Strategic vision and objectives

Chairman's report

Dear Investors,

I am delighted to again be writing to you as Chairman of Centuria Capital Group (Centuria).

Your Board remains committed to building a world class funds management platform with high quality operating divisions, each executing on a clear and considered strategy in the real estate funds management and investment bond sectors.

In addition to working with management to set strategy and define culture, the Board closely supports the group's management team in assessing, developing and implementing opportunities to optimise the outcome for Centuria and its stakeholders.

Performance

FY19 delivered strong organic and inorganic growth and Centuria continues to increase its investor relevance and scale as a leading listed funds manager.

In FY16 our organisation had a market capitalisation of just \$79 million¹ and \$1.9 billion of assets under management (AUM) spread between our real estate and the Investment Bonds divisions. In FY19, with a market capitalisation of \$746 million², \$6.2 billion³ of AUM spread across Centuria Metropolitan REIT (ASX:CMA), Australia's largest pure play office REIT, Centuria Industrial REIT (ASX:CIP), Australia's largest domestic pure play industrial REIT, our strongly performing unlisted real estate division, the newly formed healthcare sector Centuria Heathley, our Investment Bond division.

As Centuria's platform expands, we are experiencing growing support from domestic and international equity fund managers. Centuria's strong security price appreciation during FY19 leaves the Group well positioned for continued equity fund manager and general market support, with the recent heavily oversubscribed \$100 million equity raising providing good evidence of this demand. Pleasingly, Centuria's combination of strong security price appreciation and consistent distributions generated a total securityholder return (TSR⁴) of 34.4% for the FY19 year.

We have continued to see further investor interest and growing market presence with our market capitalisation now over \$830 million at the time of writing and the recent inclusion of CNI into the S&P/ASX 300 index along-side CMA and CIP.

Management

Over the course of this year, there have been some important structural changes within the organisation. Notably, Jason Huljich was promoted to Joint CEO alongside, John McBain, that was championed not only by the Board but by John himself. Having worked together for over 23 years, one may consider the appointment an obvious one. Nevertheless, the Board considered carefully the advantages and disadvantages of having joint CEO's. Ultimately, their shared history of collegiate success not only gave us great comfort but allowed the company to make sure its next generation of leadership was firmly secured.

Ross Lees has been promoted from his role as CIP's Fund Manager to Head of Funds Management, reporting through to Jason. Ross has done an exceptional job in actively managing CIP's performance in recent years. His promotion, consistent with Centuria's desire to develop talented employees and promote from within the organisation wherever possible, is again a part of our future proofing the continued stable growth and operation of your company.

You may have recently read about Centuria's acquisition of a 63% economic interest in Heathley Limited. Now renamed Centuria Heathley, this business is one of Australia's leading real estate fund managers specialising in healthcare property and has over \$600 million of funds under management.

It gives me great pleasure to welcome the Centuria Heathley family to our group, in particular the chairman and directors of their associated boards and their CEO Andrew Hemming together with his executive team.

Centuria Heathley is looking forward to establishing compelling investment opportunities for our investors within the healthcare real estate markets as we integrate their knowledge and operating relationships with our own distribution network.

Governance and Community Standards

The financial services industry is operating in a transformed and transformative regulatory environment and, together with my fellow board members and the management team, we are committed to not only keeping abreast of the evolving requirements within our industry but also adopting best practices to ensure not only compliance but adherence to community expectations of Centuria as a responsible and contributing corporate entity.

During FY19, the team took further steps to enhance its governance framework and resources as the scale of our platform increases. Along with increased staffing within our governance and compliance team, we have introduced a Senior Executive Non-Financial Risk Committee, an Information Communication Technology Committee, to address cyber security issues, and implemented new finance systems for increased efficiency and efficacy.

I am also delighted to welcome Professor Simon Rice OAM as an independent member of our Conflicts Committee. Commercial and legal conflicts regularly arise in day to day transactions in a growing group such as Centuria and there is a community and regulatory expectation that they be dealt with ethically and properly matched equality by the core belief from within. Professor Rice, who is, *inter alia*, currently Professor of Law and a Director of Professional and Community Engagement at Sydney University and a member of the Code of Conduct Committee, Australian Council for International Development, will bring an independent and analytical rigour to this important internal Committee.

Consistent with the abovementioned community expectations and our own internal ones, Centuria Life is currently working on implementing an impact and sustainable investment option in our Life Goals product capacity. Further, in

a more immediately practical example of our environmental commitment, our portfolio management team has recently established an initiative to offer our tenants solar panels for our industrial properties, whereby they can activate electrical supply savings from on-site production of energy from roof top solar.

Conclusion

I would like to express my sincere thanks to my fellow directors from both the group and responsible entity boards for their ongoing dedication towards ensuring a strong performance throughout FY19. Your commitment to exceptional leadership and the expertise you bring to Centuria sets the foundation for a collegiate and dynamic framework in which we continually challenge ourselves and seek to deliver superior results whilst delivering as a good corporate citizen.

Finally, I would like to thank our securityholders for their ongoing support for Centuria Capital Group. We remain highly focused on identifying value generating opportunities across the asset classes that form our funds management platform and delivering the results you expect of us. I look forward to discussing our results with you at our upcoming AGM.

Joint CEO Report

John McBain

JOINT CEO | Centuria Capital Group

Jason Huljich

JOINT CEO | Centuria Capital Group

Dear Investors,

It gives us great pleasure to present the 2019 Centuria Capital Limited (Centuria) Annual Report to you. This year has been another transformative one for Centuria, as we have continued to grow both in terms of scale and market position.

The Centuria real estate funds management platform which, to date, has specialised in the commercial office and industrial sectors has now expanded to include the healthcare real estate funds management sector with the recent acquisition of a major interest in Heathley Limited. This is an established healthcare property funds management business which has been renamed Centuria Heathley Limited.

Headline metrics for FY19 include total group assets under management (AUM) growing during FY19 from \$4.9 billion to \$6.2 billion¹, a year on year increase of 27% with further growth experienced in the early stages of FY20.

In addition, total securityholder return (TSR²) for FY19 was 34.4% with significant security price accretion being experienced both during FY19 and beyond FY19 close. It is this pattern of growing securityholder distributions combined with growth in scale and profitability which the Board and management strive to deliver year on year.

In terms of market position, Centuria Capital recently joined the S&P ASX 300 Index which is a significant milestone for the group offering Centuria increased exposure to a wider range of investors both globally and domestically.

Both Centuria REITs, Centuria Metropolitan REIT (ASX Code: CMA) and Centuria Industrial REIT (ASX Code: CIP) are already on the S&P/ASX 300 Index and it is our intention to continue to grow these vehicles as well as Centuria Capital to a point where

they all qualify for inclusion in the S&P ASX 200 Index as a "next step" goal.

While FY19 has been an active year for Centuria in terms of scale, our platform is now broader offering an increased range of quality investment opportunities across listed and unlisted funds in the commercial, industrial and healthcare real estate sectors. We have also bolstered our property team enabling improved Capital Transactions capacity and end to end active management of the Group's assets.

We continue to reposition the Centuria Investment Bond division, Centuria Life. During FY19 we launched the Centuria Life Goals product which is gaining traction in its market and we will discuss its progress later in this report.

We are pleased to report that Jason Huljich has been promoted from Head of Real Estate and Funds Management to Joint Chief Executive alongside John McBain. Jason and John established the Centuria Group over twenty years ago and bring strong complementary skills to the business. This appointment "future proofs" Centuria to some extent and is an excellent working example of the Board ensuring that the senior executive level is refreshed whilst retaining valuable experience and relationships within the team.

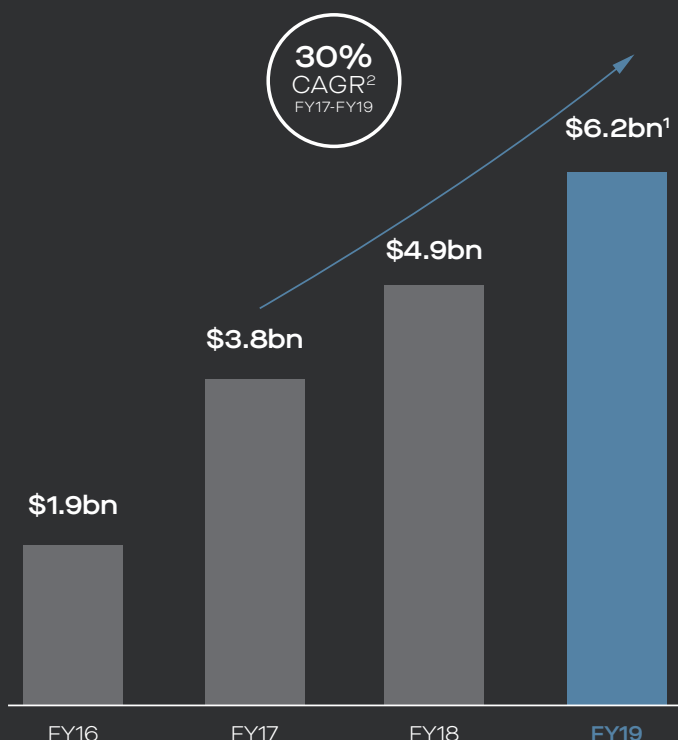

Post FY19, Centuria Capital successfully completed a \$100 million equity raising by way of an institutional placement at \$2.10 per security and also initiated a Securityholder Purchase Plan at the same price. The funds were used to coinvest in CMA's recent equity raising and for investment and capital management initiatives. Separately we committed to retiring \$35.0m of 7.0%, 2021 fixed rate corporate bonds from existing cash reserves due to past asset disposals.

Joint CEO Report

FINANCIAL RESULTS

During FY19 Centuria generated an operating net profit after tax (NPAT³) of \$45.7 million with operating earnings per stapled security (EPS⁴) of 12.7 cents (FY19 operating NPAT was \$45.1 million).

Total distributions (DPS) of 9.25 cents per stapled security were paid during FY19 which reflected a 12.8% increase on FY18.

FY19 EPS was skewed relative to the FY18 Operating EPS (16.3 cents per stapled security) arising from the abnormally high performance fee generated by the sale of 10 Spring Street, Sydney during FY18. As total revenues grow and the new accounting standard in relation to performance fee treatment becomes embedded, we expect that the level of ongoing performance fees in relative terms to be less variable and more predictable.

Recurring revenues accounted for 77.1% of total Group revenues in FY19 and Centuria's co-investments contributed \$27.6 million towards FY19 recurring revenues, while providing a total annualised return of 26.6%⁵. Property funds management operating profit excluding performance fees increased 13.1% to \$25.1 million for the year, reflecting the expansion of our real estate platform and underpinning strong recurring revenue contributions.

Centuria's balance sheet continues to strengthen with \$87.8 million of cash on hand as at 30 June 2019. Centuria is utilising its cash surplus to fund the acquisition of Heathley Limited securities, for deposits and co-investments in relation to managed funds, and to fund future growth opportunities.

AN ESTABLISHED PROPERTY FUNDS MANAGEMENT PLATFORM

FY19 marked another period of strong growth for Centuria's property funds management platform. Property AUM expanded 33% to \$5.3 billion and was underpinned by acquisitions in both the listed and unlisted divisions.

The Group activated \$1.7 billion⁶ of real estate transactions in FY19 across the platform. This was spread across four divisions including \$569 million for CMA, \$190 million for CIP, \$304 million for Centuria Unlisted and \$620 million (settled post FY19) through healthcare and the formation of Centuria Heathley.

Centuria's real estate platform is well positioned to unlock attractive investments in a continuing low interest rate environment. It is aligned to the strong office, industrial and healthcare real estate sectors and enjoys a range of tenants whose rent roll underpins our fee income streams. We believe these are compelling asset sectors which all enjoy positive demographic themes and we are confident that our operating divisions will continue to thrive in this backdrop.

We continue to seek to broaden our range of capital sources, in particular we aim to expand our institutional property mandates, assisting our ability to unlock new acquisition opportunities for the Group. The recent \$500 million

healthcare real estate mandate Centuria Heathley has agreed with Grosvenor Group and AXA IM Real Assets is a great example of the type of mandate we wish to roll out over the various asset sectors we operate in.

Finally, our investor distribution network continues to grow. Aside from our financial adviser distribution capacity, Centuria has built an extremely strong private investor network which we believe to be one of the most extensive and sophisticated in Australia.

UNLISTED REAL ESTATE DIVISION WELL POSITIONED TO GENERATE NEW OPPORTUNITIES

Centuria operates one of Australia's leading unlisted property funds management businesses.

For over 20 years, we have established deep expertise in identifying and delivering unlisted funds to our deep distribution networks. Presently, Centuria's unlisted division has \$2.0 billion of AUM across 14 fixed term funds⁷, institutional wholesale relationships and the Centuria Diversified Property Fund (CDPF).

During FY19, our open-ended diversified property fund, CDPF, increased its AUM to \$118.9 million, growing some 215% year on year and recently this fund completed two commercial property acquisitions with further acquisitions in due diligence at present.

Since FY19, we have launched the Centuria 80 Flinders Street Fund which is acquiring a high quality \$127 million Adelaide CBD asset. This fund has generated outstanding interest from both our retail investor network and adviser channel and was over-subscribed in record time.

We are extremely proud of our real estate team's ability to acquire and manage assets and add value. In the IPD/MSCI quarterly fund index, 6 of our unlisted funds have held top 10 positions for the last 10 quarters⁸.

FY19 also provided another example of our active management capabilities, culminating in the sale of 821 Pacific Highway, Chatswood, NSW (The Zenith) owned in partnership with global wholesale capital partner, Blackrock. The jointly owned A-Grade asset was acquired for \$279 million in 2016 and recently sold for \$438 million generating a strong capital gain for investors and crystallising a performance fee of over \$9 million for Centuria.

FORMATION OF CENTURIA HEATHLEY

During the year, the Group entered the strongly performing healthcare real estate sector acquiring a 63.06% economic interest in Heathley Limited for \$24.4 million.

Forming Centuria Heathley marks a new focus for our Group and effectively adds a fourth "pillar" to our existing listed and unlisted real estate funds business and with it an opportunity to scale up property funds management AUM.

Whilst already a rapidly expanding sector globally, we anticipate that healthcare will continue to emerge as an increasingly established real estate sector domestically, underpinned by strong fundamentals from Australia's ageing population, longer life expectancy, increased requirements for ongoing

healthcare and continued focus from the Federal Government on preventative care.

With over \$0.6 billion of assets under management, and an active pipeline providing capacity for near term AUM growth to approximately \$1.0 billion, Centuria Heathley has the potential to expand its asset footprint, increase recurring revenues and offer investors strong and stable returns via a range of wholesale and retail unlisted healthcare real estate funds.

During the Heathley Limited acquisition due diligence period, a \$500 million institutional healthcare real estate mandate was agreed with AXA Investment Managers – Real Assets (AXA IM) and Grosvenor Group (Grosvenor) was agreed.

Centuria Heathley will take a stake in ADHF, which has been established with two seed assets, being the Mater Private Hospital in Townsville QLD and The Westside Private Hospital in Brisbane QLD. These assets have a combined value of \$88 million.

ADHF represents the Group's largest institutional mandate to date and presents a new opportunity for us to work closely with our partners to grow the portfolio while utilising our transactional and active management capabilities.

CENTURIA'S A-REITS

During FY19, Centuria Metropolitan REIT (ASX:CMA) and Centuria Industrial REIT (ASX:CIP) continued to increase in scale and investor relevance. Both are included on the S&P/ASX300 index, and in total they comprise over 40% of Centuria's total AUM.

CMA - AUSTRALIA'S LARGEST PURE PLAY OFFICE REIT

CMA was launched by Centuria in an initial public offering in December 2014. Since then the portfolio has transformed from a relatively small diversified trust into an established pure play office REIT. CMA has expanded its portfolio from 6 office and two industrial assets to 20 office assets and as at FY19 close had reached a market capitalisation of over \$1.0 billion and an AUM of \$1.4 billion.

CMA has reweighted from smaller suburban properties to institutional grade office assets as it has improved its geographic spread.

CMA has a clear and simple objective, to continue building Australia's leading pure play office REIT. CMA's focus is on generating predictable and quality income streams and executing initiatives to create value across a portfolio of Australian office assets including reducing the portfolios average building age (by value) from 29.3 years to just 15.9 years.

During FY19, CMA acquired four high quality office properties valued at approximately \$520 million supported by a \$276 million equity raising.

Additionally, CMA recorded a 12-month total unitholder return⁹ of 22.4% vs the S&P/ASX300 A-REIT Index of 19.4%.

Post 30 June 2019, CMA has conditionally exchanged contracts to acquire two A-Grade, fringe Sydney and Perth CBD assets for \$380.5 million and completed a successful

\$273 million equity raising. Subject to completion, the acquisition will increase CMA's AUM to \$1.8 billion, improve the portfolio WALE¹⁰ from 3.9 to 4.8 years and introduce new tenants to its top 10 profile.

As part of the process, CNI will commit \$37.5 million split between a \$7.5 million entitlement and \$30 million conditional placement, which is subject to CMA Unitholder approval. Post completion of the transaction, CNI would hold approximately 22.6% of CMA's units on issue (previously 24.9%).

CIP - AUSTRALIA'S LARGEST DOMESTIC PURE PLAY INDUSTRIAL REIT

CIP has been under Centuria's management since January 2017. CIP has a clear and simple objective, to continue building Australia's leading domestic pure play industrial REIT. CIP continued to enhance the quality of its portfolio over FY19 with \$203.7 million of transactions executed.

CIP's high occupancy has been driven by another year of strong leasing results with over 113,000 sqm leased. Importantly, during FY19 all tenancies that expired were either renewed or re-leased prior to the conclusion of FY19.

Additionally, CIP recorded a 12 month total unitholder return¹¹ of 27.0% vs the S&P/ASX300 A-REIT Index of 19.4%.

CIP has commenced FY20 strongly and is well positioned for further growth with:

- AUM increasing to \$1.3 billion
- The settlement of 680 Boundary Road Richlands, QLD and 75-95 & 105 Corio Quay Road, VIC
- Conditional exchange for the \$19.5m acquisition of 32-34 Kaurna Avenue, Edinburgh Park SA
- Portfolio occupancy¹⁰ increasing to 96.1% and a WALE¹² of 4.3 years
- A market capitalisation around \$1.0 billion

CENTURIA LIFE LAUNCHES CENTURIA LIFE GOALS

Centuria Life is the fourth largest investment bond provider in Australia's \$7.4 billion¹¹ investment bond market. For more than 35 years, Centuria Life has focused on offering flexible, tax effective investment options.

In FY19, investment bonds represented \$0.9 billion of AUM across unitholded bonds, Guardian prepaid funeral plans¹² and the recently launched Centuria LifeGoals.

With the official launch of Centuria LifeGoals in the early part of 2H19 and with increased investment and a broader national distribution team to service new product, we have seen an increase in applications and strong interest from investor and advisor groups for FY20.

Centuria LifeGoals utilises an active manager selection process and features a menu of investment options to suit a range of investment styles and risk appetites in a structure that provides tax benefits, flexibility and importantly; accessibility.

There has been good progress on our dealer group awareness with growing inclusion on dealer group approved product lists. Additionally, Centuria LifeGoals recently achieved a Recommended rating¹ from Lonsec and Very Strong rating¹ from Australia Ratings.

We remain committed to the expansion of our investment bond business and believe that financial markets will continue to support this product in a rapidly changing investment and superannuation environment.

OUTLOOK

Centuria has commenced FY20 strongly and has issued FY20 distribution guidance of 9.7 cents per stapled security, an increase of 4.9% over FY19.

Activity to date has been strong, including;

- A successful equity raising for the \$127 million unlisted Centuria 80 Flinders Street Fund
- Settling a 63% economic interest in Centuria Heathley
- Establishing a \$500 million healthcare real estate institutional mandate with AXA IM Real Assets and Grosvenor Group
- Inclusion in the S&P/ASX 300 index
- Completion of a \$100 million equity raise within Centuria Capital
- Currently in due diligence for three additional unlisted assets for consideration of ~\$290m

In an increasingly uncertain global market, Australia remains an attractive investment destination for offshore capital.

Domestic interest rates and deposit rates are expected to fall and remain subdued for an extended period, and it seems likely that commercial real estate yields may contract further.

In contrast, global real estate yields are in some cases markedly lower again, underpinning a healthy level of offshore demand in support of commercial property values. Whilst there are differing views regarding how long interest rates will remain low, our base case is for this to hold true for an extended period, certainly in the two – four year range.

Accordingly, our business has strategies in place that respond to these settings and investor returns from our funds should be able to continue to provide attractive spreads against domestic deposit rates and the risk-free rate generally.

We remain focused on building a strong funds management platform aligned to the commercial, industrial and healthcare real estate sectors as well as continuing to build its investment bond business. We continue to assess transaction opportunities that will complement the existing platform, using our expanded balance sheet and increased scale to generate further growth opportunities.

Particular areas of focus include;

- Growing our funds management platform both organically and by complimentary corporate acquisitions
- Continuing to grow recurring revenue as a proportion of all revenues and to unlock ongoing performance fees from our managed funds
- Attracting further institutional capital partners in tandem with growing our already extensive retail investor network
- Matching increased investor appetite for Centuria property funds with increased asset origination, always tempered by our firm commitment to high quality investment real estate acquisitions
- Expanding the Investment bond business including Centuria LifeGoals
- Increasing market awareness for the Centuria group

We want to take this opportunity to thank our extremely committed and driven staff and our fellow senior managers for their hard work and dedication during FY19.

In addition, we wish to thank the Chairmen and the directors of both the Group and Responsible Entity boards both at Centuria and Centuria Heathley. They are a highly committed and experienced group who are extremely generous with their time and expertise. We thank them sincerely for their dedication, guidance and contribution to the Group.

Finally, we wish to thank securityholders sincerely for the confidence you place in us and the un-ending support you give us.

As part of the Commonwealth Government's National and Affordable Housing Agreement (NAHA) and the NSW State Government's Social and Affordable Housing Fund 2 (SAHF2), Centuria has partnered with Compass Housing and Tetris Capital, providers and owners of social and affordable housing, to source, develop and deliver 192 dwellings across four separate properties throughout the NSW Hunter and Central Coast regions.

Centuria has agreed to contribute circa \$20 million of equity towards the partnership, which is one of the largest in NSW. The Social and Affordable Housing sector is well positioned to benefit from State and Commonwealth Government commitments towards providing affordable living solutions in NSW and other states.

RECORD FUNDRAISING FOR ST LUCY'S SCHOOL

We take great pride in developing strong relationships and great results through our Employee Volunteering Program, which provides opportunities for staff to enhance skills and raise awareness of the challenges faced by charities and community organisations.

St Lucy's School is a primary school for students with disabilities. It provides excellence in education that empowers students with the values, knowledge, attitudes and skills to flourish and participate fully in society.

Centuria actively participated in activities to support St Lucy's School during the year, including Centuria staff volunteering at the school.

Our annual trivia night once again generated significant interest and support with over 220 attendees and \$115,000 raised resulting in our most successful fundraising to date.

Monies raised will go to support the school's Psychological Support Program and Family Support Program.

We sincerely thank all our partners and volunteers whose generosity and involvement supported the cause.

COMPANY SECRETARY

Anna Kovarik was appointed to the position of Company Secretary on 5 July 2018.

Anna holds a Masters of Information Technology, a BA (Hons) in Systems Management and was awarded a distinction in the Global Executive MBA program at the University of Sydney. She is qualified as a solicitor in both the UK and NSW and was a senior associate at Allens law practice in Sydney.

Prior to joining Centuria, Anna held the position of Group Risk Manager at Mirvac Group and was previously Head of Group Insurance for AMP and General Counsel and Company Secretary at AMP Capital Brookfield.

Mr James Lonie held the position of company secretary from 16 June 2017 until his resignation on 5 July 2018.

PRINCIPAL ACTIVITIES

The principal activities of the Group during the financial year were the marketing and management of investment products including friendly society investment bonds and property investment funds as well as direct interest in property funds and other liquid investments.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Significant changes in the state of affairs of the Group during the financial year, in addition to the operating and financial review below were as follows:

- Contributed equity attributable to Centuria Capital Group increased by \$127,902,000 from \$343,700,000 to \$471,602,000 as a result of equity raisings, capital reallocation and vesting of rights under the Employee share scheme. Details of changes in contributed equity are disclosed in Note C10 to the consolidated financial statements.

- On 22 October 2018, the Group issued Tranche 3 of secured notes to the value of \$80,000,000 consisting of \$35,000,000 floating rate secured notes and \$45,000,000 6.5% fixed rate secured notes. These notes mature on 21 April 2023.
- The Group increased its stake in Centuria Metropolitan REIT and Centuria Industrial REIT (CIP) to greater than 20% and these investments have been equity accounted in these financial statements.
- The Group sold its strategic stake in Propertylink Group (PLG) of 19.51% for \$136,899,000 cash consideration.
- The Group announced the acquisition of a 63.06% economic interest (50.0% voting interest) in Heathley Limited's property funds management platform for \$24,400,000. This transaction is due to be settled following a Heathley shareholder vote post 30 June 2019 and satisfaction of certain other conditions precedent.

As the shareholder vote and the remaining conditions precedent were not satisfied as at 30 June 2019, the transaction was not completed and Group did not have any economic interest in Heathley nor an entitlement to any dividends. As a result, the Group has not consolidated Heathley as at 30 June 2019.

Under the terms of the Heathley transaction, the Group will seek to raise \$61,700,000 by using its unlisted distribution network to support funding requirements for two Heathley funds. The Group will manage and underwrite any shortfall in the fund raising to satisfy the overall funding requirements of \$61,700,000 in addition to a further \$11,000,000 committed post year-end.

Directors' Report

OPERATING AND FINANCIAL REVIEW

The Group recorded a consolidated statutory net profit after tax for the year of \$50,941,000 (2018: \$56,190,000). Statutory net profit after tax has been prepared in accordance with the Corporations Act 2001 and Australian Accounting Standards, which comply with International Financial Reporting Standards.

The Group recorded an operating profit after tax of \$45,706,000 (2018: \$45,087,000). Operating profit after tax excludes non-operating items such as transaction costs, fair value movements and share of net profit of equity accounted investments in excess of distributions received.

The statutory net profit after tax includes a number of items that are not operating in nature, the table below provides a reconciliation from statutory profit to operating profit.

Reconciliation of statutory profit to operating profit	2019 \$'000	2018 \$'000

Total	45,706	45,087			

A detailed Segment Profit and Loss as well as a detailed Segment Balance Sheet are outlined in Notes B1 and C1 respectively.

Directors' Report

Operational highlights for the key segments were as follows:

(A) PROPERTY FUNDS MANAGEMENT

For the year ended 30 June 2019, excluding the after tax impact of performance fees the Property Funds Management segment profit increased by \$1,870,000 or 12% reflecting the growth in assets under management (AUM).

Operational highlights for the year included:

- Increase in recurring Property Funds Management fees of \$10,166,000 or 31% from \$32,649,000 for the year ended 30 June 2018 to \$42,815,000 for the year ended 30 June 2019
- 29% increase in Listed AUM from \$2.1 billion as at 30 June 2018 to \$2.7 billion as at 30 June 2019
- Centuria Industrial REIT acquired eight properties with a total value of \$147.4 million
- Centuria Metropolitan REIT acquired four properties with a total value of \$0.5 billion
- Performance fees recognised of \$22,552,000.
- Acquisition fees of \$1,135,110 from Centuria Diversified Property fund which acquired two properties during the year with a total value of \$54.7 million.

For the year ended 30 June 2019, Property Funds Management operating profit after tax of \$33,140,000 was lower than the prior year ending 30 June 2018 by \$1,081,000 primarily due to the impact of \$22,552,000 performance fees recognised in the current year in accordance with AASB 15 compared to \$25,830,000 of performance fees earned on the sale of 10 Spring Street property in the prior year.

(B) INVESTMENT BONDS MANAGEMENT

For the year ended 30 June 2019, the Investment Bonds Management segment's operating profit after tax decreased by \$1,027,000 to \$2,446,000 due to strategic review costs and launch of new and expanded range of 22 high-quality investment bond, called Centuria LifeGoals.

Centuria's Investment Bonds Management business is the fourth largest friendly society/insurance bond issuer in Australia.

(C) CO-INVESTMENTS

For the year ended 30 June 2019, the Co-Investments segment operating profit after tax increased by \$2,788,000. This was primarily due to a significant increase in Co-Investment holdings across Centuria's listed REITS compared to the prior year.

During the year, the Group's ownership stakes in Centuria Metropolitan REIT (CMA) and Centuria Industrial REIT (CIP) increased to 20.76% and 24.15% respectively. As a result, the Group's accounting treatment of these investments changed from being recognised as financial assets held at fair value to equity accounted investments.

The operating profit after tax for the Co-Investments segment represents the distributions and returns generated from those investments after the applicable financing costs.

Directors' Report

EVENTS SUBSEQUENT TO THE REPORTING DATE

Since the end of the financial year, the shareholders of Heathley have convened a meeting and approved the proposed acquisition of Heathley by the Group. There are still a number of other conditions precedent outstanding which will need to be satisfied prior to the completion of the transaction.

In addition, since the end of the financial year, the Group has committed to a further \$11,000,000 in addition to its original commitment of \$61,700,000 to support funding requirements for Heathley funds. The Group will seek to raise these funds by using its unlisted distribution network and will manage and underwrite any shortfall in the fund raising to satisfy the overall funding requirements. As at 30 June 2019, the Group had already provided funding of \$2,800,000 with a further \$2,100,000 invested since the end of the financial year.

Other than the above, there has not arisen in the interval between 30 June 2019 and the date hereof any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, that would affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, in future financial years.

LIKELY DEVELOPMENTS

The Group continues to pursue its strategy of focusing on its core operations, utilising a strengthened balance sheet to provide support to grow and develop these operations.

Further information about likely developments in the operations of the Group and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Group.

ENVIRONMENTAL REGULATION

The Group's operations are not subject to any significant environmental regulation.

INDEMNIFICATION OF OFFICERS AND AUDITORS

The Company has agreed to indemnify all current and former directors and executive officers of the Company and its controlled entities against all liabilities to persons (other than the Company or a related body corporate) which arise out of the performance of their normal duties as a director or executive officer unless the liability relates to conduct involving a lack of good faith.

The Company has agreed to indemnify the directors and executive officers against all costs and expenses incurred in defending an action that falls within the scope of the indemnity and any resulting payments.

The directors have not included details of the nature of the liabilities covered or the amount of premium paid in respect of the Directors' and Officers' liability and legal expenses insurance contracts, as such disclosure is prohibited under the terms of the contracts. The Company has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an officer or auditor of the Company or any related body corporate against a liability incurred as such an officer or auditor.

NON-AUDIT SERVICES

During the financial year, KPMG, the Group's auditor, has performed services in addition to the audit and review of the financial statements. Details of amounts paid or payable to KPMG are outlined in Note F4 to the financial statements.

The directors are satisfied that the provision of non-audit services during the year, by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The directors are of the opinion that the services as disclosed in the financial statements do not compromise the external auditor's independence, based on advice received from the Audit, Risk Management & Compliance committee, for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in Code of Conduct APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional & Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 39.

ROUNDING OF AMOUNTS

The Group is an entity of a kind referred to in ASIC Legislative Instrument 2016/191, related to the 'rounding off' of amounts in the Directors' Report and financial statements. Amounts in the Directors' Report and financial statements have been rounded off, in accordance with the instrument to the nearest thousand dollars, unless otherwise indicated.

AUDITED REMUNERATION REPORT

The remuneration report provides information about the remuneration arrangements for key management personnel (KMP), which includes Non-executive Directors and the Group's most senior management, for the year to 30 June 2019

The report is structured as follows:

- Details of KMP covered in this report
- Remuneration policy and link to performance
- Remuneration of executive directors and senior management
- Key terms of employment contracts
- Non-executive director remuneration
- Director and senior management equity holdings and other transactions

DETAILS OF KMP COVERED IN THIS REPORT

The following persons are considered KMP of the Company during or since the end of the most recent financial year:

Name	Role
Mr Garry S. Charny	Independent Non-Executive Director and Chairman
Mr Peter J. Done	Independent Non-Executive Director
Mr John R. Slater	Independent Non-Executive Director
Ms Susan Wheeldon-Steele	Independent Non-Executive Director
Mr Nicholas R. Collishaw	Non-Executive Director
Mr John E. McBain	Executive Director and Joint Chief Executive Officer
Mr Jason C. Huljich	Executive Director and Joint Chief Executive Officer
Mr Simon W. Holt	Chief Financial Officer

The term 'senior management' is used in this remuneration report to refer to the executive directors and the Chief Financial Officer.

REMUNERATION POLICY AND LINK TO PERFORMANCE

The Group recognises the important role people play in the achievement of its long-term objectives and as a key source of competitive advantage. To grow and be successful, the Group must be able to attract, motivate and retain capable individuals. The Group's remuneration policy focuses on the following:

- Ensuring competitive rewards are provided to attract and retain executive talent;
- Linking remuneration to performance so that higher levels of performance attract higher rewards;
- Aligning rewards of all staff, but particularly senior management, to the creation of value to shareholders;
- Making sure the criteria used to assess and reward staff include financial and non-financial measures of performance;

- Ensuring the overall cost of remuneration is managed and linked to the ability of the Group to pay; and
- Ensuring severance payments due to the Joint Chief Executive Officers on termination are limited to pre-established contractual arrangements which do not commit the Group to making any unjustified payments in the event of non-performance.

The main objective in rewarding the Group's senior management for their performances is to ensure that shareholders' wealth is maximised through the Group's continued growth. It is necessary to structure and strengthen this focus to drive this strategy so that they are aligned with the Group's objectives and successes.

Under the remuneration policy, senior management's remuneration includes a fixed remuneration component, short-term and long-term incentive arrangements. The long-term incentives are based on the Group's performance for the year in reference to specific Earnings per Security (EPS) hurdles and Key Strategic Goals being met. The Group's remuneration is directly related to the performance of the Group through the linking of short and long-term incentives to these financial and non-financial measures.

The short-term incentives are based on the individual's performance in the preceding 12 months compared to pre-agreed goals.

Where senior management is remunerated with shares, the Remuneration Policy places no limitations to their exposure to risk in relation to the shares.

Target incentive remuneration refers to the incentive pay provided for meeting performance requirements. Actual incentive remuneration can vary for senior management depending on the extent to which they meet performance requirements.

In accordance with the Group's corporate governance, the structure of non-executive director and senior management remuneration is separate and distinct.

REMUNERATION OF SENIOR MANAGEMENT

Objective

The Group aims to reward senior management with a level and mix of remuneration commensurate with their position and responsibilities within the Group so as to:

- Reward senior management for company, business unit and individual performance against targets set by reference to appropriate benchmarks;
- Align the interests of senior management with those of stakeholders;
- Link rewards with the strategic goals and performance of the Group; and
- Ensure total remuneration is competitive by market standards.

Directors' Report

Structure

In determining the level and make-up of senior management remuneration, the Joint Chief Executive Officers and Board have regard to market levels of remuneration for comparable executive roles.

Remuneration packages include a mix of fixed and variable remuneration and short and long-term performance-based incentives. The proportion of fixed and variable remuneration for senior management (excluding the Joint Chief Executive Officers) is established by the Joint Chief Executive Officers

and the Nomination & Remuneration Committee. The proportion of fixed and variable remuneration for the Joint Chief Executive Officers is established solely by the Nomination & Remuneration Committee. While the allocation may vary from period to period, the graph below details the approximate fixed and variable components for senior management.

(a) Fixed Remuneration

Fixed remuneration consists of base remuneration (which is calculated on a total cost basis and includes any FBT charges related to employee benefits including motor vehicles), as well as employer contributions to superannuation funds. For senior management excluding the Joint Chief Executive Officers, this is reviewed annually by the Joint Chief Executive Officers and the Nomination & Remuneration Committee. The process consists of a review of Group, business unit and individual performance as well as relevant comparative remuneration in the market. The same process is used by the Nomination & Remuneration Committee when reviewing the fixed remuneration of the Joint Chief Executive Officers.

Senior management are given the opportunity to receive their fixed remuneration in a variety of forms including cash and salary sacrifice items such as motor vehicles, motor vehicle allowances and/or additional superannuation contributions.

(b) Variable Remuneration

Under the Group's Senior Management Remuneration Policy, long and short-term performance incentives may be made under the Group's incentive plans. These are discussed further below.

(i) Short-term Incentives (STI)

The objective of the STI program is to link the achievement of the Group's non-financial and financial targets with the remuneration received by senior management charged with meeting those targets. The total potential STI available is set at a level so as to provide sufficient incentive to senior management to achieve operational targets and such that the cost to the Group is reasonable in the circumstances.

At the Board's absolute discretion, employees may be provided with the opportunity to receive an annual, performance-based incentive, either in the form of cash or the issue of shares in the Group, or a combination of both.

During the current financial year, the Group issued Nil (2018: Nil) STI ordinary securities to employees in addition to cash bonuses provided to employees.

(ii) Long-term Incentives (LTI)

The Group has an Executive Incentive Plan ("LTI Plan") which forms a key element of the Group's incentive and retention strategy for senior management under which Performance Rights ("Rights") are issued.

The primary objectives of the Plan include:

- focusing executives on the longer term performance of the Group to drive long term shareholder value creation;
- ensure senior management remuneration outcomes are aligned with shareholder interests, in particular, the strategic goals and performance of the Group; and
- ensure remuneration is competitive and aligned with general market practice by ASX listed entities.

Rights issued under the LTI Plan are issued in accordance with the thresholds approved at the Annual General Meeting (AGM).

Directors' Report

A summary of the key terms of the Performance Rights are set out below.

Term	Detail
Performance Rights ("Rights")	Each Right is a right to receive a fully paid ordinary stapled security in the Group ("Security"), subject to meeting the Performance Conditions. Upon meeting the Performance Conditions, the Rights vest and securities are allocated. Rights do not carry a right to vote or to dividends or, in general, a right to participate in other corporate actions such as bonus issues.
Vesting conditions	The Rights will vest to the extent that the board determines that: <ul style="list-style-type: none"> – The performance conditions that apply to the Rights were satisfied; and – The employee was continuously employed by the Company until the end of the Performance Period.
Vesting date	The date on which the Board determines the extent to which the performance conditions are satisfied and the Rights vest.
Performance Conditions	The Performance Conditions set out in the LTI Plan relate to: <ul style="list-style-type: none"> – Growth in Earnings Per Share ("EPS hurdle"); – Growth in property and friendly society funds under management ("FUM Hurdle"); and – Absolute Total Securityholder Return Performance ("Absolute TSR Hurdle").
Unvested rights	Subject to the Board's discretion, unvested Rights lapse upon the earliest of ceasing employment, corporate restructuring, divestment of material business or subsidiary, change of control, clawback and lapse for fraud and breach, failure to satisfy the Performance Conditions and the 15th anniversary of the date of the grant.

The Group currently operates three tranches of the Executive Incentive Plan ("Plan") as below.

Tranche	Grant Date	Performance Period
4	1 January 2017	1 July 2016 to 30 June 2019
5	1 November 2017	1 July 2017 to 30 June 2020
6	1 February 2019	1 July 2018 to 30 June 2021

The performance objectives for performance rights granted under Tranche 4 were met in full by 30 June 2019. As a result, these rights will vest on 14 August 2019.

The Group's overall objective is to reward executive directors and senior management based on the Group's performance and build on shareholders' wealth but this is subject to market conditions for the year. The table below sets out summary information about the Group's earnings for the past five years.

EPS Hurdle

The percentage of Rights subject to the EPS Hurdle that vest, if any, will be determined as follows:

	Compound annual growth Rate	Portion of Rights that vest
	Tranche 4 (30% of rights granted)	
Maximum % or above	10% or greater	100%
Between threshold % and maximum %	More than 6%, less than 10%	Pro-rata between 50% and 100%
	More than 4%, less than 6%	Pro-rata between 25% and 50%
Threshold %	4%	25%
Less than the threshold %	Less than 4%	0%

The Board has discretion to adjust the EPS performance hurdle to ensure that participants are neither advantaged nor disadvantaged by matters outside managements' control that affect EPS (for example, by excluding one-off non-recurrent items or the impact of significant acquisitions or disposals). Tranche 5 and Tranche 6 did not include an EPS hurdle.

KEY TERMS OF EMPLOYMENT CONTRACTS

Group Joint Chief Executive Officers

Mr John E. McBain, was appointed as Chief Executive Officer of the Group in April 2008. Mr Jason C. Huljich, was appointed as Joint Chief Executive Officer of the Group in June 2019. Mr John E. McBain and Mr Jason C. Huljich are employed under contract. The summary of the major terms and conditions of their employment contracts are as follows:

- Fixed Compensation plus superannuation contributions;
- Car parking within close proximity to the Company's office;
- Eligible to participate in the bonus program determined at the discretion of the Board;
- The Group may terminate this employment contract by providing six months written notice or provide payment in lieu of the notice period plus an additional six months. Any payment in lieu of notice will be based on the total fixed compensation package; and
- The Group may terminate the employment contract at any time without notice if serious misconduct has occurred. When termination with cause occurs the Joint Chief Executive Officers are only entitled to remuneration up to the date of termination.

Other senior management (standard contracts)

All senior management are employed under contract. The Group may terminate their employment agreement by providing three months written notice or providing payment in lieu of the notice period (based on the total fixed compensation package).

NON-EXECUTIVE DIRECTOR REMUNERATION

Objective

The Board seeks to set aggregate remuneration at a level that provides the Group with the ability to attract and retain directors of the highest calibre, whilst incurring a cost that is acceptable to shareholders.

Structure

The Constitution and the ASX Listing Rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. An amount not exceeding the aggregate amount determined is then divided between the directors as agreed. An aggregate maximum amount of not more than \$2,000,000 per year was approved at the 2017 Annual General Meeting.

Directors' Report

Directors' Fees

Each director receives a fee for being a director of Group companies and an additional fee is paid to the Chairman and to the Chairman of each Board Committee. The payment of the additional fees to each Chairman recognises the additional time commitment and responsibility associated with the position.

A About the report

A1 GENERAL INFORMATION

The shares in Centuria Capital Limited, (the 'Company') and the units in Centuria Capital Fund ('CCF') are stapled to trade together as a single stapled security ('Stapled Security') on the ASX as 'Centuria Capital Group' (the 'Group') under the ticker code 'CNI'.

The Group is a for-profit entity and its principal activities are the marketing and management of investment products, including property investment funds and friendly society investment bonds and co-investment in property investment funds.

STATEMENT OF COMPLIANCE

The consolidated financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The consolidated financial statements comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB).

The consolidated financial statements of the Group comprising the Company (as 'Parent') and its controlled entities for the year ended 30 June 2019 were authorised for issue by the Group's Board of Directors on 13 August 2019.

BASIS OF PREPARATION

The consolidated financial statements have been prepared on the basis of historical cost, except for financial assets at fair value through profit and loss, other financial assets, investment properties and derivative financial instruments which have been measured at fair value at the end of each reporting period. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, which is the company's functional currency, unless otherwise noted.

Assets and liabilities have been presented on the face of the statement of financial position in decreasing order of liquidity and do not distinguish between current and non-current items.

ROUNDING OF AMOUNTS

The Group is an entity of a kind referred to in ASIC Legislative Instrument 2016/191, related to the 'rounding off' of amounts in the Directors' Report and financial statements. Amounts in the Directors' Report and financial statements have been rounded off, in accordance with the instrument to the nearest thousand dollars, unless otherwise indicated.

A2 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and methods of computation in the preparation of the consolidated financial statements are consistent with those adopted in the previous financial year ended 30 June 2018 with the exception of the adoption of new accounting standards outlined below or in the relevant notes to the consolidated financial statements.

When the presentation or classification of items in the consolidated financial statements has been amended, comparative amounts are also reclassified, unless it is impractical. Accounting policies are selected and applied in a manner that ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events are reported.

The Group has now applied equity accounting to its investments in Centuria Metropolitan REIT (CMA) and Centuria Industrial REIT (CIP) as the Group's ownership in these entities exceeded 20% during the year and significant influence was established. These investments were previously recognised as financial assets at fair value. Details of the accounting policy on equity accounted investments are included in Note E1.

The Group has applied new accounting standards and their impact is disclosed in Note F5. These financial statements contain all significant accounting policies that summarise the recognition and measurement basis used and which are relevant to provide an understanding of the financial statements. Accounting policies that are specific to a note to the financial statements are described in the note to which they relate.

A3 USE OF JUDGEMENTS AND ESTIMATES

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense that are not readily apparent from other sources. The judgements, estimates and assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements is included in the following notes:

- Note C5 Investment properties
- Note C6 Intangible assets
- Note F3 Financial instruments

A About the report

A4 SEGMENT SUMMARY

As at 30 June 2019 the Group has four reportable operating segments. These reportable operating segments are the divisions which report to the Group's Joint Chief Executive Officers and Board of Directors for the purpose of resource allocation and assessment of performance.

The reportable operating segments are:

Operating Segments	Description
Property Funds Management	Management of listed and unlisted property funds and rendering of services in social and affordable housing developments.
Investment Bonds Management	Management of the Benefit Funds of Centuria Life Limited and management of the Over Fifty Guardian Friendly Society Limited. The Benefit Funds include a range of financial products, including single and multi-premium investments.
Co-Investments	Direct interest in property funds and other liquid investments
Corporate	Overheads for supporting the Group's operating segments and management of a reverse mortgage lending portfolio

In addition, the Group also provides disclosures in relation to a further four non-operating segments, which are:

Non-operating segments	Description
Non-operating items	Comprises transaction costs, mark-to-market movements on property and derivative financial instruments, share of equity accounted net profit in excess of distributions received and all other non-operating activities
Benefit Funds	Represents the operating results and financial position of the Benefit Funds which are required to be consolidated in the Group's financial statements in accordance with accounting standards
Controlled Property Funds	Represents the operating results and financial position of property funds which are controlled by the Group and consolidated under accounting standards
Eliminations	Elimination of transactions between the operating segments and the other three non-operating segments above

Where relevant, comparative financial information has been restated to ensure consistency in presentation of financial information across the applicable comparative periods.

The accounting policies of reportable segments are the same as the Group's accounting policies.

Refer below for an analysis of the Group's segment results:

B2 REVENUE

(A) RECOGNITION AND MEASUREMENT

Revenue is recognised over time if:

- the customer simultaneously receives and consumes the benefits as the entity performs;
- the customer controls the asset as the entity creates or enhances it; or
- the seller's performance does not create an asset for which the seller has an alternative use and there is a right to payment for performance to date.

Type of revenue	Description	Revenue recognition policy under AASB 118	Revenue recognition policy under AASB 15
Management fees	<p>The Group provides:</p> <p>a) fund management services to property funds in accordance with the fund constitutions. The services are provided on an ongoing basis and revenue is calculated and recognised in accordance with the relevant constitution. The fees are invoiced and paid monthly in arrears.</p> <p>b) property management services to the owners of property assets in accordance with property services agreements. The services are utilised on an ongoing basis and revenue is calculated and recognised in accordance with the specific agreement. The fees are invoiced monthly with variable payment terms depending on the individual agreements.</p> <p>c) lease management service to the owners. The revenue is recognised when the specific service is delivered (e.g. on lease execution) and consideration is due 30 days from invoice date.</p> <p>d) short-term development management services to the owners of property assets in accordance with development management agreements. Revenue is calculated in accordance with the specific agreement and invoiced in accordance with the contract terms. Performance fees	<p>The Group receives a performance fee for providing management services where the property fund outperforms a set IRR benchmark at the time the property is sold.</p> <p>The consideration is due upon successful sale of the investment property if the performance hurdles are satisfied. In assessing the timing and measurement of performance fees to be recognised, consideration is given to the facts and circumstances with respect to each investment property including external factors such as its current valuation, passage of time and outlook of the property market. Performance fees are only recognised when they are deemed to be highly probable and the amount of the performance fees will not result in a significant reversal in future periods.</p>	<p>Recognised in the period in which the services are rendered.</p>	<p>Over-time</p>
Recoverable outgoings	<p>The Group recovers the costs associated with general building and tenancy operation from lessees in accordance with specific clauses within lease agreements. These are invoiced monthly based on an annual estimate. The consideration is due 30 days from invoice date. Should any adjustment be required based on actual costs incurred, this is recognised in the statement of financial performance within the same reporting period and billed annually.</p>	<p>Recognised on an accruals basis based on the contract terms.</p>	<p>Over-time</p>
Property acquisition fees	<p>The Group provides property acquisition related services to property funds and the revenue is based on a fixed percentage included in the PDS issued at the establishment of the fund. The consideration is due upon successful settlement of the investment property.</p>	<p>Recognised in the period in which the services are rendered.</p>	<p>Point-in-time</p>

Type of revenue	Description	Revenue recognition policy under AASB 118	Revenue recognition policy under AASB 15
Property sales fees	The Group provides sales services to the owners of property assets in accordance with property management agreements. The consideration is due upon successful sale of the investment property.	Recognised in the period in which the services are rendered.	Point-in-time
Development revenue	The Group provides property development services to customers in accordance with development agreements. The input method is used to recognise development revenue over-time on an expected cost plus margin approach.	Recognised in the period in which the services are rendered.	Over-time

The recognition and measurement of revenue outside the scope of AASB 15 are as follows:

(i) Interest revenue

Interest revenue is accrued on a time basis, by reference to the principal outstanding using the effective interest rate method.

(ii) Distribution/dividend revenue

Distribution/dividend revenue from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Group and the amount of revenue can be measured reliably).

(iii) Rental income

Rental income from investment property is recognised in profit or loss on a straight line basis over the term of the lease.

(i) Terms and conditions of transactions with related parties

Investments in property funds and benefit funds held by certain directors and director-related entities are made on the same terms and conditions as all other persons. Directors and director-related entities receive the same returns on these investments as all other investors and policyholders.

The Company and its related parties entered into transactions, which are insignificant in amount, with directors and their director-related entities in their domestic dealings and are made in arm's length transactions at normal market prices and on normal commercial terms.

The Group pays some expenses on behalf of related entities and receives a reimbursement for these payments.

RECOGNITION AND MEASUREMENT

Income tax expense represents the sum of the tax currently payable and deferred tax.

(i) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, unused tax losses and tax offsets, to the extent that it is probable that sufficient future taxable profits will be available to utilise them.

However, deferred tax assets and liabilities are not recognised for:

- taxable temporary differences that arise from the initial recognition of assets or liabilities in a transaction that is not a business combination which affects neither taxable income nor accounting profit;
- taxable temporary differences relating to investments in subsidiaries, associates and joint ventures to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising from goodwill

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

(iii) Tax consolidation

The Company and all its wholly-owned Australian resident companies are part of a tax-consolidated group under Australian taxation law. The Company is the head entity in the tax-consolidated group. Tax expense/benefit, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax-consolidated group are recognised in their separate financial statements using a 'standalone tax payer' approach. Under the tax funding arrangement between members of the tax-consolidated group, amounts are recognised as payable to or receivable by each member in relation to the tax contribution amounts paid or payable between Company and the members of the the tax-consolidated group.

Centuria Capital Fund (CCF) and its subsidiaries are not part of the tax-consolidation group. Under current Australian income tax legislation, Trusts are not liable for income tax, provided their securityholders are presently entitled to the taxable income of the Trust including realised capital gains each financial year.

The Benefit Funds are part of the tax consolidated group, and they are allocated a share of the income tax liability attributable to Centuria Life Limited equal to the income tax liability that would have arisen to the Benefit Funds had they been stand-alone.

(iv) Current and deferred tax for the period

Income taxes relating to items recognised directly in equity are recognised directly in equity and not in the statement of comprehensive income. In the case of a business combination, the tax effect is included in the accounting for the business combination.

B6 EARNINGS PER SECURITY

	2019 Cents	2018 Cents
Basic (cents per stapled security)	14.2	19.8
Diluted (cents per stapled security)	13.2	18.1

The earnings used in the calculation of basic and diluted earnings per security is the profit for the year attributable to Centuria Capital Group securityholders as reported in the consolidated statement of comprehensive income.

The weighted average number of ordinary securities used in the calculation of basic and diluted earnings per security is as follows:

	2019	2018
Weighted average number of ordinary securities (basic)	358,809,337	277,224,977
Weighted average number of ordinary securities (diluted) ⁽ⁱ⁾	383,381,274	301,789,890

(i) The weighted average number of ordinary securities used in the calculation of diluted earnings per security is determined:

- as if 30 June 2019 was the end of the performance period of the grants of Rights under the LTI plan. All Rights that would have vested if 30 June 2019 was the end of the performance period are deemed to have been issued at the start of the financial year.
- as if 20,098,470 unexercised options with an exercise price of \$1.30 per option have been converted to ordinary securities at the start of the financial year.

Interest receivable from Centuria 80 Grenfell Fund	-	62,799
	51,708,153	11,682,159

RECOGNITION AND MEASUREMENT

Receivables are initially recognised at fair value and subsequently at amortised cost using the effective interest rate method, less an allowance for impairment. Due to the short-term nature of these financial rights, their carrying amounts are estimated to represent their fair values.

(i) Contract balances

The timing of revenue recognition, billings and cash collections results in billed accounts receivable (trade receivables) and unbilled receivables (contract assets) on the consolidated statement of financial position.

In respect to the Social Affordable Housing Developments within the Property Funds Management segment, billing occurs subsequent to revenue recognition, resulting in contract assets.

RECOGNITION AND MEASUREMENT

Policy application at 30 June 2018

All financial assets are recognised and derecognised on trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value plus transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value.

Financial assets are classified as financial assets at fair value through profit or loss when the financial asset is either held for trading or it is designated as at fair value through profit or loss.

Financial assets at fair value through profit and loss are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the statement of comprehensive income.

Reverse mortgage loan receivable financial assets are recognised at FVTPL.

Policy application from 1 July 2018

AASB 9 contains three principal classification categories for financial assets:

- measured at amortised cost;
- fair value through other comprehensive income (FVOCI); and
- fair value through profit and loss (FVTPL).

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

(i) Financial assets at amortised cost

Loans and receivables are initially recognised at fair value and subsequently at amortised cost using the effective interest rate method less any allowance under the ECL model.

(ii) Recoverability of loans and receivables

At each reporting period, the Group assesses whether financial assets carried at amortised cost are 'credit-impaired'. A financial asset is 'credit-impaired' when one or more events that has a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The Group recognises loss allowances at an amount equal to lifetime ECL on trade and other receivables. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of the trade receivables and are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive.

The Group analyses the age of outstanding receivable balances and applies historical default percentages adjusted for other current observable data as a means to estimate lifetime ECL, including forecasts of interest rates and inflation, as well as the financial stress of counterparties and their ability to operate as a going concern. Debts that are known to be uncollectable are written off when identified.

(iii) Financial assets at fair value through profit and loss

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets recognised at FVTPL include reverse mortgage loan receivables, reverse mortgage derivatives and investments in trusts.

C4 INVESTMENT PROPERTIES HELD FOR SALE

In June 2018, the Group Group decided to sell the investment properties within Centuria Retail Fund. Windsor Marketplace, Windsor NSW was sold during December 2018 for \$22,600,000, however City Centre Plaza Rockhampton QLD was taken off the market and is no longer held for sale and has been reclassified as an investment property.

Property	2019 \$'000	2018 \$'000
City Centre Plaza, Rockhampton QLD	-	40,000
Windsor Marketplace, Windsor NSW	-	23,400
	-	63,400

The fair values listed above do not include estimated selling costs which are expected to be incurred upon disposal.

RECOGNITION AND MEASUREMENT

Investment properties are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. These investment properties are carried at fair value. The valuation techniques to determine the fair value of investment properties held for sale are the same as the valuation techniques of investment properties described in Note C5(a).

KEY ESTIMATE AND JUDGEMENTS

(A) VALUATION TECHNIQUES AND SIGNIFICANT UNOBSERVABLE INPUTS

The fair value of the investment properties were determined by the Directors of the Responsible Entity of the relevant funds or by an external, independent valuer having an appropriate recognised professional qualification and recent experience in the location and category of the properties being valued. Fair value is based on market values, being the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.

The valuations were prepared by considering the following valuation methodologies:

- Capitalisation approach: the annual net rental income is capitalised at an appropriate market yield to arrive at the property's

Notes to the consolidated financial statements

For the year ended 30 June 2019

C Assets and liabilities

market value. Appropriate capital adjustments are then made where necessary to reflect the specific cash flow profile and the general characteristics of the property.

- Discounted cash flow approach: this approach incorporates the estimation of future annual cash flows over a 10 year period by reference to expected rental growth rates, ongoing capital expenditure, terminal sale value and acquisition and disposal costs. The present value of future cash flows is then determined by the application of an appropriate discount rate to derive a net present value for the property.
- Direct comparison approach: this approach identifies comparable sales on a dollar per square metre of lettable area basis and compares the equivalent rates to the property being valued to determine the property's market value.

The valuations reflect, when appropriate, the type of tenants actually in occupation or responsible for meeting lease commitments or likely to be in occupation after letting of vacant accommodation and the market's general perception of their credit-worthiness; the allocation of maintenance and insurance responsibilities between the lessor and lessee; and the remaining economic life of the property. It has been assumed that whenever rent reviews or lease renewals are pending with anticipated reversionary increases, all notices and, where appropriate, counter notices have been served validly and within the appropriate time.

The most significant unobservable input used in the above valuation techniques and its relationship with fair value measurement is the capitalisation rate. The higher/lower the rate, the lower/higher the fair value.

(B) FAIR VALUE MEASUREMENT

The fair value measurement of investment properties has been categorised as a Level 3 fair value as it is derived from valuation techniques that include inputs that are not based on observable market data (unobservable inputs).

	157,663	157,663

Goodwill and management rights are solely attributable to the Property Funds Management cash generating unit with recoverability determined by a value in use calculation using profit and loss projections covering a five year period, with a terminal value determined after five years.

RECOGNITION AND MEASUREMENT

(i) Indefinite life management rights

Management rights acquired in a business combination are initially measured at fair value and reflect the right to provide asset and fund management services in accordance with the management agreements.

(ii) Goodwill

Goodwill acquired in a business combination is measured at cost and subsequently measured at cost less any impairment losses. The cost represents the excess of the cost of a business combination over the fair value of the identifiable assets, liabilities and contingent liabilities acquired.

(iii) Impairment

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets or groups of assets (cash generating units or CGUs). Non-financial assets other than goodwill that were previously impaired are reviewed for possible reversal of the impairment at each reporting date.

KEY ESTIMATES AND JUDGEMENTS

The key assumptions used in the value in use calculations for the Property Funds Management cash-generating unit are as follows:

REVENUE

Revenues in 2020 are based on the Board approved budget for 2020 and are assumed to increase at a rate of 7.5% (2018: 7.5%) per annum for years 2021-2023. The directors believe this is a prudent and achievable growth rate based on past experience.

EXPENSES

Expenses in 2020 are based on the budget for 2020 and are assumed to increase at a rate of 5.0% (2018: 5.0%) per annum for the years 2021-2023. The directors believe this is an appropriate growth rate based on past experience.

DISCOUNT RATE

Discount rates are determined to calculate the present value of future cash flows. A pre-tax rate of 9.53% (2018: 10.28%) is applied to cash flow projections. In determining the appropriate discount rate, regard has been given to relevant market data as well as Company specific inputs.

TERMINAL GROWTH RATE

Beyond 2023, a growth rate of 3.0% (2018: 3.0%), in line with long term economic growth, has been applied to determine the terminal value of the asset.

SENSITIVITY TO CHANGES IN ASSUMPTIONS

As at 30 June 2019, the estimated recoverable amount of intangibles including goodwill relating to the Property Funds Management cash-generating unit exceeded its carrying amount by \$188.1 million (2018: \$175.2 million). The table below shows the key assumptions used in the value in use calculation and the amount by which each key assumption must change in isolation in order for the estimated recoverable amount to be equal to its carrying value.

	Revenue growth rate (average)	Pre-tax discount rate	Expenses growth rate
Assumptions used in value in use calculation	7.50%	9.53%	5.00%
Rate required for recoverable amount to equal carrying value	(0.40)%	17.55%	12.63%

C7 PAYABLES

Accrued expenses	9,183	8,712
	42,232	32,405

(i) Sundry creditors are non-interest bearing liabilities and are payable on commercial terms of 7 to 60 days.

RECOGNITION AND MEASUREMENT

Payables are recognised when the Group becomes obliged to make future payments resulting from the purchase of goods and services. Due to the short-term nature of these financial obligations, their carrying amounts are estimated to represent their fair values.

The terms and conditions relating to the above facilities are set out below.

(A) SECURED NOTES

The Group issued Tranche 1 of secured corporate notes to the value of \$100,000,000 on 21 April 2017. This consisted of an issue of \$40,000,000 floating rate secured notes and \$60,000,000 7% fixed rate secured notes. The Group issued Tranche 2 to the value of \$23,000,000 7% fixed rate secured notes on 11 September 2017. These notes mature on 21 April 2021 and are secured against assets within certain subsidiaries of the Centuria Capital Fund Group.

The Group issued Tranche 3 of secured corporate notes to the value of \$80,000,000 on 22 October 2018. This consisted of an issue of \$35,000,000 floating rate secured notes and \$45,000,000 6.5% fixed rate secured notes. These notes mature on 21 April 2023 and are secured against assets within certain subsidiaries of Centuria Capital Fund.

(B) REVERSE MORTGAGE BILL FACILITIES AND NOTES (SECURED)

As at 30 June 2019, the Group had \$8,194,000 (2018: \$8,429,000) non-recourse notes on issue to ANZ Bank, secured over the remaining reverse mortgages held in Senex Warehouse Trust No.1 (a subsidiary of the Group) due to mature on 30 September 2020.

The facility limit as at 30 June 2019 is \$9,100,000 (2018: \$10,000,000) and is reassessed every 6 months with a view to reducing the facility in line with the reduction in the reverse mortgage book. Under the facility agreement, surplus funds (being mortgages repaid (including interest) less taxes, administration expenses and any hedge payments) are required to be applied against the facility each month.

RECOGNITION AND MEASUREMENT

Borrowings are initially recognised at fair value, net of transaction costs. They are subsequently measured at amortised cost using the effective interest rate method.

C9 COMMITMENTS AND CONTINGENCIES

(A) OPERATING LEASES

(i) Group as a lessee

The Group has commercial leases with respect to its Sydney and Melbourne office premises.

Future minimum rentals payable under operating leases are as follows:

(ii) Group as a lessor

The Group leases out its investment properties under operating leases.

The future minimum lease payments receivable under non-cancellable leases are as follows:

Longer than 5 years	63,631	27,176
	116,208	79,870

(B) COMMITMENT AND CONTINGENCIES

The Group has provided bank guarantees of \$3,279,301 for commercial leases with respect to its Sydney and Melbourne office premises. These bank guarantees are cash collateralised.

The above guarantees are issued in respect of the Group and do not constitute an additional liability to those already existing in interest bearing liabilities on the statement of financial position.

As at 30 June 2019, the Group has outstanding commitments of \$58.9 million in relation to the proposed funding support for Heathley funds. The Group will seek to raise these funds by using its unlisted distribution network and will manage and underwrite any shortfall in the fund raising to satisfy the overall funding requirements. This is in addition to the Group's agreed acquisition price of \$24.4 million which will be payable on successful completion of the Heathley transaction.

The Directors of the Group are not aware of any other contingent liabilities in relation to the Group, other than those disclosed in the financial statements, which should be brought to the attention of securityholders as at the date of completion of this report.

RECOGNITION AND MEASUREMENT

When the terms of a lease transfer substantially all the risks and rewards of ownership to the Group, the lease is classified as a finance lease. All other leases are classified as operating leases.

(i) Group as a lessee

Operating lease payments are recognised as an expense on a straight-line basis over the term of the lease, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

(ii) Group as a lessor

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term.

E1 INTERESTS IN ASSOCIATES AND JOINT VENTURES

During the year, the Group's investment in Centuria Metropolitan REIT (CMA) and Centuria Industrial REIT (CIP) exceeded 20% and significant influence was established. As a result, these investments which were previously recognised as financial assets at fair value are now accounted for using the equity method.

Set out below are the associates of the Group as at 30 June 2019 which, in the opinion of the Directors, are material to the Group and are accounted for using the equity method. The entities listed below have share capital consisting solely of ordinary units, which are held directly by the Group. The country of incorporation or registration is Australia which is also their principal place of business, and the proportion of ownership interest is the same as the proportion of voting rights held.

RECOGNITION AND MEASUREMENT

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity-accounted investments is tested for impairment.

E2 BUSINESS COMBINATION

(A) CURRENT YEAR

During the current year, there were no business combinations.

(B) PRIOR YEAR

During the prior year, there were no business combinations.

E3 INTERESTS IN MATERIAL SUBSIDIARIES

The Group's principal subsidiaries at 30 June 2019 are set out below. Unless otherwise stated, they have issued capital consisting solely of ordinary shares or units that are held directly by the Group, and the proportion of ownership interests held equals the voting rights held by the Group. The subsidiaries of the Group were incorporated in Australia which is also their principal place of business. The parent entity of the Group is Centuria Capital Limited.

E Group Structure

RECOGNITION AND MEASUREMENT

(i) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

The Company is required by AASB 10 Consolidated Financial Statements to recognise the assets, liabilities, income, expenses and equity of the benefit funds of its subsidiary, Centuria Life Limited (the "Benefit Funds"). The assets and liabilities of the Benefit Funds do not impact the net profit after tax or the equity attributable to the securityholders of the Company and the shareholders of the Company have no rights over the assets and liabilities held in the Benefit Funds.

In order to reflect the assets and liabilities pertaining to the benefit funds an equal and offsetting policyholder liability is recognised on consolidation. On a consistent basis, on consolidation of the various income and expenses attributable to benefit funds an equal and opposite net change in policyholder liabilities is recorded in the statement of comprehensive income.

The Company has majority representation on the Board of the Over Fifty Guardian Friendly Society Limited (Guardian). However, as Guardian is a mutual organisation, the Company has no legal rights to Guardian's net assets, nor does it derive any benefit from exercising its power and therefore does not control Guardian.

E4 PARENT ENTITY DISCLOSURE

As at, and throughout the current and previous financial year, the parent entity of the Group was Centuria Capital Limited.

	2019 \$'000	2018 \$'000
Result of parent entity		
Profit or loss for the year	43,386	13,147
Total comprehensive income for the year	43,386	13,147

Total assets	180,847	104,332
Total liabilities	(50,557)	(11,830)
Net assets	130,290	92,502

The parent entity presents its assets and liabilities in order of liquidity. The assets of the parent entity mainly consist of cash, short term receivables, investments in subsidiaries and deferred tax assets. The liabilities of the parent entity mainly consist of short term payables.

Total equity of the parent entity comprising of:

Share capital	128,143	98,770
Share-based incentive reserve	2,102	1,896
Retained earnings/(loss)	45	(8,164)
Total equity	130,290	92,502

(A) GUARANTEES ENTERED INTO BY THE PARENT ENTITY

The parent entity has, in the normal course of business, entered into guarantees in relation to the debts of its subsidiaries during the financial year.

(B) COMMITMENTS AND CONTINGENT LIABILITIES OF THE PARENT ENTITY

The parent entity has bank guarantees of \$3,279,301 for commercial leases with respect to its Sydney and Melbourne office premises. These bank guarantees are cash collateralised.

The above guarantees are issued in respect of the parent entity and do not constitute an additional liability to those already existing in interest bearing liabilities on the statement of financial position.

The Directors of the Company are not aware of any other contingent liabilities in relation to the parent entity, other than those disclosed in the financial statements.

F1 SHARE-BASED PAYMENT ARRANGEMENTS

(A) LTI PLAN DETAILS

The Company has an Executive Incentive Plan ("LTI Plan") which forms a key element of the Company's incentive and retention strategy for senior executives under which Performance Rights ("Rights") are issued.

Each employee receives ordinary securities of the Group on vesting of the performance rights. No amounts are paid or payable by the recipient on receipt of the performance rights or on vesting. The performance rights carry neither rights to dividends nor voting rights prior to vesting.

It is expected that future annual grants of performance rights will be made, subject to the Board's determination of the overall performance of the Group and market conditions. The vesting of any performance rights awarded will be subject to attainment of appropriate performance hurdles and on the basis of continuing employment with the Group.

Further details of the LTI Plan are included in the Audited remuneration report from page 32 to page 35.

	2019 Number	2018 Number
Performance rights outstanding at the beginning of the year	5,368,687	5,103,963
Performance rights granted during the year	2,276,559	2,113,780
Performance rights lapsed during the year	(288,868)	(458,129)
Performance rights vested during the year	(1,629,244)	(1,390,927)
Performance rights outstanding at the end of the year	5,727,134	5,368,687

The performance objectives for 1,529,430 of the performance rights issued under Tranche 4 were met in full at 30 June 2019. As a result, these rights will vest on 14 August 2019.

(B) MEASUREMENT OF FAIR VALUES

The fair value of the rights was calculated using a binomial tree valuation methodology for the Rights with non-market vesting conditions and a Monte-Carlo simulation for the Rights with market vesting conditions.

The inputs used in the measurement of the fair values at grant date of the rights were as follows:

	Tranche 4	Tranche 5	Tranche 6
Expected vesting date	14 August 2019	31 August 2020	31 August 2021
Share price at the grant date	\$1.02	\$1.46	\$1.32
Expected life	2.7 years	2.8 years	2.6 years
Volatility	20%	20%	18%
Risk free interest rate	1.94%	1.96%	1.75%
Dividend yield	5.7%	5.7%	6.5%

The following table sets out the fair value of the rights at the respective grant date:

Performance Condition	Tranche 4	Tranche 5	Tranche 6
EPS	\$0.88	N/A	N/A
Growth in FUM	\$0.88	\$1.24	\$1.11
Absolute TSR	\$0.16	\$0.62	\$0.19

During the year, share based payment expenses were recognised of \$1,172,048 (2018: \$1,478,291).

RECOGNITION AND MEASUREMENT

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates with respect to non-market vesting conditions, if any, is recognised in profit for the year such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

F2 GUARANTEES TO BENEFIT FUND POLICYHOLDERS

Centuria Life Limited (CLL) provides a guarantee to policyholders of two of its Benefit Funds, Centuria Capital Guaranteed Bond Fund and Centuria Income Accumulation Fund as follows:

If, when CLL, in light of the Bonds, is required under the bond rules to pay policy benefits to a policy owner as a consequence of the termination of the Bond or the maturity or surrender of a policy, and CLL determines that the sums to be paid to the policy owner from the bonds shall be less than the amounts standing to the credit of the relevant accumulation account balance, (or in the case of a partial surrender, the relevant proportion of the accumulation account balance), CLL guarantees to take all action within its control, including making payment from its management fund to the policy owner to ensure that the total sums received by the policy owner as a consequence of the termination, maturity or surrender equal the relevant accumulation account balance, (or) in the case of a partial surrender, the relevant proportion thereof.

No provision has been raised in respect of these guarantees at this time for the following reasons:

- The funds follow an investment strategy that is appropriate for the liabilities of the fund. The Fund cannot alter their investment strategy without the approval of the members and APRA, following a report from the appointed actuary;
- The funds must meet the capital adequacy standards of APRA which results in additional reserves being held within the funds to enable the funds to withstand a "shock" in the market value of assets. If the Funds can withstand a shock in asset values and still meet their liabilities from their own reserves, then this further reduces the likelihood of the Funds calling on the guarantee provided; and
- CLL also continues to meet the ongoing capital requirements set by APRA.

F3 FINANCIAL INSTRUMENTS

(A) MANAGEMENT OF FINANCIAL INSTRUMENTS

The Board is ultimately responsible for the Risk Management Framework of the Group.

The Group employs a cascading approach to managing risk, facilitated through delegation to specialist committees and individuals within the Group.

The Group is exposed to a variety of financial risks as a result of its activities. These risks include market risk (including interest rate risk and price risk), credit risk and liquidity risk. The Group's risk management and investment policies, approved by the Board, seek to minimise the potential adverse effects of these risks on the Group's financial performance. These policies may include the use of certain financial derivative instruments.

Centuria Life Limited (CLL) has also established an Investment Committee. The Investment Committee's function is to manage and oversee the Benefit Fund investments in accordance with the investment objectives and framework. Specifically, it has responsibility for setting and reviewing strategic asset allocations, reviewing investment performance, reviewing investment policy, monitoring and reporting on the performance of the investment risk management policy and performing risk management procedures in respect of the investments.

From time to time, the Group outsources certain parts of the investment management of the Benefit Funds to specialist investment managers including co-ordinating access to domestic and international financial markets, and managing the financial risks relating to the operations of the Group in accordance with an investment mandate set out in the Group's constitution and the Benefit Funds' product disclosure statements. The Benefit Funds' investment mandates are to invest in equities and fixed interest securities via unit trusts, discount securities and may also invest in derivative instruments such as futures and options.

The Group uses interest rate swaps to manage interest rate risk and not for speculative purposes in any situation. Hedging is put in place where the Group is either seeking to minimise or eliminate cash-flow variability, i.e., converting variable rates to fixed rates, or changes in the fair values of underlying assets or liabilities, i.e., to convert fixed rates to variable rates.

Derivative financial instruments of the Benefit Funds, consolidated into the financial statements of the Group under AASB 10 Consolidated Financial Statements, are used only for hedging factual or anticipated exposures relating to investments. The use of financial derivatives in respect of Benefit Funds is governed by the Funds' investment policies, which provide written principles on the use of financial derivatives.

(B) CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximising the return to stakeholders through the optimisation of debt and equity capital. This overall strategy remains unchanged from the prior year.

The Group's capital structure consists of net debt (borrowings, offset by cash and cash equivalents) and equity of the Group (comprising issued capital, reserves and retained earnings).

The Group carries on business throughout Australia, primarily through subsidiary companies that are established in the markets in which the Group operates. The operations of Centuria Life Limited are regulated by APRA and the management fund of the Society has a minimum Prescribed Capital Amount (PCA) that must be maintained at all times. It is calculated monthly and these results are reported to the Board each month. The current level of share capital of Centuria Life Limited meets the PCA requirements.

In addition, Centuria Property Funds Limited, Centuria Funds Management Limited and Centuria Property Fund No.2 Limited have AFS licences so as to operate registered property trusts. Regulations require these entities to hold a minimum net asset amount which is maintained by way of cash term deposits and listed liquid investments.

Notes to the consolidated financial statements

For the year ended 30 June 2019

F Other

Operating cash flows are used to maintain and, where appropriate, expand the Group's funds under management as well as to make the routine outflows of tax, dividends and repayment of maturing debt. The Group reviews regularly its anticipated funding requirements and the most appropriate form of funding (capital raising or borrowings) depending on what the funding will be used for.

The capital structure of the Benefit Funds (and management fund) consists of cash and cash equivalents, bill facilities and mortgage assets. The Benefit Funds also hold a range of financial assets for investment purposes including investments in unit trusts, equity and floating rate notes. The Investment Committee aims to ensure that there is sufficient capital for possible redemptions by unit holders of the Benefit Funds by regularly monitoring the level of liquidity in each fund.

The Benefit Funds have no restrictions or specific capital requirements on the application and redemption of units. The Benefit Funds' overall investment strategy remains unchanged from the prior year.

(C) FAIR VALUE OF FINANCIAL INSTRUMENTS

(i) Valuation techniques and assumptions applied in determining fair value

The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices (includes listed redeemable notes, bills of exchange, debentures and perpetual notes).

The fair values of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments. Discount rates are determined based on market rates applicable to the financial asset or liability.

The valuation technique used to determine the fair value of the Group's reverse mortgage loan book is as follows:

- the weighted average reverse mortgage holders' age is 80 years;
- the future cash flows calculation is related to borrowers' mortality rates and mortality improvements. The data is sourced from mortality tables provided by the actuary;
- fixed or variable interest rates charged to borrowers are used to project future cash flows;
- a redemption rate, which is based on historical loan redemption experience, applies to future cash flow forecast; and
- year-end yield curve plus a credit margin is used to discount future cash flows back to 30 June 2019 to determine the fair value.

(ii) Valuation techniques and assumptions applied in determining fair value of derivatives

The fair values of derivative instruments are calculated using quoted prices. Where such prices are not available, discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives.

The valuation technique used to determine the fair value of the Fixed for Life interest rate swaps is as follows:

- the weighted average reverse mortgage holders' age is 80 years;
- the expected future cash flows in relation to the swaps are based on reverse mortgage borrowers' expected life expectancy sourced from mortality tables provided by the actuary; and the difference between the fixed swap pay rates and forward rates as of 30 June 2019 is used to calculate the future cash flows in relation to the swaps; and year-end yield curve plus a credit margin is used to discount future cash flows back to 30 June 2019 to determine the fair value.

(iii) Fair value measurements recognised in the statement of financial position

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value.

The table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between Level 1, 2 and 3 in the period.

The Group determines Level 2 fair values for financial assets and liabilities without an active market based on broker quotes. Level 2 fair values for simple over-the-counter derivatives are also based on broker quotes. Those quotes are tested for reasonableness by discounting expected future cash flows using market interest rates for a similar instrument at the measurement date. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the entity and counterparty where appropriate.

The Level 3 financial asset held by the Group is the fair value of the residential mortgage receivables attributable to interest rate risk. The Level 3 financial liability held by the Group is the fixed-for-life interest rate swaps. These items are designated in a fair value hedging relationship, with the fair value movements on the swaps offset by the fair value movements in the mortgage receivables. However, as the Group has only designated the fair value movements attributable to interest rate risk in the hedging relationship, any other fair value movements impact the profit and loss directly, such as credit risk movements.

KEY ESTIMATES AND JUDGEMENTS

The fair value of the 50-year residential mortgage loans and 50-year swaps are calculated using a valuation technique based on assumptions that are not supported by prices from observable current market transactions in the same instrument and not based on available observable market data due to the illiquid nature of the instruments. A discounted cash flow model is used for analysis using the applicable yield curve out to 20 years, with the yield curve at 20 years employed as the best proxy for subsequent rates due to non-observable market data and to reflect the average remaining life expectancy of the borrowers.

Assumptions and inputs used for valuation of reverse mortgage loan receivables:

- The loan interest compounding period is the expected remaining life of the borrower;
- Mortality rates for males and females are based on portfolio-adjusted 2013-2015 Life Tables;
- The compounding interest rate is the fixed rate of loan for the period from day 1 up to the point of time when loan carrying amount equals the property value. After that point of time, the loan compounding rate will be reduced to the same as long term residential property growth rate determined by Management, on the grounds that any fixed rate exceeds the property growth rate will not be recovered after that point of time;
- For 30 June 2019 valuation, the property growth rates are -5% for FY2020, -3% for FY2021, then reverted back to 3% flat rate from FY22 onwards;
- Discount factors are calculated based on the market quoted long term rates on 30 June 2019;
- The 1% flat credit risk premium, reflecting the portfolio default profile on 30 June 2019, is added to the monthly cash flow discount factors to discount future cash flows generated by the reverse mortgage loans.

Assumptions and inputs used for valuation of the 50-year interest rate swaps:

- Mortality rates for males and females based on portfolio-adjusted 2013-2015 Life Tables. The improvement factor tapers down to 1% p.a. at age, 90 and then zero at age 100;
- Joint life mortality is calculated based on last death for loans with joint borrowers;
- 46% of the residential mortgage loan portfolio consists of joint lives;
- Discount factors are calculated based on the market quoted long term rates on 30 June 2019;
- The 1.881% flat credit risk premium, reflecting the business default profile on 30 June 2019, is added to the monthly cash flow discount factors to discount future cash flows generated by the reverse mortgage loans.

RECOGNITION AND MEASUREMENT

The Group enters into derivative financial instruments such as interest rate swaps to manage its exposure to interest rate risk.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event, the timing of the recognition in profit or loss depends on the nature of the hedge relationship. The hedge is considered ineffective if it falls outside the range of 80% to 125%.

(D) CREDIT RISK

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral or other security, where appropriate, as a means of mitigating risk of financial loss from default. The credit risk on financial assets of the Group and the parent recognised in the statement of financial position is generally the carrying amount, net of allowance for impairment loss.

Concentration of risk may exist when the volume of transactions limits the number of counterparties.

(i) Credit risk of reverse mortgages

Concentration of credit risk in relation to reverse mortgage loans is minimal, as each individual reverse mortgage loan is secured by an individual residential property. The loan is required to be paid off from the proceeds of disposal of the secured property after the borrower's death.

Individual property valuations are conducted at least every 3 years in accordance with financier's requirements. At 30 June 2019, the highest loan to value ratio (LVR) of a loan in the reverse mortgage loan book is 103% (2018: 107%), and there are 63 out of 212 (2018: 58 out of 222) reverse mortgage loans where the LVR is higher than 50%.

(ii) Credit risk on other financial assets

Credit risk on other financial assets such as investments in floating rate notes, standard discount securities and unit trusts is managed through strategic asset allocations with creditworthy counterparties and the on-going monitoring of the credit quality of investments, including the use of credit ratings issued by well-known rating agencies. The exposure of credit risk in respect of financial assets is minimal.

The Group does not have any significant credit risk exposure to any single entity in other financial assets or any group of counterparties having similar characteristics.

(E) LIQUIDITY RISK

The Group's approach to managing liquidity is to ensure that it will always have sufficient liquidity to meet its liabilities.

The liquidity risk is managed for the Group at a corporate level. Bank account balances across all entities, current and future commitments, and expected cash inflows are reviewed in detail when the monthly cash flow projection is prepared for management purposes and presented to the Board at its regular monthly meetings. By comparing the projected cash flows with the assets and liabilities shown in the individual and consolidated statements of financial position, which are also prepared on a monthly basis for management purposes and presented to the Board, liquidity requirements for the Group can be determined. Based on this review, if it is considered that the expected cash inflows plus liquidity on hand, may not be sufficient in the near term to meet cash outflow requirements, including repayment of borrowings, a decision can be made to carry out one or more of the following:

- renegotiate the repayment terms of the borrowings;
- sell assets that are held on the statement of financial position; and/or
- undertake an equity raising.

This, combined with a profitable business going forward, should ensure that the Group continues to meet its commitments, including repayments of borrowings, as and when required.

The Group's overall strategy to liquidity risk management remains unchanged from the prior year.

The following table summarises the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group and the parent can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are at floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period.

The policy holders in the Benefit Funds are able to redeem their policies at any time and the Benefit Funds are therefore exposed to the liquidity risk of meeting policyholders' withdrawals at any time. The Investment Committee aims to ensure that there is sufficient capital for possible redemptions by policyholders of the Benefit Funds by regularly monitoring the level of liquidity in each fund.

(F) MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises interest rate risk and price risk. Due to the nature of assets held by the Group (excluding the Benefit Funds), there is an asset and liability management process which determines the interest rate sensitivity of the statement of financial position and the implementation of risk management practices to hedge the potential effects of interest rate changes. The Group manages the market risk associated with its Benefit Funds by outsourcing its investment management. The Investment Manager manages the financial risks relating to the operations of the Benefit Funds in accordance with an investment mandate set out in the Benefit Funds' constitution and product disclosure statement. There has been no change to the Group's exposure to market risks or the manner in which it manages and measures the risk.

(i) Interest rate risk management

The Group is exposed to interest rate risk because entities in the Group borrow funds at floating interest rates. Management of this risk is evaluated regularly and interest rate swaps are used accordingly.

(ii) Interest rate swap contracts

Under interest rate swap contracts, the Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Group to mitigate the risk of changing interest rates on the fair value of fixed rate financial assets held and the cash flow exposures on the issued variable rate debt.

The following table details the notional principal amounts and remaining expiry of the Group's outstanding interest rate swap contracts as at reporting date. These swaps are at fair value through profit and loss.

(iii) Interest rate sensitivity

The sensitivity analysis below has been determined based on the parent and the Group's exposure to interest rates at the balance date and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period, in the case of financial assets and financial liabilities that have variable interest rates. A 100 basis point (1%) increase or decrease represents management's assessment of the reasonably possible change in interest rate.

At reporting date, if variable interest rates had been 100 (2018: 100) basis points higher or lower and all other variables were held constant, the impact to the Group would have been as follows:

Consolidated	Change in variable	Effect on profit after tax	
		2019 \$'000	2018 \$'000
Interest rate risk	+1%	631	568
Interest rate risk	-1%	(537)	(405)

The methods and assumptions used to prepare the sensitivity analysis have not changed in the year. The sensitivity analysis takes into account interest-earning assets and interest-bearing liabilities attributable to the shareholders only, and does not take into account the bank bill facility margin changes.

(iv) Fair value hedges

The Group held the following instruments to hedge exposures to changes in interest rates.

F5 ADOPTION OF NEW ACCOUNTING STANDARDS AND INTERPRETATIONS

New and amended accounting standards relevant to the Group as well as their impact on the Group's consolidated financial statements that are effective for the period are as follows:

(A) AASB 9 FINANCIAL INSTRUMENTS

AASB 9 addresses the classification, measurement and derecognition of financial assets and financial liabilities, introduces new rules for hedge accounting and a new impairment model for financial assets. This standard replaces AASB 139 Financial Instruments: Recognition and Measurement.

(i) Classification - Financial assets

AASB 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics.

AASB 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income (FVOCI) and fair value through profit and loss (FVTPL). The standard eliminates the existing AASB 139 categories of held to maturity, loans and receivables and available for sale.

On transition to AASB 9, the new classification requirements do not have an impact on the Group's accounting for all receivables and financial assets (which are already carried at fair value with the exception of reverse mortgage loan receivables and trade receivables).

Reverse mortgage loan receivables were previously recorded at amortised cost using the effective interest method less impairment. On transition to AASB 9, these receivables have been reclassified to FVTPL as the criteria for solely payments of principal and interest (SPPI) criteria was not satisfied. There is no material change in their measurement and as a result there is no impact on the Group's equity at 1 July 2018.

The implication of the change from amortised cost to FVTPL could result in increased volatility in the Group's results as gains or losses arising from changes in fair value measurement assumptions are reported through the profit and loss.

(ii) Impairment - Receivables

AASB 9 replaces the 'incurred loss' model in AASB 139 with a forward-looking 'expected credit loss' (ECL) model. This will require considerable judgement about how changes in economic factors affect ECLs, determined on a probability-weighted basis.

The new impairment model applies to the Group's receivables which continue to be measured at amortised cost. The new impairment model does not apply to the Group's reverse mortgage loan receivables which are now classified as FVTPL under AASB 9.

On transition to AASB 9, the new impairment model does not have a material impact on the Group's equity as at 1 July 2018 and no material impact during the year ended 30 June 2019.

Total financial assets			692,383	692,393

(iii) Classification - Financial liabilities

There is no impact on the Group's accounting for financial liabilities, as AASB 9 requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and the Group does not have any such liabilities. The derecognition rules have been transferred from AASB 139 Financial Instruments: Recognition and Measurement and have not been changed.

(iv) Hedge accounting

The new hedge accounting rules generally allow for more hedge relationships to be eligible for hedge accounting, as the standard introduces a more principles-based approach. The Group does not have a significant impact as a result of the hedging changes on transition on 1 July 2018.

The Group has made an election under AASB 9 to continue to apply the hedge accounting requirements in AASB 139 instead of AASB 9 for its fair value hedges.

(v) Transition

Changes in accounting policies resulting from the adoption of AASB 9 have been applied retrospectively, however as there is no material impact on carrying amounts of financial assets and financial liabilities, there are no transitional implications on the Group's equity at 1 July 2018 nor it's comparatives.

(B) AASB 15 REVENUE FROM CONTRACTS WITH CUSTOMERS

AASB 15 Revenue from customers applies to all contracts with customers to deliver goods or services as part of the entity's ordinary course of business excluding insurance contracts, financial instruments and leases which are addressed by other standards. It replaces existing revenue recognition guidance, including AASB 118 Revenue and AASB 111 Construction Contracts.

AASB 15 replaces the considerations of risks and rewards under AASB 118 to the concept of when control passes to the customer as the trigger point for the recognition of revenue.

The Group's revenue streams which are in scope under the new standard include management fees from property funds, property acquisition fees, property sales fees, recoverable outgoings and property performance fees. Rental income, interest income, distribution and dividend income and fair value movements in investment properties are excluded from the scope of this standard.

Notes to the consolidated financial statements

For the year ended 30 June 2019

F Other

(i) Impact

The Group has adopted AASB 15 using the cumulative effect method and as a result, there has been no impact on the Group's previously reported financial position.

In accordance with AASB 15, based on the Group's assessment of when performance obligations are satisfied there is no change to the classification, measurement or timing of revenue recognition (other than property performance fees) when comparing to the previous accounting policy, other than the change in terminology.

Performance fees were previously recognised upon satisfaction of all conditions precedent to the sale of an investment property and when significant risks and rewards have transferred. There is no transitional impact from adoption of AASB 15, however future performance fees will be recognised over-time. In assessing the timing and measurement of performance fees to be recognised, consideration is given to the facts and circumstances with respect to each investment property including external factors such as its current valuation, passage of time and outlook of the property market. Performance fees are only recognised when they are deemed to be highly probable and the amount of the performance fees will not result in a significant reversal in future periods.

In accordance with AASB 15, the Group has recognised \$22,522,000 of property performance fees for the year ended 30 June 2019. Under AASB 118, performance fees of \$11,133,735 would be recognised for the year ended 30 June 2019. On transition to AASB 15, there is no material impact on the Group's equity as at 1 July 2018 and no other material impact for the year ended 30 June 2019.

Refer to Note B2 for a summary of the changes in terminology with respect to the timing of revenue recognition between AASB 111 and AASB 118 compared to AASB 15 and the new revenue recognition policies under AASB 15.

F6 OTHER NEW ACCOUNTING STANDARDS AND INTERPRETATIONS

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2019 reporting periods and have not been early adopted by the Group. The Group's assessment of the impact of these new standards and interpretations is set out below.

(A) AASB 16 LEASES

(i) Nature of change

AASB 16 Leases was issued in February 2016. It will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

(ii) Impact

The new standard will primarily impact the accounting for the Group's operating leases. As at the reporting date, the Group has only one material operating lease commitments at Level 41 Chifley Square, Sydney NSW. The application of the new standard will result in the recognition of a right of use asset along with a lease liability in the consolidated statement of financial position.

The adoption of the new standard will also require reclassifications on the consolidated statement of profit or loss and other comprehensive income with the lease repayments expense associated with this lease replaced with depreciation expense on the leased asset and in interest charge with respect to the lease liability. The changes on first time adoption of the new standard are not expected to have a material impact on retained earnings, and the consolidated statement of profit or loss and other comprehensive income in future periods.

Upon adoption of the new leasing standard effective 1 July 2019, management estimate that the lease assets would increase by approximately \$20,000,000 offset by a corresponding increase in lease liabilities amounting to approximately \$20,000,000, with no material impact to net profit.

(iii) Mandatory application date

It is mandatory for financial years commencing on or after 1 January 2019, but available for early adoption. The Group will adopt this standard in the year ending 30 June 2020.

There are no other standards that are not yet effective and that would expect to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

F7 EVENTS SUBSEQUENT TO THE REPORTING DATE

Since the end of the financial year, the shareholders of Heathley have convened a meeting and approved the proposed acquisition of Heathley by the Group. There are still a number of other conditions precedent outstanding which will need to be satisfied prior to the completion of the transaction.

In addition, since the end of the financial year, the Group has committed to a further \$11,000,000 in addition to its original commitment of \$61,700,000 to support funding requirements for Heathley funds. The Group will seek to raise these funds by using its unlisted distribution network and will manage and underwrite any shortfall in the fund raising to satisfy the overall funding requirements. As at 30 June 2019, the Group had already provided funding of \$2,800,000 with a further \$2,100,000 invested since the end of the financial year.

Other than the above, there has not arisen in the interval between 30 June 2019 and the date hereof any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, in future financial years.

Directors' declaration

For the year ended 30 June 2019

In the opinion of the Directors' of Centuria Capital Limited:

(a) the consolidated financial statements and notes set out on pages 40 to 89 and the Remuneration Report set out on pages 31 to 38 in the Directors' Report, are in accordance with the Corporations Act 2001, including:

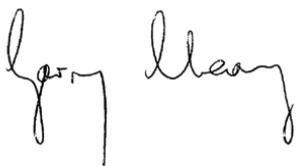

- (i) complying with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements, and
- (ii) giving a true and fair view of the Group's financial position as at 30 June 2019 and of its performance for the financial year ended on that date, and

(b) there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

Note A1 confirms that the consolidated financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The Directors have been given the declarations by the chief executive officer and chief financial officer required by section 295A of the Corporations Act 2001.

This declaration is made in accordance with a resolution of Directors.

Independent Auditor's Report

To the stapled security holders of Centuria Capital Group

Report on the audit of the Financial Report

Opinion

We have audited the **Financial Report** of Centuria Capital Limited (the Company) as the deemed parent presenting the stapled security arrangement of the Centuria Capital Group (the Stapled Group Financial Report).

In our opinion, the accompanying Stapled Group Financial Report is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Stapled Group's** financial position as at 30 June 2019 and of its financial performance for the year ended on that date; and
- complying with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** of the Stapled Group comprises:

- Consolidated statement of financial position as at 30 June 2019
- Consolidated statement of comprehensive income, Consolidated statement of changes in equity, and Consolidated statement of cash flows for the year then ended
- Notes including a summary of significant accounting policies
- Directors' Declaration.

The **Stapled Group** consists of the Company and the entities it controlled at the year-end or from time to time during the financial year and Centuria Capital Fund and the entities it controlled at the year-end or from time to time during the financial year.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Stapled Group and Company in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

The **Key Audit Matters** we identified for the Stapled Group are:

- Recognition of performance fee income
- Value of equity accounted investments
- Recoverable amount of goodwill and indefinite life intangible assets

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

These matters were addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recognition of performance fee income (\$22.5m)

Refer to Note B2 to the Financial Report

The key audit matter

The Stapled Group, in its capacity as a property fund manager, earns performance fees based on agreements with some of its managed property funds. Performance fees are triggered when underlying funds internal rate of return exceeds the agreed hurdle rate.

Recognition of performance fee income is considered a key audit matter due to the:

- Quantum of performance fee income, representing 19% of the Stapled Group's total revenue; and
- Significant judgement exercised by us in assessing the amount of performance fees recognised by the Stapled Group. The key assumptions impacting the amount of performance fees, are subject to estimation uncertainty, bias and inconsistent application. This increases the risk of inaccurate forecasts or a wider range of possible outcomes for us to consider. Increased time and effort is spent by the audit team in assessing these key assumptions.

The amount of performance fees recognised are impacted by key assumptions including:

- Fair value of underlying investment properties held by the funds. The valuation of investment properties contains assumptions with estimation uncertainty such as expected capitalisation rates and market rental yields. This leads to additional audit effort due to the differing assumptions based on asset

How the matter was addressed in our audit

In performing our procedures, we:

- Read the Stapled Group's agreements with managed property funds to understand the key terms related to performance fees, including hurdle rates.
- Evaluated the Stapled Group's accounting policies regarding the recognition of performance fee income against accounting standard requirements. This included assessing the Stapled Group's policies for constraining performance fee income and valuing investment properties against accounting standard requirements.
- Assessed the scope, competence and objectivity of the funds external experts and their internal valuers to fair value the underlying investment properties held by the funds.
- With the assistance of our real-estate valuation specialists, challenged specific property fair value assumptions such as capitalisation rates and market rental yields by comparing to market analysis published by industry experts, recent market transactions, inquiries with the Stapled Group, historical performance of the underlying investment properties and using our industry experience.
- Assessed the Stapled Group's determination of the forecast fund end date based on the underlying managed property fund agreements, the fair value of underlying investment properties, the Stapled Group's

The fund end date impacts the level of returns that can be achieved over the course of the funds life and may change depending on management’s view of when maximum value can be obtained for unitholders of the fund. • Constraint. This is impacted by the Stapled Group’s expectations of how much of the performance fee is highly probable to be received in accordance with the requirements of the accounting standards. <p>In the financial year the Stapled Group adopted AASB 15 <i>Revenue from Contracts with Customers</i> (AASB 15). This required the Stapled Group to assess their accounting policies against the revenue recognition requirements of this accounting standard. This required additional audit effort for us to assess the Stapled Group’s performance fee income in the current year.</p> <p>In assessing this Key Audit Matter, we involved our real-estate valuation specialists, who understand the Group’s investment profile and business.</p>	<p>fund strategy and history of extending fund term end dates.</p> <ul style="list-style-type: none"> • Recalculated the Stapled Group’s performance fee recognised against hurdles in the underlying performance fee agreements with managed property funds. • Challenged the constraints applied in determining the amount of performance fees that are highly probable to be received by the Stapled Group, based on the Stapled Group’s estimate of current and forecast property fund performance. We used our knowledge of the Stapled Group, their past performance, business, and our industry experience.

<p>The Stapled Group holds equity accounted investments in Centuria Industrial REIT (CIP) and Centuria Metropolitan REIT (CMA), the value of which is underpinned by investment property valuations.</p> <p>The value of equity accounted investments is a key audit matter as they are significant in value (being 30% of total assets) and the valuation of underlying investment properties contain assumptions with estimation uncertainty.</p> <p>This leads to additional audit effort due to the differing assumptions based on asset classes, geographies and characteristics of individual investment properties.</p>	<p>In performing our procedures, we:</p> <ul style="list-style-type: none"> • Obtained an understanding of the Stapled Group’s process regarding the valuation of their equity accounted investments, in particular for the investment properties within. • Assessed the methodologies used in the valuations of their equity accounted investments, in particular the investment properties within, for consistency with accounting standards, industry practice and the Stapled Group’s policies. • Assessed the scope, competence and objectivity of the funds external experts and their internal valuers. • Worked with our real estate valuation specialists to read published reports and industry

Recoverable amount of goodwill and indefinite life intangible assets (\$157.7m)

Refer to Note C6 to the Financial Report

The key audit matter	How the matter was addressed in our audit
<p>A key audit matter was the Group's annual testing of goodwill and indefinite life intangible assets for impairment, given the size of the balance and sensitivity of the forward looking assumptions to small changes. We focussed on the significant forward-looking assumptions the Stapled Group applied in their value in use model, including:</p> <ul style="list-style-type: none"> • forecast operating cash flows, growth rates and terminal growth rates (taking into consideration future growth in funds under management and transactional fees). The Group's model is sensitive to small changes in these assumptions, which may reduce available headroom. Other Information

Other Information is financial and non-financial information in Centuria Capital Group's annual reporting which is provided in addition to the Financial Report and the Auditor's Report. The Directors of the Company are responsible for the Other Information.

The Other Information we obtained prior to the date of this Auditor's Report was the Director's Report, The Key Financial Metrics, Chairman's Report, Chief Executive's Report, Unlisted Property, Listed Property, Centuria Life and Centuria in the Community are expected to be made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors of the Company are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error
- assessing the Stapled Group's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Stapled Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf This description forms part of our Auditor's Report.
