-1 Preferred Units (2)	2,627	\$ 10,000	7.0%
Class B-2 Preferred Units (1)	5,673	\$ 10,000	7.0%
Class C DownReit Units (2)	640,001	\$ 30.52	Equal to the Company's
			common stock dividend

- (1) These units are redeemable for cash by the holder or callable by the Company and are included in Redeemable noncontrolling interests on the Company's Consolidated Balance Sheets.
- (2) These units are redeemable for cash by the holder or at the Company's option, shares of the Company's common stock, based upon the conversion calculation as defined in the agreement. These units are included in Noncontrolling interests on the Company's Consolidated Balance Sheets.

The following Units have been redeemed for cash as of December 31, 2012:

Туре	Units Redeemed	F	Par Value Redeemed in millions)
Preferred A Units	2,200,000	\$	2.2
Class A Preferred Units	2,000	\$	20.0
Class B-I Preferred Units	2,438	\$	24.4
Class B-2 Preferred Units	5,576	\$	55.8
Class C DownReit Units	61,804	\$	1.9

Noncontrolling interest relating to the remaining units was \$110.8 million and \$110.5 million as of December 31, 2012 and 2011, respectively.

The Company owns two shopping center properties located in Bay Shore, NY and Centereach, NY. Included in Noncontrolling interests was \$41.6 million, including a discount of \$0.3 million and a fair market value adjustment of \$3.8 million, in redeemable units, issued by the Company in connection with these transactions. The properties were acquired through the issuance of \$24.2 million of these units, which are redeemable at the option of the holder; \$14.0 million of fixed rate units and the assumption of \$23.4 million of non-recourse debt. These units and related annual cash distribution rates consist of the following:

Туре	Number of Units Issued	Р	ar Value Per Unit	Return Per Annum		
Class A Units (1)	13,963	\$	1,000	5.0%		
Class B Units (2)	647,758	\$	37.24	Equal to the Company's		
				common stock dividend		

- (1) These units are redeemable for cash by the holder or callable by the Company any time after April 3, 2016 and are included in Redeemable noncontrolling interests on the Company's Consolidated Balance Sheets.
- (2) These units are redeemable for cash by the holder or at the Company's option, shares of the Company's common stock at a ratio of 1:1 and are callable by the Company any time after April 3, 2026. These units are included in Noncontrolling interests on the Company's Consolidated Balance Sheets.

During 2012, all 13,963 Class A Units were redeemed by the holder in cash. Additionally, during 2007, 30,000 units, or \$1.1 million par value, of the Class B Units were redeemed by the holder in cash at the option of the Company. As of December 31, 2012 and 2011, noncontrolling interest relating to the units was \$26.4 million and \$40.4 million, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Noncontrolling interests also includes 138,015 convertible units issued during 2006, by the Company, which were valued at \$5.3 million, including a fair market value adjustment of \$0.3 million, related to an interest acquired in an office building located in Albany, NY. These units are redeemable at the option of the holder after one year for cash or at the option of the Company for the Company's common stock at a ratio of 1:1. The holder is entitled to a distribution equal to the dividend rate of the Company's common stock. The Company is restricted from disposing of these assets, other than through a tax free transaction, until January 2017.

The following table presents the change in the redemption value of the Redeemable noncontrolling interests for the years ended December 31, 2012 and December 31, 2011 (in thousands):

	2	2012	2011
Balance at January I,	\$	95,074	\$ 95,060
Unit redemptions		(13,998)	-
Fair market value amortization		-	14
Balance at December 31,	\$	81,076	\$ 95,074

16. Fair Value Disclosure of Financial Instruments:

All financial instruments of the Company are reflected in the accompanying Consolidated Balance Sheets at amounts which, in management's estimation based upon an interpretation of available market information and valuation methodologies, reasonably approximate their fair values, except those listed below, for which fair values are reflected. The valuation method used to estimate fair value for fixed-rate and variable-rate debt and noncontrolling interests relating to mandatorily redeemable noncontrolling interests associated with finite-lived subsidiaries of the Company is based on discounted cash flow analyses, with assumptions that include credit spreads, loan amounts and debt maturities. The fair values for marketable securities are based on published or securities dealers' estimated market values. Such fair value estimates are not necessarily indicative of the amounts that would be realized upon disposition.

As a basis for considering market participant assumptions in fair value measurements, the FASB's Fair Value Measurements and Disclosures guidance establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels I and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

The following are financial instruments for which the Company's estimate of fair value differs from the carrying amounts (in thousands):

			Decem	ber	31,		
	20	12			20	П	
	Carrying Amounts	_	Estimated Fair Value		Carrying Amounts		Estimated Fair Value
Marketable Securities (I)	\$ 36,541	\$	36,825	\$	33,540	\$	33,908
Notes Payable (2)	\$ 3,192,127	\$	3,408,632	\$	2,983,886	\$	3,136,728
Mortgages Payable (3)	\$ 1,003,190	\$	1,068,616	\$	1,085,371	\$	1,166,116
Construction Loans Payable (3)	\$ _	\$	-	\$	45,128	\$	49,345
Mandatorily Redeemable Noncontrolling Interests (termination dates ranging from 2019 – 2027) (4)	\$ 	\$		\$	2,654	\$	5,044

- (1) As of December 31, 2012, \$33.4 million of these assets' estimated fair value were classified within Level 1 of the fair value hierarchy and the remaining \$3.4 million were classified within Level 3 of the fair value hierarchy.
- (2) The Company determined that its valuation of these Notes payable was classified within Level 2 of the fair value hierarchy.
- (3) The Company determined that its valuation of these liabilities was classified within Level 3 of the fair value hierarchy.
- (4) The Company sold its investment in the consolidated joint ventures that included mandatorily redeemable noncontrolling interests during 2012.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

The Company has certain financial instruments that must be measured under the FASB's Fair Value Measurements and Disclosures guidance, including: available for sale securities, convertible notes and derivatives. The Company currently does not have non-financial assets and non-financial liabilities that are required to be measured at fair value on a recurring basis.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Available for sale securities are measured at fair value using quoted market prices and are classified within Level I of the valuation hierarchy.

The Company from time to time has used interest rate swaps to manage its interest rate risk. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. Based on these inputs, the Company has determined that interest rate swap valuations are classified within Level 2 of the fair value hierarchy. The Company did not have any interest rate swaps as of December 31, 2012.

To comply with the FASB's Fair Value Measurements and Disclosures guidance, the Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. The credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of December 31, 2012, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives.

The table below presents the Company's assets and liabilities measured at fair value on a recurring basis as of December 31, 2012 and 2011, aggregated by the level in the fair value hierarchy within which those measurements fall.

Assets measured at fair value on a recurring basis at December 31, 2012 and 2011 (in thousands):

	Balance a December 31		Level I	Level 2	 Level 3	
Assets: Marketable equity securities	\$	33,428	\$ 33,428	\$ -	\$	-
	Balance a December 3 l		Level I	Level 2	Level 3	
Assets: Marketable equity securities Liabilities:	\$	30,462	\$ 30,462	\$ -	\$	_

Assets and liabilities measured at fair value on a non-recurring basis at December 31, 2012 and 2011 are as follows (in thousands):

Λ	Balance at December 31, 2012			Level I			Level 2	Level 3		
Assets: Real estate	\$	52,505	\$		-	\$	-	\$	52,505	
	Balance December 3			Level I			Level 2		Level 3	
Assets:		,								
Real estate Other investments	\$ \$	5,289 9,041	\$ \$		-	\$ \$	- 9,041	\$ \$	5,289 -	

The Company's estimated fair values for the year ended December 31, 2012, relating to the real estate assets measured on a non-recurring basis, which were non-retail assets, were based upon estimated sales prices from third party offers and comparable sales values ranging from \$1.1 million to \$42.0 million. The Company does not have access to certain unobservable inputs used by these

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

third parties to determine these estimated fair values (see footnote 6 for additional discussion related to these assets). Certain assets in 2011 were valued through the usage of discounted cash flow models that included all estimated cash inflows and outflows over a specified holding period and where applicable, any estimated debt premiums. These cash flows were comprised of unobservable inputs which included contractual rental revenues and forecasted rental revenues and expenses based upon market conditions and expectations for growth. Capitalization rates and discount rates utilized in these models were based upon observable rates that the Company believed to be within a reasonable range of current market rates for the respective properties. Based on these inputs, the Company determined that its valuation in these investments was classified within Level 3 of the fair value hierarchy.

17. Preferred Stock, Common Stock and Convertible Unit Transactions –

Preferred Stock -

The Company's outstanding Preferred Stock is detailed below (in thousands, except share information and par values):

- (1) The net proceeds received from this offering were used to repay \$150.0 million in mortgages payable and for general corporate purposes.
- (2) The net proceeds received from this offering were used for general corporate purposes, including the reduction of borrowings outstanding under the Company's revolving credit facility and the redemption of shares of the Company's preferred stock.
- (3) The net proceeds received from this offering were used for the redemption of all the outstanding depositary shares representing the Company's Class F preferred stock, which redemption occurred on August 15, 2012, as discussed below, with the remaining proceeds used towards the redemption of outstanding depositary shares representing the Company's Class G preferred stock, which redemption occurred on October 10, 2012, as discussed below, and general corporate purposes.
- (4) The net proceeds received from this offering were used for general corporate purposes, including funding towards the repayment of maturing Senior Unsecured Notes.

KIMCO REALTY CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

The following Preferred Stock series were redeemed during the year ended December 31, 2012:

		Depositary	Redemption	Offering/	Optional	Actual
Series of		Shares	Amount	Redemption	Redemption	Redemption
Preferred Stock	Date Issued	Issued	(in millions)	Price	Date	Date
Series F (1)	6/5/2003	7,000,000	\$ 175.0	\$ 25.00	6/5/2008	8/15/2012
Series G (2)	10/10/2007	18,400,000	\$ 460.0	\$ 25.00	10/10/2012	10/10/2012

- (1) In connection with this redemption the Company recorded a non-cash charge of \$6.2 million resulting from the difference between the redemption amount and the carrying amount of the Class F Preferred Stock on the Company's Consolidated Balance Sheets in accordance with the FASB's guidance on Distinguishing Liabilities from Equity. The \$6.2 million was subtracted from net income to arrive at net income available to common shareholders and is used in the calculation of earnings per share for the year ended December 31, 2012.
- (2) In connection with this redemption the Company recorded a non-cash charge of \$15.5 million resulting from the difference between the redemption amount and the carrying amount of the Class G Preferred Stock on the Company's Consolidated Balance Sheets in accordance with the FASB's guidance on Distinguishing Liabilities from Equity. The \$15.5 million was subtracted from net income to arrive at net income available to common shareholders and is used in the calculation of earnings per share for the year ended December 31, 2012.

The Company's Preferred Stock Depositary Shares for all series are not convertible or exchangeable for any other property or securities of the Company.

Voting Rights - The Class K Preferred Stock, Class J Preferred Stock, Class I Preferred Stock and Class H Preferred Stock rank pari passu as to voting rights, priority for receiving dividends and liquidation preference as set forth below.

As to any matter on which the Class H Preferred Stock may vote, including any actions by written consent, each share of the Class H Preferred Stock shall be entitled to 100 votes, each of which 100 votes may be directed separately by the holder thereof. With respect to each share of Class H Preferred Stock, the holder thereof may designate up to 100 proxies, with each such proxy having the right to vote a whole number of votes (totaling 100 votes per share of Class H Preferred Stock). As a result, each Class H Depositary Share is entitled to one vote.

As to any matter on which the Class I, J, or K Preferred Stock may vote, including any actions by written consent, each share of the Class I, J or K Preferred Stock shall be entitled to 1,000 votes, each of which 1,000 votes may be directed separately by the holder thereof. With respect to each share of Class I, J or K Preferred Stock, the holder thereof may designate up to 1,000 proxies, with each such proxy having the right to vote a whole number of votes (totaling 1,000 votes per share of Class I, J or K Preferred Stock). As a result, each Class I, J or K Depositary Share is entitled to one vote.

Liquidation Rights -

In the event of any liquidation, dissolution or winding up of the affairs of the Company, preferred stock holders are entitled to be paid, out of the assets of the Company legally available for distribution to its stockholders, a liquidation preference of \$2,500.00 Class H Preferred Stock per share, \$25,000.00 Class J Preferred Stock per share and \$25,000.00 Class K Preferred Stock per share (\$25.00 per each Class H, Class J, Class J and Class K Depositary Share), plus an amount equal to any accrued and unpaid dividends to the date of payment, before any distribution of assets is made to holders of the Company's common stock or any other capital stock that ranks junior to the preferred stock as to liquidation rights.

Common Stock -

The Company, from time to time, repurchases shares of its common stock in amounts that offset new issuances of common shares in connection with the exercise of stock options or the issuance of restricted stock awards. These share repurchases may occur in open market purchases, privately negotiated transactions or otherwise subject to prevailing market conditions, the Company's liquidity requirements, contractual restrictions and other factors. During the year ended December 31, 2012, the Company repurchased 1,635,823 shares of the Company's common stock for \$30.9 million, of which \$22.6 million was provided to the Company from stock options exercised.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Convertible Units -

The Company has varies types of convertible units that were issued in connection with the purchase of operating properties (see footnote 15). The amount of consideration that would be paid to unaffiliated holders of units issued from the Company's consolidated subsidiaries which are not mandatorily redeemable, as if the termination of these consolidated subsidiaries occurred on December 31, 2012, is \$28.7 million. The Company has the option to settle such redemption in cash or shares of the Company's common stock. If the Company exercised its right to settle in Common Stock, the unit holders would receive 1.5 million shares of Common Stock.

18. Supplemental Schedule of Non-Cash Investing/Financing Activities:

The following schedule summarizes the non-cash investing and financing activities of the Company for the years ended December 31, 2012, 2011 and 2010 (in thousands):

	2012	2011	2010
Acquisition of real estate interests by assumption of mortgage debt	\$ 179,198	\$ 117,912	\$ 670
Disposition of real estate interest by assignment of debt	\$ 17,083	\$ -	\$ 81,000
Issuance of common stock	\$ 18,115	\$ 4,940	\$ 5,070
Surrender of common stock	\$ (2,073)	\$ (596)	\$ (840)
Disposition of real estate through the issuance of loan receivables	\$ 13,475	\$ 14,297	\$ 975
Investment in real estate joint venture by contribution of properties			
and assignment of debt	\$ -	\$ -	\$ 149,034
Declaration of dividends paid in succeeding period	\$ 96,518	\$ 92,159	\$ 89,037
Consolidation of Joint Ventures:			
Increase in real estate and other assets	\$ -	\$ -	\$ 174,327
Increase in mortgage payable	\$ -	\$ -	\$ 144,803

19. Transactions with Related Parties:

The Company provides management services for shopping centers owned principally by affiliated entities and various real estate joint ventures in which certain stockholders of the Company have economic interests. Such services are performed pursuant to management agreements which provide for fees based upon a percentage of gross revenues from the properties and other direct costs incurred in connection with management of the centers. Reference is made to Footnotes 4, 5, 8 and 20 for additional information regarding transactions with related parties.

Ripco Real Estate Corp. ("Ripco") business activities include serving as a leasing agent and representative for national and regional retailers including Target, Best Buy, Kohls and many others, providing real estate brokerage services and principal real estate investing. Mr. Todd Cooper, an officer and 50% shareholder of Ripco, is a son of Mr. Milton Cooper, Executive Chairman of the Board of Directors of the Company. During 2012, 2011 and 2010, the Company paid brokerage commissions of \$0.8 million, \$0.5 million and \$0.7 million, respectively, to Ripco for services rendered primarily as leasing agent for various national tenants in shopping center properties owned by the Company. The Company believes that the brokerage commissions paid were at or below the customary rates for such leasing services.

Additionally, the Company held joint venture investments with Ripco. As of December 31, 2010, the Company had two operating properties and one land parcel, through joint ventures, in which the Company and Ripco each held 50% noncontrolling interests. The Company accounts for its investment in these joint ventures under the equity method of accounting. During 2011, the joint ventures sold one land parcel and one operating property to third parties, in separate transactions, which were encumbered by loans aggregating \$14.2 million. As a result of these transactions the loans were fully repaid and the Company was relieved of the corresponding debt guarantees on these two loans. During 2012, the Company acquired the remaining 50% noncontrolling interest held by Ripco in a joint venture investment. As a result of this transaction, the Company now owns a 100% controlling interest and consolidates this investment.

As of December 31, 2012, the remaining joint venture has a \$2.8 million loan payable which is scheduled to mature in 2013 and bears interest at rate of LIBOR plus 1.05%. This loan is jointly and severally guaranteed by the Company and the joint venture partner.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

20. Commitments and Contingencies:

Operations -

The Company and its subsidiaries are primarily engaged in the operation of shopping centers that are either owned or held under long-term leases that expire at various dates through 2095. The Company and its subsidiaries, in turn, lease premises in these centers to tenants pursuant to lease agreements which provide for terms ranging generally from 5 to 25 years and for annual minimum rentals plus incremental rents based on operating expense levels and tenants' sales volumes. Annual minimum rentals plus incremental rents based on operating expense levels comprised 97% of total revenues from rental property for each of the three years ended December 31, 2012, 2011 and 2010.

The future minimum revenues from rental property under the terms of all non-cancelable tenant leases, assuming no new or renegotiated leases are executed for such premises, for future years are as follows (in millions): 2013, \$676.0; 2014, \$614.0; 2015, \$545.4; 2016, \$465.4; 2017, \$380.3 and thereafter; \$1,815.1.

Base rental revenues from rental property are recognized on a straight-line basis over the terms of the related leases. The difference between the amount of rental income contracted through leases and rental income recognized on a straight-line basis for the years ended December 31, 2012, 2011 and 2010 is \$9.5 million, \$9.8 million and \$12.0 million, respectively.

Minimum rental payments under the terms of all non-cancelable operating leases pertaining to the Company's shopping center portfolio for future years are as follows (in millions): 2013, \$12.6; 2014, \$12.2; 2015, \$11.1; 2016, \$10.3; 2017, \$9.9 and thereafter, \$172.6.

Captive Insurance -

In October 2007, the Company formed a wholly-owned captive insurance company, Kimco Insurance Company, Inc., ("KIC"), which provides general liability insurance coverage for all losses below the deductible under our third-party policy. The Company entered into the Insurance Captive as part of its overall risk management program and to stabilize its insurance costs, manage exposure and recoup expenses through the functions of the captive program. The Company capitalized KIC in accordance with the applicable regulatory requirements. KIC established annual premiums based on projections derived from the past loss experience of the Company's properties. KIC has engaged an independent third party to perform an actuarial estimate of future projected claims, related deductibles and projected expenses necessary to fund associated risk management programs. Premiums paid to KIC may be adjusted based on this estimate, like premiums paid to third-party insurance companies, premiums paid to KIC may be reimbursed by tenants pursuant to specific lease terms.

Guarantees -

On a select basis, the Company provides guarantees on interest bearing debt held within real estate joint ventures in which the Company has noncontrolling ownership interests. The Company is often provided with a back-stop guarantee from its partners. The Company had the following outstanding guarantees as of December 31, 2012 (amounts in millions):

Name of Joint	Am	ount of				Maturity, with			
Venture	Gu	arantee	Inter	est r	ate	extensions	Terms	Type of debt	
InTown Suites									
Management, Inc. (1)	\$	145.2	LIBOR	plus	1.15%	2015	25% partner back-stop	Unsecured credit facility	
Hillsborough	\$	2.8	LIBOR	plus	1.05%	2013	Jointly and severally with partner	Promissory note	
Victoriaville	\$	5.1	3	3.92%		2020	Jointly and severally with partner	Promissory note	

(1) During October 2012, a purchase and sale agreement was executed to sell the InTown Suites company and related real estate assets for a gross sales price of \$735 million, including \$617 million of existing debt. The sale is contingent upon satisfactorily completing a due diligence process and other closing conditions, including lender approvals. The Company expects to complete this transaction in the first half of 2013. If the transaction is completed, the Company has agreed to maintain \$145.2 million in preexisting guarantees of outstanding debt to be assumed by the buyer.

The Company evaluated these guarantees in connection with the provisions of the FASB's Guarantees guidance and determined that the impact did not have a material effect on the Company's financial position or results of operations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Letters of Credit -

The Company has issued letters of credit in connection with the completion and repayment guarantees for loans encumbering certain of the Company's redevelopment projects and guaranty of payment related to the Company's insurance program. At December 31, 2012, these letters of credit aggregated \$33.6 million.

Other -

In connection with the construction of its development and redevelopment projects and related infrastructure, certain public agencies require posting of performance and surety bonds to guarantee that the Company's obligations are satisfied. These bonds expire upon the completion of the improvements and infrastructure. As of December 31, 2012, there were \$20.7 million in performance and surety bonds outstanding.

On January 28, 2013, the Company received a subpoena from the Enforcement Division of the SEC in connection with an investigation, In the Matter of Wal-Mart Stores, Inc. (FW-3678), that the SEC Staff is currently conducting with respect to possible violations of the Foreign Corrupt Practices Act. The Company is responding to the subpoena and intends to cooperate fully with the SEC in this matter. The Company has also been notified that the U.S. Department of Justice ("DOJ") is conducting a parallel investigation, and the Company expects that it will cooperate with the DOJ investigation. At this point, we are unable to predict the duration, scope or result of the SEC or DOJ investigation.

The Company is subject to various other legal proceedings and claims that arise in the ordinary course of business. Management believes that the final outcome of such matters will not have a material adverse effect on the financial position, results of operations or liquidity of the Company as of December 31, 2012.

21. Incentive Plans:

The Company maintains two equity participation plans, the Second Amended and Restated 1998 Equity Participation Plan (the "Prior Plan") and the 2010 Equity Participation Plan (the "2010 Plan") (collectively, the "Plans"). The Prior Plan provides for a maximum of 47,000,000 shares of the Company's common stock to be issued for qualified and non-qualified options and restricted stock grants. The 2010 Plan provides for a maximum of 10,000,000 shares of the Company's common stock to be issued for qualified and non-qualified options, restricted stock, performance awards and other awards, plus the number of shares of common stock which are or become available for issuance under the Prior Plan and which are not thereafter issued under the Prior Plan, subject to certain conditions. Unless otherwise determined by the Board of Directors at its sole discretion, options granted under the Plans generally vest ratably over a range of three to five years, expire ten years from the date of grant and are exercisable at the market price on the date of grant. Restricted stock grants generally vest (i) 100% on the fourth or fifth anniversary of the grant, (ii) ratably over three or four years, (iii) over three years at 50% after two years and 50% after the third year or (iv) over ten years at 20% per year commencing after the fifth year. Performance share awards may provide a right to receive shares of restricted stock based on the Company's performance relative to its peers, as defined, or based on other performance criteria as determined by the Board of Directors. In addition, the Plans provide for the granting of certain options and restricted stock to each of the Company's non-employee directors (the "Independent Directors") and permit such Independent Directors to elect to receive deferred stock awards in lieu of directors' fees.

The Company accounts for equity awards in accordance with FASB's Compensation – Stock Compensation guidance which requires that all share based payments to employees, including grants of employee stock options, be recognized in the Statement of Income over the service period based on their fair values.

The fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing formula. The assumption for expected volatility has a significant effect on the grant date fair value. Volatility is determined based on the historical equity of common stock for the most recent historical period equal to the expected term of the options plus an implied volatility measure. The expected term is determined using the simplified method due to the lack of exercise and cancelation history for the current vesting terms. The more significant assumptions underlying the determination of fair values for options granted during 2012, 2011 and 2010 were as follows:

	Year Ended December 31,						
		2012		2011		2010	
Weighted average fair value of options granted	\$	4.52	\$	4.39	\$	3.82	
Weighted average risk-free interest rates		1.04%		2.02%		2.40%	
Weighted average expected option lives (in years)		6.25		6.25		6.25	
Weighted average expected volatility		37.53%		36.82%		37.98%	
Weighted average expected dividend yield		3.94%		3.98%		4.21%	

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Information with respect to stock options under the Plan for the years ended December 31, 2012, 2011, and 2010 are as follows:

	Shares	A Exer	eighted- verage cise Price r Share	Intrins	regate sic Value nillions)
Options outstanding, January 1, 2010	17.560.921	\$	29.69	\$	3.4

Exercised	(1,495,432)	\$	19.84		
Granted	1,522,450	\$	18.78		
Forfeited	(579,613)	\$	28.73		
Options outstanding, December 31, 2012	16,557,997	\$	28.42	\$	14.9
Options exercisable (fully vested)-					
December 31, 2010	11,712,900	\$	29.74	\$	5.8
December 31, 2011	12,459,598	\$	30.77	\$	3.9
December 31, 2012	12,830,255	\$	31.57	\$	7.7

The exercise prices for options outstanding as of December 31, 2012, range from \$11.54 to \$53.14 per share. The Company estimates forfeitures based on historical data. The weighted-average remaining contractual life for options outstanding as of December 31, 2012, was 4.9 years. The weighted-average remaining contractual term of options currently exercisable as of December 31, 2012, was 4.9 years. Options to purchase 8,871,495, 5,776,270 and 5,874,704, shares of the Company's common stock were available for issuance under the Plan at December 31, 2012, 2011 and 2010, respectively. As of December 31, 2012, the Company had 3,727,742 options expected to vest, with a weighted-average exercise price per share of \$17.58 and an aggregate intrinsic value of \$7.2 million.

Cash received from options exercised under the Plan was \$22.6 million, \$6.5 million and \$8.5 million, for the years ended December 31, 2012, 2011 and 2010, respectively. The total intrinsic value of options exercised during 2012, 2011 and 2010 was \$7.0 million, \$1.5 million, and \$2.1 million, respectively.

As of December 31, 2012, 2011 and 2010, the Company had restricted shares outstanding of 1,562,912, 832,726 and 526,728, respectively.

The Company recognized expense associated with its equity awards of \$17.9 million, \$16.9 million and \$14.2 million, for the years ended December 31, 2012, 2011 and 2010, respectively. As of December 31, 2012, the Company had \$31.5 million of total unrecognized compensation cost related to unvested stock compensation granted under the Plans. That cost is expected to be recognized over a weighted average period of 3.8 years.

The Company, from time to time, repurchases shares of its common stock in amounts that offset new issuances of common shares in connection with the exercise of stock options or the issuance of restricted stock awards. These repurchases may occur in open market purchases, privately negotiated transactions or otherwise, subject to prevailing market conditions, the Company's liquidity requirements, contractual restrictions and other factors. During 2012, the Company repurchased 1.6 million shares of the Company's common stock for \$30.9 million, of which \$22.6 million was provided to the Company from options exercised. During 2011, the Company repurchased 333,998 shares of the Company's common stock for \$6.0 million, of which \$4.9 million was provided to the Company from options exercised.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

The Company maintains a 401(k) retirement plan covering substantially all officers and employees, which permits participants to defer up to the maximum allowable amount determined by the Internal Revenue Service of their eligible compensation. This deferred compensation, together with Company matching contributions, which generally equal employee deferrals up to a maximum of 5% of their eligible compensation (capped at \$250,000), is fully vested and funded as of December 31, 2012. The Company's contributions to the plan were \$2.1 million, \$1.9 million, and \$2.1 million for the years ended December 31, 2012, 2011 and 2010, respectively.

The Company recognized severance costs associated with employee terminations during the years ended December 31, 2012, 2011 and 2010 of \$5.4 million, \$1.7 million and \$0.4 million, respectively. The 2012 expense includes \$2.5 million of severance costs related to the departure of an executive officer during January 2012.

22. Income Taxes:

The Company elected to qualify as a REIT in accordance with the Code commencing with its taxable year which began January I, 1992. To qualify as a REIT, the Company must meet several organizational and operational requirements, including a requirement that it currently distribute at least 90% of its adjusted REIT taxable income to its stockholders. Management intends to adhere to these requirements and maintain the Company's REIT status. As a REIT, the Company generally will not be subject to corporate federal income tax, provided that distributions to its stockholders equal at least the amount of its REIT taxable income. If the Company failed to qualify as a REIT in any taxable year, it would be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be permitted to elect REIT status for four subsequent taxable years. Even if the Company qualifies for taxation as a REIT, the Company is subject to certain state and local taxes on its income and property, and federal income and excise taxes on its undistributed taxable income. In addition, taxable income from non-REIT activities managed through taxable REIT subsidiaries is subject to federal, state and local income taxes. The Company is also subject to local taxes on certain Non-U.S. investments.

Reconciliation between GAAP Net Income and Federal Taxable Income:

The following table reconciles GAAP net income to taxable income for the years ended December 31, 2012, 2011 and 2010 (in thousands):

	2012 (Estimated)	2011 (Actual)	2010 (Actual)
GAAP net income attributable to the Company	\$ 266,073	\$ 169,051	\$ 142,868
Less: GAAP net (income)/loss of taxable REIT subsidiaries	(5,249)	(19,572)	13,920
GAAP net income from REIT operations (a)	260,824	149,479	 156,788
Net book depreciation in excess of tax depreciation	32,517	30,603	13,568
Deferred/prepaid/above and below market rents, net	(17,643)	(16,463)	(19,978)
Book/tax differences from non-qualified stock options	1,653	9,879	9,103
Book/tax differences from investments in real estate joint ventures	16,837	52,564	69,581
Book/tax difference on sale of property	(69,961)	1,811	(39,139)
Book adjustment to property carrying values and marketable equity			
securities	9,956	8,721	19,065
Taxable currency exchange (loss)/gain, net	(1,611)	6,502	13,134
Book/tax differences on capitalized costs	2,899	3,228	(12,782)
Dividends from taxable REIT subsidiaries	1,000	15,969	-
Other book/tax differences, net	(845)	1,016	(6,064)
Adjusted REIT taxable income	\$ 235,626	\$ 263,309	\$ 203,276

Certain amounts in the prior periods have been reclassified to conform to the current year presentation, in the table above.

(a) All adjustments to "GAAP net income from REIT operations" are net of amounts attributable to noncontrolling interest and taxable REIT subsidiaries.

KIMCO REALTY CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

Cash Dividends Paid and Dividends Paid Deductions (in thousands):

For the years ended December 31, 2012, 2011 and 2010 cash dividends paid exceeded the dividends paid deduction and amounted to \$382,722, \$353,764, and \$306,964, respectively.

Characterization of Distributions:

Taxable REIT Subsidiaries and Taxable Entities:

The Company is subject to federal, state and local income taxes on income earned from activities conducted through taxable REIT subsidiaries ("TRS"). TRS activities include Kimco Realty Services ("KRS"), a wholly-owned subsidiary of the Company and its subsidiaries, and the consolidated entities of FNC Corporation ("FNC"), and Blue Ridge Real Estate Company/Big Boulder Corporation. The Company is also subject to taxes on its activities in Canada, Mexico, Brazil, Chile, and Peru. Dividends paid to the Company from its subsidiaries and joint ventures in Canada, Mexico and Brazil are generally not subject to withholding taxes under the applicable tax treaty with the United States. Chile and Peru impose a 10% and 4.1% withholding tax, respectively, on dividend distributions. Brazil levies a 0.38% transaction tax on return of capital distributions. During 2012, less than \$0.1 million of withholding and transaction taxes were withheld from distributions related to foreign activities.

Income taxes have been provided for on the asset and liability method as required by the FASB's Income Tax guidance. Under the asset and liability method, deferred income taxes are recognized for the temporary differences between the financial reporting basis and the tax basis of taxable assets and liabilities.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

The Company's pre-tax book income/(loss) and (provision)/benefit for income taxes relating to the Company's TRS and taxable entities which have been consolidated for accounting reporting purposes, for the years ended December 31, 2012, 2011, and 2010, are summarized as follows (in thousands):

Non-U.S. tax/GAAP basis differences	62,548	63,610
Valuation allowance – U.S.	(33,783)	(33,783)
Valuation allowance – Non-U.S	(38,129)	(32,737)
Total deferred tax assets	113,421	122,464
Deferred tax liabilities – U.S	(9,933)	(11,434)
Deferred tax liabilities – Non-U.S.	(13,263)	(16,085)
Net deferred tax assets	\$ 90,225	\$ 94,945

As of December 31, 2012, the Company had net deferred tax assets of \$90.2 million comprised of (i) \$58.7 million relating to the difference between the basis of accounting for federal and state income tax reporting and GAAP reporting for real estate assets, joint ventures, and other investments, net of \$9.9 million of deferred tax liabilities, (ii) \$4.0 million and \$5.7 million for the tax effect of net operating loss carryovers within KRS and FNC, respectively, net of a valuation allowance within FNC of \$33.8 million, (iii) \$6.2 million for losses deferred for federal and state income tax purposes for transactions with related parties, (iv) \$3.8 million for tax credit carryovers, (v) \$0.6 million for capital loss carryovers, and (vi) \$11.2 million of deferred tax assets related to its investments in Canada and Latin America, net of a valuation allowance of \$38.1 million and deferred tax liabilities of \$13.3 million. General business tax credit carryovers of \$2.2 million within KRS expire during taxable years from 2027 through 2031, and alternative minimum tax credit carryovers of \$1.6 million do not expire.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

The major differences between GAAP basis of accounting and the basis of accounting used for federal and state income tax reporting consist of impairment charges recorded for GAAP, but not recognized for tax purposes, depreciation and amortization, rental revenue recognized on the straight line method for GAAP, reserves for doubtful accounts, and the period in which certain gains were recognized for tax purposes, but not yet recognized under GAAP. The Company had foreign net deferred tax assets of \$11.2 million, related to its operations in Canada and Latin America, which consists primarily of differences between the GAAP book basis and the basis of accounting applicable to the jurisdictions in which the Company is subject to tax.

Deferred tax assets and deferred tax liabilities are included in the caption Other assets and Other liabilities on the accompanying Consolidated Balance Sheets at December 31, 2012 and 2011. Operating losses and the valuation allowance are related primarily to the Company's consolidation of its taxable REIT subsidiaries for accounting and reporting purposes. For the year ended December 31, 2011, KRS generated \$12.5 million, of net operating loss carryovers that expire 2031. For the year ended December 31, 2012, KRS produced \$12.1 million of taxable income and utilized \$12.1 million of its \$22.1 million net operating loss carryovers. At December 31, 2012 and 2011, FNC had \$101.3 million and \$106.2 million, respectively, of net operating loss carryovers that expire from 2021 through 2026.

The Company maintained a valuation allowance of \$33.8 million within FNC to reduce the deferred tax asset of \$39.5 million related to net operating loss carryovers to the amount the Company determined is more likely than not realizable. The Company analyzed projected taxable income and the expected utilization of FNC's remaining net operating loss carryovers and determined a partial valuation allowance was appropriate.

The Company's investments in Latin America are made through individual entities which are subject to local taxes. The Company assesses each entity to determine if deferred tax assets are more likely than not realizable. This assessment primarily includes an analysis of cumulative earnings and the determination of future earnings to the extent necessary to fully realize the individual deferred tax asset. Based on this analysis the Company has determined that a full valuation allowance is required for entities which have a three-year cumulative book loss and for which future earnings are not readily determinable. In addition, the Company has determined that no valuation allowance is needed for entities that have three-years of cumulative book income and future earnings are anticipated to be sufficient to more likely than not realize their deferred tax assets. At December 31, 2012, the Company had total deferred tax assets of \$43.8 million relating to its Latin American investments with an aggregate valuation allowance of \$38.1 million.

The Company's deferred tax assets in Canada result principally from depreciation deducted under GAAP that exceed capital cost allowances claimed under Canadian tax rules. The deferred tax asset will naturally reverse upon disposition as tax basis will be greater than the basis of the assets under generally accepted accounting principles.

As of December 31, 2012, the Company determined that no valuation allowance was needed against a \$70.2 million net deferred tax asset within KRS. The Company based its determination on an analysis of both positive evidence and negative evidence using its judgment as to the relative weight of each. The Company believes, when evaluating KRS's deferred tax assets, special consideration should be given to the unique relationship between the Company as a REIT and KRS as a taxable REIT subsidiary. This relationship exists primarily to protect the REIT's qualification under the Code by permitting, within certain limits, the REIT to engage in certain business activities in which the REIT cannot directly participate. As such, the REIT controls which and when investments are held in, or distributed or sold from, KRS. This relationship distinguishes a REIT and taxable REIT subsidiary from an enterprise that operates as a single, consolidated corporate taxpayer. The Company will continue through this structure to operate certain business activities in KRS.

The Company's analysis of KRS's ability to utilize its deferred tax assets includes an estimate of future projected income. To determine future projected income, the Company scheduled KRS's pre-tax book income and taxable income over a twenty year period taking into account its continuing operations ("Core Earnings"). Core Earnings consist of estimated net operating income for properties currently in service and generating rental income. Major lease turnover is not expected in these properties as these properties were generally constructed and leased within the past five years. The Company also included known future events in its projected income forecast. In addition, the Company can employ additional strategies to realize KRS's deferred tax assets including transferring its property management business, sale of certain built-in gain assets, and further reducing intercompany debt.

The Company's projection of KRS's future taxable income over twenty years, utilizing the assumptions above with respect to Core Earnings, net of related expenses, generates \$315.2 million after the reversal of \$87.4 million of deductible temporary differences. Based on this analysis, the Company concluded it is more likely than not that KRS's net deferred tax asset of \$70.2 million will be realized and therefore, no valuation allowance is needed at December 31, 2012. If future income projections do not occur as forecasted or the Company incurs additional impairment losses in excess of the amount Core Earnings can absorb, the Company will reconsider the need for a valuation allowance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, continued

(Benefit)/provision differ from the amount computed by applying the statutory federal income tax rate to taxable income before income taxes were as follows (in thousands):

	2012	2011	2010
Federal benefit at statutory tax rate (35%)	\$ 2,936	\$ 12,627	\$ (8,280)
State and local taxes, net of federal benefit	230	1,683	(728)
Other	(25)	2,195	(730)
Total tax provision/(benefit) – U.S	\$ 3,141	\$ 16,505	\$ (9,738)

Uncertain Tax Positions:

The Company is subject to income tax in certain jurisdictions outside the U.S., principally Canada and Mexico. The statute of limitations on assessment of tax varies from three to seven years depending on the jurisdiction and tax issue. Tax returns filed in each jurisdiction are subject to examination by local tax authorities. The Company is currently under audit by the Canadian Revenue Agency, Mexican Tax Authority and the U.S. Internal Revenue Service ("IRS"). In October 2011, the IRS issued a notice of proposed adjustment, which proposes pursuant to Section 482 of the Code, to disallow a capital loss claimed by KRS on the disposition of common shares of Valad Property Ltd., an Australian publicly listed company. Because the adjustment is being made pursuant to Section 482 of the Code, the IRS may assert a 100 percent "penalty" tax pursuant to Section 857(b)(7) of the Code in lieu of disallowing the capital loss deduction. The notice of proposed adjustment indicates the IRS' intention to impose the 100 percent penalty tax on the Company in the amount of \$40.9 million and disallowing the capital loss claimed by KRS. The Company strongly disagrees with the IRS' position on the application of Section 482 of the Code to the disposition of the shares, the imposition of the 100 percent penalty tax and the simultaneous assertion of the penalty tax and disallowance of the capital loss deduction. The Company received a Notice of Proposed Assessment and filed a written protest and requested an IRS Appeals Office conference, which has yet to be scheduled. The Company intends to vigorously defend its position in this matter and believes it will prevail.

Resolutions of these audits are not expected to have a material effect on the Company's financial statements. The Company does not believe that the total amount of unrecognized tax benefits will significantly increase or decrease within the next 12 months.

The liability for uncertain tax benefits principally consists of estimated foreign, federal and state income tax liabilities for the years ended December 31, 2012 and 2011. The aggregate changes in the balance of unrecognized tax benefits were as follows (in thousands):

	2012	2011
Balance, beginning of year	\$ 16,901	\$ 14,908
Increases for tax positions related to current year	3,079	1,993
Reductions due to lapsed statute of limitations	(3,090)	-
Balance, end of year	\$ 16,890	\$ 16,901

⁽¹⁾ All periods have been adjusted to reflect the impact of operating properties sold during 2012 and 2011 and properties classified as held-for-sale as of December 31, 2012, which are reflected in the caption Discontinued operations on the accompanying Consolidated Statements of Income.

Accounts and notes receivable in the accompanying Consolidated Balance Sheets are net of estimated unrecoverable amounts of \$16.4 million and \$18.1 million of billed accounts receivable at December 31, 2012 and 2011, respectively. Additionally, Accounts and notes receivable in the accompanying Consolidated Balance Sheets are net of estimated unrecoverable amounts of \$22.8 million and \$25.4 million of straight-line rent receivable at December 31, 2012 and 2011, respectively.

24. Pro Forma Financial Information (Unaudited):

As discussed in Notes 5, 6 and 7, the Company and certain of its subsidiaries acquired and disposed of interests in certain operating properties during 2012. The pro forma financial information set forth below is based upon the Company's historical Consolidated Statements of Income for the years ended December 31, 2012 and 2011, adjusted to give effect to these transactions at the beginning of 2011.

The pro forma financial information is presented for informational purposes only and may not be indicative of what actual results of Income would have been had the transactions occurred at the beginning of 2011, nor does it purport to represent the results of Income for future periods. (Amounts presented in millions, except per share figures.)

- (a) I = Interest only; P&I = Principal & Interest
- (b) The instruments actual cash flows are denominated in U.S. dollars, Canadian dollars and Mexican pesos as indicated by the geographic location above
- (c) The aggregate cost for Federal income tax purposes is \$70.7 million
- (d) Comprised of 14 separate loans with original loan amounts ranging between \$0.4 million and \$3.3 million
- (e) Interest rates range from 6.00% to 12.00%
- (f) Maturity dates range from one to 18 years
- (g) Interest rates range from 2.28% to 5.50%
- (h) Maturity dates range from six to 15 years

For a reconcilition of mortgage and other financing receivables from January 1, 2010 to December 31, 2012 see Note 11 of the Notes to Consolidated Financial Statements included in this annual report of Form 10K.

The Company feels it is not practicable to estimate the fair value of each receivable as quoted market prices are not available.

The cost of obtaining an independent valuation on these assets is deemed excessive considering the materiality of the total receivables.

CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002.

- I, David B. Henry, certify that:
- 1. I have reviewed this annual report on Form 10-K of Kimco Realty Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
- (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
- (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
- (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
- (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
- (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
- (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 1350 Certification

Pursuant to 18 U.S.C. § 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, each of the undersigned officers of Kimco Realty Corporation (the "Company") hereby certifies, to such officer's knowledge, that:

- (i) the accompanying Annual Report on Form 10-K of the Company for the year ended December 31, 2012 (the "Report") fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (ii) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Date: February 26, 2013
