

Heartland BancCorp

Parent Company of Heartland Bank

ANNUAL REPORT

2015

April 2, 2016

Dear Shareholders,

2015 continued the financial trends we have witnessed for the last few years in Central Ohio and ultimately, contributed to the success of Central Ohio's Community Bank, Heartland. After experiencing continued momentum from the economy and a thirst for our brand of community banking, we were compelled to explore new initiatives, expansion, and personnel growth for an already high performing team. We continue to plan for the future by investing in our people, processes, and technology while holding the line on accountability. Our strategy of seeking clients that appreciate value in their banking relationship, and providing value to that relationship, continues to be a winner in the marketplace. For the fifth straight year, we have been ranked in American Banker magazine's "Top 200 Community Banks", ranking 77th, validating that our core strategy is indeed in demand and effective.

The continued merger and acquisition market in our industry has created a crease of opportunity that can be taken advantage of by only the most astute and consistent institutions. Heartland's flexibility, agility, speed to market, and "value add" has positioned us well in a changing landscape. Being Central Ohio's Community Bank has never been more advantageous, and we have positioned ourselves well for this movement.

This position, along with a robust local economy, has fueled physical expansion of the branch network to include our Pickerington location with two other Central Ohio communities, Hilliard and Clintonville, following closely as branches are in the planning stages in these locations. As a result of the continued growth of the bank, our corporate offices and operational departments have been displaced to multiple locations around Columbus. This, along with the need for more office space, has contributed to the decision to develop a new corporate center. While we gave a valiant effort to restore the original Port Columbus Airport Terminal, the costs associated with this leased facility outweighed the long term objectives of the bank. We're proud to have partnered with the City of Whitehall, on a six acre parcel along Hamilton Road where we will develop a 60,000 sq. ft., state-of-the-art corporate center. This will enable the bank to become more efficient in corporate operations, promote employee health and wellness, aid in recruiting the best talent, and foster a new partnership with an up and coming Central Ohio community in need of its own community bank.

All of this growth and success is due to the fine team we have built over the years at Heartland. Growing bankers from within has been a mainstay of the organization, and there is no better example than 20 year veteran, Carrie Almendinger, who was promoted to Executive Vice President and Chief Financial Officer this past spring. To address retirements, the changing landscape of banking, along with our continued growth, we implemented a re-alignment of management in the fall, adding expertise and management experience to the team with Brian Mauntel, our current Chief Operations Officer. The addition and evolution of the Distribution Strategies Group, headed by veteran, Ashley Trout, will allow the bank to grow and perfect our internal processes while simultaneously deploying new technology and increasing delivery of our community bank offerings. Many more enhancements and team additions have occurred improving our people portfolio, sales management, credit underwriting, and operations. Put quite simply, you win with happy people, and we remain committed to

our team members and their families.

The commercial lending group has been an asset of the bank since its modern day inception, being known as a leader in SBA and small business financing. Their continued impact on our communities helps support the growth and success of Central Ohio businesses. This year, we returned to the bank's roots by establishing an agribusiness lending group that will span the state of Ohio. We feel that this will diversify our loan portfolio, create long lasting relationships, and begin the delivery of our brand to a wider footprint in the region. Leveraging and embracing our roots in agriculture, along with our relationships and long lasting support of Ohio 4H, positions us well within this industry across the state.

All of this success and the emergence of Basel III required the bank to seek more capital in 2015. The current rate environment provided a unique opportunity for the bank to deliver a quality return on investment for investors while not diluting shareholders' ownership. In the fall, \$5.4 million was raised through a sub-debt offering at a rate of 4.99%, with \$5.1 million fixed for 10 years. This internal effort saved the bank over \$300,000 in costs and secured new capital at a rate not seen by any financial institution below \$1 billion in assets nationally. The result speaks volumes to the consistence in performance, profitability, and strength your board of directors has delivered, as well as the confidence in the strength of your community bank and its management team. Collectively, these attributes form the definition of shareholder value.

As we forge into 2016, we will stay the course, seeking those who seek value from their banking relationship. Your direct involvement in that promotion is greatly appreciated. Share your Heartland story with your friends and colleagues, and thank you for your continued support and referrals.

Community banking is alive and well in the Heartland, and we're just getting started.

G. Scott McComb

The past year signified unparalleled success for Heartland BancCorp, as 2015 financial results represent the most profitable year in its 27 year history. Net income for 2015 increased 34% to \$8.1 million or \$5.13 per diluted share, following an \$879 thousand life insurance benefit. Core earnings for 2015, excluding the life insurance benefit, also achieved record levels, increasing 19% to \$7.2 million or \$4.57 per diluted share, compared to \$6.1 million or \$3.87 per diluted share in 2014. Return on average assets and equity were 1.18% and 12.91% respectively for the year, and compare to .99% and 10.57% for 2014. Improved operating results were further driven by higher loan quality, which allowed for reduced loan loss provision expense by \$495 thousand, down 39% compared to 2014. In addition, a 9% growth in loan balances and 28% growth in demand deposit balances helped drive net interest margin higher to 4.02%, compared to 4.00% for the prior year. Finally, Heartland continued its history of managing expenses, evidenced by the efficiency ratio of 59.75%, which is among the best in the Bank's peer group. Heartland BancCorp's financial performance in 2015 reflects the strength and commitment of the board of directors, and quality of the Heartland team.

Heartland BancCorp ended 2015 with strong liquidity, and the Company exceeded all regulatory requirements in 2015. Capital levels were strengthened as a result of higher earnings during the year, yet capital planning was a key focus of management due to the current and projected growth trajectory. In November, Heartland BancCorp completed a private placement to accredited investors of \$5.4 million in aggregate principal of fixed and variable rate subordinated promissory notes, with a weighted interest rate of 4.986%. The proceeds will give Heartland the opportunity to further execute its business plan and meet the growing demand from clients and the marketplace.

Overview of Operations:

Net interest income, before provision for loan loss, for 2015 was \$25.4 million, up 11% or \$2.6 million compared to 2014. Interest income of \$28.8 million for 2015 increased \$3.1 million or 12%, and interest expense on deposits and borrowings increased \$455 thousand or 16% compared to 2014. The expectation of a stable economy, improved loan quality, and expected loan growth, led management to record a provision for loan loss of \$760 thousand in 2015. With net loan charge-offs of \$395 thousand, this resulted in an increase of \$365 thousand to the allowance for loan loss, which ended the year at \$5.7 million. The allowance as a percent of loans outstanding was 1.05% at the end of 2015 representing a decline from 1.06% at the end of 2014. Net interest income, after provision for loan loss, totaled \$24.7 million, up \$3.1 million or 14% in 2015 compared to 2014.

Non-Interest income of \$3.9 million for 2015 increased \$844 thousand or 27% compared to 2014. The higher non-interest income in 2015 was due primarily to life insurance proceeds, which totaled \$879 thousand. Excluding the life insurance income, non-interest income for 2015 decreased by \$41 thousand due to lower net gains realized on the sale of available-for-sale investment securities, which declined

by \$118 thousand in 2015. Additionally, gains on sales of other real estate owned totaled \$5 thousand in 2015, a decrease of \$205 thousand compared to 2014.

Non-Interest expense was \$17.6 million for 2015, up \$1.2 million or 8% over 2014. Total salary and employee benefit expense increased \$1.0 million or 11.2% in 2015. The higher employee cost was due to increased staff for the new Pickerington branch, an executive management team addition to further increase management expertise to facilitate continued growth, and higher employee and incentive costs related to strong loan production. Professional fees totaling \$498 thousand in 2015 declined \$274 thousand or 36%, reflecting a decline in legal expense from improved loan quality.

Financial Condition:

Total assets increased \$79.8 million, or 12%, to \$729.5 million as of December 31, 2015, compared to \$649.7 million in 2014. Net loans outstanding increased to \$541.0 million, up \$42.4 million or 9% compared to net loans of \$498.6 million at the end of 2014. Total commercial loans (excluding agriculture) increased \$25 million, up 7% as of December 31, 2015, of which commercial (non-real estate) loans grew 12% to \$51.1 million, and commercial real estate loans increased 6% to \$353.1. As a result of the focus on Agricultural lending, net Agricultural loan balances grew to \$12.8 million as of December 31, 2015. Retail loans outstanding totaled \$130.0 million, an increase of 4% over 2014, with residential real estate loans up 4% to \$94.3 million. Overall asset quality continued to improve during 2015, with non-performing assets declining to .72% of total assets, down 10 basis points from .82% as of December 31, 2014.

Heartland BancCorp funds earning asset growth through its deposit relationships. Total deposits as of December 31, 2015 were \$623.0 million, up 12% from \$556.2 million as of December 31, 2014. A key element of Heartland's deposit strategy continues to focus on growing commercial and retail transaction accounts. This strategy is evidenced by the \$30.1 million or 28% growth in non-interest bearing demand deposit accounts during 2015.

Shareholders' Equity:

Total shareholders' equity remained strong, growing 10% to \$66.7 million in 2015. Based upon shares outstanding, the book value of shareholders' equity increased 9% from \$39.05 at year-end 2014 to \$42.61 per share as of December 31, 2015. Among the financial strengths of Heartland BancCorp is its capital position, which exceeds regulatory guidelines and compares favorably to peers and other Ohio based banks. Tier 1 leverage, Common equity Tier 1, Tier 1 risk based and Total risk based capital ratios were 9.20%, 11.95%, 11.95%, and 12.99% respectively as of December 31, 2015. Regulatory requirements for a "well-capitalized bank" are 5%, 6.5%, 8%, and 10% respectively for these measurements. In 2015, Heartland BancCorp paid a dividend of \$1.47 per share, representing a yield of 3.26% on the weighted average market price of \$45.17 per share for 2015. Dividends paid resulted in a payout ratio of 28.26% for 2015.

6 Keeping our community SMILING

Mark Pi Jr.
President at Sunrise Foods

"Sunrise began to grow very quickly and several other banks were unable to meet our needs. Heartland Bank partnered with Ohio Development Services Agency on their Collateral Enhancement Program and was able to finance us when other banks turned us down. Heartland Bank has been able to meet our banking needs ever since!"

Victoria Burton
CFO at Burton Metal Finishings

"Heartland Bank stood beside the Burton family when many banks would have walked away. They represent many things that are difficult to find in the business world today. The employees of the bank personally know who you are and find ways with their expertise to help get you the financing that fits your needs."

Brad Jalovec
Route 62 BBQ

"Heartland Bank has been my partner in business since we opened in 2007. Being located in a small, rural community, I was looking for a bank that would take a personal interest in my business and financial matters. Over the past eight years, I have been impressed with their professional approach and personal touch. I look forward to continuing our relationship for many years to come."

Christian and Sybil McCoy
Cookie Bouquet

"Without Heartland Bank, I wouldn't be in business. Cookie Bouquets was a struggling on-line provider of cookies arranged in floral like bouquets for special occasions and holidays. I wanted to buy it and capitalize on its footprint in the world of e-Commerce. Having just completed my one year anniversary, I couldn't be happier and more proud of our performance to date. Heartland Bank is a true trusting partner in every sense of the word."

David Patel
Indus Hotels

"Indus Hotels is committed to building long-term relationships with our customers, employees, and our investors. Heartland Bank shares that same passion. Most importantly, Heartland Bank was there for us when we needed them the most; at the depth of the last recession. For that, we are extremely grateful. Thank You, Team Heartland!"

Taking Stock in Your Community

When you buy shares in Heartland BancCorp, you're supporting an entire community and a trusted institution that shares your values of hard work, personal commitment, community support and sound financial practices.

Heartland BancCorp Total Return Performance

This graph depicts the yearly percentage change in Heartland BancCorp's cumulative total shareholder return against the cumulative return of the SNL Bank Pink Sheet index of banking institutions over \$500 million in total assets and the SNL Midwest Bank index over the last 5-year fiscal periods. Calculations include the reinvestment of dividends and are indexed to the base year measurement point (closing price on the last trading day before the beginning of the registrant's fifth preceding fiscal year).

Statements made are a reflection of past performance of the bank and holding company and should not be considered a projection of future performance. Investments involve varying degrees of risk, including possible loss of principal. Funds held in corporate stock are not considered a deposit of the bank or bank holding company, not guaranteed by the bank or holding company and are not insured by the FDIC or any government agency and may lose value.
