DEAR SHAREHOLDERS

During 2015, our plans for growth were, as they have in many preceding years, thwarted by a lack of seasonal weather. Indeed, this past winter was one of the warmest on record. But, while our recent performance fell short of our expectations, this past winter served to reinforce that our growth strategies already in place are on target; with them, we believe we are positioned to fuel consistent growth and increased profitability. First and foremost: our efforts to further diversify our business. We have made good progress on this front the past several years both organically and through acquisition. In 2016, we are shifting more time and resources to support our best growth prospects, which are in much larger and less weather sensitive segments of the market. With our balance sheet in very good shape, we are well positioned to execute our strategic initiatives and regain top and bottom line momentum.

Our biggest market opportunities lie in casual and fashion footwear, two segments where our Company has historically been significantly underpenetrated. With our acquisition of Creative Recreation in late 2013, the evolution of our Durango western boot offering, and the development of Rocky 4EurSole, we now have a solid foundation to build meaningful market share.

Starting with Creative Recreation, our recent focus and efforts have been around preparing the business for spring 2016. This will be the first season that the product line was fully developed under the direction of Rich Cofinco, the brand's original founder who rejoined the brand in late 2014. Throughout 2015 we worked to shore up the supply chain to ensure on time and complete deliveries and selectively expand distribution through tests with best in class retailers like Nordstrom and DSW. Creative Recreation's performance during the holidays was a testament to the progress our teams have made on these important fronts coupled with the success of several key product launches from the past year. We are well positioned to build on the current momentum with the launch of the brand's most complete footwear collection ever which is being supported by a new multi-tier celebrity ambassador program featuring Nick Jonas.

Turning to Durango, the brand is 50 years old this year and stronger than ever. We believe the product offering continues to provide us opportunity to extend the brand beyond its traditional farm and ranch distribution channels. This will help mitigate some of the pressures we've experienced in markets that have been impacted by the slowdown in the oil & gas industries and allow us to reach a broader consumer audience. A primary goal for Durango in the coming year is to increase development of product at price points that allow us to play seriously in the mid-tier channel where most fashion consumers shop; e.g. department stores and destination retailers like Macy's and DSW. Once placed there, we are committed to allocating marketing dollars to help drive consumers to the on-line and bricks and mortar locations.

The third and most recent addition to our casual footwear platform is Rocky 4EurSole. This line features active lifestyle footwear inspired by a European-

clog style design. The early consumer response to the product offering bodes well as we expand distribution in Europe and further penetrate the U.S. Our retail strategy in the U.S. is to target active women which requires the brand to have a strong online presence. Rocky 4EurSole currently sells on kohls.com, bonton.com, shoebuy.com and footsmart.com; we expect other on-line retailers to be on board soon, as well as several leading independent retailers.

Despite the challenging finish to the year, our core work, western, and hunting brands continue to occupy leadership positions in their respective categories and maintain strong equity with their target consumers. The factors that shaped our financial performance were mostly external in nature and beyond our control. Therefore we will continue to invest in growing these categories by bringing innovative new products to market featuring the benefits that have been the hallmarks of the Georgia Boot, Rocky and Durango brands for decades such as comfort, durable, and waterproof.

It is these same qualities that have allowed us to successfully grow our contract and commercial military businesses into more meaningful contributors of our overall performance. In January 2016, we announced a new order from the U.S. Military to produce a minimum of \$13 million in combat boots. This is on top of the remaining orders we still have to fill from our existing Military contract awarded in 2012. In total, we have approximately \$31 million in contract military sales scheduled for delivery in 2016, an increase of 78% over 2015 levels. It is a great honor supplying our soldiers with the boots they wear in the field. In addition, contract military sales help improve the utilization of our company-operated facility in Puerto Rico and provide solid cash flow that we are investing in higher margin areas of the business. At the same time, our commercial military category has quickly grown into a sizable business on the strength of several very popular boots which are currently benefiting from recent changes in Army appearance regulations.

With a strong portfolio of authentic brands that each enjoy very loyal consumer bases, we continue to accelerate our direct-to-consumer strategy in order to strengthen these connections and drive incremental sales. The shift in how people search and shop for goods today has made having an advanced digital infrastructure increasingly important to not only retaining existing customers but also reaching new consumers. Over the past few years, we have built a robust ecommerce platform along with digital marketing programs resulting in increased traffic and conversion on each of our branded sites. And, we'll continue to pursue new technologies that allow us to stay in front of our consumers anytime and anywhere they choose to engage with our brands.

Weather is always going to play a role in our results, however we are building a more diversified business model that will help mitigate the downside risk from warm, dry temperatures in the future. Equally important, we have exciting new growth vehicles that are opening up new channels of distribution and broadening the Company's addressable markets. I am confident that we have the right plans in place to capitalize on the many opportunities ahead of us and continue our commitment to returning cash directly to shareholders through our dividend and share repurchases.

In closing, I want to express my thanks and gratitude to our tremendous group of employees. Their effort and dedication to overcoming the issues we faced last year are the reason we are poised for a rebound in 2016.

Sincerely,

David N. Sharp
President & Chief Executive Officer

Rocky footwear and clothing is for people who are active, engaged and on the go. ROCKY's superior comfort, design, insulation, and waterproofing system empowers them to achieve their personal best and gives them the confidence to succeed.

- CONFIDENCE IN ACTION

Rocky footwear and apparel is designed to give you the confidence to succeed wherever your pursuit takes you. Rocky is proud to introduce the new Venator camo. During the two years of consumer research and field testing, Rocky took inspiration from a wide variety of terrains and vegetation - from barren, rocky scrubland to trees, thick snow-capped peaks, and everything in between. The result is a camo that can be worn across the world.

DURANGO®

Slipping on your Durangos allows you to boldly embrace your inner cowboy. You're ready to be mischievous, have fun, kick up your heels and celebrate freedom. Durango is not just a boot, it's an attitude... we call it OUTLAW FUN.

THE COUNTRY BREW
Country Style

On The Fringe

A LITTLE ATTITUDE GOES A LONG WAY WITH THIS FASHION TREND.

We're not going to say it takes a lot of confidence to slip on a pair of fringe boots or booties. But we're also pretty sure that once your feet have snuggled into this hot new trend, you'll have attitude by the truckload. We've found fun fringed boots in a variety of colors, styles and price ranges. All you have to do is find the pair that best suits your swagger. Then, to paraphrase Bessie Houser, head out on the town with your "boots on."

D.S.S. DURANGO SUSPENSION SYSTEM

INSPIRATION POINT

Caitlin Beals

For fall the Durango Boot designer celebrates the history of the American West.

By Barbara Schneider-Levy

Great design is all about keeping things real, according to Durango Boot Designer Caitlin Beals. For the brand's fall collection, she drew from America on and beyond the rugged frontier. "A lot of research was spent in the history, and I even had the opportunity and 'blissment,'" said Beals, who looked back to the West itself through the lens of John Wayne, Burt Reynolds, Lorne Greene and Clint Eastwood. "Our black and white photos show how dry and dusty the land was." Beals also took cues from the "Old West" of the West. "Some craftsmen of the past, creating one of the most unique features in the American footwear scene is the suspension system. It's the notion of 'what's old is new again,'" said Beals, adding that she was very into vintage photographs. "There's a theme that's called 'South Market' where I look for colors and find details I can use in embroidery."

CREATIVE RECREATION

Creative Recreation was founded in Los Angeles in 2002 with the sole purpose of designing footwear that fuses work and play. Inspired by the spirit of street art – with its bold creative expression and out of bounds thinking – Creative Rec doesn't sit quietly or complacently on the sideline. We thrive in energy-charged environments, where statements are made and are unified by a single idea - that creativity matters.

Rocky 4EurSole is for women who are dynamic, performance driven, and always on the run. The innovative insole provides for superior comfort and unique customization – allowing each shoe to be as individual as the woman who wears them, while addressing her demands for comfort, versatility and style.

EURSOLE SANDAL COMFORT SYSTEM

Rocky 4EurSole

SUMMER SOLESTICE
Sole comfort sandals to keep you cool and collected in the heat of summer

Anti-odorizing this sandal uses cork support, creating your foot in all-day comfort.

Memory foam insole makes the sandal "fit" better and conforms to the shape of your foot.

Contoured, dual-density cork EVA footbed provides stable support.

Lightweight, flexible, shock-absorbing outsole provides cushioned comfort with every step.

The velcro feature and the cushion add a soft, flexible design element to each style.

Recycled rubber 4EurSole outsole is the most durable in the world, with 100% recycled environment providing durable stability.

This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. The words “anticipate,” “believe,” “expect,” “estimate,” and “project” and similar words and expressions identify forward-looking statements which speak only as of the date hereof. Investors are cautioned that such statements involve risks and uncertainties that could cause actual results to differ materially from historical or anticipated results due to many factors, including, but not limited to, the factors discussed in “Item 1A, Risk Factors.” The Company undertakes no obligation to publicly update or revise any forward-looking statements.

PART I

ITEM 1. BUSINESS.

All references to “we,” “us,” “our,” “Rocky Brands,” or the “Company” in this Annual Report on Form 10-K mean Rocky Brands, Inc. and our subsidiaries.

We are a leading designer, manufacturer and marketer of premium quality footwear and apparel marketed under a portfolio of well recognized brand names including Rocky, Georgia Boot, Durango, Lehigh, Creative Recreation and the licensed brand Michelin. Our brands have a long history of representing high quality, comfortable, functional and durable footwear and our products are organized around six target markets: outdoor, work, duty, commercial military, western and lifestyle. Our footwear products incorporate varying features and are positioned across a range of suggested retail price points from \$49.99 for our value priced products to \$359.99 for our premium products. In addition, as part of our strategy of outfitting consumers from head-to-toe, we market complementary branded apparel and accessories that we believe leverage the strength and positioning of each of our brands.

Our products are distributed through three distinct business segments: wholesale, retail and military. In our wholesale business, we distribute our products through a wide range of distribution channels representing over 10,000 retail store locations in the U.S. and Canada as well as in several international markets. Our wholesale channels vary by product line and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores and other specialty retailers. Our retail business includes direct sales of our products to consumers through our e-commerce websites and our Rocky outlet store. We operate four mobile trucks to service the New York Transit Authority’s employees. We also sell footwear under the Rocky label to the U.S. military.

Competitive Strengths

Our competitive strengths include:

- *Strong portfolio of brands.* We believe the Rocky, Georgia Boot, Durango, Lehigh, Creative Recreation and Michelin brands are well recognized and established names that have a reputation for performance, quality and comfort in the markets they serve: outdoor, work, duty, commercial military, western and lifestyle. We plan to continue strengthening these brands through product innovation in existing footwear markets, by extending certain of these brands into our other target markets and by introducing complementary apparel and accessories under our owned brands.
- *Commitment to product innovation.* We believe a critical component of our success in the marketplace has been a result of our continued commitment to product innovation. Our consumers demand high quality, durable products that incorporate the highest level of comfort and the most advanced technical features and designs. We have a dedicated group of product design and development professionals, including well recognized experts in the footwear and apparel industries, who continually interact with consumers to better understand their needs and are committed to ensuring our products reflect the most advanced designs, features and materials available in the marketplace.
- *Long-term retailer relationships.* We believe that our long history of designing, manufacturing and marketing premium quality, branded footwear has enabled us to develop strong relationships with our retailers in each of our distribution channels. We reinforce these relationships by continuing to offer innovative footwear products, by continuing to meet the individual needs of each of our retailers and by working with our retailers to improve the visual merchandising of our products in their stores. We believe that strengthening our relationships with retailers will allow us to increase our presence through additional store locations and expanded shelf space, improve our market position in a consolidating retail environment and enable us to better understand and meet the evolving needs of both our retailers and consumers.

- *Diverse product sourcing and manufacturing capabilities.* We believe our strategy of utilizing both company operated and third-party facilities for the sourcing of our products, offers several advantages. Operating our own facilities significantly improves our knowledge of the entire production process, which allows us to more efficiently source product from third parties that is of the highest quality and at the lowest cost available. We intend to continue to source a higher proportion of our products from third-party manufacturers, which we believe will enable us to obtain high quality products at lower costs per unit.

Growth Strategy

We intend to increase our sales through the following strategies:

- *Expand into new target markets under existing brands.* We believe there is significant opportunity to extend certain of our brands into our other target markets. We intend to continue to introduce products across varying feature sets and price points in order to meet the needs of our retailers.
- *Cross-sell our brands to our retailers.* We believe that many retailers of our existing and acquired brands target consumers with similar characteristics and, as a result, we believe there is significant opportunity to offer each of our retailers a broader assortment of footwear and apparel that target multiple markets and span a range of feature sets and price points.
- *Expand business internationally.* We intend to extend certain of our brands into international markets. We believe this is a significant opportunity because of the long history and authentic heritage of these brands. We intend on growing our business internationally through a network of distributors.
- *Increase apparel offerings.* We believe the long history and authentic heritage of our owned brands provide significant opportunity to extend each of these brands into complementary apparel. We intend to continue to increase our Rocky apparel offerings and believe that similar opportunities exist for our Georgia Boot and Durango brands in their respective markets.
- *Acquire or develop new brands.* We intend to continue to acquire or develop new brands that are complementary to our portfolio and could leverage our operational infrastructure and distribution network.

Product Lines

Our product lines consist of high quality products that target the following markets:

- *Outdoor.* Our outdoor product lines consist of footwear, apparel and accessory items marketed to outdoor enthusiasts who spend time actively engaged in activities such as hunting, fishing, camping or hiking. Our consumers demand high quality, durable products that incorporate the highest level of comfort and the most advanced technical features, and we are committed to ensuring our products reflect the most advanced designs, features and materials available in the marketplace. Our outdoor product lines consist of all-season sport/hunting footwear, apparel and accessories that are typically waterproof and insulated and are designed to keep outdoorsmen comfortable on rugged terrain or in extreme weather conditions.
- *Work.* Our work product lines consist of footwear and apparel marketed to industrial and construction workers, as well as workers in the hospitality industry, such as restaurants or hotels. All of our work products are specially designed to be comfortable, incorporate safety features for specific work environments or tasks and meet applicable federal and other standards for safety. This category includes products such as safety toe footwear for steel workers and non-slip footwear for kitchen workers.
- *Duty.* Our duty product line consists of footwear products marketed to law enforcement, security personnel and postal employees who are required to spend a majority of time at work on their feet. All of our duty footwear styles are designed to be comfortable, flexible, lightweight, slip resistant and durable. Duty footwear is generally designed to fit as part of a uniform and typically incorporates stylistic features, such as black leather uppers in addition to the comfort features that are incorporated in all of our footwear products.
- *Commercial Military.* Our commercial military product line consists of footwear products marketed to military personnel as a substitute for the government issued military boots. Our commercial military boots are designed to be comfortable, lightweight, and durable and are marketed under the Rocky brand name.

- *Western.* Our western product line currently consists of authentic footwear products marketed to farmers and ranchers who generally live in rural communities in North America. We also selectively market our western footwear to consumers enamored with the western lifestyle.
- *Lifestyle.* Our lifestyle product line currently consists of footwear products marketed to more fashion minded urban consumers.

Our products are marketed under five well-recognized, proprietary brands, Rocky, Georgia Boot, Durango, Creative Recreation and Lehigh, in addition to the licensed brand Michelin.

Rocky

Rocky, established in 1979, is our premium priced line of branded footwear, apparel and accessories. We currently design Rocky products for each of our five target markets and offer our products at a range of suggested retail price points: \$69.99 to \$339.99 for our footwear products, \$18.99 to \$174.99 for tops and bottoms in our apparel lines and \$8.99 to \$599.99 for our basic and technical outerwear.

The Rocky brand originally targeted outdoor enthusiasts, particularly hunters, and has since become the market leader in the hunting boot category. In 2002, we also extended into hunting apparel, including jackets, pants, gloves and caps. Our Rocky products for hunters and other outdoor enthusiasts are designed for specific weather conditions and the diverse terrains of North America. These products incorporate a range of technical features and designs such as Gore-Tex waterproof breathable fabric, 3M Thinsulate insulation, nylon Cordura fabric and camouflaged uppers featuring either Mossy Oak or Realtree patterns. Rugged outsoles made by industry leaders like Vibram are sometimes used in conjunction with our proprietary design features like the “Rocky Ride Comfort System” to make the products durable and easy to wear.

We also produce Rocky duty and commercial military footwear targeting law enforcement professionals, military, security workers and postal service employees, and we believe we have established a leading market share position in this category.

In 2002, we introduced Rocky work footwear designed for varying weather conditions or difficult terrain, particularly for people who make their living outdoors such as those in lumber or forestry occupations. These products typically include many of the proprietary features and technologies that we incorporate in our hunting and outdoor products. Similar to our strategy for the outdoor market, we introduced rugged work apparel in 2004, such as ranch jackets and carpenter jeans.

We have also introduced western influenced work boots for farmers and ranchers. Most of these products are waterproof, insulated and utilize our proprietary comfort systems. We also recently introduced some men’s and women’s casual western footwear for consumers enamored with western influenced fashion.

Georgia Boot

Georgia Boot was launched in 1937 and is our moderately priced, high quality line of work footwear. Georgia Boot footwear is sold at suggested retail price points ranging from \$54.99 to \$359.99. This line of products primarily targets construction workers and those who work in industrial plants where special safety features are required for hazardous work environments. Many of our boots incorporate steel toes or metatarsal guards to protect wearers’ feet from heavy objects and non-slip outsoles to prevent slip related injuries in the work place. All of our boots are designed to help prevent injury and subsequent work loss and are designed according to standards determined by the Occupational Safety & Health Administration or other standards required by employers.

In addition, we market a line of Georgia Boot footwear to brand loyal consumers for hunting and other outdoor activities. These products are primarily all leather boots distributed in the western and southwestern states where hunters do not require camouflaged boots or other technical features incorporated in our Rocky footwear.

We believe the Georgia Boot brand can be extended into moderately priced duty footwear as well as outdoor and work apparel.

Durango

Durango is our moderately priced, high quality line of western footwear and leather jackets. Launched in 1965, the brand has developed broad appeal and earned a reputation for authenticity and quality in the western footwear and apparel market. Our current line of products is offered at suggested retail price points ranging from \$49.99 to \$359.99, and we market products designed for both work and casual wear. Our Durango line of products primarily targets farm and ranch workers who live in the heartland where western influenced footwear and apparel is worn for work and casual wear and, to a lesser extent, this line appeals to urban consumers enamored with western influenced fashion. Many of our western boots marketed to farm and ranch workers are designed to be durable, including special “barn yard acid resistant” leathers to maintain integrity of the uppers, and incorporate our proprietary “Comfort Core” system to increase ease of wear and reduce foot fatigue. Other products in the Durango line that target casual and fashion oriented consumers have colorful leather uppers and shafts with ornate stitch patterns and are offered for men, women and children.

Creative Recreation

In December 2013, we completed the acquisition of certain assets of Kommonwealth, Inc. including the Creative Recreation brand and trademark. Headquartered in Los Angeles, California, since 2002, Creative Recreation was first to create and market versatile footwear that could easily transition between casual and more formal environments. Creative Recreation’s collections of upscale sneakers quickly gained strong acceptance and support from a wide array of key influencers across multiple categories including music, sports, and acting. Creative Recreation’s ability to successfully fuse style and versatility across a diversified assortment of products has created a wide target demographic and a strong distribution network that spans multiple channels and price points including Barneys New York, Nordstrom and Journeys. The current line of products is offered at suggested retail price points ranging from \$30.00 to \$200.00.

Lehigh

The Lehigh brand was launched in 1922 and is our moderately priced, high quality line of safety shoes sold at suggested retail price points ranging from \$79.99 to \$234.99. Our current line of products is designed to meet occupational safety footwear needs. Most of this footwear incorporates steel toes to protect workers and often incorporates other safety features such as metatarsal guards or non-slip outsoles. Additionally, certain models incorporate durability features to combat abrasive surfaces or caustic substances often found in some work places.

With the shift in manufacturing jobs to service jobs in the U.S., Lehigh began marketing products for the hospitality industry. These products have non-slip outsoles designed to reduce slips, trips and falls in kitchen environments where floors are often tiled and greasy. Price points for this kind of footwear range from \$49.99 to \$89.99.

Michelin

Michelin is a premier price point line of work footwear targeting specific industrial professions, primarily indoor professions. The license to design, develop and manufacture footwear under the Michelin name was secured in 2006. Suggested retail prices for the Michelin brand are from \$35.00 to \$249.99. The license agreement for the Michelin brand expired on December 31, 2015. At this time we are in negotiations with Michelin to extend the license agreement to December 31, 2017.

Sales and Distribution

Our products are distributed through three distinct business segments: wholesale, retail and military. You can find more information regarding our three business segments in Note 13 to our consolidated financial statements.

Wholesale

In the U.S., we distribute Rocky, Georgia Boot, Durango, Creative Recreation and Michelin products through a wide range of wholesale distribution channels. As of December 31, 2015, our products were offered for sale at over 10,000 retail locations in the U.S. and Canada.

We sell our products to wholesale accounts in the U.S. primarily through a dedicated in-house sales team who carry our branded products exclusively, as well as independent sales representatives who carry our branded products and other non-competing products. Our sales force for Rocky is organized around major accounts, including Bass Pro Shops, Cabela’s, Dick’s Sporting Goods, Tractor Supply Company and Gander Mountain, and around our target

markets: outdoor, work, duty, commercial military and western. For our Georgia Boot and Durango brands, our sales employees are organized around each brand and target a broad range of distribution channels. All of our sales people actively call on their retail customer base to educate them on the quality, comfort, technical features and breadth of our product lines and to ensure that our products are displayed effectively at retail locations.

Our wholesale distribution channels vary by market:

- Our outdoor products are sold primarily through sporting goods stores, outdoor specialty stores, catalogs and mass merchants.
- Our work-related products are sold primarily through retail uniform stores, catalogs, farm store chains, specialty safety stores, independent shoe stores and hardware stores.
- Our duty products are sold primarily through uniform stores and catalog specialists.
- Our commercial military products are sold primarily through base exchanges such as AAFES and consumer e-commerce websites.
- Our western products are sold through western stores, work specialty stores, specialty farm and ranch stores and more recently, fashion oriented footwear retailers.
- Our lifestyle products are sold primarily through fashion oriented footwear retailers.

Retail

We market products directly to consumers through three retail strategies under the Lehigh retail brand: Lehigh business-to-business including direct sales and through our Custom Fit websites, consumer e-commerce websites, and our stores, which include our outlet store, mobile and retail stores.

Websites

We sell our product lines on our websites at www.rockyboots.com, www.georgiaboot.com, www.durangoboot.com, www.lehighoutfitters.com, www.lehighsafetyshoes.com, www.slipgrips.com, www.rockymilitary.com, www.rockys2v.com, 4eursole.com and cr8rec.com. We believe that our internet presence allows us to showcase the breadth and depth of our product lines in each of our target markets and enables us to educate our consumers about the unique technical features of our products. We also sell directly to our business customers directly through our Custom Fit websites that are tailored to the specific needs of our customers. Our customers' employees order directly through their employers' established Custom Fit website and the footwear is delivered directly to the consumer via a common freight carrier. Our customers include large, national companies such as Carnival Cruise Lines, Pepsi, Schneider, Hagemeyer, Saint Gobain, Holland America Cruise Lines, and Waste Management.

Outlet Store

We operate the Rocky outlet store in Nelsonville, Ohio. Our outlet store primarily sells first quality or discontinued products in addition to a limited amount of factory damaged goods. Related products from other manufacturers are also sold in the store. Our outlet store allows us to showcase the breadth of our product lines as well as to cost-effectively sell slow-moving inventory. Our outlet store also provides an opportunity to interact with consumers to better understand their needs.

Mobile and Retail Stores

Lehigh's successful continued focus on converting our customers from delivery via our mobile and retail stores to purchasing via our Custom Fit sites and delivery direct has led to the continued reduction of the mobile and retail stores in the past several years. In 2016 we will continue to service the New York City Transit Authority with mobile stores.

Military

While we are focused on continuing to build our wholesale and retail business, we also actively bid on footwear contracts with the U.S. military, which requires products to be made in the U.S. Our manufacturing facilities in Puerto Rico, a U.S. territory, allow us to competitively bid for such contracts. We have received an order to fulfill a

contract to the U.S. Military to produce “Hot Weather” combat boots. We began shipping boots in the first quarter of 2013. The contract included a minimum purchase amount of \$3.0 million and a maximum of \$15.0 million for the first year and included an option for four additional years with the same terms. During 2014 and 2015, we shipped boots under this same agreement.

In early 2016, we announced we had received an order to fulfill a contract to the U.S. Military to produce “Temperate Weather” combat boots. The contract includes a minimum purchase amount of \$13.0 million with the entire order projected to ship between March and October 2016. Along with the existing contract, we now have approximately \$31 million in military orders scheduled for delivery in 2016, a 78% increase over 2015 levels.

All of our footwear for the U.S. military is currently branded Rocky. We believe that many U.S. service men and women are active outdoor enthusiasts and may be employed in many of the work and duty markets that we target with our brands. As a result, we believe our sales to the U.S. military serve as an opportunity to reach our target demographic with high quality branded products.

Marketing and Advertising

We believe that our brands have a reputation for high quality, comfort, functionality and durability built through their long history in the markets they serve. To further increase the strength and awareness of our brands, we have developed comprehensive marketing and advertising programs to gain national exposure and expand brand awareness for each of our brands in their target markets.

We have focused the majority of our advertising efforts on consumers in support of our retail partners. A key component of this strategy includes in-store point of purchase materials that add a dramatic focus to our brands and the products our retail partners carry. We also advertise through targeted national and local cable programs and print publications aimed at audiences that share the demographic profile of our typical customers. In addition, we promote our products on national radio broadcasts and through event sponsorships. These sponsorships provide significant national exposure for all of our brands as well as a direct connection to our target consumer. Our print advertisements and radio and television commercials emphasize the technical features of our products as well as their high quality, comfort, functionality and durability.

We also support independent dealers by listing their locations in our national print advertisements. In addition to our national advertising campaigns, we have developed attractive merchandising displays and store-in-store concept fixturing that are available to our retailers who purchase the breadth of our product lines. We also attend numerous tradeshows which allow us to showcase our entire product line to retail buyers and have historically been an important source of new accounts.

Product Design and Development

We believe that product innovation is a key competitive advantage for us in each of our markets. Our goal in product design and development is to continue to create and introduce new and innovative footwear and apparel products that combine our standards of quality, functionality and comfort and that meet the changing needs of our retailers and consumers. Our product design and development process is highly collaborative and is typically initiated both internally by our development staff and externally by our retailers and suppliers, whose employees are generally active users of our products and understand the needs of our consumers. Our product design and development personnel, marketing personnel and sales representatives work closely together to identify opportunities for new styles, camouflage patterns, design improvements and newer, more advanced materials. We have a dedicated group of product design and development professionals, some of whom are well recognized experts in the footwear and apparel industries, who continually interact with consumers to better understand their needs and are committed to ensuring our products reflect the most advanced designs, features and materials available in the marketplace.

Manufacturing and Sourcing

We manufacture footwear in facilities that we operate in the Dominican Republic and Puerto Rico, and source footwear, apparel and accessories from third-party facilities, primarily in China. We do not have long-term contracts with any of our third-party manufacturers. The products purchased from GuangDong Dongguan YongDu Shoes Company, one of our third-party manufacturers in China with whom we have had a long-term relationship, represented approximately 10% of our net sales in 2015. The products purchased from General Shoes US Corporation and its subsidiaries, another one of our third-party manufacturers in China with whom we have had a relationship for over 20 years and which has historically accounted for a significant portion of our manufacturing,

represented approximately 6% of our net sales in 2015. We believe that operating our own facilities significantly improves our knowledge of the entire raw material sourcing and manufacturing process enabling us to more efficiently source finished goods from third parties that are of the highest quality and at the lowest cost available. In addition, our Puerto Rican facilities allow us to produce footwear for the U.S. military and other commercial businesses that require production by a U.S. manufacturer. Sourcing products from offshore third-party facilities generally enables us to lower our costs per unit while maintaining high product quality and it limits the capital investment required to establish and maintain company operated manufacturing facilities. Because quality is an important part of our value proposition to our retailers and consumers, we source products from manufacturers who have demonstrated the intent and ability to maintain the high quality that has become associated with our brands.

Quality control is stressed at every stage of the manufacturing process and is monitored by trained quality assurance personnel at each of our manufacturing facilities, including our third-party factories. In addition, we utilize a team of procurement, quality control and logistics employees in our China office to visit factories to conduct quality control reviews of raw materials, work in process inventory and finished goods. We also utilize quality control personnel at our finished goods distribution facilities to conduct quality control testing on incoming sourced finished goods and raw materials and inspect random samples from our finished goods inventory from each of our manufacturing facilities to ensure that all items meet our high quality standards.

Foreign Operations and Sales Outside of the United States

Our products are primarily distributed in the United States, Canada, South America, Europe and Asia. We ship our products from our finished goods distribution facility located in Logan, Ohio and third-party logistics operations in Sumner, Washington and Ontario, Canada. Certain of our retailers receive shipments directly from our manufacturing sources, including all of our U.S. military sales, which are shipped directly from our manufacturing facilities in Puerto Rico. Net sales to foreign countries, primarily Canada, represented approximately 4.8% of net sales in 2015, 6.3% of net sales in 2014, and 2.9% of net sales in 2013.

As previously mentioned, we maintain manufacturing facilities that we operate in the Dominican Republic and Puerto Rico. In addition, we utilize a third party distribution facility in Canada and an office in China to support our contract manufacturers.

The net book value of fixed assets located outside of the U.S. totaled \$4.1 million at December 31, 2015, \$4.7 million at December 31, 2014, and \$4.9 million at December 31, 2013.

Suppliers

We purchase raw materials from sources worldwide. We do not have any long-term supply contracts for the purchase of our raw materials, except for limited blanket purchase orders on leather to protect wholesale selling prices for an extended period of time. The principal raw materials used in the production of our products, in terms of dollar value, are leather, Gore-Tex waterproof breathable fabric, Cordura nylon fabric and soling materials. We believe these materials will continue to be available from our current suppliers. However, in the event these materials are not available from our current suppliers, we believe these products, or similar products, would be available from alternative sources.

Seasonality and Weather

Historically, we have experienced significant seasonal fluctuations in our business because we derive a significant portion of our revenues from sales of our outdoor products. Many of our outdoor products are used by consumers in cold or wet weather. As a result, a majority of orders for these products are placed by our retailers in January through April for delivery in July through October. In order to meet demand, we must manufacture and source outdoor footwear year round to be in a position to ship advance orders for these products during the last two quarters of each year. Accordingly, average inventory levels have been highest during the second and third quarters of each year and sales have been highest in the last two quarters of each year. In addition, mild or dry weather conditions historically have had a material adverse effect on sales of our outdoor products, particularly if they occurred in broad geographical areas during late fall or early winter.

Since 2005, we have experienced and we expect that we will continue to experience less seasonality and that our business will be subject to reduced weather risk because we now derive a higher proportion of our sales from work-related footwear products. Generally, work, duty and western footwear is sold year round and is not subject to the same level of seasonality or variation in weather as our outdoor product lines. However, because of seasonal fluctuations and variations in weather conditions from year to year, there is no assurance that the results for any

particular interim period will be indicative of results for the full year or for future interim periods. With the acquisition of the Creative Recreation brand and the move toward more lifestyle geared products that are less dependent on weather conditions, we hope to reduce the seasonality and dependence on the variations in the weather.

Backlog

At December 31, 2015, our backlog was \$43.0 million compared to \$21.6 million at December 31, 2014. The increase at December 31, 2015 is related to the US Military contract for 2016. The backlog related to this contract is \$27.7 million at December 31, 2015, compared to \$4.4 million at December 31, 2014. Because a substantial portion of our orders are placed by our retailers in January through April for delivery in July through October, our backlog is lowest during the October through December period and peaks during the April through June period. Factors other than seasonality could have a significant impact on our backlog and, therefore, our backlog at any one point in time may not be indicative of future results. Generally, orders may be canceled by retailers prior to shipment without penalty.

Patents, Trademarks and Trade Names

We own numerous design and utility patents for footwear, footwear components (such as insoles and outsoles) and outdoor apparel in the U.S. and in foreign countries including Canada, Mexico, China and Taiwan. We own U.S. and certain foreign registrations for the trademarks used in our business, including our trademarks Rocky, Georgia Boot, Durango, Lehigh and Creative Recreation. In addition, we license trademarks, including Gore-Tex and Michelin, in order to market our products.

Our license with W. L. Gore & Associates, Inc. permits us to use the Gore-Tex and related marks on products and styles that have been approved in advance by Gore. The license agreement has a one year term that automatically renews each year, unless either party elects to terminate by giving advance written notice to the other party by October 1 for termination effective December 31 of that same year.

Our license with Michelin Lifestyle Limited permits us to use the Michelin and related marks on our products. Our license agreement with Michelin Lifestyle Limited to use the Michelin name terminated on December 31, 2015. At this time, we are in negotiations with Michelin to extend the license agreement to December 31, 2017.

In the U.S., our patents are generally in effect for up to 20 years from the date of the filing of the patent application. Our trademarks are generally valid as long as they are in use and their registrations are properly maintained and have not been found to become generic. Trademarks registered outside of the U.S. generally have a duration of 10 years depending on the jurisdiction and are also generally subject to an indefinite number of renewals for a like period upon appropriate application.

While we have an active program to protect our intellectual property by filing for patents and trademarks, we do not believe that our overall business is materially dependent on any individual patent or trademark. We are not aware of any infringement of our intellectual property rights or that we are infringing any intellectual property rights owned by third parties. Moreover, we are not aware of any material conflicts concerning our trademarks or our use of trademarks owned by others.

Competition

We operate in a very competitive environment. Product function, design, comfort, quality, technological and material improvements, brand awareness, timeliness of product delivery and pricing are all important elements of competition in the markets for our products. We believe that the strength of our brands, the quality of our products and our long-term relationships with a broad range of retailers allows us to compete effectively in the footwear and apparel markets that we serve. However, we compete with footwear and apparel companies that have greater financial, marketing, distribution and manufacturing resources than we do. In addition, many of these competitors have strong brand name recognition in the markets they serve.

The footwear and apparel industry is also subject to rapid changes in consumer preferences. Some of our product lines are susceptible to changes in both technical innovation and fashion trends. Therefore, the success of these products and styles are more dependent on our ability to anticipate and respond to changing product, material and design innovations as well as fashion trends and consumer demands in a timely manner. Our inability or failure to do so could adversely affect consumer acceptance of these product lines and styles and could have a material adverse effect on our business, financial condition and results of operations.

Employees

At December 31, 2015, we had approximately 2,447 employees of which approximately 2,418 are full time employees. Approximately 1,993 of our employees work in our manufacturing facilities in the Dominican Republic and Puerto Rico. None of our employees are represented by a union. We believe our relations with our employees are good.

Available Information

We make available free of charge on our corporate website, www.rockybrands.com, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and, if applicable, amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after such reports are electronically filed with or furnished to the Securities and Exchange Commission.

ITEM 1A. RISK FACTORS.

Business Risks

Expanding our brands into new footwear and apparel markets may be difficult and expensive, and if we are unable to successfully continue such expansion, our brands may be adversely affected, and we may not achieve our planned sales growth.

Our growth strategy is founded substantially on the expansion of our brands into new footwear and apparel markets. New products that we introduce may not be successful with consumers or one or more of our brands may fall out of favor with consumers. If we are unable to anticipate, identify or react appropriately to changes in consumer preferences, we may not grow as fast as we plan to grow or our sales may decline, and our brand image and operating performance may suffer.

Furthermore, achieving market acceptance for new products will likely require us to exert substantial product development and marketing efforts, which could result in a material increase in our selling, general and administrative, or SG&A, expenses, and there can be no assurance that we will have the resources necessary to undertake such efforts. Material increases in our SG&A expenses could adversely impact our results of operations and cash flows.

We may also encounter difficulties in producing new products that we did not anticipate during the development stage. Our development schedules for new products are difficult to predict and are subject to change as a result of shifting priorities in response to consumer preferences and competing products. If we are not able to efficiently manufacture newly-developed products in quantities sufficient to support retail distribution, we may not be able to recoup our investment in the development of new products. Failure to gain market acceptance for new products that we introduce could impede our growth, reduce our profits, adversely affect the image of our brands, erode our competitive position and result in long term harm to our business.

A majority of our products are produced outside the U.S. where we are subject to the risks of international commerce.

A majority of our products are produced in the Dominican Republic and China. Therefore, our business is subject to the following risks of doing business offshore:

- the imposition of additional United States legislation and regulations relating to imports, including quotas, duties, taxes or other charges or restrictions;
- foreign governmental regulation and taxation;
- fluctuations in foreign exchange rates;
- changes in economic conditions;
- transportation conditions and costs in the Pacific and Caribbean;
- changes in the political stability of these countries; and

- changes in relationships between the United States and these countries.

If any of these factors were to render the conduct of business in these countries undesirable or impracticable, we would have to manufacture or source our products elsewhere. There can be no assurance that additional sources or products would be available to us or, if available, that these sources could be relied on to provide product at terms favorable to us. The occurrence of any of these developments could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our success depends on our ability to anticipate consumer trends.

Demand for our products may be adversely affected by changing consumer trends. Our future success will depend upon our ability to anticipate and respond to changing consumer preferences and technical design or material developments in a timely manner. The failure to adequately anticipate or respond to these changes could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Loss of services of our key personnel could adversely affect our business.

The development of our business has been, and will continue to be, highly dependent upon David Sharp, President and Chief Executive Officer, and James E. McDonald, Executive Vice President, Chief Financial Officer and Treasurer. Messrs. Sharp and McDonald each have an at-will employment agreement with us. Each employment agreement provides that in the event of termination of employment, without cause, the terminated executive will receive a severance benefit. In the event of termination for any reason, the terminated executive may not compete with us for a period of one year. Except for Gary Adam, President – Sales of Rocky Brands International, LLC, Jason Brooks, President – Sales of Rocky Brands Wholesale, LLC, and Richard Simms, President – Marketing Services, and Michael Walker, Senior Vice President and General Manager, Supply Chain Operations, of the Company, none of our other executive officers and key employees has an employment agreement with our company. The loss of the services of any of these officers could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We depend on a limited number of suppliers for key production materials, and any disruption in the supply of such materials could interrupt product manufacturing and increase product costs.

We purchase raw materials from a number of domestic and foreign sources. We do not have any long-term supply contracts for the purchase of our raw materials, except for limited blanket orders on leather. The principal raw materials used in the production of our footwear, in terms of dollar value, are leather, Gore-Tex waterproof breathable fabric, Cordura nylon fabric and soling materials. Availability or change in the prices of our raw materials could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We currently have a licensing agreement for the use of Gore-Tex waterproof breathable fabric, and any termination of this licensing agreement could impact our sales of waterproof products.

We are currently one of the largest customers of Gore-Tex waterproof breathable fabric for use in footwear. Our licensing agreement with W.L. Gore & Associates, Inc. may be terminated by either party upon advance written notice to the other party by October 1 for termination effective December 31 of that same year. Although other waterproofing techniques and materials are available, we place a high value on our Gore-Tex waterproof breathable fabric license because Gore-Tex has high brand name recognition with our customers. The loss of our license to use Gore-Tex waterproof breathable fabric could have a material adverse effect on our competitive position, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our outdoor products are seasonal.

We have historically experienced significant seasonal fluctuations in our business because we derive a significant portion of our revenues from sales of our outdoor products. Many of our outdoor products are used by consumers in cold or wet weather. As a result, a majority of orders for these products are placed by our retailers in January through April for delivery in July through October. In order to meet demand, we must manufacture and source outdoor footwear year round to be in a position to ship advance orders for these products during the last two quarters of each year. Accordingly, average inventory levels have been highest during the second and third quarters of each year and sales have been highest in the last two quarters of each year. There is no assurance that we will have either

sufficient inventory to satisfy demand in any particular quarter or have sufficient demand to sell substantially all of our inventory without significant markdowns.

Our outdoor products are sensitive to weather conditions.

Historically, our outdoor products have been used primarily in cold or wet weather. Mild or dry weather has in the past and may in the future have a material adverse effect on sales of our products, particularly if mild or dry weather conditions occur in broad geographical areas during late fall or early winter. Also, due to variations in weather conditions from year to year, results for any single quarter or year may not be indicative of results for any future period.

Our business could suffer if our third-party manufacturers violate labor laws or fail to conform to generally accepted ethical standards.

We require our third-party manufacturers to meet our standards for working conditions and other matters before we are willing to place business with them. As a result, we may not always obtain the lowest cost production. Moreover, we do not control our third-party manufacturers or their respective labor practices. If one of our third-party manufacturers violates generally accepted labor standards by, for example, using forced or indentured labor or child labor, failing to pay compensation in accordance with local law, failing to operate its factories in compliance with local safety regulations or diverging from other labor practices generally accepted as ethical, we likely would cease dealing with that manufacturer, and we could suffer an interruption in our product supply. In addition, such a manufacturer's actions could result in negative publicity and may damage our reputation and the value of our brand and discourage retail customers and consumers from buying our products.

The growth of our business will be dependent upon the availability of adequate capital.

The growth of our business will depend on the availability of adequate capital, which in turn will depend in large part on cash flow generated by our business and the availability of equity and debt financing. We cannot assure that our operations will generate positive cash flow or that we will be able to obtain equity or debt financing on acceptable terms or at all. Our revolving credit facility contains provisions that restrict our ability to incur additional indebtedness or make substantial asset sales that might otherwise be used to finance our expansion. Security interests in substantially all of our assets, which may further limit our access to certain capital markets or lending sources, secure our obligations under our revolving credit facility. Moreover, the actual availability of funds under our revolving credit facility is limited to specified percentages of our eligible inventory and accounts receivable. Accordingly, opportunities for increasing our cash on hand through sales of inventory would be partially offset by reduced availability under our revolving credit facility. As a result, we cannot assure you that we will be able to finance our current expansion plans.

We must comply with the restrictive covenants contained in our revolving credit facility.

Our credit facility requires us to comply with certain financial restrictive covenants that impose restrictions on our operations, including our ability to incur additional indebtedness, make investments of other restricted payments, sell or otherwise dispose of assets and engage in other activities. Any failure by us to comply with the restrictive covenants could result in an event of default under those borrowing arrangements, in which case the lenders could elect to declare all amounts outstanding there under to be due and payable, which could have a material adverse effect on our financial condition. Our credit facility contains a restrictive covenant which requires us to maintain a fixed charge coverage ratio. This restrictive covenant is only in effect upon a triggering event taking place (as defined in the credit facility agreement). At December 31, 2015, there was no triggering event and the covenant was not in effect.

We face intense competition, including competition from companies with significantly greater resources than ours, and if we are unable to compete effectively with these companies, our market share may decline and our business could be harmed.

The footwear and apparel industries are intensely competitive, and we expect competition to increase in the future. A number of our competitors have significantly greater financial, technological, engineering, manufacturing, marketing and distribution resources than we do, as well as greater brand awareness in the footwear market. Our ability to succeed depends on our ability to remain competitive with respect to the quality, design, price and timely delivery of products. Competition could materially adversely affect our business, financial condition, results of operations and cash flows.

We currently manufacture a portion of our products and we may not be able to do so in the future at costs that are competitive with those of competitors who source their goods.

We currently plan to retain our internal manufacturing capability in order to continue benefiting from expertise we have gained with respect to footwear manufacturing methods conducted at our manufacturing facilities. We continue to evaluate our manufacturing facilities and third-party manufacturing alternatives in order to determine the appropriate size and scope of our manufacturing facilities. There can be no assurance that the costs of products that continue to be manufactured by us can remain competitive with products sourced from third parties.

We rely on distribution centers in Logan, Ohio, Sumner, Washington and Waterloo, Ontario, Canada, and if there is a natural disaster or other serious disruption at any of these facilities, we may be unable to deliver merchandise effectively to our retailers.

We rely on distribution centers located in Logan, Ohio, Sumner, Washington and Waterloo, Ontario, Canada. Any natural disaster or other serious disruption at any of these facilities due to fire, tornado, flood, terrorist attack or any other cause could damage a portion of our inventory or impair our ability to use our distribution center as a docking location for merchandise. Either of these occurrences could impair our ability to adequately supply our retailers and harm our operating results.

We are subject to certain environmental and other regulations.

Some of our operations use substances regulated under various federal, state, local and international environmental and pollution laws, including those relating to the storage, use, discharge, disposal and labeling of, and human exposure to, hazardous and toxic materials. Compliance with current or future environmental laws and regulations could restrict our ability to expand our facilities or require us to acquire additional expensive equipment, modify our manufacturing processes or incur other significant expenses. In addition, we could incur costs, fines and civil or criminal sanctions, third-party property damage or personal injury claims or could be required to incur substantial investigation or remediation costs, if we were to violate or become liable under any environmental laws. Liability under environmental laws can be joint and several and without regard to comparative fault. There can be no assurance that violations of environmental laws or regulations have not occurred in the past and will not occur in the future as a result of our inability to obtain permits, human error, equipment failure or other causes, and any such violations could harm our business, financial condition, results of operations and cash flows.

If our efforts to establish and protect our trademarks, patents and other intellectual property are unsuccessful, the value of our brands could suffer.

We regard certain of our footwear designs as proprietary and rely on patents to protect those designs. We believe that the ownership of patents is a significant factor in our business. Existing intellectual property laws afford only limited protection of our proprietary rights, and it may be possible for unauthorized third parties to copy certain of our footwear designs or to reverse engineer or otherwise obtain and use information that we regard as proprietary. If our patents are found to be invalid, however, to the extent they have served, or would in the future serve, as a barrier to entry to our competitors, such invalidity could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We own U.S. registrations for a number of our trademarks, trade names and designs, including such marks as Rocky, Georgia Boot, Durango, Lehigh and Creative Recreation. Additional trademarks, trade names and designs are the subject of pending federal applications for registration. We also use and have common law rights in certain trademarks. Over time, we have increased distribution of our goods in several foreign countries. Accordingly, we have applied for trademark registrations in a number of these countries. We intend to enforce our trademarks and trade names against unauthorized use by third parties.

Our success depends on our ability to forecast sales.

Our investments in infrastructure and product inventory are based on sales forecasts and are necessarily made in advance of actual sales. The markets in which we do business are highly competitive, and our business is affected by a variety of factors, including brand awareness, changing consumer preferences, product innovations, susceptibility to fashion trends, retail market conditions, weather conditions and economic and other factors. One of our principal challenges is to improve our ability to predict these factors, in order to enable us to better match production with demand. In addition, our growth over the years has created the need to increase the investment in infrastructure and product inventory and to enhance our systems. To the extent sales forecasts are not achieved,

costs associated with the infrastructure and carrying costs of product inventory would represent a higher percentage of revenue, which would adversely affect our business, financial condition, results of operations and cash flows.

A privacy breach could have a material adverse effect on the Company's business and reputation.

We rely heavily on digital technologies for the successful operation of our business, including electronic messaging, digital marketing efforts and the collection and retention of customer data and employee information. We also rely on third parties to process credit card transactions, perform online e-commerce and social media activities and retain data relating to the Company's financial position and results of operations, strategic initiatives and other important information. Despite the security measures we have in place, our facilities and systems and those of our third-party service providers, may be vulnerable to cyber-security breaches, acts of vandalism, computer viruses, misplaced or lost data, programming and/or human errors or other similar events. Any misappropriation, loss or other unauthorized disclosure of confidential or personally identifiable information, whether by us or by our third-party service providers, could adversely affect our business. We maintain cyber risk insurance, but this insurance may not be sufficient to cover all of our losses from any future breaches of our systems.

Our dividend policy may change.

Although we have paid dividends to our shareholders, we have no obligation to continue doing so and may change our dividend policy at any time without notice to our shareholders. Holders of our common stock are only entitled to receive such cash dividends as our board of directors may declare out of funds legally available for such payments.

Risks Related to Our Industry

Because the footwear market is sensitive to decreased consumer spending and slow economic cycles, if general economic conditions deteriorate, many of our customers may significantly reduce their purchases from us or may not be able to pay for our products in a timely manner.

The footwear industry has been subject to cyclical variation and decline in performance when consumer spending decreases or softness appears in the retail market. Many factors affect the level of consumer spending in the footwear industry, including:

- general business conditions;
- interest rates;
- the availability of consumer credit;
- weather;
- increases in prices of nondiscretionary goods;
- taxation; and
- consumer confidence in future economic conditions.

Consumer purchases of discretionary items, including our products, may decline during recessionary periods and also may decline at other times when disposable income is lower. A downturn in regional economies where we sell products also reduces sales.

The continued shift in the marketplace from traditional independent retailers to large discount mass merchandisers may result in decreased margins.

A continued shift in the marketplace from traditional independent retailers to large discount mass merchandisers has increased the pressure on many footwear manufacturers to sell products to these mass merchandisers at less favorable margins. Because of competition from large discount mass merchandisers, a number of our small retailing customers have gone out of business, and in the future more of these customers may go out of business, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 2. PROPERTIES.

We own our 25,000 square foot executive offices that are located in Nelsonville, Ohio, which are utilized by all segments. We also own our 192,000 square foot finished goods distribution facility in Logan, Ohio, which is utilized by our wholesale and retail segments. We also own our 41,000 square foot outlet store and a 5,500 square foot executive office building located in Nelsonville, Ohio, a portion of which is utilized by our retail segment. We lease an office in California for our Creative Recreation business. This lease expires in March 2018. We lease two manufacturing facilities in Puerto Rico consisting of 44,978 square feet and 39,581 square feet which are utilized by the wholesale and military segments. These leases expire in 2019. In the Dominican Republic, we lease seven stand-alone manufacturing facilities as follows:

<u>Square Footage</u>	<u>Lease Expiration</u>
93,097	2019
36,186	2019
28,684	2018
13,918	2016
34,373	2018
20,135	2018

ITEM 3. LEGAL PROCEEDINGS.

We are, from time to time, a party to litigation which arises in the normal course of our business. Although the ultimate resolution of pending proceedings cannot be determined, in the opinion of management, the resolution of these proceedings in the aggregate will not have a material adverse effect on our financial position, results of operations, or liquidity.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Market Information

Our common stock trades on the NASDAQ Global Select Market under the symbol "RCKY." The following table sets forth the range of high and low sales prices for our common stock for the periods indicated, as reported by the NASDAQ Global Select Market:

<u>Quarter Ended</u>	<u>High</u>	<u>Low</u>	<u>Dividends Per Share</u>
March 31, 2014.....	\$16.10	\$13.35	\$0.10
June 30, 2014.....	\$15.69	\$13.82	\$0.10
September 30, 2014.....	\$15.42	\$13.70	\$0.10
December 31, 2014.....	\$15.15	\$12.61	\$0.10
March 31, 2015.....	\$23.11	\$12.94	\$0.10
June 30, 2015.....	\$23.00	\$17.34	\$0.11
September 30, 2015.....	\$19.91	\$13.34	\$0.11
December 31, 2015.....	\$16.00	\$10.08	\$0.11

On February 19, 2016, the last reported sales price of our common stock on the NASDAQ Global Select Market was \$11.00 per share. As of February 19, 2016, there were 76 shareholders of record of our common stock.

Dividends

During 2013, our board of directors adopted a dividend policy under which the Company intends to pay a cash dividend on its common stock. During 2015, 2014 and 2013, we paid dividends on our common stock totaling \$3,252,254, \$3,017,979 and \$2,254,935, respectively.

PERFORMANCE GRAPH

The following performance graph compares our performance of the Company with the NASDAQ Composite Index and the Standard & Poor's Footwear Index, which is a published industry index. The comparison of the cumulative total return to shareholders for each of the periods assumes that \$100 was invested on December 31, 2010, in our common stock, and in the NASDAQ Stock Market (U.S.) Index and the Standard & Poor's Footwear Index and that all dividends were reinvested.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*

Among Rocky Brands, Inc., the NASDAQ Composite Index
and the S&P Footwear Index

*\$100 invested on 12/31/10 in stock or index, including reinvestment of dividends.
Fiscal year ending December 31.

Stockholders' equity	\$ 142,121	\$ 138,348	\$ 131,213	\$ 125,637	\$ 116,660

The 2013 financial data reflects charges for \$0.8 million, net of tax benefits, for acquisition related expenses and a gain on bargain purchase of \$0.4 million, net of tax. The 2011 financial data reflects charges for \$3.7 million, net of tax benefits, for the termination of our defined benefit pension plan. Certain amounts from prior years related to royalty income have been reclassified to conform to current presentation. In 2013, we began reporting royalty income as a component of net sales.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This Management's Discussion and Analysis of Financial Condition and Result of Operations ("MD&A") describes the matters that we consider to be important to understanding the results of our operations for each of the three years in the period ended December 31, 2015, and our capital resources and liquidity as of December 31, 2015 and 2014. Use of the terms "Rocky," the "Company," "we," "us" and "our" in this discussion refer to Rocky Brands, Inc. and its subsidiaries. Our fiscal year begins on January 1 and ends on December 31. We analyze the results of our operations for the last three years, including the trends in the overall business followed by a discussion of our cash flows and liquidity, our credit facility, and contractual commitments. We then provide a review of the critical accounting judgments and estimates that we have made that we believe are most important to an understanding of our MD&A and our consolidated financial statements. We conclude our MD&A with information on recent accounting pronouncements which we adopted during the year, as well as those not yet adopted that are expected to have an impact on our financial accounting practices.

The following discussion should be read in conjunction with the "Selected Consolidated Financial Data" and our consolidated financial statements and the notes thereto, all included elsewhere herein. The forward-looking statements in this section and other parts of this document involve risks and uncertainties including statements regarding our plans, objectives, goals, strategies, and financial performance. Our actual results could differ materially from the results anticipated in these forward-looking statements as a result of factors set forth under the caption "Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995" below. The Private

Securities Litigation Reform Act of 1995 provides a “safe harbor” for forward-looking statements made by or on behalf of the Company.

Certain amounts from prior year related to royalty income have been reclassified to conform to current year presentation. In 2013, we began reporting royalty income as a component of net sales.

Creative Recreation

In December 2013, we completed the acquisition of certain assets of Kommonwealth, Inc. including the Creative Recreation trademark. Headquartered in Los Angeles, California, since 2002, Creative Recreation was first to create and market versatile footwear brand that could easily transition between casual and more formal environments. Creative Recreation’s collections of upscale sneakers quickly gained strong acceptance and support from a wide array of key influencers across multiple categories including music, sports, and acting. Creative Recreation’s ability to successfully fuse style and versatility across a diversified assortment of products has created a wide target demographic and a strong distribution network that spans multiple channels and price points.

We believe by combining Rocky’s strong operating platform and access to capital with Creative Recreation’s design expertise we can strategically expand their business both domestically and overseas. At the same time, this transaction provides us with a compelling vehicle to penetrate the casual end of the market to complement our work, western and outdoor categories.

The total purchase price was approximately \$8.7 million including cash and assumption of certain liabilities. The acquisition was funded by our existing cash balances and funds available under our existing revolving credit facility. We did not have any sales in 2013 related to this acquisition and the business incurred approximately \$0.2 million of operating expenses during 2013. In addition, we incurred approximately \$1.2 million of related acquisition expenses that were reflected in the results of operations for the year 2013. In addition, we recorded a gain on bargain purchase of \$0.6 million related to this acquisition.

EXECUTIVE OVERVIEW

We are a leading designer, manufacturer and marketer of premium quality footwear and apparel marketed under a portfolio of well recognized brand names including Rocky, Georgia Boot, Durango, Lehigh, Creative Recreation and the licensed brand Michelin.

Our products are distributed through three distinct business segments: wholesale, retail and military. In our wholesale business, we distribute our products through a wide range of distribution channels representing over ten-thousand retail store locations in the U.S. and Canada as well as in several international markets. Our wholesale channels vary by product line and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores and other specialty retailers. Our retail business includes direct sales of our products to consumers primarily through our websites. We also sell footwear under the Rocky label to the U.S. military.

In early 2016, we announced we had received an order to fulfill a contract to the U.S. Military to produce “Temperate Weather” combat boots. The contract includes a minimum purchase amount of \$13.0 million with the entire order projected to ship between March and October 2016. Along with the existing contract, we now have approximately \$31 million in military orders scheduled for delivery in 2016, a 78% increase over 2015 levels.

Our growth strategy is founded substantially on the expansion of our brands into new footwear and apparel markets. New products that we introduce may not be successful with consumers or one or more of our brands may fall out of favor with consumers. If we are unable to anticipate, identify or react appropriately to changes in consumer preferences, we may not grow as fast as we plan to grow or our sales may decline, and our brand image and operating performance may suffer.

Furthermore, achieving market acceptance for new products will likely require us to exert substantial product development and marketing efforts, which could result in a material increase in our selling, general and administrative, or SG&A, expenses, and there can be no assurance that we will have the resources necessary to undertake such efforts. Material increases in our SG&A expenses could adversely impact our results of operations and cash flows.

We may also encounter difficulties in producing new products that we did not anticipate during the development stage. Our development schedules for new products are difficult to predict and are subject to change as a result of

shifting priorities in response to consumer preferences and competing products. If we are not able to efficiently manufacture newly-developed products in quantities sufficient to support retail distribution, we may not be able to recoup our investment in the development of new products. Failure to gain market acceptance for new products that we introduce could impede our growth, reduce our profits, adversely affect the image of our brands, erode our competitive position and result in long term harm to our business.

FINANCIAL SUMMARY

- Net sales of the wholesale segment decreased \$27.8 million in 2015 from prior year primarily as a result of decreased sales in all of our footwear and apparel categories. The decrease in 2015 is primarily due to warmer temperatures in the fourth quarter and weak retail store traffic.
- Net sales of the retail segment increased \$1.5 million in 2015 from the prior year primarily as a result of higher sales from our business and consumer web platforms.
- Net sales of the military segment increased \$9.4 million in 2015 from the prior year. From time to time, we bid on military contracts when they become available. Our sales under such contracts are dependent on us winning the bids for these contracts and the purchase orders received on these contracts. We have received an order to fulfill a contract to the U.S. Military to produce “Hot Weather” combat boots. During 2015 and 2014, we shipped boots under this same agreement.
- Gross margin of the wholesale segment decreased \$9.9 million in 2015 from the prior year as a result of the lower sales and slightly lower margin. Gross margin as a percent of sales for 2015 was 40 basis points less than the prior year.
- Gross margin of the retail segment increased \$1.2 million in 2015 over the prior year as a result of a higher sales and higher margin as a percentage of sales. The increase in margin as a percentage of sales was largely due to higher margins on our consumer web business that has continued drive our retail growth.
- Gross margin of the military segment increased \$1.2 million in 2015 over the prior year due primarily to higher sales.
- Selling, general and administrative expenses decreased \$2.2 million in 2015 from prior year primarily as result of lower compensation expenses and lower freight expenses associated with the decrease in sales.
- Net interest expense decreased \$0.2 million in 2015 from the prior year due to lower levels of debt.
- Net income decreased \$3.2 million in 2015 from prior year results primarily due to lower sales in our wholesale business.
- Total debt at December 31, 2015 was \$23.7 million or \$12.6 million lower than the prior year. Total debt minus cash and cash equivalents was \$20.3 million or 12.2% of total capitalization at December 31, 2015 compared to \$31.7 million or 18.1% of total capitalization at year-end 2014.
- Our cash from operating activities increased \$10.3 million in 2015 over the prior year, primarily the result of lower accounts receivable and lower inventory levels at the end of 2015.

Net sales. Net sales and related cost of goods sold are recognized at the time products are shipped to the customer and title transfers. Net sales are recorded net of estimated sales discounts and returns based upon specific customer agreements and historical trends. Net sales include royalty income from licensing our brands.

Cost of goods sold. Our cost of goods sold represents our costs to manufacture products in our own facilities, including raw materials costs and all overhead expenses related to production, as well as the cost to purchase finished products from our third-party manufacturers. Cost of goods sold also includes the cost to transport these products to our distribution centers.

SG&A expenses. Our SG&A expenses consist primarily of selling, marketing, wages and related payroll and employee benefit costs, travel and insurance expenses, depreciation, amortization, professional fees, facility expenses, bank charges, and warehouse and outbound freight expenses.

Percentage of Net Sales

The following table sets forth consolidated statements of operations data as percentages of total net sales:

	Years Ended December 31,		
	2015	2014	2013
Net sales	100.0%	100.0%	100.0%
Cost of goods sold	67.0%	66.3%	65.9%
Gross margin	33.0%	33.7%	34.1%
SG&A expense	29.1%	28.2%	29.1%
Acquisition related expenses	0.0%	0.0%	0.5%
Income from operations	3.9%	5.5%	4.5%

Results of Operations

Year Ended December 31, 2015 Compared to Year Ended December 31, 2014

Net sales. Net sales decreased 5.9% to \$269.3 million for 2015 compared to \$286.2 million the prior year. Wholesale sales decreased \$27.8 million to \$206.1 million for 2015 compared to \$233.9 million for 2014. The decrease in wholesale sales was primarily the result of decreases in most all our footwear and apparel categories. The decreases in 2015 are primarily the result of warmer temperatures in the critical fall shipping season and weak retail store traffic in the fourth quarter that pressured demand in all of our categories. Retail sales increased to \$45.8 million for 2015 compared to \$44.3 million for 2014. The \$1.5 million increase in retail sales resulted from increased sales in our business-to-consumer ecommerce web platforms. Military segment sales, which occur from time to time, were \$17.4 million for 2015 compared to \$8.0 million in 2014. From time to time, we bid on military contracts when they become available. Our sales under such contracts are dependent on us winning the bids for these contracts and the purchase orders received on these contracts. We have received an order to fulfill a contract to the U.S. Military to produce “Hot Weather” combat boots. During 2015 and 2014, we shipped boots under this agreement. Average list prices in 2015 for our footwear, apparel and accessories were comparable to 2014.

Gross margin. Gross margin decreased to \$88.9 million or 33.0% of net sales for 2015 compared to \$96.4 million or 33.7% of net sales for the prior year. Wholesale gross margin for 2015 was \$66.0 million, or 32.0% of net sales, compared to \$75.8 million, or 32.4% of net sales in 2014. The 40 basis point decline was largely due to lower average selling prices. Retail gross margin for 2015 was \$20.6 million, or 45.0% of net sales, compared to \$19.4 million, or 43.9% of net sales, in 2014. The 110 basis point increase in 2015 from the prior year was largely due to a shift in sales toward our business-to-consumer platforms, which carry higher margins. Military gross margin in 2015 was \$2.3 million, or 13.1% of net sales, compared to \$1.1 million, or 13.4% of net sales in 2014.

SG&A expenses. SG&A expenses were \$78.4 million, or 29.1% of net sales in 2015 compared to \$80.6 million, or 28.2% of net sales for 2014. The net decrease primarily reflected lower compensation expenses of \$3.1 million and lower freight costs of \$0.8 million, partially offset by higher spending on advertising of \$1.2 million.

Interest expense. Interest expense was \$0.7 million in 2015, compared to \$0.9 million for the prior year. The decrease in interest expense in 2015 from the prior year was due to lower overall levels of debt.

Income taxes. Income tax expense was \$3.1 million in 2015, compared to \$4.9 million for the same period a year ago. The decrease in income tax expense for 2015 was due to a \$5.1 million decrease in pretax income and a decrease in the effective tax rate. The effective tax rate for 2015 was 31.8% compared to 33.2% for 2014. The effective tax rate for 2015 is less than the federal statutory rate due principally to our permanent capital investment in the Dominican Republic which reduces the amount of dividends that we need to provide for U.S income taxes.

Year Ended December 31, 2014 Compared to Year Ended December 31, 2013

Net sales. Net sales increased 16.9% to \$286.2 million for 2014 compared to \$244.9 million the prior year. Wholesale sales increased \$41.0 million to \$233.9 million for 2014 compared to \$192.9 million for 2013. The increase in wholesale sales was primarily the result of a \$14.0 million or 135.3% increase in our lifestyle footwear category, an \$8.8 million or 10.0% increase in our work footwear category, an \$8.3 million or 23.1% increase in our western footwear category, a \$4.4 million or 23.2% increase in our outdoor footwear category and a \$2.3 million or 12.0% increase in our commercial military footwear category. The increase in the lifestyle footwear category for 2014 was the result of a full year of sales under the Creative Recreation brand, which contributed \$14.4 million in

net sales during 2014. Retail sales increased to \$44.3 million for 2014 compared to \$43.1 million for 2013. The \$1.3 million increase in retail sales resulted from increased sales in our business-to-consumer ecommerce web platforms. Military segment sales, which occur from time to time, were \$8.0 million for 2014 compared to \$8.9 million in 2013. From time to time, we bid on military contracts when they become available. Our sales under such contracts are dependent on us winning the bids for these contracts and the purchase orders received on these contracts. We have received an order to fulfill a contract to the U.S. Military to produce “Hot Weather” combat boots. Shipment of the boots began in the first quarter of 2013. During 2014, we shipped boots under this same agreement. Average list prices for our footwear, apparel and accessories were higher in 2014 than 2013 as we increased our list prices to offset higher manufacturing and sourcing costs.

Gross margin. Gross margin increased to \$96.4 million or 33.7% of net sales for 2014 compared to \$83.5 million or 34.1% of net sales for the prior year. Wholesale gross margin for 2014 was \$75.8 million, or 32.4% of net sales, compared to \$62.4 million, or 32.4% of net sales in 2013. Retail gross margin for 2014 was \$19.4 million, or 43.9% of net sales, compared to \$19.9 million, or 46.1% of net sales, in 2013. The 220 basis point decrease in 2014 from the prior year was largely due to lower margins on contract sales to a large city transit authority. Military gross margin in 2014 was \$1.1 million, or 13.4% of net sales, compared to \$1.3 million, or 14.3% of net sales in 2013.

SG&A expenses. SG&A expenses were \$80.6 million, or 28.2% of net sales in 2014 compared to \$72.5 million, or 29.6% of net sales for 2013. The net increase primarily reflected the additional expenses of \$5.6 million related to the Creative Recreation business and increases in compensation and benefits of \$2.3 million.

Acquisition related items. Acquisition related items in 2013 included expenses of \$1.2 million related to the aforementioned acquisition of the Creative Recreation brand, which are included as a component of income from operations. In addition, a gain on bargain purchase of \$0.6 million was recorded and is included as a component of total other income and expenses.

Interest expense. Interest expense was \$0.9 million in 2014, compared to \$0.7 million for the prior year. The increase in interest expense in 2014 over prior year was due to higher levels of debt, primarily in the first half of 2014 as a result of the Creative Recreation acquisition in late 2013.

Income taxes. Income tax expense was \$4.9 million in 2014, compared to \$3.4 million for the same period a year ago. The increase in income tax expense for 2014 was due to a \$3.9 million increase in pretax income and an increase in the effective tax rate. The effective tax rate for 2014 was 33.2% compared to 31.8% for 2013. The effective tax rate for 2014 is less than the federal statutory rate due principally to our permanent capital investment in the Dominican Republic which reduces the amount of dividends that we need to provide for U.S income taxes.

LIQUIDITY AND CAPITAL RESOURCES

Overview

Our principal sources of liquidity have been our income from operations and borrowings under our credit facility and other indebtedness.

Over the last several years our principal uses of cash have been for working capital and capital expenditures to support our growth. Our working capital consists primarily of trade receivables and inventory, offset by accounts payable and accrued expenses. Our working capital fluctuates throughout the year as a result of our seasonal business cycle and business expansion and is generally lowest in the months of January through March of each year and highest during the months of May through October of each year. We typically utilize our revolving credit facility to fund our seasonal working capital requirements. As a result, balances on our revolving credit facility will fluctuate significantly throughout the year. Our working capital decreased to \$114.5 million at December 31, 2015, compared to \$124.8 million at the end of the prior year.

Our capital expenditures relate primarily to projects relating to our corporate offices, property, merchandising fixtures, molds and equipment associated with our manufacturing and distribution operations and for information technology. Capital expenditures were \$8.7 million for 2015 and \$7.1 million in 2014. Capital expenditures for 2016 are anticipated to be approximately \$6.9 million.

In October 2010, we entered into a financing agreement with PNC Bank (“PNC”) to provide a \$70 million credit facility. In December 2014, we amended and restated the credit facility to increase the facility to \$75 million and extend the term of the facility an additional five years to November 2019. The credit facility’s base interest rate is the current prime rate less 0.25%, however the credit facility provides us the option to borrow on up to eight fixed

loans at LIBOR plus 1.25% in accordance with the 2014 amended and restated credit agreement. The LIBOR rate is determined based on the fixed loan maturities, which vary from 30, 60, 90, or 180 days. As of December 31, 2015 and December 31, 2014, we had approximately \$17.0 million and \$35.0 million, respectively, in fixed LIBOR borrowings under the credit facility.

The total amount available under our amended and restated revolving credit facility is subject to a borrowing base calculation based on various percentages of accounts receivable and inventory. As of December 31, 2015, we had \$23.7 million in borrowings under this facility and total capacity of \$66.3 million.

Our amended and restated credit facility contains a restrictive covenant which requires us to maintain a fixed charge coverage ratio. This restrictive covenant is only in effect upon a triggering event taking place (as defined in the amended and restated credit facility agreement). At December 31, 2015, there was no triggering event and the covenant was not in effect. Our amended and restated credit facility places a restriction on the amount of dividends that may be paid. During 2015, 2014 and 2013, we paid dividends on our common stock totaling \$3,252,254, \$3,017,979 and \$2,254,935, respectively.

Our amended and restated revolving credit facility matures in November 2019. We have no other long-term debt maturities.

We believe that our credit facility coupled with cash generated from operations will provide sufficient liquidity to fund our operations for at least the next twelve months. Our continued liquidity, however, is contingent upon future operating performance, cash flows and our ability to meet financial covenants under our credit facility.

Based on our expected borrowings for 2016, a hypothetical 100 basis point increase in short term interest rates would result, over the subsequent twelve-month period, in a reduction of approximately \$0.2 million in income before income taxes and cash flows. The estimated reductions are based upon the current level of variable debt and assume no changes in the composition of that debt.

Cash Flows

Cash Flow Summary (\$ in millions)	<u>2015</u>	<u>2014</u>	<u>2013</u>
Cash provided by (used in):			
Operating activities	\$ 23.2	\$ 13.0	\$ (2.4)
Investing activities	(8.6)	(7.4)	(10.0)
Financing activities	(15.8)	(5.2)	12.6
Net change in cash and cash equivalents	<u>\$ (1.2)</u>	<u>\$ 0.4</u>	<u>\$ 0.2</u>

Operating Activities. Net cash provided by operating activities totaled \$23.2 million for 2015, compared to \$13.0 million for 2014. Net cash used in operating activities was \$2.4 million for 2013. The principal sources of net cash in 2015 included lower balances of accounts receivable and inventory, which were partially offset by lower balances of accounts payable and other accrued liabilities. The principal sources of net cash in 2014 included higher net income and increases in accounts payable and other accrued liabilities, which were partially offset by higher balances of inventory and accounts receivable. The principle use of net cash in 2013 was the result of higher working capital primarily increases in inventory and accounts receivable and decreases in accounts payable.

Investing Activities. Net cash used in investing activities was \$8.6 million in 2015 compared to \$7.4 million in 2014 and \$10.0 million in 2013. The principal use of cash in 2015, 2014 and 2013 was for the purchase of molds and equipment associated with our manufacturing and distribution operations and for information technology software and system upgrades. The 2013 amount includes \$2.2 million related to the purchase of the Creative Recreation brand.

Financing Activities. Cash used in financing activities during 2015 was \$15.8 million compared to \$5.2 million for 2014. Cash provided by financing activities during 2013 was \$12.6 million. Proceeds and repayments of the revolving credit facility reflect daily cash disbursement and deposit activity. Our financing activities during 2015 included net repayments under the revolving line of credit facility of \$12.6 million. Our financing activities during 2014 included net repayments under the revolving line of credit facility of \$2.1 million. Our financing activities during 2013 included net borrowings under the revolving line of credit facility of \$14.9 million.

Borrowings and External Sources of Funds

Our borrowings and external sources of funds were as follows at December 31, 2015 and 2014:

(\$ in millions)	December 31	
	2015	2014
Revolving credit facility	\$ 23.7	\$ 36.3
Less current maturities	-	-
Net long-term debt	<u>\$ 23.7</u>	<u>\$ 36.3</u>

We continually evaluate our external credit arrangements in light of our growth strategy and new opportunities. In December 2014, we amended and restated our financing agreement with PNC bank to provide a \$75 million credit facility. The term of the amended credit facility is five years and the interest rate is currently LIBOR plus 1.25%.

We lease certain machinery, shoe centers, and manufacturing facilities under operating leases that generally provide for renewal options. Future minimum lease payments under non-cancelable operating leases are \$1.2 million, \$1.1 million, \$0.6 million and \$0.1 million for years 2016 through 2019, respectively, or approximately \$3.0 million in total.

Contractual Obligations and Commercial Commitments

The following table summarizes our contractual obligations at December 31, 2015 resulting from financial contracts and commitments. We have not included information on our recurring purchases of materials for use in our manufacturing operations. These amounts are generally consistent from year to year, closely reflect our levels of production, and are not long-term in nature (less than three months).

Contractual Obligations at December 31, 2015:

	Payments due by Year				
	\$ millions				
	Total	Less Than 1 Year	1-3 Years	3-5 Years	Over 5 Years
Long-term debt	\$ 23.7	\$ -	\$ -	\$ 23.7	\$ -
Minimum operating lease commitments	3.0	1.2	1.7	0.1	-
Minimum royalty commitments	-	-	-	-	-
Expected cash requirements for interest (1)	3.3	0.8	1.7	0.8	-
Total contractual obligations	<u>\$ 30.0</u>	<u>\$ 2.0</u>	<u>\$ 3.4</u>	<u>\$ 24.6</u>	<u>\$ -</u>

(1) Assumes a 3.50% interest rate, which is the highest rate possible as of December 31, 2015 on the \$75 million revolving credit facility.

From time to time, we enter into purchase commitments with our suppliers under customary purchase order terms. Any significant losses implicit in these contracts would be recognized in accordance with generally accepted accounting principles. At December 31, 2015, no such losses existed.

Our ongoing business activities continue to be subject to compliance with various laws, rules and regulations as may be issued and enforced by various federal, state and local agencies. With respect to environmental matters, costs are incurred pertaining to regulatory compliance. Such costs have not been, and are not anticipated to become, material.

We are contingently liable with respect to lawsuits, taxes and various other matters that routinely arise in the normal course of business. We do not have off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as "Variable Interest Entities." Additionally, we do not have any related party transactions that materially affect the results of operations, cash flow or financial condition.

Inflation

Our financial performance is influenced by factors such as higher raw material costs as well as higher salaries and employee benefits. Management attempts to minimize or offset the effects of inflation through increased selling prices, productivity improvements, and cost reductions. We were able to mitigate the effects of inflation during 2015, 2014, and 2013 due to these factors. It is anticipated that any inflationary pressures during 2016 could be offset through possible price increases.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

“Management’s Discussion and Analysis of Financial Condition and Results of Operations” discusses our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. A summary of our significant accounting policies is included in the Notes to Consolidated Financial Statements included in this Annual Report on Form 10-K.

Our management regularly reviews our accounting policies to make certain they are current and also provide readers of the consolidated financial statements with useful and reliable information about our operating results and financial condition. These include, but are not limited to, matters related to accounts receivable, inventories, intangibles and income taxes. Implementation of these accounting policies includes estimates and judgments by management based on historical experience and other factors believed to be reasonable. This may include judgments about the carrying value of assets and liabilities based on considerations that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Our management believes the following critical accounting policies are most important to the portrayal of our financial condition and results of operations and require more significant judgments and estimates in the preparation of our consolidated financial statements.

Revenue recognition

Revenue principally consists of sales to customers, and, to a lesser extent, license fees. Revenue is recognized when goods are shipped and title passes to the customer, while license fees are recognized when earned. Customer sales are recorded net of allowances for estimated returns, trade promotions and other discounts, which are recognized as a deduction from sales at the time of sale.

Accounts receivable allowances

Management maintains allowances for uncollectible accounts for estimated losses resulting from the inability of our customers to make required payments. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The allowance for uncollectible accounts is calculated based on the relative age and status of trade receivable balances.

Sales returns and allowances

We record a reduction to gross sales based on estimated customer returns and allowances. These reductions are influenced by historical experience, based on customer returns and allowances. The actual amount of sales returns and allowances realized may differ from our estimates. If we determine that sales returns or allowances should be either increased or decreased, then the adjustment would be made to net sales in the period in which such a determination is made. Sales returns and allowances for sales returns were approximately 3.5% of sales for 2015 and 4.1% of sales for 2014.

Inventories

Management identifies slow moving or obsolete inventories and estimates appropriate loss provisions related to these inventories. Historically, these loss provisions have not been significant as the vast majority of our inventories are considered saleable and we have been able to liquidate slow moving or obsolete inventories at amounts above cost through our factory outlet stores or through various discounts to customers. Should management encounter difficulties liquidating slow moving or obsolete inventories, additional provisions may be necessary. Management regularly reviews the adequacy of our inventory reserves and makes adjustments to them as required.

Intangible assets

Intangible assets, including goodwill, trademarks and patents are reviewed for impairment annually, and more frequently, if necessary. We perform such testing of goodwill and indefinite-lived intangible assets in the fourth quarter of each year or as events occur or circumstances change that would more likely than not reduce the fair value of the asset below its carrying amount.

In assessing whether indefinite-lived intangible assets are impaired, we must make certain estimates and assumptions regarding future cash flows, long-term growth rates of our business, operating margins, weighted average cost of capital and other factors such as; discount rates, royalty rates, cost of capital, and market multiples to determine the fair value of our assets. These estimates and assumptions require management's judgment, and changes to these estimates and assumptions could materially affect the determination of fair value and/or impairment for each of our other indefinite-lived intangible assets. Future events could cause us to conclude that indications of intangible asset impairment exist. Impairment may result from, among other things, deterioration in the performance of our business, adverse market conditions, adverse changes in applicable laws and regulations, competition, or the sale or disposition of a reporting segment. Any resulting impairment loss could have a material adverse impact on our financial condition and results of operations.

Income taxes

Management has recorded a valuation allowance to reduce its deferred tax assets for a portion of state and local income tax net operating losses that it believes may not be realized. We have considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for a valuation allowance, however, in the event we were to determine that we would not be able to realize all or part of our net deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to income in the period such determination was made. At December 31, 2015, approximately \$18.3 million of undistributed earnings remains that would become taxable upon repatriation to the United States.

RECENT FINANCIAL ACCOUNTING PRONOUNCEMENTS

Recently Adopted Accounting Pronouncements

In April 2014, the FASB issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of an Entity. The amendments in this update change the requirements for reporting discontinued operations in Subtopic 205-20. A discontinued operation may include a component of an entity or a group of components of an entity, or a business or nonprofit activity. A disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results when any of the following occurs: 1. The component of an entity or group of components of an entity meets the criteria in paragraph 205-20-45-1E to be classified as held for sale. 2. The component of an entity or group of components of an entity is disposed of by sale. 3. The component of an entity or group of components of an entity is disposed of other than by sale (for example, by abandonment or in a distribution to owners in a spinoff). The update is effective for all disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. The adoption of this standard did not have an effect on our consolidated financial statements.

Accounting standards not yet adopted

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The amendments in this update supersede the revenue recognition requirements in Topic 605, Revenue Recognition, including most industry-specific revenue recognition guidance throughout the Industry Topics of the Codification. In addition, the amendments supersede the cost guidance in Subtopic 605-35, Revenue Recognition—Construction-Type and Production-Type Contracts, and create new Subtopic 340-40, Other Assets and Deferred Costs—Contracts with Customers. In summary, the core principle of Topic 606 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU No. 2015-14. The amendments in this update defer the effective date of Update 2014-09. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier

application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, Compensation – Stock Compensation (Topic 718). Some share-based payment awards that require a specific performance target to be achieved before the employee can benefit from the award, also require an employee to render service until the performance target is achieved. In some cases, the terms of an award may provide that the performance target could be achieved after an employee completes the requisite service period. That is, the employee would be entitled to benefit from the award regardless of whether the employee is rendering service on the date the performance target is achieved. Some entities account for those performance targets as performance conditions that affect the vesting of the award and, therefore, do not reflect the performance target in the estimate of the grant-date fair value. Others treat them as nonvesting conditions that affect the grant-date fair value of the award. The amendments apply to reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target can be achieved after the requisite service period. The update is effective for public entities for annual reporting periods beginning after December 15, 2015. Early adoption is permitted. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40). Currently, there is no guidance in GAAP about management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern or to provide related footnote disclosures. The amendments in this update provide that guidance. In doing so, the amendments should reduce diversity in the timing and content of footnote disclosures. The amendments require management to assess an entity’s ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the amendments (1) provide a definition of the term *substantial doubt*, (2) require an evaluation every reporting period including interim periods, (3) provide principles for considering the mitigating effect of management’s plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management’s plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). The update is effective for public entities for annual reporting periods beginning after December 15, 2016. Early adoption is permitted. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In January 2015, the FASB issued ASU No. 2015-01, Income Statement – Extraordinary and Unusual Items (Subtopic 225-20). The objective of this update is to simplify the income statement presentation requirements in Subtopic 225-20 by eliminating the concept of extraordinary items. Extraordinary items are events and transactions that are distinguished by their unusual nature and by the infrequency of their occurrence. Eliminating the extraordinary classification simplifies income statement presentation by altogether removing the concept of extraordinary items from consideration. The amendments in this update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, Interest – Imputation of Interest (Subtopic 835-30). The objective of this update is to simplify presentation of debt issuance costs, the amendments in this update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption of the amendments in this Update is permitted for financial statements that have not been previously issued. An entity should apply the new guidance on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. Upon transition, an entity is required to comply with the applicable disclosures for a change in an accounting principle. These disclosures include the nature of and reason for the change in accounting principle, the transition method, a description of the prior-period information that has been retrospectively adjusted, and the effect of the change on the financial statement line items (that is, debt issuance cost asset and the debt liability). We have not yet determined the impact this ASU will have on our consolidated financial statements.

In July 2015, the FASB issued ASU No. 2015-11, Inventory (Topic 330). The amendments in this Update require an entity to measure inventory within the scope of this Update at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using LIFO or the retail inventory method. The amendments in this Update more closely align the measurement of inventory in GAAP with the measurement of inventory in International Financial Reporting Standards (IFRS). For public business entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The amendments in this Update should be applied prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In November 2015, the FASB issued ASU No. 2015-17, Income Taxes - Balance Sheet Classification of Deferred Taxes (Topic 740). The amendments in this Update will simplify the presentation of deferred income taxes, the amendments in this Update require that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The amendments in this Update apply to all entities that present a classified statement of financial position. The current requirement that deferred tax liabilities and assets of a tax-paying component of an entity be offset and presented as a single amount is not affected by the amendments in this Update. For public business entities, the amendments in this Update are effective for financial statements issued for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Earlier application is permitted for all entities as of the beginning of an interim or annual reporting period. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The amendments in this Update will require lessees to recognize (with the exception of short-term leases) a lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. Under the new guidance, lessor accounting is largely unchanged. The new lease guidance simplified the accounting for sale and leaseback transactions primarily because lessees must recognize lease assets and lease liabilities. For public business entities, the amendments in this Update are effective for years beginning after December 15, 2018, including interim periods within those fiscal years. Earlier application is permitted for all entities upon issuance. We have not yet determined the impact this ASU will have on our consolidated financial statements.

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES REFORM ACT OF 1995

This Management's Discussion and Analysis of Financial Conditions and Results of Operations contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, which are intended to be covered by the safe harbors created thereby. Those statements include, but may not be limited to, all statements regarding our and management's intent, belief, expectations, such as statements concerning our future profitability and our operating and growth strategy. Words such as "believe," "anticipate," "expect," "will," "may," "should," "intend," "plan," "estimate," "predict," "potential," "continue," "likely" and similar expressions are intended to identify forward-looking statements. Investors are cautioned that all forward-looking statements involve risk and uncertainties including, without limitations, dependence on sales forecasts, changes in consumer demand, seasonality, impact of weather, competition, reliance on suppliers, changing retail trends, economic changes, as well as other factors set forth under the caption "Item 1A, Risk Factors" in this Annual Report on Form 10-K and other factors detailed from time to time in our filings with the Securities and Exchange Commission. Although we believe that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate. Therefore, there can be no assurance that the forward-looking statements included herein will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that our objectives and plans will be achieved. We assume no obligation to update any forward-looking statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Our primary market risk results from fluctuations in interest rates. We are also exposed to changes in the price of commodities used in our manufacturing operations. However, commodity price risk related to the Company's current commodities is not material as price changes in commodities can generally be passed along to the customer. We do not hold any market risk sensitive instruments for trading purposes.

The following item is market rate sensitive for interest rates for the Company: long-term debt consisting of a credit facility (as described below) with a balance at December 31, 2015 of \$23.7 million.

In October 2010, we entered into a financing agreement with PNC Bank (“PNC”) to provide a \$70 million credit facility. In December 2014, we amended and restated the credit facility to increase the facility to \$75 million and extend the term of the facility an additional five years. The current interest rate is generally LIBOR plus 1.25%. The remainder of the terms of the original agreement did not substantially change in the amended and restated agreement. The amended and restated credit facility matures in November 2019. We have no other long-term debt maturities.

We do not have any interest rate management agreements as of December 31, 2015.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Our consolidated balance sheets as of December 31, 2015 and 2014 and the related consolidated statements of comprehensive income, shareholders’ equity, and cash flows for the years ended December 31, 2015, 2014 and 2013, together with the report of the independent registered public accounting firm thereon appear on pages F-1 through F-25 hereof and are incorporated herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, our management carried out an evaluation, with the participation of our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended). Based upon that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

Changes in Internal Control over Financial Reporting

As part of our evaluation of the effectiveness of internal controls over financial reporting described below, we made certain improvements to our internal controls. However, there were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management’s Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Exchange Act. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Under the supervision and with the participation of our principal executive officer and principal financial officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)*. Based upon that evaluation under the framework in *Internal Control – Integrated Framework (2013)*, our management concluded that our internal control over financial reporting was effective as of December 31, 2015. Schneider Downs & Co., Inc., our independent registered public accounting firm has issued an attestation report on the effectiveness of our internal controls over financial reporting which is included on the following page.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Rocky Brands, Inc. and Subsidiaries
Nelsonville, Ohio

We have audited Rocky Brands, Inc. and Subsidiaries' (the Company) internal control over financial reporting as of December 31, 2015, based on criteria established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on criteria established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets and the related consolidated statements of comprehensive income, shareholders' equity, and cash flows of the Company, and our report dated March 3, 2016 expressed an unqualified opinion.

/s/ Schneider Downs & Co., Inc.
Columbus, Ohio
March 3, 2016

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

The information required by this item is included under the captions “ELECTION OF DIRECTORS” and “INFORMATION CONCERNING THE BOARD OF DIRECTORS AND CORPORATE GOVERNANCE,” “INFORMATION CONCERNING EXECUTIVE OFFICERS,” and “SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE” in the Company's Proxy Statement for the 2016 Annual Meeting of Shareholders (the “Proxy Statement”) to be held on May 11, 2016, to be filed with the Securities and Exchange Commission pursuant to Regulation 14A promulgated under the Securities Exchange Act of 1934, is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION.

The information required by this item is included under the captions “EXECUTIVE COMPENSATION” and “COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION” in the Company's Proxy Statement, and is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS.

The information required by this item is included under the caption “PRINCIPAL HOLDERS OF VOTING SECURITIES - OWNERSHIP OF COMMON STOCK BY MANAGEMENT,” “- OWNERSHIP OF COMMON STOCK BY PRINCIPAL SHAREHOLDERS,” and “EQUITY COMPENSATION PLAN INFORMATION,” in the Company's Proxy Statement, and is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE.

The information required by this item is included under the caption “COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION COMPENSATION COMMITTEE” and “INTERLOCKS AND INSIDER PARTICIPATION/RELATED PARTY TRANSACTIONS” in the Company's Proxy Statement, and is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The information required by this item is included under the caption “REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS” in the Company's Proxy Statement, and is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) THE FOLLOWING DOCUMENTS ARE FILED AS PART OF THIS REPORT:

(1) The following Financial Statements are included in this Annual Report on Form 10-K on the pages indicated below:

Report of Independent Registered Public Accounting Firm.....	F-1
Consolidated Balance Sheets as of December 31, 2015 and 2014.....	F-2 - F-3
Consolidated Statements of Comprehensive Income for the years ended December 31, 2015, 2014, and 2013.....	F-4
Consolidated Statements of Shareholders' Equity for the years ended December 31, 2015, 2014, and 2013.....	F-5
Consolidated Statements of Cash Flows for the years ended December 31, 2015, 2014, and 2013.....	F-6
Notes to Consolidated Financial Statements for the years ended December 31, 2015, 2014, and 2013.....	F-7 - F-25

(2) The following financial statement schedule for the years ended December 31, 2015, 2014, and 2013 is included in this Annual Report on Form 10-K and should be read in conjunction with the Consolidated Financial Statements contained in the Annual Report.

Schedule II -- Consolidated Valuation and Qualifying Accounts.

Schedules not listed above are omitted because of the absence of the conditions under which they are required or because the required information is included in the Consolidated Financial Statements or the notes thereto.

(3) Exhibits:

<u>Exhibit Number</u>	<u>Description</u>
3.1	Second Amended and Restated Articles of Incorporation of the Company (incorporated by reference to Exhibit 3.1 to the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006).

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Rocky Brands, Inc. and Subsidiaries
Nelsonville, Ohio

We have audited the accompanying consolidated balance sheets of Rocky Brands, Inc. and Subsidiaries (the Company) as of December 31, 2015 and 2014, and the related consolidated statements of comprehensive income, shareholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2015, 2014 and 2013. Our audits also included the financial statement schedule listed in the index at Item 15(a)(2). The Company's management is responsible for these consolidated financial statements and financial statement schedule. Our responsibility is to express an opinion on these consolidated financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2015, and 2014, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2015, 2014 and 2013, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedule, when considered in relation to the consolidated financial statements, as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2015, based on criteria established in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 3, 2016 expressed an unqualified opinion.

ROCKY BRANDS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2015, 2014 AND 2013

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation - The accompanying consolidated financial statements include the accounts of Rocky Brands, Inc. (“Rocky”) and its wholly-owned subsidiaries, Lifestyle Footwear, Inc. (“Lifestyle”), Five Star Enterprises Ltd. (“Five Star”), Rocky Canada, Inc. (“Rocky Canada”), Rocky Brands Wholesale, LLC, Rocky Brands International, LLC, Lehigh Outfitters, LLC, Creative Recreation, LLC, Creative Recreation International, LLC and Creative Recreation Retail, LLC, collectively referred to as the “Company.” All inter-company transactions have been eliminated.

Business Activity - We are a leading designer, manufacturer and marketer of premium quality footwear marketed under a portfolio of well recognized brand names including Rocky Outdoor Gear, Georgia Boot, Durango, Lehigh and Creative Recreation. Our brands have a long history of representing high quality, comfortable, functional and durable footwear and our products are organized around six target markets: outdoor, work, duty, commercial military, western and lifestyle. In addition, as part of our strategy of outfitting consumers from head-to-toe, we market complementary branded apparel and accessories that we believe leverage the strength and positioning of each of our brands.

Our products are distributed through three distinct business segments: wholesale, retail and military. In our wholesale business, we distribute our products through a wide range of distribution channels representing over ten thousand retail store locations in the U.S. and Canada. Our wholesale channels vary by product line and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores and other specialty retailers. Our retail business includes direct sales of our products to consumers through our e-commerce websites and our Rocky outlet store. We operate four mobile trucks to service the New York Transit Authority’s employees. We also sell footwear under the Rocky label to the U.S. military.

We did not have any single customer account for more than 10% of consolidated net sales in 2015, 2014 or 2013.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents - We consider all highly liquid investments purchased with original maturities of three months or less to be cash equivalents. Our cash and cash equivalents are primarily held in five banks. Balances may exceed federally insured limits.

Trade Receivables - Trade receivables are presented net of the related allowance for uncollectible accounts of approximately \$820,000 and \$1,002,000 at December 31, 2015 and 2014, respectively. The allowance for uncollectible accounts is calculated based on the relative age and status of trade

receivable balances. Our credit policy generally provides that trade receivables will be deemed uncollectible and written-off once we have pursued all reasonable efforts to collect on the account.

Concentration of Credit Risk - We have significant transactions with a large number of customers. No customer represented 10% of trade receivables - net as of December 31, 2015 and 2014. Our exposure to credit risk is impacted by the economic climate affecting the retail shoe industry. We manage this risk by performing ongoing credit evaluations of our customers and maintain reserves for potential uncollectible accounts.

Supplier and Labor Concentrations - We purchase raw materials from a number of domestic and foreign sources. We currently buy the majority of our waterproof fabric, a component used in a significant portion of our shoes and boots, from one supplier (W.L. Gore & Associates, Inc.). We have had a relationship with this supplier for over 20 years and have no reason to believe that such relationship will not continue.

We produce a portion of our shoes and boots in our Dominican Republic operation and in our Puerto Rico operation. We are not aware of any governmental or economic restrictions that would alter these current operations.

We source a significant portion of our footwear, apparel and gloves from manufacturers in the Far East, primarily China. We are not aware of any governmental or economic restrictions that would alter our current sourcing operations.

Inventories - Inventories are valued at the lower of cost, determined on a first-in, first-out (FIFO) basis, or market. Reserves are established for inventories when the net realizable value (NRV) is deemed to be less than its cost based on our periodic estimates of NRV.

Fixed Assets - The Company records fixed assets at historical cost and generally utilizes the straight-line method of computing depreciation for financial reporting purposes over the estimated useful lives of the assets as follows:

	<u>Years</u>
Buildings and improvements	5-40
Machinery and equipment	3-8
Furniture and fixtures	3-8
Lasts, dies, and patterns	3

For income tax purposes, the Company generally computes depreciation utilizing accelerated methods.

Identified intangible assets - Identified intangible assets consist of indefinite lived trademarks and definite lived trademarks, patents and customer lists. Indefinite lived intangible assets are not amortized.

If events or circumstances change, a determination is made by management, in accordance with the accounting standard for "Property, Plant and Equipment" to ascertain whether property, equipment and certain finite-lived intangibles have been impaired based on the sum of expected future undiscounted cash flows from operating activities. If the estimated net cash flows are less than the carrying amount of such assets, we will recognize an impairment loss in an amount necessary to write down the assets to fair value as determined from expected future discounted cash flows.

In accordance with the accounting standard for “Intangibles – Goodwill and Other”, we test intangible assets with indefinite lives for impairment annually or when conditions indicate impairment may have occurred. We perform such testing of our indefinite-lived intangible assets in the fourth quarter of each year or as events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

Advertising - We expense advertising costs as incurred. Advertising expense was approximately \$9,869,000, \$8,623,000, and \$8,038,000 for 2015, 2014 and 2013, respectively.

Revenue Recognition - Revenue and related cost of goods sold are recognized at the time products are shipped to the customer and title transfers. Revenue is recorded net of estimated sales discounts and returns based upon specific customer agreements and historical trends. Net sales include royalty income from licensing our brands.

Shipping Costs - In accordance with the accounting standard for revenue recognition, all shipping costs billed to customers have been included in net sales. All outbound shipping costs to customers has been included in selling, general and administrative costs and totaled approximately \$8,500,000, \$9,254,000 and \$8,294,000 in 2015, 2014 and 2013, respectively. Our gross profit may not be comparable to other entities whose shipping and handling is a component of cost of sales.

Per Share Information - Basic net income per common share is computed based on the weighted average number of common shares outstanding during the period. Diluted net income per common share is computed similarly but includes the dilutive effect of stock options. A reconciliation of the shares used in the basic and diluted income per share computations is as follows:

	Years Ended December 31,		
	<u>2015</u>	<u>2014</u>	<u>2013</u>
Basic - weighted average shares outstanding	7,563,205	7,544,936	7,517,364
Dilutive restricted share units	9,987	2,845	
Dilutive stock options	<u>980</u>	<u>-</u>	<u>-</u>
Diluted - weighted average shares outstanding	<u>7,574,172</u>	<u>7,547,781</u>	<u>7,517,364</u>
Anti-Dilutive securities - stock options	<u>84,210</u>	<u>43,029</u>	<u>8,630</u>

Comprehensive Income - Comprehensive income includes changes in equity that result from transactions and economic events from non-core operations. Comprehensive income is composed of two subsets – net income and other comprehensive income.

Fair Value Measurements – The fair value accounting standard defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This standard clarifies how to measure fair value as permitted under other accounting pronouncements.

The fair value accounting standard defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. This standard also establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Observable inputs other than quoted market prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The fair values of cash, accounts receivable, other receivables and accounts payable approximated their carrying values because of the short-term nature of these instruments. Accounts receivable consists primarily of amounts due from our customers, net of allowances. Other receivables consist primarily of amounts due from employees (sales persons' advances in excess of commissions earned and employee travel advances); other customer receivables, net of allowances; and expected insurance recoveries. The carrying amounts of our revolving line of credit and other short-term financing obligations also approximate fair value, as they are comparable to the available financing in the marketplace during the year.

Recently Adopted Accounting Pronouncements

In April 2014, the FASB issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of an Entity. The amendments in this update change the requirements for reporting discontinued operations in Subtopic 205-20. A discontinued operation may include a component of an entity or a group of components of an entity, or a business or nonprofit activity. A disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results when any of the following occurs: 1. The component of an entity or group of components of an entity meets the criteria in paragraph 205-20-45-1E to be classified as held for sale. 2. The component of an entity or group of components of an entity is disposed of by sale. 3. The component of an entity or group of components of an entity is disposed of other than by sale (for example, by abandonment or in a distribution to owners in a spinoff). The update is effective for all disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. The adoption of this standard did not have an effect on our consolidated financial statements.

Accounting standards not yet adopted

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The amendments in this update supersede the revenue recognition requirements in Topic 605, Revenue Recognition, including most industry-specific revenue recognition guidance throughout the Industry Topics of the Codification. In addition, the amendments supersede the cost guidance in Subtopic 605-35, Revenue Recognition—Construction-Type and Production-Type Contracts, and create new Subtopic 340-40, Other Assets and Deferred Costs—Contracts with Customers. In summary, the core principle of Topic 606 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB

issued ASU No. 2015-14. The amendments in this update defer the effective date of Update 2014-09. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, Compensation – Stock Compensation (Topic 718). Some share-based payment awards that require a specific performance target to be achieved before the employee can benefit from the award, also require an employee to render service until the performance target is achieved. In some cases, the terms of an award may provide that the performance target could be achieved after an employee completes the requisite service period. That is, the employee would be entitled to benefit from the award regardless of whether the employee is rendering service on the date the performance target is achieved. Some entities account for those performance targets as performance conditions that affect the vesting of the award and, therefore, do not reflect the performance target in the estimate of the grant-date fair value. Others treat them as nonvesting conditions that affect the grant-date fair value of the award. The amendments apply to reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target can be achieved after the requisite service period. The update is effective for public entities for annual reporting periods beginning after December 15, 2015. Early adoption is permitted. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40). Currently, there is no guidance in GAAP about management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern or to provide related footnote disclosures. The amendments in this update provide that guidance. In doing so, the amendments should reduce diversity in the timing and content of footnote disclosures. The amendments require management to assess an entity’s ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the amendments (1) provide a definition of the term *substantial doubt*, (2) require an evaluation every reporting period including interim periods, (3) provide principles for considering the mitigating effect of management’s plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management’s plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). The update is effective for public entities for annual reporting periods beginning after December 15, 2016. Early adoption is permitted. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In January 2015, the FASB issued ASU No. 2015-01, Income Statement – Extraordinary and Unusual Items (Subtopic 225-20). The objective of this update is to simplify the income statement presentation requirements in Subtopic 225-20 by eliminating the concept of extraordinary items. Extraordinary items are events and transactions that are distinguished by their unusual nature and by the infrequency of their occurrence. Eliminating the extraordinary classification simplifies income statement presentation by altogether removing the concept of extraordinary items from consideration. The amendments in this update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. We have not yet determined

the impact this ASU will have on our consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, Interest – Imputation of Interest (Subtopic 835-30). The objective of this update is to simplify presentation of debt issuance costs, the amendments in this update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption of the amendments in this Update is permitted for financial statements that have not been previously issued. An entity should apply the new guidance on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. Upon transition, an entity is required to comply with the applicable disclosures for a change in an accounting principle. These disclosures include the nature of and reason for the change in accounting principle, the transition method, a description of the prior-period information that has been retrospectively adjusted, and the effect of the change on the financial statement line items (that is, debt issuance cost asset and the debt liability). We have not yet determined the impact this ASU will have on our consolidated financial statements.

In July 2015, the FASB issued ASU No. 2015-11, Inventory (Topic 330). The amendments in this Update require an entity to measure inventory within the scope of this Update at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using LIFO or the retail inventory method. The amendments in this Update more closely align the measurement of inventory in GAAP with the measurement of inventory in International Financial Reporting Standards (IFRS). For public business entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The amendments in this Update should be applied prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In November 2015, the FASB issued ASU No. 2015-17, Income Taxes - Balance Sheet Classification of Deferred Taxes (Topic 740). The amendments in this Update will simplify the presentation of deferred income taxes, the amendments in this Update require that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The amendments in this Update apply to all entities that present a classified statement of financial position. The current requirement that deferred tax liabilities and assets of a tax-paying component of an entity be offset and presented as a single amount is not affected by the amendments in this Update. For public business entities, the amendments in this Update are effective for financial statements issued for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Earlier application is permitted for all entities as of the beginning of an interim or annual reporting period. We have not yet determined the impact this ASU will have on our consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The amendments in this Update will require lessees to recognize (with the exception of short-term leases) a lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. Under the new guidance, lessor accounting is largely unchanged. The new lease guidance simplified the accounting for sale and leaseback transactions primarily because lessees must recognize lease assets and lease liabilities. For public business

entities, the amendments in this Update are effective for years beginning after December 15, 2018, including interim periods within those fiscal years. Earlier application is permitted for all entities upon issuance. We have not yet determined the impact this ASU will have on our consolidated financial statements.

2. INVENTORIES

Inventories are comprised of the following:

	December 31,	
	2015	2014
Raw materials	\$ 12,494,980	\$ 11,702,762
Work-in-process	1,155,837	577,127
Finished goods	63,340,242	72,957,153
Total	<u>\$ 76,991,059</u>	<u>\$ 85,237,042</u>

3. IDENTIFIED INTANGIBLE ASSETS

A schedule of identified intangible assets is as follows:

<u>December 31, 2015</u>	<u>Gross Amount</u>	<u>Accumulated Amortization</u>	<u>Carrying Amount</u>
Trademarks			
Wholesale	\$ 32,343,578	\$ -	\$ 32,343,578
Retail	2,900,000	-	2,900,000
Patents	2,595,477	2,324,515	270,962
Customer Relationships	2,200,000	1,166,667	1,033,333
Total Intangibles	<u>\$ 40,039,055</u>	<u>\$ 3,491,182</u>	<u>\$ 36,547,873</u>
<u>December 31, 2014</u>	<u>Gross Amount</u>	<u>Accumulated Amortization</u>	<u>Carrying Amount</u>
Trademarks			
Wholesale	\$ 32,343,578	\$ -	\$ 32,343,578
Retail	2,900,000	-	2,900,000
Patents	2,594,301	2,269,569	324,732
Customer Relationships	2,200,000	1,086,666	1,113,334
Total Intangibles	<u>\$ 40,037,879</u>	<u>\$ 3,356,235</u>	<u>\$ 36,681,644</u>

Amortization expense related to finite-lived intangible assets was approximately \$135,000, \$135,000 and \$60,000 in 2015, 2014 and 2013, respectively. Such amortization expense will be approximately \$121,000 per year for 2016 through 2020. The increase in 2015 and 2014 was attributed to the additional amortization related to the additional customer relationship from the acquisition of the Creative Recreation business as noted in Note 15.

The weighted average lives of patents and customer relationships are 6 years.

Intangible assets, including trademarks and patents are reviewed for impairment annually, and more frequently, if necessary. We perform such testing of indefinite-lived intangible assets in the fourth quarter of each year or as events occur or circumstances change that would more likely than not

reduce the fair value of the asset below its carrying amount. Fair value of other indefinite-lived intangible assets is determined using the relief from royalty method.

In assessing whether indefinite-lived intangible assets are impaired, we must make certain estimates and assumptions regarding future cash flows, long-term growth rates of our business, operating margins, weighted average cost of capital and other factors such as; discount rates, royalty rates, cost of capital, and market multiples to determine the fair value of our assets. These estimates and assumptions require management's judgment, and changes to these estimates and assumptions could materially affect the determination of fair value and/or impairment for each of our indefinite-lived intangible assets. Future events could cause us to conclude that indications of intangible asset impairment exist. Impairment may result from, among other things, deterioration in the performance of our business, adverse market conditions, adverse changes in applicable laws and regulations, competition, or the sale or disposition of a reporting segment. Any resulting impairment loss could have a material adverse impact on our financial condition and results of operations.

We evaluate our finite and indefinite lived trademarks under the terms and provisions of the accounting standards for "Intangibles - Goodwill and Other"; and "Property, Plant and Equipment." These pronouncements require that we compare the fair value of an intangible asset with its carrying amount. Our 2015 and 2014 evaluation did not result in the impairment of any of our indefinite lived intangible assets.

4. OTHER ASSETS

Other assets consist of the following:

	December 31,	
	2015	2014
Deferred financing costs, net	\$ 120,403	\$ 151,144
Other	138,409	148,346
Total	<u>\$ 258,812</u>	<u>\$ 299,490</u>

5. FIXED ASSETS

Fixed assets are comprised of the following:

	December 31,	
	2015	2014
Land	\$ 671,035	\$ 671,035
Buildings	19,247,770	19,027,998
Machinery and equipment	40,611,815	39,206,408
Furniture and fixtures	2,722,751	2,491,295
Lasts, dies and patterns	13,811,676	12,131,234
Construction work-in-progress	3,161,533	281,198
Total	80,226,580	73,809,168
Less - accumulated depreciation	<u>(52,390,053)</u>	<u>(47,544,527)</u>
Net Fixed Assets	<u>\$ 27,836,527</u>	<u>\$ 26,264,641</u>

We incurred approximately \$7,053,000, \$6,807,000 and \$6,204,000 in depreciation expense for 2015, 2014 and 2013, respectively.

6. LONG-TERM DEBT

In October 2010, we entered into a financing agreement with PNC Bank (“PNC”) to provide a \$70 million credit facility. In December 2014, we amended and restated the credit facility to increase the facility to \$75 million and extend the term of the facility an additional five years. The credit facility’s base interest rate is the current prime rate less 0.25%, however the credit facility provides us the option to borrow on up to eight fixed loans at LIBOR plus 1.25% in accordance with the 2014 amended and restated credit agreement. The LIBOR rate is determined based on the fixed loan maturities, which vary from 30, 60, 90, or 180 days. As of December 31, 2015 and December 31, 2014, we had approximately \$17.0 million and \$35.0 million, respectively, in fixed LIBOR borrowings under the credit facility.

The total amount available under our amended and restated revolving credit facility is subject to a borrowing base calculation based on various percentages of accounts receivable and inventory. As of December 31, 2015, we had \$23.7 million in borrowings under this facility and total capacity of \$66.3 million.

Our amended and restated credit facility contains a restrictive covenant which requires us to maintain a fixed charge coverage ratio. This restrictive covenant is only in effect upon a triggering event taking place (as defined in the amended and restated credit facility agreement). At December 31, 2015, there was no triggering event and the covenant was not in effect. Our amended and restated credit facility places a restriction on the amount of dividends that may be paid. During 2015, 2014 and 2013, we paid dividends on our common stock totaling \$3,252,254, \$3,017,979 and \$2,254,935, respectively.

Our amended and restated revolving credit facility matures in November 2019. We have no other long-term debt maturities.

7. OPERATING LEASES

We lease certain machinery, trucks, and facilities under operating leases that generally provide for renewal options. We incurred approximately \$1,335,000, \$1,324,000 and \$840,000 in rent expense under operating lease arrangements for 2015, 2014 and 2013, respectively.

Future minimum lease payments under non-cancelable operating leases are approximately as follows for the years ended December 31:

2016	\$	1,205,000
2017		1,129,000
2018		620,000
2019		110,143
2020		-
Total	\$	<u>3,064,143</u>

8. RETIREMENT PLANS

We also sponsor a 401(k) savings plan for substantially all of our employees. We provide a contribution of 3% of applicable salary to the plan for all employees with greater than six months of service. Additionally, we match eligible employee contributions at a rate of 0.25%, per one percent of applicable salary contributed to the plan by the employee. This matching contribution will be made by us up to a maximum of 1% of the employee’s applicable salary for all qualified employees. Our contributions to the 401(k) plan were approximately \$1.0 million in 2015, \$1.0 million in 2014 and \$0.9 million in 2013.

9. INCOME TAXES

The Company accounts for income taxes in accordance with the accounting standard for “Income Taxes”, which requires an asset and liability approach to financial accounting and reporting for income taxes. Accordingly, deferred income taxes have been provided for the temporary differences between the financial reporting and the income tax basis of the Company’s assets and liabilities by applying enacted statutory tax rates applicable to future years to the basis differences.

A breakdown of our income tax expense is as follows:

	Years Ended December 31,		
	2015	2014	2013
Federal:			
Current	\$ 2,656,870	\$ 3,656,356	\$ 2,540,701
Deferred	<u>287,755</u>	<u>848,666</u>	<u>778,213</u>
Total Federal	2,944,625	4,505,022	3,318,914
State & local:			
Current	81,433	203,144	109,254
Deferred	<u>86,863</u>	<u>140,552</u>	<u>(29,619)</u>
Total State & local	168,296	343,696	79,635
Foreign			
Current	13,391	46,911	42,450
Deferred	<u>(41,969)</u>	<u>255</u>	<u>1,769</u>
Total Foreign	(28,578)	47,166	44,219
Total	<u>\$ 3,084,343</u>	<u>\$ 4,895,884</u>	<u>\$ 3,442,768</u>

A reconciliation of recorded Federal income tax expense to the expected expense computed by applying the applicable Federal statutory rate for all periods to income before income taxes follows:

	Years Ended December 31,		
	2015	2014	2013

Intangible assets	(11,185,988)	(11,001,289)
Other assets	(400,651)	(482,549)
Tollgate tax on Lifestyle earnings	<u>(379,271)</u>	<u>(379,271)</u>
Total deferred tax liabilities	<u>(13,621,748)</u>	<u>(13,599,151)</u>
Net deferred tax liability	<u>\$ (11,968,791)</u>	<u>\$ (11,636,141)</u>
Deferred income taxes - current	\$ 1,031,818	\$ 1,291,907
Deferred income taxes - non-current	<u>(13,000,609)</u>	<u>(12,928,048)</u>
	<u>\$ (11,968,791)</u>	<u>\$ (11,636,141)</u>

The valuation allowance is related to certain state and local income tax net operating loss carry forwards.

We have provided Puerto Rico tollgate taxes on approximately \$3,684,000 of accumulated undistributed earnings of Lifestyle prior to the fiscal year ended June 30, 1994, that would be payable if such earnings were repatriated to the United States. In 2001, we received abatement for Puerto Rico tollgate taxes on all earnings subsequent to June 30, 1994, thus no other provision for tollgate tax has been made on earnings after that date. If we repatriate the earnings from Lifestyle, approximately \$379,000 of tollgate tax would be due.

As of December 31, 2015, we had approximately \$18,323,000 of undistributed earnings from non-U.S. subsidiaries that are intended to be permanently reinvested in non-U.S. operations. Because these earnings are considered permanently reinvested, no U.S. tax provision has been accrued related to the repatriation of these earnings. If the Five Star undistributed earnings were distributed to the Company in the form of dividends, the related taxes on such distributions would be approximately \$6,413,000.

We file income tax returns in the U.S. Federal jurisdiction and various state and foreign jurisdictions. We are no longer subject to U.S. Federal tax examinations for years before 2012. In 2014, we were subjected to an IRS examination for our consolidated U.S. Federal return for the year 2011. There were no adjustments to our return as a result of that examination. State jurisdictions

that remain subject to examination range from 2011 to 2015. Foreign jurisdiction (Canada and Puerto Rico) tax returns that remain subject to examination range from 2010 to 2015.

Our policy is to accrue interest and penalties on any uncertain tax position as a component of income tax expense. As of December 31, 2015 no such expenses were recognized during the year. We do not believe there will be any material changes in our uncertain tax positions over the next 12 months.

Accounting for uncertainty in income taxes requires financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an enterprise's financial statements. Under this guidance, income tax positions must meet a more-likely-than-not recognition threshold at the effective date to be recognized upon the adoption of the standard. The Company did not have any unrecognized tax benefits and there was no effect on its financial condition or results of operations as a result of implementing this standard.

10. COMMITMENTS AND CONTINGENCIES

We are, from time to time, a party to litigation which arises in the normal course of business. Although the ultimate resolution of pending proceedings cannot be determined, in the opinion of management, the resolution of such proceedings in the aggregate will not have a material adverse effect on our financial position, results of operations, or liquidity.

11. CAPITAL STOCK AND STOCK BASED COMPENSATION

On May 7, 2014, our shareholders approved the 2014 Omnibus Incentive Plan (the "2014 Plan"). The 2014 Plan includes 500,000 of our common shares that may be granted under various types of awards as described in the 2014 Plan. As of December 31, 2015, we were authorized to issue 394,291 shares under this plan.

Service Based Restricted Stock

In the first quarter of 2015, we issued 28,000 restricted stock units to certain members of our management that will be settled in one share of common stock of the company per unit. These restricted stock units vest in increments of 25% per year over the next four years. We valued the units at a fair value of \$13.42 per unit, which was the closing price of our stock on the last trading date prior to the grant date. In August 2015, we issued 2,000 restricted stock units to a member of our management that will be settled in one share of common stock of the company per unit. These restricted stock units vest on the same basis as the restricted stock units issued in the first quarter of 2015. We valued the units at a fair value of \$18.15 per unit, which was the closing price of our stock on the last trading date prior to the grant date. In the first quarter of 2014, we issued 23,000 shares of restricted stock units to certain members of our management that will be settled in one share of common stock of the company per unit. These restricted stock units vest in increments of 25% per year over the next four years. We valued the units at a fair value of \$14.57 per unit, which was the closing price of our stock on the last trading date prior to the grant date. For the years ended December 31, 2015 and 2014, we recorded expense of \$183,150 and \$83,778, respectively, related to these restricted stock units.

Performance Based Restricted Stock

In the first quarter of 2015, we made available up to 32,000 performance based restricted stock units to certain members of our management. Shares underlying the performance based restricted stock

units will be issued upon achieving certain established EPS goals at the end of fiscal year 2016. In August 2015, we made available up to 2,000 performance based restricted stock units to a member of our management. The shares underlying the performance based restricted stock units will be issued under the same criteria as the shares issued in the first quarter of 2015. For the year ended 2015, we did not record any expense related to the performance units as it is uncertain if we will reach the performance goals. In the first quarter of 2014, we made available up to 23,000 shares of performance based restricted stock units to certain members of our management. Shares underlying the performance based restricted stock units will be issued upon achieving certain established EPS goals at the end of fiscal year 2015. For the years ended 2015 and 2014, we did not record any expense related to these restricted stock units as the performance goals were not achieved.

Stock Options

In the first quarter of 2015, we issued 28,000 stock options to certain members of our management. These stock options vest in increments of 20% per year over the next five years. The options are exercisable at \$13.42 per option, which was the closing price of our stock on the last trading date prior to the grant date. We have determined the fair value of the options to be \$4.70 per option using the Black Scholes calculation. The significant assumptions utilized for the Black Scholes calculations consist of an expected life of 6.5 years, historical volatility of 46.20%, a risk free interest rate of 1.92%, a dividend yield of 2.99% and an initial employee forfeiture rate of 3.8%. Our expected life estimate is based on the sum of the vesting terms divided by the number of vesting tranches. In August 2015, we issued 2,000 stock options to a member of our management. These stock options vest in increments of 20% per year over the next five years, except for the first tranche of options that will vest on January 1, 2016. The options are exercisable at \$18.15 per option, which was the closing price of our stock on the last trading date prior to the grant date. We have determined the fair value of the options to be \$5.95 per option using the Black Scholes calculation. The significant assumptions utilized for the Black Scholes calculations consist of an expected life of 6.5 years, historical volatility of 40.32%, a risk free interest rate of 1.98%, a dividend yield of 2.46% and an initial employee forfeiture rate of 3.8%. Our expected life estimate is based on the sum of the vesting terms divided by the number of vesting tranches. In the first quarter of 2014, we issued 23,000 shares of stock options to certain members of our management. These stock options vest in increments of 20% per year over the next five years. The options are exercisable at \$14.57 per option, which was the closing price of our stock on the last trading date prior to the grant date. We have determined the fair value of the options to be \$5.94 per option using the Black Scholes calculation. The significant assumptions utilized for the Black Scholes calculations consist of an expected life of 6.5 years, historical volatility of 52.04%, a risk free interest rate of 2.41%, a dividend yield of 2.75% and an employee forfeiture rate of 3.8%. Our expected life estimate is based on the sum of the vesting terms divided by the number of vesting tranches. For the years ended 2015 and 2014, we recorded expense of \$54,828 and \$27,324, respectively, related to these stock options.

For the above issuances under the plan, we expect to recognize expense in the years 2016 through 2019 as follows:

2016	\$	215,585
2017		206,246
2018		132,463
2019		23,174
Total	\$	<u>577,468</u>

The following summarizes stock option transactions from January 1, 2014 through December 31, 2015:

	<u>Shares</u>	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Actual Term</u>	<u>Aggregate Intrinsic Value</u>
Options outstanding at January 1, 2014	-	\$ -		
Issued	23,000	\$ 14.57		
Exercised	-	\$ -		
Forfeited	-	\$ -		
Options outstanding at December 31, 2014	<u>23,000</u>	<u>\$ 14.57</u>	<u>9.0</u>	<u>\$ -</u>
Options exercisable at:				
January 1, 2014	<u>-</u>	<u>\$ -</u>		<u>\$ -</u>
December 31, 2014	<u>-</u>	<u>\$ -</u>		
Unvested options at December 31, 2014	<u>23,000</u>	<u>\$ 14.57</u>	<u>9.0</u>	<u>\$ -</u>
Options outstanding at January 1, 2015	23,000	\$ 14.57		
Issued	30,000	\$ 13.74		
Exercised	(600)	\$ 14.57		
Forfeited	(800)	\$ 14.57		
Options outstanding at December 31, 2015	<u>51,600</u>	<u>\$ 14.08</u>	<u>8.6</u>	<u>\$ -</u>
Options exercisable at:				
January 1, 2015	<u>-</u>	<u>\$ -</u>		<u>\$ -</u>
December 31, 2015	<u>4,000</u>	<u>\$ 14.57</u>	<u>8.0</u>	<u>\$ -</u>
Unvested options at December 31, 2015	<u>47,600</u>	<u>\$ 14.04</u>	<u>8.6</u>	<u>\$ -</u>

During the years ended December 31, 2015 and 2014, a total of 30,000 and 23,000 were issued with an intrinsic value of zero for all years. During the year ended December 31, 2015, a total of 600 options were exercised with an intrinsic value of zero. During the year ended December 31, 2015, a total of 800 options were forfeited with a fair value of \$4,752. A total of 4,000 options vested during the year ended December 31, 2015 with a fair value of \$23,760. At December 31, 2015 and 2014, a total of 47,600 and 23,000 options were unvested with a fair value of \$248,004 and \$136,620. There were no options issued or exercised during 2013.

During the year ended December 31, 2015, we issued 10,793 shares of common stock to members of our Board of Directors. We recorded compensation expense of \$175,000, which was the fair market value of the shares on the grant dates. The shares are fully vested.

The Company has authorized 250,000 shares of voting preferred stock without par value. No shares are issued or outstanding. Also, the Company has authorized 250,000 shares of non-voting preferred stock without par value. Of these, 125,000 shares have been designated Series A non-voting convertible preferred stock with a stated value of \$.06 per share, of which no shares are issued or outstanding at December 31, 2015 and 2014, respectively.

The plans generally provided for grants with the exercise price equal to fair value on the date of grant, graduated vesting periods of up to 5 years, and lives not exceeding 10 years.

In June 2009, our Board of Directors adopted a Rights Agreement, which provides for one preferred share purchase right to be associated with each share of our outstanding common stock. Shareholders exercising these rights would become entitled to purchase shares of Series B Junior Participating Cumulative Preferred Stock. The rights are exercisable after the time when a person or group of persons without the approval of the Board of Directors acquire beneficial ownership of 20 percent or more of our common stock or announce the initiation of a tender or exchange offer which if successful would cause such person or group to beneficially own 20 percent or more of the common stock. Such exercise would ultimately entitle the holders of the rights to purchase at the exercise price, shares of common stock of the surviving corporation or purchaser, respectively, with an aggregate market value equal to two times the exercise price. The person or groups effecting such 20 percent acquisition or undertaking such tender offer would not be entitled to exercise any rights. The Rights Agreement was renewed in June 2012 and expired in August 2015.

12. SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow information including other cash paid for interest and Federal, state and local income taxes was as follows:

	Years Ended December 31,		
	2015	2014	2013
Interest paid	\$ 724,651	\$ 856,578	\$ 683,475
Federal, state and local income taxes paid - net of refunds	\$ 5,568,581	\$ 972,645	\$ 3,248,181
Capitalized interest	\$ -	\$ -	\$ -
Fixed asset purchases in accounts payable	\$ 92,903	\$ 85,488	\$ 459,941

13. SEGMENT INFORMATION

Operating Segments - We operate our business through three business segments: wholesale, retail and military.

Wholesale. In our wholesale segment, our products are offered in over ten thousand retail locations representing a wide range of distribution channels in the U.S. and Canada. These distribution channels vary by product line and target market and include sporting goods stores, outdoor retailers, independent shoe retailers, hardware stores, catalogs, mass merchants, uniform stores, farm store chains, specialty safety stores and other specialty retailers.

Retail. In our retail segment, we primarily sell our products directly to consumers through our consumer and business direct websites and our Rocky outlet store. We also operate four mobile trucks to service the New York Transit Authority's employees. Through our outlet store, we generally sell first quality or discontinued products in addition to a limited amount of factory damaged goods, which typically carry lower gross margins.

Military. While we are focused on continuing to build our wholesale and retail business, we also actively bid, from time to time, on footwear contracts with the U.S. military. Our sales under such contracts are dependent on us winning the bids for these contracts.

We have received an order to fulfill a contract to the U.S. Military to produce “Hot Weather” combat boots. We began shipping boots in the first quarter of 2013. The contract included a minimum purchase amount of \$3.0 million and a maximum of \$15.0 million for the first year and included an option for four additional years with the same terms. During 2014 and 2015, we shipped boots under this agreement.

The following is a summary of segment results for the Wholesale, Retail, and Military segments. Certain amounts from prior year have been reclassified to conform to current year presentation.

	Years Ended December 31,		
	2015	2014	2013
NET SALES:			
Wholesale	\$ 206,072,657	\$ 233,898,250	\$ 192,901,438
Retail	45,808,705	44,347,775	43,092,829
Military	17,420,661	7,996,144	8,876,464
Total Net Sales	<u>\$ 269,302,023</u>	<u>\$ 286,242,169</u>	<u>\$ 244,870,731</u>
GROSS MARGIN:			
Wholesale	\$ 65,979,792	\$ 75,840,977	\$ 62,420,052
Retail	20,621,884	19,449,609	19,856,441
Military	2,290,163	1,070,139	1,265,958
Total Gross Margin	<u>\$ 88,891,839</u>	<u>\$ 96,360,725</u>	<u>\$ 83,542,451</u>

Segment asset information is not prepared or used to assess segment performance.

Product Group Information - The following is supplemental information on net sales by product group:

	2015	% of Sales	2014	% of Sales	2013	% of Sales
Work footwear	\$ 120,422,188	44.7%	\$ 131,510,217	45.9%	\$ 123,131,787	50.3%
Western footwear	43,435,734	16.1%	45,475,880	15.9%	36,998,504	15.1%
Duty and commercial						
military footwear	33,341,424	12.4%	38,174,738	13.3%	33,517,114	13.7%
Lifestyle footwear	23,370,822	8.7%	25,823,220	9.0%	10,599,879	4.3%
Outdoor footwear	20,688,005	7.7%	24,606,151	8.6%	20,194,524	8.2%
Military footwear	17,420,661	6.5%	7,996,144	2.8%	8,876,464	3.6%
Apparel	5,662,277	2.1%	7,471,005	2.6%	6,676,075	2.7%
Other	4,155,137	1.5%	4,100,128	1.4%	4,454,968	1.8%
Royalty income	805,775	0.3%	1,084,686	0.4%	421,416	0.2%
	<u>\$ 269,302,023</u>	<u>100%</u>	<u>\$ 286,242,169</u>	<u>100%</u>	<u>\$ 244,870,731</u>	<u>100%</u>

Net sales to foreign countries, primarily Canada, represented approximately 4.8% of net sales in 2015, 6.3% of net sales in 2014 and 2.9% of net sales in 2013.

14. QUARTERLY RESULTS OF OPERATIONS (UNAUDITED)

The following is a summary of the unaudited quarterly results of operations for the years ended December 31, 2015 and 2014:

	<u>1st Quarter</u>	<u>2nd Quarter</u>	<u>3rd Quarter</u>	<u>4th Quarter</u>	<u>Total Year</u>
2015					
Net sales	\$ 65,451,303	\$ 68,583,196	\$ 70,001,496	\$ 65,266,028	\$ 269,302,023
Gross margin	21,971,310	22,648,633	22,117,477	22,154,419	88,891,839
Net income	1,413,947	2,002,673	1,803,667	1,382,870	6,603,157

Net income per common share:					
Basic	\$ 0.19	\$ 0.26	\$ 0.24	\$ 0.18	\$ 0.87
Diluted	\$ 0.19	\$ 0.26	\$ 0.24	\$ 0.18	\$ 0.87
	<u>1st Quarter</u>	<u>2nd Quarter</u>	<u>3rd Quarter</u>	<u>4th Quarter</u>	<u>Total Year</u>
2014					
Net sales	\$ 65,783,284	\$ 68,822,520	\$ 72,729,678	\$ 78,906,687	\$ 286,242,169
Gross margin	21,853,149	22,585,662	24,273,792	27,648,122	96,360,725
Net income	723,788	1,511,461	3,138,507	4,471,542	9,845,298
Dividends paid	753,981	754,321	754,665	755,012	3,017,979
Net income per common share:					
Basic	\$ 0.10	\$ 0.20	\$ 0.42	\$ 0.59	\$ 1.30
Diluted	\$ 0.10	\$ 0.20	\$ 0.42	\$ 0.59	\$ 1.30

15. ACQUISITION OF CREATIVE RECREATION

On December 13, 2013, we completed the acquisition of certain assets of Kommonwealth, Inc. including the Creative Recreation trademark, a lifestyle footwear brand best known for its popular crossover between athletic sneakers and dress shoes. The total purchase price was \$8,722,843 including cash and assumption of certain liabilities. The acquisition was funded by our existing cash balances and funds available under our existing revolving credit facility. We did not have any sales in 2013 related to this acquisition and had net pre-tax operational expenses of \$172,418 that was included as a component of income from operations. In addition, we incurred \$1,172,047 of acquisition related expenses. The acquisition related expenses were included as a component of income from operations for the year ended December 31, 2013 and consisted of the following:

Investment banker fees	\$	503,072
Professional fees		187,585
Valuation services		37,561
Stock compensation expense		290,800
Freight and warehousing expenses		86,726
Travel Expenses		66,303
Total acquisition related expenses	\$	<u>1,172,047</u>

The acquisition was accounted for under the purchase method of accounting in accordance with ASC 805, Business Combinations, with the excess of the fair market value of the assets acquired and liabilities assumed in excess of the purchase price recorded as a gain on purchase. Based on the purchase price allocation, the purchase price resulted in a gain on purchase. The purchase price allocation is based upon certain estimates made by management with the assistance of an independent, third-party valuation company.

During 2015 and 2014, we had \$13.6 million and \$16.1 million, respectively, in net sales for the Creative Recreation business.

Purchase Price Allocation

We negotiated the respective purchase prices of the assets based on the expected cash flows to be derived from the assets after integration into our existing sourcing and distribution networks. The acquisition purchase price was allocated based on the fair values of the assets acquired and liabilities assumed, which are based on management estimates and the assistance of third-party appraisals. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed.

Purchase Price	\$ 2,229,000
----------------	--------------

Preliminary Allocation of Purchase Price

Accounts receivable	(1,081,764)
Inventories	(1,162,360)
Prepaid expenses and deposits	(82,339)
Property and equipment	(698,355)
Trademarks	(5,100,000)
Customer relationships	(1,200,000)
Total assets acquired	<u>(9,324,818)</u>
Accounts payable	<u>6,493,843</u>
Net gain on purchase	<u>\$ (601,975)</u>

Intangible assets related to the acquisitions represent the fair value of trademarks and customer relationships. See Note 3 intangible assets.
