REPORT TO SHAREHOLDERS

Dear Shareholder

As the Chairman of the Board of Gold Mountain Limited (GMN) I present the Annual Report for the financial year ended 30 June 2015.

During the year there were several changes in the composition of the Company's Board of Directors. Those changes were driven by the need to re-capitalise the Company and to acquire a material future project which might provide an opportunity to progress the Company for the ultimate benefit of its shareholders.

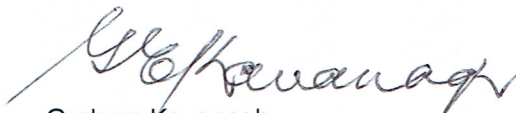

The Company changed its name from Commissioners Gold Limited to Gold Mountain Limited following shareholders' approval at the last AGM. The change is a better reflection of the business strategy the Company is now undertaking.

The major activities during the year were centred on the gold and platinum prospects at Wabag, Papua New Guinea in which the Company is seeking to acquire a major interest.

The Wabag project embraces a number of geological intrusions along the New Guinea Thrust Belt, a strongly mineralised zone. Exploration results continue to be encouraging so as to engender confidence, and that the Wabag Project may deliver a project of significant economic scale and value to the Company.

In relation to its 13.75% interest in Goldsmith Resources SAC (GRSAC), Montan Mining Limited (TSXv:MNY) of Vancouver Canada has entered into a Binding Heads of Agreement for the acquisition of the Peruvian Project of GRSAC for a total consideration of US\$3,300,000 which is yet to reach settlement.

Other activities during the Year involved a review and rationalisation of the Company's various exploration interests and tenements in New South Wales which had been acquired in past years and in respect of which some progress is being made against a difficult economic background.

Graham Kavanagh
Non-Executive Chairman

DIRECTORS' REPORT

Your Directors submit the annual financial report of Gold Mountain Limited for the financial year ended 30 June 2015. In order to comply with the provisions of the Corporations Act, the Directors' report as follows:

KEY MANAGEMENT PERSONNEL DISCLOSURES

DIRECTORS

The names of Directors who held office during or since the end of the year and until the date of this report are as follows.

Directors were in office for this entire period unless otherwise stated.

Graham Kavanagh	(appointed 5 June 2014)
Matthew Morgan	(appointed 3 July 2014)
Sin Pyng "Tony" Teng	(appointed 9 July 2014)
Robert J Waring	(appointed 29 November 2010, resigned 11 July 2014)
Bill Richie Yang	(appointed 2 June 2014, resigned 18 July 2014)
Eric Kam	(appointed 5 June 2014, resigned 18 July 2014)

Names, qualifications, experience and special responsibilities

Graham Kavanagh	Non Executive Director from 5 June 2014, Non Executive Chairman from 9 July 2014
Qualifications	<i>B Comm ASIA</i>
Experience	Mr Kavanagh has an extensive background over more than 25 years in securities and fund management, property investment and development as well as earlier experience in the Department of Mines. He has held senior positions as securities analyst, general manager and director in fund management and property investment.
Interest in shares and Options	None
Directorships held in other listed entities	Enhanced Oil & Gas Recovery Limited (ASX:EOR)
Matthew Morgan	Non Executive Director
Qualifications	<i>BSc (Geology)</i>
Experience	Mr Morgan brings over twenty years of experience in exploration and mine development with companies including, inter alia, BHP Billiton, Rio Tinto and Theiss. Mr Morgan has filled CEO and senior management roles in both listed and unlisted companies. His technical experience has included exploration and mine geology, resource estimation, mine engineering and operational management in minerals such as gold, iron ore and coal. In addition to his experience in Australia, Mr Morgan has had international experience including Malaysia and Mongolia, and has negotiated off-take mineral contracts with several foreign governments
Interest in shares and Options	750,000 ordinary shares
Directorships held in other listed entities	No directorships held of ASX listed entities in the past three years

Sin Pyng “Tony” Teng	Non Executive Director, appointed 9 July 2014
Qualifications	<i>B. Econ. Dip. Fin. Mangt. CPA, FAICD, AFAIM</i>
Experience	Mr Teng has had experience as a management consultant and with merger and acquisitions, corporate restructuring and public company capital raising. He was co-founder and former director of Coalworks Limited that was acquired by Whitehaven in 2012 in a \$200m takeover bid.
Interest in shares and Options	510,000 ordinary shares 7,610,000 ordinary shares (indirect interest)
Directorships held in other listed entities	Icash Payment Systems Limited (ASX:ICP) (resigned 2012)

MANAGEMENT

Eric Kam

Company Secretary (appointed 9 July 2014)

Qualifications: *F CPA, FCMA, MBA, MAICD*

Mr Kam has extensive experience in finance and operations management across diverse businesses and industries in engineering, construction, mining & resources, technology, finance, marketing and distribution. He is involved in corporate change and listing of companies, and is on the board of several other companies. Mr Kam has had extensive experience as Company Secretary in several public listed and unlisted companies.

David Clark

Chief Financial Officer

Qualifications: *CA, CPA, AGIS, B Comm. (UNSW), MBA Executive (AGSM), Registered Tax Agent*

Mr Clark is a Chartered Accountant, Chartered Secretary and Registered Tax Agent of over fifteen (15) years standing and holds a Bachelor of Commerce degree from UNSW and a Master of Business of Administration (Executive) from the Australian Graduate School of Management. Mr Clark is principal of D.W. Clark & Co., Chartered Accountant, an innovative, results-driven chartered accounting practice providing corporate financial, taxation and secretarial services and advice to listed and unlisted companies in the mineral exploration and oil and gas industries.

Dividends

No dividends have been paid or declared since the start of the financial year and/or the Directors do not recommend the payment of a dividend in respect of the financial year.

OPERATIONS REPORT

Principal Activities

The principal activity of the Company during the financial period was to acquire, explore and develop areas that are highly prospective for gold and other precious and base metals and minerals in Australia, Papua New Guinea and elsewhere.

Operating and Financial Review

(i) Operations

Gold Mountain is an exploration company operating in Australia and Papua New Guinea to acquire, explore and develop areas that are highly prospective for gold and other precious and base metals and minerals.

The Company creates value for shareholders, through exploration activities which develop and quantify mineral assets. Once an asset has been developed and quantified within the framework of the JORC guidelines the Company may elect to move to production, to extract and refine ore which is then sold as a primary product.

The Company is actively exploring and developing gold projects in Australia and Papua New Guinea.

Please refer to the Review of Operations for more information on the status of the projects.

(ii) Financial Performance & Financial Position

The Company listed on the Australian Securities Exchange (ASX) on 2 September 2011 as Commissioners Gold Limited. Following shareholder approval at the 2014 AGM, the Company changed its name to Gold Mountain Limited on 16 December 2014. The financial results of the Company for the five (5) years to 30 June 2015 are:

	30 June 2015	30 June 2014	30 June 2013	30 June 2012	30 June 2011
Cash and cash equivalents	759,938	200,070	51,406	513,888	1,343,844
Net assets	2,460,399	1,371,820	567,107	1,333,159	521,815
Revenue & financial income	5,046	38,151	13,293	28,627	12,114
Net loss after tax	(847,685)	(526,993)	(1,559,101)	(935,084)	(298,175)
EBITDA	(659,879)	(468,681)	(742,346)	(598,035)	(180,091)
Share price at 30 June	\$0.039	\$0.023	\$0.034	\$0.044	Not applicable
Loss per share (cents)	(0.57)	(0.69)	(3.58)	(2.80)	(1.62)

a) Financial Performance

The net loss after tax of the Company for the financial year after tax amounted to \$847,685 (2014: Loss \$526,993).

The Company is creating value for shareholders through its exploration expenditure and currently has no revenue generating operations. Revenue and financial income are generated from interest income from funds held on deposit and miscellaneous income. As the average funds held on deposit have increased during the year, accordingly interest income has increased from no interest income when compared to the prior year.

During the year, the operations relating to the Papua New Guinea gold project expanded as the Company undertook a rapid exploration program, accordingly capitalised exploration increased from \$626,376 in the 2014 FY to \$1,210,941 in the 2015 FY. Personnel and external consulting requirements increased, which resulted in an increase of legal and professional costs from \$163,662 in the 2014 FY to \$314,225 in the 2015 FY. The Company also had an increase in

travel expenses from \$2,017 in the 2014 FY to \$24,744 in the 2015 FY arising from the Papua New Guinea gold exploration program and the capital raising and promotion activities undertaken by the Mr Matthew Morgan and Mr Sin Pyng “Tony” Teng. There has been a decrease in public and investor relations expense from \$15,139 in the 2014 FY to \$12,233 in the 2015 FY.

b) Financial Position

The Company’s main activity during the year was the investment of cash of \$759,938 (2014: \$200,070). The carrying value of the exploration assets and the capitalised exploration assets increased 130% to \$1,443,522 (2014: \$626,376).

The 30 June 2015 financial report has been prepared on the going concern basis that contemplates the continuity of normal business activities and the realisation of assets and extinguishment of liabilities in the ordinary course of business. For the year ended 30 June 2015, the Company recorded a loss after tax of \$846,545 (2014: \$526,993) and had a net working capital surplus of \$579,996 (30 June 2014: Surplus of \$170,733).

On 28 May, 2015 the Company announced that an Underwriting Agreement had been entered into with Mr Seah Gak San of Malaysia in respect of 27,733,455 unlisted options which were due to expire on 29 May, 2015. On 4 June 2015, 8,530,555 new fully paid ordinary shares were issued at \$0.04 each upon the exercise of these options to raise \$341,222. Subsequent to the end of the year, on 15 July, 2015, 19,510,000 ordinary shares were issued to sophisticated investors at \$0.04 each pursuant to the Underwriting Agreement to raise \$780,400.

As the Company is an exploration and development entity, ongoing exploration and development activities are reliant on future capital raisings. Based on these facts, the Directors consider the going concern basis of preparation to be appropriate for this financial report.

(iii) Business Strategies and Prospects for future financial years

The Company actively evaluates the prospects of each project as results from each program become available, these results are available via the ASX platform for shareholders information. The Company then assesses the continued exploration expenditure and further asset development. The Company will continue the evaluation of its mineral projects in the future and undertake generative work to identify and acquire new resource projects.

There are specific risks associated with the activities of the Company and general risks which are largely beyond the control of the Company and the Directors. The risks identified below, or other risk factors, may have a material impact on the future financial performance of the Company and the market price of the Company’s shares.

a) Operating Risks

The operations of the Company may be affected by various factors, including failure to locate or identify mineral deposits, failure to achieve predicted grades in exploration and mining, operational and technical difficulties encountered in mining, sovereign risk difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

b) Environmental Risks

The operations and proposed activities of the Company are subject to the laws and regulations of Australia and Papua New Guinea concerning the environment. As with most exploration projects and mining operations, the Company’s activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company’s intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

c) Economic

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company’s exploration, development and production activities, as well as on its ability to fund those activities.

d) Market conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

e) Additional requirements for capital

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income, the Company will require further financing. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programs as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

f) Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Company's shares. Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to invest.

5. Significant Changes in the State of Affairs

On 3 July, 2014, the Company appointed Mr Matthew Morgan as a Non Executive Director.

On 9 July, 2014, the Company appointed Mr Sin Pyng "Tony" Teng as a Non Executive Director. On the same day, Non Executive Director Mr Graham Kavanagh was appointed Chairman by the Board of Directors.

On 11 July, 2014, Non Executive Director Mr Robert Waring resigned as a Director of the Company.

On 18 July, 2014, Non Executive Directors Mr Bill Richie Yang and Eric Kam resigned as Directors of the Company.

On 1 August 2014, the Company completed a successful capital raising of \$390,000 through the issue of 13,000,000 ordinary shares at \$0.03 per share by way of a private placement to professional and sophisticated investors.

On 15 December 2014, the Company completed a successful capital raising of \$300,000 through the issue of 10,000,000 ordinary shares at \$0.03 per share by way of a private placement to professional and sophisticated investors.

On 15 December 2014, the Company announced the results of the Company's Annual General Meeting where shareholders ratified the issue of securities during the period. The Company changed its name from Commissioners Gold Limited to Gold Mountain Limited following the approval of Resolution 4 in the Notice of Annual General Meeting.

On 19 December 2014, 8,000,000 ordinary shares were issued when 8,000,000 convertible notes were converted to ordinary shares at the conversion price of \$0.025 per share following shareholder approval of Resolution 10 of the Annual General Meeting held on 15 December 2014. The Company raised \$200,000 in cash when the convertible notes were first issued in June 2014.

On 6 January 2015, the Company announced it had entered into an agreement to acquire the remaining unearned interest in the Cowarra Gold Project EL5939 from the current tenement holder and joint venture partner Capital Mining

Limited (ASX: CMY). GMN paid a security deposit of \$20,000 and a further \$20,000 is payable as final settlement upon completion of the registration of transfer with the NSW Department of Trade and Investments, Resources and Energy.

On 27 February 2015, the Company completed a successful capital raising of \$843,099 through the issue of 28,103,300 ordinary shares at \$0.03 per share by way of a private placement to professional and sophisticated investors.

On 2 March 2015 and 9 March 2015, the Company released Stage 1 exploration results from the Sak Creek and Crown Ridge prospects respectively, within EL1966, Enga Province, Papua New Guinea.

On 30 April 2015, the Company announced Goldsmith Resources SAC (GRSAC) has entered into a Binding Agreement with Montan Mining Corporation of Vancouver Canada to acquire processing facility in Peru subject to conditions precedent for a total consideration of USD \$3,300,000. GMN holds an 18.75% minority interest in GRSAC.

On 12 May 2015, the Company released Stage 2 exploration results from the Crown Ridge prospects within EL1966, Enga Province, Papua New Guinea.

On 20 May 2015, the Company announced Stage 3 exploration had commenced at the Crown Ridge prospects within EL1966, Enga Province, Papua New Guinea under the supervision of senior geologist, Mr Douglas Smith.

On 27 May 2015, the Company announced it had completed the due diligence enquiries in relation to Viva No. 20 Limited (Viva) and the three (3) exploration licences and the exploration licence application in Papua New Guinea held by Viva. The Company also announced it was now proceeding to finalise completion of its acquisition of shares comprising 20% of the issued capital of Viva.

On 5 June 2015 8,530,555 shares were issued from the exercise of 8,530,555 unlisted options at an exercise price of \$0.04 which were exercised prior to the expiry date of 29 May 2015.

On 12 June 2015, the Company received \$10,000 from Mr Matthew Morgan through the exercise of unlisted options which were converted to 250,000 shares at \$0.04 per share.

Review of Operations

Wabag Gold Project - Papua New Guinea

On 30 June 2014, GMN entered into a binding Heads of Agreement with the shareholders of Viva No.20 Limited (Viva), a company incorporated in PNG, to acquire a 20% interest and an option to acquire a further 50% interest together with all relevant information, data and all geological records held by Viva in relation to three granted exploration licences subject to certain independent due diligence requirements and other conditions precedent.

Under the agreement, Viva granted GMN a five month exclusive dealing period in which to undertake due diligence, satisfy various conditions precedent, and complete a transaction to acquire shares in Viva. GMN has paid to Viva a non-refundable fee of A\$75,000.

In May 2015, the Company completed due diligence requirements and is now proceeding to finalise completion of its acquisition of shares comprising 20% of the issued capital of Viva.

Subsequent to the end of the financial year, on 31 July 2015, the Company entered into a share purchase agreement with Viva and its shareholders to acquire a further 50% interest in Viva through the acquisition of shares from the Viva shareholders as contemplated by the Notice of AGM issued by the Company in November 2014.

The project is located in the highlands province of Enga, immediately adjacent to the township of Wabag and 75km NW of the regional centre of Mt Hagen. The project covers a suite of Miocene intermediate intrusive rocks, related volcanics and younger metasediments of the New Guinea Thrust Belt, a strongly mineralised structural zone which dominates the central-northern highlands of PNG. Intermediate intrusives at Wabag were emplaced during the Maramuni event, a Belt-wide igneous and mineralising event.

The geology at Wabag has similar characteristics to the geology hosting notable high grade prospects such as Frieda River, Trukai, North Dibom and Nena. Previous exploration has identified high grade gold and platinum anomalies in stream sediments. The most notable being around Timun in the south where approximately 100 kg of alluvial gold has been previously recovered. Timun and Kompam are accessible by road from Wabag enabling exploration of that part of the licenced area.

The exploration results completed during the financial year and to date are extremely encouraging. In March 2015, the Company released Stage 1 exploration results from the Sak Creek and Crown Ridge prospects, within EL1966, Enga Province, Papua New Guinea. On 12 May 2015, the Company released Stage 2 exploration results from the Crown

Ridge prospects within EL1966, Enga Province, Papua New Guinea. On 20 May 2015, the Company announced Stage 3 exploration had commenced at the Crown Ridge prospects within EL1966, Enga Province, Papua New Guinea under the supervision of senior geologist, Mr Douglas Smith.

The Board is of the belief the Wabag PNG acquisition may offer an opportunity to ultimately deliver a material project for the benefit of the Company and shareholders.

Goldsmiths Resources SAC-Peru

Goldsmith Resources SAC is a Peruvian company in which Gold Mountain holds an 18.75% shareholding. Goldsmith is focussed on a gold project in southern Peru, centred on a mineral processing plant at Mollehuaca, satellite mining operations at Eladium and additional prospective exploration and mining ground within the Nazca-Ocoña metallogenic belt a well-established mining region which hosts a number of medium-sized, high-grade operating gold mines.

On 30 April, 2015, the Company announced Goldsmith Resources SAC (“GRSAC”) entered into a Binding Agreement on behalf of its shareholders’ interest with Montan Mining Corporation of Vancouver Canada (TSXV: MNY) (“Montan”) to acquire the Peruvian Project subject to conditions precedent for a total consideration of USD \$3,300,000. Further details of this transaction are disclosed at Note 10 in the Notes to the Financial Statement.

GMN Director Matthew Morgan represents the Company on the board of Goldsmith Resources SAC.

NSW Gold Exploration Projects

Cowarra NSW-Exploration Licence 5939

GMN holds a 50% interest and can earn up to 85% under a farm-in agreement on expenditure of a further \$350,000. On 6 January 2015, the Company announced it had entered into an agreement to acquire the remaining unearned interest in the Cowarra Gold Project EL5939 from the current tenement holder and joint venture partner Capital Mining Limited (ASX: CMY). GMN paid a security deposit of \$20,000 and a further \$20,000 is payable as final settlement upon completion of the registration of transfer with the NSW Department of Trade and Investments, Resources and Energy.

Cowarra is a gold mineralisation project 2.8 km by 300-400m and to date a JORC inferred resource of 38,000 ozs in open pittable oxides has been identified. Good access, power and water is readily available. Further exploration will be required to establish an economic reserve and progress it to project status.

Oberon NSW

Under a farm-in agreement with Central West Gold NL (ASX: CWG) GMN could earn a 70% interest in the EL by funding exploration to \$350,000. Exploration expenditure of \$150,000 had been expended to 30 June 2014 and the remaining \$200,000 was required to be expended by November 2014 unless the farm-in agreement was extended. This tenement was considered low priority and GMN notified CWG that GMN will not be providing further funding for exploration. As a result, CWG have allowed the exploration licence to expire at the end of the current term.

Dalton NSW-Exploration Licence 6922

This Exploration Licence in which GMN has a 100% interest consists of a regional shear zone hosting gold mineralisation. Shallow rotary core drilling has returned a high gold value of 32g/t over 1 metre. Follow up work is planned along strike in a northerly direction. The licence covers a number of historic workings. Expenditure commitments to 2015 total \$154,500.

Grenfell NSW

The Company holds a 100% interest in Exploration Licence 8263 granted on 16 May 2014 and covers the historic Grenfell gold field in Central NSW. EL 8263 embraces 22 shallow gold quartz reefs which were worked a century ago to produce approximately 150,000 ozs of gold. The exploration plan is to focus on possible extensions on the line of strike from the old gold workings and subsequently at depth.

Capital Raisings

During the reporting period, the Company conducted several rounds of capital raisings. In total, the Company raised \$1,874,321 to fund ongoing operations in Papua New Guinea and Australia.

Capital Raising	Date	Shares Issued	Price	Amount Raised
Placement	1 August 2014	13,000,000	\$0.030	\$390,000
Placement	18 December 2014	10,000,000	\$0.030	\$300,000
Convertible note conversion	18 December 2014	8,000,000	\$0.025	**
Placement	27 February 2015	28,103,300	\$0.030	\$843,099
Exercise of unlisted options	4 June 2015	8,530,555	\$0.040	\$341,222
		87,143,855		\$1,874,321

** Funds of \$200,000 from the convertible notes were received on 30 June 2014 when the notes were first issued.

On 1 August 2014, the Company completed a successful capital raising of \$390,000 through the issue of 13,000,000 ordinary shares at \$0.03 per share by way of a private placement to professional and sophisticated investors.

On 15 December 2014, the Company completed a successful capital raising of \$300,000 through the issue of 10,000,000 ordinary shares at \$0.03 per share by way of a private placement to professional and sophisticated investors.

On 19 December 2014, 8,000,000 ordinary shares were issued when 8,000,000 convertible notes were converted to ordinary shares at the conversion price of \$0.025 per share following shareholder approval of Resolution 10 of the Annual General Meeting held on 15 December 2014. The Company raised \$200,000 in cash when the convertible notes were first issued in June 2014.

On 27 February 2015, the Company completed a successful capital raising of \$843,099 through the issue of 28,103,300 ordinary shares at \$0.03 per share by way of a private placement to professional and sophisticated investors.

On 5 June 2015 8,530,555 shares were issued from the exercise of 8,530,555 unlisted options at an exercise price of \$0.04 which were exercised prior to the expiry date of 29 May 2015.

Risk management

Details of the Company's Risk Management policies are contained within the Corporate Governance Statement.

Corporate Governance

A statement disclosing the extent to which the Company has followed the best practice recommendations set by the ASX Corporate Governance Council during the period is displayed on the Company's website.

Subsequent events after balance date

On 15 July, 2015, 19,510,000 ordinary shares were issued to sophisticated investors at \$0.04 each pursuant to the Underwriting Agreement to raise \$780,400. Previously, on 28 May, 2015 the Company announced that an Underwriting Agreement had been entered into with Mr Seah Gak San of Malaysia in respect of 27,733,455 unlisted options which were due to expire on 29 May, 2015.

On 31 July 2015, the Company announced it had entered into a share purchase agreement with Viva No. 20 Limited (Viva) and its shareholders (Viva shareholders) to acquire a further 50% interest in Viva through the acquisition of shares from the Viva shareholders as contemplated by the Notice of AGM issued by the Company in November 2014.

There has not been any other matter or circumstance that has arisen after balance date that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial periods.

Environmental legislation

The Company is subject to significant environmental and monitoring requirements in respect of its natural resource exploration activities. The Directors are not aware of any significant breaches of these requirements during the period.

Indemnification and insurance of Directors and Officers

The Company has agreed to indemnify all the Directors of the Company for any liabilities to another person (other than the Company or related entity) that may arise from their position as Directors of the Company, except where the liability arises out of conduct involving a lack of good faith.

During the financial year, GMN paid a premium in respect of a contract insuring the Directors and officers of the Company against any liability incurred in the course of their duties to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Options

No options over issued shares or interest in the Company were granted during or since the end of the financial year.

REMUNERATION REPORT (AUDITED)

The Board, in consultation with the Remuneration Committee, is responsible for determining and reviewing compensation arrangements for the directors and executive management. The Board assesses the appropriateness of the nature and amount of remuneration of key personnel on an annual basis. In determining the amount and nature of officers' packages, the Board takes into consideration the Company's financial and operational performance along with industry and market conditions.

The Committee has the authority to retain any outside advisor at the expense of the Company, without the Board's approval, at any time and has the authority to determine any such advisor's fees and other retention terms.

In setting corporate goals and objectives relevant to Senior Executives' compensation, the Committee considers both short-term and long-term compensation goals and the setting of criteria around this. In relation to setting Directors' remuneration the Committee looks at and considers comparative data from similar companies.

This report outlines the remuneration arrangements in place for Directors and Key Management Personnel of Gold Mountain Limited (the "company") for the financial year ended 30 June 2015.

The following persons acted as Directors during or since the end of the financial year:

Graham Kavanagh	Robert J Waring
Matthew Morgan	Bill Richie Yang
Sin Pyng "Tony" Teng	Eric Kam

The term 'Key Management Personnel' is used in this remuneration report to refer to the following persons. Except as noted, the named persons held their current position for the whole of the financial year and since the end of the financial year:

Graham Kavanagh	Robert J Waring
Matthew Morgan	Bill Richie Yang
Sin Pyng "Tony" Teng	Eric Kam
	David Clark

Remuneration Philosophy

The performance of the Company depends upon the quality of the Directors and executives. The philosophy of the Company in determining remuneration levels is to:

- set competitive remuneration packages to attract and retain high calibre employees;
- link executive rewards to shareholder value creation; and
- establish appropriate, demanding performance hurdles for variable executive remuneration

Remuneration Committee

The Remuneration Committee of the Board of Directors of the Company is responsible for determining and reviewing compensation arrangements for the Directors and the Senior Management team.

The Remuneration Committee assesses the appropriateness of the nature and amount of remuneration of Directors and senior executives on a periodic basis by reference to relevant employment market conditions with an overall objective of ensuring maximum stakeholder benefit from the retention of a high quality Board and executive team.

Remuneration Structure

In accordance with best practice Corporate Governance, the structure of Non-Executive Director and executive remuneration is separate and distinct.

Non-Executive Director Remuneration

The Board seeks to set aggregate remuneration at a level that provides the Company with the ability to attract and retain Directors of the highest calibre, whilst incurring a cost that is acceptable to shareholders.

Each Director is entitled to such remuneration from the Company as the Directors decide, but the total amount provided to all non-executive directors must not exceed in aggregate the amount fixed by the Company in a general meeting. The aggregate remuneration for all non-executive directors has been set at an amount of \$300,000 per annum.

The ASX Listing Rules specify that the aggregate remuneration of Non-Executive Directors shall be determined from time to time by a general meeting.

The amount of aggregate remuneration sought to be approved by shareholders and the manner in which it is apportioned amongst Directors is reviewed annually. The Board considers advice from external shareholders as well as the fees paid to Non-Executive Directors of comparable companies when undertaking the annual review process.

Each Director is entitled to receive a fee for being a Director of the Company.

The remuneration of Non-Executive Directors for the year ended 30 June 2015 is detailed in the Remuneration of Directors and named executives section of this report on the following pages of this report.

Senior Manager and Executive Director Remuneration

Remuneration consists of fixed remuneration and Company options (as determined from time to time). In addition to the Company employees and Directors, the Company has contracted key consultants on a contractual basis. These contracts stipulate the remuneration to be paid to the consultants.

Fixed Remuneration

Fixed remuneration is reviewed annually by the Independent Directors' Committee (which assumes the role of the Remuneration Committee). The process consists of a review of relevant comparative remuneration in the market and internally and, where appropriate, external advice on policies and practices. The Committee has access to external, independent advice where necessary.

Fixed remuneration is paid in the form of cash payments.

The fixed remuneration component of the six most highly remunerated Company executives is detailed in Table 1.

Employment Contracts

During the year and to the date of this report there are no employment contracts with the Company.

Other Key Management Personnel Transactions

The Company has established the Gold Mountain Limited Employee Share Option Plan (ESOP) and a summary of the terms and conditions of the Plan are set out below:

- i. All employees (full time and part time) will be eligible to participate in the Plan.
- ii. Options are granted under the Plan at the discretion of the board and if permitted by the board, may be issued to an employee's nominee.
- iii. Each option is to subscribe for one ordinary share in the Company and will expire 5 years from its date of issue. An option is exercisable at any time from its date of issue provided all relevant vesting conditions, if applicable, have been met. Options will be issued free. The exercise price of options will be determined by the board. The total number of shares the subject of options issued under the Plan, when aggregated with issues during the previous 5 years pursuant to the Plan and any other employee share plan, must not exceed 5% of the Company's issued share capital.
- iv. If, prior to the expiry date of options, a person ceases to be an employee of the Company for any reason other than retirement at age 60 or more (or such earlier age as the board permits), permanent disability, redundancy or death, the options held by that person (or that person's nominee) automatically lapse on the first to occur of a) the expiry of the period of 30 days from the date of such occurrence, and b) the expiry date. If a person dies, the options held by that person will be exercisable by that person's legal personal representative.
- v. Options cannot be transferred other than to the legal personal representative of a deceased option holder.
- vi. The Company will not apply for official quotation of any options.
- vii. Shares issued as a result of the exercise of options will rank equally with the Company's previously issued shares.
- viii. Option holders may only participate in new issues of securities by first exercising their options.
- ix. Options are granted under the plan for no consideration.
- x. Each share options converts into one ordinary shares of Gold Mountain Limited.

The Board may amend the terms and conditions of the plan subject to the requirements of the Listing Rules.

There have been no other transactions involving equity instruments other than those described in the tables above. For details of other transactions with Key Management Personnel, refer to Note 18: Related Party Disclosures.

Directors' Meetings

The number of meetings of Directors (including meetings of committees of Directors) held during the year and the number of meetings attended by each Director was as follows:

Director	Board Meetings		Committee Meetings Attended			
	Attended	Eligible to Attend	Audit & Risk Management	Remuneration	Nomination	Corporate Governance
Graham Kavanagh	11	11	1	1	1	1
Matthew Morgan	11	11	1	-	-	-
Sin Pyng "Tony" Teng	10	10	2	1	1	1
Robert Waring	1	1	-	-	-	-
Bill Richie Yang	1	1	-	-	-	-
Eric Kam	1	1	-	-	-	-

In addition, two circular resolutions were signed by the Board during the period.

Auditor Independence

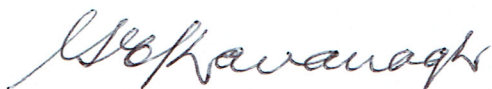

Section 307C of the Corporations Act 2001 requires our auditors to provide the Directors of the Company with an Independence Declaration in relation to the audit of the annual report. This Independence Declaration is set out on page 22, and forms part of this Directors' report for the year ended 30 June 2015.

Non-Audit Services

Details of amounts paid or payable to the auditor for non-audit services provided during the year by the auditor are outlined in Note 22 to the financial statements. The Directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The Directors are of the opinion that the services do not compromise the auditor's independence as all non-audit services have been reviewed to ensure that they do not impact the integrity and objectivity of the auditor and none of the services undermine the general principles relating to auditor independence.

Signed in accordance with a resolution of the Directors.

Graham Kavanagh
Non-Executive Chairman

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

a. Basis of Preparation

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the IASB. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless otherwise stated.

The financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities

b. Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

When the Company applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements, financial statements as at the beginning of the earliest comparative period will be disclosed.

c. Impairment of Assets

At the end of each reporting period, the Company assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (eg in accordance with the revaluation model in AASB 116). Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that Standard.

Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

d. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits available on demand with banks and other short-term highly liquid investments with original maturities of three months or less.

e. Provisions

Provisions are recognised when the Company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

f. Trade and other payables

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the Company during the reporting period which remain unpaid. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

g. Income Tax

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

h. Exploration and Development Expenditure

Exploration and evaluation expenditures in relation to each separate area of interest are recognised as an exploration and evaluation asset in the year in which they are incurred where the following conditions are satisfied:

- (i) the rights to tenure of the area of interest are current; and
- (ii) at least one of the following conditions is also met:
 - (a) the exploration and evaluation expenditures are expected to be recouped through successful development and exploration of the area of interest, or alternatively, by its sale; or
 - (b) exploration and evaluation activities in the area of interest have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation assets are initially measured at cost and include acquisition of rights to explore, studies, exploratory drilling, trenching and sampling and associated activities and an allocation of depreciation and amortised of assets used in exploration and evaluation activities. General and administrative costs are only included in the measurement of exploration and evaluation costs where they are related directly to operational activities in a particular area of interest.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. The recoverable amount of the exploration and evaluation asset (for the cash generating unit(s) to which it has been allocated being no larger than the relevant area of interest) is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years.

Where a decision has been made to proceed with development in respect of a particular area of interest, the relevant exploration and evaluation asset is tested for impairment and the balance is then reclassified to development.

Costs of site restoration are provided over the life of the project from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with local laws and regulations and clauses of the permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the costs are accounted on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

i. Revenue and Other Income

Revenue is measured at the fair value of the consideration received or receivable. When the inflow of consideration is deferred, it is treated as the provision of financing and is discounted at a rate of interest that is generally accepted in the market for similar arrangements. The difference between the amount initially recognised and the amount ultimately received is interest revenue.

All revenue is stated net of the amount of goods and services tax (GST).

j. Earnings (Loss) per share

Basic earnings per share is calculated as net profit attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net profit attributable to members, adjusted for:

- (i) costs of servicing equity (other than dividends);
- (ii) the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- (iii) other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

k. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

l. Plant and Equipment

Each class of plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment

Plant and equipment are measured on the cost basis and therefore carried at cost less accumulated depreciation and any accumulated impairment. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of profit or loss and other comprehensive income during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets is depreciated on a straight-line basis over the asset's useful life to the Company commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Plant and equipment	20%-32%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of profit or loss and other comprehensive income. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

m. **Financial Instruments**

Recognition and initial measurement

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Company commits itself to either the purchase or sale of the asset (ie trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified “at fair value through profit or loss”, in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Finance instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost.

Amortised cost is the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the *effective interest method*.

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense item in profit or loss.

(i) *Financial assets at fair value through profit or loss*

Financial assets are classified at “fair value through profit or loss” when they are held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in profit or loss.

(ii) *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Loans and receivables are included in current assets, where they are expected to mature within 12 months after the end of the reporting period.

(iii) *Held-to-maturity investments*

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Company’s intention to hold these investments to maturity. They are subsequently measured at amortised cost.

Held-to-maturity investments are included in non-current assets where they are expected to mature within 12 months after the end of the reporting period. All other investments are classified as current assets.

(iv) *Available-for-sale financial assets*

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with changes in such fair value (ie gains or losses) recognised in other comprehensive income (except for impairment losses and foreign exchange gains and losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in non-current assets where they are expected to be sold within 12 months after the end of the reporting period. All other financial assets are classified as current assets.

(v) *Financial liabilities*

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Impairment

At the end of each reporting period, the Company assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in profit or loss. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the Company no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

n. Employee Benefits

Provision is made for the Company's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be settled within one (1) year have been measured at the amounts expected to be paid when the liability is settled. Employee benefits payable later than one (1) year have been measured at the present value of the estimated future cash outflows to be made for those benefits. In determining the liability, consideration is given to employee wages increases and the probability that the employee may satisfy vesting requirements. Those cash flows are discounted using market yields on national government bonds with terms to maturity that match the expected timing of cash flows.

o. Rounding of Amounts

The parent entity has applied the relief available to it under ASIC Class Order 98/100 and accordingly, amounts in the financial statements and directors' report have been rounded off to the nearest one dollar (\$1).

p. Critical Accounting Estimates and Judgments

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

Key estimates

(i) *Impairment*

The Company assesses impairment at the end of each reporting period by evaluating conditions and events specific to the Company that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

Key judgments

(i) *Exploration and evaluation expenditure*

The Company capitalises expenditure relating to exploration and evaluation where it is considered likely to be recoverable or where the activities have not reached a stage that permits a reasonable assessment of the existence of reserves. While there are certain areas of interest from which no reserves have been extracted, the directors are of the continued belief that such expenditure should not be written off since feasibility studies in such areas have not yet concluded.

q. Going concern

The financial statements have been prepared on the going concern basis, the validity of which depends upon the positive cash position. The Company's existing projections show that further funds will be required to be generated, either by capital raisings, sales of assets or other initiatives, to enable the Company to fund its currently planned activities for at least the next twelve months from the date of signing these financial statements. Should new opportunities present that require additional funds the Directors will take action to reprioritise activities, dispose of assets and or raise further funds.

Notwithstanding this issue, accordingly the Directors have prepared the financial statements of the Company on a going concern basis. In arriving at this position, the Directors have considered the following pertinent matter:

- Australian Accounting Standard, AASB 101 "Accounting Policies", states that an entity shall prepare financial statements on a going concern basis unless management either intends to liquidate the entity or to cease trading, or has no realistic alternative but to do so.

In the Directors' opinion, at the date of signing the financial report, there are reasonable grounds to believe that the matters set out above will be achieved and therefore the financial statements have been prepared on a going concern basis.

r. Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds.

s. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of Gold Mountain Limited.

t. **Associates**

Associates are entities over which the Company has significant influence but not control or joint control. Investments in associates are accounted for using the equity method. Under the equity method, the share of the profits or losses of the associate is recognised in profit or loss and the share of the movements in equity is recognised in other comprehensive income. Investments in associates are carried in the statement of financial position at cost plus post-acquisition changes in the Company's share of net assets of the associates. Dividends received or receivable from associates reduce the carrying amount of the investment.

When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any unsecured long-term receivables, the consolidated entity does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

u. **Joint Ventures**

A joint venture is a contractual arrangement whereby two or more parties undertake an economic activity that is subject to joint control. The Company's interest in joint venture entities are accounted for using the proportionate consolidation method of accounting. The Company recognises its interest in the assets that it controls and the liabilities that it incurs and the expenses that it incurs and its share of the income that it earns from the sale of goods or services by the joint venture, classified according to the nature of the assets, liabilities, income or expense.

Profits or losses on transactions establishing the joint venture entities and transactions with the joint venture are eliminated to the extent of the Company's ownership interest until such time as they are realised by the joint venture entity on consumption or sale, unless they relate to an unrealised loss that provides evidence of the impairment of an asset transferred.

The Company discontinues the use of proportionate consolidation from the date on which it ceases to have joint control over a jointly controlled entity.

v. **Fair Value of Assets and Liabilities**

Equity Instruments

The fair value of available-for-sale financial assets is determined by reference to their quoted closing bid price at the reporting date.

Trade and Other Receivables

The fair value of trade and other receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. This fair value is determined for disclosure purposes. Due to the short term nature of other receivables, their carrying value is assumed to approximate their fair value.

Non-Derivative Financial Liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

w. **New Accounting Standards and Interpretations not yet mandatory or early adopted**

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Company for the annual reporting period ended 30 June 2015. The Company's assessment of the impact of these new or amended Accounting Standards and Interpretations are that they will have no material effect.

NOTE 2: OPERATING SEGMENTS

Segment Information

Identification of reportable segments

During the year, the Company operated principally in one business segment being mineral exploration and in three geographical segments being Australia, Papua New Guinea (from 1 July 2014) and Peru.

The Company's revenues and assets and liabilities according to geographical segments are shown below.

	June 2015				June 2014		
	Total \$	Australia \$	PNG \$	Peru \$	Total \$	Australia \$	Peru \$
REVENUE							
Revenue	5,046	5,046	-	-	38,151	-	38,151
Total segment revenue	5,046	5,046	-	-	38,151	-	38,151
RESULTS							
Net loss before income tax	(847,685)	(710,677)	(70,062)	(66,946)	(526,993)	(463,427)	(63,566)
Income tax	-	-	-	-	-	-	-
Net loss	(847,685)	(710,677)	(70,062)	(66,946)	(526,993)	(463,427)	(63,566)
ASSETS AND LIABILITIES							
Assets	2,867,526	1,332,920	861,909	672,697	1,627,313	901,932	725,381
Liabilities	407,127	356,001	51,126	-	255,493	255,493	-

NOTE 3: REVENUE AND OTHER INCOME

	Note	2015 \$	2014 \$

Total revenue		5,046	38,151
¹ Interest received from:			
Bank		4,046	-

NOTE 4: LOSS FOR THE YEAR

	2015	2014
	\$	\$

Loss before income tax includes the following specific expenses:

—	Provision for doubtful debts	52,685	-
—	Legal costs	61,325	63,285
—	Rental expense on operating leases	30,720	4,746

a. Significant expenses

The following significant expense items are relevant in explaining the financial performance:

—	Consultants fees	180,900	12,950
—	Exploration expense	187,806	46,953
—	Travel and Accommodation	30,062	2,017

NOTE 5: INCOME TAX EXPENSE

	2015	2014
	\$	\$

The prima facie tax on the loss before income tax is reconciled to income tax as follows:

Loss before income tax expense	(847,685)	(526,993)
Prima facie tax benefit on the loss before income tax at 30% (2013: 30%)	(254,305)	(158,098)

Add:

Tax effect of:

Other non-allowable items	91,080	33,072
	91,080	33,072

Less:

Tax effect of:

Other deductible expenses	(114,106)	(109,854)
Future tax benefits not brought to account	277,331	234,880
Income tax attributable to the Company	-	-

The Company has tax losses arising in Australia of \$4,371,439 (2014: \$3,446,998) that are available indefinitely to offset against future taxable profits.

Deferred tax assets not brought to account, the benefits of which will only be realised if the conditions for deductibility set out in Note 1(g) occur.

NOTE 6: CASH AND CASH EQUIVALENTS

	2015 \$	2014 \$
Cash at bank	16,884	200,070
Short-term bank deposits	743,054	-
	<u>759,938</u>	<u>200,070</u>

Reconciliation of cash

Cash at the end of the financial year as shown in the statement of cash flows is reconciled to items in the statement of financial position as follows:

Cash and cash equivalents	<u>759,938</u>	<u>200,070</u>
---------------------------	----------------	----------------

Cash at bank earns interest at floating rates based on daily bank deposit rates. Short-term deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the Company, and earn interest at the respective short-term deposit rates.

NOTE 7: TRADE AND OTHER RECEIVABLES

	2015 \$	2014 \$
Current		
PNG Project Advance	22,671	-
Security Deposits	26,600	-
Other receivables	18,719	15,486
Goldsmith Resources SAC	210,740	210,740
Less: Provision for Doubtful Debts	(52,685)	-
Total current trade and other receivables	<u>226,045</u>	<u>226,226</u>

NOTE 8: PLANT AND EQUIPMENT

	2015 \$	2014 \$
Plant and equipment – at cost	2,103	-
Accumulated depreciation	(642)	-
	<u>1,461</u>	<u>-</u>
Reconciliation of the carrying amount of plant and equipment at the beginning and end of the current and previous financial year:		
Carrying amount at beginning	-	-
Additions	2,103	-
Disposals	-	-
Depreciation expense	(642)	-
	<u>1,461</u>	<u>-</u>

NOTE 9: DEFERRED EXPLORATION AND EVALUATION EXPENDITURE

	2015 \$	2014 \$
Assets in Development		
Balance at the beginning of the year	626,376	606,436
Expenditure incurred	742,371	54,052
Impairment loss on existing tenements	(157,806)	(34,112)
Net carrying value	<u>1,210,941</u>	<u>626,376</u>

The recoupment of costs carried forward in relation to expenditure in the exploration and evaluation phase are dependent on the successful development and commercial exploitation or sale of the respective areas.

NOTE 10: AVAILABLE FOR SALE FINANCIAL ASSETS

Interests are accounted for at fair value. Information relating to Available for sale financial assets is set out below:

(a) Carrying amounts		Percentage interest		Company	
		2015	2014	2015	2014
Unlisted entity	Principal activities	%	%	\$	\$
Goldsmith Resources SAC	Mineral processing	18.75	18.75	514,641	514,641

(b) Movements in carrying amounts

Carrying amount at the beginning of the financial year	514,641	268,641
Acquisition of shares in associate	-	246,000
Less: Asset impairments expense	-	-
Carrying amount at the end of the financial year (shown as investment cost)	<u>514,641</u>	<u>514,641</u>

On 30 April, 2015, the Company announced Goldsmith Resources SAC entered into a Binding Agreement on behalf of its shareholders' interest with Montan Mining Corporation of Vancouver Canada (TSXV: MNY) to acquire the Peruvian Project subject to conditions precedent for a total consideration of USD \$3,300,000.

The material terms and conditions precedent are as follows:

- Total consideration for the assets and operations being purchased is US\$3,300,000.
- USD \$50,000 paid in April 2015, which has been received by GRSAC with the remainder receivable as follows:
 - USD \$750,000 in cash paid to GRSAC and 8,000,000 Montan common shares ("Montan Shares") issued to GRSAC at a deemed price of \$0.125 per share upon closing of the transaction.
 - USD \$1,500,000 paid on the 15-month anniversary of the signing of the Share Purchase Agreement, or one year after closing, whichever comes first, payable half in cash and the other half in cash or in additional Montan Shares priced at the VWAP price of Montan's shares on Exchange for the 20 trading days up to and including the day prior to the payment date, in the discretion of the Issuer. The Sellers will get security while this \$1,500,000 payment remains outstanding, including the right to appoint a member of the Issuer's board of directors and to retain an 49.9% security interest in Goldsmith.
- The Montan Shares issued will be subject to TSXV escrow requirements.

- Pursuant to the binding letter agreement with Montan, the structure of the transaction and the exact assets to be acquired may be determined by Montan during the 30 day due diligence period, although the purchase price will remain the same.
- From the date the Definitive Agreement is executed by the Parties (the "DA Date") until the Closing, Montan will take over operations and management of the business and provide all working capital as it deems necessary to continue the day to day operations of the business. All income and expenses from the DA Date to Closing will accrue to Montan.
- Post-Closing, Montan will continue as the operator and manager of the business. In the event the Acquisition does not close, Montan may terminate its operation of the business and will only be responsible for actions that it took while operating the business.
- Closing of the transaction is conditional upon TSX Venture Exchange approval.

NOTE 11: INVESTMENTS

NOTE 15: OTHER CURRENT LIABILITIES

	2015 \$	2014 \$
Current		
Share placement liability	320,400	-
Total other current liabilities	320,400	-

Summary of borrowing arrangements:

Share placement liability

During the year ended 30 June 2015, a share placement liability arose due to share application funds of \$320,400 received as at 30 June 2015 for unissued shares. The share application funds relate to the placement of the shortfall from the exercise of unlisted options with an exercise price of \$0.04 which were required to be exercised by 5:00pm on 29 May 2015. A share placement to key sophisticated investors took place on 15 July 2015 in accordance with a shortfall Underwriting Agreement entered into on 28 May 2015. The placement raised \$780,400 through the issue of 19,510,000 shares at the placement price of \$0.04 per share.

NOTE 16: CONTRIBUTED EQUITY

	2015 Number of shares	2015 \$	2014 Number of shares	2014 \$
(a) Ordinary shares				
Ordinary Shares, issued	185,502,842	8,318,898	117,868,987	6,244,576
Share issue costs		<u>(1,132,951)</u>		<u>(994,893)</u>
Total issued capital		<u>7,185,947</u>		<u>5,249,683</u>

Ordinary shares carry one vote per share and carry the rights to dividends.

Ordinary shares participate in dividends and the proceeds on winding-up of the parent entity in proportion to the number of shares held.

At the shareholders' meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

(b) Movements in ordinary shares on issue		Number of shares	Issue Price	\$
Date	Particulars

29-May-2015	Expiry of unlisted options	(19,202,900)	\$0.04	29-May-2015
30-Jun-2015	Total options issued	1,250,000		

On 31 December 2014, 500,000 ex-employee options with an exercise price of \$0.18 expired unexercised.

On 5 June 2015 8,530,555 shares were issued from the exercise of 8,530,555 unlisted options at an exercise price of \$0.04 which were exercised prior to the expiry date of 29 May 2015.

On 29 May 2015, 19,202,900 options with an exercise price of \$0.04 cents expired unexercised. These options were issued to participants in the 2013 non-renounceable rights issue. A share placement to sophisticated investors took place on 15 July 2015 in accordance with an options shortfall underwriting agreement entered into on 28 May 2015 for the balance of the shortfall options. The placement raised \$780,400 through the issue of 19,510,000 shares at the placement price of \$0.04 per share. No options were granted by the Company as remuneration.

(d) Capital Management

The Directors' objectives when managing capital are to safeguard the Company's ability to continue as a going concern, so that they may continue to provide returns for shareholders and benefits for other stakeholders. The Group's overall strategy remains unchanged from the 2015 financial year.

The focus of the Company's capital risk management is the current working capital position against the requirements of the Company to meet exploration programs and corporate overheads. The Company's strategy is to ensure appropriate liquidity is maintained to meet anticipated operating requirements, with a view to initiating appropriate capital raisings as required.

The Company's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets.

There are no externally imposed capital requirements.

Management effectively manages the Company's capital by assessing the Company's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, budgeting and share issues.

There have been no changes in the strategy adopted by management to control the capital of the Company since the prior year.

b. Diluted loss per share		
The Company's potential ordinary shares, being its options granted, are not considered dilutive as the conversion of these options would result in a decrease in the net loss per share.	Not applicable	Not applicable

NOTE 21: FINANCIAL RISK MANAGEMENT

The Company's financial instruments consist mainly of deposits with banks, local money market instruments, short-term investments, accounts receivable and payable, loans to and from related parties, bills and leases. The following table details the expected maturities for the Company's non-derivative financial assets. These have been drawn up based on undiscounted contractual maturities of the financial assets including interest that will be earned on those assets except where the Company anticipates that the cash flow will occur in a different period.

Financial Risk Management Policies

The Board has overall responsibility for the establishment and oversight of the risk management framework. The Board reviews and agrees policies for managing each of these risks as summarised below. The Audit and Risk Committee (ARC) has been delegated responsibility by the Board of Directors for, among other issues, monitoring and managing financial risk exposures of the Company. The ARC monitors the Company's financial risk management policies and exposures and approves financial transactions within the scope of its authority. It also reviews the effectiveness of internal controls relating to commodity price risk, counterparty credit risk, currency risk, financing risk and interest rate risk.

The ARC's overall risk management strategy seeks to assist the Company in meeting its financial targets, while minimising potential adverse effects on financial performance. Its functions include the review of the use of hedging derivative instruments, credit risk policies and future cash flow requirements.

Specific Financial Risk Exposures and Management

The main risks the Company is exposed to through its financial instruments are credit risk, liquidity risk and market risk consisting of interest rate risk. This note presents the information about the Company's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital.

a. **Credit risk**

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Company.

Credit risk is managed through the maintenance of procedures (such procedures include the utilisation of systems for the approval, granting and renewal of credit limits, regular monitoring of exposures against such limits and monitoring of the financial stability of significant customers and counterparties), ensuring to the extent possible, that customers and counterparties to transactions are of sound credit worthiness. Such monitoring is used in assessing receivables for impairment. Depending on the division within the Company, credit terms are generally 14 to 30 days from the invoice date.

Risk is also minimised through investing surplus funds in financial institutions that maintain a high credit rating, or in entities that the FRMC has otherwise cleared as being financially sound. Where the Company is unable to ascertain a satisfactory credit risk profile in relation to a customer or counterparty, the risk may be further managed through title retention clauses over goods or obtaining security by way of personal or commercial guarantees over assets of sufficient value which can be claimed against in the event of any default.

Credit risk exposures

The maximum exposure to credit risk by class of recognised financial assets at the end of the reporting period excluding the value of any collateral or other security held, is equivalent to the carrying value and classification of those financial assets (net of any provisions) as presented in the statement of financial position.

The Company has no significant concentrations of credit risk with any single counterparty or company of counterparties. Details with respect to credit risk of trade and other receivables are provided in Note 7.

Trade and other receivables that are neither past due nor impaired are considered to be of high credit quality.

b. **Liquidity risk**

Liquidity risk arises from the possibility that the Company might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Company manages this risk through the following mechanisms:

preparing forward-looking cash flow analysis in relation to its operational, investing and financing activities;

using derivatives that are only traded in highly liquid markets;

monitoring undrawn credit facilities;

obtaining funding from a variety of sources;

maintaining a reputable credit profile;

managing credit risk related to financial assets;

only investing surplus cash with major financial institutions; and

comparing the maturity profile of financial liabilities with the realisation profile of financial assets.

Cash flows realised from financial assets reflect management's expectation as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates and does not reflect management's expectations that banking facilities will be rolled forward.

c. **Market risk**

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices will affect the Company's income or value of the holdings of financial instruments. The Company is exposed to movements in market interest rates on short term deposit. The policy is to monitor the interest rate yield curve out to 120 days to ensure a balance is maintained between the liquidity of cash assets and the interest rate return. The Company does not have short or long term debt, and therefore this risk is minimal. The Company limits its exposure to credit risk by only investing in liquid securities and only with counterparties that have acceptable credit ratings.

d. **Interest rate risk**

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Company is also exposed to earnings volatility on floating rate instruments. The Company is exposed to interest rate risk as the Company deposits the bulk of its cash reserves in Term Deposits. The risk is managed by the Company by maintaining an appropriate mix between short term and medium-term deposits. The Company's exposures to interest rate on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

Interest rate sensitivity

At 30 June 2015, the effect on loss and equity as a result of changes in the interest rate, with all other variable remaining constant would be as follows:

	2015 \$	2014 \$
Increase in interest rate by 1%	7,500	2,000
Decrease in interest rate by 1%	(7,500)	(2,000)

Interest rate risk is not material to the Company.

The totals for each category of financial instruments, measured in accordance with AASB 139 as detailed in the accounting policies to these financial statements, are as follows:

	Note	2015			2014			Total	
		Floating Interest Rate	Non-interest bearing	Fixed Interest Rate	Total 2015	Floating Interest Rate	Non-interest bearing	Fixed Interest Rate	2014

NOTE 22: AUDITORS REMUNERATION

	2015	2014
	\$	\$
Remuneration of the auditor of the Company for:		
Auditing or reviewing the financial statements	28,960	27,633

NOTE 23: COMMITMENTS AND CONTINGENCIES

Remuneration Commitments

There are no remuneration commitments apart from ongoing director and management fees incurred on a monthly basis.

Guarantees

Gold Mountain Limited did not commit to nor make guarantees of any form as at 30 June 2015.

Contingent liabilities

There are no contingent liabilities as at 30 June 2015.

Exploration licence expenditure requirements

In order to maintain the Company's tenements in good standing with the various mines departments, the Company will be required to incur exploration expenditure under the terms of each licence of \$25,000 per annum per licence area. It is likely that the granting of new licences and changes in licence areas at renewal or expiry, will change the expenditure commitment to the Company from time to time.

NOTE 24: DIVIDENDS

The Directors of the Company have not declared any dividends for the year ended 30 June 2015.

NOTE 25: EVENTS SUBSEQUENT TO REPORTING DATE

On 15 July, 2015, 19,510,000 ordinary shares were issued to sophisticated investors at \$0.04 each pursuant to the Underwriting Agreement to raise \$780,400. Previously, on 28 May, 2015 the Company announced that an Underwriting Agreement had been entered into with Mr Seah Gak San of Malaysia in respect of 27,733,455 unlisted options which were due to expire on 29 May, 2015.

On 31 July 2015, the Company announced it had entered into a share purchase agreement with Viva No. 20 Limited (Viva) and its shareholders (Viva shareholders) to acquire a further 50% interest in Viva through the acquisition of shares from the Viva shareholders as contemplated by the Notice of AGM issued by the Company in November 2014.

There has not been any other matter or circumstance that has arisen after balance date that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial periods.

NOTE 26: CASH FLOW INFORMATION

	2015 \$	2014 \$
Reconciliation of Net Cash (used in) provided by operating activities with Loss after Income Tax

DIRECTORS' DECLARATION

In the opinion of the Directors of Gold Mountain Limited (the Company):

1. The financial statements and notes thereto, as set out on pages 23 to 51 are in accordance with the Corporations Act 2001 including:
 - a. giving a true and fair view of the Company's financial position as at 30 June 2015 and of its performance for the year then ended; and
 - b. complying with Accounting Standards and Corporations Regulations 2001; and
2. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
3. The financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.

This declaration has been made after receiving the declarations required to be made to the Directors in accordance with Section 295A of the Corporations Act 2001 for the financial year ended 30 June 2015.

This declaration is signed in accordance with a resolution of the Board of Directors.

Graham Kavanagh
Non-Executive Chairman

Dated this th30 day of September 2015

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GOLD MOUNTAIN LIMITED A.B.N. 95 112 425 788

Report on the Financial Report

We have audited the accompanying financial report of Gold Mountain Limited, which comprises the statement of financial position as at 30 June 2015, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101: Presentation of Financial Statements, that the financial statements comply with International Financial Reporting Standards (IFRS).

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Gold Mountain Limited, would be in the same terms if provided to the directors as at the date of this auditor's report.

Basis for Qualified Opinion

As disclosed in note 10 to the financial statements, Gold Mountain Limited has an investment in Goldsmith Resources SAC of \$514,641 as at 30 June 2015. In addition as disclosed in note 7 to the financial statements, Trade and Other receivable of \$210,740 is owed from Goldsmith Resources SAC which had a provision of \$52,685 taken up during the period resulting in a net amount owed of \$158,055 as at 30 June 2015.

We were unable to obtain sufficient appropriate evidence about the carrying amount of these assets as at 30 June 2015 as audited financial reports were not available and we could not obtain other sufficient audit evidence pertaining to the carrying value of the above assets.

Accordingly, as at the date of this report, we express no opinion on the carrying value of trade and other receivables of \$158,055 and investment of \$514,641.

Qualified Opinion

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion, the financial report presents fairly, in all material respects, the financial position of Gold Mountain Limited as at 30 June 2015, and of its financial performance and its cash flows for the year then ended in accordance with Australian Accounting Standards.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 15 to 19 of the directors' report for the year ended 30 June 2015. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion the remuneration report of Gold Mountain Limited for the year ended 30 June 2015 complies with section 300A of the *Corporations Act 2001*.
