## Summary of Risk Factors

The risk factors detailed in Item 1A entitled "*Risk Factors*" in this Annual Report on Form 10-K, are the risks we believe are material to our investors and a reader should carefully consider them. The following is a summary listing certain of the risk factors detailed in Item 1A:

### Risks Related to Our Business

- The ongoing COVID-19 pandemic could adversely affect our business, financial condition and results of operations.
- Historically, we have incurred operating and net losses and we may be unable to achieve or sustain profitability in the future.
- Our growth strategy depends on the continued origination of solar service agreements by us and our dealers.
- Our growth is dependent on our dealer network and our failure to retain or replace existing dealers or to grow our dealer network could adversely impact our business.
- We do not directly control certain costs related to our business, which could put us at a disadvantage relative to companies who have a vertically integrated business model.
- We may be unsuccessful in introducing new service and product offerings, including our distributed energy storage services and energy storage management systems.
- Our business is concentrated in certain markets, putting us at risk of region-specific disruptions.
- Certain of our solar energy systems are located in, and we conduct business in, Puerto Rico and weakness in the fiscal health of the government and the Puerto Rico Electric Power Authority ("PREPA"), the damage caused by hurricanes, a series of earthquakes that affected the island in December 2019 and early 2020 and potential tax increases that may increase our cost of conducting business in Puerto Rico, create uncertainty that may adversely impact us. In addition, we are subject to administrative proceedings instituted by the Puerto Rico Energy Bureau.
- Our operating results and our ability to grow may fluctuate from quarter to quarter and year to year, which could make our future performance difficult to predict and could cause our operating results for a particular period to fall below expectations.
- If our allowance for credit losses is not enough to cover actual credit losses from our customer notes receivable portfolio, our results of operations and financial condition could be negatively affected.
- Certain of our key operational metrics, including estimated gross contracted customer value, are based on various assumptions and estimates we make that cover an extended period of time. Actual experience may vary materially from these estimates and assumptions and therefore undue reliance should not be placed on these metrics.

### Risks Related to the Solar Industry

- If sufficient additional demand for residential solar energy systems does not develop or takes longer to develop than we anticipate, our origination of solar service agreements may decrease.
- A material reduction in the retail price of electricity charged by electric utilities or other retail electricity providers would harm our business, financial condition and results of operations.
- Our business has benefited from the declining cost of solar energy system components and our business may be harmed to the extent the cost of such components stabilize or increase in the future.
- We and our dealers depend on a limited number of suppliers of solar energy system components and technologies to adequately meet demand for our solar energy systems. Due to the limited number of suppliers in our industry, the acquisition of any of these suppliers by a competitor or any shortage, delay, price change, imposition of tariffs or duties or other limitation in our or our dealers' ability to obtain components or technologies we use could result in sales and installation delays, cancellations and loss of customers.
- Increases in the cost or reduction in supply of solar energy system and energy storage system components due to tariffs or trade restrictions imposed by the U.S. government could have an adverse effect on our business, financial condition and results of operations.
- Terrorist or cyberattacks against centralized utilities could adversely affect our business.
- We face competition from centralized electric utilities, retail electric providers, independent power producers and renewable energy companies.
- Developments in technology or improvements in distributed solar energy generation and related technologies or components may materially adversely affect demand for our offerings.

### Risks Related to our Financing Activities

- We need to obtain substantial additional financing arrangements to provide working capital and growth capital and if financing is not available to us on acceptable terms when needed, our ability to continue to grow our business would be materially adversely impacted.
- Servicing our existing debt requires a significant amount of cash. We may not have sufficient cash flow from our business to timely pay our interest and principal obligations and may be forced to take other actions to satisfy our payment obligations.

- Rising interest rates may adversely impact our business.

#### **Risks Related to Regulations**

- We are not currently regulated as an electric public utility under applicable law but may be subject to regulation as an electric utility in the future.
- Electric utility policies and regulations, including those affecting electric rates, may present regulatory and economic barriers to the purchase and use of solar energy systems that may significantly reduce demand for electricity from our solar energy systems and adversely impact our ability to originate new solar service agreements.
- We rely on net metering and related policies to offer competitive pricing to our customers in most of our current markets and changes to net metering policies may significantly reduce demand for electricity from residential solar energy systems.
- Our business currently depends in part on the availability of rebates, tax credits and other financial incentives. The expiration, elimination or reduction of these rebates, credits or incentives or our ability to monetize them could adversely impact our business.
- Our business depends in part on the regulatory treatment of third-party owned solar energy systems.
- Technical and regulatory limitations regarding the interconnection of solar energy systems to the electrical grid may significantly reduce our ability to sell electricity from our solar energy systems in certain markets or delay interconnections and customer in-service dates, harming our growth rate and customer satisfaction.
- Our business is subject to complex and evolving U.S. laws and regulations regarding privacy and data protection ("data protection laws"). Many of these laws and regulations are subject to change and uncertain interpretation and could result in claims, increased cost of operations or otherwise harm our business.
- Our business is subject to consumer protection laws. Such laws and regulatory enforcement policies and priorities are subject to change that may negatively impact our business.
- The highly regulated environment in which our capital providers operate could have an adverse effect on our business.

#### **Risks Related to Taxation**

- Our ability to use net operating loss carryforwards ("NOLs") and tax credit carryforwards to offset future income taxes is subject to limitation and the amount of such carryforwards may be subject to challenge or reduction.
- Changes in tax law could adversely affect our business.
- If the IRS or the U.S. Treasury Department makes a determination that the fair market value of our solar energy systems is materially lower than what we have reported in our tax equity vehicles' tax returns, we may have to pay significant amounts to our tax equity vehicles, our tax equity investors and/or the U.S. government. Such determinations could have a material adverse effect on our business and financial condition.
- If our solar energy systems either cease to be qualifying property or undergo certain changes in ownership within five years of the applicable placed in service date, we may have to pay significant amounts to our tax equity vehicles, our tax equity investors and/or the U.S. government. Such recapture could have a material adverse effect on our business and financial condition.

#### **Risks Related to Our Common Stock**

- We do not intend to pay, and our credit facilities currently prohibit us from paying, cash dividends on our common stock and, consequently, your only opportunity to achieve a return on your investment is if the price of our common stock appreciates.
- Ownership of our common stock by current stockholders is expected to remain significant.
- The price of our common stock is volatile and may decline in value.
- Provisions of our charter documents and Delaware law may inhibit a takeover, which could limit the price investors might be willing to pay in the future for our common stock.

#### **General Risk Factors**

- We are exposed to the credit risk of our customers.
- Our actual financial results may differ materially from any guidance we may publish from time to time.
- If we are unable to make acquisitions on economically acceptable terms, our future growth would be limited, and any acquisitions we may make may reduce, rather than increase, our cash flows.

## PART I - FINANCIAL INFORMATION

### Item 1. Business.

#### Mission

To power energy independence.

#### Overview

We are a leading residential energy service provider, serving over 195,000 customers in more than 25 United States ("U.S.") states and territories. Our goal is to be the source of clean, affordable and reliable energy with a simple mission: to power energy independence so homeowners have the freedom to live life uninterrupted. We were founded to deliver customers a better energy service at a better price; and, through our energy service offerings, we are disrupting the traditional energy landscape and the way the 21st century customer generates and consumes electricity. Additionally, we believe the renewable energy market in which we operate, and investment in climate solutions more broadly, will continue to grow as the impact of climate change increases. While our core business model seeks to help accelerate a global transition to renewable energy, there are inherent climate-related risks to our business operations including, but not limited to, those discussed under "*Risk Factors*" and elsewhere in this Annual Report on Form 10-K.

We have a differentiated residential solar dealer model in which we partner with local dealers who originate, design and install our customers' solar energy systems and energy storage systems on our behalf. Our focus on our dealer model enables us to leverage our dealers' specialized knowledge, connections and experience in local markets to drive customer origination while providing our dealers with access to high quality products at competitive prices, as well as technical oversight and expertise. We believe this structure provides operational flexibility, reduces exposure to labor shortages and lowers fixed costs relative to our peers, furthering our competitive advantage.

We offer customers products to power their homes with affordable solar energy. We are able to offer savings compared to utility-based retail rates with little to no up-front expense to the customer in conjunction with solar and solar plus energy storage, and in the case of the latter are able to also provide energy resiliency. Our solar service agreements typically take the form of a lease, power purchase agreement ("PPA") or loan; however, we also offer service plans for systems previously originated by our competitors. We make it possible in some states for a customer to obtain a new roof and other ancillary products as part of their solar loan. We also allow customers originated through our homebuilder channel the option of purchasing the system when the customer closes on the purchase of a new home. The initial term of our solar service agreements is typically between 10 and 25 years. Service is an integral part of our agreements and includes operations and maintenance, monitoring, repairs and replacements, equipment upgrades, on-site power optimization for the customer (for both supply and demand), the ability to efficiently switch power sources among the solar panel, grid and energy storage system, as appropriate, and diagnostics. During the life of the contract we have the opportunity to integrate related and evolving home servicing and monitoring technologies to upgrade the flexibility and reduce the cost of our customers' energy supply.

In the case of leases and PPAs, we also currently receive tax benefits and other incentives from federal, state and local governments, a portion of which we finance through tax equity, non-recourse debt structures and hedging arrangements in order to fund our upfront costs, overhead and growth investments. We have an established track record of attracting capital from diverse sources.

In addition to providing ongoing service as a standard component of our solar service agreements, we also offer ongoing energy services to customers who purchased their solar energy system through third parties. Under these arrangements, we agree to provide monitoring, maintenance and repair services to these customers for the life of the service contract they sign with us. We intend to expand our offerings to include complimentary products to our agreements as well as non-solar financing. Specifically, we plan to expand our offerings to include a non-solar loan program enabling customers to finance the purchase of products independent of a solar energy system or energy storage system. We believe the quality and scope of our comprehensive energy service offerings, whether to customers that obtained their solar energy system through us or through another party, is a key differentiator between us and our competitors.

In April 2021, we acquired SunStreet Energy Group, LLC, a Delaware limited liability company ("SunStreet"), Lennar Corporation's ("Lennar") residential solar platform that focuses primarily on solar energy systems and energy storage systems for homebuilders. In connection with that acquisition, we entered into an agreement pursuant to which we would be the exclusive residential solar and storage provider for Lennar's new home communities with solar across the U.S. for a period of four years. We believe the acquisition provides a new strategic path to further scale our residential solar business, reduces

customer acquisition costs, provides a multi-year supply of homesites through the development of new home solar communities and allows us to pursue the development of clean and resilient residential microgrids across the U.S.

We also enter into leases with third-party owners of pools of solar energy systems to receive such third party's interest in those systems. In connection therewith, we assume the related customer PPA and lease obligations, entitling us to future customer cash flows as well as certain credits, rebates and incentives (including solar renewable energy certificates ("SRECs")) under those agreements, in exchange for a lease payment, whether upfront or over time, to the third-party owner, which may be made in the form of cash or shares of our common stock. We believe such arrangements enhance our long-term contracted cash flows and are complementary to our overall business model.

We commenced operations in January 2013 and began providing solar energy services under our first solar energy system in April 2013. Since then, our brand, innovation and focused execution have driven significant, rapid growth in our market share and in the number of customers on our platform. We operate one of the largest fleets of residential solar energy systems in the U.S., comprising more than 1,140 megawatts of generation capacity and serving over 195,000 customers as of December 31, 2021. For a discussion of how we define number of customers, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations—Key Financial and Operational Metrics*". The following chart illustrates the growth in our number of customers from December 31, 2017 through December 31, 2021.

**Our Dealer Network Model**

While many of our competitors maintain a large, geographically diverse base of employees in local markets, including a direct sales force comprised of home improvement installers, we limit the cost associated with that structure by utilizing a network of local, independent dealers to market, sell and install solar energy systems, energy storage systems, home generators and certain other products and services on our behalf. Our dealers typically reside and work within the markets they serve and provide a localized, customer-focused marketing, installation and servicing process. These dealers are often leading local solar installation companies, electrical services companies or companies that serve customers who are actively searching for solar power, backup power for their homes, complimentary services or who were referred by existing customers. When entering new markets, our dealer model immediately provides scale by enabling us to develop relationships with existing local businesses and avoiding the delay and expense required to establish new sales and installation offices. Similarly, because we do not typically maintain local offices, we can quickly refocus our origination efforts and capital deployment strategy to different markets in response to changing dynamics and regulatory developments. Furthermore, because of the low marginal cost to maintain relationships with individual dealers in currently unfavorable markets, we can maintain a strategic presence in anticipation of future developments that may make the economics of distributed residential solar energy in those markets more attractive.

Our dealers realize value in partnering with us for a variety of reasons. Although each of our dealer relationships is unique, we believe our dealers choose to work with us because:

- we do not compete with our dealers;
- we receive preferred equipment pricing as a result of our strong supplier relationships;
- we offer a wide variety of product structures;

- we provide easy-to-use software to dealers to assist with the installation process and to price potential solar energy systems and energy storage systems;
- dealers can leverage our brand and reputation for customer service to support their businesses;
- we provide comprehensive training to dealers; and
- we are a stable counterparty our dealers can trust to make payments on time.

### ***Origination, Installation, Monitoring and Servicing Processes***

Through our dealer network model, we provide a streamlined approach for the origination of solar service agreements and the installation of solar energy systems and energy storage systems. The principal elements of our origination, installation, monitoring and servicing processes are described below:

- *Customer Origination and Consultation.* Our dealers serve as a local, direct-to-home sales force providing in-person and virtual consultations to source potential customers in each geographic market where we operate. Our dealers reach potential customers through various means, including online, telemarketing, in-store sales, cross-marketing with complementary products and door-to-door canvassing. Using our technology platform and proprietary pricing tool, the dealer and the customer select one of our standard-form solar service agreements for the relevant market. Before proceeding to the design phase, we confirm that every customer understands the terms of their contract with us as well as the expected benefits of the system.
- *Design and Engineering.* Prior to the dealer's purchase and installation of the equipment, we and the dealers work together to design each solar energy system and, if applicable, energy storage system. All of our solar energy systems and energy storage systems are designed with equipment from a pre-approved list of manufacturers. We utilize our extensive tools and services platform, standardized procedures and existing databases to help our dealers comply with our pricing requirements, residential solar best practices, contract terms, and state, territorial and local regulations. For each solar service agreement, an individualized power production estimate is created by analyzing geographic, solar and weather data with the design's proposed orientation, components and shading. We continue to pursue technological innovation to streamline our review of design and engineering, to expedite installation and to lower costs for our dealers.
- *Installation, Commissioning, Quality Assurance and Interconnection.* The installation and commissioning phase requires the dealer to obtain all necessary permits for installation and complete our commissioning process for the solar energy system and energy storage system (if applicable), which entails submitting supporting documentation and photographs illustrating the installation of the solar energy system and energy storage system (if applicable) to our quality assurance team for review. Following completion of these steps and our approval of these materials, the dealer submits required paperwork to the applicable electric distribution utility to obtain permission to operate the equipment, schedule required regulatory inspections and arrange for interconnection of the solar energy system to the electrical grid. In some markets where either permission is not required and/or interconnection is not feasible or practical, we may place the system in service without interconnecting to the electrical grid and thereby place the system in service without seeking permission to operate from the applicable electric distribution utility.
- *Customer Billing Dates.* How soon we will begin billing the customer after the solar energy system has been placed in service will vary by product offering. Lease agreements will begin billing on the first cycle date after the solar energy system has been placed in service, generally within 30 days. PPAs will begin billing on the first cycle date in the next calendar month after the solar energy system has been placed in service, generally between 15 and 60 days after the solar energy system has been placed in service. Loan agreements require that the solar energy system must be in service at least 30 days prior to the date when billing can begin. As a result, billing on loan agreements generally begins the first cycle date in the next calendar month after the solar energy system has been placed in service.
- *Monitoring and Servicing.* Our monitoring systems utilize cellular or internet connections that allow us to confirm the continuing operation of the solar energy system and energy storage system (if applicable) and identify and solve maintenance issues through our dealers, third-party service providers or our own personnel. We also collect performance data to improve our pricing, generation estimates and services for our customers.

### ***Our Relationships With Our Dealers***

We carefully recruit our dealers, who must meet and maintain our standards to be an approved dealer. Qualifications to be a dealer include: experience in the residential solar industry (or success in complementary industries such as home security, heating, ventilation and air-conditioning, electrical services, and satellite television), experienced and appropriately certified

employees (including multiple installation teams) and possession of applicable licenses. We also perform a review of the prospective dealer's financial condition as part of our recruitment process, a background check on the principal owners of the organization and a careful review of the dealer's online and local reputation. Upon engagement, the dealer enters into a standard dealer agreement with us, which may be amended from time to time, that sets ongoing standards for operations and payment obligations based on different milestones for each project. We provide training, field support and continuing education to help our dealers operate efficiently. This includes training related to our processes, standards and services platform, sales training and compliance education regarding applicable rules and regulations. We actively review our dealers' performance and compliance with our requirements to determine whether to terminate our relationship with any dealer that is unable to meet our performance standards.

We devote significant resources to maintaining and expanding our relationships with existing dealers. Although most of our dealer agreements allow the dealer to sell services and products from our competitors, we believe dealers find our proprietary technology and operations platform, established supply chain group, commitment to training, quality of service and prompt payment to be an incentive to prioritize selling our services. Furthermore, many of our dealers may be hesitant to work with our competitors that have developed internal sales and installation personnel that may compete with certain aspects of the dealers' business. Taken as a whole, we believe these considerations promote long-lasting relationships with our dealers.

For the years ended December 31, 2021 and 2020, Trinity Solar, Inc. ("Trinity") accounted for approximately 15% and 28% of our net originations, respectively. In March 2019, we amended our agreement with Trinity pursuant to which Trinity has agreed to perform services or work exclusively for us for four years, with certain exceptions, including (a) the sale of solar energy systems to individuals on a "cash" basis that do not involve any third-party financing, (b) the sale of solar energy systems pursuant to customer agreements we do not elect to accept under the terms of the arrangement and (c) the sale of solar energy systems pursuant to customer agreements executed prior to the date of the amendment to the dealer agreement. In addition, Trinity may market, sell and install solar energy systems for our competitors in instances in which such competitor has provided the leads for such solar energy system customer directly to Trinity. Under this arrangement, we have agreed to provide annual bonuses to Trinity in the amount of \$20 million in year one and \$10 million each year thereafter, subject to clawback if minimum annual origination targets are not reached and additional per watt incentive payments if higher annual origination targets are exceeded. The minimum and higher origination targets increase by approximately 15% to 20% each year and limits competing work by Trinity to 10% of Trinity's annual gross revenues. Unlike most of our dealer agreements, the arrangement with Trinity does not permit the parties to terminate for convenience and only permits termination in specified circumstances including material breach (subject to applicable cure periods), prolonged force majeure events, a change of control, certain insolvency events or mutual agreement. For purposes of the Trinity agreement, "change of control" means (a) the sale of all or substantially all of the assets of a party or (b) any merger, acquisition, or other transaction or series of transactions that results in a change of ownership of more than fifty percent of the voting securities of a party (other than in connection with an initial public offering of either party or a transfer among Trinity's existing owners). Additionally, the arrangement provides for a \$10 million liquidated damages payment by the applicable party in the event of termination for material breach, certain insolvency events or wrongful termination by the other party.

We have similar contractual arrangements with several other key dealers. For certain other dealers, substantially all of the solar service agreements originated by such dealers are Sunnova agreements, although they are under no exclusivity arrangement. During the year ended December 31, 2021 Lennar and Windmar Energy accounted for 20% and 11% , respectively, of our net originations. During the year ended December 31, 2020, Infinity Energy, Inc. accounted for 12% of our net originations. No dealer other than Lennar, Trinity, Windmar Energy and Infinity Energy, Inc. accounted for more than 10% of our net originations during 2021 or 2020.

### **Direct Sales**

We have established an inside sales team to market and sell a limited set of products and services in circumstances where there is no existing relationship between a potential customer and our dealers to market on our behalf. This sales team is primarily focused on selling stand-alone solutions, such as Sunnova Protect Services, Sunnova +SunSafe, electric vehicle chargers, home generators and other supplements as requested by consumers. In most cases, these services will be directed to a third-party installer in our dealer network, as required, for the installation of any equipment.

### **Grid Services**

We have developed relationships with various independent system operators, utilities, community choice aggregators and others, seeking to provide them with specialized grid services so these grid participants can more efficiently conduct their operations. Examples of these services may demand response as well as grid capacity and voltage management. These grid programs can make use of the solar energy systems, energy storage systems and other technologies installed in customer homes

and managed by us via a centralized platform and internally developed software. By providing grid services, we seek to earn additional revenue, improve grid resiliency and operations where our customers are located, and lower the cost of power to our customers.

## Platform of Tools and Services

We have developed a cloud-based technology platform for origination, installation, administration and servicing of our solar energy systems and energy storage systems. All of our dealers are trained in and use this platform. Our software platform includes a proprietary technology suite, including a contact center to assist dealers in lead generation, project tracking and service obligations, a quoting tool to standardize customer quotes and solar service agreements, and other services to manage payments, billing and monitoring. The technology suite also includes tools to streamline the approval process for the design and installation of solar energy systems and energy storage systems and establish a standard process for ongoing service and warranty management. The platform leverages cloud-based infrastructure and software capabilities using multiple third-party providers, including Salesforce, Amazon Web Services, Heroku and FinancialForce. It is compatible with multiple end-user device types, including smartphone, tablet and desktop/laptop interfaces.

We have invested in proprietary software systems and technology that have been designed to tie into third-party platforms and applications of our dealers and other systems. Our key software systems include:

- **Pricing Tool:** Customer pricing and quoting is delivered by a combination of cloud-based technologies including Genability, PV Watts (a service of the National Renewable Energy Laboratory) and proprietary applications running on Amazon Web Services and Heroku. This collection of tools is made available to us and our dealers through a web, tablet or mobile device interface. We permit dealers to generate solar service agreement quotes and proposal documents on demand for presentation to prospective customers. Each completed quote is transferred into Salesforce for solar service agreement generation, customer access and reporting.
- **MySunnova:** MySunnova is our online portal for customers that allows them to view their solar energy systems' production history, view energy storage system data, pay their bills, manage their online account and contact information, make referrals and contact our customer service team.
- **Salesforce:** Salesforce is our central repository and system of record for all contracts, process documentation, customer account information, maintenance information and payment tracking for the life of the solar service agreement. This single system allows for integrated and comprehensive reporting for the entire life cycle of the customer, from quote to end of the solar service agreement term. Many of our other systems interact with the Salesforce platform.
- **FinancialForce:** FinancialForce is a cloud-based accounting system built on the Salesforce platform. Because it shares similar architecture to our Salesforce system, FinancialForce allows for integration between our operations and accounting.

## Cybersecurity

In an effort to reduce the likelihood and severity of cyber incidents, we maintain a cybersecurity program designed to monitor, protect and preserve the confidentiality, integrity and availability of data and systems, overseen by our board of directors (our "Board") and guided by external specialists. The program establishes security standards and guidelines for our technological resources and includes training for employees, contractors and third parties and testing by third party experts of our cybersecurity capabilities. As part of this program, we also maintain an incident response plan and retain specialist service providers under contract. Our current security posture and compliance efforts are intended to address evolving and changing cyber threats.

We focus on growing a geographically diverse customer base with a strong credit profile. We perceive our recurring customer payments as high-quality assets given the broad and relatively inelastic demand for electricity and because our customers typically have high credit scores. As of December 31, 2021, our customers had, at the time of signing the solar service agreement, an average FICO® score of 740. The purpose of our stringent credit approval policy is to ensure reliability of collecting payment over the duration of the solar service agreements. As of December 31, 2021, approximately 0.8% of our customers were in default (over 120 days past due) under their solar service agreements.

Our solar service agreements typically have an initial term ranging from 10 to 25 years. Our lease and PPA agreements typically include an opportunity for customers to renew for up to an additional 10 years via two five-year or one 10-year renewal options. The customer is obligated to make payments to us on a monthly basis, and we operate and maintain the solar energy system and energy storage system, if applicable, in good condition throughout the duration of the agreement. Under our lease agreements and PPAs, the customer's monthly payment or price per kilowatt hour ("kWh") is set based on a calculation that takes into account expected solar energy generation. The customer has an option of choosing a flat rate without an escalator or a lower initial rate with an escalator. As of December 31, 2021, approximately 57% of our lease agreements and PPAs contained a price escalator, ranging from 0.9% to 3.0% annually.

Our home solar service agreements are designed to offer the customer energy cost savings and bill stability relative to centralized utility prices, often resulting in an immediate reduction in the customer's overall utility bill, with little or no upfront costs. We provide our services through long-term residential solar service agreements in the following formats:

- *Lease Agreements.* Under the Easy Plan equipment lease, the customer leases a solar energy system from us at a fixed monthly rate that is typically subject to annual escalation. Under the LeasePlus New Home Solar Plan, the customer leases a solar energy system from us at a fixed monthly rate that is not subject to escalation throughout the term of the

lease. Under the Prepaid LeasePlus New Home Solar Plan, the lease is prepaid upfront for the term of the lease. We own, operate and maintain the solar energy system under our lease agreements. In most cases, lease agreements include a performance guarantee under which we will refund payments or credit the customer if the solar energy system fails to meet a guaranteed minimum level of power production for specified time periods.

- *PPAs.* We offer PPAs with variable monthly payments or balanced monthly payments. We own, operate and maintain the solar energy system under our PPAs.
  - *Easy Plan PPA with variable billing.* The customer agrees to pay for all power generated by a solar energy system at a price per kWh that is generally lower than the local utility rate. The monthly payment will vary month to month based on the system's actual production. The monthly rate is generally subject to annual escalation.
  - *Easy Plan PPA with balanced billing.* This is similar to the variable billing option except the customer's payments are leveled over the course of a year based on an annual production estimate so the customer's payments are insulated from monthly fluctuations in energy production subject to a true-up at the end of such period. The fixed monthly rate is typically subject to annual escalation. Should the annual production estimate exceed actual production, the customer will receive a bill credit at the end of the applicable period and we may decrease the estimated production (and corresponding monthly payments) for the subsequent year. Should actual production exceed the annual estimate, we may apply the overproduction to a subsequent year or increase the estimated annual production and corresponding monthly payments for the subsequent year. The estimated annual production will not increase more than 110% from the estimated annual production for the first year.
  - *Solar 20/20 Plan Agreement & Covenants.* The customer agrees to pay for all power generated by a solar energy system at a price per kWh that is indexed to the local utility rate but is guaranteed to be at least 20% lower than the applicable utility's weighted-average rate that takes into account the customer's estimated production. The monthly payment will vary month to month based on the system's actual production and that month's indexed rate.
  - *Fixed Rate Power Purchase Agreement.* This is similar to the variable billing option except the monthly rate is fixed throughout the term of the agreement and not subject to annual escalation.
- *Loan Agreements.* Pursuant to an Easy Own Plan equipment purchase agreement, the customer purchases the solar energy system from a dealer using financing provided by us. The customer repays the amount financed plus a finance charge through monthly payments for a term of 10 or 25 years. We purchase the Easy Own Plan equipment purchase agreement from the dealer and agree to operate and maintain the solar energy system. We operate and maintain the solar energy system through our network of dealers. In most cases, Easy Own Plan equipment purchase agreements include a production guarantee under which we will refund payments or credit the customer if the solar energy system fails to meet a guaranteed minimum level of power production for specified time periods. Customers under our Easy Own Plan equipment purchase agreements have the option to prepay outstanding principal amounts, in part or in full, without penalty.
- *Energy Storage Systems.* Our Sunnova SunSafe program offers customers the option of a solar energy system integrated with a solar storage system. The customer can either choose an Easy Plan equipment lease or Easy Own Plan equipment purchase plan. These are similar to our Easy Plan equipment lease and Easy Own Plan equipment purchase for home solar services but include energy storage systems with the solar energy system. The customer may select a term of 10 or 25 years for the Easy Own Plan equipment purchase. These agreements have a production guarantee for the solar energy system, similar to the home solar service Easy Plan equipment lease and Easy Own Plan equipment purchase plans, except in Guam, Saipan, Hawaii, Puerto Rico and Florida. Additionally, we introduced the Sunnova +SunSafe agreement to existing customers in several states and territories, under which the customer purchases an energy storage system (to be used in connection with an existing solar system) from a dealer using financing provided by us. Under the Sunnova +SunSafe agreement, the customer repays the amount financed plus a finance charge through monthly payments for a term of 10, 15 or 25 years.
- *Sunnova Loan.* The financing of energy-related products and services independent of a solar energy system is a new category launched in the fourth quarter of 2021 to meet evolving and expanding customer needs (e.g. electric vehicle charging, home automation, security and energy management). We have established a niche amongst pure financing competitors by providing energy-related products and services with competitive rates and tenors. Where applicable, our products come with a standard manufacturer's warranty on equipment. Our Sunnova Loan offering gives our dealers the flexibility to offer additional products and services to customers outside of a traditional solar loan. Customers may select a pre-defined term ranging from 1 to 11 years.

- *Sunnova Protect Services.* For solar energy systems not owned or sold by us, our Sunnova Protect Services agreements provide customers maintenance and repairs as well as system monitoring and diagnostics. We provide three levels of service: (a) Basic, which is monitoring only; (b) Premium, which is monitoring plus repair and/or replacement of all equipment under a manufacturer's warranty; and (c) Platinum, which is monitoring, repair and/or replacement of all equipment under and outside the manufacturer's warranty and a production guarantee. The customer may select the level of service and a term of 1, 5, 10 or 20 years. Prior to commencing coverage, we will run a diagnostic evaluation on the customer's solar energy system and will identify any underperforming equipment and estimate production. The customer may elect to repair underperforming equipment, on a time and materials basis, so that it may be included in the coverage going forward. Should the customer decline to repair the underperforming equipment, it will not be covered under the Sunnova Protect Services agreement.
- *Accessory Purchase and/or Roof Replacement.* Customers have the option to purchase add-on accessories and services, including main panel upgrades, tree trimming, electric vehicle chargers and roof replacements, with financing options when bundled with a new Sunnova Home Solar Service or Sunnova SunSafe Solar + Battery Storage Service agreement.

As of December 31, 2021, approximately 24% of our customers had lease agreements, approximately 35% had PPAs, and approximately 19% had loan agreements. Approximately 20% of our customers had service plan agreements, accessory purchase agreements or roof replacement agreements.

We have developed a standardized protocol and set of policies to qualify potential customers. During the solar energy system origination phase, we review the customer's credit application for compliance with our credit standards. Solar service agreements that are accepted must comply with our underwriting standards, which emphasize the prospective customer's ability to pay and the value of the customer's estimated savings under the solar energy service agreement compared to traditional utility rates. The exceptions are prospective purchasers of homes subject to the LeasePlus New Home Solar Plan, the Prepaid LeasePlus New Home Solar Plan, the Solar 20/20 Plan Agreement & Covenants and the Fixed Rate Power Purchase Agreement. These customers are not subject to credit checks and these agreements are freely transferable.

We maintain reporting and controls in place to monitor the timeliness of customer payments. As of December 31, 2021, approximately 91% of all payments received pursuant to our solar service agreements are collected via Automated Clearing House payments (i.e., the funds are deducted automatically on a monthly basis from the customer's bank account), approximately 5% are collected via automatic recurring credit card payments and approximately 4% are collected through non-recurring means. If a customer becomes delinquent on one or more monthly installment payments, we typically begin a collection process with respect to the customer.

In the event that a customer elects to sell his or her home, the customer's solar service agreement may be transferred to the prospective purchaser through prescribed reassignment procedures, subject to certain conditions related to the prospective purchaser's creditworthiness. To initiate the reassignment process, the customer must notify us of the pending sale, after which we will provide a copy of the solar service agreement, including any amendments, to the prospective purchaser. The prospective purchaser will then be required to complete a customer profile and a credit application. With the exception of customers originated through our homebuilder channel, each prospective purchaser's FICO® Score and Experian TEC Score (Telecommunications, Energy and Cable) will be evaluated on the same basis as a customer in a new origination and will be evaluated by our computer auto-decisioning system.

In the event that a prospective purchaser does not meet our credit criteria or elects not to be subject to such credit inquiry, the current customer will be required to prepay the solar service agreement in full or the prospective purchaser will be required to provide a security deposit in cash in accordance with such customer's solar service agreement or our transfer policy prior to the approval of the reassignment. Each such security deposit is held in a separate account until the earlier of (a) the time at which the prospective purchaser satisfies our established credit criteria or (b) upon 12 consecutive months of on-time payments following the date of reassignment.

On a case-by-case basis, we may remove a solar energy system and, if applicable, energy storage system from the property on which it is installed if, among other reasons, the solar service agreement is canceled or otherwise terminated, the customer or solar energy system and energy storage system is relocated, any of the component parts are damaged or the new homeowner rejects the reassignment of the solar service agreement upon home transfer, if applicable.

## **Monitoring and Maintenance Service and Warranties**

Our residential solar service agreements typically are accompanied by a warranty and/or monitoring and service agreement. The warranty and monitoring services provided with each type of solar service agreement vary but can include operations and maintenance, equipment repairs, monitoring or site power controls and management for both supply and demand. Additionally, our Sunnova Protect program offers monitoring, service and production guarantees across three tiers of service for solar energy systems owned by the homeowner and installed by a third party.

Regardless of the type of our solar service agreement, we provide ongoing service during the entire term of the customer relationship, including monitoring, maintenance and warranty services of the solar energy system and energy storage system, if applicable. We have an operations and maintenance administration organization consisting of administration staff and a dedicated residential monitoring and production team that evaluates the solar energy systems' and energy storage systems' performance daily. When a performance or operation issue is detected via our monitoring system, we provide or arrange for troubleshooting or field services as necessary. We rely on our dealer network and our own personnel to complete the field services required to maintain the solar energy systems. After completion of the resolution steps, the maintenance administration organization verifies remotely the issue has been resolved and the system or energy service is performing as expected.

Additionally, customers under our solar service agreements receive a range of warranties on the related solar energy systems and energy storage systems, including warranties for module production and against defects in workmanship and against component or materials breakdown. We also provide the customers with a warranty on roof penetrations of up to 10 years in compliance with applicable state, territorial or local law. Through our agreements with our dealers, the dealer is obligated, at its sole cost and expense, to correct defects in its installation work for a period of up to 10 years and provide a roof warranty on roof penetrations of 5 to 10 years. Furthermore, we provide a pass-through of the solar photovoltaic panel manufacturers' warranty coverage to our customers, generally of 25 years, and of the inverter and energy storage system manufacturers' warranty coverage, typically of 10 to 25 years. We typically exercise our rights under the manufacturer's equipment warranties or dealer installation warranties before incurring direct charges or costs. Many service expenses are borne by our dealers and not us directly because of the workmanship warranty provided by the dealers to us. Additionally, many component costs are covered by manufacturer warranties.

## **Seasonality**

The amount of electricity our solar energy systems produce is dependent in part on the amount of sunlight, or irradiation, where the assets are located. Because shorter daylight hours in winter months and poor weather conditions due to cloud cover, rain or snow results in less irradiation, the output of solar energy systems will vary depending on the season or the year. While we expect seasonal variability to occur, the geographic diversity in our assets helps to mitigate our aggregate seasonal variability.

Our Easy Plan PPAs with variable billing, Solar 20/20 Plan Agreements and Fixed Rate Power Purchase Agreements are subject to seasonality because we sell all the solar energy system's energy output to the customer at either a fixed price per kWh or indexed, variable rate per kWh. Our Easy Plan PPAs with balanced billing are not subject to seasonality (from a cash flow perspective or the customer's perspective) within a given year because the customer's payments are leveled on an annualized basis so we insulate the customer from monthly fluctuations in production. In addition, energy production true-ups and production estimate adjustments for Easy Plan PPAs with balanced billing are calculated over an entire year. However, our Easy Plan PPAs with balanced billing are subject to seasonality from a revenue recognition perspective because, similar to the Easy Plan PPAs with variable billing, we sell all the solar energy system's energy output to the customer. Our lease agreements are not subject to seasonality within a given year because we lease the solar energy system to the customer at a fixed monthly rate and the reference period for any production guarantee payments is a full year. Finally, our loan agreements are not subject to seasonality within a given year because the monthly installment payments for the financing of the customers' purchase of the solar energy system are fixed and the reference period for any production guarantee is a full year.

In addition, weather may impact our dealers' ability to install solar energy systems and energy storage systems. For example, the ability to install solar energy systems and energy storage systems during the winter months in the Northeastern U.S. is limited. This can impact the timing of when solar energy systems and energy storage systems can be installed and when we can acquire and begin to generate revenue from solar energy systems and energy storage systems.

## **Intellectual Property**

We rely on intellectual property laws, primarily a combination of copyright and trade secret laws in the U.S., as well as license agreements and other contractual provisions, to protect our proprietary technology. We also rely on several registered

and unregistered trademarks to protect our brand. In addition, we generally require our employees and independent contractors involved in the development of intellectual property on our behalf to enter into agreements to limit access to, and disclosure and use of, our confidential information and proprietary technology. We also continue to expand our technological capabilities through licensing technology and intellectual property from third parties.

## **Government Regulations**

While we are not regulated as extensively as a public utility where our business is conducted in the U.S., we are subject to various national, state, territorial and other local regulatory regimes. For example, in California and New York, we are subject to regulations concerning marketing and contracting promulgated by state public utility commissions. In some states, such as Arizona and Florida, we are limited to offering only a lease agreement or a loan agreement to homeowners and are prohibited from offering a PPA, which is deemed a retail sale of electricity in such states and can only be made by a regulated utility. In Puerto Rico, we are subject to regulation as an electric power company by the Puerto Rico Energy Bureau and are required to comply with certain filing, certification, reporting and annual fee requirements. Regulation by the Puerto Rico Energy Bureau as an electric power company does not currently subject us to centralized utility-like regulation or require the Puerto Rico Energy Bureau's approval of charges to customers.

To operate the solar energy systems and energy storage systems, our dealers work with customers to obtain interconnection permission from the applicable local electric distribution utility. In many states and territories, by statute, regulations or administrative order, there are standardized procedures for interconnecting distributed residential solar energy and related energy storage systems to the electric utility's local distribution system. In some states, such as New Jersey and Massachusetts, certain utilities such as municipal utilities or electric cooperatives are exempt from some interconnection requirements. Provided that the system and energy, if applicable, qualify for the standardized procedures based upon size, use of industry-standard components, location on a suitable local network and other applicable requirements, utilities in such states or territories are required to interconnect qualifying solar energy systems and energy storage systems on an expedited basis relative to non-qualifying systems. Expedited procedures, when available, streamline the installation and interconnection process for solar energy systems and energy storage systems to begin operating. In the U.S. states and territories in which we operate, our dealers typically obtain interconnection permission on behalf of us and our customers using standardized interconnection procedures.

In certain states, such as California, independent solar energy producers who enter into lease agreements, PPAs or loan agreements with homeowners for residential solar energy systems are required to make certain disclosures to the homeowner regarding the solar energy system and the terms of the agreement and record a notice against the title to the real property on which the electricity is generated and against the title to any adjacent real property on which the electricity will be used. The notice does not constitute a title defect, lien or encumbrance against the real property.

Our operations, as well as the operation of our dealers, are subject to stringent and complex federal, state, territorial and local laws, including regulations governing the occupational health and safety of employees, wage regulations and environmental protection. For example, we and our dealers are subject to the regulations of the U.S. Department of Labor, Occupational Safety and Health Administration ("OSHA"), the U.S. Department of Transportation ("DOT"), the U.S. Environmental Protection Agency ("EPA") and comparable state and territorial entities that protect and regulate employee health and safety and the environment. These include, for example, regulations regarding the disposal of solid and hazardous wastes from the solar energy systems we own. In addition, environmental laws can result in the imposition of liability in connection with end-of-life system disposal, such as in connection with disposal and recycling of batteries.

We and our dealers are also subject to laws and regulations relating to interactions with residential consumers, including those pertaining to sales and trade practices, privacy and data security, equal protection, consumer financial and credit transactions, consumer collections, mortgages and re-financings, home improvements, trade and professional licensing, warranties and various means of customer solicitation, as well as specific regulations pertaining to solar installations.

For a discussion of these and other regulatory requirements, see "*Risk Factors—Risks Related to Regulations*".

## **Government Incentives**

U.S. federal, state, territorial and local governments have established various incentives and financial mechanisms to reduce the cost of solar energy and to accelerate the adoption of solar energy. These incentives come in various forms, including rebates, tax credits and other financial incentives such as payments for renewable energy credits associated with renewable energy generation, exclusion of solar energy systems and energy storage systems from property tax assessments, system performance payments, accelerated depreciation and net energy metering, or net metering, programs. These incentives make solar energy system and energy storage system ownership more attractive to some homeowners and enable us to charge

our customers lower prices to purchase energy generated by our solar energy systems and energy storage systems or to lease or purchase our solar energy systems and energy storage systems than they would normally be expected to pay for utility-provided energy. These incentives also help catalyze private sector investments in solar energy and efficiency measures, including the installation and operation of residential and commercial solar energy systems and energy storage systems.

Net metering is one of several key policies that have enabled the growth of distributed solar in the U.S., providing significant value to certain customers with solar energy systems for the electricity generated by their systems but not directly consumed on site. Net metering allows a customer to pay the local electric utility only for power usage net of excess production from the customer's solar energy system. Customers receive a credit for the energy an interconnected solar energy system generates in excess of that needed by the home, which is provided to the electrical grid. The credit offsets energy usage incurred by the customer at times when the customer requires more electricity than is generated by the solar energy system. In many markets, this credit is equal to the residential retail rate for electricity and in other markets the rate is less than the retail rate and may be based, for example, in whole or in part on the centralized electric utility's "avoided cost" for electricity that it would have had to generate or purchase at wholesale to meet the customer's demand. Furthermore, when coupled with a time of use rate program in certain electric utility territories, a homeowner may offset usage billed at lower rates with net metering credits provided at a higher rate.

For these reasons, net metering credits incentivize consumers to use distributed solar in certain jurisdictions, including some of those in which we operate. In some electric utility territories, any excess credits are rolled over to the next billing period and may also be cashed out later at a rate lower than the retail rate. Most states, the District of Columbia, Puerto Rico and Guam have adopted some form of net metering by statute, regulation, administrative order or a combination thereof, although some of these jurisdictions provide for a credit at less than the retail rate. In some jurisdictions, centralized electric utilities have also adopted net metering on a voluntary basis. Some of the states in which we operate, including New Jersey, Maryland, Massachusetts, Rhode Island, Delaware, Illinois and Hawaii, have in place policies that limit or permit utilities to limit the amount of total electricity generated through net metering and/or solar energy systems, and some of these states, as well as other states or territories, including Pennsylvania, Nevada, New Mexico and Guam, have policies that limit or place conditions on the size of individual solar energy systems.

Net metering and other incentive programs are subject to legislative and regulatory review in many states and territories in which we operate and the availability and value of these programs could be limited, reduced or phased out. Some states such as Arizona, Nevada and Kentucky have reduced their net metering credits. Further reviews by these states and others are anticipated and the subsequent amount of net metering credits will continue to be assessed over the next few years in states that have net metering policies. For example, net metering rates in California, Puerto Rico and South Carolina are up for consideration currently or over the next few years. California is currently considering a proposed decision by an administrative law judge on a successor program to its current net metering program that, if adopted by the California Public Utilities Commission, would reduce the value of net metering credits from the retail rate to an avoided cost rate, impose a monthly charge on customers with solar systems, provide customers with temporary market transition credits and reduce the period under which legacy net metering customers can remain under the prior net metering programs from 20 to 15 years. The California Public Utilities Commission is expected to act on this proposed ruling in 2022 and may adopt or modify the initial decision or consider an alternate decision. New York is working on developing an alternative to net metering through a Value of Distributed Energy Resources credit that would allow certain customers to receive direct monetary compensation as opposed to a net metering credit. This program was expected to be implemented in 2021 but has been delayed due to not enough utilities having deployed smart meters that would enable an accurate valuation of distributed energy production. New York is keeping net metering in place with a nominal customer benefit charge added for solar customers installing solar energy systems after January 1, 2022, although that charge is undergoing a legal challenge and legislation has been introduced that would eliminate it entirely. As a result of the Definitive Restructuring Support Agreement ("DRSA") between the PREPA and its creditors submitted in May 2019, which is currently pending before the U.S. District Court for the District of Puerto Rico, net metering customers in Puerto Rico may be impacted by transition charges and other requirements. Several legislators publicly oppose the DRSA and negotiations on the DRSA continued throughout 2021.

In September 2020, the Federal Energy Regulatory Commission ("FERC") issued Order 2222 directing regional transmission operators ("RTO") and independent system operators ("ISO") to remove barriers to the participation of distributed energy resources ("DERs") in wholesale electricity markets on an aggregated basis. While the FERC's order is subject to challenge as well as further proceedings concerning the implementation of the order's directives in each of the RTOs/ISOs, Order 2222 provides a framework that once implemented will allow for aggregated DERs to be compensated through the wholesale market for the capacity, energy and ancillary services they provide. In late 2020, we began offering our lease storage customers participation in the ConnectedSolutions demand response program through EverSource and National Grid utilities in Massachusetts. We expanded these offerings for our Connecticut, Rhode Island and New Hampshire customers in early 2021, including loan storage customers. Our storage customers in California have the option to participate in the demand response

market to help California manage its electricity demand, where we manage the battery storage system in response to price signals in the energy market for customers served by Pacific Gas and Electric Company and San Diego Gas & Electric utilities and work with Clean Power Alliance in Southern California Edison territory to provide demand response and resource adequacy. Additionally, we are leading a voltage support pilot within National Grid's service territory where a portion of its fleet is increasing efficiency of the distribution network through a managed inverter program. Further, we will seek to participate in market specific opportunities and negotiate bilateral agreements, where appropriate, to enroll systems and customers in energy management and demand response programs.

Many states and territories have adopted renewable portfolio energy production requirements. The majority of states, the District of Columbia and Puerto Rico have adopted a renewable portfolio standard ("RPS") that requires regulated electric utilities to generate or procure a specified percentage of total electricity delivered to customers in the state or territory from eligible renewable energy sources, such as solar energy systems, by a series of specified dates. In addition, several other states have set voluntary goals for renewable generation.

Roughly one-third of states with RPS policies require a minimum portion of the RPS be met by electric generation from solar energy systems, with substantial penalties for non-compliance. To demonstrate compliance with such RPS mandates, electric generation providers must submit SRECs to the applicable authority. One SREC is produced by one megawatt-hour of energy generated by an eligible solar energy system. The specified amount of energy is dependent on system size and when the solar energy system receives a "permission to operate" order. Electric generation providers can either generate their own SRECs through solar energy systems they own or they can purchase SRECs owned by other parties.

SRECs are a distinct product, separate from the electricity generated by solar energy systems. We and our customers apply for and receive SRECs in certain jurisdictions for power generated by the solar energy systems we own. As a distinct product from the electricity generated by solar energy systems, SRECs represent a separate source of cash flow from the sale of electricity. SRECs can be sold with or without the actual electricity associated with the renewable-based generation. Solar energy system owners are typically able to sell SRECs to electric generation providers, such as electric utilities, or in the SREC commodity market. We have hedged a portion of our expected SREC production under fixed price forward contracts. The forward contracts require us to physically deliver the SRECs upon settlement.

Several states have an energy storage mandate or policies designed to encourage the adoption of storage. For example, California offers a cash rebate for storage installations through the Self Generation Incentive Program and Massachusetts and New York offer performance-based financial incentives for storage. Storage installations also are supported in certain states by state public utility commission policies that require utilities to consider alternatives such as storage before they can build new generation. In February 2018, the FERC issued Order 841 directing RTOs and ISOs to remove barriers to the participation of storage in wholesale electricity markets and to establish rules to help ensure storage resources are compensated for the services they provide. An appeal of Order 841 filed by utility trade associations and other parties challenging the extent of the FERC's jurisdiction over storage resources connected to distribution systems was rejected by the U.S. Court of Appeals for the D.C. Circuit in July 2020.

Some state and territorial governments, centralized electric utilities, municipal utilities and co-operative utilities offer a cash rebate or other payment incentive for the installation and operation of a solar energy or energy storage system or to customers undertaking other energy efficiency measures. Capital cost or "up-front" rebates provide funds to solar customers or developers or solar energy system owners, such as us, based on the cost, size or expected production of a customer's solar energy system. Performance-based incentives and tariff-based incentives provide payments to solar customers or a solar energy system owner based on the energy generated by the solar energy system during a pre-determined period. These rebates and payment incentives, when available, improve the economics of distributed solar to both us and our customers.

The economics of purchasing a solar energy system and energy storage system are also improved by eligibility for accelerated depreciation, which allows for the depreciation of equipment according to an accelerated schedule set forth by the IRS. This accelerated schedule allows a taxpayer to recognize the depreciation of tangible solar property on a five-year basis even though the useful life of such property is greater than five years. The acceleration of depreciation creates a valuable tax benefit that increases the return on investment from a solar energy system and energy storage systems. We benefit from accelerated depreciation on the solar energy systems and energy storage systems we own.

The federal government currently provides business investment tax credits under Section 48(a) (the "Section 48(a) ITC") and residential energy credits under Section 25D (the "Section 25D Credit") of the U.S. Internal Revenue Code of 1986, as amended (the "Code"). In December 2020, the U.S. enacted the Taxpayer Certainty and Disaster Tax Relief Act of 2020 (the "TCDTR Act") featuring significant tax provisions, including certain extensions and modifications of the Section 48(a) ITC and the Section 25D Credit. Starting January 1, 2020, the Section 48(a) ITC allows taxpayers to claim a federal tax credit equal to

30% of the basis of eligible solar property that began construction before 2020 if placed in service before 2026. Under the TCDTR Act, the Section 48(a) ITC percentage decreases to 26% for eligible solar property that began construction during 2020, 2021 or begins construction in 2022, 22% if construction begins in 2023 and 10% if construction begins after 2023 or if the property is placed into service after 2025. IRS guidance as to when construction is considered to begin for such purposes includes a safe harbor that may apply when a taxpayer pays or incurs (or in certain cases, a contractor of the taxpayer pays or incurs) 5% or more of the costs of a solar energy system before the end of the applicable year (the "5% ITC Safe Harbor"), even though the solar energy system is not placed in service until after the end of that year. We are also able to claim the Section 48(a) ITC for energy storage systems installed in conjunction with solar energy systems as long as they are only charged by on-site solar. A reduced Section 48(a) ITC may be available for energy storage systems charged in part from sources other than on-site solar as long as the solar energy systems are charged at least 75% by on-site solar.

Until 2023, the Section 25D Credit allows an individual to claim a federal tax credit equal to 26% of qualified expenditures with respect to a residential solar energy system that is owned by the homeowner. This 26% rate was reduced from 30% for solar energy systems placed in service prior to 2020 and, under the TCDTR Act, is scheduled to be reduced to 22% for solar energy systems placed in service during 2023. The Section 25D Credit is scheduled to expire under the TCDTR Act effective January 1, 2024. The Section 25D Credit reduces the cost of consumer ownership of solar energy systems, such as under loan agreements.

Certain states and territories in which we operate offer a personal and/or corporate investment or production tax credit for solar energy. Further, most of the states and local jurisdictions have established sales and/or property tax incentives for renewable energy systems that include exemptions, exclusions, abatements and credits. For a discussion of these and other governmental incentives, see "*Risk Factors—Risks Related to Regulations*".

## **Competition**

We believe our primary competitors are centralized electric utilities that supply electricity to our potential customers. We compete with these centralized electric utilities primarily based on price (cents per kWh), predictability of future prices (by providing pre-determined annual price escalations, where applicable), reliability and the ease by which customers can switch to electricity generated by solar energy systems. We believe we compete favorably with centralized electric utilities based on these factors in the states and territories where our solar service agreements are offered.

We also compete with retail electric providers and independent power producers that are not regulated like centralized electric utilities but have access to the centralized utilities' electricity transmission and distribution infrastructure pursuant to state, territorial and local pro-competitive and consumer choice policies. Furthermore, we compete with solar companies with vertically integrated business models, such as Sunrun Inc. and SunPower Corporation. In addition, we compete with other solar companies who sell or finance products directly to consumers, inclusive of programs like Property-Assessed Clean Energy, such as Goodleap, LLC and Mosaic, Inc. For example, we face competition from solar installation businesses that seek financing from external parties or utilize competitive loan products or state and local programs. In the future, we may also compete with solar companies that have business models similar to our own, some of which are marketed to potential customers by our dealers. We compete with these companies based on the competitiveness of the products, the overall customer relationship and the commissions we are willing to pay dealers for the origination of new customers.

## **Suppliers**

The major components of the solar energy systems include solar photovoltaic panels that turn sunlight into direct current ("DC") electricity, inverters that convert solar-generated DC electricity into alternating current ("AC") electricity, the form of energy used by most standard household appliances, racking systems that attach the solar photovoltaic panels to the roof or ground, a remote monitoring system that measures and monitors all energy generated by the solar energy system and provides alerts about system performance and, in some cases, an energy storage system that stores excess energy generated by the photovoltaic panels to supplement energy supply during hours when energy consumption exceeds energy produced by the photovoltaic panels. The solar energy system may also be connected to the electrical grid or other supplemental energy sources, such as fuel cells and generators, with additional wiring and electrical hardware.

We require our dealers to choose all major components of the solar energy system or energy storage system from a pre-approved list of manufacturers and models. By allowing dealers to choose from several manufacturers and models without direct supplier obligations, we have greater flexibility to satisfy customer demand, ensure competitive pricing and adequate supply of components and reduce the concentration of warranty risks. We have entered into master contractual arrangements with each vendor on our pre-approved list of vendors that defines the general terms and conditions of our purchases and those of our dealers, including warranties, product specifications, indemnities, delivery and certain other terms. Our dealers typically

purchase solar panels and inverters on an as-needed basis from our pre-approved suppliers at then-prevailing prices pursuant to purchase orders having the benefit of our master contractual arrangements. At times, we will also procure equipment directly and sell it to our dealers.

For installations of solar energy systems on new homes, we negotiate pricing directly with the manufacturers for all components used in the solar energy systems. Based upon our production planning model we position and deliver the material on a just-in-time basis to our dealers to meet the home builder requirements.

We evaluate and qualify our manufacturers and their product offerings based on total cost of ownership, reliability, warranty coverage, credit quality and other factors. All equipment must be listed on the California Energy Commission's SB1 List of Eligible Equipment. All approved solar photovoltaic panels must have a minimum 25-year power warranty and 10-year workmanship warranty. We also require approved solar photovoltaic panels to undergo extended reliability testing as an indication of a 25-year or greater lifetime. Beginning in April 2016, we required all our manufacturers carry a 25-year warranty, or offer a warranty extension to 25 years, on all product offerings to be eligible for inclusion on our approved vendor list. Prior to April 2016, we sourced inverter manufacturers offering a warranty of no less than 10 years. All approved racking systems are required to be solar energy system Fire Class Rated "A" with a Type 1 module per recent California Fire requirements. Additionally, the racking system must have a Professional Engineers stamp as proof of structural analysis and wind speed certification and the racking system must be certified as conforming to the integrated grounding and bonding requirements of UL Subject 2703. All replacement parts and components must meet or exceed the same standards as those of the original installation.

In September 2018, the Office of the United States Trade Representative ("USTR") determined to modify its prior actions in its investigation into certain acts, policies and practices of the government of China related to technology transfer, intellectual property and innovation pursuant to Section 301 of the Trade Act of 1974 by imposing an additional 10% duty on \$200 billion worth of products from China, including inverters. In May 2019, the tariffs were increased from 10% to 25% and may be raised by the USTR in the future. If inverter production is not shifted to other countries before any tariff rate increase on these products, the price of inverters could increase. However, the cost of solar photovoltaic panels and inverters generally do not comprise a meaningful portion of our operating expenses. In addition, many of the solar photovoltaic panel and inverter manufacturers on our approved vendor list are from countries other than China, including Canada, the U.S., Mexico, Vietnam and Malaysia. See *"Risk Factors—Risks Related to the Solar Industry—Increases in the cost or reduction in supply of solar energy system and energy storage system components due to tariffs or trade restrictions imposed by the U.S. government could have an adverse effect on our business, financial condition and results of operations"*. These tariffs have not had a material impact on our business or our operations.

## **Human Capital Management**

Our core company values are service, synergy and sustainability. Our core value of service reflects our belief in providing a better energy service to the communities we serve. Our core value of sustainability reflects our belief we do well by doing good. Our core value of synergy reflects our belief we can achieve more by working together. We are focused on collectively advancing Sunnova and the energy industry through collaboration, integrity, respect and long-term trusted relationships, which includes our relationship with our employees.

### *Oversight and Management*

We recognize the diversity of our customers, employees and communities, and believe in creating an inclusive and equitable environment that represents a broad spectrum of backgrounds and cultures. Working under these principles, our human resources department is tasked with managing employment-related matters, including recruiting and hiring, onboarding and training, retention, employee relations, compensation and benefits planning, performance management and professional development. Our Board and its committees provide oversight on certain human capital matters, including our inclusion and diversity programs and initiatives. Our management team regularly reports to the Board regarding programs and initiatives, including compensation, healthcare and other benefits, turnover and retention, as well as our management development and succession planning practices and strategies. Our audit committee works closely with our enterprise risk management function to monitor current and emerging labor and human capital management risks and to mitigate exposure to those risks. Our nominating and corporate governance committee has oversight of our environmental, social and corporate governance practices and procedures and regularly evaluates the effectiveness of our social responsibility policies, goals and programs, which also include employee-related issues. Our compensation committee has oversight of the development, implementation and effectiveness of all pay and benefit programs, as well as succession planning. These reports and recommendations to the Board and its committees and their oversight are part of the broader framework that guides how Sunnova attracts, retains and develops a workforce that aligns with our values and strategies.

We regularly conduct anonymous surveys to seek feedback from our employees on a variety of topics, including but not limited to, confidence in company leadership, competitiveness of our compensation and benefits package, career growth opportunities and improvements on how we could make our company an employer of choice. The results are shared with our employees and reviewed by senior leadership, who analyze areas of progress or deterioration and prioritize actions and activities in response to this feedback to drive meaningful improvements in employee engagement. Our management and cross-functional teams also work closely to evaluate human capital management issues, such as retention, harassment and bullying and safety, as well as to implement measures to mitigate these risks. Our Chief Executive Officer ("CEO") regularly holds townhalls with employees to discuss operating results, announce important initiatives, recognize employees for years of service milestones and respond to employee questions. Employees are also encouraged to report compliance and ethics issues through our anonymous hotline if they feel uncomfortable speaking directly to their supervisor or management.

#### *Comprehensive Benefits*

We believe in investing in our workforce by offering competitive salaries and wages. We also offer comprehensive and competitive benefits to protect the health, wellbeing and financial security of our employees. To foster a stronger sense of ownership and align the interests of employees with our stockholders, eligible non-executive employees are able to participate in our broad-based stock incentive program.

#### *Training and Support*

To help our employees succeed in their roles, we emphasize continuous training and development opportunities. These opportunities are offered through e-learning, online/classroom training, online performance management and goal setting, one-on-one coaching, individual development planning and group training initiatives and cover a variety of topics, such as ethics, code of conduct, insider trading and workplace harassment.

#### *Safety*

We take our responsibility to ensure the health and safety of our employees very seriously. Our objective is for all employees and contractors to be free of work-related injuries, which are costly and often preventable. It is our goal every person goes home each day free from accidents and injuries. To that end, we have developed a detailed safety program that includes, but is not limited to, working at heights and roof safety protocols, motor vehicle safe driving operations, electric shock mitigation procedures and pre-storm weather hazard monitoring in the areas in which we operate.

With respect to the COVID-19 pandemic and as a designated essential service, we have adopted safety guidelines and practices that have enabled us to maintain business continuity and keep our employees safe. These practices have included retaining the services and assistance of a reputable health, safety and security advisory consulting firm, ongoing safety and health training for existing and new employees, remote working, adjusted attendance policies, health screening of employees for reported exposure or symptoms, enforcing mandatory periods of self-isolation, contact tracing, provisions for mask wearing, modifications to the in-office work environment, social distancing, increased sanitation stations and increased cleaning of offices and workstations. Our Board and management continue to monitor the unfolding COVID-19 pandemic very closely, including the effect on internal controls over financial reporting and information technology security. See "*Risk Factors—Risks Related to Our Business—The ongoing COVID-19 pandemic could adversely affect our business, financial condition and results of operations*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations—Company Overview—Recent Developments*" for additional information regarding our response to the COVID-19 pandemic.

#### *Employee Base*

As of December 31, 2021, we had 736 full-time employees and 738 total employees. We also engage independent contractors and consultants. We are not party to any collective bargaining agreements and have not experienced any strikes or work stoppages.

#### **Insurance**

We maintain the types and amounts of insurance coverage we believe are consistent with customary industry practices. Our insurance policies cover employee and contractor-related accidents and injuries, property damage, business interruption, storm damage, inventory, vehicles, fixed assets, facilities, cyber risk, crime and general liability deriving from our activities. Our insurance policies also cover directors, officers, employment practices and fiduciary liabilities. We may also be covered for certain liabilities by insurance policies owned by third parties, including, but not limited to, our dealers and vendors.

## Item 1A. Risk Factors.

Investing in our common stock involves a high degree of risk. You should carefully consider the risks described below together with all of the other information included in this Annual Report on Form 10-K, including the section titled "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" and our consolidated financial statements and related notes, before deciding to invest in our common stock. We may experience additional risks and uncertainties not currently known to us; or, as a result of developments occurring in the future, conditions that we currently deem to be immaterial may also materially and adversely affect our business, financial condition, cash flows and results of operations. If any of the risks actually occur, they may materially and adversely affect our business, financial condition, cash flows and results of operations. In this event, the trading price of our common stock could decline and you could lose all or part of your investment in us.

### Risks Related to Our Business

#### *The ongoing COVID-19 pandemic could adversely affect our business, financial condition and results of operations.*

The ongoing COVID-19 pandemic has resulted in and may continue to result in widespread adverse impacts on the global economy. We have experienced some resulting disruptions to our business operations as the COVID-19 virus has continued to evolve and circulate through the states and U.S. territories in which we operate. We and our dealers modified certain business and workforce practices (including those related to new contract origination, installation and servicing of solar energy systems and employee work locations) to conform to government restrictions and best practices encouraged by governmental and regulatory authorities. Such modifications have allowed our dealers to continue to install and us to continue to service solar energy systems, but may also disrupt our operations, impede productivity or otherwise be ineffective in the future. If there are additional outbreaks of the COVID-19 virus or other viruses or more stringent health and safety guidelines are adopted, our and our dealers' ability to continue performing installations and service calls may be adversely impacted. A significant or extended decline in new contract origination may have a material adverse effect on our business, cash flows, liquidity, financial condition and results of operations.

There is considerable uncertainty regarding the extent and duration of governmental and other measures implemented to try to slow the spread of the COVID-19 virus, such as large-scale travel bans and restrictions, border closures, quarantines, shelter-in-place orders and business and government shutdowns. Recently, states that took steps to reopen their economies experienced a subsequent surge in cases of COVID-19, causing these states to cease such reopening measures in some cases and reinstitute restrictions in others. Restrictions of this nature have caused, and may continue to cause, us and our dealers to experience operational delays and may cause milestones or deadlines relating to our exclusivity arrangements to be missed. To date, we have not received notices from our dealers regarding performance delays resulting from the COVID-19 pandemic; however, we have seen delays in most jurisdictions from whom we must receive permission to operate for our solar energy systems to be placed in service. Worsening economic conditions could result in less favorable outcomes over time, which would impact our future financial performance. Further, the effects of the economic downturn associated with the COVID-19 pandemic may increase unemployment and reduce consumer credit ratings and credit availability, which may adversely affect new customer origination and our existing customers' ability to make payments on their solar service agreements. Periods of high unemployment and a lack of availability of credit may lead to increased delinquency and default rates. If existing economic conditions continue for a prolonged period of time or worsen, delinquencies on solar service agreements could increase, which would also negatively impact our future financial performance and the price of our common stock. Finally, if supply chains

become significantly disrupted due to additional outbreaks of the COVID-19 virus or other viruses or more stringent health and safety guidelines are implemented, our ability to install and service solar energy systems could become adversely impacted.

We cannot predict the full impact the COVID-19 pandemic or the significant disruption and volatility currently being experienced in the capital markets will have on our business, cash flows, liquidity, financial condition and results of operations at this time due to numerous uncertainties. The ultimate impact will depend on future developments, including, among other things, the ultimate duration of the COVID-19 virus, the distribution, acceptance and efficacy of the vaccine, the depth and duration of the economic downturn and other economic effects of the COVID-19 pandemic, the consequences of governmental and other measures designed to prevent the spread of the COVID-19 virus, actions taken by governmental authorities, customers, dealers and other third parties, our ability and the ability of our customers, potential customers and dealers to adapt to operating in a changed environment and the timing and extent to which normal economic and operating conditions resume.

***Historically, we have incurred operating and net losses and we may be unable to achieve or sustain profitability in the future.***

We incurred operating losses of \$54.9 million, \$35.8 million and \$22.3 million and net losses of \$147.5 million, \$307.8 million and \$133.4 million for the years ended December 31, 2021, 2020 and 2019, respectively. These historical operating and net losses were due to a number of factors, including increased expenses to fund our growth and related financing needs. We expect to incur significant expenses as we finance the expansion of our operations and implement additional internal systems and infrastructure to support our growth. We do not know whether our revenue will grow rapidly enough to absorb these costs. Our ability to achieve profitability depends on a number of factors, including:

- growing our customer base and originating new solar service agreements on economic terms;
- maintaining or lowering our cost of capital;
- reducing operating costs by optimizing our operations and maintenance processes;
- maximizing the benefits of our dealer network;
- finding additional tax equity investors and other sources of institutional capital; and
- the continued availability of various governmental incentives for the solar industry.

Even if we do achieve profitability, we may be unable to sustain or increase our profitability in the future.

***Our growth strategy depends on the continued origination of solar service agreements by us and our dealers.***

Our growth strategy depends on the continued origination of solar service agreements by us and our dealers. We may be unable to originate additional solar service agreements and related solar energy systems and energy storage systems in the numbers or at the pace we currently expect for a variety of reasons, including, among other things, the following:

- demand for solar energy systems and energy storage systems failing to develop sufficiently or taking longer than expected to develop;
- residential solar energy technology being available at economically attractive prices as a result of factors outside of our control, including utility prices not rising as quickly as anticipated;
- issues related to identifying, engaging, contracting, compensating and maintaining relationships with dealers and the negotiation of dealer agreements;
- issues related to financing, construction, permitting, the environment, governmental approvals and the negotiation of solar service agreements;
- a reduction in government incentives or adverse changes in policy and laws for the development or use of solar energy, including net metering, SRECs and tax credits;
- other government or regulatory actions that could impact our business model;
- negative developments in public perception of the solar energy industry; and
- competition from other solar companies and energy technologies, including the emergence of alternative renewable energy technologies.

If the challenges of originating solar service agreements and related solar energy systems and energy storage systems increase, our pool of available opportunities may be limited, which could have a material adverse effect on our business, financial condition, cash flows and results of operations.

***If we fail to manage our operations and growth effectively, we may be unable to execute our business plan, maintain high levels of customer service or adequately address competitive challenges.***

We have experienced significant growth in recent periods measured by our number of customers and we intend to continue our efforts to expand our business within existing and new markets. This growth has placed, and any future growth may place, a strain on our management, operational and financial infrastructure. Our growth requires our management to devote a significant amount of time and effort to maintain and expand our relationships with customers, dealers and other third parties, attract new customers and dealers, arrange financing for our growth and manage our expansion into additional markets.

In addition, our current and planned operations, personnel, information technology and other systems and procedures might be inadequate to support our future growth and may require us to make additional unanticipated investments in our infrastructure. Our success and ability to further scale our business will depend, in part, on our ability to manage these changes in a cost-effective and efficient manner.

If we cannot manage our operations and growth, we may be unable to meet our expectations regarding growth, opportunity and financial targets, take advantage of market opportunities, execute our business strategies, meet our tax equity financing commitments or respond to competitive pressures. This could also result in declines in quality or customer satisfaction, increased costs, difficulties in introducing new offerings or other operational difficulties. Any failure to effectively manage our operations and growth could adversely impact our reputation, business, financial condition, cash flows and results of operations.

***Our growth is dependent on our dealer network and our failure to retain or replace existing dealers or to grow our dealer network could adversely impact our business.***

Our dealer network is an integral component of our business strategy and serves as the means by which we are able to originate solar service agreements and related solar energy systems and energy storage systems in existing and prospective markets. Poor performance by our dealers in originating solar service agreements could have a material adverse effect on our business, financial condition and results of operations. We have in the past had disputes and litigation with certain of our dealers over their performance.

As we grow, particularly in new jurisdictions, we will need to expand our dealer network. We are subject to significant competition for the recruitment and retention of dealers from our competitors and we may not be able to recruit new or replacement dealers in the future. We compete for our dealers with other solar service providers primarily based on the amount and timing of payments for originating solar service agreements, financial ability and our suite of technology tools.

Most of our dealers are not restricted in their ability to work with our competitors and are not obligated to continue working with us. In the past, some of our dealers have chosen to work with competitors of ours or terminated their relationships with us and dealers may reduce or terminate their work with us in the future. The departure of a significant number of our dealers for any reason, or the failure to replace departing dealers in the event of such departures, could reduce our potential origination opportunities and could have a material adverse effect on our business, financial condition and results of operations. As we develop and expand our Sunnova Protect services, dealers may view us as a competitor and choose to end their relationship with us.

Additionally, dependence on any one dealer or small group of dealers further concentrates our exposure to risks related to termination of the dealer arrangement, poor service provided by such dealer, the deterioration in financial condition of the dealer and other risks inherent in such a relationship. For the years ended December 31, 2021, 2020 and 2019, Trinity accounted for approximately 15%, 28% and 41% of our net originations, respectively. Although we have entered into a four-year exclusivity agreement with Trinity, pursuant to which Trinity may only originate solar service agreements for us, there are various exceptions to this obligation. For a discussion of exclusivity arrangements with certain of our dealers, see "Business—Our Relationships with Our Dealers".

***If we or our dealers fail to hire and retain a sufficient number of employees and service providers in key functions, our growth and our ability to timely complete customer projects and successfully manage customer accounts would be constrained.***

To support our growth, we and our dealers need to hire, train, deploy, manage and retain a substantial number of skilled employees, engineers, installers, electricians and sales and project finance specialists. Competition for qualified personnel in our industry has increased substantially, particularly for skilled personnel involved in the installation of solar energy systems. We and our dealers also compete with the homebuilding and construction industries for skilled labor. These industries are cyclical and when participants in these industries seek to hire additional workers, it puts upward pressure on our and our

dealers' labor costs. Companies with whom our dealers compete to hire installers may offer compensation or incentive plans that certain installers may view as more favorable. As a result, our dealers may be unable to attract or retain qualified and skilled installation personnel. The further unionization of our industry's labor force or the homebuilding and construction industries' labor forces, either in response to the COVID-19 pandemic or otherwise, could also increase our dealers' labor costs. Shortages of skilled labor could significantly delay a project or otherwise increase our dealers' costs. Further, we need to continue to increase the training of our customer service team to provide high-end account management and service to homeowners before, during and following the point of installation of our solar energy systems. Identifying and recruiting qualified personnel and training them requires significant time, expense and attention. It can take several months before a new customer service team member is fully trained and productive at the standards we have established. If we are unable to hire, develop and retain talented customer service or other personnel, we may not be able to grow our business.

***We do not directly control certain costs related to our business, which could put us at a disadvantage relative to companies who have a vertically integrated business model.***

We do not have direct control over the costs our suppliers charge for the components of our solar energy systems and energy storage systems or the costs to our dealers of installing and marketing such products. This may lead us to charge higher prices for our solar energy systems and energy storage systems than our competitors with a vertically integrated business model, causing us to be unable to maintain or increase market share.

***We may be unsuccessful in introducing new service and product offerings, including our distributed energy storage services and energy storage management systems.***

We intend to introduce new offerings of services and products to both new and existing customers in the future, including home automation products and additional home technology solutions. We may be unsuccessful in significantly broadening our customer base through the addition of these services and products within our current markets or in new markets we may enter. Additionally, we may not be successful in generating substantial revenue from any additional services and products we may introduce in the future and may decline to initiate new product and service offerings.

***Our business is concentrated in certain markets, putting us at risk of region-specific disruptions.***

As of December 31, 2021, approximately 36%, 14% and 13% of our solar energy systems were located in California, New Jersey and Puerto Rico, respectively. In addition, we expect much of our near-term future growth to occur in these same markets, further concentrating our customer base and operational infrastructure. Accordingly, our business and results of operations are particularly susceptible to adverse economic, regulatory, political, weather and other conditions in such markets and in other markets that may become similarly concentrated. See "*Certain of our solar energy systems are located in, and we conduct business in, Puerto Rico and weakness in the fiscal health of the government and PREPA, the damage caused by hurricanes, a series of earthquakes that affected the island in December 2019 and early 2020 and potential tax increases that may increase our cost of conducting business in Puerto Rico, create uncertainty that may adversely impact us. In addition, we are subject to administrative proceedings instituted by the Puerto Rico Energy Bureau*" and "*General Risk Factors—We are not able to insure against all potential risks and we may become subject to higher insurance premiums*". Any of these conditions, even if only in one such market, could have a material adverse effect on our business, financial condition and results of operations. In addition, all of our current solar energy systems are located in the U.S. and its territories, which makes us particularly susceptible to adverse changes in U.S. tax laws.

***Certain of our solar energy systems are located in, and we conduct business in, Puerto Rico and weakness in the fiscal health of the government and PREPA, the damage caused by hurricanes, a series of earthquakes that affected the island in December 2019 and early 2020 and potential tax increases that may increase our cost of conducting business in Puerto Rico, create uncertainty that may adversely impact us. In addition, we are subject to administrative proceedings instituted by the Puerto Rico Energy Bureau.***

Puerto Rico is a significant market for our business, representing 13% and 15% of our solar energy systems as of December 31, 2021 and 2020, respectively, and has suffered from significant economic difficulties in recent years. As a result of the continued weakness of the Puerto Rico economy, liquidity constraints and a lack of market access, the credit ratings of the Puerto Rico government's general obligation bonds and guaranteed bonds, as well as the ratings of most of the Puerto Rico public corporations, including PREPA, are non-investment grade by Moody's, S&P and Fitch Ratings.

Puerto Rico has also enacted certain measures that could increase the cost of solar energy systems. In 2015, the Puerto Rico government increased the sales and use tax from 7% to 11.5%. Although leases are currently exempt from such sales and use tax pursuant to Act No. 83-2010, the increase in sales tax is applicable to repair and maintenance services. Additionally, in

October 2015, Puerto Rico enacted a 4% sales tax to previously exempt business-to-business transactions. Should our current exemption expire or additional taxes be imposed, the tax increase may impose greater costs on our future and current customers, which may hinder our future origination efforts and adversely impact our business, financial condition, results of operations and future growth. Future changes in Puerto Rico tax law could affect our tax position and adversely impact our business.

Although Puerto Rico had already suffered from economic difficulties in recent years, Hurricanes Irma and Maria in 2017, catastrophic weather events whose effects have been long enduring, earthquakes in the southwest of the island beginning in 2019 and continuing through 2020 and the COVID-19 pandemic have caused significant additional disruption to the island's electric grid and economic activity. The continued weakness of the Puerto Rico economy has strained the fiscal health of the government, which may create uncertainty that may adversely impact us. Furthermore, the future financial condition and prospects of PREPA are uncertain, which could negatively impact the availability and the reliability of Puerto Rico's electrical grid and adversely impact our operations on the island.

In 2018, the government of Puerto Rico enacted legislation that set in motion the privatization of PREPA. Said legislation governs the establishment of public-private partnerships ("P3") with respect to the concession for the distribution and transmission assets, services and facilities of PREPA, including its generation assets. In the summer of 2020, the government of Puerto Rico signed a 15-year P3 agreement with LUMA Energy, LLC to operate, maintain and modernize PREPA's electric transmission and distribution system. Moreover, in November 2020, the government announced that several companies had been qualified as part of the procurement process related to the Request for Qualifications for the management and operation of PREPA's legacy generation assets. The Request for Proposals is currently underway but the awardee has not been announced.

Legislation enacted in April 2019 requires a study of net metering to be completed within five years, which may result in revisions to the existing rules. However, no changes can be made to retail net metering for five years after the date the legislation was enacted. Meanwhile, "true" net metering will continue to apply, meaning the credit for energy exported by net metering clients will equal the value of such energy under the rate applicable to those clients and accordingly, their charges will be based on their net consumption. Customers subject to this regime will continue to be covered by it on a legacy basis for a period of 20 years from the date of their net metering agreements.

Net metering customers in Puerto Rico may be impacted by transition charges and other requirements contemplated in a restructuring agreement between PREPA and its creditors, currently pending before the U.S. District Court for the District of Puerto Rico in bankruptcy-like proceedings under Title III of the Puerto Rico Oversight, Management, and Economic Stability Act ("PROMESA"). PROMESA provides PREPA with access to a workout process similar to bankruptcy. In response to the effects of the COVID-19 pandemic, however, the approval of the restructuring agreement has been stayed, and the government announced in December 2020 that it continues to conduct diligence to determine whether, among other things, the terms of the restructuring agreement should be renegotiated and the parameters for doing so.

While we do not currently contract directly with the Puerto Rico government or PREPA, continued weakness in the Puerto Rico economy or the failure of the Puerto Rico government to manage its fiscal challenges in an orderly manner could result in policy decisions we do not anticipate and may directly or indirectly adversely impact our business, financial condition and results of operations. In addition, it is unclear whether the selection of private concessionaires for PREPA's transmission and distribution system and legacy generation assets may have an impact on our business.

The Puerto Rico Energy Bureau has instituted administrative proceedings regarding customer complaints about our Puerto Rican operations, the operations of some of our dealers in Puerto Rico and certain Sunnova policies and procedures relating to contract disclosures and invoice disputes in Puerto Rico. At this time, we are unable to determine whether the Puerto Rico Energy Bureau will seek penalties against us in the future in connection with these proceedings or require a change in our practices and procedures. Based on this matter, the U.S. Better Business Bureau listed Sunnova as not accredited. We have not experienced a material impact as a result of the listing.

***Dealer and marketplace confidence in our liquidity and long-term business prospects is important for building and maintaining our business.***

Our financial condition, operating results and business prospects may suffer materially if we are unable to establish and maintain confidence about our liquidity and business prospects among dealers, consumers and within our industry. Our dealer network is an integral component of our business strategy and serves as the means by which we are able to rapidly and successfully expand within existing and prospective markets. Dealers and other third parties will be less likely to enter into dealer agreements with us or originate new solar service agreements if they are uncertain we will be able to make payments on time, our business will succeed or our operations will continue for many years.

Our solar energy systems and energy storage systems require ongoing maintenance and support. If we were to reduce operations, even years from now, buyers of our solar energy systems and energy storage systems from years earlier might have difficulty having us provide or arrange repairs or other services to our and their solar energy systems and energy storage systems, which remain our responsibility under the terms of our solar service agreements. As a result, consumers may be less likely to enter into solar service agreements with us if they are uncertain our business will succeed or our operations will continue for many years.

Accordingly, in order to build and maintain our business, we must maintain confidence among dealers, customers and other parties in our liquidity and long-term business prospects. We may not succeed in our efforts to build this confidence.

***Damage to our brand and reputation or change or loss of use of our brand could harm our business and results of operations.***

We depend significantly on our reputation for high-quality products, excellent customer service and the brand name "Sunnova" to attract new customers and grow our business. If we fail to continue to deliver our solar energy systems or energy storage systems within the planned timelines, if our offerings do not perform as anticipated or if we damage any of our customers' properties or delay or cancel projects, our brand and reputation could be significantly impaired. Future technological improvements may allow us to offer lower prices or offer new technology to new customers; however, technical limitations in our current solar energy systems and energy storage systems may prevent us from offering such lower prices or new technology to our existing customers. The inability of our current customers to benefit from technological improvements could cause our existing customers to lower the value they perceive our existing products offer and impair our brand and reputation.

In addition, given the sheer number of interactions our personnel or dealers operating on our behalf have with customers and potential customers, it is inevitable that some customers' and potential customers' interactions with our company or dealers operating on our behalf will be perceived as less than satisfactory. This has led to instances of customer complaints, some of which have affected our digital footprint on rating websites and social media platforms. If we cannot manage our hiring and training processes to avoid or minimize these issues to the extent possible, our reputation may be harmed and our ability to attract new customers would suffer.

In addition, if we were to no longer use, lose the right to continue to use or if others use the "Sunnova" brand, we could lose recognition in the marketplace among customers, suppliers and dealers, which could affect our business, financial condition, results of operations and would require financial and other investment and management attention in new branding, which may not be as successful.

***Our operating results and our ability to grow may fluctuate from quarter to quarter and year to year, which could make our future performance difficult to predict and could cause our operating results for a particular period to fall below expectations.***

Our quarterly and annual operating results and our ability to grow are difficult to predict and may fluctuate significantly in the future. We have experienced seasonal and quarterly fluctuations in the past and expect to experience such fluctuations in the future. In addition to the other risks described in this "Risk Factors" section, the following factors could cause our operating results to fluctuate:

- expiration or initiation of any governmental rebates or incentives;
- significant fluctuations in customer demand for our solar energy services, solar energy systems and energy storage systems;
- our dealers' ability to complete installations in a timely manner;
- our and our dealers' ability to gain interconnection permission for an installed solar energy system from the relevant utility;
- the availability, terms and costs of suitable financing;
- the amount, timing of sales and potential decreases in value of SRECs;
- our ability to continue to expand our operations and the amount and timing of expenditures related to this expansion;
- announcements by us or our competitors of significant acquisitions, strategic partnerships, joint ventures or capital-raising activities or commitments;
- changes in our pricing policies or terms or those of our competitors, including centralized electric utilities;
- actual or anticipated developments in our competitors' businesses, technology or the competitive landscape; and
- natural disasters or other weather or meteorological conditions.

For these or other reasons, the results of any prior quarterly or annual periods should not be relied upon as indications of our future performance.

***Inflation could result in decreased value from future contractual payments and higher expenses for labor and equipment, which, in turn, could adversely impact our reputation, business, financial condition, cash flows and results of operations.***

Any future increase in inflation may adversely affect our costs, including our dealers' cost of labor and equipment, and may result in a decrease in value in our future contractual payments. Many of our solar service agreements, which generally have a term ranging from 10 to 25 years, do not contain any pricing escalators. The pricing escalators we do have may not keep pace with inflation, which would result in the agreement yielding decreased value over time. These factors could adversely impact our reputation, business, financial condition, cash flows and results of operations.

***Future expansions of our operations may subject us to additional risks.***

We may in the future expand into other industry verticals. There is no assurance that we will be able to successfully develop products and services that are valued for these new industries. Our investment of resources to develop products and services for the new industries we enter into may either be insufficient or result in expenses that are excessive as compared to the revenue that we may earn in launching such vertical.

Additionally, our experience is in the U.S. solar system industry and, therefore, we may not be adequately prepared for entry into a new industry vertical, should it occur. As we explore additional opportunities, we can make no assurance that we will be able to accurately forecast demand (or lack thereof) for our products or services or that new industries would be receptive to our products or services. Failure to predict demand or growth accurately in new industries could have a material adverse effect on our business.

Any future international operations may subject us to risks relating to currency fluctuations. Foreign currencies periodically experience rapid and/or large fluctuations in value against the U.S. dollar. A weakened U.S. dollar could increase the cost of procurement of raw materials, by our suppliers, from foreign jurisdictions and operating expenses in foreign locations, which could have a material adverse effect on our business and results of operations. Our planned international expansion further subjects us to currency risk.

Since the price at which we originate solar energy systems from our dealers is generated in U.S. dollars, we are mostly insulated from currency fluctuations. However, since suppliers of our dealers often incur a significant amount of their costs by purchasing raw materials and generating operating expenses in foreign currencies, if the value of the U.S. dollar depreciates significantly or for a prolonged period of time against these other currencies, this may cause those suppliers to raise the prices they charge us and our dealers, which in turn could harm our business and results of operations. Although the value of the U.S. dollar has been high relative to other currencies in recent periods, there is no guarantee this trend will continue.

***We intend to expand our operations to include international activities, which will subject us to a number of risks.***

Our long-term strategic plans include international expansion, including expansion into jurisdictions that have characteristics similar to those in which we currently operate. Risks inherent to international operations include the following:

- the inability to work successfully with dealers with local expertise to originate international solar service agreements;
- multiple, conflicting and changing laws and regulations, including export and import laws and regulations, economic sanctions laws and regulations, tax laws and regulations, environmental regulations, labor laws and other government requirements, approvals, permits and licenses;
- laws and legal systems less developed or less predictable than those in the U.S.;
- changes in general economic and political conditions in the jurisdictions where we operate, including changes in government incentives relating to power generation and solar electricity;
- political and economic instability, including wars, acts of terrorism, political unrest, boycotts, curtailments of trade and other business restrictions;
- difficulties and costs in recruiting and retaining individuals skilled in international business operations;
- international business practices may conflict with U.S. customs or legal requirements, including anti-bribery and corruption regulations;
- financial risks, such as longer sales and payment cycles and greater difficulty collecting accounts receivable or executing self-help remedies, if necessary;
- deficient or unreliable records relating to real property ownership;
- potentially lower margins due to a lower average income level;

- fluctuations in currency exchange rates relative to the U.S. dollar; and
- the inability to obtain, maintain or enforce intellectual property rights, including inability to apply for or register material trademarks in foreign countries, which could make it easier for competitors to capture increased market position.

Doing business in foreign markets requires us to be able to respond to rapid changes in market, legal and political conditions in these countries. The success of our business will depend, in part, on our ability to succeed in differing legal, regulatory, economic, social and political environments. We may not be able to develop and implement policies and strategies that will be effective in each location where we do business.

***If our allowance for credit losses is not enough to cover actual credit losses from our customer notes receivable portfolio, our results of operations and financial condition could be negatively affected.***

We maintain an allowance for credit losses, which is a reserve that represents our best estimate of actual credit losses we may experience in our existing customer notes receivable portfolio. The level of the allowance reflects our continuing evaluation of factors including the financial asset type, customer credit rating, contractual term, vintage, volume and trends in delinquencies, nonaccruals, write-offs and present economic, political and regulatory conditions. The determination of the appropriate level of the allowance for credit losses inherently involves subjectivity in our modeling and requires us to make estimates of current credit risks and future trends, all of which may undergo material changes or vary from our historical experience. Deterioration in economic conditions affecting our customers, new information regarding existing loans and other factors, both within and outside of our control, may require an increase in the allowance for credit losses. Furthermore, if write-offs in future periods exceed the allowance for credit losses we will need to increase the allowance for credit losses in future periods. Any increases in the allowance for credit losses will result in an increase in net loss and could have a material adverse effect on our business, financial condition and results of operations.

We adopted Accounting Standards Update No. 2016-13, *Financial Instruments—Credit Losses*, in January 2020, which requires entities to use a forward-looking expected loss approach, referred to as the current expected credit loss ("CECL") methodology in place of the previously-used incurred loss model. In future periods, CECL may result in increased reserves during or in advance of an economic downturn. If we are required to materially increase our level of allowance for credit losses for any reason, such increase could have a material adverse effect on our business, financial condition and results of operations.

***Certain of our key operational metrics, including estimated gross contracted customer value, are based on various assumptions and estimates we make that cover an extended period of time. Actual experience may vary materially from these estimates and assumptions and therefore undue reliance should not be placed on these metrics.***

Our key operational metrics include a number of assumptions and estimates we make that cover an extended period of time (up to 35 years) and may not prove accurate. In calculating estimated gross contracted customer value, we estimate projected monthly customer payments over the remaining life of our solar service agreements, which typically range from 10 to 25 years in length with an opportunity for customers to renew for up to an additional 10 years, and from the future sale of related SRECs. These estimated future cash flows depend on various factors including but not limited to solar service agreement type, contracted rates, customer loss rates, expected sun hours and the projected production capacity of the solar equipment installed. Additionally, in calculating estimated gross contracted customer value we also estimate cash distributions to tax equity fund investors and operating, maintenance and administrative expenses associated with the solar service agreements, including expenses related to accounting, reporting, audit, insurance, maintenance and repairs over the remaining life of our solar service agreements.

Furthermore, in calculating estimated gross contracted customer value, we discount our future net cash flows at 4% based in part on industry practice and in part on the interest rate obtained on certain recent securitizations. This discount rate might not be the most appropriate discount rate based on interest rates in effect from time to time and industry or company-specific risks associated with these cash flows and the appropriate discount rate for these estimates may change in the future due to the level of inflation, rising interest rates, our cost of capital, customer default rates and consumer demand for solar energy systems, among other things. We also assume customer losses of 0% in calculating these metrics even though we expect to have some minimal level of customer losses over the life of our contracts. To illustrate the way in which actual results may change, we present sensitivities around the discount rate and the rate of customer losses, although these sensitivities may not capture the most appropriate discount rate or the rate of customer losses we will experience. For a discussion of estimated gross contracted customer value and the related discount rate and such sensitivities, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations—Key Financial and Operational Metrics—Estimated Gross Contracted Customer Value*".

PricewaterhouseCoopers LLP has not audited, reviewed, examined, compiled nor applied agreed-upon procedures with respect to these operational metrics or their components. The estimates discussed above are based on a combination of assumptions that may prove to be inaccurate over time. Such inaccuracies could be material, particularly given the estimates relate to cash flows up to 35 years in the future.

## **Risks Related to the Solar Industry**

***If sufficient additional demand for residential solar energy systems does not develop or takes longer to develop than we anticipate, our origination of solar service agreements may decrease.***

The distributed residential solar energy market is at a relatively early stage of development in comparison to fossil fuel-based electricity generation. If additional demand for distributed residential solar energy systems fails to develop sufficiently or takes longer to develop than we anticipate, we may be unable to originate additional solar service agreements and related solar energy systems and energy storage systems to grow our business. In addition, demand for solar energy systems and energy storage systems in our targeted markets may not develop to the extent we anticipate. As a result, we may be unsuccessful in broadening our customer base through origination of solar service agreements and related solar energy systems and energy storage systems within our current markets or in new markets we may enter.

Many factors may affect the demand for solar energy systems, including the following:

- availability, substance and magnitude of solar support programs including government targets, subsidies, incentives, renewable portfolio standards and residential net metering rules;
- the relative pricing of other conventional and non-renewable energy sources, such as natural gas, coal, oil and other fossil fuels, wind, utility-scale solar, nuclear, geothermal and biomass;
- performance, reliability and availability of energy generated by solar energy systems compared to conventional and other non-solar renewable energy sources;
- availability and performance of energy storage technology, the ability to implement such technology for use in conjunction with solar energy systems and the cost competitiveness such technology provides to customers as compared to costs for those customers reliant on the conventional electrical grid; and
- general economic conditions and the level of interest rates.

The residential solar energy industry is constantly evolving, which makes it difficult to evaluate our prospects. We cannot be certain if historical growth rates reflect future opportunities or whether growth anticipated by us will be realized. The failure of distributed residential solar energy to achieve, or its being significantly delayed in achieving, widespread adoption could have a material adverse effect on our business, financial condition and results of operations.

***A material reduction in the retail price of electricity charged by electric utilities or other retail electricity providers would harm our business, financial condition and results of operations.***

Decreases in the retail price of electricity from electric utilities or from other retail electric providers, including other renewable energy sources such as larger-scale solar energy systems, could make our offerings less economically attractive. The price of electricity from utilities could decrease as a result of:

- the construction of a significant number of new power generation plants, whether generated by natural gas, nuclear power, coal or renewable energy;
- the construction of additional electric transmission and distribution lines;
- a reduction in the price of natural gas or other natural resources as a result of increased supply due to new drilling techniques or other technological developments, a relaxation of associated regulatory standards or broader economic or policy developments;
- less demand for electricity due to energy conservation technologies and public initiatives to reduce electricity consumption or to recessionary economic conditions; and
- development of competing energy technologies that provide less expensive energy.

A reduction in electric utilities' rates or changes to peak hour pricing policies or rate design (such as the adoption of a fixed or flat rate) could also make our offerings less competitive with the price of electricity from the electrical grid. If the cost of energy available from electric utilities or other providers were to decrease relative to solar energy generated from residential solar energy systems or if similar events impacting the economics of our offerings were to occur, we may have difficulty attracting new customers or existing customers may default or seek to terminate, cancel or otherwise avoid the obligations under their solar service agreements. For example, large utilities in California have started transitioning customers to time-of-

use rates and also have adopted a shift in the peak period for time-of-use rates to later in the day. Unless grandfathered under a different rate, residential customers with solar energy systems are required to take service under time-of-use rates with the later peak period. Moving utility customers to time-of-use rates or the shift in the timing of peak rates for utility-generated electricity to include times of day when solar energy generation is less efficient or non-operable could also make our offerings less competitive. Time-of-use rates could also result in higher costs for our customers whose electricity requirements are not fully met by our offerings during peak periods.

Additionally, the price of electricity from utilities may grow less quickly than the escalator feature in certain of our solar service agreements, which could also make our solar energy systems less competitive with the price of electricity from the electrical grid and result in a material adverse effect on our business, financial condition and results of operations.

***Our business has benefited from the declining cost of solar energy system components and our business may be harmed to the extent the cost of such components stabilize or increase in the future.***

Our business has benefited from the declining cost of solar energy system components and to the extent such costs stabilize, decline at a slower rate or increase, our future growth rate may be negatively impacted. The declining cost of solar energy system components and the raw materials necessary to manufacture them has been a key driver in the price of solar energy systems we own, the prices charged for electricity and customer adoption of solar energy. Solar energy system component and raw material prices may not continue to decline at the same rate as they have over the past several years or at all. In addition, growth in the solar industry and the resulting increase in demand for solar energy system components and the raw materials necessary to manufacture them may also put upward pressure on prices. An increase of solar energy system components and raw materials prices could slow our growth and cause our business and results of operations to suffer. Further, the cost of solar energy system components and raw materials has increased and could increase in the future due to tariff penalties, duties, the loss of or changes in economic governmental incentives or other factors. See *"Increases in the cost or reduction in supply of our solar energy system and energy storage system components due to tariffs or trade restrictions imposed by the U.S. government could have an adverse effect on our business, financial condition and results of operations"*.

***We and our dealers depend on a limited number of suppliers of solar energy system components and technologies to adequately meet demand for our solar energy systems. Due to the limited number of suppliers in our industry, the acquisition of any of these suppliers by a competitor or any shortage, delay, price change, imposition of tariffs or duties or other limitation in our or our dealers' ability to obtain components or technologies we use could result in sales and installation delays, cancellations and loss of customers.***

We rely on our dealers to install solar energy systems and energy storage systems, each of whom has direct supplier arrangements. Our dealers purchase solar panels, inverters, energy storage systems and other system components and instruments from a limited number of suppliers, approved by us, making us susceptible to quality issues, shortages and price changes. For the year ended December 31, 2021, Hanwha Q-Cells, Longi Solar and REC Solar supplied approximately 52%, 16% and 10%, respectively, of our solar photovoltaic panels installed and no other supplier represented more than 10% of our solar photovoltaic panels installed. For the year ended December 31, 2020, Hanwha Q-Cells and Longi Solar supplied approximately 49% and 20%, respectively, of our solar photovoltaic panels installed and no other supplier represented more than 10% of our solar photovoltaic panels installed. For the year ended December 31, 2021, Enphase Energy, Inc. and SolarEdge Technologies Inc. accounted for approximately 64% and 34%, respectively, of the inverters used in our solar energy system installations. For the year ended December 31, 2020, Enphase Energy, Inc. and SolarEdge Technologies Inc. accounted for approximately 73% and 27%, respectively, of the inverters used in our solar energy system installations. For the year ended December 31, 2021, Tesla, Inc. and Enphase Energy, Inc. accounted for approximately 80% and 14%, respectively, of our energy storage system purchases. For the year ended December 31, 2020, Tesla, Inc. and Enphase Energy Inc. accounted for approximately 82% and 18%, respectively, of our energy storage system purchases. There are a limited number of suppliers of solar energy system components, instruments and technologies. If one or more of the suppliers we and our dealers rely upon to meet anticipated demand ceases or reduces production due to its financial condition, acquisition by a competitor or otherwise, is unable to increase production as industry demand increases or is otherwise unable to allocate sufficient production to us and our dealers, it may be difficult to quickly identify alternative suppliers or to qualify alternative products on commercially reasonable terms and our ability and the ability of our dealers to satisfy this demand may be adversely affected. While we believe there are other sources of supply for these products available, a dealer's need to transition to a new supplier may result in additional costs and delays in originating solar service agreements and deploying our related solar energy systems or energy storage systems, which in turn may result in additional costs and delays in our acquisition of such solar service agreements and related solar energy systems and energy storage systems. These issues could have a material adverse effect on our business, financial condition and results of operations.

There have also been periods of industry-wide shortages of key components and instruments, including batteries and inverters, in times of rapid industry growth. The manufacturing infrastructure for some of these components has a long lead-time, requires significant capital investment and relies on the continued availability of key commodity materials, potentially resulting in an inability to meet demand for these components. The solar industry is currently experiencing rapid growth and, as a result, shortages of key components or instruments, including solar panels, may be more likely to occur, which in turn may result in price increases for such components. Even if industry-wide shortages do not occur, suppliers may decide to allocate key components or instruments with high demand or insufficient production capacity to more profitable customers, customers with long-term supply agreements or customers other than us, our dealers or other third parties from whom we may originate solar energy systems and our ability to originate solar service agreements and related solar energy systems and energy storage systems may be reduced as a result.

Our supply chain and operations (or those of our dealers) could be subject to natural disasters and other events beyond our control, such as earthquakes, wildfires, flooding, hurricanes, freezes, tsunamis, typhoons, volcanic eruptions, droughts, tornadoes, power outages or other natural disasters, the effects of climate change and related extreme weather, public health issues and pandemics, war, terrorism, government restrictions or limitations on trade, impediments to international shipping and geopolitical unrest and uncertainties. Human rights and forced labor issues in foreign countries and the U.S. government's response to them could disrupt our supply chain and our operations could be adversely impacted.

Historically, we and our dealers have relied on foreign suppliers for a number of solar energy system components, instruments and technologies that our dealers purchase. Our success in the future may be dependent on our dealers' ability to import or transport such products from overseas vendors in a timely and cost-effective manner. We and our dealers may rely heavily on third parties, including ocean carriers and truckers, both of which are experiencing disruptions, shortages and rate increases, in that process.

The global shipping industry is experiencing ocean shipping disruptions, trucking shortages, increased ocean shipping rates and increased trucking and fuel costs. There is currently a shortage of shipping capacity from China and other parts of Asia, and as a result, our dealers' receipt of imported products may be disrupted or delayed. The shipping industry is also experiencing issues with port congestion and pandemic-related port closures and ship diversions. Disruptions related to the global COVID-19 pandemic are expected to continue to affect trans-Pacific shipping from China, and we cannot predict when these disruptions will end. The global shipping industry is also experiencing unprecedented increases in shipping rates from the trans-Pacific ocean carriers due to various factors, including limited availability of shipping capacity. Our dealers may find it necessary to rely on an increasingly expensive spot market and other alternative sources to make up any shortfall in shipping needs.

If our dealers cannot obtain substitute materials or components on a timely basis or on acceptable terms, they could be prevented from installing our solar energy systems within the time frames required in our customer contracts. Any such delays could increase our overall costs, reduce our profit, delay the timing for solar energy systems to be placed in service and ultimately have a material adverse effect on our business, financial condition and results of operations.

Additionally, if the impacts of the COVID-19 pandemic, including the accompanying travel restrictions, continue for an extended period of time or worsen, the supply and pricing of our inverters and other goods and therefore the ability of our dealers to install new solar energy systems could be adversely affected. The extent of the impact of the COVID-19 pandemic on our business and operations will depend on, among other factors, the duration and severity of the outbreak, travel restrictions and business closures imposed in China or other countries, the ability of our suppliers to increase their production of goods in jurisdictions other than China, our ability to contract for supply from other sources on acceptable terms and the willingness of our lenders to permit us to switch suppliers.

***Warranties provided by the manufacturers of equipment for our assets and maintenance obligations of our dealers may be limited by the ability of a supplier and/or dealer to satisfy its warranty or performance obligations or by the expiration of applicable time or liability limits, which could reduce or void the warranty protections or may be limited in scope or magnitude of liabilities and thus, the warranties and maintenance obligations may be inadequate to protect us.***

We agree to maintain the solar energy systems and energy storage systems installed on our customers' homes during the length of the term of our solar service agreements, which typically range from 10 to 25 years. We are exposed to any liabilities arising from the solar energy systems' failure to operate properly and are generally under an obligation to ensure each solar energy system remains in good condition during the term of the agreement. We are the beneficiary of the panel manufacturers' warranty coverage, typically of 10 years for material and workmanship and 25 years for performance, the inverter manufacturers' warranty coverage, typically from 10 to 25 years and the energy storage manufacturers' warranty coverage, typically of 10 years. Furthermore, our dealers provide warranties as to their workmanship. In the event that such warranty providers or dealers file for bankruptcy, cease operations or otherwise become unable or unwilling to fulfill their warranty or

maintenance obligations, we may not be adequately protected by such warranties or maintenance obligations. Even if such warranty or maintenance providers or dealers fulfill their obligations, the warranty or maintenance obligations may not be sufficient to protect us against all of our losses. In addition, our warranties are of limited duration, ranging from one year, in the case of certain solar energy system and transformer warranties, to 25 years, in the case of certain panel performance warranties, after the date each equipment item is delivered or commissioned, although the useful life of our solar energy systems is 35 years. These warranties are subject to liability and other limits. If we seek warranty protection and a warranty provider is unable or unwilling to perform its warranty obligations, or if a dealer is unable or unwilling to perform its maintenance obligations, whether as a result of its financial condition or otherwise, or if the term of the warranty or maintenance obligation has expired or a liability limit has been reached, there may be a reduction or loss of protection for the affected assets, which could have a material adverse effect on our business, financial condition and results of operations.

Our failure to accurately predict future liabilities related to material quality or performance expenses could result in unexpected volatility in our financial condition. Because of the long estimated useful life of our solar energy systems, we have been required to make assumptions and apply judgments regarding a number of factors, including our anticipated rate of warranty claims and the durability, performance and reliability of our solar energy systems. We made these assumptions based on the historic performance of similar solar energy systems or on accelerated life cycle testing. Our assumptions could prove to be materially different from the actual performance of our solar energy systems, causing us to incur substantial expense to repair or replace defective solar energy systems in the future or to compensate customers for solar energy systems that do not meet their performance guarantees. Equipment defects, serial defects or operational deficiencies also would reduce our revenue from solar service agreements because the customer payments under such agreements are dependent on solar energy system production or would require us to make refunds under performance guarantees. Any widespread product failures or operating deficiencies may damage our market reputation and adversely impact our financial results. For further discussion of these potential charges and related proposals, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations—Components of Results of Operations*".

***Increases in the cost or reduction in supply of solar energy system and energy storage system components due to tariffs or trade restrictions imposed by the U.S. government could have an adverse effect on our business, financial condition and results of operations.***

China is a major producer of solar cells and other solar products. Certain solar cells, modules, laminates and panels from China are subject to various U.S. antidumping and countervailing duty rates, depending on the exporter supplying the product, imposed by the U.S. government as a result of determinations that the U.S. was materially injured as a result of such imports being sold at less than fair value and subsidized by the Chinese government. While historically our dealers have endeavored to purchase these products from manufacturers outside of China, some of these products are purchased from manufacturers in China or from manufacturers in other jurisdictions who rely, in part, on products sourced in China. If alternative sources are no longer available on competitive terms in the future, we and our dealers may be required to purchase these products from manufacturers in China. In addition, tariffs on solar cells, modules and inverters in China may put upward pressure on prices of these products in other jurisdictions from which our dealers currently purchase equipment, which could reduce our ability to offer competitive pricing to potential customers.

The antidumping and countervailing duties discussed above are subject to annual review and may be increased or decreased. Furthermore, under Section 301 of the Trade Act of 1974, the USTR imposed tariffs on \$200 billion worth of imports from China, including inverters and certain AC modules and non-lithium-ion batteries, effective September 24, 2018. In May 2019, the tariffs were increased from 10% to 25% and may be raised by the USTR in the future. Since these tariffs impact the purchase price of the solar products, these tariffs raise the cost associated with purchasing these solar products from China and reduce the competitive pressure on providers of solar cells not subject to these tariffs.

In August 2021, an anonymous trade group filed a petition with the U.S. Department of Commerce requesting an investigation into whether solar panels and cells imported from Malaysia, Thailand and Vietnam are circumventing anti-dumping and countervailing duties imposed on solar products manufactured in China. The group also requested the imposition of tariffs on such imports ranging from 50% - 250%. In November 2021, the U.S. Department of Commerce rejected the petition, citing the petitioners' ongoing anonymity as one of the reasons for its decision. If enacted, these or similar tariffs could put upward pressure on prices of these solar products, which could reduce our ability to offer competitive pricing to potential customers.

In addition, in December 2021, the U.S. International Trade Commission recommended the President extend tariffs initially imposed in 2018 on imported crystalline silicon PV cells and modules for another four year, until 2026. Since such actions increase the cost of imported solar products, to the extent we or our dealers use imported solar products or domestic producers

are able to raise their prices for their solar products, the overall cost of the solar energy systems will increase, which could inhibit our ability to offer competitive pricing in certain markets.

Additionally, the U.S. government has imposed various trade restrictions on Chinese entities determined to be acting contrary to U.S. foreign policy and national security interests. For example, the U.S. Department of Commerce's Bureau of Industry and Security has added a number of Chinese entities to its entity list for enabling human rights abuses in the Xinjiang Uyghur Autonomous Region ("XUAR") or for procuring U.S. technology to advance China's military modernization efforts, thereby imposing severe trade restrictions against these designated entities. Moreover, in June 2021, U.S. Customs and Border Protection issued a Withhold Release Order pursuant to Section 307 of the Tariff Act of 1930 excluding the entry into U.S. commerce silica-based products (such as polysilicon) manufactured by Hoshine Silicon Industry Co. Ltd. ("Hoshine") and related companies, as well as goods made using those products, based on allegations relating to Hoshine labor practices in the XUAR to manufacture such products. Additionally, in December 2021, Congress passed the Uyghur Forced Labor Prevention Act ("UFLPA"), which, with limited exception, prohibits the importation of all goods or articles mined or produced in whole or in part in the XUAR, or goods or articles mined or produced by entities working with the XUAR government to recruit, transport or receive forced labor from the XUAR. Although we maintain policies and procedures to maintain compliance with all governmental laws and regulations, these and other similar trade restrictions that may be imposed against Chinese entities in the future may have the effect of restricting the global supply of, and raising prices for, polysilicon and solar products, which could increase the overall cost of solar energy systems and reduce our ability to offer competitive pricing in certain markets.

We cannot predict what additional actions the U.S. may adopt with respect to tariffs or other trade regulations or what actions may be taken by other countries in retaliation for such measures. If additional measures are imposed or other negotiated outcomes occur, our ability or the ability of our dealers to purchase these products on competitive terms or to access specialized technologies from other countries could be further limited, which could adversely affect our business, financial condition and results of operations.

***The solar energy systems we own or may originate have a limited operating history and may not perform as we expect.***

Many of the solar energy systems we currently own or may originate in the future have not commenced operations, have recently commenced operations or otherwise have a limited operating history. Of the solar energy systems we owned as of December 31, 2021, 23%, 18% and 12% were placed into service in 2021, 2020 and 2019, respectively. The ability of our solar energy systems to perform as we expect will also be subject to risks inherent in newly constructed renewable energy assets, including breakdowns and outages, latent defects, equipment that performs below our expectations, system failures and outages. As a result, our assumptions and estimates regarding the performance of these solar energy systems are, and will be, made without the benefit of a meaningful operating history, which may impair our ability to accurately assess the potential profitability of the solar energy systems and, in turn, our results of operations, financial condition and cash flows.

***The cost of maintenance or repair of solar energy systems or energy storage systems throughout the term of the associated solar service agreement or the removal of solar energy systems at the end of the term of the associated solar service agreement may be higher than projected today and adversely affect our financial performance and valuation.***

If we incur repair and maintenance costs on our solar energy systems or energy storage systems after the individual component warranties have expired and if they then fail or malfunction, we will be liable for the expense of repairing these solar energy systems or energy storage systems without a chance of recovery from our suppliers. In addition, we typically bear the cost of removing the solar energy systems at the end of the term of the lease or PPA if the customer does not renew his or her agreement or elect to purchase the solar energy system at the end of its term. Furthermore, it is difficult to predict how future environmental regulations may affect the costs associated with the repair, removal, disposal or recycling of our solar energy systems. This could materially impair our future operating results.

***Problems with performance of our solar energy systems may cause us to incur expenses, may lower the value of our solar energy systems and may damage our market reputation and adversely affect our business.***

In most cases, our long-term leases and loan agreements contain a performance guarantee in favor of the customer. Solar service agreements with performance guarantees require us to provide a bill credit (or in limited cases, refund money) to the customer if the solar energy system fails to generate the minimum amount of electricity, as specified in the solar service agreement, in a given term, beginning as early as the first anniversary of the execution of the solar service agreement and annually thereafter. We may also suffer financial losses associated with such credit and refunds if significant performance guarantee payments are triggered. For a description of our performance guarantee obligations, see "Management's Discussion and Analysis of Financial Condition and Results of Operations—Components of Results of Operations—Revenue".

***We and our dealers are subject to risks associated with installation and other contingencies.***

Our dealers design and install solar energy systems and energy storage systems on our behalf. Because the solar service agreement is entered into between us and the customer, we may be liable to our customers for any damage our dealers cause to our customers' homes, belongings or property during the installation of our solar energy systems and energy storage systems or otherwise.

For example, dealers may penetrate our customers' roofs during the installation process and we may incur liability for the failure to adequately weatherproof such penetrations following the completion of installation of solar energy systems. In addition, because our solar energy systems and energy storage systems are high-voltage energy systems, we may incur liability for a dealer's failure to comply with electrical standards and manufacturer recommendations. Furthermore, prior to obtaining permission to operate our solar energy systems and energy storage systems, the solar energy systems and energy storage systems must pass various inspections. Any delay in passing, or inability to pass, such inspections, would adversely affect our results of operations. Because our profit on a particular solar service agreement and related solar energy system and energy storage system, if applicable, is based in part on assumptions as to the ongoing cost of the related solar energy system and energy storage system, if applicable, cost overruns, delays or other execution issues may cause us to not achieve our expected results or cover our costs for that solar service agreement and related solar energy system and energy storage systems, if applicable.

***Product liability claims against us or accidents could result in adverse publicity and potentially significant monetary damages.***

It is possible our solar energy systems or energy storage systems could injure our customers or other third parties or our solar energy systems or energy storage systems could cause property damage as a result of product malfunctions, defects, improper installation, fire or other causes. Any product liability claim we face could be expensive to defend and may divert management's attention. The successful assertion of product liability claims against us could result in potentially significant monetary damages, potential increases in insurance expenses, penalties or fines, subject us to adverse publicity, damage our reputation and competitive position and adversely affect sales of solar energy systems or energy storage systems. In addition, product liability claims, injuries, defects or other problems experienced by other companies in the residential solar industry could lead to unfavorable market conditions to the industry as a whole and may have an adverse effect on our ability to expand our portfolio of solar service agreements and related solar energy systems and energy storage systems, thus affecting our business, financial condition and results of operations.

***We typically bear the risk of loss and the cost of maintenance, repair and removal on solar energy systems that are owned by our subsidiaries and included in securitization and tax equity vehicles.***

We typically bear the risk of loss and are generally obligated to cover the cost of maintenance, repair and removal for any solar energy system we sell to subsidiaries and include in securitization and tax equity vehicles. At the time we enter into a tax equity or securitization transaction, we enter into a maintenance services agreement where we agree to operate and maintain the solar energy system for a fixed fee calculated to cover our future expected maintenance costs. If our solar energy systems require an above-average amount of repairs or if the cost of repairing the solar energy systems were higher than our estimate, we would need to perform such repairs without additional compensation. If our solar energy systems are damaged as the result of a natural disaster beyond our control, losses could exceed or be excluded from our insurance policy limits and we could incur unforeseen costs that could harm our business and financial condition. We may also incur significant costs for taking other actions in preparation for, or in reaction to, such events. We purchase property insurance with industry standard coverage and limits approved by an investor's third-party insurance advisors to hedge against such risk, but such coverage may not cover our losses.

***The installation and operation of solar energy systems and energy storage systems depends heavily on suitable solar and meteorological conditions, which may be impacted by the effects of climate change. If meteorological conditions are unexpectedly unfavorable, the electricity production from our solar energy systems may be substantially below our expectations and our ability to timely deploy new solar energy systems and energy storage systems may be adversely impacted.***

The energy produced and the revenue and cash receipts generated by a solar energy system depend on suitable solar, atmospheric and weather conditions, all of which are beyond our control. Our economic model and projected returns on our solar energy systems require achievement of certain production results from our systems and, in some cases, we guarantee these results to our consumers. If the solar energy systems underperform for any reason, our business could suffer. For example, the amount of revenue we recognize in a given period from our PPAs and the amount of our obligations under the performance

guarantees of our solar service agreements are dependent in part on the amount of energy generated by solar energy systems under such solar service agreements. As a result, revenue derived from our standard PPAs is impacted by seasonally shorter daylight hours in winter months. In addition, the ability of our dealers to install solar energy systems and energy storage systems is impacted by weather. For example, the ability to install solar energy systems and energy storage systems during the winter months in the Northeastern U.S. is limited. Such solar, atmospheric and weather conditions can delay the timing of when solar energy systems and energy storage systems can be installed and when we can originate and begin to generate revenue from solar energy systems. This may increase our expenses and decrease revenue and cash receipts in the relevant periods. Furthermore, climate change could exacerbate the frequency and severity of weather events in all areas where we operate. Climate change or other factors could also cause prevailing weather patterns to materially change in the future, making it harder to predict the average annual amount of sunlight striking each location where we install a solar energy system and energy storage system. Potential negative effects of climate change include, among others, a temporary decrease in solar availability in certain locations, disruptions in transmission grids and delays or reductions in new installations. These or other effects could make our solar energy systems less economical overall or make individual solar energy systems less economical. Any of these effects on meteorological conditions could harm our business, financial condition and results of operations.

***We may be subject to interruptions or failures in our information technology systems.***

We rely on information technology systems and infrastructure to support our business. Any of these systems may be susceptible to damage or interruption due to fire, floods, power loss, telecommunication failures, usage errors by employees, computer viruses, cyberattacks or other security breaches or similar events. For example, we have in the past experienced cybersecurity attacks on our information technology systems or relating to software we utilize, and, while none to date have been material, we expect further attacks may occur in the future, some of which may be material. A compromise of our information technology systems or those with which we interact could harm our reputation and expose us to regulatory actions and claims from customers and other persons, any of which could adversely affect our business, financial condition, cash flows and results of operations. If our information systems are damaged, fail to work properly or otherwise become unavailable, we may incur substantial costs to repair or replace them and we may experience a loss of critical information, customer disruption and interruptions or delays in our ability to perform essential functions.

***Disruptions to our solar monitoring systems could negatively impact our revenues and increase our expenses.***

Our ability to accurately charge our customers for the energy produced by our solar energy systems primarily depends on the cellular connection for the related monitoring system, which we are responsible for maintaining in a functional state so that we may receive data regarding the solar energy systems' production from their residences. We could incur significant expenses or disruptions of our operations in connection with failures of our solar monitoring systems, including failures of such connections, that would prevent us from accurately monitoring solar energy production. In addition, sophisticated hardware and operating system software and applications we procure from third parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of our solar energy systems or energy storage systems. The costs to us to eliminate or alleviate viruses and bugs, or any problems associated with failures of our cellular connections could be significant. We have in the past experienced periods where some of our cellular connections have been unavailable and, as a result, we have been forced to estimate the production of their solar energy systems. Such estimates may prove inaccurate and could cause us to underestimate the power being generated by our solar energy systems and undercharge our customers, thereby harming our results of operations.

***Any unauthorized access to or disclosure or theft of personal information we gather, store or use could harm our reputation and subject us to claims or litigation.***

We receive, store and use personal information of our customers, including names, addresses, e-mail addresses, credit information, credit card and financial account information and other housing and energy use information. We also store information of our dealers, including employee, financial and operational information. We rely on the availability of data collected from our customers and our dealers in order to manage our business and market our offerings. We take certain steps in an effort to protect the security, integrity and confidentiality of the personal information we collect, store or transmit, but there is no guarantee inadvertent or unauthorized use or disclosure will not occur or third parties will not gain unauthorized access to this information despite our efforts. We also rely on third-party suppliers or vendors to host certain of the systems we use. Although we take precautions to provide for disaster recovery, our ability to recover systems or data may be expensive and may interfere with our normal operations. Also, although we obtain assurances from such third parties they will use reasonable safeguards to secure their systems, we may be adversely affected by unavailability of their systems or unauthorized use or disclosure of our data maintained in such systems. Because techniques used to obtain unauthorized access or sabotage systems change frequently and generally are not identified until they are launched against a target, we, our suppliers or vendors and our dealers may be unable to anticipate these techniques or to implement adequate preventative or mitigation measures.

Cyberattacks in particular are becoming more sophisticated and include, but are not limited to, malicious software, attempts to gain unauthorized access to data and other electronic security breaches that could lead to disruptions in critical systems, disruption of our customers' operations, loss or damage to our data delivery systems, unauthorized release of confidential or otherwise protected information, corruption of data and increased costs to prevent, respond to or mitigate cybersecurity events. In addition, certain cyber incidents, such as advanced persistent threats, may remain undetected for an extended period.

Unauthorized use, disclosure of or access to any personal information maintained by us or on our behalf, whether through breach of our systems, breach of the systems of our suppliers, vendors or dealers by an unauthorized party or through employee or contractor error, theft or misuse or otherwise, could harm our business. If any such unauthorized use, disclosure of or access to such personal information were to occur, our operations could be seriously disrupted and we could be subject to demands, claims and litigation by private parties and investigations, related actions and penalties by regulatory authorities.

In addition, we could incur significant costs in notifying affected persons and entities and otherwise complying with the multitude of federal, state and local laws and regulations relating to the unauthorized access to, use of or disclosure of personal information. Finally, any perceived or actual unauthorized access to, use of or disclosure of such information could harm our reputation, substantially impair our ability to expand our portfolio of solar service agreements and related solar energy systems and energy storage systems and have an adverse impact on our business, financial condition and results of operations. The COVID-19 pandemic generally is increasing the attack surface available to criminals, as more companies and individuals work remotely and otherwise work online. Consequently, the risk of a cybersecurity incident suffered by us or our vendors or service providers is increased, and our investment in risk mitigations against cybersecurity incidents is evolving as the threat landscape changes. While we currently maintain cybersecurity insurance, such insurance may not be sufficient to cover us against claims, and we cannot be certain that cyber insurance will continue to be available to us on economically reasonable terms, or at all, or that any insurer will not deny coverage as to any future claim.

***Terrorist or cyberattacks against centralized utilities could adversely affect our business.***

Assets owned by utilities such as substations and related infrastructure have been physically attacked in the past and will likely be attacked in the future. These facilities are often protected by limited security measures, such as perimeter fencing. Any such attacks may result in interruption to electricity flowing on the grid and consequently interrupt service to our solar energy systems not combined with an energy storage system, which could adversely affect our operations. Furthermore, cyberattacks, whether by individuals or nation states, against utility companies could severely disrupt their business operations and result in loss of service to customers, which would adversely affect our operations.

***We face competition from centralized electric utilities, retail electric providers, independent power producers and renewable energy companies.***

The solar energy and renewable energy industries are both highly competitive and continually evolving as participants strive to distinguish themselves within their markets and compete with large centralized electric utilities. We believe our primary competitors are the centralized electric utilities that supply electricity to our potential customers. We compete with these centralized electric utilities primarily based on price (cents per kWh), predictability of future prices (by providing pre-determined annual price escalations) and the ease by which customers can switch to electricity generated by our solar energy systems. We may also compete based on other value-added benefits, such as reliability and carbon-friendly power. If we cannot offer compelling value to our customers based on these factors, our business may not grow.

Centralized electric utilities generally have substantially greater financial, technical, operational and other resources than we do. As a result, these competitors may be able to devote more resources to the research, development, promotion and sale of their products or services or respond more quickly to evolving industry standards and changes in market conditions than we can. Centralized electric utilities could also offer other value-added products or services that could help them to compete with us even if the cost of electricity they offer is higher than ours. In addition, a majority of utilities' sources of electricity is non-solar, which may allow utilities to sell electricity more cheaply than electricity generated by our solar energy systems. Centralized electric utilities could also offer customers the option of purchasing electricity obtained from renewable energy resources, including solar, which would compete with our offerings.

We also compete with retail electric providers and independent power producers not regulated like centralized electric utilities but which have access to the centralized utilities' electricity transmission and distribution infrastructure pursuant to state, territorial and local pro-competition and consumer choice policies. These retail electric providers and independent power producers are able to offer customers electricity supply-only solutions that are competitive with our solar energy system options on both price and usage of renewable energy technology while avoiding the long-term agreements and physical installations our

current business model requires. This may limit our ability to acquire new customers, particularly those who wish to avoid long-term agreements or have an aesthetic or other objection to putting solar panels on their roofs.

We also compete with solar companies with vertically integrated business models, including sales, financing, engineering, manufacturing, installation, maintenance and monitoring services. If the integrated approach of our competitors is successful, it may limit our ability to originate solar energy systems. Many of our vertically integrated competitors are larger than we are. As a result, these competitors may be able to devote more resources to the research, development, promotion and sale of their products or services or respond more quickly to evolving industry standards and changes in market conditions than we can. Solar companies with vertically integrated business models could also offer other value-added products or services that could help them to compete with us. Larger competitors may also be able to access financing at a lower cost of capital than we are able to obtain.

In addition, we compete with other solar companies who sell or finance products directly to consumers, inclusive of programs like Property-Assessed Clean Energy financing programs established by local governments. For example, we face competition from solar installation businesses that seek financing from external parties or utilize competitive loan products or state and local programs.

We also compete with solar companies with business models similar to our own, some of which are marketed to potential customers by our dealers. Some of these competitors specialize in the distributed residential solar energy market and some may provide energy at lower costs than we do. Some of our competitors offer or may offer similar services and products as we do, such as leases, PPAs and direct outright sales of and consumer loan products for solar energy systems. Many of our competitors also have significant brand name recognition and have extensive knowledge of our target markets.

We also compete with solar companies that offer community solar products and utility companies that provide renewable power purchase programs. Some customers might choose to subscribe to a community solar project or renewable subscriber programs instead of installing a solar energy system on their home, which could affect our sales. Additionally, some utility companies (and some utility-like entities, such as community choice aggregators in California) have generation portfolios that are increasingly renewable in nature. In California, for example, due to recent legislation, utility companies and community choice aggregators in that state are required to have generation portfolios comprised of 60% renewable energy by 2030 and state regulators are planning for utility companies and community choice aggregators to sell 100% greenhouse gas free electricity to retail customers by 2045. As utility companies offer increasingly renewable portfolios to retail customers, those customers might be less inclined to install a solar energy system at their home, which could adversely affect our growth.

We have historically provided our services only to residential customers but may expand to other markets, including commercial or industrial customers. There is intense competition in the residential solar energy sector in the markets in which we operate. As new entrants continue to enter into these markets, and as we enter into new markets, we may be unable to grow or maintain our operations and we may be unable to compete with companies that have already established themselves in both the residential market and non-residential markets.

As the solar industry grows and evolves, we will also face new competitors and technologies who are not currently in the market. Our industry is characterized by low technological barriers to entry and well-capitalized companies, including utilities and integrated energy companies, could choose to enter the market and compete with us. Our failure to adapt to changing market conditions and to compete successfully with existing or new competitors will limit our growth and will have a material adverse effect on our business, financial condition and results of operations.

***Developments in technology or improvements in distributed solar energy generation and related technologies or components may materially adversely affect demand for our offerings.***

Significant developments in technology, such as advances in distributed solar power generation, energy storage solutions such as batteries, energy storage management systems, the widespread use or adoption of fuel cells for residential or commercial properties or improvements in other forms of distributed or centralized power production may materially and adversely affect demand for our offerings and otherwise affect our business. Future technological advancements may result in reduced prices to consumers or more efficient solar energy systems than those available today, either of which may result in current customer dissatisfaction. We may not be able to adopt these new technologies as quickly as our competitors or on a cost-effective basis.

Due to the length of our solar service agreements, the solar energy system deployed on a customer's residence may be outdated prior to the expiration of the term of the related solar service agreement, reducing the likelihood of renewal of our solar service agreement at the end of the applicable term and possibly increasing the occurrence of customers seeking to

terminate or cancel their solar service agreements or defaults. If current customers become dissatisfied with the price they pay for their solar energy system under our solar service agreements relative to prices that may be available in the future or if customers become dissatisfied by the output generated by their solar energy systems relative to future solar energy system production capabilities, or both, this may lead to customers seeking to terminate or cancel their solar service agreements or higher rates of customer default and have an adverse effect on our business, financial condition and results of operations. Additionally, recent technological advancements may impact our business in ways we do not currently anticipate. Any failure by us to adopt or have access to new or enhanced technologies or processes, or to react to changes in existing technologies, could result in product obsolescence or the loss of competitiveness of and decreased consumer interest in our solar energy services, which could have a material adverse effect on our business, financial condition and results of operations.

***The value of our solar energy systems at the end of the associated term of the lease or PPA may be lower than projected, which may adversely affect our financial performance and valuation.***

We depreciate the costs of our solar energy systems over their estimated useful life of 35 years. At the end of the initial term (typically 20 or 25 years) of the lease or PPA, customers may choose to purchase their solar energy systems, ask us to remove the solar energy system at our cost or renew their lease or PPA. Homeowners may choose to not renew or purchase for any reason, such as pricing, decreased energy consumption, relocation of residence, switching to a competitor product or technological obsolescence of the solar energy system. We are also contractually obligated to remove, store and reinstall the solar energy systems, typically for a nominal fee, if customers need to replace or repair their roofs. Furthermore, it is difficult to predict how future environmental regulations may affect the costs associated with the removal, disposal or recycling of our solar energy systems. If the residual value of the solar energy systems is less than we expect at the end of the customer contract, after giving effect to any associated removal and redeployment costs, we may be required to accelerate the recognition of all or some of the remaining unamortized costs. This could materially impair our future results of operations.

### **Risks Related to our Financing Activities**

***We need to obtain substantial additional financing arrangements to provide working capital and growth capital and if financing is not available to us on acceptable terms when needed, our ability to continue to grow our business would be materially adversely impacted.***

Distributed residential solar power is a capital-intensive business that relies heavily on the availability of debt and equity financing sources to fund solar energy system purchase, design, engineering and other capital expenditures. From our inception through December 31, 2021, we have raised more than \$9.0 billion in total capital commitments from equity, debt and tax equity investors.

Our future success depends in part on our ability to raise capital from third-party investors and commercial sources, such as banks and other lenders, on competitive terms to help finance the deployment of our solar energy systems. We seek to minimize our cost of capital in order to improve profitability and maintain the price competitiveness of the electricity produced by, the payments for and the cost of our solar energy systems. We rely on access to capital, including through tax equity financing and indebtedness in the form of debt facilities and asset-backed securities, to cover the costs related to bringing our solar energy systems and energy storage systems in service, although our customers ultimately bear responsibility for those costs pursuant to our solar service agreements.

To meet the capital needs of our growing business, we will need to obtain additional debt or equity financing from current and new investors. If any of our current debt or equity investors decide not to invest in us in the future for any reason, or decide to invest at levels inadequate to support our anticipated needs or materially change the terms under which they are willing to provide future financing, we will need to identify new investors and financial institutions to provide financing and negotiate new financing terms. In addition, our ability to obtain additional financing through the asset-backed securities market or other secured debt markets is subject to our having sufficient assets eligible for securitization as well as our ability to obtain appropriate credit ratings. If we are unable to raise additional capital in a timely manner, our ability to meet our capital needs and fund future growth may be limited.

Delays in obtaining financing could cause delays in expansion in existing markets or entering into new markets and hiring additional personnel. Any future delays in capital raising could similarly cause us to delay deployment of a substantial number of solar energy systems for which we have signed solar service agreements with customers. Our future ability to obtain additional financing depends on banks' and other financing sources' continued confidence in our business model and the renewable energy industry as a whole. It could also be impacted by the liquidity needs of such financing sources themselves. We face intense competition from a variety of other companies, technologies and financing structures for such limited investment capital. If we are unable to continue to offer a competitive investment profile, we may lose access to these funds or

they may only be available to us on terms less favorable than those received by our competitors. For example, if we experience higher customer default rates than we currently experience, it could be more difficult or costly to attract future financing. Any inability to secure financing could lead us to cancel planned installations, impair our ability to accept new customers or increase our borrowing costs, any of which could have a material adverse effect on our business, financial condition and results of operations.

***We enter into securitization structures, warehouse financings and other debt financings that may limit our ability to access the cash of our subsidiaries and include acceleration events that, if triggered, could adversely impact our financial condition.***

Since April 2017, we have pooled and transferred eligible solar energy systems and the related asset receivables into 11 special purpose entities, which sold solar asset-backed notes and solar loan-backed notes to institutional investors, the net proceeds of which were distributed to us. We intend to monetize additional solar energy systems in the future through contributions to new special purposes entities for cash. There is a risk the institutional investors that have purchased the notes issued by these special purpose entities will be unwilling to make further investments in our solar energy systems at attractive prices. Although the creditors of these special purpose entities have no recourse to our other assets except as expressly set forth in the terms of the notes, the special purpose entities are typically required to maintain a liquidity reserve account, a reserve account for equipment replacements, as well as, in certain cases, reserve accounts to finance purchase option/withdrawal right exercises, storage system replacement or payment of liquidated damages for the benefit of the lenders under the applicable series of notes, each of which are funded from initial deposits or cash flows to the levels specified therein.

The securitization structures, warehouse financings and other debt financings often include certain other features designed to protect investors. The primary feature relates to the availability and adequacy of cash flows in the pool of assets to meet contractual requirements, the insufficiency of which triggers an early repayment of the indebtedness. We refer to this as "early amortization", which may be based on, among other things, a debt service coverage ratio falling or remaining below certain levels. In the event of an early amortization, the notes issuer would be required to repay the affected indebtedness using available collections received from the asset pool. However, the period of ultimate payment would be determined based on the amount and timing of collections received and, in limited circumstances, early amortization may be cured prior to full repayment. An early amortization event would impair our liquidity and may require us to utilize other available contingent liquidity or rely on alternative funding sources, which may not be available at the time. Certain of the securitizations, warehouse financings and other debt financings also contain a "cash trap" feature, which requires excess cash flow to be held in an account based on, among other things, a debt service coverage ratio falling or remaining below certain levels. If the cash trap conditions are not cured within a specified period, then the cash in the cash trap account must be applied to repay the indebtedness. If the cash trap conditions are timely cured, the cash is either released back to the borrower or used to repay the indebtedness at the borrower's option. The indentures of our securitizations also typically contain customary events of default for solar securitizations that may entitle the noteholders to take various actions, including the acceleration of amounts due and foreclosure on the issuer's assets. Any significant payments we may be required to make as a result of these arrangements could adversely affect our financial condition. See "*Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Financing Arrangements*".

***Servicing our existing debt requires a significant amount of cash. We may not have sufficient cash flow from our business to timely pay our interest and principal obligations and may be forced to take other actions to satisfy our payment obligations.***

As of December 31, 2021, our total indebtedness was approximately \$3.3 billion and the available borrowing capacity under our credit facilities was \$411.8 million. Our ability to make scheduled payments of the principal of, to pay interest on or to refinance our indebtedness depends on our future performance, which is subject to economic, financial, competitive and other factors beyond our control. Our business may not generate cash flow from operations sufficient to service our debt and make necessary capital expenditures to operate our business. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as slowing or ceasing the origination of new solar service agreements, selling assets, restructuring debt or obtaining additional debt and equity capital on terms that may be onerous or highly dilutive. Our securitizations are structured in that cash flows generated by the pool of solar energy systems, energy storage systems and related solar service agreements are initially used to repay outstanding principal amounts based on the priority of payments in the agreement. However, should these cash flows decrease below applicable thresholds, all excess cash flows from such asset pool must be applied to pay down the related indebtedness, which would reduce the cash available to otherwise fund our business. Our ability to timely repay or otherwise refinance our indebtedness will depend on the capital markets and our financial condition at such time. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on our debt obligations.

Furthermore, we and our subsidiaries expect to incur additional debt in the future, subject to the restrictions contained in our debt instruments. Increases in our existing debt obligations would further heighten the debt related risk discussed above. In addition, we may not be able to enter into new debt instruments on acceptable terms or at all. If we were unable to satisfy financial covenants and other terms under existing or new instruments, or obtain waivers or forbearance from our lenders, or if we were unable to obtain refinancing or new financings for our working capital, equipment and other needs on acceptable terms if and when needed, our business would be adversely affected.

***Restrictive covenants in certain of our debt agreements could limit our growth and our ability to finance our operations, fund our capital needs, respond to changing conditions and engage in other business activities that may be in our best interests.***

Our debt agreements impose operating and financial restrictions on us. These restrictions limit our ability and that of our subsidiaries to, among other things:

- incur additional indebtedness;
- make investments or loans;
- create liens;
- consummate mergers and similar fundamental changes;
- make restricted payments;
- make investments in unrestricted subsidiaries;
- enter into transactions with affiliates; and
- use the proceeds of asset sales.

We may be prevented from taking advantage of business opportunities that arise because of the limitations imposed on us by the restrictive covenants under certain of our debt agreements. The restrictions contained in the covenants could:

- limit our ability to plan for or react to market conditions, to meet capital needs or otherwise to restrict our activities or business plan; and
- adversely affect our ability to finance our operations, enter into acquisitions or divestitures to engage in other business activities that would be in our interest.

A breach of any of these covenants or our inability to comply with the required financial ratios or financial condition tests could result in a default under our debt agreements that, if not cured or waived, could result in acceleration of all indebtedness outstanding thereunder and cross-default rights under our other debt. In addition, in the event of an event of default under one of the credit facilities, the affected lenders could foreclose on the collateral securing such credit facility and require repayment of all borrowings outstanding thereunder. If the amounts outstanding under the credit facilities or any of our other indebtedness were to be accelerated, our assets may not be sufficient to repay in full the amounts owed to the lenders or to our other debt holders.

***Rising interest rates may adversely impact our business.***

Due to recent increases in inflation, the U.S. Federal Reserve is widely expected to raise its benchmark interest rates. An increase in the federal benchmark rate could result in an increase in market interest rates, which may increase our interest expense under our variable-rate borrowings and the costs of refinancing existing indebtedness or obtaining new debt. Consequently, rising interest rates will increase our cost of capital. Our future success depends in part on our ability to raise capital from investors and obtain secured lending to help finance the deployment of our solar service agreements. As a result, rising interest rates may have an adverse impact on our ability to offer attractive pricing on our solar service agreements to our customers. If in the future we have a need for significant borrowings and interest rates increase, that would increase the cost of the solar systems that we purchase, which either would make those systems more expensive for customers, which is likely to reduce demand, or would lower our operating margins, or both.

The majority of our cash flows to date have been from solar service agreements monetized under various tax equity fund structures and secured lending arrangements. One of the components of this monetization is the present value of the payment streams from customers who enter into these long-term solar service agreements. If the rate of return required by capital providers, including debt providers, rises as a result of a rise in interest rates, it will reduce the present value of the customer payment stream and consequently reduce the total value derived from this type of monetization. Any measures we could take to mitigate the impact of rising interest rates on our ability to secure third-party financing could ultimately have an adverse impact on the value proposition we offer our customers or our profitability.

***We are subject to counterparty credit risk with respect to the capped call transactions.***

In connection with the pricing of the 0.25% convertible senior notes, we entered into privately negotiated capped call transactions with certain financial institutions (the "option counterparties"). The option counterparties are financial institutions or affiliates of financial institutions, and we will be subject to the risk that one or more of such option counterparties may default or otherwise fail to perform their obligations under the capped call transactions. Our exposure to the credit risk of the option counterparties will not be secured by any collateral.

If any option counterparty becomes subject to bankruptcy or other insolvency proceedings, with respect to such option counterparty's obligations under the relevant capped call transaction, we will become an unsecured creditor in those proceedings with a claim equal to our exposure at that time under our transactions with that counterparty. Our exposure will depend on many factors but, generally, our exposure will increase if the market price or the volatility of our common stock increases. In addition, upon a default or other failure to perform by an option counterparty, we may suffer more dilution than we currently anticipate with respect to our common stock. We can provide no assurance as to the financial stability or viability of any of the option counterparties.

***The phase-out of the London Interbank Offered Rate ("LIBOR") may adversely affect a portion of our outstanding debt.***

Certain of our borrowings carry a variable interest rate based on LIBOR as a benchmark for establishing the rate of interest. In July 2017, the United Kingdom's Financial Conduct Authority, which regulates LIBOR, announced that it intends to phase out LIBOR by the end of 2021. In November 2020, ICE Benchmark Administration, the administrator of LIBOR, with the support of the United States Federal Reserve and the United Kingdom's Financial Conduct Authority, announced plans to consult on ceasing publication of USD LIBOR on December 31, 2021 for only the one-week and two-month USD LIBOR tenors, and on June 30, 2023 for all other USD LIBOR tenors. While this announcement extends the transition period to June 2023, the United States Federal Reserve concurrently issued a statement advising banks to stop new USD LIBOR issuances by the end of 2021. The United States Federal Reserve, in conjunction with the Alternative Reference Rates Committee, a steering committee comprised of large United States financial institutions (the "ARRC"), proposed a new index calculated by short term repurchase agreement, backed by treasury securities called the Secured Overnight Financing Rate ("SOFR") as an alternative to LIBOR for use in contracts that are currently indexed to USD LIBOR, and has proposed a paced market transition plan to SOFR. In July 2021, the ARRC formally recommended SOFR as its preferred alternative replacement rate for USD LIBOR. Beginning January 1, 2022, the Financial Conduct Authority ceased publishing one-week and two-month U.S. dollar LIBOR and is expected to cease publishing all remaining U.S. dollar LIBOR tenors in June 2023.

In light of these developments, the future of LIBOR at this time is uncertain and any changes in the methods by which LIBOR is determined or regulatory activity related to LIBOR's phaseout could cause LIBOR to perform differently than in the past or cease to exist. Changes in the method of determining LIBOR, or the replacement of LIBOR with SOFR or an alternative floating borrowing rate, may adversely affect our borrowing costs. Certain of our debt instruments have interest rates that are LIBOR based and will not have matured prior to the phase-out of LIBOR. Although SOFR appears to be the preferred replacement rate of USD LIBOR at this time, we cannot predict the effect of the potential changes to LIBOR or the establishment and use of alternative floating borrowing rates on the portion of our outstanding debt that is LIBOR-based. Challenges in changing to a different borrowing rate may result in less favorable pricing on certain of our debt instruments and could have an adverse effect on our financial results and cash flows.

**Risks Related to Regulations**

***We are not currently regulated as an electric public utility under applicable law but may be subject to regulation as an electric utility in the future.***

We are not currently regulated as an electric public utility in the U.S. under applicable national, state or other local regulatory regimes where we conduct business. As a result, we are not currently subject to the various federal, state and local standards, restrictions and regulatory requirements applicable to centralized public utilities. Any federal, state or local regulations that cause us to be treated as an electric utility or to otherwise be subject to a similar regulatory regime of commission-approved operating tariffs, rate limitations and related mandatory provisions, could place significant restrictions on our ability to operate our business and execute our business plan by prohibiting, restricting or otherwise regulating our sale of electricity. If we were subject to the same state or federal regulatory authorities as centralized electric utilities in the U.S. and its territories or if new regulatory bodies were established to oversee our business in the U.S. and its territories or in foreign markets we enter, our operating costs would materially increase or we might have to change our business in ways that could have a material adverse effect on our business, financial condition and results of operations.

While we are not regulated as extensively as an electric public utility, we are subject to certain utility-like regulations in jurisdictions such as California, New York, Arizona, Nevada, Florida and Puerto Rico. In New York, distributed energy providers are subject to regulation by the New York Public Service Commission (the "NYPSC") with respect to customer interactions (including contracting and marketing) and are required to comply with the NYPSC's Uniform Business Practices. In connection with approving the Uniform Business Practices, the NYPSC also established an oversight framework under which it could impose other regulatory requirements on distributed energy providers. In Puerto Rico, we are regulated as an electric power company under applicable Puerto Rico Energy Bureau regulations in connection with the sale and invoicing of energy generated by distributed generation systems having an aggregate capacity of more than 1 megawatt. Among other requirements, these regulations impose certain filing, certification, reporting and annual fee requirements upon us but do not currently subject the companies to centralized utility-like regulation or require the Puerto Rico Energy Bureau's approval of their charges. In California, the California Public Utilities Commission ("CPUC") issued an order approving several consumer protection measures for solar customers, including a requirement for solar providers to provide customers with the California Solar Consumer Protection Guide, which provides customers with information regarding the selection of a contractor, solar financing, bill savings estimates, net energy metering and electric rates, low-income options and related matters. The CPUC order also requires the investor-owned utilities in California to adopt procedures to verify during the interconnection process that the customer received the California Solar Consumer Protection Guide and that the solar provider is licensed, and to collect and report on complaints regarding solar providers. If we become subject to new, additional regulatory requirements in these jurisdictions or other jurisdictions adopt similar regulatory requirements, our operating costs would materially increase or we might have to change our business in ways that could have a material adverse effect on our business, financial condition and results of operations.

***Electric utility policies and regulations, including those affecting electric rates, may present regulatory and economic barriers to the purchase and use of solar energy systems that may significantly reduce demand for electricity from our solar energy systems and adversely impact our ability to originate new solar service agreements.***

Federal, state and local government regulations and policies concerning the electric utility industry, utility rates and rate structures and internal policies and regulations promulgated by electric utilities, heavily influence the market for electricity generation products and services. These regulations and policies often relate to electricity pricing. Policies and regulations that promote renewable energy and distributed energy generation have been challenged by centralized electric utilities and questioned by those in government and others arguing for less governmental spending and involvement in the energy market. To the extent such views are reflected in government policies and regulations, the changes in such policies and regulations could adversely affect our business, financial condition and results of operations. Furthermore, any effort to overturn federal and state laws, regulations or policies that are supportive of solar energy generation or that remove costs or other limitations on other types of energy generation that compete with solar energy projects could materially and adversely affect our business.

In the U.S., governmental authorities and state public service commissions that determine utility rates, rate structures and the terms and conditions of electric service continuously modify these regulations and policies. These regulations and policies could result in a significant reduction in the potential demand for electricity from our solar energy systems and could deter customers from entering into solar service agreements with us.

With regard to rates, customers with residential solar energy systems may currently pay or be subject in the future to increased charges due to increased rates or changes in rate design and structures. Utilities in certain jurisdictions may assess fees that apply only to customers with distributed generation systems, including residential solar energy systems or impose charges on solar customers that are significantly higher than comparable charges billed to non-solar customers.

These fees may include demand, stand-by or departing load charges or monthly minimum charges. Certain jurisdictions may permit utilities to change their rate design and structures which could result in charges that would disproportionately impact customers with solar energy systems. For example, a reduction in the number of tiers of residential rates could result in increased charges for lower-demand customers, including many solar customers, by moving them to a new rate tier with higher rates. It could also result in lower charges for higher-demand customers, who may then become less incentivized to consider solar energy to meet their electricity needs. Similarly, a change in rate design to recover more costs from fixed charges as opposed to variable charges (i.e. "decoupled" rates, by which the utility's revenue requirement is "decoupled" from its level of electricity sales in designing rates) may have the same effect. Additionally, depending on the region, electricity generated by solar energy systems competes most effectively with the most expensive retail rates for electricity from the electrical grid, rather than the less expensive average price of electricity. Modifications to the centralized electric utilities' peak hour pricing policies or rate design could make our current product offerings less competitive with the price of electricity from the electrical grid. A shift in the timing of peak rates for utility-generated electricity to include times of day when solar energy generation is less efficient or non-operable could make our solar energy systems less competitive and reduce demand for our product.

offerings. Time-of-use rates could also result in higher costs for solar customers whose electricity requirements are not fully met by the solar energy system during peak periods.

Utilities in California, New Jersey and Puerto Rico, among other states and jurisdictions, have proposed or received approval by state regulators for such rate measures as described in this risk factor. Any such changes affecting rates could increase our customers' cost to use our solar energy systems and make our service and product offerings less desirable, thereby harming our business, financial condition and results of operations. The imposition of any such rate measures could limit the ability of distributed residential solar power companies to compete with the price of electricity generated by centralized electric utilities, which may reduce the number of solar energy systems installed in those jurisdictions. Additionally, any such unaccounted for increases in the fees or charges applicable to existing customer agreements may increase the cost of energy to those customers and result in an increased rate of defaults, terminations or cancellations under our solar service agreements. In addition, changes to government or internal utility regulations and policies that favor centralized electric utilities could reduce our competitiveness and cause a significant reduction in demand for our product offerings.

Any of the foregoing results could limit our ability to expand our portfolio of solar service agreements and related solar energy systems and energy storage systems or harm our business, financial condition and results of operations.

***We rely on net metering and related policies to offer competitive pricing to our customers in most of our current markets and changes to net metering policies may significantly reduce demand for electricity from residential solar energy systems.***

Net metering is one of several key policies that have enabled the growth of distributed generation solar energy systems in the U.S., providing significant value to customers for electricity generated by their residential solar energy systems but not directly consumed on-site. Net metering allows a homeowner to pay his or her local electric utility for power usage net of production from the solar energy system or other distributed generation source. Homeowners receive a credit for the energy an interconnected solar energy system generates in excess of that needed by the home to offset energy purchases from the centralized utility made at times when the solar energy system is not generating sufficient energy to meet the customer's demand. In many markets, this credit is equal to the residential retail rate for electricity and in other markets, such as Hawaii and Nevada, the rate is less than the retail rate and may be set, for example, as a percentage of the retail rate or based upon a valuation of the excess electricity. In some states and utility territories, customers are also reimbursed by the centralized electric utility for net excess generation on a periodic basis.

Net metering programs have been subject to legislative and regulatory scrutiny in some states and territories including, but not limited to, California, New Jersey, Arizona, Nevada, Connecticut, Florida, Maine, Kentucky, Puerto Rico and Guam. These jurisdictions, by statute, regulation, administrative order or a combination thereof, have recently adopted or are considering new restrictions and additional changes to net metering programs either on a state-wide basis or within specific utility territories. Many of these measures were introduced and supported by centralized electric utilities. These measures vary by jurisdiction and may include a reduction in the rates or value of the credits customers are paid or receive for the power they deliver back to the electrical grid, caps or limits on the aggregate installed capacity of generation in a state or utility territory eligible for net metering, expiration dates for and phasing out of net metering programs, replacement of net metering programs with alternative programs that may provide less compensation and limits on the capacity size of individual distributed generation systems that can qualify for net metering. Net metering and related policies concerning distributed generation also received attention from federal legislators and regulators.

In California, the CPUC issued an order in 2016 retaining retail-based net metering credits for residential customers of California's major utilities as part of Net Energy Metering 2.0 ("NEM 2.0"). Under NEM 2.0, new distributed generation customers receive the retail rate for electricity exported to the grid, less certain non-bypassable fees. Customers under NEM 2.0 also are subject to interconnection charges and time-of-use rates. Existing customers who receive service under the prior net metering program, as well as new customers under the NEM 2.0 program, currently are permitted to remain covered by them on a legacy basis for a period of 20 years. On September 3, 2020, the CPUC opened a new proceeding to review its current net metering policies and to develop Net Energy Metering 3.0 ("NEM 3.0"), also referred to by the CPUC as the NEM 2.0 successor tariff. The CPUC currently is considering a proposed decision by an administrative law judge on a successor program to its current net metering program that, if adopted, would reduce the value of net metering credits from the retail rate to an avoided cost rate, impose a monthly charge on customers with solar systems, provide customers with temporary market transition credits, and reduce the period under which legacy net metering customers can remain under the prior net metering programs from 20 to 15 years. The CPUC is expected to act on this proposed ruling in 2022 and may adopt or modify the initial decision or consider an alternate decision. Proceedings on distributed energy policy and utility rates before the CPUC or legislation concerning these matters could also result in changes that affect customers with distributed generation systems.

In New Jersey, the Board of Public Utilities has the option under state law of limiting participation in the retail rate net metering program if the aggregate capacity of owned and operating systems reaches 5.8% of total annual kWh sold in the state. As of December 31, 2021, that threshold had not yet been reached.

In Puerto Rico, legislation enacted in April 2019 requires a study of net metering to be completed within five years, which may result in revisions to the existing rules. However, no changes can be made to retail net metering for five years after the date the legislation was enacted. Meanwhile, "true" net metering will continue to apply, meaning the credit for energy exported by net metering clients will equal the value of such energy under the rate applicable to those clients and accordingly, their charges will be based on their net consumption. Customers subject to this regime will remain covered by it on a legacy basis for a period of 20 years from the date of their net metering agreements.

Net metering customers in Puerto Rico may be impacted by transition charges and other requirements contemplated in a restructuring agreement between PREPA and its creditors, currently pending before the U.S. District Court for the District of Puerto Rico in bankruptcy-like proceedings under Title III of the PROMESA. PROMESA provides PREPA with access to a workout process similar to bankruptcy. In response to the effects of the COVID-19 pandemic, however, the approval of the restructuring agreement has been stayed, and the government announced in December 2020 that it continues to conduct diligence to determine whether, among other things, the terms of the restructuring agreement should be renegotiated and the parameters for doing so.

In Guam, the Consolidated Commission on Utilities ("CCU") adopted a resolution in 2018 recommending retail rate net metering for customers of the Guam Power Authority ("GPA") be replaced with a "buy all/sell all" or similar program that provides for compensation to homeowners at a lower, avoided cost rate. The GPA is a public corporation that provides electricity in Guam and is overseen by the CCU and regulated by the Guam Public Utilities Commission ("GPUC"). In 2019, the GPUC, who has the authority to approve or reject the CCU's recommendations, rejected the resolution and instead voted to cap participation in the net metering program from 1,000 customers to 261 megawatts, which represents 10% of the GPA system's peak power demand. The GPA has also proposed to eliminate the option for customers to roll over any excess net metering credits to the next year or receive a payment for excess credits remaining at the end of the year. In May 2020, the GPUC approved the GPA's proposal to eliminate the option for customers to roll over any excess net metering credits or receive a payment for excess credits remaining at the end of the year. This change will go into effect on January 1, 2021. Customers will be able to receive a payment for excess credits at the end of 2020, but any excess credits remaining at the end of a year in the future will be surrendered to the utility without compensation. In February 2020, the CCU adopted a resolution requiring all new distributed generation that participates in net metering and is tied to the GPA power grid to have an energy storage system such as a battery. The GPUC approved a February 2020 resolution by the CCU adopting additional requirements for new distributed generation that participates in net metering. Starting on June 1, 2021, new systems are required to have frequency control capability or energy storage, such as a battery, or else are required to pay an additional monthly charge to the GPA.

In other jurisdictions, including Austin, Texas, Minnesota and Connecticut, replacing net metering with a "value of distributed energy", "feed-in", or "sell-all/buy-all" tariff is also being considered or has been adopted. Under a "value of distributed energy" tariff, the customer would be compensated at a rate that accounts for the electricity, capacity, environmental and other attributes provided by distributed generation to the grid and the electricity market. Under a "feed-in" or "sell-all/buy-all" tariff, all the solar energy system's generation is exported to the grid and purchased by the utility at an established rate and the customer is required to purchase all of its electricity requirements from the utility at the retail rate. In New York, the NYPSC adopted a "value of distributed energy" policy but permitted existing net metering customers to remain on their current program and extended eligibility for net metering for new residential customers interconnected before January 1, 2022 for a period of 20 years. Residential customers otherwise still eligible for net metering may also elect to be compensated under a "value of distributed energy" tariff. New solar customers interconnecting after January 1, 2022 will continue to be eligible for net metering, but will be subject to a monthly fixed fee. Compensation for those customers covered by a "value of solar" tariff varies and may not favorably compare to that provided by net metering.

Net metering and related policies concerning distributed generation have received attention from federal legislators and regulators and challenge by various stakeholders. For example, in April 2020, the New England Ratepayers Association petitioned the FERC to declare its exclusive federal jurisdiction over distributed generation, including residential solar, and to establish new federal customer compensation rates for excess energy in lieu of state net metering programs. While the FERC rejected the petition on procedural grounds, further challenges to net metering based on federal law may occur. Changes in federal law, including those made by statute, regulation, rule or order, could negatively affect net metering or other related policies that otherwise promote and support solar energy and enhance the economic viability of distributed residential solar.

If net metering caps in certain jurisdictions are reached while they are still in effect, if the value of the credit that customers receive for net metering is significantly reduced, if customers are required to pay monthly charges in order to participate in a net

metering program, if net metering is discontinued or replaced by a different regime that values solar energy at a lower rate, if the period that net metering customers remain eligible for their current net metering program is reduced or if other limits or restrictions on net metering are imposed, current and future customers may be unable to recognize the same level of cost savings associated with net metering. The absence of favorable net metering policies or of net metering entirely, or the imposition of new charges that only or disproportionately impact customers that use net metering would likely significantly limit customer demand for distributed residential solar energy systems and the electricity they generate and result in an increased rate of defaults, terminations or cancellations under customer agreements. Our ability to lease, finance and sell our solar energy systems and services or sell the electricity generated from our solar energy systems may be adversely impacted by the failure to expand existing limits on the amount of net metering in states that have implemented it, the failure to adopt a net metering policy where it currently is not in place or reductions in the amount or value of credit customers receive through net metering. This could adversely impact our ability to expand our portfolio of solar service agreements and related solar energy systems and energy storage systems, our business, financial condition and results of operations.

Additionally, distributed residential solar customers in certain jurisdictions may be subject to higher charges from centralized electric utilities than non-solar customers and such charges should be evaluated together with the net metering policies in place. If such charges are imposed, the cost savings associated with switching to solar energy may be significantly reduced and our ability to expand our portfolio of solar service agreements and related solar energy systems and energy storage systems and compete with centralized electric utilities could be impacted.

For further discussion of these potential charges and related proposals, see "*Electric utility policies and regulations, including those affecting electric rates, may present regulatory and economic barriers to the purchase and use of solar energy systems that may significantly reduce demand for electricity from our solar energy systems and adversely impact our ability to originate new solar service agreements*".

***Our business currently depends in part on the availability of rebates, tax credits and other financial incentives. The expiration, elimination or reduction of these rebates, credits or incentives or our ability to monetize them could adversely impact our business.***

Our business depends in part on current government policies that promote and support solar energy and enhance the economic viability of distributed residential solar. Revenues from SRECs constituted approximately 17%, 22% and 29% of our revenues for the years ended December 31, 2021, 2020 and 2019, respectively. U.S. federal, state and local governments established various incentives and financial mechanisms to reduce the cost of solar energy and to accelerate the adoption of solar energy. These incentives come in various forms, including rebates, tax credits and other financial incentives such as payments for renewable energy credits associated with renewable energy generation, exclusion of solar energy systems from property tax assessments or other taxes and system performance payments. However, these programs may expire on a particular date, end when the allocated funding is exhausted or be reduced or terminated as solar energy adoption rates increase. For example, New Jersey's SREC program closed in 2020 due to legislation requiring that it be closed by the earlier of the share of electricity sold by the state's utilities supplied by solar reaching 5.1% or June 2021. Following the close of the program in June 2020, customers became eligible for Transitional Renewable Energy Credits ("TREC") under an interim transitional program replacing SRECs that provides for a lower level of revenue than the SREC program. On July 28, 2021, the New Jersey Board of Public Utilities closed the TREC program effective August 27, 2021 and approved the long-term successor program to the TREC program, which is referred to as the Successor Solar Incentive Program ("SuSI"). Under the SuSI program, which became effective on August 28, 2021, residential facilities are eligible for the Solar Renewable Energy Certificate-II ("SREC-II") incentive. For net metered residential facilities, the SREC-II provides an administratively-determined fixed payment per megawatt hour that is guaranteed for 15 years, but is lower than the level revenue provided by the TREC program. The financial value of certain incentives decreases over time. The value of SRECs in a market tends to decrease over time as the supply of SREC-producing solar energy systems installed in that market increases. If we overestimate the future value of these incentives, it could adversely impact our business, results of operations and financial results. See "*Business—Government Incentives*".

A loss or reduction in such incentives could decrease the attractiveness of new solar energy systems to customers, which could adversely impact our business and our access to capital. We also enter into economic hedges related to expected production of SRECs through forward contracts that require us to physically deliver the SRECs upon settlement. These arrangements may, depending on the instruments used and the level of additional hedges involved, limit any potential upside from SREC production increases. We may be exposed to potential economic loss should a counterparty be unable or unwilling to perform their obligations under the terms of a hedging agreement. In addition, we are exposed to risks related to changes in interest rates and may engage in hedging activities to mitigate related volatility. We may fail to properly hedge these SRECs or may fail to do so economically, which may also adversely affect our results of operations.

The economics of purchasing a solar energy system and energy storage system are also improved by eligibility for accelerated depreciation, also known as the modified accelerated cost recovery system ("MACRS"), which allows for the depreciation of equipment according to an accelerated schedule set forth by the IRS. This accelerated schedule allows a taxpayer, such as us and investors in tax equity financing arrangements, to recognize the depreciation of tangible solar property on a five-year basis even though the useful life of such property is generally greater than five years. We benefit from accelerated depreciation on the solar energy systems and energy storage systems we own. To the extent these policies are changed in a manner that reduces the incentives that benefit our business, we may experience reduced revenues and reduced economic returns, experience increased financing costs and encounter difficulty obtaining financing.

The federal government currently provides business investment tax credits under Section 48 and residential energy credits under Section 25D of the Code. Section 48(a) of the Code allows taxpayers to claim an investment tax credit equal to 30% of the basis of certain commercially owned solar property that began construction before 2020 if placed in service before 2026. The Section 48(a) ITC percentage decreased to 26% of the basis of a solar property that began construction during 2020 or 2021 or begins construction in 2022, 22% if construction begins in 2023 and 10% if construction begins after 2023 or if the solar property is placed into service after 2025. In June 2018, the IRS provided guidance as to when construction is considered to begin for such purposes, including the 5% ITC Safe Harbor that may apply when a taxpayer pays or incurs (or in certain cases, a contractor of the taxpayer pays or incurs) 5% or more of the costs of a solar energy system before the end of the applicable year.

We would be able to claim the Section 48(a) ITC when available for solar energy systems we originate under lease agreements or PPAs based on our ownership of the solar energy system at the time it is placed in service. We are also able to claim the Section 48(a) ITC for energy storage systems installed in conjunction with solar energy systems as long as they are only charged by on-site solar. A reduced Section 48(a) ITC may be available for energy storage systems charged in part from sources other than on-site solar as long as the energy storage systems are charged at least 75% by on-site solar.

Until 2023, Section 25D of the Code allows an individual to claim a 26% federal tax credit with respect to a residential solar energy system that is owned by the homeowner. As a result, the Section 25D Credit is claimed by customers who purchase solar energy systems. This 26% rate is scheduled to be reduced to 22% for solar energy systems placed in service during 2023. This credit is scheduled to expire effective January 1, 2024. The Section 25D Credit reduces the cost of consumer ownership of solar energy systems, such as under the loan program.

The Section 48(a) ITC has been a significant driver of the financing supporting the adoption of residential solar energy systems in the U.S. and the Section 25D Credit has been a significant driver of consumer demand for ownership of solar energy systems. The reduction in, or expiration of, these tax credits will likely impact the attractiveness of residential solar and could harm our business. For example, we expect the expiration of the Section 25D Credit will increase the cost of consumer ownership of solar energy systems, such as under the loan program.

The scheduled reductions in the Section 48(a) ITC could adversely impact our financing structures that monetize a substantial portion of such Section 48(a) ITC and provide financing for our solar energy systems, including if solar energy systems that incorporate our inventory are unsuccessful in claiming the 5% ITC Safe Harbor and therefore fail to qualify for a higher Section 48(a) ITC. To the extent we have a reduced ability to raise tax equity as a result of this reduction or an inability to continue to monetize such benefits in our financing arrangements, the rate of growth of installations of our residential solar energy systems and our ability to maintain such solar energy systems could be negatively impacted. In addition, future changes in existing law and interpretations by the IRS or the courts with respect to certain matters, including but not limited to, treatment of the Section 48(a) ITC, the 5% ITC Safe Harbor and our financing arrangements and the taxation of business entities including the deductibility of interest expense could affect the amount tax equity investors are willing to invest, which could reduce our access to capital. See "*Business—Government Incentives*".

Applicable authorities may adjust or decrease incentives from time to time or include provisions for minimum domestic content requirements or other requirements to qualify for these incentives. Reductions in, eliminations or expirations of or additional application requirements for governmental incentives could adversely impact our results of operations and ability to compete in our industry by increasing our cost of capital, causing distributed residential solar power companies to increase the prices of their energy and solar energy systems and reducing the size of our addressable market. In addition, this would adversely impact our ability to attract investment partners and lenders and our ability to expand our portfolio of solar service agreements and related solar energy systems and energy storage systems.

***Our business depends in part on the regulatory treatment of third-party owned solar energy systems.***

Our lease and PPA agreements are third-party ownership arrangements. Retail sales of electricity by third parties such as us face regulatory challenges in some states and jurisdictions, including states and jurisdictions we intend to enter where the laws and regulatory policies have not historically embraced competition to the service provided by the vertically integrated centralized electric utility. Some of the principal challenges pertain to whether third-party owned solar energy systems qualify for the same levels of rebates or other non-tax incentives available for customer-owned solar energy systems, whether third-party owned solar energy systems are eligible at all for these incentives and whether third-party owned solar energy systems are eligible for net metering and the associated significant cost savings. Furthermore, in some states and utility territories third parties are limited in the way they may deliver solar to their customers. In certain jurisdictions, laws have been interpreted to prohibit the sale of electricity pursuant to PPAs, leading distributed residential solar energy system providers to use leases in lieu of PPAs, in addition to customer ownership. These regulatory constraints may, for example, give rise to various property tax issues. See *"Risks Related to Taxation"*. Changes in law and reductions in, eliminations of or additional requirements for, benefits such as rebates, tax incentives and favorable net metering policies decrease the attractiveness of new solar energy systems to distributed residential solar power companies and the attractiveness of solar energy systems to customers, which could reduce our acquisition opportunities. Such a loss or reduction could also adversely impact our access to capital and reduce our willingness to pursue solar energy systems due to higher operating costs or lower revenues from leases and PPAs.

***Technical and regulatory limitations regarding the interconnection of solar energy systems to the electrical grid may significantly reduce our ability to sell electricity from our solar energy systems in certain markets or delay interconnections and customer in-service dates, harming our growth rate and customer satisfaction.***

Technical and regulatory limitations regarding the interconnection of solar energy systems to the electrical grid may curb or slow our growth in key markets. Utilities throughout the country follow different rules and regulations regarding interconnection and regulators or utilities have or could cap or limit the amount of solar energy that can be interconnected to the grid. Our solar energy systems generally do not provide power to homeowners until they are interconnected to the grid.

With regard to interconnection limits, the FERC, in promulgating the first form of small generator interconnection procedures, recommended limiting customer-sited intermittent generation resources, such as our solar energy systems, to a certain percentage of peak load on a given electrical feeder circuit. Similar limits have been adopted by many states as a de facto standard and could constrain our ability to market to customers in certain geographic areas where the concentration of solar installations exceeds this limit.

Furthermore, in certain areas, we benefit from policies that allow for expedited or simplified procedures related to connecting solar energy systems and energy storage systems to the electrical grid. We also are required to obtain interconnection permission for each solar energy system from the local utility. In many states and territories, by statute, regulations or administrative order, there are standardized procedures for interconnecting distributed residential solar energy systems and related energy storage systems to the electric utility's local distribution system. However, approval from the local utility could be delayed as a result of a backlog of requests for interconnection or the local utility could seek to limit the number of customer interconnections or the amount of solar energy on the grid. In some states, such as New Jersey and Massachusetts, certain utilities such as municipal utilities or electric cooperatives are exempt from certain interconnection requirements. If expedited or simplified interconnection procedures are changed or cease to be available, if interconnection approvals from the local utility are delayed or if the local utility seeks to limit interconnections, this could decrease the attractiveness of new solar energy systems and energy storage systems to distributed residential solar power companies, including us, and the attractiveness of solar energy systems and energy storage systems to customers. Delays in interconnections could also harm our growth rate and customer satisfaction scores. Such limitations or delays could also adversely impact our access to capital and reduce our willingness to pursue solar energy systems and energy storage systems due to higher operating costs or lower revenues from solar service agreements. Such limitations would negatively impact our business, results of operations, future growth and cash flows.

As adoption of solar distributed generation rises, along with the increased operation of utility-scale solar generation (such as in key markets including California), the amount of solar energy being contributed to the electrical grid may surpass the capacity anticipated to be needed to meet aggregate demand. If solar generation resources reach a level capable of producing an over-generation situation, some existing solar generation resources may have to be curtailed to maintain operation of the electrical grid. In the event such an over-generation situation were to occur, this could also result in a prohibition on the addition of new solar generation resources. The adverse effects of such a curtailment or prohibition without compensation could adversely impact our business, results of operations, future growth and cash flows.

***We and our dealers are subject to risks associated with construction, regulatory compliance and other contingencies.***

We utilize our growing dealer network to market, design, construct and install solar energy systems and energy storage systems in each of the markets in which we operate. The marketing and installation of solar energy systems and energy storage systems is subject to oversight and regulation in accordance with national, state and local laws and ordinances relating to consumer protection, building, fire and electrical codes, professional codes, safety, environmental protection, utility interconnection, metering and related matters. We also rely on certain of our dealers and third-party contractors to obtain and maintain permits and professional licenses, including as contractors, and other authorizations from various regulatory authorities and abide by their respective conditions and requirements in many of the jurisdictions in which we operate. A failure by us to obtain necessary permits or encounter delays in obtaining or renewing such permits or to use properly licensed dealers and third-party contractors could adversely affect our operations in those jurisdictions. Furthermore, we may become subject to similar regulatory requirements in some jurisdictions in which we operate. It is difficult and costly to track the requirements of every authority with jurisdiction over our operations and our solar energy systems. Separately, we are subject to regulations and potential liability under the Resource Conservation and Recovery Act and the Comprehensive Environmental Response, Compensation, and Liability Act related to the disposal of wastes generated in connection with our operations. Regulatory authorities may impose new government regulations or utility policies, change existing government regulations or utility policies, may seek expansive interpretations of existing regulations or policies pertaining to our services or solar energy systems and energy storage systems or may initiate associated investigations or enforcement actions or impose penalties or reject solar energy systems and energy storage systems. Any of these factors may result in regulatory and/or civil litigation, significant additional expenses to us or our customers, cause delays in our or our dealers' ability to originate solar service agreement or install or interconnect solar energy systems and energy storage systems or cause other harm to our business. As a result, this could cause a significant reduction in demand for our services and solar energy systems and energy storage systems or otherwise adversely affect our business, financial condition and results of operations.

***Compliance with occupational safety and health requirements and best practices can be costly and noncompliance with such requirements may result in potentially significant monetary penalties, operational delays and adverse publicity.***

The installation and ongoing operations and maintenance of solar energy systems and energy storage systems requires individuals hired by us, our dealers or third-party contractors, potentially including our employees, to work at heights with complicated and potentially dangerous electrical systems. The evaluation and modification of buildings as part of the installation process requires these individuals to work in locations that may contain potentially dangerous levels of asbestos, lead, mold or other materials known or believed to be hazardous to human health. There is substantial risk of serious injury or death if proper safety procedures are not followed. Our operations are subject to regulation under OSHA, DOT regulations and equivalent state and local laws. Changes to OSHA or DOT requirements, or stricter interpretation or enforcement of existing laws or regulations, could result in increased costs. If we fail to comply with applicable OSHA or DOT regulations, even if no work-related serious injury or death occurs, we may be subject to civil or criminal enforcement and be required to pay substantial penalties, incur significant capital expenditures or suspend or limit operations. Because individuals hired by us or on our behalf to perform installation and ongoing operations and maintenance of our solar energy systems and energy storage systems, including our dealers and third-party contractors, are compensated on a per project basis, they are incentivized to work more quickly than installers compensated on an hourly basis. While we have not experienced a high level of injuries to date, this incentive structure may result in higher injury rates than others in the industry and could accordingly expose us to increased liability. Individuals hired by or on behalf of us may have workplace accidents and receive citations from OSHA regulators for alleged safety violations, resulting in fines. Any such accidents, citations, violations, injuries or failure to comply with industry best practices may subject us to adverse publicity, damage our reputation and competitive position and adversely affect our business.

***A failure to comply with laws and regulations relating to interactions by us or our dealers with current or prospective residential customers could result in negative publicity, claims, investigations and litigation and adversely affect our financial performance.***

Our business substantially focuses on solar service agreements and transactions with residential customers. We offer leases, loans and other products and services to consumers by contractors in our dealer networks, who utilize sales people employed by or engaged as third-party service providers of such contractors. We and our dealers must comply with numerous federal, state and local laws and regulations that govern matters relating to interactions with residential consumers, including those pertaining to consumer protection, marketing and sales, privacy and data security, consumer financial and credit transactions, mortgages and refinancings, home improvement contracts, warranties and various means of customer solicitation, including under the laws identified in "*Sunnova's business is subject to consumer protection laws. Such laws and regulatory enforcement policies and priorities are subject to change that may negatively impact our business*". These laws and regulations are dynamic and subject to potentially differing interpretations and various federal, state and local legislative and regulatory bodies may initiate

investigations, expand current laws or regulations, or enact new laws and regulations regarding these matters. Changes in these laws or regulations or their interpretation could dramatically affect how we and our dealers do business, acquire customers and manage and use information collected from and about current and prospective customers and the costs associated therewith. We and our dealers strive to comply with all applicable laws and regulations relating to interactions with residential customers. It is possible, however, these requirements may be interpreted and applied in a manner inconsistent from one jurisdiction to another and may conflict with other rules or the practices of us or our dealers.

Although we require our dealers to meet our consumer compliance requirements and provide regular training to help them do so, we do not control our dealers and their suppliers or their business practices. Accordingly, we cannot guarantee they follow ethical business practices such as fair wage practices and compliance with environmental, safety and other local laws. A lack of demonstrated compliance could lead us to seek alternative dealers or suppliers, which could increase our costs and have a negative effect on our business and prospects for growth. Violation of labor or other laws by our dealers or suppliers or the divergence of a dealer or supplier's labor or other practices from those generally accepted as ethical in the U.S. or other markets in which we do or intend to do business could also attract negative publicity for us and harm our business.

From time to time, we have been included in lawsuits brought by the consumer customers of certain contractors in our networks, citing claims based on the sales practices of these contractors. While we have paid only minimal damages to date, we cannot be sure that a court of law would not determine that we are liable for the actions of the contractors in our networks or that a regulator or state attorney general's office may hold us accountable for violations of consumer protection or other applicable laws by the contractors in selling our loans, leases, and other products and services. Our risk mitigation processes may not be sufficient to mitigate financial harm to us associated with violations of applicable law by our contractors or ensure that any such contractor is able to satisfy its indemnification obligations to us. Any significant judgment against us could expose us to broader liabilities, a need to adjust our distribution channels for our products and services or otherwise change our business model, and could adversely impact our business.

***Violations of anti-bribery, anti-corruption and/or international trade laws to which we are subject could have a material adverse effect on our business operations, financial position and results of operations.***

We are subject to laws concerning our business operations and marketing activities in the U.S. and its territories where we conduct business. Further, we are subject to the U.S. Foreign Corrupt Practices Act, which generally prohibits companies and their intermediaries from making improper payments to non-U.S. government officials for the purpose of obtaining or retaining business. We currently only operate in the U.S. and its territories. However, in the future we may conduct business outside of the U.S. and operate in parts of the world that experienced governmental corruption to some degree and, in certain circumstances, strict compliance with anti-bribery laws may conflict with local customs and practices. In addition, due to the level of regulation in our industry, our entry into new jurisdictions through internal growth or acquisitions requires substantial government contact where norms can differ from U.S. standards. Additionally, we regularly interact with domestic municipalities and municipal-owned centralized electric utilities. We will consider our interactions with these domestic governmental bodies when designing our policies and procedures and conducting training designed to facilitate compliance with domestic and international anti-bribery laws. Although we believe these policies and procedures will mitigate the risk of violations of such laws, our employees, dealers and agents may take actions in violation of our policies and anti-bribery laws. Any such violation, even if prohibited by our policies, could subject us to criminal or civil penalties or other sanctions, which could have a material adverse effect on our business, financial condition, cash flows and reputation.

***Violations of export control and/or economic sanctions laws and regulations to which we are subject could have a material adverse effect on our business operations, financial position and results of operations.***

Our products may be subject to export control regulations, including the Export Administration Regulations administered by the U.S. Department of Commerce's Bureau of Industry and Security. We are also subject to foreign assets control and economic sanctions regulations administered by the U.S. Department of the Treasury's Office of Foreign Assets Control, which restrict or prohibit our ability to transact with certain foreign countries, individuals and entities. We currently only operate in the U.S. and its territories. However, export control regulations may restrict our ability to exchange technical information with foreign manufacturers and suppliers and economic sanctions regulations may restrict our ability to source from certain suppliers. In addition, in the future we may conduct business outside of the U.S. We will consider these scenarios when designing our policies and procedures and conducting training designed to facilitate compliance with U.S. export control and economic sanctions laws and regulations. Although we believe these policies and procedures will mitigate the risk of violations of such laws, our employees, dealers and agents may take actions in violation of our policies or these laws. Any such violation, even if prohibited by our policies, could subject us to criminal or civil penalties or other sanctions, which could have a material adverse effect on our business, financial condition, cash flows and reputation.

***Our business is subject to complex and evolving data protection laws. Many of these laws and regulations are subject to change and uncertain interpretation and could result in claims, increased cost of operations or otherwise harm our business.***

Consumer personal privacy and data security have become significant issues and the subject of rapidly evolving regulation in the U.S. Furthermore, federal, state and local government bodies or agencies have in the past adopted, and may in the future adopt, more laws and regulations affecting data privacy. For example, the state of California enacted the California Consumer Privacy Act of 2018 ("CCPA") and California voters recently approved the California Privacy Rights Act ("CPRA"). The CCPA creates individual privacy rights for consumers and places increased privacy and security obligations on entities handling the personal data of consumers or households. The CCPA went into effect in January 2020 and it requires covered companies to provide new disclosures to California consumers, provides such consumers, business-to-business contacts and employees new ways to opt-out of certain sales of personal information, and allows for a new private right of action for data breaches. The CPRA modifies the CCPA and imposes additional data protection obligations on companies doing business in California, including additional consumer rights processes and opt outs for certain uses of sensitive data. While the CPRA will not take full effect until January 2023, it establishes a new California privacy regulator before that date. The CCPA and the CPRA may significantly impact our business activities and require substantial compliance costs that adversely affect our business, operating results, prospects and financial condition. To date, we have not experienced substantial compliance costs in connection with fulfilling the requirements under the CCPA or CPRA. However, we cannot be certain that compliance costs will not increase in the future with respect to the CCPA and CPRA or any other recently passed consumer privacy regulation.

Any inability to adequately address privacy and security concerns, even if unfounded, or comply with applicable privacy and data security laws, regulations and policies, could result in additional cost and liability to us, damage our reputation, inhibit sales and adversely affect our business. Furthermore, the costs of compliance with, and other burdens imposed by, the laws, regulations and policies that are applicable to our business may limit the use and adoption of, and reduce the overall demand for, our solutions. If we are not able to adjust to changing laws, regulations and standards related to privacy or security, our business may be harmed.

***Our business is subject to consumer protection laws. Such laws and regulatory enforcement policies and priorities are subject to change that may negatively impact our business.***

We must comply with various federal, state, and local regulatory regimes, including those applicable to consumer credit transactions, leases, and marketing activities. These laws and regulations, including those applicable to consumer loans and their origination, are subject to change and modification by statute, administrative rules and orders, and judicial interpretation. As a result of infrequent or sparse interpretations, ambiguities in these laws and regulations may create uncertainty with respect to what type of conduct is permitted or restricted under such laws and regulations. Regulators, such as the Federal Trade Commission and the Consumer Financial Protection Board, as well as state attorney generals and agencies, also can initiate inquiries into market participants, which can lead to investigations and, ultimately, enforcement actions. As a result, we are subject to a constantly evolving consumer protection and consumer finance regulatory environment that is difficult to predict and which may affect our business.

The laws to which we may be subject to include federal and state laws that prohibit unfair, deceptive or abusive business acts or practices (such as the Federal Trade Commission Act and the Dodd-Frank Act), regulate lease and loan disclosures and terms and conditions (such as the Truth-in-Lending Act and the Consumer Leasing Act), prohibit discrimination (such as the Equal Credit Opportunity Act), and provide additional protections for certain customers in the military (such as Servicemembers Civil Relief Act that provides additional protections for certain customers in the military). Our business is or may also be subject to federal and state laws that regulate consumer credit report information, data privacy, debt collection, electronic fund transfers, home improvement contracting and marketing activities (such as telemarketing, door-to-door sales, and e-mails).

While we have developed policies and procedures designed to assist in compliance with these laws and regulations, no assurance is given that our compliance policies and procedures will be effective. Failure to comply with these laws and with regulatory requirements applicable to our business could subject us to damages, revocation of licenses, class action lawsuits, administrative enforcement actions, civil and criminal liability, settlements, limits on offering certain products and services, changes in business practices, increased compliance costs, indemnification obligations to our capital providers, loan repurchase obligations and reputational damage which may harm our business, results of operations and financial condition.

***The highly regulated environment in which our capital providers operate could have an adverse effect on our business.***

We and our capital providers are subject to federal and state supervision and regulation. Federal and state regulation of the banking industry, credit unions and other types of capital providers, along with tax and accounting laws, regulations, rules and standards, may limit their operations significantly and control the methods by which they conduct business and when and how they are able to deploy their capital. These requirements may constrain our ability to enter funding program agreements with new capital providers or the ability of our existing capital providers to continue originating loans through our platform. In choosing whether and how to conduct business with us, current and prospective capital providers can be expected to take into account the legal, regulatory and supervisory regimes that apply to them, including potential changes in the application or interpretation of regulatory standards, licensing requirements or supervisory expectations. Regulators may elect to alter standards or the interpretation of the standards used to measure regulatory compliance or to determine the adequacy of liquidity, certain risk management or other operational practices for financial services companies in a manner that impacts capital providers' ability to originate loans through our platform. An inability for an individual or type of capital provider to originate loans through our platform could have an adverse effect on our business, financial condition and cash flows

**Risks Related to Taxation**

***Our ability to use NOLs and tax credit carryforwards to offset future income taxes is subject to limitation and the amount of such carryforwards may be subject to challenge or reduction.***

As of December 31, 2021, we had approximately \$1.2 billion of U.S. federal NOLs, a portion of which will begin to expire in 2032, and approximately \$275.8 million of U.S. federal tax credit carryforwards, which will begin to expire in 2033. Utilization of our NOLs and tax credit carryforwards depends on many factors, including having current or future taxable income, which cannot be assured. In addition, Section 382 of the Code generally imposes an annual limitation on the amount of NOLs that may be used to offset taxable income by a corporation that has undergone an "ownership change" (as determined under Section 382). An ownership change generally occurs if one or more stockholders (or groups of stockholders, including one or more groups of public stockholders) that are each deemed to own at least 5% of our stock increase their ownership percentage by more than 50 percentage points over their lowest ownership percentage during a rolling three-year period. Similar rules under Section 383 of the Code impose an annual limitation on the amount of tax credit carryforwards, including carryforwards of Section 48(a) ITCs, that may be used to offset U.S. federal income taxes.

We experienced an "ownership change" in August 2020 as defined by Sections 382 and 383 of the Code, which limits our future ability to utilize NOLs and tax credits generated before the "ownership change". However, these limitations do not prevent the use of our NOLs to offset certain built-in gains, including deemed gains with respect to our cost recovery deductions, recognized by us within five years after the ownership change with respect to assets held by us at the time of the ownership change, or the use of our tax credits to offset related tax liabilities, to the extent of our "net unrealized built-in gain" at the time of the ownership change. We have determined that, based upon the size of our net unrealized built-in gain at the time of our 2020 ownership change and our projected recognition of deemed built-in gains in the five years following the ownership change, there is no impact on the balances for deferred taxes or valuation allowance. Another "ownership change" could occur as a result of transactions that increase the ownership percentage of any of our 5% stockholders during a rolling three-year period, including redemptions of our stock, sales of our stock by other deemed 5% stockholders or issuances of stock by us, whether in additional public offerings or otherwise. If such another ownership change occurs, our ability to utilize NOLs and tax credit carryforwards may be subject to further limitation under Sections 382 and 383 of the Code. The application of the aforementioned limitations may cause U.S. federal income taxes to be paid by us earlier than they otherwise would be paid if such limitations were not in effect and could cause such NOLs and tax credit carryforwards to expire unused, in each case reducing or eliminating the benefit of such NOLs and tax credit carryforwards. To the extent we are not able to offset our future taxable income with our NOLs or offset future taxes with our tax credit carryforwards, this would adversely affect our operating results and cash flows if we have taxable income in the future. These same risks can arise in the context of state income and franchise tax given many states conform to federal law and rely on federal authority for determining state NOLs.

Furthermore, the IRS or other tax authorities could successfully challenge one or more tax positions we take, such as the classification of assets under the income tax depreciation rules or the characterization of expenses for income tax purposes, which could reduce the NOLs we generate and/or are able to use.

***Our tax positions are subject to challenge by the relevant tax authority.***

Our federal and state tax positions may be challenged by the relevant tax authority. The process and costs, including potential penalties for nonpayment of disputed amounts, of contesting such challenges, administratively or judicially, regardless

of the merits, could be material. Future tax audits or challenges by tax authorities to our tax positions may result in a material increase in our estimated future income tax or other tax liabilities, which would negatively impact our financial condition.

For example, many of our solar energy systems are located in states or territories that exempt such assets from state, territorial and local sales and property taxes. We believe these solar energy systems are and should continue to be exempt from certain state, territorial and local sales and property taxes; however, some of our solar energy systems are located in certain jurisdictions where the applicability of these exemptions to solar energy systems is the subject of ongoing litigation and possible legislative change or else the jurisdiction's law is uncertain regarding the effect on property and sales tax exemptions of certain complex business reorganizations undergone by us and our subsidiaries. As such, some tax authorities could challenge the availability of these exemptions. If our solar energy systems are determined to be subject to state, territorial or local sales or property taxes, it could negatively impact our financial condition.

***Our ability to provide our solar service offerings to homeowners on an economically viable basis depends in part on our ability to finance these solar energy systems with tax equity investors that depend on particular tax and other benefits.***

Historically, there have been a limited number of investors that generate sufficient profits and possess the requisite financial sophistication to benefit from the tax benefits our tax equity vehicles provide, and a lack of depth in this market may limit our ability to complete such tax equity financing. Potential investors seeking tax-advantaged financing must remain satisfied the structures we offer qualify for the tax benefits associated with solar energy systems available to these investors, which depends both on the investors' assessment of tax law and the absence of any unfavorable interpretations of that law. Changes in existing law and interpretations by the IRS and the courts could reduce the willingness of tax equity investors to invest in tax equity vehicles associated with these solar energy system investments or cause these investors to require a larger allocation of customer payments. We are not certain this type of financing will continue to be available to us as the legal and regulatory landscape may shift in a manner that reduces or eliminates the attractiveness of such financing opportunities. For example, a step down of Section 48(a) ITCs is scheduled to occur in 2023. Additionally, we may be unable to identify investors interested in engaging in this type of financing with us. As of December 31, 2021, we have formed 17 tax equity vehicles to which investors such as banks and other large financial investors have committed to invest approximately \$1.2 billion. The undrawn committed capital for these tax equity vehicles as of December 31, 2021 is approximately \$106.0 million. We plan to continue to form new tax equity vehicles as long as existing tax law and regulations make such financing attractive. See "*Risks Related to Regulations—Our business currently depends in part on the availability of rebates, tax credits and other financial incentives. The expiration, elimination or reduction of these rebates, credits or incentives or our ability to monetize them could adversely impact our business*".

The contractual terms in certain of our tax equity vehicle documents impose conditions on our ability to draw on financing commitments from the tax equity investors, including if an event occurs that could reasonably be expected to have a material adverse effect on the tax equity vehicle or on us. The terms and conditions of our tax equity vehicles can vary and may require us to alter our products, services or product mix. If we do not satisfy such conditions due to events related to our business or a specific tax equity vehicle or developments in our industry or otherwise, and as a result we are unable to draw on existing commitments, it could have a material adverse effect on our business, financial condition, results of operations and liquidity. In addition to our inability to draw on the investors' commitments, we may incur financial penalties for non-performance (including delays in the installation process and interconnection to the power grid of solar energy systems and other factors). Based on the terms of the tax equity vehicle agreements, we will either reimburse a portion of the tax equity investor's capital or pay the tax equity investor a non-performance fee.

***Under the terms of certain of our tax equity vehicles, we may be required to make payments to the tax equity investors if certain tax benefits allocated to such tax equity investors are not realized as expected. Our financial condition may be adversely impacted if a tax equity vehicle is required to make any tax-related payments.***

Our tax equity vehicles require that, prior to a date that is at least five years after the last project was placed in service, the tax equity investor receives substantially all the non-cash value attributable to the solar energy systems; however, in all but one of our current funds we receive a majority of the cash distributions. In the event the tax equity investor has tax liability as a result of its investment and the cash distributions payable to the tax equity investor are not sufficient to pay such tax liability, the amount of distributions payable to us will be reduced. The amounts of potential tax liability (and the potential for a reduced distribution to us) depend on the tax benefits that accrue to such investors from the tax equity vehicles' activities and may be impacted by changes in tax law.

Additionally, we may have payment obligations to our tax equity investors under indemnity obligations contained in those financings. See "*If the IRS or the U.S. Treasury Department makes a determination that the fair market value of our solar energy systems is materially lower than what we have reported in our tax equity vehicles' tax returns, we may have to pay*".

*significant amounts to our tax equity vehicles, our tax equity investors and/or the U.S. government. Such determinations could have a material adverse effect on our business and financial condition" and "—If our solar energy systems either cease to be qualifying property or undergo certain changes in ownership within five years of the applicable placed in service date, we may have to pay significant amounts to our tax equity vehicles, our tax equity investors and/or the U.S. government. Such recapture could have a material adverse effect on our business and financial condition".*

Due to uncertainties associated with estimating the timing and amounts of cash distributions and allocations of tax benefits to such investors, we cannot determine the potential impact on our cash flows under current or future arrangements. Any significant reductions in the cash we expect to receive from these structures could adversely affect our financial condition.

***Changes in tax law could adversely affect our business.***

U.S. tax law is always subject to change. Potential changes to the Code include changes to the U.S. corporate income tax rate and provisions limiting or eliminating various deductions, credits or tax preferences. Interpretations of the Code and regulations promulgated by the IRS are likewise subject to change. As states elect to conform (or else have rolling conformity) to the Code, such interpretations and regulations (including those promulgated by state authorities) could likewise affect our state income and franchise tax obligations. Any future changes in tax law, including changes to U.S. federal, state, territorial or local tax law, could affect our tax position and adversely impact our business.

***If the IRS or the U.S. Treasury Department makes a determination that the fair market value of our solar energy systems is materially lower than what we have reported in our tax equity vehicles' tax returns, we may have to pay significant amounts to our tax equity vehicles, our tax equity investors and/or the U.S. government. Such determinations could have a material adverse effect on our business and financial condition.***

The basis of our solar energy systems we report in our tax equity vehicles' tax returns to claim the Section 48(a) ITC is based on the appraised fair market value of our solar energy systems. The IRS continues to scrutinize fair market value determinations industry-wide. We are not aware of any IRS audits or results of audits related to our appraisals or fair market value determinations of any of our tax equity vehicles. If as part of an examination the IRS were to review the fair market value we used to establish our basis for claiming Section 48(a) ITCs and successfully assert the Section 48(a) ITCs previously claimed should be reduced, we would owe certain of our tax equity vehicles or our tax equity investors an amount equal to the disallowed Section 48(a) ITCs attributable to each investor's share of the difference between the fair market value used to establish our basis for claiming Section 48(a) ITCs and the adjusted fair market value determined by the IRS, plus any costs and expenses associated with a challenge to that fair market value, plus a gross up to pay for additional taxes. We could also be subject to tax liabilities, including interest and penalties, based on our share of claimed Section 48(a) ITCs. To date, we have not been required to make such payments under any of our tax equity vehicles. We have obtained insurance coverage with respect to certain losses that may be incurred should the Section 48(a) ITCs previously claimed with respect to our tax equity vehicles be reduced. Any such losses could be outside the scope of these insurance policies or exceed insurance policy limits and we could incur unforeseen costs that could harm our business and financial condition.

***If our solar energy systems either cease to be qualifying property or undergo certain changes in ownership within five years of the applicable placed in service date, we may have to pay significant amounts to our tax equity vehicles, our tax equity investors and/or the U.S. government. Such recapture could have a material adverse effect on our business and financial condition.***

The Section 48(a) ITCs are subject to recapture under the Code if a solar energy system either ceases to be qualifying property or undergoes certain changes in ownership within five years of its placed in service date. The amount of Section 48(a) ITCs subject to recapture decreases by 20% of the claimed amount on each anniversary of a solar energy system's placed in service date. If such a recapture event were to occur, we could owe certain of our tax equity vehicles or our tax equity investors an amount equal to such vehicles' or investors' share of the Section 48(a) ITCs that were recaptured. We could also be subject to tax liabilities, including interest and penalties, based on our share of recaptured Section 48(a) ITCs. Any such recapture could have a material adverse effect on our business and financial condition.

## Risks Related to Our Common Stock

***We do not intend to pay, and our credit facilities currently prohibit us from paying, cash dividends on our common stock and, consequently, your only opportunity to achieve a return on your investment is if the price of our common stock appreciates.***

We do not plan to declare dividends on shares of our common stock in the foreseeable future. Additionally, we are currently prohibited from making any cash dividends pursuant to the terms of certain of our credit facilities. Consequently, your only opportunity to achieve a return on your investment in us will be if you sell your common stock at a price greater than you paid for it. There is no guarantee the price of our common stock that will prevail in the market will ever exceed the price you paid for it.

***Ownership of our common stock by current stockholders is expected to remain significant.***

Due to their ownership percentages, certain key stockholders may have the ability to exercise significant influence over matters submitted to our stockholders for approval. This concentration of ownership may also have the effect of delaying or preventing a change of control of our company or discouraging others from making tender offers for our shares, which could prevent our stockholders from receiving an offer premium for their shares. So long as the key stockholders continue to own a significant amount of our common stock, they will continue to be able to strongly influence all matters requiring stockholder approval, regardless of whether or not other stockholders believe a potential transaction is in their own best interests. In any of these matters, the interests of the key stockholders may differ or conflict with the interests of our other stockholders. In addition, certain of the key stockholders may, from time to time, acquire interests in businesses that directly or indirectly compete with our business, as well as businesses that are significant existing or potential customers. Certain of the key stockholders may acquire or seek to acquire assets we seek to acquire and, as a result, those acquisition opportunities may not be available to us or may be more expensive for us to pursue.

***The price of our common stock is volatile and may decline in value.***

The market price of our common stock may be influenced by many factors, some of which are beyond our control, including:

- public reaction to our press releases, announcements and filings with the SEC;
- our operating and financial performance;
- fluctuations in broader securities market prices and volumes, particularly among securities of technology and solar companies;
- changes in market valuations of similar companies;
- departures of key personnel;
- commencement of or involvement in litigation;
- variations in our quarterly results of operations or those of other technology and solar companies;
- changes in general economic conditions, financial markets or the technology and solar industries;
- announcements by us or our competitors of significant acquisitions or other transactions;
- changes in accounting standards, policies, guidance, interpretations or principles;
- speculation in the press or investment community;
- actions by our stockholders;
- the failure of securities analysts to cover our common stock or changes in their recommendations and estimates of our financial performance;
- future sales of our common stock, including by ECP, Newlight or other large stockholders, or perceptions that such sales might occur; and
- the other factors described in these "Risk Factors".

***If we fail to comply with the reporting requirements under the Exchange Act or maintain adequate internal control over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act, it could result in late or non-compliant filings or inaccurate financial reporting and have a negative impact on the price of our common stock or our business.***

Effective internal controls are necessary for us to provide timely, reliable financial reporting and prevent fraud. Our accounting predecessor was not a public company and was not required to comply with the reporting requirements of the Exchange Act, or with the standards adopted by the Public Company Accounting Oversight Board in compliance with the requirements of Section 404 of the Sarbanes-Oxley Act regarding internal controls over financial reporting. As a public company, we are required to report our financial results on the timeline and in the form prescribed by the Exchange Act and to

evaluate and report on our internal control over financial reporting. This requires management to certify financial and other information in our quarterly and annual reports and provide an annual management report on the effectiveness of internal control over financial reporting.

We are required to disclose material changes made in our internal controls and procedures on a quarterly basis and annually review and report on, and our independent registered public accounting firm must attest to, the effectiveness of our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act. Material weaknesses and significant deficiencies may exist when we report on the effectiveness of our internal control over financial reporting as required by reporting requirements under Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act.

The process of documenting and further developing our internal controls to become compliant with Section 404 has taken a significant amount of time and effort to complete and required significant attention of management. We are continuing to improve our internal controls over financial reporting. We have expended, and anticipate we will continue to expend, significant resources in order to maintain and enhance existing effective disclosure controls and procedures and internal controls over financial reporting. Our current controls and any new controls we develop may become inadequate because of changes in conditions in our business. We may experience higher than anticipated operating expenses, as well as increased independent auditor and other fees and expenses during the implementation of these changes and thereafter.

***Certain of our directors have significant duties with, and spend significant time serving, entities that may compete with us in seeking business opportunities and, accordingly, may have conflicts of interest in allocating time or pursuing business opportunities.***

Certain of our directors, who are responsible for managing the direction of our operations and acquisition activities, hold positions of responsibility with other entities whose businesses are similar to our business. The existing positions held by these directors may give rise to fiduciary or other duties in conflict with the duties they owe to us. These directors may become aware of business opportunities that may be appropriate for presentation to us as well as to the other entities with which they are or may become affiliated. Due to these existing and potential future affiliations, they may present potential business opportunities to other entities prior to presenting them to us, which could cause additional conflicts of interest. They may also decide certain opportunities are more appropriate for other entities with which they are affiliated and as a result, they may elect not to present those opportunities to us. These conflicts may not be resolved in our favor.

***Conflicts of interest could arise in the future between us, on the one hand, and any of our stockholders and its affiliates and affiliated funds and its and their current and future portfolio companies on the other hand, concerning, among other things, potential competitive business activities or business opportunities.***

Conflicts of interest could arise in the future between us, on the one hand, and any of our stockholders and its affiliates and affiliated funds and its and their current and future portfolio companies, on the other hand, concerning, among other things, potential competitive business activities or business opportunities. For example, certain of our existing investors and their affiliated funds may invest in companies that operate in the traditional energy industry and solar and other renewable industries. As a result, our existing investors and their affiliates' and affiliated funds' current and future portfolio companies they control may now, or in the future, directly or indirectly, compete with us for investment or business opportunities.

Our governing documents provide that our stockholders and their affiliates and affiliated funds are not restricted from owning assets or engaging in businesses that compete directly or indirectly with us and will not have any duty to refrain from engaging, directly or indirectly, in the same or similar business activities or lines of business as us, including those business activities or lines of business deemed to be competing with us, or doing business with any of our clients, customers or vendors. In particular, subject to the limitations of applicable law, our certificate of incorporation, among other things:

- permits stockholders or their affiliates and affiliated funds and our non-employee directors to conduct business that competes with us and to make investments in any kind of property in which we may make investments; and
- provides that if any of our stockholders or any of its affiliates who is also one of our non-employee directors becomes aware of a potential business opportunity, transaction or other matter, they will have no duty to communicate or offer that opportunity to us.

Our stockholders or their affiliates or affiliated funds may become aware, from time to time, of certain business opportunities (such as acquisition opportunities) and may direct such opportunities to other businesses in which they have invested, in which case we may not become aware of or otherwise have the ability to pursue such opportunity. Further, such businesses may choose to compete with us for these opportunities, possibly causing these opportunities to not be available to us or causing them to be more expensive for us to pursue. In addition, our stockholders or their affiliates and affiliated funds may

dispose of their interests in energy infrastructure or other renewable companies or other assets in the future, without any obligation to offer us the opportunity to purchase any of those assets. As a result, our renouncing our interest and expectancy in any business opportunity that may be from time to time presented to any of our stockholders or their affiliates and affiliated funds could adversely impact our business or prospects if attractive business opportunities are procured by such parties for their own benefit rather than for ours.

In any of these matters, the interests of our existing stockholders and their affiliates and affiliated funds may differ or conflict with the interests of our other shareholders. Any actual or perceived conflicts of interest with respect to the foregoing could have an adverse impact on the trading price of our common stock.

***Provisions of our charter documents and Delaware law may inhibit a takeover, which could limit the price investors might be willing to pay in the future for our common stock.***

Our charter documents authorize our Board to issue preferred stock without stockholder approval and, relatedly, may have the effect of delaying or preventing an acquisition of us or a merger in which we are not the surviving company and may otherwise prevent or slow changes in our Board and management. In addition, some provisions of our certificate of incorporation, amended and restated bylaws and stockholders' agreement could make it more difficult for a third party to acquire control of us, even if the change of control would be beneficial to our stockholders, including:

- limitations on changes of control and business combinations;
- limitations on the removal of directors;
- limitations on the ability of our stockholders to call special meetings;
- establishing advance notice provisions for stockholder proposals and nominations for elections to the Board to be acted upon at meetings of stockholders;
- providing that the Board is expressly authorized to adopt, or to alter or repeal our bylaws; and
- establishing advance notice and certain information requirements for nominations for election to our Board or for proposing matters that can be acted upon by stockholders at stockholder meetings.

These provisions could discourage an acquisition of us or other change in control transactions and thereby negatively affect the price that investors might be willing to pay in the future for our common stock.

***Our amended and restated certificate of incorporation designates the Court of Chancery of the State of Delaware and, to the extent enforceable, the federal district courts of the United States of America as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers, employees or agents.***

Our amended and restated certificate of organization provides that, unless we consent in writing to the selection of an alternative forum, the sole and exclusive forum for (a) any derivative action or proceeding brought on our or our stockholders' behalf, (b) any action asserting a claim of breach of a fiduciary duty owed by any of our current or former directors, officers, employees, agents and stockholders to us or our stockholders, (c) any action asserting a claim arising pursuant to any provision of the Delaware General Corporation Law, our amended and restated certificate of incorporation or our amended and restated bylaws, (d) any action as to which the Delaware General Corporation Law confers jurisdiction to the Court of Chancery of the State of Delaware, or (e) any other action asserting a claim that is governed by the internal affairs doctrine shall be the Court of Chancery of the State of Delaware. Our amended and restated certificate of incorporation also provides that, to the fullest extent permitted by applicable law, the federal district courts of the United States are the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act, subject to and contingent upon a final adjudication in the State of Delaware of the enforceability of such exclusive forum provision.

Notwithstanding the foregoing, the exclusive forum provision does not apply to suits brought to enforce any liability or duty created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. Any person or entity purchasing or otherwise acquiring an interest in any shares of our capital stock shall be deemed to have notice of and to have consented to the forum provisions in our amended and restated certificate of incorporation. These choice-of-forum provisions may limit a stockholder's ability to bring a claim in a judicial forum that he, she or it believes to be favorable for disputes with us or our directors, officers or other employees, which may discourage such lawsuits. Alternatively, if a court were to find these provisions of our amended and restated certificate of incorporation inapplicable or unenforceable with respect to one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could materially adversely affect our business, financial condition and results of operations and result in a diversion of the time and resources of our management and our Board. For example, the Court of Chancery of

the State of Delaware recently determined a provision stating that U.S. federal district courts are the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act is not enforceable.

***Future sales of our common stock in the public market, or the perception that such sales may occur, could reduce our stock price, and any additional capital raised by us through the sale of equity or convertible securities may dilute your ownership in us.***

We may raise additional capital through the issuance of equity or debt in the future. In that event, the ownership of our existing stockholders would be diluted and the value of the stockholders' equity in common stock could be reduced. If we raise more equity capital from the sale of common stock, institutional or other investors may negotiate terms more favorable than the current prices of our common stock. If we issue debt securities, the holders of the debt would have a claim to our assets that would be prior to the rights of stockholders until the debt is paid. Interest on these debt securities would increase costs and could negatively impact operating results.

In accordance with Delaware law and the provisions of our charter documents, we may issue preferred stock that ranks senior in right of dividends, liquidation or voting to our common stock. The issuance by us of such preferred stock may (a) reduce or eliminate the amount of cash available for payment of dividends to our holders of common stock, (b) diminish the relative voting strength of the total shares of common stock outstanding as a class, or (c) subordinate the claims of our holders of common stock to our assets in the event of our liquidation. Our amended and restated Certificate of Incorporation does not provide stockholders the pre-emptive right to buy shares from us. As a result, stockholders will not have the automatic ability to avoid dilution in their percentage ownership of us.

We cannot predict the size of future issuances of our common stock or securities convertible into common stock or the effect, if any, that future issuances and sales of shares of our common stock will have on the market price of our common stock. Sales of substantial amounts of our common stock (including shares issued in connection with an acquisition), or the perception that such sales could occur, may adversely affect prevailing market prices of our common stock.

***The capped call transactions may affect the value of our common stock.***

The capped call transactions are expected generally to reduce the potential dilution to our common stock upon any conversion of notes and/or offset any cash payments we are required to make in excess of the principal amount of converted notes, as the case may be, with such reduction and/or offset subject to a cap. In connection with establishing their initial hedges of the capped call transactions, we expect the option counterparties or their respective affiliates to purchase shares of our common stock and/or enter into various derivative transactions with respect to our common stock concurrently with or shortly after the pricing of the 0.25% convertible senior notes. This activity could increase (or reduce the size of any decrease in) the market price of our common stock at that time.

In addition, the option counterparties or their respective affiliates may modify their hedge positions by entering into or unwinding various derivatives with respect to our common stock and/or purchasing or selling our common stock or other securities of ours in secondary market transactions prior to the maturity of the 0.25% convertible senior notes (and are likely to do so during the observation period for conversions of the 0.25% convertible senior notes following September 1, 2026 or following any repurchase of the 0.25% convertible senior notes by us). This activity could also cause or avoid an increase or a decrease in the market price of our common stock.

The potential effect, if any, of these transactions and activities on the market price of our common stock will depend in part on market conditions and cannot be ascertained at this time.

## **General Risk Factors**

***We are exposed to the credit risk of our customers.***

Our customers purchase solar energy or lease solar energy systems from us pursuant to one of two types of long-term contracts: a PPA or a lease. The PPA and lease terms are typically for 20 or 25 years. In addition, under our loan agreements the customer finances the purchase of a solar energy system and we agree to operate and maintain the solar energy system throughout the term of the agreement. Our solar service agreements require the customer to make monthly payments to us throughout the term of the contract, unless prepaid. Because we have long-term, contractual relationships with our customers, we are subject to the credit risk of our customers and screen our customers based upon their credit rating in an attempt to mitigate the risk of customer default. As of December 31, 2021, the average FICO® score of our customers for whom we have a FICO® score was 740 at the time of signing the solar service agreement. The accuracy of independent third-party information

provided to the credit reporting agency cannot be verified. A FICO® score purports only to be a measurement of the relative degree of risk a borrower represents to a lender, i.e., a borrower with a higher score may be less likely to default in payment than a borrower with a lower score.

As of December 31, 2021, approximately 0.8% of our customers were in default under their solar service agreements. However, as we grow our business, the risk of customer defaults may increase as credit scores are dynamic and may deteriorate over a 25-year period. During an economic downturn, the risk of customer defaults may increase. In addition, our customers may assign their solar service agreements to other customers who have lower credit scores or we may enter into new solar service agreements in the future with customers who have lower credit scores than our current customers. In addition, future developments, including competition from other renewables, could decrease the attractiveness of our current contracts. Although our solar service agreements grant us the ability to terminate the agreement with the customer and repossess the defaulting customers' solar energy system in certain circumstances, enforcement of these rights under the solar service agreement may be difficult, expensive and time-consuming.

***We are not able to insure against all potential risks and we may become subject to higher insurance premiums.***

We are exposed to numerous risks inherent in the operation of solar energy systems and energy storage systems, including equipment failure, manufacturing defects, natural disasters such as hurricanes, freezes, fires and earthquakes, terrorist attacks, sabotage, vandalism and environmental risks. Furthermore, components of our solar energy systems and energy storage systems, such as panels, inverters and batteries, could be damaged by severe weather, such as tsunamis, hurricanes, tornadoes, hailstorms or lightning. If our solar energy systems or energy storage systems are damaged in the event of a natural disaster beyond our control, losses could be outside the scope of insurance policies or exceed insurance policy limits and we could incur unforeseen costs that could harm our business and financial condition. We may also incur significant additional costs in taking actions in preparation for, or in reaction to, such events.

Our insurance policies also cover legal and contractual liabilities arising out of bodily injury, personal injury or property damage to third parties and are subject to policy limits. We also maintain coverage for physical damage to our solar energy assets.

However, such policies do not cover all potential losses and coverage is not always available in the insurance market on commercially reasonable terms. In addition, we may have disagreements with our insurers on the amount of our recoverable damages and the insurance proceeds received for any loss of, or any damage to, any of our assets may be claimed by lenders under our financing arrangements or otherwise may not be sufficient to restore the loss or damage without a negative impact on our results of operations. Furthermore, the receipt of insurance proceeds may be delayed, requiring us to use cash or incur financing costs in the interim. To the extent we experience covered losses under our insurance policies, the limit of our coverage for potential losses may be decreased or the insurance rates we have to pay increased. Furthermore, the losses insured through commercial insurance are subject to the credit risk of those insurance companies. While we believe our commercial insurance providers are currently creditworthy, we cannot assure you such insurance companies will remain so in the future.

We may not be able to maintain or obtain insurance of the type and amount we desire at reasonable rates. The insurance coverage we do obtain may contain large deductibles or fail to cover certain risks or all potential losses. In addition, our insurance policies are subject to annual review by our insurers and may not be renewed on similar or favorable terms, including coverage, deductibles or premiums, or at all. If a significant accident or event occurs for which we are not fully insured or we suffer losses due to one or more of our insurance carriers defaulting on their obligations or contesting their coverage obligations, it could have a material adverse effect on our business, financial condition and results of operations.

***The loss of one or more members of our senior management or key employees may adversely affect our ability to implement our strategy.***

We depend on our experienced management team and the loss of one or more key executives could have a negative impact on our business. In particular, we are dependent on the services of our founder and CEO, William J. Berger. We also depend on our ability to retain and motivate key employees and attract qualified new employees. None of our key executives are bound by employment agreements for any specific term. We may be unable to replace key members of our management team and key employees if we lose their services. Integrating new employees into our team could prove disruptive to our operations, require substantial resources and management attention and ultimately prove unsuccessful. An inability to attract and retain sufficient managerial personnel who have critical industry experience and relationships could limit or delay our strategic efforts, which could have a material adverse effect on our business, financial condition and results of operations.

***Our inability to protect our intellectual property could adversely affect our business. We may also be subject to intellectual property rights claims by third parties, which are extremely costly to defend, could require us to pay significant damages and could limit our ability to use certain technologies.***

Any failure to protect our proprietary rights adequately could result in our competitors offering similar residential solar technology or energy storage services more quickly than anticipated, potentially resulting in the loss of some of our competitive advantage and a decrease in our revenue that would adversely affect our business prospects, financial condition and operating results. Our success depends, at least in part, on our ability to protect our core technology and intellectual property. We rely on intellectual property laws, primarily a combination of copyright and trade secret laws in the U.S., as well as license agreements and other contractual provisions, to protect our proprietary technology and brand. We cannot be certain our agreements and other contractual provisions will not be breached, including a breach involving the use or disclosure of our trade secrets or know-how, or that adequate remedies will be available in the event of any breach. In addition, our trade secrets may otherwise become known or lose trade secret protection.

We cannot be certain our products and our business do not or will not violate the intellectual property rights of a third party. Third parties, including our competitors, may own patents or other intellectual property rights that cover aspects of our technology or business methods. Such parties may claim we have misappropriated, misused, violated or infringed third-party intellectual property rights and if we gain greater recognition in the market, we face a higher risk of being the subject of claims we have violated others' intellectual property rights. Any claim we violated a third party's intellectual property rights, whether with or without merit, could be time-consuming, expensive to settle or litigate and could divert our management's attention and other resources, all of which could adversely affect our business, results of operations, financial condition and cash flows. If we do not successfully settle or defend an intellectual property claim, we could be liable for significant monetary damages and could be prohibited from continuing to use certain technology, business methods, content or brands. To avoid a prohibition, we could seek a license from third parties, which could require us to pay significant royalties, increasing our operating expenses. If a license is not available at all or not available on commercially reasonable terms, we may be required to develop or license a non-violating alternative, either of which could adversely affect our business, results of operations, financial condition and cash flows.

***We currently use or plan to use software that is licensed under "open source", "free" or other similar licenses that may subject us to liability or require us to release the source code of our proprietary software to the public.***

We currently use open source software that is licensed under "open source", "free" or other similar licenses. Open source software is made available to the general public on an "as-is" basis under the terms of a non-negotiable license. If we fail to comply with these licenses, we may be subject to certain conditions, including requirements that we offer our services that incorporate the open source software for no cost, we make available source code for modifications or derivative works we create based upon incorporating or using the open source software and we license such modifications or alterations under the terms of the particular open source license. We do not plan to integrate our proprietary software with this open source software in ways that would require the release of the source code of our proprietary software to the public. However, our use and distribution of open source software may entail greater risks than use of third-party commercial software. Our authorized developers may contribute to this open source software community but they will be prohibited from providing any proprietary process or proprietarily developed source code of ours. Open source licensors generally do not provide warranties or other contractual protections regarding infringement claims or the quality of the code. In addition, if we combine our proprietary software with open source software in a certain manner, we could, under certain open source licenses, be required to release the source code of our proprietary software to the public. This would allow our competitors to create similar offerings with lower development effort and time. We may also face claims alleging noncompliance with open source license terms or infringement or misappropriation of proprietary software.

These claims could result in litigation, require us to purchase a costly license or require us to devote additional research and development resources to change our software, any of which would have a negative effect on our business and operating results. In addition, if the license terms for open source software that we use change, we may be forced to re-engineer our technology platform or incur additional costs.

Although we monitor our use of open source software to avoid subjecting our technology platform to unintended conditions, few courts have interpreted open source licenses and there is a risk these licenses could be construed in a way that could impose unanticipated conditions or restrictions on our business. We cannot guarantee we have incorporated open source software in our software in a manner that will not subject us to liability or in a manner consistent with our current policies and procedures.

***We may become involved in the future in legal proceedings that could adversely affect our business.***

We may, from time to time, be involved in litigation and claims, such as those relating to employees, customers, our dealers or other third parties with whom we contract, including consumer claims and class action lawsuits. In the ordinary course of business, we have disputes with dealers and customers. In general, litigation claims or regulatory proceedings can be expensive and time consuming to bring or defend against, may result in the diversion of management attention and resources from our business and business goals and could result in injunctions or other equitable relief, settlements, penalties, fines or damages that could significantly affect our results of operations and the conduct of our business. It is impossible to predict with certainty whether any resulting liability would have a material adverse effect on our financial position, results of operations or cash flows.

***Our actual financial results may differ materially from any guidance we may publish from time to time.***

We may, from time to time, provide guidance regarding our future performance that represents our management's estimates as of the date such guidance is provided. Any such guidance would be based upon a number of assumptions with respect to future business decisions (some of which may change) and estimates, while presented with numerical specificity, are inherently subject to significant business, economic and competitive uncertainties and contingencies (many of which are beyond our control). Guidance is necessarily speculative in nature and it can be expected some or all the assumptions that inform such guidance will not materialize or will vary significantly from actual results. Our ability to meet any forward-looking guidance is impacted by a number of factors including, but not limited to, the number of our solar energy systems sold versus leased, changes in installation costs, the availability of additional financing on acceptable terms, changes in the retail prices of traditional utility-generated electricity, the availability of rebates, tax credits and other incentives, changes in policies and regulations including net metering and interconnection limits or caps, the availability of solar panels, inverters, batteries and other raw materials, as well as the other risks to our business described in this "Risk Factors" section. Accordingly, our guidance is only an estimate of what management believes is realizable as of the date such guidance is provided. Actual results may vary from such guidance and the variations may be material. Investors should also recognize the reliability of any forecasted financial data diminishes the farther into the future the data is forecast. In light of the foregoing, investors should not place undue reliance on our financial guidance and should carefully consider any guidance we may publish in context.

***If we are unable to make acquisitions on economically acceptable terms, our future growth would be limited, and any acquisitions we may make may reduce, rather than increase, our cash flows.***

We may make acquisitions of solar energy systems, energy storage systems and related businesses and joint ventures. The consummation and timing of any future acquisitions will depend upon, among other things, whether we are able to:

- identify attractive acquisition candidates;
- negotiate acceptable purchase agreements;
- obtain any required governmental or third party consents;
- obtain financing for these acquisitions on economically acceptable terms, which may be more difficult at times when the capital markets are less accessible; and
- outbid any competing bidders.

Additionally, any acquisition involves potential risks, including, among other things:

- mistaken assumptions about assets, revenues and costs of the acquired company, including synergies and potential growth;
- an inability to secure adequate customer commitments to use the acquired systems or facilities;
- an inability to successfully integrate the assets or businesses we acquire;
- coordinating geographically disparate organizations, systems and facilities;
- the assumption of unknown liabilities for which we are not indemnified or for which our indemnity is inadequate;
- mistaken assumptions about the acquired company's suppliers or dealers or other vendors;
- the diversion of management's and employees' attention from other business concerns;
- unforeseen difficulties operating in new geographic areas and business lines;
- customer or key employee losses at the acquired business; and
- poor quality assets or installation.

If we consummate any future acquisitions, our capitalization, results of operations and future growth may change significantly and our stockholders will not have the opportunity to evaluate the economic, financial and other relevant

information we will consider in deciding to engage in these future acquisitions, which may not improve our results of operations or cash flow to the extent we projected.

**Item 1B. Unresolved Staff Comments.**

Not applicable.

**Item 2. Properties.**

Our corporate headquarters is in Houston, Texas, where we occupy approximately 71,700 square feet of office space pursuant to an operating lease that expires in July 2029. We lease additional offices in Houston, Guam, California, Florida, Nevada, Mississippi, New York and Puerto Rico, but do not own any real property. We intend to procure additional space in the future as we continue to add employees and expand geographically. We believe our facilities are adequate and suitable for our current needs and, should it be needed, suitable additional or alternative space will be available to accommodate our operations.

**Item 3. Legal Proceedings.**

Although we may, from time to time, be involved in litigation, claims and government proceedings arising in the ordinary course of business, we are not a party to any litigation or governmental or other proceeding we believe will have a material adverse impact on our financial position, results of operations or liquidity. In the ordinary course of business, we have disputes with dealers and customers. In general, litigation claims or regulatory proceedings can be expensive and time consuming to bring or defend against, may result in the diversion of management attention and resources from our business and business goals and could result in settlement or damages that could significantly affect financial results and the conduct of our business.

**Item 4. Mine Safety Disclosures.**

Not applicable.

## PART II - OTHER INFORMATION

### Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchase of Equity Securities

#### Market Information

Our common stock began trading on the NYSE under the symbol "NOVA" on July 25, 2019.

#### Holders

As of February 21, 2022, there were approximately 20 holders of record of our common stock. Certain shares are held in "street" name and, accordingly, the number of beneficial owners of such shares is not known or included in the foregoing number.

#### Dividends

We have never declared or paid any cash dividends on our capital stock. We currently intend to retain all available funds and any future earnings for use in the operation of our business and do not expect to pay any dividends on our capital stock in the foreseeable future. In addition, the terms of our credit agreements and indentures contain restrictions on the payment of dividends and we may also enter into other credit agreements, indentures or other borrowing arrangements in the future that will restrict our ability to declare or pay cash dividends on our capital stock.

#### Performance Graph

The following stock performance graph compares our total stock return with the total return for (a) the NYSE Composite Index and the (b) the Invesco Solar ETF, which represents a peer group of solar companies, for the period from July 25, 2019 (the date our common stock commenced trading on the NYSE) through December 31, 2021. The figures represented below assume an investment of \$100 in our common stock at the closing price of \$11.25 on July 25, 2019 and in the NYSE Composite Index and the Invesco Solar ETF on July 25, 2019, including the reinvestment of dividends into shares of common stock. The comparisons in the table are required by the SEC and are not intended to forecast or be indicative of possible future performance of our common stock. This graph shall not be deemed "soliciting material" or be deemed "filed" for purposes of Section 18 of the Exchange Act, or otherwise subject to the liabilities under that section, and shall not be deemed to be incorporated by reference into any of our filings under the Securities Act, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing.

***Unregistered Sales of Equity Securities and Use of Proceeds***

In November 2021, one of our wholly-owned subsidiaries entered into a Master Lease Agreement (the "EAH Master Lease") with Energy Asset HoldCo LLC, a Delaware limited liability company and subsidiary of Lennar ("EAH Lessor"), to lease two pools of solar energy systems and assume the related PPA and lease obligations from EAH Lessor. In exchange for the right to receive future customer cash flows as well as certain credits, rebates and incentives (including SRECs) under those pooled agreements, we made an upfront payment to Lennar consisting of \$35.0 million in cash and 1,027,409 shares of our common stock for net consideration of \$79.4 million. Pursuant to the terms of the EAH Master Lease, additional pools of solar energy systems may also be leased from EAH Lessor in the future in exchange for upfront lease payments. The issuance of shares of our common stock in this transaction did not involve a public offering and was exempt from the registration requirements of the Securities Act pursuant to Section 4(a)(2) of the Securities Act, which exempts transactions by an issuer not involving any public offering.

**Item 6. [Reserved]**

## **Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

*The following discussion and analysis contain forward-looking statements that are subject to risks, uncertainties and assumptions. Our actual results and timing of selected events may differ materially from those anticipated in these forward-looking statements as a result of many factors, including but not limited to those discussed under "Special Note Regarding Forward-Looking Statements", "Risk Factors" and elsewhere in this Annual Report on Form 10-K. Moreover, we operate in a very competitive and rapidly changing environment and new risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, the forward-looking events and circumstances discussed in this Annual Report on Form 10-K may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements.*

### **Company Overview**

We are a leading residential energy service provider, serving over 195,000 customers in more than 25 U.S. states and territories. Our goal is to be the source of clean, affordable and reliable energy with a simple mission: to power energy independence so homeowners have the freedom to live life uninterrupted. We were founded to deliver customers a better energy service at a better price; and, through our energy service offerings, we are disrupting the traditional energy landscape and the way the 21st century customer generates and consumes electricity.

We have a differentiated residential solar dealer model in which we partner with local dealers who originate, design and install our customers' solar energy systems and energy storage systems on our behalf. Our focus on our dealer model enables us to leverage our dealers' specialized knowledge, connections and experience in local markets to drive customer origination while providing our dealers with access to high quality products at competitive prices, as well as technical oversight and expertise. We believe this structure provides operational flexibility, reduces exposure to labor shortages and lowers fixed costs relative to our peers, furthering our competitive advantage.

We offer customers products to power their homes with affordable solar energy. We are able to offer savings compared to utility-based retail rates with little to no up-front expense to the customer in conjunction with solar and solar plus energy storage, and in the case of the latter are able to also provide energy resiliency. Our solar service agreements typically take the form of a lease, PPA or loan; however, we also offer service plans for systems previously originated by our competitors. We make it possible in some states for a customer to obtain a new roof and other ancillary products as part of their solar loan. We also allow customers originated through our homebuilder channel the option of purchasing the system when the customer closes on the purchase of a new home. The initial term of our solar service agreements is typically between 10 and 25 years. Service is an integral part of our agreements and includes operations and maintenance, monitoring, repairs and replacements, equipment upgrades, on-site power optimization for the customer (for both supply and demand), the ability to efficiently switch power sources among the solar panel, grid and energy storage system, as appropriate, and diagnostics. During the life of the contract, we have the opportunity to integrate related and evolving home servicing and monitoring technologies to upgrade the flexibility and reduce the cost of our customers' energy supply.

In the case of leases and PPAs, we also currently receive tax benefits and other incentives from federal, state and local governments, a portion of which we finance through tax equity, non-recourse debt structures and hedging arrangements in order to fund our upfront costs, overhead and growth investments. We have an established track record of attracting capital from diverse sources. From our inception through December 31, 2021, we have raised more than \$9.0 billion in total capital commitments from equity, debt and tax equity investors.

In addition to providing ongoing service as a standard component of our solar service agreements, we also offer ongoing energy services to customers who purchased their solar energy system through third parties. Under these arrangements, we agree to provide monitoring, maintenance and repair services to these customers for the life of the service contract they sign with us. We intend to expand our offerings to include complimentary products to our agreements as well as non-solar financing. Specifically, and subject to obtaining any applicable state and federal regulatory approvals and assessing any attendant risks, we plan to expand our offerings to include a non-solar loan program enabling customers to finance the purchase of products independent of a solar energy system or energy storage system. We believe the quality and scope of our comprehensive energy service offerings, whether to customers that obtained their solar energy system through us or through another party, is a key differentiator between us and our competitors.

In April 2021, we acquired SunStreet, Lennar's residential solar platform that focuses primarily on solar energy systems and energy storage systems for homebuilders. In connection with that acquisition, we entered into an agreement pursuant to

which we would be the exclusive residential solar and storage provider for Lennar's new home communities with solar across the U.S. for a period of four years. We believe the acquisition provides a new strategic path to further scale our residential solar business, reduces customer acquisition costs, provides a multi-year supply of homesites through the development of new home solar communities and allows us to pursue the development of clean and resilient residential microgrids across the U.S.

We also enter into leases with third-party owners of pools of solar energy systems to receive such third party's interest in those systems. In connection therewith, we assume the related customer PPA and lease obligations, entitling us to future customer cash flows as well as certain credits, rebates and incentives (including SRECs) under those agreements, in exchange for a lease payment, whether upfront or over time, to the third-party owner, which may be made in the form of cash or shares of our common stock. We believe such arrangements enhance our long-term contracted cash flows and are complementary to our overall business model.

We commenced operations in January 2013 and began providing solar energy services under our first solar energy system in April 2013. Since then, our brand, innovation and focused execution have driven significant, rapid growth in our market share and in the number of customers on our platform. We operate one of the largest fleets of residential solar energy systems in the U.S., comprising more than 1,140 megawatts of generation capacity and serving over 195,000 customers.

## **Recent Developments**

### ***Acquisition of SunStreet***

In February 2021, we entered into an Agreement and Plan of Merger (the "Merger Agreement") with certain of our subsidiaries, SunStreet and LEN X, LLC, a Florida limited liability company, the sole member of SunStreet and a wholly-owned subsidiary of Lennar ("Len<sup>x</sup>"). Pursuant to the Merger Agreement, in April 2021, we acquired SunStreet, Lennar's residential solar platform, in exchange for up to 7,011,751 shares of our common stock (the "Acquisition"), comprised of 3,095,329 shares in initial consideration issued at closing, 27,526 shares related to the purchase price adjustments in the third quarter of 2021 and up to 3,888,896 shares issuable as earnout consideration after closing of the Acquisition as described below. In connection with the Acquisition, we entered into an agreement pursuant to which we would be the exclusive residential solar and storage service provider for Lennar's new home communities with solar across the U.S. for a period of four years.

#### ***Earnout Agreement***

Pursuant to the Earnout Agreement entered into between us and Len<sup>x</sup>, Len<sup>x</sup> will have the ability to earn up to an additional 3,888,896 shares of common stock over a five-year period in connection with the Acquisition. The earnout payments are conditioned on SunStreet meeting certain commercial milestones and achieving specified in-service levels. There are two elements to the earnout arrangement. First, we will issue up to 2,777,784 shares to the extent we and our subsidiaries (including SunStreet) place target amounts of solar energy systems into service and enter into qualifying customer agreements related to such solar energy systems. The 2,777,784 shares of common stock issuable under this portion of the earnout can be earned in four installments on a yearly basis (if the in-service target for each such year is achieved) or at the end of the four-year period (if the cumulative in-service target is achieved by the fourth and final year), with the annual periods commencing on the closing date of the Acquisition. The second element of the earnout is related to the development of microgrid communities. Pursuant to this portion of the earnout, we will issue up to 1,111,112 shares if, prior to the fifth anniversary of the closing date of the Acquisition, we enter into binding agreements for the development of microgrid communities.

#### ***Tax Equity Commitment***

In connection with the Acquisition, Lennar has committed to contribute an aggregate \$200.0 million (the "Funding Commitment") to four Sunnova tax equity funds, each formed annually during a period of four consecutive years (each such year, a "Contribution Year") commencing in 2021. The solar service agreements and related solar energy systems acquired by each of these four tax equity funds will generally be originated by SunStreet, though a certain number of solar service agreements may be originated by our dealers, subject to certain criteria and expected in-service levels for the year. Any amount not utilized during the first and second Contribution Years will increase the Funding Commitment during the third and fourth Contribution Year by that amount. Any amount not utilized during the third Contribution Year will increase the Funding Commitment during the fourth Contribution Year by that amount. In connection with the Funding Commitment, each of the tax equity funds will enter into typical tax equity fund transaction documentation, including development and purchase agreements, servicing agreements and limited liability company agreements. See "*Liquidity and Capital Resources—Financing Arrangements—Tax Equity Fund Commitments*" below.

### ***Investments in Solar Receivables***

In November 2021, one of our wholly-owned subsidiaries entered into a Master Lease Agreement with Energy Asset HoldCo LLC, a Delaware limited liability company and subsidiary of Lennar, to lease two pools of solar energy systems and assume the related PPA and lease obligations from EAH Lessor. In exchange for the right to receive future customer cash flows as well as certain credits, rebates and incentives (including SRECs) under those pooled agreements, we made an upfront payment to Lennar consisting of \$35.0 million in cash and 1,027,409 shares of our common stock for net consideration of \$79.4 million. Pursuant to the terms of the EAH Master Lease, additional pools of solar energy systems may also be leased from EAH Lessor in the future in exchange for upfront lease payments.

### ***Accessory Loans***

In November 2021, we began offering an accessory loan for services sold independent of a solar energy system or energy storage system. Accessory loans allow consumers to finance solutions, including home generators, roofing, electric vehicle chargers, home security systems and other offerings we may make available in the future.

### ***COVID-19 Pandemic***

The ongoing COVID-19 pandemic has resulted and may continue to result in widespread adverse impacts on the global economy. We have experienced some resulting disruptions to our business operations as the COVID-19 virus has continued to circulate through the states and U.S. territories in which we operate.

Social distancing guidelines, stay-at-home orders and similar government measures associated with the COVID-19 pandemic, as well as actions by individuals to reduce their potential exposure to the virus, contributed to a decline in origination. This decline reflected an inability by our dealers to perform in-person sales calls based on the stay-at-home orders in some locations. To adjust to these government measures, our dealers expanded the use of digital tools and origination channels and created new methods that offset restrictions on their ability to meet with potential new customers in person. Such efforts drove an increase in new contract origination. We have seen the use of websites, video conferencing and other virtual tools as part of our origination process expand widely and contribute to our growth.

Throughout the COVID-19 pandemic, we have continued to service and install solar energy systems. The industry is currently facing shortages and shipping delays affecting the supply of energy storage systems, modules and component parts for inverters and racking used in solar energy systems. These shortages and delays can be attributed in part to the COVID-19 pandemic as well as to government action in response to the pandemic, as well as to allegations regarding the use of forced labor in the Chinese polysilicon supply chain. While a majority of our dealers have secured sufficient quantities to permit them to continue installing and conducting repairs through much of 2022, if these shortages and delays persist, they could impact the timing of when solar energy systems and energy storage systems can be installed and repaired and when we can acquire and begin to generate revenue from those systems. In addition, if supply chains become significantly disrupted due to additional outbreaks of the COVID-19 virus or otherwise, or more stringent health and safety guidelines are implemented, our ability to install and service solar energy systems could become adversely impacted.

We cannot predict the full impact the COVID-19 pandemic will have on our business, cash flows, liquidity, financial condition and results of operations at this time due to numerous uncertainties. We will continue to monitor developments affecting our workforce, our customers and our business operations generally, and will take actions we determine are necessary in order to mitigate these impacts. For additional discussion regarding risks associated with the COVID-19 pandemic, see "*Risk Factors*" elsewhere in this Annual Report on Form 10-K.

### ***Financing Transactions***

In October 2021, we admitted a tax equity investor with a total capital commitment of approximately \$11.6 million. In December 2021, we admitted a tax equity investor with a total capital commitment of approximately \$50.0 million. In February 2022, we admitted a tax equity investor with a total capital commitment of approximately \$150.0 million. See "*Liquidity and Capital Resources—Financing Arrangements—Tax Equity Fund Commitments*" below.

In October 2021, we amended the revolving credit facility associated with one of our financing subsidiaries that owns certain tax equity funds to, among other things, update the LIBOR transition terms and transfer a portion of the loan commitment to an additional lender. See "*Liquidity and Capital Resources—Financing Arrangements—Warehouse and Other Debt Financings*" below.

In October 2021, one of our subsidiaries issued \$68.4 million in aggregate principal amount of Series 2021-C Class A solar loan-backed notes, \$55.9 million in aggregate principal amount of Series 2021-C Class B solar loan-backed notes and \$31.5 million in aggregate principal amount of Series 2021-C Class C solar loan-backed notes (collectively, the "HELVII Notes") with a maturity date of October 2048. The HELVII Notes bear interest at an annual rate of 2.03%, 2.33% and 2.63% for the Class A, Class B and Class C notes, respectively. In February 2022, one of our subsidiaries entered into a Note Purchase Agreement related to the sale of \$131.9 million in aggregate principal amount of Series 2022-A Class A solar loan-backed notes, \$102.2 million in aggregate principal amount of Series 2022-A Class B solar loan-backed notes and \$63.8 million in aggregate principal amount of Series 2022-A Class C solar loan-backed notes (collectively, the "HELVIII Notes") with a maturity date of February 2049. The HELVIII Notes will bear interest at an annual rate of 2.79%, 3.13% and 3.53% for the Class A, Class B and Class C notes, respectively. The transaction is expected to close on or about February 24, 2022, subject to customary closing conditions. See "*Liquidity and Capital Resources—Financing Arrangements—Securitizations*" below.

## Securitizations

As a source of long-term financing, we securitize qualifying solar energy systems, energy storage systems and related solar service agreements into special purpose entities who issue solar asset-backed and solar loan-backed notes to institutional investors. We also securitize the cash flows generated by the membership interests in certain of our indirect, wholly-owned subsidiaries that are the managing member of a tax equity fund that owns a pool of solar energy systems, energy storage systems and related solar service agreements that were originated by one of our wholly-owned subsidiaries. We do not securitize the Section 48(a) ITC incentives associated with the solar energy systems and energy storage systems as part of these arrangements. We use the cash flows these solar energy systems and energy storage systems generate to service the monthly, quarterly or semi-annual principal and interest payments on the notes and satisfy the expenses and reserve requirements of the special purpose entities, with any remaining cash distributed to their sole members, who are typically our indirect wholly-owned subsidiaries. In connection with these securitizations, certain of our affiliates receive a fee for managing and servicing the solar energy systems and energy storage systems pursuant to management, servicing, facility administration and asset management agreements. The special purpose entities are also typically required to maintain a liquidity reserve account and a reserve account for equipment replacements and, in certain cases, reserve accounts for financing fund purchase option/withdrawal right exercises or storage system replacement for the benefit of the holders under the applicable series of notes, each of which are funded from initial deposits or cash flows to the levels specified therein. The creditors of these special purpose entities have no recourse to our other assets except as expressly set forth in the terms of the notes. From our inception through December 31, 2021, we have issued \$2.5 billion in solar asset-backed and solar loan-backed notes.

## Tax Equity Funds

Our ability to offer long-term solar service agreements depends in part on our ability to finance the installation of the solar energy systems and energy storage systems by co-investing with tax equity investors, such as large banks who value the resulting customer receivables and Section 48(a) ITCs, accelerated tax depreciation and other incentives related to the solar energy systems and energy storage systems, primarily through structured investments known as "tax equity". Tax equity investments are generally structured as non-recourse project financings known as "tax equity funds". In the context of distributed generation solar energy, tax equity investors make contributions upfront or in stages based on milestones in exchange for a share of the tax attributes and cash flows emanating from an underlying portfolio of solar energy systems and energy storage systems. In these tax equity funds, the U.S. federal tax attributes offset taxes that otherwise would have been payable on the investors' other operations. The terms and conditions of each tax equity fund vary significantly by investor and by fund. We continue to negotiate with potential investors to create additional tax equity funds.

In general, our tax equity funds are structured using the "partnership flip" structure. Under partnership flip structures, we and our tax equity investors contribute cash into a partnership. The partnership uses this cash to acquire long-term solar service agreements, solar energy systems and energy storage systems developed by us and sells energy from such solar energy systems and energy storage systems, as applicable, to customers or directly leases the solar energy systems and energy storage systems, as applicable, to customers. We assign these solar service agreements, solar energy systems, energy storage systems and related incentives to our tax equity funds in accordance with the criteria of the specific funds. Upon such assignment and the satisfaction of certain conditions precedent, we are able to draw down on the tax equity fund commitments. The conditions precedent to funding vary across our tax equity funds but generally require that we have entered into a solar service agreement with the customer, the customer meets certain credit criteria, the solar energy system is expected to be eligible for the Section 48(a) ITC, we have a recent appraisal from an independent appraiser establishing the fair market value of the solar energy system and the property is in an approved state or territory. Certain tax equity investors agree to receive a minimum target rate of return, typically on an after-tax basis, which varies by tax equity fund. Prior to receiving a contractual rate of return or a date specified in the contractual arrangements, the tax equity investor receives substantially all of the non-cash value attributable to the solar energy systems and energy storage systems, which includes accelerated depreciation and Section 48(a) ITCs; however,

we typically receive a majority of the cash distributions, which are typically paid quarterly. After the tax equity investor receives its contractual rate of return or after a specified date, we receive substantially all of the cash and tax allocations.

We have determined we are the primary beneficiary in these tax equity funds for accounting purposes. Accordingly, we consolidate the assets and liabilities and operating results of these partnerships in our consolidated financial statements. We recognize the tax equity investors' share of the net assets of the tax equity funds as redeemable noncontrolling interests and noncontrolling interests in our consolidated balance sheets. The income or loss allocations reflected in our consolidated statements of operations may create significant volatility in our reported results of operations, including potentially changing net loss attributable to stockholders to net income attributable to stockholders, or vice versa, from quarter to quarter.

We typically have an option to acquire, and our tax equity investors may have an option to withdraw and require us to purchase, all the equity interests our tax equity investor holds in the tax equity funds starting approximately five years after the last solar energy system in the applicable tax equity fund is operational. If we or our tax equity investors exercise this option, we are typically required to pay at least the fair market value of the tax equity investor's equity interest and, in certain cases, a contractual minimum amount. From our inception through December 31, 2021, we have received commitments of approximately \$1.2 billion through the use of tax equity funds, of which an aggregate of \$978.8 million has been funded and \$106.0 million remains available for use.

### Key Financial and Operational Metrics

We regularly review a number of metrics, including the following key operational and financial metrics, to evaluate our business, measure our performance, identify trends affecting our business, formulate our financial projections and make strategic decisions.

*Number of Customers.* We define number of customers to include every unique individual possessing an in-service product that is subject to a Sunnova lease, PPA or loan agreement, or with respect to which Sunnova is obligated to perform a service under an active agreement between Sunnova and the individual or between Sunnova and a third party. For all solar energy systems or energy storage systems installed by us, in-service means the related solar energy system or energy storage system, as applicable, must have met all the requirements to begin operation and be interconnected to the electrical grid. For all products other than solar energy systems or energy storage systems, which are subject to a loan agreement between Sunnova and a customer, in-service means the customer is obligated to begin making payments to Sunnova under the loan agreement. We do not include in our number of customers any customer possessing a solar energy system or energy storage system under a lease, PPA or loan agreement that has reached mechanical completion but has not received permission to operate from the local utility or for whom we have terminated the contract and removed the solar energy system. We also do not include in our number of customers any customer that has been in default under his or her lease, PPA or loan agreement in excess of six months. We track the total number of customers as an indicator of our historical growth and our rate of growth from period to period.

	As of December 31,		Change
	2021	2020	
Number of customers	195,400	107,500	87,900

*Weighted Average Number of Systems.* We calculate the weighted average number of systems based on the number of months a customer and any additional service obligation related to a solar energy system is in-service during a given measurement period. The weighted average number of systems reflects the number of systems at the beginning of a period, plus the total number of new systems added in the period adjusted by a factor that accounts for the partial period nature of those new systems. For purposes of this calculation, we assume all new systems added during a month were added in the middle of that month. The number of systems for any end of period will exceed the number of customers, as defined above, for that same end of period as we are also including any additional services and/or contracts a customer or third party executed for the additional work for the same residence. We track the weighted average system count in order to accurately reflect the contribution of the appropriate number of systems to key financial metrics over the measurement period.

	Year Ended December 31,		
	2021	2020	2019
Weighted average number of systems (excluding loan agreements and cash sales)	127,200	77,900	60,100
Weighted average number of systems with loan agreements	27,500	14,200	8,400
Weighted average number of systems with cash sales	600	—	—
Weighted average number of systems	155,300	92,100	68,500

*Adjusted EBITDA.* We define Adjusted EBITDA as net income (loss) plus net interest expense, depreciation and amortization expense, income tax expense, financing deal costs, natural disaster losses and related charges, net, losses on extinguishment of long-term debt, realized and unrealized gains and losses on fair value instruments, amortization of payments to dealers for exclusivity and other bonus arrangements, legal settlements and excluding the effect of certain non-recurring items we do not consider to be indicative of our ongoing operating performance such as, but not limited to, costs of our initial public offering ("IPO"), acquisition costs, losses on unenforceable contracts and other non-cash items such as non-cash compensation expense, asset retirement obligation ("ARO") accretion expense, provision for current expected credit losses and non-cash inventory impairments.

Adjusted EBITDA is a non-GAAP financial measure we use as a performance measure. We believe investors and securities analysts also use Adjusted EBITDA in evaluating our operating performance. This measurement is not recognized in accordance with accounting principles generally accepted in the United States of America ("GAAP") and should not be viewed as an alternative to GAAP measures of performance. The GAAP measure most directly comparable to Adjusted EBITDA is net income (loss). The presentation of Adjusted EBITDA should not be construed to suggest our future results will be unaffected by non-cash or non-recurring items. In addition, our calculation of Adjusted EBITDA is not necessarily comparable to Adjusted EBITDA as calculated by other companies.

We believe Adjusted EBITDA is useful to management, investors and analysts in providing a measure of core financial performance adjusted to allow for comparisons of results of operations across reporting periods on a consistent basis. These adjustments are intended to exclude items that are not indicative of the ongoing operating performance of the business. Adjusted EBITDA is also used by our management for internal planning purposes, including our consolidated operating budget, and by our Board in setting performance-based compensation targets. Adjusted EBITDA should not be considered an alternative to but viewed in conjunction with GAAP results, as we believe it provides a more complete understanding of ongoing business performance and trends than GAAP measures alone. Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP.

*Interest Income and Principal Payments from Customer Notes Receivable.* Under our loan agreements, the customer obtains financing for the purchase of a solar energy system from us and we agree to operate and maintain the solar energy system throughout the duration of the agreement. Pursuant to the terms of the loan agreement, the customer makes scheduled principal and interest payments to us and has the option to prepay principal at any time in part or in full. Whereas we typically recognize payments from customers under our leases and PPAs as revenue, we recognize payments received from customers under our loan agreements (a) as interest income, to the extent attributable to earned interest on the contract that financed the customer's purchase of the solar energy system; (b) as a reduction of a note receivable on the balance sheet, to the extent attributable to a return of principal (whether scheduled or prepaid) on the contract that financed the customer's purchase of the solar energy system; and (c) as revenue, to the extent attributable to payments for operations and maintenance services provided by us.

While Adjusted EBITDA effectively captures the operating performance of our leases and PPAs, it only reflects the service portion of the operating performance under our loan agreements. We do not consider our types of solar service agreements differently when evaluating our operating performance. In order to present a measure of operating performance that provides comparability without regard to the different accounting treatment among our three types of solar service agreements, we consider interest income from customer notes receivable and principal proceeds from customer notes receivable, net of related revenue, as key performance metrics. We believe these two metrics provide a more meaningful and uniform method of

analyzing our operating performance when viewed in light of our other key performance metrics across the three primary types of solar service agreements.

	2021	2020	2019
	(in thousands)		
Interest income from customer notes receivable	\$ 33,696	\$ 23,239	\$ 11,588
Principal proceeds from customer notes receivable, net of related revenue	\$ 59,274	\$ 32,580	\$ 20,044

*Adjusted Operating Expense.* We define Adjusted Operating Expense as total operating expense less depreciation and amortization expense, financing deal costs, natural disaster losses and related charges, net, amortization of payments to dealers for exclusivity and other bonus arrangements, legal settlements, direct sales costs, cost of revenue related to cash sales, unrealized losses on fair value instruments and excluding the effect of certain non-recurring items we do not consider to be indicative of our ongoing operating performance such as, but not limited to, costs of our IPO, acquisition costs, losses on unenforceable contracts and other non-cash items such as non-cash compensation expense, ARO accretion expense, provision for current expected credit losses and non-cash inventory impairments. Adjusted Operating Expense is a non-GAAP financial measure we use as a performance measure. We believe investors and securities analysts will also use Adjusted Operating Expense in evaluating our performance. This measurement is not recognized in accordance with GAAP and should not be viewed as an alternative to GAAP measures of performance. The GAAP measure most directly comparable to Adjusted Operating Expense is total operating expense. We believe Adjusted Operating Expense is a supplemental financial measure useful to management, analysts, investors, lenders and rating agencies as an indicator of the efficiency of our operations between reporting periods. Adjusted Operating Expense should not be considered an alternative to but viewed in conjunction with GAAP total operating expense, as we believe it provides a more complete understanding of our performance than GAAP measures alone. Adjusted Operating Expense has limitations as an analytical tool and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP, including total operating expense.

We use per system metrics, including Adjusted Operating Expense per weighted average system, as an additional way to evaluate our performance. Specifically, we consider the change in this metric from period to period as a way to evaluate our performance in the context of changes we experience in the overall customer base. While the Adjusted Operating Expense figure provides a valuable indicator of our overall performance, evaluating this metric on a per system basis allows for further nuanced understanding by management, investors and analysts of the financial impact of each additional system.

*Estimated Gross Contracted Customer Value.* We calculate estimated gross contracted customer value as defined below. We believe estimated gross contracted customer value can serve as a useful tool for investors and analysts in comparing the remaining value of our customer contracts to that of our peers.

Estimated gross contracted customer value as of a specific measurement date represents the sum of the present value of the remaining estimated future net cash flows we expect to receive from existing customers during the initial contract term of our leases and PPAs, which are typically 25 years in length, plus the present value of future net cash flows we expect to receive from the sale of related SRECs, either under existing contracts or in future sales, plus the cash flows we expect to receive from energy services programs such as grid services, plus the carrying value of outstanding customer loans on our balance sheet. From these aggregate estimated initial cash flows, we subtract the present value of estimated net cash distributions to redeemable noncontrolling interests and noncontrolling interests and estimated operating, maintenance and administrative expenses associated with the solar service agreements. These estimated future cash flows reflect the projected monthly customer payments over the life of our solar service agreements and depend on various factors including but not limited to solar service agreement type, contracted rates, expected sun hours and the projected production capacity of the solar equipment installed. For the purpose of calculating this metric, we discount all future cash flows at 4%.

The anticipated operating, maintenance and administrative expenses included in the calculation of estimated gross contracted customer value include, among other things, expenses related to accounting, reporting, audit, insurance, maintenance and repairs. In the aggregate, we estimate these expenses are \$20 per kilowatt per year initially, with 2% annual increases for inflation, and an additional \$81 per year non-escalating expense included for energy storage systems. We do not include maintenance and repair costs for inverters and similar equipment as those are largely covered by the applicable product and dealer warranties for the life of the product, but we do include additional cost for energy storage systems, which are only covered by a 10-year warranty. Expected distributions to tax equity investors vary among the different tax equity funds and are based on individual tax equity fund contract provisions.

Estimated gross contracted customer value is forecasted as of a specific date. It is forward-looking and we use judgment in developing the assumptions used to calculate it. Factors that could impact estimated gross contracted customer value include, but are not limited to, customer payment defaults, or declines in utility rates or early termination of a contract in certain

circumstances, including prior to installation. The following table presents the calculation of estimated gross contracted customer value as of December 31, 2021 and 2020, calculated using a 4% discount rate.

	As of December 31,	
	2021	2020
	(in millions)	
Estimated gross contracted customer value	\$ 4,337	\$ 2,997

**Sensitivity Analysis.** The calculation of estimated gross contracted customer value and associated operational metrics requires us to make a number of assumptions regarding future revenues and costs which may not prove accurate. Accordingly, we present below a sensitivity analysis with a range of assumptions. We consider a discount rate of 4% to be appropriate based on recent transactions that demonstrate a portfolio of residential solar service agreements is an asset class that can be securitized successfully on a long-term basis with a coupon of less than 4%. We also present these metrics with a discount rate of 4% based on industry practice. The appropriate discount rate for these estimates may change in the future due to the level of inflation, rising interest rates, our cost of capital and consumer demand for solar energy systems. In addition, the table below provides a range of estimated gross contracted customer value amounts if different cumulative customer loss rate assumptions were used. We are presenting this information for illustrative purposes only and as a comparison to information published by our peers.

## Significant Factors and Trends Affecting Our Business

Our results of operations and our ability to grow our business over time could be impacted by a number of factors and trends that affect our industry generally, as well as new offerings of services and products we may acquire or seek to acquire in the future. Additionally, our business is concentrated in certain markets, putting us at risk of region-specific disruptions such as adverse economic, regulatory, political, weather and other conditions. See "Item 1A. Risk Factors" for further discussion of risks affecting our business.

**Financing Availability.** Our future growth depends, in significant part, on our ability to raise capital from third-party investors on competitive terms to help finance the origination of our solar energy systems under our solar service agreements. We have historically used debt, such as convertible senior notes, asset-backed and loan-backed securitizations and warehouse facilities, tax equity, preferred equity and other financing strategies to help fund our operations. From our inception through December 31, 2021, we have raised more than \$9.0 billion in total capital commitments from equity, debt and tax equity investors. With respect to tax equity, there are a limited number of potential tax equity investors, and the competition for this investment capital is intense. The principal tax credit on which tax equity investors in our industry rely is the Section 48(a) ITC. Starting January 1, 2020, the amount for the Section 48(a) ITC was equal to 30% of the basis of eligible solar property that began construction before 2020 if placed in service before 2026. By statute, the Section 48(a) ITC percentage decreased to 26% for eligible solar property that began construction during 2020 or 2021 or begins construction in 2022, 22% if construction begins in 2023 and 10% if construction begins after 2023 or if the property is placed into service after 2025. This reduction in the Section 48(a) ITC will likely reduce our use of tax equity financing in the future unless the Section 48(a) ITC is increased or replaced. IRS guidance includes a safe harbor that may apply when a taxpayer (or in certain cases, a contractor) pays or incurs 5% or more of the costs of a solar energy system before the end of the applicable year, even though the solar energy system is not placed in service until after the end of that year. For installations in 2021, we purchased prior to 2020 substantially all the inverters that we estimated would be deployed under our lease and PPA agreements that we expected would allow the related solar energy systems to qualify for the 30% Section 48(a) ITC by satisfying the 5% ITC Safe Harbor. Based on various market factors, however, not all solar energy systems installed in 2021 qualify for the Section 48(a) ITC at 30%. For solar energy systems installed in 2021 that did not meet all requirements for the 30% Section 48(a) ITC, such solar energy systems are expected to qualify for the 26% Section 48(a) ITC. Additionally, we may make further inventory purchases in future periods to extend the availability of each period's Section 48(a) ITC. Our ability to raise capital from third-party investors is affected by general economic conditions, the state of the capital markets, inflation levels and concerns about our industry or business. Specifically, interest rates remain subject to volatility that may result from action taken by the Federal Reserve. Recent data

have suggested inflationary pressures may be more durable than anticipated, which could result in interest rate increases and/or the tapering of quantitative easing policies enacted towards the outset of the COVID-19 pandemic sooner than previously expected.

**Cost of Solar Energy Systems and Energy Storage Systems.** Although the solar panel market has seen an increase in supply, upward pressure on prices may occur due to growth in the solar industry, regulatory policy changes, tariffs and duties, inflationary cost pressures and an increase in demand. As a result of these developments, we may pay higher prices on imported solar modules, which may make it less economical for us to serve certain markets. Attachment rates for energy storage systems have trended higher while the price to acquire has remained steady and increased slightly for some suppliers due to several market variables, including COVID-19, raw material shortages and freight prices, but this still remains a potential area of growth for us.

**Energy Storage Systems.** Our energy storage systems increase our customers' independence from the centralized utility and provide on-site backup power when there is a grid outage due to storms, wildfires, other natural disasters and general power failures caused by supply or transmission issues. In addition, at times it can be more economic to consume less energy from the grid or, alternatively, to export solar energy back to the grid. Recent technological advancements for energy storage systems allow the energy storage system to adapt to pricing and utility rate shifts by controlling the inflows and outflows of power, allowing customers to increase the value of their solar energy system plus energy storage system. The energy storage system charges during the day, making the energy it stores available to the home when needed. It also features software that can customize power usage for the individual customer, providing backup power, optimizing solar energy consumption versus grid consumption or preventing export to the grid as appropriate. The software is tailored based on utility regulation, economic indicators and grid conditions. The combination of energy control, increased energy resilience and independence from the grid is strong incentive for customers to adopt solar and energy storage. As energy storage systems and their related software features become more advanced, we expect to see increased adoption of energy storage systems.

**Climate Change Action.** As a result of increasing global awareness of and aversion to climate change impacts, we believe the renewable energy market in which we operate, and investment in climate solutions more broadly, will continue to grow as the impact of climate change increases. This trend, along with increasing commitments to reduce carbon emissions, is expected to result in increased demand for our products and services. Under the current presidential administration, the focus on cleaner energy sources and technology to decarbonize the U.S. economy continues to accelerate. The Biden administration has taken immediate steps that we believe signify support for cleaner energy sources, including, but not limited to, rejoining the Paris Climate Accord, re-establishing a social price on carbon used in cost/benefit analysis for policy making and announcing a commitment to transition the U.S. economy to a net-zero carbon economy by 2050. We expect the Biden administration, combined with a closely divided Congress, to continue to take actions that are supportive of the renewable energy industry, such as incentivizing clean energy sources and supporting new investment in areas like renewables.

**Government Regulations, Policies and Incentives.** Our growth strategy depends in significant part on government policies and incentives that promote and support solar energy and enhance the economic viability of distributed residential solar. These policies and incentives come in various forms, including net metering, eligibility for accelerated depreciation such as the MACRS, SRECs, tax abatements, rebates, renewable targets, incentive programs and tax credits, particularly the Section 48(a) ITC and the Section 25D Credit. Policies requiring solar on new homes or new roofs, such as those enacted in California and New York City, also support the growth of distributed solar. The sale of SRECs has constituted a significant portion of our revenue historically. A change in the value of SRECs or changes in other policies or a loss or reduction in such incentives could decrease the attractiveness of distributed residential solar to us, our dealers and our customers in applicable markets, which could reduce our customer acquisition opportunities. Such a loss or reduction could also reduce our willingness to pursue certain customer acquisitions due to decreased revenue or income under our solar service agreements. Additionally, such a loss or reduction may also impact the terms of and availability of third-party financing. If any of these government regulations, policies or incentives are adversely amended, delayed, eliminated, reduced, retroactively changed or not extended beyond their current expiration dates or there is a negative impact from the recent federal law changes or proposals, our operating results and the demand for, and the economics of, distributed residential solar energy may decline, which could harm our business.

## Components of Results of Operations

**Revenue.** We recognize revenue from contracts with customers as we satisfy our performance obligations at a transaction price reflecting an amount of consideration based upon an estimated rate of return, net of cash incentives. We express this rate of return as the solar rate per kWh in the customer contract. The amount of revenue we recognize does not equal customer cash payments because we satisfy performance obligations ahead of cash receipt or evenly as we provide continuous access on a stand-ready basis to the solar energy system. We reflect the differences between revenue recognition and cash payments received in accounts receivable, other assets or deferred revenue, as appropriate.

*PPAs.* We have determined solar service agreements under which customers purchase electricity from us should be accounted for as revenue from contracts with customers. We recognize revenue based upon the amount of electricity delivered as determined by remote monitoring equipment at solar rates specified under the contracts. The PPAs generally have a term of 20 or 25 years with an opportunity for customers to renew for up to an additional 10 years, via two five-year or one 10-year renewal options.

*Lease Agreements.* We are the lessor under lease agreements for solar energy systems and energy storage systems, which we account for as revenue from contracts with customers. We recognize revenue on a straight-line basis over the contract term as we satisfy our obligation to provide continuous access to the solar energy system. The lease agreements generally have a term of 20 or 25 years with an opportunity for customers to renew for up to an additional 10 years, via two five-year or one 10-year renewal options.

We provide customers under our lease agreements a performance guarantee that each solar energy system will achieve a certain specified minimum solar energy production output. The specified minimum solar energy production output may not be achieved due to natural fluctuations in the weather or equipment failures from exposure and wear and tear outside of our control, among other factors. We determine the amount of guaranteed output based on a number of different factors, including (a) the specific site information relating to the tilt of the panels, azimuth (a horizontal angle measured clockwise in degrees from a reference direction) of the panels, size of the solar energy system and shading on site; (b) the calculated amount of available irradiance (amount of energy for a given flat surface facing a specific direction) based on historical average weather data and (c) the calculated amount of energy output of the solar energy system.

If the solar energy system does not produce the guaranteed production amount, we are required to provide a bill credit or refund a portion of the previously remitted customer payments, where the bill credit or repayment is calculated as the product of (a) the shortfall production amount and (b) the dollar amount (guaranteed rate) per kWh that is fixed throughout the term of the contract. These bill credits or remittances of a customer's payments, if needed, are payable in January following the end of the first three years of the solar energy system's placed in service date and then every annual period thereafter. See Note 17, Commitments and Contingencies, to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

*SRECs.* Each SREC represents the environmental benefit of one megawatt hour (1,000 kWh) generated by a solar energy system. We sell SRECs to utilities and other third parties who use the SRECs to meet renewable portfolio standards and can do so separate from the actual electricity generated by the renewable-based generation source. We account for SRECs generated from solar energy systems owned by us, as opposed to those owned by our customers, as governmental incentives with no costs incurred to obtain them and do not consider those SRECs output of the underlying solar energy systems. We classify SRECs as inventory held until sold and delivered to third parties. We enter into economic hedges with major financial institutions related to expected production of SRECs through forward contracts to partially mitigate the risk of decreases in SREC market rates. While these fixed price forward contracts serve as an economic hedge against spot price fluctuations for the SRECs, the contracts do not qualify for hedge accounting and are not designated as cash flow hedges or fair value hedges. The contracts require us to physically deliver the SRECs upon settlement. We recognize the related revenue upon the transfer of the SRECs to the counterparty. The costs related to the sales of SRECs are generally limited to fees for brokered transactions. Accordingly, the sale of SRECs in a period generally has a favorable impact on our operating results for that period. In certain circumstances we are required to purchase SRECs on the open market to fulfill minimum delivery requirements under our forward contracts.

*Cash Sales.* Cash sales revenue represents revenue from a customer's purchase of a solar energy system from us typically when purchasing a new home. We recognize the related revenue upon verification of the home closing.

*Loan Agreements.* We recognize payments received from customers under loan agreements (a) as interest income, to the extent attributable to earned interest on the contract that financed the customer's purchase of the solar energy system; (b) as a reduction of a note receivable on the balance sheet, to the extent attributable to a return of principal (whether scheduled or prepaid) on the contract that financed the customer's purchase of the solar energy system; and (c) as revenue, to the extent attributable to payments for operations and maintenance services provided by us. Similar to our lease agreements, we provide customers under our loan agreements a performance guarantee that each solar energy system will achieve a certain specified minimum solar energy production output, which is a significant proportion of its expected output.

*Other Revenue.* Other revenue includes certain state and utility incentives, revenue from the direct sale of energy storage systems to customers and sales of service plans. We recognize revenue from state and utility incentives in the periods in which they are earned. We recognize revenue from the direct sale of energy storage systems in the period in which the storage

components are placed in service. Service plans are available to customers whose solar energy system was not originally sold by Sunnova. We recognize revenue from service plan contracts over the life of the contract, which is typically 10 years.

**Cost of Revenue—Depreciation.** Cost of revenue—depreciation represents depreciation on solar energy systems under lease agreements and PPAs that have been placed in service.

**Cost of Revenue—Other.** Cost of revenue—other represents costs related to cash sales, costs to purchase SRECs on the open market, SREC broker fees and other items deemed to be a cost of providing the service of selling power to customers or potential customers, such as certain costs to service loan agreements, costs for filing under the Uniform Commercial Code to maintain title, title searches, credit checks on potential customers at the time of initial contract and other similar costs, typically directly related to the volume of customers and potential customers.

**Operations and Maintenance Expense.** Operations and maintenance expense represents costs from third parties for maintaining and servicing the solar energy systems, property insurance, property taxes and warranties. When services for maintaining and servicing solar energy systems are provided by Sunnova personnel rather than third parties, those amounts are included in payroll costs classified within general and administrative expense. During the years ended December 31, 2021, 2020 and 2019, we incurred \$14.3 million, \$7.4 million and \$4.6 million, respectively, of Sunnova personnel costs related to maintaining and servicing solar energy systems, which are classified in general and administrative expense. In addition, operations and maintenance expense includes write downs and write-offs related to inventory adjustments, gains and losses on disposals and other impairments and impairments due to natural disaster losses net of insurance proceeds recovered under our business interruption and property damage insurance coverage for natural disasters.

**General and Administrative Expense.** General and administrative expense represents costs for our employees, such as salaries, bonuses, benefits and all other employee-related costs, including stock-based compensation, professional fees related to legal, accounting, human resources, finance and training, information technology and software services, marketing and communications, IPO costs, acquisition costs, travel and rent and other office-related expenses. General and administrative expense also includes depreciation on assets not classified as solar energy systems, including information technology software and development projects, vehicles, furniture, fixtures, computer equipment and leasehold improvements and accretion expense on AROs. We capitalize a portion of general and administrative costs, such as payroll-related costs, that is related to employees who are directly involved in the design, construction, installation and testing of the solar energy systems but not directly associated with a particular asset. We also capitalize a portion of general and administrative costs, such as payroll-related costs, that is related to employees who are directly associated with and devote time to internal information technology software and development projects, to the extent of the time spent directly on the application and development stage of such software project.

**Other Operating Income.** Other operating income primarily represents changes in the fair values of certain financial instruments related to our investments in solar receivables and contingent consideration.

**Interest Expense, Net.** Interest expense, net represents interest on our borrowings under our various debt facilities, amortization of debt discounts and deferred financing costs and realized and unrealized gains and losses on derivative instruments.

**Interest Income.** Interest income represents interest income from the notes receivable under our loan program and income on short term investments with financial institutions.

**Loss on Extinguishment of Long-Term Debt, Net.** Loss on extinguishment of long-term debt, net resulted from a make-whole payment related to the early repayment of one of our solar asset-backed notes securitizations. See Note 8, Long-Term Debt, to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

**Other (Income) Expense.** Other (income) expense primarily represents changes in the fair value of certain financial instruments related to non-operating assets.

**Income Tax Expense.** We account for income taxes under Accounting Standards Codification 740, *Income Taxes*. As such, we determine deferred tax assets and liabilities based on temporary differences resulting from the different treatment of items for tax and financial reporting purposes. We measure deferred tax assets and liabilities using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to reverse. Additionally, we must assess the likelihood that deferred tax assets will be recovered as deductions from future taxable income. We have a full valuation allowance on our deferred tax assets because we believe it is more likely than not that our deferred tax assets will not be realized. We evaluate the recoverability of our deferred tax assets on a quarterly basis. The income tax expense includes the effects of taxes incurred in U.S. territories where the tax code for the respective territory may have separate tax reporting

requirements and taxes incurred in states with pass-through entity taxes.

***Net Income (Loss) Attributable to Redeemable Noncontrolling Interests and Noncontrolling Interests.*** Net income (loss) attributable to redeemable noncontrolling interests and noncontrolling interests represents tax equity interests in the net income or loss of certain consolidated subsidiaries based on hypothetical liquidation at book value.

### Revenue

	Year Ended December 31,		Change
	2021	2020	
	(in thousands)		
PPA revenue	\$ 86,087	\$ 65,760	\$ 20,327
Lease revenue	71,784	51,650	20,134
SREC revenue	41,537	35,747	5,790
Cash sales revenue	27,176	—	27,176
Loan revenue	7,768	3,032	4,736
Other revenue	7,400	4,631	2,769
Total	\$ 241,752	\$ 160,820	\$ 80,932

Revenue increased by \$80.9 million in the year ended December 31, 2021 compared to the year ended December 31, 2020 primarily as a result of an increased number of solar energy systems in service and the April 2021 acquisition of SunStreet. The weighted average number of systems (excluding systems with loan agreements and cash sales) increased from approximately 77,900 for the year ended December 31, 2020 to approximately 127,200 for the year ended December 31, 2021. Excluding SREC revenue, revenue under our loan agreements and cash sales revenue, on a weighted average number of

systems basis, revenue decreased from \$1,567 per system for the year ended December 31, 2020 to \$1,299 per system for the same period in 2021 (17% decrease) primarily due to an increase in the number of service-only customers acquired from SunStreet, which generate significantly less revenue per customer. SREC revenue increased by \$5.8 million in the year ended December 31, 2021 compared to the year ended December 31, 2020 primarily as a result of an increase in the number of solar energy systems in service, which resulted in additional SREC production. The fluctuations in SREC revenue from period to period are also affected by the total number of solar energy systems, weather seasonality and hedge and spot prices associated with the timing of the sale of SRECs. On a weighted average number of systems basis, revenues under our loan agreements increased from \$214 per system for the year ended December 31, 2020 to \$282 per system for the same period in 2021 (32% increase) primarily due to (a) higher battery attachment rates and (b) increasing expected battery replacement costs which are included in the loan resulting in larger customer loan balances.

#### ***Cost of Revenue—Depreciation***

	Year Ended December 31,		Change
	2021	2020	
	(in thousands)		
Cost of revenue—depreciation	\$ 76,474	\$ 58,431	\$ 18,043

Cost of revenue—depreciation increased by \$18.0 million in the year ended December 31, 2021 compared to the year ended December 31, 2020. This increase was primarily due to an increase in the weighted average number of systems (excluding systems with loan agreements, service-only agreements and cash sales) from approximately 77,900 for the year ended December 31, 2020 to approximately 101,200 for the year ended December 31, 2021. On a weighted average number of systems basis, cost of revenue—depreciation remained relatively flat at \$750 per system for the year ended December 31, 2020 compared to \$756 per system for the same period in 2021 (1% increase).

#### ***Cost of Revenue—Other***

	Year Ended December 31,		Change
	2021	2020	
	(in thousands)		
Cost of revenue—other	\$ 21,834	\$ 6,747	\$ 15,087

Cost of revenue—other increased by \$15.1 million in the year ended December 31, 2021 compared to the year ended December 31, 2020. This increase was primarily due to costs of \$14.5 million related to cash sales revenue, which began with the April 2021 acquisition of SunStreet.

#### ***Operations and Maintenance Expense***

	Year Ended December 31,		Change
	2021	2020	
	(in thousands)		
Operations and maintenance	\$ 19,583	\$ 16,313	\$ 3,270

Operations and maintenance expense increased by \$3.3 million in the year ended December 31, 2021 compared to the year ended December 31, 2020 primarily due to higher property insurance costs and truck roll costs, offset by lower impairments and losses on disposals and property tax expense. Operations and maintenance expense per weighted average system, excluding net natural disaster losses and non-cash inventory impairments, decreased from \$184 per system for the year ended December 31, 2020 to \$146 per system for the year ended December 31, 2021.

### General and Administrative Expense

	Year Ended December 31,		
	2021	2020	Change
	(in thousands)		
General and administrative	\$ 204,236	\$ 115,148	\$ 89,088

General and administrative expense increased by \$89.1 million in the year ended December 31, 2021 compared to the year ended December 31, 2020 primarily due to increases of (a) \$27.8 million of payroll and employee related expenses primarily due to equity-based compensation expense, the hiring of personnel to support growth and the acquisition of personnel from SunStreet, of which \$6.9 million relates to the growth of our customers and performing additional operations and maintenance work by Sunnova personnel rather than by third parties, (b) \$21.7 million of amortization expense primarily due to the amortization of intangible assets acquired from SunStreet, (c) \$15.7 million of provision for current expected credit losses, (d) \$6.7 million of transaction costs related to acquisition activities and (e) \$6.5 million in consultants, contractors, and professional fees.

### Other Operating Income

Other operating income increased by \$25.4 million in the year ended December 31, 2021 compared to the year ended December 31, 2020 primarily due to the change in the fair value of certain financial instruments and contingent consideration.

### Interest Expense, Net

	Year Ended December 31,		
	2021	2020	Change
	(in thousands)		
Interest expense, net	\$ 116,248	\$ 154,580	\$ (38,332)

Interest expense, net decreased by \$38.3 million in the year ended December 31, 2021 compared to the year ended December 31, 2020. This decrease was primarily due to a decrease in realized losses on interest rate swaps of \$49.0 million due to the termination of certain debt facilities in 2020 and a decrease in amortization of debt discounts of \$5.7 million. These were partially offset by a decrease in unrealized gains on interest rate swaps of \$8.9 million and an increase in amortization of deferred financing costs of \$5.0 million.

### Interest Income

	Year Ended December 31,		
	2021	2020	Change
	(in thousands)		
Interest income	\$ 34,228	\$ 23,741	\$ 10,487

Interest income increased by \$10.5 million in the year ended December 31, 2021 compared to the year ended December 31, 2020. This increase was primarily due to an increase in the weighted average number of systems with loan agreements from approximately 14,200 for the year ended December 31, 2020 to approximately 27,500 for the year ended December 31, 2021. On a weighted average number of systems basis, loan interest income decreased from \$1,637 per system for the year ended December 31, 2020 to \$1,225 per system for the year ended December 31, 2021 primarily due to a decrease in the annual interest rate for new loans due to market conditions.

### Loss on Extinguishment of Long-Term Debt, Net

Loss on extinguishment of long-term debt, net decreased by \$132.9 million in the year ended December 31, 2021 compared to the year ended December 31, 2020 primarily due to the conversion of approximately \$150.8 million aggregate principal amount, including accrued and unpaid interest to the date of each conversion, of our 9.75% convertible senior notes that met the criteria for extinguishment accounting under GAAP during the year ended December 31, 2020, offset by a make-whole

payment related to the early repayment of one of our solar asset-backed notes securitizations during the year ended December 31, 2021.

### ***Income Tax Expense***

Income tax expense increased by \$0.1 million in the year ended December 31, 2021 compared to the year ended December 31, 2020 primarily due to an increase in taxes incurred in jurisdictions with separate tax-reporting requirements.

### ***Net Loss Attributable to Redeemable Noncontrolling Interests and Noncontrolling Interests***

Net loss attributable to redeemable noncontrolling interests and noncontrolling interests decreased by \$46.2 million in the year ended December 31, 2021 compared to the year ended December 31, 2020 primarily due to a decrease in loss attributable to noncontrolling interests from tax equity funds added in 2019.

## **Results of Operations—Year Ended December 31, 2020 Compared to Year Ended December 31, 2019**

See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Results of Operations—Year Ended December 31, 2020 Compared to Year Ended December 31, 2019" in our Annual Report on Form 10-K filed with the SEC on February 25, 2021.

## **Liquidity and Capital Resources**

As of December 31, 2021, we had total cash of \$391.9 million, of which \$243.1 million was unrestricted, and \$411.8 million of available borrowing capacity under our various financing arrangements. We seek to maintain diversified and cost-effective funding sources to finance and maintain our operations, fund capital expenditures, including customer acquisitions, and satisfy obligations arising from our indebtedness. For a discussion of cash requirements from contractual and other obligations, see Note 17, Commitments and Contingencies, to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K. Historically, our primary sources of liquidity included non-recourse and recourse debt, investor asset-backed and loan-backed securitizations and cash generated from operations. Our business model requires substantial outside financing arrangements to grow the business and facilitate the deployment of additional solar energy systems. We will seek to raise additional required capital, including from new and existing tax equity investors, additional borrowings, securitizations and other potential debt and equity financing sources. We believe our cash and financing arrangements, as further described below, will be sufficient to meet our anticipated cash needs for at least the next twelve months. As of December 31, 2021, we were in compliance with all debt covenants under our financing arrangements.

### ***Financing Arrangements***

The following is a description of our various financing arrangements. For a complete description of the facilities in place as of December 31, 2021 see Note 8, Long-Term Debt, to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

### ***Tax Equity Fund Commitments***

As of December 31, 2021, we had undrawn committed capital of approximately \$106.0 million under our tax equity funds, which may only be used to purchase and install solar energy systems. We intend to establish new tax equity funds in the future depending on their attractiveness, including the availability and size of Section 48(a) ITCs and related safe harbors, and on investor demand for such funding. The terms of the tax equity funds' operating agreements contain allocations of taxable income (loss) and Section 48(a) ITCs that vary over time and adjust between the members after either the tax equity investor

receives its contractual rate of return or after a specified date. The following table summarizes our tax equity commitments as of December 31, 2021:

Date Class A Member Admitted	Class A Member Capital Commitment (in thousands)
March 2017	\$ 97,500
December 2017	\$ 45,000
December 2017	\$ 57,000
January 2019	\$ 50,000
August 2019	\$ 75,000
December 2019	\$ 50,000
February 2020	\$ 75,000
May 2020	\$ 155,000
July 2020	\$ 10,000

In February 2022, we admitted a tax equity investor with a total capital commitment of approximately \$150.0 million. For additional information regarding our tax equity fund commitments, see Note 13, Redeemable Noncontrolling Interests and Noncontrolling Interests, to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

#### *Warehouse and Other Debt Financings*

We from time to time enter into warehouse credit facilities as a source of funding. Under the warehouse credit facilities, revolving or term financing is provided to special purpose entities, which are typically our wholly-owned subsidiaries, and secured by qualifying solar energy systems (including, if applicable, energy storage systems) and related solar service agreements. The cash flows generated by these solar service agreements are used to cover required debt service payments under the related credit facility and satisfy the expenses and reserve requirements of the special purpose entities. The warehouse credit facilities allow for the pooling and transfer of eligible solar energy systems and related solar service agreements on a non-recourse basis to the subsidiary or us, subject to certain limited exceptions. In connection with these warehouse credit facilities, certain of our affiliates receive a fee for managing and servicing the solar energy systems pursuant to management and servicing agreements. The special purpose entities are also typically required to maintain reserve accounts, including a liquidity reserve account and a reserve account for equipment replacements, each of which are funded from initial deposits or cash flows to the levels specified therein.

The warehouse credit facility structures include certain features designed to protect lenders. One of the common primary features relates to certain events, such as the insufficiency of cash flows in the collateral pool of assets to meet contractual requirements, the occurrence of which triggers an early repayment of the loans and limits the relevant borrower's ability to obtain additional advances or distribute funds to us. We refer to this as an "amortization event", which may be based on, among other things, a debt service coverage ratio falling or remaining below certain levels, default levels of solar assets exceeding certain thresholds or excess spread falling below certain levels over a multiple month period. In the event of an amortization event, the availability period under a revolving warehouse credit facility may terminate and the borrower may be required to repay the affected outstanding borrowings using available collections received from the asset pool. However, the period of ultimate repayment would be determined by the amount and timing of collections received. An amortization event would impair our liquidity and may require us to utilize our other available contingent liquidity or rely on alternative funding sources, which may or may not be available at the time. The debt agreements of our warehouse credit facilities also typically contain customary events of default for solar warehouse financings that entitle the lenders to take various actions, including the acceleration of

amounts due under the related debt agreement and foreclosure on the borrower's assets.

In April 2017, one of our subsidiaries entered into a secured revolving credit facility with Credit Suisse AG, New York Branch, as administrative agent, and the lenders party thereto. The credit facility was amended and restated in March 2019 and further amended in September 2019, December 2019, January 2020, March 2020, September 2020 and March 2021. Under the amended credit facility, the subsidiary may borrow up to \$350.0 million, subject to a borrowing base calculated based on a specified advance rate applied to the net outstanding principal balance of the solar loans securing the credit facility. The proceeds of the loans under the credit facility are available for funding the purchase of solar loans, making deposits in the subsidiary's reserve accounts and paying fees in connection with the credit facility. The credit facility bears interest at an annual rate of adjusted LIBOR plus an applicable margin. The credit facility has a maturity date occurring in November 2023. Sunnova Energy Corporation guarantees the performance obligations of certain affiliates under agreements entered into in connection with the credit facility, as well as certain indemnity and refund obligations. In June 2020, we used proceeds from the HELIV Notes (as defined below) to repay \$149.3 million in aggregate principal amount outstanding. In October 2020, we used proceeds from another credit facility entered into in September 2020 to repay \$28.0 million in aggregate principal amount outstanding. In February 2021, we used proceeds from the HELV Notes (as defined below) to repay \$107.3 million in aggregate principal amount outstanding. In July 2021, we used proceeds from the HELVI Notes (as defined below) to repay \$144.0 million in aggregate principal amount outstanding. As of December 31, 2021, we had \$10.0 million of available borrowing capacity under the credit facility.

In September 2019, one of our subsidiaries entered into a secured revolving credit facility with Credit Suisse AG, New York Branch, as administrative agent, and the lenders party thereto. The credit facility was amended in December 2019 and further amended in January 2020, February 2020, March 2020, May 2020, June 2020, October 2020, November 2020, January 2021, September 2021 and October 2021. Under the amended credit facility, the subsidiary may borrow up to an initial \$460.7 million with a maximum facility amount of \$600.0 million based on the aggregate value of solar assets owned by the borrower's subsidiaries, which are primarily tax equity funds, subject to certain concentration limitations. The proceeds from the credit facility are available for funding certain reserve accounts required by the credit facility, making distributions to us and paying fees incurred in connection with closing the credit facility. The credit facility bears interest at an annual rate of adjusted LIBOR plus a weighted average margin of 4.15%. The credit facility has a maturity date occurring in November 2022. Sunnova Energy Corporation guarantees the performance obligations of certain affiliates under agreements entered into in connection with the credit facility, as well as certain indemnity and repurchase obligations. In November 2020, we used proceeds from the SOLII Notes (as defined below) to repay \$211.5 million in aggregate principal amount outstanding. In June 2021, we used proceeds from the SOLIII Notes (as defined below) to repay \$105.1 million in aggregate principal amount outstanding. As of December 31, 2021, we had \$341.8 million of available borrowing capacity under the credit facility.

In December 2019, one of our subsidiaries entered into a secured revolving credit facility with Credit Suisse AG, New York Branch, as administrative agent, and the lenders party thereto. The credit facility was amended in September 2020 and November 2020. Under the credit facility, the subsidiary could borrow up to an initial \$95.2 million with a maximum facility amount of \$137.6 million, subject to lender consent and certain other conditions. The proceeds from the credit facility were available for purchasing certain eligible equipment the borrower intends will allow certain related solar energy systems to qualify for the 30% Section 48(a) ITC by satisfying the 5% ITC Safe Harbor outlined in IRS Notice 2018-59, funding a reserve account required by the credit facility and paying fees incurred in connection with closing the credit facility. The credit facility bore interest at an annual rate of either LIBOR divided by a percentage equal to 100% minus a reserve percentage or a base rate, plus an applicable margin. The credit facility had a maturity date occurring in December 2022. Sunnova Energy Corporation guaranteed the performance obligations of certain affiliates under agreements entered into in connection with the credit facility and also provided a limited payment guarantee in respect of the borrower's obligations under the credit facility that was subject to a cap of \$9.5 million, which equates to 10% of the initial commitments. The availability period for additional borrowings under the credit facility ended in December 2020. In May 2021, we used proceeds from the 0.25% convertible senior notes to fully repay the aggregate principal amount outstanding of \$48.2 million and the credit facility was terminated.

In September 2020, one of our subsidiaries entered into a secured revolving credit facility with Banco Popular de Puerto Rico. Under the credit facility, the subsidiary may borrow up to \$60.0 million, subject to a borrowing base calculated based on a specified advance rate applied to the net outstanding principal balance of the solar loans securing the credit facility. The proceeds of the loans under the credit facility are available for funding the purchase of solar loans, making deposits in the subsidiary's reserve account and paying fees in connection with the credit facility. The credit facility bears interest at an annual rate of adjusted LIBOR plus an applicable margin. The credit facility has a maturity date occurring in September 2023. Sunnova Energy Corporation guarantees the performance obligations of certain affiliates under agreements entered into in connection with the credit facility. In February 2021, we used proceeds from the HELV Notes (as defined below) to repay \$29.5 million in aggregate principal amount outstanding. In July 2021, we used proceeds from the HELVI Notes (as defined below) to repay

\$24.9 million in aggregate principal amount outstanding. As of December 31, 2021, we had \$60.0 million of available borrowing capacity under the credit facility.

In April 2021, in connection with the Acquisition, we entered into an arrangement to finance the purchase of \$29.0 million of inventory at an annual interest rate of 6.00% plus LIBOR (or acceptable replacement index) over twelve months (the "MR Note"). In August 2021, the aggregate principal amount of the MR Note was increased to \$32.3 million as part of the purchase price adjustments. In August 2021, the aggregate principal amount outstanding under the MR Note of \$23.7 million was fully repaid.

#### *Securitizations*

We from time to time securitize solar service agreements and related assets as a source of funding. We access the Rule 144A asset-backed securitization market using wholly-owned special purpose entities to securitize pools of assets, which historically have been solar energy systems and the related lease agreements and PPAs and ancillary rights and agreements both directly or indirectly through interests in the managing member of our tax equity funds. We also securitize our loan agreements and ancillary rights and agreements.

In April 2017, one of our subsidiaries issued \$191.8 million in aggregate principal amount of Series 2017-1 Class A solar asset-backed notes, \$18.0 million in aggregate principal amount of Series 2017-1 Class B solar asset-backed notes, and \$45.0 million in aggregate principal amount of 2017-1 Class C solar asset-backed notes (collectively, the "HELI Notes") with a maturity date of September 2049. The HELI Notes bore interest at an annual rate of 4.94%, 6.00% and 8.00% for the Class A, Class B and Class C notes, respectively. In June 2021, we used proceeds from the SOLIII Notes (as defined below) to fully repay the aggregate principal amount outstanding of \$205.7 million.

In November 2018, one of our subsidiaries issued \$202.0 million in aggregate principal amount of Series 2018-1 Class A solar asset-backed notes and \$60.7 million in aggregate principal amount of Series 2018-1 Class B solar asset-backed notes (collectively, the "HELII Notes") with a maturity date of July 2048. The HELII Notes bear interest at an annual rate of 4.87% and 7.71% for the Class A and Class B notes, respectively.

In March 2019, one of our subsidiaries entered into a note purchase agreement pursuant to which certain institutional investors committed to purchase up to \$358.0 million principal amount of notes ("RAYSI Notes") in one or more asset-backed private placement securitizations. In February 2020, one of our subsidiaries issued \$337.1 million in aggregate principal amount of Series 2020-1 Class A solar asset-backed notes and \$75.4 million in aggregate principal amount of Series 2020-1 Class B solar asset-backed notes (collectively, the "SOLI Notes") with a maturity date of January 2055. The SOLI Notes bear interest at an annual rate of 3.35% and 5.54% for the Class A and Class B notes, respectively.

In June 2020, one of our subsidiaries issued \$135.9 million in aggregate principal amount of Series 2020-A Class A solar loan-backed notes and \$22.6 million in aggregate principal amount of Series 2020-A Class B solar loan-backed notes (collectively, the "HELIV Notes") with a maturity date of June 2047. The HELIV Notes bear interest at an annual rate of 2.98% and 7.25% for the Class A and Class B notes, respectively.

In November 2020, one our subsidiaries issued \$209.1 million in aggregate principal amount of Series 2020-2 Class A solar asset-backed notes and \$45.6 million in aggregate principal amount of Series 2020-2 Class B solar asset-backed notes (collectively, the "SOLII Notes") with a maturity date of November 2055. The SOLII Notes bear interest at an annual rate of 2.73% and 5.47% for the Class A and Class B notes, respectively.

In February 2021, one of our subsidiaries issued \$150.1 million in aggregate principal amount of Series 2021-A Class A solar loan-backed notes and \$38.6 million in aggregate principal amount of Series 2021-A Class B solar loan-backed notes (collectively, the "HELV Notes") with a maturity date of February 2048. The HELV Notes bear interest at an annual rate of

1.80% and 3.15% for the Class A and Class B notes, respectively.

In June 2021, one of our subsidiaries issued \$319.0 million in aggregate principal amount of Series 2021-1 solar asset-backed notes (the "SOLIII Notes") with a maturity date of April 2056. The SOLIII Notes bear interest at an annual rate of 2.58%.

In July 2021, one of our subsidiaries issued \$106.2 million in aggregate principal amount of Series 2021-B Class A solar loan-backed notes and \$106.2 million in aggregate principal amount of Series 2021-B Class B solar loan-backed notes (collectively the "HELVI Notes") with a maturity date of July 2048. The HELVI Notes bear interest at an annual rate of 1.62% and 2.01% for the Class A and Class B notes, respectively.

In October 2021, one of our subsidiaries issued \$68.4 million in aggregate principal amount of Series 2021-C Class A solar loan-backed notes, \$55.9 million in aggregate principal amount of Series 2021-C Class B solar loan-backed notes and \$31.5 million in aggregate principal amount of Series 2021-C Class C solar loan-backed notes with a maturity date of October 2048. The HELVII Notes bear interest at an annual rate of 2.03%, 2.33% and 2.63% for the Class A, Class B and Class C notes, respectively.

The HELVIII Notes will bear interest at an annual rate of 2.79%, 3.13% and 3.53% for the Class A, Class B and Class C notes, respectively. The transaction is expected to close on or about February 24, 2022, subject to customary closing conditions.

The securitization structures include certain features designed to protect investors. The primary feature relates to the availability and adequacy of cash flows in the securitized pool of assets to meet contractual requirements, the insufficiency of which triggers an early repayment of the notes. We refer to this as "early amortization", which may be based on, among other things, a debt service coverage ratio falling or remaining below certain levels. As of December 31, 2021, we have not had any early amortizations under any of our securitizations. In the event of an early amortization, the notes issuer would be required to repay the affected outstanding securitized borrowings using available collections received from the asset pool. However, the period of ultimate repayment would be determined based on the amount and timing of collections received and, in limited circumstances, early amortization may be cured prior to full repayment. An early amortization event would impair our liquidity and may require us to utilize our available non-securitization related contingent liquidity or rely on alternative funding sources, which may or may not be available at the time. The indentures of our securitizations also typically contain customary events of default for solar securitizations that may entitle the noteholders to take various actions, including the acceleration of amounts due under the related indenture and foreclosure on the issuer's assets.

#### *Senior Notes*

During the year ended December 31, 2020, certain of the holders of our 9.75% convertible senior notes ("9.75% convertible senior notes") converted approximately \$150.8 million aggregate principal amount, including accrued and unpaid interest to the date of each conversion, of our 9.75% convertible senior notes into 11,168,874 shares of our common stock. During the year ended December 31, 2021, the remaining holders of our 9.75% convertible senior notes converted approximately \$97.1 million aggregate principal amount, including accrued and unpaid interest to the date of each conversion, of our 9.75% convertible senior notes into 7,196,035 shares of our common stock. As such, there are no longer any 9.75% convertible senior notes outstanding.

In May 2021, we issued and sold an aggregate principal amount of \$575.0 million of our 0.25% convertible senior notes ("0.25% convertible senior notes") in a private placement at a discount to the initial purchasers of 2.5%, for an aggregate purchase price of \$560.6 million. The 0.25% convertible senior notes mature in December 2026 unless earlier redeemed, repurchased or converted. In connection with the pricing of the 0.25% convertible senior notes, we used proceeds of \$91.7 million to enter into privately negotiated capped call transactions, which are expected to reduce the potential dilution to common shares and/or offset potential cash payments that could be required to be made in excess of the principal amount upon any exchange of notes. Such reduction and/or offset is subject to a cap initially equal to \$60.00 per share, subject to adjustments.

In August 2021, we issued and sold an aggregate principal amount of \$400.0 million of our 5.875% senior notes ("5.875% senior notes") in a private placement at a discount to the initial purchasers of 1.24%, for an aggregate purchase price of \$395.0 million. The 5.875% senior notes mature in September 2026.

- (1) Does not include amounts related to the contingent obligation to purchase all of a tax equity investor's units upon exercise of their withdrawal rights. The withdrawal price for the tax equity investors' interest in the respective fund is equal to the sum of: (a) any unpaid, accrued priority return and (b) the lesser of: (i) a fixed price and (ii) the fair market value of such interest at the date the option is exercised. Due to uncertainties associated with estimating the timing and amount of the withdrawal price, we cannot determine the potential future payments that we could have to make under these withdrawal rights. For additional information regarding the withdrawal rights see Note 13, Redeemable Noncontrolling Interests and Noncontrolling Interests, to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.
- (2) Interest payments related to long-term debt and interest rate swaps are calculated and estimated for the periods presented based on the amount of debt outstanding and the interest rates as of December 31, 2021.
- (3) Includes reimbursements of approximately \$847,000 for leasehold improvements expected in 2022 through 2024.
- (4) Other obligations relate to information technology services and licenses and distributions payable to redeemable noncontrolling interests.

### Historical Cash Flows—Year Ended December 31, 2021 Compared to Year Ended December 31, 2020

The following table summarizes our cash flows for the periods indicated:

	Year Ended December 31,		Change
	2021	2020	
	(in thousands)		
Net cash used in operating activities	\$ (209,230)	\$ (131,466)	\$ (77,764)
Net cash used in investing activities	(1,241,216)	(829,519)	(411,697)
Net cash provided by financing activities	1,464,450	1,188,587	275,863
Net increase in cash and restricted cash	\$ 14,004	\$ 227,602	\$ (213,598)

### Operating Activities

Net cash used in operating activities increased by \$77.8 million in the year ended December 31, 2021 compared to the year ended December 31, 2020. This increase is primarily a result of increases in purchases of inventory and prepaid inventory of \$102.4 million and payments to dealers for exclusivity and other bonus arrangements of \$3.0 million. This increase is offset by an increase in net inflows of \$17.4 million in 2021 compared to net outflows of \$57.3 million in 2020 based on: (a) our net loss of \$147.5 million in 2021 excluding non-cash operating items of \$164.9 million, primarily from depreciation, impairments and losses on disposals, amortization of intangible assets, amortization of deferred financing costs and debt discounts, unrealized net gains on derivatives, unrealized net gains on fair value instruments, losses on extinguishment of long-term debt and equity-based compensation charges, which results in net outflows of \$17.4 million and (b) our net loss of \$307.8 million in

2020 excluding non-cash operating items of \$250.5 million, primarily from depreciation, impairments and losses on disposals, amortization of deferred financing costs and debt discounts, unrealized net gains on derivatives, unrealized net gains on fair value instruments, losses on extinguishment of long-term debt and equity-based compensation charges, which results in net outflows of \$57.3 million. These net differences between the two periods resulted in a net change in operating cash flows of \$74.7 million in 2021 compared to 2020.

### ***Investing Activities***

Net cash used in investing activities increased by \$411.7 million in the year ended December 31, 2021 compared to the year ended December 31, 2020. This increase is primarily a result of increases in payments for investments and customer notes receivable of \$443.7 million (\$728.9 million in 2021 compared to \$285.2 million in 2020) and payments for investments in solar receivables of \$32.2 million in 2021. This increase is partially offset by purchases of property and equipment, primarily solar energy systems, of \$23.8 million (\$554.5 million in 2021 compared to \$578.4 million in 2020) and proceeds from customer notes receivable of \$66.9 million (of which \$48.8 million was prepaid) in 2021 compared to \$35.5 million (of which \$28.2 million was prepaid) in 2020.

### ***Financing Activities***

Net cash provided by financing activities increased by \$275.9 million in the year ended December 31, 2021 compared to the year ended December 31, 2020. This increase is primarily a result of increases in net borrowings under our debt facilities of \$571.3 million (\$1.3 billion in 2021 compared to \$682.9 million in 2020) and net contributions from our redeemable noncontrolling interests and noncontrolling interests of \$20.5 (\$334.3 million in 2021 compared to \$313.7 million in 2020). This increase is partially offset by proceeds from the issuance of common stock of \$10.5 million in 2021 compared to \$152.3 million in 2020, the purchase of capped call transactions of \$91.7 million in 2021 and net proceeds from the equity component of a debt instrument of \$73.7 million in 2020.

### **Historical Cash Flows—Year Ended December 31, 2020 Compared to Year Ended December 31, 2019**

See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Historical Cash Flows—Year Ended December 31, 2020 Compared to Year Ended December 31, 2019" in our Annual Report on Form 10-K filed with the SEC on February 25, 2021 pursuant to the Securities Exchange Act of 1934, as amended.

### **Critical Accounting Policies and Estimates**

Our discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP which requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses, cash flows and related disclosures. We base our estimates on historical experience and on various other assumptions we believe to be reasonable under the circumstances. In many instances, we could have reasonably used different accounting estimates, and in other instances, changes in the accounting estimates are reasonably likely to occur from period-to-period. Actual results may differ from these estimates. Our future consolidated financial statements will be affected to the extent our actual results materially differ from these estimates.

We identify our most critical accounting policies as those that are the most pervasive and important to the portrayal of our financial position and results of operations, and that require the most difficult, subjective, and/or complex judgments by management regarding estimates about matters that are inherently uncertain. We believe the assumptions and estimates associated with our principles of consolidation, the valuation of assets acquired and liabilities assumed in acquisitions, the estimated useful life of our solar energy systems, the valuation of the removal assumptions, including costs, associated with AROs, the valuation of redeemable noncontrolling interests and noncontrolling interests and our allowance for current expected credit losses have the greatest subjectivity and impact on our consolidated financial statements. Therefore, we consider these to be our critical accounting policies and estimates and discuss these items in detail below. See Note 2, Significant Accounting Policies, to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further discussion of our accounting policies.

### ***Principles of Consolidation***

Our consolidated financial statements reflect our accounts and those of our subsidiaries in which we have a controlling financial interest. The typical condition for a controlling financial interest is holding a majority of the voting interests of an entity. However, a controlling financial interest may also exist in entities, such as variable interest entities ("VIEs"), through arrangements that do not involve holding a majority of the voting interests. We consolidate any VIE of which we are the primary beneficiary, which is defined as the party that has (a) the power to direct the activities of a VIE that most significantly impact the VIE's economic performance and (b) the obligation to absorb losses or receive benefits from the VIE that could potentially be significant to the VIE. We evaluate our relationships with our VIEs on an ongoing basis to determine whether we continue to be the primary beneficiary. We have eliminated all intercompany transactions in consolidation.

### ***Acquisitions***

Business combinations are accounted for using the acquisition method of accounting. The purchase price of an acquisition is measured at the estimated fair value of the assets acquired, equity instruments issued and liabilities assumed at the acquisition date. Any noncontrolling interests acquired are also initially measured at fair value. Costs that are directly attributable to the acquisition are expensed as incurred to general and administrative expense. We recognize goodwill if the aggregate fair value of the total purchase consideration and the noncontrolling interests is in excess of the aggregate fair value of the assets acquired and liabilities assumed.

Asset acquisitions are measured based on the cost to us, including transaction costs. Asset acquisition costs, or the consideration transferred by us, are assumed to be equal to the fair value of the net assets acquired. If the consideration transferred is cash, measurement is based on the amount of cash we paid to the seller, as well as transaction costs incurred. Consideration given in the form of non-monetary assets, liabilities incurred or equity instruments issued is measured based on either the cost to us or the fair value of the assets or net assets acquired, whichever is more clearly evident. The cost of an asset acquisition is allocated to the assets acquired based on their estimated fair values. Goodwill is not recognized in an asset acquisition.

The fair values of the assets acquired and liabilities assumed are based on a complex series of judgments about future events and uncertainties and rely heavily on estimates and assumptions. Significant estimates include, but are not limited to, discount rates, forecasted cash flows, forecasted customer growth and earnout consideration. These estimates are inherently uncertain and unpredictable.

### ***Useful Life of Solar Energy Systems***

Our solar energy systems have an estimated useful life of 35 years. We considered both (a) available information related to the technology currently being employed in the solar energy systems and (b) the terms of the solar leases that have a 25 year term with two five-year renewal options to conclude a 35 year useful life is appropriate. In addition, we reviewed numerous published and online sources from academia, government institutions and private industry and held discussions with certain manufacturers of our solar energy systems to support our estimated useful life of 35 years for the crystalline silicone solar modules we use. We define the useful life of a solar module as the duration for which a solar module operates at or above 80% of its initial power output, which we understand to be the generally accepted standard used by government, academia and the solar industry.

Depreciation and amortization of solar energy systems are calculated using the straight-line method over the estimated useful lives of the solar energy systems and are recorded in cost of revenue—depreciation. Depreciation begins when a solar energy system is placed in service. Costs associated with improvements to a solar energy system, which extend the life, increase the capacity or improve the efficiency of the solar energy systems, are capitalized and depreciated over the remaining life of the asset.

### ***ARO***

We have AROs arising from contractual or regulatory requirements to perform certain asset retirement activities at the time the solar energy systems are disposed. We recognize an ARO at the point an obligating event takes place, typically when the solar energy system is placed in service. An asset is considered retired when it is permanently taken out of service, such as through a sale or disposal.

The liability is initially measured at fair value based on the present value of estimated removal costs and subsequently adjusted for changes in the underlying assumptions and for accretion expense. We estimate approximately half of our solar

energy systems will require removal at our expense in the future. The corresponding asset retirement costs are capitalized as part of the carrying amount of the solar energy system and depreciated over the solar energy system's remaining useful life. We may revise our estimated future liabilities based on recent actual experiences, changes in certain customer-specific estimates and other cost estimate changes. If there are changes in estimated future costs, those changes will be recorded as either a reduction or addition in the carrying amount of the remaining unamortized asset and the ARO and either decrease or increase depreciation and accretion expense amounts prospectively. Inherent in the calculation of the fair value of our AROs are numerous assumptions and judgments, including the ultimate settlement amounts, inflation factors, credit adjusted discount rates, timing of settlement and changes in the legal, regulatory, environmental and political environments. Due to the intrinsic uncertainties present when estimating asset retirement costs, as well as asset retirement dates, our ARO estimates are subject to ongoing volatility.

#### ***Redeemable Noncontrolling Interests and Noncontrolling Interests***

Noncontrolling interests represent third-party interests in the net assets of certain consolidated subsidiaries (the "tax equity entities"). For these tax equity entities, we have determined the appropriate methodology for calculating the noncontrolling interest balances that reflects the substantive economic arrangements in the operating agreements is a balance sheet approach using the hypothetical liquidation at book value ("HLBV") method. Under the HLBV method, the amounts reported as noncontrolling interests in the consolidated balance sheets represent the amounts third-party investors would hypothetically receive at each balance sheet date under the liquidation provisions of the operating agreements, assuming the net assets of the subsidiaries were liquidated at amounts determined in accordance with GAAP and distributed to the investors. The noncontrolling interest balances in these subsidiaries are reported as a component of equity in the consolidated balance sheets. The amount of income or loss allocated to noncontrolling interests in the results of operations for the subsidiaries using HLBV are determined as the difference in the noncontrolling interest balances in the consolidated balance sheets at the start and end of each reporting period, after taking into account any capital transactions between the subsidiaries and the third-party investors. Factors used in the HLBV calculation include GAAP income (loss), taxable income (loss), capital contributions, investment tax credits, distributions and the stipulated targeted investor return specified in the subsidiaries' operating agreements. Changes in these factors could have a significant impact on the amounts that investors would receive upon a hypothetical liquidation. The use of the HLBV method to allocate income (loss) to the noncontrolling interest holders may create volatility in the consolidated statements of operations as the application of HLBV can drive changes in net income or loss attributable to noncontrolling interests from period to period. We classify certain noncontrolling interests with redemption features that are not solely within our control outside of permanent equity in the consolidated balance sheets. Redeemable noncontrolling interests are reported using the greater of the carrying value at each reporting date as determined by the HLBV method or the estimated redemption value at the end of each reporting period. Estimating the redemption value of the redeemable noncontrolling interests requires the use of significant assumptions and estimates, such as projected future cash flows.

#### ***Current Expected Credit Losses***

Our allowance for current expected credit losses is deducted from the customer notes receivable amortized cost to present the net amount expected to be collected. It is measured on a collective (pool) basis when similar risk characteristics (such as financial asset type, customer credit rating, contractual term and vintage) exist. In determining the allowance for credit losses, we identify customers with potential disputes or collection issues and consider our historical level of credit losses and current economic trends that might impact the level of future credit losses. Adjustments to historical loss information are made for differences in current loan-specific risk characteristics, such as differences in underwriting standards. Expected credit losses are estimated over the contractual term of the loan agreements based on the best available data at the time, and are adjusted for expected prepayments when appropriate. The contractual term excludes expected extensions, renewals and modifications unless either of the following applies: (a) we have a reasonable expectation at the reporting date that a troubled debt restructuring will be executed with an individual customer or (b) the extension or renewal options are included in the original or modified contract at the reporting date and are not unconditionally cancelable by us. We review the allowance quarterly for any significant macroeconomic trends affecting the market but not yet impacting us. Assessments performed throughout the year include normal macroeconomic trends (e.g. delinquency and default and loss rates from leading credit bureaus by industry) as well as trends specifically related to the COVID-19 pandemic (e.g. forbearance and credit quality). While making adjustments to loss rates is ultimately a subjective determination, we have created an internal and external data-driven evaluation process to ensure any adjustments or updates to the model are informed and fact-based prior to executing such a change.

#### ***Recent Accounting Pronouncements***

See Note 2, Significant Accounting Policies, to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

**Item 7A. Quantitative and Qualitative Disclosures About Market Risk.**

We are exposed to various market risks in the ordinary course of our business. Market risk is the potential loss that may result from market changes associated with our business or with an existing or forecasted financial or commodity transaction. Our primary exposure includes changes in interest rates because certain borrowings bear interest at floating rates based on LIBOR or a similar index plus a specified margin. We sometimes manage our interest rate exposure on floating-rate debt by entering into derivative instruments to hedge all or a portion of our interest rate exposure on certain debt facilities. We do not enter into any derivative instruments for trading or speculative purposes. Changes in economic conditions could result in higher interest rates, thereby increasing our interest expense and operating expenses and reducing funds available to capital investments, operations and other purposes. A hypothetical 10% increase in our interest rates on our variable-rate debt facilities would have increased our interest expense by \$1.7 million and \$2.6 million for the years ended December 31, 2021 and 2020, respectively.

## **Report of Independent Registered Public Accounting Firm**

To the Board of Directors and Stockholders of Sunnova Energy International Inc.

### ***Opinions on the Financial Statements and Internal Control over Financial Reporting***

We have audited the accompanying consolidated balance sheets of Sunnova Energy International Inc. and its subsidiaries (the "Company") as of December 31, 2021 and 2020, and the related consolidated statements of operations, of redeemable noncontrolling interests and equity and of cash flows for each of the three years in the period ended December 31, 2021, including the related notes and financial statement schedule as of December 31, 2021 and 2020 and for each of the three years in the period ended December 31, 2021 listed in the accompanying index (collectively referred to as the "consolidated financial statements"). We also have audited the Company's internal control over financial reporting as of December 31, 2021, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2021 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

### ***Basis for Opinions***

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As described in Management's Report on Internal Control over Financial Reporting, management has excluded SunStreet Energy Group, LLC ("SunStreet") from its assessment of internal control over financial reporting as of December 31, 2021, because it was acquired by the Company in a purchase business combination during 2021. We have also excluded SunStreet from our audit of internal control over financial reporting. SunStreet is a wholly-owned subsidiary whose total assets and total revenues excluded from management's assessment and our audit of internal control over financial reporting represent approximately \$89.7 million and \$31.0 million, respectively, of the related consolidated financial statement amounts as of and for the year ended December 31, 2021.

### ***Definition and Limitations of Internal Control over Financial Reporting***

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally

accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### ***Critical Audit Matters***

The critical audit matters communicated below are matters arising from the current period audit of the consolidated financial statements that were communicated or required to be communicated to the audit committee and that (i) relate to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

#### ***Acquisition of SunStreet Energy Group, LLC – Fair Value of Solar System Sales Customer Relationships Intangible Asset and Certain Contingent Consideration***

As described in Note 11 to the consolidated financial statements, the Company completed the acquisition of SunStreet Energy Group, LLC for total purchase consideration of approximately \$218.6 million in April 2021, which resulted in approximately \$145.5 million of intangible assets for customer relationships for solar system sales and \$90.4 million of contingent consideration substantially related to an installation earnout being recorded. Management estimated the fair value of the customer relationships for solar system sales using the multi-period excess earnings method. For contingent consideration, management estimated the fair value of the installation earnout using the Monte Carlo model. As disclosed by management, these significant estimates include, but are not limited to, input related to discount rates, forecasted cash flows, forecasted customer growth and earnout consideration.

The principal considerations for our determination that performing procedures relating to the acquired SunStreet Energy Group, LLC solar system sales customer relationships and installation earnout contingent consideration is a critical audit matter are the significant judgment by management when estimating the fair value of the customer relationships and the installation earnout, which in turn led to a high degree of auditor judgment, subjectivity, and effort in performing procedures and evaluating management's significant assumptions related to forecasted customer growth and discount rate for the customer relationships and discount rate related to the installation earnout. In addition, the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the acquisition accounting, including controls over management's valuation and development of significant assumptions related to the solar system sales customer relationships and the installation earnout contingent consideration, and the completeness and accuracy of the data utilized by management. These procedures also included, among others, (i) reading the purchase agreement and (ii) testing management's process for estimating the fair value of the solar system sales customer relationships and the installation earnout contingent consideration. Testing management's process included (i) evaluating the appropriateness of the valuation methods, and (ii) evaluating the reasonableness of significant assumptions related to forecasted customer growth and discount rate for the solar system sales customer relationships and discount rate related to the installation earnout contingent consideration. Evaluating the reasonableness of the forecasted customer growth included considering the historical performance of the business as well as external market and industry forecasts. Professionals with specialized skill and knowledge were used to assist in the evaluation of the Company's valuation methods and the significant assumption related to the discount rates utilized.

#### ***Initial Accounting Assessment of New Tax Equity Partnerships (TEPs)***

As described in Notes 1, 2, and 13 to the consolidated financial statements, the Company admitted tax equity investors of TEPVD, TEPVA, TEPVB, TEPVC, TEPVE and TEP6A through a TEP structure in 2021. As of December 31, 2021, the

Company had approximately \$145.3 million of redeemable noncontrolling interest and \$286.8 million of noncontrolling interest, a portion of which relates to these TEPs. The Company forms TEPs with its investors in the ordinary course of business to facilitate the funding and monetization of certain attributes associated with the Company's solar energy systems. The typical condition for a controlling financial interest is holding a majority of the voting interests of an entity. However, a controlling financial interest may also exist in entities, such as variable interest entities (VIEs), through arrangements that do not involve holding a majority of the voting interests. The Company consolidates a VIE when it is the primary beneficiary, which is defined as the party that has (a) the power to direct the activities of the VIE that most significantly impact the VIE's economic performance and (b) the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE. As disclosed by management, assets, liabilities and operating results of these partnerships are consolidated in the financial statements. The tax equity investors' share of the net assets of these tax equity funds are recognized as redeemable noncontrolling interests and noncontrolling interests in the consolidated balance sheet. Additionally, management has determined that the appropriate methodology for calculating the noncontrolling interest balances that reflects the substantive economic arrangements in the operating agreements is a balance sheet approach using the hypothetical liquidation at book value ("HLBV") method.

The principal considerations for our determination that performing procedures relating to the initial accounting assessment of new TEP arrangements is a critical audit matter are the significant judgment by management in the assessment of whether the Company is the primary beneficiary of the TEP, thus requiring consolidation of the entity, as well as the application of the HLBV methodology based on the terms of the operating agreements in the initial year, which in turn led to a high degree of auditor judgment, subjectivity, and effort in performing procedures and evaluating the initial accounting assessment of whether the Company is the primary beneficiary of the new TEP and the application of the HLBV methodology based on the substantive economic arrangements of the TEP operating agreements. In addition, the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to management's assessment of the initial accounting for the new TEPs. These procedures also included, among others, using professionals with specialized skill and knowledge to (i) evaluate the appropriateness of management's application of the HLBV methodology based on the substantive economic arrangements of the TEP operating agreements and (ii) evaluate management's assessment of whether the Company qualifies as the primary beneficiary of the TEP, and therefore consolidates the TEP.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### (1) Description of Business and Basis of Presentation

We are a leading residential energy service provider, serving over 195,000 customers in more than 25 United States ("U.S.") states and territories. Sunnova Energy Corporation was incorporated in Delaware on October 22, 2012 and formed Sunnova Energy International Inc. ("SEI") as a Delaware corporation on April 1, 2019. We completed our initial public offering on July 29, 2019 (our "IPO"); and in connection with our IPO, all of Sunnova Energy Corporation's ownership interests were contributed to SEI. Unless the context otherwise requires, references in this report to "Sunnova," the "Company," "we," "our," "us," or like terms, refer to SEI and its consolidated subsidiaries.

We have a differentiated residential solar dealer model in which we partner with local dealers who originate, design and install our customers' solar energy systems and energy storage systems on our behalf. Our focus on our dealer model enables us to leverage our dealers' specialized knowledge, connections and experience in local markets to drive customer origination while providing our dealers with access to high quality products at competitive prices, as well as technical oversight and expertise. We believe this structure provides operational flexibility, reduces exposure to labor shortages and lowers fixed costs relative to our peers, furthering our competitive advantage.

Our recently completed acquisition of SunStreet Energy Group, LLC, a Delaware limited liability company ("SunStreet"), focuses primarily on solar energy systems and energy storage systems for homebuilders. We believe the acquisition provides a new strategic path to further scale our residential solar business, reduces customer acquisition costs, provides a multi-year supply of homesites through the development of new home solar communities and allows us to pursue the development of clean and resilient residential microgrids across the U.S.

We provide our services through long-term residential solar service agreements with a diversified pool of credit quality customers. Our solar service agreements typically are structured as either a legal-form lease (a "lease") of a solar energy system or energy storage system to the customer, the sale of the solar energy system's output to the customer under a power purchase agreement ("PPA") or the purchase of a solar energy system or energy storage system with financing provided by us (a "loan"); however, we also offer service plans for systems previously originated by our competitors. We make it possible in some states for a customer to obtain a new roof and other ancillary products as part of their solar loan. We also allow customers originated through our homebuilder channel the option of purchasing the system when the customer closes on the purchase of a new home. The initial term of our solar service agreements is typically between 10 and 25 years, during which time we provide or arrange for ongoing services to customers, including monitoring, maintenance and warranty services. Our lease and PPA agreements typically include an opportunity for customers to renew for up to an additional 10 years, via two five-year or one 10-year renewal options. Customer payments and rates can be fixed for the duration of the solar service agreement or escalated at a pre-determined percentage annually. We also receive tax benefits and other incentives from leases and PPAs, a portion of which we finance through tax equity, non-recourse debt structures and hedging arrangements in order to fund our upfront costs, overhead and growth investments. Our future success depends in part on our ability to raise capital from third-party investors and commercial sources. We have an established track record of attracting capital from diverse sources. From our inception through December 31, 2021, we have raised more than \$9.0 billion in total capital commitments from equity, debt and tax equity investors.

#### *Basis of Presentation*

The accompanying annual audited consolidated financial statements ("consolidated financial statements") include our consolidated balance sheets, statements of operations, statements of redeemable noncontrolling interests and equity and statements of cash flows and have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") from records maintained by us. Our consolidated financial statements include our accounts and those of our subsidiaries in which we have a controlling financial interest. In accordance with the provisions of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 810, *Consolidation*, we consolidate any VIE of which we are the primary beneficiary. We form VIEs with our investors in the ordinary course of business to facilitate the funding and monetization of certain attributes associated with our solar energy systems. The typical condition for a controlling financial interest is holding a majority of the voting interests of an entity. However, a controlling financial interest may also exist in entities, such as VIEs, through arrangements that do not involve holding a majority of the voting interests. A primary beneficiary is defined as the party that has (a) the power to direct the activities of a VIE that most significantly impact the VIE's economic performance and (b) the obligation to absorb losses or receive benefits from the VIE that could potentially be significant to the VIE. We do not consolidate a VIE in which we have a majority ownership interest when we are not considered the primary beneficiary. We have considered the provisions within the contractual arrangements that grant us power to manage and make decisions that affect the operation of our VIEs, including determining the solar energy systems contributed to the VIEs, and the installation, operation and maintenance of the solar energy systems. We consider the rights granted to the

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

other investors under the contractual arrangements to be more protective in nature rather than substantive participating rights. As such, we have determined we are the primary beneficiary of our VIEs and evaluate our relationships with our VIEs on an ongoing basis to determine whether we continue to be the primary beneficiary. We have eliminated all intercompany transactions in consolidation.

### ***Reclassifications***

Certain prior period amounts have been reclassified to conform to the current period presentation. These reclassifications did not have a significant impact on our consolidated financial statements.

### ***Coronavirus ("COVID-19") Pandemic***

The ongoing COVID-19 pandemic has resulted and may continue to result in widespread adverse impacts on the global economy. We have experienced some resulting disruptions to our business operations as the COVID-19 virus has continued to circulate through the states and U.S. territories in which we operate.

Throughout the COVID-19 pandemic, we have continued to service and install solar energy systems. The industry is currently facing shortages and shipping delays affecting the supply of energy storage systems, modules and component parts for inverters and racking used in solar energy systems available for purchase. These shortages and delays can be attributed in part to the COVID-19 pandemic and resulting government action, as well as to allegations regarding the use of forced labor in the Chinese polysilicon supply chain. While a majority of our dealers have secured sufficient quantities to permit them to continue installing through much of 2022, if these shortages and delays persist, they could impact the timing of when solar energy systems and energy storage systems can be installed and when we can acquire and begin to generate revenue from those systems. In addition, if supply chains become significantly disrupted due to additional outbreaks of the COVID-19 virus or otherwise, or more stringent health and safety guidelines are implemented, our ability to install and service solar energy systems could become adversely impacted. We cannot predict the full impact the COVID-19 pandemic will have on our business, cash flows, liquidity, financial condition and results of operations at this time due to numerous uncertainties. We will continue to monitor developments affecting our workforce, our customers and our business operations generally, and will take actions we determine are necessary in order to mitigate these impacts.

## **(2) Significant Accounting Policies**

### ***Use of Estimates***

The application of GAAP in the preparation of the consolidated financial statements requires us to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. We base our estimates on historical experience and on various other assumptions believed to be reasonable, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results could differ materially from those estimates.

### ***Cash***

We maintain cash, which consists principally of demand deposits, with investment-grade financial institutions. We are exposed to credit risk to the extent cash balances exceed amounts covered by the Federal Deposit Insurance Corporation ("FDIC"). As of December 31, 2021 and 2020, we had cash deposits of \$225.7 million and \$199.6 million, respectively, in excess of the FDIC's current insured limit of \$250,000. We have not experienced any losses on our deposits of cash.

### ***Restricted Cash***

We record cash that is restricted as to withdrawal or use under the terms of certain contractual agreements as restricted cash. Our restricted cash primarily represents cash held to service certain payments under the Helios Issuer, LLC ("HELI"), Sunnova EZ-Own Portfolio, LLC ("EZOP"), Sunnova TEP Holdings, LLC ("TEPH"), Helios II Issuer, LLC ("HELI2"), Helios III Issuer, LLC ("HELI3"), Sunnova RAYS I Issuer, LLC ("RAYSI"), Sunnova TEP Inventory, LLC ("TEPINV"), Sunnova Sol Issuer, LLC ("SOLI"), Sunnova TEP IV-C, LLC ("TEP4C"), Sunnova TEP IV-D, LLC ("TEP4D"), Sunnova Helios IV Issuer, LLC ("HELI4"), Sunnova TEP IV-E, LLC ("TEP4E"), Sunnova TEP IV-G, LLC ("TEP4G"), Sunnova Asset Portfolio 8, LLC ("AP8"), Sunnova Sol II Issuer, LLC ("SOLI2"), Sunnova Helios V Issuer, LLC ("HELI5"), Sunnova Helios VI Issuer, LLC ("HELI6"), Sunnova Helios VII Issuer, LLC ("HELI7"), Sunnova TEP V-A, LLC ("TEP5A"), Sunnova TEP V-B, LLC ("TEP5B"), Sunnova TEP V-C, LLC ("TEP5C") and Sunnova Sol III Issuer, LLC ("SOLI3") financing arrangements (see Note 8, Long-Term Debt and Note 13, Redeemable Noncontrolling Interests and Noncontrolling Interests)

and balances collateralizing outstanding letters of credit related to one of our operating leases for office space (see Note 17, Commitments and Contingencies). The following table presents the detail of restricted cash as recorded in other current assets and other assets in the consolidated balance sheets:

	As of December 31,

Tax equity reserves	79,378	72,426
Other	1,785	1,719

(1) Of this amount, \$80.2 million and \$73.0 million is recorded in other current assets as of December 31, 2021 and 2020, respectively.

We are exposed to credit risk to the extent restricted cash balances exceed amounts covered by the FDIC. As of December 31, 2021 and 2020, we had restricted cash deposits of \$144.3 million and \$163.8 million, respectively, in excess of the FDIC's current insured limit of \$250,000. We have not experienced any losses on our deposits of restricted cash.

### *Accounts Receivable*

*Accounts Receivable—Trade.* Accounts receivable—trade primarily represents trade receivables from residential customers that are generally collected in the subsequent month. Accounts receivable—trade is recorded net of an allowance for credit losses, which is based on our assessment of the collectability of customer accounts based on the best available data at the time. We review the allowance by considering factors such as historical experience, customer credit rating, contractual term, aging category and current economic conditions that may affect a customer's ability to pay to identify customers with potential disputes or collection issues. We write off accounts receivable when we deem them uncollectible. As of December 31, 2021, we have not experienced a significant increase in delinquent customer accounts and have not made any significant adjustments to our allowance for credit losses related to accounts receivable—trade as a result of the COVID-19 pandemic. The following table presents the changes in the allowance for credit losses recorded against accounts receivable—trade, net in the consolidated balance sheets:

	As of December 31,	
	2021	2020
	(in thousands)	
Balance at beginning of period	\$ 912	\$ 960
Impact of ASC 326 adoption	—	(240)
Provision for current expected credit losses	1,956	1,878
Write off of uncollectible accounts	(1,997)	(1,741)
Recoveries	173	55
Balance at end of period	<u>\$ 1,044</u>	<u>\$ 912</u>

*Accounts Receivable—Other.* Accounts receivable—other primarily represents receivables related to the sale of inventory.

### *Inventory*

Inventory is stated at the lower of cost and net realizable value using the first-in, first-out method. Inventory primarily represents (a) raw materials, such as energy storage systems, photovoltaic modules, inverters, meters and modems, (b) homebuilder construction in progress and (c) other associated equipment purchased. These materials are typically sold to dealers or held for use as original parts on new solar energy systems or replacement parts on existing solar energy systems. We remove these items from inventory and record the transaction in typically one of these manners: (a) expense to operations and maintenance expense when installed as a replacement part for a solar energy system, (b) expense to cost of sales if sold directly, (c) capitalize to property and equipment when installed on an existing home or (d) capitalize to property and equipment when placed in service under the homebuilder program. We periodically evaluate our inventory for unusable and obsolete items based

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

on assumptions about future demand and market conditions. Based on this evaluation, provisions are made to write inventory down to market value. The following table presents the detail of inventory as recorded in other current assets in the consolidated balance sheets:

	As of December 31,	
	2021	2020
	(in thousands)	
Modules and inverters	\$ 60,661	\$ 83,904
Energy storage systems and components	43,071	18,122
Homebuilder construction in progress	23,642	—
Meters and modems	581	563
Total	\$ 127,955	\$ 102,589

**Concentrations of Risk**

Financial instruments that potentially subject us to concentrations of credit risk consist primarily of cash, restricted cash, accounts receivable and notes receivable. The concentrated risk associated with cash and restricted cash is mitigated by our policy of banking with creditworthy institutions. Typically, amounts on deposit with certain banking institutions exceed FDIC insurance limits. We do not generally require collateral or other security to support accounts receivable. To reduce credit risk related to our relationship with our dealers, management performs periodic credit evaluations and ongoing assessments of our dealers' financial condition.

**Concentration of Services and Equipment from Dealers**

We utilize a network of approximately 200 dealers as of December 31, 2021. During the year ended December 31, 2021, two dealers accounted for approximately 28% and 13%, respectively, of our total expenditures to dealers. During the year ended December 31, 2020, two dealers accounted for approximately 34% and 13%, respectively, of our total expenditures to dealers. During the year ended December 31, 2019, two dealers accounted for approximately 49% and 10%, respectively, of our total expenditures to dealers. No other dealer accounted for more than 10% of our expenditures to dealers during the years ended December 31, 2021, 2020 and 2019.

**Dealer Commitments**

We enter into exclusivity and other similar agreements with certain key dealers pursuant to which we agree to pay an incentive if such dealers install a certain minimum number of solar energy systems within specified periods. These incentives are recorded in other assets in the consolidated balance sheets and are amortized to general and administrative expense in the consolidated statements of operations generally over the term of the customer agreements, which is estimated at an average of 23 years. See Note 17, Commitments and Contingencies.

**Fair Value of Financial Instruments**

Fair value is an exit price representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions market participants would use in pricing an asset or a liability. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. ASC 820 establishes a three-tier fair value hierarchy, which prioritizes inputs that may be used to measure fair value as follows:

- Level 1—Observable inputs that reflect unadjusted quoted market prices in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2—Observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities in active markets, quoted market prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy must be determined based on the lowest level input that is significant to the fair value

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

measurement. An assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and consideration of factors specific to the asset or liability. Our financial instruments include cash, accounts receivable, customer notes receivable, investments in solar receivables, accounts payable, accrued expenses, long-term debt, interest rate swaps and contingent consideration. The carrying values of accounts receivable, accounts payable and accrued expenses approximate the fair values due to the fact that they are short-term in nature (Level 1). We estimate the fair value of our customer notes receivable based on interest rates currently offered under the loan program with similar maturities and terms (Level 3). We estimate the fair value of our investments in solar receivables based on a discounted cash flows model that utilizes market data related to solar irradiance, production factors by region and projected electric utility rates in order to build up revenue projections (Level 3). In addition, lease-related revenue and maintenance and service costs were supported through the use of available market studies and data. We estimate the fair value of our fixed-rate long-term debt based on interest rates currently offered for debt with similar maturities and terms (Level 3). We determine the fair values of the interest rate derivative transactions based on a discounted cash flow method using contractual terms of the transactions. The floating interest rate is based on observable rates consistent with the frequency of the interest cash flows (Level 2). For contingent consideration, we estimate the fair value of the installation earnout using the Monte Carlo model and the microgrid earnout using a scenario-based methodology, both using Level 3 inputs. See Note 6, Customer Notes Receivable, Note 7, Investments in Solar Receivables, Note 8, Long-Term Debt, Note 9, Derivative Instruments and Note 11, Acquisitions.

### *Derivative Instruments*

Our derivative instruments consist of interest rate swaps that are not designated as cash flow hedges or fair value hedges. We use interest rate swaps to manage our net exposure to interest rate changes. We record the derivatives in other current assets, other assets, other current liabilities and other long-term liabilities, as appropriate, in the consolidated balance sheets and the changes in fair value are recorded in interest expense, net in the consolidated statements of operations. We include unrealized gains and losses on derivatives as a non-cash reconciling item in operating activities in the consolidated statements of cash flows. We include realized gains and losses on derivatives as a change in components of operating assets and liabilities in operating activities in the consolidated statements of cash flows. See Note 9, Derivative Instruments.

### *Revenue*

We recognize revenue from contracts with customers as we satisfy our performance obligations at a transaction price reflecting an amount of consideration based upon an estimated rate of return, net of cash incentives. We express this rate of return as the solar rate per kilowatt hour ("kWh") in the customer contract. The amount of revenue we recognize does not equal customer cash payments because we satisfy performance obligations ahead of cash receipt or evenly as we provide continuous access on a stand-ready basis to the solar energy system. We reflect the differences between revenue recognition and cash payments received in accounts receivable, other assets or deferred revenue, as appropriate. Revenue allocated to remaining performance obligations represents contracted revenue we have not yet recognized and includes deferred revenue as well as amounts that will be invoiced and recognized as revenue in future periods. Contracted but not yet recognized revenue was approximately \$1.6 billion as of December 31, 2021, of which we expect to recognize approximately 5% over the next 12 months. We do not expect the annual recognition to vary significantly over approximately the next 20 years as the vast majority of existing solar service agreements have at least 20 years remaining, given the average age of the fleet of solar energy systems under contract is less than four years.

Certain customers may receive cash incentives. We defer recognition of the payment of these cash incentives and recognize them over the life of the contract as a reduction to revenue. The deferred payment is recorded in other assets for

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

customers who receive the cash incentives under our lease and PPA agreements, and as a contra-liability in other long-term liabilities for customers who receive the cash incentives under our loan agreements.

**PPAs.** Customers purchase electricity from us under PPAs. Pursuant to ASC 606, we recognize revenue based upon the amount of electricity delivered as determined by remote monitoring equipment at solar rates specified under the PPAs. All customers must pass our credit evaluation process. The PPAs generally have a term of 20 or 25 years with an opportunity for customers to renew for up to an additional 10 years, via two five-year or one 10-year renewal options.

**Leases.** We are the lessor under lease agreements for solar energy systems and energy storage systems, which do not meet the definition of a lease under ASC 842 and are accounted for as contracts with customers under ASC 606. We recognize revenue on a straight-line basis over the contract term as we satisfy our obligation to provide continuous access to the solar energy system. All customers must pass our credit evaluation process. The lease agreements generally have a term of 20 or 25 years with an opportunity for customers to renew for up to an additional 10 years, via two five-year or one 10-year renewal options.

In most cases, we provide customers under our lease agreements a performance guarantee that each solar energy system will achieve a certain specified minimum solar energy production output, which is a significant proportion of its expected output. The specified minimum solar energy production output may not be achieved due to natural fluctuations in the weather or equipment failures from exposure and wear and tear outside of our control, among other factors. We determine the amount of the guaranteed output based on a number of different factors, including: (a) the specific site information relating to the tilt of the panels, azimuth (a horizontal angle measured clockwise in degrees from a reference direction) of the panels, size of the system, and shading on site; (b) the calculated amount of available irradiance (amount of energy for a given flat surface facing a specific direction) based on historical average weather data and (c) the calculated amount of energy output of the solar energy system. While actual irradiance levels can significantly change year over year due to natural fluctuations in the weather, we expect the levels to average out over the term of a lease and to approximate the levels used in determining the amount of the performance guarantee. Generally, weather fluctuations are the most likely reason a solar energy system may not achieve a certain specified minimum solar energy production output.

If the solar energy system does not produce the guaranteed production amount, we are required to refund a portion of the previously remitted customer payments, where the repayment is calculated as the product of (a) the shortfall production amount and (b) the dollar amount (guaranteed rate) per kWh that is fixed throughout the term of the contract. These remittances of a customer's payments, if needed, are payable as early as the first anniversary of the solar energy system's placed in service date and then every annual period thereafter. See Note 17, Commitments and Contingencies.

**Solar Renewable Energy Certificates.** Each solar renewable energy certificate ("SREC") represents the environmental benefit of one megawatt hour (1,000 kWh) generated by a solar energy system. SRECs can be sold separate from the actual electricity generated by the renewable-based generation source. We account for the SRECs we generate from our solar energy systems as governmental incentives with no costs incurred to obtain them and do not consider those SRECs output of the underlying solar energy systems. We classify these SRECs as inventory held until sold and delivered to third parties. As we did not incur costs to obtain these governmental incentives, the inventory carrying value for the SRECs was \$0 as of December 31, 2021 and 2020. We enter into economic hedges related to expected production of SRECs through forward contracts. While these fixed price forward contracts serve as an economic hedge against spot price fluctuations for the SRECs, the contracts do not qualify for hedge accounting and are not designated as cash flow hedges or fair value hedges. The contracts require us to physically deliver the SRECs upon settlement. We recognize the related revenue under ASC 606 upon satisfaction of the performance obligation to transfer the SRECs to the stated counterparty. Payments are typically received within one month of transferring the SREC to the counterparty. The costs related to the sales of SRECs are generally limited to broker fees (recorded in cost of revenue—other), which are only paid in connection with certain transactions. In certain circumstances we are required to purchase SRECs on the open market to fulfill minimum delivery requirements under our forward contracts.

**Cash Sales.** Cash sales revenue represents revenue from a customer's purchase of a solar energy system from us typically when purchasing a new home. We recognize the related revenue under ASC 606 upon verification of the home closing.

**Loans.** See discussion of loan revenue in the "Loans" section below.

**Other Revenue.** Other revenue includes certain state and utility incentives, revenue from the direct sale of energy storage systems to customers, sales of service plans and revenue from our investments in solar receivables. We recognize revenue from state and utility incentives in the periods in which they are earned. We recognize revenue from the direct sale of energy storage systems in the period in which the storage components are placed in service. Service plans are available to customers whose

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

solar energy system was not originally sold by Sunnova. We recognize revenue from service plan contracts over the life of the contract, which is typically 10 years. We recognize revenue from our investments in solar receivables over the life of the associated customer agreements.

### ***Loans***

We offer a loan program, under which the customer finances the purchase of a solar energy system or energy storage system through a solar service agreement, typically for a term of 10, 15 or 25 years. We recognize cash payments received from customers on a monthly basis under our loan program (a) as interest income, to the extent attributable to earned interest on the contract that financed the customer's purchase of the solar energy system or energy storage system; (b) as a reduction of a note receivable on the balance sheet, to the extent attributable to a return of principal (whether scheduled or prepaid) on the contract that financed the customer's purchase of the solar energy system or energy storage system; and (c) as revenue, to the extent attributable to payments for operations and maintenance services provided by us. To qualify for the loan program, a customer must pass our credit evaluation process, which requires the customer to have a minimum FICO® score of 600 to 720 depending on certain circumstances, and we secure the loans with the solar energy systems or energy storage systems financed. The credit evaluation process is performed once for each customer at the time the customer is entering into the solar service agreement with us.

Our investments in solar energy systems and energy storage systems related to the loan program that are not yet placed in service are recorded in other assets in the consolidated balance sheets and are transferred to customer notes receivable upon being placed in service. Customer notes receivable are recorded at amortized cost, net of an allowance for credit losses (as described below), in other current assets and customer notes receivable in the consolidated balance sheets. Accrued interest receivable related to our customer notes receivable is recorded in accounts receivable—trade, net in the consolidated balance sheets. Interest income from customer notes receivable is recorded in interest income in the consolidated statements of operations. The amortized cost of our customer notes receivable is equal to the principal balance of customer notes receivable outstanding and does not include accrued interest receivable. Customer notes receivable continue to accrue interest until they are written off against the allowance, which occurs when the balance is 180 days or more past due unless the balance is in the process of collection. Customer notes receivable are considered past due one day after the due date based on the contractual terms of the loan agreement. In all cases, customer notes receivable balances are placed on a nonaccrual status or written off at an earlier date when they are deemed uncollectible. Expected recoveries do not exceed the aggregate of amounts previously written off and expected to be written off. Accrued interest receivable for customer notes receivable placed on a nonaccrual status is recorded as a reduction to interest income. Interest received on such customer notes receivable is accounted for on a cash basis until the customer notes receivable qualifies for the return to accrual status. Customer notes receivable are returned to accrual status when there is no longer any principal or interest amounts past due and future payments are reasonably assured.

The allowance for credit losses is deducted from the customer notes receivable amortized cost to present the net amount expected to be collected. It is measured on a collective (pool) basis when similar risk characteristics (such as financial asset type, customer credit rating, contractual term and vintage) exist. In determining the allowance for credit losses, we identify customers with potential disputes or collection issues and consider our historical level of credit losses and current economic trends that might impact the level of future credit losses. Adjustments to historical loss information are made for differences in current loan-specific risk characteristics, such as differences in underwriting standards. Expected credit losses are estimated over the contractual term of the loan agreements based on the best available data at the time, and adjusted for expected prepayments when appropriate. The contractual term excludes expected extensions, renewals and modifications unless either of the following applies: (a) we have a reasonable expectation at the reporting date that a troubled debt restructuring will be executed with an individual customer or (b) the extension or renewal options are included in the original or modified contract at the reporting date and are not unconditionally cancelable by us. As of December 31, 2021, we have not experienced a significant increase in delinquent customer notes receivable and have not made any significant adjustments to our allowance for credit losses related to loans as a result of the COVID-19 pandemic. See Note 6, Customer Notes Receivable.

### ***Deferred Revenue***

Deferred revenue consists of amounts for which the criteria for revenue recognition have not yet been met and includes (a) payments for unfulfilled performance obligations which will be recognized on a straight-line basis over the remaining term of the respective solar service agreements, net of any cash incentives earned by the customers, (b) down payments and partial or full prepayments from customers and (c) differences due to the timing of energy production versus billing for certain types of

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

PPAs. Deferred revenue was \$58.9 million as of December 31, 2019. The following table presents the detail of deferred revenue as recorded in other current liabilities and other long-term liabilities in the consolidated balance sheets:

	As of December 31,	
	2021	2020
	(in thousands)	
Loans	\$ 275,681	\$ 93,859
PPAs and leases	17,274	11,787
Solar receivables	4,864	—
SRECs	—	1,163
Total (1)	\$ 297,819	\$ 106,809

(1) Of this amount, \$15.3 million and \$3.8 million is recorded in other current liabilities as of December 31, 2021 and 2020, respectively.

During the years ended December 31, 2021 and 2020, we recognized revenue of \$8.4 million and \$7.3 million, respectively, from amounts recorded in deferred revenue at the beginning of the respective years.

### ***Performance Guarantee Obligations***

In most cases, we guarantee certain specified minimum solar energy production output under our leases and loan agreements, generally over a term between 10 and 25 years. The amounts are generally measured and credited to the customer's account as early as the first anniversary of the solar energy system's placed in service date and then every annual period thereafter. We monitor the solar energy systems to ensure these outputs are achieved. We evaluate if any amounts are due to our customers based upon not meeting the guaranteed solar energy production outputs at each reporting period end. For leases, these estimated amounts are recorded as a reduction to revenues from customers and a current or long-term liability, as applicable. For loans, these estimated amounts are recorded as an increase to cost of revenue—other and a current or long-term liability, as applicable. See Note 17, Commitments and Contingencies.

### ***Property and Equipment***

**Solar Energy Systems.** Depreciation and amortization of solar energy systems are calculated using the straight-line method over the estimated useful lives of the solar energy systems and are recorded in cost of revenue—depreciation. While solar energy systems are in the design, construction and installation stages prior to being placed in service, the development of the systems is accounted for through construction in progress. The components of the design, construction and installation of the solar energy systems, which are installed on or near residential rooftops, are as follows:

- Dealer's costs (engineering, procurement and construction)
- Direct costs (costs directly related to a solar energy system)
- Indirect costs (costs incurred in the design, construction and installation of the solar energy system but not directly associated with a particular asset)

Solar energy systems are carried at the cost of acquisition or construction (including design and installation) less certain utility rebates and federal and state tax incentives (including federal investment tax credits, known as "Section 48(a) ITCs") and are depreciated over the useful lives of the assets. We account for the Section 48(a) ITCs in accordance with the deferral gross up method, thus reducing the cost basis of the qualifying solar energy systems by the rate applicable to Section 48(a) ITCs. However, as discussed in Note 10, Income Taxes, we have a full valuation allowance, which is recorded against deferred income taxes and requires the gross up of the basis of the qualifying solar energy systems back to the full value. Depreciation begins when a solar energy system is placed in service. Costs associated with repair and maintenance of a solar energy system are expensed as incurred. Costs associated with improvements to a solar energy system, which extend the life, increase the capacity or improve the efficiency of the systems, are capitalized and depreciated over the remaining life of the asset.

**Property and Equipment, Excluding Solar Energy Systems.** Property and equipment, including information technology system projects, computers and equipment, leasehold improvements, furniture and fixtures, vehicles and other property and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization are calculated using the straight-line method over the estimated useful lives of the respective assets and are recorded in general and administrative expense. Leasehold improvements are amortized over the shorter of the lease term or the estimated useful lives.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Upon disposition, the cost and related accumulated depreciation of the assets are removed from property and equipment and the resulting gain or loss is reflected in the consolidated statements of operations. Repair and maintenance costs are expensed as incurred.

### *Acquisitions*

Business combinations are accounted for using the acquisition method of accounting in accordance with ASC 805, *Business Combinations*, as amended by Accounting Standards Update ("ASU") No. 2017-01, *Business Combinations: Clarifying the Definition of a Business*. The purchase price of an acquisition is measured at the estimated fair value of the assets acquired, equity instruments issued and liabilities assumed at the acquisition date. Any noncontrolling interests acquired are also initially measured at fair value. Costs that are directly attributable to the acquisition are expensed as incurred to general and administrative expense. We recognize goodwill if the aggregate fair value of the total purchase consideration and the noncontrolling interests is in excess of the aggregate fair value of the assets acquired and liabilities assumed. We may engage third-party valuation firms to assist in determining the fair values. The operating results of an acquired business are included in our results of operations from the date of acquisition. We have up to one year from the acquisition date to complete the fair value purchase price allocation. See Note 11, Acquisitions.

Asset acquisitions are measured based on the cost to us, including transaction costs. Asset acquisition costs, or the consideration transferred by us, are assumed to be equal to the fair value of the net assets acquired. If the consideration transferred is cash, measurement is based on the amount of cash we paid to the seller, as well as transaction costs incurred. Consideration given in the form of non-monetary assets, liabilities incurred or equity instruments issued is measured based on either the cost to us or the fair value of the assets or net assets acquired, whichever is more clearly evident. The cost of an asset acquisition is allocated to the assets acquired based on their estimated fair values. Goodwill is not recognized in an asset acquisition.

### *Intangibles*

Our purchased intangible assets are stated at cost less accumulated amortization. Our intangible assets acquired from a business combination or asset acquisition are stated at the estimated fair value on the date of the acquisition less accumulated amortization (see Note 11, Acquisitions). We amortize intangible assets to general and administrative expense using the straight-line method. The following table presents the detail of intangible assets as recorded in other assets in the consolidated balance sheets:

	Useful Lives (in years)	As of December 31,

2022	\$ 28,441
2023	28,432
2024	28,432
2025	18,876
2026	15,690
2027 and thereafter	70,649
Total	\$ 190,520

### ***Goodwill***

Goodwill represents the excess of the purchase price over the fair value of assets acquired and liabilities assumed. The purchase price is allocated using the information currently available, and may be adjusted, up to one year from the acquisition date, after obtaining more information regarding, among other things, asset valuations, liabilities assumed and revisions to preliminary estimates. Goodwill is reviewed for impairment at least annually or whenever events or changes in circumstances indicate the carrying amount may be impaired. When assessing goodwill for impairment, we use qualitative and if necessary, quantitative methods in accordance with GAAP. In 2021, we utilized a qualitative assessment and concluded it was more likely than not the fair value was greater than the carrying amount. As such, no further testing is required.

### ***Deferred Financing Costs***

Deferred financing costs are capitalized and amortized to interest expense, net over the term of the related debt using the effective interest method for term loans or the straight-line method for revolving credit facilities. The unamortized balance of deferred financing costs is recorded in current portion of long-term debt, current portion of long-term debt—affiliates, long-term debt, net and long-term debt, net—affiliates (see Note 8, Long-Term Debt) for term loans or in other current assets and other assets for revolving credit facilities and debt and equity transactions not yet completed, in the consolidated balance sheets. The following table presents the changes in net deferred financing costs:

	As of December 31,	
	2021	2020
	(in thousands)	
Balance at beginning of period	\$ 39,792	\$ 25,621
Capitalized	30,314	23,202
Amortized	(14,050)	(9,031)
Balance at end of period	\$ 56,056	\$ 39,792

### ***Asset Retirement Obligation ("ARO")***

We have AROs arising from contractual requirements to perform certain asset retirement activities at the time the solar energy systems are disposed. We recognize an ARO at the point an obligating event takes place, typically when the solar energy system is placed in service. An asset is considered retired when it is permanently taken out of service, such as through a sale or disposal.

The liability is initially measured at fair value (as a Level 3 measurement) based on the present value of estimated removal and restoration costs and subsequently adjusted for changes in the underlying assumptions and for accretion expense. The accretion expense is recognized in general and administrative expense in the consolidated statements of operations. The corresponding asset retirement costs are capitalized as part of the carrying amount of the solar energy system and depreciated over the solar energy system's remaining useful life. See Note 5, AROs.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### ***Warranty Obligations***

In connection with our solar service agreements, we warrant the solar energy systems against defects in workmanship, against component or materials breakdowns and against any damages to rooftops during the installation process. The dealers' warranties on the workmanship, including work during the installation process, and the manufacturers' warranties over component parts have a range of warranty periods which are generally 10 to 25 years. As of December 31, 2021 and 2020, we recorded a warranty reserve of \$815,000 and \$0, respectively.

### ***Advertising Costs***

We expense advertising costs as they are incurred to general and administrative expense in the consolidated statements of operations. We recognized advertising expense of \$1.9 million, \$195,000 and \$1.0 million during the years ended December 31, 2021, 2020 and 2019, respectively.

### ***Defined Contribution Plan***

In April 2015, we established the Sunnova Energy Corporation 401(k) Profit Sharing Plan ("401(k) plan") available to employees who meet the 401(k) plan's eligibility requirements. The 401(k) plan allows participants to contribute a percentage of their compensation to the 401(k) plan up to the limits set forth in the Internal Revenue Code. We may make additional discretionary contributions to the 401(k) plan as a percentage of total participant contributions, subject to established limits. Participants are fully vested in their contributions and any safe harbor matching contributions we make. We made safe harbor matching contributions of \$1.3 million, \$820,000 and \$736,000 during the years ended December 31, 2021, 2020 and 2019, respectively, which are recorded in general and administrative expense in the consolidated statements of operations.

### ***Income Taxes***

We account for income taxes under an asset and liability approach. Deferred income taxes reflect the impact of temporary differences between assets and liabilities recognized for financial reporting purposes and the amounts recognized for income tax reporting purposes, net operating loss, carryforwards, and other tax credits measured by applying currently enacted tax laws. A valuation allowance is provided when necessary to reduce deferred tax assets to an amount that is more likely than not to be realized.

We determine whether a tax position taken in a filed tax return, planned to be taken in a future tax return or claim, or otherwise subject to interpretation, is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position, or prospectively approved when such approval may be sought in advance. We use a two-step approach to recognize and measure uncertain tax positions. The first step is to evaluate the tax position for recognition by determining if the available evidence indicates it is more likely than not the position will be sustained upon tax authority examination, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit or obligation as the largest amount that is more than 50% likely of being realized upon ultimate settlement. See Note 10, Income Taxes.

### ***Comprehensive Income (Loss)***

We are required to report comprehensive income (loss), which includes net income (loss) as well as other comprehensive income (loss). There were no differences between comprehensive loss and net loss as reported in the consolidated statements of operations for the periods presented.

### ***Impairment of Long-Lived Assets***

Long-lived assets, such as property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset be tested for possible impairment, we first compare undiscounted cash flows expected to be generated by that asset or asset group to its carrying value. If the carrying value of the long-lived asset or asset group is not recoverable on an undiscounted cash flow basis, impairment is recognized to the extent the carrying value exceeds its fair value. Fair value is determined through various valuation techniques including discounted cash flow models, quoted market values and third-party independent appraisals as considered necessary. Impairment charges are recorded in operations and maintenance expense for solar energy systems that relate to revenue from contracts with customers and general and administrative expense for all other property and equipment and other long-lived assets. During the years ended December 31, 2021, 2020 and 2019, we recognized net losses on disposals and impairment expense of \$3.7 million, \$5.8 million and \$1.8 million, respectively, of which \$3.7 million, \$5.8 million and

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

\$1.8 million, respectively, is recorded in operations and maintenance expense and an insignificant amount is recorded in general and administrative expense.

### ***Segment Information***

Operating segments are defined as components of a company about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. Our chief operating decision maker is the chief executive officer. Based on the financial information presented to and reviewed by our chief operating decision maker in deciding how to allocate resources and in assessing performance, we have determined we have a single reportable segment: solar energy products and services. Our principal operations, revenue and decision-making functions are located in the U.S.

### ***Basic and Diluted Net Income (Loss) Per Share***

Our basic net income (loss) per share attributable to common stockholders is calculated by dividing the net income (loss) attributable to the common stockholders by the weighted-average number of shares of common stock outstanding for the period. Cumulative dividends owed to convertible preferred stockholders (as defined in Note 14, Stockholders' Equity) decrease (increase) the income (loss) available to common stockholders.

The diluted net income (loss) per share attributable to common stockholders is computed by giving effect to all potential common stock equivalents outstanding for the period determined using the treasury stock method or the if-converted method, as applicable. During periods in which we incur a net loss attributable to common stockholders, stock options are considered to be common stock equivalents but are excluded from the calculation of diluted net loss per share attributable to common stockholders as the effect is antidilutive. See Note 16, Basic and Diluted Net Loss Per Share.

### ***Equity-Based Compensation***

We account for equity-based compensation, which requires the measurement and recognition of compensation expense related to the fair value of equity-based compensation awards. Equity-based compensation expense includes the compensation cost for all share-based awards granted to employees, consultants and members of our board of directors (our "Board") based on the grant date fair value estimate. This also applies to awards modified, repurchased or canceled during the periods reported. We use the Black-Scholes option-pricing model to measure the fair value of stock options at the measurement date. We use the closing price of our common stock on the grant date to measure the fair value of restricted stock units at the measurement date. We account for forfeitures as they occur. Equity-based compensation expense is recorded in general and administrative expense in the consolidated statements of operations. See Note 15, Equity-Based Compensation.

### ***Redeemable Noncontrolling Interests and Noncontrolling Interests***

Noncontrolling interests represent third-party interests in the net assets of certain consolidated subsidiaries (the "tax equity entities"). For these tax equity entities, we have determined the appropriate methodology for calculating the noncontrolling interest balances that reflects the substantive economic arrangements in the operating agreements is a balance sheet approach using the hypothetical liquidation at book value ("HLBV") method. Under the HLBV method, the amounts reported as noncontrolling interests in the consolidated balance sheets represent the amounts third-party investors would hypothetically receive at each balance sheet date under the liquidation provisions of the operating agreements, assuming the net assets of the subsidiaries were liquidated at amounts determined in accordance with GAAP and distributed to the investors. The noncontrolling interest balances in these subsidiaries are reported as a component of equity in the consolidated balance sheets. The amount of income or loss allocated to noncontrolling interests in the results of operations for the subsidiaries using HLBV are determined as the difference in the noncontrolling interest balances in the consolidated balance sheets at the start and end of each reporting period, after taking into account any capital transactions between the subsidiaries and the third-party investors. Factors used in the HLBV calculation include GAAP income (loss), taxable income (loss), capital contributions, investment tax credits, distributions and the stipulated targeted investor return specified in the subsidiaries' operating agreements. Changes in these factors could have a significant impact on the amounts that investors would receive upon a hypothetical liquidation. The use of the HLBV method to allocate income (loss) to the noncontrolling interest holders may create volatility in the consolidated statements of operations as the application of HLBV can drive changes in net income or loss attributable to noncontrolling interests from period to period. We classify certain noncontrolling interests with redemption features that are not solely within our control outside of permanent equity in the consolidated balance sheets. Redeemable noncontrolling interests are reported using the greater of the carrying value at each reporting date as determined by the HLBV method or the estimated redemption value at the end of each reporting period. Estimating the redemption value of the redeemable noncontrolling interests requires the use of significant assumptions and estimates, such as projected future cash flows at the time the

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

redemption feature can be exercised. The redeemable noncontrolling interests and noncontrolling interests are recorded net of related issuance costs and net of the basis difference in the solar energy systems transferred to the tax equity entities in the consolidated balance sheets. This basis difference is reflected as equity in subsidiaries attributable to parent in the consolidated statements of redeemable noncontrolling interests and equity.

### *New Accounting Guidance*

New accounting pronouncements are issued by the FASB or other standard setting bodies and are adopted as of the specified effective date.

In August 2020, the FASB issued ASU No. 2020-06, *Debt—Debt with Conversion and Other Options and Derivatives and Hedging—Contracts in Entity's Own Equity: Accounting for Convertible Instruments and Contracts in an Entity's Own Equity*, to simplify the accounting for certain financial instruments with characteristics of liabilities and equity by removing the separation models for convertible debt with a cash conversion feature and convertible instruments with a beneficial conversion feature. This ASU also expands the required disclosures related to the terms and features of convertible instruments, how the instruments have been reported and information about events, conditions and circumstances that can affect how to assess the amount or timing of an entity's future cash flows related to those instruments. This ASU is effective for annual and interim reporting periods in 2022. We adopted this ASU in January 2021 using the modified retrospective approach, which resulted in a cumulative-effect adjustment to stockholders' equity of \$2.3 million.

### (5) AROs

AROs consist primarily of costs to remove solar energy system assets and costs to restore the solar energy system sites to the original condition, which we estimate based on current market rates. For each solar energy system, we recognize the fair value of the ARO as a liability and capitalize that cost as part of the cost basis of the related solar energy system. The related assets are depreciated on a straight-line basis over 30 years, which is the estimated average time a solar energy system will be installed in a location before being removed, and the related liabilities are accreted to the full value over the same period of time. We revise our estimated future liabilities based on recent actual experiences, including third party cost estimates, average size of solar energy systems and inflation rates, which we evaluate at least annually. Changes in our estimated future liabilities

are recorded as either a reduction or addition in the carrying amount of the remaining unamortized asset and the ARO and either decrease or increase our depreciation and accretion expense amounts prospectively. ### (6) Customer Notes Receivable

We offer a loan program, under which the customer finances the purchase of a solar energy system or energy storage system through a solar service agreement for a term of 10, 15 or 25 years. (1) In addition, we recognized \$209,000 and \$184,000 during the years ended December 31, 2021 and 2020, respectively, of provision for current expected credit losses related to our long-term receivables for our customer leases.

As of December 31, 2021 and 2020, we invested \$238.8 million and \$85.6 million, respectively, in loan solar energy systems and energy storage systems not yet placed in service. For the years ended December 31, 2021 and 2020, interest income related to our customer notes receivable was \$33.7 million and \$23.2 million, respectively. As of December 31, 2021 and 2020, accrued interest receivable related to our customer notes receivable was \$3.5 million and \$1.2 million, respectively. As of December 31, 2021 and 2020, there were no customer notes receivable not accruing interest and thus, there was no allowance recorded for loans on nonaccrual status. For the years ended December 31, 2021 and 2020, interest income of \$0 was recognized for loans on nonaccrual status and accrued interest receivable of \$0 was written off by reversing interest income.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

We consider the performance of our customer notes receivable portfolio and its impact on our allowance for credit losses. We also evaluate the credit quality based on the aging status and payment activity. The following table presents the aging of the amortized cost of customer notes receivable:

As of December 31, 2021 and 2020, the amortized cost of our customer notes receivable more than 90 days past due but not on nonaccrual status was \$15.3 million and \$8.6 million, respectively. The following table presents the amortized cost by origination year of our customer notes receivable based on payment activity.

(1) A nonperforming loan is a loan in which the customer is in default and has not made any scheduled principal or interest payments for 181 days or more.

### (7) Investments in Solar Receivables

In November 2021, one of our wholly-owned subsidiaries entered into a Master Lease Agreement (the "EAH Master Lease") with Energy Asset HoldCo LLC, a Delaware limited liability company and subsidiary of Lennar ("EAH Lessor"), to lease two pools of solar energy systems and assume the related PPA and lease obligations from EAH Lessor. In exchange for the right to receive future customer cash flows as well as certain credits, rebates and incentives (including SRECs) under those pooled agreements, we made an upfront payment to Lennar consisting of \$35.0 million in initial cash consideration and 1,027,409 shares of our common stock for net consideration of \$79.4 million. Pursuant to the terms of the EAH Master Lease, additional pools of solar energy systems may also be leased from EAH Lessor in the future in exchange for upfront lease payments. We will evaluate additional systems on a quarterly basis and, if eligible, are required to tranche the systems under the EAH Master Lease until March 2025.

We established criteria for eligibility that ensures each solar energy system is operational, in service, in good standing and no liens or encumbrances exist. We continue to provide all operations, maintenance and asset management services to EAH Lessor related to the leased solar energy systems. EAH Lessor's residual interest in the solar energy systems comes from any customer renewal exercised after the twentieth anniversary of the contract term of the solar service agreement, the remainder of the useful life of the solar energy system after the termination of the solar service agreement and any tax incentives (including Section 48(a) ITCs) associated with the ownership of the solar energy system.

As the EAH Master Lease does not constitute or contain a lease under the criteria specified by ASC 842, the purchase of EAH Lessor's future revenue has been accounted for as an acquisition of financial assets and we have elected the fair value option under ASC 825. For the purposes of establishing the fair value of our investments in solar receivables, our analysis considers cash flows beginning in September 2021 (the effective date of the transaction). We estimated the fair value of our investments in solar receivables to be \$84.3 million on the transaction date. As of December 31, 2021, we recorded \$82.7 million of investments in solar receivables, of which \$6.8 million is recorded in other current assets and \$75.9 million is recorded in other assets in the consolidated balance sheet. We recognize changes in the fair value of our investments in solar

receivables in other operating income. During the year ended December 31, 2021, we recorded a gain on our investments in solar receivables of \$2.4 million in the consolidated statement of operations.

**Availability.** As of December 31, 2021, we had \$411.8 million of available borrowing capacity under our various financing arrangements, consisting of \$10.0 million under the EZOP revolving credit facility, \$341.8 million under the TEPH revolving credit facility and \$60.0 million under the AP8 revolving credit facility. There was no available borrowing capacity under any of our other financing arrangements. As of December 31, 2021, we were in compliance with all debt covenants under our financing arrangements.

**Weighted Average Effective Interest Rates.** The weighted average effective interest rates disclosed in the table above are the weighted average stated interest rates for each debt instrument plus the effect on interest expense for other items classified as interest expense, such as the amortization of deferred financing costs, amortization of debt discounts and commitment fees on unused balances for the period of time the debt was outstanding during the indicated periods.

**SEI Debt.** In December 2019, we issued and sold an aggregate principal amount of \$55.0 million of our 7.75% convertible senior notes ("7.75% convertible senior notes") in a private placement at an issue price of 95%, for an aggregate purchase price of \$52.3 million. In May 2020, we issued and sold an aggregate principal amount of \$130.0 million of our 9.75% convertible senior notes ("9.75% convertible senior notes") in a private placement at an issue price of 95%, for an aggregate purchase price of \$123.5 million. The 9.75% convertible senior notes mature in April 2025 unless earlier redeemed, repurchased or converted. We granted the investors of the 9.75% convertible senior notes an option to purchase up to an additional \$60.0 million aggregate principal amount of 9.75% convertible senior notes on the same terms and conditions, and the investors exercised this option and completed the purchase of such additional 9.75% convertible senior notes in June 2020. In May 2020, we also exchanged all \$55.0 million aggregate principal amount outstanding of our 7.75% convertible senior notes for an equal principal amount of our 9.75% convertible senior notes.

During the year ended December 31, 2020, certain holders of our 9.75% convertible senior notes converted approximately \$150.8 million aggregate principal amount, including accrued and unpaid interest to the date of each conversion, of our 9.75% convertible senior notes into common stock. During the year ended December 31, 2021, the remaining holders of our 9.75% convertible senior notes converted approximately \$97.1 million aggregate principal amount, including accrued and unpaid interest to the date of each conversion, of our 9.75% convertible senior notes into common stock. See Note 14, Stockholders' Equity.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

In May 2021, we issued and sold an aggregate principal amount of \$575.0 million of our 0.25% convertible senior notes ("0.25% convertible senior notes") in a private placement at a discount to the initial purchasers of 2.5%, for an aggregate purchase price of \$560.6 million. The 0.25% convertible senior notes mature in December 2026 unless earlier redeemed, repurchased or converted. In connection with the pricing of the 0.25% convertible senior notes, we used proceeds of \$91.7 million to enter into privately negotiated capped call transactions, which are expected to reduce the potential dilution to common shares and/or offset potential cash payments that could be required to be made in excess of the principal amount upon any exchange of notes. Such reduction and/or offset is subject to a cap initially equal to \$60.00 per share, subject to adjustments. The capped call transactions cover, subject to customary adjustments, the number of shares of our common stock initially underlying the 0.25% convertible senior notes. As the capped call transactions meet certain accounting criteria, they are classified as stockholders' equity and therefore, are recorded in additional paid-in capital—common stock in the consolidated balance sheet and are not accounted for as derivatives.

*Sunnova Energy Corporation Debt.* In August 2020, Sunnova Energy Corporation entered into an arrangement to finance \$2.8 million in directors and officers insurance premiums at an annual interest rate of 4.25% over seven months. In October 2020, Sunnova Energy Corporation entered into an arrangement to finance \$1.4 million in property insurance premiums at an annual interest rate of 4.25% over five months. In August 2021, Sunnova Energy Corporation issued and sold an aggregate principal amount of \$400.0 million of 5.875% senior notes ("5.875% senior notes") at a discount to the initial purchasers of 1.24%, for an aggregate purchase price of \$395.0 million. The 5.875% senior notes mature in September 2026 and are initially guaranteed on a senior unsecured basis by SEI and a wholly-owned subsidiary of Sunnova Energy Corporation.

*HELI Debt.* In April 2017, we pooled and transferred eligible solar energy systems and the related asset receivables into HELI, a special purpose entity, that issued \$191.8 million in aggregate principal amount of Series 2017-1 Class A solar asset-backed notes, \$18.0 million in aggregate principal amount of Series 2017-1 Class B solar asset-backed notes and \$45.0 million in aggregate principal amount of Series 2017-1 Class C solar asset-backed notes (collectively, the "HELI Notes") with a maturity date of September 2049. The Notes were issued at a discount of 0.05% for Class A, 9.28% for Class B and 8.65% for Class C and bore interest at an annual rate equal to 4.94%, 6.00% and 8.00%, respectively. The cash flows generated by these solar energy systems were used to service the semi-annual principal and interest payments on the HELI Notes and satisfy HELI's expenses, and any remaining cash could be distributed to Helios Depositor, LLC, HELI's sole member. In connection with the HELI Notes, certain of our affiliates received a fee for managing and servicing the solar energy systems pursuant to management and servicing agreements. In addition, Sunnova Energy Corporation guaranteed (a) the manager's obligations to manage the solar energy systems pursuant to the management agreement, (b) the servicer's obligations to service the solar energy systems pursuant to the servicing agreement and (c) Sunnova Asset Portfolio 5, LLC's obligations to repurchase or substitute certain ineligible solar energy systems eventually sold to HELI pursuant to the sale and contribution agreement. HELI was also required to maintain certain reserve accounts for the benefit of the holders of the HELI Notes, each of which had to remain funded at all times to the levels specified in the HELI Notes. The indenture required HELI to track the debt service coverage ratio (such ratio, the "DSCR") of (a) the amount of certain payments received from customers, certain performance based incentives, certain energy credits and any applicable insurance proceeds as of a specific date to (b) interest and scheduled principal due on the HELI Notes as of such date with the potential to enter into an early amortization period if the DSCR dropped below a certain threshold. The holders of the HELI Notes had no recourse to our other assets except as expressly set forth in the HELI Notes. In June 2021, the aggregate principal amount outstanding under the HELI solar asset-backed notes of \$205.7 million was fully repaid using proceeds from the SOLIII Notes (as defined below), which resulted in a loss on extinguishment of long-term debt of \$9.8 million.

*EZOP Debt.* In April 2017, EZOP, a special purpose entity, entered into a secured revolving credit facility with Credit Suisse AG, New York Branch, as administrative agent, and the lenders party thereto, for an aggregate commitment amount of \$100.0 million with a maturity date of April 2019. In August 2017, the aggregate commitment amount was reduced to \$70.0 million and in March 2019, the aggregate commitment amount was increased to \$200.0 million. The revolving credit facility allows for the pooling and transfer of eligible loans on a non-recourse basis subject to certain limited exceptions. The proceeds of the loans under the revolving credit facility are available to purchase or otherwise acquire loans (which we originated) directly from AP7H pursuant to a sale and contribution agreement, fund certain reserve accounts that are required to be maintained by EZOP in accordance with the credit agreement and pay fees and expenses incurred in connection with the revolving credit facility. The amount available for borrowings at any one time under the revolving credit facility is limited to a borrowing base amount determined at each borrowing and calculated based on the aggregate discounted present value of remaining payments owed to EZOP in respect of the loans transferred to EZOP.

Interest on the borrowings under the revolving credit facility is due monthly. Borrowings under the EZOP revolving credit facility bear interest at an annual rate equal to the weighted-average cost to the lender of any commercial paper (to the extent the lender funds an advance by issuing commercial paper) plus 3.50% during the commitment availability period and 4.50% after the commitment availability period. In March 2019, we amended the EZOP revolving credit facility to, among other

In December 2019, we further amended the EZOP revolving credit facility to, among other things, adjust the interest rate on borrowings to an annual rate of adjusted LIBOR plus either 2.35% or 3.35% per annum depending on the date of the most recent takeout transaction in respect of assets securing the credit facility. In March 2021, we amended the EZOP revolving credit facility to, among other things, (a) extend the maturity date to November 2023 and (b) increase the maximum facility amount from \$200.0 million to \$350.0 million. The revolving credit facility requires EZOP to pay a fee based on the daily unused portion of the commitments under the revolving credit facility. Payments from the loans will be deposited into accounts established pursuant to the revolving credit facility and applied in accordance with a cash waterfall in the manner specified in the revolving credit facility. EZOP is also required to maintain certain reserve accounts for the benefit of the lenders under the revolving credit facility, each of which must remain funded at all times to the levels specified in the credit agreement.

In connection with the EZOP revolving credit facility, certain of our affiliates receive a fee for managing and servicing the solar loan agreements and related solar energy systems pursuant to management and servicing agreements. In addition, Sunnova Energy Corporation has guaranteed (a) the manager's obligations to manage the solar loan agreements and related solar energy systems pursuant to the management agreement, (b) the servicer's obligations to service the solar loan agreements and related solar energy systems pursuant to the servicing agreement, (c) AP7H's obligations to repurchase or substitute certain ineligible solar loans sold to EZOP pursuant to certain sale and contribution agreements and (d) certain indemnification obligations related to its affiliates in connection with the EZOP revolving credit facility, but does not provide a general guarantee of the creditworthiness of the assets of EZOP pledged as the collateral for the revolving credit facility. Under the limited guarantee, Sunnova Energy Corporation is subject to certain financial covenants regarding tangible net worth, working capital and restrictions on the use of proceeds from the revolving credit facility.

The cash flows generated by the solar energy systems of SOLIII's subsidiaries are used to service the quarterly principal and interest payments on the SOLIII Notes and satisfy SOLIII's expenses, and any remaining cash can be distributed to Sunnova Sol III Depositor, LLC, SOLIII's sole member. In connection with the SOLIII Notes, certain of our affiliates receive a fee for managing and servicing the solar energy systems pursuant to a transaction management agreement and managing and servicing agreements. In addition, Sunnova Energy Corporation has guaranteed (a) the obligations of certain of our subsidiaries to manage and service the solar energy systems pursuant to management, servicing and transaction management agreements, (b) the managing members' obligations, in such capacity, under the related financing fund's limited liability company agreement and (c) certain of our subsidiaries' obligations to repurchase or substitute certain ineligible solar energy systems eventually sold to SOLIII pursuant to the sale and contribution agreement. SOLIII is also required to maintain certain reserve accounts for the benefit of the holders of the SOLIII Notes, each of which must remain funded at all times to the levels specified in the SOLIII Notes. The indenture requires SOLIII to track the debt service coverage ratio (such ratio, the "DSCR") of (a) the amount of certain payments received from customers, certain performance based incentives, certain energy credits and any applicable insurance proceeds as of a specific date to (b) interest and scheduled principal due on the SOLIII Notes as of such date, with the potential to enter into an early amortization period if the DSCR drops below a certain threshold. The holders of the SOLIII Notes have no recourse to our other assets except as expressly set forth in the SOLIII Notes.

**HELVI Debt.** In July 2021, we pooled and transferred eligible solar loans and the related receivables into HELVI, a special purpose entity, that issued \$106.2 million in aggregate principal amount of Series 2021-B Class A solar loan-backed notes and \$106.2 million in aggregate principal amount of Series 2021-B Class B solar loan-backed notes (collectively, the "HELVI Notes") with a maturity date of July 2048. The HELVI Notes were issued at a discount of 0.01% for Class A and 0.04% for Class B and bear interest at an annual rate of 1.62% and 2.01%, respectively. The cash flows generated by these solar loans are used to service the monthly principal and interest payments on the HELVI Notes and satisfy HELVI's expenses, and any remaining cash can be distributed to Sunnova Helios VI Depositor, LLC, HELVI's sole member. In connection with the HELVI Notes, certain of our affiliates receive a fee for managing and servicing the solar energy systems pursuant to management and service agreements. In addition, Sunnova Energy Corporation has guaranteed, among other things, (a) the obligations of certain of our subsidiaries to manage and service the solar energy systems pursuant to management and servicing agreements and (b) certain of our subsidiaries' obligations to repurchase or substitute certain ineligible solar loans eventually sold to HELVI pursuant to the related sale and contribution agreement. The holders of the HELVI Notes have no recourse to our other assets except as expressly set forth in the HELVI Notes.

**HELVII Debt.** In October 2021, we pooled and transferred eligible solar loans and the related receivables into HELVII, a special purpose entity, that issued \$68.4 million in aggregate principal amount of Series 2021-C Class A solar loan-backed notes, \$55.9 million in aggregate principal amount of Series 2021-C Class B solar loan-backed notes and \$31.5 million in aggregate principal amount of Series 2021-C Class C solar loan-backed notes (collectively, the "HELVII Notes") with a maturity date of October 2048. The HELVII Notes were issued at a discount of 0.04% for Class A, 0.03% for Class B and 0.01% for Class C and bear interest at an annual rate of 2.03%, 2.33% and 2.63%, respectively. The cash flows generated by these solar loans are used to service the monthly principal and interest payments on the HELVII Notes and satisfy HELVII's expenses, and any remaining cash can be distributed to Sunnova Helios VII Depositor, LLC, HELVII's sole member. In connection with the HELVII Notes, certain of our affiliates receive a fee for managing and servicing the solar energy systems pursuant to management and service agreements. In January 2020, the notional amount of the interest rate cap began decreasing to match TEPINV's estimated monthly principal payments on the debt. During the year ended December 31, 2021, the aggregate principal amount outstanding under the TEPINV revolving credit facility was fully repaid, TEPINV unwound the only outstanding interest rate cap with an aggregate notional amount of \$36.6 million and recorded a realized gain of an immaterial amount.

State, federal and foreign income taxes are \$260,000, \$181,000 and \$0 for the years ended December 31, 2021, 2020 and 2019, respectively. The tax effects of temporary differences that give rise to significant portions of the deferred tax assets (liabilities) are as follows:

Net deferred tax asset	\$ —	\$ —

A full valuation allowance of \$281.6 million and \$334.2 million was recorded against our net deferred tax assets as of December 31, 2021 and 2020, respectively. We believe it is not more likely than not that future taxable income and the reversal of deferred tax liabilities will be sufficient to realize our net deferred tax assets. Our estimated federal tax net operating loss carryforward as of December 31, 2021 is approximately \$1.2 billion, which will begin to expire in 2032 if not utilized. We also generated \$8.3 million of Section 48(a) ITCs in 2021 for a net \$275.8 million through December 31, 2021, which will begin to expire in 2033 if not utilized.

We assessed whether we had any significant uncertain tax positions taken in a filed tax return, planned to be taken in a future tax return or claim, or otherwise subject to interpretation and determined there were none not more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position, or prospectively approved when such approval may be sought in advance. Accordingly, we recorded no reserve for uncertain tax positions. Should a provision for any interest or penalties relative to unrecognized tax benefits be necessary, it is our policy to accrue for such in our income tax accounts. There were no such accruals as of December 31, 2021 and 2020 and we do not expect a significant change in gross unrecognized tax benefits in the next twelve months. Our tax years after 2011 remain subject to examination by the IRS and by the taxing authorities in the states and territories in which we operate.

Under the provisions of the Internal Revenue Code and similar state provisions, our net operating loss carryforwards and tax credit carryforwards are subject to review and possible adjustment by the IRS and state tax authorities. Under Sections 382 and 383 of the Internal Revenue Code, as well as similar state provisions, our net operating loss and tax credit carryforwards may be subject to an annual limitation in the event of certain cumulative changes in the ownership interest of certain significant shareholders over a three-year period in excess of 50%. This could limit the amount of tax attributes that can be utilized annually to offset future taxable income or tax liabilities. The amount of the annual limitation is determined based on the value of our company immediately prior to the ownership change. Subsequent ownership changes may further affect the limitation in future years. We experienced an ownership change in August 2020 as defined by Sections 382 and 383 of the Internal Revenue Code, which limits our future ability to utilize NOLs and tax credits generated before the "ownership change". However, these limitations do not prevent the use of our NOLs to offset certain built-in gains, including deemed gains with respect to our cost recovery deductions, recognized by us within five years after the ownership change with respect to assets held by us at the time of the ownership change, or the use of our tax credits to offset related tax liabilities, to the extent of our "net unrealized built-in gain" at the time of the ownership change. We have determined that, based upon the size of our net unrealized built-in gain at the time of our 2020 ownership change and our projected recognition of deemed built-in gains in the five years following the ownership change, there is no impact on the balances for deferred taxes or valuation allowance.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

We conduct operations in the U.S. territories of Puerto Rico, Guam and the Commonwealth of the Northern Mariana Islands. As a result, our income tax expense includes the effects of taxes incurred in such jurisdictions where the tax code for the respective jurisdiction may have separate tax-reporting requirements. Jurisdiction-specific income taxes, in aggregate, do not adjust our effective income tax rate of 0%.

In March 2020, the U.S. enacted the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"), featuring significant tax provisions and relief measures to assist individuals and businesses impacted by the economic effects of the COVID-19 pandemic. Relief measures intended to aid businesses in employee retention include payroll tax relief and a refundable tax credit for employers who retain employees during the COVID-19 pandemic. In addition, among other things, the CARES Act establishes (a) a five-year carryback of net operating losses generated in 2018, 2019 and 2020, (b) a temporary suspension of the 80% limitation on the use of net operating losses in 2018, 2019 and 2020 and (c) an increase to the adjusted taxable income limitation from 30% to 50% for business interest deductions under Section 163(j) of the U.S. Internal Revenue Code of 1986, as amended, for 2019 and 2020. We have historically maintained, and continue to maintain, a full valuation allowance against deferred tax assets. Due to our aggregate amount of net operating losses, we cannot utilize the carryback or limitation suspension provisions pertaining to the usage of net operating losses.

In December 2020, the U.S. enacted the Continued Assistance for Unemployment Workers Act of 2020 ("CARES Act II"), which provided an extension of the CARES Act's unemployment benefits. It also extended unemployment benefits to independent contractors and provided independent contractors with paid sick and family leave benefits through March 2021. In March 2021, the U.S. enacted the American Rescue Plant Act of 2021 ("ARP Act"), which further extended certain unemployment benefits through early September 2021. The CARES Act, the CARES Act II and the ARP Act have no impact on our valuation allowance.

### (11) Acquisitions

In February 2021, we entered into an Agreement and Plan of Merger (the "Merger Agreement") with certain of our subsidiaries, SunStreet and LEN X, LLC, a Florida limited liability company, the sole member of SunStreet and a wholly-owned subsidiary of Lennar Corporation ("Lenx"). Pursuant to the Merger Agreement, in April 2021, we acquired SunStreet, Lennar Corporation's ("Lennar") residential solar platform, in exchange for up to 7,011,751 shares of our common stock (the "Acquisition"), comprised of 3,095,329 shares in initial consideration issued at closing, 27,526 shares related to the purchase price adjustments in the third quarter of 2021 and up to 3,888,896 shares issuable as earnout consideration after closing of the Acquisition as described below. We believe the Acquisition provides a new strategic path to further scale our residential solar business, reduces customer acquisition costs, provides a multi-year supply of homesites through the development of new home solar communities and allows us to pursue the development of clean and resilient residential microgrids across the U.S.

The purchase consideration was approximately \$218.6 million, consisting of \$128.2 million in the issuance of common stock shares and \$90.4 million representing the fair value of contingent consideration based upon estimated new solar energy system installations through 2025 and the execution of certain binding agreements before the fifth anniversary of the closing of the Acquisition. Pursuant to the Earnout Agreement entered into between us and Lenx, Lenx will have the ability to earn up to an additional 3,888,896 shares of common stock over a five-year period in connection with the Acquisition. The earnout payments are conditioned on SunStreet meeting certain commercial milestones and achieving specified in-service levels. There are two elements to the earnout arrangement. First, we will issue up to 2,777,784 shares to the extent we and our subsidiaries (including SunStreet) place target amounts of solar energy systems into service and enter into qualifying customer agreements related to such solar energy systems. The 2,777,784 shares of common stock issuable under this portion of the earnout can be earned in four installments on a yearly basis (if the in-service target for each such year is achieved) or at the end of the four-year period (if the cumulative in-service target is achieved by the fourth and final year), with the annual periods commencing on the closing date of the Acquisition. This earnout is recorded as contingent consideration. The second element of the earnout is related to the development of microgrid communities. Pursuant to this portion of the earnout, we will issue up to 1,111,112 shares in two separate tranches, each of which has different criteria, if, prior to the fifth anniversary of the closing date of the Acquisition, we enter into binding agreements for the development of microgrid communities. One of these tranches is recorded as contingent consideration. The amount of contingent consideration that could be paid to Lennar has an estimated maximum value of \$94.7 million and a minimum value of \$0. These values were determined based on the projected average share price over the five year earnout period multiplied by the number of shares to be transferred to Lennar if the targets for purchased solar energy systems placed in service are achieved. In connection with the Acquisition, Lennar has committed to contribute an aggregate \$200.0 million (the "Funding Commitment") to four Sunnova tax equity funds, each formed annually during a period of four consecutive years (each such year, a "Contribution Year") commencing in 2021. The solar service agreements and related solar energy systems acquired by each of these four tax equity funds will generally be originated by SunStreet, though a certain number of solar service agreements may be originated by our dealers, subject to certain criteria and expected in-service

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

levels for the year. The favorable terms of the Funding Commitment result in an intangible asset. During the year ended December 31, 2021, we incurred transaction costs of \$6.7 million related to the Acquisition.

The fair values of the assets acquired and liabilities assumed are based on a complex series of judgments about future events and uncertainties and rely heavily on estimates and assumptions. The fair value remains preliminary and may be adjusted if new information obtained regarding facts and circumstances that existed at the acquisition date warrants adjustments to the assets or liabilities initially recognized. Further adjustments to the fair value could occur until the completion of the measurement period. We expect to finalize the valuation no later than one year from the acquisition date. We estimated the fair value of the assets acquired at the acquisition date using a multi-period excess earnings methodology for customer relationships related to system sales and servicing, a cost savings methodology for customer relationships related to new customers, a relief from royalty methodology for the trade name and a discounted cash flow methodology for the tax equity commitment, all using Level 3 inputs.

During the third quarter of 2021, we made changes to our purchase price allocation for facts and circumstances that existed at the acquisition date relating to (a) the issuance of additional shares of common stock, (b) changes to the aggregate principal amount of the MR Note, (c) modifications to the forecasted cash flows for the intangible assets, (d) modifications to the estimated earnout consideration and (e) resulting changes to goodwill. During the third quarter of 2021, we recorded an increase to goodwill of \$9.1 million as a result of purchase price adjustments. The following table presents the fair value of the assets acquired and liabilities assumed, inclusive of the purchase price adjustments, with the excess recorded as goodwill:

	As Adjusted (in thousands)
Cash	\$ 503
Other current assets (includes inventory of \$26,835)	33,562
Property and equipment	217
Intangible assets	211,836
Other assets	1,060
Total assets acquired	247,178
Accounts payable	3,762
Accrued expenses	4,580
Current portion of long-term debt	32,301
Other current liabilities	364
Other long-term liabilities	697
Total liabilities assumed	41,704
Net assets acquired, excluding goodwill	205,474
Purchase consideration	218,624
Goodwill	\$ 13,150

Goodwill represents the excess of the purchase consideration over the aggregate fair value of the assets acquired and liabilities assumed. Goodwill is primarily attributable to the acquired assembled workforce. We do not expect to take any tax deductions for the goodwill associated with the Acquisition unless we decide to make an asset election in the future that would make a portion of the goodwill deductible for tax purposes. The portion of revenue and earnings associated with the acquired business was not separately identifiable due to the integration with our operations.

### (12) Related-Party Transactions

**SEI Debt.** During 2020, certain of our affiliates who have representatives on our Board were holders of more than 10% of our common stock and were also holders of our 9.75% convertible senior notes. For the year ended December 31, 2020, we recorded expense related to such holders of approximately \$1.3 million in interest expense, net in the consolidated statement of operations while the holders were classified as a related party. As of December 31, 2020, such holders no longer owned more than 10% of our common stock.

**Sunnova Energy Corporation Debt.** During 2019, certain of our affiliates who have representatives on our Board were holders of certain senior secured notes and convertible notes. In connection with our IPO, we redeemed the senior secured notes

for cash and the holders of the convertible notes converted the principal amount plus accrued and unpaid interest into shares of common stock. We have classified these related transactions as such in the consolidated statements of operations and consolidated statements of cash flows for the year ended December 31, 2019.

**Promissory Notes.** In March 2018, we entered into a bonus agreement with an executive officer providing that each year beginning in January 2019, one-fourth of the outstanding loan balance (and related accrued and unpaid interest) under the promissory notes executed by that officer and an entity controlled by that officer, in favor of Sunnova Energy Corporation, in combined aggregate principal amounts totaling \$1.7 million (the "Officer Notes"), was to be forgiven provided that officer remained employed through the applicable forgiveness date, such that the full amount of the Officer Notes would be forgiven as of January 2022. In January 2019, one-fourth of the balance of the Officer Notes was forgiven. In June 2019, as additional bonus compensation, the remaining principal and interest in the amount of \$1.4 million associated with the Officer Notes was forgiven and Sunnova Energy Corporation agreed to pay the officer a bonus to reimburse the officer for the expected tax liability associated with such forgiveness of \$892,000, which was paid in August 2019.

The purpose of the tax equity entities is to own and operate a portfolio of residential solar energy systems and energy storage systems. The terms of the tax equity entities' operating agreements contain allocations of taxable income (loss), Section 48(a) ITCs and cash distributions that vary over time and adjust between the members on an agreed date (referred to as the flip date). The operating agreements specify either a date certain flip date or an internal rate of return ("IRR") flip date. The date certain flip date is based on the passage of a fixed period of time that generally corresponds to the expiration of the recapture period associated with Section 48(a) ITCs or a year thereafter. The IRR flip date is the date on which the tax equity investor has achieved a contractual rate of return. From inception through the flip date, the Class A members' allocation of taxable income (loss) and Section 48(a) ITCs is generally 99% and the Class B members' allocation of taxable income (loss) and Section 48(a) ITCs is generally 1%. TEPIVA, TEPIVB, TEPIVC, TEPIVD, TEPIVE, TEPIVG, TEPVB, TEPVC, TEPVD and TEP6A also have a step-down period prior to the flip date in which the Class A members' allocation of certain items within taxable income (loss) and Section 48(a) ITCs become 67% and the Class B members' allocation of certain items within taxable income (loss) and Section 48(a) ITCs become 33%. After the related flip date (or, if the tax equity investor has a deficit capital account, typically after such deficit has been eliminated), the Class A members' allocation of taxable income (loss) will typically decrease to 5% (or, in some cases, a higher percentage if required by the tax equity investor) and the Class B members' allocation of taxable income (loss) will increase by an inverse amount.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The redeemable noncontrolling interests and noncontrolling interests are comprised of Class A units, which represent the tax equity investors' interest in the tax equity entities. Both the Class A members and Class B members have call options to allow either member to redeem the other member's interest in the tax equity entities upon the occurrence of certain contingent events, such as bankruptcy, dissolution/liquidation and forced divestitures of the tax equity entities. Additionally, except for TEPIVG and TEPVB, the Class B members have the option to purchase all Class A units, which is typically exercisable at any time during the periods specified under their respective governing documents, and, in regards to the tax equity entities classified as redeemable noncontrolling interests, also have the contingent obligation to purchase all Class A units if the Class A members exercise their right to withdraw, which is typically exercisable at any time during the nine-month period commencing upon the applicable flip date. The carrying values of the redeemable noncontrolling interests were equal to or greater than the estimated redemption values as of December 31, 2021 and 2020.

**Guarantees.** We are contractually obligated to make certain Class A members whole for losses they may suffer in certain limited circumstances resulting from the disallowance or recapture of Section 48(a) ITCs. We have concluded the likelihood of a significant recapture event is remote and consequently have not recorded a liability for any potential recapture exposure. The maximum potential future payments we could be required to make under this obligation would depend on the IRS successfully asserting upon audit the fair market values of the solar energy systems sold or transferred to the tax equity entities as determined by us exceed the allowable basis for the systems for purposes of claiming Section 48(a) ITCs. The fair market values of the solar energy systems and related Section 48(a) ITCs are determined, and the Section 48(a) ITCs are allocated to the Class A members, in accordance with the tax equity entities' operating agreements. Due to uncertainties associated with estimating the timing and amounts of distributions, the likelihood of an event that may trigger repayment, forfeiture or recapture of Section 48(a) ITCs to such Class A members, and the fact that we cannot determine how the IRS will evaluate system values used in claiming Section 48(a) ITCs, we cannot determine the potential maximum future payments that are required under these guarantees.

From time to time, we incur non-performance fees, which may include, but is not limited to, delays in the installation process and interconnection to the power grid of solar energy systems and other factors. The non-performance fees are settled by either a return of a portion of the Class A members' capital contributions or an additional payment to the Class A members. During the years ended December 31, 2021, 2020 and 2019, we paid \$41.2 million, \$2.1 million and \$1.3 million, respectively, related to non-performance fees. As of December 31, 2021 and 2020, we recorded a liability of \$5.1 million and \$1.5 million, respectively, related to non-performance fees.

#### ***Series A Common Stock***

In connection with our IPO, our Series A common stock was redesignated as common stock.

#### ***Series B Common Stock***

In connection with our IPO, we converted 23,870 shares of our non-voting Series B common stock, which represented all the outstanding shares of our Series B common stock, into 23,870 shares of our voting Series A common stock, which was subsequently redesignated as common stock.

#### ***Common Stock***

On July 24, 2019, we priced 14,000,000 shares of common stock in our IPO at a public offering price of \$12.00 per share and on July 25, 2019 our common stock began trading on the New York Stock Exchange under the symbol "NOVA". On August 19, 2019, we issued and sold an additional 865,267 shares of our common stock at a public offering price of \$12.00 per share pursuant to the underwriters' exercise of their option to purchase additional shares. We received aggregate net proceeds from our IPO of approximately \$162.3 million, after deducting underwriting discounts and commissions of approximately \$10.7 million and offering expenses of approximately \$5.4 million. We used the proceeds from our IPO to repay indebtedness and for working capital purposes.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In December 2020, we sold 4,025,000 shares of common stock at a public offering price of \$37.00 per share. We received aggregate net proceeds of approximately \$142.7 million, after deducting underwriting discounts and commissions of approximately \$6.0 million and offering expenses of approximately \$300,000. We used the net proceeds from the offering to acquire solar equipment, repay indebtedness and for working capital purposes.

During the year ended December 31, 2020, certain of the holders of our 9.75% convertible senior notes converted approximately \$150.8 million aggregate principal amount, including accrued and unpaid interest to the date of each conversion, of our 9.75% convertible senior notes into 11,168,874 shares of our common stock. Such conversions resulted in a loss on extinguishment of debt under GAAP of \$142.8 million for the year ended December 31, 2020.

During the year ended December 31, 2021, the remaining holders of our 9.75% convertible senior notes converted approximately \$97.1 million aggregate principal amount, including accrued and unpaid interest to the date of each conversion, of our 9.75% convertible senior notes into 7,196,035 shares of our common stock. In April 2021, we issued 3,095,329 shares of common stock in connection with the Acquisition. In August 2021, we issued an additional 27,526 shares of common stock in connection with the purchase price adjustments of the Acquisition. See Note 11, Acquisitions. In November 2021, we issued 1,027,409 shares of common stock in connection with our investments in solar receivables. See Note 7, Investments in Solar Receivables.

### **(15) Equity-Based Compensation**

Effective December 2013 and January 2015, we established and adopted two stock option plans (collectively, the "Prior Plans") after approval by our Board. The Prior Plans provided the aggregate number of shares of common stock that may be issued pursuant to stock options shall not exceed 26,032 shares. No further awards may be made under the Prior Plans.

Effective March 2016, we established and adopted a new stock option plan (the "2016 Plan") after approval by our Board. The 2016 Plan allowed for the issuance of non-qualified and incentive stock options. The 2016 Plan provided the aggregate number of shares of common stock that may be issued pursuant to stock options shall not exceed 4,288,950 shares. No further awards may be made under the 2016 Plan.

In connection with our IPO, approximately 50% of the non-vested stock options outstanding at that time, or 995,517 stock options, became exercisable and the vesting terms for all remaining stock options were amended so all stock options would be fully vested on the first anniversary of the closing date of our IPO. We recorded an additional \$3.2 million of expense in July 2019 related to the accelerated vesting periods.

In connection with our IPO, our Board adopted the 2019 Long-Term Incentive Plan (the "LTIP") to incentivize employees, officers, directors and other service providers of SEI and its affiliates. The LTIP provides for the grant, from time to time, at the discretion of our Board or a committee thereof, of stock options, stock appreciation rights, stock awards, including restricted stock and restricted stock units, performance awards and cash awards. The LTIP provides the aggregate number of shares of common stock that may be issued pursuant to awards shall not exceed 5,229,318 shares. The number of shares available for issuance under the LTIP will be increased each fiscal year beginning in 2020, in an amount equal to the lesser of (a) a number of shares such that the total number of shares that remain available for additional grants under the LTIP equals five percent of the outstanding shares of our common stock on the last day of the immediately preceding fiscal year or (b) such number of shares determined by our Board. In March 2021, the aggregate number of shares of common stock that may be issued pursuant to awards under the LTIP was increased by 2,214,561, an amount which, together with the shares remaining available for grant under the LTIP, is equal to 5,020,602, or 5% of the number of shares of common stock outstanding as of December 31, 2020. Awards granted under the LTIP contain a service condition and cease vesting for employees, consultants and directors upon termination of employment or service. During the year ended December 31, 2021, we granted 629,741 restricted stock units to certain employees, consultants and directors with a grant date fair value of \$23.8 million, which will be recognized ratably over the applicable vesting period of each award (either one year, three years or seven years).

The Prior Plans and the 2016 Plan will only allow for settlement of stock options by the issuance of common stock and restricted stock units issued under the LTIP can generally only be settled by the issuance of common stock. Therefore, we classify the stock options and restricted stock units as equity awards. We recognize the fair value of equity-based compensation awards as compensation cost in the financial statements, beginning on the grant date. We base compensation expense on the fair value of the awards we expect to vest, recognized over the service period, and adjusted for actual forfeitures that occur before vesting.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### *Stock Options*

During 2019, we granted 94,295 stock options to employees. During 2019, 2,143 stock options were exercised resulting in the issuance of 2,143 shares of common stock in exchange for an insignificant amount of cash. During 2020, no stock options were granted and 922,770 stock options were exercised resulting in the issuance of 922,770 shares of common stock in exchange for \$13.6 million. During 2021, 75,031 stock options were granted and 569,740 stock options were exercised resulting in the issuance of 569,740 shares of common stock in exchange for \$9.0 million.

We used the following assumptions to apply the Black-Scholes option-pricing model to stock options granted during the years ended December 31, 2021 and 2019:

	Year Ended December 31,	
	2021	2019
Expected dividend yield	0.00%	0.00%
Risk-free interest rate	1.13%	2.62%
Expected term (in years)	6.13	7.94
Volatility	55%	81%

The expected volatility was calculated based on the average historical volatilities of publicly traded peer companies determined by us. The risk-free interest rate used was based on the U.S. treasury yield curve in effect at the time of grant for the expected term of the stock options to be valued. The expected dividend yield is zero as we do not anticipate paying common stock dividends within the relevant time frame. The expected term has been estimated using the average of the contractual term and weighted average life of the stock options. The following table summarizes stock option activity:

	Number of Stock Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Weighted Average Grant Date Fair Value	Aggregate Intrinsic Value  (in thousands)

Non-vested, December 31, 2021	67,266			\$ 18.35	

The number of stock options that vested during the years ended December 31, 2021 and 2020 was 1,941 and 915,501, respectively. The grant date fair value of stock options that vested during the years ended December 31, 2021 and 2020 was \$36,000 and \$3.2 million, respectively. As of December 31, 2021, there was \$914,000 of total unrecognized compensation expense related to stock options, which is expected to be recognized over the remaining weighted average period of 1.47 years.

These condensed financial statements include the condensed balance sheets, condensed statements of operations and condensed statements of cash flows and have been prepared on a parent-only basis. These parent-only financial statements do not include all of the information and notes required by accounting principles generally accepted in the United States of America for annual financial statements and therefore, these parent-only financial statements and other information included should be read in conjunction with SEI's consolidated financial statements and related notes contained within this Annual Report on Form 10-K.

**Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.**

None.

**Item 9A. Controls and Procedures.**

**Internal Control Over Financial Reporting**

*Evaluation of Disclosure Controls and Procedures*

We carried out an evaluation, under the supervision and with the participation of our management, including our CEO and our Chief Financial Officer ("CFO"), of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Annual Report on Form 10-K, pursuant to Rules 13a-15(e) and 15d-15(e) under the Exchange Act. In connection with that evaluation, our CEO and our CFO concluded our disclosure controls and procedures were effective and designed to provide reasonable assurance the information required to be disclosed is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms as of December 31, 2021, and that such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosures. The term "disclosure controls and procedures", as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure information required to be disclosed by a company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure information required to be disclosed by a company in the reports it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Management recognizes any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

*Changes in Internal Control over Financial Reporting*

In connection with the Acquisition, we are integrating SunStreet's internal controls over financial reporting into our financial reporting framework. Such integration has resulted and may continue to result in changes that materially affect our internal control over financial reporting (as described in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). Other than the changes that have and may continue to result from such integration, there was no change in our internal control over financial reporting that occurred during the fourth quarter of 2021 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

*Limitations on Effectiveness of Controls and Procedures*

Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives as specified above. However, our management, including our principal executive and principal financial officers, does not expect that our disclosure controls and procedures will prevent or detect all error and fraud. Any control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable, not absolute, assurance that its objectives will be met. Further, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within our company have been detected.

*Management's Report on Internal Control over Financial Reporting*

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined by Rule 13a-15(f) under the Exchange Act). Management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission to evaluate the effectiveness of our internal control over financial reporting. Management has assessed the effectiveness of our internal control over financial reporting as of December 31, 2021 and has concluded that such internal control over financial reporting is effective.

We completed the acquisition of SunStreet in April 2021. As the Acquisition occurred in the second quarter of 2021, we have excluded SunStreet's internal control over financial reporting from the scope of management's 2021 annual assessment of the effectiveness of our disclosure controls and procedures. Associated with SunStreet are total assets of \$89.7 million as of December 31, 2021 and revenue of \$31.0 million for the year ended December 31, 2021 that were excluded from management's annual assessment. This exclusion is in accordance with the general guidance issued by the Staff of the SEC that an assessment

of a recent business combination may be omitted from management's report on internal control over financial reporting in the first year of consolidation.

The effectiveness of our internal control over financial reporting as of December 31, 2021 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in its report which is included in Item 8 of this Annual Report on Form 10-K.

### **Definitions**

*Section 1.01. General Definitions and Rules of Construction.* Except as otherwise specified or as the context may otherwise require, capitalized terms used in this Indenture shall have the respective meanings given to such terms in the Standard Definitions attached hereto as Annex A, which is hereby incorporated by reference into this Indenture as if set forth fully in this Indenture. The rules of construction set forth in Annex A shall apply to this Indenture and are hereby incorporated by reference into this Indenture as if set forth fully in this Indenture.

*Section 1.02. Calculations.* Calculations required to be made pursuant to this Indenture shall be made on the basis of information or accountings as to payments on each Note furnished by the Servicer. Except to the extent they are incorrect on their face, such information or accountings may be conclusively relied upon in making such calculations, but to the extent that it is later determined that any such information or accountings are incorrect, appropriate corrections or adjustments will be made.

## **Article II**

### **The Notes; Reconveyance**

*Section 2.01. General.* (a) The Notes shall be designated as the "Sunnova Helios VII Issuer, LLC, 2.03% Solar Loan Backed Notes, Series 2021-C, Class A", the "Sunnova Helios VII Issuer, LLC, 2.33% Solar Loan Backed Notes, Series 2021-C, Class B" and the "Sunnova Helios VII Issuer, LLC, 2.63% Solar Loan Backed Notes, Series 2021-C, Class C".

(b) All payments of principal and interest with respect to the Notes shall be made only from the Trust Estate on the terms and conditions specified herein. Each Noteholder and each Note Owner, by its acceptance of a Note, agrees that, subject to the repurchase obligations of Sunnova ABS Holdings VII and the Depositor in the Contribution Agreement and the indemnification obligations provided for herein and in the Contribution Agreement, the Management Agreement and the Servicing Agreement and the obligations of the Performance Guarantor under the Performance Guaranty, it will have recourse solely against such Trust Estate and such repurchase and indemnification obligations.

(c) Except as otherwise provided herein, all Notes shall be substantially identical in all respects. Except as specifically provided herein, all Notes issued, authenticated and delivered under this Indenture shall be in all respects equally and ratably entitled to the benefits hereof without preference, priority or distinction on account of the actual time or times of authentication and delivery, all in accordance with the terms and provisions of this Indenture.

(d) The Initial Outstanding Note Balance of the Class A Notes, the Class B Notes and the Class C Notes, that may be executed by the Issuer and authenticated and delivered by the

Indenture Trustee and Outstanding at any given time under this Indenture is limited to \$68,400,000, \$55,900,000 and \$31,500,000, respectively.

(e) Holders of the Notes shall be entitled to payments of interest and principal as provided herein. Each Class of Notes shall have a final maturity on the Rated Final Maturity. All Notes of the same Class shall be secured on parity with one another, with no Note of any Class having any priority over any other Note of that same Class.

(f) The Notes that are authenticated and delivered to the Noteholders by the Indenture Trustee upon an Issuer Order on the Closing Date shall be dated as of the Closing Date. Any Note issued later in exchange for, or in replacement of, any Note issued on the Closing Date shall be dated the date of its authentication.

(g) Each Class of Notes is issuable in minimum denominations of \$100,000 and integral multiples of \$1,000 in excess thereof; provided that one Note of each Class of Notes may be issued in an amount equal to the minimum initial denomination for such Class of Notes plus any remaining portion of the Initial Outstanding Note Balance of such Class of Notes; provided, further, that the foregoing shall not restrict or prevent the transfer in accordance with the last sentence of Section 2.07 hereof of any Note with a remaining Outstanding Note Balance of less than \$100,000.

*Section 2.02. Forms of Notes.* The Notes shall be in substantially the form set forth in Exhibit A-1, Exhibit A-2 and Exhibit A-3, as applicable, with such appropriate insertions, omissions, substitutions and other variations as are required or permitted by this Indenture, and may have such letters, numbers or other marks of identification and such legends or endorsements placed thereon as may, consistently herewith, be determined by the Issuer, as evidenced by its execution thereof.

The Definitive Notes shall be typewritten, printed, lithographed or engraved or produced by any combination of these methods, all as determined by the officers executing such Notes, as evidenced by their execution of such Notes.

Each Note shall be dated the date of its authentication. The terms of the Notes are set forth in Exhibit A-1, Exhibit A-2 and Exhibit A-3 are part of the terms of this Indenture.

(a) *Global Notes.* The Notes are being offered and sold by the Issuer to the Initial Purchasers pursuant to the Note Purchase Agreement.

Notes offered and sold within the United States to QIBs in reliance on Rule 144A shall be issued initially in the form of Rule 144A Global Notes, which shall be deposited on behalf of the purchasers of the Notes represented thereby with the Indenture Trustee, as custodian for the Securities Depository, and registered in the name of the Securities Depository or a nominee of the Securities Depository, duly executed by the Issuer and authenticated by the Indenture Trustee as hereinafter provided. The Outstanding Note Balance of the Rule 144A Global Notes may from time to time be increased or decreased by adjustments made on the records of the Indenture Trustee and the Securities Depository or its nominee as hereinafter provided. The Indenture Trustee shall not be liable for any error or omission by the Securities Depository in making such record adjustments and the records of the Indenture Trustee shall be controlling with regard to outstanding principal amount of Notes hereunder.

Notes offered and sold outside of the United States in reliance on Regulation S under the Securities Act shall initially be issued in the form of a Regulation S Temporary Global Note, which shall be deposited on behalf of the purchasers of the Notes represented thereby with the

Indenture Trustee, as custodian for the Securities Depository, and registered in the name of the Securities Depository or the nominee of the Securities Depository for the investors' respective accounts at Euroclear Bank S.A./N.V. as operator of the Euroclear System ("*Euroclear*") or Clearstream Banking *société anonyme* ("*Clearstream*"), duly executed by the Issuer and authenticated by the Indenture Trustee as hereinafter provided. Beneficial interests in the Regulation S Temporary Global Notes may be held only through Euroclear or Clearstream.

Within a reasonable period of time following the expiration of the "40-day distribution compliance period" (as defined in Regulation S), beneficial interests in the Regulation S Temporary Global Note shall be exchanged for beneficial interests in Regulation S Permanent Global Notes upon the receipt by the Indenture Trustee of (i) a written certificate from the Securities Depository, together with copies of certificates from Euroclear and Clearstream, certifying that they have received certification of non-United States beneficial ownership of 100% of the Outstanding Note Balance of the Regulation S Temporary Global Note (except to the extent of any beneficial owners thereof who acquired an interest therein pursuant to another exemption from registration under the Securities Act and who will take delivery of a beneficial ownership interest in a Rule 144A Global Note, all as contemplated by Section 2.08(a)(ii)), and (ii) an Officer's Certificate from the Issuer. The Regulation S Permanent Global Notes will be deposited with the Indenture Trustee, as custodian, and registered in the name of a nominee of the Securities Depository. Simultaneously with the authentication of the Regulation S Permanent Global Notes, the Indenture Trustee shall cancel the Regulation S Temporary Global Note. The Outstanding Note Balance of the Regulation S Temporary Global Note and the Regulation S Permanent Global Notes may from time to time be increased or decreased by adjustments made on the records of the Indenture Trustee and the Securities Depository or its nominee, as the case may be, in connection with transfers of interest as hereinafter provided. The Indenture Trustee shall incur no liability for any error or omission of the Securities Depository in making such record adjustments and the records of the Indenture Trustee shall be controlling with regard to outstanding principal amount of Regulation S Global Notes hereunder.

Each Global Note shall represent such of the outstanding Notes as shall be specified therein and each shall provide that it shall represent the aggregate amount of outstanding Notes from time to time endorsed thereon and that the aggregate amount of outstanding Notes represented thereby may from time to time be reduced or increased, as appropriate, to reflect exchanges and prepayments. Any endorsement of a Global Note to reflect the amount of any increase or decrease in the amount of outstanding Notes represented thereby shall be made by the Indenture Trustee, or by the Note Registrar at the direction of the Indenture Trustee, in accordance with instructions given by the Holder thereof as required by Section 2.08.

The provisions of the "Operating Procedures of the Euroclear System" and "Terms and Conditions Governing Use of Euroclear" and the "Management Regulations" and "Instructions to Participants" of Clearstream shall be applicable to interests in the Regulation S Temporary Global Note and the Regulation S Permanent Global Notes that are held by the members of, or participants in, the Securities Depository ("*Agent Members*") through Euroclear or Clearstream.

Except as set forth in Section 2.08, the Global Notes may be transferred, in whole and not in part, only to another nominee of the Securities Depository or to a successor of the Securities Depository or its nominee.

(b) *Book-Entry Provisions.* This Section 2.02(b) shall apply only to the Global Notes deposited with or on behalf of the Securities Depository.

The Issuer shall execute and the Indenture Trustee shall, in accordance with this Section 2.02(b), authenticate and deliver one Global Note for each Class of Notes which (i) shall be registered in the name of the Securities Depository or the nominee of the Securities Depository and (ii) shall be delivered by the Indenture Trustee to the Securities Depository or pursuant to the Securities Depository's instructions or held by the Indenture Trustee as custodian for the Securities Depository.

Agent Members shall have no rights either under this Indenture with respect to any Global Note held on their behalf by the Securities Depository or by the Indenture Trustee as custodian for the Securities Depository or under such Global Note, and the Securities Depository may be treated by the Issuer, the Indenture Trustee and any agent of the Issuer or the Indenture Trustee as the absolute owner of such Global Note for all purposes whatsoever. Notwithstanding the foregoing, nothing herein shall prevent the Issuer, the Indenture Trustee or any agent of the Issuer or the Indenture Trustee from giving effect to any written certification, proxy or other authorization furnished by the Securities Depository or impair, as between the Securities Depository and its Agent Members, the operation of customary practices of such Securities Depository governing the exercise of the rights of an owner of a beneficial interest in any Global Note.

The Note Registrar and the Indenture Trustee shall be entitled to treat the Securities Depository for all purposes of this Indenture (including the payment of principal of and interest on the Notes and the giving of instructions or directions hereunder) as the sole Holder of the Notes, and shall have no obligation to the Note Owners.

The rights of Note Owners shall be exercised only through the Securities Depository and shall be limited to those established by law and agreements between such Note Owners and the Securities Depository and/or the Agent Members pursuant to the Note Depository Agreement. The initial Securities Depository will make book-entry transfers among the Agent Members and receive and transmit payments of principal of and interest on the Notes to such Agent Members with respect to such Global Notes.

Whenever this Indenture requires or permits actions to be taken based upon instructions or directions of Holders of Notes evidencing a specified percentage of the Outstanding amount of the Notes, the Securities Depository shall be deemed to represent such percentage only to the extent that it has received instructions to such effect from Note Owners and/or Agent Members owning or representing, respectively, such required percentage of the beneficial interest in the Notes and has delivered such instructions to the Indenture Trustee.

(c) *Definitive Notes.* Except as provided in Sections 2.08 and 2.13, owners of beneficial interests in Global Notes will not be entitled to receive physical delivery of certificated definitive, fully registered Notes (the "*Definitive Notes*").

*Section 2.03. Payment of Interest.* (a) Noteholders shall, subject to the priorities and conditions set forth in the Priority of Payments, be entitled to receive payments of interest and principal on each Payment Date. Any payment of interest or principal payable with respect to the Notes on the applicable Payment Date shall be made to the Person in whose name such Note is registered as of the Record Date for such Payment Date in the manner provided in Section 5.09.

(b) On each Payment Date, the Interest Distribution Amount for each Class of Notes will be distributed to the registered Noteholders of the applicable Class of Notes as of the related Record Date to the extent Available Funds are sufficient for such distribution in accordance with the Priority of Payments or the Acceleration Event Priority of Payments, as applicable. Interest on the Notes with respect to any Payment Date will accrue at the applicable Note Rate based on the Interest Accrual Period.

(c) If the Aggregate Outstanding Note Balance has not been paid in full on or before the Anticipated Repayment Date, additional interest (the "*Post-ARD Additional Interest Amounts*") will begin to accrue during each Interest Accrual Period thereafter on each outstanding Class of Notes at the related Post-ARD Additional Interest Rate. The Post-ARD Additional Interest Amounts, if any, for a Class of Notes will only be due and payable (i) after the Aggregate Outstanding Note Balance, any Note Balance Write-Down Amounts and any Deferred Interest amounts have been paid in full or (ii) on the date on which a Voluntary Prepayment of all outstanding Notes in full is being made. Prior to such time, the Post-ARD Additional Interest Amounts accruing on a Class of Notes will be deferred and added to any Post-ARD Additional Interest Amounts previously deferred and remaining unpaid ("*Deferred Post-ARD Additional Interest Amounts*"). Deferred Post-ARD Additional Interest Amounts will not bear interest.

*Section 2.04. Payments to Noteholders.* (a) Principal payments and interest on a Class of Notes will be made on each Payment Date to the Noteholders of each Class as of the related Record Date pursuant to the Priority of Payments. The remaining Outstanding Note Balance of each Class of Notes, if any, shall be payable no later than the Rated Final Maturity.

(b) All reductions in the principal balance of a Note (or one or more Predecessor Notes) effected by payments of principal made on any Payment Date shall be binding upon all Holders of such Note and of any Note issued upon the registration of transfer thereof or in exchange therefor or in lieu thereof, whether or not such payment is noted on such Note.

(c) The Note Balance Write-Down Amount shall be applied in the following order of priority: (i) to the Class C Notes until the Outstanding Note Balance of the Class C Notes is reduced to zero, (ii) to the Class B Notes until the Outstanding Note Balance of the Class B Notes is reduced to zero and (iii) to the Class A Notes until the Outstanding Note Balance of the Class A Notes is reduced to zero. The application of the Note Balance Write-Down Amount to a Class of Notes will not reduce such Class' entitlement to unpaid principal and interest.

*Section 2.05. Execution, Authentication, Delivery and Dating.* (a) The Notes shall be executed by the Issuer. The signature of such Authorized Officer on the Notes may be manual or facsimile. Notes bearing the manual or facsimile signature of any individual who was, at the time of execution thereof, an Authorized Officer of the Issuer shall bind the Issuer, notwithstanding the fact that such individual ceased to hold such office prior to the authentication and delivery of such Notes or did not hold such office at the date of issuance of such Notes.

(b) On the Closing Date, the Issuer shall, and at any time and from time to time after the execution and delivery of this Indenture, the Issuer may deliver Notes executed by the Issuer to the Indenture Trustee for authentication, and the Indenture Trustee, upon receipt of the Notes and of an Issuer Order, shall authenticate and deliver such Notes; *provided, however*, that the Indenture Trustee shall not authenticate the Notes on the Closing Date unless and until it shall have received the documents listed in Section 2.12.

(c) Each Note authenticated and delivered by the Indenture Trustee to or upon an Issuer Order on or prior to the Closing Date shall be dated the Closing Date. All other Notes that are authenticated after the Closing Date for any other purpose under this Indenture shall be dated the date of their authentication.

(d) Notes issued upon transfer, exchange or replacement of other Notes shall be issued in authorized denominations reflecting the Outstanding Note Balance so transferred, exchanged or replaced, but shall represent only the Outstanding Note Balance so transferred, exchanged or replaced. In the event that any Note is divided into more than one Note in accordance with this Article II, such Outstanding Note Balance shall be divided among the Notes delivered in exchange therefor.

(e) No Note shall be entitled to any benefit under this Indenture or be valid or obligatory for any purpose unless there appears on such Note a certificate of authentication, substantially in the form provided for herein, executed by the Indenture Trustee by the manual signature of a Responsible Officer of the Indenture Trustee, and such executed certificate upon any Note shall be conclusive evidence, and the only evidence, that such Note has been duly authenticated and delivered.

*Section 2.06. Temporary Notes.* Except for the Notes maintained in book-entry form, temporary Notes shall be issuable in any authorized denomination, and substantially in the form of the Definitive Notes but with such omissions, insertions and variations as may be appropriate for temporary Notes, all as may be determined by the Issuer. Every such temporary Note shall be executed by the Issuer and authenticated by the Indenture Trustee upon the same conditions and in substantially the same manner, and with the same effect, as the Definitive Notes. Without unreasonable delay, the Issuer will execute and deliver to the Indenture Trustee Definitive Notes (other than in the case of Notes in global form) and thereupon any or all temporary Notes (other than in the case of Notes in global form) may be surrendered in exchange therefor, at the Corporate Trust Office, and the Indenture Trustee shall authenticate and deliver in exchange for such temporary Notes an equal aggregate principal amount of Definitive Notes. Such exchange shall be made by the Issuer at its own expense and without any charge therefor. Until so exchanged, the temporary Notes shall in all respects be entitled to the same benefits and subject to the same limitations under this Indenture as Definitive Notes authenticated and delivered hereunder.

*Section 2.07. Registration, Registration of Transfer and Exchange.* (a) The Indenture Trustee (in such capacity, the "Note Registrar") shall cause to be kept at its Corporate Trust Office a register (the "Note Register"), in which, subject to such reasonable regulations as it may prescribe, the Note Registrar shall provide for the registration of the Notes and the registration of transfers of such Notes. The Notes are intended to be obligations in registered form for purposes of Section 163(f), Section 871(h)(2) and Section 881(c)(2) of the Code.

(b) Each Person who has or who acquires any Ownership Interest in a Note shall be deemed by the acceptance or acquisition of such Ownership Interest to have agreed to be bound by the provisions of this Section 2.07 and Section 2.08.

(c) Each purchaser of Global Notes, other than the Initial Purchasers, by its acceptance thereof, will be deemed to have acknowledged, represented and agreed as follows:

(i) The purchaser (A) (1) is a QIB, (2) is aware that the sale to it is being made in reliance on Rule 144A and (3) is acquiring the Notes or interests therein for its own account (and not for the account of others) or as a fiduciary agent for others (which others are also QIBs and have executed an agreement containing substantially the same representations as provided herein); or (B) is not a U.S. Person and is purchasing the Notes or interests therein in an offshore transaction pursuant to Regulation S. The purchaser is aware that it (or any account of a QIB for which it is purchasing) may be required to bear the economic risk of an investment in the Notes for an indefinite period, and it (or such account) is able to bear such risk for an indefinite period.

(ii) The purchaser understands that the Notes and interests therein are being offered in a transaction not involving any public offering in the United States within the meaning of the Securities Act, that the Notes have not been and will not be registered under the Securities Act or any other applicable securities laws and that (A) if in the future it decides to offer, resell, pledge or otherwise transfer any of the Notes or any interests therein, such Notes (or the interests therein) may not be offered, resold, pledged or otherwise transferred in denominations (the "*Minimum Denomination*") lower than \$100,000 and in each case, in integral multiples of \$1,000 in excess thereof, and only (i) in the United States to a person whom the seller reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A (acting for its own account and not for the account of others, or as a fiduciary or agent for other QIBs to whom notice is given that the sale, pledge or transfer is being made in reliance on Rule 144A), (ii) outside the United States in a transaction complying with the provisions of Regulation S

under the Securities Act or (iii) pursuant to another exemption from registration under the Securities Act (if available and evidenced by an opinion of counsel acceptable to the Issuer and the Indenture Trustee), in each of cases (i) through (iii) in accordance with any applicable securities laws of any state of the U.S. and any other applicable jurisdiction, and that (B) the purchaser will, and each subsequent holder is required to, notify any subsequent purchaser of such Notes or interests therein from it of the resale restrictions referred to above. Notwithstanding the foregoing restriction, any Note that has originally been properly issued in an amount no less than the Minimum Denomination, or any interest therein, may be offered, resold, pledged or otherwise transferred in a denomination less than the Minimum Denomination if such lesser denomination is solely a result of a reduction of principal due to payments made in accordance with this Indenture.

(iii) The purchaser acknowledges that none of the Issuer, Sunnova Energy, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Manager, the Servicer, the Backup Servicer, the Transition Manager, the Depositor, the Indenture Trustee or the Initial Purchasers or any person representing the Issuer, Sunnova Energy, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Manager, the Servicer, the Backup Servicer, the Transition Manager, the Depositor, the Indenture Trustee or the Initial Purchasers has made any representation to it with respect to the Issuer or Sunnova Energy, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Manager, the Servicer, the Backup Servicer, the Transition Manager, the Depositor, the Indenture Trustee or the Initial Purchasers or the sale of any Notes, other than the information contained in the Offering Circular, which Offering Circular has been delivered to it and upon which it is relying in making its investment decision with respect to the Notes; accordingly, it acknowledges that no representation or warranty is made by the Issuer, Sunnova Energy, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Manager, the Servicer, the Backup Servicer, the Transition Manager, the Depositor, the Indenture Trustee or the Initial Purchasers as to the accuracy or completeness of such materials; and it has had access to such financial and other information concerning the Issuer, Sunnova Energy, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Manager, the Servicer, the Backup Servicer, the Transition Manager, the Depositor, the Indenture Trustee and the Notes as it has deemed necessary in connection with its decision to purchase any of the Notes, including an opportunity to ask questions and request information from the Issuer, Sunnova Energy, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Manager, the Servicer, the Backup Servicer, the Transition Manager, the Depositor, the Indenture Trustee and the Initial Purchasers. It acknowledges that the delivery of the Offering Circular at any time does not imply that information herein is correct as of any time subsequent to this date.

(iv) The purchaser understands that the applicable Notes will, until such Notes may be resold pursuant to Rule 144(b)(1) of the Securities Act, unless otherwise agreed by the Issuer and the holder thereof, bear a legend substantially to the following effect:

THIS NOTE (OR ITS PREDECESSOR) HAS NOT BEEN AND WILL NOT BE REGISTERED OR QUALIFIED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR UNDER THE SECURITIES OR BLUE SKY LAWS OF ANY STATE IN THE UNITED STATES OR ANY FOREIGN SECURITIES LAWS. NEITHER THIS NOTE NOR ANY INTEREST HEREIN MAY BE OFFERED, SOLD OR OTHERWISE TRANSFERRED IN THE ABSENCE OF SUCH REGISTRATION OR AN APPLICABLE EXEMPTION THEREFROM. EACH PURCHASER OF THIS NOTE OR ANY INTEREST HEREIN IS HEREBY NOTIFIED

THAT THE SELLER OF THIS NOTE OR INTEREST HEREIN MAY BE RELYING ON THE EXEMPTION FROM THE PROVISIONS OF SECTION 5 OF THE SECURITIES ACT PROVIDED BY RULE 144A THEREUNDER.

EACH PURCHASER AND TRANSFEREE (AND IF THE PURCHASER OR TRANSFEREE IS A BENEFIT PLAN INVESTOR, ITS FIDUCIARY) BY ITS PURCHASE OF THIS NOTE OR INTEREST HEREIN IS DEEMED TO HAVE REPRESENTED AND WARRANTED THAT IT IS EITHER (1) NOT, AND NOT ACQUIRING THE NOTE OR INTEREST THEREIN FOR OR ON BEHALF OF OR WITH THE ASSETS OF, ANY EMPLOYEE BENEFIT PLAN AS DEFINED IN SECTION 3(3) OF ERISA THAT IS SUBJECT TO TITLE I OF ERISA OR ANY OTHER "PLAN" AS DEFINED IN SECTION 4975(E)(1) OF THE CODE THAT IS SUBJECT TO SECTION 4975 OF THE CODE OR ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE PLAN ASSETS BY REASON OF AN EMPLOYEE BENEFIT PLAN'S OR PLAN'S INVESTMENT IN SUCH ENTITY (EACH A "BENEFIT PLAN INVESTOR"), OR ANY PLAN THAT IS SUBJECT TO ANY LAW SUBSTANTIALLY SIMILAR TO ERISA OR SECTION 4975 OF THE CODE ("SIMILAR LAW"), OR (2) IF THE PURCHASER OR TRANSFEREE IS A BENEFIT PLAN INVESTOR OR A PLAN SUBJECT TO SIMILAR LAW, THE PURCHASER AND TRANSFEREE AND THE FIDUCIARY OF SUCH BENEFIT PLAN INVESTOR OR PLAN BY ITS PURCHASE OF THIS NOTE OR INTEREST HEREIN IS DEEMED TO HAVE REPRESENTED AND WARRANTED THAT THE PURCHASE, HOLDING AND DISPOSITION OF THIS NOTE OR INTEREST HEREIN DOES NOT RESULT IN A NON-EXEMPT PROHIBITED TRANSACTION UNDER ERISA OR SECTION 4975 OF THE CODE OR A NON-EXEMPT PROHIBITED TRANSACTION UNDER OR VIOLATION OF SIMILAR LAW AND WILL BE CONSISTENT WITH ANY APPLICABLE FIDUCIARY DUTIES THAT MAY BE IMPOSED UPON THE PURCHASER OR TRANSFEREE.

THE HOLDER OF THIS NOTE OR ANY INTEREST HEREIN AGREES FOR THE BENEFIT OF THE ISSUER THAT (A) THIS NOTE AND ANY INTEREST HEREIN MAY NOT BE OFFERED, RESOLD, PLEDGED OR OTHERWISE TRANSFERRED IN DENOMINATIONS (THE "MINIMUM DENOMINATION") LOWER THAN \$100,000 AND IN INTEGRAL MULTIPLES OF \$1,000 IN EXCESS THEREOF, AND ONLY (I) IN THE UNITED STATES TO A PERSON WHOM THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER (AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT) IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A (ACTING FOR ITS OWN ACCOUNT AND NOT FOR THE ACCOUNT OF OTHERS, OR AS A FIDUCIARY OR AGENT FOR OTHER QIBS TO WHOM NOTICE IS GIVEN THAT THE SALE, PLEDGE OR TRANSFER IS BEING MADE IN RELIANCE ON RULE 144A), (II) OUTSIDE THE U.S. IN AN OFFSHORE TRANSACTION IN ACCORDANCE WITH REGULATION S UNDER THE SECURITIES ACT OR (III) PURSUANT TO ANOTHER EXEMPTION FROM REGISTRATION UNDER THE SECURITIES ACT (IF AVAILABLE AND EVIDENCED BY AN OPINION OF COUNSEL ACCEPTABLE TO THE ISSUER AND THE INDENTURE TRUSTEE), IN EACH OF CASES (I) THROUGH (III) IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES AND ANY OTHER APPLICABLE JURISDICTION, AND (B) THE HOLDER WILL, AND EACH SUBSEQUENT HOLDER IS REQUIRED TO, NOTIFY ANY PURCHASER OF THIS NOTE OR ANY INTEREST HEREIN FROM IT OF THE RESALE RESTRICTIONS REFERRED TO ABOVE. NOTWITHSTANDING THE FOREGOING RESTRICTION,

ANY NOTE THAT HAS ORIGINALLY BEEN PROPERLY ISSUED IN AN AMOUNT NO LESS THAN THE MINIMUM DENOMINATION, OR ANY INTEREST THEREIN, MAY BE OFFERED, RESOLD, PLEDGED OR OTHERWISE TRANSFERRED IN A DENOMINATION LESS THAN THE MINIMUM DENOMINATION IF SUCH LESSER DENOMINATION IS SOLELY A RESULT OF A REDUCTION OF PRINCIPAL DUE TO PAYMENTS MADE IN ACCORDANCE WITH THE INDENTURE.

The purchaser understands that the Issuer may receive a list of participants holding positions in the Notes from the Securities Depository.

(v) The purchaser understands that any Note offered in reliance on Regulation S will, during the 40-day distribution compliance period commencing on the day after the later of the commencement of the offering and the date of original issuance of the Notes, bear a legend substantially to the following effect:

THIS NOTE IS A TEMPORARY GLOBAL NOTE FOR PURPOSES OF REGULATION S UNDER THE SECURITIES ACT WHICH IS EXCHANGEABLE FOR A PERMANENT REGULATION S GLOBAL NOTE SUBJECT TO THE TERMS AND CONDITIONS SET FORTH IN THE INDENTURE.

PRIOR TO THE DATE THAT IS 40 DAYS AFTER THE LATER OF THE COMMENCEMENT OF THE OFFERING AND THE ORIGINAL ISSUE DATE OF THE NOTES, THIS NOTE MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED IN THE UNITED STATES OR TO A U.S. PERSON EXCEPT PURSUANT TO AN EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT.

Following the 40-day distribution compliance period, interests in a Regulation S Temporary Global Note will be exchanged for interests in a Regulation S Permanent Global Note.

(vi) Each purchaser and transferee by its purchase of a Note or interest (and if such purchaser or transferee is a Benefit Plan Investor, its fiduciary) therein shall be deemed to have represented and warranted that (i) it is not, and is not acquiring such Note or interest therein for or on behalf of or with the assets of, any employee benefit plan as defined in Section 3(3) of ERISA that is subject to Title I of ERISA or any other "plan" as defined in Section 4975(e)(1) of the Code that is subject to Section 4975 of the Code or any entity whose underlying assets include plan assets by reason of an employee benefit plan's or plan's investment in such entity (each a "*Benefit Plan Investor*"), or any plan that is subject to any law substantially similar to ERISA or Section 4975 of the Code (each a "*Similar Law*") or (ii) if the purchaser or transferee is a Benefit Plan Investor or a plan subject to Similar Law, the purchaser and transferee and the fiduciary of such Benefit Plan Investor or plan by its purchase of the Note or interest therein will be deemed to have represented and warranted that the purchase, holding and disposition of the Note or interest therein will not result in a non-exempt prohibited transaction under ERISA or Section 4975 of the Code or non-exempt prohibited transaction under or violation of Similar Law and will be consistent with any applicable fiduciary duties that may be imposed upon the purchaser or transferee.

(vii) Each purchaser and transferee by its purchase of a Note or interest therein shall be deemed to have represented and warranted that at the time of its purchase and

throughout the period that it holds such Note or interest therein, that it will not sell or otherwise transfer the Note or interest therein to any person without first obtaining the same foregoing representations, warranties and covenants from that person.

(viii) Each purchaser and transferee by its purchase of a Note or interest therein shall be deemed to have agreed to treat such Note as indebtedness and indicate on all federal, state and local income tax and information returns and reports required to be filed with respect to such Note, under any applicable federal, state or local tax statute or any rule or regulation under any of them, that such Note is indebtedness unless otherwise required by Applicable Law.

(ix) The purchaser acknowledges that the Issuer, Sunnova Energy, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Manager, the Servicer, the Backup Servicer, the Transition Manager, the Depositor, the Indenture Trustee, the Initial Purchasers and others will rely upon the truth and accuracy of the foregoing acknowledgments, representations, warranties, and agreements and agrees that, if any of the acknowledgments, representations, warranties and agreements deemed to have been made by its purchase of the Notes are no longer accurate, it shall promptly notify the Initial Purchasers. If it is acquiring any Notes as a fiduciary or agent for one or more investor accounts, it represents that it has sole investment discretion with respect to each such investor account and that it has full power to make the foregoing acknowledgments, representations and agreements on behalf of each such investor account.

(x) The purchaser understands that the Issuer may receive a list of participants holding positions in the Notes from the Securities Depository.

(d) Other than with respect to Notes maintained in book-entry form, at the option of a Noteholder, Notes may be exchanged for other Notes of any authorized denominations and of a like Outstanding Note Balance and Class upon surrender of the Notes to be exchanged at the Corporate Trust Office. Whenever any Notes are so surrendered for exchange, the Issuer shall execute, and the Indenture Trustee shall authenticate and deliver, the Notes which the Noteholder making the exchange is entitled to receive.

(e) Other than with respect to Notes maintained in book-entry form, any Note presented or surrendered for registration of transfer or exchange of Notes shall be duly endorsed, or be accompanied by a written instrument of transfer in form satisfactory to the Indenture Trustee duly executed. All Notes issued upon any registration of transfer or exchange of Notes shall be the valid obligations of the Issuer, evidencing the same rights, and entitled to the same benefits under this Indenture, as the Class of Notes surrendered upon such registration of transfer or exchange. No service charge shall be made for any registration of transfer or exchange of Notes, but the Issuer and the Indenture Trustee may require payment of a sum sufficient to cover any Tax or other governmental charge as may be imposed in connection with any registration of transfer or exchange of Notes, other than exchanges pursuant to Section 2.08 not involving any transfer.

The Notes have not been and will not be registered under the Securities Act or securities laws of any jurisdiction. Consequently, the Notes are not transferable other than pursuant to an exemption from the registration requirements of the Securities Act and satisfaction of provisions set forth in this Indenture.

*Section 2.08. Transfer and Exchange.* (a) The transfer and exchange of Global Notes or beneficial interests therein shall be effected through the Securities Depository, in accordance with this Indenture and the procedures of the Securities Depository therefor, which shall include restrictions on transfer comparable to those set forth herein to the extent required by the Securities Act. Beneficial interests in a Global Note may be transferred to persons who take delivery thereof in the form of a beneficial interest in the same Global Note in accordance with the transfer restrictions set forth in the legends in subsections of Section 2.07(c), as applicable. Transfers of beneficial interests in the Global Notes to persons required or permitted to take delivery thereof in the form of an interest in another Global Note shall be permitted as follows:

(i) *Rule 144A Global Note to Regulation S Global Note.* If, at any time, an owner of a beneficial interest in a Rule 144A Global Note deposited with the Securities Depository (or the Indenture Trustee as custodian for the Securities Depository) wishes to transfer its interest in such Rule 144A Global Note to a person who is required or permitted to take delivery thereof in the form of an interest in a Regulation S Global Note, such owner shall, subject to compliance with the applicable procedures described herein (the "*Applicable Procedures*"), exchange or cause the exchange of such interest for an equivalent beneficial interest in a Regulation S Global Note as provided in this Section 2.08(a)(i). Upon receipt by the Indenture Trustee of (1) instructions given in accordance with the Applicable Procedures from an Agent Member directing the Indenture Trustee to credit or cause to be credited a beneficial interest in the Regulation S Global Note in an amount equal to the beneficial interest in the Rule 144A Global Note to be exchanged, (2) a written order given in accordance with the Applicable Procedures containing information regarding the participant account of the Securities Depository and the Euroclear or Clearstream account to be credited with such increase, and (3) a certificate in the form of Exhibit B-1 hereto given by the Note Owner of such beneficial interest stating that the transfer of such interest has been made in compliance with the transfer restrictions applicable to the Global Notes and pursuant to and in accordance with Rule 903 or Rule 904 of Regulation S, then the Indenture Trustee, as Note Registrar, shall instruct the Securities Depository to reduce or cause to be reduced the initial Outstanding Note Balance of the applicable Rule 144A Global Note and to increase or cause to be increased the initial Outstanding Note Balance of the applicable Regulation S Global Note by the initial principal amount of the beneficial interest in the Rule 144A Global Note to be exchanged, to credit or cause to be credited to the account of the person specified in such instructions a beneficial interest in the Regulation S Global Note equal to the reduction in the initial Outstanding Note Balance of the Rule 144A Global Note, and to debit, or cause to be debited, from the account of the person making such exchange or transfer the beneficial interest in the Rule 144A Global Note that is being exchanged or transferred.

(ii) *Regulation S Global Note to Rule 144A Global Note.* If, at any time an owner of a beneficial interest in a Regulation S Global Note deposited with the Securities Depository or with the Indenture Trustee as custodian for the Securities Depository wishes to transfer its interest in such Regulation S Global Note to a person who is required or permitted to take delivery thereof in the form of an interest in a Rule 144A Global Note, such owner shall, subject to the Applicable Procedures, exchange or cause the exchange of such interest for an equivalent beneficial interest in a Rule 144A Global Note as provided in this Section 2.08(a)(ii). Upon receipt by the Indenture Trustee of (1) instructions from Euroclear or Clearstream, if applicable, and the Securities Depository, directing the Indenture Trustee, as Note Registrar, to credit or cause to be credited a beneficial interest in the Rule 144A Global Note equal to the beneficial interest in the Regulation S Global Note to be exchanged, such instructions to contain information

regarding the participant account with the Securities Depository to be credited with such increase, (2) a written order given in accordance with the Applicable Procedures containing information regarding the participant account of the Securities Depository and (3) if such transfer is being effected prior to the expiration of the "40-day distribution compliance period" (as defined by Regulation S under the Securities Act), a certificate in the form of Exhibit B-2 attached hereto given by the Note Owner of such beneficial interest stating (A) if the transfer is pursuant to Rule 144A, that the person transferring such interest in a Regulation S Global Note reasonably believes that the person acquiring such interest in a Rule 144A Global Note is a QIB and is obtaining such beneficial interest in a transaction meeting the requirements of Rule 144A and any applicable blue sky or securities laws of any State, (B) that the transfer complies with the requirements of Rule 144A under the Securities Act and any applicable blue sky or securities laws of any State or (C) if the transfer is pursuant to any other exemption from the registration requirements of the Securities Act, that the transfer of such interest has been made in compliance with the transfer restrictions applicable to the Global Notes and pursuant to and in accordance with the requirements of the exemption claimed, such statement to be supported by an Opinion of Counsel from the transferee or the transferor in form reasonably acceptable to the Issuer and to the Indenture Trustee, then the Indenture Trustee, as Note Registrar, shall instruct the Securities Depository to reduce or cause to be reduced the initial Outstanding Note Balance of such Regulation S Global Note and to increase or cause to be increased the initial Outstanding Note Balance of the applicable Rule 144A Global Note by the initial principal amount of the beneficial interest in the Regulation S Global Note to be exchanged, and the Indenture Trustee, as Note Registrar, shall instruct the Securities Depository, concurrently with such reduction, to credit or cause to be credited to the account of the person specified in such instructions a beneficial interest in the applicable Rule 144A Global Note equal to the reduction in the Outstanding Note Balance at maturity of such Regulation S Global Note and to debit or cause to be debited from the account of the person making such transfer the beneficial interest in the Regulation S Global Note that is being transferred.

(b) *Transfer and Exchange from Definitive Notes to Definitive Notes.* When Definitive Notes are presented by a Holder to the Note Registrar with a request:

- (i) to register the transfer of Definitive Notes in the form of other Definitive Notes; or
- (ii) to exchange such Definitive Notes for an equal principal amount of Definitive Notes of other authorized denominations,

the Note Registrar shall register the transfer or make the exchange as requested; *provided, however*, that the Definitive Notes presented or surrendered for register of transfer or exchange shall be duly endorsed or accompanied by a written instruction of transfer in form satisfactory to the Note Registrar duly executed by such Holder or by his attorney, duly authorized in writing; and

- (i) if such Definitive Note is being transferred to a QIB in accordance with Rule 144A or in an offshore transaction pursuant to Regulation S, a certification to that effect from such Holder (in the form of Exhibit B-3 hereto); or
- (ii) if such Definitive Note is being transferred in reliance on any other exemption from the registration requirements of the Securities Act, a certification to that effect from such Holder (in the form of Exhibit B-3 hereto) and an Opinion of Counsel

from such Holder or the transferee reasonably acceptable to the Issuer and to the Indenture Trustee to the effect that such transfer is in compliance with the Securities Act.

(c) *Restrictions on Transfer and Exchange of Global Notes.* Notwithstanding any other provision of this Indenture, a Global Note may not be transferred except by the Securities Depository to a nominee of the Securities Depository or by a nominee of the Securities Depository to the Securities Depository or another nominee of the Securities Depository or by the Securities Depository or any such nominee to a successor Securities Depository or a nominee of such successor Securities Depository.

(d) *Initial Issuance of the Notes.* The Initial Purchasers shall not be required to deliver, and neither the Issuer nor the Indenture Trustee shall demand therefrom, any of the certifications or opinions described in this Section 2.08 in connection with the initial issuance of the Notes and the delivery thereof by the Issuer.

*Section 2.09. Mutilated, Destroyed, Lost or Stolen Notes.* (a) If (i) any mutilated Note is surrendered to the Indenture Trustee or the Indenture Trustee receives evidence to its satisfaction of the destruction, loss or theft of any Note, and (ii) there is delivered to the Indenture Trustee such security or indemnity as may be required by the Indenture Trustee to hold each of the Issuer and the Indenture Trustee harmless, then, in the absence of actual notice to the Issuer or the Indenture Trustee that such Note has been acquired by a protected purchaser, the Issuer shall execute, and the Indenture Trustee shall authenticate and deliver upon an Issuer Order, in exchange for or in lieu of any such mutilated, destroyed, lost or stolen Note, a new Note or Notes of the same tenor and Class and principal balance bearing a number not contemporaneously outstanding; *provided, however*, that if any such mutilated, destroyed, lost or stolen Note shall have become subject to receipt of payment in full, instead of issuing a new Note, the Indenture Trustee may make a payment with respect to such Note without surrender thereof, except that any mutilated Note shall be surrendered. ### Article III

#### Covenants; Collateral; Representations; Warranties

*Section 3.01. Performance of Obligations.* (a) The Issuer will not take any action or permit any action to be taken by others which would release any Person from any of such Person's covenants or obligations in any Transaction Document or under any instrument or agreement included in the Trust Estate or that would result in the amendment, hypothecation, subordination, termination or discharge of, or impair the validity or effectiveness of, any such instrument or agreement, except as ordered by any bankruptcy or other court or as permitted by, or expressly provided in this Indenture, the Transaction Documents or such other instrument or agreement.

(b) To the extent consistent with the Issuer Operating Agreement, the Issuer may contract with other Persons to assist it in performing its duties hereunder, and any performance of such duties shall be deemed to be action taken by the Issuer. To the extent that the Issuer contracts with other Persons which include or may include the furnishing of reports, notices or correspondence to the Indenture Trustee, the Issuer shall identify such Persons in a written notice to the Indenture Trustee.

(c) The Issuer shall and shall require that the Depositor, Sunnova Intermediate Holdings and Sunnova ABS Holdings VII characterize (i) each transfer of the Conveyed Property by Sunnova Intermediate Holdings to Sunnova ABS Holdings VII, each transfer of the Conveyed Property by Sunnova ABS Holdings VII to the Depositor and each transfer of the Conveyed Property by the Depositor to the Issuer pursuant to the Contribution Agreement as an absolute transfer for legal purposes, (ii) the Grant of the Trust Estate by the Issuer under this Indenture as a pledge for financial accounting purposes, and (iii) the Notes as indebtedness for U.S. federal income tax purposes (unless otherwise required by Applicable Law) and for financial accounting purposes. In this regard, the financial statements of SEI and its consolidated subsidiaries will show the Solar Loans as owned by the consolidated group and the Notes as indebtedness of the consolidated group (and will contain appropriate footnotes stating that the assets of the Issuer will not be available to creditors of SEI, Sunnova Energy, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII or the Depositor or any other Person), and the U.S. federal income Tax Returns of SEI and its consolidated subsidiaries that are regarded entities for U.S. federal income tax purposes will indicate that the Notes are indebtedness unless otherwise required by Applicable Law. The Issuer will cause Sunnova Energy, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII and the Depositor to file all required Tax Returns and associated forms, reports, schedules and supplements thereto in a manner consistent with such characterizations unless otherwise required by Applicable Law.

(d) The Issuer covenants to pay, or cause to be paid, all Taxes or other similar charges levied by any governmental authority with regard to the Trust Estate, except to the extent that the validity or amount of such Taxes is contested in good faith, via appropriate Proceedings and with adequate reserves established and maintained therefor in accordance with GAAP.

(e) The Issuer hereby assumes liability for all liabilities associated with the Trust Estate or created under this Indenture, including but not limited to any obligation arising from the breach or inaccuracy of any representation, warranty or covenant of the Issuer set forth herein except as provided in the Transaction Documents. (f) The Issuer will perform and observe all of its obligations and agreements contained in this Indenture, the Transaction Documents and in the instruments and agreements included in the Trust Estate, including, but not limited to, preparing (or causing to be prepared) and filing (or causing to be filed) all UCC financing statements and continuation statements required to be filed by the terms of this Indenture and the other Transaction Documents in accordance with and within the time periods provided for herein and therein. Except as otherwise expressly provided therein, the Issuer shall not waive, amend, modify, supplement or terminate any Transaction Document or any provision thereof without the consent of the Indenture Trustee (acting at the direction of the Majority Noteholders of the Controlling Class).

(g) If an Event of Default or Manager Termination Event shall arise from the failure of the Manager to perform any of its duties or obligations under the Management Agreement, the Issuer shall take all reasonable steps available to it to remedy such failure, including appointing a replacement Manager pursuant to the terms of the Management Agreement.

(h) If an Event of Default or Servicer Termination Event shall arise from the failure of the Servicer to perform any of its duties or obligations under the Servicing Agreement, the Issuer shall take all reasonable steps available to it to remedy such failure, including appointing a replacement Servicer pursuant to the terms of the Servicing Agreement.

(i) The Issuer, or the Servicer on behalf of the Issuer, will supply to the Indenture Trustee for further distribution to the Noteholders, at the time and in the manner required by applicable Treasury Regulations, and to the extent required by applicable Treasury Regulations, information with respect to any original issue discount accruing on the Notes.

(j) The Issuer agrees to promptly notify the Indenture Trustee in writing, such notice to be made available to the Noteholders, if it obtains actual knowledge that any Electronic Vault is terminated or the underlying control arrangements for any Electronic Vault are changed in any manner that could reasonably be expected to be adverse to the Noteholders and if any authoritative electronic copies of Solar Loans stored therein are no longer held within an Electronic Vault or are otherwise removed from an Electronic Vault.

*Section 3.02. Negative Covenants.* In addition to the restrictions and prohibitions set forth in Sections 3.04 and 3.10 and elsewhere herein, the Issuer will not:

(b) permit the validity or effectiveness of this Indenture or any Grant hereunder to be impaired or permit any Person to be released from any covenants or obligations under this Indenture, except as may be expressly permitted hereby or under any other Transaction Document;

(c) create, incur or suffer, or permit to be created or incurred or to exist any Lien on any of the Trust Estate or permit the Lien created by this Indenture not to constitute a valid first priority, perfected Lien on the Trust Estate, in each case subject to Permitted Liens;

(d) take any action or fail to take any action which action or failure to act may cause the Issuer to become classified as an association, a publicly traded partnership or a taxable mortgage pool that is taxable as a corporation for U.S. federal income tax purposes; or

(e) act in violation of its organization documents.

*Section 3.03. Money for Note Payments.* (a) All payments with respect to any Notes which are to be made from amounts withdrawn from the Collection Account pursuant to the Priority of Payments or the Acceleration Event Priority of Payments, as applicable, shall be made on behalf of the Issuer by the Indenture Trustee, and no amounts so withdrawn from an Account for payments with respect to the Notes shall be paid over to the Issuer under any circumstances except as provided in this Section 3.03 and Article V.

(b) When the Indenture Trustee is not also the Note Registrar, the Issuer shall furnish, or cause the Note Registrar to furnish, with respect to Global Notes, on each Record Date, and with respect to Definitive Notes, no later than the fifth calendar day after each Record Date, a list, in such form as the Indenture Trustee may reasonably require, of the names and addresses of the Noteholders and of the number of individual Notes and the Outstanding Note Balance held by each such Noteholder.

(c) Any money held by the Indenture Trustee in trust for the payment of any amount distributable but unclaimed with respect to any Note shall be held in a non-interest bearing trust account, and if the same remains unclaimed for two years after such amount has become due to such Noteholder, such money shall be discharged from such trust and paid to the Issuer upon an Issuer Order without any further action by any Person; and the Holder of such Note shall thereafter, as an unsecured general creditor, look only to the Issuer for payment thereof (but only to the extent of the amounts so paid to the Issuer), and all liability of the Indenture Trustee with respect to such trust money shall thereupon cease. The Indenture Trustee may adopt and employ, at the expense of the Issuer, any reasonable means of notification of such payment (including, but not limited to, mailing notice of such payment to Noteholders whose Notes have been called but have not been surrendered for prepayment or whose right to or interest in moneys due and payable but not claimed is determinable from the records of the Indenture Trustee, at the last address of record for each such Noteholder).

*Section 3.04. Restriction of Issuer Activities.* Until the date that is 365 days after the Termination Date, the Issuer will not on or after the date of execution of this Indenture:

(a) engage in any business or investment activities other than those necessary for, incident to, connected with or arising out of, owning and Granting the Trust Estate to the Indenture Trustee for the benefit of the Noteholders, or contemplated hereby, in the Transaction Documents and the Issuer Operating Agreement;

(b) incur any indebtedness secured in any manner by, or having any claim against, the Trust Estate or the Issuer other than indebtedness arising hereunder and in connection with the Transaction Documents and as otherwise expressly permitted in a Transaction Document;

(c) incur any other indebtedness except as permitted in the Issuer Operating Agreement;

(d) amend, or propose to the member of the Depositor for their consent any amendment of, the Issuer Operating Agreement (or, if the Issuer shall be a successor to the Person named as the Issuer in the first paragraph of this Indenture, amend, consent to amendment or propose any amendment of, the governing instruments of such successor), without giving notice thereof in writing, 30 days prior to the date on which such amendment is to become effective, to the Rating Agency;

(e) except as otherwise expressly permitted by this Indenture or the Transaction Documents, sell, transfer, exchange or otherwise dispose of any of the properties or assets of the Issuer, including those included in the Trust Estate;

(f) claim any credit on, or make any deduction from the principal or interest payable in respect of, the Notes (other than amounts properly withheld from such payments under the Code) or assert any claim against any present or former Noteholder by reason of the payment of the Taxes levied or assessed upon any part of the Trust Estate;

(g) permit the validity or effectiveness of this Indenture to be impaired, or permit the Lien in favor of the Indenture Trustee created by this Indenture to be amended, hypothecated, subordinated, terminated or discharged, or permit any Person to be released from any covenants or obligations with respect to the Notes under this Indenture except as may be expressly permitted hereby;

(h) permit the Lien of this Indenture not to constitute a valid perfected first priority (other than with respect to a Permitted Lien) Lien on the Trust Estate; or

(i) dissolve, liquidate, merge or consolidate with any other Person, other than in compliance with Section 3.10 if any Notes are Outstanding.

*Section 3.05. Protection of Trust Estate.* (a) The Issuer intends the Lien Granted pursuant to this Indenture in favor of the Indenture Trustee for the benefit of the Noteholders to be prior to all other Liens in respect of the Trust Estate, subject to Permitted Liens, and the Issuer shall take all actions necessary to obtain and maintain, in favor of the Indenture Trustee and the Noteholders, a first priority, perfected Lien on the Trust Estate, subject to Permitted Liens. Subject to Section 3.05(f), the Issuer will from time to time prepare, execute (or authorize the filing of) and deliver all such supplements and amendments hereto and all such financing statements, continuation statements, instruments of further assurance, and other instruments, and will take such other action as may be necessary or advisable to:

(i) provide further assurance with respect to such Grant and/or Grant more effectively all or any portion of the Trust Estate;

(ii) (A) maintain and preserve the Lien (and the priority thereof) in favor of the Indenture Trustee created by this Indenture and (B) enforce the terms and provisions of this Indenture or carry out more effectively the purposes hereof;

(iii) perfect or protect the validity of, any Grant made or to be made by this Indenture;

(iv) enforce its rights under the Transaction Documents; or

(v) preserve and defend title to any asset included in the Trust Estate and the rights of the Indenture Trustee and of the Noteholders in the Trust Estate against the claims of all Persons.

The Issuer shall deliver or cause to be delivered to the Indenture Trustee file-stamped copies of, or filing receipts for, any document recorded, registered or filed as provided above, as soon as available following such recording, registration or filing. The Issuer shall cooperate fully with the Indenture Trustee in connection with the obligations set forth above and will execute (or authorize the filing of) any and all documents reasonably required to fulfill the intent of this Section 3.05.

(b) The Issuer hereby irrevocably appoints the Indenture Trustee as its agent and attorney-in-fact (such appointment being coupled with an interest) to execute, or authorize the filing of, upon the Issuer's failure to do so, any financing statement or continuation statement required pursuant to this Section 3.05; *provided, however*, that such designation shall not be deemed to create any duty in the Indenture Trustee to monitor the compliance of the Issuer with the foregoing covenants; and *provided further*, that the Indenture Trustee shall only be obligated to execute or authorize such financing statement or continuation statement upon written direction of the Servicer and upon written notice to a Responsible Officer of the Indenture Trustee of the failure of the Issuer to comply with the provisions of Section 3.05(a); shall not be required to pay any fees, Taxes or other governmental charges in connection therewith; and shall not be required to prepare any financing statement or continuation statement required pursuant to this Section 3.05 (which shall in each case be prepared by the Issuer or the Servicer). The Issuer shall cooperate with the Servicer and provide to the Servicer any information, documents or instruments with respect to such financing statement or continuation statement that the Servicer may reasonably require. Neither the Indenture Trustee nor any of its officers, directors, employees, attorneys or agents will be responsible or liable for the existence, genuineness, value or protection of any collateral securing the Notes, for the legality, enforceability, effectiveness or sufficiency of the Transaction Documents or any financing statement or continuation statement for the creation, perfection, continuation, priority, sufficiency or protection of any of the liens, or for any defect or deficiency as to any such matters, for monitoring the status of any lien or performance of the collateral or for the accuracy or sufficiency of any financing statement or continuation statement prepared for its execution or authorization hereunder.

(c) Except as necessary or advisable in connection with the fulfillment by the Indenture Trustee of its duties and obligations described herein or in any other Transaction Document, the Indenture Trustee shall not remove any portion of the Trust Estate that consists of money or is evidenced by an instrument, certificate or other writing from the jurisdiction in which it was held as described in the most recent Opinion of Counsel that was delivered pursuant to Section 3.06 (or from the jurisdiction in which it was held as described in the Opinion of Counsel delivered at the Closing Date pursuant to Section 2.12(c), if no Opinion of Counsel has yet been delivered pursuant to Section 3.06) unless the Indenture Trustee shall have first received an Opinion of Counsel to the effect that the Lien created by this Indenture with respect to such property will continue to be maintained after giving effect to such action or actions.

(d) No later than 30 days prior to any of Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Depositor or the Issuer making any change in its or their name, identity, jurisdiction of organization or structure which would make any financing statement or continuation statement filed in accordance with Section 3.05(a) above seriously misleading within the meaning of Section 9-506 of the UCC as in effect in New York or wherever else necessary or appropriate under Applicable Law, or otherwise impair the perfection of the Lien on the Trust Estate, the Issuer shall give or cause to be given to the Indenture Trustee written notice of any such change and shall file such financing statements or amendments as may be necessary to continue the perfection of the Indenture Trustee's Lien on the Trust Estate. None of Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Depositor or the Issuer shall become or seek to become organized under the laws of more than one jurisdiction.

by the Servicer (pursuant to standing instructions or otherwise). All such Eligible Investments shall be held by or on behalf of the Indenture Trustee for the benefit of the Noteholders.

(c) All investment earnings of moneys pursuant to Section 5.01(b) deposited into the Collection Account, the Equipment Replacement Reserve Account, the Reserve Account, the Capitalized Interest Account, the Section 25D Interest Account and the Prefunding Account shall be deposited (or caused to be deposited) by the Indenture Trustee into the Collection Account, and any loss resulting from such investments shall be charged to such Account. (f) [Reserved].

(g) (i) The Indenture Trustee shall possess all right, title and interest in all funds on deposit from time to time in the Accounts and in all proceeds thereof (including, without limitation, all investment earnings on the Collection Account) and all such funds, investments, proceeds and income shall be part of the Trust Estate. Except as otherwise provided herein, the Accounts shall be under the control (as defined in Section 9-104 of the UCC to the extent such account is a deposit account and Section 8-106 of the UCC to the extent such account is a securities account) of the Indenture Trustee for the benefit of the Noteholders. If, at any time, any of the Accounts (other than the Lockbox Account) ceases to be an Eligible Account, the Indenture Trustee (or the Servicer on its behalf) shall within five Business Days (or such longer period as to which the Rating Agency may consent) establish a new Account as an Eligible Account and shall transfer any cash and/or any investments to such new Account. The Servicer agrees that, in the event that any of the Accounts or the Obligor Security Deposit Account are not accounts with the Indenture Trustee, the Servicer shall notify the Indenture Trustee in writing promptly upon any of such Accounts or the Obligor Security Deposit Account ceasing to be an Eligible Account.

(ii) With respect to the Account Property (other than with respect to the Lockbox Account), the Indenture Trustee agrees that:

(A) any Account Property that is held in deposit accounts shall be held solely in Eligible Accounts; and, except as otherwise provided herein, each such Eligible Account shall be subject to the exclusive custody and control of the Indenture Trustee, and the Indenture Trustee shall have sole signature authority with respect thereto;

(B) any Account Property that constitutes physical property shall be delivered to the Indenture Trustee in accordance with paragraph (i)(A) or (i)(B), as applicable, of the definition of "Delivery" and shall be held, pending maturity or disposition, solely by the Indenture Trustee or a securities intermediary (as such term is defined in Section 8-102(a)(14) of the UCC) acting solely for the Indenture Trustee;

(C) any Account Property that is a book-entry security held through the Federal Reserve System pursuant to federal book-entry regulations shall be delivered in accordance with paragraph (i)(C) or (i)(E), as applicable, of the definition of "Delivery" and shall be maintained by the Indenture Trustee, pending maturity or disposition, through continued book-entry registration of such Account Property as described in such paragraph;

(D) any Account Property that is an "uncertificated security" under Article 8 of the UCC and that is not governed by clause (C) above shall be delivered to the Indenture Trustee in accordance with paragraph (i)(D) of the definition of "Delivery" and shall be maintained by the Indenture Trustee, pending maturity or disposition, through continued registration of the Indenture Trustee's (or its nominee's) ownership of such security;

(E) the Servicer shall have the power, revocable by the Indenture Trustee upon the occurrence of a Servicer Event of Default, to instruct the Indenture Trustee to make withdrawals and payments from the Accounts for the purpose of permitting the Servicer and the Indenture Trustee to carry out their respective duties hereunder; and

(F) any Account held by it hereunder shall be maintained as a "securities account" as defined in the Uniform Commercial Code as in effect in New York (the "*New York UCC*"), and that it shall be acting as a "securities intermediary" for the Indenture Trustee itself as the "entitlement holder" (as defined in Section 8-102(a)(7) of the New York UCC) with respect to each such Account. The parties hereto agree that each Account shall be governed by the laws of the State of New York, and regardless of any provision in any other agreement, the "securities intermediary's jurisdiction" (within the meaning of Section 8-110 of the New York UCC) shall be the State of New York. The Indenture Trustee acknowledges and agrees that (1) each item of property (whether investment property, financial asset, security, instrument or cash) credited to the Accounts shall be treated as a "financial asset" within the meaning of Section 8-102(a)(9) of the New York UCC and (2) notwithstanding anything to the contrary, if at any time the Indenture Trustee shall receive any order from the Indenture Trustee (in its capacity as securities intermediary) directing transfer or redemption of any financial asset relating to the Accounts, the Indenture Trustee

shall comply with such entitlement order without further consent by the Issuer, or any other person. In the event of any conflict of any provision of this Section 5.01(g)(ii)(F) with any other provision of this Indenture or any other agreement or document, the provisions of this Section 5.01(g)(ii)(F) shall prevail.

*Section 5.02. Equipment Replacement Reserve Account.* (a)(i) On each Payment Date, to the extent of Available Funds and in accordance with and subject to the Priority of Payments, the Indenture Trustee shall, based on the Monthly Servicer Report, deposit into the Equipment Replacement Reserve Account an amount equal to the Equipment Replacement Reserve Deposit.

(ii) The Indenture Trustee shall, upon receipt of an Officer's Certificate of the Manager (x)(A) certifying that it has replaced an Inverter that no longer has the benefit of a Manufacturer Warranty and (B) requesting reimbursement for the cost of such Inverter replacement, withdraw from funds on deposit in the Equipment Replacement Reserve Account and remit to the Manager, an amount equal to the lesser of (i) the cost of the new Inverter paid by the Manager (inclusive of labor costs) and (ii) the amount on deposit in the Equipment Replacement Reserve Account or (y)(A) certifying that it has replaced an Energy Storage System (or component thereof) that no longer has the benefit of a Manufacturer Warranty and (B) requesting reimbursement for the cost of such Energy Storage System (or component thereof), withdraw from funds on deposit in the Equipment Replacement Reserve Account and remit to the Manager, an amount equal to the lesser (i) the cost of the new Energy Storage System (or component thereof) paid by the Manager (inclusive of labor costs) and (ii) the excess, if any, of (a) the amount on deposit in the Equipment Replacement Reserve Account over (b) the amount described in clause (a) of the definition of Equipment Replacement Reserve Required Balance. Upon either such request, the Indenture Trustee shall promptly withdraw such amount from the Equipment Replacement Reserve Account (to the extent it has been funded as of such date) and transfer such amount to the Manager's account specified in the related Officer's Certificate and if no such funds are on deposit, then from the Collection Account in accordance with the Priority of Payments.

(iii) On any date that the amount on deposit in the Equipment Replacement Reserve Account exceeds the Equipment Replacement Reserve Required Balance, such amount of excess will be deposited into the Collection Account on the related Payment Date as set forth in the related Monthly Servicer Report and will be part of the Available Funds distributed according to the Priority of Payments for such Payment Date.

(iv) On each Payment Date, if the amount of Available Funds (after giving effect to all amounts deposited into the Collection Account from the Reserve Account and the Section 25D Interest Account) is less than the amount necessary to make the distributions described in clauses (i) through (vi) of the Priority of Payments, an amount equal to the lesser of (A) the amount on deposit in the Equipment Replacement Reserve Account and (B) the amount of such insufficiency, shall be withdrawn from the Equipment Replacement Reserve Account and deposited into the Collection Account to be used as Available Funds.

(v) All amounts on deposit in the Equipment Replacement Reserve Account shall be withdrawn and deposited into the Collection Account on the earliest of (i) the Rated Final Maturity, (ii) a Voluntary Prepayment Date in connection with a Voluntary Prepayment in whole and (iii) the Payment Date on which the balance in the Equipment Replacement Reserve Account, the Reserve Account and the Section 25D Interest Account and all other Available Funds, equals or exceeds the Aggregate Outstanding

Note Balance of the Notes, all unreimbursed Note Balance Write-Down Amounts, accrued and unpaid interest (including any Deferred Interest Amounts and Post-ARD Additional Interest Amounts) on the Notes and the fees, expenses and indemnities due to the Indenture Trustee, the Custodian, the Manager, the Servicer, the Backup Servicer, Transition Manager, Replacement Manager and the Replacement Servicer pursuant to Section 5.07.

(b) Notwithstanding Section 5.02(a), in lieu of or in substitution for moneys otherwise required to be deposited to the Equipment Replacement Reserve Account, the Issuer may deliver or cause to be delivered to the Indenture Trustee a Letter of Credit issued by an Eligible Letter of Credit Bank in an amount equal to the Equipment Replacement Reserve Account Required Balance; *provided* that any Equipment Replacement Reserve Deposit required to be made after the replacement of amounts on deposit in the Equipment Replacement Reserve Account with the Letter of Credit shall be made in deposits to the Equipment Replacement Reserve Account as provided in the Priority of Payments or pursuant to an increase in the Letter of Credit, or addition of another Letter of Credit. The Letter of Credit shall be held as an asset of the Equipment Replacement Reserve Account and valued for purposes of determining the amount on deposit in the Equipment Replacement Reserve Account as the amount then available to be drawn on such Letter of Credit. Any references in the Transaction Documents to amounts on deposit in the Equipment Replacement Reserve Account shall include the value of the Letter of Credit unless specifically excluded. If the amounts on deposit in the Equipment Replacement Reserve Account are represented by a Letter of Credit, the Indenture Trustee shall be required to submit the drawing documents to the Eligible Letter of Credit Bank to draw the full stated amount of the Letter of Credit and deposit the proceeds therefrom in the Equipment Replacement Reserve Account in the following circumstances: (i) if the Indenture Trustee is directed by the Servicer on behalf of the Issuer, pursuant to an Officer's Certificate, to withdraw funds from the Equipment Replacement Reserve Account for any reason; (ii) upon direction, if the Letter of Credit is scheduled to expire in accordance with its terms and has not been extended or replaced with a Letter of Credit issued by an Eligible Letter of Credit Bank by the date that is ten days prior to the expiration date; or (iii) if the Indenture Trustee is directed by the Issuer, the Manager or the Majority Noteholders, pursuant to an Officer's Certificate stating that the financial institution issuing the Letter of Credit ceases to be an Eligible Letter of Credit Bank. Any drawing on the Letter of Credit may be reimbursed by the Issuer only from amounts remitted to the Issuer pursuant to clauses (xix) or (xx) of the Priority of Payments.

*Section 5.03. Reserve Account.* (a) On the Closing Date, the Issuer shall deposit or cause to be deposited the Reserve Account Required Balance into the Reserve Account.

(b) As described in the Priority of Payments, to the extent of Available Funds, the Indenture Trustee shall, on each Payment Date, deposit Available Funds into the Reserve Account until the amount on deposit therein shall equal the Reserve Account Required Balance.

(c) On the Business Day prior to each Payment Date, the Indenture Trustee shall, based on the Monthly Servicer Report, transfer funds on deposit in the Reserve Account into the Collection Account to the extent that the amount on deposit in the Collection Account as of such Payment Date is less than the amount necessary to make the distributions described in clauses (i) through (v) of the Priority of Payments. If the amount on deposit in the Reserve Account exceeds the Reserve Account Required Balance on any Payment Date during a Regular Amortization Period, the amount of such excess will be transferred into the Equipment Replacement Reserve Account. If the amount on deposit in the Reserve Account exceeds the Reserve Account Required Balance on any Payment Date during a Sequential Amortization Period, the amount of such excess will be transferred into the Collection Account and will be part of the Available Funds distributed pursuant to the Priority of Payments for such Payment Date.

(d) All amounts on deposit in the Reserve Account shall be withdrawn and deposited into the Collection Account on the earliest of (i) the Rated Final Maturity, (ii) upon the occurrence of an Acceleration Event, (iii) a Voluntary Prepayment Date in connection with a Voluntary Prepayment in whole and (iv) the Payment Date on which the balance in the Reserve Account, the Section 25D Interest Account and the Equipment Replacement Reserve Account and all other Available Funds, equals or exceeds the Aggregate Outstanding Note Balance of the Notes, unreimbursed Note Balance Write-Down Amounts, accrued and unpaid interest (including any Deferred Interest Amounts and Post-ARD Additional Interest Amounts) on the Notes and the fees, expenses and indemnities due to the Indenture Trustee, the Custodian, the Manager, the Servicer, the Backup Servicer, Transition Manager, Replacement Manager and the Replacement Servicer pursuant to Section 5.07.

(e) Notwithstanding Sections 5.03(a) and 5.03(b), in lieu of or in substitution for moneys otherwise required to be deposited to the Reserve Account, the Issuer may deliver or cause to be delivered to the Indenture Trustee a Letter of Credit issued by an Eligible Letter of Credit Bank in an amount equal to the Reserve Account Required Balance; *provided* that any deposit into the Reserve Account required to be made after the replacement of amounts on deposit in the Reserve Account with the Letter of Credit shall be made in deposits to the Reserve Account as provided in the Priority of Payments or pursuant to an increase in the Letter of Credit, or addition of another Letter of Credit. The Letter of Credit shall be held as an asset of the Reserve Account and valued for purposes of determining the amount on deposit in the Reserve Account as the amount then available to be drawn on such Letter of Credit. Any references in the Transaction Documents to amounts on deposit in the Reserve Account shall include the value of the Letter of Credit unless specifically excluded. If the amounts on deposit in the Reserve Account are represented by a Letter of Credit, the Indenture Trustee shall be required to submit the drawing documents to the Eligible Letter of Credit Bank to draw the full stated amount of the Letter of Credit and deposit the proceeds therefrom in the Reserve Account in the following circumstances: (i) if the Indenture Trustee is directed by the Servicer on behalf of the Issuer, pursuant to an Officer's Certificate, to withdraw funds from the Reserve Account for any reason; (ii) upon direction, if the Letter of Credit is scheduled to expire in accordance with its terms and has not been extended or replaced with a Letter of Credit issued by an Eligible Letter of Credit Bank by the date that is ten days prior to the expiration date; or (iii) if the Indenture Trustee is directed by the Issuer, the Servicer or the Majority Noteholders, pursuant to

an Officer's Certificate stating that the financial institution issuing the Letter of Credit ceases to be an Eligible Letter of Credit Bank. Any drawing on the Letter of Credit may be reimbursed by the Issuer only from amounts remitted to the Issuer pursuant to clauses (xix) or (xx) of the Priority of Payments.

*Section 5.04. Section 25D Interest Account.* (a) On or prior to the Closing Date, the Issuer shall cause to be deposited into the Section 25D Interest Account an amount equal to the Section 25D Interest Account Required Amount for the Closing Date. On each Transfer Date, with respect to any Subsequent Solar Loan or any Qualified Substitute Solar Loan that is a Section 25D Easy Own Plan Solar Loan, the Issuer shall deposit or require the Depositor to deposit into the Section 25D Interest Account an amount equal to the related Section 25D Interest Amount (in addition to any required Substitution Shortfall Amount).

(b) On each Payment Date, if the amount of Available Funds (after giving effect to all amounts deposited to the Collection Account from the Reserve Account) is less than the amount necessary to make the distributions described in clauses (i) through (vi) of the Priority of Payments, an amount equal to the lesser of (A) the amount on deposit in the Section 25D Interest Account and (B) the amount of such insufficiency, shall be withdrawn from the Section 25D Interest Account and deposited into the Collection Account to be used as Available Funds.

(c) On any date that the amount on deposit in the Section 25D Interest Account exceeds the Section 25D Interest Account Required Amount as of such date, such amount of excess shall be deposited into the Collection Account and will be part of the Available Funds distributed according to the Priority of Payments.

(ii) Upon receipt of a Prefunding Notice, the Indenture Trustee shall withdraw the amount specified in the related Prefunding Notice from the Prefunding Account on such Transfer Date and remit such amount to or at the direction of the Depositor. The amount of funds withdrawn from the Prefunding Account for such acquisition of Subsequent Solar Loans shall be equal to Subsequent Solar Loan Prefunding Withdrawal Amount. The Indenture Trustee shall have no duty to verify that the Subsequent Solar Loans meet the requirements set forth in Section 2.15 hereof.

(iii) On the first Payment Date following the Prefunding Termination Date, the Indenture Trustee shall, based on the information set forth in the related Monthly Servicer Report, withdraw any remaining funds on deposit in the Prefunding Account and deposit such funds into the Collection Account to be used as Available Funds and distributed according to the Priority of Payments on such Payment Date.

(b) On the Closing Date, the Issuer shall deposit an amount equal to the Capitalized Interest Account Deposit into the Capitalized Interest Account. On each of the first three Payment Dates (so long as the Prefunding Termination Date has not occurred prior to such Payment Date), an amount equal to approximately 33.33% of the Capitalized Interest Account Deposit shall be withdrawn by the Indenture Trustee, based on the information set forth in the related Monthly Servicer Report, and deposited into the Collection Account for application in accordance with the Priority of Payments. The Issuer shall cause all other amounts required to be deposited therein pursuant to the Transaction Documents, to be deposited within one Business Day of receipt thereof. The Indenture Trustee shall provide or make available electronically (or upon written request, by first class mail or facsimile) monthly statements on all amounts received in the Collection Account to the Issuer and the Servicer.

(b) The Servicer will be entitled to be reimbursed from amounts on deposit in the Collection Account with respect to a Collection Period for amounts previously deposited into the Collection Account but later determined by the Servicer to have resulted from mistaken deposits or postings or checks returned for insufficient funds. The amount to be reimbursed hereunder shall be paid to the Servicer on the related Payment Date upon certification by the Servicer of such amounts; *provided, however*, that the Servicer must provide such certification prior to the Determination Date immediately following such mistaken deposit, posting or returned check or costs and expenses, as applicable.

In the event that Sunnova Energy elects to make a Permitted Equity Cure Payment, Sunnova Energy shall notify the Issuer, the Indenture Trustee, the Backup Servicer and the Servicer of such election on or prior to the date that is not later than three Business Days prior to the related Determination Date.

*Section 5.09. Note Payments.* (a) The Indenture Trustee shall pay from amounts on deposit in the Collection Account in accordance with the Monthly Servicer Report and the Priority of Payments or the Acceleration Event Priority of Payments, as applicable, to each Noteholder of record as of the related Record Date either (i) by wire transfer, in immediately available funds to the account of such Noteholder at a bank or other entity having appropriate facilities therefor, if such Noteholder shall have provided to the Indenture Trustee appropriate written instructions at least five Business Days prior to the related Payment Date (which instructions may remain in effect for subsequent Payment Dates unless revoked by such Noteholder), or (ii) if not, by check mailed to such Noteholder at the address of such Noteholder appearing in the Note Register, the amounts to be paid to such Noteholder pursuant to such Noteholder's Notes; *provided, however*, that so long as the Notes are registered in the name of the Securities Depository such payments shall be made to the nominee thereof in immediately available funds.

(b) In the event that any withholding Tax is imposed on the Issuer's payment (or allocations of income) to a Noteholder, such withholding Tax shall reduce the amount otherwise distributable to the Noteholder in accordance with this Indenture. The Indenture Trustee is hereby authorized and directed to retain from amounts otherwise distributable to the Noteholders sufficient funds for the payment of any withholding Tax that is legally owed by the Issuer as instructed by the Servicer, in writing in a Monthly Servicer Report (but such authorization shall not prevent the Indenture Trustee from contesting at the expense of the applicable Noteholder any such withholding Tax in appropriate Proceedings, and withholding payment of such withholding Tax, if permitted by law, pending the outcome of such Proceedings). The amount of any withholding Tax imposed with respect to a Noteholder shall be treated as cash distributed to such Noteholder at the time it is withheld by the Issuer or the Indenture Trustee (at the direction of the Servicer or the Issuer) and remitted to the appropriate taxing authority. If there is a withholding Tax payable with respect to a distribution (such as a distribution to a non-U.S. Noteholder), the Indenture Trustee may in its sole discretion withhold such amounts in accordance with this clause (b). In the event that a Noteholder wishes to apply for a refund of any such withholding Tax, the Indenture Trustee shall reasonably cooperate with such Noteholder in making such claim so long as such Noteholder agrees to reimburse the Indenture Trustee for any out-of-pocket expenses incurred.

(c) Each Noteholder and Note Owner, by its acceptance of a Note, will be deemed to have consented to the provisions of the Priority of Payments or the Acceleration Event Priority of Payments, as applicable.

(d) For all Tax purposes, each Noteholder and each Note Owner, by its acceptance of a Note, will be deemed to have agreed to, and hereby instructs the Indenture Trustee to, treat the Notes as indebtedness.

(e) Each Noteholder and each Note Owner by its acceptance of a Note or an interest in a Note, will be deemed to have agreed to provide the Indenture Trustee or the Issuer, upon

request, with the Noteholder Tax Identification Information and, to the extent FATCA Withholding Tax is applicable, the Noteholder FATCA Information. Each Noteholder and Note Owner shall update or replace its previously provided Noteholder Tax Identification Information and Noteholder FATCA Information promptly if requested by the Indenture Trustee; *provided* that nothing herein shall require the Indenture Trustee to make such request. In addition, each Noteholder and each Note Owner will be deemed to agree that the Indenture Trustee has the right to withhold from any amount of interest or other amounts (without any corresponding gross-up) payable to a Noteholder or Note Owner that fails to comply with the foregoing requirements. The Issuer hereby covenants with the Indenture Trustee that the Issuer will cooperate with the Indenture Trustee in obtaining sufficient information so as to enable the Indenture Trustee to (i) determine whether or not the Indenture Trustee is obliged to make any withholding, including FATCA Withholding Tax, in respect of any payments with respect to a Note and (ii) to effectuate any such withholding. The parties agree that the Indenture Trustee shall be released of any liability arising from properly complying with this Section 5.09 and FATCA. The Issuer agrees to provide to the Indenture Trustee copies of any Noteholder Tax Identification Information and any Noteholder FATCA Information received by the Issuer from any Noteholder or Note Owner. Upon reasonable request from the Indenture Trustee, the Issuer will provide such additional information that it may have to assist the Indenture Trustee in making any withholdings or informational reports.

*Section 5.10. Statements to Noteholders; Tax Returns.* Within the time period required by Applicable Law after the end of each calendar year, the Issuer shall cause the Indenture Trustee to furnish to each Person who at any time during such calendar year was a Noteholder of record and received any payment thereon any information required by the Code to enable such Noteholders to prepare their U.S. federal and state income Tax Returns. The obligation of the Indenture Trustee set forth in this paragraph shall be deemed to have been satisfied to the extent that information shall be provided by the Indenture Trustee, in the form of Form 1099 or other comparable form, pursuant to any requirements of the Code.

The Issuer shall cause Sunnova Management, at Sunnova Management's expense, to cause a firm of Independent Accountants to prepare any Tax Returns required to be filed by the Issuer. The Indenture Trustee, upon reasonable written request, shall furnish the Issuer with all such information in the possession of the Indenture Trustee as may be reasonably required in connection with the preparation of any Tax Return of the Issuer.

*Section 5.11. Reports by Indenture Trustee.* Within five Business Days after the end of each Collection Period, the Indenture Trustee shall provide or make available electronically (or upon written request, by first class mail or facsimile) to the Servicer a written report (electronic means shall be sufficient) setting forth the amounts in the Collection Account, the Reserve Account, the Capitalized Interest Account, the Prefunding Account, the Section 25D Interest Account and the Equipment Replacement Reserve Account and the identity of the investments included therein, as applicable. Without limiting the generality of the foregoing, the Indenture Trustee shall, upon the written request of the Servicer, promptly transmit or make available electronically to the Servicer, copies of all accountings of, and information with respect to, the Collection Account, the Reserve Account, the Capitalized Interest Account, the Prefunding Account, the Section 25D Interest Account and the Equipment Replacement Reserve Account, investments thereof, as applicable, and payments thereto and therefrom.

*Section 5.12. Final Balances.* On the Termination Date, all moneys remaining in all Accounts (other than the Lockbox Account), shall be, subject to applicable escheatment laws, remitted to, or at the direction of, the Issuer, and after the return of such funds (or disposition thereof pursuant to applicable escheatment laws), the Indenture Trustee will have no liability with respect to such funds, and holders should look solely only to the Issuer for such amounts.

## **Article VI**

### **Voluntary Prepayment of Notes and Release of Collateral**

*Section 6.01. Voluntary Prepayment.* (a) Prior to the Rated Final Maturity, the Issuer may, in its sole discretion, prepay the Notes, including by Class or portion of a Class (such prepayment, a "*Voluntary Prepayment*"), in whole or in part on any Business Day following the Closing Date (such date, the "*Voluntary Prepayment Date*"). Any such Voluntary Prepayment is required to be made on no less than ten (10) days' prior notice (or such shorter period, but not less than two Business Days, as is necessary to cure an Event of Default) by the Issuer sending the Notice of Prepayment to the Indenture Trustee and the Servicer describing the Issuer's election to prepay the Notes or portion thereof in the form attached hereto as Exhibit C. With respect to each Class of Notes subject to a Voluntary Prepayment, such Voluntary Prepayment shall be made pro rata among such Class.

(b) With respect to any Voluntary Prepayment in part, on or prior to the related Voluntary Prepayment Date, the Issuer shall deposit into the Collection Account, an amount equal to the sum of (i) the amount of outstanding principal of the Notes being prepaid, (ii) all accrued and unpaid interest thereon and (iii) the applicable Make Whole Amount, if any. (c) With respect to a Voluntary Prepayment of all outstanding Notes in full, on or prior to the related Voluntary Prepayment Date, the Issuer will be required to deposit into the Collection Account an amount equal to (i) the sum of (A) the Aggregate Outstanding Note Balance, (B) all accrued and unpaid interest thereon, (C) the Make Whole Amount, if any, (D) the Note Balance Write-Down Amount, if any, (E) the Deferred Interest Amount, if any, (F) the Post-ARD Additional Interest Amount, if any, (G) the Deferred Post-ARD Additional Interest Amount, if any, and (H) all amounts owed to the Indenture Trustee, the Manager, the Servicer, the Backup Servicer, the Transition Manager and any other parties to the Transaction Documents, minus (ii) the sum of the amounts then on deposit in the Reserve Account, the Prefunding Account, the Section 25D Interest Account, the Equipment Replacement Reserve Account and the Capitalized Interest Account. The Indenture Trustee will make distributions on the related Voluntary Prepayment Date in accordance with the Priority of Payments (without giving effect to clauses (vii) through (xi) thereof) and solely as specified in the related Voluntary Prepayment Servicer Report and to the extent the Aggregate Outstanding Note Balance is prepaid and all other obligations of the Issuer under the Transaction Documents have been paid, release any remaining assets in the Trust Estate to, or at the direction of, the Issuer.

No Make Whole Amount will be due to the Noteholders if a Voluntary Prepayment is made on or after the Make Whole Determination Date.

(e) If the Issuer elects to rescind the Voluntary Prepayment, it must give written notice to the Indenture Trustee of such determination at least two Business Days prior to the Voluntary Prepayment Date. If a Voluntary Prepayment of the Notes has been rescinded pursuant to this Section 6.01(e), the Indenture Trustee shall provide notice of such rescission to the registered owner of each Note which had been subject to the rescinded redemption at the address shown on the Note Register maintained by the Note Registrar with copies to the Issuer, Sunnova Energy, the Depositor and the Rating Agency.

*Section 6.02. Notice of Voluntary Prepayment.* Any Notice of Voluntary Prepayment received by the Indenture Trustee from the Issuer shall be made available by the Indenture Trustee not less than twenty days and not more than thirty days prior to the date fixed for prepayment to the registered owner of each Note to be prepaid with copies to the Issuer, Sunnova Energy, the Servicer and the Rating Agency. Failure to make such Notice of Prepayment available to any Noteholder, or any defect therein, shall not affect the validity of any Proceedings for the prepayment of other Notes. If a Voluntary Prepayment has been rescinded pursuant to Section 6.01(e), and to the extent the Indenture Trustee had made notice of the Voluntary Prepayment available, the Indenture Trustee shall make available notice of such rescission to the registered owner of each Note which had been subject to the rescinded Voluntary Prepayment with copies to the Issuer, Sunnova Energy, the Servicer and the Rating Agency.

Any notice made available as provided in this Section shall be conclusively presumed to have been duly given, whether or not the registered owner of such Notes accesses the notice.

*Section 6.03. Cancellation of Notes.* All Notes which have been paid in full or retired or received by the Indenture Trustee for exchange shall not be reissued but shall be canceled and destroyed in accordance with its customary procedures.

(c) The Lien created by this Indenture on any Replaced Solar Loan shall automatically be released upon (A) a payment by the Depositor of any Substitution Shortfall Amount and Section 25D Interest Amount, if any, due with respect to such Replaced Solar Loan and the deposit of such payment into the Collection Account or the Section 25D Interest Account, as applicable, (B) the Issuer's acquisition of the related Qualified Substitute Solar Loan(s) in accordance with the Contribution Agreement, and (C) receipt by the Indenture Trustee of an Officer's Certificate of the Depositor certifying: (1) as to the identity of the Replaced Solar Loan(s) to be released, (2) that the amount, if any, deposited into the Collection Account with respect thereto equals the Substitution Shortfall Amount required to be deposited, (3) that the amount, if any, deposited into the Section 25D Interest Account with respect thereto equals the

(d) Upon release of the Lien created by this Indenture in accordance with subsections (b) or (c), the Indenture Trustee shall release the applicable asset for all purposes and deliver to or upon the order of the Issuer (or to or upon the order of the Depositor if it has satisfied its respective obligations under Sections 7(a) or 7(b) of the Contribution Agreement with respect to a Solar Loan) the applicable Solar Loan and the related Custodian File. Upon the order of the Issuer, the Indenture Trustee shall authorize a UCC financing statement prepared by the Servicer evidencing such release. ### **The Indenture Trustee**

*Section 7.01. Duties of Indenture Trustee.* (a) If a Responsible Officer of the Indenture Trustee has received notice pursuant to Section 7.02(a), or a Responsible Officer of the Indenture Trustee shall otherwise have actual knowledge that an Event of Default has occurred and is continuing, the Indenture Trustee shall exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in its exercise, as a prudent person would exercise or use under the circumstances in the conduct of his own affairs.

The Indenture Trustee shall, however, examine such certificates and opinions to determine whether they conform on their face to the requirements of this Indenture or any other Transaction Document but the Indenture Trustee shall not be required to determine, confirm or recalculate information contained in such certificates or opinions.

(c) No provision of this Indenture shall be construed to relieve the Indenture Trustee from liability for its own negligent action, its own negligent failure to act, or its own willful misconduct, except that:

(i) This paragraph does not limit the effect of subsection (b) of this Section 7.01.

(ii) The Indenture Trustee shall not be liable in its individual capacity for any action taken, or error of judgment made, in good faith by a Responsible Officer or other officers of the Indenture Trustee, unless it is proved that the Indenture Trustee was negligent in ascertaining the pertinent facts.

(iii) The Indenture Trustee shall not be personally liable with respect to any action it takes, suffers or omits to take in good faith in accordance with a direction received by it from the Noteholders in accordance with this Indenture or any other Transaction Document or for any action taken, suffered or omitted by it in good faith and believed by it to be authorized or within the discretion or rights or powers conferred upon it by this Indenture or any other Transaction Document, in each case unless it is proved that the Indenture Trustee was negligent in ascertaining the pertinent facts.

(iv) The Indenture Trustee shall have no responsibility for filing any financing or continuation statement in any public office at any time or otherwise to perfect or to maintain the perfection of any Lien on the Trust Estate or in any item comprising the Conveyed Property.

(d) No provision of this Indenture or any other Transaction Document shall require the Indenture Trustee to expend or risk its own funds or otherwise incur any financial or other liability in the performance of any of its duties hereunder or thereunder, or in the exercise of any of its rights or powers, if it shall have reasonable grounds for believing that repayment of such funds or adequate indemnity against such risk or liability is not assured to it.

(e) The provisions of subsections (a), (b), (c) and (d) of this Section 7.01 shall apply to any co-trustee or separate trustee appointed by the Issuer and the Indenture Trustee pursuant to Section 7.13.

(f) The Indenture Trustee shall not in any way be held liable by reason of any insufficiency in any Account held by the Indenture Trustee resulting from any loss experienced on any item comprising the Conveyed Property except as a result of the Indenture Trustee's gross negligence or willful misconduct.

(g) In no event shall the Indenture Trustee be required to take any action that conflicts with Applicable Law, any of the provisions of this Indenture or any other Transaction Document or with the Indenture Trustee's duties hereunder or that adversely affect its rights and immunities hereunder.

(h) In no event shall the Indenture Trustee have any obligations or duties under or have any liabilities whatsoever to Noteholders under ERISA.

(i) In no event shall the Indenture Trustee be responsible or liable for any failure or delay in the performance of its obligations hereunder arising out of or caused by, directly or indirectly, forces beyond its control, including, without limitation, strikes, work stoppages, acts of war or terrorism, civil or military disturbances, nuclear or natural catastrophes or acts of God,

Such Person will thereupon own such Solar Loan and related rights appurtenant thereto free of any further obligation to the Indenture Trustee or the Noteholders with respect thereto. The Servicer or the Issuer will also prepare and the Indenture Trustee shall, upon written direction of the Issuer, also execute and deliver all such other instruments or documents as shall be reasonably requested by any such Person to be required or appropriate to effect a valid transfer of title to a Solar Loan and the related assets.

(k) In the event that the Indenture Trustee receives notice from the Custodian that the Electronic Vault Agreement will be terminated, the Indenture Trustee shall make such notice available to the Noteholders and take action in response to such notice as directed in writing by the Majority Noteholders of the Controlling Class, *provided, however*, if the Majority Noteholders of the Controlling Class fail to provide written direction to the Indenture Trustee within five (5) days of such notice and no provision has been made for a substitute electronic vault agreement to replace the Electronic Vault Agreement on terms that would not have a material adverse effect on the Noteholders' interest in the Solar Loan Agreements, as determined by an Opinion of Counsel, the Indenture Trustee shall direct the Custodian to implement a "paper out" process to convert all Solar Loan Agreements and any other electronic chattel paper held in the Electronic Vault into non-original paper copies of such chattel paper and to destroy the original electronic records evidencing such chattel paper, and such paper copies of the Solar Loan Agreements and other records shall be delivered to the Custodian. All expenses incurred in connection with such process shall be treated as expenses of the initial Servicer.

In the absence of receipt of such notice or actual knowledge, the Indenture Trustee may conclusively assume that there is no such default, Default, Event of Default, Servicer Termination Event, Manager Termination Event or event. If written notice of the existence of a default, a Default, an Event of Default, a Manager Termination Event, a Servicer Termination Event, an event or information has been delivered to a Responsible Officer of the Indenture Trustee or a Responsible Officer of the Indenture Trustee has actual knowledge thereof, the Indenture Trustee shall promptly provide paper or electronic notice thereof to the Issuer, the Transition Manager, the Backup Servicer, the Rating Agency and each Noteholder, but in any event, no later than five days after such knowledge or notice occurs.

(b) In the event the Servicer does not make available to the Rating Agency all reports of the Servicer and all reports to the Noteholders, upon request of the Rating Agency, the

Indenture Trustee shall make available promptly after such request, copies of such Servicer reports as are in the Indenture Trustee's possession to the Rating Agency and the Noteholders.

*Section 7.03. Rights of Indenture Trustee.* (a) The Indenture Trustee may rely and shall be protected in acting or refraining from acting upon any document believed by it to be genuine and to have been signed or presented by the proper Person. The Indenture Trustee need not investigate any fact or matter stated in any document. The Indenture Trustee need not investigate or recalculate, evaluate, certify, verify or independently determine the accuracy of any numerical information, report, certificate, information, statement, representation or warranty or any fact or matter stated in any such document and may conclusively rely as to the truth of the statements and the accuracy of the information therein.

(b) Before the Indenture Trustee takes any action or refrains from taking any action under this Indenture or any other Transaction Document, it may require an Officer's Certificate or an Opinion of Counsel, the costs of which (including the Indenture Trustee's reasonable and documented attorney's fees and expenses) shall be paid by the party requesting that the Indenture Trustee act or refrain from acting. The Indenture Trustee shall not be liable for any action it takes or omits to take in good faith in reliance on such Officer's Certificate or Opinion of Counsel.

(c) The Indenture Trustee shall not be personally liable for any action it takes or omits to take or any action or inaction it believes in good faith to be authorized or within its rights or powers other than as a result of gross negligence or willful misconduct.

(d) The Indenture Trustee shall not be bound to make any investigation into the facts of matters stated in any reports, certificates, payment instructions, opinion, notice, order or other paper or document unless requested in writing by 25% or more of the Noteholders, and such Noteholders have provided to the Indenture Trustee indemnity satisfactory to it.

(e) The Indenture Trustee may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through agents, affiliates or attorneys or a custodian or nominee, and the Indenture Trustee shall not be responsible for any misconduct or negligence on the part of any such agent, attorney, custodian or nominee appointed by it hereunder with due care. (g) The Indenture Trustee shall not be liable for any action or inaction of the Issuer, the Manager, the Servicer, the Backup Servicer, the Transition Manager, the Custodian, or any other party (or agent thereof) to this Indenture or any Transaction Document and may assume compliance by such parties with their obligations under this Indenture or any other Transaction Document, unless a Responsible Officer of the Indenture Trustee shall have received written notice to the contrary at the Corporate Trust Office of the Indenture Trustee.

(h) The Indenture Trustee shall be under no obligation to exercise any of the trusts or powers vested in it by this Indenture or to institute, conduct or defend any litigation hereunder or in relation hereto at the request, order or direction of any of the Noteholders, pursuant to the provisions of this Indenture, unless such Noteholders shall have offered to the Indenture Trustee

security or indemnity satisfactory to the Indenture Trustee against the costs, expenses and liabilities (including the reasonable and documented fees and expenses of the Indenture Trustee's counsel and agents) which may be incurred therein or thereby.

(i) The Indenture Trustee shall have no duty (i) to maintain or monitor any insurance or (ii) to see to the payment or discharge of any tax, assessment, or other governmental charge or any lien or encumbrance of any kind owing with respect to, assessed or levied against, any part of the Trust Estate.

(j) Delivery of any reports, information and documents to the Indenture Trustee provided for herein or any other Transaction Document is for informational purposes only (unless otherwise expressly stated), and the Indenture Trustee's receipt of such or otherwise publicly available information shall not constitute actual or constructive knowledge or notice of any information contained therein or determinable from information contained therein, including the Servicer's, the Manager's or the Issuer's compliance with any of its representations, warranties or covenants hereunder (as to which the Indenture Trustee is entitled to rely exclusively on Officer's Certificates). The Indenture Trustee shall not have actual notice of any default or any other matter unless a Responsible Officer of the Indenture Trustee receives actual written notice of such default or other matter.

(k) The Indenture Trustee does not have any obligation to investigate any matter or exercise any powers vested under this Indenture unless requested in writing by 25% or more of the Noteholders, and such Noteholders have provided to the Indenture Trustee indemnity satisfactory to it.

(l) Knowledge of the Indenture Trustee shall not be attributed or imputed to Wilmington Trust's other roles in the transaction and knowledge of the Backup Servicer or the Transition Manager shall not be attributed or imputed to each other or to the Indenture Trustee (other than those where the roles are performed by the same group or division within Wilmington Trust or otherwise share the same Responsible Officers), or any affiliate, line of business, or other division of Wilmington Trust (and vice versa).

(m) The right of the Indenture Trustee to perform any permissive or discretionary act enumerated in this Indenture or any related document shall not be construed as a duty.

(n) None of the Indenture Trustee, the Transition Manager or the Backup Servicer shall have a duty to conduct any investigation as to an actual or alleged breach of any representation or warranty, the occurrence of any condition requiring the repurchase of any Solar Loan by any Person pursuant to the Transaction Documents, or the eligibility of any Solar Loan for purposes of the Transaction Documents. For the avoidance of doubt, none of the Indenture Trustee, the Transition Manager or the Backup Servicer shall be responsible for determining whether a breach of the representations or warranties made by Sunnova Intermediate Holdings, Sunnova ABS Holdings VII or the Depositor relating to the eligibility criteria of the Solar Loans has occurred or whether any such breach materially and adversely affects the value of such Solar Loans or the interests therein of the Noteholders; provided, however, that upon actual knowledge or receiving notice of a breach of any of the representations and warranties relating to the eligibility criteria of the Solar Loans by a Responsible Officer of the Indenture Trustee, the Transition Manager or the Backup Servicer, the Indenture Trustee, the Transition Manager or the Backup Servicer, as applicable, shall give prompt written notice thereof to Sunnova Intermediate Holdings, Sunnova ABS Holdings VII or the Depositor.

(o) The rights, benefits, protections, immunities and indemnities afforded to the Indenture Trustee hereunder shall extend to the Indenture Trustee (in any of its capacities) under any other Transaction Document or related agreement as though set forth therein in their entirety *mutatis mutandis*.

*Section 7.04. Not Responsible for Recitals, Issuance of Notes or Application of Moneys as Directed.* The recitals contained herein and in the Notes, except the certificates of authentication on the Notes, shall be taken as the statements of the Issuer, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations with respect to the Trust Estate or as to the validity or sufficiency of the Trust Estate or this Indenture or any other Transaction Document or of the Notes. The Indenture Trustee shall not be accountable for the use or application by the Issuer of the proceeds of the Notes. Subject to Section 7.01(b), the Indenture Trustee shall not be liable to any Person for any money paid to the Issuer upon an Issuer Order, Servicer instruction or order or direction provided in a Monthly Servicer Report contemplated by this Indenture or any other Transaction Document.

*Section 7.05. May Hold Notes.* The Indenture Trustee or any agent of the Issuer, in its individual or any other capacity, may become the owner or pledgee of Notes and may otherwise deal with the Issuer or Sunnova Energy or any Affiliate of the Issuer or Sunnova Energy with the same rights it would have if it were not the Indenture Trustee or other agent.

*Section 7.06. Money Held in Trust.* The Indenture Trustee shall be under no liability for interest on any money received by it hereunder except as otherwise agreed with the Issuer and except to the extent of income or other gain on investments which are obligations of the Indenture Trustee hereunder.

*Section 7.07. Compensation and Reimbursement.* (a) The Issuer agrees:

(i) to pay the Indenture Trustee in accordance with and subject to the Priority of Payments or the Acceleration Event Priority of Payments, as applicable, the Indenture Trustee Fee. The Indenture Trustee's compensation shall not be limited by any law with respect to compensation of a trustee of an express trust and the payments to the Indenture Trustee provided by Article V hereto shall constitute payments due with respect to the applicable fee agreement or letter;

(ii) in accordance with and subject to the Priority of Payments or the Acceleration Event Priority of Payments, as applicable, to reimburse the Indenture Trustee upon request for all reasonable and documented expenses, disbursements and advances incurred or made by the Indenture Trustee, the Backup Servicer and the Transition Manager in accordance with any provision of this Indenture (including, but not limited to, the reasonable compensation, expenses and disbursements of its agents and counsel and allocable costs of in-house counsel); *provided, however*, in no event shall the Issuer pay or reimburse the Indenture Trustee or the agents or counsel, including in-house counsel of either, for any expenses, disbursements and advances incurred or made by the Indenture Trustee in connection with any negligent action or negligent inaction on the part of the Indenture Trustee; *provided, further*, that payments to the Indenture Trustee for reimbursement for any such expenses will be as set forth in Section 5.07(a)(i) hereof;

(iii) to indemnify the Indenture Trustee and its officers, directors, employees and agents for, and to hold them harmless against, any fee, loss, liability, damage, cost or expense (including reasonable and documented attorneys' fees, costs and expenses and court costs) incurred without negligence or bad faith on the part of the Indenture Trustee, to the extent such matters have been determined by a court of competent jurisdiction, arising out of, or in connection with, the acceptance or administration of this trust and its obligations under the Transaction Documents, including, without limitation, the costs and expenses of defending itself against any claim, action or suit in connection with the exercise or performance of any of its powers or duties hereunder and defending itself against any claim, action or suit (including a successful defense, in whole or in part, of a breach of its standard of care) or bringing any claim, action or suit to enforce the indemnification or other obligations of the relevant transaction parties; *provided, however*, that:

(A) with respect to any such claim the Indenture Trustee shall have given the Issuer, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Depositor, the Servicer and the Manager written notice thereof promptly after the Indenture Trustee shall have actual knowledge thereof, provided, that failure to notify shall not relieve the parties of their obligations hereunder;

(B) notwithstanding anything to the contrary in this Section 7.07(a)(iii), none of the Issuer, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Depositor, the Servicer or the Manager shall be liable for settlement of any such claim by the Indenture Trustee entered into without the prior consent of the Issuer, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Depositor, the Servicer or the Manager, as the case may be, which consent shall not be unreasonably withheld or delayed; and

(C) the Indenture Trustee, its officers, directors, employees and agents, as a group, shall be entitled to counsel separate from the Issuer, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Depositor, the Servicer and the Manager; to the extent the Issuer's, Sunnova Intermediate Holdings', Sunnova ABS Holdings VII's, the Depositor's, the Servicer's and the Manager's interests are not adverse to the interests of the Indenture Trustee, its officers, directors, employees or agents, the Indenture Trustee may agree to be represented by the same counsel as the Issuer, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Depositor, the Servicer and the Manager.

Such payment obligations and indemnification shall survive the resignation or removal of the Indenture Trustee as well as the discharge, termination or assignment hereof. The Indenture Trustee's expenses are intended as expenses of administration.

Anything in this Indenture to the contrary notwithstanding, in no event shall the Indenture Trustee be liable for special, indirect, punitive or consequential loss or damage of any kind whatsoever (including but not limited to lost profits), even if the Indenture Trustee has been advised of the likelihood of such loss or damage and regardless of the form of action.

(b) The Indenture Trustee shall, on each Payment Date, in accordance with the Priority of Payments or the Acceleration Event Priority of Payments, as applicable, deduct payment of its fees and expenses hereunder from moneys in the Collection Account.

(c) The Issuer agrees to assume and to pay, and to indemnify, defend and hold harmless the Indenture Trustee and the Noteholders from any Taxes which may at any time be asserted with respect to, and as of the date of, the Grant of the Trust Estate to the Indenture Trustee, including, without limitation, any sales, gross receipts, general corporation, personal property, privilege or license taxes (but with respect to the Noteholders only, not including Taxes arising out of the creation or the issuance of the Notes or payments with respect thereto) and costs, expenses and reasonable counsel fees in defending against the same.

*Section 7.08. Eligibility; Disqualification.* The Indenture Trustee shall always have a combined capital and surplus as stated in Section 7.09, and shall always be a bank or trust company with corporate trust powers organized under the laws of the United States or any State thereof which is a member of the Federal Reserve System and shall be rated at least investment grade by S&P.

*Section 7.09. Indenture Trustee's Capital and Surplus.* The Indenture Trustee and/or its parent shall at all times have a combined capital and surplus of at least \$100,000,000. If the Indenture Trustee publishes annual reports of condition of the type described in Section 310(a)(2) of the Trust Indenture Act of 1939, as amended, its combined capital and surplus for purposes of this Section 7.09 shall be as set forth in the latest such report.

*Section 7.10. Resignation and Removal; Appointment of Successor.* (a) No resignation or removal of the Indenture Trustee and no appointment of a successor Indenture Trustee pursuant to this Section 7.10 shall become effective until the acceptance of appointment by the successor Indenture Trustee under Section 7.11.

(b) The Indenture Trustee may resign at any time by giving 30 days' prior written notice thereof to the Issuer and the Servicer. If an instrument of acceptance by a successor Indenture Trustee shall not have been delivered to the Indenture Trustee within 30 days after the giving of such notice of resignation, the resigning Indenture Trustee may petition any court of competent jurisdiction for the appointment of a successor Indenture Trustee.

(c) The Indenture Trustee may be removed at any time by the Super-Majority Noteholders of the Controlling Class upon 30 days' prior written notice, delivered to the Indenture Trustee, with copies to the Servicer and the Issuer.

(d) If at any time the Indenture Trustee shall cease to be eligible under Section 7.08 or 7.09 or shall become incapable of acting or shall be adjudged bankrupt or insolvent, or a receiver of the Indenture Trustee or of its property shall be appointed, or any public officer shall take charge or control of the Indenture Trustee or of its property or affairs for the purpose of rehabilitation, conservation or liquidation, then, in any such case, with 30 days' prior written notice, the Issuer, with the prior written consent of the Super-Majority Noteholders of the Controlling Class, by an Issuer Order, may remove the Indenture Trustee.

(ii) If the Indenture Trustee shall be removed pursuant to Sections 7.10(c) or (d) and no successor Indenture Trustee shall have been appointed pursuant to Section 7.10(e) and accepted such appointment within 30 days of the date of removal, the removed Indenture Trustee may petition any court of competent jurisdiction for appointment of a successor Indenture Trustee acceptable to the Issuer.

(e) If the Indenture Trustee shall resign, be removed or become incapable of acting, or if a vacancy shall occur in the office of the Indenture Trustee for any cause, the Issuer, with the prior written consent of the Majority Noteholders of the Controlling Class, by an Issuer Order shall promptly appoint a successor Indenture Trustee.

(f) The Issuer shall give to the Rating Agency and the Noteholders notice of each resignation and each removal of the Indenture Trustee and each appointment of a successor Indenture Trustee. Each notice shall include the name of the successor Indenture Trustee and the address of its Corporate Trust Office.

(g) The provisions of this Section 7.10 shall apply to any co-trustee or separate trustee appointed by the Issuer and the Indenture Trustee pursuant to Section 7.13.

*Section 7.11. Acceptance of Appointment by Successor.* (a) Every successor Indenture Trustee appointed hereunder shall execute, acknowledge and deliver to the Issuer and the retiring Indenture Trustee an instrument accepting such appointment, and thereupon the resignation or removal of the retiring Indenture Trustee shall become effective and such successor Indenture Trustee, without any further act, deed or conveyance, shall become vested with all the rights, powers, trusts and duties of the retiring Indenture Trustee. Notwithstanding the foregoing, on request of the Issuer or the successor Indenture Trustee, such retiring Indenture Trustee shall, upon payment of its fees, expenses and other charges, execute and deliver an instrument transferring to such successor Indenture Trustee all the rights, powers and trusts of the retiring Indenture Trustee and shall duly assign, transfer and deliver to such successor Indenture Trustee all property and money held by such retiring Indenture Trustee hereunder. Upon request of any such successor Indenture Trustee, the Issuer shall execute and deliver any and all instruments for more fully and certainly vesting in and confirming to such successor Indenture Trustee all such rights, powers and trusts.

(b) No successor Indenture Trustee shall accept its appointment unless at the time of such acceptance such successor Indenture Trustee shall be qualified and eligible under Sections 7.08 and 7.09.

(c) Notwithstanding the replacement of the Indenture Trustee, the obligations of the Issuer pursuant to Section 7.07(a)(iii) and (c) and the Indenture Trustee's protections under this Article VII shall continue for the benefit of the retiring Indenture Trustee.

*Section 7.12. Merger, Conversion, Consolidation or Succession to Business of Indenture Trustee.* Any corporation or national banking association into which the Indenture Trustee may be merged or converted or with which it may be consolidated, or any corporation, bank, trust company or national banking association resulting from any merger, conversion or consolidation to which the Indenture Trustee shall be a party, or any corporation, bank, trust company or national banking association succeeding to all or substantially all of the corporate trust business of the Indenture Trustee, shall be the successor of the Indenture Trustee hereunder if such corporation, bank, trust company or national banking association shall be otherwise qualified and eligible under Section 7.08 and 7.09, without the execution or filing of any paper or any further act on the part of any of the parties hereto. The Indenture Trustee shall provide the Rating Agency written notice of any such transaction. In case any Notes have been authenticated, but not delivered, by the Indenture Trustee then in office, any successor by merger, conversion or consolidation to such authenticating Indenture Trustee may adopt such authentication and deliver the Notes so authenticated with the same effect as if such successor Indenture Trustee had authenticated such Notes.

*Section 7.13. Co-trustees and Separate Indenture Trustees.* (a) At any time or times, for the purpose of meeting the legal requirements of any jurisdiction in which any part of the Trust Estate may at the time be located, for enforcement actions, and where a conflict of interest exists, the Indenture Trustee shall have power to appoint and, upon the written request of the Indenture Trustee, the Issuer shall for such purpose join with the Indenture Trustee in the execution, delivery and performance of all instruments and agreements necessary or proper to appoint, one or more Persons that are approved by the Indenture Trustee either to act as co-trustee, jointly with the Indenture Trustee, of such part of the Trust Estate, or to act as separate trustee of any such property, in either case with such powers as may be provided in the instrument of appointment, and to vest in such Person or Persons in the capacity aforesaid, any property, title, right or power of the Indenture Trustee deemed necessary or desirable, in all respects subject to the other provisions of this Section 7.13. If the Issuer does not join in such appointment within 15 days after the receipt by it of a request so to do, or in case an Event of Default has occurred and is continuing, the Indenture Trustee alone shall have power to make such appointment. No notice to the Noteholders of the appointment of any co-trustee or separate trustee shall be required

under this Indenture. Notice of any such appointments shall be promptly given to the Rating Agency by the Indenture Trustee.

(b) Should any written instrument from the Issuer be required by any co-trustee or separate trustee so appointed for more fully confirming to such co-trustee or separate trustee such property, title, right or power, any and all such instruments shall, on request, be executed, acknowledged and delivered by the Issuer.

(c) Every co-trustee or separate trustee shall, to the extent permitted by law, but to such extent only, be appointed subject to the following terms:

(i) The Notes shall be authenticated and delivered and all rights, powers, duties and obligations hereunder with respect to the custody of securities, cash and other personal property held by, or required to be deposited or pledged with, the Indenture Trustee hereunder, shall be exercised solely by the Indenture Trustee.

(ii) The rights, powers, duties and obligations hereby conferred or imposed upon the Indenture Trustee with respect to any property covered by such appointment shall be conferred or imposed upon and exercised or performed by the Indenture Trustee and such co-trustee or separate trustee jointly, except to the extent that under any law of any jurisdiction in which any particular act is to be performed, the Indenture Trustee shall be incompetent or unqualified to perform such act, in which event such rights, powers, duties and obligations shall be exercised and performed solely by such co-trustee or separate trustee.

(iii) The Indenture Trustee at any time, by an instrument in writing executed by it, may accept the resignation of, or remove, any co-trustee or separate trustee appointed under this Section 7.13. Upon the written request of the Indenture Trustee, the Issuer shall join with the Indenture Trustee in the execution, delivery and performance of all instruments and agreements necessary or proper to effectuate such resignation or removal. A successor to any co-trustee or separate trustee so resigned or removed may be appointed in the manner provided in this Section 7.13.

(iv) No co-trustee or separate trustee appointed in accordance with this Section 7.13 hereunder shall be financially or otherwise liable by reason of any act or omission of the Indenture Trustee, or any other such trustee hereunder, and the Indenture Trustee shall not be financially or otherwise liable by reason of any act or omission of any co-trustee or other such separate trustee hereunder.

(v) Any notice, request or other writing delivered to the Indenture Trustee shall be deemed to have been delivered to each such co-trustee and separate trustee.

(vi) Any separate trustee or co-trustee may, at any time, constitute the Indenture Trustee, its agent or attorney-in-fact, with full power and authority, to the extent not prohibited by law, to do any lawful act under or with respect to this Indenture on its behalf and in its name. The Indenture Trustee shall not be responsible for any action or inaction of any such separate trustee or co-trustee appointed in accordance with this Section 7.13. The Indenture Trustee shall not have any responsibility or liability relating to the appointment of any separate or co-trustee. Any such separate or co-trustee shall not be deemed to be an agent of the Indenture Trustee. If any separate trustee or co-trustee shall die, become incapable of acting, resign or be removed, all of its estate, properties, rights, remedies and trusts shall vest in and be exercised by the Indenture

Trustee, to the extent permitted by law, without the appointment of a new or successor trustee.

*Section 7.14. Books and Records.* The Indenture Trustee agrees to provide to the Noteholders the right during normal business hours upon two days' prior notice in writing to inspect its books and records insofar as the books and records relate to the functions and duties of the Indenture Trustee pursuant to this Indenture.

*Section 7.15. Control.* Upon the Indenture Trustee being adequately indemnified in writing to its satisfaction, the Majority Noteholders of the Controlling Class shall have the right to direct the Indenture Trustee with respect to any action or inaction by the Indenture Trustee hereunder, the exercise of any trust or power conferred on the Indenture Trustee, or the conduct of any Proceeding for any remedy available to the Indenture Trustee with respect to the Notes or the Trust Estate provided that:

(a) such direction shall not be in conflict with any rule of law or with this Indenture or expose the Indenture Trustee to financial or other liability (for which it has not been adequately indemnified) or be unduly prejudicial to the Noteholders not approving such direction including, but not limited to and without intending to narrow the scope of this limitation, direction to the Indenture Trustee to act or omit to act, directly or indirectly, to amend, hypothecate, subordinate, terminate or discharge any Lien benefiting the Noteholders in the Trust Estate;

(b) the Indenture Trustee may take any other action deemed proper by the Indenture Trustee which is not inconsistent with such direction; and

(c) except as expressly provided otherwise herein (but only with the prior written consent of or at the direction of the Majority Noteholders of the Controlling Class), the Indenture Trustee shall have the authority to take any enforcement action which it reasonably deems to be necessary to enforce the provisions of this Indenture.

*Section 7.16. Suits for Enforcement.* If an Event of Default of which a Responsible Officer of the Indenture Trustee shall have actual knowledge, shall occur and be continuing, the Indenture Trustee may, in its discretion and shall, at the direction of the Majority Noteholders of the Controlling Class (provided that the Indenture Trustee is adequately indemnified in writing to its satisfaction), proceed to protect and enforce its rights and the rights of any Noteholders under this Indenture by a Proceeding, whether for the specific performance of any covenant or agreement contained in this Indenture or in aid of the execution of any power granted in this Indenture or for the enforcement of any other legal, equitable or other remedy as the Indenture Trustee, being advised by counsel, shall deem most effectual to protect and enforce any of the rights of the Indenture Trustee or any Noteholders, but in no event shall the Indenture Trustee be liable for any failure to act in the absence of direction the Majority Noteholders of the Controlling Class.

*Section 7.17. Compliance with Applicable Anti-Terrorism and Anti-Money Laundering Regulations.* In order to comply with Applicable Laws, including those relating to the funding of terrorist activities and money laundering, the Indenture Trustee is required to obtain, verify and record certain information relating to individuals and entities which maintain a business relationship with Indenture Trustee. Accordingly, each of the parties agrees to provide to Indenture Trustee upon its request from time to time such identifying information and documentation as may be available to such party in order to enable Indenture Trustee to comply with Applicable Law.

*Section 7.18. Authorization.* The Indenture Trustee is hereby authorized and directed to execute, deliver and perform its obligations under and make the representations contained in the Account Control Agreement on the Closing Date. Each Noteholder and each Note Owner, by its acceptance of a Note, acknowledges and agrees that the Indenture Trustee shall execute, deliver and perform its obligations under the Account Control Agreement and shall do so solely in its capacity as Indenture Trustee and not in its individual capacity. Furthermore, each Noteholder and each Note Owner, by its acceptance of a Note acknowledges and agrees that the Indenture Trustee shall have no obligation to take any action pursuant to the Account Control Agreement unless directed to do so by the Majority Noteholders of the Controlling Class.

(f) the failure for any reason of the Indenture Trustee, on behalf of the Noteholders, to have a first priority perfected Lien on the Trust Estate in favor of the Indenture Trustee (subject to Permitted Liens) which is not stayed, released or otherwise cured within ten days of receipt of notice or the Servicer's, the Manager's or the Issuer's knowledge thereof;

Nothing herein contained shall be deemed to authorize the Indenture Trustee to authorize and consent to or accept or adopt on behalf of any Noteholder any plan of reorganization, arrangement, adjustment, or composition affecting any of the Notes or the rights of any Noteholder thereof, or to authorize the Indenture Trustee to vote with respect to the claim of any Noteholder in any such Insolvency Proceeding.

- (d) the Indenture Trustee for 30 days after its receipt of such notice, request and offer of security or indemnity has failed to institute any such Proceedings; and
- (e) no direction inconsistent with such written request has been given to the Indenture Trustee during such 30-day period by the Majority Noteholders of the Controlling Class;

it being understood and intended that no one or more Holders of Notes shall have any right in any manner whatever by virtue of, or by availing of, any provision of this Indenture to affect, disturb or prejudice the rights of any other Holders of Notes, or to obtain or to seek to obtain priority or preference over any other Holders or to enforce any right under this Indenture, except in the manner herein provided.

*Section 9.07. Unconditional Right of Noteholders to Receive Principal and Interest.* The Holders of the Notes shall have the right, which is absolute and unconditional, subject to the express terms of this Indenture, to receive payment of principal and interest on such Notes, subject to the respective relative priorities provided for in this Indenture, as such principal and interest becomes due and payable from the Trust Estate and, subject to Section 9.06, to institute Proceedings for the enforcement of any such payment, and such right shall not be impaired except as expressly permitted herein without the consent of such Holders.

*Section 9.08. Restoration of Rights and Remedies.* If the Indenture Trustee or any Noteholder has instituted any Proceeding to enforce any right or remedy under this Indenture and such Proceeding has been discontinued or abandoned for any reason, or has been determined adversely to the Indenture Trustee or to such Noteholder, then, and in every case, the Issuer, the Indenture Trustee and the Noteholders shall, subject to any determination in such Proceeding, be restored severally and respectively to their former positions hereunder, and thereafter all rights and remedies of the Indenture Trustee and the Noteholders shall continue as though no such Proceeding had been instituted.

*Section 9.09. Rights and Remedies Cumulative.* Except as otherwise provided with respect to the replacement or payment of mutilated, destroyed, lost or stolen Notes in Section 2.09, no right or remedy herein conferred upon or reserved to the Indenture Trustee or to the Noteholders is intended to be exclusive of any other right or remedy, and every right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

*Section 9.10. Delay or Omission; Not Waiver.* No delay or omission of the Indenture Trustee or of any Holder of any Note to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or any acquiescence therein. Every right and remedy given by this Article IX or by law to the Indenture Trustee or to the Noteholders may be exercised from time to time, and as often as may be deemed expedient, by the Indenture Trustee or by the Noteholders, as the case may be.

*Section 9.11. Control by Noteholders.* Other than as set forth herein, the Majority Noteholders of the Controlling Class shall have the right to direct the time, method and place of conducting any Proceeding for any remedy available to the Indenture Trustee or exercising any trust or power conferred on the Indenture Trustee; provided that:

(a) such direction shall not be in conflict with any rule of law or with this Indenture including, without limitation, any provision hereof which expressly provides for approval by a greater percentage of the aggregate principal amount of all Outstanding Notes;

(b) the Indenture Trustee may take any other action deemed proper by the Indenture Trustee which is not inconsistent with such direction; *provided, however*, that, subject to Section 7.01, the Indenture Trustee need not take any action which a Responsible Officer or Officers of the Indenture Trustee in good faith determines might involve it in liability (unless the Indenture Trustee is furnished with the reasonable indemnity referred to in Section 9.11(c)); and

(c) the Indenture Trustee has been furnished reasonable indemnity against costs, expenses and liabilities which it might incur in connection therewith.

*Section 9.12. Waiver of Certain Events by Less Than All Noteholders.* The Super-Majority Noteholders of the Controlling Class may, on behalf of the Holders of all the Notes, waive any past Default, Event of Default, Acceleration Event, Servicer Termination Event, or Manager Termination Event, and its consequences, except:

(a) a Default in the payment of the principal of or interest on any Note, or a Default caused by the Issuer becoming subject to registration as an "investment company" under the 1940 Act, or

(b) with respect to a covenant or provision hereof which under Article X cannot be modified or amended without the consent of the Holder of each Outstanding Note affected.

Upon any such waiver, such Default, Event of Default, Acceleration Event, Servicer Termination Event or Manager Termination Event shall cease to exist, and any Default, Event of Default, Acceleration Event, Servicer Termination or Manager Termination Event or other consequence arising therefrom shall be deemed to have been cured for every purpose of this Indenture; but no such waiver shall extend to any subsequent or other Default, Event of Default,

Servicer Termination Event or Manager Termination Event or impair any right consequent thereon.

*Section 9.13. Undertaking for Costs.* All parties to this Indenture agree, and each Noteholder and each Note Owner by its acceptance of a Note shall be deemed to have agreed, that any court may in its discretion require, in any suit for the enforcement of any right or remedy under this Indenture, or in any suit against the Indenture Trustee for any action taken, suffered or omitted by it as Indenture Trustee, the filing by any party litigant in such suit of an undertaking to pay the costs of such suit, and that such court may in its discretion assess reasonable costs, including reasonable attorneys' fees, against any party litigant in such suit, having due regard to the merits and good faith of the claims or defenses made by such party litigant; but the provisions of this Section 9.13 shall not apply to any suit instituted by the Indenture Trustee or to any suit instituted by any Noteholder for the enforcement of the payment of the principal of or interest on any Note on or after the Rated Final Maturity expressed in such Note.

*Section 9.14. Waiver of Stay or Extension Laws.* The Issuer covenants (to the extent that it may lawfully do so) that it will not, at any time, insist upon, or plead, or in any manner whatsoever claim or take the benefit or advantage of, any stay or extension law wherever enacted, now or at any time hereafter in force, which may affect the covenants or the performance of this Indenture; and the Issuer (to the extent that it may lawfully do so) hereby expressly waives all benefit or advantage of any such law, and covenants that it will not hinder, delay or impede the execution of any power herein granted to the Indenture Trustee, but will suffer and permit the execution of every such power as though no such law had been enacted.

*Section 9.15. Sale of Trust Estate.* (a) The power to effect any sale of any portion of the Trust Estate pursuant to this Article IX shall not be exhausted by any one or more sales as to any portion of the Trust Estate remaining unsold, but shall continue unimpaired until the entire Trust Estate securing the Notes shall have been sold or all amounts payable on the Notes and under this Indenture with respect thereto shall have been paid. The Indenture Trustee, acting on its own or through an agent, may from time to time postpone any sale by public announcement made at the time and place of such sale.

(b) The Indenture Trustee shall not, in any private sale, sell to a third party the Trust Estate, or any portion thereof unless the Super-Majority Noteholders of the Controlling Class direct the Indenture Trustee, in writing, to make such sale or unless either (i) the proceeds of such sale or liquidation are sufficient to discharge in full the amounts then due and unpaid upon the Notes for principal and accrued interest and the fees and all other amounts required to be paid pursuant to the Priority of Payments or (ii) the Holders of 100% of the principal amount of each Class of Notes then Outstanding consent thereto. Notwithstanding the foregoing, prior to the consummation of any sale of the Trust Estate (either private or public), the Indenture Trustee shall first offer the Originator the opportunity to purchase the Trust Estate for a purchase price equal to the greater of (x) the fair market value of the Trust Estate and (y) the aggregate outstanding note balance of the Notes, plus accrued interest thereon and fees owed thereto (such right, the "*Right of First Refusal*"). If the Originator does not exercise its Right of First Refusal within two Business Days of receipt thereof, then the Indenture Trustee shall sell the Trust Estate as otherwise set forth in this Section 9.15; *provided, further*, that if the Originator does not exercise its Right of First Refusal and the Indenture Trustee elects to sell the Trust Estate in a private sale to a third party, then prior to the sale thereof, the Indenture Trustee shall offer the Originator the opportunity to purchase the Trust Estate for the purchase price being offered by such third party, and the Originator shall have two Business Days to accept such offer.

(c) The Indenture Trustee or any Noteholder may bid for and acquire any portion of the Trust Estate in connection with a public or private sale thereof, and in lieu of paying cash therefor, any Noteholder may make settlement for the purchase price by crediting against

amounts owing on the Notes of such Holder or other amounts owing to such Holder secured by this Indenture, that portion of the net proceeds of such sale to which such Holder would be entitled, after deducting the reasonable costs, charges and expenses incurred by the Indenture Trustee or the Noteholders in connection with such sale. The Notes need not be produced in order to complete any such sale, or in order for the net proceeds of such sale to be credited against the Notes. The Indenture Trustee or the Noteholders may hold, lease, operate, manage or otherwise deal with any property so acquired in any manner permitted by law.

(d) The Indenture Trustee shall execute and deliver an appropriate instrument of conveyance transferring its interest in any portion of the Trust Estate in connection with a sale thereof. In addition, the Indenture Trustee is hereby irrevocably appointed the agent and attorney-in-fact of the Issuer to transfer and convey its interest in any portion of the Trust Estate in connection with a sale thereof, pursuant to this Section 9.15, and to take all action necessary to effect such sale. No purchaser or transferee at such a sale shall be bound to ascertain the Indenture Trustee's authority, inquire into the satisfaction of any conditions precedent or see to the application of any monies.

(e) The method, manner, time, place and terms of any sale of all or any portion of the Trust Estate shall be commercially reasonable.

*Section 9.16. Action on Notes.* The Indenture Trustee's right to seek and recover judgment on the Notes or under this Indenture shall not be affected by the seeking, obtaining or application of any other relief under or with respect to this Indenture. Neither the Lien of this Indenture nor any rights or remedies of the Indenture Trustee or the Noteholders shall be impaired by the recovery of any judgment by the Indenture Trustee against the Issuer or by the levy of any execution under such judgment upon any portion of the Trust Estate or upon any of the assets of the Issuer.

### Supplemental Indentures

*Section 10.01. Supplemental Indentures Without Noteholder Approval.* (a) Without the consent of the Noteholders, provided that (x) the Issuer shall have provided written notice to the Rating Agency of such modification, (y) the Indenture Trustee shall have received an Opinion of Counsel that such modification is permitted under the terms of this Indenture and that all conditions precedent to the execution of such modification have been satisfied and (z) the Indenture Trustee shall have received a Tax Opinion, the Issuer and the Indenture Trustee, when authorized and directed by an Issuer Order, at any time and from time to time, may enter into one or more amendments or indentures supplemental hereto, in form satisfactory to the Indenture Trustee, for any of the following purposes:

(i) to correct, amplify or add to the description of any property at any time subject to the Lien of this Indenture, or better to assure, convey and confirm unto the Indenture Trustee any property subject or required to be subjected to the Lien of this Indenture, or to subject to the Lien of this Indenture additional property; *provided* that such action pursuant to this clause (i) shall not adversely affect the interests of the Noteholders in any respect;

(ii) to evidence the succession of another Person to either the Issuer or the Indenture Trustee in accordance with the terms hereof, and the assumption by any such successor of the covenants of the Issuer or the Indenture Trustee contained herein and in the Notes;

(iii) to cure any ambiguity, to correct or supplement any provision herein which may be defective or inconsistent with any other provision herein or to conform the provisions herein to the descriptions set forth in the Offering Circular;

(iv) to add to the covenants of the Issuer or the Indenture Trustee, for the benefit of the Noteholders or to surrender any right or power herein conferred upon the Issuer; or

(v) to effect any matter specified in Section 10.06.

(b) Promptly after the execution by the Issuer and the Indenture Trustee of any amendment or supplemental indenture pursuant to this Section 10.01, the Indenture Trustee shall make available to the Noteholders and the Rating Agency a copy of such supplemental indenture. Any failure of the Indenture Trustee to make available such copy shall not, however, in any way impair or affect the validity of any such amendment or supplemental indenture.

*Section 10.02. Supplemental Indentures with Consent of Noteholders.* (a) With the prior written consent of each Noteholder affected thereby, prior written notice to the Rating Agency and receipt by the Indenture Trustee of a Tax Opinion, the Issuer and the Indenture Trustee, when authorized and directed by an Issuer Order, at any time and from time to time, may enter into an amendment or a supplemental indenture for the purpose of adding any provisions to, or changing in any manner or eliminating any of the provisions of, this Indenture or of modifying in any manner the rights of the Noteholders under this Indenture for the following purposes:

(i) to change the Rated Final Maturity of any Note, or the due date of any payment of interest on any Note, or reduce the principal amount thereof, or the interest rate thereon, change the place of payment where, or the coin or currency in which any

Note or any interest thereon is payable, or impair the right to institute suit for the enforcement of the payment of interest due on any Note on or after the due date thereof or for the enforcement of the payment of the entire remaining unpaid principal amount of any Note on or after the Rated Final Maturity thereof or change any provision of Article VI regarding the amounts payable upon any Voluntary Prepayment of the Notes;

(ii) to reduce the percentage of the Outstanding Note Balance of either Class of Notes, the consent of the Noteholders of which is required to approve any such supplemental indenture; or the consent of the Noteholders of which is required for any waiver of compliance with provisions of this Indenture, Events of Default, Manager Termination Events under the Indenture or under the Management Agreement or Servicer Termination Events under this Indenture or under the Servicing Agreement and their consequences provided for in this Indenture or for any other purpose hereunder;

(iii) to modify any of the provisions of this Section 10.02;

(iv) to modify or alter the provisions of the proviso to the definition of the term "Outstanding"; or

(v) to permit the creation of any other Lien with respect to any part of the Trust Estate or terminate the Lien of this Indenture on any property at any time subject hereto or, except with respect to any action which would not have a material adverse effect on any Noteholder (as certified by the Issuer), deprive the Noteholder of the security afforded by the Lien of this Indenture.

(b) With the prior written consent of the Majority Noteholders of the Controlling Class, and receipt by the Indenture Trustee of a Tax Opinion, the Issuer and the Indenture Trustee, when authorized by an Issuer Order, at any time and from time to time, may enter into one or more amendments or indentures supplemental hereto, in form satisfactory to the Indenture Trustee for the purpose of modifying, eliminating or adding to the provisions of this Indenture; provided that such supplemental indentures shall not have any of the effects described in paragraphs (i) through (v) of Section 10.02(a).

(c) Promptly after the execution by the Issuer and the Indenture Trustee of any amendment or supplemental indenture pursuant to this Section 10.02, the Indenture Trustee shall make available to the Noteholders and the Rating Agency a copy of such supplemental indenture. Any failure of the Indenture Trustee to make available such copy shall not, however, in any way impair or affect the validity of any such supplemental indenture.

(d) Whenever the Issuer or the Indenture Trustee solicits a consent to any amendment or supplement to this Indenture, the Issuer shall fix a record date in advance of the solicitation of such consent for the purpose of determining the Noteholders entitled to consent to such amendment or supplement. Only those Noteholders at such record date shall be entitled to consent to such amendment or supplement whether or not such Noteholders continue to be Holders after such record date.

*Section 10.03. Execution of Amendments and Supplemental Indentures.* In executing, or accepting the additional trusts created by, any amendment or supplemental indenture permitted by this Article X or the modifications thereby of the trusts created by this Indenture, the Indenture Trustee shall be entitled to receive, and (subject to Section 7.01) shall be fully protected in relying upon, an Opinion of Counsel (i) describing that the execution of such supplemental indenture is authorized or permitted by this Indenture and (ii) in accordance with Section 3.06(a) hereof. The Indenture Trustee may, but shall not be obligated to, enter into any such supplemental indenture which affects the Indenture Trustee's own rights, duties or immunities under this Indenture or otherwise.

*Section 10.04. Effect of Amendments and Supplemental Indentures.* Upon the execution of any amendment or supplemental indenture under this Article X, this Indenture shall be modified in accordance therewith, and such supplemental indenture shall form a part of this Indenture for all purposes; and every Holder of Notes which have theretofore been or thereafter are authenticated and delivered hereunder shall be bound thereby.

*Section 10.05. Reference in Notes to Amendments and Supplemental Indentures.* Notes authenticated and delivered after the execution of any amendment or supplemental indenture pursuant to this Article X may, and if required by the Issuer shall, bear a notation as to any matter provided for in such supplemental indenture. If the Issuer shall so determine, new Notes so modified as to conform to any such supplemental indenture may be prepared and executed by the Issuer and authenticated and delivered by the Indenture Trustee in exchange for Outstanding Notes.

*Section 10.06. Indenture Trustee to Act on Instructions.* Notwithstanding any provision herein to the contrary (other than Section 10.02), in the event the Indenture Trustee is uncertain as to the intention or application of any provision of this Indenture or any other agreement to which it is a party, or such intention or application is ambiguous as to its purpose or application, or is, or appears to be, in conflict with any other applicable provision thereof, or if this Indenture or any other agreement to which it is a party permits or does not prohibit any determination by the Indenture Trustee, or is silent or incomplete as to the course of action which the Indenture Trustee is required or is permitted or may be permitted to take with respect to a particular set of facts or circumstances, the Indenture Trustee shall, at the expense of the Issuer, be entitled to request and rely upon the following: (a) written instructions of the Issuer directing the Indenture Trustee to take certain actions or refrain from taking certain actions, which written instructions shall contain a certification that the taking of such actions or refraining from taking certain actions is in the best interest of the Noteholders and (b) prior written consent of the Majority Noteholders of the Controlling Class. In such case, the Indenture Trustee shall have no liability to the Issuer or the Noteholders for, and the Issuer shall hold harmless the Indenture Trustee from, any liability, costs or expenses arising from or relating to any action taken by the Indenture Trustee acting upon such instructions, and the Indenture Trustee shall have no responsibility to the Noteholders with respect to any such liability, costs or expenses. The Issuer shall provide a copy of such written instructions to the Rating Agency.

### Miscellaneous

*Section 12.01. Compliance Certificates and Opinions; Furnishing of Information.* Upon any application or request by the Issuer to the Indenture Trustee to take any action under any provision of this Indenture (except with respect to ordinary course actions under this Indenture and except as otherwise specifically provided in this Indenture), the Issuer at the request of the Indenture Trustee shall furnish to the Indenture Trustee a certificate describing that all conditions precedent, if any, provided for in this Indenture relating to the proposed action have been complied with and an Opinion of Counsel describing that, in the opinion of such counsel, all such conditions precedent, if any, have been complied with, except that in the case of any such application or request as to which the furnishing of certificates and Opinions of Counsel are specifically required by any provision of this Indenture relating to such particular application or request, no additional certificate or Opinion of Counsel need be furnished.

*Section 12.02. Form of Documents Delivered to Indenture Trustee.* (a) If several matters are required to be certified by, or covered by an opinion of, any specified Person, it is not necessary that all such matters be certified by, or covered by the opinion of, only one such Person, or that they be so certified or covered by only one document, but one such Person may certify or give an opinion with respect to some matters and one or more other such Persons as to other matters, and any such Person may certify or give an opinion as to such matters in one or several documents.

(b) Any certificate or opinion of an Authorized Officer of the Issuer may be based, insofar as it relates to legal matters, upon a certificate or opinion of, or representations by outside counsel, unless such Authorized Officer knows, or in the exercise of reasonable care should know, that the certificate or opinion or representations with respect to the matters upon which his certificate or opinion is based are erroneous. Any such certificate or opinion or any Opinion of Counsel may be based, insofar as it relates to factual matters, upon a certificate or opinion of, or representations by, an Authorized Officer of any relevant Person, describing that the information with respect to such factual matters is in the possession of such Person, unless such officer or counsel knows, or in the exercise of reasonable care should know, that the certificate or opinion or representations with respect to such matters are erroneous. Any Opinion of Counsel may be based on the written opinion of other counsel, in which event such Opinion of Counsel shall be accompanied by a copy of such other counsel's opinion and shall include a statement to the effect that such counsel believes that such counsel and the Indenture Trustee may reasonably rely upon the opinion of such other counsel.

(c) Where any Person is required to make, give or execute two or more applications, requests, consents, notices, statements, opinions or other instruments under this Indenture, they may, but need not, be consolidated and form one instrument.

(d) Wherever in this Indenture, in connection with any application or certificate or report to the Indenture Trustee, it is provided that the Issuer, the Servicer or the Manager shall

deliver any document as a condition of the granting of such application, or as evidence of the Issuer's, the Servicer's or the Manager's compliance with any term hereof, it is intended that the truth and accuracy, at the time of the granting of such application or at the effective date of such notice or report (as the case may be), of the facts and opinions stated in such document shall in such case be conditions precedent to the right of the Issuer to have such application granted or to the sufficiency of such notice or report. The foregoing shall not, however, be construed to affect the Indenture Trustee's right to rely upon the truth and accuracy of any statement or opinion contained in any such document as provided in Section 7.01(b)(ii).

(e) Wherever in this Indenture it is provided that the absence of the occurrence and continuation of a Default, an Event of Default, a Servicer Termination Event or a Manager Termination Event is a condition precedent to the taking of any action by the Indenture Trustee at the request or direction of the Issuer, then notwithstanding that the satisfaction of such condition is a condition precedent to the Issuer's or the Indenture Trustee's right to make such request or direction, the Indenture Trustee shall be protected in acting in accordance with such request or direction if a Responsible Officer of the Indenture Trustee does not have actual knowledge of the occurrence and continuation of such Default, Event of Default, Servicer Termination Event or Manager Termination Event.

*Section 12.03. Acts of Noteholders.* (a) Any request, demand, authorization, direction, notice, consent, waiver or other action provided by this Indenture to be given or taken by Noteholders may be embodied in and evidenced by one or more instruments of substantially similar tenor signed by such Noteholders in person or by an agent duly appointed in writing; and, except as herein otherwise expressly provided, such action shall become effective when such instrument or instruments are delivered to the Indenture Trustee, and, where it is hereby expressly required, to the Issuer. Such instrument or instruments (and the action embodied therein and evidenced thereby) are herein sometimes referred to as the "*Act*" of the Noteholders signing such instrument or instruments. Proof of execution of any such instrument or of a writing appointing any such agent shall be sufficient for any purpose of this Indenture and (subject to Section 7.01) conclusive in favor of the Indenture Trustee and the Issuer, if made in the manner provided in this Section 12.03.

(b) The fact and date of the execution by any Person of any such instrument or writing may be proved by the affidavit of a witness of such execution or by the certificate of any notary public or other officer authorized by law to take acknowledgments of deeds, certifying that the individual signing such instrument or writing acknowledged to him the execution thereof. Whenever such execution is by an officer of a corporation or a member of a limited liability company or a partnership on behalf of such corporation, limited liability company or partnership, such certificate or affidavit shall also constitute sufficient proof of his authority.

(c) The ownership of Notes shall be proved by the Note Register.

(d) Any request, demand, authorization, direction, notice, consent, waiver or other action by the Holder of any Notes shall bind the Holder of every Note issued upon the registration or transfer thereof or in exchange therefor or in lieu thereof, with respect to anything done, omitted or suffered to be done by the Indenture Trustee or the Issuer in reliance thereon, whether or not notation of such action is made upon such Notes.

*Section 12.04. Notices, Etc.* Any request, demand, authorization, direction, notice, consent, waiver or act of Noteholders or other documents provided or permitted by this Indenture to be made upon, given or furnished to, or filed with:

(a) the Indenture Trustee by any Noteholder or by the Issuer, shall be in writing and shall be delivered personally, mailed by first-class registered or certified mail, postage prepaid, by facsimile transmission or electronic transmission in PDF format or overnight delivery service, postage prepaid, and received by, a Responsible Officer of the Indenture Trustee at its Corporate Trust Office listed below, or

(b) any other Person shall be in writing and shall be delivered personally or by facsimile transmission, electronic transmission in PDF format or prepaid overnight delivery service at the address listed below or at any other address subsequently furnished in writing to the Indenture Trustee by the applicable Person.

Notices delivered to the Rating Agency shall be by electronic delivery to the email address set forth above where information is available in electronic format. In addition, upon the written request of any beneficial owner of a Note, the Indenture Trustee shall provide to such beneficial owner copies of such notices, reports or other information delivered, in one or more of the means requested, by the Indenture Trustee hereunder to other Persons as such beneficial owner may reasonably request.

*Section 12.05. Notices and Reports to Noteholders; Waiver of Notices.* (a) Where this Indenture provides for notice to Noteholders of any event or the mailing of any report to the Noteholders, such notice or report shall be written and shall be sufficiently given (unless otherwise herein expressly provided) if mailed, first-class, postage-prepaid, to each Noteholder affected by such event or to whom such report is required to be mailed or sent via electronic mail, at the address or electronic mail address of such Noteholder as it appears on the Note Register, not later than the latest date, and not earlier than the earliest date, prescribed for the giving of such notice or the mailing of such report. In any case where a notice or report to Noteholders is mailed in the manner provided above, neither the failure to mail such notice or report, nor any defect in any notice or report so mailed, to any particular Noteholder shall affect the sufficiency of such notice or report with respect to other Noteholders, and any notice or report which is mailed in the manner herein provided shall be conclusively presumed to have been duly given or provided.

(b) Where this Indenture provides for notice in any manner, such notice may be waived in writing by any Person entitled to receive such notice, either before or after the event, and such waiver shall be the equivalent of such notice. Waivers of notice by Noteholders shall be filed with the Indenture Trustee, but such filing shall not be a condition precedent to the validity of any action taken in reliance upon such waiver.

(c) If, by reason of the suspension of regular mail service as a result of a strike, work stoppage or similar activity, it shall be impractical to mail notice of any event to the Noteholders when such notice is required to be given pursuant to any provision of this Indenture, then any manner of giving such notice as shall be satisfactory to the Indenture Trustee shall be deemed to be a sufficient giving of such notice.

(d) The Indenture Trustee shall promptly upon written request furnish to each Noteholder each Monthly Servicer Report and, unless directed to do so under any other provision of this Indenture or any other Transaction Document (in which case no request shall be necessary), a copy of all reports, financial statements and notices received by the Indenture Trustee pursuant to this Indenture and the other Transaction Documents, but only with the use of a password provided by the Indenture Trustee; *provided, however*, the Indenture Trustee shall have no obligation to provide such information described in this Section 12.05 until it has received the requisite information from the Issuer or the Servicer. The Indenture Trustee will make no representation or warranties as to the accuracy or completeness of such documents and will assume no responsibility therefor. The Indenture Trustee's internet website will initially be located at [www.wilmingtontrustconnect.com](http://www.wilmingtontrustconnect.com) or at such other address as the Indenture Trustee shall notify the parties to the Indenture from time to time. In connection with providing access to the Indenture Trustee's website, the Indenture Trustee may require registration and the

acceptance of a disclaimer. The Indenture Trustee shall not be liable for the dissemination of information in accordance with this Indenture.

*Section 12.06. Rules by Indenture Trustee.* The Indenture Trustee may make reasonable rules for any meeting of Noteholders.

*Section 12.07. Issuer Obligation.* Each of the Indenture Trustee and each Noteholder accepts that the enforcement against the Issuer under this Indenture and under the Notes shall be limited to the assets of the Issuer, whether tangible or intangible, real or person (including the Trust Estate) and the proceeds thereof. No recourse may be taken, directly or indirectly, against (a) any member, manager, officer, employee, trustee, agent or director of the Issuer or of any predecessor of the Issuer, (b) any member, manager, beneficiary, officer, employee, trustee, agent, director or successor or assign of a holder of a member or limited liability company interest in the Issuer, or (c) any incorporator, subscriber to capital stock, stockholder, officer, director, employee or agent of the Indenture Trustee or any predecessor or successor thereof, with respect to the Issuer's obligations with respect to the Notes or any of the statements, representations, covenants, warranties or obligations of the Issuer under this Indenture or any Note or other writing delivered in connection herewith or therewith.

*Section 12.08. Enforcement of Benefits.* The Indenture Trustee for the benefit of the Noteholders shall be entitled to enforce and, at the written direction (electronic means shall be sufficient) of and with indemnity by the Super-Majority Noteholders of the Controlling Class, the Indenture Trustee shall enforce the covenants and agreements of the Manager contained in the Management Agreement, the Servicer contained in the Servicing Agreement, Sunnova ABS Holdings VII and the Depositor contained in the Contribution Agreement, the Performance Guarantor in the Performance Guaranty and each other Transaction Document.

*Section 12.09. Effect of Headings and Table of Contents.* The Section and Section headings herein and the Table of Contents are for convenience only and shall not affect the construction hereof.

*Section 12.10. Successors and Assigns.* All covenants and agreements in this Indenture by the Issuer and the Indenture Trustee shall bind their respective successors and assigns, whether so expressed or not.

*Section 12.11. Separability.* If any provision in this Indenture or in the Notes shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby. Furthermore, in lieu of such illegal, invalid or unenforceable provision, there shall be added automatically as part of this Indenture, a provision as similar in its terms and purpose to such illegal, invalid or unenforceable provision as may be possible and be legal, valid and enforceable.

*Section 12.12. Benefits of Indenture.* Nothing in this Indenture or in the Notes, expressed or implied, shall give to any Person, other than the parties hereto and their successors hereunder, any separate trustee or co-trustee appointed under Section 7.13 and the Noteholders, any benefit or any legal or equitable right, remedy or claim under this Indenture.

*Section 12.13. Interests in this Class A Note may be exchanged for an interest in the corresponding Rule 144A Global Note, subject to the restrictions specified in the Indenture.

On or after the 40<sup>th</sup> day after the later of the Closing Date and the commencement of the offering of the Notes, interests in this Temporary Regulation S Global Note may be exchanged (free of charge) for interests in a Permanent Regulation S Global Note. The Permanent Regulation S Global Note shall be so issued and delivered in exchange for only that portion of this Temporary Regulation S Global Note in respect of which there shall have been presented to DTC by Euroclear or Clearstream a certification to the effect that it has received from or in respect of a person entitled to an interest (as shown by its records) a certification that the beneficial interests in such Temporary Regulation S Global Note are owned by persons who are not U.S. persons (as defined in Regulation S).]

[Add the following for Permanent Regulation S Global Notes:

Interests in this Class A Note may be exchanged for an interest in the corresponding Rule 144A Global Note, subject to the restrictions specified in the Indenture.]

Prior to the date that is one year and one day after the payment in full of all amounts payable with respect to the Class A Notes, each Person who has or acquires an Ownership Interest in a Class A Note agrees that such Person will not institute against the Issuer, or join any other Person in instituting against the Issuer, any Insolvency Proceedings or other Proceedings under the laws of the United States or any State. This covenant shall survive the termination of the Indenture.

Before the due presentment for registration of transfer of this Class A Note, the Issuer, the Indenture Trustee and any agent of the Issuer or the Indenture Trustee may treat the person in whose name this Class A Note is registered (i) on any Record Date for purposes of making payments, and (ii) on any other date for any other purpose, as the owner hereof, whether or not this Class A Note be overdue, and neither the Issuer, the Indenture Trustee nor any such agent shall be affected by notice to the contrary.

The Indenture permits the amendment thereof for the purpose of adding any provisions to, or changing in any manner or eliminating any of the provisions of, the Indenture or of modifying in any manner the rights of the Noteholders under the Indenture at any time by the

Issuer and the Indenture Trustee (and, in some cases, only with the consent of the Noteholder affected thereby) and compliance with certain other conditions. Any such consent by the Holder, at the time of the giving thereof, of this Class A Note (or any one or more Predecessor Notes) shall be conclusive and binding upon such Holder and upon all future Holders of this Class A Note and of any Class A Note issued upon the registration of transfer hereof or in exchange hereof or in lieu hereof whether or not notation of such consent or waiver is made upon this Class A Note.

The Class A Notes and all obligations with respect thereto, including obligations under the Indenture, will be limited recourse obligations of the Issuer payable solely from the Trust Estate. Neither the Issuer, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Performance Guarantor, the Depositor, the Manager, the Transition Manager, the Servicer, the Backup Servicer, the Custodian, the Note Registrar, the Indenture Trustee in its individual capacity or in its capacity as Indenture Trustee, nor any of their respective Affiliates, agents, partners, beneficiaries, officers, directors, stockholders, stockholders of partners, employees or successors or assigns, shall be personally liable for any amounts payable, or performance due, under the Notes or the Indenture. Without limiting the foregoing, each Noteholder and each Note Owner of any Class A Note by its acceptance thereof, and the Indenture Trustee, shall be deemed to have agreed (i) that it shall look only to the Trust Estate to satisfy the Issuer's obligations under or with respect to a Class A Note or the Indenture, including but not limited to liabilities under Article V of the Indenture and liabilities arising (whether at common law or equity) from breaches by the Issuer of any obligations, covenants and agreements herein or, to the extent enforceable, for any violation by the Issuer of applicable State or federal law or regulation, provided that, the Issuer shall not be relieved of liability hereunder with respect to any misrepresentation in the Indenture or any Transaction Document, or fraud, of the Issuer and (ii) to waive any rights it may have to obtain a deficiency or other monetary judgment against either the Issuer or any of its principals, directors, officers, beneficial owners, employees or agents (whether disclosed or undisclosed) or their respective assets (other than the Trust Estate). The foregoing provisions of this paragraph shall not (i) prevent recourse to the Trust Estate or any Person (other than the Issuer) for the sums due or to become due under any security, instrument or agreement which is part of the Trust Estate; (ii) constitute a waiver, release or discharge of any indebtedness or obligation evidenced by the Class A Notes or secured by the Indenture, but the same shall continue until paid or discharged; or (iii) prevent the Indenture Trustee from exercising its rights with respect to the Grant, pursuant to the Indenture, of the Issuer's rights under the Transaction Documents. It is further understood that the foregoing provisions of this paragraph shall not limit the right of any Person to name the Indenture Trustee in its capacity as Indenture Trustee under the Indenture or the Issuer as a party defendant in any action or suit or in the exercise of any remedy under the Notes or the Indenture, so long as no judgment in the nature of a deficiency judgment or seeking personal liability shall be asked for or (if obtained) enforced. It is expressly understood that all such liability is hereby expressly waived and released to the extent provided herein as a condition of, and as a consideration for, the execution of the Indenture and the issuance of the Notes.

The remedies of the Holder of this Class A Note as provided herein, in the Indenture or in the other Transaction Documents, shall be cumulative and concurrent and may be pursued solely against the assets of the Trust Estate. No failure on the part of the Noteholder in exercising any right or remedy hereunder shall operate as a waiver or release thereof, nor shall any single or

partial exercise of any such right or remedy preclude any other further exercise thereof or the exercise of any other right or remedy hereunder.

The Class A Notes are issuable only in registered form in denominations as provided in the Indenture and subject to certain limitations therein set forth. At the option of the Class A Noteholder, Class A Notes may be exchanged for Class A Notes of like terms, in any authorized denominations and of like aggregate principal amount, upon surrender of the Notes to be exchanged at the Corporate Trust Office of the Indenture Trustee, subject to the terms and conditions of the Indenture.

Reference is hereby made to the Indenture, a copy of which is on file with the Indenture Trustee, for the provisions, among others, with respect to (i) the nature and extent of the rights, duties and obligations of the Indenture Trustee, the Issuer and the Class A Noteholders; (ii) the terms upon which the Class A Notes are executed and delivered; (iii) the collection and disposition of payments or proceeds in respect of the Conveyed Property; (iv) a description of the Trust Estate; (v) the modification or amendment of the Indenture; (vi) other matters; and (vii) the definition of capitalized terms used in this Class A Note that are not defined herein; to all of which the Class A Noteholders and Note Owners assent by the acceptance of the Class A Notes.

This Class A Note is issued pursuant to the Indenture and it and the Indenture shall be governed by and construed in accordance with the laws of the State of New York and the obligations, rights and remedies of the parties hereunder shall be determined in accordance with such laws (including, without limitation, §5-1401 and §5-1402 of the General Obligations Law of the State of New York, but otherwise without giving effect to principles of conflicts of laws).

Reference is hereby made to the provisions of the Indenture and such provisions are hereby incorporated by reference as if fully set forth herein.

Unless the certificate of authentication hereon has been executed by the Indenture Trustee by manual signature, this Class A Note shall not be entitled to any benefit under the Indenture or be valid or obligatory for any purpose.

Indenture provides that the Notes will be entitled to receive payments in reduction of the Outstanding Note Balance, in the amounts, from the sources, and at the times more specifically as set forth in the Indenture. The Notes are secured by the Trust Estate (as defined in the Indenture).

Reference is hereby made to the Indenture and all indentures supplemental thereto for a statement of the respective rights thereunder of the Issuer, the Indenture Trustee and the Holders of the Notes and the terms upon which the Notes are to be authenticated and delivered. All terms used in this Note which are not defined herein shall have the meanings assigned to them in the Indenture.

The obligation of the Issuer to repay the Notes is a limited, nonrecourse obligation secured only by the Trust Estate. All payments of principal of and interest on the Class B Notes shall be made only from the Trust Estate, and each Noteholder and each Note Owner, by its acceptance of this Class B Note, agrees that it shall be entitled to payments solely from such Trust Estate pursuant to the terms of the Indenture. The actual Outstanding Note Balance on this Class B Note may be less than the principal balance indicated on the face hereof. The actual Outstanding Note Balance on this Class B Note at any time may be obtained from the Indenture Trustee.

The Outstanding Note Balance of each Class B Note shall be payable no later than the Rated Final Maturity thereof unless the Outstanding Note Balance of such Class B Note becomes due and payable at an earlier date pursuant to the Indenture, and in each case such payment shall be made in an amount and in the manner provided in the Indenture.

(b) The Class B Notes shall bear interest on the Outstanding Note Balance of the Class B Notes and accrued but unpaid interest thereon, at the applicable Note Rate. The Interest Distribution Amounts with respect to the Class B Notes shall be payable on each Payment Date to the extent that the Collection Account then contains sufficient amounts to pay such Interest Distribution Amounts pursuant to Section 5.07 of the Indenture. Each Interest Distribution Amount will accrue on the basis of a 360 day year consisting of twelve 30 day months.

All payments of interest and principal on the Class B Notes on the applicable Payment Date shall be paid to the Person in whose name such Class B Note is registered at the close of business as of the Record Date for such Payment Date in the manner provided in the Indenture. All reductions in the Outstanding Note Balance of a Class B Note (or one or more Predecessor Notes) effected by full or partial payments of installments of principal shall be binding upon all past, then current, and future Holders of such Class B Note and of any Class B Note issued upon the registration of transfer thereof or in exchange therefor or in lieu thereof, whether or not such payment is noted on such Class B Note.

---

The Rated Final Maturity of the Notes is the Payment Date in October 2048 unless the Notes are earlier prepaid in whole or accelerated pursuant to the Indenture. The Indenture Trustee shall pay to each Class B Noteholder of record on the preceding Record Date either (i) by wire transfer, in immediately available funds to the account of such Class B Noteholder at a bank or other entity having appropriate facilities therefor, if such Class B Noteholder shall have provided to the Indenture Trustee appropriate written instructions at least five Business Days prior to the related Payment Date (which instructions may remain in effect for subsequent Payment Dates unless revoked by the Class B Noteholder), or (ii) if not, by check mailed to such Class B Noteholder at the address of such Class B Noteholder appearing in the Note Register, the amounts to be paid to such Class B Noteholder pursuant to such Class B Noteholder's Notes; provided, that so long as the Class B Notes are registered in the name of the Securities Depository such payments shall be made to the nominee thereof in immediately available funds.

The Class B Notes shall be subject to voluntary prepayment at the option of the Issuer in the manner and subject to the provisions of the Indenture. Whenever by the terms of the Indenture, the Indenture Trustee is required to prepay the Class B Notes, and subject to and in accordance with the terms of Article VI of the Indenture, the Indenture Trustee shall give notice of the prepayment in the manner prescribed by the Indenture.

Subject to certain restrictions contained in the Indenture, (i) the Class B Notes are issuable in the minimum denomination of \$100,000 and integral multiples of \$1,000 in excess thereof (provided, that one Class B Note may be issued in an additional amount equal to any remaining portion of the Initial Outstanding Note Balance) and (ii) the Class B Notes may be exchanged for a like aggregate principal amount of Class B Notes of authorized denominations of the same maturity.

The final payment on any Definitive Note shall be made only upon presentation and surrender of the Note at the Corporate Trust Office of the Indenture Trustee.

The Class B Noteholders shall have no right to enforce the provisions of the Indenture or to institute action to enforce the covenants therein, or to take any action with respect to any Event of Default, or to institute, appear in or defend any Proceedings with respect thereto, except as provided in the Indenture.

The Class B Notes may be exchanged, and their transfer may be registered, by the Noteholders in person or by their attorneys duly authorized in writing at the Corporate Trust Office of the Indenture Trustee only in the manner, subject to the limitations provided in the Indenture, and upon surrender and cancellation of the Class B Notes. Upon exchange or registration of such transfer, a new registered Class B Note or Notes evidencing the same outstanding principal amount will be executed in exchange therefor.

All amounts collected as payments on the Trust Estate or otherwise shall be applied in the order of priority specified in the Indenture.

Each Person who has or who acquires any Ownership Interest in a Class B Note shall be deemed by the acceptance or acquisition of such Ownership Interest to have agreed to be bound by the provisions of the Indenture. A Noteholder may not sell, offer for sale, assign, pledge, hypothecate or otherwise transfer or encumber all or any part of its interest in the Class B Notes

except pursuant to an effective registration statement covering such transaction under the Securities Act of 1933, as amended, and effective qualification or registration under all applicable State securities laws and regulations or under an exemption from registration under said Securities Act and said State securities laws and regulations.

[Add the following for Rule 144A Global Notes:

Interests in this Class B Note may be exchanged for an interest in the corresponding Temporary Regulation S Global Note or Regulation S Global Note, in each case subject to the restrictions specified in the Indenture.]

[Add the following for Temporary Regulation S Global Notes:

Interests in this Class B Note may be exchanged for an interest in the corresponding Rule 144A Global Note, subject to the restrictions specified in the Indenture.

On or after the 40<sup>th</sup> day after the later of the Closing Date and the commencement of the offering of the Notes, interests in this Temporary Regulation S Global Note may be exchanged (free of charge) for interests in a Permanent Regulation S Global Note. The Permanent Regulation S Global Note shall be so issued and delivered in exchange for only that portion of this Temporary Regulation S Global Note in respect of which there shall have been presented to DTC by Euroclear or Clearstream a certification to the effect that it has received from or in respect of a person entitled to an interest (as shown by its records) a certification that the beneficial interests in such Temporary Regulation S Global Note are owned by persons who are not U.S. persons (as defined in Regulation S).]

[Add the following for Permanent Regulation S Global Notes:

Interests in this Class B Note may be exchanged for an interest in the corresponding Rule 144A Global Note, subject to the restrictions specified in the Indenture.]

Prior to the date that is one year and one day after the payment in full of all amounts payable with respect to the Class B Notes, each Person who has or acquires an Ownership Interest in a Class B Note agrees that such Person will not institute against the Issuer, or join any other Person in instituting against the Issuer, any Insolvency Proceedings or other Proceedings under the laws of the United States or any State. This covenant shall survive the termination of the Indenture.

Before the due presentment for registration of transfer of this Class B Note, the Issuer, the Indenture Trustee and any agent of the Issuer or the Indenture Trustee may treat the person in whose name this Class B Note is registered (i) on any Record Date for purposes of making payments, and (ii) on any other date for any other purpose, as the owner hereof, whether or not this Class B Note be overdue, and neither the Issuer, the Indenture Trustee nor any such agent shall be affected by notice to the contrary.

The Indenture permits the amendment thereof for the purpose of adding any provisions to, or changing in any manner or eliminating any of the provisions of, the Indenture or of modifying in any manner the rights of the Noteholders under the Indenture at any time by the

Issuer and the Indenture Trustee (and, in some cases, only with the consent of the Noteholder affected thereby) and compliance with certain other conditions. Any such consent by the Holder, at the time of the giving thereof, of this Class B Note (or any one or more Predecessor Notes) shall be conclusive and binding upon such Holder and upon all future Holders of this Class B Note and of any Class B Note issued upon the registration of transfer hereof or in exchange hereof or in lieu hereof whether or not notation of such consent or waiver is made upon this Class B Note.

The Class B Notes and all obligations with respect thereto, including obligations under the Indenture, will be limited recourse obligations of the Issuer payable solely from the Trust Estate. Neither the Issuer, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Performance Guarantor, the Depositor, the Manager, the Transition Manager, the Servicer, the Backup Servicer, the Custodian, the Note Registrar, the Indenture Trustee in its individual capacity or in its capacity as Indenture Trustee, nor any of their respective Affiliates, agents, partners, beneficiaries, officers, directors, stockholders, stockholders of partners, employees or successors or assigns, shall be personally liable for any amounts payable, or performance due, under the Notes or the Indenture. Without limiting the foregoing, each Noteholder and each Note Owner of any Class B Note by its acceptance thereof, and the Indenture Trustee, shall be deemed to have agreed (i) that it shall look only to the Trust Estate to satisfy the Issuer's obligations under or with respect to a Class B Note or the Indenture, including but not limited to liabilities under Article V of the Indenture and liabilities arising (whether at common law or equity) from breaches by the Issuer of any obligations, covenants and agreements herein or, to the extent enforceable, for any violation by the Issuer of applicable State or federal law or regulation, provided that, the Issuer shall not be relieved of liability hereunder with respect to any misrepresentation in the Indenture or any Transaction Document, or fraud, of the Issuer and (ii) to waive any rights it may have to obtain a deficiency or other monetary judgment against either the Issuer or any of its principals, directors, officers, beneficial owners, employees or agents (whether disclosed or undisclosed) or their respective assets (other than the Trust Estate). The foregoing provisions of this paragraph shall not (i) prevent recourse to the Trust Estate or any Person (other than the Issuer) for the sums due or to become due under any security, instrument or agreement which is part of the Trust Estate; (ii) constitute a waiver, release or discharge of any indebtedness or obligation evidenced by the Class B Notes or secured by the Indenture, but the same shall continue until paid or discharged; or (iii) prevent the Indenture Trustee from exercising its rights with respect to the Grant, pursuant to the Indenture, of the Issuer's rights under the Transaction Documents. It is further understood that the foregoing provisions of this paragraph shall not limit the right of any Person to name the Indenture Trustee in its capacity as Indenture Trustee under the Indenture or the Issuer as a party defendant in any action or suit or in the exercise of any remedy under the Notes or the Indenture, so long as no judgment in the nature of a deficiency judgment or seeking personal liability shall be asked for or (if obtained) enforced. It is expressly understood that all such liability is hereby expressly waived and released to the extent provided herein as a condition of, and as a consideration for, the execution of the Indenture and the issuance of the Notes.

The remedies of the Holder of this Class B Note as provided herein, in the Indenture or in the other Transaction Documents, shall be cumulative and concurrent and may be pursued solely against the assets of the Trust Estate. No failure on the part of the Noteholder in exercising any right or remedy hereunder shall operate as a waiver or release thereof, nor shall any single or

The Class B Notes are issuable only in registered form in denominations as provided in the Indenture and subject to certain limitations therein set forth. At the option of the Class B Noteholder, Class B Notes may be exchanged for Class B Notes of like terms, in any authorized denominations and of like aggregate principal amount, upon surrender of the Notes to be exchanged at the Corporate Trust Office of the Indenture Trustee, subject to the terms and conditions of the Indenture.

Reference is hereby made to the Indenture and all indentures supplemental thereto for a statement of the respective rights thereunder of the Issuer, the Indenture Trustee and the Holders of the Notes and the terms upon which the Notes are to be authenticated and delivered. All terms used in this Note which are not defined herein shall have the meanings assigned to them in the Indenture.

The obligation of the Issuer to repay the Notes is a limited, nonrecourse obligation secured only by the Trust Estate. All payments of principal of and interest on the Class C Notes shall be made only from the Trust Estate, and each Noteholder and each Note Owner, by its acceptance of this Class C Note, agrees that it shall be entitled to payments solely from such Trust Estate pursuant to the terms of the Indenture. The actual Outstanding Note Balance on this Class C Note may be less than the principal balance indicated on the face hereof. The actual Outstanding Note Balance on this Class C Note at any time may be obtained from the Indenture Trustee.

The Interest Distribution Amounts with respect to the Class C Notes shall be payable on each Payment Date to the extent that the Collection Account then contains sufficient amounts to pay such Interest Distribution Amounts pursuant to Section 5.07 of the Indenture. Each Interest Distribution Amount will accrue on the basis of a 360 day year consisting of twelve 30 day months.

All payments of interest and principal on the Class C Notes on the applicable Payment Date shall be paid to the Person in whose name such Class C Note is registered at the close of business as of the Record Date for such Payment Date in the manner provided in the Indenture. All reductions in the Outstanding Note Balance of a Class C Note (or one or more Predecessor Notes) effected by full or partial payments of installments of principal shall be binding upon all past, then current, and future Holders of such Class C Note and of any Class C Note issued upon the registration of transfer thereof or in exchange therefor or in lieu thereof, whether or not such payment is noted on such Class C Note.

The Rated Final Maturity of the Notes is the Payment Date in October 2048 unless the Notes are earlier prepaid in whole or accelerated pursuant to the Indenture. The Indenture Trustee shall pay to each Class C Noteholder of record on the preceding Record Date either (i) by wire transfer, in immediately available funds to the account of such Class C Noteholder at

a bank or other entity having appropriate facilities therefor, if such Class C Noteholder shall have provided to the Indenture Trustee appropriate written instructions at least five Business Days prior to the related Payment Date (which instructions may remain in effect for subsequent Payment Dates unless revoked by the Class C Noteholder), or (ii) if not, by check mailed to such Class C Noteholder at the address of such Class C Noteholder appearing in the Note Register, the amounts to be paid to such Class C Noteholder pursuant to such Class C Noteholder's Notes; provided, that so long as the Class C Notes are registered in the name of the Securities Depository such payments shall be made to the nominee thereof in immediately available funds.

The Class C Notes shall be subject to voluntary prepayment at the option of the Issuer in the manner and subject to the provisions of the Indenture. Whenever by the terms of the Indenture, the Indenture Trustee is required to prepay the Class C Notes, and subject to and in accordance with the terms of Article VI of the Indenture, the Indenture Trustee shall give notice of the prepayment in the manner prescribed by the Indenture.

Subject to certain restrictions contained in the Indenture, (i) the Class C Notes are issuable in the minimum denomination of \$100,000 and integral multiples of \$1,000 in excess thereof (provided, that one Class C Note may be issued in an additional amount equal to any remaining portion of the Initial Outstanding Note Balance) and (ii) the Class C Notes may be exchanged for a like aggregate principal amount of Class C Notes of authorized denominations of the same maturity.

The final payment on any Definitive Note shall be made only upon presentation and surrender of the Note at the Corporate Trust Office of the Indenture Trustee.

The Class C Noteholders shall have no right to enforce the provisions of the Indenture or to institute action to enforce the covenants therein, or to take any action with respect to any Event of Default, or to institute, appear in or defend any Proceedings with respect thereto, except as provided in the Indenture.

The Class C Notes may be exchanged, and their transfer may be registered, by the Noteholders in person or by their attorneys duly authorized in writing at the Corporate Trust Office of the Indenture Trustee only in the manner, subject to the limitations provided in the Indenture, and upon surrender and cancellation of the Class C Notes. Upon exchange or registration of such transfer, a new registered Class C Note or Notes evidencing the same outstanding principal amount will be executed in exchange therefor.

All amounts collected as payments on the Trust Estate or otherwise shall be applied in the order of priority specified in the Indenture.

Each Person who has or who acquires any Ownership Interest in a Class C Note shall be deemed by the acceptance or acquisition of such Ownership Interest to have agreed to be bound by the provisions of the Indenture. [Add the following for Rule 144A Global Notes:

Interests in this Class C Note may be exchanged for an interest in the corresponding Temporary Regulation S Global Note or Regulation S Global Note, in each case subject to the restrictions specified in the Indenture.]

[Add the following for Temporary Regulation S Global Notes:

Interests in this Class C Note may be exchanged for an interest in the corresponding Rule 144A Global Note, subject to the restrictions specified in the Indenture.

On or after the 40<sup>th</sup> day after the later of the Closing Date and the commencement of the offering of the Notes, interests in this Temporary Regulation S Global Note may be exchanged (free of charge) for interests in a Permanent Regulation S Global Note. The Permanent Regulation S Global Note shall be so issued and delivered in exchange for only that portion of this Temporary Regulation S Global Note in respect of which there shall have been presented to DTC by Euroclear or Clearstream a certification to the effect that it has received from or in respect of a person entitled to an interest (as shown by its records) a certification that the beneficial interests in such Temporary Regulation S Global Note are owned by persons who are not U.S. persons (as defined in Regulation S).]

[Add the following for Permanent Regulation S Global Notes:

Interests in this Class C Note may be exchanged for an interest in the corresponding Rule 144A Global Note, subject to the restrictions specified in the Indenture.]

Prior to the date that is one year and one day after the payment in full of all amounts payable with respect to the Class C Notes, each Person who has or acquires an Ownership Interest in a Class C Note agrees that such Person will not institute against the Issuer, or join any other Person in instituting against the Issuer, any Insolvency Proceedings or other Proceedings under the laws of the United States or any State. This covenant shall survive the termination of the Indenture.

Before the due presentment for registration of transfer of this Class C Note, the Issuer, the Indenture Trustee and any agent of the Issuer or the Indenture Trustee may treat the person in whose name this Class C Note is registered (i) on any Record Date for purposes of making payments, and (ii) on any other date for any other purpose, as the owner hereof, whether or not this Class C Note be overdue, and neither the Issuer, the Indenture Trustee nor any such agent shall be affected by notice to the contrary.

The Indenture permits the amendment thereof for the purpose of adding any provisions to, or changing in any manner or eliminating any of the provisions of, the Indenture or of modifying in any manner the rights of the Noteholders under the Indenture at any time by the Issuer and the Indenture Trustee (and, in some cases, only with the consent of the Noteholder affected thereby) and compliance with certain other conditions. Any such consent by the Holder, at the time of the giving thereof, of this Class C Note (or any one or more Predecessor Notes) shall be conclusive and binding upon such Holder and upon all future Holders of this Class C Note and of any Class C Note issued upon the registration of transfer hereof or in exchange hereof or in lieu hereof whether or not notation of such consent or waiver is made upon this Class C Note.

---

The Class C Notes and all obligations with respect thereto, including obligations under the Indenture, will be limited recourse obligations of the Issuer payable solely from the Trust Estate. Neither the Issuer, Sunnova Intermediate Holdings, Sunnova ABS Holdings VII, the Performance Guarantor, the Depositor, the Manager, the Transition Manager, the Servicer, the Backup Servicer, the Custodian, the Note Registrar, the Indenture Trustee in its individual capacity or in its capacity as Indenture Trustee, nor any of their respective Affiliates, agents, partners, beneficiaries, officers, directors, stockholders, stockholders of partners, employees or successors or assigns, shall be personally liable for any amounts payable, or performance due, under the Notes or the Indenture. Without limiting the foregoing, each Noteholder and each Note Owner of any Class C Note by its acceptance thereof, and the Indenture Trustee, shall be deemed to have agreed (i) that it shall look only to the Trust Estate to satisfy the Issuer's obligations under or with respect to a Class C Note or the Indenture, including but not limited to liabilities under Article V of the Indenture and liabilities arising (whether at common law or equity) from breaches by the Issuer of any obligations, covenants and agreements herein or, to the extent enforceable, for any violation by the Issuer of applicable State or federal law or regulation, provided that, the Issuer shall not be relieved of liability hereunder with respect to any misrepresentation in the Indenture or any Transaction Document, or fraud, of the Issuer and (ii) to waive any rights it may have to obtain a deficiency or other monetary judgment against either the Issuer or any of its principals, directors, officers, beneficial owners, employees or agents (whether disclosed or undisclosed) or their respective assets (other than the Trust Estate). The foregoing provisions of this paragraph shall not (i) prevent recourse to the Trust Estate or any Person (other than the Issuer) for the sums due or to become due under any security, instrument or agreement which is part of the Trust Estate; (ii) constitute a waiver, release or discharge of any indebtedness or obligation evidenced by the Class C Notes or secured by the Indenture, but the same shall continue until paid or discharged; or (iii) prevent the Indenture Trustee from exercising its rights with respect to the Grant, pursuant to the Indenture, of the Issuer's rights under the Transaction Documents. It is further understood that the foregoing provisions of this paragraph shall not limit the right of any Person to name the Indenture Trustee in its capacity as Indenture Trustee under the Indenture or the Issuer as a party defendant in any action or suit or in the exercise of any remedy under the Notes or the Indenture, so long as no judgment in the nature of a deficiency judgment or seeking personal liability shall be asked for or (if obtained) enforced. It is expressly understood that all such liability is hereby expressly waived and released to the extent provided herein as a condition of, and as a consideration for, the execution of the Indenture and the issuance of the Notes.

The remedies of the Holder of this Class C Note as provided herein, in the Indenture or in the other Transaction Documents, shall be cumulative and concurrent and may be pursued solely against the assets of the Trust Estate. No failure on the part of the Noteholder in exercising any right or remedy hereunder shall operate as a waiver or release thereof, nor shall any single or partial exercise of any such right or remedy preclude any other further exercise thereof or the exercise of any other right or remedy hereunder.

The Class C Notes are issuable only in registered form in denominations as provided in the Indenture and subject to certain limitations therein set forth. At the option of the Class C Noteholder, Class C Notes may be exchanged for Class C Notes of like terms, in any authorized denominations and of like aggregate principal amount, upon surrender of the Notes to be exchanged at the Corporate Trust Office of the Indenture Trustee, subject to the terms and conditions of the Indenture.

If the Administrative Agent delivers a written notice (including by electronic mail) to the Borrower contesting the Borrower’s calculations or any statement within such Notice of Borrowing, it shall promptly inform the Borrower. The Borrower may then deliver an amended Notice of Borrowing to the Administrative Agent, the Funding Agents and the Paying Agent or, by written notice, rescind the Notice of Borrowing.

(B) The Notice of Borrowing shall specify (i) the aggregate amount of Class A Advances requested together with the allocated amount of Class A Advances to be paid by each Class A Lender Group based on its respective Class A Lender Group Percentage, (ii) (a) the aggregate amount of Class B-I Advances requested together with the allocated amount of Class B-I Advances to be paid by each Class B-I Lender Group based on its respective Class B-I Lender Group Percentage, or (b) the aggregate amount of Class B-II Advances requested together with the allocated amount of Class B-II Advances to be paid by each Class B-II Lender Group based on its respective Class B-II Lender Group Percentage and (iii) the Funding Date. The amount of Class A Advances to Class B Advances requested shall be determined on a pro rata basis based on the Class A Borrowing Base and Class B Aggregate Borrowing Base as of the proposed Funding Date. With respect to any Class B Advances requested, the Borrower shall only request and is only permitted to request Class B-II Advances if the amount of outstanding Class B-I Advances is equal to the Class B-I Commitment. Each Funding Agent may, in its sole discretion, allocate any requested Advances among the Lenders in its Lender Group.

(C) With respect to the Advances to be made on the Original Closing Date, each Lender shall pay the amount of its Advance by wire transfer of such funds to the Borrower's Account no later than 4:00 P.M. (New York City time) on the Original Closing Date.

(D) With respect to the Advances to be made on any Funding Date, other than the initial Advance to be made on the Original Closing Date, upon a determination by the Administrative Agent that all conditions precedent to the Advances to be made on such Funding Date set forth in Article III have been satisfied or otherwise waived, each Lender shall fund the amount of its Advance by wire transfer of such funds in accordance with the Borrower's written instructions initiated no later than 2:00 P.M. (New York City time) on such Funding Date.

(E) Notwithstanding the foregoing, if any Non-Conduit Lender who shall have previously notified the Borrower in writing, in substantially the form of Exhibit H hereto, that it has incurred any external cost, fee or expense directly related to and as a result of the "liquidity coverage ratio" under Basel III in respect of its Commitment hereunder or any liquidity agreement between such Non-Conduit Lender and the Conduit Lender, or its interest in the Advances, such Non-Conduit Lender may, upon receipt of a Notice of Borrowing pursuant to Section 2.4(A), notify the Borrower in writing by 5:00 P.M. (New York City time) two (2) Business Days prior to the Funding Date specified in such Notice of Borrowing, in substantially the form of Exhibit I hereto (a "*Delayed Funding Notice*"), of its intent to fund (or, if applicable and if such Conduit Lender so agrees in its sole discretion, have its Conduit Lender, if applicable, fund all or part of) its allocated amount of the related Advance in an amount that would, if combined with all other requested Advances within the past thirty-five (35) days, exceed \$20,000,000 (such amount, the "*Delayed Amount*") on a Business Day that is on or before the thirty-fifth (35th) day following the date of delivery of such Non-Conduit Lender of such Delayed Funding Notice (the "*Delayed Funding Date*") rather than on the date specified in such Notice of Borrowing. If any Non-Conduit Lender provides a Delayed Funding Notice to the Borrower following the delivery by the Borrower of a Notice of Borrowing, the Borrower may revoke such Notice of Borrowing by delivering written notice of the same to the Administrative Agent and the Funding Agents by 12:00 P.M. (New York city time) on the Business Day preceding the related Funding Date. No Non-Conduit Lender that has provided a Delayed Funding Notice in respect of an Advance (a "*Delayed Funding Lender*") shall be considered to be in default of its obligation to fund its Delayed Amount pursuant to Section 2.4(D) hereunder unless and until it has failed to fund the Delayed Amount on or before the Delayed Funding Date. A Delayed Funding Lender is not obliged to fund until thirty-five (35) days have elapsed since the funding request. For the avoidance of doubt, a Delayed Funding Lender shall be required to fund its Delayed Amount regardless of the occurrence of an Amortization Event, Event of Default, Potential Amortization Event or Potential Default which occurs during the period from and including the related Funding Date to and including the related Delayed Funding Date, unless such Amortization Event, Event of Default, Potential Amortization Event or Potential Default relates to an Insolvency Event with respect to the Borrower.

(F) If (i) one or more Delayed Funding Lenders provide a Delayed Funding Notice to the Borrower in respect of a Notice of Borrowing and (ii) the Borrower shall not have revoked the Notice of Borrowing prior to the Business Day preceding such Funding Date, the Administrative Agent shall, by no later than 12:00 P.M. (New York City time) on the Business Day preceding such Funding Date, direct each Lender Group and each Non-Conduit Lender that is not a Delayed Funding Lender with respect to such Funding Date (each a "*Non-Delayed Funding Lender*") to fund an additional portion

of such Advance on such Funding Date equal to such Non-Delayed Funding Lender's proportionate share (based upon such Non-Delayed Funding Lender's Commitment relative to the sum of the Commitments of all Non-Delayed Funding Lenders) of the aggregate Delayed Amounts with respect to such Funding Date; *provided*, that in no event shall a Non-Delayed Funding Lender be required to fund any amounts in excess of its Commitment. Subject to Section 2.4(D), in the case of a Non-Delayed Funding Lender that is a Non-Conduit Lender, such Non-Conduit Lender hereby agrees, or, in the case of a Non-Delayed Funding Lender that is a Lender Group, the Conduit Lender in such Lender Group may agree, in its sole discretion, and the Non-Conduit Lenders in such Lender Group hereby agree, to fund such portion of the Advance on such Funding Date.

(G) After the Non-Delayed Funding Lenders fund a Delayed Amount on any Funding Date in accordance with Section 2.4(F), the Delayed Funding Lender in respect of such Delayed Amount will be obligated to fund an amount equal to the excess, if any, of (a) such Delayed Amount over (b) the amount, if any, by which the portion of any principal distribution amount paid to such Non-Delayed Funding Lenders pursuant to Section 2.7 or any decrease to the outstanding principal balance made in accordance with Section 2.8, on any date during the period from and including such Funding Date to but excluding the Delayed Funding Date for such Delayed Amount, was greater than what it would have been had such Delayed Amount been funded by such Delayed Funding Lender on such Funding Date (the "*Delayed Funding Reimbursement Amount*") with respect to such Delayed Amount on or before its Delayed Funding Date, irrespective of whether the Borrower would be able to satisfy the conditions set forth in Section 3.2(A) to an Advance, in an amount equal to such Delayed Funding Reimbursement Amount on such Delayed Funding Date. Such Delayed Funding Lender shall fund such Delayed Funding Reimbursement Amount on such Delayed Funding Date by paying such amount to the Administrative Agent in immediately available funds, and the Administrative Agent shall distribute such funds to each such Non-Delayed Funding Lender, pro rata based on the relative amount of such Delayed Amount funded by such Non-Delayed Funding Lender on such Funding Date pursuant to Section 2.4(F).

(H) Notwithstanding anything to the contrary set forth in this Agreement, the Class B-II Lenders shall be deemed to satisfy their obligation to timely fund a Class B-II Advance so long as the Class B-II Lenders funds such Class B-II Advance by the Business Day immediately succeeding any Funding Date.

#### *Section 2.5. Fees*

(A) *Facility Administrator Fee.* Subject to the terms and conditions of the Facility Administration Agreement, the Borrower shall pay the Facility Administrator Fee to the initial Facility Administrator and after the resignation or replacement of the initial Facility Administrator, the Borrower shall pay the Facility Administrator Fee to a Successor Facility Administrator appointed in accordance with the Facility Administration Agreement.

(B) *Verification Agent Fee.* Subject to the terms and conditions of the Verification Agent Agreement, the Borrower shall pay to the Verification Agent the Verification Agent Fee.

(C) *Paying Agent Fee.* Subject to the terms and conditions of the Paying Agent Fee Letter, the Borrower shall pay to the Paying Agent the Paying Agent Fee.

(D) *Unused Line Fees.* Solely during the Availability Period, the Borrower agrees to pay to each Funding Agent, for the benefit of the Non-Conduit Lender in its Lender Group and as consideration for the Commitment of such Non-Conduit Lender in such Lender Group unused line fees in Dollars (the “*Unused Line Fee*”) for the period from the Original Closing Date to the last day of the Availability Period, computed as (a) the Unused Line Fee Percentage *multiplied by* (b) the average Unused Portion of the Commitments with respect to such Lender Group during a calendar quarter. Accrued Unused Line Fees shall be due and payable in arrears (from Distributable Collections as set forth and in the order of priority established pursuant to Section 2.7) on the Payment Date immediately following the last day of the applicable calendar quarter for which such fee was calculated and on the last day of the Availability Period.

(E) *Payment of Fees.* The fees set forth in Section 2.5(A), (B), (C) and (D) shall be payable on each Payment Date by the Borrower from Distributable Collections as set forth in and in the order of priority established pursuant to Section 2.7(B). Notwithstanding anything to the contrary herein or in any Transaction Document, the fees referred to in this Section 2.5 shall not constitute “Confidential Information.”

(F) *Amendment Fee.* Commencing on December 2, 2019, and thereafter, the Borrower shall pay to the Administrative Agent a fee of \$10,000 in connection with each amendment (or group of related amendments effective of the same date) to the Transaction Documents requested by it, which fee shall be in addition to the reimbursement of costs and expenses associated therewith that is provided for in Section 10.6 hereof. For the avoidance of doubt, any consent to a Proposed Form delivered by the Administrative Agent pursuant to Section 5.1(X) shall not give rise to the obligation to pay the amendment fee set forth in this Section 2.5(F) so long as no amendment to any Transaction Document is required in connection with such Proposed Form as determined by the Administrative Agent in its sole discretion.

(G) *Invested Capital Payment Amount.* The Borrower shall pay the Invested Capital Payment Amount on the Invested Capital Payment Date.

#### *Section 2.6. Reduction/Increase of the Commitments*

(A) The Borrower may, on any Business Day, upon written notice given to the Administrative Agent and each of the Funding Agents not later than ten (10) Business Days prior to the date of the proposed action (which notice may be conditioned upon any event), terminate in whole or reduce in part, on a pro rata basis based on its Class A Lender Group Percentage, Class B-I Lender Group Percentage or Class B-II Lender Group Percentage, as applicable, the Unused Portion of the Commitments with respect to each Lender Group (and on a pro rata basis with respect to each Non-Conduit Lender in such Lender Group); *provided*, that (i) any partial reduction of the Class B Commitments shall be applied first to the Class B-II Commitments (on a pro rata basis with respect to each Non-Conduit Lender in each Class B-II Lender Group), until the Class B-II Commitments shall have been reduced to zero and thereafter shall be applied to the Class B-I Commitments (on a pro rata basis with respect to each Non-Conduit Lender in each Class B-I Lender Group), (ii) any partial reduction shall be in the amount of \$1,000,000 or an integral multiple thereof and (iii) any Unused Portion of the Commitments so reduced may not be increased again without the written consent of the related Non-Conduit Lenders in such Lender Group.

(B) The Borrower may, on any Business Day upon written notice given to the Administrative Agent and each of the Funding Agents, request an increase, on a pro rata basis based on its Class A Lender Group Percentage, Class B-I Lender Group Percentage or Class B-II Lender Group Percentage, as applicable, of the Commitments of the Non-Conduit Lender(s) in each Lender Group; *provided*, that any increase shall be at least equal to \$5,000,000 or an integral multiple thereof but shall in no event cause the Aggregate Commitment to exceed the Maximum Facility Amount, the Class A Aggregate Commitment to exceed the Class A Maximum Facility Amount, the Class B-I Aggregate Commitment to exceed the Class B-I Maximum Facility Amount or the Class B-II Aggregate Commitment to exceed the Class B-II Maximum Facility Amount. Each Non-Conduit Lender shall, within five (5) Business Days of receipt of such request, notify the Administrative Agent and the Administrative Agent shall in turn notify the Borrower in writing (with copies to the other members of the applicable Lender Group) whether or not each Non-Conduit Lender has, in its sole discretion, agreed to increase its Commitment. If a Non-Conduit Lender does not send any notification to the Administrative Agent within such five (5) Business Day period, such Non-Conduit Lender shall be deemed to have declined to increase its Commitment. Any increase in Commitments agreed to pursuant to this Section 2.6(B) may be reduced by a Non-Conduit Lender, at any time, upon five Business Days' written notice to the Borrower from the Administrative Agent (with copies to the other members of the applicable Lender Group) setting forth the amount of such reduction; provided, however, that such Commitment may not be reduced to an amount less than such Non-Conduit Lender's initial Commitment on the Original Closing Date (if such reduction is prior to a Takeout Transaction) or to an amount less than such Non-Conduit Lender's Commitment on or after a Takeout Transaction (if such reduction is on or after a Takeout Transaction), but may be reduced to an amount that is less than the then Aggregate Outstanding Advances.

*Section 2.7. Repayment of the Advances*

(A) Notwithstanding any other provision to the contrary, the outstanding principal balance of the Advances and the other Obligations owing under this Agreement, together with all accrued but unpaid interest thereon, shall be due and payable in full, if not due and payable earlier, on the Maturity Date. For the avoidance of doubt, amounts borrowed and repaid hereunder may be reborrowed in accordance with the terms hereof.

(B) On any Business Day, the Borrower may direct the Paying Agent to, and on each Payment Date, the Borrower shall direct the Paying Agent to, subject to Section 2.7(D), apply all amounts on deposit in the Collection Account (including (x)(1)(a) Collections deposited therein during the related Collection Period and (b) any amounts due during the related Collection Period but deposited into the Collection Account within ten (10) Business Days after the end of such Collection Period that the Facility Administrator (at its option) has determined (with written notice thereof to the Paying Agent (with a copy to the Administrative Agent, each Lender and the Borrower)) to be treated as if such amounts were on deposit in the Collection Account at the end of such Collection Period, (2) amounts deposited therein from the Liquidity Reserve Account or the Supplemental Reserve Account, in each case in accordance with Section 8.2 or (3) any amounts deposited therein by a Seller or TEP Resources pursuant to the Sale and Contribution Agreement or the Parent pursuant to the Parent Guaranty, respectively, but (y) excluding Collections deposited therein in the current Collection Period except as necessary to make distributions pursuant to clauses (i) through (iii) of this Section or as otherwise determined by the Facility Administrator pursuant to clause (x)(1)(a) above) (the "*Distributable Collections*"), amounts on deposit in the Takeout Transaction Account on such Business Day representing net proceeds of any Takeout Transaction and any other amounts paid or

The Borrower shall not be responsible for any Liquidation Fees or any other loss, cost, or expenses arising at the time of, and arising solely as a result of, any assignment made pursuant to Section 10.8 and the reallocation of any portion of a Class A Advance or Class B Advance of the

applicable Lender making such assignment unless, in each case, such assignment is requested by the Borrower.

(B) *Increased Costs.* If any Change in Law (a) shall subject any Lender, the Administrative Agent or any Affiliate thereof (each of which, an “Affected Party”) to any Taxes (other than (x) Indemnified Taxes, (y) Taxes described in clauses (ii) through (iv) of the definition of Excluded Taxes and (z) Connection Income Taxes) on its loans, loan principal, commitments, or other obligations, or its deposits, reserves, other liabilities or capital attributable thereto, (b) shall impose, modify or deem applicable any reserve requirement (including any reserve requirement imposed by the Board of Governors of the Federal Reserve System), special deposit or similar requirement against assets of, deposits with or for the account of, or credit extended by, any Affected Party, or (c) shall impose any other condition affecting the Collateral or the rights of any Lender and the Administrative Agent hereunder, the result of which is to increase the cost to any Affected Party under this Agreement or to reduce the amount of any sum received or receivable by an Affected Party under this Agreement, then on the next Payment Date after written demand by such Affected Party, such Affected Party shall receive such additional amount or amounts as will compensate such Affected Party for such additional or increased cost incurred or such reduction suffered to the extent such additional or increased costs or reduction are incurred or suffered in connection with the Collateral, any obligation to make Advances hereunder, any of the rights of such Lender or the Administrative Agent hereunder, or any payment made hereunder in accordance with Section 2.7(B); *provided*, that the Borrower shall not be required to compensate such Affected Party for any portion of such additional or increased cost or such reduction that is incurred more than one hundred eighty (180) days prior to any such demand (except that, if the event giving rise to such additional or increased cost or such reduction is retroactive, then the 180-day period referred to above shall be extended to include the period of retroactive effect thereof).

(C) *Capital Adequacy.* If any Change in Law has or would have the effect of reducing the rate of return on the capital of any Affected Party as a consequence of its obligations hereunder or arising in connection herewith to a level below that which any such Affected Party could have achieved but for such Change in Law (taking into consideration the policies of such Affected Party with respect to capital adequacy) by an amount deemed by such Affected Party to be material, then from time to time, then on the next Payment Date after written demand by such Affected Party (which demand shall be accompanied by a statement setting forth the basis for such demand), such Affected Party shall receive such additional amount or amounts as will compensate such Affected Party for such reduction in accordance with Section 2.7(B); *provided*, that the Borrower shall not be required to compensate such Affected Party for any portion of such additional amount or amounts that are incurred more than one hundred eighty (180) days prior to any such demand (except that, if the event giving rise to such additional amount or amounts is retroactive, then the 180-day period referred to above shall be extended to include the period of retroactive effect thereof).

(D) *Compensation.* If as a result of any event or circumstance similar to those described in Section 2.12(A), 2.12(B), or 2.12(C), any Affected Party is required to compensate a bank or other financial institution providing liquidity support, credit enhancement or other similar support to such Affected Party in connection with this Agreement or the funding or maintenance of Advances hereunder, then on the next Payment Date after written demand by such Affected Party, such Affected Party shall receive such additional amount or amounts as may be necessary to reimburse such Affected Party for any amounts paid by it; *provided*, that the Borrower shall not be required to

compensate such Affected Party for any portion of such additional amount or amounts that are incurred more than one hundred eighty (180) days prior to any such demand (except that, if the event giving rise to such additional amount or amounts is retroactive, then the 180-day period referred to above shall be extended to include the period of retroactive effect thereof).

(E) *Defaulting Lender.* If any Lender is a Defaulting Lender, then the Borrower, at its sole expense may, upon notice to such Lender and the Administrative Agent, require such Lender subject to this Section 2.12(E) to assign and delegate, without recourse, all its interests, rights and obligations under this Agreement and under the Advances, and Commitments of the Lender being replaced hereunder to an assignee that shall assume all those rights and obligations; *provided, however*, that (x) such assignment shall not conflict with any law, rule or regulation or order of any court or other Governmental Authority having valid jurisdiction, (y) the Borrower shall have received the prior written consent of the Administrative Agent, which consent shall not be unreasonably withheld or delayed and (z) the Borrower or such assignee shall have paid to the replaced Lender in immediately available funds an amount equal to the sum of the principal of and interest accrued to the date of such payment on the outstanding Advances of such Lender plus all fees and other amounts accrued for the account of such Lender hereunder with respect thereto.

A Lender subject to this Section 2.12(E) shall not be required to make any such assignment and delegation if prior to any such assignment and delegation the circumstances entitling the Borrower to require such assignment and delegation have ceased to apply.

Each party hereto agrees that (a) an assignment required pursuant to this Section 2.12(E) may be effected pursuant to an assignment in substantially in the form of Exhibit F hereto executed by the Borrower, the Administrative Agent and the assignee and (b) the Lender required to make such assignment need not be a party to such Assignment and Assumption in order for such assignment to be effective and shall be deemed to have consented to and be bound by the terms thereof; *provided* that, following the effectiveness of any such assignment, the other parties to such assignment agree to execute and deliver such documents necessary to evidence such assignment as reasonably requested by the applicable Lender, *provided, further*, that any such documents shall be without recourse to or warranty by the parties thereto.

The Administrative Agent and each Lender hereby agree to cooperate with the Borrower to effectuate the assignment of any Defaulting Lender's interest hereunder.

(F) *Calculation.* In determining any amount provided for in this Section 2.12, the Affected Party may use any reasonable averaging and attribution methods. Any Affected Party making a claim under this Section 2.12 shall submit to the Borrower a certificate as to such additional or increased cost or reduction, which certificate shall be conclusive absent manifest error.

*Section 2.13. Payments and Computations*

(A) The Borrower (through the Paying Agent pursuant to Section 2.7(B) and as otherwise permitted in this Agreement) shall make each payment and prepayment hereunder and under the Advances in respect of principal, interest, expenses, indemnities, fees or other Obligations due from the Borrower not later than 4:00 P.M. (New York City time) on the day when due in U.S. Dollars to the related Funding Agent at its address referred to in Section 10.3 or to such account provided by such Funding Agent in immediately available, same-day funds. Payments on Obligations may also be made by application of funds in the Collection Account or the Takeout Transaction Account as provided in Section 2.7(B), as applicable. All computations of interest for Advances shall be made by the related Funding Agent, who shall notify the Facility Administrator, the Borrower and the Administrative Agent of any determination thereof on or prior to the payment thereof pursuant to Section 2.7(B), as applicable. All computations of interest for Advances made under the Base Rate shall be made by the applicable Funding Agent on the basis of a year of 365 or 366 days, as the case may be, and actual days elapsed (including the first day but excluding the last day) occurring in the period for which such interest is payable. All other computations of fees and interest provided hereunder shall be made on the basis of a 360-day year and actual days elapsed (including the first day but excluding the last day) occurring in the period for which such interest is payable. Notwithstanding the foregoing, each determination by a Funding Agent of an interest rate hereunder shall be subject to the approval of the Administrative Agent.

(B) All payments to be made in respect of fees, if any, due to the Administrative Agent from the Borrower hereunder shall be made on the date when due without presentment, demand, protest or notice of any kind, all of which are hereby expressly waived by the Borrower, and without setoff, counterclaim or other deduction of any nature (other than with respect to Taxes pursuant to Section 2.17), and an action therefor shall immediately accrue. The Borrower agrees that, to the extent there are insufficient funds in the Administrative Agent's Account, to make any payment under this clause (B) when due, the Borrower shall immediately pay to the Administrative Agent all amounts due that remain unpaid.

*Section 2.14. Payment on Non-Business Days*

Whenever any payment hereunder or under the Advances shall be stated to be due on a day other than a Business Day, such payment shall be made on the next succeeding Business Day, and such extension of time shall in such case be included in the computation of payment of interest.

*Section 2.15. Inability to Determine Rates*

(A) Subject to clauses (B), (C), (D), (E), (F) and (G) of this Section 2.15, if prior to the commencement of any Interest Accrual Period:

- (i) the Administrative Agent determines (which determination shall be conclusive absent manifest error) that adequate and reasonable means do not exist for ascertaining the Adjusted LIBOR Rate (including because any screen rate necessary to determine such rate is not available or published on a current basis), for such Interest Accrual Period; provided that no Benchmark

Transition Event shall have occurred at such time with respect to the Adjusted LIBOR Rate; or

- (ii) the Administrative Agent is advised by any Lender(s) that the Adjusted LIBOR Rate for such Interest Accrual Period will not adequately and fairly reflect the cost to such Lender(s) of making or maintaining their Advances for such Interest Accrual Period;

then the Administrative Agent shall give notice thereof to the Borrower and the Lenders by telephone, telecopy or electronic mail as promptly as practicable thereafter and, until the Administrative Agent notifies the Borrower and the Lenders that the circumstances giving rise to such notice no longer exist, the interest rate applicable to the Advances that would otherwise be funded or maintained based on the Adjusted LIBOR Rate shall be the Base Rate.

(B) Notwithstanding anything to the contrary herein or in any other Transaction Document, if a Benchmark Transition Event or an Early Opt-In Election, as applicable, and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any setting of the then-current Benchmark, then (x) if a Benchmark Replacement is determined in accordance with clause (1) or (2) of the definition of “Benchmark Replacement” for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Transaction Document in respect of such Benchmark setting and subsequent Benchmark settings without any amendment to, or further action or consent of any other party to, this Agreement or any other Transaction Document and (y) if a Benchmark Replacement is determined in accordance with clause (3) of the definition of “Benchmark Replacement” for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Transaction Document in respect of any Benchmark setting at or after 5:00 p.m. (New York City time) on the fifth (5th) Business Day after the date notice of such Benchmark Replacement is provided to the Lenders without any amendment to, or further action or consent of any other party to, this Agreement or any other Transaction Document so long as the Administrative Agent has not received, by such time, written notice of objection to such Benchmark Replacement from the Majority Lenders.

(C) [Reserved].

(D) In connection with the implementation of a Benchmark Replacement, the Administrative Agent will have the right to make Benchmark Replacement Conforming Changes from time to time and, notwithstanding anything to the contrary herein or in any other Transaction Document, any amendments implementing such Benchmark Replacement Conforming Changes will become effective without any further action or consent of any other party to this Agreement or any other Transaction Document.

(E) The Administrative Agent will promptly notify the Borrower and the Lenders of (i) any occurrence of a Benchmark Transition Event or an Early Opt-In Election, as applicable, and its related Benchmark Replacement Date, (ii) the implementation of any Benchmark Replacement, (iii) the effectiveness of any Benchmark Replacement Conforming Changes, (iv) the removal or reinstatement of any tenor of a Benchmark pursuant to clause (F) below and (v) the commencement or conclusion of any Benchmark Unavailability Period. Any determination, decision or election that

may be made by the Administrative Agent or, if applicable, any Lender (or group of Lenders) pursuant to this Section 2.15, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error and may be made in its or their sole discretion and without consent from any other party to this Agreement or any other Transaction Document, except, in each case, as expressly required pursuant to this Section 2.15.

(F) Notwithstanding anything to the contrary herein or in any other Transaction Document, at any time (including in connection with the implementation of a Benchmark Replacement), (i) if the then-current Benchmark is a term rate (including Term SOFR or the Adjusted LIBOR Rate) and either (a) any tenor for such Benchmark is not displayed on a screen or other information service that publishes such rate from time to time as selected by the Administrative Agent in its reasonable discretion or (b) the regulatory supervisor for the administrator of such Benchmark has provided a public statement or publication of information announcing that any tenor for such Benchmark is or will be no longer representative, then the Administrative Agent may modify the definition of “Interest Accrual Period” for any Benchmark settings at or after such time to remove such unavailable or non-representative tenor and (ii) if a tenor that was removed pursuant to clause (i) above either (a) is subsequently displayed on a screen or information service for a Benchmark (including a Benchmark Replacement) or (b) is not, or is no longer, subject to an announcement that it is or will no longer be representative for a Benchmark (including a Benchmark Replacement), then the Administrative Agent may modify the definition of “Interest Accrual Period” for all Benchmark settings at or after such time to reinstate such previously removed tenor.

(G) Upon the Borrower’s receipt of notice of the commencement of a Benchmark Unavailability Period, any Advance that would otherwise be funded or maintained based on the Adjusted LIBOR Rate shall during such LIBOR Unavailability Period instead be funded or maintained based on the Base Rate. During any Benchmark Unavailability Period or at any time that a tenor for the then-current Benchmark is not an Available Tenor, the component of the Base Rate based upon the then-current Benchmark or such tenor for such Benchmark, as applicable, will not be used in any determination of the Base Rate.

*Section 2.16. Extension of the Scheduled Commitment Termination Date or Facility Maturity Date*

. No earlier than ninety (90) days, and no later than sixty (60) days, prior to the then Scheduled Commitment Termination Date or Facility Maturity Date, the Borrower may deliver written notice to the Administrative Agent and each Funding Agent requesting an extension of such Scheduled Commitment Termination Date or Facility Maturity Date, as applicable. The Administrative Agent shall respond to such request no later than thirty (30) days following the date of its receipt of such request, indicating whether it is considering such request and preliminary conditions precedent to any extension of the Scheduled Commitment Termination Date or the Facility Maturity Date, as applicable, as the Administrative Agent determines to include in such response. The Administrative Agent’s failure to respond to a request delivered by the Borrower pursuant to this Section 2.16 shall not be deemed to constitute any agreement by the Administrative Agent to any such extension. The granting of any extension of the Scheduled Commitment Termination Date or the Facility Maturity Date, as applicable, requested by the Borrower shall be in the mutual discretion of the Borrower and the Administrative Agent (on behalf of the Lenders with the consent of all Lender Groups).

Section 2.17. Taxes

(A) *Defined Terms.* For purposes of this Section 2.17 the term “applicable Law” includes FATCA.

(B) *Payments Free of Taxes.* Any and all payments by or on account of any obligation of the Borrower under any Transaction Document shall be made without deduction or withholding for any Taxes, except as required by applicable Law. If any applicable Law (as determined in the good faith discretion of an applicable withholding agent) requires the deduction or withholding of any Tax from any such payment by a withholding agent, then the applicable withholding agent shall be entitled to make such deduction or withholding and shall timely pay the full amount deducted or withheld to the relevant Governmental Authority in accordance with applicable Law and, if such Tax is an Indemnified Tax, then the sum payable by the Borrower shall be increased as necessary so that after such deduction or withholding has been made (including such deductions and withholdings applicable to additional sums payable under this Section) the applicable Recipient receives an amount equal to the sum it would have received had no such deduction or withholding been made.

(C) *Payment of Other Taxes by the Borrower.* The Borrower shall timely pay to the relevant Governmental Authority in accordance with applicable Law, or at the option of a Funding Agent timely reimburse it for the payment of, any Other Taxes.

(D) *Indemnification by the Borrower.* The Borrower shall indemnify each Recipient, within ten days after demand therefor, for the full amount of any Indemnified Taxes (including Indemnified Taxes imposed or asserted on or attributable to amounts payable under this Section) payable or paid by such Recipient or required to be withheld or deducted from a payment to such Recipient and any reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to the Borrower by a Recipient (with a copy to each Funding Agent), or by a Funding Agent on its own behalf or on behalf of a Recipient, shall be conclusive absent manifest error.

(E) *Indemnification by the Lenders.* Each Non-Conduit Lender shall severally indemnify each Funding Agent, within ten days after demand therefor, for (i) any Indemnified Taxes attributable to such Non-Conduit Lender (but only to the extent that the Borrower has not already indemnified such Funding Agent for such Indemnified Taxes and without limiting the obligation of the Borrower to do so), and (ii) any Excluded Taxes attributable to such Non-Conduit Lender, in each case, that are payable or paid by a Funding Agent in connection with any Transaction Document, and any reasonable expenses arising therefrom or with respect thereto, whether or not such Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to any Non-Conduit Lender by its Funding Agent shall be conclusive absent manifest error. Each Non-Conduit Lender hereby authorizes its Funding Agent to set off and apply any and all amounts at any time owing to such Non-Conduit Lender under any Transaction Document or otherwise payable by such Funding Agent to the Non-Conduit Lender from any other source against any amount due to such Funding Agent under this paragraph (E).

(F) *Evidence of Payments.* As soon as practicable after any payment of Taxes by the Borrower to a Governmental Authority pursuant to this Section 2.17, the Borrower shall deliver to each Funding Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to such Funding Agent.

(G) *Status of Recipients.* (i) Any Recipient that is entitled to an exemption from or reduction of withholding Tax with respect to payments made under any Transaction Document shall deliver to the Borrower, the Paying Agent and the related Funding Agent, at the time or times reasonably requested by the Borrower, the Paying Agent or such Funding Agent, such properly completed and executed documentation reasonably requested by the Borrower, the Paying Agent or such Funding Agent as will permit such payments to be made without withholding or at a reduced rate of withholding. In addition, any Recipient, if reasonably requested by the Borrower, the Paying Agent or the related Funding Agent, shall deliver such other documentation prescribed by applicable Law or reasonably requested by the Borrower, the Paying Agent or such Funding Agent as will enable the Borrower, the Paying Agent or such Funding Agent to determine whether or not such Recipient is subject to backup withholding or information reporting requirements. Notwithstanding anything to the contrary in the preceding two sentences, the completion, execution and submission of such documentation (other than such documentation set forth in clauses (ii)(a), (ii)(b) and (ii)(d) below) shall not be required if in the Recipient's reasonable judgment such completion, execution or submission would subject such Recipient to any material unreimbursed cost or expense or would materially prejudice the legal or commercial position of such Recipient.

(ii) Without limiting the generality of the foregoing,

(a) any Recipient that is a U.S. Person shall deliver to the Borrower, the Paying Agent and the related Funding Agent on or prior to the date on which such Recipient becomes a Recipient under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower, the Paying Agent or such Funding Agent), executed originals of Internal Revenue Service Form W-9 certifying that such Recipient is exempt from U.S. federal backup withholding tax;

(b) any Recipient that is not a U.S. Person shall, to the extent it is legally entitled to do so, deliver to the Borrower, the Paying Agent and the related Funding Agent (in such number of copies as shall be requested by the Borrower, the Paying Agent or such Funding Agent) on or prior to the date on which such Recipient becomes a Recipient under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower, the Paying Agent or such Funding Agent), whichever of the following is applicable:

(1) in the case of a Recipient claiming the benefits of an income tax treaty to which the United States is a party (x) with respect to payments of interest under any Transaction Document, executed originals of Internal Revenue Service Form W-8BEN or W-8BEN-E establishing an exemption from, or reduction of, U.S. federal withholding Tax pursuant to the "interest" article of such tax treaty and (y) with respect to any other applicable payments under any Transaction Document, Internal Revenue Service Form W-8BEN or W-8BEN-E establishing an exemption from, or

reduction of, U.S. federal withholding Tax pursuant to the “business profits” or “other income” article of such tax treaty;

(2) executed copies of Internal Revenue Service Form W-8ECI;

(3) in the case of a Recipient claiming the benefits of the exemption for portfolio interest under Section 881(c) of the Internal Revenue Code, (x) a certificate to the effect that such Recipient is not a “bank” within the meaning of Section 881(c)(3)(A) of the Internal Revenue Code, a “10 percent shareholder” of the Borrower within the meaning of Section 881(c)(3)(B) of the Internal Revenue Code, or a “controlled foreign corporation” related to the Borrower as described in Section 881(c)(3)(C) of the Internal Revenue Code (a “*U.S. Tax Compliance Certificate*”) and (y) executed originals of Internal Revenue Service Form W-8BEN or W-8BEN-E; or

(4) to the extent a Recipient is not the beneficial owner, executed originals of Internal Revenue Service Form W-8IMY, accompanied by Internal Revenue Service Form W-8ECI, Internal Revenue Service Form W-8BEN or W-8BEN-E, a U.S. Tax Compliance Certificate, Internal Revenue Service Form W-9, and/or other certification documents from each beneficial owner, as applicable; *provided* that if the Recipient is a partnership and one or more direct or indirect partners of such Recipient are claiming the portfolio interest exemption, such Recipient may provide a U.S. Tax Compliance Certificate on behalf of each such direct and indirect partner;

(c) any Recipient which is not a U.S. Person shall, to the extent it is legally entitled to do so, deliver to the Borrower, the Paying Agent and the related Funding Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Recipient becomes a Recipient under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower, the Paying Agent or such Funding Agent), executed originals of any other form prescribed by applicable Law as a basis for claiming exemption from or a reduction in U.S. federal withholding Tax, duly completed, together with such supplementary documentation as may be prescribed by applicable Law to permit the Borrower, the Paying Agent or such Funding Agent to determine the withholding or deduction required to be made; and

(d) if a payment made to a Recipient under any Transaction Document would be subject to U.S. federal withholding Tax imposed by FATCA if such Recipient were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Internal Revenue Code, as applicable), such Recipient shall deliver to the Borrower, the Paying Agent and the related Funding Agent at the time or times prescribed by Law and at such time or times reasonably requested by the Borrower, the Paying Agent or such Funding Agent such documentation prescribed by applicable Law (including as prescribed by Section 1471(b)(3)(C)(i) of the Internal Revenue Code) and such additional documentation reasonably requested by the Borrower, the Paying Agent or such Funding Agent as may be necessary for the Borrower, the Paying Agent and such Funding Agent to comply with their obligations under FATCA and to determine that such Recipient has complied with such Recipient’s obligations under FATCA or to determine the amount, if

any, to deduct and withhold from such payment. Solely for purposes of this clause (d), “FATCA” shall include any amendments made to FATCA after the date of this Agreement.

Each Recipient agrees that if any form or certification it previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such form or certification or promptly notify the Borrower, the Paying Agent and the related Funding Agent in writing of its legal inability to do so.

(H) *Forms for Paying Agent.* The Administrative Agent and each Funding Agent shall deliver to the Paying Agent on or before the first Payment Date, executed originals of Internal Revenue Service Form W-9 or W-8, as applicable, certifying that the Administrative Agent or such Funding Agent is exempt from U.S. federal backup withholding tax. The Administrative Agent and each Funding Agent agrees that if such Internal Revenue Service Form previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such form or promptly notify the Paying Agent and the Borrower in writing of its legal inability to do so.

(I) *Treatment of Certain Refunds.* If any party determines, in its sole discretion exercised in good faith, that it has received a refund of any Taxes as to which it has been indemnified pursuant to this Section 2.17 (including by the payment of additional amounts pursuant to this Section 2.17), it shall pay to the indemnifying party an amount equal to such refund (but only to the extent of indemnity payments made under this Section with respect to the Taxes giving rise to such refund), net of all out-of-pocket expenses (including Taxes) of such indemnified party and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund). Such indemnifying party, upon the request of such indemnified party, shall repay to such indemnified party the amount paid over pursuant to this paragraph (I) (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) in the event that such indemnified party is required to repay such refund to such Governmental Authority. Notwithstanding anything to the contrary in this paragraph (I), in no event will the indemnified party be required to pay any amount to an indemnifying party pursuant to this paragraph (I) the payment of which would place the indemnified party in a less favorable net after-Tax position than the indemnified party would have been in if the Tax subject to indemnification and giving rise to such refund had not been deducted, withheld or otherwise imposed and the indemnification payments or additional amounts with respect to such Tax had never been paid. This paragraph shall not be construed to require any indemnified party to make available its Tax returns (or any other information relating to its Taxes that it deems confidential) to the indemnifying party or any other Person.

(J) *Survival.* Each party’s obligations under this Section 2.17 shall survive the resignation or replacement of a Funding Agent or any assignment of rights by, or the replacement of, a Lender, the termination of the Commitments and the repayment, satisfaction or discharge of all obligations under any Transaction Document.

*Section 2.18. Request for Borrowing Exceeding Aggregate Commitment*

(A) *Notice.* The Borrower may, from time to time during the Availability Period, prior to the issuance of a Notice of Borrowing, send a written notice to the Administrative Agent and each Lender Group setting forth the Borrower's intent to request a borrowing that will cause the Aggregate Outstanding Advances to exceed the Aggregate Commitment (but not the Maximum Facility Amount) then in effect. Such notice shall be sent no later than five (5) Business Days prior to the date on which the Borrower intends to send the related Notice of Borrowing and shall set forth the amount by which the sum of the Aggregate Outstanding Advances (after giving effect to such borrowing) will exceed the Aggregate Commitment and the related Funding Date.

(B) *Approval/Disapproval.* Upon receipt of the notice described in Section 2.18(A) by the Funding Agents, each Funding Agent shall, no later than five (5) Business Days after receipt thereof, obtain the written approval or disapproval of each Non-Conduit Lender in the related Lender Group regarding the requested Advances, which approval shall be granted or not granted in the sole discretion of the Non-Conduit Lenders. If the making of the requested Advances is approved by each of the Non-Conduit Lenders so requested, the Borrower shall, in accordance with procedures set forth in Section 2.4, send the related Notice of Borrowing. Any approved Advances to be made by the Lenders in the related Lender Group shall be funded within such Lender Group pursuant to any allocation as agreed to by all of the members of such Lender Group. If the making of the requested Advances is not approved by any Non-Conduit Lender so requested, then the Borrower shall, prior to sending its Notice of Borrowing, modify the same in a manner sufficient to ensure that the requested borrowing does not cause the Aggregate Outstanding Advances to exceed the Aggregate Commitment then in effect, as applicable. If the making of the requested Advances is approved by one or more Non-Conduit Lenders so requested and not approved by one or more Non-Conduit Lender so requested, the approving Non-Conduit Lenders shall have the right, but not the obligation, to make all or a portion of the Advance requested of the non-approving Non-Conduit Lenders, and the Borrower shall, in accordance with procedures set forth in Section 2.4, send the related Notice of Borrowing.

(C) *Commitment.* For the avoidance of doubt, if the making of an Advance by a Lender Group that would cause the Aggregate Outstanding Advances to exceed the Aggregate Commitment, as applicable, is approved, each Non-Conduit Lender's Commitment shall be increased solely to the extent such Non-Conduit Lender approved the Advance. Each Non-Conduit Lender's Commitment shall otherwise remain as set forth on Exhibit E unless increased and/or reduced from time to time in accordance with Section 2.6 or amended in connection with assignments made by a Non-Conduit Lender pursuant to Section 10.8. Moreover, the Borrower must go through the procedures described in Sections 2.18(A) and (B) each time a request for an Advance is made which would cause the sum of all outstanding Advances to exceed the Aggregate Commitment, as applicable.

(D) Nothing set forth in this Section 2.18 requires a Conduit Lender to make any Advance; provided, however, a Conduit Lender may, in its sole discretion, make the Advance requested pursuant to this Section 2.18 for its Lender Group. Any Advance approved pursuant to this Section 2.18 shall be made pursuant to and in accordance with Sections 2.2 and 2.4.

The Triggering Event Notice shall include the bank account information for payment of the Class B Buyout Amount and the following (including supporting detail) without duplication: (i) the aggregate principal amount of the Class A Advances, interest and fees with respect thereto (but excluding any prepayment fees or penalties), the fees, expenses and indemnities due the Administrative Agent, and all other Obligations owing to the Class A Lenders then outstanding and unpaid and (ii) the Obligations owing to the Class A Lenders expected to accrue through the Class B Buyout Option Exercise Date (*provided* that any such amounts that are not earned or actually due and owing as of the Class B Buyout Option Exercise Date shall not be required to be paid on the Class B Buyout Option Exercise Date) and (iii) the amount of all liabilities that have been incurred by the Borrower under Section 10.5 to the Class A Lenders (such amounts in clause (iii), the “*Class A Indemnified Liabilities*”, and such amounts in clauses (i) through (iii), collectively, “*Estimated Class B Buyout Amount*”).

(B) The Class B Lenders shall have the option (the “*Class B Buyout Option*”), exercised by delivery of a written notice to the Administrative Agent (a “*Class B Buyout Notice*”), to purchase all (but not less than all) of the aggregate principal amount of the Class A Advances, together with interest and fees due with respect thereto, and all other Obligations owing to the Class A Lenders (collectively, the “*Class B Purchase Rights*”). Unless the Administrative Agent (acting at the direction of the Majority Lenders), in each case, agrees in writing to a longer time period, the Class B Purchase Right shall be exercisable by any one or more Class B Lenders for a period of 10 Business Days, commencing on the date on which the Administrative Agent provides the Triggering Event Notice (each such date, a “*Class B Purchase Right Termination Date*”). The Class A Lenders shall retain all rights to be indemnified or held harmless by the Borrower in accordance with the terms of this Agreement with respect to any contingent claims for indemnification or cost reimbursement that are not paid as part of the Class B Buyout Amount. Prior to the applicable Class B Purchase Right Termination Date, any one or more Class B Lenders may exercise the Class B Purchase Right (each, a “*Buyout Class B Lender*”) by delivering the Class B Buyout Notice, which notice (i) shall be irrevocable (unless the final Class B Buyout Amount is more than \$100,000 higher than the Estimated Class B Buyout Amount set forth in the Triggering Event Notice, in which case such Class B Buyout Option Notice may be revoked in the sole and absolute discretion of the applicable Class B Lender at any time prior to the Class B Buyout Option Exercise Date), (ii) shall state that each such Class B Lender is electing to exercise the Class B Purchase Rights (ratably based on the aggregate Class B Commitments of the Non-Conduit Lenders related to each Buyout Class B Lender over the aggregate Class B Commitments of the Non-Conduit Lenders related to all Buyout Class B Lenders or such other allocation as the related Class B Lenders shall agree) and (iii) shall specify the date on which such right is to be exercised by such Class B Lenders (such date, the “*Class*

*B Buyout Option Exercise Date*”), which date shall be a Business Day not more than fifteen (15) Business Days after receipt by the Administrative Agent of such notice(s).

(C) On the Business Day prior to the Class B Buyout Option Exercise Date, the Administrative Agent shall deliver to each Buyout Class B Lender a written notice specifying (without duplication) the aggregate outstanding principal balance of the Class A Advances, interest and fees with respect thereto (but excluding any prepayment fees or penalties) and all other Obligations owing to the Class A Lenders then outstanding and unpaid as of the Class B Buyout Option Exercise Date and, subject to and in accordance with Section 10.5, Class A Indemnified Liabilities then outstanding and unpaid of which it is then aware (collectively, the “*Class B Buyout Amount*”). On the Class B Buyout Option Exercise Date, the Administrative Agent shall cause the Class A Lenders to sell, and the Class A Lenders shall sell, to the Buyout Class B Lenders their respective *pro rata* portions of the Class B Buyout Amounts, and such Class B Lenders shall purchase from the Class A Lenders, at their respective *pro rata* portions of the Class B Buyout Amount, all of the Class A Advances. (D) Upon the date of such purchase and sale, each Buyout Class B Lender shall (i) pay to the Class A Lenders its *pro rata* portion of the Class B Buyout Amount therefor and (ii) agree to indemnify and hold harmless the Administrative Agent and the Class A Lenders from and against any loss, liability, claim, damage or expense (including reasonable fees and expenses of legal counsel and indemnification) arising out of any claim asserted by a third party as a direct result of any acts by the Buyout Class B Lenders occurring after the date of such purchase (but excluding, for the avoidance of doubt, any such loss, liability, claim, damage or expense resulting from the gross negligence, bad faith or willful misconduct of the Administrative Agent or any Class A Lender seeking indemnification). The Class B Buyout Amount and other sums shall be remitted by wire transfer of immediately available funds to the bank account set forth in the Triggering Event Notice. In connection with the foregoing purchase, accrued and unpaid interest on the Class A Loans shall be calculated through the Business Day on which such purchase and sale shall occur if the amounts so paid by the Buyout Class B Lenders to the bank account designated by the Class A Lenders are received in such account prior to at before 1:00 p.m., New York time and interest shall be calculated to and include the next Business Day if the amounts so paid by the Buyout Class B Lenders to the bank account designated by the Class A Lenders are received in such Account later than 1:00 p.m., New York time.

(E) Any purchase pursuant to this Section 6.3 shall be expressly made without representation or warranty of any kind by the Class A Lenders, the Administrative Agent or any other Person as to the Obligations owing to the Class A Lenders or otherwise and without recourse to the Class A Lenders, the Administrative Agent or any other Person, except that the Class A Lenders shall represent and warrant: (i) the amount of Class A Advances being purchased and that the purchase price and other sums payable by the Buyout Class B Lenders are true, correct and accurate amounts, (ii) that the Class A Lenders shall convey all right, title and interest in and to the Class A Advances free and clear of any Liens of the Class A Lenders or created or suffered to exist by the Class A Lenders, (iii) as to the absence of any claims made or threatened in writing against the Class A Lenders related to the Class A Advances, and (iv) the Class A Lenders are duly authorized to assign the Class A Advances.

*Section 6.4. Sale of Collateral*

(A) The power to effect any sale of any portion of the Collateral upon the occurrence and during the continuance of an Event of Default pursuant to this Article VI, the Security Agreement, the Pledge Agreement and the SAP Lockbox Account Control Agreement shall not be exhausted by any one or more sales as to any portion of the Collateral remaining unsold, but shall continue unimpaired until all Collateral shall have been sold or until all Obligations (other than contingent obligations not then due) hereunder have been paid in full. The Administrative Agent acting on its own or through an agent, may from time to time postpone any sale by public announcement made at the time and place of such sale.

(B) Notwithstanding anything to the contrary set forth herein, but subject in all events to clause (v) of this Section 6.4(B), if the Administrative Agent (acting at the written direction of the Majority Lenders) elects to solicit and accept bids in connection with, and to sell or dispose of, the Collateral, the Administrative Agent shall deliver a notice (a “*Collateral Sale Notice*”) of such sale to the Borrower and the Lenders. The date of the intended sale of Collateral (the “*Intended Collateral Sale Date*”) need not be specified in the Collateral Sale Notice but shall be a date after the related Class B Purchase Right Termination Date described in Section 6.3(B). The Collateral Sale Notice shall include the following (including supporting detail) without duplication: (i) the aggregate principal amount of the Class A Advances, interest and fees with respect thereto (but excluding any prepayment fees or penalties), the fees, expenses and indemnities due the Administrative Agent, and all other Obligations owing to the Class A Lenders then outstanding and unpaid, (ii) the Obligations owing to the Class A Lenders expected to accrue through the Intended Collateral Sale Date (*provided* that any such amounts that are not earned or actually due and owing as of the Intended Collateral Sale Date shall not be required to be paid on the Intended Collateral Sale Date) and (iii) the amount of Class A Indemnified Liabilities. Following receipt of the Collateral Sale Notice:

(i) The Class B Lenders shall have the right to purchase all (but not less than all) of the Collateral (the “*Class B Collateral Purchase Right*”) at a price equal to (without duplication) the aggregate principal amount of the Class A Advances, interest and fees with respect thereto (but excluding any prepayment fees or penalties), the fees, expenses and indemnities due the Administrative Agent, and all other Obligations owing to the Class A Lenders then outstanding and unpaid as of the Intended Collateral Sale Date and, subject to and in accordance with Section 10.5, Class A Indemnified Liabilities then outstanding and unpaid of which it is then aware (collectively, the “*Class B Collateral Purchase Amount*”). If any Class B Lender desires to exercise its Class B Collateral Purchase Right, it shall send a written notice (a “*Class B Collateral Exercise Notice*”) to the Administrative Agent no later than the thirtieth (30th) day after receipt of the Collateral Sale Notice (the “*Class B Collateral Exercise Deadline*”) irrevocably and unconditionally agreeing to purchase all (but not less than all) of the Collateral on a Business Day which is no later than the fifth (5th) Business Day following delivery of its Class B Collateral Exercise Notice (the “*Class B Collateral Purchase Date*”) at a price equal to the Class B Collateral Purchase Amount.

(ii) If the Administrative Agent receives only one Class B Collateral Exercise Notice prior to the Class B Collateral Exercise Deadline, then the Class B Lender who delivered such Class B Collateral Exercise Notice shall be deemed to have exercised the Class B Collateral Purchase Right and shall be obligated to purchase all (but not less than all) of the Collateral on the Class B Collateral Purchase Date on terms and at a price equal to the Class B Collateral Purchase Amount.

(iii) If the Administrative Agent receives more than one Class B Collateral Exercise Notice prior to the Class B Collateral Exercise Deadline (the senders of such Class B Collateral Exercise Notice, each a “*Bidder*”), the Administrative Agent shall schedule a meeting or conference call (the “*Final Auction*”) for 10:00 a.m. (or such other time as may be acceptable to the Administrative Agent and each Bidder) on the date that is two (2) Business Days prior to the Class B Collateral Purchase Date. At such meeting or on such call, each Bidder shall be entitled to make one or more irrevocable and unconditional bids to purchase all (but not less than all) of the Collateral on the Class B Collateral Purchase Date at an all cash price greater than the Class B Collateral Purchase Amount. The Final Auction shall conclude upon the earlier of (a) the time when all Bidders (other than the Bidder who made the then highest bid) confirm they will not make any further bids and (b) thirty (30) minutes having elapsed since the making of the then highest bid. The Bidder that has made the highest bid when the Final Auction has concluded shall be deemed to have exercised the Class B Collateral Purchase Right and shall be obligated irrevocably and unconditionally to purchase all (but not less than all) of the Collateral on the Class B Collateral Purchase Date at a price equal to such highest bid.

(iv) If the Administrative Agent receives no Class B Collateral Exercise Notice prior to the Class B Collateral Exercise Deadline or the sale of the Collateral is for any reason not consummated on the Class B Collateral Purchase Date, the Class B Collateral Purchase Right shall terminate automatically without notice or any action required on the part of any Person and the Administrative Agent shall, subject to the terms of this Agreement, proceed with a sale of the Collateral (or rights or interests therein), at one or more public or private sales as permitted by law. Each of the Lenders may bid on and purchase the Collateral (or rights or interest therein) at such a sale.

(v) Notwithstanding anything to the contrary contained in this Section 6.4(B), the Majority Lenders agree not to instruct the Administrative Agent to solicit and accept bids in connection with, or to sell or dispose of, the Collateral following the occurrence of an Event of Default unless and until (i) no Class B Lender shall have duly delivered to the Administrative Agent pursuant to Section 6.3 a Class B Buyout Notice for such Class B Lender on or prior to the related Class B Purchase Right Termination Date or (ii) the Class B Lenders who have delivered timely Class B Buyout Notice(s) shall have failed to pay the Class B Buyout Amount for such Class B Lender in full on the related Class B Buyout Option Exercise Date all in accordance with Section 6.3.

(C) If the Class B Lenders do not elect to exercise the Class B Collateral Purchase Right prior to the Class B Collateral Exercise Deadline, then the Administrative Agent shall sell the Collateral as otherwise set forth in this Section 6.4 and pursuant to the other Transaction Documents. The Class B Lenders shall also have the right to bid for and purchase the Collateral offered for sale at

a public auction conducted by the Administrative Agent pursuant to this Section 6.4 and the other Transaction Documents and, upon compliance with the terms of any such sale, may hold, retain and dispose of such property without further accountability therefor. Any Class B Lender purchasing Collateral at such a sale may set off the purchase price of such property against amounts owing to it in payment of such purchase price up to the full amount owing to it so long as the cash portion of such purchase price equals or exceeds either the (x) cash portion of the next highest bidder in such auction or (y) amount required to pay off the Class A Obligations in full.

(D) Unless otherwise stipulated at the time of sale, the Collateral or any portion thereof are to be sold on an “as is-where is” basis.

(E) The Administrative Agent shall incur no liability as a result of the sale (whether public or private) of the Collateral or any part thereof at any sale pursuant to this Agreement conducted in a commercially reasonable manner and at the written direction of the Majority Lenders. Each of the Borrower and the Secured Parties hereby agrees that in respect of any sale of any of the Collateral pursuant to the terms hereof, the Administrative Agent is hereby authorized to comply with any limitation or restriction in connection with such sale as it may be advised by counsel is necessary in order to avoid any violation of Applicable Laws, or in order to obtain any required approval of the sale or of the purchaser by any Governmental Authority, and the Borrower and the Secured Parties further agree that such compliance shall not, in and of itself, result in such sale being considered or deemed not to have been made in a commercially reasonable manner, nor shall the Administrative Agent be liable or accountable to the Borrower or the Secured Parties for any discount allowed by reason of the fact that the Collateral or any part thereof is sold in compliance with any such limitation or restriction.

The Administrative Agent shall have only those duties and responsibilities that are expressly specified herein and in the other Transaction Documents. The Administrative Agent may exercise such powers, rights and remedies and perform such duties by or through its agents or employees. The Administrative Agent shall not have, by reason hereof or in any of the other Transaction Documents, a fiduciary relationship in respect of any Funding Agent, Lender or Qualifying Hedge Counterparty; and nothing herein or any of the other Transaction Documents, expressed or implied, is intended to or shall be so construed as to impose upon the Administrative Agent any obligations in respect hereof or any of the other Transaction Documents except as expressly set forth herein or therein.

Without prejudice to the generality of the foregoing, (i) the Administrative Agent shall be fully justified in failing or refusing to take any action hereunder and under any other Transaction Document unless it shall first be indemnified to its satisfaction by the Lenders pro rata against any and all liability, cost and expense that it may incur by reason of taking or continuing to take any such action; (ii) the Administrative Agent shall be entitled to rely, and shall be fully protected in relying, upon any Class A Loan Note, Class B Loan Note, notice, consent, certificate, affidavit, letter, telegram, statement, paper, communication, instrument or document believed by it to be genuine and correct and to have been signed or sent by the proper Person or Persons, and shall be entitled to rely and shall be protected in relying on opinions and judgments of counsel (who may be counsel for the Borrower), accountants, experts and other professional advisors selected by it with due care; and (iii) no Lender, Funding Agent or Qualifying Hedge Counterparty shall have any right of action whatsoever against the Administrative Agent as a result of the Administrative Agent acting or (where so instructed) refraining from acting hereunder or any of the other Transaction Documents in accordance with the instructions of the applicable Lenders.

### *Section 7.4. No Responsibility for Certain Matters*

any disclosures with respect to the foregoing. Without limiting the generality of the foregoing, the Administrative Agent shall have no duty or obligation whatsoever to make, verify, or recompute any numerical information or other calculations under or in connection with this Agreement or any other Transaction Document, including any numerical information and other calculations included in any Borrowing Base Certificate, Facility Administrator Report or otherwise, and the Administrative Agent shall have no duty or liability to confirm, verify or review the contents, and shall not be responsible for the accuracy or content, of any documents, certificates or opinions delivered in connection with this Agreement or any other Transaction Document. In addition, the Administrative Agent shall have no duty or liability to determine whether any Solar Asset is an Eligible Solar Asset or to inspect the Solar Assets at any time or ascertain or inquire as to the performance or observance of any of the Borrower's, the Facility Administrator's or the Parent's or any of their respective affiliate's representations, warranties or covenants. Anything contained herein to the contrary notwithstanding, the Administrative Agent shall not have any liability arising from confirmations of the amount of outstanding Advances or the component amounts thereof. The Administrative Agent shall not be responsible to any Funding Agent, any Lender or any Qualifying Hedge Counterparty for the perfection or priority of any of the Liens on any of the Collateral, or for the execution, effectiveness, genuineness, validity, legality, enforceability, collectability, or sufficiency of this Agreement or any of the other Transaction Documents or the transactions contemplated thereby, or for the financial condition of any guarantor of any or all of the Obligations, the Borrower or any of its respective Affiliates.

*Section 7.5. Employment of Administrative Agents and Counsel*

ARISING, IN WHOLE OR IN PART, OUT OF THE COMPARATIVE, CONTRIBUTORY, OR SOLE NEGLIGENCE OF SUCH INDEMNITEE AGENT PARTY; *provided*, no Lender shall be liable for any portion of such liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements resulting from such Indemnatee Agent Party's gross negligence or willful misconduct as determined by a final, non-appealable judgment of a court of competent jurisdiction. If any indemnity furnished to any Indemnatee Agent Party for any purpose shall, in the opinion of such Indemnatee Agent Party, be insufficient or become impaired, such Indemnatee Agent Party may call for additional indemnity and cease, or not commence, to do the acts indemnified against until such additional indemnity is furnished; *provided further*, that in no event shall this sentence require any Lender to indemnify any Indemnatee Agent Party against any liability, obligation, loss, damage, penalty, action, judgment, suit, cost, expense or disbursement in excess of such Lender's pro rata share of the aggregate outstanding principal amount of Advances of all Lenders; and *provided, further*, this sentence shall not be deemed to require any Lender to indemnify any Indemnatee Agent Party against any liability, obligation, loss, damage, penalty, action, judgment, suit, cost, expense or disbursement described in the proviso in the immediately preceding sentence.

(A) *Subordination; Non-Petition Covenants*. Anything in this Agreement or any other Transaction Documents to the contrary notwithstanding, the Borrower and each member of each Class B Lender Group agree for the benefit of members of the Class A Lender Groups that the Obligations owing to the Class B Lenders shall be subordinate and junior to the Obligations owing to the Class A Lenders to the extent set forth in Section 2.7, including during any case against the Borrower under the Bankruptcy Code and any other applicable federal or State bankruptcy, insolvency or other similar law. If, notwithstanding the provisions of this Agreement, any holder of an Obligation owing to a Class B Lender shall have become aware or received written notice (in either case prior to the time that all Obligations owing to the Class A Lenders have been paid in full) that it has received any payment or distribution in respect of any Obligation owing to a Class B Lender contrary to the provisions of this Agreement, then such payment or distribution shall be received and held in trust for the benefit of, and shall forthwith be paid over and delivered to, the Class A Lenders ratably based on the amount of the Obligations owing to the Class A Lenders which the Class A Lenders are entitled thereto in accordance with this Agreement; *provided, however*, that, if any such payment or distribution is made other than in cash, it shall be held by the Class A Lenders as part of the Collateral and subject in all respects to the provisions of this Agreement, including the provisions of this Section 7.22. The holders of the Obligations owing to the Class B Lenders agree, for the benefit of the holders of the Obligations owing to the Class A Lenders, that, before the date that is one year and one day after the termination of this Agreement or, if longer, the expiration of the then applicable preference period plus one day, the holders of the Obligations of the Class B Lenders shall not, without the prior written consent of the Majority Lenders, acquiesce, petition or otherwise invoke or cause any other Person to invoke the process of any governmental authority for the purpose of commencing or sustaining a case against the Borrower under the Bankruptcy Code and any other applicable federal or State bankruptcy, insolvency or other similar law or appointing a receiver, liquidator, assignee, trustee, custodian, sequestrator or other similar official of the Borrower or any substantial part of its property or ordering the winding-up or liquidation of the affairs of the Borrower.

(B) *Standard of Conduct.* In exercising any of its or their voting rights, rights to direct and consent or any other rights as a Lender hereunder, subject to the terms and conditions of this Agreement, a Lender or Lenders, as the case may be, shall not, except as may be expressly provided herein with respect to any particular matter, have any obligation or duty to any Person or to consider or take into account the interests of any Person and shall not be liable to any Person for any action taken by it or them or at its or their direction or any failure by it or them to act or to direct that an action be taken, without regard to whether such action or inaction benefits or adversely affects any Lender, the Borrower or any other Person, except for any liability to which such Lender may be subject to the extent that the same results from such Lender's taking or directing an action, or failing to take or direct an action, in bad faith or in violation of the express terms of this Agreement.

(G) The Borrower has not and will not provide any payment instructions to any of the Managing Members, SAP or a Financing Fund that are inconsistent with the Facility Administration Agreement or this Agreement.

(H) With respect to the Facility Administrator's obligations under Section 3.3 of the Facility Administration Agreement, the Administrative Agent shall not have any responsibility to the Borrower, the Facility Administrator or any party hereunder to make any inquiry or investigation as to, and shall have no obligation in respect of, the terms of any engagement of an independent accountant by the Facility Administrator; *provided* that the Administrative Agent shall be authorized, upon receipt of written direction from Facility Administrator directing the Administrative Agent, to execute any acknowledgment or other agreement with the independent accountant required for the Administrative Agent to receive any of the reports or instructions provided for herein, which acknowledgment or agreement may include, among other things, (i) acknowledgement that the Facility Administrator has agreed that the procedures to be performed by the independent accountant are sufficient for the Borrower's purposes, (ii) acknowledgement that the Administrative Agent has agreed that the procedures to be performed by an independent accountant are sufficient for the Administrative Agent's purposes and that the Administrative Agent's purposes is limited solely to receipt of the report, (iii) releases by the Administrative Agent (on behalf of itself and the Lenders) of claims against the independent accountant and acknowledgement of other limitations of liability in favor of the independent accountant, and (iv) restrictions or prohibitions on the disclosure of information or documents provided to it by such firm of independent accountants (including to the Lenders). (B) *[Reserved]*.

(C) *Deposits and Withdrawals from the Liquidity Reserve Account.* Deposits into, and withdrawals from, the Liquidity Reserve Account shall, subject to Section 2.7(D), be made in the following manner:

(i) On the Original Closing Date, the Borrower shall deliver to the Paying Agent for deposit into the Liquidity Reserve Account, an amount equal to the Liquidity Reserve Account Required Balance as of such date;

(ii) From the proceeds of Advances hereunder, the Borrower shall deliver to the Paying Agent for deposit into the Liquidity Reserve Account amounts necessary to maintain on deposit therein an amount equal to or in excess of the Liquidity Reserve Account Required Balance as of the date of each such Advance, and on each Payment Date, the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to deposit into the Liquidity Reserve Account from available Collections (as set forth and in the order of priority established pursuant to Section 2.7(B)), funds in the amount required under Section 2.7(B), and the Borrower may, at its option, deposit additional funds into the Liquidity Reserve Account;

(iii) If on any Payment Date (without giving effect to any withdrawal from the Liquidity Reserve Account) available funds on deposit in the Collection Account would be insufficient to make the payments due and payable on such Payment Date pursuant to Section 2.7(B)(i) through (iii)(a), (vii) and (ix), the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report delivered pursuant to Section 3.1 of the Facility Administration Agreement, to withdraw from the Liquidity Reserve Account an amount equal to the lesser of such insufficiency and the amount on deposit in the Liquidity Reserve Account and deposit such amount into the Collection Account and apply such amount to payments set forth in Section 2.7(B)(i) through (iii)(a), (vii) and (ix);

(iv) Upon the occurrence of an Event of Default, the Administrative Agent (or the Facility Administrator with the written consent of the Administrative Agent) shall cause the Paying Agent, by providing written direction to the Paying Agent, to withdraw all amounts on deposit in the Liquidity Reserve Account and deposit such amounts into the Collection Account for distribution in accordance with Section 2.7(B);

(v) On the earliest to occur of (a) the Maturity Date, (b) an Amortization Event (other than an Event of Default) and (c) the date on which the outstanding balance of the Advances is reduced to zero, the Administrative Agent shall cause the Paying Agent, by providing written direction to the Paying Agent, in the case of subclauses (a) and (b), and the Facility Administrator or the Borrower shall cause the Paying Agent, by providing written direction to the Paying Agent, in the case of subclause (c), to withdraw all amounts on deposit in the Liquidity Reserve Account and deposit such amounts into the Collection Account to be paid in accordance with Section 2.7(B);

(vi) Unless an Event of Default or an Amortization Event has occurred and is continuing, on any Payment Date, if, as set forth on the Facility Administrator Report, amounts on deposit in the Liquidity Reserve Account are greater than the Liquidity Reserve Account Required Balance (after giving effect to all other distributions and disbursements on such Payment Date), the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to withdraw funds in excess of the Liquidity Reserve Account Required Balance from the Liquidity Reserve Account and disburse such amounts into the Borrower's Account; and

(vii) On any Payment Date, if, as set forth on the Facility Administrator Report, the amount of funds in the Liquidity Reserve Account and in the Collection Account is equal to or greater than the aggregate outstanding balance of Advances (whether or not then due and payable) and all other amounts due and payable hereunder, then the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to withdraw all funds from the Liquidity Reserve Account and deposit such amounts into the Collection Account to pay all such amounts and the aggregate outstanding balance of all Advances (whether or not then due and payable).

Notwithstanding anything in this Section 8.2(C) to the contrary, in lieu of or in substitution for moneys otherwise required to be deposited to the Liquidity Reserve Account, the Borrower (or the Facility Administrator on behalf of the Borrower) may deliver or cause to be delivered to the Paying Agent a Letter of Credit; *provided* that any deposit into the Liquidity Reserve Account required to be made by the Borrower (or the Facility Administrator on behalf of the Borrower) after the replacement of amounts on deposit in the Liquidity Reserve Account with a Letter of Credit shall be made by the Borrower (or the Facility Administrator on behalf of the Borrower) by way of cash deposits to the Liquidity Reserve Account as provided in Section 2.7(B) or pursuant to the Borrower's (or the Facility Administrator's on behalf of the Borrower) causing an increase in the Letter of Credit or the delivery to the Paying Agent of an additional Letter of Credit.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Liquidity Reserve Account, and if any withdrawals from the Liquidity Reserve Account will be required under this Section 8.2(C) or otherwise, the Administrative Agent (or the Borrower with the written consent of the Administrative Agent) shall, no later than three (3) Business Days prior to the applicable Payment Date or payment date, direct the Paying Agent in writing to draw on the Letter of Credit, which direction shall provide the required draw amount. The Administrative Agent (or the Borrower with the written consent of the Administrative Agent) shall direct the Paying Agent to submit the drawing documents to the applicable Eligible Letter of Credit Bank no later than 5:00 P.M. (New York City time) on the second (2nd) Business Day after the Paying Agent receives such direction. Upon the receipt of the proceeds of any such drawing, the Paying Agent shall deposit such proceeds into the Liquidity Reserve Account. Any (A) references in the Transaction Documents to amounts on deposit in the Liquidity Reserve Account or amounts in or credited to the Liquidity Reserve Account shall include or be deemed to include the aggregate available amount of the Letters of Credit delivered to the Paying Agent pursuant to this Section 8.2(C), and (B) Letter of Credit delivered by the Borrower (or the Facility Administrator on behalf of the Borrower) to the Paying Agent pursuant to this Section 8.2(C) shall be held as an asset of the Liquidity Reserve Account and valued for purposes of determining the amount on deposit in the Liquidity Reserve Account at the amount as of any date then available to be drawn on such Letter of Credit.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Liquidity Reserve Account, then: (i) if the Letter of Credit is scheduled to expire by its terms and ten (10) days prior to the scheduled expiration date such Letter of Credit has not been extended or replaced, then the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall on such tenth (10th) day prior to the scheduled expiration date notify the Paying Agent in writing of such failure to extend or replace the Letter of Credit, and the Paying Agent shall, submit the drawing documents delivered to it by the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent to the Eligible Letter of Credit Bank no later than 5:00 P.M.

(New York City time) on the second (2nd) Business Day prior to the scheduled expiration date and draw the full amount of such Letter of Credit and deposit the proceeds of such drawing into the Liquidity Reserve Account, and (ii) if the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent notifies the Paying Agent in writing that the financial institution issuing the Letter of Credit ceases to be an Eligible Letter of Credit Bank or a Responsible Officer of the Paying Agent otherwise receives written notice that the financial institution issuing the Letter of Credit ceases to be an Eligible Letter of Credit Bank, then the Paying Agent shall, no later than the second (2nd) Business Day after receipt of any such written notice by a Responsible Officer of the Paying Agent submit the drawing documents delivered to it by the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent to draw the full amount of such Letter of Credit and deposit the proceeds of such drawing into the Liquidity Reserve Account.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Liquidity Reserve Account, the stated amount of the Letter of Credit may be reduced from time to time, to the extent of any reduction in the dollar amount of the Liquidity Reserve Account Required Balance. Each month upon receipt by the Paying Agent of the Facility Administrator Report if such Facility Administrator Report shows a reduction in the Liquidity Reserve Account Required Balance, then the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall, prior to the related Payment Date, direct the Paying Agent to send the Eligible Letter of Credit Bank a letter in the form provided in the Letter of Credit to reduce the stated amount of the Letter of Credit. The Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall ensure that the letter submitted shall provide for the reduction to be effective as of the close of business on the related Payment Date. The reduction shall be in the amount shown on the Facility Administrator Report as the Liquidity Reserve Account “reductions” and the remaining stated amount of the Letter of Credit shall be equal to the Liquidity Reserve Account Required Balance “ending required amount” as shown on the Facility Administrator Report. Any drawing on the Letter of Credit may be reimbursed by the Borrower only from amounts remitted to the Borrower pursuant to clauses (xiii) or (xiv) of Section 2.7(B).

Notwithstanding the foregoing or any other provision to the contrary in this Agreement or any other Transaction Document, in no event shall the Paying Agent be required to report, track, calculate or monitor the value, available amount or any other information regarding any Letter of Credit for any party hereto or beneficiary of or under the Liquidity Reserve Account, except as expressly required pursuant to this Section 8.2(C).

(D) *Deposits and Withdrawals from the Supplemental Reserve Account.* Deposits into, and withdrawals from, the Supplemental Reserve Account shall, subject to Section 2.7(D), be made in the following manner:

(i) On each Payment Date, to the extent of Distributable Collections and in accordance with and subject to the priority of payments set forth in Section 2.7(B), the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to deposit into the Supplemental Reserve Account an amount equal to the Supplemental Reserve Account Deposit until the amount on deposit equals the Supplemental Reserve Account Required Balance.

(ii) On each Payment Date, the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to deposit into the Supplemental Reserve Account from available Collections (as set forth and in the order of priority established pursuant to Section 2.7(B)), funds in the amount required under Section 2.7(B), if any, and the Borrower may, at its option, deposit additional funds into the Supplemental Reserve Account;

(iii) The Paying Agent shall release funds from the Supplemental Reserve Account to pay the following amounts upon direction from the Facility Administrator set forth in an Officer's Certificate (no more than once per calendar month) in the following order of priority:

- (a) the costs (inclusive of labor costs) of replacement of any Inverter that no longer has the benefit of a Manufacturer Warranty and for which (1) the Manager is not obligated under the related Management Agreement to cover the replacement costs of such Inverter (or if so obligated, has failed to pay such costs) and the related Financing Fund has insufficient funds to pay replacement costs for such Inverter or (2) the Facility Administrator in its role as Manager has paid under the related Management Agreement;
- (b) the amount of any deductible in connection with each claim paid by the Tax Loss Insurer under the related Tax Loss Insurance Policy plus the amount of the difference, if any, between (1) the amount of a Tax Loss Indemnity and (2) the sum of the amount of proceeds of a Tax Loss Insurance Policy received by a Financing Fund, as loss payee under such Tax Loss Insurance Policy with respect to the Tax Loss Indemnity and the amount of any deductible in connection therewith; and
- (c) each Purchase Option Price when due and payable under the terms of a Financing Fund LLCA upon exercise by the related Managing Member of the related Purchase Option.

(iv) Unless an Event of Default or an Amortization Event has occurred and is continuing, on any Payment Date, if, as set forth on the Facility Administrator Report, amounts on deposit in the Supplemental Reserve Account are greater than the Supplemental Reserve Account Required Balance (after giving effect to all other distributions and disbursements and all releases and withdrawals on such Payment Date), the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to withdraw funds in excess of the Supplemental Reserve Account Required Balance from the Supplemental Reserve Account and disburse such amounts into the Borrower's Account;

(v) If on any Payment Date (after giving effect to any withdrawals from the Liquidity Reserve Account) available funds on deposit in the Collection Account would be insufficient to pay the interest payments or other amounts due and payable pursuant to Section 2.7(B)(i) through (iii)(a), (vii) and (ix) on such Payment Date, the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to withdraw from the Supplemental Reserve Account an amount equal to the lesser of such

insufficiency and the amount on deposit in the Supplemental Reserve Account and deposit such amount into the Collection Account and apply such amount to payments set forth in Section 2.7(B)(i) through (iii)(a), (vii) and (ix); and

(vi) If on any Payment Date, the Borrower has provided notice to the Administrative Agent that (1) a Managing Member has irrevocably provided notice to the related Tax Equity Investor that it will not exercise the related Purchase Option or (2) the period in which such Purchase Option may be exercised under the related Financing Fund LLCA has expired and cannot be extended, the Borrower may direct the Paying Agent, to withdraw from the Supplemental Reserve Account any amounts on deposit therein in respect of clause (ii)(a) of the definition of “Supplemental Reserve Account Required Balance” and deposit such amounts into the Collection Account for application in accordance with Section 2.7; and

(vii) On the date on which the Aggregate Outstanding Advances are reduced to zero, the Administrative Agent shall cause the Paying Agent, pursuant to a written direction, to withdraw all amounts on deposit in the Supplemental Reserve Account and deposit such amounts into the Collection Account to be paid in accordance with Section 2.7(B).

Notwithstanding anything in this Section 8.2(D) to the contrary, in lieu of or in substitution for moneys otherwise required to be deposited to the Supplemental Reserve Account, the Borrower (or the Facility Administrator on behalf of the Borrower) may deliver or cause to be delivered to the Paying Agent a Letter of Credit; *provided* that any deposit into the Supplemental Reserve Account required to be made by the Borrower (or the Facility Administrator on behalf of the Borrower) after the replacement of amounts on deposit in the Supplemental Reserve Account with a Letter of Credit shall be made by the Borrower (or the Facility Administrator on behalf of the Borrower) by way of cash deposits to the Supplemental Reserve Account as provided in Section 2.7(B) or pursuant to the Borrower’s (or the Facility Administrator’s on behalf of the Borrower) causing an increase in the Letter of Credit or the delivery to the Paying Agent of an additional Letter of Credit.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Supplemental Reserve Account, and if any withdrawals from the Supplemental Reserve Account will be required under this Section 8.2(D) or otherwise, the Administrative Agent (or the Borrower with the written consent of the Administrative Agent) shall, no later than three (3) Business Days prior to the applicable Payment Date or payment date, direct the Paying Agent in writing to draw on the Letter of Credit, which direction shall provide the required draw amount. The Administrative Agent (or the Borrower with the written consent of the Administrative Agent) shall direct the Paying Agent to submit the drawing documents to the applicable Eligible Letter of Credit Bank no later than 5:00 P.M. (New York City time) on the second (2nd) Business Day after the Paying Agent receives such direction. Upon the receipt of the proceeds of any such drawing, the Paying Agent shall deposit such proceeds into the Supplemental Reserve Account. Any (A) references in the Transaction Documents to amounts on deposit in the Supplemental Reserve Account or amounts in or credited to the Supplemental Reserve Account shall include or be deemed to include the aggregate available amount of the Letters of Credit delivered to the Paying Agent pursuant to this Section 8.2(D), and (B) Letter of Credit delivered by the Borrower (or the Facility Administrator on behalf of the Borrower) to the Paying Agent pursuant to this Section 8.2(D) shall be held as an asset of the Supplemental Reserve

Account and valued for purposes of determining the amount on deposit in the Supplemental Reserve Account at the amount as of any date then available to be drawn on such Letter of Credit.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Supplemental Reserve Account, then: (i) if the Letter of Credit is scheduled to expire by its terms and ten (10) days prior to the scheduled expiration date such Letter of Credit has not been extended or replaced, then the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall on such tenth (10th) day prior to the scheduled expiration date notify the Paying Agent in writing of such failure to extend or replace the Letter of Credit, and the Paying Agent shall, submit the drawing documents delivered to it by the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent to the Eligible Letter of Credit Bank no later than 5:00 P.M. (New York City time) on the second (2nd) Business Day prior to the scheduled expiration date and draw the full amount of such Letter of Credit and deposit the proceeds of such drawing into the Supplemental Reserve Account, and (ii) if the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent notifies the Paying Agent in writing that the financial institution issuing the Letter of Credit ceases to be an Eligible Letter of Credit Bank or a Responsible Officer of the Paying Agent otherwise receives written notice that the financial institution issuing the Letter of Credit ceases to be an Eligible Letter of Credit Bank, then the Paying Agent shall, no later than the second (2nd) Business Day after receipt of any such written notice by a Responsible Officer of the Paying Agent submit the drawing documents delivered to it by the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent to draw the full amount of such Letter of Credit and deposit the proceeds of such drawing into the Supplemental Reserve Account.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Supplemental Reserve Account, the stated amount of the Letter of Credit may be reduced from time to time, to the extent of any reduction in the dollar amount of the Supplemental Reserve Account Required Balance. Each month upon receipt by the Paying Agent of the Facility Administrator Report if such Facility Administrator Report shows a reduction in the Supplemental Reserve Account Required Balance, then the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall, prior to the related Payment Date, direct the Paying Agent to send the Eligible Letter of Credit Bank a letter in the form provided in the Letter of Credit to reduce the stated amount of the Letter of Credit. The Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall ensure that the letter submitted shall provide for the reduction to be effective as of the close of business on the related Payment Date. The reduction shall be in the amount shown on the Facility Administrator Report as the Supplemental Reserve Account “reductions” and the remaining stated amount of the Letter of Credit shall be equal to the Supplemental Reserve Account Required Balance “ending required amount” as shown on the Facility Administrator Report. Any drawing on the Letter of Credit may be reimbursed by the Borrower only from amounts remitted to the Borrower pursuant to clauses (xiii) or (xiv) of Section 2.7(B).

Notwithstanding the foregoing or any other provision to the contrary in this Agreement or any other Transaction Document, in no event shall the Paying Agent be required to report, track, calculate or monitor the value, available amount or any other information regarding any Letter of Credit for any party hereto or beneficiary of or under the Supplemental Reserve Account, except as expressly required pursuant to this Section 8.2(D).

(E) *Deposits and Withdrawals from the SAP Revenue Account.* Deposits into the SAP Revenue Account shall be made consistent with Section 5.1(R). The Paying Agent shall withdraw all amounts on deposit in the SAP Revenue Account in excess of \$55,000 on the first Business Day of each calendar month and remit such amounts to the Collection Account. The Manager shall be permitted to withdraw up to \$55,000 in the aggregate during each calendar month from the SAP Revenue Account to pay Operational Amounts in accordance with the related SAP Financing Documents. On the date on which the Aggregate Outstanding Advances are reduced to zero, the Administrative Agent shall cause the Paying Agent, pursuant to a written direction, to withdraw all amounts on deposit in the SAP Revenue and deposit such amounts into the Collection Account to be paid in accordance with Section 2.7(B).

(F) *Paying Agent Account Control.* (i) Each Paying Agent Account shall be established and at all times maintained with the Paying Agent which shall act as a “securities intermediary” (as defined in Section 8-102 of the UCC) and a “bank” (as defined in Section 9-102 of the UCC) hereunder (in such capacities, the “Securities Intermediary”) with respect to each Paying Agent Account. The Paying Agent hereby confirms that, as of the Amendment and Restatement Date, the account numbers of each of the Paying Agent Accounts are as described on Schedule II attached hereto.

(ii) Each Paying Agent Account shall be a “securities account” as defined in Section 8-501 of the UCC and shall be maintained by the Paying Agent as a securities intermediary for and in the name of the Borrower, subject to the lien of the Administrative Agent, for the benefit of the Secured Parties. The Paying Agent shall treat the Administrative Agent as the “entitlement holder” (within the meaning of Section 8-102(a)(7) of the UCC) in respect of all “financial assets” (within the meaning of Section 8-102(a)(9) of the UCC) credited to the Paying Agent Accounts.

(iii) The Paying Agent hereby confirms and agrees that:

(a) the Paying Agent shall not change the name or account number of any Paying Agent Account without the prior written consent of the Administrative Agent and the Borrower;

(b) all securities or other property underlying any financial assets (as hereinafter defined) credited to a Paying Agent Account shall be registered in the name of the Paying Agent, indorsed to the Paying Agent or indorsed in blank or credited to another securities account maintained in the name of the Paying Agent, and in no case will any financial asset credited to a Paying Agent Account be registered in the name of the Borrower or any other Person, payable to the Borrower or specially indorsed to the Borrower or any other Person, except to the extent the foregoing have been specially indorsed to the Administrative Agent, for the benefit of the Secured Parties, or in blank;

(c) all property transferred or delivered to the Paying Agent pursuant to this Agreement will be credited to the appropriate Borrower Account in accordance with the terms of this Agreement;

(d) each Paying Agent Account is an account to which financial assets are or may be credited, and the Paying Agent shall, subject to the terms of this Agreement, treat each of the Borrower and the Facility Administrator as entitled to exercise the rights that comprise any financial asset credited to each such Paying Agent Account; and

(e) notwithstanding the intent of the parties hereto, to the extent that any Paying Agent Account shall be determined to constitute a “deposit account” within the meaning of Section 9-102(a)(29) of the UCC, such Paying Agent Account shall be subject to the exclusive control of the Administrative Agent, for the benefit of the Secured Parties, and the Paying Agent will comply with instructions originated by the Administrative Agent directing disposition of the funds in such Paying Agent Account, without further consent by the Borrower or the Facility Administrator; provided that, notwithstanding the foregoing, the Administrative Agent hereby authorizes the Paying Agent to honor withdrawal, payment, transfer or other instructions directing disposition of the funds in the Collection Account received from the Borrower or the Facility Administrator, on its behalf, pursuant to Section 2.7 or this Section 8.2.

(iv) The Paying Agent hereby agrees that each item of property (including, without limitation, any investment property, financial asset, security, instrument or cash) credited to any Paying Agent Account shall be treated as a “financial asset” within the meaning of Section 8-102(a)(9) of the UCC.

(v) If at any time the Paying Agent shall receive an “entitlement order” (as defined in Section 8-102(a)(8) of the UCC) (an “*Entitlement Order*”) from the Administrative Agent (i.e., an order directing a transfer or redemption of any financial asset in any Paying Agent Account), or any “instruction” (within the meaning of Section 9-104 of the UCC), originated by the Administrative Agent, the Paying Agent shall comply with such Entitlement Order or instruction without further consent by the Borrower, the Facility Administrator or any other Person. Neither the Facility Administrator nor the Borrower shall make any withdrawals from any Paying Agent Account, except pursuant to Section 2.7 or this Section 8.2.

(vi) In the event that the Paying Agent has or subsequently obtains by agreement, by operation of law or otherwise a security interest in any Paying Agent Account or any financial assets, funds, cash or other property credited thereto or any security entitlement with respect thereto, the Paying Agent hereby agrees that such security interest shall be subordinate to the security interest of the Administrative Agent, for the benefit of the Secured Parties. Notwithstanding the preceding sentence, the financial assets, funds, cash or other property credited to any Paying Agent Account will not be subject to deduction, set-off, banker’s lien, or any other right in favor of any Person other than the Administrative Agent, for the benefit of the Secured Parties (except that the Paying Agent may set-off (i) all amounts due to the Paying Agent in its capacity as securities intermediary in respect of customary fees and expenses for the routine maintenance and operation of the Paying Agent Accounts, and (ii) the face amount of any checks that have been credited to the Paying Agent Accounts but are subsequently returned unpaid because of uncollected or insufficient funds).

(vii) Regardless of any provision in any other agreement, for purposes of the UCC, New York shall be deemed to be the “bank’s jurisdiction” (within the meaning of Section 9-304 of the UCC) and the “security intermediary’s jurisdiction” (within the meaning of Section 8-110 of the UCC).

(viii) If, at any time, the Paying Agent resigns, is removed hereunder or ceases to meet the eligibility requirements of an Eligible Institution, the Facility Administrator, for the benefit of the Administrative Agent and the Lenders, shall within thirty (30) days establish a new Collection Account, Supplemental Reserve Account, Liquidity Reserve Account, the SAP Revenue Account, and Takeout Transaction Account meeting the conditions specified above with an Eligible Institution reasonably acceptable to the Administrative Agent and transfer any cash and/or any investments held therein or with respect thereto to such new Collection Account, Supplemental Reserve Account, Liquidity Reserve Account, SAP Revenue Account, or Takeout Transaction Account, as applicable. From the date such new Collection Account, Supplemental Reserve Account, Liquidity Reserve Account, SAP Revenue Account, or Takeout Transaction Account is established, it shall be the “Collection Account,” “Supplemental Reserve Account,” “Liquidity Reserve Account,” “SAP Revenue Account,” or “Takeout Transaction Account” hereunder, as applicable.

(G) *Permitted Investments.* Prior to an Event of Default, the Facility Administrator (and after an Event of Default, the Administrative Agent) may direct each banking institution at which the Collection Account, the Liquidity Reserve Account, Supplemental Reserve Account, SAP Revenue Account, or Takeout Transaction Account shall be established, in writing, to invest the funds held in such accounts in one or more Permitted Investments. Absent such written direction, such funds shall remain uninvested. All investments of funds on deposit in the Collection Account, the Liquidity Reserve Account, Supplemental Reserve Account, SAP Revenue Account, or Takeout Transaction Account shall be uninvested so that such funds will be available on the Business Day immediately preceding the date on which the funds are to be disbursed from such account, unless otherwise expressly set forth herein. All interest derived from such Permitted Investments shall be deemed to be “investment proceeds” and shall be deposited into such account to be distributed in accordance with the requirements hereof. The taxpayer identification number associated with the Collection Account, the Liquidity Reserve Account, Supplemental Reserve Account, SAP Revenue Account, and Takeout Transaction Account shall be that of the Borrower, and the Borrower shall report for federal, state and local income tax purposes the income, if any, earned on funds in such accounts.

*Section 8.3. Adjustments*

. If the Facility Administrator makes a mistake with respect to the amount of any Collection or payment and deposits, pays or causes to be deposited or paid, an amount that is less than or more than the actual amount thereof, the Facility Administrator shall appropriately adjust the amounts subsequently deposited into the applicable account or paid out to reflect such mistake for the date of such adjustment. Any Eligible Solar Asset in respect of which a dishonored check is received shall be deemed not to have been paid.

## Article IX

### The Paying Agent

#### *Section 9.1. Appointment*

. The appointment of Wells Fargo Bank, National Association is hereby confirmed by the other parties hereto (other than the Verification Agent) as Paying Agent, and accepts such appointment subject to the terms of this Agreement.

#### *Section 9.2. Representations and Warranties*

. The Paying Agent represents to the other parties hereto as follows:

(A) *Organization; Corporate Powers.* The Paying Agent is duly incorporated and validly existing under the laws of the jurisdiction of its incorporation and has all requisite power and authority to conduct its business, to own its property and to execute, deliver and perform all of its obligations under this Agreement, and no license, permit, consent or approval, is required to be obtained, effective or given by the Paying Agent to enable it to perform its obligations hereunder.

(B) *Authority.* The execution, delivery and performance by the Paying Agent of this Agreement have been duly authorized by all necessary action on the part of the Paying Agent.

(C) *Enforcement.* This Agreement constitutes the legal, valid and binding obligation of the Paying Agent, enforceable against the Paying Agent in accordance with its terms except as such enforcement may be limited by bankruptcy, insolvency or similar laws affecting the enforcement of creditors' rights generally and general principles of equity, regardless of whether such enforcement is sought at equity or at law.

(D) *No Conflict.* The Paying Agent is not in violation of any law, rule, or regulation governing the banking or trust powers of the Paying Agent applicable to it or any indenture, lease, loan or other agreement to which the Paying Agent is a party or by which it or its assets may be bound or affected, except for such laws, rules or regulations or indentures, leases, loans or other agreements the violation of which would not have a material adverse effect on the Paying Agent's abilities to perform its obligations in accordance with the terms of this Agreement.

#### *Section 9.3. Limitation of Liability of the Paying Agent*

. Notwithstanding anything contained herein to the contrary, this Agreement has been executed by Wells Fargo Bank, National Association, not in its individual capacity, but solely as the Paying Agent, and in no event shall Wells Fargo Bank, National Association have any liability for the representations, warranties, covenants, agreements or other obligations of the other parties hereto or in any of the certificates, notices or agreements delivered pursuant hereto, as to all of which recourse shall be had solely to the assets of the party responsible therefor.

*Section 9.4. Certain Matters Affecting the Paying Agent*  
Notwithstanding anything herein to the contrary:

- (A) The Paying Agent undertakes to perform such duties and only such duties as are specifically set forth in this Agreement. The Paying Agent shall not have any duties or responsibilities except those expressly set forth in this Agreement.
- (B) The Paying Agent shall not be subject to any fiduciary or other implied duties, obligations or covenants regardless of whether an Event of Default has occurred and is continuing.
- (C) The Paying Agent shall not be liable for any action taken or any error of judgment made in good faith by an officer or officers of the Paying Agent, unless it shall be conclusively determined by the final judgment of a court of competent jurisdiction not subject to appeal or review that the Paying Agent was grossly negligent or acted with willful misconduct in ascertaining the pertinent facts.
- (D) The Paying Agent shall not be liable with respect to any action taken or omitted to be taken by it in good faith in accordance with any direction given or certificate or other document delivered to the Paying Agent under this Agreement or any other Transaction Document.
- (E) None of the provisions of this Agreement or any other Transaction Document shall require the Paying Agent to expend or risk its own funds or otherwise to incur any liability, financial or otherwise, in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers if it shall have reasonable grounds for believing that repayment of such funds or indemnity satisfactory to it against such risk or liability is not assured to it.
- (F) The Paying Agent may conclusively rely and shall be fully protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, consent, order, approval or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties, and shall be under no obligation to inquire as to the adequacy, content, accuracy or sufficiency of any such information or be under any obligation to make any calculation (or re-calculation), certification, or verification in respect of any such information and shall not be liable for any loss that may be occasioned thereby. The Paying Agent may also, but shall not be required to, rely upon any statement made to it orally or by telephone and believed by it to have been made by the proper person, and shall not incur any liability for relying thereon.
- (G) Whenever in the administration of the provisions of this Agreement or any other Transaction Document the Paying Agent shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action to be taken hereunder, such matter may, in the absence of gross negligence, willful misconduct or bad faith on the part of the Paying Agent, be deemed to be conclusively proved and established by a certificate delivered to the Paying Agent hereunder, and such certificate, in the absence of gross negligence, willful misconduct or bad faith on the part of the Paying Agent, shall be full

warrant to the Paying Agent for any action taken, suffered or omitted by it under the provisions of this Agreement or any other Transaction Document.

(H) The Paying Agent, at the expense of the Borrower, may consult with counsel, and the advice or any opinion of counsel shall be full and complete authorization and protection in respect of any action taken or omitted by it hereunder in good faith and in accordance with such advice or opinion of counsel; provided however that such costs of counsel are reasonable and documented. Before the Paying Agent acts or refrains from acting hereunder, it may require and shall be entitled to receive an Officer's Certificate and/or an opinion of counsel, the costs of which (including the Paying Agent's reasonable and documented attorney's fees and expenses) shall be paid by the party requesting that the Paying Agent act or refrain from acting. The Paying Agent shall not be liable for any action it takes or omits to take in good faith in reliance on such Officer's Certificate or opinion of counsel.

(I) The Paying Agent shall not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, entitlement order, approval or other paper or document.

(J) Except as provided expressly in Section 8.2(G) hereof, the Paying Agent shall have no obligation to invest and reinvest any cash held in any of the accounts hereunder in the absence of a timely and specific written investment direction pursuant to the terms of this Agreement. In no event shall the Paying Agent be liable for the selection of investments or for investment losses incurred thereon. The Paying Agent shall have no liability in respect of losses incurred as a result of the liquidation of any investment prior to its stated maturity or the failure of another party to timely provide a written investment direction pursuant to the terms of this Agreement. Investments in any Permitted Investments are not obligations or recommendations of, or endorsed or guaranteed by, the Paying Agent or its Affiliates. The Paying Agent and its Affiliates may provide various services for Permitted Investments and may be paid fees for such services. Each party hereto understands and agrees that proceeds of the sale of investments of the funds in any account maintained with the Paying Agent will be deposited by the Paying Agent into the applicable accounts on the Business Day on which the Paying Agent receives appropriate instructions hereunder, if such instructions received by the Paying Agent prior to the deadline for same day sale of such investments. If the Paying Agent receives such instructions after the applicable deadline for the sale of such investments, such proceeds will be deposited by the Paying Agent into the applicable account on the next succeeding Business Day. The parties hereto agree that notifications after the completion of purchases and sales of investments shall not be provided by the Paying Agent hereunder, and the Paying Agent shall make available, upon request and in lieu of notifications, periodic account statements that reflect such investment activity. No statement shall be made available if no investment activity has occurred during such period.

(K) The Paying Agent may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through agents, attorneys, affiliates, custodians or nominees appointed with due care, and shall not be responsible for any action or omission on the part of any agent, attorney, custodian or nominee so appointed.

(L) Any corporation or entity into which the Paying Agent may be merged or converted or with which it may be consolidated, or any corporation or entity resulting from any merger, conversion or consolidation to which the Paying Agent shall be a party, or any corporation or entity succeeding to the business of the Paying Agent shall be the successor of the Paying Agent hereunder without the execution or filing of any paper with any party hereto or any further act on the part of any of the parties hereto except where an instrument of transfer or assignment is required by law to effect such succession, anything herein to the contrary notwithstanding.

(M) In no event shall the Paying Agent be liable for punitive, special, indirect or consequential loss or damage of any kind whatsoever (including lost profits), even if the Paying Agent has been advised of such loss or damage and regardless of the form of action.

(N) In no event shall the Paying Agent be liable for any failure or delay in the performance of its obligations under this Agreement or any related documents because of circumstances beyond the Paying Agent's control, including a failure, termination, or suspension of a clearing house, securities depository, settlement system or central payment system in any applicable part of the world or acts of God, flood, war (whether declared or undeclared), civil or military disturbances or hostilities, nuclear or natural catastrophes, political unrest, explosion, severe weather or accident, earthquake, terrorism, fire, riot, labor disturbances, strikes or work stoppages for any reason, embargo, government action, including any laws, ordinances, regulations or the like (whether domestic, federal, state, county or municipal or foreign) which delay, restrict or prohibit the providing of the services contemplated by this Agreement or any other Transaction Document or any related documents, or the unavailability of communications or computer facilities, the failure of equipment or interruption of communications or computer facilities, or the unavailability of the Federal Reserve Bank wire or telex or other wire or communication facility, or any other causes beyond the Paying Agent's control whether or not of the same class or kind as specified above.

(O) Knowledge of the Paying Agent shall not be attributed or imputed to any affiliate, line of business, or other division of Wells Fargo Bank, National Association (and vice versa).

(P) The right of the Paying Agent to perform any permissive or discretionary act enumerated in this Agreement or any other Transaction Document shall not be construed as a duty.

(Q) Absent gross negligence, bad faith or willful misconduct (in each case as conclusively determined by a court of competent jurisdiction pursuant to a final order or verdict not subject to appeal) on the part of, Wells Fargo Bank, National Association in acting in each of its capacities under this Agreement and the related Transaction Documents shall not constitute impermissible self-dealing or a conflict of interest, and the parties hereto hereby waive any conflict of interest presented by such service. Wells Fargo Bank, National Association may act as agent for, provide banking, custodial, collateral agency, verification and other services to, and generally engage in any kind of business, with others to the same extent as if Wells Fargo Bank, National Association, were not a party hereto. Nothing in this

Agreement or any other Transaction Document shall in any way be deemed to restrict the right of Wells Fargo Bank, National Association to perform such services for any other person or entity, and the performance of such services for others will not, in and of itself, be deemed to violate or give rise to any duty or obligation to any party hereto not specifically undertaken by Wells Fargo Bank, National Association hereunder or under any other Transaction Document.

(R) The Paying Agent shall not be responsible for preparing or filing any reports or returns relating to federal, state or local income taxes with respect to this Agreement or any other Transaction Document other than for the Paying Agent's compensation.

(S) The Paying Agent shall not be deemed to have notice or knowledge of, or be required to act based on, any event or information (including any Event of Default, Amortization Event or any other default and including the sending of any notice) unless a Responsible Officer of the Paying Agent has actual knowledge or shall have received written notice thereof. In the absence of such actual knowledge or receipt of such notice, the Paying Agent may conclusively assume that none of such events have occurred and the Paying Agent shall not have any obligation or duty to determine whether any Event of Default, Amortization Event or any other default has occurred. The delivery or availability of reports or other documents to the Paying Agent (including publicly available reports or documents) shall not constitute actual or constructive knowledge or notice of information contained in or determinable from those reports or documents, except for such information provided to be delivered under this Agreement to the Paying Agent; and knowledge or information acquired by any Responsible Officer of the Paying Agent in any of its respective capacities hereunder or under any other document related to this transaction, provided that the foregoing shall not relieve the Person acting as Paying Agent, as applicable, from its obligations to perform or responsibility for the manner of performance of its duties in a separate capacity under the Transaction Documents.

(T) Except as otherwise provided in this Article IX:

(i) except as expressly required pursuant to the terms of this Agreement, the Paying Agent shall not be required to make any initial or periodic examination of any documents or records for the purpose of establishing the presence or absence of defects, the compliance by the Borrower or any other Person with its representations and warranties or for any other purpose except as expressly required pursuant to the terms of this Agreement;

(ii) whether or not therein expressly so provided, every provision of this Agreement relating to the conduct or affecting the liability of or affording protection to the Paying Agent shall be subject to the provisions of this Article IX;

(iii) the Paying Agent shall not have any liability with respect to the acts or omissions of any other Person, and may assume compliance by each of the other parties to the Transaction Documents with their obligations thereunder unless a Responsible Officer of the Paying Agent is notified of any such noncompliance in writing;

(iv) under no circumstances shall the Paying Agent be personally liable for any representation, warranty, covenant, obligation or indebtedness of any other party to the Transaction Documents (other than Wells Fargo Bank, National Association in any of its capacities under the Transaction Documents);

(v) the Paying Agent shall not be held responsible or liable for or in respect of, and makes no representation or warranty with respect to (A) any recording, filing or depositing of this Agreement or any agreement referred to herein or any financing statement, continuation statement or amendments to a financing statement or continuation statement evidencing a security interest, or to see to the maintenance of any such recording or filing or depositing or to any re-recording, refiling or redepositing of any thereof, or (B) the existence, genuineness, value or protection of any collateral, for the legality, enforceability, effectiveness or sufficiency of the Transaction Documents or for the monitoring, creation, maintenance, enforceability, existence, status, validity, priority or perfection of any security interest, lien or collateral or the performance of any collateral; and

(vi) the Paying Agent shall not be required to take any action hereunder if it shall have reasonably determined, or shall have been advised by its counsel, that such action is likely to result in liability on the part of the Paying Agent or is contrary to the terms hereof or any other Transaction Document to which it is a party or is not in accordance with applicable laws.

(U) It is expressly understood and agreed by the parties hereto that the Paying Agent (i) has not provided nor will it provide in the future, any advice, counsel or opinion regarding the tax, financial, investment, securities law or insurance implications and consequences of the consummation, funding and ongoing administration of this Agreement and the matters contemplated herein, including, but not limited to, income, gift and estate tax issues, and the initial and ongoing selection and monitoring of financing arrangements, (ii) has not made any investigation as to the accuracy of any representations, warranties or other obligations of any other party to this Agreement or the other Transaction Documents or any other document or instrument and shall not have any liability in connection therewith and (iii) has not prepared or verified, or shall be responsible or liable for, any information, disclosure or other statement in any disclosure or offering document delivered in connection with this Agreement or the other Transaction Documents.

(V) The recitals contained herein shall not be taken as the statements of the Paying Agent, and the Paying Agent does not assume any responsibility for their correctness. The Paying Agent does not make any representation regarding the validity, sufficiency or enforceability of this Agreement or the other Transaction Documents or as to the perfection or priority of any security interest therein, except as expressly set forth in Section 9.2(C).

(W) In the event that (i) the Paying Agent is unsure as to the application or interpretation of any provision of this Agreement or any other Transaction Document, (ii) this Agreement is silent or is incomplete as to the course of action that the Paying Agent is required or permitted to take with respect to a particular set of facts, or (iii) more than one methodology can be used to make any determination or calculation to be performed by the Paying Agent hereunder, then the Paying Agent may give written notice to the Administrative

Agent (with a copy to each Lender) requesting written instruction and, to the extent that the Paying Agent acts or refrains from acting in good faith in accordance with any such written instruction, the Paying Agent shall not be personally liable to any Person. If the Paying Agent shall not have received such written instruction within ten (10) calendar days of delivery of notice to the Administrative Agent (or within such shorter period of time as may reasonably be specified in such notice or as may be necessary under the circumstances) it may, but shall be under no duty to, take or refrain from taking any action, and shall have no liability to any Person for such action or inaction.

(X) The Paying Agent shall be under no obligation to exercise any of the rights or powers vested in it by this Agreement or any other Transaction Document or to institute, conduct or defend any litigation hereunder or thereunder or in relation hereto or thereto at the request, order or direction of any of any Person, unless such Person with the requisite authority shall have offered to the Paying Agent security or indemnity satisfactory to the Paying Agent against the costs, expenses and liabilities (including the reasonable and documented fees and expenses of the Paying Agent's counsel and agents) which may be incurred therein or thereby.

(Y) The Paying Agent shall have no duty (i) to maintain or monitor any insurance or (ii) to see to the payment or discharge of any tax, assessment, or other governmental charge or any lien or encumbrance of any kind owing with respect to, assessed or levied against, any part of the Collateral.

(Z) Notwithstanding anything to the contrary in this Agreement, the Paying Agent shall not be required to take any action that is not in accordance with applicable law.

(AA) The rights, benefits, protections, immunities and indemnities afforded the Paying Agent hereunder shall extend to the Paying Agent (in any of its capacities) under any other Transaction Document or related agreement as though set forth therein in their entirety *mutatis mutandis*.

#### *Section 9.5. Indemnification*

. The Borrower and the Facility Administrator (for so long as the Facility Administrator is an Affiliate of the Borrower) agree, jointly and severally, to reimburse and indemnify, defend and hold harmless the Paying Agent, in its individual and representative capacities, and its officers, directors, agents and employees (collectively, the “*Paying Agent Indemnified Parties*”) against any and all fees, costs, damages, losses, suits, claims, judgments, liabilities, obligations, penalties, actions, expenses (including the reasonable and documented fees and expenses of counsel and court costs) or disbursements of any kind and nature whatsoever, regardless of the merit, which may be imposed on, incurred by or demanded, claimed or asserted against any of them in any way directly or indirectly relating to or arising out of or in connection with this Agreement or any other Transaction Document or any other document delivered in connection herewith or therewith or the transactions contemplated hereby or thereby, or the enforcement of any of the terms hereof or thereof or of any such other documents, including in connection with any enforcement (including any action, claim or suit brought) by any Paying Agent Indemnified Party of its rights hereunder or thereunder (including rights to indemnification), *provided*, that none of the Borrower or the Facility Administrator shall be liable for any of the foregoing to the extent arising from the gross negligence, willful misconduct or bad faith of the Paying Agent, as determined by the final judgment of a court of competent jurisdiction, no longer subject to appeal or review. The provisions of this Section 9.5 shall survive the discharge, termination or assignment of this Agreement or any related agreement or the earlier of the resignation or removal of the Paying Agent. This Section 9.5 shall not apply with respect to Taxes other than any Taxes that represent losses, liabilities, claims and damages arising from any non-Tax Proceeding. The Paying Agent Indemnified Parties’ reasonable and documented expenses are intended as expenses of administration.

#### *Section 9.6. Successor Paying Agent*

. The Paying Agent may resign at any time by giving at least thirty (30) days’ prior written notice thereof to the other parties hereto; *provided*, that no such resignation shall become effective until a successor Paying Agent that is satisfactory to the Administrative Agent and, to the extent no Event of Default or Amortization Event has occurred and is continuing, the Borrower, has been appointed hereunder. The Paying Agent may be removed at any time for cause by at least thirty (30) days’ prior written notice received by the Paying Agent from the Administrative Agent. Upon any such resignation or removal, the Administrative Agent shall have the right to appoint a successor Paying Agent that is satisfactory to the Borrower (unless an Event of Default or Amortization Event has occurred and is continuing). If no successor Paying Agent shall have been so appointed and shall have accepted such appointment within thirty (30) days after the exiting Paying Agent’s giving notice of resignation or receipt of notice of removal, then the exiting Paying Agent may, at the sole expense (including all fees, costs and expenses (including attorneys’ reasonable and documented fees and expenses) incurred in connection with such petition) of the Borrower, petition a court of competent jurisdiction to appoint a successor Paying Agent. Upon the acceptance of any appointment as the Paying Agent hereunder by a successor Paying Agent, such successor Paying Agent shall thereupon succeed to and become vested with all the rights, powers, privileges and duties of the exiting Paying Agent, and the exiting Paying Agent shall be discharged from its duties and obligations hereunder. After any exiting Paying Agent’s resignation hereunder, the provisions of this Article IX shall continue in effect for its benefit in respect of any actions taken or omitted to be taken by it while it was acting as the Paying Agent hereunder. If the Paying Agent consolidates with, merges or converts

into, or transfers or sells all or substantially all its corporate trust business or assets to, another Person, the resulting, surviving or transferee Person without any further act shall be the successor Paying Agent.

#### *Section 10.5. Indemnification*

. The Borrower agrees to indemnify the Administrative Agent, the Paying Agent, the Successor Facility Administrator, the Verification Agent, each Lender, and their respective Related Parties (collectively, the “*Indemnitees*”) from and hold each of them harmless against any and all losses, liabilities, claims, damages or expenses (including court costs and fees and expenses of counsel and of enforcing the Borrower’s indemnification obligations hereunder) to which such Indemnatee may become subject arising out of, resulting from or in connection with any claim, litigation, investigation or proceeding (each, a “*Proceeding*” (including any Proceedings under environmental laws)) relating to the Transaction Documents or any other agreement, document, instrument or transaction related thereto, the use of proceeds thereof and the transactions contemplated hereby, regardless of whether any Indemnatee is a party thereto and whether or not such Proceedings are brought by the Borrower, its equity holders, affiliates, creditors or any other third party, and to reimburse each Indemnatee upon written demand therefor (together with reasonable back-up documentation supporting such reimbursement request) for any reasonable and documented legal or other out-of-pocket expenses incurred in connection with investigating or defending any of the foregoing of one law firm to all such Indemnitees, taken as a whole, and, in the case of a conflict of interest, of one additional counsel to the affected Indemnatee taken as a whole (and, if reasonably necessary, of one local counsel and/or one regulatory counsel in any material relevant jurisdiction); *provided*, that the foregoing indemnity and reimbursement obligation will not, as to any Indemnatee, apply to (A) losses, claims, damages, liabilities or related expenses (i) to the extent they are found in a final non-appealable judgment of a court of competent jurisdiction to arise from the willful misconduct, bad faith or gross negligence of, or with respect to Indemnitees other than the Paying Agent or the Verification Agent, material breach of the Transaction Documents by, such Indemnatee or any of its affiliates or controlling persons or any of the officers, directors, employees, advisors or agents of any of the foregoing or (ii) arising out of any claim, litigation, investigation or proceeding that does not involve an act or omission of the Borrower or any of their Affiliates and that is brought by such Indemnatee against another Indemnatee (other than an Indemnatee acting in its capacity as Paying Agent, agent, arranger or any other similar role in connection with the Transaction Documents) or (B) any settlement entered into by such Indemnatee without the Borrower’s written consent (such consent not to be unreasonably withheld or delayed). This Section 10.5 shall not apply with respect to Taxes other than any Taxes that represent losses, liabilities, claims and damages arising from any non-Tax Proceeding. The provisions of this Section 10.5 shall survive the discharge, termination or assignment of this Agreement or any related agreement or the earlier of the resignation or removal of the Paying Agent or the Verification Agent. Notwithstanding anything to the contrary in this Section 10.5, the provisions of this Section shall be applied without prejudice to, and the provisions shall not have the effect of diminishing, the rights of the Paying Agent and any Paying Agent Indemnified Parties under Section 9.5 of this Agreement or any other provision of any Transaction Document providing for the indemnification of any such Persons.

#### *Section 10.6. Costs, Expenses and Taxes*

. The Borrower agrees to pay all reasonable and documented costs and expenses in connection with the preparation, execution, delivery, filing, recording, administration, modification, amendment or waiver of this Agreement, the Loan Notes and the other documents to be delivered hereunder, including the reasonable fees and out-of-pocket expenses of counsel for the Administrative Agent, any Lender and the Paying Agent with respect thereto and with respect to advising the Administrative Agent, such Lender and the Paying Agent as to their respective rights and responsibilities under this Agreement and the other Transaction Documents. The Borrower further agrees to pay on demand all

costs and expenses, if any (including reasonable and documented counsel fees and expenses) (A) in connection with the enforcement (whether through negotiations, legal proceedings or otherwise) of this Agreement, the Loan Notes and the other documents to be delivered hereunder and (B) incurred by the Administrative Agent, any Lender or the Paying Agent in connection with the transactions described herein and in the other Transaction Documents, or any potential Takeout Transaction, including in any case reasonable and documented counsel fees and expenses in connection with the enforcement of rights under this Section 10.6. Without limiting the foregoing, the Borrower acknowledges and agrees that the Administrative Agent or its counsel may at any time after an Event of Default shall have occurred and be continuing, engage professional consultants selected by the Administrative Agent to conduct additional due diligence with respect to the transactions contemplated hereby, including (A) review and independently assess the existing methodology employed by the Borrower in allocating Collections with respect to the Collateral, assess the reasonableness of the methodology for the equitable allocation of those Collections and make any recommendations to amend the methodology, if appropriate, (B) review the financial forecasts submitted by the Borrower to the Administrative Agent and assess the reasonableness and feasibility of those forecasts and make any recommendations based on that review, if appropriate, and (C) verify the asset base of the Borrower and the Borrower's valuation of their assets, as well as certain matters related thereto. The reasonable and documented fees and expenses of such professional consultants, in accordance with the provisions of this Section 10.6, shall be at the sole cost and expense of the Borrower. In addition, the Borrower shall pay any and all Other Taxes and agrees to save the Administrative Agent, the Paying Agent and each Lender harmless from and against any and all liabilities with respect to or resulting from any delay in paying or omission to pay such Other Taxes. Notwithstanding anything to the contrary set forth in this Section 10.6, the Borrower shall not be required to pay the costs or expenses of the Lenders following an Event of Default if such costs or expenses are related to disputes among the Lenders.

*Section 10.7. Right of Set-off; Ratable Payments; Relations Among Lenders*

(A) Upon the occurrence and during the continuance of any Event of Default, and subject to the prior payment of Obligations owed to the Paying Agent, each of the Administrative Agent and the Lenders are hereby authorized at any time and from time to time, to the fullest extent permitted by law, to set off and apply any and all deposits (general or special, time or demand, provisional or final) at any time held by and other indebtedness incurred pursuant to this Agreement at any time owing to the Administrative Agent or such Lender to or for the credit or the account of the Borrower against any and all of the obligations of the Borrower now or hereafter existing under this Agreement and the Loan Notes, whether or not the Administrative Agent or such Lenders shall have made any demand under this Agreement or the Loan Notes and although such obligations may be unmatured. The Administrative Agent and each Lender agrees promptly to notify the Borrower after any such set-off and application; *provided* that the failure to give such notice shall not affect the validity of such set-off and application. The rights of the Administrative Agent and the Lenders under this Section 10.7(A) are in addition to other rights and remedies (including other rights of set-off) which the Administrative Agent and the Lenders may have.

(B) If any Lender, whether by setoff or otherwise, has payment made to it upon its Advances in a greater proportion than that received by any other Lender, such other Lender agrees, promptly upon demand, to purchase a portion of the Advances held by the Lenders so that after such purchase each Lender will hold its ratable share of Advances. If any Lender, whether in connection with setoff or amounts which might be subject to setoff or otherwise, receives collateral or other protection for its

Obligations or such amounts which may be subject to setoff, such Lender agrees, promptly upon written demand, to take such action necessary such that all Lenders share in the benefits of such collateral ratably in proportion to the obligations owing to them. In case any such payment is disturbed by legal process, or otherwise, appropriate further adjustments shall be made.

(C) Except with respect to the exercise of set-off rights of any Lender in accordance with Section 10.7(A), the proceeds of which are applied in accordance with this Agreement, each Lender agrees that it will not take any action, nor institute any actions or proceedings, against the Borrower or any other obligor hereunder or with respect to any Collateral or Transaction Document, without the prior written consent of the other Lenders or, as may be provided in this Agreement or the other Transaction Documents, at the direction of the Administrative Agent.

(D) The Lenders are not partners or co-venturers, and no Lender shall be liable for the acts or omissions of, or (except as otherwise set forth herein in case of the Administrative Agent) authorized to act for, any other Lender.

*Section 10.8. Binding Effect; Assignment*

(A) This Agreement shall be binding upon and inure to the benefit of the Borrower, the Paying Agent, the Verification Agent, the Facility Administrator and the Administrative Agent and each Lender, and their respective successors and assigns, except that the Borrower shall not have the right assign to its rights hereunder or any interest herein without the prior written consent of the Administrative Agent and the Lenders, and any assignment by Borrower in violation of this Section 10.8 shall be null and void. Any Lender may at any time, without the consent of the Borrower or the Administrative Agent, assign all or any portion of its rights and obligations under this Agreement and any Loan Note to a Federal Reserve Bank and each Conduit Lender may assign its rights and obligations under this Agreement to a Program Support Provider; *provided*, that no such assignment or pledge shall release the transferor Lender from its obligations hereunder. Each Lender may assign to one or more banks or other entities all or any part or portion of, or may grant participations to one or more banks or other entities in all or any part or portion of its rights and obligations hereunder (including, without limitation, its Commitment, its Loan Notes or its Advances); *provided* that during the Availability Period, no Lender may transfer or assign any portion of its rights and obligations under this Agreement or any Loan Note to a Disqualified Lender; *provided further* that each such assignment (A) shall be substantially in the form of Exhibit F hereto or any other form reasonably acceptable to the Administrative Agent and (B) shall either be made (i) to a Permitted Assignee or (ii) to a Person that is acceptable to the Administrative Agent in its reasonable discretion (such consent not to be unreasonably withheld or delayed) unless an Event of Default or Amortization Event shall have occurred and be continuing.

(B) If any assignment or participation is made to a Disqualified Lender in violation of this Section 10.8, the Borrower may upon notice to the applicable Disqualified Lender and the Administrative Agent, (A) purchase or prepay the Advances held by such Disqualified Lender by paying the lesser of (x) the principal amount thereof and (y) the amount that such Disqualified Lender paid to acquire such Advances, in each case plus accrued interest, accrued fees and all other amounts (other than principal amounts) payable to it hereunder and/or (B) require such Disqualified Lender to assign, without recourse (in accordance with and subject to the restrictions contained in this Section 10.8), all of its interest, rights and obligations under this Agreement to one or more banks or other entities at the lesser of (x) the principal amount thereof and (y) the amount that such Disqualified

Lender paid to acquire such interests, rights and obligations, in each case plus accrued interest, accrued fees and all other amounts (other than principal amounts) payable to it hereunder.

Disqualified Lenders (A) will not, absent an Event of Default or consent from the Borrower (x) have the right to receive financial reports that are not publicly available, Facility Administrator Reports or other reports or confidential information provided to Lenders by the Borrower or the Administrative Agent (other than Tax reporting information with respect to the Advances), (y) attend or participate in meetings with the Borrower attended by the Lenders and the Administrative Agent, or (z) access any electronic site maintained by the Borrower or Administrative Agent to provide Lenders with confidential information or confidential communications from counsel to or financial advisors of the Administrative Agent and (B) (x) for purposes of any consent to any amendment, waiver or modification of, or any action under, and for the purpose of any direction to the Administrative Agent or any Lender to undertake any action (or refrain from taking any action) under this Agreement or any other Transaction Document, each Disqualified Lender will be deemed to have consented in the same proportion as the Lenders that are not Disqualified Lenders consented to such matter, and (y) for purposes of voting on any plan of reorganization or plan of liquidation, each Disqualified Lender party hereto hereby agrees (1) not to vote on such plan, (2) if such Disqualified Lender does vote on such plan notwithstanding the restriction in the foregoing clause (1), such vote will be deemed not to be in good faith and shall be “designated” pursuant to Section 1126(e) of the Bankruptcy Code (or any similar provision in any other debtor relief laws), and such vote shall not be counted in determining whether the applicable class has accepted or rejected such plan in accordance with Section 1126(c) of the Bankruptcy Code (or any similar provision in any other debtor relief laws) and (3) not to contest any request by any party for a determination by a bankruptcy court (or other applicable court of competent jurisdiction) effectuating the foregoing clause (2).

(C) Upon, and to the extent of, any assignment (unless otherwise stated therein) made by any Lender hereunder, the assignee or purchaser of such assignment shall be a Lender hereunder for all purposes of this Agreement and shall have all the rights, benefits and obligations (including the obligation to provide documentation pursuant to Section 2.17(G)) of a Lender hereunder. Each Funding Agent, acting solely for this purpose as an agent of the Borrower, shall maintain at one of its offices a register (the “Register”) for the recordation of the names and addresses of the Lenders in its Lender Group, the outstanding principal amounts (and accrued interest) of the Advances owing to each Lender in its Lender Group pursuant to the terms hereof from time to time and any assignment of such outstanding Advances. The entries in the Register shall be conclusive absent manifest error, and the Borrower, the Administrative Agent and the Lenders shall treat each Person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement. The Register shall be available for inspection by the Borrower, the Paying Agent and any Lender, at any reasonable time and from time to time upon reasonable prior notice.

(D) Any Lender may, without the consent of the Borrower, sell participation interests in its Advances and obligations hereunder (each such recipient of a participation a “Participant”); *provided* that after giving effect to the sale of such participation, such Lender’s obligations hereunder and rights to consent to any waiver hereunder or amendment hereof shall remain unchanged, such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations, all amounts payable to such Lender hereunder and all rights to consent to any waiver hereunder or amendment hereof shall be determined as if such Lender had not sold such participation interest, and the Borrower and the Administrative Agent and the other parties hereto shall continue to deal solely

and directly with such Lender and not be obligated to deal with such participant. The Participant shall have no right to affect such Lender's vote or action with respect to any matter requiring such Lender's vote or action under this Agreement. Each Lender that sells a participation shall, acting solely for this purpose as an agent of the Borrower, maintain a register on which it enters the name and address of each Participant and the outstanding principal amounts (and accrued interest) of each Participant's interest in the Advances or other obligations under the Transaction Documents (the "*Participant Register*"); *provided* that no Lender shall have any obligation to disclose all or any portion of the Participant Register (including the identity of any Participant or any information relating to a Participant's interest in any commitments, loans, letters of credit or its other obligations under any Transaction Document) to any Person except to the extent that such disclosure is necessary to establish that such commitment, loan, or other obligation is in registered form under Section 5f.103-1(c) of the United States Treasury Regulations. The entries in the Participant Register shall be conclusive absent manifest error, and such Lender shall treat each Person whose name is recorded in the Participant Register as the owner of such participation for all purposes of this Agreement notwithstanding any notice to the contrary. For the avoidance of doubt, the Administrative Agent shall have no responsibility for maintaining a Participant Register. Each recipient of a participation shall, to the fullest extent permitted by law, have the same rights, benefits and obligations (including the obligation to provide documentation pursuant to Section 2.17(G)), hereunder with respect to the rights and benefits so participated as it would have if it were a Lender hereunder, except that no Participant shall be entitled to receive any greater payment under Sections 2.11 or 2.17 than its participating Lender would have been entitled to receive, except to the extent such entitlement to receive a greater payment results from a Change in Law that occurs after the Participant acquired the applicable participation.

(E) Notwithstanding any other provision of this Agreement to the contrary, (i) a Lender may pledge as collateral, or grant a security interest in, all or any portion of its rights in, to and under this Agreement to a security trustee in connection with the funding by such Lender of Advances without the consent of the Borrower; *provided* that no such pledge or grant shall release such Lender from its obligations under this Agreement and (ii) a Conduit Lender may at any time, without any requirement to obtain the consent of the Administrative Agent or the Borrower, pledge or grant a security interest in all or any portion of its rights (including, without limitation, rights to payment of capital and yield) under this Agreement to a collateral agent or trustee for its commercial paper program.

(F) In connection with any assignment of rights and obligations of any Defaulting Lender hereunder, no such assignment shall be effective unless and until, in addition to the other conditions thereto set forth herein, the parties to the assignment shall make such additional payments to the Administrative Agent in an aggregate amount sufficient, upon distribution thereof as appropriate (which may be outright payment, purchases by the assignee of participations or subparticipations, or other compensating actions, including funding, with the consent of the Borrower and the Administrative Agent, the applicable pro rata share of Advances previously requested but not funded by the Defaulting Lender, to each of which the applicable assignee and assignor hereby irrevocably consent), to (x) pay and satisfy in full all payment liabilities then owed by such Defaulting Lender to the Administrative Agent, or any Lender hereunder (and interest accrued thereon) and (y) acquire (and fund as appropriate) its full pro rata share of all Advances in accordance with its Lender Group Percentage. Notwithstanding the foregoing, in the event that any assignment of rights and obligations of any Defaulting Lender hereunder shall become effective under Applicable Law without

compliance with the provisions of this clause (F), then the assignee of such interest shall be deemed to be a Defaulting Lender for all purposes of this Agreement until such compliance occurs.

*Section 10.9. Governing Law*

. This Agreement shall, in accordance with Section 5-1401 of the General Obligations Law of the State of New York, be governed by, and construed in accordance with, the laws of the State of New York, without regard to conflicts of law principles thereof that would call for the application of the laws of any other jurisdiction.

*Section 10.10. Jurisdiction*

. Any legal action or proceeding with respect to this Agreement may be brought in the courts of the State of New York (New York County) or of the United States for the Southern District of New York, and by execution and delivery of this agreement, each of the parties hereto consents, for itself and in respect of its property, to the exclusive jurisdiction of those courts. Each of the parties hereto irrevocably waives any objection, including any objection to the laying of venue or based on the grounds of forum non conveniens, or any legal process with respect to itself or any of its property, which it may now or hereafter have to the bringing of any action or proceeding in such jurisdiction in respect of this Agreement or any document related hereto. Each of the parties hereto waives personal service of any summons, complaint or other process, which may be made by any other means permitted by New York law.

*Section 10.11. Waiver of Jury Trial*

. All parties hereunder hereby knowingly, voluntarily and intentionally waive any rights they may have to a trial by jury in respect of any litigation based hereon, or arising out of, under, or in connection with, this Agreement, or any course of conduct, course of dealing, statements (whether oral or written) or actions of the parties in connection herewith or therewith. All parties acknowledge and agree that they have received full and significant consideration for this provision and that this provision is a material inducement for all parties to enter into this Agreement.

*Section 10.12. Section Headings*

. All section headings are inserted for convenience of reference only and shall not affect any construction or interpretation of this Agreement.

*Section 10.13. Tax Characterization*

. The parties hereto intend for the transactions effected hereunder to constitute a loan for U.S. federal income tax purposes.

*Section 10.14. Execution*

. This Agreement may be executed in any number of counterparts and by different parties hereto in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Delivery of an executed counterpart of a signature page to this Agreement by facsimile or by e-mail in portable document format (.pdf) shall be effective as delivery of a manually executed counterpart of this Agreement.

*Section 10.15. Limitations on Liability*

. None of the members, managers, general or limited partners, officers, employees, agents, shareholders, directors, Affiliates or holders of limited liability company interests of or in the Borrower shall be under any liability to the Administrative Agent or the Lenders, respectively, any of their successors or assigns, or any other Person for any action taken or for refraining from the taking of any action in such capacities or otherwise pursuant to this Agreement or for any obligation or covenant under this Agreement, it being understood that this Agreement and the obligations created hereunder shall be, to the fullest extent permitted under applicable law, with respect to the Borrower, solely the limited liability company obligations of the Borrower. The Borrower and any member, manager, partner, officer, employee, agent, shareholder, director, Affiliate or holder of a limited liability company interest of or in the Borrower may rely in good faith on any document of any kind prima facie properly executed and submitted by any Person (other than the Borrower) respecting any matters arising hereunder.

*Section 10.16. Confidentiality*

. (A) Except as otherwise provided herein, the Fee Letters (including such information set forth in any engagement letter, term sheet or proposal prior to the Original Closing Date that contains fees similar in nature to those in the Fee Letters) (collectively, “Confidential Information”) are confidential. Each of the Borrower, the Facility Administrator, the Paying Agent and the Verification Agent agrees:

(i) to keep all Confidential Information confidential and to disclose Confidential Information only to those Affiliates, officers, employees, agents, accountants, equity holders, legal counsel and other representatives of the Borrower or its Affiliates (collectively, “Representatives”) who have a need to know such Confidential Information for the purpose of assisting in the negotiation, completion and administration of this Facility;

(ii) to use the Confidential Information only in connection with the Facility and not for any other purpose; and

(iii) to maintain and keep in force procedures reasonably designed to cause its Representatives to comply with these provisions and to be responsible for any failure of any

Representative to follow those procedures. The provisions of this section 10.16(A) shall not apply to Confidential Information that (a) has been approved for release by written authorization of the appropriate party, or (b) is or hereafter becomes (through a source other than the Borrower, the Facility Administrator, the Paying Agent, the Verification Agent or their respective Affiliates or Representatives) generally available to the public and shall not prohibit the disclosure of Confidential Information to the extent required by applicable Law or by any Governmental Authority or to the extent necessary in connection with the enforcement of any Transaction Document.

The Borrower and the Facility Administrator agree not to provide copies of the Transaction Documents to any prospective investor in, or prospective lender to, the Borrower and the Facility Administrator without the prior written consent of the Administrative Agent, which shall not be unreasonably withheld, delayed or conditioned. For the avoidance of doubt, Borrower and the Facility Administrator or any other affiliate of Parent may provide copies of the Transaction Documents to any potential investor or equity holder in Parent or its affiliates, *provided* that each such Person shall have been instructed to keep the same confidential in accordance with this Section 10.16.

(B) Each Lender, each Funding Agent, and the Administrative Agent agrees to maintain the confidentiality of all nonpublic information with respect to the parties herein or any other matters furnished or delivered to it pursuant to or in connection with this Agreement or any other Transaction Document; *provided*, that such information may be disclosed (i) to such party's Affiliates or such party's or its Affiliates' officers, directors, employees, agents, accountants, legal counsel and other representatives (collectively "*Lender Representatives*"), in each case, who have a need to know such information for the purpose of assisting in the negotiation, completion and administration of the Facility and on a confidential basis, (ii) to any permitted assignee of or participant in, or any prospective assignee of or participant in, the Facility or any of its rights or obligations under this Agreement, in each case on a confidential basis, (iii) to any financing source, dealer, hedge counterparty or other similar party in connection with financing or risk management activities related to the Facility, (iv) to any Commercial Paper rating agency (including by means of a password protected internet website maintained in connection with Rule 17g-5), (v) to the extent required by applicable Law or by any Governmental Authority, and (vi) to the extent necessary in connection with the enforcement of any Transaction Document.

The provisions of this Section 10.16(B) shall not apply to information that (i) is or hereafter becomes (through a source other than the applicable Lender, Funding Agent or the Administrative Agent or any Lender Representative associated with such party) generally available to the public, (ii) was rightfully known to the applicable Lender, applicable Funding Agent or the Administrative Agent or any Lender Representative or was rightfully in their possession prior to the date of its disclosure pursuant to this Agreement, (iii) becomes available to the applicable Lender, applicable Funding Agent or the Administrative Agent or any Lender Representative from a third party unless to their knowledge such third party disclosed such information in breach of an obligation of confidentiality to the applicable Lender, applicable Funding Agent or the Administrative Agent or any Lender Representative, (iv) has been approved for release by written authorization of the parties whose information is proposed to be disclosed, or (v) has been independently developed or acquired by any Lender, any Funding Agent or the Administrative Agent or any Lender Representative without violating this Agreement. The provisions of this Section 10.16 shall not prohibit any Lender, any

Funding Agent or the Administrative Agent from filing with or making available to any judicial, governmental or regulatory agency or providing to any Person with standing any information or other documents with respect to the Facility as may be required by applicable Law or requested by such judicial, governmental or regulatory agency.

*Section 10.17. Limited Recourse*

. All amounts payable by the Borrower on or in respect of the Obligations shall constitute limited recourse obligations of the Borrower secured by, and payable solely from and to the extent of, the Collateral; *provided* that (A) the foregoing shall not limit in any manner the ability of the Administrative Agent or any other Lender to seek specific performance of any Obligation (other than the payment of a monetary obligation in excess of the amount payable solely from the Collateral), (B) the provisions of this Section 10.17 shall not limit the right of any Person to name the Borrower as party defendant in any action, suit or in the exercise of any other remedy under this Agreement or the other Transaction Documents and (C) when any portion of the Collateral is transferred in a transfer permitted under and in accordance with this Agreement, the security interest in and Lien on such Collateral shall automatically be released, and the Lenders under this Agreement will no longer have any security interest in, lien on, or claim against such Collateral. No recourse shall be sought or had for the obligations of the Borrower against any Affiliate, director, officer, shareholder, manager or agent of the Borrower other than as specified in the Transaction Documents.

*Section 10.18. Customer Identification - USA Patriot Act Notice*

. The Administrative Agent and each Lender hereby notifies the Borrower and the Facility Administrator that pursuant to the requirements of the USA Patriot Act (Title III of Pub. L. 107-56, signed into law October 26, 2001) (the "*Patriot Act*"), and the Administrative Agent's and each Lender's policies and practices, the Administrative Agent and the Lenders are required to obtain, verify and record certain information and documentation that identifies the Borrower and the Facility Administrator, which information includes the name and address of the Borrower and such other information that will allow the Administrative Agent or such Lender to identify the Borrower in accordance with the Patriot Act.

*Section 10.19. Paying Agent Compliance with Applicable Anti-Terrorism and Anti-Money Laundering Regulations*

. In order to comply with laws, rules, regulations and executive orders in effect from time to time applicable to banking institutions, including, but not limited to those relating to funding of terrorist activities and money laundering, the Paying Agent is required to obtain, verify and record certain information relating to individuals and entities which maintain a business relationship with the Paying Agent. Accordingly, each of the parties agrees to provide to the Paying Agent upon its request from time to time such identifying information and documentation as may be available for such party in order to enable the Paying Agent to comply with such laws, rules, regulations and executive orders in effect from time to time applicable to banking institutions, including, but not limited to those relating to funding of terrorist activities and money laundering.

*Section 10.20. Non-Petition*

. Each party hereto hereby covenants and agrees that it will not institute against or join any other Person in instituting against the Conduit Lender any bankruptcy, reorganization, arrangement, insolvency or liquidation proceedings or other similar proceeding under the laws of the United States or of any state of the United States or of any other jurisdiction prior to the date which is one year and one day after the payment in full of all outstanding indebtedness of the Conduit Lender. The agreements set forth in this Section 10.20 and the parties' respective obligations under this Section 10.20 shall survive the termination of this Agreement.

*Section 10.21. No Recourse*

. (A) Notwithstanding anything to the contrary contained in this Agreement, the parties hereto hereby acknowledge and agree that all transactions with a Conduit Lender hereunder shall be without recourse of any kind to such Conduit Lender. A Conduit Lender shall have no liability or obligation hereunder unless and until such Conduit Lender has received such amounts pursuant to this Agreement. In addition, the parties hereto hereby agree that (i) a Conduit Lender shall have no obligation to pay the parties hereto any amounts constituting fees, reimbursement for expenses or indemnities (collectively, "*Expense Claims*") and such Expense Claims shall not constitute a claim (as defined in Section 101 of Title 11 of the Bankruptcy Code or similar laws of another jurisdiction) against such Conduit Lender, unless or until such Conduit Lender has received amounts sufficient to pay such Expense Claims pursuant to this Agreement and such amounts are not required to pay the outstanding indebtedness of such Conduit Lender and (ii) no recourse shall be sought or had for the obligations of a Conduit Lender hereunder against any Affiliate, director, officer, shareholders, manager or agent of such Conduit Lender.

(B) The agreements set forth in this Section 10.21 and the parties' respective obligations under this Section 10.21 shall survive the termination of this Agreement.

*Section 10.22. [Reserved]*

*Section 10.23. Additional Paying Agent Provisions*

. The parties hereto acknowledge that the Paying Agent shall not be required to act as a "commodity pool operator" as defined in the Commodity Exchange Act, as amended, or be required to undertake regulatory filings related to this Agreement in connection therewith.

*Section 10.24. Acknowledgement Regarding Any Supported QFCs*

. To the extent that the Transaction Documents provide support, through a guarantee or otherwise, for Hedge Agreements or any other agreement or instrument that is a QFC (such support, "QFC Credit Support" and each such QFC a "Supported QFC"), the parties acknowledge and agree as follows with respect to the resolution power of the Federal Deposit Insurance Corporation under the Federal Deposit Insurance Act and Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (together with the regulations promulgated thereunder, the "U.S. Special Resolution Regimes") in respect of such Supported QFC and QFC Credit Support (with the provisions below applicable notwithstanding that the Transaction Documents and any Supported QFC may in fact be stated to be governed by the laws of the State of New York and/or of the United States or any other state of the United States):

In the event a Covered Entity that is party to a Supported QFC (each, a “*Covered Party*”) becomes subject to a proceeding under a U.S. Special Resolution Regime, the transfer of such Supported QFC and the benefit of such QFC Credit Support (and any interest and obligation in or under such Supported QFC and such QFC Credit Support, and any rights in property securing such Supported QFC or such QFC Credit Support) from such Covered Party will be effective to the same extent as the transfer would be effective under the U.S. Special Resolution Regime if the Supported QFC and such QFC Credit Support (and any such interest, obligation and rights in property) were governed by the laws of the United States or a state of the United States. In the event a Covered Party or a BHC Act Affiliate of a Covered Party becomes subject to a proceeding under a U.S. Special Resolution Regime, Default Rights under the Transaction Documents that might otherwise apply to such Supported QFC or any QFC Credit Support that may be exercised against such Covered Party are permitted to be exercised to no greater extent than such Default Rights could be exercised under the U.S. Special Resolution Regime if the Supported QFC and the Transaction Documents were governed by the laws of the United States or a state of the United States.

*Section 10.25. Effect of Amendment and Restatement*

. Each of the parties hereto acknowledges and agrees that, upon the satisfaction of the conditions in Section 3.4, this Agreement amends, restates and in all respects replaces the Original Credit Agreement. Each of the parties hereto acknowledges and agrees that any reference to the “Credit Agreement” in the other Transaction Documents shall mean and be references to the Original Credit Agreement as amended and restated by this Agreement. All indebtedness, liabilities and obligations of the Borrower outstanding under the Original Credit Agreement and the Loan Notes and other documents delivered thereunder shall, to the extent not paid on or prior to the closing and effectiveness of this Agreement as an amended and restated Agreement on the Amendment and Restatement Date, be extended and renewed so as to continue and be Obligations outstanding hereunder. The Original Credit Agreement and other Transaction Documents as in effect prior to the Amendment and Restatement Date shall exclusively govern all acts, representations, qualifications to representations and other rights and duties of any Relevant Party hereunder and thereunder during the period of time on and after the Original Closing Date and prior to the Amendment and Restatement Date.

certain fees and expenses incurred in connection with establishment of the credit facility set forth in this Agreement.

*Section 2.4. Making the Advances*

(A) Except as otherwise provided herein, the Borrower may request that the Lenders make Advances to the Borrower by the delivery to the Administrative Agent, each Funding Agent, the Paying Agent and, so long as it remains a Lender hereunder, the CS Conduit Lender, not later than 1:00 P.M. (New York City time) two (2) Business Days prior to the proposed Funding Date of a written notice of such request substantially in the form of Exhibit B-2 attached hereto (each such notice, a “*Notice of Borrowing*”) together with a duly completed Borrowing Base Certificate signed by a Responsible Officer of the Borrower. Any Notice of Borrowing or Borrowing Base Certificate received by the Administrative Agent, the Funding Agents and the Paying Agent after the time specified in the immediately preceding sentence shall be deemed to have been received by the Administrative Agent, the Funding Agents and the Paying Agent on the next Business Day, and to the extent that results in the proposed Funding Date being earlier than two (2) Business Days after the date of delivery of such Notice of Borrowing, then the date specified in such Notice of Borrowing as the proposed Funding Date of an Advance shall be deemed to be the Business Day immediately succeeding the proposed Funding Date of such Advance specified in such Notice of Borrowing. The proposed Funding Date specified in a Notice of Borrowing shall be no earlier than two (2) Business Days after the date of delivery of such Notice of Borrowing and may be up to a maximum of thirty (30) days after the date of delivery of such Notice of Borrowing. Unless otherwise provided herein, each Notice of Borrowing shall be irrevocable. The aggregate principal amount of the Class A Advance and Class B Advance requested by the Borrower for any Funding Date shall not be less than the lesser of (x) \$1,000,000 and (y) the remaining amount necessary in order for the Borrower to fully utilize all available Commitments. If the Administrative Agent delivers a written notice (including by electronic mail) to the Borrower contesting the Borrower’s calculations or any statement within such Notice of Borrowing, it shall promptly inform the Borrower. The Borrower may then deliver an amended Notice of Borrowing to the Administrative Agent, the Funding Agents and the Paying Agent or, by written notice, rescind the Notice of Borrowing.

(B) The Notice of Borrowing shall specify (i) the aggregate amount of Class A Advances requested together with the allocated amount of Class A Advances to be paid by each Class A Lender Group based on its respective Class A Lender Group Percentage, (ii) (a) the aggregate amount of Class B-I Advances requested together with the allocated amount of Class B-I Advances to be paid by each Class B-I Lender Group based on its respective Class B-I Lender Group Percentage, or (b) the aggregate amount of Class B-II Advances requested together with the allocated amount of Class B-II Advances to be paid by each Class B-II Lender Group based on its respective Class B-II Lender Group Percentage and (iii) the Funding Date. The amount of Class A Advances to Class B Advances requested shall be determined on a pro rata basis based on the Class A Borrowing Base and Class B Aggregate Borrowing Base as of the proposed Funding Date. With respect to any Class B Advances requested, the Borrower shall only request and is only permitted to request Class B-II Advances if the amount of outstanding Class B-I Advances is equal to the Class B-I Commitment. Each Funding Agent may, in its sole discretion, allocate any requested Advances among the Lenders in its Lender Group.

(C) With respect to the Advances to be made on the Original Closing Date, each Lender shall pay the amount of its Advance by wire transfer of such funds to the Borrower’s Account no later than 4:00 P.M. (New York City time) on the Original Closing Date.

(D) With respect to the Advances to be made on any Funding Date, other than the initial Advance to be made on the Original Closing Date, upon a determination by the Administrative Agent that all conditions precedent to the Advances to be made on such Funding Date set forth in Article III have been satisfied or otherwise waived, each Lender shall fund the amount of its Advance by wire transfer of such funds in accordance with the Borrower's written instructions initiated no later than 2:00 P.M. (New York City time) on such Funding Date.

(E) Notwithstanding the foregoing, if any Non-Conduit Lender who shall have previously notified the Borrower in writing, in substantially the form of Exhibit H hereto, that it has incurred any external cost, fee or expense directly related to and as a result of the "liquidity coverage ratio" under Basel III in respect of its Commitment hereunder or any liquidity agreement between such Non-Conduit Lender and the Conduit Lender, or its interest in the Advances, such Non-Conduit Lender may, upon receipt of a Notice of Borrowing pursuant to Section 2.4(A), notify the Borrower in writing by 5:00 P.M. (New York City time) two (2) Business Days prior to the Funding Date specified in such Notice of Borrowing, in substantially the form of Exhibit I hereto (a "*Delayed Funding Notice*"), of its intent to fund (or, if applicable and if such Conduit Lender so agrees in its sole discretion, have its Conduit Lender, if applicable, fund all or part of) its allocated amount of the related Advance in an amount that would, if combined with all other requested Advances within the past thirty-five (35) days, exceed \$20,000,000 (such amount, the "*Delayed Amount*") on a Business Day that is on or before the thirty-fifth (35th) day following the date of delivery of such Non-Conduit Lender of such Delayed Funding Notice (the "*Delayed Funding Date*") rather than on the date specified in such Notice of Borrowing. If any Non-Conduit Lender provides a Delayed Funding Notice to the Borrower following the delivery by the Borrower of a Notice of Borrowing, the Borrower may revoke such Notice of Borrowing by delivering written notice of the same to the Administrative Agent and the Funding Agents by 12:00 P.M. (New York city time) on the Business Day preceding the related Funding Date. No Non-Conduit Lender that has provided a Delayed Funding Notice in respect of an Advance (a "*Delayed Funding Lender*") shall be considered to be in default of its obligation to fund its Delayed Amount pursuant to Section 2.4(D) hereunder unless and until it has failed to fund the Delayed Amount on or before the Delayed Funding Date. A Delayed Funding Lender is not obliged to fund until thirty-five (35) days have elapsed since the funding request. For the avoidance of doubt, a Delayed Funding Lender shall be required to fund its Delayed Amount regardless of the occurrence of an Amortization Event, Event of Default, Potential Amortization Event or Potential Default which occurs during the period from and including the related Funding Date to and including the related Delayed Funding Date, unless such Amortization Event, Event of Default, Potential Amortization Event or Potential Default relates to an Insolvency Event with respect to the Borrower.

(F) If (i) one or more Delayed Funding Lenders provide a Delayed Funding Notice to the Borrower in respect of a Notice of Borrowing and (ii) the Borrower shall not have revoked the Notice of Borrowing prior to the Business Day preceding such Funding Date, the Administrative Agent shall, by no later than 12:00 P.M. (New York City time) on the Business Day preceding such Funding Date, direct each Lender Group and each Non-Conduit Lender that is not a Delayed Funding Lender with respect to such Funding Date (each a "*Non-Delayed Funding Lender*") to fund an additional portion of such Advance on such Funding Date equal to such Non-Delayed Funding Lender's proportionate share (based upon such Non-Delayed Funding Lender's Commitment relative to the sum of the Commitments of all Non-Delayed Funding Lenders) of the aggregate Delayed Amounts with respect to such Funding Date; *provided*, that in no event shall a Non-Delayed Funding Lender be required to fund any amounts in excess of its Commitment. Subject to Section 2.4(D), in the case of a Non-Delayed Funding Lender

that is a Non-Conduit Lender, such Non-Conduit Lender hereby agrees, or, in the case of a Non-Delayed Funding Lender that is a Lender Group, the Conduit Lender in such Lender Group may agree, in its sole discretion, and the Non-Conduit Lenders in such Lender Group hereby agree, to fund such portion of the Advance on such Funding Date.

(G) After the Non-Delayed Funding Lenders fund a Delayed Amount on any Funding Date in accordance with Section 2.4(F), the Delayed Funding Lender in respect of such Delayed Amount will be obligated to fund an amount equal to the excess, if any, of (a) such Delayed Amount over (b) the amount, if any, by which the portion of any principal distribution amount paid to such Non-Delayed Funding Lenders pursuant to Section 2.7 or any decrease to the outstanding principal balance made in accordance with Section 2.8, on any date during the period from and including such Funding Date to but excluding the Delayed Funding Date for such Delayed Amount, was greater than what it would have been had such Delayed Amount been funded by such Delayed Funding Lender on such Funding Date (the “*Delayed Funding Reimbursement Amount*”) with respect to such Delayed Amount on or before its Delayed Funding Date, irrespective of whether the Borrower would be able to satisfy the conditions set forth in Section 3.2(A) to an Advance, in an amount equal to such Delayed Funding Reimbursement Amount on such Delayed Funding Date. Such Delayed Funding Lender shall fund such Delayed Funding Reimbursement Amount on such Delayed Funding Date by paying such amount to the Administrative Agent in immediately available funds, and the Administrative Agent shall distribute such funds to each such Non-Delayed Funding Lender, pro rata based on the relative amount of such Delayed Amount funded by such Non-Delayed Funding Lender on such Funding Date pursuant to Section 2.4(F).

(H) Notwithstanding anything to the contrary set forth in this Agreement, the Class B-II Lenders shall be deemed to satisfy their obligation to timely fund a Class B-II Advance so long as the Class B-II Lenders funds such Class B-II Advance by the Business Day immediately succeeding any Funding Date.

Accrued Unused Line Fees shall be due and payable in arrears (from Distributable Collections as set forth and in the order of priority established pursuant to Section 2.7) on the Payment Date immediately following the last day of the applicable calendar quarter for which such fee was calculated and on the last day of the Availability Period.

(E) *Payment of Fees.* The fees set forth in Section 2.5(A), (B), (C) and (D) shall be payable on each Payment Date by the Borrower from Distributable Collections as set forth in and in the order of priority established pursuant to Section 2.7(B). For the avoidance of doubt, any consent to a Proposed Form delivered by the Administrative Agent pursuant to Section 5.1(X) shall not give rise to the obligation to pay the amendment fee set forth in this Section 2.5(F) so long as no amendment to any Transaction Document is required in connection with such Proposed Form as determined by the Administrative Agent in its sole discretion.

(G) *Invested Capital Payment Amount.* The Borrower shall pay the Invested Capital Payment Amount on the Invested Capital Payment Date.

#### *Section 2.6. Reduction/Increase of the Commitments*

any increase shall be at least equal to \$5,000,000 or an integral multiple thereof but shall in no event cause the Aggregate Commitment to exceed the Maximum Facility Amount, the Class A Aggregate Commitment to exceed the Class A Maximum Facility Amount, the Class B-I Aggregate Commitment to exceed the Class B-I Maximum Facility Amount or the Class B-II Aggregate Commitment to exceed the Class B-II Maximum Facility Amount. Each Non-Conduit Lender shall, within five (5) Business Days of receipt of such request, notify the Administrative Agent and the Administrative Agent shall in turn notify the Borrower in writing (with copies to the other members of the applicable Lender Group) whether or not each Non-Conduit Lender has, in its sole discretion, agreed to increase its Commitment. If a Non-Conduit Lender does not send any notification to the Administrative Agent within such five (5) Business Day period, such Non-Conduit Lender shall be deemed to have declined to increase its Commitment. Any increase in Commitments agreed to pursuant to this Section 2.6(B) may be reduced by a Non-Conduit Lender, at any time, upon five Business Days' written notice to the Borrower from the Administrative Agent (with copies to the other members of the applicable Lender Group) setting forth the amount of such reduction; provided, however, that such Commitment may not be reduced to an amount less than such Non-Conduit Lender's initial Commitment on the Original Closing Date (if such reduction is prior to a Takeout Transaction) or to an amount less than such Non-Conduit Lender's Commitment on or after a Takeout Transaction (if such reduction is on or after a Takeout Transaction), but may be reduced to an amount that is less than the then Aggregate Outstanding Advances.

(C) *Capital Adequacy*. If any Change in Law has or would have the effect of reducing the rate of return on the capital of any Affected Party as a consequence of its obligations hereunder or arising in connection herewith to a level below that which any such Affected Party could have achieved but for such Change in Law (taking into consideration the policies of such Affected Party with respect to capital adequacy) by an amount deemed by such Affected Party to be material, then from time to time, then on the next Payment Date after written demand by such Affected Party (which demand shall be accompanied by a statement setting forth the basis for such demand), such Affected Party shall receive such additional amount or amounts as will compensate such Affected Party for such reduction in accordance with Section 2.7(B); *provided*, that the Borrower shall not be required to compensate such Affected Party for any portion of such additional amount or amounts that are incurred more than one hundred eighty (180) days prior to any such demand (except that, if the event giving rise to such additional amount or amounts is retroactive, then the 180-day period referred to above shall be extended to include the period of retroactive effect thereof).

A Lender subject to this Section 2.12(E) shall not be required to make any such assignment and delegation if prior to any such assignment and delegation the circumstances entitling the Borrower to require such assignment and delegation have ceased to apply.

Each party hereto agrees that (a) an assignment required pursuant to this Section 2.12(E) may be effected pursuant to an assignment in substantially in the form of Exhibit F hereto executed by the Borrower, the Administrative Agent and the assignee and (b) the Lender required to make such assignment need not be a party to such Assignment and Assumption in order for such assignment to be effective and shall be deemed to have consented to and be bound by the terms thereof; *provided* that, following the effectiveness of any such assignment, the other parties to such assignment agree to execute and deliver such documents necessary to evidence such assignment as reasonably requested by the applicable Lender, *provided, further*, that any such documents shall be without recourse to or warranty by the parties thereto.

The Administrative Agent and each Lender hereby agree to cooperate with the Borrower to effectuate the assignment of any Defaulting Lender's interest hereunder.

(F) *Calculation.* In determining any amount provided for in this Section 2.12, the Affected Party may use any reasonable averaging and attribution methods. Any Affected Party making a claim under this Section 2.12 shall submit to the Borrower a certificate as to such additional or increased cost or reduction, which certificate shall be conclusive absent manifest error.

*Section 2.13. Payments and Computations*

(A) The Borrower (through the Paying Agent pursuant to Section 2.7(B) and as otherwise permitted in this Agreement) shall make each payment and prepayment hereunder and under the Advances in respect of principal, interest, expenses, indemnities, fees or other Obligations due from the Borrower not later than 4:00 P.M. (New York City time) on the day when due in U.S. Dollars to the related Funding Agent at its address referred to in Section 10.3 or to such account provided by such Funding Agent in immediately available, same-day funds. Payments on Obligations may also be made by application of funds in the Collection Account or the Takeout Transaction Account as provided in Section 2.7(B), as applicable. All computations of interest for Advances shall be made by the related Funding Agent, who shall notify the Facility Administrator, the Borrower and the Administrative Agent of any determination thereof on or prior to the payment thereof pursuant to Section 2.7(B), as applicable. All computations of interest for Advances made under the Base Rate shall be made by the applicable Funding Agent on the basis of a year of 365 or 366 days, as the case may be, and actual days elapsed (including the first day but excluding the last day) occurring in the period for which such interest is payable. All other computations of fees and interest provided hereunder shall be made on the basis of a 360-day year and actual days elapsed (including the first day but excluding the last day) occurring in the period for which such interest is payable. Notwithstanding the foregoing, each determination by a Funding Agent of an interest rate hereunder shall be subject to the approval of the Administrative Agent.

(B) All payments to be made in respect of fees, if any, due to the Administrative Agent from the Borrower hereunder shall be made on the date when due without presentment, demand, protest or notice of any kind, all of which are hereby expressly waived by the Borrower, and without setoff, counterclaim or other deduction of any nature (other than with respect to Taxes pursuant to Section 2.17), and an action therefor shall immediately accrue. The Borrower agrees that, to the extent there are insufficient funds in the Administrative Agent's Account, to make any payment under this clause (B) when due, the Borrower shall immediately pay to the Administrative Agent all amounts due that remain unpaid.

*Section 2.14. Payment on Non-Business Days*

Whenever any payment hereunder or under the Advances shall be stated to be due on a day other than a Business Day, such payment shall be made on the next succeeding Business Day, and such extension of time shall in such case be included in the computation of payment of interest.

*Section 2.15. Inability to Determine Rates*

(A) Subject to clauses (B), (C), (D), (E), (F) and (G) of this Section 2.15, if prior to the commencement of any Interest Accrual Period:

- (i) the Administrative Agent determines (which determination shall be conclusive absent manifest error) that adequate and reasonable means do not exist for ascertaining the Adjusted LIBOR Rate (including because any screen rate necessary to determine such rate is not available or published on a current basis), for such Interest Accrual Period; provided that no Benchmark Transition Event shall have occurred at such time with respect to the Adjusted LIBOR Rate; or

- (ii) the Administrative Agent is advised by any Lender(s) that the Adjusted LIBOR Rate for such Interest Accrual Period will not adequately and fairly reflect the cost to such Lender(s) of making or maintaining their Advances for such Interest Accrual Period;

then the Administrative Agent shall give notice thereof to the Borrower and the Lenders by telephone, telecopy or electronic mail as promptly as practicable thereafter and, until the Administrative Agent notifies the Borrower and the Lenders that the circumstances giving rise to such notice no longer exist, the interest rate applicable to the Advances that would otherwise be funded or maintained based on the Adjusted LIBOR Rate shall be the Base Rate.

(B) Notwithstanding anything to the contrary herein or in any other Transaction Document, if a Benchmark Transition Event or an Early Opt-In Election, as applicable, and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any setting of the then-current Benchmark, then (x) if a Benchmark Replacement is determined in accordance with clause (1) or (2) of the definition of “Benchmark Replacement” for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Transaction Document in respect of such Benchmark setting and subsequent Benchmark settings without any amendment to, or further action or consent of any other party to, this Agreement or any other Transaction Document and (y) if a Benchmark Replacement is determined in accordance with clause (3) of the definition of “Benchmark Replacement” for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Transaction Document in respect of any Benchmark setting at or after 5:00 p.m. (New York City time) on the fifth (5th) Business Day after the date notice of such Benchmark Replacement is provided to the Lenders without any amendment to, or further action or consent of any other party to, this Agreement or any other Transaction Document so long as the Administrative Agent has not received, by such time, written notice of objection to such Benchmark Replacement from the Majority Lenders.

(C) [Reserved].

(D) In connection with the implementation of a Benchmark Replacement, the Administrative Agent will have the right to make Benchmark Replacement Conforming Changes from time to time and, notwithstanding anything to the contrary herein or in any other Transaction Document, any amendments implementing such Benchmark Replacement Conforming Changes will become effective without any further action or consent of any other party to this Agreement or any other Transaction Document.

(E) The Administrative Agent will promptly notify the Borrower and the Lenders of (i) any occurrence of a Benchmark Transition Event or an Early Opt-In Election, as applicable, and its related Benchmark Replacement Date, (ii) the implementation of any Benchmark Replacement, (iii) the effectiveness of any Benchmark Replacement Conforming Changes, (iv) the removal or reinstatement of any tenor of a Benchmark pursuant to clause (F) below and (v) the commencement or conclusion of any Benchmark Unavailability Period. Any determination, decision or election that may be made by the Administrative Agent or, if applicable, any Lender (or group of Lenders) pursuant to this Section 2.15, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error and may be made in its or their

sole discretion and without consent from any other party to this Agreement or any other Transaction Document, except, in each case, as expressly required pursuant to this Section 2.15.

(F) Notwithstanding anything to the contrary herein or in any other Transaction Document, at any time (including in connection with the implementation of a Benchmark Replacement), (i) if the then-current Benchmark is a term rate (including Term SOFR or the Adjusted LIBOR Rate) and either (a) any tenor for such Benchmark is not displayed on a screen or other information service that publishes such rate from time to time as selected by the Administrative Agent in its reasonable discretion or (b) the regulatory supervisor for the administrator of such Benchmark has provided a public statement or publication of information announcing that any tenor for such Benchmark is or will be no longer representative, then the Administrative Agent may modify the definition of “Interest Accrual Period” for any Benchmark settings at or after such time to remove such unavailable or non-representative tenor and (ii) if a tenor that was removed pursuant to clause (i) above either (a) is subsequently displayed on a screen or information service for a Benchmark (including a Benchmark Replacement) or (b) is not, or is no longer, subject to an announcement that it is or will no longer be representative for a Benchmark (including a Benchmark Replacement), then the Administrative Agent may modify the definition of “Interest Accrual Period” for all Benchmark settings at or after such time to reinstate such previously removed tenor.

(G) Upon the Borrower’s receipt of notice of the commencement of a Benchmark Unavailability Period, any Advance that would otherwise be funded or maintained based on the Adjusted LIBOR Rate shall during such LIBOR Unavailability Period instead be funded or maintained based on the Base Rate. During any Benchmark Unavailability Period or at any time that a tenor for the then-current Benchmark is not an Available Tenor, the component of the Base Rate based upon the then-current Benchmark or such tenor for such Benchmark, as applicable, will not be used in any determination of the Base Rate.

*Section 2.16. Extension of the Scheduled Commitment Termination Date or Facility Maturity Date*

. No earlier than ninety (90) days, and no later than sixty (60) days, prior to the then Scheduled Commitment Termination Date or Facility Maturity Date, the Borrower may deliver written notice to the Administrative Agent and each Funding Agent requesting an extension of such Scheduled Commitment Termination Date or Facility Maturity Date, as applicable. The Administrative Agent shall respond to such request no later than thirty (30) days following the date of its receipt of such request, indicating whether it is considering such request and preliminary conditions precedent to any extension of the Scheduled Commitment Termination Date or the Facility Maturity Date, as applicable, as the Administrative Agent determines to include in such response. The Administrative Agent’s failure to respond to a request delivered by the Borrower pursuant to this Section 2.16 shall not be deemed to constitute any agreement by the Administrative Agent to any such extension. The granting of any extension of the Scheduled Commitment Termination Date or the Facility Maturity Date, as applicable, requested by the Borrower shall be in the mutual discretion of the Borrower and the Administrative Agent (on behalf of the Lenders with the consent of all Lender Groups).

*Section 2.17. Taxes*

(A) *Defined Terms.* For purposes of this Section 2.17 the term “applicable Law” includes FATCA.

(B) *Payments Free of Taxes.* Any and all payments by or on account of any obligation of the Borrower under any Transaction Document shall be made without deduction or withholding for any Taxes, except as required by applicable Law. If any applicable Law (as determined in the good faith discretion of an applicable withholding agent) requires the deduction or withholding of any Tax from any such payment by a withholding agent, then the applicable withholding agent shall be entitled to make such deduction or withholding and shall timely pay the full amount deducted or withheld to the relevant Governmental Authority in accordance with applicable Law and, if such Tax is an Indemnified Tax, then the sum payable by the Borrower shall be increased as necessary so that after such deduction or withholding has been made (including such deductions and withholdings applicable to additional sums payable under this Section) the applicable Recipient receives an amount equal to the sum it would have received had no such deduction or withholding been made.

(C) *Payment of Other Taxes by the Borrower.* The Borrower shall timely pay to the relevant Governmental Authority in accordance with applicable Law, or at the option of a Funding Agent timely reimburse it for the payment of, any Other Taxes.

(D) *Indemnification by the Borrower.* The Borrower shall indemnify each Recipient, within ten days after demand therefor, for the full amount of any Indemnified Taxes (including Indemnified Taxes imposed or asserted on or attributable to amounts payable under this Section) payable or paid by such Recipient or required to be withheld or deducted from a payment to such Recipient and any reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to the Borrower by a Recipient (with a copy to each Funding Agent), or by a Funding Agent on its own behalf or on behalf of a Recipient, shall be conclusive absent manifest error.

(E) *Indemnification by the Lenders.* Each Non-Conduit Lender shall severally indemnify each Funding Agent, within ten days after demand therefor, for (i) any Indemnified Taxes attributable to such Non-Conduit Lender (but only to the extent that the Borrower has not already indemnified such Funding Agent for such Indemnified Taxes and without limiting the obligation of the Borrower to do so), and (ii) any Excluded Taxes attributable to such Non-Conduit Lender, in each case, that are payable or paid by a Funding Agent in connection with any Transaction Document, and any reasonable expenses arising therefrom or with respect thereto, whether or not such Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to any Non-Conduit Lender by its Funding Agent shall be conclusive absent manifest error. Each Non-Conduit Lender hereby authorizes its Funding Agent to set off and apply any and all amounts at any time owing to such Non-Conduit Lender under any Transaction Document or otherwise payable by such Funding Agent to the Non-Conduit Lender from any other source against any amount due to such Funding Agent under this paragraph (E).

(F) *Evidence of Payments.* As soon as practicable after any payment of Taxes by the Borrower to a Governmental Authority pursuant to this Section 2.17, the Borrower shall deliver to each Funding Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing

such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to such Funding Agent.

(G) *Status of Recipients.* (i) Any Recipient that is entitled to an exemption from or reduction of withholding Tax with respect to payments made under any Transaction Document shall deliver to the Borrower, the Paying Agent and the related Funding Agent, at the time or times reasonably requested by the Borrower, the Paying Agent or such Funding Agent, such properly completed and executed documentation reasonably requested by the Borrower, the Paying Agent or such Funding Agent as will permit such payments to be made without withholding or at a reduced rate of withholding. In addition, any Recipient, if reasonably requested by the Borrower, the Paying Agent or the related Funding Agent, shall deliver such other documentation prescribed by applicable Law or reasonably requested by the Borrower, the Paying Agent or such Funding Agent as will enable the Borrower, the Paying Agent or such Funding Agent to determine whether or not such Recipient is subject to backup withholding or information reporting requirements. Notwithstanding anything to the contrary in the preceding two sentences, the completion, execution and submission of such documentation (other than such documentation set forth in clauses (ii)(a), (ii)(b) and (ii)(d) below) shall not be required if in the Recipient's reasonable judgment such completion, execution or submission would subject such Recipient to any material unreimbursed cost or expense or would materially prejudice the legal or commercial position of such Recipient.

(ii) Without limiting the generality of the foregoing,

(a) any Recipient that is a U.S. Person shall deliver to the Borrower, the Paying Agent and the related Funding Agent on or prior to the date on which such Recipient becomes a Recipient under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower, the Paying Agent or such Funding Agent), executed originals of Internal Revenue Service Form W-9 certifying that such Recipient is exempt from U.S. federal backup withholding tax;

(b) any Recipient that is not a U.S. Person shall, to the extent it is legally entitled to do so, deliver to the Borrower, the Paying Agent and the related Funding Agent (in such number of copies as shall be requested by the Borrower, the Paying Agent or such Funding Agent) on or prior to the date on which such Recipient becomes a Recipient under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower, the Paying Agent or such Funding Agent), whichever of the following is applicable:

(1) in the case of a Recipient claiming the benefits of an income tax treaty to which the United States is a party (x) with respect to payments of interest under any Transaction Document, executed originals of Internal Revenue Service Form W-8BEN or W-8BEN-E establishing an exemption from, or reduction of, U.S. federal withholding Tax pursuant to the "interest" article of such tax treaty and (y) with respect to any other applicable payments under any Transaction Document, Internal Revenue Service Form W-8BEN or W-8BEN-E establishing an exemption from, or reduction of, U.S. federal withholding Tax pursuant to the "business profits" or "other income" article of such tax treaty;

(2) executed copies of Internal Revenue Service Form W-8ECI;

(3) in the case of a Recipient claiming the benefits of the exemption for portfolio interest under Section 881(c) of the Internal Revenue Code, (x) a certificate to the effect that such Recipient is not a “bank” within the meaning of Section 881(c)(3)(A) of the Internal Revenue Code, a “10 percent shareholder” of the Borrower within the meaning of Section 881(c)(3)(B) of the Internal Revenue Code, or a “controlled foreign corporation” related to the Borrower as described in Section 881(c)(3)(C) of the Internal Revenue Code (a “*U.S. Tax Compliance Certificate*”) and (y) executed originals of Internal Revenue Service Form W-8BEN or W-8BEN-E; or

(4) to the extent a Recipient is not the beneficial owner, executed originals of Internal Revenue Service Form W-8IMY, accompanied by Internal Revenue Service Form W-8ECI, Internal Revenue Service Form W-8BEN or W-8BEN-E, a U.S. Tax Compliance Certificate, Internal Revenue Service Form W-9, and/or other certification documents from each beneficial owner, as applicable; *provided* that if the Recipient is a partnership and one or more direct or indirect partners of such Recipient are claiming the portfolio interest exemption, such Recipient may provide a U.S. Tax Compliance Certificate on behalf of each such direct and indirect partner;

(c) any Recipient which is not a U.S. Person shall, to the extent it is legally entitled to do so, deliver to the Borrower, the Paying Agent and the related Funding Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Recipient becomes a Recipient under this Agreement (and from time to time thereafter upon the reasonable request of the Borrower, the Paying Agent or such Funding Agent), executed originals of any other form prescribed by applicable Law as a basis for claiming exemption from or a reduction in U.S. federal withholding Tax, duly completed, together with such supplementary documentation as may be prescribed by applicable Law to permit the Borrower, the Paying Agent or such Funding Agent to determine the withholding or deduction required to be made; and

(d) if a payment made to a Recipient under any Transaction Document would be subject to U.S. federal withholding Tax imposed by FATCA if such Recipient were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Internal Revenue Code, as applicable), such Recipient shall deliver to the Borrower, the Paying Agent and the related Funding Agent at the time or times prescribed by Law and at such time or times reasonably requested by the Borrower, the Paying Agent or such Funding Agent such documentation prescribed by applicable Law (including as prescribed by Section 1471(b)(3)(C)(i) of the Internal Revenue Code) and such additional documentation reasonably requested by the Borrower, the Paying Agent or such Funding Agent as may be necessary for the Borrower, the Paying Agent and such Funding Agent to comply with their obligations under FATCA and to determine that such Recipient has complied with such Recipient’s obligations under FATCA or to determine the amount, if any, to deduct and withhold from such payment. Solely for purposes of this clause (d), “FATCA” shall include any amendments made to FATCA after the date of this Agreement.

Each Recipient agrees that if any form or certification it previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such form or certification or promptly notify the Borrower, the Paying Agent and the related Funding Agent in writing of its legal inability to do so.

(H) *Forms for Paying Agent.* The Administrative Agent and each Funding Agent shall deliver to the Paying Agent on or before the first Payment Date, executed originals of Internal Revenue Service Form W-9 or W-8, as applicable, certifying that the Administrative Agent or such Funding Agent is exempt from U.S. federal backup withholding tax. The Administrative Agent and each Funding Agent agrees that if such Internal Revenue Service Form previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such form or promptly notify the Paying Agent and the Borrower in writing of its legal inability to do so.

(I) *Treatment of Certain Refunds.* If any party determines, in its sole discretion exercised in good faith, that it has received a refund of any Taxes as to which it has been indemnified pursuant to this Section 2.17 (including by the payment of additional amounts pursuant to this Section 2.17), it shall pay to the indemnifying party an amount equal to such refund (but only to the extent of indemnity payments made under this Section with respect to the Taxes giving rise to such refund), net of all out-of-pocket expenses (including Taxes) of such indemnified party and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund). Such indemnifying party, upon the request of such indemnified party, shall repay to such indemnified party the amount paid over pursuant to this paragraph (I) (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) in the event that such indemnified party is required to repay such refund to such Governmental Authority. Notwithstanding anything to the contrary in this paragraph (I), in no event will the indemnified party be required to pay any amount to an indemnifying party pursuant to this paragraph (I) the payment of which would place the indemnified party in a less favorable net after-Tax position than the indemnified party would have been in if the Tax subject to indemnification and giving rise to such refund had not been deducted, withheld or otherwise imposed and the indemnification payments or additional amounts with respect to such Tax had never been paid. This paragraph shall not be construed to require any indemnified party to make available its Tax returns (or any other information relating to its Taxes that it deems confidential) to the indemnifying party or any other Person.

(J) *Survival.* Each party's obligations under this Section 2.17 shall survive the resignation or replacement of a Funding Agent or any assignment of rights by, or the replacement of, a Lender, the termination of the Commitments and the repayment, satisfaction or discharge of all obligations under any Transaction Document.

*Section 2.18. Request for Borrowing Exceeding Aggregate Commitment*

(A) *Notice.* The Borrower may, from time to time during the Availability Period, prior to the issuance of a Notice of Borrowing, send a written notice to the Administrative Agent and each Lender Group setting forth the Borrower's intent to request a borrowing that will cause the Aggregate Outstanding Advances to exceed the Aggregate Commitment (but not the Maximum Facility Amount) then in effect. Such notice shall be sent no later than five (5) Business Days prior to the date on which the Borrower intends to send the related Notice of Borrowing and shall set forth the amount by which the sum of the Aggregate Outstanding Advances (after giving effect to such borrowing) will exceed the Aggregate Commitment and the related Funding Date.

(B) *Approval/Disapproval.* Upon receipt of the notice described in Section 2.18(A) by the Funding Agents, each Funding Agent shall, no later than five (5) Business Days after receipt thereof, obtain the written approval or disapproval of each Non-Conduit Lender in the related Lender Group regarding the requested Advances, which approval shall be granted or not granted in the sole discretion of the Non-Conduit Lenders. If the making of the requested Advances is approved by each of the Non-Conduit Lenders so requested, the Borrower shall, in accordance with procedures set forth in Section 2.4, send the related Notice of Borrowing. Any approved Advances to be made by the Lenders in the related Lender Group shall be funded within such Lender Group pursuant to any allocation as agreed to by all of the members of such Lender Group. If the making of the requested Advances is not approved by any Non-Conduit Lender so requested, then the Borrower shall, prior to sending its Notice of Borrowing, modify the same in a manner sufficient to ensure that the requested borrowing does not cause the Aggregate Outstanding Advances to exceed the Aggregate Commitment then in effect, as applicable. If the making of the requested Advances is approved by one or more Non-Conduit Lenders so requested and not approved by one or more Non-Conduit Lender so requested, the approving Non-Conduit Lenders shall have the right, but not the obligation, to make all or a portion of the Advance requested of the non-approving Non-Conduit Lenders, and the Borrower shall, in accordance with procedures set forth in Section 2.4, send the related Notice of Borrowing.

(C) *Commitment.* For the avoidance of doubt, if the making of an Advance by a Lender Group that would cause the Aggregate Outstanding Advances to exceed the Aggregate Commitment, as applicable, is approved, each Non-Conduit Lender's Commitment shall be increased solely to the extent such Non-Conduit Lender approved the Advance. Each Non-Conduit Lender's Commitment shall otherwise remain as set forth on Exhibit E unless increased and/or reduced from time to time in accordance with Section 2.6 or amended in connection with assignments made by a Non-Conduit Lender pursuant to Section 10.8. Moreover, the Borrower must go through the procedures described in Sections 2.18(A) and (B) each time a request for an Advance is made which would cause the sum of all outstanding Advances to exceed the Aggregate Commitment, as applicable.

(D) Nothing set forth in this Section 2.18 requires a Conduit Lender to make any Advance; provided, however, a Conduit Lender may, in its sole discretion, make the Advance requested pursuant to this Section 2.18 for its Lender Group. Any Advance approved pursuant to this Section 2.18 shall be made pursuant to and in accordance with Sections 2.2 and 2.4.

The Triggering Event

Notice shall include the bank account information for payment of the Class B Buyout Amount and the following (including supporting detail) without duplication: (i) the aggregate principal amount of the Class A Advances, interest and fees with respect thereto (but excluding any prepayment fees or penalties), the fees, expenses and indemnities due the Administrative Agent, and all other Obligations owing to the Class A Lenders then outstanding and unpaid and (ii) the Obligations owing to the Class A Lenders expected to accrue through the Class B Buyout Option Exercise Date (*provided* that any such amounts that are not earned or actually due and owing as of the Class B Buyout Option Exercise Date shall not be required to be paid on the Class B Buyout Option Exercise Date) and (iii) the amount of all liabilities that have been incurred by the Borrower under Section 10.5 to the Class A Lenders (such amounts in clause (iii), the “*Class A Indemnified Liabilities*”, and such amounts in clauses (i) through (iii), collectively, “*Estimated Class B Buyout Amount*”).

(B) The Class B Lenders shall have the option (the “*Class B Buyout Option*”), exercised by delivery of a written notice to the Administrative Agent (a “*Class B Buyout Notice*”), to purchase all (but not less than all) of the aggregate principal amount of the Class A Advances, together with interest and fees due with respect thereto, and all other Obligations owing to the Class A Lenders (collectively, the “*Class B Purchase Rights*”). Unless the Administrative Agent (acting at the direction of the Majority Lenders), in each case, agrees in writing to a longer time period, the Class B Purchase Right shall be exercisable by any one or more Class B Lenders for a period of 10 Business Days, commencing on the date on which the Administrative Agent provides the Triggering Event Notice (each such date, a “*Class B Purchase Right Termination Date*”). The Class A Lenders shall retain all rights to be indemnified or held harmless by the Borrower in accordance with the terms of this Agreement with respect to any contingent claims for indemnification or cost reimbursement that are not paid as part of the Class B Buyout Amount. Prior to the applicable Class B Purchase Right Termination Date, any one or more Class B Lenders may exercise the Class B Purchase Right (each, a “*Buyout Class B Lender*”) by delivering the Class B Buyout Notice, which notice (i) shall be irrevocable (unless the final Class B Buyout Amount is more than \$100,000 higher than the Estimated Class B Buyout Amount set forth in the Triggering Event Notice, in which case such Class B Buyout Option Notice may be revoked in the sole and absolute discretion of the applicable Class B Lender at any time prior to the Class B Buyout Option Exercise Date), (ii) shall state that each such Class B Lender is electing to exercise the Class B Purchase Rights (ratably based on the aggregate Class B Commitments of the Non-Conduit Lenders related to each Buyout Class B Lender over the aggregate Class B Commitments of the Non-Conduit Lenders related to all Buyout Class B Lenders or such other allocation as the related Class B Lenders shall agree) and (iii) shall specify the date on which such right is to be exercised by such Class B Lenders (such date, the “*Class B Buyout Option Exercise Date*”), which date shall be a Business Day not more than fifteen (15) Business Days after receipt by the Administrative Agent of such notice(s).

(C) On the Business Day prior to the Class B Buyout Option Exercise Date, the Administrative Agent shall deliver to each Buyout Class B Lender a written notice specifying (without duplication) the aggregate outstanding principal balance of the Class A Advances, interest and fees with respect thereto (but excluding any prepayment fees or penalties) and all other Obligations owing to the Class A Lenders then outstanding and unpaid as of the Class B Buyout Option Exercise Date and, subject to and in accordance with Section 10.5, Class A Indemnified Liabilities then outstanding and unpaid of which it is then aware (collectively, the “*Class B Buyout Amount*”). On the Class B Buyout Option Exercise Date, the Administrative Agent shall cause the Class A Lenders to sell, and the Class A Lenders shall sell, to the Buyout Class B Lenders their respective *pro rata* portions of the Class B Buyout Amounts, and such Class B Lenders shall purchase from the Class A Lenders, at their respective

*pro rata* portions of the Class B Buyout Amount, all of the Class A Advances. The Class A Lenders shall cooperate with the Administrative Agent in effectuating such sales of their respective Class A Advances.

(D) Upon the date of such purchase and sale, each Buyout Class B Lender shall (i) pay to the Class A Lenders its *pro rata* portion of the Class B Buyout Amount therefor and (ii) agree to indemnify and hold harmless the Administrative Agent and the Class A Lenders from and against any loss, liability, claim, damage or expense (including reasonable fees and expenses of legal counsel and indemnification) arising out of any claim asserted by a third party as a direct result of any acts by the Buyout Class B Lenders occurring after the date of such purchase (but excluding, for the avoidance of doubt, any such loss, liability, claim, damage or expense resulting from the gross negligence, bad faith or willful misconduct of the Administrative Agent or any Class A Lender seeking indemnification). The Class B Buyout Amount and other sums shall be remitted by wire transfer of immediately available funds to the bank account set forth in the Triggering Event Notice. In connection with the foregoing purchase, accrued and unpaid interest on the Class A Loans shall be calculated through the Business Day on which such purchase and sale shall occur if the amounts so paid by the Buyout Class B Lenders to the bank account designated by the Class A Lenders are received in such account prior to at before 1:00 p.m., New York time and interest shall be calculated to and include the next Business Day if the amounts so paid by the Buyout Class B Lenders to the bank account designated by the Class A Lenders are received in such Account later than 1:00 p.m., New York time.

(E) Any purchase pursuant to this Section 6.3 shall be expressly made without representation or warranty of any kind by the Class A Lenders, the Administrative Agent or any other Person as to the Obligations owing to the Class A Lenders or otherwise and without recourse to the Class A Lenders, the Administrative Agent or any other Person, except that the Class A Lenders shall represent and warrant: (i) the amount of Class A Advances being purchased and that the purchase price and other sums payable by the Buyout Class B Lenders are true, correct and accurate amounts, (ii) that the Class A Lenders shall convey all right, title and interest in and to the Class A Advances free and clear of any Liens of the Class A Lenders or created or suffered to exist by the Class A Lenders, (iii) as to the absence of any claims made or threatened in writing against the Class A Lenders related to the Class A Advances, and (iv) the Class A Lenders are duly authorized to assign the Class A Advances.

#### *Section 6.4. Sale of Collateral*

(A) The power to effect any sale of any portion of the Collateral upon the occurrence and during the continuance of an Event of Default pursuant to this Article VI, the Security Agreement, the Pledge Agreement and the SAP Lockbox Account Control Agreement shall not be exhausted by any one or more sales as to any portion of the Collateral remaining unsold, but shall continue unimpaired until all Collateral shall have been sold or until all Obligations (other than contingent obligations not then due) hereunder have been paid in full. The Administrative Agent acting on its own or through an agent, may from time to time postpone any sale by public announcement made at the time and place of such sale.

(B) Notwithstanding anything to the contrary set forth herein, but subject in all events to clause (v) of this Section 6.4(B), if the Administrative Agent (acting at the written direction of the Majority Lenders) elects to solicit and accept bids in connection with, and to sell or dispose of, the Collateral, the Administrative Agent shall deliver a notice (a “*Collateral Sale Notice*”) of such sale to the Borrower and

the Lenders. The date of the intended sale of Collateral (the “*Intended Collateral Sale Date*”) need not be specified in the Collateral Sale Notice but shall be a date after the related Class B Purchase Right Termination Date described in Section 6.3(B). The Collateral Sale Notice shall include the following (including supporting detail) without duplication: (i) the aggregate principal amount of the Class A Advances, interest and fees with respect thereto (but excluding any prepayment fees or penalties), the fees, expenses and indemnities due the Administrative Agent, and all other Obligations owing to the Class A Lenders then outstanding and unpaid, (ii) the Obligations owing to the Class A Lenders expected to accrue through the Intended Collateral Sale Date (*provided* that any such amounts that are not earned or actually due and owing as of the Intended Collateral Sale Date shall not be required to be paid on the Intended Collateral Sale Date) and (iii) the amount of Class A Indemnified Liabilities. Following receipt of the Collateral Sale Notice:

(i) The Class B Lenders shall have the right to purchase all (but not less than all) of the Collateral (the “*Class B Collateral Purchase Right*”) at a price equal to (without duplication) the aggregate principal amount of the Class A Advances, interest and fees with respect thereto (but excluding any prepayment fees or penalties), the fees, expenses and indemnities due the Administrative Agent, and all other Obligations owing to the Class A Lenders then outstanding and unpaid as of the Intended Collateral Sale Date and, subject to and in accordance with Section 10.5, Class A Indemnified Liabilities then outstanding and unpaid of which it is then aware (collectively, the “*Class B Collateral Purchase Amount*”). If any Class B Lender desires to exercise its Class B Collateral Purchase Right, it shall send a written notice (a “*Class B Collateral Exercise Notice*”) to the Administrative Agent no later than the thirtieth (30th) day after receipt of the Collateral Sale Notice (the “*Class B Collateral Exercise Deadline*”) irrevocably and unconditionally agreeing to purchase all (but not less than all) of the Collateral on a Business Day which is no later than the fifth (5th) Business Day following delivery of its Class B Collateral Exercise Notice (the “*Class B Collateral Purchase Date*”) at a price equal to the Class B Collateral Purchase Amount.

(ii) If the Administrative Agent receives only one Class B Collateral Exercise Notice prior to the Class B Collateral Exercise Deadline, then the Class B Lender who delivered such Class B Collateral Exercise Notice shall be deemed to have exercised the Class B Collateral Purchase Right and shall be obligated to purchase all (but not less than all) of the Collateral on the Class B Collateral Purchase Date on terms and at a price equal to the Class B Collateral Purchase Amount.

(iii) If the Administrative Agent receives more than one Class B Collateral Exercise Notice prior to the Class B Collateral Exercise Deadline (the senders of such Class B Collateral Exercise Notice, each a “*Bidder*”), the Administrative Agent shall schedule a meeting or conference call (the “*Final Auction*”) for 10:00 a.m. (or such other time as may be acceptable to the Administrative Agent and each Bidder) on the date that is two (2) Business Days prior to the Class B Collateral Purchase Date. At such meeting or on such call, each Bidder shall be entitled to make one or more irrevocable and unconditional bids to purchase all (but not less than all) of the Collateral on the Class B Collateral Purchase Date at an all cash price greater than the Class B Collateral Purchase Amount. The Final Auction shall conclude upon the earlier of (a) the time when all Bidders (other than the Bidder who made the then highest bid) confirm they will not make any further bids and (b) thirty (30) minutes having elapsed since the making of the then highest bid. The Bidder that has made the highest bid

when the Final Auction has concluded shall be deemed to have exercised the Class B Collateral Purchase Right and shall be obligated irrevocably and unconditionally to purchase all (but not less than all) of the Collateral on the Class B Collateral Purchase Date at a price equal to such highest bid.

(iv) If the Administrative Agent receives no Class B Collateral Exercise Notice prior to the Class B Collateral Exercise Deadline or the sale of the Collateral is for any reason not consummated on the Class B Collateral Purchase Date, the Class B Collateral Purchase Right shall terminate automatically without notice or any action required on the part of any Person and the Administrative Agent shall, subject to the terms of this Agreement, proceed with a sale of the Collateral (or rights or interests therein), at one or more public or private sales as permitted by law. Each of the Lenders may bid on and purchase the Collateral (or rights or interest therein) at such a sale.

(v) Notwithstanding anything to the contrary contained in this Section 6.4(B), the Majority Lenders agree not to instruct the Administrative Agent to solicit and accept bids in connection with, or to sell or dispose of, the Collateral following the occurrence of an Event of Default unless and until (i) no Class B Lender shall have duly delivered to the Administrative Agent pursuant to Section 6.3 a Class B Buyout Notice for such Class B Lender on or prior to the related Class B Purchase Right Termination Date or (ii) the Class B Lenders who have delivered timely Class B Buyout Notice(s) shall have failed to pay the Class B Buyout Amount for such Class B Lender in full on the related Class B Buyout Option Exercise Date all in accordance with Section 6.3.

(C) If the Class B Lenders do not elect to exercise the Class B Collateral Purchase Right prior to the Class B Collateral Exercise Deadline, then the Administrative Agent shall sell the Collateral as otherwise set forth in this Section 6.4 and pursuant to the other Transaction Documents. The Class B Lenders shall also have the right to bid for and purchase the Collateral offered for sale at a public auction conducted by the Administrative Agent pursuant to this Section 6.4 and the other Transaction Documents and, upon compliance with the terms of any such sale, may hold, retain and dispose of such property without further accountability therefor. Any Class B Lender purchasing Collateral at such a sale may set off the purchase price of such property against amounts owing to it in payment of such purchase price up to the full amount owing to it so long as the cash portion of such purchase price equals or exceeds either the (x) cash portion of the next highest bidder in such auction or (y) amount required to pay off the Class A Obligations in full.

(D) Unless otherwise stipulated at the time of sale, the Collateral or any portion thereof are to be sold on an “as is-where is” basis.

(E) The Administrative Agent shall incur no liability as a result of the sale (whether public or private) of the Collateral or any part thereof at any sale pursuant to this Agreement conducted in a commercially reasonable manner and at the written direction of the Majority Lenders. Each of the Borrower and the Secured Parties hereby agrees that in respect of any sale of any of the Collateral pursuant to the terms hereof, the Administrative Agent is hereby authorized to comply with any limitation or restriction in connection with such sale as it may be advised by counsel is necessary in order to avoid any violation of Applicable Laws, or in order to obtain any required approval of the sale or of the purchaser by any Governmental Authority, and the Borrower and the Secured Parties further

agree that such compliance shall not, in and of itself, result in such sale being considered or deemed not to have been made in a commercially reasonable manner, nor shall the Administrative Agent be liable or accountable to the Borrower or the Secured Parties for any discount allowed by reason of the fact that the Collateral or any part thereof is sold in compliance with any such limitation or restriction.

## Article VII

### The Administrative Agent and Funding Agents

#### *Section 7.1. Appointment; Nature of Relationship*

. The Administrative Agent is appointed by the Funding Agents and the Lenders (and by each Qualifying Hedge Counterparty by execution of a Qualifying Hedge Counterparty Joinder, if applicable) as the Administrative Agent hereunder and under each other Transaction Document, and each of the Funding Agents and the Lenders and each Qualifying Hedge Counterparty irrevocably authorizes the Administrative Agent to act as the contractual representative of such Funding Agent and such Lender and such Qualifying Hedge Counterparty with the rights and duties expressly set forth herein and in the other Transaction Documents. The Administrative Agent agrees to act as such contractual representative upon the express conditions contained in this Article VII. Notwithstanding the use of the defined term “Administrative Agent,” it is expressly understood and agreed that the Administrative Agent shall not have any fiduciary responsibilities to any Funding Agent or Lender or any Qualifying Hedge Counterparty by reason of this Agreement and that the Administrative Agent is merely acting as the representative of the Funding Agents, the Lenders and each Qualifying Hedge Counterparty with only those duties as are expressly set forth in this Agreement and the other Transaction Documents. In its capacity as the Funding Agents’, the Lenders’ and each Qualifying Hedge Counterparty’s contractual representative, the Administrative Agent (A) does not have any implied duties and does not assume any fiduciary duties to any of the Funding Agents, the Lenders or any Qualifying Hedge Counterparty, (B) is a “representative” of the Funding Agents, the Lenders and each Qualifying Hedge Counterparty within the meaning of Section 9-102 of the UCC as in effect in the State of New York, and (C) is acting as an independent contractor, the rights and duties of which are limited to those expressly set forth in this Agreement and the other Transaction Documents. Each of the Funding Agents, the Lenders and each Qualifying Hedge Counterparty agree to assert no claim against the Administrative Agent on any agency theory or any other theory of liability for breach of fiduciary duty, all of which claims each Funding Agent, each Lender and each Qualifying Hedge Counterparty waives.

#### *Section 7.2. Powers*

. Each Funding Agent, Lender and Qualifying Hedge Counterparty authorizes the Administrative Agent to take such action on such Funding Agent’s, Lender’s or Qualifying Hedge Counterparty’s behalf and to exercise such powers, rights and remedies hereunder and under the other Transaction Documents as are specifically delegated or granted to the Administrative Agent by the terms hereof and thereof, together with such powers, rights and remedies as are reasonably incidental thereto. The Administrative Agent shall have only those duties and responsibilities that are expressly specified herein and in the other Transaction Documents. The Administrative Agent may exercise such powers, rights and remedies and perform such duties by or through its agents or employees. The Administrative Agent shall not have, by reason hereof or in any of the other Transaction Documents, a fiduciary relationship in respect of any Funding Agent, Lender or Qualifying Hedge Counterparty; and nothing herein or any of the other Transaction Documents, expressed or implied, is intended to or shall be so construed as to impose upon the Administrative Agent any obligations in respect hereof or any of the other Transaction Documents except as expressly set forth herein or therein.

### *Section 7.3. Exculpatory Provisions*

. Neither the Administrative Agent nor any of its officers, partners, directors, employees or agents shall be liable to the Borrower, any Funding Agent, any Lender or any Qualifying Hedge Counterparty for any action taken or omitted by the Administrative Agent under or in connection with any of the Transaction Documents except to the extent such action or inaction is found in a final non-appealable judgment by a court of competent jurisdiction to have arisen solely from (A) the gross negligence or willful misconduct of such Person or (B) breach of contract by such Person with respect to the Transaction Documents. The Administrative Agent shall be entitled to refrain from any act or the taking of any action (including the failure to take an action) in connection herewith or any of the other Transaction Documents or from the exercise of any power, discretion or authority vested in it hereunder or thereunder unless and until the Administrative Agent shall have received instructions in respect thereof from the Lenders as directed by the terms of this Agreement or other Transaction Document, or, in the absence of such direction, the Majority Lenders, and such instructions and any action taken or failure to act pursuant thereto shall be binding on all of the Lenders and on all holders of Loan Notes. Without prejudice to the generality of the foregoing, (i) the Administrative Agent shall be fully justified in failing or refusing to take any action hereunder and under any other Transaction Document unless it shall first be indemnified to its satisfaction by the Lenders pro rata against any and all liability, cost and expense that it may incur by reason of taking or continuing to take any such action; (ii) the Administrative Agent shall be entitled to rely, and shall be fully protected in relying, upon any Class A Loan Note, Class B Loan Note, notice, consent, certificate, affidavit, letter, telegram, statement, paper, communication, instrument or document believed by it to be genuine and correct and to have been signed or sent by the proper Person or Persons, and shall be entitled to rely and shall be protected in relying on opinions and judgments of counsel (who may be counsel for the Borrower), accountants, experts and other professional advisors selected by it with due care; and (iii) no Lender, Funding Agent or Qualifying Hedge Counterparty shall have any right of action whatsoever against the Administrative Agent as a result of the Administrative Agent acting or (where so instructed) refraining from acting hereunder or any of the other Transaction Documents in accordance with the instructions of the applicable Lenders.

### *Section 7.4. No Responsibility for Certain Matters*

. The Administrative Agent nor any of its directors, officers, agents or employees shall not be responsible to any Funding Agent, any Lender or any Qualifying Hedge Counterparty for the execution, effectiveness, genuineness, validity, enforceability, collectability or sufficiency of this Agreement or any other Transaction Document or for any representations, warranties, recitals or statements made herein or therein or made in any written or oral statements or in any financial or other statements, instruments, reports or certificates or any other documents furnished or made by or on behalf of the Borrower, the Facility Administrator or Parent or their respective affiliates to the Administrative Agent, any Funding Agent, any Lender or any Qualifying Hedge Counterparty in connection with the Transaction Documents and the transactions contemplated thereby or for the financial condition or business affairs of the Borrower, the Facility Administrator or Parent or their respective affiliates to the Administrative Agent or any other Person liable for the payment of any Obligations, nor shall the Administrative Agent be required to ascertain or inquire as to the performance or observance of any of the terms, conditions, provisions, covenants or agreements contained in any of the Transaction Documents or as to the use of the proceeds of the Advances or as to the existence or possible existence of any Event of Default or Potential Event of Default or to make any disclosures with respect to the foregoing. Without limiting the generality of the foregoing, the Administrative Agent shall have no duty or obligation whatsoever to make, verify, or recompute any numerical information or other calculations under or in connection with

this Agreement or any other Transaction Document, including any numerical information and other calculations included in any Borrowing Base Certificate, Facility Administrator Report or otherwise, and the Administrative Agent shall have no duty or liability to confirm, verify or review the contents, and shall not be responsible for the accuracy or content, of any documents, certificates or opinions delivered in connection with this Agreement or any other Transaction Document. In addition, the Administrative Agent shall have no duty or liability to determine whether any Solar Asset is an Eligible Solar Asset or to inspect the Solar Assets at any time or ascertain or inquire as to the performance or observance of any of the Borrower's, the Facility Administrator's or the Parent's or any of their respective affiliate's representations, warranties or covenants. Anything contained herein to the contrary notwithstanding, the Administrative Agent shall not have any liability arising from confirmations of the amount of outstanding Advances or the component amounts thereof. The Administrative Agent shall not be responsible to any Funding Agent, any Lender or any Qualifying Hedge Counterparty for the perfection or priority of any of the Liens on any of the Collateral, or for the execution, effectiveness, genuineness, validity, legality, enforceability, collectability, or sufficiency of this Agreement or any of the other Transaction Documents or the transactions contemplated thereby, or for the financial condition of any guarantor of any or all of the Obligations, the Borrower or any of its respective Affiliates.

*Section 7.20. Funding Agent Successor Funding Agent*

(ii) From the proceeds of Advances hereunder, the Borrower shall deliver to the Paying Agent for deposit into the Liquidity Reserve Account amounts necessary to maintain on deposit therein an amount equal to or in excess of the Liquidity Reserve Account Required

(vi) Unless an Event of Default or an Amortization Event has occurred and is continuing, on any Payment Date, if, as set forth on the Facility Administrator Report, amounts on deposit in the Liquidity Reserve Account are greater than the Liquidity Reserve Account Required Balance (after giving effect to all other distributions and disbursements on such Payment Date), the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to withdraw funds in excess of the Liquidity Reserve Account Required Balance from the Liquidity Reserve Account and disburse such amounts into the Borrower's Account; and

(vii) On any Payment Date, if, as set forth on the Facility Administrator Report, the amount of funds in the Liquidity Reserve Account and in the Collection Account is equal to or greater than the aggregate outstanding balance of Advances (whether or not then due and payable) and all other amounts due and payable hereunder, then the Facility Administrator shall

direct the Paying Agent, based on the Facility Administrator Report, to withdraw all funds from the Liquidity Reserve Account and deposit such amounts into the Collection Account to pay all such amounts and the aggregate outstanding balance of all Advances (whether or not then due and payable).

Notwithstanding anything in this Section 8.2(C) to the contrary, in lieu of or in substitution for moneys otherwise required to be deposited to the Liquidity Reserve Account, the Borrower (or the Facility Administrator on behalf of the Borrower) may deliver or cause to be delivered to the Paying Agent a Letter of Credit; *provided* that any deposit into the Liquidity Reserve Account required to be made by the Borrower (or the Facility Administrator on behalf of the Borrower) after the replacement of amounts on deposit in the Liquidity Reserve Account with a Letter of Credit shall be made by the Borrower (or the Facility Administrator on behalf of the Borrower) by way of cash deposits to the Liquidity Reserve Account as provided in Section 2.7(B) or pursuant to the Borrower's (or the Facility Administrator's on behalf of the Borrower) causing an increase in the Letter of Credit or the delivery to the Paying Agent of an additional Letter of Credit.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Liquidity Reserve Account, and if any withdrawals from the Liquidity Reserve Account will be required under this Section 8.2(C) or otherwise, the Administrative Agent (or the Borrower with the written consent of the Administrative Agent) shall, no later than three (3) Business Days prior to the applicable Payment Date or payment date, direct the Paying Agent in writing to draw on the Letter of Credit, which direction shall provide the required draw amount. The Administrative Agent (or the Borrower with the written consent of the Administrative Agent) shall direct the Paying Agent to submit the drawing documents to the applicable Eligible Letter of Credit Bank no later than 5:00 P.M. (New York City time) on the second (2nd) Business Day after the Paying Agent receives such direction. Upon the receipt of the proceeds of any such drawing, the Paying Agent shall deposit such proceeds into the Liquidity Reserve Account. Any (A) references in the Transaction Documents to amounts on deposit in the Liquidity Reserve Account or amounts in or credited to the Liquidity Reserve Account shall include or be deemed to include the aggregate available amount of the Letters of Credit delivered to the Paying Agent pursuant to this Section 8.2(C), and (B) Letter of Credit delivered by the Borrower (or the Facility Administrator on behalf of the Borrower) to the Paying Agent pursuant to this Section 8.2(C) shall be held as an asset of the Liquidity Reserve Account and valued for purposes of determining the amount on deposit in the Liquidity Reserve Account at the amount as of any date then available to be drawn on such Letter of Credit.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Liquidity Reserve Account, then: (i) if the Letter of Credit is scheduled to expire by its terms and ten (10) days prior to the scheduled expiration date such Letter of Credit has not been extended or replaced, then the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall on such tenth (10th) day prior to the scheduled expiration date notify the Paying Agent in writing of such failure to extend or replace the Letter of Credit, and the Paying Agent shall, submit the drawing documents delivered to it by the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent to the Eligible Letter of Credit Bank no later than 5:00 P.M. (New York City time) on the second (2nd) Business Day prior to the scheduled expiration date and draw the full amount of such Letter of Credit and deposit the proceeds of such drawing into the Liquidity Reserve Account, and (ii) if the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent notifies the Paying Agent in writing that the financial institution issuing the Letter of Credit

ceases to be an Eligible Letter of Credit Bank or a Responsible Officer of the Paying Agent otherwise receives written notice that the financial institution issuing the Letter of Credit ceases to be an Eligible Letter of Credit Bank, then the Paying Agent shall, no later than the second (2nd) Business Day after receipt of any such written notice by a Responsible Officer of the Paying Agent submit the drawing documents delivered to it by the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent to draw the full amount of such Letter of Credit and deposit the proceeds of such drawing into the Liquidity Reserve Account.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Liquidity Reserve Account, the stated amount of the Letter of Credit may be reduced from time to time, to the extent of any reduction in the dollar amount of the Liquidity Reserve Account Required Balance. Each month upon receipt by the Paying Agent of the Facility Administrator Report if such Facility Administrator Report shows a reduction in the Liquidity Reserve Account Required Balance, then the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall, prior to the related Payment Date, direct the Paying Agent to send the Eligible Letter of Credit Bank a letter in the form provided in the Letter of Credit to reduce the stated amount of the Letter of Credit. The Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall ensure that the letter submitted shall provide for the reduction to be effective as of the close of business on the related Payment Date. The reduction shall be in the amount shown on the Facility Administrator Report as the Liquidity Reserve Account “reductions” and the remaining stated amount of the Letter of Credit shall be equal to the Liquidity Reserve Account Required Balance “ending required amount” as shown on the Facility Administrator Report. Any drawing on the Letter of Credit may be reimbursed by the Borrower only from amounts remitted to the Borrower pursuant to clauses (xiii) or (xiv) of Section 2.7(B).

Notwithstanding the foregoing or any other provision to the contrary in this Agreement or any other Transaction Document, in no event shall the Paying Agent be required to report, track, calculate or monitor the value, available amount or any other information regarding any Letter of Credit for any party hereto or beneficiary of or under the Liquidity Reserve Account, except as expressly required pursuant to this Section 8.2(C).

(D) *Deposits and Withdrawals from the Supplemental Reserve Account.* Deposits into, and withdrawals from, the Supplemental Reserve Account shall, subject to Section 2.7(D), be made in the following manner:

(i) On each Payment Date, to the extent of Distributable Collections and in accordance with and subject to the priority of payments set forth in Section 2.7(B), the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to deposit into the Supplemental Reserve Account an amount equal to the Supplemental Reserve Account Deposit until the amount on deposit equals the Supplemental Reserve Account Required Balance.

(ii) On each Payment Date, the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to deposit into the Supplemental Reserve Account from available Collections (as set forth and in the order of priority established pursuant to

Section 2.7(B)), funds in the amount required under Section 2.7(B), if any, and the Borrower may, at its option, deposit additional funds into the Supplemental Reserve Account;

(iii) The Paying Agent shall release funds from the Supplemental Reserve Account to pay the following amounts upon direction from the Facility Administrator set forth in an Officer's Certificate (no more than once per calendar month) in the following order of priority:

- (a) the costs (inclusive of labor costs) of replacement of any Inverter that no longer has the benefit of a Manufacturer Warranty and for which (1) the Manager is not obligated under the related Management Agreement to cover the replacement costs of such Inverter (or if so obligated, has failed to pay such costs) and the related Financing Fund has insufficient funds to pay replacement costs for such Inverter or (2) the Facility Administrator in its role as Manager has paid under the related Management Agreement;
- (b) the amount of any deductible in connection with each claim paid by the Tax Loss Insurer under the related Tax Loss Insurance Policy plus the amount of the difference, if any, between (1) the amount of a Tax Loss Indemnity and (2) the sum of the amount of proceeds of a Tax Loss Insurance Policy received by a Financing Fund, as loss payee under such Tax Loss Insurance Policy with respect to the Tax Loss Indemnity and the amount of any deductible in connection therewith; and
- (c) each Purchase Option Price and the TEP V-E Withdrawal Amount when due and payable under the terms of a Financing Fund LLCA upon exercise by the related Managing Member of the related Purchase Option or exercise by the related Tax Equity Investor Member of the TEP V-E Withdrawal Right, as applicable.

(iv) Unless an Event of Default or an Amortization Event has occurred and is continuing, on any Payment Date, if, as set forth on the Facility Administrator Report, amounts on deposit in the Supplemental Reserve Account are greater than the Supplemental Reserve Account Required Balance (after giving effect to all other distributions and disbursements and all releases and withdrawals on such Payment Date), the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to withdraw funds in excess of the Supplemental Reserve Account Required Balance from the Supplemental Reserve Account and disburse such amounts into the Borrower's Account;

(v) If on any Payment Date (after giving effect to any withdrawals from the Liquidity Reserve Account) available funds on deposit in the Collection Account would be insufficient to pay the interest payments or other amounts due and payable pursuant to Section 2.7(B)(i) through (iii)(a), (vii) and (ix) on such Payment Date, the Facility Administrator shall direct the Paying Agent, based on the Facility Administrator Report, to withdraw from the Supplemental Reserve Account an amount equal to the lesser of such insufficiency and the amount on deposit in the Supplemental Reserve Account and deposit such amount into the Collection Account and apply such amount to payments set forth in Section 2.7(B)(i) through (iii)(a), (vii) and (ix); and

(vi) If on any Payment Date, the Borrower has provided notice to the Administrative Agent that (x)(1) a Managing Member has irrevocably provided notice to the related Tax Equity Investor that it will not exercise the related Purchase Option or (2) the period in which such Purchase Option may be exercised under the related Financing Fund LLCA has expired and cannot be extended and (y) with respect to TEP V-E only (1) the Tax Equity Investor Member for TEP V-E has irrevocably provided notice to the related Managing Member that it will not exercise the TEP V-E Withdrawal Right or (2) the period in which TEP V-E Withdrawal Right may be exercised under the related Financing Fund LLCA has expired and cannot be extended, the Borrower may direct the Paying Agent, to withdraw from the Supplemental Reserve Account any related amounts on deposit therein in respect of clause (X)(ii)(a) of the definition of "Supplemental Reserve Account Required Balance" or, with respect to TEP V-E only, clause (Y) of the definition of "Supplemental Reserve Account Required Balance" and deposit such amounts into the Collection Account for application in accordance with Section 2.7; and

(vii) On the date on which the Aggregate Outstanding Advances are reduced to zero, the Administrative Agent shall cause the Paying Agent, pursuant to a written direction, to withdraw all amounts on deposit in the Supplemental Reserve Account and deposit such amounts into the Collection Account to be paid in accordance with Section 2.7(B).

Notwithstanding anything in this Section 8.2(D) to the contrary, in lieu of or in substitution for moneys otherwise required to be deposited to the Supplemental Reserve Account, the Borrower (or the Facility Administrator on behalf of the Borrower) may deliver or cause to be delivered to the Paying Agent a Letter of Credit; *provided* that any deposit into the Supplemental Reserve Account required to be made by the Borrower (or the Facility Administrator on behalf of the Borrower) after the replacement of amounts on deposit in the Supplemental Reserve Account with a Letter of Credit shall be made by the Borrower (or the Facility Administrator on behalf of the Borrower) by way of cash deposits to the Supplemental Reserve Account as provided in Section 2.7(B) or pursuant to the Borrower's (or the Facility Administrator's on behalf of the Borrower) causing an increase in the Letter of Credit or the delivery to the Paying Agent of an additional Letter of Credit.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Supplemental Reserve Account, and if any withdrawals from the Supplemental Reserve Account will be required under this Section 8.2(D) or otherwise, the Administrative Agent (or the Borrower with the written consent of the Administrative Agent) shall, no later than three (3) Business Days prior to the applicable Payment Date or payment date, direct the Paying Agent in writing to draw on the Letter of Credit, which direction shall provide the required draw amount. The Administrative Agent (or the Borrower with the written consent of the Administrative Agent) shall direct the Paying Agent to submit the drawing documents to the applicable Eligible Letter of Credit Bank no later than 5:00 P.M. (New York City time) on the second (2nd) Business Day after the Paying Agent receives such direction. Upon the receipt of the proceeds of any such drawing, the Paying Agent shall deposit such proceeds into the Supplemental Reserve Account. Any (A) references in the Transaction Documents to amounts on deposit in the Supplemental Reserve Account or amounts in or credited to the Supplemental Reserve Account shall include or be deemed to include the aggregate available amount of the Letters of Credit delivered to the Paying Agent pursuant to this Section 8.2(D), and (B) Letter of Credit delivered by the Borrower (or the Facility Administrator on behalf of the Borrower) to the Paying Agent pursuant to this Section 8.2(D) shall be held as an asset of the Supplemental Reserve Account and valued for purposes of determining

the amount on deposit in the Supplemental Reserve Account at the amount as of any date then available to be drawn on such Letter of Credit.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Supplemental Reserve Account, then: (i) if the Letter of Credit is scheduled to expire by its terms and ten (10) days prior to the scheduled expiration date such Letter of Credit has not been extended or replaced, then the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall on such tenth (10th) day prior to the scheduled expiration date notify the Paying Agent in writing of such failure to extend or replace the Letter of Credit, and the Paying Agent shall, submit the drawing documents delivered to it by the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent to the Eligible Letter of Credit Bank no later than 5:00 P.M. (New York City time) on the second (2nd) Business Day prior to the scheduled expiration date and draw the full amount of such Letter of Credit and deposit the proceeds of such drawing into the Supplemental Reserve Account, and (ii) if the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent notifies the Paying Agent in writing that the financial institution issuing the Letter of Credit ceases to be an Eligible Letter of Credit Bank or a Responsible Officer of the Paying Agent otherwise receives written notice that the financial institution issuing the Letter of Credit ceases to be an Eligible Letter of Credit Bank, then the Paying Agent shall, no later than the second (2nd) Business Day after receipt of any such written notice by a Responsible Officer of the Paying Agent submit the drawing documents delivered to it by the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent to draw the full amount of such Letter of Credit and deposit the proceeds of such drawing into the Supplemental Reserve Account.

If at any time a Letter of Credit is held by the Paying Agent as an asset of the Supplemental Reserve Account, the stated amount of the Letter of Credit may be reduced from time to time, to the extent of any reduction in the dollar amount of the Supplemental Reserve Account Required Balance. Each month upon receipt by the Paying Agent of the Facility Administrator Report if such Facility Administrator Report shows a reduction in the Supplemental Reserve Account Required Balance, then the Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall, prior to the related Payment Date, direct the Paying Agent to send the Eligible Letter of Credit Bank a letter in the form provided in the Letter of Credit to reduce the stated amount of the Letter of Credit. The Borrower (or the Facility Administrator on behalf of the Borrower) or the Administrative Agent shall ensure that the letter submitted shall provide for the reduction to be effective as of the close of business on the related Payment Date. The reduction shall be in the amount shown on the Facility Administrator Report as the Supplemental Reserve Account "reductions" and the remaining stated amount of the Letter of Credit shall be equal to the Supplemental Reserve Account Required Balance "ending required amount" as shown on the Facility Administrator Report. Any drawing on the Letter of Credit may be reimbursed by the Borrower only from amounts remitted to the Borrower pursuant to clauses (xiii) or (xiv) of Section 2.7(B).

Notwithstanding the foregoing or any other provision to the contrary in this Agreement or any other Transaction Document, in no event shall the Paying Agent be required to report, track, calculate or monitor the value, available amount or any other information regarding any Letter of Credit for any party hereto or beneficiary of or under the Supplemental Reserve Account, except as expressly required pursuant to this Section 8.2(D).

(E) *Deposits and Withdrawals from the SAP Revenue Account.* Deposits into the SAP Revenue Account shall be made consistent with Section 5.1(R). The Paying Agent shall withdraw all amounts on deposit in the SAP Revenue Account in excess of \$55,000 on the first Business Day of each calendar month and remit such amounts to the Collection Account. The Manager shall be permitted to withdraw up to \$55,000 in the aggregate during each calendar month from the SAP Revenue Account to pay Operational Amounts in accordance with the related SAP Financing Documents. On the date on which the Aggregate Outstanding Advances are reduced to zero, the Administrative Agent shall cause the Paying Agent, pursuant to a written direction, to withdraw all amounts on deposit in the SAP Revenue and deposit such amounts into the Collection Account to be paid in accordance with Section 2.7(B).

(F) *Paying Agent Account Control.* (i) Each Paying Agent Account shall be established and at all times maintained with the Paying Agent which shall act as a “securities intermediary” (as defined in Section 8-102 of the UCC) and a “bank” (as defined in Section 9-102 of the UCC) hereunder (in such capacities, the “Securities Intermediary”) with respect to each Paying Agent Account. The Paying Agent hereby confirms that, as of the Amendment and Restatement Date, the account numbers of each of the Paying Agent Accounts are as described on Schedule II attached hereto.

(ii) Each Paying Agent Account shall be a “securities account” as defined in Section 8-501 of the UCC and shall be maintained by the Paying Agent as a securities intermediary for and in the name of the Borrower, subject to the lien of the Administrative Agent, for the benefit of the Secured Parties. The Paying Agent shall treat the Administrative Agent as the “entitlement holder” (within the meaning of Section 8-102(a)(7) of the UCC) in respect of all “financial assets” (within the meaning of Section 8-102(a)(9) of the UCC) credited to the Paying Agent Accounts.

(iii) The Paying Agent hereby confirms and agrees that:

(a) the Paying Agent shall not change the name or account number of any Paying Agent Account without the prior written consent of the Administrative Agent and the Borrower;

(b) all securities or other property underlying any financial assets (as hereinafter defined) credited to a Paying Agent Account shall be registered in the name of the Paying Agent, indorsed to the Paying Agent or indorsed in blank or credited to another securities account maintained in the name of the Paying Agent, and in no case will any financial asset credited to a Paying Agent Account be registered in the name of the Borrower or any other Person, payable to the Borrower or specially indorsed to the Borrower or any other Person, except to the extent the foregoing have been specially indorsed to the Administrative Agent, for the benefit of the Secured Parties, or in blank;

(c) all property transferred or delivered to the Paying Agent pursuant to this Agreement will be credited to the appropriate Borrower Account in accordance with the terms of this Agreement;

(d) each Paying Agent Account is an account to which financial assets are or may be credited, and the Paying Agent shall, subject to the terms of this Agreement, treat

each of the Borrower and the Facility Administrator as entitled to exercise the rights that comprise any financial asset credited to each such Paying Agent Account; and

(e) notwithstanding the intent of the parties hereto, to the extent that any Paying Agent Account shall be determined to constitute a “deposit account” within the meaning of Section 9-102(a)(29) of the UCC, such Paying Agent Account shall be subject to the exclusive control of the Administrative Agent, for the benefit of the Secured Parties, and the Paying Agent will comply with instructions originated by the Administrative Agent directing disposition of the funds in such Paying Agent Account, without further consent by the Borrower or the Facility Administrator; provided that, notwithstanding the foregoing, the Administrative Agent hereby authorizes the Paying Agent to honor withdrawal, payment, transfer or other instructions directing disposition of the funds in the Collection Account received from the Borrower or the Facility Administrator, on its behalf, pursuant to Section 2.7 or this Section 8.2.

(iv) The Paying Agent hereby agrees that each item of property (including, without limitation, any investment property, financial asset, security, instrument or cash) credited to any Paying Agent Account shall be treated as a “financial asset” within the meaning of Section 8-102(a)(9) of the UCC.

(v) If at any time the Paying Agent shall receive an “entitlement order” (as defined in Section 8-102(a)(8) of the UCC) (an “*Entitlement Order*”) from the Administrative Agent (i.e., an order directing a transfer or redemption of any financial asset in any Paying Agent Account), or any “instruction” (within the meaning of Section 9-104 of the UCC), originated by the Administrative Agent, the Paying Agent shall comply with such Entitlement Order or instruction without further consent by the Borrower, the Facility Administrator or any other Person. Neither the Facility Administrator nor the Borrower shall make any withdrawals from any Paying Agent Account, except pursuant to Section 2.7 or this Section 8.2.

(vi) In the event that the Paying Agent has or subsequently obtains by agreement, by operation of law or otherwise a security interest in any Paying Agent Account or any financial assets, funds, cash or other property credited thereto or any security entitlement with respect thereto, the Paying Agent hereby agrees that such security interest shall be subordinate to the security interest of the Administrative Agent, for the benefit of the Secured Parties. Notwithstanding the preceding sentence, the financial assets, funds, cash or other property credited to any Paying Agent Account will not be subject to deduction, set-off, banker’s lien, or any other right in favor of any Person other than the Administrative Agent, for the benefit of the Secured Parties (except that the Paying Agent may set-off (i) all amounts due to the Paying Agent in its capacity as securities intermediary in respect of customary fees and expenses for the routine maintenance and operation of the Paying Agent Accounts, and (ii) the face amount of any checks that have been credited to the Paying Agent Accounts but are subsequently returned unpaid because of uncollected or insufficient funds).

(vii) Regardless of any provision in any other agreement, for purposes of the UCC, New York shall be deemed to be the “bank’s jurisdiction” (within the meaning of Section 9-304

of the UCC) and the “security intermediary’s jurisdiction” (within the meaning of Section 8-110 of the UCC).

(viii) If, at any time, the Paying Agent resigns, is removed hereunder or ceases to meet the eligibility requirements of an Eligible Institution, the Facility Administrator, for the benefit of the Administrative Agent and the Lenders, shall within thirty (30) days establish a new Collection Account, Supplemental Reserve Account, Liquidity Reserve Account, the SAP Revenue Account, and Takeout Transaction Account meeting the conditions specified above with an Eligible Institution reasonably acceptable to the Administrative Agent and transfer any cash and/or any investments held therein or with respect thereto to such new Collection Account, Supplemental Reserve Account, Liquidity Reserve Account, SAP Revenue Account, or Takeout Transaction Account, as applicable. From the date such new Collection Account, Supplemental Reserve Account, Liquidity Reserve Account, SAP Revenue Account, or Takeout Transaction Account is established, it shall be the “Collection Account,” “Supplemental Reserve Account,” “Liquidity Reserve Account,” “SAP Revenue Account,” or “Takeout Transaction Account” hereunder, as applicable.

(G) *Permitted Investments.* Prior to an Event of Default, the Facility Administrator (and after an Event of Default, the Administrative Agent) may direct each banking institution at which the Collection Account, the Liquidity Reserve Account, Supplemental Reserve Account, SAP Revenue Account, or Takeout Transaction Account shall be established, in writing, to invest the funds held in such accounts in one or more Permitted Investments. Absent such written direction, such funds shall remain uninvested. All investments of funds on deposit in the Collection Account, the Liquidity Reserve Account, Supplemental Reserve Account, SAP Revenue Account, or Takeout Transaction Account shall be uninvested so that such funds will be available on the Business Day immediately preceding the date on which the funds are to be disbursed from such account, unless otherwise expressly set forth herein. All interest derived from such Permitted Investments shall be deemed to be “investment proceeds” and shall be deposited into such account to be distributed in accordance with the requirements hereof. The taxpayer identification number associated with the Collection Account, the Liquidity Reserve Account, Supplemental Reserve Account, SAP Revenue Account, and Takeout Transaction Account shall be that of the Borrower, and the Borrower shall report for federal, state and local income tax purposes the income, if any, earned on funds in such accounts.

*Section 8.3. Adjustments*

. If the Facility Administrator makes a mistake with respect to the amount of any Collection or payment and deposits, pays or causes to be deposited or paid, an amount that is less than or more than the actual amount thereof, the Facility Administrator shall appropriately adjust the amounts subsequently deposited into the applicable account or paid out to reflect such mistake for the date of such adjustment. Any Eligible Solar Asset in respect of which a dishonored check is received shall be deemed not to have been paid.

*Section 9.4. Certain Matters Affecting the Paying Agent*

. Notwithstanding anything herein to the contrary:

(A) The Paying Agent undertakes to perform such duties and only such duties as are specifically set forth in this Agreement. The Paying Agent shall not have any duties or responsibilities except those expressly set forth in this Agreement.

(B) The Paying Agent shall not be subject to any fiduciary or other implied duties, obligations or covenants regardless of whether an Event of Default has occurred and is continuing.

(C) The Paying Agent shall not be liable for any action taken or any error of judgment made in good faith by an officer or officers of the Paying Agent, unless it shall be conclusively determined by the final judgment of a court of competent jurisdiction not subject to appeal or review that the Paying Agent was grossly negligent or acted with willful misconduct in ascertaining the pertinent facts.

(D) The Paying Agent shall not be liable with respect to any action taken or omitted to be taken by it in good faith in accordance with any direction given or certificate or other document delivered to the Paying Agent under this Agreement or any other Transaction Document.

(E) None of the provisions of this Agreement or any other Transaction Document shall require the Paying Agent to expend or risk its own funds or otherwise to incur any liability, financial or otherwise, in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers if it shall have reasonable grounds for believing that repayment of such funds or indemnity satisfactory to it against such risk or liability is not assured to it.

(F) The Paying Agent may conclusively rely and shall be fully protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, consent, order, approval or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties, and shall be under no obligation to inquire as to the adequacy, content, accuracy or sufficiency of any such information or be under any obligation to make any calculation (or re-calculation), certification, or verification in respect of any such information and shall not be liable for any loss that may be occasioned thereby. The Paying Agent may also, but shall not be required to, rely upon any statement made to it orally or by telephone and believed by it to have been made by the proper person, and shall not incur any liability for relying thereon.

(G) Whenever in the administration of the provisions of this Agreement or any other Transaction Document the Paying Agent shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action to be taken hereunder, such matter may, in the absence of gross negligence, willful misconduct or bad faith on the part of the Paying Agent, be deemed to be conclusively proved and established by a certificate delivered to the Paying Agent hereunder, and such certificate, in the absence of gross negligence, willful misconduct or bad faith on the part of the Paying Agent, shall be full warrant to the Paying Agent for any action taken, suffered or omitted by it under the provisions of this Agreement or any other Transaction Document.

(H) The Paying Agent, at the expense of the Borrower, may consult with counsel, and the advice or any opinion of counsel shall be full and complete authorization and protection in respect of any action taken or omitted by it hereunder in good faith and in accordance with such advice or opinion of counsel; provided however that such costs of counsel are reasonable and documented. Before the Paying Agent acts or refrains from acting hereunder, it may require and shall be entitled to receive an Officer's Certificate and/or an opinion of counsel, the costs of which (including the Paying Agent's reasonable and documented attorney's fees and expenses) shall be paid by the party requesting that the Paying Agent act or refrain from acting. The Paying Agent shall not be liable for any action it takes or omits to take in good faith in reliance on such Officer's Certificate or opinion of counsel.

(I) The Paying Agent shall not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, entitlement order, approval or other paper or document.

(J) Except as provided expressly in Section 8.2(G) hereof, the Paying Agent shall have no obligation to invest and reinvest any cash held in any of the accounts hereunder in the absence of a timely and specific written investment direction pursuant to the terms of this Agreement. In no event shall the Paying Agent be liable for the selection of investments or for investment losses incurred thereon. The Paying Agent shall have no liability in respect of losses incurred as a result of the liquidation of any investment prior to its stated maturity or the failure of another party to timely provide a written investment direction pursuant to the terms of this Agreement. Investments in any Permitted Investments are not obligations or recommendations of, or endorsed or guaranteed by, the Paying Agent or its Affiliates. The Paying Agent and its Affiliates may provide various services for Permitted Investments and may be paid fees for such services. Each party hereto understands and agrees that proceeds of the sale of investments of the funds in any account maintained with the Paying Agent will be deposited by the Paying Agent into the applicable accounts on the Business Day on which the Paying Agent receives appropriate instructions hereunder, if such instructions received by the Paying Agent prior to the deadline for same day sale of such investments. If the Paying Agent receives such instructions after the applicable deadline for the sale of such investments, such proceeds will be deposited by the Paying Agent into the applicable account on the next succeeding Business Day. The parties hereto agree that notifications after the completion of purchases and sales of investments shall not be provided by the Paying Agent hereunder, and the Paying Agent shall make available, upon request and in lieu of notifications, periodic account statements that reflect such investment activity. No statement shall be made available if no investment activity has occurred during such period.

(K) The Paying Agent may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through agents, attorneys, affiliates, custodians or nominees appointed with due care, and shall not be responsible for any action or omission on the part of any agent, attorney, custodian or nominee so appointed.

(L) Any corporation or entity into which the Paying Agent may be merged or converted or with which it may be consolidated, or any corporation or entity resulting from any merger, conversion or consolidation to which the Paying Agent shall be a party, or any corporation or entity succeeding to the business of the Paying Agent shall be the successor of the Paying Agent hereunder without the execution or filing of any paper with any party hereto or any further act on the part of any of the parties hereto except where an instrument of transfer or assignment is required by law to effect such succession, anything herein to the contrary notwithstanding.

(M) In no event shall the Paying Agent be liable for punitive, special, indirect or consequential loss or damage of any kind whatsoever (including lost profits), even if the Paying Agent has been advised of such loss or damage and regardless of the form of action.

(N) In no event shall the Paying Agent be liable for any failure or delay in the performance of its obligations under this Agreement or any related documents because of circumstances beyond the Paying Agent's control, including a failure, termination, or suspension of a clearing house, securities depository, settlement system or central payment system in any applicable part of the world or acts of God, flood, war (whether declared or undeclared), civil or military disturbances or hostilities, nuclear or natural catastrophes, political unrest, explosion, severe weather or accident, earthquake, terrorism, fire, riot, labor disturbances, strikes or work stoppages for any reason, embargo, government action, including any laws, ordinances, regulations or the like (whether domestic, federal, state, county or municipal or foreign) which delay, restrict or prohibit the providing of the services contemplated by this Agreement or any other Transaction Document or any related documents, or the unavailability of communications or computer facilities, the failure of equipment or interruption of communications or computer facilities, or the unavailability of the Federal Reserve Bank wire or telex or other wire or communication facility, or any other causes beyond the Paying Agent's control whether or not of the same class or kind as specified above.

(O) Knowledge of the Paying Agent shall not be attributed or imputed to any affiliate, line of business, or other division of Wells Fargo Bank, National Association (and vice versa).

(P) The right of the Paying Agent to perform any permissive or discretionary act enumerated in this Agreement or any other Transaction Document shall not be construed as a duty.

(Q) Absent gross negligence, bad faith or willful misconduct (in each case as conclusively determined by a court of competent jurisdiction pursuant to a final order or verdict not subject to appeal) on the part of, Wells Fargo Bank, National Association in acting in each of its capacities under this Agreement and the related Transaction Documents shall not constitute impermissible self-dealing or a conflict of interest, and the parties hereto hereby waive any conflict of interest presented by such service. Wells Fargo Bank, National Association may act as

agent for, provide banking, custodial, collateral agency, verification and other services to, and generally engage in any kind of business, with others to the same extent as if Wells Fargo Bank, National Association, were not a party hereto. Nothing in this Agreement or any other Transaction Document shall in any way be deemed to restrict the right of Wells Fargo Bank, National Association to perform such services for any other person or entity, and the performance of such services for others will not, in and of itself, be deemed to violate or give rise to any duty or obligation to any party hereto not specifically undertaken by Wells Fargo Bank, National Association hereunder or under any other Transaction Document.

(R) The Paying Agent shall not be responsible for preparing or filing any reports or returns relating to federal, state or local income taxes with respect to this Agreement or any other Transaction Document other than for the Paying Agent's compensation.

(S) The Paying Agent shall not be deemed to have notice or knowledge of, or be required to act based on, any event or information (including any Event of Default, Amortization Event or any other default and including the sending of any notice) unless a Responsible Officer of the Paying Agent has actual knowledge or shall have received written notice thereof. In the absence of such actual knowledge or receipt of such notice, the Paying Agent may conclusively assume that none of such events have occurred and the Paying Agent shall not have any obligation or duty to determine whether any Event of Default, Amortization Event or any other default has occurred. The delivery or availability of reports or other documents to the Paying Agent (including publicly available reports or documents) shall not constitute actual or constructive knowledge or notice of information contained in or determinable from those reports or documents, except for such information provided to be delivered under this Agreement to the Paying Agent; and knowledge or information acquired by any Responsible Officer of the Paying Agent in any of its respective capacities hereunder or under any other document related to this transaction, provided that the foregoing shall not relieve the Person acting as Paying Agent, as applicable, from its obligations to perform or responsibility for the manner of performance of its duties in a separate capacity under the Transaction Documents.

(T) Except as otherwise provided in this Article IX:

(i) except as expressly required pursuant to the terms of this Agreement, the Paying Agent shall not be required to make any initial or periodic examination of any documents or records for the purpose of establishing the presence or absence of defects, the compliance by the Borrower or any other Person with its representations and warranties or for any other purpose except as expressly required pursuant to the terms of this Agreement;

(ii) whether or not therein expressly so provided, every provision of this Agreement relating to the conduct or affecting the liability of or affording protection to the Paying Agent shall be subject to the provisions of this Article IX;

(iii) the Paying Agent shall not have any liability with respect to the acts or omissions of any other Person, and may assume compliance by each of the other parties to the Transaction Documents with their obligations thereunder unless a Responsible Officer of the Paying Agent is notified of any such noncompliance in writing;

(iv) under no circumstances shall the Paying Agent be personally liable for any representation, warranty, covenant, obligation or indebtedness of any other party to the Transaction Documents (other than Wells Fargo Bank, National Association in any of its capacities under the Transaction Documents);

(v) the Paying Agent shall not be held responsible or liable for or in respect of, and makes no representation or warranty with respect to (A) any recording, filing or depositing of this Agreement or any agreement referred to herein or any financing statement, continuation statement or amendments to a financing statement or continuation statement evidencing a security interest, or to see to the maintenance of any such recording or filing or depositing or to any re-recording, refiling or redepositing of any thereof, or (B) the existence, genuineness, value or protection of any collateral, for the legality, enforceability, effectiveness or sufficiency of the Transaction Documents or for the monitoring, creation, maintenance, enforceability, existence, status, validity, priority or perfection of any security interest, lien or collateral or the performance of any collateral; and

(vi) the Paying Agent shall not be required to take any action hereunder if it shall have reasonably determined, or shall have been advised by its counsel, that such action is likely to result in liability on the part of the Paying Agent or is contrary to the terms hereof or any other Transaction Document to which it is a party or is not in accordance with applicable laws.

(U) It is expressly understood and agreed by the parties hereto that the Paying Agent (i) has not provided nor will it provide in the future, any advice, counsel or opinion regarding the tax, financial, investment, securities law or insurance implications and consequences of the consummation, funding and ongoing administration of this Agreement and the matters contemplated herein, including, but not limited to, income, gift and estate tax issues, and the initial and ongoing selection and monitoring of financing arrangements, (ii) has not made any investigation as to the accuracy of any representations, warranties or other obligations of any other party to this Agreement or the other Transaction Documents or any other document or instrument and shall not have any liability in connection therewith and (iii) has not prepared or verified, or shall be responsible or liable for, any information, disclosure or other statement in any disclosure or offering document delivered in connection with this Agreement or the other Transaction Documents.

(V) The recitals contained herein shall not be taken as the statements of the Paying Agent, and the Paying Agent does not assume any responsibility for their correctness. The Paying Agent does not make any representation regarding the validity, sufficiency or enforceability of this Agreement or the other Transaction Documents or as to the perfection or priority of any security interest therein, except as expressly set forth in Section 9.2(C).

(W) In the event that (i) the Paying Agent is unsure as to the application or interpretation of any provision of this Agreement or any other Transaction Document, (ii) this Agreement is silent or is incomplete as to the course of action that the Paying Agent is required or permitted to take with respect to a particular set of facts, or (iii) more than one methodology can be used to make any determination or calculation to be performed by the Paying Agent hereunder, then the Paying Agent may give written notice to the Administrative Agent (with a

copy to each Lender) requesting written instruction and, to the extent that the Paying Agent acts or refrains from acting in good faith in accordance with any such written instruction, the Paying Agent shall not be personally liable to any Person. If the Paying Agent shall not have received such written instruction within ten (10) calendar days of delivery of notice to the Administrative Agent (or within such shorter period of time as may reasonably be specified in such notice or as may be necessary under the circumstances) it may, but shall be under no duty to, take or refrain from taking any action, and shall have no liability to any Person for such action or inaction.

(X) The Paying Agent shall be under no obligation to exercise any of the rights or powers vested in it by this Agreement or any other Transaction Document or to institute, conduct or defend any litigation hereunder or thereunder or in relation hereto or thereto at the request, order or direction of any of any Person, unless such Person with the requisite authority shall have offered to the Paying Agent security or indemnity satisfactory to the Paying Agent against the costs, expenses and liabilities (including the reasonable and documented fees and expenses of the Paying Agent's counsel and agents) which may be incurred therein or thereby.

(Y) The Paying Agent shall have no duty (i) to maintain or monitor any insurance or (ii) to see to the payment or discharge of any tax, assessment, or other governmental charge or any lien or encumbrance of any kind owing with respect to, assessed or levied against, any part of the Collateral.

(Z) Notwithstanding anything to the contrary in this Agreement, the Paying Agent shall not be required to take any action that is not in accordance with applicable law.

(AA) The rights, benefits, protections, immunities and indemnities afforded the Paying Agent hereunder shall extend to the Paying Agent (in any of its capacities) under any other Transaction Document or related agreement as though set forth therein in their entirety *mutatis mutandis*.

#### *Section 9.5. Indemnification*

. The Borrower and the Facility Administrator (for so long as the Facility Administrator is an Affiliate of the Borrower) agree, jointly and severally, to reimburse and indemnify, defend and hold harmless the Paying Agent, in its individual and representative capacities, and its officers, directors, agents and employees (collectively, the “*Paying Agent Indemnified Parties*”) against any and all fees, costs, damages, losses, suits, claims, judgments, liabilities, obligations, penalties, actions, expenses (including the reasonable and documented fees and expenses of counsel and court costs) or disbursements of any kind and nature whatsoever, regardless of the merit, which may be imposed on, incurred by or demanded, claimed or asserted against any of them in any way directly or indirectly relating to or arising out of or in connection with this Agreement or any other Transaction Document or any other document delivered in connection herewith or therewith or the transactions contemplated hereby or thereby, or the enforcement of any of the terms hereof or thereof or of any such other documents, including in connection with any enforcement (including any action, claim or suit brought) by any Paying Agent Indemnified Party of its rights hereunder or thereunder (including rights to indemnification), *provided*, that none of the Borrower or the Facility Administrator shall be liable for any of the foregoing to the extent arising from the gross negligence, willful misconduct or bad faith of the Paying Agent, as determined by the final judgment of a court of competent jurisdiction, no longer subject to appeal or review. The provisions of this Section 9.5 shall survive the discharge, termination or assignment of this Agreement or any related agreement or the earlier of the resignation or removal of the Paying Agent. This Section 9.5 shall not apply with respect to Taxes other than any Taxes that represent losses, liabilities, claims and damages arising from any non-Tax Proceeding. The Paying Agent Indemnified Parties’ reasonable and documented expenses are intended as expenses of administration.

#### *Section 9.6. Successor Paying Agent*

. The Paying Agent may resign at any time by giving at least thirty (30) days’ prior written notice thereof to the other parties hereto; *provided*, that no such resignation shall become effective until a successor Paying Agent that is satisfactory to the Administrative Agent and, to the extent no Event of Default or Amortization Event has occurred and is continuing, the Borrower, has been appointed hereunder. The Paying Agent may be removed at any time for cause by at least thirty (30) days’ prior written notice received by the Paying Agent from the Administrative Agent. Upon any such resignation or removal, the Administrative Agent shall have the right to appoint a successor Paying Agent that is satisfactory to the Borrower (unless an Event of Default or Amortization Event has occurred and is continuing). If no successor Paying Agent shall have been so appointed and shall have accepted such appointment within thirty (30) days after the exiting Paying Agent’s giving notice of resignation or receipt of notice of removal, then the exiting Paying Agent may, at the sole expense (including all fees, costs and expenses (including attorneys’ reasonable and documented fees and expenses) incurred in connection with such petition) of the Borrower, petition a court of competent jurisdiction to appoint a successor Paying Agent. Upon the acceptance of any appointment as the Paying Agent hereunder by a successor Paying Agent, such successor Paying Agent shall thereupon succeed to and become vested with all the rights, powers, privileges and duties of the exiting Paying Agent, and the exiting Paying Agent shall be discharged from its duties and obligations hereunder. After any exiting Paying Agent’s resignation hereunder, the provisions of this Article IX shall continue in effect for its benefit in respect of any actions taken or omitted to be taken by it while it was acting as the Paying Agent hereunder. If the Paying Agent consolidates with, merges or converts into, or transfers or sells all or substantially all its corporate trust business or assets to, another Person, the resulting, surviving or transferee Person without any further act shall be the successor Paying Agent.

*Section 10.4. No Waiver; Remedies*

. No failure on the part of the Administrative Agent or any Lender to exercise, and no delay in exercising, any right hereunder or under the Loan Notes shall operate as a waiver thereof; nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right. The remedies herein provided are cumulative and not exclusive of any remedies provided by law.

*Section 10.5. Indemnification*

. The Borrower agrees to indemnify the Administrative Agent, the Paying Agent, the Successor Facility Administrator, the Verification Agent, each Lender, and their respective Related Parties (collectively, the “*Indemnitees*”) from and hold each of them harmless against any and all losses, liabilities, claims, damages or expenses (including court costs and fees and expenses of counsel and of enforcing the Borrower’s indemnification obligations hereunder) to which such Indemnatee may become subject arising out of, resulting from or in connection with any claim, litigation, investigation or proceeding (each, a “*Proceeding*” (including any Proceedings under environmental laws)) relating to the Transaction Documents or any other agreement, document, instrument or transaction related thereto, the use of proceeds thereof and the transactions contemplated hereby, regardless of whether any Indemnatee is a party thereto and whether or not such Proceedings are brought by the Borrower, its equity holders, affiliates, creditors or any other third party, and to reimburse each Indemnatee upon written demand therefor (together with reasonable back-up documentation supporting such reimbursement request) for any reasonable and documented legal or other out-of-pocket expenses incurred in connection with investigating or defending any of the foregoing of one law firm to all such Indemnitees, taken as a whole, and, in the case of a conflict of interest, of one additional counsel to the affected Indemnatee taken as a whole (and, if reasonably necessary, of one local counsel and/or one regulatory counsel in any material relevant jurisdiction); *provided*, that the foregoing indemnity and reimbursement obligation will not, as to any Indemnatee, apply to (A) losses, claims, damages, liabilities or related expenses (i) to the extent they are found in a final non-appealable judgment of a court of competent jurisdiction to arise from the willful misconduct, bad faith or gross negligence of, or with respect to Indemnitees other than the Paying Agent or the Verification Agent, material breach of the Transaction Documents by, such Indemnatee or any of its affiliates or controlling persons or any of the officers, directors, employees, advisors or agents of any of the foregoing or (ii) arising out of any claim, litigation, investigation or proceeding that does not involve an act or omission of the Borrower or any of their Affiliates and that is brought by such Indemnatee against another Indemnatee (other than an Indemnatee acting in its capacity as Paying Agent, agent, arranger or any other similar role in connection with the Transaction Documents) or (B) any settlement entered into by such Indemnatee without the Borrower’s written consent (such consent not to be unreasonably withheld or delayed). This Section 10.5 shall not apply with respect to Taxes other than any Taxes that represent losses, liabilities, claims and damages arising from any non-Tax Proceeding. The provisions of this Section 10.5 shall survive the discharge, termination or assignment of this Agreement or any related agreement or the earlier of the resignation or removal of the Paying Agent or the Verification Agent. Notwithstanding anything to the contrary in this Section 10.5, the provisions of this Section shall be applied without prejudice to, and the provisions shall not have the effect of diminishing, the rights of the Paying Agent and any Paying Agent Indemnified Parties under Section 9.5 of this Agreement or any other provision of any Transaction Document providing for the indemnification of any such Persons.

*Section 10.6. Costs, Expenses and Taxes*

. The Borrower agrees to pay all reasonable and documented costs and expenses in connection with the preparation, execution, delivery, filing, recording, administration, modification, amendment or waiver of this Agreement, the Loan Notes and the other documents to be delivered hereunder, including the reasonable fees and out-of-pocket expenses of counsel for the Administrative Agent, any Lender and the Paying Agent with respect thereto and with respect to advising the Administrative Agent, such Lender and the Paying Agent as to their respective rights and responsibilities under this Agreement and the other Transaction Documents. The Borrower further agrees to pay on demand all costs and expenses, if any (including reasonable and documented counsel fees and expenses) (A) in connection with the enforcement (whether through negotiations, legal proceedings or otherwise) of this Agreement, the Loan Notes and the other documents to be delivered hereunder and (B) incurred by the Administrative Agent, any Lender or the Paying Agent in connection with the transactions described herein and in the other Transaction Documents, or any potential Takeout Transaction, including in any case reasonable and documented counsel fees and expenses in connection with the enforcement of rights under this Section 10.6. Without limiting the foregoing, the Borrower acknowledges and agrees that the Administrative Agent or its counsel may at any time after an Event of Default shall have occurred and be continuing, engage professional consultants selected by the Administrative Agent to conduct additional due diligence with respect to the transactions contemplated hereby, including (A) review and independently assess the existing methodology employed by the Borrower in allocating Collections with respect to the Collateral, assess the reasonableness of the methodology for the equitable allocation of those Collections and make any recommendations to amend the methodology, if appropriate, (B) review the financial forecasts submitted by the Borrower to the Administrative Agent and assess the reasonableness and feasibility of those forecasts and make any recommendations based on that review, if appropriate, and (C) verify the asset base of the Borrower and the Borrower's valuation of their assets, as well as certain matters related thereto. The reasonable and documented fees and expenses of such professional consultants, in accordance with the provisions of this Section 10.6, shall be at the sole cost and expense of the Borrower. In addition, the Borrower shall pay any and all Other Taxes and agrees to save the Administrative Agent, the Paying Agent and each Lender harmless from and against any and all liabilities with respect to or resulting from any delay in paying or omission to pay such Other Taxes. Notwithstanding anything to the contrary set forth in this Section 10.6, the Borrower shall not be required to pay the costs or expenses of the Lenders following an Event of Default if such costs or expenses are related to disputes among the Lenders.

*Section 10.7. Right of Set-off; Ratable Payments; Relations Among Lenders*

. (A) Upon the occurrence and during the continuance of any Event of Default, and subject to the prior payment of Obligations owed to the Paying Agent, each of the Administrative Agent and the Lenders are hereby authorized at any time and from time to time, to the fullest extent permitted by law, to set off and apply any and all deposits (general or special, time or demand, provisional or final) at any time held by and other indebtedness incurred pursuant to this Agreement at any time owing to the Administrative Agent or such Lender to or for the credit or the account of the Borrower against any and all of the obligations of the Borrower now or hereafter existing under this Agreement and the Loan Notes, whether or not the Administrative Agent or such Lenders shall have made any demand under this Agreement or the Loan Notes and although such obligations may be unmatured. The Administrative Agent and each Lender agrees promptly to notify the Borrower after any such set-off and application; *provided* that the failure to give such notice shall not affect the validity of such set-off and application. The rights of the Administrative Agent and the Lenders under this Section 10.7(A) are in addition to

other rights and remedies (including other rights of set-off) which the Administrative Agent and the Lenders may have.

(B) If any Lender, whether by setoff or otherwise, has payment made to it upon its Advances in a greater proportion than that received by any other Lender, such other Lender agrees, promptly upon demand, to purchase a portion of the Advances held by the Lenders so that after such purchase each Lender will hold its ratable share of Advances. If any Lender, whether in connection with setoff or amounts which might be subject to setoff or otherwise, receives collateral or other protection for its Obligations or such amounts which may be subject to setoff, such Lender agrees, promptly upon written demand, to take such action necessary such that all Lenders share in the benefits of such collateral ratably in proportion to the obligations owing to them. In case any such payment is disturbed by legal process, or otherwise, appropriate further adjustments shall be made.

(C) Except with respect to the exercise of set-off rights of any Lender in accordance with Section 10.7(A), the proceeds of which are applied in accordance with this Agreement, each Lender agrees that it will not take any action, nor institute any actions or proceedings, against the Borrower or any other obligor hereunder or with respect to any Collateral or Transaction Document, without the prior written consent of the other Lenders or, as may be provided in this Agreement or the other Transaction Documents, at the direction of the Administrative Agent.

(D) The Lenders are not partners or co-venturers, and no Lender shall be liable for the acts or omissions of, or (except as otherwise set forth herein in case of the Administrative Agent) authorized to act for, any other Lender.

*Section 10.8. Binding Effect; Assignment*

(A) This Agreement shall be binding upon and inure to the benefit of the Borrower, the Paying Agent, the Verification Agent, the Facility Administrator and the Administrative Agent and each Lender, and their respective successors and assigns, except that the Borrower shall not have the right assign to its rights hereunder or any interest herein without the prior written consent of the Administrative Agent and the Lenders, and any assignment by Borrower in violation of this Section 10.8 shall be null and void. Any Lender may at any time, without the consent of the Borrower or the Administrative Agent, assign all or any portion of its rights and obligations under this Agreement and any Loan Note to a Federal Reserve Bank and each Conduit Lender may assign its rights and obligations under this Agreement to a Program Support Provider; *provided*, that no such assignment or pledge shall release the transferor Lender from its obligations hereunder. Each Lender may assign to one or more banks or other entities all or any part or portion of, or may grant participations to one or more banks or other entities in all or any part or portion of its rights and obligations hereunder (including, without limitation, its Commitment, its Loan Notes or its Advances); *provided* that during the Availability Period, no Lender may transfer or assign any portion of its rights and obligations under this Agreement or any Loan Note to a Disqualified Lender; *provided further* that each such assignment (A) shall be substantially in the form of Exhibit F hereto or any other form reasonably acceptable to the Administrative Agent and (B) shall either be made (i) to a Permitted Assignee or (ii) to a Person that is acceptable to the Administrative Agent in its reasonable discretion (such consent not to be unreasonably withheld or delayed) unless an Event of Default or Amortization Event shall have occurred and be continuing.

(B) If any assignment or participation is made to a Disqualified Lender in violation of this Section 10.8, the Borrower may upon notice to the applicable Disqualified Lender and the

Administrative Agent, (A) purchase or prepay the Advances held by such Disqualified Lender by paying the lesser of (x) the principal amount thereof and (y) the amount that such Disqualified Lender paid to acquire such Advances, in each case plus accrued interest, accrued fees and all other amounts (other than principal amounts) payable to it hereunder and/or (B) require such Disqualified Lender to assign, without recourse (in accordance with and subject to the restrictions contained in this Section 10.8), all of its interest, rights and obligations under this Agreement to one or more banks or other entities at the lesser of (x) the principal amount thereof and (y) the amount that such Disqualified Lender paid to acquire such interests, rights and obligations, in each case plus accrued interest, accrued fees and all other amounts (other than principal amounts) payable to it hereunder.

Disqualified Lenders (A) will not, absent an Event of Default or consent from the Borrower (x) have the right to receive financial reports that are not publicly available, Facility Administrator Reports or other reports or confidential information provided to Lenders by the Borrower or the Administrative Agent (other than Tax reporting information with respect to the Advances), (y) attend or participate in meetings with the Borrower attended by the Lenders and the Administrative Agent, or (z) access any electronic site maintained by the Borrower or Administrative Agent to provide Lenders with confidential information or confidential communications from counsel to or financial advisors of the Administrative Agent and (B) (x) for purposes of any consent to any amendment, waiver or modification of, or any action under, and for the purpose of any direction to the Administrative Agent or any Lender to undertake any action (or refrain from taking any action) under this Agreement or any other Transaction Document, each Disqualified Lender will be deemed to have consented in the same proportion as the Lenders that are not Disqualified Lenders consented to such matter, and (y) for purposes of voting on any plan of reorganization or plan of liquidation, each Disqualified Lender party hereto hereby agrees (1) not to vote on such plan, (2) if such Disqualified Lender does vote on such plan notwithstanding the restriction in the foregoing clause (1), such vote will be deemed not to be in good faith and shall be “designated” pursuant to Section 1126(e) of the Bankruptcy Code (or any similar provision in any other debtor relief laws), and such vote shall not be counted in determining whether the applicable class has accepted or rejected such plan in accordance with Section 1126(c) of the Bankruptcy Code (or any similar provision in any other debtor relief laws) and (3) not to contest any request by any party for a determination by a bankruptcy court (or other applicable court of competent jurisdiction) effectuating the foregoing clause (2).

(C) Upon, and to the extent of, any assignment (unless otherwise stated therein) made by any Lender hereunder, the assignee or purchaser of such assignment shall be a Lender hereunder for all purposes of this Agreement and shall have all the rights, benefits and obligations (including the obligation to provide documentation pursuant to Section 2.17(G)) of a Lender hereunder. Each Funding Agent, acting solely for this purpose as an agent of the Borrower, shall maintain at one of its offices a register (the “Register”) for the recordation of the names and addresses of the Lenders in its Lender Group, the outstanding principal amounts (and accrued interest) of the Advances owing to each Lender in its Lender Group pursuant to the terms hereof from time to time and any assignment of such outstanding Advances. The entries in the Register shall be conclusive absent manifest error, and the Borrower, the Administrative Agent and the Lenders shall treat each Person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement. The Register shall be available for inspection by the Borrower, the Paying Agent and any Lender, at any reasonable time and from time to time upon reasonable prior notice.

(D) Any Lender may, without the consent of the Borrower, sell participation interests in its Advances and obligations hereunder (each such recipient of a participation a “*Participant*”); *provided* that after giving effect to the sale of such participation, such Lender’s obligations hereunder and rights to consent to any waiver hereunder or amendment hereof shall remain unchanged, such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations, all amounts payable to such Lender hereunder and all rights to consent to any waiver hereunder or amendment hereof shall be determined as if such Lender had not sold such participation interest, and the Borrower and the Administrative Agent and the other parties hereto shall continue to deal solely and directly with such Lender and not be obligated to deal with such participant. The Participant shall have no right to affect such Lender’s vote or action with respect to any matter requiring such Lender’s vote or action under this Agreement. Each Lender that sells a participation shall, acting solely for this purpose as an agent of the Borrower, maintain a register on which it enters the name and address of each Participant and the outstanding principal amounts (and accrued interest) of each Participant’s interest in the Advances or other obligations under the Transaction Documents (the “*Participant Register*”); *provided* that no Lender shall have any obligation to disclose all or any portion of the Participant Register (including the identity of any Participant or any information relating to a Participant’s interest in any commitments, loans, letters of credit or its other obligations under any Transaction Document) to any Person except to the extent that such disclosure is necessary to establish that such commitment, loan, or other obligation is in registered form under Section 5f.103-1(c) of the United States Treasury Regulations. The entries in the Participant Register shall be conclusive absent manifest error, and such Lender shall treat each Person whose name is recorded in the Participant Register as the owner of such participation for all purposes of this Agreement notwithstanding any notice to the contrary. For the avoidance of doubt, the Administrative Agent shall have no responsibility for maintaining a Participant Register. Each recipient of a participation shall, to the fullest extent permitted by law, have the same rights, benefits and obligations (including the obligation to provide documentation pursuant to Section 2.17(G)), hereunder with respect to the rights and benefits so participated as it would have if it were a Lender hereunder, except that no Participant shall be entitled to receive any greater payment under Sections 2.11 or 2.17 than its participating Lender would have been entitled to receive, except to the extent such entitlement to receive a greater payment results from a Change in Law that occurs after the Participant acquired the applicable participation.

(E) Notwithstanding any other provision of this Agreement to the contrary, (i) a Lender may pledge as collateral, or grant a security interest in, all or any portion of its rights in, to and under this Agreement to a security trustee in connection with the funding by such Lender of Advances without the consent of the Borrower; *provided* that no such pledge or grant shall release such Lender from its obligations under this Agreement and (ii) a Conduit Lender may at any time, without any requirement to obtain the consent of the Administrative Agent or the Borrower, pledge or grant a security interest in all or any portion of its rights (including, without limitation, rights to payment of capital and yield) under this Agreement to a collateral agent or trustee for its commercial paper program.

(F) In connection with any assignment of rights and obligations of any Defaulting Lender hereunder, no such assignment shall be effective unless and until, in addition to the other conditions thereto set forth herein, the parties to the assignment shall make such additional payments to the Administrative Agent in an aggregate amount sufficient, upon distribution thereof as appropriate (which may be outright payment, purchases by the assignee of participations or subparticipations, or other compensating actions, including funding, with the consent of the Borrower and the Administrative Agent, the applicable pro rata share of Advances previously requested but not funded by the Defaulting

Lender, to each of which the applicable assignee and assignor hereby irrevocably consent), to (x) pay and satisfy in full all payment liabilities then owed by such Defaulting Lender to the Administrative Agent, or any Lender hereunder (and interest accrued thereon) and (y) acquire (and fund as appropriate) its full pro rata share of all Advances in accordance with its Lender Group Percentage. Notwithstanding the foregoing, in the event that any assignment of rights and obligations of any Defaulting Lender hereunder shall become effective under Applicable Law without compliance with the provisions of this clause (F), then the assignee of such interest shall be deemed to be a Defaulting Lender for all purposes of this Agreement until such compliance occurs.

*Section 10.9. Governing Law*

. This Agreement shall, in accordance with Section 5-1401 of the General Obligations Law of the State of New York, be governed by, and construed in accordance with, the laws of the State of New York, without regard to conflicts of law principles thereof that would call for the application of the laws of any other jurisdiction.

The Borrower and any member, manager, partner, officer, employee, agent, shareholder, director, Affiliate or holder of a limited liability company interest of or in the Borrower may rely in good faith on any document of any kind prima facie properly executed and submitted by any Person (other than the Borrower) respecting any matters arising hereunder.

*Section 10.16. Confidentiality*

. (A) Except as otherwise provided herein, the Fee Letters (including such information set forth in any engagement letter, term sheet or proposal prior to the Original Closing Date that contains fees similar in nature to those in the Fee Letters) (collectively, "*Confidential Information*") are confidential. Each of the Borrower, the Facility Administrator, the Paying Agent and the Verification Agent agrees:

(i) to keep all Confidential Information confidential and to disclose Confidential Information only to those Affiliates, officers, employees, agents, accountants, equity holders, legal counsel and other representatives of the Borrower or its Affiliates (collectively, "*Representatives*") who have a need to know such Confidential Information for the purpose of assisting in the negotiation, completion and administration of this Facility;

(iii) to maintain and keep in force procedures reasonably designed to cause its Representatives to comply with these provisions and to be responsible for any failure of any Representative to follow those procedures. The provisions of this section 10.16(A) shall not apply to Confidential Information that (a) has been approved for release by written authorization of the

appropriate party, or (b) is or hereafter becomes (through a source other than the Borrower, the Facility Administrator, the Paying Agent, the Verification Agent or their respective Affiliates or Representatives) generally available to the public and shall not prohibit the disclosure of Confidential Information to the extent required by applicable Law or by any Governmental Authority or to the extent necessary in connection with the enforcement of any Transaction Document.

The Borrower and the Facility Administrator agree not to provide copies of the Transaction Documents to any prospective investor in, or prospective lender to, the Borrower and the Facility Administrator without the prior written consent of the Administrative Agent, which shall not be unreasonably withheld, delayed or conditioned. For the avoidance of doubt, Borrower and the Facility Administrator or any other affiliate of Parent may provide copies of the Transaction Documents to any potential investor or equity holder in Parent or its affiliates, *provided* that each such Person shall have been instructed to keep the same confidential in accordance with this Section 10.16.

(B) Each Lender, each Funding Agent, and the Administrative Agent agrees to maintain the confidentiality of all nonpublic information with respect to the parties herein or any other matters furnished or delivered to it pursuant to or in connection with this Agreement or any other Transaction Document; *provided*, that such information may be disclosed (i) to such party's Affiliates or such party's or its Affiliates' officers, directors, employees, agents, accountants, legal counsel and other representatives (collectively "*Lender Representatives*"), in each case, who have a need to know such information for the purpose of assisting in the negotiation, completion and administration of the Facility and on a confidential basis, (ii) to any permitted assignee of or participant in, or any prospective assignee of or participant in, the Facility or any of its rights or obligations under this Agreement, in each case on a confidential basis, (iii) to any financing source, dealer, hedge counterparty or other similar party in connection with financing or risk management activities related to the Facility, (iv) to any Commercial Paper rating agency (including by means of a password protected internet website maintained in connection with Rule 17g-5), (v) to the extent required by applicable Law or by any Governmental Authority, and (vi) to the extent necessary in connection with the enforcement of any Transaction Document.

The provisions of this Section 10.16 shall not prohibit any Lender, any Funding Agent or the Administrative Agent from filing with or making available to any judicial, governmental or regulatory agency or providing to any Person with standing any information or other documents with respect to the Facility as may be required by applicable Law or requested by such judicial, governmental or regulatory agency.

*Section 10.17. Limited Recourse*

. All amounts payable by the Borrower on or in respect of the Obligations shall constitute limited recourse obligations of the Borrower secured by, and payable solely from and to the extent of, the Collateral; *provided* that (A) the foregoing shall not limit in any manner the ability of the Administrative Agent or any other Lender to seek specific performance of any Obligation (other than the payment of a monetary obligation in excess of the amount payable solely from the Collateral), (B) the provisions of this Section 10.17 shall not limit the right of any Person to name the Borrower as party defendant in any action, suit or in the exercise of any other remedy under this Agreement or the other Transaction Documents and (C) when any portion of the Collateral is transferred in a transfer permitted under and in accordance with this Agreement, the security interest in and Lien on such Collateral shall automatically be released, and the Lenders under this Agreement will no longer have any security interest in, lien on, or claim against such Collateral. No recourse shall be sought or had for the obligations of the Borrower against any Affiliate, director, officer, shareholder, manager or agent of the Borrower other than as specified in the Transaction Documents.

*Section 10.18. Customer Identification - USA Patriot Act Notice*

. The Administrative Agent and each Lender hereby notifies the Borrower and the Facility Administrator that pursuant to the requirements of the USA Patriot Act (Title III of Pub. L. 107-56, signed into law October 26, 2001) (the "*Patriot Act*"), and the Administrative Agent's and each Lender's policies and practices, the Administrative Agent and the Lenders are required to obtain, verify and record certain information and documentation that identifies the Borrower and the Facility Administrator, which information includes the name and address of the Borrower and such other information that will allow the Administrative Agent or such Lender to identify the Borrower in accordance with the Patriot Act.

*Section 10.19. Paying Agent Compliance with Applicable Anti-Terrorism and Anti-Money Laundering Regulations*

. In order to comply with laws, rules, regulations and executive orders in effect from time to time applicable to banking institutions, including, but not limited to those relating to funding of terrorist activities and money laundering, the Paying Agent is required to obtain, verify and record certain information relating to individuals and entities which maintain a business relationship with the Paying Agent. Accordingly, each of the parties agrees to provide to the Paying Agent upon its request from time to time such identifying information and documentation as may be available for such party in order to enable the Paying Agent to comply with such laws, rules, regulations and executive orders in effect from time to time applicable to banking institutions, including, but not limited to those relating to funding of terrorist activities and money laundering.

*Section 10.20. Non-Petition*

. Each party hereto hereby covenants and agrees that it will not institute against or join any other Person in instituting against the Conduit Lender any bankruptcy, reorganization, arrangement, insolvency or liquidation proceedings or other similar proceeding under the laws of the United States or of any state of the United States or of any other jurisdiction prior to the date which is one year and one day after the payment in full of all outstanding indebtedness of the Conduit Lender. The agreements set forth in this Section 10.20 and the parties' respective obligations under this Section 10.20 shall survive the termination of this Agreement.

*Section 10.21. No Recourse*

(A) Notwithstanding anything to the contrary contained in this Agreement, the parties hereto hereby acknowledge and agree that all transactions with a Conduit Lender hereunder shall be without recourse of any kind to such Conduit Lender. A Conduit Lender shall have no liability or obligation hereunder unless and until such Conduit Lender has received such amounts pursuant to this Agreement. In addition, the parties hereto hereby agree that (i) a Conduit Lender shall have no obligation to pay the parties hereto any amounts constituting fees, reimbursement for expenses or indemnities (collectively, "*Expense Claims*") and such Expense Claims shall not constitute a claim (as defined in Section 101 of Title 11 of the Bankruptcy Code or similar laws of another jurisdiction) against such Conduit Lender, unless or until such Conduit Lender has received amounts sufficient to pay such Expense Claims pursuant to this Agreement and such amounts are not required to pay the outstanding indebtedness of such Conduit Lender and (ii) no recourse shall be sought or had for the obligations of a Conduit Lender hereunder against any Affiliate, director, officer, shareholders, manager or agent of such Conduit Lender.

(B) The agreements set forth in this Section 10.21 and the parties' respective obligations under this Section 10.21 shall survive the termination of this Agreement.

*Section 10.22. [Reserved]*

*Section 10.23. Additional Paying Agent Provisions*

. The parties hereto acknowledge that the Paying Agent shall not be required to act as a "commodity pool operator" as defined in the Commodity Exchange Act, as amended, or be required to undertake regulatory filings related to this Agreement in connection therewith.

*Section 10.24. Acknowledgement Regarding Any Supported QFCs*

. To the extent that the Transaction Documents provide support, through a guarantee or otherwise, for Hedge Agreements or any other agreement or instrument that is a QFC (such support, "QFC Credit Support" and each such QFC a "Supported QFC"), the parties acknowledge and agree as follows with respect to the resolution power of the Federal Deposit Insurance Corporation under the Federal Deposit Insurance Act and Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (together with the regulations promulgated thereunder, the "U.S. Special Resolution Regimes") in respect of such Supported QFC and QFC Credit Support (with the provisions below applicable notwithstanding that the Transaction Documents and any Supported QFC may in fact be stated to be governed by the laws of the State of New York and/or of the United States or any other state of the United States):

In the event a Covered Entity that is party to a Supported QFC (each, a “*Covered Party*”) becomes subject to a proceeding under a U.S. Special Resolution Regime, the transfer of such Supported QFC and the benefit of such QFC Credit Support (and any interest and obligation in or under such Supported QFC and such QFC Credit Support, and any rights in property securing such Supported QFC or such QFC Credit Support) from such Covered Party will be effective to the same extent as the transfer would be effective under the U.S. Special Resolution Regime if the Supported QFC and such QFC Credit Support (and any such interest, obligation and rights in property) were governed by the laws of the United States or a state of the United States. In the event a Covered Party or a BHC Act Affiliate of a Covered Party becomes subject to a proceeding under a U.S. Special Resolution Regime, Default Rights under the Transaction Documents that might otherwise apply to such Supported QFC or any QFC Credit Support that may be exercised against such Covered Party are permitted to be exercised to no greater extent than such Default Rights could be exercised under the U.S. Special Resolution Regime if the Supported QFC and the Transaction Documents were governed by the laws of the United States or a state of the United States.

*Section 10.25. Effect of Amendment and Restatement*

. Each of the parties hereto acknowledges and agrees that, upon the satisfaction of the conditions in Section 3.4, this Agreement amends, restates and in all respects replaces the Original Credit Agreement. Each of the parties hereto acknowledges and agrees that any reference to the “Credit Agreement” in the other Transaction Documents shall mean and be references to the Original Credit Agreement as amended and restated by this Agreement. All indebtedness, liabilities and obligations of the Borrower outstanding under the Original Credit Agreement and the Loan Notes and other documents delivered thereunder shall, to the extent not paid on or prior to the closing and effectiveness of this Agreement as an amended and restated Agreement on the Amendment and Restatement Date, be extended and renewed so as to continue and be Obligations outstanding hereunder. The Original Credit Agreement and other Transaction Documents as in effect prior to the Amendment and Restatement Date shall exclusively govern all acts, representations, qualifications to representations and other rights and duties of any Relevant Party hereunder and thereunder during the period of time on and after the Original Closing Date and prior to the Amendment and Restatement Date.
