SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

[X] ANNUAL REPORT UNDER SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE FISCAL YEAR ENDED - OCTOBER 31, 2014

OR

[ ] TRANSITION REPORT UNDER SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM _____ TO _____

COMMISSION FILE NUMBER 000-28489

ADVAXIS, INC.

(Name of Registrant in Its Charter)

Delaware	02-0563870
(State or Other Jurisdiction of Incorporation or Organization)	*(I.R.S. Employer* Identification No.)
305 College Road East Princeton, New Jersey	08540
(Address of Principal Executive Offices)	*(Zip Code)*

(609) 452-9813
(Issuer's Telephone Number)

Securities registered under Section 12(b) of the Exchange Act:	Common Stock - $.001 par value NASDAQ Capital Market
Securities registered under Section 12(g) of the Exchange Act:	[None]

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes [ ] No [X]

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act.

Yes [ ] No [X]

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes [X] No [ ]

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes [X] No [ ]

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. [ ]

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller

reporting company. See the definitions of "large accelerated filer", "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer [ ]	Accelerated filer [ ]
Non-accelerated filer [ ]	Smaller reporting company [X]

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes [ ] No [X]

As of April 30, 2014, the aggregate market value of the voting common equity held by non-affiliates was approximately $50,339,157 based on the closing bid price of the registrant's Common Stock on the NASDAQ Capital Market. (For purposes of determining this amount, only directors, executive officers, and 10% or greater shareholders and their respective affiliates have been deemed affiliates). [X]

The registrant had 23,644,808 shares of Common Stock, par value $0.001 per share, issued and outstanding as of December 26, 2014.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Proxy Statement for the registrant's 2015 Annual Meeting of Stockholders (the "Proxy Statement") to be filed within 120 days of the end of the fiscal year ended October 31, 2014 are incorporated by reference in Part III hereof. Except with respect to information specifically incorporated by reference in this Form 10-K, the Proxy Statement is not deemed to be filed as a part hereof.

PART 1

FORWARD LOOKING STATEMENTS

This Annual Report on Form 10-K contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. When used in this Annual Report, statements that are not statements of current or historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "plan", "intend", "may," "will," "expect," "believe", "could," "anticipate," "estimate," or "continue" or similar expressions or other variations or comparable terminology are intended to identify such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Except as required by law, the Company undertakes no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Item 1. Business.

General

Advaxis, Inc. ("Advaxis", "company", "we", "us", or "our") is a clinical stage biotechnology company focused on the discovery, development and commercialization of proprietary *Lm*-LLO cancer immunotherapies. These immunotherapies are based on a platform technology that utilizes live attenuated *Listeria monocytogenes* ("*Lm*" or "Listeria"), bioengineered to secrete antigen/adjuvant fusion proteins. These *Lm*-LLO strains are believed to be a significant advancement in immunotherapy as they integrate multiple functions into a single immunotherapy as they access and direct antigen presenting cells to stimulate anti-tumor T-cell immunity, stimulate and activate the immune system with the equivalent of multiple adjuvants, and simultaneously reduce tumor protection in the tumor microenvironment to enable the T-cells to eliminate tumors. Other immunotherapies may employ individual elements of our comprehensive approach, but, to our knowledge, none combine all of these elements together in a single, easily administered, well-tolerated yet comprehensive immunotherapy.

ADXS-HPV is our lead *Lm*-LLO immunotherapy product candidate for the treatment of human papilloma virus ("HPV") associated cancers. We completed a Phase 2 study in 110 patients with recurrent cervical cancer in India that demonstrated a manageable safety profile, improved survival and objective tumor responses. We plan to advance this immunotherapy into an adequate and well-controlled clinical trial for the treatment of women with recurrent cervical cancer. ADXS-HPV has received United States Food and Drug Administration ("FDA") orphan drug designation for three HPV-associated cancers: cervical, head and neck, and anal cancer, and is being evaluated in three ongoing cooperative group and investigator-initiated clinical trials as follows: locally advanced cervical cancer, head and neck cancer, and anal cancer. We also plan to initiate a Phase 1/2 clinical trial alone and in combination with MedImmune's, the global biologics research and development arm of AstraZeneca, investigational anti-PD-L1 immune checkpoint inhibitor, MEDI4736, in patients with previously treated locally advanced metastatic HPV-associated cervical cancer and HPV-associated head and neck cancer. Lastly, we are evaluating higher doses and repeat cycles of ADXS-HPV in patients with recurrent cervical cancer.

We are developing two other cancer immunotherapies. ADXS-PSA is our *Lm*-LLO immunotherapy product candidate designed to target the PSA antigen associated with prostate cancer. The FDA has cleared our Investigational New Drug ("IND") application, and we now plan to initiate a Phase 1/2 clinical trial alone and in combination with KEYTRUDA® (pembrolizumab), Merck's humanized monoclonal antibody against PD-1, in patients with previously treated metastatic castration-resistant prostate cancer. ADXS-HER2 is our *Lm*-LLO immunotherapy product candidate for the treatment of Her2 expressing cancers, including human and canine osteosarcoma, breast, gastric and other cancers. We have submitted an IND application and have received orphan drug designation for ADXS-HER2 in osteosarcoma. Over twenty distinct additional constructs have been developed and are in various stages of development, developed directly by us and through strategic collaborations with recognized centers of excellence.

Since inception in 2002, we have focused our development efforts on understanding our platform technology and establishing a drug development pipeline that incorporates this technology into therapeutic cancer immunotherapies, currently those targeting HPV-associated cancer (cervical cancer, head and neck cancer and anal cancer), prostate cancer, and HER2 expressing cancers. Although no immunotherapies have been commercialized to date, research and development and investment continues to be placed behind the advancement of this technology. Pipeline development and the further exploration of the technology for advancement entails risk and expense. We anticipate that our ongoing operational costs will increase significantly as we continue conducting and expanding our clinical development program.

From inception through the period ended January 31, 2014, we were a development stage company. During the three months ended April 30, 2014, we exited the development stage upon our execution of a license agreement with Aratana Therapeutics Inc. ("Aratana"). This provided an upfront payment of $1 million, which we properly recognized and earned as revenue.

Clinical Pipeline

Our Lm-LLO Immunotherapy Platform Technology

Our *Lm*-LLO immunotherapies are based on a platform technology under exclusive license from the Trustees of the University of Pennsylvania ("Penn"), that utilizes live attenuated *Lm* bioengineered to secrete antigen/adjuvant fusion proteins. These *Lm* strains use a fragment of the protein listeriolysin, or LLO, fused to a tumor associated antigen, or TAA, or other antigen of interest and we refer to these as *Lm*-LLO immunotherapies. Regardless of which antigen(s) is fused to LLO, the proposed mechanism of action is basically the same. We believe these *Lm*-LLO immunotherapies have the ability to redirect the potent immune response to *Lm* that is inherent in humans, to the TAA or other antigen of interest. *Lm*-LLO immunotherapies stimulate the immune system to induce antigen-specific anti-tumor immune responses involving both innate and adaptive arms of the immune system. In addition, our technology is designed to facilitate the immune response by altering the tumor microenvironment to reduce immunologic tolerance in the tumors but while leaving normal tissues unchanged. This makes the tumor more susceptible to immune attack by inhibiting the T-cells, or Tregs, and myeloid-derived suppressor cells, or MDSC that we believe promote immunologic tolerance of cancer cells in the tumor.

The field of immunotherapy is a relatively new area of cancer treatment development that holds tremendous promise to generate more effective and better tolerated treatments for cancer than the more traditional, high dose chemotherapy and radiation therapies that have been the mainstay of cancer treatment thus far. There are many approaches toward immunotherapy that have been recently approved or are in development. We believe *Lm*-LLO immunotherapies have the potential to offer a more comprehensive immunotherapy in a single, well-tolerated, easy to administer treatment than other alternative immunotherapy treatments.

Our most advanced product candidates in clinical development are ADXS-HPV, ADXS-PSA and ADXS-HER2.

ADXS-HPV Franchise

ADXS-HPV is a *Lm*-LLO immunotherapy directed against HPV and designed to target cells expressing the HPV gene E7. It is currently under investigation in three HPV-associated cancers: recurrent or persistent cervical cancer, head and neck cancer, and anal cancer, either as a monotherapy or in combination with investigational anti-PD-L1 immune checkpoint inhibitor, MEDI4736.

Cervical Cancer

There are 500,000 new cases of cervical cancer caused by HPV worldwide every year, and 12,000 new cases in the U.S. alone, according to the World Health Organization ("WHO") Human Papillomavirus and Related Cancers in the World Summary Report 2010. Current preventative vaccines cannot protect the 20 million women who are already infected with HPV; and of the high risk oncogenic strains, only HPV 16 and 18 are present in these vaccines. Challenges with acceptance, accessibility, and compliance have resulted in only a third of young women being vaccinated in the United States and even less in other countries around the world.

We completed a Phase 2 clinical study that was conducted in India in 110 women with recurrent cervical cancer. The final results, were presented at the 2014 American Society of Clinical Oncology ("ASCO") Annual Meeting, and showed that 22% (24/109) of the patients were long-term survivors ("LTS") of greater than 18 months. 18% (16/91) of patients were alive for more than 24 months. Of the 109 patients treated in the study, LTS included not only patients with tumor shrinkage but also patients who had experienced increased tumor burden. 17% (19/109) of the patients in the trial had recurrence of disease after at least two prior treatments for their cervical cancer; these patients comprised 8% (2/24) of LTS. Among the LTS, 25% (3/11) of patients had an ECOG performance status of 2, a patient population that is often times excluded from clinical trials because of their poor survival.

We have completed an End-of-Phase 2 ("EOP2") meeting with the FDA. The purpose of the EOP2 meeting was to discuss ADXS-HPV's preclinical data, Chemistry, Manufacturing and Controls ("CMC") and clinical program prior to moving ADXS-HPV forward into the next phase of clinical development in cervical cancer. At the meeting, the FDA provided guidance on our CMC activities and clinical development plan. We plan to submit our Phase 3 protocol for a Special Protocol Assessment ("SPA"), and continue to have dialogue with the FDA, incorporating their valuable guidance into our planned registration program. We are planning to initiate an adequate and well-controlled clinical trial in cervical cancer in the first half of 2015 to support a Biologics License Application ("BLA") submission in the U.S. and in other territories around the world.

The adequate and well-controlled Phase 3 clinical trial that we are planning to conduct will be a Phase 3 study of adjuvant ADXS-HPV following chemoradiation as primary treatment for high risk locally advanced cervical cancer compared to chemoradiation alone. This population has a high risk of recurrence and once recurred there is no cure. This study will evaluate both the time it takes for the cancer to recur as well as the overall survival. Our goal is to develop a treatment to prevent recurrence of cervical cancer after primary care, which is approximately 12,000 new cases each year in the U.S.

The Gynecologic Oncology Group ("GOG") of the National Cancer Institute ("NCI") is independently conducting a single arm Phase 2 study of ADXS-HPV in invasive cervical cancer in the U.S., GOG-265. This study has now completed enrollment in the first stage of 26 evaluable patients. The second stage of enrollment of 38 patients is pending. We have agreed to provide clinical material to support this study but do not control the conduct of the study.

We have entered into a clinical trial collaboration agreement with MedImmune LLC ("MedImmune"), the global biologics research and development arm of AstraZeneca, where we plan to collaborate on a Phase 1/2 study to evaluate safety and efficacy of MedImmune's investigational anti-PD-L1 immune checkpoint inhibitor, MEDI4736, in combination with our investigational *Lm*-LLO cancer immunotherapy, ADXS-HPV, as a combination treatment for patients with advanced, recurrent or refractory cervical cancer and HPV-associated head and neck cancer.

Georgia Regents University ("GRU") Cancer Center is conducting a Phase 1/2 trial evaluating higher doses and repeat cycles of ADXS-HPV in patients with recurrent cervical cancer. This Phase 1/2 study is designed to evaluate the safety, efficacy and immunological effect of the highest-tolerated dose of ADXS-HPV administered in repeat cycles of treatment to patients with cervical cancer whose disease recurred after receiving one prior cytotoxic treatment regimen.

ADXS-HPV has received orphan drug designation for invasive Stage II-IVb cervical cancer.

Head and Neck Cancer

Head and neck squamous cell carcinoma ("HNSCC") is the most frequently occurring malignant tumor of the head and neck and is a major cause of morbidity and mortality worldwide. More than 90% of HNSCCs originate from the mucosal linings of the oral cavity, pharynx, or larynx. According to the American Cancer Society, head and neck cancer accounts for about 3% to 5% of all cancers in the United States. About 55,070 new cases will be diagnosed and about 12,000 people are expected to die of head and neck cancer in the United Stated during 2014.

The safety and efficacy of ADXS-HPV is being evaluated in a Phase 1/2 study under an investigator-sponsored IND at the Icahn School of Medicine at Mount Sinai, U.S. ("Mount Sinai"), in patients with HPV-positive head and neck cancer. This clinical trial is the first study to evaluate the effects of ADXS-HPV in patients when they are initially diagnosed with HPV-associated head and neck cancer, prior to receiving any chemotherapy or radiation for their cancer.

As stated above, we recently entered into a clinical trial collaboration agreement with MedImmune to collaborate on a Phase 1/2 study to evaluate safety and efficacy of MEDI4736 in combination with ADXS-HPV as a combination treatment for patients with advanced, recurrent or refractory cervical cancer and HPV-associated head and neck cancer. The FDA has cleared our IND application and we now plan to initiate this Phase 1/2 study in early 2015.

ADXS-HPV has received orphan drug designation for HPV-associated head and neck cancer.

Anal Cancer

According to the American Cancer Society, most squamous cell anal cancers seem to be linked to infection by the HPV, the same virus that causes cervical cancer. In fact, women with a history of cervical cancer (or pre-cancer) have an increased risk of anal cancer. Anal cancer is fairly rare – much less common than cancer of the colon or rectum. About 7,210 new cases will be diagnosed and about 950 people are expected to die of anal cancer in the United States during 2014.

The safety and efficacy of ADXS-HPV is being evaluated in a Phase 1/2 study under an investigator-sponsored IND by Brown University in patients with HPV-associated anal cancer. Preliminary data from this study indicates a "clinical complete response" in all seven patients who have completed the treatment regimen.

ADXS-HPV has received orphan drug designation for HPV-associated anal cancer.

ADXS-PSA Franchise

Prostate Cancer

According to the American Cancer Society, prostate cancer is the most common type of cancer found in American men, other than skin cancer. Prostate cancer is the second leading cause of cancer death in men, behind only lung cancer. One man in six will get prostate cancer during his lifetime, and one man in 36 will die of this disease

ADXS-PSA is a *Lm*-LLO immunotherapy designed to target the PSA antigen associated with prostate cancer.

We have entered into a clinical trial collaboration and supply agreement with Merck & Co. ("Merck") to evaluate the safety and efficacy of ADXS-PSA as monotherapy and in combination with KEYTRUDA® (pembrolizumab), Merck's anti PD-1 antibody, in a Phase 1/2 study in patients with previously treated metastatic, castration-resistant prostate cancer. The FDA has cleared our IND application and we now plan to initiate this Phase 1/2 study in the first quarter of 2015.

ADXS-HER2 Franchise

HER2 Expressing Solid Tumors

ADXS-HER2 is a *Lm*-LLO immunotherapy designed to target the Her2 gene which is expressed in some solid tumor cancers such as human and canine osteosarcoma, breast, gastric and other cancers. We have submitted an IND with the FDA and plan to initiate a Phase 1b study in patients with HER2-expressing cancers in 2015. Thereafter, we intend to initiate a clinical development program with ADXS-HER2 for the treatment of pediatric osteosarcoma.

Pediatric Osteosarcoma

Pediatric osteosarcoma affects about 400 children and teens in the U.S. every year, representing a small but significant unmet medical need that has seen little therapeutic improvement in decades. Pediatric osteosarcoma is considered a rare disease and may qualify for regulatory incentives including, but not limited to, orphan drug designation, patent term extension, market exclusivity, and development grants. Given the limited availability of new treatment options for pediatric osteosarcoma, and that it is an unmet medical need affecting a very small number of patients in the U.S. annually, we believe that, subject to regulatory approval, the potential to be on the market may be accelerated.

Based on encouraging preliminary data from a veterinarian clinical study in which pet dogs with naturally occurring osteosarcoma were treated with ADXS-HER2, we intend to initiate a clinical development program with ADXS-HER2 for the treatment of pediatric osteosarcoma. In this veterinarian clinical study, pet dogs with naturally occurring osteosarcoma treated with ADXS-HER2 after the standard of care showed a statistically significant prolonged overall survival benefit compared with dogs that received standard of care without ADXS-HER2. Both veterinary and human osteosarcoma specialists consider canine osteosarcoma to be the best model for human osteosarcoma.

ADXS-HPV has received orphan drug designation for osteosarcoma.

Canine Osteosarcoma

Under the direction of Dr. Nicola Mason, the University of Pennsylvania School of Veterinary is conducting a Phase 1 study in companion dogs evaluating the safety and efficacy of ADXS-HER2 in the treatment of canine osteosarcoma. The primary endpoint of the study is to determine the maximum tolerated dose of ADXS-HER2. Secondary endpoints for the study are progression-free survival and overall survival. The preliminary findings of the Phase 1 clinical trial in dogs with osteosarcoma suggest that ADXS-HER2 is safe and well tolerated at doses up to 3 x 10^9 CFU with no evidence of cardiac, hematological, or other systemic toxicities. The study determined that ADXS-HER2 is able to delay or prevent metastatic disease and significantly prolong overall survival in dogs with osteosarcoma that had minimal residual disease following standard of care (amputation and follow-up chemotherapy). Dr. Mason presented data at the 2014 American College of Veterinary Internal Medicine ("ACVIM") Forum which showed that 80% of the dogs treated (n=15) were still alive and median survival had not yet been reached; median survival in control dogs (n=13) was 316 days. Immunological analyses are also being conducted in this study to further evaluate the immune response to ADXS-HER2.

Osteosarcoma is the most common primary bone tumor in dogs, accounting for roughly 85% of tumors on the canine skeleton. Approximately 8,000-10,000 dogs a year (predominately middle to older-aged dogs and larger breeds) are diagnosed with osteosarcoma in the United States. This cancer initially presents as lameness and oftentimes visible swelling on the leg. Current standard of care treatment is amputation immediately after diagnosis, followed by chemotherapy and sometimes radiation for palliative care.

On March 19, 2014, we entered into a definitive Exclusive License Agreement with Aratana, where we granted Aratana an exclusive, worldwide, royalty-bearing, license, with the right to sublicense, certain of our proprietary technology that enables Aratana to develop and commercialize animal health products that will be targeted for treatment of osteosarcoma and other cancer indications in animals. A product license request has been filed by Aratana for ADXS-HER2 (also known as AT-014 by Aratana) for the treatment of canine osteosarcoma with the United States Department of Agriculture ("USDA"). While the USDA has no specific obligation to respond within a prescribed timeframe, the companies expect a response from the USDA to the request for a product license within the next several months. Aratana has been granted exclusive worldwide rights by us to develop and commercialize ADXS-HER2 in animals.

Lm-LLO Combination Franchise

ADXS-HPV and MEDI4736

As stated above, we have entered into a clinical trial collaboration agreement with MedImmune, the global biologics research and development arm of AstraZeneca, where we plan to collaborate on a Phase 1/2 study to evaluate safety and efficacy of MedImmune's investigational anti-PD-L1 immune checkpoint inhibitor, MEDI4736, in combination with our investigational *Lm*-LLO cancer immunotherapy, ADXS-HPV, as a combination treatment for patients with advanced, recurrent or refractory cervical cancer and HPV-associated head and neck cancer. The FDA has cleared our IND application and we now plan to initiate this Phase 1/2 in early 2015.

ADXS-PSA and MK-3475

As stated above, we have entered into a clinical trial collaboration agreement with Merck to evaluate the safety and efficacy of ADXS-PSA as monotherapy and in combination with KEYTRUDA® (pembrolizumab), Merck's anti PD-1 antibody, in a Phase 1/2 study in patients with previously treated metastatic, castration-resistant prostate cancer. The FDA has cleared our IND application and we now plan to initiate this Phase 1/2 in the first quarter of 2015.

Lm-LLO and GRU

We have a non-clinical research agreement with GRU which provides research collaboration of the in vitro effect of our *Lm*-LLO cancer immunotherapy technology evaluating it in combination with other immunotherapies, including, but not limited to, anti-PD-1 immune checkpoint inhibitors.

Corporate Information

We were originally incorporated in the State of Colorado on June 5, 1987 under the name Great Expectations, Inc. We were a publicly-traded "shell" company without any business until November 12, 2004 when we acquired Advaxis, Inc., a Delaware corporation, through a Share Exchange and Reorganization Agreement, dated as of August 25, 2004, which we refer to as the Share Exchange, by and among Advaxis, the stockholders of Advaxis and us. As a result of the Share Exchange, Advaxis became our wholly-owned subsidiary and our sole operating company. On December 23, 2004, we amended and restated our articles of incorporation and changed our name to Advaxis, Inc. On June 6, 2006, our stockholders approved the reincorporation of our company from Colorado to Delaware by merging the Colorado entity into our wholly-owned Delaware subsidiary. Our date of inception, for financial statement purposes, is March 1, 2002.

Our principal executive offices are located at 305 College Road East, Princeton, New Jersey 08540 and our telephone number is (609) 452-9813. We maintain a website at www.advaxis.com which contains descriptions of our technology, our product candidates and the trial status of each drug.

Intellectual Property

Protection of our intellectual property is important to our business. We have a robust and extensive patent portfolio that protects our product candidates and *Lm*-based immunotherapy technology. Currently, our patent portfolio includes 53 issued patents and 75 pending patent applications. All of these patents and patent applications are exclusively licensed from Penn with the exception of 33 pending patent applications, which are owned by us. We continuously add to this portfolio by filing applications to protect our ongoing research and development efforts. We aggressively prosecute and defend our patents and proprietary technology. Our material patents that cover the compositions of matter, use, and methods thereof, of our *Lm*-LLO immunotherapies for our product candidates, ADXS-HPV, ADXS-PSA, and ADXS-HER2, expire at various dates between 2015 and 2035, prior to available patent extensions.

Our approach to the intellectual property portfolio is to create, maintain, protect, enforce and defend our proprietary rights for the products we develop from our immunotherapy technology platform. We endeavor to maintain a coherent and aggressive strategic approach to building our patent portfolio with an emphasis in the field of cancer vaccines.

We successfully defended our intellectual property concerning our *Lm*-based technology by contesting a challenge made by Anza Therapeutics, Inc. (now known as Aduro BioTech), to our patent position in Europe on a claim not available in the United States. The European Patent Office ("EPO") Board of Appeals in Munich, Germany ruled in favor of the Trustees of Penn and us, Penn's exclusive licensee, and reversed a patent ruling that revoked a technology patent that had resulted from an opposition filed by Anza. The ruling of the EPO Board of Appeals is final and cannot be appealed. The granted claims, the subject matter of which was discovered by Dr. Yvonne Paterson, are directed to the method of preparation and composition of matter of recombinant bacteria expressing tumor antigens for the treatment of patients with cancer. The successful development of our immunotherapies will include our ability to create and maintain intellectual property related to our product candidates.

Issued patents which are relevant to and cover our product candidates ADXS-HPV, and ADXS-PSA in the United States, will expire between 2015 and 2025. Issued patents directed to our product candidates ADXS-HPV, and ADXS-PSA outside of the United States, will expire between 2015 and 2025. Issued patents which cover our *Lm*-based immunotherapy platform in the United States, will expire between 2016 and 2030. Issued patents directed to our *Lm*-based immunotherapy platform outside of the United States, will expire between 2018 and 2030.

We have issued patents directed to methods of treatment by using our product candidates ADXS-HPV and ADXS-PSA in the United States, which will expire between 2015 and 2026. Issued patents directed to use of our product candidates: ADXS-HPV and ADXS-PSA for indications outside of the United States, will expire between 2015 and 2028.

We have pending patent applications for use of our product candidates ADXS-HPV, ADXS-PSA, ADXS-HER2 covering the following indications: a her2/neu-expressing cancer, a prostate cancer, cervical dysplasia, and cervical cancer that, if issued would expire in the United States and in countries outside of the United States between 2020 and 2035, depending on the specific indications.

We will be able to protect our technology from unauthorized use by third parties only to the extent it is covered by valid and enforceable patents or is effectively maintained as trade secrets. Patents and other proprietary rights are an essential element of our business.

Our success will depend in part on our ability to obtain and maintain proprietary protection for our product candidates, technology, and know-how, to operate without infringing on the proprietary rights of others, and to prevent others from infringing our proprietary rights. Our policy is to seek to protect our proprietary position by, among other methods, filing U.S. and foreign patent applications related to our proprietary technology, inventions, and improvements that are important to the development of our business. We also rely on trade secrets, know-how, continuing technological innovation, and in-licensing opportunities to develop and maintain our proprietary position.

Any patent applications which we have filed or will file or to which we have or will have license rights may not issue, and patents that do issue may not contain commercially valuable claims. In addition, any patents issued to us or our licensors may not afford meaningful protection for our products or technology, or may be subsequently circumvented, invalidated, narrowed, or found unenforceable. Our processes and potential products may also conflict with patents which have been or may be granted to competitors, academic institutions or others. As the pharmaceutical industry expands and more patents are issued, the risk increases that our processes and potential products may give rise to interferences filed by others in the U.S. Patent and Trademark Office, or to claims of patent infringement by other companies, institutions or individuals. These entities or persons could bring legal actions against us claiming damages and seeking to enjoin clinical testing, manufacturing and marketing of the related product or process. In recent years, several companies have been extremely aggressive in challenging patents covering pharmaceutical products, and the challenges have often been successful. If any of these actions are successful, in addition to any potential liability for damages, we could be required to cease the infringing activity or obtain a license in order to continue to manufacture or market the relevant product or process. We may not prevail in any such action and any license required under any such patent may not be made available on acceptable terms, if at all. Our failure to successfully defend a patent challenge or to obtain a license to any technology that we may require to commercialize our technologies or potential products could have a materially adverse effect on our business. In addition, changes in either patent laws or in interpretations of patent laws in the United States and other countries may materially diminish the value of our intellectual property or narrow the scope of our patent protection.

We also rely upon unpatented proprietary technology, and in the future may determine in some cases that our interests would be better served by reliance on trade secrets or confidentiality agreements rather than patents or licenses. We may not be able to protect our rights to such unpatented proprietary technology and others may independently develop substantially equivalent technologies. If we are unable to obtain strong proprietary rights to our processes or products after obtaining regulatory clearance, competitors may be able to market competing processes and products.

Others may obtain patents having claims which cover aspects of our products or processes which are necessary for, or useful to, the development, use or manufacture of our services or products. Should any other group obtain patent protection with respect to our discoveries, our commercialization of potential therapeutic products and methods could be limited or prohibited.

The Drug Development Process

The product candidates in our pipeline are at various stages of preclinical and clinical development. The path to regulatory approval includes multiple phases of clinical trials in which we collect data to support an application to regulatory authorities to allow us to market a product for the diagnosis, cure, mitigation, treatment, or prevention of a specified disease. There are many difficulties and uncertainties inherent in research and development of new products, resulting in a high rate of failure. To bring a drug from the discovery phase to regulatory approval, and ultimately to market, takes many years and significant costs.

Clinical testing, known as clinical trials or clinical studies, is either conducted internally by a pharmaceutical or biotechnology company or is conducted on behalf of these companies by Clinical Research Organizations ("CRO"). The process of conducting clinical studies is highly regulated by the FDA, as well as by other governmental and professional bodies. In a clinical trial, participants receive specific interventions according to the research plan or protocol created by the investigators. Clinical trials may compare a new medical approach to a standard one that is already available or to a placebo that contains no active ingredients or to no intervention. Some clinical trials compare interventions that are already available to each other. When a new product or approach is being studied, it is not usually known whether it will be helpful, harmful, or no different than available alternatives. The investigators try to determine the safety and efficacy of the intervention by measuring certain outcomes in the participants.

Phase 1. Phase 1 clinical trials begin when regulatory agencies allow initiation of clinical investigation of a new drug or product candidate. They typically involve testing an investigational new drug on a limited number of patients. Phase 1 studies determine a drug's basic safety, maximum tolerated dose and how the drug is absorbed by, and eliminated from, the body. Typically, cancer therapies are initially tested on late stage cancer patients.

Phase 2. Phase 2 clinical trials involve larger numbers of patients that have been diagnosed with the targeted disease or condition. Phase 2 clinical trials gather preliminary data on effectiveness (where the drug works in people who have a certain disease or condition) and to determine the common short-term side effects and risks associated with the drug. If Phase 2 clinical trials show that an investigational new drug has an acceptable range of safety risks and probable effectiveness, a company will continue to evaluate the investigational new drug in Phase 3 studies.

Phase 3. Phase 3 clinical trials are typically controlled multi-center trials that involve a larger number of patients to ensure the study results are statistically significant. The purpose is to confirm effectiveness and safety on a large scale and to provide an adequate basis for physician labeling. These trials are generally global in nature and are designed to generate clinical data necessary to submit an application for marketing approval to regulatory agencies.

Biologic License Application (BLA). The results of the clinical trials using biologics are submitted to the FDA as part of a BLA. Following the completion of Phase 3 studies, if the Sponsor of a potential product in the United States believes it has sufficient information to support the safety and effectiveness of the investigational new drug, the Sponsor submits a BLA to the FDA requesting that the investigational new drug be approved for sale. The application is a comprehensive, multi-volume filing that includes the results of all preclinical and clinical studies, information about the drug's composition, and the Sponsor's plans for manufacturing, packaging, labeling and testing the investigational new drug. The FDA's review of an application is designated either as a standard review with a target review time of 10 months or a priority review with a target of 6 months. Depending upon the completeness of the application and the number and complexity of follow-up requests and responses between the FDA and the Sponsor, the review time can take months to many years. Once approved through this process, a drug may be marketed in the United States, subject to any conditions imposed by the FDA.

The current state of development of our candidates in various areas are outlined in the following table:

			Development Status				
Product	**Indication**	**Stage**	**Pre-Clinical**	**Phase I**	**Phase II**	**Phase III**	**Sponsor / Partner**
ADXS-HPV (HPV-E7)	Cervical *	Locally Advanced				2015	Advaxis / GOG
ADXS-HPV (HPV-E7)	Cervical *	2nd Line Met			x		GOG
ADXS-HPV (HPV-E7)	Head & Neck *	Newly diagnosed			x		Mt. Sinai
ADXS-HPV (HPV-E7)	Anal *	Met			x		BrUOG
ADXS-HPV (HPV-E7)	Cervical/H&N	Met		2015	2015		Advaxis / MedImmune
ADXS-HPV (HPV-E7)	High Dose	Met		2015			Advaxis / GRU
ADXS-PSA (PSA)	Prostate	mCRPC		2015	2015		Advaxis / Merck
ADXS-HER2 (Her2/Neu)	Expressing	Met HER2 expressing		2015			Advaxis
ADXS-HER2 (Her2/Neu)	Osteosarcoma *	HER2 expressing			2016		Advaxis
Survivin	Lymphoma		x				Aratana (Pre-Veterinary Trials)
Survivin	Pan-tumor antigen		x				Advaxis
PSCA	Prostate		x				Advaxis
HMWW-MAA	Melanoma		x				Advaxis
HMWW-MAA	Neovas cularization		x				Advaxis
WT-1	Pan-tumor antigens		x				Advaxis
CEA	Ovarian		x				Advaxis
CA9	Renal		x				Advaxis
CA9	Hypoxic Solid Tumrs		x				Advaxis
VEGF r2	Solid tumors		x				Advaxis
p53	Breast		x				Advaxis
IL-13R Alpha2	Hypoxic Solid Tumrs		x				Advaxis
FAP	Colorectal		x				Advaxis
SCCE (Kallikrin related peptidase 7)	Pan Tumors (e.g. Melanoma, Pancreatic)		x				Advaxis
ISG-15	Bladder		x				Advaxis
ISG-15	Others		x				Advaxis
Endoglin (CD-105)	Tumor (BrCa) anit-angiogenesis		x				Advaxis
PSA + HMWMAA	Prostate		x				Advaxis
Her2/neu + HMWMAA	Breast		x				Advaxis
Her2/neu + HMWMAA	Others		x				Advaxis
Her2/neu + CA9	Breast		x				Advaxis
Her2/neu + CA9	Others		x				Advaxis

* Orphan Drug Designation

Government Regulations

General

Government authorities in the United States and other countries extensively regulate, among other things, the preclinical and clinical testing, manufacturing, labeling, storage, record-keeping, advertising, promotion, export, marketing and distribution of biologic products. In the United States, the FDA subjects pharmaceutical and biologic products to rigorous review under the Federal Food, Drug and Cosmetic Act, the Public Health Service Act and other federal statutes and regulations.

Orphan Drug Designation

Under the Orphan Drug Act ("ODA"), the FDA may grant Orphan Drug Designation ("ODD") to a drug or biological product intended to treat a rare disease or condition, which means a disease or condition that affects fewer than 200,000 individuals in the United States, or more than 200,000 individuals in the United States, but for which there is no reasonable expectation that the cost of developing and making a drug or biological product available in the United States will be recovered from domestic sales of the product.

The benefits of ODD can be substantial, including research and development tax credits and exemption from user fees, enhanced access to advice from the FDA while the drug is being developed, and market exclusivity once the product reaches approval and begins sales, provided that the new product is first to market and that this new product has not been previously approved for the same orphan disease or condition, with or without orphan drug designation. In order to qualify for these incentives, a company must apply for designation of its product as an "Orphan Drug" and obtain approval from the FDA. Orphan product designation does not convey any advantage in or shorten the duration of the regulatory review and approval process. A drug that is approved for the ODD indication is granted seven years of orphan drug exclusivity. During that period, the FDA generally may not approve any other application for the same product for the same indication, although there are exceptions, most notably when the later product is shown to be clinically superior to the product with exclusivity.

We currently have ODD with the FDA for ADXS-HPV for treatment of HPV-associated anal cancer (granted August 2013), HPV-associated head and neck cancer (granted November 2013); and treatment of Stage II-IV invasive cervical cancer (granted May 2014). We also have ODD with the FDA for ADXS-HER2 for the treatment of osteosarcoma (granted May 2014).

Non-U.S. Regulation

Before our products can be marketed outside the United States, they are subject to regulatory approval of the respective authorities in the country in which the product should be marketed. The requirements governing the conduct of clinical trials, product licensing, pricing and reimbursement vary widely from country to country. No action can be taken to market any product in a country until an appropriate application has been approved by the regulatory authorities in that country. The time spent in gaining approval varies from that required for FDA approval, and in certain countries, the sales price of a product must also be approved. The pricing review period often begins after market approval is granted. Even if a product is approved by a regulatory authority, satisfactory prices might not be approved for such product.

Collaborations, Partnerships and Agreements

Biocon Limited

On January 20, 2014, we entered into a Distribution and Supply Agreement ("Biocon Agreement") with Biocon Limited, a company incorporated under the laws of India ("Biocon").

Pursuant to the Biocon Agreement, we granted Biocon an exclusive license (with a right to sublicense) to (i) use our data from clinical development activities, regulatory filings, technical, manufacturing and other information and know-how to enable Biocon to submit regulatory filings for ADXS-HPV in the following territories: India, Malaysia, Bangladesh, Bhutan, Maldives, Myanmar, Nepal, Pakistan, Sri Lanka, Bahrain, Jordan, Kuwait, Oman, Saudi Arabia, Qatar, United Arab Emirates, Algeria, Armenia, Egypt, Eritrea, Iran, Iraq, Lebanon, Libya, Sudan, Syria, Tunisia and Yemen (collectively, the "Territory") and (ii) import, promote, market, distribute and sell pharmaceutical products containing ADXS-HPV. ADXS-HPV is based on a novel platform technology using live, attenuated bacteria that are bio-engineered to secrete an antigen/adjuvant fusion protein(s) that is designed to redirect the powerful immune response all human beings have to the bacterium against their cancer.

Under the Biocon Agreement, Biocon has agreed to use its commercially reasonable efforts to obtain regulatory approvals for ADXS-HPV in India. In the event Phase 2 or Phase 3 clinical trials are required, we shall conduct such trials at our cost, provided that if we are unable to commence such clinical trials, Biocon may conduct such clinical trials, subject to reimbursement of costs by us. Biocon has agreed to commence commercial distribution of ADXS-HPV no later than 9 months following receipt of regulatory approvals in a country in the Territory. Biocon will be responsible for the costs of obtaining and maintaining regulatory approvals in the Territory.

We will have the exclusive right to supply ADXS-HPV to Biocon and Biocon will be required to purchase its requirements of ADXS-HPV exclusively from us at the specified contract price, as such price may be adjusted from time to time. The supply price agreed upon between the parties will be correlated to the net sales of the product during the preceding contract year. In addition, we will be entitled to a six-figure milestone payment if net sales of ADXS-HPV for the contract year following the initiation of clinical trials in India exceed certain specified thresholds.

Biocon will also have a right of first refusal relating to the licensing of any new products in the Territory that we may develop during the term of the Biocon Agreement.

The term of the Biocon Agreement will be the later of twenty years or the last to expire patent or patent application. In addition, the Biocon Agreement may be terminated by either party upon thirty days' written notice (i) in the event of a material breach by the other party of its obligations under the Biocon Agreement, (ii) if the other party becomes bankrupt or insolvent or (iii) if the other party undergoes a change in control.

We continue to assist Biocon with the activities necessary to develop and ultimately commercialize ADXS-HPV in the Territory.

Global BioPharma, Inc.

On December 9, 2013, we entered into an exclusive licensing agreement for the development and commercialization of ADXS-HPV with Global BioPharma, Inc. ("GBP"), a Taiwanese based biotech company funded by a group of investors led by Taiwan Biotech Co., Ltd (TBC).

GBP plans to conduct registration trials with ADXS-HPV for the treatment of advanced cervical cancer and will explore the use of our lead product candidate in several other indications including lung, head and neck, and anal cancer.

GBP will pay us event-based financial milestones, an annual development fee, and annual net sales royalty payments in the high single to double digits. In addition, as an upfront payment, GBP made an investment in us by purchasing shares of our Common Stock ("Common Stock") at market price. GBP has an option to purchase additional shares of our stock at a 150% premium to the stock price on the effective date of the agreement.

GBP will be responsible for all clinical development and commercialization costs in the GBP territory. GBP will also reimburse us $2.25 million toward our U.S. registrational study, where such payment will help to offset our development costs. GBP is committed to establishing manufacturing capabilities for its own territory and to serving as a secondary manufacturing source for us in the future. Under the terms of the agreement, we will exclusively license the rights of ADXS-HPV to GBP for the Asia, Africa, and former USSR territory, exclusive of India and certain other countries, for all HPV-associated indications. We will retain exclusive rights to ADXS-HPV for the rest of the world.

University of Pennsylvania

On July 1, 2002 we entered into an exclusive worldwide license agreement with Penn with respect to the innovative work of Yvonne Paterson, Ph.D., Associate Dean for Research at the School of Nursing at Penn, and former Professor of Microbiology at Penn, in the area of innate immunity, or the immune response attributed to immune cells, including dendritic cells, macrophages and natural killer cells, that respond to pathogens non-specifically (subject to certain U.S. government rights). This agreement was amended and restated as of February 13, 2007, and, thereafter, has been amended from time to time.

This license, unless sooner terminated in accordance with its terms, terminates upon the later of (a) the expiration of the last to expire of the Penn patent rights; or (b) twenty years after the effective date of the license. Penn may terminate the license agreement early upon the occurrence of certain defaults by us, including, but not limited to, a material breach by us of the Penn license agreement that is not cured within 60 days after notice of the breach is provided to us.

The license provides us with the exclusive commercial rights to the patent portfolio developed by Penn as of the effective date of the license, in connection with Dr. Paterson and requires us to pay various milestone, legal, filing and licensing payments to commercialize the technology. In exchange for the license, Penn received shares of our Common Stock. However, as of October 31, 2014, Penn does not own shares of our Common Stock. In addition, Penn is entitled to receive a non-refundable initial license fee, royalty payments and milestone payments based on net sales and percentages of sublicense fees and certain commercial milestones. Under the amended licensing agreement, Penn is entitled to receive 2.5% of net sales in the territory. Should annual net sales exceed $250 million, the royalty rate will increase to 2.75%, but only with respect to those annual net sales in excess of $250 million. Additionally, Penn will receive tiered sales milestone payments upon the achievement of cumulative global sales ranging between $250 million and $2 billion, with the maximum aggregate amounts payable to Penn in the event that maximum sales milestones are achieved is $40 million. Notwithstanding these royalty rates, upon first in-human commercial sale (US & EU), we have agreed to pay Penn a total of $775,000 over a four-year period as an advance minimum royalty, which shall serve as an advance royalty in conjunction with the above terms. In addition, under the license, we are obligated to pay an annual maintenance fee of $100,000 commencing on December 31, 2010, and each December 31st thereafter for the remainder of the term of the agreement until the first commercial sale of a Penn licensed product. We are responsible for filing new patents and maintaining and defending the existing patents licensed to us and we are obligated to reimburse Penn for all attorney's fees, expenses, official fees and other charges incurred in the preparation, prosecution and maintenance of the patents licensed from Penn.

Upon first regulatory approval in humans (US or EU), Penn will be entitled to a milestone payment of $600,000. Furthermore, upon the achievement of the first sale of a product in certain fields, Penn will be entitled to certain milestone payments, as follows: $2.5 million will be due upon the first in-human commercial sale (US or EU) of the first product in the cancer field and $1.0 million will be due upon the date of first in-human commercial sale (US or EU) of a product in each of the secondary strategic fields sold.

As of October 31, 2014, we had no outstanding balance with Penn under all licensing agreements.

Merck & Co., Inc.

On August 22, 2014, we entered into a Clinical Trial Collaboration and Supply Agreement (the "Merck Agreement") with Merck, pursuant to which the parties will collaborate on a Phase 1/2 dose-escalation and safety study. The Phase 1 portion of the study will evaluate the safety of our *Lm*-LLO based immunotherapy for prostate cancer, ADXS31-142 (the "Advaxis Compound") as monotherapy and in combination with KEYTRUDA® (pembrolizumab), Merck's humanized monoclonal antibody against PD-1, (the "Merck Compound") to determine a recommended Phase 2 combination dose. The Phase 2 portion will evaluate the safety and efficacy of the Advaxis Compound in combination with the Merck Compound. Both phases of the study will be in patients with previously treated metastatic castration-resistant prostate cancer. A joint development committee, comprised of equal representatives from both parties, is responsible for coordinating all regulatory and other activities under, and pursuant to, the Merck Agreement.

Each party is responsible for their own internal costs and expenses to support the study, while we will be responsible for all third party costs of conducting the study. Merck will be responsible for manufacturing and supplying the Merck Compound. We will be responsible for manufacturing and supplying the Advaxis Compound. We will be the sponsor of the study and hold the IND related to the study.

All data and results generated under the study ("Collaboration Data") will be jointly owned by the parties, except that ownership of data and information generated from sample analysis to be performed by each party on its respective compound will be owned by the party conducting such testing. All rights to all inventions and discoveries, which claim or cover the combined use of the Advaxis Compound and the Merck Compound shall belong jointly to the parties. Inventions and discoveries relating solely to the Advaxis Compound, or a live attenuated bacterial vaccine, shall be the exclusive property of us. Inventions and discoveries relating solely to the Merck Compound, or a PD-1 antagonist, shall be the exclusive property of Merck.

The Merck Agreement shall continue in full force and effect until completion of all of the obligations of the parties or a permitted termination.

MedImmune/AstraZeneca

On July 21, 2014, we entered into a Clinical Trial Collaboration Agreement (the "MedImmune Agreement") with MedImmune, the global biologics research and development arm of AstraZeneca, pursuant to which the parties intend to initiate a Phase 1/2 clinical study in the United States to evaluate the safety and efficacy of MedImmune's investigational anti-PD-L1 immune checkpoint inhibitor, MEDI4736, in combination with our investigational *Lm*-LLO cancer immunotherapy, ADXS-HPV, as a combination treatment for patients with advanced, recurrent or refractory cervical cancer and HPV-associated head and neck cancer. A joint steering committee, composed of equal representatives from both parties, is responsible for various matters associated with the collaboration, including protocol approval, as well as reviewing and monitoring the progress of the study.

MedImmune will be responsible for providing MEDI4736 at no cost, as well as costs related to the proprietary assays performed by MedImmune or a third party on behalf of MedImmune. We will be the sponsor of the study and be responsible for the submission of all regulatory filings to support the study, the negotiation and execution of the clinical trial agreements associated with each study site, and the packaging and labelling of the Advaxis and MedImmune product candidates to be used in the study and the costs associated therewith.

For a period beginning upon the completion of the study and the receipt by MedImmune of the last final report for the study and ending one hundred twenty (120) days thereafter (unless extended), MedImmune will be granted first right to negotiate in good faith in an attempt to enter into an agreement with us with respect to the development, regulatory approval and commercialization of ADXS-HPV and MEDI4736 to be used in combination with each other for the treatment or prevention of cancer. Neither party is obligated to enter into such an agreement. In the event the parties do not enter an agreement and we obtain regulatory approval for ADXS-HPV in combination with any PD-1 antibody or PD-L1 antibody, we shall pay MedImmune a royalty obligation and one-time payment.

All intellectual property rights made, conceived or generated through the clinical trials that relate solely to a MedImmune development product shall be owned solely by MedImmune. All intellectual property rights made, conceived or generated through the clinical trials that relate solely to an Advaxis development product shall be owned solely by us. All intellectual property rights made, conceived or generated through the clinical trials that relate to the combination of one or more MedImmune development product and one or more Advaxis development product shall be jointly owned by both parties; provided, however that in the event the parties do not enter into a clinical development and commercialization agreement, we will not exploit, commercialize or license the joint inventions, except for the performance of its obligations under the MedImmune Agreement. MedImmune has the sole right to prosecute and enforce all patents and other intellectual property rights covering all joint inventions and all associated costs will be shared by the parties.

The MedImmune Agreement shall remain in effect until the earlier of (i) permitted termination, (ii) the parties entering into a clinical development and commercialization agreement or expiration of the negotiation period (unless extended), except with respect to rights that survive termination. Either party may terminate the MedImmune Agreement upon thirty (30) days written notice upon material breach of the other party, unless the breach is cured in such period or reasonable actions to cure the breach are initiated and pursued (if the breach is not capable of being cured during the 30-day notice period). In addition, either party may terminate the MedImmune Agreement immediately if the party determines in good faith that the trials may unreasonably affect the safety of trial subjects.

Aratana

On March 19, 2014, we entered into a definitive Exclusive License Agreement (the "Aratana Agreement") with Aratana. Pursuant to the Aratana Agreement, we granted Aratana an exclusive, worldwide, royalty-bearing, license, with the right to sublicense, under certain Advaxis proprietary technology that enables the design of an immunotherapy utilizing live attenuated *Lm* bioengineered to secrete fusion proteins consisting of antigen and adjuvant molecules, including certain "Constructs" and related "Compounds" (both as defined in the Aratana Agreement) in order for Aratana to develop and commercialize animal health products containing or incorporating Compounds ("Products") for use in non-human animal health applications (the "Aratana Field") that will be targeted for treatment of osteosarcoma and other cancer indications in animals. Our technology licensed to Aratana includes certain patents and patent applications, as well as related know-how, data, technical information, results and other information controlled by us during the term of the Aratana Agreement that are reasonably necessary for the development, manufacture or commercialization of any Construct, Compound or Product.

In addition to the Constructs licensed by Aratana upon signing of the Aratana Agreement, Aratana also has a right of first refusal to license additional constructs from us in the future if we develop (on its own or upon request of Aratana) new constructs which are reasonably believed to be suitable for treating osteosarcoma and certain other cancer indications ("Additional Constructs"). If the parties agree upon the terms pursuant to which such Additional Constructs shall be added as Constructs under the Aratana Agreement, such Additional Constructs will be added by virtue of an amendment to the Aratana Agreement.

Aratana has granted us an exclusive, worldwide, royalty-free, fully-paid, irrevocable and perpetual license, with the right to sublicense, under Aratana's existing technology, and any related sole Aratana development or Aratana's rights in any joint inventions which may be developed by the parties during the course of the Aratana Agreement, solely for us to develop and commercialize our products for any and all uses outside of the Aratana Field, including, without limitation, all human health applications. The Aratana technology to be licensed to us will include any patents or patent applications controlled by Aratana during the term of the Aratana Agreement that claim or cover the manufacture, use, sale, offer for sale or import of any Products as well as related know-how, data, technical information, results and other information controlled by Aratana during the term of the Aratana Agreement that is necessary or useful in the development, manufacture or commercialization of any Compound, Construct or Product.

Under the terms of the Aratana Agreement, Aratana paid an upfront payment to us in the amount of $1,000,000 upon signing of the Aratana Agreement. Aratana will also pay us (a) up to $36.5 million based on the achievement of milestone relating to the advancement of Products through the approval process with the USDA in the United States and the relevant regulatory authorities in the European Union ("E.U.") in all four therapeutic areas and up to an additional $15 million in cumulative sales milestones based on achievement of gross sales revenue targets for sales of any and all Products in the Aratana Field (regardless of therapeutic area), and (b) tiered royalties starting at 5% and going up to 10%, which will be paid based on net sales of any and all Products (regardless of therapeutic area) in the Aratana Field in the United States. Royalties for sales of Products outside of the United States will be paid at a rate equal to half of the royalty rate payable by Aratana on net sales of Products in the United States (starting at 2.5% and going up to 5%). Royalties will be payable on a Product-by-Product and country-by-country basis from first commercial sale of a Product in a country until the later of (a) the 10th anniversary of first commercial sale of such Product by Aratana, its affiliates or sub licensees in such country or (b) the expiration of the last-to-expire valid claim of our patents or joint patents claiming or covering the composition of matter, formulation or method of use of such Product in such country. Aratana will also pay us 50% of all sublicense royalties received by Aratana and its affiliates.

Furthermore, pursuant under the terms of the Aratana Agreement, we (i) issued and sold 306,122 shares of Common Stock to Aratana at a price of $4.90 per share, which was equal to the closing price of the Common Stock on the NASDAQ Capital Market on March 19, 2014, and (ii) issued a ten-year warrant to Aratana giving Aratana the right to purchase up to 153,061 additional shares of Common Stock at an exercise price of $4.90 per share. The warrant also contains a provision for cashless exercise if the fair market value of Advaxis's Common Stock for the five trading days ending three trading days prior to the exercise date is higher than the exercise price. In connection with the sale of the Common Stock and warrants, we received aggregate net proceeds of $1,500,000. We issued the shares and warrant in reliance on the exemption from registration provided by Section 4(a)(2) of the Securities Act of 1933.

On July 2, 2014, we announced that a request for a product license from the USDA has been filed for ADXS-HER2 by Aratana. While the USDA has no specific obligation to respond with a prescribed timeframe, we expect that a response from the USDA to the filing will occur within the next several months.

Master Services Agreement with inVentiv Health Clinical

On May 29, 2014, we announced that we entered into a master services agreement with inVentiv Health Clinical ("inVentiv"), a leading global Clinical Research Organization ("CRO"), for the clinical development of certain immunotherapy product candidates in our proprietary pipeline.

Under the terms of the agreement, inVentiv can provide us with full CRO services to execute clinical studies for our current cancer immunotherapy product candidates including ADXS-HPV for cervical cancer, and other HPV-associated cancer; ADXS-HER2 for pediatric osteosarcoma and other HER2 over-expressing cancer and ADXS-PSA for prostate cancer. In addition, pending regulatory approval, we can leverage inVentiv's significant commercialization capabilities in select countries, should we seek to do so.

Manufacturing

Good manufacturing practices ("GMP") are the standards identified in order to conform to requirements by governmental agencies that control authorization and licensure for manufacture and distribution of drug products for either clinical investigations or commercial sale. GMPs identify the requirements for procurement, manufacturing, testing, storage, distribution and the supporting quality systems in order to ensure that a drug product is safe for its intended application. GMPs are enforced in the United States by the FDA, under the authorities of the Federal Food, Drug and Cosmetic Act and its implementing regulations and use the phrase "current good manufacturing practices" ("cGMP") to describe these standards.

To support our development efforts, we have entered into agreements with various third-party organizations to handle the manufacturing of our product candidates and have secured contract manufacturing organizations with scale-up and commercial capabilities. These organizations have extensive experience in manufacturing and testing of biologic products for investigational studies and are full service manufacturing organizations that manufacture, test and supply synthetic and biologic based products for the pharmaceutical and biotech industry. These services include cell banking, GMP manufacturing and testing capabilities. We continue to invest in our existing chemistry and manufacturing process controls, including, but not limited to process optimization, test method development, and supporting quality systems. We also continue to evaluate and develop new technologies and capabilities to support the advancement of our development pipeline.

Competition

The biotechnology and biopharmaceutical industries are characterized by rapid technological developments and a high degree of competition. As a result, our actual or proposed immunotherapies could become obsolete before we recoup any portion of our related research and development expenses. The biotechnology and biopharmaceutical industries are highly competitive, and this competition comes from both biotechnology firms and from major pharmaceutical companies, including: Aduro Biotech, Agenus Inc., Bristol-Myers Squibb, Celgene Corporation, Celldex Therapeutics, Dendreon Corporation, Inovio Pharmaceutical Inc., Oncolytics Biotech Inc., Oncothyreon Inc., et al., each of which is pursuing cancer vaccines and/or immunotherapies.

Many of these companies have substantially greater financial, marketing, and human resources than we do (including, in some cases, substantially greater experience in clinical testing, manufacturing, and marketing of pharmaceutical products). We also experience competition in the development of our immunotherapies from universities and other research institutions and compete with others in acquiring technology from such universities and institutions. In addition, certain of our immunotherapies may be subject to competition from investigational new drugs and/or products developed using other technologies, some of which have completed numerous clinical trials.

Our competition will be determined in part by the potential indications for which drugs are developed and ultimately approved by regulatory authorities. Additionally, the timing of market introduction of some of our potential immunotherapies or of competitors' products

may be an important competitive factor. Accordingly, the speed with which we can develop immunotherapies, complete preclinical testing, clinical trials and approval processes and supply commercial quantities to market are expected to be important competitive factors. We expect that competition among products approved for sale will be based on various factors, including product efficacy, safety, reliability, acceptance, availability, price and patent position.

Employees

As of December 26, 2014, we had 20 employees, all of which were full time employees. None of our employees is represented by a labor union, and we consider our relationship with our employees to be good.

Description of Property

Our corporate offices are currently located at 305 College Road East, Princeton, New Jersey 08540. On April 1, 2011, we entered into a sublease agreement for such office, which is an approximately 10,000 square foot leased facility in Princeton, NJ. The agreement has a termination date of November 29, 2015. We plan to continue to rent necessary offices and laboratories to support our business.

On March 13, 2013, we entered into a modification of the sublease agreement whereby all unpaid accrued lease amounts and future lease amounts through June 30, 2013, which we estimated to be approximately $450,000, would be satisfied by a payment in total of $200,000, with $100,000 paid on March 13, 2013 and $100,000 paid upon the close of our public offering in October 2013. In addition, lease payments for the period July 1, 2013 through November 30, 2015 was reduced to a total of $20,000 per month.

Item 1A: Risk Factors.

You should carefully consider the risks described below as well as other information provided to you in this annual report, including information in the section of this document entitled "Forward-Looking Statements." The risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently believe are immaterial may also impair our business operations. If any of the following risks actually occur, our business, financial condition or results of operations could be materially adversely affected, the value of our Common Stock could decline, and you may lose all or part of your investment.

Risks Related to our Business and Industry

We are a clinical stage company.

We are a clinical stage biotechnology company with a history of losses and can provide no assurance as to future operating results. As a result of losses that will continue throughout our clinical stage, we may exhaust our financial resources and be unable to complete the development of our products. We anticipate that our ongoing operational costs will increase significantly as we continue conducting our clinical development program. Our deficit will continue to grow during our drug development period.

We have sustained losses from operations in each fiscal year since our inception, and we expect losses to continue for the indefinite future due to the substantial investment in research and development. As of October 31, 2014 we had an accumulated deficit of $86,991,137 and shareholders' equity of $20,629,986. We expect to spend substantial additional sums on the continued administration and research and development of proprietary products and technologies with no certainty that our immunotherapies will become commercially viable or profitable as a result of these expenditures. If we fail to raise a significant amount of capital, we may need to significantly curtail operations or cease operations in the near future. If any of our product candidates fail in clinical trials or does not gain regulatory approval, we may never become profitable. Even if we achieve profitability in the future, we may not be able to sustain profitability in subsequent periods.

Drug discovery and development is a complex, time-consuming and expensive process that is fraught with risk and a high rate of failure.

Product candidates are subject to extensive pre-clinical testing and clinical trials to demonstrate their safety and efficacy in humans. Conducting pre-clinical testing and clinical trials is a lengthy, time-consuming and expensive process that takes many years. We cannot be sure that pre-clinical testing or clinical trials of any of our product candidates will demonstrate the safety, efficacy and benefit-to-risk profile necessary to obtain marketing approvals. In addition, product candidates that experience success in pre-clinical testing and early-stage clinical trials will not necessarily experience the same success in late-stage clinical trials, which are required for marketing approval.

Even if we are successful in advancing a product candidate into the clinical development stage, before obtaining regulatory and marketing approvals, we must demonstrate through extensive human clinical trials that the product candidate is safe and effective for its intended use. Human clinical trials must be carried out under protocols that are acceptable to regulatory authorities and to the independent committees responsible for the ethical review of clinical studies. There may be delays in preparing protocols or receiving approval for them that may delay the start or completion of the clinical trials. In addition, clinical practices vary globally, and there is a lack of harmonization among the guidance provided by various regulatory bodies of different regions and countries with respect to the data that is required to receive marketing approval, which makes designing global trials increasingly complex. There are a number of additional factors that may cause our clinical trials to be delayed, prematurely terminated or deemed inadequate to support regulatory approval, such as:

● unforeseen safety issues (including those arising with respect to trials by third parties for compounds in a similar class as our product or product candidate), inadequate efficacy, or an unacceptable risk-benefit profile observed at any point during or after completion of the trials;

● slower than expected rates of patient enrollment, which could be due to any number of factors, including failure of our third-party vendors, including our CROs, to effectively perform their obligations to us, a lack of patients who meet the enrollment criteria or competition from clinical trials in similar product classes or patient populations;

● the risk of failure of our clinical investigational sites and related facilities, including our suppliers, to maintain compliance with the FDA's cGMP regulations or similar regulations in countries outside of the U.S., including the risk that these sites fail to pass inspections by the appropriate governmental authority, which could invalidate the data collected at that site or place the entire clinical trial at risk;

● any inability to reach agreement or lengthy discussions with the FDA, equivalent regulatory authorities, or ethical review committees on trial design that we are able to execute;

● changes in laws, regulations, regulatory policy or clinical practices, especially if they occur during ongoing clinical trials or shortly after completion of such trials.

● clinical trial record keeping or data quality and accuracy issues.

Any deficiency in the design, implementation or oversight of our development programs could cause us to incur significant additional costs, experience significant delays, prevent us from obtaining marketing approval for any product candidate or abandon development of certain product candidates, any of which could harm our business and cause our stock price to decline.

Our limited operating history does not afford investors a sufficient history on which to base an investment decision.

We commenced our *Lm*-LLO based immunotherapy development business in February 2002 and today exist as a clinical stage company. Prior thereto we conducted no business. Accordingly, we have a limited operating history. We have no approved products and therefore have not derived any significant revenue from the sales of products and have not yet demonstrated ability to obtain regulatory approval, formulate and manufacture commercial scale products, or conduct sales and marketing activities necessary for successful product commercialization. Consequently, there is limited information for investors to use as basis for assessing our future viability. Investors must consider the risks and difficulties we have encountered in the rapidly evolving vaccine and immunotherapy industry. Such risks include the following:

- difficulties, complications, delays and other unanticipated factors in connection with the development of new drugs;
- competition from companies that have substantially greater assets and financial resources than we have;
- need for acceptance of our immunotherapies;
- ability to anticipate and adapt to a competitive market and rapid technological developments;
- need to rely on multiple levels of complex financing agreements with outside funding due to the length of drug development cycles and governmental approved protocols associated with the pharmaceutical industry; and
- dependence upon key personnel including key independent consultants and advisors.

We cannot be certain that our strategy will be successful or that we will successfully address these risks. In the event that we do not successfully address these risks, our business, prospects, financial condition and results of operations could be materially and adversely affected. We may be required to reduce our staff, discontinue certain research or development programs of our future products and cease to operate.

We may face legal claims; Litigation is expensive and we may not be able to afford the costs.

We may face legal claims involving stockholders, consumers, competitors, and other issues. As described in "Legal Proceedings" in Part I Item 3 of this Form 10-K, we are engaged in a number of legal proceedings. Litigation and other legal proceedings are inherently uncertain, and adverse rulings could occur, including monetary damages, or an injunction stopping us from engaging in business practices, or requiring other remedies, such as compulsory licensing of patents.

The costs of litigation or any proceeding relating to our intellectual property or contractual rights could be substantial even if resolved in our favor. Some of our competitors or financial funding sources have far greater resources than we do and may be better able to afford the costs of complex litigation. Also, in a law suit for infringement or contractual breaches, even if frivolous, will require considerable time commitments on the part of management, our attorneys and consultants. Defending these types of proceedings or legal actions involve considerable expense and could negatively affect our financial results.

We can provide no assurance of the successful and timely development of new products.

Our immunotherapies are at various stages of research and development. Further development and extensive testing will be required to determine their technical feasibility and commercial viability. We will need to complete significant additional clinical trials demonstrating that our product candidates are safe and effective to the satisfaction of the FDA and other non-U.S. regulatory authorities. The drug approval process is time-consuming, involves substantial expenditures of resources, and depends upon a number of factors, including the severity of the illness in question, the availability of alternative treatments, and the risks and benefits demonstrated in the clinical trials. Our success will depend on our ability to achieve scientific and technological advances and to translate such advances into licensable, FDA-approvable, commercially competitive products on a timely basis. Failure can occur at any stage of the process. If such programs are not successful, we may invest substantial amounts of time and money without developing revenue-producing products. As we enter a more extensive clinical program for our product candidates, the data generated in these studies may not be as compelling as the earlier results.

The proposed development schedules for our immunotherapies may be affected by a variety of factors, including technological difficulties, clinical trial failures, regulatory hurdles, competitive products, intellectual property challenges and/or changes in governmental regulation, many of which will not be within our control. Any delay in the development, introduction or marketing of our products could result either in such products being marketed at a time when their cost and performance characteristics would not be competitive in the marketplace or in the shortening of their commercial lives. In light of the long-term nature of our projects, the unproven technology involved and the other factors described elsewhere in this section, there can be no assurance that we will be able to successfully complete the development or marketing of any new products.

Our research and development expenses are subject to uncertainty.

Factors affecting our research and development expenses include, but are not limited to:

- competition from companies that have substantially greater assets and financial resources than we have;
- need for acceptance of our immunotherapies;
- ability to anticipate and adapt to a competitive market and rapid technological developments;
- amount and timing of operating costs and capital expenditures relating to expansion of our business, operations and infrastructure;
- need to rely on multiple levels of outside funding due to the length of drug development cycles and governmental approved protocols associated with the pharmaceutical industry; and
- dependence upon key personnel including key independent consultants and advisors.

There can be no guarantee that our research and development expenses will be consistent from period to period. We may be required to accelerate or delay incurring certain expenses depending on the results of our studies and the availability of adequate funding.

We are subject to numerous risks inherent in conducting clinical trials.

We outsource the management of our clinical trials to third parties. Agreements with clinical research organizations, clinical investigators and medical institutions for clinical testing and data management services, place substantial responsibilities on these parties that, if unmet, could result in delays in, or termination of, our clinical trials. For example, if any of our clinical trial sites fail to comply with FDA-approved good clinical practices, we may be unable to use the data gathered at those sites. If these clinical investigators, medical institutions or other third parties do not carry out their contractual duties or obligations or fail to meet expected deadlines, or if the quality or accuracy of the clinical data they obtain is compromised due to their failure to adhere to our clinical protocols or for other reasons, our clinical trials may be extended, delayed or terminated, and we may be unable to obtain regulatory approval for, or successfully commercialize, our agents. We are not certain that we will successfully recruit enough patients to complete our clinical trials nor that we will reach our primary endpoints. Delays in recruitment, lack of clinical benefit or unacceptable side effects would delay or prevent the initiation of future development of our agents.

We or our regulators may suspend or terminate our clinical trials for a number of reasons. We may voluntarily suspend or terminate our clinical trials if at any time we believe they present an unacceptable risk to the patients enrolled in our clinical trials or do not demonstrate clinical benefit. In addition, regulatory agencies may order the temporary or permanent discontinuation of our clinical trials at any time if they believe that the clinical trials are not being conducted in accordance with applicable regulatory requirements or that they present an unacceptable safety risk to the patients enrolled in our clinical trials.

Our clinical trial operations are subject to regulatory inspections at any time. If regulatory inspectors conclude that we or our clinical trial sites are not in compliance with applicable regulatory requirements for conducting clinical trials, we may receive reports of observations or warning letters detailing deficiencies, and we will be required to implement corrective actions. If regulatory agencies deem our responses to be inadequate, or are dissatisfied with the corrective actions we or our clinical trial sites have implemented, our clinical trials may be temporarily or permanently discontinued, we may be fined, we or our investigators may be precluded from conducting any ongoing or any future clinical trials, the government may refuse to approve our marketing applications or allow us to manufacture or market our products, and we may be criminally prosecuted.

The lengthy approval process as well as the unpredictability of future clinical trial results may result in our failing to obtain regulatory approval for our product candidates, which would materially harm our business, results of operations and prospects.

The successful development of immunotherapies is highly uncertain.

Successful development of biopharmaceuticals is highly uncertain and is dependent on numerous factors, many of which are beyond our control. Immunotherapies that appear promising in the early phases of development may fail to reach the market for several reasons including:

- preclinical study results that may show the immunotherapy to be less effective than desired (e.g., the study failed to meet its primary objectives) or to have harmful or problematic side effects;
- clinical study results that may show the immunotherapy to be less effective than expected (e.g., the study failed to meet its primary endpoint) or to have unacceptable side effects;
- failure to receive the necessary regulatory approvals or a delay in receiving such approvals. Among other things, such delays may be caused by slow enrollment in clinical studies, length of time to achieve study endpoints, additional time requirements for data analysis, or Biologics License Application preparation, discussions with the FDA, an FDA request for additional preclinical or clinical data, or unexpected safety or manufacturing issues;
- manufacturing costs, formulation issues, pricing or reimbursement issues, or other factors that make the immunotherapy uneconomical; and
- the proprietary rights of others and their competing products and technologies that may prevent the immunotherapy from being

commercialized.

Success in preclinical and early clinical studies does not ensure that large-scale clinical studies will be successful. Clinical results are frequently susceptible to varying interpretations that may delay, limit or prevent regulatory approvals. The length of time necessary to complete clinical studies and to submit an application for marketing approval for a final decision by a regulatory authority varies significantly from one immunotherapy to the next, and may be difficult to predict.

Even if we are successful in getting market approval, commercial success of any of our product candidates will also depend in large part on the availability of coverage and adequate reimbursement from third-party payers, including government payers such as the Medicare and Medicaid programs and managed care organizations, which may be affected by existing and future health care reform measures designed to reduce the cost of health care. Third-party payers could require us to conduct additional studies, including post-marketing studies related to the cost effectiveness of a product, to qualify for reimbursement, which could be costly and divert our resources. If government and other health care payers were not to provide adequate coverage and reimbursement levels for one any of our products once approved, market acceptance and commercial success would be reduced.

In addition, if one of our products is approved for marketing, we will be subject to significant regulatory obligations regarding product promotion, the submission of safety and other post-marketing information and reports and registration, and will need to continue to comply (or ensure that our third party providers) comply with cGMPs, and Good Clinical Practices ("GCP"), for any clinical trials that we conduct post-approval. In addition, there is always the risk that we or a regulatory authority might identify previously unknown problems with a product post-approval, such as adverse events of unanticipated severity or frequency. Compliance with these requirements is costly, and any failure to comply or other issues with our product candidates' post-market approval could have a material adverse effect on our business, financial condition and results of operations.

We must comply with significant government regulations.

The research and development, manufacturing and marketing of human therapeutic and diagnostic products are subject to regulation, primarily by the FDA in the United States and by comparable authorities in other countries. These national agencies and other federal, state, local and foreign entities regulate, among other things, research and development activities (including testing in animals and in humans) and the testing, manufacturing, handling, labeling, storage, record keeping, approval, advertising and promotion of the products that we are developing. If we obtain approval for any of our product candidates, our operations will be directly or indirectly through our customers, subject to various federal and state fraud and abuse laws, including, without limitation, the federal Anti-Kickback Statue and the federal False Claims Act, and privacy laws. Noncompliance with applicable laws and requirements can result in various adverse consequences, including delay in approving or refusal to approve product licenses or other applications, suspension or termination of clinical investigations, revocation of approvals previously granted, fines, criminal prosecution, civil and criminal penalties, recall or seizure of products, exclusion from having our products reimbursed by federal health care programs, the curtailment or restructuring of our operations, injunctions against shipping products and total or partial suspension of production and/or refusal to allow a company to enter into governmental supply contracts.

The process of obtaining requisite FDA approval has historically been costly and time-consuming. Current FDA requirements for a new human biological product to be marketed in the United States include: (1) the successful conclusion of preclinical laboratory and animal tests, if appropriate, to gain preliminary information on the product's safety; (2) filing with the FDA of an IND to conduct human clinical trials for drugs or biologics; (3) the successful completion of adequate and well-controlled human clinical trials to establish the safety and efficacy of the investigational new drug for its recommended use; and (4) filing by a company and acceptance and approval by the FDA of a BLA for a biological investigational new drug, to allow commercial distribution of a biologic product. The FDA also requires that any drug or formulation to be tested in humans be manufactured in accordance with its GMP regulations. This has been extended to include any drug that will be tested for safety in animals in support of human testing. The GMPs set certain minimum requirements for procedures, record-keeping and the physical characteristics of the laboratories used in the production of these drugs. A delay in one or more of the procedural steps outlined above could be harmful to us in terms of getting our immunotherapies through clinical testing and to market.

We can provide no assurance that our clinical product candidates will obtain regulatory approval or that the results of clinical studies will be favorable.

We are currently evaluating the safety and efficacy of several of our candidates in a number of ongoing pre-clinical and clinical trials. However, even though the initiation and conduct of the clinical trials is in accordance with the governing regulatory authorities in each country, as with any investigational new drug (under an IND in the United States, or the equivalent in countries outside of the United States), we are at risk of a clinical hold at any time based on the evaluation of the data and information submitted to the governing regulatory authorities.

There can be delays in obtaining FDA (U.S.) and/or other necessary regulatory approvals in the United States and in countries outside the United States for any investigational new drug and failure to receive such approvals would have an adverse effect on the investigational new drug's potential commercial success and on our business, prospects, financial condition and results of operations. The time required to obtain approval by the FDA and non-U.S. regulatory authorities is unpredictable but typically takes many years following the commencement of clinical trials and depends upon numerous factors, including the substantial discretion of the regulatory authorities. For example, the FDA or non-U.S. regulatory authorities may disagree with the design or implementation of our clinical trials or study endpoints; or we may be unable to demonstrate that a product candidate's clinical and other benefits outweigh its safety risks. In addition, the FDA or non-U.S. regulatory authorities may disagree with our interpretation of data from preclinical studies or clinical trials or the data collected from clinical trials of our product candidates may not be sufficient to support the submission of a New Drug Application ("NDA") or other submission or to obtain regulatory approval in the United States or elsewhere. The FDA or non-U.S. regulatory authorities may fail to approve the manufacturing processes or facilities of third-party manufacturers with which we contract for clinical and commercial supplies; and the approval policies or regulations of the FDA or non-U.S. regulatory authorities may significantly change in a manner rendering our clinical data insufficient for approval.

In addition to the foregoing, approval policies, regulations, or the type and amount of clinical data necessary to gain approval may change during the course of a product candidate's clinical development and may vary among jurisdictions. We have not submitted for nor obtained regulatory approval for any product candidate in-humans (US & EU) and it is possible that none of our existing product candidates or any product candidates we may seek to develop in the future will ever obtain regulatory approval.

We may not obtain or maintain the benefits associated with orphan drug designation, including market exclusivity.

Although we have been granted orphan drug designation for ADXS-HPV for use in the treatment of HPV-associated anal cancer, HPV-associated head and neck cancer, HPV-associated Stage II-IV invasive cervical cancer and for ADXS-HER2 for the treatment of osteosarcoma in the United States, and intend to request a similar designation for these uses in the European Union, we may not receive the benefits associated with orphan drug designation. This may result from a failure to maintain orphan drug status, or result from a competing product reaching the market that has an orphan designation for the same disease indication. Under U.S. rules for orphan drugs, if such a competing product reaches the market before ours does, the competing product could potentially obtain a scope of market exclusivity that limits or precludes our product from being sold in the United States for seven years. Even if we obtain exclusivity, the FDA could subsequently approve the same drug for the same condition if the FDA concludes that the later drug is clinically superior in that it is shown to be safer, more effective or makes a major contribution to patient care. A competitor also may receive approval of different products for the same indication for which our orphan product has exclusivity, or obtain approval for the same product but for a different indication for which the orphan product has exclusivity.

In addition, if and when we request orphan drug designation in Europe, the European exclusivity period is ten years but can be reduced to six years if the drug no longer meets the criteria for orphan drug designation or if the drug is sufficiently profitable so that market exclusivity is no longer justified. Orphan drug exclusivity may be lost if the FDA or EMEA determines that the request for designation was materially defective or if the manufacturer is unable to assure sufficient quantity of the drug to meet the needs of patients with the rare disease or condition.

We rely upon patents to protect our technology. We may be unable to protect our intellectual property rights and we may be liable for infringing the intellectual property rights of others.

Our ability to compete effectively will depend on our ability to maintain the proprietary nature of our technologies, including the *Lm*-LLO based immunotherapy platform technology, and the proprietary technology of others with whom we have entered into collaboration and licensing agreements.

We have 53 patents that have been issued and 75 patent applications that are pending. All of these patents and patent applications are licensed from Penn with the exception of 33 pending patent applications, which are owned by us. We have obtained the rights to all future patent applications in this field originating in the laboratories of Dr. Yvonne Paterson and Dr. Fred Frankel, at the University of Pennsylvania.

We own or hold licenses to a number of issued patents and U.S. pending patent applications, as well as foreign patents and foreign counterparts. Our success depends in part on our ability to obtain patent protection both in the United States and in other countries for our product candidates, as well as the methods for treating patients in the product indications using these product candidates. Such patent protection is costly to obtain and maintain, and we cannot guarantee that sufficient funds will be available. Our ability to protect our product candidates from unauthorized or infringing use by third parties depends in substantial part on our ability to obtain and maintain valid and enforceable patents. Due to evolving legal standards relating to the patentability, validity and enforceability of patents covering pharmaceutical inventions and the scope of claims made under these patents, our ability to obtain, maintain and enforce patents is uncertain and involves complex legal and factual questions. Even if our product candidates, as well as methods for treating patients for prescribed indications using these product candidates are covered by valid and enforceable patents and have claims with sufficient scope, disclosure and support in the specification, the patents will provide protection only for a limited amount of time. Accordingly, rights under any issued patents may not provide us with sufficient protection for our product candidates or provide sufficient protection to afford us a commercial advantage against competitive products or processes.

In addition, we cannot guarantee that any patents will issue from any pending or future patent applications owned by or licensed to us. Even if patents have issued or will issue, we cannot guarantee that the claims of these patents are or will be valid or enforceable or will provide us with any significant protection against competitive products or otherwise be commercially valuable to us. The laws of some foreign jurisdictions do not protect intellectual property rights to the same extent as in the United States and many companies have encountered significant difficulties in protecting and defending such rights in foreign jurisdictions. Furthermore, different countries have different procedures for obtaining patents, and patents issued in different countries offer different degrees of protection against use of the patented invention by others. If we encounter such difficulties in protecting or are otherwise precluded from effectively protecting our intellectual property rights in foreign jurisdictions, our business prospects could be substantially harmed.

The patent positions of biotechnology and pharmaceutical companies, including our patent position, involve complex legal and factual questions, and, therefore, validity and enforceability cannot be predicted with certainty. Patents may be challenged, deemed unenforceable, invalidated, or circumvented as a result of laws, rules and guidelines that are changed due to legislative, judicial or administrative actions, or review, which render our patents unenforceable or invalid. Our patents can be challenged by our competitors who can argue that our patents are invalid, unenforceable, lack utility, sufficient written description or enablement, or that the claims of the issued patents should be limited or narrowly construed. Patents also will not protect our product candidates if competitors devise ways of making or using these product candidates without infringing our patents.

We will be able to protect our proprietary rights from unauthorized use by third parties only to the extent that our technologies, methods of treatment, product candidates, and any future products are covered by valid and enforceable patents or are effectively maintained as trade secrets and we have the funds to enforce our rights, if necessary.

The expiration of our owned or licensed patents before completing the research and development of our product candidates and receiving all required approvals in order to sell and distribute the products on a commercial scale can adversely affect our business and results of operations.

Litigation regarding patents, patent applications and other proprietary rights may be expensive and time consuming. If we are involved in such litigation, it could cause delays in bringing product candidates to market and harm our ability to operate.

Our success will depend in part on our ability to operate without infringing the proprietary rights of third parties. The pharmaceutical industry is characterized by extensive litigation regarding patents and other intellectual property rights. Other parties may obtain patents in the future and allege that the products or use of our technologies infringe these patent claims or that we are employing their proprietary technology without authorization.

In addition, third parties may challenge or infringe upon our existing or future patents. Proceedings involving our patents or patent applications or those of others could result in adverse decisions regarding:

- the patentability of our inventions relating to our product candidates; and/or
- the enforceability, validity or scope of protection offered by our patents relating to our product candidates.

Even if we are successful in these proceedings, we may incur substantial costs and divert management time and attention in pursuing these proceedings, which could have a material adverse effect on us. If we are unable to avoid infringing the patent rights of others, we may be required to seek a license, defend an infringement action or challenge the validity of the patents in court. Patent litigation is costly and time consuming. We may not have sufficient resources to bring these actions to a successful conclusion. In addition, if we do not obtain a license, develop or obtain non-infringing technology, fail to defend an infringement action successfully or have infringed patents declared valid, we may:

- incur substantial monetary damages;
- encounter significant delays in bringing our product candidates to market; and/or
- be precluded from participating in the manufacture, use or sale of our product candidates or methods of treatment requiring licenses.

We may be unable to adequately prevent disclosure of trade secrets and other proprietary information.

We also rely on trade secrets to protect our proprietary technologies, especially where we do not believe patent protection is appropriate or obtainable. However, trade secrets are difficult to protect. We rely in part on confidentiality agreements with our employees, consultants, outside scientific collaborators, sponsored researchers, and other advisors to protect our trade secrets and other proprietary information. These agreements may not effectively prevent disclosure of confidential information and may not provide an adequate remedy in the event of unauthorized disclosure of confidential information. In addition, others may independently discover our trade secrets and proprietary information. Costly and time-consuming litigation could be necessary to enforce and determine the scope of our proprietary rights, and failure to obtain or maintain trade secret protection could adversely affect our competitive business position.

We are dependent upon our license agreement with Penn; if we breach the license agreement and/or fail to make payments due and owing to Penn under our license agreement, our business will be materially and adversely affected.

Pursuant to the terms of our license agreement with Penn, which has been amended from time to time, we have acquired exclusive worldwide licenses for patents and patent applications related to our proprietary Listeria vaccine technology. The license provides us with the exclusive commercial rights to the patent portfolio developed at Penn as of the effective date of the license, in connection with Dr. Paterson and requires us to pay various milestone, legal, filing and licensing payments to commercialize the technology. As of October 31, 2014, we had no outstanding payments to Penn. We can provide no assurance that we will be able to make all future payments due and owing thereunder, that such licenses will not be terminated or expire during critical periods, that we will be able to obtain licenses from Penn for other rights that may be important to us, or, if obtained, that such licenses will be obtained on commercially reasonable terms. The loss of any current or future licenses from Penn or the exclusivity rights provided therein could materially harm our financial condition and operating results.

If we are unable to obtain licenses needed for the development of our product candidates, or if we breach any of the agreements under which we license rights to patents or other intellectual property from third parties, we could lose license rights that are important to our business.

If we are unable to maintain and/or obtain licenses needed for the development of our product candidates in the future, we may have to develop alternatives to avoid infringing on the patents of others, potentially causing increased costs and delays in drug development and introduction or precluding the development, manufacture, or sale of planned products. Some of our licenses provide for limited periods of exclusivity that require minimum license fees and payments and/or may be extended only with the consent of the licensor. We can provide no assurance that we will be able to meet these minimum license fees in the future or that these third parties will grant extensions on any or all such licenses. This same restriction may be contained in licenses obtained in the future.

Additionally, we can provide no assurance that the patents underlying any licenses will be valid and enforceable. To the extent any products developed by us are based on licensed technology, royalty payments on the licenses will reduce our gross profit from such product sales and may render the sales of such products uneconomical. In addition, the loss of any current or future licenses or the exclusivity rights provided therein could materially harm our business financial condition and our operations.

We have no manufacturing, sales, marketing or distribution capability and we must rely upon third parties for such.

We do not intend to create facilities to manufacture our products and therefore are dependent upon third parties to do so. We currently have agreements with various third party manufacturing facilities for production of our immunotherapies for research and development and testing purposes. We depend on our manufacturers to meet our deadlines, quality standards and specifications. Our reliance on third parties for the manufacture of our drug substance, investigational new drugs and, in the future, any approved products, creates a dependency that could severely disrupt our research and development, our clinical testing, and ultimately our sales and marketing efforts if the source of such supply proves to be unreliable or unavailable. If the contracted manufacturing source is unreliable or unavailable, we may not be able to manufacture clinical drug supplies of our immunotherapies, and our preclinical and clinical testing programs may not be able to move forward and our entire business plan could fail. If we are able to commercialize our products in the future, there is no assurance that our manufacturers will be able to meet commercialized scale production requirements in a timely manner or in accordance with applicable standards or current GMP.

If we are unable to establish or manage strategic collaborations in the future, our revenue and drug development may be limited.

Our strategy includes eventual substantial reliance upon strategic collaborations for marketing and commercialization of our clinical product candidates, and we may rely even more on strategic collaborations for research, development, marketing and commercialization for some of our immunotherapies. To date, we have been heavily reliant upon third party outsourcing for our clinical trials execution and production of drug supplies for use in clinical trials. Establishing strategic collaborations is difficult and time-consuming. Our discussions with potential collaborators may not lead to the establishment of collaborations on favorable terms, if at all. For example, potential collaborators may reject collaborations based upon their assessment of our financial, clinical, regulatory or intellectual property position. Our current collaborations, as well as any future new collaborations, may never result in the successful development or commercialization of our immunotherapies or the generation of sales revenue. To the extent that we have entered or will enter into co-promotion or other collaborative arrangements, our product revenues are likely to be lower than if we directly marketed and sold any products that we may develop.

Management of our relationships with our collaborators will require:

- significant time and effort from our management team;
- financial funding to support said collaboration;
- coordination of our research and development programs with the research and development priorities of our collaborators; and
- effective allocation of our resources to multiple projects.

If we continue to enter into research and development collaborations at the early phases of drug development, our success will in part depend on the performance of our corporate collaborators. We will not directly control the amount or timing of resources devoted by our corporate collaborators to activities related to our immunotherapies. Our corporate collaborators may not commit sufficient resources to our research and development programs or the commercialization, marketing or distribution of our immunotherapies. If any corporate collaborator fails to commit sufficient resources, our preclinical or clinical development programs related to this collaboration could be delayed or terminated. Also, our collaborators may pursue existing or other development-stage products or alternative technologies in preference to those being developed in collaboration with us. Finally, if we fail to make required milestone or royalty payments to our collaborators or to observe other obligations in our agreements with them, our collaborators may have the right to terminate those agreements.

We may incur substantial liabilities from any product liability claims if our insurance coverage for those claims is inadequate.

We face an inherent risk of product liability exposure related to the testing of our immunotherapies in human clinical trials, and will face an even greater risk if the approved products are sold commercially. An individual may bring a liability claim against us if one of the immunotherapies causes, or merely appears to have caused, an injury. If we cannot successfully defend ourselves against the product liability claim, we will incur substantial liabilities. Regardless of merit or eventual outcome, liability claims may result in:

- decreased demand for our immunotherapies;
- damage to our reputation;
- withdrawal of clinical trial participants;
- costs of related litigation;
- substantial monetary awards to patients or other claimants;
- loss of revenues;
- the inability to commercialize immunotherapies; and
- increased difficulty in raising required additional funds in the private and public capital markets.

We have Product Liability and Clinical Trial Liability insurance coverage for each clinical trial. We do not have product liability insurance for sold commercial products because we do not have products on the market. We currently are in the process of obtaining insurance coverage and plan to expand such coverage to include the sale of commercial products if marketing approval is obtained for any of our immunotherapies. However, insurance coverage is increasingly expensive and we may not be able to maintain insurance coverage at a reasonable cost and we may not be able to obtain insurance coverage that will be adequate to satisfy any liability that may arise.

We may incur significant costs complying with environmental laws and regulations.

We and our contracted third parties use hazardous materials, including chemicals and biological agents and compounds that could be dangerous to human health and safety or the environment. As appropriate, we store these materials and wastes resulting from their use at our or our outsourced laboratory facility pending their ultimate use or disposal. We contract with a third party to properly dispose of these materials and wastes. We are subject to a variety of federal, state and local laws and regulations governing the use, generation, manufacture, storage, handling and disposal of these materials and wastes. Compliance with such laws and regulations may be costly.

If we use biological materials in a manner that causes injury, we may be liable for damages.

Our research and development activities involve the use of biological and hazardous materials. Although we believe our safety procedures for handling and disposing of these materials complies with federal, state and local laws and regulations, we cannot entirely eliminate the risk of accidental injury or contamination from the use, storage, handling or disposal of these materials. We do not carry specific biological waste or pollution liability or remediation insurance coverage, nor do our workers' compensation, general liability, and property and casualty insurance policies provide coverage for damages and fines/penalties arising from biological exposure or contamination. Accordingly, in the event of contamination or injury, we could be held liable for damages or penalized with fines in an amount exceeding our resources, and our clinical trials or regulatory approvals could be suspended or terminated.

We need to attract and retain highly skilled personnel; we may be unable to effectively manage growth with our limited resources.

As of December 26, 2014, we had 20 employees, all of which were full time employees. Our ability to attract and retain highly skilled personnel is critical to our operations and expansion. We face competition for these types of personnel from other technology companies and more established organizations, many of which have significantly larger operations and greater financial, technical, human and other resources than we have. We may not be successful in attracting and retaining qualified personnel on a timely basis, on competitive terms, or at all. If we are not successful in attracting and retaining these personnel, or integrating them into our operations, our business, prospects, financial condition and results of operations will be materially adversely affected. In such circumstances we may be unable to conduct certain research and development programs, unable to adequately manage our clinical trials and other products, and unable to adequately address our management needs.

We depend upon our senior management and key consultants and their loss or unavailability could put us at a competitive disadvantage.

We depend upon the efforts and abilities of our senior executives, as well as the services of several key consultants. The loss or unavailability of the services of any of these individuals for any significant period of time could have a material adverse effect on our business, prospects, financial condition and results of operations. We have not obtained, do not own, nor are we the beneficiary of, key-person life insurance.

The biotechnology and immunotherapy industries are characterized by rapid technological developments and a high degree of competition. We may be unable to compete with more substantial enterprises.

The biotechnology and biopharmaceutical industries are characterized by rapid technological developments and a high degree of competition. As a result, our actual or proposed immunotherapies could become obsolete before we recoup any portion of our related research and development and commercialization expenses. Competition in the biopharmaceutical industry is based significantly on scientific and technological factors. These factors include the availability of patent and other protection for technology and products, the ability to commercialize technological developments and the ability to obtain governmental approval for testing, manufacturing and marketing. We compete with specialized biopharmaceutical firms in the United States, Europe and elsewhere, as well as a growing number of large pharmaceutical companies that are applying biotechnology to their operations. Many biopharmaceutical companies have focused their development efforts in the human therapeutics area, including cancer. Many major pharmaceutical companies have developed or acquired internal biotechnology capabilities or made commercial arrangements with other biopharmaceutical companies. These companies, as well as academic institutions and governmental agencies and private research organizations, also compete with us in recruiting and retaining highly qualified scientific personnel and consultants. Our ability to compete successfully with other companies in the pharmaceutical field will also depend to a considerable degree on the continuing availability of capital to us.

We are aware of certain investigational new drugs under development or approved products by competitors that are used for the prevention, diagnosis, or treatment of certain diseases we have targeted for drug development. Various companies are developing biopharmaceutical products that have the potential to directly compete with our immunotherapies even though their approach to may be different. The biotechnology and biopharmaceutical industries are highly competitive, and this competition comes from both biotechnology firms and from major pharmaceutical companies, including companies like: Aduro Biotech, Agenus Inc., Bionovo Inc., Bristol-Myers Squibb, Celgene Corporation, Celldex Therapeutics, Cerus Corporation, Dendreon Corporation, Inovio Pharmaceutical Inc., Oncolytics Biotech Inc., Oncothyreon Inc., each of which is pursuing cancer vaccines and/or immunotherapies. Many of these companies have substantially greater financial, marketing, and human resources than we do (including, in some cases, substantially greater experience in clinical testing, manufacturing, and marketing of pharmaceutical products). We also experience competition in the development of our immunotherapies from universities and other research institutions and compete with others in acquiring technology from such universities and institutions.

In addition, certain of our immunotherapies may be subject to competition from investigational new drugs and/or products developed using other technologies, some of which have completed numerous clinical trials.

We may not obtain or maintain the benefits associated with breakthrough therapy designation.

If we apply for Breakthrough Therapy Designation ("BTD"), we may not be granted BTD, or even if granted, we may not receive the benefits associated with BTD. This may result from a failure to maintain breakthrough therapy status if it is no longer considered to be a breakthrough therapy. For example, a drug's development program may be granted BTD using early clinical testing that shows a much higher response rate than available therapies. However, subsequent interim data derived from a larger study may show a response that is substantially smaller than the response seen in early clinical testing. Another example is where BTD is granted to two drugs that are being developed for the same use. If one of the two drugs gains traditional approval, the other would not retain its designation unless its sponsor provided evidence that the drug may demonstrate substantial improvement over the recently approved drug. When BTD is no longer supported by emerging data or the designated drug development program is no longer being pursued, the FDA may choose to send a letter notifying the sponsor that the program is no longer designated as a breakthrough therapy development program.

We believe that our immunotherapies under development and in clinical trials will address unmet medical needs in the treatment of cancer. Our competition will be determined in part by the potential indications for which drugs are developed and ultimately approved by regulatory authorities. Additionally, the timing of market introduction of some of our potential products or of competitors' products may be an important competitive factor. Accordingly, the relative speed with which we can develop immunotherapies, complete preclinical testing, clinical trials and approval processes and supply commercial quantities to market is expected to be important competitive factors. We expect that competition among products approved for sale will be based on various factors, including product efficacy, safety, reliability, availability, price and patent position.

Risks Related to our Securities

The price of our Common Stock and warrants may be volatile.

The trading price of our Common Stock and warrants may fluctuate substantially. The price of our Common Stock and warrants that will prevail in the market may be higher or lower than the price you have paid, depending on many factors, some of which are beyond our control and may not be related to our operating performance. These fluctuations could cause you to lose part or all of your investment in our Common Stock and warrants. Those factors that could cause fluctuations include, but are not limited to, the following:

- price and volume fluctuations in the overall stock market from time to time;
- fluctuations in stock market prices and trading volumes of similar companies;
- actual or anticipated changes in our net loss or fluctuations in our operating results or in the expectations of securities analysts;
- the issuance of new equity securities pursuant to a future offering, including issuances of preferred stock;
- general economic conditions and trends;
- positive and negative events relating to healthcare and the overall pharmaceutical and biotech sector;

- major catastrophic events;
- sales of large blocks of our stock;
- significant dilution caused by the anti-dilutive clauses in our financial agreements;

- departures of key personnel;
- changes in the regulatory status of our immunotherapies, including results of our clinical trials;
- events affecting Penn or any current or future collaborators;
- announcements of new products or technologies, commercial relationships or other events by us or our competitors;
- regulatory developments in the United States and other countries;
- failure of our Common Stock or warrants to be listed or quoted on The NASDAQ Stock Market, NYSE Amex Equities or other national market system;
- changes in accounting principles; and
- discussion of us or our stock price by the financial and scientific press and in online investor communities.

In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been brought against that company. Due to the potential volatility of our stock price, we may therefore be the target of securities litigation in the future. Securities litigation could result in substantial costs and divert management's attention and resources from our business.

A limited public trading market may cause volatility in the price of our Common Stock.

The quotation of our Common Stock on the NASDAQ does not assure that a meaningful, consistent and liquid trading market currently exists, and in recent years such market has experienced extreme price and volume fluctuations that have particularly affected the market prices of many smaller companies like us. Our Common Stock is thus subject to this volatility. Sales of substantial amounts of Common Stock, or the perception that such sales might occur, could adversely affect prevailing market prices of our Common Stock and our stock price may decline substantially in a short time and our shareholders could suffer losses or be unable to liquidate their holdings. Also there are large blocks of restricted stock that have met the holding requirements under Rule 144 that may be sold without restriction. Our stock is thinly traded due to the limited number of shares available for trading on the market thus causing large swings in price.

The market prices for our Common Stock may be adversely impacted by future events.

Our Common Stock began trading on the over-the-counter-markets on July 28, 2005 and is currently quoted on the NASDAQ Stock Market under the symbol ADXS. Market prices for our Common Stock and warrants will be influenced by a number of factors, including:

- the issuance of new equity securities pursuant to a future offering, including issuances of preferred stock;
- changes in interest rates;
- significant dilution caused by the anti-dilutive clauses in our financial agreements;
- competitive developments, including announcements by competitors of new products or services or significant contracts, acquisitions, strategic partnerships, joint ventures or capital commitments;
- variations in quarterly operating results;
- change in financial estimates by securities analysts;
- the depth and liquidity of the market for our Common Stock and warrants;
- investor perceptions of our company and the pharmaceutical and biotech industries generally; and
- general economic and other national conditions.

Speculative nature of warrants.

The five-year warrants we issued in October 2013 do not confer any rights of Common Stock ownership on their holders, such as voting rights or the right to receive dividends, but rather merely represent the right to acquire shares of Common Stock at a fixed price for a limited period of time. Holders of the warrants may exercise their right to acquire the Common Stock and pay an exercise price, prior to their specified expiry date, after which date any unexercised warrants will expire and have no further value. Moreover, the market value of the warrants is uncertain and there can be no assurance that the market value of the warrants will equal or exceed their exercise price. There can be no assurance that the market price of the Common Stock will ever equal or exceed the exercise price of the warrants, and consequently, whether it will ever be profitable for holders of the warrants to exercise the warrants.

If we fail to remain current with our listing requirements, we could be removed from the NASDAQ Capital Market, which would limit the ability of broker-dealers to sell our securities and the ability of shareholders to sell their securities in the secondary market.

Companies trading on the NASDAQ Marketplace, such as our company, must be reporting issuers under Section 12 of the Exchange Act, as amended, and must meet the listing requirements in order to maintain the listing of our Common Stock on the NASDAQ Capital Market. If we do not meet these requirements, the market liquidity for our securities could be severely adversely affected by limiting the ability of broker-dealers to sell our securities and the ability of shareholders to sell their securities in the secondary market.

Our internal control over financial reporting and our disclosure controls and procedures have been ineffective in the past, and may be ineffective again in the future, and failure to improve them at such time could lead to errors in our financial statements that could require a restatement or untimely filings, which could cause investors to lose confidence in our reported financial information, and a decline in our stock price.

Our internal control over financial reporting and our disclosure controls and procedures have been ineffective in the past. We have taken steps to improve our disclosure controls and procedures and our internal control over financial reporting, resulting in our management concluding that our disclosure controls and procedures are now effective. We also initiated a Sarbanes–Oxley assessment services, including the development of control design documents, to ensure effectiveness.

However, there is no assurance that our disclosure controls and procedures will remain effective or that there will be no material weaknesses in our internal control over financial reporting in the future. Additionally, as a result of the historical material weaknesses in our internal control over financial reporting and the historical ineffectiveness of our disclosure controls and procedures, current and potential stockholders could lose confidence in our financial reporting, which would harm our business and the trading price of our stock.

Sales of additional equity securities may adversely affect the market price of our Common Stock and your rights may be reduced.

We expect to continue to incur drug development and selling, general and administrative costs, and to satisfy our funding requirements, we will need to sell additional equity securities, which may be subject to registration rights and warrants with anti-dilutive protective provisions. The sale or the proposed sale of substantial amounts of our Common Stock or other equity securities in the public markets may adversely affect the market price of our Common Stock and our stock price may decline substantially. Our shareholders may experience substantial dilution and a reduction in the price that they are able to obtain upon sale of their shares. Also, new equity securities issued may have greater rights, preferences or privileges than our existing Common Stock.

Additional authorized shares of Common Stock available for issuance may adversely affect the market price of our securities.

We are currently authorized to issue 45,000,000 shares of our Common Stock. As of December 26, 2014, we had 23,644,808 shares of our Common Stock issued and outstanding, excluding shares issuable upon exercise of our outstanding warrants, options, convertible promissory notes and shares of Common Stock earned but not yet issued under our director compensation program. Under our 2011 Employee Stock Purchase Plan, or ESPP, our employees can buy our Common Stock at a discounted price. To the extent the shares of Common Stock are issued, options and warrants are exercised or convertible promissory notes are converted, holders of our Common Stock will experience dilution. In addition, in the event of any future financing of equity securities or securities convertible into or exchangeable for, Common Stock, holders of our Common Stock may experience dilution. As of December 22, 2014, warrants to purchase 53,957 shares of our Common Stock are exercisable at approximately $7.77 per share and are subject to "weighted-average" anti-dilution protection upon certain equity issuances below $7.77 per share (as may be further adjusted as defined in the warrant). In addition, as of December 22, 2014, we had outstanding options to purchase 487,968 shares of our Common Stock at a weighted average exercise price of approximately $14.99 per share and outstanding warrants to purchase 4,133,797 shares of our Common Stock (including the above warrants subject to weighted-average anti-dilution protection); and approximately 29,990 shares of our Common Stock are available for grant under the ESPP.

We do not intend to pay cash dividends.

We have not declared or paid any cash dividends on our Common Stock, and we do not anticipate declaring or paying cash dividends for the foreseeable future. Any future determination as to the payment of cash dividends on our Common Stock will be at our board of directors' discretion and will depend on our financial condition, operating results, capital requirements and other factors that our board of directors considers to be relevant. In addition, the terms of our Series B Preferred Stock prohibit the payment of dividends on our Common Stock for so long as any shares of our Series B Preferred Stock are outstanding.

Our certificate of incorporation, Bylaws and Delaware law have anti-takeover provisions that could discourage, delay or prevent a change in control, which may cause our stock price to decline.

Our certificate of incorporation, Bylaws and Delaware law contain provisions which could make it more difficult for a third party to acquire us, even if closing such a transaction would be beneficial to our shareholders. To date, we have not issued shares of preferred stock, however, we are authorized to issue up to 5,000,000 shares of preferred stock. This preferred stock may be issued in one or more series, the terms of which may be determined at the time of issuance by our Board of Directors without further action by shareholders. The terms of any series of preferred stock may include voting rights (including the right to vote as a series on particular matters), preferences as to dividend, liquidation, conversion and redemption rights and sinking fund provisions. The issuance of any preferred stock could materially adversely affect the rights of the holders of our Common Stock, and therefore, reduce the value of our Common Stock. In particular, specific rights granted to future holders of preferred stock could be used to restrict our ability to merge with, or sell our assets to, a third party and thereby preserve control by the present management.

Provisions of our certificate of incorporation, Bylaws and Delaware law also could have the effect of discouraging potential acquisition proposals or making a tender offer or delaying or preventing a change in control, including changes a shareholder might consider favorable. Such provisions may also prevent or frustrate attempts by our shareholders to replace or remove our management. In particular, the certificate of incorporation, Bylaws and Delaware law, as applicable, among other things; provide the Board of Directors with the ability to alter the Bylaws without shareholder approval, and provide that vacancies on the Board of Directors may be filled by a majority of directors in office, although less than a quorum.

We are also subject to Section 203 of the Delaware General Corporation Law, which, subject to certain exceptions, prohibits "business combinations" between a publicly-held Delaware corporation and an "interested shareholder," which is generally defined as a shareholder who becomes a beneficial owner of 15% or more of a Delaware corporation's voting stock for a three-year period following the date that such shareholder became an interested shareholder.

These provisions are expected to discourage certain types of coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of our company to first negotiate with its board. These provisions may delay or prevent someone from acquiring or merging with us, which may cause the market price of our Common Stock to decline.

Item 2. Properties.

Our corporate offices are currently located at 305 College Road East, Princeton, New Jersey 08540. On April 1, 2011, we entered into a sublease agreement for such office, which is an approximately 10,000 square foot leased facility in Princeton, NJ. The agreement has a termination date of November 29, 2015. We plan to continue to rent necessary offices and laboratories to support our business.

On March 13, 2013, we entered into a modification of the sublease agreement whereby all unpaid accrued lease amounts and future lease amounts through June 30, 2013, which we estimated to be approximately $450,000, would be satisfied by a payment in total of $200,000, with $100,000 paid on March 13, 2013 and $100,000 paid upon the close of our public offering in October 2013. In addition, lease payments for the period July 1, 2013 through November 30, 2015 was reduced to a total of $20,000 per month.

Item 3. Legal Proceedings.

Iliad Research and Trading

On March 24, 2014, Iliad Research and Trading, L.P. ("Iliad") filed a complaint (the "Complaint") against us in the Third Judicial District Court of Salt Lake County, Utah. Iliad alleges that we granted a participation right to Tonaquint, Inc. ("Tonaquint") in a securities purchase agreement between Tonaquint and us, dated as of December 13, 2012 (the "Purchase Agreement"), pursuant to which Tonaquint was entitled to participate in any transaction that we structured in accordance with Section 3(a)(9) or Section 3(a)(10) of the Securities Act of 1933, as amended. Iliad further alleges that the settlement that we entered into with Ironridge Global IV, Ltd. ("Ironridge"), pursuant to which we issued certain shares of our Common Stock to Ironridge in reliance on the Section 3(a)(10) exemption, occurred without adequate notice for Tonaquint to exercise its participation right. In addition, Iliad alleges that it acquired all of Tonaquint's rights under the Purchase Agreement in April 2013. On May 9, 2014, we filed papers in support of our motion to dismiss the Complaint in its entirety. On June 2, 2014, Iliad filed an amended complaint (the "Amended Complaint") which purports to assert claims against us for breach of contract and breach of the implied covenant of good faith and fair dealing as well as claims under the federal and Utah securities laws and for common law fraud. In the Amended Complaint, Iliad alleges damages of greater than $300,000 plus interest, attorneys' fees and costs. In connection with its claim under the Utah Securities Act, Iliad has asked for punitive damages equal to three times its actual damages. We intend to continue to defend ourselves vigorously.

Numoda Corporation

On June 19, 2009, we entered into a master agreement and on July 8, 2009, we entered into a Project Agreement with Numoda Corporation ("Numoda"), to oversee Phase 2 clinical activity with ADXS-HPV for the treatment of invasive cervical cancer and CIN.

We are in a dispute regarding the amounts outstanding under these agreements. Numoda had taken the position that it was owed approximately $540,000 while we believed that the amount due to Numoda should be substantially less than that amount. We intend to continue to defend ourselves vigorously.

Brio Capital

On March 22, 2013, we were notified that Brio Capital L.P. ("Brio") had filed a lawsuit against us in the Supreme Court of the State of New York, County of New York, titled Brio Capital L.P. v. Advaxis Inc., Case No. 651029/2013, which we refer to as the Action. The complaint in the Action alleges, among other things, that we breached the terms of certain warrants to purchase shares of our Common Stock that we originally issued to Brio on October 17, 2007 and on June 18, 2009, and that Brio has suffered damages as a result thereof. Brio's complaint seeks (i) a preliminary and permanent injunction directing us to issue to Brio 21,742 shares of our Common Stock, along with the necessary corporate resolutions and legal opinions to enable Brio to sell such Common Stock publicly without restriction; and (ii) damages of at least $500,000 (in an amount to be determined at trial), along with interest, costs and attorneys' fees related to the Action. On April 15, 2013, in partial resolution of the Brio lawsuit, we issued 21,742 shares of Common Stock and provided certain corporate resolutions and legal opinions necessary to enable Brio to sell such Common Stock publicly without restriction. On October 29, 2013, we entered into a settlement agreement with Brio to settle the remaining claims under the Action, which agreement was to become binding only when approved by the court at a fairness hearing. The parties later agreed to amend the settlement by us paying Brio $205,000 in full settlement of all claims related to this lawsuit in exchange for a release of claims and cancellation of the warrants. As of October 29, 2013, this matter was fully settled and the Action dismissed with prejudice.

Maxim Group

On August 19, 2013, we entered into an agreement with Maxim Group LLC ("Maxim") to terminate a July 2012 engagement agreement between the parties, pursuant to which Maxim asserted claims for unpaid fees related to the introduction of investors to us and services provided. As consideration for terminating the agreement, we agreed to pay Maxim approximately $589,000 in monthly installment payments in either cash or shares of our Common Stock, and a warrant to purchase 30,154 shares of our Common Stock at an exercise price of $4.90 per share. Additionally, in order to move the settlement forward, we agreed to pay Maxim an additional $150,000 upon the completion of a contemplated public offering of securities. On September 17, 2013, we issued 25,582 shares of our Common Stock as an installment payment under this agreement and also issued the warrant to acquire 30,154 shares of our Common Stock at $4.90 per share, and on September 27, 2013, we issued 158,385 shares of our Common Stock to satisfy the remaining amount owed under this agreement. Maxim rejected the delivery of these 158,385 shares and claimed that we may not prepay our obligations under the agreement notwithstanding any language to the contrary in the agreement. Upon receipt of the rejected shares, we cancelled the issuance of such shares. Upon the completion of our public offering in October 2013 we paid the aforementioned $150,000 and commenced final settlement of the disputed amounts owed. On or about November 14, 2013, Maxim initiated a proceeding by confession of judgment in New York State Court to recover monies it believed we owed under the Termination Agreement in the amount of $484,709.50. On November 15, 2013, the New York County Clerk's office entered a judgment in favor of Maxim. On or about November 22, 2013, Maxim mailed a Notice of Entry to us and the parties decided to settle the dispute without any admission of liability or wrongdoing and on December 23, 2013 the parties executed a settlement agreement and releases. On December 27, 2013, we paid Maxim $285,000 in final settlement of all matters related to their claim.

We are from time to time involved in legal proceedings in the ordinary course of our business. We do not believe that any of these claims or proceedings against us is likely to have, individually or in the aggregate, a material adverse effect on the financial condition or results of operations.

Item 4. Mine Safety Disclosures.

None.

PART II

Item 5. Market For Our Common Stock and Related Shareholder Matters.

Set forth below for the periods indicated are the high and low sales prices for trading in our Common Stock. Through October 2013, our Common Stock was quoted on the OTC Bulletin Board under the symbol ADXS.OB. Fiscal year 2013 bid prices represent prices quoted by broker-dealers on the OTC Bulletin Board. The quotations reflect inter-dealer prices, without retail mark-up, mark-down or commissions, and, particularly because our Common Stock is traded infrequently, may not necessarily represent actual transactions or a liquid trading market. Fiscal year 2014 bid prices represent prices as reported by the NASDAQ Capital Market.

Fiscal 2014	High	Low
Fourth Quarter	$ 4.60	$ 2.50
Third Quarter	$ 3.57	$ 2.52
Second Quarter	$ 5.99	$ 2.46
First Quarter	$ 5.70	$ 2.88

Fiscal 2013	High	Low
Fourth Quarter	$ 7.96	$ 2.70
Third Quarter	$ 7.50	$ 3.18
Second Quarter	$ 17.50	$ 8.75
First Quarter	$ 8.75	$ 3.75

As of October 31, 2014, there were approximately 114 shareholders of record. Because shares of our Common Stock are held by depositaries, brokers and other nominees, the number of beneficial holders of our shares is substantially larger than the number of shareholders of record. On December 26, 2014, the last reported sale price per share for our Common Stock as reported by NASDAQ was $7.97.

We have not paid or declared any cash dividends during the past two fiscal years or subsequent period prior to the filing of this annual report, nor do we anticipate paying cash dividends in the foreseeable future.

Recent Sales of Unregistered Securities

On August 1, 2014, the registrant issued 4,869 shares of Common Stock to its Executive Officers, pursuant to their Employment Agreements.

On August 1, 2014, the registrant issued 1,179 shares of Common Stock to an accredited investor as payment for consulting services rendered.

On August 29, 2014, the registrant issued 2,507 shares of Common Stock to its Executive Officers, pursuant to their Employment Agreements.

On September 1, 2014, the registrant issued 1,179 shares of Common Stock to an accredited investor as payment for consulting services rendered.

On September 30, 2014, the registrant issued 2,891 shares of Common Stock to its Executive Officers, pursuant to their Employment Agreements.

On October 1, 2014, the registrant issued 1,179 shares of Common Stock to an accredited investor as payment for consulting services rendered.

On October 13, 2014, the registrant issued 5,000 shares of Common Stock to an accredited investor as payment for consulting services rendered.

On October 20, 2014, the registrant issued 25,170 shares of Common Stock to a current Executive Officer which represents the initial vesting period of an inducement grant pursuant to his Employment Agreement.

On October 27, 2014, the registrant issued 18,937 shares of Common Stock to a current Executive Officer which represents the second of four vesting periods of an inducement grant pursuant to his Employment Agreement.

On October 31, 2014, the registrant issued 3,420 shares of Common Stock to its Executive Officers, pursuant to their Employment Agreements.

On November 10, 2014, the registrant issued 40,000 shares of Common Stock to an accredited investor as payment for consulting services rendered.

On November 28, 2014, the registrant issued 3,868 shares of Common Stock to its Executive Officers, pursuant to their Employment Agreements.

On December 5, 2014, the registrant issued 30,000 shares of Common Stock to an accredited investor as payment for consulting services rendered.

On December 31, 2014, the registrant issued 1,504 shares of Common Stock to its Executive Officers, pursuant to their Employment Agreements.

Equity Compensation Plan Information

The following table provides information regarding the status of our existing equity compensation plans at October 31, 2014:

Plan category	Number of shares of Common Stock to be issued on exercise of outstanding options, warrants and rights	Weighted- average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in the previous columns)
Equity compensation plans approved by security holders	467,968	$ 15.51	970,807
Equity compensation plans not approved by security holders	-	$ -	-
Total	467,968	$ 15.51	970,807

ITEM 6. Selected Financial Data.

Not required.

ITEM 7. **Management's Discussion and Analysis of Financial Condition and Results of Operations.**

This Management's Discussion and Analysis of Financial Conditions and Results of Operations and other portions of this report contain forward-looking information that involves risks and uncertainties. Our actual results could differ materially from those anticipated by the forward-looking information. Factors that may cause such differences include, but are not limited to, availability and cost of financial resources, product demand, market acceptance and other factors discussed in this report under the heading "Risk Factors". This Management's Discussion and Analysis of Financial Conditions and Results of Operations should be read in conjunction with our financial statements and the related notes included elsewhere in this report.

Overview

We are a clinical-stage biotechnology company focused on the discovery, development and commercialization of proprietary *Lm*-LLO cancer immunotherapies. These immunotherapies are based on a platform technology that utilizes live attenuated *Listeria monocytogenes,* bioengineered to secrete antigen/adjuvant fusion proteins. These *Lm*-LLO strains are believed to be a significant advancement in immunotherapy as they integrate multiple functions into a single immunotherapy as they access and direct antigen presenting cells to stimulate anti-tumor T-cell immunity, stimulate and activate the immune system with the equivalent of multiple adjuvants, and simultaneously reduce tumor protection in the tumor microenvironment to enable the T-cells to eliminate tumors. Other immunotherapies may employ individual elements of our comprehensive approach, but, to our knowledge, none combine all of these elements together in a single, easily administered, well-tolerated yet comprehensive immunotherapy.

ADXS-HPV Franchise

ADXS-HPV is a *Lm*-LLO immunotherapy directed against HPV and designed to target cells expressing the HPV gene E7. It is currently under investigation in three HPV-associated cancers: recurrent or persistent cervical cancer, head and neck cancer, and anal cancer, either as a monotherapy or in combination with investigational anti-PD-L1 immune checkpoint inhibitor, MEDI4736.

Cervical Cancer

There are 500,000 new cases of cervical cancer caused by HPV worldwide every year, and 12,000 new cases in the U.S. alone, according to the WHO Human Papillomavirus and Related Cancers in the World Summary Report 2010. Current preventative vaccines cannot protect the 20 million women who are already infected with HPV; and of the high risk oncogenic strains, only HPV 16 and 18 are present in these vaccines. Challenges with acceptance, accessibility, and compliance have resulted in only a third of young women being vaccinated in the United States and even less in other countries around the world.

We completed a Phase 2 clinical study that was conducted in India in 110 women with recurrent cervical cancer. The final results, were presented at the 2014 ASCO Annual Meeting, and showed that 22% (24/109) of the patients were LTS of greater than 18 months. 18% (16/91) of patients were alive for more than 24 months. Of the 109 patients treated in the study, LTS included not only patients with tumor shrinkage but also patients who had experienced increased tumor burden. 17% (19/109) of the patients in the trial had recurrence of disease after at least two prior treatments for their cervical cancer; these patients comprised 8% (2/24) of LTS. Among the LTS, 25% (3/11) of patients had an ECOG performance status of 2, a patient population that is often times excluded from clinical trials because of their poor survival.

We have completed an EOP2 meeting with the FDA. The purpose of the EOP2 meeting was to discuss ADXS-HPV's preclinical data, CMC and clinical program prior to moving ADXS-HPV forward into the next phase of clinical development in cervical cancer. At the meeting, the FDA provided guidance on our CMC activities and clinical development plan. We plan to submit our Phase 3 protocol for a SPA, and continue to have dialogue with the FDA, incorporating their valuable guidance into our planned registration program. We are planning to initiate an adequate and well-controlled clinical trial in cervical cancer in the first half of 2015 to support a BLA submission in the U.S. and in

other territories around the world.

The adequate and well-controlled Phase 3 clinical trial that we are planning to conduct will be a Phase 3 study of adjuvant ADXS-HPV following chemoradiation as primary treatment for high risk locally advanced cervical cancer compared to chemoradiation alone. This population has a high risk of recurrence and once recurred there is no cure. This study will evaluate both the time it takes for the cancer to recur as well as the overall survival. Our goal is to develop a treatment to prevent recurrence of cervical cancer after primary care, which is approximately 12,000 new cases each year in the U.S.

The GOG of the NCI is independently conducting a single arm Phase 2 study of ADXS-HPV in invasive cervical cancer in the U.S., GOG-265. This study has now completed enrollment in the first stage of 26 evaluable patients. The second stage of enrollment of 38 patients is pending. We have agreed to provide clinical material to support this study but do not control the conduct of the study.

We have entered into a clinical trial collaboration agreement with MedImmune, the global biologics research and development arm of AstraZeneca, where we plan to collaborate on a Phase 1/2 study to evaluate safety and efficacy of MedImmune's investigational anti-PD-L1 immune checkpoint inhibitor, MEDI4736, in combination with our investigational *Lm*-LLO cancer immunotherapy, ADXS-HPV, as a combination treatment for patients with advanced, recurrent or refractory HPV associated cervical cancer and HPV-associated head and neck cancer.

GRU Cancer Center is conducting a Phase 1/2 trial evaluating higher doses and repeat cycles of ADXS-HPV in patients with recurrent cervical cancer. This Phase 1/2 study is designed to evaluate the safety, efficacy and immunological effect of the highest-tolerated dose of ADXS-HPV administered in repeat cycles of treatment to patients with cervical cancer whose disease recurred after receiving one prior cytotoxic treatment regimen.

ADXS-HPV has received orphan drug designation for invasive Stage II-IVb cervical cancer.

Head and Neck Cancer

HNSCC is the most frequently occurring malignant tumor of the head and neck and is a major cause of morbidity and mortality worldwide. More than 90% of HNSCCs originate from the mucosal linings of the oral cavity, pharynx, or larynx. According to the American Cancer Society, head and neck cancer accounts for about 3% to 5% of all cancers in the United States. About 55,070 new cases will be diagnosed and about 12,000 people are expected to die of head and neck cancer in the United Stated during 2014.

The safety and efficacy of ADXS-HPV is being evaluated in a Phase 1/2 study under an investigator-sponsored IND at Mount Sinai, in patients with HPV-positive head and neck cancer. This clinical trial is the first study to evaluate the effects of ADXS-HPV in patients when they are initially diagnosed with HPV-associated head and neck cancer, prior to receiving any chemotherapy or radiation for their cancer.

As stated above, we recently entered into a clinical trial collaboration agreement with MedImmune to collaborate on a Phase 1/2 study to evaluate safety and efficacy of MEDI4736 in combination with ADXS-HPV as a combination treatment for patients with advanced, recurrent or refractory cervical cancer and HPV-associated head and neck cancer. The FDA has cleared our IND application and we now plan to initiate this Phase 1/2 study in early 2015.

ADXS-HPV has received orphan drug designation for HPV-associated head and neck cancer.

Anal Cancer

According to the American Cancer Society, most squamous cell anal cancers seem to be linked to infection by the HPV, the same virus that causes cervical cancer. In fact, women with a history of cervical cancer (or pre-cancer) have an increased risk of anal cancer. Anal cancer is fairly rare – much less common than cancer of the colon or rectum. About 7,210 new cases will be diagnosed and about 950 people are expected to die of anal cancer in the United States during 2014.

The safety and efficacy of ADXS-HPV is being evaluated in a Phase 1/2 study under an investigator-sponsored IND by Brown University in patients with HPV-associated anal cancer. Preliminary data from this study indicates a "clinical complete response" in all seven patients who have completed the treatment regimen.

ADXS-HPV has received orphan drug designation for HPV-associated anal cancer.

ADXS-PSA Franchise

Prostate Cancer

According to the American Cancer Society, prostate cancer is the most common type of cancer found in American men, other than skin cancer. Prostate cancer is the second leading cause of cancer death in men, behind only lung cancer. One man in six will get prostate cancer during his lifetime, and one man in 36 will die of this disease.

ADXS-PSA is a *Lm*-LLO immunotherapy designed to target the PSA antigen associated with prostate cancer.

We have entered into a clinical trial collaboration and supply agreement with Merck to evaluate the safety and efficacy of ADXS-PSA as monotherapy and in combination with KEYTRUDA® (pembrolizumab), Merck's anti PD-1 antibody, in a Phase 1/2 study in patients with previously treated metastatic, castration-resistant prostate cancer. The FDA has cleared our IND application and we now plan to initiate this Phase 1/2 study in the first quarter of 2015.

ADXS-HER2 Franchise

HER2 Expressing Solid Tumors

ADXS-HER2 is a *Lm*-LLO immunotherapy designed to target the Her2 gene which is expressed in some solid tumor cancers such as human and canine osteosarcoma, breast, gastric and other cancers. We have submitted an IND with the FDA and plan to initiate a Phase 1b study in patients with HER2-expressing cancers in 2015. Thereafter, we intend to initiate a clinical development program with ADXS-HER2 for the treatment of pediatric osteosarcoma.

Pediatric Osteosarcoma

Pediatric osteosarcoma affects about 400 children and teens in the U.S. every year, representing a small but significant unmet medical need that has seen little therapeutic improvement in decades. Pediatric osteosarcoma is considered a rare disease and may qualify for regulatory incentives including, but not limited to, orphan drug designation, patent term extension, market exclusivity, and development grants. Given the limited availability of new treatment options for pediatric osteosarcoma, and that it is an unmet medical need affecting a very small number of patients in the U.S. annually, we believe that, subject to regulatory approval, the potential to be on the market may be accelerated.

Based on encouraging preliminary data from a veterinarian clinical study in which pet dogs with naturally occurring osteosarcoma were treated with ADXS-HER2, we intend to initiate a clinical development program with ADXS-HER2 for the treatment of pediatric osteosarcoma. In this veterinarian clinical study, pet dogs with naturally occurring osteosarcoma treated with ADXS-HER2 after the standard of care showed a statistically significant prolonged overall survival benefit compared with dogs that received standard of care without ADXS-HER2. Both veterinary and human osteosarcoma specialists consider canine osteosarcoma to be the best model for human osteosarcoma.

ADXS-HPV has received orphan drug designation for osteosarcoma.

Canine Osteosarcoma

Under the direction of Dr. Nicola Mason, the University of Pennsylvania School of Veterinary is conducting a Phase 1 study in companion dogs evaluating the safety and efficacy of ADXS-HER2 in the treatment of canine osteosarcoma. The primary endpoint of the study is to determine the maximum tolerated dose of ADXS-HER2. Secondary endpoints for the study are progression-free survival and overall survival. The preliminary findings of the Phase 1 clinical trial in dogs with osteosarcoma suggest that ADXS-HER2 is safe and well tolerated at doses up to 3×10^9 CFU with no evidence of cardiac, hematological, or other systemic toxicities. The study determined that ADXS-HER2 is able to delay or prevent metastatic disease and significantly prolong overall survival in dogs with osteosarcoma that had minimal residual disease following standard of care (amputation and follow-up chemotherapy). Dr. Mason presented data at the 2014 ACVIM Forum which showed that 80% of the dogs treated (n=15) were still alive and median survival had not yet been reached; median survival in control dogs (n=13) was 316 days. Immunological analyses are also being conducted in this study to further evaluate the immune response to ADXS-HER2.

Osteosarcoma is the most common primary bone tumor in dogs, accounting for roughly 85% of tumors on the canine skeleton. Approximately 8,000-10,000 dogs a year (predominately middle to older-aged dogs and larger breeds) are diagnosed with osteosarcoma in the United States. This cancer initially presents as lameness and oftentimes visible swelling on the leg. Current standard of care treatment is amputation immediately after diagnosis, followed by chemotherapy and sometimes radiation for palliative care.

On March 19, 2014, we entered into a definitive Exclusive License Agreement with Aratana, where we granted Aratana an exclusive, worldwide, royalty-bearing, license, with the right to sublicense, certain of our proprietary technology that enables Aratana to develop and commercialize animal health products that will be targeted for treatment of osteosarcoma and other cancer indications in animals. A product license request has been filed by Aratana for ADXS-HER2 (also known as AT-014 by Aratana) for the treatment of canine osteosarcoma with the USDA. While the USDA has no specific obligation to respond within a prescribed timeframe, the companies expect a response from the USDA to the request for a product license within the next several months. Aratana has been granted exclusive worldwide rights by us to develop and commercialize ADXS-HER2 in animals.

Lm-LLO Combination Franchise

ADXS-HPV and MEDI4736

As stated above, we have entered into a clinical trial collaboration agreement with MedImmune, the global biologics research and development arm of AstraZeneca, where we plan to collaborate on a Phase 1/2 study to evaluate safety and efficacy of MedImmune's investigational anti-PD-L1 immune checkpoint inhibitor, MEDI4736, in combination with our investigational *Lm*-LLO cancer immunotherapy, ADXS-HPV, as a combination treatment for patients with advanced, recurrent or refractory cervical cancer and HPV-associated head and neck cancer. The FDA has cleared our IND application and we now plan to initiate this Phase 1/2 in the first quarter of 2015.

ADXS-PSA and MK-3475

As stated above, we have entered into a clinical trial collaboration agreement with Merck to evaluate the safety and efficacy of ADXS-PSA as monotherapy and in combination with KEYTRUDA® (pembrolizumab), Merck's anti PD-1 antibody, in a Phase 1/2 study in patients with previously treated metastatic, castration-resistant prostate cancer. The FDA has cleared our IND application and we now plan to initiate this Phase 1/2 in the first quarter of 2015.

Lm-LLO and GRU

We have a non-clinical research agreement with GRU which provides research collaboration of the in vitro effect of our *Lm*-LLO cancer immunotherapy technology evaluating it in combination with other immunotherapies, including, but not limited to, anti-PD-L1 & anti-PD-1 immune checkpoint inhibitors.

Corporate

We continue to invest in the development of our platform technology and utilize our capital most efficiently. For example, we recently entered into an amendment with Penn, where both parties mutually agreed to eliminate a near-term milestone payment obligation we had to Penn, as well as modify others relating to the development and commercialization of our *Lm*-LLO cancer immunotherapy technology. In addition, to ensure we appropriately support our development efforts, we entered into a master service agreement with inVentiv, a leading global CRO, for the clinical development of our immunotherapy products. InVentiv is a suitable partner, providing full CRO services to execute our clinical studies while offering competitive rates and, pending regulatory approval, we have the option to leverage inVentiv's significant commercialization capabilities.

We are included in the Russell Microcap Index, which is widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies.

Results of Operations

Fiscal Year 2014 Compared to Fiscal Year 2013

Revenue

During our second fiscal quarter ended April 30, 2014, we transitioned from a development stage company to an operating company. On March 19, 2014, we and Aratana entered into a definitive agreement (known as the "Aratana Agreement") pursuant to which we granted Aratana an exclusive, worldwide, royalty-bearing, license, with the right to sublicense, certain, Advaxis proprietary technology that enables Aratana to develop and commercialize animal health products that will be targeted for treatment of osteosarcoma and other cancer indications in animals. Under the terms of the Aratana Agreement, Aratana paid us an upfront payment of $1 million. As this license has stand-alone value to Aratana (who has the ability to sublicense) and was delivered to Aratana upon execution of the Aratana Agreement, we properly recorded the $1 million payment as licensing revenue for the year ended October 31, 2014.

We recorded no revenue for the year ended October 31, 2013.

Research and Development Expenses

We make significant investments in research and development in support of our development programs both clinically and pre-clinically. Research and development costs are expensed as incurred and primarily include salary and benefit costs, third-party grants, fees paid to clinical research organizations, and supply costs. Research and development expense was $8.7 million for the year ended October 31, 2014, compared with $5.6 million for the year ended October 31, 2013, an increase of $3.1 million. The increase was primarily a result of higher third-party costs, specifically related to ADXS-HPV cervical cancer program and ADXS-HER2 preclinical support.

We anticipate a significant increase in research and development expenses as a result of our intended expanded development and commercialization efforts primarily related to clinical trials and product development. In addition, we expect to incur expenses in the development of strategic and other relationships required to license, manufacture and distribute our product candidates when they are approved.

General and Administrative Expenses

General and administrative expenses primarily include salary and benefit costs for employees included in our finance, legal and administrative organizations, outside legal and professional services, and facilities costs. General and administrative expense was $11.9 million for the year ended October 31, 2014, compared with $9.1 million for the year ended October 31, 2013, an increase of $2.8 million. The increase was primarily a result of higher stock compensation costs from Common Stock that was issued after the number of authorized shares under the 2011 Omnibus Incentive Plan was increased from 520,000 to 2,120,000, and non-cash investor relations costs.

Interest Expense

Interest expense was $5,253 for the year ended October 31, 2014, compared with $987,746 for the year ended October 31, 2013. The decrease was a result of the significant reduction in overall debt from approximately $3.6 million in outstanding principal at October 31, 2013 to $62,882 in outstanding principal at October 31, 2014. In addition, we recorded $157,150 in non-cash interest expense, in the prior period, related to the issuance of 3.5 million shares of Common Stock under the Hanover Purchase Agreement.

Other Expense/Income

Other income was $36,305 for the year ended October 31, 2014, compared to other expense of $70,876 for the year ended October 31, 2013. Interest income earned for the year ended October 31, 2014 reflected interest income earned on our savings account balance. Interest income earned for the year ended October 31, 2013 reflected the result of approximately $5,400 in interest income from payments made to us under the terms of a convertible promissory note, more than offset by expense of approximately $76,300 related to unfavorable changes in foreign exchange rates relating to transactions with certain vendors.

Gain on Note Retirement, Warrant Exchanges and Accounts Payable

Non-cash income for gain on note retirement and accounts payable was $6,243 for the year ended October 31, 2014, compared to non-cash charges of $3.5 million for the year ended October 31, 2013. Non-cash income earned for the year ended October 31, 2014 primarily resulted from the settlement of outstanding payables with shares of our Common Stock at a discount. Non-cash charges for the year ended October 31, 2013 primarily resulted from the conversion of approximately $3.95 million aggregate principal value of various convertible promissory notes into shares of our Common Stock by investors.

Changes in Fair Values

Change in fair value was non-cash income of $619,089 for the year ended October 31, 2014, compared with non-cash expense of $1.5 million for the year ended October 31, 2013. The non-cash income from changes in the fair value of the warrant liability recorded for the year ended October 31, 2014 were a result of a decrease in the fair value of each liability warrant due to a decrease in our share price from $3.74 at October 31, 2013 to $3.18 at October 31, 2014 in addition to a lower volatility of our stock price used in the Black-Scholes Model ("BSM"). Changes in the fair value of the warrant liability recorded for the year ended October 31, 2013 were a result of non-cash expense of approximately $0.2 million from the mark-to-market of our convertible promissory notes, accounted for under fair value accounting. In addition, we recorded non-cash expense of approximately $1.3 million resulting from the number of outstanding liability warrants increasing during the prior period in addition to a larger range of share prices used in the calculation of the BSM volatility input.

Potential future increases or decreases in our stock price will result in increased or decreased warrant liabilities on our balance sheet and therefore increased or decreased expenses being recognized in our statement of operations in future periods.

Income Tax Benefit

We may be eligible, from time to time, to receive cash from the sale of our Net Operating Losses ("NOLs") under the State of New Jersey NOL Transfer Program. In the year ended October 31, 2014, we received a net cash amount of $625,563 from the sale of its state NOLs and research and development tax credits for the periods ended October 31, 2010 and 2011. In December 2014, we received a net cash amount of $1,731,317 from the sale of our state NOLs and research and development tax credits for the years ended October 31, 2012 and 2013.

In the year ended October 31, 2013, we received a net cash amount of $725,190 from the sale of our state NOLs and research and development tax credits for the periods through October 31, 2010.

Liquidity and Capital Resources

Since our inception through October 31, 2014, we reported accumulated net losses of $87.0 million and recurring negative cash flows from operations. We anticipate that we will continue to generate significant losses from operations for the foreseeable future.

Cash used in operating activities for the year ended October 31, 2014 was $17.0 million (including proceeds from the sale of our state NOLs and R&D tax credits of approximately $0.6 million) primarily from spending associated with our clinical trial programs and general & administrative spending. Total spending approximated $13.9 million, including one-time non-recurring costs associated with our October 2013 financing, March 2014 financing, certain compensation costs and the settlement of legal claims.

Cash used in investing activities, for the year ended October 31, 2014, was $439,675 resulting from legal cost spending in support of our intangible assets (patents) and costs paid to Penn for patents.

Cash provided by financing activities, for the year ended October 31, 2014, was $14.5 million, primarily resulting from the public offering of 4,692,000 shares of Common Stock at $3.00 per share, resulting in net proceeds of $12.6 million. In addition, we sold 306,122 shares of Common Stock to Aratana at a price of $4.90 per share, resulting in net proceeds of $1.5 million. We also issued GBP 108,724 shares of Common Stock pursuant to a Stock Purchase Agreement with GBP, resulting in net proceeds of $0.4 million.

For the year ended October 31, 2013, we issued to certain accredited investors (including JMJ Financial) convertible promissory notes in the aggregate principal amount of $2,991,776 for an aggregate net purchase price of $2,963,400. These convertible promissory notes were issued with either original issue discounts ranging from 15% to 25% or are interest-bearing and are convertible into shares of our Common Stock. Some of these convertible promissory notes were issued along with warrants. Most of the convertible promissory notes have subsequently converted into Common Stock. In addition, during the year ended October 31, 2013, Mr. Moore loaned us $11,200 under the Moore Notes. We repaid Mr. Moore $85,700 under the Moore Notes.

During the year ended October 31, 2013, we issued 17,657 shares of our Common Stock, to accredited investors, at a price per share of $4.375, resulting in total net proceeds of $77,250. In addition, we issued approximately 45,300 shares of its Common Stock in the third fiscal quarter of 2014, resulting in net proceeds of $100,000.

During the year ended October 31, 2013, we issued 359,224 shares of our Common Stock to Hanover in connection with the settlement of drawdowns pursuant to the Hanover Purchase Agreement, at prices ranging from approximately $2.81 to $7.48 per share. The per share price for such shares was established under the terms of the Hanover Purchase Agreement. We received total net proceeds of approximately $2,964,140 in connection with these drawdowns.

Our limited capital resources and operations to date have been funded primarily with the proceeds from public and private equity, debt financings, NOL tax sales and income earned on investments and grants. We have sustained losses from operations in each fiscal year since our inception, and we expect losses to continue for the indefinite future, due to the substantial investment in research and development. As of October 31, 2014 and October 31, 2013, we had an accumulated deficit of $86,991,137 and $70,465,823, respectively and shareholders' equity of $20,629,986 and $18,002,142, respectively.

In December 2014, we completed a registered direct offering, resulting in total proceeds, before expenses, of $16.7 million.

We believe our current cash position is sufficient to fund our business plan through July 31, 2016. This assessment is based on current estimates and assumptions regarding our clinical development program and business needs. Actual results could differ materially from this projection. Subsequent to October 31, 2014, we may plan to continue to raise additional funds through the sales of debt and/or equity securities as needed.

We recognize it will need to raise additional capital over and above the amounts raised during the October 2013, March 2014 and December 2014 offerings in order to continue to execute its business plan. There is no assurance that additional financing will be available when needed or that management will be able to obtain financing on terms acceptable to us or whether we will become profitable and generate positive operating cash flow. If we are unable to raise sufficient additional funds, it will have to scale back its business plan, extend payables and reduce overhead until sufficient additional capital is raised to support further operations. There can be no assurance that such a plan will be successful.

Off-Balance Sheet Arrangements

As of October 31, 2014, we had no off-balance sheet arrangements.

Critical Accounting Estimates

The preparation of financial statements in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") involves the use of estimates and assumptions that affect the recorded amounts of assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results may differ substantially from these estimates. Significant estimates include the fair value and recoverability of the carrying value of intangible assets (patents and licenses), the fair value of options, the fair value of embedded conversion features, warrants and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, based on historical experience and on various other assumptions that it believes to be reasonable under the circumstances. Actual results may differ from estimates. The most significant estimates impact the following transactions or account balances: stock compensation, warrant valuation and dilution caused by anti-dilution provisions in the warrants and other agreements.

Revenue Recognition

The Company derived the majority of its revenue in 2014 from patent licensing. In general, these revenue arrangements provide for the payment of contractually determined fees in consideration for the grant of certain intellectual property rights for patented technologies owned or controlled by the Company. The intellectual property rights granted may be perpetual in nature, or upon the final milestones being met, or can be granted for a defined, relatively short period of time, with the licensee possessing the right to renew the agreement at the end of each contractual term for an additional minimum upfront payment. The Company recognizes licensing fees when there is persuasive evidence of a licensing arrangement, fees are fixed or determinable, delivery has occurred and collectability is reasonably assured.

An allowance for doubtful accounts is established based on the Company's best estimate of the amount of probable credit losses in the Company's existing license fee receivables, using historical experience. The Company reviews its allowance for doubtful accounts periodically. Past due accounts are reviewed individually for collectability.

Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. To date, this is yet to occur.

If product development is successful, the Company will recognize revenue from royalties based on licensees' sales of its products or products using its technologies. Royalties are recognized as earned in accordance with the contract terms when royalties from licensees can be reasonably estimated and collectability is reasonably assured. If royalties cannot be reasonably estimated or collectability of a royalty amount is not reasonably assured, royalties are recognized as revenue when the cash is received.

The Company recognizes revenue from milestone payments received under collaboration agreements when earned, provided that the milestone event is substantive, its achievability was not reasonably assured at the inception of the agreement, the Company has no further performance obligations relating to the event and collection is reasonably assured. If these criteria are not met, the Company recognizes milestone payments ratably over the remaining period of the Company's performance obligations under the collaboration agreement. All such recognized revenues are included in collaborative licensing and development revenue in the Company's consolidated statements of operations.

Stock Based Compensation

The Company has an equity plan which allows for the granting of stock options to its employees, directors and consultants for a fixed number of shares with an exercise price equal to the fair value of the shares at date of grant. The Company measures the cost of services received in exchange for an award of equity instruments based on the fair value of the award. For employees and directors, the fair value of the award is measured on the grant date and for non-employees, the fair value of the award is generally measured based on contractual terms. The fair value amount is then recognized over the requisite service period, usually the vesting period, in both research and development expenses and general and administrative expenses on the statement of operations.

The process of estimating the fair value of stock-based compensation awards and recognizing stock-based compensation cost over their requisite service period involves significant assumptions and judgments. We estimate the fair value of stock option awards on the date of grant using the BSM for the remaining awards, which requires that we make certain assumptions regarding: (i) the expected volatility in the market price of our Common Stock; (ii) dividend yield; (iii) risk-free interest rates; and (iv) the period of time employees are expected to hold the award prior to exercise (referred to as the expected holding period). As a result, if we revise our assumptions and estimates, our stock-based compensation expense could change materially for future grants.

The Company accounts for stock-based compensation using fair value recognition and record stock-based compensation as a charge to earnings net of the estimated impact of forfeited awards. As such, we recognize stock-based compensation cost only for those stock-based awards that are estimated to ultimately vest over their requisite service period, based on the vesting provisions of the individual grants.

Fair Value of Financial Instruments

The carrying amounts of financial instruments, including cash, receivables, accounts payable and accrued expenses approximated fair value, as of the balance sheet date presented, because of the relatively short maturity dates on these instruments. The carrying amounts of the financing arrangements issued approximate fair value, as of the balance sheet date presented, because interest rates on these instruments approximate market interest rates after consideration of stated interest rates, anti-dilution protection and associated warrants. The estimate of fair value of such financial instruments involves the exercise of significant judgment and the use of estimates by management.

Derivative Financial instruments

We do not use derivative instruments to hedge exposures to cash flow, market or foreign currency risks. We evaluate all of our financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The determination of fair value requires the use of judgment and estimates by management. For stock-based derivative financial instruments, we used the BSM which approximated the binomial lattice options pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the instrument could be required within 12 months of the balance sheet date. The variables used in the model are projected based on our historical data, experience, and other factors. Changes in any of these variables could result in material adjustments to the expense recognized for changes in the valuation of the warrant derivative liability.

Intangible Assets

Intangible assets primarily consist of legal and filing costs associated with obtaining patents and licenses and are amortized on a straight-line basis over their remaining useful lives which are estimated to be twenty years from the effective dates of the University of Pennsylvania (Penn) License Agreements, beginning in July 1, 2002. These legal and filing costs are invoiced to the Company through Penn and its patent attorneys.

Management has reviewed its long-lived assets for impairment whenever events and circumstances indicate that the carrying value of an asset might not be recoverable and its carrying amount exceeds its fair value, which is based upon estimated undiscounted future cash flows. Net assets are recorded on the balance sheet for patents and licenses related to ADXS-HPV, ADXS-PSA and ADXS-HER2 and other products that are in development. However, if a competitor were to gain FDA approval for a treatment before us or if future clinical trials fail to meet the targeted endpoints, the Company would likely record an impairment related to these assets. In addition, if an application is rejected or fails to be issued, the Company would record an impairment of its estimated book value.

Income Taxes

The Company uses the asset and liability method of accounting for income taxes in accordance with ASC Topic 740, “Income Taxes.” Under this method, income tax expense is recognized for the amount of: (i) taxes payable or refundable for the current year and (ii) deferred tax consequences of temporary differences resulting from matters that have been recognized in an entity’s financial statements or tax returns. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. A valuation allowance is provided to reduce the deferred tax assets reported if based on the weight of the available positive and negative evidence, it is more likely than not some portion or all of the deferred tax assets will not be realized.

ASC Topic 740-10-30 clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Topic 740-10-40 provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company will classify as income tax expense any interest and penalties. The Company has no material uncertain tax positions for any of the reporting periods presented. The Company files tax returns in U.S. federal and state jurisdictions, including New Jersey, and is subject to audit by tax authorities beginning with the year ended October 31, 2011.

New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers*. Amendments in this ASU create Topic 606, Revenue from Contracts with Customers, and supersede the revenue recognition requirements in Topic 605, Revenue Recognition, including most industry-specific revenue recognition guidance throughout the Industry Topics of the Codification. In addition, the amendments supersede the cost guidance in Subtopic 605-35, Revenue Recognition—Construction-Type and Production-Type Contracts, and create new Subtopic 340-40, Other Assets and Deferred Costs—Contracts with Customers. In summary, the core principle of Topic 606 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU is the final version of Proposed ASU 2011-230—Revenue Recognition (Topic 605) and Proposed ASU 2011–250—Revenue Recognition (Topic 605): Codification Amendments, both of which have been deleted. The amendments in this ASU are effective for the Company for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently evaluating the effects of ASU 2014-09 on the consolidated financial statements.

In June 2014, the FASB issued ASU 2014-12, *Compensation - Stock Compensation*. The amendments in this ASU apply to reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target can be achieved after the requisite service period. This ASU is the final version of Proposed ASU EITF-13D--Compensation--Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period, which has been deleted. The amendments require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718 as it relates to awards with performance conditions that affect vesting to account for such awards. As such, the performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. If the performance target becomes probable of being achieved before the end of the requisite service period, the remaining unrecognized compensation cost should amount of compensation cost recognized during and after the requisite service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest. The requisite service period ends when the employee can cease rendering service and still be eligible to vest in the award if the performance target is achieved. As indicated in the definition of vest, the stated vesting period (which includes the period in which the performance target could be achieved) may differ from the requisite service period. The amendments in this ASU are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015, and early adoption is permitted. The Company does not expect ASU 2014-12 to have a material impact on the consolidated financial statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Not Required.

Item 8: Financial Statements and Supplementary Data.

The index to Financial Statements appears on the page immediately prior to page F-1, the Report of the Independent Registered Public Accounting Firms appears on page F-1, and the Financial Statements and Notes to Financial Statements appear on pages F-2 to F-29.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

Not applicable.

Item 9A: Controls and Procedures.

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act). Based upon this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is: (1) accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure; and (2) recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. In conjunction with this evaluation, we initiated the development of control design documents and are currently reviewing the recommendations and will implement change as appropriate.

Changes in Internal Control Over Financial Reporting

In March 2014, our previous Chief Financial Officer left the Company and a new Chief Financial Officer was appointed. During the quarter ended October 31, 2014, there were no changes in our internal control over financial reporting that have materially affected, nor were there any other significant changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the reporting period.

Assessment of the Effectiveness of Internal Controls over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) under the Exchange Act. Our management assessed the effectiveness of our internal control over financial reporting as of October 31, 2014 on criteria for effective internal control over financial reporting described in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO - 1992). Based on this evaluation, management has determined that as of October 31, 2014, there were no material weaknesses in our internal control over financial reporting and that our internal control over financial reporting was effective.

Attestation Report of our Registered Public Accounting Firm

This annual report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting because we are a "smaller reporting company." Our management's report was not subject to attestation by our independent registered public accounting firm pursuant to rules of the SEC that permit us to provide only management's report in this annual report.

Item 9B: Other Information.

None

PART III

Item 10: Directors, Executive Officers and Corporate Governance.

The information required under this item will be set forth in the Company's Form 10-K/A or proxy statement to be filed with the Securities and Exchange Commission on or before March 2, 2015 and is incorporated herein by reference.

Item 11: Executive Compensation.

The information required under this item will be set forth in the Company's Form 10-K/A or proxy statement to be filed with the Securities and Exchange Commission on or before March 2, 2015 and is incorporated herein by reference.

Item 12: Security Ownership of Certain Beneficial Owners and Management and Related Shareholder Matters.

The information required under this item will be set forth in the Company's Form 10-K/A or proxy statement to be filed with the Securities and Exchange Commission on or before March 2, 2015 and is incorporated herein by reference.

Item 13: Certain Relationships and Related Transactions, and Director Independence.

The information required under this item will be set forth in the Company's Form 10-K/A or proxy statement to be filed with the Securities and Exchange Commission on or before March 2, 2015 and is incorporated herein by reference.

Item 14: Principal Accountant Fees and Services.

The information required under this item will be set forth in the Company's Form 10-K/A or proxy statement to be filed with the Securities and Exchange Commission on or before March 2, 2015 and is incorporated herein by reference.

PART IV

Item 15: Exhibits and Financial Statements Schedules.

See Index of Exhibits below. The Exhibits are filed with or incorporated by reference in this report.

(a) *Exhibits*. The following exhibits are included herein or incorporated herein by reference.

Exhibit Number	Description of Exhibits
1.1	Underwriting Agreement, dated March 26, 2014, by and between Aegis Capital Group and Advaxis, Inc. Incorporated by reference to Exhibit 1.1 to Current Report on Form 8-K filed with the SEC on April 1, 2014.
2.1	Agreement Plan and Merger of Advaxis, Inc. (a Colorado corporation) and Advaxis, Inc. (a Delaware corporation). Incorporated by reference to Annex B to DEF 14A Proxy Statement filed with the SEC on May 15, 2006.
3.1	Amended and Restated Certificate of Incorporation. Incorporated by reference to Annex C to DEF 14A Proxy Statement filed with the SEC on May 15, 2006.
3.2	Certificate of Designations of Preferences, Rights and Limitations of Series A Preferred Stock of the registrant, dated September 24, 2009. Incorporated by reference to Exhibit 4.1 to Current Report on Form 8-K filed with the SEC on September 25, 2009.
3.3	Certificate of Designations of Preferences, Rights and Limitations of Series B Preferred Stock of the registrant, dated July 19, 2010. Incorporated by reference to Exhibit 4.1 to Current Report on Form 8-K filed with the SEC on July 20, 2010.
3.4	Certificate of Amendment to Amended and Restated Certificate of Incorporation filed with the Delaware Secretary of State on August 16, 2012. Incorporated by reference to Exhibit 3.1 to Current Report on Form 8-K filed with the SEC on August 17, 2012.
3.5	Certificate of Amendment to Amended and Restated Certificate of Incorporation filed with the Delaware Secretary of State on July 11, 2013 (reverse stock split). Incorporated by reference to Exhibit 3.1 to Current Report on Form 8-K filed with the SEC on July 15, 2013.
3.6	Certificate of Amendment to Amended and Restated Certificate of Incorporation filed with the Delaware Secretary of State on July 12, 2013 (authorized share capital decrease). Incorporated by reference to Exhibit 3.2 to Current Report on Form 8-K filed with the SEC on July 15, 2013.
3.7	Certificate of Amendment to Amended and Restated Certificate of Incorporation filed with the Delaware Secretary of State on July 9, 2014. Incorporated by reference to Exhibit 3.1 to Current Report on Form 8-K filed with the SEC on July 10, 2014.
3.8	Amended and Restated Bylaws. Incorporated by reference to Exhibit 10.4 to Quarterly Report on Form 10-QSB filed with the SEC on September 13, 2006.
4.1	Form of Common Stock certificate. Incorporated by reference to Exhibit 4.1 to Current Report on Form 8-K filed with the SEC on October 23, 2007.
4.2	Form of Amended and Restated Common Stock Purchase Warrant. Incorporated by reference to Exhibit 4.2 to Current Report on Form 8-K/A filed with the SEC on February 11, 2010.
4.3	Form of Common Stock Purchase Warrant, issued in the junior bridge financing. Incorporated by reference to Exhibit 4.12 to Registration Statement on Form S-1 (File No. 333-162632) filed with the SEC on October 22, 2009.
4.4	Form of Common Stock Purchase Warrant. Incorporated by reference to Exhibit 4.1 to Current Report on Form 8-K filed with the SEC on June 19, 2009.
4.5	Form of Common Stock Purchase Warrant. Incorporated by reference to Exhibit 4.3 to Current Report on Form 8-K/A filed with the SEC on February 11, 2010.
4.6	Form of Common Stock Purchase Warrant. Incorporated by reference to Exhibit 4.2 to Current Report on Form 8-K filed with the SEC on November 12, 2010.

Exhibit Number	Description of Exhibits
4.7	Form of Common Stock Purchase Warrant. Incorporated by reference to Exhibit 4.2 to Current Report on Form 8-K filed with the SEC on May 9, 2011.
4.8	Form of Common Stock Purchase Warrant. Incorporated by reference to Exhibit 4.1 to Current Report on Form 8-K filed with the SEC on August 31, 2011.
4.9	Form of Common Stock Purchase Warrant. Incorporated by reference to Exhibit 4.2 to Current Report on Form 8-K filed with the SEC on November 2, 2011.
4.10	Form of Common Stock Purchase Warrant. Incorporated by reference to Exhibit 4.2 to Current Report on Form 8-K filed with the SEC on January 5, 2012.
4.11	Form of Common Stock Purchase Warrant issued pursuant to the Exchange Agreements, dated as of May 14, 2012, by and between Advaxis, Inc. and each investor identified on the signature pages thereto. Incorporated by reference to Exhibit 4.1 to Current Report on Form 8-K filed with the SEC on May 18, 2012.
4.12	Form of Common Stock Purchase Warrant issued pursuant to the note purchase agreement, dated as of May 14, 2012, by and between Advaxis, Inc. and each investor identified on the signature pages thereto. Incorporated by reference to Exhibit 4.3 to Current Report on Form 8-K filed with the SEC on May 18, 2012.
4.13	Form of Common Stock Purchase Warrant issued to Dr. James Patton. Incorporated by reference to Exhibit 4.23 to Amendment No. 1 to Registration Statement on Form S-1 (File No. 333-183682) filed with the SEC on September 11, 2012.
4.14	Form of Secured Promissory Note issued pursuant to the Securities Purchase Agreement, dated as of December 13, 2012, by and between Advaxis, Inc. and Tonaquint, Inc. Incorporated by reference to Exhibit 4.1 to Quarterly Report on Form 10-Q filed with the SEC on March 25, 2013.
4.15	Form of Warrant to Purchase Shares of Common Stock issued pursuant to the Securities Purchase Agreement, dated as of December 13, 2012, by and between Advaxis, Inc. and Tonaquint, Inc. Incorporated by reference to Exhibit 4.2 to Quarterly Report on Form 10-Q filed with the SEC on March 25, 2013.
4.16	Form of Warrant Agency Agreement by and between Advaxis, Inc. and Securities Transfer Corporation and Form of Warrant Certificate. Incorporated by reference to Exhibit 4.18 to Registration Statement on Form S-1/A (File No. 333-188637) filed with the SEC on September 27, 2013.
4.17	Form of Representative's Warrant. Incorporated by reference to Exhibit 4.19 to Registration Statement on Form S-1/A (File No. 333-188637) filed with the SEC on September 27, 2013.
4.18	Form of Warrant to Purchase 30,154 Shares of Common Stock issued September 17, 2013 pursuant to an engagement letter termination agreement. Incorporated by reference to Exhibit 4.20 to Registration Statement on Form S-1/A (File No. 333-188637) filed with the SEC on September 27, 2013.
4.19	Form of Warrant Agency Agreement between Advaxis, Inc. and Securities Transfer Corporation dated October 22, 2013 and Form of Warrant Certificate. Incorporated by reference to Exhibits 10.1 and 10.2 to Current Report on Form 8-K filed with the SEC on October 22, 2013.
4.20	Common Stock purchase warrant, dated as of March 19, 2014, by and between Advaxis, Inc. and Aratana Therapeutics, Inc. Incorporated by reference to Exhibit 4.1 to Quarterly Report on Form 10-Q filed with the SEC on June 10, 2014.
4.21	Form of Representative's Warrant related to the Underwriting Agreement, dated as of March 31, 2014, by and between Advaxis, Inc. and Aegis Capital Group. Incorporated by reference to Exhibit 4.2 to Quarterly Report on Form 10-Q filed with the SEC on June 10, 2014.

Exhibit Number	Description of Exhibits
10.1	2004 Stock Option Plan of the registrant. Incorporated by reference to Exhibit 4.1 to Report on Form S-8 filed with the SEC on December 1, 2005.
10.2	2005 Stock Option Plan of the registrant. Incorporated by reference to Annex A to DEF 14A Proxy Statement filed with the SEC on May 15, 2006.
10.3	License Agreement, between the Trustees of the University of Pennsylvania and the registrant dated as of June 17, 2002, as Amended and Restated on February 13, 2007. Incorporated by reference to Exhibit 10.11 to Annual Report on Form 10-KSB filed with the SEC on February 13, 2007.
10.4	Sponsored Research Agreement dated November 1, 2006 by and between the Trustees of the University of Pennsylvania (Dr. Paterson Principal Investigator) and the registrant. Incorporated by reference to Exhibit 10.44 to Annual Report on 10-KSB filed with the SEC on February 13, 2007.

FINANCIAL STATEMENTS

INDEX

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Audit Committee of the
Board of Directors and Shareholders of
Advaxis, Inc.

We have audited the accompanying balance sheets of Advaxis, Inc. (the "Company") as of October 31, 2014 and 2013, and the related statements of operations, shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Advaxis, Inc., as of October 31, 2014 and 2013, in conformity with accounting principles generally accepted in the United States of America.

Common Stock issued in exchange for warrants	$ -	$ 2,308,500

The accompanying notes should be read in conjunction with the financial statements.

ADVAXIS, INC.
NOTES TO FINANCIAL STATEMENTS

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Advaxis, Inc. ("Advaxis" or, "the Company") is a clinical stage biotechnology company focused on the discovery, development and commercialization of proprietary *Lm*-LLO cancer immunotherapies. These immunotherapies are based on a platform technology that utilizes live attenuated *Listeria monocytogenes* ("*Lm*" or "Listeria"), bioengineered to secrete antigen/adjuvant fusion proteins. These *Lm*-LLO strains are believed to be a significant advancement in immunotherapy as they integrate multiple functions into a single immunotherapy as they access and direct antigen presenting cells to stimulate anti-tumor T-cell immunity, stimulate and activate the immune system with the equivalent of multiple adjuvants, and simultaneously reduce tumor protection in the tumor microenvironment to enable the T-cells to eliminate tumors. Other immunotherapies may employ individual elements of this comprehensive approach, but, to its knowledge, none combine all of these elements together in a single, easily administered, well-tolerated yet comprehensive immunotherapy.

ADXS-HPV is its lead *Lm*-LLO immunotherapy product candidate for the treatment of human papilloma virus ("HPV")-associated cancers. The Company completed a Phase 2 study in 110 patients with recurrent cervical cancer in India that demonstrated a manageable safety profile, improved survival and objective tumor responses. The Company plans to advance this immunotherapy into an adequate and well-controlled clinical trial for the treatment of women with recurrent cervical cancer. ADXS-HPV has received United States Food and Drug Administration ("FDA") orphan drug designation for three HPV-associated cancers: cervical, head and neck, and anal cancer, and is being evaluated in three ongoing cooperative group and investigator-initiated clinical trials as follows: locally advanced cervical cancer, head and neck cancer, and anal cancer. The Company also plans to initiate a Phase 1/2 clinical trial alone and in combination with MedImmune's, the global biologics research and development arm of AstraZeneca, investigational anti-PD-L1 immune checkpoint inhibitor, MEDI4736, in patients with previously treated locally advanced metastatic HPV-associated cervical cancer and HPV-associated head and neck cancer. Lastly, the Company is evaluating higher doses and repeat cycles of ADXS-HPV in patients with recurrent cervical cancer.

The Company is developing two other cancer immunotherapies. ADXS-PSA is its *Lm*-LLO immunotherapy product candidate designed to target the PSA antigen associated with prostate cancer. The FDA has cleared its Investigational New Drug ("IND") application, and the Company now plans to initiate a Phase 1/2 clinical trial alone and in combination with KEYTRUDA® (pembrolizumab), Merck's humanized monoclonal antibody against PD-1, in patients with previously treated metastatic castration-resistant prostate cancer. ADXS-HER2 is its *Lm*-LLO immunotherapy product candidate for the treatment of Her2 expressing cancers, including human and canine osteosarcoma, breast, gastric and other cancers. The Company has submitted an IND application and has received orphan drug designation for ADXS-HER2 in osteosarcoma. Over twenty distinct additional constructs have been developed to various stages of development, developed directly by the Company and through strategic collaborations with recognized centers of excellence.

Since inception in 2002, the Company has focused its development efforts on understanding its platform technology and establishing a drug development pipeline that incorporates its technology into therapeutic cancer immunotherapies, currently those targeting HPV-associated cancer (cervical cancer, head and neck cancer and anal cancer), prostate cancer, and HER2 expressing cancers. Although no immunotherapies have been commercialized to date, research and development and investment continues to be placed behind the advancement of this technology. Pipeline development and the further exploration of the technology for advancement entails risk and expense. The Company anticipates that its ongoing operational costs will increase significantly as they continue conducting and expanding its clinical development program.

From inception through the period ended January 31, 2014, the Company was a development stage company. During the three months ended April 30, 2014, it exited the development stage upon its execution of a license agreement with Aratana Therapeutics Inc. ("Aratana"). This provided an upfront payment of $1 million, which the Company properly recognized and earned as revenue.

Liquidity and Financial Condition

The Company's products are being developed and have not generated significant revenues. As a result, the Company has suffered recurring losses. These losses are expected to continue for an extended period of time. However, in the year ended October 31, 2014, the Company recorded $1 million in revenue pursuant to a licensing agreement with Aratana. The licensing agreement provides for potentially significant revenues based on the achievement of event-based milestones in the future. In addition, the Company completed a second public offering of its Common Stock ("Common Stock"), yielding a net amount of approximately $12.7 million and received approximately $2 million related to the sale of its Common Stock to investors under stock purchase agreements.

On March 31, 2014, the Company closed its public offering of 4,692,000 shares of Common Stock, including 612,000 shares that were offered and sold by the Company pursuant to the full exercise of the underwriters' over-allotment option, at a price to the public of $3.00 per share. Total gross proceeds from the offering were $14 million. After deducting underwriting discounts and commissions and other offering expenses paid by the Company, net proceeds were approximately $12.7 million.

In December 2014, the Company received $1.7 million in net proceeds from the sale of its tax credit from the New Jersey Technology Business Tax Certificate Transfer (NOL) Program. On December 22, 2014, the Company closed a registered direct offering, receiving total proceeds, before expenses, of $16.7 million. As of October 31, 2014, the Company had $17.6 million of cash on hand. The Company believes its current cash position is sufficient to fund its business plan through July 31, 2016.

The Company recognizes it will need to raise additional capital over and above the amount raised during October 2013, March 2014 and December 2014 in order to continue to execute its business plan. Subsequent to October 31, 2014, the Company may plan to continue to raise additional funds through the sales of equity securities. There is no assurance that additional financing will be available when needed or that management will be able to obtain financing on terms acceptable to the Company or whether the Company will become profitable and generate positive operating cash flow. If the Company is unable to raise sufficient additional funds, it will have to scale back its business plan, delay research and development activity, extend payables and reduce overhead until sufficient additional capital is raised to support further operations. There can be no assurance that such a plan will be successful.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") involves the use of estimates and assumptions that affect the recorded amounts of assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results may differ substantially from these estimates. Significant estimates include the fair value and recoverability of the carrying value of intangible assets (patents and licenses), the fair value of options, the fair value of embedded conversion features, warrants and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, based on historical experience and on various other assumptions that it believes to be reasonable under the circumstances. Actual results may differ from estimates.

Reclassification

Certain amounts in the prior period financial statements have been reclassified to conform to the presentation of the current period financial statements. These reclassifications had no effect on the previously reported net loss.

Revenue Recognition

The Company derived the majority of its revenue in 2014 from patent licensing. In general, these revenue arrangements provide for the payment of contractually determined fees in consideration for the grant of certain intellectual property rights for patented technologies owned or controlled by the Company. The intellectual property rights granted may be perpetual in nature, or upon the final milestones being met, or can be granted for a defined, relatively short period of time, with the licensee possessing the right to renew the agreement at the end of each contractual term for an additional minimum upfront payment. The Company recognizes licensing fees when there is persuasive evidence of a licensing arrangement, fees are fixed or determinable, delivery has occurred and collectability is reasonably assured.

An allowance for doubtful accounts is established based on the Company's best estimate of the amount of probable credit losses in the Company's existing license fee receivables, using historical experience. The Company reviews its allowance for doubtful accounts periodically. Past due accounts are reviewed individually for collectability.

Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. To date, this is yet to occur.

If product development is successful, the Company will recognize revenue from royalties based on licensees' sales of its products or products using its technologies. Royalties are recognized as earned in accordance with the contract terms when royalties from licensees can be reasonably estimated and collectability is reasonably assured. If royalties cannot be reasonably estimated or collectability of a royalty amount is not reasonably assured, royalties are recognized as revenue when the cash is received.

The Company recognizes revenue from milestone payments received under collaboration agreements when earned, provided that the milestone event is substantive, its achievability was not reasonably assured at the inception of the agreement, the Company has no further performance obligations relating to the event and collection is reasonably assured. If these criteria are not met, the Company recognizes milestone payments ratably over the remaining period of the Company's performance obligations under the collaboration agreement. All such recognized revenues are included in collaborative licensing and development revenue in the Company's consolidated statements of operations.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. As of October 31, 2014 and October 31, 2013, the Company did not have any cash equivalents.

Concentration of Credit Risk

The Company maintains its cash in bank deposit accounts (checking) that at times exceed federally insured limits. Approximately $17.6 million is subject to credit risk at October 31, 2014. However, these cash balances are maintained at creditworthy financial institutions. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk.

Deferred Expenses

Deferred Expenses consistent of advanced payments made on research and development projects. Amortization is provided for on a straight-line basis over the periods of the underlying research and development contracts ranging from six months to five years and is charged to Research and Development Expense in the Statement of Operations.

Property and Equipment

Property and equipment consists of laboratory equipment and is stated at cost. Depreciation and amortization is provided for on the straight-line basis over the estimated useful lives of the respective asset ranging from 3 to 5 years. Expenditures for maintenance and repairs that do not materially extend the useful lives of the respective assets are charged to expense as incurred. The cost and accumulated depreciation of assets retired or sold are removed from the respective accounts and any gain or loss is recognized in operations.

Intangible Assets

Intangible assets primarily consist of legal and filing costs associated with obtaining patents and licenses and are amortized on a straight-line basis over their remaining useful lives which are estimated to be twenty years from the effective dates of the University of Pennsylvania (Penn) License Agreements, beginning in July 1, 2002. These legal and filing costs are invoiced to the Company through Penn and its patent attorneys.

Management has reviewed its long-lived assets for impairment whenever events and circumstances indicate that the carrying value of an asset might not be recoverable and its carrying amount exceeds its fair value, which is based upon estimated undiscounted future cash flows. Net assets are recorded on the balance sheet for patents and licenses related to ADXS-HPV, ADXS-PSA and ADXS-HER2 and other products that are in development. However, if a competitor were to gain FDA approval for a treatment before us or if future clinical trials fail to meet the targeted endpoints, the Company would likely record an impairment related to these assets. In addition, if an application is rejected or fails to be issued, the Company would record an impairment of its estimated book value.

Deferred Financing Costs

The Company has recorded deferred financing costs as a result of fees incurred by the Company in conjunction with its debt financing activities. These costs are amortized using the straight-line method over the shorter of (a) the term of the related debt or (b) the expected conversion date of the debt into equity instruments, which approximates the effective interest method. The amortization of deferred financing costs is included in interest expense as a component of other expenses in the accompanying statements of operations. For the year ended October 31, 2013, amortization of deferred financing costs was immaterial, and as of October 31, 2013, deferred financing costs were fully amortized.

Net Loss per Share

Basic net income or loss per common share is computed by dividing net income or loss available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share give effect to dilutive options, warrants, convertible debt and other potential Common Stock equivalents outstanding during the period. Therefore, in the case of a net loss the impact of the potential Common Stock resulting from warrants, outstanding stock options and convertible debt is not included in the computation of diluted loss per share, as the effect would be anti-dilutive. In the case of net income the impact of the potential Common Stock resulting from these instruments that have intrinsic value is included in the diluted earnings per share. The table sets forth the number of potential shares of Common Stock that have been excluded from diluted net loss per share.

	As of October 31,	
	2014	2013
Warrants	4,158,092	4,265,262
Stock Options	467,968	467,923
Convertible Debt (using the if-converted method)	3,354	3,354
Total	4,629,414	4,736,539

Research and Development Expenses

Research and development costs are expensed as incurred and include but are not limited to clinical trial and related manufacturing costs, payroll and personnel expenses, lab expenses, and related overhead costs.

Advertising Expense

Advertising costs are charged to operations as incurred. For the years ended October 31, 2014 and 2013 the Company did not incur any advertising costs.

Stock Based Compensation

The Company has an equity plan which allows for the granting of stock options to its employees, directors and consultants for a fixed number of shares with an exercise price equal to the fair value of the shares at date of grant. The Company measures the cost of services received in exchange for an award of equity instruments based on the fair value of the award. For employees and directors, the fair value of the award is measured on the grant date and for non-employees, the fair value of the award is generally measured based on contractual terms. The fair value amount is then recognized over the requisite service period, usually the vesting period, in both research and development expenses and general and administrative expenses on the statement of operations depending on the nature of the services provided by the employees or consultants.

The process of estimating the fair value of stock-based compensation awards and recognizing stock-based compensation cost over their requisite service period involves significant assumptions and judgments. The Company estimates the fair value of stock option awards on the date of grant using the Black Scholes Model ("BSM") for the remaining awards, which requires that the Company makes certain assumptions regarding: (i) the expected volatility in the market price of its Common Stock; (ii) dividend yield; (iii) risk-free interest rates; and (iv) the period of time employees are expected to hold the award prior to exercise (referred to as the expected holding period). As a result, if the Company revises its assumptions and estimates, stock-based compensation expense could change materially for future grants.

The Company accounts for stock-based compensation using fair value recognition and record stock-based compensation as a charge to earnings net of the estimated impact of forfeited awards. As such, the Company recognizes stock-based compensation cost only for those stock-based awards that are estimated to ultimately vest over their requisite service period, based on the vesting provisions of the individual grants.

Fair Value of Financial Instruments

The carrying amounts of financial instruments, including cash, accounts payable and accrued expenses approximated fair value as of the balance sheet date presented, because of the relatively short maturity dates on these instruments. The carrying amounts of the financing arrangements issued approximate fair value as of the balance sheet date presented, because interest rates on these instruments approximate market interest rates after consideration of stated interest rates, anti-dilution protection and associated warrants.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market or foreign currency risks. The Company evaluates all of its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. For stock-based derivative financial instruments, the Company used the Black Scholes valuation model which approximated the binomial lattice options pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the instrument could be required within 12 months of the balance sheet date.

Hybrid Financial Instruments

For certain hybrid financial instruments, the Company elected to apply the fair value option to account for these instruments. The Company made an irrevocable election to measure such hybrid financial instruments at fair value in their entirety, with changes in fair value recognized in earnings at each balance sheet date. The election may be made on an instrument by instrument basis.

Debt Discount and Amortization of Debt Discount

Debt discount represents the fair value of embedded conversion options of various convertible debt instruments and attached convertible equity instruments issued in connection with debt instruments. The debt discount is amortized over the earlier of (i) the term of the debt or (ii) conversion of the debt, using the straight-line method which approximates the effective interest method. The amortization of debt discount is included as interest expense as a component of other expenses in the accompanying statements of operations.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers*. Amendments in this ASU create Topic 606, Revenue from Contracts with Customers, and supersede the revenue recognition requirements in Topic 605, Revenue Recognition, including most industry-specific revenue recognition guidance throughout the Industry Topics of the Codification. In addition, the amendments supersede the cost guidance in Subtopic 605-35, Revenue Recognition—Construction-Type and Production-Type Contracts, and create new Subtopic 340-40, Other Assets and Deferred Costs—Contracts with Customers. In summary, the core principle of Topic 606 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU is the final version of Proposed ASU 2011-230—Revenue Recognition (Topic 605) and Proposed ASU 2011–250—Revenue Recognition (Topic 605): Codification Amendments, both of which have been deleted. The amendments in this ASU are effective for the Company for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently evaluating the effects of ASU 2014-09 on the consolidated financial statements.

In June 2014, the FASB issued ASU 2014-12, *Compensation - Stock Compensation*. The amendments in this ASU apply to reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target can be achieved after the requisite service period. This ASU is the final version of Proposed ASU EITF-13D--Compensation--Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period, which has been deleted. The amendments require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718 as it relates to awards with performance conditions that affect vesting to account for such awards. As such, the performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. If the performance target becomes probable of being achieved before the end of the requisite service period, the remaining unrecognized compensation cost should amount of compensation cost recognized during and after the requisite service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest. The requisite service period ends when the employee can cease rendering service and still be eligible to vest in the award if the performance target is achieved. As indicated in the definition of vest, the stated vesting period (which includes the period in which the performance target could be achieved) may differ from the requisite service period. The amendments in this ASU are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015, and early adoption is permitted. The Company does not expect ASU 2014-12 to have a material impact on the consolidated financial statements.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material impact on the accompanying consolidated financial statements.

Income Taxes

The Company uses the asset and liability method of accounting for income taxes in accordance with ASC Topic 740, “Income Taxes.” Under this method, income tax expense is recognized for the amount of: (i) taxes payable or refundable for the current year and (ii) deferred tax consequences of temporary differences resulting from matters that have been recognized in an entity’s financial statements or tax returns. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. A valuation allowance is provided to reduce the deferred tax assets reported if based on the weight of the available positive and negative evidence, it is more likely than not some portion or all of the deferred tax assets will not be realized.

3. PROPERTY AND EQUIPMENT

Property and equipment consists of the following:

	October 31,	
	2014	2013
Laboratory Equipment	$ 333,727	$ 309,132
Accumulated Depreciation	(256,358)	(228,747)
Net Property and Equipment	$ 77,369	$ 80,385

Depreciation expense for the years ended October 31, 2014 and 2013 was $27,611 and $19,229, respectively.

4. INTANGIBLE ASSETS

Under the University of Pennsylvania (“Penn”) license agreements, the Company is billed actual patent expenses as they are passed through from Penn and are billed directly from the Company’s patent attorney. The following is a summary of intangible assets as of the end of the following fiscal periods:

	October 31,	
	2014	2013
License	$ 651,992	$ 651,992
Patents	3,111,624	2,696,543
Total intangibles	3,763,616	3,348,535
Accumulated Amortization	(995,671)	(819,984)
Intangible Assets	$ 2,767,945	$ 2,528,551

The expirations of the existing patents range from 2015 to 2028 but the expirations can be extended based on market approval if granted and/or based on existing laws and regulations. Capitalized costs associated with patent applications that are abandoned without future value are charged to expense when the determination is made not to pursue the application. No patent applications having a future value were abandoned or expired and charged to expense for either of the years ended October 31, 2014 or 2013. Amortization expense for licensed technology and capitalized patent cost is included in general and administrative expenses and aggregated $175,686 and $159,337 for the years ended October 31, 2014 and 2013.

Estimated amortization expense for the next five years is as follows:

Year ending October 31,		
2015	$	188,000
2016	$	188,000
2017	$	188,000
2018	$	188,000
2019	$	188,000

5. ACCRUED EXPENSES:

The following table represents the major components of accrued expenses:

	October 31,	
	2014	2013
Salaries and other compensation	$ 890,069	$ 752,248
Vendors	121,200	-
Professional Fees	208,000	17,000
Withholding taxes payable	22,527	-
Share Purchase	-	100,012
	$ 1,241,796	$ 869,260

6. CONVERTIBLE NOTES AND FAIR VALUE OF EMBEDDED DERIVATIVE

Junior Subordinated Convertible Promissory Notes

The Company refers to all Junior Subordinated Convertible Promissory Notes as “Bridge Notes”.

The Bridge Notes are convertible into shares of the Company’s Common Stock at a fixed exercise price. For every dollar invested in the Company’s Bridge Notes, each Investor received warrant coverage ranging from approximately 23% to 75%, subject to adjustments upon the occurrence of certain events as more particularly described below and in the form of Warrant. As of October 31, 2012, substantially all of the Bridge Warrants have an exercise price of $18.75 per share. The Bridge Notes may be prepaid in whole or in part at the option of the Company without penalty at any time prior to the Maturity Date. The warrants may be exercised on a cashless basis under certain circumstances.

During the twelve months ended October 31, 2013, pursuant to the terms of various Assignment Agreements, the Company delivered convertible notes to Magna in aggregate principal amounts of $170,589 (including $11,765 of junior subordinated convertible promissory notes plus the above December 2011 Note in the principal amount of $158,824) and $111,111 (consisting of one junior subordinated convertible promissory note), convertible into shares of Common Stock, which bears interest at a rate of 6% per annum, which interest accrues, but does not become payable until maturity. The Company converted the exchange note, which it refers to as the Third Magna Exchange Note, in the principal amount of $111,111 into 34,241 shares of its Common Stock at a conversion price of $3.25 per share, recording non-cash expense of approximately $106,000 to the loss on retirement account, on the statement of operations, for the difference between the amount of the principal converted and the fair value of the shares issued as a result of the conversion. As of October 31, 2013, approximately $63,000 in principal remained outstanding on the junior unsubordinated convertible promissory notes, as the notes had matured on October 22, 2011. As of October 31, 2014, these notes are recorded as current liabilities on the balance sheet. The Company is in discussion with note holders to convert these notes in full during fiscal year 2015.

JMJ Financial

On August 27, 2012, in a private placement pursuant to a Note Purchase Agreement, the Company issued JMJ Financial a convertible promissory note in the aggregate principal amount of $100,000 for a purchase price of $100,000, which it refers to as the JMJ August 2012 Note. As of October 31, 2012, the JMJ August 2012 Note remained outstanding. Due to the conversion feature into a variable number of shares, the JMJ August 2012 Note is valued at fair value at each reporting period. As of October 31, 2012, the fair value of the JMJ August 2012 Note was $73,590.

During the twelve months ended October 31, 2013, the Company converted the JMJ August 2012 Note totaling $100,000 into 24,744 shares of its Common Stock. The Company recorded non-cash income of approximately $70,114 upon conversion. This non-cash income was recorded to the gain on retirement account, on the statement of operations, representing the difference between the fair value of the JMJ August 2012 Note, as reported on the balance sheet, and the fair value of the shares issued as a result of the conversion.

On December 28, 2012, in a private placement pursuant to a note purchase agreement, the Company issued JMJ Financial a one month convertible promissory note, which it refers to as the JMJ December 2012 Note, in the aggregate principal amount of $100,000 for a purchase price of $100,000 . If repaid before January 31, 2013, the principal amount of the JMJ December 2012 Note would be $125,000. If the JMJ December 2012 Note was to be rolled into a future financing, the principal amount would be $115,000.

On April 26, 2013, in a private placement, the Company issued JMJ Financial a convertible promissory note ("JMJ April 2013 Note"). The face amount of the note reflects an aggregate principal amount of $800,000 for total consideration of $720,000 (or a 10 % original issue discount). As of April 26, 2013, the Company had only borrowed $425,000 from JMJ Financial under this convertible promissory note. JMJ Financial paid $300,000 in cash and exchanged the JMJ December 2012 Note with an aggregate principal amount of $125,000 as consideration for the note. The exchange was analyzed and management concluded that the exchange qualifies for modification accounting. On June 27, 2013, the Company borrowed an additional $100,000 under the convertible promissory note. JMJ Financial has no obligation to lend the Company the remaining $195,000 of available principal amount under the note and may never do so. The Company has no obligation to pay JMJ Financial any amounts on the unfunded portion of the note. The Company may not prepay any portion of the note without JMJ Financial's consent.

The convertible promissory note matures April 26, 2014 and, in addition to the 10% original issue discount, provides for payment of a one-time interest charge of 5% on funded amounts. The convertible promissory note is convertible at any time, in whole or in part, at JMJ Financial's option into shares of the Company's Common Stock at the lesser of $8.75 or 70% of the average of the lowest two closing prices in the 20-day pricing period preceding a conversion. However, at no time will JMJ Financial be entitled to convert any portion of the note to the extent that after such conversion, JMJ Financial (together with its affiliates) would beneficially own more than 4.99% of the Company's outstanding shares of Common Stock as of such date. The Company agreed to reserve at least 160,000 shares of its Common Stock for conversion of the note. The note also provides for penalties and rescission rights if the Company does not deliver shares of its Common Stock upon conversion within the required timeframes.

The convertible promissory note includes customary event of default provisions, and provides for a default rate of the lesser of 18 % or the maximum permitted by law. Upon the occurrence of an event of default, the lender may require the Company to pay in cash the "Mandatory Default Amount" which is defined in the note to mean the greater of (i) the outstanding principal amount of the note plus all interest, liquidated damages and other amounts owing under the note, divided by the conversion price on the date payment of such amount is demanded or paid in full, whichever is lower, multiplied by the volume-weighted-average price, or VWAP, on the date payment of such amount is demanded or paid in full, whichever has a higher VWAP, or (ii) 150% of the outstanding principal amount of the note plus 100% of all interest, liquidated damages and other amounts owing under the note.

The Company also granted JMJ Financial the right, at its election, to participate in the next public offering of its securities by exchanging, in whole or in part, the funded portion of this note for a subscription to such public offering in an amount equal to 125% of the sum of the funded portion of the principal amount being exchanged plus all accrued and unpaid interest, liquidated damages, fees, and other amounts due on such exchanged principal amount. However, the note was subsequently amended in September 2013 to remove this right. If the Company completes a public offering of $10,000,000 or more, JMJ Financial has the right, at its election, to require repayment of the note, in whole or in part, in amount equal to 125% of the sum of the funded principal amount being repaid plus all accrued and unpaid interest liquidated damages, fees, and other amounts due on such principal amount. In September 2013, this note was amended to lower this threshold to $5,000,000 in connection with the sale of the new convertible promissory note to JMJ Financial.

On August 14, 2013, the Company borrowed an additional $100,000 under the JMJ April 2013 convertible promissory note. At this date, the Company has borrowed 625,000 under the JMJ April 2013 Note. JMJ Financial has no obligation to lend the Company the remaining $95,000 of available principal amount under the note and may never do so. The Company has no obligation to pay JMJ Financial any amounts on the unfunded portion of the note and may not prepay any portion of the note without JMJ Financial's consent. During August and September 2013, JMJ Financial converted $145,833 in principal and interest on its April 2013 Note into 71,438 shares of Common Stock at conversion rates ranging from $1.89 to $2.20. After these conversions, $583,333 in principal and interest remained outstanding under the JMJ April 2013 Note.

On September 4, 2013, in a private placement, the Company issued JMJ Financial a convertible promissory note ("JMJ September 2013 Note"). The face amount of the note reflects an aggregate principal amount of $800,000 for total consideration of $720,000 (or a 10% original issue discount). However, JMJ Financial has only paid us $500,000 in cash as consideration for the note to date. The Company also issued JMJ Financial 19,231 restricted shares of its Common Stock as a $50,000 origination fee for this convertible promissory note. JMJ Financial has no obligation to lend us the remaining $220,000 of available consideration under the note and may never do so. The convertible promissory note matures September 4, 2014 and, in addition to the 10% original issue discount, provides for payment of a one-time interest charge of 5% on funded amounts. The convertible promissory note is convertible at any time, in whole or in part, at JMJ Financial's option into shares of the Company's Common Stock at the lesser of $2.65 or 70% of the average of the lowest two closing prices in the 20-day pricing period preceding a conversion. However, at no time will JMJ Financial be entitled to convert any portion of the note to the extent that after such conversion, JMJ Financial (together with its affiliates) would beneficially own more than 4.99% of the Company's outstanding shares Common Stock as of such date. The Company agreed to reserve at least 2,000,000 shares of the Company's Common Stock for conversion of the note. $583,333 in principal and interest remained outstanding under the JMJ September 2013 Note.

As of October 16, 2013, the Company owed JMJ Financial approximately $ 1,167,000 in principal and interest under its convertible promissory notes with JMJ Financial. On October 16, 2013, the Company entered into an Accelerated Conversion and Note Termination Agreement with JMJ Financial whereby it agreed to exchange all of its outstanding convertible promissory notes (which had an aggregate principal amount of approximately $1,167,000), plus fees of approximately $400,000 (recorded as non-cash interest expense), for accelerated conversion, note termination and a lock-up, for an aggregate of 783,333 restricted shares of its Common Stock at an effective conversion price of $2.00. The Company recorded non-cash expense of approximately $922,000 upon conversion. This non-cash expense was recorded to the loss on retirement account, on the statement of operations representing the difference between the fair value of the JMT April and September Notes and the fair value of the shares issued as a result of the conversion. JMJ Financial also agreed to certain lock-up restrictions with respect to such shares. Accordingly, JMJ Financial agreed not to sell any of such shares until 60 days after the date of the agreement, following which, until 90 days after the date of the agreement, it agreed to limit the number of such shares it sells on any day to 10% of the trading volume on such day. JMJ Financial also agreed not to engage in any short sales of the Company's Common Stock at any time.

At October 31, 2014, there were no remaining convertible promissory notes outstanding with JMJ Financial.

Hanover Holdings Notes

On September 19, 2012, in a private placement pursuant to a note purchase agreement, the Company issued Hanover a convertible promissory note in the aggregate principal amount of $132,500, for a purchase price of $132,500, which the Company refers to as the Initial Hanover PIPE Note. On October 19, 2012, in a private placement pursuant to a note purchase agreement, the Company issued Hanover a convertible promissory note in the aggregate principal amount of $132,500, for a purchase price of $132,500, which is referred to as the Second Hanover PIPE Note, which, together with the Initial Hanover PIPE Note is referred to as the Hanover PIPE Notes. The Hanover PIPE Notes bear interest at a rate of 12%, which interest accrues, but does not become payable until maturity or acceleration of the principal of such Hanover PIPE Notes. The Hanover PIPE Notes are convertible into shares of the Company's Common Stock at a conversion price equal to 65% of the arithmetic average of the five lowest closing trading prices for the Common Stock during the 10 trading day period ending on the latest complete trading day prior to the applicable conversion date. The Hanover PIPE Notes mature eight months from their respective issuance dates. To the extent Hanover does not elect to convert the Hanover PIPE Notes as described above, the principal amount and interest of such Hanover PIPE Notes shall be payable in cash at maturity. The Hanover PIPE Notes may be converted at any time by Hanover, at its option, in whole or in part. The Hanover PIPE Notes include a limitation on conversion, which provides that at no time will Hanover be entitled to convert any portion of the Hanover PIPE Notes, to the extent that after such conversion, Hanover (together with its affiliates) would beneficially own more than 4.99% of the outstanding shares of the Common Stock as of such date.

Unrealized losses on the mark-to-market of the notes which amounted to $97,791, for the period from the dates of issuance (September 19 and October 19, 2012) through October 31, 2013 were recorded as non-cash expense. The Hanover PIPE Notes were recorded on the balance sheet, at fair value, of approximately $363,000.

During the twelve months ended October 31, 2013, the note-holder converted principal of $365,000 into 97,333 shares of the Company's Common Stock at a conversion rate of $3.75 per share. During the twelve months ended October 31 2013, the Company recognized interest expense of approximately $72,000 in order to accrete the unamortized debt discount back to the notes' principal through the dates of conversion.

As of October 31, 2014, there were no remaining Hanover PIPE Notes.

Magna Note

In October 2012, pursuant to the terms of various Assignment Agreements, which the Company refers to as the Assignment Agreements, Magna Group, LLC, an affiliate of Hanover, which is referred to as Magna, acquired $400,076 in aggregate principal amount of the Company's outstanding convertible notes from certain third parties and entered into agreements to acquire an additional $340,523 in aggregate principal amount of its outstanding convertible notes from other third parties. Pursuant to the terms of such Assignment Agreements, the Company delivered two convertible notes to Magna in an aggregate principal amount of $740,599, in anticipation of the closing of all of the transactions contemplated by such Assignment Agreements. On October 25, 2012, the convertible note in the aggregate principal amount of $617,723 previously delivered to Magna was exchanged for a new convertible note in the aggregate principal amount of $400,076, convertible into shares of Common Stock, which the Company refers to as the Magna Exchange Note, to reflect such portion of the convertible notes actually issued as of October 25, 2012 pursuant to the Assignment Agreements, and the remaining convertible note in the aggregate principal amount of $122,876 previously delivered to Magna was returned to us and cancelled. The Magna Exchange Note bears interest at a rate of 6%, which interest accrues, but does not become payable until maturity or acceleration of the principal of the Magna Exchange Note. The Magna Exchange Note is convertible into shares of the Company's Common Stock at a conversion price equal to 73% of the arithmetic average of the five lowest closing trading prices for the Common Stock during the 10 trading day period ending on the lowest complete trading day prior to the applicable conversion date. The Magna Exchange Note matures on October 17, 2013. To the extent Magna does not elect to convert the Magna Exchange Note as described above, the principal amount and interest of the Magna Exchange Note shall be payable in cash at maturity. Upon the closing of the remaining transactions contemplated by such applicable Assignment Agreements, the Company is obligated to issue additional convertible notes in the form of the Magna Exchange Note with respect to the outstanding $ 340,523 in aggregate principal amount of convertible notes held by the third party signatories to the other Assignment Agreements.

The Magna Exchange Note may be converted at any time by Magna, at its option, in whole or in part. The Magna Exchange Note includes a limitation on conversion, which provides that at no time will Magna be entitled to convert any portion of the Magna Exchange Note, to the extent that after such conversion, Magna (together with its affiliates) would beneficially own more than 4.99% of the outstanding shares of the Common Stock as of such date.

During the twelve months ended October 31, 2013, Magna converted the remaining approximately $300,000 in principal into 80,992 shares of the Company's Common Stock at prices ranging from $3.21 to $4.14, resulting in non-cash expense for the period of approximately $ 44,000 resulting from the difference between the amount of principal converted and the fair value of the shares issued as a result of the conversion. In addition, Magna converted another approximately $341,000 in principal into 182,344 shares of the Company's Common Stock at prices ranging from $3.16 to $3.49, resulting in non-cash expense of approximately $281,000 resulting from the difference between the amount of principal converted and the fair value of the shares issued as a result of these conversions.

As of October 31, 2014, the Magna Exchange Note had been converted in full and no longer remained outstanding.

Chris French

On September 27, 2012, in a private placement pursuant to a note purchase agreement, the Company issued its employee Christine French a convertible promissory note in the aggregate principal amount of $25,000, for a purchase price of $25,000, which is referred to as the French Note. The French Note bears interest at a rate of 12%, compounded annually. The French Note is convertible into shares of the Company's Common Stock at a conversion price equal to the arithmetic average of the five lowest closing trading prices for the Common Stock during the 10 trading day period ending on the latest complete trading day prior to the applicable conversion date. The French Note matures one month from its issuance date. Additionally, Ms. French will receive a warrant, which the Company refers to as the French Warrant, to purchase such number of shares of its Common Stock equal to 50% of such number of shares of its Common Stock issuable upon conversion of the French Note at an exercise price equal to the conversion price then in effect. These warrants have not yet been issued. The French Warrant may be exercised on a cashless basis under certain circumstances. The French Note and the French Warrant each include a limitation on conversion or exercise, as applicable, which provides that at no time will Ms. French be entitled to convert any portion of the French Note or French Warrant, to the extent that after such conversion or exercise, as applicable, Ms. French (together with her affiliates) would beneficially own more than 4.99% of the outstanding shares of the Common Stock as of such date.

During the twelve months ended October 31, 2013, the Company converted principal of $25,000 of a note issued to Chris French plus accrued interest of approximately $633, into 4,527 shares of its Common Stock at a conversion price of $5.625 per share. In addition, the Company issued a warrant to acquire 2,263 shares, which expires on October 26, 2015 and revalued the warrant liability, at October 31, 2013, with an exercise price of $5.625, resulting in non-cash expense of approximately $21,000 resulting from the difference between the fair value of the note as shown on the balance sheet plus accrued interest to-date and the fair value of the shares issued as a result of the conversion.

As of October 31, 2014, the French Note no longer remained outstanding.

Asher

On September 11, 2012, in a private placement pursuant to a note purchase agreement, the Company issued Asher Enterprises, Inc., which is referred to as Asher, a convertible promissory note in the aggregate principal amount of $103,500, for a purchase price of $100,000, which is referred to as the Asher Note. The Asher Note bears interest at a rate of 8%, which interest accrues, but does not become payable until maturity or acceleration of the principal of the Asher Note. The Asher Note is convertible into shares of the Company's Common Stock at a conversion price equal to 61% of the arithmetic average of the five lowest closing trading prices for the Common Stock during the 10 trading day period ending on the latest complete trading day prior to the applicable conversion date. The Asher Note matures on June 13, 2013, nine months from its issuance date. The Asher Note may be converted by Asher, at its option, in whole or in part. The Asher Note includes a limitation on conversion, which provides that at no time will Asher be entitled to convert any portion of the Asher Note, to the extent that after such conversion, Asher (together with its affiliates) would beneficially own more than 4.99% of the outstanding shares of the Common Stock as of such date.

During the year ended October 31, 2013, Asher converted the above principal of $153,500 and accrued interest of $6,140 into approximately 44,161 shares of the Company's Common Stock at a conversion prices ranging from $3.43 /share to $3.90 /share.

On May 1, 2013, in a private placement pursuant to a note purchase agreement, the Company issued Asher a convertible promissory note in the aggregate principal amount of $203,500, for a purchase price of $200,000, which it refers to as the Third Asher Note. The Third Asher Note bears interest at a rate of 8%, which interest accrues, but does not become payable until maturity or acceleration of the principal of the Third Asher Note. The Third Asher Note is convertible into shares of the Company's Common Stock at a conversion price equal to 65% of the arithmetic average of the five lowest closing trading prices for the Common Stock during the 10 trading day period ending on the latest complete trading day prior to the applicable conversion date. The Third Asher Note matures on February 3, 2014, nine months from its issuance date. The Third Asher Note may be converted by Asher, at its option, in whole or in part and included a limitation on conversion, which provides that at no time would Asher be entitled to convert any portion of the Third Asher Note, to the extent that after such conversion, Asher (together with its affiliates) would beneficially own more than 4.99% of the outstanding shares of the Common Stock of the Company as of such date.

The Company recorded interest expense of $77,737 resulting from the prepayment penalty associated with the Third Asher Note. During the twelve months ended October 31, 2013, the Company paid off the Third Asher Note in the amount of $281,237.

As of October 31, 2014, the Third Asher Note no longer remained outstanding.

On July 12, 2013, in a private placement pursuant to a note purchase agreement, the Company issued Asher a convertible promissory note in the aggregate principal amount of $103,500, for a purchase price of $100,000, which it refers to as the Fourth Asher Note. The Fourth Asher Note bears interest at a rate of 8%, which interest accrues, but does not become payable until maturity or accelerations of the principal of the Fourth Asher Note. The Fourth Asher Note is convertible into shares of the Company's Common Stock at a conversion price equal to 65% of the arithmetic average of the five lowest closing trading prices for the Common Stock during the 10 trading day period ending on the latest complete trading day prior to the applicable conversion date. The Fourth Asher Note matures on April 16, 2014, nine months from its issuance date. The Fourth Asher Note may be converted by Asher, at its option, in whole or in part and included a limitation on conversion, which provides that at no time will Asher be entitled to convert any portion of the Fourth Asher Note, to the extent that after such conversion, Asher (together with its affiliates) would beneficially own more than 4.99% of the outstanding shares of the Common Stock of the Company as of such date.

The Company recorded interest expense of $27,917 resulting from the prepayment penalty associated with the Fourth Asher Note. During the twelve months ended October 31, 2013, the Company paid off the Fourth Asher Note in the amount of $131,417.

As of October 31, 2014, the Fourth Asher Note no longer remained outstanding.

Yvonne Paterson

On September 25, 2012, in a private placement pursuant to a note purchase agreement, the Company issued its affiliate Dr. Yvonne Paterson a convertible promissory note in the aggregate principal amount of $100,000, for a purchase price of $100,000, which is referred to as the Paterson Note. The Paterson Note bears interest at a rate of 12%, compounded annually. The Paterson Note is convertible into shares of the Company's Common Stock at a conversion price equal to the arithmetic average of the five lowest closing trading prices for the Common Stock during the 10 trading day period ending on the latest complete trading day prior to the applicable conversion date. The Paterson Note matures one month from its issuance date. Additionally, Dr. Paterson will receive a warrant, which is referred to as the Paterson Warrant, to purchase such number of shares of the Company's Common Stock equal to 50% of such number of shares of its Common Stock issuable upon conversion of the Patterson Note at an exercise price equal to the conversion price then in effect. These warrants have not yet been issued. The Paterson Warrant may be exercised on a cashless basis under certain circumstances. The Paterson Note and the Paterson Warrant each include a limitation on conversion or exercise, as applicable, which provides that at no time will Dr. Paterson be entitled to convert any portion of the Paterson Note or Paterson Warrant, to the extent that after such conversion or exercise, as applicable, Dr. Paterson (together with her affiliates) would beneficially own more than 4.99% of the outstanding shares of the Common Stock as of such date.

During the twelve months ended October 31, 2013, the Company converted principal of $100,000 of a note issued to Yvonne Paterson plus accrued interest of approximately $2,532, into 18,107 shares of its Common Stock at a conversion price of $5.625 per share. In addition, the Company issued a warrant to acquire 9,054 shares, which expires on October 26, 2015 and revalued the warrant liability, at October 31, 2013, with an exercise price of $5.625, resulting in non-cash expense of $32,000 resulting from the difference between the fair value of the note as shown on the balance sheet plus accrued interest to-date and the fair value of the shares issued as a result of the conversion.

As of October 31, 2014, the Paterson Note no longer remained outstanding.

James Patton

On August 2, 2012, in a private placement pursuant to a note purchase agreement, the Company issued Dr. James Patton, a member of its board of directors, a convertible promissory note, which is referred to as the Patton Note, in the principal amount of $66,667 for a purchase price of $50,000. The Patton Note was issued with an original issue discount of 25%. Dr. Patton paid $0.75 for each $1.00 of principal amount of the Patton Note purchased. The Patton Note is convertible into shares of the Company's Common Stock at a per share conversion price equal to $0.15. Additionally, Dr. Patton received a warrant, which is referred to as the Patton Warrant, to purchase such number of shares of the Company's Common Stock equal to 50% of such number of shares of its Common Stock issuable upon conversion of the Patton Note at an exercise price of $0.15 per share. The Patton Note and Patton Warrant also provide that on December 1, 2012, solely to the extent the conversion price of the Patton Note or the exercise price of the Patton Warrant, as applicable, is less than the Market Price (as defined in the Patton Note or the Patton Warrant, as applicable), such conversion price or exercise price, as applicable, shall be reduced to such Market Price. The Patton Note matures on August 2, 2013. The Company may redeem the Patton Note under certain circumstances. The

Patton Warrant is exercisable at any time on or before August 2, 2017. The Patton Warrant may be exercised on a cashless basis under certain circumstances. The Patton Note and the Patton Warrant each include a limitation on conversion or exercise, as applicable, which provides that at no time will Dr. Patton be entitled to convert any portion of the Patton Note or Patton Warrant, to the extent that after such conversion or exercise, as applicable, Dr. Patton (together with his affiliates) would beneficially own more than 4.99% of the outstanding shares of the Common Stock as of such date.

During the twelve months ended October 31, 2013, the Company converted the principal amount of the Patton Note, of $66,667, into 21,092 shares at a conversion price of $3.16. The Company recorded non-cash income of approximately $94,000 for the twelve months ended October 31, 2013, respectively. Accretion of the discount amounted to $3,355, for the twelve months ended October 31, 2013. The Patton Warrants, in the amount of 1,778, remained outstanding at October 31, 2014 and were revalued as part of the warrant liability at October 31, 2014 and 2013.

As of October 31, 2014, the Patton Note no longer remained outstanding.

Redwood Management LLc

On June 21, 2013, the Company entered into a bridge financing arrangement with Redwood Management, LLC ("Redwood"), an accredited investor, for which Aegis Capital Corp. acted as placement agent and received an 8 % fee based on the consideration paid to to the Company. Accordingly, on June 21, 2013, the Company entered into a Securities Purchase Agreement with Redwood Management LLC, which it refers to as Redwood, and in a private placement thereunder issued Redwood a convertible promissory note in the aggregate principal amount of $277,777, for a purchase price of $250,000 (or a 10% original issue discount), which it refers to as the Redwood Note. The Redwood Note bears interest at a rate of 5%, which interest accrues, but does not become payable until maturity or acceleration of the principal of the Redwood Note. The Redwood Note is convertible into shares of the Company's Common Stock at a conversion price equal to the lesser of (i) $6.25, or (ii) 70% of the ten day average value weighted average price ("VWAP") for the ten trading days immediately preceding the conversion date. The Redwood Note matures on December 30, 2013, six months from its issuance date. The Redwood Note may be converted by Redwood, at its option, in whole or in part. The Redwood Note includes a limitation on conversion, which provides that at no time will Redwood be entitled to convert any portion of the Redwood Note, to the extent that after such conversion, Redwood (together with its affiliates) would beneficially own more than 4.99% of the outstanding shares of the Common Stock as of such date.

The Company agreed to reserve at least 2.5 times the number of shares of its Common Stock actually issuable upon full conversion of the Redwood Note, and not to take certain actions without Redwood's consent and granted Redwood the right, at its election, to participate in future financings subject to certain limited exceptions. So long as the Company is not in default, and provided it has given 20 days prior written notice, it may prepay the Redwood Note in full at any time at a premium of 110% of the amount owed (which multiple increases 4 months after the issuance date). In addition, if the Company completes a financing of $7,000,000 or more, Redwood has the right, at its election, to require the Company to repay the Redwood Note in full on the closing date of such financing on the same payment terms as noted in the preceding sentence. The Redwood Note includes customary event of default provisions, and provide for a default rate of 14%.

During the twelve months ended October 31, 2013, the Company converted the Redwood Note, with a principal amount of $ 277,777 and accrued interest of approximately $ 4,300 into 125,000 shares of its Common Stock, at an conversion price of $ 2.33 per share.

As of October 31, 2014, the Redwood Note no longer remained outstanding.

Issuance of Notes Collateralized by NOLs and R&D Tax Credits

On August 20, 2013, in a private placement pursuant to a note purchase agreement, the Company issued an accredited investor a secured convertible promissory note in the aggregate principal amount of $108,000, for a purchase price of $100,000. On September 18, 2013, the Company borrowed an additional $150,000 from this accredited investor and amended and restated the terms of the August note and issued this investor 12,000 shares of its Common Stock. As amended and restated, this note has an aggregate principal amount of $258,000, bears interest at a rate of 20% per annum and is due February 21, 2014, nine months after its original issuance date. To secure prompt payment under the note, the Company granted the holder a continuing security interest in all net proceeds the Company receives up to the aggregate amount of $258,000 plus accrued interest from the sale of its net operating loss and or research and development tax credits through the New Jersey Economic Development Program. In October 2013, the Company paid approximately $278,000 (principal and accrued interest) in full satisfaction of its obligation under this note.

As of October 31, 2014, this note no longer remained outstanding.

7. NOTES PAYABLE- FORMER OFFICER:

Moore Notes

The Company has agreed to sell senior promissory notes, which it refers to as the Moore Notes, to Mr. Moore, a former director of the Company and its former chief executive officer, from time to time, under an agreement which the Company refers to as the Moore Agreement. The Moore Notes bear interest at the rate of 12% per annum. Under the terms of the amended and restated Moore Notes, the maturity date was the earlier of (i) the date of consummation of an equity financing in an amount of $6.0 million or more or (ii) the occurrence of any event of default as defined in the Moore Notes. As of October 31, 2012, the Company owed Mr. Moore approximately $477,000 in principal and interest under the Moore Notes.

On September 26, 2013, the Company entered into a debt conversion and repayment agreement of the Moore Notes, with respect to the repayment and partial conversion of amounts owed to Mr. Moore under the Moore Agreement. As provided in the agreement, following the closing of the Company's October 22, 2013 public offering: (a) the Company paid Mr. Moore $100,000 in cash as partial repayment of the Moore Notes, (b) the Company converted one-half of the remaining balance (approximately $163,132) using the same terms as securities being offered and sold in the October 22, 2013 offering and issued Mr. Moore 40,783 shares of its Common Stock and a five year warrant to purchase 20,392 shares of its Common Stock at an exercise price of $5.00 on October 31, 2013 and (c) within three months of the closing of the offering, the Company will pay Mr. Moore in cash the then remaining outstanding balance under the Moore Notes (after taking into account the $100,000 payment and automatic conversion into its securities). Following the cash payments and partial conversion into the Company's securities, there will no longer be any outstanding balances under the Moore Notes and the Company will no longer have any obligations under the Moore Notes. Securities received by Mr. Moore upon conversion will be restricted securities and subject to customary lock-up restrictions.

For the twelve months ended October 31, 2013, Mr. Moore loaned the Company $11,200 under the Moore Notes. The Company paid Mr. Moore $193,833 principal on the Moore Notes for the twelve months ended October 31, 2013. As of October 31, 2013, the Company was not in default under the terms of the Moore Agreement. As of October 31, 2013, the Company owed $163,132 in principal and accrued interest Mr. Moore. On February 4, 2014, the Company paid Mr. Moore $168,280 in principal and accrued interest, in full satisfaction of these notes. During the twelve months ended October 31, 2014 and 2013, the Company recorded interest expense of approximately $7,200 and 31,600, respectively.

As of October 31, 2014, this note no longer remained outstanding.

8. COMMON STOCK PURCHASE WARRANTS AND WARRANT LIABILITY

Warrants

As of October 31, 2014, there were outstanding warrants to purchase 4,158,092 shares of the Company's Common Stock with exercise prices ranging from $2.76 to $21.25 per share. Information on the outstanding warrants is as follows:

Type	Exercise Price	Amount	Expiration Date	Type of Financing
Common Stock Purchase Warrant	$ 18.75	28,632	May 2015	May 2011 Convertible Debt Financing
Common Stock Purchase Warrant	$ 18.75	10,059	October 2015	Oct 2011 Convertible Debt Financing
Common Stock Purchase Warrant	$ 18.75	17,706	May 2015 – January 2016	December 2011 Convertible Debt Financing
Common Stock Purchase Warrant	$ 18.75	13,333	May 2017	May 2012 Convertible Debt Financing

Common Stock Purchase Warrant	$ 5.00	198,375	October 2018	Representative – Advaxis Public Offering
	Grand Total	4,265,262		

A summary of changes in warrants for the year ended October 31, 2014 is as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life In Years	Aggregate Intrinsic Value
Outstanding and Exercisable Warrants at October 31, 2013	4,265,262	$ 6.71	4.22	$ 22,208
Issued	412,693	$ 4.97		
Exercised	(50)	$ 5.00		
Expired	(519,813)	$ 15.01		
Outstanding and Exercisable Warrants at October 31, 2014	4,158,092	$ 5.42	3.94	$ 9,518

At October 31, 2014, the Company had approximately 4.0 million of its total 4.2 million outstanding warrants classified as equity (equity warrants). At October 31, 2013, the Company had approximately 3.7 million of its total 4.3 million outstanding warrants classified as equity (equity warrants). At issuance, equity warrants are recorded at their relative fair values, using the Relative Fair Value Method, in the shareholders equity section of the balance sheet. The Company's equity warrants can only be settled through the issuance of shares and are not subject to anti-dilution provisions.

At October 31, 2014, the Company had approximately 123,000 of its total 4.2 million outstanding warrants classified as liability warrants (Common Stock warrant liability). The fair value of the warrant liability, as of October 31, 2014 was approximately $32,000. At October 31, 2013, the Company had approximately 0.6 million of its total 4.3 million outstanding warrants classified as liability warrants (Common Stock warrant liability). The fair value of the warrant liability, as of October 31, 2013, was approximately $0.6 million. In fair valuing the warrant liability, at October 31, 2014 and October 31, 2013, the Company used the following inputs in its BSM:

	10/31/2014	10/31/2013
Exercise Price:	$ 2.76-21.25	$ 2.76-21.25
Stock Price	$ 3.18	$ 3.74
Expected term:	4 -1006 days	61-1371 days

Volatility %	55.41% -129.38%	98.89% -186.24%
Risk Free Rate:	.01%-1.62%	.035%-.94%

Warrant Liability/Embedded Derivative Liability

Warrant Liability

As of October 31, 2014, the Company had approximately 123,000 of its total approximately 4.2 million total warrants classified as liabilities (liability warrants). All of these 123,000 liability warrants are outstanding. The Company utilizes the BSM to calculate the fair value of these warrants at issuance and at each subsequent reporting date. For those warrants with exercise price reset features (anti-dilution provisions), the Company computes multiple valuations, each quarter, using an adjusted BSM, to account for the various possibilities that could occur due to changes in the inputs to the BSM as a result of contractually-obligated changes (for example, changes in strike price to account for down-round provisions). The Company effectively weights each calculation based on the likelihood of occurrence to determine the value of the warrants at the reporting date. At October 31, 2014, approximately 60,000 of the 123,000 liability warrants are subject to weighted-average anti-dilution provisions. A certain number of liability warrants contain a cash settlement provision in the event of a fundamental transaction (as defined in the Common Stock purchase warrant). Any changes in the fair value of the warrant liability (i.e. - the total fair value of all outstanding liability warrants at the balance sheet date) between reporting periods will be reported on the statement of operations.

As of October 31, 2013, the Company had approximately 565,000 of its total approximately 4.3 million total warrants classified as liabilities (liability warrants). Of these 565,000 liability warrants, approximately 287,000 warrants are outstanding and approximately 278,000 warrants are exchange warrants – nonexercisable. The Company utilizes the BSM to calculate the fair value of these warrants at issuance and at each subsequent reporting date. For those warrants with exercise price reset features (anti-dilution provisions), the Company computes multiple valuations, each quarter, using an adjusted BSM, to account for the various possibilities that could occur due to changes in the inputs to the BSM as a result of contractually-obligated changes (for example, changes in strike price to account for down-round provisions). The Company effectively weights each calculation based on the likelihood of occurrence to determine the value of the warrants at the reporting date. At October 31, 2013, approximately 203,000 of the 565,000 liability warrants are subject to anti-dilution provisions. A certain number of liability warrants contain a cash settlement provision in the event of a fundamental transaction (as defined in the Common Stock purchase warrant). Any changes in the fair value of the warrant liability (i.e. - the total fair value of all outstanding liability warrants at the balance sheet date) between reporting periods will be reported on the statement of operations.

At October 31, 2014 and October 31, 2013, the fair value of the warrant liability was $32,091 and $646,734, respectively. For the twelve months ended October 31, 2014 and 2013, the Company reported income of $619,089 and a loss of $1,504,465, respectively, due to changes in the fair value of the warrant liability.

Exercise of Warrants

During the twelve months ended October 31, 2014, an accredited investor exercised 50 warrants at an exercise price of $5.00, resulting in net proceeds to the Company of $250. During the twelve months ended October 31, 2013, an accredited investor exercised 8,889 warrants at an exercise price of $10.625, resulting in net proceeds to the Company of $94,444. During the twelve months ended October 31, 2013, the Company issued 484,876 shares to Tonaquint as a result of cashless exercises of 189,415 warrants per the terms of the December 2012 promissory note in addition to the settlement agreement entered into in October 2013.

Expiration of Warrants

During the twelve months ended October 31, 2014, the Company had 60,069 warrants with anti-dilution provisions, and 459,744 warrants, with no such anti-dilution provisions, expire unexercised.

During the twelve months ended October 31, 2013, the Company had 500 warrants with no anti-dilution provisions, expire unexercised.

Warrants with anti-dilution provisions

Some of the Company's warrants (approximately 60,000) contain anti-dilution provisions originally set at an exercise price of $25.00 with a term of five years. As of October 31, 2014, these warrants had an exercise price of approximately $7.71. As of October 31, 2013, these warrants had an exercise price of approximately $9.24. If the Company issues any Common Stock, except for exempt issuances as defined in the warrant agreement for consideration less than the exercise price then the exercise price and the amount of warrant shares available would be adjusted to a new price and amount of shares per the "weighted average" formula included in the warrant agreement. For the twelve months ended October 31, 2014, this anti-dilution provision required the Company to issue approximately 37,200 additional warrant shares and the exercise price to be lowered to $7.71. Any future financial offering or instrument issuance below the current exercise price of $7.71 will cause further anti-dilution and re-pricing provisions in approximately 60,000 of the Company's total outstanding warrants.

For those warrants with exercise price reset features (anti-dilution provisions), the Company computes multiple valuations, each quarter, using an adjusted BSM, to account for the various possibilities that could occur due to changes in the inputs to the BSM as a result of contractually-obligated changes (for example, changes in strike price to account for down-round provisions). The Company utilized different exercise prices of $7.71 and $6.50, weighting the possibility of warrants being exercised at $7.71 between 40% and 50% and warrants being exercised at $6.50 between 60% and 50%.

As of October 31, 2014, there were outstanding warrants to purchase 4,158,092 shares of the Company's Common Stock with exercise prices ranging from $2.76 to $21.25 per share.

Embedded Derivative Liability

The Company has convertible features (known as "Embedded Derivatives") in its outstanding convertible promissory notes. The Embedded Derivatives are recorded as liabilities at issuance. These Embedded Derivatives are valued using the BSM and are subject to revaluation at each reporting date. Any change in fair value between reporting periods will be reported on the statement of operations.

At October 31, 2014 and October 31, 2013, the fair value of the Embedded Derivative Liability was $0 as the related notes were paid off, converted or reached maturity.

The fair value of the Warrants and Embedded Derivatives are estimated using an adjusted BSM model. The Company computes multiple valuations, each quarter, using the BSM model for each derivative instrument to account for the various possibilities that could occur due to changes in the inputs to the BSM model as a result of contractually-obligated changes (for example, changes in strike price to account for down-round provisions). The Company effectively weights each calculation based on the likelihood of occurrence to determine the value of the derivative at the reporting date. As of October 31, 2014, the fair value of the Warrants and Embedded Derivatives was determined to be approximately $32,000 and $0, respectively. As of October 31, 2013, the fair value of the Warrants and Embedded Derivatives was determined to be approximately $647,000 and $0, respectively. Change in the fair value of the Common Stock warrant liability for the year ended October 31, 2014 was a gain of $619,089 and a loss of $1,504,465 for October 31, 2013.

9. STOCK OPTIONS:

Total compensation cost for the Company's stock option plans recognized in the statement of operations for the year ended October 31, 2014 was approximately $926,000, of which approximately $357,000 was included in research and development expenses and approximately $569,000 was included in general and administrative expenses.

Total compensation cost for Company's stock plans recognized in the statement of operations for the year ended October 31, 2013 was approximately $3.5 million, of which approximately $1.2 million was included in research and development expenses and approximately $2.3 million was included in general and administrative expenses.

The fair value of options granted for the years ended October 31, 2014 and 2013 amounted to $144,640 and $1,215,875, respectively.

As of October 31, 2014, there was approximately $807,000 of unrecognized compensation cost related to non-vested stock option awards, which is expected to be recognized over a remaining average vesting period of 80 days.

A summary of the grants, cancellations and expirations (none were exercised) of the Company's outstanding options for the periods starting with October 31, 2012 through October 31, 2014 is as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life In Years	Aggregate Intrinsic Value
Outstanding as of October 31, 2012	358,459	$ 20.00	8.0	-
Granted	134,600	$ 9.38	9.5	-
Cancelled or Expired	(25,136)	$ 12.50	-	-
Outstanding as of October 31, 2013	467,923	$ 15.86	7.28	-
Granted	36,000	$ 4.02	9.16	-
Cancelled or Expired	(35,955)	$ 8.57	-	-
Outstanding as of October 31, 2014	467,968	$ 15.51	6.34	-
Vested & Exercisable at October 31, 2014	406,017	$ 15.89	5.82	$ -

The fair value of each option granted from the Company's stock option plans during the years ended October 31, 2014 and 2013 was estimated on the date of grant using the Black-Scholes option-pricing model. Using this model, fair value is calculated based on assumptions with respect to (i) expected volatility of the Company's Common Stock price, (ii) the periods of time over which employees and Board Directors are expected to hold their options prior to exercise (expected lives), (iii) expected dividend yield on the Company's Common Stock, and (iv) risk-free interest rates, which are based on quoted U.S. Treasury rates for securities with maturities approximating the options' expected lives. The Company used their own historical volatility in determining the volatility to be used. Expected lives are based on contractual terms given the early stage of the business and lack of intrinsic value. The expected dividend yield is zero as the Company has never paid dividends to common shareholders and does not currently anticipate paying any in the foreseeable future.

	Year Ended October 31, 2014	Year Ended October 31, 2013
Expected volatility	151.38-171.12%	138.05%
Expected Life	5	5.5
Dividend yield	0	0
Risk-free interest rate	1.39-1.72%	2.04%
Forfeiture Rate	4.4%	4.4%

2011 Employee Stock Purchase Plan

The Company's board of directors adopted the Advaxis, Inc. 2011 Employee Stock Purchase Plan, which the Company's refers to as the ESPP, on August 22, 2011, and the Company's shareholders approved the ESPP on September 27, 2011. The ESPP allows employees to purchase Common Stock of the Company at a 15% discount to the market price on designated exercise dates. Employees were eligible to participate in the ESPP beginning December 30, 2011. 40,000 shares of the Company's Common Stock are reserved for issuance under the ESPP.

During the twelve months ended October 31, 2014, $6,251 was withheld from employees, on an after-tax basis, in order to purchase 2,110 shares of the Company's Common Stock. During the twelve months ended October 31, 2013 approximately $28,040 was withheld from employees, on an after-tax basis, in order to purchase an aggregate of 6,334 shares of Company's Common Stock. As of October 31, 2014, 29,890 shares of Company's Common Stock remain available for issuance under the ESPP.

10. COMMITMENTS AND CONTINGENCIES:

Employment Agreements

In December, 2013, each of the Company's then executive officers requested to purchase stock directly from the Company at market price. To facilitate such requests, the Company amended each of the then executive officer's employment agreements so that such officers could make periodic purchases of the Company's Common Stock at fair market value. Listed below are the annual amounts to be purchased by each executive. On June 5, 2014, the Company and each of Daniel J. O'Connor, Chief Executive Officer and President, Gregory T. Mayes, Executive Vice President, Chief Operating Officer and Secretary, Robert G. Petit, Executive Vice President and Chief Scientific Officer, Sara M. Bonstein, Senior Vice President, Chief Financial Officer and Chris L. French, Vice President, Regulatory & Medical Affairs (each an "Executive"), voluntarily entered into a further amendment (each, an "Amendment" and collectively, the "Amendments") to their respective Employment Agreements (each, an "Employment Agreement"). The Amendments now provide that the respective stock purchases will occur on the last business day of each calendar month and will be effected through a direct purchase from the Company at a purchase price equal to the closing price of the Common Stock on the purchase date. The Company has not filed a Registration Statement on Form S-8 (or any other registration form) to cover the shares of Common Stock issuable pursuant to the Amendments.

The allocation between the cash and equity components of each Executive's base salary is as follows:

	ANNUALIZED	**For the Year Ended October 31, 2014**			
	Annual Amount to be Purchased	**Gross Purchase**		**Net Purchase**	
Executive Officer	**$**	**$**	**# of shares**	**$**	**# of shares**
Daniel J. O'Connor	$ 81,250	$ 68,750	21,687	$ 50,891	15,950
David J. Mauro	$ 15,750	$ 606	190	$ 527	165
Gregory T. Mayes	$ 19,875	$ 16,818	5,305	$ 13,801	4,333
Robert G. Petit	$ 24,225	$ 20,498	6,466	$ 16,363	5,159
Sara M. Bonstein	$ 16,875	$ 10,384	3,355	$ 8,038	2,585
Chris L. French	$ 10,750	$ 8,837	2,785	$ 7,475	2,352

For the twelve months ended October 31, 2014, the Company recorded stock compensation expense of $128,241 on the statement of operations representing 40,320 shares of its Common Stock (31,026 shares on a net basis after employee payroll taxes).

As to preserve the Company's cash resources, in his current Amendment, Mr. O'Connor voluntarily requested to waive and hence forego the scheduled increases in his base salary that were required under his Employment Agreement. Therefore, Mr. O'Connor did not receive an base salary increase or a salary increase for closing a licensing or other strategic transaction.

In addition to the purchases of Common Stock set forth in the above table, Mr. O'Connor has also purchased an additional 72,676

shares of Common Stock out of his personal funds for an aggregate consideration of approximately $313,419. These purchases consisted of the conversion of amounts due under a promissory note of approximately $66,500 for 21,091 shares, 2013 base salary which he elected to receive in Common Stock of approximately $182,919 for 34,752 shares, and purchases of the Company's Common Stock in the October 2013 and March 2014 public offerings of 13,500 shares for $54,000 and 3,333 shares for $10,000.

Stock Awards

In December 2013, the Company granted stock awards and restricted stock units ("RSUs") to employees, executive officers and directors under the 2011 Omnibus Incentive Plan.

- Management Team Bonuses: Executive officers received a portion of their year-end performance bonus (with a total fair value of approximately $129,000) in the aggregate amount of 31,846 shares of the Company's Common Stock (21,389 on a net basis after employee payroll taxes).

- Equity grant to executive officers: The Company granted 525,000 shares of its Common Stock to its executive officers. Of these shares, 105,000 shares of its our Common Stock (63,949 shares on a net basis after employee payroll taxes) vested immediately, with a total fair value of $423,150, and were issued and recorded as a charge to income during the twelve months ended October 31, 2014. The remaining 420,000 shares represent RSUs and are to vest in equal installments over twelve quarters such that 100% of the RSUs have vested by the third anniversary of the grant date. These RSU's are subject to availability of shares under the 2011 Omnibus Incentive Plan and are subject to forfeiture under certain conditions. During the twelve months ended October 31, 2014, $879,883 was charged to stock compensation expense, representing 218,333 shares of the Company's Common Stock (133,903 shares on a net basis after employee payroll taxes), and 80,000 shares were forfeited. During the twelve months ended October 31, 2014, the 2011 Omnibus Incentive Plan was increased from 520,000 to 2,120,000.

- Equity grant to non-executive employees: The Company granted approximately $101,250 of the aggregate base salary compensation, or 25,124 shares of Common Stock, to be issued to its non-executive employees. Of this grant, $20,250 vested immediately and 5,025 shares of Common Stock (3,685 shares on a net basis after employee payroll taxes) were issued to non-executive employees. The remaining $81,250, or 20,099 shares of Common Stock, represents RSUs and are to vest in equal installments over twelve quarters such that 100% of the RSUs have vested by the third anniversary of the grant date. In addition an employee received 100 shares of the Company's Common Stock (91 shares on a net basis after employee payroll taxes) with a total fair value of $336 award for employee excellence. During the twelve months ended October 31, 2014, $45,719 was charged to stock compensation expense, representing 11,362 shares of the Company's Common Stock (8,758 shares on a net basis after employee payroll taxes) and 2,316 shares of Common Stock were forfeited.

- All of these non-executive equity grants are currently available under the 2011 Omnibus Incentive Plan. As of October 31, 2014, all vested shares have been issued.

The Company recognizes the fair value of those vested shares in the statement of operations in the period earned.

Director Compensation

During December 2013, the Board of Directors deemed it advisable and in the best interests of the Company to issue shares of RSUs as compensation for all 2013 Board of Director committee meetings and to cancel any options designated for issuance related to those 2013 committee and board meetings and to further issue shares of RSUs for all fiscal years 2013 through 2016 Board of Director committee meetings in the aggregate amount of 50,000 shares of RSUs to each non-employee director (excluding Mr. Moore). The RSU grant will vest quarterly over three years such that 100% of the RSU will be vested on the third anniversary date (December 2016). During the twelve months ended October 31, 2014, $340,039 was charged to stock compensation expense, representing 84,377 shares of the Company's Common Stock.

During December 2013, the Board of Directors deemed it advisable and in the best interests of the Company to amend a certain provision of the consulting agreement with Mr. Moore, which took effect August 19, 2013 and issue 37,500 restricted stock units (RSU's). The RSU grant will vest quarterly over three years such that 100% of the RSU will be vested on the third anniversary date (December 2016). Since Mr. Moore was not nominated for re-election, only 10,976 RSUs vested through his current term on the Board. Accordingly, $46,099 was charged to stock compensation expense for the year ended October 31, 2014.

Legal Proceedings

Iliad Research and Trading

On March 24, 2014, Iliad Research and Trading, L.P. ("Iliad") filed a complaint (the "Complaint") against the Company in the Third Judicial District Court of Salt Lake County, Utah, purporting to assert claims for breach of express and implied contract. Specifically, Iliad alleged that the Company granted a participation right to Tonaquint, Inc. ("Tonaquint") in a securities purchase agreement between Tonaquint and the Company, dated as of December 13, 2012 (the "Purchase Agreement"), pursuant to which Tonaquint was entitled to participate in any transaction that the Company structured in accordance with Section 3(a)(9) or Section 3(a)(10) of the Securities Act of 1933, as amended. Iliad further alleged that the settlement that the Company entered into with Ironridge Global IV, Ltd. ("Ironridge"), pursuant to which the Company issued certain shares of its Common Stock to Ironridge in reliance on the Section 3(a)(10) exemption, occurred without adequate notice for Tonaquint to exercise its participation right. In addition, Iliad alleged that it acquired all of Tonaquint's rights under the Purchase Agreement in April 2013. On May 9, 2014, the Company filed papers in support of its motion to dismiss the Complaint in its entirety. On June 2, 2014, Iliad filed an amended complaint (the "Amended Complaint"), which purported to add claims against the Company under the federal and Utah securities laws and for common law fraud. On June 30, 2014, the Company removed the action to the United States District Court for the District of Utah. On August 1, 2014, after the Court issued its Order Granting Stipulated Motion for Leave to File Second Amended Complaint, Iliad filed a Second Amended Complaint (the "SAC"), which purports to add a sixth claim for conversion. Iliad seeks "damages in an amount to be determined at trial" (though the common law fraud damages alone are alleged to be "greater than $300,000") plus interest, attorneys' fees and costs. Iliad has also asked for punitive damages in connection with its claims under the Utah Securities Act (equal to three times its actual damages), common law fraud and conversion. The Company intends to continue to defend itself vigorously.

Brio Capital L.P.

On March 22, 2013, the Company was notified that Brio Capital L.P. which the Company refers to as Brio, had filed a lawsuit against Advaxis, in the Supreme Court of the State of New York, County of New York, titled Brio Capital L.P. v. Advaxis Inc., Case No. 651029/2013, which the Company refers to as the Action. The complaint in the Action alleges, among other things, that Advaxis breached the terms of certain warrants to purchase shares of its Common Stock that was originally issued to Brio on October 17, 2007 and on June 18, 2009, and that Brio has suffered damages as a result thereof. Brio's complaint seeks (i) a preliminary and permanent injunction directing the Company to issue to Brio 21,742 shares of the Company's Common Stock, along with the necessary corporate resolutions and legal opinions to enable Brio to sell such Common Stock publicly without restriction; and (ii) damages of at least $500,000 (in an amount to be determined at trial), along with interest, costs and attorneys' fees related to the Action. On April 15, 2013, in partial resolution of the Brio lawsuit, the Company issued 21,742 shares of Common Stock and provided certain corporate resolutions and legal opinions necessary to enable Brio to sell such Common Stock publicly without restriction. On October 29, 2013, the Company entered into a settlement agreement with Brio to settle the remaining claims under the Action, which agreement was to become binding only when approved by the court at a fairness hearing. The parties later agreed to amend the settlement by the Company paying Brio $205,000 in full settlement of all claims related to this lawsuit in exchange for a release of claims and cancellation of the warrants. The matter is now finally settled and the Action dismissed with prejudice on October 29, 2013.

Maxim Group, LLC

On August 19, 2013, the Company entered into an agreement with Maxim Group LLC, or Maxim to terminate a July 2012 engagement agreement between the parties, pursuant to which Maxim asserted claims for unpaid fees related to the introduction of investors to the Company and services provided. As consideration for terminating the agreement, the Company agreed to pay Maxim approximately $589,000 in monthly installment payments in either cash or shares of its Common Stock, and a warrant to purchase 30,154 shares of its Common Stock at an exercise price of $4.90 per share. Additionally, in order to move the settlement forward, the Company reluctantly agreed to pay Maxim an additional $150,000 upon the completion of a contemplated public offering of securities. On September 17, 2013, the Company issued 25,582 shares of its Common Stock as an installment payment under this agreement and also issued the warrant to acquire 30,154 shares of its Common Stock at $4.90 per share, and on September 27, 2013, the Company issued 158,385 shares of its Common Stock to satisfy the remaining amount owed under this agreement. Maxim rejected the delivery of these 158,385 shares and claimed that the Company may not prepay its obligations under the agreement notwithstanding any language to the contrary in the agreement. Upon receipt of the rejected shares, Advaxis cancelled the issuance of such shares. Upon the completion of its public offering in October, 2013 the Company paid the aforementioned $150,000 and commenced final settlement of the disputed amounts owed. On or about November 14, 2013 Maxim initiated a proceeding by confession of judgment in New York State Court to recover monies it believed Advaxis owed it under the Termination Agreement in the amount of $484,710. On November 15, 2013 the New York County Clerk's office entered a judgment in favor of Maxim. On or about November 22, 2013 Maxim mailed a Notice of Entry to Advaxis and the parties decided to settle the dispute without any admission of liability or wrongdoing and on December 23, 2013 the parties executed a Settlement Agreement and Releases. On December 27, 2013 the Company paid Maxim $285,000 in final settlement of all matters related to their claim.

The Company is from time to time involved in legal proceedings in the ordinary course of its business. The Company does not believe that any of these claims and proceedings against us is likely to have, individually or in the aggregate, a material adverse effect on its financial condition or results of operations.

Consulting Agreement; Debt Conversion/Repayment

On August 19, 2013, the Company entered into a consulting agreement with Mr. Thomas A. Moore, a former director of the Company and its former Chief Executive Officer, pursuant to which Mr. Moore will continue to assist the Company in exchange for (i) receiving an aggregate of approximately $350,000, paid in installments over the course of the one year consulting period, (ii) reimbursement by the Company for any costs associated with or incurred by Mr. Moore for participation in a group health plan and (iii) a grant of 37,500 RSUs that will vest quarterly over three years. Since Mr. Moore was not nominated for re-election, only 10,976 RSUs vested through his current term on the Board. The one-year consulting agreement automatically terminated on August 18, 2014.

Following Mr. Moore's termination of his engagement as a consultant as provided in the agreement, Mr. Moore was entitled to payment of any earned or accrued but unpaid compensation and, provided that Mr. Moore executes a separation agreement and general release, a one-time lump sum $350,000 disengagement payment, subject to all applicable withholdings and deductions. As of October 27, 2014, the disengagement payment was paid in full.

Numoda

On June 19, 2009, the Company entered into a master agreement and on July 8, 2009, the Company entered into a Project Agreement with Numoda Corporation ("Numoda"), to oversee Phase 2 clinical activity with ADXS-HPV for the treatment of invasive cervical cancer and CIN.

Numoda and the Company are in a dispute regarding the amounts outstanding under these agreements. Numoda had taken the position that it was owed approximately $540,000 while the Company believed that the amount due to Numoda should be substantially less than that amount. The Company intends to continue to defend itself vigorously.

Merck & Co., Inc.

On August 22, 2014, we entered into a Clinical Trial Collaboration and Supply Agreement (the "Merck Agreement") with Merck, pursuant to which the parties will collaborate on a Phase 1/2 dose-escalation and safety study. The Phase 1 portion of the study will evaluate the safety of our Lm-LLO based immunotherapy for prostate cancer, ADXS31-142 (the "Advaxis Compound") as monotherapy and in combination with KEYTRUDA® (pembrolizumab), Merck's humanized monoclonal antibody against PD-1, (the "Merck Compound") to determine a recommended Phase 2 combination dose. The Phase 2 portion will evaluate the safety and efficacy of the Advaxis Compound in combination with the Merck Compound. Both phases of the study will be in patients with previously treated metastatic castration-resistant prostate cancer. A joint development committee, comprised of equal representatives from both parties, is responsible for coordinating all regulatory and other activities under, and pursuant to, the Merck Agreement.

Each party is responsible for their own internal costs and expenses to support the study, while we will be responsible for all third party costs of conducting the study. Merck will be responsible for manufacturing and supplying the Merck Compound. We will be responsible for manufacturing and supplying the Advaxis Compound. We will be the sponsor of the study and hold the IND related to the study.

All data and results generated under the study ("Collaboration Data") will be jointly owned by the parties, except that ownership of data and information generated from sample analysis to be performed by each party on its respective compound will be owned by the party conducting such testing. All rights to all inventions and discoveries, which claim or cover the combined use of the Advaxis Compound and the Merck Compound shall belong jointly to the parties. Inventions and discoveries relating solely to the Advaxis Compound, or a live attenuated bacterial vaccine, shall be the exclusive property of us. Inventions and discoveries relating solely to the Merck Compound, or a PD-1 antagonist, shall be the exclusive property of Merck.

The Merck Agreement shall continue in full force and effect until completion of all of the obligations of the parties or a permitted termination.

MedImmune/AstraZeneca

On July 21, 2014, we entered into a Clinical Trial Collaboration Agreement (the "MedImmune Agreement") with MedImmune, the global biologics research and development arm of AstraZeneca, pursuant to which the parties intend to initiate a Phase 1/2 clinical study in the United States to evaluate the safety and efficacy of MedImmune's investigational anti-PD-L1 immune checkpoint inhibitor, MEDI4736, in combination with our investigational Lm-LLO cancer immunotherapy, ADXS-HPV, as a combination treatment for patients with advanced, recurrent or refractory cervical cancer and HPV-associated head and neck cancer. A joint steering committee, composed of equal representatives from both parties, is responsible for various matters associated with the collaboration, including protocol approval, as well as reviewing and monitoring the progress of the study.

MedImmune will be responsible for providing MEDI4736 at no cost, as well as costs related to the proprietary assays performed by MedImmune or a third party on behalf of MedImmune. We will be the sponsor of the study and be responsible for the submission of all regulatory filings to support the study, the negotiation and execution of the clinical trial agreements associated with each study site, and the packaging and labelling of the Advaxis and MedImmune product candidates to be used in the study and the costs associated therewith. For a period beginning upon the completion of the study and the receipt by MedImmune of the last final report for the study and ending one hundred twenty (120) days thereafter (unless extended), MedImmune will be granted first right to negotiate in good faith in an attempt to enter into an agreement with us with respect to the development, regulatory approval and commercialization of ADXS-HPV and MEDI4736 to be used in combination with each other for the treatment or prevention of cancer. Neither party is obligated to enter into such an agreement. In the event the parties do not enter an agreement and we obtain regulatory approval for ADXS-HPV in combination with any PD-1 antibody or PD-L1 antibody, we shall pay MedImmune a royalty obligation and one-time payment.

All intellectual property rights made, conceived or generated through the clinical trials that relate solely to a MedImmune development product shall be owned solely by MedImmune. All intellectual property rights made, conceived or generated through the clinical trials that relate solely to an Advaxis development product shall be owned solely by us. All intellectual property rights made, conceived or generated through the clinical trials that relate to the combination of one or more MedImmune development product and one or more Advaxis development product shall be jointly owned by both parties; provided, however that in the event the parties do not enter into a clinical development and commercialization agreement, we will not exploit, commercialize or license the joint inventions, except for the performance of its obligations under the MedImmune Agreement. MedImmune has the sole right to prosecute and enforce all patents and other intellectual property rights covering all joint inventions and all associated costs will be shared by the parties.

The MedImmune Agreement shall remain in effect until the earlier of (i) permitted termination, (ii) the parties entering into a clinical development and commercialization agreement or expiration of the negotiation period (unless extended), except with respect to rights that survive termination. Either party may terminate the MedImmune Agreement upon thirty (30) days written notice upon material breach of the other party, unless the breach is cured in such period or reasonable actions to cure the breach are initiated and pursued (if the breach is not capable of being cured during the 30-day notice period). In addition, either party may terminate the MedImmune Agreement immediately if the

party determines in good faith that the trials may unreasonably affect the safety of trial subjects.

Office & Laboratory Lease

In April 2011, the Company entered into a sublease agreement and relocated its current offices and laboratory to an approximately 10,000 square foot leased facility in Princeton, NJ which approximates $21,000 per month plus utilities. Utility costs are estimated to be approximately $7,200 per month and are capped at approximately $10,700 per month. The Company made an initial payment of approximately $54,000 prior to entering the new facility. Approximately $8,000 of the initial $54,000 payment was for the security deposit and was recorded on the balance sheet as a long-term asset. The sublease agreement has a termination date of November 29, 2015. The Company expects its annual lease costs to approximate $338,000 per year (approximately $1.02 million in the aggregate) until the termination of this agreement in November 2015.

Rent expense for the years ended October 31, 2014 and 2013 was $330,000 and $229,416, respectively.

Sale of Net Operating Losses (NOLs)

The Company may be eligible, from time to time, to receive cash from the sale of its Net Operating Losses under the State of New Jersey NOL Transfer Program. In January 2014, the Company received a net cash amount of $625,563 from the sale of its state NOLs and research and development tax credits for the periods ended October 31, 2010 and 2011. In December 2014, the Company received a net cash amount of $1,731,317 from the sale of its state NOLs and research and development tax credits for the periods ended October 31, 2012 and 2013.

11. INCOME TAXES:

The income tax provision (benefit) consists of the following:

	October 31, 2014	October 31, 2013
Federal		
Current	$ -	$ -
Deferred	(5,777,937)	(3,725,144)
State and Local		
Current	(2,356,880)	(725,190)
Deferred	1,008,338	(202,712)
Change in valuation allowance	4,769,599	3,927,856
Income tax provision (benefit)	$ (2,356,880)	$ (725,190)

The Company has U.S. federal net operating loss carryovers (NOLs) of approximately $75,320,000 and $58,447,000 at October 31, 2014 and 2013, respectively, available to offset taxable income which expire beginning in 2023. If not used, these NOLs may be subject to limitation under Internal Revenue Code Section 382 should there be a greater than 50% ownership change as determined under the regulations. The Company plans on undertaking a detailed analysis of any historical and/or current Section 382 ownership changes that may limit the utilization of the net operating loss carryovers. The Company also has New Jersey State Net Operating Loss carryovers of $18,123,000 and $17,563,000, as of October 31, 2014 and October 31, 2013, respectively, available to offset future taxable income through 2034.

In assessing the realization of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon future generation for taxable income during the periods in which temporary differences representing net future deductible amounts become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. After consideration of all the information available, Management believes that significant uncertainty exists with respect to future realization of the deferred tax assets and has therefore established a full valuation allowance. For the year ended October 31, 2014 and 2013, the change in the valuation allowance was approximately $4,770,000 and $3,928,000.

The Company evaluated the provisions of ASC 740 related to the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. ASC 740 prescribes a comprehensive model for how a company should recognize, present, and disclose uncertain positions that the company has taken or expects to take in its tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. Differences between tax positions taken or expected to be taken in a tax return and the net benefit recognized and measured pursuant to the interpretation are referred to as "unrecognized benefits." A liability is recognized (or amount of net operating loss carry forward or amount of tax refundable is reduced) for unrecognized tax benefit because it represents an enterprise's potential future obligation to the taxing authority for a tax position that was not recognized as a result of applying the provisions of ASC 740.

If applicable, interest costs related to the unrecognized tax benefits are required to be calculated and would be classified as "Other expenses – Interest" in the statement of operations. Penalties would be recognized as a component of "General and administrative."

No interest or penalties on unpaid tax were recorded during the years ended October 31, 2014 and October 31, 2013, respectively. As of October 31, 2014 and October 31, 2013, no liability for unrecognized tax benefits was required to be reported. The Company does not expect any significant changes in its unrecognized tax benefits in the next year.

The Company files tax returns in the U.S. federal and state jurisdictions and is subject to examination by tax authorities beginning with the year ended October 31, 2011.

The Company's deferred tax assets (liabilities) consisted of the effects of temporary differences attributable to the following:

	Years Ended	
	October 31, 2014	October 31, 2013
Deferred Tax Assets		
Net operating loss carryovers	$ 26,685,000	$ 21,994,270
Stock-based compensation	3,467,000	3,772,857
Other deferred tax assets	2,094,000	1,603,056
Total deferred tax assets	$ 32,246,000	$ 27,370,183
Valuation allowance	(31,112,000)	(26,342,495)
Deferred tax asset, net of valuation allowance	$ 1,134,000	$ 1,027,688
Deferred Tax Liabilities		
Other deferred tax liabilities	(1,134,000)	(1,027,688)
Total deferred tax liabilities	$ (1,134,000)	$ (1,027,688)
Net deferred tax asset (liability)	$ -	$ -

The expected tax (expense) benefit based on the statutory rate is reconciled with actual tax expense benefit as follows:

	Years Ended	
	October 31, 2014	October 31, 2013
US Federal statutory rate	34.00%	34.00
State income tax, net of federal benefit	5.9	5.9
Deferred tax true-up - permanent differences	0.2	(9.8)
Non-deductible loss on note retirement	0.0	(9.4)
Deferred tax adjustment	(13.3)	(0.7)
Change in valuation allowance	(25.3)	(19.0)

Income tax benefit from sale of New Jersey NOL carryovers	12.5	3.5
Other permanent differences	(1.5)	(1.0)
Income tax (provision) benefit	12.5%	3.5%

12. SHAREHOLDERS' EQUITY:

Amendments

At the Annual Meeting of Stockholders of the Company held on July 9, 2014, the stockholders ratified and approved an amendment to the Company's 2011 Omnibus Incentive Plan to increase the aggregate number of shares of common stock authorized for issuance under such plan by from 520,000 shares to 2,120,000 shares. Furthermore, the stockholders approved an amendment to the Company's Certificate of Incorporation to increase the total number of authorized shares of common stock from 25,000,000 shares of common stock to 45,000,000 shares of common stock.

Equity Enhancement Program

On October 26, 2012, the Company entered into a Common Stock Purchase Agreement, which it refers to as the Hanover Purchase Agreement, with Hanover, which requires Hanover to purchase up to $10.0 million of shares of its Common Stock over the 24-month term following the effectiveness of the resale registration statement. The purchase price for such shares of Common Stock will be the higher of (i) the minimum price, which the Company refers to as the Floor Price, set forth in its notice electing to effect such issuance, and (ii) 90% of the arithmetic average of the five lowest closing sale prices of the Common Stock during the applicable ten trading day pricing period (or, if less, the arithmetic average of all trading days with closing sale prices in excess of the Floor Price), subject to adjustment. Each trading day with a closing sale price less than the Floor Price is excluded from the calculation of the purchase price and automatically reduces the number of trading days in the applicable pricing period.

In consideration for Hanover's execution and delivery of the Hanover Purchase Agreement, in connection with the execution and delivery of the Hanover Purchase Agreement, the Company issued Hanover 28,000 Commitment Fee Shares in November 2012. The Company recognized non-cash expense of approximately $157,000 related to the issuance of the Commitment Fee Shares in the twelve months ended October 31, 2013. The Company has also agreed to issue Hanover additional Maintenance Fee Shares of its Common Stock in the event that no shares of Common Stock have been purchased or sold pursuant to the Hanover Purchase Agreement during any calendar quarter during the 24 month term per the terms of the Hanover Purchase Agreement.

The Hanover Purchase Agreement provides for indemnification of Hanover and its affiliates in the event that the Company breaches any of its representations and warranties under the Hanover Purchase Agreement.

In connection with the Hanover Purchase Agreement, on October 26, 2012, the Company entered into a registration rights agreement, which it refers to as the Hanover Registration Rights Agreement, with Hanover, and granted to Hanover certain registration rights related to the Commitment Fee Shares, the Maintenance Fee Shares, and the shares issuable under the Hanover Purchase Agreement. Under the Hanover Registration Rights Agreement, the Company filed with the SEC a registration statement for the purpose of registering the resale of the Common Stock issued to Hanover.

During the twelve months ended October 31, 2013, the Company sold 359,224 shares of its Common Stock under the Equity Enhancement Program for proceeds totaling $2,964,140.

On September 27, 2013, the Company notified Hanover Holdings LLC that it irrevocably commits to suspend any draw-downs under the Common Stock Purchase Agreement without the prior written consent of Aegis Capital Corp. for a six month period from the closing. During the twelve months ended October 31, 2014, the Company and Hanover agreed to terminate the Common Stock Purchase Agreement in exchange for the issuance of 7,080 shares of the Company's Common Stock valued at $34,126.

Reverse Stock Split

At the annual meeting of shareholders held on June 14, 2013, the Company's shareholders approved the filing of a Certificate of Amendment to effect a reverse stock split of its issued and outstanding Common Stock, and the filing of a Certificate of Amendment to decrease the total number of its authorized shares of Common Stock. On July 11, 2013, the Company's Board of Directors authorized a reverse stock split at a ratio of 1-for-125 and approved the implementation of the authorized share capital decrease after the effectiveness of the reverse stock split. Accordingly, the Company amended its Amended and Restated Certificate of Incorporation by the filing of two Certificates of Amendment with the Delaware Secretary of State as follows:(a) on July 11, 2013, to effect a 1-for-125 reverse stock split of its outstanding Common Stock, par value $0.001 per share, to take effect on July 12, 2013 at 4:30 p.m. EDT, and (b) on July 12, 2013, to decrease the total number of authorized shares of Common Stock on a post-reverse stock split basis, so that the total number of shares that the Company has the authority to issue is 30,000,000 shares, of which 25,000,000 shares are Common Stock and 5,000,000 shares are ''blank check'' preferred stock. The reverse stock split was effective at approximately 4:30 p.m. EDT on July 12, 2013, and the share capital decrease took effect thereafter upon filing with the Delaware Secretary of State. All references in this report to number of shares, price per share and weighted average number of shares of Common Stock outstanding prior to this reverse stock split have been adjusted to reflect the reverse stock split on a retroactive basis, unless otherwise noted.

Licensing Agreement – Global BioPharma Inc.

On December 9, 2013, the Company entered into an exclusive licensing agreement for the development and commercialization of ADXS-HPV with Global BioPharma, Inc. ("GBP"), a Taiwanese based biotech company funded by a group of investors led by Taiwan Biotech Co., Ltd (TBC).

GBP plans to conduct registration trials with ADXS-HPV for the treatment of advanced cervical cancer and will explore the use of Advaxis's lead product candidate in several other indications including lung, head and neck, and anal cancer.

GBP will pay Advaxis event-based financial milestones, an annual development fee, and annual net sales royalty payments in the high single to double digits. In addition, as an upfront payment, GBP made an investment in Advaxis of $400,000 by purchasing from the Company 108,724 shares of its Common Stock at a price of $3.68 per share, GBP also received 100,000 warrants at an exercise price of $5.52 which expire in December 2018.

GBP will be responsible for all clinical development and commercialization costs in the GBP territory. GBP will also reimburse the Company $2.25 million toward its U.S. registrational study, where such payment will help to offset development costs. GBP is committed to establishing manufacturing capabilities for its own territory and to serving as a secondary manufacturing source for Advaxis in the future. Under the terms of the agreement, Advaxis will exclusively license the rights of ADXS-HPV to GBP for Asia, Africa, and former USSR territory, exclusive of India and certain other countries, for all HPV-associated indications. Advaxis retains exclusive rights to ADXS-HPV for the rest of the world.

Licensing Agreement – Aratana Therapeutics

On March 19, 2014, the Company and Aratana entered into a definitive Exclusive License Agreement (the "Aratana Agreement"). Pursuant to the Agreement, Advaxis granted Aratana an exclusive, worldwide, royalty-bearing, license, with the right to sublicense, certain Advaxis proprietary technology that enables Aratana to develop and commercialize animal health products that will be targeted for treatment of osteosarcoma and other cancer indications in animals. Under the terms of the Aratana Agreement, Aratana paid an upfront payment to the Company, of $1 million. As this license has stand-alone value to Aratana (who has the ability to sublicense) and was delivered to Aratana, upon execution of the Aratana Agreement, the Company recorded the $1 million payment as licensing revenue in the three months ended April 30, 2014. Aratana will also pay the Company up to an additional $36.5 million based on the achievement of certain milestones with respect to the advancement of products pursuant to the terms of the Aratana Agreement. In addition, Aratana may pay the Company an additional $15 million in cumulative sales milestones pursuant to the terms of the Aratana Agreement.

Advaxis (i) issued and sold 306,122 shares of Advaxis's Common Stock to Aratana at a price of $4.90 per share, which was equal to the closing price of the Common Stock on the NASDAQ Capital Market on March 19, 2014, and (ii) issued a ten-year warrant to Aratana giving Aratana the right to purchase up to 153,061 additional shares of Advaxis's Common Stock at an exercise price of $4.90 per share. In connection with the sale of the Common Stock and warrants, Advaxis received aggregate net proceeds of $1,500,000.

Based on the above licensing agreement, the Company expects to derive the majority of revenue from patent licensing if clinical development is successful. In general, these revenue arrangements provide for the payment of contractually determined fees in consideration for the grant of certain intellectual property rights for patented technologies owned or controlled by the Company. The intellectual property rights granted may be perpetual in nature, or upon the final milestones being met, or can be granted for a defined, relatively short period of time, with the licensee possessing the right to renew the agreement at the end of each contractual term for an additional minimum upfront payment. The Company recognizes licensing fees when there is persuasive evidence of a licensing arrangement, fees are fixed or determinable, delivery has occurred and collectability is reasonably assured.

JLS Ventures

During the twelve months ended October 31, 2014 the Company issued 200,000 shares of its Common Stock valued at $756,000 to JLS Ventures pursuant to the underlying agreement for investor relations services. As of October 31, 2014, there were no outstanding obligations under this agreement.

Stock Purchase Agreements

During the twelve months ended October 31, 2013, the Company sold 62,981 shares of its Common Stock, to accredited investors, for proceeds totaling approximately $177,250. The Company recorded a liability on its balance sheet for approximately $100,000 (included in proceeds of $177,250) for 45,323 shares (included in the above 62,981 shares), that were not yet delivered to Yenson Co. Ltd as of October 31, 2013 pursuant to a Securities Purchase dated August 28, 2013.

On May 15, 2014, the Company issued 45,323 shares of its Common Stock pursuant to the Securities Purchase Agreement with Yenson.

Series B Preferred Stock Financing

On July 19, 2010, the Company entered into a Series B Preferred Stock Purchase Agreement with Optimus (the "Series B Purchase Agreement"), pursuant to which Optimus agreed to purchase, upon the terms and subject to the conditions set forth therein and described below, up to $7.5 million of the Company's newly authorized, non-convertible, redeemable Series B preferred stock ("Series B Preferred Stock") at a price of $10,000 per share. Under the terms of the Series B Purchase Agreement, subject to the Company's ability to maintain an effective registration statement for the Warrant Shares (as defined below), the Company may from time to time until July 19, 2013, present Optimus with a notice to purchase a specified amount of Series B Preferred Stock. Subject to satisfaction of certain closing conditions, Optimus is obligated to purchase such shares of Series B Preferred Stock on the 10th trading day after the date of the notice.

Holders of Series B preferred stock will be entitled to receive dividends, which will accrue in shares of Series B preferred stock on an annual basis at a rate equal to 10% per annum from the issuance date. Accrued dividends will be payable upon redemption of the Series B preferred stock or upon the liquidation, dissolution or winding up of the Company. In the event the Company redeems all or a portion of any shares of the Series B Preferred Stock then held by Optimus, Optimus shall apply, and the Company may offset, the proceeds of any such redemption to pay down the accrued interest and outstanding principal of the Promissory Note from Optimus.

On September 26, 2013, the Company entered into a Notice of Redemption and Settlement Agreement with Optimus Capital Partners, LLC, a Delaware limited liability company, dba Optimus Life Sciences Capital Partners, LLC, Optimus CG II, Ltd., a Cayman Islands exempted Company and Socius CG II, Ltd., a Bermuda exempted Company, pursuant to which it agreed to redeem the Company's outstanding shares of Series B Preferred Stock. Pursuant to the agreement, the Company agreed to cancel an outstanding receivable in the amount of $10,633,584 as of the date of the agreement as payment in full of the redemption payment due under the terms of the Series B Preferred Stock and agreed to issue 33,750 shares of its Common Stock having a fair value of $221,400 to settle a disagreement regarding the calculation of the settlement amount under a July 2012 Order and Stipulation. In connection with the redemption, the Company agreed to cancel the outstanding warrant held by Optimus. The Company recorded a charge to Retained Earnings for the accrued dividends payable to date, of $2,877,570 were canceled as part of the redemption transaction. The difference between the accrued dividends payable to-date and the outstanding receivable was written off to Additional Paid-In Capital. The loss on the aforementioned transaction was not material. Accordingly, following such redemption, there are no longer any shares of the Company's Series B Preferred Stock issued and outstanding.

As of October 31, 2013, the Series B preferred stock had a liquidation preference of $0 due to its redemption as described above. During the twelve months ended October 31, 2014 and 2013, the Company accrued dividends of $0 and $555,000 respectively. The Company also recorded $0 and $149,562 in accrued interest on the promissory notes through the twelve months ended October 31, 2014 and 2013, respectively. The promissory bears interest at 2% per annum which is credited directly to capital.

13. FAIR VALUE

The authoritative guidance for fair value measurements defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or the most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Market participants are buyers and sellers in the principal market that are (i) independent, (ii) knowledgeable, (iii) able to transact, and (iv) willing to transact. The guidance describes a fair value hierarchy based on the levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value which are the following:

- Level 1 — Quoted prices in active markets for identical assets or liabilities
- Level 2— Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or corroborated by observable market data or substantially the full term of the assets or liabilities
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the value of the assets or liabilities

The following table provides the liabilities carried at fair value measured on a recurring basis as of October 31, 2014 and 2013:

October 31, 2014	Level 1	Level 2	Level 3	Total
Common Stock warrant liability, warrants exercisable at $5.63 - $21.25 from October 2014 through August 2017	$ -	$	$ 32,091	$ 32,091

October 31, 2013	Level 1	Level 2	Level 3	Total
Common Stock warrant liability, warrants exercisable at $5.63 - $21.25 from October 2013 through August 2017	$ -	$	$ 646,734	$ 646,734

The following table summarizes the changes in fair value of the Company's Level 3 iainstruments for the twelve months ended October 31, 2014 and October 31, 2013.

Common Stock warrant liability:

	October 31, 2014	October 31, 2013
Beginning balance	$ 646,734	$ 434,136
Issuance of Common Stock warrants	-	1,460,867
Exercises and exchanges of warrants	-	(1,026,131)
Issuance of additional warrants due to anti-dilution provisions	4,446	123,744
Change in fair value	(619,089)	(345,882)
Ending Balance	$ 32,091	$ 646,734

14. SUBSEQUENT EVENTS

Recent Sales of Unregistered Securities

On November 10, 2014, the registrant issued 40,000 shares of Common Stock to an accredited investor as payment for consulting services rendered.

On November 28, 2014, the registrant issued 3,868 shares of Common Stock to its Executive Officers, pursuant to their Employment Agreements.

On December 5, 2014, the registrant issued 30,000 shares of Common Stock to an accredited investor as payment for consulting services rendered.

Consulting Agreement

On November 25, 2014, the registrant granted 20,000 Stock Options to an advisor pursuant to a consulting agreement.

Registered Direct Offering

On December 19, 2014, the registrant priced a registered direct offering of 3,940,801 shares of its Common Stock. The transaction closed on December 22, 2014, and the Company received total proceeds, before expenses, of $16.7 million from the offering.

Employment Agreements

On December 31, 2014, the registrant issued 1,504 shares of Common Stock to its Executive Officers, pursuant to their Employment Agreements.

CLINICAL TRIAL COLLABORATION AND SUPPLY AGREEMENT

This CLINICAL TRIAL COLLABORATION AND SUPPLY AGREEMENT (this "**Agreement**"), made as of August 22, 2014 (the "**Effective Date**"), is by and between Merck Sharp & Dohme BV ("**Merck**"), having a place of business at Waarderweg 39, 2031 BN Haarlem, The Netherlands and Advaxis Inc. having a place of business at 305 College Road East, Princeton, NJ. 08540 ("Advaxis"). Merck and Advaxis are each referred to herein individually as "**Party**" and collectively "**Parties**".

RECITALS

A. Advaxis is developing the Advaxis Compound (as defined below) for the treatment of certain tumor types.

B. Merck is developing the Merck Compound (as defined below) for the treatment of certain tumor types.

C. Advaxis desires to sponsor a clinical trial in which the Advaxis Compound and the Merck Compound would be dosed concurrently or in combination.

D. Merck and Advaxis, consistent with the terms of this Agreement, desire to collaborate as more fully described herein, including by providing the Merck Compound and the Advaxis Compound for the Collaboration Program (as defined below).

NOW, THEREFORE, in consideration of the premises and of the following mutual promises, covenants and conditions, the Parties, intending to be legally bound, mutually agree as follows:

1. Definitions.

For all purposes of this Agreement, the capitalized terms defined in this Article 1 and throughout this Agreement shall have the meanings herein specified.

1.1 **"Advaxis"** has the meaning set forth in the preamble.

1.2 **"Advaxis Compound"** means ADXS31-142, a live-attenuated Listeria monocytogenes strain bioengineered, by transforming it with an expression vector to express a PSA antigen fused to a truncated Listeriolysin O (tLLO).

1.3 "**Affiliate**" means, with respect to either Party, a firm, corporation or other entity which directly or indirectly owns or controls said Party, or is owned or controlled by said Party, or is under common ownership or control with said Party. The word "**control**" means (i) the direct or indirect ownership of fifty percent (50%) or more of the outstanding voting securities of a legal entity, or (ii) possession, directly or indirectly, of the power to direct the management or policies of a legal entity, whether through the ownership of voting securities, contract rights, voting rights, corporate governance or otherwise.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

1.4 "**Agreement**" means this agreement, as amended by the Parties from time to time, and as set forth in the preamble.

1.5 **"Alliance Manager"** has the meaning set forth in Section 3.11.

1.6 "**Applicable Law**" means all federal, state, local, national and regional statutes, laws, rules, regulations and directives applicable to a particular activity hereunder, including performance of clinical trials, medical treatment and the processing and protection of personal and medical data, that may be in effect from time to time, including those promulgated by the United States Food and Drug Administration ("**FDA**"), the European Medicines Agency ("**EMA**") and any successor agency to the FDA or EMA or any agency or authority performing some or all of the functions of the FDA or EMA in any jurisdiction outside the United States or the European Union (each a "**Regulatory Authority**" and collectively, "**Regulatory Authorities**"), and including without limitation cGMP and GCP (each as defined below); all data protection requirements such as those specified in the EU Data Protection Directive and the regulations issued under the United States Health Insurance Portability and Accountability Act of 1996 ("**HIPAA**"); export control and economic sanctions regulations which prohibit the shipment of United States-origin products and technology to certain restricted countries, entities and individuals; anti-bribery and anti-corruption laws pertaining to interactions with government agents, officials and representatives; laws and regulations governing payments to healthcare providers; and any United States or other country's or jurisdiction's successor or replacement statutes, laws, rules, regulations and directives relating to the foregoing.

1.7 "**Business Day**" means any day other than a Saturday, Sunday or any public holiday in the country where the applicable obligations are to be performed.

1.8 "**Calendar Quarter**" means a three-month period beginning on January, April, July or October 1st.

1.9 "**Calendar Year**" means a one-year period beginning on January 1st and ending on December 31st.

1.10 "**cGMP**" means the current Good Manufacturing Practices officially published and interpreted by EMA, FDA and other applicable Regulatory Authorities that may be in effect from time to time and are applicable to the Manufacture of the Compounds.

1.11 "**Collaboration Data**" means all data (including raw data) and results generated under the Study.

1.12 "**Clinical Quality Agreement**" means that certain clinical quality agreement being entered into by the Parties within thirty (30) days of the Effective Date.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

1.13 **"Collaboration Program"** means the collaboration of the parties to perform the Study.

1.14 "**Compounds**" means the Advaxis Compound and the Merck Compound. A "**Compound**" means either the Advaxis Compound or the Merck Compound, as applicable.

1.15 "**Combination**" means the use or method of using the Advaxis Compound and the Merck Compound in concomitant or sequential administration.

1.16 "**Confidential Information**" means any information, Know-How or other proprietary information or materials furnished to one Party by the other Party pursuant to this Agreement, except to the extent that it can be established by the receiving Party that such information or materials: (a) was already known to the receiving Party, other than under an obligation of confidentiality, at the time of disclosure by the other Party as demonstrated by competent business records; (b) was generally available to the public or otherwise part of the public domain at the time of its disclosure to the receiving Party; (c) became generally available to the public or otherwise part of the public domain after its disclosure and other than through any act or omission of the receiving Party in breach of this Agreement; (d) was disclosed to the receiving Party by a Third Party who had no obligation to the disclosing Party not to disclose such information to others; or (e) was subsequently developed by the receiving Party without use of the Confidential Information as demonstrated by competent business records.

1.17 "**CTA**" means an application to a Regulatory Authority for purposes of requesting the ability to start or continue a clinical trial.

1.18 **Delivery**- has the meaning set forth in Section 8.3.1 with respect to delivery of the Merck Compound, and Section 8.3.2 with respect to the Advaxis Compound.

1.19 "**Direct Manufacturing Costs**" has the meaning set forth in Section 6.11.

1.20 "**Disposition Package**" has the meaning set forth in Section 8.7.1.

1.21 "**Dispute**" has the meaning set forth in Section 21.1.

1.22 "**Effective Date**" has the meaning set forth in the preamble.

1.23 "**EMA**" has the meaning set forth in the definition of Applicable Law.

1.24 **"Field"** means the concomitant and/or sequenced administration of the Merck Compound and the Advaxis Compound in patients with solid tumors.

1.25 "**FDA**" has the meaning set forth in the definition of Applicable Law.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

1.26 "**GCP**" means the Good Clinical Practices officially published by EMA, FDA and the International Conference on Harmonisation of Technical Requirements for Registration of Pharmaceuticals for Human Use (ICH) that may be in effect from time to time and are applicable to the testing of the Compounds.

1.27 "**Government Official**" means: (a) any officer or employee of a government or any department, agency or instrument of a government; (b) any person acting in an official capacity for or on behalf of a government or any department, agency, or instrument of a government; (c) any officer or employee of a company or business owned in whole or part by a government; (d) any officer or employee of a public international organization such as the World Bank or United Nations; (e) any officer or employee of a political party or any person acting in an official capacity on behalf of a political party; and/or (f) any candidate for political office; who, when such Government Official is acting in an official capacity, or in an official decision-making role, has responsibility for performing regulatory inspections, government authorizations or licenses, or otherwise has the capacity to take decisions with the potential to affect the business of either of the Parties.

1.28 "**HIPAA**" has the meaning set forth in the definition of Applicable Law.

1.29 "**IND**" means the Investigational New Drug Application filed or to be filed with the FDA as described in Title 21 of the U.S. Code of Federal Regulations, Part 312, and the equivalent application in the jurisdictions outside the United States, including an "Investigational Medicinal Product Dossier" filed or to be filed with the EMA.

1.30 "**Indirect Manufacturing Costs**" has the meaning set forth in Section 6.11.

1.31 **"Intellectual Property Right(s)"** means any and all ideas, inventions, conceptions, discoveries, know-how, data, compositions, information, results, databases, documentation, reports, materials, writings, processes, methods, techniques and other information, including Patents, trade secrets, trade-marks, service marks, trade names, registered designs, design rights, copyrights (including rights in computer software and database rights), whether registered or not, and all legal means of establishing rights in and to and the aforesaid rights or property similar to any of the foregoing, in any part of the world, together with the right to apply for the registration of any such right.

1.32 "**Inventions**" means all inventions and discoveries which are made or conceived in the performance of the Collaboration Program and/or which are made or conceived by a Party through use of the Collaboration Data.

1.33 **JDC** has the meaning set forth in Section 3.11.

1.34 **"Jointly Owned Invention**" has the meaning set forth in Section 10.1.1.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

1.35 "**Joint Patent Application**" has the meaning set forth in Section 10.1.2.

1.36 **"Joint Patent"** means a patent that issues from a Joint Patent Application.

1.37 **"Know-How"** means any proprietary invention, innovation, improvement, development, discovery, computer program, device, trade secret, method, know-how, process, technique or the like, including manufacturing, use, process, structural, operational and other data and information, whether or not written or otherwise fixed in any form or medium, regardless of the media on which contained and whether or not patentable or copyrightable, that is not generally known or otherwise in the public domain.

1.38 "**Liability**" has the meaning set forth in Section 14.2.1.

1.39 **"Live-Attenuated Bacterial Vaccine"** means any live-attenuated bacterial vaccine that is used to stimulate Antigen Presenting Cells capable of driving a cellular immune response to PSA expressing cells.

1.40 "**Manufacture**," "**Manufactured**," or "**Manufacturing**" means all stages of the manufacture of a Compound, including planning, purchasing, manufacture, processing, compounding, storage, filling, packaging, waste disposal, labeling, leafleting, testing, quality assurance, sample retention, stability testing, release, dispatch and supply, as applicable.

1.41 "**Manufacturer's Release**" or "**Release**" has the meaning ascribed to such term in the Clinical Quality Agreement.

1.42 "**Manufacturing Site**" means the facilities where a Compound is Manufactured by or on behalf of a Party, as such Manufacturing Site may change from time to time in accordance with Section 8.6 (Changes to Manufacturing). ; Manufactured at Vibalogics, Zeppelinstraße 2, 27472 Cuxhaven, Germany

1.43 **"Merck"** has the meaning set forth in the preamble.

1.44 "**Merck Compound**" means MK-3475, a humanized anti-human PD-1 monoclonal antibody.

1.45 "**Non-Conformance**" means, with respect to a given unit of Compound, (i) an event that deviates from an approved cGMP requirement with respect to the applicable Compound, such as a procedure, Specification, or operating parameter, or that requires an investigation to assess impact to the quality of the applicable Compound or (ii) that such Compound failed to meet the applicable representations and warranties set forth in Section 2.3. Classification of the Non-Conformance is detailed in the Clinical Quality Agreement.

1.46 "**Party**" has the meaning set forth in the preamble.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

1.47 **"PD-1 Antagonist"** means any small or large molecule that blocks binding of PD-L1 and/or PD-L2 to PD-1.

1.48 "**Pharmacovigilance Agreement**" means that certain pharmacovigilance agreement being entered into by the Parties within thirty (30) days of the Effective Date regarding the Compounds.

1.49 "**Project Manager**" has the meaning set forth in Section 3.11.

1.50 "**Protocol**" means the written documentation that describes the Study and sets forth specific activities to be performed as part of the Study conduct, attached hereto as Appendix A.

1.51 "**Regulatory Approvals**" means, with respect to a Compound, any and all permissions (other than the Manufacturing approvals) required to be obtained from Regulatory Authorities and any other competent authority for the development, registration, importation and distribution of such Compound in the United States, Europe or other applicable jurisdictions for use in the Study.

1.52 "**Regulatory Authorities**" has the meaning set forth in the definition of Applicable Law.

1.53 "**Sample Testing Results**" has the meaning set forth in Section 3.7.

1.54 "**Specifications**" means, with respect to a given Compound, the set of requirements for such Compound as set forth in the Clinical Quality Agreement.

1.55 **"Study"** means the concomitant or sequenced administration of the Merck Compound and the Advaxis Compound (the "**Phase I/II Trial**"). More specifically, the Study is a Phase 1-2 Dose-escalation and Safety Study of ADXS31-142 Alone and of ADXS31-142 in Combination with Pembrolizumab (MK-3475) in Patients with Previously Treated Metastatic Castration-resistant Prostate Cancer.

1.56 "**Study Completion**" has the meaning set forth in Section 3.12.

1.57 **"Territory"** means worldwide.

1.58 "**Third Party**" means any person or entity other than Advaxis, Merck or their respective Affiliates.

2. Scope of the Agreement.

2.1 Each Party shall contribute to the Collaboration Program such resources as are necessary to fulfill its obligations set forth in this Agreement and more specifically described in Article 7.

2.2 Each Party agrees to act in good faith in performing its obligations under this Agreement and shall notify the other Party as promptly as possible in the event of any Manufacturing delay that is likely to adversely affect supply of its Compound as contemplated by this Agreement.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

2.3. Advaxis agrees to Manufacture and supply the Advaxis Compound for purposes of the Collaboration Program as set forth in Article 8, and Advaxis hereby represents and warrants to Merck that, at the time of Delivery of the Advaxis Compound, such Advaxis Compound shall have been Manufactured and supplied in compliance with: (i) the Specifications for the Advaxis Compound; (ii) the Clinical Quality Agreement; and (iii) all Applicable Law, including cGMP and health, safety and environmental protections. Merck agrees to Manufacture and supply the Merck Compound for purposes of the Collaboration Program as set forth in Article 8, and Merck hereby represents and warrants to Advaxis that, at the time of Delivery of the Merck Compound, such Merck Compound shall have been Manufactured and supplied in compliance with: (a) the Specifications for the Merck Compound; (b) the Clinical Quality Agreement; and (c) all Applicable Law, including cGMP and health, safety and environmental protections. Without limiting the foregoing, each Party is responsible for obtaining all regulatory approvals (including facility licenses) that are required to Manufacture its Compound in accordance with Applicable Law (provided that for clarity, Advaxis shall be responsible for obtaining Regulatory Approvals for the Study as set forth in Section 3.3).

2.4. Each Party may delegate its activities under the Collaboration Program to its own Affiliates without the other Party's consent. Each Party shall have the right to subcontract any portion of its obligations hereunder to Third Party subcontractors, provided that the JDC has approved the use of such Third Parties in the performance of such activities as set forth in the Protocol and further provided that such Party shall remain solely and fully liable for the performance of such subcontractors. Notwithstanding the foregoing, either Party may, without consulting the JDC, subcontract its manufacturing activities with regards to its Compound to be provided for the Study. Each Party shall ensure that each of its subcontractors performs its obligations pursuant to the terms of this Agreement, including the Appendices attached hereto. Each Party shall use reasonable efforts to obtain and maintain copies of documents relating to the obligations performed by such subcontractors that are held by or under the control of such subcontractors and that are required to be provided to the other Party under this Agreement.

2.5 During the Collaboration Program, Advaxis shall not, either alone or with another party, conduct any clinical trial involving the Advaxis Compound and any PD-1 Antagonist other than in furtherance of the Collaboration Program.

2.6 This Agreement does not create any obligation on the part of Merck to provide the Merck Compound for any activities other than the Collaboration Program, nor does it create any obligation on the part of Advaxis to provide the Advaxis Compound for any activities other than the Collaboration Program.

2.7 Except as provided in Section 2.5, nothing in this Agreement shall (i) prohibit either Party from performing studies other than the Collaboration Program relating to its own Compound, either individually or in combination with any other compound or product, in any therapeutic area, or (ii) create an exclusive relationship between the Parties with respect to any Compound.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

3. Conduct of the Collaboration Program.

3.1 Advaxis shall act as the sponsor of the Study and shall hold the IND relating to the Study. Advaxis shall file the Protocol for the Study as an amendment to its existing IND for Advaxis Compound. In no event shall Advaxis file a separate combination IND for the Study.

3.2 Advaxis shall ensure that the Study is performed in accordance with this Agreement, the Protocol, and all Applicable Law, including GCP.

3.3 Advaxis shall ensure that all directions from any Regulatory Authority and/or ethics committee with jurisdiction over the Study are followed. Further, Advaxis shall ensure that all IRB approvals, customs clearances, and Regulatory Approvals from any Regulatory Authority and/or ethics committee with jurisdiction over the Study are obtained prior to initiating performance of the Study. Merck shall have the right (but no obligation) to participate in any discussions with a Regulatory Authority regarding matters related to the Merck Compound. Advaxis will be responsible for filing the IND for the Study.

3.4 Merck will provide to Advaxis as necessary, a right of reference to Merck's IND filing for the Merck Compound. Merck will authorize FDA and other applicable regulatory authorities to cross-reference the appropriate MK-3475 INDs and CTAs to provide data access to Advaxis sufficient to support conduct of the Study. If Merck's CTA is not available in a given country, Merck will file its CMC data with the Regulatory Authority for such country, referencing Advaxis's CTA as appropriate (however, Advaxis shall have no right to directly access the CMC data).

3.5 Advaxis shall maintain reports and all related documentation in good scientific manner and in compliance with Applicable Law in connection with the Study as applicable. Advaxis shall provide to Merck all Study information and documentation reasonably requested by Merck to enable Merck to (i) comply with any of its legal, regulatory and/or contractual obligations, or any request by any Regulatory Authority, related to the Merck Compound, and (ii) determine whether the Study has been performed in accordance with this Agreement.

3.6 Advaxis shall ensure that all patient authorizations and consents required under HIPAA, the EU Data Protection Directive or any other similar Applicable Law in connection with the Study permit such sharing of Collaboration Data with Merck.

3.7 Ownership (including limitations of use) and the timing for sharing data and information generated from sample analysis to be performed by each Party on its respective Compound ("**Sample Testing Results**") will be owned by the party conducting such testing. Neither Party shall, without further written agreement between the Parties, use the other Party's Sample Testing Results for any purpose other than (i) to seek Regulatory Approval for the use of its respective Compound in the Combination or (ii) to file and prosecute patent applications for Joint Inventions and enforce any resulting patents in accordance with Article 10. Subject to the preceding, it is anticipated that Advaxis will maintain all data and results for the Trial in its database and will grant access to such data and database to Merck.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

3.8 Merck covenants and agrees that it will not use any unpublished Collaboration Data to research, develop and/or commercialize (directly or indirectly) a Live-Attenuated Bacterial Vaccine other than ADXS31-142 for use either as a monotherapy or in combination with a PD-1 Antagonist without Advaxis and Advaxis covenants and agrees that it will not use any unpublished Collaboration Data or any unpublished Merck-owned Sample Testing Results to research, develop and/or commercialize (directly or indirectly) a PD-1 Antagonist other than MK-3475 for use either as a monotherapy or in combination with a Live-Attenuated Bacterial Vaccine without Merck.

3.9 Each Party will be responsible for the testing of clinical samples as it relates to its own compound.

3.9.1 Samples for Merck Compound testing will be sent to Merck, or its designated third party contractor, for processing and testing. Certain results will be sent to Advaxis pursuant to a timeframe agreed to by the Parties as set forth in Appendix B.

3.9.2 Samples for Advaxis Compound testing will be sent to Advaxis or its designated third party contractor, for processing and testing. Certain results will be sent to Merck pursuant to a timeframe agreed to by the Parties as set forth in Appendix B.

3.10 Neither Party shall, without further written agreement between the Parties, use the Collaboration Data for any purpose other than (i) to seek Regulatory Approval for the use of its respective Compound in the Combination or (ii) to file and prosecute patent applications for Jointly Owned Inventions and enforce any resulting patents in accordance with Article 10; provided, however, that these restrictions shall no longer apply once the Collaboration Data, or portions thereof, are available to the public. Notwithstanding the above or anything to the contrary herein, either Party may share Collaboration Data as required by a Regulatory Authority or as may otherwise be required by law.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

3.11 Joint Development Committee. The Parties shall form a joint development team (the "**Joint Development Committee**" or "**JDC**"), made up of an equal number of representatives of Merck and Advaxis (not to exceed three (3) each), which shall have responsibility of coordinating all regulatory and other activities under, and pursuant to, this Agreement. Each Party shall designate a project manager (the "**Project Manager**") who shall be responsible for implementing and coordinating activities, and facilitating the exchange of information between the Parties, with respect to the Study. Other JDC members will be agreed by both Parties. The JDC shall meet as soon as practicable after the Effective Date and then no less than once each Calendar Quarter, and more often as reasonably considered necessary at the request of either Party, to provide an update on Study progress. Prior to any such meeting, the Advaxis Project Manager shall provide an update in writing to the Merck Project Manager, which update shall contain information about overall Study progress, recruitment status, interim analysis (if results available), final analysis and other information relevant to the conduct of the Study. The JDC will meet quarterly and attempt to reach decisions by consensus with the Advaxis representatives having collectively one vote and the Merck representatives having collectively one vote, except that Merck will determine in its sole discretion the dose and dosing regimen for the Merck Compound and Advaxis will determine in its sole discretion the dose and dosing regimen for the Advaxis Compound. When consensus is not achieved on any matter, the matter will be escalated to the Advaxis CEO and the head of Merck Clinical or the VP of Merck Clinical Oncology, provided however that (1) in the event that the matter relates to the Merck Compound, Merck shall have final decision-making authority and (2) in the event that the matter relates to the Advaxis Compound, Advaxis shall have final decision-making authority. In addition to a Project Manager, each Party shall designate an alliance manager (the **"Alliance Manager"**) who shall endeavor to ensure clear and responsive communication between the Parties and the effective exchange of information and shall serve as the primary point of contact for any issues arising under this Agreement. The Alliance Managers shall have the right to attend all JDC meetings and may bring to the attention of the JDC any matters or issues either of them reasonably believes should be discussed and shall have such other responsibilities as the Parties may mutually agree in writing.

3.12 Advaxis shall provide Merck with (i) an electronic draft of the final study report, for Merck to provide comments to Advaxis within forty-five (45) days of receipt of the draft of the final study report and (ii) a final version of the final study report promptly following Study Completion. Advaxis shall consider in good faith any comments provided by Merck on the final study report and shall not include any statements relating to the Merck Compound which have not been approved by Merck. "**Study Completion**" shall occur upon database lock of the Study results.

4. Protocol and Related Documents.

4.1 A protocol and statistical analysis plan for the Study, has been agreed to by the Parties as of the Effective Date and is attached hereto as Appendix A ("Protocol"). The Protocol may be amended with the approval of the JDC, subject to each Party's decision-making rights as set forth below.

4.2 Notwithstanding Section 4.1, Merck, in its sole discretion, will determine the dose and dosing regimen for the Merck Compound and will have the final decision on all matters relating to the Merck Compound and any information regarding the Merck Compound included in the Protocol.

4.3 Notwithstanding Section 4.1, Advaxis in its sole discretion, will determine the dose and dosing regimen for the Advaxis Compound and will have the final decision on all matters relating to the Advaxis Compound and any information regarding the Advaxis Compound included in the Protocol.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

4.4 Advaxis shall prepare the patient informed consent form for the Study in consultation with Merck (it being understood that the portion of the informed consent form relating to the Merck Compound will be provided by Merck). Any changes to such form that relate to the Merck Compound shall be subject to Merck's written consent. Merck will provide such consent, or a written explanation for why such consent is being withheld, within fifteen (15) Business Days of receiving Advaxis' request therefor.

5. Adverse Event Reporting.

Advaxis will be solely responsible for compliance with all Applicable Law pertaining to safety reporting for the Study and related activities. The Parties will execute a Pharmacovigilance Agreement within thirty (30) days to ensure the exchange of relevant safety data within appropriate timeframes and in appropriate format to enable the Parties to fulfill local and international regulatory reporting obligations and to facilitate appropriate safety reviews. The Pharmacovigilance Agreement will include safety data exchange procedures governing the coordination of collection, investigation, reporting, and exchange of information concerning any adverse experiences, pregnancy reports, and any other safety information arising from or related to the use of the Merck Compound and Advaxis Compound in the Study, consistent with Applicable Law. Such guidelines and procedures shall be in accordance with, and enable the Parties and their Affiliates to fulfill local and international regulatory reporting obligations to Government Authorities. Advaxis will transmit to Merck serious drug related life threatening or death events in three (3) calendar days and all other serious events in five (5) calendar days. Advaxis will be responsible for reporting adverse events to the FDA.

6. Term and Termination.

6.1 The term of this Agreement shall commence on the Effective Date and shall continue in full force and effect until completion of all of the obligations of the Parties hereunder or until terminated by either Party pursuant to this Article 6.

6.2 In the event that (i) Merck reasonably believes that the Merck Compound is being used in an unsafe manner and Advaxis fails to incorporate changes into the Protocol requested by Merck to address such issue, or (ii) the Merck Compound is not being used as described in the Protocol, Merck may immediately terminate this Agreement and the supply of the Merck Compound upon written notice to Advaxis.

6.3 Either Party may terminate this Agreement if the other Party commits a material breach of this Agreement, and such material breach continues for thirty (30) days after receipt of written notice thereof from the non-breaching Party; provided that if such material breach cannot reasonably be cured within thirty (30) days, the breaching Party shall be given a reasonable period of time to cure such breach.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

6.4 Either Party may terminate this Agreement immediately upon written notice to the other party if the terminating Party determines in good faith, based on a review of the Collaboration Data or other Study-related Know-How or information, that the Study may unreasonably affect patient safety.

6.5 Either Party may terminate this Agreement (in whole or in part on a country-by-country basis) immediately upon written notice to the other Party in the event that any Regulatory Authority takes any action, or raises any objection, that prevents the terminating Party from supplying its Compound for purposes of the Study. Additionally, either Party shall have the right to terminate this Agreement immediately (in whole or in part) upon written notice to the other Party in the event that it determines, in its sole discretion, to discontinue development of its Compound, for medical, scientific or legal reasons.

6.6 In the event that this Agreement is terminated, Advaxis shall, at Merck's sole discretion, promptly either return or destroy all unused Merck Compound pursuant to Merck's instructions. If Merck requests that Advaxis destroy the unused Merck Compound, Advaxis shall provide written certification of such destruction.

6.7 Either Party shall be entitled to terminate this Agreement immediately upon written notice to the other Party, if such other Party fails to perform its obligations in accordance with Sections 13.3.1, 13.3.2 and 13.3.8. The non-terminating Party shall have no claim against the terminating Party for compensation for any loss of whatever nature by virtue of the termination of this Agreement in accordance with this Section 6.7. To the extent (and only to the extent) that the laws of the Territory provide for any such compensation to be paid to the non-terminating Party upon the termination of this Agreement, the non-terminating Party hereby expressly agrees (to the extent possible under the laws of the Territory) to waive or to repay to the Party terminating this Agreement any such compensation or indemnity.

6.8 The provisions of Sections 3.6, 6.6, 6.7, 6.8, 6.9, 6.10, 6.11, 13.2, 13.3, 13.4, 14.2 (Indemnification), 14.3 (Limitation of Liability), and Articles 1 (Definitions), 7 (Costs of Collaboration Program), 9 (Confidentiality), 10 (Intellectual Property), 11 (Reprints; Rights of Cross-Reference), 12 (Publications), 20 (No Additional Obligations), 21 (Dispute Resolution and Jurisdiction), 22 (Notices), 23 (Relationship of the Parties) and 25 (Construction) shall survive the expiration or termination of this Agreement.

6.9 Termination of this Agreement shall be without prejudice to any claim or right of action of either Party against the other Party for any prior breach of this Agreement.

6.10 Upon termination of this Agreement, each Party and its Affiliates shall promptly return to the other Party or destroy any Confidential Information of the other Party (other than Collaboration Data and Inventions) furnished to the receiving Party by the other Party, except that the receiving Party shall have the right to retain one copy for record-keeping purposes.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

6.11 Provided the Parties do not otherwise dispute the circumstances of termination, in the event of termination due to Section 6.2(i), 6.3 or 6.7 above, the terminating Party shall be entitled to reimbursement by the other Party for the Direct Manufacturing Costs and Indirect Manufacturing Costs (as defined herein) incurred by the terminating Party for its Compound Delivered for the Study. "**Direct Manufacturing Costs**" shall be calculated consistent with Generally Accepted Accounting Principles ("GAAP") and include manufacturing fees; raw materials; direct labor; freight and duty, and factory overhead costs that can be directly attributed to the Compound, including but not limited to equipment maintenance and repair, supplies, ongoing stability program costs, other plant services, indirect labor and depreciation on direct capital assets. "**Indirect Manufacturing Costs**" shall be calculated consistent with GAAP and include allocations of indirect factory overhead and site support costs, including but not limited to utilities, quality, planning, engineering, maintenance, safety, site science and technology, and depreciation on indirect capital assets, procurement, warehousing, and corporate services. Allocations shall be based on each compound's utilization relative to a manufacturing site's total activity.

7. Costs of Collaboration Program.

7.1 Costs of Collaboration Program. As among the Parties, Advaxis will be responsible for all Third Party costs of conducting the Study. Otherwise, the Parties shall each be responsible for its own internal costs and expenses to support the Study. The Parties further agree that (i) Merck shall provide the Merck Compound for use in the Collaboration Program, as described in Article 8 below; and (ii) Advaxis shall bear all other costs associated with the conduct of the Collaboration Program, including that Advaxis shall provide the Advaxis Compound for use in the Collaboration Program, as described in Article 8 below.

8. Supply and Use of the Compounds.

8.1 *Supply of the Compounds*. Advaxis and Merck will each use commercially reasonable efforts to supply, or cause to be supplied, the quantities of its respective Compound as are set forth on Appendix C, on the timelines set forth in Appendix C, in each case, for use in the Collaboration Program. In the event that the Party conducting the Collaboration Program determines that the quantities of Compounds set forth on Appendix C are not sufficient to complete the Study, such Party shall so notify the other Party, and the Parties shall discuss in good faith regarding additional quantities of Compounds to be provided and the schedule on which such additional quantities shall be provided. Each Party shall also provide to the other Party a contact person for the supply of its Compound under this Agreement. Notwithstanding the foregoing, or anything to the contrary herein, in the event that either Party is not supplying its Compound in accordance with the terms of this Agreement, or is allocating under Section 8.10, then the other Party shall have no obligation to supply its Compound, or may allocate proportionally.

8.2 *Minimum Shelf Life Requirements*. Each Party shall use commercially reasonable efforts to supply its Compound hereunder with an adequate remaining shelf life at the time of Delivery to meet the requirements of the Collaboration Program.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

8.3 *Provision of Compounds*.

8.3.1 Merck will deliver the Merck Compound DAP (INCOTERMS 2010) to Advaxis', or its designee's, location as specified by Advaxis ("**Delivery**" with respect to such Merck Compound). Risk of Loss for the Merck Compound shall transfer from Merck to Advaxis at Delivery. All costs associated with the subsequent transportation, warehousing and distribution of Merck Compound shall be borne by Advaxis. Advaxis will: (i) take delivery of the Merck Compound supplied hereunder; (ii) perform the acceptance procedures allocated to it under the Clinical Quality Agreement; (iii) subsequently label and pack (in accordance with Section 8.5), and promptly ship the Merck Compound to the Study sites, in compliance with cGMP, GCP and other Applicable Law and the Clinical Quality Agreement; and (iv) provide, from time to time at the reasonable request of Merck, the following information: any applicable chain of custody forms, in-transport temperature recorder(s), records and receipt verification documentation, such other transport or storage documentation as may be reasonably requested by Merck, and usage and inventory reconciliation documentation related to the Merck Compound.

8.3.2 Advaxis is solely responsible, at its own cost, for supplying (including all Manufacturing, acceptance and release testing) the Advaxis Compound for the Collaboration Program, and the subsequent handling, storage, transportation, warehousing and distribution of the Advaxis Compound supplied hereunder. Advaxis shall ensure that all such activities are conducted in compliance with cGMP, GCP and other Applicable Law and the Clinical Quality Agreement. For purposes of this Agreement, the "**Delivery**" of a given quantity of the Advaxis Compound shall be deemed to occur when such quantity is packaged for shipment to a Study site or other site as set forth herein.

8.4 *Labeling and Packaging; Use, Handling and Storage*.

8.4.1 The Parties' obligations with respect to the labeling and packaging of the Compounds are as set forth in the Clinical Quality Agreement. Notwithstanding the foregoing or anything to the contrary contained herein, Merck shall provide the Merck Compound to Advaxis in the form of unlabeled vials, and Advaxis shall be responsible for labeling, packaging and leafleting such Merck Compound in accordance with the terms and conditions of the Clinical Quality Agreement and otherwise in accordance with all Applicable Law, including cGMP, GCP, and health, safety and environmental protections.

8.4.2 Advaxis shall (i) use the Merck Compound solely for purposes of performing the Study; (ii) not use the Merck Compound in any manner inconsistent with this Agreement or for any commercial purpose; and (iii) use, store, transport, handle and dispose of the Merck Compound in compliance with Applicable Law and the Clinical Quality Agreement, as well as all instructions of Merck. Advaxis shall not reverse engineer, reverse compile, disassemble or otherwise attempt to derive the composition or underlying information, structure or ideas of the Merck Compound, and in particular shall not analyze the Merck Compound by physical, chemical or biochemical means except as necessary to perform its obligations under the Clinical Quality Agreement.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

8.5 *Product Specifications*. A certificate of analysis shall accompany each shipment of the Merck Compound to Advaxis. Advaxis shall be responsible for any failure of the Merck Compound to meet the Specifications to the extent caused by shipping, storage or handling conditions after Delivery to Advaxis hereunder. Upon request, Advaxis shall provide Merck with a certificate of analysis covering each shipment of Advaxis Compound used in the Study.

8.6 *Changes to Manufacturing*. Each Party may make changes from time to time to its Compound or the Manufacturing Site without notice to the other Party; provided that such changes shall be in accordance with the Clinical Quality Agreement.

8.7 *Product Testing; Noncompliance*.

8.7.1 After Manufacturer's Release. After Manufacturer's Release of the Merck Compound but prior to or at the time of shipment to Advaxis, Merck shall provide Advaxis with such certificates and documentation as are described in the Clinical Quality Agreement ("**Disposition Package**"). Advaxis shall, within the time defined in the Clinical Quality Agreement, perform (i) with respect to the Merck Compound, the acceptance procedures allocated to it under the Clinical Quality Agreement, and (ii) with respect to the Advaxis Compound, the testing and release procedures allocated to it under the Clinical Quality Agreement. Advaxis shall be solely responsible for taking all steps necessary to determine that the Merck Compound or the Advaxis Compound, as applicable, is suitable for release before making such Merck Compound or Advaxis Compound, as applicable, available for human use. For clarity, Advaxis shall be responsible for storage and maintenance of the Merck Compound until it is tested and/or released, which storage and maintenance shall be in compliance with (a) the Specifications for the Merck Compound, the Clinical Quality Agreement and Applicable Law, and (b) any specific storage and maintenance requirements as may be provided by Merck from time to time.

8.7.2 Non-Conformance.

(a) In the event that either Party becomes aware that any Compound may have a Non-Conformance, despite testing and quality assurance activities (including any activities conducted by the Parties under Sections 8.7.1 (*After Manufacturer's Release*)), such Party shall immediately notify the other Party in accordance with the procedures of the Clinical Quality Agreement. The Parties shall investigate any Non-Conformance in accordance with Section 8.9 (*Investigations*) and any discrepancy between them shall be resolved in accordance with Section 8.8 (*Resolution of Discrepancies*).

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

(b) In the event that any proposed or actual shipment of the Merck Compound (or portion thereof) shall be agreed to have a Non-Conformance at the time of Delivery to Advaxis, then unless otherwise agreed to by the Parties, Merck shall replace such Merck Compound as is found to have a Non-Conformance (with respect to Merck Compound that has not yet been administered in the course of performing the Study). Unless otherwise agreed to by the Parties in writing, the sole and exclusive remedies of Advaxis with respect to any Merck Compound that is found to have a Non-Conformance at the time of Delivery shall be (i) replacement of such Merck Compound as set forth in this Section 8.7.2(b), (ii) indemnification under Section 14.2 (to the extent applicable) and (iii) termination of this Agreement pursuant to Section 6.4 (to the extent applicable, but subject to the applicable cure periods set forth therein); provided that, for clarity, Advaxis shall not be deemed to be waiving any rights under Section 8.16. In the event Merck Compound is lost or damaged by Advaxis after Delivery, Merck shall provide additional Merck Compound (if available for the Study) to Advaxis; provided that Advaxis shall reimburse Merck for the Direct Manufacturing Costs and Indirect Manufacturing Costs (as such terms are defined in Section 6.11) of such replaced Merck Compound; and provided further that Merck shall have no obligation to provide additional Merck Compound more than once. Except as set forth in the foregoing sentence, Merck shall have no obligation to provide replacement Merck Compound for any Merck Compound supplied hereunder other than such Merck Compound as has been agreed or determined to have a Non-Conformance at the time of Delivery to Advaxis.

(c) Advaxis shall be responsible for, and Merck shall have no obligations or liability with respect to, any Advaxis Compound supplied hereunder that is found to have a Non-Conformance. Advaxis shall replace any Advaxis Compound as is found to have a Non-Conformance (with respect to Advaxis Compound that has not yet been administered in the course of performing the Study). Unless otherwise agreed to by the Parties in writing, the sole and exclusive remedies of Merck with respect to any Advaxis Compound that is found to have a Non-Conformance at the time of Delivery shall be (i) replacement of such Advaxis Compound as set forth in this Section 8.7.2(c), (ii) indemnification under Section 14.2 (to the extent applicable) and (iii) termination of this Agreement pursuant to Section 6.4 (to the extent applicable, but subject to the applicable cure periods set forth therein); provided that, for clarity, Merck shall not be deemed to be waiving any rights under Section 8.16.

8.8 *Resolution of Discrepancies*. If Merck disagrees with any determination of Non-Conformance by Advaxis, such discrepancy shall be resolved in accordance with the provisions of the Clinical Quality Agreement.

8.9 *Investigations*. The process for investigations of any Non-Conformance shall be handled in accordance with the provisions set forth in the Clinical Quality Agreement.

8.10 *Shortage; Allocation*. In the event of a shortage of a Compound such that a Party reasonably believes that it will not be able to fulfill its supply obligations hereunder with respect to its Compound, such Party will provide prompt written notice to the other Party thereof (including the quantity of its Compound that such Party reasonably determines it will be able to supply) and, upon request, the Parties will promptly discuss such situation (including how the quantities of Compound that such Party is able to supply hereunder will be allocated within the Study). Notwithstanding anything to the contrary contained herein, in the event of a shortage of a Party's Compound, the Party experiencing such shortage shall have sole discretion, subject to Applicable Law, to determine the quantity of Compound it will be able to supply as a result of such shortage, and such Party shall not be deemed to be in breach of this Agreement for failure to supply any other quantities of such Party's Compound hereunder as a result of such shortage.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

8.11 *Regulatory Responsibility*. The responsibilities of the Parties with respect to communication and filings with Regulatory Authorities related to the Compounds supplied hereunder in connection with the Study will be as set forth in the Pharmacovigilance Agreement and the Clinical Quality Agreement entered into by the Parties or their Affiliates in connection herewith.

8.12 *Records; Audit Rights*.

8.12.1 Advaxis will keep complete and accurate records pertaining to its use and disposition of Merck Compound (including its storage, shipping (cold chain) and chain of custody activities) and, upon request of Merck, will make such records open to review by Merck for the purpose of conducting investigations for the determination of Merck Compound safety and/or efficacy and Advaxis's compliance with this Agreement with respect to the Merck Compound.

8.12.2 Each Party shall maintain complete and accurate records pertaining to its Manufacture of its Compound supplied hereunder, and, upon request of the other Party, will make such records open to review by such other Party in accordance with the Clinical Quality Agreement for the purpose of confirming such Party's compliance with this Agreement with respect to its Manufacturing obligations hereunder.

8.13 *Quality*. Quality matters related to the Manufacture of the Compounds shall be governed by the terms of the Clinical Quality Agreement in addition to the relevant quality terms of this Agreement.

8.14 *Quality Control*. Each Party shall implement and perform operating procedures and controls for sampling, stability and other testing of its Compound, and for validation, documentation and release of its Compound and such other quality assurance and quality control procedures as are required by the Specifications, cGMPs and the Clinical Quality Agreement.

8.15 *Audits and Inspections*. The Parties' audit and inspection rights are governed by the terms of the Clinical Quality Agreement.

8.16 *Recalls*. Recalls of the Compounds shall be governed by the terms of the Clinical Quality Agreement.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

9. Confidentiality.

9.1 Advaxis and Merck agree to hold in confidence any Confidential Information provided by the other Party, and neither Party shall use Confidential Information of the other Party except to fulfill such Party's obligations under this Agreement. Without limiting the foregoing, Merck may not use Confidential Information disclosed by or on behalf of Advaxis relating to the Advaxis Compound or the Advaxis Live-Attenuated Bacterial Vaccine program other than for purposes of the Collaboration Program. Advaxis may not use Confidential Information disclosed by or on behalf of Merck relating to the Merck Compound or the Merck PD-1 program other than for purposes of the Collaboration Program. Neither Party shall, without the prior written permission of the other Party, disclose any Confidential Information of the other Party to any Third Party except to the extent disclosure (i) is required by Applicable Law; (ii) is pursuant to the terms of this Agreement; or (iii) is necessary for the conduct of the Collaboration Program, and in each case ((i) through (iii)) provided that the disclosing Party shall provide reasonable advance notice to the other Party before making such disclosure. For the avoidance of doubt, Advaxis may, without Merck's consent, disclose Confidential Information to clinical trial sites and clinical trial investigators performing the Study, the data safety monitoring and advisory board relating to the Study, and regulatory agencies such as the FDA, EMA or other health authorities working with Advaxis on the Study, in each case to the extent necessary for the performance of the Study and provided that such persons (other than governmental entities) are bound by an obligation of confidentiality at least as stringent as the obligations contained herein.

9.2 Notwithstanding the foregoing, (i) Inventions that constitute Confidential Information and are jointly owned by the Parties, shall constitute the Confidential Information of both Parties and each Party shall have the right to use such Confidential Information consistent with Articles 10, 11 and 12 and (ii) Inventions that constitute Confidential Information and are solely owned by one Party shall constitute the Confidential Information of that Party and each Party shall have the right to use such Confidential Information consistent with Articles 10, 11 and 12.

9.3 All Confidential Information containing personal identifiable data shall be handled in accordance with all data protection and privacy laws, rules and regulations applicable to such Party.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

10. Intellectual Property.

10.1 *Joint Ownership and Prosecution*.

10.1.1 Subject to Sections 10.2 and 10.3, all rights to all Inventions claiming, or covering, the combined use of the Advaxis Compound and the Merck Compound (each a "**Jointly Owned Invention**") shall belong jointly to Advaxis and Merck. Advaxis and Merck shall each be entitled to use the Jointly Owned Inventions in accordance with the terms and conditions of this Agreement, and without accounting or financial payment to the other Party and without the consent of the other Party. Notwithstanding the foregoing, Merck covenants and agrees that it will not use the Jointly Owned Invention to seek Regulatory Approval for, or to enable a Third Party to seek Regulatory Approval for, a Live-Attenuated Bacterial Vaccine other than ADXS31-142 or use either as a monotherapy or in combination with a PD-1 Antagonist and Advaxis covenants and agrees that it will not use the Jointly Owned Invention to seek Regulatory Approval for, or to enable a Third Party to seek Regulatory Approval for, a PD-1 Antagonist other than MK-3475 for use either as a monotherapy or in combination with a Live-Attenuated Bacterial Vaccine other than ADXS31-142. For those countries where a specific license is required for a joint owner of a Jointly Owned Invention to practice such Jointly Owned Invention in such countries, (i) Merck hereby grants to Advaxis a perpetual, irrevocable, non-exclusive, worldwide, royalty-free, fully paid-up license, transferable and sublicensable, under Merck's right, title and interest in and to all Jointly Owned Inventions to use such Inventions in accordance with the terms and conditions of this Agreement and (ii) Advaxis hereby grants to Merck a perpetual, irrevocable, non-exclusive, worldwide, royalty-free, fully paid-up license, transferable and sublicensable, under Advaxis's right, title and interest in and to all Jointly Owned Inventions to use such Inventions in accordance with the terms and conditions of this Agreement. For clarity, except as provided in Section 10.4 below, the terms of this Agreement do not provide Advaxis or Merck with any rights, title or interest or any license to the other Party's background intellectual property except as necessary to conduct the Study.

10.1.2 Promptly following the Effective Date, patent representatives of each of the Parties shall meet (in person or by telephone) to discuss the patenting strategy for any Jointly Owned Inventions which may arise. In particular, the Parties shall discuss which Party will file a patent application (including any provisional, substitution, divisional, continuation, continuation in part, reissue, renewal, reexamination, extension, supplementary protection certificate and the like) in respect of any Jointly Owned Invention (each, a "**Joint Patent Application**") and whether the Parties wish to appoint joint patent counsel. In any event, the Parties shall consult and reasonably cooperate with one another in the preparation, filing, prosecution (including prosecution strategy) and maintenance of such patent application and shall equally share the expenses associated with the Joint Patent Applications.

10.1.3 Except as expressly provided in Section 10.1.2, each Party agrees to make no patent application based on the other Party's Confidential Information, and to give no assistance to any Third Party for such application, without the other Party's prior written authorization.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

10.1.4 Advaxis shall have the first right to initiate legal action to enforce all Joint Patents against infringement or misappropriation by any Third Party that is marketing, or seeking to market, a compound in the same class as the Advaxis Compound, or to defend any declaratory judgment action relating thereto, at its sole expense. In the event that Advaxis fails to initiate or defend such action within thirty (30) days after being first notified of such infringement, Merck shall have the right to do so at its sole expense. Similarly, Merck shall have the first right to initiate legal action to enforce all Joint Patents against infringement or misappropriation by any Third Party that is marketing, or seeking to market, a compound in the same class as the Merck Compound, or to defend any declaratory judgment action relating thereto, at its sole expense. In the event that Merck fails to initiate or defend such action within thirty (30) days after being first notified of such infringement, Advaxis shall have the right to do so at its sole expense.

10.1.5 If one Party brings any prosecution or enforcement action or proceeding against a Third Party with respect to any Joint Patent, the second Party agrees to be joined as a party plaintiff where necessary and to give the first Party reasonable assistance and authority to file and prosecute the suit. The costs and expenses of the Party bringing suit under this Section 10.1.5 shall be borne by such Party, and any damages or other monetary awards recovered shall be shared as follows: (i) the amount of such recovery actually received by the Party controlling such action shall be first applied to the out-of-pocket costs of each Party in connection with such action; and then (ii) any remaining proceeds shall be divided evenly between Advaxis and Merck. A settlement or consent judgment or other voluntary final disposition of a suit under this Section 10.1.5 may not be entered into without the consent of the Party not bringing the suit.

10.2 *Inventions Owned by Advaxis.* Notwithstanding Section 10.1, the Parties agree that all rights to Inventions relating solely to the Advaxis Compound, or a Live Attenuated Bacterial Vaccine, are the exclusive property of Advaxis. Advaxis shall be entitled to file in its own name relevant patent applications and to own resultant patent rights for any such Invention. For the avoidance of doubt, any Invention generically encompassing the Advaxis Compound (and not the Merck Compound) within its scope, even where the Advaxis Compound is not disclosed *per se*, is the exclusive property of Advaxis.

10.3 *Inventions Owned by Merck.* Notwithstanding Section 10.1, the Parties agree that all rights to Inventions relating solely to the Merck Compound, or a PD-1 Antagonist, are the exclusive property of Merck. Merck shall be entitled to file in its own name relevant patent applications and to own resultant patent rights for any such Invention. For the avoidance of doubt, any Invention generically encompassing the Merck Compound (and not the Advaxis Compound) within its scope, even where the Merck Compound is not disclosed *per se*, is the exclusive property of Merck.

10.4 *Mutual Freedom to Operate for Combination Inventions*.

(i) Advaxis hereby grants to Merck a perpetual, irrevocable, non-exclusive, worldwide, royalty-free, fully paid-up license, transferable and sublicensable, to any patent owned or controlled by Advaxis which (a) has a priority claim that is earlier than the initiation of the Study (*i.e.*, first dosing of the first patient in the Study) and (b) claims the Combination, in order to practice such Combination for all purposes.

(ii) Merck hereby grants to Advaxis a perpetual, irrevocable, non-exclusive, worldwide, royalty-free, fully paid-up license, transferable and sublicensable, to any patent owned or controlled by Merck which (a) has a priority claim that is earlier than the initiation of the Study (*i.e.*, first dosing of the first patient in the Study) and (b) claims the Combination, in order to practice such Combination for all purposes.

(iii) For clarity, the terms of this Section 10.4 do not provide Merck or Advaxis with any rights, title or interest or any license to the other Party's background intellectual property which does not claim the Combination (*i.e.*, intellectual property owned or licensed by either Party which does not constitute an Invention and does not claim the Combination) except as necessary to conduct the Study.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

11. Reprints; Rights of Cross-Reference.

Consistent with applicable copyright and other laws, each Party may use, refer to, and disseminate reprints of scientific, medical and other published articles and materials from journals, conferences and/or symposia relating to the Collaboration Program, which disclose the name of a Party, provided such use does not constitute an endorsement of any commercial product or service by the other Party.

12. Publications.

12.1 On August 25, 2014 prior to the opening of the New York Stock Exchange, Advaxis will issue a press release in a form mutually agreed by the Parties.

12.2 Advaxis will register the Study with the Clinical Trials Registry located at www.clinicaltrials.gov and is committed to timely publication of the results following Study Completion, after taking appropriate action to secure Intellectual Property Rights (if any) arising from the Study. The publication of the results of the Study will be in accordance with the Protocol. Merck agrees not to publish the results of any Study involving the Advaxis Compound prior to the timely publication of the Study results by Advaxis.

12.3 Advaxis shall use reasonable efforts to publish or present scientific papers dealing with the Collaboration Program in accordance with accepted scientific practice.

12.4 The Parties agree that prior to submission of the results of the Collaboration Program for publication or presentation or any other dissemination of results including oral dissemination, the publishing Party shall invite the other to comment on the content of the material to be published or presented according to the following procedure:

(i) At least forty-five (45) days prior to submission for publication of any paper, letter or any other publication, or thirty (30) days prior to submission for presentation of any abstract, poster, talk or any other presentation, the publishing Party shall provide to the other Party the full details of the proposed publication or presentation in an electronic version (cd-rom or email attachment). Upon written request from the other Party, the publishing Party agrees not to submit data for publication/presentation for an additional ninety (90) days in order to allow for actions to be taken to preserve rights for patent protection.

(ii) The publishing Party shall give reasonable consideration to any request by the other Party made within the periods mentioned in clause (i) above to modify the publication.

(iii) The publishing Party shall remove all Confidential Information of the other Party before finalizing the publication.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

12.5 Each Party agrees to identify the other Party and acknowledge its support in any press release and any other publication or presentation of the results of the Study.

13. Representations and Warranties; Disclaimers.

13.1 Each of Advaxis and Merck represents and warrants to the other that it has the full right and authority to enter into this Agreement.

13.2 Advaxis does not undertake that the Study shall lead to any particular result, nor is the success of the Study guaranteed. Neither Party accepts any responsibility for any use that the other Party may make of the Collaboration Data nor for advice or information given in connection therewith.

13.3 *Anti-Corruption*

13.3.1 In performing their respective obligations hereunder, the Parties acknowledge that the corporate policies of Advaxis and Merck and their respective Affiliates require that each Party's business be conducted within the letter and spirit of the law. By signing this Agreement, each Party agrees to conduct the business contemplated herein in a manner which is consistent with all Applicable Law, including the U.S. Foreign Corrupt Practices Act, good business ethics, and its ethics and other corporate policies. In addition, Merck has provided Advaxis with a copy of its Ethical Business Practices policy (pages 9 & 10 of its Business Partner Code of Conduct), and Advaxis has provided Merck with a copy of its Code of Business Conduct and Ethics, and each Party agrees to abide by the spirit of the other Party's guidelines, which may be updated from time to time by written notice.

Specifically, each Party agrees that it has not, and covenants that it, its Affiliates, and its and its Affiliates' directors, employees, officers, and anyone acting on its behalf, will not, in connection with the performance of this Agreement, directly or indirectly, make, promise, authorize, ratify or offer to make, or take any action in furtherance of, any payment or transfer of anything of value for the purpose of influencing, inducing or rewarding any act, omission or decision to secure an improper advantage; or improperly assisting it in obtaining or retaining business for it or the other Party, or in any way with the purpose or effect of public or commercial bribery.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

13.3.2 Each Party shall not contact, or otherwise knowingly meet with, any Government Official for the purpose of discussing activities arising out of or in connection with this Agreement, without the prior written approval of the other Party, except where such meeting is consistent with the purpose and terms of this Agreement and in compliance with Applicable Law.

13.3.3 Each Party represents that: (i) it is authorized and has no impediment to enter into the transaction contemplated in this Agreement; and (ii) it is not excluded, debarred, suspended, proposed for suspension or debarment, or otherwise ineligible for government programs.

13.3.4 Each Party represents and warrants that except as disclosed to the other in writing prior to the commencement of this Agreement: (1) it does not have any interest which directly or indirectly conflicts with its proper and ethical performance of this Agreement; (2) it shall maintain arm's length relations with all Third Parties with which it deals with for or on behalf of the other in performance of this Agreement; and (3) it has provided complete and accurate information and documentation to the other Party, the other Party's Affiliates and its and their personnel in the course of the due diligence conducted by the other Party for this Agreement, including disclosure of any officers, employees, owners or persons directly or indirectly retained by such Party in relation to the performance of this Agreement who are Government Officials or relatives of Government Officials. Each Party shall make all further disclosures as necessary to the other Party to ensure the information provided remains complete and accurate throughout the term of this Agreement. Subject to the foregoing, each Party agrees that it shall not hire or retain any Government Official to assist in its performance of this Agreement, with the sole exception of conduct of or participation in clinical trials under this Agreement, provided that such hiring or retention shall be subject to the completion by the hiring or retaining Party of a satisfactory anti-corruption and bribery (*e.g.*, FCPA) due diligence review of such Government Official. Each Party further covenants that any future information and documentation submitted to the other Party as part of further due diligence or a certification shall be complete and accurate.

13.3.5 Each Party shall have the right during the term of this Agreement, and for a period of two (2) years following termination of this Agreement, to conduct an investigation and audit of the other Party's activities, books and records, to the extent they relate to that other Party's performance under this Agreement, to verify compliance with the terms of this Section 13.3. Such other Party shall cooperate fully with such investigation or audit, the scope, method, nature and duration of which shall be at the sole reasonable discretion of the Party requesting such audit.

13.3.6 Each Party shall ensure that all transactions under this Agreement are properly and accurately recorded in all material respects on its books and records and that each document upon which entries in such books and records are based is complete and accurate in all material respects. Each Party further represents, warrants and covenants that all books, records, invoices and other documents relating to payments and expenses under this Agreement are and shall be complete and accurate and reflect in reasonable detail the character and amount of transactions and expenditures. Each Party must maintain a system of internal accounting controls reasonably designed to ensure that no off-the-books or similar funds or accounts will be maintained or used in connection with this Agreement.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

13.3.7 Each Party agrees that in the event that the other Party believes in good faith that there has been a possible violation of the terms of this Agreement, such other Party may make full disclosure of such belief and related information at any time and for any reason to any competent government bodies and its agencies, and to whoever such Party determines in good faith has a legitimate need to know.

13.3.8 Each Party shall comply with its own ethical business practices policy and any Corporate Integrity Agreement to which it is subject, and shall conduct its Study-related activities in accordance with Applicable Law. Each Party agrees to ensure that all of its employees involved in performing its obligations under this Agreement are made specifically aware of the compliance requirements under this Section 13.3. In addition, each Party agrees to ensure that all such employees participate in and complete mandatory compliance training to be conducted by each Party, including specific training on anti-bribery and corruption, prior to his/her performance of any obligations or activities under this Agreement. Each Party further agrees to certify its continuing compliance with the requirements under this Section 13.3 on a periodic basis during the term of this Agreement in such form as may be reasonably specified by the other Party.

13.3.9 Each Party shall have the right to terminate this Agreement immediately upon any violation of this Section 13.3 or any breach of a representation or warranty contained herein by the other Party.

13.4 EXCEPT AS EXPRESSLY PROVIDED HEREIN, MERCK MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO THE MERCK COMPOUND, AND ADVAXIS MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO THE ADVAXIS COMPOUND.

14. Insurance; Indemnification; Limitation of Liability.

14.1 *Insurance*. Each Party warrants that it maintains a policy or program of insurance or self-insurance at levels sufficient to support the indemnification obligations assumed herein. Upon request, a Party shall provide evidence of such insurance.

14.2 *Indemnification*.

14.2.1 *Indemnification by Advaxis*. Advaxis agrees to defend, indemnify and hold harmless Merck, its Affiliates, and its and their employees, directors, subcontractors and agents from and against any loss, damage, reasonable costs and expenses (including reasonable attorneys' fees and expenses) incurred in connection with any claim, proceeding, or investigation by a Third Party arising out of this Agreement or the Collaboration Program (a "**Liability**"), except to the extent that such Liability was directly caused by (i) negligence or willful misconduct on the part of Merck (or any of its Affiliates, or its and their employees, directors, subcontractors or agents); (ii) a breach on the part of Merck of any of its representations and warranties or any other covenants or obligations of Merck under this Agreement; or (iii) a breach of Applicable Law by Merck.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

14.2.2 *Indemnification by Merck*. Merck agrees to defend, indemnify and hold harmless Advaxis, its Affiliates, and its and their employees, directors, subcontractors and agents from and against any Liability to the extent such Liability is directly caused by (i) negligence or willful misconduct on the part of Merck (or any of its Affiliates, or its and their employees, directors, subcontractors or agents); (ii) a breach on the part of Merck of any of its representations and warranties or any other covenants or obligations of Merck under this Agreement; or (iii) a breach of Applicable Law by Merck.

14.2.3 *Procedure*. The obligations of Merck and Advaxis under this Section 14.2 are conditioned upon the delivery of written notice to Merck or Advaxis, as the case might be, of any potential Liability within a reasonable time after the indemnified Party becomes aware of such potential Liability. The indemnifying Party will have the right to assume the defense of any suit or claim related to the Liability if it has assumed responsibility for the suit or claim in writing. The indemnified Party may participate in (but not control) the defense thereof at its sole cost and expense.

14.2.4 *Study Subjects*. Advaxis shall not offer compensation on behalf of Merck to any Study subject or bind Merck to any indemnification obligations in favor of any Study subject.

14.3 ***LIMITATION OF LIABILITY***. OTHER THAN WITH RESPECT TO THE OBLIGATIONS OF EACH PARTY UNDER SECTION 9.1, IN NO EVENT SHALL EITHER PARTY (OR ANY OF ITS AFFILIATES OR SUBCONTRACTORS) BE LIABLE TO THE OTHER PARTY FOR, NOR SHALL ANY INDEMNIFIED PARTY HAVE THE RIGHT TO RECOVER, ANY SPECIAL, INDIRECT, INCIDENTAL, PUNITIVE OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS OR DAMAGES FOR LOST OPPORTUNITIES), WHETHER IN CONTRACT, WARRANTY, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE, ARISING OUT OF (x) THE MANUFACTURE OR USE OF ANY COMPOUND SUPPLIED HEREUNDER OR (y) ANY BREACH OF OR FAILURE TO PERFORM ANY OF THE PROVISIONS OF THIS AGREEMENT OR ANY REPRESENTATION, WARRANTY OR COVENANT CONTAINED IN OR MADE PURSUANT TO THIS AGREEMENT, EXCEPT THAT SUCH LIMITATION SHALL NOT APPLY TO DAMAGES PAID OR PAYABLE TO A THIRD PARTY BY AN INDEMNIFIED PARTY FOR WHICH THE INDEMNIFIED PARTY IS ENTITLED TO INDEMNIFICATION HEREUNDER.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

15. Use of Name.

Except as otherwise provided herein, neither Party shall have any right, express or implied, to use in any manner the name or other designation of the other Party or any other trade name, trademark or logo of the other Party for any purpose in connection with the performance of this Agreement.

16. Force Majeure.

If in the performance of this Agreement, one of the Parties is prevented, hindered or delayed by reason of any cause beyond such Party's reasonable control (*e.g.*, war, riots, fire, strike, governmental laws), such Party shall be excused from performance to the extent that it is necessarily prevented, hindered or delayed ("**Force Majeure**"). The non-performing Party will notify the other Party of such Force Majeure within ten (10) days after such occurrence by giving written notice to the other Party stating the nature of the event, its anticipated duration, and any action being taken to avoid or minimize its effect. The suspension of performance will be of no greater scope and no longer duration than is necessary and the non-performing Party will use commercially reasonable efforts to remedy its inability to perform.

17. Entire Agreement; Modification.

The Parties agree to the full and complete performance of the mutual covenants contained in this Agreement. This Agreement, together with the Clinical Quality Agreement and the Pharmacovigilance Agreement, constitutes the sole, full and complete agreement by and between the Parties with respect to the subject matter of this Agreement, and all prior agreements, understandings, promises and representations, whether written or oral, with respect thereto are superseded by this Agreement. No amendments, changes, additions, deletions or modifications to or of this Agreement shall be valid unless reduced to writing and signed by the Parties hereto.

18. Assignment and Sub-Contracting.

Neither Party shall assign or transfer this Agreement without the prior written consent of the other Party; provided, however, that either Party may assign this Agreement to one or more of its Affiliates without the other Party's consent, and any and all rights and obligations of either Party may be exercised or performed by its Affiliates, provided that such Affiliates agree to be bound by this Agreement.

19. Invalid Provision.

If any provision of this Agreement is held to be illegal, invalid or unenforceable, the remaining provisions shall remain in full force and effect and will not be affected by the illegal, invalid or unenforceable provision. In lieu of the illegal, invalid or unenforceable provision, the Parties shall negotiate in good faith to agree upon a reasonable provision that is legal, valid and enforceable to carry out as nearly as practicable the original intention of the entire Agreement.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

20. No Additional Obligations.

Advaxis and Merck have no obligation to renew this Agreement or apply this Agreement to any clinical trial other than the Collaboration Program. Neither Party is under any obligation to enter into another type of agreement at this time or in the future.

21. Dispute Resolution and Jurisdiction.

21.1 The Parties shall attempt in good faith to settle all disputes arising out of or in connection with this Agreement in an amicable manner. Any claim, dispute or controversy arising out of or relating to this Agreement, including the breach, termination or validity hereof or thereof (each, a "**Dispute**"), shall be governed by and construed in accordance with the substantive laws of the State of New York, without giving effect to its choice of law principles.

21.2 Nothing contained in this Agreement shall deny either Party the right to seek injunctive or other equitable relief from a court of competent jurisdiction in the context of a bona fide emergency or prospective irreparable harm, and such an action may be filed or maintained notwithstanding any ongoing discussions between the Parties.

22. Notices.

All notices or other communications that are required or permitted hereunder shall be in writing and delivered personally, sent by facsimile (and promptly confirmed by personal delivery or overnight courier), or sent by internationally-recognized overnight courier addressed as follows:

If to Advaxis, to:

Advavis, Inc.
305 College Road East
Princeton, New Jersey 08540
Email: mayes@advaxis.com
Facsimile:
Attention: Gregory T. Mayes

With a copy for notice purposes only to:

Pearl Cohen
1500 Broadway, 12th Floor
New York, New York 10036
Email: mcohen@pearlcohen.com
Facsimile: 646 878 0801
Attention: Mark Cohen

If to Merck, to:

Merck Sharp & Dohme B.V.
Waarderweg 39
2031 BN Haarlem
The Netherlands
Attention: General Manager
Facsimile: +31 412 66 2559]

With a copy to:

Merck Sharp & Dohme Corp.
One Merck Drive
P.O. Box 100, WS3A-65
Whitehouse Station, NJ 08889-0100
Attention: Office of Secretary
Facsimile No.: (908) 735-1246

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

23. Relationship of the Parties.

The relationship between the Parties is and shall be that of independent contractors, and does not and shall not constitute a partnership, joint venture, agency or fiduciary relationship. Neither Party shall have the authority to make any statements, representations or commitments of any kind, or take any actions, which are binding on the other Party, except with the prior written consent of the other Party to do so. All persons employed by a Party will be the employees of such Party and not of the other Party and all costs and obligations incurred by reason of any such employment shall be for the account and expense of such Party.

24. Counterparts and Due Execution.

This Agreement and any amendment may be executed in two (2) or more counterparts (including by way of facsimile or electronic transmission), each of which shall be deemed an original, but all of which together shall constitute one and the same instrument, notwithstanding any electronic transmission, storage and printing of copies of this Agreement from computers or printers. When executed by the Parties, this Agreement shall constitute an original instrument, notwithstanding any electronic transmission, storage and printing of copies of this Agreement from computers or printers. For clarity, facsimile signatures and signatures transmitted via PDF shall be treated as original signatures.

25. Construction.

Except where the context otherwise requires, wherever used, the singular will include the plural, the plural the singular, the use of any gender will be applicable to all genders, and the word "or" is used in the inclusive sense (and/or). Whenever this Agreement refers to a number of days, unless otherwise specified, such number refers to calendar days. The captions of this Agreement are for convenience of reference only and in no way define, describe, extend or limit the scope or intent of this Agreement or the intent of any provision contained in this Agreement. The term "including" as used herein shall be deemed to be followed by the phrase "without limitation" or like expression. The term "will" as used herein means shall. References to "Article," "Section" or "Appendix" are references to the numbered sections of this Agreement and the appendices attached to this Agreement, unless expressly stated otherwise. Except where the context otherwise requires, references to this "Agreement" shall include the appendices attached to this Agreement. The language of this Agreement shall be deemed to be the language mutually chosen by the Parties and no rule of strict construction will be applied against either Party hereto.

Certain portions of this document have been marked "[C.I.]" to indicate that confidential treatment has been requested for such confidential information. The confidential portions have been omitted and submitted separately with the Securities and Exchange Commission.

IN WITNESS WHEREOF, the respective representatives of the Parties have executed this Agreement as of the Effective Date.

MANUFACTURING
SERVICES AGREEMENT

THIS AGREEMENT is entered into by and between IDT and ADVAXIS, as of the date indicated below.

Attached to this Agreement, incorporated by reference herein and made an integral part hereof are the following:

PART I: INTRODUCTORY STATEMENT, DEFINITIONS AND VARIABLE TERMS AND CONDITIONS

PART II: STANDARD TERMS AND CONDITIONS

PART III: EXHIBITS

For and in consideration of the mutual covenants herein contained, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by the Parties, the Parties hereto agree to perform and to be bound by their respective obligations and shall have the respective rights set forth in this Agreement.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of September 8, 2014.

PART I: INTRODUCTORY STATEMENT, DEFINITIONS AND VARIABLE TERMS AND CONDITIONS

This Agreement sets forth the understanding of the Parties with respect to ADVAXIS's project and describes the project-related Services to be performed by IDT pursuant to the Work Plan, and the ordering and payment procedures for such Services by ADVAXIS, as well as other matters, all as more specifically set forth in the terms and provisions of this Agreement.

ARTICLE 1: DEFINITIONS

1.1 **Definitions.** The following terms, whether used in the singular or plural, shall have the meanings assigned to them below for the purposes of this Agreement. Further definitions to be used in the performance of the Services, and between the Parties during their relationship hereunder, including but not limited to Exhibits, Work Packages and Manufacturing Specifications, are set forth in Exhibit F hereto.

1.1.1 "ADVAXIS" means Advaxis, Inc, and its permitted successors and assigns.

1.1.2 "ADVAXIS Arising IP" shall have the meaning set forth in Section 9.5.

1.1.3 "ADVAXIS Materials" shall mean the materials as set forth in Exhibit D hereto and information supplied by or on behalf of ADVAXIS to IDT for use in connection with the development of the Process and the development and Manufacture of Product.

1.1.4 "Affiliate" means any corporation, partnership, or other entity Controlling, Controlled by, or under common Control with (directly or indirectly) either Party.

1.1.5 "Agreement" means this Manufacturing Services Agreement including the signature page, Part I - Introductory Statement, Definitions and Variable Terms and Conditions, Part II - Standard Terms and Conditions; and Part III - Exhibits, and all amendments to this Agreement that have been properly executed by the Parties in accordance with the provisions of Section 6.1.4.

1.1.6 "Alliance Manager(s)" has the meaning set forth in Section 14.1.

1.1.7 "Amendment Procedures" has the meaning set forth in Section 6.1.

1.1.8 "Applicable Law" means: all United States of America, European Union, and German applicable laws, rules, regulations, guidelines and standards in effect during performance of this Agreement, including, without limitation, GMP, relating to the Services, the Product, and the facilities where any Services occur.

1.1.9 "Arising IP" shall have the meaning set forth in Section 9.5.

1.1.10 "Batch" means a lot resulting from a single run of Product Manufactured by a single execution of the manufacturing instructions specified in the Master Production Record.

1.1.11 "Business Day" means a day other than a Saturday or Sunday on which banking institutions in both, Dessau-Rosslau, Germany and Princeton, New Jersey, USA are open for business.

1.1.12 "Claim" means any claim, personal injury claim, demand, liability (including any and all liabilities, actions, proceedings, claims and demands), product liability claim, suits, expenses, action, proceeding, and all damages, losses, costs and expenses (including without limitation reasonable legal and other professional adviser's fees).

1.1.13 "CM Agreement" means the commercial manufacturing agreement to be negotiated and signed by the Parties in accordance with the provisions of Section 2.11.

1.1.14 "Confidential Information" shall have the meaning set forth in Section 8.1.

1.1.15 "Consent" means the consent or approval, in writing, of an authorized representative of a Party to do the act or thing for which such consent or approval is solicited, or the act of granting such written consent or approval, as the context may require, which consent or approval shall not be unreasonably withheld or delayed.

1.1.16 "Control" and its derivatives, "Controlling" and "Controlled", refer to the possession, directly or indirectly, of the power to direct, or cause the direction of, the management or policies of either Party, whether through the ownership of voting securities, by contract or otherwise, including, without limitation, the ownership of fifty percent (50%) or more of the voting stock of such Party.

1.1.17 "Defective Product" has the meaning set forth in Section 7.1.

1.1.18 "Deliverable" means the reports, data and other deliverables, including Products, to be delivered by IDT to ADVAXIS pursuant to the Work Packages.

1.1.19 "Delivery" has the meaning set forth in Section 3.1.

1.1.20 "Development Product" has the meaning set forth in Section 2.10.

1.1.21 "Drug Product" means vials containing the formulated vaccine, unlabeled and visually inspected. This definition of "Drug Product" includes, in addition to vials, any other presentation or primary container form of the vaccine for which ADVAXIS may seek Regulatory Approval.

1.1.22 "Drug Substance" means the unformulated vaccine contained, for example, in bags or other forms of primary containers.

1.1.23 "Effective Date" means the date set forth on the signature page of this Agreement.

1.1.24 "Equipment" has the meaning set forth in Section 2.7.1.

1.1.25 "Exhibits" mean those documents and materials attached to this Agreement as Exhibits in Part III hereof, incorporated in this Agreement by reference and made an integral part hereof.

1.1.26 "Final Drug Product" means any form of the vaccine, which can be sold to the final market, and which may comprise, among others, primary or secondary container or formulation forms or components, water-for-injection to reconstitute the vaccine, user information leaflet, blister packaging, paper box and country-specific packaging identification features.

1.1.27 "First Regulatory Approval Date" means the date on which the first Regulatory Approval is granted by any Regulatory Authority for the use, distribution or sale of any Product in the respective end market, for which such Regulatory Approval has been granted.

1.1.28 "cGMP" means (a) the current Good Manufacturing Practice regulations as promulgated by the EU Guidelines for Good Manufacturing Practice for medicinal products (Eudralex Vol. 4 and Annexes thereto), (b) any other relevant EU or national legislation and guidance documents, and (c) current Good Manufacturing Practice regulations promulgated by the FDA published at 21 CFR Part 210 et seq., as any such above regulation may be amended from time to time.

1.1.29 "IDT" means IDT Biologika GmbH and its permitted successors and assigns.

1.1.30 "IDT Production Facilities" means the Manufacturing facilities of IDT located in Dessau-RoBlau, Germany.

1.1.31 "Intellectual Property" includes, without limitation, rights in patents, patent applications, formulae, processes, data, know-how, trademarks, trademark applications, trade names, Inventions, copyrights, and industrial designs, or any rights in material derived from any of the foregoing.

1.1.32 "Invention" means any data, innovation, improvement, development, discovery, computer program, device, trade secret, method, know-how, process, technique or the like, whether or not written or otherwise fixed in any form or medium, regardless of the media on which it is contained and whether or not patentable or copyrightable, or any material derived from any of the foregoing.

1.1.33 "Licensee" shall mean any Third Party to which ADVAXIS granted rights and licenses in and to a Product for commercial use, sale or distribution, including but not limited to, licensees, partners or joint developers.

1.1.34 "Manufacture" and "Manufacturing" means all steps and activities necessary to produce the Product, including, without limitation, the manufacturing, processing, quality control, quality assurance, testing, release and storage of the Product in compliance with the terms and conditions of this Agreement. For purposes of this Agreement and subject to the provisions of Section 2.10, the aforesaid terms may be included, as required and agreed in writing by the Parties in such Services as are set forth in the Work Plan.

1.1.35 "Manufacturing Specifications" means those specifications as approved by the Parties in writing for (i) the Manufacturing of the Products or performance of Services relating to Manufacturing, and (ii) the quality control of the Product/s and of the required Starting Materials. Said Manufacturing Specifications are or will be set forth in documents relating to the performance of the respective Work Package. For the sake of clarity, the term "Manufacturing Specifications" includes specifications for Services other than Manufacturing.

1.1.36 "Master Production Record" means the IDT provided documentation that contains the detailed description of the Process and instructions for Product manufacture, as approved by ADVAXIS in writing and as set forth in the Work Plan and any applicable Work Package.

1.1.37 "Notice" means a writing containing the information required or permitted by this Agreement to be communicated by either Party to the other Party, sent by registered or certified mail, confirmed air courier or telefax to such Party at the address or telefax number set forth in Section 16.1, as the case may be; the date of registry thereof or the date of the certification or receipt thereof as evidenced by postal or air courier records or the date of personal delivery (or refusal thereof during normal business hours) or the date of telefax answer-back confirmation being the date of receipt of Notice, provided, however, that any such writing sent to, and received by, a Party shall constitute Notice for all purposes of this Agreement. Notwithstanding the foregoing, reports and communications related to technical aspects of the Services may be sent as electronic mail using appropriate tools to assure the confidentiality of such information. "Notify" means the act of giving a Notice.

1.1.38 "Party" means IDT or ADVAXIS as the context dictates and "Parties" means both IDT and ADVAXIS.

1.1.39 "Process" means the Manufacturing process for the Product as provided by ADVAXIS and further developed under this Agreement.

1.1.40 "Product" means the vaccines set forth in Exhibit G as amended from time to time, including any variation, presentation or form (i.e. all bulk drug substance, intermediate stage and final drug forms) of each such vaccine (i) for use worldwide in clinical trials, or (ii) for commercial use worldwide.

1.1.41 "Product Specifications for Development Use" means those specifications set forth in Attachment B to the Quality Agreement, or alternatively, as a part of Schedule 1 to any respective Work Package, specifically for Development Products to which said Work Package relates.

1.1.42 "Quality Agreement" means the Quality Assurance Framework Agreement, attached hereto as Exhibit B.

1.1.43 "Rejection Notice" has the meaning set forth in Section 7.1.

1.1.44 "Regulatory Approval" means (i) any and all approvals (including any applicable supplements, amendments, pre- and post-approvals), licenses, registrations, or authorizations of any Regulatory Authority necessary for the performance of any obligation of IDT or of ADVAXIS, as the case may be, under this Agreement and (ii) pursuant to application of ADVAXIS, any such Regulatory Approval for the use, sale or distribution of the Product in any market of the world.

1.1.45 "Regulatory Authority" means any national (such as the FDA), supra- national (such as the European Medicines Agency/EMA and World Health Organization/WHO), or other national, supra-national, regional, state, or local regulatory agency, department, bureau, commission, council, or other governmental entity with authority and/or jurisdiction over any aspect of Product, which among other matters may grant Regulatory Approval of the Product, including precertification by WHO.

1.1.46 "Service Fees" means the fees for Services and for all Products Delivered under this Agreement by IDT pursuant to each Work Package set forth as part of the Work Plan attached hereto as Exhibit A, and is synonymous with the term "Work Package Price".

1.1.47 "Services" means, generally, any Manufacturing and supply of Product to ADVAXIS, or other work to be performed by IDT specified under the Work Plan.

1.1.48 "Specifications" means those specifications for the Product as set forth in an appropriate attachment to the Quality Agreement, or alternatively, as a part of Schedule 1 to any respective Work Package as part of the Manufacturing Specifications.

1.1.49 "Starting Materials" means any equipment, process consumables, materials or other tangible property, either purchased by IDT or, if ADVAXIS Materials, provided by ADVAXIS free of charge, if any, to be used by IDT in the performance of any Work Package or Manufacture of Product. The term Starting Materials is used synonymously with the term Raw Materials.

1.1.50 "Term" has the meaning set forth in Section 13.1 of this Agreement.

1.1.51 "Third Party" means a person or entity other than IDT or ADVAXIS or their respective Affiliates.

1.1.52 "Work Plan" means the initial SOW (Scope of Work) attached hereto as Exhibit A including all additional Work Packages Consented to by the Parties under this Agreement as the same are firmly ordered by ADVAXIS, and are to be performed by IDT. Each Work Package may designate certain Products as "Development Products" that are subject to the provisions of Section 2.10. The term "Scope of Work (SOW)" is used synonymously with the term "Work Plan".

1.1.53 "Work Package" means the document, Consented to by the Parties, that contains the description of the work and Services as well as Deliverables of the Parties: With respect to IDT, for example, but not limited to, Product quantities and Manufacturing Instructions, Delivery date/s (i.e. release date/s), reports, data and any other documentation or work results as set forth by the Parties in said Work Package; and with respect to ADVAXIS, for example, but not limited to, materials, documentation and approvals to be provided and the respective timelines related thereto, payment terms and other relevant terms and conditions. Each such Work Package shall contain the following sections: (i) Title and Date; (ii) Scope, Summary of Deliverables of both ADVAXIS and IDT; (iii) Performance Timelines; (iv) Detailed Description of Deliverables by ADVAXIS; (v) Detailed Description of Services and Deliverables by IDT; (vi) Amendments to this Agreement as required under and solely intended for the performance of such Work Package, if any; (vii) Amendments to the Quality Agreement as required and solely intended for the performance of such Work Package, if any; (viii) Service Fees or prices, Invoicing, Payment as far as not governed by the prevailing provisions of this Agreement; and (ix) other terms and conditions.

1.1.54 "Work Package Value" means the aggregate Service Fees or prices, including up-charges, to be paid by ADVAXIS to IDT for Services to be performed by IDT under any Work Package.

1.2 **Interpretation.** The interpretation and construction of this Agreement shall be subject to the following provisions:

1.2.1 the words "including" and "include" and words of similar effect shall not be deemed to limit the general effect of the words which precede them such that "including" means "including without limitation";

1.2.2 where the context requires, (i) all pronouns used herein will be deemed to refer to the masculine, feminine or neuter gender as the context requires, and (ii) the singular context will include the plural and vice versa;

1.2.3 reference to any agreement, contract, document or deed shall be construed as a reference to it as varied, supplemented or amended;

1.2.4 words importing persons shall include firms, companies and bodies, authorities, corporate and vice versa; words importing the singular shall include the plural and vice versa; words importing any one gender shall include either other gender;

1.2.5 construction of this Agreement shall ignore the headings which are for reference only;

1.2.6 references to a numbered Article, Section, Exhibit or paragraph are references to the Article, Section, Exhibit or paragraph of or to this Agreement so numbered;

1.2.7 any reference to any legislative provision shall be deemed to include any subsequent re-enactment or amending provision; and

1.2.8 In the event of a conflict between the provisions of this Agreement and the Quality Agreement regarding any issue not related solely to a quality practice matter, the provisions of this Agreement shall take precedence. The provisions of the Quality Agreement will take precedence regarding any issue solely related to a quality practice matter. For the sake of clarity, if there is uncertainty as to whether the provisions of this Agreement or the provisions of the Quality Agreement prevail, any such uncertainty shall be resolved by giving precedence to the provisions in this Agreement.

1.2.9 Subject to the provisions of Section 1.2.8, in the event of a conflict between the provisions of this Agreement and the provision of any Exhibit, the provisions of this Agreement shall take precedence.

ARTICLE 2: PERFORMANCE OF SERVICES

2.1 **IDT General.** During the Term, IDT shall undertake the performance of the Services in accordance with the Work Plan and the terms and conditions of this Agreement and Applicable Law.

2.2 **Quality Agreement.** Subject to the provisions of Sections 1.2.8 and 2.10, the Quality Agreement attached hereto as Exhibit B shall govern all quality practice related matters pertaining to each Party's obligations under this Agreement.

2.3 **ADVAXIS General.** ADVAXIS shall pay the Service Fees as set forth in the Work Plan and its applicable Work Packages for the Services and perform its obligations in accordance with the Work Plan and the terms and conditions of this Agreement and Applicable Law.

2.4 **Work Plan.** The Parties have given their Consent to the Work Plan attached as Exhibit A. Said Work Plan and the respective Work Packages included as part thereof shall constitute a firm and binding order, and may only be amended in a writing signed by both Parties pursuant to the provisions of Section 6.1.4. Without prejudice to the definition of Work Package, a detailed description of all development work required by ADVAXIS, its Affiliates, licensees, permitted assigns and successors, to apply for and to successfully obtain marketing registrations for the Product worldwide shall be set forth in said Work Plan, including, without limitation, phase 3 consistency and validation Batches. The Parties may from time to time during the Term, amend the Work Plan by mutual agreement by adding Work Packages to the Work Plan. Each new Work Package added to the Work Plan shall be Consented to by the Parties and shall be in the form defined in Section 1.1.53.

2.5 **Manufacture Compliance.** Subject to the provisions of Section 2.10 relating to Development Product, all of the Manufacturing performed by IDT shall be in accordance with: (a) cGMP; (b) the applicable Specifications; (c) this Agreement; and (d) the Quality Agreement.

2.6 **Subcontracting.** IDT will Manufacture the Product at the IDT Production Facilities, and may not subcontract any performance of Services without ADVAXIS's prior Consent. In the event that, ADVAXIS Consents to any subcontractor, IDT shall (i) identify each subcontractor in writing in advance to ADVAXIS; (ii) require the subcontractor to agree in writing to comply with the applicable provisions of this Agreement and the Quality Agreement, which shall include written confidentiality obligations at least as stringent as those set forth in Article 8; (iii) be solely responsible for such subcontractor's performance of any part of the Services and any non-compliance by the subcontractor with the terms of this Agreement or the Quality Agreement; and (iv) ensure the rights of ADVAXIS to audit such subcontractors in accordance with this Agreement and the Quality Agreement.

2.7 **New Equipment.** ADVAXIS and IDT agree that it is not currently contemplated that any new capital equipment is required by IDT. In the event that, pursuant to the Work Plan, any new capital equipment is required by IDT in order to perform the Manufacture or the Services, both ADVAXIS and IDT will negotiate in good faith and mutually agree upon the terms for procurement of such equipment. For such new equipment procured, the following provisions shall apply:

2.7.1 The details and costs of said new capital equipment, including the purchase price of the equipment and ancillary costs relating to installation, qualification and start-up of said equipment, shall be listed in Exhibit C (hereinafter referred to as "Equipment").

2.7.2 ADVAXIS shall be the owner of said Equipment and reimburse IDT for the costs of said Equipment as further specified in Exhibit C within thirty (30) days of receipt of an invoice from IDT for said costs.

2.7.3 During such time period that said Equipment is the property of ADVAXIS, IDT shall maintain and repair said Equipment in accordance with said Equipment's maintenance schedule and IDT's standard equipment maintenance and repair procedures. IDT shall provide to ADVAXIS an estimate of the costs associated with the repair or maintenance of the Equipment and obtain ADVAXIS's Consent prior to incurring any Equipment-related expenses. ADVAXIS shall pay the reasonable costs of such maintenance and repair within thirty (30) days of receipt from IDT of an invoice for the same, any such invoice being issued by IDT to ADVAXIS not more often than quarter-annually.

2.7.4 At the expiration or termination of this Agreement, the items of said Equipment that are installed as part of an IDT production line shall be retained and be owned by IDT and IDT shall pay to ADVAXIS the depreciated book value of said items of Equipment, which payment shall be made within thirty (30) days after the expiration or termination of this Agreement. With respect to the items of Equipment that are not so installed at the expiration or termination of this Agreement in an IDT production line, the Parties shall mutually agree to either (a) ship to ADVAXIS, at ADVAXIS's expense, said items of Equipment; (b) dispose, at ADVAXIS's expense, of said items of Equipment, or (c) continue to retain the items of said Equipment as ADVAXIS property to be used for Manufacturing of the Product in commercial quantities under the CM Agreement, or (d) pay to ADVAXIS the depreciated book value of said items of Equipment and thereafter retain and own said items of Equipment, which payment shall be made within thirty (30) days after the date of the option notice referenced above.

2.8 **Facilities/Personnel.** At all times during the Term, IDT Production Facilities used in connection with Manufacturing under this Agreement shall comply with all Applicable Laws. IDT shall employ such competent personnel with sufficient knowledge and experience for the performance of Services and Manufacturing and as are required pursuant to the Work Plan or under Applicable Law.

2.9 **Audits.** ADVAXIS shall have the right, upon reasonable advance Notice and during IDT's normal business hours, to inspect the IDT Production Facilities including on-site audit of the facility which will cover those portions of the IDT Production Facilities used to Manufacture or to perform Services. ADVAXIS shall also have the right, and IDT shall ensure that ADVAXIS is permitted, to audit any/all ADVAXIS approved non-IDT laboratories and facilities utilized for the performance of any Services. Any work or corrective measures specific to ADVAXIS required to be undertaken by IDT as a consequence or result of such due diligence audits and quality assurance audits shall be covered by a proposal from IDT and acceptance by ADVAXIS set forth in a Work Package signed by the Parties

2.10 **Development Product.** Certain of the Products are designated in the Work Plan as "Development Products". Product resulting from Engineering Runs shall be considered as Development Product. Notwithstanding any other provision herein set forth, the following terms and conditions apply to Development Products:

2.10.1 The Parties acknowledge and agree that due to the nature of the Work Plan Deliverables relating to any Development Product, IDT cannot and does not guarantee or warrant, and shall provide no indemnity with respect to, any such Work Plan Deliverables or any such Development Product. Notwithstanding the foregoing, IDT warrants that any reports, comprised in the Work Plan Deliverables, will be materially accurate and complete and not misleading.

2.10.2 IDT's obligation in respect of its performance of any work or Services in connection with any Development Product is limited to performance of such work or Services in a diligent manner, with reasonable skill and care applying its professional standards and using its reasonable endeavors to meet the estimated timelines and goals set out in the applicable Work Packages.

2.10.3 cGMP shall not apply to the development, Manufacture, or Product Specifications for development use or any other aspect of any Development Product or to any Work Plan Deliverables relating thereto.

2.11 **Commercial Manufacturing Agreement.** Following the execution of this Agreement, the Parties shall enter into good faith negotiations regarding the terms and conditions of a commercial manufacturing agreement ("CM Agreement") and shall work to execute said CM Agreement by no later than **June** 30th, 2015. Neither Party shall have any liability if, despite their respective good faith efforts, the Parties do not reach an agreement regarding the CM Agreement.

2.12 **Capacity Reservation & Advance Payment**

2.12.1 Capacity Reservation. IDT shall reserve the necessary resources and capacities to perform the Services including, without limitation, meeting the respective Deliverables and timeline obligations as are set forth in the Work Plan as amended from time to time and in the individual Work Packages contained therein ordered by ADVAXIS, and pursuant to the provisions of this Agreement.

2.12.2 Advance Payment. In consideration of IDT's resource and capacity reservation commitment as set forth in Section 2.12.1, ADVAXIS shall pay the amounts set forth below to IDT pursuant to the following payment schedule:

2.12.3 For any additional Work Package ordered by ADVAXIS, ADVAXIS shall pay to IDT a fee equal to fifty per cent (50%) of said Work Package value as set forth in an invoice to be issued by IDT to ADVAXIS on the date the Parties Consent to such Work Package.

2.12.4 The balance of amounts of Service Fees due by ADVAXIS to IDT shall be paid in the manner and at the time set forth in the relevant Work Package if therein so provided, or if not provided in said Work Package, then as set forth in this Agreement.

2.12.5 In the event that this Agreement is terminated by ADVAXIS pursuant to Sections 13.2 or 13.4, IDT shall reimburse to ADVAXIS an amount equal to the Service Fees as paid by ADVAXIS upon orders as set forth in the Work Packages, minus the full value of the Services invoiced as well as to be invoiced to ADVAXIS for Deliverables completed by IDT prior to the date of said termination.

ARTICLE 3: DELIVERY, SHIPMENT AND STORAGE OF PRODUCT

3.1 **Delivery.** Delivery of each Deliverable shall occur upon completion thereof as is set forth in the applicable Work Package ("Delivery"). Risk of loss of and title to each Deliverable shall transfer from IDT to ADVAXIS on Delivery. Subject to the provisions of Section 2.12, on the date of Delivery, IDT shall submit an invoice to ADVAXIS for amounts then due pursuant to the Work Package and the provisions of this Agreement. Payment by ADVAXIS to IDT of said invoiced amounts shall be made pursuant to the provisions of Sections 5.2 through 5.4.

3.2 **Delays caused by IDT.** If, for reasons under its control, IDT will not be able to Deliver a Deliverable, as set forth in and being unchanged under the Work Plan, within two (2) weeks of the date set forth in the applicable Work Package, IDT shall Notify ADVAXIS in advance, in which event IDT and ADVAXIS, may reschedule Delivery as soon as possible with IDT making commercially reasonable efforts to expedite the relevant Work Package by providing a swing shift, weekend hours, additional personnel, etc. at no charge to ADVAXIS until the timeline is recovered.

3.3 **Shipment.** Upon written request from ADVAXIS, IDT shall ship the Product as specified in the Work Package and in connection therewith render such services and provide such assistance as are set forth by ADVAXIS or, as applicable, in accordance with the instructions for shipping and packaging specified in the applicable Work Package. Each such shipment shall be Ex Works (EXW) IDT Dessau-Rosslau (Incoterms 2010), unless otherwise agreed by the Parties. ADVAXIS shall reimburse or pay directly the price as offered by IDT and accepted by ADVAXIS for insurance, freight, and duties. A bill of lading will be furnished to ADVAXIS with respect to each shipment of Product. In no event shall IDT's liability arising in connection with any shipping services rendered by IDT for ADVAXIS under this Agreement exceed the fees paid by ADVAXIS for said shipping services.

3.4 **Storage.** IDT shall, at ADVAXIS's request, provide storage of Product at IDT for at least sixty (60) days after Delivery at no charge to ADVAXIS. Storage of Product longer than said time period shall be subject to IDT's standard storage fees as set forth in Exhibit D hereto, which ADVAXIS shall pay on a quarter- annual basis within thirty (30) days of receipt of IDT's invoice for such fees. IDT shall store the Products as set forth in the respective Specifications and sampling plans.

PART II: STANDARD TERMS AND CONDITIONS

ARTICLE 4: REGULATORY MATTERS

4.1 **ADVAXIS Responsibility.** Unless otherwise agreed in writing by the Parties, ADVAXIS shall be entitled to and have the sole right and responsibility for filing all documents with applicable Regulatory Authorities and taking any other actions that may be required or necessary in order to obtain Regulatory Approval from said Regulatory Authorities for the use of the Product in clinical trials or in order to obtain marketing authorization for the Product. IDT shall, upon request provide ADVAXIS with reasonable assistance and cooperation in connection with making such filings with Regulatory Authorities, to include authoring such parts of the filing as relate to IDT Production Facilities. IDT shall be responsible for all communications with any Regulatory Authority or other governmental authority or agency relating to maintaining facility licensure.

4.2 Within three (3) Business Days of any contact with, or after receipt of any communication from, a Regulatory Authority that relate to the Manufacture of the Product or that portion of the IDT Production Facility used to Manufacture the Product, each Party shall without undue delay forward to the other Party a copy or description of the same and shall confer with the other Party with respect to the best means to comply with any new or modified requirements of such Regulatory Authority. IDT shall provide ADVAXIS with a copy of all draft responses for comment as soon as possible, but within the proscribed timelines from the Regulatory Authority, and shall consider ADVAXIS's comments in good faith. ADVAXIS shall submit any comments on said draft responses within five (5) Business Days or within such longer period of time as agreed by the Parties. IDT shall also provide ADVAXIS with a copy of all final responses for review and approval, which shall not be unreasonably withheld or delayed, at least five (5) Business Days prior to submission thereof, but no longer than the proscribed timelines from the Regulatory Authority.

4.3. IDT will Notify ADVAXIS of each Batch quality investigation following and resulting from a deviation resulting from the Manufacture of Product and will provide ADVAXIS with access to details of said investigation as more specifically set forth in the Quality Agreement.

4.4 **Documents.** IDT shall maintain records of documents, information, data and materials used or generated in performance of the Manufacture in a professional manner so as to permit ADVAXIS to review such records in accordance with this Section 4.4 without disclosing to ADVAXIS any Third Party Confidential Information. Designated representatives of ADVAXIS shall, at a mutually agreeable time not more often than once per calendar year, except "for cause" e.g. critical deviations, negative regulatory inspections and upon reasonable Notice to IDT, have access to and shall be permitted to review all such records during the term of this Agreement and during the applicable retention period specified in Section 4.5. Upon ADVAXIS's request, IDT will provide to ADVAXIS an inventory of records and record types pertaining to any Work Package or Services, and upon request, a copy of any and all such records at ADVAXIS's expense.

4.5 **Document Retention.** Subject to the provisions of Article 8, IDT may retain in its possession copies of any and all data, documents or information related to the performance of this Agreement solely as required for regulatory, legal or insurance purposes. Except as expressly set forth in any SOWs, IDT shall maintain:

a. all such records that relate in any way to the Product until the latter of (i) five (5) years after completion of the Work Package and (ii) expiration of the minimum retention period required by applicable laws, rules and regulations; and

b. all other records relating to the Services under any Work Package until the latter of (i) five (5) years after completion of such Work Package; and (ii) expiration of the minimum retention period required by laws, rules, and regulations.

IDT shall not destroy any such records without ADVAXIS's prior Consent. At ADVAXIS's written request, IDT shall continue to maintain any such records beyond the applicable period specified above, or alternatively, shall transfer such records to ADVAXIS or its designee, at ADVAXIS's expense.

4.6 **Regulatory Inspections.** IDT will permit Regulatory Authorities to conduct inspections relating to the Services and will cooperate fully in connection with such inspections. IDT shall Notify ADVAXIS within three (3) Business Days of receipt from any Regulatory Authority of any notice of inspection which specifically includes (a) the Products or Services (e.g. pre-approval inspection); (b) IDT Production Facilities where the Products are being Manufactured; (c) any warehouse or distribution center where the Products are stored; or (d) any other facility handling testing, regulatory and development activities, product complaints or other administrative activities directly related to the Products. IDT shall allow ADVAXIS, to the extent practicable, to participate in or observe such inspections if ADVAXIS so chooses, and shall provide ADVAXIS with copies of all correspondence, reports, results, findings and other material pertinent to such inspections (including all Form-FDA 483s), whether oral or written, without undue delay (but in any event within five (5) Business Days) after they are received, or produced, by or on behalf of IDT from or to the FDA or any Regulatory Authority in accordance with the Quality Agreement; provided, however, IDT reserves the right to redact correspondence, reports, results, findings and other material with respect to other IDT products and/or proprietary information. For all other regulatory inspections relating specifically to the Product or Services, e.g. routine GMP inspections, IDT will Notify ADVAXIS of the results of the inspection.

ARTICLE 5: FEES AND PAYMENT

5.1 **General.** Subject to the provisions of Section 2.12 and 3.1 ADVAXIS agrees to pay to IDT the respective Service Fees/Work Package Value in the amounts and in accordance with the provisions (i) as set forth in the applicable Work Package; (ii) if not set forth in said Work Package, then as set forth herein below. Each such invoice for such Service Fees shall reference this Agreement. In case a Work Package does not provide for specific details on payments to be made, then ADVAXIS shall pay any remaining balance of Service Fees due and not paid earlier, upon IDT's respective invoice after the last Delivery under such Work Package.

5.2 **VAT and Taxes**. The Service Fees/Work Package prices and other amounts to be paid by ADVAXIS do not include VAT or other taxes to be paid by ADVAXIS, if any. Notwithstanding the foregoing, IDT agrees that it is responsible for compliance with German federal, state and local tax requirements relating to payments made by ADVAXIS to IDT under this Agreement.

5.3 **Payment Time.** Subject to the provisions of Section 2.12, payment of all invoices issued by IDT to ADVAXIS shall be made by ADVAXIS to IDT by bank wire transfer to IDT's bank account within thirty (30) days following the date of ADVAXIS's receipt of each invoice from IDT. ADVAXIS shall be entitled to a two per cent (2%) discount on all Services Fees/Work Package Prices paid effectively to IDT's bank account within fourteen (14) days following the date of ADVAXIS' receipt of such invoice from IDT.

5.4 **Late Payment Fee.** ADVAXIS shall have the right to withhold payment of the portion of any invoice that is disputed in good faith until such dispute has been resolved. IDT may charge a late fee equal to the current base rate established by the German Federal Bank plus eight per cent (8%) annually calculated on a daily basis, on all undisputed amounts past due under any invoice issued by IDT to ADVAXIS under this Agreement.

ARTICLE 6: AMENDMENTS TO THIS AGREEMENT

6.1 **Amendments.** Set forth in this Article 6 are the procedures to be followed by the Parties in connection with amendments to this Agreement and to its Exhibits, including, without limitation, the Work Packages ("Amendment Procedures"), except as may be expressly provided otherwise in this Agreement. For the sake of clarity, any provisions set forth in other Sections of this Agreement that modify or amend the Amendment Procedures shall prevail.

6.1.1 The Party desiring an amendment shall send to the other Party a Notice containing an amendment proposal describing in reasonable detail said amendment and the reasons for it and including supporting documentation if appropriate or necessary to understand said amendment ("Amendment Proposal"). Each Amendment Proposal shall comply with any specific provisions that may be set forth in the Section of this Agreement under which the Amendment Proposal arises.

6.1.2 The Party receiving said Amendment Proposal shall respond to it with a Notice within thirty (30) calendar days from the date of receipt or within such longer period of time as the Parties mutually agree ("Proposal Response"). Said Proposal Response shall either accept the Amendment Proposal or set forth suggestions for changes desired by said receiving Party or reject the Amendment Proposal, provided, however, that no rejection shall occur unless the receiving Party has carefully considered the Amendment Proposal and discussed it with the offering Party.

6.1.3 Each receiving Party will use commercially reasonable efforts to comply with the request of the offering Party to make the amendment set forth in the Amendment Proposal received from said offering Party. Both Parties will negotiate the terms of any such Amendment Proposal in good faith.

6.1.4 All amendments, including without limitation any amendment to the provisions of this Section 6.1, shall be in writing and signed by both Parties to be valid.

6.2 **Quality Matters.** Notwithstanding the provisions set forth in Section 6.1 above, amendments to the Quality Agreement relating to quality assurance or quality control shall be made in accordance with the applicable change control provisions set forth in the Quality Agreement.

ARTICLE 7: NON-CONFORMING PRODUCTS AND SERVICES

7.1 **Defective Product.** Subject to the provisions of Section 2.10, any Product produced by IDT under this Agreement that does not comply with Section 2.5 at the time of Delivery of such Product ("Defective Product") may be rejected by ADVAXIS pursuant to a Notice sent by ADVAXIS to IDT ("Rejection Notice") within thirty (30) days after ADVAXIS's receipt of the alleged Defective Product and a copy of all such Batch documentation that is required to be submitted by ADVAXIS under the applicable Work Package, provided, however, that if the defects are not evident immediately to ADVAXIS at the time of Delivery, such Notice by ADVAXIS to IDT shall be made no later than fifteen (15) Business Days after said discovery by ADVAXIS.

7.2 **Evaluation Report.** The Rejection Notice shall be accompanied by a sample of the alleged Defective Product, if feasible. Within thirty (30) days after receipt of the Rejection Notice, IDT shall undertake an evaluation of the Defective Product and give to ADVAXIS a written report of the results of such evaluation. In the event that the Parties disagree upon whether or not any Product is a Defective Product, such disagreement shall be resolved as set forth in Section 7.5 of this Agreement.

7.3 **Defects Caused by IDT.** If Product is determined to be a Defective Product solely caused by IDT, including, without limitation, as a result of Starting Materials provided to IDT by its suppliers for whom IDT is responsible under the applicable provisions of the Quality Agreement, then IDT shall Manufacture and Deliver, at IDT's expense, to ADVAXIS, as soon as commercially reasonable replacement of said Defective Product in accordance with an amended production plan reasonably agreed to in writing by the Parties (and, to the extent commercially reasonable, prior to the time ADVAXIS is obligated to deliver the Product to its customer). If the Defective Product had already been shipped to ADVAXIS or to a Third Party designated by ADVAXIS, the replacement of such Defective Product will be shipped at IDT's expense. If ADVAXIS has paid for such Defective Product, IDT shall issue to ADVAXIS a refund or credit, at ADVAXIS's option, in the amount of the Service Fees so paid by ADVAXIS. IDT shall be entitled to invoice ADVAXIS for the Service Fees of the replacement Product, provided that (i) ADVAXIS has received a refund for the Defective Product, and (ii) the Service Fees of the replacement Product shall not exceed the Service Fees that had been invoiced by IDT for the Defective Product, and ADVAXIS shall pay said invoice within thirty (30) days of receipt thereof. ADVAXIS shall supply IDT, at ADVAXIS' expense, any ADVAXIS Material necessary for IDT to Manufacture and Deliver the replacement Product.

7.4 **Defects Caused** by ADVAXIS. If Product is rejected by ADVAXIS and is determined to be Defective Product solely caused by ADVAXIS, including without limitation, any Product being defective due to ADVAXIS's provision of incomplete or inaccurate Specifications or due to improper handling of Product by ADVAXIS, by any Affiliate of ADVAXIS or by any Third Party or due to any defect in ADVAXIS Materials used in such Manufacture of Product, being used by IDT in the performance of the Manufacturing IDT shall Manufacture and Deliver to ADVAXIS, as soon as commercially reasonable, replacement Product in accordance with an amended production plan reasonably agreed to by the Parties (and, to the extent possible, prior to the time ADVAXIS is obligated to deliver the Product to its customer). ADVAXIS shall be required to pay the Service Fees of the Product determined to be Defective Product caused solely by ADVAXIS and the Service Fees of the replacement Product. ADVAXIS shall supply IDT, free of charge, any ADVAXIS Material necessary for IDT to Manufacture and Deliver the replacement Product.

7.5 **Expert.** If the Parties cannot agree as to whether Product is Defective Product within thirty (30) days after delivery of the aforesaid IDT evaluation report to ADVAXIS, the Parties shall submit the relevant materials to a mutually agreed upon independent testing laboratory or other appropriate expert acceptable to the Parties ("Expert") for evaluation. The Parties shall cooperate fully and without undue delay with the Expert's reasonable requests for assistance or information in connection with its evaluation hereunder. Within thirty (30) days thereafter, the Expert shall determine whether the Products are Defective Products and, if possible, the cause of the defect as soon as reasonably possible. The findings of the Expert shall be final, binding and determinative on the Parties, absent manifest error. In the event the Parties fail to agree on the choice of the Expert, the International Chamber of Commerce in Zurich shall be asked to select an appropriate Expert, and the decision of the ICC will be binding on the Parties. In the event the Expert is unable to determine the cause of the defect, the matter shall be treated as a dispute and may be referred by either Party for resolution pursuant to the provisions of Article 15.

7.6 **Expenses of Expert**. The expenses of the Expert(s) shall be borne by IDT if the Expert(s) determines that the defect in the Product was caused by IDT. If the Expert(s) determines that ADVAXIS caused the defect in the Product, ADVAXIS shall pay for the expenses of the Expert(s). If the Expert is unable to determine the cause of the defect, the Parties shall split the expenses of the Expert(s).

7.7 **Defect Resolution.** Both Parties shall employ commercially reasonable efforts to resolve any issues or disputes associated with a Defective Product.

7.8 **Sole Remedy for Defective Product.** Without limiting the indemnity obligations under Article 11, the remedies for Defective Product caused by IDT pursuant to this Article 7 shall be the sole and exclusive remedies for the replacement of nonconforming Product available to ADVAXIS, to any Affiliate of ADVAXIS or to any Third Party.

7.9 **Recall.** Each Party shall give Notice to the other Party immediately upon learning of any event that would be expected to give rise to a recall of Product or other corrective measure related to the Product. ADVAXIS shall be responsible for all such recalls and actions, provided that IDT shall fully cooperate in the same. All costs of a Product recall or other corrective measure related to the Product shall be the sole responsibility of ADVAXIS except to the extent such recall is due to Defective Product caused by IDT under the provisions of Section 7.3 above, in which event IDT shall also be liable for the direct costs of said recall. Direct costs under this Section 7.9 shall mean and are limited to costs of transport, destruction of Defective Product, travel and communication services for the handling of the recall and corrective measures. Product recalls shall be handled in accordance with the provisions addressing recalls as set forth in the Quality Agreement.

ARTICLE 8: CONFIDENTIALITY AND NON-USE

8.1 **Defined.** As used in this Agreement, the term "Confidential Information" shall mean all information disclosed in writing or by oral communications by either Party to the other Party under this Agreement including any information relating to the Product, the Manufacturing Specifications, formulations and compositions; scientific know-how; chemical compound, biological material and composition data; Manufacturing processes; analytical methodology; Product applications including safety and efficacy data; current and future Product and marketing plans and projections; and other information of a technical or economic nature related to the Product, the Manufacture of the Product and the matters set forth in any Work Plan. The existence and content of this Agreement shall also be considered Confidential Information of both Parties.

8.2 **Limited Disclosure.** All Confidential Information disclosed hereunder shall remain the property of the disclosing Party and shall be maintained in confidence and not disclosed by the receiving Party to any person except to officers, employees, and consultants to whom it is necessary to disclose the information for the purpose specified above. Each Party shall take all steps it would normally take to protect its own Confidential Information to ensure that the received Confidential Information shall be maintained in confidence and not disclosed, but not less than reasonable care.

8.3 **Use.** Unless otherwise agreed in writing, all Confidential Information disclosed hereunder shall be used by that Party only to fulfill its obligations under this Agreement.

8.4 **Exceptions.** The obligations of the Parties under this Article 8 shall not apply to:

8.4.1 Information which, at the time of disclosure, is in the public domain or thereafter comes into the public domain other than as a result of breach of this Agreement; or

8.4.2 Information which the receiving Party can establish by contemporaneous written evidence was in its possession at the time of disclosure by the disclosing Party; or

8.4.3 Information which was received by the receiving Party from an Affiliate or from a Third Party not under an obligation of confidentiality towards the disclosing Party; or

8.4.4 Information which the receiving Party can establish by contemporaneous written evidence was independently developed without use or reference to Confidential Information received hereunder.

8.5 **Mandatory Disclosure.** Notwithstanding the limitations above, each Party may disclose Confidential Information belonging to the other Party to the extent such disclosure is required by mandatory legal provisions, provided, however, in the event a Party is required to make a disclosure of the other Party's Confidential Information pursuant to this Section 8.5, it will give reasonable advance Notice to the other Party of such disclosure obligation with sufficient time for such other Party to seek a protective order and will endeavor in good faith to limit the extent of such disclosure and to to cooperate with the other Party's attempt to obtain such protective order or confidential treatment.

8.6 **Return.** Upon termination of this Agreement, each Party agrees to return to the other Party or destroy, at such other Party's election, all written or other physical embodiments of the other Party's Confidential Information, except for one (1) copy, which may be retained in a confidential manner exclusively for legal archival purposes. The obligations under this Article 8 shall be binding on any Affiliate, successor or assignee of IDT or ADVAXIS as if it was a Party to the Agreement.

8.7 **Duration.** The obligations of confidentiality and non-use of the Confidential Information under this Agreement shall continue throughout the Term of this Agreement and shall survive the termination or expiration of this Agreement for ten (10) years.

ARTICLE 9: INTELLECTUAL PROPERTY RIGHTS

9.1 **Ownership.** All Intellectual Property owned or controlled by IDT which relates to IDT's business and not to the Products or any of ADVAXIS's Intellectual Property shall remain the property of IDT. All Intellectual Property owned or controlled by ADVAXIS shall remain the property of ADVAXIS. For the sake of clarity, the Process and the Master Production Record are hereby the sole and exclusive property of ADVAXIS.

9.2 **License** to **IDT.** ADVAXIS grants to IDT a non-exclusive, royalty-free, license to use such of ADVAXIS's Intellectual Property that ADVAXIS provides to IDT to perform the Services under this Agreement. The duration of said license shall be for the Term of this Agreement. In no event shall IDT be permitted to use ADVAXIS's Intellectual Property for any other purpose or for any other customer of IDT without the prior Consent of ADVAXIS.

9.3 **IDT Intellectual Property and Third Party Intellectual Property.** IDT shall not incorporate any of its IDT Intellectual Property or Third Party Intellectual Property into the Process or Master Production Record without the prior Consent of ADVAXIS.

9.4 **IDT's Proprietary Intellectual Property.** IDT hereby agrees to use such of IDT's Intellectual Property as is required in order to perform the Services under this Agreement. Said use shall be on a non-exclusive, royalty-free basis and only for the Term of this Agreement. IDT hereby grants to ADVAXIS an irrevocable, fully paid, non-exclusive worldwide license, with the right to grant and authorize sublicenses through multiple layers of sub-licensees, under any and all IDT Intellectual Property including without limitation any Arising IP that IDT incorporates pursuant to this Agreement and with the prior Consent of ADVAXIS into the Master Production Record or into the Specifications, to make, have made, use, have used, sell, offer for sale, have sold, import, have imported, export, have exported, develop, have developed, commercialize, and have commercialized any product.

9.5 **Inventions.** Any Intellectual Property that shall be created or conceived by IDT as a result of, or be derived from, the performance of the Services under this Agreement that is not ADVAXIS Arising IP and to the extent that it relates solely to any IDT Manufacturing processes of general applicability or to any other IDT Intellectual Property or IDT's Confidential Information, which can be used without reference to the Products or ADVAXIS Confidential Information shall be owned by and be the sole and exclusive property of IDT ("Arising IP"). Any Arising IP relating to the Product or relating to, based on, or incorporating any other ADVAXIS Intellectual Property or ADVAXIS Confidential Information is hereby the sole and exclusive property of ADVAXIS ("ADVAXIS Arising IP").

9.6 **Other Acts.** Each Party shall undertake all necessary or appropriate acts, including without limitation signing assignment, divisionalization or other documents to give effect to the provisions of this Article 9. IDT covenants to take all reasonable actions necessary to obtain all right, title and interest in and to any and all Inventions related to this Agreement that are conceived or reduced to practice by any of its employees or contractors including negotiation of any necessary agreement and payment of all amounts advisable or required under Applicable Law.

ARTICLE 10: WARRANTIES

10.1 **IDT warrants that:**

10.1.1 IDT has the power, authority and legal right to enter into this Agreement and to perform its obligations hereunder. This Agreement has been duly executed and delivered on behalf of IDT, and constitutes a legal, valid, binding obligation, enforceable against IDT in accordance with its terms.

10.1.2 All necessary licenses, permits, consents, approvals and authorizations of all Regulatory Authorities required to be obtained by IDT in connection with this Agreement have been obtained or will be obtained as required prior to undertaking the Services. IDT shall adhere to all Applicable Laws in the performance of the Services

10.1.3 The Intellectual Property, if any, utilized by IDT, in connection with the performance of the Services to the knowledge of IDT, (i) may be lawfully used in connection therewith, and (ii) such use does not knowingly infringe any Third Party rights.

10.1.4 IDT has the necessary facilities, equipment, know-how and personnel to carry out the Services in accordance with this Agreement.

10.1.5 Subject to the provisions of Section 2.10, any Product Manufactured by IDT pursuant to this Agreement other than Development Product, at the time of Delivery conforms to the requirements of Section 2.5.

10.1.7 Neither IDT nor any of its officers, directors, agents, Affiliates, employees or subcontractors rendering services under this Agreement has been or is currently under investigation by the FDA for debarment action; or was or is presently debarred pursuant to Section 306 of the United States Food Drug and Cosmetic Act. In addition, IDT represents and warrants (i) that it has not been convicted of a crime related to health care; and (ii) that it is not listed by a federal agency as debarred, excluded or otherwise ineligible for participation in federally funded programs. IDT shall notify ADVAXIS immediately upon any inquiry or the commencement of any such investigation or proceeding or of any circumstance that would cause the foregoing statements under this Section 10.1.7 to become false or inaccurate.

10.2 **ADVAXIS warrants that:**

10.2.1 ADVAXIS has the power, authority and legal right to enter into the Agreement and to perform its obligations hereunder. This Agreement has been duly executed and delivered on behalf of ADVAXIS, and constitutes a legal, valid, binding obligation, enforceable against ADVAXIS in accordance with its terms.

10.2.2 All necessary licenses, permits, consents, approvals and authorizations of all Regulatory Authorities required to be obtained by ADVAXIS in connection with this Agreement have been obtained or will be obtained as required prior to undertaking Manufacturing. ADVAXIS shall adhere to all Applicable Laws.

10.2.3 The Intellectual Property provided by ADVAXIS, in connection with the Manufacturing to the knowledge of ADVAXIS, (i) may be lawfully used in connection with such Manufacture, and (ii) such use does not infringe any Third Party rights.

10.2.4 Neither ADVAXIX nor any of its officers, directors, agents, Affiliates, employees or subcontractors rendering services under this Agreement has been or is currently under investigation by the FDA for debarment action; or was or is presently debarred pursuant to Section 306 of the United States Food Drug and Cosmetic Act. In addition, ADVAXIS represents and warrants (i) that it has not been convicted of a crime related to health care; and (ii) that it is not listed by a federal agency as debarred, excluded or otherwise ineligible for participation in federally funded programs. ADVAXIS shall notify IDT immediately upon any inquiry or the commencement of any such investigation or proceeding or of any circumstance that would cause the foregoing statements under this Section 10.2. to become false or inaccurate.

THE REPRESENTATIONS AND WARRANTIES SET FORTH IN THIS ARTICLE 10 ABOVE AND ELSEWHERE IN THIS AGREEMENT ARE IN LIEU OF ALL OTHER REPRESENTATIONS AND WARRANTIES NOT EXPRESSLY SET FORTH HEREIN AND EACH PARTY HEREBY EXPRESSLY DISCLAIMS ANY AND ALL OTHER REPRESENTATIONS AND WARRANTIES OF ANY KIND, EXPRESSED OR IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR ANY PARTICULAR PURPOSE.

10.3 **LIMITATION OF LIABILITY.** With respect to any damages owed by a Party to the other Party or to any Affiliate of the other Party or to any Third Party resulting from a breach by said Party of its obligations under this Agreement, the following provisions shall apply:

10.3.1 **IN NO EVENT SHALL EITHER PARTY BE LIABLE FOR SPECIAL, INDIRECT (INCLUDING WITHOUT LIMITATION LOSS OF PROFIT), INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THIS AGREEMENT BASED ON CONTRACT, TORT OR ANY OTHER LEGAL THEORY WHETHER OR NOT THE OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGE HOWEVER CAUSED.**

10.3.2 **FOR ANY CLAIM BASED ON ANY LEGAL THEORY OTHER THAN ALLEGED GROSS NEGLIGENCE, IDT'S MAXIMUM DIRECT AND INDIRECT LIABILITY FOR ANY SINGLE CLAIM WHICH IS BEYOND AMOUNTS PAID BY ONE OR MORE OF IDT'S INSURERS AND WHICH IS BROUGHT UNDER THIS AGREEMENT BY ADVAXIS, BY ANY AFFILIATE OF ADVAXIS AND/OR BY ANY THIRD PARTY SHALL NOT EXCEED, DIRECTLY OR INDIRECTLY, AN AMOUNT WHICH EQUALS FIFTY PER CENT (50%) OF THE SERVICE FEES RECEIVED BY IDT FOR THE PERFORMANCE OF THE SERVICES UNDER THE WORK PACKAGE RELATED TO SUCH CLAIM, PROVIDED THAT IDT'S MAXIMUM AGGREGATE LIABILITY FOR ALL SUCH CLAIMS WHICH ARE BEYOND AMOUNTS PAID BY ONE OR MORE OF IDT'S INSURERS AND WHICH ARE BROUGHT UNDER THIS AGREEMENT BY ADVAXIS, BY ANY AFFILIATE OF ADVAXIS AND/OR BY ANY THIRD PARTY SHALL NOT EXCEED, DIRECTLY OR INDIRECTLY, AN AMOUNT WHICH EQUALS FIVE PER CENT (5%) OF THE AGGREGATE SERVICE FEES FOR THE PERFORMANCE OF THE SERVICES RECEIVED OR TO BE RECEIVED IN THE CALENDAR YEAR TO WHICH ANY SUCH CLAIM OR GROUP OF CLAIMS UNDER THIS SECTION 10.3.2 RELATES. THE DELIVERY DATE OF THE PRODUCT OR OTHER DELIVERABLE SHALL DETERMINE THE YEAR TO WHICH ANY RESPECTIVE CLAIM RELATES.**

10.3.3 **FOR ANY CLAIM BASED ON ALLEGED GROSS NEGLIGENCE, IDT'S MAXIMUM DIRECT AND INDIRECT LIABILITY FOR ANY SINGLE CLAIM WHICH IS BEYOND AMOUNTS PAID BY ONE OR MORE OF IDT'S INSURERS AND WHICH IS BROUGHT UNDER THIS AGREEMENT BY ADVAXIS, BY ANY AFFILIATE OF ADVAXIS AND/OR BY ANY THIRD PARTY SHALL NOT EXCEED, DIRECTLY OR INDIRECTLY, AN AMOUNT WHICH EQUALS ONE HUNDRED AND FIFTY PER CENT (150%) OF THE SERVICE FEES RECEIVED BY IDT FOR THE PERFORMANCE OF THE SERVICES UNDER THE WORK PACKAGE RELATED TO SUCH CLAIM, PROVIDED THAT IDT'S MAXIMUM AGGREGATE LIABILITY FOR ALL SUCH CLAIMS WHICH ARE BEYOND AMOUNTS PAID BY ONE OR MORE OF IDT'S INSURERS AND WHICH ARE BROUGHT UNDER THIS AGREEMENT BY ADVAXIS, BY ANY AFFILIATE OF ADVAXIS AND/OR BY ANY THIRD PARTY SHALL NOT EXCEED, DIRECTLY OR INDIRECTLY, AN AMOUNT WHICH EQUALS FIFTEEN PER CENT (15%) OF THE AGGREGATE SERVICE FEES FOR THE PERFORMANCE OF THE SERVICES RECEIVED OR TO BE RECEIVED BY IDT IN THE CALENDAR YEAR TO WHICH ANY SUCH CLAIM OR GROUP OF CLAIMS UNDER THIS SECTION 10.3.3 RELATES. THE DELIVERY DATE OF THE PRODUCT OR OTHER DELIVERABLE SHALL DETERMINE THE YEAR TO WHICH ANY RESPECTIVE CLAIM RELATES.**

10.3.4 **THE LIABILITY LIMITATION PROVISIONS SET FORTH IN SECTIONS 10.3.2 AND 10.3.3 SHALL NOT APPLY TO CLAIMS BASED ON ALLEGED WILLFUL MISCONDUCT BY IDT.**

10.3.5 **For avoidance of doubt, payments made by any insurance provider shall not be included among IDT's liability payments for purposes of determining whether the liability limitation herein has been reached, provided, however, that IDT shall not be liable for any part of any claim that is paid by insurance proceeds.**

10.3.6 Notwithstanding any other provision in this Agreement, for the sake of clarity, the Parties expressly agree that any liability limitation in this Agreement will not limit potential recovery from any insurer of IDT for losses covered by policies issued by such insurer which are incurred in connection with Claims. The scope and extent of liability for IDT's insurers shall be governed exclusively by the terms and limitations of the policies issued by such insurers.

10.3.5 **The Parties' respective liability shall be further limited as provided in Sections 12.3 and 12.4.**

10.3.6 **Except for Claims based on IDT's willful misconduct, ADVAXIS expressly agrees that ADVAXIS will be liable for, and indemnify IDT against, all Claims of ADVAXIS, of any Affiliate of ADVAXIS and of any Third Party not satisfied by IDT's insurance and/or by IDT's limited liability set forth in this Section 10.3 above.**

ARTICLE 11: INDEMNITY

11.1 **ADVAXIS's Indemnity.** ADVAXIS shall indemnify, defend and hold harmless IDT (except to the extent IDT is obligated to indemnify ADVAXIS as set forth below) from and against all Claims asserted by a Third Party to the extent arising out of:

11.1.1 the distribution, marketing, sale, and/or use of any Deliverable or any Product, including without limitation, the use of any such Deliverable or Product in any clinical trials; or

11.1.2 any breach by ADVAXIS of its representations, warranties, covenants or obligations under this Agreement; or

11.1.4 ADVAXIS's willful misconduct or negligence.

11.2 **IDT's Indemnity.** Subject to the provisions of Section 2.10, IDT shall indemnify, defend and hold harmless ADVAXIS and ADVAXIS's Affiliates (except to the extent ADVAXIS is obligated to indemnify IDT as set forth above) against all Claims asserted by a Third Party to the extent arising out of:

11.2.1 Any failure of Product supplied by IDT hereunder to conform to the requirements of Section 2.5 at Delivery;

11.2.2 any breach by IDT of its representations, warranties, covenants or obligations under this Agreement; or

11.2.3 IDT's willful misconduct or negligence.

11.3 **Procedures.** The Party seeking indemnification ("Indemnified Party") pursuant to this Article 11 shall promptly provide Notice to the indemnifying Party ("Indemnifying Party") of such Claim in reasonable detail, provided that the failure to provide such Notice shall not affect the obligations of the Indemnifying Party unless and only to the extent said Indemnifying Party is actually materially prejudiced thereby. The Indemnified Party shall furnish promptly to the Indemnifying Party copies of all papers and official documents received in respect of any Claim. Commencing within thirty (30) days after receipt of the aforesaid Notice, the Indemnifying Party shall undertake, conduct and control, through counsel of its own choosing (but reasonably acceptable to the Indemnified Party) and at its own expense, the settlement or defense of the Claim, provided that the Indemnified Party may participate in such settlement or defense through counsel chosen by the Indemnified Party and reasonably acceptable to the Indemnifying Party. The Indemnifying Party shall not, without the Consent of the Indemnified Party, settle or compromise any Claim, which requires payment or admits fault of the Indemnified Party. The Indemnifying Party and the Indemnified Party shall cooperate fully, at the Indemnifying Parly's expense, in all aspects of any investigation, defense, pre- trial activities, trial, compromise, settlement or discharge of any Claim in respect of which indemnity is sought pursuant to this Article 11, including, but not limited to, providing the other Party with reasonable access to employees and officers (including as witnesses) and other information.

ARTICLE 12: INSURANCE

12.1 **ADVAXIS General.** ADVAXIS will either (i) maintain, at all times during the term of this Agreement and for three (3) years thereafter, which such three (3) year period may be satisfied with any combination of renewal policies, policy term extensions or an extended reporting period, a products liability insurance policy, with a per occurrence and aggregate limit of at least Ten Million Dollars ($10,000,000), with a reputable, internationally operating insurance company, or alternatively, (ii) certify to IDT that ADVAXIS is self-insured. ADVAXIS will provide IDT with at least thirty (30) days' Notice prior to termination of, or reduction in coverage under, such insurance.

12.2 **IDT General.** IDT will maintain, at all times during the term of this Agreement and for three (3) years thereafter, a liability insurance policy, with a per occurrence limit of at least Ten Million Dollars US ($10,000,000) (or Euro equivalent) and an aggregate limit of at least Twenty Ten Million US Dollars ($20,000,000) (or euro equivalent) and, upon request by ADVAXIS will provide a certificate of insurance to ADVAXIS. IDT will provide ADVAXIS with at least thirty (30) days' Notice prior to termination of or reduction in coverage under such IDT Insurance Policy. IDT's insurance shall be primary and not excess or contributory with ADVAXIS' insurance.

12.3 **IDT's Obligation.** IDT shall use commercially reasonable efforts to maintain in force the insurance coverage referenced in Section 12.2 above, provided, however, that IDT shall have no liability in the event that its insurance provider reduces, cancels or denies any such insurance coverage. In the event that IDT is not able to procure or maintain the amount of insurance coverage as set forth in Section 12.2, IDT shall inform ADVAXIS without undue delay.

12.4 **ADVAXIS's Obligation.** ADVAXIS shall use commercially reasonable efforts to maintain in force the insurance, or alternatively, self-insurance, coverage referenced in Section 12.1 above, provided, however, that ADVAXIS shall have no liability in the event that its insurance provider reduces, cancels or denies any such insurance coverage. In the event that ADVAXIS is not able to procure or maintain the amount of insurance coverage as set forth in Section 12.1, ADVAXIS shall inform IDT without undue delay.

ARTICLE 13: TERM AND TERMINATION

13.1 **Term.** This Agreement shall commence on the Effective Date and shall remain in full force and effect for an initial period of (i) eighty four (84) months after the First Regulatory Approval ("Initial Term"), provided, however, that at the end of each consecutive twelve (12) month period after said First Regulatory Approval Date, the term of this Agreement shall be automatically extended by another rolling twelve (12) month period ("Renewal Term"), unless either Party shall have given at least thirty-six (36) months advance Notice to the other Party of termination of this Agreement at the expiration of the Initial Term or of the latest Renewal Term. The Initial Term and the Renewal Terms are herein called the "Term". The Term may be terminated early as provided in Sections 13.2, 13.3 and 13.4. Notwithstanding the foregoing, in the event that no First Regulatory Approval Date occurs within thirty-six (36) months after the Effective Date, this Agreement shall terminate automatically at the end of said thirty-six (36) months period.

13.2 **Early Termination by ADVAXIS.** ADVAXIS may terminate this Agreement or a Work Plan in whole or in part at any time with a prior Notice of termination in the event that:

13.2.1 **Termination for Default.** IDT defaults in the performance of any material obligation set forth in this Agreement and fails to cure said default within sixty (60) days (unless extended by ADVAXIS in its sole discretion) after IDT receives a Notice from ADVAXIS specifying the basis for default.

13.2.2 **Insolvency.** In the event IDT enters into bankruptcy proceedings (whether voluntary or involuntary) or proceedings leading to bankruptcy, IDT agrees to send to ADVAXIS a Notice setting forth the details of such event. This Notice shall be furnished within ten (10) days of the initiation of the proceedings relating to the bankruptcy. This obligation remains in effect until final payment under this Agreement. Bankruptcy or insolvency is deemed to be a material breach of this Agreement and may, at the sole discretion of ADVAXIS, constitute the basis for a termination for default without further Notice.

13.3 **Early Termination by IDT.** IDT may terminate this Agreement in whole or in part at any time with a prior Notice of termination, in the event that:

13.3.1 **Termination for Default.** ADVAXIS defaults in the performance of any material obligation set forth in this Agreement and fails to cure said default within sixty (60) days (unless extended by IDT in its sole discretion) after ADVAXIS receives a Notice from IDT specifying the basis for default.

13.3.2 **Insolvency.** In the event ADVAXIS enters into bankruptcy proceedings (whether voluntary or involuntary) or proceedings leading to bankruptcy, ADVAXIS agrees to send to IDT a Notice setting forth the details of such event. This Notice shall be furnished within ten (10) days of the initiation of the proceedings relating to the bankruptcy. This obligation remains in effect until final payment under this Agreement. Bankruptcy or insolvency is deemed to be a material breach of this Agreement and may, at the sole discretion of IDT constitute the basis for a termination for default without further Notice.

13.4 **Other Termination.** Either Party may terminate this Agreement upon Notice to the other Party, if either Party is not able to procure or maintain its respective amount of insurance coverage as set forth in Sections 12.3 or 12.4 or 16.10.5, as the case may be.

13.5 **Effects of Termination**

13.5.1 **Accrued Rights.** Termination of this Agreement for any reason will be without prejudice to any rights that have accrued to the benefit of a Party prior to such termination. Such termination will not relieve a Party of obligations that are expressly indicated to survive the termination of this Agreement.

13.5.2 **Disposition of Remaining ADVAXIS Materials and Confidential Information.** Upon termination or expiration of this Agreement, IDT will store any remaining ADVAXIS Materials and, at ADVAXIS's option, return or destroy any ADVAXIS Confidential Information in the possession or control of IDT. Likewise, ADVAXIS will, at IDT's option, return or destroy any IDT Confidential Information in the possession or control of ADVAXIS.

13.6 **No Liability.** Neither Party shall incur any liability whatsoever for any damage, loss or expense of any kind suffered or incurred by the other (or for any compensation to the other) arising from or incident to any termination of this Agreement which complies with the terms of this Agreement whether or not such Party is aware of any such damage, loss or expense.

13.7 **Survival of Certain Provisions.** Termination or expiration this Agreement for any reason shall not affect the rights, obligations and responsibilities of the Parties pursuant to Sections 2.10 and 2.12 and Articles 7, 8, 9, 10, 11, 12, 13, 15 and 16 all of which survive any termination, along with any additional terms in this Agreement necessary to give effect to such provisions.

ARTICLE 14: ALLIANCE MANAGER(S)

14.1 **Alliance Managers.** Each Party shall, in writing, appoint one or more managers ("Alliance Manager(s)") to serve as its point of contact for communications between the Parties on matters arising under this Agreement.

14.2 **Responsibility.** Each Party's Alliance Manager(s) shall be primarily responsible for reporting to the other Party's Alliance Manager(s) on the progress of the activities for which said Party is responsible as set forth in the Work Plan and each Alliance Manager shall in general provide the opportunity to exchange views and to discuss issues in relation to IDT's and ADVAXIS's obligations under this Agreement.

14.3 **Meetings.** The Alliance Managers from IDT and ADVAXIS shall meet in person or by video or telephone conference not less than once every calendar month during the Term of this Agreement. Written minutes shall be kept of each meeting between the Alliance Managers from IDT and ADVAXIS.

ARTICLE 15: DISPUTE RESOLUTION

15.1 **Dispute Resolution Procedures.** All disputes arising under or related to this Agreement shall be asserted pursuant to a Notice. The Notice must thoroughly describe the basis for the claim.

15.1.1 **Senior Executives.** The Parties, through appropriately appointed representatives, who are authorized to resolve the dispute on behalf of their respective companies, shall first meet and attempt to resolve the dispute in face-to-face or telephonic negotiations. This first attempt at resolution shall occur within thirty (30) days of the time that one Party gives Notice of such dispute. If no resolution is reached through the representatives within thirty (30) days of the first attempt to resolve the dispute, each Party is entitled to have the dispute be resolved by binding arbitration before a panel of three (3) arbitrators (one arbitrator chosen by each of the Parties and the third arbitrator chosen by the first two). The Parties agree that the Arbitration shall take place only before the International Chamber of Commerce (and no other tribunal) and shall be under the rules of procedure of the ICC in conjunction with the Convention on the Recognition and Enforcement of Foreign Arbitral Awards (the "New York Convention"). The Arbitration shall be conducted under the ICC Rules of Arbitration then in effect.

15.1.2 **Venue.** The venue for any arbitration under this Article shall be New York, New York and the language of the proceedings (including all documentation) shall be in English.

15.1.3 **Damages.** Damages shall be governed by the limitation of liability clause in Section 10.3.

15.1.4 **Discovery.** In any arbitration hereunder, subject to contrary direction by the arbitrator if, in his, her, or their judgment particular circumstances require broader pre-hearing disclosures and investigation, discovery prior to hearing shall presumptively be limited to one institutional deposition per side and to advance disclosure of witnesses that each side expects to call at the hearing and of all documents and other tangible things that each side expects to offer in evidence at the hearing, excluding only those materials that are expected to be used solely for purposes of impeachment.

15.1.5 **Final Judgment.** The Parties irrevocably agree that a final judgment in any arbitration proceeding relating to this Agreement shall be conclusive (except for manifest error) and shall be enforceable in any court having jurisdiction thereof, provided, however, that the arbitrators shall not have authority to alter any explicit provision of this Agreement.

ARTICLE 16: MISCELLANEOUS

16.1 **Notices.** Notices shall be sent:

If to IDT:

IDT Biologika GmbH
Attn: CEO
Am Pharmapark
D-06861 Dessau-Rosslau
Germany
Fax: +49 (0) 34901 885 323

If to ADVAXIS:

ADVAXIS Inc.
Attn.: Daniel J. O'Connor, President & CEO
305 College Road East
Princeton, NJ 08540
Phone: 609-452-9813
Fax: 609-452-9818

or to such other address as the addressee shall have last furnished in writing to the addressor.

16.2 **Severability.** In the event that any provision of this Agreement is judicially determined to be void or unenforceable, and such provision is construed to be severable from the other provisions of this Agreement, the other provisions of this Agreement shall remain in full force and effect. Notwithstanding the foregoing, if a provision is judicially determined to be void or unenforceable and that provision is essential to the purpose of the Agreement such that separating that provision from the Agreement would frustrate the original purpose of the Agreement, then there shall be no separation and the entirety of the Agreement shall be deemed void and unenforceable.

16.3 **Special Transactions.**

16.3.1 For purposes of this Section 16.3, (a) the assignment, by either Party of its rights and obligations under this Agreement to an Affiliate or, as part of a merger, consolidation, or a sale of all or substantially all of such Party's assets, to a Third Party, (b) the sale by ADVAXIS to a Third Party of all of its business and/or all of its assets to which this Agreement relates, (c) the sale by ADVAXIS to a Third Party of all of its business and/or assets related to the Product, (d) the acquisition of Control, directly or indirectly, of either Party by a Third Party, and (e) the grant by ADVAXIS to any Licensee of a license or right to manufacture Product, are all referred to herein as "Special Transactions".

16.3.2 Neither Party shall have a right, directly or indirectly, to assign this Agreement without the Consent of the other Party, provided, however, that each Party may engage in any Special Transaction, without the other Party's Consent, subject to the provisions of Sections 16.3.3 and 16.3.4.

16.3.3 As part of any such Special Transaction, the Party engaged in such Special Transaction shall cause this Agreement in its entirety, without alteration, modification or amendment of any kind whatsoever (other than minor changes that are necessary to account for the assignment in connection with the Special Transaction), to be assigned or transferred or otherwise made part of the Special Transaction. Within ten (10) Business Days after the occurrence of any such Special Transaction, said Party engaged therein shall send to the other Party a Notice, signed by an officer of said Party, that: (a) informs the other Party of the date of the Special Transaction; (b) identifies the Third Party or the Affiliate involved in said Special Transaction, as applicable; and (c) certifies that this Agreement in its entirety, without alteration, modification or amendment of any kind whatsoever, has been assigned or transferred or otherwise made part of the Special Transaction, or that this Agreement has in no material manner been affected by said Special Transaction, as the case may be, and remains in full force and effect in accordance with its terms.

16.3.4 The assigning Party shall be liable for all damages incurred by the other Party for failure to comply with the provisions of Section 16.3.2 and Section 16.3.3 above or in the event that, for any reason, the assignee or acquiring or purchasing Third Party or Affiliate in any such Special Transaction shall not be liable for, or refuse to assume, all the obligations of the assigning Party under this Agreement by reason of, or after, said Special Transaction or for any other reason whatsoever. The limitation of liability provisions set forth in Section 10.3 shall not apply to damages arising under the provisions of this Section 16.3.4.

16.4 **Headings.** All headings, titles, and captions in this Agreement are for convenience purposes only and shall not be of any force or substance.

16.5 **Waiver.** Failure by either Party to enforce any rights under this Agreement shall not be construed as a waiver of such rights nor shall a waiver by either Party in one or more instances be construed as constituting a continuing waiver or as a waiver in other instances. No waiver by any Party of any term, provision or condition contained in this Agreement (including any exhibit hereto), whether by conduct or otherwise, in any one or more instances, shall be deemed to be or construed as a further or continuing waiver of any such term, provision or condition or of any other term, provision or condition of this Agreement (including any exhibit hereto).

16.6 **Public Disclosure.** No Party shall disclose to any Third Party or originate any publicity, news release or public announcement, written or oral, whether to the public or the press, or otherwise, referring to the terms of this Agreement, the performance under it or any of its specific terms and conditions, except by such announcements as are: (i) mutually agreed upon by **the** Parties in writing; or (ii) required by law or regulation. If a Party believes a public announcement to be required by law or regulation with respect to this Agreement, it will give the other Party such notice as is reasonably practicable and an opportunity to comment upon the announcement.

16.7 **Independent Contractor.** Each Party is acting under this Agreement as an independent contractor and not as the partner, joint venturer, agent, or employee of the other Party. Each Party understands and agrees that it has no authority to assume any obligation on behalf of the other Parties and that it shall not hold out to Third Parties that it has any authority to act on any other Party's behalf except as expressly permitted herein.

16.8 **Performance by Affiliates.** Each Party may have one or more Affiliates perform or otherwise act on its behalf under this Agreement (including Exhibits). Each Party shall be responsible for the compliance by its Affiliates performing or otherwise acting under this Agreement on its behalf with the terms and conditions of this Agreement.

16.9 **Entire Agreement.** This Agreement (including, without limitation, the Exhibits hereto) constitutes the entire Agreement between the Parties concerning the subject matter of said Agreement, and supersedes all written or oral Agreements or understandings with respect thereto.

16.10 **Force Majeure.**

16.10.1 **Force Majeure.** Any delay in the performance of any of the duties or obligations of either Party (except the payment of money hereunder) shall not be considered a breach of this Agreement; provided that such delay has been caused by or is the result of circumstances beyond the reasonable control of the relevant Party which may include acts of God, acts of the public enemy, war, civil commotion, terrorism, epidemic disease, quarantine restrictions, freight embargoes, unusually severe weather, insurrections, riots, embargoes, general labor disputes or strikes, fires, explosions, shortages of energy, accident, fire, flood, storm, earthquake, government action or inaction in its sovereign capacity (including acts of any country to which Product is supplied by ADVAXIS or Germany, and/or an act by any political subdivision thereof), or other unforeseen causes, in each case provided that such delay is beyond the reasonable control and without the fault or negligence of the Party so affected (each a "Force Majeure Event"). Notwithstanding the foregoing, in the event of a complete or partial regulatory shutdown of a facility or service or other act by a Regulatory Authority that (a) specifically impacts a Party's operations (i.e., without shutting down facilities owned by Third Parties) and (b) is due to a Party's gross negligence, willful misconduct or noncompliance with Applicable Laws, such shutdown shall not constitute a "Force Majeure Event".

16.10.2 **Notice.** If either Party is affected by a Force Majeure Event, the affected Party shall Notify the other Party within five (5) days of the Force Majeure Event which caused, threatens to cause or will cause a delay in performance under this Agreement. The affected Party shall take reasonable actions to avoid, mitigate or remove the cause of the affected Party's non-performance.

16.10.3 **No Breach.** Neither Party shall be in breach of this Agreement, nor otherwise be liable to the other Party by reason of any delay in performance, or non-performance, of any of its obligations hereunder to the extent that such delay or non-performance is due to any Force Majeure Event of which it has notified the other Party and the time for performance of that obligation shall be extended accordingly.

16.10.3 **Cooperation.** The Parties shall cooperate in good faith to reschedule any Manufacture of Product that has been delayed or postponed by reason of a Force Majeure Event.

16.10.4 **Termination.** In the event that a Force Majeure Event continues for more than three (3) months, the Parties will use good faith efforts to work out a mutually agreeable solution. Should no mutually agreeable solution be found within a further period of three (3) months, either Party may terminate this Agreement upon Notice to the other Party.

16.11 **Counterparts.** This Agreement shall be signed in two (2) counterparts each of which shall **be** deemed to be an original and both of which taken together shall constitute one and the same instrument. Facsimile or e-mail transmission of executed counterparts of this Agreement shall constitute evidence of the execution of this Agreement by the Parties.

16.12 **Governing Law.** The arbitration undertaking provided for in Section 15.1 of this Agreement, above, shall be governed by and construed and interpreted in accordance with the New York Convention and the implementing U.S. legislation, 9 U.S.C. sections 101 et seq. All other provisions of this Agreement shall be governed by and construed and interpreted in accordance with the internal laws of the State of New York, USA. The 1980 U.N. Convention on the International Sale of Goods shall not apply. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE, AND AGREES NOT TO REQUEST, A JURY TRIAL FOR THE ADJUDICATION OF ANY DISPUTE HEREUNDER IT BEING AGREED THAT ALL DISPUTES WILL BE RESOLVED PURSUANT TO THE DISPUTE RESOLUTION PROCEDURES SET FORTH IN ARTICLE 15 OF THIS AGREEMENT.

16.13 **Exhibits.** All exhibits referred to herein form an integral part of this Agreement and are incorporated into this Agreement by such reference.

16.14 **No Presumption Against Drafter.** For purposes of this Agreement, the Parties hereby waive any rule of construction that requires that ambiguities in this Agreement (including any exhibit hereto) be construed against the drafter.

PART III: EXHIBITS

EXHIBIT A WORK PLAN AND SERVICE FEES
EXHIBIT B QUALITY AGREEMENT
EXHIBIT C EQUIPMENT
EXHIBIT D ADVAXIS MATERIALS
EXHIBIT E STORAGE FEES
EXHIBIT F FURTHER DEFINITIONS
EXHIBIT G: PRODUCT SCOPE

Exhibit A WORK PLAN

to be added by the parties

Exhibit B: Quality Agreement

to be added by the parties

Exhibit C: Equipment

At the Effective Date, there is no Equipment within the meaning set forth in this Agreement.

to be added by the parties

Exhibit D: ADVAXIS Materials

The specific materials set forth in the respective Work Packages for the Product referenced in Exhibit G, No. 1, ADXS-HPV. Said ADVAXIS Materials may include, without limitation, cell banks, virus seeds and bulk drug substance.

Exhibit E: Storage Fees

No.	Type of Storage	Price	Unit	Further Conditions
1	Standard Storage: 15- 25°C	31,50	€/pallet/month	
2	Cold Storage A: 2-8°C	45,85	€/pallet/month	
3	Cold Storage B: - 45 -15°C	70,35	€/DS batch/month	Up to 50 batch storage spaces available per deep freezing room.
4	Cold Storage C: ab -65 - 85°C	137,85	€/Storage Shelf Space/month	Up to 40 shelf spaces available per deep freezing room.

Storage fees apply to all storage except as otherwise specifically provided in any Work Package or in the Agreement. Storage in IDT capacities as existing on the Effective Date.

No. 3/4 type storage: For any storage beyond existing IDT capacities the storage fees apply, plus additional capital equipment.

For Product released by IDT for Delivery to ADVAXIS as ordered by ADVAXIS, the applicable fees are doubled after 120 days.

Exhibit F: Further Definitions

a. "Bill of Materials" means a document generated by IDT and provided to ADVAXIS referencing all materials and supplies, including Raw Materials and process consumables, to be used by IDT in the performance of Manufacturing as outlined in an applicable Work Package. The Bill of Materials will indicate the Party responsible for the acquisition and delivery of such materials and supplies to IDT for use in the performance of the Services.

b. "Engineering Run" means a non-cGMP Manufacturing run utilizing Master Production Records and intended to execute the series of unit operations in the specified order to evaluate whether or not the Manufacturing Process meets draft Product Specifications. For Engineering Runs raw materials and equipment will be used as for intended later cGMP manufacturing. Raw Materials for non-cGMP purpose do not require incoming goods controls, but QA release based on supplier certificates. Suppliers do not need to be audited at this stage. The Engineering runs are performed in the same cGMP clean rooms facilities and by the same trained personnel as for the intended later cGMP manufacturing. Engineering runs will not include deviations or OOS reporting in IDT's Quality System. Engineering runs will include review by Production Record review team, QC record review team and QA, but no QP release. Product from Engineering Runs shall be considered as Development Product pursuant to Section 2.10.

c. "Protocol" means a document outlining and describing in detail the approach, steps and experimental procedure to be undertaken for an applicable process. Protocols will not be considered final until mutually agreed in writing by the Parties.

d. "Technical Summary Report" means a detailed report provided upon completion of various Services as further detailed in each individual Work Package. Technical Summary Reports will describe the experimental methods and justification for the Manufacturing Processes, including all data from experiments and analytical results. Technical Summary Reports will also outline any additional work that needs to be performed to complete Product or Process characterization and, if applicable, recommendations for the next steps.

e. "Validation Master Plan" means a document detailing the equipment, systems or Processes to be qualified or validated, defining the Services to be performed, the approach to be used, the responsibility Party for such Services, and a timeline for the Services.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER
PURSUANT TO 18.U.S.C. 7350
(SECTION 302 OF THE SARBANES OXLEY ACT OF 2002)

I, Daniel J. O'Connor, certify that:

1. I have reviewed this annual report on Form 10-K for the year ended October 31, 2014 of Advaxis, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
